A course designed to improve athletic performance potential by improving initiation and follow-through of movement; improving coordination, timing, and ease of action; and reducing the risk of injury through better technique. Students will learn how to apply the basic principles of Rudolf Laban and Irmgard Bartenieff to the specialized movement skills of various sports. Students will also learn to develop individualized warm-ups and drills to improve performance. Prerequisite: Participation in team sports, dance, martial arts, other skilled sport movement, or consent of instructor. ACT.

DANC 150. Dance Improvisation. 2 Hours.
Developing skills in perception and the rapid translation of ideas into dance. Central to the course will be exposure to a variety of stimuli from music and the visual arts, to nature and people on the streets. Prerequisite: DANC 104 or consent of instructor. ACT.

DANC 177. First Year Seminar: . 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen addressing current issues in Dance. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

DANC 201. Ballet III. 1.5 Hour.
Classical and modern approaches to the language of ballet for intermediate dancers. May be repeated for variable credit. Prerequisite: DANC 102 or consent of instructor. LAB.
DANC 203. Modern III. 1-2 Hours.
Dance technique for intermediate dancers with precedents in the movement vocabularies of Isadora Duncan, Martha Graham, Doris Humphrey, Merce Cunningham, and the seminal choreographers of modern dance. May be repeated for variable credit. Prerequisite: DANC 104 or consent of instructor. LAB.

DANC 205. Jazz III. 1-2 Hours.
Dance technique for intermediate dancers based on elements of Latino, African, popular and classical jazz dance forms. May be repeated for variable credit. Prerequisite: DANC 105 or consent of instructor. LAB.

DANC 210. Rhythms and Structures of Music. 1 Hour.
An introduction to the analysis and use of rhythms and the compositional forms of music for dance. LEC.

DANC 220. Dance Performance. 1 Hour.
A dance repertory and performance class with emphasis on developing skills for performing ballet, modern, jazz, historic, and/or forms of theatrical dance. May be repeated for credit. Prerequisite: 200- or 300-level dance technique course. ACT.

DANC 230. Introduction to African Dance Theatre. 2 Hours. NW.
An introduction to the general techniques of non-verbal theatrical conventions in African cultures. Practical training in movement vocabulary will be supplemented by lectures on the "text" of performance. (Same as AAAS 334 and THR 226.) LEC.

DANC 240. Introduction to Classical East Indian Dance. 3 Hours.
Classical East Indian dance has an extensive movement vocabulary that emphasizes the coordination of rhythmic foot patterns with intricate hand gestures. Students will learn the mudras (hand gestures) and their significance and integration within each dance. Readings will include excerpts from the Natya Sastra and other treatises of East Indian dance and culture. LEC.

DANC 250. Choreography: Structured Solos. 2 Hours.
Movement studies for solo figure based on exploration of the fundamental ingredients of dance (space, time, weight, and energy flow) and how to organize them into short compositional forms such as ABA, verse/refrain, or narrative. Prerequisite: DANC 150 and DANC 203 or consent of instructor. LEC.

DANC 260. Musical Theatre Dance. 2 Hours.
This course focuses on the dance and movement vocabulary uniquely associated with musical theatre productions, as well as a variety of popular dance styles from the 1920s to the present. Performance techniques for the stage are emphasized. ACT.

DANC 301. Ballet IV. 1-3 Hours.
Classical and modern approaches to the language of ballet for advanced dancers. May be repeated for variable credit. Prerequisite: DANC 202 or consent of instructor. LAB.

DANC 303. Modern IV. 1-3 Hours.
Dance technique for advanced dancers with precedents in the movement vocabularies of Isadora Duncan, Martha Graham, Doris Humphrey, Merce Cunningham, and the seminal choreographers of modern dance. May be repeated for variable credit. Prerequisite: DANC 203 or consent of instructor. LAB.

DANC 305. Jazz IV. 3 Hours.
Dance technique for advanced dancers based on elements of Latino, African, popular and classical jazz dance forms. May be repeated for credit. Prerequisite: DANC 205 or consent of instructor. LAB.

DANC 307. Pointe and Pas De Deux. 2 Hours.
An introduction to pointe and classical partnering work for the intermediate/advanced female ballet dancer, with equal emphasis on pointe technique and style, and on classical repertory for couples. May be repeated for credit. Prerequisite: DANC 201 or consent of instructor. LAB.

DANC 308. Pas de Deux. 1 Hour.
The exploration of classical ballet partnering (pas de deux) including supported poses, lifts, turns, and their coordination between the partners. For men only. Women enroll in Pointe and Pas de Deux, DANC 307. May be repeated for credit. Prerequisite: DANC 108, DANC 201, or permission of instructor. LAB.

DANC 309. Men’s Ballet. 2 Hours.
A continuation of the study of male classical ballet technique including leaps, turns, batterie, and their presentation. May be repeated for credit. Prerequisite: DANC 109, DANC 201, or permission of instructor. LAB.

DANC 310. Music for Dance. 3 Hours.
An examination of music as accompaniment for dance in both classroom and performance settings. Students will listen and analyze music from various historic periods to develop the skills necessary to select music appropriate for choreography. They will learn techniques for working with accompanists and composers. Prerequisite: DANC 210 or consent of instructor. LEC.

DANC 320. University Dance Company. 0-1 Hours.
A dance repertory, performance and production class. Emphasis is on the development of skills for performing and/or producing dance concerts. Admission by audition only. May be repeated for credit. IND.

DANC 325. Movement Efficiency for Athletes. 3 Hours.
A course designed to improve athletic performance potential by improving initiation and follow-through of movement; improving coordination, timing, and ease of action; and reducing the risk of injury through better technique. Students will learn how to apply the basic principles of Rudolf Laban and Irmgard Bartenieff to the specialized movement skills of various sports. Students also will learn to develop individualized warm-ups and drills to improve performance. Prerequisite: Participation in team sports, dance, martial arts, other skilled sport movement, or consent of instructor. ACT.

DANC 330. Approaches to World Dance. 3 Hours. HL AE42.
This course examines dance forms from throughout the world and how they relate to the times and cultures in which they evolved. Dance forms such as African, East Indian classical, European court dance, ballet, modern, and jazz will be studied through readings, master classes, live performances, videotapes, and films. Prerequisite: 200-level English course. LEC.

DANC 350. Choreography: Group Forms. 3 Hours.
In-depth development of movement themes for duet, trio, and larger groups. At least one concert length work with plans for presentation to an audience will be required. Prerequisite: DANC 250 or consent of instructor. LAB.

DANC 375. Ideokinesis. 3 Hours. H.
Basic concepts of neuromuscular and skeletal education through the use of specific imagery (ideokinesis). Based on the work of Mabel Todd, Lulu Sweigard, and Irmgard Bartenieff, the emphasis is on body connectedness and dynamic alignment. The aim is to realize full movement potential in the most efficient way through intrinsic body awareness. Injury prevention is addressed by introducing principles of conditioning (strength, flexibility, endurance) and factors leading to injury such as muscular imbalances or postural deviations. LEC.

DANC 420. Introduction to Videography and Website Design for Dance. 3 Hours. H.
This is a hands-on course exploring digital video technology for dance. Students are introduced to video and website production as well as the
time management skills necessary to engage the multi-faceted project that is dance video. We will cover video techniques for recording dance; video editing; collaborating with national and international sites and artists; and self-promotion and marketing strategies with video and websites. The final project will be the creation of a video website for each student. No previous video editing experience is required. Prerequisite: Basic computer literacy. LEC.

DANC 430. Dance for Children. 3 Hours.
Methods and materials for teaching creative dance and the fundamentals of dance technique to children. Lessons are prepared and tested in the classroom and then presented to elementary school children. Prerequisite: DANC 203 or consent of instructor. LEC.

DANC 440. Introduction to Classical East Indian Dance. 3 Hours. NW AE42.
Classical East Indian dance has an extensive movement vocabulary that emphasizes the coordination of rhythmic foot patterns with intricate hand gestures. Students will learn the mudras (hand gestures) and their significance and integration within each dance. Readings will include excerpts from the Natya Sastra and other treatises of East Indian dance and culture. LEC.

DANC 450. Environmental Choreography. 3 Hours.
Designing dances for non-traditional performing spaces both indoors and outdoors. Students analyze how different natural and built environments can affect the gesture, space, time, and overall structure of a dance composition as well as the relationship between performers and spectators. Prerequisite: DANC 350 or consent of instructor. LAB.

DANC 460. Dance History: Research and Reconstruction. 3 Hours. HL AE42 / H.
Through research and reconstruction, students will examine major topics in dance history, such as the meaning and function of dance in pre-industrial societies, communal and court dance in Europe from the 14th to the 19th centuries, and the transformation and development of dance as a theatre art in the modern world. Texts by dance historians and treatises by dancing masters will be supplemented by readings from fields, such as anthropology, philosophy, art history, and literature, that indicate the different ways of approaching the history of dance. LEC.

DANC 470. Renaissance and Baroque Dance. 3 Hours.
Students will analyze, interpret, reconstruct, and perform historic dance forms, such as the galliard and minuet, by working with treatises of Renaissance and Baroque dancing masters, scholarly studies, and other documentary materials. The dance forms will be studied in relation to the music, visual arts, and literature of the period. LEC.

DANC 475. Performing Arts Administration Dancers. 3 Hours.
Designed to provide an overview of key areas in performing arts administration, including professional speaking and writing, grant writing and development, publicity and marketing strategies, developing relationships with presenters and funders, and audience education. Through readings, class discussion, guest lectures with professionals from the field, and projects based on real-life scenarios, students will develop tools to further their careers as choreographers and performers. This focused study also provides individuals with the direction and means to employ their training in the field of performing arts administration and management at many different levels. This course prepares dance students for their entry into the professional arts marketplace. LEC.

DANC 480. Movement for Older Adults. 3 Hours.
This course is designed to increase knowledge and understanding of the movement problems experienced by older adults and to develop the student's ability to create movement interventions to address these concerns. Prerequisite: Open to juniors and seniors only. LEC.

DANC 490. Introduction to Flamenco Dance Technique. 3 Hours. AE42/GE3H.
Using the basic compas (rhythmic structures) of Flamenco, we will explore the different components of flamenco dance technique: floreo (spiral fingers), brazeo (arm movements), palmas (rhythmic hand-clapping), maraje (marking, or movement through space), vueltas (turns) and zapateado (footwork). We will cultivate an awareness of flamenco's unique posture, learn the structure of the different rhythmic forms and introduce the possibilities for personal expression and improvisation. LEC.

DANC 498. Directed Study in: _____, 1-3 Hours.
Investigation of a special topic or project in aesthetics, dance history, movement analysis, production, or a creative project. A maximum of six hours may be counted toward graduation. Prerequisite: At least seven hours of credit in dance courses. IND.

DANC 530. Practicum in: _____, 1 Hour.
Supervised experience in teaching beginning level dance technique in the styles of ballet, jazz, or modern dance. Different approaches are analyzed, discussed, and tested in the studio. Prerequisite: Intermediate level of dance technique in the style of the practicum. FLD.

DANC 540. Field Experience in Dance Teaching. 1-3 Hours.
Teaching ballet, modern, or jazz dance technique to children or adults with faculty supervision in an academic or community program. Prerequisite: DANC 530 and consent of instructor. FLD.

DANC 550. Senior Project. 3 Hours. AE61.
In-depth research project in dance theory or history, or choreography project involving the complete development and presentation of a dance idea. Prerequisite: Performance option: DANC 320, DANC 350, DANC 450, THF 220 or THF 224, and permission of the dance division. Research option: DANC 340, DANC 370, DANC 375, DANC 460, and permission of the dance division. IND.

DANC 580. Special Topics in Dance, 1-3 Hours.
A study of current developments in dance with an emphasis on performance or research. May be repeated for credit. Prerequisite: Junior or senior standing and consent of instructor. IND.

DANC 598. Seminar in Dance. 3 Hours.
Special studies in dance. May be repeated for credit. Prerequisite: Junior or senior standing and consent of instructor. LEC.

DANC 735. Analysis, Criticism, and Choreography. 3 Hours.
The choreographic approaches of outstanding dance masters of the past (for example, Marius Petipa and Isadora Duncan) and present (for example, Martha Graham and Merce Cunningham) will be analyzed in terms of their handling of gesture, time, space, structure, and meaning. Students will be expected to seek out and study readings, photographs, and films in order to do written and performance projects based on the choreographic principles of old and new masters in ballet and modern dance. Prerequisite: A course in dance choreography or consent of instructor. LEC.

DANC 740. Introduction to Laban Movement. 3 Hours.
This course will introduce both the theoretical and physical applications of Laban Movement Analysis: Effort/Shape Notation (a notation system recording changes in movement qualities with respect to time, weight, space, and energy flow); Space harmony (a system that describes human movement in relation to space); Bartenieff Movement Fundamentals (a series of basic exercises to integrate and facilitate the neuromuscular connections within the body); and Laban Movement Analysis to the fields of anthropology, dance, human development, industrial efficiency, the performing arts, physical education, physical therapy, and psychology will be introduced. LAB.
DANC 742. Laban Movement Observation, Analysis, and Notation. 3 Hours.
Two systems of symbolic movement notation will be used in this course: Rudolf Laban’s Effort/Shape Writing and his system of Labanotation. Several applications of Laban’s notational systems will be studied as they appear in cross-cultural, developmental, psychological, and sociological research. Emphasis will be placed on refining the student’s ability to perceive, describe, and notate human movement of all kinds from everyday gestures to highly trained movement skills. Prerequisite: DANC 740 or consent of instructor. LAB.

DANC 780. Movement for Older Adults. 3 Hours.
This course is designed to increase knowledge and understanding of the movement problems experienced by older adults and to develop the student’s ability to create movement interventions to address these concerns. Prerequisite: Open to graduate students in any field of study. LEC.

DANC 898. Directed Study in: ______. 1-3 Hours.
Directed study in some aspect of aesthetics, dance history, movement analysis, production, or an advanced creative project. Prerequisite: Consent of instructor. IND.

Bachelor of Fine Arts in Dance

Dance Undergraduate Programs

The Department of Dance offers the Bachelor of Arts in Dance and the Bachelor of Fine Arts in Dance degrees. A minor in dance is available to students in all majors.

Bachelor of Fine Arts in Dance Degree

Majors must complete 33 hours of courses in the following areas.
- Dance Technique (33)

Dance Performance (15)
- Majors must complete courses as specified in each of the following areas:
  - DANC 250: Musical Theatre Dance 2
  - DANC 350: University Dance Company 4
  - DANC 440: Introduction to Classical East Indian Dance 3
  - DANC 490: Introduction to Flamenco Dance Technique 3
  - DANC 550: Senior Project 3

Dance Studies (23)
- Majors must complete courses as specified in each of the following areas:
  - DANC 210: Rhythms and Structures of Music 1
  - DANC 230: Introduction to African Dance Theatre 3
  - DANC 330: Approaches to World Dance 3
  - DANC 375: Ideokinesis 3
  - DANC 420: Introduction to Videography and Website Design for Dance 3
  - DANC 430: Dance for Children 3
  - DANC 460: Dance History: Research and Reconstruction 3
  - DANC 475: Performing Arts Administration Dancers 3
  - DANC 530: Practicum in: ______ 1

Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 81 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.
Major Junior/Senior Hours
Satisfied by a minimum of 47 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Graduation Plan
With careful planning and commitment to a full-time course load, you can graduate in 4 years. For details please consult the department.

Bachelor of Arts in Dance
Dance Undergraduate Programs
The Department of Dance offers the Bachelor of Arts in Dance and the Bachelor of Fine Arts in Dance degrees. A minor in dance is available to students in all majors.

Bachelor of Arts in Dance Degree Requirements
The B.A. in Dance at the University of Kansas does not require an audition. Instead, all students must pass a technical and academic evaluation at the end of their sophomore year. However, to be considered for a scholarship, a prospective or transfer student must audition. The B.A. in dance offers comprehensive technical training, built on a solid liberal arts foundation, which allows students to double-major or to pursue graduate study in any number of fields.

The curriculum leading to the B.A. in dance offers integrated training in ballet, modern, and jazz dance techniques, as well as courses in dance improvisation and composition, history and philosophy of dance, Laban Movement Analysis, dance science, music for dance, creative dance for children, dance production, and independent study options. An audition is required for admission to the B.A. program in dance. The program prepares students for professional careers in dance or for further academic study. The senior project may involve research in any of the above areas or choreography and performance culminating in a senior recital. Students are expected to take technique classes appropriate to their level of training each semester they are enrolled. A total of 120 credit hours is required.

Bachelor of Arts in Dance Course Requirements

General Education Requirements (0)
Completion of the KU Core (See KU Core)
Completion of the College BA degree specific requirements (see College BA requirements)

Dance Technique (16)

Students may choose 16 hours from among the following, but must take at least the following: One semester of level III in jazz. Two semesters of level III in ballet and two semesters of level III in modern. Courses may be taken twice for full credit and may be taken for variable credit thereafter

Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 51 hours of major courses.
Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Graduation Plan
With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please contact the department for details.

Minor in Dance

Dance Undergraduate Programs
The Department of Dance offers the Bachelor of Arts in Dance and the Bachelor of Fine Arts in Dance degrees. A minor in dance is available to students in all majors.

Requirements for the Minor in Dance
Open to all KU students

Dance Minor Course Requirements
Students selecting this minor must complete the following requirements:

Dance Technique (8)
Satisfied by 8 hours from the following: 8
DANC 102 Ballet II
DANC 104 Modern II
DANC 106 Jazz II
DANC 201 Ballet III
DANC 203 Modern III
DANC 205 Jazz III
DANC 260 Musical Theatre Dance
DANC 301 Ballet IV
DANC 303 Modern IV
DANC 305 Jazz IV

Dance Minor Required Electives (12)
Satisfied by 12 hours from the following: 12
DANC 150 Dance Improvisation
DANC 210 Rhythms and Structures of Music
DANC 230 Introduction to African Dance Theatre
DANC 250 Choreography: Structured Solos
DANC 330 Approaches to World Dance
DANC 375 Ideokinesis
DANC 420 Introduction to Videography and Website Design for Dance
DANC 430 Dance for Children
DANC 440 Introduction to Classical East Indian Dance
DANC 460 Dance History: Research and Reconstruction
DANC 475 Performing Arts Administration
DANC 490 Introduction to Flamenco Dance Technique

Minor Hours & Minor GPA
While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

Minor Hours
Satisfied by 20 hours of minor courses.

Minor Hours in Residence
Satisfied by a minimum of 9 junior/senior hours of KU resident credit in the minor.

Minor Junior/Senior Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Department of East Asian Languages and Cultures

Why study East Asian languages and cultures?
Because in-depth knowledge of East Asia is critical in the new global culture and marketplace.

Eastern Civilizations Courses
The Eastern Civilizations courses promote a broad understanding of the civilizations of China, Japan, and to a limited extent, Korea.

ECIV 104, ECIV 304, and ECIV 305 (Honors). Eastern Civilizations consist of readings from the major works of East Asian thought, religion, and literature. Those who are considering a major or minor in EALC are encouraged to enroll in ECIV 304 or ECIV 305 (Honors), rather than ECIV 104.

Undergraduate Programs
The department offers a full program of instruction in the languages, literatures, and cultures of China, Japan, and Korea.

The areas of East Asia covered represent three of the oldest continuous civilizations in the world. Japan and mainland China are the world’s largest economies after the United States. South Korea and Taiwan are key U.S. trading partners. The economic and political relationship between the U.S. and East Asia will be among the most important for the U.S. in the 21st century.

With an EALC B.A., students can pursue a range of careers in business, government, education, nonprofit organizations, etc., or continue on to
graduate study in East Asian languages and literatures. Some students choose an EALC B.A. to connect with their heritages or to fulfill personal interests.

**Placement**

If students have already learned Chinese, Japanese, or Korean to some degree, whether at home, in a classroom, or elsewhere, they must take a placement test before enrolling in a language class. For more information, contact the department administrator at 785-864-3100. There is no fee for a placement test. To be eligible for enrollment in intermediate Chinese, Japanese, or Korean, a student must have earned college credit for the first year or have earned 2 years of high school credit in that language or have permission from the department based on the results of the placement test.

**Retroactive Credit**

Students with no prior college or university Chinese, Japanese, or Korean course credit are eligible for retroactive credit according to this formula:

- Students with 2 or 3 years of high school study who enroll in second-semester Chinese, Japanese, or Korean (CHIN 108, JPN 108, KOR 108) and earn grades of C or higher may receive 2 hours of retroactive credit.
- Students with 3 or 4 years of high school study who enroll in third-semester Chinese, Japanese, or Korean (CHIN 204, JPN 204, KOR 204) and earn grades of C or higher may receive 5 hours of retroactive credit.
- Students with 4 years of high school study who enroll in fourth-semester Chinese, Japanese, or Korean (CHIN 208, JPN 208, KOR 208) and earn grades of C or higher may receive 7 hours of retroactive credit.

**Courses for Non-majors**

Courses available to non-language specialists are listed under East Asian Languages and Cultures Courses.

EALC also offers elementary and intermediate language courses in Tibetan (TIB 101, TIB 102, TIB 201, TIB 202) and Uyghur (UYGR 101, UYGR 102, UYGR 201, UYGR 202). Tibetan and Uyghur language studies can be used to fulfill the CLAS second language requirement necessary to complete the B.A. degree.

**Graduate Program**

**M.A. in East Asian Languages & Cultures**

The areas of East Asia covered represent 3 of the oldest continuous civilizations of the world. The great historical contributions of China, Japan, and Korea in literature, philosophy, and art are widely recognized and studied throughout the world. Today, the highly advanced industries of Korea and Taiwan have contributed to the development of extremely valuable socio-political and economic ties between these areas and the United States.

The Department of East Asian Languages and Cultures (EALC) is the only department in Kansas offering a regular program of instruction in the languages, literatures, and cultures of East Asia.

The EALC Thesis M.A. program trains students who will devote themselves to becoming effective links between the Far East and the United States.

Students concentrate in Chinese, Japanese, or East Asian Cultures, usually entering the program with at least two years of college-level language. The program typically takes two years to complete, including the defense of a required Master’s thesis.

**Center for East Asian Studies**

The Center for East Asian Studies (http://www.ceas.ku.edu) is a National Resource Center funded by the U.S. Department of Education. CEAS promotes East Asian language and area studies; coordinates interdisciplinary activities; works with the East Asian Library; advises students in East Asian studies; awards Foreign Language and Area Studies Fellowships in Chinese, Japanese, Korean, Uyghur, and Tibetan; and arranges special events related to East Asia on campus. CEAS also offers outreach to schools, businesses, and the community and serves as a regional resource for information about East Asia.

**Courses**

**CEAS 200. Topics in East Asian Studies: ____. 1-3 Hours. U.**

An introductory interdisciplinary topics course addressing contemporary issues related to one or more East Asian countries. Format and content will vary. Does not count toward the EALC major or minor requirements unless otherwise indicated by EALC in the Schedule of Classes. LEC.

**CEAS 500. Seminar in East Asian Studies: ____. 1-3 Hours. U.**

An interdisciplinary seminar addressing contemporary issues related to one or more East Asian countries. Prerequisites to be determined by instructor(s) on the basis of course content. Does not count toward the EALC major or minor requirements unless otherwise indicated by EALC in the Schedule of Classes. LEC.

**CEAS 700. Contemporary East Asia. 3 Hours.**

This graduate seminar explores rapidly changing societies in contemporary East Asia, particularly China, Japan, and Korea. The course provides a critical overview of East Asia and its diversity and complexity using cross-cultural perspectives and interdisciplinary social science approaches, and situates East Asian societies in the context of globalization. LEC.

**CEAS 802. Research Seminar, 3 Hours.**

Students will work with the instructor and, when appropriate, an additional faculty advisor to design, research and write up a research paper on an East Asian topic of their choosing. Students enrolling in this course are expected to have taken a social science research methods class prior to taking this course and to apply those methods to the research process. A core course for the MA in Contemporary East Asian Studies. Prerequisite: Permission of the instructor. SEM.

**CHIN 100. Elementary Conversational Chinese I. 3 Hours. U.**

Three hours of class per week plus outside use of recorded text materials. Basic spoken language instruction intended primarily for beginners planning travel or work in China and Taiwan. Introduction to basic written characters. Does not fulfill College of Liberal Arts and Sciences foreign language distribution requirements or department major and minor requirements. LEC.

**CHIN 101. Elementary Conversational Chinese II. 3 Hours. U.**

Continuation of CHIN 100. Prerequisite: CHIN 100 or equivalent. LEC.
CHIN 102. Beginning Chinese I. 4 Hours. U.
Taught mainly in the summer, this course covers about 75% of the material in CHIN 104, upon which this course is modeled. LEC.

CHIN 104. Elementary Chinese I. 5 Hours. U.
Three hours of lecture and three hours of spoken drill each week. An introduction to spoken and written modern standard Chinese (Mandarin). Not open to students with native ability in Mandarin or Chinese dialect. Students who have any previous knowledge of Chinese must take a placement exam before enrolling in Chinese classes at K.U. Consult Department of East Asian Languages and Cultures for details. LEC.

CHIN 106. Elementary Chinese for Advanced Beginners. 3 Hours. U.
This course is designed for students who have already acquired some elementary Chinese language abilities (in high school or from family), but cannot be placed in CHIN 108, Elementary Chinese II. The course focuses on perfecting listening, speaking, reading and writing skills, and prepares students for CHIN 108. For admission to the class, students must take the EALC Chinese placement exam, be interviewed by designated instructors, and approved. LEC.

CHIN 108. Elementary Chinese II. 5 Hours. U.
Continuation of CHIN 104. Prerequisite: CHIN 101, CHIN 104, or equivalent. LEC.

CHIN 148. Intensive Elementary Chinese. 10-12 Hours. U.
An accelerated one semester course in elementary Chinese, covering the material of CHIN 104 and CHIN 108. Classes meet for two hours of lecture and one hour of drill daily. Emphasis on spoken language with grammar and readings in selected texts. No prerequisite. LEC.

CHIN 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Chinese. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

CHIN 204. Intermediate Chinese I. 5 Hours. U.
Continuation of CHIN 108. Three hours of lecture and three hours of spoken drill. Prerequisite: CHIN 108 or equivalent. LEC.

CHIN 206. Intermediate Chinese Conversation. 2 Hours. U.
Practice in speaking, presentation of prepared talks, and guided discussions. This course is primarily used to award transfer credit and does not fulfill any portion of the College of Liberal Arts and Sciences foreign language requirement. Prerequisite: CHIN 204 or equivalent. FLD.

CHIN 208. Intermediate Chinese II. 5 Hours. U.
Continuation of CHIN 204. Prerequisite: CHIN 204. LEC.

CHIN 251. Reading and Writing Chinese I. 1-3 Hours. H.
Designed for those who speak modern standard (Mandarin) Chinese but lack reading and writing skills. Focuses on acquiring knowledge of the Chinese writing system and preparing students for possible entry into advanced courses in Chinese, e.g. CHIN 504 (Advanced Modern Chinese I), or, after appropriate testing, for possible exemption from the College of Liberal Arts and Sciences foreign language requirement. Students should take the online Chinese placement exam and consult with the Chinese Language Program Coordinator. Enrollment by permission of the Chinese Language Program Coordinator only. LEC.

CHIN 252. Reading and Writing Chinese II. 1-3 Hours. H.
Continuation of CHIN 251. Prerequisite: CHIN 251 or permission of the instructor. LEC.

CHIN 290. Accelerated Chinese. 3 Hours. U.
Instruction in reading and writing Chinese for students who already possess a degree of oral/aural proficiency. This course will prepare students for enrollment in CHIN 504, Advanced Modern Chinese I. No prerequisites. Consent of instructor required. LEC.

CHIN 342. Introduction to Classical Chinese. 3 Hours. H.
An introduction to Classical Chinese through detailed analysis of short original passages from a variety of early Chinese texts. Students gain a foundation in the grammar and vocabulary of Classical Chinese, preparing them for CHIN 544. The course is offered at the 300 and 500 levels, with additional requirements for students taking the 500 level. Prerequisite: A basic knowledge of Chinese characters (e.g. from CHIN 108 or JPN 108) and consent of the instructor, or CHIN 208 or JPN 208. Not open to students who have completed CHIN 542. LEC.

CHIN 366. Advanced Chinese Conversation. 2 Hours. U.
Guided discussions designed to increase fluency and further improve pronunciation. Prerequisite: CHIN 504 or equivalent. LEC.

CHIN 498. Directed Readings in Chinese. 1-4 Hours. H/W.
Readings in Chinese on a subject selected by a student with the advice and direction of the instructor. Individual meetings and reports. Prerequisite: Consent of instructor. IND.

CHIN 504. Advanced Modern Chinese I. 5 Hours. H/W.
Five hours of class and two of drill. Readings in selected modern Chinese literary texts and discussion in Chinese of recordings of stories and dramas. Prerequisite: CHIN 208 or equivalent. LEC.

CHIN 508. Advanced Modern Chinese II. 5 Hours. H/W.
Continuation of CHIN 504. Prerequisite: CHIN 504 or equivalent. LEC.

CHIN 512. Advanced Chinese I. 2 Hours. H/W.
Readings in modern Chinese texts on a variety of subjects and discussion in Chinese. Prerequisite: CHIN 218 or equivalent. LEC.

CHIN 513. Advanced Chinese II. 2 Hours. H/W.
Continuation of CHIN 512. Prerequisite: CHIN 512 or equivalent. LEC.

CHIN 542. Introduction to Classical Chinese. 3 Hours. H/W.
An introduction to Classical Chinese through detailed analysis of short original passages from a variety of early Chinese texts. Students gain a foundation in the grammar and vocabulary of Classical Chinese, preparing them for CHIN 544. The course is offered at the 300 and 500 levels, with additional requirements for students taking CHIN 542. Prerequisite: A basic knowledge of Chinese characters (e.g. from CHIN 108 or JPN 108) and consent of instructor, or CHIN 208 or JPN 208. Not open to students who have completed CHIN 342. LEC.

CHIN 544. Readings in Classical Chinese: ____. 3 Hours. AE42/ AE61 / H/W.
Classical Chinese is the language of the most famous works of Chinese philosophy and most Chinese literature before the twentieth century. The course introduces readings from a specific philosophical school or literary genre, for example: Confucian Philosophical Texts, Daoist Philosophical Texts, Poetry, Ming/Qing fiction, etc. Prerequisite: CHIN 342 or CHIN 542 or consent of the instructor. May be repeated for credit if content varies. LEC.

CHIN 562. Modern Chinese Texts I. 3 Hours. NW AE61 / H/W.
Readings and interpretation of varied modern Chinese texts. Continued study of the language in the form of oral discussion and written reports. Prerequisite: CHIN 504 or equivalent. LEC.

CHIN 564. Modern Chinese Texts II. 3 Hours. H/W.
A continuation of CHIN 562 with materials of increasing difficulty. Prerequisite: CHIN 562. LEC.

CHIN 580. Introduction to Chinese Research Materials. 1 Hour. U.
An introduction to basic reference works in Chinese and Western languages, including dictionaries, encyclopedias, concordances, and
bibliographies. Library organization and research methods will also be discussed. (Five week course.) Prerequisite: CHIN 208 or equivalent. LEC.

CHIN 598. Readings in: ____. 1-3 Hours. H/W.
Students will read selections from materials on a given topic or topics. May be repeated for credit. Prerequisite: CHIN 564 or permission of instructor. IND.

CHIN 690. Seminar in Chinese Texts. 1-3 Hours. H/W.
Varying topics with varying prerequisites. LEC.

CHIN 801. Directed Readings and Research in Chinese. 1-4 Hours.
Advanced language training for the study of Chinese sources in the humanities or social science field of the student. Prerequisite: Consent of instructor. RSH.

CHIN 880. Advanced Chinese Research Materials. 2 Hours.
A detailed examination of various Chinese language reference works and research materials. Emphasis will be placed on the use of different types of reference works to carry out research strategies. Prerequisite: CHIN 504 or equivalent and CHIN 580. LEC.

EALC 105. Living Religions of the East. 3 Hours. HR/NW AE42/GE3H / H/W.
A basic introduction to religion in India, China, and Japan with emphasis upon religions that affect the modern period. Not open to students who have taken REL 108/EALC 108. (Same as REL 106.) LEC.

EALC 108. Living Religions of the East, Honors. 3 Hours. HR/NW AE42/GE3H / H.
A basic introduction to religion in India, China, and Japan with emphasis upon religions that affect the modern period. Open only to students in the University Honors Program or by permission of instructor. Not open to students who have taken REL 106/EALC 108. (Same as REL 108.) LEC.

EALC 121. Introduction to Contemporary China. 3 Hours. NW AE42 / H.
An overview of contemporary Chinese culture and society since the economic reforms and opening up launched in 1978, through the study of changes in politics, the economy, society, culture and everyday life in China. The course is taught in English. No prior knowledge of Chinese language is required. LEC.

EALC 130. Myth, Legend, and Folk Beliefs in East Asia. 3 Hours. NW AE42 / H/W.
A survey of the commonly held ideas about the beginning of the world, the role of gods and spirits in daily life, and the celebrations and rituals proper to each season of the year. The purpose of the course is to present the traditional world view of the peoples of East Asia. (Same as ANTH 293, REL 130.) LEC.

EALC 131. Myth, Legend, and Folk Beliefs in East Asia, Honors. 3 Hours. NW / H/W.
A survey of the commonly held ideas about the beginning of the world, the role of gods and spirits in daily life, and the celebrations and rituals proper to each season of the year. The purpose of the course is to present the world view of the ordinary peoples of East Asia in contrast to their more sophisticated systems of philosophy that are better known to the Western world. Open only to students in the University Honors Program or by permission of instructor. LEC.

EALC 136. The Japanese Tradition. 3 Hours. NW / H/W.
An examination of the cultural heritage of Japan from earliest times to Meiji Restoration. Emphasis will be placed upon Japan’s literary tradition. Not open to students with credit in EALC 512. LEC.

EALC 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in East Asian Languages and Cultures. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

EALC 198. Studies in: ____. 1-5 Hours. H.
Special purpose subject in East Asia and contiguous regions. LEC.

EALC 231. Introduction to: ____. 1-3 Hours. NW / H/W.
Topics are various aspects of Chinese and Japanese cultures. LEC.

EALC 298. Studies in: ____. 1-5 Hours. H.
Special purpose subject in East Asia and contiguous regions. LEC.

EALC 301. Cultural Traditions of China, Inner Asia, and Tibet. 3 Hours. NW / H.
This course acquaints the student with the broad outlines of the traditional cultures and literatures of China and the contiguous regions of Inner Asia and Tibet. Course materials include translations and discussions of oral tales, epics, poetry, novels, and biography, which explore the interaction between these regions and cultures as well as their continuities and disparities. The course is most appropriate for students with no background in Asian culture. LEC.

EALC 302. Cultural Traditions of Japan and Korea. 3 Hours. NW / H/W.
A wide-ranging examination of the similarities and difference between Japanese and Korean culture through folklore, literature, film, and other texts. Format: Lecture and discussion. Designed for students with no background in Asian culture. LEC.

EALC 310. The Chinese Novel. 3 Hours. H/W.
Reading and analysis of the form and types of Chinese novel, its beginnings and development to the present day. LEC.

EALC 312. Traditional Japanese Literature in Translation. 3 Hours. H/W.
A survey of the major works of Japan’s long literary heritage. Readings from such classics as the Tale of Genji, the world’s first novel, No drama, and poetry will acquaint the student with one of the world’s great literary traditions. (Not open to students with credit in EALC 712.) LEC.

EALC 314. Traditional Chinese Literature in Translation. 3 Hours. H/W.
A general survey of representative literary works of major genres in traditional China. Lectures, assigned readings, and discussions in English. A knowledge of Chinese is not required. (Not open to students with credit in EALC 714.) LEC.

EALC 315. Survey of Japanese Film. 3 Hours. NW AE42 / H.
This course surveys the major developments in and critical approaches to twentieth-century Japanese film. Focusing mostly on narrative films, the course introduces students to basic methodological issues in Japanese film history, especially questions of narrative, genre, stardom, and authorship. We examine Japanese cinema as an institution located within specific contexts focusing on the ways in which this institution shapes gender, race, class, ethnic and national identities. This course examines how patterns of distribution, exhibition, and reception have influenced film aesthetics and film style over the last century. Through secondary readings, lectures, and discussions students critically examine how Japanese cinema as an institution both responds to and intervenes in the social, cultural, and political history of twentieth century Japan. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. (Same as FMS 315.) LEC.
EALC 316. Modern Japanese Literature in Translation: 1868-1945. 3 Hours. AE42 / H/W.
A survey of major literary works of Japan’s modern era through the Pacific War. Topics include the social and spiritual challenges of modernization, urbanization, and the issues of race and national identity. Works by Soseki, Ogai, Akutagawa, Tanizaki, Kawabata, and others will be covered. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. Not open to students who have completed EALC 716. LEC.

EALC 317. Contemporary Japanese Literature in Translation: 1945-Present. 3 Hours. AE42 / H/W.
A survey of major literary works of Japan’s post-war and contemporary eras. Topics include life during and after the war, the experience of the atomic bomb, and the postmodern landscape. Works by Dazai, Mishima, Oe, Abe, Murakami, and others will be covered. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. Not open to students who have completed EALC 717. LEC.

EALC 318. Modern Chinese Fiction and Film. 2-3 Hours. H/W.
A general survey of important Chinese fiction and film of the 20th century. Lectures, readings, and discussions in English. Knowledge of Chinese is not required. Not open to students with credit in EALC 518. This course is taught at the 300 and 500 levels with additional assignments at the 500-level. LEC.

EALC 319. Contemporary Chinese Fiction and Film. 3 Hours. H.
A general survey of important Chinese fiction and film from the late 20th century to the present. Lectures, readings, and discussions in English. A knowledge of Chinese is not required. (Not open to students with credit in EALC 519.) LEC.

EALC 320. Modern East Asia: Multiple Perspectives. 3 Hours. NW / H.
A survey of the major political changes in China, Japan, Korea and Tibet in the 20th century. Students will learn about the changes that swept through East Asia as it rapidly modernized via documentary films and lectures and will study the impact of these changes on individuals by reading autobiographies. LEC.

EALC 330. Chinese Literature and Culture: Premodern Times. 3 Hours. NW / H/W.
An examination of Chinese literature and culture from earliest times to the modern period. Not open to students who have taken EALC 530. This course is taught at the 300 and 500 levels with additional assignments at the 500-level. LEC.

EALC 331. Studies In: ____, 1-3 Hours. H/W.
Topics in the Chinese and Japanese literatures. LEC.

EALC 332. Asian Literature in Translation: ____. 3 Hours. NW / H/W.
Introduction to Asian culture and society through close reading and analysis of important works of Asian literature. Themes and issues to be focused upon will vary (e.g., traditional or modern literature of China, Japan, or Korea, and special topics of interest). Lecture and discussion format. Knowledge of Asian languages is not required. LEC.

EALC 333. Asian Literature in Translation, Honors: ____. 3 Hours. NW / H/W.
Introduction to Asian culture and society through close reading and analysis of important works of Asian literature. Themes and issues to be focused upon will vary (e.g., traditional or modern literature of China, Japan, or Korea, and special topics of interest). Lecture and discussion format. Knowledge of Asian languages is not required. Open only to students in the University Honors Program or by permission of instructor. LEC.

EALC 340. Structure of Chinese. 3 Hours. H.
A detailed study of the phonological and grammatical structure of Chinese and the interactions between language and culture. Depending on student interest, a unit on the pedagogy of teaching Chinese as a foreign language may also be included. Primarily for students who want a linguistic knowledge of the language rather than a practical command of it. Students taking the course at the 500 level will have more work required of them. LEC.

EALC 350. Contemporary Japan. 3 Hours. NW / U.
An exploration of the Japanese way of life, self-concepts, and world view through lecture, discussion, reading, and field trips to businesses, community organizations, and cultural sites. Offered only during the Summer Institute in Hiratsuka, Japan. LEC.

EALC 351. Colonial Korea. 3 Hours. H.
This course examines the history, society, and culture of Korea from the end of Choson dynasty through the Colonial period (1910-1945) in its East Asian and global context. The course uses a multi-disciplinary approach, including history, anthropology, literature, and film. Not open to students with credit in EALC 561. LEC.

EALC 352. Post-Colonial Korea. 3 Hours. H.
This course examines the history, society, and culture of South Korea from the time of its liberation from Japan in 1945 to the present in its East Asian and global context. The course uses a multi-disciplinary approach, including history, anthropology, literature, and film. Prerequisite: EALC 361 or EALC 561, or permission of the instructor. Not open to student with credit in EALC 562. LEC.

EALC 353. Gendered Modernity in East Asia. 3 Hours. H.
This course explores rapidly changing gender relationships and the sense of being “modern” in East Asia by examining marriage and family systems, work, education, consumer culture, and geopolitics. The class seeks to understand how uneven state control over men and women shapes desires, practices, and norms and how men and women act upon such forces. Avoiding biological or social determinism, this course treats gender as an analytical category and examines how modern nation-states and global geopolitics are constituted and operated. (Same as ANTH 363 and WGSS 363.) LEC.

EALC 354. Peoples of Japan and Korea. 3 Hours. NW / S/W.
An analysis of the cultural diversity and unity of the peoples of Japan and Korea. Emphasis on historical and ethnological relationships, social structure, and ethics. (Same as ANTH 364.) LEC.

EALC 355. Japanese People through Films. 3 Hours. NW / S/W.
Japanese people’s culture and society through an extensive examination of both documentary and feature films. Readings from social science fields and literature will be used—-the former to supply a theoretical framework for the study of Japanese people and the latter to further the inquiry into the individual sentiment motivating actions. (Same as ANTH 365.) LEC.

EALC 356. The Life Cycle in Japanese Culture and Literature. 3 Hours. NW / H/W.
A study of the Japanese people from birth to death: what it means to be born in a Japanese family, to grow up Japanese, and to die Japanese. Anthropological works and selections from Japanese literature and film will be used to examine ways in which Japanese people live through the critical periods in their life cycle. (Same as ANTH 366.) LEC.

EALC 357. The Peoples of China. 3 Hours. NW / S/W.
An analysis of the cultural origin, diversity, and unity of the peoples of China. Emphasis on historical development, social structure, cultural continuity and change, and ethics. (Same as ANTH 368.) LEC.
EALC 370. Chinese Folk Belief. 3 Hours. H/W.
A survey of the beliefs of the ordinary Chinese people throughout the centuries with regard to myths, the other world, festivals, and the gods. Prerequisite: A course dealing with China. LEC.

EALC 380. Popular Cultures of East Asia. 3 Hours. NW / H.
This course examines the contemporary popular cultures of Korea, Japan, China, and Taiwan, with particular emphasis on relations between East Asia and North America. Students study the issue of globalization and how the transnational flow of commodities and culture affects local societies and individual identities. They learn to identify, describe, and analyze the cross-cultural content of popular cultural artifacts and modes of expression relating to East Asia. To this end, they explore in detail such subjects as: fashion, foodways, cinema, manga, soap operas, and punk rock. Not open to students who have taken EALC 580. LEC.

EALC 410. The Culture of Play in Japan. 3 Hours. NW / N/W.
This course examines the phenomenon and manifestations of play in Japanese culture. Topics include but are not confined to: the philosophy of play, the semiotics of play, the places of play, the role of laughter, play in Japanese religion, simulation and performance, and play and competition. LEC.

EALC 411. The Culture of Play in Japan, Honors. 3 Hours. NW / N/W.
This course examines the phenomenon and manifestations of play in Japanese culture. Topics include but are not confined to: the philosophy of play, the semiotics of play, the places of play, the role of laughter, play in Japanese religion, simulation and performance, and play and competition. Prerequisite: Membership in the University Honors Program or consent of instructor. LEC.

EALC 412. Visual and Literary Culture in Modern Japan. 3 Hours. H.
This course examines the interconnections between the evolution of modern Japanese literature and vision technologies such as painting, panoramas, magic lanterns, stereoscopes, photography, motion pictures, television, and computers. The course provides an overview of modern Japanese literature from the perspectives of the visual culture in which that literature was conceived. The course considers such authors as Higuchi, Soseki, Ogai, Shimazaki, Akutagawa, Tanizaki, Yokomitsu, Kawabata, and Abe. Not open to students who have completed EALC 612. LEC.

EALC 413. Asian Media Studies. 3 Hours. H.
This course examines new and emerging media in East Asia and how the media industries of East Asia function. Using recent scholarship and industry data on contemporary cyberculture, music studies, and television industries of East Asia we examine how such factors as globalization, post-colonialism, censorship, emerging technology, and national media legislation affect regional and transnational media industries in Japan, South Korea, and Mainland China/Taiwan/Hong Kong. (Same as FMS 413.) LEC.

EALC 415. Ancient China. 3 Hours. NW / H.
A survey of ancient Chinese culture to the Qin period. Major archaeological discoveries and the literary tradition are taken as the primary evidence through which a number of topics are introduced (for example: environment, food, writing, art, thought, ritual). A knowledge of Chinese is not required. The course is offered at the 400 and 600 levels, with additional assignments at the 600 level. Not open to students who have completed EALC 615. LEC.

EALC 418. Sexual Politics in Chinese Literature and Culture: Premodern Times. 3 Hours. NW / H.
This course uses myth, literature, history, biography, and other documents to discuss sexual politics in China from ca 1500 B.C.E. to the end of the last dynasty in 1911. Topics include: emperors, empresses, and consorts, polygamy, prostitution, love, yin and yang cosmology, the art of the bedchamber, women’s literature, and erotic literature. Recommended: A course in East Asian studies. Not open to students who have taken EALC 618. This course is taught at the 400 and 600 levels with additional assignments at the 600-level. LEC.

EALC 420. Daily Life in China From the Opium War to the Present. 3 Hours. NW / H/W.
Daily life and issues of social and cultural interaction between China and Western nations from the Opium War to the present. Fiction, travel diary, historical sources, film, and personal accounts will make up course materials. LEC.

EALC 431. Studies in: _____. 1-3 Hours. H/W.
Topics in the Chinese and Japanese traditions. LEC.

EALC 488. Senior Seminar in East Asian Languages and Cultures. 3 Hours. AE61 / H/W.
Open to seniors majoring in East Asian Languages and Cultures or by consent of instructor. LEC.

EALC 498. Directed Readings in East Asian Languages and Cultures. 1-4 Hours. AE61 / H/W.
Readings in English on an East Asian subject, selected by a student with the advice and direction of the instructor. Individual meetings and reports. Prerequisite: ECIV 104 or ECIV 304 and consent of instructor. IND.

EALC 499. Honors Thesis. 3 Hours. AE61 / H/W.
Required of all students working for a degree with honors. May be repeated for a total of nine semester hours. IND.

EALC 508. Religion in China. 3 Hours. NW AE42/GE3H / H/W.
Survey of religious thought and practice in China from the Shang to the People’s Republic. (Same as REL 508.) LEC.

EALC 509. Religion in Japan. 3 Hours. NW AE42/GE3H / H/W.
Survey of religious thought and practice in Japan from the Jomon period to the present. (Same as REL 509.) LEC.

EALC 510. Education in Japan. 3 Hours. NW / N/W.
An investigation of the relationship between education and Japanese national and cultural identity as expressed in conceptions of childhood: philosophical and political positions underlying curricular and administrative policies, teachers’ training, and pedagogical styles; the interface between education, “work,” and the economy in general; and the theme of “internationalization,” (kokusaika). The course is taught in English. LEC.

EALC 518. Modern Chinese Fiction & Film. 3 Hours. H.
A general survey of important Chinese fiction and film of the 20th century. Lectures, readings, and discussions in English. Knowledge of Chinese is not required. Not open to students with credit in EALC 318. This course is taught at the 300 and 500 levels with additional assignments at the 500-level. Prerequisite: An Introductory East Asian studies course such as ECIV 104 or ECIV 304 or EALC 105; or consent of instructor. LEC.

EALC 519. Contemporary Chinese Fiction and Film. 3 Hours. H.
A general survey of important Chinese fiction and film from the late 20th century to the present. Lectures, readings, and discussions in English. A knowledge of Chinese is not required. This course is taught at the 300 and 500 levels with additional assignments at the 500-level. Prerequisite: An Introductory East Asian studies course such as ECIV 104 or ECIV 304 or EALC 105; or consent of instructor. (Not open to students with credit in EALC 319.) LEC.

EALC 520. Entrepreneurship in East Asia. 3 Hours. NW / H.
An intensive examination of the history and current status of entrepreneurship in China, Japan, and other nations in East Asia. This course investigates the role of entrepreneurs in Asian economic
development from the nineteenth century to the present, as well as the
relation between entrepreneurship and Asian cultural traditions. The
opportunities and challenges of entrepreneurship in East Asia today are
also considered. (Same as HIST 640.) LEC.

EALC 527. Asian Theatre and Performance. 3 Hours. NW / H/W.
A survey of traditional and modern theatre and performance in Asia, with
greatest attention given to India, China, and Japan. A study of plays,
dramatic genres, history, conventions of play production, and acting styles
and other performance forms. (Same as THR 527.) LEC.

EALC 530. Chinese Literature and Culture: Premodern Times. 3
Hours. NW / H/W.
An examination of Chinese literature and culture from earliest times to
the modern period. This course is taught at the 300 and 500 levels with
additional assignments at the 500-level. Prerequisite: An introductory East
Asian studies course, such as ECIV 104 or ECIV 304 or EALC 105; or
consent of the instructor. Not open to students with credit in EALC 330.
LEC.

EALC 536. Cultural Traditions of Japan. 3 Hours. NW / H/W.
An examination of the major intellectual and aesthetic trends in Japanese
history. The course is designed to give teachers and professionals, as
well as students with a general interest in Japan, an overview of its unique
cultural tradition. Not open to students with credit in EALC 136. LEC.

EALC 541. Asian Film. 3 Hours. NW AE42 / H.
Seminar on various national film cultures of East and Southeast Asia.
Representative films are studied from formal, stylistic, and socio-historic
perspectives. Addresses the 12 impact of key cultural, economic, and
political issues on each film industry. Class discussion, reports, and
individual research papers. The course is offered at the 500 and 800
levels, with additional assignments at the 800 level. (Same as FMS 541.)
Prerequisite: Junior status. LEC.

EALC 543. Contemporary Japanese Film. 3 Hours. NW AE42 / H.
Seminar on the major developments in the contemporary (1980-present)
Japanese film industry examining how filmmaking practices and film
criticism have been influenced by such issues as transnationalism,
oppositionalism, critical race theory, postmodernism, and new media. We
survey recent Industrial and stylistic trends as well as key critical debates.
Class discussion, reports, and individual research papers. The course is
offered at the 500 and 700 levels, with additional assignments at the 700
level. (Same as FMS 543.) Prerequisite: Junior status. LEC.

EALC 555. Buddhists and Buddhism in China. 3 Hours. NW AE42 / H.
A reading and media-rich survey of institutional, ritual, literary,
educational, and exegetical practices that have shaped the lives of
Buddhists in China, past and present. Alterities within the Buddhist
tradition, and interactions with other religious options, are considered.
(Same as REL 555.) LEC.

EALC 561. Colonial Korea. 3 Hours. H.
This course examines the history, society, and culture of Korea from the
end of the Choson dynasty through the colonial period (1920-1945) in
its East Asian and global context. The course uses a multi-disciplinary
approach, including history, anthropology, literature, and film. Prerequisite: EALC
361 or EALC 561, or permission of the instructor. There are additional
readings and more extensive writing assignments than in EALC 362. Not
open to students with credit in EALC 362. LEC.

EALC 563. Cultural History of Korea. 3 Hours. H.
This course examines the cultural history of Korea in periods prior to the
19th Century. Special attention is given to varying constructions of cultural
value, heritage, and identity, together with the historically specific factors
that engendered them. (Same as HIST 590.) LEC.

EALC 564. Modern Korean Culture and Society. 3 Hours. H.
This course examines the history, society, values, and political economy
of Korea in its East Asian and global context. The course uses multi-
disciplinary approaches, including those of history, anthropology, literature
and film. Prerequisite: An introductory course in East Asian studies, or
permission of instructor. LEC.

EALC 565. Popular Images in Japanese Culture, Literatures, and
Films. 3 Hours. NW / S/W.
The course examines recurring themes and images in Japanese culture
through films, literary works, and anthropological and other social science
literature. These themes and images are studied in the contexts of both
modern and traditional cultures. Although the popular deviates from the
orthodox, nevertheless, the energy and pervasiveness of these offspring
enforce and sustain "proper" cultural values. As a result of exploration of
both highways and backroads of cultural expression, a holistic picture of
Japanese ethos will emerge. (Same as ANTH 567.) LEC.

EALC 567. Japanese Ghosts and Demons. 3 Hours. NW / S/W.
An investigation of deeply rooted Japanese beliefs about intimate
relationships among humans, animals, and nature - beliefs which help
to explain the mysterious and to lend order to the world. Anthropological
works, selections from Japanese literature, historical documents,
artworks, and films will be used to examine supernatural themes. (Same
as ANTH 567.) LEC.

EALC 570. The Structure of Japanese. 3 Hours. H.
A detailed study of the phonological and grammatical structure of
Japanese and the use of the language in social/cultural contexts. Primarily
for students who want a linguistic knowledge of the language rather than a
practical command of it. (Same as LING 570.) LEC.

EALC 572. The Structure of Chinese. 3 Hours. AE42 / H.
A detailed study of the phonological and grammatical structure of Chinese
and the interactions between language and culture. Depending on
student interests, a unit on the pedagogy of teaching Chinese as a
foreign language may also be included. Primarily for students who want a
linguistic knowledge of the language rather than a practical command of it.
(Same as LING 572.) LEC.

EALC 575. Love, Sexuality and Gender in Japanese Literature. 3
Hours. H.
An examination of Japanese attitudes toward love, sexuality, and gender
differences as revealed in literature from the tenth century to the present.
Discussion format. LEC.

EALC 578. Gender and Society in Modern China. 3 Hours. H.
This course examines gender politics and social institutions in modern
China by examining important literary works and films from the
Republican era (1911-1949), the Maoist era (1949-1976), and the
post-Mao era (1976-present). Secondary readings are also supplied.
All the readings are in English. No knowledge of Chinese is required.
Prerequisite: An introductory East Asian studies course such as ECIV
104, ECIV 304, or EALC 105; or consent of the instructor. LEC.
EALC 580. Popular Cultures of East Asia. 3 Hours. NW / H.
This course examines the contemporary popular cultures of Korea, Japan, China, and Taiwan, with particular emphasis on relations between East Asia and North America. Students study the issue of globalization and how the transnational flow of commodities and culture affects local societies and individual identities. They learn to identify, describe, and analyze the cross-cultural content of popular cultural artifacts and modes of expression relating to East Asia. To this end, they explore in detail such subjects as: fashion, foodways, cinema, manga, soap operas, and punk rock. More extensive writing requirements than 380. Not open to students who have taken EALC 380. LEC.

EALC 583. Imperial China. 3 Hours. NW / H/W.
An intensive survey of China’s traditional civilization and its history, with emphasis on the last centuries of imperial rule under the Sung, Yuan, Ming, and Ch’ing dynasties (to 1850). (Same as HIST 583.) LEC.

EALC 584. Modern China. 3 Hours. NW AE42 / H/W.
An intensive survey of China’s history from the early 19th century to the present. Key topics include the decline of the traditional system, the rise of communism, the Maoist era, and the tensions of change and control in the 1980s and 1990s. (Same as HIST 584.) LEC.

EALC 585. Reform in Contemporary China. 3 Hours. NW AE42 / H/W.
Examines the epochal changes that have occurred in China from Deng Xiaoping’s rise to power in 1978 to the present. Includes a focus on the historical background of the revolutionary period before examining the political and economic changes that spawned the 1989 "pro-democracy" movement at Tiananmen. The course includes an analysis of the events of the 1990s focusing on U.S.-China political and economic relations and the destabilizing effects of inflation, infrastructural reform, political and economic decentralization, and leadership succession. A previous course on China is helpful, but not mandatory. (Same as POLS 668.) LEC.

EALC 587. Early Modern Japan. 3 Hours. NW AE42 / H/W.
Early modern Japan (16th to 19th century) examines the history, culture, and patterns of life during an era of rigid social control but artistic brilliance. After an historical overview of the period, students will explore topics including the social structure, travel, religion, thought, and the formation of traditional cultural forms such as Kabuki theater. (Same as HIST 587.) LEC.

EALC 588. Japan, 1853-1945. 3 Hours. NW / H/W.
This course provides an intensive survey of Japanese history from the arrival of Commodore Perry through the Pacific War. Social, economic, and political themes will be emphasized. Among the topics covered will be the Meiji Restoration, industrialization, Japanese imperialism, Taisho democracy, and wartime mobilization. (Same as HIST 588.) LEC.

EALC 589. Japan Since 1945. 3 Hours. NW / H/W.
This course provides an overview of Japanese history from the end of World War II to the present day. Among the topics covered will be the Allied Occupation, postwar politics and social change, the economic "miracle," popular culture, women and the family, crime and punishment, the educational system, and Japan’s place in the world. (Same as HIST 589.) LEC.

EALC 590. Topics in East Asian Languages and Cultures: _____. 1-9 Hours. H/W.
Specific topical courses will be offered every year covering a number of disciplines. Credit, description, and prerequisites will vary. Note: May be repeated for credit up to the stated limit. LEC.

EALC 591. Topics in East Asian Languages and Cultures: _____. 1-9 Hours. S/W.
Specific topical courses will be offered every year covering a number of disciplines. Credit, description, and prerequisites will vary. Note: May be repeated for credit up to the stated limit. LEC.

EALC 593. Modern Korea. 3 Hours. NW / H/W.
This course will examine selected topics in Modern Korean history in the 19th and 20th centuries, with special emphasis on Korea’s connections to China and Japan. (Same as HIST 593.) Prerequisite: A college-level course in East Asian history or culture, or consent of instructor. LEC.

EALC 594. Law and Society in Traditional China. 3 Hours. H/W.
The course begins with a series of lectures on the main principles underlying Chinese social structure. The course then examines the application of those principles in legal cases. Students read legal cases in translation and argue them in class. (Same as HIST 594.) Prerequisite: A course in Chinese history. LEC.

EALC 596. Defining Japan: Marginalized Groups and the Construction of National Identity. 3 Hours. NW / H/W.
This course investigates the construction of national identity in modern Japan by examining the historical experiences of groups marginalized by mainstream society. We will explore the pressures of conformity, the pervasiveness of social ostracism and the surprising diversity in Japanese society. Among the groups discussed will be indigenous peoples (the Ainu, Okinawans), the Korean minority, the outcast class (burakumin), the sick and disabled, the Yakuza, and political activists. (Same as HIST 596.) LEC.

EALC 597. Japanese Theater History. 3 Hours. NW / H/W.
This course examines the historical development and characteristics of Japanese theater, with special attention to traditional theater and the genres of noh, kyogen, and kabuki in particular, tracing their origins in the pre-modern era and their continued performance today. To gain an understanding of the historical and artistic setting of these arts, lectures and readings will consider broader issues such as performance and ritual in religion and daily life, gender and representation, and folk theater. A portion of this class will include practical studies of theatrical forms including noh dance and kabuki music (shamisen). (Same as HIST 597.) LEC.

EALC 598. History and Structure of the Japanese Language. 3 Hours. H/W.
The historical development of Japanese. Study of Japanese phonology, morphology and syntax, using the techniques of descriptive linguistics and generative grammar. Prerequisite: An introductory course in linguistics or one year of Japanese. LEC.

EALC 600. Biography of a City: _____. 3 Hours. H/W.
This interdisciplinary, team-taught course surveys the artistic, intellectual, and historical development of some of the great cities of the world, such as Kyoto or Tokyo. LEC.

EALC 612. Visual and Literary Culture in Modern Japan. 3 Hours. H.
This course examines the interconnections between the evolution of modern Japanese literature and vision technologies such as painting, panoramas, magic lanterns, stereoscopes, photography, motion pictures, television, and computers. The course provides an overview of modern Japanese literature from the perspectives of the visual culture in which that literature was conceived. The course considers such authors as Higuchi, Soseki, Ogai, Shimazaki, Akutagawa, Tanizaki, Yokomitsu, Kawabata, and Abe. There will be additional assignments for students in 612. Not open to students who have completed EALC 412. LEC.
EALC 615. Ancient China. 3 Hours. NW / H/W.
A survey of ancient Chinese culture to the Qin period. Major archaeological discoveries and the literary tradition will be taken as the primary evidence through which a number of topics are introduced (for example: environment, food, writing, art, thought, ritual). A knowledge of Chinese is not required. The course is offered at the 400 and 600 levels, with additional assignments at the 600 level. Not open to students who have completed EALC 415. LEC.

EALC 618. Sexual Politics in Chinese Literature and Culture: Premodern Times. 3 Hours. NW / H.
This course uses myth, literature, history, biography, and other documents to discuss sexual politics in China from ca 1500 B.C.E. to the end of the last dynasty in 1911. Topics include: emperors, empresses, and consorts, polygamy, prostitution, love, yin and yang cosmology, the art of the bedchamber, women's literature, and erotic literature. Prerequisite: A course in East Asian studies. Not open to students who have taken EALC 418. This course is taught at the 400 and 600 levels with additional assignments at the 600-level. LEC.

EALC 620. Daily Life in China from the Opium War to the Present. 3 Hours. NW / H/W.
Daily life and issues of social and cultural interaction between China and Western nations from the Opium War to the present. Fiction, travel diary, historical sources, film, and personal accounts will make up course materials. LEC.

EALC 636. Women in Japanese Literature. 3 Hours. H/W.
An examination of women as subjects, readers, and writers of Japanese literature. Topics may include images and stereotypes of women in Japanese literature; feminist readings of this literature; female culture; and the psychodynamics of female creativity. LEC.

EALC 642. Chinese Thought. 3 Hours. NW AE42/GE3H / H/W.
A survey of the principal modes of Chinese thought from their origins through the imperial period. Not open to students with credit in EALC 132. (Same as HWC 524 and PHIL 506.) Prerequisite: Eastern civilizations course or a course in Asian history or a distribution course in philosophy. LEC.

EALC 646. Chinese Law. 3 Hours. H/W.
The history and development of civil and criminal law in China from its beginnings until the present. The course will be taught both by lectures and by discussion of cases. A section of the course will concern modern Chinese law. Prerequisite: A course on China, or general background in law or business. LEC.

EALC 649. Doing Business With China: Law and Policy. 3 Hours. NW / H/W.
A study of the issues involved in doing business with China. The current Chinese political and economic context will be examined, followed by a study of the Chinese legal system and Chinese economic law and regulation. Relevant U.S. law will also be considered. Prerequisite: A course on China, or general background in law or business. LEC.

EALC 656. Government and Politics of East Asia. 3 Hours. NW AE42 / S/W.
A comparative examination of the contemporary political institutions, processes and ideas of China, Japan, and Korea. (Same as POLS 656.) Prerequisite: A distribution course in political science or a course in East Asian studies. LEC.

EALC 666. Political Economy of East Asia. 3 Hours. S.
This course provides basic understanding of fiscal, monetarist, and trade policies; how governments in East Asia use them to pursue growth; the extent to which these governments follow or controvert economics to pursue growth; and how the performances of economies in East Asia relate to the US and global economies. (Same as POLS 666.) Prerequisite: POLS 150. LEC.

EALC 676. International Relations of Asia. 3 Hours. S/W.
An intensive study of the problems of ideological conflict, diplomatic relations, strategic arrangements, economic cooperation, and cultural exchange in East and Southeast Asia with special emphasis upon the roles of major world powers. (Same as POLS 676.) Prerequisite: POLS 170 or a course in East Asian studies. LEC.

EALC 678. Chinese Foreign Policy. 3 Hours. S/W.
In-depth examination of China's changing policies toward other countries with special emphasis on policy-making process, negotiating behavior, military strategy, economic relations, and cultural diplomacy. (Same as POLS 678.) LEC.

EALC 700. Introduction to East Asian Studies. 1 Hour.
Required of all M.A. students in the Department regardless of concentration. Introduction to resources in East Asian languages and literature. LEC.

EALC 701. Practicum in Teaching Chinese. 1 Hour.
This course is required every semester for graduate teaching assistants in the Chinese language program in EALC. The course will cover applicable second language acquisition theories and principles of foreign language pedagogy and focus on teaching methodologies, instructional techniques, and development of pedagogical materials specific to the Chinese classroom. This class will be conducted in a seminar format. Prerequisite: Teaching appointment in the East Asian Languages and Cultures department. SEM.

EALC 702. Practicum in Teaching Japanese. 1 Hour.
This course is required every semester for graduate teaching assistants in the Japanese language program in East Asian Languages and Cultures. The course will cover applicable second language acquisition theories and principles of foreign language pedagogy and focus on teaching methodologies, instructional techniques, and development of pedagogical materials specific to the Japanese language classroom. This class will be conducted in a seminar format. Prerequisite: Teaching appointment in the East Asian Languages and Cultures department. SEM.

EALC 703. Practicum in Teaching Korean. 1 Hour.
This course is required every semester for graduate teaching assistants in the Korean language program in East Asian Languages and Cultures. The course will cover applicable second language acquisition theories and principles of foreign language pedagogy and focus on teaching methodologies, instructional techniques, and development of pedagogical materials specific to the Korean language classroom. This class will be conducted in a seminar format. Prerequisite: Teaching appointment in the East Asian Languages and Cultures department. SEM.

EALC 712. Readings in Traditional Japanese Literature. 3 Hours.
A survey of Japanese literature from earliest times to 1868. Students will study the major writers in each genre, with special emphasis on an individual research topic. A knowledge of Japanese is not required. (Not open to students with credit in EALC 312.) LEC.

EALC 714. Readings in Traditional Chinese Literature. 3 Hours.
A general survey of representative literary works of major genres in traditional China. Lectures, assigned readings, and discussions in English. A knowledge of Chinese is not required. (Not open to students with credit in EALC 314.) LEC.

EALC 715. Survey of Japanese Film. 3 Hours.
This course surveys the major developments in patterns of distribution, exhibition, and reception and their influence on film aesthetics in twentieth century Japanese film. Through secondary readings, lectures, and
discussions students will examine how Japanese cinema as an institution responds to and intervenes in the social, cultural, and political history of twentieth century Japan. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. (Same as FMS 715.) LEC.

A survey of major literary works of Japan’s modern era through the Pacific War. Topics include the social and spiritual challenges of modernization, urbanization, and the issues of race and national identity. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. An individual research project in an area of the student’s special interest will be required. Not open to students who have completed EALC 316. LEC.

EALC 717. Contemporary Japanese Literature in Translation: 1945-Present. 3 Hours.
A survey of major literary works of Japan’s post-war and contemporary eras. Topics include life during and after the war, the experience of the atomic bomb, and the postmodern landscape. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. An individual research project in an area of the student’s special interest will be required. Not open to students who have completed EALC 317. LEC.

EALC 718. Readings in Modern Chinese Literature. 2-3 Hours.
A general survey of the important writers of the 20th century and their works. Lectures, readings, and discussions in English. A knowledge of Chinese is not required. (Not open to students with credit in EALC 318.) LEC.

EALC 732. Seminar in Eastern Religious Thought: ______. 3 Hours.
Analysis of the religious thought of selected thinkers of India, China, and/or Japan, traditional and modern. May be taken more than once if subject matter varies sufficiently. (Same as REL 762.) Prerequisite: REL 507, REL 508, REL 509, or permission of the instructor. LEC.

EALC 733. Seminar in Eastern Religious Texts: ______. 3 Hours.
Analysis of a selected religious text or texts from India, China, or Japan, in translation. May be taken more than once if subject matter varies sufficiently. (Same as REL 733.) Prerequisite: REL 507, REL 508, REL 509, or permission of the instructor. LEC.

EALC 743. Contemporary Japanese Film. 3 Hours.
Seminar on the major developments in the contemporary (1980-present) Japanese film industry examining how filmmaking practices and film criticism have been influenced by such issues as transnationalism, postcolonialism, critical race theory, postmodernism, and new media. We will survey recent industrial and stylistic trends as well as key critical debates. Class includes discussion, reports, and individual research papers. This course is offered at the 500 and 700 levels, with additional assignments at the 700 level. (Same as FMS 743.) SEM.

EALC 747. East Asian History and Culture for Teachers. 2 Hours.
An advanced survey of the history, culture, and contemporary affairs of China, Japan and Korea, specifically designed for K-12 educators who wish to incorporate East Asian topics into their classroom teaching. Pedagogical methods and resources for the study of East Asia will be emphasized. Topics covered will address relevant benchmarks in the state curricular standards in social studies, themes from the Advanced Placement world history examination, and the national standards in world history. (Same as HIST 747.) Prerequisite: Approval of the instructor. LEC.

EALC 762. Readings in Japanese Religion. 3 Hours.
A high-level introduction to the traditional religions of Japan, with special emphasis on Japanese Buddhism. Texts to be used will include translations of original documents as well as secondary studies. Those students who have competence in Japanese will be required to do some readings in that language, but a knowledge of the language is not a prerequisite. LEC.

EALC 764. Modern Korean Culture and Society. 3 Hours.
An examination of the history, society, values, and political economy of Korea in its East Asian and global context. The course will use a multidisciplinary approach, including history, ethnography, fiction, and film. LEC.

EALC 766. Japanese People: Their Culture and Literature. 3 Hours.
A study of Japanese people’s life cycle through a combination of theoretical social scientific observations of Japanese as a cultural group and personal literary descriptions of them. An individual research paper is required. (Not open to students with credit in EALC 366.) LEC.

EALC 776. Seminar in Religion and Society in Asia: ______. 3 Hours.
Analysis of selected Asian religions and their relationships to selected Asian societies. May be taken more than once if subject matter varies sufficiently. (Same as REL 776.) Prerequisite: REL 507, REL 508, REL 509, or permission of the instructor. LEC.

EALC 790. Topics in East Asian Languages and Cultures: ______. 1-3 Hours.
Special topical courses covering a number of disciplines. Credit descriptions and prerequisites will vary. NOTE: May be repeated for up to 12 total credits. RSH.

EALC 801. Directed Readings. 1-5 Hours.
Designed to meet the needs of advanced students whose study in East Asian studies cannot be met with regular courses. Prerequisite: Consent of instructor. RSH.

EALC 841. Asian Film. 3 Hours.
Seminar on various national film cultures of East and Southeast Asia. Representative films are studied from formal, stylistic, and socio-historic perspectives. Addresses the impact of key cultural, economic and political issues on each film industry. Class includes discussion, reports, and individual research papers. This course is offered at the 500 and 800 levels, with additional assignments at the 800 level. (Same as FMS 841.) SEM.

EALC 888. Contemporary China Studies. 3 Hours.
This course will review and analyze the current literature on China’s social and political development, including a wide range of topics within political science. There is a rich body of literature within each topic such as civil society in China, legal reform, political culture, nationalism, gender issues, ethnicity, political behavior, elections, economic development, and inequality. This course will introduce key literature within each topic focusing on the debates among China scholars as well as how these debates fit in the general field of political science. (Same as GIST 888 and POLS 888.) Prerequisite: POLS 668 or permission of the instructor. LEC.

EALC 899. Thesis. 1-6 Hours.
An inquiry into the source material upon a specific subject. THE.

ECIV 104. Eastern Civilizations. 3 Hours. HL/NW AE42 / H/W.
This course acquaints the student with the broad outlines of the traditional cultures and literatures of East Asia, and explores the interaction between these regions and cultures as well as their continuities and disparities. Course materials include translations and discussions of original sources. The course is most appropriate for students with no background in Asian culture. Does not complete major requirement. Not open to students with credit in ECIV 304. LEC.

ECIV 105. Eastern Civilizations Honors. 3 Hours. HL/NW AE42 / H/W.
An introductory course designed to acquaint the student with the broad outlines of the traditional cultures and literatures of East Asia. By reading
translations of original source materials, the student is able to see the interaction among the various cultures as well as their essential continuity. The course is most appropriate for students without any background in Asian culture. Offered for students with superior academic records. Open only to students in the University Honors Program or by permission of instructor. LEC.

ECIV 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Eastern Civilization. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

ECIV 304. Eastern Civilizations. 3 Hours. HL/NW AE42 / H/W.
This course acquaints the student with the broad outlines of the traditional cultures and literatures of East Asia, and explores the interaction between these regions and cultures as well as their continuities and disparities. Course materials include translations and discussions of original sources. The course is most appropriate for students with no background in Asian culture. Not open to students with credit in ECIV 104. If majoring in EALC and have completed ECIV 104, see major advisor about completing the ECIV 304 major requirement. LEC.

ECIV 305. Eastern Civilizations Honors. 3 Hours. HL/NW AE42 / H/W.
An introductory course designed to acquaint the student with the broad outlines of the traditional cultures and literatures of East Asia, and by reading translations of original source materials, the student is able to see the interaction among the various cultures as well as their essential continuity. The course is most appropriate for students without any background in Asian culture. Similar to ECIV 304, but reading and writing assignments reflect the fact that this is an honors course. Open only to students in the University Honors Program or by permission of instructor. LEC.

JPN 100. Beginning Japanese I. 3 Hours. U.
An introduction to Japanese. Familiarity with the basic structural patterns of the language through conversation is stressed. The hiragana and katakana syllabaries are introduced and a few characters are learned. Usually offered as part of a Summer Study Abroad Program. LEC.

JPN 101. Beginning Japanese II. 3 Hours. U.
Continuation of JPN 100. Available to students who took JPN 100 as part of the Summer Study Abroad Program. Not available for credit for students who have previously completed JPN 104. Prerequisite: JPN 100 or equivalent. LEC.

JPN 104. Elementary Japanese I. 5 Hours. U.
Three hours of lecture, three hours of drill per week. Acquisition of basic language skills (listening, speaking, reading, writing). Not available for credit for students who have previously completed JPN 101. LEC.

JPN 108. Elementary Japanese II. 5 Hours. U.
Continuation of JPN 104. Prerequisite: JPN 101, JPN 104, or equivalent. LEC.

JPN 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Japanese. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

JPN 204. Intermediate Japanese I. 5 Hours. U.
Three hours of lecture, three hours of drill. Prerequisite: JPN 108 or equivalent. LEC.

JPN 206. Intermediate Japanese Conversation. 2-4 Hours. U.
Enhancement of conversational ability at the intermediate level. Used primarily to accommodate transfer credits. Prerequisite: JPN 204 or equivalent. LEC.

JPN 208. Intermediate Japanese II. 5 Hours. U.
Continuation of JPN 204. Prerequisite: JPN 204. LEC.

JPN 226. Japanese in Context - Intermediate. 3 Hours. U.
Supervised and individualized study and practice of language skills through direct experience in interviews and guided practical applications in various public settings in Japan. Some conventional classroom instruction in grammar included. Offered only during the Summer Institute in Hiratsuka, Japan. Prerequisite: Two semesters or the equivalent of Japanese language study. LEC.

JPN 233. Special Skills in Japanese: ____. 1-4 Hours. U.
Instruction in special skills in Japanese, such as pronunciation, recognition of Chinese characters, comprehension of broadcast media, etc. at the freshman/sophomore level. Course work must be arranged through the office of KU Study Abroad and approved by the Department of East Asian Languages and Cultures. May be repeated for credit if content varies. LEC.

JPN 306. Advanced Japanese Conversation I. 2 Hours. H/W.
Intensive practice of communicative skills at the advanced level. Prerequisite: JPN 208 or equivalent. LEC.

JPN 310. Advanced Japanese Conversation II. 2 Hours. H/W.
Continuation of JPN 306. LEC.

JPN 326. Japanese in Context - Advanced. 3 Hours. U.
Supervised and individualized study and practice of language skills through direct experience in interviews and guided practical applications in various public settings in Japan. Some conventional classroom instruction in grammar and usage. Offered only during the Summer Institute in Hiratsuka, Japan. Prerequisite: Four semesters or the equivalent of Japanese language study. LEC.

JPN 333. Special Skills in Japanese: ____. 1-4 Hours. U.
Instruction in special skills in Japanese, such as pronunciation, recognition of Chinese characters, comprehension of broadcast media, etc. at the junior/senior level. Course work must be arranged through the office of KU Study Abroad and approved by the Department of East Asian Languages and Cultures. May be repeated for credit if content varies. LEC.

JPN 386. Advanced Japanese Conversation III. 1-3 Hours. U.
Instruction in discussion in formal contexts and speech making. Prerequisite: JPN 504 or equivalent. LEC.

Readings in Japanese on a subject selected by a student with the advice and direction of the instructor. Individual meetings and reports. Prerequisite: Consent of instructor. IND.

JPN 504. Advanced Modern Japanese I. 3 Hours. H/W.
Readings in selected Japanese texts on various topics: history, education, language, society, business, and literature. Meets three hours per week. Prerequisite: JPN 208 or equivalent. LEC.

JPN 508. Advanced Modern Japanese II. 3 Hours. H/W.
Continuation of JPN 504. Prerequisite: JPN 504 or equivalent. LEC.

JPN 509. Business Japanese. 3 Hours. U.
Study of Japanese language especially appropriate to business situations. Although the course emphasizes developing conversational ability, the primary focus is on strengthening reading and writing in the specialized area. The course includes discussion of non-verbal aspects of Japanese
business practices as well. Prerequisite: The first semester of third-year
Japanese or the equivalent. LEC.

**JPN 542. Introduction to Classical Japanese I. 3 Hours. H/W.**
Introductory grammar and readings in classical Japanese texts.
Prerequisite: JPN 508. LEC.

**JPN 544. Introduction to Classical Japanese II. 3 Hours. H.**
Continued readings of classical Japanese texts, on the intermediate and advanced
level. Introduction to the elements of kambun (Sino-Japanese) and sorobun (epistolary) styles. Prerequisite: JPN 542 or equivalent. LEC.

**JPN 562. Modern Japanese Texts I. 3 Hours. AE61 / H/W.**
Readings and interpretation of modern Japanese texts from various fields.
Continued study of the language in the form of oral discussion and written reports. Prerequisite: JPN 508. LEC.

**JPN 564. Modern Japanese Texts II. 3 Hours. H/W.**
A continuation of JPN 562. Prerequisite: JPN 562 or equivalent. LEC.

**JPN 569. Advanced Business Japanese. 3 Hours. U.**
This course strengthens reading and writing skills and continues
developing conversational ability. It assumes a higher level of competency
in Japanese than JPN 509 and includes both verbal and non-verbal aspects of Japanese business practices. Prerequisite: Completion of third-year Japanese or equivalent. LEC.

**JPN 598. Readings in: ____. 1-3 Hours. H/W.**
Students will read selections from materials on a given topic or topics.
May be repeated for credit. Prerequisite: JPN 564 or permission of instructor. IND.

**JPN 690. Seminar in: ____. 1-3 Hours. H/W.**
Varying topics with varying prerequisites. LEC.

**JPN 801. Directed Readings and Research in Japanese. 1-4 Hours.**
Advanced language training for the study of Japanese sources in the humanities or social science field of the student. Prerequisite: JPN 564 or consent of instructor. RSH.

**JPN 880. Advanced Japanese Research Materials. 2 Hours.**
A detailed examination of various Japanese language reference works and research materials. Emphasis will be placed on the use of different types of reference works to carry out research strategies. Prerequisite: JPN 508 or equivalent and JPN 580. LEC.

**KOR 104. Elementary Korean I. 5 Hours. U.**
Five hours of class and two hours of drill in the spoken language each week. Grammar and readings in selected texts. LEC.

**KOR 108. Elementary Korean II. 5 Hours. U.**
Continuation of KOR 104. Prerequisite: KOR 104. LEC.

**KOR 177. First Year Seminar: ____. 3 Hours. GE11 / U.**
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Korean. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**TIB 101. Elementary Tibetan I. 3 Hours. U.**
An introduction to the Tibetan language in both its literary and colloquial forms according to the Central Tibetan dialects. Four semesters of 3-credit Tibetan language courses fulfill the College of Liberal Arts and Sciences foreign language requirement. LEC.

**TIB 102. Elementary Tibetan II. 3 Hours. U.**
A continuation of TIB 101. Prerequisite: TIB 101 or equivalent. Four semesters of 3 credit Tibetan language courses fulfill the College of Liberal Arts and Sciences foreign language requirement. LEC.

**TIB 177. First Year Seminar: ____. 3 Hours. GE11 / U.**
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Tibetan. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**TIB 200. Intermediate Tibetan I. 3 Hours. U.**
Continuation of TIB 201. Prerequisite: TIB 201 or equivalent. Four semesters of 3 credit Tibetan language courses fulfill the College of Liberal Arts and Sciences foreign language requirement. LEC.

**TIB 201. Intermediate Tibetan II. 3 Hours. U.**
Continuation of TIB 201. Prerequisite: TIB 201 or equivalent. Four semesters of 3 credit Tibetan language courses fulfill the College of Liberal Arts and Sciences foreign language requirement. LEC.

**UYGR 101. Elementary Uyghur I. 3 Hours. U.**
Uyghur is an important Central Asian Turkic language spoken by nine million people in China. The first semester is designed to give the student basic communicative competency, including pronunciation and
intonation, structure, and syntax. Effective oral and written communication is stressed. LEC.

**UYGR 102. Elementary Uyghur II. 3 Hours. U.**
Continuation of UYGR 101. Prerequisite: UYGR 101 or the equivalent. LEC.

**UYGR 177. First Year Seminar: _____. 3 Hours. GE11 / U.**
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Uyghur. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**UYGR 201. Intermediate Uyghur I. 3 Hours. U.**
Continuation of UYGR 102. Prerequisite: UYGR 102 or equivalent. LEC.

**UYGR 202. Intermediate Uyghur II. 3 Hours. U.**
Continuation of UYGR 201. Prerequisite: UYGR 201 or equivalent. LEC.

**Bachelor of Arts in East Asian Languages and Cultures**

**Why study East Asian languages and cultures?**

Because knowledge of East Asia is critical in the new global culture and marketplace.

**Undergraduate Admission**

**Admission to KU**

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

**Major and Concentrations**

For undergraduates in the department, the B.A. degree in East Asian languages and cultures is available in the following concentrations:

1. Chinese language and literature.
2. Japanese language and literature.
3. East Asian studies with Chinese language.
4. East Asian studies with Japanese language.
5. East Asian studies with Korean language.
6. Double language Concentration: Chinese and/or Japanese and/or Korean.

**First- and Second-Year Preparation**

Students considering a major in EALC should begin language training as soon as possible, starting with CHIN 104/JPN 104/KOR 104-CHIN 108/JPN 108/KOR 108 in the first year and advancing to the intermediate 204-208 level. Students are encouraged to take ECIV 304/ECIV 305 as soon as possible. Talk to the undergraduate advisor in the target language to plan a 4-year course of study. Call 785-864-3100 for information about advisors to contact.

**Requirements for the B.A. Major**

**Chinese Language and Literature Concentration**

**East Asian Languages and Cultures Prerequisite Knowledge (20)**

EALC 330/530 Chinese Literature and Culture: Premodern Times
EALC 370 Chinese Folk Belief
EALC 418/618 Sexual Politics in Chinese Literature and Culture: Premodern Times
EALC 499 Honors Thesis

Pre-modern China. Satisfied by one course, e.g.:
EALC 330/530 Chinese Literature and Culture: Premodern Times
EALC 415/615 Ancient China
EALC 418/618 Sexual Politics in Chinese Literature and Culture: Premodern Times
EALC 508 Religion in China
EALC 555 Buddhists and Buddhism in China
EALC 583 Imperial China
EALC 642 Chinese Thought
EALC 499 Honors Thesis

Modern China. Satisfied by one course, e.g.:
EALC 318 Modern Chinese Fiction and Film
EALC 319 Contemporary Chinese Fiction and Film
EALC 368 The Peoples of China
EALC 420/620 Daily Life in China From the Opium War to the Present
EALC 584 Modern China
EALC 585 Reform in Contemporary China
EALC 649 Doing Business With China: Law and Policy
EALC 678 Chinese Foreign Policy
EALC 499 Honors Thesis

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 31 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 12 hours of KU resident credit in the major.

**Major Junior/Senior Hours**
Satisfied by a minimum of 31 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Japanese Language and Literature Concentration**

**East Asian Languages and Cultures Prerequisite Knowledge (20)**
Elementary Japanese I. Satisfied by:
JPN 104 Elementary Japanese I 5
Elementary Japanese II. Satisfied by:
JPN 108 Elementary Japanese II 5
Language Proficiency. Satisfied by:

**East Asian Languages and Cultures Core Knowledge and Skills (19)**

- Majors choosing this concentration must complete a course or courses in each of the following areas:
- **Eastern Civilizations.** Satisfied by one of the following:
  - ECIV 304 Eastern Civilizations 3
  - or ECIV 305 Eastern Civilizations Honors
- **Advanced Language.** Satisfied by:
  - JPN 306 Advanced Japanese Conversation I 4
  & JPN 310 Advanced Japanese Conversation II
  - JPN 504 Advanced Modern Japanese I 6
  & JPN 508 Advanced Modern Japanese II
  - JPN 562 Modern Japanese Texts I 3
  And one of the following: 3
  - JPN 564 Modern Japanese Texts II
  - JPN 569 Advanced Business Japanese
  - EALC/LING 570 The Structure of Japanese

**East Asian Languages and Cultures Required Elective (0)**

- Majors choosing this concentration must complete a course in each of the following areas (a course cannot be used in more than 1 area):
- **Pre-Modern Japanese Literature in Translation.** Satisfied by one course, e.g.:
  - EALC 412 Traditional Japanese Literature in Translation
  - EALC 575 Love, Sexuality and Gender in Japanese Literature
- **Modern Japanese Literature in Translation.** Satisfied by one course, e.g.:
  - EALC 316 Modern Japanese Literature in Translation: 1868-1945
  - EALC 317 Contemporary Japanese Literature in Translation: 1945-Present
  - EALC 412 Visual and Literary Culture in Modern Japan

**Pre-Modern Japan.** Satisfied by one course on pre-modern Japan, e.g.:
- EALC 312 Traditional Japanese Literature in Translation
- EALC 410 The Culture of Play in Japan
- EALC 411 The Culture of Play in Japan, Honors
- EALC 509 Religion in Japan
- EALC 587 Early Modern Japan
- EALC 499 Honors Thesis

**Modern Japan.** Satisfied by one course on modern Japan, e.g.:
- EALC 316 Modern Japanese Literature in Translation: 1868-1945
- EALC 317 Contemporary Japanese Literature in Translation: 1945-Present
- EALC 543 Contemporary Japanese Film
- EALC 588 Japan, 1853-1945
- EALC 589 Japan Since 1945
- EALC 499 Honors Thesis
Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 31 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 12 hours of KU resident credit in the major.

**Major Junior/Senior Hours**
Satisfied by a minimum of 31 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**East Asian Studies with Chinese Language Concentration**

**East Asian Languages and Cultures Prerequisite Knowledge (20)**

Elementary Chinese I. Satisfied by:
- CHIN 104 Elementary Chinese I 5

Elementary Chinese II. Satisfied by:
- CHIN 108 Elementary Chinese II 5

Language Proficiency. Satisfied by:
- CHIN 204 Intermediate Chinese I & CHIN 208 Intermediate Chinese II 10

**East Asian Languages and Cultures Core Knowledge and Skills (13)**

Majors choosing this concentration must complete a course or courses in each of the following areas:

Eastern Civilizations. Satisfied by one of the following
- ECIV 304 Eastern Civilizations 3
- or ECIV 305 Eastern Civilizations Honors

Advanced Language. Satisfied by:
- CHIN 504 Advanced Modern Chinese I & CHIN 508 Advanced Modern Chinese II 10

**East Asian Languages and Cultures Required Elective (0)**

Majors choosing this concentration must complete a course in each of the following areas (a course cannot be used in more than one area):

Pre-Modern China. Satisfied by one course on pre-modern China, e.g.:
- EALC 314 Traditional Chinese Literature in Translation
- EALC 330 Chinese Literature and Culture: Premodern Times
- EALC 415 Ancient China
- EALC 418 Sexual Politics in Chinese Literature and Culture: Premodern Times
- EALC 583 Imperial China

Modern China. Satisfied by one course on modern China, e.g.:
- EALC 318 Modern Chinese Fiction and Film
- EALC 319 Contemporary Chinese Fiction and Film
- EALC 420 Daily Life in China From the Opium War to the Present
- EALC 584 Modern China

China in the Humanities. Satisfied by one course on China in a humanities discipline, e.g.:
- EALC 301 Cultural Traditions of China, Inner Asia, and Tibet
- EALC 310 The Chinese Novel
- EALC 314 Traditional Chinese Literature in Translation
- EALC 317 Contemporary Japanese Literature in Translation: 1945-Present
- EALC 318 Modern Chinese Fiction and Film
- EALC 330 Chinese Literature and Culture: Premodern Times
- EALC 370 Chinese Folk Belief
- EALC 415 Ancient China
- EALC 418 Sexual Politics in Chinese Literature and Culture: Premodern Times
- EALC 508 Religion in China
- EALC 530 Chinese Literature and Culture: Premodern Times
- EALC 555 Buddhists and Buddhism in China
- EALC 583 Imperial China
- EALC 584 Modern China

China in the Social Sciences. Satisfied by one course on China in a social science discipline, e.g.:
- EALC 368 The Peoples of China
- EALC 572 The Structure of Chinese
- EALC 585 Reform in Contemporary China
- EALC 678 Chinese Foreign Policy

Advanced East Asian Languages and Cultures. Satisfied by one junior/senior-level (300+) EALC course.

East Asian Course. Satisfied by one course based on an East Asian country other than China, e.g.:
- EALC 302 Cultural Traditions of Japan and Korea

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 31 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 12 hours of KU resident credit in the major.

**Major Junior/Senior Hours**
Satisfied by a minimum of 31 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**East Asian Studies with Japanese Language Concentration**

**East Asian Languages and Cultures Prerequisite Knowledge (20)**

Elementary Japanese I. Satisfied by:
- JPN 104 Elementary Japanese I 5

Elementary Japanese II. Satisfied by:
- JPN 108 Elementary Japanese II 5

Language Proficiency. Satisfied by:
- JPN 204 Intermediate Japanese I & JPN 208 Intermediate Japanese II 10

**East Asian Languages and Cultures Core Knowledge and Skills (13)**

Majors choosing this concentration must complete a course or courses in each of the following areas:

Eastern Civilizations. Satisfied by one of the following
- ECIV 304 Eastern Civilizations 3
- or ECIV 305 Eastern Civilizations Honors

Advanced Language. Satisfied by:
- CHIN 504 Advanced Modern Chinese I & CHIN 508 Advanced Modern Chinese II 10

**East Asian Languages and Cultures Required Elective (0)**

Majors choosing this concentration must complete a course in each of the following areas (a course cannot be used in more than one area):

Pre-Modern China. Satisfied by one course on pre-modern China, e.g.:
- EALC 314 Traditional Chinese Literature in Translation
- EALC 330 Chinese Literature and Culture: Premodern Times
- EALC 415 Ancient China
- EALC 418 Sexual Politics in Chinese Literature and Culture: Premodern Times
- EALC 583 Imperial China

Modern China. Satisfied by one course on modern China, e.g.:
- EALC 318 Modern Chinese Fiction and Film
- EALC 319 Contemporary Chinese Fiction and Film
- EALC 420 Daily Life in China From the Opium War to the Present
- EALC 584 Modern China

China in the Humanities. Satisfied by one course on China in a humanities discipline, e.g.:
- EALC 301 Cultural Traditions of China, Inner Asia, and Tibet
- EALC 310 The Chinese Novel
- EALC 314 Traditional Chinese Literature in Translation
- EALC 317 Contemporary Japanese Literature in Translation: 1945-Present
- EALC 318 Modern Chinese Fiction and Film

- EALC 415 Ancient China
- EALC 418 Sexual Politics in Chinese Literature and Culture: Premodern Times
- EALC 508 Religion in China
- EALC 530 Chinese Literature and Culture: Premodern Times
- EALC 555 Buddhists and Buddhism in China
- EALC 583 Imperial China
- EALC 584 Modern China

China in the Social Sciences. Satisfied by one course on China in a social science discipline, e.g.:
- EALC 368 The Peoples of China
- EALC 572 The Structure of Chinese
- EALC 585 Reform in Contemporary China
- EALC 678 Chinese Foreign Policy

Advanced East Asian Languages and Cultures. Satisfied by one junior/senior-level (300+) EALC course.

East Asian Course. Satisfied by one course based on an East Asian country other than China, e.g.:
- EALC 302 Cultural Traditions of Japan and Korea
JPN 108  Elementary Japanese II  5
Language Proficiency. Satisfied by:
JPN 204  Intermediate Japanese I  10
& JPN 208  and Intermediate Japanese II

**East Asian Languages and Cultures Core Knowledge and Skill (13)**

Majors choosing this concentration must complete a course or courses in each of the following areas:

**Eastern Civilizations.** Satisfied by one of the following:
ECIV 304  Eastern Civilizations  3
or ECIV 305  Eastern Civilizations Honors

**Advanced Language.** Satisfied by:
JPN 306  Advanced Japanese Conversation I  4
& JPN 310  and Advanced Japanese Conversation II
JPN 504  Advanced Modern Japanese I  6
& JPN 508  and Advanced Modern Japanese II

**East Asian Languages and Cultures Required Elective (0)**

Majors choosing this concentration must complete a course in each of the following areas (a course cannot be used in more than one area):

**Pre-modern Japan.** Satisfied by one course on pre-modern Japan, e.g.:
EALC 312  Traditional Japanese Literature in Translation
EALC 410  The Culture of Play in Japan
EALC 411  The Culture of Play in Japan, Honors
EALC 587  Early Modern Japan

**Modern Japan.** Satisfied by one course on modern Japan, e.g.:
EALC 316  Modern Japanese Literature in Translation: 1868-1945
EALC 317  Contemporary Japanese Literature in Translation: 1945-Present
EALC 543  Contemporary Japanese Film
EALC 588  Japan, 1853-1945
EALC 589  Japan Since 1945

**Japan in the Humanities.** Satisfied by one course on Japan in a humanities discipline, e.g.:
EALC 312  Traditional Japanese Literature in Translation
EALC 315  Survey of Japanese Film
EALC 316  Modern Japanese Literature in Translation: 1868-1945
EALC 317  Contemporary Japanese Literature in Translation: 1945-Present
EALC 410  The Culture of Play in Japan
EALC 411  The Culture of Play in Japan, Honors
EALC 412  Visual and Literary Culture in Modern Japan
EALC 509  Religion in Japan
EALC 543  Contemporary Japanese Film
EALC 575  Love, Sexuality and Gender in Japanese Literature
EALC 587  Early Modern Japan
EALC 588  Japan, 1853-1945
EALC 589  Japan Since 1945

**Japan in the Social Sciences.** Satisfied by one course on Japan in a social science discipline, e.g.:
EALC 350  Contemporary Japan
EALC 570  The Structure of Japanese

Advanced East Asian Languages and Cultures. Satisfied by one junior/senior-level (300+) EALC course, e.g.:
EALC 301  Cultural Traditions of China, Inner Asia, and Tibet

East Asian Course. Satisfied by one course based on an East Asian country other than Japan.

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 31 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 12 hours of KU resident credit in the major.

**Major Junior/Senior Hours**
Satisfied by a minimum of 31 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator [here](http://clas.ku.edu/undergrad/tools/gpa).

**East Asian Studies with Korean Language Concentration**

**East Asian Languages and Cultures Prerequisite Knowledge (20)**

Elementary Korean I. Satisfied by:
KOR 104  Elementary Korean I  5

Elementary Korean II. Satisfied by:
KOR 108  Elementary Korean II  5

Language Proficiency. Satisfied by:
KOR 204  Intermediate Korean I  10
& KOR 208  and Intermediate Korean II

**East Asian Languages and Cultures Core Knowledge and Skills (11)**

Majors choosing this concentration must complete a course or courses in each of the following areas:

**Eastern Civilizations.** Satisfied by one of the following:
ECIV 304  Eastern Civilizations  3
or ECIV 305  Eastern Civilizations Honors

**Advanced Language.** Satisfied by:
KOR 504  Advanced Modern Korean I  8
& KOR 508  and Advanced Modern Korean II

**East Asian Languages and Cultures Required Elective (0)**

Majors choosing this concentration must complete a course in each of the following areas (a course cannot be used in more than one area):

**Pre-modern Korea.** Satisfied by one course on pre-modern Korea, e.g.:
EALC 563  Cultural History of Korea
EALC 569  Introduction to Korean Painting
EALC 469  Art and Culture of Korea, Honors

Modern Korea. Satisfied by one course on modern Korea, e.g.:
EALC 593  Modern Korea
East Asia in the Humanities. Satisfied by one course on East Asia in a humanities discipline, e.g.:  
- EALC 380 Popular Cultures of East Asia  
- EALC 413 Asian Media Studies  
- EALC 541 Asian Film  

East Asia in the Social Sciences. Satisfied by one course on East Asia in a social science discipline, e.g.:  
- EALC 363 Gendered Modernity in East Asia  
- EALC 520 Entrepreneurship in East Asia  
- COMS 557 East Asian Communication  
- EALC 656 Government and Politics of East Asia  
- EALC 666 Political Economy of East Asia  
- EALC 676 International Relations of Asia  

East Asian Studies. Satisfied by three courses (9 hours) in any East Asian field. One of these three may be KOR 562.  

**Major Hours & Major GPA**  
1 EALC 499 may be used to fulfill either of these requirements.  

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:  

**Major Hours**  
Satisfied by 32 hours of major courses.  

**Major Hours in Residence**  
Satisfied by a minimum of 15 hours of KU resident credit in the major.  

**Major Junior/Senior Hours**  
Satisfied by a minimum of 32 hours from junior/senior courses (300+) in the major.  

**Major Junior/Senior Graduation GPA**  
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).  

**Double Language Concentration**  
Majors choosing this concentration must complete the following requirements for 2 languages from the following: Japanese, Chinese, and/or Korean. Total hours required for this concentration will depend on the languages chosen and will range from 30-32 jr/sr hours.  

**East Asian Languages and Cultures Prerequisite Knowledge (0)**  
Elementary Japanese or Chinese or Korean I. Satisfied by one of the following:  
- JPN 104 Elementary Japanese I  
- CHIN 104 Elementary Chinese I  
- KOR 104 Elementary Korean I  

Elementary Japanese or Chinese or Korean II. Satisfied by one of the following:  
- JPN 108 Elementary Japanese II  
- CHIN 108 Elementary Chinese II  
- KOR 108 Elementary Korean II  

Language Proficiency. Satisfied by one of the following:  
- JPN 204 Intermediate Japanese I  
  & JPN 208 Intermediate Japanese II  
- CHIN 204 Intermediate Chinese I  
  & CHIN 208 Intermediate Chinese II  
- KOR 204 Intermediate Korean I  
  & KOR 208 Intermediate Korean II  

**East Asian Languages and Cultures Core Knowledge and Skills (2)**  
Advanced Language. Satisfied by one of the following:  
- JPN 306 Advanced Japanese Conversation I  
  & JPN 310 Advanced Japanese Conversation II  
- JPN 504 and Advanced Modern Japanese I  
  & JPN 508 and Advanced Modern Japanese II  
- CHIN 504 Advanced Modern Chinese I  
  & CHIN 508 Advanced Modern Chinese II  
- KOR 504 Advanced Modern Korean I  
  & KOR 508 Advanced Modern Korean II  

**Pre-Modern Culture (6)**  
Choose 2 of the following 3, matching language choices (6 credits combined - must be in the same two languages as chosen to fulfill the language sequences):  
- China  
- Japan  
- Korea  

**Modern Culture (6)**  
Choose 2 of the following 3, matching language choices (6 credits combined - must be in the same two languages as chosen to fulfill the language sequences):  
- China  
- Japan  
- Korea  

**Major Hours & Major GPA**  
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:  

**Major Hours**  
Satisfied by 30-32 hours of major courses.  

**Major Hours in Residence**  
Satisfied by a minimum of 15 hours of KU resident credit in the major.  

**Major Junior/Senior Hours**  
Satisfied by a minimum of 30-32 hours from junior/senior courses (300+) in the major.  

**Major Junior/Senior Graduation GPA**  
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).  

**Graduation Plan**  
With careful planning and commitment to a full-time course load, you can graduate in 4 years. Contact the department for details.
Departmental Honors
The department awards honors to undergraduates who demonstrate exceptional academic achievement. Students should make their intentions known in writing before the final undergraduate semester, preferably during the junior year. The candidate must achieve a minimum overall grade-point average of 3.25 and a minimum of 3.5 in the major and complete EALC 499 with a grade of B or higher. In EALC 499, the student writes an honors thesis under the supervision of a faculty member. Two faculty members evaluate the thesis.

Study Abroad
Students are encouraged to undertake a substantial study abroad experience as part of the major. Studying abroad helps students master the language and affords them cultural understanding far beyond what can be conveyed in a classroom.

KU offers several options for academic-year abroad, direct-exchange programs for undergraduates and graduates in China (Nankai, Nanjing, Huazhong Normal universities and the University of Hong Kong), Japan (Fukuoka, J.F. Obirin, Okayama, Sophia universities and Tsuda College) and South Korea (Korea University). The department sponsors a five-week study abroad program in Hiratsuka, Japan, every summer.

The study abroad office also helps students find other summer, semester, or academic-year programs that meet unique student needs. Credit is usually similar to credit earned during an academic year at KU, and costs are about the same. Some scholarship aid is available. Consult the Office of Study Abroad (http://www.studyabroad.ku.edu) for program and scholarship information as well as program offerings in other countries in Asia.

Minor in East Asian Languages and Cultures

Why study East Asian languages and cultures?
Because knowledge of East Asia is critical in the new global culture and marketplace.

Requirements for the Minor
Students selecting this minor must complete one of the following options:

East Asian Languages and Cultures Minor Option I

Advanced Language Requirement for Minor Option I (10)
Must complete the third year of one of the following languages: 10
(students who complete this requirement by taking KOR 504 and KOR 508 will complete a 20 hour minor)
Japanese. Satisfied by:
<table>
<thead>
<tr>

<tbody>
<tr>
<td>KOR 504</td>
<td>Advanced Modern Korean I</td>
</tr>
<tr>
<td>KOR 508</td>
<td>Advanced Modern Korean II</td>
</tr>
</tbody>
</table>

Required Electives for Minor Option I (9-12)
Students who choose to pursue Korean language must complete 1 additional Korean culture course.

Select one of the following categories:

- Japanese or Chinese Culture Requirement. Satisfied by three courses on Japanese or Chinese culture (9 hours)
- Korean Culture Requirement. Satisfied by four courses on Korean culture (12 hours)

East Asian Languages and Cultures Minor Option II

Core Knowledge and Skills for Minor Option II (10)
Must complete the second year of one of the following languages: 10

Japanese
<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Required Electives for Minor Option II (18)
Select courses on East Asian Studies pertaining to the language studied:

- Pre-Modern History. Satisfied by the completion of 1 course on the pre-modern history of 1 of the following: Japan, China, or Korea (3 hours).
- Modern History. Satisfied by the completion of 1 course on the modern history of 1 of the following: Japan, China, or Korea (3 hours).
- East Asian Studies Electives. Satisfied by the completion of 4 courses on 1 of the following: Japan, China, or Korea (12 hours).

Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

- Minor Hours
Satisfied by 18-20 hours of minor courses.

- Minor Hours in Residence
Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

- Minor Junior/Senior Hours
Satisfied by a minimum of 18-20 hours from junior/senior courses (300+) in the minor.

- Minor Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all courses in the field of study.
including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in East Asian Languages and Cultures

Why study East Asian languages and cultures?

The areas of East Asia covered represent 3 of the oldest continuous civilizations of the world. The great historical contributions of China, Japan, and Korea in literature, philosophy, and art are widely recognized and studied throughout the world. Today, the highly advanced industries of Japan, the enormous human resources of China, and the rapidly growing economies of Korea and Taiwan have contributed to the development of extremely valuable socio-political and economic ties between these areas and the United States.

M.A. Program Overview

The Department of East Asian Languages and Cultures (EALC) is the only department in Kansas offering a regular program of instruction in the languages, literatures, and cultures of East Asia.

The EALC Thesis M.A. program trains students who will devote themselves to becoming effective links between the Far East and the United States. Students concentrate in Chinese, Japanese, or East Asian Cultures, usually entering the program with at least two years of college-level language. The program typically takes two years to complete, including the defense of a required Master’s thesis.

FLAS Fellowships

Students in the M.A. program may also be eligible for a Foreign Language and Area Studies (FLAS) (http://flas.ku.edu) fellowship through the Center for East Asian Studies. FLAS fellowships include:

- Summer award - up to $5,000 for tuition and a stipend of $2,500 for living expenses for summer language study equivalent to one full year of language study
- Academic Year award - full KU tuition and a $15,000 stipend for living expenses for academic year study that includes two semesters of language and six credits or more of East Asian culture courses.

Students in the joint J.D./M.A. or who are also admitted to other programs are strongly encouraged to apply (http://flas.ku.edu/how-apply) for this funding.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission to the M.A. program

Apply to the EALC M.A. program via the Office of Graduate Studies online application system (http://www.graduate.ku.edu). For additional information regarding departmental admissions requirements, deadlines, and the application process, please visit the graduate admissions page (https://ealc.drupal.ku.edu/gradadmission) of the EALC Department website, or contact the EALC Department Graduate Program Coordinator, Morgan Swartzlander, mswartz@ku.edu.

Master’s Program

The department offers a master’s degree in East Asian languages and cultures. The student declares his or her concentration in 1 of 3 options.

- Chinese language and literature
- Japanese language and literature
- East Asian cultures

Students of Chinese or Japanese language and literature gain in-depth knowledge of these ancient civilizations, which have produced some of the world’s greatest literature.

Students of East Asian cultures develop a broad interdisciplinary knowledge of East Asia. This concentration is for students pursuing professional or noncollege teaching careers, for students in the early stages of language training, or for students who have already acquired competence in an East Asian language.

Prerequisites

Entrance requirements for a concentration in either Chinese or Japanese language and literature include

- 3 years of the modern language and, for Chinese language students, one year of classical Chinese or the demonstrated equivalent. Students not meeting this prerequisite may be admitted with deficiencies provided they achieve this level of proficiency outside the minimum of 30 graduate credit hours required for the degree.
- 2 lecture courses dealing with East Asia.

Entrance requirements for a concentration in East Asian cultures are

- At least 2 years of an East Asian language. Students not meeting this prerequisite may be admitted with deficiencies provided they achieve this level of proficiency outside the minimum of 30 graduate credit hours required for the degree.
- 2 lecture courses dealing with East Asia.

Requirements for Chinese or Japanese Language and Literature Concentration

1. A minimum of 30 graduate credit hours:
   a. Fourth-year level of language courses.
   b. At least 18 credit hours must be taken in the department in residence.
   c. 6 of these 18 credit hours must demonstrate research capacity in the student’s major language in lecture courses or seminars.
   d. EALC 700 Introduction to East Asian Studies and the relevant bibliography course must be included.
   e. No more than 3 hours of directed readings courses may be included in the required 30 hours.
f. Students are expected to take at least one course at the 500 level or above in the literature of their concentration.

g. Students must take 1 course that deals wholly with an East Asian country outside their concentration.

2. A thesis (3 credit hours) involving significant use of materials in the student’s major language.

Requirements for East Asian Cultures Concentration

1. A minimum of 30 graduate credit hours:
   a. Third-year level of language courses.
   b. At least 24 credit hours, taken in the department in residence.
   c. EALC 700 Introduction to East Asian Studies must be included in the student’s curriculum.
   d. Students are expected to select 1 of the East Asian cultures for concentration and to include in their programs at least 2 courses dealing wholly with an East Asian culture outside their concentrations.
   e. Students may not take more than 3 hours of directed readings.
   f. Students may, in consultation with the department graduate advisor, take other credit hours in a discipline or disciplines closely related to their studies.

   East Asian area courses are offered in anthropology, film and media studies, geography, history, history of art, linguistics, philosophy, political science, religious studies, sociology, and theatre.

g. Students must take 1 course at the 500 level or above in the literature or thought of the country of their concentration.

2. A thesis (3 credit hours) that must deal with a subject in the concentration chosen by the student.

For additional courses in the above disciplines, see appropriate sections of the online catalog.

Joint Degrees

MBA/M.A. Joint Master’s Degree Program

Offered in conjunction with the KU School of Business, the Master of Business Administration and Master of Arts in East Asian Languages and Cultures is designed to combine a business education with a specific focus on China, Japan, Korea, or Pan-Asian geographic areas and languages.

Course Requirements

The joint MBA/M.A. degree program requires 60 credit hours, structured as follows:

**MBA Requirements: 36 Credits**

- Foundation Courses: 16
- Environmental Courses: 2
- Breadth Courses: 6
- Elective Courses: 12

Note: Some business courses may be offered at Edwards Campus in Overland Park rather than at Lawrence Campus.
Area Studies Requirements: 25 Credits

Introductory Course
2 semesters of advanced language study (6-10 credits depend on language chosen)
Graduate level literature or thought course (3 credits in country of concentration)
2 additional graduate courses in country of concentration
1 graduate course outside country of concentration
Unifying research thesis

Note: See the MBA-M.A. EALC Curriculum Guide for details about eligible classes.

Joint Degree Program in Law and East Asian Languages and Culture

Joint Degree Program in Law and East Asian Languages and Cultures

The J.D./M.A. EALC program, which leads to the J.D. and M.A. in East Asian Languages and Cultures degrees, combines into 4 years and one summer of full time study the Juris Doctor program offered by the School of Law and the Master of East Asian Languages and Cultures program offered by the Department of East Asian Languages and Cultures in the College of Liberal Arts and Sciences.

Growing interdependence with East Asia, particularly with China, provides a need for lawyers versed in culture and language. A joint degree in Law and East Asian Languages and Cultures opens many doors for its recipients. One can find opportunities in international trade and finance, immigration law, and other related fields, as well as a greater ability to work with clients from various backgrounds.

Funding

Joint J.D./M.A. students are eligible and strongly encouraged to apply for a Foreign Language and Area Studies (FLAS) (http://flas.ku.edu) fellowship through the Center for East Asian Studies. FLAS fellowships include:

• Summer award - up to $5,000 for tuition and a stipend of $2,500 for living expenses for summer language study equivalent to 1 full year of language study
• Academic Year award - full KU tuition and a $15,000 stipend for living expenses for academic year study that includes 2 semesters of language and 6 credits or more of East Asian culture courses.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission to the Joint Program

To be admitted to the joint J.D./M.A. EALC Program, an applicant must hold an earned baccalaureate degree from an accredited college or university, complete the admission processes, meet the admission requirements for both the School of Law and the Department of East Asian Languages and Cultures, and be admitted to both programs no later than the end of the first year of study in Law or the completion of more than 16 credit hours in EALC. Full-time study is required for the joint J.D./M.A. EALC program. The Law School Admission Test (LSAT) is the only standardized test required for an applicant to the joint degree program.

For information about applying to the Law School, see the school website (http://www.law.ku.edu/admissions). For information about applying to the EALC Department, please visit the graduate admissions page (https://ealc.drupal.ku.edu/gradadmission) of the EALC Department website, or contact the EALC Department Graduate Program Coordinator, Morgan Swartzlander, mswartz@ku.edu.

Degree Requirements

To receive the J.D./M.A. EALC, a student must successfully complete a minimum of 106 credit hours, 81 in the School of Law and 25 in the Department of East Asian Languages and Cultures. The School of Law requires a 2.0 grade point average, while the Graduate School requires a 3.0 GPA for all courses counting toward the M.A. in EALC portion of the degree.

J.D. Requirements

Students must complete all required first year School of Law courses (32 credit hours) prior to enrolling in courses for the joint degree. In addition to these course requirements, the School of Law has an upper-class writing requirement, a residence requirement, and a time limit for completion of the degree.

In addition to the 44 TOTAL credit hours of coursework required of all law students, students in the joint J.D./M.A. EALC program must complete an additional 12 credit hours of coursework consisting of courses in any two of the following four areas of concentration:

International Trade (6)
LAW 944 International Trade Law 3
LAW 864 Advanced International Trade Law 3
International Commerce (6)
LAW 945 International Commerce and Investment 3
LAW 936 International Economic Law and Development 3
Public International Law (6)
LAW 974 Public International Law 3
LAW 932 International Human Rights Law 3
Comparative Law (6)
LAW 879 Comparative Law 3
LAW 918 Islamic Law 3
Students may choose courses to complete the remaining hours necessary to reach the total of 81 hours of law school credit needed for the joint degree from any part of the Law School curriculum.

Please refer to the current School of Law Catalog for further details about the requirements for the J.D. portion of the degree.

**EALC Requirements**

Students shall consider the degree in East Asian Cultures to be interdisciplinary in nature:

1. A minimum of 22 graduate credit hours plus 1 of the two options listed in part 7.
2. Each student is expected to select 1 of the East Asian Cultures (Japan, China, or Korea) for concentration and to include in his or her program at least two courses dealing wholly with an East Asian culture outside of his or her concentration. Up to 2 courses can be pan-East Asian courses including the student's country of concentration.
3. Students must complete a third year of language of the country of concentration.
4. EALC 700, Introduction to East Asian Studies, must be included in the student’s curriculum if the course is offered during the time the student is in resident study.
5. No more than 3 hours of directed reading in a language may count toward the M.A. degree.
6. Students are required to take 1 course in the literature or thought of the country of concentration at 500 level or above.
7. Students are required to fulfill 1 of the following requirements:
   a. Write a thesis (3 credit hours) which must deal with a subject within the concentration chosen by the student, or
   b. Practical thesis: Hold an internship or job in the country of concentration for a period of at least 8 weeks, at the advisor’s approval, and write a 40 page analysis of the cultural aspects of the experience (3 credits)

Students MUST consult with the EALC Director of Graduate Studies (DGS) immediately upon admission to the joint program to determine an enrollment plan and obtain a list of current approved joint courses. Joint students must also consult with the DGS during advising periods each semester.

Third and fourth year Chinese, Japanese, and Korean language courses fulfill the requirements, as well.

**Typical Enrollment Pattern**

^1 There is no credit toward the degree for first and second year language. First and second year language are 10 credits each. Third year language is 10 credits and counts toward the degree.

---

**Department of Ecology and Evolutionary Biology**

**Ecology and Evolutionary Biology Graduate Programs**

The department comprises a large number of biologists with a variety of research interests. 3 broad overlapping themes capture the interests and activities in EEB — biodiversity and macroevolution, ecology and global change biology, and evolutionary mechanisms. The department offers graduate study leading to Master of Arts and Doctor of Philosophy degrees in botany, entomology, and ecology and evolutionary biology. General information about the department and its faculty, current graduate students, admission, and financial support may be found on the department’s website (http://www2.ku.edu/~eeb).

Neotropical biodiversity is a special area of concentration among EEB faculty. Many faculty members have courtesy appointments in the Latin American Area Studies Program, which fosters multidisciplinary research in Latin America across the campus. KU is a member of the Organization for Tropical Studies, and many faculty members and students participate in advanced, field-oriented OTS courses. Graduate students can receive fellowships for courses, e.g. BIOL 786 Fundamentals of Tropical Biology, or research projects in Costa Rica. Other EEB faculty have research concentrations in Asia, Africa, Antarctica, and elsewhere, creating a genuinely global reach for EEB research activities.

(B.A. and B.S. degree programs in biology are listed under Biology Undergraduate Programs (p. 1171).)

**Facilities**

Departmental physical facilities include laboratories, natural history collections, and field-study sites near the university. Most laboratory facilities are in Dyche Hall, Higuchi Hall, McGregor Herbarium, Haworth Hall, and the Public Safety Building. Special facilities in Haworth include controlled-environment rooms, greenhouses, and various instrument rooms, including an excellent electron microscope laboratory.

The natural history collections are housed by the **Biodiversity Institute** and include approximately 8 million specimens, including mammals, birds, reptiles, amphibians, fishes, arthropods and other invertebrates, parasites, and plants, as well as fossils of vertebrates, arthropods, other invertebrates, and plants. Collections support diverse research in evolutionary biology, paleobiology, and ecology including systematics, phylogenetics, biogeography, morphology, behavior, biodiversity informatics, and biotic surveys and inventories. The BI also has leading facilities for diverse analyses of biodiversity information, including well-equipped spatial analysis laboratories, and extensive facilities for molecular systematics.

The **Kansas Biological Survey** is a KU research and service unit and a nonregulatory state agency, whose mission is to gather information on
the kinds, distribution, and abundance of plants and animals in Kansas, and to compile, analyze, interpret, and distribute this information broadly. KBS is a nationally recognized leader in several fields of environmental research and maintains a strong tradition of natural history studies. Scientists at KBS study terrestrial ecosystem ecology, aquatic ecology, water quality, biodiversity, ecology and population biology of animals and plants, and conservation and restoration of natural communities. KBS researchers routinely use technologies such as satellite and airborne remote sensing, aerial photography, and Geographic Information Systems.

KBS administers the University of Kansas Field Station, 3,400 acres of field-sites dedicated to environmental research and education. KUS sites are in the transition zone between the Eastern Deciduous Forest and Tallgrass Prairie biomes and include woodland, prairie, old fields, and wetlands. The Fitch Natural History Reservation and Baldwin Woods are used primarily to study unmanipulated ecological processes in undisturbed habitats. The John H. Nelson Environmental Study Area is used for experimental ecological studies and has experimental ponds, a dedicated lake and watershed, a common garden, small-mammal enclosures, and a succession facility.

Courses

**BIOL 100. Principles of Biology. 3 Hours. NB GE3N / N.**
Intended for non-science majors. The basic concepts of biology at the cellular, organismal, and population levels of organization and their applications to humans and modern society. An honors section, BIOL 101, is offered for students with superior academic records. BIOL 100 and BIOL 102 (or BIOL 101 and BIOL 103, honors) satisfy the College natural science with laboratory requirement. Concurrent enrollment in BIOL 102 is recommended. LEC.

**BIOL 101. Principles of Biology, Honors. 3 Hours. NB GE3N / N.**
Intended for non-science majors with superior academic records. The basic concepts of biology at the cellular, organismal, and population levels of organization and their applications to humans and modern society. Concurrent enrollment in BIOL 102 or BIOL 103 is recommended. BIOL 101 and either BIOL 102 or BIOL 103 satisfy the College natural science with laboratory requirement. Prerequisite: Membership in the College Honors Program or consent of instructor. LEC.

**BIOL 102. Principles of Biology Laboratory. 1 Hour. U.**
Intended for non-science majors. Exercises are designed to give the student hands-on experience with selected topics from the associated lecture course (BIOL 100). An honors laboratory (BIOL 103) is offered for students with superior academic records. Prerequisite: Concurrent enrollment in BIOL 100 is recommended. LAB.

**BIOL 103. Principles of Biology Laboratory, Honors. 1 Hour. U.**
Intended for non-science majors with superior academic records. Exercises are designed to give the students hands-on experience with selected topics from the associated lecture course (BIOL 101). Prerequisite: Membership in the College Honors Program or consent of instructor. Concurrent enrollment in BIOL 101 is recommended. LAB.

**BIOL 105. Biology Orientation Seminar. 1 Hour. N.**
Introduces interested students to information about majoring in the biological sciences at the University of Kansas. Students learn about degree requirements, academic advising, research opportunities, and career options, as well as how to align academic and professional goals. Graded on a satisfactory/unsatisfactory basis. LEC.

**BIOL 110. Microorganisms in Your World. 3 Hours. NB / N.**
A course for students who are not science majors. Designed to acquaint students with some microbial activities which affect their lives. Includes the historical development of microbiology, the basic principles of microbial growth, disinfection, antibiotics, infection, and immunity; and some commercial, agricultural, and industrial uses of microorganisms. Emphasis is on infectious diseases. May not be counted as a prerequisite for any other microbiology course. LEC.

**BIOL 116. Introduction to Evolutionary Biology. 3 Hours. N.**
An account of evolutionary thinking from classical to contemporary time. The emphasis is on mainstream developments (Darwinism, Mendelism, the Modern Synthesis, Cultural Ecology), but certain social issues will be examined (social Darwinism, creationism). LEC.

**BIOL 120. Insects in Your World. 3 Hours. NB GE3N / N.**
Students will learn about the global impact of insects on human concerns, both positive (pollination and decomposition) and negative (competition with humans for food, fiber, and shelter, and disease transmission) while developing an appreciation for the ways in which scientists work with real problems involving insects. The course will cover the overwhelming abundance and diversity of insects, and their life history, ecology, behavior, and physiology. This course is intended for both nonbiology and biology majors. Format: two lectures and one discussion section per week. LEC.

**BIOL 150. Principles of Molecular and Cellular Biology. 4 Hours. NB GE3N / N.**
An integrated lecture and laboratory course for biology majors and students planning to take additional courses in biology. This course covers basic biochemistry, cell structure and function, molecular biology, genetics, physiology, and development of plants and animals. Three hours of lecture and three hours of laboratory per week. An honors section (BIOL 151) is offered for students with superior academic records. Prerequisite: Concurrent or prior enrollment in CHEM 130, CHEM 190, CHEM 150, or CHEM 170, or consent of instructor. LEC.

**BIOL 151. Principles of Molecular and Cellular Biology, Honors. 4 Hours. NB GE3N / N.**
An integrated lecture and laboratory course for students with superior academic records who are biology majors or who plan to take additional courses in biology. This course covers basic biochemistry, cell structure and function, molecular biology, genetics, physiology, and development of plants and animals. Three hours of lecture and three hours of laboratory per week. Prerequisite: Membership in the University Honors Program and concurrent or prior enrollment in CHEM 130, CHEM 190, CHEM 150, or CHEM 170, or consent of instructor. LEC.

**BIOL 152. Principles of Organismal Biology. 4 Hours. NB GE3N / N.**
An integrated lecture and laboratory course for biology majors and students planning to take additional courses in biology. This course covers basic elements of plant and animal morphology and physiology, principles of evolution, organismal diversity and phylogeny, population biology, population genetics, ecology, and behavior. Three hours of lecture and three hours of laboratory per week. An honors section (BIOL 153) is offered for students with superior academic records. Prerequisite: BIOL 150 or BIOL 151. LEC.

**BIOL 153. Principles of Organismal Biology, Honors. 4 Hours. NB GE3N / N.**
An integrated lecture and laboratory course for students with superior academic records who are biology majors or planning to take additional courses in biology. This course covers basic elements of plant and animal morphology and physiology, principles of evolution, organismal diversity and phylogeny, population biology, population genetics, ecology, and behavior. Three hours of lecture and three hours of laboratory per week. Prerequisite: BIOL 150 or BIOL 151 and membership in the University Honors Program or consent of instructor. LEC.
BIOL 177. First Year Seminar: _____ 3 Hours. NB GE11.
A limited-enrollment, seminar course for first-time freshmen, organized around current issues in biology. Does not contribute to major requirements in biology. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

BIOL 200. Basic Microbiology. 3 Hours. NB GE3N / N.
Introduction to bacteria and viruses. Topics include historical development of microbiology, bacterial structure and growth, enzymes and energy production, disinfection, antibacterial drugs, gene transfer, viral replication, infection and immunity, with emphasis on infectious diseases. Can be substituted for BIOL 201 as a prerequisite for other microbiology courses by consent of department. Not open to those with credit in BIOL 110, BIOL 201, BIOL 400, or BIOL 401. Prerequisite: A course in high school biology and a course in high school chemistry. This course is not recommended for first semester freshmen. LEC.

BIOL 203. Introductory Microbiology Laboratory. 2 Hours. U.
Laboratory exercises to complement BIOL 200. Prerequisite: BIOL 200. May be taken concurrently. LAB.

BIOL 210. Introduction to Clinical Laboratory Sciences. 1 Hour. U.
An introductory overview of medical technology as a profession including types of analyses performed, specialties, interrelationships in the health care system and a visit to a clinical laboratory. This course will enable those considering a major in medical technology to have a clear definition of the profession. This course does not meet any degree requirements in biology. No prerequisite. (Same as CLS 210.) LEC.

BIOL 215. Plants Through Time. 3 Hours. NB / N.
Examines the evolution of plants and their environments from the origin of life to the present, including the historical development of the biosphere, mass extinctions (past and present), and social implications of future climate changes and deforestation. Not recommended for students with credit in GEOL 121. LEC.

BIOL 225. Evolution and the History of Life. 3 Hours. GE3N / N.
This introductory course for non-majors focuses on the significance of the history of life and the fossil record for our understanding of evolution. Key events in the history of life are considered, including the origins of life, the eukaryotic cell, and humans, and also various mass extinctions. The focus is on general scientific and evolutionary principles and mechanisms that can be extracted from the study of the fossil record. It also uses the lessons of the fossil record to consider the prospects for our own species. LEC.

BIOL 240. Fundamentals of Human Anatomy, 3 Hours. N.
Introduction to the gross anatomy of the human body. Covers the spatial arrangement and appearance of structures throughout the body, including visual identification of these structures. Musculoskeletal relationships, and the anatomy of major organ systems, are emphasized. Not intended for biology majors. Prerequisite: BIOL 100, or equivalent. LEC.

BIOL 241. Human Anatomy Observation Laboratory. 2 Hours. U.
One of the two laboratories in gross anatomy designed to complement BIOL 240. Emphasizes the three-dimensional appearance and spatial relationships of anatomical structures through supervised observations of pre-dissected human cadavers. Limited to students enrolled in, or seeking admission to, programs that require a human anatomy observation laboratory. Concurrent or prior enrollment in BIOL 240 is required. LAB.

BIOL 242. Human Anatomy Dissection Laboratory. 3 Hours. U.
One of the two laboratories in gross anatomy designed to complement BIOL 240. Provides an opportunity to develop a comprehensive three-dimensional understanding of anatomical structures and spatial relationships while gaining substantial dissecting experience. Student perform supervised dissection of human cadavers. Limited to students enrolled in, or seeking admission to, programs that require a human anatomy laboratory. Concurrent or prior enrollment in BIOL 240 is required. LAB.

BIOL 246. Principles of Human Physiology. 3 Hours. N.
An introduction to the physiological and biochemical processes and general physiological principles necessary to sustain life. Organ and organ system processes are emphasized. Intended for students majoring in allied health or sports related curricula who require a course in human physiology. Not intended for biology majors. Prerequisite: BIOL 100 or equivalent. LEC.

BIOL 247. Principles of Human Physiology Laboratory. 2 Hours. U.
Designed to complement BIOL 246. Uses experiments and simulations to demonstrate laboratory techniques and representative processes in areas of human physiology. Concurrent or prior enrollment in BIOL 246 is required. LAB.

BIOL 350. Principles of Genetics. 4 Hours. N.
Why are related individuals more similar than unrelated individuals and what is the basis for heritable traits? From Mendel’s discoveries of the patterns of genetic inheritance, to the study of transmissible hereditary factors, genetics is central to understanding the biological sciences. Topics include molecular genetics and genetic engineering; Mendelian genetics and mapping; control of gene expression; cytogenetics; epigenetics and non-Mendelian genetics; and population and quantitative genetics. Examples are taken from a wide variety of organisms, including viruses, bacteria, plants, fungi, insects, and humans. Prerequisite: Two semesters of college-level chemistry and BIOL 150 or BIOL 152; or consent of the instructor. LEC.

BIOL 360. Principles of Genetics, Honors. 4 Hours. N.
The science of genetics aims to explain why individuals differ from one another and how these differences are inherited. Honors Genetics covers all core topics in fundamental genetics: Mendelian inheritance, meiosis and recombination, mutation, molecular genetics, population genetics, quantitative genetics and genomics. Special attention given to the practice of genetics and the complex relationship between genotype, phenotype and environment. A broader goal of Honors Genetics is to provide students a framework for understanding recent advances in medical genetics and the modern era of personal genomics. Prerequisite: Two semesters of college-level chemistry and BIOL 150 or BIOL 152, membership in the University Honors Program; or consent of the instructor. LEC.

BIOL 400. Fundamentals of Microbiology. 3 Hours. NB GE3N / N.
Fundamental principles of microbiology with emphasis on physical and chemical properties of the bacterial cell; microbial metabolism, cultivation, growth and death of bacteria; microbial genetics, pathogenesis and immunity, industrially important microorganisms. Prerequisite: BIOL 150 or BIOL 151 and two semesters of college chemistry, or consent of the instructor. LEC.

BIOL 401. Fundamentals of Microbiology, Honors. 3 Hours. N.
Honors section of BIOL 400 and BIOL 612, by application and invitation. Prerequisite: BIOL 151, two semesters of college chemistry, and membership in the University Honors Program, or consent of the instructor. LEC.

BIOL 402. Fundamentals of Microbiology Laboratory. 2 Hours. U.
Laboratory exercises designed to complement BIOL 400 or BIOL 700. Prerequisite: BIOL 400 or BIOL 612, or BIOL 400 or BIOL 612 concurrently. LAB.
BIOL 405. Laboratory in Genetics. 2 Hours. U.
A laboratory program which includes written reports on fruit fly crosses, exercises on meiosis, probability and statistics, human genetics and computer simulations of genetics problems. Prerequisite: Concurrent or prior (preferred) enrollment in BIOL 350 or its equivalent. LAB.

BIOL 408. Physiology of Organisms. 3 Hours. N.
A comprehensive and integrative approach to the study of organisms with an emphasis on physiological, ecological, structural, and behavioral adaptations to differing environments. Prerequisite: BIOL 152 or BIOL 153 and CHEM 130 or CHEM 190 or CHEM 170; or consent of the instructor. LEC.

BIOL 409. Physiology of Organisms, Laboratory. 2 Hours. U.
The laboratory exposes the students to the structure and function of the major groups of animals and plants. Students use basic techniques of biological observation, such as microscopy and dissection, and experimental techniques to analyze plant and animal function. Prerequisite: Concurrent or prior enrollment in BIOL 408, or consent of the instructor. LAB.

BIOL 410. Human Biogeography, Honors. 3 Hours. N.
Principles of evolution and earth change are used to examine distributions of human populations, wealth, and resources. Readings from the current literature will be included. Lecture and discussion. (Same as GEOG 410.) Prerequisite: BIOL 152 or BIOL 153 or GEOG 107 and membership in the University Honors Program or consent of instructor. LEC.

BIOL 412. Evolutionary Biology. 4 Hours. N.
Introduction to the patterns and processes of organic evolution. Considered are the history of evolutionary thought, molecular evolution, genetics and microevolution, selection and adaptation, and speciation and macroevolution. Emphasis will be placed on how scientists study and document change over time in natural populations, methods for testing hypotheses about events in evolutionary history, and how discovering evolutionary mechanisms at one level of organization can help to explicate general processes in the natural world. Prerequisite: BIOL 152 and BIOL 350, or consent of the instructor. LEC.

BIOL 413. History and Diversity of Organisms. 3 Hours. N.
An integrated lecture and laboratory course presenting an overview of the variety and ancestry of life on earth. Using representatives from prokaryotes, protists, plants, fungi, and animals, principles of phylogenetic reconstruction are illustrated and evolutionary trends in the life history features, functional morphology, and structural complexity of extant and extinct organisms are presented. Two hours of lecture and three hours of laboratory per week. Prerequisite: BIOL 152 or BIOL 153, or consent of the instructor. LEC.

BIOL 414. Principles of Ecology. 3 Hours. N.
Study of the principles underlying species population density changes, community structure and dynamics, biogeochemical cycles, and energy flow and nutrient cycling in ecosystems. Prerequisite: BIOL 152 or BIOL 153, or consent of the instructor. LEC.

BIOL 415. Field and Laboratory Methods in Ecology. 2 Hours. N.
This course complements BIOL 414 with field trips and laboratory exercises that illustrate the basic concepts of ecology. Topics covered include methodologies for quantitative sampling of terrestrial and aquatic systems, design of field studies, computer simulation and digital data analysis techniques, and scientific writing. Prerequisite: Concurrent or prior enrollment in BIOL 414. A statistics course is recommended. FLD.

BIOL 416. Cell Structure and Function. 3 Hours. N.
Lecture survey of molecular cell biology with emphasis on experimental approaches to understanding cell function; topics include biological membranes and transmembrane transport, vesicular trafficking (secretion and endocytosis), cell signaling, cell motility and the cytoskeleton, and the regulation of the cell division cycle. Prerequisite: BIOL 150 or BIOL 151; BIOL 350 or BIOL 360; CHEM 130 or CHEM 190 or CHEM 170; and CHEM 135 or CHEM 195 or CHEM 175, or consent of the instructor. LEC.

BIOL 417. Biology of Development. 3 Hours. N.
A general course designed to introduce students to the developmental biology of animals. Emphasis is placed on understanding how a single-celled fertilized egg develops into a complex multicellular organism by the processes of cell division, differentiation, growth, and morphogenesis. Lectures stress experimental approaches to investigating development, including classic embryology and modern molecular genetics. Prerequisite: BIOL 350 or consent of the instructor. LEC.

BIOL 418. Laboratory in: ______. 1-3 Hours. U.
A varied program of laboratory and fieldwork designed to introduce students to investigative approaches in the study of basic concepts of biological science. Students may enroll in more than one section. Prerequisite: BIOL 100, BIOL 101, BIOL 150, BIOL 151, or exemption. Each section may have additional prerequisites to be determined by instructor. LAB.

BIOL 419. Topics in: ______. 1-3 Hours. N.
Courses on special topics in biology, given as need arises. May be lectures, discussions, readings, laboratory, or fieldwork. May be repeated once. Prerequisite: Consent of instructor. IND.

BIOL 420. Seminar: ______. 1-3 Hours. N.
The preparation and presentation of oral reports on selected topics from the recent research literature. Students may choose one interest group each semester, but may enroll in a given interest group only once. Enrollment in each interest group limited to twenty students. Prerequisite: Course work varying with the topic of the seminar, or consent of instructor. LEC.

BIOL 421. Topics in Molecular Biosciences: ______. 3 Hours. N.
Lecture instruction and the preparation and presentation of oral and written reports on selected topics from the recent research literature in molecular biosciences. Students may enroll in a given topic only once. Prerequisite: Course work varying with the topic of the seminar, or consent of instructor. LEC.

BIOL 423. Non-laboratory Independent Study. 1-9 Hours. AE61 / N.
Original study in discussion or preparation of review papers on selected topics of current interest. May be undertaken only with the consent of the major advisor and of the faculty member who will guide the research. Prerequisite: Consent of instructor. IND.

BIOL 424. Independent Study. 1-9 Hours. AE61 / N.
Original study in laboratory or field in selected topics of current research interest. May be undertaken only with the consent of the major advisor and of the faculty member who will guide the research. Prerequisite: Consent of instructor. IND.

BIOL 425. Teaching Apprenticeship in Biology. 1-9 Hours. N.
Involvement as teaching assistant for a course in Biology. Credit hours shall not exceed the credits offered for the course being taught. May be undertaken only with the consent of the Director of Undergraduate Biology and of the faculty member who will teach the course. Prerequisite: Consent of instructor and Director of Undergraduate Biology. FLD.

BIOL 426. Laboratory in Cell Biology. 3 Hours. U.
Laboratory exercises will examine the function, organization, and composition of eukaryotic cells. Prerequisite: BIOL 150 or BIOL 151, CHEM 130 or CHEM 190 or CHEM 170; concurrent or prior enrollment in BIOL 416 or BIOL 536; or consent of the instructor. BIOL 350 or BIOL 360 is highly recommended. LAB.
BIOL 427. Developmental Biology Laboratory. 2 Hours. U.
Laboratory exercises examine processes of early development in animal model organisms. Students study the normal development of live embryos and prepared slides of sea anemones, sea urchins, frogs and chicks. Study of regeneration and axial patterning through experimental manipulation of invertebrates is also explored. Prerequisite: Concurrent or prior enrollment in BIOL 417. LAB.

BIOL 428. Introduction to Systematics. 3 Hours. N.
Basic elements of systematic theory and practice; phylogenetic reconstruction using morphological and molecular data; interpretation of phylogenetic hypotheses; principles of nomenclature and classification; evolutionary processes and patterns of species diversity; discussion of the aims and needs of taxonomy; species and speciation; construction of keys; significance of biological collections. Prerequisite: BIOL 152 or BIOL 153. Not intended for students with advanced systematics background. LEC.

BIOL 430. Laboratory in Molecular Biology. 3 Hours. U.
Practical experience in recombinant DNA technology and molecular cloning. Prerequisite: BIOL 416 or a course in biochemistry or microbiology. LAB.

BIOL 432. Human Behavioral Genetics. 3 Hours. S.
A survey of human behavioral genetics for upper division undergraduates. Emphasis is on how the methods and theories of quantitative, population, medical, and molecular genetics can be applied to individual and group differences in humans. Both normal and abnormal behaviors are covered, including intelligence, mental retardation, language and language disorders, communication, learning, personality, and psychopathology. (Same as ANTH 447, PSYC 432, SPLH 432.) Prerequisite: Introductory courses in biology/genetics or biological anthropology and psychology are recommended. LEC.

BIOL 435. Introduction to Neurobiology. 3 Hours. N.
Basic principles of neurobiology. The focus will be on the nature of communication among nerve cells and their targets. Topics will include the development, structure and function of nerve cells, chemistry of neurotransmission, processing and integration including the cellular and molecular basis of higher functions and neurological disorders. Prerequisite: BIOL 150 or BIOL 151. LEC.

BIOL 440. Advanced Human Anatomy. 6 Hours. N.
Integrated lecture and laboratory course designed to provide students with a detailed understanding of the structure of the human body. Cadaver dissection will reinforce three-dimensional relationships discussed in lecture and each of the main organ systems will be considered using a regional approach to the body. Prerequisite: BIOL 152 or equivalent; BIOL 240, BIOL 241, or BIOL 242; and instructor consent. LEC.

BIOL 448. Kansas Plants. 3 Hours. N.
A study of common and important non-cultivated Kansas plants, with special emphasis on the ecology of the state; paleoclimatic and paleobotanical background of the central prairies and plains; present climate, physiography and vegetation; poisonous, edible, and medicinal plants; identification by means of simplified keys. Prerequisite: BIOL 100, BIOL 101, BIOL 150, or BIOL 151 and BIOL 152 or BIOL 153. LEC.

BIOL 449. Laboratory/Field Work in Human Biology. 1-3 Hours. AE61 / N.
Faculty supervised laboratory or field research for Human Biology majors. Students design and complete a research project in collaboration with a Human Biology faculty member. (Same as ANTH 449, PSYC 449, and SPLH 449.) Prerequisite: Consent of instructor and Human Biology major. FLD.

BIOL 454. Brain Diseases and Neurological Disorders. 3 Hours. N.
Major brain diseases and neurological disorders such as stroke, Alzheimer’s Disease, Parkinson’s Disease, Huntington’s Disease, Multiple Sclerosis, Epilepsy, Schizophrenia, etc., will be discussed in terms of the etiology, molecular, and cellular basis of potential therapeutic interventions. Graduate students are required to present original research paper assigned by the instructor to the class in addition to other assignments for all the students enrolled. Prerequisite: BIOL 150, or consent of instructor. LEC.

BIOL 461. Biodiversity of the Rainforest. 3 Hours. N.
An introduction to birds, bats, and plants of the rainforest, with emphasis on general characteristics of each of the taxa and their relationship to the tropical ecosystem, as well as their particular anatomy, ecology, behavior, and diversity. Field work focuses on identification of birds and bats (at species level), plants (at family level), and on capturing and preservation techniques. Taught in Golfito, Costa Rica. Contact Undergraduate Biology, or the Office of Study Abroad. Prerequisite: BIOL 150 or BIOL 151 and BIOL 152 or BIOL 153, or equivalent. Fall and spring semester courses are taught in Spanish; therefore, four semesters of Spanish are required. Summer courses are taught in English. LEC.

BIOL 463. Introduction to Ornithology of the Tropics. 4 Hours. N.
A theory and practice course on birds. Course covers morphology, reproduction, evolution, ecology, and behavior, as well as systematics of Costa Rican birds. Course includes field work on bird identification. Taught in Golfito, Costa Rica. Contact Undergraduate Biology, or the Office of Study Abroad. Prerequisite: BIOL 150 or BIOL 151 and BIOL 152 or BIOL 153, or equivalent. Fall and spring semester courses are taught in Spanish; therefore, four semesters of Spanish are required. Summer courses are taught in English. LEC.

BIOL 465. Marine Biology. 4 Hours. N.
A theory and practice course on biotic relations, the role of organisms and marine biodiversity. It covers basic marine principles and physico-chemical processes (temperature, salinity, dissolved oxygen, nutrients, and pH in the water) and their effect on the abundance, and horizontal and vertical distribution of marine organisms. Course includes field work on data collection. Taught in Golfito, Costa Rica. Contact Undergraduate Biology, or the Office of Study Abroad. Prerequisite: BIOL 150 or BIOL 151 and BIOL 152 or BIOL 153, or equivalent. Fall and spring semester courses are taught in Spanish; therefore, four semesters of Spanish are required. Summer courses are taught in English. LEC.

BIOL 467. Marine Resources Management. 3 Hours. N.
A theory and practice course which focuses on the techniques used for monitoring the growth of fish, shrimp, and mollusks, with the purpose of understanding the variables that could produce the best yields. The course covers ecology (population growth, competition, predators, ecosystem dynamics), and fishery biology (growth, fish yield, capture efficiency) applicable in the field experiments. Taught in Golfito, Costa Rica. Contact Undergraduate Biology, or the Office of Study Abroad. Prerequisite: BIOL 150 or BIOL 151 and BIOL 152 or BIOL 153, or equivalent. Fall and spring semester courses are taught in Spanish; therefore, four semesters of Spanish are required. Summer courses are taught in English. LEC.

BIOL 468. Fresh Water Ecology. 4 Hours. N.
A theory and practice class on the study of rivers and lagoons. It includes systematics of rivers, lagoons, and reservoirs. Course includes theory and field work to monitor physical (stream topography, flow, edge vegetation), chemical (nutrients, temperature, pH levels, dissolved oxygen), and biological (collecting and identification of aquatic insects) conditions in rivers. Taught in Golfito, Costa Rica. Contact Undergraduate Biology, or the Office of Study Abroad. Prerequisite: BIOL 150 or BIOL 151 and
BIOL 152 or BIOL 153, or equivalent. Fall and spring semester courses are taught in Spanish; therefore, four semesters of Spanish are required. Summer courses are taught in English. LEC.

BIOL 477. Ecology and Global Change. 3 Hours. N.
Humans influence both natural and managed ecosystems. This course studies the effects of climate change, land-use change, and reductions in biodiversity on ecosystems. Emphasis is placed on how biological and physical processes may be perturbed by human influences. Topics include the greenhouse effect, species extinctions, human disease expansion, and the effects of global change on agricultural productivity. A combination of lectures and discussion address issues from a scientific basis and link these ecological issues to our everyday lives and society as a whole. Prerequisite: BIOL 152, BIOL 153, or equivalent, or permission of instructor. LEC.

BIOL 480. Biology and Diversity of Parasites. 3 Hours. N.
Introductory lecture course to the field of Parasitology. Provides basic knowledge about the morphology and biology of parasitic animals. Coverage includes a diversity of protozoan and metazoan groups parasitizing animals, including humans (e.g., malaria, amoebas, hookworms, tapeworms). Some emphasis is given to groups of parasites of particular medical and/or economic importance. Selected principles of parasitism are introduced. Prerequisite: BIOL 152 or BIOL 153, or permission of instructor. LEC.

BIOL 481. Parasitology Laboratory. 1 Hour. U.
Laboratory course in the study of protozoan and metazoan parasites of animal, including humans, emphasizing their diversity, classification, morphology, and identification. One three-hour laboratory each week. Prerequisite: Concurrent or prior enrollment in BIOL 480. LAB.

BIOL 494. Introduction to Mammalogy. 3 Hours.
A study of mammals, with emphasis on evolution, biogeography, systematics, and natural history. Lectures, laboratory, and field study. Prerequisite: BIOL 152 or 153 or permission of instructor. LEC.

BIOL 499. Introduction to Honors Research. 2 Hours. N.
Intended for sophomores planning to enroll in the Biology Honors Program. Students interested in pursuing Biology Honors discuss with Biology faculty members the rationale, methods, and interpretations of research being carried out in individual faculty labs to learn how scientific research is conducted. Prerequisite: At least 17 credit hours of college level natural sciences coursework or consent of instructor. LEC.

BIOL 500. Biology of Insects. 3 Hours. N.
Lectures and demonstrations providing an introduction to the study of insects, including general classification, structure, phylogeny, identification, development, physiology, behavior, ecology, and relations to human affairs. Prerequisite: BIOL 152, 153, or equivalent, or permission of instructor. LEC.

BIOL 502. Laboratory in Insect Biology and Diversity. 2 Hours. U.
Laboratory and field studies of insects, emphasizing their diversity, classification, ecological relationships, morphology, and behavior. Course provides practical application of principles covered in BIOL 500. Prerequisite: Concurrent or prior enrollment in BIOL 500 or the equivalent. LAB.

BIOL 503. Immunology. 3 Hours. N.
Lectures on the nature and mechanisms of natural and acquired resistance including humoral and cellular immunity. Characteristics of antigens and antibodies and of their interaction; ontogeny and cellular basis of immune responsiveness, hypersensitivity; specific immunologic tolerance. Not open to those with credit in BIOL 524. Prerequisite: BIOL 400 or BIOL 401, or consent of instructor. LEC.

BIOL 504. Immunology Laboratory. 2 Hours. U.
Laboratory designed to complement BIOL 503. Prerequisite: BIOL 503, or BIOL 503 concurrently. LAB.

BIOL 505. Social Insects. 3 Hours. N.
Lectures and laboratory demonstrations on presocial and social insects, specifically termites, ants, wasps, and bees. Emphasis will be placed on evolution of social behavior and the place of social insects in sociobiology. Prerequisite: BIOL 152, BIOL 153, or equivalent. LEC.

BIOL 506. Pathogenic Microbiology. 3 Hours. N.
Lectures. Characteristics and mechanisms of pathogenic microorganisms and disease processes. Elements of host-parasite interactions. Not open to freshmen or sophomores. Prerequisite: BIOL 503, or consent of instructor. LEC.

BIOL 507. Pathogenic Microbiology Laboratory. 2 Hours. U.
Laboratory to complement BIOL 506. Cultivation of pathogenic microorganisms, diagnostic procedures, and experiments to demonstrate various aspects of microbial pathogenicity and host responses. Prerequisite: BIOL 402 and BIOL 506 (or concurrent enrollment) or consent of instructor. LAB.

BIOL 509. Biology of Spiders. 3 Hours. N.
An introduction to the evolution, anatomy, physiology, behavior, and ecology of spiders and other arachnids. Special topics include the action of spider venoms; the composition and uses of silks; courtship and mating; predation; social behavior; and the role of spiders in natural and agricultural ecosystems. Concurrent enrollment in BIOL 511 is encouraged. Prerequisite: BIOL 152 , BIOL 153 or permission of instructor. LEC.

BIOL 510. Comparative Anatomy. 5 Hours. N.
Structure, function, and evolution of the vertebrates. Lectures and laboratory study. A course designed for zoologists. Prerequisite: BIOL 100, BIOL 101, BIOL 150, or BIOL 151 and BIOL 152 or BIOL 153. LEC.

BIOL 511. Biology of Spiders Laboratory. 1 Hour. U.
Topics will include comparative biology of arachnid orders (spiders, scorpions, harvestmen, mites, and others), external and internal anatomy of spiders, identification of common spider families and genera, and spider behavior. Students will be required to make a small collection (collect, preserve, and identify specimens). Prerequisite: BIOL 509; concurrent enrollment is preferred. LAB.

BIOL 512. General Virology. 3 Hours. N.
Lectures and discussions covering the basic nature and characteristics of viruses from a general biological point of view: viruses of bacteria, animals and plants, physical-chemical properties; host cell-viral interactions; mode of replication of DNA and RNA viruses, tumor viruses. Prerequisite: BIOL 400, BIOL 401 or consent of instructor. LEC.

BIOL 513. Virology Laboratory. 2 Hours. U.
Experiments involving cultivation, quantitation, and identification of animal viruses, continuous cell culture and primary chicken embryo culture techniques. Molecular biology techniques are used to demonstrate the steps in virus replication. The value of viruses as tools to understand normal cellular processes is emphasized in experiments which demonstrate the relative simplicity of viruses and the relative complexity of eukaryotic cells. Demonstrations include transformation of cells by tumor viruses and electron microscopy of virus particles. Prerequisite: BIOL 402 and BIOL 512, or consent of instructor. LAB.

BIOL 514. Principles of Ecology, Honors. 3 Hours. N.
Honors section of BIOL 414 for students with superior academic records. Course covers core concepts on the ecology of individuals, populations, communities, and ecosystems. Relative to BIOL 414, topics are presented
in greater depth with increased student participation and stronger emphasis on the primary scientific literature. Prerequisite: BIOL 100, BIOL 101, BIOL 150, or BIOL 151 and BIOL 152 or BIOL 153. Open only to students admitted to the University Honors Program or by consent of instructor. LEC.

**BIOL 516. Microbial Physiology. 3 Hours. N.**
Elements of microbial physiology. Carbohydrate metabolism; enzymes and coenzymes; microbial nutrition; quantitative problems in microbial physiology; a survey of microbial metabolic types. Prerequisite: BIOL 400 or BIOL 612 and BIOL 402, and five hours of organic chemistry. LEC.

**BIOL 517. Microbial Physiology Laboratory. 2 Hours. U.**
Laboratory designed to complement BIOL 516. Prerequisite: BIOL 516, or BIOL 516 concurrently. LAB.

**BIOL 518. Microbial Genetics. 3 Hours. N.**
Bacteria and viruses as models of genetic systems. Mutagenesis and repair. Transformation, transductions, and recombination. Molecular biology of gene expression. Prerequisite: An introductory microbiology course. LEC.

**BIOL 519. Microbial Genetics Laboratory. 2 Hours. U.**
Laboratory designed to complement BIOL 518. Prerequisite: BIOL 402, BIOL 518, or BIOL 518 concurrently. LAB.

**BIOL 520. Marine Biology. 3 Hours. N.**
This introductory course covers biological, physical, and chemical ocean sciences, with an emphasis on ecological aspects. In addition to this Lawrence campus course, students may enroll for a supplementary 1 credit field trip class to a Caribbean coral reef island offered in December or January. Prerequisite: BIOL 414 or permission of the instructor. LEC.

**BIOL 521. Insect Systematics. 4 Hours. N.**
A study of the diversity of insects, including the classification of all living and fossil orders and the more common families primarily on the basis of external morphology. The biology, ecology, phylogeny, and geological history of each order is covered. Includes both lectures and laboratory exercises. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 500, BIOL 502 or equivalent, or permission of instructor. LEC.

**BIOL 525. Aquatic Entomology. 4 Hours. N.**
Designed to enable students to develop skill in the area of identification of aquatic insects and to gain a detailed comprehension of their community structure and dynamics. The external morphology of all aquatic orders is covered, followed by consideration of specific physiological and behavioral adaptations that facilitate an aquatic existence. Includes both lectures and laboratory exercises. Requirements include making a collection of aquatic insects. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 414 or BIOL 500. LEC.

**BIOL 526. Insect Physiology and Internal Morphology. 3 Hours. N.**
Mechanisms and integration of the internal life-supporting systems of insects, emphasizing the interdependence of structure and function. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 408 and BIOL 500, or permission of instructor. LEC.

**BIOL 528. External Morphology of Insects. 4 Hours. N.**
A study of external structure common to all insect orders, with detailed comparative laboratory studies of representative species. Includes both lectures and laboratory exercises. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 500, BIOL 502 or equivalent, or permission of instructor. LEC.

**BIOL 529. Immature Insects. 3 Hours. N.**
The classification, structure, and ecological distribution of immature insects, especially larvae of Holometabola. Includes both lectures and laboratory exercises. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 502 or permission of instructor. LEC.

**BIOL 533. Biology of Fungi. 4 Hours. N.**
A study of the major groups of fungi from slime molds to mushrooms. Emphasis on their activities in natural substrates, isolation techniques, parasitic and mutualistic relationships with other organisms, uses in research, industrial applications, production of mycotoxins and poisons, and physiological, genetic and reproductive behavior. Lectures, laboratory, and field trips. Prerequisite: BIOL 100, BIOL 101, BIOL 150, or BIOL 151 and BIOL 152 or BIOL 153. LEC.

**BIOL 536. Cell Structure and Function (Honors). 3 Hours. N.**
BIOL 536 is the honors version of BIOL 416. Completion of this class will satisfy the BIOL 416 requirement. Open to students in the Honors program or by permission of instructor. Prerequisite: BIOL 350 or consent of instructor. LEC.

**BIOL 540. General Invertebrate Zoology. 4 Hours. N.**
Phylogeny, physiology, and embryology; evolutionary processes; characteristics of major ecological groupings. Laboratory will consider major taxonomic categories with emphasis on functional morphology and its evolutionary modifications. Prerequisite: BIOL 152 or BIOL 153. LEC.

**BIOL 545. Evolution of Development. 3 Hours. N.**
An advanced course designed to expose students to evolutionary change in the developmental patterning of plant and animal form. This course integrates multiple biological disciplines including phylogenetics, comparative morphology, molecular evolution and developmental genetics to explore biodiversity at a mechanistic level. Topics range from issues surrounding homology assessment to empirical examples of how changes in gene expression or function may have shaped morphological diversity. Prerequisite: BIOL 350 or equivalent. LEC.

**BIOL 550. General Plant Physiology. 3 Hours. N.**
The principal physiological processes of higher plants including photosynthesis, respiration, water relations, mineral nutrition, and factors associated with morphogenesis. Prerequisite: BIOL 408 or consent of instructor. LEC.

**BIOL 556. Histology. 3 Hours. N.**
Study of detailed microscopic anatomy of cells, tissues, and organs of mammals. Examples are drawn from normal and abnormal tissue, histochemistry, and electron microscopy. Lecture and demonstrations. A course in anatomy and physiology is highly recommended. Prerequisite: BIOL 152 or BIOL 153. LEC.

**BIOL 570. Introduction to Biostatistics. 3 Hours. N.**
Statistical concepts related to biological problems. Topics include the scientific method, data representation, descriptive statistics, elementary probability distributions, estimation and hypothesis testing, emphasizing the analysis of variation. Prerequisite: College algebra and ten hours of natural science. LEC.

**BIOL 571. Introduction to Biostatistics Laboratory. 2 Hours. U.**
Introductory statistical analyses on microcomputers. Data entry and export; simple graphs and exploratory data analysis; descriptive statistics; sampling; point and interval estimation; one and two sample t-tests; Chi-square; regression and correlation; analysis of variance; and nonparametric methods. Prerequisite: BIOL 570 or equivalent (may be taken concurrently). LAB.
BIOL 582. Principles of Biogeography. 3 Hours. N.
An introduction to the study of the distribution of life on earth. Covers geographical patterns of species diversity and the processes that give rise to those patterns: speciation, extinction, dispersal, vicariance, continental drift, ecological interactions, and phylogeny. Topics are presented within the framework of evolutionary history and include discussion of the biology of species on islands, terrestrial biomes, altitudinal zonation of species, latitudinal species gradients, historical factors governing species distributions, macroevolutionary trends in the fossil record, and application of modern molecular techniques for testing biogeographical hypotheses. Prerequisite: BIOL 152 or 153 and past or concurrent enrollment in BIOL 412, 413, 414, or 550; or permission of Instructor. LEC.

BIOL 583. Herpetology. 3 Hours. N.
A study of amphibians and reptiles. This lecture course will explore the taxonomic diversity of amphibians and reptiles, and current areas of active research in herpetology. Topics will be considered within a phylogenetic framework, and include discussion on systematics, biogeography, tetrapod origins, skeletal systems, growth, circulatory system, locomotion, thermal and water regulation, hibernation, ecology, sexual behavior, parental care, and mimicry. LEC.

BIOL 592. Ichthyology. 4 Hours. N.
A study of fishes. Lecture topics include the structure and adaptations of fishes to the aquatic environment and a survey of major fish groups with emphasis on their evolution and biogeography. Laboratory topics include a survey of fish diversity using specimens and the use of keys to identify fishes, with emphasis on the Kansas fish fauna. This course meets with BIOL 792. Students taking this course at the 700 level will have additional work required of them. Prerequisite: BIOL 152 and/or BIOL 413. LEC.

BIOL 593. Ornithology. 3 Hours. N.
A lecture and laboratory course on the biology, evolution, and diversity of birds. Prerequisite: BIOL 412 (or BIOL 413), or permission of instructor. LEC.

BIOL 594. Forest Ecosystems. 3 Hours.
Students learn basic concepts of forest productivity, forest water relations, forest hydrology, nutrient cycling, through soils and vegetation, nutrient uptake, carbon cycling, decomposition, linkages to aquatic ecosystems, and agents of disturbance to these cycles. The class spends a significant part of the semester exploring forest soil profiles and the challenges they present to different forest ecosystems. We discuss the function of forested ecosystems in a global context and identify and understand smaller-scale processes that drive forest function. Prerequisite: CHEM 135 or CHEM 195 or CHEM 175. LEC.

BIOL 595. Human Genetics. 3 Hours. N.
A lecture course providing balanced coverage of Mendelian and molecular genetics of humans; includes discussions and presentations on current issues in human and medical genetics. Prerequisite: BIOL 350. LEC.

BIOL 598. Research Methods. 3 Hours. N.
An introduction for pre-service teachers to the tools used by scientists to solve scientific problems. Topics include design of experiments and interpretation of their results, use of statistics, mathematical modeling, laboratory safety, ethical treatment of human subjects, writing scientific papers, giving oral presentations, and obtaining data from the scientific literature. Open only to students in the UCanTeach program. LEC.

BIOL 599. Senior Seminar: ______. 1 Hour. AE61 / N.
A synthesis and discussion of current trends in a discipline or disciplines related to one of the degrees offered in the biological sciences. Emphasis is placed on providing seniors with an appreciation of the discipline’s state-of-the-art and on developing skills for success in the next stage of a career in the biological sciences. Topics depend on the associated degree program. Prerequisite: Must be taken in the final year of a degree and students must have completed most of the course work required for one of the degrees in the biological sciences. LEC.

BIOL 600. Introductory Biochemistry, Lectures. 4 Hours. N.
Designed to offer the essentials of the chemistry of the constituents of living organisms and the changes these constituents undergo (during life processes) in the human body and other living forms. Prerequisite: BIOL 150 or BIOL 151 and one semester of organic chemistry. LEC.

BIOL 601. Principles of Biochemistry Laboratory. 2 Hours.
Theory and methods in the development of protein separation and purification, enzyme structure/function, and enzyme kinetics derived from primary literature searches and readings. Prerequisite or Co-requisite: BIOL 600; or consent of instructor. LAB.

BIOL 602. Plant Ecology. 3 Hours. N.
Introduction to basic concepts, focused at community and species level. Architectural ecomorphology of plants and their physiological responses to physical factors: solar radiation, climate, and soils. Plant succession as an interaction among species differing in ecomorphology and life style. Classification and ordination of plant communities: practice and theory. Other topics include: species diversity and lognormal distribution as to abundance classes; species/area relations and theory of island biogeography; allelochemic defenses; genecology; paleoecology. Prerequisite: BIOL 414 or consent of instructor. Concurrent enrollment in parallel laboratory, BIOL 607, recommended. LEC.

BIOL 603. Systematic Botany. 3 Hours. N.
A lecture/laboratory course providing hands-on experience with plant identification, a history of plant classification, the principles of nomenclature and character analysis, the basics of systematics theory, and a phylogenetically-oriented introduction to vascular plant diversity. Prerequisite: BIOL 413 or equivalent. LEC.

BIOL 606. Ecological Plant Physiology. 3 Hours. N.
Physiological responses of higher plants to environmental factors are discussed. Major topics are: water relations, heat transfer, resistance to water and temperature stress, dormancy, photoperiodism, photosynthesis and respiration under natural conditions, and effects of environmental pollution. Prerequisite: BIOL 408 or consent of instructor. LEC.

BIOL 607. Field and Laboratory Exercises in Plant Ecology. 2 Hours. U.
Introduction to quantitative analysis of plant communities and correlated environmental parameters; field and/or laboratory measurements of ecophysiological traits and comparative ecomorphology of principal species. Prerequisite: BIOL 414. Concurrent enrollment in parallel lecture, BIOL 602, recommended, but not required. LAB.

BIOL 609. Current Progress in Microbiology. 1 Hour. U.
A seminar course which will focus on current research in microbiology. A term paper will be required of each student. May be repeated for credit. Required of all majors in the senior year. Prerequisite: Two courses in microbiology. LEC.

BIOL 611. Molecular Systematics and Evolution. 4 Hours. N.
An introduction to the use of molecular data in systematics and population biology. Topics include: evolution of genes and proteins; properties of mitochondrial DNA, chloroplast DNA, ribosomal RNA genes, protein-coding genes, and repetitive DNAs; laboratory methods for data collection; and data analysis. Prerequisite: BIOL 350. BIOL 550 or equivalent is recommended. LEC.

BIOL 612. Fundamentals of Microbiology. 3 Hours. NB / N.
Lectures. Fundamental principles of microbiology with emphasis in physical and chemical properties of the bacterial cell; microbial
metabolism, cultivation, growth and death of bacteria; microbial genetics; pathogenesis and immunity, industrially important microorganisms. Meets with BIOL 400, but students will be given additional and more advanced assignments, and will carry higher expectations. Prerequisite: BIOL 150 or BIOL 151 and two semesters of college chemistry, or consent of instructor. LEC.

**BIOL 613. Biology of Honeybees. 3 Hours. N.**
Social organization, evolution, behavior, morphology, communication, pollination biology, and ecology of honeybees. Experience will be gained with colony dynamics and behavior while working with bees in the field. Prerequisite: BIOL 152, BIOL 153, or consent of instructor. LEC.

**BIOL 616. Medical Entomology. 3 Hours. N.**
A study of the major human diseases transmitted by arthropods with emphasis on the biology and ecology of vectors, vector feeding mechanisms as related to disease transmission, epidemiology of arthropod-borne diseases, and the impact of arthropod-borne diseases on humans. Laboratory work on recognition of vector species, information sources, and use of taxonomic keys. Prerequisite: BIOL 152 or BIOL 153 and a course in microbiology or consent of instructor. LEC.

**BIOL 622. Paleontology. 3 Hours. N.**
A study of the structure and evolution of ancient life; the nature and diversity of life through time; the interactions of ancient organisms with their environments and the information that the study of fossils provides about ancient environments; the use of fossils to determine the ages of rocks and the timing of past events in earth history; and the patterns of extinction through time. (Same as GEOL 521.) Prerequisite: BIOL 100, BIOL 101, BIOL 152, BIOL 153, GEOL 105, or GEOL 304. LEC.

**BIOL 623. Paleontology Laboratory. 1 Hour. U.**
Laboratory course in the study of fossils with emphasis on the practice of paleontology and the morphology of ancient organisms. (Same as GEOL 523.) LAB.

**BIOL 625. Behavioral Ecology and Sociobiology. 3 Hours. N.**
The role of natural selection in animal behavior, and the influence of behavior on population biology and social dynamics of animal species. Topics include: game theory and optimization as applied to animal behavior; altruism, cooperation and competition; kin recognition and interactions; group formation and dynamics, dominance, aggression, and territoriality; feeding strategies; reproductive behavior including mate choice, parental care, and mating systems. Prerequisite: BIOL 152; either BIOL 350, BIOL 412 or BIOL 414 recommended; or consent of instructor. LEC.

**BIOL 630. Conservation and Wildlife Biology. 3 Hours. N.**
Examination of the concepts and processes involved in conservation of plant and animal populations and communities. Topics to be covered include conservation of endangered species, problems with invasions of exotic species and habitat fragmentation, wildlife management, and design of nature reserves. Prerequisite: BIOL 414, BIOL 412 strongly recommended. LEC.

**BIOL 636. Biochemistry I. 3 Hours. N.**
First semester of a two-semester lecture course in introductory biochemistry. Emphasis upon the physical structure of macromolecules and membranes, enzyme structure/function, and enzyme kinetics. Prerequisite: CHEM 335 or consent of instructor. LEC.

**BIOL 637. Introductory Biochemistry Laboratory. 2 Hours. U.**
The laboratory portion of BIOL 600 or 636. Experiments have been selected to introduce the student to cell constituents and biochemical reactions. One four-hour laboratory and one-hour lecture each week. Prerequisite: BIOL 600 or BIOL 636, or concurrent enrollment. LAB.

**BIOL 638. Biochemistry II. 3 Hours. N.**
Second semester of a two-semester lecture course in introductory biochemistry. Emphasis upon the metabolism of carbohydrates, lipids, amino acids, proteins, and nucleic acids. Prerequisite: BIOL 636. LEC.

**BIOL 639. Advanced Biochemistry Laboratory. 2 Hours. U.**
The laboratory portion of BIOL 638. One four-hour laboratory and a one-hour lecture each week. Experiments have been selected to familiarize students with experimental biochemical techniques using state-of-the-art methodology. Prerequisite: BIOL 637 and 638 (BIOL 638 may be taken concurrently). LAB.

**BIOL 640. The Biology and Evolution of Fossil Plants. 3 Hours. N.**
A lecture course in which fossil plants, protists and fungi are examined throughout geologic time. Emphasis will be directed at paleoecology, biogeography and the stratigraphic distribution and composition of ancient floras. (Same as GEOL 528.) Prerequisite: BIOL 413 or permission of instructor. LEC.

**BIOL 641. Laboratory in Paleobotany. 1 Hour. U.**
An examination of selected fossil plants throughout geological time and the techniques used to study them; laboratory will include identification and the use of plant fossils in biostratigraphy. (Same as GEOL 529.) Prerequisite: BIOL 413 or permission of instructor. Must be taken concurrently with BIOL 640. LAB.

**BIOL 644. Comparative Animal Physiology. 3 Hours. N.**
Lecture and discussion of the basic mechanism of organic maintenance and integration; a comparative treatment of the uniformities and diversity of animal function; emphasis on environmental adaptations and evolutionary relationships. Prerequisite: BIOL 408, five hours of organic chemistry, and one year of college physics, or consent of instructor. LEC.

**BIOL 646. Mammalian Physiology. 4 Hours. N.**
Lectures and demonstrations. An intermediate course in the functions, mechanisms and interactions of mammalian organ systems. Discussions span topics from molecular to whole animal functions. Required for pharmacy students and strongly recommended for students planning advanced work in any area of physiology. The student is assumed to have the knowledge and ability to utilize their math and science background. Prerequisite: Five hours of organic chemistry, a course of college physics. LEC.

**BIOL 647. Mammalian Physiology Laboratory. 2 Hours. U.**
Laboratory experiments in representative areas of mammalian physiology designed to complement BIOL 646. Not open to students with credit in BIOL 247. Prerequisite or Co-requisite: BIOL 646. LAB.

**BIOL 648. Systematics and Macroevolution. 3 Hours. N.**
An introduction to the theory of macroevolution and the fundamental principles of systematics. Intended for students planning to pursue advanced studies in organismal biology, evolution, and/or systematics. Topics in macroevolution will include hierarchy theory, species concepts, speciation and species selection. Methods of phylogenetic estimation will be discussed and include parsimony, Maximum likelihood and Bayesian inference. Evolutionary studies utilizing phylogenies including tests of homology, studies of character evolution, and biogeography will be discussed. An overview of classification and nomenclature will also be provided. Prerequisite: BIOL 412 or equivalent. LEC.

**BIOL 650. Advanced Neurobiology. 3 Hours. N.**
The course builds an in depth knowledge about basic mechanisms of synaptic communication among nerve cells and their targets, and the structure and function of nervous systems. Topics include nervous system development and synapse formation, structure and function of neurons, physiological and molecular basis of synaptic communication between neurons, mechanisms of synaptic plasticity involved in learning and
memory, sensory systems (vision, auditory, vestibular, motor reflexes and pain), processing of neural information at cellular and system levels, synapse regeneration and diseases of the nervous system. Prerequisite: BIOL 435 (Introduction to Neurobiology), or consent of instructor. LEC.

BIOL 652. Comparative Animal Behavior. 3 Hours. N.
A comparative analysis of behavior as an adaptive mechanism; emphasis on ontogenetic and evolutionary aspects of behavior. Prerequisite: BIOL 152 or BIOL 153, and PSYC 104, or consent of instructor. LEC.

BIOL 654. Comparative Animal Behavior, Laboratory. 1 Hour. U.
Laboratory and field phase of BIOL 652. Students may elect sections according to their special interests. Prerequisite: Prior or concurrent enrollment in BIOL 652. LAB.

BIOL 655. Behavioral Genetics. 3 Hours. N.
A survey of behavioral genetics in animals and humans. Emphasis is on how the methods and theories of quantitative, population and molecular genetics can be applied to individual and group differences in animals. Behaviors covered may include circadian rhythms, foraging, courtship, learning and memory, anxiety, social structures and human behaviors. Prerequisite: BIOL 350 or consent of instructor. LEC.

BIOL 656. Ecosystem Ecology. 3 Hours. N.
An introduction to the patterns and processes that affect terrestrial ecosystems. Emphasis is placed on understanding nutrient cycles (e.g., carbon nitrogen phosphorous), hydrologic cycles, and patterns of net primary productivity. The role of both natural and anthropogenic disturbances in structuring terrestrial ecosystems is examined in the context of global land-use patterns. Discussion of current research literature will be expected. (Same as EVRN 656.) Prerequisite: BIOL 414 and CHEM 130. LEC.

BIOL 661. Ecology of Rivers and Lakes. 3 Hours. N.
Study of the ecology and structure of creeks, rivers, ponds, lakes, and wetlands as well as some of the major human impacts. Prerequisite: One year of biology or permission of the instructor. BIOL 414 recommended. LEC.

BIOL 662. Aquatic Ecology Laboratory. 2 Hours. U.
A field and laboratory course introducing biological, physical, and chemical characteristics of lentic (ponds and lakes) and lotic (creeks and rivers) habitats. Students learn sampling and monitoring techniques and how to classify aquatic biota at higher taxonomic levels. Co- or prerequisite: CHEM 130 or CHEM 190 or CHEM 170, and BIOL 661. LAB.

BIOL 664. Vertebrate Biology. 3 Hours. N.
A laboratory course emphasizing principles of systematics and identification and the behavioral ecology of local vertebrate animals. Prerequisite: BIOL 152, BIOL 153 or consent of instructor. LAB.

BIOL 667. Chemical Communication in Sex, Feeding, and Fighting. 3 Hours. N.
The course focuses on the role of chemical information molecules in the interrelationships among organisms, with particular attention to interactions (a) within and between animal species, (b) within and between plant species, (c) between animals and plants, (d) between predators and prey, and (e) between parasites and hosts. Prerequisite: BIOL 100 or BIOL 101 or BIOL 152 or BIOL 153 or consent of instructor. LEC.

BIOL 668. Evolutionary Ecology. 3 Hours. N.
Emphasis will be on the themes that interface ecology and evolutionary studies. Topics will include selection theory; reproductive, foraging, and sex allocation problems; coevolution; patterns or morphological and behavioral adaptations; competition, predation, and population regulation. Special attention will be given to the philosophy and practice of resolving unanswered questions in evolutionary ecology. Prerequisite: BIOL 412 or permission of instructor. LEC.

BIOL 669. Biology of Freshwater Invertebrates. 3 Hours. N.
A lecture, field, and laboratory course examining the classification, biological characteristics, and ecology of invertebrates in lotic and lentic habitats. Major groups of benthic and planktonic invertebrates will be studied, including aquatic insects, crustaceans, molluscs, and others. Prerequisite: BIOL 540, BIOL 660, BIOL 661, or BIOL 663, or permission of instructor. LEC.

BIOL 672. Gene Expression. 3 Hours. N.
A study of the structure and expression of genes in prokaryotes and eukaryotes. Emphasis on the mechanisms of DNA, RNA, and protein biosynthesis. Prerequisite: A course in biochemistry or consent of instructor. LEC.

BIOL 673. Cellular and Molecular Neurobiology. 3 Hours.
Mechanisms of neuronal function and development will be considered at the cellular and molecular levels. Synaptic mechanisms of learning and memory, modulation of transmitter release, and the molecular basis of neurodegenerative disorders will also be discussed. Prerequisite: BIOL 435, BIOL 646, or permission of instructor. LEC.

BIOL 676. Mammalian Neuroanatomy. 3 Hours. N.
Lectures, video tape demonstrations, and laboratory dissection of mammalian nervous system with some attention to human material. Major emphasis on nervous system structure as it relates to function. For neurobiology and pre-health science majors. Prerequisite or Corequisite: A course in neurobiology (BIOL 435, BIOL 650), or permission of the instructor. LAB.

BIOL 688. The Molecular Biology of Cancer. 3 Hours. N.
The basic concepts of molecular biology are examined and used to probe the process by which a normal cell becomes a cancer cell. The course investigates DNA damage and repair, chemical carcinogenesis, gene cloning and manipulation, the control of gene expression in eukaryotes, tumor viruses, the roles of oncogenes and tumor suppressor genes in carcinogenesis, and cancer therapy. Prerequisite: BIOL 350 and BIOL 416; or BIOL 536; or consent of instructor. LEC.

BIOL 694. The Art of Becoming a Professional Scientist. 3 Hours. N.
Discusses aspects of graduate education that are directed at students entering graduate school and that focus on how to be successful in the post PhD phases of a career, but that must be initiated early in the graduate student program of study. One three hour discussion per week. Senior standing and planning on entering graduate school. LEC.

BIOL 695. Animal Communication and Sensory Ecology. 3 Hours. N.
Lectures and discussion sessions. A study of the propagation and perception of olfactory, acoustic, and visual signals produced by animals in the context of communication. Both physiological and evolutionary perspectives will be treated. Prerequisite: A course in behavior or consent of instructor. LEC.

BIOL 699. Biology Honors Research Colloquium. 1 Hour. AE61 / U.
Students pursuing Honors in Biology will meet weekly to discuss, both formally and informally, their honors research. Background information and experimental approaches of the research will be examined and critiqued. Prerequisite: Enrollment in Biology Honors program and consent of instructor. LEC.

BIOL 700. Conservation Principles and Practices. 3 Hours.
This course will acquaint the future museum professional with problems in conserving all types of collections. Philosophical and ethical approaches will be discussed, as well as the changing practices regarding conservation techniques. Emphasis will be placed on detection and
identification of causes of deterioration in objects made of organic and inorganic materials, and how these problems can be remedied. Storage and care of objects will also be considered. (Same as AMS 714, GEOL 780, HIST 722 and MUSE 706.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

BIOL 701. Topics in: _____ 1-3 Hours.
Advanced courses on special topics in biology, given as need arises. Lectures, discussions, readings, laboratory, or field work. Students may select sections according to their special interests. LEC.

BIOL 702. Laboratory Practice: Radiation Safety Procedures. 0.75 Hours.
An introduction to the basic properties of radioisotopes, and the fundamental safety practices needed for the safe use of low levels of radioactive materials. Risks associated with radiation exposures and applicable state and federal regulations are discussed. (Normally the content of the first ten hours of BIOL 703.) Prerequisite: Senior standing in one of the sciences. LAB.

BIOL 703. Radioisotopes and Radiation Safety in Research. 1.25 Hour.
An introduction to the properties of radioactive materials, radiations, and their interaction with matter, methods of radiation detection and measurement, protective measures, applicable state and federal regulations, design and implementation of safety management systems in the research laboratory, design of tracer experiments, and the risks associated with radiation exposure. Prerequisite: BIOL 702 or concurrent enrollment in BIOL 702, algebra and two semesters of either physics or chemistry. LEC.

BIOL 704. Research Animal Methods. 3 Hours.
Lectures, discussions, and laboratory sessions. Selection of proper animal models for specific research studies. Varies external influences that alter research data. Routine techniques including restraint, sample collection, injection, anesthesia and euthanasia. Prevention and handling of common research animal problems or diseases. Proper and humane animal care as defined by the Federal Animal Welfare Act. Prerequisite: Senior or graduate standing in one of the biological sciences or permission of instructor. LEC.

BIOL 706. Current Trends in Curation and Collection Management. 2 Hours.
Seminar course to provide students with a working knowledge of the primary issues and current trends in building, administration, and care of scientific collections. Topics include permits, collecting, accessioning, cataloging, preservation, preventive conservation, and access to collections and data. The course format consists of readings, lectures, guest speakers, discussions, and visits to scientific collections on campus. (Same as MUSE 710.) LEC.

BIOL 708. External Morphology of Insects. 4 Hours.
A study of external structure common to all insect orders, with detailed comparative laboratory studies of representative species. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 500, BIOL 502 or equivalent, or permission of instructor. LEC.

BIOL 709. Immature Insects. 3 Hours.
The classification, structure, and ecological distribution of immature insects, especially larvae of Holometabola. Includes both lectures and laboratories. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 502 or consent of instructor. LEC.

BIOL 710. Insect Development. 3 Hours.
A study of the embryonic and postembryonic development of insects. Emphasis is placed on developmental physiology of the early embryonic stages, the morphogenesis of organ systems, and the action of hormones in postembryonic development. Laboratory includes demonstrations and histological and experimental work. Prerequisite: Consent of instructor or BIOL 500. LEC.

BIOL 711. Insect Systematics. 4 Hours. N.
A study of the diversity of insects, including the classification of all living and fossil orders and the more common families primarily on the basis of external morphology. The biology, ecology, phylogeny, and geological history of each order will be covered. Includes both lectures and laboratory exercises. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 500 and BIOL 502 or equivalent, or permission of instructor. LEC.

BIOL 712. Evolutionary Biology - Graduate. 3 Hours.
A thorough survey of evolutionary biology. Topics include: the history of evolutionary thought, genetics and the nature of variation, adaptation, speciation, coevolution, macroevolution, the comparative method, and the history of life. Prerequisite: BIOL 350 or equivalent or consent of instructor. LEC.

BIOL 714. Community and Ecosystem Ecology. 3 Hours.
Study of factors determining distribution of organisms, community structures, energy flow in ecosystems, and functional analysis of ecosystems. Discussion periods will include reading from current scientific literature. Prerequisite: Intended for graduate students in biology who did not have an undergraduate course in community ecology. Consent of instructor. LEC.

BIOL 716. Insect Physiology and Internal Morphology. 3 Hours.
Mechanisms and integration of the internal life-supporting systems of insects, emphasizing the interdependence of structure and function. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 408 and BIOL 500, or permission of instructor. LEC.

BIOL 717. Insect Ecology and Behavior. 3 Hours.
Lectures and laboratory demonstrations. A study of insect population dynamics, life history strategies, co-evolutionary interactions, foraging, and reproductive and social behaviors. Approaches from basic population biology and behavioral ecology are emphasized. Prerequisite: A course in ecology or behavior, or consent of instructor. LEC.

BIOL 718. Laboratory in Molecular Biology. 3 Hours.
Practical experience in recombinant DNA technology and molecular cloning. Given concurrent with BIOL 418. Prerequisite: BIOL 416 or course in biochemistry or microbiology. Training in radiation safety preferred. LAB.

BIOL 719. Light and Electron Microscopy. 3 Hours.
A lecture and laboratory class emphasizing the theoretical and practical use of light microscopes and scanning and transmission electron microscopes. A variety of approaches using light microscopy will be employed, including brightfield, phase, fluorescence, DIC, polarization, and darkfield optics. A variety of techniques will be used to prepare specimens and view them using scanning and transmission electron microscopy. Video and computer-aided analysis of images as well as conventional photographic techniques will be included. Prerequisite: Permission of instructor. LEC.

BIOL 720. Scientific Illustration. 3 Hours.
Lectures, demonstrations, and studio participation. Instruction in the preparation of illustrations for scientific publications, theses, and oral and poster presentations. Emphasis on basic drafting and layout skills,
and pen and ink and tone renderings intended for publication. Attention
given to preparation of photographs for publication and oral presentations.
Instruction provided in use of specialized optical equipment for drawing.
Prerequisite: Upper division or graduate standing and permission of
instructor. LEC.

BIOL 721. Microbial Genetics. 3 Hours.
Bacteria and viruses as models of genetic systems. Mutagenesis and
repair. Transformation, transductions, and recombination. Molecular
biology of gene expression. This course is the graduate-level section of
BIOL 518 and MCRB 510. Graduate students will be assigned additional
and more advanced studies. Prerequisite: An introductory microbiology
course or permission of instructor. LEC.

BIOL 725. Aquatic Entomology. 4 Hours.
Identification of aquatic insects and detailed study of their community
structure and dynamics. The external morphology of all aquatic orders
will be covered, followed by consideration of specific physiological and
behavioral adaptations that facilitate an aquatic existence. Includes
both lectures and laboratory exercises. Requirements include making a
collection of aquatic insects. The course is offered at the 500 and 700
levels, with additional assignments at the 700 level. Prerequisite: BIOL
414 or BIOL 500 or permission of instructor. LEC.

BIOL 742. Plant Population Biology. 3 Hours.
A survey of the major areas of plant population ecology and genetics
including competition, demography, pollination ecology, gene flow, natural
selection and mating systems. Each topic is introduced by a lecture and is
further explored by discussion of the current literature. Prerequisite: BIOL
412 or equivalent. LEC.

BIOL 743. Population Genetics. 3 Hours.
Description and discussion of genetic variation in natural populations. The
effects and interaction of selection, migration, mutation, mating systems,
and finite population size on the maintenance of genetic variation.
Discussion of the interface with evolution and population ecology.
Prerequisite: BIOL 404 and BIOL 412 or equivalent. LEC.

BIOL 745. Laboratory in Experimental Ecology. 3 Hours.
A series of seven laboratory modules emphasizing quantitative methods
and experimental analysis. Each module requires data collection analysis,
and written interpretation. Modern instrumentation, including use of
microcomputers, is emphasized. Topics include ecological modeling, ecological genetics, physiological ecology, community structure, mating
reproduction and precipitation and soil chemistry. Prerequisite: BIOL
412 or BIOL 414. LAB.

BIOL 746. Principles of Systematics. 4 Hours.
Lectures: historical and philosophical foundations of modern systematics;
theory and practice of classifications; character analysis; phylogeny
reconstruction; formulation and testing of systematic hypotheses;
species concepts and speciation; the interface between systematics
and evolutionary theory, particularly the origins of asymmetric diversity
patterns, macroevolution, adaptation, coevolution, and the evolution of
higher taxa; roles of paleontological, ontogenetic, biochemical, and
molecular data in systematics; and biogeography. Laboratory work:
practical applications of nomenclature, development of keys, descriptions
and systematic revisions, character analysis, phylogeny reconstruction,
hypothesis testing, interpretation of biogeographic patterns. (Three hours
lecture and two hours laboratory per week.) Prerequisite: BIOL 628 or
equivalent. Intended for graduate students planning to specialize in
systematics. LEC.

BIOL 747. Quantitative Genetics. 3 Hours.
A discussion of genetic traits for which individual gene differences do
not separate a population into qualitatively distinct groups. Includes
the estimation of heritability, genetic determination, and number of loci,
and a study of selection theory. Prerequisite: BIOL 404 or BIOL 412 or
equivalent and a course in statistics. LEC.

BIOL 749. Topics in Stable Isotopes in the Natural Sciences.: 2-3 Hours.
Isotopic compositions of substances provide powerful insights into many
topics in the natural sciences. Applications of isotopic analyses of carbon,
hydrogen, oxygen, and nitrogen to selected research topics such as plant
resource use, food web analysis, paleoecology, paleoalid reconstruction,
hydrology, and soils genesis will be examined. Knowledge of isotope
chemistry is not required. (Concepts necessary to understand pertinent
articles will be taught during the first class meetings.) May be repeated.
(Same as GEOG 749.) LEC.

BIOL 750. Advanced Biochemistry. 3 Hours.
The structures and dynamics of proteins and nucleic acids will be
developed in terms of well-understood examples which will also be used
to discuss the function of major classes of proteins. The application of
structural and dynamical principles to biological membranes and their
function will also be discussed. Prerequisite: BIOL 807 and BIOL 808, a
general biochemistry course, or permission of instructor. LEC.

BIOL 751. Plant Communities of North America. 3 Hours.
Physiognomic and floristic analysis of the vegetation, with emphasis on
the Southwest; distribution of communities in relation to climate,
substratum, and disturbance; recognition of dominant elements
of vegetation through study of specimens and illustrative material.
Prerequisite: BIOL 602. LEC.

BIOL 752. Cell Biology. 3 Hours.
A lecture course emphasizing biochemical, developmental, and molecular
aspects of cell structure and function. Prerequisite: BIOL 807 and BIOL
808, or BIOL 416 or BIOL 536, or permission of instructor. LEC.

BIOL 753. Advanced Genetics. 3 Hours.
An advanced course in modern genetic analysis of eukaryotes. Course
material will consist mainly of primary literature in the field of genetics.
Topics covered include: genomic structure and genome projects; nature of
mutations; mutant analysis; genetic recombination and mapping; analysis of
genetic function; genetic buffering; RNAi and epigenetics; and the
genetics of model organisms. This course is meant for graduate students
in the Molecular Biosciences and Genetics programs. Prerequisite: BIOL
807 and BIOL 808, or a course in genetics and a course in biochemistry,
or permission of the instructor. LEC.

BIOL 754. Brain Diseases and Neurological Disorders. 3 Hours.
Major brain diseases and neurological disorders such as stroke,
Alzheimer’s Disease, Parkinson’s Disease, Huntington’s Disease, Multiple
Sclerosis, Epilepsy, Schizophrenia, etc., will be discussed in terms
of the etiology, molecular, and cellular basis of potential therapeutic
interventions. Graduate students are required to present original research
paper assigned by the instructor to the class in addition to the other
assignments for all the students enrolled. Prerequisite: BIOL 150, or
consent of instructor. LEC.

BIOL 755. Mechanisms of Development. 3 Hours.
Molecular aspects of differential gene function, signal transduction,
and cell polarity in the regulation of morphogenesis. Prerequisite: BIOL
807 and BIOL 808 for graduate students; BIOL 417 or equivalent for
undergraduate students; or permission of instructor. LEC.

BIOL 756. Cell and Tissue Culture Laboratory. 3 Hours.
An introduction to current laboratory methods of cell and tissue culture,
intended to provide an understanding of and substantial experience in
several aspects of animal cell growth, cell synchrony, cell nutrition, the
production and selection of mutant cell lines, the production and use of
heterokaryons and interspecific hybrids, cell transformation in vitro, the
cultivation and characterization of differentiated cells in culture, enzyme
induction, and cell karyotyping. LAB.

BIOL 757. Carcinogenesis and Cancer Biology. 3 Hours.
This course surveys the field of cancer research. The major goal is
to introduce the breadth of cancer research while, at the same time,
providing sufficient depth to allow the student to recognize problems in
cancer and to design experiments which study cancer biology. Toward
that end, the student should (at the conclusion of the course) be able
to: define cancer, identify and discuss its causes; identify and discuss
the genetic basis for cancer development and progression; discuss the
theoretical basis for cancer therapy design and efficacy testing; discuss
the biochemical, molecular and cellular events involved in the natural
history of major human neoplasms. Prerequisite: Permission of instructor. LEC.

BIOL 767. The Vegetation of the Earth. 3 Hours.
A discussion of the world’s vegetation in its natural condition and as
affected by man. Included are aspects of its economic and cultural
usefulness and the problem of its preservation. Prerequisite: BIOL 634.
LEC.

BIOL 768. Plant Molecular Biology. 3 Hours.
Gene expression in chloroplasts, mitochondria, and plant nuclei, and
regulatory interactions among these genomes. Special topics include
the molecular biology of the photosynthetic apparatus, nitrogen fixation, stress
and development, viruses and viroids, transposable genetic elements
and gene evolution, and gene transfer and plant genetic engineering.
Prerequisite: A course in biochemistry, cell or molecular biology, or
permission of instructor. LEC.

BIOL 770. Plant Biochemistry. 3 Hours.
A detailed study of plant biochemistry with emphasis on metabolic and
regulatory processes particularly characteristic or unique in plants.
Prerequisite: BIOL 600 or equivalent. LEC.

BIOL 772. Gene Expression. 3 Hours.
A study of the structure and expression of genes in prokaryotes and
eukaryotes. Emphasis on the mechanisms of DNA, RNA, and protein
biosynthesis. This course meets concurrently with BIOL 672 and is open
to graduate students seeking a more rigorous treatment of techniques
in molecular biology that students receive in BIOL 672. Prerequisite: A course in biochemistry or consent of instructor. LEC.

BIOL 775. Chemistry of the Nervous System. 3 Hours.
A detailed study of the molecular aspects of nerve transmission will
be covered with special emphasis on the uptake, storage, release,
biosynthesis and metabolism of specific neurotransmitters. Drugs
affecting these processes and current research on receptor isolation
and receptor mechanisms will be discussed from a chemical viewpoint.
( Same as CHEM 775, MDCM 775, NURO 775, PTX 775, and PHCH 775. )
Prerequisite: BIOL 600 or equivalent or consent of instructor. LEC.

BIOL 777. Integrative and Developmental Neurobiology. 3 Hours.
Cellular processing of neural information both at the local level and in
long distance integration. Local computing functions, and integration of
these functions among the various areas to produce coherent movement
and perceptions will be discussed. A description of forces guiding the
development of the nervous system to form a coherent working system
in both invertebrate and vertebrate animals will be presented, as will
determinants of brain sexual dimorphism. Prerequisite: An upper level
course in physiology or BIOL 520. LEC.

BIOL 780. Fisheries. 2 Hours.
Philosophy and practice of conservation as it applies to major world
fisheries. Species principally utilized, factors affecting production,
methods for appraisal and management of stocks. Historical and
prospective roles of the fisheries in relation to human food supplies and
recreational needs. Prerequisite: BIOL 412. LEC.

BIOL 781. Fisheries, Laboratory. 2 Hours.
Training in field and laboratory techniques for fishery research and
management. Prerequisite: Concurrent or prior enrollment in BIOL 780.
LAB.

BIOL 782. Principles of Biogeography. 3 Hours.
A synthesis of historical and ecological biogeography of plants and
animals, treating vicariance, dispersal, and community patterns; lectures;
readings, discussions. A course in systematics and a course in ecology
are recommended. LEC.

BIOL 783. Herpetology. 3 Hours. N.
A study of amphibians and reptiles. This lecture course will explore the
taxonomic diversity of amphibians and reptiles, and current areas of active
research in herpetology. Topics will be considered within a phylogenetic
framework, and include discussion on systematics, biogeography,
tetrapod origins, skeletal systems, growth, circulatory system, locomotion,
thermal and water regulation, hibernation, ecology, sexual behavior,
parental care, and mimicry. Students taking the course at the 700 level
will have additional work required of them. Prerequisite: BIOL 152
Principles of Organismal Biology, and/or BIOL 413 History and Diversity of
Organisms. LEC.

BIOL 784. Introduction to Museum Public Education. 3 Hours.
Consideration of the goals of an institution’s public education services,
developing programs, identifying potential audiences, developing
audiences, and funding. Workshops and demonstrations are designed
for students to gain practical experience working with various programs
and developing model programs. (Same as AMS 797, GEOL 784, HIST
721, and MUSE 705.) Prerequisite: Museum Studies student, Indigenous
Nations Studies student, or consent of instructor. LEC.

BIOL 785. Museum Management. 3 Hours.
Lecture, discussion, and laboratory exercises on the nature of museums
as organizations; accounting, budget cycles, personnel management,
and related topics will be presented using, as appropriate, case studies
and a simulated museum organization model. (Same as AMS 731, GEOL
783, HIST 728, and MUSE 701.) Prerequisite: Museum Studies student,
Indigenous Nations Studies student, or consent of instructor. LEC.

BIOL 786. Fundamentals of Tropical Biology. 1-8 Hours.
The tropical environment and biota; ecologic relations, communities
and evolution in the tropics. Primarily a field course, taught in Costa Rica; two
sessions per year, February-March, July-August. FLD.

BIOL 787. Introduction to Museum Exhibits. 3 Hours.
This course will consider the role of exhibits as an integrated part of
museum collection management, research, and public service. Lecture
and discussion will focus on issues involved in planning and producing
museum exhibits. Laboratory exercises will provide first hand experience
with basic preparation techniques. Emphasis will be placed on the
management of an exhibit program in both large and small museums in
the major disciplines. (Same as AMS 700, GEOL 781, HIST 723, and
MUSE 703.) Prerequisite: Museum Studies student, Indigenous Nations
Studies student, or consent of instructor. LEC.

BIOL 788. The Nature of Museums. 3 Hours.
The purpose of this course is to provide an overview of the kinds of
museums, their various missions, and their characteristics and potentials
as research, education, and public service institutions responsible for
collections of natural and cultural objects. (Same as AMS 720, GEOL
782, HIST 720, and MUSE 702.) Prerequisite: Museum Studies student,
Indigenous Nations Studies student, or consent of instructor. LEC.
BIOL 789. Field Course in Entomology. 1-6 Hours.
Field experiences in various habitats, with an emphasis in ecology, systematics, behavior, and collection techniques. FLD.

BIOL 790. Paleontology of Lower Vertebrates. 3 Hours.
General account of the osteology, geological distribution, and evolution of the principal groups of fishes, amphibians, reptiles, and birds. Lectures and laboratory. (Same as GEOL 725.) LEC.

BIOL 791. Paleontology of Higher Vertebrates. 3 Hours.
Evolution of mammals, and anatomical modifications involved in the process as ascertained from the fossil record. Lectures and laboratory. (Same as GEOL 726.) LEC.

BIOL 792. Ichthyology. 4 Hours.
A study of fishes. Lecture topics include the structure and function of fishes; the adaptations of fishes to the aquatic environment; and a survey of major fish groups with emphasis on evolutionary relationships and biogeography. Laboratory topics include a survey of fishes using specimens, and the use of keys to identify fishes with emphasis on the Kansas fish fauna. A research paper using primary scientific literature is required. Prerequisite: Graduate standing or permission of the instructor. LEC.

BIOL 794. Mammalogy. 3 Hours.
A study of mammals, with emphasis on systematics, biogeography, and natural history. Lectures, laboratory, and field study. Prerequisite: BIOL 100 or BIOL 413. LEC.

BIOL 795. Biology of Amphibians. 3 Hours.
Evolutionary biology of amphibians with emphasis on systematics, morphology, development, reproductive strategies, and distribution; lectures and laboratory. Prerequisite: BIOL 664 or permission of instructor. LEC.

BIOL 796. Biology of Reptiles. 3 Hours.
Evolutionary biology of reptiles with emphasis on systematics, morphology, reproductive strategies, and distribution; lectures and laboratory. Prerequisite: BIOL 664 or permission of instructor. LEC.

BIOL 797. Field Course in Vertebrate Paleontology. 3-6 Hours.
Training in the techniques of collecting vertebrate fossils, description and interpretation of the stratigraphy of fossiliferous sediments, and interpretation of the adequacy and bias of samples. FLD.

BIOL 798. Principles and Practices of Museum Collection Management. 3 Hours.
Lecture, discussion, and laboratory exercises on the nature of museum collections, their associated data, and their use in scholarly research; cataloging, storage, fumigation, automated information management and related topics will be presented for museums of art, history, natural history and anthropology. (Same as AMS 730, GEOL 785, HIST 725, and MUSE 704.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

BIOL 799. Natural History Museum Apprenticeship. 1-6 Hours.
Provides directed, practical experience in collection care and management, public education, exhibits and administration with emphases to suit the particular requirements of each student. Full time for one semester or half time for two semesters. (Same as AMS 799, ANTH 799, GEOL 723, HIST 799, and MUSE 799.) FLD.

BIOL 801. Topics in: ____. 1-3 Hours.
Advanced courses on special topics in biology, given as need arises. Lectures, discussing readings, laboratory or field work. Students may select sections according to their special interests. LEC.

BIOL 802. The Art of Becoming a Professional Scientist. 3 Hours.
Discusses aspects of graduate education that are directed at the post PhD phases of a career, but that must be initiated early in the graduate student program of study. One 3-hour discussion per week. LEC.

BIOL 804. Scientific Integrity: Molecular Biosciences. 1 Hour.
This course introduces aspects and issues associated with being an ethical, responsible, and professional research scientist. Included topics are professional practices, regulations, and rules that define the responsible and ethical conduct of research. Graduate students will become familiar with and prepare to navigate through challenges that occur during a career in research science. The format of individual classes is expected to incorporate both instruction and discussion. Prerequisite: Admission to the graduate program in Molecular Biosciences, or consent of instructor. LEC.

BIOL 806. Major Patterns in Insect Evolution. 3 Hours.
Extensive reading and discussion of the primary literature on topics relating to major patterns in the evolutionary history of insects, including the fossil history of insects, the monophyly of arthropods, the origin of wings, the changing role of insects in ecological communities, the origins of social behavior, modes and mechanisms of speciation, and patterns of species diversity. Assigned readings require a solid background in evolutionary theory and insect biology, especially morphology, development, and classification. Prerequisite: Permission of instructor. LEC.

BIOL 807. Graduate Molecular Biosciences. 6 Hours.
An introduction to the advanced study of biochemistry, microbiology, genetics, cell and developmental biology, and neurobiology for all Molecular Biosciences graduate students. Topics can include macromolecular structure, metabolism, kinetics and thermodynamics, bioinformatics, prokaryotic and eukaryotic genetic mechanisms, cell structure and function, signal transduction, basic and pathogenic bacteriology, immunology, virology, membrane potentials, synaptic transmission, and sensory neurophysiology. Prerequisite: Admission to the graduate program in Molecular Biosciences, or consent of instructor. LEC.

BIOL 809. Graduate Molecular Biosciences for Medicinal Chemists. 4 Hours.
An introduction to the advanced study of biochemistry, microbiology, and neurobiology for graduate students in Medicinal Chemistry. Prerequisite: Admission to the graduate program in Medicinal Chemistry and consent of instructor. LEC.

BIOL 810. Seminar in Biochemistry. 1 Hour.
Presentation and discussion of specific areas of recent research in biochemistry. This course may be taken more than once. LEC.

BIOL 811. Advanced Molecular and Cellular Immunology. 2 Hours.
Covers recent advances in immunochemistry and immunobiology. Topics include structure and function of antibodies, hybridoma systems, idiotypes, induction and regulation of the immune response through cell interactions and cytokine action, and the role of immune activity in disease states such as hypersensitivity, autoreactivity, and cancer. Prerequisite: BIOL 807 and BIOL 808, or an introductory course in immunology, or consent of instructor. LEC.

BIOL 812. Mechanisms of Host-Parasite Relationships. 2 Hours.
Emphasis is on virulence factors of microorganisms and the host response to infection. Topics will include pathogenesis of intracellular and extracellular parasites, bacterial adhesins, and toxins, and the role of innate and acquired immunity in host resistance and the response to infection. Prerequisite: BIOL 807 and BIOL 808, or a course in biochemistry, or consent of instructor. LEC.
BIOL 813. Advanced Bacterial Physiology. 2 Hours.
The intermediary reactions catalyzed by the bacterial cell during energy-requiring processes. Thermodynamic considerations of these processes are discussed. Knowledge of calculus is recommended. Prerequisite: BIOL 807 and BIOL 808, or a course in microbiology and a course in biochemistry, or consent of instructor. LEC.

BIOL 814. Advanced Molecular Virology. 2 Hours.
The course concentrates on evaluation of current literature concerning all aspects of molecular biology, biochemical characterization, and pathogenic mechanisms involved in host-virus interactions. Students will be expected to present articles and participate in discussions. Prerequisite: BIOL 807 and BIOL 808, or a course in microbial genetics and a course in virology, or consent of instructor. LEC.

BIOL 815. Advanced Molecular Genetics. 2 Hours.
A literature-based course that covers recent advances in microbial molecular genetics. Topics include transcription, translation, mutagenesis and repair, genetic exchange mechanisms, and regulation of gene expression. Prerequisite: BIOL 807 and BIOL 808, or a course in microbial genetics, or consent of instructor. LEC.

BIOL 818. Techniques in Molecular Biosciences. 2 Hours.
This course provides an introduction to common techniques used for research strategies in molecular biosciences. The course will cover common techniques in cell biology, biochemistry, microbiology, and neurobiology. Information will be presented in lectures and through practical demonstrations. This course is primarily intended for first year graduate students in the Department of Molecular Biosciences. Prerequisite: Enrollment in the Molecular Biosciences Graduate Program or consent of instructor. LAB.

BIOL 840. Scientific Communication. 2 Hours. N.
Principles of English communication skills for the professional scientist. The course explores the form, function, and practice (including ethics) of scientific communication, emphasizing elements of writing and speech that are important to clarity and precision. The course covers written and verbal communication of primary research results as well as composing correspondence, a curriculum vitae, reviews, etc. Prerequisite: Graduate standing. LEC.

BIOL 841. Biometry I. 5 Hours.
The application of statistical methods to data from various fields of biological research. Special emphasis is placed on practical computational procedures. Prerequisite: College algebra. LEC.

BIOL 842. Biometry II. 3 Hours.
This course is primarily devoted to special advanced topics in analysis of variance, analysis of covariance and regression analysis. Polynomial regression and multiple linear regression will be presented as will the general linear model. Elementary matrix algebra will be developed as needed. Prerequisite: BIOL 841. LEC.

BIOL 847. Phylogenetics. 3 Hours.
An introduction to the theory and practice of phylogenetic systematics. Includes principles of character analysis including determination of homology and determination of character polarity, testing alternate phylogenetic trees, and reconstructing trees using computer techniques. Also includes principles of constructing phylogenetic classifications and the nature of taxa in the phylogenetic system. Other topics, such as the nature of species and principles of biogeography are included. Prerequisite: Twenty hours natural history. LEC.

BIOL 848. Phylogenetic Methods. 4 Hours.
A survey of methods for inferring phylogenetic trees from character data and using phylogenies to address evolutionary questions. Lectures will present the relevant theory and algorithmic description of methods.

Computer lab will familiarize students with software that implements the analyses discussed in lecture. Intended for graduate students specializing in systematics. Prerequisite: BIOL 845 and BIOL 841 or consent of instructor. LEC.

BIOL 872. Gene Expression II. 3 Hours.
Second semester of a two-semester lecture course on gene expression. Emphasis on control of gene expression at the transcriptional and post-transcriptional levels. Prerequisite: BIOL 772 or consent of instructor. LEC.

BIOL 888. Topics in Evolutionary Morphology. 2 Hours.
Presentation and discussion by graduate students and faculty of selected topics centering on observed changes in structure and function of organisms from a phylogenetic point of view. Presentation will include results of original research when possible and appropriate, and otherwise, will be based on syntheses of recent literature. RSH.

BIOL 890. Advanced Study in Microbiology. 1-10 Hours.
Original investigation by students at the master's degree level. Graded on a satisfactory/unsatisfactory basis. Prerequisite: Ten or more hours of microbiology and consent of department. RSH.

BIOL 895. Human Genetics. 3 Hours.
A lecture course providing balanced coverage of Mendelian and molecular genetics of humans; includes discussions and presentations on current issues in human and medical genetics. Prerequisite: A course in genetics. LEC.

BIOL 899. Master's Thesis. 1-10 Hours.
Research which is to be incorporated into an M.A. thesis. Not more than ten hours may be earned. Graded on a satisfactory/unsatisfactory basis. THE.

BIOL 901. Graduate Seminar in Biochemistry and Biophysics. 1 Hour.
Advanced course examining current research topics in biochemistry and biophysics. Extensive student/faculty interaction is emphasized utilizing lectures, class discussion of assigned readings of research reports, and oral presentations. Prerequisite: Enrollment in graduate school, and departmental admission. LEC.

BIOL 902. Graduate Seminar in Molecular, Cellular, and Developmental Biology. 1 Hour.
Advanced course examining current research topics in molecular, cellular, and developmental biology. Extensive student/faculty interaction is emphasized utilizing lectures, class discussion of assigned readings of research reports, and oral presentations. Prerequisite: Enrollment in graduate school, and departmental permission. SEM.

BIOL 903. Graduate Seminar in Neurobiology. 1 Hour.
Advanced course examining current research topics in neurobiology. Extensive student/faculty interaction is emphasized utilizing lectures, class discussion of assigned readings of research reports, and oral presentations. Prerequisite: Enrollment in graduate school, and departmental permission. LEC.

BIOL 904. Graduate Seminar in Microbiology. 1 Hour.
Advanced course examining current research topics in microbiology. Extensive student/faculty interaction is emphasized utilizing lectures, class discussion of assigned readings of research reports, and oral presentations. Graded on a satisfactory/unsatisfactory basis. Prerequisite: Enrollment in graduate school, and departmental permission. RSH.

BIOL 905. Advanced Molecular Genetics. 1-3 Hours.
A review of current literature in molecular genetics. RSH.
BIOL 906. Advanced Genetics. 1-3 Hours.
May be repeated for credit up to six hours. Review of current literature and genetic theory of selected topics such as population, molecular, quantitative, and physiological genetics. RSH.

BIOL 911. Research Topics in Plant Physiology and Biochemistry. 1-6 Hours.
Directed research on selected topics. Prerequisite: BIOL 770 or equivalent. RSH.

BIOL 918. Modern Biochemical and Biophysical Methods. 4 Hours.
This course emphasizes the use of techniques for solving problems of structure and function of biological macromolecules. Students will complete several modules that consist of lectures relating to theory and practical aspects of each methodological approach, and apply these techniques to solving a specific problem. Students will submit a paper describing the resulting data and conclusions. Prerequisite: BIOL 807, BIOL 808, and BIOL 818, or permission of instructor. LEC.

BIOL 925. Research Grant Proposal Preparation. 3 Hours.
This course introduces the basics of preparing a successful scientific grant application. Topics to be covered include how to develop a novel, fundable project, scientific writing and grantsmanship, and what criteria reviewers consider in evaluating grants. The course will be a mix of instruction and class discussion. Prerequisite: Admission to the graduate program in Molecular Biosciences, or consent of instructor. LEC.

BIOL 930. Ultrastructure and Cellular Mechanisms. 3 Hours.
Two lectures and one seminar-recitation. A detailed consideration of electron microscopic analyses of cell structure as related to cell function. Prerequisite: BIOL 416. LEC.

BIOL 943. Multivariate Data Analysis. 3 Hours.
Matrix formulation of multivariate models and data. Specific methods covered include Principal Components Analysis, Factor Analysis, Multiple Group Discriminant Analysis and Canonical Analysis, and Canonical Correlation Analysis. Prerequisite: BIOL 842 or knowledge of elementary matrix algebra. LEC.

BIOL 944. Topics in Quantitative Ecology: ______. 1-3 Hours.
Presentation and discussion by instructor and students of mathematical and statistical concepts in ecology. Topics are selected from texts or sets of readings. LEC.

BIOL 950. Evolutionary Mechanisms. 3 Hours.
Reading and discussions of evolutionary mechanisms from the genetic, ecologic, and systematic viewpoints. Prerequisite: BIOL 412. LEC.

BIOL 952. Introduction to Molecular Modeling. 3 Hours.
Introduction to theory and practice of contemporary molecular modeling, including molecular mechanics, molecular dynamics, computer graphics, data analysis, use of structure and sequence databases, docking, and homology modeling. Weekly computer laboratory section aimed at allowing participants to pursue independent research projects that incorporate modeling aspects. Lectures, laboratory manuals, program descriptions, and technical notes are presented on course web page. (Same as MDCM 952.) Prerequisite: Graduate standing or consent of instructor. LEC.

BIOL 968. Seminar in Vegetation Geography. 2-3 Hours.
(Same as GEOG 937.) LEC.

BIOL 985. Advanced Study. 1-10 Hours.
Individual investigations; laboratory, field or museum; or reading assignments in specialized topics not ordinarily treated in other courses. Graded on a satisfactory/unsatisfactory basis. RSH.

BIOL 999. Doctoral Dissertation. 1-12 Hours.
Original research that is to be incorporated into a Ph.D. dissertation. Graded on a satisfactory/unsatisfactory basis. THE.

BTEC 300. Introduction to Biotechnology. 3 Hours. N.
Review of techniques used in food, agricultural, pharmaceutical, industrial, and environmental biotechnology. Role of regulatory agencies during the discovery, development, and manufacture of new medical devices, biotechnology, biomedical, and pharmaceutical products. Guest presentations in biotechnology. Prerequisite: BIOL 416. LEC.

BTEC 330. Biotechnology Regulation and Documentation Processes. 3 Hours. N.
Current good manufacturing practices (GMP) as they apply in the biotechnology workplace. History, rationale, purpose, and GMP requirements applicable to the manufacturing, packaging, labeling, testing, and control of pharmaceutical products, and consequences of inaction. Prerequisite: BTEC 300. LEC.

BTEC 340. Biotechnology Research Methods and Applications. 3 Hours. N.
Introduction to fermentation and protein chemistry. Theory behind laboratory techniques and overview of industrial scale expression systems. Bacterial cell culture techniques, principles of fermenter operation and purification, documentation procedures, important tasks for clean room operations, including sanitization, sterilization, cleaning procedures, calibration, and environmental monitoring. Prerequisite: BTEC 300; BIOL 600. LEC.

BTEC 341. Principles of Bioprocessing Laboratory I. 1 Hour. N.
Laboratory sessions involve use of microbial expression vectors, fermentation systems, and large-scale purification of recombinant protein. Includes bacterial cell culture techniques, principles of bioreactor/fermentation operations and purification techniques, and calibration. Primary goal of this course is to provide students with an advanced background in bacterial upstream and downstream biotechnology. Prerequisite: BTEC 300; BTEC 340 or concurrent enrollment in BTEC 340. LAB.

BTEC 405. Microbial Genetics Laboratory. 4 Hours. N.
Research projects center on using molecular genetics to examine the biology of the bacterium Pseudomonas aeruginosa, an opportunistic pathogen often found in the lungs of cystic fibrosis patients. Students engage in independent projects to probe various aspects of P. aeruginosa physiology such as antibiotic resistance, phase variation, toxin production, secondary metabolite production, twitching motility, swarming behaviors, and more. Projects aim to discover the molecular basis for these processes using both classical and new, cutting-edge techniques. These include plasmid manipulation, genetic complementation, mutagenesis, PCR, DNA sequencing, enzyme assays, and gene expression studies. Prerequisite: BIOL 350; BIOL 402. LAB.

BTEC 424. Independent Study in Biotechnology. 1-3 Hours. N.
Independent project at a related bioscience industry partner or faculty in selected topics of current translational research interest. May be undertaken only with the consent of the major advisor who will guide the research after determining objectives with the interested industry partner or faculty. Prerequisite: Consent of instructor. INDI.

BTEC 440. Biotechnology Research Methods and Applications II. 3 Hours. N.
Theory and practicum behind laboratory techniques and overview of industrial scale expression systems of insect or mammalian protein chemistry. Cell culture techniques, principles of bioreactor operation and purification, documentation procedures, important tasks for clean room operations, including sanitization, sterilization, cleaning procedures,
calibration, and environmental monitoring are evaluated. Prerequisite: BTEC 340; BTEC 341. LEC.

BTEC 441. Principles of Bioprocessing Laboratory II. 1 Hour. N.
Mammalian cell culture techniques, principles of bioreactor operations and purification techniques, and calibration. The primary goal of this course is to provide students with an advanced background in mammalian upstream and downstream biotechnology. Prerequisite: BTEC 341; BTEC 440 or concurrent enrollment in BTEC 440. LAB.

BTEC 450. Applied Bioinformatics. 3 Hours. N.
Overview of the fields of bioinformatics and genomics. Topics, tools, issues and current trends in these and related fields are discussed. Principles and practical application of bioinformatics tools in molecular biology and genetics are evaluated. The haploid human genome occupies a total of just over 3 billion DNA base pairs. This information is not contained in books, but stored in electronic databases. Computational biology utilizes infer function by comparative analysis. This course is designed for life scientists from all fields to introduce them to the power of bioinformatics and enable them to access and utilize biological information in databases for their own research. Prerequisite: BTEC 300; BIOL 570 or MATH 365 or PSYC 210. LEC.

BTEC 460. Introduction to Quality Control/Quality Assurance in Biotechnology. 3 Hours. N.
Quality control techniques, assurance issues, and management methods. Quality in design and planning, in the constructed project, and in production of goods and services. Prerequisite: BTEC 330. LEC.

BTEC 475. Bioseparations Laboratory. 2 Hours. N.
Develop novel and effective strategies for extraction and purification of recombinant and native biomolecules by understanding constraints posed by the biological system and the products. Research projects are geared toward developing cost-effective processes for recovery of industrial and biopharmaceutical products derived from a variety of native and/or transgenic sources. Prerequisite: BTEC 405; BTEC 441. LAB.

BTEC 494. Selected Topics in Biotechnology. 1 Hour. N.
Course work varies with the topic of the seminar. The preparation and presentation of oral reports on selected topics from recent translational research literature. Students may choose one interest group each semester, but may enroll in a given interest group only once. May be repeated for credit when topics vary. Prerequisite: BTEC 300 and approval of instructor. LEC.

BTEC 501. Ethical Issues in Biotechnology. 1 Hour. N.
Student investigations and discussions of current controversial issues in biotechnology. This course emphasizes thinking about new technologies in a rational and thoughtful way. Prerequisite: BTEC 300. LEC.

BTEC 541. Gene Expression Analysis: Microarrays. 2 Hours. N.
This course reviews current theory, techniques, instrumentation, troubleshooting, analysis tools, and advanced protocols for microarray analysis. Students have the opportunity to utilize skills learned during lecture in a laboratory environment. At the conclusion of this course, students understand microarray experimental design, its tools, and analysis of generated data. Prerequisites: BTEC 300. LAB.

BTEC 542. Protein Expression in Insect Cells. 2 Hours. N.
Introduction to the insect cells expression system, and its advantages and disadvantages. Introduction to expression of recombinant proteins with baculovirus. Outline of antibody and antibody fragments as well as other complex proteins. Basic techniques used for growth and maintenance of insect cell cultures. The lab portion of the course provides students with practical experience in protein expression techniques in the insect cells expression system. Prerequisite: BTEC 300. LAB.

BTEC 545. RNA Interference and Model Organisms. 2 Hours. N.
Introduction and history of RNA interference technology. Principles, mechanism, and applications of RNA interference in model organisms. Laboratory sessions include RNA interference-mediated silencing of genes in plants, C. elegans, and mammalian cell culture. Prerequisite: BTEC 300. LAB.

BTEC 547. Bioanalytical Lab. 2 Hours. N.
Analytical methods used for testing biotherapeutics are examined. Emphasis is placed on assessing protein concentration, purity, identity and activity. The importance of sample processing, throughput and level of validation are explored as samples from upstream processing, downstream processing and final bulk are interrogated. Students also learn key concepts used to validate the performance of analytical methods. Prerequisite: BTEC 300. LAB.

BTEC 599. Biotechnology Capstone Experience. 3 Hours. N.
Supervised internship at a biotech company; or an independent thesis; or honors thesis with Honors Program. Prerequisite: BTEC 441 and approval of instructor. FLD.

Master of Arts in Ecology and Evolutionary Biology, Botany, or Entomology

Ecology and Evolutionary Biology Graduate Programs

The department comprises a large number of biologists with a variety of research interests. 3 broad overlapping themes capture the interests and activities in EEB — biodiversity and macroevolution, ecology and global change biology, and evolutionary mechanisms. The department offers graduate study leading to Master of Arts and Doctor of Philosophy degrees in botany, entomology, and ecology and evolutionary biology. General information about the department and its faculty, current graduate students, admission, and financial support may be found on the department’s website (http://www2.ku.edu/~eeb).

Neotropical biodiversity is a special area of concentration among EEB faculty. Many faculty members have courtesy appointments in the Latin American Area Studies Program, which fosters multidisciplinary research in Latin America across the campus. KU is a member of the Organization for Tropical Studies, and many faculty members and students participate in advanced, field-oriented OTS courses. Graduate students can receive fellowships for courses, e.g. BIOL 786 Fundamentals of Tropical Biology, or research projects in Costa Rica. Other EEB faculty have research concentrations in Asia, Africa, Antarctica, and elsewhere, creating a genuinely global reach for EEB research activities.

(B.A. and B.S. degree programs in biology are listed under Biology Undergraduate Programs (p. 1171).)

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions.
Required Course Work
Most course work requirements are identified during the student's preliminary advisory committee meeting. Students are expected to take graduate-level courses (or have equivalent knowledge) in ecology, evolution, and systematics. A student's advisory committee may add course requirements during annual meetings. Listed below are specific course requirements for all master's students in the EEB department:

1. Students must complete BIOL 701 Topics in Responsible Scholarship & Teaching Effectiveness during the first year of graduate education in the fall semester. Students are expected to attend departmental seminars in subsequent semesters.
2. Students must complete BIOL 801 Current Research in Ecology and Evolutionary Biology Seminar during the first year of graduate study in the spring semester.
3. Students must complete a graduate-level course in statistics, typically fulfilled by completing BIOL 841 Biometry I. Alternatively, students may demonstrate equivalent background knowledge.
4. Students pursuing Option I (Thesis) must complete a minimum of 1 credit hour of BIOL 899 Master's Thesis.

Master's students must meet a credit-hour-completion requirement. Those in the thesis program must complete a minimum of 30 graduate-level credit hours with no more than 10 of the 30 from enrollment in thesis, research, or advanced study hours. Those in the nonthesis program must complete a minimum of 36 graduate level credit hours with no more than 12 of the 36 from enrollment in thesis, research, or advanced study hours.

Students seeking an M.A. in botany must take a graduate-level course in at least 2 of the following 3 areas:

1. Plant ecology
2. Plant systematics or morphology
3. Plant development or physiology

Students seeking an M.A. in entomology must take BIOL 500 Biology of Insects and BIOL 502 Laboratory in Insect Biology and Diversity, unless they have taken equivalent courses. Students who have taken a course equivalent to BIOL 502 elsewhere still are encouraged to take BIOL 502 to familiarize themselves with the local insect fauna. In addition, students must take at least 1 of the following courses: BIOL 708 External Morphology of Insects, BIOL 711 Insect Systematics, or BIOL 716 Insect Physiology and Internal Morphology.

Master's Defense for Option I (Thesis) Students
During the final semester of enrollment, students pursuing the Option I (Thesis) master's degree must present the results of thesis research in a public forum and complete a thesis defense. The thesis presentation should follow the standard departmental seminar format. The master's thesis defense consists of a substantive test of the student's knowledge of the field and the thesis topic, with approximately 50 percent of the time devoted to questions in the general examination realm, covering the full breadth of the candidate's field of study (i.e., general knowledge of ecology and evolutionary biology). At the discretion of the student and advisor, the exam may be held on the same day as the thesis presentation, or the events may be held on separate days. The defense examining committee must be composed of 3 members of the Graduate Faculty, the majority of which must be tenured, or tenure-track EEB faculty with regular or dissertation status on the Graduate Faculty. In some cases it may be possible for committee members...
to attend the examination via mediated means such as tele/video-conferencing (for details view the exam attendance policy statement [http://www.policy.ku.edu/graduate-studies/oral-exam-attendance]). To pass the thesis defense, a student must receive a majority of passing votes from the examining committee. **Students must contact the EEB graduate coordinator 3 weeks prior to the anticipated presentation and defense** to request departmental and College permission to schedule the events.

Students planning to defend a master’s thesis must submit copies of the thesis to the entire examining committee and to the GPC no less than 2 weeks (or longer if requested by the student’s committee) in advance of the planned defense. The thesis should meet general formatting regulations [http://clas.ku.edu/coga/graduation/master’s](http://clas.ku.edu/coga/graduation/master’s).

**Master’s Final Examination for Option II (Nonthesis) Students**

During the final semester of enrollment in course work when nonthesis program activities are nearing completion, students pursuing the **Option II (Nonthesis)** master’s degree must successfully complete a general oral examination. The examination’s structure is similar to that of the doctoral oral comprehensive examination; however, the examination is shorter, and depth and breadth of knowledge required of the student are less comprehensive than expected of a successful doctoral aspirant. The examining committee must be comprised of at least 3 members of the Graduate Faculty, the majority of which must be tenured or tenure-track EEB faculty with regular or dissertation status on the Graduate Faculty. In some cases it may be possible for committee members to attend the examination via mediated means such as tele/video conferencing (for details view the attendance policy statement [http://www.policy.ku.edu/graduate-studies/oral-exam-attendance]). To pass the master’s final examination, a student must receive a majority of passing votes from the examining committee. **Students must contact the EEB graduate coordinator 3 weeks prior to the anticipated examination** to request departmental and College permission to schedule the event.

**Research**

Upon completion of their work, students in M.A. **Option I (Thesis)** must submit a thesis reporting original research. The committee-approved thesis must be submitted electronically to Graduate Studies. Instructions for formatting and submitting the electronic thesis are online [http://www.ku.edu/electronic-thesis-and-dissertation](http://www.ku.edu/electronic-thesis-and-dissertation). The thesis also must be submitted to the department as a PDF document. Paper copies of the title and acceptance pages containing the signatures of the examining committee members must be submitted to both the College and the department.

Students in M.A. **Option II (Nonthesis)** must conduct research with 1 or more faculty members involving work on a research problem that requires use of literature, and laboratory or field techniques. Nonthesis students must submit a comprehensive written report to the advisory committee. Examples of research problems that could be the basis of the written report include a literature review of a critical issue in a scientific discipline, original research, or other creative activity approved by the advisory committee. The committee-approved report must be submitted to the department as a PDF document. A paper copy of the title page containing signatures of the advisory committee members also must be submitted.

**Time Constraints**

A student beginning graduate study with only a bachelor’s degree should complete all work for the master’s degree within 2 or 3 years of initial enrollment at KU. A student beginning graduate study with a master’s degree in the biological sciences should complete all work for the doctoral degree within 4 to 5 years of initial enrollment at KU. A student beginning graduate study with only a bachelor’s degree in the biological sciences should complete all work for the doctoral degree within 5 or 6 years.

The maximum tenure for EEB graduate students varies according to degree program. Master’s students are allowed a maximum of 4 years to complete the degree program, and doctoral students are allowed 8 years. If a student earns both an M.A. and a Ph.D. from KU, he or she has a total of 10 years to complete both degrees. Petitions to extend the time limits must be approved by the student’s advisory committee and forwarded to the EEB Graduate Program Committee for consideration before being forwarded to the College for final approval.

As required by the university, doctoral students must complete the equivalent of at least 3 academic years of full-time graduate study. This may include the time spent earning a master’s degree.

**Doctor of Philosophy in Ecology and Evolutionary Biology, Botany, or Entomology**

**Ecology and Evolutionary Biology Graduate Programs**

The department comprises a large number of biologists with a variety of research interests. 3 broad overlapping themes capture the interests and activities in EEB — biodiversity and macroevolution, ecology and global change biology, and evolutionary mechanisms. The department offers graduate study leading to Master of Arts and Doctor of Philosophy degrees in botany, entomology, and ecology and evolutionary biology. General information about the department and its faculty, current graduate students, admission, and financial support may be found on the department’s website [http://www2.ku.edu/~eeb](http://www2.ku.edu/~eeb).

Neotropical biodiversity is a special area of concentration among EEB faculty. Many faculty members have courtesy appointments in the Latin American Area Studies Program, which fosters multidisciplinary research in Latin America across the campus. KU is a member of the **Organization for Tropical Studies**, and many faculty members and students participate in advanced, field-oriented OTS courses. Graduate students can receive fellowships for courses, e.g. BIOL 786 Fundamentals of Tropical Biology, or research projects in Costa Rica. Other EEB faculty have research concentrations in Asia, Africa, Antarctica, and elsewhere, creating a genuinely global reach for EEB research activities.

(B.A. and B.S. degree programs in biology are listed under Biology Undergraduate Programs (p. 1171).)

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to
Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

The departmental graduate admissions committee reviews the record of each applicant. Admission is based on background, preparation, test scores, and academic performance. The committee considers each candidate’s overall undergraduate record in the context of the institution(s) from which the record was received. A graduate student should have a broad undergraduate background in natural science and math, including calculus, physics, chemistry, organismal biology, genetics, ecology, and evolutionary biology. Faculty recommendations, honors, awards, undergraduate research experience, publications, and professional experience also are considered. Enthusiasm, scientific expertise, and clarity of writing as evidenced by the applicant’s essay are particularly important.

A bachelor’s degree or equivalent and a minimum overall grade-point average of 3.0 on a 4.0 scale is required for regular admission. The master’s degree is not a prerequisite for entering a Ph.D. program. Domestic applicants must provide a certified score report from the Graduate Record Examination for the general test (scores from the GRE biology subject test are optional). Non-native English speakers must provide evidence of English proficiency, typically in the form of certified scores from the Test of English as a Foreign Language or from the International English Language Testing System. For more details on admission requirements, visit the EEB website (http://www2.ku.edu/~eeb).

Applicants are encouraged to correspond with one or more faculty members before and during the application process, because students cannot be admitted without a faculty sponsor. Interested students are encouraged to visit campus to meet faculty members and graduate students. Graduate school is critically important in beginning a career, and the choice of a program in which to enroll should be made carefully.

The number of students admitted is limited. Qualified candidates may be denied admission because of lack of a faculty sponsor, financial support, or research facilities.

Applications and supplemental materials may be submitted online. Applications from underrepresented groups are encouraged. For a detailed description of the application process, visit the EEB website (http://www2.ku.edu/~eeb). All application materials for fall admission must be received no later than December 1. Only complete applications are considered. Send inquiries to the graduate coordinator.

Ph.D. Degree Requirements: Ecology and Evolutionary Biology, Botany, or Entomology

Required Course Work

Most course work requirements for EEB graduate students are identified during the student’s preliminary advisory committee meeting. Students are expected to take graduate-level courses (or have equivalent knowledge) in ecology, evolution, and systematics. A student’s advisory committee may add course requirements to a student’s degree program during annual meetings. Listed below are specific course requirements for all doctoral students in the EEB department:

1. Students must complete BIOL 701 Topics in Responsible Scholarship & Teaching Effectiveness during the first year of graduate education in the fall semester. They are expected to attend departmental seminars in subsequent semesters.
2. Students must complete the BIOL 801 Current Research in Ecology and Evolutionary Biology seminar course during the first year of graduate study in the spring semester.
3. Students must complete a graduate-level course in statistics, typically fulfilled by completing BIOL 841 Biometry I. Alternatively, students may demonstrate equivalent background knowledge.
4. Students pursuing the doctorate must complete at least 1 credit hour of BIOL 999 Doctoral Dissertation.

In addition, students seeking a Ph.D. in botany must take a specialty seminar focusing on a plant-related topic and must complete a graduate-level course in each of the following 3 areas:

1. Plant ecology
2. Plant systematics or morphology
3. Plant development or physiology

Students seeking a Ph.D. in entomology must take BIOL 500 Biology of Insects and BIOL 502 Laboratory in Insect Biology and Diversity unless they have taken equivalent courses. Students who have taken a course equivalent to BIOL 502 elsewhere still are encouraged to take BIOL 502 to familiarize themselves with the local insect fauna. In addition, students must take all 3 of the following courses: BIOL 708 External Morphology of Insects, BIOL 711 Insect Systematics, and BIOL 716 Insect Physiology and Internal Morphology.

Assistantships

Doctoral students must complete at least 2 semesters of half-time supervised teaching, curatorial, or research assistantships. Alternative experiences may be approved by the student’s advisory committee.

Research Skills and Responsible Scholarship

Before proceeding to the Comprehensive Oral Examination, doctoral students must fulfill the Research Skills and Responsible Scholarship requirement. This requirement has 2 components: (1) training in responsible scholarship pertinent to the field of research; and (2) obtaining research skills pertinent to the field of research. Upon completion of any portion of the research skills and responsible scholarship requirement, students must contact the EEB graduate coordinator to complete documentation. Note that students are not allowed to schedule the comprehensive oral examination for the doctorate until the graduate coordinator has received documentation of the completion of this requirement.

Responsible Scholarship: Training in responsible scholarship is part of the curriculum for BIOL 701 Topics in Responsible Scholarship and Teaching Effectiveness. Completion of this course fulfills the responsible scholarship portion.

Research Skills: Doctoral students can fulfill the research skills component in one of 4 ways:

1. Exhibiting reading knowledge of 2 foreign languages
2. Exhibiting fluency in a foreign language
3. Exhibiting reading knowledge of 1 foreign language and fulfilling the requirements of 1 other research skill
4. Fulfilling the requirements of 2 research skills
1. Reading Knowledge of a Foreign Language

Students without prior experience must enroll in a 3-credit-hour reading course in a major modern language and achieve a final grade of A or B. Students with prior knowledge of a language may choose instead to translate, in a set amount of time, a pre-approved passage from the scientific literature in that language. Approval of the foreign language requirement must be obtained from the instructor of the reading course, from an appropriate representative of a language department, or from a qualified individual from EEB or another department. In EEB, Professors Town Peterson and Jorge Soberon are qualified to test Spanish reading knowledge, and Professor Rudolf Jander is qualified to test German.

2. Fluency in a Foreign Language

Fluency in reading, writing, and speaking a language that is not native to the student is determined by a faculty member who is fluent in the chosen language. Whenever possible, a qualified faculty member from the department should make the determination; otherwise, the student should contact the appropriate language department to identify a qualified individual. The faculty member must submit a letter to the EEB graduate program committee indicating that the student is fluent.

If the student is not a native English speaker, the student’s committee may determine fluency in reading, writing, and speaking English. Following the committee’s determination, the student’s advisor must provide a letter to the EEB graduate program committee indicating that the student is fluent.

3. Other Research Skills

Other research skills may be attained either through course work or through completion of a project. In either case, the skill must be approved in advance of its completion by the EEB Graduate Program Committee. A list of previously approved skills appears in the EEB Graduate Student Handbook (http://www2.ku.edu/~eeb). Other courses or projects can be added to this list by petitioning the EEB graduate program committee for pre-approval.

Students with no prior experience using the chosen research skill should take a course recommended by the department; students with experience might choose to develop a project. A qualified faculty member must approve the choice of a project. Upon completion, a letter that describes the project and is signed by the supervising faculty member should be submitted to the departmental graduate coordinator for documentation purposes.

Note: Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

Residence Requirement

Graduate Studies requires all doctoral students to complete 2 terms, which may include 1 summer session, in full-time resident study at KU. See the EEB Graduate Student Handbook (http://www2.ku.edu/~eeb) for details.

Comprehensive Oral Examination

The comprehensive oral examination tests the breadth of a student’s knowledge and explores the student’s ability to synthesize information and think critically. The examination should include, but is not limited to, questions relating to ecology, evolution, and systematics, as well as information about general biology. Examinations are conducted in English. Students are recommended to take the examination within four semesters of entering the program and are expected to complete the examination within six semesters. To be eligible to take the examination, both the research skills and responsible scholarship and doctoral residence requirements must be fulfilled and documented. All doctoral aspirants must prepare a dissertation proposal that follows the National Science Foundation Doctoral Dissertation Improvement Grant model. The dissertation proposal must be submitted to all members of the examination committee for review and approval at least 2 weeks before the examination. Students must contact the EEB graduate coordinator 3 weeks before the anticipated examination to request departmental and College permission to schedule the event.

A successful pass of the comprehensive oral examination is considered valid by the university for 5 years. Doctoral candidates who do not complete the dissertation within 5 years may be required to take the examination again to demonstrate current knowledge in the field.

Research Progress, Final Oral Examination, and Dissertation Defense

After passing the comprehensive oral examination and advancing to degree candidacy, doctoral students are expected to focus on completing original research and writing of the dissertation. Although opportunities for taking valuable courses may arise, the majority of a doctoral candidate’s enrollment should be in dissertation credits (BIOL 999 Doctoral Dissertation).

It is generally expected that the dissertation should be completed two to three years after advancing to candidacy. During these years, the student should continue to meet with his or her advisory committee on an annual basis to receive guidance on research progress. Committee membership should follow university requirements.
When the student and the faculty advisor are able to reasonably predict when the dissertation research and writing will be done, the dissertation defense and final oral examination may be scheduled. At least 5 months must have elapsed between successful completion of the oral examination and the date of the defense. Students must contact the EEB Graduate coordinator at least 3 weeks prior to the anticipated defense date to request departmental and university approval of the defense.

A complete dissertation must be provided to the EEB Graduate Program Committee and to the student's entire dissertation committee no less than 2 weeks (or longer if requested by the student's committee) in advance of the planned defense. All members of the dissertation committee are required to read and comment on the work. 3 members are designated readers and provide a more detailed review. The dissertation must be written to meet general university regulations (http://www.graduate.ku.edu/electronic-thesis-and-dissertation).

The dissertation defense and final oral examination include a presentation of the candidate's dissertation as a formal, public lecture. Whenever possible, the presentation should be part of the regular departmental seminar series. The presentation is followed by a question period, after which the final oral examination committee meets with the student for further discussion of the dissertation. A majority vote of the committee is required for the student to pass the examination; 80 percent of the committee must agree to award a student Honors. Both the dissertation and the presentation are considered in the decision. In some cases it may be possible for committee members to attend the defense and examinations via mediated means such as tele/video-conferencing (for details view the exam attendance policy statement (http://www.policy.ku.edu/graduate-studies/oral-exam-attendance)). After passing the final oral examination, the student will make any corrections to the dissertation that are required. The final version will be submitted for approval to the department and the University.

Time Constraints
A student beginning graduate study with only a bachelor's degree should complete all work for the master's degree in 2 or 3 years after initial enrollment at KU. A student beginning graduate study with a master's degree in the biological sciences should complete all work for the doctoral degree within 4 or 5 years. A student beginning graduate study with only a bachelor's degree in the biological sciences should complete all work for the doctoral degree within 5 or 6 years.

The maximum tenure for EEB graduate students varies according to degree program. Master's students are allowed a maximum of 4 years to complete the degree program, and doctoral students are allowed 8 years. If a student earns both an M.A. and a Ph.D. from KU, he or she has a total of 10 years to complete both degrees. Petitions to extend the time limits must be approved by the student's advisory committee and forwarded to the EEB Graduate Program Committee for consideration before being forwarded to the College for final approval.

As required by the university, doctoral students must complete the equivalent of at least 3 academic years of full-time graduate study. This may include the time spent earning a master's degree.

Department of Economics
Why study economics?
Because it will give you the tools you need to understand our increasingly interconnected world.

Undergraduate Programs
The study of economics offers students insight into some of the most fundamental issues facing societies today: what goods and services should we produce, how should they be produced, and how should they be distributed around the world? Economics is outstanding preparation for a career in finance, business, policy analysis, international relations, or any other field that requires rigorous analytic thinking. It also makes an excellent foundation for graduate study in economics, business, law, political science, or public administration.

Courses for Nonmajors
ECON 104 is recommended for students who want only an introductory course. Students planning to teach social sciences should consult the School of Education. Students who plan to enter the School of Business in the junior year should consult the School of Business. Students who plan to enter the School of Journalism should consult the School of Journalism and Mass Communications.

Graduate Programs
The economics department offers a Master of Arts degree and a Doctor of Philosophy degree and, in conjunction with the School of Law, a program in which one can earn the Master of Arts and Juris Doctor degrees. These programs help students prepare for careers in education, government, and business.

Courses
ECON 104. Introductory Economics. 4 Hours. SF GE3S / S.
An introduction to modern economics designed primarily for students who do not plan to major in economics. Topics include economic history, the operation of economic institutions, and the formation and execution of economic policies to meet the current problems of the domestic and international economy. Course may be offered in lecture or online format. Prerequisite: MATH 101 or MATH 104, or eligibility for MATH 115 or MATH 121. LEC.

ECON 105. Introductory Economics, Honors. 4 Hours. SF GE3S / S.
An introduction to modern economics designed primarily for students who do not plan to major in economics. Topics include economic history, the operation of economic institutions, and the formation and execution of economic policies to meet the current problems of the domestic and international economy. Prerequisite: Consent of the Economics Department and MATH 101 or MATH 104, or eligibility for MATH 115 or MATH 121. LEC.

ECON 110. The Economics of Globalization. 3 Hours. SF AE42 / S.
The course emphasizes the application of economic methods of analysis to the public policy issues that globalization creates. Topics covered may include the following: winners and losers from trade; links between trade and labor markets; links between trade and foreign investment; the international financial system and exchange rates; outsourcing and multinational corporations; international institutions and regional trade agreements. LEC.

ECON 142. Principles of Microeconomics. 3 Hours. SF GE3S / S.
An analytical introduction to microeconomics. Topics include theory of markets, public policy, international trade, economic efficiency, and equity. Prerequisite: MATH 101 or MATH 104, or eligibility for MATH 115 or MATH 121. LEC.
ECON 143. Principles of Microeconomics, Honors. 3 Hours. SF GE3S / S.
An honors section of ECON 142. An analytical introduction to microeconomics. Topics include theory of markets, public policy, international trade, economic efficiency, and equity. Prerequisite: Consent of the Economics Department and MATH 101 or MATH 104, or eligibility for MATH 115 or MATH 121. LEC.

ECON 144. Principles of Macroeconomics. 3 Hours. SF GE3S / S.
An analytical introduction to macroeconomics. Topics include determination of aggregate income, employment, inflation, exchange rates, and the role of fiscal and monetary policy in dealing with unemployment, inflation, and economic growth. Prerequisite: MATH 101, MATH 104, or eligibility for MATH 115 or MATH 121. LEC.

ECON 145. Principles of Macroeconomics, Honors. 3 Hours. SF GE3S / S.
An honors section of ECON 144. An analytical introduction to macroeconomics. Topics include determination of aggregate income, employment, inflation, exchange rates, and the role of fiscal and monetary policy in dealing with unemployment, inflation, and economic growth. Prerequisite: Consent of the Economics Department and MATH 101, MATH 104, or eligibility for MATH 115 or MATH 121. LEC.

ECON 177. First Year Seminar: .... 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Economics. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

ECON 250. Study Abroad Topics in: .... 1-5 Hours. S.
This course is designed for the study of special topics in economics at the freshman/sophomore level. Coursework must be arranged by the office of KU Study Abroad and approved by the Economics Department. This course may be repeated for credit if content varies. LEC.

ECON 310. Topics in Applied Economics: .... 3 Hours. S.
(Topic, instructor, and specific prerequisites to be announced in the Schedule of Classes.) This course will focus on an area of applied economics of current interest. This course cannot be used to fulfill the elective course requirements for the Economics major or the Economics minor. LEC.

ECON 450. Study Abroad Topics in: .... 1-5 Hours. S.
This course is designed for the study of special topics in economics at the junior/senior level. Coursework must be arranged by the office of KU Study Abroad, approved by the Economics Department, and may count as an economics elective for economics majors. This course may be repeated for credit if content varies. LEC.

ECON 496. Research in Economics. 1-3 Hours. AE61 / S.
A directed reading and research course for economics majors. The course involves the preparation of a research paper under the supervision of a faculty member whose area of interest and specialization corresponds with the area of study selected by the student. Prerequisite: Approval of major adviser and selected faculty member. IND.

ECON 497. Senior Research Honors. 1-3 Hours. AE61 / S.
Open to seniors in the College who have a grade-point average of 3.5 or above in economics and a grade-point average of 3.25 or above in all courses. A directed reading and research course for qualifying seniors. Involves preparation of a research paper under the supervision of a faculty member whose area of interest and specialization corresponds with the area of study selected by the student. Prerequisite: Approval of major adviser and selected faculty member. IND.

ECON 498. Oswald Undergraduate Seminar in Economics. 3 Hours. S.
Examine issues in economics of contemporary interest. Enrollment is limited to current Oswald, Boynton, and Pritchard scholarship holders. May be repeated for credit, but does not fulfill the elective course requirements for the Economics major or minor. Prerequisite: ECON 520, ECON 522, and permission of department. LEC.

ECON 505. History of Economic Analysis. 3 Hours. S.
The history of intellectual efforts to understand economic phenomena and the impact of these efforts on the social and economic development of the modern world. Prerequisite: ECON 104 or ECON 142 and ECON 144. LEC.

ECON 510. Energy Economics. 3 Hours. S.
The application of basic economic concepts and methods to the analysis of energy markets, regulation, and policies. Topics covered include energy trends and projections, economic growth and resource exhaustion, the organization and regulation of fossil fuel industries, nuclear power and non-conventional energy technologies, the world oil market, energy conservation, environmental pollution, and national energy policies in the U.S. and other developed as well as developing countries. Prerequisite: ECON 142 and ECON 144 or permission of instructor. LEC.

ECON 515. Income Distribution and Inequality. 3 Hours. AE41 / S.
An analysis of the distribution of income and wealth in the United States and a few other developed countries. The concepts of economic inequality, economic justice, statistical measures of inequality and their applications will be discussed. Various theories of income distribution (e.g., Ricardian, Marxian, neoclassical, and neo-Keynesian) will be covered. Prerequisite: ECON 142 and ECON 144. LEC.

ECON 516. Income Distribution and Inequality, Honors. 3 Hours. AE41 / H.
This course examines the definition and impact of social and economic inequality. Beginning with a review of economic and philosophical perspectives of inequality, the course considers the measurement of inequality, current trends in U.S. and international inequality, and policies designed to eliminate inequality. The course requires both writing and quantitative analysis and includes a term paper. Students should be comfortable with methods of quantitative social science. The Honors section is taught as a seminar where philosophical perspectives on inequality are debated and discussed. Prerequisite: ECON 142 and ECON 144. Open only to students who have been admitted to the University Honors Program, or by consent of instructor. LEC.

ECON 520. Microeconomics. 3 Hours. S.
The theory of consumption, production, pricing, and resource allocation. Not open for credit to students with credit in ECON 524. Prerequisite: ECON 142 and ECON 144. LEC.

ECON 521. Microeconomics Honors. 3 Hours. S.
The theory of consumption, production, pricing, and resource allocation. Prerequisite: ECON 142 and ECON 144 and consent of department. LEC.

ECON 522. Macroeconomics. 3 Hours. S.
The theory of national income and employment, the analysis of aggregate demand, the general degree of utilization of productive resources, the general level of prices, and related questions of policy. Prerequisite: ECON 142 and ECON 144. LEC.

ECON 523. Macroeconomics Honors. 3 Hours. S.
The theory of national income and unemployment, the analysis of aggregate demand, the general degree of utilization of productive resources, the general level of prices, and related questions of policy. Prerequisite: ECON 142 and ECON 144 and consent of department. LEC.
ECON 526. Introduction to Econometrics. 3 Hours. S.
An introduction to the statistical analysis of economic data and its application to economic inquiry. Includes extensive use of statistical software. Prerequisite: ECON 142, ECON 144, and MATH 526 or equivalent. LEC.

ECON 530. American Economic Development. 3 Hours. H.
An introductory study of the development of the American economy from colonial times to the present. Investigates long-term trends in output, population, and output per capita, as well as short-term fluctuations, and the variables and institutions that determined these fluctuations and trends. (Same as HIST 628.) Prerequisite: ECON 104 or ECON 142 and ECON 144. LEC.

ECON 535. Economic History of Europe. 3 Hours. S.
An introductory study of European economic history from the Middle Ages to the 1980s. Investigates the sources of economic growth, and the interaction between economic forces and social institutions. Topics covered will include the rise of commerce, the agricultural and industrial revolutions, imperialism, the Great Depression, and European recovery after World War II. (Same as HIST 528.) Prerequisite: ECON 104 or ECON 142 and ECON 144. LEC.

ECON 536. Economic Issues of the European Union. 3 Hours. S.
A survey of the economies of the European Union, with a focus on the economic development of the member states since World War II, and an examination of the various economic issues confronting them today. (Same as EURS 536.) Prerequisite: ECON 104 or ECON 144. LEC.

ECON 540. Recent American Economic History. 3 Hours. S.
An empirically oriented examination of the American economy designed to apply economic concepts to a wide variety of topics such as monetary and fiscal policy, income distribution, the Great Depression, poverty, population growth, the defense sector, education, research and development, technological change, and industrial organization. Prerequisite: ECON 104 or ECON 142 and ECON 144. LEC.

ECON 550. Environmental Economics. 3 Hours. U.
This course provides an overview of the theory and empirical practice of economic analysis as it applies to environmental issues. Topics include externalities (a type of market failure), the valuation of nonmarket goods, the practice of benefit-cost analysis, and the efficiency and cost effectiveness of pollution control policies. Most importantly, the course permits students to perform economic field research, using state-of-the-art techniques in a manner accessible to undergraduate students. (Same as EVRN 550.) Prerequisite: ECON 104 or ECON 142. LEC.

ECON 560. Economic Systems. 3 Hours. S.
Critical analysis of economic theories underlying such economic systems as capitalism, different types of socialism, communism, and fascism. Comparative study of economic planning, production, distribution, price formation, economic institutions, and forms of government in countries under different economic systems. Prerequisite: ECON 104 or ECON 142 and ECON 144. LEC.

ECON 562. The Russian Economy. 3 Hours. S/W.
An analytical survey of Russian economic development, with emphasis on the structure and operation of the Russian economy and transition issues. Prerequisite: ECON 104 or ECON 142 and consent of instructor. LEC.

ECON 563. Current Economic Issues of East Europe. 3 Hours. S.
An institutional and theoretical analysis of the issues arising from the transition from a command economy to a free market-oriented economy. With emphasis on the former Soviet Union, topics will include: assessment of the central planning experience; changes in property rights and their effect on resource allocation; market mechanisms and how they work when market institutions are at the formative stage; and public interest under privatization. Prerequisite: ECON 142 and ECON 144. LEC.

ECON 564. Topics in Applied Economics. __________ 3 Hours. S.
This course will focus on an area of applied economics of current interest. This course can be used to fulfill the elective course requirement for the Economics major. Prerequisite: ECON 142 and ECON 144. LEC.

ECON 570. Economics for Management Decisions. 3 Hours. S.
Economic analysis of the firm with emphasis on managerial decisions in a business environment. Topics include supply and demand with applications, consumer behavior, quantitative demand analysis, production and cost, transactions costs and the organization of the firm, strategic decisions in alternative market environments, risk and uncertainty, imperfect information, and project evaluation. Prerequisite: ECON 142. LEC.

ECON 582. Economic Development. 3 Hours. S.
An introduction to economic growth and development in high and low income countries, problems of development, and development policy. Prerequisite: ECON 104 or ECON 142. LEC.

ECON 583. Economic Issues of East Asia. 3 Hours. S.
This course will study the economics of the East Asian countries, especially China, Japan, Korea, and Taiwan. Topics to be covered include economic growth, development and change, international trade, inflation, unemployment, income distribution, and urbanization. Emphasis will be on the post World War II period. Prerequisite: ECON 104 or ECON 142 and ECON 144. ECON 522 recommended. LEC.

ECON 584. Economic Development of Latin America. 3 Hours. S.
This course explores development strategies followed in the countries of Latin America and the Caribbean, and analyzes current debates over development strategy. Topics covered include: debt, structural adjustment, and multilateral lending agencies; trade policy, and regional or hemispheric integration; state intervention in the economy; the role of elites; environmental degradation and sustainable development; land reform and agricultural policy; transnational enterprises and foreign investment; women in work and the household; migration (rural-urban, and international); and grassroots development projects. Prerequisite: ECON 104 or ECON 144. LEC.

ECON 585. Economic Issues in China. 3 Hours. S.
This course will study the Chinese economy, especially during the post-1979 reform period, and its relationship to the development of the Greater China Circle (China, Hong Kong, and Taiwan). Topics to be covered include economic development during the pre-1979 reform period, economic reform, and its impacts on China, Hong Kong, Taiwan, and lessons from the Chinese economic reforms. Prerequisite: ECON 142 and ECON 144. LEC.

ECON 587. Economic Development of Africa. 3 Hours. S.
This course studies current economic issues facing African countries. It studies the general characteristics of several African economies and examines the impact of economic development policies, including those of international organizations, on the economies of Africa. Topics include poverty, income inequality, debt, foreign investment policies, trade policies, and government regimes. Prerequisite: ECON 104 or ECON 142 and ECON 144. LEC.

ECON 590. Game Theory. 3 Hours. S.
Analysis of strategic choice problems. Firms, voters, bargainers, animals, sports competitors, and persons in everyday life choose alternative options with the outcomes depending on the choices of one or more other similar decision makers. Strategies of rational choices will be derived and
analyzed in economic and other environments. Prerequisite: ECON 142.
LEC.

ECON 600. Money and Banking. 3 Hours. S.
The basic principles of money, credit, and banking and their relation to prices and business fluctuations; a study of commercial and central banking and the problems of credit control. Prerequisite: ECON 522. LEC.

ECON 604. International Trade. 3 Hours. S.
An introduction to the nonmonetary theory of international trade, the cause and pattern of trade, the gains from trade, and the contemporary issues in international economic policy. Prerequisite: ECON 520 or ECON 524. LEC.

ECON 605. International Finance. 3 Hours. S.
This course surveys theories of exchange rate and balance of payments determination. Included are the elasticity approach, Keynesian models, and the monetary approach. The mechanics of foreign exchange trading, balance of payments accounting, and the working of the international monetary system are also discussed. Prerequisite: ECON 522. LEC.

ECON 609. Sports Economics. 3 Hours. S.
The course covers the microeconomics of the sports industry. Topics include analysis of teams, leagues, players, incomes, strategies, history, and government policy. Prerequisite: ECON 520 or permission of instructor. LEC.

ECON 610. Resource Economics and Environmental Policy. 3 Hours.
Survey of the economics of natural resources, designed to introduce the student to the economic models and analytical methods commonly used in natural resource problems and policy issues. Topics covered include environmental pollution and regulation, environmental case studies and applications of cost-benefit analysis, theoretical models, policy issues in the utilization of renewable and nonrenewable resources, sustainable development, and global environmental problems. Prerequisite: ECON 520 or ECON 524 or permission of instructor. LEC.

ECON 620. Elements of Mathematical Economics. 3 Hours. S.
Selected aspects of economic theory with emphasis on those parts where the spirit of mathematical analysis, rather than dexterity, is utilized. The simplification of the subject matter is accomplished by stressing complete treatment of special cases such as a two commodity-two individual world. Prerequisite: ECON 520 or ECON 524 and MATH 116 or MATH 121. LEC.

ECON 622. Public Finance. 3 Hours. S.
A general introduction to the science of public finance. Topics covered include public expenditures, public revenues and public credit, and the shifting and incidence of taxation. Prerequisite: ECON 520 or ECON 524. LEC.

ECON 630. Industrial Organization and Antitrust Policy. 3 Hours. S.
An examination of the structure, conduct and performance of American industry applying the concepts and techniques of economic analysis. Topics covered include the theories of monopoly, competition and oligopoly, concentration, barriers to entry, price-fixing and other restrictive practices, mergers, technological change, and public regulation. The course will also focus on the historical development of American antitrust law. Prerequisite: ECON 520 or ECON 524. LEC.

ECON 631. Economics of Regulation. 3 Hours. S.
This course studies topics in the economic effects of industry regulation by administrative agencies as a substitute for market competition. Topics include various theories of regulatory behavior, the theory of natural monopoly, the economic effects of rate of return regulation on the performance of electric utilities, and the effects of recent social and environmental regulation. Prerequisite: ECON 520 or ECON 524. LEC.

ECON 635. Science and Technology in Economic Growth. 3 Hours. S.
An analytical and historical exploration of the roles that science and technology have played in the economic growth of industrial societies. This course will examine the forces that have shaped the rate and direction of technological change, and the impact of technological change on Western living standards. Topics covered will include factors influencing the pace of innovation, the diffusion of new technologies, international technology transfers, growth accounting, and models of aggregate economic growth. Prerequisite: ECON 520 or ECON 524. LEC.

ECON 640. Labor Economics. 3 Hours. S.
Analysis of labor markets and differences in wage rates and incomes. Topics include returns to education and training, labor unions, unemployment, anti-poverty programs, and other government policies influencing the labor market. Prerequisite: ECON 520 or ECON 524. LEC.

ECON 650. Labor Economics. 3 Hours. S.
This course provides a nontechnical introduction to optimal resource allocation from the societal point of view as well as alternative individual mechanisms for achieving such an optimum. Prerequisite: ECON 520 or ECON 524. LEC.

ECON 660. Economic Growth. 3 Hours. S.
This course studies growth with an emphasis on national evidence and macroeconomic policy issues. Classic and modern growth theories are developed and evaluated on the basis of how well they fit empirical evidence. Theories are developed in which productivity growth results from endogenous changes in technology or in the efficiency with which factors are utilized. The fundamental factors that affect productivity are examined, and they may include government policies, income inequality, geography, climate, resources and other factors. Prerequisite: ECON 522. LEC.

ECON 670. Survey of Microeconomics. 3 Hours.
A comprehensive survey of microeconomics, including the theories of consumption, production, distribution, pricing, and resource allocation. Prerequisite: ECON 520 and MATH 116 or MATH 121; and completion of ECON 142 and ECON 144, ECON 520, and ECON 522 with a grade-point average of at least 3.0 or graduate standing. LEC.

ECON 701. Survey of Macroeconomics. 3 Hours.
A comprehensive survey of the modern theory of national income determination with particular emphasis on the foundation of macroeconomic models and their empirical implementation. Prerequisite: ECON 522 and MATH 116 or MATH 121. LEC.

ECON 705. Development of Economic Thought. 3 Hours.
The development of economic thought from the time of the physiocrats through the modern period. Consideration is given to the works of the English Classical school, the school of Vienna, the historical school, the Lausanne school, and Cambridge school. In addition, the development of economic thought in the United States during the period is treated. Prerequisite: ECON 520 and ECON 522. LEC.

ECON 715. Elementary Econometrics. 3 Hours.
An elementary analysis of the problems of estimation, prediction, and hypothesis testing in the context of general linear, stochastic difference equation and simultaneous equations models. Applications of econometric theory to practical economic problems will be emphasized. Prerequisite: DSCI 301 or its equivalent; MATH 116 or MATH 121; and completion of ECON 142 and ECON 144, ECON 520, and ECON 522 with a grade-point average of at least 3.00 (B) or graduate standing. LEC.

ECON 716. Econometric Forecasting. 3 Hours.
An analysis of econometric forecasting techniques, including time-series models, single-equation regression models, and multiple-
equation regression models. The course will examine forecasts of (a) macroeconomic variables, such as interest rates, investment, GNP, and the rate of inflation; and (b) market variables, such as price and quantity. Prerequisite: ECON 715 or ECON 817. LEC.

ECON 730. Topics in Industrial Organization. 3 Hours.
Advanced study of recent research in applied microeconomics and business behavior. Topics include vertical integration, collusion, multi-plant and multi-product operations, regulated industries, tying arrangements, and the empirical links between monopoly power and profitability. Prerequisite: ECON 630 or equivalent. LEC.

ECON 735. Science and Technology in Economic Growth. 3 Hours.
An analytical and historical exploration of the roles that science and technology have played in the economic growth of industrial societies. Topics covered include factors influencing the pace and character of technological innovation, national systems of innovation, the diffusion of new technologies, measurement of the benefits of new technologies, and the role of technology in various growth theories. Prerequisite: ECON 520, or ECON 524, or consent of instructor. LEC.

ECON 740. Theory of Economic Growth and Development. 3 Hours.
Advanced study of the theory of economic growth and development. Recent growth models, theory of underdevelopment, programming, policies and plans for development. Prerequisite: ECON 520 and ECON 522. LEC.

ECON 741. Economic Planning. 3 Hours.
A study of the techniques employed in the preparation of a national economic plan and of the policies required for its implementation. Special attention is given to the purposes of a plan, development strategies, investment requirements, and project appraisal. The development plans of several countries are examined to illustrate problems of planning economic development. Prerequisite: ECON 520 and ECON 522. LEC.

ECON 750. The Theory of International Finance. 2-3 Hours.
This course examines the modern, financial-asset market approach to exchange rate determination as well as dynamic exchange rate models. Possible topics may include exchange rate overshooting, exchange rate crises, and international policy coordination. Prerequisite: ECON 605 and MATH 116. LEC.

ECON 760. The Theory of Public Finance. 3 Hours.
An analysis of governmental fiscal activity and its economic effects with emphasis on the determination and incidence of budget policy. Prerequisite: ECON 520 and ECON 522; ECON 622 recommended. LEC.

ECON 761. Public Sector: Urban and Regional Finance. 3 Hours.
An analysis of the American state and local finance scene with special emphasis on urban and regional tax and expenditure problems and issues. Prerequisite: ECON 520 and ECON 522; ECON 622 recommended. LEC.

ECON 765. Advanced American Economic Development. 3 Hours.
A study of the process of economic growth as it has occurred in the American economy, with emphasis on 19th century developments. The structural changes that accompanied growth and the impact of technological change are among the major topics considered. Prerequisite: ECON 520, ECON 522 and ECON 530, or consent of instructor. LEC.

ECON 766. Economic History. 3 Hours.
The development of market economies and economic institutions. The course will focus on Europe, but will include comparisons with other developed nations. Topics include: long-run economic growth, the rise of capitalistic agriculture and industry, the causes and consequences of technological change; changes in income distribution and economic organization; and the social and cultural effects of economic change. Prerequisite: ECON 520, ECON 522, and ECON 535 or ECON 530, or consent of instructor. LEC.

ECON 768. The Industrial Revolution. 3 Hours.
An examination of the development of the industrialization of England and its impact on the North Atlantic economy. Consideration will be given to the effects of demographic and technical changes upon economic structure and the changing economic relationships between nations. Prerequisite: ECON 520 and ECON 522 or consent of instructor. LEC.

ECON 769. Financial Economics. 3 Hours.
An introduction to the economic analysis of choice under uncertainty and asset pricing theory. Topics include the general equilibrium Arrow-Debreu model of complete markets; capital asset pricing model; stochastic dominance; portfolio frontiers; mutual fund separation theorems; arbitrage pricing theory; valuation of derivative securities. Both single-period models and multi-period models will be discussed. Students should have some background in elementary linear algebra, calculus, and probability theory. Prerequisite: DSCI 301 and ECON 700 or equivalent. LEC.

ECON 770. Economics of the Labor Market. 3 Hours.
A theoretical and empirical analysis of labor supply and demand, human capital, information and labor mobility, unemployment, discrimination, and union behavior and influence. Prerequisite: ECON 520, and MATH 121 or MATH 115 and MATH 116. LEC.

ECON 790. Game Theory and Applications. 3 Hours.
This course covers basic game theory and applications. Topics covered include strategic games with complete information, Bayesian games (with incomplete information), extensive games with perfect information, and extensive games with imperfect information. Equilibrium concepts covered include Nash equilibrium, mixed-strategy Nash equilibrium, rationalizability, Bayesian Nash equilibrium, sub-game perfect Nash equilibrium, and sequential equilibrium. Depending on availability of time, additional topics may include strictly competitive games and repeated games. The course may include diverse applications such as in business strategy, auctions, voting, international trade, military conflicts, contracts, regulation, and industrial organization. Prerequisite: MATH 122 and MATH 526. LEC.

ECON 791. Game Theory and Applications II. 3 Hours.
This course is a continuation of game theory and applications (ECON 790). Topics may include rationality and common knowledge, multi-stage games and repeated games, coalitional games and the core, and sequential rationality, including possible applications such as signaling, reputation, and information transmission. Additional topics may include, among others, strictly competitive games and repeated games. The course may include diverse applications within and outside economics. Perquisite: ECON 790 or consent of instructor LEC.

ECON 800. Optimization Techniques I. 3 Hours.
Economic models involving the maximization of a scalar (vector) function subject to equality and inequality constraint where the variables are in a finite dimensional Euclidean space. Characterization of optimal points by way of first and second order derivatives and by way of saddle points. Duality theorems of mathematical programming. Prerequisite: Consent of instructor. LEC.

ECON 801. Microeconomics I. 3 Hours.
An advanced course in price and distribution theory. Prerequisite: ECON 800 or consent of instructor. LEC.

ECON 802. Microeconomics II. 3 Hours.
The study of the operation of the economic system taking into account the diversity of goods and services. Primary attention is centered upon the competitive economy. A study is made of the existence, uniqueness,
stability, and comparative statics of equilibrium positions. In addition, a study is made of ways of evaluating alternative states of the economy in terms of systems of value judgments. This includes a discussion of the Arrow Impossibility Theorem; the notion of a Pareto-satisfactory process is introduced and the relationship between Pareto-optimal states and competitive equilibrium positions is studied. Prerequisite: ECON 801. LEC.

ECON 803. Growth Theory. 3 Hours.
The study of Harrod-Domar growth models; the Solow model; Uzawa’s two sector model; n-sector growth models; the Ranis-Fei development models; and other application of growth theory to public policy. Prerequisite: ECON 700 and ECON 701. LEC.

ECON 805. Teaching Methods in Economics. 3 Hours.
The goal of the course is to enhance undergraduate student learning by refining and expanding the teaching techniques in the teaching assistant’s arsenal. The course starts by discussing and illustrating the importance of setting the tone on the first day of class. Then the course turns to ways of creating intellectually exciting lectures and discussion sections. Active learning comes next as the course presents techniques to involve actively the students in their learning experience. Then the course examines ways for recognizing and broadening our teaching styles to include different learning styles. The course also discusses the evaluation of students by emphasizing the importance of matching the assessment of students with course objectives. This course will not assume any prior teaching experience. Prerequisite: Consent of instructor. LEC.

ECON 809. Optimization Techniques II. 3 Hours.
Economic models involving the maximization of an integral (a vector of integrals) subject to differential equality (inequality), integral equality (inequality), and finite equality (inequality) constraints. Characterization of optimal paths by way of first and second derivatives. Existence of optimal paths. Prerequisite: Consent of instructor. LEC.

ECON 810. Macroeconomics I. 3 Hours.
A survey of basic macroeconomic models, including Classical and Keynesian as well as more recent ones. Topics also cover monetary and fiscal stabilization policies, the role of rational expectations, and basic behavioral equations. Tradeoffs of inflation and unemployment are examined both theoretically and empirically. Prerequisite: ECON 809 or consent of instructor. LEC.

ECON 811. Macroeconomics II. 3 Hours.
Structure of dynamic models and intertemporal optimization. Monetary and real business cycle theories and long-run economic growth. Microeconomic foundations of macroeconomics, theories of explicit and implicit contracts, and implications of overlapping generations models. Prerequisite: ECON 810. LEC.

ECON 817. Econometrics I. 3 Hours.
An intensive study of the general linear model and distribution theory associated with the multivariate normal: stochastic difference equation; autocorrelation, errors in variables. Prerequisite: MATH 628. LEC.

ECON 818. Econometrics II. 3 Hours.
The study of estimation and hypothesis testing within the context of the stochastic simultaneous equations model. Prerequisite: ECON 817. LEC.

ECON 820. Applied General Equilibrium. 3 Hours.
A study of numerical applications of Walrasian general equilibrium theory to problems in public finance, international trade, and macroeconomics. The Arrow-Debreu model will be reviewed with emphasis on the use of Kakutani’s fixed point theorem to prove existence of equilibrium. Fixed point algorithms used to solve the general equilibrium model will be studied. The Shoven-Whalley method for introducing taxes into the general equilibrium model will be discussed and extended to open economy models with tariffs and quotas. Finally, dynamic macroeconomic models will be studied and financial assets will be introduced in perfect foresight models. Prerequisite: ECON 801. LEC.

ECON 825. Tutorial. 0 Hours.
This course is designed to provide extra assistance for graduate students in economics. RSH.

ECON 830. Game Theory and Industrial Organization. 3 Hours.
A comprehensive introduction to game theory and the theory of industrial organization. Basic game theoretic concepts will be discussed in the context of static games, games of incomplete information, and dynamic games. These concepts will be applied to the theory of industrial organization. Topics may include mechanism design, market failure, monopoly, imperfect competition and oligopoly, limit pricing, predatory pricing, innovation and technical change, advertising and signaling theory, collusion and coordination, regulation under incomplete information, agency and auditing problems, incentives in hierarchies, job market signaling, insurance markets, nonlinear pricing and monopoly, and bargaining and long term relations. Prerequisite: ECON 801 and 802. RSH.

ECON 831. Economics of Regulation. 3 Hours.
This course provides an analytical introduction to the study of the economic rationale for and effects of government regulation of industry. Special emphasis will be placed on public utility regulation. Prerequisite: ECON 700. LEC.

ECON 835. Comparative Economic Systems. 3 Hours.
Comparative studies of the organization, operation, and performance of economic systems. Theoretical issues involving the comparison of different economic systems will be covered. Theoretical characterizations of different economic systems such as capitalist economies, socialist economies, and centrally planned economies, will be developed. Case studies of economic institutions and economic performance in various countries will be examined. Prerequisite: ECON 700 and ECON 701. LEC.

ECON 840. Microeconomic Issues in Development Economics. 3 Hours.
This course will examine the process and policies of economic development from a microeconomic perspective. Selected topics may include: the use of input-output matrices in development planning; price controls and corrections for their allocative distortions; international trade policies; transformations from planned to market economies; labor markets and labor mobility; and capital markets and capital mobility. LEC.

ECON 842. Theory of Economic Planning. 3 Hours.
Formal construction of the foundations of economic planning with emphasis on concise discussion of the logic behind the techniques utilized in economic planning. Topics that will be studied include: social welfare, short-term planning, price guided planning procedures, non-price guided planning procedures, long-term planning objectives, and characteristics of optimal plans. Prerequisite: ECON 802 or consent of instructor. LEC.

ECON 844. Macroeconomic Issues in Development Economics. 3 Hours.
This course will examine the process and policies of economic development from a macroeconomic perspective. Topics will include the theory of growth in the dual economy, the role of foreign trade in economic development, inflation and stabilization in developing economies, the problem of foreign debt, the relationship between financial and real development, and various development policies. Prerequisite: ECON 810 or consent of instructor. LEC.

ECON 850. The Advanced Theory of International Finance. 3 Hours.
This is an advanced course in international finance. Possible topics include optimizing, equilibrium models of exchange rate determination,
empirical tests of international asset-pricing models, international policy coordination, and properties of different international monetary arrangements. Prerequisite: ECON 811. LEC.

ECON 851. The Theory of International Trade. 3 Hours.
The study of the pure theory of international trade; factor-price equalization, trade and welfare, general equilibrium in the international economy, comparative statics, and stability conditions. Prerequisite: ECON 700 and ECON 701. LEC.

ECON 855. Natural Resources. 3 Hours.
Advanced analysis of the economic relationships between natural resources, population, and environment. Emphasis is on the analytical techniques useful for solving the economic problems of natural resource allocation over time. Prerequisite: ECON 700. LEC.

ECON 860. Advanced Public Finance. 3 Hours.
A rigorous treatment of the economics of the public sector. Emphasis will be placed on government expenditure and taxation. Possible topics include tax incidence, optimal taxation, dynamic analysis of fiscal policy, public goods, and cost benefit analysis. Prerequisite: ECON 801 or permission of instructor. LEC.

ECON 866. Selected Problems in American Economic History. 3 Hours.
A critical study of selected aspects of American economic history with particular emphasis upon the testing of hypotheses that have been advanced to explain the growth and development of the American economy. Prerequisite: ECON 766. LEC.

ECON 869. Advanced Financial Economics. 3 Hours.
This course presents an analysis of financial markets and instruments, together with the quantitative tools essential for research in the field. The material will be presented in a discrete time setting and will stress the link between financial economics and equilibrium theory. Topics will include securities pricing in the absence of arbitrage, the theory of risk and utility in the basic portfolio problem, mean variance analysis and the CAPM, the Martingale properties of security prices, restricted participation, asymmetric information, and recent research results. Prerequisite: ECON 802 or consent of instructor. LEC.

ECON 870. Applied Microeconomics. 3 Hours.
This course introduces students to the data and empirical methods used in the fields of applied economics such as labor economics, public finance, and industrial organization. The course will focus on how to adjust for self-selection and identify causal relationships in applied microeconomics fields. Topics covered include economic data and statistical programming, instrumental variables, difference-in-differences, regression discontinuity, count data, sample selection, treatment effects, and duration models. Attention will be given to the suitability of the methods to the research question under consideration. Each topic will emphasize the proper application of the methods using the standard textbook treatment as well as assigned papers that examine the basic economic issues, the econometric techniques, and the applications to data. Prerequisite: ECON 817 and ECON 818, or consent of instructor. ECON 915 is recommended. LEC.

ECON 880. Selected Topics in Economic Theory. 1-3 Hours.
An advanced course in economic theory that will study selected topics in economic theory such as consumer theory, linear economics, decision theory, stability of economic equilibrium, comparative statics, etc. Prerequisite: Consent of instructor. LEC.

ECON 899. Master’s Thesis. 1-10 Hours.
THE.

ECON 901. Advanced Economic Theory I. 3 Hours.
Advanced study of current general equilibrium analysis, the mathematical tools involved in such analysis, and some applications to other branches of economic theory. Prerequisite: ECON 802 and ECON 810. LEC.

ECON 902. Advanced Economic Theory II. 3 Hours.
A continuation of the advanced study of general equilibrium analysis. Prerequisite: ECON 901. LEC.

ECON 910. Economic Theory Seminar-Workshop. 1-3 Hours.
This seminar-workshop is designed to study advanced research topics in the areas of microeconomic and macroeconomic theory, and also provide assistance in the preparation and development of the dissertations of Ph.D. candidates in these areas of specialization. LEC.

ECON 911. Applied Macroeconomics. 3 Hours.
An advanced exploration of the microeconomic foundations of macroeconomics, neoclassical macroeconomics with and without money, Keynesian and neo-Keynesian macroeconomics, and economic stabilization, inflation, and unemployment. Prerequisite: ECON 802 and ECON 810. LEC.

ECON 912. Advanced Macroeconomics. 3 Hours.
An analysis of economic policy in dynamic economic models. The effects of various policies on the equilibrium, stability, and adjustment paths of the models will be considered. Both open and closed economies will be analyzed. Prerequisite: ECON 810. MATH 320 is recommended. LEC.

ECON 913. Monetary Economics. 3 Hours.
This course examines how money, monetary policy, and monetary institutions influence the macroeconomy. Modern theories of money demand are presented and critiqued. The function of commercial banks, non-bank financial intermediaries, and central banks in the money supply process is addressed. Interrelationships between the tools, the instruments, the operating procedures, the intermediate targets, and the goals of policy are examined. Additional topics may include the monetary transmission mechanism, the effect of uncertainty on optimal policy decisions, the rules versus discretion debate, the monetary implications of fiscal policy, the term structure of interest rates, the causes and consequences of bank runs and financial panics, and the optimal method of constructing weighted monetary aggregates. Prerequisite: ECON 811 or consent of instructor. LEC.

ECON 915. Advanced Econometrics I. 3 Hours.
The study of selected topics in applied cross-section econometrics for uses mainly in applied microeconomics, public finance, and labor economics. Topics include traditional econometrics of production and demand, latent variable models, panel data studies, probabilistic choice models, censored and truncated models, sample selection, disequilibrium models, duration studies, and semi- and non-parametric models. Prerequisite: ECON 818, or consent of instructor. LEC.

ECON 916. Advanced Econometrics II. 3 Hours.
A study of selected topics in applied time-series econometrics for use mainly in applied macroeconomics, international finance, and development economics. Topics include empirical applications of ARCH models, VAR models (study of impulse response function and variance decomposition), unit-root cointegration and long memory models. Bayesian unit root analysis, estimation and inference of dynamic general equilibrium models, model calibration and simulation are also possible topics of this course. Prerequisite: ECON 818, or consent of instructor. LEC.

ECON 917. Advanced Econometrics III. 3 Hours.
A study of structural and nonlinear time series approaches to econometric modeling and inference. The course emphasizes techniques needed to use economic theory in system-wide econometrics. Emphasis is placed
on selection of functional form for approximation to theoretical functions and the use of duality theorems for derivation of the resulting econometric systems of equation. Inference with those models will be by nonlinear parametric, semi-parametric, and nonparametric methods. Prerequisite: ECON 818. LEC.

**ECON 918. Financial Economics. 3 Hours.**
This course is designed to provide a variety of new econometric tools useful to investigate financial data. It discusses how to measure and forecast financial volatility using models such as Stochastic Volatility, multivariate GARCH, and Dynamic Conditional Correlation models. It also covers Dynamic Factor models and State Space models, which can be used in many financial data analyses. The course will be particularly helpful for the students preparing dissertations in the field of finance, macro-finance, monetary economics, international finance, and development economics. It will also benefit the students interested in more practical use of tools in the field such as financial risk management, insurance, and commercial banking. Prerequisite: ECON 818. ECON 916 is recommended. LEC.

**ECON 920. Econometrics Seminar-Workshop. 1-3 Hours.**
This seminar-workshop is designed to study advanced research topics in the area of econometric theory and application, and also provide assistance in the preparation and development of the dissertations of Ph.D. candidates in this area of specialization. LEC.

**ECON 925. Economic Dynamics. 3 Hours.**
A study of the concepts of equilibrium and stability in various economic frameworks; static economies, changing economies, and disaggregated and aggregated economies. Prerequisite: ECON 802. LEC.

**ECON 930. Economic History Seminar-Workshop. 1-3 Hours.**
This seminar-workshop is designed to study advanced research topics in the area of economic history, and also provide assistance in the preparation and development of the dissertations of Ph.D. candidates in this area of specialization. LEC.

**ECON 940. Economic Seminar-Workshop in: ____. 1-3 Hours.**
This seminar-workshop is designed to study advanced research topics in the specified area of applied economics (public finance, monetary analysis, environment-energy, economic growth and development, urban economics, health care economics, natural resources, labor-manpower, international trade and finance, comparative economic systems, Soviet economics), and also provide assistance in the preparation and development of the dissertations of Ph.D. candidates in a specific area of applied economics. LEC.

**ECON 950. Special Problems in Economics. 1-3 Hours.**
LEC.

**ECON 955. Advanced Topics in Natural Resources. 3 Hours.**
Rigorous analysis of an Arrow-Debreu economy with natural resources and extensions (including optimal growth, planning procedures, and uncertainty). Investigation of current research topics in theoretical and applied resource economics. Required course for Ph.D. candidates writing dissertations in natural resources. Prerequisite: Consent of instructor. ECON 927 recommended. RSH.

**ECON 970. Advanced Labor Economics. 3 Hours.**
A survey of recent labor economics research. Topics include labor supply and demand, human capital investment, and unemployment. Prerequisite: ECON 770. LEC.

**ECON 999. Doctoral Dissertation. 1-10 Hours.**
THE.

---

**Bachelor of Arts and Bachelor of General Studies in Economics**

**Why study economics?**
Because it will give you the tools you need to understand our increasingly interconnected world.

**Economics Majors**
The economics department offers 3 degrees.

- The B.A. or B.G.S. major in economics is designed for the majority of students who will go on to professional graduate schools or into the work force.
- The Bachelor of Science degree in economics is designed for the student interested in going to graduate school in economics or a closely related field. It requires the minimum amount of preparation in economics and mathematics required to be successful in graduate study. Students interested in pursuing a Ph.D. in economics are strongly urged to double major in economics and mathematics.

**First- and Second-Year Preparation**
Students considering an economics major should enroll in ECON 142 (or ECON 143) Principles of Microeconomics or ECON 144 (or ECON 145) Principles of Macroeconomics no later than the end of the sophomore year. Students should also have completed at least 1 course in the calculus sequence (MATH 115 or MATH 121) by the end of the sophomore year.

**Requirements for the B.A. or B.G.S. Major**

**Economics Core Knowledge and Skills (15)**
Majors must complete a course in each of the following areas:

- Principles of Microeconomics. Satisfied by:
  - ECON 142
  - or ECON 143

- Principles of Macroeconomics. Satisfied by:
  - ECON 144
  - or ECON 145

**Microeconomics. Satisfied by:**
- ECON 520
- or ECON 521

**Macroeconomics. Satisfied by:**
- ECON 522
- or ECON 523

**Introduction to Econometrics. Satisfied by:**
- ECON 526
- or ECON 715

**Economics Required Electives (6)**
Majors must complete 2 courses (6 hours) in economics outside of the core courses at the 500-level or above.

**Economics Required Capstone Elective Courses (9)**
Majors must complete 3 courses (9 hours) in economics outside of the core courses at the 600-level or above.
Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 30 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major. (At least 3 of the required elective courses must be taken from the KU Department of Economics.)

Major Junior/Senior Hours
Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the major. At least 9 hours of the required elective courses must be taken from the KU Department of Economics.)

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/ Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Major Junior/Senior Major Attempts
Summary includes American Studies junior/senior (300+) hours attempted, including F's and incompletes.

Graduation Plan

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please work with your major advisor to discuss a 4-year plan for economics.

Departmental Honors

Graduation with honors in economics is limited to undergraduate majors who have fulfilled these requirements:

1. Completed all economics major requirements and achieved a grade-point average of 3.5 or above in all economics courses and an overall average of 3.25 or above at the time of graduation.
2. Completed ECON 497 Senior Research Honors.
3. Submitted and defended a research paper before at least 3 faculty members of the Department of Economics.

Honors candidates should consult the department honors coordinator before enrolling the first semester of the senior year and file a declaration of intent form with the coordinator at that time.

Bachelor of Science in Economics

Why study economics?

Because it will give you the tools you need to understand our increasingly interconnected world.

Economics Majors

The economics department offers 3 degrees.

- The Bachelor of Science degree in economics is designed for the student interested in going to graduate school in economics or a closely related field. It requires the minimum amount of preparation in economics and mathematics required to be successful in graduate study. Students interested in pursuing a Ph.D. in economics are strongly urged to double major in economics and mathematics.
- The B.A. or B.G.S. major in economics is designed for the majority of students who will go on to professional graduate schools or into the work force.

First- and Second-Year Preparation

Economics Prerequisite or Co-Requisite Knowledge

Majors must complete courses as specified in each of the following two areas. These hours do not contribute to the minimum number of hours required for the major.

College Algebra or Pre-Calculus (3)
Satisfied by:
- MATH 101 College Algebra 3
  or MATH 104 Precalculus Mathematics

Calculus I (5)
Satisfied by:
- MATH 121 Calculus I (Students may complete MATH 115 and MATH 116 prior to completing MATH 122.) 5

Calculus II (5)
Satisfied by:
- MATH 122 Calculus II 5

Vector Calculus (3)
Satisfied by:
- MATH 223 Vector Calculus 3
  or MATH 243 Vector Calculus, Honors

Elementary Linear Algebra (2)
Satisfied by:
- MATH 290 Elementary Linear Algebra 2
  or MATH 291 Elementary Linear Algebra, Honors

Statistics (3)
Satisfied by:
- MATH 526 Applied Mathematical Statistics I 3
  or DSCI 202 Statistics

Economics General Education Requirements

Written Communication - Core Skill and Critical Inquiry

Composition (0)
Satisfied by one of the following. Requirement must be completed during initial term of admission at KU.
- ENGL 101 Composition
- ACT English score of 27 or above or SAT English score of 600 or above
- AP English Literature & Composition score of 3 or above
  Equivalent transfer course

Critical Reading and Writing (0)
Satisfied by one of the following. Requirement must be completed within the first academic year at KU.
ENGL 102  Critical Reading and Writing
or ENGL 105  Freshman Honors English

AP English Literature & Composition score of 4 or above
Equivalent transfer course

Sophomore Reading and Writing II (0)
Satisfied by:
ENGL 203  Topics in Reading and Writing: _____
or ENGL 205  Freshman-Sophomore Honors Proseminar: _____
ENGL 209  Introduction to Fiction
ENGL 210  Introduction to Poetry
ENGL 211  Introduction to the Drama

AP English Literature & Composition score of 5 or above
Equivalent transfer course

Western Civilization - Exploration of One's Own and Diverse Culture.
(Advising Alert: Requires sophomore-level standing. Courses at other universities may have the same title but may not meet this requirement.)

Western Civilization I - Ancient, Medieval & Early Modern Periods of Western Civilization (3)
Satisfied by:
HWC 204  Western Civilization I  3
or HWC 114  Western Civilization I Honors

Western Civilization II - Modern Western Civilization (3)
Satisfied by:
HWC 205  Western Civilization II  3
or HWC 115  Western Civilization II Honors

Humanities - Understanding the Human Condition. Satisfied by completing 3 courses at least 1 of the following categories: historical studies (requirement code HT), literature and the arts (requirement code HL), and philosophy and religion (requirement code HR). Approved courses may be searched for availability through the Kyou portal.

Social and Behavioral Sciences - Understanding Society and Behavior. Satisfied by completing 3 courses at least one in 1 of the following categories: individual behavior (requirement code SI), culture and society (requirement code SC), or public affairs (requirement code SF). Approved courses may be searched for availability through the Kyou portal.

Natural Science & Mathematics - Understanding the Natural World.
Satisfied by completing 1 course in 3 of the 4 requirement codes: biological sciences (requirement code NB), earth sciences (requirement code NE), mathematical sciences (requirement code NM), and physical sciences (requirement code NP). Approved courses may be searched for availability through the Kyou portal. The purpose of this requirement is to expose students to several disciplines in an effort to help them make informed choices regarding potential majors or minors. Principal courses should be completed early in the curriculum.

Requirements for the B.S. Degree

Economics Core Knowledge and Skills (18)
Majors must complete a course in each of the five following areas:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 142</td>
<td>Principles of Microeconomics</td>
<td>3</td>
</tr>
<tr>
<td>or ECON 143</td>
<td>Principles of Microeconomics, Honors</td>
<td></td>
</tr>
<tr>
<td>ECON 144</td>
<td>Principles of Macroeconomics</td>
<td>3</td>
</tr>
<tr>
<td>or ECON 145</td>
<td>Principles of Macroeconomics, Honors</td>
<td></td>
</tr>
</tbody>
</table>

Graduation with honors in economics is limited to undergraduate majors who have fulfilled these requirements:

1. Completed all economics major requirements and achieved a grade-point average of 3.5 or above in all economics courses and an overall average of 3.25 or above at the time of graduation.
2. Completed ECON 497 Senior Research Honors.
3. Submitted and defended a research paper before at least 3 faculty members of the Department of Economics.

Honors candidates should consult the department honors coordinator before enrolling the first semester of the senior year and file a declaration of intent form with the coordinator at that time.

Departmental Honors

ECON 700  Survey of Microeconomics  3
or ECON 715  Elementary Econometrics  3

Economics Required Electives (18)
Majors must complete 6 courses (18 hours) in economics outside of the core courses at the 500-level or above.

1  ECON 700 and ECON 715 are offered only in the fall semester

Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 36 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major. (At least 3 of the required elective courses must be taken from the KU Department of Economics.)

Major Junior/Senior Hours
Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the major. (At least 9 hours of the required elective courses must be taken from the KU Department of Economics.)

Economics Required Electives (18)
Minor in Economics

Why study economics?

Because it will give you the tools you need to understand our increasingly interconnected world.

Requirements for the Minor

Economics Minor Course Requirements (6)

Students selecting this minor must complete courses as specified in each of the following areas:

College Algebra or Pre-Calculus Prerequisite. Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 105</td>
<td>Introduction to Topics in Mathematics</td>
</tr>
<tr>
<td>MATH 111</td>
<td>Matrix Algebra, Probability, and Statistics</td>
</tr>
<tr>
<td>MATH 115</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH 121</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH 365</td>
<td>Elementary Statistics</td>
</tr>
<tr>
<td>BIOL 570</td>
<td>Introduction to Biostatistics</td>
</tr>
</tbody>
</table>

AP Calculus (AB or BC) score of 3 or above

AP Statistics score of 3 or above

Equivalent transfer course

Principles of Microeconomics. Satisfied by:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 142</td>
<td>Principles of Microeconomics</td>
</tr>
<tr>
<td>ECON 143</td>
<td>Principles of Microeconomics, Honors</td>
</tr>
</tbody>
</table>

Principles of Macroeconomics. Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 144</td>
<td>Principles of Macroeconomics</td>
</tr>
<tr>
<td>ECON 145</td>
<td>Principles of Macroeconomics, Honors</td>
</tr>
</tbody>
</table>

Economics Required Electives. Majors must complete 4 ECON courses (12 hours) at the junior/senior level (300+).

Minor Hours & Major GPA

While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

**Minor Hours**

Satisfied by 18 hours of minor courses.

**Minor Junior/Senior (300+) Hours in Residence**

Satisfied by a minimum of 9 hours of junior/senior (300+) resident credit in the minor.

**Minor Junior/Senior Hours**

Satisfied by a minimum of 12 hours of junior/senior courses (300+) in the minor.

**Minor Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in all department courses in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in Economics

Financial Aid

Visit the Graduate Studies website for information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for graduate students at KU.

Financial Aid and Scholarships (http://affordability.ku.edu/steps/index.shtml) administers grants, loans, and need-based financial aid.

Facilities and Services

In addition to KU computing and library facilities, students in the M.A. and Ph.D. programs may use the department's computer laboratory, which provides access to a variety of databases and econometric software packages useful for economics research.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Applicants to the M.A. and M.A./J.D. programs should have taken a minimum of 2 courses in calculus (6 to 10 semester hours) and a statistics course. Students with little background in economics may be advised to take ECON 520 Microeconomics and/or ECON 522 Macroeconomics and/or ECON 526 Introduction to Econometrics as preparation for M.A. courses. ECON 520, ECON 522, and ECON 526 do not count toward completion of M.A. degree requirements.

Applications submitted before May 1 receive first consideration for fall or summer admission. Applications submitted before November 1 receive first consideration for spring admission.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the department:

**The University of Kansas**
**Department of Economics**
**Graduate Secretary**
**Snow Hall**
**1460 Jayhawk Blvd., Room 415**
**Lawrence, KS 66045-7514**

English Proficiency and Test of English as a Foreign Language or International English Language Testing System Scores

An applicant who has graduated with a baccalaureate degree or higher from an accredited institution of higher education in the U.S., U.K., Australia or Canada (excepting Quebec) automatically meets the English
language proficiency requirement. All other students whose native language is not English are required to provide evidence of English language proficiency. The university accepts TOEFL and IELTS scores. The required scores are listed below.

<table>
<thead>
<tr>
<th>Test</th>
<th>Required Scores</th>
</tr>
</thead>
<tbody>
<tr>
<td>TOEFL (paper)</td>
<td>All part scores at least 53</td>
</tr>
<tr>
<td>TOEFL (CBT)</td>
<td>All part scores at least 20</td>
</tr>
<tr>
<td>TOEFL (IBT)</td>
<td>Reading, Listening, and Writing part scores at least 20 5.5</td>
</tr>
<tr>
<td>IELTS</td>
<td>Minimum overall score 6.0 with no part score below</td>
</tr>
</tbody>
</table>

M.A. Degree Requirements

The Master of Arts degree program serves students with little previous background in economics as well as students who majored in economics as undergraduates. The program provides maximum flexibility for students to pursue their own special interests.

Candidates for the M.A. degree must complete a minimum of 30 semester hours of graduate work, including 9 hours of required core classes (ECON 700, ECON 701, ECON 715). At least 18 hours, including the required core courses, must be in economics; but students may take up to 12 hours in related areas, such as business administration, computer science, political science, or mathematics, subject to the approval of the M.A. advisor. No more than 9 hours of economics classes may be taken at the 500 and 600 levels. At initial enrollment, each candidate must discuss a preliminary plan of study with his or her graduate advisor. This plan may be revised over time.

Thesis and Nonthesis Options

Candidates may pursue either a thesis or a nonthesis track. Students electing the thesis track must complete 24 hours of formal course work and 6 hours of thesis under the direction of a thesis supervisor. This work is to be devoted to the completion of a satisfactory thesis. An oral examination is held on completion of the thesis. Students electing the nonthesis track must complete 30 hours of formal course work.

Written Comprehensive Examination

All candidates for the M.A. degree, including students enrolled in the M.A./J.D. program, must demonstrate proficiency in the application of economic theory through a written examination taken during the last semester of enrollment.

Plan of Study

Most M.A. students complete the program in 2 academic years. Unless they must complete prerequisites, new M.A. students enroll in ECON 700 Survey of Microeconomics and ECON 715 Elementary Econometrics and 1 elective during the first fall semester. In the first spring semester, M.A. students enroll in ECON 701 Survey of Macroeconomics and 2 electives. Enrollments in subsequent semesters are electives until 30 credit hours are complete.

M.A.-J.D. Degree Program

Why study economics?

Because it will give you the tools you need to understand our increasingly interconnected world.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

M.A.-J.D. Degree Program

In this program a student can earn both the Juris Doctor (p. 760) and the Master of Arts in economics in 3 years and 1 summer session. The requirements for the combined degree are as follows:

1. Admission to the M.A.-J.D. degree program must be approved by the School of Law (http://www.law.ku.edu), the Department of Economics (http://www.economics.ku.edu), and the College of Liberal Arts and Sciences (http://clas.ku.edu).
2. The program requires 100 credit hours of course work, of which 82 hours must be completed in the law school and 18 hours in the Department of Economics. The department gives credit toward the M.A. degree for 12 hours of pertinent work in the law school, and the law school counts 8 credit hours in economics toward the J.D. degree. The 8 hours of economics courses that count toward the J.D. degree can be chosen from certain courses numbered 500-799 and from all 800-900 level courses. Prerequisites continue to apply, as does the requirement that all students seeking the M.A. degree must have taken several foundation courses that do not count toward a graduate degree in economics: microeconomics, macroeconomics, and calculus. In addition, ECON 700, ECON 701, and ECON 715 must be included in the M.A. program. The student takes only law classes the first year and spreads out the 18 hours of credit in economics in the following semesters (e.g., one course per semester).
3. The M.A.-J.D. degree is a nonthesis degree in economics. A written comprehensive examination in economics is required of all candidates for the M.A.-J.D. degree.

Doctor of Philosophy in Economics

Financial Aid

Financial aid may be awarded in the form of Graduate Teaching Assistantships or Graduate Research Assistantships. First consideration for financial aid is given to applications received before February 1. To be considered for GTAs, international students must include a score from the Test of Spoken English or a TOEFL-iBT examination that includes a speech component. A minimum iBT speaking score of 24 or an IELTS speaking score of 8 or a score of 50 on the TSE or SPEAK tests.

Visit the Graduate Studies website for information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for graduate students at KU.
Financial Aid and Scholarships (http://affordability.ku.edu/steps/index.shtml) administers grants, loans, and need-based financial aid.

Facilities and Services

In addition to KU computing and library facilities, students in the M.A. and Ph.D. programs may use the department's computer laboratory, which provides access to a variety of databases and econometric software packages useful for economics research.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Applicants to the Ph.D. program should have taken 3 courses in calculus (12 to 15 semester hours) and a course in linear algebra.

Applications submitted before February 1 receive first consideration for financial aid for fall admission. Applications may continue to be submitted until May 1 for fall admission. Applications submitted before November 1 receive first consideration for spring admission.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the department:

The University of Kansas
Department of Economics
Graduate Secretary
Snow Hall
1460 Jayhawk Blvd., Room 415
Lawrence, KS 66045-7514

Students whose native language is not English usually have difficulty in the program unless their English is excellent. The university accepts TOEFL and IELTS scores. The required scores are listed below.

<table>
<thead>
<tr>
<th>TOEFL (paper)</th>
<th>TOEFL (CBT)</th>
<th>TOEFL (IBT)</th>
<th>IELTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>All part scores at least 53</td>
<td>All part scores at least 20</td>
<td>Reading, Listening, and Writing part scores at least 20</td>
<td>Minimum overall score 6.0 with no part score below 5.5</td>
</tr>
</tbody>
</table>

Ph.D. Degree Requirements

Course Requirements

In addition to meeting general requirements, the Ph.D. candidate in economics must complete a minimum of 54 credit hours of course work, at least 48 of which must be in economics.

1. All Ph.D. candidates must complete these core courses in economic theory and quantitative methods:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 800</td>
<td>Optimization Techniques I</td>
<td>3</td>
</tr>
<tr>
<td>ECON 801</td>
<td>Microeconomics I</td>
<td>3</td>
</tr>
<tr>
<td>ECON 802</td>
<td>Microeconomics II</td>
<td>3</td>
</tr>
<tr>
<td>ECON 809</td>
<td>Optimization Techniques II</td>
<td>3</td>
</tr>
<tr>
<td>ECON 810</td>
<td>Macroeconomics I</td>
<td>3</td>
</tr>
<tr>
<td>ECON 811</td>
<td>Macroeconomics II</td>
<td>3</td>
</tr>
<tr>
<td>ECON 817</td>
<td>Econometrics I</td>
<td>3</td>
</tr>
<tr>
<td>ECON 818</td>
<td>Econometrics II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 727</td>
<td>Probability Theory</td>
<td>3</td>
</tr>
<tr>
<td>MATH 728</td>
<td>Statistical Theory</td>
<td>3</td>
</tr>
</tbody>
</table>

2. Course work beyond these required core courses is a matter of choice for the student in consultation with his or her graduate advisor. The graduate advisor develops a program to assist the student in specialized interests. Each program must include a sufficiently broad range of topics in economics to prepare the student for comprehensive examinations.

Qualifying Examinations

Ph.D. degree aspirants must pass written qualifying examinations in microeconomics and macroeconomics after completion of the core courses in these areas, ordinarily at the beginning of the fourth semester of full-time study. A student who does not pass a qualifying examination may be permitted 1 retake, ordinarily at the end of the fourth semester of full-time study.

Fields of Specialization

Each student must demonstrate competence in at least 2 fields of specialization in economics by completing 2 courses in each of these areas. Current fields of specialization include financial economics, economic development, industrial organization, international economics, labor economics, econometrics, economic history, economic theory, and macroeconomics.

Seminar-Workshops and Responsible Scholarship

Beginning in the third year of the program, each student must enroll in ECON 910 and attend the weekly department seminars for 6 continuous semesters. Every doctoral student is required to have training in responsible scholarship pertinent to economics research. Each semester there will be a 90-minute seminar on this topic led by either a faculty member or a visiting speaker.

Third-Year Paper

Each student must complete a third-year seminar paper. This would typically be in one of the fields of specialization. Usually the third-year paper becomes part of the student’s doctoral dissertation.

Comprehensive Oral Examination

Upon completion of most of the course work and other requirements for the doctoral degree, inclusive of research skills and residence requirements, the student must prepare a dissertation proposal under the direction of a thesis advisor and pass a comprehensive oral examination related to the dissertation proposal.
Dissertation

Following the comprehensive oral examinations, the candidate must organize and write a dissertation on his or her chosen topic under the supervision of a dissertation committee.

Final Oral Examination

The candidate must defend the dissertation successfully in a final oral examination.

1 If needed.

Department of English

Why study English language and literature?

Because reading and writing shape the world.

KU’s English Department is at the core of the humanities, highlighting the “human” through our individual, one-on-one interactions with our students, our emphasis on community and global engagement, and our abiding interest in our shared humanity through the stories of others. We seek to challenge the mind and to engage the imagination of our students, to teach them to ask questions and to seek for answers. We encourage them to grapple with the complexity of a culturally and commercially interconnected world and the global networks and processes of cultural exchange. We believe that words and ideas will shape the world. We teach our students life-long skills, so that they learn to write clearly, creatively, and effectively—discovering themselves even as they lay a solid foundation for professional success.

A commitment to teaching and learning.

Our department is renowned for its tradition of excellence in teaching. The vast majority of our undergraduate classes have 20-35 students, and much of the class time is dedicated to active learning and engagement with texts and ideas. In the last ten years, faculty members in the department of English have won ten Kemper Fellowships for Excellence in Teaching, two Chancellors Club Teaching Professorships, a Career Achievement Teaching Award, and a wide variety of other university-level teaching and advising awards, and the department as a whole received the Center of Teaching Excellence (CTE) award for Department Excellence in Teaching at the University of Kansas.

A variety of career and life paths.

English students at all levels graduate to a variety of careers, including law, teaching, scholarship, publishing, library science, and journalism—as well as medicine, politics, design, and any number of other fields that value clear communication, interpretive skill, and critical and creative thinking.

Engaged and innovative scholarship.

KU’s English Department has several core strengths that cross tracks and periods, including Global and Cross-Cultural Approaches; Literature, Rhetoric, and Social Action; Diversity Studies; Language, Literature and Science; and Popular Expressive Forms.

In the KU English Department, students work closely with nationally-renowned writers and researchers. Our faculty have won national awards that recognize excellence in research, including grants from the National Endowment for the Humanities, the American Philosophical Society, and the Newberry Library, among others. English Department faculty members have also received major research funding from the University of Kansas, including the Hall Center for the Humanities Research fellowships and Keeler Intra-University Fellowships for interdisciplinary work. Undergraduate students can work one-on-one with faculty mentors in the Honors Program, McNair Scholars Program, and Dean’s Scholars Program, as well as through independent Directed Studies. Advanced graduate students have the opportunity to work collaboratively with faculty members as research assistants.

Undergraduate Programs

The English major prepares undergraduates for engagement with the world through language by helping them

- to cultivate the craft of writing in a variety of rhetorical contexts,
- to read and interpret a broad range of texts,
- to develop and sustain critical arguments, and
- to produce independent research.

The major is crafted to ensure students’ familiarity with

- written forms and genres;
- a range of literary histories and writers;
- multiple regional and historical contexts of literature and language;
- the theories, methodologies, and terminology of English Studies; and
• the relationship between literature, language, and the larger culture.

Courses for Non-majors
Many English courses fulfill KU Core requirements; see catalog course listings for details. All students are encouraged to take a 200-level English course before enrolling in 300+ level English courses. For students following University requirements prior to Fall 2013, please consult the principal and non-Western course lists. English principal courses under the Literature and the Arts heading are designated HL. Prospective English teachers in the public schools should consult the requirements of the School of Education.

Transfer Credit
English undergraduate majors may take up to 6 hours out of residence with the prior approval of the Director of Undergraduate Studies.

Double Majors
Double majors within the College or dual-degree programs are encouraged.

Placement in English courses
In general, entering KU students should enroll in ENGL 101, with the following exceptions:

ACT English Scores:
• 31-36 — Enroll in ENGL 105. 1/2 of KU Core Goal 2.1 (Written Communication, 6 hours) complete; ENGL 102 or ENGL 105 + an additional KU Core Goal 2.1 course will fulfill CLAS BA-specific writing requirement.
• 27-30 — Enroll in ENGL 102 and petition for honors placement for possible admittance to ENGL 105. 1/2 of KU Core Goal 2.1 complete; ENGL 102 + an additional KU Core Goal 2.1 course will fulfill CLAS BA-specific writing requirement.
• 00-26 — Enroll in ENGL 101. ENGL 101 + ENGL 102 fulfill KU Core Goal 2.1 and CLAS BA-specific writing requirement.

SAT Verbal Scores:
• 650 or higher — Enroll in ENGL 105. 1/2 of KU Core Goal 2.1 complete; ENGL 105 + an additional KU Core Goal 2.1 course will fulfill CLAS BA-specific writing requirement.
• 600-649 — Enroll in ENGL 102 and petition for honors placement for possible admittance to ENGL 105. 1/2 of KU Core Goal 2.1 complete; ENGL 102 or ENGL 105 + an additional KU Core Goal 2.1 course will fulfill CLAS BA-specific writing requirement.
• 00-599 — Enroll in ENGL 101. ENGL 101 + ENGL 102 fulfill KU Core Goal 2.1 and CLAS BA-specific writing requirement.

Advanced Placement Scores — Literature and Composition Exam:
• AP 5 — Exemption from KU Core Goal 2.1 and from CLAS BA-specific writing requirement; 6 hours credit given.
• AP 4 — Enroll in ENGL 205; 3 hours of credit given. 1/2 of KU Core Goal 2.1 complete. ENGL 205 satisfies both KU Core Goal 2.1 and CLAS BA-specific writing requirement.
• AP 3 — Enroll in ENGL 105 or ENGL 102*. No credit is given for ENGL 101 or ENGL 102. 1/2 of KU Core Goal 2.1 complete; ENGL 102 or ENGL 105 + an additional KU Core Goal 2.1 course will fulfill CLAS BA-specific writing requirement.

Advanced Placement Scores — Language and Composition Exam:
• AP 4 or 5 — Enroll in ENGL 205; 3 hours of credit given. ENGL 205 satisfies both KU Core Goal 2.1 and CLAS BA-specific writing requirement.
• AP 3 — Enroll in ENGL 105 or ENGL 102*. No credit is given for ENGL 101 or ENGL 102. 1/2 of KU Core Goal 2.1 complete; ENGL 102 or ENGL 105 + an additional KU Core Goal 2.1 course will fulfill CLAS BA-specific writing requirement.

International Baccalaureate Scores:
• IB 6 or 7 — 6 hours of credit is given for ENGL 101 and ENGL 102. Exemption from KU Core Goal 2.1 and from CLAS BA-specific writing requirement; 6 hours credit given.
• IB 5 — Enroll in ENGL 102. 1/2 of KU Core Goal 2.1 complete; ENGL 102 or ENGL 105 + an additional KU Core Goal 2.1 course will fulfill CLAS BA-specific writing requirement.

*If you choose to take ENGL 102, you will need to petition if you want to enroll in ENGL 205 next. You could also choose to take ENGL 203, or ENGL 209, ENGL 210, or ENGL 211 for a second English course, or another KU Core Goal 2.1 course to fulfill the KU Core and the CLAS BA-specific requirements.

Graduate Programs
The department offers a full graduate program, leading to the Master of Arts (Literature, Literature & Literary Theory, Rhetoric & Composition, and English Language Studies), Master of Fine Arts in Creative Writing, and Doctor of Philosophy degrees with specializations in Literature, Composition and Rhetoric, and Creative Writing.

Courses
ENGL 50. Basic Writing Skills. 3 Hours. U.
A review of the basic skills of written English, with emphasis on sentence-level grammar. Recommended for all students who score 16 or below on the ACT English test. May be repeated for credit. LEC.

ENGL 101. Composition. 3 Hours. GE21 / U.
Instruction and practice in writing in a variety of rhetorical contexts, including academic ones. LEC.

ENGL 102. Critical Reading and Writing. 3 Hours. GE21 / U.
Builds upon the instruction in writing of ENGL 101, emphasizing critical thinking through careful, thoughtful reading and writing. Also instructs in the evaluation and use of secondary sources. Prerequisite: Completion of ENGL 101 or its equivalent, or an ACT score of 27-31, or an SAT score of 600-649, or an AP exam score of 3 on either the Literature and
ENGL 105. Freshman Honors English. 3 Hours. GE21 / U.
Study of significant works of world literature. The primary aims are to
develop reading and writing skills and to introduce the students to
works of literature drawn from a variety of genres and historical periods.
Prerequisite: An ACT score of 31-36, or an SAT score of 650 or higher,
or an AP exam score of 3 on either the Literature and Composition exam
or the Language and Composition exam, or membership in the University
Honors Program. LEC.

ENGL 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing
current issues in English. Course is designed to meet the critical
thinking learning outcome of the KU Core. First-Year Seminar topics
are coordinated and approved by the Office of First-Year Experience.
Prerequisite: First-time freshman status. LEC.

ENGL 200. Study Abroad Topics in: _____. 1-6 Hours. H.
This course is designed for the study of special topics in English.
Coursework is completed through a KU study abroad program. Available
only to KU study abroad participants. May be repeated for credit if
content varies. Does NOT fulfill any part of the Freshman-Sophomore
requirement. LEC.

ENGL 203. Topics in Reading and Writing: ____. 3 Hours. GE11/
GE21/GE3H / H.
In-depth reading and writing on a significant topic, theme, or genre.
Includes a variety of textual types or a range of historical periods.
Continued practice in critical reading and writing. May include but will not
be limited to writing in literary genres. Prerequisite: Completion of ENGL
101 and ENGL 102, or their equivalent. LEC.

ENGL 205. Freshman-Sophomore Honors Proseminar: ____. 3
Hours. GE11/GE21/GE3H / H.
Study of a major movement, topic, or theme in literature and culture.
The primary aims are to further develop reading and writing skills and to
consider significant cultural and artistic issues. Prerequisite: ENGL 105 or
an AP exam score of 4 on either the Literature and Composition exam or
the Language and Composition exam. LEC.

ENGL 209. Introduction to Fiction. 3 Hours. GE11/GE21/GE3H / H.
In-depth reading of and writing about prose fiction with emphasis on
critical analysis of a variety of narrative types from different historical
periods. Prerequisite: Completion of ENGL 101 and ENGL 102, or their
equivalent. LEC.

ENGL 210. Introduction to Poetry. 3 Hours. GE11/GE21/GE3H / H.
In-depth reading of and writing about poetry with emphasis on critical
analysis of a variety of forms and techniques used in poems from different
historical periods. Prerequisite: Completion of ENGL 101 and ENGL 102, or their
equivalent. LEC.

ENGL 211. Introduction to the Drama. 3 Hours. GE11/GE21/GE3H / H.
Study of plays selected to familiarize the student with dramatic
masterpieces and with the drama as a literary type. Prerequisite:
Completion of ENGL 101 and ENGL 102, or their equivalent. LEC.

ENGL 300. The Bible, the Classics, and Modern Literature. 3 Hours.
H.
An introduction to the nature and function of literature, emphasizing
Biblical, Classical, and other major cultural traditions and their influence
on British and American literature. Some ancient and modern works will
be studied in conjunction. Prerequisite: Prior completion of the KU Core
Written Communication requirement. Recommended: Prior completion of
one 200-level English course. LEC.

ENGL 301. Topics in British Literature to 1800: ____. 3 Hours. H.
Study of British literary works before 1800. Topics may focus on a
particular genre, theme, topic, historical period, author, or group of
authors. May be repeated for credit as the topic changes. Prerequisite:
Prior completion of the KU Core Written Communication requirement.
Recommended: Prior completion of one 200-level English course. LEC.

ENGL 302. Topics in British Literature Since 1800: ____. 3 Hours. H.
Study of British literary works since 1800. Topics may focus on a
particular genre, theme, topic, historical period, author, or group of
authors. May be repeated for credit as the topic changes. Prerequisite:
Prior completion of the KU Core Written Communication requirement.
Recommended: Prior completion of one 200-level English course. LEC.

ENGL 305. World Indigenous Literatures. 3 Hours. NW AE42 / H.
A survey of contemporary world indigenous literatures that includes
those from North America, Australia, New Zealand, the South Pacific, the
Arctic, and Latin America. Texts are in English (original or translation).
Genres studied include the novel, poetry, and drama, supplemented by
works from the oral tradition, the visual arts, and film. (Same as ISP 305.)
Prerequisite: Prior completion of the KU Core Written Communication
requirement. Recommended: Prior completion of one 200-level English
course. LEC.

ENGL 306. Global Environmental Literature. 3 Hours. H.
An examination of a variety of literary and other representations of human
and non-human environments and environmentalism. Particular attention
will be paid to how race, gender, class, sexuality, and geography produce
and are produced by these representations. Prerequisite: Prior completion
of the KU Core Written Communication requirement. Recommended:
Prior completion of one 200-level English course. LEC.

ENGL 308. Introduction to Literary Criticism and Theory. 3 Hours.
GE3H / H.
Study of significant problems in literary interpretation and methodology,
in which basic critical principles and approaches are systematically
examined and applied. These approaches might include, but are not
limited to, feminism, Marxism, deconstruction, psychoanalysis, and
cultural studies. Prerequisite: Prior completion of the KU Core Written
Communication requirement. Recommended: Prior completion of one
200-level English course. LEC.

ENGL 309. The British Novel. 3 Hours. HL / H.
Study of five or more significant novels representative of developments
in the British novel of the eighteenth, nineteenth, and twentieth centuries.
Prerequisite: Prior completion of the KU Core Written Communication
requirement. Recommended: Prior completion of one 200-level English
course. LEC.

ENGL 310. Literary History I. 3 Hours. H.
A study of literature in English, including major forms and movements,
from the medieval period to Romanticism. Prerequisite: Prior completion
of the KU Core Written Communication requirement. Recommended:
Prior completion of one 200-level English course. LEC.

ENGL 312. Major British Writers to 1800. 3 Hours. H.
Outstanding works of British literature, from the earliest times to the close
of the eighteenth century, studied in chronological sequence and with
some attention to the characteristics of the various periods of English
literary history embraced. Prerequisite: Prior completion of the KU Core
Written Communication requirement. Recommended: Prior completion of
one 200-level English course. LEC.

ENGL 314. Major British Writers after 1800. 3 Hours. H.
Outstanding works of British literature, from 1800 to the present, studied
in chronological sequence and with some attention to the characteristics
of the various periods of English literary history embraced. Prerequisite:
Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 315. Studies in British Literature. 3 Hours. HL AE42 / H.**
For students enrolled in the annual summer Study Abroad program, an interdisciplinary program conducted with other humanities departments. British literature is studied in the context of visits to relevant sites such as London, the Lake District, and Edinburgh. Prerequisite: Prior completion of the KU Core Written Communication requirement. Approval for enrollment in the Summer Institute through the Study Abroad office is required. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 316. Introduction to Major American Writers. 3 Hours. H.**
Outstanding works of American literature, studied in chronological sequence and with some attention paid to the characteristics of the various periods of American literary history embraced. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 317. Topics in American Literature to 1865: ______. 3 Hours. H.**
Study of American literary works before 1865. Topics may focus on a particular genre, theme, topic, historical period, author, or group of authors. May be repeated for credit as the topic changes. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 318. Topics in American Literature Since 1865: ______. 3 Hours. H.**
Study of American literary works since 1865. Topics may focus on a particular genre, theme, historical period, author, or group of authors. May be repeated for credit as the topic changes. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 320. American Literature I. 3 Hours. H.**
From the beginnings to 1865, with emphasis on the major writers and movements. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 322. American Literature II. 3 Hours. H.**
From 1865 to the present, with emphasis on the major writers and movements. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 323. Twentieth Century Literature and Culture. 3 Hours. H.**
The study of British and American literature, emphasizing important figures and movements since World War I. On occasion, the study of literature will be enriched with an investigation of other arts, such as music, film, and painting. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 324. Contemporary Authors: ______. 3 Hours. H.**
Study of one or more recent British and/or American authors. (Different authors in different semesters.) May be repeated for credit as the topic changes. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 325. Recent Popular Literature. 3 Hours. HL / H.**
Study of recent best sellers or other works of popular interest. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 326. Introduction to African Literature. 3 Hours. NW AE42 / H.**
Reading, analysis, and discussion of contemporary fiction, poetry, and drama from sub-Saharan Africa. Brief attention is paid to historical development and to traditional literature. (Same as AAAS 332.) Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 327. Studies in Twentieth-Century Drama: ______. 3 Hours. H.**
A survey of major twentieth-century playwrights and theatre groups, to be selected by the instructor. May be repeated for credit as the topic changes. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 328. Literature and Film: ______. 3 Hours. H.**
The comparative study of the literary and film treatments of a particular topic or theme, with special attention to the generic qualities of literature and film. May be repeated for credit as the topic changes. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 330. Literary History II. 3 Hours. H.**
A study of literature in English, including major forms and movements, from the Romantics to the present. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 331. Chaucer. 3 Hours. H.**
Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 332. Shakespeare. 3 Hours. H.**
A study of ten to fourteen of Shakespeare’s plays. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 333. Major Authors: ______. 3 Hours. H.**
Study of one or two major British and/or American authors. Different authors in different semesters. May be repeated for credit as the topic changes. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 336. Jewish American Literature and Culture. 3 Hours. AE41 / H.**
An examination of Jewish American literature and culture from the 18th century to the present. Materials may include a broad range of literary genres as well as folklore, music, film, and visual art. (Same as JWSH 336.) Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**ENGL 337. Introduction to U.S. Latino/a Literature. 3 Hours. AE41 / H.**
An historical survey of literature by U.S. Latino/a writers of Mexican, Puerto Rican, Cuban, Dominican, and Central/South American descent. Various genres, including oral forms such as corridos as well as novels, poetry, essays, and autobiographical writing, will be considered. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.
ENGL 338. Introduction to African-American Literature. 3 Hours. AE41 / H.
An introduction to prominent works of African-American literature from the 18th century to the present as well as to the basic approaches to study and principles of this body of work, including its connection with African sources. Literature will include a wide variety of genres, and course materials may be supplemented by folklore, music, film, and visual arts. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

ENGL 339. Introduction to Caribbean Literature. 3 Hours. AE42 / H.
Reading, analysis, and discussion of fiction, poetry, and drama from the Caribbean, including a small selection of Spanish, French, and Dutch Antillean works in translation. (Same as AAAS 333.) Prerequisite: ENGL 102 and one 200-level course in English or consent of instructor. LEC.

ENGL 340. Topics in U.S. Ethnic Literature: _____ 3 Hours. AE41 / H.
A study of literature by authors from one or more ethnic groups within the U.S., including but not limited to Asian American, African American, American Indian, Jewish American, Italian American, U.S. Latina/o. Different topics in different semesters. May be repeated for credit as topic changes. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

ENGL 341. American Literature of Social Justice. 3 Hours. H.
An examination of U.S. literature that addresses situations of political and economic oppression or repression with the potential function of enlisting readers sympathies in a project of social justice. The course focuses on U.S. literary texts dealing with social injustice and the curtailment of human and civil rights and addresses debates surrounding cultural authority and authenticity, identity politics, attempts to represent the voice of the “oppressed,” revision of strategies used in slave narrative or in testimonio, and ethical and rhetorical appeals to an assumed readership. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

ENGL 351. Fiction Writing I. 3 Hours. H.
A study of narrative techniques and practice in the writing of fiction. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

ENGL 352. Poetry Writing I. 3 Hours. H.
A study of prosody and practice in the writing of verse. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

ENGL 353. Screenwriting I. 3 Hours. H.
An introduction to the practice of writing and evaluating scripts for film. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

ENGL 354. Playwriting I. 3 Hours. H.
An introduction to the practice of writing and evaluating scripts for stage. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

ENGL 355. Nonfiction Writing I. 3 Hours. H.
An introduction to the literary techniques of nonfiction and practice in the writing of one or more of the genre’s subtypes, such as the personal essay, the familiar essay, the lyric essay, the memoir, nature writing, or travel writing. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

ENGL 359. English Grammar. 3 Hours. U.
A course in traditional English grammar for students who wish to understand and be able to analyze English sentence structure. Students might apply the course to studies of style (their own or other authors’), rhetorical analysis, literary interpretation, or teaching. This course may be offered in either lecture or online format. Prerequisite: Prior completion of the KU Core Written Communication requirement. LEC.

ENGL 360. Advanced Composition: _____ 3 Hours. H.
The principles of effective composition, as applied to a specific topic such as critical writing, expository writing, pre-legal English, book reviewing, etc. May be repeated for credit as topic varies. Prerequisite: Prior completion of the KU Core Written Communication requirement. LEC.

ENGL 361. Professional Writing: _____ 3 Hours. H.
Principles of writing for specific professional contexts, which might include such areas as business writing, legal writing, and literary or arts reviewing, etc. May be repeated for credit as topic varies. Prerequisite: Prior completion of the KU Core Written Communication requirement. LEC.

ENGL 362. Foundations of Technical Writing. 3 Hours. H.
Introduces students to the principles of technical communication. Students learn to organize, develop, write, and revise various technical documents (e.g., letters, manuals, presentations, proposals, reports, resumes, websites) often needed in business, engineering and scientific settings. Includes an introduction to technical-writing software. This course fulfills the prerequisite for English 562 and English 564. Prerequisite: Prior completion of the KU Core Written Communication requirement. LEC.

ENGL 363. English Language: _____ 3 Hours. H.
Introduces students to rhetoric and composition, a field that investigates questions about the nature, processes, teaching and historical, social and cultural contexts of writing. Students learn to organize, develop, write, and revise various technical documents (e.g., letters, manuals, presentations, proposals, reports, resumes, websites) often needed in business, engineering and scientific settings. Includes an introduction to technical-writing software. This course fulfills the prerequisite for English 562 and English 564. Prerequisite: Prior completion of the KU Core Written Communication requirement. LEC.

ENGL 380. Introduction to Rhetoric and Composition. 3 Hours. GE3H / H.
Introduces students to rhetoric and composition, a field that investigates questions about the nature, processes, teaching and historical, social and cultural contexts of writing. Students learn to organize, develop, write, and revise various technical documents (e.g., letters, manuals, presentations, proposals, reports, resumes, websites) often needed in business, engineering and scientific settings. Includes an introduction to technical-writing software. This course fulfills the prerequisite for English 562 and English 564. Prerequisite: Prior completion of the KU Core Written Communication requirement. LEC.

ENGL 385. The Development of Modern English. 3 Hours. H.
An introduction to the history of the English language, with special attention to general structural changes throughout its history, especially changes in vocabulary and meaning, and past influences of other languages upon present usage. Prerequisite: Prior completion of the KU Core Written Communication requirement. LEC.

ENGL 387. Introduction to the English Language. 3 Hours. HL GE3H / H.
A survey of the English language, its historical development, and its grammatical structure. Prerequisite: Prior completion of the KU Core Written Communication requirement. LEC.

ENGL 390. Studies in: _____ 3 Hours. H.
A study of a specialized theme or topic in English studies. May be repeated for credit as the topic changes. Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

ENGL 400. Teaching and Tutoring Writing. 3 Hours. U.
Students explore theories and strategies of teaching and tutoring writing across academic disciplines. They learn more about themselves as writers as they build a repertoire of writing techniques useful in their
The development of science fiction as a literary genre, and as a literature of ideas for a future-oriented society. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 507. Science, Technology, and Society: Examining the Future through a Science-Fiction Lens. 3 Hours. AE61 / H.
Science and technology offer many benefits to individuals and societies, yet they also present many challenges. This course explores the past, present, and possible future effects of science and technology on society through readings and discussions of nonfiction articles in conjunction with science-fiction stories and novels. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 508. Contemporary Literary Theory. 3 Hours. AE61 / H.
Study of selected works of literary theory and of current issues in literary studies. The course is designed for advanced undergraduates who intend to continue their study of literature in graduate school and for new graduate students who require a grounding in literary theory. According to Each instructor's interest, the course may survey contemporary literary theory or may focus on a particular topic (e.g., authorship, canon formation, creativity, metaphor, narrative, rhetoric) or on a theoretical position (e.g., cultural studies, deconstruction, feminism, historicism, Marxism, psychoanalysis). A student may repeat the course with the permission of the appropriate director. Prerequisite: Completion of three junior-senior courses in English (or their equivalent) or graduate standing. LEC.

ENGL 520. History of the Book. 3 Hours. AE61 / H.
Brief history of writing materials and handwritten books; history of printed books from the fifteenth century as part of cultural history; technical progress and aesthetic change. (Same as HIST 500.) LEC.

ENGL 521. Advanced Topics in British Literature 1800: _______. 3 Hours. AE61 / H.
A study of texts written before 1800. May be organized around a particular genre, historical period, a group of writers, or a theme. May be repeated for credit as topic varies. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 522. Advanced Topics in British Literature After 1800: _______. 3 Hours. AE61 / H.
A study of texts written after 1800. May be organized around a particular genre, historical period, group of writers, or a theme. May be repeated for credit as topic varies. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 525. Shakespeare: _______. 3 Hours. AE61 / H.
Intensive study of selected works. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 530. Irish Literature and Culture: _______. 3 Hours. AE61 / H.
Study of topics in Irish literature and culture. Topics may focus on a particular genre, theme, historical period or group of authors. May be repeated for credit as the topic changes. (Same as EURS 512.) Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 531. James Joyce. 3 Hours. AE61 / H.
A study of the major works of James Joyce, with the majority of the semester dedicated to Ulysses. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 532. Whitman and Dickerson. 3 Hours. AE61 / H.
A study of selected works of Walt Whitman and Emily Dickinson. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.
ENGL 533. William Faulkner. 3 Hours. H.
A study of selected works of William Faulkner. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 534. Major Authors (Capstone): _____. 3 Hours. H.
Study of one or two major authors. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 536. Readings in the Holocaust. 3 Hours. AE61 / H.
An examination of Holocaust literature, which may include fiction, nonfiction, poetry, drama, and film. Theoretical concerns may include such issues as memory, trauma, representation, imagination, exile, alienation, silence, the body and emotions, and intergenerational transmission. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 551. Fiction Writing II. 3 Hours. AE61 / H.
Continuation of ENGL 351. May be repeated for undergraduate credit up to a total of six hours. Prerequisite: ENGL 351 or equivalent. LEC.

ENGL 552. Poetry Writing II. 3 Hours. AE61 / H.
Continuation of ENGL 352. May be repeated for undergraduate credit up to a total of six hours. Prerequisite: ENGL 352 or its equivalent. LEC.

ENGL 553. Screenwriting II. 3 Hours. AE61 / H.
A continuation of ENGL 353. May be repeated for undergraduate credit up to a total of six hours. Prerequisite: ENGL 353 or its equivalent. LEC.

ENGL 554. Playwriting II. 3 Hours. AE61 / H.
A continuation of ENGL 354. May be repeated for undergraduate credit up to a total of six hours. Prerequisite: ENGL 354 or its equivalent. LEC.

ENGL 555. Nonfiction Writing II. 3 Hours. AE61 / H.
Continuation of ENGL 355. May be repeated for undergraduate credit up to a total of six hours. Prerequisite: ENGL 355 or its equivalent. LEC.

ENGL 560. British Literature of the 20th Century: _____. 3 Hours. AE61 / H.
Study of twentieth-century literary works. Topics may focus on a particular genre, theme, historical period or group of authors. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 562. Advanced Technical Writing I. 3 Hours. AE61 / H.
Stresses research methods in technical communication and simulates on-the-job training through live interviews and other forms of research. Students master the relevant software tools and begin to develop a technical-writing portfolio. Prerequisite: ENGL 362. LEC.

ENGL 563. Advanced Technical Writing and Editing. 3 Hours. AE61 / H.
Students apply the principles of communicating business, scientific, and technical information to targeted readers. Concentration on the varying writing styles for online documents, proposals, reports, specifications, journal articles, and larger documents, as appropriate to their audience. Simulates an internship and helps students further develop a technical-writing or -editing portfolio. Students provide weekly status reports and a final report detailing their learning experience and present it to an appropriate technical communication class to help other students better understand the field. Prerequisite: Instructor permission. LEC.

ENGL 564. Advanced Technical Editing I. 3 Hours. AE61 / H.
Students learn to use specialized vocabulary and editing tools such as proofreaders’ marks, style guides, and standard editorial reference material; and they practice how to identify and correct common problems. Students usually work with writers in other technical writing courses, learning to work productively with other peoples’ print and online documents. Students practice taking editing tests and develop a technical-editing portfolio. Prerequisite: ENGL 362. LEC.

ENGL 565. The Gothic Tradition. 3 Hours. H.
This course explores and defines the Gothic tradition in British and American literature from its beginnings in the late eighteenth century to more recent twentieth-century texts in literature and film. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 566. American Literary Environmentalism. 3 Hours. AE61 / H.
An examination of representations of nature and human/nature relations and their political, social and environmental consequences, with a special focus on the 19th and 20th centuries, including the writings of transcendentalists and conservationists, slave narratives, scientific writing on toxicity and other topics, and environmental justice literature. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 556. American Indian Literature: _____. 3 Hours. AE61 / H.
A study of American, British, or comparative drama from the late nineteenth century to the present. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 570. Topics in American Literature: _____. 3 Hours. AE61 / H.
Different topics in different semesters. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 571. American Indian Literature: _____. 3 Hours. NW AE41/ AE61 / H/W.
The study of a wide range of American Indian literature, from various tribes and in a variety of genres. Satisfies the non-western culture course requirement. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 572. Women and Literature: _____. 3 Hours. AE61 / H.
Different topics in different semesters. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 573. U.S. Latina/o Literature: _____. 3 Hours. AE41/AE61 / H.
A study of the literature written by U.S. Latina/o writers of Mexican, Puerto Rican, Cuban, Dominican, and other Central/South American descent, in a variety of genres. Attention is given to the cultural and historical contexts of the literature and to the specificity of particular U.S. Latina/o groups. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 574. African American Literature: _____. 3 Hours. AE41/AE61 / H.
A study of the literature written by African Americans from the pre-Civil War period to the present. Emphasis upon specific historical periods in the development of African American literature as well as on a critical analysis of major autobiographical, poetic, and fictional works. May be
ENGL 575. Literature of the American South. 3 Hours. AE61 / H. A survey of fiction, non-fiction, poetry, and drama written by selected writers of the American South from the pre-Civil War period to the present. The course will emphasize the critical analysis of individual texts as well as the cultural and historical context of the works. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 576. Advanced Topics in American Literature to 1865: ______. 3 Hours. AE61 / H. Study of American literary works before 1865. Topics may focus on a particular genre, theme, topic, historical period, author, or group of authors. May be repeated for credit as the topic changes. (Same as AMS 554.) Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 577. Advanced Topics in American Literature Since 1865: ______. 3 Hours. AE61 / H. Study of American literary works after 1865. Topics may focus on a particular genre, theme, topic, historical period, author, or group of authors. May be repeated for credit as the topic changes. (Same as AMS 555.) Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 578. Poetry, 1900-1945. 3 Hours. AE61 / H. A Study of English-language poetry of the early twentieth century. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 579. Poetry since 1945. 3 Hours. AE61 / H. A study of English-language poetry from the mid-twentieth century to the present. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 580. Rhetoric and Writing: ______. 3 Hours. AE61 / H. A study of selected broad topics in rhetoric and writing, including such topics as the rhetoric of law, the rhetoric of education, persuasion in literature, literacy, and rhetorical genres. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 581. English Language Studies: ______. 3 Hours. AE61 / H. A study of selected topics in English language studies (e.g., World Englishes, Language and Literary Style, and The Secret Life of English Words). May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 582. American English. 3 Hours. AE61 / H. A study of the structure, history, and varieties of the English language in the United States from the period of colonization to the present. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 590. Studies in: ______. 1-3 Hours. AE61 / H. A study of a specialized theme or topic in English studies. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of the first-and second-year English requirement or its equivalent, and at least one 300- or 400-level ENGL course; or permission of instructor. LEC.

ENGL 592. Survey of: ______. 3 Hours. AE61 / H. A broad view of major works and authors in a particular period, genre, or mode. May be repeated for credit as the topic varies. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 596. Technical Communication Internship. 1-3 Hours. AE61 / H. Practical experience in the use of technical-writing or editing skills in supervised professional settings for which the student normally does not receive pay. A 1-3 hour internship requires 40-120 hours of documented on-site work in one semester (40 hours per credit). Credit hours are graded on a satisfactory/unsatisfactory basis, according to a written recommendation from the student’s workplace manager, student work logs and self-evaluation, and an oral report. Prerequisite: Advanced Technical Writing I (English 562) and permission of instructor. LEC.

ENGL 598. Honors Proseminar: ______. 3 Hours. AE61 / H. Directed reading and participation in small discussion groups, each formed to consider a specific and limited subject during the semester. Written work will be required, and will be judged on both content and form. The course is part of a departmental program leading to Honors in English. Prerequisite: Admission must be approved by the departmental director of undergraduate studies. LEC.

ENGL 599. Honors Essay. 3 Hours. AE61 / H. Independent study, culminating in a substantial essay prepared under the direction of a member of the Department of English who is a specialist in the area of the student’s interest. Prerequisite: Admission must be approved by the departmental director of undergraduate studies. LEC.

ENGL 610. The Literature of England to 1500. 3 Hours. AE61 / H. A survey of the literature of medieval England (in translation). Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 620. Renaissance English Literature: ______. 3 Hours. AE61 / H. A broad view of literary works written between 1485 and 1660. Surveys may be offered with focus on a particular genre (poetry, drama, or prose), historical period (16th- or 17th-century literature), or group of authors (women writers). May be repeated for credit as topic varies. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 633. Milton. 3 Hours. AE61 / H. A close reading of Paradise Lost, Paradise Regained, Samson Agonistes, and the minor poems, with illustrative selections of prose. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 640. British Literature, 1600-1800: ______. 3 Hours. AE61 / H. Study of literary works from the Restoration and eighteenth century. Topics may focus on a particular genre, theme, historical period or group of authors. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 650. Romantic Literature: ______. 3 Hours. AE61 / H. Study of literary works from the British Romantic period. Topics may focus on a particular genre, theme, historical period or group of authors. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 655. Victorian Literature: ______. 3 Hours. AE61 / H. Study of literary works from the Victorian period. Topics may focus on a particular genre, theme, historical period or group of authors. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.
ENGL 660. Ecocriticism. 3 Hours. H.
A study of the relationship between various modes of representation and environmentalism. Particular attention paid to the intersection between ecocriticism and other forms of contemporary literary theory, including, for example, critical race studies, poststructuralism, postcolonial theory, gender and sexuality studies, class-based criticism, and animal theory. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 674. African Literature: ____. 3 Hours. NW AE42/AE61 / H.
An advanced study of a topic, genre, or area of written and/or oral African literature. Emphasis is placed on the critical analysis of major works, as well as their cultural and historical contexts. The course also addresses central critical and theoretical debates in the field. May be repeated for credit as the topic changes. Prerequisite: At least one 300- or 400-level English course, or permission of instructor. LEC.

ENGL 690. Studies in: ____. 3 Hours. AE61 / H.
A study of a major topic of concern to English literature. May be repeated for credit as the topic changes. Capstone course. Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

ENGL 707. Literary Criticism to 1800. 3 Hours.
An introduction to the major writings of literary criticism, in their historical context, from Plato and Aristotle to Samuel Johnson. LEC.

ENGL 708. Literary Criticism after 1800. 3 Hours.
An introduction to modern criticism, in its historical context, from Wordsworth and Coleridge to the present. The emphasis will be on major critics and predominant schools. LEC.

ENGL 709. Critical Theory: Problems and Principles: ____. 3 Hours.
Study of a topic (such as mimesis, influence, deconstruction) that is important in critical theory. May be repeated for credit as topic varies. LEC.

ENGL 710. Introduction to Old English. 3 Hours.
A study of the grammatical features of the earliest form of written English, with readings in Old English prose and poetry. LEC.

ENGL 712. Beowulf. 3 Hours.
Prerequisite: An introductory course in Old English. LEC.

ENGL 714. Middle English Literature. 3 Hours.
Reading of selected works in Middle English (exclusive of the works of Chaucer). LEC.

ENGL 720. Chaucer: ____. 3 Hours.
Intensive study of either the Canterbury Tales or Troilus and Criseyde and the earlier poems. May be repeated for credit up to a maximum of six hours. LEC.

ENGL 725. Shakespeare: ____. 3 Hours.
Intensive study of selected plays. May be repeated for credit as the topic changes. LEC.

ENGL 730. Topics in Early Modern Literature: ____. 3 Hours.
Intensive study of texts written between 1485 and 1800. The course may be organized around a particular genre (poetry, prose, drama), historical period (e.g. Elizabethan literature), a major author (e.g. Milton), group of authors (e.g. women writers), or theme (e.g. literature and politics 1660-1800). Students will be expected to read and apply relevant criticism and theory as well as study primary texts. May be repeated for credit as topic varies. LEC.

ENGL 750. British Literature of the 19th Century: ____. 3 Hours.
Intensive study of British literary works of the 1800s. Topics may focus on a particular genre, theme, historical period or group of authors. May be repeated for credit as the topic changes. LEC.

ENGL 751. Fiction Writing Ill. 1-3 Hours.
Practice in the writing of fiction under the direction of a member of the department working in conjunction with one or more writers in residence. Membership is limited to students who submit, well in advance enrollment, manuscripts showing unusual ability. May be repeated for credit. LEC.

ENGL 752. Poetry Writing Ill. 1-3 Hours.
Practice in the writing of poetry under the direction of a member of the department working in conjunction with one or more writers in residence. Membership is limited to students who submit, well in advance of enrollment, manuscripts showing unusual ability. May be repeated for credit. LEC.

ENGL 753. Writers Workshop. 1-3 Hours.
An intensive course in writing prose fiction and/or verse. Criticism (NEW) of manuscripts through group meetings and individual conferences with the instructor. Membership limited to students who submit manuscripts showing special ability in at least one of the creative writing forms. May be repeated for credit. LEC.

ENGL 756. Forms: ____. 3 Hours.
A study of literary works belonging to a particular genre or to multiple genres (fiction, nonfiction, poetry, drama etc), either in a particular form (short story, essay, sonnet, etc.), concerned with a particular topic, or illustrative of a particular element of craft (voice, point of view, character development, etc. ). Intended primarily for creative- writing students with an interest in developing their skills at reading as writers. May be repeated for credit as the topic varies. LEC.

ENGL 757. Speculative Fiction Writing Workshop. 3 Hours.
An intensive, 2-week course in writing speculative fiction, including genres such as slipstream, magical realism, fantasy, horror, and science fiction. The course is part of the Center for the Study of Science Fiction Summer Institute. Application period: January 1 - April 15. Application includes note to instructor expressing interest and one story. May be repeated for credit with instructor’s permission. LEC.

ENGL 760. British Literature of the 20th Century: ____. 3 Hours.
Intensive study of British literary works written during the 20th century. Topics may focus on a particular genre, theme, historical period or group of authors. May be repeated for credit as the topic changes. LEC.

ENGL 764. Modern Irish Literature: ____. 3 Hours.
Intensive study of topics in modern Irish literature. Topics may focus on a particular genre, theme, historical period or group of authors. May be repeated for credit as the topic changes. LEC.

ENGL 770. Studies in Modern Drama: ____. 3 Hours.
Reading of selected works in modern and contemporary drama. May be repeated for credit as the topic changes. LEC.

ENGL 774. Topics in Literatures of Africa and the African Diaspora: ____. 3 Hours.
An intensive study of the literatures of Africa and/or African diaspora (people of African descent dispersed around the world). This course will focus on the major characteristics of a particular period, genre, mode, and/or theme in literatures such as African, Caribbean, Afro-Brazilian, African American, African Canadian, Black British. Critical theories pertinent to writers and their work will be covered. Topics may include...
studies in drama, poetry, or the novel; migration narratives; literature of a particular era, such as the Harlem Renaissance, Negritude, or the Black Arts Movement; representations of gender, etc. As topics vary by semester, the course may be repeated for credit. (Same as AAAS 774.) LEC.

ENGL 776. American Literature to 1900: ______. 3 Hours. Intensive study of North American literary works before 1900. Topics may focus on a particular genre, theme, historical period or group of authors. May be repeated for credit as the topic changes. LEC.

ENGL 777. American Literature after 1900: ______. 3 Hours. Intensive study of North American literary works after 1900. Topics may focus on a particular genre, theme, historical period or group of authors. May be repeated for credit as the topic changes. LEC.

ENGL 779. U.S. Poetries Since 1900. 3 Hours. A colloquium for graduate students, sampling the range of poetries and poetics produced in the United States in the twentieth and twenty-first centuries. LEC.

ENGL 780. Composition Studies. 3 Hours. This course surveys the field of composition studies, examining major issues and theories in the study of writing. The course may include theories from classical to contemporary rhetoric, composition theory from the twentieth century, and the most current debates in the study of writing. LEC.

ENGL 781. Criticism and the Teaching of Literature. 3 Hours. A survey of selected critical theories and of the applicability of those theories to the teaching of literature. LEC.

ENGL 785. History of the English Language. 3 Hours. Historical study of the phonology, morphology, syntax, vocabulary, and semantics of English; the relation between linguistic and cultural change. LEC.

ENGL 787. Modern English Grammar. 3 Hours. A study of contemporary English: phonology, morphology, syntax, and usage. The emphasis is structural, but "traditional" grammar is referred to for contrast, example, and clarification. LEC.

ENGL 790. Studies in: ______. 3 Hours. Examination of a significant topic in literature or the English language. May be repeated for credit as the topic varies. LEC.

ENGL 800. Methods, Theory, and Professionalism. 3 Hours. Acquaintance with resources and practice in techniques that are essential to other graduate courses. Major concerns include the writing and documentation of scholarly papers; basic reference and bibliographical aids; critical approaches to literature and literary historiography; and the place of language and rhetoric in English studies today. LEC.

ENGL 801. Study and Teaching of Writing. 3 Hours. A survey of major concepts and issues in the study of writing, especially as applied to teaching composition. Practices in writing pedagogy are also discussed, and students' teaching of composition is observed and explored. Required of and enrollment limited to new teachers of English 101. May not be repeated for credit toward graduate degree. FLD.

ENGL 802. Practicum in the Teaching of College English. 1 Hour. A course concerned primarily with the pedagogy of literature and writing about literature. Includes weekly group meetings, individual conferences, and class visitations. Required of and enrollment limited to new teachers of English 102. May not be repeated for credit toward graduate degree. Course graded on a satisfactory/unsatisfactory basis. FLD.

ENGL 803. Practicum in the Teaching of Creative Writing. 1 Hour. A course for graduate teaching assistants pursuing the M.F.A. or Ph.D. with emphasis in Creative Writing. Normally taken in the third year. Concerns primarily the pedagogy of creative writing: workshop techniques, approaches to conferencing, revision strategies, and the like. Includes weekly group meetings as well as class visitations and individual conferences. May not be repeated for credit towards graduate degree. Graded on a satisfactory/unsatisfactory basis. Prerequisite: ENGL 801 and 802. FLD.

ENGL 880. Topics in Composition Studies and Rhetoric: ______. 3 Hours. Examination of selected topics in composition and rhetoric, such as literary studies, genre theory, dialogism, or writing across the curriculum. May be repeated for credit as the topic changes. Prerequisite: ENGL 780 or equivalent. LEC.

ENGL 885. Writing Center Theory and Administration. 3 Hours. This course explores theories motivating writing center administration and practice. Students will investigate the multiple functions of writing centers, from writing labs associated with college composition instruction, to decentralized resources for writing faculty teaching writing across the disciplines, to elementary, secondary, and community support centers for writers, to online administrative perspective, design a research study and propose actions such as creating policy, developing curricula, designing materials, or conducting assessments. (Same as LAS 700.) Prerequisite: LAS 400, ENGL 400, or consent of instructor. LEC.

ENGL 896. Internship. 1-3 Hours. Practical experience under professional supervision in editing, theatrical production, and other activities relevant to the completion of an advanced degree in English. FLD.

ENGL 897. Preparation for the M.A. Examination. 1-3 Hours. An independent reading course for students preparing to take the M.A. examination. The grade in the course will be an S or U, as determined by performance on the examination. Prerequisite: Consent of the Director of Graduate Studies. RSH.

ENGL 899. M.A./M.F.A. Thesis. 1-15 Hours. Graded on a satisfactory/unsatisfactory basis. THE.

ENGL 904. Seminar in Composition Theory: ______. 3 Hours. Intensive study of one or more theoretical aspects of composition in English (e.g., rhetoric, text grammar, stylistics). Prerequisite: ENGL 800. LEC.

ENGL 905. Seminar in the English Language: ______. 3 Hours. Close study of the English language in a particular period. Prerequisite: ENGL 800. LEC.

ENGL 908. Seminar in Literary Criticism: ______. 3 Hours. Close study of one or more major critics, of a major critical school, or of a topic important in literary criticism. Prerequisite: ENGL 800. LEC.

ENGL 915. Seminar in Medieval English Literature: ______. 3 Hours. Study may center on either Old or Middle English language and literature. Prerequisite: ENGL 800. LEC.

ENGL 916. Seminar in Chaucer: ______. 3 Hours. Prerequisite: ENGL 800. LEC.

ENGL 920. Seminar in Renaissance English Literature: ______. 3 Hours. Close study of one or two major authors or of a group of related works. Prerequisite: ENGL 800. LEC.

ENGL 926. Seminar in Shakespeare: ______. 3 Hours. Prerequisite: ENGL 800. LEC.
Because reading and writing shape the world.

Why study English language and literature?
Because reading and writing shape the world.

ENGL 932. Seminar in Milton: _____ 3 Hours.
Prerequisite: ENGL 800. LEC.

ENGL 940. Seminar in Restoration and 18th Century British Literature: _____ 3 Hours.
One or two authors are read closely, or a group of related works is studied.
Prerequisite: ENGL 800. LEC.

ENGL 950. Seminar in 19th Century British Literature: _____ 3 Hours.
Concentrated study of one or two major figures, or a group of significant writers, or an aspect of the literary scene.
Prerequisite: ENGL 800. LEC.

ENGL 960. Seminar in 20th Century British Literature: _____ 3 Hours.
Concentrated study of one or two authors, or a group of significant writers, or an aspect of the literary scene.
Prerequisite: ENGL 800. LEC.

ENGL 970. Seminar in American Literature: _____ 3 Hours.
Concentrated study of one or two authors or of historical periods or important movements.
Prerequisite: ENGL 800. LEC.

ENGL 974. Seminar in Literatures of Africa and the African Diaspora: _____ 3 Hours.
Advanced study in a topic related to literature, language, and cultures of Africa and the African Diaspora, such as a concentrated study of one or two authors, a group of significant writers, an historical period or important movement, or an aspect of the literary or cultural scene of Black writing.
May be repeated for credit as the topic varies.

ENGL 980. Seminar In: _____ 3 Hours.
Advanced study in a topic related to literature, language, theory, or a special skill such as analytical bibliography or editing.
Prerequisite: ENGL 800. LEC.

ENGL 997. Preparation for the Comprehensive Examination. 1-12 Hours.
An independent reading course for students preparing to take the Ph.D. comprehensive examination. May normally be taken in the semester or summer session immediately preceding the semester in which the comprehensive examination is taken. Does not count toward the residence requirement. Graded on a satisfactory/unsatisfactory basis.
Prerequisite: Consent of the Director of Graduate Studies. RSH.

ENGL 998. Investigation and Conference: _____ 1-6 Hours.
Individual work in (a) language, (b) literature, (c) composition, or (d) the teaching of English, by properly qualified graduate students under the direction of appropriate members of the Graduate Faculty as assigned by the Graduate Director. Limited to 6 hours of credit toward the M.A. or Ph.D. degree; only on three-hour enrollment may substitute for a formal course in satisfying a field distribution requirement. Normally offered for only up to three credit hours in any one enrollment. Permission of the supervising faculty member and of the Graduate Director required for enrollment. RSH.

ENGL 999. Doctoral Dissertation. 1-12 Hours.
Graded on a satisfactory/unsatisfactory basis. THE.

KU’s English Department is at the core of the humanities, highlighting the “human” through our individual, one-on-one interactions with our students, our emphasis on community and global engagement, and our abiding interest in our shared humanity through the stories of others. We seek to challenge the mind and to engage the imagination of our students, to teach them to ask questions and to seek for answers. We encourage them to grapple with the complexity of culturally and commercially interconnected world and the global networks and processes of cultural exchange. We believe that words and ideas will shape the world. We teach our students life-long skills, so that they learn to write clearly, creatively, and effectively—discovering themselves even as they lay a solid foundation for professional success.

A commitment to teaching and learning.
Our department is renowned for its tradition of excellence in teaching. The vast majority of our undergraduate classes have 20-35 students, and much of the class time is dedicated to active learning and engagement with texts and ideas. In the last ten years, faculty members in the department of English have won ten Kemper Fellowships for Excellence in Teaching, two Chancellors Club Teaching Professorships, a Career Achievement Teaching Award, and a wide variety of other university-level teaching and advising awards, and the department as a whole received the Center of Teaching Excellence (CTE) award for Department Excellence in Teaching at the University of Kansas.

A variety of career and life paths.
English majors graduate to a variety of careers, including law, teaching, scholarship, publishing, library science, and journalism—as well as medicine, politics, design, and any number of other fields that value clear communication, interpretive skill, and critical and creative thinking.

Engaged and innovative scholarship.
KU’s English Department has several core strengths that cross tracks and periods, including Global and Cross-Cultural Approaches; Literature, Rhetoric, and Social Action; Diversity Studies; Language, Literature and Science; and Popular Expressive Forms.

At the KU English Department, students work closely with nationally-recognized writers and researchers. Our faculty have won national awards that recognize excellence in research, including grants from the National Endowment for the Humanities, the American Philosophical Society, and the Newberry Library, among others. English Department faculty members have also received major research funding from the University of Kansas, including the Hall Center for the Humanities Research fellowships and Keeler Intra-University Fellowships for interdisciplinary work. Undergraduate students can work one-on-one with faculty mentors in the Honors Program, McNair Scholars Program, and Dean’s Scholars Program, as well as through independent Directed Studies.

Undergraduate Admission
Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the
Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Undergraduate First- and Second-Year Preparation

Prospective English majors and minors are encouraged to complete their KU Core Goal 2.1 requirements and their BA degree-specific written communication requirements with English Department coursework (i.e., ENGL 101, 102 or 105, and 200-level ENGL courses). Students are strongly encouraged to take a 200-level English course before taking 300- and 400-level coursework in English. Prospective English majors are encouraged to consult with the Director or Associate Director of Undergraduate Studies in order to declare the major, review major and degree requirements, and become familiar with departmental opportunities.

Requirements for the B.A. or B.G.S. Major

The major in English requires 30 hours (33 for Honors English), of which 3 hours may be an appropriate 200-level English course. The Department offers three tracks in the major, with an Honors variation of each: General; Creative Writing; and Rhetoric, Language, and Writing.

As part of these 30 hours (33 for Honors English), all English majors must choose courses from each of the following 7 categories:

1. Individual Authors or Movements
2. Literary Theory
3. English Language or Rhetoric
4. Transcultural Approaches to Language, Literature, or Writing
5. Writing
6. Forms and Genres
7. Literary History (2 courses)

Note: courses may be listed in more than one category, but may only count in one category for an individual student. 2 courses must be at the 500 level or above (i.e., a capstone course); one additional course must be focused language, literature, or writing before 1850 (see course list at the bottom of this page). See Additional Requirements section of each track for requirements specific to that track.

General Track

General Track, category requirements:

1. Individual Authors or Movements (3)
   - ENGL 301 Topics in British Literature to 1800: _____
   - ENGL 302 Topics in British Literature Since 1800: _____
   - ENGL 315 Studies in British Literature
   - ENGL 317 Topics in American Literature to 1865: _____
   - ENGL 318 Topics in American Literature Since 1865: _____
   - ENGL 324 Contemporary Authors: _____
   - ENGL 325 Recent Popular Literature
   - ENGL 327 Studies in Twentieth-Century Drama: _____
   - ENGL 331 Chaucer
   - ENGL 332 Shakespeare
   - ENGL 334 Major Authors: _____
   - ENGL 340 Topics in U.S. Ethnic Literature: _____
   - ENGL 479 The Literature of: _____
   - ENGL 521 Advanced Topics in British Literature 1800: _____
   - ENGL 522 Advanced Topics in British Literature After 1800: _____
   - ENGL 530 Irish Literature and Culture: _____
   - ENGL 531 James Joyce
   - ENGL 532 Whitman and Dickerson
   - ENGL 533 William Faulkner
   - ENGL 534 Major Authors (Capstone): _____
   - ENGL 560 British Literature of the 20th Century: _____
   - ENGL 565 The Gothic Tradition
   - ENGL 567 Modern Drama: _____
   - ENGL 568 American Literary Environmentalism
   - ENGL 570 Topics in American Literature: _____
   - ENGL 571 American Indian Literature: _____
   - ENGL 573 U.S. Latina/o Literature: _____
   - ENGL 574 African American Literature: _____
   - ENGL 575 Literature of the American South
   - ENGL 576 Advanced Topics in American Literature to 1865: _____
   - ENGL 577 Advanced Topics in American Literature Since 1865: _____
   - ENGL 578 Poetry, 1900-1945
   - ENGL 579 Poetry since 1945
   - ENGL 610 The Literature of England to 1500
   - ENGL 620 Renaissance English Literature: _____
   - ENGL 633 Milton
   - ENGL 640 British Literature, 1600-1800: _____
   - ENGL 650 Romantic Literature: _____
   - ENGL 655 Victorian Literature: _____
   - ENGL 674 African Literature: _____

2. Literary Theory (3)
   - ENGL 308 Introduction to Literary Criticism and Theory
   - ENGL 508 Contemporary Literary Theory
   - ENGL 660 Ecocriticism

3. English Language or Rhetoric (3)
ENGL 359 | English Grammar
ENGL 380 | Introduction to Rhetoric and Composition
ENGL 385 | The Development of Modern English
ENGL 387 | Introduction to the English Language
ENGL 580 | Rhetoric and Writing: ______
ENGL 581 | English Language Studies: ______
ENGL 587 | American English

4. Transcultural Approaches to Language, Literature, or Writing (3)

ENGL 305 | World Indigenous Literatures
ENGL 306 | Global Environmental Literature
ENGL 326 | Introduction to African Literature
ENGL 336 | Jewish American Literature and Culture
ENGL 337 | Introduction to U.S. Latino/a Literature
ENGL 338 | Introduction to African-American Literature
ENGL 339 | Introduction to Caribbean Literature
ENGL 340 | Topics in U.S. Ethnic Literature: ______
ENGL 341 | American Literature of Social Justice
ENGL 360 | Advanced Composition: ______ (as Pura Vida: Travel Writing and the Costa Rica Experience) only counts in this category.
ENGL 492 | The London Review
ENGL 571 | American Indian Literature: ______
ENGL 572 | Women and Literature: ______
ENGL 573 | U.S. Latina/o Literature: ______
ENGL 574 | African American Literature: ______
ENGL 674 | African Literature: ______

5. Writing (3) note: students not pursuing the Creative Writing Track may only count one creative writing workshop toward the major; creative writing workshops noted below.

ENGL 203 | Topics in Reading and Writing: ______
ENGL 205 | Freshman-Sophomore Honors Proseminar: ______
ENGL 209 | Introduction to Fiction
ENGL 210 | Introduction to Poetry
ENGL 211 | Introduction to the Drama
ENGL 351 | Fiction Writing I (creative writing workshop)
ENGL 352 | Poetry Writing I (creative writing workshop)
ENGL 353 | Screenwriting I (creative writing workshop)
ENGL 354 | Playwriting I (creative writing workshop)
ENGL 355 | Nonfiction Writing I (creative writing workshop)
ENGL 360 | Advanced Composition: ______
ENGL 361 | Professional Writing: ______
ENGL 362 | Foundations of Technical Writing
ENGL 400 | Teaching and Tutoring Writing
ENGL 492 | The London Review
ENGL 551 | Fiction Writing II (creative writing workshop)
ENGL 552 | Poetry Writing II (creative writing workshop)
ENGL 553 | Screenwriting II (creative writing workshop)
ENGL 554 | Playwriting II (creative writing workshop)
ENGL 555 | Nonfiction Writing II (creative writing workshop)
ENGL 599 | Honors Essay

6. Forms and Genres (3) note: students not pursuing the Creative Writing Track may only count one creative writing workshop toward the major; creative writing workshops noted below.

ENGL 209 | Introduction to Fiction
ENGL 210 | Introduction to Poetry
ENGL 211 | Introduction to the Drama
ENGL 309 | The British Novel
ENGL 327 | Studies in Twentieth-Century Drama: ______
ENGL 351 | Fiction Writing I (creative writing workshop)
ENGL 352 | Poetry Writing I (creative writing workshop)
ENGL 353 | Screenwriting I (creative writing workshop)
ENGL 354 | Playwriting I (creative writing workshop)
ENGL 355 | Nonfiction Writing I (creative writing workshop)
ENGL 360 | Advanced Composition: ______
ENGL 506 | Science Fiction
ENGL 551 | Fiction Writing II (creative writing workshop)
ENGL 552 | Poetry Writing II (creative writing workshop)
ENGL 553 | Screenwriting II (creative writing workshop)
ENGL 554 | Playwriting II (creative writing workshop)
ENGL 555 | Nonfiction Writing II (creative writing workshop)
ENGL 559 | Poetry since 1945

7. Literary History: 2 courses (6)

ENGL 312 | Major British Writers to 1800 & ENGL 322 and American Literature II
ENGL 320 | American Literature I & ENGL 314 and Major British Writers after 1800
ENGL 310 | Literary History I & ENGL 330 and Literary History II
ENGL 312 | Major British Writers to 1800 & ENGL 330 and Literary History II
ENGL 320 | American Literature I & ENGL 330 and Literary History II
ENGL 310 | Literary History I & ENGL 332 and American Literature II

Total Hours 24
Additional 6 hours of English electives

Additional Requirements, General Track:

- One course (3 hours) in addition to 7. (Literary History) must focus on literature before 1850. *See course list at the bottom of this page. (p. ___)
- Two courses (6 hours) must be capstone courses, i.e., at the 500 level or above.
• 27 hours must be at the junior/senior level.
• One 200-level course may count toward major requirements. No 100-level ENGL courses count toward major requirements.

Notes:
• Only 1 (3 credits) creative writing workshop (fiction writing, nonfiction writing, poetry writing, screen writing or playwriting) may be applied as a major course for students not pursuing the creative writing track.
• Up to 6 credits combined of ENGL 494 (Research Internship) or ENGL 495 (Directed Study) may be applied as major electives.
• Up to 3 credit hours of ENGL 496 (Internship) or ENGL 497 (Service Learning Internship) may be applied as a major elective.

Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 30 hours of major courses (33 for Honors English).

Major Hours in Residence
Satisfied by a minimum of 24 hours of KU resident credit in the major; exceptions by permission of Director of Undergraduate Studies only.

Major Junior/Senior Hours
Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Total Hours 6

Additional requirements, Rhetoric, Language, and Writing Track:  
- One course (3 hours) in addition to 7. (Literary History) must focus on literature before 1850. *See course list at the bottom of this page (p. ).  
- Two courses (6 hours) must be capstone courses, i.e., at the 500 level or above.  
- 27 hours must be at the junior/senior level.  
- One 200-level course may count toward major requirements. No 100-level ENGL courses count toward major requirements.

Note:  
- Only 1 (3 credits) creative writing workshop (fiction writing, nonfiction writing, poetry writing, screen writing or playwriting) may be applied as a major course for students not pursuing the creative writing track.

Major Hours & Major GPA  
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours  
Satisfied by 30 hours of major courses (33 for Honors English).

Major Hours in Residence  
Satisfied by a minimum of 24 hours of KU resident credit in the major; exceptions by permission of Director of Undergraduate Studies only.

Major Junior/Senior Hours  
Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA  
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).
The vast majority of our undergraduate classes have 20-35 students, and our department is renowned for its tradition of excellence in teaching. Solid foundation for professional success.

Teach our students life-long skills, so that they learn to write clearly, effectively, and creatively, and as they lay a foundation for professional success.

Because reading and writing shape the world.

KU’s English Department is at the core of the humanities, highlighting the “human” through our individual, one-on-one interactions with our students, our emphasis on community and global engagement, and our abiding interest in our shared humanity through the stories of others. We seek to challenge the mind and to engage the imagination of our students, to teach them to ask questions and to seek for answers. We encourage them to grapple with the complexity of a culturally and commercially interconnected world and the global networks and processes of cultural exchange. We believe that words and ideas will shape the world. We teach our students life-long skills, so that they learn to write clearly, creatively, and effectively—discovering themselves even as they lay a solid foundation for professional success.

A commitment to teaching and learning.

Our department is renowned for its tradition of excellence in teaching. The vast majority of our undergraduate classes have 20-35 students, and much of the class time is dedicated to active learning and engagement with texts and ideas. In the last ten years, faculty members in the department of English have won ten Kemper Fellowships for Excellence in Teaching, two Chancellors Club Teaching Professorships, a Career Achievement Teaching Award, and a wide variety of other university-level teaching and advising awards, and the department as a whole received the Center of Teaching Excellence (CTE) award for Department Excellence in Teaching at the University of Kansas.

A variety of career and life paths.

The Literature, Language, and Writing program at the Edwards campus helps to prepare undergraduate students for a variety of professions, including law, scholarship, publishing, library science, and marketing—as well as any number of other fields that value clear communication, interpretive skill, and critical and creative thinking.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Requirements for the B.A. or B.G.S.

Literature, Language, and Writing Major

KU Edwards Campus

The undergraduate program in literature, language, and writing is offered in its entirety only at the KU Edwards Campus (http://edwardscampus.ku.edu), 12600 Quivira Rd., Overland Park, KS 66213. This program is designed for students who have earned an associate’s degree or equivalent hours and wish to complete the upper-level courses necessary for a bachelor’s degree.

Literature, Language, and Writing Program

The program includes professional writing courses. Internship opportunities may be pursued as credit toward the major, offering

Departmental Honors

To be admitted to the English Honors major program, an undergraduate must have earned a 3.25 overall grade-point average, and a 3.5 grade-point average in English courses.

Honors English majors must complete at least 1 section of ENGL 598 Honors Proseminar: _____ and ENGL 599 Honors Essay. This requirement, in effect, adds 3 hours of capstone-level coursework to the student’s emphasis.

Bachelor of Arts and Bachelor of General Studies in Literature, Language, and Writing

Why study English language and literature?

Because reading and writing shape the world.

*Courses that fulfill the additional pre-1850 requirement (in addition to any relevant course taken for category 7):

students the opportunity to develop communication skills in specific professional contexts.

In today’s rapidly changing work environment, employers are seeking people who can deal with concepts and abstractions, who are imaginative and creative, and who have good communication and people skills. A degree in English can help develop these skills, and it is good preparation for a variety of advanced professional degrees in areas such as business and law. English majors pursue a range of careers including editing, technical writing, advertising and public relations, teaching, market research, retail management, teaching English as a second language, nonprofit fund-raising and/or advocacy, Web design, speech writing, sales, video production, script reading, radio and television, and many others. Some career paths require an advanced degree or specialized post-graduate training, but an undergraduate degree in English is an excellent base from which to explore career options.

Contact the CLAS undergraduate advisor on the Edwards Campus, Dan Mueller, dmueller@ku.edu, 864-8659 (from Lawrence) or 913-897-8659 (outside of Lawrence) for more information.

**Writing or English Language Required Electives (9)**

Majors must complete a total of 3 courses (9 hours) of writing and/or English language courses.

**English Required Elective (9)**
Majors must complete 3 courses (9 hours) of junior/senior level ENGL courses. Up to 6 credits combined of ENGL 494 (Research Internship) or ENGL 495 (Directed Study) may be applied as major electives; they may not count as English core equivalents. Up to 3 credit hours of ENGL 496 (Internship) or ENGL 497 (Service Learning Internship) can be applied as major elective credit. In addition, the following courses offered in other CLAS departments may be selected: HWC 304, HWC 308, HWC 312, FMS 373, FMS 773, THR 709.

Total Hours 30

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 30 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**
Satisfied by a minimum of 30 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Departmental Honors**

To be admitted to the English Honors major program, an undergraduate student must have earned a 3.25 overall grade-point average, and a 3.5 grade-point average in English courses. The student should declare an English major, if enrolled in the College of Liberal Arts and Sciences, or an English concentration, if enrolled in the School of Business or the School of Education.

Honors English majors must complete at least 1 section of ENGL 598 Honors Proseminar: ______ and ENGL 599 Honors Essay. This requirement, in effect, adds 3 hours of capstone-level coursework to the student’s emphasis.

**Minor in English**

**Why study English language and literature?**

Because reading and writing shape the world.

KU’s English Department is at the core of the humanities, highlighting the “human” through our individual, one-on-one interactions with our students, our emphasis on community and global engagement, and our abiding interest in our shared humanity through the stories of others. We seek to challenge the mind and to engage the imagination of our students, to teach them to ask questions and to seek for answers. We encourage them to grapple with the complexity of a culturally and commercially interconnected world and the global networks and processes of cultural exchange. We believe that words and ideas will shape the world. We teach our students life-long skills, so that they learn to write clearly, creatively, and effectively—discovering themselves even as they lay a solid foundation for professional success.

**A commitment to teaching and learning.**

Our department is renowned for its tradition of excellence in teaching. The vast majority of our undergraduate classes have 20-35 students, and much of the class time is dedicated to active learning and engagement with texts and ideas. In the last ten years, faculty members in the department of English have won ten Kemper Fellowships for Excellence in Teaching, two Chancellors Club Teaching Professorships, a Career Achievement Teaching Award, and a wide variety of other university-level teaching and advising awards, and the department as a whole received the Center of Teaching Excellence (CTE) award for Department Excellence in Teaching at the University of Kansas.

**A variety of career and life paths.**

The English minor is an excellent complement to any major or professional degree. English students graduate to a variety of careers, including law, teaching, scholarship, publishing, library science, and journalism—as well as medicine, business, politics, design, and any number of other fields that value clear communication, interpretive skill, and critical and creative thinking.

**Engaged and innovative scholarship.**

KU’s English Department has several core strengths that cross tracks and periods, including Global and Cross-Cultural Approaches; Literature, Rhetoric, and Social Action; Diversity Studies; Language, Literature and Science; and Popular Expressive Forms.

At the KU English Department, students work closely with nationally-renowned writers and researchers. Our faculty have won national awards that recognize excellence in research, including grants from the National Endowment for the Humanities, the American Philosophical Society, and the Newberry Library, among others. English Department faculty members have also received major research funding from the University of Kansas, including the Hall Center for the Humanities Research fellowships and Keeler Intra-University Fellowships for interdisciplinary work. Undergraduate students can work one-on-one with faculty mentors in the Honors Program, McNair Scholars Program, and Dean’s Scholars Program.

**Requirements for the Minor**

The minor in English requires students to complete 18 hours of English coursework in one of two tracks: **Regular or Creative Writing.**

**Requirements for the English Minor, Regular Track**

18 hours, of which 12 hours must be selected from 4 of the following categories that comprise the common requirements of the English major, and of which at least 15 must be jr/sr hours. No more than 1 creative writing course may count for the regular track. ENGL 494, 495, 496, and 497 may not be applied to English minor requirements.

**Categories:**

1. Individual Authors or Movements
2. Literary Theory
3. English Language or Rhetoric
4. Transcultural Approaches to Language, Literature, or Writing
5. Writing
6. Forms and Genres
7. Literary History

For full course lists for each category, see the General Track of the English Major (http://catalog.ku.edu/liberal-arts-sciences/english/ba-bgs-english/#Gen).

Requirements for the Creative Writing Track of the English Minor

18 hours, of which 12 hours must be creative writing workshops (see below) in at least two genres, and of which at least 15 must be jr/sr hours. For the purposes of the creative writing tracks of the major and minor, genres are 1) fiction; 2) poetry; 3) playwriting, screenwriting, and/or scriptwriting; and 4) non-fiction. At least one workshop must be at the 500 level or above. ENGL 494, 495, 496, and 497 may not be applied to English minor requirements.

Creative Writing workshops:
ENGL 351 Fiction Writing I (3)
ENGL 352 Poetry Writing I (3)
ENGL 353 Screenwriting I (3)
ENGL 354 Playwriting I (3)
ENGL 355 Nonfiction Writing I (3)
ENGL 360 Advanced Composition: _____ (3)
ENGL 492 The London Review (3)
ENGL 551 Fiction Writing II (3)
ENGL 552 Poetry Writing II (3)
ENGL 553 Screenwriting II (3)
ENGL 554 Playwriting II (3)
ENGL 555 Nonfiction Writing II (3)
FMS 373 Intermediate Screenwriting (3)

Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

Minor Hours
Satisfied by 18 hours of minor courses.

Minor Hours in Residence
Satisfied by a minimum of 12 hours of KU resident credit in the minor.

Minor Junior/Senior Hours
Satisfied by a minimum of 15 hours from junior/senior courses (300+) in the minor.

Minor Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator.

Master of Arts in English

Why study English language and literature?

Because reading and writing shape the world.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

To be admitted to any of the department’s graduate degree tracks, a student must have a strong undergraduate record, particularly in the humanities. A grade-point average of at least 3.3 on a 4.0 scale normally is required. College courses should include at least 18 hours of junior/senior work in literature. Applicants are expected to have some familiarity with British and American literary history and the work of the major writers in English. Applicants for graduate work in literary studies and rhetoric-composition studies should be able to demonstrate, with writing samples, their ability to produce advanced analytical and interpretive scholarly writing. Candidates for admission must submit Graduate Record Examination scores in support of their applications. For complete admission information, see the English department website (http://www.english.ku.edu/graduate/applying_for_admission.shtml).

All applicants must submit their graduate application online (http://www.graduate.ku.edu). All supplemental materials (transcripts, writing samples, letters of recommendation, etc.) may be attached electronically and submitted with the online application. Those who cannot submit supplemental materials electronically may mail them to the department:

The University of Kansas
Department of English
Graduate Applications
Wescoe Hall
1445 Jayhawk Blvd., Room 3001
Lawrence, KS 66045-7594

M.A. Degree Requirements

While continuously enrolled, a student has a total of 7 years to complete the master’s degree; however, the expected time to degree is 2.5 to 3 years. The candidate’s program should be arranged in consultation
with the director of graduate studies or a member of the departmental committee on graduate studies.

Students who elect to write a master's thesis must enroll in ENGL 899. M.A. candidates in Options 1a, 1b, 2a and 2b must take at least 18 hours of their course work, in addition to ENGL 800, at the 700, 800, and 900 levels.

**Option 1a—Literature**

1. A total of 30 hours in English courses carrying graduate credit. No more than 6 hours may be taken at the 600 level. At least 6 hours must be taken at the 900 or seminar level. ENGL 998 does not count as a seminar or 900-level class. Exam option students will take 9 conventional courses (27 hours), plus 3 hours of ENGL 897 (exam preparation hours) or another elective course. Thesis option students will take 8 conventional courses (24 hours), plus 6 hours of ENGL 899 (MA or MFA thesis hours).

2. 3 hours (1 course) on Methods or Theory appropriate to different areas of focus in Literary Studies: ordinarily 708, 709, 800, or another course appropriately designated by the Graduate Director. A 998 (Directed Reading) directly focused on questions of methods and theory can fulfill this requirement if approved by the Graduate Director.

3. 3 hours (1 course) on Pedagogy: the 801-802 sequence (required for TAs), 780, or other appropriate course as approved by the Graduate Director.

4. 18 (6 courses with thesis option) or 21 (7 courses with exam option) distribution hours to be selected in consultation with advisors (Graduate Director during first year and thereafter advisors with whom students plan to move toward exam or thesis options). At least 1 course must be pre-1700; at least 1 must be 1700-1900; and at least 1 must be after 1900. 2 courses (6 hours) outside the department may be included in the 18 distribution hours with approval of the Graduate Director.

5. Exam option (3 hours): the student will generally enroll in 3 hours of ENGL 897 (exam preparation hours) and must pass a 90-minute oral exam based on a 30-item exam list of literary and/or theoretical texts, including at least 6 items pre-1700; at least 6 items post-1800; and at least 12 items in theory. The student may opt to enroll in 1 additional 3-hour elective course instead of ENGL 897.

6. Thesis Option (6 hours): The student must enroll in 6 hours of ENGL 899 (MA or MFA thesis hours) over 2 semesters of thesis work: (1) a first semester of work with the thesis director leading to polished proposal with a bibliography; and (2) a thesis semester of writing leading to defense of finished thesis.

**Option 2a—Rhetoric and Composition**

1. A total of 30 hours in English courses carrying graduate credit. No more than 6 hours may be taken at the 600 level. At least 6 hours must be taken at the 900 or seminar level. ENGL 998 does not count as a seminar or 900-level class. Exam option students will take 9 conventional courses (27 hours), plus 3 hours of ENGL 897 (exam preparation hours) or another elective course. Thesis option students will take 8 conventional courses (24 hours), plus 6 hours of ENGL 899 (MA or MFA thesis hours).

2. 3 hours (1 course) on Methods or Theory appropriate to different areas of focus in Rhetoric and Composition, ordinarily 780 (Composition Studies), or another course appropriately designated by the Graduate Director. A 998 (Directed Reading) directly focused on questions of methods and theory can fulfill this requirement if approved by the Graduate Director.

3. 3 hours (1 course) on Pedagogy: the 801-802 sequence (required for TAs), 780, 781, or other appropriate course as approved by the Graduate Director.

4. 18 (6 courses with thesis option) or 21 (7 courses with exam option) distribution hours to be selected in consultation with advisors (Graduate Director during first year and thereafter advisors with whom students plan to move toward exam or thesis options). At least 6 hours in English Language Studies courses (including at least 1 seminar) beyond the courses used to fulfill requirements 2 (Methods and Theory) and 3 (Pedagogy).

5. 6 hours of elective courses

6. For students selecting the exam option, 6 hours in second exam area (rhetoric and composition, literature, literary theory), including at least 1 seminar.

7. 2 courses (6 hours) outside the department may be included in the 18 distribution hours with approval of the Graduate Director.
8. Exam option (3 hours): The student will generally enroll in 3 hours of ENGL 897 (exam preparation hours) and must pass a 90-minute oral exam based on 2 lists developed in consultation with advisors: a) a 15-item exam list of works in English Language Studies, and b) a 15-item exam list of works in a second area: literature, literary theory, or rhetoric and composition. The student may opt to enroll in 1 additional 3-hour elective course instead of ENGL 897.

9. Thesis Option (6 hours): The student must enroll in 6 hours of ENGL 899 (MA or MFA thesis hours) over 2 semesters of thesis work: (1) a first semester of work with the thesis director leading to polished proposal with a bibliography; and (2) a thesis semester of writing leading to defense of finished thesis.

Option 2b—English Language Studies

1. A total of 30 hours in English courses carrying graduate credit. No more than 6 hours may be taken at the 600 level. At least 6 hours must be taken at the 900 or seminar level. ENGL 998 does not count as a seminar or 900-level class. Exam option students will take 9 conventional courses (27 hours), plus 3 hours of ENGL 897 (exam preparation hours) or another elective course. Thesis option students will take 8 conventional courses (24 hours), plus 6 hours of ENGL 899 (MA or MFA thesis hours).

2. 3 hours (1 course) on Methods or Theory appropriate to different areas of focus in Rhetoric and Composition, ordinarily 780 (Composition Studies), or another course appropriately designated by the Graduate Director. A 998 (Directed Reading) directly focused on questions of methods and theory can fulfill this requirement if approved by the Graduate Director.

3. 3 hours (1 course) on Pedagogy: the 801-802 sequence (required for TAs), 780, or other appropriate course as approved by the Graduate Director.

4. 18 (6 courses with thesis option) or 21 (7 courses with exam option) distribution hours (6 courses) to be selected in consultation with advisors (Graduate Director during first year and thereafter advisors with whom students plan to move toward exam or thesis options). At least 6 hours in Rhetoric and Composition courses (including at least 1 seminar) beyond the courses used to fulfill requirements 2 (Methods and Theory) and 3 (Pedagogy).

5. 6 hours of elective courses

6. For students selecting the exam option, 6 hours in second exam area (rhetoric and composition specialty, English language studies, literature, literary theory), including at least 1 seminar

7. 2 courses (6 hours) outside the department may be included in the 18 distribution hours with approval of the Graduate Director.

8. Exam option (3 hours): The student will generally enroll in 3 hours of ENGL 897 (exam preparation hours) and must pass a 90-minute oral exam based on 2 lists developed in consultation with advisors: a) a 15-item exam list of works in rhetoric and composition, and b) a 15-item exam list of works in a second area: literature, literary theory, English Language Studies, or specialty within rhetoric and composition. The student may opt to enroll in 1 additional 3-hour elective course instead of ENGL 897.

9. Thesis Option (6 hours): The student must enroll in 6 hours of ENGL 899 (MA or MFA thesis hours) over 2 semesters of thesis work: (1) a first semester of work with the thesis director leading to polished proposal with a bibliography; and (2) a thesis semester of writing leading to defense of finished thesis.

Master of Fine Arts in Creative Writing

Why study English language and literature?

Because reading and writing shape the world.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

To be admitted to any of the department’s graduate degree tracks, a student must have a strong undergraduate record, particularly in the humanities. A grade-point average of at least 3.3 on a 4.0 scale normally is required. Creative writing applicants need to submit writing samples that demonstrate an advanced level of writing skills in their respective genres. Candidates for admission must submit Graduate Record Examination scores in support of their applications. For complete admission information, see the English department website (http://www.english.ku.edu/graduate/applying_for_admission.shtml).

All applicants must submit their graduate application online (http://www.graduate.ku.edu). All supplemental materials (transcripts, writing samples, letters of recommendation, etc.) may be attached electronically and submitted with the online application. Those who cannot submit supplemental materials electronically may mail them to the department:

The University of Kansas
Department of English
Graduate Applications
Wescoe Hall
1445 Jayhawk Blvd., Room 3001
Lawrence, KS 66045-7594

Master of Fine Arts in Creative Writing Degree Requirements

Requirements for the M.F.A. in Creative Writing (http://www2.ku.edu/~englishmfa) include

1. 4 graduate courses (12 hours) in literature, English or American.
2. 4 graduate courses (12 hours) in creative writing.
3. No more than 2 classes (6 hours) may be taken at the 600-level.
4. 7 to 9 hours in electives or practica, chosen from graduate courses in the Department of English, or approved courses in another department.
Doctor of Philosophy in English

Why study English language and literature?
Because reading and writing shape the world.

Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission
To be admitted to any of the department’s graduate degree tracks, a student must have a strong undergraduate record, particularly in the humanities. A grade-point average of at least 3.3 on a 4.0 scale normally is required. Applicants are expected to have some familiarity with British and American literary history and the work of the major writers in English. Most importantly, applicants for graduate work in literary studies and rhetoric-composition studies should be able to demonstrate, with writing samples, their ability to produce advanced analytical and interpretive scholarly writing. Similarly, creative writing applicants need to submit writing samples that demonstrate an advanced level of writing skills in their respective genres. Candidates for admission must submit Graduate Record Examination scores in support of their applications. For complete admission information, see the English department website (http://www.english.ku.edu/graduate/applying_for_admission.shtml).

All applicants must submit their graduate application online (http://www.graduate.ku.edu). Lawrence, KS 66045-7594

Ph.D. Requirements: Literature and Creative Writing

1. At least 24 hours of credit in appropriate formal graduate courses beyond the M.A. or M.F.A. At least 15 hours (in addition to introduction to ENGL 800 if not taken for the M.A.) of this course work must be taken from among courses offered by the Department of English at the 700 level and above. ENGL 997 and ENGL 999 credits cannot be included among the 24 hours. Students may petition to take up to 6 hours outside the department.

2. Required courses: ENGL 800 and 2 seminars (courses numbered 900 or above) offered by the Department of English at KU beyond the M.A. ENGL 998 does not fulfill this requirement. Students with master’s degrees earned elsewhere may be required by the director of graduate studies, acting on behalf of the graduate committee, to take additional course work.

3. A reading knowledge of 1 of the following languages: French, German, Greek, Hebrew, Italian, Japanese, Latin, Russian, Old English, or Spanish, and completion of the Responsible Scholarship and Research Skills requirement (usually fulfilled with ENGL 800).

4. ENGL 999, Dissertation (at least 12 hours).

5. A comprehensive examination, to be completed after satisfaction of formal course requirements. This examination, which has both written and oral components, consists of 3 areas of study.

6. In the semester following the comprehensive examination, a 90-minute review of the dissertation proposal, which is to provide formal direction for the dissertation.

7. At least 1 year of supervised quarter-time teaching for qualified candidates except for those who do not plan to undertake teaching careers or who have already had extensive teaching experience.

Note: Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

Ph.D. Requirements: Composition and Rhetoric, M.A. to Ph.D., standard track

1. At least 24 hours of credit in appropriate formal graduate courses beyond the M.A. or M.F.A. At least 15 hours (in addition to introduction to ENGL 800 if not taken for the M.A.) of this course work must be taken from among courses offered by the Department of English at the 700 level and above. ENGL 997 and ENGL 999 credits cannot be included among the 24 hours. Students may petition to take up to 6 hours outside the department.

2. An introduction to the field: either ENGL 800 or ENGL 780.

3. 2 seminars (courses numbered 900 or above) offered by the Department of English at KU beyond the M.A. ENGL 998 does not fulfill this requirement.

4. A reading knowledge of 1 of the following languages: French, German, Greek, Hebrew, Italian, Japanese, Latin, Russian, Old English, or Spanish, and completion of the Responsible Scholarship and Research Skills requirement (usually fulfilled with ENGL 800).

5. ENGL 999, Dissertation (at least 12 hours).

Ph.D. in English Degree Requirements

Students entering the program with the B.A. have, while being continuously enrolled, 10 years to complete the M.A. and Ph.D. combined. Students entering with the M.A. have 7 years to complete the Ph.D.; however, the expected time to degree is 6-7 years for the M.A. plus Ph.D., and 4-5 years for the Ph.D.
6. A comprehensive examination, to be completed after satisfaction of formal course requirements. This examination, which has both written and oral components, consists of three areas of study.

7. In the semester following the comprehensive examination, a 90-minute review of the dissertation proposal, which is to provide formal direction for the dissertation.

8. At least 1 year of supervised quarter-time teaching for qualified candidates except for those who do not plan to undertake teaching careers or who have already had extensive teaching experience.

Note: Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

Ph.D. Requirements: Composition and Rhetoric, B.A. to Ph.D. accelerated track

Each student admitted to the Ph.D. program in composition and rhetoric is assigned a graduate advisor from among the faculty in composition and rhetoric, who will help the student plan an initial course of study. After the first semester, students may ask other faculty members in the field to serve as their graduate advisors, depending on availability. The students and their graduate advisors together design and monitor a coherent program of study, individualized to serve each student’s goals within current expectations for a Ph.D. in composition and rhetoric. As an interdisciplinary field, study in composition and rhetoric might involve work in other departments, programs, or schools as well as English, including, for example, communication studies, linguistics, education, psychology, American studies, women’s studies, or history.

Each student’s individualized program of study must meet the minimum requirements detailed below.

1. At least 36 hours of credit in appropriate formal graduate courses beyond the B.A. At least 30 hours of this course work must be taken from among courses offered at the 700 level and above. ENGL 997 and ENGL 999 credit hours cannot be included among the 36 hours.

2. Students in this specialization may take up to 12 hours outside the department without petition, with written approval by the students’ graduate advisors. Students may petition to take more hours outside the department, with the approval of their graduate advisors, and provided they can demonstrate how the courses fit within their programs of study.

3. A course on methods, theory, and professionalism: Either ENGL 800 Introduction to Graduate Study in English or ENGL 780 Composition Studies

4. A reading knowledge of one of the following languages: French, German, Greek, Hebrew, Italian, Japanese, Latin, Russian, Old English, or Spanish, and completion of the Responsible Scholarship and Research Skills requirement (usually fulfilled with ENGL 800).

5. At least 3 seminars (numbered 900 or above) offered by the Department of English at the University of Kansas, at least 2 of which should be in composition and rhetoric. ENGL 998 does not fulfill this requirement.

6. ENGL 999 Dissertation (at least 12 hours).

7. A comprehensive examination, to be completed after satisfaction of formal course requirements. This examination, which has both written and oral components, consists of 3 areas of study.

8. In the semester following the comprehensive examination, a 90-minute review of the dissertation proposal, which is to provide formal direction for the dissertation.

9. At least 1 year of supervised quarter-time teaching for qualified candidates except for those who do not plan to undertake teaching careers or who have already had extensive teaching experience.

10. A dissertation of substantial merit.

Note: Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

Environmental Studies Program

Why study environmental studies?

The KU Environmental Studies Program provides a rigorous interdisciplinary education and stimulates exchange concerning the environment from natural science, social science, and humanities perspectives.

Undergraduate Programs

This interdisciplinary major gives students a fundamental knowledge of the human environment, the dimensions of human impact on the environment, and holistic approaches to solving problems resulting from this impact. The human environment includes all facets of human activity affecting the environment, such as philosophical and ethical issues, environmental resource use and misuse, population biology, and the chemistry of the atmosphere.

Electives

The goals of the program are

1. To provide a holistic view of the environment, one in which the synergistic nature of perturbations, natural and anthropogenic, can be understood and

2. To provide the technical and evaluative skills for active participation in an environmental career.

The environment is the central theme around which a liberal arts education is focused.

Students may declare an interest in environmental studies or a major in environmental studies by filling out the appropriate forms. CLAS Interest Code and Major Declaration forms are available from College Student Academic Services (http://clas.ku.edu/undergrad), 109 Strong Hall, or in the environmental studies office. Students are strongly encouraged to declare an environmental studies major as soon as possible.

Electives provide the opportunity to specialize, and these can be chosen by consulting the various pathways in the major (http://www.kumc.edu/school-of-medicine/pathology.html), which contain a list of faculty members associated with the pathway who are available to help decide on electives and environmental careers. An elective approval form must be submitted to 109 Strong Hall before a student is allowed to graduate. Forms may be obtained from the environmental studies office. Except for study abroad, a maximum of 8 hours of nonclassroom course work may be counted toward electives (e.g., internship or research).
Exceptions and Substitutions
All substitutions must be approved by a student’s environmental studies faculty advisor. A student must submit a requirement substitution form to the environmental studies faculty advisor. Forms can be obtained from the environmental studies office.

Internships
Internships allow majors to develop new skills and test their abilities and educational backgrounds. Students can assess their career objectives in professional settings. Internships are done in city, county, state, and federal agencies and in environmental organizations and private companies or agencies. Students are encouraged to participate at the end of the sophomore or junior year. Completion of an internship by the end of the junior year provides an opportunity to make career changes and final elective selections before the senior year. It is not possible to participate in an internship after graduation. The applicant must have a grade-point average of 2.5 or above, must have completed 12 hours of required environmental studies courses, and must have a suitable internship opportunity. A maximum of 3 hours may be applied to the 12 hours of required electives.

The Professional Science Masters professional graduate degree is designed for graduates of bachelor’s programs in physical/natural sciences, environmental studies, civil/environmental engineering or related fields who are currently employed in private firms, public agencies, and not-for-profit organizations that address a range of environmental issues. Key foci in the science curriculum of this program are environmental impact assessment; soils, water, and ecosystems science; geospatial analysis; environmental health and policy; and an understanding of environmental law and policy and the regulatory environment.

The P.S.M. degree is a unique professional degree grounded in natural science, technology, engineering, mathematics and/or computational sciences and designed to prepare students for direct entry into a variety of career options in industry, business, government, or non-profit organizations. P.S.M. programs prepare graduates for high-level careers in science that have a strong emphasis on such skill areas as management, policy, entrepreneurship, communication and project management. P.S.M. programs consist of 2 years of academic training in an emerging or interdisciplinary area, along with a professional component that may include internships and “cross-training” in workplace skills.

Courses

EVRN 103. Environment and History. 3 Hours. H.
Nature is our oldest home and newest challenge. This course surveys the environmental history of the earth from the extinction of the dinosaurs to the present with a focus on the changing ecological role of humans. It analyzes cases of ecological stability, compares cultural attitudes toward nature, and asks why this ancient relationship seems so troubled. (Same as HIST 103.) LEC.

EVRN 140. Global Environment I: The Discovery of Environmental Change. 5 Hours. GE3N / U.
This interdisciplinary course and laboratory sections survey the foundations of environmental understanding and the process of scientific discovery from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics include the history of environmental systems and life on earth, the discovery of biotic evolution, ecological change, and climate change. Laboratory sections apply the principles and methodologies of the humanities, physical, life and social sciences to earth systems and the development of environmental understanding using historical and present-day examples. (Same as GEOG 140 and HIST 140.) LEC.

EVRN 142. Global Environment II: The Ecology of Human Civilization. 5 Hours. GE3S / U.
This interdisciplinary course and its laboratory sections survey the history of humanity’s relationship with the natural world over the long term from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics include the evolution of Homo sapiens and cultural systems; the development of hunter, gatherer, fisher, agricultural, and pastoral lifeways; the ecology of colonialism and industrial civilization, and the emergence of ideological and ethical perspectives on the relationship between nature and culture. Laboratory sections apply the principles and methodologies of the humanities, physical, life and social sciences to the humanity’s engagement with the global environment using historical and present-day examples. (Same as GEOG 142 and HIST 142.) LEC.

EVRN 144. Global Environment I: Discovery of Environmental Change, Honors. 5 Hours. U.
This interdisciplinary course surveys the foundations of environmental understanding and the process of scientific discovery from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics include the history of environmental systems and life on earth, the discovery of biotic evolution, ecological change, and climate change. Laboratory sections apply the principles and methodologies of the humanities, physical, life and social sciences to earth systems and the development of environmental understanding using historical and present-day examples. (Same as GEOG 144 and HIST 144.) Open only to students admitted to the University Honors Program or by permission of instructor. LEC.

EVRN 145. Global Environment II: The Ecology of Human Civilization, Honors. 5 Hours. U.
This interdisciplinary course and its laboratory sections survey the history of humanity’s relationship with the natural world over the long term from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics include the evolution of Homo sapiens and cultural systems; the development of hunter, gatherer, fisher, agricultural, and pastoral lifeways; the ecology of colonialism and industrial civilization, and the emergence of ideological and ethical perspectives on the relationship between nature and culture. Laboratory sections apply the principles and methodologies of the humanities, physical, life and social sciences to the humanity’s engagement with the global environment using historical and present-day examples. (Same as GEOG 145 and HIST 145.) Open only to students admitted to the University Honors Program or by permission of instructor. LEC.

EVRN 148. Scientific Principles of Environmental Studies. 3 Hours. NB GE3N / N.
This course presents an overview of our understanding of environmental processes and issues. Topics include scientific principles, resource issues, pollution and global change, among others. This course gives students a rigorous understanding of interactions between humans and their environment and provides students with a scientific basis for making informed environmental decisions. (Same as GEOG 148.) LEC.

EVRN 149. Scientific Principles of Environmental Studies, Honors. 3 Hours. NB GE3N / N.
This course presents an overview of our understanding of environmental processes and issues. Topics include scientific principles, resource issues, pollution and global change, among others. This course gives
students a rigorous understanding of interactions between humans and their environment and provides students with a scientific basis for making informed environmental decisions. An honors section of EVRN 148, designed for superior students. (Same as GEOG 149.) Prerequisite: Membership in the University Honors Program or approval of instructor required. LEC.

**EV RN 150. Environment, Culture and Society. 3 Hours. SC GE3S / S.** An introduction to geographic approaches to the study of the environment, emphasizing societal and cultural factors that influence human interaction with the biosphere, hydrosphere, lithosphere, and atmosphere. The course involves analysis of a broad range of contemporary environmental issues from the local to global scales. (Same as GEOG 150.) LEC.

**EV RN 177. First Year Seminar: ______. 3 Hours. GE11 / U.** A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Environmental Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**EV RN 200. Study Abroad Topics In: _____. 1-6 Hours. S.** This course is designed for the study of special topics in Environmental Studies. Coursework must be arranged through the Office of Study Abroad. May be repeated for credit if content varies. LEC.

**EV RN 304. Environmental Conservation. 3 Hours. NE GE3S / N.** A survey of current methods of describing and modeling the function, structure, and productivity of natural and anthropogenically modified earth resource systems, along with a discussion of contemporary views of what constitutes a natural landscape. Fundamental natural science principles about the interplay among lithospheric, atmospheric, hydrospheric, and biospheric components of earth systems are emphasized. Uses of natural resources, including fossil fuels, minerals, and water, are described with attention to the earth's total energy budget. Human activities that affect preservation, conservation, and multiple uses of earth regions receive attention. Systems under stress through population and other contemporary forces serve as examples. (Same as GEOG 304.) LEC.

**EV RN 320. Environmental Policy Analysis. 3 Hours. N.** An historical and analytical study of the formulation, implementation, and consequences of environmental policy in the United States. Attention will be directed at relevant interest groups, issues specific to both rural and urban populations, relationships between national policies and international organizations concerned with environmental problems. Prerequisite: EVRN 148/GEOG 148; and EVRN 103/HIST 103, EVRN 347/HIST 347 or EVRN 150/GEOG 150. LEC.

**EV RN 332. Environmental Law. 3 Hours. U.** An introduction to how the American legal process improves, transforms, and damages the natural environment. Emphasizes and compares shifting responsibilities of legal forces and institutions; judges and litigants, legislators and statutes, agencies and administrations, and citizens and regulated entities. Prerequisite: EVRN 148 and EVRN 103/HIST 103, EVRN 347/HIST 347 or EVRN 150/GEOG 150. LEC.

**EV RN 335. Introduction to Soil Geography. 4 Hours. N.** The course focuses on the properties and processes of soils as they occur in their environment. The student is introduced to the nature of soil as it functions as a body; genesis of soils; properties of soil solids, especially colloids; soil chemical composition, properties, and reactions; interaction between solid, liquid, and gaseous components in soils; plant-soil-water relationships; biological interactions with soil; classification of soils; and the distribution of soils on the landscape. Not open to students who have taken GEOG 535 or EVRN 535. (Same as GEOG 335.) Prerequisite: GEOG 104 or GEOL 101 or consent of instructor; BIOL 100 and CHEM 130 or CHEM 190 recommended. LEC.

**EV RN 336. Ethics, Ideas and Nature. 3 Hours. H.** This course examines the ethical frameworks developed for thinking about, using, and protecting the natural world. Examples of topics include indigenous approaches to nature, the history of ecological ideas, environmental movements, the role of the state in managing resources, utilitarianism and progressivism, environmental lawmaking, wilderness advocacy, nature and theology, the rights of nature, and environmental justice. Students are introduced to the theories of duty ethics, justice ethics, utilitarianism, and rights ethics, and required to apply ethical reasoning to contemporary and historical environmental issues. Multiple perspectives on the history of human interactions with nature demonstrate the importance of reflecting upon the value systems inherent in human-centered environmental ethics and nature-centered environmental ethics. (Same as HIST 336.) LEC.

**EV RN 338. Permaculture Design. 6 Hours. N.** Students learn how a local, sustainable design system known as permaculture design creates an ecologically sound and economically viable way of living. The course consists of lecture, field, and permaculture sessions. Lecture topics include food security, permaculture ethics, ecological principles, system design, sustainable soils, food production, food forests, earth works, and construction of human habitats. LEC.

**EV RN 347. Environmental History of North America. 3 Hours. H.** A survey of changes in the landscape and in people's perceptions of the natural world from 1500 to present. Topics include agroecology, water and energy, the impact of capitalism, industrialism, urbanization, and such technologies as the automobile and the origins of conservation. (Same as HIST 347.) LEC.

**EV RN 371. Environmental Geopolitics. 3 Hours. S.** This course examines how human relationships with the biophysical world are politicized. Examines key contributions to debates surrounding environmental security, resource conflicts, and related issues, as well as geopolitical assumptions on which these debates build. (Same as GEOG 371.) LEC.

**EV RN 385. Environmental Sociology. 3 Hours. S.** This course invites students to study society and its impact on the environment. Environmental problems are social problems. This course will address such items as social paradigms, theories, inequalities, movements, and research. (Same as SOC 385.) LEC.

**EV RN 410. Geospatial Analysis. 3 Hours. N.** Focuses on applications of geospatial technologies to environmental issues using case study examples and data, and provide students with a foundational skill-set in geographic information systems, remote sensing, and GPS techniques. Prerequisite: EVRN/GEOG 148/149; EVRN/HIST 103, EVRN/GEOG 150 or EVRN/HIST 347. LEC.

**EV RN 420. Topics in Environmental Studies: ______. 1-6 Hours. N.** Courses on special topics in Environmental Science and/or Policy. These courses may be lecture, discussions, or readings. Students may enroll in more than one interest group but may enroll in a given interest group only once. LEC.

**EV RN 425. Global Water Scarcity. 3 Hours. S.** Though natural factors are introduced, this course focuses primarily on the human factors that contribute to global water scarcity. This course also discusses the consequences of water scarcity and its effects on society. Prerequisite: EVRN 148 or permission of instructor. LEC.
EVRN 433. Biogeography Field and Laboratory Techniques. 3 Hours. N.
This course provides undergraduate students with practical experience in field data collection techniques and laboratory data analysis methods. During the first half of the semester, students work in the field using a variety of methods to measure such vegetation characteristics as: cover, density, biomass, leaf area, and canopy architecture. Students gain experience in the use of field instruments including a spectroradiometer, and techniques for quantifying biophysical attributes of vegetation. During the later part of the course, students learn to summarize their field data and examine relationships between the vegetation attributes and measurements made using remote sensing instruments. Recommended: GEOG 316 or an introductory statistics equivalent. (Same as GEOG 433.) FLD.

EVRN 460. Field Ecology. 3 Hours. N.
Provides practical experience in the characterization of a diversity of ecosystem types; lakes, streams, forests, and prairies. This course is writing intensive, and designed for Environmental Studies majors. Prerequisite: EVRN/GEOG 148/149; EVRN/HIST 103, EVRN/HIST 347 or EVRN/GEOG 150; Senior standing. Restricted to declared Environmental Studies majors. FLD.

EVRN 490. Internship in Environmental Studies. 1-8 Hours. AE61 / N.
Supervised practical experience in a specific environmental area of interest. The advisor will schedule regular meetings to evaluate progress and provide assistance. A written summary of the internship experience and evaluation will be prepared independently by the student, a representative of the cooperating agency, and the advisor. Total credit may not exceed 8 hours. Prerequisite: Junior standing and consent of program director. Restricted to declared Environmental Studies majors. Restricted to students with a 2.5 overall GPA or above. FLD.

EVRN 510. Advanced Environmental Applications in Geospatial Techniques. 3 Hours. H/N.
This course focuses on applying advanced geospatial mapping and analysis techniques to "real-world" environmental issues. Course content may include lecture/lab time on advanced geospatial topics; a major class project, small-group projects, or individual projects; or half-semester internships with state agencies or campus entities that will culminate in an individual project. The specific nature of projects will be driven largely by student interest and ability, as well as agency-center needs. Prerequisite: EVRN 410 or equivalent course; or permission of the instructor. LEC.

EVRN 519. Sociology of Global Food. 5 Hours. U.
The Sociology of Global Food offers a critical examination of the global food system since the Industrial Revolution. Topics include the industrialization of agriculture, sustainable agriculture, and the role of food and agriculture in organizing society. This course discusses the emergence of current debates around food and agriculture including food activism, technological developments, human/environment relationships, and labor issues. There is a lab component to this course. (Same as SOC 519.) Prerequisite: Junior standing. LEC.

EVRN 526. Remote Sensing of the Environment I. 4 Hours. N.
Introduction to study of the environment through air photos and satellite imagery, including principles of remote sensing, interactions of electromagnetic energy with the atmosphere and earth's surface, aerial photography, satellite systems, and sensors (electro-optical, thermal, and radar). Emphasis in the latter part of the course is on such applications as global monitoring, land cover mapping, forestry, agriculture, and oceanography. Laboratory emphasizes visual interpretation of aerial photography and satellite imagery and an introduction to digital image processing in the department's NASA Earth Science Remote Sensing Laboratory. (Same as GEOG 526.) Prerequisite: MATH 101 or equivalent. GEOG 358 recommended. LEC.

EVRN 528. Environmental Justice and Public Policy. 3 Hours. S.
This course provides an overview of environmental justice, both as a social movement and as a public policy initiative. Environmental justice examines the distribution of environmental externalities across different socio-economic and racial groups. We will discuss several different public policy areas that have been impacted by the environmental justice movement: hazardous waste facility siting, urban redevelopment and Brownfields, transportation policy, and Native American sovereignty. We will also touch upon international environmental policy in an environmental justice context. Throughout the course we will evaluate empirical issues in studying environmental justice. (Same as POLS 528.) Prerequisite: POLS 306, or a statistics class, or consent of instructor. LEC.

EVRN 535. Soil Geography. 5 Hours. N.
A broad study of the principles and properties of soils and their distribution on the landscape. Topics covered include: pedology, clay mineralogy, soil physics, soil chemistry, management of soils, soil biology, taxonomy, and soil geomorphology. Laboratory section and a field project are required. Not open to students who have taken GEOG 335 or EVRN 335. (Same as GEOG 535.) Prerequisite: GEOG 104 or GEOL 101 or consent of the instructor; BIOL 100 and CHEM 130 or CHEM 190 recommended. LEC.

EVRN 538. Soil Chemistry. 3 Hours. N.
This course examines the chemical properties and processes of soils and methods of evaluation. Topics include solubility, mineral solubility, soil colloidal behavior, ion exchange, surface complexation, soil salinity and sodicity, soil acidity, oxidation-reduction reactions, and kinetics of soil chemical processes. (Same as GEOG 538.) Prerequisite: GEOG 335 or GEOG 535 or EVRN 335 or EVRN 535, CHEM 135 or CHEM 195, MATH 121, PHYS 114, or consent of the instructor. LEC.

EVRN 542. Ethnobotany. 3 Hours. S.
Course will involve lectures and discussion of Ethnobotany - the mutual relationship between plants and traditional people. Research from both the field of anthropology and botany will be incorporated in this course to study the cultural significance of plant materials. The course has 7 main areas of focus: 1) Methods in Ethnobotanical Study; 2) Traditional Botanical Knowledge - knowledge systems, ethnolinguistics; 3) Edible and Medicinal Plants of North America (focus on North American Indians); 4) Traditional Phytochemistry - how traditional people made use of chemical substances; 5) Understanding Traditional Plant Use and Management; 6) Applied Ethnobotany; 7) Ethnobotany in Sustainable Development (focus on medicinal plant exploration by pharmaceutical companies in Latin America). (Same as ANTH 582.) Prerequisite: ANTH 104, ANTH 382, GEOG 335, GEOG 358 recommended. LEC.

EVRN 550. Environmental Economics. 3 Hours. U.
This course provides an overview of the theory and empirical practice of economic analysis as it applies to environmental issues. Topics include externalities (a type of market failure), the valuation of nonmarket goods, the practice of benefit-cost analysis, and the efficiency and cost effectiveness of pollution control policies. Most importantly, the course permits students to perform economic field research, using state-of-the-art techniques in a manner accessible to undergraduate students. (Same as ECON 550.) Prerequisite: ECON 104, ECON 140, or ECON 142. LEC.

EVRN 553. Comparative Environmental Politics. 3 Hours. S.
This course compares environmental politics and policies across a number of countries, including those in North America, Western Europe, East Asia, and Latin America. (Same as POLS 553.) LEC.
EVRN 562. United States Environmental History in the 20th Century. 3 Hours. H.
Americans dramatically changed the natural world between 1900 and 2000. This course asks how transformed environments shaped the American experience during a century of technological innovation, democratic renewal, economic expansion, global conflict, and cultural pluralism. Topics include food and markets, energy and transportation, law and politics, protest and resistance, suburbanization, and environmentalism’s fate in a global information era. (Same as HIST 562.) LEC.

EVRN 563. U.S. Environmental Thought in the 20th Century. 3 Hours. H.
Explores both leading and dissident ideas that Americans have had about the natural world since 1900. Broad chronological periods are explored in some depth, including the Progressive Era, New Deal, Cold War, the Sixties, and the Reagan Eighties. The course uses articles and books, as well as visual and aural forms of communication. Commercial speech, as well as scholarly and literary works, are considered. (Same as HIST 563.) Prerequisite: EVRN 148 or HIST 129, or by permission of instructor. LEC.

EVRN 611. Water Quality, Land Use, and Watershed Ecosystems. 3 Hours. N.
Water quality issues are integrated with land use planning and the development of watershed management strategies. Interrelationships among the hydrologic cycle, atmospheric deposition, nutrient transformations and pesticide use are examined in regards to stream, lake, and groundwater quality. Prerequisite: CHEM 110 or CHEM 130 and BIOL 414, or consent of instructor. LEC.

EVRN 615. Capstone Project. 3 Hours. AE61 / N.
The capstone project provides students with a broad-based, interdisciplinary educational experience and allows them to integrate and synthesize the knowledge they have gained in their environmental studies major. It rejoins the cohort that has separately pursued the BA/BGS and BS tracks and places them in situations in which they address real world environmental issues with a team approach and produce professionally meaningful analytical reports. Prerequisite: Junior standing; EVRN 320, EVRN 332, and EVRN 460. Restricted to declared Environmental Studies majors. LEC.

EVRN 616. Environmental Impact Assessment. 3 Hours. N.
This course provides an overview of environmental laws and regulations. Additional focus is given to the process described in the National Environmental Policy Act (NEPA). Students will learn when NEPA is triggered, the difference between Environmental Impact Statements (EIS) and Environmental Assessments (EIA), and how to write an EIS/EIA. Prerequisite: An introductory course in environmental law, or consent of instructor. LEC.

EVRN 620. Environmental Politics and Policy. 3 Hours. S.
Analysis of environmental politics and the formulation and implementation of environmental policy. Examines the history and development of environmental politics as well as current trends. Themes include interest groups, business interests, political institutions, and specific environmental policy issues. (Same as POLS 624.) LEC.

EVRN 624. Independent Study. 1-9 Hours. AE61 / N.
A research course, in any of the fields of environmental studies, consisting of either experimental research, original policy analysis, or the preparation of an extensive paper based on library investigation. Project topic to be agreed upon in advance with supervising faculty member. Prerequisite: Consent of instructor. IND.

EVRN 625. Honors Research in Environmental Studies. 3 Hours. AE61 / N.
A course giving eligible majors the opportunity to earn Departmental Honors by engaging in an intensive program of study leading to an original piece of research. Prerequisite: Senior standing, approval of the Environmental Studies Program, the Honors Project Director, and an overall 3.25 cumulative grade point average during the semester of enrollment. Restricted to declared Environmental Studies majors. IND.

EVRN 628. The Politics of Public Health. 3 Hours. S.
This course examines the social, institutional and political context of public health policy in the United States. We will examine factors that shape the nation’s public health, explore the role of government in reducing risk and promoting well being, and analyze the major institutions responsible for monitoring, protecting and promoting general public health. Themes include the social determinants of health, health disparities, emerging infectious diseases, food safety, transportation, and environmental health. (Same as POLS 628.) Prerequisite: POLS 110 and POLS 306 are recommended. LEC.

EVRN 635. Soil Physics. 3 Hours. N.
Provides theoretical and practical foundations for understanding physical properties and processes of variably-saturated porous media. Focus is on the transport, retention, and transformation of water, heat, gas, and solutes through the soil. We examine modern vadose zone measurement methods, analytical tools, and numerical models for data collection and interpretation. (Same as GEOL 335.) Prerequisite: GEOL 335 or EVRN 335; or GEOG 535 or EVRN 535, and MATH 121, PHYS 114; or consent of instructor. LEC.

EVRN 656. Ecosystem Ecology. 3 Hours. N.
An introduction to the patterns and processes that affect terrestrial ecosystems. Emphasis is placed on understanding nutrient cycles (e.g., carbon nitrogen phosphorous), hydrologic cycles, and patterns of net primary productivity. The role of both natural and anthropogenic disturbances in structuring terrestrial ecosystems is examined in the context of global land-use patterns. Discussion of current research literature will be expected. (Same as BIOL 656.) Prerequisite: BIOL 414 and CHEM 130. LEC.

EVRN 700. Colloquium. 1 Hour.
Topics of current interest in environmental studies. May be repeated for credit for different topics. LEC.

EVRN 701. Climate Change, Ecological Change and Social Change. 3 Hours.
This interdisciplinary graduate seminar examines the history of climate change from natural and physical science, social science, and humanities perspectives. The class explores the ways that different disciplines approach understanding climate change and its impact on natural and human systems and how these understandings have changed over time. The course is team-taught by faculty from the natural and physical sciences, social sciences, humanities, and professional schools, and will include faculty guest speakers from KU and off-campus. Students will write a research paper on a climate change topic of their choice that reflects the historical and interdisciplinary approaches of the seminar. A goal of the seminar is to assemble student papers for presentation and possible publication. Prerequisite: Consent of instructor. LEC.

EVRN 702. Energy, Ecology and Community in Kansas. 3 Hours.
This interdisciplinary graduate seminar examines the role of climate in shaping energy, ecology, and community in Kansas from natural and physical science, social science, and/or humanities perspectives. The class will combine lectures, group projects, and field research to understand the ways that climate change and energy production are reshaping the human and natural systems in Kansas and the Great
Plains. The course is team-taught by faculty from the natural and physical science, social science, humanities and professional schools, and will include faculty guest speakers from KU and off-campus. LEC.

**EVRN 720. Topics in Environmental Studies: _____, 1-6 Hours.**
Courses on special topics in Environmental Studies. These courses may be lecture, seminars, or readings. Students may enroll in more than one interest group but may enroll in a given interest group only once. LEC.

**EVRN 730. Environmental Toxicology. 3 Hours.**
Examines the effects of toxic chemicals on individuals, populations, communities and ecosystems. Topics include major classes of pollutants, movement, distribution and fate of pollutants in the environment, mechanisms of action, toxicity testing, and environmental assessment. LEC.

**EVRN 745. Environmental Data Analysis and Statistics. 3 Hours.**
Survey of common statistical methods for analyzing environmental data. Includes techniques for environmental monitoring, impact assessment, and site reclamation, as well as methods for handling censored data, time series, and spatial analysis. Sampling design, data interpretation, and presentation of statistical results will be emphasized. Prior coursework or practical experience in statistics is expected. Prerequisite: Permission of instructor. LEC.

**EVRN 815. Professional Science Masters Capstone. 3 Hours.**
A culminating experience to develop a workforce project, producing a written report and presented orally to a committee that includes an industry member. Students will develop an applied workforce project in the student’s place of employment for full time employees or an internship for full time students. The students will document their project in a written report and present their project to the Environmental Studies faculty (2), and the student’s employer or representative if practical. LEC.

**EVRN 915. Capstone. 3 Hours.**
The goal of this research seminar is to discuss individual students’ research, culminating in the completion of a paper in Environmental Studies for presentation at a professional meeting and/or publication in a professional journal. SEM.

### Bachelor of Arts and Bachelor of General Studies in Environmental Studies

#### Why study environmental studies?

The KU Environmental Studies Program provides a rigorous interdisciplinary education and stimulates exchange concerning the environment from natural science, social science, and humanities perspectives.

### Requirements for the B.A. or B.G.S. Major

**Environmental Studies Introduction to Science and Culture (16-18)**

Majors must complete both of the following:

- Global Environment I: The Discovery of Environmental Change. Satisfied by:
  - EVRN 140 Global Environment I: The Discovery of Environmental Change
  - or EVRN 144 Global Environment I: Discovery of Environmental Change, Honors

**Global Environment II: The Ecology of Civilization. Satisfied by:**

- EVRN 142 Global Environment II: The Ecology of Human Civilization
- or EVRN 145 Global Environment II: The Ecology of Human Civilization, Honors

**Research Methods. Satisfied by one of the following:**

- UBPL 538 Environmental Planning Techniques
- ECON/EVRN 550 Environmental Economics
- EVRN/GEOG 433 Biogeography Field and Laboratory Techniques
- EVRN 410 Geospatial Analysis
- EVRN 510 Advanced Environmental Applications in Geospatial Techniques
- GEOL 351 Environmental Geology
- GEOG 510 Human Factors

**Statistics. Satisfied by one of the following:**

- MATH 365 Elementary Statistics
- GEOG 316 Methods of Analyzing Geographical Data
- BIOL 570 Introduction to Biostatistics

**Environmental Studies Core Knowledge and Skills (12)**

Majors must complete a course in each of the following areas:

- Environmental Policy Analysis. Satisfied by:
  - EVRN 320 Environmental Policy Analysis 3
- Environmental Law. Satisfied by:
  - EVRN 332 Environmental Law 3
- Field Ecology. Satisfied by:
  - EVRN 460 Field Ecology 3
- Capstone Experience. Satisfied by:
  - EVRN 615 Capstone Project 3

**Environmental Studies Required Electives/Options (0)**

Majors must select an option or design their own. Self-designed emphases must be approved in their entirety by an environmental studies advisor and the undergraduate studies director before implementation. Each option requires 4 courses at the 300+ level.

### Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 40 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**

Satisfied by a minimum of 30 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**

Satisfied by a minimum of 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/ Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).
Graduation Plan
With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please work with your major advisor to discuss a 4-year plan in environmental studies.

Departmental Honors
To graduate with honors in environmental studies, an undergraduate must maintain a minimum overall grade-point average of 3.25 and 3.5 in the major. The student must also complete an individual honors research project in cooperation with a faculty mentor. This project normally represents 2 semesters of original work, the completion of 3 credit hours of EVRN 624 Independent Study, and 3 credit hours of EVRN 625 Honors Research in Environmental Studies. All 6 hours may be applied to the 12 hours of environmental studies electives required for the major. Upon completion of the research project, honors candidates are required to present the results of their work at the department’s Undergraduate Research Colloquium.

Bachelor of Science in Environmental Studies

Why study environmental studies?
The KU Environmental Studies Program provides a rigorous interdisciplinary education and stimulates exchange concerning the environment from natural science, social science, and humanities perspectives.

Requirements for the B.S. Degree

General Education Requirements
In addition to degree and major requirements, all students must complete the KU Core.

Environmental Studies Prerequisite or Co-requisite Knowledge
Mathematics (0)
Majors must complete the following:
- Calculus. Satisfied by one of the following:
  - MATH 115 Calculus I
  - MATH 116 and Calculus II
  - MATH 121 Calculus I
- Statistics. Satisfied by one of the following:
  - MATH 365 Elementary Statistics
GEOG 316 Methods of Analyzing Geographical Data
BIOL 570 Introduction to Biostatistics
Supporting Laboratory Science (0)
Majors must complete one of the following:
- Principles of Physical Geography and Intro Lab to in Physical Geography. Satisfied by:
  - GEOG 104 Principles of Physical Geography
  - GEOG 105 and Introductory Laboratory in Physical Geography
- Introduction to Geology. Honors and Geological Fundamentals Laboratory. Satisfied by:

Geology (0)
Introductions to Geology and Geological Fundamentals Laboratory. Satisfied by:
- GEOL 102 The Way The Earth Works, Honors
  - GEOL 103 and Geology Fundamentals Laboratory

Biochemistry and Biotechnology (0)
Majors must complete the following:
- Principles of Molecular and Cellular Biology. Satisfied by:
  - BIOL 150 Principles of Molecular and Cellular Biology
  - BIOL 151 Principles of Molecular and Cellular Biology, Honors
- Principles of Organismal Biology. Satisfied by:
  - BIOL 152 Principles of Organismal Biology
  - BIOL 153 Principles of Organismal Biology, Honors
- Principles of Ecology. Satisfied by:
  - BIOL 414 Principles of Ecology

Environmental Studies Core Requirements
Environmental Studies Introduction to Science and Culture (10)
Majors must complete both of the following:
- Global Environment I: The Discovery of Environmental Change. Satisfied by one of the following:
  - EVRN 140 Global Environment I: The Discovery of Environmental Change
  - EVRN 144 Global Environment I: Discovery of Environmental Change, Honors
- Global Environment II: The Ecology of Civilization. Satisfied by one of the following:
  - EVRN 142 Global Environment II: The Ecology of Human Civilization
  - EVRN 145 Global Environment II: The Ecology of Human Civilization, Honors

Environmental Studies Core Knowledge and Skills (12)
Majors must complete a course in each of the following areas:
- Environmental Policy Analysis. Satisfied by:
  - EVRN 320 Environmental Policy Analysis
  - EVRN 332 Environmental Law
- Field Ecology. Satisfied by:
  - EVRN 460 Field Ecology
- Capstone Experience. Satisfied by:
  - EVRN 615 Capstone Project
Environmental Studies Required Electives/Options (0)
Majors must select an option or design their own. Self-designed emphases must be approved in their entirety by an environmental studies advisor and the undergraduate studies director before implementation. Each option requires 4 courses at the 300+ level.

Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 32 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior Hours
Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Departmental Honors
To graduate with honors in environmental studies, an undergraduate must maintain a minimum overall grade-point average of 3.25 and 3.5 in the major. The student must also complete an individual honors research project in cooperation with a faculty mentor. This project normally represents 2 semesters of original work, the completion of 3 credit hours of EVRN 624 Independent Study, and 3 credit hours of EVRN 625 Honors Research in Environmental Studies. All 6 hours may be applied to the 12 hours of environmental studies electives required for the major. Upon completion of the research project, honors candidates are required to present the results of their work at the department’s Undergraduate Research Colloquium.

Minor in Environmental Studies
Why study environmental studies?
The KU Environmental Studies Program provides a rigorous interdisciplinary education and stimulates exchange concerning the environment from natural science, social science, and humanities perspectives.

Requirements for the Minor
Environmental Studies Minor Core (15-20)
Principals of Environmental Studies. Satisfied by 1 of the following options:

Global Environment I. Satisfied by one of the following:

Environmental Studies elective at the Junior/Senior Level. Satisfied by 1 additional EVRN course at the Junior/Senior Level (300+).

Minor Hours & Minor GPA
While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

Minor Hours
Satisfied by 18 hours of major courses.

Minor Hours in Residence
Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the major.

**Minor Junior/Senior Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

**Minor Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator [http://clas.ku.edu/undergrad/tools/gpa].

**Professional Science Masters in Environmental Assessment**

The Professional Science Masters professional graduate degree is designed for graduates of bachelor’s programs in physical/natural sciences, environmental studies, civil/environmental engineering or related fields who are currently employed in private firms, public agencies, and not-for-profit organizations that address a range of environmental issues. Key foci in the science curriculum of this program are environmental impact assessment; soils, water, and ecosystems science; geospatial analysis; environmental health and policy; and an understanding of environmental law and policy and the regulatory environment.

The Professional Science Master’s (PSM) is a relatively new interdisciplinary graduate degree that combines advanced coursework in science with a set of professional skills courses (project management, technical writing/communications, financial management), and a capstone/internship experience.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Entering students are expected to have a B.S. degree in geography or in related physical science, earth science, mathematics, or engineering disciplines. Applicants should have a minimum Grade Point Average (GPA) of 3.0 on a 4.0 scale. Applicants with a GPA of less than 3.0 may be considered for admission on a probationary or provisional status. Entering students will be expected to have studied quantitative methods. Graduate Record Examination scores (verbal, quantitative and analytical) are required of all applicants.

The admissions requirements for the Professional Science Masters with a concentration in Environmental Assessment are as follows:

1. A 3.0 or higher grade point average (on a 4.0 scale)
2. GRE scores on the verbal and quantitative sections
3. Bachelor’s degree from an accredited institution
4. Submission of a letter of interest and at least two letters of recommendation
5. The student must have an undergraduate background of at least 20 semester hours in the natural and applied sciences
6. International students must also meet the English proficiency, visa/I20, and financial support requirements

All PSMs must include a core of business, communication, and project management skills.

**P.S.M. Core (12)**
- PMGT 824 Project Cost Estimation, Analysis, and Control 3
- ENTR 701 Starting Your Own Business 3
- COMS 730 Writing and Speaking for Decision Makers 3
- Accounting Course (selected in consultation with Graduate Advisor) 3

**Concentration (12)**
- EVRN 538 Soil Chemistry 3
- EVRN 611 Water Quality, Land Use, and Watershed Ecosystems 3
- EVRN 616 Environmental Impact Assessment 3
- EVRN 620 Environmental Politics and Policy 3

**Related Electives (6)**
Choose 2 courses
- EVRN 510 Advanced Environmental Applications in Geospatial Techniques
- EVRN 535 Soil Geography
- EVRN 656 Ecosystem Ecology
- EVRN 730 Environmental Toxicology
- EVRN 745 Environmental Data Analysis and Statistics

**Capstone (3)**
- EVRN 815 Professional Science Masters Capstone 3

Total Hours 33

1 Elective courses will be determined by advisor and student

**European Studies Program**

**Why study European studies?**

Because European studies broaden, deepen, and strengthen through interdisciplinary study a student’s knowledge and understanding of the enduring importance of our transatlantic partners, the Europeans.

**Undergraduate Programs**

The degree in European Studies is available as a co-major in conjunction with a bachelor’s degree major in another academic discipline. Students take advantage of this option by combining the co-major with modern European languages & literatures, History, Philosophy, and Global & International Studies. The co-major also can be combined with a bachelor’s degree in a professional school, such as business or
journalism. The European Studies co-major provides students with a solid foundation in the cultures, politics, languages, and history of Europe in preparation for graduate studies and/or careers in a wide variety of international fields. Studying with KU faculty in the broader disciplines such as social sciences, humanities, the arts, and business will enable students to increase their awareness and understanding of Europe’s past, present, and future and its significant role in our increasingly globalized world. The program offers personalized advising, interdisciplinary flexibility, diverse course offerings, opportunities to conduct research, frequent co-curricular activities, and many options for studying and completing internships abroad.

Courses

**EURS 150. Study Abroad Topics in European Studies: ______. 1-5 Hours. U.**

This course is designed for the study of special topics in European Studies at the 100-level (Freshman/Sophomore level). Coursework must be arranged through the KU Office of Study Abroad and approved by a faculty advisor in European Studies. May be repeated for credit if content varies. LEC.

**EURS 177. First Year Seminar: ______. 3 Hours. GE11 / U.**

A limited-enrollment, seminar course for first-time freshmen, addressing current issues in European Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**EURS 302. European Culture and Society 1945 to Present. 3 Hours. HT AE42 / H.**

The course provides historical, cultural, and political overviews of Europe since 1945 with particular emphasis on the contribution of French and Italian culture and society. The course emphasizes Europe’s contribution to Western intellectual thought, social movements, arts and literature, and global society. (Same as HWC 302.) LEC.

**EURS 329. History of War and Peace. 3 Hours. HL / H.**

A study of the changing nature of warfare and the struggle to bring about peace. Topics include pacifism, the “military revolution” that created the first professional armies; the development of diplomatic immunity, truces, and international law; the peace settlements of Westphalia, Utrecht, Vienna, Versailles, San Francisco; the creation of peace movements and peace prizes; the evolution of total war, civil war; and guerrilla warfare involving civilians in the twentieth century; the history of the League of Nations and United Nations; and the rise of intergovernmental and non-governmental organizations. (Same as HWC 302.) LEC.

**EURS 350. Study Abroad Topics in: ______. 1-5 Hours. H.**

This course is designed for the study of special topics in European Studies at the Junior/Senior level. Coursework must be arranged through the KU Office of Study Abroad and approved by a faculty advisor in European Studies. May be repeated for credit if content varies. LEC.

**EURS 430. European Civilization in World Context: ______. 3 Hours. HL AE42/GE3H / H.**

An introduction to the literature of encounter between European and non-European civilizations, drawing on both Western and non-Western sources. The course may include European interactions with areas such as the Mediterranean Basin, Sub-saharan Africa, South and East Asia, and the Americas. World areas and historical periods chosen for study will vary from semester to semester according to the interest and field of the instructor. Not open to freshmen. (Same as HWC 430.) Prerequisite: HWC 114 or HWC 204 and HWC 115 or HWC 205. LEC.

**EURS 435. Islam in Europe. 3 Hours. AE42 / H.**

Investigation of Muslim migration into Europe and day-to-day interactions of Muslims with other European populations. This is an integrated study of historical, political, religious and economic influences that determine Muslim experience in contemporary European culture. (Same as HWC 435.) LEC.

**EURS 500. Seminar in European Studies. 3 Hours. AE42/AE61 / H.**

Provides an interdisciplinary approach to the study of modern European civilization. By discussing both classic and contemporary, controversial readings each week and writing several papers during the semester, students acquire an understanding of the development of modern European culture and society and Europe’s contemporary problems. Topics for discussions and papers are drawn from the following subjects: the economic and political integration of European states; modernism and anti-modernism in European culture; imperialism, migration, and ethnic and racial division in European society; democracy versus dictatorship; American-European relations; mass culture, urban development, and the welfare state; and contrasts and comparisons between European Cultures—East and West, North and South. Seminar discussions are led by invited European Studies faculty as well as the instructor or instructors. Required of all European Studies majors. Prerequisite: Junior standing or consent of instructor. LEC.

**EURS 501. Senior Thesis in European Studies. 3 Hours. AE61 / H.**

European Studies majors will do research and write a substantial paper on a topic in the culture, economy, history, or politics of Europe. Topics will be approved by the European Studies Committee. Students will work with an advisor chosen from among the European Studies faculty and with the European Studies Coordinator. The majority of the students’ work will be done independently with their advisors, but students will meet with the European Studies Coordinator several times as a class to report on their progress and present their final drafts. Required of all European Studies majors. Prerequisite: Completion of EURS 500 and 15 hours toward the Co-Major. IND.

**EURS 502. Senior Honors Thesis in European Studies. 3 Hours. AE61 / H.**

Open to European Studies majors doing their senior thesis for Honors. Prerequisite: Completion of EURS 500, 15 hours toward the Co-Major, and approval of Honors thesis by European Studies Committee. Completion of or concurrent enrollment in EURS 501. IND.

**EURS 503. Europe Today. 3 Hours. S.**

This intensive, interdisciplinary seminar focuses on current social, political, and economic changes in Europe. Topics include European integration and the European Union, the conflict between nationalism and European consciousness, NATO and U.S.-European relations, and international business in Europe. The seminar will include guest lectures from an international array of scholars, political officials, and business representatives, as well as site visits to their institutions and companies. The seminar takes place in Brussels, Belgium, and enrollment is restricted to students accepted in the KU Summer Institute for European Studies study abroad program. LEC.

**EURS 505. Studies in Exile Literature. 3 Hours. H.**

A multidisciplinary study of selected literary, scholarly, and creative works produced by those Europeans forced into exile, emphasizing their impact on culture and society both in Europe and in those countries in which the exiles resided. Examples: exile during the Nazi dictatorship in Germany (1933-1945), during Cold War crises (Berlin 1960, Prague 1968). LEC.

**EURS 506. Culture and Politics of the Cold War in Western Europe. 3 Hours. H.**

An interdisciplinary overview of the Cold War period (1945-1985) focusing on Western European dimensions of the problem, based on the view that
the Cold War structured political institutions, cultures, and societies in enduring ways that continue to be relevant today. LEC.

EURS 507. Research in European Collections. 1-3 Hours. H.
This course allows students in the European Studies Co-Major and related disciplines to receive credit for research related to European Collections in one or more of the following institutions: Watson and Spencer Research Libraries, the Dole Institute, the Eisenhower and Truman Presidential Libraries, the U.S. Army Combined Arms Research and Foreign Military Studies Office at Fort Leavenworth, the Linda Hall Library in Kansas City, and the Winston Churchill Collection at the Westminster College Library in Fulton, Missouri. May be taken in place of EURS 501 by European Studies Honors Students if taken for three credit hours. Permission of instructor necessary. IND.

EURS 508. Politics and Economics of Cultural Production in Western Europe. 3 Hours. H.
Artists and intellectuals in their relation to state and society. This course is designed to introduce students (1) to the role European artists and intellectuals have often played in the arena of politics and (2) to the privileged place cultural production (arts, literature, media) occupies in the formation of various European identities and economies. LEC.

EURS 509. Introduction to the Study of Southern European Societies. 3 Hours. H.
Social, historical, and economic study of Southern European societies with emphasis on modern period. Relevant to the study of European integration and EU enlargement. Consideration of the distinctive southern Mediterranean societies from the perspective of their collective identity as a regional economic and geopolitical bloc. LEC.

EURS 510. Scandinavian Life and Civilization. 3 Hours. H.
This course is designed to impart a general knowledge of life in Denmark, Finland, Iceland, Norway, and Sweden with emphasis on social and cultural conditions, against a geographical and historical background, from the Viking Age to the present. Slides and other illustrated materials. (Same as SCAN 570.) LEC.

EURS 511. Topics in European Studies: ______. 3 Hours. H.
A study of significant themes, movements, or problems in European history, literature, politics, society, or culture. May also relate European issues to issues in other world areas (Africa, North America, Asia, etc.) May be repeated for credit when topic varies. LEC.

EURS 512. Irish Literature and Culture: ______. 3 Hours. H.
Study of topics in Irish literature and culture. Topics may focus on a particular genre, theme, historical period, or group of authors. May be repeated for credit as the topic changes. (Same as ENGL 530.) Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

EURS 536. Economic Issues of the European Union. 3 Hours. S.
A survey of the economies of the European Union, with a focus on the economic development of the member states since World War II, and an examination of the various economic issues confronting them today. (Same as ECON 536) Prerequisite: ECON 104 or ECON 144. LEC.

EURS 550. Classics of Peace Literature. 3 Hours. HL AE51/AE61 / H.
A study of influential proposals for world peace from Erasmus' The Complaint of Peace (1516) to the 1995 Hague Appeal for World Peace. Selected writings by such authors as Erasmus, Hugo Grotius, Jean-Jacques Rousseau, Immanuel Kant, Henry Thoreau, Henri Dunant, Berthe von Suttner, Woodrow Wilson, Mahatma Gandhi, and Martin Luther King, Jr., are considered. (Same as PCS 550.) Prerequisite: HWC 204 or HWC 205. LEC.

EURS 565. The Literature of Human Rights. 3 Hours. H.
Examines in literature, art, and film from about 1800 to the present, both sides of the ongoing debate surrounding the idea that all human persons possess inalienable rights because all persons possess intrinsic value as persons, value independent of race, gender, caste or class, wealth, age, sexual preference, etc. Anti- and pro-rights proponents are paired and studied with equal care. (Same as PCS 565.) LEC.

EURS 580. Directed Study. 1-3 Hours. AE61 / H.
Independent study and directed reading on special topics. Permission of the instructor who will supervise the student’s work is required. LEC.

EURS 581. Discussion Section in French. 1 Hour. U.
The 1 credit hour course represents a foreign language discussion section to be attached to a major 3-credit hour EURS course (example: EURS 500). Foreign language discussion sections are an integral part of the KULAC program envisaged to reinforce foreign language proficiency. LEC.

EURS 582. Discussion Section in German. 1 Hour. U.
The 1 credit hour course represents a foreign language discussion section to be attached to a major 3-credit hour EURS course (example: EURS 500). Foreign language discussion sections are an integral part of the KULAC program envisaged to reinforce foreign language proficiency. LEC.

EURS 583. Discussion Section in Italian. 1 Hour. U.
The 1 credit hour course represents a foreign language discussion section to be attached to a major 3-credit hour EURS course (example: EURS 500). Foreign language discussion sections are an integral part of the KULAC program envisaged to reinforce foreign language proficiency. LEC.

EURS 584. Discussion Section in Spanish. 1 Hour. U.
The 1 credit hour course represents a foreign language discussion section to be attached to a major 3-credit hour EURS course (example: EURS 500). Foreign language discussion sections are an integral part of the KULAC program envisaged to reinforce foreign language proficiency. LEC.

EURS 604. The European Union. 3 Hours. H.
The European Union, the union of 27 European countries, is a culmination of a long history of European unity. The European Union now encompasses population and economic strength rivalling that of the United States. This course examines selected topics in the history of European integration and the political, legal, economic, and social implications of the present European Union as well as its relations with the United States and other regions of the world. LEC.

FARS 110. Elementary Farsi I. 5 Hours. U.
Vocabulary acquisition, pronunciation, grammar, and writing. Course includes reading of simple texts. Five hours of class per week. LEC.

FARS 120. Elementary Farsi II. 5 Hours.
Continuation of FARS 110. Vocabulary acquisition, pronunciation, grammar, and writing. Course includes reading of simple texts. Five hours of class per week. Prerequisite: FARS 110 or departmental permission. LEC.

FARS 210. Intermediate Farsi I. 3 Hours. U.
A continuation of FARS 210. Course emphasizes oral and written work in Farsi. Systematic review of grammar and introduction to reading in cultural texts. Prerequisite: FARS 120 or departmental permission. LEC.

FARS 220. Intermediate Farsi II. 3 Hours. U.
A continuation of FARS 210. Course emphasizes oral and written work in Farsi. Systematic review of grammar and introduction to reading in cultural texts. Prerequisite: FARS 210 or departmental permission. LEC.
FARS 310. Advanced Farsi I. 3 Hours. U.
Enhancement of speaking, comprehension, reading and writing abilities in Farsi. Readings from Farsi literature introduced. Prerequisite: FARS 220 or placement exam that establishes a level of proficiency in Farsi suited to Advanced Farsi I. LEC.

FARS 320. Advanced Farsi II. 3 Hours. U.
Enhancement of speaking, comprehension, reading and writing abilities in Farsi. Readings from Farsi literature introduced. Prerequisite: FARS 310 or placement exam that establishes a level of proficiency in Farsi suited to Advanced Farsi II. LEC.

GIST 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Global International Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

GIST 201. Topics in: ____. 1-3 Hours. U.
An interdisciplinary study of international topics. Designed especially for freshmen and sophomores. May be repeated for credit if content varies. LEC.

GIST 202. Topics in South Asian Studies: ____. 1-3 Hours. U.
An interdisciplinary study of topics related to South Asia. Designed especially for freshmen and sophomores. May be repeated for credit if content varies. LEC.

GIST 203. Topics in Middle Eastern Studies: ____. 1-3 Hours. U.
An interdisciplinary study of topics related to the Middle East. Designed especially for freshmen and sophomores. May be repeated for credit if content varies. LEC.

GIST 250. Introduction to Globalization. 3 Hours. S.
Along with an overview of the origins and historical development of globalization, the course addresses various aspects of the growth of transnational economic, cultural, institutional, and political interconnections, including the implications of rapidly-developing information technology and social media, international security in a transnational world, and the issues related to the movement of goods, people (immigration), images, ideas, and institutional forms across national borders. LEC.

GIST 301. Introduction to Global and International Studies. 3 Hours. S.
This course provides an overview to the major ways and themes involved in the study of world cultures, politics, and societies as applied by disciplines in the social sciences. Topics such as the construction and maintenance of cultures, comparative political systems, global and regional economies, popular culture, gender and the environment will be covered through their manifestations in particular regional and global contexts. LEC.

GIST 350. Study Abroad Topics in: ____. 1-5 Hours. U.
This course is designed for the study of special topics in global and international studies at the junior/senior level. Course work must be arranged through the KU Office of Study Abroad and approved by a faculty adviser in Global and International Studies. May be repeated for credit if content varies. LEC.

GIST 424. Nationalism(s) in Turkey. 3 Hours. S.
This course analyzes the major variations in nationalist paradigms existing in contemporary Turkey, including conservative nationalism, secular nationalism, religious (Islam) nationalism, and Kurdish nationalism. Through the lens of seminal theories on the origins, development, and types of nationalism and the relevant historical background of the Turkish Republic, we explore how these competing visions of “the nation” and “homeland” have changed, fragmented, and manifested themselves in everyday Turkish politics and society. LEC.

GIST 493. Directed Readings. 3 Hours. U.
Individual and supervised readings in a selected area of international studies. Course is repeatable with permission of the program director. LEC.

GIST 495. Global Internship. 3 Hours. U.
Semester-long internship with a business or organization located abroad or that provides a global or international working context for the interning student. A term paper is required. Prerequisite: Consent of instructor. FLD.

GIST 501. Topics in: ____. 1-3 Hours. U.
An interdisciplinary study of international topics. Designed especially for juniors and seniors. May be repeated for credit if content varies. LEC.

GIST 502. Advanced Topics in South Asian Studies: ____. 1-3 Hours. U.
An interdisciplinary study of topics related to South Asia. May be repeated for credit if content varies. Prerequisite depends on specific topic offered. LEC.

GIST 503. Advanced Topics in Middle East Studies: ____. 3 Hours. U.
An interdisciplinary study of topics related to the Middle East. May be repeated for credit if content e depends on specific topic offered. LEC.

GIST 530. Politics and Society in the Contemporary Persianate World. 3 Hours. S.
This course examines the major currents of political developments and their linkages with religion, culture and civil society in Turkey, Iran, Afghanistan, Pakistan and India since the late nineteenth century. During the “pre-modern” period, all these countries formed part of “the Persianate world,” a region that extended from the Iranian plateau to the Balkans, Central Asia and the Indian subcontinent, mostly under the Turkic administrations, and tied together by trade, Islam, and Persian as the lingua franca. The dissemination of modern Western political thought and nationalism during the colonial period led to nation-states and the end of the linguistic domination of Persian in the region. Though each of these nation-states ultimately took a different trajectory, they each were faced with similar challenges that offer the basis for interesting comparisons between them. This course explores the trajectories of these countries in regard to the relations between the state, religion, and politics, various strands of nationalism, pluralism, religious and ethnic minorities, social equality, and democratization. Prerequisite: GIST 301 or POLS 150. LEC.

GIST 535. Literature and Society in the Contemporary Middle East. 3 Hours. H.
This course offers a general introduction to the modern Middle Eastern literatures in English translation. Through analyses of selected short stories and novels from Arabic, Turkish and Persian literature, the students develop an understanding of the issues that shape everyday life in the Contemporary Middle East. The course investigates issues of nation and national identity, war, ethnicity, class, religion, and gender and sexuality. We use a variety of paradigms, namely nationalist, Marxist, feminist, and Islamist, to provide a theoretical framework for discussion of the selected works. No prior knowledge of Arabic, Turkish or Persian language is needed. Prerequisite: GIST 301. LEC.

GIST 610. Interdisciplinary Methods for Global Contexts. 3 Hours. S.
An introduction to a variety of widely-employed quantitative and qualitative research methods in the social sciences and humanities, including methods such as statistical analysis, ethnography, and content analysis. LEC.
GIST 624. Social Movements in the Middle East. 3 Hours. S.
Using the major theories and approaches comparatively applied to social movements around the world, this course critically analyzes historical and existing cases of social movements and "nonmovements" in the Middle East. We cover examples of Islamism (and post-Islamist), women's, nationalist, democratic, youth and labor movements and their impact on the region. Contextual factors like technology and social networking, regime type, institutions, and socioeconomic structures are also considered for their role in supporting or inhibiting collective action. Prerequisite: GIST 301 or POLS 150. LEC.

GIST 684. International Law: The State and the Individual. 3 Hours. S.
International law has assumed an increasingly significant role in international life. This course examines major issues in international law including (but not limited to): the changing status and role of the state; rights of minorities and self-determination; the environment; and human rights. The course examines the central questions and the relevant international legal principles associated with each issue. Prerequisite: POLS 170. LEC.

GIST 685. International Law: Laws of Armed Conflict. 3 Hours. S.
This course examines the principles, roles, and functions of international law in the conduct of war. As the course reviews the development and application of the basic rules of armed conflict, several current issues and conflicts are addressed including: the legitimate use of force; the proper definitions of combatants and civilians; actions that constitute war crimes, the legality of new weapons technology, and, if the laws of armed conflict apply to the current "war on terrorism." Prerequisite: POLS 170. LEC.

GIST 698. Capstone Seminar. 3 Hours. AE61 / H.
A seminar designed to introduce students to the theory and practice of global and international studies. A research paper will be required. May not be repeated for credit. Prerequisite: 12 hours of junior/senior level and above courses that satisfy requirements for the major. LEC.

GIST 699. Capstone Seminar, Honors. 3 Hours. AE61 / H.
A seminar designed to introduce honors students to the theory and practice of global and international studies. A research paper will be required. May not be repeated for credit. Prerequisite: 12 hours of junior/senior level and above courses that satisfy requirements for the major. LEC.

GIST 701. Approaches to International Studies. 3 Hours.
This course examines various approaches to the study of cultures, politics, and societies in their global and international contexts through the exploration of a series of exemplary works of global/international research from a variety of disciplines (eg. anthropology, sociology, political science, economics, geography, history, etc.). The course will cover the major contributions of these disciplines in their approaches to global questions and themes and will provide a multi-disciplinary framework within which students can begin exploring their own global and international research questions. The course also provides an introduction to the major regions and many of the themes that students will be able to specialize in during the course of the MA program. LEC.

GIST 702. Globalization. 3 Hours.
A central issue in international studies is globalization, the increasing interconnectedness of societies and economies. This course examines globalization from an historical and contemporary perspective. Major topics include (but are not necessarily limited to) the historical expansion of the West since 1500, the growth of international economic institutions, conflict among global cultures, the future of state sovereignty, and the challenges of economic integration. LEC.

GIST 703. The World Economy. 3 Hours.
An introduction to international trade and finance, theories of economic development, and international economic structures. Not appropriate for economics majors. LEC.

GIST 704. Global Cultures and Societies. 3 Hours.
Examination of the components of culture, economic and political anthropology, major global cultural areas, and the impact of cultural differences as expressed through language, literature, religion, thought, and motivation in cross-cultural communications. LEC.

GIST 705. Globalization in History. 3 Hours.
A study of the increasing interaction among world societies since 1500 and an investigation of the long-term developments behind current world problems. Major topics include Western expansion since 1500, the spread of state sovereignty, the formation of a world economy, and the spread of international institutions. Current issues will vary, but may include environmental crises, human rights, migration, free trade and the spread of consumer culture, ethnicity and nationalism, and international intervention within states. (Same as HIS 705.) LEC.

GIST 706. Comparative Governments. 3 Hours.
Survey of different governmental structures in the contemporary world and the ways these countries have confronted issues such as modernization and development, economic security, ethnic pluralism and conflict, and globalization. LEC.

GIST 710. Interdisciplinary Research Methods for Global Contexts. 3 Hours.
This course addresses the challenges for students engaged in research in an interdisciplinary and international context. The course will take issues for research and place them within the structure of a research design process, including formulation of a general question, the appropriation of theory, the grounding of a literature review, and the posing of a testable research question and/or hypothesis. Students will also be exposed to research methodologies and how these manifest themselves through the logic of the disciplines—such as anthropology, sociology, geography, political science, history and literature. With a final thesis project design in mind, students will be expected to be expected to be able to utilize the research tools of accessing secondary analytical data, archival research, SPSS, ArcView and methods such as survey construction, implementation, and analysis, interviews, content analysis, dicourse analysis, case study, and GIS. Prerequisite: GIST 701 or consent of instructor. LEC.

GIST 750. Topics in International Studies: ______. 3 Hours.
A study of one or more selected topics in international studies. Course may be taken more than once. LEC.

GIST 793. Directed Readings. 1-5 Hours.
Individual and supervised readings in a selected area of international studies. Course is repeatable with permission of the program director. LEC.

GIST 888. Contemporary China Studies. 3 Hours.
This course will review and analyze the current literature on China's social and political development, including a wide range of topics within political science. There is a rich body of literature within each topic such as civil society in China, legal reform, political culture, nationalism, gender issues, ethnicity, political behavior, elections, economic development, and inequality. This course will introduce key literature within each topic focusing on the debates among China scholars as well as how these debates fit in the general field of political science. (Same as EALC 888 and POLS 888.) Prerequisite: POLS 668 or permission of the instructor. LEC.
GIST 897. Examination Preparation. 1 Hour.
Independent study in preparation for the Comprehensive M.A. examination. Graded on satisfactory/unsatisfactory basis. May be repeated. LEC.

GIST 898. Thesis Writing. 3 Hours.
This course guides MA students through the crafting of their academic or professional thesis. The students begin the course with a literature review and data/research completed, and they will be directed through in-class workshops and deadlines with the intention to produce a full draft of their thesis. Students may choose to draft a thesis that fits either academic conventions for a similar body of research, or they may develop a body of research whose target would be a business or professional audience. Course is designed to assist students in the development of theses with varying methodologies, methods, and audiences on global and international topics. Prerequisite: GIST 710. THE.

GIST 899. Thesis. 1-6 Hours.
Enrollment for writing thesis for master’s degree. THE.

HEBR 110. Elementary Israeli Hebrew I. 5 Hours. U.
A beginning course in modern Israeli Hebrew. Essentials of grammar, syntax and conversational practice; elementary reading and writing. Note: Students with other previous experience in Hebrew must take a placement exam. LEC.

HEBR 120. Elementary Israeli Hebrew II. 5 Hours. U.
A continuation of HEBR 110. Note Students with other previous experience in Hebrew must take a placement exam. Prerequisite: HEBR 110. LEC.

HEBR 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Hebrew. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

HEBR 210. Intermediate Israeli Hebrew I. 3 Hours. U.
Further development of language skills: listening comprehension, oral efficiency, intermediate grammar and syntax, reading and writing. Note: Students with other previous experience in Hebrew must take a placement exam. Prerequisite: HEBR 120. LEC.

HEBR 220. Intermediate Israeli Hebrew II. 3 Hours. U.
A continuation of HEBR 210. Note: Students with other previous experience in Hebrew must take a placement exam. Prerequisite: HEBR 210. LEC.

HEBR 230. Biblical Hebrew. 3 Hours. U.
This course introduces students to the grammatical structure and vocabulary of biblical Hebrew. It includes basic biblical passages for students to translate into English and analyze. LEC.

HEBR 240. Biblical Hebrew II. 3 Hours. U.
This is a continuation of Hebrew 230. It continues the study of the grammatical structure and vocabulary of biblical Hebrew, and includes biblical texts for students to translate and analyze. Prerequisite: HEBR 230 or permission of the instructor. LEC.

HEBR 340. Advanced Israeli Hebrew I. 3 Hours. U.
Advanced study of Modern Hebrew. This course is designed to strengthen linguistic skills, enrich vocabulary, and further the study of grammar and syntax. Not open to native speakers of Hebrew. Prerequisite: HEBR 220 or permission of the instructor. LEC.

HEBR 350. Advanced Israeli Hebrew II. 3 Hours. U.
Continued advanced study of modern Hebrew. Not open to native speakers of Hebrew. Prerequisite: HEBR 340 or permission of the instructor. LEC.

HEBR 395. Study Abroad Topics in Hebrew: ______. 3-6 Hours. H.
This course is designed for the study abroad of special topics in Hebrew at the junior/senior level. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

HEBR 410. Studies in Modern Hebrew Literature. 3 Hours. H.
An introduction to Hebrew literature from the nineteenth century to the present day. The course emphasizes the development of basic interpretive skills and the understanding of basic literary movements, genres, and concepts. Not open to native speakers of Hebrew. Prerequisite: HEBR 220 or equivalent. LEC.

HEBR 420. Studies in Modern Hebrew. 3 Hours. U.
This course is designed to help students achieve fluency in speaking, listening, and writing Modern Hebrew. Not open to native speakers of Hebrew. Prerequisite: HEBR 220 or equivalent. LEC.

HEBR 490. Independent Study. 1-3 Hours. U.
Intensive reading or research under faculty supervision. Not open to native speakers of Hebrew. Prerequisite: HEBR 220 or equivalent. IND.

HNDI 110. Beginning Hindi I. 5 Hours. U.
An introduction to modern standard Hindi that emphasizes acquisition of basic language skills (speaking, comprehension, reading and writing) through a combination of lecture, drill, and work with the Devanagari script. LEC.

HNDI 120. Beginning Hindi II. 5 Hours. U.
A continuation of Beginning Hindi I that builds on basic skills of speaking and comprehension, and the writing and reading of the Devanagari script developed in Beginning Hindi I. Prerequisite: HNDI 110 or placement exam that establishes a level of proficiency in Hindi suited to Beginning Hindi II. LEC.

HNDI 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Hungarian. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

HNDI 210. Intermediate Hindi I. 3 Hours. U.
Further development of language skills: listening comprehension, oral efficiency, intermediate grammar and syntax, reading and writing. Note: Students with other previous experience in Hindi must take a placement exam. Prerequisite: HNDI 110 or placement exam that establishes a level of proficiency in Hindi suited to Intermediate Hindi I. LEC.

HNDI 220. Intermediate Hindi II. 3 Hours. U.
A continuation of Intermediate Hindi I that builds on basic skills of speaking and comprehension, and the writing and reading of the Devanagari script developed in Intermediate Hindi I. Prerequisite: HNDI 120 or placement exam that establishes a level of proficiency in Hindi suited to Intermediate Hindi II. LEC.

HNDI 301. Topics in Hindi Culture, Language and Literature: ______. 3 Hours. U.
Investigation of special topics on Hindi culture, language and literature at the undergraduate level. May be repeated for credit when topic varies. LEC.

HNDI 310. Advanced Hindi I. 3 Hours. U.
Enhancement of speaking, comprehension, reading and writing abilities in Hindi. Readings are introduced from representative genres of Hindi.
literature. Prerequisite: HNDI 220 or placement exam that establishes a level of proficiency in Hindi suited to Advanced Hindi I. LEC.

**HNDI 320. Advanced Hindi II. 3 Hours. U.**
Enhancement of speaking, comprehension, reading and writing abilities in Hindi. Readings are introduced from representative genres of Hindi literature. Prerequisite: HNDI 310 or placement exam that establishes a level of proficiency in Hindi suited to Advanced Hindi II. LEC.

**JWSH 107. Living Religions of the West. 3 Hours. HR / H.**
A basic introduction to the major religious traditions of the Near East, Europe, and the Americas, with an emphasis on their development through the modern period and their expressions in contemporary life. Not open to students who have taken REL 109. (Same as REL 107.) LEC.

**JWSH 124. Understanding the Bible. 3 Hours. HR / H.**
An introduction to the literature of the Bible, exploring the relationships among the various types of literature present and the function of each type in the history and religious life of the people who produced and used them. Cannot be taken concurrently with REL 311 or JWSH 321 or REL 315. Not open to students who have taken REL 125 or JWSH 125. (Same as REL 124.) LEC.

**JWSH 125. Understanding the Bible, Honors. 3 Hours. HR / H.**
An introduction to the literature of the Bible, exploring the relationships among the various types of literature present and the function of each type in history and religious life of the people who produced and used them. Open only to students in the University Honors Program or by permission of instructor. Not open to students who have taken REL 124 or JWSH 124. (Same as REL 125.) LEC.

**JWSH 177. First Year Seminar: ______. 3 Hours. GE11 / U.**
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Jewish Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**JWSH 300. Topics in Jewish Studies: ______. 3 Hours. H.**
Examination of special topics in Jewish Studies. May be repeated if topic varies. LEC.

**JWSH 311. Narratives of Jewish Life. 3 Hours. HL AE42 / H.**
The course focuses on the narratives through which Jews made sense of their lives under the impact of the forces of modernity, beginning in the "old world," and moving through the 19th century and into the 20th. The goal is to analyze how the imagination of Jewish writers was captured by the changes in social structures such as new educational, residential and occupational opportunities, leading to increased interactions with the gentile society. Students read and discuss literary works based in the shetl in revolutionary Russia, and in America. We will also look at memoirs and letters written by ordinary Jews. All assigned texts will be in English. LEC.

**JWSH 315. The Spanish Inquisition. 3 Hours. H.**
A broad historical study of the Spanish Inquisition from 1478 to its afterlife in modern culture, including its use in political debates and its depiction in popular culture. Topics include anti-Semitism, the nature of the inquisitorial investigation, the use of torture, censorship and the relationship between the Inquisition, the Spanish monarchy and other religious and lay authorities. Taught in English. Will not count toward the Spanish major. (Same as HIST 325 and SPAN 302.) LEC.

**JWSH 318. Jews and Slavs in Eastern Europe. 3 Hours. H.**
Jews and Slavs have shared territory from the Middle Ages to the present day. The contact between these culturally and linguistically distinct groups have shaped many centuries of Eastern European history - from the extreme violence of the pogroms to long periods of peaceful coexistence and cooperation. "Jews and Slavs" examines the history and cultural geography of Slavic-Jewish contact from the perspectives of both groups. Through literature, film, journalism, and folklore, students learn about the profound influence Jews and Slavs have had on each other, the uneasy feelings that accompanied their interactions, and the creative and fascinating impact their interaction had on both cultures. (Same as SLAV 318.) LEC.

**JWSH 321. Religion of Ancient Israel. 3 Hours. H.**
A study of the development of the Hebrew Bible from its earliest stages of oral tradition to its canonization with an emphasis on the relationship of the historical, intellectual, and cultural contexts shaping that development. (Same as REL 311.) Prerequisite: REL 124 or JWSH 124 or permission of instructor. LEC.

**JWSH 325. Introduction to Judaism. 3 Hours. H.**
Analyzes a selection of the core texts, teachings, and practices of Jewish religious traditions in terms of classical and contemporary understanding. (Same as REL 325.) LEC.

**JWSH 327. Jewish Secular Culture. 3 Hours. HL AE42 / H.**
By examining the modern concept of Yiddishkeit (Jewishness), this course explores Jewish secularism as a set of modern intellectual, literary, and cultural practices that redefined the relationship between the secular and religious in literature, music, theatre, art, humor, and foodways. This interdisciplinary course draws on theoretical approaches from history, cultural studies, religious studies, folklore, and linguistics to examine the different secularizing cultural practices of the Jews in Central and Eastern Europe, as well as in North America. LEC.

**JWSH 336. Jewish American Literature and Culture. 3 Hours. H.**
An examination of Jewish American literature and culture from the 17th century to the present. Materials may include a broad range of literary genres as well as folklore, music, film, and visual art. (Same as ENGL 336.) Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

**JWSH 338. Languages of the Jews. 3 Hours. H.**
From the beginning, Jewish history and culture is closely tied to language, from Hebrew and Aramaic to the languages of diaspora such as Yiddish and Ladino. Focusing on issues of language in society, this course will survey the languages spoken by the Jews throughout their long history in diverse communities around the world. We will learn about Hebrew as a spoken and a sacred language, examine how Jewish languages are born and die, and discuss the resurrection of Modern Hebrew in the state of Israel. All readings are in English. No prior knowledge of languages or linguistics is required. (Same as LING 338.) LEC.

**JWSH 339. Languages of the Jews, Honors. 3 Hours. H.**
Honors version of JWSH 338 or LING 338. Languages of the Jews. Prerequisite: Membership in the University Honors Program or consent of instructor. (Same as LING 339.) LEC.

**JWSH 340. Topics in Modern Jewish Literature: ______. 3 Hours.**
This course treats Jewish literature in English or English translation in the 20th and 21st centuries either as a broad survey or according to specific themes. May be repeated for credit. LEC.

**JWSH 343. The Holocaust in History. 3 Hours. H.**
The systematic murder of the Jews of Europe by the Nazis during World War II is one of the most important events of modern history. This course studies the Holocaust by asking about its place in history. It compares other attempted genocides with the Holocaust and examines why most historians argue that it is unique. Other topics covered include the reasons the Holocaust occurred in Europe when it did, the changing role of anti-
Semitism, and the effects of the Holocaust on civilization. The course also discusses why some people have sought to deny the Holocaust. The course concludes by discussing the questions people have raised about the Holocaust and such issues as support for democracy, the belief in progress, the role of science, and the search for human values which are common to all societies. (Same as HIST 343.) LEC.

JWSH 350. Contemporary Jewish Identities. 3 Hours. SC / H.
This course explores the variety of ways in which American Jews create Jewish identities as individuals and groups. It traces the emergence of the various current divisions within Judaism: Reform Judaism (which by definition, implies Orthodoxy), then Conservative Judaism, and then the later development of Reconstructionist Judaism. The course also explores other contemporary options for being Jewish: cultural Jews, secular Jews, unaffiliated Jews, religious Jews, and gay or lesbian or transgendered Jews. LEC.

JWSH 361. Jewish Film. 3 Hours. H.
An examination of the cultural history of the Jews through films that explore Jewish themes, including but not limited to: issues of tradition and modernity, religion and secularism, immigration, gender, Zionism, anti-Semitism, and the Holocaust. Films studied may be in English and in foreign languages (with English subtitles) like Yiddish, Hebrew, and Russian. LEC.

JWSH 395. Study Abroad Topics in Jewish Studies: _______. 3-6 Hours. H.
This course is designed for the study of special topics in Jewish Studies at the junior/senior level. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

JWSH 490. Directed Study in Jewish Studies. 3 Hours. AE61 / H.
Intensive reading or research under faculty supervision. Prerequisite: Consent of instructor. IND.

JWSH 491. Directed Study in Jewish Studies, Honors. 3 Hours. AE61 / H.
Honors version of JWSH 490. Intensive reading or research under faculty supervision. Prerequisite: Membership in the University Honors Program or consent of instructor. IND.

JWSH 523. The Dead Sea Scrolls. 3 Hours. H.
A study of the archeological evidence and texts from the Dead Sea area that provide primary evidence for Jewish religious belief and practice in the Greek and Roman periods (ca. 250 B.C.E. - 135 C.E.). (Same as REL 523.) Prerequisite: REL 124 or JWSH 124 or consent of instructor. LEC.

JWSH 525. Jews and Christians. 3 Hours. H.
This course examines the ways Jews and Christians have interacted and characterized one another at various points in their histories. Special emphasis is placed on the gradual separation of the two religious traditions in the 1st-4th centuries. (Same as REL 525.) Prerequisite: A previous course in Religious Studies or Jewish Studies; or consent of instructor. LEC.

JWSH 526. Jewish History and Literature in the Greek and Roman Periods. 3 Hours. H.
The history and literature of the Jewish people from the hellenistic period (late fourth century B.C.E. to the codification of the Mishnah 210 C.E.). Select texts from the Hebrew Bible, the so-called apocrypha and pseudepigrapha, the Qumran scrolls, Philo, Josephus, related early Christian texts, and Rabbinic texts will be studied. (Same as REL 526.) Prerequisite: REL 124 or JWSH 124 or permission of instructor. LEC.

JWSH 560. Classical and Contemporary Jewish Thought. 3 Hours. H.
An introduction to individual Jewish thinkers and collective projects from Philo to the present, including The Talmud and Midrash, Middle Age and Early Modern Jewish philosophical and Talmudic rationalism and mysticism. Considers such thinkers as Spinoza, Cohen, Soloveitchik, Rosenzweig, and Levinas. (Same as REL 560.) Prerequisite: A previous course in Religious Studies or Jewish Studies; or consent of instructor. LEC.

JWSH 570. Studies in Judaism. 3 Hours. H.
A study of the major intellectual sources of the Jewish tradition from the Mishna, Talmud, Midrash, prayerbook, philosophers, the Zohar, and the Shulchan Aruch. (Same as REL 570.) Prerequisite: A course in Religious Studies or Jewish Studies numbered 300 or above. LEC.

JWSH 572. Jewish Folklore. 3 Hours. H.
Jewish folklore is extraordinarily rich and varied. From folktales to riddles, from legends about the exalted rabbis to irreverent jokes, folklore is central to the Jewish way of life. This course traces the extent to which oral elements appear in traditional Jewish literary texts such as the Bible; read and discuss folktales, and examine minor genres such as proverbs, riddles and jokes. Topics include the supernatural beings of Jewish folklore dybbuks, seductive female demons, and golems. Students acquire theoretical tools with which to analyze folklore (Jewish or otherwise), read stories, watch movies, and collect samples of folklore from informants. LEC.

JWSH 573. Jewish Folklore, Honors. 3 Hours. H.
Honors version of JWSH 572. Jewish folklore is extraordinarily rich and varied. From folktales to riddles, from legends about the exalted rabbis to irreverent jokes, folklore is central to the Jewish way of life. This course traces the extent to which oral elements appear in traditional Jewish literary texts such as the Bible; read and discuss folktales, and examine minor genres such as proverbs, riddles and jokes. Topics include the supernatural beings of Jewish folklore dybbuks, seductive female demons, and golems. Students acquire theoretical tools with which to analyze folklore (Jewish or otherwise), read stories, watch movies, and collect samples of folklore from informants. Open only to students in the University Honors Program or by permission of instructor. LEC.

JWSH 600. Advanced Topics in Jewish Studies: _______. 3 Hours. H.
Examination of advanced topics in Jewish Studies. May be repeated if topic varies. Prerequisite: Consent of instructor. LEC.

JWSH 650. Service Learning in Jewish Studies. 3 Hours. S.
This course, to be taken in the junior or senior year, is designed to give students the opportunity to apply the knowledge, concepts, and ideas gained in courses in Jewish studies to real-life situations in appropriate agencies and organizations. Open to students in the Jewish Studies program. Prerequisite: Permission of instructor. FLD.

Co-Major in European Studies

Why study European studies?

European studies broaden, deepen, and strengthen, through interdisciplinary study, a student’s knowledge and understanding of the enduring importance of our transatlantic partners, the Europeans.

First- and Second-Year Preparation

To complete the requirements for the degree in 4 years, prospective co-majors are encouraged to complete all general education and language requirements no later than fall semester of the junior year. Students should begin study of a western European language other than English or Russian as early as possible. For more information, contact the
Europe, Studies Advising Specialist, Laura Leonard, 785-864-3500, laleonard@ku.edu.

During their first and second years, students are required to enroll in HIST 115 and in an additional course from the list below:

Choose 1 of the following: 3-4

- ECON 104 Introductory Economics
- ECON 144 Principles of Macroeconomics
- ECON 145 Principles of Macroeconomics, Honors
- GEOG 100 World Regional Geography
- GEOG 102 Principles of Human Geography
- POLS 150 Introduction to Comparative Politics
- POLS 151 Introduction to Comparative Politics Honors
- POLS 170 Introduction to International Politics
- POLS 171 Introduction to International Politics Honors
- HA 100 Introduction to Western Art History
- PHIL 180 Introduction to Social and Political Philosophy

Note: Enrollment in the above courses counts toward College principal course distribution requirements in the humanities and social sciences.

Note: European Studies co-majors are strongly encouraged to study abroad and should discuss this opportunity with the Advising Specialist or Academic Director early in their undergraduate career.

Admission to the Co-Major

Admission Requirements

1. Second-semester sophomore or junior standing.
2. Declared major in a department or admission to a professional school.

Requirements for the Co-Major

European Studies Prerequisites or Co-requisites (18)

Students selecting this co-major must complete the following:

French Revolution to the Present: Europe 1789–Present. Satisfied by:

- HIST 115 French Revolution to the Present: Europe 1789-Present 3

Interdisciplinary Perspective. Satisfied by one course from the following:

- ECON 104 Introductory Economics
- ECON 144 Principles of Macroeconomics
- GEOG 100 World Regional Geography
- GEOG 102 Principles of Human Geography
- POLS 150 Introduction to Comparative Politics
- POLS 151 Introduction to Comparative Politics Honors
- POLS 170 Introduction to International Politics
- POLS 171 Introduction to International Politics Honors
- HA 100 Introduction to Western Art History
- PHIL 180 Introduction to Social and Political Philosophy

Students selecting this co-major must complete the following:

Second Language Skills (3 hours). Students must complete one semester beyond the College general education second language requirement (completion of a fourth-semester course) in a modern western European language (Danish, Dutch, French, German, Hungarian, Italian, Portuguese, Polish, Spanish, Swedish).

Seminar in European Studies. Satisfied by one of the following: 3

- EURS 500 Seminar in European Studies
- EURS 503 Europe Today

Upper-Division General European Studies Required Electives. Satisfied by three approved courses (9 hours), two of which must be from different departments. The following list is not exhaustive; visit the European Studies website or speak with the undergraduate advisor each semester for a complete list of approved general European Studies courses:

- ARCH 542 History of Architecture III: Modern
- ARCH 665 History of Urban Design
- ECON 535 Economic History of Europe
- ECON/EURS 536 Economic Issues of the European Union
- ECON 563 Current Economic Issues of East Europe
- EURS 302 European Culture and Society 1945 to Present
- EURS/HIST/PCS 329 History of War and Peace
- EURS 503 Europe Today
- EURS 505 Studies in Exile Literature
- EURS 506 Culture and Politics of the Cold War in Western Europe
- EURS 507 Research in European Collections
- EURS 508 Politics and Economics of Cultural Production in Western Europe
- EURS 509 Introduction to the Study of Southern European Societies
- EURS 511 Topics in European Studies: _______ (when covering 2 or more countries)
- EURS 604 The European Union
- HA 533 European Art 1789-1848: Gender and Revolution
- HA 564 European Art, 1900-1945
- HA 565 Art Since 1945
- HIST 334 The Great War: The History of World War I
- HIST 340 The History of the Second World War
- HIST 343 The Holocaust in History
- HIST 380 Revolutionary Europe: The People in Arms
- HIST 527 Recent European History, 1870 to the Present
- HIST 528/ECON 535 Economic History of Europe
- HIST 529 Intellectual History of 19th Century Europe
- HIST 533 The History of Women and the Family in Europe, from 1500 to the Present
- HWC/EURS 430 European Civilization in World Context: _______
- IBUS 400 Special Topics in International Business: _______
- IBUS 410 Introduction to International Business
- PCS/EURS 550 Classics of Peace Literature
- PHIL 560 Nineteenth Century Philosophy

Note: This list is not exhaustive. Visit the European Studies website or the program office each semester for a complete list of upper-division national or regional European Studies courses.

Capstone-Final Senior Course
In the senior year, students complete one of the following options:

Option A: Senior Thesis in European Studies. Satisfied by EURS 501. A semester-long independent research project under the supervision of a faculty thesis director. Students should contact Lorie A. Vanchena, Academic Director of European Studies, vanchena@ku.edu, before registering for EURS 501.

Option B. Two additional upper-division European Studies courses. Satisfied by general European or country-specific electives chosen from the course lists above.

Junior/Senior (300+) European studies courses. Satisfied by 2 courses (6 hours) of general European or country-specific electives chosen from the course lists above.

Courses taken during a study abroad program in Europe may fulfill co-major requirements. Students should consult the Advising Specialist for European Studies about study abroad credit before their program departure.

Co-Major Hours & Major GPA
While completing all required courses, co-majors must also meet each of the following hour and grade-point average minimum standards:

Co-Major Hours
Satisfied by 24 hours of co-major courses.

Major Hours in Residence
Satisfied by a minimum of 24 hours of KU resident credit in the co-major.

Major Junior/Senior Hours
Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the co-major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of
study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

No more than 12 hours may be shared between a 27-hour European studies co-major and another major.

Departmental Honors

Honors in European Studies is open to co-majors who have earned, both at the time of entry into the program and at graduation, overall grade-point averages of 3.25 or higher and of 3.5 or higher in European studies. A student must complete all co-major requirements, including EURS 502 Senior Honors Thesis in European Studies, with a grade of A.

The senior honors thesis affords exceptional students the opportunity to work closely with an individual faculty member on a specific research project over an extended period of time, usually two semesters. The senior honors thesis may be combined with EURS 501 Senior Thesis in European Studies, substantially increasing the length and scope of the final thesis, or the senior honors thesis may be a separate extension of the senior thesis.

A student in EURS 502 must defend the thesis in a 1-hour oral examination with faculty. The examination committee is composed of 3 faculty members, 1 of whom must be the thesis director. The student selects the committee members in consultation with the thesis director. Students should consult Dr. Lorie A. Vanchena, Academic Director of European Studies, vanchena@ku.edu, early in their junior year.

Study Abroad

The European Studies program strongly encourages students to enroll in one of KU’s many study abroad programs in Europe.

European Studies participates in the Humanities and Western Civilization semester abroad program in Paris and Florence.

Summer language institutes offering upper-division courses in language of literary study may also qualify for European Studies co-major or minor credit. Contact a program advisor in the Office of Study Abroad (http://www.studyabroad.ku.edu), 108 Lippincott Hall, 785-864-3742.

Minor in European Studies

Why study European studies?

European studies broaden, deepen, and strengthen, through interdisciplinary study, a student’s knowledge and understanding of the enduring importance of our transatlantic partners, the Europeans.

Requirements for the Minor

Students selecting this minor must complete the following:

<table>
<thead>
<tr>
<th>European Studies Minor Core Knowledge and Skills (18)</th>
<th>3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Second Language Skills. (3 hours) Students must complete one semester beyond the College general education, second language requirement (which is the completion of a fourth-semester course) in a modern western European language (Danish, Dutch, French, German, Hungarian, Italian, Portuguese, Polish, Spanish, or Swedish).</td>
<td></td>
</tr>
</tbody>
</table>

Foundational Course: Seminar in European Studies. Satisfied by:

<table>
<thead>
<tr>
<th>EURS 500 Seminar in European Studies</th>
<th>3</th>
</tr>
</thead>
<tbody>
<tr>
<td>EURS 503 Europe Today</td>

European Studies Minor Electives. 9

Select three of the following options:

| 1 approved European politics course |
| 1 approved European economics or business course |
| 1 approved general European culture or history course |

A current list of approved courses for the minor is available on the European Studies website and from the Program's Advising Specialist and Academic Director.

Note: No more than 1 course may be counted both in the minor and another degree or minor program.

Minor Hours & Minor GPA

Minor Hours

Satisfied by 18 hours of minor courses.

Minor Junior/Senior (300+) Hours in Residence

Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

Minor Junior/Senior Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Department of Film and Media Studies

Why study film and media?

The Department of Film and Media Studies unites the inquiry of the academic with the practice and technique of the artist. Scholars and filmmakers work and study together in an environment of mutual encouragement and collegiality.

Undergraduate Programs

The department offers Bachelor of Arts and Bachelor of General Studies degrees, as well as a minor in film and media studies.
Courses for Nonmajors

The department offers many courses open to nonmajors who wish to learn more about film and media, including but not limited to:

- **FMS 100** Introduction to the Film Medium 3
- **FMS 200** Film and Media Aesthetics 3
- **FMS 311** History of the American Sound Film 3
- **FMS 314** History of African-American Images in Film 3
- **FMS 380** American Popular Culture of: _____ 3

These 5 courses also fulfill a College principal course requirement.

Graduate Programs

The department offers graduate programs culminating in a Master of Arts degree in Film and Media Studies and/or a Doctor of Philosophy degree in Film and Media Studies.

Courses

**FMS 100. Introduction to the Film Medium. 3 Hours. HL / H.**

Study of film as a visual art. Focus on communicative transaction between film viewer and film maker. Learning to read basic signs, syntaxes, and structures of cinematic language. Direct analysis of selected films. LEC.

**FMS 177. First Year Seminar: _____ 3 Hours. GE11 / U.**

A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Film and Media Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**FMS 200. Film and Media Aesthetics. 3 Hours. HL GE3H / H.**

An introduction to film and media aesthetics, including basic film/media theories and their practical applications. Students will be introduced to the concepts of time, space, composition, movement, editing, light, color, and sound. A key feature of the course will be a practical emphasis on learning how to see creatively by applying elements of design, camera lens and sound recording principles. Examples of these aspects of film and associated media will be examined and discussed in depth. Should be taken before or concurrently with FMS 275 or FMS 276. LEC.

**FMS 204. Study Abroad Topics in: _____. 1-6 Hours. H.**

This course is designed for the study of special topics in Film at the freshman/sophomore level. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

**FMS 273. Basic Screenwriting. 3 Hours. H.**

An introduction to the craft and principles of screenwriting, from inspiration to writing a complete first act. Emphasis on factors relevant to the creation of a treatment and a screenplay. Prerequisite: Consent of instructor. LEC.

**FMS 275. Basic Video Production. 3 Hours. H.**

Theory and practice of video production with emphasis on preproduction planning, scripting, directing, lighting, camera operation and audio. Lecture-laboratory. Prerequisite: FMS 100, completion of or concurrent enrollment in FMS 200, and consent of instructor. LEC.

**FMS 276. Basic Film Production. 3 Hours. H.**

An introduction to 16mm film techniques and structures, requiring construction of brief, individually produced fictive-narrative films employing classical continuity. Lecture-laboratory. Prerequisite: FMS 100 and consent of instructor. LEC.

**FMS 302. Undergraduate Studies Seminar in: _____. 1-3 Hours. H.**

Course organized any given semester to examine a particular studies topic or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

**FMS 303. Undergraduate Production Seminar in: _____. 1-3 Hours. H.**

Course organized any given semester to study a particular production topic or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

**FMS 304. Study Abroad Topics in: _____. 1-6 Hours. H.**

This course is designed for the study of special topics in Film at the junior/senior level. Credit for course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

**FMS 307. Undergraduate Film/Media Internship. 1-6 Hours. H.**

Supervised study with an approved film/media company or project. May be repeated for credit. No more than six hours may be applied to the B.A. or B.G.S. degrees. Graded on a satisfactory/unsatisfactory basis. Prerequisite: Consent of instructor and at least seven hours credit in the department. FLD.

**FMS 310. History of the Silent Film. 3 Hours. H.**

A survey of the artistic, economic and sociological development of the narrative cinema with emphasis on the American studio system, German Expressionism, and Soviet Expressive Realism. Analysis of selected films. LEC.

**FMS 311. History of the American Sound Film. 3 Hours. HL / H.**

A study of the artistic, economic, and sociological development of the American sound film with emphasis on the studio system, major directors, genres, and the impact of television. Analysis of selected films. LEC.

**FMS 312. History of the International Sound Film to 1950. 3 Hours. H.**

A survey of the artistic, economic, and sociological development of the international sound film 1929 to 1950. Emphasis on European National Cinemas. LEC.

**FMS 313. History of the International Sound Film Post 1950. 3 Hours. H.**

A survey of the artistic, economic, and sociological development of the international sound film from 1950 to the present. Emphasis on Free Cinema, New Wave, and other emerging post-war cinemas. LEC.

**FMS 314. History of African-American Images in Film. 3 Hours. HL AE41 / H.**

A history and critical assessment of the diverse images of African-Americans in American cinema and the impact of those images on American society. Screenings of feature and independent films, including those by African-Americans. LEC.

**FMS 315. Survey of Japanese Film. 3 Hours. NW AE42 / H.**

This course surveys the major developments in and critical approaches to twentieth-century Japanese film. Focusing mostly on narrative films, Survey of Japanese Film introduces students to basic methodological issues in Japanese film history, especially questions of narrative, genre, stardom, and authorship. We examine Japanese cinema as an institution located within specific contexts focusing on the ways in which this institution shapes gender, class, ethnic, and national identities. This course examines how patterns of distribution, exhibition, and reception have influenced film aesthetics and film style over the last century. Through secondary readings, lectures, and discussions students critically examine how Japanese cinema as an institution both responds to and intervenes in the social, cultural, and political history of twentieth century
Japan. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. (Same as EALC 315.) LEC.

**FMS 316. Cinemas of the Southern Cone: Argentina, Chile, and Uruguay. 3 Hours. AE41 / H.**
This course will examine the cinemas of three neighboring South American countries to find similar themes and some differences between them historically, politically, and culturally. Themes will include: gender and nation, political repression during dictatorship, globalization and the cinema, youth culture in the Southern Cone, and representations of race and ethnicity, immigration and identity in contemporary cinema. Other themes in common are financing issues, such as co-production agreements, film production under the regional trade pact Mercosur and issues of circulation, distribution and marketing of national films. Most films will be feature length narrative, but a few documentaries will be shown. May be taken as FMS 716, but with additional requirements. LEC.

**FMS 317. Race and the American Documentary. 3 Hours. H.**
This course surveys a range of documentaries in which race is a key part. There are two class objectives: the first is to broaden the students' knowledge of American social history and culture, especially around issues of identity, representation and race. The second is to heighten the students' critical skills as viewers of films in general. A complete film or portion is screened at each class session, preceded by an introductory lecture, and a follow-up discussion. Readings from a variety of scholarly texts are excerpted for student review prior to a particular class. LEC.

**FMS 318. Anti-war Film. 3 Hours. H.**
An overview and exploration of the history of anti-war film and media themes to show how attitudes regarding war and political policy can be affected by positive and negative depictions of conflict. Course includes analysis of selected films. LEC.

**FMS 320. Adaptation from Stage to Screen. 3 Hours. H.**
In an increasingly global media economy, adaptation study offers an enterprising model for the cross-pollination of texts across historical, national, and cultural boundaries. Although this course focuses more specifically on adaptations and adaptation processes involving theatrical events and cinematic properties, this larger view should be kept in mind. The course will consist of readings, screenings, and presentations by faculty in the Department Film and Media Studies and the Department of Theatre addressing theoretical issues, case studies, and intertextual considerations, and an historical overview of theatre-film interaction. LEC.

**FMS 345. New Media and Society. 3 Hours. H.**
Students will be introduced to major themes and debates in digital media studies and apply critical approaches for understanding new media practices, technologies, and theories. In addition to readings and lectures, students will engage in a variety of digital activities and participate in production-oriented projects. By the end of this course students will gain a foundational understanding of historical and emerging relationships between new media (internet, cell phones, digital games, etc.) and society, acquire key digital skills, and experience a variety of new media texts and services. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. LEC.

**FMS 373. Intermediate Screenwriting. 3 Hours. H.**
Emphasis on writing a full-length screenplay. Explores genre, character, dialogue, and the development of a personal writing style. Prerequisite: FMS 273 and consent of instructor (students will be selected based on writing samples). LEC.

**FMS 374. Animation. 3 Hours. H.**
A survey that combines animation history, theory, and production by examining animated works of all kinds and exploring various styles utilizing both hands-on techniques and digital animation programs. Lecture-laboratory. LEC.

**FMS 375. Intermediate Video Production. 3 Hours. H.**
Theory and practice of longer-form video production with emphasis on scripting, talent coordination and editing in preproduction, production and postproduction. Lecture-laboratory. Prerequisite: FMS 275 and consent of instructor. LEC.

**FMS 376. Cinematography. 3 Hours. H.**
Theory and practice of cinematography, with emphasis on creation of film, video, and digital imagery. Prerequisite: FMS 275 or FMS 276, and consent of instructor. LEC.

**FMS 377. Post-Production. 3 Hours. H.**
Students become familiar with techniques and processes in film and video post-production including, but not limited to, editing, sound, post-production management, marketing, and distribution. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. Prerequisite: FMS 275 and consent of instructor. LEC.

**FMS 380. American Popular Culture of: _____. 3 Hours. HL / H.**
An interdisciplinary examination of popular cultural forms and their relationships with the social, political and economic dynamics of America, with emphasis on film, media, music, literature (including magazines and newspapers) and the graphic arts. The decade or other specific topic to be studied changes as needs and resources develop. May be repeated for credit for different decades or topics. LEC.

**FMS 401. Undergraduate Professional Development Seminar. 1 Hour. H.**
Provides an overview of opportunities for professional development in Film and Media Studies, and helps students plan goals for their education through an understanding of professional practices. The course also covers practical exercises in professional development, including writing resumes, finding internships and entry-level work, and other aspects of establishing a career in Film and Media Studies. Prerequisite: FMS 275 or equivalent. Open to FMS Majors only. Graded satisfactory/unsatisfactory. LEC.

**FMS 407. Undergraduate Film/Media Service Learning Internship. 1-6 Hours. H.**
Supervised study with an approved government agency, established non-profit organization, school, or community-based partner to produce a professional-level film and/or media project in the public interest. Community work should meet the needs of the community-based organization and the education goals set by the student, instructor, and community-based partner; be in direct service, indirect service, policy analysis, research, and/or advocacy work; engage the student with individuals or communities of need and with issues related to social justice, community development, and/or access to resources. May be repeated for credit. No more than six hours may be applied to the B.A. or B.G.S. degrees. Graded satisfactory/unsatisfactory. Prerequisite: Consent of instructor and at least 22 credit hours in the department. FLD.

**FMS 410. Race, Class, and Gender in Visual Culture. 3 Hours. H.**
Examines the way in which race, class, and gender are represented through visual culture, historically and in the present. The study of visual culture analyzes the way in which visual images communicate systems of beliefs, contribute to identity formation, and have an influence on our thinking about race, class, and gender. Course looks at visual objects, i.e., film, television, photography, art, advertisements, and theatre as well as visual practices, i.e., in public and private spaces. LEC.

**FMS 411. Television Studies. 3 Hours. H.**
A historical, theoretical and critical survey of U.S. television from 1945 to the present from the public's perspective, with emphasis on the early
influences of radio (e.g., Federal regulation and sponsorship), film and theatre; TV's rapid rise as the U.S. public's prime source of entertainment, news and information; TV's rise as a key cultural, economic and political phenomenon; TV's more recent accommodations to the forces of globalization, new technologies/media, and new business models through convergence. Discussion and screening of representative TV texts as seen against the backdrop of the theories and critical views of TV scholars ranging from Raymond Williams and John Fiske to Henry Jenkins. LEC.

FMS 412. Cyberculture Studies. 3 Hours. H.
Historically there has been a tendency to approach new media technologies and their proliferation as either utopic or dystopic. Cyberculture studies has been no exception. Students will work toward a comprehensive understanding of cybertecture as emergent computer networks forming around and constructing entertainment, knowledge, business, community, and identity. Cybertecture will be examined as the constant (re)organizing of virtual and physical relationships as well as the reorganization of media production, distribution and consumption. The variety of opportunities for computer-mediated human interaction such as social networks, virtual worlds, blogs, and games will be examined as cybertecture transposes online and offline relationships and practices. LEC.

FMS 413. Asian Media Studies. 3 Hours. H.
This course examines new and emerging media in East Asia and how the media industries of East Asia function. Using recent scholarship and industry data on contemporary cybertecture, music studies, and television industries of East Asia we examine how such factors as globalization, post-colonialism, censorship, emerging technology, and national media legislation affect regional and transnational media industries in Japan, South Korea, and Mainland China/Taiwan/Hong Kong. (Same as EALC 413.) LEC.

FMS 414. Kansas Art, History, and Popular Culture. 3 Hours. H.
An overview of the art and cultural history of Kansas (and Kansas City) from territorial days to the present. Emphasis is placed on key issues, figures and events. A general familiarity with American history is recommended. May be taken as FMS 714, but with additional requirements. (Same as HA 584.) LEC.

FMS 475. Advanced Video Production. 3 Hours. H.
Special projects in video production, using both studio and remote locations. Prerequisite: FMS 375 and consent of instructor. LEC.

FMS 477. Sound Design. 3 Hours. H.
Students will study and produce film and video work with an emphasis on sound design theory and practice. Course projects consist of several short works in response to readings and screenings, which include a survey of sound in cinema, internet and radio. Students will also become conversant with related equipment, software and techniques. Prerequisite: FMS 275 and consent of instructor. LEC.

FMS 478. Experimental Production. 3 Hours. H.
Students will produce experimental film and video projects, including installation art and performance art pieces, in both collaborative and a collaborative production modes. Practical production aspects of historical experimental works will be studied, with emphasis on creation of works inspired by these earlier artists and their work. Unorthodox video and film production concepts and modes will also be studied and used in the creation of original works. The incorporation of experimental elements in the creation of mainstream works, and the creation of such projects, will also be a key area of study and experimentation. By pushing their individual creative limits, students will gain an appreciation for the experimental film and video genre, as well as an expansion of their production skills. Prerequisite: FMS 275 and consent of instructor. LEC.

FMS 479. Broadcast Documentary Production. 3 Hours. H.
This is a hands-on production course in which students will research, plan and produce short-form non-fiction documentaries. The class is dedicated to training young professionals in the principles, skills, techniques, habits and practices of documentary production. We will focus also on the aesthetics of our craft and the documentary form. The objective is to ground students in the fundamental skills of good non-fiction storytelling-conceptualization, research, story structure, theme development, writing, producing and directing. The goal is the production of several short-form compositions (videos) where storytelling is employed to communicate a concept or idea effectively. Students will form into teams to research, develop and produce a course-long short-form documentary. Prerequisite: FMS 275 and consent of instructor. LEC.

FMS 480. Music Video Production. 3 Hours. H.
This course will cover elements of the history, aesthetics, and business of music video and music video production. Students will view and discuss many different types of music videos, and will learn how to classify and critique these videos in a professional manner. Students will gain familiarity with the genres, themes, forms, and iconography of music video; an understanding of the place of music video in media culture; an exploration of the ideological, cultural, and historical contexts of music video; and an ability to create or assist in the creation of professional-quality music videos. Prerequisite: FMS 275 and consent of instructor. LEC.

FMS 498. Honors Seminar. 2-6 Hours. AE61 / H.
Study may be directed toward either (a) reading for integration of knowledge and insight in film and media, or (b) original research (i.e., investigation of a specific problem in film and media). Six hours maximum credit. Prerequisite: Consent of Departmental Honors Coordinator. LEC.

FMS 499. Directed Study in Film. 1-6 Hours. AE61 / H.
Investigation of a special topic or project selected by the student with advice, approval, and supervision by an instructor. Such study may take the form of directed reading or special research. Individual reports and conferences. A maximum of six hours credit may be counted toward a degree. Prerequisite: At least seven hours credit in the department and consent of instructor. IND.

FMS 530. Classical Film/Media Theory. 3 Hours. H.
Comprehensive examination of most significant theories and theorists of film. Organized around specific questions, e.g., what qualities make film art unique, and how is film related to other visual and literary arts? Class discussion, individual projects. Prerequisite: FMS 100 or equivalent (determined by instructor). LEC.

FMS 531. Contemporary Concepts in Media Studies. 3 Hours. H.
This course emphasizes a theoretical understanding of media and media production skills. It is a critical cultural study of the media, focusing on the relationships between media representations and society. Students explore different conceptual perspectives on the role and power of visual media in society in influencing social values, political beliefs, identities and behaviors; analyze specific media texts, such as film and television shows; and examine the dynamics of how class, gender, generation, and race influence the production and reception of media. LEC.

FMS 540. Cuban Cinema. 3 Hours. H.
This course explores Cuban cinema from 1959 to the present day. Special attention is paid to the representations of Cuban history, cultural politics, and the political-economic conditions of production in Cuba. In addition, the Cuban-American community and their contributions or reactions to Cuban film are discussed. Through readings, lectures, discussion, and viewing Cuban films, the class examines a variety of topics related to Cuban cinema, history, and contemporary concerns. This course is
offered at the 500 and 800 levels, with additional assignments at the 800 level. Prerequisite: Junior standing. LEC.

**FMS 541. Asian Film. 3 Hours. NW AE42 / H.**
Seminar on various national film cultures of East and Southeast Asia. Representative films are studied from formal, stylistic, and socio-historic perspectives. Addresses the impact of key cultural, economic, and political issues on each film industry. Class discussion, reports, and individual research papers. The course is offered at the 500 and 800 levels, with additional assignments at the 800 level. (Same as EALC 541.) Prerequisite: Junior status. LEC.

**FMS 542. Latin American Film. 3 Hours. H.**
The course explores the national cinemas and film industries of various nations in Latin America, as well as films made by Indigenous and Chicano/a filmmakers. Films are analyzed both as artistic works (formal qualities, cinematic styles, and influences) and as documents that provide windows to the socio-historical context of the nation. The course focuses on the political-economic factors surrounding the production of Latin American national cinema (the role of the state, coproductions, film markets). Prerequisite: Junior status. May be taken as FMS 842. There will be additional requirements for graduate students taking FMS 842. LEC.

**FMS 543. Contemporary Japanese Film. 3 Hours. NW AE42 / H.**
Seminar on the major developments in the contemporary (1980-present) Japanese film industry examining how filmmaking practices and film criticism have been influenced by such issues as transnationalism, postcolonialism, critical race theory, postmodernism, and new media. We survey recent industrial and stylistic trends as well as key critical debates. Class discussion, reports, and individual research papers. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. (Same as EALC 543.) Prerequisite: Junior status. LEC.

**FMS 544. African Film. 3 Hours. NW / H.**
A critical study of Africa and its peoples as depicted in films. The aesthetic, cultural, economic, political, historical, and ideological aspects of African films are examined. (Same as AAAS 555.) LEC.

**FMS 585. Capstone in Film and Media Studies. 3 Hours. H.**
This course integrates the knowledge and skills acquired across the curriculum of Film Media Studies including primarily academic studies, but also production and other related disciplines to enable the student to demonstrate achievement through the production of a major creative research project. Prerequisite: Must be admitted to the Film and Media Studies B.A. or B.G.S. degree. Must have completed one FMS production course. Must have Departmental permission to enroll. LEC.

**FMS 592. Documentary Film and Video. 3 Hours. H.**
An historical and theoretical survey of that major genre of film and video typically termed "documentary." The course will trace the main historical developments from documentary's beginnings through contemporary innovations. Prerequisite: FMS 100 and FMS 310, FMS 311, or consent of instructor. LEC.

**FMS 593. Experimental Film and Video. 3 Hours. H.**
A history of experimental film and video through an examination of major artists, movements, theories, and films/tapes. Prerequisite: FMS 100 and FMS 310, or consent of instructor. LEC.

**FMS 620. International Women Filmmakers. 3 Hours. H.**
This course examines films made by women around the world. Mainstream and independent fiction, documentary, and experimental works will be screened and discussed. The objectives of the course are: 1) to learn the variety of films made by women and the conditions of their production, distribution reception, 2) to interrogate the idea of women's cinema as `counter-cinema'. We will acquire tools for analyzing films in terms of economic, aesthetic, cultural, and political circumstance by women of different countries, classes, races, ethnicities, genders, and sexual preferences. LEC.

**FMS 621. American Film Criticism. 3 Hours. H.**
An analysis of the evolution, methods and impact of American film criticism as practiced by such critics as James Agee, Robert Warshow, Andrew Sarris, John Simon, Pauline Kael, Stanley Kauffman, and Dwight Macdonald. Prerequisite: FMS 310 or FMS 311. LEC.

**FMS 673. Problems in Basic Screenwriting. 3 Hours. U.**
The principles of screenwriting are developed through scene writing and analysis culminating in the writing and structure of a full-length, three-act screenplay. In addition to the class sessions taught with FMS 275 Basic Screenwriting, separate consultations and specific research assignments for graduate students in FMS 673 are also required. LEC.

**FMS 675. Problems in Basic Video Production. 3 Hours. U.**
Theory and practice of single-camera video production with emphasis on preproduction planning, scripting, directing, lighting, camera operation and audio. In addition to the class sessions taught with FMS 275 Basic Video Production, separate consultations and specific research assignments for graduate students in FMS 675 are also required. Lecture-laboratory. LEC.

**FMS 676. Problems in Basic Film Production. 3 Hours. U.**
An introduction to 16mm film techniques and structures, requiring construction of brief, individually produced fictive-narrative films employing classical continuity. In addition to the class sessions taught with FMS 275 Basic Video Production, separate consultations and specific research assignments for graduate students in FMS 676 are also required. Lecture-laboratory. LEC.

**FMS 702. Graduate Seminar in: _____. 1-3 Hours.**
Course organized any given semester to study particular subject matter or to take advantage of special competency by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. SEM.

**FMS 704. Study Abroad Topics in: _____. 1-6 Hours.**
This course is designed for the study of special topics in Film. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

**FMS 707. Film/Media Internship. 3-12 Hours.**
Study with an approved film or media company. Emphasis may be in one or all of the following areas: acting, directing, or promotion management. No more than six hours may be applied to an M.A. degree. Course will be graded satisfactory/unsatisfactory. Prerequisite: Consent of instructor. FLD.

**FMS 714. Kansas Art, History and Popular Culture. 3 Hours.**
An overview of the art and cultural history of Kansas (and Kansas City) from territorial days to the present. Emphasis is placed on key issues, figures and events. A general familiarity with American history is recommended. In addition to the lecture sessions taught in tandem with FMS 414, additional research component, lecture presentation, and class meeting are also required. LEC.

**FMS 715. Survey of Japanese Film. 3 Hours.**
This course surveys the major developments in patterns of distribution, exhibition, and reception and their influence on film aesthetics in twentieth century Japanese film. Through secondary readings, lectures, and discussions students will examine how Japanese cinema, as an institution, responds to and intervenes in the social, cultural, and political history of twentieth century Japan. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. (Same as EALC 715.) LEC.
FMS 716. Cinemas of the Southern Cone: Argentina, Chile, and Uruguay. 3 Hours.
This course will examine the cinemas of three neighboring South American countries to find similar themes and some differences between them historically, politically, and culturally. Themes will include: gender and nation, political repression during dictatorship, globalization and the cinema, youth culture in the Southern Cone, and representations of race and ethnicity, immigration and identity in contemporary cinema. In addition to the lecture sessions taught in tandem with FMS 316, additional research component, lecture presentation, and class meeting are also required. LEC.

FMS 717. Race and the American Documentary. 3 Hours.
This course will survey a range of documentaries in which race is a key part of the film’s text. There are two class objectives: to broaden the student’s knowledge of American social history and culture, especially around issues of identity, representation and race, and to heighten the student’s ability as a critical viewer of films. This course will include: film viewing, scholarly readings, and lectures. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. LEC.

FMS 718. Anti-war Films. 3 Hours.
An overview and exploration of the history of the portrayal of anti-war film and media themes to show how anti-war attitudes and political policy can be affected by positive and negative depictions of conflict. Analysis of selected films. FMS 318 and FMS 718 will meet concurrently, though separate consultations and specific research assignments for FMS 718 are also required. LEC.

FMS 743. Contemporary Japanese Film. 3 Hours.
Seminar on the major developments in the contemporary (1980-present) Japanese film industry examining how filmmaking practices and film criticism have been influenced by such issues as transnationalism, postcolonialism, critical race theory, postmodernism, and new media. We will survey recent industrial and stylistic trends as well as key critical debates. Class includes discussion, reports, and individual research papers. This course is offered at the 500 and 700 levels, with additional assignments at the 700 level. (Same as EALC 743.) SEM.

FMS 745. New Media and Society. 3 Hours.
Students will be introduced to major themes and debates in digital media studies and apply critical approaches for understanding new media practices, technologies, and theories. In addition to readings and lectures, students will engage in a variety of digital activities and participate in production-oriented projects. By the end of this course students will gain a foundational understanding of historical and emerging relationships between new media (internet, cell phones, digital games, etc.) and society, acquire key digital skills, and experience a variety of new media texts and services. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. LEC.

FMS 773. Problems in Intermediate Screenwriting. 3 Hours.
The principles of screenwriting are developed through scene writing and analysis culminating in the writing and structuring of a full-length, three act screenplay. In addition to the class sessions taught with FMS 373 Intermediate Screenwriting, separate consultations and specific research assignments for graduate students in FMS 773 are also required. LEC.

FMS 774. Animation. 3 Hours.
A survey that combines animation history, theory, and production by examining animated works of all kinds and exploring various styles utilizing both hands-on techniques and digital animation programs. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. Lecture-laboratory LEC.

FMS 775. Problems in Intermediate Video Production. 3 Hours.
Theory and practice of multiple-camera video production with emphasis on preproduction planning, scripting, directing, lighting, camera operation, and audio. In addition to the class sessions taught with FMS 375 Intermediate Video Production, separate consultations and specific research assignments for graduate students in FMS 775 are also required. Lecture-laboratory. LEC.

FMS 776. Problems in Cinematography. 3 Hours.
Theory and practice of cinematography, with emphasis on creation of film, video, and digital imagery. FMS 776 meets concurrently with FMS 376; students enrolled in the graduate-level course will have separate consultations and specific research assignments. Lecture-laboratory. Prerequisite: Consent of instructor and FMS 675 or FMS 676. LEC.

FMS 777. Post-Production. 3 Hours.
Students will become familiar with techniques and processes in film and video post-production including, but not limited to, editing, sound, post-production management, marketing, and distribution. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. Prerequisite: Consent of instructor. LEC.

FMS 800. Introduction to Graduate Study in Film/Media. 3 Hours.
Major emphasis is placed upon the principles of research, bibliographical data, and research methods useful in film and television. The course should be taken at the beginning of the graduate student’s program. LEC.

FMS 801. Professional Development Seminar. 1 Hour.
Preparation and training for faculty careers in film and related fields, including research skills and methods, responsible scholarship, teaching, and service. Other topics vary from semester to semester. May be repeated for credit. SEM.

FMS 802. Master’s Projects. 3-6 Hours.
Advanced creative projects which may be elected by master’s degree candidates in lieu of thesis. RSH.

FMS 810. Development of the Silent Film. 3 Hours.
Intensive study of the artistic, economic, and sociological development of the silent narrative film with emphasis on the evolution of the American studio system, German Expressionism, and Soviet Expressive Realism. LEC.

FMS 811. Development of the American Sound Film. 3 Hours.
Intensive study of the artistic, economic, and sociological development of the American sound film with emphasis on the studio system, major directors, genres, and the impact of television. LEC.

FMS 813. Development of the International Sound Film. 3 Hours.
Intensive study of the artistic, economic, and sociological development of the international sound film with emphasis on the cinemas of England, France, Italy, Germany, Sweden, and Eastern Europe. LEC.

FMS 814. Development of African-American Images in Film. 3 Hours.
A history and critical assessment of the development of diverse images of African-Americans in American cinema and the impact of those images of American society. Screenings of feature and independent films, including those by African-Americans. In addition to the lecture/screening sessions taught in tandem with FMS 314, a separate discussion section and specific research assignments for graduate students enrolled in FMS 814 are also required. LEC.

FMS 840. Cuban Cinema. 3 Hours.
This course explores Cuban cinema from 1959 to the present day. Special attention will be paid to the representations of Cuban history, cultural politics, and the political-economic conditions of production in Cuba. In addition, the Cuban-American community and their contributions or reactions to Cuban film will be discussed. Through readings, lectures,
discussion, and viewing Cuban films, the class will examine a variety of topics related to Cuban cinema, history, and contemporary concerns. This course is offered at the 500 and 800 levels, with additional assignments at the 800 level. LEC.

FMS 841. Asian Film. 3 Hours.
Seminar on various national film cultures of East and Southeast Asia. Representative films are studied from formal, stylistic, and socio-historic perspectives. Addresses the impact of key cultural, economic and political issues on each film industry. Class includes discussion, reports, and individual research papers. This course is offered at the 500 and 800 levels, with additional assignments at the 800 level. (Same as EALC 841.) SEM.

FMS 842. Latin American Film. 3 Hours.
The course explores the national cinemas and film industries of various nations in Latin America, as well as films made by indigenous and Chicano/a filmmakers. Films are analyzed both as artistic works (formal qualities, cinematic styles, and influences) and as documents that provide windows to the socio-historical context of the nation. The course focuses on the political-economic factors surrounding the production of Latin American national cinema (the role of the state, co-productions, film markets). LEC.

FMS 852. Survey of Film and Media History. 3 Hours.
This seminar will be primarily international in scope and will concentrate on the following: technological and production issues relating to the transition in 1927-1931 of silent to sound film; the constructions of national identity, including those of recently emerging cultures; a comparison and contrast of the censorial agencies in America and abroad; and current revisionist perspectives on received film and media history. SEM.

FMS 863. Survey of Documentary and Experimental Film and Media. 3 Hours.
Surveys the important historical and theoretical issues pertinent to both the documentary and experimental approaches as expressed in film, video and new technologies. Includes major documentary and experimental genres, directors, national schools, artistic movements, and landmark works. Screenings reflect a chronology from origins to present-day. LEC.

FMS 864. Classical Film and Media Theory. 3 Hours.
This seminar is a comprehensive survey of the major classical film and media theories and theorists, such as Munsterberg, Eisenstein, Arnhem, Bazin, and Adorno. Organized around specific questions, e.g.: What qualities differentiate film and media from other art and communications forms? What qualities do film and media share with other art and communication forms? What qualities differentiate film from other forms of media such as television? Readings from primary sources stressed. Class discussion, individual research papers. SEM.

FMS 865. Contemporary Film and Media Theory. 3 Hours.
This seminar is a study of the theories applied to the study of film and media since the 1970s moving through structuralism, and into the posts: - structuralism, -modernism, -colonialism, and beyond. Within these broad paradigms some of the theories examined in depth are cinesemiotics, Marxism, cinematic apparatus, feminist film theory, reception theory, new media and virtual reality. SEM.

FMS 875. Problems in Advanced Video Production. 3 Hours.
Special projects in video production, using both studio and remote locations. In addition to the class sessions taught with FMS 475 Advanced Video Production, separate consultations and specific research assignments for graduate students in FMS 875 are also required. Prerequisite: FMS 775 or consent of instructor. LEC.

FMS 880. Development of American Popular Culture in the: _____ 3 Hours.
Intensive interdisciplinary examination of popular culture forms and their relationships with the social, political, and economic dynamics of America in a specific decade, with emphasis on film, broadcasting, theatre, music literature (including magazines and newspapers), and the graphic arts. Decade to be studied changes as resources and needs develop. LEC.

FMS 887. Film and the Public. 3 Hours.
A study of the actual and implied responsibilities of film and video to the public, as seen in regulations, self-regulatory codes, and the critical literature of the field. Prerequisite: Consent of instructor. LEC.

FMS 888. Special Problems in Film History and Criticism. 1-4 Hours. RSH.

FMS 895. Intensive Film Project Seminar. 1-4 Hours. RSH.
The student plans and executes an intensive special project which requires the professional skills of investigation and performance appropriate to radio, television and/or film. May be repeated for credit up to a maximum of six credit hours. (This seminar is to the special project program what "thesis" is to the traditional program.) RSH.

FMS 897. Practicum in Film. 1-3 Hours.
Various approaches to the illustration of principles of production in film and/or video through the supervision of laboratory exercises and subsequent evaluation by the Theatre and Film graduate faculty. FL.

FMS 898. Investigation and Conference (for Master’s Students). 1-8 Hours.
Directed research and experimentation in film or media. Limited to eight hours credit toward the Master's degree. RSH.

FMS 899. Master’s Thesis. 1-6 Hours.
THE.

FMS 902. Film Seminar in: ______. 3 Hours.
A graduate seminar devoted to selected historical, theoretical, or critical issues. Prerequisite: Consent of instructor. LEC.

FMS 998. Investigation and Conference (for Doctoral Students). 1-8 Hours.
RSH.

FMS 999. Doctoral Dissertation. 1-12 Hours.
THE.

Bachelor of Arts and Bachelor of General Studies in Film and Media Studies

Why study film and media?
The Department of Film and Media Studies unites the inquiry of the academic with the practice and technique of the artist. Scholars and filmmakers work and study together in an environment of mutual encouragement and collegiality.

First-Year Preparation
Students considering a major in film and media studies should enroll in FMS 100 and complete all courses required for admission to the major within the first 3 semesters.
Admission to the Major

Admission Requirements

Courses Required

Introduction to the Film Medium. Satisfied by:
FMS 100 Introduction to the Film Medium 3

Film and Media Aesthetics. Satisfied by:
FMS 200 Film and Media Aesthetics 3

American Popular Culture of: _____ . Satisfied by:
FMS 380 American Popular Culture of: _____ 3

Admission GPA

Satisfied by a minimum GPA of 2.5 on a 4.0 scale in required admission courses designated above. University Course Repeat Policy will apply.

Apply to the Major

Application Term

Students should apply to the major during the semester in which major admission criteria will be completed; normally no later than 60 hours, or for transfer students, during the initial term at KU. Application to this major after completion of 60 hours, or the initial KU term for transfer students, will likely delay graduation.

Application Process

Students with the film and media studies interest code who are enrolled in the second admissions class are contacted by the department and invited to a major admissions orientation mid-semester. Attendance at an orientation is necessary to be admitted to the film and media studies department. Admission occurs at the end of the semester once the 2.5 grade-point average in FMS 100, FMS 200, and FMS 380 is confirmed.

Film and Media Studies Programs

Film/video production experience is provided through course work at Oldfather Studios. B.A. and B.G.S. requirements are quite different, so it is important to check with a department advisor. The B.A. in film and media studies introduces students to the overall field of film and media studies and prepares them for graduate study. The B.G.S. in film and media studies prepares students broadly in film/video production.

Requirements for the B.A. Major

Film and Media Studies Core Knowledge and Skills (16)

Majors must complete the following courses:

FMS 100 Introduction to the Film Medium Admission requirements. Must receive a 2.5 cumulative GPA. 3

FMS 200 Film and Media Aesthetics Admission requirements. Must receive a 2.5 cumulative GPA. 3

FMS 380 American Popular Culture of: _____ Admission requirements. Must receive a 2.5 cumulative GPA. 3

FMS 345 New Media and Society 3

FMS 401 Undergraduate Professional Development Seminar 1

FMS 530 Classical Film/Media Theory 3

Film and Media Studies Required Electives (12)

Majors must complete a course in each of the following areas:

Documentary or Experimental Film. Satisfied by one of the following: 3

Film and Media Electives (6)

Satisfied by 6 hours from courses in the Film & Media Studies department (any course with an FMS prefix) 6

Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours

Satisfied by 37 hours of major courses.

Major Hours in Residence

Satisfied by a minimum of 15 hours of KU resident credit in the major, of which 8 must be at the junior/senior (300+) level.

Major Junior/Senior Hours

Satisfied by a minimum of 22 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Graduation Plan

With careful planning and commitment to a full-time course load, you can graduate in 4 years. For details please consult the department.

Requirements for the B.G.S. Major

Film and Media Studies Core Knowledge and Skills (16)

Majors must complete a course in each of the following areas:

FMS 100 Introduction to the Film Medium Admission requirements. Must receive a 2.5 cumulative GPA. 3

FMS 317 Film and Media Aesthetics 3

FMS 318 Cultural Studies 3

FMS 319 Production 3

FMS 320 Film History 3

FMS 622 American Film Criticism 3

Film and Media Electives (6)

Satisfied by 6 hours from courses in the Film & Media Studies department (any course with an FMS prefix) 6
The University of Kansas

FMS 200  Film and Media Aesthetics Admissions requirements. Must receive a 2.5 cumulative GPA.  

FMS 380  American Popular Culture of: _____ Admissions requirements. Must receive a 2.5 cumulative GPA.  

FMS 275  Basic Video Production  
FMS 401  Undergraduate Professional Development Seminar  
FMS 530  Classical Film/Media Theory  

Film and Media Studies Required Electives (15)

Majors must complete a course in each of the following:  

Documentary or Experimental Film. Satisfied by one of the following:  
FMS 592  Documentary Film and Video  
FMS 593  Experimental Film and Video  

Screenwriting, Film Criticism, or Media. Satisfied by one of the following:  
FMS 273  Basic Screenwriting  
FMS 345  New Media and Society  
FMS 621  American Film Criticism  

Film History. Satisfied by one of the following:  
FMS 310  History of the Silent Film  
FMS 311  History of the American Sound Film  
FMS 312  History of the International Sound Film to 1950  
FMS 313  History of the International Sound Film Post 1950  

Majors must complete two courses in the following area:  

Intermediate Production. Satisfied by two of the following:  
FMS 373  Intermediate Screenwriting  
FMS 374  Animation  
FMS 375  Intermediate Video Production  
FMS 376  Cinematography  
FMS 377  Post-Production  
FMS 477  Sound Design  
FMS 478  Experimental Production  
FMS 479  Broadcast Documentary Production  
FMS 480  Music Video Production  

Capstone: (3)  
FMS 585  Capstone in Film and Media Studies  

Film and Media Studies Electives (6)

Satisfied by 6 hours elected from courses in the Film & Media Studies department (any course with an FMS prefix).

Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 40 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major, of which 8 must be at the junior/senior (300+) level.

Major Junior/Senior Hours
Satisfied by a minimum of 22 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Departmental Honors

An undergraduate interested in honors in film and media studies must present a written declaration of intention to the department’s honors coordinator as early as possible in the junior or senior year. The following are required:

1. A grade-point average at the time of declaration and at graduation of at least 3.25 overall and 3.5 in film and media studies courses.
2. Six hours in FMS 498 Honors Seminar. Enrollment in this course must be approved by the honors coordinator. Students in the honors seminar work under the direction of one instructor for each semester. The instructor conducts an examination at the end of each semester’s work and assigns a grade. Credit only is given to students who complete the work assigned for any semester but do not complete the requirements for honors. Students may change area of interest or instructor at the beginning of a semester with the consent of the honors coordinator.
3. Satisfactory performance in a final oral examination given approximately one month before graduation.

Minor in Film and Media Studies

Why study film and media?
The Department of Film and Media Studies unites the inquiry of the academic with the practice and technique of the artist. Scholars and filmmakers work and study together in an environment of mutual encouragement and collegiality.

Requirements for the Minor

Students selecting this minor must complete the following:

FMS 100  Introduction to the Film Medium  
FMS 380  American Popular Culture of: _____  

Film History. Satisfied by one of the following:  
FMS 310  History of the Silent Film  
FMS 311  History of the American Sound Film  
FMS 312  History of the International Sound Film to 1950  
FMS 313  History of the International Sound Film Post 1950  

Theory and Criticism. Satisfied by one of the following:  
FMS 530  Classical Film/Media Theory  
FMS 531  Contemporary Concepts in Media Studies  

Film and Video. Satisfied by one of the following:  
FMS 592  Documentary Film and Video  
FMS 593  Experimental Film and Video  

Film Studies. Satisfied by one of the following:  
FMS 302  Undergraduate Studies Seminar in: _____

## Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

### Minor Hours

Satisfied by 18 hours of minor courses.

### Minor Hours in Residence

Satisfied by a minimum of 9 hours of KU resident credit in the minor.

### Minor Junior/Senior Hours

Satisfied by a minimum of 15 hours from junior/senior courses (300+) in the minor.

## Master of Arts in Film and Media Studies

### Why study film and media?

The Department of Film and Media Studies unites the inquiry of the academic with the practice and technique of the artist. Scholars and filmmakers work and study together in an environment of mutual encouragement and collegiality.

## Graduate Admission

### Graduate Admission Criteria

#### M.A. Degree

To be admitted, a student ordinarily is expected to have a Graduate Record Examination score of at least 160 (verbal), 144 (quantitative), and 4.5 analytical writing.

#### Ph.D. Degree

To be admitted, a student ordinarily is expected to have a Graduate Record Examination score of at least 160 (verbal), 144 (quantitative), and 4.5 analytical writing. Applicants also must have a grade-point average of at least 3.2 for undergraduate and at least 3.5 for graduate work, and a master’s degree acceptable to the graduate faculty. Deficiencies in a student’s background may require make-up work.

## How to Apply (Graduate Level)

### Deadlines

To apply for admission in the fall term, please submit all application materials for admission no later than

- **January 1** to be considered for funding
- **February 15** to be considered without funding

The department does not admit new students in the spring or summer terms.

### Online Submission of Application and Fee

Submit your application fee and graduate application online (http://www.graduate.ku.edu).

### Application Materials

Graduate Record Examination scores should be sent directly from the Educational Testing Service. For routing, the institution code is 6871; the department code is 4505. Check with your GRE Examination Center (http://www.ets.org/gre) to be certain your scores will arrive at KU by the application deadline.

The items listed below should be submitted online with the application and/or mailed to this address:

- **The University of Kansas**
  **Department of Film and Media Studies**
  **Attn: Graduate Secretary**
  **Oldfather Studios**
  **1621 W. 9th St.**
  **Lawrence, KS 66044-2488**

  - An official transcript, sent directly to KU, from every previous college or university attended (copies issued to students are not accepted).
  - 3 recent letters of recommendation, 2 of which should be from your current or former teachers. Each letter of recommendation must be accompanied by Graduate Letter of Recommendation Form. Completed letters with accompanying forms may be sent directly to the department by your recommenders, uploaded with your application, or included (in signed and sealed envelopes) with the rest of the materials you send us.
  - A current résumé of academic and artistic experiences.
  - A statement of personal goals that explains why you want to pursue graduate study.
  - A writing sample (no more than 15 pages) that demonstrates your ability to theorize, analyze, and synthesize scholarly information. (Please do not send theses, DVDs, CDs, jump drives, or videotapes.)
  - International students must provide TOEFL scores (http://policy.ku.edu/graduate-studies/english-proficiency-international-students) and the international I-20 Request Form.

### M.A. Degree Requirements

The Master of Arts in film and media is an academic degree, but students are expected to complete 6 hours in film and video production. All M.A. students must write a thesis as the culmination of the degree.

To be admitted, a student ordinarily is expected to have a Graduate Record Examination score of at least 160 (verbal), 144 (quantitative), and 4.5 analytical writing.

To complete the M.A., the student must sustain a grade-point average of 3.0 or higher through 33 graduate credit hours.

### Requirements for the M.A. in Film and Media Studies

A total of 33 hours is required.

#### Core Courses (15)

FMS 865 Contemporary Film and Media Theory 3

Production. Select two of the following:
FMS 673 Problems in Basic Screenwriting 3
FMS 675 Problems in Basic Video Production 3
FMS 676 Problems in Basic Film Production 3

Area of Concentration (12)
Select 12 hours of courses from one of the following 4 categories:

A. History and Theory
FMS 841 Asian Film 3
FMS 842 Latin American Film 3
FMS 862 Survey of Film and Media History 3
FMS 863 Survey of Documentary and Experimental Film and Media 3
FMS 902 Film Seminar in: _____ (an appropriate seminar) 3
1 elective in film history or theory 3

B. International Film and Media
FMS 841 Asian Film 3
FMS 842 Latin American Film 3
FMS 862 Survey of Film and Media History 3
1 elective chosen with the graduate advisor from the film and culture sequences offered, for example, by French and Italian or African and African-American studies, or an appropriate FMS 902 Film Seminar in: _____ (3)

C. Practical Criticism
FMS 621 American Film Criticism 3
FMS 880 Development of American Popular Culture in the: _____ (1 elective from the sequence in American Popular Culture) 3
Select one elective of the following: 3
FMS 841 Asian Film 3
FMS 842 Latin American Film 3
FMS 862 Survey of Film and Media History 3
FMS 863 Survey of Documentary and Experimental Film and Media 3
FMS 902 Film Seminar in: _____ (an appropriate seminar)

D. Theory and Practice of Production
Select two electives of the following: 6
FMS 675 Problems in Basic Video Production 3
FMS 676 Problems in Basic Film Production 3
FMS 773 Problems in Intermediate Screenwriting 3
Select two electives of the following: 6
FMS 841 Asian Film 3
FMS 842 Latin American Film 3
FMS 862 Survey of Film and Media History 3
FMS 863 Survey of Documentary and Experimental Film and Media 3

Master's Thesis
FMS 899 Master's Thesis 6

All courses should be selected in consultation with the advisor.

Doctor of Philosophy in Film and Media Studies

Why study film and media?
The Department of Film and Media Studies unites the inquiry of the academic with the practice and technique of the artist. Scholars and filmmakers work and study together in an environment of mutual encouragement and collegiality.

Graduate Admission

Graduate Admission Criteria

M.A. Degree
To be admitted, a student ordinarily is expected to have a Graduate Record Examination score of at least 160 verbal, 144 quantitative, and 4.5 analytical writing.

Ph.D. Degree
To be admitted, a student ordinarily is expected to have a Graduate Record Examination score of at least 600 (verbal), 500 (quantitative), and 4.5 (analytical writing). Applicants also must have a grade-point average of at least 3.2 for undergraduate and at least 3.5 for graduate work, and a master’s degree acceptable to the graduate faculty. Deficiencies in a student’s background may require make-up work.

How to Apply (Graduate Level)

Deadlines
To apply for admission in the fall term, please submit all application materials for admission no later than

• January 1 to be considered for funding
• February 15 to be considered without funding

The department does not admit new students in the spring or summer terms.

Online Submission of Application and Fee
Submit your application fee and graduate application online (http://www.graduate.ku.edu).

- International students must provide TOEFL scores (http://policy.ku.edu/graduate-studies/english-proficiency-international-students) and the international I-20 Request Form.

Ph.D. Degree Requirements
The Ph.D. is an academic degree, but students are expected to complete 6 hours in film and video production.

To be admitted, a student ordinarily is expected to have a Graduate Record Examination score of at least 160 (verbal), 144 (quantitative), and 4.5 analytical writing. The applicant also must have a grade-point average of at least 3.2 for undergraduate and at least 3.5 for graduate work and a master’s degree acceptable to the graduate faculty. Deficiencies in background may require make-up work.

Ph.D. Degree in Film and Media Studies
The degree requires 60 hours not including language proficiency. Please meet with your advisor or graduate director each semester to assess your progress.

Core Requirements
24 hours of core courses are required. Doctoral students in film and media studies must take a core of courses aimed at strengthening methodological, historical, and theoretical grounding. 1 course must be taken in non-Western/indigenous film; 2 graduate-level production courses are required, and 2 courses in FMS 902 Film Seminar are mandatory.

Elective Requirements
9 hours of electives are required. Elective courses focus on the academic study of history, international cinema, popular culture, and film criticism. These courses are selected with a graduate advisor to reflect the student’s special interest. The advisor may increase the number of hours, depending on the student’s academic needs.

Production Requirements
6 hours of production courses are required. Production courses give students an understanding of the production process in making film, video, or animation pieces. On graduation, doctoral students can perform as competent artisans in addition to research scholars. Production courses are selected with a graduate advisor to reflect the student’s specific interest. The advisor may increase the number of hours, depending on the student’s academic needs.

Secondary Field Requirements
9 hours of secondary field courses at the graduate level from outside the Department of Film and Media Studies, are chosen to assist the student in writing the dissertation. They are related to the student’s proposed area of specialization. Examples include English; history; women, gender, and sexuality studies; American studies; education; and social welfare.

Research Skills and Responsible Scholarship Requirements
KU requires all doctoral students to meet the Research Skills requirement before proceeding to comprehensive exams. Compliance with this policy requires all graduate students to receive training in responsible scholarship pertinent to the field of research and obtain research skills pertinent to the doctoral level of research in their field(s). Research Skills requirements may be satisfied by taking either FMS 902 : Research Methods and Applications of New Media or FMS 902 : Visual Methods. Students may also elect to demonstrate proficiency in one foreign language for conducting research.

Comprehensive Examination
2 publishable papers are due at the time of the examination. The examination includes written responses to questions in history, theory, production, and literature/criticism, followed by an oral examination.

Dissertation
18 hours of dissertation credit are required. The finished dissertation must constitute a palpable contribution to knowledge in the candidate’s chosen field. After its completion, an oral defense must be held no less than 4 weeks before the graduation deadline. The committee consists of 1 chair, 3 departmental members, and an outside member.

Undergraduate French

The Department of French & Italian offers a comprehensive undergraduate program in French language, literature, and culture, as well as Francophone literature and culture from around the world. In addition to first and second year courses in basics of grammar and conversation, advanced undergraduate courses in composition, literature, and culture are offered every semester. We offer a summer study abroad option in Paris, and a full semester study abroad program in Angers. Our summer and semester-long study abroad programs in Paris and Angers offer a wide variety of levels to students at all stages of linguistic competence. The major prepares students for a variety of careers in teaching or in graduate studies, as well as in fields such as interpreting, international business, art, art history, and travel. We encourage applicants from traditional and non-traditional backgrounds to investigate French as a major or as a minor field.

Undergraduate Italian

The Department of French & Italian offers a comprehensive undergraduate program in Italian language, literature, and culture, leading to the BA in French with the Italian Option or to the Minor in Italian. Italian offers courses in basic grammar, composition and conversation, literature and culture. The course sequence Italy and the Italians (ITAL 335-336) is also offered via ITV at the Edwards Campus in Kansas City. Our summer study abroad program in Florence offers a wide variety of levels to students at all stages of linguistic competence. The major prepares students for a variety of careers in teaching or in graduate studies, as well as in fields such as interpreting, international business, art, art history, architecture, and travel. We encourage applicants from traditional and non-traditional backgrounds to enrich their time at KU through the study of Italian.

Graduate French

The Department of French & Italian offers the M.A. and Ph.D. degrees in French and Francophone language, literature, and culture. Graduate study is supported through teaching assistantships offered to qualified candidates, who receive thorough training in language instruction. Excellent facilities, strong library holdings, and a faculty dedicated to both teaching and research assure students of a challenging and professional graduate preparation.

Undergraduate Programs

Course work in the Department of French and Italian gives undergraduates a valuable and useful linguistic tool; offers cultural training for students specializing in other fields; trains majors in the literature, culture, and civilization of France and Italy; and prepares prospective language teachers. The department welcomes qualified students from all disciplines, regardless of major.

Placement

In general, placement depends on the overall proficiency of the student and on what was accomplished in previous French or Italian courses. A student entering KU with no previous French should enroll in FREN 110. A student entering KU with no previous Italian should enroll in ITAL 107, ITAL 110, or ITAL 155.

Students with past course work/experience in French should take the online French placement examination offered through the Ermal Garinger Academic Resource Center (http://www2.ku.edu/~egarc) at KU. Once the student has the placement score, he or she should contact the French language coordinator in the Department of French and Italian to determine which French course is appropriate for his or her level. A student who has four years of high school French and wants to continue the study of French beyond the language requirement generally enrolls in FREN 300 or FREN 326, depending on the placement examination results. Students who feel they are sufficiently prepared to test out of the language requirement may contact the department office to arrange to take a French proficiency test.

Any student with past course work or experience in Italian should contact the Italian program director in the Department of French and Italian to determine which Italian course is appropriate for his or her level.

Retroactive Credit

Students with no prior college or university French or Italian course credit are eligible for retroactive credit according to this formula:

- 9 hours of retroactive credit are awarded to a student with 4 years of high school French or Italian who enrolls initially at KU in a third-semester French or Italian course (FREN 230 or FREN 231 or ITAL 230) and receives a grade of C– or higher.
- 6 hours of retroactive credit are awarded to a student with 3 or 4 years of high school French or Italian who enrolls initially at KU in a fourth-semester French or Italian course (FREN 240 or FREN 241 or ITAL 240) and receives a grade of C– or higher.
- 3 hours of retroactive credit are awarded to a student with 2 or 3 years of high school French or Italian who enrolls initially at KU in a first-semester French or Italian course (FREN 110 or ITAL 110) and receives a grade of C– or higher.

## Department of French and Italian

Why study French, Italian, and Francophone studies?

French, Italian, and Francophone studies ensure that our students succeed in an interconnected world.

Undergraduate French

The Department of French & Italian offers a comprehensive undergraduate program in French language, literature, and culture, as well as Francophone literature and culture from around the world. In addition to first and second year courses in basics of grammar and conversation, advanced undergraduate courses in composition, literature, and culture are offered every semester. We offer a summer study abroad option in Paris, and a full semester study abroad program in Angers. Our summer and semester-long study abroad programs in Paris and Angers offer a wide variety of levels to students at all stages of linguistic competence. The major prepares students for a variety of careers in teaching or in graduate studies, as well as in fields such as interpreting, international business, art, art history, and travel. We encourage applicants from traditional and non-traditional backgrounds to investigate French as a major or as a minor field.

Undergraduate Italian

The Department of French & Italian offers a comprehensive undergraduate program in Italian language, literature, and culture, leading to the BA in French with the Italian Option or to the Minor in Italian. Italian offers courses in basic grammar, composition and conversation, literature and culture. The course sequence Italy and the Italians (ITAL 335-336) is also offered via ITV at the Edwards Campus in Kansas City. Our summer study abroad program in Florence offers a wide variety of levels to students at all stages of linguistic competence. The major prepares students for a variety of careers in teaching or in graduate studies, as well as in fields such as interpreting, international business, art, art history, architecture, and travel. We encourage applicants from traditional and non-traditional backgrounds to enrich their time at KU through the study of Italian.

Graduate French

The Department of French & Italian offers the M.A. and Ph.D. degrees in French and Francophone language, literature, and culture. Graduate study is supported through teaching assistantships offered to qualified candidates, who receive thorough training in language instruction. Excellent facilities, strong library holdings, and a faculty dedicated to both teaching and research assure students of a challenging and professional graduate preparation.

Undergraduate Programs

Course work in the Department of French and Italian gives undergraduates a valuable and useful linguistic tool; offers cultural training for students specializing in other fields; trains majors in the literature, culture, and civilization of France and Italy; and prepares prospective language teachers. The department welcomes qualified students from all disciplines, regardless of major.

Placement

In general, placement depends on the overall proficiency of the student and on what was accomplished in previous French or Italian courses. A student entering KU with no previous French should enroll in FREN 110. A student entering KU with no previous Italian should enroll in ITAL 107, ITAL 110, or ITAL 155.

Students with past course work/experience in French should take the online French placement examination offered through the Ermal Garinger Academic Resource Center (http://www2.ku.edu/~egarc) at KU. Once the student has the placement score, he or she should contact the French language coordinator in the Department of French and Italian to determine which French course is appropriate for his or her level. A student who has four years of high school French and wants to continue the study of French beyond the language requirement generally enrolls in FREN 300 or FREN 326, depending on the placement examination results. Students who feel they are sufficiently prepared to test out of the language requirement may contact the department office to arrange to take a French proficiency test.

Any student with past course work or experience in Italian should contact the Italian program director in the Department of French and Italian to determine which Italian course is appropriate for his or her level.

Retroactive Credit

Students with no prior college or university French or Italian course credit are eligible for retroactive credit according to this formula:

- 9 hours of retroactive credit are awarded to a student with 4 years of high school French or Italian who enrolls initially at KU in a third-semester French or Italian course (FREN 230 or FREN 231 or ITAL 230) and receives a grade of C– or higher.
- 6 hours of retroactive credit are awarded to a student with 3 or 4 years of high school French or Italian who enrolls initially at KU in a fourth-semester French or Italian course (FREN 240 or FREN 241 or ITAL 240) and receives a grade of C– or higher.
- 3 hours of retroactive credit are awarded to a student with 2 or 3 years of high school French or Italian who enrolls initially at KU in a first-semester French or Italian course (FREN 110 or ITAL 110) and receives a grade of C– or higher.
Courses for Nonmajors

All courses are open to nonmajors who meet requirements. Candidates for the B.S. degree in education who want to major or minor in French (p. 346) should consult the School of Education. Special concentrations in French and Italian are also available through business and journalism.

Graduate Program in French

The Department of French and Italian offers a comprehensive graduate program (M.A. and Ph.D.) in French and Francophone language, literature, and culture. Our faculty (http://www.frenchitalian.ku.edu/ faculty) is dynamic, professionally active, and committed to excellence in scholarship and teaching. Although the major emphasis of teaching and research is French and Francophone literature, the department also offers courses in literary theory, cultural studies, and film. The department offers a balanced emphasis on all periods from medieval through twentieth and twenty-first centuries. Our students represent a diverse group, and we encourage equally applicants from traditional and nontraditional backgrounds. Excellent facilities, strong library holdings, and a faculty dedicated to both teaching and research assure students of a challenging and professional graduate preparation. Please visit the Graduate Program page (https://frenchitaliandev.drupal.ku.edu/graduate-teaching) of our departmental website for additional information.

Departmental Funding

While it is not guaranteed, the department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year and come with:

- a competitive academic year (9 month) salary
- a 100% tuition waiver for all courses at KU
- payment of up to 3 hours of student fees
- optional University-subsidized group health insurance

The appointments are guaranteed based on performance for up to 3 years for M.A. students, 5 years for Ph.D. students and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training in language instruction, close mentoring, and the opportunity to teach French at a variety of levels, providing them with a strong base of teaching experience upon entering the job market. Additional information about teaching for the department is available on the Graduate Funding page (https://frenchitaliandev.drupal.ku.edu/overview-5) of the departmental website.

Additional Funding

Other funding opportunities for graduate students include the Office of Study Abroad’s Springer award; the department’s Cornell, Mahieu, and Magerus fellowships; awards for research abroad; and French university exchanges.

Visit the Graduate Studies website for additional information about funding opportunities (http://www.humanities.ku.edu/funding-opportunities) for graduate students at KU.

Financial Aid and Scholarships (http://affordability.ku.edu/steps/index.shtml) administers grants, loans, and need-based financial aid.

Courses

FREN 100. French for Reading Knowledge. 3 Hours. U.
Special course for candidates for advanced degrees in other departments. Fundamentals of grammar and reading of material of medium difficulty. Intended primarily for graduate students, but open also to seniors planning graduate study. Does not satisfy any part of the undergraduate language requirement. Prerequisite: previous study of French. Conducted in English. LEC.

FREN 104. Elementary French, Overseas. 1-5 Hours. U.
Basic language instruction in French for beginners participating in study abroad programs in France or a French-speaking country. Graded satisfactory/unsatisfactory. LEC.

FREN 107. Elementary French I for the Professional Schools. 3 Hours.
Essentials of French grammar; practice in speaking, reading, and writing French. Introduction to French business culture. Three hours of class per week. This course does not satisfy the College of Liberal Arts and Sciences foreign language requirement. LEC.

FREN 108. Elementary French II for the Professional Schools. 3 Hours. U.
Essentials of French grammar; practice in speaking, reading, and writing French. Introduction to French business culture. Three hours of class per week. This course does not satisfy the College of Liberal Arts and Sciences foreign language requirement. Prerequisite: FREN 107 or equivalent. LEC.

FREN 109. Elementary French III for the Professional Schools. 3 Hours. U.
Essentials of French grammar; practice in speaking, reading, and writing French. Introduction to French business culture. Three hours of class per week. This course does not satisfy the College of Liberal Arts and Sciences foreign language requirement. Prerequisite: FREN 108 or equivalent. LEC.

FREN 110. Elementary French I. 5 Hours. U.
Five hours of class per week. A balanced approach stressing understanding, speaking, reading, and writing. LEC.

FREN 120. Elementary French II. 5 Hours. U.
Five hours of class per week. A balanced approach stressing understanding, speaking, reading, and writing. Prerequisite: FREN 110 or by departmental permission. LEC.

FREN 152. France and the French. 3 Hours. HL AE42/GE3H / H.
A comprehensive, interdisciplinary survey of French culture that may include topics ranging from the earliest times to the present, with particular attention to literature, the arts, thought, politics, society, food, and customs. Taught in English. Does not fulfill any requirement in the French major or minor. LEC.

FREN 177. First Year Seminar: __________. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in French. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

FREN 230. Intermediate French I. 3 Hours. U.
Third-semester course stressing oral and written work in French; systematic review of grammar and introduction to reading in cultural texts. (See also FREN 231, FREN 234.) Prerequisite: FREN 120 or by departmental permission. LEC.
FREN 231. Intermediate French I, Honors. 3 Hours. U.
Similar in approach and content to FREN 230; smaller class size; open to students who had done very good to excellent work in previous French classes. Prerequisite: Grade of B or A in FREN 120 or departmental permission. LEC.

FREN 234. Intermediate French I and II. 6 Hours. U.
One-semester course meeting five times a week for six hours credit. Material same as in FREN 230 and FREN 240. (FREN 234, FREN 240, FREN 241--each completes foreign language requirement.) Prerequisite: FREN 240 or by departmental permission. LEC.

FREN 240. Intermediate French II. 3 Hours. U.
Continuation of FREN 230. (FREN 234, FREN 240, FREN 241--each completes foreign language requirement.) (See also FREN 241.) Prerequisite: FREN 230, FREN 231, or by departmental permission. LEC.

FREN 241. Intermediate French II, Honors. 3 Hours. U.
Similar in approach and content to FREN 240; smaller class size; open to students who have done very good to excellent work in previous French classes. Prerequisite: A grade of A in FREN 230 or FREN 231, or departmental permission. LEC.

FREN 300. Intensive Review of French Grammar. 3 Hours. H/W.
Designed to provide essential skills for advanced courses. Prerequisite: FREN 240, FREN 240, FREN 241, or by departmental permission. LEC.

FREN 310. French Phonetics. 3 Hours. GE3S / H/W.
A course in practical phonetics with exercises stressing rhythm, intonation, and individual sounds. Prerequisite: FREN 240, FREN 241, or by departmental permission. LEC.

FREN 315. Le Francais Pratique. 1-6 Hours. H/W.
Supplementary non-major language course that can be a sequel to the first four semesters of French. Primarily for students studying abroad. Covers vocabulary study, oral exercises, discussion of texts, writing, and free conversation. Prerequisite: FREN 230/231 or FREN 240, FREN 240/241. LEC.

FREN 326. Introduction to French Literature. 3 Hours. HL AE42/GE3H / H.
Analysis of selected texts from various genres; special emphasis on explication de texte. Prerequisite: FREN 300 (or with FREN 300), or by departmental permission. LEC.

FREN 330. French Language and Civilization I. 3 Hours. H.
A study of French grammar, conversation, and composition, with selected aspects of French civilization. Available to participants in the Summer Language Institutes, and selected Study Abroad programs. LEC.

FREN 340. French Language and Civilization II. 3 Hours. H.
A study of French grammar, conversation, and composition, with selected aspects of French civilization. Available to participants in the Summer Language Institutes, and selected Study Abroad Programs. LEC.

FREN 350. Applied French Grammar and Composition I. 3 Hours. H/W.
Systematic grammar review with extensive practice in writing French. Prerequisite: FREN 300 or FREN 326. LEC.

FREN 352. French for Journalism and Business. 3 Hours. H/W.
Practical acquisition of skills necessary to understand the language of journalism and business. Prerequisite: FREN 300. LEC.

FREN 375. Intermediate French Conversation. 3 Hours. H/W.
Three meetings per week. Guided discussions designed to increase fluency, improve pronunciation, and acquire vocabulary. Sections limited to twelve students. May be designated a KULAC class at the discretion of the instructor. Prerequisite: FREN 300 or concurrent enrollment in FREN 300. LEC.

FREN 376. Advanced French Conversation. 3 Hours. H/W.
Three meetings per week. Guided discussions designed to increase fluency, improve pronunciation, and knowledge of French culture and language. Classes have centered around topics such as the French Revolution, the Arts, Renaissance Festivals, and French cinema. Sections limited to twelve students. May be designated a KULAC class at the discretion of the instructor. Prerequisite: FREN 375. LEC.

FREN 401. Paris, City of Lights and Legends. 3 Hours. HL AE42/GE3H / H.
An exploration of the French capital from its origins to present as emblem and icon of the social, literary, cultural, and political development of the French nation and of French ideals. Topics include great persons, events, works, symbols, and myths since the founding of the city to the present. Taught in English. Does not fulfill any requirement in the French major or minor. LEC.

FREN 405. French Literature in Translation. 3 Hours. HL AE42/GE3H / H.
Readings and discussions of representative great masterpieces of French literature from the medieval Arthurian romances and chansons de geste to the present, with particular emphasis on the question of the interrelations of form and content. Includes such authors as Rabelais, Montaigne, Racine, Molire, Voltaire, Balzac, Flaubert, Baudelaire, Proust, Gide, Camus, and Beckett. Conducted in English. A reading knowledge of French is extremely useful but not a requirement. LEC.

FREN 406. Introduction to French Culture Through Film. 3 Hours. AE42/GE3H / H/W.
Discussion of great masterpieces of French film from the silent era to the present, with a particular emphasis on how film portrays and conveys important aspects of French culture past and present. The works of a variety of film-makers may be covered, and may include among others Georges Melles, Jean Vigo, Jean Renoir, Abel Gance, Rene Clair, Marcel Carne, Jean Cocteau, Alain Resnais, Jean-Luc Godard, Francois Truffaut, Agnes Varda, Louis Malle, Eric Rohmer, and Claude Berri. Films will be shown in French with subtitles in English. Knowledge of French is useful, but not required. LEC.

FREN 410. Survey of French Culture I. 3 Hours. AE42/GE3H / H/W.
A survey of the historical, philosophical, literary, and artistic development of France, from the beginning through the 17th century. Prerequisite: FREN 300 and FREN 326. May be designated a KULAC class at the discretion of the instructor. LEC.

FREN 420. Survey of French Culture II. 3 Hours. AE42/GE3H / H/W.
Continuation of FREN 410, from the 18th century to the present. Prerequisite: FREN 300 and FREN 326. May be designated a KULAC class at the discretion of the instructor. LEC.

FREN 430. La France d’Aujourd’Hui. 3 Hours. AE42/GE3H / H/W.
Social, political, and economic trends from 1939 to present, with emphasis on period since 1968. Prerequisite: FREN 300 and FREN 326. May be designated a KULAC class at the discretion of the instructor. LEC.

FREN 431. French-Speaking World (Outside France). 3 Hours. AE42/GE3H / H/W.
Cultures of the some 235 million persons in the five world areas whose everyday and/or official language is French: Canada; Caribbean (e.g., Haiti, Guadeloupe, Martinique); Europe (e.g., Belgium, Switzerland); Africa and Indian Ocean (23 former French or Belgian colonies); Pacific (e.g., Tahiti, New Caledonia). Also French-speaking settlers in the United States (Louisiana, South Carolina, New England, Kansas). French presence in Indo-China and the Near East. Prerequisite: FREN 300 and
FREN 326. (May be taken concurrently with FREN 300 and/or FREN 326.) May be designated a KULAC class at the discretion of the instructor. LEC.

FREN 432. Francophone African Literature. 3 Hours. NW AE42/GE3H / H/W.

This course is an introduction of 20th Century African literature written in French, covering selected works by major authors from both sub-Saharan Africa and the Maghreb. Attention will be given primarily to the novel, although some poetry will also be read. Topics and themes include negritude, African identity in the wake of colonialism, Islam, and women's writing. Classes will be conducted in English. Students may read the texts in French or in translation. (Same as AAAS 432.) Prerequisite: ENGL 102 and a 200-level English course. LEC.

FREN 440. Studies in French Culture: ______. 3 Hours. H/W.

Representative topics are: History of Paris, Role of Women in French Literature and Culture, Interrelationships of the Arts, French-speaking African Culture, Culture of French Canada. May be repeated for credit with departmental permission; may also be repeated as part of major in French language and culture. Prerequisite: FREN 300 and FREN 326. May be designated a KULAC class at the discretion of the instructor. LEC.

FREN 450. French Literature of the Middle Ages. 3 Hours. AE42/GE3S / H/W.

Study of the principal authors, movements, and themes of the period. Prerequisite: FREN 300 and FREN 326. LEC.

FREN 455. French Literature of the Renaissance. 3 Hours. AE42/GE3S / H/W.

Study of the principal authors, movements, and themes of the period. Prerequisite: FREN 300 and FREN 326. LEC.

FREN 460. French Literature of the Seventeenth Century. 3 Hours. AE42/GE3S / H/W.

Study of the principal authors, movements, and themes of the period. Prerequisite: FREN 300 and FREN 326. LEC.

FREN 462. French Literature of the Eighteenth Century. 3 Hours. AE42/GE3S / H/W.

Study of the principal authors, movements, and themes of the period. Prerequisite: FREN 300 and FREN 326. LEC.

FREN 465. French Literature of the 19th Century. 3 Hours. AE42 / H/W.

Study of the principal authors, movements, and themes of the period. Prerequisite: FREN 300 and FREN 326. LEC.

FREN 470. French Literature of the Twentieth Century. 3 Hours. AE42/GE3S / H/W.

Study of the principal authors, movements, and themes of the period. Prerequisite: FREN 300 and FREN 326. LEC.

FREN 480. Studies in French Literature: ______. 3 Hours. H/W.

A study of a period, theme, group of authors, or movement. Subject matter will vary; may be taken more than once if subject differs. Prerequisite: FREN 300 and FREN 326. LEC.

FREN 495. Directed Readings in French. 1-15 Hours. AE61 / U.

May be taken more than once, total credit not to exceed fifteen hours. Fields not covered by course work, and/or field of student's special interest. Conferences. Counts as humanities when taken for two or three hours. Prerequisite: Twenty-five hours of French and consent of instructor. IND.

FREN 499. Honors in French. 3 Hours. AE61 / H/W.

Various topics in French or Francophone literature or culture. May be taken more than once, total credit not to exceed nine hours. Minimum of six hours of FREN 499 required for B.A. with Honors in French. Student must discuss Honors eligibility and their topic with a faculty member before enrolling. IND.

FREN 500. Advanced French Phonetics. 3 Hours. GE3S / H/W.

Advanced theory and practice of French pronunciation. Not open to students who have taken FREN 310, except by departmental permission. Prerequisite: FREN 300 or FREN 326 or graduate standing. LEC.

FREN 530. Studies in Film: ____, 3 Hours. AE42/AE61 / H/W.

Studies in an aspect of film, a director or group of directors. Emphasis on French film. Given in French or English. LEC.

FREN 592. French Culture Through Film I, Beginnings to 1950. 3 Hours. AE42/AE61 / H/W.

A survey of the major public images of French culture as surveyed in French silent and sound film from the early 1900s through World War II and its immediate aftermath. Students will view and discuss a selection of films that address crucial aspects of French culture such as (but not limited to) gender, war and peace, daily life, art and artists, tradition and revolution, city life versus country life, social classes, moral choice, and individual freedoms. The course will include discussion of the cultural and artistic significance of major French film movements like Poetic Realism. In addition to viewing and discussing films, students will read and analyze the writings of a number of French intellectuals, writers, and artists who have had a major influence on French culture as it appears in films from 1900-1950. May be taught in French or English. For students who already have some knowledge of French culture. LEC.

FREN 593. French Culture Through Film II, 1950-Present. 3 Hours. AE42/AE61 / H/W.

A survey of the major public images of French culture as surveyed in French silent and sound film from 1950 to present. Students will view and discuss a selection of films that address crucial aspects of French culture such as (but not limited to) gender, war and peace, daily life, art and artists, tradition and revolution, city life versus country life, colonialism and post-colonialism, social classes, moral choice, and individual freedoms. The course will include discussion of the cultural and artistic significance of major French film movements like the New Wave. In addition to viewing and discussing films, students will read and analyze the writings of a number of French intellectuals, writers, and artists who have had a major influence on French culture as it appears in films from 1950-present. May be taught in French or English. For students who already have some knowledge of French culture. LEC.

FREN 600. Studies in: ______. 3 Hours. H/W.

Topics vary by semester. May be repeated for credit. Prerequisite: Departmental permission. LEC.

FREN 610. Theme et Version. 3 Hours. H/W.

Exercises in English-French and French-English translation, designed to enable the student to write with greater clarity and precision in both languages. LEC.

FREN 620. Expository French Writing. 3 Hours. H/W.

Intensive practice in writing French, designed to clarify fine points of grammar and usage and to aid the student in developing an accurate and graceful prose style. LEC.

FREN 680. Language Teaching and Advanced Conversation. 2-3 Hours. U.

A summer course designed principally for secondary school language teachers. Discussion of current theory in language acquisition integrated into an intensive oral review of French. Meets three hours daily for two weeks; includes lab. (Not applicable toward a major or graduate degree in French.) LEC.
FREN 681. Language Teaching for Oral Proficiency. 1 Hour. U.
A summer course designed principally for secondary school language teachers. Provides an orientation to proficiency-based models in foreign language instruction, national standards in the rating of foreign language proficiency, and curriculum development sessions which address issues of articulation in foreign language curricula. (Not applicable toward a major or graduate degree in French.) (Same as GERM 681 and SPAN 681.) LEC.

FREN 700. Old French. 3 Hours.
Introduction to grammar and structure through the reading of representative works. LEC.

FREN 701. History of the French Language. 3 Hours.
Major aspects of development and growth. Conducted in English. LEC.

FREN 702. Provençal. 3 Hours.
Introduction to grammar and structure of the language through a reading of representative works from the Troubadour period. LEC.

FREN 703. Structure of Modern French. 3 Hours.
Linguistic analysis of the phonological, morphological, and syntactic structure of modern French. Description in terms of current theories and models. Application of linguistic analyses to the teaching of French. LEC.

FREN 704. Methods in French Language Instruction. 3 Hours.
This course provides an overview of current and historical approaches to foreign language teaching, with reference to the instruction of French. Past and current trends and methodologies of language instruction are examined in order to acquaint students with various classroom approaches. Research findings in second language acquisition are explored and their implications discussed so as to show how these findings lead to more effective classroom practices. LEC.

FREN 720. Introduction to Graduate Studies in French. 3 Hours.
This course is an introduction to the skills required of students doing graduate degrees in French; areas covered include 1) introduction to literary theory and criticism, 2) bibliography and research methods, including database management software, 3) preparation and presentations of a research/conference paper, 4) technology training, including web design, on-line portfolio, and digital humanities, and 5) professional ethics and awareness of the academic market and alternative careers. LEC.

FREN 730. Introduction to French Poetry. 3 Hours.
A detailed introduction to versification, rhetoric, image and symbol as they apply to the study of poetry. Texts will be chosen from one or more periods of French literature and will include poems in verse and prose. Considerations and readings on the history of French poetry, on the composition of recueils, on poetic theory, and on the relation of poetry to other genres and media may be incorporated. LEC.

FREN 732. Francophone Studies. 3 Hours.
Selected movements, genres, topics in the cultures and/or literatures of the French-speaking world outside France. May be repeated for credit. LEC.

FREN 740. Medieval French Literature. 3 Hours.
Literary history of the period, with discussion of representative works read for the most part in the original old French. LEC.

FREN 750. French Literature of the Sixteenth Century. 3 Hours.
A survey of the major writers, covering Rabelais, Sceve, Louise Labe, Marguerite de Navarre, Ronsard, Du Bellay, Montaigne, and d’Aubigné. LEC.

FREN 763. French Drama of the Seventeenth Century. 3 Hours.
Development of baroque and classical French drama, with emphasis on Corneille, Molière, and Racine. LEC.

FREN 765. Nondramatic French Literature of the Seventeenth Century. 3 Hours.
Esthetics of baroque and classicism. Emphasis on Descartes, Pascal, La Rochefoucauld, Mme de Lafayette, although other authors may be studied. LEC.

FREN 770. French Literature of the Eighteenth Century. 3 Hours.
Special attention paid to Montesquieu, Voltaire, Diderot, and Rousseau; also development of novel and drama. LEC.

FREN 782. French Novel of the 19th Century. 3 Hours.
Emphasis on major novelists of the century: Balzac, Stendhal, Flaubert, and Zola. LEC.

FREN 785. French Romantic Movement. 3 Hours.
Major Romantic writers viewed in context of intellectual, esthetic, and social milieu of period 1800-1850. LEC.

FREN 787. French Post-Romanticism. 3 Hours.
Literary movements developing out of reaction to Romanticism: Realism, Naturalism, Parnassianism. LEC.

FREN 790. Contemporary French Writers. 3 Hours.
Major 20th century authors, stressing Proust, Gide, Giraudoux, Claudel, Sartre, and Camus. LEC.

FREN 792. Proust. 3 Hours.
Principal movements, structures, and tensions of A la recherche du temps perdu. LEC.

FREN 795. Investigation and Conference. 1-3 Hours.
Readings and research projects in French language, literature, and culture for students at the MA level. Directed work to fulfill needs not met by available courses. One-three hours credit in any semester. Maximum credit for M.A.: Three hours. By special departmental permission only. RSH.

FREN 799. Masters Seminar. 1 Hour.
To meet Masters degree requirement for continual enrollment. This course will be graded satisfactory/unsatisfactory. FLD.

FREN 800. Studies in: _____ . 3 Hours.
Study of topics not limited to one century. May be repeated for credit. LEC.

FREN 810. Criticism and Critical Methods. 3 Hours.
Literary criticism from historical, theoretical, and practical point of view. LEC.

Selected topics to be specified. Study of form, movements, or themes in the French Novel, not limited to one century. May be repeated for credit. LEC.

FREN 814. Studies in the French Short Story: _____ . 3 Hours.
Selected topics to be specified. Study of form and theory of the French short story, not limited to one century. May be repeated for credit. LEC.

FREN 842. Arthurian Literature in France. 3 Hours.
Origins and development of Arthurian legend; analysis of major texts. Prerequisite: FREN 700. LEC.

FREN 848. Studies in Medieval French Literature: _____ . 3 Hours.
Various movements, themes, or genres. May be repeated for credit. Prerequisite: FREN 700. LEC.

FREN 850. Early Renaissance Literature. 3 Hours.
Emphasis on Rabelais, Marguerite de Navarre, Marot, Maurice Sceve and Louise Labe. LEC.
ITAL 107. Elementary Italian Conversation I. 3 Hours.
First part of a two-course sequence (with ITAL 108) for students with no previous study of a foreign language and minimal linguistic background as well as for students in professional schools who plan to participate in study abroad programs in Italy. Offers knowledge of essential grammar and basic oral communication skills through practice in grammar, listening comprehension, and conversation. Active participation required. Completion of both ITAL 107 and ITAL 108 is equivalent to ITAL 110 and allows students to enroll in ITAL 120. LEC.

ITAL 108. Elementary Italian Conversation II. 3 Hours. U.
A continuation of ITAL 107, second part of a two-course sequence for students with no previous study of a foreign language and minimal linguistic background as well as for students in professional schools who plan to participate in study abroad programs in Italy. Offers knowledge of essential grammar and basic oral communication skills through practice in grammar, listening comprehension, and conversation. Active participation required. Completion of both ITAL 107 and ITAL 108 is equivalent to ITAL 110 and allows students to enroll in ITAL 120. Prerequisite: ITAL 107 or Italian Coordinator's approval. LEC.

ITAL 110. Elementary Italian I. 5 Hours. U.
Introduction to Italian language and culture. Essentials of grammar and practice in speaking, understanding, reading, and writing. Active participation required. Five hours of class per week. LEC.

ITAL 120. Elementary Italian II. 5 Hours. U.
Five hours of class. Reading of simple texts; diction; speaking; elementary composition. Prerequisite: ITAL 110. LEC.

ITAL 152. Studies in Italian Heritage. 3 Hours. AE41/GE11 / H.
A comprehensive, interdisciplinary survey of the ways in which the historical culture of Italy can be found in Lawrence, KS. Emphasis is on politics, sciences, philosophy, media, and immigration. Uses materials from various KU collections. Taught in English. Does not fulfill any requirement in the Italian major or minor. LEC.

ITAL 155. Intensive Basic Italian I. 3 Hours. U.
First part of a two-course sequence (with ITAL 156) for students with previous language study or strong linguistic background. Same content as ITAL 110 but accomplished in three hours of class per week. Active participation required. Prerequisite: Previous study of another language or permission of instructor. LEC.

ITAL 156. Intensive Basic Italian II. 3 Hours. U.
A continuation of ITAL 155, second part of a two-course sequence for students with previous language study or strong linguistic background. Same content as ITAL 120 but accomplished in three hours of class per week. Active participation required. Prerequisite: ITAL 155 or permission of instructor. LEC.

ITAL 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Italian. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.
ITAL 240. Intermediate Italian II. 3 Hours. U.
Continuation of ITAL 230. (ITAL 240 completes foreign language requirement.) Review and expansion of grammatical structures introduced in Elementary Italian I and II, with continued practice in speaking, understanding, reading, and writing, coordinated with the study of cultural texts. Active participation required. Prerequisite: ITAL 230. LEC.

ITAL 300. Composition and Conversation. 3 Hours. H/W.
Study of advanced grammatical structures with extensive practice in writing and conversation. Guided discussions on a variety of contemporary Italian literary, journalistic, and cinematic works. Active participation required. Prerequisite: ITAL 240 or permission of instructor. LEC.

ITAL 301. Introduction to Italian Literature I. 3 Hours. AE42/GE3S / H/W.
Representative works and trends from origins to Renaissance. Prerequisite: ITAL 240 or reading knowledge of Italian. LEC.

ITAL 302. Introduction to Italian Literature II. 3 Hours. AE42/GE3S / H/W.
Representative works and trends from 17th century to present. Prerequisite: ITAL 240 or reading knowledge of Italian. LEC.

ITAL 303. Italian Language and Civilization I. 3 Hours. U.
An advanced study of Italian grammar, conversation, composition, with selected aspects of Italian civilization. Available only to participants in the KU summer language institute or semester abroad program in Florence or Rome. Prerequisite: ITAL 240. LEC.

ITAL 304. Italian Language and Civilization II. 3 Hours. U.
An advanced study of Italian grammar, conversation, composition, with selected aspects of Italian civilization. Available only to participants in the KU summer language institute or semester abroad program in Florence or Rome. Prerequisite: ITAL 303. LEC.

ITAL 315. Advanced Composition and Conversation. 3 Hours. H/W.
Continuation of ITAL 300. Study of advanced grammatical structures with extensive practice in writing and conversation. Guided discussions on a variety of contemporary Italian literary, journalistic, and cinematic works. Active participation required. Prerequisite: ITAL 300 or permission of instructor. LEC.

ITAL 335. Italy and the Italians I. 3 Hours. HL AE42/GE3H / H.
Survey of Italian culture with study of geography, history, government, education, Roman archaeology, and music. Lecture, discussion, and supportive readings. Not open to native speakers of Italian. LEC.

ITAL 336. Italy and the Italians II. 3 Hours. GE11/GE3H/GE3S / H.
Survey of Italian culture with study of art and architecture, literary masterpieces in translation, science, culinary arts, and cinema. Lecture, discussion, and supportive readings. Not open to native speakers of Italian. LEC.

ITAL 340. Studies in Italian Culture: ____. 3 Hours. AE42 / H.
A study of particular aspects of and/or periods in Italian culture. May be repeated for credit with departmental permission. Prerequisite: ITAL 240 or permission of instructor. LEC.

ITAL 405. Italian Literature in Translation: ____. 3 Hours. AE42/GE3S / H/W.
Major works representing various movements, themes, or genres. May be repeated with departmental permission. All work done in English. LEC.

ITAL 410. 19th and 20th Century Short Stories. 3 Hours. AE42 / H/W.
A survey of representative short stories of the 19th and 20th Centuries, including Verga, Panzini, Pirandello, Guareschi, Moravia, Calvino, Landolfi, and Bigiaretti. Prerequisite: ITAL 240 or reading knowledge of Italian or permission of instructor. LEC.

ITAL 420. 19th and 20th Century Poetry. 3 Hours. AE42 / H/W.
A survey of 19th and 20th century poets and their works, including Leopardi, Pascoli, d'Annunzio, Govoni, Palazzeschi, Gozzano, Marinetti, Boccioni, Ungaretti, Montale, Quasimodo, and Pasolini. Prerequisite: ITAL 240 or reading knowledge of Italian or permission of instructor. LEC.

ITAL 430. Dante's Masterpiece. 3 Hours. AE61 / H/W.
Detailed study of Dante's epic poem with a close reading of the Inferno. Prerequisite: ITAL 300 or demonstrated knowledge of Italian. LEC.

ITAL 440. Italian Renaissance and Early Modern Literature. 3 Hours. H/W.
Detailed study of selected masterpieces of the Italian Renaissance from the 13th to the 18th centuries. Prerequisite: ITAL 300 or demonstrated knowledge of Italian. LEC.

ITAL 465. 19th and 20th Century Novels I. 3 Hours. AE42/GE3S / H/W.
With ITAL 466, a survey of representative 19th and 20th century novels including those of Manzoni, Pirandello, Svevo, Deledda, Vittorini, Moravia, Pavese, Pratolini, Buzzati, Ginzburg, and Calvino. Prerequisite: ITAL 240 or reading knowledge of Italian or permission of instructor. LEC.

ITAL 466. 19th and 20th Century Novels II. 3 Hours. AE42/GE3S / H/W.
See ITAL 465. Prerequisite: ITAL 240 or reading knowledge of Italian or permission of instructor. LEC.

ITAL 480. Studies in Italian Literature: _____. 3 Hours.
A study of a period, theme, group of authors, or cultural movement. Subject matter will vary; may be taken more than once if subject differs. Prerequisite: ITAL 300 or demonstrated knowledge of Italian. LEC.

ITAL 495. Directed Readings in Italian. 1-3 Hours. AE61 / U.
May be taken more than once, total credit not to exceed nine hours. Various fields of Italian literature. Prerequisite: Consent of instructor, given only to those having demonstrated ease in reading Italian. IND.

ITAL 499. Honors in Italian. 3 Hours. AE61 / H.
Various topics in Italian literature or culture. Minimum of three hours of Italian 499 required for a B.A. with Honors in the Italian option of the French degree. Students must discuss Honors eligibility and their topic with a faculty member before enrolling. Honors paper must be written in Italian. LEC.

ITAL 502. Dante’s Divine Comedy I. 3 Hours. AE61 / H/W.
Detailed study of Dante’s masterpiece. Attention will also be given to such matters as the development of the Italian language at Dante’s period and the relation of the Comedy to Dante’s other works. Prerequisite: Reading knowledge of Italian. LEC.

ITAL 503. Dante’s Divine Comedy II. 3 Hours. AE61 / H/W.
Continuation of ITAL 502. Prerequisite: Completion of ITAL 502. LEC.

ITAL 695. Graduate Directed Readings in Italian. 1-3 Hours. U.
May be taken more than once, total credit not to exceed nine hours. Directed readings, conferences with instructor. Prerequisite: ITAL 495 or consent of instructor. IND.

Bachelor of Arts in French

Why study French, Italian, and Francophone studies?

French, Italian, and Francophone studies ensure that our students succeed in an interconnected world.
Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

French and Italian Programs

The department offers the major in French, an option in Italian, and an option in French and Italian studies. Prospective majors should consult the department during or before the second semester of the sophomore year.

Students pursuing a major in French or an option in Italian are encouraged to take courses in European studies, European history, art history, and philosophy, as well as English and foreign languages, literatures, and linguistics. Students often combine a major in French or the option in Italian with majors in business, humanities, journalism, the sciences, premedicine, or prelaw.

Language majors are useful in a variety of careers. The study of languages, literatures, and cultures enhances personal growth and broadens professional horizons, allowing fuller participation in an increasingly global community.

First- and Second-Year Preparation

The normal course progression for first- and second-year students considering a major in French is FREN 110, FREN 120, FREN 230, and FREN 240. FREN 230 and FREN 240 may be replaced by FREN 234. Eligible students are encouraged to enroll in honors sections of third-semester French (FREN 231) and fourth-semester French (FREN 241). FREN 300 is the prerequisite for all other 300-level courses, although FREN 300 and FREN 375 may be taken concurrently. FREN 326 is the prerequisite for all 400-level courses. The normal course progression for first- and second-year students considering the option in Italian is ITAL 110, ITAL 120, ITAL 230, and ITAL 240. Eligible students are encouraged to enroll in intensive sections of first-semester Italian (ITAL 155) and second-semester Italian (ITAL 156).

Requirements for the B.A. Major

French Option

Fourth Semester Proficiency (3)

Majors must complete courses to gain fourth semester language proficiency. These hours do not contribute to the minimum number of hours required for the major.

Fourth Semester Proficiency. Satisfied by:
FREN 240 Intermediate French II 3
or FREN 241 Intermediate French II, Honors

French Core Knowledge and Skills (12)

Majors choosing this option must complete courses as indicated in following areas:

Intensive Review of French Grammar. Satisfied by:
FREN 300 Intensive Review of French Grammar 3

Phonetics. Satisfied by:
FREN 310 French Phonetics 3
or FREN 500 Advanced French Phonetics

Introduction to French Literature. Satisfied by:
FREN 326 Introduction to French Literature 3

Applied French. Satisfied by one of the following:
FREN 350 Applied French Grammar and Composition I
FREN 352 French for Journalism and Business

Intermediate French Conversation. Satisfied by:
FREN 375 Intermediate French Conversation 3

French Literature Required Electives (0)

Satisfied by three courses (9 hours) from courses numbered FREN 423-FREN 470:
FREN 432 Francophone African Literature
FREN 450 French Literature of the Middle Ages
FREN 455 French Literature of the Renaissance
FREN 460 French Literature of the Seventeenth Century
FREN 462 French Literature of the Eighteenth Century
FREN 465 French Literature of the Nineteenth Century
FREN 470 French Literature of the Twentieth Century

Required Electives (0)

Satisfied by two courses (6 hours) from the following:
FREN 376 Advanced French Conversation
FREN 410 Survey of French Culture I
FREN 420 Survey of French Culture II
FREN 430 La France d’Aujourd’hui
FREN 431 French-Speaking World (Outside France)
FREN 440 Studies in French Culture: _____
FREN 480 Studies in French Literature: _____
FREN 530 Studies in Film: _____
FREN 592 French Culture Through Film I, Beginnings to 1950
FREN 593 French Culture Through Film II, 1950-Present
FREN 600 Studies in: _____

Majors are strongly encouraged to study abroad. Please see your advisor about this opportunity.
Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 30 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Italian Option
French and Italian Major Prerequisite (3)
Majors must complete courses to gain fourth semester language proficiency. These hours do not contribute to the minimum number of hours required for the major.

Fourth Semester Proficiency. Satisfied by:
ITAL 240 Intermediate Italian II
3

Italian Core Knowledge and Skills (6)
Majors choosing this option must complete courses as indicated in following areas:

Composition and Conversation. Satisfied by:
ITAL 300 Composition and Conversation
3
Advanced Composition and Conversation. Satisfied by:
ITAL 315 Advanced Composition and Conversation
3

Italian Literature. Satisfied by two courses (6 hours) chosen from the following:
ITAL 301 Introduction to Italian Literature I
ITAL 302 Introduction to Italian Literature II
ITAL 495 Directed Readings in Italian
ITAL 695 Graduate Directed Readings in Italian

Required Electives (0)
Satisfied by four courses (12 hours) chosen from the following:
ITAL 335 Italy and the Italians I
ITAL 336 Italy and the Italians II
ITAL 405 Italian Literature in Translation: ______
ITAL 410 19th and 20th Century Short Stories
ITAL 420 19th and 20th Century Poetry
ITAL 430 Dante’s Masterpiece
ITAL 440 Italian Renaissance and Early Modern Literature
ITAL 465 19th and 20th Century Novels I
ITAL 466 19th and 20th Century Novels II
ITAL 502 Dante’s Divine Comedy I
ITAL 503 Dante’s Divine Comedy II
ITAL 495 Directed Readings in Italian
ITAL 695 Graduate Directed Readings in Italian

1 Special permission of the Italian advisor may be required prior to enrollment.

Majors are strongly encouraged to study abroad. Please see your advisor about this opportunity.

Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 24 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

French and Italian Studies Option
Fourth Semester Proficiency (0)
Majors must complete courses to gain fourth semester language proficiency. These hours do not contribute to the minimum number of hours required for the major.

Fourth Semester Proficiency. Satisfied by:
FREN 240 Intermediate French II
3
or FREN 241 Intermediate French II, Honors
ITAL 240 Intermediate Italian II

French and Italian Studies Core Knowledge and Skills (18)
Majors choosing this option must complete courses as indicated in following areas:

French Grammar and/or Composition. Satisfied by one of the following:
FREN 300 Intensive Review of French Grammar
FREN 350 Applied French Grammar and Composition I
FREN 352 French for Journalism and Business

French Conversation. Satisfied by one of the following:
FREN 375 Intermediate French Conversation
FREN 376 Advanced French Conversation

Italian Grammar and Composition. Satisfied by two courses (6 hours):
ITAL 300 Composition and Conversation
ITAL 315 Advanced Composition and Conversation

French Literature. Satisfied by two courses:
FREN 326 Introduction to French Literature
And an additional course chosen from the following:
FREN 432 Francophone African Literature
FREN 440 Studies in French Culture: ______
FREN 450 French Literature of the Middle Ages
FREN 455 French Literature of the Renaissance
FREN 460 French Literature of the Seventeenth Century
Undergraduate students may graduate with honors in Italian by completing 3 hours of ITAL 499 and one approved 3-hour course in a relevant field in addition to the 24-hour requirement for the option. Consult the department early in the junior year. To begin honors work and to graduate with honors, students must have minimum grade-point averages of 3.25 in all courses and 3.5 in Italian.

### Summer Language Institute in Paris

The department conducts a 6-week summer institute in Paris focusing on French language and culture. Students take courses in intermediate and advanced French language at L’Etoile, a private language institute in the center of Paris. Before the stay in Paris, students spend 10 days to 2 weeks touring regions such as Normandy, Brittany, and the château country along the Loire River. Some scholarship aid is available. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.

### Summer Program in Florence, Italy

The department conducts a 4- or 8-week summer program for elementary, intermediate, or advanced students of Italian. Students take courses in language and culture at an institute where all instructors are native speakers. Students live with Italian families and usually have weekends free to travel. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.

### Semester and Year Programs in France

A semester program is available in cooperation with CIDEF, the language institute of the Université Catholique de l’Ouest in Angers. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information. A faculty member from University of Kansas, or from Texas A&M University in alternate years, leads the spring semester program.

Year-long programs at French institutions are available through the International Student Exchange Program. Consult the Office of Study Abroad (http://www.studyabroad.ku.edu).

### Semester Program in Rome, Italy

The department conducts a semester program in Rome for elementary, intermediate, or advanced students. Students take courses in Italian language and culture in a private language institute. All instructors are native speakers, and students live in shared apartments with other students at the institute. Consult the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.

### Departmental Honors in French

Undergraduate students may graduate with honors in French by completing 6 hours of FREN 499, intensive honors tutorials on limited areas of French or Francophone literature or culture. Consult the department early in the junior year. To begin honors work and to graduate with honors, students must have minimum grade-point averages of 3.25 in all courses and 3.5 in French.
Minor in French

Why study French, Italian, and Francophone studies?

French, Italian, and Francophone studies ensure that our students succeed in an interconnected world.

Requirements for the Minor in French

The department offers minors in both French and Italian. Consult an advisor in the appropriate language.

Summer Program in Florence, Italy
The department conducts a 4- or 8-week summer program for elementary, intermediate, or advanced students of Italian. Students take courses in language and culture at an institute where all instructors are native speakers. Students live with Italian families and usually have weekends free to travel. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.

Semester and Year Programs in France
A semester program is available in cooperation with CIDEF, the language institute of the Université Catholique de l'Ouest in Angers. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information. A faculty member from the University of Kansas, or from Texas A&M University in alternate years, leads the spring semester program.

Year-long programs at French institutions are available through the International Student Exchange Program. Consult the Office of Study Abroad (http://www.studyabroad.ku.edu).

Semester Program in Rome, Italy
The department conducts a semester program in Rome for elementary, intermediate, or advanced students. Students take courses in Italian language and culture in a private language institute. All instructors are native speakers, and students live in shared apartments with other students at the institute. Consult the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.

Semester Program in Florence, Italy
The department conducts a semester program in Florence for elementary, intermediate, or advanced students. Students take courses in Italian language and culture in a private language institute. All instructors are native speakers, and students live with Italian families. Consult the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.

Master of Arts in French
The Department of French and Italian offers a comprehensive graduate program (M.A. and Ph.D.) in French and Francophone language, literature, and culture. Our faculty (http://www.frenchitalian.ku.edu/ faculty) is dynamic, professionally active, and committed to excellence in scholarship and teaching. Although the major emphasis of teaching and research is French and Francophone literature, the department also offers courses in literary theory, cultural studies, and film. The department offers a balanced emphasis on all periods from medieval through twentieth and twenty-first centuries. Our students represent a diverse group, and we encourage equally applicants from traditional and nontraditional backgrounds. Excellent facilities, strong library holdings, and a faculty dedicated to both teaching and research assure students of a challenging and professional graduate preparation. Please visit the Graduate Program page (https://frenchitaliandev.drupal.ku.edu/overview-5) of the department website for additional information.
Departmental Funding

While it is not guaranteed, the department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year and come with:

- a competitive academic year (9 month) salary
- a 100% tuition waiver for all courses at KU
- payment of up to 3 hours of student fees
- optional University-subsidized group health insurance

The appointments are guaranteed based on performance for up to 3 years for M.A. students, and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training in language instruction, close mentoring, and the opportunity to teach French at a variety of levels, providing them with a strong base of teaching experience upon entering the job market. Additional information about teaching for the department is available on the Graduate Funding page (https://frenchitaliananddrupal.ku.edu/graduate-teaching) of our departmental website.

Additional Funding

Other funding opportunities for graduate students include the Office of Study Abroad’s Springer award; the department’s Cornell, Mahieu, and Magerus fellowships; awards for research abroad; and French university exchanges.

Visit the Graduate Studies website for additional information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for graduate students at KU.

Financial Aid and Scholarships (http://affordability.ku.edu/steps/index.shtml) administers grants, loans, and need-based financial aid.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission to the M.A. Program in French

In addition to the general admission requirements (http://www.graduate.ku.edu/application-process) from the Office of Graduate Studies, applicants should have the equivalent of a major in French at the B.A. level, with a minimum of 9 hours of advanced undergraduate coursework in French literature.

Submit your graduate application online (http://www.graduate.ku.edu/ku-graduate-application). For further information regarding the application process, including department-specific deadlines and required supplemental documentation, please visit the Admissions (http://www.frenchitalian.ku.edu/admission) page of the department website, or contact the department’s Graduate Program Coordinator, Morgan Swartzlander, mswartz@ku.edu.

M.A. Degree Requirements

1. 30 credit hours, including*
   - FREN 704 Methods in French Language Instruction 3
   - FREN 720 Introduction to Graduate Studies in French 3
   - FREN 810 Theme et Version 3
   - or FREN 620 Expository French Writing

   Select one of the following:
   - FREN 900 Seminar in French: _____ (2 seminars of 3 hours each) 6
   - FREN 899 M.A. Thesis

As part of the 30-hour requirement, students may also take:

- A maximum of two graduate-level courses (up to 6 hours) outside the department. (e.g. Women, Gender and Sexuality Studies, Linguistics, Art History, etc.) This selection should be determined in consultation with the Director of Graduate Studies.
- A maximum of 3 hours of FREN 795 Investigation and Conference.

*In the event that a required course cannot be offered during the time when the student completes coursework, the student will take a substitute course in consultation with the DGS.

2. A reading knowledge of a second Romance language, Greek, Latin, German, Arabic, or other relevant language.

3. Comprehensive written and oral examinations.

Handbook for Graduate Students

A detailed presentation of departmental processes and regulations is included in the department’s Graduate Student Handbook (http://www.frenchitalian.ku.edu/graduate-program-manual).

Summer Language Institute in Paris

The department conducts a 6-week summer institute in Paris focusing on French language and culture. Students take courses in intermediate and advanced French language at L’Etoile, a private language institute in the center of Paris. Before the stay in Paris, students spend 10 days to 2 weeks touring regions such as Normandy, Brittany, and the château country along the Loire River. Some scholarship aid is available. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.

Summer Program in Florence, Italy

The department conducts a 4- or 8-week summer program for elementary, intermediate, or advanced students of Italian. Students take courses in language and culture at an institute where all instructors are native speakers. Students live with Italian families and usually have weekends free to travel. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.
Semester and Year Programs in France

A semester program is available in cooperation with CIDEF, the language institute of the Université Catholique de l’Ouest in Angers. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information. A faculty member from University of Kansas, or from Texas A&M University in alternate years, leads the spring semester program.

Year-long programs at French institutions are available through the International Student Exchange Program. Consult the Office of Study Abroad (http://www.studyabroad.ku.edu).

Semester Program in Rome, Italy

The department conducts a semester program in Rome for elementary, intermediate, or advanced students. Students take courses in Italian language and culture in a private language institute. All instructors are native speakers, and students live in shared apartments with other students at the institute. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.

Graduate Study Abroad

Graduate students have the opportunity to serve as program assistants for the department’s Paris Summer Language Institute. The department also has a graduate exchange agreement with the Université de Franche-Comté, Besançon, France. The university has a Graduate Direct Exchange program with the École Supérieure de Commerce et d'Administration des Entreprises, Clermont Ferrand, France.

Doctor of Philosophy in French

The Department of French and Italian offers a comprehensive graduate program (M.A. and Ph.D.) in French and Francophone language, literature, and culture. Our faculty (http://www.frenchitalian.ku.edu/faculty) is dynamic, professionally active, and committed to excellence in scholarship and teaching. Although the major emphasis of teaching and research is French and Francophone literature, the department also offers courses in literary theory, cultural studies, and film. The department offers a balanced emphasis on all periods from medieval through twentieth and twenty-first centuries. Our students represent a diverse group, and we encourage equally applicants from traditional and nontraditional backgrounds. Excellent facilities, strong library holdings, and a faculty dedicated to both teaching and research assure students of a challenging and professional graduate preparation. Please visit the Graduate Program page (https://frenchitaliandev.drupal.ku.edu/overview-5) of the department website for additional information.

Departmental Funding

While it is not guaranteed, the department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year and come with:

- a competitive academic year (9 month) salary
- a 100% tuition waiver for all courses at KU

- optional University-subsidized group health insurance

The appointments are guaranteed based on performance for up to 5 years for Ph.D. students and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training in language instruction, close mentoring, and the opportunity to teach French at a variety of levels, providing them with a strong base of teaching experience upon entering the job market. Additional information about teaching for the department is available on the Graduate Funding page (https://frenchitaliandev.drupal.ku.edu/graduate-teaching) of our departmental website.

Additional Funding

Other funding opportunities for graduate students include the Office of Study Abroad’s Springer award; the department’s Cornell, Mahieu, and Magerus fellowships; awards for research abroad; and French university exchanges.

Visit the Graduate Studies website for additional information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for graduate students at KU.

Financial Aid and Scholarships (http://affordability.ku.edu/steps/index.shtml) administers grants, loans, and need-based financial aid.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission to the Ph.D. Program in French

In addition to the general admission requirements (http://www.graduate.ku.edu/application-process) from the Office of Graduate Studies, applicants should have the equivalent of the M.A. in French offered at KU.

Submit your graduate application online (http://www.graduate.ku.edu/graduate-application). For further information regarding the application process, including department-specific deadlines and required supplemental documentation, please visit the Admissions (http://www.frenchitalian.ku.edu/admission) page of the department website, or contact the department’s Graduate Program Coordinator, Morgan Swartzlander, mswartz@ku.edu.

Ph.D. Degree Requirements

In addition to the general requirements for the Doctor of Philosophy (http://www.policy.ku.edu/graduate-studies/doctoral-degree-requirements), a student must complete the following departmental requirements:

1. 24 hours of post-M.A. work (exclusive of dissertation hours).
2. Ph.D. students who did not receive their MA in French at KU must complete a total of 30 post M.A. hours, including:

   - FREN 704 Methods in French Language Instruction
FREN 720 Introduction to Graduate Studies in French

*Ph.D. students who have taken equivalent courses for either or both of these requirements as part of their M.A. studies elsewhere may petition the department for a waiver of FREN 704 and/or FREN 720 to reduce the total required hours. To determine equivalency, the student must submit course materials from the previous institution. Students petitioning this requirement should first consult with the DGS.

2. 6 hours of graduate-level coursework outside the department (to be included in the required hours of PhD coursework) as an interdisciplinary minor field of concentration. Students may also apply these 6 hours of graduate-level coursework outside the department toward one of KU’s Graduate Certificates (e.g. African Studies, Women, Gender and Sexuality Studies, etc.).

3. During their last semester of coursework, Ph.D. students must enroll in 3 hours of FREN 995 Investigation and Conference, with the faculty member who typically will become the student’s dissertation director. These hours will count towards the 24 to 30 hours of post-MA coursework.

4. At least 1 year of teaching in the department

Research Skills & Responsible Scholarship Requirement

The university also requires that every doctoral student have training in responsible scholarship and research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before attempting the comprehensive oral exam. For French doctoral students, this requirement is met by the following:

FREN 704 Methods in French Language Instruction 3
FREN 720 Introduction to Graduate Studies in French 3

Proficiency in a second language, which can be a second Romance language, Latin, Greek, German, Arabic, or another language pertinent to the student’s career path and approved by the faculty. (Students specializing in medieval or Renaissance literature are strongly encouraged to take Latin.) Proficiency may be demonstrated by completion of the fourth-semester course (or equivalent) or by examination.

Departmental new graduate student orientation, held each Fall semester during the week prior to the first instructional week of classes.

Handbook for Graduate Students

A detailed presentation of departmental processes and regulations may be found in the department’s Graduate Student Handbook (http://www.frenchitalian.ku.edu/graduate-program-manual).

Summer Language Institute in Paris

The department conducts a 6-week summer institute in Paris focusing on French language and culture. Students take courses in intermediate and advanced French language at L’Étiole, a private language institute in the center of Paris. Before the stay in Paris, students spend 10 days to 2 weeks touring regions such as Normandy, Brittany, and the château country along the Loire River. Some scholarship aid is available. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.

Summer Program in Florence, Italy

The department conducts a 4- or 8-week summer program for elementary, intermediate, or advanced students of Italian. Students take courses in language and culture at an institute where all instructors are native speakers. Students live with Italian families and usually have weekends free to travel. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.

Semester and Year Programs in France

A semester program is available in cooperation with CIDEF, the language institute of the Université Catholique de l’Ouest in Angers. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information. A faculty member from University of Kansas, or from Texas A&M University in alternate years, leads the spring semester program.

Year-long programs at French institutions are available through the International Student Exchange Program. Consult the Office of Study Abroad (http://www.studyabroad.ku.edu).

Semester Program in Rome, Italy

The department conducts a semester program in Rome for elementary, intermediate, or advanced students. Students take courses in Italian language and culture in a private language institute. All instructors are native speakers, and students live in shared apartments with other students at the institute. Consult the department (http://www.frenchitalian.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information.

Graduate Study Abroad

Graduate students have the opportunity to serve as program assistants for the department’s Paris Summer Language Institute. The department also has a graduate exchange agreement with the Université de Franche-Comté, Besançon, France. The university has a Graduate Direct Exchange program with the École Supérieure de Commerce et d’Administration des Entreprises, Clermont Ferrand, France.

Genetics

Genetics Graduate Program

The Genetics Program at KU offers graduate students an integrated and multidisciplinary training in genetics focused on research. Students have the opportunity to interact with a diverse faculty who use modern molecular and mathematical approaches to address many different questions in modern genetics, including molecular and developmental genetics, evolutionary and ecological genetics, and human genetics.

Genetics Program students earn a Ph.D. from a participating home department:

• Anthropology (p. 1103),
• Ecology and Evolutionary Biology (p. 1283),
• Molecular Biosciences, (p. 1554) or
• Philosophy (p. 1577).
A B.S. degree in biology (p. 1204) with a concentration in genetics is also available.

Department of Geography

Why study geography?
Because people, places, and environments interact and evolve in a changing world.

Why study atmospheric science?
The study of atmospheric processes enables us to understand human interactions with the environment.

Career Counseling
A major in geography may lead to a career in cartography, environmental analysis, physical geography, regional analysis, urban and regional planning, or to work that requires some combination of geographic subfields.

Professors in the Department of Geography (http://www.geog.ku.edu) provide career counseling. For general questions, see the undergraduate coordinator. For career counseling, see these professors:

Atmospheric Science
Donna Tucker, 417 Lindley; David Braaten, 413C Lindley; Nate Brunsell, 214A Lindley; David Rahn, 201 Lindley; David Mechem, 230 Lindley; Kees van der Veen, 203 Lindley

Cartography
George McCleary, 219D Lindley; Terry Slocum, 215 Lindley; Margaret Pearce, 404 Lindley

GIS
Xingong Li, 409 Lindley; Terry Slocum, 215 Lindley; George McCleary, 219D Lindley; Stephen Egbert, 217C Lindley; Jerome Dobson, 214 Lindley

Human and Cultural Geography
Pete Shortridge, 209 Lindley; Chris Brown, 223 Lindley; Peter Herlihy, 202 Lindley; Shannon O’Lear, 219B Lindley; So-Min Cheong, 221 Lindley; Barney Warf, 219C Lindley; Jay Johnson, 402 Lindley; Margaret Pearce, 404 Lindley; Alexander Diener, 413A Lindley

Physical and Environmental Geography
William Johnson, 420 Lindley; Johannes Feddema, 204 Lindley; Kees van der Veen, 203 Lindley; Dan Hirmas, 415A Lindley

Regional Geography and Area Studies
Chris Brown, 223 Lindley; Shannon O’Lear, 219B Lindley; So-Min Cheong, 221 Lindley; Peter Herlihy, 202 Lindley; Pete Shortridge, 209 Lindley; Jay Johnson, 402 Lindley

Remote Sensing/Environmental and Land-Use Analysis
Stephen Egbert, 217C Lindley; Jerome Dobson, 214 Lindley

Undergraduate Programs
Geography integrates information from a variety of sources to study the nature of culture areas, the emergence of physical and human landscapes, and problems of interaction between people and the environment. Mapping and other techniques for gathering and displaying spatial information are integral parts of the field.

The atmospheric science program offers undergraduates a fundamental knowledge of the atmosphere and the weather it generates. Interactions between weather phenomena and human decisions and activities give the subject important applications. Several tracks lead to a Bachelor of Science degree.

Courses for Nonmajors
All geography courses below the 500 level are open to nonmajors, as are several above that level.

Graduate Programs
Geography
The graduate curriculum emphasizes broad geographic training while encouraging in-depth commitment to specialized concentrations. Students also are encouraged to take course work outside the department that complements their degree programs. Credit-hour requirements below are considered minimums for degree programs. Programs are tailored by the student and advisor to conform to the student's interests and needs, as well as to fulfill the general degree requirements.

The central thrust of the department and the chief capabilities and interests of the faculty fall within these research-teaching areas:

1. Human geography including cultural geography, regional development, and environmental policy;
2. Geographic information science including cartography, geographic information systems, and remote sensing;
3. Physical geography including geomorphology, soils, and biogeography;
4. Regional geography including Africa, East Asia, Russia, Latin America, and the United States; and
5. Atmospheric science and climatology.

Atmospheric Science
The purpose of the program is to expand the student's knowledge of fundamental atmospheric processes and how the atmosphere interacts with other parts of the environment. Students become familiar with quantitative research methods and how these various approaches can be used to address different problems in atmospheric science. Students gain an in-depth ability to learn specific skills and apply them toward thesis work. These skills consist of, for example, statistical analysis techniques, numerical modeling, or work with atmospheric instrumentation. The breadth of the program and the diverse research topics explored by the faculty are able to accommodate students with a variety of interests.

Courses
ATMO 105. Introductory Meteorology. 5 Hours. NE GE3N / N.
A lecture and laboratory course introducing students to the atmosphere, weather and climate phenomena, and their controlling physical processes. Topics covered include: the structure of the atmosphere, energy and energy budgets, climate and climate change, air pollution, clouds and
precipitation, pressure and wind systems, severe weather, and weather forecasting, LEC.

ATMO 106. Introductory Meteorology, Honors. 5 Hours. NE GE3N / N. Honors version of ATMO 105. A lecture and laboratory course introducing students to the atmosphere, weather and climate phenomena, and their controlling physical processes. Topics covered include: the structure of the atmosphere, energy and energy budgets, climate and climate change, air pollution, clouds and precipitation, pressure and wind systems, severe weather, and weather forecasting. Prerequisite: Membership in University Honors Program or by permission of instructor. LEC.

ATMO 177. First Year Seminar: _____, 3 Hours. GE11 / U. A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Atmospheric Science. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

ATMO 220. Unusual Weather. 3 Hours. NE GE11/GE3N / N. An introductory lecture course which surveys the general principles and techniques of atmospheric science and illustrates their application through discussions of natural but unusual weather phenomena such as blizzards, hurricanes, tornados, and chinooks, of the effects of air pollution on weather, and of intentional human alteration of the atmosphere. LEC.

ATMO 310. Aviation Meteorology. 3 Hours. N. This course introduces students to meteorological events that affect aircraft operations. Aviation applications of meteorological observations including satellite and radar observations are discussed. Students learn about graphical displays of meteorological information. Numerical forecasting models and how their output is applied for aviation is also considered. Forecasting of weather events of particular interest to aviation such as ceiling, visibility, icing and turbulence is emphasized. Prerequisite: ATMO 105 or AE 245 or equivalent. LEC.

ATMO 321. Climate and Climate Change. 3 Hours. N. This course is designed to introduce students to the nature of the Earth's physical climate. It introduces the basic scientific concepts underlying our understanding of our climate system. Particular emphasis is placed on energy and water balances and their roles in evaluating climate change. The course also evaluates the impact of climate on living organisms and the human environment. Finally, past climates are discussed and potential future climate change and its impact on humans is evaluated. (Same as GEOG 321.) Prerequisite: ATMO 105 or GOG 104. LEC.

ATMO 499. Honors Course in Atmospheric Science. 2-3 Hours. AE61 / N. Open to students with nine hours of upper level credit in Atmospheric Science, an average of at least 3.5 in all Atmospheric Science courses, and an overall average of at least 3.25. Includes the preparation of an honors paper and its defense before a committee of a least two regular faculty members. LEC.

ATMO 505. Weather Forecasting. 3 Hours. N. A first course in synoptic meteorology designed to introduce students to weather analysis and forecasting through the application of hydrodynamic and thermodynamic principles to operational analysis and forecasting. Topics include analysis and interpretation of surface and upper-air observations and data from satellites, radars, and wind profilers; chart and sounding analysis; and three-dimensional, conceptual models of weather systems. The course includes student-led weather briefings and analysis exercises. Prerequisite: ATMO 105 and MATH 121 or MATH 115. LEC.

ATMO 506. Forecasting Models and Methods. 3 Hours. N. Introduction to basic numerical weather prediction methods. Computer programs are used to apply numerical methods to weather data and to evaluate dynamical processes on numerical grids. Meteorological graphics packages are used to analyze current weather data and numerical model output. Current operational numerical models and output products are discussed. Prerequisite: ATMO 505, MATH 122, and EECS 138 or EECS 168. LEC.

ATMO 515. Energy and Water Balance. 3 Hours. N. A study of the distribution and circulation of water in the air-earth system as influenced by atmospheric processes and surface conditions. The solar and terrestrial radiation budget and the water balance at the earth's surface will be applied to agricultural and urban energy and water problems. Prerequisite: ATMO 105 or EECS 138. LEC.

ATMO 521. Microclimatology. 3 Hours. N. A study of climatic environment near the earth-atmosphere interface. Consideration of rural climates in relation to agriculture and urban climates as influenced by air pollution and other factors. Emphasis is on physical processes in the lower atmosphere, distribution of atmospheric variables, the surface energy budget and water balance. (Same as GEOG 521.) Prerequisite: ATMO 105 and MATH 106 or MATH 121. LEC.

ATMO 525. Air Pollution Meteorology. 3 Hours. N. A study of background levels and concentrated sources of atmospheric pollution together with considerations of pollution buildup in urban areas as related to particular weather conditions. Inadvertent weather modifications and effects of atmospheric pollution on particular weather events and general climate will be discussed. Prerequisite: ATMO 105, MATH 121, and EECS 138. LEC.

ATMO 531. Topics in Atmospheric Science: _____, 1-3 Hours. N. An investigation of special topics in atmospheric science. May include topics in dynamic, physical or synoptic meteorology or climatology as well as related topics in earth and physical sciences. May be repeated if topic differs. LEC.

ATMO 605. Operational Forecasting. 2 Hours. N. Students enhance their forecasting expertise by preparing forecasts for presentation to the public through a variety of media. Classroom activities include weekly map discussions and analysis of current weather situations. Forecasting topics such as forecast verification, aviation forecast products, severe weather, flash floods and watches and warnings are examined. Credit for ATMO 605, ATMO 606, and ATMO 607 is limited to a total of eight hours, six of which may be counted toward a degree in atmospheric science. Prerequisite: ATMO 505. FLD.

ATMO 606. Forecasting Practicum - Private Industry. 2 Hours. AE61 / N. Practical experience in private industry working with current and/or archived meteorological data. Possibilities include the preparation of forecasts for TV stations and meteorological consulting firms, and working with environmental consulting firms to assess air pollution hazards. May be repeated two times for credit. Credit for ATMO 605, ATMO 606, and ATMO 607 is limited to a total of eight hours, six of which may be counted toward a degree in atmospheric science. Prerequisite: ATMO 605. FLD.

ATMO 607. Forecasting Intern - National Weather Service. 2 Hours. AE52/AE61 / N. Practical experience working in a National Weather Service forecasting center in analyzing weather data and preparing weather forecasts. May be repeated two times for credit. Credit for ATMO 605, ATMO 606, and ATMO 607 is limited to a total of eight hours, six of which may be counted toward a degree in atmospheric science. Prerequisite: ATMO 605. FLD.

ATMO 630. Synoptic Meteorology. 3 Hours. N. Interpretation, development, and analysis of synoptic charts. Prerequisite: ATMO 505 and ATMO 640. LEC.
ATMO 634. Physical Climatology. 3 Hours. N.
Atmospheric processes are described and discussed in relation to the climate of the earth’s surface. Such topics as the greenhouse effect, ozone depletion, and the effect of solar irradiance on climatic change will be included. The physical processes and relationships between various climatic features will be studied. Prerequisite: ATMO 505 and DSCI 301 or MATH 526. LEC.

ATMO 640. Dynamic Meteorology. 3 Hours. N.
This course introduces the student to the fundamentals of fluid dynamics necessary for understanding large scale atmospheric motions. Fundamental physical laws of conservation of mass, momentum and energy are examined and applied to atmospheric flows. Rotation in the atmosphere is examined quantitatively in terms of both circulation and vorticity. Prerequisite: MATH 223 and PHSX 214 or PHSX 212 and PHSX 236. LEC.

ATMO 642. Remote Sensing. 3 Hours.
This course is designed to prepare students to effectively use remotely sensed data in operational or research settings for further work in this field. Topics include radiation and radiation transfer applied to active and remote sensing; radiative properties of space, sun, earth and atmosphere; instrument design considerations and operational characteristics; inversion methods for temperature or concentration profiling; surface temperature measurement; cloud top height determination; rain rate and wind velocity measurement; severe weather detection; satellite photograph interpretation. Prerequisite: ATMO 680, MATH 581. LEC.

ATMO 650. Advanced Synoptic Meteorology. 3 Hours. N.
Analysis and interpretation of synoptic weather charts including treatment of numerical weather forecasting. Prerequisite: ATMO 630 and ATMO 660. LEC.

ATMO 660. Advanced Dynamic Meteorology. 3 Hours. N.
Advanced study of the atmosphere including treatment of the vorticity equation. Prerequisite: ATMO 640 and MATH 220 or MATH 320. LEC.

ATMO 680. Physical Meteorology. 3 Hours. N.
This course is designed to enhance the student’s understanding of atmospheric processes through the study of these processes at molecular through micro scales. Topics include the properties and behavior of gases; transfer processes; phase change; solar and earth radiation; cloud drop, ice crystal and precipitation formation; atmospheric electricity; stratospheric chemistry. Prerequisite: MATH 223; PHSX 214, or PHSX 212 and PHSX 236. LEC.

ATMO 690. Special Problems in Meteorology. 1-3 Hours. N.
Prerequisite: Nine hours in meteorology. IND.

ATMO 697. Seminar for Seniors. 1 Hour. AE61 / N.
Current research in atmospheric science will be discussed. May be repeated for a total of two credit hours. Prerequisite: Senior level in atmospheric science. LEC.

ATMO 699. Undergraduate Research. 2 Hours. AE61 / U.
Work on a research project under the supervision of a faculty member. Prerequisite: Nine credit hours in atmospheric science. May be taken up to three times for credit. IND.

ATMO 710. Atmospheric Dynamics. 3 Hours.
Presentation of contemporary approaches to the study of atmospheric dynamics. May include methodologies that provide insight into global, synoptic, mesoscale or microscale motions. Prerequisite: ATMO 660 or equivalent. LEC.

ATMO 720. Atmospheric Modeling. 3 Hours.
Illustration and application of contemporary approaches to mathematical and statistical description of atmospheric phenomena. Prerequisite: MATH 122, ATMO 640, ATMO 680, and a course in statistics, or consent of instructor. LEC.

ATMO 727. Atmospheric Storms. 3 Hours.
The physical processes and operating principles involved in the development and life cycles of extreme or unusual weather events including tornadoes, blizzards, lightning displays, and tropical storms. Prerequisite: EECS 138, MATH 121, and ATMO 320. LEC.

ATMO 731. Advanced Topics in Atmospheric Science: ______. 1-3 Hours.
Advanced investigation of special topics in atmospheric science. May include topics in dynamic, physical or synoptic meteorology or climatology as well as related topics in earth and physical sciences. May be repeated if topic differs. LEC.

ATMO 750. Numerical Weather Prediction. 3 Hours.
An exploration of the mathematical methods used to describe the current state of the atmosphere and to predict future states. Current operational numerical weather prediction techniques will be included. Prerequisite: ATMO 660. LEC.

ATMO 825. Seminar in Climatology. 2-3 Hours.
LEC.

ATMO 827. Seminar in Atmospheric Science. 1-3 Hours.
LEC.

ATMO 899. Master’s Thesis. 1-10 Hours.
Graded on a satisfactory/unsatisfactory basis. THE.

GEOG 100. World Regional Geography. 3 Hours. SC AE42 / S.
An introductory survey of the environmental setting, historically formative periods, and present-day issues that distinguish the major culture areas of the world. LEC.

GEOG 101. World Regional Geography, Honors. 3 Hours. SC AE42 / S.
An introductory survey of the environmental setting, historically formative periods, and present-day issues that distinguish the major culture areas of the world. Open only to students in the College Honors Program, or by consent of instructor. LEC.

GEOG 102. Principles of Human Geography. 3 Hours. SC AE42 / GE3S / S.
An examination of the relationships between humans and their environments. The course introduces students to basic concepts in human geography relating to economic activities, landscapes, languages, migrations, nations, regions, and religions. Serves as the basis for further course work in cultural, economic, political, population, and urban geography. LEC.

GEOG 103. Principles of Human Geography, Honors. 3 Hours. SC AE42/GE3S / S.
An introduction to how human societies organize space and modify the world about them. Resultant patterns on the landscape are interpreted through principles of space perception, cultural ecology, diffusion, land use, and location theory. Comparisons are made between urban and rural areas and between subsistence and commercial societies. Open to students who have been accepted into the College Honors Program. LEC.

GEOG 104. Principles of Physical Geography. 3 Hours. NE GE3N / N.
The components of the physical environment are discussed in order to familiarize the student with their distributions and dynamic nature. Major topics include the atmosphere, landforms, soils, and vegetation together with their interrelationships and their relevance to human activity. This course and GEOG 105 together satisfy the laboratory science requirement. Both courses are required for geography majors. LEC.
GEOG 105. Introductory Laboratory in Physical Geography. 2 Hours. U.
A laboratory course designed to complement GEOG 104 in satisfying the laboratory science requirement. It is required for geography majors. Laboratory exercises include a wide variety of analyses using data on the atmosphere, hydrosphere, biosphere, and lithosphere. Prerequisite: GEOG 104, which may be taken concurrently. LAB.

GEOG 107. Principles of Physical Geography, Honors. 3 Hours. NE GE3N / N.
Interactive processes among the systems of the earth are studied and discussed. Major topics include vegetation, soils, landforms, water, the atmosphere, and cycles of matter between these portions of the earth. The course includes lectures and critical discussions to address study problems in physical geography. Open only to students in the University Honors Program or by consent of the instructor. LEC.

GEOG 111. Maps and Mapping. 4 Hours. H.
How do people find their way from here to there or just around? Simple—they use maps. Maybe not maps on pieces of paper but maps in their heads: mental maps. Different people have different maps, even of the same place. Mapping is an ancient form of communication and maps have created ideas and opinions, promoted understanding and confusion. A non-technical approach to the transformation of space onto maps, to their content and structure, and their role and impact in human activity, past and present. Neither background in geography nor artistic skills are required. LEC.

GEOG 140. Global Environment I: The Discovery of Environmental Change. 5 Hours. GE3S / U.
This interdisciplinary course and laboratory sections survey the history of environmental understanding and the process of scientific discovery from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics include the history of environmental systems and life on earth, the discovery of biotic evolution, ecological change, and climate change. Laboratory sections apply the principles and methodologies of the humanities, physical, life and social sciences to earth systems and the development of environmental understanding using historical and present-day examples. (Same as EVRN 140 and HIST 140.) LEC.

GEOG 142. Global Environment II: The Ecology of Human Civilization. 5 Hours. GE3S / U.
This interdisciplinary course and laboratory sections survey the history of humanity’s relationship with the natural world over the long term from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics include the evolution of Homo sapiens and cultural systems; the development of hunter, gatherer, fisher, agricultural, and pastoral lifeways; the ecology of colonialism and industrial civilization, and the emergence of ideological and ethical perspectives on the relationship between nature and culture. Laboratory sections apply the principles and methodologies of the humanities, physical, life and social sciences to the humanity’s engagement with the global environment using historical and present-day examples. (Same as EVRN 142 and HIST 142.) LEC.

GEOG 144. Global Environment I: The Discovery of Environmental Change, Honors. 5 Hours. U.
This interdisciplinary course surveys the foundations of environmental understanding and the process of scientific discovery from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics include the history of environmental systems and life on earth, the discovery of biotic evolution, ecological change, and climate change. Laboratory sections apply the principles and methodologies of the humanities, physical, life and social sciences to earth systems and the development of environmental understanding using historical and present-day examples. (Same as EVRN 144 and HIST 144.) Open only to students admitted to the University Honors Program or by permission of instructor. LEC.

GEOG 145. Global Environment II: The Ecology of Human Civilization, Honors. 5 Hours. U.
This interdisciplinary course and laboratory sections survey the history of humanity’s relationship with the natural world over the long term from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics include the evolution of Homo sapiens and cultural systems; the development of hunter, gatherer, fisher, agricultural, and pastoral lifeways; the ecology of colonialism and industrial civilization, and the emergence of ideological and ethical perspectives on the relationship between nature and culture. Laboratory sections apply the principles and methodologies of the humanities, physical, life and social sciences to the humanity’s engagement with the global environment using historical and present-day examples. (Same as EVRN 145 and HIST 145.) Open only to students admitted to the University Honors Program or by permission of instructor. LEC.

GEOG 148. Scientific Principles of Environmental Studies. 3 Hours. NB / N.
This course presents an overview of our understanding of environmental processes and issues. Topics include scientific principles, resource issues, pollution and global change, among others. This course gives students a rigorous understanding of interactions between humans and their environment and provides students with a scientific basis for making informed environmental decisions. (Same as EVRN 148.) LEC.

GEOG 149. Scientific Principles of Environmental Studies, Honors. 3 Hours. NB / N.
This course presents an overview of our understanding of environmental processes and issues. Topics include scientific principles, resource issues, pollution and global change, among others. This course gives students a rigorous understanding of interactions between humans and their environment and provides students with a scientific basis for making informed environmental decisions. An honors section of GEOG 148 designed for superior students. (Same as EVRN 149.) Prerequisite: Membership in the University Honors Program or approval of instructor required. LEC.

GEOG 150. Environment, Culture and Society. 3 Hours. SC / S.
An introduction to geographic approaches to the study of the environment, emphasizing societal and cultural factors that influence human interaction with the biosphere, hydrosphere, lithosphere, and atmosphere. The course involves analysis of a broad range of contemporary environmental issues from the local to global scales. (Same as EVRN 150.) LEC.

GEOG 177. Frist Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Geography. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

GEOG 210. Computers, Maps, and Geographical Analysis. 3 Hours. N.
This course will introduce students to a number of different methods for the visualization, representation, and analysis of geographical phenomena. Both field and computer-based techniques will be employed to demonstrate the concept of experimental design and the collection, processing, and analysis of geographical data. Topics include: 1) the unique nature of geographic data; 2) mapping techniques and technologies; 3) geographical information systems; 4) remote
sensing (aerial photography and satellite imagery); and 5) methods of
geographical analysis (e.g., statistic and spatial modeling). LEC.

GEOG 304. Environmental Conservation. 3 Hours. NE GE3N / N.
A survey of current methods of describing and modeling the function,
structure, and productivity of natural and anthropogenically modified earth
resource systems, along with a discussion of contemporary views of what
constitutes a natural landscape. Fundamental natural science principles
about the interplay among lithospheric, atmospheric, hydrospheric, and
biospheric components of earth systems are emphasized. Uses of natural
resources, including fossil fuels, minerals, and water are described
with attention to the earth’s total energy budget. Human activities that
affect preservation, conservation, and multiple uses of earth regions
receive attention. Systems under stress through population and other
contemporary forces serve as examples. (Same as EVRN 304.) LEC.

GEOG 311. Map Conception and Development. 4 Hours. N.
An examination of the map process with emphasis on two areas: 1) the
mental map formed during interaction with the environment and 2) the
map as a physical object which emerges from mapping activity. A local
area will serve as the laboratory/environment for the mapping activity
including production and use. LEC.

GEOG 316. Methods of Analyzing Geographical Data. 4 Hours. N.
Introduces the benefits and limitations of using quantitative methods
to analyze geographical problems. Covers traditional descriptive (e.g.,
measures of central tendency) and inferential statistics (e.g., hypothesis
testing) but also inherently geographical approaches such as shape and
point pattern analysis, and spatial autocorrelation. Laboratory emphasizes
using the computer to explore and analyze geographical problems. LEC.

GEOG 319. Topics in Techniques: ______. 1-3 Hours. N.
An investigation of special topics in Techniques. May include coursework
in cartography, GIS, or remote sensing. May be repeated if topic differs.
LEC.

GEOG 321. Climate and Climate Change. 3 Hours. N.
This course is designed to introduce students to the nature of the Earth’s
physical climate. It introduces the basic scientific concepts underlying our
understanding of our climate system. Particular emphasis is placed on
energy and water balances and their roles in evaluating climate change.
The course also evaluates the impact of climate on living organisms and
the human environment. Finally, past climates are discussed and potential
future climate change and its impact on humans is evaluated. (Same as
ATMO 321.) Prerequisite: ATMO 105 or GEOG 104. LEC.

GEOG 331. Regional Geomorphology of the United States. 3 Hours.
N.
This course examines forces and processes affecting the earth’s surface,
and furthermore identifies and describes the physiographic regions that
are the result of these processes. Special efforts are made to explore
various photographic resources, satellite imagery, and internet sources
or geomorphic data from a regional perspective since there is no wholly
satisfactory text available for the course. A research paper is required.
Prerequisite: An introductory earth science course or consent of instructor.
LEC.

GEOG 332. Glaciers and Landscape. 3 Hours. N.
Elements from glaciology, geology, and climatology are merged to
examine the interactions between glaciers and their natural environments,
including the processes involved in glacier formation, the relationship
between glaciers and climate, the mechanisms of glacier flow, and
interpretation of the Earth’s glacial record. Emphasis is placed on
an interdisciplinary approach to study environmental change and
paleoclimate reconstruction. Prerequisite: GEOG 104 or GEOL 101, or
consent of instructor. LEC.

GEOG 335. Introduction to Soil Geography. 4 Hours. N.
This course focuses on the properties and processes of soils as they
occur in their environment. The student is introduced to the nature of
soil as it functions as a body; genesis of soils; properties of soil solids,
especially colloids; soil chemical composition, properties, and reactions;
interaction between solid, liquid, and gaseous components in soils; plant-
soil-water relationships; biological interactions with soil; classification
of soils; and the distribution of soils on the landscape. Not open to
students who have taken EVRN 535 or GEOG 535. (Same as EVRN
335.) Prerequisite: GEOG 104 or GEOL 101 or consent of instructor; BIOL
100 and CHEM 130 or CHEM 190 recommended. LEC.

GEOG 338. Introduction to River Systems. 3 Hours. N.
A course of fluvial geomorphology. Topics include the drainage
basin, fluvial processes, river channel adjustment and forms, human
disturbance and geomorphic response, and research methods in fluvial
geomorphology. Field trip. Prerequisite: GEOG 104. LEC.

GEOG 339. Topics in Physical Geography: ______. 1-3 Hours. N.
An investigation of special topics in Physical Geography. May
include coursework under headings of soils, vegetation, climate, or
geomorphology. May be repeated if topic differs. LEC.

GEOG 350. Physical Geography of Africa. 3 Hours. N.
This course is a survey of the basic physical features of the African
continents including structure and relief, rivers and lakes, soils and
mineral resources. It includes characteristics and processes of African
climates, and the ecology of Africa’s four major biomes: tropical rain
forest, savanna, steppe, and desert. Climatic and environmental variations
of the past, emergence of humankind, and development of pastoral and
farming systems are discussed. Contemporary environmental concerns
also include deforestation and desertification, the impacts of drought,
methods for monitoring African environments, and Africa’s prospects in a
21st century suffering from global warming. (Same as AAAS 350.) LEC.

GEOG 351. Africa’s Human Geographies. 3 Hours. NW AE42/GE3H/
GE3S / S/W.
An introduction to historical, cultural, social, political, and economic issues
in Africa from a geographic perspective. The course begins with the
historical geography of humanity in Africa, from ancient times through to
the present. Other topics include cultural dynamics, demography, health,
rural development, urbanization, gender issues, and political geography.
Case studies from Eastern and Southern Africa will be used to illustrate
major themes. (Same as AAAS 351.) LEC.

GEOG 352. Economic Geography. 3 Hours. S.
This course offers an overview of contemporary economic geography
with an underlying theme of uneven regional development. Topics
examined include: the historical context in which capitalism emerged;
the major theoretical approaches used to understand the temporal and
spatial dynamics of capitalist society; a series of case studies of different
economic sectors; and the global economy, including its development
with respect to colonialism, neocolonialism, international trade, third world
development, and population growth. LEC.

GEOG 357. History and Philosophy of Geographic Information
Science. 3 Hours. N.
An examination of the development of geographic information science
(GISci) from its roots in traditional geography, cartography, and remote
sensing to modern geographic information systems (GIS). GIS is explored
as a new scientific instrument, a "macroscope" for representing and
analyzing complex earth processes, both physical and cultural. The
societal benefits and risks of GIS are demonstrated and discussed. LEC.
GEOG 358. Principles of Geographic Information Systems. 4 Hours. N.
An introduction to computer-based analysis of spatial data. Covers basic principles of collecting, storing, analyzing, and displaying spatial data. Emphasis is on problem-solving activities using common spatial analytical techniques (e.g., map overlay). The student will gain extensive hands-on experience with state-of-the-art GIS software. LEC.

GEOG 370. Introduction to Cultural Geography. 3 Hours. GE3S / H.
Charts some of the major lines of research in cultural geography, including critical theory, political economy, poststructuralist thought, feminism, and global consumption. Through fieldwork, diverse research methods are applied to issues such as community development, cultural patterns on the landscape and global impacts on local economies. Prerequisite: GEOG 100, GEOG 101, GEOG 102 or GEOG 103; or consent of instructor. LEC.

GEOG 371. Environmental Geopolitics. 3 Hours. S.
This course examines how human relationships with the biophysical world are politicized. Examines key contributions to debates surrounding environmental security, resource conflicts, and related issues, as well as geopolitical assumptions on which these debates build. (Same as EVRN 371.) LEC.

GEOG 372. Environmental Policy. 3 Hours. N.
An historical and analytical study of the formulation, implementation, and consequences of environmental policy in the United States. Attention is directed at relevant interest groups, issues specific to both rural and urban populations, relationships between national policies and international organizations concerned with environmental problems. Prerequisite: GEOG 148 or EVRN 148; and either EVRN 103 or HIST 103, EVRN 347 or HIST 347, or GEOG150 or EVRN 150. LEC.

GEOG 375. Intermediate Human Geography. 3 Hours. S.
An examination of processes of cultural-economic interaction and patterns of human activity on a global scale. The topics cover the whole spectrum of human geography, with focus on urban-economic development, innovation and diffusion, and trade. Each week the third hour will be devoted to discussion of topics dealt with in lectures presented during the first two hours. Prerequisite: Introductory course in Geography or consent of the instructor. LEC.

GEOG 377. Urban Geography. 3 Hours. S.
This course explores the city from the multiple perspectives of its inhabitants. The cultural viewpoints of place, gender, age, and ethnicity are stressed. Traditional topics such as urban hierarchy, functions of the city, suburbanization, and ongoing changes in core and peripheral areas also receive attention. The distinctive landscapes of individual North American cities are emphasized, but examples also are drawn from throughout the world. LEC.

GEOG 379. Topics in Cultural Geography: _____ 1-3 Hours. S.
An investigation of special topics in Cultural Geography. May include coursework under headings of culture theory, material culture, language, foodways, or religion. May be repeated if topic differs. LEC.

GEOG 390. Geography of the United States and Canada. 3 Hours. S.
A study of the different physical, economic, and cultural settings in the United States and Canada which form the basis for the various forms of livelihood. Emphasis on the United States. (Same as AMS 390.)
Prerequisite: An introductory geography course or background in the United States or Canadian history, social science, or culture or consent of instructor. LEC.

GEOG 395. Environmental Issues of: _____. 3 Hours. S.
This regional geography course examines contemporary environmental issues of a particular region of the world based on the expertise of the professor. Course emphasis is on the interaction of natural, socio-economic, and cultural factors of development that give rise to environmental problems. Students learn how local, national, and international government and non-governmental stakeholders address environmental problems. Course may be repeated with different profs. LEC.

GEOG 396. East Asia. 3 Hours. NW AE42/GE3H/GE3S / S/W.
This course is an introduction to the contemporary politics, economy, and culture of Korea, China, and Japan in the context of globalization. In addition to the discussion of individual countries, the course examines the cross-cutting themes such as international relations, cultural exchange, and economic development in the region of East Asia. LEC.

GEOG 397. Geography of Kansas and the Plains. 3 Hours. S.
A study of the different physical, economic, and cultural settings in Kansas and the Plains that form the basis for various kinds of livelihood. LEC.

GEOG 399. Topics in Regional Studies: _____. 1-3 Hours. S.
An investigation of special topics in Regional Studies. May include coursework related to a specific country or region. May be repeated if topic differs. LEC.

GEOG 410. Human Biogeography, Honors. 3 Hours. N.
Principles of evolution and earth change are used to examine distributions of human populations, wealth, and resources. Readings from the current literature will be included. Lecture and discussion. (Same as BIOL 410.)
Prerequisite: BIOL 152 or 153 or GEOG 107 and membership in the University Honors Program or consent of instructor. LEC.

GEOG 418. Workshop in Production Cartography. 1-3 Hours. AE61 / N.
Theory and practice of map production and other related graphics using the latest graphic and GIS software. Projects vary but include the processes of design and production, editing and quality control, and a final printed or operational product. Involves a weekly consultation session and laboratory time in KU Cartographic GIS Services. Prerequisite: Completion of GEOG 311 and consent of instructor. IND.

GEOG 433. Biogeography Field and Laboratory Techniques. 3 Hours. N.
This course provides undergraduate students with practical experience in field data collection techniques and laboratory data analysis methods. During the first half of the semester, students work in the field using a variety of methods to measure such vegetation characteristics as: cover, density, biomass, leaf area, and canopy architecture. Students gain experience in the use of field instruments including a spectroradiometer, and techniques for quantifying biophysical attributes of vegetation. During the later part of the course, students learn to summarize their field data and examine relationships between the vegetation attributes and measurements made using remote sensing instruments. Recommended: GEOG 316 or an introductory statistics equivalent. (Same as EVRN 433.)

GEOG 458. Geographical Information Systems: _____. 1-6 Hours. N.
An introduction to the organization and components of geographic information systems and their software. Fundamental concepts and their implementation with applications to physical and human systems. LEC.

GEOG 490. Geographic Internship. 1-6 Hours. AE61 / N.
Supervised practical experience. The student submits a proposal describing the internship prior to enrollment. Upon acceptance, regularly scheduled meetings with the advisor provide assistance, guidance and evaluation of progress in the professional experience. A written summary of the experience or outcomes of the research project are prepared independently by the student, a representative of the host agency, and
the advisor. Total credit not to exceed six hours. Prerequisite: Fifteen hours of geography and permission of instructor. FLD.

GEOG 498. Special Topics in Geography: ______. 1-5 Hours. U.
Prerequisite: Fifteen hours of geography. IND.

GEOG 499. Honors Course in Geography. 2-3 Hours. AE61 / U.
Open to students with nine hours of upper level credit in geography, an average of at least 3.5 in all geography courses, and an overall average of at least 3.25. Includes the preparation of an honors paper and its defense before a committee of at least two regular faculty members. IND.

GEOG 500. Senior Capstone in Geography. 3 Hours. AE61 / N.
The capstone project provides students with a broad-based, interdisciplinary educational experience and allows them to integrate and synthesize the knowledge they have gained in their studies. The course is designed to achieve several objectives: provide an overview of geography as a unified, coherent discipline with multiple perspectives, emphasize writing and analytical skills, introduce students to a major research project that integrates elements of physical and human geography, and cultivate knowledge of future professional development. Graduate students may take this course by permission only. Prerequisite: Nine hours in Geography and status as a senior major in the department; or permission of instructor. LEC.

GEOG 510. Human Factors. 4 Hours. N.
An introduction to the concepts and theories underlying the study of human-technological systems. Human-machine interfaces and system properties and the environment are considered. Lecture-discussion sessions are supplemented by computer-supported laboratory and research activities. LEC.

GEOG 511. Intermediate Cartography: ______. 1-6 Hours. N.
An investigation of special topics in cartography. Can be repeated for different topics. Prerequisite: A course in cartography and consent of instructor. LEC.

GEOG 513. Cartographic Design. 3 Hours. S.
A study of graphic elements and their role in the physical and perceptual structure of the map image. Concepts and principles of design are stressed with particular emphasis on the figure-ground relationships, color and lettering. Prerequisite: GEOG 311. LEC.

GEOG 514. Visualizing Spatial Data. 4 Hours. N.
Students use Visual Basic or other currently prominent programming language to visualize spatial data. Early projects cover basic principles such as color manipulation and spatial transformations. Later projects involve developing more sophisticated software for data presentation, data exploration, and map animation. Prerequisite: Some experience with Visual Basic or other programming language. LAB.

GEOG 516. Applied Multivariate Analysis in Geography. 3 Hours. N.
An introduction to the application of multivariate statistical analysis in geography. Techniques covered include univariate and multivariate analysis of variance, multiple regression, logistic regression, principle components analysis, and spatial regression. Practical applications of the techniques in a geographical research context are emphasized. Students will learn how to use statistical packages such as SPSS. Prerequisite: GEOG 316 or equivalent. LEC.

GEOG 517. Data Handling and Map Symbolization. 3 Hours. N.
An analysis of methods for manipulating and symbolizing spatial data. Techniques studied include dot, choropleth, proportional symbols, and isarithmic (contour) mapping. Topics covered include data classification, the use of color, and automated methods of interpolation (triangulation, inverse distance, and kriging). Emphasis is on developing maps that can be presented to the general public, although some consideration is given to visualization software that can be utilized by individuals to explore spatial data. Prerequisite: GEOG 111 or GEOG 210 or GEOG 311. LEC.

GEOG 519. History of Cartography. 3 Hours. H.
A history of mapmaking worldwide from its origins to the present day. Emphasis on maps as historical records of evolving civilizations and cultural landscapes and methods of studying early maps. (Same as HIST 546.) LEC.

GEOG 521. Microclimatology. 3 Hours. N.
A study of climatic environments near the earth-atmosphere interface. Consideration of rural climates in relation to agriculture and urban climates as influenced by air pollution and other factors. Emphasis is on physical processes in the lower atmosphere, distribution of atmospheric variables, the surface energy budget, and water balance. (Same as ATMO 521.) Prerequisite: ATMO 105 and MATH 106 or MATH 121. LEC.

GEOG 526. Remote Sensing of Environment I. 4 Hours. N.
Introduction to study of the environment through air photos and satellite imagery, including principles of remote sensing, interactions of electromagnetic energy with the atmosphere and earth’s surface, aerial photography, satellite systems, and sensors (electro-optical, thermal, and radar). Emphasis in the latter part of the course is on such applications as global monitoring, land cover mapping, forestry, agriculture, and oceanography. Laboratory emphasizes visual interpretation of aerial photography and satellite imagery and an introduction to digital image processing in the department’s NASA Earth Science Remote Sensing Laboratory. (Same as EVRN 526.) Prerequisite: MATH 101 or equivalent. GEOG 358 recommended. LEC.

GEOG 531. Topics in Physical Geography: ______. 1-3 Hours. N.
An investigation of special topics in physical geography. May include specific course work under the headings of geomorphology, climatology, soils, vegetation, quaternary, paleoenvironments, hydrology, etc. May be repeated, if topic differs. LEC.

GEOG 532. Geoarchaeology. 3 Hours. N.
Application of the concepts and methods of the geosciences to interpretation of the archeological record. The course will focus primarily on the field aspects of geoarchaeology (e.g., stratigraphy, site formational processes, and landscape reconstruction), and to a lesser extent on the array of laboratory approaches available. (Same as ANTH 517.) Prerequisite: GEOG 104, ANTH 110, or ANTH 310. LEC.

GEOG 535. Soil Geography. 4 Hours. N.
A broad study of the principles and properties of soils and their distribution on the landscape. Topics covered include: pedology, clay mineralogy, soil physics, soil chemistry, management of soils, soil biology, taxonomy, and soil geomorphology. Laboratory section and a field project are required. Not open to students who have taken GEOG 335 or EVRN 335. (Same as EVRN 535.) Prerequisite: GEOG 104 or GEOL 101 or consent of the instructor; BIOL 104 and CHEM 130 or 190 recommended. LEC.

GEOG 537. Elements of Plant Geography. 3 Hours. N.
An introduction to spatial and temporal variation in natural plant populations and communities. Included is an introduction to methods of analysis, and an overview of structure and process in the earth’s major biomes. Prerequisite: GEOG 331; or an introductory biology/botany course and GEOG 104; or consent of instructor. LEC.

GEOG 538. Soil Chemistry. 3 Hours. N.
This course examines the chemical properties and processes of soils and methods of evaluation. Topics include solid and solution speciation, mineral solubility, soil colloidal behavior, ion exchange, surface complexation, soil salinity and sodicity, soil acidity, oxidation-reduction reactions, and kinetics of soil chemical processes. (Same as EVRN 538.) Prerequisite: GEOG 335 or GEOG 535 or EVRN 335 or EVRN
GEOG 541. Geomorphology. 4 Hours. N.
A critical study of land forms in relation to tectonics, climatic environment, and geologic processes. The use of geomorphic methods in the interpretation of Cenozoic history is emphasized. Laboratory exercises in analysis of field observations, maps, and photographs. Required field trip and fee. (Same as GEOL 541.) Prerequisite: GEOL 101 and GEOL 103, GEOL 104 and GEOG 105, or GEOL 103 and GEOL 304. LEC.

GEOG 550. Environmental Issues in Africa. 3 Hours. S.
Acquaints students with the complexities of debates on environmental problems in Sub-Saharan Africa. Topics addressed may include deforestation, desert expansion, wildlife conservation, soil erosion, climate change, coral reef destruction, water resources development, mangrove preservation, the environmental effects of war, industrialization, and urbanization. Class presentations and projects synthesize the perspectives of both human and physical geography. (Same as AAAS 551.) Prerequisite: GEOG 104 or permission of instructor. LEC.

GEOG 552. Topics in Urban/Economic Geography: ____. 1-3 Hours. S.
An investigation of special topics in urban/economic geography. May include specific course work under the headings of energy, economic development, international trade, environmental perception, housing, transportation, and migration. May be repeated. LEC.

GEOG 553. Geography of African Development. 3 Hours. NW AE42/GEOG3S / S.
Acquaints students with the values of social parameters of African agricultural and pastoral practice. Topics include customary land rights, African perspectives on the natural world, gender issues in African agriculture, and the urbanization of African cultures. The course also contrasts African views with those of Western development practitioners and donor agencies. Case studies from different countries are used to highlight the continent’s regional differences. (Same as AAAS 553.) LEC.

GEOG 556. Geography of the Energy Crisis. 3 Hours. S.
A discussion and analysis of the basic facts and causes of energy problems on a national and world scale. Examines current production, consumption, efficiency, reserves, conservation, and other energy policy options, including adjustments that will affect consumer use, national politics, and strategic issues. Prerequisite: GEOG 102 or GEOG 375. LEC.

GEOG 557. Cities and Development. 3 Hours. S.
An intermediate level course in urban geography, with an emphasis on cities in the developing world. Example cities in Latin America and the Caribbean, Sub-Saharan Africa, the Middle East, South Asia, and/or Southeast Asia may be examined. The main focus is on the intersection between urbanization and economic development, but social, political, and cultural aspects of development in cities are considered. Other topics include the geographic impacts of European colonialism, urbanization and industrialization, rural-to-urban migration, urban structure and spatial dynamics, urban planning, and environmental sustainability. (Same as AAAS 557.) LEC.

GEOG 558. Intermediate Geographical Information Systems. 4 Hours. N.
An intermediate level course in geographic information science designed for advanced undergraduate and graduate level students who already have an introductory understanding of GIS. Emphasis will be placed on the application of spatial analytical techniques to geographical problem-solving. Topics include spatial data structures, interpolation techniques, terrain analysis, cost surfaces, and database management technique. Students will apply knowledge gained in lecture and reading to natural resource, urban, and scientific applications using state-of-the-art GIS software. Prerequisite: GEOG 358 or consent of instructor. LEC.

GEOG 560. GIS Application Programming. 3 Hours. N.
This course teaches programming within Geographic Information Systems. Students learn how to customize GIS applications to automate data processing and spatial analysis through programming languages. GIS programming concepts and methods are introduced from the aspects of spatial data management and analysis covering both the vector and raster data models. Prerequisite: GEOG 558 and a course in programming languages. LEC.

GEOG 570. Geography of American Indians. 3 Hours. NW AE42/GEOG3S / S.
A survey of the culture and history of selected indigenous peoples of the Americas. Emphasis is placed on the environmental setting, the settlement and subsistence patterns, and the impact of European colonization. Discussion includes present-day ethnic and resource issues. LEC.

GEOG 571. Topics in Cultural Geography: ____. 1-3 Hours. S.
An investigation of special topics in cultural geography. May include specific course work under the headings of cultural theory and methodology, material culture, foodways, religion, and similar topics. May be repeated, if topic differs. LEC.

GEOG 572. Political Geography. 3 Hours. S.
Acquaints students with the theories and methods of political geography. Topics include geographical studies of: states, nations, and nationalism; territories and territoriality; geopolitics; and elections. Case studies from various regions of the world are included with an emphasis on the developing world. Prerequisite: GEOG 102 or equivalent or consent of instructor. LEC.

GEOG 574. Exploring Oceania. 3 Hours. S.
Acquaints students with the culture and history of Oceania including the settlement and the impacts of European and American colonialism on Australasia, Melanesia, Micronesia and Polynesia. Emphasis is placed on applying broad geographical concepts to this vast Oceanic region through the lenses of development, media and migration studies. Prerequisite: GEOG 102 or GEOG 103; or consent of instructor. LEC.

GEOG 576. Cultural Geography of the United States. 3 Hours. S.
Distributions of major culture elements including folk architecture, religion, dialect, foodways, and political behavior are systematically studied from a predominate historically perspective. These discussions are followed by a survey of the major culture regions in America. Although not absolutely necessary, familiarity with concepts treated in any of the following courses would be helpful: AMS 100, AMS 110, ANTH 108, ANTH 308, GEOG 102, or GEOG 390. (Same as AMS 576.) LEC.

GEOG 579. Geography of American Foodways. 3 Hours.
An interdisciplinary approach to food that explores the diversity of eating habits across the United States and the role of food as an indicator of cultural identity and change. Current regional and ethnic food consumption patterns are stressed. Topics include multiculturalism and regional identity, the symbiotic relationship between restaurant food and home cooking, the recent interest in farmers’ markets and organic foods, and the importance of the food industry and the popular press in setting trends. (Same as AMS 579.) LEC.

GEOG 590. Understanding Central Asia. 3 Hours. NW / S/W.
An intensive, multidisciplinary survey of Central Asia, focusing on the former Soviet republics-Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, Uzbekistan with additional coverage of neighboring regions (the Caucasus and the Caspian basin, Afghanistan, and western China). The
course addresses the history of the region (from the Silk Road to Soviet rule), geography, religion, and the building of post-Soviet states and societies. (Same as REES 510.) LEC.

GEOG 591. Geography of Latin America. 3 Hours. SC AE42/GE3S / S/W.
A study of the different physical, economic, and cultural settings in Latin America which form the basis for the various forms of livelihood. LEC.

GEOG 592. Middle American Geography. 3 Hours. S.
This regional study of the natural environments and cultural-historical backgrounds of Mexico, Central America, and the Caribbean details the physical and historical processes that have shaped the cultural landscape. LEC.

GEOG 593. Central American Peoples and Lands. 3 Hours. S.
This is a study of the natural and cultural history of the region’s lands and peoples that focuses on the cultural geography of the surviving indigenous populations, including their culture area, culture history, cultural landscape, and cultural ecology. LEC.

GEOG 594. Geography of the Former Soviet Union. 3 Hours. S/W.
An analysis of the spatial organization of the successor states to the USSR. A study of the diverse human and natural resources, demographic, cultural, and economic conditions. Prerequisite: An introductory geography course or background in Russian-East European history, social science, or culture, or consent of instructor. LEC.

GEOG 595. Geography of Eastern Europe. 3 Hours. S/W.
A study of nations and regions of Eastern Europe, excluding Russia. Prerequisite: An introductory geography course or background in Slavic-East European history, social science, or culture or consent of instructor. LEC.

GEOG 597. Geography of Brazil. 3 Hours. S.
Study of geographic factors, physical and cultural, that are basic to understanding the historical development of Portuguese South America and the contemporary and cultural geography of Brazil. Course also includes a survey of Brazil’s South American neighbors. LEC.

GEOG 601. Indigenous Peoples of the World. 3 Hours. S.
A survey of the varied responses of global Indigenous peoples as a result of the imposition of external economic and political systems. An overview of diverse, thematic issues such as land rights, economic development, resources and cultural patrimony, languages, knowledge systems, and women’s rights from the perspectives of Indigenous societies around the world. Detailed studies of Indigenous peoples seeking recognition and protection under international law are used. (Same as ISP 601.) Prerequisite: Permission of instructor. LEC.

GEOG 635. Soil Physics. 3 Hours. N.
Provides theoretical and practical foundations for understanding physical properties and processes of variably-saturated porous media. Focus is on the transport, retention, and transformation of water, heat, gas, and solutes through the soil. We examine modern vadose zone measurement methods, analytical tools, and numerical models for data collection and interpretation. (Same as EVRN 635.) Prerequisite: GEOG 335 or EVRN 335, or GEOG 535 or EVRN 535, and MATH 121, PHSX 114; or consent of instructor. LEC.

GEOG 658. Topics in Geographic Information Science: ______. 1-6 Hours.
An investigation of special topics in geographic information science. May include specific coursework under the headings of methodology, basic research, thematic or regional applications, geographic information systems (GIS), Global Positioning System (GPS), and geostatistics. May be repeated if topic differs. LEC.

GEOG 670. Cultural Ecology. 3 Hours. S.
Investigation of the interrelations between socio-cultural systems and the natural environment, including a survey of major theories and descriptive studies. (Same as ANTH 695.) Prerequisite: An introductory course in geography or anthropology. LEC.

GEOG 710. Information Design. 3 Hours.
Concepts and principles for the organization of verbal, numerical, and graphic/spatial data and their application to the production of information displays and instruments. Examination of the evolution of the information design process from the traditional (communication system) perspective to interactive user-centered design approaches. The nature of human information processing in handling information for both visualization and analysis, with particular emphasis on decision-making and usability. Prerequisite: GEOG 510, INDD 510, PSYC 318, PSYC 685, or equivalent, or consent of instructor. LEC.

GEOG 711. Advanced Cartography: ______. 3 Hours.
An investigation of special topics in cartography. Can be repeated for different topics. Prerequisite: Consent of instructor. LEC.

GEOG 713. Practicum in Cartography. 1-6 Hours.
Experience in the organization and presentation of cartographic material in lecture, discussion, and laboratory formats. May be repeated to a total of six credits. Prerequisite: Consent of instructor. FLD.

GEOG 714. Field Experience. 3 Hours. AE61.
Working in a new environment presents problems unlike those encountered in a classroom situation. Data collection techniques and exercises discussed in this off-campus course are intended to provide experience in dealing with an unfamiliar situation. Course location is dictated by the interests and composition of the student group; offered in the first three weeks of August. Geography majors are encouraged to attend. This course is required for graduate students. Fee required. Prerequisite: Junior-senior standing and fifteen hours of geography or consent of instructor. FLD.

GEOG 715. Advanced Geostatistics. 3 Hours.
An introduction to the practical application of advanced geospatial statistical techniques. Potential topics include: spatial regression, interpolation, clustering, and advanced nonparametric statistics. Knowledge of a statistical package and GIS is assumed. Prerequisite: GEOG 516 or equivalent and GEOG 358 or equivalent. LEC.

GEOG 719. Development of Geographic Thought. 2-3 Hours.
Critical analysis of the growth of geographic thought from antiquity to the present: emphasis on structure of modern geography. Prerequisite: Twenty hours of geography or consent of instructor. LEC.

GEOG 726. Remote Sensing of Environment II. 4 Hours.
An overview of techniques for computer analysis of digital data from earth orbiting satellites for environmental applications. Topics covered include: data formats, image enhancements and analysis, classification, thematic mapping, and environmental change detection. The laboratory exercises provide hands-on experience in computer digital image processing in the department’s NASA Earth Science Remote Sensing Laboratory. Prerequisite: Introductory statistics and GEOG 526 or equivalent. LEC.

GEOG 731. Topics in Physical Geography: ______. 1-3 Hours.
An investigation of special topics in physical geography. May include specific course work under the headings of geomorphology, climatology, soils, vegetation, quaternary, paleoenvironments, hydrology, etc. May be repeated. RSH.
GEOG 733. Advanced Biogeography Field and Laboratory Techniques. 3 Hours.
This course provides graduate students with practical experience in field data collection techniques and laboratory data analysis methods. During the first half of the semester, students will work in the field using a variety of methods to measure such vegetation characteristics as: cover, density, biomass, leaf area, and canopy architecture. Students will gain experience in the use of field instruments including a spectroradiometer, and techniques for quantifying vegetation biophysical attributes. The laboratory analyses component will include: data summary, data entry, correlation, regression, MANOVA, cluster analysis, and data display, and reporting. Recommended: GEOG 516 or multivariate statistics equivalent. LEC.

GEOG 735. Soil Geomorphology. 3 Hours.
Examines the interaction of pedogenetic and geomorphic processes during the Quaternary with an emphasis on strategies and methodologies employed in soil-geomorphic studies. Group research projects incorporating field data collection and analyses are required. Prerequisite: GEOG 335 or GEOG 535 or consent of the instructor. LEC.

GEOG 741. Advanced Geomorphology. 1-3 Hours.
Detailed discussions of processes and landforms characteristic of specific environments. Considered during separate semesters will be general methodology, and fluvial, arid regions, glacial, and shoreline geomorphology. Course may be taken more than once. (Same as GEOL 741.) Prerequisite: GEOG 541. LEC.

GEOG 749. Topics in Stable Isotopes in the Natural Sciences:. 2-3 Hours.
Isotopic compositions of substances provide powerful insights into many topics in the natural sciences. Applications of isotopic analyses of carbon, hydrogen, oxygen, and nitrogen to selected research topics such as plant resource use, food web analysis, paleoecology, paleodiet reconstruction, hydrology, and soils genesis will be examined. Knowledge of isotope chemistry is not required. (Concepts necessary to understand pertinent articles will be taught during the first class meetings.) May be repeated. (Same as BIOL 749.) LEC.

GEOG 751. Analysis of Regional Development. 3 Hours.
An analytical approach to spatial organization of economic activities and aspects of growth and development. Location theory and the geography of trade and migration. A research paper is required. Prerequisite: GEOG 551, or a course in economics, or consent of instructor. LEC.

GEOG 752. Topics in Urban/Economic Geography:. 1-3 Hours.
An investigation of special topics in urban/economic geography. May include specific coursework under the headings of energy, economic development, international trade, environmental perception, housing, transportation, and migration. May be repeated. LEC.

GEOG 756. Energy Problems and the Economic-Physical Environment. 2-3 Hours.
This course investigates the economic, social, political, and environmental conditions of energy production, transport, and use: total energy consumption and mix, relations to the level and structure of the economy, substitutability of fuel and energy sources, resource endowment in an international setting. Prerequisite: GEOG 551 or a course in economics or consent of instructor. LEC.

GEOG 758. Geographic Information Science. 4 Hours.
This course integrates topics in geographical information science (GISc) with spatial analytical techniques to solve spatial problems. Focuses on the most current research in GISc and its relevance to the environmental sciences, natural resource management, and spatial decision-making. Students are expected to apply the concepts and techniques learned in this class to their own research projects. Prerequisite: GEOG 316 and GEOG 558, or consent of instructor. LEC.

GEOG 771. Topics in Cultural Geography:. 1-3 Hours.
An investigation of special topics in cultural geography. May include specific course methodology, material culture, foodways, religion, and similar topics. May be repeated. LEC.

GEOG 772. Problems in Political Geography. 3 Hours.
Case studies of regional and national power settings with particular emphasis upon the geographical analysis of political developments in unstable areas of the world. Prerequisite: GEOG 102 or GEOG 375. LEC.

GEOG 773. Humanistic Geography. 3 Hours.
A discussion and project-oriented course focused on ways of studying the character and meaning of places. Concepts examined include place image and image makers, landscapes as text, sense of place, vernacular regions, and alternate representations of space. Prerequisite: Graduate standing or fifteen hours of geography or consent of instructor. LEC.

GEOG 775. Proseminar in Population Geography. 3 Hours.
Evaluation of problem formulation data gathering, research methods, and substantive knowledge in the geography of human populations. Concurrent auditing of GEOG 575 plus an additional meeting each week is required. Prerequisite: GEOG 575 and GEOG 516, and SOC 514. LEC.

GEOG 790. North American Regions:. 3 Hours.
A detailed description and analysis of selected regions of North America. Prerequisite: An introductory geography course or background in United States or Canadian history, social science, or culture or consent of instructor. LEC.

GEOG 791. Latin American Regions:. 3 Hours.
A description and analysis of the principal sources of geographic information pertaining to portions or all of Latin America. Prerequisite: GEOG 591 or concurrent auditing of GEOG 591, or consent of instructor. LEC.

GEOG 794. Regions of the Former USSR. 3 Hours.
A description and analysis of geographic data pertaining to the successor states to the USSR. Prerequisite: Fifteen hours of Geography courses or background in Russian, East European or Middle East studies, or consent of instructor. LEC.

GEOG 795. European Regions:. 3 Hours.
Prerequisite: Fifteen hours of geography, background in specified area, or consent of instructor. LEC.

GEOG 796. Asian Regions:. 2-3 Hours.
Prerequisite: Fifteen hours in geography courses or background in Asia, or consent of instructor. LEC.

GEOG 801. Indigenous Peoples of the World. 3 Hours.
A survey of the varied responses of global Indigenous peoples as a result of the imposition of externally-dominated economic and political systems. An overview of diverse, thematic issues such as land rights, economic development, resources and cultural patrimony, languages, knowledge systems, and women’s rights from the perspectives of Indigenous societies around the world. Detailed studies of Indigenous peoples seeking recognition and protection under international law will be used. The course is offered at the 600 and 800 levels, with additional assignments at the 800 level. (Same as ISP 801.) LEC.

GEOG 802. Urban Geographic Information Systems. 3 Hours.
An advanced survey of urban GIS/LIS focusing on: (1) history; (2) the wide range of applications from Automated Mapping/Facilities Management (AM/FM) to topologically related GIS; (3) generic analytical functions in both raster and vector modalities; and (4) software employed, hardware platforms, and institutional settings. A limited experience in
the use of GIS is provided from exercises employing ARC/INFO software. Prerequisite: Some experience with DOS based computing. LEC.

GEOG 805. History of Geographic Thought. 2 Hours.
A course to familiarize students with the history and philosophy of geography as a science and humanity. The course summarizes, reviews, and explores the ongoing relevance of 2,500 years of theoretical and methodological advancements in human and physical geography. LEC.

GEOG 806. Basic Seminar. 2 Hours.
The second of two courses required of M.A. students designed to provide experience in the development of research proposals and exposure to methodologies in geography. This course deals with approaches to geographic problems, and involves individual examination of special topics which require preparation, presentation, and critical evaluation of research proposals. LEC.

GEOG 818. Problems in Production Cartography. 1-3 Hours.
Advanced instruction in the theory and practice of producing maps and other related graphics for classroom instruction and research projects. Emphasis will be on current photo-mechanical and automated techniques. Prerequisite: By appointment. Consent of instructor. LEC.

GEOG 835. Practicum in Soil Mapping and Soil Erosion. 3 Hours.
This course is designed to give graduate students field experience in soil mapping and in the evaluation of soils for loss through processes of erosion. Prerequisite: GEOG 535 or equivalent or consent of instructor. FLD.

GEOG 858. Environmental Geographic Information Systems. 4 Hours.
An introduction to the use of GIS for environmental inventory, monitoring, and modeling. This course integrates the principles of landscape ecology with the analytical tools of GIS, remote sensing, and spatial analysis. Students will be taught GIS methodologies used to address real world problems and the use of GIS spatial analysis techniques to characterize landscapes and monitor their change. Prerequisite: GEOG 316 and GEOG 558 or equivalents, multivariate analysis recommended. LEC.

GEOG 890. Geographic Internship. 1-6 Hours.
Supervised professional experience. The student submits to the program committee a proposal describing the internship prior to enrollment. Upon acceptance, regularly scheduled meetings with the advisor provide assistance, guidance and evaluation of progress in the professional experience. A written summary of the experience or outcomes of the research project are prepared independently by the student, a representative of the host agency, and the advisor. Total credit not to exceed six hours. Prerequisite: Twelve hours of graduate level geography courses and consent of program committee. FLD.

GEOG 898. Readings in Geography. 1-4 Hours.
RSH.

GEOG 899. Master’s Thesis. 1-10 Hours.
Graded on a satisfactory/unsatisfactory basis. THE.

GEOG 911. Seminar in Cartography: _____, 1-4 Hours.
Study of selected topics in cartography. Can be repeated for different topics. Prerequisite: GEOG 513 or consent of instructor. LEC.

GEOG 912. Seminar in Quantitative Methods. 2-3 Hours.
LEC.

GEOG 926. Seminar in Remote Sensing. 2-4 Hours.
Study of selected topics in remote sensing theory and application. May include independent or group research and/or development work. Topic will be specified in advance. Prerequisite: GEOG 726 or consent of instructor. LEC.

GEOG 935. Seminar in Soil Geography. 2-3 Hours.
Subject matter varies but focuses on modern concepts and trends in soil geography. Sample topics include classification, paleopedology, and soil genesis. Field trip and fee may be required. Prerequisite: GEOG 735 or consent of instructor. LEC.

GEOG 937. Seminar in Vegetation Geography. 1-3 Hours.
(Selections as BIOL 968.) LEC.

GEOG 939. Seminar in Fluvial Systems. 2-3 Hours.
Study of selected topics in and method of fluvial systems. Samples include hydraulic geometry, the nature of alluvial sediments, and basin case studies. Topic will be specified in advance. LEC.

GEOG 957. Seminar in Urban and Economic Geography. 2-3 Hours.
LEC.

GEOG 958. Seminar in Geographic Information Systems. 2-4 Hours.
Study of selected topics in analysis of digital geographic data. May include research and/or developmental work. Prerequisite: GEOG 758 or equivalent, or consent of instructor. LEC.

GEOG 970. Seminar in Cultural Geography: _____, 2-3 Hours.
Study of selected topics in the theory and method of cultural geography. Samples include religious patterns, folk architecture, and place-defining novels. Topic will be specified in advance. LEC.

GEOG 972. Seminar in Political Geography. 2-3 Hours.
Study of selected topics in the theory and method of political geography. Samples include insurgent states, electoral patterns, and political ecology. Topic will be specified in advance. Prerequisite: GEOG 772 or consent of instructor. LEC.

GEOG 975. Seminar in Population Geography. 2-3 Hours.
Study of selected geographic topics and problems dealing with the distribution of human populations. Prerequisite: GEOG 775 or consent of instructor. LEC.

GEOG 980. Seminar in Geography: _____, 1-3 Hours.
LEC.

GEOG 990. Seminar in Regional Geography: _____, 1-3 Hours.
(Selected areas to be specified.) LEC.

GEOG 998. Research in Geography. 1-5 Hours.
RSH.

GEOG 999. Doctoral Dissertation. 1-10 Hours.
Graded on a satisfactory/unsatisfactory basis. THE.

Bachelor of Arts and Bachelor of General Studies in Geography

Why study geography?

Because people, places, and environments interact and evolve in a changing world.

Why study atmospheric science?
The study of atmospheric processes enables us to understand human interactions with the environment.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer
students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

**Geography Programs**

The B.A., B.G.S., and B.S. in geography provide general liberal arts enrichment, preparation for graduate work, and training for careers in geography and related fields. Geography may be combined with another program as a double major, or courses in another area may simply be added to those in geography.

**First- and Second-Year Preparation**

Students should begin the major by meeting the core requirements and preparing for major courses.

**Requirements for the B.A. or B.G.S. Major**

**Geography Core Knowledge and Skills (18)**

Majors must complete a course in each of the following areas:

- **Principles of Physical Geography.** Satisfied by:
  - GEOG 104 Principles of Physical Geography (Required 3
    Geography Courses)
  - or GEOG 107 Principles of Physical Geography, Honors

- **Introductory Laboratory in Physical Geography.** Satisfied by:
  - GEOG 105 Introductory Laboratory in Physical Geography 2

- **Principles of Human Geography.** Satisfied by:
  - GEOG 102 Principles of Human Geography 3
  - or GEOG 103 Principles of Human Geography, Honors

- **Computers, Maps and Geographical Analysis.** Satisfied by:
  - GEOG 210 Computers, Maps, and Geographical Analysis 3

- **Mapping.** Satisfied by:
  - GEOG 316 Methods of Analyzing Geographical Data 4
  - or GEOG 358 Principles of Geographic Information Systems

- **Senior Capstone in Geography.** Satisfied by:
  - GEOG 500 Senior Capstone in Geography 3
  - or GEOG 714 Field Experience

**Geography Required Elective Hours (0)**

Majors must complete five courses (15 hours) at the 200-500 level, in addition to the core above, from at least 3 of the following 4 groups, one of which must be a regional course:

- **Physical Studies.** Satisfied by:
  - GEOG 148 Scientific Principles of Environmental Studies
  - GEOG 304 Environmental Conservation
  - GEOG 321 Climate and Climate Change
  - GEOG 331 Regional Geomorphology of the United States
  - GEOG 332 Glaciers and Landscape
  - GEOG 335 Introduction to Soil Geography
  - GEOG 338 Introduction to Soil Geography
  - GEOG 339 Topics in Physical Geography:
  - GEOG 350 Physical Geography of Africa
  - GEOG 410 Human Biogeography, Honors
  - GEOG 521 Microclimatology
  - GEOG 531 Topics in Physical Geography:
  - GEOG 532 Geoarchaeology
  - GEOG 535 Soil Geography
  - GEOG 537 Elements of Plant Geography
  - GEOG 538 Soil Chemistry
  - GEOG 541 Geomorphology
  - GEOG 731 Topics in Physical Geography:
  - GEOG 735 Soil Geomorphology
  - GEOG 749 Topics in Stable Isotopes in the Natural Sciences:

- **Geographic Information Science.** Satisfied by:
  - GEOG 111 Maps and Mapping
  - GEOG 210 Computers, Maps, and Geographical Analysis
  - GEOG 311 Map Conception and Development
  - GEOG 316 Methods of Analyzing Geographical Data
  - GEOG 319 Topics in Techniques:
  - GEOG 357 History and Philosophy of Geographic Information Science
  - GEOG 358 Principles of Geographic Information Systems
  - GEOG 418 Workshop in Production Cartography
  - GEOG 433 Biogeography Field and Laboratory Techniques
  - GEOG 458 Geographical Information Systems:
  - GEOG 511 Intermediate Cartography:
  - GEOG 513 Cartographic Design
  - GEOG 514 Visualizing Spatial Data
  - GEOG 516 Applied Multivariate Analysis in Geography
  - GEOG 517 Data Handling and Map Symbolization
  - GEOG 526 Remote Sensing of Environment I
  - GEOG 558 Intermediate Geographical Information Systems
  - GEOG 560 GIS Application Programming
  - GEOG 658 Topics in Geographic Information Science:
  - GEOG 711 Advanced Cartography:
  - GEOG 713 Practicum in Cartography
  - GEOG 714 Field Experience
  - GEOG 716 Advanced Geostatistics
  - GEOG 726 Remote Sensing of Environment II
  - GEOG 733 Advanced Biogeography Field and Laboratory Techniques
  - GEOG 758 Geographic Information Science

Satisfied by 33 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior (300+) Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Graduation Plan
With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the department for details.

Departmental Honors in Geography
To be accepted as a candidate for honors, an undergraduate major must have completed at least 9 hours of upper-division credit in geography with a grade-point average of 3.5 in all geography courses and of at least 3.25 overall. In addition to outstanding work in geography, the program requires GEOG 499, an independent study course consisting of an honors paper.

The student presents the results of this paper in an oral examination to a committee of at least 2 faculty members, normally from the geography department, chaired by the GEOG 499 supervisor. To graduate with honors, the student must complete the paper and the examination and maintain the 3.5 and 3.25 grade-point averages.

Bachelor of Science in Geography

Why study geography?
Because people, places, and environments interact and evolve in a changing world.

Why study atmospheric science?
The study of atmospheric processes enables us to understand human interactions with the environment.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.
Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

**Geography Programs**

The B.A., B.G.S., and B.S. in geography provide general liberal arts enrichment, preparation for graduate work, and training for careers in geography and related fields. Geography may be combined with another program as a double major, or courses in another area may simply be added to those in geography.

**First- and Second-Year Preparation**

Students should begin the major by meeting the core requirements and preparing for major courses.

**Requirements for the B.S. Degree**

Geography B.S. General Education Requirements

**Written Communication – Core Skill and Critical Inquiry.**

**Composition (0)**

Satisfied by one of the following. Requirement must be completed during initial term of admission at KU.

| ENGL 101   | Composition |
| ACT English score of 27 or above or SAT English score of 600 or above |
| AP English Literature & Composition score of 3 or above |

Equivalent transfer course

**Critical Reading and Writing (0)**

Satisfied by one of the following. Requirement must be completed during initial term of admission at KU.

| ENGL 102   | Critical Reading and Writing |
| or ENGL 105 | Freshman Honors English |
| AP English Literature & Composition score of 4 or above |

Equivalent transfer course

**Sophomore Reading and Writing II (0)**

Satisfied by one of the following:

| ENGL 203 or ENGL 205 | Topics in Reading and Writing: _____ or Freshman-Sophomore Honors Proseminar: _____ |
| ENGL 209   | Introduction to Fiction |
| ENGL 210   | Introduction to Poetry |
| ENGL 211   | Introduction to the Drama |
| ENGL 362   | Foundations of Technical Writing (recommended) |

**AP English Literature & Composition score of 5 or above**

Equivalent

**Communications.** Satisfied by COMS 130 (COMS 230, PHIL 148, PHIL 310 or exemption).

**History or philosophy of science.**

Select one of the following or consult undergraduate committee for approval of alternatives:

| HIST 103 | Environment and History |
| HIST 136 | Early Science to 1700 |
| HIST 305 | The Scientific Revolution |
| HIST 306 | Science and Western Culture |
| HIST 311 | Great Lives in Science |
| HIST 347 | Environmental History of North America |
| HIST 360 | Science and Religion |
| HIST 407 | History of Science in the United States |
| PHIL 370 | Moral Issues in Medicine |
| PHIL 375 | Moral Issues in Computer Technology |
| PHIL 380 | Environmental Ethics |
| PHIL 620 | Philosophy of Natural Science |
| PHIL 622 | Philosophy of Social Science |
| GEOG 357 | History and Philosophy of Geographic Information Science |

**Humanities - Understanding the Human Condition.** Satisfied by completing 2 principal courses in the humanities. Approved courses may be searched for availability through the Kyou portal.

**Social and Behavioral Sciences - Understanding Society and Behavior.** Satisfied by completing 2 principal courses in the social sciences. Approved courses may be searched for availability through the Kyou portal.

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 50 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Physical Geography Option**

**Geography Prerequisite or Co-requisite Knowledge (29-31)**

</table>
Cartography and Visualization. Satisfied by:
- GEOG 311 Map Conception and Development
- GEOG 513 Cartographic Design
- GEOG 517 Data Handling and Map Symbolization

Geographical Information Systems. Satisfied by:
- GEOG 358 Principles of Geographic Information Systems
- GEOG 558 Intermediate Geographical Information Systems
- GEOG 758 Geographic Information Science

Remote Sensing. Satisfied by:
- GEOG 526 Remote Sensing of Environment I
- GEOG 726 Remote Sensing of Environment II

Statistics. Satisfied by:
- GEOG 316 Methods of Analyzing Geographical Data
- GEOG 516 Applied Multivariate Analysis in Geography
- GEOG 716 Advanced Geostatistics

Senior Capstone in Geography (0)
Satisfied by:
- GEOG 500 Senior Capstone in Geography
  or GEOG 714 Field Experience

Geographic Information Science Electives (0)
Two other courses from geographic information science

Allied Field (9)
Three courses and nine hours minimum in one field (or a minor) (area studies, atmospheric science, biology, computer science, design, environmental studies, engineering, geology, psychology, urban planning).

Electives (14-23)
14-23 credit hours of any university courses.

Geography Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 50 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior (300+) Graduation GPA
Satisfied by a minimum of 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Departmental Honors in Geography
To be accepted as a candidate for honors, an undergraduate major must have completed at least 9 hours of upper-division credit in geography with a grade-point average of 3.5 in all geography courses and of at least 3.25 overall. In addition to outstanding work in geography, the program requires GEOG 499, an independent study course consisting of an honors paper.

The student presents the results of this paper in an oral examination to a committee of at least 2 faculty members, normally from the geography department, chaired by the GEOG 499 supervisor. To graduate with honors, the student must complete the paper and the examination and maintain the 3.5 and 3.25 grade-point averages.

Bachelor of Science in Atmospheric Science

Concentration in Business
An undergraduate student may graduate from the School of Business with a concentration in atmospheric science.

Atmospheric Science Prerequisite or Co-requisite Knowledge (19-22)
Student selecting this minor must complete courses as specified in each of the following areas. Majors are advised to take honors courses when eligible. These hours do not contribute to the minimum number of hours required for the major.

Computing and Programming. Satisfied by:
- EECS 138 Introduction to Computing: _____ 3

Calculus I. Satisfied by:
- MATH 121 Calculus I (or equivalent) 5
  or MATH 141 Calculus I: Honors

Calculus II. Satisfied by:
- MATH 122 Calculus II (or equivalent) 5
  or MATH 142 Calculus II: Honors

General Physics I. Satisfied by:
- PHSX 211 General Physics I 1-4
  or PHSX 213 General Physics I Honors

Introductory Meteorology (5). Satisfied by:
- ATMO 105 Introductory Meteorology 5

Atmospheric Science Required Courses (18)
Students selecting this minor must complete all of the following:

Climate and Climate Change (3). Satisfied by:
- ATMO/GEOG 321 Climate and Climate Change 3

Weather Forecasting (3). Satisfied by:
- ATMO 505 Weather Forecasting 3

Microclimatology (3). Satisfied by:
- ATMO/GEOG 521 Microclimatology 3

Air Pollution Meteorology (3). Satisfied by:
- ATMO 525 Air Pollution Meteorology 3

Dynamic Meteorology (3). Satisfied by:
- ATMO 640 Dynamic Meteorology 3

Physical Meteorology (3). Satisfied by:
- ATMO 680 Physical Meteorology 3
Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Degree Requirements

Advising

Students who may decide to major in atmospheric science should confer early with a departmental representative about the selection of courses.

Requirements for the B.S. Degree in Atmospheric Science

4 specialized options are available for students who plan professional careers in meteorology or atmospheric science. The general meteorology option satisfies all the traditional professional meteorology requirements for employment with the National Weather Service, airlines, or other agencies. The air pollution meteorology option meets the need for trained specialists. The hydrometeorology option may lead to a career as a meteorologist in one of the many water-related activities in private and governmental agencies. The news media forecasting option can lead to a career forecasting the weather on television or radio. The B.S. degree with any of these specialties also prepares students to begin graduate programs in meteorology or atmospheric science.

Written Communication – Core Skill and Critical Inquiry.

Composition (0)

Satisfied by one of the following. Requirement must be completed during initial term of admission at KU.

<table>
<thead>
<tr>
<th>Course</th>

ATMO 640 Dynamic Meteorology 3
Physical Meteorology (3). Satisfied by:
ATMO 680 Physical Meteorology 3

Departmental Honors in Atmospheric Science
To be accepted as a candidate for honors, an undergraduate major must have completed at least 9 hours of upper-division credit in atmospheric science with a grade-point average of 3.5 in all atmospheric science courses and an overall average of at least 3.25. In addition, the program requires ATMO 499, an independent study course consisting of the creation of an honors paper. The student presents the results of this paper in an oral examination to a committee of a minimum of 2 faculty members, normally from the geography department, and chaired by the ATMO 499 supervisor. To graduate with honors, the student must complete the paper and the examination and maintain the 3.5 and 3.25 grade-point averages.

Minor in Geography
Why study geography?
Because people, places, and environments interact and evolve in a changing world.

Why study atmospheric science?
The study of atmospheric processes enables us to understand human interactions with the environment.

Requirements for the Minor in Geography
The department offers 2 minor options. The first is a general minor in geography. The second is specifically designed to give students a background in geographic information science. Students should carefully consider which minor best meets their academic goals before choosing one.

Geography General Option
Students selecting this minor must complete 6 GEOG courses (18 hours), 12 hours of which must be taken at the 300 level or above.

Geographic Information Science
Maps and Mapping/computers, Maps, and Geographical Analysis. Satisfied by:
GEOG 111 Maps and Mapping 4
or GEOG 210 Computers, Maps, and Geographical Analysis
Methods of Analyzing Geographical Data. Satisfied by:
GEOG 316 Methods of Analyzing Geographical Data 4
Principles of Geographic Information Systems. Satisfied by:
GEOG 358 Principles of Geographic Information Systems 4
Three additional courses from Geographic Information Science group 300-level or above.

Geography Minor Hours & Minor GPA
While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

Minor Hours
Satisfied by 18 hours of minor courses.

Minor Hours in Residence
Satisfied by a minimum of 9 hours of KU resident credit in the minor.

Minor Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all departmental courses in the
Minor in Atmospheric Science

Why study geography?
Because people, places, and environments interact and evolve in a changing world.

Why study atmospheric science?
The study of atmospheric processes enables us to understand human interactions with the environment.

Requirements for the Minor in Atmospheric Science

Student selecting this minor must complete courses as specified in each of the following areas:

**Atmospheric Science Prerequisite or Co-requisite Knowledge (11-15)**

<table>
<thead>
<tr>
<th>Course</th>
<th>Satisfactory by:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calculus I</td>
<td>MATH 121 Calculus I</td>
</tr>
<tr>
<td>or Calculus I: Honors</td>
<td>MATH 141 Calculus I: Honors</td>
</tr>
<tr>
<td>Calculus II</td>
<td>MATH 122 Calculus II (or equivalent)</td>
</tr>
<tr>
<td>or Calculus II: Honors</td>
<td>MATH 142 Calculus II: Honors</td>

<td>ATMO 630</td>
<td>Synoptic Meteorology</td>
</tr>
<tr>
<td>ATMO 640</td>
<td>Dynamic Meteorology</td>
</tr>
<tr>
<td>ATMO 642</td>
<td>Remote Sensing</td>
</tr>
<tr>
<td>ATMO 680</td>
<td>Physical Meteorology</td>
</tr>
</tbody>
</table>

**Minor Hours & Minor GPA**

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

**Minor Hours in Residence**
Satisfied by a minimum of 9 hours of KU resident credit in the minor.

**Minor Junior/Senior (300+) Hours**
Satisfied by a minimum of 15 hours from junior/senior courses (300+) in the minor.

**Minor Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in Geography

Why study geography?
Because people, places, and environments interact and evolve in a changing world.

Why study atmospheric science?
The study of atmospheric processes enables us to understand human interactions with the environment.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Applicants without prior training in geography are welcome but are required to improve their basic knowledge of the broad divisions of geography: systematic, methodological, and regional. Courses taken to remedy deficiencies may not count toward graduate degrees. Graduate Record Examination scores (verbal, quantitative, and analytical) are required of all applicants.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the geography department:

The University of Kansas
Department of Geography
Lindley Hall
1475 Jayhawk Blvd., Room 213
Lawrence, KS 66045-7575
Geography M.A. Degree Requirements

The program continues the general training of the undergraduate degree but also provides for concentration in preparation either for employment or further study. The student takes courses in several areas of the discipline as well as at least three courses in an acceptable concentration. The 30-credit-hour minimum for the M.A. thesis program may include 6 hours outside the department and a maximum of 6 hours for the master’s thesis. The M.A. degree requires a final oral examination. Students with 6 or more hours of Incomplete are denied permission to enroll until these hours are reduced to the allowable limit (5 hours).

Handbook for Graduate Students

Detailed information on departmental regulations is included in Policies for Graduate Study in Geography at the University of Kansas, available on the department’s website (http://www.geog.ku.edu).

Master of Science in Atmospheric Science

Why study geography?
Because people, places, and environments interact and evolve in a changing world.

Why study atmospheric science?
The study of atmospheric processes enables us to understand human interactions with the environment.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Entering students are expected to have completed an undergraduate degree in a physical science (e.g., physics, chemistry, atmospheric science, oceanography), mathematics, or engineering and studied mathematics, including vector calculus and ordinary differential equations. Courses taken to remedy deficiencies may not count toward graduate degrees. Graduate Record Examination scores (verbal, quantitative, and analytical) are required of all applicants.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the geography department:

The University of Kansas
Department of Geography
Lindley Hall
1475 Jayhawk Blvd., Room 213

Lawrence, KS 66045-7575

Atmospheric Science M.S. Degree Requirements

Required courses for the program include ATMO 710 Atmospheric Dynamics, ATMO 720 Atmospheric Modeling, and GEOG 716 Advanced Geostatistics. Electives include 3 credit hours in atmospheric science at the 700 level or above and 6 hours at the 500 level or above outside the geography department. A maximum of 6 hours of 500- and 600-level atmospheric science courses may be included in the program (excluding ATMO 505). The master’s thesis is a demonstration of a student’s ability to formulate an atmospheric science research problem, collect and analyze relevant data, synthesize appropriate literature, arrive at logical conclusions, and present the entire exercise in a public academic forum.

Details of the regulations on graduate study are included in the department’s Policies for Graduate Study in Atmospheric Science, available on the department’s website (http://www.geog.ku.edu).

Master of Science in Geography

Graduate Programs

Geography
The graduate curriculum emphasizes broad geographic training while encouraging in-depth commitment to specialized concentrations. Students also are encouraged to take course work outside the department that complements their degree programs. Credit-hour requirements below are considered minimums for degree programs. Programs are tailored by the student and advisor to conform to the student’s interests and needs, as well as to fulfill the general degree requirements.

The central thrust of the department and the chief capabilities and interests of the faculty fall within these research-teaching areas:

1. Human geography including cultural geography, regional development, and environmental policy;
2. Geographic information science including cartography, geographic information systems, and remote sensing;
3. Physical geography including geomorphology, soils, and biogeography;
4. Regional geography including Africa, East Asia, Russia, Latin America, and the United States; and
5. Atmospheric science and climatology.

Atmospheric Science
The purpose of the program is to expand the student’s knowledge of fundamental atmospheric processes and how the atmosphere interacts with other parts of the environment. Students become familiar with quantitative research methods and how these various approaches can be used to address different problems in atmospheric science. Students gain an in-depth ability to learn specific skills and apply them toward thesis work. These skills consist of, for example, statistical analysis techniques, numerical modeling, or work with atmospheric instrumentation. The breadth of the program and the diverse research topics explored by the faculty are able to accommodate students with a variety of interests.
Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Entering students are expected to have a B.S. degree in geography or in related physical science, earth science, mathematics, or engineering disciplines. Applicants should have a minimum Grade Point Average (GPA) of 3.0 on a 4.0 scale. Applicants with a GPA of less than 3.0 may be considered for admission on a probationary or provisional status.

Entering students will be expected to have studied quantitative methods. Graduate Record Examination scores (verbal, quantitative and analytical) are required of all applicants.

Applicants without prior training in geography are welcome but are required to improve their basic knowledge of the broad divisions of geography: systematic, methodological, and regional. Courses taken to remedy deficiencies may not count toward graduate degrees. Graduate Record Examination scores (verbal, quantitative, and analytical) are required of all applicants.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the geography department:

The University of Kansas
Department of Geography
Lindley Hall
1475 Jayhawk Blvd., Room 213
Lawrence, KS 66045-7575

The M.S. in Geography is of interest to students with a variety of different backgrounds because geography integrates concepts from various disciplines. There is also a nationwide interest in climate change, earth system science, and GIScience. Graduate study in physical geography and GIScience is quantitative in nature, and forms the core of many observational studies related to these fields of study.

The program requires a 30 credit hour minimum. Students must pass an oral examination and write a thesis. In addition, students are required to take the 2-day (non-credit) field trip before classes begin in the fall semester and GEOG 980 (Colloquium) for 1 credit hour during each of the first 2 semesters in residence at KU.

Electives 9-10

Doctor of Philosophy in Geography

Why study geography?
Because people, places, and environments interact and evolve in a changing world.

Why study atmospheric science?
The study of atmospheric processes enables us to understand human interactions with the environment.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Applicants without prior training in geography are welcome but are required to improve their basic knowledge of the broad divisions of geography: systematic, methodological, and regional. Courses taken to remedy deficiencies may not count toward graduate degrees. Graduate Record Examination scores (verbal, quantitative, and analytical) are required of all applicants.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the geography department:

The University of Kansas
Department of Geography
Lindley Hall
1475 Jayhawk Blvd., Room 213
Lawrence, KS 66045-7575
Geography Ph.D. Degree Requirements

The aspirant is expected to demonstrate proficiency in research and achieve a teaching competence in geography. The student may concentrate in 1 area or may offer a concentration in a second area in the department or an outside discipline. Whatever the choice, the student develops the plan of research and study with the advice and supervision of professors in the chosen area(s) of concentration who also sit on the student’s examination and dissertation committees. A minimum of 30 hours of course and seminar work in addition to dissertation credit usually is required beyond the M.A.

Research Skills Requirement

Research skills are important elements of any graduate program and should complement the student’s research topic. Coursework necessary to meet this requirement should commence early in the program. Selection of a particular Research Skills option must be approved by the student’s advisor and student’s committee members. A student’s Research Skills requirement may be met by 1 of the following:

1. Demonstrate a reading, writing, and speaking capability in a single foreign language sufficient to enable the student to do field work without an interpreter. An examination for competence, including written and oral portions, will be conducted by the appropriate language department having expertise in that language.
2. Demonstrate a satisfactory capability in 1 research skill from the list below. The actual courses must be approved by the student’s advisor and committee members.
   a. Computer Science--complete a computer-programming course in the Department of Electrical Engineering and Computer Science (e.g., C++, Fortran, or Visual Basic) with a grade of B or higher and create a substantial computer program that illustrates a geographic application of that language. Both the course and computer program must be approved by the Computer Programming Committee of the Department of Geography.
   b. Mathematics--complete 9 hours of courses at the 500-level or above with a grade of B or higher.
   c. Statistics--complete 9 hours of courses outside the Geography Department at the 500-level or above with a grade of B or higher.
   d. An outside discipline relevant to the student’s field(s) of specialization within geography (e.g. anthropology, biology, economics, geology, history, or psychology) -- complete 9 hours of courses at the 500-level or above with a grade of B or higher (Atmospheric Science courses may be used for this option, but not courses listed or cross-listed as geography.) Students may petition the Graduate Affairs Committee to have 9 hours of courses at the 500-level or above in multiple departments fulfill this requirement.

Students whose native language is not English may, in some cases, use their native language to fulfill Research Skills but only if the language is considered an adequate research tool for their program and is endorsed by the student’s advisor and committee members. Using a native language to fulfill the Research Skills requirement must have GSC approval.

In addition, the department requires that any PhD student admitted after Fall 2011 must successfully complete the Responsible Scholarship seminar offered by the department.

Handbook for Graduate Students

Detailed information on departmental regulations is included in Policies for Graduate Study in Geography at the University of Kansas, available on the department’s website (http://www.geog.ku.edu).

Department of Geology

Why study geology?

Because its leadership role among geoscience programs advances higher learning and serves society through the discovery, dissemination, and application of knowledge.

Financial Aid

Undergraduate Scholarships

The department awards scholarships from its endowment to meritorious incoming or continuing students in geology. Scholarships also are awarded to students enrolled in Field Camp or Field Investigation. For information, contact the chair.

KU Financial Aid

All undergraduates who wish to be considered for KU financial aid must complete applications with Financial Aid and Scholarships (http://affordability.ku.edu/steps/index.shtml).

Graduate Assistantships and Scholarships

All prospective graduate students are considered for employment and financial aid. Employment may be in the form of teaching assistantships or research assistantships. Research assistantships may be supported with funds from external grants, Geology Associates endowments, the Biodiversity Institute, or the Kansas Geological Survey, which is on campus. Duties, compensation, and conditions of awards are prescribed as much as possible before enrollment. The department also receives funds from corporations and endowments to support fellowships, which permit students to enroll full time without specific research or teaching duties.

Graduate students are eligible for scholarships from the Geology Associates Program. Endowed scholarships include the Angino, Hall, Henbest, Holden, Ireland, McGee, Moore, Patterson, Peoples, and Walters scholarship funds. Other scholarships are awarded from donations from individuals and corporations. Scholarships are awarded on the basis of academic excellence; some funds are designated for protected minorities or women.

Through the Selig Fund and other donations, the department supports graduate student field work. Through the McCollum Fund and other donations, the department underwrites partially some other research expenses, such as purchase of time on analytical equipment. Funding requires an acceptable thesis or dissertation proposal. Students who have no other sources of research support are given preference. Degree-seeking students may apply for loans from the Fritz, Horner, and Johns loan funds.

Visit the Graduate Studies website for information about funding opportunities (http://www.graduated.ku.edu/funding-opportunities) for graduate students at KU.
Financial Aid and Scholarships (http://affordability.ku.edu/steps/index.shtml) administers grants, loans, and need-based financial aid.

Careers

Career Opportunities

Opportunities include environmental geology, engineering geology, and hydrogeology, as well as the oil and minerals industries, research, and teaching.

Practice as a professional geologist often requires course work and training beyond the baccalaureate level.

Licensure

Formal study of geology at an accredited college or university is a principal requirement for becoming licensed to practice geology. During the senior year, students who plan to become licensed geologists should take the Fundamentals of Geology examination, offered twice a year.

Information on registration is available from the department office or from the Kansas Board of Technical Professions. After passing the examination and after further practice, candidates can sit for the Practice of Geology examination to become licensed. Regulations for licensure may vary from state to state.

Undergraduate Programs

Geology is an interdisciplinary science that applies the principles of chemistry, physics, biology, and other fields to the study of the earth, its resources, and its natural processes. The field has many subdisciplines and specialties that offer stimulating challenges and careers. KU offers broad undergraduate programs in geology and geophysics but emphasizes research in paleontology, sedimentology, crustal evolution, hydrogeology, geobiology, seismology, applied geophysics, glaciology, and geomorphology.

Courses for Nonmajors

The department offers several courses of interest to nonmajors who wish to learn more about geology and related areas such as environmental science, oceanography, and economic resources. Principal courses include GEOL 101, GEOL 105, GEOL 121, GEOL 171, GEOL 302, and GEOL 351. GEOL 103 may be taken in conjunction with either GEOL 101 or GEOL 105 to fulfill the CLAS laboratory science requirement.

GEOL 304, GEOL 360, and GEOL 552 all offer opportunities to study more specialized aspects of the earth and do not require advanced prerequisites.

Summer Field Courses

All undergraduate degree programs require field courses during 2 summers. Students should plan to take GEOL 360 in the summer after completing the introductory course. GEOL 560 and GEOL 561 (if required by the program) ideally are taken in the summer between the junior and senior years. Substantial scholarship support is available for geology majors who enroll in those courses.

Combined Degree Programs

A student may combine an interest in geology with a degree in business, education, or journalism.

Graduate Programs

The department offers the M.S. and Ph.D. in geology but permits specialization in a number of areas of geology and in geophysics and hydrogeology. Active areas of instruction and research include geophysics, geomorphology, geochemistry, microbial biogeochemistry, paleontology, sedimentology, tectonics, and petroleum geology. Students also may work with faculty supervisors at the Kansas Geological Survey and at Kansas State University.

Courses

GEOL 101. The Way The Earth Works. 3 Hours. NE GE3N / N.

Introduction to the principles of earth science. Study of the formation, occurrence, and structure of minerals and rocks; action of streams, oceans, glaciers, and other agents in the formation and modification of the landscape; volcanism, earthquakes, and plate tectonics. Discussion of earth processes in the context of sustainable energy, environmental concerns, climate and other topical issues. This course with GEOL 103 satisfies the College laboratory science requirement. Concurrent enrollment in GEOL 103 is recommended for students taking both. Course may be offered in lecture or online format. LEC.

GEOL 102. The Way The Earth Works, Honors. 3 Hours. NE GE3N / N.

Honors section of GEOL 101. An introduction to the principles of earth science. Study of the formation, occurrence, and structure of minerals and rocks; action of streams, oceans, glaciers, and other agents in the formation and modification of the landscape; mountain building, volcanism, earthquakes, and plate tectonics. Discussion of earth processes in the context of sustainable energy, environmental concerns, climate and other topical issues. Not open to students who have taken GEOL 101. This course with GEOL 103 satisfies the College laboratory science requirement. Concurrent enrollment in GEOL 103 is recommended for students taking both. Course may be offered in lecture or online format. LEC.

GEOL 103. Geology Fundamentals Laboratory. 2 Hours. U.

A course in geologic laboratory studies. This course plus GEOL 101, GEOL 102, GEOL 105, or GEOL 106 satisfies the College laboratory science requirement. Gives students practical, hands-on experience with identifying earth materials (rocks, minerals, fossils), understanding their relationships to earth processes, understanding topographic and geologic maps, interpreting results of surficial processes, and learning about deep-earth processes such as earthquakes. Includes short field trips to see geologic structures and results of local geologic processes. This lab course may be offered in on-campus lab or online format. Prerequisite: Previous or concurrent enrollment in GEOL 101, GEOL 102, GEOL 105, or GEOL 106. LAB.

GEOL 105. History of the Earth. 3 Hours. NE GE3N / N.

An introduction to the physical and biological history of the earth, the methods used to decipher earth history, and the development of the geological sciences. This course with GEOL 103 satisfies the College laboratory science requirement. Concurrent enrollment in GEOL 103 is recommended for students taking both. Not open to students who have taken GEOL 106 or GEOL 304. LEC.

GEOL 106. History of the Earth Honors. 3 Hours. NE GE3N / N.

Honors section of GEOL 105. An introduction to the physical and biological history of the earth, the methods used to decipher earth history, and the development of the geological sciences. This course with GEOL 103 satisfies the College laboratory science requirement. Concurrent enrollment in GEOL 103 is recommended for students taking both. Not open to students who have taken GEOL 105 or GEOL 304. LEC.
GEOL 121. Prehistoric Life: DNA to Dinosaurs. 3 Hours. NB GE3N / N.
An introduction to the history of life and the origin and evolution of animals and plants during the earth’s long history. The fossil record is interpreted by applying both biological and geological principles. LEC.

GEOL 171. Earthquakes and Natural Disasters. 3 Hours. NE GE3N / N.
Addresses the subject of natural disasters with concentration on earthquake effects and their mitigation. Briefly treats volcanic eruptions, tidal waves, floods, global warming, severe weather, and catastrophic meteorite impacts from the perspective of geological and human significance. Provides a basic background into earth-science processes. LEC.

GEOL 177. First Year Seminar: _______. 3 Hours. NE GE11.
A limited-enrollment, seminar course for first-time freshmen, organized around current issues in geology. May not contribute to major requirements in geology. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

GEOL 302. Oceanography. 3 Hours. NE GE3N / N.
Basic description of oceanography: description and discussion of the ocean as a dynamic system. Relationships between and dependence upon the interactions of submarine topography, water chemistry, wave action, and biota in understanding the ocean system. Review of part that humanity plays in perturbing the natural oceanic environment. Discussions of estuarine problems as related to the sea, cultural activities, and rivers. Course may be offered in lecture or online format. Prerequisite: An introductory science course. LEC.

GEOL 304. Historical Geology. 2 Hours. N.
A summary of the measurement of time, the history of life, and the earth’s development and the tectonics and rock-forming episodes of North America. Not open to students who have taken GEOL 105, GEOL 106 or GEOL 121. Prerequisite: GEOL 101. LEC.

GEOL 311. Mineralogy and Structure of the Earth. 3 Hours. N.
Basic identification and properties of rocks and minerals in the context of whole-earth structure and evolution. Includes basic chemical equilibria for rock and mineral systems and their bearing on processes involved with formation and evolution of Earth’s crust, mantle, and core. Two lectures and one lab per week. Prerequisite: GEOL 101, CHEM 130, and eligibility for MATH 121 or MATH 115. LEC.

GEOL 312. Mineral Structures and Equilibria Laboratory. 1 Hour. U.
A laboratory to accompany GEOL 311. Presents more rigorous analysis of the structures, compositions, and chemical equilibria governing the formation and stability of common rock-forming mineral systems. Prerequisite: GEOL 311 (may be taken concurrently), CHEM 130, and eligibility for MATH 121 or MATH 115. LAB.

GEOL 315. Gemstones. 3 Hours. N.
The properties, occurrence, description, determination, and mineral affinities of gems, ornamental stones, and gem materials. LEC.

GEOL 331. Sedimentology and Surface Processes. 4 Hours. GE3N / N.
Physical, chemical, and biological processes in surface and near-surface environments applied to the recognition of the depositional environment, preservation, and alteration of sedimentary rocks. Field and laboratory study of sedimentary rocks with emphasis on interpretation of original depositional environments and alter processes affecting sedimentary rocks. Prerequisite: GEOL 101. LEC.

GEOL 351. Environmental Geology. 3 Hours. NE GE3N / N.
An introductory course dealing with the implications of geologic processes and materials for civilization. Topics to be considered include: geologic hazards such as floods, landslides, earthquakes, and volcanism; the availability of water, mineral, and energy resources; and the environmental impact of resource utilization. The importance of recognizing geologic constraints in land use planning and engineering projects is emphasized and illustrated by examples. LEC.

GEOL 360. Field Investigation. 2 Hours. N.
Summer session. A field-geology course that provides beginning geology students with an initial understanding of the nature of geological evidence in the field, the breadth of geological phenomena, and the importance of the interplay of information from many geological disciplines in solving problems. Given at various geologically diverse locations. Fee. Prerequisite: GEOL 101. LEC.

GEOL 391. Special Studies in Geology. 1-6 Hours. N.
Special reports upon subjects in which students have a particular interest. Prerequisite: Fifteen hours of geology. IND.

GEOL 399. Senior Honors Research. 2-5 Hours. AE61 / N.
Normally two to five hours in any one semester with a maximum of eight hours. An undergraduate research course, in any of the fields of geology, open by permission of the department to seniors in the College who have an average grade of B or higher in geology courses. Prerequisite: Thirty hours of geology, five of which may be taken concurrently with this course. IND.

GEOL 501. Error Analysis. 1 Hour. N.
This course covers basic error analysis as it applies to geology. The course will emphasize the description and propagation of errors in data collection and reduction. Subjects include: how to report data and associated errors, error propagation in simple and complex equations, the Normal, Gaussian, and Poisson distributions, linear and higher order regression, and X-squared test. Prerequisite: MATH 121. LEC.

GEOL 512. Igneous and Metamorphic Petrology. 3 Hours. N.
The study of minerals, rocks and fluids within the earth’s crust and mantle to elucidate their mechanisms of formation and the pressure-temperature-composition conditions within the earth. The course emphasizes equilibrium thermodynamics, phase equilibria, fractionation mechanisms, tectonic control of petrogenesis, and quantitative analysis of mineral parageneses. Prerequisite: GEOL 311 and first semester calculus, or permission of instructor. LEC.

GEOL 513. Petrology Laboratory. 1 Hour. U.
A laboratory course to accompany GEOL 512. Material covered will include the use of the polarizing microscope in study of rocks in thin sections; identification of rock-forming minerals in thin section; study of textures as guides to the crystallization process; calculations of chemical changes during fractional crystallization and partial melting. Students will also make extensive study of igneous and metamorphic rocks in hand specimens, accompanied by thin section study, with emphasis on composition, texture, and structure. Students must co-enroll in GEOL 512. Prerequisite: GEOL 312. Concurrent enrollment in GEOL 512 required. LAB.

GEOL 521. Paleontology. 3 Hours. N.
A study of the structure and evolution of ancient life; the nature and diversity of life through time; the interactions of ancient organisms with their environments and the information that the study of fossils provides about ancient environments; the use of fossils to determine the ages of rocks and the timing of past events in earth history; and the patterns of extinction through time. (Same as BIOL 622.) Prerequisite: BIOL 100 or BIOL 152 or GEOL 105 or GEOL 304. LEC.
GEOL 523. Paleontology Laboratory. 1 Hour. U.
Laboratory course in the study of fossils with emphasis on the practice of paleontology and the morphology of ancient organisms. (Same as BIOL 623.) LEC.

GEOL 528. The Biology and Evolution of Fossil Plants. 3 Hours. N.
A lecture course in which fossil plants, protists and fungi are examined throughout geologic time. Emphasis will be directed at paleoecology, biogeography and the stratigraphic distribution and composition of ancient floras. (Same as BIOL 640.) Prerequisite: BIOL 413, or permission of instructor. LEC.

GEOL 529. Laboratory in Paleobotany. 1 Hour. U.
An examination of selected fossil plants throughout geologic time and the techniques used to study them; laboratory will include identification and the use of plant fossils in biostratigraphy. (Same as BIOL 641.) Prerequisite: BIOL 413 or permission of instructor. Must be taken concurrently with GEOL 528. LAB.

GEOL 532. Stratigraphy. 4 Hours. AE61 / N.
A study of the principles of lithostratigraphy, biostratigraphy, and sequence stratigraphy. Methods of analysis of stratigraphic data focus on the interpretation of earth history. The stratigraphic record of North America is presented for evaluation of its geologic history. Three lectures and one laboratory per week. Required field trip. Prerequisite: GEOL 101, GEOL 521, and GEOL 331. LEC.

GEOL 534. Volcanology. 3 Hours. N.
Physical and geochemical volcanology. Considers relationship of tectonics and volcanism: types of magmas; rheology of lavas, pyroclastic density currents, and mass movements in volcanic environments; and interpretation of processes and conditions of formation of volcanic rocks from their field character. Field trips to ancient volcanic complexes. Prerequisite: GEOL 331 and GEOL 512, or permission of instructor. LEC.

GEOL 535. Petroleum and Subsurface Geology. 4 Hours. N.
A general study of the occurrence, properties, origin, and migration of petroleum. Studies of various oil fields and oil-bearing basins. Laboratory studies include well logs, subsurface mapping, and cross-sections. Prerequisite: GEOL 331, GEOL 562, and GEOL 572; or CPE 527, or permission of instructor. LEC.

GEOL 536. Geological Log Analysis. 1 Hour. U.
Application of well logging measurements to interpretation subsurface. LEC.

GEOL 537. Petroleum Reservoir Characterization. 3 Hours. N.
Geological, geophysical, and engineering characterization of a petroleum reservoir. Includes mapping; petrophysical, production, and pressure analysis; and numerical modeling. Considers economic analysis of steps to improve oil recovery. Students who have completed GEOL 837 may not take GEOL 537 for credit. Prerequisite: GEOL 535 and permission of instructor. LEC.

GEOL 541. Geomorphology. 4 Hours. N.
A critical study of landforms in relation to tectonics, climatic environment, and geologic processes. The use of geomorphic methods in the interpretation of Cenozoic history is emphasized. Laboratory exercises in analysis of field observations, maps, and photographs. Required field trip and fee. (Same as GEG 541.) Prerequisite: GEOL 101 and GEOL 103, GEOG 104 and GEOG 105, or GEOL 304 and GEOL 103. LEC.

GEOL 551. Engineering Geology. 3 Hours. N.
Consideration of geologic factors affecting engineering projects. Topics include: techniques of site exploration, engineering properties of soil and rock, geologic conditions important in the design of major structures, and geologic information useful in land-use planning. Prerequisite: An introductory course in geology or consent of instructor. LEC.

GEOL 552. Introduction to Hydrogeology. 3 Hours. N.
Physical description of hydrogeologic media. Elementary groundwater hydraulics: analytical and graphical solutions for steady-state application. Well hydraulics and pumping tests. Basic groundwater geology. Effects of topography and geology on regional flow systems. Field and numerical delineation and analysis of groundwater flow systems and applications. Chemical characteristics of groundwaters and their relationship to aquifer geology and hydrology. Investigations of groundwater quality and contamination. Prerequisite: Two semesters each of calculus, physics, and chemistry. LEC.

GEOL 560. Introductory Field Geology. 3 Hours. AE61 / N.
Summer session. The study of the principles of field geology and the application of field methods to solve geological problems. Includes use of topographic maps and aerial photographs for geological mapping, the study of stratigraphic methods by measuring sections, and working field trips to areas of regional geological interest. Given at the University of Kansas Geology Field Camp near Canon City, Colorado. Fee. Prerequisite: GEOL 331, GEOL 360, and GEOL 562, or consent of instructor. FLD.

GEOL 561. Field Geology. 3 Hours. N.
Summer session. The application of the principles of field geology to solve complex geological problems in the field. Given at the University of Kansas Geology Field Camp near Canon City, Colorado, or at other sites as appropriate. Fee. Prerequisite: GEOL 560. FLD.

GEOL 562. Structural Geology. 4 Hours. N.
A study of primary and secondary rock-structures and their genesis. Includes techniques of structural analysis and introduces mechanics of rock deformations. Lectures, laboratory, and required field trip. Prerequisite: GEOL 311; PHSX 111, PHSX 114, or PHSX 211 and PHSX 216; and MATH 115 or MATH 121. LEC.

GEOL 571. Natural Disasters. 2-3 Hours. N.
Scientific assessment of natural disasters with concentration on earthquake effects and their mitigation. Briefly treats volcanic eruptions, tidal waves, floods, global warming, severe weather, and catastrophic meteorite impacts in a geological and human framework. A research paper or project is required. Prerequisite: An introductory course in a physical science. LEC.

GEOL 572. Geophysics. 3 Hours. N.
Introductory study of gravitational, magnetic, seismic, electrical, and thermal properties of the earth. Measurements, interpretation, and applications to exploration, earth structure, and global tectonics. Prerequisite: An introductory course in geology; MATH 116 or MATH 122; and PHSX 115 or PHSX 212 and PHSX 236. PHSX 115 or PHSX 212 may be taken concurrently. LEC.

GEOL 573. Geodynamics and Plate Tectonics. 3 Hours. N.
Study of physical processes in the solid Earth and of geophysical approaches to studying Earth systems at regional and global scales. Topics include global potential fields, thermal regime, rheology and Earth deformation, earthquakes and seismic structure, plate motions and global tectonics. (Same as PHSX 528.) Prerequisite: An introductory course in geology; MATH 116 or MATH 122; and PHSX 115, PHSX 214, or PHSX 212 and PHSX 236. LEC.

GEOL 575. Seismic Exploration. 3 Hours. N.
Application of seismic reflection and refraction techniques to the description of near-surface geology and the exploration for energy and mineral resources. Theory of seismic information, data collection, data processing using computers, and geologic interpretation. Prerequisite: A
course in computer programming, either FORTRAN or C, which may be taken concurrently. An introductory geophysics course, such as GEOL 572. LEC.

GEOL 576. Potential Fields Exploration. 3 Hours. N.
Use of gravity, magnetic, and electrical signals in the exploration for energy and mineral resources. Elementary potential field theory, data collection methods, data analysis, and interpretation using computers. Prerequisite: A course in computer programming, either FORTRAN or C, may be taken concurrently. An introductory geophysics course, such as GEOL 572. LEC.

GEOL 577. Environmental Geophysics. 3 Hours.
Application of the methods of geophysical exploration to evaluate, mitigate, and prevent environmental problems below the surface of the earth. Development of fundamental principles and discussion of environmental case histories using seismic, gravity, magnetic, electromagnetic, electrical, and radar methods. Prerequisite: An introductory course in geology; MATH 116 or MATH 122; and PHSX 115, or PHSX 212 and PHSX 236. LEC.

GEOL 591. Topics in Geology: ______. 1-5 Hours. N.
May include lectures, discussions, readings, laboratory, and field work in geology. Will be given as needed. May be taken more than once. LEC.

GEOL 711. X-Ray Analysis. 1-2 Hours.
Introduction to the theory and practice of X-ray diffraction and X-ray fluorescence analysis as applied to geological materials. Includes safety training necessary for the operation of X-ray analytical equipment in the department. Prerequisite: GEOL 311 and PHSX 115 or PHSX 212. LEC.

GEOL 712. Microstructures and Petrofabrics. 3 Hours.
This course is geared towards developing a qualitative and quantitative understanding of the fundamentals of rock and mineral deformation necessary to interpret comprehensively microstructural data. Microstructures and petrofabrics contain a wealth of information on kinematics, rheology, and boundary conditions of deforming rocks, important information that often goes unnoticed and unused. This course builds on knowledge acquired in undergraduate structural geology and petrology courses and will give students the tools for a more rigorous and sophisticated evaluation of thin sections and quantitative microstructural and textural data. Required field trip. Prerequisite: GEOL 512 and GEOL 562; or consent of the instructor. LEC.

GEOL 713. Advanced Petrology. 1 Hour.
Advanced topics in igneous and metamorphic petrology with emphasis on chemical and isotopic modeling. Course may be repeated, as topics covered vary. LEC.

GEOL 714. Thermochronology. 3 Hours.
This advanced course is intended to provide students with an in-depth understanding of the fundamentals and an appreciation of the complexities of thermochronology. The primary focus of this course is on modern thermochronological dating methods, a quantitative understanding of noble gas diffusion, data acquisition and interpretation, numerical modeling of complex thermochronological data, and hands-on laboratory experience in the KU thermochronology facilities. Prerequisite: MATH 122 and GEOL 717; or consent of the instructor. LEC.

GEOL 715. Geochemistry. 3 Hours.
Application of chemical equilibria and kinetics to geological environments and processes, with emphasis on processes involving solution equilibria. Includes introduction to thermodynamic aspects of equilibria. Prerequisite: CHEM 188 and MATH 122. LEC.

GEOL 716. Geologic Thermodynamics. 2 Hours.
Classical thermodynamics with an emphasis on phase equilibria, solid-solution chemistry, and modeling of natural systems. Prerequisite: Second semester calculus, or permission of instructor. LEC.

GEOL 717. Geochronology. 2-4 Hours.
Principles and applications of natural radioactive systems for geochronology and cosmochronology, including use of radiogenic isotopes as geochemical tracers. Prerequisite: GEOL 512 or consent of instructor. LEC.

GEOL 718. Stable Isotope Geochemistry. 1-3 Hours.
Principles and applications of equilibria among stable isotopes in the geological environment, with emphasis on the isotopic systems of hydrogen, carbon, and oxygen. Prerequisite: GEOL 715 or consent of instructor. LEC.

GEOL 721. Micropaleontology. 3 Hours.
Systematics, paleontology, evolution, and biostratigraphy of microfossils, particularly foraminifera, ostracodes, and conodonts. Preparation of material for study. Applications of micropaleontology to geologic problems. Prerequisite: GEOL 521 or BIOL 100 or 152. LEC.

GEOL 722. Paleoecology. 3 Hours.
Principles of ecology as applied to the interpretation of past environments. Prerequisite: GEOL 521. LEC.

GEOL 723. Paleontology Museum Apprenticeship. 1-6 Hours. N.
Provides directed, practical experience in care and management of paleontology collections, public education, exhibits, and museum administration with emphasis tailored to fit the needs and interests of each student. Students should expect to spend a minimum of five hours per week for each hour in which they are enrolled. (Same as AMS 799, ANTH 799, BIOL 799, HIST 799, and MUSE 799.) FLD.

GEOL 724. Paleobiogeography. 3 Hours.
The study of the coevolution of the Earth and its biota. The class will focus on using phylogenetic approaches with fossil taxa to study how tectonic change has influenced the evolution of life and also to determine what evolutionary patterns can tell us about the nature and sequence of geological events. Prerequisite: GEOL 521, or consent of the instructor. LEC.

GEOL 725. Paleontology of Lower Vertebrates. 3 Hours.
General account of the osteology, geologic distribution, and evolution of the principal groups of fishes, amphibians, reptiles, and birds. Lectures and laboratory. (Same as BIOL 790.) Prerequisite: GEOL 105 or GEOL 304, or GEOL 521. LEC.

GEOL 726. Paleontology of Higher Vertebrates. 3 Hours.
Evolution of mammals and anatomical modifications involved in the process as ascertained from the fossil record. Lectures and laboratory. (Same as BIOL 791.) Prerequisite: GEOL 105 or GEOL 304 or GEOL 521. LEC.

GEOL 727. Macroevolution. 3 Hours.
This course will present a broad survey of topics in macroevolution including the differences between micro- and macroevolutionary patterns and processes and the manners of formulating and analyzing macroevolutionary questions. Discussions will focus on the relevance of hierarchy theory and levels of selection; an overview of species concepts, both ontological and epistemological; and an analysis of the neo-Darwinian synthesis as related to innovations in evolutionary theory. In addition, the relevance of contingency and extinction to evolutionary theory will be emphasized. LEC.
GEOL 728. Paleopedology. 3 Hours.
Paleopedology is the study of ancient soils preserved in the geologic record. The course covers concepts of paleopedology and its applications to the interpretation of paleoenvironmental, paleoclimatic, and paleohydrogeologic settings and its use in sequence stratigraphy and paleoclimatology. Prerequisite: GEOG 535, GEOL 331, or GEOL 532; or consent of the instructor. LEC.

GEOL 729. Ichnotology. 3 Hours.
Ichnotology is the study of organism-substrate interactions. The class will cover concepts and applications of ichnotology in the marine and continental realms, including the behavior of such organisms as microbes, plants, invertebrates, and vertebrates preserved in the geologic record as trace fossils. Ichnotology is applied in geology and in the petroleum industry to interpret ancient environments, hydrogeology, ecology, and climate. Prerequisite: GEOL 331, GEOL 521, or GEOL 532; or consent of the instructor. LEC.

GEOL 731. Terrigenous Depositional Systems. 4 Hours.
Processes that operate in recent sedimentary environments, responses of sediment to those processes, and criteria for determining depositional environments of ancient sedimentary rocks. Lectures, practical exercises, and field trips. Prerequisite: GEOL 331 or GEOL 532. LEC.

GEOL 732. Carbonate Depositional Systems. 3 Hours.
Patterns and processes of contemporaneous carbonate deposition and diagenesis, depositional models; applications to interpretation of carbonate rocks. Lecture, discussion, laboratory and field trips. Prerequisite: GEOL 532 (may be taken concurrently). LEC.

GEOL 741. Advanced Geomorphology. 1-3 Hours.
Detailed discussions of processes and landforms characteristic of specific environments. Considered during separate semesters will be general methodology, and fluvial, arid regions, glacial, and shoreline geomorphology. Course may be taken more than once. (Same as GEOG 741.) Prerequisite: GEOL 541. LEC.

GEOL 751. Physical Hydrogeology. 3 Hours.
Study of fluid flow in subsurface hydrologic systems. Investigation of the ground water environment including porosity, and hydraulic conductivity and their relationship to typical geologic materials. Examination of Darcy’s law and the continuity equation leading to the general flow equations. Discussion of typical hydraulic testing methods to estimate aquifer parameters in various situations and apply these to water resource problems. Study of the basic mechanisms that determine the behavior of typical regional flow systems. (Same as CE 752.) LEC.

GEOL 753. Chemical and Microbial Hydrogeology. 4 Hours.
Lecture and discussion of chemical and microbiological controls on groundwater chemistry. Topics include thermodynamic and microbiological controls on water-rock reactions; kinetics; and microbiological, chemical and isotopic tools for interpreting water chemistry with respect to chemical weathering and shallow diagenesis. Origins of water chemistry, changes along groundwater flow paths, and an introduction to contaminant biogeochemistry will be discussed through the processes of speciation, solubility, sorption, ion exchange, oxidation-reduction, elemental and isotopic partitioning, microbial metabolic processes and microbial ecology. An overview of the basics of environmental microbiology, including cell structure and function, microbial metabolism and respiration, microbial genetics and kinetics of microbial growth will be covered. (Same as CE 753.) Prerequisite: One year of chemistry, one year of calculus, one year of biology, an introductory course in hydrogeology, or consent of the instructors. LEC.

GEOL 754. Contaminant Transport. 3 Hours.
A study of the transport of conservative and non-conservative pollutants in subsurface waters. Case studies are used to illustrate and develop a conceptual understanding of such processes as diffusion, advection, dispersion, retardation, chemical reactions, and biodegradation. Computer models are developed and used to quantify these processes. (Same as CE 754.) Prerequisite: Introductory Hydrogeology or consent of instructor. LEC.

GEOL 761. Regional Field Geology. 1-5 Hours.
A detailed field study of a carefully selected area that includes features of several phases of geology. Field trip fee. Prerequisite: GEOL 561 or equivalent and departmental approval. FLD.

GEOL 763. Tectonics and Regional Geology. 3 Hours.
Topics vary with demand and include fundamental features of plate tectonics, interpretation and distribution of regional geology of mountain belts with emphasis on tectonic setting and processes, regional geology, and tectonics of selected mountain belts. Prerequisite: GEOL 562, GEOL 512, or GEOL 331, and GEOL 572. LEC.

GEOL 771. Advanced Geophysics: ____. 1-3 Hours.
Topics to vary with demand and include heat flow, wave propagation, synthetic seismograms, groundwater exploration, geothermal exploration, electrical methods in exploration, rock mechanics-tectonophysics, rock magnetism, geomagnetism, paleomagnetism, geophysical inverse theory, and others upon sufficient demand. May be repeated for different topics. (Same as PHSX 727.) Prerequisite: GEOL 572 or GEOL 573/PHSX 528 or consent of instructor. LEC.

GEOL 772. Geophysical Data Analysis. 3 Hours.
Fourier analysis, sampling theory, prediction and interpolation of geophysical data, filtering theory, correlation techniques, deconvolution. Examples will be chosen from various fields of geophysics. (Same as PHSX 722.) Prerequisite: MATH 250/AE 250/ARCE 250/CE 250/CPE 250/Eecs 250/EPHX 250/ME 250 and either GEOL 572 or GEOL 573 or PHSX 528. LEC.

GEOL 773. Seismology. 3 Hours.
General theory of seismic waves, wave field extrapolation (migration) by finite difference methods, construction of travel-time curves, reflection and attenuation of coefficients, earthquake source mechanism, distribution and forecasting of earthquakes. (Same as PHSX 723.) Prerequisite: MATH 250/AE 250/ARCE 250/CE 250/CPE 250/Eecs 250/EPHX 250/ME 250 and either GEOL 572 or GEOL 573 or PHSX 528. LEC.

GEOL 774. Finite Difference Methods for Geophysics. 2-3 Hours.
Application of finite difference methods to solve the partial differential equations that commonly occur in the study of geophysics. Representative examples will be drawn from groundwater flow, gravity and magnetics modeling, and seismic wave propagation. Emphasis will be on obtaining actual solutions for practical problems. Prerequisite: MATH 250, or MATH 320, or consent of the instructor. LEC.

GEOL 775. Near-Surface Seismology. 3 Hours.
Theoretical and applied study of all aspects of near-surface reflection, refraction, and surface-wave seismology from design and acquisition to interpretation. Prerequisite: MATH 250, GEOL 572, or consent of the instructor. LEC.

GEOL 780. Conservation Principles and Practices. 3 Hours.
This course will acquaint the future museum professional with problems in conserving all types of collections. Philosophical and ethical approaches will be discussed, as well as the changing practices regarding conservation techniques. Emphasis will be placed on detection and identification of causes of deterioration in objects made of organic and inorganic materials, and how these problems can be remedied. Storage
and care of objects will also be considered. (Same as AMS 714, BIOL 700, HIST 722 and MUSE 706.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

GEOL 781. Introduction to Museum Exhibits. 3 Hours.
This course will consider the role of exhibits as an integrated part of museum collection management, research, and public service. Lecture and discussion will focus on issues involved in planning and producing museum exhibits. Laboratory exercises will provide first hand experience with basic preparation techniques. Emphasis will be placed on the management of an exhibit program in both large and small museums in the major disciplines. (Same as AMS 720, BIOL 787, HIST 723, and MUSE 703.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

GEOL 782. The Nature of Museums. 3 Hours.
The purpose of this course is to provide an overview of the kinds of museums, their various missions, and their characteristics and potentials as research, education, and public service institutions responsible for collections of natural and cultural objects. (Same as AMS 731, BIOL 785, HIST 728, and MUSE 701.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

GEOL 783. Museum Management. 3 Hours.
Lecture, discussion, and laboratory exercises on the nature of museums as organizations; accounting, budget cycles, personnel management, and related topics will be presented using, as appropriate, case studies and a simulated museum organization model. (Same as AMS 730, BIOL 784, HIST 721, and MUSE 705.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

GEOL 784. Introduction to Museum Public Education. 3 Hours.
Consideration of the goals of an institution’s public education services, developing programs, identifying potential audiences, developing audiences, and funding. Workshops and demonstrations are designed for students to gain practical experience working with various programs and developing model programs. (Same as AMS 730, BIOL 784, HIST 721, and MUSE 705.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

GEOL 785. Principles and Practices of Museum Collection Management. 3 Hours.
Lecture, discussion, and laboratory exercises on the nature of museum collections, their associated data, and their use in scholarly research; cataloging, storage, fumigation, automated information management and related topics will be presented for museums of art, history, natural history and anthropology. (Same as AMS 730, BIOL 798, HIST 725, and MUSE 704.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

GEOL 791. Advanced Topics in Geology: _____. 1-5 Hours.
Selected offerings in geology. Intended primarily for graduate students and qualified seniors. May include lectures, discussions, reading, laboratory and field work. May be taken more than once. LEC.

GEOL 837. Geoscience and Petroleum Engineering. 3 Hours.
Advanced geological, geophysical, and engineering characterization of a petroleum reservoir. Includes mapping; petrophysical, production, and pressure analysis; and numerical modeling. Considers economic analysis of steps to improve recovery. Students who have completed GEOL 537 may not take GEOL 837 for credit. LEC.

GEOL 851. Field and Laboratory Methods: Physical Hydrogeology. 1 Hour.
Introduction to field and laboratory methods commonly used in physical hydrogeology. Practical experience with common water level measurement techniques, various well pumping techniques, well installation and geologic core sampling, and hydraulic testing. Prerequisite: Introductory course in hydrogeology and familiarity with computer use for data processing, or consent of instructor. FLD.

GEOL 852. Field and Laboratory Methods: Contaminant Transport. 1 Hour.
Introduction to laboratory methods for evaluating reactive transport parameters, followed by development and implementation of computer models. Students will gain experience building models starting from basic transport equations using a spreadsheet platform and, where appropriate, commercial software packages. Prerequisite: GEOL 751 (may be taken concurrently) or equivalent, or consent of the instructor. LAB.

GEOL 853. Field and Laboratory Methods: Chemical Hydrogeology. 1 Hour.
Practical experience in measuring unstable chemical parameters in groundwater, including pH, Eh, dissolved oxygen, temperature, alkalinity, specific conductance, and turbidity. Practical experience in collecting water samples for chemical analysis, choosing appropriate sample containers and preservation methods, and special techniques for collecting samples for determination of parameters sensitive to environmental changes such as oxygen level or temperature. Prerequisite: GEOL 753 (may be taken concurrently) or equivalent, or consent of the instructor. FLD.

GEOL 854. Field and Laboratory Methods: Geobiology. 1 Hour.
Practical experience in cultivating, enumerating and visualizing groundwater microorganisms. Geochemical and molecular techniques for studying microbial community diversity, biomineralization and mineral dissolution, and biodegradation of organic contaminants will be covered. Practical experience in collecting water samples for preservation of microorganisms sensitive to environmental changes such as oxygen level or temperature. Prerequisite: GEOL 753 (may be taken concurrently) or equivalent, or consent of the instructor. FLD.

GEOL 891. Special Studies in Geology. 1-5 Hours.
May be repeated. RSH.

GEOL 899. Master’s Thesis. 1-12 Hours.
THE.

GEOL 921. Advanced Invertebrate Paleontology: _____. 1-3 Hours.
Detailed study of systematics, morphology, stratigraphic distribution and paleoecology of major groups of organisms in the fossil record. Specific group or groups covered will vary according to student and faculty needs and interests. May be repeated. Prerequisite: An introductory course in invertebrate paleontology. LEC.

GEOL 932. Carbonate Petrology. 3 Hours.
Study of the physical and chemical factors important in the genesis and diagenesis of carbonate rocks. Includes the application of principles learned from research on modern marine environments to the interpretation of ancient carbonates. Various analytical techniques are covered with emphasis on thin section petrography. Prerequisite: GEOL 331 and GEOL 732. LEC.

GEOL 933. Sandstone Petrology. 3 Hours.
Description, classification, and interpretation of sedimentary rocks, emphasizing petrographic methods applied to terrigeneous rocks and interpretation of provenance of sedimentary sequences. Prerequisite: GEOL 511 and GEOL 531 or GEOL 532. LEC.

GEOL 991. Seminar in: _____. 1-5 Hours.
A review of the principles of the geological sciences. Fields considered are: geomorphology, igneous petrology, metamorphic petrology, invertebrate paleontology, groundwater, geochemistry, stratigraphy, sedimentation, micropaleontology, mineralogy, structural geology, and
Bachelor of Arts in Geology

Why study geology?

Because its leadership role among geoscience programs advances higher learning and serves society through the discovery, dissemination, and application of knowledge.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Geology Programs

The B.A. program allows many free electives for background courses in the sciences or liberal arts. The program permits study of traditional geology (with emphasis on the solid earth, the earth’s surface, or environmental geology and natural resources), environmental geology (with emphasis on water or urban environmental geology), or an individually tailored program.

Degree requirements may be altered to suit particular needs of a student upon petition to the undergraduate studies committee and in consultation with a geology faculty advisor. Special consideration is given to students with strong backgrounds in supporting sciences and students with superior records who decide to major in geology late in their programs.

First- and Second-Year Preparation

Students interested in geology should see a department advisor as soon as possible. They should enroll in mathematics, chemistry, and English in addition to Introduction to Geology and electives. Students should take GEOL 360 as soon as possible.

Advising

Developing a strong relationship with a faculty advisor helps students get the most out of their educational programs in the shortest time. Most courses for majors are offered in only one semester each year. Advisors can guide the student through complexities of the curriculum or into a specialized program.

Requirements for the B.A. Major

Geology Major Course Requirements

Geology Prerequisite or Co-requisite Knowledge (21-27)

Majors must complete courses as specified in each of the following areas. Majors are advised to take honors courses when eligible. These hours do not contribute to the minimum number of hours required for the major.

Calculus I. Satisfied by:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>

Geology Required Electives (15)
Majors must complete a minimum of 15 hours in geology or related courses. Several possible tracks of upper-level course work are given below.

**General Geology Options**

Concentrate on traditional geology with emphasis on the solid earth and the earth’s interior, earth surface processes, or environmental geology and natural resources.

**Solid Earth (15)**
- GEOL 312 Mineral Structures and Equilibria Laboratory 1
- GEOL 512 Igneous and Metamorphic Petrology 3
- GEOL 513 Petrology Laboratory 1
- GEOL 532 Stratigraphy 4
- GEOL 572 Geophysics 3
- GEOL 573 Geodynamics and Plate Tectonics 3

**Surface Earth (17)**
- GEOL 171 Earthquakes and Natural Disasters 3
- GEOL 351 Environmental Geology 3
- GEOL 532 Stratigraphy 4
- GEOL 541 Geomorphology 4
- GEOL 722 Paleocology 3

**Geology and Natural Resources (14-19)**
- GEOL 351 Environmental Geology 3
- GEOL 391 Special Studies in Geology 1-6
- GEOL 541 Geomorphology 4
- GEOL 572 Geophysics 3
- EVRN 332 Environmental Law (prerequisite: EVRN 148) 3

**Environmental Geology Options**

Concentrate on environmental geology with emphasis on water and the environment or urban environmental geology.

**Water, Geology, and the Environment (23-28)**
- GEOL 302 Oceanography 3
- GEOL 351 Environmental Geology 3
- GEOL 391 Special Studies in Geology 1-6
- GEOL 541 Geomorphology 4
- GEOL 552 Introduction to Hydrogeology 3
- ATMO 515 Energy and Water Balance 3
- CE 477 Introduction to Environmental Engineering and Science 3
- BIOL 661 Ecology of Rivers and Lakes 3

**Urban Environmental Geology (12)**
- GEOL 351 Environmental Geology 3
- ATMO 525 Air Pollution Meteorology 3
- CE 477 Introduction to Environmental Engineering and Science 3
- GEOG 304 Environmental Conservation 3

**Other Elective Courses (16)**
- GEOL 532 Stratigraphy 4
- ATMO 105 Introductory Meteorology 5
- BIOL 414 Principles of Ecology 3
- GEOG 558 Intermediate Geographical Information Systems 4

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 30 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Graduation Plan**

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the department for details.

**Departmental Honors**

Pursuit of departmental honors in Geology is by invitation from the Department of Geology honors coordinator.
Requirements include:
- 3.25 or higher KU GPA at graduation.
- 3.50 or higher KU geology-courses GPA at graduation.
- Completion of at least 2 credit hours of GEOL 399.
- Completion and successful defense of an honor’s thesis.
Additional requirements and more information may be obtained from the Department of Geology honors coordinator and web site.

**Bachelor of Science in Geology**

**Why study geology?**

Because its leadership role among geoscience programs advances higher learning and serves society through the discovery, dissemination, and application of knowledge.

**Undergraduate Admission**

**Admission to KU**

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.
Geology Programs

The B.S. program provides intensive training in geology and other sciences. B.S. majors may emphasize traditional geology, environmental geology (with a specialized track in hydrogeology), engineering geology, geophysics, or earth and space science licensure. The hydrogeology track, the engineering geology option, and the geophysics option combine basic training in geology with training in mathematics, engineering, physics, and geophysics. The environmental geology option combines training in geology with many different sciences.

Degree requirements may be altered to suit particular needs of a student upon petition to the undergraduate studies committee and in consultation with a geology faculty advisor. Special consideration is given to students with strong backgrounds in supporting sciences and students with superior records who decide to major in geology late in their programs.

First- and Second-Year Preparation

Students interested in geology, especially in the B.S. degree, should see a department advisor as soon as possible. They should enroll in mathematics, chemistry, and English in addition to Introduction to Geology and electives. Students should take GEOL 360 as soon as possible.

Advising

Developing a strong relationship with a faculty advisor helps students get the most out of their educational programs in the shortest time. Most courses for majors are offered in only one semester each year. Advisors can guide the student through complexities of the curriculum or into a specialized program.

Requirements for the B.S. Degree

The B.S. program provides intensive training in geology and other sciences. B.S. majors may emphasize traditional geology, environmental geology (with a specialized track in hydrogeology), engineering geology, geophysics, or earth and space science licensure. The hydrogeology track, the engineering geology option, and the geophysics option combine basic training in geology with training in mathematics, engineering, physics, and geophysics. The environmental geology option combines training in geology with many different sciences.

Degree requirements may be altered to suit particular needs of a student upon petition to the undergraduate studies committee and in consultation with a geology faculty advisor. Special consideration is given to students with strong backgrounds in supporting sciences and students with superior records who decide to major in geology late in their programs.

General Geology Option

Written Communication - Core Skill and Critical Inquiry.

Calculus II. Satisfied by:
MATH 122 Calculus II 5
Chemistry. Satisfied by:
CHEM 130 General Chemistry I 10
& CHEM 135 and General Chemistry II
Physics. Satisfied by:
PHSX 211 General Physics I 2-5
& PHSX 216 and General Physics I Laboratory
PHSX 212 General Physics II 2-4
& PHSX 236 and General Physics II Laboratory
Biology. Satisfied by BIOL:
BIOL 150 Principles of Molecular and Cellular Biology 8
& BIOL 152 and Principles of Organismal Biology
Information Technology. Satisfied by one of the following:
EECS 128 Foundations of Information Technology: _____ 3
EECS 138 Introduction to Computing: _____ 3
C&PE 121 Introduction to Computers in Engineering 3

Geology Core Knowledge and Skills (40)
Majors must complete the following core courses:
Introduction to Geology. Satisfied by:
GEOL 101 The Way The Earth Works 3
Geology Fundamentals Laboratory. Satisfied by:
GEOL 103 Geology Fundamentals Laboratory 2
Mineralogy and Structure of the Earth. Satisfied by:
GEOL 311 Mineralogy and Structure of the Earth 3
Mineral Structures and Equilibria Laboratory. Satisfied by:
GEOL 312 Mineral Structures and Equilibria Laboratory 1
Sedimentology and Surface Processes. Satisfied by:
GEOL 331 Sedimentology and Surface Processes 4
Field Investigation. Satisfied by:
GEOL 360 Field Investigation 2
Igneous and Metamorphic Petrology. Satisfied by:
GEOL 512 Igneous and Metamorphic Petrology 3
Petrology Laboratory. Satisfied by:
GEOL 513 Petrology Laboratory 1
Paleontology. Satisfied by:
GEOL 521 Paleontology 3
Paleontology Laboratory. Satisfied by:
GEOL 523 Paleontology Laboratory 1
Stratigraphy. Satisfied by:
GEOL 532 Stratigraphy 4
Introductory Field Geology. Satisfied by:
GEOL 560 Introductory Field Geology 3
Field Geology. Satisfied by:
GEOL 561 Field Geology 3
Structural Geology. Satisfied by:
GEOL 562 Structural Geology 4
Geophysics or Geodynamics and Plate Tectonics. Satisfied by:
GEOL 572 Geophysics 3
or GEOL 573 Geodynamics and Plate Tectonics

Geology Required Electives (0)

Majors must complete additional courses to total at least 9 hours numbered 500 or above. This can include 3 hours of GEOL 399, GEOL 105, GEOL 304, or GEOL 121 can also count if taken before the student has completed 60 hours. Electives may include an upper-division course in statistics (MATH 365 or BIOL 570).

Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 49 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior Hours
Satisfied by a minimum of 18 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Engineering Geology Option

Written Communication - Core Skill and Critical Inquiry.

Composition (3)
Satisfied by one of the following. Requirement must be completed during initial term of admission at KU.
ENGL 101 Composition 3
ACT English score of 27 or above or SAT English score of 600 or above
AP English Literature & Composition score of 3 or above
Equivalent transfer course

Critical Reading and Writing (3)
Satisfied by one of the following. Requirement must be completed within the first academic year at KU.
ENGL 102 Critical Reading and Writing 3
or ENGL 105 Freshman Honors English
AP English Literature & Composition score of 4 or above
Equivalent transfer course

Sophomore Reading and Writing II (3)
Satisfied by one of the following:
ENGL 362 Foundations of Technical Writing 3
AP English Literature & Composition score of 5 or above
Equivalent

Communications.
Satisfied by:
COMS 130 Speaker-Audience Communication 3
or COMS 150 Personal Communication
Humanities - Understanding the Human Condition. Satisfied by completing 2 courses (requirement code S). Approved courses may be searched for availability through the Kyou portal.

Social and Behavioral Sciences - Understanding Society and Behavior. Satisfied by completing 2 courses (requirement code S). Approved courses may be searched for availability through the Kyou portal.

Geology Prerequisite or Co-requisite Knowledge (57-62)

Majors must complete courses as specified in each of the following areas. Majors are advised to take honors courses when eligible. These hours do not contribute to the minimum number of hours required for the major.

Mathematics. Satisfied by:

<table>

</tbody>
</table>

Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 45 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**

Satisfied by a minimum of 18 hours from junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of
study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Environmental Geology Option**

Written Communication - Core Skill and Critical Inquiry.

**Composition (3)**
Satisfied by one of the following. Requirement must be completed during initial term of admission at KU.

- ENGL 101 Composition 3
  - ACT English score of 27 or above or SAT English score of 600 or above
  - AP English Literature & Composition score of 3 or above
  - Equivalent transfer course

**Critical Reading and Writing (3)**
Satisfied by one of the following. Requirement must be completed within the first academic year at KU.

- ENGL 102 Critical Reading and Writing 3
  - AP English Literature & Composition score of 4 or above
  - Equivalent transfer course

**Sophomore Reading and Writing II (15)**
Satisfied by one of the following:

- ENGL 203 Topics in Reading and Writing: _____ 3
- ENGL 205 Freshman-Sophomore Honors Proseminar: _____
- ENGL 209 Introduction to Fiction 3
- ENGL 210 Introduction to Poetry 3
- ENGL 211 Introduction to the Drama 3
- ENGL 362 Foundations of Technical Writing 3
  - AP English Literature & Composition score of 5 or above
  - Equivalent transfer course

**Communications.**
Satisfied by:

- COMS 130 Speaker-Audience Communication 3
- COMS 150 Personal Communication

**Humanities - Understanding the Human Condition.** Satisfied by completing 2 courses (requirement code H). Approved courses may be searched for availability through the Kyou portal.

**Social and Behavioral Sciences - Understanding Society and Behavior.** Satisfied by completing 2 courses (requirement code S). Approved courses may be searched for availability through the Kyou portal. An introductory course in economics is recommended.

**Geology Prerequisite or Co-requisite Knowledge (43-54)**
Majors must complete courses as specified in each of the following areas. Majors are advised to take honors courses when eligible. These hours do not contribute to the minimum number of hours required for the major.

Calculus I. Satisfied by:

- MATH 121 Calculus I (Prerequisite: MATH 104; or MATH 103; or three years of college preparatory mathematics including trigonometry and a score of 28 or higher on ACT mathematics or 640 or higher on the SAT; or a qualifying score on the mathematics placement test. Students may complete MATH 115 and MATH 116 prior to completing MATH 122.) 5

Calculus II. Satisfied by:

- MATH 122 Calculus II 5

Chemistry. Satisfied by:

- CHEM 130 General Chemistry I 10
- CHEM 135 and General Chemistry II

Physics. Satisfied by:

- Select one of the following:
  - PHSX 211 General Physics I 2-5
  - PHSX 212 & PHSX 236 General Physics II Laboratory (recommended) 2-4
  - PHSX 211 & PHSX 236 General Physics I and General Physics II Laboratory 2-8

Biology. Satisfied by:

- BIOL 150 Principles of Molecular and Cellular Biology 8
- BIOL 152 and Principles of Organismal Biology

Information Technology. Satisfied by one of the following:

- EECS 128 Foundations of Information Technology: _____ 3
- EECS 138 Introduction to Computing: _____ 3
- C&PE 121 Introduction to Computers in Engineering 3

**Geology Core Knowledge and Skills (41)**
Majors must complete the following core courses:

Introduction to Geology. Satisfied by:

- GEOL 101 The Way The Earth Works 3

Geology Fundamentals Laboratory. Satisfied by:

- GEOL 103 Geology Fundamentals Laboratory 2

Mineralogy and Structure of the Earth. Satisfied by:

- GEOL 311 Mineralogy and Structure of the Earth 3

Sedimentology and Surface Processes. Satisfied by:

- GEOL 331 Sedimentology and Surface Processes 4

Environmental Geology. Satisfied by:

- GEOL 351 Environmental Geology 3

Field Investigation. Satisfied by:

- GEOL 360 Field Investigation 2

Paleontology. Satisfied by:

- GEOL 521 Paleontology 3

Stratigraphy. Satisfied by:

- GEOL 532 Stratigraphy 4

Geomorphology. Satisfied by:

- GEOL 541 Geomorphology 4

Introduction to Hydrogeology. Satisfied by:

- GEOL 552 Introduction to Hydrogeology 3

Introductory Field Geology. Satisfied by:

- GEOL 560 Introductory Field Geology 3

Structural Geology. Satisfied by:

- GEOL 562 Structural Geology 4
Geophysics. Satisfied by:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 572</td>
<td>Geophysics</td>
<td>3</td>
</tr>
</tbody>
</table>

**Geology Required Electives (38-43)**

Majors must complete additional courses to total at least nine hours numbered 500 or above. The following are recommended:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 391</td>
<td>Special Studies in Geology</td>
<td>1-6</td>
</tr>
<tr>
<td>GEOL 535</td>
<td>Petroleum and Subsurface Geology</td>
<td>4</td>
</tr>
<tr>
<td>GEOL 715</td>
<td>Geochemistry</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 751</td>
<td>Physical Hydrogeology</td>
<td>3</td>
</tr>
<tr>
<td>CE 770</td>
<td>Concepts of Environmental Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>&amp; CE 771</td>
<td>and Environmental Chemical Analysis</td>
<td>3</td>
</tr>
<tr>
<td>GEOG 535</td>
<td>Soil Geography</td>
<td>4</td>
</tr>
<tr>
<td>GEOG 558</td>
<td>Intermediate Geographical Information Systems</td>
<td>4</td>
</tr>
<tr>
<td>GEOG 753</td>
<td>Chemical and Microbial Hydrogeology</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 400</td>
<td>Fundamentals of Microbiology</td>
<td>3</td>
</tr>
</tbody>
</table>

**Environmental Hydrogeology Track**

Besides the general program above, a specialized track in hydrogeology satisfies degree requirements. In addition to College, supporting science, and geology courses, the environmental hydrogeology track requires the following mathematics and civil engineering/physics courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 220</td>
<td>Applied Differential Equations</td>
<td>3</td>
</tr>
<tr>
<td>MATH 290</td>
<td>Elementary Linear Algebra</td>
<td>2</td>
</tr>
<tr>
<td>CE 330</td>
<td>Fluid Mechanics</td>
<td>4</td>
</tr>
<tr>
<td>or PHSX 623</td>
<td>Physics of Fluids</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition, Technical Electives (9 hours). These normally are chosen from courses numbered 500 or above in geology, physics, mathematics, chemistry, engineering or computer science. Courses numbered below 500 must be approved by a geology advisor.

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Hours</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Major Hours</strong></td>
<td>50</td>
<td>2.0</td>
</tr>
<tr>
<td><strong>Major Hours in Residence</strong></td>
<td>15</td>
<td></td>
</tr>
<tr>
<td><strong>Major Junior/Senior Hours</strong></td>
<td>45</td>
<td></td>
</tr>
<tr>
<td><strong>Major Junior/Senior Graduation GPA</strong></td>
<td>2.0</td>
<td></td>
</tr>
<tr>
<td><strong>Geology Prerequisite or Co-requisite Knowledge</strong></td>
<td>114</td>
<td></td>
</tr>
</tbody>
</table>

**Composition (3)**

Satisfied by one of the following. Requirement must be completed during initial term of admission at KU.

<table>

**Information Technology. Satisfied by one of the following:**

**Geology Core Knowledge and Skills (27)**

Majors must complete the following core courses:

- **Introduction to Geology. Satisfied by:**
  - GEOL 101 The Way The Earth Works 3

- **Geology Fundamentals Laboratory. Satisfied by:**
  - GEOL 103 Geology Fundamentals Laboratory 2

- **Mineralogy and Structure of the Earth. Satisfied by:**
  - GEOL 311 Mineralogy and Structure of the Earth 3

- **Sedimentology and Surface Processes. Satisfied by:**
  - GEOL 331 Sedimentology and Surface Processes 4

- **Field Investigation. Satisfied by:**
  - GEOL 360 Field Investigation 2

- **Igneous and Metamorphic Petrology. Satisfied by:**
  - GEOL 512 Igneous and Metamorphic Petrology 3

- **Introductory Field Geology. Satisfied by:**
  - GEOL 560 Introductory Field Geology 3

- **Structural Geology. Satisfied by:**
  - GEOL 562 Structural Geology 4

- **Geophysics. Satisfied by one of the following:**
  - GEOL 572 Geophysics 3

- **or GEOL 573** Geodynamics and Plate Tectonics 3

**Additional Geology Courses (12)**

- **Satisfied by completion of two of the following:**
  - GEOL 572 Geophysics 3
  - GEOL 573 Geodynamics and Plate Tectonics 3
  - GEOL 575 Seismic Exploration 3
  - GEOL 577 Environmental Geophysics 3

**Technical Required Electives (0)**

Majors must complete additional courses to total at least nine hours numbered 500 or above in geology, physics, mathematics, chemistry, engineering, or computer science. Courses numbered below 500 must be approved by a geophysics advisor.

### Major Hours & Major GPA

Majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 42 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

### Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator [here](http://clas.ku.edu/undergrad/tools/gpa).

### Earth and Space Science Licensure Option

This program fulfills the requirements for a Bachelor of Science degree in geology. The program also meets course requirements necessary to gain state licensure eligibility in earth and space science to become a secondary teacher in Kansas, but completion of the program does not guarantee the student’s licensure. This list is a guideline. Contact the geology department for further information about meeting degree and additional licensure requirements. You may also contact the UKanTeach Office for information about similar tracks resulting in eligibility for licensure in this and other science and mathematics fields.

**Written Communication - Core Skill and Critical Inquiry.**

**Composition (3)**
Satisfied by one of the following. Requirement must be completed during initial term of admission at KU.

- ENGL 101 Composition 3
  - ACT English score of 27 or above or SAT English score of 600 or above
  - AP English Literature & Composition score of 3 or above
  - Equivalent transfer course

**Critical Reading and Writing (3)**
Satisfied by one of the following. Requirement must be completed within the first academic year at KU.

- ENGL 102 Critical Reading and Writing 3
  - or ENGL 105 Freshman Honors English
  - AP English Literature & Composition score of 4 or above
  - Equivalent transfer course

**Sophomore Reading and Writing II (15)**
Satisfied by one of the following:

- ENGL 203 Topics in Reading and Writing: _____ 3
  - or ENGL 205 Freshman-Sophomore Honors Proseminar: _____
  - or ENGL 209 Introduction to Fiction 3
  - ENGL 210 Introduction to Poetry 3
  - ENGL 211 Introduction to the Drama 3
  - ENGL 362 Foundations of Technical Writing 3
  - AP English Literature & Composition score of 5 or above
  - Equivalent

**Communication.**

Satisfied by:

- COMS 130 Speaker-Audience Communication 3
  - or COMS 150 Personal Communication
Humanities - Understanding the Human Condition. Satisfied by completing 2 courses (requirement code H). Approved courses may be searched for availability through the Kyou portal.

Social and Behavioral Sciences - Understanding Society and Behavior. Satisfied by completing 2 courses (requirement code S). Approved courses may be searched for availability through the Kyou portal. An introductory course in economics is recommended.

Geology Prerequisite or Co-requisite Knowledge (32-37)

Majors must complete courses as specified in each of the following areas. Majors are advised to take honors courses when eligible. These hours do not contribute to the minimum number of hours required for the major.

Calculus I. Satisfied by:

- MATH 121 Calculus I (Prerequisite: MATH 104; or MATH 103; or three years of college preparatory mathematics including trigonometry and a score of 28 or higher on ACT mathematics or 640 or higher on the SAT; or a qualifying score on the mathematics placement test. Students may complete MATH 115 and MATH 116 prior to completing MATH 122)

Calculus II. Satisfied by:

- MATH 122 Calculus II

Chemistry. Satisfied by:

- CHEM 130 General Chemistry I
- CHEM 135 & General Chemistry II

Physics. Satisfied by:

- PHSX 211 General Physics I
- PHSX 216 & General Physics I Laboratory
- PHSX 212 General Physics II
- PHSX 236 & General Physics II Laboratory

Biology. Satisfied by:

- BIOL 150 Principles of Molecular and Cellular Biology
- BIOL 151 or BIOL 152 Principles of Molecular and Cellular Biology, Honors
- BIOL 152 or BIOL 153 Principles of Organismal Biology, Honors

Geology Core Knowledge and Skills (32)

Majors must complete the following core courses:

- Introduction to Geology. Satisfied by:
  - GEOL 101 The Way The Earth Works
- Geology Fundamentals Laboratory. Satisfied by:
  - GEOL 103 Geology Fundamentals Laboratory
- Mineralogy and Structure of the Earth. Satisfied by:
  - GEOL 311 Mineralogy and Structure of the Earth
- Sedimentology and Surface Processes. Satisfied by:
  - GEOL 331 Sedimentology and Surface Processes
- Field Investigation. Satisfied by:
  - GEOL 360 Field Investigation
- Paleontology. Satisfied by:
  - GEOL 521 Paleontology
  & GEOL 523 and Paleontology Laboratory
- Stratigraphy. Satisfied by:
  - GEOL 532 Stratigraphy
- Introduction to Hydrogeology. Satisfied by:
  - GEOL 552 Introduction to Hydrogeology

Introductory Field Geology. Satisfied by:

- GEOL 560 Introductory Field Geology

Structural Geology. Satisfied by:

- GEOL 562 Structural Geology

Space Science Core Knowledge and Skills (9)

Majors must complete the following core courses:

- ATMO 105 Introductory Meteorology
- ASTR 191 Contemporary Astronomy
- ASTR 196 Introductory Astronomy Laboratory

Earth and Space Required Electives (0)

Majors must complete one of the areas below:

Geology Focus. Satisfied by 4 hours in a geology course numbered 300 or above.

Astronomy Focus. Satisfied by 4 hours in astronomy courses numbered 300 or above. This can include three hours of ASTR 390 or GEOL 399, GEOL 105, GEOL 304, or GEOL 121 also can count if taken before the completion of 60 hours.

Research Methods (3)

Satisfied by:

- CHEM 598 Research Methods

Professional Development Course Work (2)

A minimum grade of C is required in all courses.

Liberal Arts and Sciences. Satisfied by:

- LA&S 290 Approaches to Teaching Science and Mathematics I
- LA&S 291 Approaches to Teaching Science and Mathematics II

Curriculum and Teaching (19 hours). Satisfied by:

- C&T 448 Reading and Writing across the Curriculum and 16 hours of courses approved by UKanTeach in curriculum and teaching. These should include courses such as Classroom Interactions (3), Knowing and Learning (3), Project Based Instruction (3), Student Teaching (6), and Special Topics Seminar (1).

Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours

Satisfied by 58 hours of major courses.

Major Hours in Residence

Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior core courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).
Departmental Honors

Pursuit of departmental honors in Geology is by invitation from the Department of Geology honors coordinator.
Requirements include:
3.25 or higher KU GPA at graduation.
3.50 or higher KU geology-courses GPA at graduation.
Completion of at least 2 credit hours of GEOL 399.

Completion and successful defense of an honor’s thesis.
Additional requirements and more information may be obtained from the Department of Geology honors coordinator and web site.

Minor in Geology

Why study geology?

Because its leadership role among geoscience programs advances higher learning and serves society through the discovery, dissemination, and application of knowledge.

Requirements for the Minor

The minor requires 18 to 23 hours of geology courses, of which 12 hours must be junior/senior hours or higher (courses numbered 300 or above).

Geology Minor Course Requirements (5)

Students selecting this minor must complete the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 101</td>
<td>The Way The Earth Works</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 103</td>
<td>Geology Fundamentals Laboratory</td>
<td>2</td>
</tr>
</tbody>
</table>

Geology Required Electives (13)

Students selecting this minor must complete a minimum of 13 hours in geology courses. GEOL 311 and GEOL 331 are recommended because they are necessary as prerequisites for many upper-division courses.

Students must work with an advisor to select courses to complete the requirements for the minor. Students must turn in a signed Geology Minor Advising form and a Minor Declaration form to the department office, 120 Lindley Hall, before taking any courses numbered 500 or above.

Minor Hours

Satisfied by 18 hours of minor courses.

Minor in Residence

Satisfied by a minimum of 9 hours of KU resident credit in the minor.

Minor Junior/Senior Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Junior/Senior Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/ Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Science in Geology

Why study geology?

Because its leadership role among geoscience programs advances higher learning and serves society through the discovery, dissemination, and application of knowledge.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Admission is based on academic records including grade-point average and general preparedness in geology and supporting sciences, letters of recommendation, and the applicant’s stated academic and professional interests and goals. Results of the aptitude tests of the Graduate Record Examination are required. An attempt is made to balance the interests of students with the availability of faculty members to supervise them and laboratory space in which they may work. Consequently, new admissions in areas of geology that are heavily subscribed or in which the department has little expertise may be limited. As a result, some students who meet KU’s minimum standard for admission may be refused. Students who do not hold master’s degrees in geology normally are admitted to pursue the master’s degree. Students with exceptional records may be invited to study for the Ph.D. without first earning the M.S. degree.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the department:

The University of Kansas
Department of Geology
Lindley Hall
1475 Jayhawk Blvd., Room 120
Lawrence, KS 66045-7575

M.S. Degree Requirements

Details of the regulations on graduate study are included in the department’s Ground Rules for Graduate Students, available from the department office (http://www.geo.ku.edu).

Prerequisites include credit in one year each of general biology, general chemistry, general physics, and calculus, plus junior- or senior-level courses in mineralogy, petrology, structural geology, paleontology, stratigraphy, geophysics, and a summer course in field geology. Students planning to specialize in geophysics also should have more advanced backgrounds in calculus and physics. Incoming graduate students meet with a departmental advisory review committee before enrollment to identify deficiencies and strengths and to set up curricula aimed at providing a broad background in geology at the intermediate to advanced
level during the first year. Some deficiencies may be waived at this time if they are deemed nonessential.

Geology has many subdisciplines, and the department tailors each student's curriculum to the needs of the individual. There is no departmental core curriculum or list of required courses.

**Thesis Option (M.S. Degree)**

The master's degree curriculum requires completion of 30 credit hours, including up to 6 credit hours for thesis research, and an acceptable master's thesis. The student sets the curriculum in consultation with a 3-member advisory committee selected from the Graduate Faculty and approved by the graduate advisor. Course work counted toward the degree must be distributed to provide a comprehensive general knowledge of geology in addition to specialized knowledge required for the thesis. It may include courses in departments other than geology.

Although the department does not award a master's degree in geophysics, students can specialize in geophysics at the master's level. A similar arrangement is possible in the Department of Physics and Astronomy. This specialization is overseen by a committee with representatives from the Department of Physics and Astronomy, the Kansas Geological Survey, and the Department of Geology. The committee recommends requirements for the specialty degree and coordinates educational activities in geophysics. Research is supervised by departmental faculty members as well as by adjunct faculty members who are staff members of the Kansas Geological Survey. Similar arrangements can be made for students wishing to specialize in hydrogeology or paleontology.

The student must maintain at least a 3.0 grade-point average in geology and supporting science courses and pass a final oral general examination on the areas of geology relevant to the thesis project. This examination may be repeated once, if necessary.

**Nonthesis Option (M.S. Degree)**

A student may complete an M.S. degree program based primarily on course work and specialized skills. For this degree, a minimum of 36 credit hours of graduate-level study must be completed, including two written reports based on small projects. The student determines the structure of the project in consultation with an advisory committee of 5 faculty members. A student must declare an intention to follow the nonthesis option during the first semester of graduate study. The nonthesis degree is a terminal degree and normally cannot lead to a dissertation. In addition to maintaining a 3.0 grade-point average in course work, the student must demonstrate proficiency in the areas of geology covered by the program. This is accomplished by satisfactory performance on a series of written examinations assembled and administered by the advisory committee. These constitute the final examination for the degree and may be repeated once, if necessary.

During or after the period of residence, a student who wishes to change to an M.S. (thesis) program or a Ph.D. program must petition the graduate studies committee.

---

**Doctor of Philosophy in Geology**

**Why study geology?**

Because its leadership role among geoscience programs advances higher learning and serves society through the discovery, dissemination, and application of knowledge.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Graduate Admission**

Admission is based on academic records including grade-point average and general preparedness in geology and supporting sciences, letters of recommendation, and the applicant's stated academic and professional interests and goals. Results of the aptitude tests of the Graduate Record Examination are required. An attempt is made to balance the interests of students with the availability of faculty members to supervise them and laboratory space in which they may work. Consequently, new admissions in areas of geology that are heavily subscribed or in which the department has little expertise may be limited. As a result, some students who meet KU's minimum standard for admission may be refused. Students who do not hold master's degrees in geology normally are admitted to pursue the master's degree. Students with exceptional records may be invited to study for the Ph.D. without first earning the M.S. degree.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the department:

**The University of Kansas**
Department of Geology
Lindley Hall
1475 Jayhawk Blvd., Room 120
Lawrence, KS 66045-7575

**Ph.D. Degree Requirements**

Doctoral students can specialize in any area of faculty expertise, including hydrogeology and geophysics. Prospective Ph.D. candidates are subject to the same initial requirements as master's students. The master's degree is not a prerequisite for doctoral aspirancy. A student with good background and good performance during the first 2 semesters may be invited to proceed directly toward the doctorate.

The student's advisory committee and the student construct a curriculum that offers the best preparation for the chosen field of interest and satisfies the research skills requirement. Each student is expected to enroll in courses in supporting fields to develop a multidisciplinary...
approach to geology. The student must maintain at least a 3.0 grade-point average in geology and supporting science courses.

Research Skills & Responsible Scholarship Requirements

The university requires that every doctoral student have training in responsible scholarship and research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. Doctoral students in geology meet this requirement by the following:

- Completion of GEOL 791: Ethics in the Geosciences with a grade of “B” or higher.
- With the approval of the advisory committee, the student may meet the research skills requirement by taking either a curriculum of at least 3 graduate-level courses outside the department that are relevant to the specialty, or by completing a combination of languages, research skills, and courses.

Either plan must be approved by the graduate advisor, and a list of these courses must be in the student’s file.

Please contact your advisor or the director of Graduate studies for further information about research skills and responsible scholarship, and see the current policy on Doctoral Research Skills and Responsible Scholarship in the Graduate Studies section of the online catalog and in the KU Policy Library.

Admission to Candidacy

To be admitted to Ph.D. candidacy, a student must pass an oral comprehensive examination on the specialty in geology in which the student is doing doctoral research and on other relevant areas of geology or supporting sciences. The student must prepare and have approved a research proposal based on the doctoral research project before the oral comprehensive examination. The examination is based on the material presented in the proposal and its application to geology in general. The examination is conducted by a 5-member faculty committee; 1 member of the committee must be from a KU department other than geology and is appointed by Graduate Studies on recommendation of the department. This committee is also responsible for conducting a final oral examination based on the doctoral dissertation. A 3-person committee supervises research and preparation for the dissertation.

Shared Doctoral Program with Kansas State University

The department has a shared education program whereby doctoral students may study under the direction of a faculty member of the Department of Geology at Kansas State University, with a KU faculty member as co-chair of the dissertation committee. After one year of course work in Lawrence to fulfill the residence requirement, students may enroll at Kansas State University. Degrees are awarded by KU. For specific information on departmental practices in shaping individual curricula, in controlling general examinations, and in evaluating dissertation proposals, contact the department graduate advisor.

Department of Germanic Languages and Literatures

Why study Germanic languages and literatures?

Knowledge and appreciation of the language, literature, and culture of Central Europe will help us understand our own past, present, and future and will also provide students with translingual and transcultural competence that will help them participate actively and productively in our increasingly global world.

Libraries

Special Library Collections in German

The Rainer Maria Rilke Collection comprises more than 1,200 volumes, including all first editions, critical editions, translations, bibliographies, criticism, and various materials on the reception of his works. The Collection is located in the Max Kade Center for German-American Studies.

The Engel German Library is an endowed departmental library housing an expanding collection of reference works, standard editions, basic secondary literature, current German periodicals, newspapers and magazines, as well as tape recordings, records, slides, and audio-visual equipment.

Max Kade Center for German-American Studies

The center collects materials on German culture in the United States and fosters scholarship in German-American Studies, especially dialect, literary, and interdisciplinary cultural studies, including dissertation research. The materials—10,000 books, as well as magazines, journals, and other writings—were produced or brought to this country by German-speaking immigrants and, in the 20th century, by exiles from Nazi Germany. Among the holdings are materials from the Turner societies of New York, Milwaukee and Lawrence. The center sponsors lectures, symposia, workshops, and conferences; publishes the Yearbook of German-American Studies for the Society of German-American Studies; and houses the Linguistic Atlas of Kansas German Dialects.

For information, contact James Morrison, Interim Director, Sudler House, 785-864-7343 or 7342, german@ku.edu.

Undergraduate Programs

We offer students a diverse and challenging program in the language and cultural forms of German-speaking Europe, including literature, the arts, history, business, and politics. Our program is characterized by personalized advising, interdisciplinary flexibility, co-curricular activities, and opportunities to conduct independent research and to study and undertake internships abroad. Courses at the 100, 200, and 300 levels emphasize student involvement with the aim of developing students’ use of the German language, including the ability to comprehend, interpret, and produce spoken, written, and multimedia texts in different genres. Cultural topics are integrated into instruction starting in the first semester. At the 400 and 500 levels, survey courses provide students with a broader perspective on German cultural traditions, while other advanced courses often have a thematic focus.
All of our courses except GERM 315: German Literature and the Modern Era are taught in German. Majors have the option of taking two approved courses offered by other departments that are taught in English and include significant content related to German-speaking Europe; minors may take one such course. Courses taken in departments such as the history of art, philosophy, political science, Slavic languages & literatures, sociology, and theatre will enhance students’ study of the language and cultural forms of German-speaking Europe.

Both the German major and minor can be combined with majors and minors in other departments. Many students take advantage of this opportunity and combine their study of German with linguistics, business, philosophy, European studies, and history, for example.

The department on occasion offers a 4-semester proficiency sequence in a Scandinavian language (Swedish, Danish, or Norwegian) and in Dutch. The Department of Slavic Languages & Literatures offers a 4-semester Yiddish proficiency sequence. Courses for reading knowledge in German, Danish, and Dutch are also offered, subject to availability.

Placement
Students beginning the study of German at KU should take GERM 104. Students who have studied German before should take the online German placement examination and contact the department’s placement officer, Prof. Nina Vyatkina, vyatkina@ku.edu.

Retroactive Credit
Students with no prior college or university German course credit are eligible for retroactive credit as follows:

- 3 hours of retroactive credit are awarded to a student with 2 or 3 years of high school German who initially enrolls at KU in the third-semester German course (GERM 201) and receives a grade of C or higher.
- 6 hours of retroactive credit are awarded to a student with 3 or 4 years of high school German who initially enrolls at KU in the fourth-semester German course (GERM 202) and receives a grade of C or higher.
- 9 hours of retroactive credit are awarded to a student with 4 years of high school German who initially enrolls at KU in a German course with GERM 202 as a prerequisite and receives a grade of C or higher.

Students must be actively enrolled at the university when they apply for retroactive credit. There is a flat-rate charge of $50; you will receive a bill from the Bursar’s Office after the credit has been applied to your transcript. To apply for retroactive credit, you must bring the following 3 items to the Undergraduate Advisor:

- Copy of your high school transcript, available from the Office of Admissions at the Visitor Center
- A copy of your DPR
- A note stating that you wish to apply for retroactive credit for the German course(s) that you took in high school.

Advanced Placement
KU encourages students to take Advanced Placement Examinations in any of the areas under the College Entrance Examination Board (CEEB) program. KU gives credit only in certain courses with certain scores from the AP examinations.

The results of these examinations must be sent to KU directly from CEEB. Departments may grant advanced placement and/or credit on the basis of the test scores. No college grade is assigned when advanced placement credit is given. Instead, a credit is recorded on the student’s KU record.

No fee, beyond that charged by CEEB, is assessed for such college credit or placement. For information on how Advanced Placement scores in English and mathematics affect graduation requirements and initial enrollment in all schools, see the College of Liberal Arts and Sciences Degree Requirements page and the English (p. 1317) and Mathematics (p. 1540) department pages. Contact the Office of Admissions (http://admissions.ku.edu), adm@ku.edu, for further information.

Credit by Examination
KU offers its own program of examinations for advanced credit. Applications are available online (http://www.registrar.ku.edu/forms). They must be approved by the Undergraduate Advisor and the chair of the department concerned and by the student’s dean or dean’s representative. A report of the examination taken, showing the hours of credit to be granted and the grade awarded, must be signed by the professor giving the examination, the chair, and the dean or dean’s representative.

At the discretion of each academic dean, grades of A, B, C, or D may be used to indicate degrees of achievement, or a grade of Credit may indicate satisfactory performance. No record is made of an unsatisfactory attempt. Credit by Examination grades are not included in the grade-point average that appears on the official transcript.

A fee is charged for each course. For current fee information, contact the Office of the University Registrar (http://www.registrar.ku.edu), kuregistrar@ku.edu.

Warning: Some medical schools do not accept credit by examination.

Native Speakers
Students who have completed secondary education in a German-speaking country are generally not eligible to enroll in German courses below the 400 level. The department reserves the right to disenroll such students.

Courses for Future Teachers
Candidates for the B.S. in Education majoring or minoring in German should consult the School of Education.

General Information about the Graduate Program
The Department offers the M.A. and Ph.D. degrees in Germanic Languages & Literatures. Work toward the M.A. degree consists of a traditional curriculum providing important foundational knowledge. The curriculum includes historical surveys of the major literary periods and genres, of the structure and function of German and Germanic languages, knowledge of disciplinary methodologies employed in the field, development of language capacity, and control of writing and research strategies. Building on the M.A. foundational base, the KU Ph.D. degree program encourages students to develop their particular intellectual interests in collaboration with KU faculty and their areas of specialization. The graduate program focuses on the following areas:

- German literature
- Germanic linguistics/philology
- German second-language acquisition/applied linguistics

The Doctoral Program Profile (PDF) (http://graduate.ku.edu/sites/graduate.drupal.ku.edu/files/docs/dpp/DPP_A_GERM.pdf) gives a
retrospective overview of our time-to-degree and other statistics relevant to the graduate program and graduate-student experience.

Departmental Funding

While it is not guaranteed, the department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year and come with:

- a competitive academic year (9 month) salary
- a 100% tuition waiver for all courses at KU
- payment of up to 3 hours of student fees
- optional University-subsidized group health insurance

The appointments are guaranteed based on performance for up to 3 years for M.A. students, 5 years for Ph.D. students and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training in language instruction, close mentoring, and the opportunity to teach French at a variety of levels, providing them with a strong base of teaching experience upon entering the job market. Additional information about teaching for the department is available on the Graduate Funding page (https://germanic.drupal.ku.edu/gta-appointments-and-fellowships) of our departmental website.

Post-comprehensive students completing their dissertations are also eligible to apply for one of the departmental Max Kade Dissertation Fellowships.

Additional Funding

There are also university fellowships for truly outstanding students. Visit the Graduate Studies website for information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for KU graduate students.

Contact

For inquiries concerning the graduate program, please contact:

Professor Leonie Marx (https://germanic.drupal.ku.edu/leonie-marx),
Director of Graduate Studies and/or Morgan Swartzlander (https://germanic.drupal.ku.edu/morgan-swartzlander),
Graduate Program Coordinator & Graduate Admissions Administrator.

Courses

DANE 100. Danish Reading Course. 3 Hours. U.
Special course designed to enable graduate students to develop a reading knowledge of Danish as a research skill. Enrollment for undergraduate credit is required. Does not satisfy any part of the undergraduate language requirement. Not open to native speakers of Danish. LEC.

DANE 101. Danish Reading Course II. 3 Hours. U.
Continuation of DANE 100 and introduction to reading Norwegian and Swedish. Not open to native speakers of Danish. Prerequisite: DANE 100 or equivalent. LEC.

DANE 104. Elementary Danish I. 5 Hours. U.
Essentials of grammar, practice in speaking, reading, and writing Danish. Five hours of recitation per week. Not open to native speakers of Danish. LEC.

DANE 105. Elementary Danish I, Honors. 5 Hours. H.
Course content similar to DANE 104, with additional work to expand the student’s cultural context and understanding. Not open to native speakers of Danish or students who have completed DANE 104. Prerequisite: Open only to students admitted to the University Honors Program or by permission of instructor. LEC.

DANE 108. Elementary Danish II. 5 Hours. U.
Continuation of grammar; practice in conversation, composition, and reading. Five hours of recitation per week. Not open to native speakers of Danish. Prerequisite: DANE 104 or permission of instructor. LEC.

DANE 109. Elementary Danish II, Honors. 5 Hours. H.
Course content similar to DANE 108, with additional cultural study. Not open to native speakers of Danish or students who have completed DANE 108. Prerequisite: Open to students who received a grade of A in DANE 104 or an A or B in DANE 105. LEC.

DANE 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Danish. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

DANE 212. Intermediate Danish I. 3 Hours. U.
A continuation of DANE 108. Structured grammar review, composition, conversation with readings of literary and cultural texts. Not open to native speakers of Danish. Prerequisite: DANE 108 or permission of instructor. LEC.

DANE 213. Intermediate Danish I, Honors. 3 Hours. H.
Course content similar to DANE 212, with additional cultural study. Not open to native speakers of Danish or students who have completed DANE 212. Prerequisite: Completion of DANE 108 with a grade of A, or DANE 109 with a grade of A or B. LEC.

DANE 216. Intermediate Danish II. 3 Hours. U.
A continuation of DANE 212. Structured grammar review, composition, conversation with readings of literary and cultural texts. Not open to native speakers of Danish. Prerequisite: DANE 212 or permission of instructor. LEC.

DANE 217. Intermediate Danish II, Honors. 3 Hours. H.
Course content similar to DANE 216, with additional cultural study. Not open to native speakers of Danish or students who have completed DANE 216. Prerequisite: Completion of DANE 212 with a grade of A, or DANE 213 with a grade of A or B. LEC.

DANE 220. Intensive Danish. 16 Hours. U.
This course is designed to teach speaking, reading, writing, and comprehension skills of first and second year Danish in one semester. Classes are held for four hours a day Monday through Friday (8:30 a.m. - 12:20 p.m.). There are intensive drills in grammar, integrated language lab work, and homework assignments. Not open to native speakers of Danish. Prerequisite: Admission to Danish Institute at the University of Kansas. LEC.

DTCH 100. Dutch Reading Course. 3 Hours. U.
Special course designed to enable graduate students to develop a reading knowledge of Dutch as a research skill. Enrollment for undergraduate credit is required. Does not satisfy any part of the undergraduate language requirement. Not open to native speakers of Dutch. LEC.

DTCH 101. Dutch Reading Course II. 3 Hours.
Continuation of DTCH 100. Not open to native speakers of Dutch. Prerequisite: DTCH 100 or equivalent. LEC.
DTCH 104. Elementary Dutch I. 5 Hours. U.
Essentials of grammar; practice in speaking, reading, and writing Dutch. Five hours of recitation per week. Not open to native speakers of Dutch. LEC.

DTCH 105. Elementary Dutch I, Honors. 5 Hours. U.
Similar to DTCH 104 with additional work to expand the student's cultural context and understanding. Not open to native speakers of Dutch or students who have completed DTCH 104. Prerequisite: Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

DTCH 108. Elementary Dutch II. 5 Hours. U.
Continuation of grammar, practice in conversation, composition, and reading. Five hours of recitation per week. Not open to native speakers of Dutch. Prerequisite: DTCH 104 or equivalent. LEC.

DTCH 109. Elementary Dutch II, Honors. 5 Hours. U.
Course content similar to DTCH 108, with additional cultural study. Meets 5 days a week. Not open to native speakers of Dutch. Prerequisite: Open only to students admitted to the University Honors Program or by permission of instructor. LEC.

DTCH 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Dutch. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

DTCH 212. Intermediate Dutch I. 3 Hours. U.
A continuation of DTCH 108. Structured grammar review, composition, conversation, with readings of literary and cultural texts. Three class meetings per week. Not open to native speakers of Dutch. Prerequisite: DTCH 108 or equivalent. LEC.

DTCH 213. Intermediate Dutch I, Honors. 3 Hours. U.
Course content similar to DTCH 212, with additional cultural study. Three class meetings per week. Not open to native speakers of Dutch. Prerequisite: Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

DTCH 216. Intermediate Dutch II. 3 Hours. U.
A continuation of DTCH 212. Structured grammar review, composition, conversation, with readings of literary and cultural texts. Three class meetings per week. Not open to native speakers of Dutch. Prerequisite: DTCH 212 or equivalent. LEC.

DTCH 217. Intermediate Dutch II, Honors. 3 Hours. U.
Course content similar to DTCH 216, with additional cultural study. Three class meetings per week. Not open to native speakers of Dutch. Prerequisite: Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

DTCH 453. Investigation and Conference: ______. 1-3 Hours. H/W.
Independent study and directed reading on special topics. Permission of the instructor who will supervise the student's work is required. Not open to native speakers of Dutch. IND.

GERM 100. German Reading Course I. 3 Hours. U.
A special reading course for candidates for advanced degrees in other departments, designed to aid them in obtaining a reading knowledge of German, for purposes of research. Enrollment for undergraduate credit is required. An intensive study of the fundamentals of grammar, proceeding to the reading of material of medium difficulty. Three recitations weekly. Intended primarily for graduate students, but open also to seniors planning graduate study. The course does not satisfy any part of the undergraduate language requirement. Presupposes no previous study in German. Not open to native speakers of German. LEC.

GERM 101. German Reading Course II. 3 Hours. U.
A continuation of GERM 100. Review of grammar, with emphasis on reading and translation of material of an advanced nature in the candidate's general field. Three recitations weekly. Not open to native speakers of German. LEC.

GERM 104. Elementary German I. 5 Hours. AE42 / U.
Introductory German; no previous German required. Development of students' balanced knowledge of the German language and culture, including the ability to understand and produce short spoken, written, and multimedia texts on everyday topics and to interpret, compare, and contrast German and American cultural phenomena. Emphasis on interaction. Not open to native speakers of German. Students who complete this course successfully should take GERM 201. Prerequisite: GERM 104 or placement by examination. LEC.

GERM 108. Elementary German II. 5 Hours. AE42 / U.
Continuation of GERM 104. Further development of students' balanced knowledge of the German language and culture, including the ability to understand and produce short spoken, written, and multimedia texts on everyday topics and to interpret, compare, and contrast German and American cultural phenomena. Emphasis on interaction. Not open to native speakers of German. Students who complete this course successfully should take GERM 201. Prerequisite: GERM 104 or placement by examination. LEC.

GERM 111. Introduction to German I. 3 Hours. U.
Introduction to German for special purposes; no previous German required. Provides basic familiarity with the German language, focusing on speaking and reading skills and the essentials of German grammar. Introduction to the culture of the German-speaking world. Three class hours per week; may be delivered by video conference or face-to-face. Does not satisfy any KU language requirement. LEC.

GERM 112. Introduction to German II. 3 Hours. U.
Continuation of GERM 111. Further development of basic familiarity with the German language, focusing on speaking and reading skills and the essentials of German grammar. Continued exploration of the culture of the German-speaking world. Three class hours per week; may be delivered by video conference or face-to-face. Does not satisfy any KU language requirement. Prerequisite: GERM 111 or permission of instructor. LEC.

GERM 113. Introduction to German III. 1.5 Hour. U.
Continuation of GERM 112. Further development of basic familiarity with the German language, focusing on speaking and reading skills and the essentials of German grammar. Continued exploration of the culture of the German-speaking world. Three class hours per week; may be delivered by video conference or face-to-face. Does not satisfy any KU language requirement. Prerequisite: GERM 112 or permission of instructor. LEC.

GERM 124. German Cinema in Context. 3 Hours. HL AE42 / H.
Taught in English. Screening and analysis of German films from the early 20th century to the present. Readings, lectures, and discussions on the films' sources, ideologies, techniques, and artistic achievements. Does not count toward the German major or minor. LEC.

GERM 125. German Cinema in Context (Honors). 3 Hours. HL AE42.
Course content similar to GERM 124. Taught in English. Screening and analysis of German films from the early 20th century to the present. Readings, lectures, and discussions on the films' sources, ideologies, techniques, and artistic achievements. Does not count toward German major or minor. LEC.
GERM 128. Introduction to the Arts in German-Speaking Europe. 3 Hours. H.
Taught in English. Exploration of the arts in German-speaking Europe: major cultural periods, movements, art forms, and people (artists, architects, composers, writers, filmmakers) from the Middle Ages to the present. Consideration of the arts within the larger European historical and cultural context from which they emerged. Does not count toward the German major or minor. This course is offered at the 100 and 300 levels with additional assignments at the 300-level. Not open to students who have completed GERM 328. LEC.

GERM 132. The City of Berlin in German Culture. 3 Hours. H.
Taught in English. Introduction to Berlin within the context of major German and European historical, social, intellectual, and artistic developments since 1800. Exploration of complex epochs such as the Bismarck, Nazi, Cold War, and post-unification eras through journalism, literature, sociological writings, and film. Does not count toward German major or minor. This course is offered at the 100 and 300 levels with additional assignments at the 300-level. Not open to students who have completed GERM 332. LEC.

GERM 136. The German Transatlantic Experience. 3 Hours. HT AE41 / U.
Taught in English. Introduction to the migration of German-speaking Europeans to North America, 17th century-present. Consideration of European and North American factors motivating migration, the journey to the New World, the experiences of immigrants and their descendants, and the ways in which German-speaking Europeans shaped the multicultural history of America. LEC.

GERM 148. Germanic Mythology, Religion, and Folklore. 3 Hours. H/ W.
Taught in English. Introduction to the pagan myths and beliefs of Teutonic antiquity and their survival in the popular traditions of Germanic countries, within the framework of comparative mythology, archaeology, and anthropology. Does not count toward the German major or minor. LEC.

GERM 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in German. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

GERM 201. Intermediate German I. 3 Hours. AE42 / U.
Continuation of GERM 108. Further development of students' balanced knowledge of the German language and culture, including the ability to understand and produce short spoken, written, and multimedia texts in different genres and to interpret, compare, and contrast German and American cultural phenomena. Emphasis on interaction. Not open to native speakers of German. Students who complete this course successfully should take GERM 202. Prerequisite: GERM 108 or placement by examination. LEC.

GERM 202. Intermediate German II. 3 Hours. AE42 / U.
Continuation of GERM 201. Further development of students' balanced knowledge of the German language and culture, including the ability to understand and produce short spoken, written, and multimedia texts in different genres and to interpret, compare, and contrast German and American cultural phenomena. Emphasis on interaction. Not open to native speakers of German. Students who successfully complete this course should take GERM 301. Prerequisite: GERM 201 or placement by examination. LEC.

GERM 203. Introduction to Business German: Deutsch im Berufssalltag. 3 Hours. AE42 / H.
Continuation of GERM 201; completes language proficiency sequence. Further development of students' balanced knowledge of the German language and culture, including the ability to understand and produce short spoken, written, and multimedia texts on the topics related to professional communication and to interpret, compare, and contrast German and American business cultural phenomena. Emphasis on interaction. Recommended for students planning to take GERM 352 and GERM 462. Not open to native speakers of German. Prerequisite: GERM 201 or placement by examination. LEC.

GERM 220. Special Studies in Germanic Languages. 1-5 Hours. U.
Credits awarded for elementary instruction in a Germanic language while studying abroad. Transfer credits must be arranged through the KU Office of Study Abroad, with permission from the departmental undergraduate advisor. May be repeated for credit if content varies. LEC.

GERM 222. Special Studies in German: ______. 1-3 Hours. H/W.
Credits awarded for the study of special topics in German while studying abroad. Transfer credits must be arranged through the KU Office of Study Abroad, with permission from the departmental undergraduate advisor. May be repeated for credit if content varies. LEC.

GERM 301. High Intermediate German I. 3 Hours. AE42 / H/W.
Continuation of GERM 202. Further development of students' use of German through reading and discussion of literary and non-literary texts (spoken, written, multimedia, combined with intensive grammar review. Introduction to expressive functions of German with emphasis on spoken and written communication. Not open to native speakers of German. Students who complete this course successfully should take GERM 302. Prerequisite: GERM 202 or placement by examination. LEC.

GERM 302. High Intermediate German II. 3 Hours. AE42 / H/W.
Continuation of GERM 301. Refinement and expansion of students' use of German. Reading and discussion in German of literary and non-literary texts (spoken, written, multimedia, combined with continued intensive grammar review. Emphasis on understanding German grammatical structures and acquisition of vocabulary. Not open to native speakers of German. Students who complete this course successfully should take GERM 401. Prerequisite: GERM 301 or placement by examination. LEC.

GERM 315. German Literature and the Modern Era. 3 Hours. H.
Introduction in English to German writers 1750-present. Discussion of themes such as technology, modern and postmodern developments, gender, war, politics, and culture in German-speaking Europe. Readings include works in translation by influential German writers. Open to first-year students and non-majors; qualifies for major or minor credit when taken with GERM 316, a one-hour discussion section. GERM 315 and GERM 316 are required for admission to all courses beyond GERM 402 (except GERM 444 and GERM 462). LEC.

GERM 316. Discussion Section for German Literature and the Modern Era. 1 Hour. H.
Discussion section to be taken with GERM 315: German Literature and the Modern Era. Introduction to critical German vocabulary for discussing German-language literature in its historical and cultural context. Prerequisite: GERM 202 or placement by examination. GERM 315 qualifies for major or minor credit when taken with GERM 316. LEC.

GERM 320. Border Crossings in German Culture. 3 Hours. HT AE42.
Taught in English. Exploration of writers, filmmakers, and artists who have emigrated from, or migrated to German-speaking Europe. Emphasis on both their transnational impact and their representations of border crossings. Topics may include exile communities before, during, and after
World War II and multiculturalism in contemporary Germany, Austria, and Switzerland. Does not count toward German major or minor. LEC.

GERM 324. Magic, Monsters and the Occult in German Literature. 3 Hours. HL AE42.
Taught in English. Reading and discussion of fictional and non-fictional works by German writers that address topics such as magic, monsters, the occult sciences, the Faust legend and pact with the devil, and the vampire. Consideration of the works’ influence on other nations’ literatures. Does not count toward the German major or minor. LEC.

GERM 325. Magic, Monsters, and the Occult in German Literature, Honors. 3 Hours. HL / H.
Taught in English. For centuries German scientists, philosophers and poets have produced groundbreaking literature that has featured magic, monsters and the occult sciences. German poets introduced popular themes, such as the Faust legend and the pact with the devil, and they introduced one of the most popular monsters into literature - the vampire. In this course we read and discuss fictional and nonfictional works by German authors that address these themes, and we discuss the influence that these works have had on other nations’ literatures. Does not fulfill any requirement in the German major or minor. Prerequisite: Membership in the University Honors Program or permission of instructor. LEC.

GERM 328. The Arts in German-Speaking Europe. 3 Hours. HL AE42.
Taught in English. Exploration of the arts in German-Speaking Europe: major cultural periods, movements, art forms, and people (artists, architects, composers, writers, filmmakers) from the Middle Ages to the present. Consideration of the arts within the larger European historical and cultural context from which they emerged. Does not count toward the German major or minor. This course is offered at the 100 and 300 levels with additional assignments at the 300-level. Not open to students who have completed GERM 128. LEC.

GERM 330. Topics in: ____. 3 Hours. H.
Taught in English. Interdisciplinary study of selected aspects of the society or culture of German-speaking Europe or of the European experience. Does not count toward the German major or minor. LEC.

GERM 332. Berlin in German Culture. 3 Hours. HL AE42.
Taught in English. Introduction to Berlin within the context of major German and European historical, social, intellectual, and artistic developments since 1800. Exploration of complex epochs such as the Bismarck, Nazi, Cold War, and post-unification eras through journalism, literature, sociological writings, and film. Does not count toward German major or minor. This course is offered at the 100 and 300 levels with additional assignments at the 300-level. Not open to students who have completed GERM 132. LEC.

GERM 333. German Conversation and Idioms. 3 Hours. H.
Intensive practice in conversational German with instruction in proper pronunciation as well as an introduction to idiomatic usage. Only for students in the KU Summer Language Institute in HolzKirchen, Germany. Prerequisite: GERM 202 or equivalent fourth -semester German course. LEC.

GERM 335. Love and the German Middle Ages. 3 Hours. H.
Taught in English. Introduction to German conceptions of love, marriage, and adultery in medieval and early modern German-speaking Europe. Exploration of the German contribution to discourse of love through theoretical, literary, and legal texts, as well as through visual and material culture. Examination of German discourse within the broader European context, and of similarities, differences, and continuities between medieval and modern constructs. Does not count toward German major or minor. LEC.

GERM 344. German Conversation. 3 Hours. H/W.
Further development of practical conversational skills for students with intermediate proficiency in German. Discussion of topics from everyday German life and current affairs, based on German newspapers and magazines. May be repeated but counts only once toward the major or minor. Not open to native speakers of German. Prerequisite: GERM 302. LEC.

GERM 352. Business German: Deutsch Fur Den Beruf. 3 Hours. H/W.
Extensive practice in business communication: terminology, texts and correspondence, oral practice in business situations. Not open to native speakers of German. Prerequisite: GERM 202 or placement by examination. LEC.

GERM 375. Topics in Film of German-Speaking Europe: ____. 3 Hours. H.
Examination of topics such as Expressionism, Turkish-German culture in contemporary German film, popular filmmaking, post-unification film, German literature as film, German film and national identity. Topics and periods vary. Prerequisite: GERM 302. LEC.

GERM 400. Introduction to German Literary Masterpieces. 3 Hours. H/W.
For students enrolled in the KU Summer Language Institute in Germany. Selected works of major German Language writers of the 19th and 20th centuries. Not open to native speakers of German. Prerequisite: GERM 302. LEC.

GERM 401. Advanced German I. 3 Hours. H.
Continuation of GERM 302. Expansion and refinement of proficiency in German (speaking, listening, reading, writing), increased understanding of German grammatical structures, development of a more sophisticated vocabulary, and introduction to stylistics through discussion and analysis of literary and nonliterary texts. Students successfully completing GERM 401 may take all other GERM courses at the 400 and 500 levels. Prerequisite: GERM 302. LEC.

GERM 402. Advanced German II. 3 Hours. H.
Continuation of GERM 401. Development of advanced proficiency in German through analysis and discussion of literary and nonliterary texts and practice in advanced composition. Emphasis in both discussions and papers on style and rhetoric and on developing skill in textual analysis. Focus on advanced German grammar and on style and idiomatic expression in spoken and written German. Prerequisite: GERM 401. LEC.

GERM 411. German Culture 1150-1750. 3 Hours. AE61 / H.
Exploration of major cultural periods and movements within the framework of historical and political change, with investigation of themes such as nation and national identity, founding myths, geography, and language. Study of forms of culture in German-speaking Europe, including visual art, music, literature, architecture, and the press. Prerequisite: GERM 316 and GERM 401. LEC.

GERM 412. German Culture 1750-Present. 3 Hours. AE61 / H.
Exploration of major cultural periods and movements 1750-present within the framework of historical and political change, with investigation of themes such as nation and national identity, founding myths, geography, and language. Study of forms of culture in German-speaking Europe, including visual art, music, literature, architecture, and the press. Prerequisite: GERM 316 and GERM 401. LEC.

GERM 444. German Conversation. 3 Hours. H/W.
Further development of practical conversational skills for students with intermediate proficiency in German. Discussion of topics from everyday German life and current affairs, based on German newspapers and magazines. May be repeated but counts only once toward the major or minor. Not open to native speakers of German. Prerequisite: GERM 302. LEC.

GERM 453. Investigation and Conference: ____. 1-3 Hours. H/W.
Independent study and directed reading on special topics. Permission of the instructor who will supervise the student’s work is required. Not open to native speakers of German. IND.
GERM 462. The German Business Environment. 3 Hours. H/W. Introduction to German business practices, including basic information about German economic and corporate life. Especially designed for students intending to participate in an internship with a German company and those who wish to enhance their knowledge of basic business German. Taught in German. Not open to native speakers of German. Prerequisite: One 300-level German course. LEC.

GERM 475. Topics in German Studies: _____. 3 Hours. H. Exploration of cultural forms such as literature, film, philosophy, social institutions, linguistics, the arts, and the press. Examination of how cultural meaning is produced and interpreted. Topics vary, and course may address topics across a narrow or broad time frame. May be repeated if content varies. Prerequisite: GERM 316 and GERM 401. LEC.

GERM 480. Literature and Culture of German-Speaking Europe 1150-1750. 3 Hours. AE61 / H. Exploration of medieval and early modern literature within the framework of major cultural movements and historical, political, and economic change. Prerequisite: GERM 316 and GERM 401. LEC.

GERM 481. Literature and Culture of German-Speaking Europe 1750-1830. 3 Hours. AE61 / H. Exploration of literature within the framework of major cultural movements and historical, political, and economic change. Prerequisite: GERM 316 and GERM 401. LEC.

GERM 482. Literature and Culture of German-Speaking Europe 1830-1918. 3 Hours. AE61 / H. Exploration of literature within the framework of major cultural movements and historical, political, and economic change. Prerequisite: GERM 316 and GERM 401. LEC.

GERM 483. Literature and Culture of German-Speaking Europe 1918-Present. 3 Hours. AE61 / H. Exploration of literature within the framework of major cultural movements and historical, political, and economic change. Prerequisite: GERM 316 and GERM 401. LEC.

GERM 501. Advanced German III. 3 Hours. H. Focus on usage-based grammar of contemporary German. Extensive reading and analysis of grammatical structures in context and integration of form, meaning, and use. Exploration of grammatical structures using contemporary electronic textual analysis tools. Prerequisite: GERM 402. LEC.

GERM 550. German Language Seminar: History of the German Language. 3 Hours. H. Introduction to basic concepts of German philology and historical linguistics and exploration of the development of a national German language. Prerequisite: GERM 316 and GERM 401. LEC.

GERM 560. German Language Seminar: Structure of the German Language. 3 Hours. H. This course provides an overview of the structure of modern standard German. Students will explore different levels of the linguistic system of German (including phonology, morphology, and syntax) and complete practical exercises. Prerequisite: GERM 316 and GERM 401. LEC.

GERM 575. Topics in Genre: _____. 3 Hours. H. Study of the definition, style, form, and content of a specific literary genre in German-language literature and the social, cultural, political, and economic factors that led to its emergence. Consideration of the genre's suitability for particular writers or periods. Topic and period vary. May be repeated if content varies. Prerequisite: GERM 316 and GERM 401. LEC.

GERM 579. Investigation and Conference: _____. 1-3 Hours. AE61 / H/W. Independent study and directed reading on special topics. Permission of the instructor who will supervise the student's work required. Prerequisite: GERM 316 and GERM 401. LEC.

GERM 580. Senior Capstone Course: German-Speaking Europe Today. 3 Hours. AE61 / H. Focus on synthesizing students' knowledge of the history, culture, and politics of German-speaking Europe 1945-present. Consideration of scholarly articles, journalism, essays, literary texts, film, and the arts on topics including cultural identity in post-unified Germany; European integration; current debates and controversies; political parties and leading political figures; role of literature, film, music, visual arts, media, and popular culture; role of universities. Required of all German majors in senior year. Prerequisite: GERM 316, GERM 401, and senior standing. LEC.

GERM 598. Research for Departmental Honors. 3 Hours. H. Research for a departmental honors project, on a topic chosen in conjunction with the faculty advisor. Emphasis on independent study and writing. Open to students with previous coursework in German at the 400 level, an overall 3.0 GPA, and at least a B+ average in advanced work in German. Prerequisite: GERM 316, GERM 401, senior standing, and permission of Undergraduate Advisor. LEC.

GERM 599. Departmental Honors Project. 3 Hours. H. Continuation of GERM 598. Course consists of completion of Departmental Honors project. Quality of project determines whether student receives credit only or Honors in German. Prerequisite: GERM 598. LEC.

GERM 614. Course in Representative Authors: _____. 3 Hours. AE61 / H. Readings and discussions in German of selected literary works by a major author (e.g., Goethe, Heine, Fontane, Brecht, Kafka, Grass, etc.). May be repeated. Prerequisite: Two literature courses from GERM 400, GERM 408, and GERM 416 and two composition courses from GERM 340, GERM 344, and GERM 348, or equivalent. LEC.

GERM 616. Topics in German Literature: _____. 3 Hours. AE61 / H/W. Readings and discussions in German of selected literary works on a particular topic or theme (e.g., nature, women, art and literature, etc.). May be repeated. Prerequisite: Two literature courses from GERM 400, GERM 408, and GERM 416, and two composition courses from GERM 340, GERM 344, and GERM 348, or equivalent. LEC.

GERM 618. Topics in German Language and Linguistics: _____. 3 Hours. AE61 / H/W. Readings and discussions in German in an area of specialized language or linguistic study (e.g., lexical fields, modern German dialects, etc.). May be repeated. Prerequisite: Two literature courses from GERM 400, GERM 408, and GERM 416, and two composition courses from GERM 340, GERM 344, and GERM 348, or equivalent. LEC.

GERM 620. Topics in German Culture and Folklore: _____. 3 Hours. AE61 / H/W. Readings and discussions in German on some aspect of German culture or folklore, including Landeskunde (study of contemporary Germany). May be repeated. Prerequisite: Two literature courses from GERM 400, GERM 408, and GERM 416, and two composition courses from GERM 340, GERM 344, and GERM 348, or equivalent. LEC.

GERM 626. Idiomatic Usage in Modern Colloquial and Literary German. 3 Hours. AE61 / H/W. Practical exercises in the systematic study of idioms and synonyms, designed to foster a more discriminating and effective usage of German.
Prerequisite: Two literature courses from GERM 400, GERM 408, and GERM 416 and two composition courses from GERM 340, GERM 344, and GERM 348, or equivalent. LEC.

GERM 628. Translation into German (Advanced). 3 Hours. AE61 / H/W.
Exercises in the translation of expository and stylistically sophisticated texts from various fields. Prerequisite: Two literature courses from GERM 400, GERM 408, and GERM 416 and two composition courses from GERM 340, GERM 344, and GERM 348, or equivalent. LEC.

GERM 630. Advanced German Grammar. 3 Hours. AE61 / H/W.
Recommended for students intending to teach German. Prerequisite: Two literature courses from GERM 400, GERM 408, and GERM 416 and two composition courses from GERM 340, GERM 344, and GERM 348, or equivalent. LEC.

GERM 632. Deutscher Stil (Advanced German Composition). 3 Hours. AE61 / H/W.
Training in writing reports and seminar papers in German. Recommended for students intending to do graduate work in German. Prerequisite: Two literature courses from GERM 400, GERM 408, and GERM 416 and two composition courses from GERM 340, GERM 344, and GERM 348, or equivalent. LEC.

GERM 681. Language Teaching for Oral Proficiency. 1 Hour. AE61 / U.
A summer course designed principally for secondary school language teachers. Provides an orientation to proficiency-based models in foreign language instruction, national standards in the rating of foreign language proficiency, and curriculum development sessions which address issues of articulation in foreign language curricula. (Not applicable toward a major or graduate degree in German.) (Same as FREN 681 and SPAN 681.) LEC.

GERM 700. Introduction to Graduate Studies in German. 3 Hours.
An introduction to the skills required of students enrolled in graduate degree programs in German Studies; areas covered include 1) introduction to literary theory and criticism, 2) bibliography and research methods, including database management software, 3) preparation and presentations of a research/conference paper, 4) technology training, including web design, on-line portfolio, and digital humanities, and 5) professional ethics and awareness of the academic market and alternative careers. We will also be working on practical, professionally useful goals, such as how to (better) make use of technology, how to create a CV and modify it for different positions, how to write an abstract, and how to produce a conference paper. Course requirements will include a variety of smaller assignments and two larger projects, a web-based professional portfolio and an 8 to10-page conference paper. LEC.

GERM 701. Introduction to the Study of Literature. 3 Hours.
Introduction to methods of literary research and presentation of seminar papers. Exercises in the use of basic guides to the study of German language and literature, in the documentation of scholarly research, and in the writing of interpretive essays, based on reading and discussion of selected works from different periods of the departmental "Basic Reading List. LEC.

GERM 702. Tutorial-Introduction to Graduate Studies in German. 1 Hour.
This course will be taken in conjunction with German 700 Introduction to Graduate Studies in German. Students enroll in this course with a faculty mentor in the German department based on the area in which they will write their research paper for German 700. It is the purpose of this tutorial to provide in-depth guidance specific to the field of German to students throughout the semester as they write their research papers, to help them develop their analytical and responsible research skills, which will serve as a model for longer term papers and theses. RSH.

GERM 703. Methods of Literary Criticism. 3 Hours.
Differentiation of critical methods. Exercises in textual criticism. LEC.

GERM 704. German Stylistics. 3 Hours.
Stylistic analysis of literary texts; writing in German. LEC.

GERM 705. German Phonetics. 3 Hours.
A systematic study of German phonetics. Prerequisite: Graduate standing or consent of instructor. LEC.

GERM 710. Workshop for M.A. Students. 1 Hour.
Discussion of policies in the M.A. program, examinations, thesis proposals, writing of theses, grant proposals, conference presentations, publications of scholarship, and entrance into the academic job market. Required of all M.A. students in the first year in the program. Does not count toward completion of 30 hours of course work for the M.A. RSH.

GERM 711. History of the German Language. 3 Hours.
A comprehensive introduction to the basic concepts of German philology and various aspects of historical linguistics, including the nature of language and linguistic change, discoveries of the pioneer philologists of the 19th century regarding the prehistory of German, and the beginnings of a national German language. LEC.

GERM 712. The Structure of Modern Standard German. 3 Hours.
A descriptive study of the phonetics/phonology and grammar of contemporary standard German. Special emphasis on problems of teaching German to English-speaking students. LEC.

GERM 716. Topics in German Literature: _______. 3 Hours.
Intensive study of a selected topic in German literature. May be repeated. Offered only in conjunction with GERM 616 when taught by a Max Kade Distinguished Visiting Professor. Graduate students will be assigned additional work. LEC.

GERM 718. Topics in German Language and Linguistics: _______. 3 Hours.
Intensive study of a selected topic in German language and linguistics. May be repeated for credit. LEC.

GERM 721. Introduction to Middle High German Literature. 3 Hours.
The elements of Middle High German as required for reading medieval texts in the original. Intensive reading and literary study of at least one text in full. LEC.

GERM 722. Early Modern Period. 3 Hours.
Reading and discussion of major literary works of the period; combined with lectures and background readings on literary, cultural, and political history. LEC.

GERM 734. Age of Goethe. 3 Hours.
Reading and discussion of major literary works in the period; combined with lectures and background readings on literary, cultural, and political history. LEC.

GERM 736. Post-Romantic Nineteenth Century. 3 Hours.
Reading and discussion of major literary works in the period; combined with lectures and background readings on literary, cultural, and political history. LEC.

GERM 738. Twentieth Century. 3 Hours.
Reading and discussion of major literary works in the period; combined with lectures and background readings on literary, cultural, and political history. LEC.

GERM 751. Special Topics in Culture: _______. 3 Hours.
Intensive study of a selected topic in German culture. May be repeated. LEC.
GERM 753. Investigation and Conference: _____, 1-3 Hours.
To be taken only in exceptional cases. Permission of the instructor who will supervise the student’s work is required. RSH.

GERM 754. Studies in Humanism, Renaissance, and Reformation Literature: _____, 3 Hours.
LEC.

LEC.

GERM 756. Studies in Enlightenment Literature: _____, 3 Hours.
LEC.

GERM 760. Studies on Writers of the Age of Goethe: _____, 3 Hours.
LEC.

GERM 762. Studies in Romanticism: _____, 3 Hours.
LEC.

GERM 764. Studies in the Literature of the 19th Century: _____, 3 Hours.
LEC.

GERM 766. Studies in Literature since 1890: _____, 3 Hours.
LEC.

GERM 800. Seminar: Teaching German as a Second Language. 3 Hours.
Introduction to selected aspects of second-language acquisition, foreign-language pedagogy, and contrastive grammar, with the major concentration on practical guidance in teaching elementary German, in test preparation and grading, and in the use of equipment. LEC.

GERM 801. Practicum in GTAs. 1 Hour.
Discussion of matters relating to the teaching of German in specific courses. Required of all GTAs in each semester of teaching, unless enrolled in GERM 800. Does not count toward completion of 30 hours of coursework for the M.A. or 27 hours of coursework for the Ph.D. IND.

GERM 822. Survey of Medieval German Literature. 3 Hours.
Text-oriented study of the literature of 750-1500 with selected readings in the original and in translation. Prerequisite: GERM 721. LEC.

GERM 823. Readings in Middle High German Epics: _____, 3 Hours.
Reading and literary analysis of one of the following: Nibelungenlied, Erec and Iwein, Tristan, Parzival. Prerequisite: GERM 721. LEC.

GERM 824. Readings in Middle High German Lyrics. 3 Hours.
Reading and literary analysis of one of the following: Minnesangs Fruehling, Walther von der Vogelweide. Prerequisite: GERM 721. LEC.

GERM 851. Studies in Germanic Philology: _____, 3 Hours.
Topics to be announced. Emphasis on studies in etymology, semantics, vocabulary, medieval dialects, linguistic theories. Prerequisite: GERM 711. LEC.

GERM 852. Special Topics in Literature: _____, 3 Hours.
Prerequisite: GERM 701. LEC.

GERM 854. Studies in the Works of: _____, 3 Hours.
In-depth study of the work of a major author in German literature. Prerequisite: GERM 701. LEC.

GERM 855. Introduction to German Applied Linguistics. 3 Hours.
Introduction to theories and topics in German applied linguistics. SEM.

GERM 860. Introduction to Modern German Dialects. 3 Hours.
Introduction to modern German dialects, methods of dialect research and aspects of linguistic assimilation and loss as well as a survey of German-American dialects. Prerequisite: Permission of instructor required. SEM.

GERM 889. Master's Thesis. 3 Hours.
May not be repeated. THE.

GERM 900. Workshop for Ph.D. Students. 1 Hour.
Discussion of policies in the Ph.D. program, research specializations, examinations, dissertation proposals, writing of dissertations, grant proposals, conference presentations, publication of scholarship, and entrance into the academic job market. Required of all Ph.D. students in the first year in the program. Does not count toward completion of 27 hours of course work for the Ph.D. LEC.

GERM 901. Gothic. 3 Hours.
Reading of selected Gothic texts. Historical and descriptive study of Gothic phonology and grammar, with an introduction to comparative Germanic grammar. Prerequisite: GERM 711. LEC.

GERM 902. Old Saxon. 3 Hours.
Introduction to the elements of its grammar and discussion of its role in the Germanic family of languages. Selected readings from the Heliand and discussion of the entire work. Prerequisite: GERM 711. LEC.

GERM 903. Old High German. 3 Hours.
Reading and discussion of selected prose texts and poetic documents; phonological and grammatical features of the Old High German dialects. Prerequisite: GERM 711. LEC.

GERM 904. Gothic and Its Closest Relatives. 3 Hours.
A survey of the earliest Germanic languages with an emphasis on the comparative phonology and grammar of Gothic, Old High German, and Old Saxon as well as the reading of selections of major texts in those three languages. LEC.

GERM 951. Seminar in Germanic Philology: _____, 3 Hours.
LEC.

GERM 952. Seminar in Medieval German Literature: _____, 3 Hours.
LEC.

GERM 953. Investigation and Conference: _____, 1-3 Hours.
To be taken only in exceptional cases. Permission of the instructor who will supervise the student’s work is required. RSH.

GERM 954. Seminar in Humanism, Renaissance, and Reformation Literature: _____, 3 Hours.
LEC.

GERM 955. Seminar in Baroque Literature: _____, 3 Hours.
LEC.

GERM 956. Seminar in Enlightenment Literature: _____, 3 Hours.
LEC.

GERM 960. Seminar on Writers of the Age of Goethe: _____, 3 Hours.
LEC.

GERM 962. Seminar in Romanticism: _____, 3 Hours.
LEC.

GERM 964. Seminar in the Literature of the 19th Century: _____, 3 Hours.
LEC.

GERM 966. Seminar in Problems in Literature since 1890: _____, 3 Hours.
LEC.

GERM 967. Seminar in Special Topics: _____, 3 Hours.
LEC.

GERM 999. Doctoral Dissertation. 1-10 Hours.
THE.
HNGR 103. Survival Hungarian. 3 Hours. U.
Practical training for people intending to live, study, travel, or work in Hungary. Focus on conversational skills. Intensive practice in speaking and listening, with vocabulary about Hungarian geography, culture, and business. Introduction to basic grammar. Not for native speakers LEC.

HNGR 104. Elementary Hungarian I. 5 Hours. U.
Essentials of grammar, practice in speaking, reading, and writing Hungarian. Five class meetings per week. Not open to native speakers of Hungarian. Prerequisite: HNGR 108 or equivalent. LEC.

HNGR 108. Elementary Hungarian II. 5 Hours. U.
Continuation of grammar; practice in conversation, composition, and reading. Five class meetings per week. Not open to native speakers of Hungarian. Prerequisite: HNGR 108 or equivalent. LEC.

HNGR 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Hungarian. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

HNGR 212. Intermediate Hungarian I. 3 Hours. U.
A continuation of HNGR 108. Structured grammar review, composition, conversation, with readings of literary and cultural texts. Three class meetings per week. Not open to native speakers of Hungarian. Prerequisite: HNGR 108 or equivalent. LEC.

HNGR 216. Intermediate Hungarian II. 3 Hours. U.
A continuation of HNGR 212. Structured grammar review, composition, conversation, with readings of literary and cultural texts. Three class meetings per week. Not open to native speakers of Hungarian. Prerequisite: HNGR 212 or equivalent. LEC.

HNGR 453. Investigation and Conference: _____. 1-3 Hours. U.
Independent study and directed readings on special topics. Permission of the instructor who will supervise the student’s work is required. Not open to native speakers of Hungarian. Prerequisite: HNGR 216. IND.

NORW 104. Elementary Norwegian I. 5 Hours. U.
Essentials of grammar, practice in speaking, reading, and writing Norwegian. Five hours of recitation per week. Not open to native speakers of Norwegian. LEC.

NORW 108. Elementary Norwegian II. 5 Hours. U.
Continuation of grammar; practice in conversation, composition, and reading. Five hours of recitation per week. Not open to native speakers of Norwegian. Prerequisite: NORW 104 or permission of instructor. LEC.

NORW 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Norwegian. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

NORW 212. Intermediate Norwegian I. 3 Hours. U.
A continuation of NORW 108. Structured grammar review, composition, conversation with readings of literary and cultural texts. Not open to native speakers of Norwegian. Prerequisite: NORW 108 or permission of instructor. LEC.

NORW 216. Intermediate Norwegian II. 3 Hours. U.
A continuation of NORW 212. Structured grammar review, composition, conversation with readings of literary and cultural texts. Not open to native speakers of Norwegian. Prerequisite: NORW 212 or permission of instructor. LEC.

SCAN 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Scandinavian. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

SCAN 453. Investigation and Conference: _____. 1-3 Hours. U.
Independent study and directed reading on special topics. Prerequisite: Permission of instructor. IND.

SCAN 560. Scandinavia Past and Present. 3 Hours. H/W.
This course presents a historical survey of Denmark, Finland, Iceland, Norway and Sweden. In a comparative framework, the course focuses on a variety of central aspects that shaped Scandinavia from the Viking Age to the present. LEC.

SCAN 570. Scandinavian Life and Civilization. 3 Hours. H/W.
This course is designed to impart a general knowledge of life in Denmark, Finland, Iceland, Norway, and Sweden, with emphasis on social and cultural conditions, against a geographical and historical background, from the Viking age to the present. Slides and other illustrated materials. (Same as EURS 510.) LEC.

SCAN 660. Representative Authors in English. 3 Hours. H/W.
Intensive study of one or more major authors from the literatures of Scandinavia. May be repeated. LEC.

SCAN 661. Topics in Scandinavian Languages and Linguistics: _____. 3 Hours.
Intensive study of a selected topic in Scandinavian languages and linguistics. The course deals with the linguistic analysis of language rather than the acquisition of a particular language. May be repeated. Prerequisite: A course in linguistics. LEC.

SCAN 753. Investigation and Conference: _____. 1-3 Hours.
Independent study and directed reading on special topics. Permission of the instructor is required. RSH.

SCAN 906. Old Norse. 3 Hours.
Introduction to the grammar and reading of the prose literature of the "saga-age" (1100-1350). Varied selections from the literature provide the context in which the language is discussed. LEC.

SCAN 907. Readings in Old Norse Literature. 3 Hours.
Intensive discussion of a single longer saga or several shorter works, or a combination of these on a single theme. Dialectal differences between W. Norse and older Germanic dialects will be noted. Prerequisite: SCAN 906. LEC.

SWED 104. Elementary Swedish I. 5 Hours. U.
Essentials of grammar, practice in speaking, reading, and writing Swedish. Five hours of recitation per week. Not open to native speakers of Swedish. LEC.

SWED 105. Elementary Swedish I, Honors. 5 Hours. U.
Similar to SWED 104 with additional work to expand the student’s cultural context and understanding. Not open to native speakers of Swedish or students who have completed SWED 104. Prerequisite: Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

SWED 108. Elementary Swedish II. 5 Hours. U.
Continuation of grammar; practice in conversation, composition, and reading. Five hours of recitation per week. Not open to native speakers of Swedish. Prerequisite: SWED 104 or permission of instructor. LEC.
SWED 109. Elementary Swedish II, Honors. 5 Hours. U.
Course content similar to SWED 108, with additional cultural study. Meets 5 days a week. Not open to native speakers of Swedish. Prerequisite: Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

SWED 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Swedish. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

SWED 212. Intermediate Swedish I. 3 Hours. U.
A continuation of SWED 108. Structured grammar review, composition, conversation with readings of literary and cultural texts. Not open to native speakers of Swedish. Prerequisite: SWED 108 or permission of instructor. LEC.

SWED 213. Intermediate Swedish I, Honors. 3 Hours. U.
Course content similar to SWED 212, with additional cultural study. Three class meetings per week. Not open to native speakers of Swedish. Prerequisite: Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

SWED 216. Intermediate Swedish II. 3 Hours. U.
A continuation of SWED 212. Structured grammar review, composition, conversation with readings of literary and cultural texts. Not open to native speakers of Swedish. Prerequisite: SWED 212 or permission of instructor. LEC.

SWED 217. Intermediate Swedish II, Honors. 3 Hours. U.
Course content similar to SWED 216, with additional cultural study. Three class meetings per week. Not open to native speakers of Swedish. Prerequisite: Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

SWED 330. Intermediate Swedish Composition and Conversation. 3 Hours. H.
Extensive practice in writing and speaking Swedish with grammar and review and selected readings. Not open to native speakers of Swedish. Prerequisite: SWED 216 or equivalent. LEC.

Bachelor of Arts in German Studies

Why study Germanic languages and literatures?
Translingual and transcultural competence will help students participate actively and productively in our increasingly global world.

Elective Courses
A minimum of 14 credit hours at the 300, 400, and 500 levels must be completed beyond the required courses. 12 of these credit hours must be at the 400 or 500 level. In exceptional cases, undergraduates may take courses at the 600 level with permission of the Undergraduate Advisor and the instructor.

With permission of the Undergraduate Advisor, 6 credit hours at the 300, 400, or 500 levels may be counted toward the major by completing two approved courses offered by other departments with significant content related to German-speaking Europe; permission of the Undergraduate Advisor is required. A 600-level course may be counted with approval of the Undergraduate Advisor.
Germanic languages & literatures majors are strongly encouraged to study abroad and should discuss this opportunity with the Undergraduate Advisor early in their undergraduate career.

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and GPA minimum standards:

**Major Hours**

Satisfied by 30 hours of major courses.

**Major Hours in Residence**

At least 15 hours of coursework at the 300, 400, and 500 levels, including the senior capstone course, GERM 580, must be completed in residence at KU.

**Major Junior/Senior Hours**

Satisfied by a minimum of 30 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Graduation Plan**

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please contact the department for details.

**Departmental Honors in German**

To qualify for the B.A. in Germanic Languages & Literatures with Honors, the student must have a minimum grade point average of 3.25 overall and 3.5 in German at graduation. Students must complete an honors research project during their final year at KU. Topics are selected in consultation with the faculty project advisor from Germanic Languages & Literatures. Applications for departmental honors must be submitted by the end of the first week of classes, normally during the fall of senior year. Upon acceptance of an application, the student registers for the GERM 598 - GERM 599 sequence. The student presents the completed research project to the project advisor and two other members of the Departmental Honors Committee about one month before concluding his or her final semester at KU. A grade of B or higher in GERM 598 and GERM 599 is required for departmental honors. GERM 598 and GERM 599 may not be used to satisfy other course requirements.

**Study Abroad**

The department conducts two Summer Language Institutes in Germany for students in second-, third-, and fourth-year German. Students normally enroll for 9 credit hours and live with German families.

Juniors and seniors are encouraged to spend a semester or a full academic year at a university in Germany. Consult with the Office of Study Abroad and the Undergraduate Advisor early in your undergraduate career.

Graduating seniors may apply for Direct Exchange Program fellowships at universities in Germany. For information, consult the department (http://www2.ku.edu/~germanic) or the Office of International Programs (http://www.studyabroad.ku.edu).

**Minor in German Studies**

**Why study Germanic languages and literatures?**

Translingual and transcultural competence will help students participate actively and productively in our increasingly global world.

**Requirements for the Minor**

The minor requires 18 hours in courses numbered 300 and above. The prerequisite is completion of the proficiency sequence in German (GERM 202 or equivalent).

**German Minor Course Requirements**

**Required Courses**

After completion of GERM 202: Intermediate German II, students must complete the following two courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERM 301</td>
<td>High Intermediate German I</td>
<td>3</td>
</tr>
<tr>
<td>GERM 302</td>
<td>High Intermediate German II</td>
<td>3</td>
</tr>
</tbody>
</table>

**Elective Courses**

12 additional hours at the 300, 400, and 500 levels. GERM 315 and GERM 316 are strongly encouraged because they are prerequisites for courses above GERM 402 (except GERM 444 and GERM 462).

With approval of the Undergraduate Advisor, one approved 3-credit course offered by another department or program and with significant content related to German-speaking Europe (300-500 level) may be counted toward the German minor. A 600-level course may be counted only with approval of the Undergraduate Advisor.

**Minor Hours & GPA**

While completing required courses, minors must also meet each of the following hour and grade point average minimum standards:

**Minor Hours**

Satisfied by 18 hours of minor courses.

**Minor Hours in Residence**

Satisfied by a minimum of 9 hours of junior/senior (300+) hours of KU resident credit in the minor.

**Minor Junior/Senior Hours**

Satisfied by a minimum of 18 hours from junior/senior courses (300+) in the major.

**Minor Graduation GPA**

Satisfied by a minimum of a 2.0 GPA in all departmental courses in the minor. GPA calculations include all departmental courses in the field of study.
study including Fs and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in Germanic Languages and Literatures

Overview

Work toward the M.A. degree consists of a traditional curriculum providing important foundational knowledge. The curriculum includes historical surveys of the major literary periods and genres, of the structure and function of German and Germanic languages, knowledge of disciplinary methodologies employed in the field, development of language capacity, and control of writing and research strategies.

Departmental Funding

While it is not guaranteed, the department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year and come with:

- a competitive academic year (9 month) salary
- a 100% tuition waiver for all courses at KU
- payment of up to 3 hours of student fees
- optional University-subsidized group health insurance

The appointments are guaranteed based on performance for up to 3 years for M.A. students, and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training in language instruction, close mentoring, and the opportunity to teach French at a variety of levels, providing them with a strong base of teaching experience upon entering the job market.

Additional information about teaching for the department is available on the Graduate Funding page (https://germanic.drupal.ku.edu/gta-appointments-and-fellowships) of our departmental website.

Post-comprehensive students completing their dissertations are also eligible to apply for 1 of the departmental Max Kade Dissertation Fellowships.

Additional Funding

There are also university fellowships for truly outstanding students. Visit the Graduate Studies website for information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for KU graduate students.

Contact

For inquiries concerning the M.A. program, please contact:

Professor Leonie Marx (https://germanic.drupal.ku.edu/leonie-marx), Director of Graduate Studies and/or Morgan Swartzlander (https://germanic.drupal.ku.edu/morgan-swartzlander), Graduate Program Coordinator & Graduate Admissions Administrator.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Germanic Languages & Literatures Graduate Admission

In addition to the general admission requirements (http://www.graduate.ku.edu/application-process) from the Office of Graduate Studies, applicants to the M.A. program in German should have the equivalent of the German Studies B.A. offered at KU.

Submit your application through the Graduate Studies Office of Admissions application system (http://www.graduate.ku.edu). For additional information regarding admissions and the application process, including deadlines, department-specific prerequisites and required supplemental documentation, please visit the graduate admission (https://germanic.drupal.ku.edu/graduate-admission) page of the department website, or contact the department Graduate Program Coordinator, Morgan Swartzlander (https://germanic.drupal.ku.edu/graduate-admission), mswartz@ku.edu.

M.A. Degree Requirements

Nonthesis Degree

1. 30 credit hours of graduate work in German (this requirement may be reduced for students in high standing), including GERM 700, GERM 702, GERM 712, and at least 1 literature course from each of the following periods:
   - Age of Goethe or Romanticism,
   - 19th century,
   - 20th century,
   - or, in exceptional cases, equivalent seminars (GERM 960 - GERM 966) must be included in the minimum. Equivalent courses may be substituted with the approval of the departmental graduate committee. The remaining 12 hours may be taken from departmental course offerings in literature, philology, and linguistics at the graduate level.
2. A reading knowledge of Danish, Dutch, or French.
3. A written and oral examination.

1 New teaching assistants normally must enroll in GERM 800 concurrently with their first semester of teaching.

Thesis Option

1. 30 credit hours of graduate work in German, of which 3 hours must be in GERM 899 (http://catalog.ku.edu/201314/allcourses?type=department&group=GERM&catalog_nbr=899&toggle=0) Master’s Thesis. This requirement may be reduced for students in high standing. GERM 701 (http://catalog.ku.edu/201314/allcourses?type=department&group=GERM&catalog_nbr=701&toggle=0), GERM 711 (http://catalog.ku.edu/201314/allcourses?type=department&group=GERM&catalog_nbr=711&toggle=0), GERM 721 (http://catalog.ku.edu/201314/allcourses?
The appointments are guaranteed based on performance for up to 3 years for M.A. students, 5 years for Ph.D. students and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training in language instruction, close mentoring, and the opportunity to teach French at a variety of levels, providing them with a strong base of teaching experience upon entering the job market. Additional information about teaching for the department is available on the Graduate Funding page (https://germanic.drupal.ku.edu/gta-appointments-and-fellowships) of our departmental website.

Post-comprehensive students completing their dissertations are also eligible to apply for one of the the departmental Max Kade Dissertation Fellowships.

### Additional Funding

There are also university fellowships for truly outstanding students. Visit the Graduate Studies website for information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for KU graduate students.

### Contact

For inquiries concerning the graduate program, please contact:

Professor Leonie Marx (https://germanic.drupal.ku.edu/leonie-marx), Director of Graduate Studies and/or Morgan Swartzlander (https://germanic.drupal.ku.edu/morgan-swartzlander), Graduate Program Coordinator & Graduate Admissions Administrator.

### Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

### Germanic Languages & Literatures

#### Graduate Admission

In addition to the general admission requirements (http://www.graduate.ku.edu/application-process) from the Office of Graduate Studies, applicants to the Ph.D. program in German should have the equivalent of the to the Master’s Degree in German offered at KU.

Submit your application through the Graduate Studies Office of Admissions application system (http://www.graduate.ku.edu). For additional information regarding admissions and the application process, including deadlines, department-specific prerequisites and required supplemental documentation, please visit the graduate admissions (https://germanic.drupal.ku.edu/graduate-admission) page of the Germanic Languages and Literatures website, or contact the department Graduate Program Coordinator, Morgan Swartzlander (https://germanic.drupal.ku.edu/graduate-admission), mswartz@ku.edu.

### Doctor of Philosophy in Germanic Languages and Literatures

#### Overview

Building on the M.A. foundational base, the KU Ph.D. degree program encourages students to develop their particular intellectual interests in collaboration with KU faculty and their areas of specialization. The graduate program focuses on the following areas:

- German literature
- Germanic linguistics/philology
- German second-language acquisition/applied linguistics

Ph.D. students studying literature and culture and those studying Germanic philology also benefit from the opportunity to choose a minor field of study. Students may choose a minor of up to 9 credit hours of coursework taken outside the department and chosen in consultation with their dissertation advisor. This minor may also consist of coursework combined with a project.

The Doctoral Program Profile (PDF) (http://graduate.ku.edu/sites/graduate.drupal.ku.edu/files/docs/dpp/DPP_A_GERM.pdf) gives a retrospective overview of our time-to-degree and other statistics relevant to the graduate program and graduate-student experience.

#### Departmental Funding

While it is not guaranteed, the department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year and come with:

- a competitive academic year (9 month) salary
- a 100% tuition waiver for all courses at KU
- payment of up to 3 hours of student fees
- optional University-subsidized group health insurance

New teaching assistants normally must enroll in GERM 800 concurrently with their first semester of teaching.

1. New teaching assistants normally must enroll in GERM 800 (http://catalog.ku.edu/201314/allcourses?type=department&group=GERM&catalog_nbr=800&toggle=0) concurrently with their first semester of teaching.
Ph.D. Degree Requirements

In addition to the general requirements for the Doctor of Philosophy degree concerning research skills, the oral comprehensive examination, the dissertation, and the final examination, a student must meet the following specific departmental requirements:

1. Normally a minimum of 27 credit hours (excluding GERM 999 Doctoral Dissertation) beyond that required for the M.A. For students in German Applied Linguistics, some of the courses may be taken outside of the department. Students in literature and culture and students in Germanic philology may choose a minor up to 9 credit hours of coursework outside the department in consultation with their advisor. This minor may consist of coursework combined with a project. The 9 hours of the minor are included in the required 27 credit hours. Required Courses: One research seminar in the area of specialization; Approved elective courses in the area of specialization; Approved elective courses for the outside minor area (depending on specialization); Reading knowledge in one foreign language other than German. Prior to the portfolio evaluation an approved course in a foreign language for one semester or an equivalency exam must be completed.

2. Demonstrated reading knowledge in one foreign language other than German. Students specializing in medieval philology or older literature must select Latin as the second language for reading knowledge.

3. At least 1 semester of half-time teaching or the equivalent (normally GERM 800 is required concurrently with the first semester of teaching).

4. a). A portfolio evaluation in the third semester of study after successful completion of 18 credit hours of coursework. For a detailed description of portfolio content, see the Graduate Handbook. Upon passing the portfolio evaluation and fulfilling all degree requirements, students advance to the comprehensive examination in the fourth semester of their doctoral studies. b). A comprehensive written and oral examination in the fourth semester upon completion of all required coursework (27 credit hours in German Studies; for students in German Applied Linguistics and for students with a minor option, some of the courses will be taken outside of the department) and fulfillment of all degree requirements. The comprehensive examination consists of a 2-part written departmental preliminary examination based on the student's submitted portfolio followed by an oral examination.

Research Skills & Responsible Scholarship

The University requires that every doctoral student have training in research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. For Germanic Languages and Literatures doctoral students, this requirement is met by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERM 700</td>
<td>Introduction to Graduate Studies in German</td>
<td>3</td>
</tr>
<tr>
<td>GERM 702</td>
<td>Tutorial-Introduction to Graduate Studies in German</td>
<td>1</td>
</tr>
<tr>
<td>GERM 800</td>
<td>Seminar: Teaching German as a Second Language</td>
<td>3</td>
</tr>
<tr>
<td>GERM 855</td>
<td>Introduction to German Applied Linguistics</td>
<td>3</td>
</tr>
</tbody>
</table>

Demonstrated reading knowledge of French and one other modern language, Latin or Greek.

Graduate Handbook

For further details about the requirements for the Ph.D. see the department’s Graduate Handbook (https://germanic.drupal.ku.edu/graduate-handbook).

Gerontology Program

Gerontology Graduate Programs

Graduate study in gerontology at KU consists of Master of Arts and Doctor of Philosophy degrees in gerontology, along with the option for a dual-title Ph.D. in Gerontology and selected social science disciplines.

They are administered through the Gerontology Center, a component of the Schiefelbusch Institute for Life Span Studies.

The Doctor of Philosophy degree in gerontology was approved by the Kansas Board of Regents during the 1996-97 academic year. KU is one of only several universities nationwide offering the Ph.D. in gerontology. KU’s gerontology graduate program is unique in that it is an interdisciplinary research degree emphasizing social and behavioral gerontology.

Faculty affiliated with the program include members of the College of Liberal Arts and Sciences, including the School of the Arts; and the Schools of Architecture, Design and Planning; Education; Engineering; Health Professions; Law; Medicine; Music; Nursing; Pharmacy; and Social Welfare.

The graduate program in gerontology gives students a broad, advanced educational experience in gerontology. It provides a common focus for all students, yet allows each student to design a course of study most appropriate for her or his career objectives. Courses give students a multidisciplinary perspective on the issues and problems of aging, built on a strong foundation in basic research on aging. The program prepares students for academic and research careers in gerontology, as well as for professional careers in private and public institutions and agencies providing services to older individuals.

Students seeking a terminal M.A. in gerontology are not admitted; the M.A. is offered only to those pursuing a Ph.D.

Students seeking a terminal M.A. in gerontology are not admitted; the M.A. is offered only to those pursuing a Ph.D.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Application and Admission

Any student who has completed at least a B.A. or B.S. degree at an accredited institution of higher education may apply to the Ph.D. program. Required application materials include a résumé, a personal statement of professional and educational goals in gerontology, 1 copy of all undergraduate and graduate transcripts, list of all courses taken that are relevant to gerontology, 3 letters of recommendation, and scores from the Graduate Record Examination. Applicants whose first language is not English must submit proof of proficiency in English. GRE and other scores should be from the last two years. Further information is available from the graduate advisor or on the program's website (http://www.gerontology.ku.edu).

Submit your graduate application online (http://www.gerontology.ku.edu). Send all other requested application materials to the department:

The University of Kansas
Gerontology Program
Admissions Committee
Dole Human Development Center
1000 Sunnyside Ave., Room 3090
Lawrence, KS 66045-7561

Program Requirements

For the Ph.D., the student must complete all general degree requirements, including residence, training in research skills and responsible scholarship, the written preliminary examination, the comprehensive oral examination, preparation of a dissertation, and the final oral examination.

Each student designs his or her own curriculum with the assistance of a support committee of 3 gerontology faculty members. All students are expected to acquire multidisciplinary training in gerontology by taking courses in the sociology, psychology, and biology of aging.

Students may enter the program with an acceptable master's degree from KU or another institution. The admissions committee reviews master's-level preparation for doctoral-level research. An acceptable level of preparation includes basic training in statistics, program assessment, or policy analysis and completion of an empirical research study or thesis.

Students entering the program without an acceptable master's degree must complete the M.A. in gerontology before the Ph.D.

The requirements for the M.A. in gerontology are as follows:

- Gerontology proseminar
- 6 hours of core courses in gerontology (selected from at least 2 of the following areas: biology of aging, psychology of aging, social gerontology)
- 12 hours of supplemental courses in gerontology and related fields
- 6 hours of basic statistics courses
- 3 hours of methodology
- 6 hours of thesis credit

For students who enter the program with master's degrees or who complete the M.A. in gerontology, minimum requirements for the Ph.D. are as follows:

- Gerontology proseminar
- At least 6 hours of core courses in gerontology (selected from at least 2 of the following areas: biology of aging, psychology of aging, social gerontology)
- At least 12 hours of additional supplemental courses in gerontology and related fields
- 6 hours of advanced statistics courses
- 6 additional hours of methodology
- Completion of written and oral comprehensive examination
- 6 hours of dissertation credit, completion of dissertation, and final oral examination

A list of courses meeting requirements in gerontology, statistics, and methodology is available from the graduate advisor.

Evaluation of Satisfactory Performance

The gerontology proseminar and core courses should be completed during the first 2 semesters. Students normally are expected to complete the M.A. degree in 2 years. The maximum time limit for completing all requirements for the M.A. degree is 3 years. Students normally are expected to complete the Ph.D. within 3 years of entering the program or of completing the M.A. The maximum time limit for completing all requirements for the doctoral degree is 8 years after admission to the doctoral program with an acceptable master's degree or after completion of the M.A. degree in gerontology. Students who complete the M.A. degree in gerontology at KU and subsequently begin doctoral studies have a total enrolled time of 10 years to complete both degrees.

Written Preliminary Examination

Upon completion of the M.A., a major portion of the course requirements, and the research skills and responsible scholarship requirement, each student must pass a written preliminary examination. This examination

**1000 Sunnyside Ave., Room 3090**  
**Lawrence, KS 66045-7561**

**Dual-title Ph.D. Program in Gerontology**

This dual-title degree is an option available to students who have first been admitted to the doctoral program in one of these departments: Communication Studies, Psychology, and Sociology (as of January 2012). The dual-title degree allows the pursuit of a single degree that incorporates study within a traditional discipline and training in an interdisciplinary field; the student is awarded one degree (Ph.D.) with both titles identified on the diploma (e.g., “Ph.D. in Psychology and Gerontology”).

This option is designed to appeal to students who are strong in a traditional discipline but also motivated to study across disciplinary lines. In the course of study, students can avail themselves of disciplinary depth and interdisciplinary breadth. At the post-doctoral stage, dual-title graduates will have enhanced career and employment opportunities, able to claim expertise in one or both titles of their degree when seeking positions in education and research.

**Plan of Study**

The dual-title Ph.D. integrates two programs of doctoral study for students who enter doctoral study having earned a Master’s degree. To ensure integration of the fields in regard to coursework, examinations, and dissertation, the student’s principal faculty advisor must be a faculty member in both fields; or, if this is not possible, the student must have co-advisors from each of the two fields.

The student completes required coursework in the traditional discipline and required coursework in Gerontology. Many theory, methods, and content courses for each side of the pairing can jointly fulfill requirements for both programs in the dual-title degree. Nonetheless, the dual-title student may require an additional semester to fulfill requirements in both programs. Course requirements for doctoral study in Gerontology and the partner discipline are those described in the programs’ respective graduate student handbooks. The course requirements for the Gerontology Ph.D. are those listed in the preceding section under Gerontology Graduate Programs.

**Evaluation of Satisfactory Performance**

The programs’ respective graduate student handbooks likewise describe procedures for written preliminary material, the Comprehensive Oral Examination, the dissertation, and the Final Oral Examination. With the consent of advisors in both programs, any required written preliminary examinations will be harmonized between the two programs. Comprehensive oral examination: The dual-title degree student’s candidacy examination committee must be composed of faculty from the partner discipline as well as at least one faculty member from the Gerontology Program. The dual-title faculty member may be someone who is appointed in both programs. Typically, the dual-title member will participate in constructing and grading candidacy examination questions in gerontology. The comprehensive exam requirements for both programs must be met, including a defense of the prospectus for the dissertation.

Dissertation and final oral examination: The dissertation topic should integrate both fields and be defended before graduate faculty from both programs.

**Application for Admission to the Dual-title Program**

Students must enroll in the disciplinary Ph.D. program for at least one semester and be in good academic standing before applying to the dual-title Ph.D. Program. Students may inquire further about the dual-title option and admission procedures by contacting the graduate advisor of the Gerontology Doctoral Program. Before applying, students should likewise consult with their advisor in the department that admitted them to KU.

Students apply by means of a letter to Graduate Advisor of the Gerontology Doctoral Program. This letter should describe one’s professional and educational goals in gerontology and also include one’s reasons for pursuing the dual-title option. The letter should be accompanied by a resume and by a list of all courses previously taken in relevant areas such as sociology, psychology, human development, social welfare, biology, and health services. The Gerontology program may request access to recent materials that the student filed in order to apply for graduate study at KU (undergraduate and graduate transcripts, letters of recommendation, scores from the Graduate Record Examination, and, for international applicants, proof of proficiency in the English language), or the program may request updates of these materials.

If accepted to undertake the dual-title Ph.D. option, the student will select or be assigned an advisor who is a member of both programs. If this is not possible, the student must have two advisors, one from each field. The student will work with her or his advisor(s) in both programs to draft a joint plan of study that outlines the key courses and seminars that will fulfill the course requirements for both programs, to the extent that these are foreseeable. The advisor(s) will sign the joint plan of study to indicate discussion and approval of the plan.
Global and International Studies

Why study global and international studies?

Because global and international studies will give you the tools to understand the rapid and profound changes that are occurring around the world.

KU Language Across the Curriculum

KULAC is a pioneering program that seeks to equip students with real competency in a second language through a curriculum of courses and discussion sections taught in world languages in fields like business, history, politics, and the environment. KULAC classes allow you to study subjects that meet your interests (and graduation requirements) while sharpening your language skills, including the specialized vocabulary used in your career. Employers are looking for graduates who combine a disciplinary specialty with a second language proficiency and a knowledge of other cultures. KULAC makes it possible for you to develop these skills without slowing progress toward your degree. KULAC courses are open to any student who has completed at least 2 years of college-level classes in the relevant language. Courses are taught in Spanish, French, German, Italian, and Russian. There are new offerings each semester. For more information, consult the Center for Global and International Studies (http://global.ku.edu).

Undergraduate Programs

Global and international studies at KU offers an interdisciplinary program in which faculty and students think critically about some of the most fundamental issues facing societies today: population growth, politics and governance, migration, the global economy, poverty and inequality, religion, race and ethnicity, gender and sexuality, peace and conflict, and climate change. Through an investigation of these topics, global and international studies majors acquire an enriched understanding of the world today, which is not only a desirable end in itself but also a useful background for professionals whose careers may involve them in different geographical and cultural areas. A major in global and international studies is helpful for careers in journalism, foreign service, business and industry, education, law, politics and government, and social service agencies.

The degree in European Studies is available only as a co-major in conjunction with a bachelor’s degree major in another academic discipline. Students take advantage of this option by combining the co-major with modern European languages & literatures, Business, History, Philosophy, and Global & International Studies.

The co-major also can be combined with a bachelor’s degree in a professional school, such as business or journalism. The European Studies co-major provides students with a solid foundation in the cultures, politics, languages, and history of Europe in preparation for graduate studies and/or careers in a wide variety of international fields. Studying with KU faculty in the broader disciplines such as social sciences, humanities, the arts, and business, will enable students to increase their awareness and understanding of Europe’s past, present, and future and its significant role in our increasingly globalized world. The program offers personalized advising, interdisciplinary flexibility, diverse course offerings, opportunities to conduct research, frequent co-curricular activities, and many options for studying and completing internships abroad.

Graduate Programs

The Master of Arts in Global and International Studies provides an analytically sophisticated understanding of the contemporary global arena. Students pursue interests in global politics, society, and culture across a broad range of courses in the humanities and social sciences. Students develop a specialization in a world region and a topic that transcends national borders. The degree offers students the skills and knowledge to operate in a world where traditional boundaries are disappearing.

Campuses

The program is based at the KU Edwards Campus (http://edwardscampus.ku.edu). Students complete courses on the Edwards Campus and in Lawrence.

KU Edwards Campus

KU offers a variety of graduate and undergraduate programs on the KU Edwards Campus in Overland Park, Kansas. The Edwards Campus offers late-afternoon and evening classes, catering to working professionals. For more information, call the Edwards Campus at 864-8400 from Lawrence or 913-897-8400 from other locations.

Center for Global and International Studies

The Center for Global and International Studies (http://global.ku.edu) supports and promotes global and international studies at KU. In collaboration with International Programs and the area centers, CGIS works to provide a single point of contact for faculty with international expertise to help facilitate interdisciplinary research and teaching opportunities. Building on longstanding institutional strength in international studies, the center focuses on topics and themes of transnational scope and on world areas of economic and strategic importance not covered by the existing area studies centers. CGIS contributes to the preparation of students for careers in an increasingly interconnected world by housing undergraduate and graduate degrees in global and international studies, and by supporting the introduction of new course offerings and study abroad opportunities. In addition, the center offers outreach activities to K-12 teachers, businesses, and governmental agencies across the region and serves as a resource for the local and international community.

Courses

EURS 150. Study Abroad Topics in European Studies: _____ 1-5 Hours. U.
This course is designed for the study of special topics in European Studies at the 100-level (Freshman/Sophomore level). Coursework must be arranged through the KU Office of Study Abroad and approved by a faculty advisor in European Studies. May be repeated for credit if content varies. LEC.

EURS 177. First Year Seminar: _____ 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in European Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.
EURS 302. European Culture and Society 1945 to Present. 3 Hours. HT AE42 / H.
The course provides historical, cultural, and political overviews of Europe since 1945 with particular emphasis on the contribution of French and Italian culture and society. The course emphasizes Europe’s contribution to Western intellectual thought, social movements, arts and literature, and global society. (Same as HWC 302.) LEC.

EURS 329. History of War and Peace. 3 Hours. HL / H.
A study of the changing nature of warfare and the struggle to bring about peace. Topics include pacifism, the “military revolution” that created the first professional armies; the development of diplomatic immunity, truces, and international law; the peace settlements of Westphalia, Utrecht, Vienna, Versailles, San Francisco; the creation of peace movements and peace prizes; the evolution of total war, civil war; and guerrilla warfare involving civilians in the twentieth century; the history of the League of Nations and United Nations; and the rise of intergovernmental and non-governmental organizations. (Same as HIST 329 and PCS 329.) LEC.

EURS 350. Study Abroad Topics in: _____ 1-5 Hours. H.
This course is designed for the study of special topics in European Studies at the Junior/Senior level. Coursework must be arranged through the KU Office of Study Abroad and approved by a faculty advisor in European Studies. May be repeated for credit if content varies. LEC.

EURS 430. European Civilization in World Context: _____ 3 Hours. HL AE42/GE3H / H.
An introduction to the literature of encounter between European and non-European civilizations, drawing on both Western and non-Western sources. The course may include European interactions with areas such as the Mediterranean Basin, Sub-saharan Africa, South and East Asia, and the Americas. World areas and historical periods chosen for study will vary from semester to semester according to the interest and field of the instructor. Not open to freshmen. (Same as HWC 430.) Prerequisite: HWC 114 or HWC 204 and HWC 115 or HWC 205. LEC.

EURS 435. Islam in Europe. 3 Hours. AE42 / H.
Investigation of Muslim migration into Europe and day-to-day interactions of Muslims with other European populations. This is an integrated study of historical, political, religious and economic influences that determine Muslim experience in contemporary European culture. (Same as HWC 435.) LEC.

EURS 500. Seminar in European Studies. 3 Hours. AE42/AE61 / H.
Provides an interdisciplinary approach to the study of modern European civilization. By discussing both classic and contemporary, controversial readings each week and writing several papers during the semester, students acquire an understanding of the development of modern European culture and society and Europe’s contemporary problems. Topics for discussions and papers are drawn from the following subjects: the economic and political integration of European states; modernism and anti-modernism in European culture; imperialism, migration, and ethnic and racial division in European society; democracy versus dictatorship; American-European relations; mass culture, urban development, and the welfare state; and contrasts and comparisons between European Cultures—East and West, North and South. Seminar discussions are led by invited European Studies faculty as well as the instructor or instructors. Required of all European Studies majors. Prerequisite: Junior standing or consent of instructor. LEC.

EURS 501. Senior Thesis in European Studies. 3 Hours. AE61 / H.
European Studies majors will do research and write a substantial paper on a topic in the culture, economy, history, or politics of Europe. Topics will be approved by the European Studies Committee. Students will work with an advisor chosen from among the European Studies faculty and with the European Studies Coordinator. The majority of the students’ work will be done independently with their advisors, but students will meet with the European Studies Coordinator several times as a class to report on their progress and present their final drafts. Required of all European Studies majors. Prerequisite: Completion of EURS 500 and 15 hours toward the Co-Major. IND.

EURS 502. Senior Honors Thesis in European Studies. 3 Hours. AE61 / H.
Open to European Studies majors doing their senior thesis for Honors. Prerequisite: Completion of EURS 500, 15 hours toward the Co-Major, and approval of Honors thesis by European Studies Committee. Completion of or concurrent enrollment in EURS 501. IND.

EURS 503. Europe Today. 3 Hours. S.
This intensive, interdisciplinary seminar focuses on current social, political, and economic changes in Europe. Topics include European integration and the European Union, the conflict between nationalism and European consciousness, NATO and U.S.-European relations, and international business in Europe. The seminar will include guest lectures from an international array of scholars, political officials, and business representatives, as well as site visits to their institutions and companies. The seminar takes place in Brussels, Belgium, and enrollment is restricted to students accepted in the KU Summer Institute for European Studies study abroad program. LEC.

EURS 505. Studies in Exile Literature. 3 Hours. H.
A multidisciplinary study of selected literary, scholarly, and creative works produced by those Europeans forced into exile, emphasizing their impact on culture and society both in Europe and in those countries in which the exiles resided. Examples: exile during the Nazi dictatorship in Germany (1933-1945), during Cold War crises (Berlin 1960, Prague 1968). LEC.

EURS 506. Culture and Politics of the Cold War in Western Europe. 3 Hours. H.
An interdisciplinary overview of the Cold War period (1945-1985) focusing on Western European dimensions of the problem, based on the view that the Cold War structured political institutions, cultures, and societies in enduring ways that continue to be relevant today. LEC.

EURS 507. Research in European Collections. 1-3 Hours. H.
This course allows students in the European Studies Co-Major and related disciplines to receive credit for research related to European Collections in one or more of the following institutions: Watson and Spencer Research Libraries, the Dole Institute, the Eisenhower and Truman Presidential Libraries, the U.S. Army Combined Arms Research and Foreign Military Studies Office at Fort Leavenworth, the Linda Hall Library in Kansas City, and the Winston Churchill Collection at the Westminster College Library in Fulton, Missouri. May be taken in place of EURS 501 by European Studies Honors Students if taken for three credit hours. Permission of instructor necessary. IND.

EURS 508. Politics and Economics of Cultural Production in Western Europe. 3 Hours. H.
Artists and intellectuals in their relation to state and society. This course is designed to introduce students (1) to the role European artists and intellectuals have often played in the arena of politics and (2) to the privileged place cultural production (arts, literature, media) occupies in the formation of various European identities and economies. LEC.

EURS 509. Introduction to the Study of Southern European Societies. 3 Hours. H.
Social, historical, and economic study of Southern European societies with emphasis on modern period. Relevant to the study of European integration and EU enlargement. Consideration of the distinctive southern Mediterranean societies from the perspective of their collective identity as a regional economic and geopolitical bloc. LEC.
EURS 510. Scandinavian Life and Civilization. 3 Hours. H.
This course is designed to impart a general knowledge of life in Denmark, Finland, Iceland, Norway, and Sweden with emphasis on social and cultural conditions, against a geographical and historical background, from the Viking Age to the present. Slides and other illustrated materials. (Same as SCAN 570.) LEC.

EURS 511. Topics in European Studies: ______. 3 Hours. H.
A study of significant themes, movements, or problems in European history, literature, politics, society, or culture. May also relate European issues to issues in other world areas (Africa, North America, Asia, etc.) May be repeated for credit when topic varies. LEC.

EURS 512. Irish Literature and Culture: ______. 3 Hours. H.
Study of topics in Irish literature and culture. Topics may focus on a particular genre, theme, historical period, or group of authors. May be repeated for credit as the topic changes. (Same as ENGL 530.) Prerequisite: Prior completion of at least one 300- or 400-level English course. LEC.

EURS 536. Economic Issues of the European Union. 3 Hours. S.
A survey of the economics of the European Union, with a focus on the economic development of the member states since World War II, and an examination of the various economic issues confronting them today. (Same as ECON 536) Prerequisite: ECON 104 or ECON 144. LEC.

EURS 550. Classics of Peace Literature. 3 Hours. HL. AE51/AE61 / H.
A study of influential proposals for world peace from Erasmus' The Complaint of Peace (1516) to the 1995 Hague Appeal for World Peace. Selected writings by such authors as Erasmus, Hugo Grotius, Jean-Jacques Rousseau, Immanuel Kant, Henri Thoreau, Henri Dunant, Berthe von Suttner, Woodrow Wilson, Mahatma Gandhi, and Martin Luther King, Jr., are considered. (Same as PCS 550.) Prerequisite: HWC 204 or HWC 205. LEC.

EURS 565. The Literature of Human Rights. 3 Hours. H.
Examines in literature, art, and film from about 1800 to the present, both sides of the ongoing debate surrounding the idea that all human persons possess inalienable rights because all persons possess intrinsic value as persons, value independent of race, gender, caste or class, wealth, age, sexual preference, etc. Anti- and pro-rights proponents are paired and studied with equal care. (Same as PCS 565.) LEC.

EURS 580. Directed Study. 1-3 Hours. AE61 / H.
Independent study and directed reading on special topics. Permission of the instructor who will supervise the student's work is required. LEC.

EURS 581. Discussion Section in French. 1 Hour. U.
The 1 credit hour course represents a foreign language discussion section to be attached to a major 3-credit hour EURS course (example: EURS 500). Foreign language discussion sections are an integral part of the KULAC program envisaged to reinforce foreign language proficiency. LEC.

EURS 582. Discussion Section in German. 1 Hour. U.
The 1 credit hour course represents a foreign language discussion section to be attached to a major 3-credit hour EURS course (example: EURS 500). Foreign language discussion sections are an integral part of the KULAC program envisaged to reinforce foreign language proficiency. LEC.

EURS 583. Discussion Section in Italian. 1 Hour. U.
The 1 credit hour course represents a foreign language discussion section to be attached to a major 3-credit hour EURS course (example: EURS 500). Foreign language discussion sections are an integral part of the KULAC program envisaged to reinforce foreign language proficiency. LEC.

EURS 584. Discussion Section in Spanish. 1 Hour. U.
The 1 credit hour course represents a foreign language discussion section to be attached to a major 3-credit hour EURS course (example: EURS 500). Foreign language discussion sections are an integral part of the KULAC program envisaged to reinforce foreign language proficiency. LEC.

EURS 604. The European Union. 3 Hours. H.
The European Union, the union of 27 European countries, is a culmination of a long history of European unity. The European Union now encompasses population and economic strength rivalling that of the United States. This course examines selected topics in the history of European integration and the political, legal, economic, and social implications of the present European Union as well as its relations with the United States and other regions of the world. LEC.

FARS 110. Elementary Farsi I. 5 Hours. U.
Vocabulary acquisition, pronunciation, grammar, and writing. Course includes reading of simple texts. Five hours of class per week. LEC.

FARS 120. Elementary Farsi II. 5 Hours.
Continuation of FARS 110. Vocabulary acquisition, pronunciation, grammar, and writing. Course includes reading of simple texts. Five hours of class per week. Prerequisite: FARS 110 or departmental permission. LEC.

FARS 210. Intermediate Farsi I. 3 Hours. U.
A continuation of FARS 120. Course emphasizes oral and written work in Farsi. Systematic review of grammar and introduction to reading in cultural texts. Prerequisite: FARS 120 or departmental permission. LEC.

FARS 220. Intermediate Farsi II. 3 Hours. U.
A continuation of FARS 210. Course emphasizes oral and written work in Farsi. Systematic review of grammar and introduction to reading in cultural texts. Prerequisite: FARS 210 or departmental permission. LEC.

FARS 310. Advanced Farsi I. 3 Hours. U.
Enhancement of speaking, comprehension, reading and writing abilities in Farsi. Readings from Farsi literature introduced. Prerequisite: FARS 220 or placement exam that establishes a level of proficiency in Farsi suited to Advanced Farsi I. LEC.

FARS 320. Advanced Farsi II. 3 Hours. U.
Enhancement of speaking, comprehension, reading and writing abilities in Farsi. Readings from Farsi literature introduced. Prerequisite: FARS 310 or placement exam that establishes a level of proficiency in Farsi suited to Advanced Farsi II. LEC.

GIST 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Global International Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

GIST 201. Topics in: ______. 1-3 Hours. U.
An interdisciplinary study of international topics. Designed especially for freshmen and sophomores. May be repeated for credit if content varies. LEC.

GIST 202. Topics in South Asian Studies: ______. 1-3 Hours. U.
An interdisciplinary study of topics related to South Asia. Designed especially for freshmen and sophomores. May be repeated for credit if content varies. LEC.

GIST 203. Topics in Middle Eastern Studies: ______. 1-3 Hours. U.
An interdisciplinary study of topics related to the Middle East. Designed especially for freshmen and sophomores. May be repeated for credit if content varies. LEC.
GIST 250. Introduction to Globalization. 3 Hours. S.
Along with an overview of the origins and historical development of globalization, the course addresses various aspects of the growth of transnational economic, cultural, institutional, and political interconnections, including the implications of rapidly-developing information technology and social media, international security in a transnational world, and the issues related to the movement of goods, people (immigration), images, ideas, and institutional forms across national borders. LEC.

GIST 301. Introduction to Global and International Studies. 3 Hours. S.
This course provides an overview to the major ways and themes involved in the study of world cultures, politics, and societies as applied by disciplines in the social sciences. Topics such as the construction and maintenance of cultures, comparative political systems, global and regional economies, popular culture, gender and the environment will be covered through their manifestations in particular regional and global contexts. LEC.

GIST 350. Study Abroad Topics in: ____. 1-5 Hours. U.
This course is designed for the study of special topics in global and international studies at the junior/senior level. Course work must be arranged through the KU Office of Study Abroad and approved by a faculty adviser in Global and International Studies. May be repeated for credit if content varies. LEC.

GIST 424. Nationalism(s) in Turkey. 3 Hours. S.
This course analyzes the major variations in nationalist paradigms existing in contemporary Turkey, including conservative nationalism, secular nationalism, religious (Islamic) nationalism, and Kurdish nationalism. Through the lens of seminal theories on the origins, development, and types of nationalism and the relevant historical background of the Turkish Republic, we explore how these competing visions of "the nation" and "homeland" have changed, fragmented, and manifested themselves in every Turkish politics and society. LEC.

GIST 493. Directed Readings. 3 Hours. U.
Individual and supervised readings in a selected area of international studies. Course is repeatable with permission of the program director. LEC.

GIST 495. Global Internship. 3 Hours. U.
Semester-long internship with a business or organization located abroad or that provides a global or international working context for the intern. A term paper is required. Prerequisite: Consent of instructor. FLD.

GIST 501. Topics in: ____. 1-3 Hours. U.
An interdisciplinary study of international topics. Designed especially for juniors and seniors. May be repeated for credit if content varies. LEC.

GIST 502. Advanced Topics in South Asian Studies: ____. 1-3 Hours. U.
An interdisciplinary study of topics related to South Asia. May be repeated for credit if content varies. Prerequisite depends on specific topic offered. LEC.

GIST 503. Advanced Topics in Middle East Studies: ____. 3 Hours. U.
An interdisciplinary study of topics related to the Middle East. May be repeated for credit if content e depends on specific topic offered. LEC.

GIST 530. Politics and Society in the Contemporary Persianate World. 3 Hours. S.
This course examines the major currents of political developments and their linkages with religion, culture and civil society in Turkey, Iran, Afghanistan, Pakistan and India since the late nineteenth century. During the "pre-modern" period, all these countries formed part of "the Persianate world," a region that extended from the Iranian plateau to the Balkans, Central Asia and the Indian subcontinent, mostly under the Turkic administrations, and tied together by trade, Islam, and Persian as the lingua franca. The dissemination of modern Western political thought and nationalism during the colonial period led to nation-states and the end of the linguistic domination of Persian in the region. Though each of these nation-states ultimately took a different trajectory, they each were faced with similar challenges that offer the basis for interesting comparisons between them. This course explores the trajectories of these countries in regard to the relations between the state, religion, and politics, various strands of nationalism, pluralism, religious and ethnic minorities, social equality, and democratization. Prerequisite: GIST 301 or POLS 150. LEC.

GIST 535. Literature and Society in the Contemporary Middle East. 3 Hours. H.
This course offers a general introduction to the modern Middle Eastern literatures in English translation. Through analyses of selected short stories and novels from Arabic, Turkish and Persian literature, the students develop an understanding of the issues that shape everyday life in the Contemporary Middle East. The course investigates issues of nation and national identity, war, ethnicity, class, religion, and gender and sexuality. We use a variety of paradigms, namely nationalist, Marxist, feminist, and Islamist, to provide a theoretical framework for discussion of the selected works. No prior knowledge of Arabic, Turkish or Persian language is needed. Prerequisite: GIST 301. LEC.

GIST 610. Interdisciplinary Methods for Global Contexts. 3 Hours. S.
An introduction to a variety of widely-employed quantitative and qualitative research methods in the social sciences and humanities, including methods such as statistical analysis, ethnography, and content analysis. LEC.

GIST 624. Socio Movements in the Middle East. 3 Hours. S.
Using the major theories and approaches comparatively applied to social movements around the world, this course critically analyzes historical and existing cases of social movements and "nonmovements" in the Middle East. We cover examples of Islamist (and post-Islamist), women’s, nationalist, democratic, youth and labor movements and their impact on the region. Contextual factors like technology and social networking, regime type, institutions, and socioeconomic structures are also considered for their role in supporting or inhibiting collective action. Prerequisite: GIST 301 or POLS 150. LEC.

GIST 684. International Law: The State and the Individual. 3 Hours. S.
International law has assumed an increasingly significant role in international life. This course examines major issues in international law including (but not limited to): the changing status and role of the state; rights of minorities and self-determination; the environment; and human rights. The course examines the central questions and the relevant international legal principles associated with each issue. Prerequisite: GIST 301 or POLS 150. LEC.

GIST 685. International Law: Laws of Armed Conflict. 3 Hours. S.
This course examines the principles, roles, and functions of international law in the conduct of war. As the course reviews the development and application of the basic rules of armed conflict, several current issues and conflicts are addressed including: the legitimate use of force; the proper definitions of combatants and civilians; actions that constitute war crimes, the legality of new weapons technology, and, if the laws of armed conflict apply to the current "war on terrorism." Prerequisite: GIST 170. LEC.

GIST 698. Capstone Seminar. 3 Hours. AE61 / H.
A seminar designed to introduce students to the theory and practice of global and international studies. A research paper will be required. May
not be repeated for credit. Prerequisite: 12 hours of junior/senior level and above courses that satisfy requirements for the major. LEC.

GIST 699. Capstone Seminar, Honors. 3 Hours. AE61 / H.
A seminar designed to introduce honors students to the theory and practice of global and international studies. A research paper will be required. May not be repeated for credit. Prerequisite: 12 hours of junior/senior level and above courses that satisfy requirements for the major. LEC.

GIST 701. Approaches to International Studies. 3 Hours.
This course examines various approaches to the study of cultures, politics, and societies in their global and international contexts through the exploration of a series of exemplary works of global/international research from a variety of disciplines (eg. anthropology, sociology, political science, economics, geography, history, etc.). The course will cover the major contributions of these disciplines in their approaches to global questions and themes and will provide a multi-disciplinary framework within which students can begin exploring their own global and international research questions. The course also provides an introduction to the major regions and many of the themes that students will be able to specialize in during the course of the MA program. LEC.

GIST 702. Globalization. 3 Hours.
A central issue in international studies is globalization, the increasing interconnectedness of societies and economies. This course examines globalization from an historical and contemporary perspective. Major topics include (but are not necessarily limited to) the historical expansion of the West since 1500, the growth of international economic institutions, conflict among global cultures, the future of state sovereignty, and the challenges of economic integration. LEC.

GIST 703. The World Economy. 3 Hours.
An introduction to international trade and finance, theories of economic development, and international economic structures. Not appropriate for economics majors. LEC.

GIST 704. Global Cultures and Societies. 3 Hours.
Examination of the components of culture, economic and political anthropology, major global cultural areas, and the impact of cultural differences as expressed through language, literature, religion, thought, and motivation in cross-cultural communications. LEC.

GIST 705. Globalization in History. 3 Hours.
A study of the increasing interaction among world societies since 1500 and an investigation of the long-term developments behind current world problems. Major topics include Western expansion since 1500, the spread of state sovereignty, the formation of a world economy, and the spread of international institutions. Current issues will vary, but may include environmental crises, human rights, migration, free trade and the spread of consumer culture, ethnicity and nationalism, and international intervention within states. (Same as HIST 705.) LEC.

GIST 706. Comparative Governments. 3 Hours.
Survey of different governmental structures in the contemporary world and the ways these countries have confronted issues such as modernization and development, economic security, ethnic pluralism and conflict, and globalization. LEC.

GIST 710. Interdisciplinary Research Methods for Global Contexts. 3 Hours.
This course addresses the challenges for students engaged in research in an interdisciplinary and international context. The course will take issues for research and place them within the structure of a research design process, including formulation of a general question, the appropriation of theory, the grounding of a literature review, and the positing of a testable research question and/or hypothesis. Students will also be exposed to research methodologies and how these manifest themselves through the logic of the disciplines—such as anthropology, sociology, geography, political science, history and literature. With a final thesis project design in mind, students will be expected to be expected to be able to utilize the research tools of accessing secondary analytical data, archival research, SPSS, ArcView and methods such as survey construction, implementation, and analysis, interviews, content analysis, discourse analysis, case study, and GIS. Prerequisite: GIST 701 or consent of instructor. LEC.

GIST 750. Topics in International Studies: _____ 3 Hours.
A study of one or more selected topics in international studies. Course may be taken more than once. LEC.

GIST 793. Directed Readings. 1-5 Hours.
Individual and supervised readings in a selected area of international studies. Course is repeatable with permission of the program director. LEC.

GIST 888. Contemporary China Studies. 3 Hours.
This course will review and analyze the current literature on China’s social and political development, including a wide range of topics within political science. There is a rich body of literature within each topic such as civil society in China, legal reform, political culture, nationalism, gender issues, ethnicity, political behavior, elections, economic development, and inequality. This course will introduce key literature within each topic focusing on the debates among China scholars as well as how these debates fit in the general field of political science. (Same as EALC 888 and POLS 888.) Prerequisite: POLS 688 or permission of the instructor. LEC.

GIST 897. Examination Preparation. 1 Hour.
Independent study in preparation for the Comprehensive M.A. examination. Graded on satisfactory/unsatisfactory basis. May be repeated. LEC.

GIST 898. Thesis Writing. 3 Hours.
This course guides MA students through the crafting of their academic or professional thesis. The students begin the course with a literature review and data/research completed, and they will be directed through in-class workshops and deadlines with the intention to produce a full draft of their thesis. Students may choose to draft a thesis that fits either academic conventions for a similar body of research, or they may develop a body of research whose target would be a business or professional audience. Course is designed to assist students in the development of theses with varying methodologies, methods, and audiences on global and international topics. Prerequisite: GIST 710. THE.

GIST 899. Thesis. 1-6 Hours.
Enrollment for writing thesis for master’s degree. THE.

HEBR 110. Elementary Israeli Hebrew I. 5 Hours. U.
A beginning course in modern Israeli Hebrew. Essentials of grammar, syntax and conversational practice; elementary reading and writing. Note: Students with other previous experience in Hebrew must take a placement exam. LEC.

HEBR 120. Elementary Israeli Hebrew II. 5 Hours. U.
A continuation of HEBR 110. Note Students with other previous experience in Hebrew must take a placement exam. Prerequisite: HEBR 110. LEC.

HEBR 177. First Year Seminar: _____ 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Hebrew. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics
HINDI 110. Beginning Hindi I. 5 Hours.
An introduction to modern standard Hindi that emphasizes acquisition of basic language skills (speaking, comprehension, reading and writing) through a combination of lecture, drill, and work with the Devanagari script. LEC.

HINDI 120. Beginning Hindi II. 5 Hours.
A continuation of Beginning Hindi I that builds on basic skills of speaking and comprehension, and the writing and reading of the Devanagari script developed in Beginning Hindi I. Prerequisite: HNDI 110 or placement exam that establishes a level of proficiency in Hindi suited to Beginning Hindi II. LEC.

HINDI 210. Intermediate Hindi I. 3 Hours.
Enhancement of speaking, comprehension, reading and writing abilities in modern standard Hindi, with emphasis on grammar. Readings will be introduced from representative genres of Hindi literature. Prerequisite: HINDI 120 or placement exam that establishes a level of proficiency in Hindi suited to Intermediate Hindi I. LEC.

HINDI 220. Intermediate Hindi II. 3 Hours.
Enhancement of speaking, comprehension, reading and writing abilities in modern standard Hindi, with emphasis on grammar. Readings will be introduced from representative genres of Hindi literature. Prerequisite: HINDI 210 or placement exam that establishes a level of proficiency in Hindi suited to Intermediate Hindi II. LEC.

HINDI 301. Topics in Hindi Culture, Language and Literature: ____. 3 Hours.
Investigation of special topics on Hindi culture, language and literature at the undergraduate level. May be repeated for credit if topic varies. LEC.

HINDI 310. Advanced Hindi I. 3 Hours.
Enhancement of speaking, comprehension, reading and writing abilities in Hindi. Readings are introduced from representative genres of Hindi literature. Prerequisite: HINDI 220 or placement exam that establishes a level of proficiency in Hindi suited to Advanced Hindi I. LEC.

HINDI 320. Advanced Hindi II. 3 Hours.
Enhancement of speaking, comprehension, reading and writing abilities in Hindi. Readings are introduced from representative genres of Hindi literature. Prerequisite: HINDI 310 or placement exam that establishes a level of proficiency in Hindi suited to Advanced Hindi II. LEC.

JWSH 107. Living Religions of the West. 3 Hours. HR / H.
A basic introduction to the major religious traditions of the Near East, Europe, and the Americas, with an emphasis on their development through the modern period and their expressions in contemporary life. Not open to students who have taken REL 109. (Same as REL 107.) LEC.

JWSH 124. Understanding the Bible. 3 Hours. HR / H.
An introduction to the literature of the Bible, exploring the relationships among the various types of literature present and the function of each type in the history and religious life of the people who produced and used them. Cannot be taken concurrently with REL 311 or JWSH 321 or REL 315. Not open to students who have taken REL 125 or JWSH 125. (Same as REL 124.) LEC.

JWSH 125. Understanding the Bible, Honors. 3 Hours. HR / H.
An introduction to the literature of the Bible, exploring the relationships among the various types of literature present and the function of each type in history and religious life of the people who produced and used them. Open only to students in the University Honors Program or by permission of instructor. Not open to students who have taken REL 124 or JWSH 124. (Same as REL 125.) LEC.

JWSH 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Jewish Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.
JWSH 300. Topics in Jewish Studies: ___. 3 Hours. H.
Examination of special topics in Jewish Studies. May be repeated if topic varies. LEC.

JWSH 311. Narratives of Jewish Life. 3 Hours. HL AE42 / H.
The course focuses on the narratives through which Jews made sense of their lives under the impact of the forces of modernity, beginning in the "old world," and moving through the 19th century and into the 20th. The goal is to analyze how the imagination of Jewish writers was captured by the changes in social structures such as new educational, residential and occupational opportunities, leading to increased interactions with the gentile society. Students read and discuss literary works based in the shell in revolutionary Russia, and in America. We will also look at memoirs and letters written by ordinary Jews. All assigned texts will be in English. LEC.

JWSH 315. The Spanish Inquisition. 3 Hours. H.
A broad historical study of the Spanish Inquisition from 1478 to its afterlife in modern culture, including its use in political debates and its depiction in popular culture. Topics include anti-Semitism, the nature of the inquisitorial investigation, the use of torture, censorship and the relationship between the Inquisition, the Spanish monarchy and other religious and lay authorities. Taught in English. Will not count toward the Spanish major. (Same as HIST 325 and SPAN 302.) LEC.

JWSH 318. Jews and Slavs in Eastern Europe. 3 Hours. H.
Jews and Slavs have shared territory from the Middle Ages to the present day. The contact between these culturally and linguistically distinct groups has shaped many centuries of Eastern European history - from the extreme violence of the pogroms to long periods of peaceful coexistence and cooperation. "Jews and Slavs" examines the history and cultural geography of Slavic-Jewish contact from the perspectives of both groups. Through literature, film, journalism, and folklore, students learn about the profound influence Jews and Slavs have had on each other, the uneasy feelings that accompanied their interactions, and the creative and fascinating impact their interaction had on both cultures. (Same as SLAV 318.) LEC.

JWSH 321. Religion of Ancient Israel. 3 Hours. H.
A study of the development of the Hebrew Bible from its earliest stages of oral tradition to its canonization with an emphasis on the relationship of the historical, intellectual, and cultural contexts shaping that development. (Same as REL 311.) Prerequisite: REL 124 or JWSH 124 or permission of instructor. LEC.

JWSH 325. Introduction to Judaism. 3 Hours. H.
Analyzes a selection of the core texts, teachings, and practices of Jewish religious traditions in terms of classical and contemporary understanding. (Same as REL 325.) LEC.

JWSH 327. Jewish Secular Culture. 3 Hours. HL AE42 / H.
By examining the modern concept of Yiddishkeit (Jewishness), this course explores Jewish secularism as a set of modern intellectual, literary, and cultural practices that redefined the relationship between the secular and religious in literature, music, theatre, art, humor, and foodways. This interdisciplinary course draws on theoretical approaches from history, cultural studies, religious studies, folklore, and linguistics to examine the different secularizing cultural practices of the Jews in Central and Eastern Europe, as well as in North America. LEC.

JWSH 336. Jewish American Literature and Culture. 3 Hours. H.
An examination of Jewish American literature and culture from the 17th century to the present. Materials may include a broad range of literary genres as well as folklore, music, film, and visual art. (Same as ENGL 336.) Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

JWSH 338. Languages of the Jews. 3 Hours. H.
From the beginning, Jewish history and culture is closely tied to language, from Hebrew and Aramaic to the languages of diaspora such as Yiddish and Ladino. Focusing on issues of language in society, this course will survey the languages spoken by the Jews throughout their long history in diverse communities around the world. We will learn about Hebrew as a spoken and a sacred language, examine how Jewish languages are born and die, and discuss the resurrection of Modern Hebrew in the state of Israel. All readings are in English. No prior knowledge of languages or linguistics is required. (Same as LING 338.) LEC.

JWSH 339. Languages of the Jews, Honors. 3 Hours. H.
Honors version of JWSH 338 or LING 338. Languages of the Jews. Prerequisite: Membership in the University Honors Program or consent of instructor. (Same as LING 339.) LEC.

JWSH 340. Topics in Modern Jewish Literature: ___. 3 Hours. H.
This course treats Jewish literature in English or English translation in the 20th and 21st centuries either as a broad survey or according to specific themes. May be repeated for credit. LEC.

JWSH 343. The Holocaust in History. 3 Hours. H.
The systematic murder of the Jews of Europe by the Nazis during World War II is one of the most important events of modern history. This course studies the Holocaust by asking about its place in history. It compares other attempted genocides with the Holocaust and examines why most historians argue that it is unique. Other topics covered include the reasons the Holocaust occurred in Europe when it did, the changing role of anti-Semitism, and the effects of the Holocaust on civilization. The course also discusses why some people have sought to deny the Holocaust. The course concludes by discussing the questions people have raised about the Holocaust and such issues as support for democracy, the belief in progress, the role of science, and the search for human values which are common to all societies. (Same as HIST 343.) LEC.

JWSH 350. Contemporary Jewish Identities. 3 Hours. SC / H.
This course explores the variety of ways in which American Jews create Jewish identities as individuals and groups. It traces the emergence of the various current divisions within Judaism: Reform Judaism (which by definition, implies Orthodoxy), then Conservative Judaism, and then the later development of Reconstructionist Judaism. The course also explores other contemporary options for being Jewish: cultural Jews, secular Jews, unaffiliated Jews, religious Jews, and gay or lesbian or transgendered Jews. LEC.

JWSH 361. Jewish Film. 3 Hours. H.
An examination of the cultural history of the Jews through films that explore Jewish themes, including but not limited to: issues of tradition and modernity, religion and secularism, immigration, gender, Zionism, anti-Semitism, and the Holocaust. Films studied may be in English and in foreign languages (with English subtitles) like Yiddish, Hebrew, and Russian. LEC.

JWSH 395. Study Abroad Topics in Jewish Studies: ___. 3-6 Hours. H.
This course is designed for the study of special topics in Jewish Studies at the junior/senior level. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

JWSH 490. Directed Study in Jewish Studies. 3 Hours. AE61 / H.
Intensive reading or research under faculty supervision. Prerequisite: Consent of instructor. IND.
JWSH 491. Directed Study in Jewish Studies, Honors. 3 Hours. AE61 / H.
Honors version of JWSH 490. Intensive reading or research under faculty supervision. Prerequisite: Membership in the University Honors Program or consent of instructor. IND.

JWSH 523. The Dead Sea Scrolls. 3 Hours. H.
A study of the archeological evidence and texts from the Dead Sea area that provide primary evidence for Jewish religious belief and practice in the Greek and Roman periods (ca. 250 B.C.E. - 135 C.E.). (Same as REL 523.) Prerequisite: REL 124 or JWSH 124 or consent of instructor. LEC.

JWSH 525. Jews and Christians. 3 Hours. H.
This course examines the ways Jews and Christians have interacted with and characterized one another at various points in their histories. Special emphasis is placed on the gradual separation of the two religious traditions in the 1st-4th centuries. (Same as REL 525.) Prerequisite: A previous course in Religious Studies or Jewish Studies; or consent of instructor. LEC.

JWSH 526. Jewish History and Literature in the Greek and Roman Periods. 3 Hours. H.
The history and literature of the Jewish people from the hellenistic period (late fourth century B.C.E. to the codification of the Mishnah 210 C.E.). Select texts from the Hebrew Bible, the so-called apocrypha and pseudepigrapha, the Qumran scrolls, Philo, Josephus, related early Christian texts, and Rabbinic texts will be studied. (Same as REL 526.) Prerequisite: REL 124 or JWSH 124 or permission of instructor. LEC.

JWSH 560. Classical and Contemporary Jewish Thought. 3 Hours. H.
An introduction to individual Jewish thinkers and collective projects from Philo to the present, including The Talmud and Midrash, Middle Age and Early Modern Jewish philosophical and Talmudic rationalism and mysticism. Considers such thinkers as Spinoza, Cohen, Soloveitchik, Rosenzweig, and Levinas. (Same as REL 560.) Prerequisite: A previous course in Religious Studies or Jewish Studies; or consent of instructor. LEC.

JWSH 570. Studies in Judaism. 3 Hours. H.
A study of the major intellectual sources of the Jewish tradition from the Mishna, Talmud, Midrash, prayerbook, philosophers, the Zohar, and the Shulchan Aruch. (Same as REL 570.) Prerequisite: A course in Religious Studies or Jewish Studies numbered 300 or above. LEC.

JWSH 572. Jewish Folklore. 3 Hours. H.
Jewish folklore is extraordinarily rich and varied. From folktales to riddles, from legends about the exalted rabbis to irreverent jokes, folklore is central to the Jewish way of life. This course traces the extent to which oral elements appear in traditional Jewish literary texts such as the Bible: read and discuss folktales, and examine minor genres such as proverbs, riddles and jokes. Topics include the supernatural beings of Jewish folklore dybbuks, seductive female demons, and golems. Students acquire theoretical tools with which to analyze folklore (Jewish or otherwise), read stories, watch movies, and collect samples of folklore from informants. Open only to students in the University Honors Program or by permission of instructor. LEC.

JWSH 600. Advanced Topics in Jewish Studies: ____. 3 Hours. H.
Examination of advanced topics in Jewish Studies. May be repeated if topic varies. Prerequisite: Consent of instructor. LEC.

JWSH 650. Service Learning in Jewish Studies. 3 Hours. S.
This course, to be taken in the junior or senior year, is designed to give students the opportunity to apply the knowledge, concepts, and ideas gained in courses in Jewish studies to real-life situations in appropriate agencies and organizations. Open to students in the Jewish Studies program. Prerequisite: Permission of instructor. FLD.

Bachelor of Arts in Global and International Studies

Why study global and international studies?
Because global and international studies will give you the tools to understand the rapid and profound changes that are occurring around the world.

First- and Second-Year Preparation
To complete the requirements for the degree in 4 years, prospective majors are strongly urged to complete all general education and language requirements no later than the end of the fall semester of the junior year and the general requirements for the major from the options listed below. For more information, contact the Center for Global and International Studies advising specialist in 318 Blake Hall.

Admission to the Major
Admission Requirements
Students are admitted to the major by application. Applications are available in 318 Blake Hall.

Course Requirements
1. Fourth-semester proficiency language course (or demonstrated proficiency).
2. GIST 301 - Introduction to Global and International Studies.
3. One course from the following list:
   - ABSC 150 Community Leadership 3
   - ANTH 108 Introduction to Cultural Anthropology 3-4
   - ANTH 109 Introduction to Cultural Anthropology, Honors
   - ANTH 308 Introduction to Cultural Anthropology 3-4
   - ANTH 160 The Varieties of Human Experience 3
   - ANTH 360 The Varieties of Human Experience 3
   - ECON 104 Introductory Economics 4
   - ECON 105 Introductory Economics, Honors
   - ECON 144 Principles of Macroeconomics 3
   - ECON 145 Principles of Macroeconomics, Honors
   - GEOG 102 Principles of Human Geography 3
   - GEOG 103 Principles of Human Geography, Honors
   - GIST 250 Introduction to Globalization 3
   - HIST 308 Key Themes in Modern Global History 3
Grade-Point Average Requirements

A minimum grade-point average of 2.70 is required.

Grade-Point Average Calculation. The admission grade-point average calculation includes all designated admission courses. It may not include all KU course work. KU’s course repeat policy applies to the grade-point average calculation. If a student has taken more than the minimum number of course options in the application term, grades received in any designated admission course requirement up to and including that term may be computed in the grade-point average for admission consideration. Only course grades from repeated lower-level courses, meeting the standards of the KU course repeat policy (https://documents.ku.edu/policies/governance/USRR.htm#art2sect2), are omitted from the grade-point average calculation.

Application Process

1. Complete the application form and attach a current ARTS form.
2. Submit the completed application to the Center for Global and International Studies (http://global.ku.edu), 318 Blake Hall, by the deadline. Students are strongly urged to complete all admission requirements and apply to the major by the beginning of the junior year.

Application Term

Declaration of the Global and International Studies Major should occur in the term in which designated admission requirements will be initially completed; normally no later than 60 hours, or for transfer students, normally during the initial term at KU. Application to this major after completion of 60 hours, or the initial term for transfer students, will likely delay graduation.

Requirements for the B.A. Major

Global & International Studies Core Knowledge and Skills. (One course from the following list, plus GIST 301. These courses must be completed prior to the declaration of the major.)

Select one course from the following list:

Asia (9)
Satisfied by completing one of the following courses and two additional approved courses about Asia.

- **EALC 331** Studies In: ______
- **EALC 380** Popular Cultures of East Asia
- **EALC 656** Government and Politics of East Asia

**Latin America & the Caribbean (9)**

Satisfied by completing the following course and two additional approved courses about Latin America and the Caribbean.

- **LAA 300** Interdisciplinary Themes in Latin American Studies

**Western Europe (9)**

Satisfied by completing one of the following courses and two additional approved courses about Western Europe.

- **EURS 302** European Culture and Society 1945 to Present
- **EURS 503** Europe Today
- **EURS 604** The European Union

**Russia, Eastern Europe, & Central Asia (9)**

Satisfied by completing one of the following courses and two additional approved courses about Russia, Eastern Europe and Central Asia.

- **REES 492** Research Methods in Russian, East European, and Eurasian Studies
- **REES 220** Societies and Cultures of Eurasia
- **REES 110** Understanding Russia and Eastern Europe

**Global & International Studies Substantive Specialization.** Students must take 3 courses in one of the specialization fields. The content of these courses must be global, trans-regional or relating to countries and regions outside of the student’s regional specialization. Of these 9 hours, a minimum of 6 must be at the 300 level of above.

**Comparative Political & Social Systems (9)**

Satisfied by completing 3 approved courses in comparative political and social systems.

**International Business and the Global Economy (9)**

Satisfied by completing 3 approved courses about the global economy.

**Culture, Ethnicity, and Belief (9)**

Satisfied by completing 3 approved courses about culture, ethnicity, and belief systems.

**Literature, Popular Culture, and the Arts in the Global Context (9)**

Satisfied by completing 3 approved courses about literature, popular culture, and/or the arts in the global context.

**Gender & Sexuality in the Global Context (9)**

Satisfied by completing 3 approved courses about gender and sexuality in the global context.

**The Global Environment (9)**

Satisfied by completing 3 approved courses about the global environment.

**NOTE:** Students may not use the same class to fulfill both a regional expertise and a substantive specialization requirement. Not all courses which satisfy the regional expertise and substantive specialization requirements will be offered every year. Students may petition to have a course not on the list count toward the regional expertise or substantive specialization requirements. Petition forms can be downloaded from the website (http://global.ku.edu/academics/major.shtml) and should be submitted to the undergraduate advisor.

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 33 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**

Satisfied by a minimum of 21 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Graduation Plan**

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the department for details.

**Departmental Honors**

Departmental Honors. To graduate with honors in global and international studies, students must complete all requirements for the major plus GIST 699, Honors Capstone with a 3.5 grade-point average in the major and a 3.25 cumulative grade-point average. The honors seminar allows students to receive individualized assistance from a faculty member while they write their thesis.

To enroll in the program, students must have a 3.5 grade-point average in the courses making up the global and international studies major and a 3.25 cumulative grade-point average. Students must obtain approval of their research topic by a faculty member affiliated with the Center for Global and International Studies who will serve as their thesis director. Each student who completes an honor’s thesis must defend it in an oral examination before a thesis committee of three faculty members. The student’s thesis director chairs and chooses the committee in consultation with the student and the center director.
Co-Major in European Studies

Why study global and international studies?

Because global and international studies will give you the tools to understand the rapid and profound changes that are occurring around the world.

Why study European studies?

European Studies, through interdisciplinary study, broadens, deepens, and strengthens a student’s knowledge and understanding of the enduring importance of our transatlantic partners, the Europeans.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

First- and Second-Year Preparation

To complete the requirements for the degree in 4 years, prospective co-majors are encouraged to complete all general education and language requirements no later than fall semester of the junior year. Students should begin study of a western European language other than English or Russian as early as possible. For more information, contact the European Studies undergraduate advisor, Laura Leonard, 785-864-3500, laleonar@ku.edu.

During their first and second years, students are strongly encouraged to enroll in HIST 115 French Revolution to the Present: Europe 1789-Present (3) plus 1 additional course from the list below:

- ECON 104 Introductory Economics 4
- ECON 144 Principles of Macroeconomics 3
- GEOG 100 World Regional Geography 3
- GEOG 102 Principles of Human Geography 3
- POLS 150 Introduction to Comparative Politics 3
- or POLS 151 Introduction to Comparative Politics Honors 3
- or POLS 170 Introduction to International Politics 3
- or POLS 171 Introduction to International Politics Honors 3
- HA 100 Introduction to Western Art History 3
- PHIL 180 Introduction to Social and Political Philosophy 3

Note: Enrollment in the above courses counts toward College principal course distribution requirements in the humanities and social sciences.

Note: European Studies co-majors are strongly encouraged to study abroad and should discuss this opportunity with the undergraduate advisor early in their undergraduate career.

Admission to the Co-Major

Admission Requirements

1. Second-semester sophomore or junior standing.
2. Declared major in a department or admission to a professional school.

Requirements for the Co-Major

European Studies Prerequisites or Co-requisites

Students selecting this co-major must complete the following:

French Revolution to the Present: Europe 1789–Present. Satisfied by:

- HIST 115 French Revolution to the Present: Europe 1789–Present 3

Interdisciplinary Perspective. Satisfied by 1 course from the following: 3-4

- ECON 104 Introductory Economics
- ECON 144 Principles of Macroeconomics
- or ECON 145 Principles of Macroeconomics, Honors
- GEOG 100 World Regional Geography
- GEOG 102 Principles of Human Geography
- POLS 150 Introduction to Comparative Politics
- or POLS 151 Introduction to Comparative Politics Honors
- POLS 170 Introduction to International Politics
- or POLS 171 Introduction to International Politics Honors
- HA 100 Introduction to Western Art History
- PHIL 180 Introduction to Social and Political Philosophy

Note: Enrollment in the above courses counts toward College principal course distribution requirements in the humanities and social sciences.

Note: Students should begin study of a western European language other than English or Russian as early as possible. European Studies co-majors are strongly encouraged to study abroad and should discuss this opportunity with the undergraduate advisor early in their undergraduate career.

Students selecting this co-major must complete the following:
Second Language Skills (3)

Students must complete one semester beyond the College general education second language requirement (which is the completion of a fourth-semester course) in a modern western European language (Danish, Dutch, French, German, Hungarian, Italian, Portuguese, Polish, Spanish, or Swedish).

Foundational Course: Seminar in European Studies (3)

### Co-Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Co-Major Hours**
Satisfied by 24 hours of co-major courses.

**Major Hours in Residence**
Satisfied by a minimum of 24 hours of KU resident credit in the co-major.

**Major Junior/Senior Hours**
Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the co-major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

No more than 12 hours may be shared between a 27-hour European studies co-major and another major.

### Departmental Honors

Honors in European Studies is open to co-majors who have earned, both at the time of entry into the program and at graduation, overall grade-point averages of 3.25 or higher and of 3.5 or higher in European Studies. A student must complete all co-major requirements, including EURS 502 Senior Honors Thesis in European Studies, with a grade of A.

The senior honors thesis affords exceptional students the opportunity to work closely with an individual faculty member on a specific research project over an extended period of time, usually two semesters.

EURS 502 Senior Honors Thesis may be combined with EURS 501 Senior Thesis in European Studies, substantially increasing the length and scope of the final thesis, or the senior honors thesis may be a separate extension of the senior thesis.

A student in EURS 502 must defend the thesis in a 1-hour oral examination with faculty. The examination committee is composed of 3 faculty members, 1 of whom must be the thesis director. The student selects the committee members in consultation with the thesis director. Students should consult a program advisor early in the junior year.

The European Studies program strongly encourages students to enroll in one of KU's many study abroad programs in Europe.

European Studies participates in the Humanities and Western Civilization semester abroad program in Paris and Florence.

Summer language institutes offering upper-division courses in language or literature study may also qualify for European Studies co-major or minor credit. Contact a program advisor in the Office of Study Abroad (http://www.studyabroad.ku.edu), 108 Lippincott Hall, 785-864-3742.

### Minor in European Studies

#### Why study global and international studies?

Because global and international studies will give you the tools to understand the rapid and profound changes that are occurring around the world.

#### Why study European studies?

European Studies, through interdisciplinary study, broadens, deepens, and strengthens a student's knowledge and understanding of the enduring importance of our transatlantic partners, the Europeans.

### Requirements for the Minor

Students selecting this minor must complete the following:
Global and International Studies Minor

Why study global and international studies?

Because global and international studies will give you the tools to understand the rapid and profound changes that are occurring around the world.

Why study European studies?

European Studies, through interdisciplinary study, broadens, deepens, and strengthens a student's knowledge and understanding of the enduring importance of our transatlantic partners, the Europeans.

Requirements for the Minor

Students selecting this minor must complete the following:

GIST Minor Core Requirements

Global & International Studies Core Knowledge and Skills. Satisfied by completion of GIST 301, and one course from the following list:

- GIST 301 Introduction to Global and International Studies 3
- and one of the following:
  - ABSC 150 Community Leadership 3
  - ANTH 108 Introduction to Cultural Anthropology 3-4
  - or ANTH 109 Introduction to Cultural Anthropology, Honors
  - or ANTH 308 Introduction to Cultural Anthropology
  - ANTH 160 The Varieties of Human Experience
  - or ANTH 360 The Varieties of Human Experience

- ECON 104 Introductory Economics 4
- or ECON 105 Introductory Economics, Honors
- or ECON 144 Principles of Macroeconomics 3
- or ECON 145 Principles of Macroeconomics, Honors
- GIST 301 Introduction to Global and International Studies 3
- GEOG 102 Principles of Human Geography 3
- or GEOG 103 Principles of Human Geography, Honors
- GIST 250 Introduction to Globalization 3
- HIST 308 Key Themes in Modern Global History 3
- or POLS 150 Introduction to Comparative Politics 3
- or POLS 151 Introduction to Comparative Politics Honors
- POLS 170 Introduction to International Politics 3
- or POLS 171 Introduction to International Politics Honors
- REL 106 Living Religions of the East 3
- or REL 107 Living Religions of the West
- SOC 130 Comparative Societies 3
- or SOC 131 Comparative Societies, Honors

GIST Regional Expertise. Global & International Studies Regional Expertise Requirement (6 hours/2 courses). Students must take 2 courses on one of the following regions of the world: Africa; the Middle East; Asia; Latin America and the Caribbean; Western Europe; and Russia, Eastern Europe and Central Asia. Of these 6 hours, a minimum of 3 must be at the 300 level or above and at least 3 of these must be taken from a regional overview course listed with the respective regions below. Additional courses may be appropriate to fulfill the Regional Expertise and the Substantive Specialization requirement if approved by the Center for Global and International Studies.

- Africa (6 Required). Satisfied by completing either AAAS 542, AAAS 305 or AAAS 300 and 1 additional approved course about Africa.
- The Middle East (6 Required). Satisfied by completing either HIST 328 or POLS 661 and 1 additional approved course about the Middle East.
- Asia (6 Required). Satisfied by completing either EALC 331, EALC 380 or EALC 656 and 1 additional approved course about Asia.
- Latin America & the Caribbean (6 Required). Satisfied by completing LAA 300 and 1 additional approved course about Latin America and the Caribbean.
- Western Europe (6 Required). Satisfied by completing either EURS 302, EURS 503, or EURS 604 and 1 additional approved course about Western Europe.
Russia, Eastern Europe, & Central Asia (6 Required). Satisfied by completing either REES 492, REES 220, or REES 110 and 1 additional approved course about Russia, Eastern Europe and Central Asia.

GIST Substantive Specialization
Global & International Studies Substantive Specialization Requirement (6 hours/2 courses). Students must take 2 courses in one of the specialization fields. The content of these courses must be global, trans-regional or relating to countries and regions outside of the student’s regional specialization.

- Comparative Political & Social Systems. Satisfied by 2 approved courses in comparative political and social systems.
- International Business and the Global Economy. Satisfied by 2 approved courses about the global economy.
- Literature, Popular Culture, and the Arts in the Global Context. Satisfied by 2 approved courses about literature, m popular culture, and/or the arts in the global context.
- Culture, Ethnicity, and Belief. Satisfied by 2 approved courses about culture, ethnicity, and belief systems.
- Gender & Sexuality in the Global Context. Satisfied by 2 approved courses about gender and sexuality in the global context.
- The Global Environment. Satisfied by 2 approved courses about the global environment.

Global & International Studies Minor Foreign Language
Global & International Studies Foreign Language Course. Satisfied by completing one additional foreign language course (3 hours) beyond the 4th semester proficiency language requirement (300 level or above); or any available additional language course (3-5 hours).

Minor Hours & Minor GPA
While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

- Minor Hours
  Satisfied by 18 hours of minor courses.

- Minor Hours in Residence
  Satisfied by a minimum of 9 hours of KU resident credit in the minor.

- Minor Junior/Senior Hours
  Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

- Minor Graduation GPA
  Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Minor in Jewish Studies
We offer an undergraduate minor and courses in Jewish Studies, Hebrew, and Yiddish, as well as co-sponsor courses in a variety of other units.

Among the oldest of academic interdisciplinary studies, dating back to the 19th century, Jewish studies explores Judaism, the Jewish people and culture, and their role in the shaping of human experience. The subject matter of Jewish studies makes it relevant to every department and program in the humanities and social sciences. The breadth of Jewish studies is extensive, with a strong foundation in biblical scholarship and the ancient world combined with more recent study of European, American, Mediterranean and Middle Eastern history. It can involve the study of almost every discipline -- religion, literature, folklore, sociology, anthropology, psychology, political science, philosophy, modern and ancient languages, art, music, film and theatre, law, social welfare, and women’s, cultural, and American studies. Jewish studies can benefit students exploring their own identity or pursuing an interest in Western civilization. Jewish studies prepares students for graduate school; for careers in Jewish agencies, federations, and community centers or for pre-professional training. The Jewish studies minor can be readily integrated with several KU majors and programs, such as American studies, English, history, or religious studies.

Requirements for the Minor

Jewish Studies Minor Course Requirements

Student selecting this minor must complete a course in each of the following areas:

**Jewish Studies (0)**
- Jewish Culture or History. Satisfied by one course, for example one of the following: (12)
  - JWSH 300: Topics in Jewish Studies: Israeli Politics in Society 3
  - JWSH 311 Narratives of Jewish Life 3
  - JWSH 327 Jewish Secular Culture 3
- **Jewish Religion. Satisfied by one course, for example one of the following: (12)**
  - JWSH 300: Topics in Jewish Studies: The Story of the Talmud 3
  - JWSH 321 Religion of Ancient Israel 3
  - JWSH 325 Introduction to Judaism 3

**Electives. Satisfied by: (12)**

- Any other JWSH course or appropriate cross-listed or cross-referenced courses in other units. (see below)
- 6 credit hours in Yiddish (YDSH) and/or in Hebrew (HEBR) at the 200-level or above may count among these 12 credit hours.
- More HEBR or YDSH courses may be approved for the minor upon petition.

**Minor Hours & Minor GPA**
While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

- **Minor Hours**
  Satisfied by 18 hours of minor courses.

- **Minor Hours in Residence**
  Satisfied by a minimum of 9 hours of KU resident credit in the minor.

- **Minor Junior/Senior (300+) Hours**
  Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

- **Minor Graduation GPA**
  Satisfied by a minimum of a 2.0 KU GPA in all courses in the minor. GPA calculations include all courses in the field of study including F’s and
repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

### Master of Arts in Global and International Studies

**Why study global and international studies?**

Because global and international studies will give you the tools to understand the rapid and profound changes that are occurring around the world.
Why study European studies?
European Studies, through interdisciplinary study, broadens, deepens, and strengthens a student’s knowledge and understanding of the enduring importance of our transatlantic partners, the Europeans.

Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission
KU Edwards Campus
Students are admitted for both fall and spring semesters. Applicants must submit the following materials:

1. An application with appropriate application fee,
2. 1 official transcript from each institution of higher education attended for undergraduate and graduate work,
3. A 500- to 1,000-word essay outlining relevant experiences and reasons for pursuing this degree,
4. A current résumé,
5. 3 letters of recommendation sent directly from the references, and
6. Graduate Record Examination scores (Law School Admission Test or Graduate Management Admission Test results are acceptable substitutes).

International students also must submit Test of English as a Foreign Language scores for an examination taken within the past 2 years, unless they hold degrees from English-speaking institutions.

All materials must be received before the application can be evaluated. More information about the application process can be found on the program’s website (http://global.ku.edu). In general, to enter this program, a student must have a bachelor’s degree from an accredited institution with at least a 3.0 grade-point average on a 4.0 scale; admitted students typically have grade-point averages well above 3.0. Materials are reviewed by a subcommittee of the program advisory committee, which also considers the applicant’s overall record and prospects for success.

Submit your graduate application (http://www.graduated.ku.edu) and fee online. Send all other application materials to the following address:

The University of Kansas Edwards Campus
Global and International Studies Applications
Attn: Lesley Owens
12600 Quivera Road
Overland Park, KS 66213

The M.A. Degree Requirements
KU Edwards Campus
The Master of Arts in Global and International Studies is a 33-credit-hour degree. All students complete 3 required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GIST 701</td>
<td>Approaches to International Studies</td>
<td>3</td>
</tr>
<tr>
<td>GIST 702</td>
<td>Globalization</td>
<td>3</td>
</tr>
<tr>
<td>GIST 710</td>
<td>Interdisciplinary Research Methods for Global</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Contexts</td>
<td></td>
</tr>
</tbody>
</table>

The first two courses (GIST 701, GIST 702) should be taken early in the program while GIST 710 should be taken in the 2nd year or later. In addition to the three required courses, students must then complete 7 graduate-level elective courses (21 credit hours).

These electives form 2 coherent clusters: One cluster must be around a world region, such as the Middle East, Africa, Asia, Latin America, Russia and Eurasia, or Western Europe. The other cluster must focus to be offered will be “Middle East and North Africa.”

The new concentration, called the Foreign Affairs Studies (FAS) concentration, will allow a student to focus on a specific world area while earning the Global and International Studies MA. The first world area focus to be offered will be “Middle East and North Africa.”

The FAS concentration is designed to meet the needs of Army Foreign Affairs Officers (FAOs), but it is also expected to attract civilian students with comparable language training and in-country experience. It will allow such well-prepared students to deepen and diversify their area expertise and, because it will be an intensive program that will run fall-spring-summer, it will allow FAOs to complete the MA within the 12-month constraint set by the Army’s FAO program.

</tr>
<tr>
<td>Electives (9)</td>
<td>3 regionally-relevant courses</td>
<td>9</td>
</tr>
<tr>
<td>Total Hours</td>
<td>30</td>
<td></td>
</tr>
</tbody>
</table>
Thesis Option
Students electing to write a thesis must have their thesis project proposal approved by their thesis advisor and either the Center Director or the Center’s Graduate Coordinator. Following project approval, the student must also enroll in the thesis writing course (GIST 898) and complete a significant original research project approved by a faculty committee.

Nonthesis Option
Students pursuing the nonthesis option are still required to take GIST 710 and must complete an additional 3 credit hours that correspond to one of their two coherent clusters. In the final semester, the student must successfully complete a written examination over the core course content and the student’s regional and topic concentrations as well as an oral examination.

Regional Specializations
These courses give students substantial knowledge about a selected region of the world. Up to 3 language courses (9 hours) at or above the 500 level may count toward this requirement. Regional specializations usually correspond to one of the regions below, which are regularly covered by KU’s area studies programs:

- Africa
- East Asia
- Latin America
- Middle East and North America
- Eastern Europe, Russia and Eurasia
- Western Europe

A student may petition to focus on a region that does not correspond to these regional boundaries, like South Asia, for instance. The petition is granted only if the program committee and director are assured that the student has a qualified academic advisor with expert knowledge of that area and relevant course options are available.

Topic Specialization
Topic specialization courses allow the student to develop an understanding of a particular issue of interest that reaches across national and regional borders. Topics might include gender and development, international conflict, intercultural communication, international politics, globalization, international business, global urbanization, peace studies, or another topic approved by the director. The courses below are examples of electives that might be used in some of these areas; each student works with an advisor to identify appropriate courses.

International Culture and Communications focuses on issues of culture, ethnicity, diversity, and cross-cultural communications and examines how various cultures around the world deal with outside influences and define themselves as distinctive societies. Sample courses:

<table>

Department of History

Studying history at the University of Kansas will expand your mind. Our course offerings introduce students to medieval witches and Samurai warriors, conspiracy cranks and Native American prophets, Chairman Mao and the Black Panthers. Students can take courses on the history of sexuality, or, if that isn’t exciting enough, courses on natural disasters, wars, and plagues. With 35 tenured and tenure-track faculty, the Department of History covers the globe.

But studying history is more than just an entertaining adventure. Training in historical research, analysis, and writing develops skills that are essential in our information economy, and this preparation is especially useful to students planning to pursue graduate training and careers in law, public policy, journalism, education, and a universe of other possibilities, as our recent undergraduate and graduate alumni throughout the world can attest.

The Department of History at KU offers an outstanding undergraduate program with approximately 250 majors and an additional group of History minors. These students are taught by faculty who consistently win awards for their teaching as well as their research. Beyond the introductory level, class sizes are small, including two required seminars that are capped at fifteen students each, and the optional Senior Honors Thesis, which features direct one-on-one advising with a faculty mentor.

Our graduate program has consistently ranked in the top 25 among public research universities. With an average of 80 graduate students enrolled, we are primarily a doctoral program, granting Ph.D. degrees in standard geographical areas such as the United States, Europe, Asia, Africa, the Middle East, and Latin America, as well as in thematic fields such as...
military, environmental, and gender and sexuality. Recent Ph.D. recipients have gone on to tenure-track positions at research universities, liberal arts colleges, junior colleges, and a variety of non-academic careers.

Finally, faculty in the Department of History are nationally and even internationally known for their research. The books and articles they have published just in the last two years are too numerous to list here, but you can scroll through the faculty page to gain a sense of their significance shaping our knowledge about the world. Their productivity plays an important role in helping KU maintain its position in the prestigious American Association of Universities.

Take some time to search through our website. You’ll find information about our programs, our courses, and our prolific faculty, and you can hear the voices of undergraduates and graduate students who have passed through the Department. Please feel free to contact any of the administrative staff, faculty, and faculty officers with your questions.

Undergraduate Programs

The History Department at the University of Kansas is particularly distinguished in undergraduate teaching. Previous honors include the Excellence in Undergraduate Advising Award from the College of Liberal Arts and Sciences.

In addition, many History faculty members have won individual awards for their teaching, such as the Kemper Prize and Distinguished Professor awards. The department as a whole ranks well above the University average in student evaluations.

- Faculty (http://www.history.ku.edu/%7Ehistory/faculty) in the department are often nationally and internationally recognized leaders in their field, and they bring this advanced knowledge to bear on their teaching.
- Courses (http://www.catalogs.ku.edu/undergraduate/majors/History.pdf) in the department are usually small, and the larger courses always include Teaching Assistants, so students can receive individual attention and feedback on their work.
- Flexibility is a given in the department: students have only two required courses—a course on historical methods and a senior research seminar—and a choice of concentrating on any of ten fields, as well as the opportunity to design their own major. The department and faculty also have links to interdisciplinary work in Environmental Studies, African and African-American Studies, Indigenous Nations Studies, and other area studies programs.
- Resources for history research at KU are rich. Watson and Anschutz libraries help make up a major research library collection, and the Spencer Library offers such resources as the Wilcox Collection on extremist politics, the University Archives, and major collections in British history, among others.
- For more information, see the History Major Program Description (http://www.history.ku.edu/under/pdfs/UG%20Major%20Hand %20Out.pdf).

Courses for Nonmajors

The department offers courses that span time (from ancient to contemporary history) and space (North and South America, Europe, Asia, and Africa). The department offers courses in social history, including the history of women and the family, African-American and Native American history, and topical courses in such areas as politics, diplomacy, war and society, culture, the environment, ideas, cities, economics, and religion. History courses are cross-listed with a variety of departments and programs.

Graduate Programs

The Department of History (http://www.history.ku.edu/about.shtml) at the University of Kansas is a dynamic place, with a proud tradition of training scholars from across the globe who have transformed the practice of history. The program offers major or minor concentrations in the areas of United States, African American, Modern European, British & Imperial, Russian/East European, East Asian, Latin American, African, Medieval, Women and Gender, Military, and Environmental History. KU offers its graduate students great flexibility in their choice of fields, as defined both by traditional geographical and chronological parameters and thematic topics. Students also have the opportunity to take coursework outside the department in fields such as Public History, Museum Studies, Environmental Studies, and the History of Medicine.

Primarily a doctoral program, the Department currently enrolls approximately 80 graduate students from throughout the United States and the world, including Japan, China, Peru, and Russia. Our students make up a very diverse group, and we encourage applicants from traditional and non-traditional backgrounds.

For statistics regarding our program, please see our Doctoral Program Profile (http://www.granduate.ku.edu/sites/graduate.drupal.ku.edu/files/docs/dpp/DPP_A_HIST.pdf), which demonstrates our success at funding and placing current and recent graduates.

Courses

HIST 101. Introduction to History: ____. 3 Hours. HT GE11 / H.
An introduction to the study of history. The course will expose the student to the major issues and methods of historical study. This will be done through the study of a specific historical period or topical area. In the study of this period or topic, students will be introduced to schemes of interpretation, critical readings and analysis, primary sources, and evaluation of evidence. LEC.

HIST 102. Introduction to History, Honors: ____. 3 Hours. HT / H.
An introduction to the study of history. The course will expose the student to the major issues and methods of historical study. This will be done through the study of a specific historical period or topical area. In the study of this period or topic, students will be introduced to schemes of interpretation, critical readings and analysis, primary sources, and evaluation of evidence. Prerequisite: Membership in the College Honors Program or consent of department. LEC.

HIST 103. Environment and History. 3 Hours. H.
Nature is our oldest home and newest challenge. This course surveys the environmental history of the earth from the extinction of the dinosaurs to the present with a focus on the changing ecological role of humans. It analyzes cases of ecological stability, compares cultural attitudes toward nature, and asks why this ancient relationship seems so troubled. (Same as EVRN 103.) LEC.

HIST 104. Introduction to African History. 3 Hours. NW GE11/GE3H / H/W.
An introduction to important historical developments in Africa mainly south of the Sahara. Topics will include early history, empires, kingdoms, and city-states, the slave trade, southern Africa, partition and colonialism, the independence era, military and civilian governments, and liberation movements. Approaches will include literature, the visual arts, politics, economics, and geography. (Same as AAAS 105.) LEC.
HIST 105. Introduction to Ancient Near Eastern and Greek History. 3 Hours. NW GE3H / H/W.
A general survey of the political, social, and economic developments of Mesopotamia, Egypt, Asia Minor, and Greece from Paleolithic times to 323 B.C. LEC.

HIST 106. Introduction to Roman History. 3 Hours. H/W.
A general survey of the political, social, and economic developments of ancient Rome from 753 B.C. to 475 A.D. LEC.

HIST 107. Introduction to the Ancient World. 3 Hours. H.
This course covers the history of the ancient Near East, Greece and Rome with emphasis on the origins of agriculture, writing, cities, empires, and democracy. Students will be introduced to schemes of interpretation, critical readings, and analysis, primary sources, and evaluation of evidence. LEC.

HIST 108. Medieval History. 3 Hours. HT GE11 / H/W.
The history of Europe from the Barbarian Invasions to the beginning of the 16th century. LEC.

HIST 111. Introduction to African History, Honors. 3 Hours. NW / H/ W.
An intensive version of AAAS 105/HIST 104. An introduction to important historical developments in Africa, mainly south of the Sahara. Topics include early history, empires, kingdoms and city-states, the slave trade, southern Africa, partition and colonialism, the independence era, military and civilian governments, and liberation movements. Approaches include literature, the visual arts, politics, economics, and geography. Open only to students in the University Honors Program or by consent of instructor. (Same as AAAS 115.) LEC.

HIST 112. Introduction to British History. 3 Hours. H.
This course will introduce students to the concepts, issues, and methods of historical study, at the same time as it explores the main processes and events which shaped the history of Britain and its imperial dependencies. Students will be introduced to the nature and validity of different historical interpretations, and to the purpose and merit of historical writings. LEC.

HIST 113. Europe 1500-1789, Honors. 3 Hours. HT / H.
An introduction to early modern European history, with emphasis on the cultural, political, economic, and social processes and events which helped to shape the modern world: The renaissance, the rise of the nation states, the Reformation, absolutism, and constitutionalism, the Enlightenment, and the coming of the French Revolution. Not open to students who have taken HIST 114. This Honors course is a Humanities Historical Studies Principal Course. Prerequisite: Membership in the College Honors Program or consent of department. LEC.

HIST 114. Renaissance to Revolution: Europe 1500-1789. 3 Hours. HT GE11 / H/W.
An introduction to early modern European history, with emphasis on the cultural, political, economic, and cultural forces which have helped to shape the modern world. The renaissance, the rise of nation states, the Reformation, absolutism and constitutionalism, the Enlightenment, and the coming of the French Revolution. LEC.

HIST 115. French Revolution to the Present: Europe 1789-Present. 3 Hours. HT GE11/GE3H / H/W.
An introduction to recent European history, with emphasis on the social, political, economic, and cultural forces which have helped to create the Europe of today: the French Revolution, the romantic movement, the revolutions of 1848, nationalism, imperialism, Communism, and two World Wars, the cold war, and its aftermath. LEC.

HIST 116. French Revolution to the Present: Europe 1789 to Present, Honors. 3 Hours. HT GE11/GE3H / H.
An introduction to recent European history, with emphasis on the social, political, economic, and cultural forces which have helped to create the Europe of today: The French Revolution, the romantic movement, the revolutions of 1848, nationalism, imperialism, Communism, and two World Wars, the cold war and its aftermath. Not open to students who have taken HIST 115. This Honors course is a Humanities Historical Studies Principal Course. Prerequisite: Membership in the College Honors Program or consent of department. LEC.

HIST 117. Russia, an Introductory History. 3 Hours. HT / H/W.
A survey of the evolution of Russia from its origins to the present. The focus will be on the interaction of government and society and on internal and external pressures affecting modernization and reform, revolution, and territorial expansion. LEC.

HIST 118. History of East Asia. 3 Hours. NW AE42 / H/W.
A survey of the history of China, Japan, Korea, and other cultures in East Asia from premodern to modern times. Students are introduced to the major currents of East Asian history and historical methods used to study them. Not open to students with credit in upper division East Asian history. LEC.

HIST 119. History of East Asia, Honors. 3 Hours. NW AE42 / H/W.
A survey of the history of China, Japan, Korea, and other cultures in East Asia from premodern to modern times. Students are introduced to the major currents of East Asian history and historical methods used to study them. Prerequisite: Membership in the University Honors Program or consent of instructor. LEC.

HIST 120. Colonial Latin America. 3 Hours. NW AE42/GE3H / H/W.
The principal focus is on the evolution and analysis of societies, economies, and religions of native American peoples, the impact of Spanish and Portuguese conquests and settlement, government, trade and culture upon native civilizations, the influence of African population and culture, and the creole nature of the resulting society in the colonial period. Changes in the society and economy which presaged the movements for independence are also discussed. LEC.

HIST 121. Modern Latin America. 3 Hours. HT GE3H / W.
Students are introduced to historical analysis within the context of the emergence of national identities and the process of modernization in the region. It also discusses key processes such as urbanization and industrialization and examines social movements for reform or revolution in the 20th Century. The course compares social, cultural, economic, and political changes across a variety of countries since 1810, giving particular attention to the legacies of colonialism. In this way the course deals with interpretations of the processes and movements and major issues of Latin American historiography. LEC.

HIST 122. Colonial Latin America, Honors. 3 Hours. NW AE42/GE3H / H/W.
The principal focus is on the evolution and analysis of societies, economies, and religions of native American peoples, the impact of Spanish and Portuguese conquests and settlement, government, trade and culture upon native civilizations, the influence of African population and culture, and the creole nature of the resulting society in the colonial period. Changes in the society and economy which presaged the movements for independence are also discussed. Prerequisite: Membership in the College Honors Program or permission of instructor. LEC.

HIST 123. Modern Latin America, Honors. 3 Hours. HT GE3H / W.
Similar in content to HIST 121. Students are introduced to historical analysis within the context of the emergence of national identities and
the process of modernization in the region. The course compares social, cultural, economic, and political changes across a variety of countries since 1810, giving particular attention to the legacies of colonialism. It also discusses key processes such as urbanization and industrialization and examines social movements for reform and revolution in the 20th century. In this way the course deals with interpretations of these processes and movements and major issues of Latin American historiography. Prerequisite: Membership in the University Honors Program or permission of instructor. LEC.

HIST 124. Latin American Culture and Society. 3 Hours. SC / S.
An introduction to the interdisciplinary study of Latin America, as manifest in the arts and literature, history, and in environmental, political, economic, and social realities. Explores and critiques the principal themes and methodologies of Latin American Studies, with an aim towards synthesizing contributions from several different disciplines. Emphasizes the unique insights and perspectives made possible by interdisciplinary collaboration and provides students with the basic knowledge base for understanding Latin America today. (Same as LAA 100.) LEC.

HIST 128. History of the United States Through the Civil War. 3 Hours. HT GE3H / H.
A historical survey of the United States from the peopling of the continent through the Civil War. This survey is designed to reflect the diversity of the American experience, to offer the student a chronological perspective on the history of the United States, and to explore the main themes, issues, ideas, and events which shaped that history. LEC.

HIST 129. History of the United States After the Civil War. 3 Hours.
HT GE3H / H.
A historical survey of the American people from Reconstruction to the present. This survey is designed to reflect the diversity of the American experience, to offer the student a chronological perspective on the history of the United States, and to explore the main themes, issues, ideas, and events that shaped American history. LEC.

HIST 130. History of the United States Through the Civil War, Honors. 3 Hours. HT GE3H / H.
A historical survey of the United States from the peopling of the continent through the Civil War. This survey is designed to reflect the diversity of the American experience, to offer the student a chronological perspective on the history of the United States, and to explore the main themes, issues, ideas, and events which shaped that history. Not open to students who have taken HIST 128. Prerequisite: Membership in the College Honors Program or consent of department. LEC.

HIST 131. History of the United States After the Civil War, Honors. 3 Hours. HT GE3H / H.
A historical survey of the American people from Reconstruction to the present. This survey is designed to reflect the diversity of the American experience, to offer the student a chronological perspective on the history of the United States, and to explore the main themes, issues, ideas, and events which shaped that history. Not open to students who have taken HIST 129. Prerequisite: Membership in the College Honors Program or consent of department. LEC.

HIST 136. Early Science to 1700. 3 Hours. H.
Surveys the Western scientific tradition from roots in ancient Egypt, Mesopotamia, and Greece to the Scientific Revolution in seventeenth-century Europe. Focuses on the theoretical, methodological, and institutional development of the physical and bio-medical sciences. Addresses interactions of science with the technological, religious, philosophical, and social dimensions of Western culture. LEC.

HIST 137. History of Modern Science. 3 Hours. H.
Surveys the history of science from the seventeenth century to the present with study of the changing theoretical, institutional, and social character of the scientific enterprise. Addresses physical, biological, and social sciences with attention to the chemical revolution at the turn of the nineteenth century, evolutionary biology, the new physics of the early twentieth century, and the professionalization of social science. Relates scientific changes to historical developments in technology, religion, national traditions in Europe and the USA, and non-Western cultures. LEC.

HIST 140. Global Environment I: The Discovery of Environmental Change. 5 Hours. GE3H / U.
This interdisciplinary course and laboratory sections survey the foundations of environmental understanding and the process of scientific discovery from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics include the history of environmental systems and life on earth, the discovery of biotic evolution, ecological change, and climate change. Laboratory sections apply the principles and methodologies of the humanities, physical, life and social sciences to earth systems and the development of environmental understanding using historical and present-day examples. (Same as EVRN 140 and GEOG 140.) LEC.

HIST 142. Global Environment II: The Ecology of Human Civilization. 5 Hours. GE3H / U.
This interdisciplinary course and its laboratory sections survey the history of humanity's relationship with the natural world over the long term from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics include the evolution of Homo sapiens and cultural systems; the development of hunter, gatherer, fisher, agricultural, and pastoral lifeways; the ecology of colonialism and industrial civilization, and the emergence of ideological and ethical perspectives on the relationship between nature and culture. Laboratory sections apply the principles and methodologies of the humanities, physical, life and social sciences to the humanity's engagement with the global environment using historical and present-day examples. (Same as EVRN 142 and GEOG 142) LEC.

HIST 144. Global Environment I: The Discovery of Environmental Change, Honors. 5 Hours. U.
This interdisciplinary course surveys the foundations of environmental understanding and the process of scientific discovery from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics include the history of environmental systems and life on earth, the discovery of biotic evolution, ecological change, and climate change. Laboratory sections apply the principles and methodologies of the humanities, physical, life and social sciences to earth systems and the development of environmental understanding using historical and present-day examples. (Same as GEOG 144 and EVRN 144.) Open only to students admitted to the University Honors Program or by permission of instructor. LEC.

HIST 145. Global Environment II: The Ecology of Human Civilization, Honors. 5 Hours. U.
This interdisciplinary course and its laboratory sections survey the history of humanity’s relationship with the natural world over the long term from perspectives that combine the principles and methodologies of the humanities, physical, life and social sciences. Key topics will include the evolution of Homo sapiens and cultural systems; the development of hunter, gatherer, fisher, agricultural, and pastoral lifeways; the ecology of colonialism and industrial civilization, and the emergence of ideological and ethical perspectives on the relationship between nature and culture. Laboratory sections apply the principles and methodologies
of the humanities, physical, life and social sciences to the humanity’s
engagement with the global environment using historical and present-day
examples. (Same as EVRN 145 and GEOG 145.) Open only to students
in the University Honors Program or by permission of instructor. LEC.

HIST 160. Introduction to West African History. 3 Hours. NW AE42/
GE3H / H.
This course treats West African history through the first part of the 20th
century. The student is provided with a perspective on the major historical
patterns that gave rise to West Africa’s development as an integral part
of world history. Special attention is paid to anthropological geographical,
and technological developments that influenced West African political and
socioeconomic changes. (Same as AAAS 160.) LEC.

HIST 177. First Year Seminar: ____. 3 Hours. HT GE11.
A limited-enrollment, seminar course for first-time freshmen, organized
around current issues in history. May not contribute to major requirements
in history. First year seminar topics are coordinated and approved through
the Office of First Year Experiences. Prerequisite: First-time freshman
status. LEC.

HIST 250. Study Abroad Topics in: ____. 1-5 Hours. H.
This course is designed for the study of special topics in History at the
freshman/sophomore level. Coursework must be arranged through the
Office of KU Study Abroad. May be repeated for credit if content varies.
LEC.

HIST 300. Modern African History. 3 Hours. NW AE42 / H/W.
A survey of social, political, and economic developments during the
colonial era and independence struggles, followed by a closer
examination of the contemporary experience in a selected country or
region. (Same as AAAS 305.) LEC.

HIST 301. The Historian’s Craft. 3 Hours. H.
This course introduces students to the practice and methods of the study
of history and serves as the gateway to the major. Students learn (1) to
think historically; (2) to understand how historians construct and write
about the past through narratives, theory and analytical discussion;
(3) to critically evaluate historical arguments and the material used to
substantiate those arguments, including an introduction to the process
of peer review; (4) to develop writing and research skills including the
interpretation of primary sources; and (5) to master professional standards
of presenting their findings. This course is required of all history majors
and is a prerequisite for HIST 696 Seminar in: ____. Prerequisite:
Open only to declared History majors or by consent of instructor. LEC.

HIST 302. The Historian’s Craft, Honors. 3 Hours. H.
This course introduces students to the practice and methods of the study
of history and serves as the gateway to the major. Students learn (1) to
think historically; (2) to understand how historians construct and write
about the past through narratives, theory and analytical discussion;
(3) to critically evaluate historical arguments and the material used to
substantiate those arguments, including an introduction to the process
of peer review; (4) to develop writing and research skills including the
interpretation of primary sources; and (5) to master professional standards
of presenting their findings. This course, or HIST 301 - its non-honors
equivalent, is required of all history majors and is a prerequisite for HIST
696 Seminar in: ____. Prerequisite: Open only to students admitted to the University Honors Program or by consent of the
instructor. (Same as AAAS 307.) LEC.

HIST 303. Sin Cities. 3 Hours. H.
This course offers a comparative global introduction to the history of the
modern city by looking at the ways in which certain metropoli developed
an attractive underbelly of decadence at the same time as they sought to
be centers of refined and orderly cosmopolitan life. The course examines

topics such as popular culture, gambling, prostitution, crime, violence,
nightlife, tourism, and corruption in the context of the increased social
mobility that characterized the beginning of the industrial age and that has
extended into the 21st century. Students investigate the changing relation
between work and leisure, spectacle and consumerism, and urban space
and the struggle for order. LEC.

HIST 304. 1642, 1688, 1776: Three British Revolutions. 3 Hours. H.
Explains and analyzes the three revolutions in the English-speaking world
which, more than any others, are held to have laid the foundations of
modernity. Themes discussed include social, intellectual, and political
developments, structures, and conflicts. 1642 and 1688 are treated in
the setting of England’s relations with Scotland and Ireland, and against
the background of European wars of religion. 1776 is analyzed in a
transatlantic context as a civil war within the wider British polity. LEC.

HIST 305. The Scientific Revolution. 3 Hours. H.
Describes and analyzes the factors producing a Scientific Revolution in
ear-modern Europe. Focuses on fundamental changes in astronomy-
cosmology, physics, and biology from Copernicus to Newton. Examines
the emergence of experimental method as an essential part of Western
science. Portrays the development of new forms of scientific organization
and the cultural frameworks that bore and shaped them. Surveys the
various interpretations of this period expressed by current historians of
science. LEC.

HIST 306. Science and Western Culture. 3 Hours. H.
Analyzes the institutional, social, technological, and political
circumstances of science in the Western tradition. Examines the place
of science in pre-modern European settings. Emphasizes the shifting
centers of national scientific prominence since the seventeenth century
from Italy to Britain to France to Germany to the USA. LEC.

HIST 307. Modern African History, Honors. 3 Hours. NW AE42 / H.
An intensive version of HIST 300. A survey of social, political, and
economic developments during the colonial era and independence
struggles, followed by a closer examination of the contemporary experience in a selected country or region. Open only to students
admitted to the University Honors Program, or by consent of the
instructor. (Same as AAAS 307.) LEC.

HIST 308. Key Themes in Modern Global History. 3 Hours. H.
A comparative historical analysis of major global developments from
the late 15th century to the present. Some of the themes likely to be
explored are empire-building, contact between cultures and colonial social
relations; the attraction of cities, their role in a global economy and the
shift to an urban world; and the impact of capitalism and industrialization
on social organization including conflict between classes and changes in
the nature of work. Students learn ways of interpreting primary historical
documents and comparing historical investigations across time and
space. Not open to students who have completed HIST 100. LEC.

HIST 309. History of Chemistry. 3 Hours. H.
Birth of modern chemical science from roots in Greek natural philosophy,
alchemy, Renaissance medicine, and technology. The Chemical
Revolution of Lavoisier and Dalton. Maturity of chemistry in the19th and
20th centuries, along with an examination of the growth of chemical
institutions and the rise of chemical industry. Emphasis on developments
from the 18th century to the present. (Same as CHEM 309.) LEC.

HIST 310. American Culture, 1600-1876. 3 Hours. H.
An examination of the major historical shifts, trends, and conflicts that
have shaped the multicultural nature of life in the United States from the
initial European settlements to 1876. In addition to tracing developments
in literature, architecture, drama, music, and the visual arts, this course
will investigate patterns and changes in the popular, domestic, and
HIST 311. Great Lives in Science. 3 Hours. H.
This course examines the lives of selected great scientists. Lectures and biographical readings deal with scientists who lived in the period between the seventeenth century and the present. Through comparative biography, the course assesses the theoretical, methodological, institutional, and social development of modern science. LEC.

HIST 312. American Culture, 1877 to the Present. 3 Hours. H.
An examination of the major historical shifts, trends, and conflicts that have shaped the multicultural nature of life in the United States from 1877 to the present. In addition to tracing developments in literature, architecture, drama, music and the visual arts, this course investigates patterns and changes in the popular, domestic, and material culture of everyday life in America. (Same as AMS 312.) LEC.

HIST 313. Conspiracies and Paranoia in American History. 3 Hours. H.
The theme of conspiracy is a recurring motif in American history. This course uses a case-study method to revisit episodes such as the Salem witch trials, the movement against freemasonry, the Slave Power conspiracy, and more recent obsessions such as UFOs and the assassination of John F. Kennedy to explain why so many Americans have embraced conspiracy theories to explain mysterious events and dramatic social change. The course will rely on primary accounts, fiction, and film, as well as secondary historical literature, to examine both “real” and “imaginary” conspiracies and their effects on the politics, culture, and society of the United States. LEC.

HIST 314. Globalization: History and Theory. 3 Hours. H.
Explores the rise of global capitalism in the 19th and 20th centuries, contemporary debates about 21st century globalization, and the role of globalization in our everyday lives. Questions considered include: Is globalization an incremental process that has been going on for centuries, or is it a dramatic new force reshaping the post-Cold War world? Is it a cultural and social process or an economic and political one? Or is it all of these things? Not open to students who have completed HIST 315. LEC.

HIST 315. Globalization: History and Theory Honors. 3 Hours. H.
Explores the rise of global capitalism in the 19th and 20th centuries, contemporary debates about 21st century globalization, and the role of globalization in our everyday lives. Questions considered include: Is globalization an incremental process that has been going on for centuries, or is it a dramatic new force reshaping the post-Cold War world? Is it a cultural and social process or an economic and political one? Or is it all of these things? Not open to students who have completed HIST 314. Open only to students in the College Honors Program or consent of instructor. LEC.

HIST 316. Ministers and Magicians: Black Religions from Slavery to the Present. 3 Hours. H.
This course examines the history and diversity of African American religious expression from slavery until the present, emphasizing both mainstream and alternative faiths. It covers the religious world views of enslaved Africans, and examines faiths inside and outside of Christianity. Topics may include: independent black churches, magical practices, the Holiness and Pentecostal movements, black Islam, religious freemasonry, and esoteric faiths. The class emphasizes the influence of gender, class, race, migration, and urbanization on black religion. (Same as AAAS 316 and AMS 316.) LEC.

HIST 317. African American Women: Colonial Era to the Present. 3 Hours. AE41 / H.
This interdisciplinary course covers the history of African American women, beginning in West and Central Africa, extending across the Middle Passage into the Americas, and stretching through enslavement and freedom into the 21st century. The readings cover their experiences through secondary and tertiary source materials, as well as autobiographies and letters, plays and music, and poems, novels, and speeches. (Same as AAAS 317, AMS 317, and WGSS 317.) LEC.

HIST 319. History, Women, and Diversity in the U.S.. 3 Hours. AE41 / H.
This survey course explores the history of being female in America through a focus on the ways differences in race, sexuality, ethnicity, class, and life cycle have shaped various aspects of women’s lives. Themes to be explored could include, but are not limited to: social and political activism; intellectual developments; family; women’s communities; work; sexuality; and culture. LEC.

HIST 320. From Goddesses to Witches: Women in Premodern Europe. 3 Hours. HT GE11/GE3H / H.
This course examines the social, cultural, and political contexts of women’s spirituality and their relations to gender relations in Europe from about 30,000 B.C.E. to the 16th century Protestant Reformation. Lectures move both chronologically and topically, covering such subjects as goddess-worshiping cultures, women’s roles in Christian and Jewish societies, symbols of women, and male attitudes toward women. Students will be able to participate in weekly discussions of primary and secondary source readings about women. (Same as WGSS 320.) LEC.

HIST 321. From Mystics to Feminists: Women’s History in Europe 1600 to the Present. 3 Hours. HT AE42/GE11/GE3H / H.
This survey of women’s history in Europe looks at changing patterns of women’s economic roles and family structures in preindustrial and industrial society, the importance of women in religious life, cultural assumptions underlying gender roles, and the relationship of women to political movements, including the rise of feminism. (Same as WGSS 321.) LEC.

HIST 324. History of Women and the Body. 3 Hours. H.
This course examines different notions about women and their bodies from a historical perspective. It discusses the arguments and circumstances that have shaped women’s lives in relation to their bodies, and women’s responses to those arguments and circumstances. This course covers a wide geographical and chronological spectrum, from Ancient societies to the present, from Latin America and the Middle East, to North America and Western Europe. (Same as WGSS 324.) LEC.

HIST 325. The Spanish Inquisition. 3 Hours. H.
A broad historical study of the Spanish Inquisition from 1478 to its afterlife in modern culture, including its use in political debates and its depiction in popular culture. Topics include anti-Semitism, the nature of the inquisitorial investigation, the use of torture, censorship and the relationship between the Inquisition, the Spanish monarchy and other religious and lay authorities. Taught in English. Will not count toward the Spanish major. (Same as JWSH 315 and SPAN 302.) LEC.

HIST 326. Native American Civilizations and their European Conquerors. 3 Hours. NW AE42/GE11/GE3H / H/W.
The societies, economies, and cultures of Native American peoples in Brazil, Peru, Mexico, and the Southwestern United States will provide the main focus of this course to understand the culture and values of those who preceded the Europeans in the Americas. European culture is also examined, including the motivations for exploration and conquest. The details of the particular conquests and how they affected the resulting
HIST 327. The Premodern Middle East. 3 Hours. NW AE42 / H.
A survey of the history of the Middle East from the origins of Islam in the seventh century to the rise and consolidation of the Ottoman Empire in the eighteenth century. Lectures and discussions focus on diversity within the Middle East at the height of the Islamic empires. Topics include the life of Muhammad and early Islamic communities, expansion of Islam into Asia, Africa and Europe, intellectual strength in the medieval period, and the everyday lives of women, Christians, Jews and other minority groups. LEC.

HIST 328. The Modern Middle East. 3 Hours. NW AE42 / H.
A survey of the history of the Middle East from 1800 to the present. Lectures and discussions focus on diversity within the Middle East over two centuries of major political and cultural change. Topics include causes for the decline of the Ottoman Empire, debates over modernization, European imperialism and the formation of nation-states, twentieth century cultural revolutions and women's activism, the Arab-Israeli conflict, and the revival of Islamic social movements. LEC.

HIST 329. History of War and Peace. 3 Hours. HL / H.
A study of the changing nature of warfare and the struggle to bring about peace. Topics include pacifism, the "military revolution" that created the first professional armies; the development of diplomatic immunity, truces, and international law; the peace settlements of Westphalia, Utrecht, Vienna, Versailles, and San Francisco; the creation of peace movements and peace prizes; the evolution of total war, civil war, and guerrilla warfare involving civilians in the twentieth century; the history of the League of Nations and United Nations; and the rise of intergovernmental and non-governmental organizations. (Same as EURS 329 and PCS 329.) LEC.

HIST 330. Revolt and Revolution in Early Modern Europe. 3 Hours. H.
A study of forces giving rise to riots, rebellions, and revolution in Western Europe from 1600-1790. The course will examine social and ideological aspects of famines, religious persecution, taxation, war, landlord-peasant relations, and the increasing power of kings. LEC.

HIST 331. Atlantic Societies, 1450-1800: A Comparative History of European Colonization. 3 Hours. H.
This course offers a comparative history of the European (Portuguese, Spanish, French, English, and Dutch) colonization of the Americas. It examines the interaction among peoples and cultures across the Atlantic, from the age of European exploration to the start of the independence movements in the Americas. Themes that will receive special attention include: comparing patterns of colonization, the forging of American societies of European, Native American, and African cultures, the slave trade, and the history of sugar production. LEC.

HIST 332. Eurometro: Visions of the European Metropolis, 1849-1939. 3 Hours. H.
This course investigates the interrelated symbols of the European metropolis during the "Age of Great Cities", from the filth of the sewers to the "filthiness" of prostitution. Students investigate gender and class in the metropolis by exploring a few stereotypes: the juvenile delinquent, the woman on the street, and the flaneur. The course format stresses discussion of common texts, including short readings of literature from the period and historical scholarship. Students also analyze contemporary photographs, art, architecture, and advertising. LEC.

HIST 333. The Great War: The History of World War I. 3 Hours. H.
A historical survey of the causes, course, and consequences of the conflict, 1878-1919, stressing its socio-economic dimensions as well as its political ramifications and military aspects. Considerable use will be made of visual aids. No prerequisites. LEC.

HIST 334. Ethics, Ideas, and Nature. 3 Hours. AE51 / H.
This course examines the ethical frameworks developed for thinking about, using, and protecting the natural world. Examples of topics include indigenous approaches to nature, the history of ecological ideas, environmental movements, the role of the state of managing resources, utilitarianism and progressivism, environmental lawmaking, wilderness advocacy, nature and theology, the rights of nature, and environmental justice. Students are introduced to the theories of duty ethics, justice ethics, utilitarianism, and right ethics, and required to apply ethical decision making to contemporary and historical environmental issues. Multiple perspectives on the history of human interactions with nature demonstrate the importance of reflecting upon the value systems inherent in human-centered environmental ethics and nature-centered environmental ethics. (Same as EVRN 336.) LEC.

HIST 335. History, Ethics, Modernity. 3 Hours. H.
This course will examine the question "How has human dignity been preserved or violated in the modern age?" Cast in a global framework, some of the probable themes are the history of human rights; the moral universe of genocide; the (in)significance of industrial work; the shifting status of the poor and the colonized and their treatment by the state and society; the impact of changing technology on ethics in war, peace and the environment; and the violation of dignity as a factor in collective resistance. LEC.

HIST 336. African American Urban Community and Class in the Midwest. 3 Hours. H.
This course provides historical perspective on African Americans and the politics of economic class within black urban spaces from the end of Reconstruction to the post-World War II era. It focuses on the development of an upwardly mobile urban black middle class, and impoverished black urban "underclass," since the 1960s. Students are encouraged to have taken one of three courses: AAAS 104, AAAS 106, or AAAS 306. (Same as AAAS 328.) LEC.

HIST 340. The History of the Second World War. 3 Hours. H.
A survey of the origins, course, and consequences of the war, 1930-1945. Political, economic, military, and social aspects will be dealt with in the context of their global effects. Extensive use will be made of motion pictures and other media. LEC.

HIST 341. Hitler and Nazi Germany. 3 Hours. H/W.
An examination of the rise of Hitler and Nazism, beginning with the breakdown of 19th century culture in the First World War and continuing through the failure of democracy under the Weimar Republic. The course will also discuss the impact of Nazism on Germany and how Nazism led to the Second World War and the Holocaust. LEC.

HIST 343. The Holocaust in History. 3 Hours. H.
The systematic murder of the Jews of Europe by the Nazis during World War II is one of the most important events of modern history. This course studies the Holocaust by asking about its place in history. It compares other attempted genocides with the Holocaust and examines why most historians argue that it is unique. Other topics covered include the reasons the Holocaust occurred in Europe when it did, the changing role of anti-Semitism, and the effects of the Holocaust on civilization. The course also discusses why some people have sought to deny the Holocaust. The course concludes by discussing the questions people have raised about the Holocaust and such issues as support for democracy, the belief in progress, the role of science, and the search for human values which are common to all societies. (Same as JWSH 343.) LEC.

HIST 345. Hard Times: The Depression Years in America, 1929-1941. 3 Hours. H.
An analysis of the experiences of the American people during the Great Depression. Attention will also be given to the global dimensions of the
crisis, socioeconomic dislocation, cultural and institutional change, and
the impact of the Asian and European wars. LEC.

**HIST 346. Law and Society in America. 3 Hours. H.**
Law and lawyers have powerfully shaped American values and
institutions. This course explores law’s impact on American society from
the age of European colonization through present. Topics include liberty,
public order, race and ethnicity, the family, property, speech, environment,
and self-government. The course also examines the changing images of
lawyers and the law over time. Course materials include not just statutes
and court decisions, but literature, imagery, and popular culture materials.
LEC.

**HIST 347. Environmental History of North America. 3 Hours. H.**
A survey of changes in the landscape and in people’s perceptions of the
natural world from 1500 to present. Topics include agroecology, water
and energy, the impact of capitalism, industrialism, urbanization, and such
technologies as the automobile, and the origins of conservation. (Same as
EVRN 347.) LEC.

**HIST 348. History of the Peoples of Kansas. 3 Hours. H.**
A survey of culture and society in Kansas from prehistory to the present.
Topics include Native American life, Euro-American resettlement,
Bleeding Kansas and the Civil War, agricultural settlement, urbanization
and industrialization, depression and recovery, and modern Kansas
in transition. Emphasis in the course will be on social and economic
conditions, the experience of ethnic and racial groups, inter-racial
relations, and the role of women. LEC.

**HIST 350. The Korean War, 1950-1953. 3 Hours. H.**
An examination of the origins, pattern of development, and legacy of
this still unsettled conflict, which in many ways set the tone for the entire
post-1945 era of the Cold War. Points of emphasis will include the
motives and policies of the major participants (Koreans, Americans,
Chinese, and Soviets), as well as the effects of the war on their domestic
politics and foreign policy positions. LEC.

**HIST 351. American Indian and White Relations to 1865. 3 Hours. H.**
This course provides an intensive survey of the Indians of North America
from Prehistory to 1865, and focuses on ancient indigenous cultures, early
European-Indian relations and the impact of European culture upon the
indigenous peoples of North America. (Same as HWC 348, ISP 348.)
LEC.

**HIST 352. American Indians Since 1865. 3 Hours. H.**
This course examines American Indian/White relations from
reconstruction to the present. It surveys the impact of westward expansion
and cultural changes brought about by the Civil War, forced education,
intermarriage, the Dawes Act, the New Deal, the World Wars, termination,
relocation and stereotypical literature and movies. The class also
addresses the Red Power and AIM movements, as well as indigenous
efforts to decolonize and to recover and retain indigenous knowledge.
After learning about the past from both Native and non-Native source
materials, students will multiple perspectives about historical events and
gain understandings of diverse world views, values, and responses to
adversity. (Same as HWC 350 and ISP 350.) LEC.

**HIST 353. Indigenous Peoples of North America. 3 Hours. NW AE41 /
H/W.**
This course surveys the history of the first peoples to inhabit North
America from prehistory to present. Commonly and collectively referred
to as American Indians, indigenous peoples include a diverse array of
nations, chiefdoms, confederacies, tribes, and bands, each of which
has its own unique cultures, economies, and experiences in dealing
with colonial and neocolonial powers. This class seeks to demonstrate
this diversity while at the same time providing an understanding of the
common struggle for political and cultural sovereignty that all indigenous
nations face. Indigenous nations that have developed a relationship with
the United States will receive primary focus, but comparative reference
will be made to First Nations of Canada. LEC.

**HIST 354. Spanish Borderlands in North America. 3 Hours. AE51 / H.**
The Northern frontier provinces of the Viceroyalty of New Spain from their
exploration and occupation by Spain until their absorption by the United
States. LEC.

**HIST 355. U.S. Borderlands Since 1848. 3 Hours. H.**
This course discusses issues associated with the Mexican borderlands
region after conquest and acquisition by the United States. Themes
include race relations, immigration, labor, economics, politics, culture,
and the environment. We discuss how the region was incorporated into
the United States, and how this relationship is evolving. We also examine
the notion of a borderlands region and whether or not this is a valid
characterization for Kansas. LEC.

**HIST 358. The Vietnam War. 3 Hours. H.**
This course is a survey of the Vietnam War. It covers the early
days of Cold War, 1945-54, and all phases of the Vietnam War: the
advisory phase (1955-64); the Americanization phase (1965 -68); the
Vietnamization Phase (1969-73); and the final phase, the Vietnam Civil
War, 1972-75. This course covers the causes, course, conduct, and
consequences of the war and in so doing provides a political, military, and
social history of the war. LEC.

**HIST 360. Science and Religion. 3 Hours. H.**
The interaction and significant confrontations between science and
religion will be considered together with the religious responses to science
and technology. LEC.

**HIST 362. The American Way of War Since World War II. 3 Hours. H.**
This course is a survey of American Military History from World War II to
current military operations. It covers the Cold War, the Korean War,
the Vietnam War, both Persian Gulf wars, the global war on terrorism, and
the war in Afghanistan. The course examines the causes, course, conduct,
and consequences of the wars and covers advances in technology and
doctrine, civil-military relations, foreign policy, and inter-service rivalry,
providing a political, military, and cultural history of the wars. LEC.

**HIST 365. Invention of the Tropics. 3 Hours. H.**
This course surveys the history of the tropical environment and its
peoples from Europe’s first encounter to today’s ecotourism boom. It
focuses on portrayals of the tropics in historical travel accounts and films.
Through these sources, we seek to understand how science, technology,
and tourism have been used, in turn, as instruments of progress and
destruction, tools of empire and national liberation. Case studies are
drawn from Latin America, Africa, Oceania, and Asia. LEC.

**HIST 366. Old Regime and Revolution in France, 1648-1799. 3 Hours.
H.**
This course explores the political, social, and cultural system of early
modern France. It culminates with study of the collapse of monarchy and
establishment of republican government during the French Revolution.
LEC.

**HIST 367. Magic and Superstition in European History. 3 Hours. H.**
This course traces the changing role and understanding of magic in
European culture, religion, politics and science from the late Middle Ages
through the early 20th century. Topics may include alchemy, miracles,
magical healing, witchcraft, monsters and demonic possession, LEC.

**HIST 368. A History of Afro-Latin America. 3 Hours. H.**
This course examines the history of Africans and their descendants
in Latin America. In this region, Africans could be found serving as
militia commanders, laboring as skilled tradesmen, running their own businesses, working as household servants, and toiling on plantations. Students will study the varied experiences of these men and women across colonial and national boundaries. Topics include: acculturation/Creolization, manumission, family formation, social networks, economic roles, political mobilization, and interaction with indigenous peoples. LEC.

HIST 369. Colonialism and Revolution in the Third World, Honors. 3 Hours. NW AE42 / H.
This course will study the structure and dynamics of colonialism and neo-colonialism in the third world beginning in the 19th Century and continuing to the 1980s. It will also examine responses to these systems, from small-scale resistance to nationalist revolutions. Attention will be given to the relationship between ideology and collective behavior. Case studies will be drawn from Africa, Asia, and Latin America. Prerequisite: Membership in the University Honors Program or permission of instructor. LEC.

HIST 370. Violence and Conflict in Latin American History. 3 Hours. H.
This course treats the history of Latin America since the European conquest through the prism of violence and social conflict. It traces the roots of the region’s social collapse during the twentieth century to political and cultural factors in the colonial and early national periods. Using films and literature in addition to historical texts, the course discusses the sources of nationalism, civil wars, banditry, urbanization, violent dissent, military dictatorships, human rights abuses and guerrilla insurgencies as well as the political uses of violence made by different social groups. LEC.

HIST 371. The Cultural History of Modern Latin America. 3 Hours. H.
This course explores themes such as the evolution of national identities, the conflict between the city and the countryside, exile, the surrealism imagination and the cultural resistance against foreign influences through an examination of the literature, film, art, music, religions and popular and material culture of 19th and 20th century Latin America. LEC.

HIST 372. Violence and Conflict in Latin American History, Honors. 3 Hours. H/W.
This course treats the history of Latin America since the European conquest through the prism of violence and social conflict. It traces the roots of the region’s social collapse during the twentieth century to political and cultural factors in the colonial and early national periods. Using films and literature in addition to historical texts, the course discusses the sources of nationalism, civil wars, banditry, urbanization, violent dissent, military dictatorships, human rights abuses and guerrilla insurgencies as well as the political uses of violence made by different social groups. Not open to students who have taken HIST 370. Prerequisite: Membership in the University Honors Program or consent of instructor. LEC.

HIST 373. The Supreme Court and Religious Issues in the United States. 3 Hours. H.
Historical study of the interpretation of the religion clauses of the First Amendment with special reference to the questions of establishment, the free exercise of religion, freedom of religious belief, worship, and action, and religion and the public schools. Not open to freshmen. (Same as REL 373.) LEC.

HIST 375. The Supreme Court and Religious Issues in the United States, Honors. 3 Hours. H.
Historical study of the interpretation of the religion clauses of the First Amendment with special reference to the questions of establishment, the free exercise of religion, freedom of religious belief, worship, and action, and religion and the public schools. Open only to students in the University Honors Program or by permission of the instructor. (Same as REL 375.) LEC.

HIST 376. The Cultural History of Modern Latin America. 3 Hours. H.
For students enrolled in the annual summer Study Abroad program. This course examines some of the main events and trends in British history, from the earliest times to recent British history. The specific historical themes investigated will depend upon the instructor. The course can be taken only via enrollment in the KU British Summer Institute in the Humanities. Prerequisite: Approval for enrollment in the Summer Institute through the Study Abroad office. LEC.

HIST 377. Everyday Communism in Eastern Europe. 3 Hours. H.
This course investigates through film, literature, memoirs, photography, architecture, and scholarship the experience of ordinary citizens under Soviet-style communism in Eastern Europe. We study the ways people supported, resisted, opposed, and merely got by under state socialism from the late 1940s to the collapse of Communism in 1989. LEC.

HIST 378. Beyond the Iron Curtain: Soviet Perspectives on the Cold War. 3 Hours. AE42 / H.
This course reimagines the Cold War through Soviet eyes, challenging assumptions and offering less familiar perspectives on a global conflict. Analyzing Soviet and American mass media, popular culture, declassified documents, and personal stories, students investigate the following: Who started the Cold War, and who won it? Was it a time of relative peace or paranoia? How did the two sides view each other and did espionage help them know each other better? How did people and culture sometimes cross the iron curtain? What were the Soviets doing in places like Latin America and the Middle East? And why were both sides so concerned with Olympic athletes, ballet defectors, and cosmonauts? LEC.

HIST 379. Revolutionary Europe: The People in Arms. 3 Hours. H/W.
A survey of the political, social, economic and cultural transformation of Europe in a century of turmoil, from the Old Regime through the liberal and national revolts of 1848, the Paris Commune and the Russian Revolution. LEC.

HIST 380. Themes in British History. 3 Hours. H.
A study of a specialized theme or topic in History. May be repeated for credit when topic varies. LEC.

HIST 381. Topics in (Honors): ______. 3 Hours. H.
A study of a specialized theme or topic in History. May be repeated for credit when topic varies. Open only to students admitted to the University Honors Program. Prerequisite: Permission of instructor. LEC.

HIST 382. Huns, Turks, and Mongols: The Nomad Factor in Asian History. 3 Hours. NW / H/W.
This course introduces the history of major nomadic powers in Eurasian Steppe and their impact in the world from the first Millennium BCE to around 1500 AD. The main topics include the culture of the Scythians, the Hun and Xiongnu confederacy, the Mongol conquest, and the Turkish empires in Central and West Asia. It investigates the natural and human forces that shape the identities of the nomads and their changing images in history. LEC.

HIST 383. The Silk Road. 3 Hours. H.
A comprehensive introduction to the cultural influence and material exchange among major civilizations along the Silk Road. It covers the period of more than one thousand years between the 2nd and the 15th centuries CE, during which time forces wielded by the Persians, the Chinese, the Indians, the Tibetans and the Mongols shaped the geopolitical landscape of the vast region that spreads from the Caspian Sea to the Gobi Desert. Students explore the role of the Silk Road in the formation of the religious and ethnic identities of these civilizations, as well as their perceptions towards one another. Along with textual materials, the course uses extensive visual and musical materials to present interesting phenomena, such as Sogdian burial practice, Arab accounts of Tang
China, Nestoril Christianity at the Mongol court, and Marco Polo’s journey to the East. The course begins and concludes with discussion of the contemporary significance of the Silk Road as a historical category. LEC.

HIST 394. Made in China: Chinese Business History. 3 Hours. H.
This course examines the development of business in China since 1900. Topics include the rise of industrialism, the role of foreign investment, China’s role in the global market place, the relationship between business and the state, state-run enterprises, factory life, entrepreneurialism, building a domestic market for industrial goods, advertising, consumerism, and economic nationalism LEC.

HIST 397. From Mao to Now: China’s Red Revolution. 3 Hours. NW AE42/GE11 / H.
This course on China’s Communist revolution considers the evolution of Maoism, or Chinese Communism, from its ideological origins through its implementation during and after the Chinese Communist revolution. It examines major Maoist movements such as Land Reform, the Great Leap Forward, the Cultural Revolution, and the cult of Mao. It further considers the globalization of Maoism by examining examples of other Maoist revolutions and revolutionaries in places like Cambodia, Peru, and Nepal. LEC.

HIST 398. Introduction to History of Japan: Anime to Zen. 3 Hours. NW / H/W.
This course provides a foundation for study of Japanese history. It combines lectures on the scope of Japanese history over the past 2,000 years with discussions of topics key to the development of Japanese civilization such as religion and literature. We analyze how different media, such as film, Japanese animation (anime), and art can be used as historical sources, and how these shape our understanding of Japan. Students hone their ability to analyze both thematic and historical questions through writing assignments and discussions. LEC.

HIST 399. The Samurai. 3 Hours. NW AE42/GE11 / H/W.
Japan’s warrior class, the samurai, dominated politics and society for more than half of Japan’s recorded history. This course traces the history of the samurai from their origins to the dissolution of their class in 1877, examining their military role, philosophy, and cultural contributions. It also considers continued references to the “spirit of the samurai” in the twentieth century. LEC.

HIST 401. Case Studies in: ____. 2-3 Hours. H.
Examination of a limited aspect of a general subject; other aspects of the same subject may be offered other semesters. LEC.

HIST 402. Roman Military History. 3 Hours. H.
The Defense of the Roman Frontiers. This course emphasizes the development of the frontiers of the Roman empire from Caesar to the late second century. It includes the origins of the Germans and their society, the Celtic background, and the relationship between the emperor and the army. LEC.

HIST 404. Technology: Its Past and Its Future. 3 Hours. H.
An examination of the role of technology and its influence on society. The historical development of technology will be traced up to modern times with an emphasis on its relations to the humanities. Attention will be given to the future of different branches of technology and alternative programs for their implementation. (Same as ENGR 304.) LEC.

HIST 407. History of Science in the United States. 3 Hours. H.
Traces the evolution of a scientific tradition in American culture. Examines the growth of scientific ideas and institutions under European and indigenous influences. Studies the interactions of science with technological, theological, political, and socio-economic developments. LEC.

HIST 409. The American Revolution. 3 Hours. H.
This course will focus on the meaning the American Revolution had for different groups of Americans. Particular emphasis will be on the relationship between ideology and experience, and the impact of the Revolution on such groups as women, slaves, Indians, African-Americans, the poor, merchants, and loyalists. LEC.

HIST 410. The New Republic: U.S. History 1787-1848. 3 Hours. H.
This course traces the history of the United States from the debates over the ratification of the Constitution until 1848. Major topics include the republican experiment, the Market Revolution, the Age of Jackson, religious revivals and reform, slavery and the cotton kingdom, the Manifest Destiny. Historians view the period as vital to understanding the development of the society, economy, culture, and politics of the modern United States. LEC.

HIST 412. The Civil War in America, 1828-1877. 3 Hours. H.
The United States from the rise of sectional conflict through the disintegration and reunification of the Union. LEC.

HIST 413. The Rise of Industrial America, 1877-1920. 3 Hours. H.
The political, economic, social, and intellectual development of the United States from 1877 to 1920. LEC.

HIST 414. Gone with the Wind. 3 Hours. H.
For four years, another country occupied part of what we now think of as the United States. The Confederate States of America was a short-lived experiment founded on the cornerstone of slavery that advocated small government, states’ rights, agriculture, and patriarchy. Even before the Confederacy collapsed, though, none of those ideals was working out well in real life. Why, then, do so many Americans have such a hallowed view of the Confederate experience? This class discusses some military matters but focuses primarily on the homefront. LEC.

HIST 420. Dante’s Comedy. 3 Hours. H.
The complete Divine Comedy will be read in English translation, with equal stress on each of its three parts: the Inferno, the Purgatory, and the Paradise. No prerequisite. (Same as HWC 410.) LEC.

HIST 421. Economic and Social History of Later Medieval Europe, 1000-1500. 3 Hours. H.
An introductory study of European economic and social history from the Tenth Century Crisis to the 1490s. This course investigates the causes of economic development and the interactions among market, nonmarket, and social institutions such as the family. Topics covered include trade, labor, technologies, consumerism, social unrest and the rise of social and economic thought. LEC.

HIST 424. Venice and Florence in the Renaissance. 3 Hours. H.
Comparative urban study of Florence and Venice from the thirteenth through the sixteenth centuries. Principal subjects are the distinctive economies of the city-states, political developments, Renaissance humanism, patronage of the arts, family life, and foreign policy. LEC.

HIST 425. History of the Mediterranean World, 1099-1571. 3 Hours. H.
This course examines Mediterranean civilizations from the First Crusade to the Battle of Lepanto. Topics include the commercial revolution, medieval colonization, the Byzantine and Ottoman states, shipping and navigation, and the Atlantic. Equal coverage of the eastern and western Mediterranean. LEC.

HIST 440. War and United States Society. 3 Hours. H.
A survey of the American experience in military conflict, both foreign and domestic, from the colonial period to the present. In addition to the strategic and tactical aspects of war, the course will treat the political, economic, and social effects in their national and global contexts. Extensive use will be made of audio-visual materials. LEC.
HIST 444. Frozen in Time: Politics and Culture in the Cold War, 1945-75. 3 Hours. H.
This course deals with the interactions between Cold War culture and domestic and international politics chiefly from the American and to some degree comparative perspective. It focuses on the period 1945-1975, and makes use of films, television, music, works of science fiction and related genres, and other cultural manifestations to examine such themes as programs of domestic and international repression, consensus politics, cultural imperialism, gender roles, and class, status, and racial dynamics in the context of what was perceived as bipolar rivalry. LEC.

HIST 450. Study Abroad Topics in: ____. 1-5 Hours. H.
This course is designed for the study of special topics in History at the junior/senior level. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

HIST 451. Suburbia. 1.5 Hour. H.
A history of the growth of suburban enclaves, from their emergence during the electric streetcar era to their dominance in the late 20th century. This short course features the analysis of class dynamics, racial exclusions, commuting, social conformity and the alienation of the young within a U.S. context, but some attention is given to comparisons with other parts of the world. LEC.

HIST 452. Chicago. 1.5 Hour. H.
A history of the Midwestern metropolis from its origins as a swamp to an industrial port city. Topics covered in this short course may include the meat-packing industry, political corruption and reform, immigration and migration, the rise and demise of neighborhoods, transportation systems, working-class social movements, modern architecture and urban popular culture. LEC.

HIST 453. Anarchism: A Global History. 1.5 Hour. H.
This short course examines the key theorists and organizers of the anarchist movement, beginning with its emergence in the 19th century and extending into its reappearance in the 21st century. It traces developments in Europe, South America, Asia and the United States. Topics may include the Paris Commune, credit unions, propaganda by the deed, wage slavery, resistance to authority, and the general strike. LEC.

HIST 454. Work. 1.5 Hour. H.
This short course traces the evolution of work from pre-industrial times to the computerized workplace. Issues such as the meaning of work, dignity and respect, time efficiency and exploitation, unionization and strikes, workplace democracy, collectives and worker-owned businesses, laziness as a form of resistance to authority, leisure, the culture of commuting, and hierarchy and status are explored. The evolution of work in non-U.S. societies is analyzed comparatively. LEC.

HIST 455. Havana. 1.5 Hour. H.
This short course examines the history of the Cuban port city from the era of Spanish colonialism to the "special period" of shortages and deprivations during the 1990s. Topics covered may include popular culture, Caribbean pirates, cigar factories and labor, urban slavery, Chinatown, social revolution, restructuring of urban public space, suburban expansion, modernist architecture, tourism, gambling and vice, historical preservation and the changing conditions of streetlife. LEC.

HIST 460. Topics in: _____. 1.5 Hour. H.
An eight-week course devoted to a specific historical topic. May be repeated for credit as topics change. LEC.

HIST 461. The Asia-Pacific War, 1937-1945. 3 Hours. H.
This course introduces students to the Asia-Pacific War, which began with the outbreak of fighting between Japan and China in July 1937 and ended with the unconditional surrender of the Japanese Empire to Allied forces in August 1945. The course revolves around three themes, which are explored through lecture, discussion, and extensive use of film and visual materials: the geopolitical and colonial origins of the conflict; the concept of total war and the political and social transformations it unleashed on all belligerent nations; and the ideologies on the home front justifying the mass slaughter of soldiers and civilians. There is also discussion about how people in Japan, the United States, China, Korea, and other countries remember the war in the postwar period. LEC.

HIST 470. Popular Culture in Latin America and Africa. 3 Hours. NW / H.
This course offers a comparative assessment of the origins and practice of various forms of popular culture in the 20th Century in these two regions. Theories that explain the links between modernism and popular culture are discussed. Topics investigated may include the impact of spectacle on the urban environment, the legacies of colonialism in the sphere of culture, and the intersection of public space and popular culture. Forms such as music, cinema, street theater, and sports are explored. LEC.

HIST 480. Traveler's Tales of the Middle East. 3 Hours. H.
This reading-intensive seminar examines the multiple visions of "the Orient" that appeared in the letters, memoirs, and novels of Western travelers to the Middle East in the nineteenth and twentieth centuries. We examine the rise of tourism and travel-writing within the Middle East and their links to European imperialism. Working closely with primary source documents, we question what these highly personal and often misinformed types of writing can tell us about the politics and culture of everyday life in the Middle East. LEC.

HIST 481. From Harlem to the Streets: Gender in the Middle East, 1900-Present. 3 Hours. H.
This reading-intensive seminar examines shifts in gender roles and expectations in the Middle East during the twentieth and twenty-first centuries. The course begins with the importance of harem within Middle Eastern society, and traces Middle Eastern women's increasingly public presence in national movements, feminist activism, and peace protests as well as the impact of Western standards of marriage, child-rearing, beauty, and sexuality on gender roles. The course uses primary and secondary sources to analyze how gender identity is informed by religion and culture and grounded in specific historical moments. LEC.

HIST 489. Honors Course in History. 1-3 Hours. AE61 / H.
May be taken more than once; total credit not to exceed six hours. Prerequisite: Approval of the Coordinator of the Honors Program of the Department of History. IND.

HIST 492. Readings in History. 1-4 Hours. AE61 / H.
Investigation of a subject selected by the student with the advice and direction of an instructor. Individual reports and conferences. Two (2) Readings in History courses may be applied to the major and no more than one (1) may be applied to the minor. Prerequisite: Ten hours of college history including at least two upper-class courses and a "B" average in history. Consent of instructor. IND.

HIST 494. Service Learning in History. 1-3 Hours. AE61 / H.
This course is designed to give students the opportunity to apply historical knowledge and ideas gained through course work to real-life situations in volunteer service agencies and community centers. Open to History majors and others with significant History backgrounds. Permission of instructor is required. LEC.

HIST 498. Undergraduate History Honors Seminar. 3 Hours. AE61 / H.
Required for students in the History major honors program, normally in the second semester of their honors projects. Prerequisite: Approval of the Coordinator of the Honors Program of the Department of History. Another
HIST 500. History of the Book. 3 Hours. H.
Brief history of written materials and handwritten books; history of printed books from the 15th century as part of cultural history; technical progress and aesthetic change. Offered every second year. (Same as ENGL 520.) LEC.

HIST 502. Development of Ancient Greece, ca. 1000-300 B.C.E. 3 Hours. H/W.
Emphasis on the ancient sources and texts, developments in political institutions and society, the changing definitions of personal, cultural, and national identities, and the cultural tensions between Greece and the cultures to the west and east, especially Italy and Persia. No knowledge of the ancient languages is required. (Same as CLSX 502.) LEC.

HIST 503. The Ancient History of the Near East. 3 Hours. H.
History of the rise of civilizations in the ancient Near East from the earliest time to the Muslim conquest of the early seventh century, including the areas of Mesopotamia, Egypt, Syria, Palestine and Asia Minor. An archaeological approach is used in focusing attention on the cultural phenomena and achievements of the peoples of these areas, including the Babylonians, Assyrians, Persians, ancient Israelites, Greeks and Romans. LEC.

HIST 506. Roman Republic. 3 Hours. H.
An investigation of the history of Rome from its origins to the end of the Republic in 31 B.C.E., emphasizing political and economic aspects of the development of Rome from a minor city to a world power. LEC.

HIST 507. Early Roman Empire. 3 Hours. H.
A political, social, and economic investigation of the early Roman Empire from Augustus to Diocletian emphasizing how Rome held together a world-empire until economic and military problems forced a complete reorganization of the imperial system. LEC.

HIST 508. Late Roman Empire (284-527). 3 Hours. H.
An investigation and analysis of the later Roman Empire from Diocletian to Justinian, emphasizing the Christianization of the empire, its division into Western and Eastern/Byzantine Empires, and the barbarian invasions. LEC.

HIST 509. Multinational Corporations: The Role of Money and Power. 3 Hours. H.
This course explores the origins, historical evolution, and global expansion of multinational corporations since the 1880s. Particular attention is devoted to U.S.-directed multinational businesses with both market-oriented and supply-oriented direct investments abroad and the competitive advantages gained by American capital, management, and marketing expertise vis-a-vis foreign firms operating in Canada, Europe, Asia, Latin America, and Africa. An objective of the course is to assist the student of international business in understanding, analyzing, and addressing various complex, interrelated and interdependent trends and issues in the world community that have had a critical impact on business performance in the international marketplace. LEC.

HIST 510. Topics in: _____. 2-3 Hours. H.
A study of a specialized theme or topic in History. May be repeated for credit when topic varies. LEC.

HIST 512. Foodways: Latin America. 3 Hours. H.
This course explores the traditional foods, ways of eating, and cultural significance of food among peoples of Latin America. The course surveys the vast array of flora in Central and South America and the Caribbean, and focuses on issues of environmental protection, bioethics, food security, and the growth of farming and ranching. The class studies the impact that foods such as maize, potatoes and cacao have had globally, and includes African, Asian, and European influences on Latin cuisine, as well as health problems associated with dietary changes. (Same as HWC 552, ISP 552, and LAA 552.) Prerequisite: Upper division course on Latin America, or permission of the instructor. LEC.

HIST 513. Early Medieval Culture. 3 Hours. H/W.
The formation of a new civilization in Western Europe between the decline of the Roman Empire and the First Crusade is the central stress in this topical study of the institutions and ideas characteristic of the Latin West, 300-1100. LEC.

HIST 515. The Crusades in Cross-Cultural Perspective. 3 Hours. H.
This course examines the development and evolution of the crusade as well as the history of the crusading movement from the 11th to the 15th centuries. Through an analysis of documents from Christian, Jewish, and Muslim perspectives, this course aims to consider “the Crusades” in the broadest possible context. One of the key questions to be addressed in this course is: how did these expeditions to the Holy Land both reflect and influence cross-cultural relations in the medieval Mediterranean World? LEC.

HIST 516. Later Medieval Culture. 3 Hours. H.
The civilization of Medieval Europe at its height (1100-1350); its subsequent disintegration and transformation. LEC.

HIST 519. European Intellectual History of the Seventeenth Century. 3 Hours. H/W.
This course will trace the development of the European intellectual tradition in the crucial period of the seventeenth century. Such topics as the changing views on religion, the decline of Humanism, and the rise of natural science form the center of the course and will be studied against the background of social and political change. Class sessions will consist of discussions of both primary and secondary sources. LEC.

HIST 520. The Age of the Renaissance. 3 Hours. H/W.
A survey of economic, political, social, and cultural developments in Italy in the 14th and 15th centuries, with special attention to those elements in the life of the age which look forward to the modern world. LEC.

HIST 521. The Age of the Reformation. 3 Hours. H/W.
The Protestant revolt of the 16th century. LEC.

HIST 522. The Age of Religious Wars, 1540-1648. 3 Hours. H/W.
The Catholic or Counter-Reformation and the wars of religion, including the Thirty Years War. LEC.

HIST 523. Europe between Absolutism and Revolution. 3 Hours. H/W.
An investigation of why the major states of Europe underwent a crisis at the end of the 1700s that culminated in a wave of democratic revolutions, reforms, and the wars of Napoleon. LEC.

HIST 524. The French Revolution. 3 Hours. H/W.
A study of the origins, development, and impact of the French Revolution, beginning with a description of France in the 18th century and ending with a look at France under Napoleon. LEC.

HIST 525. Modern France: From Napoleon to de Gaulle. 3 Hours. H/W.
A survey of the history of modern France. Beginning with an exploration of the impact of the Revolutionary and Napoleonic era on French institutions, politics, and society, this course examines the search for a viable political system, the acquisition of a colonial empire, the church-state controversy, and the rise of socialism in the nineteenth century, and considers the impact of two world wars on French society, the rapid modernization of countryside and cities, and French political leadership from Clemenceau to Blum to de Gaulle in the twentieth century. LEC.
HIST 527. Recent European History, 1870 to the Present. 3 Hours. H/W.
A study of the issues and themes that have shaped the contemporary European world, exploring European politics, economy, and society from the zenith of Europe’s power and influence at the turn of the century through two world wars and into the contemporary era. This survey begins with the period of consolidation of a system of major national states in western Europe and ends with the search for alternatives to that system in the break-up of empires and movements for European unity in the post-World War II era. The course also considers the emergence of the states of central and eastern Europe and examines the impact of the Russian Revolution and the Soviet state on European affairs. Not open to those who have credit in either HIST 435 or HIST 436. LEC.

HIST 528. Economic History of Europe. 3 Hours. S/W.
An introductory study of European economic history from the Middle Ages to the 1980s. Investigates the sources of economic growth, and the interaction between economic forces and social institutions. Topics covered will include the rise of commerce, the agricultural and industrial revolutions, imperialism, the Great Depression, and European recovery after World War II. (Same as ECON 535.) Prerequisite: ECON 104 or ECON 142 and ECON 144. LEC.

HIST 529. Intellectual History of 19th Century Europe. 3 Hours. H/W.
A survey of significant currents of thought during this period. Attention to the problem of the relationship between ideas and the historical situation. LEC.

HIST 530. History of American Women--Colonial Times to 1870. 3 Hours. AE41 / H.
A survey of women’s history in the United States that will consider women’s roles as housewives, mothers, consumers, workers, and citizens in preindustrial, commercial, and early industrial America. (Same as AMS 510 and WGSS 510.) LEC.

HIST 531. History of American Women--1870 to Present. 3 Hours. AE41 / H.
A survey of women’s history in the United States that will include radical and reform movements, the impact of war and depression, professionalization, immigration, women’s work, and the biographies of leading figures in women’s history. (Same as AMS 511 and WGSS 511.) LEC.

HIST 532. History of Women and Work in Comparative Perspective. 3 Hours. H.
This course explores the connection between historical changes in the labor process and the occupational choices available to women in different countries. Through discussion and analyses of texts, students will evaluate the construction of a gendered division of work as shaped over time by economic, cultural, and political forces. The chronological and geographical focus may vary depending on the instructor. (Same as AMS 512 and WGSS 512.) LEC.

HIST 533. The History of Women and the Family in Europe, from 1500 to the Present. 3 Hours. H/W.
This course examines how women’s roles and the family have changed in Europe from the early modern period to the present. It will consider the relation of women and the family to such cultural, social, and political changes as the Reformation, the French Revolution, middle class culture, industrialization, and the mass movements of the 19th and 20th centuries. LEC.

HIST 534. Captivity in America, 1492-1800. 3 Hours. H.
Captivity, threatened and actual, shaped the lives of the people of North America. It profoundly influenced the ways in which individuals and communities thought about themselves and the people around them. Colonists feared captivity among Native Americans; centuries later, Americans in the early republic rallied to the cause of their countrymen captured by Barbary pirates. This course examines the impacts, cultural, social, religious, and otherwise, of a variety of forms of captivity in colonial British, Spanish, and French North America. Topics in this course may include the captivity of European explorers and settlers by Native American groups; the enslavement of peoples from Africa to European and Native American masters; prisoners of war; naval impressment; and the displacement and captivity of Native American individuals and communities. Prerequisite: Successful completion of prior history course numbered below 500. LEC.

HIST 537. France from the Renaissance to the French Revolution. 3 Hours. H.
A study of the major political developments of early modern France, including absolutism, corporate institutions, and popular revolts, as well as an examination of the everyday life and beliefs of ordinary people. LEC.

HIST 538. European Intellectual History of the Eighteenth Century. 3 Hours. H.
An examination of the writing, ideas, and language of the major thinkers of the Enlightenment, including Diderot, Hume, Kant, Lessing, Rousseau, and Voltaire. LEC.

HIST 541. British History, 1500-1660. 3 Hours. H.
An introduction to the impact on the British Isles of the Reformation and Renaissance; the development of the Tudor state; Parliament; the Stuart monarchy; the Anglican counter-reformation; civil war; the Cromwellian experiment. LEC.

HIST 543. Modern Iran. 3 Hours. NW / H.
A history of Iran from the sixteenth century to the present with an emphasis on religious, political, and cultural history. Topics will include the establishment of Shi‘ism as the state religion in the sixteenth century, the evolution of religio-political thought among the Shi‘ite clerical establishment, great power politics in the nineteenth century, European cultural and intellectual influence, nation-building and nationalism in the twentieth century, the Islamic revolution of 1979, and Iranian politics since the revolution. Prerequisite: HIST 327 and HIST 328. LEC.

HIST 544. Britain and Ireland from 1200 to 1500. 3 Hours. H.
Survey of social, cultural, political, and economic developments with particular emphasis on interaction between Anglo-Norman/English and Celtic societies. LEC.

HIST 545. British History, 1660-1832. 3 Hours. H.
A study of Britain’s recovery from civil war; state formation and national identity; ideological conflict; the Revolution of 1688; religion and secularization; social stability and commercial expansion; reform; threats to the state, and the American revolution; Britain’s survival of the French Revolution; the breakdown of the ancient regime in 1828-32. LEC.

HIST 546. History of Cartography. 3 Hours. H.
A history of mapmaking worldwide from its origins to the present day. Emphasis on maps as historical records of evolving civilizations and cultural landscapes and methods of study early maps. (Same as GEOG 519.) LEC.

HIST 547. The Intellectual History of Europe in the Twentieth Century. 3 Hours. H.
This course will examine in depth the leading developments in European thought from the 1920’s to the present. Topics will include: existentialism, philosophic hermeneutics, and postmodernism. LEC.

HIST 548. British History, 1832 to the Present. 3 Hours. H.
A study of the rise of modern Britain from the 1832 Reform Act, a major step on the path from aristocratic government to mass democratic politics.
It covers the politics and society of the Victorian era, the extension of British influence overseas, the origins and social impact of two world wars, the creation of the Welfare State, the loss of Empire, and Britain’s entry into Europe. LEC.

HIST 551. Spain and its Empire, 1450-1700. 3 Hours. H.
This course will examine the society and culture of Spain in the period known as "the Golden Age." Subjects that will receive attention include: rural and urban society, economic and political organization of the Spanish and American peoples in the early years of the conquest, the place of women in society, the social basis for "Golden Age" culture, and the debate over the "decline of Spain. LEC.

HIST 552. United States Environmental History in the 20th Century. 3 Hours. H.
Americans dramatically changed the natural world between 1900 and 2000. This course asks how transformed environments shaped the American experience during a century of technological innovation, democratic renewal, economic expansion, global conflict, and cultural pluralism. Topics include food and markets, energy and transportation, law and politics, protest and resistance, suburbanization, and environmentalism’s fate in a global information era. (Same as EVRN 562.) LEC.

HIST 555. Aspects of British Political Thought. 3 Hours. H.
This course will offer an introduction to a number of classic works in British political thought, placed against their historical background. Close reading of selected texts will be combined with contextual analysis. LEC.

HIST 556. Aspects of British Political Thought, Honors. 3 Hours. H.
Similar in content to HIST 543. This course will offer an introduction to a number of classic works in British political thought, placed against their historical background. Close reading of selected texts will be combined with contextual analysis. Open only to students in the University Honors Program or by permission of the instructor. LEC.

HIST 557. Nationalism and Communism in East Central Europe from 1772 to the Present. 3 Hours. H/W.
The peoples of East Central Europe under Hapsburg, Romanov, and German rule; the dissolution of the empires, independence and the role of the new states in the European balance of power; World War II, Soviet domination, and the recent role of East Central Europe in the Communist World. LEC.

HIST 558. Religion in Britain Since the Reformation: A Survey. 3 Hours. H.
This course will deal analytically and synoptically with religion in Britain from the Reformation to the present with special reference to the Church of England, and focuses on the theses of ecclesiology, ecclesiastical polity, and political theology. It is essentially an examination of religious history from a perspective of the history of ideas. (Same as REL 558.) LEC.

HIST 559. Religion in Britain Since the Reformation: A Survey, Honors. 3 Hours. H.
This course deals analytically and synoptically with religion in Britain from the Reformation to the present with special reference to the Church of England, and focuses on the theses of ecclesiology, ecclesiastical polity, and political theology. It is essentially an examination of religious history from the perspective of the history of ideas. Open only to students in the University Honors Program or by permission of instructor. (Same as REL 559.) LEC.

HIST 560. The Value of Freedom. 4 Hours. H.
This course explores multiple definitions of freedom: its value, limitations, and evolving meaning. The course specifically focuses on four major contexts in which human beings have faced existential questions about freedom’s value: politics, religion, work, and gender relations. The goals are to explore the ways in which other societies and epochs have valued freedom and balanced it against competing social goods and thus to attune students to the particularities of today’s definitions and celebrations of freedom. LEC.

HIST 561. Liberation in Southern Africa. 3 Hours. NW AE42 / H.
This course examines struggles for freedom in southern Africa and the consequences of political, economic, and social changes in the region. The end of colonial rule, the demise of white-settler domination, and the fall of the apartheid regime is discussed. As a major political event of the twentieth century, the liberation of southern Africa had both local and global consequences. The course analyzes transnational issues of liberation and resistance to consider broader regional and international perspectives. Course themes pay particular attention to gender and ethnicity and include a focus on democratization and contemporary meanings of liberation. Prior coursework in African Studies is strongly recommended, but not required. (Same as AAAS 561 and POLS 561.) LEC.

HIST 562. United States Environmental History in the 20th Century. 3 Hours. H.
Americans dramatically changed the natural world between 1900 and 2000. This course asks how transformed environments shaped the American experience during a century of technological innovation, democratic renewal, economic expansion, global conflict, and cultural pluralism. Topics include food and markets, energy and transportation, law and politics, protest and resistance, suburbanization, and environmentalism’s fate in a global information era. (Same as EVRN 562.) LEC.

HIST 564. Medieval Russia. 3 Hours. H.
Political, economic, social, cultural, and religious developments of Russia from the beginnings of the Russian state in the 9th Century through the 17th Century. LEC.

HIST 565. Imperial Russia. 3 Hours. H/W.
The history of Imperial Russia from Peter the Great’s reinvention of the empire in the eighteenth century to its demise in the revolutions of 1917. Placing Russia in a global context, the course examines change and continuity in politics, society, economy, and culture and looks at Russia as a diverse empire between Europe and Asia. Readings include historical scholarship and some of the classics of Russian literature. LEC.

HIST 566. The Rise and Fall of the Soviet Union, 1917 to the Present. 3 Hours. H/W.
An exploration of the Soviet Union’s creation, evolution, collapse, and legacy in contemporary Russia and Eurasia. Drawing on historical scholarship, literature, music, and film, the course examines the major trends and developments in Soviet politics, ideology, society, economy, and culture. Special attention is paid to how the multiethnic Soviet state’s rise and fall reflected broader changes in the world during the “Soviet century. LEC.

HIST 568. The Rise and Fall of the Soviet Union, 1917 to the Present. 3 Hours. H/W.
An intensive study of developments and changes in the Middle East since World War II. Topics and themes will vary, but may include the long-lasting effects of European imperialism, Big Oil and the energy crisis, the Arab-Israeli conflict and peace process, American intervention in the Middle East, minority communities, and the revival of Islamic and popular protest movements. LEC.

HIST 570. The Middle East After World War II. 3 Hours. NW AE42 / H/W.
The course will analyze the social, political, and economic problems of the Latin American nations from their independence to the Mexican
Revolution (1910). Emphasis will be on the emergence and shaping of the new countries; their transition to modern industrializing societies; and the impact of this transition on Latin American society. LEC.

HIST 574. Slavery in the New World. 3 Hours. H/W.
Slavery, slave culture, and the slave trade in the U.S., Latin America, and the Caribbean will be examined comparatively. Attention will also be given to African cultures, the effects of the slave trade on Africa, and the effects of African cultures on institutions in the New World. (Same as AAAS 574.) LEC.

HIST 575. History of Mexico. 3 Hours. H/W.
Mexican history from preconquest days to the contemporary period. LEC.

HIST 576. History of the Caribbean and Central America. 3 Hours. H/W.
A comparative examination of Central America and the Caribbean. Emphasis is on understanding the complex social, cultural, and political development of this broad region from the pre-Columbian period until the modern era. Topics include: conquest, colonization, racial and ethnic diversity, economic development, political conflict, and globalization. Prerequisite: HIST 120, HIST 121, or HIST 370. LEC.

HIST 578. Social History of South America. 3 Hours. H/W.
The course treats the long-term effort of the South American nations to become urban industrial societies through economic development, emergence of modern pressure groups, improvement of human capital, and the fostering of a sense of national purpose and unity expressed in the participation of the whole population in all of the activities and benefits of life in society. LEC.

HIST 579. The History of Brazil. 3 Hours. H/W.
The history of Brazil from European discovery to the present with emphasis on social and economic change. Topics discussed will include the Indian, African, and European backgrounds, slave society, the frontier in Brazilian development, cycles of economic growth and regionalism, the role of foreign capital, industrial development, labor, urban problems, the military in government, and human rights. LEC.

HIST 580. Economic History of Latin America. 3 Hours. H/W.
A study of the changing economic conditions in Latin America from Colonial times through the Twentieth Century and the effect of these conditions on Latin American society. Emphasis will be on the major theoretical issues of development economics, patterns of growth, and suggested strategies for economic development. Analysis will center on changes in agriculture, industry, labor, finance, transportation and technology, urbanization, immigration, role of women, export and commerce, and foreign involvement. LEC.

HIST 582. Ancient Japan. 3 Hours. NW / H.
Course covers the history of Japan from the prehistoric era through the ancient period (approximately 10,000 BC to 1200 AD). Topics examined include the rise of Japanese Civilization, state formation, early capitals, belief systems, courtly culture in the Heian period (794-1185), and daily life. Writing assignments provide students with opportunities to gain familiarity with historical methods for analysis and to strengthen their written expressions. Not open to students who have taken HIST/EALC 586. LEC.

HIST 583. Imperial China. 3 Hours. NW / H/W.
An intensive survey of China's traditional civilization and its history, with emphasis on the last centuries of imperial rule under the Sung, Yuan, Ming, and Ch'ing dynasties (to 1850). (Same as EALC 583.) LEC.

HIST 584. Modern China. 3 Hours. NW AE42 / H/W.
An intensive survey of China's history from the early 19th century to the present. Key topics include the decline of the traditional system, the rise of communism, the Maoist era, and the tensions of change and control in the 1980s and 1990s. (Same as EALC 584.) LEC.

HIST 587. Early Modern Japan. 3 Hours. NW AE42 / H/W.
Early modern Japan (16th to 19th century) examines the history, culture, and patterns of life during an era of rigid social control but artistic brilliance. After an historical overview of the period, students will explore topics including the social structure, travel, religion, thought, and the formation of traditional cultural forms such as Kabuki theater. (Same as EALC 587.) LEC.

HIST 588. Japan, 1853-1945. 3 Hours. NW / H/W.
This course provides an intensive survey of Japanese history from the arrival of Commodore Perry through the Pacific War. Social, economic, and political themes will be emphasized. Among the topics covered will be the Meiji Restoration, industrialization, Japanese imperialism, Taisho democracy, and wartime mobilization. (Same as EALC 588.) LEC.

HIST 589. Japan Since 1945. 3 Hours. NW / H/W.
This course provides an overview of Japanese history from the end of World War II to the present day. Among the topics covered will be the Allied Occupation, postwar politics and social change, the economic "miracle," popular culture, women and the family, crime and punishment, the educational system, and Japan’s place in the world. (Same as EALC 589.) LEC.

HIST 590. Cultural History of Korea. 3 Hours. H.
This course examines the cultural history of Korea in periods prior to the 19th Century. Special attention is given to varying constructions of cultural value, heritage, and identity, together with the historically specific factors that engendered them. (Same as EALC 563.) LEC.

HIST 591. Food in History: West and East. 3 Hours. H/W.
A survey of scholarship on food in the West and in East Asia, choosing works primarily by historians, but also by sociologists, geographers, and anthropologists. We consider how scholars have approached issues concerning food productions and consumption, what habits of eating reveal about daily life, and how and when food is embedded with historiography related to these topics, keeping in mind the famous maxim of the noted French gastronome Brillat-Savarin (d. 1826): “Tell me what you eat: I will tell you what you are.” LEC.

HIST 593. Modern Korea. 3 Hours. NW / H/W.
This course will examine selected topics in Modern Korean history in the 19th and 20th centuries, with special emphasis on Korea’s connections to China and Japan. (Same as EALC 593.) Prerequisite: A college-level course in East Asian history or culture, or consent of instructor. LEC.

HIST 594. Law and Society in Traditional China. 3 Hours. S/W.
The course begins with a series of lectures on the main principles underlying Chinese social structure. The course then examines the application of those principles in legal cases. Students read legal cases in translation and argue them in class. (Same as EALC 594.) Prerequisite: A course in Chinese history. LEC.

HIST 596. Defining Japan: Marginalized Groups and the Construction of National Identity. 3 Hours. NW / H/W.
This course investigates the construction of national identity in modern Japan by examining the historical experiences of groups marginalized by mainstream society. We will explore the pressures of conformity, the pervasiveness of social ostracism and the surprising diversity in Japanese society. Among the groups discussed will be indigenous peoples (the Ainu, Okinawans), the Korean minority, the outcast class (burakumin), the sick and disabled, the yakuza, and political activists. (Same as EALC 596.) LEC.
HIST 597. Japanese Theater History. 3 Hours. NW / H/W.
This course examines the historical development and characteristics of Japanese theater, with special attention to traditional theater and the genres of noh, kyogen, and kabuki in particular, tracing their origins in the pre-modern era and their continued performance today. To gain an understanding of the historical and artistic setting of these arts, lectures and readings will consider broader issues such as performance and ritual in religion and daily life, gender and representation, and folk theater. A portion of this class will include practical studies of theatrical forms including noh dance and kabuki music (shamisen). (Same as EALC 597.) LEC.

HIST 598. Sexuality and Gender in African History. 3 Hours. NW AE42 / H.
An examination of the history of sexuality and gender in Africa with a focus on the 19th and 20th centuries. Major issues and methods in the historical scholarship on gender and sexuality will be covered. Topics of historical analysis include life histories, rites of passage, courtship, marriage, reproduction, education, masculinities, homosexuality, colonial control, and changing gender relations. Prior course work in African history is suggested. Graduate students will complete an additional project in consultation with the instructor. (Same as AAS 598.) LEC.

HIST 599. The Rise and Fall of Apartheid. 3 Hours. H.
This course will deal with the last fifty years of South African history during which apartheid came to be formulated, supported, and perpetuated, and the forces that were responsible for its disintegration by 1990. Reference will also be made to the transformation process since April 1994. (Same as AAS 590.) LEC.

HIST 600. West African History. 3 Hours. NW / H/W.
A study of the political, social, and economic development of West Africa until the colonial era. Major focus will be on the role of state formation, trade, ecology, and urbanization in the formation of centralized politics from the 11th to the 16th centuries and the impact of the process of Islamization and Muslim revolution on political and socioeconomic change in selected West African societies in the 19th century. LEC.

HIST 601. Oral History. 3 Hours. H.
This course explores the emergence of oral history as a methodology and focuses on the guidelines and ways to effectively use oral history in historical, journalistic, and social science research. The skills of collecting and sorting information gathered through eyewitness accounts, oral traditions, genealogies, investigative reporting procedures, and questionnaires are developed. The nature of the interview in relation to personal and public documents, ordinary conversation, and other related data sources will be considered in this course. LEC.

HIST 602. Religion in Britain 1785-1925. 3 Hours. H.
This course offers an examination of religious thought and practice during the transition from a pre-industrial, unitary order to a modern urban, industrial, and secular society. It will stress the close study of a range of selected texts, including works by such authors as works by Paley, Horsley, Wilberforce, Thomas Arnold, Newman Maurice, essays and reviews, Jowett, Lux Mundi, Gore, and Temple. It will attend to continental European influences on British thought and set theological debate in the wider context of the intellectual history of the period. LEC.

HIST 603. History of Tibet. 3 Hours. NW AE42 / H.
This course surveys the cultural and political history of Tibet from the eighth to the twentieth century. Through readings, lectures, and discussions, students gain familiarity with the dominant features of Tibetan civilization. Topics include the relationship between Tibet and the civilizations of India and China, Tibetan Buddhism, and the tensions between the struggle for Tibetan independence versus claims of Chinese sovereignty. The course also considers the Tibetan diaspora and the reception of knowledge about Tibetan civilization in the West. LEC.

HIST 604. Contemporary Greater China. 3 Hours. NW AE42 / H.
This course considers contemporary Greater China, Taiwan, and Hong Kong in comparative perspective. It begins in the early twentieth century so as to set up a comparison between Nationalist, Communist and Colonial China. It focuses on the evolution from the 1940s to the present studying the political, economic and social systems of the three regions that constitute what we now call ‘Greater China’ and considers, in particular, important points of difference and similarity between them. LEC.

HIST 605. Medieval Japan. 3 Hours. NW AE42 / H.
Course examines the history of Japan from the end of the ancient period (c. 1200 AD) through the medieval era (approximately 1573). Issues covered include the formation and destruction of the Kamakura and Muromachi warrior governments, medieval religious life and culture. Writing assignments provide students with opportunities to gain familiarity with historical methods for analysis and to strengthen their written expression. Not open to students who have taken HIST/EALC 586. LEC.

HIST 608. History of Sexuality. 3 Hours. H.
This survey course traces the changing conceptions of human sexuality from early civilizations to the present. It will include, but not be limited to, such topics as attitudes and beliefs, laws, sciences and medicine, cultural differences, and the impact of economic change on sexual definition and experience. LEC.

HIST 609. History of Women and Reform in the United States. 3 Hours. AE41 / H.
This survey course will outline the history of women’s involvement in reform movements in the United States from 1600 to the present. It will include, but not be limited to, such topics as labor movements, utopian communities, religious revivals, moral reform, women’s rights, civil rights. LEC.

HIST 610. American Colonial History. 3 Hours. H.
Examines colonial American history from the age of Columbus to the mid-1760s. The course seeks to place colonial American history into the larger historical context, particularly the expansion of the British Empire in the early modern period. Emphasis in the course will be on migration, social and economic conditions, and inter-racial relations. LEC.

HIST 611. Early American Indian History. 3 Hours. H.
This course will focus on the history of American Indians, especially those of the eastern woodlands, from precontact times to the 1830’s. Particular emphasis will be on the response of Indians to demographic catastrophe, the development of trade between Indians and colonists, and Indian responses to European colonization in British America and New France. The role of Indians in the American Revolution and the changes caused by Removal will also be treated. LEC.

HIST 612. History of Federal Indian Law and Policy. 3 Hours. H.
This course offers a comprehensive examination of federal legislation and court decisions in the United States that have affected American Indians. The history of law and policy will be traced from the colonial period, but the major emphasis will be on the struggles of American Indians to preserve sovereignty in the 19th and 20th centuries. LEC.

HIST 613. Slavery and Freedom in the Age of Jackson. 3 Hours. H.
This course focuses on the growing importance of the issues of slavery and freedom in the United States between 1815-1848. Recently, scholars have demonstrated that the period was one of disorienting, dramatic, and unprecedented change as politics, economics, racial and gender roles, and key institutions were permanently transformed. The course will examine these changes and how they, in turn, remade the values and identities of all Americans. LEC.
HIST 615. Rise of Modern America: Politics, Culture, and Society, 1900-1950. 3 Hours. H.
The history of the United States in the First Half of the Twentieth Century. LEC.

HIST 616. Contemporary America, 1941-Present. 3 Hours. H.
A history of the United States from its entry into World War II to the present. A study of such selected topics as women's history and feminism, race relations and the Afro-American civil rights movement, power, poverty, the military-industrial complex, McCarthyism, and presidential administrations. LEC.

HIST 617. America in the 1960's. 3 Hours. H.
The people of the United States experienced significant social political, and cultural change during the 1960's. This course studies the history of these changes, focusing on the American people, the institutions that shaped their lives, and the social and political movements, for and against change, that surfaced during this decade. Specific topics include: the struggle for racial equality, the Kennedy, Johnson, and Nixon administrations; the Vietnam War, the antiwar movement, New Left, and counterculture; feminism's rebirth; the white backlash; and the resurgence of political and cultural conservatism. Course requirements include readings, discussion, and original historical research and writing. LEC.

HIST 618. History of the American West to 1900. 3 Hours. H.
A survey of Western history with emphasis on such topics as Native Americans and Indian-white relations, environment and resource use, exploration and discovery, expansionism and Manifest Destiny, economic development, urban, rural, and alternative communities, ethnic and racial experience, women and violence. Consideration will also be given to topics such as fur trade, mining, the cattle business, and agriculture. LEC.

HIST 619. History of the American Indian. 3 Hours. NW / H/W.
A study of Indians in the United States from colonial times to the present. Consideration will be given to the political, social, and cultural history of selected Indian tribes and to Indian-white relations with particular attention to the Indian point of view. Other topics will include a comparative study of Indian policy of nations colonizing in America, cultural intermingling and cultural conflict, and current Indian problems. Slides, films, and guest speakers (including American Indians) will be used in the course. LEC.

HIST 620. History of Kansas. 3 Hours. H.
A survey of the history of culture and society from prehistory to the present. Topics include Native American life, Euro-American resettlement, Bleeding Kansas and the Civil War, agricultural settlement, urbanization and industrialization, depression and recovery, and modern Kansas in transition. LEC.

HIST 621. The American West in the 20th Century. 3 Hours.
A study of the post-frontier era and the struggle to create a regional identity, drawn from legends of the heroic past, varieties of racial and ethnic experience, political culture, and the possibilities of the land. LEC.

HIST 622. History of the Plains Indians. 3 Hours. NW / H/W.
A history of the Plains Indians from the sixteenth century to the present. Consideration will be given to tribal culture and society, to the impact of the fur trade and international rivalries on tribes, and to Indian-white relations. LEC.

HIST 625. Body, Self and Society. 3 Hours. H.
An intensive examination of the role of the human body in the creation of personal and social identities in the Western world. Students become acquainted with contemporary theories of embodiment and senses as they are applied to a variety of historical themes, and develop research projects on a topic negotiated with the instructor. (Same as HWC 575, WGSS 575.) Prerequisite: An upper-division course in History, Humanities and Western Civilization, or Women Gender and Sexuality Studies; or permission of instructor. LEC.

HIST 626. Men and Masculinities. 3 Hours. H.
An intensive examination of the history and theory of masculinities in the Western world. Students become acquainted with some of the key theories of men and masculinities, and develop research projects on a topic negotiated with the instructor. (Same as HWC 570, WGSS 570.) Prerequisite: An upper-division course in History, Humanities and Western Civilization, or Women Gender and Sexuality Studies; or permission of instructor. LEC.

HIST 628. American Economic Development. 3 Hours. H.
An introductory study of the development of the American economy from colonial times to the present. Investigates long-term trends in output, population, and output per capita, as well as short period fluctuations, and the variables and institutions that determined these fluctuations and trends. (Same as ECON 530.) Prerequisite: ECON 104 or ECON 142 and ECON 144. LEC.

HIST 629. The United States and the World to 1890. 3 Hours. H.
The origins of American diplomacy from the wars of the 18th century and the Revolution to 1901. The foreign relations of the American government and the reactions of the American people to international problems. LEC.

HIST 630. The United States and the World, 1890-2003. 3 Hours. H.
An examination of the history of United States foreign relations over the course of the twentieth century. Treats America's emergence as a world power before World War I, imperialism and interventionism, involvement in World War I and World War II, internationalism, the Cold War and America's anti-communist crusade, third world nationalism, responses to a global economy, and the obligations of a military superpower in a chaotic world. LEC.

HIST 631. The Contemporary Afro-American Experience. 3 Hours. H.
A history of Afro-America from the end of the Civil War to the present. Consideration will be given to such topics as America's capitulation to racism, blacks in agriculture, blacks and the labor movement, Booker T. Washington and W.E.B. DuBois, civil rights protest, migration and urbanization, Marcus Garvey and black nationalism, the Harlem Renaissance, blacks during the New Deal, blacks in recent politics, the modern civil rights movement, ghetto uprisings, and the changing relationships among race, caste, and class. LEC.

HIST 636. Agriculture in World History. 3 Hours. H.
A survey of the development of agriculture from prehistory through the present. The major themes of the course will be how various methods of farming have spread around the world, how new techniques have transformed agriculture, and how peasants and farmers have interacted with cities and governments. LEC.

HIST 640. Entrepreneurship in East Asia. 3 Hours. NW / H.
An intensive examination of the history and current status of entrepreneurship in China, Japan, and other nations in East Asia. This course investigates the role of entrepreneurs in Asian economic development from the nineteenth century to the present, as well as the relation between entrepreneurship and Asian cultural traditions. The opportunities and challenges of entrepreneurship in East Asia today are also considered. (Same as EALC 520.) LEC.

HIST 646. Witches in European History and Historiography. 3 Hours. H.
This course examines witches, witchcraft, and magic in Europe in the late medieval and early modern period (approximately 1200-1700 C.E.). Particular emphasis will be on the variety of historical and anthropological approaches that have been used to study the subject and their meaning in
the context of gender politics and gender theory. (Same as WGSS 646.) LEC.

HIST 649. History of Feminist Theory. 3 Hours. H.
This discussion course will cover the development of feminist theories from the late Middle Ages to the present. Reading will include Pisan, Wollstonecraft, Mill, Freud, Woolf, Beauvoir, Friedan, Daly, Kristeva, and others. (Same as WGSS 549.) LEC.

HIST 653. American Constitutional History to 1887. 3 Hours. H.
A historical study of the colonial origins, revolutionary development, creation of, struggle over and preservation of the American constitutional system from 1763 to 1887. LEC.

HIST 654. American Constitutional History Since 1887. 3 Hours. H.
A historical study of the evolution of thought and practice of the constitutional system from the conflict over government regulation of business, through the expansion of executive and legislative power, to the evolution of protections of Bill of Rights guarantees by the Supreme Court and the reaction against that evolution. LEC.

HIST 660. Biography of a City: ______. 3 Hours. AE42 / H.
These interdisciplinary, team-taught courses survey the artistic, intellectual, and historical development of the great cities of the world. London, Paris, and Rome have been offered in recent semesters, and other cities will be studied in the future. LEC.

HIST 661. Palestine and Antiquity. 3 Hours. H.
A survey of the history of Palestine from biblical origins to the Muslim conquest, with emphasis on such topics as social and religious institutions, cultural and communal diversity, and relations between foreign powers and local authorities. The course further explores the roots of the present conflictual situation in this part of the Middle East. LEC.

HIST 666. Contemporary America, 1941-Present, Honors. 3 Hours. H.
A survey of the economic, social, political, and cultural history of the United States from its entry into World War II to the present. Students with credit in HIST 614 or HIST 616 should not enroll in HIST 666. LEC.

HIST 670. Comparative Diasporas. 3 Hours. H.
This course examines history from the point of view of diasporas, groups who move across established borders but maintain an identity linked to an original homeland. This course examines commonalities and differences in the diaspora experience by looking comparatively at a range of prominent cases, including the Jewish, African, Armenian, Greek, Turkish, German, Irish, Italian, South Asian, and Chinese diasporas, the “Gypsies,” and the internal diasporas of multiethnic states like Russia. The course also gives students the opportunity to pursue research on a diaspora of their own choosing. LEC.

HIST 696. Seminar in: ______. 3 Hours. AE61 / H.
A seminar designed to introduce students to the theory and practice of historical inquiry. A research paper will be required. May not be repeated for credit. Prerequisite: Twelve hours of upper-class courses in history and completion of HIST 301 or consent of instructor. LEC.

HIST 699. Philosophy of History. 3 Hours. H.
Topics will include: The nature of historical knowledge; the problems of historical inquiry; a critique of philosophies of history; and a study of history and related disciplines. (Same as PHIL 696.) Prerequisite: A distribution course in philosophy. LEC.

HIST 705. Globalization in History. 3 Hours.
A study of the increasing interaction among world societies since 1500 and an investigation of the long-term developments behind current world problems. Major topics include western expansion since 1500, the spread of state sovereignty, the formation of a world economy, and spread of international institutions. The current world problems investigated will vary, but may include issues such as environmental crises, human rights, migration, free trade and the spread of consumer culture, ethnicity and nationalism, and international intervention within states. (Same as INTL 705.) LEC.

HIST 719. Colloquium in Medieval Latin. 3 Hours.
An introduction to Medieval Latin for students pursuing medieval studies. The material covered will include selections from various literary works, the Vulgate, law codes, legal documents, and other sources from the period 300-1500. May not be retaken for credit. Prerequisite: Four semesters of college Latin or the equivalent, and/or consent of instructor of Ancient-Medieval graduate advisor. LEC.

HIST 720. The Nature of Museums. 3 Hours.
The purpose of this course is to provide an overview of the kinds of museums, their various missions, and their characteristics and potentials as research, education, and public service institutions responsible for collections of natural and cultural objects. (Same as AMS 720, BIOL 788, GEOL 782, and MUSE 702.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

HIST 721. Introduction to Museum Public Education. 3 Hours.
Consideration of the goals of an institution’s public education services, developing programs, identifying potential audiences, developing audiences, and funding. Workshops and demonstrations are designed for students to gain practical experience working with various programs and developing model programs. (Same as AMS 797, BIOL 784, GEOL 784, and MUSE 705.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

HIST 722. Conservation Principles and Practices. 3 Hours.
This course will acquaint the future museum professional with problems in conserving all types of collections. Philosophical and ethical approaches will be discussed, as well as the changing practices regarding conservation techniques. Emphasis will be placed on detection and identification of causes of deterioration in objects made of organic and inorganic materials, and how these problems can be remedied. Storage and care of objects will also be considered. (Same as AMS 714, BIOL 700, GEOL 780, and MUSE 706.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

HIST 723. Introduction to Museum Exhibits. 3 Hours.
This course will consider the role of exhibits as an integrated part of museum collection management, research, and public service. Lecture and discussion will focus on issues involved in planning and producing museum exhibits. Laboratory exercises will provide first hand experience with basic preparation techniques. Emphasis will be placed on the management of an exhibit program in both large and small museums in the major disciplines. (Same as AMS 700, BIOL 787, GEOL 781, and MUSE 703.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

HIST 725. Principles and Practices of Museum Collection Management. 3 Hours.
Lecture, discussion, and laboratory exercises on the nature of museum collections, their associated data, and their use in scholarly research; cataloging, storage, fumigation, automated information management and related topics will be presented for museums of art, history, natural history and anthropology. (Same as AMS 730, BIOL 798, GEOL 785, and MUSE 704.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

HIST 727. Practical Archival Principles. 3 Hours.
Study of the principles and practices applicable to the preservation, care, and administration of archives and manuscripts. Practical experience will be an integral part of this course. (Same as MUSE 707.) LEC.
HIST 728. Museum Management. 3 Hours.
Lecture, discussion, and laboratory exercises on the nature of museums as organizations; accounting, budget cycles, personnel management, and related topics will be presented using, as appropriate, case studies and a simulated museum organization model. (Same as AMS 731, BIOL 785, GEOL 783, and MUSE 701.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

HIST 740. Topics in History for Educators: ______. 1-3 Hours.
Reading and discussion of selected historical topics, designed specifically for K-12 educators. Pedagogical methods and resources for the study of history will be addressed. Prerequisite: Approval of the instructor. LEC.

HIST 747. East Asian History and Culture for Teachers. 2 Hours.
An advanced survey of the history, culture, and contemporary affairs of China, Japan, and Korea, specifically designed for K-12 educators who wish to incorporate East Asian topics into their classroom teaching. Pedagogical methods and resources for the study of East Asia will be emphasized. Topics covered will address relevant benchmarks in the state curricular standards in social studies, themes from the Advanced Placement world history examination, and the national standards in world history. (Same as EALC 747.) Prerequisite: Approval of the instructor. LEC.

HIST 748. East Asian Historical Materials: ______. 3 Hours.
The aim of the course is to provide students with the linguistic tools needed for archival research in East Asian history by assisting them in gaining experience reading primary and secondary language materials in Japanese and/or Chinese including texts in classical forms of these languages. After studying the rules of classical grammar and the particulars of historical materials as needed, students will read primary documents in conjunction with secondary readings in Japanese and/or Chinese. Fundamental aspects of paleography may also be introduced in this course depending on student need. Prerequisite: Capability of reading Japanese or Chinese and permission of the instructor. LEC.

HIST 799. Museum Studies Apprenticeship. 1-6 Hours.
Provides directed, practical experience in the collection, care, use, and/or management of historical materials. (Same as AMS 799, ANTH 799, BIOL 799, GEOL 723, and MUSE 799.) Prerequisite: Consent of instructor. FLD.

HIST 800. Readings in: ______. 1-8 Hours.
Prerequisite: Consent of instructor. RSH.

HIST 801. Colloquium in: ______. 1-6 Hours.
Reading and discussion of selected topics. LEC.

HIST 802. Seminar in: ______. 3 Hours.
Research Seminar on selected topics. SEM.

HIST 805. The Nature of History. 3 Hours.
Analysis of what historians do and how the profession of history has developed in terms of training, concepts, and practices in both research and teaching. Consideration also of the major controversies that have developed over historical method and historical interpretation, giving greatest emphasis to American and European historiography by providing a relationship to the leading concepts of world history. LEC.

HIST 806. Studies in: ______. 3 Hours.
The core course for each thematic major field in the graduate program in History. The course, offered in a colloquium style format, will serve as an introduction to the principal standard literature in the field, and will consider the full range of methodologies or approaches appropriate to the field. LEC.

HIST 807. Professional Development Colloquium in Pedagogy. 3 Hours.
This course will help train future professional historians to teach. It will focus on a variety of pedagogical topics for future college history faculty, including: developing students’ critical and analytical thinking; teaching research skills; promoting student involvement/participation; determining course goals; use of multi-media technology. In addition to attending class meetings of History 807, students will attend as observers throughout the semester one 500/600-level course in an area relevant to their future teaching and complete the readings assigned to the class. They will produce a course portfolio for an undergraduate course, including: a syllabus designed by the student; a set of assignments that will be part of that course, such as examinations and papers; sample lesson plans; an annotated bibliography of materials relevant to the subject-matter of the course. LEC.

HIST 808. Colloquium in Comparative History: ______. 3 Hours.
A readings-oriented course which explores themes in two or more geographic and/or chronological fields of history. The benefits and disadvantages of comparative methodologies will be analyzed. Topics will vary each term but may include the examination of such subjects as the history of urbanization, labor, colonialism, immigration, the family, political thought, or industrialization. Prerequisite: Varies with area of subtopic. LEC.

HIST 820. Colloquium on Popular Culture in Latin America. 3 Hours.
This course examines the history and theory of popular culture in 19th and 20th century Latin America from a cross-disciplinary perspective. Some of the topics covered could include: the historical development of urban popular culture from broadsides and newspapers to radio and telenovelas; the politics of music from the tango to the new song movement; folk art vs. High art in the definition of national identity; cultural imperialism; sports and public rituals as spectacles for the working class; relationship between mass culture and the novel; gender roles and social order as revealed in forms of popular culture; and the politics of the New Latin American Cinema. Discussions will be in English. No prerequisites. LEC.

HIST 821. Colloquium on Slavery in World. 3 Hours.
This course will examine the development, scope, and impact of slavery in the Atlantic World (1350-1900). A major focus of this course will be the relationship between various local and regional manifestations of slavery and how those relationships shaped the institution of slavery. Geographically the course will include literature on slavery in Europe, Africa, North America, and Latin America. Emphasis will be placed on examining the effects of slavery on Africans, their descendants, as well as other members of society including European settlers and Native Americans. The readings for this course will highlight important facets of slave life including religion, family life, manumission, and labor. Overall this course aims to illustrate the complex ways in which slavery permeated and shaped the societies that constitute the Atlantic World. LAB.

HIST 822. Colloquium in the Urban History of Latin America. 3 Hours.
Explores the growth of the city and urban culture from the Spanish conquest to the present. Focus on such topics as crime, public health, leisure activities, artisans, unionization, residential patterns and transportation. LEC.

HIST 823. Colloquium on Colonial Latin America. 3 Hours.
Explores the historiography and major themes and problems of the history of colonial Latin America. Ordinarily this will involve reading and discussion of historiographical articles, major works in the field and works involving new approaches and perspectives. A long historiographical paper will be required. LEC.
HIST 824. Seminar on Labor in Latin America. 3 Hours.
Major problems in class conflict resulting from industrialization of peripheral economies. Focus on such topics as labor movements, worker-inspired revolutions, women in the workforce, the ideology of work, labor migration, occupational culture and worker’s relationship to the state. LEC.

HIST 825. Seminar in Latin American Foreign Relations. 3 Hours.
This seminar examines the history of Latin American attitudes and policies toward other parts of the world as well as among the Latin American nations themselves. Examples of topics of interest are anti-imperialism, Pan-Americanism, foreign cultural influences, non-intervention, international cooperation and conflict, dependency, transnational corporations, regional integration, international law and doctrine and national security. LEC.

HIST 826. Seminar in Twentieth Century South America. 3 Hours.
Research seminar which examines major topics in the recent history of the Andean and Southern Cone countries. Topics such as the history of poverty, the dirty wars and the rise of military regimes, the social collapse of Colombia, Argentina and Peru, and the persistence of traditional cultures in the face of capitalist transformations will be thoroughly explored. LEC.

HIST 827. Colloquium in the Social History of Latin America. 3 Hours.
Explores the historiography, methods and themes of Latin American social history from the conquest to the present. Sessions will focus on specific groups including the history of indigenous groups, peasants, slaves, women, families, workers, and the poor. A long historiographical paper will be required. LEC.

HIST 830. Colloquium in Eighteenth and Nineteenth-Century Britain. 3 Hours.
This course examines the varied elite and popular responses to the creation of a capitalist economy (agrarian and industrial) in Britain between 1750 and 1890. LEC.

HIST 831. Colloquium in Twentieth-Century Britain. 3 Hours.
This course examines the main developments in the political, social, and cultural history of Britain since 1890. The aim is to trace the relationship between political movements and socio-cultural attitudes and institutions. LEC.

HIST 833. Colloquium in British History, 1500-1660. 3 Hours.
This course will engage with recent scholarship on the Renaissance and Reformation, the Civil War and the English Republic. LEC.

HIST 834. Colloquium in the History of the British Empire. 3 Hours.
The course will deal selectively with themes in the political and cultural interaction of the peoples of the British Isles with peoples overseas, the expansion and contraction of empire, and the rationales for these processes. LEC.

HIST 836. Colloquium in British Political Thought. 3 Hours.
This course provides an introduction to the rich tradition of British writings on politics through a close reading of a number of classic texts, interpreted in their historical settings. LEC.

HIST 837. Colloquium in British Religious History. 3 Hours.
This course will deal analytically and synoptically with religion in Britain from the reformation to the present with special reference to the Church of England, and will focus on the themes of ecclesiology, ecclesiastical polity, and political theology. LEC.

HIST 844. Colloquium on East Central Europe, 1772-1914. 3 Hours.
The colloquium covers the period beginning with the decline and partitions with Poland and ends with the outbreak of World War I. The major areas of study are the development of modern national consciousness among Poles, Czechs, Slovaks, Magyars, and Ukrainians, and the status of the Jews in these areas; economic, social, and educational development; and the rise of modern political parties. Prerequisite: HIST 557. LEC.

HIST 845. Eastern Europe, 19th and 20th Centuries. 3 Hours.
The course considers the challenges of modernity in Eastern Europe, with a focus on the lands of the former Habsburg Empire. The course is designed to introduce students to major issues in modern Eastern European history and historiography, with an emphasis on recent scholarship. Topics include: nationalism, identity formation, anti-Semitism, modernization and urbanization, World War I, interwar nation-states, World War II, Communist takeovers, everyday life under Communism, dissidence, Solidarity, the collapse of Communism, and post-socialist transitions. LEC.

HIST 847. Colloquium in Russian History. 3 Hours.
A group readings course that begins with Russia in the medieval period and continues through the end of the twentieth century. Topics may vary each term, but may include such subjects as political, social, religious, gender, or intellectual history. The course will focus around significant interpretive issues and the historiography that address them. Basic familiarity with the chronology and the main problems of Russian history is assumed. LEC.

HIST 848. Colloquium in 20th Century Russia. 3 Hours.
The focus will be on reading and discussion of historical literature on the end of Imperial Russia, the Russian revolutions, and the Soviet Union and its aftermath. LEC.

This graduate seminar will focus on interactions between the so-called Old and New Worlds in the three centuries following Columbus’ voyages. The course will pay particular attention to the changes in the lives of Europeans, Africans, and the peoples of the Americas as a result of the emergence of transatlantic economies, empires, and cultural systems. LEC.

HIST 856. Colloquium in Modern European History I - Renaissance to the French Revolution. 3 Hours.
This course will concentrate upon a number of selected topics in the history of Europe between the Renaissance and the French Revolution. Emphasis will be placed upon certain problems within this period and the recent historiography that deals with them. The first in a sequence of colloquia in Modern European History. Required for European history graduate students. LEC.

HIST 857. Colloquium in Modern European History II - Major Themes in Early Modern History. 3 Hours.
This course will concentrate upon a number of selected topics in early modern European history. Emphasis will be placed upon certain problems within this period and the recent historiography that deals with them. The second in a sequence of colloquia in Modern European History. Required for European history graduate students. LEC.

HIST 858. Colloquium in Modern European History III - French Revolution to the Present. 3 Hours.
From the French Revolution into the contemporary era. The third in a sequence of colloquia in Modern European History. Required for European history graduate students. LEC.
HIST 859. Colloquium in Modern European History IV - Major Themes in Modern History. 3 Hours.
This course will concentrate upon a number of selected topics in modern European history. Emphasis will be placed upon certain problems within this period and the recent historiography that deals with them. The fourth in a sequence of colloquia in Modern European History. Required for European history graduate students and students majoring in other fields whose secondary fields correspond to this time frame. LEC.

HIST 879. Colloquium on North American Environmental History. 3 Hours.
Intensive survey of significant works in the field from colonial times to the present, with attention to bibliography, research methods and needs, and leading issues in interpretation. LEC.

HIST 890. Colloquium in American History 1492-1800. 3 Hours.
Study of the leading interpretations of major issues in the history of Colonial and Revolutionary America, including appropriate attention to new approaches and techniques in research. The first course in the sequence of colloquia in United States history. Required of all U.S. history graduate students. LEC.

HIST 891. Colloquium in 19th Century U.S. History. 3 Hours.
Study of the leading interpretations of major issues in the history of the United States in the 19th century. The third course in the sequence of colloquia in United States history. LEC.

HIST 892. Colloquium in 20th Century U.S. History. 3 Hours.
Study of the leading interpretations of major issues in the history of the United States in the 20th century. The third course in the sequence of colloquia in United States history. LEC.

HIST 895. Colloquium in the History of Gender. 3 Hours.
This colloquium will cover theoretical and topical readings on the history of manhood, womanhood, and gender systems. (Same as AMS 835 and WGSS 835.) LEC.

HIST 896. Colloquium in United States Women’s History. 3 Hours.
This colloquium will cover theoretical and topical readings on the history of women in the United States from the pre-contact period to the present. It is designed to familiarize students with the most important and current historiography in the field. (Same as AMS 836 and WGSS 836.) LEC.

HIST 897. Comparative Colloquium in Women’s History. 3 Hours.
This colloquium will approach the history of women from a comparative perspective through theoretical and topical readings on women in at least two different cultures. (Same as AMS 837 and WGSS 837.) LEC.

HIST 898. Colloquium in Material Culture and History. 3 Hours.
This course provides an overview of theories and methods used in material culture studies and their application to historical research, writing, and presentation. Topics may vary from semester to semester, but could include vernacular architecture, museum studies, anthropology, cultural geography, historical archeology, and perceptual theory. The course will consist of intensive reading, discussion, and written work. While it is not limited to a particular geographical or chronological area, or discipline, given the state of the field most topics will be drawn from U.S. history. LEC.

HIST 900. Independent Research Seminar: ____. 3 Hours.
Design and completion of an independent project, culminating in the production of a professional-quality paper based on original, primary source research. Prerequisite: Consent of the instructor. LEC.

HIST 901. Research Seminar in Global History. 3 Hours.
A research seminar oriented around cross-regional, comparative, and transnational aspects of history, culminating in production of a professional-quality paper based on original, primary source research. SEM.

HIST 910. Seminar in Roman History: _____. 3 Hours.
A research seminar in specialized aspects of Roman history. May be repeated for credit. LEC.

HIST 911. Colloquium on North American Environmental History. 3 Hours.
A seminar involving the study of the importance and influence of the noble families of Rome on Roman history (200-27 B.C.) with special emphasis on the literary and numismatic evidence. Reading knowledge of Latin will be essential for this course. LEC.

HIST 914. The Major Roman Historians. 3 Hours.
An analysis and criticism of the works of the most significant Roman historians from Sallust to Ammianus Marcellinus, including a comparison and contrast between the Latin and Greek historians who wrote during the Graeco-Roman period (150 B.C.-378 A.D.). LEC.

HIST 918. Elements of Latin Paleography. 3 Hours.
Introduction to the techniques of reading, dating, and localizing medieval Latin manuscripts. LEC.

HIST 919. Seminar in Medieval Europe. 2-6 Hours.
LEC.

HIST 929. Seminar in Modern European History: ____. 2-5 Hours.
A study of sources in some restricted fields and the presentation of research results. A reading knowledge of French or German or some other modern language is desirable. LEC.

HIST 930. Seminar in British History. 3 Hours.
A research seminar focusing on new, actively-investigated and controversial themes in British history, chiefly c. 1660-1832. LEC.

HIST 932. Order and Disorder in Britain and America, c. 1750-1920. 3 Hours.
The study of the history of crime and protest in their relationship with the wider social and political theory of Britain and America. Specific topics may include the impact of industrialization, the notion of the ‘moral economy,’ the legal and ideological nature of the death penalty, the crowd in history, and the administrative and intellectual developments in policing, prisons, and asylums. LEC.

HIST 934. Seminar in Modern European History. 1-12 Hours.
A research and thesis seminar offered by several members of the Standing Field Committee in Modern European History. Students seeking advanced degrees in European history from the Renaissance to the present will enroll each semester for work on their theses and dissertations. May be repeated. LEC.

HIST 946. Seminar in the Middle East. 3 Hours.
A research seminar in Middle East history, with emphasis on the 19th and 20th centuries. The European impact on and relationships with the Middle East are stressed. LEC.

HIST 949. Seminar in Modern Russian History. 3 Hours.
A focus on major problems of historical interpretation and research investigation from Peter the Great to the present. LEC.

HIST 950. Seminar in Latin American History. 3 Hours.
A research seminar focused on a major theme or problem in Latin American history. LEC.

HIST 951. Seminar in Latin American Revolutions. 3 Hours.
This seminar focuses on sweeping socio-political upheavals such as occurred in Mexico in 1910, Guatemala in 1944, Bolivia in 1952, Cuba in 1959, and Nicaragua in 1979. After considering various sociological and political theories of revolution the seminar searches for an understanding
of the basic reasons for revolutions in the countries mentioned (and failure of revolutionary efforts elsewhere) and possible common characteristics of the Latin American revolutionary process. LEC.

HIST 952. Seminar in Ideology, Violence and Social Change in Latin America. 3 Hours.
Research seminar focusing on the role of ideas and ideologies, values and cultural norms in the history of Latin America. Political action, including rebellions, movements and strikes by the masses and efforts toward social control by elites will also be a major theme. Finally the course will examine the meaning of "social change" for Latin America and when it can be said that "social change" actually occurs. LEC.

HIST 955. Seminar in East Asian History. 3 Hours.
A research seminar in East Asian history. Prerequisite: Open only to graduate students having a reading knowledge of at least one East Asian language. LEC.

HIST 962. Seminar in American History. 1-12 Hours.
A research and thesis seminar offered by several members of the Standing Field Committee in United States History. Students seeking advanced degrees in United States history will enroll in the seminar for theses and dissertation credit. May be repeated. LEC.

HIST 964. Seminar in American Colonial History. 3 Hours.
An intensive, research-oriented study of American history from the 1580s to the 1760s. The course will cover both British America and New France. May be repeated. LEC.

HIST 965. The American Revolutionary Experience. 3 Hours.
An intensive, research-oriented study of American history from 1760 to 1800. May be repeated. LEC.

HIST 971. Recent American History, 1920 to the Present. 3 Hours. LEC.

HIST 973. Seminar in United States Women's History. 3 Hours.
This research seminar will focus on the history of women in the United States from the pre-contact period to the present. Students will research and write a paper using primary sources, and present those papers to the seminar for evaluation. (Same as AMS 973 and WGSS 873.) LEC.

HIST 974. Seminar in American History: ______. 3 Hours.
A research course focusing on selected topics in history. LEC.

HIST 975. Seminar in the History of United States Foreign Relations. 3 Hours.
An intensive study of United States foreign policy during a selected period. LEC.

HIST 980. Seminar in the Trans-Mississippi West. 1-5 Hours.
LEC.

HIST 981. Seminar in Environment and History. 3 Hours.
An inquiry into major issues and methods in environmental history, viewed from both an American and modern world perspective. LEC.

HIST 982. Colloquium in the History of the American West. 3 Hours.
Study of issues and interpretations in the history of the American West from prehistory to the present, including attention to new approaches and techniques in research. LEC.

HIST 986. Seminar in Historiography of Science. 3 Hours.
Examines the various patterns of interpretation influencing current historiography of science: the substance and impact of "internalist" history, which deals with the evolution of scientific ideas; the diversity of "externalist" history, which stresses interaction between the scientist's activity and social environment. Readings and discussions will assess intellectual, chronological, socio-economic, theological, philosophical, national, institutional and literary aesthetic influences on the history of science. LEC.

HIST 998. Portfolio Preparation. 1-6 Hours.
Writing and editing of materials in the student's professional portfolio. Graded on a satisfactory/unsatisfactory basis. Prerequisite: Permission of the instructor. RSH.

HIST 999. Doctoral Dissertation. 1-12 Hours.
An inquiry into the source material upon a specific subject. Graded on a satisfactory/unsatisfactory basis. Prerequisite: Consent of instructor. THE.

Bachelor of Arts and Bachelor of General Studies in History

Why study history?
Because it's our past, your future.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences
Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

History Program
The history major allows students to explore the richness and diversity of human experience in the past while building skills of analysis, interpretation, research, and communication. All history majors gain knowledge of significant historical transformations that have shaped the world. History majors learn to think critically, to conduct historical research, and to present the results of their research in clear and coherent writing.

First- and Second-Year Preparation
Prospective majors are encouraged to enroll in 1 or 2 introductory courses at the 100 or 300 level in the first 2 years. Many introductory history courses fulfill the College’s HT or NW principal course requirements, and prospective majors might choose one of them to explore their interests.
in history. Students who come to KU with AP or transfer credit should be aware that only 6 hours of history course work numbered 100-299 may be counted toward the major. Students interested in history as a major are encouraged to meet with a department advisor early in their careers at KU to discuss their academic goals and interests. Contact the undergraduate secretary to schedule an advising appointment.

**Requirements for the B.A. or B.G.S. Major**

**History Major Core Knowledge and Skills (3)**
Majors must complete a course in the following area:

- The Historian’s Craft. Satisfied by:
  - HIST 301  The Historian’s Craft  3
  - or HIST 302  The Historian’s Craft, Honors

**History Required Electives (24)**
Majors must complete 5 courses (15 hours) in either category below; 24
3 courses (9 hours) are required from the other category below:

<table>

Majors must complete a capstone research experience in which they research and write an original thesis based on primary sources. It normally is taken during the senior year. Alternatively, majors with a GPA above 3.5 may choose to write a senior honors thesis. Satisfied by one of the following:

- HIST 696 Seminar in: _____
- HIST 498 Undergraduate History Honors Seminar
- HIST 490 and Honors Course in History

**History Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade point average minimum standards:

**Major Hours**

Satisfied by 30 hours of major courses. No more than 2 HIST 492 Readings in History courses may be applied to the major. Only courses taken in the Department of History or cross-listed in other units are accepted for credit toward the major.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**

Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation (300+) GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Graduation Plan**

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Consult the department for details.

**Double Majors**

Many history majors choose to pursue a second major. Fulfilling the requirements of 2 majors in a timely fashion requires careful choice of courses. Consult a department advisor.

**Departmental Honors**

The honors program in history allows exceptional undergraduates to work closely with faculty members on a research project. To graduate with honors, a student must complete the requirements for the major in history, including HIST 301 but excluding HIST 696 Seminar.

Students in the honors program also must take HIST 498 Undergraduate History Honors Seminar and HIST 490 Honors Course in History, directed research. Usually, HIST 498 is offered in the fall semester and HIST 490 in the spring. Or a prospective honors student may complete HIST 696 and, by invitation, enroll in HIST 490 to develop the seminar paper into an honors thesis.

Prospective honors candidates are encouraged to select a thesis topic and thesis director in the junior year. The honors seminar helps students write their theses and allows them to learn from each other in a small-group setting. The honors coordinator assists students during both semesters.
To enroll in the program requires at least

1. A 3.5 grade-point average in history and a 3.25 overall cumulative grade-point average, which must be maintained throughout the student's final years of enrollment; and
2. Acceptance by a thesis director, a history faculty member, before entering the program.

Each student who completes an honors thesis must defend it in an oral examination before a thesis committee of 3 faculty members. The student’s thesis director chairs and chooses the committee in consultation with the student and the honors coordinator. In most cases, the committee is composed of history faculty members. A student who wants the committee to include faculty members from outside the department should inform the thesis director by March 1. A copy of the thesis is deposited in the department.

Petitions for exceptions to these regulations should be submitted to the honors coordinator.

## Minor in History

### Why study history?

Because it’s our past, your future.

## Requirements for the Minor

### History Minor Course Requirements

Students selecting this minor must complete the following:

History Electives (6)
Satisfied by 2 HIST courses (6 hours) 6

History Minor Hours & GPA
While completing all required courses, majors must also meet each of the following hour and grade point average minimum standards:

Minor Hours
Satisfied by 18 hours of minor courses.

Minor Hours in Residence
Satisfied by a minimum of 9 hours of junior/senior (300+) hours of KU resident credit in the minor.

Minor Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA
Satisfied by a minimum of a 2.0 GPS in all departmental courses in the minor. GPA calculations include all departmental courses in the field of study including Fs and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in History
The Department of History (http://www.history.ku.edu/about.shtml) at the University of Kansas is a dynamic place, with a proud tradition of training scholars from across the globe who have transformed the practice of history. The program offers major or minor concentrations in the areas of United States, African American, Modern European, British & Imperial, Russian/East European, East Asian, Latin American, African, Medieval, Women and Gender, Military, and Environmental History. KU offers its graduate students great flexibility in their choice of fields, as defined both by traditional geographical and chronological parameters and thematic topics. Students also have the opportunity to take coursework outside the department in fields such as Public History, Museum Studies, Environmental Studies, and the History of Medicine.

Primarily a doctoral program, the Department currently enrolls approximately 80 graduate students from throughout the United States and the world, including Japan, China, Peru, and Russia. Our students make up a very diverse group, and we encourage applicants from traditional and non-traditional backgrounds.

For statistics regarding our program, please see our Doctoral Program Profile (http://www.graduate.ku.edu/sites/graduate.drupal.ku.edu/files/docs/dpp/DPP_A_HIST.pdf), which demonstrates our success at funding and placing current and recent graduates.
Graduate Admission

Graduate applicants are expected to contact their prospective advisors in advance. It is useful to discuss shared research interests, and to inquire whether the faculty member is taking new students, and to decide whether this can become a productive relationship. This faculty advisor will then be able to more effectively advocate for the applicant’s candidacy based upon this correspondence.

Candidates requesting consideration for admission to the MA, MA/PhD, or PhD program in History must complete the online application through the KU Office of Graduate Studies (http://www.graduate.ku.edu/ku-graduate-application). Information about minimum requirements and codes for GRE or TOEFL tests can be found on this site. Note that documents, including a writing sample and transcripts, should be uploaded to the application. There is no need to send hard copies of application materials to the History Department. When you submit your online application, it is made available to the Department of History. The application deadline for Fall 2015 entry is December 1, 2014. International applicants need to submit their materials by November 15, 2014.

When you apply, specify to which program you intend to join: MA only, the MA/PhD, or the PhD. We recommend that candidates seeking admission directly into the PhD program first earn an MA in History or a related field. The application materials that each candidate must submit are:

- Statement of Academic Objectives, including a clear plan for graduate research in a specific field of study
- Curriculum Vitae
- Writing Sample demonstrating independent historical research and analysis (20-25 pages maximum)
  - Submit a writing sample that best represents your scholarly abilities: The Department is interested in reviewing your well-crafted, persuasively argued sample. Such papers are often derived from an upper-level undergraduate history class in which you conducted independent research and employed both primary and secondary sources. If you have an MA in history, the writing sample should be taken from your thesis or a major paper written in a graduate seminar.
- GRE Scores, conveyed from ETS to the University of Kansas (School Code 6871)
- Official Transcript from each institution that has granted you a degree, or at which you are currently enrolled
- Three letters of recommendation – The letters can be directly uploaded online directly by those who write the recommendations, or they can be mailed to the Department of History, ATTN: Graduate Administrator, 1445 Jayhawk Boulevard, Wescoe 3650, University of Kansas, Lawrence, KS 66045. A recommendation form for hard copy letters can be downloaded here (http://www.graduate.ku.edu/sites/graduate.drupal.ku.edu/files/docs/ApplicationProcess/KULetterOfRecForm.pdf).

M.A. Degree Requirements

The master’s program in history requires satisfactory completion of 30 credit hours of graduate courses including at least 6 hours in history research seminars and the passing of a comprehensive oral examination. Soon after admission, the student should select a faculty member as his or her advisor. The advisor directs the student’s work and advises the student about selecting Option A or Option B.

Option A

3 fields of history

The fields are the equivalent of secondary fields drawn from 3 different major fields. With the consent of departmental advisors, when a student’s program warrants a substitution, she or he may substitute an allied field outside the department that provides vital support for the program (e.g., substituting international relations for U.S. diplomatic history). At least 9 hours of course work must be taken in each of the 3 fields. Students must take HIST 805.

9 hours of work in courses numbered HIST 801 or higher and 6 hours of research seminar are required. Normally, at least 3 hours of seminar under each program should be taken with the student’s program advisor, who chairs the oral examining committee.

All master’s candidates must produce 2 professional-quality, article-length papers (approximately 30 pages) in the 2 required seminars. The final oral examination for the master’s degree includes questions concerning the papers as well as coverage of the student’s major and secondary fields.

Option B

A major field and 1 secondary field

At least 2 history faculty members must serve on the student’s M.A. committee for the major field. At least 18 hours of course work in the major field and 9 hours in the secondary field must be taken. Students must take HIST 805.

9 hours of work in courses numbered HIST 801 or higher and 6 hours of research seminar are required. Normally, at least 3 hours of seminar under each program should be taken with the student’s program advisor, who chairs the oral examining committee.

All master’s candidates must produce 2 professional-quality, article-length papers (approximately 30 pages) in the 2 required seminars. The final oral examination for the master’s degree includes questions concerning the papers as well as coverage of the student’s major and secondary fields.

Doctor of Philosophy in History

The Department of History (http://www.history.ku.edu/about.shtml) at the University of Kansas is a dynamic place, with a proud tradition of training scholars from across the globe who have transformed the practice of history. The program offers major or minor concentrations in the areas of United States, African American, Modern European, British & Imperial, Russian/East European, East Asian, Latin American, African, Medieval, Women and Gender, Military, and Environmental History. KU offers its graduate students great flexibility in their choice of fields, as defined both by traditional geographical and chronological parameters and thematic topics. Students also have the opportunity to take coursework outside the department in fields such as Public History, Museum Studies, Environmental Studies, and the History of Medicine.

Primarily a doctoral program, the Department currently enrolls approximately 80 graduate students from throughout the United States and the world, including Japan, China, Peru, and Russia. Our students
make up a very diverse group, and we encourage applicants from traditional and non-traditional backgrounds.

For statistics regarding our program, please see our Doctoral Program Profile (http://www.graduate.ku.edu/sites/graduate.drupal.ku.edu/files/docs/dpp/DPP_A_HiST.pdf), which demonstrates our success at funding and placing current and recent graduates.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Graduate applicants are expected to contact their prospective advisors in advance. It is useful to discuss shared research interests, and to inquire whether the faculty member is taking new students and to decide whether this can become a productive relationship. This faculty advisor will then be able to more effectively advocate for the applicant's candidacy based upon this correspondence.

Candidates requesting consideration for admission to the M.A., M.A./Ph.D., or Ph.D. program in History must complete the online application through the KU Office of Graduate Studies (http://www.graduate.ku.edu/ku-graduate-application). Information about minimum requirements and codes for GRE or TOEFL tests can be found on this site. Note that documents, including a writing sample and transcripts, should be uploaded to the application. There is no need to send hard copies of application materials to the History Department. When you submit your online application, it is made available to the Department of History. The application deadline for Fall 2015 entry is December 1, 2014. International applicants need to submit their materials by November 15, 2014.

When you apply, specify to which program you intend to join: M.A. only, the M.A./Ph.D., or the Ph.D. We recommend that candidates seeking admission directly into the Ph.D. program first earn an M.A. in History or a related field.

The application materials that each candidate must submit are:

- **Statement of Academic Objectives**, including a clear plan for graduate research in a specific field of study
- **Curriculum Vitae**
- **Writing Sample** demonstrating independent historical research and analysis (20-25 pages maximum)
- Submit a writing sample that best represents your scholarly abilities: The Department is interested in reviewing your well-crafted, persuasively argued sample. Such papers are often derived from an upper-level undergraduate history class in which you conducted independent research and employed both primary and secondary sources. If you have an M.A. in history, the writing sample should be taken from your thesis or a major paper written in a graduate seminar.
- **GRE Scores**, conveyed from ETS to the University of Kansas (School Code 6871)
- **Official Transcript** from each institution that has granted you a degree, or at which you are currently enrolled
- Three letters of recommendation – The letters can be directly uploaded online directly by those who write the recommendations, or they can be mailed to the Department of History, ATTN: Graduate Administrator, 1445 Jayhawk Boulevard, Wescoe 3650, University of Kansas, Lawrence, KS 66045. A recommendation form for hard copy letters can be downloaded here (http://www.graduate.ku.edu/sites/graduate.drupal.ku.edu/files/docs/ApplicationProcess/KULetterOfRecForm.pdf).

Ph.D. Degree Requirements

Students normally must complete the M.A. degree before they are eligible to enter the Ph.D. program. Students who enter the M.A. program may either complete the degree or petition for direct admission to the Ph.D. program. This petition first must be endorsed by the student’s advisor and the field committee and then be approved by the department’s graduate board.

In addition to general requirements, the following departmental requirements must be met. A minimum of 11 courses (33 credit hours) is required for the Ph.D. Students may choose between 2 options for their course work.

Research Skills and Responsible Scholarship

The university requires that every doctoral student have training in responsible scholarship and research skills pertinent to the field of research and appropriate to the doctoral level. In order to fulfill these requirements, all graduate students in History must take HIST 805 and become certified in a foreign language before taking the comprehensive oral exam.

**Note:** Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the Graduate Studies section of the online catalog and in the KU Policy Library.

Track A

Students select a major and 2 secondary fields. The major field includes 6 courses (18 credit hours). The secondary fields include 2 courses (6 credit hours), for a total of 12 credit hours; 1 of the secondary fields may be taken in a discipline outside the department, but a student may offer all 3 fields in history. Students must take HIST 805.

For both Track A and Track B, the major and secondary fields are those listed in this catalog or approved by the graduate board.

The department requires proficiency, at the level the student’s committee deems necessary, in 1 or 2 foreign languages appropriate to the student’s fields of specialization. Students should present satisfactory evidence of proficiency in the first language before enrollment in the second semester of degree work. Appropriate proficiency in the second language (if necessary) must be achieved before the student may take the oral comprehensive examination.
Before taking the oral comprehensive examination, students must complete (in addition to the language requirement) a minimum of 5 colloquia and seminars, including 2 in the major field(s) and 1 in each secondary field. At least 2 of the 5 must be research seminars in which the student produces professional-quality, article-length papers (approximately 30 pages).

In lieu of written examinations, students compile portfolios of their professional work demonstrating command of their fields and their preparation to undertake dissertation research. Following presentation of the portfolio, students take an oral examination covering their fields of study and their dissertation proposals.

**Track B**

Students select 2 major fields, for which they take a total of 8 courses (24 credit hours), and 1 secondary field, for which they take 2 courses (6 credit hours). The secondary field may be taken in a discipline outside the department, but a student may offer all 3 fields in history. Under the major fields, students may choose a 4/4 or a 5/3 configuration for their 8 courses. Students must take HIST 805.

For both Track A and Track B, the major and secondary fields are those listed in this catalog or approved by the graduate board.

The department requires proficiency, at the level the student’s committee deems necessary, in 1 or 2 foreign languages appropriate to the student’s fields of specialization. Students should present satisfactory evidence of proficiency in the first language before enrollment in the second semester of degree work. Appropriate proficiency in the second language (if necessary) must be achieved before the student may take the oral comprehensive examination.

Before taking the oral comprehensive examination, students must complete (in addition to the language requirement) a minimum of 5 colloquia and seminars, including 2 in the major field(s) and 1 in each secondary field. At least 2 of the 5 must be research seminars in which the student produces professional-quality, article-length papers (approximately 30 pages).

In lieu of written examinations, students compile portfolios of their professional work demonstrating command of their fields and their preparation to undertake dissertation research. Following presentation of the portfolio, students take an oral examination covering their fields of study and their dissertation proposals.

**Department of History of Art**

**Why study the history of art?**

The study of the visual arts in their historical contexts enriches our understanding of human creativity and the human condition.

**Undergraduate Programs**

The curriculum introduces the student to the visual arts of the past and the present. Courses cover the arts of ancient and medieval Europe, modern Europe, the United States, Africa, and East Asia, including China, Japan, Korea, and the art of Buddhism. Courses are offered in the history of photography, prints, and drawings.

Several introductory courses are offered every semester. These include 1- and 2-semester surveys in Western art (HA 100, HA 300, HA 150, and HA 151), HA 261 Introduction to Modern Art, HA 265 Introduction to Asian Art, HA 266 The Visual Arts of East Asia, HA 267 Art and Culture of Japan, HA 268 Art and Culture of China, HA 269 Art and Culture of Korea, and HA 330 Italian Renaissance Art.

**Courses for Nonmajors**

All courses are open to nonmajors if they have the necessary prerequisite, which in most cases is one of the introductory courses. An undergraduate advisor counsels nonmajors who need help selecting a course.

**Graduate Programs**

KU offers graduate art history courses covering Europe, the United States, and East Asia. Master of Arts degrees are offered in European, American, and East Asian art; they offer students a broad knowledge of the visual arts in those fields, as well as an introduction to the basic concepts and methods of the discipline. The M.A. may be pursued as a terminal degree or as preparation for specialized doctoral studies. Ph.D. degrees are offered in European, American, and East Asian art; they offer the opportunity for advanced research and concentration. Graduates typically seek careers in college and university teaching and in museum work.

**Courses**

**HA 100. Introduction to Western Art History.** 3 Hours. HT AE42/GE3H / H.

A chronological survey of Western art and architecture, including the ancient Near East, Europe from antiquity to the present, and North America from the colonial period to the present. The course emphasizes major historical and cultural developments, analyzes key art works and monuments, and introduces basic art historical principles and analytical methods. The course is offered at the 100 and 300 levels, with additional reading and writing assigned at the 300 level. Intended for non-majors. Does not count toward the 30 required hours in the major. Not open to students with credit in HA 103, HA 150, HA 151, HA 160, HA 161, or HA 300. LEC.

**HA 103. Introduction to Western Art History, Honors.** 3 Hours. HT AE42/GE3H / H.

A chronological survey of Western art and architecture, including the ancient Near East, Europe from antiquity to the present, and North America from the colonial period to the present. The course emphasizes major historical and cultural developments, analyzes key art works and monuments, and introduces basic art historical principles and analytical methods. The course is offered at the 100 and 300 levels, with additional reading and writing assigned at the 300 level. Intended for non-majors. Does not fulfill the 30 required hours in the major. Not open to students with credit in HA 100, HA 150, HA 151, HA 160, HA 161, HA 300, or HA 303. Prerequisite: Membership in the University Honors Program or consent of instructor. LEC.

**HA 105. Special Study: _____**. 1-6 Hours. H.

This course is designed for the study of special topics in art history at the introductory level, including courses taken in the study abroad program. May deal with individual artists, special themes, or other topics not generally covered in courses offered by the department. May be repeated for credit if content varies. LEC.

**HA 150. Western Art History I: Ancient Through Medieval Art.** 3 Hours. HT AE42/GE3H / H.

A survey of the art of earlier periods in the West, from prehistoric times through the middle ages in Europe, with special emphasis on the
relationship between artistic developments and cultural changes. Not open to students with credit in HA 160. LEC.

HA 151. Western Art History II: Renaissance to Contemporary Art. 3 Hours. H.
A survey of the art of later periods in the West, from the Renaissance to the contemporary period in Europe and America, with special emphasis on the achievements of individual artists in relation to the cultural movements of their times. Not open to students with credit in HA 161. Prerequisite: HA 100, HA 103, HA 150, HA 160, HA 300, or HA 303. LEC.

HA 160. Western Art History I, Honors. 3 Hours. HT AE42/GE3H / H.
Honors section of HA 150. Students taking HA 150 for Honors credit must enroll in HA 160. They will attend HA 150 lectures and Honors discussion group led by the professor in charge of the course. Prerequisite: Membership in the University Honors Program or consent of instructor. LEC.

HA 161. Western Art History II, Honors. 3 Hours. H.
Honors section of HA 151. Students taking HA 151 for Honors credit must enroll in HA 161. They will attend HA 151 lectures and Honors discussion group led by the professor in charge of the course. Prerequisite: HA 100, HA 103, HA 150, HA 160, HA 300, or HA 303, and membership in University Honors Program or consent of instructor. LEC.

HA 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in History of Art. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

HA 261. Introduction to Modern Art. 3 Hours. HT GE3H / H.
A general survey of painting, sculpture, architecture, and graphic art of the 19th and 20th centuries. Emphasis is placed on major movements and their artists, including Neo-Classicism, Romanticism, Realism, Impressionism, Post-Impressionism, Fauvism, Expressionism, Cubism, Surrealism, Abstract Art, Pop Art, and the developments of the contemporary period. LEC.

HA 265. Introduction to Asian Art. 3 Hours. HT/NW AE42/GE3H / H/W.
An introduction to Asian art and architecture through a study of the principal monuments, their aesthetic principles, and their relation to philosophies and religions. LEC.

HA 266. The Visual Arts of East Asia. 3 Hours. HT/NW AE42/GE3H / H.
An introduction to the visual arts of China, Korea, and Japan, with equal time given to each country. Emphasis will be placed on cultural context, including religion, social class and gender, and on the cultural interaction between the three countries. LEC.

HA 267. Art and Culture of Japan. 3 Hours. NW AE42/GE3H / H/W.
An introduction to the Arts of Japan in historical and cultural context. Visual arts will be stressed. LEC.

HA 268. Art and Culture of China. 3 Hours. NW AE42/GE3H / H/W.
An introduction to the arts of China in historical and cultural context. Visual arts will be stressed. No prerequisite. LEC.

HA 269. Art and Culture of Korea. 3 Hours. NW AE42/GE3H / H/W.
An introduction to the arts of Korea in historical and cultural context. Visual arts will be stressed. LEC.

HA 300. Introduction to Western Art History. 3 Hours. HT AE42/GE3H / H.
A chronological survey of Western art and architecture, including the ancient Near East, Europe from antiquity to the present, and North America from the colonial period to the present. The course emphasizes major historical and cultural developments, analyzes key art works and monuments, and introduces basic art historical principles and analytical methods. The course is offered at the 100 and 300 levels, with additional reading and writing assigned at the 300 level. Intended for non-majors. Does not count toward the 30 required hours in the major. Not open to students with credit in HA 100, HA 103, HA 150, HA 151, HA 160, HA 161, or HA 303. LEC.

HA 303. Introduction to Western Art History, Honors. 3 Hours. HT / H.
A chronological survey of Western art and architecture, including the ancient Near East, Europe from antiquity to the present, and North America from the colonial period to the present. The course emphasizes major historical and cultural developments, analyzes key art works and monuments, and introduces basic art historical principles and analytical methods. The course is offered at the 100 and 300 levels, with additional reading and writing assigned at the 300 level. Intended for non-majors. Does not count toward the 30 required hours in the major. Not open to students with credit in HA 100, HA 103, HA 150, HA 151, HA 160, HA 161, or HA 300. Prerequisite: Membership in the University Honors Program or consent of instructor. LEC.

HA 305. Special Study: ______. 1-6 Hours. H.
This course is designed for the study of special topics in art history, including courses taken in the study abroad program. May deal with individual artists, special themes, or other topics not generally covered in courses offered by the department. May be repeated for credit if content varies. LEC.

HA 307. Directed Readings. 1-6 Hours. U.
Supervised study and research into special fields of art of particular interest to the student. Weekly consultation and reports. LEC.

HA 310. The Art and Architecture of Florence and Paris. 3 Hours. H.
Taught in the Humanities and Western Civilization Program Abroad, this course examines the major movements that defined and shaped the art and architecture of Florence and Paris, with special attention to the Renaissance in Florence and the Gothic and modern periods in Paris. Through classroom lectures, readings, and visits to museums, churches, and other historic sites, selected works of art and architecture are analyzed in terms of their formal qualities, iconography, and cultural context. Prerequisite: Approval for enrollment in the Humanities and Western Civilization Study Abroad program through the KU Office of Study Abroad. LEC.

HA 311. The Art and Architecture of the British Isles. 3 Hours. H.
Taught in the British Summer Institute in the Humanities Study Abroad program, this course offers an introductory survey of British art and architecture. Through classroom lectures, readings, and visits to museums, churches, and other historic sites, selected works of art and architecture are analyzed in terms of their formal qualities, iconography, and cultural context. Prerequisite: Approval for enrollment in the British Summer Institute in the Humanities Study Abroad program through the KU Office of Study Abroad. LEC.

HA 315. The Prehistory of Art. 3 Hours. S.
A survey of prehistoric art focusing on the material record and interpretations of rock art (paintings, engravings on rock surfaces in rock-shelters, caves and in open air sites) and portable art created by prehistoric people. The emphasis is on the small-scale societies (hunter-gatherer and early food producers) around the world before the appearance of written records in respective geographic areas. Environmental, social and cultural contexts in which these art forms were created are discussed along with a review of past scholarship and current interpretive approaches to this old and enduring expression of human creativity. Course may be offered in lecture or online format. (Same as ANTH 315.) LEC.
HA 317. Greek and Roman Art. 3 Hours. H/W.
A survey of the art of ancient Greece and Rome (ca. 1000 B.C.E. - 500 C.E.). Emphasis on major sites, architecture, sculpture, and painting. Illustrated lectures and discussion; use of the Wilcox Classical Museum. No knowledge of Greek or Latin is required. Not open to students who have taken both CLSX 526/HA 526 and CLSX 527/HA 537, except with permission of the instructor. (Same as CLSX 317, HWC 317.) LEC.

HA 330. Italian Renaissance Art. 3 Hours. GE3H / H/W.
A survey of the art and architecture of Italy from c. 1300 to 1550. Special emphasis is placed on regional styles and the private, political, and devotional contexts in which works of art and architecture functioned. Some of the artists whose works are considered are Giotto, Duccio, Donatello, Botticelli, Leonardo, and Michelangelo. LEC.

HA 353. Modern and Contemporary African Art. 3 Hours. H.
In this course, we examine the development of artistic modernisms in Africa in historical context. We also study the content, production, patronage, and display of modern and contemporary African art. In doing so, we consider African artists' engagement with modernity, globalization, and contemporary issues, as well as interrogate influential myths and assumptions regarding African artists and the works they produce. Course themes include the workshop as a critical site, independence movements and the creation of national art forms, art as global commodity, and art in resistance, remembrance, and revolution. (Same as AAAS 353.) LEC.

HA 369. Introduction to Korean Painting. 3 Hours. NW / H.
A history of Korean painting from the 4th through the 19th centuries. An examination of tomb murals, Buddhist painting, landscape, genre painting, portraiture, documentary painting, and decorative symbolic imagery. Lectures and discussion focus on artistic style and cultural context. Completion of HA 266, HA 269 or ECIV 104 is recommended. LEC.

HA 370. American Art. 3 Hours. H.
A survey of American painting, sculpture, and architecture from colonial to recent times. Prerequisite: HA 100, HA 151, or the equivalent, or consent of instructor. LEC.

HA 376. West African Art. 3 Hours. NW / H/W.
Introduction to the rich visual art traditions of West Africa. Emphasis is given to the major art-producing cultures of the Western Sudan and the Guinea Coast, including the pre-historic cultures of Nigeria, Mali, and Ghana. The diverse forms of figure sculptures and masquerade performance and meanings of these arts in historical and cultural contexts are examined. (Same as AAAS 376.) LEC.

HA 380. History of Photography. 3 Hours. H.
An introduction to the history of photography as a means of artistic expression and visual communication. Special attention is placed on the relation between developments in photography and the artistic and cultural context of the time. LEC.

HA 390. Special Study in African Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in African art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. LEC.

HA 391. Special Study in Asian Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in Asian art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. LEC.

HA 392. Special Study in Ancient Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in ancient art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. LEC.

HA 393. Special Study in Medieval Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in medieval art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. LEC.

HA 394. Special Study in Renaissance Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in Renaissance art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. LEC.

HA 395. Special Study in Baroque Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in Baroque art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. LEC.

HA 396. Special Study in American Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in American art. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. LEC.

HA 397. Special Study in Modern Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in modern art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. LEC.

HA 467. Art and Culture of Japan, Honors. 3 Hours. NW / H/W.
Honors version of HA 267, requiring additional readings and writing assignments. An introduction to the arts of Japan in historical and cultural context. Basic principles and problems of the visual arts are analyzed, as are the major historical trends and periods. Prerequisite: Membership in the University Honors Program or permission of the instructor. Not open to freshmen or students with credit in HA 267. LEC.

HA 468. Art and Culture of China, Honors. 3 Hours. NW / H/W.
Honors version of HA 268, requiring additional readings and writing assignments. An introduction to the arts of China in historical and cultural context. Basic principles and problems of the visual arts are analyzed, as are the major historical trends and periods. Prerequisite: Membership in the University Honors Program or permission of the instructor. Not open to freshmen or students with credit in HA 268. LEC.

HA 469. Art and Culture of Korea, Honors. 3 Hours. NW / H/W.
Honors version of HA 269, requiring additional readings and writing assignments. An introduction to the arts of Korea in historical and cultural context. Basic principles and problems of the visual arts are analyzed, as are the major historical trends and periods. Prerequisite: Membership in the University Honors Program or permission of the instructor. Not open to freshmen or students with credit in HA 269. LEC.

HA 482. Japanese Painting. 3 Hours. NW / H.
A survey covering the development of Japanese painting from the Kofun period down to the early twentieth century. Topics will include Buddhist and other religious paintings, narrative handscrolls, suibokuga, decorative screens, genre paintings and ukiyo-e prints, and western-style paintings of the Meiji and Taisho periods. Work requirements will be greater for students enrolled at the 700 level than at the 400 level. Prerequisite: HA 265, or HA 267, or consent of instructor. LEC.

HA 488. Chinese Painting, Honors. 3 Hours. NW / H/W.
A survey of the development of painting in China, beginning with the earliest forms of figural and landscape depiction. Emphasis will be placed
on the major painting traditions of the Song, Yuan, Ming, and Qing Dynasties. Prerequisite: One of the following four courses: HA 150, HA 265, HA 266, or ECIV 104; and membership in the University Honors Program or permission of the instructor. IND.

HA 498. Honors Essay in Art History. 3 Hours. AE61 / H.
Required for departmental honors. A course of directed research and the preparation of a paper on an art history topic, supervised by a professor. Prerequisite: A grade-point average of 3.5 in art history and 3.25 in all courses, and consent of a major advisor and supervising professor. IND.

HA 500. Prints and Printmakers. 3 Hours. H.
The major historical achievements in the field of printmaking, the artists who produced prints, and the impact of their work on the visual arts. Lectures supplemented by work with original material. Prerequisite: An introductory course in Western art history at the college level and three further hours of history of art or consent of instructor. LEC.

HA 503. Japanese Prints. 3 Hours. NW / H.
A study of the major artists and schools of the Japanese print, especially in their technical and stylistic developments and in their relation to the culture of Japan in the Edo period. Prerequisite: A survey of Asian or Japanese art, or consent of instructor. LEC.

HA 505. Special Study: ______. 1-6 Hours. H.
This course is designed for the study of special topics in art history on a trial basis, open to both undergraduate and graduate students. Prerequisite: An introductory-level course in art history, appropriate to the specific special study topic; or consent of instructor. LEC.

HA 506. Early Medieval and Romanesque Art. 3 Hours. H.
This course examines the art of Europe from the Early Christian era through the Romanesque period, up to 1200. Architecture, sculpture, manuscript illumination, metalwork and painting are explored in relation to their political, religious and social contexts. Graduate students can expect to complete additional reading and writing assignments. Prerequisite: HA 100 or HA 150, or permission of the instructor. LEC.

HA 507. Gothic Art. 3 Hours. H.
This course examines the art of Europe during the Gothic period, from 1140-1500. Architecture, sculpture, manuscript illumination, metalwork, painting and furniture are explored in relation to their political, religious and social contexts. Graduate students can expect to complete additional reading and writing assignments. Prerequisite: HA 100 or HA 150, or permission of the instructor. LEC.

HA 508. The Italian Renaissance Home. 3 Hours. H.
This course explores the history of domestic art and architecture in Italy, with a special emphasis on Florence, from c. 1350 to 1600. Palace architecture, religious works made for private devotions, the increasing use of mythological themes in painting and sculpture, birth trays, painted cassoni, majolica, and various types of portraiture are examined within the contexts of contemporary theories of virtue and magnificence, the rituals of marriage and childbirth, the public and private promotion of political and personal agendas, and changing tastes. In addition to acquiring an in-depth knowledge of the artistic and architectural milieu of Italian Renaissance homes and expanding their cultural understanding, students enrolled in this course engage in a series of assignments designed to build and hone their reading, critical thinking, visual analysis, research, and writing skills. The same assignments allow students to integrate their knowledge of and to think creatively about the period, objects, and buildings in question. A high expectation of class participation and the opportunity to present their research provide students with the opportunity to build and strengthen their oral communications skills. Prerequisite: HA 100, HA 150, HA 151, HA 330, or the equivalent, or consent of instructor. LEC.

HA 525. Aegean Archaeology and Art. 3 Hours. H/W.
An interdisciplinary survey of the major cultures of the prehistoric Aegean (Greek) world from the Neolithic period to the end of the Bronze Age (ca. 3000-1100 B.C.E.), with special emphasis on the cultural and artistic achievements of the Mycenaeans, Minoans, and Cycladic islanders, including their contacts with the neighboring cultures of Anatolia (Hittites and Troy), the Levant, Egypt, and South Italy. Includes lecture with slides and discussion. For advanced undergraduates with backgrounds in the humanities and for graduate students (especially in Classics and History of Art). No knowledge of Greek or Latin is required. (Same as CLSX 525.) LEC.

HA 526. Greek Archaeology and Art. 3 Hours. H.
An interdisciplinary survey of the material culture of the ancient Greek world from the Protogeometric period to the end of the Hellenistic age (ca. 1100 - 30 B.C.E.), with an emphasis on the major sites, monuments, and changing forms of social and artistic expression (architecture, sculpture, vase painting, and other arts). Includes lectures with slides and discussion; use of the Wilcox Museum of Classical Antiquities. No knowledge of Greek or Latin is required. For advanced undergraduates and graduate students with backgrounds in the humanities; and for graduate students (especially those in History of Art and Classics). (Same as CLSX 526.) LEC.

HA 527. Late Medieval Art in Italy. 3 Hours. H.
This course examines the history of paintings, sculptures and buildings produced in Italy from c. 1250 to 1400. Important individual works, artists, and decorative complexes, such as Giotto’s Scrovegni (Arena) Chapel, are analyzed in terms of their stylistic, geographical, social, historical, devotional, and literary contexts. Current theories and controversies pertinent to the history and study of 13th- and 14th-century Italian art are also addressed. Prerequisite: HA 100, HA 150, or the equivalent, or consent of instructor. LEC.

HA 529. Archaeology and Art of the Ancient Near East. 3 Hours. H.
A cross-cultural survey of the material remains of the major civilizations of the ancient Near East, including Anatolia, Mesopotamia, the Levant, and Egypt from Neolithic period to the rise of the Roman empire (ca. 6000 B.C.E. - 30 B.C.E.). Includes lectures with slides and discussion. For advanced undergraduates with backgrounds in the humanities and for graduate students (especially in Classics and History of Art). No knowledge of Greek or Latin is required. (Same as CLSX 529.) LEC.

HA 530. Renaissance Art in Italy: The 15th Century. 3 Hours. H/W.
The focus of this course is the history of Italian painting, sculpture, and architecture from 1400 to 1500. Special emphasis is placed on the diverse artistic styles and functions of works of art, as well as on the artists and patrons that produced them. Domestic art and the art and architecture of the 15th-century Italian courts are also discussed. Prerequisite: HA 100, HA 150, or the equivalent, or consent of instructor. LEC.

HA 531. Renaissance Art in Italy: The 16th Century. 3 Hours. H.
This course explores the history of Italian painting, sculpture, and architecture from c. 1500 to 1600. It focuses on the artistic centers of Florence, Rome, Parma, and Venice. Some of the artists whose works is considered are Leonardo, Michelangelo, Raphael, Pontormo, Titian, Cellini, and Giambologna. The history of 16th-century women patrons and artists is also addressed. Prerequisite: HA 100, HA 150, HA 151, or the equivalent, or consent of instructor. LEC.

HA 532. Michelangelo. 3 Hours. H.
During the sixteenth century, the writer Ludovico Ariosto described the Florentine artist Michelangelo Buonarroti (1475-1564) as "divine." Since that time more has been written about Michelangelo than any other artist of the Italian Renaissance. His ability to work in diverse media, namely painting, sculpture, and architecture, as well as the power of his works,
earned him this prominent position in the history of art and made him one of the most influential artists of the early modern period. This course will trace various aspects of Michelangelo’s long, sometimes troubled, and vibrant career, focusing on issues such as his techniques, patrons, and the innovative style of his works. Special emphasis will be placed on interpreting primary sources to understand better his life and works and place them within their artistic, historical, social, and religious contexts. Prerequisite: HA 100, HA 150, HA 151, HA 330, or the equivalent, or consent of instructor. LEC.

HA 533. European Art 1789-1848: Gender and Revolution. 3 Hours. H.
This course will analyze painting in Europe from the late 18th century to the mid-19th century. Particular attention will be paid to the ways in which images represent and/or repress such themes as politics, history, gender, ethnicity, race, and class. Assigned readings present a variety of methodological perspectives—social-historical, feminist, formalist, and psychoanalytic. Graduate students may be expected to complete additional reading and writing assignments. Prerequisite: HA 100, HA 151, or the equivalent, or consent of instructor. LEC.

HA 534. Art in France 1848-1900: Modernisms. 3 Hours. H.
This course will examine painting in France from 1848 to 1900 with particular emphasis given to the visual articulation and/or repression of such constructs as gender, race, history, and ethnicity. Assigned readings present a variety of methodological perspectives—social-historical, feminist, formalist, and psychoanalytic. Graduate students may be expected to complete additional reading and writing assignments. Prerequisite: HA 100, HA 151, or the equivalent, or consent of instructor. LEC.

HA 536. Islamic Art and Architecture in Africa. 3 Hours. H.
Study of Islamic art and architecture in various cultural and geographical settings, from the first mosques of North Africa and the Swahili coast to contemporary Islamsed masquerades in West Africa. We consider art objects and architectural sites in terms of religious practice, trade and commerce, ritual and political power, and contemporary expression. (AAAS 536.) Prerequisite: AAAS 102, AAAS 103, HA 100, or HA 150; or permission of instructor. LEC.

HA 537. Roman Archaeology and Art. 3 Hours. H/W.
An interdisciplinary survey of the material culture of ancient Rome from its origins to the late empire (8th c.B.C.E. - 4th c.C.E.). Emphasis on major sites, monuments, and changing forms of social and artistic expression, as well as on Etruscan and Greek influence on Rome and Rome’s influences on its provinces. Includes lectures with slides and discussion; use of the Wilcox Museum of Classical Antiquities. No knowledge of Greek or Latin is required. For advanced undergraduates and graduate students with backgrounds in the humanities; and for graduate students (especially those in History of Art and Classics). (Same as CLSX 527.) LEC.

HA 538. Pompeii and Herculaneum. 3 Hours. H.
An interdisciplinary treatment of the art and archaeology of the ancient Roman cities of Pompeii and Herculaneum in Italy. Emphasis on the structures and decorations of major public spaces and houses and on aspects of cultural, social, political, commercial, and religious life from the period of the second century B.C.E. to 79 C.E., when Pompeii and Herculaneum were buried by the eruption of Mt. Vesuvius. Slide lectures and discussion. (Same as CLSX 538, HWC 538.) Prerequisite: Graduate status, or 6 credit hours in Classics, Greek, Latin, History of Art, or permission of the instructor. LEC.

HA 539. History of Japanese Buddhist Art. 3 Hours. H.
A survey of the Buddhist art of Japan that begins with the introduction of Buddhism in the sixth century and ends with contemporary Buddhist art. Students will also consider how Buddhist images function as part of the living religious tradition in Japan. Prerequisite: A survey of either Asian art, Japanese art, Asian religions, Japanese culture, or consent of instructor. LEC.

HA 545. Early Chinese Art. 3 Hours. NW / H.
A survey of Chinese art from Neolithic times through the Han Dynasty (ca. 200 C.E.). Emphasis will be placed on recent archaeological excavations and also on the development of bronze vessels of the Shang and Zhou Dynasties. Prerequisite: A college level introduction to Asian art history, or consent of instructor. LEC.

HA 546. Chinese Sculpture. 3 Hours. H.
A survey of Chinese sculpture from the Shang dynasty through the Song dynasty (1600 BCE-1279 CE), focused on sculptural programs in native funerary art and Buddhist temples and cave-shrines. LEC.

HA 548. Buddhist Scriptures in Chinese Painting. 3 Hours. H.
Examination of Chinese paintings based on the major Buddhist scriptures (sutras) popular in China from the 8th century through the early modern period. Readings include selections from the sutras (in translation). Emphasis is placed on the cultural and religious reasons why certain scriptural themes were selected for representation and on the distinctively Chinese interpretation of these themes in pictorial art. Prerequisite: One of the following: HA 265, HA 266, HA 585, ECIV 104, REL 106. LEC.

HA 549. Chinese Painting. 3 Hours. H.
An introductory survey of painting in China from the 7th through the 19th centuries. Prerequisite: One course in art history, or in East Asian languages cultures; or consent of instructor. LEC.

HA 564. European Art, 1900-1945. 3 Hours. H.
A detailed survey of modern European art from the turn of the century through World War II. Movements to be considered may include post-impressionism, cubism, constructivism, dada, and surrealism. Graduate students may be expected to do additional reading and writing assignments. Prerequisite: HA 100, HA 151, or the equivalent, or consent of instructor. LEC.

HA 565. Art Since 1945. 3 Hours. H.
An international survey of modern and postmodern art since 1945. Topics to be covered may include abstract expressionism, pop, minimalism, happenings, and performance art, earth works, conceptual art, feminist art, photo-realism, crafts, and new media. Graduate students may be expected to complete additional reading and writing assignments. Prerequisite: HA 100, HA 151, or the equivalent, or consent of instructor. LEC.

HA 566. Art From 1945 to the 1980’s: Modernism to Post-Modernism. 3 Hours. H.
An international survey of modern and post-modern art from World War II to the 1980s. Topics may include abstract expressionism, pop art, minimalism, happenings and performance art, earth works, conceptual art, feminist art, photo-realism, the craft revival, and new media. Graduate students may be expected to complete additional reading and writing assignments. Prerequisite: HA 100, HA 151 or the equivalent, or consent of instructor. LEC.

HA 567. Contemporary Art. 3 Hours. H.
An examination of recent developments internationally in art and visual culture. Emphases may include consideration of diverse critical perspectives, theoretical debates, post- and trans-national art, the impact of new media, and the internationalization of institutions, exhibitions, audiences, and markets. Graduate students may be expected to complete additional reading and writing assignments. Prerequisite: HA 100, HA 151, or the equivalent, or consent of instructor. LEC.
HA 570. American Art. 3 Hours. H.
A survey of American painting, sculpture, and architecture from colonial times to the present. (Same as AMS 580.) Prerequisite: An introductory course in Western art history at the college level. LEC.

HA 571. Modern Sculpture. 3 Hours. H.
A survey of avant-garde sculpture in Europe and America from the late 19th century to recent times. Attention will focus on the work of major sculptors considered within larger artistic, cultural, and historical contexts. Graduate students may be expected to complete additional reading and writing assignments. Prerequisite: HA 100, HA 151, or the equivalent, or consent of instructor. LEC.

HA 575. Northern Renaissance Art. 3 Hours. H.
French, Netherlandish, and German art in the 15th and 16th centuries. Manuscripts, painting, prints, and sculpture from Jan Van Eyck to Pieter Brueghel, the Elder. Prerequisite: HA 100, HA 150, HA 151, or the equivalent, or consent of instructor. LEC.

HA 576. Northern Baroque Art. 3 Hours. H.
Seventeenth-century art in the northern and southern Nethers with emphasis on painting of Rubens and Rembrandt. Prerequisite: HA 100, HA 151, or the equivalent, or consent of instructor. LEC.

HA 577. Italian Baroque Art. 3 Hours. H.
This course explores the history of art and architecture in Italy during the late sixteenth and seventeenth centuries. The visual culture of the Italian Baroque is examined in terms of style, patronage, and religious or secular function. Attention is also paid to art theory, practice, gender issues, and foreign artists working in Italy, as well as to understanding and interpreting primary sources. Prerequisite: HA 100/HA 300, HA 151, or consent of instructor. LEC.

HA 578. Central African Art. 3 Hours. NW / H/W.
Introduction to the arts and cultures of Central Africa. Emphasis is given to the major art-producing cultures of the Equatorial Forest and the Southern Savanna regions of Cameroon, Gabon, Congo, Zaire, and Angola. The historical and cultural contexts for the visual arts associated with centralized leadership and non-centralized societies are explored. (Same as AAAS 578.) LEC.

HA 580. History of Photography. 3 Hours.
An advanced introduction to the history of photography as a means of artistic expression and visual communication. Special emphasis will be placed on critical readings and research projects. Prerequisite: Six hours of Western art history. LEC.

HA 581. American Art to 1860: Inventing a Nation. 3 Hours. H.
A survey of major artists and movements in painting, sculpture, and allied arts, from the period of initial European settlement to the mid-19th century. Consideration will be given to developments in portraiture, history painting, landscape, still-life, statuary, and decorative arts. Attention will be paid both to formal developments and to cultural context. Graduate students may be expected to complete additional reading and writing assignments. Prerequisite: HA 100, HA 151, or the equivalent, or consent of instructor. LEC.

HA 582. American Art 1860-1900: Gilded Age. 3 Hours.
A survey of major artists and movements in painting, sculpture, and allied arts in the later 19th century. Consideration will be given to developments in landscape painting and images of the American West, the impact of impressionism and other European movements, and the decorative programs of the Gilded Age. Attention will be paid both to formal developments and to cultural context. Graduate students may be expected to complete additional reading and writing assignments. Prerequisite: HA 100, HA 151, or the equivalent, or consent of instructor. LEC.

HA 583. American Art 1900-1945: Rise of Modernism. 3 Hours. H.
A survey of major artists and movements in painting, sculpture, and allied arts, from the early urban realists to the emergent avant-garde at mid century. Consideration will be given to the cosmopolitan tendencies of the 1910s and the 1920s, to regionalist impulses of the 1930s, and the assimilation of European modernism. Attention will be paid both to formal developments and to cultural context. Graduate students may be expected to complete additional reading and writing assignments. Prerequisite: HA 100, HA 151, or the equivalent, or consent of instructor. LEC.

HA 584. Kansas Art, History, and Popular Culture. 3 Hours. H.
An overview of the art and cultural history of Kansas (and Kansas City) from territorial days to the present. Emphasis is placed on key issues, figures and events. A general familiarity with American history is recommended. (Same as FMS 414). LEC.

HA 585. The Art of Buddhism. 3 Hours. NW / H/W.
A survey of the Buddhist arts (architecture, sculpture, and painting) of India, China, and Japan. LEC.

HA 587. Japanese Sculpture. 3 Hours. NW / H.
A survey of Japanese sculpture from the Kofun period (300-700 C.E.) to the present day. Emphasis is placed on works of Buddhist sculpture from the 7th through the 13th centuries. Prerequisite: An introductory course in Asian art history or consent of instructor. LEC.

HA 588. Modern and Contemporary Visual Arts of Japan. 3 Hours. H.
This course covers Japanese visual arts from the Meiji era (1868-1912) through the present day. The course is designed thematically as well as chronologically, and examines painting, sculpture and architecture focusing on both socio-political contexts and artistic concerns that emerged at certain times in recent Japanese history. The aim of this course is to provide first-hand knowledge of Japanese modern and contemporary visual arts as well as an in-depth consideration of some of the key issues attached to Japan's modernization and modernity. Prerequisite: A survey of Japanese art, or modern art, or consent of instructor. LEC.

HA 589. Japanese Artistic Encounters with Europe and the United States. 3 Hours. NW / H.
Consideration of Japanese artistic responses to visual culture from Europe and the United States. The course focuses upon Japanese art from the 16th century to the present. Prerequisite: A college-level introduction to Asian art history or consent of instructor. LEC.

HA 590. Special Study in African Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in African art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. Prerequisite: An appropriate introductory-level course in art history or African Studies, or consent of the instructor. LEC.

HA 591. Special Study in Asian Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in Asian art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. Prerequisite: An appropriate introductory-level course in art history or Asian Studies, or consent of the instructor. LEC.

HA 592. Special Study in Ancient Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in ancient art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. Prerequisite: An appropriate introductory-level course in Art History or Classics, or consent of the instructor. LEC.
HA 593. Special Study in Medieval Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in medieval art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. Prerequisite: An appropriate introductory-level course in art history, or consent of the instructor. LEC.

HA 594. Special Study in Renaissance Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in Renaissance art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. Prerequisite: An appropriate introductory-level course in art history, or consent of the instructor. LEC.

HA 595. Special Study in Baroque Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in Baroque art, including courses taken through study abroad. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. Prerequisite: An appropriate introductory-level course in art history, or consent of the instructor. LEC.

HA 596. Special Study in American Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in American art. May be repeated for credit if content varies. Same topic may not be taken at both the 300 and 500-levels. Prerequisite: An appropriate introductory-level course in art history, or consent of the instructor. LEC.

HA 597. Special Study in Modern Art: ______. 1-6 Hours. H.
This course is designed for the study of special topics in modern art, including courses taken through study abroad. May be repeated for credit if content varies. Prerequisite: An appropriate introductory-level course in art history, or consent of the instructor. LEC.

HA 600. Biography of a City: ______. 3 Hours. H/W.
An interdisciplinary study of a city, covering its history, literature, and arts during the periods when the city’s culture reached its height. LEC.

HA 676. West African Art. 3 Hours. NW / H/W.
Introduction to the rich visual art traditions of West Africa. Emphasis is given to the major art-producing cultures of the Western Sudan and the Guinea Coast, including the archaeological cultures of Nigeria, Mali, and Ghana. The diverse forms of figure sculptures and masquerade performance and the meanings of these arts in historical and cultural contexts are examined. Upper division and graduate students can enroll for this course with appropriate course requirements. Not open to students who have taken AAAS 376/HA 376. (Same as AAAS 676.) LEC.

HA 677. African Design. 3 Hours. NW / H/W.
A survey of sub-Saharan African media, emphasizing textiles, ceramics, metal and bead work, the artist’s techniques, working methods and apprenticeship, and historical and contemporary cultural contexts, including the influence of tourism and the international art market on artistic production and style. Open to juniors, seniors, and graduate students only. (Same as AAAS 677.) Prerequisite: AAAS 376 or HA 376, or AAAS 578 or HA 578, or an introductory course in art history at the college level, or consent of instructor. LEC.

HA 679. African Expressive Culture: ______. 3 Hours. NW / H/W.
An in-depth examination of an artistic tradition shared by a number of African cultures. Discussion includes historical development related to style, use and meaning and other relevant issues critical to the topic. Open to juniors, seniors, and graduate students only. (Same as AAAS 679.) Prerequisite: AAAS 376 or HA 376, or AAAS 578 or HA 578, or an introductory course in art history at the college level, or consent of instructor. LEC.

HA 704. Seminar on Christian Iconography. 3 Hours.
A study of subject matter in the visual arts and of modes of representing certain themes and categories of ideas and meanings in the history of art. Prerequisite: Nine hours of history of art and knowledge of a foreign language. LEC.

HA 705. Major Artist: ______. 1-3 Hours.
The study in detail of a single artist or of an artist and his school or shop. Prerequisite: An introductory course in Western art history at the college level and the 400-level course in the period in which the artist’s work falls. LEC.

HA 706. Seminar on Special Problems in Art History: ______. 1-6 Hours.
Seminar dealing with particular art historical problems of a special and specific nature. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 707. Directed Readings. 1-6 Hours.
Supervised study and research into special fields of art of particular interest to the student. Weekly consultations and reports. RSH.

HA 710. Museum Techniques and Functions. 3 Hours.
Primarily for graduate students interested in pursuing a career in art museum work. The development of the museum idea, the activities of the art museum, as well as practical experience in the various fields of art museum curatorship and public activity are among the areas studied. LEC.

HA 712. Directed Museum Study. 1-6 Hours.
Supervised study and research projects related to art works in the permanent collections or special exhibitions of local museums of art. Planned in consultation with a faculty member and the director of the museum. RSH.

HA 715. Seminar in African Art. 3 Hours.
A concentrated study of a special topic relating to African Art studies. Different topics are offered in different semesters. (Same as AAAS 715.) Prerequisite: Nine hours of Art History and/or consent of instructor. LEC.

HA 716. Art of the Early Middle Ages in the West. 3 Hours.
A pro-seminar in the art of the West from the Migration Period through the art of the Carolingian Empire. LEC.

HA 719. Art Histories: Theory and Methodology. 3 Hours.
This course examines the major methodologies and theories that have shaped and continue to shape the field of art history. Through critical reading of primary, secondary, and interpretive texts, the course will analyze closely the history and current state of the discipline. Prerequisite: Nine hours of History of Art or consent of instructor. LEC.

HA 723. Romanesque Art. 3 Hours.
A study of Western European sculpture, painting, and architecture from the period of the Migrations, through the so-called "Dark Ages" to the creation of the Gothic style. Prerequisite: A survey of Medieval art. LEC.

HA 725. The Gothic Cathedral. 3 Hours.
The development and spread of Gothic architecture and sculpture in France, England, Spain, and Germany. Prerequisite: A college level introduction to Medieval art history. LEC.

HA 745. Dutch and Flemish Painting of the 17th Century. 3 Hours.
A detailed study of the art of Hals, Rembrandt and Vermeer, on the one hand, and of Rubens and Van Dyck on the other. Prerequisite: A survey of Northern Baroque art or consent of instructor. LEC.

HA 782. Japanese Painting. 3 Hours.
A survey covering the development of Japanese painting from the Kofun period down to the early twentieth century. Topics will include Buddhist
and other religious paintings, narrative handscrolls, suibokuga, decorative screens, genre paintings and ukiyo-e prints, and Western-style paintings of the Meiji and Taisho periods. Work requirements will be greater for students enrolled at the 700 level. Prerequisite: HA 265, or HA 267, or consent of instructor. LEC.

HA 788. Proseminar in Japanese Art. 3 Hours.
Critical analysis of readings on selected topics in Japanese art. May be repeated for credit up to a maximum of 12 hours. Prerequisite: Consent of instructor. LEC.

HA 789. Proseminar in Chinese Art. 3 Hours.
Critical analysis of readings on selected topics in Chinese art. May be repeated for credit up to a maximum of 12 credit hours. Prerequisite: Consent of instructor. LEC.

HA 805. Seminar in Graphic Arts: _____ 3 Hours.
A concentrated study of one or more artists, techniques, or movements. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. Prerequisite: A course in graphic art, or in a discipline related to the field of the seminar. LEC.

HA 806. Problems in Connoisseurship West: ______ 3-6 Hours.
The analysis of the work of a specific artist, medium or period, and developing a knowledge of the methods and means of establishing standards of quality and authorship. Includes study in Spencer and/or Nelson Museums. Prerequisite: Nine hours of art history and a reading knowledge of a pertinent foreign language. LEC.

HA 822. Seminar in Buddhist Art: ______ 3 Hours.
A concentrated study of selected problems dealing with Buddhist art in Asia. Different topics are offered in different seminars. May be repeated for credit up to a maximum of twelve hours. Prerequisite: Reading knowledge of Chinese or Japanese and consent of instructor. LEC.

HA 824. Seminar in Edo Period Painting: ______ 3 Hours.
Special study of one or more schools of painting of the Edo period (1615-1868) in Japan. Individual works will be analyzed in depth. Prerequisite: A course in Japanese painting. LEC.

HA 870. Seminar in Photographic History: ______ 3 Hours.
Advanced study of photographic images as made and used in the nineteenth and twentieth centuries. Requires primary research. Prerequisites include study of nineteenth century history of art. Specific topics vary. LEC.

HA 898. Franklin Murphy Seminar in Art History: ______ 3 Hours.
This seminar is given each spring by the Murphy Lecturer of the year and includes two weeks of intensive study with a nationally known expert in a special field of art history. The other weeks of seminar meetings for the semester are conducted by the faculty member most closely specialized in this field. Prerequisite: Consent of supervising faculty member. LEC.

HA 899. Thesis. 1-6 Hours.

HA 906. Seminar on Special Problems in Art History: ______ 1-6 Hours.
Seminar dealing with particular art historical problems of a special and specific nature. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 907. Directed Readings in Art. 1-12 Hours.
Supervised study and research into special fields of art of particular interest to the student. Weekly consultation and reports. Prerequisite: Nine hours of art history and a reading knowledge of a pertinent foreign language. RSH.

HA 910. Curatorial Problems: 3-8 Hours.
Primarily for the graduate student interested in art museum work. The student will engage in specialized research related to museum activities resulting in either a research paper, an exhibition, or a catalogue of some portion of the museum’s holdings. Prerequisite: Nine hours of history of art and a reading knowledge of a pertinent foreign language. LEC.

HA 920. Seminar in Early Medieval Art: ______ 3 Hours.
A study of selected problems dealing with the art of the early Middle Ages. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 925. Seminar in Northern Renaissance Art: ______ 3 Hours.
A study of selected problems dealing with the art of the earlier Middle Ages. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 930. Seminar in Italian Renaissance Art: ______ 3 Hours.
A study of selected problems dealing with the art of the later Middle Ages. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 935. Seminar in Northern Renaissance Art: ______ 3 Hours.
A study of selected problems dealing with the art of the later Middle Ages. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 940. Seminar in 17th Century Art: ______ 3 Hours.
A study of selected problems dealing with the art of the 17th century. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 950. Seminar in 18th Century Art: ______ 3 Hours.
A study of selected problems dealing with the art of the 18th century. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 955. Seminar in 19th Century Art: ______ 3 Hours.
A study of selected problems dealing with the art of the 19th century. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 960. Seminar in 20th Century Art: ______ 3 Hours.
A study of selected problems dealing with the art of the 20th century. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 965. Seminar in American Art: ______ 3 Hours.
A study of selected problems dealing with the art of the American. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. Prerequisite: Consent of instructor. LEC.

HA 970. Seminar in Photography and Fine Art: ______ 3 Hours.
Advanced study of the relationships between photographic images, prints, painting, mass media, illustration, and other forms of visual expression. Specific periods and areas of emphasis will vary. Prerequisite: Advanced study of nineteenth century history of art. LEC.

HA 980. Seminar in Chinese Art: ______ 3 Hours.
A study of selected problems dealing with the art of China. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 982. Seminar in Later Chinese Art: ______ 3 Hours.
A study of selected problems dealing with the art of the later Chinese. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 16 credit hours. LEC.
HA 990. Seminar in Japanese Art: _____. 3 Hours.
A concentrated study of one or two artists, monuments or movements. Different topics are offered in different semesters. May be repeated for credit up to a maximum of 12 credit hours. LEC.

HA 999. Doctoral Dissertation. 1-12 Hours.

Bachelor of Arts and Bachelor of General Studies in History of Art

Why study the history of art?
The study of the visual arts in their historical contexts enriches our understanding of human creativity and the human condition.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Admission to the College of Liberal Arts and Sciences
Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

History of Art Programs
Bachelor’s degrees with majors in the history of art are offered in the College of Liberal Arts and Sciences (B.A. and B.G.S.) and in the School of the Arts (B.F.A.). See Bachelor of Fine Arts in History of Art (p. 172) in the School of the Arts Department of Visual Art section of the catalog for B.F.A. requirements.

Requirements for the B.A. or B.G.S. Major

History of Art Core Knowledge and Skills (15)
Select at least 1 course (3 hours) at or above the 200 level in each of these 5 categories:

- Ancient or Medieval Art. Satisfied by one Ancient or Medieval Art course.
- Renaissance or Baroque Art. Satisfied by one Renaissance or Baroque Art course.
- East Asian Art. Satisfied by one East Asian Art course.
- Non-Western (East Asian or African) Art. Satisfied by one Non-Western (East Asian or African) Art course.

Studio Art or Aesthetics Option (0)
A studio art or aesthetics course (or philosophy course approved by advisor).

History of Art Required Electives (0)
12 hours elective required if student takes a course in studio art or aesthetics.
15 hours elective required if student DOES NOT take a course in studio art or aesthetics.

Note: HA 100/HA 300 is a 1-semester survey of Western art history intended for non-majors and does not count toward the 30 required hours in art history. A student who takes HA 100 or HA 300 and then decides to major in art history must then also take either HA 150 or HA 151 (or both). A student who already has credit in either HA 150 or HA 151, however, should not take HA 100 or HA 300.

Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

- Major Hours
  Satisfied by 30 hours of major courses.
- Major Hours in Residence
  Satisfied by a minimum of 15 hours of KU resident credit in the major.
- Major Junior/Senior Hours
  Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.
- Major Junior/Senior Graduation GPA
  Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Graduation Plan
With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the department for details.

Departmental Honors
The department invites art history undergraduate majors to apply for graduation with departmental honors. They must meet the following criteria:

1. An overall grade-point average of at least 3.25 and an art history grade-point average of 3.5 at the time of declaring intention to seek honors.
2. In consultation with the departmental honors coordinator and with approval from a supervising professor, declared intention of seeking honors no later than the time of enrollment for the final undergraduate semester.
3. Enrollment in an art history graduate seminar for which the student must write a substantial, original research paper to be submitted to the supervising professor as an honors essay.
4. Approval of the honors essay by the supervising professor and 2 other faculty members who, as a committee, certify to the departmental honors coordinator that the student has successfully completed the requirements to earn honors.

Minor in History of Art

Why study the history of art?
The study of the visual arts in their historical contexts enriches our understanding of human creativity and the human condition.

Requirements for the Minor

History of Art Minor Requirements
Students selecting this minor must complete a minimum of 6 History of Art courses. Satisfied by 18 hours of History of Art coursework. 12 of the 18 hours must be at the 300 level or above. With approval of the art history undergraduate advisor, 1 closely related course taught outside of the art history department (e.g., history of architecture or design) may count toward the minor.

Minor Hours & Minor GPA
While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

Minor Hours
Satisfied by 18 hours of minor courses.

Minor Hours in Residence
Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

Minor Junior/Senior Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in History of Art

Why study the history of art?
The study of the visual arts in their historical contexts enriches our understanding of human creativity and the human condition.

Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Applications for the M.A. degree are expected to hold the B.A. or equivalent degree with an overall grade-point average of 3.3 or better and to have taken at least 6 college courses in art history or the equivalent, distributed to provide the basic foundation for advanced study. M.A. applicants should specify their area of proposed study (European and American art, or East Asian art).

Completed applications must be submitted by January 1 for fall admission. The Graduate Record Examination general test is required.

Submit your graduate application online (http://www.graduate.ku.edu).

The University of Kansas
Department of History of Art
Graduate Admissions
Spencer Museum of Art
1301 Mississippi St., Room 209
Lawrence, KS 66045-7500

M.A. Degree Requirements

The student must complete 30 hours of graduate credit, at least 21 of which must be in art history distributed according to department requirements. All course work must satisfy grade standards. The candidate must demonstrate proficiency in the reading of a foreign language, normally a major European language, Chinese, or Japanese. A general written examination (in European and American art or East Asian art) must be passed for the M.A. degree. After passing the M.A. examination, a student wishing admission to the doctoral art history program at KU must submit a petition for continuation of graduate studies and receive departmental approval for the petition.

Handbook for Graduate Students
A detailed presentation of departmental degree requirements and regulations is included in the department’s Graduate Student Handbook, available online (http://www2.ku.edu/~kuarthis).

Doctor of Philosophy in History of Art

Why study the history of art?
The study of the visual arts in their historical contexts enriches our understanding of human creativity and the human condition.

The department offers M.A. and Ph.D. degrees in European, American, and/or East Asian art history. The M.A. provides students with a broad knowledge of the visual arts in those fields, as well as an introduction to the basic concepts and methods of the discipline. The M.A. may be pursued as a terminal degree or as preparation to petition for specialized doctoral studies at KU or to apply elsewhere. The Combined M.A./Ph.D. is intended for students who want to pursue the Ph.D. in art history at KU, but who do not yet hold the M.A. degree in art history. The Ph.D. degree offers the opportunity for advanced research and concentration to
students who hold the M.A. degree in art history from KU or elsewhere. Both the Combined M.A./Ph.D. and Ph.D. students are eligible for competitive funding packages and GTA, GRA, and GA positions.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Graduate Admission**

Applicants for the Ph.D. are expected to hold an appropriate M.A. degree.

**Admission to the Ph.D. program for students who receive the M.A. degree from KU:**

The M.A. student who wishes to be considered for admission to the Ph.D. program must complete and sign the Petition for Continuation in the Ph.D. Program form, which will be distributed at the M.A. exam and collected with the completed exams on day two of testing. It is expected that such students will already have expressed this interest to a potential major field advisor and received that faculty member’s support. The student must pass the M.A. exam in order for his/her petition to be considered by the graduate faculty. After receiving departmental approval for the petition and completing all requirements for the M.A. degree, the student will automatically be entered into the Ph.D. program and will be expected to maintain his/her enrollment as per Graduate Studies guidelines.

M.A. students who do not submit the petition at the time of the M.A. exam will need to reapply for admission to the art history graduate program.

The Combined M.A./Ph.D. student does not need to submit the Petition for Continuation in the Ph.D. Program form. He/she will be automatically evaluated by the graduate faculty upon successfully passing the M.A. exam to determine whether he/she remains eligible to continue to the Ph.D. or if the M.A. is the appropriate terminal degree. In most cases, Combined M.A./Ph.D. students will enter the Ph.D. program upon completion of the requirements for the M.A. degree.

Completed applications must be submitted by January 1 for fall admission. The Graduate Record Examination general test is required.

Submit your graduate application online (http://www.graduate.ku.edu).

**Ph.D. Degree Requirements**

Within 2 semesters after the completion of M.A. coursework (not counting the semester in which the students finishes M.A. coursework), the student, in consultation with a major advisor, prepares for review by the full Graduate Faculty a Doctoral Program of Study petition that proposes a primary field of specialization and 2 minor fields, 1 of which may be outside the department. The petition, as approved by the faculty, becomes the student’s program of study, which is then overseen by the major advisor and guided by a committee that includes the major- and minor-field advisors.

Ph.D. candidates must satisfy all general requirements. Ph.D. candidates must demonstrate proficiency in 2 research skills (normally foreign languages) relevant to their research; this requirement must be met before candidates are admitted to the comprehensive examinations for the doctorate. One of the 2 research skills is normally the foreign language that met the M.A. language requirement.

**Research Skills & Responsible Scholarship Requirement**

All graduate seminars include instruction in and discussion of appropriate research conduct and research misconduct; authorship, publication, plagiarism, copyright; peer review; and professional practices. For more information on the Research Skills and Responsible Scholarship requirement, please see the Graduate Studies section of the online catalog.

Students must take both written and comprehensive oral examinations at the end of their course work. Both written and oral examinations cover the major area and 2 minor areas specified in the student’s Doctoral Program of Study petition. The oral examination normally follows the written examination by 2 weeks.

Within no more than 2 semesters of passing the comprehensive oral examination, the candidate submits a dissertation proposal for faculty approval. Upon acceptance of the dissertation in final draft form, the candidate must successfully pass the final oral examination (the dissertation defense) to complete the degree.

**Handbook for Graduate Students**

A detailed presentation of departmental degree requirements and regulations is included in the department’s Graduate Student Handbook, available online (http://www2.ku.edu/~kuarthis).

**University Honors Program**

**Honors Courses**

Honors courses are open to qualified undergraduates in any school of the university.

**University Honors Program**

The University Honors Program (http://www.honors.ku.edu) provides opportunities for outstanding and creative undergraduate students in all schools at KU to develop their full potential during their undergraduate years. The Honors Program brings talented students together in honors classes and seminars to benefit from mutual interests and association. It brings students and faculty members together in a teaching and research environment that ensures high academic achievement and standards.
The program coordinates merit-based scholarship opportunities for qualified students, including KU awards such as the University Scholars Program. Honors Program staff are also responsible for the campus-wide nomination process for many competitive national awards, including the Goldwater, Truman, Rhodes, Marshall, Mitchell, and Udall scholarship. Students interested in these opportunities receive guidance from Honors Program staff for all aspects of these applications.

The Honors Student Council, the Honors Ambassador Program, and Peer Mentor Program provide opportunities for student leadership.

In general, honors classes are small, oriented to discussion, and taught by full-time members of the faculty. Most honors courses fulfill requirements and deal with introductory fundamentals and principles, but they are likely to do so in more depth than their non-honors equivalents. Honors courses are distinguished by the energetic atmosphere and critical thinking generated by the students in them and the faculty members who teach them.

Honors students are interested in expanding their knowledge and take a broad range of liberal arts and sciences courses. This is true of students in the professional schools (architecture, engineering, business, etc.) as well as students in the College of Liberal Arts and Sciences. Honors program advisors typically recommend that students explore their interests through the broad curriculum choices KU has to offer.

A first-year, semester-long tutorial experience provides an introduction to an academic area of study in an informal setting that allows students to get to know one another and the instructor. The tutorial explores the research methods of a discipline and acquaints the student with the research resources at KU.

Honors advising is personalized in meetings with honors staff, faculty fellows, and specially selected advisors from across the university. The program’s staff facilitates early and frequent contact with academic advisors in the students’ areas of interest. Honors students benefit from priority enrollment, which provides flexibility in planning one’s academic curriculum.

The program does not require a minimum number of honors courses a semester. However, students in the program quickly discover that honors courses engage the intellect, hold the interest, and create the enthusiasm for learning they seek at a university. Students in the professional schools are particularly encouraged to seek out honors course opportunities early, while their curricula still have breadth and flexibility.

Honors students are strongly encouraged to include research, study abroad experiences, internships, and community service in their academic programs. Consult Honors Program staff about applying these activities toward completion of honors requirements.

**Admission**

Students with strong high school curricula and excellent academic records are encouraged to apply to the University Honors Program. Students with composite ACT scores of 30 or above and unweighted high school grade-point averages of 3.75 or above are more likely to be admitted. Applications are evaluated on the basis of high school curriculum, grades, an essay, activities, and standardized test scores. Applications from first- and second-year students currently attending KU, as well as incoming transfer students, are evaluated on the basis of college course work, an essay, and college activities. Review of applications begins in October and continues through April. Send inquiries to the University Honors Program, 1506 Engel Road, Lawrence, KS 66045-3845. View further information and the online application (http://www.honors.ku.edu).

**Completion of the Program**

Students graduate from the program by completing 8 honors units and the first-year, semester-long tutorial. The 8 units must be completed as follows:

1. 6 honors courses (may include graduate-level courses numbered 700 and above).
2. 1 out-of-classroom experience such as study abroad, departmental honors, documented research experience, approved and documented internship experience, or approved and documented community service.
3. The eighth unit may be from either category 1 or category 2. Students also must maintain a minimum 3.25 grade-point average.

**Nunemaker Center**

This unique building, with its modern architectural design, is the home of the Honors Program, near the Daisy Hill residence halls at 15th Street and Engel Road. The Honors Program is home to several faculty fellows who serve the program and bring additional resources to the program to complement the full-time staff. Faculty fellows are available for advising, consultation about majors and careers, and guiding research projects.

Students are encouraged to take advantage of the spaces available at Nunemaker, including several classrooms and study areas, a kitchen, comfortable lounges that include 2 fireplaces, and wireless Internet access. Nunemaker also serves as a gallery for undergraduate art. The center is open days and evenings.

**Courses**

**HNRS 177. First Year Seminar: _____**. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Honors. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**HNRS 190. Freshman Honors Seminar. 1 Hour. U.**
This seminar serves as an introduction to the Honors Program, to the research opportunities and other academic resources available at the University of Kansas and to specific disciplinary perspectives on an overarching theme. While closely examining a topic germane to the instructor, students develop skills in research, reading, writing and in-depth discussion. The instructor of the student’s seminar also serves as the academic honors advisor for the enrolled students. Required of all freshman Honors students; open only to freshmen in the University Honors Program. LEC.

**HNRS 195. Transfer Honors Seminar. 1 Hour. U.**
This seminar serves as an introduction to the Honors Program, and to the research opportunities and other academic resources available at the University of Kansas. This seminar fosters the transfer students’ oral and written communication and the critical assessment of their academic and pre-professional goals. The instructor of the student’s seminar also serves as the academic honors advisor for the enrolled students. Open only to transfer students in the University Honors Program. LEC.

**HNRS 300. Honors Commons Course. 3 Hours. H.**
An opportunity to investigate a broad topic across various subjects and disciplines. In alliance with the University Commons at Spooner Hall,
this course examines a problem or topic from perspectives of several disciplines across the arts, sciences, social sciences and humanities. The course is complemented by a dedicated annual university lecture series germane to the course’s topic. Prerequisite: Membership in the University Honors Program. LEC.

HNRS 310. University Scholars Seminar. 3 Hours. U.
An interdisciplinary survey to acquaint students with some of the main ideas, methods, and outstanding problems in various areas of scholarship. The organization of human knowledge inside and outside the university, as well as the implications of this organization for scholarship and society, are emphasized. Ideas and methods in various disciplines are contrasted and compared. Required of and open only to newly admitted students in the University Scholars Program. LEC.

HNRS 320. Global Scholars Seminar. 3 Hours. H.
The Global Scholars Seminar is designed to foster academically talented and motivated undergraduate students’ interest in global studies. Through interdisciplinary coursework, mentorship and research experience in global studies, the seminar provides cohorts of students with opportunities to develop their intellectual capabilities and interests to the fullest and better prepares them for careers, further study, and leadership roles in today’s complex international arena. Required of and open only to newly admitted students in the Global Scholars Program. LEC.

HNRS 430. Honors Interdisciplinary Seminar. 3 Hours. U.
An opportunity to synthesize topic across various subjects and disciplines. This course examines a problem or topic from the perspectives of several disciplines. Open to qualified sophomores, juniors, and seniors in the University Honors Program. LEC.

HNRS 492. Topics and Problems on: ______. 1-6 Hours. U.
An interdisciplinary study of different topics. Designed especially for juniors and seniors. LEC.

HNRS 495. Honors Directed Study. 1-3 Hours. U.
Individual and supervised study of an interdisciplinary topic or topics. May be repeated for a total of up to 6 hours. Up to one 3-hour enrollment will count as one course toward completion of the University Honors Program. Prerequisite: Membership in the University Honors Program and consent of the instructor. IND.

HNRS 496. Honors Internship. 1-3 Hours. U.
Students participate in an internship in an organization related to their professional/career goals. An internship plan is developed by the student in conjunction with the student’s academic adviser and an authorized agent of the internship site. Prerequisite: Instructor permission required. LEC.

HNRS 497. Honors Freshman Seminar Assistantship. 0 Hours.
Open to all Honors students selected to be Honors Freshman Seminar Assistants, regardless of major field. These students assist Seminar instructors in the teaching of an Honors seminar in various ways, including but not limited to: leading group discussion; engaging students in the learning process; developing classroom material; encouraging and guiding students to solve problems themselves and helping students prepare for their advising assignments. Offered fall semester only. May be repeated. LEC.

HNRS 520. University Scholars Junior/Senior Seminar. 2-3 Hours. U.
An interdisciplinary seminar course designed for advanced-level students in the University Scholars Program. Faculty mentors are invited to attend. Will count toward completion of the University Honors Program. Prerequisite: HNRS 310 or concurrently. LEC.

Humanities and Western Civilization Program

Why study the Humanities and Western Civilization?

Because integrated learning in the humanities fosters broad cultural understanding by exploring the connections among diverse areas of knowledge.

Western Civilization

Western Civilization Courses

Western Civilization courses are offered through the Humanities and Western Civilization Program. These general education courses form a 2-semester interdisciplinary program that critically examines the ideas and values of Western culture from its early expressions in ancient Greece, Rome, and Israel through the modern period.

The presentation of material is both historical and thematic. It offers a guided study of the past to help us better understand the present and envision the future. Influential authors and writings in Western arts and sciences direct attention to the enduring questions of how to lead a satisfying and worthwhile human life. Themes are selected issues organized to focus goals and generate student discussion:

1. The good life,
2. Work and economic life,
3. The citizen and the state,
4. Knowledge and education,
5. Intimacy and social life,
6. Nature and the supernatural, and

Western Civilization I and II are designated writing-intensive courses by the College and require students to complete 3,000 to 4,000 words of written work each semester in addition to essay portions of midterm and final examinations.

Companion Courses

Students may find these 100- through 300-level courses helpful, either as background to or taken concurrently with Western civilization. Principal courses are marked with an asterisk.

and work closely with a faculty advisor. Majors may choose a track in departments. They can create integrated interdisciplinary programs fulfilling the humanities principal course requirement.

HWC 308, HWC 312, and HWC 430 are recommended to nonmajors for studying abroad programs in Florence, Italy; and Paris, France. Contact the Office of Study Abroad (http://www.studyabroad.ku.edu).

Courses

**HWC 110. Introduction to Humanities. 3 Hours. HL GE21/GE3H / H.**

An introduction to the humanities as a division of learning and to interdisciplinary study in the humanities. Topics include the history and role of the humanities in a liberal education; perspectives and methods in the humanities, the humanities and human diversity, and interdisciplinary approaches to understanding and interpreting texts. Prerequisite: Membership in the University Honors Program. LEC.

**HWC 114. Western Civilization I Honors. 3 Hours. AE42/GE11/GE21 / H.**

A program of study emphasizing the reading and discussion of some of the influential writings and ideas that have shaped the intellectual and cultural heritage of the Western world. Western Civilization I includes readings from the ancient, medieval, and early modern periods. Prerequisite: Membership in the University Honors Program or permission of department. LEC.

**HWC 115. Western Civilization II Honors. 3 Hours. AE42/GE11 / H.**

A program of study emphasizing the reading and discussion of some of the influential writings and ideas that have shaped the intellectual and cultural heritage of the Western world. Western Civilization II includes readings from the modern period. Prerequisite: Membership in the University Honors Program or permission of department. LEC.

**HWC 150. Civilizations and the Individual. 3 Hours. HL GE3H / H.**

Introduction to perennial themes that define human experience through reading and discussion of primary texts. Topics may include the nature of humanity; nature and the supernatural; the individual and the state. LEC.

**HWC 151. Civilizations and Individual, Honors. 3 Hours. HL GE3H / H.**

Honors version of HWC 150. Introduction to perennial themes that define human experience through reading and discussion of primary texts. Topics may include the nature of humanity; nature and the supernatural; the individual and the state. Prerequisite: Membership in the University Honors Program, or permission of instructor LEC.

**HWC 177. First Year Seminar: _____, 3 Hours. GE11 / U.**

A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Humanities and Western Civilization. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year
HWC 204. Western Civilization I. 3 Hours. AE42/GE11/GE21 / H.
A program of study emphasizing the reading and discussion of some of the influential writings and ideas that have shaped the intellectual and cultural heritage of the Western world. Western Civilization I includes readings from the ancient, medieval, and early modern periods. Prerequisite: Not open to freshmen except members of the University Honors Program. LEC.

HWC 205. Western Civilization II. 3 Hours. AE42/GE11 / H.
A program of study emphasizing the reading and discussion of some of the influential writings and ideas that have shaped the intellectual and cultural heritage of the Western world. Western Civilization II includes readings from the modern period. LEC.

HWC 206. Contemporary Western Civilization. 3 Hours. HL GE11/GE3H / H.
A sequel to the two Western Civilization courses which offers the opportunity to examine influential works of literature, philosophy, history, and political thought written since the end of World War II. In keeping with the decline of colonialism and the growth of global and multicultural civilization since 1945, the readings of the course are selected from both Western and non-Western writers. LEC.

HWC 300. Studies In: ______. 3 Hours. H.
An interdisciplinary course, focusing on different topics and drawing on diverse media, cultures, and historical periods. Humanities-based, this course, depending on its topic, may include the arts, the social sciences, and the natural sciences. May be repeated for credit with different topics. LEC.

HWC 302. European Culture and Society 1945 to Present. 3 Hours. HT AE42 / H.
The course provides historical, cultural, and political overviews of Europe since 1945 with particular emphasis on the contribution of French and Italian culture and society. The course emphasizes Europe’s contribution to Western intellectual thought, social movements, arts and literature, and global society. (Same as EURS 302.) LEC.

HWC 304. World Literature I. 3 Hours. HL GE3H / H.
The study of great books in English translation from antiquity through the fifteenth century from two or more national literatures. LEC.

HWC 308. World Literature II. 3 Hours. HL GE3H / H.
The study of great books in English translation from the sixteenth, seventeenth, eighteenth, and early nineteenth centuries from two or more national literatures. LEC.

HWC 312. World Literature III. 3 Hours. HL GE3H / H.
The study of great books in English translation in the modern period (late nineteenth and twentieth centuries) from two or more national literatures. LEC.

HWC 317. Greek and Roman Art. 3 Hours. H/W.
A survey of the art of ancient Greece and Rome (ca. 1000 B.C.E. -500 C.E.). Emphasis on major sites, architecture, sculpture, and painting. Illustrated lectures and discussion; use of the Wilcox Classical Museum. No knowledge of Greek or Latin is required. Not open to students who have taken both CLSX 526/HA526 and CLSX 527/HA 537, except with permission of the instructor. (Same as CLSX 317, HA 317.) LEC.

HWC 324. Undergraduate Writing & Research Methods. 1 Hour. H.
Preparation for senior thesis project required of HWC majors. Introduction to writing strategies, library investigation, and time management skills. Open to HWC majors and others engaged in research and writing at the undergraduate level. Class will proceed by discussion of skills, methods, and examples, and will culminate in a written proposal from each student. LEC.

HWC 325. Theory and Method in Interdisciplinary Studies in the Humanities. 3 Hours. H.
An introduction to recent cultural theory and interdisciplinary methods used across the humanities and qualitative social sciences. Includes examination of traditional views of the humanities and its implicit cultures along with discussion of new methodologies of cultural analysis. LEC.

HWC 328. Law and the Legal Profession. 3 Hours. H.
An overview of Western Legal education, both in historical and modern contexts. Legal subjects such as constitutional law, contracts, property, the courts and ethics are also studied. Students gain perspective on law as a profession, and the legal environments in which we live. Note: this course does not guarantee admission to law school or constitute entry into the legal profession as a career. It is intended to provide information and help students identify interests in the field of legal study. LEC.

HWC 335. Introduction to Indigenous Studies. 3 Hours. NW / H.
This course is an introduction to the study of modern and historic indigenous peoples. It surveys the concepts, methods and content relevant to Indigenous Studies, using case studies drawn from the diverse indigenous cultures. Special attention is paid to the various ways in which standard academic disciplines --history, anthropology, literature, law, political science, among others --contribute to the study of Indigenous cultures and current issues. The course illustrates that the social, political, religious, and economic aspects of indigenous life are interconnected and tribal histories and cultures cannot be understood without an awareness of these fields. (Same as ISP 335.) LEC.

HWC 348. American Indian and White Relations to 1865. 3 Hours. H.
This course provides an intensive survey of the Indians of North America from Prehistory to 1865, and focuses on ancient indigenous cultures, early European-Indian relations and the impact of European culture upon the indigenous peoples of North America. (Same as HIST 351, ISP 348.) LEC.

HWC 350. American Indians Since 1865. 3 Hours. H.
This course examines American Indian/White relations from reconstruction to the present. It surveys the impact of westward expansion and cultural changes brought about by the Civil War, forced education, intermarriage, the Dawes Act, the New Deal, the World Wars, termination, relocation and stereotypical literature and movies. The class also addresses the Red Power and AIM movements, as well as indigenous efforts to decolonize and to recover and retain indigenous knowledge. After learning about the past from both Native and non-Native source materials, students will multiple perspectives about historical events and gain understandings of diverse world views, values, and responses to adversity. (Same as HIST 352 and ISP 350.) LEC.

HWC 370. The Twentieth Century. 3 Hours. H.
An integrated study of several disciplines such as history, philosophy, art, music, and literature as they relate to the twentieth century in one country, or one historical or aesthetic movement occurring during this time. LEC.

HWC 374. Gender and Sexuality, Ancient and Modern. 3 Hours. H.
Classical Greek and Roman attitudes to gender and sexuality compared and contrasted with modern nations and behaviors. Attention is paid to literature (dramatic, philosophical, medical, and legal texts) and archaeological evidence (vase painting, sculpture, and domestic architecture). The course may include the following topics: age divisions and rites of passage from childhood to maturity; marriage; conception, birth, and infanticide; the family; love; homoeroticism; property and economics; and sexuality and the law, politics, and religion. No knowledge of Greek or Latin is required. (Same as CLSX 374.) LEC.
HWC 380. Modern Themes, Ancient Models: ______. 3 Hours. H.
The study of the evolution of a cultural or literary tradition from the
Graeco-Roman world into modern times. The theme of the course will
normally vary from semester to semester; topics such as these may be
examined: the analysis of a literary genre (e.g. drama, satire, lyric), the
transformation of the ancient mythical heritage, the reception of ancient
astronomy. Students should consult the Schedule of Classes for the
theme of the course in a given semester. With departmental permission,
may be repeated for credit as topic varies. (Same as CLSX 350.) LEC.

HWC 390. Comparative Literary Theory. 3 Hours. H.
A study of selected works in literary theory and of selected problems in
literary interpretation and comparative literary methodology, designed to
examine and apply systematically basic critical principles and approaches.
Study of approaches such as feminism, Marxism, deconstruction,
psychoanalysis, and cultural studies are carried out through discussion
and writing. Prerequisite: Completion of the freshman-sophomore English
requirement or its equivalent. LEC.

HWC 410. Dante's Comedy. 3 Hours. H.
The complete Divine Comedy will be read in English translation, with
equal stress on each of its three parts--the Inferno, the Purgatory, and the
Paradise. The poem will be explained for the general reader by specialists
having a variety of perspectives. (Same as HIST 420.) LEC.

HWC 420. The Interrelations of the Humanities and the Arts. 3 Hours.
An interdisciplinary seminar on the relations of several of the humanities
and the arts. Topics will vary, but the interrelation of the humanities and
arts will be the central focus. Not open to freshmen and sophomores;
recommended in the junior year. Required of students majoring in
humanities. LEC.

HWC 424. Senior Seminar in Humanities. 3 Hours. AE61 / H.
A seminar to result in the student’s integration of knowledge within the
Humanities major. Students undertake a project that reflects and utilizes
the interdisciplinary perspectives of the humanities. Options for the final
project include a portfolio, web page, or significant writing project. Not
open to freshmen and sophomores; recommended in the senior year.
Prerequisite: Completion of at least 9 hours of upper division courses in
the major. IND.

HWC 430. European Civilization in World Context: ______. 3 Hours.
HL AE42/GE3H / H.
An introduction to the literature of encounters between European and
non-European civilizations, drawing on both Western and non-Western
sources. The course may include European interactions with areas such as
the Mediterranean Basin, Sub-saharan Africa, South and East Asia,
and the Americas. World areas and historical periods chosen for study
will vary from semester to semester according to the interest and field of
the instructor. Not open to freshmen. (Same as EARS 430.) Prerequisite:
HWC 114 or HWC 204 and HWC 115 or HWC 205. LEC.

HWC 435. Islam in Europe. 3 Hours. AE42 / H.
Investigation of Muslim migration into Europe and day-to-day interactions
of Muslims with other European populations. This is an integrated study
of historical, political, religious and economic influences that determine
Muslim experience in contemporary European culture. (Same as EARS
435.) LEC.

HWC 436. Islam in Europe, Honors. 3 Hours. H.
Investigation of Muslim migration into Europe and day-to-day interactions
of Muslims with other European populations. This is an integrated
study of historical, political, religious and economic influences that
determine Muslim experience in contemporary European culture.
Prerequisite: Membership in the University Honors Program or permission
of department. Not open to students who have completed EURS/HWC
435 LEC.

HWC 460. Animals in Art and Literature. 3 Hours. H.
A study of the role of animals (especially mammals), both wild and
domesticated, in defining the nature of human beings and human culture
through the disciplines of religious studies, philosophy, history, art and
literature. Both western and non-western courses are examined. LEC.

HWC 464. Visions in Art and Literature. 3 Hours. H.
A study of the phenomenon of visions, their expression in various
media, and theories of visionary experience from the humanities and
social sciences, with a particular emphasis on critically evaluating the
relationship between the visionary experience and its expression. (Same
as REL 464.) LEC.

HWC 468. Illness in Art and Literature. 3 Hours. H.
An examination of how illness and health have been conceptualized,
expressed, and explored in Western literature and art, as well as a
consideration of issues and health from the perspectives of philosophy
and religious studies. (Same as REL 468.) LEC.

HWC 470. American Health Care: From Origins to Modern Models. 3
Hours. H.
An interdisciplinary analysis of the historical origins and present currents
within American medicine. This is an integrated study of basic historical,
political, economic and professional influences that underlie the character
and practice of health care in our century. LEC.

HWC 477. Gender and Religion. 3 Hours. H.
Examination of the symbols, images, scriptures, rites and teachings that
define gender in various religious traditions. (Same as REL 477.) LEC.

HWC 490. Roots of Federal Indian Policy. 3 Hours. H.
This course introduces students to the basic concepts and ideologies
of US Federal Indian policy. It surveys European intellectual trends that
were influential in creating policies applied to colonized native peoples.
The course explores the origins of such policies, including removals,
“civilization programs;” the reservation period, the Dawes (Allotment)
Act, the New deal, termination, relocation, NAGPRA and tribal rights, in
addition to issues surrounding American Indian identity, tribal membership
demographics. This course serves as a foundation for more in-depth
study of Federal Indian Law pertinent to the Indigenous peoples of the
United States. (Same as ISP 490.) LEC.

HWC 494. Humanities Directed Study: ______. 1-3 Hours. AE61 / H.
Investigation of a subject in fields or on topics not covered in regularly
scheduled courses. May be repeated for a total of 6 hours. Does not
replace or satisfy specific course requirements for the HWC major. May
be counted as part of the total junior-senior credit hours required. LEC.

HWC 500. Studies in: ______. 3 Hours. H.
A study of significant themes, topics, or problems in the humanities. May
also relate an issue in the humanities to the social sciences or natural
sciences. May be repeated for credit when the topic varies. LEC.

HWC 505. Europe Today. 3 Hours. AE42 / H.
An exploration of major social, political and economic developments post
World War II including the rise of the European Union, the integration of
Eastern and Western Europe, the growing role of Islam, attitudes towards
the United States, and Europe’s role in the world economy. Topics may
vary based on current events. LEC.

HWC 510. Science, Technology, and Society. 2-3 Hours. H.
The objective of this course is to provide members of the university
community with information that enables them to judge the humanistic,
moral, and ethical implications of scientific and technological
developments. Formal presentations by guest lecturers, followed by
question-and-answer periods, will alternate with panel discussions, symposia, etc., prepared by faculty members drawn from the various departments, schools, and organizational units of K.U. LEC.

HWC 514. Totalitarianism and Literature in Central Europe. 3 Hours. H.
This course asks how fiction written in Central Europe engaged and grappled with the totalitarian experience imposed by Nazi and Soviet forms of government. The course focuses on the works by 20th-century Polish, Czech, and Hungarian writers that deal with totalitarianism. (Same as SLAV 514.) LEC.

HWC 520. Literature in Translation: _____. 3 Hours. H.
Studies in one or more national literatures. Discussion and frequent critical papers. Prerequisite: Completion of one junior-senior level course in a language and literature department. LEC.

HWC 524. Chinese Thought. 3 Hours. NW / H/W.
A survey of the principal modes of Chinese thought from their origins through the imperial period. Not open to students with credit in EALC 132. (Same as EALC 642 and PHIL 506.) Prerequisite: Eastern civilization course or a course in Asian history or a distribution course in philosophy. LEC.

HWC 530. Study of a Culture: _____. 3 Hours. H/W.
An interdisciplinary study of elements that have contributed to the development of a particular civilization, such as Irish, Scottish, or Scandinavian. LEC.

HWC 538. Pompeii and Herculaneum. 3 Hours. H.
An interdisciplinary treatment of the art and archaeology of the ancient Roman cities of Pompeii and Herculaneum in Italy. Emphasis on the structures and decorations of major public spaces and houses and on aspects of cultural, social, political, commercial and religious life from the period of the second century B.C.E. to 79 C.E., when Pompeii and Herculaneum were buried by the eruption of Mt. Vesuvius. Slide lectures and discussion. (Same as CLSX 538, HA 538) Prerequisite: Graduate status, or 6 credit hours in Classics, Greek, Latin, History of Art, or permission of the instructor. LEC.

HWC 540. Translation. 3 Hours. H.
Students will undertake substantial work in the translation of non-technical writing, e.g., poems, short stories, novels, essays, from any foreign language to English, and examine the practical and theoretical problems encountered in or raised by translation. Prerequisite: Satisfactory completion of at least third-year foreign language work. LEC.

HWC 552. Foodways: Latin America. 3 Hours. H.
This course explores the traditional foods, ways of eating, and cultural significance of food among peoples of Latin America. The course surveys the vast array of flora in Central and South America and the Caribbean, and focuses on issues of environmental protection, bioethics, food security, and the growth of farming and ranching. The class studies the impact that foods such as maize, potatoes and cacao have had globally, and includes African, Asian, and European influences on Latin cuisine, as well as health problems associated with dietary changes. (Same as HIST 512, ISP 552, and LAA 552.) Prerequisite: Upper division course on Latin America, or permission of the instructor. LEC.

HWC 566. The Devil in Russian Literature. 3 Hours. H.
This course traces the various manifestations of the Devil through Russian and European folklore, myth, theology, culture, and literature. Although the focus is on Russian literature, classic European works are discussed, as they had a powerful impact on the modern Russian conception of the Evil One. Readings in English. (Same as SLAV 566.) LEC.

HWC 570. Men and Masculinities. 3 Hours. H.
An intensive examination of the history and theory of masculinities in the Western world. Students become acquainted with some of the key theories of men and masculinities, and develop research projects on a topic negotiated with the instructor. (Same as EALC 542, WGSS 570.) Prerequisite: An upper-division course in History, Humanities and Western Civilization, or Women Gender and Sexuality Studies; or permission of instructor. LEC.

HWC 575. The Body, Self and Society. 3 Hours. H.
An intensive examination of the role of the human body in the creation of personal and social identities in the Western world. Students become acquainted with contemporary theories of embodiment and senses as they are applied to a variety of historical themes, and develop research projects on a topic negotiated with the instructor. (Same as HIST 625, WGSS 575.) Prerequisite: An upper-division course in History, Humanities and Western Civilization, or Women Gender and Sexuality Studies; or permission of instructor. LEC.

HWC 600. Biography of a City: _____. 3 Hours. AE42 / H/W.
Examination in depth of the historical, social, and artistic growth and development of one major urban center. LEC.

HWC 620. Study of a Culture: _____. 3 Hours. H/W.
An interdisciplinary study of elements that have contributed to the development of a particular civilization, such as Irish, Scottish, or Scandinavian. LEC.

HWC 770. Research in Men and Masculinities. 3 Hours.
An intensive examination of the history and theory of masculinities in the Western World since the sixteenth century. Students will become acquainted with some of the key theories of men and masculinities, examine in depth the interplay between manhood and modernity, and develop research projects on a topic negotiated with the instructor. May be repeated if content varies sufficiently. LEC.

HWC 775. Advanced Study in the Body and Senses. 3 Hours.
An intensive examination of the role of the human body in the creation of personal and social identities in the West since the sixteenth century. Emphasis is on understanding how contemporary theories of embodiment are applied to concrete historical or contemporary problems. May be repeated if course content varies sufficiently. LEC.

PCS 120. Introduction to Peace and Conflict Studies. 3 Hours. HT GE11/GE3H / H.
An introduction to the content and methods of peace studies. Peace studies is a multidisciplinary and interdisciplinary approach to the study of war and peace. Building on and integrating the work of various fields of study, the course examines the causes of structural and direct violence within and among societies and the diverse ways in which humans have sought peace, from conquest and balance of power to international organizations and nonviolent strategies. LEC.

PCS 121. Introduction to Peace and Conflict Studies, Honors. 3 Hours. H.
An introduction to the content and methods of peace studies. Peace studies is a multidisciplinary and interdisciplinary approach to the study of war and peace. Building on and integrating the work of various fields of study, the course examines the causes of structural and direct violence within and among societies and the diverse ways in which humans have sought peace, from conquest and balance of power to international organizations and nonviolent strategies. Open only to students admitted to the University Honors Program or by permission of instructor. Not open to students who have completed PCS 120. LEC.
PCS 329. History of War and Peace. 3 Hours. HL / H.
A study of the changing nature of warfare and the struggle to bring about peace. Topics include pacifism, the "military revolution" that created the first professional armies; the development of diplomatic immunity, truces, and international law; the peace settlements of Westphalia, Utrecht, Vienna, Versailles, San Francisco; the creation of peace movements and peace prizes; the evolution of total war, civil war; and guerrilla warfare involving civilians in the twentieth century; the history of the League of Nations and United Nations; and the rise of intergovernmental and non-governmental organizations. (Same as HIST 329 and EURS 329.) LEC.

PCS 550. Classics of Peace Literature. 3 Hours. HL AE51/AE61 / H.
A study of influential proposals for world peace from Erasmus' 'The Complaint of Peace (1515) to the 1995 Hague Appeal for World Peace. Selected writings by such authors as Erasmus, Hugo Grotius, Jean-Jacques Rousseau, Immanuel Kant, Henry Thoreau, Henri Dunant, Berthe von Suttner, Woodrow Wilson, Mahatma Gandhi, and Martin Luther King, Jr., are considered. (Same as EURS 550.) Prerequisite: HWC 204 or HWC 205. LEC.

PCS 555. Topics in Peace and Conflict Studies: ____. 3 Hours. H.
This course offers specialized or interdisciplinary perspectives on historical, political, social, and religious movements, institutions, societies, agencies, or texts dealing with conflict resolution. May be repeated for credit with different topics. LEC.

PCS 556. Education for Peace and Non-Violence. 3 Hours. H.
This course reviews the history, aims and methodology of peace education. Topics include examination of the roots and causes of social violence; educational initiatives that seek to reduce structural and direct violence; and teaching methodologies in the field of multicultural education and pedagogy. LEC.

PCS 560. Directed Study in Peace and Conflict Studies. 1-3 Hours. AE61 / H.
Practicum or research under the supervision of a faculty member and with the approval of the Peace and Conflict Studies Minor. Individual conferences, reports, and papers, and, in the case of practicum, supervised experience with an approved organization or agency. Prerequisite: Completion of three core courses in the minor. IND.

PCS 565. The Literature of Human Rights. 3 Hours. H.
Examines in literature, art, and film from about 1800 to the present, both sides of the ongoing debate surrounding the idea that all human persons possess inalienable rights because all persons possess intrinsic value as persons, value independent of race, gender, caste or class, wealth, age, sexual preference, etc. Anti- and pro-rights proponents are paired and studied with equal care. (Same as EURS 565.) LEC.

PCS 560. Senior Seminar in Peace and Conflict Studies. 3 Hours. AE61 / H.
This capstone seminar provides a sustained and in-depth study of a particular topic in Peace and Conflict Studies, to be chosen by the instructor. Each student is required to carry out a substantive research project to produce a term paper or comparable work. Required for completion of minor. Prerequisite: Students must have completed at least nine hours in the minor before enrolling. LEC.

PCS 760. Investigation and Conference in Peace and Conflict Studies. 3 Hours.
Research under the supervision of a faculty member and approved for the Peace and Conflict Studies program. Individual conferences, reports, and papers; may be combined with classwork. Open only to graduate students. LEC.
Requirements for the B.A. Major

Humanities Major Core Knowledge and Skills

The Humanities major requires a total of 30 credit hours. Students must take courses in at least 3 humanities or social science departments or programs with a maximum of 15 hours from 1 department (except HWC in which students will take more than 15 hours). 18 of the 30 credit hours must be in courses numbered 300 or above.

Note: Sharing course work (credit hours) between any of the HWC major tracks and another major is restricted to 6 hours.

All other courses taken toward the major must be approved by the HWC undergraduate coordinator.

Majors must choose 1 of the following tracks: Civilizations in a Global Context, World Literatures, or Peace and Conflict Studies.

Majors are strongly encouraged to study abroad. Please see your advisor about this opportunity.

Track 1: Civilizations in a Global Context

Civilizations in a Global Context

This track studies aspects of the cultures of Western civilization and of one non-Western civilization (e.g., Africa, Asia, the Middle East, or Latin America). It is designed to provide the student with knowledge of diverse civilizations and with methods for investigating their differences and commonalities. 30 credit hours, to include the following:

Introductory and Capstone Coursework (6)

6 hours of introductory and capstone coursework:

HWC 110 Introduction to Humanities
or HWC 111 Introduction to Humanities, Honors

HWC 424 Senior Seminar in Humanities (The senior essay for this track is to be a comparative and integrative study of a topic that bridges the two civilizations studied.)

24 additional hours to include: (24)

HWC 206 Contemporary Western Civilization
HWC 430 European Civilization in World Context: _____

9 hours in aspects of the cultures of Western Civilization, 1 of which must be an HWC course.

9 hours in aspects of the cultures of non-Western civilization

Track 2: World Literatures

This track offers literary-critical studies of both Western and non-Western literatures. It provides the student with knowledge of diverse literary traditions and methods for investigating their differences and commonalities. Majors choosing this option must complete 30 credit hours to include the following:

Introductory and Capstone Coursework (6)

6 hours of introductory and capstone coursework:

HWC 110 Introduction to Humanities
or HWC 111 Introduction to Humanities, Honors

HWC 424 Senior Seminar in Humanities (The senior essay for this track is to be a comparative literary-critical study.)

24 additional hours to include: (24)

6 hours in the “Masterpieces of World Literature” series:

HWC 304 World Literature I
HWC 308 World Literature II
HWC 312 World Literature III

6 hours of additional literature coursework chosen from among the following:

the third HWC Masterpiece of World Literature course
any other HWC literature course upon approval from an advisor
a course in American, British, or Irish literature (or any other English language or literature course)

6 hours in the literature of a non-English-language European culture in translation (France, Germany, Italy, Spain, etc.). Students possessing a reading knowledge of one of the European languages are strongly encouraged to take one of the literature courses in the original language.

6 hours in the literature of a non-Western culture in translation. Students possessing a reading knowledge of a Non-Western language are strongly encouraged to take one of the literature courses in the original language.

Track 3: Peace and Conflict Studies

This track provides students with opportunities to study issues of violence and methods of peace-making from an interdisciplinary humanities perspective. Majors choosing this option must complete 30 credit hours to include the following:

Introductory and Capstone Coursework (9)

9 hours of introductory and capstone coursework:

HWC 110 Introduction to Humanities
or HWC 111 Introduction to Humanities, Honors

PCS 120 Introduction to Peace and Conflict Studies

PCS 650 Senior Seminar in Peace and Conflict Studies (students are required to carry out a substantive research project to produce a term paper or comparable work.)

21 additional hours to include: (21)

6 hours PCS upper division courses (2 out of 3):

PCS 550 Classics of Peace Literature
PCS 555 Topics in Peace and Conflict Studies: _____

PCS 565 The Literature of Human Rights

6 hours of interdisciplinary core courses, for example:

ANTH 501 Topics in Sociocultural Anthropology: _____
HIST 314 Globalization: History and Theory
POLS 674 International Ethics
POLS 684 International Law: The State and the Individual or POLS 685 International Law: Laws of Armed Conflicts
REL 667 Religious Perspectives on War and Peace
REL/COMS 669 Human Conflict and Peace
SOC 650 Transnational Migration

6 hours in the “Masterpieces of World Literature” series:

HWC 304 World Literature I
HWC 308 World Literature II
HWC 312 World Literature III

6 hours of additional literature coursework chosen from among the following:

the third HWC Masterpiece of World Literature course
any other HWC literature course upon approval from an advisor
a course in American, British, or Irish literature (or any other English language or literature course)

6 hours in the literature of a non-English-language European culture in translation (France, Germany, Italy, Spain, etc.). Students possessing a reading knowledge of one of the European languages are strongly encouraged to take one of the literature courses in the original language.

6 hours in the literature of a non-Western culture in translation. Students possessing a reading knowledge of a Non-Western language are strongly encouraged to take one of the literature courses in the original language.

Area 1: The pursuit of social, economic and environmental justice, for example:

HIST 314 Globalization: History and Theory
Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 30 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior Hours
Satisfied by a minimum of 18 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Departmental Honors
An undergraduate student must maintain a minimum overall grade-point average of 3.25 and of 3.5 in the major. Students must be recommended for honors by the readers of the comprehensive essays written for HWC 424 Senior Seminar in Humanities and Western Civilization. Members of the HWC advisory committee then evaluate the essay to determine whether the student should be awarded honors.

Minor in Humanities

The minor in Humanities addresses the needs of students who seek to complement their major field of study with a solid grounding in the intellectual traditions and cultural practices of a particular area of world culture, or who wish to deepen and broaden their knowledge and understanding of a specific historical period. In addition, study in the humanities provides an excellent opportunity for students preparing for careers in the professions that require high standards of written and oral communication skills. Given its emphasis on text-based curriculum that encourages critical thinking, shared discussion, and written and oral analysis on significant topics, the Minor in Humanities prepares undergraduates to excel as they move forward into graduate or professional schools or the work force.

Requirements for the Minor

The Minor in Humanities requires 18 hours of coursework, 12 hours of which must be taken at the junior/senior level, and 3 of which may be shared with a student's major.

Students selecting this minor must complete the following:

<table>

Three HWC courses numbered 300 and above (nine hours), chosen in consultation with an advisor, and focusing on a specific theme.

Minor Hours and GPA

While completing all required courses, minors must also meet each of the following hour and grade point average minimum standards:

Minor Hours
Satisfied by 18 hours of minor courses.

Minor Hours in Residence
Satisfied by a minimum of 9 hours of junior/senior (300+) hours of KU resident credit in the minor.

Minor Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA
Satisfied by a minimum of a 2.0 GPA in all courses in the minor. GPA calculations include all courses in the field of study including Fs and repeated courses.

Minor in Peace and Conflict Studies

Why study the Humanities and Western Civilization?
Because integrated learning in the humanities fosters broad cultural understanding by exploring the connections among diverse areas of knowledge.

Requirements for the Minor

This multidisciplinary program enables students to examine conflict within and between societies as well as ways that humans address...
conflict through war, mediation, law, diplomacy, institutions, and peaceful resistance.

Students selecting this minor must complete each of the following:

**Introduction to Peace and Conflict Studies (3)**
Satisfied by:
- PCS 120 Introduction to Peace and Conflict Studies 3

**Peace and Conflict Studies Core Knowledge and Skills (6)**
Satisfied by 2 courses (6 hours) from the following:
- HIST 314 Globalization: History and Theory 6
- PCS 550 Classics of Peace Literature
- POLS 679 International Conflict
- REL 667 Religious Perspectives on War and Peace
- SOC 650 Transnational Migration

**Peace and Conflict Studies Required Elective (6)**
Satisfied by 2 courses (6 hours) from the following:
- ANTH 465 Genocide and Ethnocide 6
- ENGL 479 The Literature of: _____
- EURS 505 Studies in Exile Literature
- EURS 565 The Literature of Human Rights
- HIST 343 The Holocaust in History
- HIST 369 Colonialism and Revolution in the Third World, Honors
- HIST 370 Violence and Conflict in Latin American History
- PCS 555 Topics in Peace and Conflict Studies: ______
- PCS 560 Directed Study in Peace and Conflict Studies
- PCS 565 The Literature of Human Rights
- PHIL 555 Justice and Economic Systems
- POLS 650 Palestinians and Israelis
- POLS 671 International Cooperation
- POLS 673 International Organization
- POLS 685 International Law: Laws of Armed Conflicts
- PSYC 572 Psychology and International Conflict
- REL 669 Human Conflict and Peace
- SOC 531 Global Social Change

**Senior Seminar in Peace and Conflict Studies (3)**
Satisfied by:
- PCS 650 Senior Seminar in Peace and Conflict Studies 3

**Minor Hours & Minor GPA**
While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

**Minor Hours**
Satisfied by 18 hours of minor courses.

**Minor Hours in Residence**
Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

**Minor Junior/Senior Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

**Minor Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Note:** Only 3 hours can be shared between the minor and any other minor or major. Students may not count more than 9 hours of course work from any one department toward completion of the minor.

**Indigenous Studies Program**

**Indigenous Studies Graduate Program**
The Indigenous Studies master's degree program provides students with in-depth knowledge of Indigenous peoples' complex and diverse cultures and histories, as well as their impacts on the global society. Our multidisciplinary program offers students the advantage of studying relevant issues from a wide range of academic perspectives. The expertise of our affiliate faculty members includes Native American history, including medical and legal aspects; indigenous literature; ethnobotany; Indigenous peoples' cultural survival and political activism; American Indian tribal governments; indigenous geographies and cartographic history; Native American religions; and much more.

Empowered by the resources on campus and in our community, we strive to provide unique learning opportunities for our students that go beyond the classroom. The mission of the multidisciplinary Indigenous Studies Program is to educate students and promote scholarship about the complexity and diversity of Indigenous peoples’ cultures and histories, and to provide students with the knowledge to understand and assess the U.S. tribes’ unique relationships to the U.S. government. Indigenous Studies encourages appreciation of the contributions of Indigenous peoples to the global society, provides students with an understanding of the difficulties confronting tribal nations and offers foundational knowledge to assist them in finding innovative solutions to solve those problems.

**Financial Aid**
The program may nominate outstanding students for KU graduate fellowships and awards. Consideration requires submission of an application by January 15.

The program offers a few scholarships for excellence in academic work. Consideration requires the submission of all application materials by February 1.

Visit the Graduate Studies website for information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for graduate students at KU.

Financial Aid and Scholarships (http://affordability.ku.edu/steps/index.shtml) administers grants, loans, and need-based financial aid.

**Courses**
 ISP 101. Introduction to Indigenous Nations Studies. 3 Hours. NW / S.
An introduction to the study of Indigenous peoples. It surveys the concepts, methods, and content relevant to Applied Indigenous Studies, using case studies drawn from diverse cultures. The course illustrates that the social, political, religious, and economic aspects of American Indian life are interconnected and that tribal histories cannot be understood without an awareness of these fields. Students are introduced to controversies over how to research, write, and interpret American Indians,
and will address the foundations of Indigenous Studies, and that is Indigenous concepts of decolonization, empowerment and Nation-building. The course explores how the lives of Indigenous people have been affected by colonization, while exploring the varying definitions of “colonialism”, “colonizer” and the “colonized.” LEC.

ISP 305. World Indigenous Literatures. 3 Hours. NW AE42 / H.
A survey of contemporary world indigenous literatures that includes those from North America, Australia, New Zealand, the South Pacific, the Arctic, and Latin America. Texts are in English (original or translation). Genres studied include the novel, poetry, and drama, supplemented by works from the oral tradition, the visual arts, and film. (Same as ENGL 305.) Prerequisite: Prior completion of the KU Core Written Communication requirement. Recommended: Prior completion of one 200-level English course. LEC.

ISP 330. Native American Religions. 3 Hours. NW AE41 / H.
A survey of religious traditions among selected Native American peoples. Topics include religious freedom, ritual activity, cultural narrative ("myth"), kinship, healing practices, ecology, government relations, impact of colonization, impact of missionization, contact between cultures, and secularization. Not open to students who have completed GINS 331. (Same as REL 330.) LEC.

ISP 331. Native American Religions, Honors. 3 Hours. NW AE41 / H.
A survey of religious traditions among selected Native American peoples. Topics include religious freedom, ritual activity, cultural narrative ("myth"), kinship, healing practices, ecology, government relations, impact of colonization, impact of missionization, contact between cultures, and secularization. Open only to students in the University Honors Program or by permission of instructor. Not open to students who have completed ISP 330. (Same as REL 331.) LEC.

ISP 335. Introduction to Indigenous Studies. 3 Hours. NW / H.
This course is an introduction to the study of modern and historic indigenous peoples. It surveys the concepts, methods, and content relevant to Indigenous Studies, using case studies drawn from the diverse indigenous cultures. Special attention is paid to the various ways in which standard academic disciplines--history, anthropology, literature, law, political science, among others--contribute to the study of Indigenous cultures and current issues. The course illustrates that the social, political, religious, and economic aspects of indigenous life are interconnected and tribal histories and cultures cannot be understood without an awareness of these fields. (Same as HWC 335.) LEC.

ISP 348. American Indian and White Relations to 1865. 3 Hours. H.
This course provides an intensive survey of the Indians of North America from Prehistory to 1865, and focuses on ancient indigenous cultures, early European-Indian relations and the impact of European culture upon the indigenous peoples of North America. (Same as HIST 351, HWC 348.) LEC.

ISP 350. American Indians Since 1865. 3 Hours. H.
This course examines American Indian/White relations from reconstruction to the present. It surveys the impact of westward expansion and cultural changes brought about by the Civil War, forced education, internmarriage, the Dawes Act, the New Deal, the World Wars, termination, relocation and stereotypical literature and movies. The class also addresses the Red Power and AIM movements, as well as indigenous efforts to decolonize and to recover and retain indigenous knowledge. After learning about the past from both Native and non-Native source materials, students will multiple perspectives about historical events and gain understandings of diverse world views, values, and responses to adversity. (Same as HIST 352 and HWC 350.) LEC.

ISP 490. Roots of Federal Indian Policy. 3 Hours. H.
This course introduces students to the basic concepts and ideologies surrounding modern United States Federal Indian policy. It will survey the European intellectual trends that were influential in creating policies that were (and still are) applied to the colonized Native peoples. The course will explore the roots of US Indian policy, including removals, "civilization programs," the reservation period, the Dawes (Allotment) Act, the New Deal, termination, relocation, NAGPRA and tribal rights, in addition to the issues surrounding American Indian identity, tribal membership and demographics. This course serves as the foundation for more in-depth study into the complicated and ever-changing field of Federal Indian Law as it pertains to the Indigenous peoples of the United States. (Same as HWC 490.) LEC.

ISP 504. Topics in Indigenous Nations Studies: ______. 3 Hours. NW / S.
This course concentrates on selected problems in the interdisciplinary field of Indigenous Nations Studies. Courses in this field utilize methods developed in various disciplines in order to examine issues related to the survival, self-sufficiency, mutual support, empowerment, and decolonization of Indigenous Peoples throughout the world. May be repeated for credit when the topic differs. Recommended for juniors or seniors, or for students who have completed ISP 101/GINS 101/INS 101. LEC.

ISP 510. Indigenous Women and Activism. 3 Hours. NW / S.
Examines the roles of activist Indigenous women in politics, social work, academia, business, environmental and health issues. Compares and contrasts the ideology of the predominantly white feminist movement with the goals and concerns of the "Red Power" movement and emphasizes Indigenous socio-cultural values and concerns. Profiles prominent Indigenous female activists, tribal leaders and writers, in addition to topics of serious concern to Indigenous women: violence, racism, loss of culture and language, education, health care and other manifestations of continued colonization. LEC.

ISP 530. Indigenous Food and Health. 3 Hours. NW / U.
This course investigates the historic diets of Indigenous peoples, including cultivation of crops, hunting and fishing methods, food preparation and seed preservation. The class traces through history the colonial policies and ideologies that caused the cultures to alter their ways of eating, resulting in unprecedented modern health problems and offers traditional cultural strategies for health recovery. LEC.

ISP 552. Foodways: Latin America. 3 Hours. H.
This course explores the traditional foods, ways of eating, and cultural significance of food among peoples of Latin America. The course surveys the vast array of flora in Central and South America and the Caribbean, and focuses on issues of environmental protection, bioethics, food security, and the growth of farming and ranching. The class studies the impact that foods such as maize, potatoes and cacao have had globally, and includes African, Asian, and European influences on Latin cuisine, as well as health problems associated with dietary changes. (Same as HIST 512 , HWC 552 and LAA 552.) Prerequisite: Upper division course on Latin America, or permission of the instructor. LEC.

ISP 600. Research Methods and Indigenous Peoples. 1-3 Hours. NW / U.
An introduction to the social science methods of investigation and analysis that are used in Indigenous Nations Studies as a discipline. The nature of Indigenous Nations Studies data sources and methods of data collection, the logic of social scientific inquiry, and key methods of data analysis are emphasized. In addition, the social and educational implications of the results are examined. Prerequisite: Permission of instructor. LEC.
ISP 601. Indigenous Peoples of the World. 3 Hours. NW / U.
A survey of the varied responses of global Indigenous peoples as a result of the imposition of external economic and political systems. An overview of diverse, thematic issues such as land rights, economic development, resources and cultural patrimony, languages, knowledge systems, and women’s rights from the perspectives of Indigenous societies around the world. Detailed studies of Indigenous peoples seeking recognition and protection under international law are used. (Same as GEOG 601.) Prerequisite: Permission of instructor. LEC.

ISP 602. Indigenous Decolonization and Empowerment. 3 Hours. NW / U.
An Indigenous focus of the foundation and impact of colonization, decolonization, empowerment and nation-building. Prerequisite: Permission of instructor. LEC.

ISP 603. Introduction to Indigenous Nations Graduate Studies. 3 Hours. NW / U.
The goal of this course is two-fold: to introduce students to the academic discipline of Indigenous Nations Studies, its debates and contours, history, methods, and resources; and to develop the skills necessary to proceed successfully through the program. Key words and terms, critical thinking/reading/and writing skills, and research skills are emphasized. Guest lectures from ISP faculty members, librarian, and members of the Writing Center serve to complement and broaden assignments and discussions. Prerequisite: Permission of instructor. LEC.

ISP 611. Applied Indigenous Leadership. 3 Hours. NW / U.
Trains students in the skills of grant writing, leadership, conflict resolution, public presentation, organization and program development as applicable to Indigenous peoples. Prerequisite: Permission of Instructor. LEC.

ISP 612. Native American Oppression, Resistance, and Liberation. 3 Hours. NW / U.
An interdisciplinary examination of the effects of historical and contemporary forms of colonialism and postcolonial strategies of resistance practiced by Indigenous peoples within and beyond the borders of the United States. Prerequisite: Permission of instructor. LEC.

ISP 613. Issues Facing Indigenous Peoples. 3 Hours. NW / U.
Explores the theories and methods of selected cultural, environmental, legal, political, and socio-economic issues confronting Indigenous societies throughout the world. Prerequisite: Permission of instructor. LEC.

ISP 614. Decolonizing Narratives. 3 Hours. NW / U.
With the decolonizing potential of Indigenous literary and cultural productions, this course seeks to both answer and explore such questions as: How can literary and cultural texts such as novels, poetry, music, and film from world Indigenous communities function as decolonizing tools? Can decolonizing methodologies be applied to such texts? How do such texts contribute to and strengthen Indigenous political, intellectual, cultural, visual and rhetorical sovereignty? Includes an overview of Indigenous literature, films and documentaries from North America, the Pacific, Australia, and New Zealand. Prerequisite: Permission of instructor. LEC.

ISP 670. Indigenous Peoples’ Health Status, Beliefs, and Behaviors. 3 Hours. NW / U.
Explores the health status, beliefs, and behaviors of particular Indigenous cultures. Examines the role of internal and external influences on health, various mainstream and Indigenous models of health behavior, perceptions of illness and curing, health status, and healing practices. Focuses on the groups of the Maori of New Zealand, First Nations in Canada, Palestinian peoples in the Middle East, American Indians, and Indigenous Australians. Prerequisite: Permission of instructor. LEC.

ISP 673. Environmental Justice. 3 Hours. NW / U.
An examination of the impact of environmental justice and security in Indigenous communities throughout the world with a focus on tactics and strategies that incorporate Indigenous perspectives in responses and mitigation schemes. A survey of mining, dumping, and storage of toxic and radioactive waste activities as related to Indigenous peoples. Case study analyses of economic, military and mining interests contrasted with perspectives emerging from cultural traditions and beliefs of Indigenous peoples and communities. Prerequisite: Permission of instructor. LEC.

ISP 800. Indigenous Issues in the United States. 3 Hours.
This course will focus on contemporary issues relating to Indigenous peoples and nations within the United States, with particular emphasis on such issues as sovereignty, indigeneity, colonialism and decolonization. The course will address varied disciplinary approaches to this range of issues and will consider how this discourse bears upon scholarly conversations regarding broader themes in other selected fields of study. LEC.

ISP 801. Indigenous Peoples of the World. 3 Hours.
A survey of the varied responses of global Indigenous peoples as a result of the imposition of externally-dominated economic and political systems. An overview of diverse, thematic issues such as land rights, economic development, resources and cultural patrimony, languages, knowledge systems, and women’s rights from the perspectives of Indigenous societies around the world. Detailed studies of Indigenous peoples seeking recognition and protection under international law will be used. The course is offered at the 600 and 800 levels, with additional assignments at the 800 level. (Same as GEOG 801.) LEC.

ISP 802. Indigenous Decolonization and Empowerment. 3 Hours.
An Indigenous focus of the foundation and impact of colonization, decolonization, empowerment and nation-building. LEC.

ISP 803. Introduction to Indigenous Nations Graduate Studies. 3 Hours.
The goal of this course is two-fold: to introduce students to the academic discipline of Indigenous Nations Studies, its debates and contours, history, methods, and resources; and to develop the skills necessary to proceed successfully through the program. Unpacking key words and terms, critical thinking/reading/and writing skills, and research skills will be emphasized. Guest lectures will serve to complement and broaden assignments and discussions LEC.

ISP 804. Special Topics: _____ 1-3 Hours.
Designed to fulfill program needs of the Indigenous Nations Studies master’s program, this course may meet with appropriate professional or graduate courses. Can be repeated for credit when topic differs. LEC.

ISP 805. American Indian Leadership. 3 Hours.
Students will analyze the qualities of American Indian leadership and will examine circumstances and backgrounds of Indian leaders as heroes and role models paying particular attention to how they responded as individuals, leaders, and as community members of their tribes. Besides surveying noted Indian leaders in treaty negotiations, allotment, removal, war, etc., the course will examine leaders in medicine, education, and recent American Indian history including attention to women leaders. Students will learn about the leaders’ tribes and cultures in addition to understanding the ethnohistory of Indian-white relations. LEC.

ISP 806. Directed Readings. 1-3 Hours.
An individual readings course with a qualified instructor on a topic in Indigenous Nations Studies. LEC.

ISP 807. Internship in Indigenous Nations Studies. 1-6 Hours.
Internships provide students the opportunity to obtain training and perform professional duties for academic credit at pre-approved indigenous-
related agencies, organizations, and communities. Students are required to demonstrate a minimum of 60 contact hours for each one credit hour. To enroll, students must obtain the consent of an ISP faculty member and the Program’s Curriculum Committee. May be repeated for credit. Prerequisite: permission from instructor. FLD.

ISP 809. Indigenous Women: Gender and Sexuality. 3 Hours.
This course examines gender and sexuality among indigenous communities in the world. Ethnographies about indigenous women are used to explore a variety of gender and sexual identities. Gendered and sexualized identities are analyzed within broader societal contexts such as the division of labor, kinship, marriage household, and the control of resources. Power relationships are examined between sub-altern women and the larger society, nation and globalizing world in which they play a part. LEC.

ISP 810. Indigenous Women and Activism. 3 Hours.
An examination of the roles and ideologies of prominent Indigenous female activists, tribal leaders and writers. LEC.

ISP 811. Applied Indigenous Leadership. 3 Hours.
A preparation to train students in the skills of grant writing, leadership, conflict resolution, public presentation, organization and program development as applicable to Indigenous peoples. LEC.

ISP 812. Native American Oppression, Resistance, and Liberation. 3 Hours.
An interdisciplinary examination of the effects of historical and contemporary forms of colonialism and postcolonial strategies of resistance practiced by Indigenous peoples within and beyond the borders of the United States. LEC.

ISP 813. Issues Facing Indigenous Peoples. 3 Hours.
This course explores the theories and methods of selected cultural, environmental, legal, political, and socio-economical issues confronting Indigenous societies throughout the world. LEC.

ISP 814. Decolonizing Narratives. 3 Hours.
With the decolonizing potential of Indigenous literary and cultural productions, this course seeks to both answer and explore such questions as: How can literary and cultural texts such as novels, poetry, music, and film from world Indigenous communities function as decolonizing tools? Can decolonizing methodologies be applied to such texts? How do such texts contribute to and strengthen Indigenous political, intellectual, cultural, visual and rhetorical sovereignty? An overview will be presented from Indigenous literature, films and documentaries from North America, the Pacific, Australia, and New Zealand. LEC.

ISP 824. Federal Indian Law. 2.5-3 Hours.
Addresses the law and policy of the United States regarding Indian nations and their members. Issues include the origins and contours of federal plenary power over Indian affairs, the scope of inherent tribal sovereignty, the limits of state power in Indian country, civil and criminal jurisdiction, and gaming. (Same as LAW 914) Prerequisite: Permission from instructor. LEC.

ISP 830. Indigenous Food and Health. 3 Hours.
Investigates the historic diets of Indigenous peoples, including cultivation of crops, hunting and fishing methods, food preparation and seed preservation. Traces through history the colonial policies and ideologies that caused the cultures to alter their ways of eating, resulting in unprecedented modern health problems. Will offer traditional cultural strategies for health recovery. LEC.

ISP 862. Indigenous Archives. 3 Hours.
A discussion of what constitutes an archive, including the theory and methodology of archival collections, and an introduction to archiving as a profession. Includes a discussion of records management, with an emphasis on tribal archives collections and tribal records. Includes instruction on arrangement and description of tribal archival collections, funding, environmentally controlled storage, and disaster recovery planning. The class will specifically address the needs of tribal archives: tribal records, oral history interviews, photographs, litigation records, grant writing, and culturally sensitive materials. Students will learn about primary and secondary sources, different formats of writing professional research papers, and will produce a research paper at the end of the semester. LEC.

ISP 863. Oral History. 3 Hours.
A discussion of the importance of the oral tradition in Indigenous nations and the difference between oral tradition and oral histories and myth. The class will concentrate on the methodologies of tribal oral history projects, from organizational aspects to personnel issues, equipment needed, sources of grant funding, interview methodology, as well as documentation and preservation of the interviews. The course will discuss how to share and make available these interviews and when access to them needs to be restricted. The students will conduct videotaped oral histories as part of the class exercises and get hands-on experience with the preservation, organization, and transcription of oral history projects. LEC.

ISP 864. Exhibiting Culture. 3 Hours.
A discussion of how museums and exhibits can be a vehicle for Indigenous community empowerment and the importance of Indigenous cultures to interpret their stories themselves. The class will also look at how different nations view the display and handling of their belongings and what kinds of belongings can or should be handled and displayed. LEC.

ISP 865. Grant Writing and Fundraising. 3 Hours.
A discussion of how to develop a grant writing and fundraising plan for a tribal project. Includes how to develop an idea or project and how to prepare a funding campaign. The students will produce a fundraising event and work on the various parts of an actual grant as the final class activity that will be designed to bring in funding to support KU Global Indigenous Nations Studies Program. LEC.

ISP 866. Indigenous Museum Management. 3 Hours.
A discussion of the community models of museum management, including museum administration, professional positions within a museum, museum exhibits, public education programs, security, and disaster planning. The course will compare and contrast museum management in European/ American museums and tribal museums and how these management styles affect collection policies, exhibit policies, traditional care of collections, sacred and ceremonial item handling and display, NAGPRA and repatriation, and oral histories. LEC.

ISP 867. Indigenous Records Management. 3 Hours.
A discussion of what constitutes a record and how to manage records at the business or government level. Train students in hands-on records management techniques, policies, developing a records retention schedule, and how to plan and design a records management program for records pertaining to Indigenous nations. LEC.

ISP 868. Indigenous Records Management II. 3 Hours.
A discussion of what constitutes a record and how to manage records at the business or government level. This is a second level of records management leading to preparation for the certification examination. LEC.

ISP 869. Traditional Care of Collections. 3 Hours.
A discussion of on traditional care issues of handling and preserving of Indigenous belongings. The class will compare the methods of traditional
care at tribal museums vs. conservation of Native items in mainstream museums. LEC.

**ISP 870. Indigenous Peoples’ Health Status, Beliefs, and Behaviors. 3 Hours.**
This course is designed to explore the health status, beliefs, and behaviors of particular Indigenous cultures. The course examines the role of internal and external influences on health, various mainstream and Indigenous models of health behavior, perceptions of illness and curing, health status, and healing practices. The course will focus on the groups of the Maori of New Zealand, First Nations in Canada, Palestinian peoples in the Middle East, American Indians, and Indigenous Australians. LEC.

**ISP 871. Community Health and Development. 3 Hours.**
This course extends knowledge and skills for addressing issues in community health and development (e.g., substance abuse, adolescent pregnancy, child and youth development, prevention of violence). Students learn core competencies such as analyzing community problems and goals, strategic planning, intervention, and evaluation, and then apply these skills to issues that matter to them and to the communities they serve. (Same as ABSC 710.) LEC.

**ISP 873. Environmental Justice. 3 Hours.**
An examination of the impact of environmental justice and security in Indigenous communities throughout the world with a focus on tactics and strategies that incorporate Indigenous perspectives in responses and mitigation schemes. A survey of mining, dumping and storage of toxic and radioactive waste activities as related to Indigenous peoples. Case study analyses of economic, military and mining interests contrasted with perspectives emerging from cultural traditions and beliefs of Indigenous peoples and communities. LEC.

**ISP 874. Natural Resource Management: Indigenous Perspectives. 3 Hours.**
An examination of resource management issues in Indigenous communities throughout the world with a focus on tactics and strategies that incorporate Indigenous perspectives in the management schemes. Case study analyses of management techniques derived from European-based science with Indigenous traditions and beliefs. LEC.

**ISP 875. Native and Western Views of Nature. 3 Hours.**
A comparison of the attitudes and perspectives towards the natural world developed by different cultural traditions. A review of western attitudes and also the traditional ecological knowledge of Indigenous peoples toward management of natural resources, non-human animals, and the natural world. LEC.

**ISP 876. Comparative Law. 2.5-3 Hours.**
A general introduction to and comparison of major legal systems of the world, with special emphasis given to how those systems reflect differing cultural values in addressing common legal questions. A major goal of the course is to deepen the students’ understanding of law and practice in the United States and to broaden their perspective of law beyond the boundaries of the common law systems. (Same as LAW 879.) Prerequisite: Permission from instructor. LEC.

**ISP 877. Public Lands and Natural Resources. 2.5-3 Hours.**
Devoted to the law and legal systems that govern the classification and use of one-third of America’s land mass. Includes a survey of the acquisition and disposition of the public domain; general federal statutes and doctrines that affect public land law; and different forms of federal lands classifications, including national parks, scenic rivers, and grazing lands. (Same as LAW 975.) Prerequisite: Permission from instructor. LEC.

**ISP 879. Water Law. 2.5-3 Hours.**
A study of water rights including the riparian and prior appropriation doctrines for surface water, and the various doctrines for groundwater. Private and public water distribution organizations, and special water districts. Water pollution control. Interstate conflicts over water resources. Federal government involvement in water distribution including federal powers and programs. Indian and reserved rights. Kansas water law. (Same as LAW 995.) Prerequisite: Permission from instructor. LEC.

**ISP 882. Native American Natural Resources. 2-3 Hours.**
This course provides a detailed examination of natural resource law as it applies to Indian Country. Among the topics to be discussed are water law, environmental protection, and subsurface property rights. (Same as LAW 967.) LEC.

**ISP 883. Sovereignty, Self-Determination and Indigenous Nations. 2-3 Hours.**
Examines legal, governmental, political, social, cultural, and economic issues associated with American Indian tribal sovereignty and self-determination. Includes the source and scope of tribal sovereignty; the threats to tribal sovereignty; and the methods by which tribal sovereignty can be strengthened and revitalized. (Same as LAW 987.) Prerequisite: Permission from instructor. LEC.

**ISP 898. Master's Non-Thesis. 1-6 Hours.**
Course for Indigenous Studies students completing a portfolio Master’s exam. Graded on a satisfactory/unsatisfactory basis. Prerequisite: Permission from instructor. LEC.

**ISP 899. Master’s Thesis. 1-6 Hours.**
Course for Global Indigenous Nations Studies students completing Master’s thesis projects. Graded on a satisfactory/unsatisfactory basis. Prerequisite: Permission from instructor. THE.

---

**Master of Arts in Indigenous Studies**

**Indigenous Studies Graduate Program**

The Indigenous Studies master’s degree program provides students with in-depth knowledge of Indigenous peoples’ complex and diverse cultures and histories, as well as their impacts on the global society. Our multidisciplinary program offers students the advantage of studying relevant issues from a wide range of academic perspectives. The expertise of our affiliate faculty members includes Native American history, including medical and legal aspects; indigenous literature; ethnobotany; Indigenous peoples’ cultural survival and political activism; American Indian tribal governments; indigenous geographies and cartographic history; Native American religions; and much more.

Empowered by the resources on campus and in our community, we strive to provide unique learning opportunities for our students that go beyond the classroom. The mission of the multidisciplinary Indigenous Studies Program is to educate students and promote scholarship about the complexity and diversity of Indigenous peoples’ cultures and histories, and to provide students with the knowledge to understand and assess the U.S. tribes’ unique relationships to the U.S. government. Indigenous Studies encourages appreciation of the contributions of Indigenous peoples to the global society, provides students with an understanding of the difficulties confronting tribal nations and offers foundational knowledge to assist them in finding innovative solutions to solve those problems.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student.
Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Graduate Admission**

Candidates requesting consideration for admission to the Master of Arts program in Indigenous Studies must complete the online application through the Office of Graduate Studies. Applicants should upload the supporting application documents listed below to the online application. There is no need to send copies of application materials directly to the Indigenous Studies Program.

**Timelines**

The Indigenous Studies Program accepts students on a rolling admissions basis. Students may apply to be admitted for either the fall or spring semesters. Priority consideration will be given to applications received by April 1 for the fall semester and by October 1 for the spring semester.

**Application documents**

- GRE verbal and analytical writing scores
- Transcript(s) from undergraduate or graduate institution(s) you have attended
  
  The Office of Graduate Studies requires a minimum 3.0 undergraduate GPA for admission

Applicants can upload an unofficial, electronic copy of their transcripts with the application form

- Writing sample of at least 10 pages
- 5-page personal statement explaining how a Master’s degree in Indigenous Studies will benefit you and why you will successfully complete the degree

Applicants can upload their writing samples and statements as part of the application.

- Three letters of recommendation
  
  The letter of recommendation system works on the contact information provided by the applicant at the time of application.

**M.A. Degree Requirements**

Students pursuing the M.A. in Indigenous Studies must successfully complete a minimum of 30 graduate credit hours: a 9-hour core curriculum plus 21 hours taken according to either Plan A or Plan B.

**Core Curriculum**

ISp 800 Indigenous Issues in the United States. A 3-hour graduate-level course taught by the director of the ISP with guest presentations by faculty who study indigenous peoples from various disciplinary perspectives.

One 3-hour graduate-level course in the history of indigenous peoples of North America, e.g., HIST 801 Graduate Colloquium in Indigenous Peoples of North America.

One 3-hour graduate-level course with 50 percent or more content in Indigenous Peoples that has been approved by the executive committee, offered by certain departments such as English, History, and Humanities & Western Civilization.

**Plan A: Non-Thesis Option**

- 12 hours of approved coursework with content relevant to the field of indigenous studies approved by the student’s graduate committee.
- 9 hours of electives.
- An M.A. examination: an oral examination in which the candidate defends his or her portfolio, which will be composed of the student’s entire body of work completed in courses counted for the degree.

**Plan B: Thesis Option**

- 12 hours of approved coursework with content relevant to the field of indigenous studies approved by the student’s graduate committee.
- 6 hours of electives.
- 3 hours of thesis on an approved subject with an oral defense.

**Graduate Certificate in Indigenous Studies**

**Indigenous Studies Graduate Program**

The Indigenous Studies master’s degree program provides students with in-depth knowledge of Indigenous peoples’ complex and diverse cultures and histories, as well as their impacts on the global society. Our multidisciplinary program offers students the advantage of studying relevant issues from a wide range of academic perspectives. The expertise of our affiliate faculty members includes Native American history, including medical and legal aspects; indigenous literature; ethnobotany; Indigenous peoples’ cultural survival and political activism; American Indian tribal governments; indigenous geographies and cartographic history; Native American religions; and much more.

Empowered by the resources on campus and in our community, we strive to provide unique learning opportunities for our students that go beyond the classroom. The mission of the multidisciplinary Indigenous Studies Program is to educate students and promote scholarship about the complexity and diversity of Indigenous peoples’ cultures and histories, and to provide students with the knowledge to understand and assess the U.S. tribes’ unique relationships to the U.S. government. Indigenous Studies encourages appreciation of the contributions of Indigenous peoples to the global society, provides students with an understanding of the difficulties confronting tribal nations and offers foundational knowledge to assist them in finding innovative solutions to solve those problems.

**Certificate Application and Admissions Procedure**

**Current Students**

Current graduate students wishing to enroll in the Graduate Certificate program will need to apply through the Graduate School. The application process entails completing the online application, paying a $30.00
application fee, and submitting materials required for the Indigenous Studies Certificate:

- A letter stating your interest in Indigenous Studies and its relationship to your graduate course of study;
- An unofficial copy of your KU transcript;
- A letter of support from your graduate degree program.

A student must be in good standing with their graduate degree program in order to participate in the certificate program. A graduate GPA of 3.0 or higher is required for admission.

**Non-KU Students**

Students who are not currently enrolled at KU must complete an application to the Graduate School for admission into the certificate program and submit an application fee along with the following materials:

- A letter stating your interest in the Indigenous Studies Graduate Certificate program;
- A copy of your college transcript;
- Two letters of recommendation from persons familiar with your academic work or potential for graduate study.

Minimum requirements include a bachelor’s degree with a 3.0 or higher GPA. The GPA requirement may be waived at the discretion of the ISP Director.

**Student Eligibility and Administration of the Program**

Eligibility criteria for admission to the certificate program include a B.A. degree from an accredited institution with a 3.0 or higher GPA.

Students admitted to the certificate program may be enrolled either as a regular graduate student or admitted to the Graduate School as a certificate seeking student.

Students must maintain grade-point averages of 3.0 or better in all courses taken to satisfy requirements of the Indigenous Studies Certificate. At the conclusion of the program, the student should ask the Indigenous Studies program to verify that the requirements for the certificate have been met.

The total credit hours earned from a certificate and transferred into a graduate degree program cannot exceed six hours. Eight hours can be permitted if the student holds a baccalaureate degree from KU.

Student records will be handled by the department’s graduate secretary.

Awarding of certificates will be handled consistent with guidelines and timing of degree awards of the Graduate School.

Completion of the program will appear on the graduate transcript.

**Graduate Certificate**

The Graduate Certificate in Indigenous Studies is designed to provide students with necessary knowledge of the events, laws, policies, and treaties that have defined the relationship between the United States and Indigenous Nations and Peoples. This knowledge is essential to analysis of a broad range of historical, political, religious and social issues in the U.S.

The program will provide students with a solid grounding in the histories and cultures of the indigenous peoples of North America. The certificate program enables students to integrate knowledge of indigenous issues into their own academic disciplines or professional training.

Completion of the certificate in Indigenous Studies represents an additional credential for graduate students from a variety of academic fields who are preparing for careers in research and teaching or professional practice. The certificate will also enhance the qualifications of students seeking careers with indigenous organizations, government, and museums, among many other options.

Enrollment in the program is open to students admitted to a regular KU graduate program as well as students who are not currently enrolled at KU.

**Certificate Requirements**

The Indigenous Studies Graduate Certificate requires 12 hours of coursework:

- ISP 800: Indigenous Issues in the United States (3 hrs)
- 9 hours of graduate-level coursework with 50% or more content in Indigenous Peoples; courses must be approved by the ISP Executive Committee.

**Information Processing Studies Courses**

**Information Processing Studies**

Information processing studies courses may be taken for credit, but are not a part of a specific degree program.

**Courses**

**IPS 101. Elements of the Theory of Computation. 3 Hours. NM / N.**

An introduction to the theoretical areas of computer science and their applications. Emphasis will be placed on the methods and standards by which computer science makes judgments and on what computers can and cannot accomplish. Among major topics covered are: how to read and to implement algorithms; what is memory and how much of it is required for various tasks; why computers cannot multiply; how finite-state machines compute; applications of finite-state machines to programming; recognizing languages; formal grammars. "Can machines think?" and other contemporary topics in the philosophy of computer science will be covered as time permits. Prerequisite: MATH 101 or MATH 104. LEC.

**IPS 302. Journey Through Genius, Honors. 3 Hours. N.**

The course explores some of the most significant and enduring ideas in mathematics: the great theorems, discoveries of beauty and insight that stand today as monuments to the human intellect. Emphasis will be placed on the methods and standards by which mathematics makes judgments. Among the major topics covered are: Euclid and the infinitude of primes, Archimedes determination of circular area, Cardano and the solution of the cubic, the Bernoullis and the harmonic series, a sample of Euler’s number theory, Cantor and the transfinte realm. Along with the essential mathematics, the humanity of these great mathematicians is captured. Prerequisite: Membership in the University Honors Program, high school algebra and geometry, and permission of the instructor. LEC.

**IPS 400. Topics in the Theory of Computing. 1-3 Hours.**

This course is designed to allow students to do further readings in the theory of computing beyond the material presented in IPS 101. Topics,
Many graduates are teachers, from elementary school to college. Others have found jobs with the U.S. Foreign Service or other government agencies and with companies with business interests in Latin America. U.S. interest in Brazil grows. Graduates from Latin American Area Studies have an interest in Hispanic cultures. Speakers of Portuguese with an interest in Brazil may find themselves in demand as U.S. interest in Brazil grows. Graduates from Latin American Area Studies have found jobs with the U.S. Foreign Service or other government agencies and with companies with business interests in Latin America. Many graduates are teachers, from elementary school to college. Others

work with non-governmental organizations doing development and social service work in Latin America.

Although students may choose to single major, most find that double majoring in Latin American Area Studies and another discipline makes them particularly attractive to employers. Students who combine Latin American & Caribbean Studies with journalism can work for newspapers, radio and television stations, and advertising agencies that serve Latin American countries and Latina/o communities in the United States. A double major in business or social welfare combines well with companies or social service agencies that work with or serve Latin American customers or clients.

Other students complement their Latin American & Caribbean Studies major with a second major in fields such as history, political science, Spanish, economics, or anthropology. Many students go on for an advanced degree in Latin American & Caribbean Studies or other liberal arts disciplines such as history, sociology or economics. Most of these students plan to teach in post-secondary schools or do research in Latin American areas.

Some Latin American Area Studies graduates go on for advanced degrees in business, education, or journalism where they use their knowledge of Spanish and Portuguese languages and cultures to develop a special career niche for themselves. Like many fields in the liberal arts, Latin American and Caribbean Studies helps students build a broad background of knowledge, strengthen writing and critical thinking skills, and develop the flexibility of thought that today’s constantly changing workplace requires.

### Undergraduate Programs

The program offers a range of opportunities for students from most academic disciplines to study this region. KU has particular depth in Central America, Mexico, Haiti, the Andes, Paraguay, and Brazil and professors and courses concerned with much of the rest of Latin America. KU has an excellent library collection on Latin America and is one of the few U.S. universities teaching Haitian Creole, Kaqchikel Maya, and Andean Quechua.

The B.A. degree provides a broad academic background with a regional focus, usually in conjunction with a second major, and a mastery of Spanish and other languages. The program enables students to take courses in many departments and lays the foundation for graduate work. Students are encouraged to pursue graduation with honors in Latin American and Caribbean studies.

Prospective majors should begin language study in Spanish or Portuguese as early as possible. The intensive language program is recommended for those without high school preparation. Core courses in Latin American and Caribbean Studies have been certified as meeting KU Core learning outcomes, enabling majors to complete significant portions of their general education requirements within the major.

All students must be advised by the program’s advisor as early as possible; call the Center for Latin American and Caribbean Studies (http://latamst.ku.edu) at 785-864-4213 to make an appointment.

### Graduate Programs

The Center for Latin American & Caribbean Studies administers an interdisciplinary program of substantive and language courses leading to
the Master of Arts degree. Students may pursue the M.A. as a terminal degree for careers in the public or private sector or as preparation for additional graduate study. The center also offers 2 graduate certificates of 4 courses each in Brazilian Studies and Central American and Mexican Studies.

Center for Latin American and Caribbean Studies

The nationally recognized Center for Latin American and Caribbean Studies (http://latamst.ku.edu) promotes interdisciplinary study of the Americas and their languages through teaching, scholarship, outreach, study abroad, and international exchanges. It administers bachelor’s and master’s degree programs and graduate certificate programs in Central American and Mexican Studies and Brazilian Studies. Areas of particular strength are Central America, Mexico, Brazil, and Paraguay. Languages include Spanish, Portuguese, Kachiquel Maya, Quichua, and Haitian Creole. The center coordinates Latin American events on campus including lectures, films, exhibits, and theatrical performances. Exchanges and study abroad programs have been developed in Costa Rica, Mexico, Peru, and Brazil. The center offers outreach to schools, businesses, and the community and serves as a resource for the state, the region, and the nation.

Courses

KICH 110. Elementary Quichua I. 3 Hours. U.
An orientation to Ecuadorian Quichua language and culture for beginning students. Includes elements of grammar, conversation, and composition. Quichua (a.k.a. Kecha, Quechu, Kechua, Ketchua, Kichwa, Khetchua, or Runa Ximi) in its various forms is an indigenous language spoken by over six million people in Ecuador, Peru and Bolivia combined. LEC.

KICH 114. Elementary Quichua II. 3 Hours. U.
Continuation of KICH 110. Prerequisite: KICH 110 or equivalent LEC.

KICH 230. Intermediate Quichua I. 3 Hours. U.
Continuation of KICH 114. Prerequisite: KICH 114 or equivalent. LEC.

KICH 234. Intermediate Quichua II. 3 Hours. U.
Continuation of KICH 230. Prerequisite: KICH 230 or equivalent. LEC.

KQKL 110. Elementary Kaqchikel Maya I. 3 Hours. U.
An orientation to Kaqchikel Maya language and culture for beginning students. Includes elements of grammar, conversation, and composition. Kaqchikel is the first language of approximately 500,000 people of highland Guatemala and one of roughly 30 Mayan languages. LEC.

KQKL 114. Elementary Kaqchikel Maya II. 3 Hours. U.
Continuation of KQKL 110. Prerequisite: Completion of KQKL 110 or equivalent. LEC.

KQKL 230. Intermediate Kaqchikel Maya I. 3 Hours. U.
Continuation of KQKL 114. Prerequisite: Completion of KQKL 114 or equivalent. LEC.

KQKL 234. Intermediate Kaqchikel Maya II. 3 Hours. U.
Continuation of KQKL 230. Prerequisite: Completion of KQKL 230 or equivalent LEC.

LAA 100. Latin American Culture and Society. 3 Hours. SC AE42 / S.
An introduction to the interdisciplinary study of Latin America, as manifest in the arts and literature, history, and in environmental, political, economic, and social realities. Explores and critiques the principal themes and methodologies of Latin American Studies, with an aim towards synthesizing contributions from several different disciplines. Emphasizes the unique insights and perspectives made possible by interdisciplinary collaboration and provides students with a basic knowledge base for understanding Latin America today. (Same as HIST 124.) LEC.

LAA 102. Orientation Seminar in Latin American and Caribbean Studies. 1 Hour. U.
LAA 102 is an online orientation seminar designed to introduce students to the Latin American and Caribbean Studies major at KU and help students place the major in the context of their overall undergraduate experience and career plans. The course provides students with introductory information about Latin America and the Caribbean and the nature of interdisciplinary inquiry, and an interdisciplinary major, and about resources available at KU and beyond for research and study related to the region. During the course, students also learn about typical careers pursued by Latin American and Caribbean Studies majors, reflect on their own educational and career goals, and determine whether the major matches those goals. Finally, the course provides students with information about requirements for the major, along with information about when required courses are offered and when they should be taken. LEC.

LAA 177. First Year Seminar: _____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Latin Area and Caribbean Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

LAA 300. Interdisciplinary Themes in Latin American Studies. 3 Hours. AE51 / U.
This course offers an in-depth examination of several key themes in Latin American Studies. Emphasis is placed on exploring the utility of interdisciplinary methods and on becoming familiar with the theoretical framework that underpins the field. Prior completion of LAA 100 is recommended. LEC.

LAA 302. Topics in Latin American Area Studies:_____. 3 Hours. U.
Investigation of special topics on Latin America at the undergraduate level. LEC.

LAA 332. Language and Society in Latin America. 3 Hours. NW AE42 / S.
This course will examine the cultural and social significance of Amerindian languages in Latin America. Spanish and Portuguese will be related in language situations to Amerindian languages, such as Quechua, Aymara, the Mayan languages, Nahuatl, and Guarani. Some African-substratum Creole languages will be used to illustrate the multifaceted relations between language and ethnic group, sex, nation, geography, social class, context, and social interaction. LEC.

LAA 333. Language and Society in Latin America, Honors. 3 Hours. NW AE42 / S.
This course will examine the cultural and social significance of Amerindian languages in Latin America. Spanish and Portuguese will be related in language situations to Amerindian languages, such as Quechua, Aymara, the Mayan languages, Nahuatl, and Guarani. Some African-substratum Creole languages will be used to illustrate the multifaceted relations between language and ethnic group, sex, nation, geography, social class, context, and social interaction. Prerequisite: Membership in the University Honors Program. LEC.

LAA 334. Indigenous Traditions of Latin America. 3 Hours. NW AE42 / S/W.
A survey of the major indigenous traditions of Mesoamerica, the Andes, and lowland tropical Latin America. Coverage emphasizes how indigenous cultural traditions and societies have both continued and changed since the European Invasion and addresses such current issues
as language rights, territorial rights, sovereignty, and state violence. Students enrolled in the 600-level section will be required to complete additional research and class leadership tasks. Not open to students who have taken LAA 634. (Same as ANTH 379.) LEC.

LAA 335. The Politics of Language in Latin America. 3 Hours. NW / S. Although approximately 600 indigenous languages are spoken by 30 million people in Latin America, public life is conducted in Spanish. The class provides a comprehensive survey of language issues in Latin America by analyzing the situation of minority language groups, language rights, language policies, and language planning, as well as by considering the questions that arise regarding bilingual education, literacy, and the role of minority languages in educational systems. LEC.

LAA 402. Topics in Latin American Area Studies. 3 Hours. U. Investigation of special topics on Latin America at the undergraduate level. LEC.

LAA 450. Capstone Course in Latin American Studies. 3 Hours. AE61 / U.
The interdisciplinary focus of this class allows students to connect what they have learned about major issues in the field of Latin American Studies with a thematic focus of the professor’s choosing. By the end of the class and culminating their study of the field at KU, they will be able to discuss these issues from a variety of theoretical, methodological, and disciplinary perspectives as demonstrated in the portfolio of written work maintained throughout the semester. Prerequisite: Completion of 3 courses at the 300 level and above with Latin American content in the Humanities and 3 at the 300 level and above in the Social Sciences (that is, at least 18 credits toward the major); or permission of instructor. LEC.

LAA 499. Honors Course in Latin American Studies. 3 Hours. AE61 / H.
Intensive study and research under faculty direction. Open to students wishing to graduate with honors in Latin American Studies and having a grade point average of at least 3.5 in Latin American Studies and at least 3.25 overall. Requires an interdisciplinary project concerning a specific topic involving at least two disciplines. Must be directed by a faculty member in Latin American Studies, approved by the Center Associate Director, and defended before a committee of at least three faculty members. To earn departmental honors, a student must take the course for two semesters (with a minimum grade of B the first semester, and an A the second). LEC.

LAA 500. Directed Study in Latin American Area Studies. 1-3 Hours. AE61 / U.
Independent study and directed reading on special topics. IND.

LAA 501. Multilingualism and Multiculturalism in Latin America. 3 Hours. H.
Examines the sociolinguistic issues of multilingual countries in Latin America from an interdisciplinary perspective. Topics include but are not limited to linguistic inequality, the language of politics, language and education, urban and rural linguistic interaction, and indigenous and creole languages. Prerequisite: A liberal arts course with Latin American content. LEC.

LAA 503. Race, Gender, Ethnicity, and Nationalism in Latin America. 3 Hours. NW AE42 / H.
The development of cultural identity in Latin America is traced through the study of major narrative trends including Amerindian languages and the analysis of "indigenista" literature. The African substratum of Latin American culture and its relation to concepts such as "marvelous realism" is explored. The importance of "race," "gender," and "ethnicity" are investigated as tools to define national identity in Latin America. The influence of modernization, industrialization, and nationalistic and populist thought on their emergence of distinctive writing and themes is also assessed. LEC.

LAA 504. Politics of Culture in Modern Latin America. 3 Hours. H.
This course explores the relationship between political development and cultural phenomena of Latin America from 1800 to the present, with special emphasis on gender, popular culture, and ideology. The influences of 20th-century ideologies and technology on cultural development in Latin America will also be examined. LEC.

LAA 505. U.S. Latino and Latin American Film and Literature. 3 Hours. H.
This course follows the development of U.S. Latino and Latin American cinema from its origins to the present and its relationship with literary discourse. U.S. Latino/Latin American cinema can be seen as a specific practice that cannot be reduced in all its manifestations to the institutional mode of production of the dominant Hollywood model. The course examines the creation of a national cinema that seems to be more dependent on a literary canon. Knowledge of Spanish is not required. LEC.

LAA 506. Race, Gender, Ethnicity, and Nationalism in Latin America, Honors. 3 Hours. NW AE42 / H.
The development of cultural identity in Latin America is traced through the study of major literary works of the nineteenth and twentieth centuries. The importance of "race," "gender," and "ethnicity" are explored as tools to define national identity in Latin America. The impact of modernization, industrialization, and nationalistic and populist thought on the emergence of distinctive writing and themes is also assessed. Prerequisite: Membership in the University Honors Program. LEC.

LAA 508. Multidisciplinary Field School in Partnership with the Chorti Maya. 3 Hours. S.
Teams of interdisciplinary students partner with the Chorti Maya of Guatemala and Honduras to share information and experiences. One third of the course consists of readings and 4-5 orientation sessions on campus, and two thirds entails two weeks in Central America. Examples of activities might include historical research, water testing and improvement, photography, art, music, tourism consultation, marketing of crafts, human rights advocacy, web design, computer training, and museum work, among others. There are no prerequisites, but...
students with a working knowledge of Spanish will receive preference for admission. (Same as ANTH 587.) LEC.

LAA 602. Topics in Latin American Studies: _____ 3 Hours. U.
Investigation of special topics on Latin America. LEC.

LAA 634. Indigenous Traditions of Latin America. 3 Hours. NW AE42 / S/W.
A survey of the major indigenous traditions of Mesoamerica, the Andes, and lowland tropical Latin America. Coverage emphasizes how indigenous cultural traditions and societies have both continued and changed since the European Invasion and addresses such current issues as language rights, territorial rights, sovereignty, and state violence. Students enrolled in the 600-level section will be required to complete additional research and class leadership tasks. Not open to students who have taken ANTH 379 or LAA 334. LEC.

LAA 665. Women, Health, and Healing in Latin America. 3 Hours. S.
This seminar uses a life-cycle approach to examine women’s health (physical, mental, and spiritual) and their roles as healers. Special consideration is given to the effects of development programs on well-being, access to health care, and changing roles for women as healers. Cases will be drawn from a variety of Latin American contexts. (Same as ANTH 665 and WGSS 665.) Prerequisite: 6 hours coursework in Anthropology and/or Women’s Studies and/or Latin American Studies. LEC.

LAA 700. Introduction to Latin American Library Resources. 3 Hours.
A survey of bibliographic and reference sources for research on Latin America in the humanities and social sciences. Designed to prepare students for library research at the seminar, thesis, or dissertation level. Prerequisite: Junior standing, reading knowledge of Spanish or Portuguese. LEC.

LAA 701. Interdisciplinary Seminar in Latin American Culture and Problems. 3 Hours.
An interdisciplinary seminar incorporating significant and pertinent materials from the fields of anthropology, economics, geography, history, political science, sociology, and Spanish and Portuguese literature. Required of all graduate students enrolled in the Master of Arts program in Latin American Area Studies. Prerequisite: LAA 700 (may be taken simultaneously with LAA 701 if both courses offered during same semester). LEC.

LAA 703. Research Colloquium on Brazil. 3 Hours.
An interdisciplinary research seminar on historical and contemporary issues in Brazil, incorporating information and analysis from such fields as anthropology, economics, geography, history, political science, sociology, and Spanish and Portuguese literature and culture. Required for the Brazilian Graduate Certificate. Prerequisite: Recommended reading proficiency in Portuguese. LEC.

LAA 704. Research Colloquium on Central America and Mexico. 3 Hours.
An interdisciplinary research seminar on historical and contemporary issues in Central America and Mexico, incorporating information and analysis from such fields as anthropology, economics, geography, history, political science, sociology, and Spanish and Portuguese literature and culture. Required for the Central America Mexico Graduate Certificate. Prerequisite: Recommended reading proficiency in Spanish. LEC.

LAA 800. Investigation and Conference. 1-2 Hours.
Investigation and research of interdisciplinary topics in Latin American Studies. RSH.

LAA 899. Thesis/Non-Thesis. 1-6 Hours.
Prerequisite: Consent of instructor. THE.

Bachelor of Arts and Bachelor of General Studies in Latin American Area and Caribbean Studies

Overview of the Bachelor of Arts degree in Latin American & Caribbean Studies

The Bachelor of Arts degree in Latin American & Caribbean Studies provides a broad academic background with a deep regional focus, often in conjunction with a second major in a specific discipline, and a mastery of Spanish and other languages. The program enables students to take courses in a variety of departments as a part of their plan of study and can lay a strong foundation for graduate work. Students are encouraged to pursue graduation with honors in Latin American & Caribbean Studies.

Prospective majors should begin language study in a Latin American Language of their choice as soon as possible. The intensive language program is recommended for those without high school preparation. All three core courses for the Latin American & Caribbean Studies major are certified as meeting KU Core learning outcomes. All students must be advised by the designated advisor (http://clas.ku.edu/people/SAS/cook) of the program.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Latin American and Caribbean Studies Majors

Students may earn a double major (one in a particular discipline and one in Latin American and Caribbean studies) or a single major in Latin American and Caribbean studies. In addition to meeting the College language requirement in Spanish or Portuguese, all majors earn a
The minimum of 30 hours in substantive courses on Latin America and the Caribbean.

**Requirements for the B.A. or B.G.S. Major**

**Language Proficiency Requirements (0)**

Complete each of the following:

- Intermediate-level language (4 semesters or equivalent) at least up to the following:
  - **SPAN 216**  Intermediate Spanish II
  - **SPAN 217**  Honors Intermediate Spanish II
  - **SPAN 220**  Intensive Intermediate Spanish

**Course Requirements (9)**

Courses may count for 2 requirements. Complete each of the following (9 hours):

- **LAA 100**  Latin American Culture and Society  3
- **LAA 300**  Interdisciplinary Themes in Latin American Studies  3
- **LAA 450**  Capstone Course in Latin American Studies  3

**Core Requirements (24)**

A minimum of 24 hours (8 different courses) is required. These courses may also be used toward a minor. Complete each of the following:

- 12 hours in Culture, Literature, and the Arts (4 different courses)  12
- 12 hours in Society, Politics, and Economics (4 different courses)  12

**Minimum Major Requirements 33 Hours**

**Note:** Students earning a double major must have 15 hours unique to each major.

**Latin American and Caribbean Studies Courses by Topics**

**Note:** Students choosing their own topics for research papers must select a topic related to Latin America and the Caribbean. All courses must have at least 25 percent Latin American and Caribbean content to count toward the major.

Courses with a blank (_____) at the end of their titles are typically topics or seminar courses that may be repeated for credit. Usually these courses offer different topics each time they are taught. Students should check with the course instructor about the requirements to take the course and what the topic will be when it is offered.

**I. Culture, Literature, and the Arts**

- **LAA 302/602**  Topics in Latin American Area Studies: ____ (may be repeated as topic changes)  3
- **LAA 332**  Language and Society in Latin America  3
- **LAA 334/634**  Indigenous Traditions of Latin America  3
- **LAA 503**  Race, Gender, Ethnicity, and Nationalism in Latin America  3
- **MUSC 305**  Music of Latin America  3
- **MUSC 312**  Music in the Andes  3
- **MUSC 313**  Music in Mexico and the Caribbean  3
- **PORT 300**  Brazilian Culture  3
- **PORT 340/540**  Textual Analysis and Critical Reading  3
- **PORT 347**  Brazilian Studies: _____  3
- **PORT 365**  Studies in Brazilian Film: _____  3
- **SPAN 448**  Spanish Language and Culture for Business  3
- **SPAN 460**  Colonial Spanish-American Studies: ____  3
- **SPAN 462**  Twentieth Century Spanish-American Studies: ____  3
- **SPAN 463**  National Traditions in Spanish America: ____  3
- **SPAN 560**  Colloquium on Latin American Film  3

**II. Society, Politics, and Economics**

- **ANTH 379**  Indigenous Traditions of Latin America  3
- **ANTH 380**  Peoples of South America  3
- **ANTH 501**  Topics in Sociocultural Anthropology: ____  3 (Indigenous Development in Latin America/Contemporary Mesoamerica)
- **ANTH 506**  Ancient American Civilizations: Mesoamerica  3
- **ANTH 507**  The Ancient Maya  3
- **ANTH 508**  Ancient American Civilizations: The Central Andes  3
- **ANTH 562**  Mexamerica  3
- **ANTH 674**  Political Anthropology  3
- **HIST 121**  Modern Latin America  3
- **HIST 365**  Invention of the Tropics  3
- **HIST 371**  The Cultural History of Modern Latin America  3
- **HIST 575**  History of Mexico  3
- **HIST 576**  History of the Caribbean and Central America  3
- **HIST 578**  Social History of South America  3
- **HIST 579**  The History of Brazil  3
- **IBUS 415**  Business in Latin America  3
- **LAA 302/602**  Topics in Latin American Area Studies: ____ (may be repeated as topic changes)  3
- **LAA 332**  Language and Society in Latin America  3
- **LAA 334/634**  Indigenous Traditions of Latin America  3
- **LAA 503**  Race, Gender, Ethnicity, and Nationalism in Latin America  3
- **POLS 658**  Theories of Politics in Latin America  3
- **POLS 659**  Political Dynamics of Latin America  3
- **SOC/AMS 332**  The United States in Global Context  3
- **SOC 531**  Global Social Change  3

**Graduation Plan**

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the Center (http://latamst.ku.edu) for details.

**Departmental Honors**

Honors in the Major: To attain the designation of departmental honors, students must fulfill all of the above requirements plus the following:

1. A minimum grade point average of 3.5 in all courses taken to complete the major, and a minimum overall GPA of 3.25.
2. Completion of a study abroad or a service learning experience related to Latin American and Caribbean Studies.
Minor in Latin American Area Studies

The Undergraduate Minor in Latin American & Caribbean Studies provides students with a solid foundation of instruction on Latin American topics to supplement their primary field. There are two tracks within the minor: the General Latin American and Caribbean Studies Track and the Indigenous Studies in Latin America (ISLA) Minor Track. Both tracks require 3 hours of core classes followed by 15 hours of upper-division electives from a wide variety of courses approved by the center. No more than 1 course (3 hours) may be shared with the student’s major. For the General LACS minor track there is no language requirement. The ISLA track requires two semesters of an indigenous language spoken in Latin America. For the General Track LAA 100, LAA 300, LAA 332/333, or LAA 334/ANTH 379 can count as a core course. For the ISLA Track ISP 101 may also count as a core course.

The General Track is for students from several departments and schools who do not wish to concentrate in language studies, but who are interested in aspects such as the history, culture, geography, anthropology, art history, politics, business or journalism of Latin America. This minor will be a great complement to a degree in, for example, business or architecture. There is great flexibility for students who wish to create their own program in order to acquire knowledge in various disciplines subjects. The ISLA track is for similar students who are particularly interested in indigenous peoples of the Western Hemisphere and wish to study an indigenous language. In particular, the ISLA track allows students to integrate coursework on indigenous population of what is now the United States with coursework on such populations elsewhere in the Western Hemisphere.

The Latin American & Caribbean Studies advisor (http://clas.ku.edu/people/SAS/cook) will be glad to speak with any student who may be interested in obtaining the minor. If you would like to make an appointment with the undergraduate advisor or have any questions about the new minor, please contact the Center of Latin American & Caribbean Studies.

Requirements for the Minor

Core Requirements

General Track

The general track requires 18 hours in the minor, 12 of which must be taken at the junior/senior level.

Core Minor Requirements (3)

Choose 1 of the following courses:

<table>
<thead>
<tr>
<th>Course</th>

<tbody>
<tr>
<td>LAA 100</td>
<td>Latin American Culture and Society</td>
</tr>
<tr>
<td>or ISP 101</td>
<td>Introduction to Indigenous Nations Studies</td>
</tr>
</tbody>
</table>

Two Semesters of an Indigenous Language Spoken in Latin America (6)

Four upper-division courses in Anthropology, Economics, Indigenous Nations Studies, Geography, History, Latin American Area Studies, Linguistics, Music, Political Science, specifically approved as electives for the Minor. (12)

Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

<table>
<thead>
<tr>
<th></th>
<th>Minimum Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Minor Hours</td>
<td>Satisfied by 18-21 hours of minor courses.</td>
</tr>
<tr>
<td>Minor Hours in Residence</td>
<td>Satisfied by a minimum of 9 hours of KU resident credit in the minor.</td>
</tr>
<tr>
<td>Minor Junior/Senior (300+) Hours</td>
<td>Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.</td>
</tr>
</tbody>
</table>

Minor Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://www.collegesas.ku.edu/GPCAcalculator.shtml).

Master of Arts in Latin American and Caribbean Studies

Why study Latin American and Caribbean studies?

Knowledge of Latin American and Caribbean culture, environment, and society is crucial to U.S. hemispheric relations and world understanding.

Graduate Programs

The Center for Latin American & Caribbean Studies administers an interdisciplinary program of substantive and language courses leading to the Master of Arts degree. Students may pursue the M.A. as a terminal degree for careers in the public or private sector or as preparation for additional graduate study. The center also offers 2 graduate certificates of 4 courses each in Brazilian Studies and Central American and Mexican Studies.
Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Admission requires a B.A., preferably in one of the social sciences or humanities, and language proficiency in either Spanish or Portuguese as demonstrated by completion of a fourth-semester course or the equivalent. The Graduate Record Examination is required for U.S. citizens.

Submit your graduate application online (http://www.graduate.ku.edu). Send transcripts of all completed college and university course work and all other requested application materials to the program:

The University of Kansas The Center for Latin American & Caribbean Studies
Bailey Hall
1440 Jayhawk Blvd., Room 320
Lawrence, KS 66045-7545

M.A. Degree Requirements

Course Work

A minimum of 30 graduate credit hours is required in social sciences or humanities courses with Latin American or Caribbean content. At least 12 hours must have 50 to 100 percent of their content dedicated to Latin America or the Caribbean. Literature courses with Latin American or Caribbean content at the 500-level or above (except PORT 611 and HAIT 500) may be counted as part of the 30 required hours. Required courses are LAA 700 Introduction to Latin American Library Resources, LAA 701 Interdisciplinary Seminar in Latin American Culture and Problems, and 2 other seminars with at least 50 percent of their content dedicated to Latin America, each in a separate discipline, at the 700 level or above (excluding thesis and readings hours).

Incoming students should enroll in LAA 700 during the first fall semester. All students must consult the graduate advisor before enrollment each semester. Up to 12 graduate hours from the University of Costa Rica may be applied to the M.A. To be eligible, students must have completed one semester in a second language. The language requirements should be satisfied as early as possible. Students also must complete two semesters in a second language (SPAN 104 and SPAN 108; PORT 104 and PORT 108), or the equivalent (e.g. PORT 611). Quichua, Kaqchikel Maya, or Haitian Creole may be substituted as the language of reading proficiency with approval of the director.

The language requirements should be satisfied as early as possible. Students also must complete two semesters in a second language (SPAN 104 and SPAN 108; PORT 104 and PORT 108), or the equivalent (e.g. PORT 611). Quichua, Kaqchikel Maya, or Haitian Creole may be substituted as the language of reading proficiency with approval of the director.

M.A. Degree Options

Thesis and nonthesis degrees are offered. The thesis degree is most appropriate as preparation for a doctoral program and dissertation. Students must declare their intention to write a thesis before the end of the first year and form a committee of three faculty members, each from a different discipline. The student defends the completed thesis in an oral examination before this committee. A student must enroll in at least 3 credit hours of thesis. Students may count up to 6 credit hours of thesis toward the degree.

The nonthesis M.A. degree is suitable for a career in public service or business. The culmination of the nonthesis M.A. is an oral examination during the last semester of the student’s program. The Center for Latin American and Caribbean Studies produces a handout, Nonthesis M.A. Degree Option: Oral Exam Guidelines.

A student’s course work is completed, the student must enroll in at least 1 credit hour of thesis/nonthesis (LAA 899) a semester (excluding summers) until the thesis and its defense or the oral examination is completed.

Recommended Graduate Courses

Courses with a blank (_____) at the end of their titles are typically topics or seminar courses that may be repeated for credit. Usually these courses offer different topics each time they are taught. Students should check with the course instructor about the requirements to take the course and what the topic will be when it is offered.

These courses have 50 to 100 percent Latin American or Caribbean content:

### Study in Latin America

The center encourages students to study and do research in Latin America or the Caribbean. Intensive language institutes in Portuguese and Spanish are held in Salvador, Brazil; and Puebla, Mexico; respectively. The center has helped develop exchange relationships with universities in Costa Rica, Paraguay, Peru and Brazil. One of the oldest and most successful academic study abroad programs in Latin America is the Kansas program at the Universidad de Costa Rica.

### Liberal Arts and Sciences Bachelor of General Studies Degree

**Why pursue the B.G.S. Liberal Arts and Sciences degree option?**

If, as a student, your personal goals are best served by:

- A more broad-based, liberal arts and sciences curriculum with balanced contributions from natural sciences and mathematics, social sciences, and the humanities (requiring exploration in 15 different disciplines with the completion of a minimum of 100 hours in the College).
- The broadest preparation for admission into a professional program.
- An avenue for adding a bachelor’s degree to an already existing technical degree or licensure certificate.
- A degree option with maximum flexibility.
- A distance-education option for a KU degree.
- A degree that provides students the opportunity to build the skills and knowledge employers indicate are required for success in our changing economy and world community — skills that are limited in current college graduates.

### The B.G.S. Liberal Arts and Sciences degree option is

- Not an “Easy Out” degree option. Academic standards are the same for all degrees granted by the College of Liberal Arts and Sciences.
- Not a quick option for a bachelor’s degree when a minimum of 120 hours including a significant number of medical, technical and professional courses have been completed. KU policy regarding acceptance of transfer work still applies. Students are allowed to use a maximum of 20 hours outside of the College toward the degree.
- Not an option in which students may pursue majors or minors in the College.
Bachelor of General Studies in Liberal Arts and Sciences

Why pursue the B.G.S. Liberal Arts and Sciences degree option?

If, as a student, your personal goals are best served by:

• A more broad-based, liberal arts and sciences curriculum with balanced contributions from natural sciences and mathematics, social sciences, and the humanities (requiring exploration in 15 different disciplines with the completion of a minimum of 100 hours in the College).
• The broadest preparation for admission into a professional program.
• An avenue for adding a bachelor’s degree to an already existing technical degree or licensure certificate.
• A degree option with maximum flexibility.
• A distance-education option for a KU degree.
• A degree that provides students the opportunity to build the skills and knowledge employers indicate are required for success in our changing economy and world community — skills that are limited in current college graduates.

The B.G.S. Liberal Arts and Sciences degree option is

• Not an “Easy Out” degree option. Academic standards are the same for all degrees granted by the College of Liberal Arts and Sciences.
• Not a quick option for a bachelor’s degree when a minimum of 120 hours including a significant number of medical, technical and professional courses have been completed. KU policy regarding acceptance of transfer work still applies. Students are allowed to use a maximum of 20 hours outside of the College toward the degree.
• Not an option in which students may pursue majors or minors in the College.

Liberal Arts and Sciences Admission Criteria

• Exploration of 10 departments within the College.
• Admission GPA at or above cumulative 2.0 KU GPA (2.0 required).

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Requirements to Select B.G.S. Liberal Arts and Sciences Degree Option

CLAS Bachelor of General Studies (BGS) General Education Requirements

General Education provides opportunities for the development of core skills, critical inquiry, integrated knowledge, an appreciation of diversity, contemporary issues, and social responsibility.

B.G.S. Liberal Arts and Sciences Degree Option Requirements

The Bachelor of General Studies degree has two distinct options for completion and requires either

• Option A. Completion of the requirements of a single BGS major AND a secondary field of academic study (a second major or minor) OR
• Option B. Completion of the B.G.S. in Liberal Arts and Sciences. This degree program requires:
  • Liberal Arts and Sciences Breadth Requirement. Satisfied by the completion of a course (with a minimum of 2 credit hours) in 15 unique departments/programs within the College or School of the Arts (as determined by course prefix). Courses fulfilling this requirement may also contribute to the KU Core and other requirements.
  • World Language and Culture.
    • 2 courses (each with 3 credit hours or more) in a single world language OR
    • the KU Core, Completion of 3 courses (each with 3 credit hours or more) in world, non-Western culture (W or NW designated courses), or language areas beyond the KU Core. This may include a variety of areas, languages, and cultures.
  • Additional Natural Sciences and Mathematics. Satisfied by the completion of two additional courses from the natural sciences (requirement code N) and/or mathematics (MATH prefix courses) beyond the KU Core.

Minimum hour and grade-point average standards (all CLAS degrees)

• 120 credit hours
• 45 junior/senior credit hours (numbered 300 or above)
• 100 credit hours from units in the College of Liberal Arts and Sciences
• 2.0 minimum KU cumulative grade-point average
Graduation with Honors

Undergraduates may earn honors upon graduation in 3 ways. The student may graduate with distinction or highest distinction, earn departmental honors in the major, or complete the University Honors Program (http://www.honors.ku.edu). It is possible to earn honors in 1 of these areas, any combination of them, or all 3. The award of honors is noted on the student’s transcript and in the Commencement program. Distinction and highest distinction are noted on the diploma.

Graduation with Distinction or Highest Distinction

The top 10 percent of each year’s graduating class is designated as graduating with distinction. Of these, the top one-third is designated as graduating with highest distinction. To be eligible, students must have completed at least 60 credit hours, graded A through F, in residence at KU. See Required Work in Residence below.

Department of Linguistics

Why study linguistics?

Because language is a window into the mind. Linguistics provides an understanding of the human capacity to acquire, perceive, and produce language and of language’s role in contemporary society.

Facilities

The Department of Linguistics houses 7 research and teaching laboratories.

The Developmental Psycholinguistics Laboratory is equipped to investigate how preschool-age children acquire and use the knowledge of meaning in their first language. The lab uses various psycholinguistic tasks, such as linguistic comprehension tasks and the visual-world eye tracking paradigm, to assess children’s representation and real-time processing of meaning. The lab houses an eye tracking system with a remote camera designed specifically for children to participate in the visual-world eye tracking paradigm.

The Field Linguistics Laboratory provides an environment for on-site elicitation work with speakers as well as the processing, analysis, and archiving of field data. The laboratory is equipped with computer workstations and an assortment of audio/video recording devices suitable for a range of fieldwork projects.

The Mayan Language Acquisition Laboratory provides facilities for documenting the acquisition of Mayan languages. The laboratory processes audio and video recordings of children acquiring the Mayan languages Ch’ol, K’iche’, Mam, and Q’anjob’al. The laboratory uses the Qanform software suite to produce transcriptions that conform to the Minimal Coding standard (Pye 2001). A uniform transcription protocol ensures that transcriptions for all the languages have a standard format. Transcripts are available online at the Adquisición de Lenguas Mayas (ALMA) website.

The Neurolinguistics and Language Processing Laboratory is fully equipped for multi-method, cross-linguistic research on the implementation of language in the brain. The laboratory includes a 70-channel Neuroscan Synamps2 EEG system for visual and auditory ERP (event-related potentials) studies, and two dedicated testing rooms for psycholinguistic experiments including lexical decision, priming, and self-paced reading. Brain imaging studies, including MEG and fMRI, are conducted at the Hoglund Brain Imaging Center at the University of Kansas Medical Center in Kansas City.

The Phonetics and Psycholinguistics Laboratory provides an integrated environment for the experimental study of speech and language, including production, perception, and acquisition. Primary research areas in the lab are acoustic and auditory phonetics as well as spoken and written word recognition, all across a variety of languages. Software includes MultiSpeech and Praat for speech analysis and Paradigm, Superlab, and Matlab for collecting responses from up to six subjects simultaneously. Digital noise-free recordings are made in our anechoic chamber.

The Second Language Acquisition Laboratory is equipped with 5 computer workstations and 2 dedicated testing rooms. Computers are equipped with software (Paradigm) for running psycholinguistic experiments (including interpretation tasks, reaction time, self-paced reading, and speeded grammaticality judgment) and for conducting statistical analyses. Primary research areas in the lab are the acquisition and processing of syntax and semantics by adult second language learners, all across a variety of languages. Our research focuses on the linguistic and cognitive factors that impact acquisition at varying stages of development.

The Second Language Processing & Eye-Tracking Laboratory has 2 testing rooms equipped with computer stations for investigating second language speech and sentence processing as well as a head-mounted eye tracker. The research methods employed in the lab include speech perception and word recognition, cross-modal priming and masked priming, self-paced reading and sentence comprehension, and eye tracking in the visual world paradigm and in reading.

Undergraduate Programs

The department offers a broad range of courses that provide a basic understanding of human language and communication. Linguistics courses examine features of language that underlie the human capacity to express concepts and communicate ideas. They address the connections between language, brain, culture, mind, and history.

Graduate Programs

The Department of Linguistics offers the full range of degrees (B.A., M.A., and Ph.D.). Its nucleus of full-time faculty members in linguistics, plus several actively involved faculty members in other departments, serves a student body of about 40 graduate students, 90 undergraduate majors, and many nonmajors taking introductory and intermediate courses each semester.

Areas of special strength in the graduate program include

- Phonetics and phonology
- Syntax and morphology
- First- and second-language acquisition
- Psycholinguistics and neurolinguistics
Courses

LING 106. Introductory Linguistics. 3 Hours. SC AE41/AE42/GE11/GE3S / S.
Introduction to the fundamentals of linguistics, with emphasis on the description of the sound system, grammatical structure and semantic structure of languages. The course will include a survey of language in culture and society, language change, computational linguistics and psycholinguistics, and will introduce students to techniques of linguistic analysis in a variety of languages including English. (Same as ANTH 106). LEC.

LING 107. Introductory Linguistics, Honors. 3 Hours. SC AE41/AE42/GE11/GE3S / S.
Introduction to the fundamentals of linguistics, with emphasis on the description of the sound system, grammatical structure, and semantic structure of languages. The course includes a survey of language in culture and society, language change, computational linguistics and psycholinguistics, and introduces students to techniques of linguistic analysis in a variety of languages including English. Open only to students admitted to the University Honors Program or by consent of instructor. (Same as ANTH 107.) LEC.

LING 110. Language and Mind. 3 Hours. SI AE41/AE42/GE11/GE3S / S.
A study of the relation between language and the human mind, focusing on language as a fundamental aspect of human cognition. Topics include what is innate and what is learned during first and second language acquisition, how we process language, and whether there are areas of the brain specialized for language. LEC.

LING 111. Language and Mind, Honors. 3 Hours. SI AE41/AE42/GE11/GE3S / S.
A study of the relation between language and the human mind, focusing on language as a fundamental aspect of human cognition. Topics include what is innate and what is learned during first and second language acquisition, how we process language, and whether there are areas of the brain specialized for language. Open only to students admitted to the University Honors Program, or by consent of instructor. LEC.

LING 120. The Physics of Speech. 4 Hours. N.
An introduction to the acoustic structure of speech intended for nonscience majors. Emphasis will be placed on the methods and standards by which scientists measure and evaluate the physical characteristics of speech. Topics will include: simple harmonic motion, the propagation of sound waves, aerodynamic aspects of vocal fold vibration, resonance, digital speech processing, frequency analysis, and speech synthesis. Three class hours and one laboratory per week. (Same as SPLH 120.) Prerequisite: MATH 101 or 104 or equivalent. LEC.

LING 177. First Year Seminar: _____, 3 Hours. SC GE11.
A limited-enrollment, seminar course for first-time freshmen, organized around current issues in linguistics. May not contribute to major requirements in linguistics. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

LING 180. Study Abroad Topics in Linguistics: _____, 1-3 Hours. U.
This course is designed for the study of special topics in Linguistics. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

LING 300. Empirical Approaches to Languages. 3 Hours. S.
This course provides students with a current overview of experimental data and up-to-date theories addressing empirical approaches to the study of language. A hands-on approach is used to facilitate understanding variation in language comprehension and production, the biological bases of language, and the acquisition of first and second languages. LEC.

LING 305. Phonetics I. 3 Hours. S.
This course provides a basic introduction to the study of human speech sounds. Topics to be covered include anatomy and physiology of the speech production apparatus, transcription and production of the world’s sounds, basic acoustics, computerized methods for speech analysis, acoustic characteristics of speech sounds, stress, and intonation. A hands-on laboratory project is part of the course. Prerequisite: An introductory course in Linguistics. LEC.

LING 307. Phonetics II. 3 Hours. AE61 / S.
This course is a continuation of Phonetics I (LING 305/705) and provides a more detailed survey of acoustic and auditory phonetics. Topics to be covered include vocal tract acoustics, quantal theory, speaker normalization, theories of speech perception, prosody, the phonetics of second language acquisition, and the production and perception of cues to gender, talker, region, and socio-economic status. In addition, a number of laboratory projects are required. Prerequisite: LING 305. LEC.

LING 308. Linguistic Analysis. 3 Hours. GE11 / H.
Practice in applying the techniques of phonological, grammatical, and syntactic analysis learned in introductory linguistics to data taken from a variety of languages of different structural types. Prerequisite: LING 106. LEC.

LING 312. Introduction to Phonology. 3 Hours. S.
This is an introductory course in phonology. It focuses on crucial phonological concepts such as the underlying and surface representations, phoneme and allophone, contrast, alternation, neutralization, distinctive features, and the syllable. It provides the basic skill set for phonological analysis, including how to discover phonological patterns, select underlying representations, and write phonological rules to capture the patterns. Common phonological universals in the world's languages will also be discussed. Prerequisite: LING 305. LEC.

LING 314. Phonological Theory I. 3 Hours. AE61 / S.
This is a survey course on modern phonological theory. It starts with the discussion of the conspiracy and duplication problems in rule-based phonology and works its way to Optimality Theory (OT). Topics in OT include its conceptual and empirical advantages over rule-based phonology, its potential problems and their possible remedies, the relevance of phonetics in OT constraints, correspondence theory, and how OT can be applied to prosodic phenomena such as stress and tone. It also focuses on theory-building in phonology, with discussions on the external motivations for phonological grammar, how to lay out the predictions of a theoretical proposal, and how phonological predictions can be empirically tested. Prerequisite: LING 312 or instructor consent. LEC.

LING 320. Language in Culture and Society. 3 Hours. SC AE41/AE61 / S.
Language is an integral part of culture and an essential means by which people carry out their social interactions with the members of their society. The course explores the role of language in everyday life of peoples in various parts of the world and the nature of the relationship between language and culture. Topics include world-view as reflected in language, formal vs. informal language, word taboo, and ethnography of speaking. (Same as ANTH 320.) LEC.

LING 321. Language in Culture and Society, Honors. 3 Hours. SC AE41/AE61 / S.
An honors section of LING 320 for students with superior academic records. Not open to students who have had ANTH 320 or LING 320.
These areas, learning how to read scientific studies about bilingualism and world and in the U.S.; language maintenance and language loss; effects aspects of bilingualism. We read about and discuss bilingualism in the education exploring the linguistic, sociolinguistic, and psycholinguistic. This course provides an introduction to bilingualism and bilingual LING 343. Bilingualism. 3 Hours. S.

of spoken and written language. Prerequisite: An introductory linguistics course or consent of instructor. LEC.

of social variables affect the forms including age, context, culture, occupation, sex and social class. This focuses on issues of language in society, this course will survey the languages spoken by the Jews throughout their long history in diverse communities around the world. We will learn about Hebrew as a spoken and a sacred language, examine how Jewish languages are born and die, and discuss the resurrection of Modern Hebrew in the state of Israel. All readings are in English. No prior knowledge of languages or linguistics is required. (Same as JWSH 338.) LEC.

LING 333. Semantics. 3 Hours. S.

A study of meaning in natural language usage. Emphasis on referential semantics. Set theory, propositional and first-order logic, and intensional and modal logic as they relate to natural language sentences in a formalized language. Prerequisite: A course in syntax. LEC.

LING 338. Languages of the Jews. 3 Hours. H.

From the beginning, Jewish history and culture is closely tied to language, from Hebrew and Aramaic to the languages of diaspora such as Yiddish and Ladino. Focusing on issues of language in society, this course will survey the languages spoken by the Jews throughout their long history in diverse communities around the world. We will learn about Hebrew as a spoken and a sacred language, examine how Jewish languages are born and die, and discuss the resurrection of Modern Hebrew in the state of Israel. All readings are in English. No prior knowledge of languages or linguistics is required. (Same as JWSH 338.) LEC.

LING 339. Languages of the Jews, Honors. 3 Hours. H.

Honors version of LING 338 or JWSH 338, Languages of the Jews. (Same as JWSH 339.) Prerequisite: Membership in the University Honors Program or consent of instructor. LEC.

LING 340. Sociolinguistics. 3 Hours. S.

The formal features of language reflect a broad range of social factors, including age, context, culture, occupation, sex and social class. This course will introduce students to the ways social variables affect the forms of spoken and written language. Prerequisite: An introductory linguistics course or consent of instructor. LEC.

LING 343. Bilingualism. 3 Hours. S.

This course provides an introduction to bilingualism and bilingual education exploring the linguistic, sociolinguistic, and psycholinguistic aspects of bilingualism. We read about and discuss bilingualism in the world and in the U.S.; language maintenance and language loss; effects of languages in contact; bilingual acquisition; the cognitive advantages of bilingualism; and the processing of language in the multilingual mind. Students are guided in conducting a small research project on one of these areas, learning how to read scientific studies about bilingualism and developing an understanding of the relationship between primary research sources and the popular press. LEC.

LING 345. Language and Gender. 3 Hours. S.

This course explores the relationship between language use and gender. The course will specifically focus on how gender affects the ways we use spoken language as well as how we interpret the speech of others. Topics to be discussed will include the function of language in social relationships and language variation in different social contexts. LEC.

LING 350. Comparative and Historical Linguistics. 3 Hours. S.

Human language may be characterized as possessing flexibility, which causes languages to be different from one another in different degrees. This course explores the way languages undergo change in time (historical linguistics), and the ways two or more languages are similar or different (comparative linguistics). The course teaches students how to establish whether languages are genetically related or belong to totally different language families. Prerequisite: An introductory course in linguistics. LEC.

LING 370. Introduction to the Languages of Africa. 3 Hours. NW AE42/GE3H / H/W.

A survey of the indigenous languages of Africa from a linguistic perspective, covering the main language families and their geographic distribution, and focusing on the features and structure of the more widely spoken and representational languages in each family (e.g. Fula, Hausa, Maninka, Swahili, Yoruba). (Same as AAAS 370.) LEC.

LING 415. Second Language Acquisition. 3 Hours. H.

Introduction to the study of second language acquisition: The application of theoretical linguistics to the description of the language that a learner acquires, and to the process of acquisition. Prerequisite: An introductory course in linguistics. LEC.

LING 416. Second Language Acquisition II. 3 Hours. AE61 / S.

This advanced course provides in-depth reading and discussion of several current topics including second language acquisition within a generative framework, processing approaches to second language acquisition, and the role of input and learnability principles in second language acquisition. Both theoretical and methodological issues are discussed. Prerequisite: LING 415 and LING 325; or permission of instructor. LEC.

LING 418. Introduction to Cognitive Science. 3 Hours. S.

Examines the data and methodologies of the disciplines that comprise Cognitive Science, an interdisciplinary approach to studying the mind and brain. Topics may include: consciousness, artificial intelligence, linguistics, education and instruction, neural networks, philosophy, psychology, anthropology, evolutionary theory, cognitive neuroscience, human-computer interaction, and robotics. (Same as PHIL 418, PSYC 418, and SPLH 418.) Prerequisite: Consent of instructor. LEC.

LING 420. Capstone: Research in Language Science. 3 Hours. AE61 / S.

This course provides a foundation for designing, conducting, and critically evaluating quantitative and qualitative research in the language sciences. Topics include formulating a research hypothesis, participant selection, ethical considerations, the scientific method, dependent and independent variables, data collection, descriptive and inferential statistics. Students apply their knowledge of linguistics to formulate a research hypothesis and design an experiment to evaluate this hypothesis. Prerequisite: LING 305, LING 312, LING 325, and either LING 415, LING 425, LING 435, or LING 438. LEC.

LING 421. Capstone: Typology-Unity and Diversity of Human Language. 3 Hours. H.

This course explores the similarities and differences among the worlds’ languages. Students apply their knowledge of phonetics, phonology,
morphology, and syntax in describing and analyzing phenomena from a number of languages. The typological perspective that students develop is applied to topics such as word order, morphological typology, case, lexical categories, and valency. In addition to lecture style instruction, students get hands on practice in collecting, transcribing, and analyzing data from different languages through face to face elicitation with native speakers. Prerequisite: LING 305, LING 312, and LING 325. LEC.

LING 425. First Language Acquisition. 3 Hours. S.
An introductory course in the acquisition of child language. The course will cover relevant historical studies of child language but will focus primarily on recent psycholinguistic approaches toward the description of the process by which a child acquires his native language. Phonological, syntactic, semantic, cognitive, pragmatic, sociolinguistic, and anthropological aspects of the acquisition process are covered. Prerequisite: An introductory course in linguistics. LEC.

LING 430. Linguistics in Anthropology. 3 Hours. S.
The study of language as a symbolic system. Exploration into the interrelatedness of linguistic systems, of nonlinguistic communicative systems, and of other cultural systems. (Same as ANTH 430.) LEC.

LING 435. Psycholinguistics. 3 Hours. S.
A detailed examination of issues in the processing of language. The course provides a survey of research and theory in psycholinguistics, reflecting the influence of linguistic theory and experimental psychology. Spoken and written language comprehension and language production processes are examined. Prerequisite: An introductory course in linguistics or permission of instructor. LEC.

LING 437. Topics in Psycholinguistics. 3 Hours. AE61 / S.
An in-depth examination of selected topics in psycholinguistics. Topics may include spoken language processing, written language processing, neurolinguistics, prosody, and syntactic processing. Prerequisite: LING 435 or consent of instructor. LEC.

LING 438. Neurolinguistics I. 3 Hours. S.
The course explores how language is represented and processed in the human brain. This includes a critical survey of the foundations and the current research in the cognitive neuroscience of language, focusing on the techniques of functional brain imaging (fMRI, PET, EEG, MEG, and related methods), and research on aphasia and other language disorders. This course also includes a component providing laboratory experience with brain imaging research on language. Prerequisite: At least one course in linguistics or permission of the instructor. LEC.

LING 440. Linguistic Data Processing. 3 Hours. H.
This course introduces the tools and techniques necessary to analyze fieldwork data, including research design, recording and elicitation techniques, computational data processing and analysis, and field ethics. The course also covers field recording and data analysis technology, along with methods of phonetic transcription, grammatical annotation and analysis of language context. Practice of techniques is provided via short studies of at least one language. Prerequisite: LING 305 or permission of instructor. LEC.

LING 441. Field Methods in Linguistic Description. 3 Hours. AE61 / H.
The elicitation and analysis of phonological, grammatical, and discourse data from a language consultant. In-depth research on one language. Techniques of research design, methods of phonetic transcription, grammatical annotation, and analysis of language context. Prerequisite: LING 305, LING 312, and LING 325 or permission of instructor. LEC.

LING 442. Neurolinguistics II. 3 Hours. S.
An in-depth discussion of the representation and processing of language from a cognitive neuroscience perspective. This course involves critical discussion of selected topics of current research interest in neurolinguistics. The course also includes a significant hands-on component, in which students receive training in research on the cognitive neuroscience of language by developing and implementing a new EEG study on an aspect of language, as well by completing as a series of mini-labs introducing neuroimaging methods and analyses. Prerequisite: LING 438 or permission of the instructor. LEC.

LING 447. North American Indian Languages. 3 Hours. AE41 / S.
This course introduces students to the indigenous languages of North America. Students critically examine the structures and status of these languages, which have greatly expanded our knowledge of human language and linguistic theory. Topics include the history and future of North American languages and indigenous speech communities, the history of the field of Amerindian linguistics, as well as questions raised by phenomena from American languages in phonology, morphology, syntax, semantics, and historical linguistics. Prerequisite: An introductory course in linguistics. Not open to students enrolled in 747 LEC.

LING 451. Topics in Research in Acquisition and Processing: _____ 3 Hours. H.
This course is primarily intended for students actively engaged in linguistic research on language acquisition, language processing, and neurolinguistics. Students in this course present and discuss study design, methods, data analysis and interpretation of results for their research projects. Professional development topics such as CV development, applications for fellowships, grants and jobs, and the dissemination of research findings are also discussed. May be repeated. Prerequisite: Permission of instructor. LEC.

LING 470. Language and Society in Africa. 3 Hours. NW AE42/GE3H / H/W.
Examines issues and problems associated with language use in sub-Saharan Africa from a sociological perspective. Topics covered include an overview of the types of languages spoken on the continent: indigenous languages, colonial languages, pidgins and creoles, and Arabic as a religious language; problems associated with the politics of literacy and language planning; writing and standardization of indigenous languages; and the cultural and ideological dilemmas of language choice. (Same as AAAS 470.) Prerequisite: AAAS 103, AAAS 305, or LING 106; or consent of instructor. LEC.

LING 483. Computational Linguistics. 3 Hours. S.
A survey of computer-based approaches to the study of morphology and syntax. In addition to its relevance for basic linguistic research, computer-based syntactic analysis in the form of parsers and syntactic/ string generators, provide model testers for the linguistic and analytical tools for the computer scientist concerned with language applications. When taught with LING 783, students at the 700 level will have different course requirements. Prerequisite: An introductory course in linguistics. LEC.

LING 490. Independent Study. 1-3 Hours. AE61 / U.
A special research project or directed readings in an area of linguistics not covered in other courses. No more than 3 hours of LING 490 may be applied toward the requirements for the major. Prerequisite: Consent of instructor. IND.

LING 491. Topics in Linguistics: _____ 1-3 Hours. H.
The content, prerequisites, and credits of this course will vary. May be repeated. IND.

LING 492. Topics in Linguistics: _____ 1-3 Hours. S.
The content, prerequisites, and credits of this course will vary. May be repeated. (Distribution credit given for two or three hours only.) Prerequisite: Consent of instructor. IND.
LING 496. Honors Essay in Linguistics. 1-3 Hours. AE61 / H.
Individual directed research and preparation of an essay on a linguistic topic. Prerequisite: A grade-point average of 3.5 in linguistics and 3.25 in all courses, and consent of the major adviser. IND.

LING 539. First Language Acquisition II. 3 Hours.
A second semester course in child language that explores the acquisition of morphology, syntax, and the ways in which morphology and syntax interact in linguistic theory and language development. Topics covered in the course include agreement, case, null subjects, question formation, pronoun binding, quantification, and control. Prerequisite: LING 325 or LING 425 or consent of instructor. LEC.

LING 543. Language and Culture in Arabic-Speaking Communities. 3 Hours. NW AE42/GE3H / H.
The course examines the links between structure, patterns of use, language choice, and language attitudes in the diglossic and bi-lingual Arabic-speaking communities. It also explores language as a reflector and creator of Arab culture (e.g., linguistic encoding of politeness, the Quranic text as the spoken and written word, the role of tropes in Arabic rhetoric). The topics for discussion range from the micro-level language choice to the macro-level issues of national language policies and planning within the domain of government and education across the Arab world. (Same as AAAS 543) LEC.

LING 556. Native Mesoamerican Writing. 3 Hours. H.
An introduction to the Indigenous writing of Mesoamerica, primarily Epi-Olmec and Mayan hieroglyphic writing. The course will survey the languages of the cultures that originated writing in the New World, and demonstrate the methods being used to decipher Mesoamerican hieroglyphic writing. The connections between language, culture, and writing will be highlighted. Prerequisite: An introductory linguistics course. LEC.

LING 570. The Structure of Japanese. 3 Hours. H.
A detailed study of the phonological and grammatical structure of Japanese and the use of the language in social/cultural contexts. Primarily for students who want a linguistic knowledge of the language rather than a practical command of it. (Same as EALC 570.) LEC.

LING 572. The Structure of Chinese. 3 Hours. H.
A detailed study of the phonological and grammatical structure of Chinese and the interactions between language and culture. Depending on student interests, a unit on the pedagogy of teaching Chinese as a foreign language may also be included. Primarily for students who want a linguistic knowledge of the language rather than a practical command of it. (Same as EALC 572.) LEC.

LING 575. The Structure of: _______. 3 Hours. S.
A detailed study of a language, including its phonological, morphological, syntactic and semantic characteristics. The course provides students with a linguistic knowledge of the language rather than a practical command of it. Prerequisite: A course in linguistics. LEC.

LING 700. Introduction to Linguistic Science. 3 Hours.
An introduction to the theory and techniques of linguistic science for majors and others intending to do advanced work in linguistics and linguistic anthropology. Emphasis on the sound system, grammatical structure, and semantic structure of languages. Lectures and laboratory sessions. (Same as ANTH 725.) Not open to students who have taken ANTH/LING 106 or ANTH/LING 107. Prerequisite: Graduate standing. LEC.

LING 705. Phonetics I. 3 Hours.
This course provides a basic introduction to the study of human speech sounds. Topics to be covered include anatomy and physiology of the speech production apparatus, transcription and production of the world's sounds, basic acoustics, computerized methods for speech analysis, acoustic characteristics of speech sounds, stress, and intonation. A 'hands on' laboratory project is part of the course. Prerequisite: LING 700 or equivalent course. LEC.

LING 706. Current Linguistic Anthropology. 3 Hours.
The fundamental issues, methods, and theories in contemporary linguistic anthropology. (Same as ANTH 706.) Prerequisite: Graduate standing or consent of the instructor. LEC.

LING 707. Phonetics II. 3 Hours.
This course is a continuation of Phonetics I (Ling 705) and provides a more detailed survey of acoustic and auditory phonetics. Topics to be covered include vocal tract acoustics, quantal theory, speaker normalization, theories of speech perception, prosody, the phonetics of second language acquisition, and the production and perception of cues to gender, talker, region, and socio-economic status. In addition, a number of laboratory projects will be required. Prerequisite: LING 705. LEC.

LING 708. Linguistic Analysis. 3 Hours.
Practice in applying the techniques of phonological, grammatical, and syntactic analysis learned in introductory linguistics to data taken from a variety of languages of different structural type. (Same as ANTH 736.) Prerequisite: An introductory course in linguistics. Not open to students who have taken LING 308. LEC.

LING 709. First Language Acquisition. 3 Hours.
Introduction to the study of language acquisition: the significant findings, the basic methodological procedures, and some of the more recent theoretical accounts. Not open to students who have taken LING 425. Prerequisite: LING 700 or equivalent course. LEC.

LING 712. Phonological Theory I. 3 Hours.
This is a survey course on modern phonological theory. It starts with the discussion of the conspiracy and duplication problems in rule-based phonology and works its way to Optimality Theory (OT). Topics in OT include its conceptual and empirical advantages over rule-based phonology, its potential problems and their possible remedies, the relevance of phonetics in OT constraints, correspondence theory, and how OT can be applied to prosodic phenomena such as stress and tone. It also focuses on theory-building in phonology, with discussions on the external motivations for phonological grammar, how to lay out the predictions of a theoretical proposal, and how phonological predictions can be empirically tested. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. Prerequisite: LING 705. LEC.

LING 714. Phonological Theory II. 3 Hours.
This is an advanced course on modern phonological theory. It discusses phonology as an interdisciplinary and experimental discipline and presents current development in both experimental techniques that shed light on speakers' phonological knowledge and the formal modeling of speakers' phonological grammar. Issues of learnability and how phonological acquisition can be modeled will also be touched upon. Prerequisite: LING 712. LEC.

LING 715. Linguistics and Second Language Acquisition. 3 Hours.
Introduction to the study of second language acquisition: The application of theoretical linguistics to the description of the language a learner acquires, and to the process of acquisition. Prerequisite: LING 700 or equivalent course. LEC.

LING 716. Second Language Acquisition II. 3 Hours.
This advanced course will provide in-depth reading and discussion of several current topics including second language acquisition within a generative framework, processing approaches to second language acquisition, and the role of input and learnability principles in second
linguistics. Both theoretical and methodological issues will be discussed. Prerequisite: LING 715; LING 725, which may be taken concurrently, or permission of instructor. LEC.

LING 720. Research Methods in Linguistics. 3 Hours.
This course provides a foundation for designing, conducting, and critically evaluating quantitative and qualitative research in the language sciences. Topics include formulating a research hypothesis, participant selection, ethical considerations, the scientific method, validity, reliability, data collection, dependent and independent variables, descriptive and inferential statistics. This course will serve students who are interested in the basics of research design and statistics for the study of language. Prerequisite: LING 700 or equivalent course. LEC.

LING 722. Linguistic Typology. 3 Hours.
Different languages use different linguistic mechanisms to encode meanings. This course surveys grammatical concepts and categories found in the world’s languages including tense, aspect, mood, voice, person, and number as well as case relations such as nominative, accusative, ergative, and absolutive. Basic word order typology and discourse functions such as topic, focus, and cohesion are introduced. Examples will be drawn from a wide variety of languages to illustrate how the same concept may be encoded differently, i.e., morphologically, syntactically, or lexically, in different languages. Prerequisite: LING 700 or equivalent course. LEC.

LING 725. Syntax I. 3 Hours.
The basics of theoretical syntax, examining the principles of universal grammar. Topics include phrase structure, relations among syntactic constituents, and the nature of syntactic rules and lexical categories. Prerequisite: LING 700 or equivalent course. LEC.

LING 726. Syntax II. 3 Hours.
An advanced course covering one or more current theories of syntax. The course will provide in-depth reading and discussion on the major areas of syntactic theory including universal grammar, phrase structure theory, lexical projections of argument structure, binding, control, locality condition, constraints on representation, and the relation between syntax and the semantic module. Prerequisite: LING 725. LEC.

LING 727. Morphology. 3 Hours.
An exploration of several topics in word structure and formation. Covers three broad areas: traditional morphology, morpho-phonology, and morpho-syntax. Traditional morphology includes a survey of several kinds of word formation processes, the internal structure of words, morpheme types, inflection, paradigms, derivation, and compounding. Morpho-phonology deals with phonological constraints on morphological processes and prosodic morphology. Morpho syntax concentrates on the syntactic properties of morphological phenomena and interaction of syntactic processes and morphology. The course has a strong emphasis on cross-linguistic comparative morphology. Prerequisite: LING 725, LING 725, or permission of instructor. LEC.

LING 730. Linguistics in Anthropology. 3 Hours.
The study of language as it concerns anthropology. Language systems in relation to culture, language taxonomy, semantics, linguistic analysis as an ethnographic tool. (Same as ANTH 730.) LEC.

LING 731. Semantics. 3 Hours.
A study of meaning in natural language usage. Emphasis on referential semantics. Set theory, propositional and first-order logic, and intensional and modal logic as they relate to nature. Questions that arise in representing the meanings of natural language sentences in a formalized language. Prerequisite: LING 725. LEC.

LING 732. Discourse Analysis. 3 Hours.
This course focuses on linguistic frameworks for the analysis of discourse. Discourse is a linguistic system larger than the sentence (utterance), which connects and contextualizes speech and written text. This course focuses on current issues and theoretical frameworks in the analysis of discourse. Using oral and written data, students will examine how contexts influence and shape linguistic form. Topics covered include transcription systems, the structure and organization of different genres of language, and the performance of social actions, including stance-taking, framing, and the construction of identity. Students will also have an opportunity to perform discourse analytic research on the data of their choice. (Same as ANTH 732.) Prerequisite: ANTH 706 or permission of the instructor. LEC.

LING 733. Language, Gender, and Sexuality. 3 Hours.
This course focuses on the complex relationship between language use and the social construction of gender and sexuality i.e. how language is used in the construction of gender and sexuality, and how gender and sexuality are performed and enacted through language. Examines theoretical notions of language, gender, and sexuality from linguistics, linguistic anthropology, and sociology. Among the topics covered are cross-cultural definitions of masculinity and femininity, construction of gendered and sexual identities through language use, language and power, ideologies, style, and performativity. The course will consider research on language, gender, and sexuality from a variety of cultures within the last 50 years. (Same as ANTH 733.) Prerequisite: ANTH 706 or permission of the instructor. LEC.

LING 734. Language Evolution. 3 Hours.
Human language demonstrates a level of complexity not found in the communicative systems of other species. This course focuses on the development of human language, so as to obtain a better understanding of the origin and development of human language. Questions addressed include: what features of language are distinct from other communicative system, when did human language originate, in what stages did human language evolve, and how does language relate to properties of the human brain and mind? Data from a variety of disciplines will be considered, including primatology, human development, cognition, evolutionary biology, archaeology, and linguistics. (Same as ANTH 734.) Prerequisite: ANTH 106 or LING 106 or ANTH 107 or LING 107 or ANTH 736 or LING 708 or ANTH 725. LEC.

LING 735. Psycholinguistics I. 3 Hours.
A detailed examination of issues in the processing of language. The course will provide a survey of research and theory in psycholinguistics, reflecting the influence of linguistic theory and experimental psychology. Spoken and written language comprehension and language production processes will be examined. (Same as PSYC 735.) LEC.

LING 737. Psycholinguistics II. 3 Hours.
An in-depth examination of selected topics in psycholinguistics. Topics may include spoken language processing, written language processing, neurolinguistics, prosody, and syntactic processing. (Same as PSYC 737.) Prerequisite: PSYC 735/LING 735 or consent of instructor. LEC.

LING 738. Neurolinguistics I. 3 Hours.
We will explore how language is represented and processed in the human brain. This will include a critical survey of the foundations and the newest state-of-the-art research in the cognitive neuroscience of language, focusing on the techniques of functional brain imaging (fMRI, PET, EEG, MEG, and related methods), and research on aphasia and other language disorders. This course will also include a laboratory component providing hands-on experience with brain imaging research on language. Prerequisite: LING 700 or equivalent course. LEC.
LING 739. First Language Acquisition II. 3 Hours.
A second semester course in child language which explores the acquisition of morphology, syntax and the ways in which morphology and syntax interact in linguistic theory and language development. Topics covered in the course include agreement, Case, null subjects, question formation, pronoun binding, quantification, and control. Prerequisite: LING 709 and LING 725 or permission of the instructor. LEC.

LING 740. Linguistic Data Processing. 3 Hours.
The tools and techniques necessary to analyze linguistic fieldwork data, including research design, recording and elicitation techniques, computational data processing and analysis, and field ethics. Techniques of research design, field recording, and data analysis technology. Methods of phonetic transcription, grammatical annotation, and analysis of language context. Practice of techniques via short studies of at least one language. (Same as ANTH 749.) Prerequisite: LING 700 or permission of instructor. LEC.

LING 741. Field Methods in Linguistic Description. 3 Hours.
The elicitation and analysis of phonological, grammatical, and discourse data from a language consultant. In-depth research on one language. Techniques of research design, methods of phonetic transcription, grammatical annotation, and analysis of language context. (Same as ANTH 741.) Prerequisite: LING 705 or permission of instructor. LEC.

LING 742. Neurolinguistics II. 3 Hours.
An in-depth discussion of the representation and processing of language from a cognitive neuroscience perspective. This course involves critical discussion of selected topics of current research interest in neurolinguistics. The course also includes a significant hands-on component, in which students receive training in research on the cognitive neuroscience of language by developing and implementing a new EEG study on an aspect of language, as well by completing as a series of mini-labs introducing neuroimaging methods and analyses. Prerequisite: LING 738 or permission of the instructor. SEM.

LING 747. North American Indian Languages. 3 Hours.
This course introduces student to the indigenous languages of North America. Students will critically examine the structures and status of these languages, which have greatly expanded our knowledge of human language and language theory. Topics include the history and future of North American languages and indigenous speech communities, the history of the field of Americanist linguistics, as well as important linguistic questions raised by phenomena from American languages in phonology, morphology, syntax, semantics, and historical linguistics. Prerequisite: An introductory course in linguistics. LEC.

LING 748. Language Contact. 3 Hours.
Theories and case studies of languages in contact. Areal and genetic linguistics, genesis of pidgins and creoles, multilingualism. Social, political, economic, and geographic factors in language change. (Same as ANTH 748.) Prerequisite: A course in Linguistics. LEC.

LING 749. Linguistics and Ethnolinguistics of China and Central Asia: ____. 3 Hours.
Selected topics in Linguistics and Linguistic Anthropology, focusing on dominant and/or minority languages of China, Central Asia, or a particular region of Central and Eastern Eurasia. Topics may include any subfield of linguistics, including language contact, typology, dialectology, and sociolinguistics. Topic for semester to be announced. (Same as ANTH 749.) Prerequisite: A course in Linguistics. LEC.

LING 782. Research Methods in Child Language. 3 Hours.
A survey of methods for studying phonological, morphological, syntactic, and semantic change during language development. Methods include:

LING 783. Computational Linguistics. 3 Hours.
A survey of computer-based approaches to the study of phonology, morphology, and syntax. In addition to its relevance for basic linguistic research, computer-based work on phonology is central to current research in speech analysis, speech synthesis, and the major artificial intelligence effort described as speech understanding. Computer-based morphological analysis is of theoretical interest to the linguist as well as a major component in content analysis, information retrieval, and other related application areas. Computer-based parsers and syntactic/string generators provide model testers for the linguist and analytical tools for the computational linguist concerned with language applications. Prerequisite: An introductory linguistics course. LEC.

LING 791. Topics in Linguistics: ____. 1-3 Hours.
The content and prerequisites of this course will vary. May be repeated. Prerequisite: Consent of instructor. LEC.

LING 794. Proseminar. 3 Hours.
Introduction to the field of linguistics. Topics include research literature and research methods, thesis and grant writing, and ethics in linguistic research. Required for all first-year graduate students in linguistics. Graded on satisfactory/unsatisfactory basis. LEC.

LING 799. Proseminar in Child Language. 2 Hours.
A review and discussion of current issues in children’s language acquisition. May be repeated for credit. Students are graded S/F. (Same as ABSC 797, PSYC 799 and SPLH 799.) (Formerly HDFL 797.) LEC.

LING 810. Seminar in Ethnolinguistics: ____. 2-3 Hours.
An advanced study of the relations between language and culture. Subject will vary each semester. Students may repeat the course more than once. (Same as ANTH 810.) LEC.

LING 822. Seminar on Acquisition of Language. 3 Hours.
An analysis of recent theoretical issues and research problems in the study of children’s acquisition of language. Prerequisite: LING 709 or consent of instructor. LEC.

LING 850. Topics in Research in Experimental Linguistics: ____. 3 Hours.
This course is primarily for students actively engaged in experimental linguistic research. The course provides students with the opportunity to focus on their current research projects and involves critical analysis, presentation, and discussion of research design, methods, statistical analysis, and data interpretation. May be repeated. Prerequisite: An advanced course in Linguistics or permission of instructor. SEM.

LING 851. Research in Language Acquisition and Processing. 3 Hours.
This course is primarily intended for students actively engaged in linguistic research on language acquisition, language processing, and neurolinguistics. Students in this course present and discuss their research projects. Professional development topics such as CV development, applications for fellowships, grants and jobs, and the dissemination of research findings are also discussed. May be repeated. Prerequisite: Permission of instructor. SEM.

LING 852. Research in Field Linguistics. 3 Hours.
This course is intended for students who are conducting field work on syntax or morphology, typically of an understudied language. The course is structured around a set of topics (variable by semester) which each student will investigate in a particular language. The focus of the course is on data collection and analysis and students will present and discuss
the results of their research projects. May be repeated. Prerequisite: Permission of instructor. SEM.

LING 860. Seminar in Second Language Acquisition. 3 Hours.
Analysis of recent theoretical and methodological issues in the study of second language acquisition. Prerequisite: LING 716 or permission of instructor. LEC.

LING 899. Master's Research Project. 1-3 Hours.
A course for students working on their M.A. Research Project. Normally to be taken during the semester in which the student is submitting the M.A. Research Project. Students must enroll for at least one credit hour. Up to three credits will count toward the minimum number of credits required for the M.A. degree in linguistics. RSH.

LING 910. Linguistic Seminar: ______. 1-3 Hours.
The content and prerequisites of this course will vary. May be repeated. LEC.

LING 947. Seminar in Amerindian Linguistics. 1-3 Hours.
The aim of the seminar is to provide opportunity for interaction among faculty and students sharing an interest in North American Native languages and linguistics. Activities include reading, discussion, and criticism of literature on Amerindian languages and linguistics, and reports on current research of the participants. May be repeated. Prerequisite: LING 747. LEC.

LING 980. Linguistics Field Work. 3-6 Hours.
Independent field work with an informant on a language not normally offered at the University of Kansas, or on a non-standard dialect of one of the more accessible languages. Student must show evidence (file slips for grammatical and phonological analysis, dictionary slips, etc.) of having done the required amount of work without necessarily being able to turn in a completed analysis. Normally for three credits; six credits would be available under certain circumstances such as intensive summer work on location away from the university. Graded on satisfactory/unsatisfactory basis. Prerequisite: LING 712 and LING 725. FLD.

LING 997. Ph.D. Examinations. 1-12 Hours.
A course for students writing answers to the preliminary Ph.D. examination and/or preparing to take the Oral Comprehensive Examination. Normally to be taken during the semester in which the student is submitting answers to the written preliminary examination. May be taken for a maximum of two semesters or twelve credits, whichever comes first. Does not count toward the minimum number of credits required for a graduate degree in linguistics. Graded satisfactory/unsatisfactory on the results of the examination. RSH.

LING 998. Independent Study. 1-12 Hours.
Prerequisite: Written consent of instructor. RSH.

LING 999. Doctoral Dissertation. 1-12 Hours.
THE.

Bachelor of Arts and Bachelor of General Studies in Linguistics

Career Opportunities
Linguistics is a superb preparation for careers that require expertise in the use of language as a means of communication, e.g., you will be well prepared for jobs in education, communications, speech-language pathology and audiology, cognitive science, artificial intelligence, law, and marketing. Knowledge of linguistics is useful in both foreign language and English language education, in helping those with speech and language impairments, and in advertising.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences
Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

First- and Second-Year Preparation
A student who plans to major in linguistics should fulfill the College foreign language requirement by the end of the junior year. LING 106 or LING 107, which is required for the major, provides an introductory survey of the field, and also fulfills a general education social sciences: culture and society (SC) principal course requirement. In addition, LING 110, which is required for the major, fulfills a general education social sciences: individual behavior (SI) principal course requirement. These courses prepare students for upper-division courses in the major. Students considering a major in linguistics should discuss their plans with the director of undergraduate studies.

Admission to the Major

Admission Requirements
Course Requirements
Prospective majors should enroll in the following 2 introductory courses:
• LING 106/ANTH 106 Introductory Linguistics (or its honors equivalent LING 107/ANTH 107)
• LING 110 Language and Mind

Grade-Point Average Requirements
Students must earn a 2.5 grade-point average in the 2 designated admission courses. KU's course repeat policy (https://documents.ku.edu/policies/governance/USRR.htm#art2sect2) applies to the GPA calculation.
Application Term

Students should apply to the major during the semester in which major admission criteria will be completed; normally no later than 60 hours, or for transferring students, normally during the initial term at KU. Application to this major after completion of 60 hours, or the initial KU term for transfer students, will likely delay graduation.

Requirements for the B.A. or B.G.S. Major

Linguistics Language Proficiency

Majors must meet Language Proficiency (4th level proficiency) in a second language. Even those seeking the B.G.S. in Linguistics must complete the 4th level of foreign language proficiency. See the chart of Foreign Languages offered at KU (http://www.collegesas.ku.edu/advising/foreignlanguage.shtml) for world languages with KU course offerings through the proficiency level.

Linguistics Major Core Knowledge and Skills (15)

Majors must complete a course in each of the following areas:

- Introductory Linguistics. Satisfied by:
  - LING 106 Introductory Linguistics
  - or LING 107 Introductory Linguistics, Honors
- Language & Mind. Satisfied by:
  - LING 110 Language and Mind
- Phonetics I. Satisfied by:
  - LING 305 Phonetics I
- Introduction to Phonology. Satisfied by:
  - LING 312 Introduction to Phonology
- Syntax. Satisfied by:
  - LING 325 Syntax I

Linguistics Required Electives (3)

Majors must complete an elective course in each of the following areas:

- Acquisition & Processing. Satisfied by one of the following:
  - LING 415 Second Language Acquisition
  - LING 425 First Language Acquisition
  - LING 435 Psycholinguistics
  - LING 438 Neurolinguistics I
- Structure & Description. Satisfied by one of the following:
  - LING 370 Introduction to the Languages of Africa
  - LING 441 Field Methods in Linguistic Description
  - LING 447 North American Indian Languages
  - LING 570 The Structure of Japanese
  - LING 572 The Structure of Chinese
  - LING 575 The Structure of: _____
- Form & Meaning. Satisfied by one of the following:
  - LING 308 Linguistic Analysis
  - LING 327 Morphology
  - LING 331 Semantics

Electives (3)

Satisfied by 1 additional course (3 hours) in linguistics at the junior/senior (300+) level, chosen by the student in consultation with the undergraduate coordinator. Each course must be at least 3 credit hours.

Capstone Experience (3)

Majors must complete one capstone course:

- LING 420 Capstone: Research in Language Science
- or LING 421 Capstone: Typology-Unity and Diversity of Human Language

Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and GPA minimum standards:

**Major Hours**

Satisfied by 30 hours of major courses, or 33 hours required if completing departmental honors course LING 496.

**Major Hours in Residence**

Satisfied by a minimum of 24 junior/senior (300+) hours of KU resident credit in the major.

**Major Junior/Senior Hours**

Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior (300+) Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Graduation Plan

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult department for details.

Departmental Honors

The honors program allows exceptional undergraduate students to work closely with faculty members on a research project. To graduate with honors in linguistics, a student must complete all requirements for the linguistics major and LING 496 Honors Essay in Linguistics (usually taken in the fall semester of the senior year). The student must have a grade-point average of at least 3.5 in linguistics and 3.25 in all courses.

Consult the departmental honors coordinator or the director of undergraduate studies for information. Prospective honors candidates are encouraged to select a thesis topic and thesis director at the end of the junior year.

Minor in Linguistics

Why study linguistics?

Because language is a window into the mind. Linguistics provides an understanding of the human capacity to acquire, perceive, and produce language and of language’s role in contemporary society.
Requirements for the Minor

Linguistics Minor Course Requirements

Students selecting this option must complete a course in each of the following areas:

Linguistics Language Proficiency (0)

Minors must meet Language Proficiency (4th level proficiency) in a second language. See the chart of Foreign Languages offered at KU for world languages with KU course offerings through the proficiency level.

Introductory Linguistics. Satisfied by one of the following: (3)

Linguistics Required Electives (3)

Students selecting this minor must complete at least one junior/senior (300+) LING elective course, chosen by the student in consultation with the linguistics advisor.

Minor Hours & GPA

While completing all required courses, minors must also meet each of the following hour and grade point average minimum standards:

Minor Hours

Satisfied by 18 hours of minor courses.

Minor Hours in Residence

Satisfied by a minimum of 12 hours of junior/senior (300+) hours of KU resident credit in the minor.

Minor Junior/Senior Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA

Satisfied by a minimum of a 2.0 GPA in all departmental courses in the minor. GPA calculations include all departmental courses in the field of study including Fs and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in Linguistics

Why study linguistics?

Because language is a window into the mind. Linguistics provides an understanding of the human capacity to acquire, perceive, and produce language and of language’s role in contemporary society.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Applicants must submit a curriculum vitae, a statement of purpose, an official copy of transcript from the baccalaureate granting institution and any transcripts from institutions attended post-baccalaureate, 3 letters of recommendation, and Graduate Record Examination scores. Applicants who are not native speakers of English must demonstrate English proficiency with Test of English as a Foreign Language scores of at least 53 (paper) or 20 (computer or internet-based) in all sections or International English Language Testing System scores of at least 6.0 overall with no part score below 5.5.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the department:

The University of Kansas
Department of Linguistics
Blake Hall
1541 Lilac Lane, Room 427
Lawrence, KS 66045-3129

M.A. Degree Requirements

Prerequisites

3 credit hours of linguistics (LING 700 or equivalent). Students who do not meet the prerequisite but have undergraduate majors in related fields (such as a foreign language, English, speech, anthropology, or psychology) may be accepted with the provision that they make up the deficiency as soon as possible.

Reading ability in a foreign language (not English) with a significant linguistic literature.

Degree Requirements

The following are minimum requirements.

Course Work

33 credit hours of graduate work including

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Applicants must submit a curriculum vitae, a statement of purpose, an official copy of transcript from the baccalaureate granting institution and any transcripts from institutions attended post-baccalaureate, 3 letters of recommendation, and Graduate Record Examination scores. Applicants who are not native speakers of English must demonstrate English proficiency with Test of English as a Foreign Language scores of at least 53 (paper) or 20 (computer or internet-based) in all sections or International English Language Testing System scores of at least 6.0 overall with no part score below 5.5.

Students originally admitted to the M.A. program who are completing the M.A. degree (research project option) and want to continue toward the Ph.D. must submit the following to the Director of Graduate Studies by January 1st: a 5-7 page summary of the M.A. research project, a timeline for completing the M.A. which has been approved by the M.A. advisor, and a 1-2 page statement that outlines the type of research that the student would like to conduct at the Ph.D. level and the student’s ultimate goals upon completing the Ph.D. Any decision to apply for the Ph.D. program must be taken in consultation with the advisor or Director of Graduate Studies. Acceptance into the Ph.D. program will be contingent on two criteria: (1) a grade of ‘2’ on the M.A. research project (2) approval of the Linguistics faculty that the student should be allowed to continue in the program based on strength of the student’s application. The M.A. research project is graded on the following scale: ‘0’ - fail; ‘1’ - pass without consideration for admission to the Ph.D. program; ‘2’ - pass with consideration for admission to the Ph.D. program. The admissions decision will be made at a faculty meeting following the student’s defense of the M.A. research project.

Doctor of Philosophy in Linguistics

Why study linguistics?

Because language is a window into the mind. Linguistics provides an understanding of the human capacity to acquire, perceive, and produce language and of language's role in contemporary society.

Ph.D. Degree Requirements

Prerequisites

M.A. in linguistics with a thesis. A student entering the Ph.D. program without courses equivalent to these must take them as soon as they are offered.
Degree Requirements

Residence
2 semesters, which may include 1 summer session, must be spent in full-time resident study at KU. Normally, an enrollment of 9 credit hours is considered full-time during the semester. See Doctoral Degree Requirements, 2. Program Time Constraints, in the Graduate Studies (p. 2059) section of the online catalog.

Research Skills and Responsible Scholarship
1. Language requirement: Reading ability in a foreign language (not English) demonstrated through one of the following ways:
   a. Pass a language examination devised and administered by the Linguistics Department.
   b. Complete DANE 101, DTCH 101, FREN 100, GERM 101, ITAL 100, RUSS 101, or SPAN 100 with a grade of C or higher, or LAT 104 with a grade of B or higher.
   c. Have a KU professor qualified in a given language certify that the student has the fourth level of competence in reading, comprehension, and speaking.
   d. Complete 16 hours (or 4 semesters) in a single language at KU or another university as a graduate or undergraduate student.

2. Research skills requirement: 1 of the following:
   • A course in statistics with a grade of B or above.
   • A course in a computer programming language with a grade of B or above.
   • LING 783 Computational Linguistics with a grade of B or above.

3. Responsible Scholarship: The university requires that every doctoral student have training in responsible scholarship pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. The Proseminar (LING 794) fulfills the requirements for responsible scholarship.

Minimum Course Requirements
24 credit hours, consisting of

Methods requirement: (3)
LING 741 Field Methods in Linguistic Description 3
If already taken for M.A., replace with one of the following:
LING 720 Research Methods in Linguistics
LING 740 Linguistic Data Processing
LING 782 Research Methods in Child Language

Second-level courses (9)
Select three of the following second-level courses: 9
LING 707 Phonetics II
LING 714 Phonological Theory II
LING 716 Second Language Acquisition II
LING 726 Syntax II
LING 727 Morphology
LING 731 Semantics
LING 737 Psycholinguistics II
LING 822 Seminar on Acquisition of Language

Elective courses in linguistics (12)

Qualifying Papers
The student needs to write 2 qualifying papers -- a major paper in the area of specialization and a minor paper in a different area. Both papers should represent original work. The major paper may be an expanded version of the M.A. thesis and should be of publishable quality. The minimum lengths of the major and minor papers are 25 pages and 15 pages, respectively.

The major and minor papers are developed in close consultation with an Advisory Committee (3 faculty members) and the 2 papers should be supervised by different faculty members when possible. The adequacy of the papers is evaluated on the quality of the literature review, theoretical contribution, and research integration as well as the basis of their logical coherence and organization. The student does not need to orally defend the qualifying papers.

Dissertation Proposal and the Oral Comprehensive Exam
When the major and minor qualifying papers have been approved by the Advisory Committee, the student may form a Ph.D. committee (4 inside members, 1 outside member), which helps the student work on the dissertation, starting from the dissertation proposal. The proposal should clearly identify the research questions that the dissertation will address, include a comprehensive literature review, lay out the methodology for the research, discuss preliminary data and results, if any, and present a timetable for the dissertation research. The minimum length for the dissertation proposal is 10 pages.

The Oral Comprehensive Exam is the official exam required by Research and Graduate Studies and consists of an oral defense of the dissertation proposal and the answering of any other questions related to the fields of study of the dissertation research. It must be taken within 2 months (excluding summer) after the student has turned in the dissertation proposal. The oral exam will typically last 2 to 3 hours.

Dissertation and Dissertation Defense
The dissertation is developed in consultation with the Ph.D. committee. The dissertation must be orally defended in front of the Ph.D. committee. The student will be asked first to summarize his/her dissertation and evidence, and then will be questioned by the committee. The defense will normally last 1 to 1 and 1/2 hours.

Plan of Study
A plan of study should be developed in consultation with the student’s advisor and committee.
Department of Mathematics

Why study mathematics?

Because mathematics is a framework upon which humanity builds an understanding of the world.

Undergraduate Programs

Placement

Students who have not completed a college-level mathematics course should consult the Placement Table for Initial Enrollment in Mathematics. For information about the Early and Continuous Enrollment in Math requirement, see the CLAS Degree Requirements page (p. 786).

Students also may take the Mathematics Placement Test, given by the mathematics department during New Student Orientation (http://firstyear.ku.edu/orientation) and several other times during the year, to determine their proper initial placement in mathematics courses. Students with college credit in mathematics should enroll according to the credit shown on their transcripts and the stated prerequisites for the courses.

Courses for Nonmajors

Students interested in mathematics as part of a background in the liberal arts should enroll in MATH 115, MATH 121, MATH 105, or MATH 365, and other courses according to their interests. Students preparing to use mathematics as a tool in another field should look at the requirements and recommendations of their schools or departments.

MATH 2 is considered a developmental course by all KU schools and is not counted in the minimum number of hours required for graduation.

Placement Table for Initial Enrollment in Mathematics

KU encourages all entering students to complete 4 years of mathematics in high school, including Algebra I and II, Geometry, Trigonometry, and Analytic Geometry, along the lines of the Kansas Board of Regents recommendations (http://admissions.ku.edu/~admiss/apply/regents_curriculum.shtml).

</tr>
</tbody>
</table>

After their initial enrollment in mathematics, students must remain continuously enrolled until they have completed MATH 101 or MATH 104.

Preparation for Graduate Study

Students who plan to attend graduate school in the mathematical sciences should speak to an advisor about the best preparation, depending on their goals. Students planning to enter a general mathematics graduate program are encouraged to take MATH 765, MATH 766, MATH 790, and MATH 791. Some graduate degrees require a reading knowledge of French, German, or Russian.

Graduate Programs

The department offers a graduate program leading to both the M.A. and Ph.D. degrees. A broad range of programs is possible in algebra, analysis, combinatorics, control theory, dynamical systems, geometry, numerical analysis, probability, statistics, partial differential equations, set theory, and topology.

The Department of Mathematics has a long tradition of excellence. The first Ph.D. granted at KU was in mathematics in the year 1895. Since then, the graduate program has been a central part of the department’s research and teaching mission and an important component of its long-term planning. The department’s commitment to graduate education has boosted its recent growth in size and enhanced its reputation. Prospective students are encouraged to read additional information (http://www.math.ku.edu/academics/graduate) online.

Courses

MATH 2. Intermediate Mathematics. 3 Hours. U.
Mathematics (primarily algebra) preparatory to MATH 101. Qualification: Two years of high school college preparatory mathematics, algebra and geometry, and a score of 16 or more on ACT mathematics; or a qualifying score on the mathematics placement test. MATH 002 is the lowest level mathematics course offered at the University of Kansas. Students not prepared for MATH 101 will be permitted to enroll in MATH 002. However, before enrolling in MATH 002, such students are encouraged to prepare by self-study or by completing a beginning algebra course in high school, community college, or correspondence study. LEC.
MATH 101. College Algebra. 3 Hours. GE12 / U.
Coordinate systems, functions and their graphs; linear, quadratic, general polynomial, rational, exponential, and logarithmic functions; equations and inequalities; linear and non-linear systems and matrices. Not open to students with credit in MATH 104. Prerequisite: MATH 002, or two years of high school algebra and a score of 22 or higher on ACT mathematics, or a qualifying score on the mathematics placement test. LEC.

MATH 103. Trigonometry. 2 Hours. U.
The circular functions and their applications. Not open to students with credit in MATH 104. May not be used to fulfill the College mathematics requirement. Prerequisite: MATH 101, or two years of high school algebra and a score of 26 or higher on enhanced ACT mathematics, or a qualifying score on the mathematics placement test. LEC.

MATH 104. Precalculus Mathematics. 5 Hours. GE12 / U.
An introduction to the elementary functions (polynomial, rational, exponential, logarithmic, and trigonometric) and their properties. Intended primarily for students intending to enroll in MATH 121. Open for only two hours credit for students with credit in MATH 101. Not open to students with credit in MATH 103. Prerequisite: MATH 002, or two years of high school algebra and a score of 22 or higher on ACT mathematics, or a qualifying score on the mathematics placement test. LEC.

MATH 105. Introduction to Topics in Mathematics. 3 Hours. GE12 / N.
This course has two purposes. First, to provide the student with some experience and insight into several areas of mathematics not normally covered in elementary courses. Typical topics which may be covered are number theory, geometries, introductory calculus, introductory probability and statistics. Second, to provide the student with some skill in handling abstract mathematical concepts. The material will develop dually the intuitive and axiomatic approach. A high degree of manipulative skill is not required for this course. Prerequisite: MATH 101 or MATH 104, or two years of high school algebra and a score of 26 or higher on ACT mathematics, or a qualifying score on the mathematics placement test. LEC.

MATH 106. Mathematics for Elementary School Teachers I. 3 Hours. U.
This course is designed to give the prospective elementary school teacher an overview of several components of the elementary school mathematics curriculum, including number systems, estimation, inequalities and order, sequences and patterns, sets, and relations and functions. The class meets each week for three one-hour instruction sessions and one two-hour laboratory session. This course may not be used to satisfy the College mathematics requirement. Prerequisite: MATH 101 or equivalent placement. LEC.

MATH 109. Mathematics for Elementary School Teachers II. 3 Hours. U.
Continuation of MATH 106, including geometry (including transformations) and elementary probability and statistics. Class meets each week for three one-hour instruction sessions and one two-hour laboratory session. This course does not serve as a prerequisite for any mathematics course. It may not be used to satisfy the College mathematics requirement. Prerequisite: MATH 109. LEC.

MATH 110. Introduction to Topics in Mathematics. 3 Hours. N.
Introduction to topics in matrix algebra, probability, and statistics. Topics will include matrix operations, the use of matrices to solve systems of linear equations, elementary data analysis, elementary statistical procedures, sample spaces and probability measures, random variables, probability models, links between probability and statistics, and applications. Prerequisite: MATH 101 or MATH 104, or two years of high school algebra and a score of 26 or higher on the ACT mathematics, or a qualifying score on the mathematics placement test. LEC.

MATH 111. Matrix Algebra, Probability, and Statistics. 3 Hours. N.
Elementary differential and integral calculus, with applications in management and the biological sciences. Not open to students with credit in MATH 121. Prerequisite: MATH 101 or MATH 104, or two years of high school algebra and a score of 26 or higher on ACT mathematics, or a qualifying score on the mathematics placement test. LEC.

MATH 115. Calculus I. 3 Hours. GE12 / N.
Continuation of MATH 115 including exponential, logarithmic, and trigonometric functions, techniques of integration, and the calculus of functions of several variables. Not open to students with credit in MATH 122 or MATH 118. Prerequisite: MATH 115, plus a course in trigonometry, or MATH 121. MATH 103 may be taken concurrently. LEC.

MATH 116. Calculus II. 3 Hours. NM / N.
A course combining the material of MATH 103 and MATH 116. Open for only three hours credit to students with credit in MATH 103 or MATH 104, or five hours credit for students who do not have credit in MATH 103 or MATH 104. Not open for credit for students with credit in MATH 116. Prerequisite: MATH 115. LEC.

MATH 119. Differential Calculus. 4 Hours. N.
Study of limits and derivatives of algebraic, trigonometric, exponential and logarithmic functions. Curve sketching, optimization and other applications of the derivative. Antiderivatives, Riemann sums, the definite integral, and the fundamental theorem of calculus. Intended to facilitate appropriate transfer credit and course placement. Open for only 1 hour credit to students with credit in MATH 115. Not open for credit to students with credit in MATH 116 or 121. Prerequisite: MATH 103 or MATH 104, or 3 years of college preparatory mathematics including trigonometry, with a score of 28 or higher on the enhanced ACT Mathematics exam. LEC.

MATH 120. Integration Techniques and Applications. 1 Hour. U.
A study of techniques and applications of integration. Techniques include integration by parts, integration by trigonometric substitution, integration by partial fractions and improper integrals. Applications of integration include area, volume, arc length, average value, and physical applications such as work and hydrostatic force. Not open for credit to students with credit in MATH 116 or MATH 121. Prerequisite: MATH 119. LEC.

MATH 121. Calculus I. 5 Hours. GE12 / N.
Differentiation and integration of algebraic and trigonometric functions. Applications to physical sciences and engineering. Open for only two hours credit to students with credit in MATH 115. Prerequisite: MATH 104; or MATH 103; or three years of college preparatory mathematics including trigonometry and a score of 28 or higher on ACT mathematics; or a qualifying score on the mathematics placement test. LEC.

MATH 122. Calculus II. 5 Hours. NM / N.
Sequences and series. Calculus of functions in polar and spherical coordinates. Three-dimensional vector geometry and vector-valued functions. Multivariable calculus; partial derivatives and multiple integration. Open only for three hours credit to students with credit in both MATH 121 and MATH 116. Prerequisite: MATH 121, MATH 141, MATH 116, or MATH 120. LEC.

MATH 141. Calculus I: Honors. 5 Hours. GE12 / N.
Differential and integral calculus and applications. Prerequisite: Three years of college preparatory mathematics including trigonometry, plus either (1) a score of 34 or more on ACT mathematics and a cumulative high school grade-point average of at least 3.5, or (2) a score of 32 or more on ACT mathematics and a cumulative high school grade-point average of at least 3.7. LEC.
MATH 142. Calculus II: Honors. 5 Hours. NM / N.
Transcendental functions, methods of integration, parametric equations, vector algebra and its applications to analytic geometry. Introduction to partial derivatives and multiple integration. Prerequisite: MATH 121, or equivalent, and invitation of the Department of Mathematics. LEC.

MATH 143. Linear Algebra and Multivariable Calculus: Honors. 5 Hours. N.
Linear spaces, linear transformations and matrices, determinants, eigenvalues and eigenvectors, differential calculus of vector-valued functions, multiple integrals, line integrals and surface integrals. Infinite series. Prerequisite: MATH 122 or MATH 142, or equivalent, and invitation of the Department of Mathematics. LEC.

MATH 177. First Year Seminar: ______. 3 Hours. NM GE11.
A limited-enrollment, seminar course for first-time freshmen, organized around current issues in math. May not contribute to major requirements in math. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

MATH 197. Mathematical Workshops: ______. 1-3 Hours. U.
Offered to provide opportunities for deeper understanding of freshman-sophomore mathematics through interactive learning. Topics will vary. May be repeated for additional credit. Prerequisite: Variable. LAB.

MATH 220. Applied Differential Equations. 3 Hours. N.
Linear ordinary differential equations, laplace transforms, systems of equations, and applications. Not open to those who have taken MATH 320. Prerequisite: MATH 122 or MATH 142 or equivalent. LEC.

MATH 222. Applied Differential Equations, Honors. 3 Hours. N.
Linear Ordinary Differential Equations, Laplace Transforms, Systems of Equations, Enrichment Applications. Prerequisite: Math 122 or Math 142 or equivalent, and invitation from the Department of Mathematics. Not open to students with credit in Math 320. LEC.

MATH 223. Vector Calculus. 3 Hours. N.
Multivariable calculus, multiple integration, and vector calculus. Prerequisite: MATH 122 or MATH 142 or equivalent. LEC.

MATH 243. Vector Calculus, Honors. 3 Hours. N.
Multivariable Calculus, Multiple Integration, Vector Calculus, Enrichment Applications. Prerequisite: Math 122 or Math 142 or equivalent, and invitation from the Department of Mathematics. LEC.

MATH 290. Elementary Linear Algebra. 2 Hours. N.
Systems of linear equations, matrices, vector spaces, linear transformations, and applications. Not open to those who have taken MATH 590. Prerequisite: MATH 122 or MATH 142 or equivalent. LEC.

MATH 291. Elementary Linear Algebra, Honors. 2 Hours. N.
Systems of Linear Equations, Matrices, Vector Spaces, Linear Transformations, Enrichment Applications. Prerequisite: Math 122 or Math 142 or equivalent, and invitation from the Department of Mathematics. Not open to students who have taken MATH 590. LEC.

MATH 296. Special Topics: ______. 1-3 Hours. N.
Designed for the study of special topics in mathematics at the freshman/sophomore level. May be repeated for additional credit; does not count toward the major or minor in mathematics. Prerequisite: Variable. LEC.

MATH 299. Directed Reading. 1-5 Hours. N.
Directed reading on a topic chosen by the student with the advice of an instructor. May be repeated for additional credit. Consent of the department required for enrollment. IND.

MATH 320. Elementary Differential Equations. 3 Hours. N.
Linear ordinary differential equations, series solutions. Laplace transforms. Systems of equations. Not open to those who have taken MATH 220. Prerequisite: MATH 223 and MATH 290, or MATH 143. LEC.

MATH 321. Differential Equations: Honors. 3 Hours. N.
Linear differential equations with applications. Wronskian, power series solution, systems of differential equations. Prerequisite: MATH 223 and MATH 290 or MATH 143, or equivalent and invitation of the Department of Mathematics. LEC.

MATH 365. Elementary Statistics. 3 Hours. GE12 / N.
Elementary descriptive statistics of a sample of measurements; probability; the binomial, Poisson, and normal distributions, populations and sampling from populations; simple problems of statistical inference. May not be counted for junior-senior credit toward a major in mathematics. Not open to students with credit in BUS 368, BIOL 570, MATH 465, MATH 526, or MATH 628. Prerequisite: MATH 101, MATH 104, or MATH 111. LEC.

MATH 409. Topics in Geometry for Secondary and Middle School Teachers. 2 Hours. N.
Study of selected topics from Euclidean, non-Euclidean, and transformation geometry chosen to give breadth to the mathematical background of secondary and middle school teachers. May not be counted for junior-senior credit towards a major in mathematics. Prerequisite: MATH 122. Students enrolled in MATH 409 must concurrently enroll in MATH 410. LEC.

MATH 410. Topics in History of Mathematics for Secondary and Middle School Teachers. 1 Hour. N.
Study of selected topics from mathematical history chosen to provide students with knowledge of major historical developments in mathematics including individual contributions and contributions from different cultures. These topics will include a historical development of Euclidean and non-Euclidean geometry. May not be counted for junior-senior credit towards a major in mathematics. Prerequisite: MATH 122. Students enrolled in MATH 410 must concurrently enroll in MATH 409. LEC.

MATH 450. Discrete Mathematics. 3 Hours. N.
Basic topics in discrete mathematics including sets, logic, relations and functions, graphs and combinatorics. Advanced topics chosen from partially ordered sets and lattices, Boolean algebras, automata, game theory, coding theory, cryptography, optimization and enumeration. Prerequisite: MATH 290. LEC.

MATH 470. Problem Solving. 3 Hours. N.
An introduction to the general methods of solving mathematical problems. Particular techniques such as specialization, generalization, contradiction, and induction will be presented. Topics presented may vary from semester to semester. Prerequisite: MATH 122 or equivalent or concurrent enrollment in MATH 122. LEC.

MATH 500. Intermediate Analysis. 3 Hours. N.
A careful formulation of convergence and limits of sequences and functions; continuity and properties of continuous functions; differentiation; the Riemann integral; mean-value theorems and the fundamental theorem of calculus. Not open to students with credit in MATH 765. Prerequisite: MATH 223 and MATH 290, or MATH 143. LEC.

MATH 510. Introduction to the Theory of Computing. 3 Hours. N.
Finite state automata and regular expressions, Context-free grammars and push-down automata, Turing machines, Models of computable functions and undecidable problems. The course emphasis is on the theory of computability, especially on showing limits of computation. (Same as EECS 510.) Prerequisite: EECS 210 and upper-level EECS eligibility. LEC.
MATH 520. Intermediate Logic. 3 Hours. N.
Formal systems, propositional and predicate logic, completeness theorem, effective procedures, definability in number theory, Godel's incompleteness theorem. Prerequisite: MATH 450, or MATH 588, or MATH 590. LEC.

MATH 526. Applied Mathematical Statistics I. 3 Hours. NM / N.
A first course in statistics for students with the techniques of calculus at their disposal. The following topics are studied with illustrations and problems drawn from various fields of applications: basic notions of probability and probability distributions; classical estimation and testing procedures for one and two sample problems; chi-square test. Not open to those with credit in MATH 628 or DSCI 301. Prerequisite: MATH 122 or MATH 116. LEC.

MATH 530. Mathematical Models I. 3 Hours. N.
An introduction to mathematical models useful in a large variety of scientific and technical endeavors. Topics include: model construction, Markov chain models, models for linear optimization, graphs as models, and game theory. Prerequisite: MATH 223 and MATH 290, or MATH 143. LEC.

MATH 531. Mathematical Models II. 3 Hours. N.
A continuation of MATH 530. Topics include: deterministic and stochastic models of growth processes, growth models for epidemics, rumors and queues; parameter estimation; and methods of comparing models. Prerequisite: MATH 530 and some probability. LEC.

MATH 540. Elementary Number Theory. 3 Hours. N.
Divisibility, primes and their distribution, the Euclidean algorithm, perfect numbers, Fermat's theorem, Diophantine equations, applications to cryptography. Prerequisite: MATH 122 or consent of instructor. LEC.

MATH 542. Vector Analysis. 2 Hours. N.
Vector algebra; vector and scalar fields; line and surface integrals; theorems of Gauss, Green, and Stokes. Curvilinear coordinates. Applications. Introduction to tensor analysis. Not open to those with credit in MATH 143. Prerequisite: MATH 223 and MATH 290. LEC.

MATH 558. Introductory Modern Algebra. 3 Hours. N.
Development of the number systems. Polynomials. Introduction to abstract number systems such as groups and fields. Not open to students with credit in MATH 791. Prerequisite: MATH 290. LEC.

MATH 559. Modern Geometries. 3 Hours. N.
Selected topics in Euclidean geometry. Synthetic and analytic projective geometry; duality, Desargues' theorem, perspectives, conics. Non-Euclidean and metric projective geometries. Prerequisite: MATH 122. LEC.

MATH 562. Evolution of Mathematical Thought. 3 Hours. N.
Development of selected topics from the mainstream of mathematics. Prerequisite: Senior standing and at least nine hours credit in mathematics courses numbered 450 or above. LEC.

MATH 570. Undergraduate Honor Seminar. 3 Hours. AE61 / N.
A seminar for undergraduate students with a strong record in mathematics. Topics may vary. May not be taken twice for credit towards a major in mathematics. Prerequisite: MATH 143 or MATH 321 or permission of instructor. LEC.

MATH 581. Numerical Methods. 3 Hours. N.
An introduction to numerical methods and their application to engineering and science problems. Applied treatment of elementary algorithms selected from the subject areas: finding roots of a single nonlinear equation, numerical differentiation and integration, numerical solution of ordinary differential equations. Emphasis on implementing numerical algorithms using the computer. Not open to students with credit in MATH 781 or MATH 782. Prerequisite: MATH 220 and MATH 290, or MATH 320. LEC.

MATH 590. Linear Algebra. 3 Hours. N.
Vector spaces, linear transformations, and matrices. Canonical forms, Determinants. Hermitian, unitary and normal transformations. Not open to students with credit in MATH 792. Prerequisite: MATH 223 and MATH 290 or equivalent, or MATH 143. LEC.

MATH 591. Applied Numerical Linear Algebra. 3 Hours. N.
An introduction to numerical linear algebra. Possible topics include: applied canonical forms, matrix factorizations, perturbation theory, systems of linear equations, linear least squares, singular value decomposition, algebraic eigenvalue problems, matrix functions, and the use of computational software. Not open to students with credit in MATH 780 or MATH 782. Prerequisite: MATH 290. Recommended: EECS 138 or equivalent experience. LEC.

MATH 596. Special Topics: _____. 1-3 Hours. N.
Arranged as needed to present appropriate material to groups of students. May be repeated for additional credit. Prerequisite: Variable. LEC.

MATH 601. Algebraic Coding Theory. 3 Hours. N.
An introduction to error correcting codes. Included are: linear codes, cyclic codes, BCH codes, and convolutional codes. Prerequisite: MATH 290. LEC.

MATH 605. Applied Regression Analysis. 3 Hours. N.
The matrix approach to regression. Weighted least squares, transformations, examination of residuals, model selection, and analysis of variance. Prerequisite: One calculus-based statistics course. LEC.

MATH 611. Time Series Analysis. 3 Hours. N.
An introduction to the theory and computational techniques in time series analysis. Descriptive techniques: trends, seasonality, autocorrelations. Time series models: autoregressive, moving average, ARIMA models; model specification and fitting, estimation, testing, residual analysis, forecasting. Stationary processes in the frequency domain: Fourier methods and the spectral density, periodograms, smoothing, spectral window. Prerequisite: MATH 122 and a calculus based statistics course. LEC.

MATH 624. Discrete Probability. 3 Hours. N.
Theory and applications of discrete probability models. Elementary combinatorial analysis, random walks, urn models, occupancy problems, and the binomial and Poisson distributions. Prerequisite: MATH 223 and MATH 290, or MATH 143. LEC.

MATH 627. Probability. 3 Hours. N.
Introduction to mathematical probability; combinatorial analysis; the binomial, Poisson, and normal distributions; limit theorems; laws of large numbers. Prerequisite: MATH 223 and MATH 290 or equivalent, or MATH 143. LEC.

MATH 628. Mathematical Theory of Statistics. 3 Hours. N.
An introduction to sampling theory and statistical inference; special distributions; and other topics. Prerequisite: MATH 627. LEC.

MATH 630. Actuarial Mathematics. 3 Hours. N.
This course is an introduction to some of the notions and computations in actuarial mathematics. Many computations are associated with compound interest with applications to bank accounts, mortgages, pensions, bonds, and annuities. Life contingencies are considered for annuities and insurance. Some introduction to option pricing is given, particularly the Black-Scholes formula. This course provides the background material needed for some of the initial examinations given by the societies for
MATH 631. Operations Research. 3 Hours. N.
An introduction to commonly applied techniques. Topics include linear programming, duality and sensitivity analysis, the transportation problem, networks, decision and game theory, inventory models and queueing systems. Prerequisite: A calculus-based statistics course or permission of instructor. LEC.

MATH 646. Complex Variable and Applications. 3 Hours. N.
Analytic functions of a complex variable, infinite series in the complex plane, theory of residues, conformal mapping and applications. Prerequisite: MATH 223. LEC.

MATH 647. Applied Partial Differential Equations. 3 Hours. N.
Boundary value problems; topics on partial differentiation; theory of characteristic curves; partial differential equations of mathematical physics. Prerequisite: MATH 220, MATH 223 and MATH 290; or MATH 320. LEC.

MATH 648. Calculus of Variations and Integral Equations. 3 Hours. N.
Topics in the calculus of variations, integral equations, and applications. Prerequisite: MATH 220, MATH 223 and MATH 290; or MATH 320. LEC.

MATH 660. Geometry I. 3 Hours. N.
An introduction to modern geometry. Differential geometry of curves and surfaces, the topological classification of closed surfaces, dynamical systems, and knots and their polynomials. Other topics as time permits. Prerequisite: MATH 223 and MATH 290, or equivalent, or MATH 143. LEC.

MATH 661. Geometry II. 3 Hours. N.
Continuation of Math 660. Prerequisite: MATH 660 or permission of instructor. LEC.

MATH 669. Directed Reading. 1-3 Hours. AE61 / N.
Directed reading on a topic chosen by the student with the advice of an instructor. May be repeated for additional credit. Prerequisite: Variable. LEC.

MATH 722. Mathematical Logic. 3 Hours.
Propositional calculus. First order theories and model theory. Elementary arithmetic and Godel's incompleteness theorems. (Same as EECS 722.) Prerequisite: MATH 665 or MATH 691, or equivalent evidence of mathematical maturity. LEC.

MATH 724. Combinatorial Mathematics. 3 Hours.
Counting problems, with an introduction to Polya's theory; Mobius functions; transversal theory; Ramsey's theorem; Sperner's theorem and related results. Prerequisite: MATH 290 and a math course numbered 450 or higher. LEC.

MATH 725. Graph Theory. 3 Hours.
Graphs; trees; connectivity; Menger's theorem; eulerian and hamiltonian graphs; planarity; coloring of graphs; factorization of graphs; matching theory; alternating chain methods; introduction to matroids with applications to graph theory. Prerequisite: MATH 290 and a math course numbered 450 or higher. LEC.

MATH 727. Probability Theory. 3 Hours.
A mathematical introduction to premeasure-theoretic probability. Topics include probability spaces, conditional probabilities and independent events, random variables and probability distributions, special discrete and continuous distributions with emphasis on parametric families used in applications, the distribution problem for functions of random variables, sequences of independent random variables, laws of large numbers, and the central limit theorem. Prerequisite: MATH 223 and MATH 290, or equivalent. LEC.

MATH 728. Statistical Theory. 3 Hours. N.
Theory of point estimation and hypothesis testing with applications. Confidence region methodologies and relations to estimation and testing. Prerequisite: MATH 727 or equivalent. LEC.

MATH 735. Optimal Control Theory. 3 Hours.
An examination of the mathematical methods of deterministic control theory is given by considering some specific examples and the general theory. The methods include dynamic programming, the calculus of variations, and Pontryagin's maximum principle. Various problems of control systems, e.g., the linear regulator problem, are solved. Prerequisite: MATH 320 or equivalent. LEC.

MATH 740. Number Theory. 3 Hours.
Divisibility, the theory of congruences, primitive roots and indices, the quadratic reciprocity law, arithmetical functions and miscellaneous additional topics. Prerequisite: MATH 223 and MATH 290, or equivalent. LEC.

MATH 750. Stochastic Adaptive Control. 3 Hours.
Stochastic adaptive control methods. Stochastic processes such as Markov chains and Brownian motion, stochastic integral, differential rule, stochastic differential equations, martingales and estimation techniques. Identification and control of discrete and continuous time linear stochastic systems. Specific applications and simulation results of stochastic adaptive control theory. Prerequisite: MATH 627 and some knowledge of control. LEC.

MATH 765. Mathematical Analysis I. 3 Hours.
MATH 765 and MATH 766 are theoretical courses on the fundamental concepts of analysis and the methods of proof. These two courses include the concept of a real number; limits, continuity, and uniform convergence; derivatives and integrals of functions of one and of several real variables. Prerequisite: MATH 223 and MATH 290, or equivalent. LEC.

MATH 766. Mathematical Analysis II. 3 Hours.
A continuation of MATH 765. Prerequisite: MATH 765. LEC.
MATH 780. Numerical Analysis of Linear Systems. 3 Hours.
Computational aspects of linear algebra, linear equations and matrices, direct and indirect methods, eigenvalues and eigenvectors of matrices, error analysis. Prerequisite: MATH 590 and MATH 781. LEC.

MATH 781. Numerical Analysis I. 3 Hours.
Finite and divided differences. Interpolation, numerical differentiation, and integration. Gaussian quadrature. Numerical integration of ordinary differential equations. Curve fitting. (Same as EECS 781.) Prerequisite: MATH 320 and knowledge of a programming language. LEC.

MATH 782. Numerical Analysis II. 3 Hours.
Direct and iterative methods for solving systems of linear equations. Numerical solution of partial differential equations. Numerical determination of eigenvectors and eigenvalues. Solution of nonlinear equations. (Same as EECS 782.) Prerequisite: MATH 781. LEC.

MATH 783. Applied Numerical Methods for Partial Differential Equations. 3 Hours.
Finite difference methods applied to particular initial-value problems (both parabolic and hyperbolic), to illustrate the concepts of convergence and stability and to provide a background for treating more complicated problems arising in engineering and physics. Finite difference methods for elliptic boundary-value problems, with a discussion of convergence and methods for solving the resulting algebraic system. Variational methods for elliptic problems. Prerequisite: MATH 647 or equivalent. LEC.

MATH 790. Linear Algebra II. 3 Hours.
A theoretical course on the fundamental concepts and theorems of linear algebra. Topics covered are: vector space, basis, dimension, subspace, norm, inner product, Banach space, Hilbert space, orthonormal basis, positive definite matrix, minimal polynomial, diagonalization and other canonical forms, Cayley-Hamilton, spectral radius, dual space, quotient space. Prerequisite: MATH 590. LEC.

MATH 791. Modern Algebra. 3 Hours.
This course includes the following topics: multiplicative properties of the integers and introductions to group theory, ring theory and field theory. Prerequisite: MATH 223 and MATH 290, or equivalent. LEC.

MATH 796. Special Topics: ____. 1-3 Hours.
Arranged as needed to present appropriate material for groups of students. May be repeated for credit. Prerequisite: Variable. LEC.

MATH 799. Directed Readings. 1-3 Hours.
Directed readings on a topic chosen by the student with the advice of an instructor. May be repeated for additional credit. Consent of the department required for enrollment. RSH.

MATH 800. Complex Analysis I. 3 Hours.
Cauchy’s theorem and contour integration; the argument principle; maximum modulus principle; Schwarz symmetry principle; analytic continuation; monodromy theorem; applications to the gamma function and Riemann’s zeta function; entire and meromorphic functions; conformal mapping; Riemann mapping theorem; univalent functions. Prerequisite: MATH 766 or concurrently with MATH 766. LEC.

MATH 801. Complex Analysis II. 3 Hours.
Continuation of MATH 800. Prerequisite: MATH 800. LEC.

MATH 802. Set Theory. 3 Hours.
Axiomatic set theory; transfinite induction; regularity and choice; ordinal and cardinal arithmetic; miscellaneous additional topics (e.g., extra axioms such as GCH or MA; infinite combinatorics; large cardinals). Prerequisite: MATH 765 or MATH 791, or concurrent enrollment in MATH 765 or MATH 791, or equivalent evidence of mathematical maturity. LEC.

MATH 810. Real Analysis and Measure Theory I. 3 Hours.

MATH 811. Real Analysis and Measure Theory II. 3 Hours.
Continuation of MATH 810. Prerequisite: MATH 810. LEC.

MATH 820. Introduction to Topology. 3 Hours.
General topology. Set theory; topological spaces; connected sets; continuous functions; generalized convergence; product and quotient spaces; embedding in cubes; metric spaces and metrization; compact spaces; function spaces. Prerequisite: MATH 765. LEC.

MATH 821. Algebraic Topology I. 3 Hours.
The fundamental group and covering spaces (including classification); compact surfaces; homology theory, computations (including homotopy invariance) and applications (including Brouwer fixed point theorem); introduction to cohomology theory. Prerequisite: MATH 790 and MATH 791 and MATH 820, or permission of instructor. LEC.

MATH 822. Algebraic Topology II. 3 Hours.
Review of simplicial homology; Lefschetz fixed point theorem and degree theory; singular, cellular, and axiomatic homology; Jordan Brouwer separation theorems; universal coefficient theorems, products in cohomology, homotopy groups, and the Hurewicz Theorem. Prerequisite: MATH 821. LEC.

MATH 824. Algebraic Combinatorics. 3 Hours.
An introduction to the fundamental structures and methods of modern algebraic combinatorics. Topics include partially ordered sets and lattices, matroids, simplicial complexes, polytopes, hyperplane arrangements, partitions and tableaux, and symmetric functions. Prerequisite: MATH 724 and MATH 791, or permission of the instructor. LEC.

MATH 830. Abstract Algebra. 3 Hours.
A study of some structures, theorems, and techniques in algebra whose use has become common in many branches of mathematics. Prerequisite: MATH 790 and MATH 791. LEC.

MATH 831. Abstract Algebra. 3 Hours.
Continuation of MATH 830. Prerequisite: MATH 830. LEC.

MATH 840. Differentiable Manifolds. 3 Hours.
Multilinear algebra of finite dimensional vector spaces over fields; differentiable structures and tangent and tensor bundles; differentiable mappings and differentials; exterior differential forms; curves and surfaces as differentiable manifolds; affine connections and covariant differentiation; Riemannian manifolds. Prerequisite: MATH 765 and MATH 790. LEC.

MATH 850. Differential Equations and Dynamical Systems. 3 Hours.
Discrete and differentiable dynamical systems with an emphasis on the qualitative theory. Topics to be covered include review of linear systems, existence and uniqueness theorems, flows and discrete dynamical systems, linearization (Hartman-Grobman theorem), stable and unstable manifolds, Poincare sections, normal forms, Hamiltonian systems, and an introduction to bifurcation theory and chaos. Prerequisite: MATH 320 and MATH 766, or permission of instructor. LEC.

MATH 851. Topics in Dynamical Systems. 3 Hours.
Topics to be covered include complex dynamical systems, perturbation theory, nonlinear analysis of time series, chaotic dynamical systems, and numerical methods as dynamical systems. This course may be repeated for credit. Prerequisite: MATH 850 or permission of instructor. LEC.
MATH 865. Stochastic Processes I. 3 Hours.
Markov chains; Markov processes; diffusion processes; stationary processes. Emphasis is placed on applications: random walks; branching theory; Brownian motion; Poisson process; birth and death processes. Prerequisite: MATH 627 and MATH 765. LEC.

MATH 866. Stochastic Processes II. 3 Hours.
This is a second course in stochastic processes, focused on stochastic calculus with respect to a large class of semi-martingales and its applications to topics selected from classical analysis (linear PDE), finance, engineering, and statistics. The course will start with basic properties of martingales and random walks and then develop into the core program on Itô’s stochastic calculus and stochastic differential equations. These techniques provide useful and important tools and models in many pure and applied areas. Prerequisite: MATH 727 and MATH 865. LEC.

MATH 870. The Analysis of Variance. 3 Hours.
The general linear hypothesis with fixed effects; the Gauss-Markov theorem, confidence ellipsoids, and tests under normal theory; multiple comparisons and the effect of departures from the underlying assumptions; analysis of variance for various experimental designs and analysis of covariance. Prerequisite: MATH 628 or MATH 728, and either MATH 590 or MATH 790. LEC.

MATH 872. Multivariate Statistical Analysis. 3 Hours.
The multivariate normal distribution; tests of hypotheses on means and covariance matrices; estimation; correlation; multivariate analysis of variance; principal components; canonical correlation. Prerequisite: MATH 628 or MATH 728, and either MATH 590 or MATH 790. LEC.

MATH 874. Statistical Decision Theory. 3 Hours.
Game theory, admissible decision functions and complete class theorems; Bayes and minimax solutions; sufficiency; invariance; multiple decision problems; sequential decision problems. Prerequisite: MATH 628 and MATH 766. LEC.

MATH 881. Advanced Numerical Linear Algebra. 3 Hours. N.
Advanced topics in numerical linear algebra including pseudo-spectra, rounding error analysis and perturbation theory, numerical methods for problems with special structure, and numerical methods for large scale problems. Prerequisite: Math 781, 782, 790, or permission of the instructor. LEC.

MATH 882. Advanced Numerical Differential Equations. 3 Hours. N.
Advanced course in the numerical solution of ordinary and partial differential equations including modern numerical methods and the associated analysis. Prerequisite: MATH 781, 782, 783, or permission of the instructor. LEC.

MATH 890. Fourier Analysis. 3 Hours.
Introduction to modern techniques in Fourier Analysis in the Euclidean setting with emphasis in the study of functions spaces and operators acting on them. Topics may vary from year to year and include, among others, distribution theory, Sobolev spaces, estimates for fractional integrals and fractional derivatives, wavelets, and some elements of Calderón-Zygmund theory. Applications in other areas of mathematics, in particular partial differential equations and signal analysis, will be presented based on the instructor's and the students' interests. Prerequisite: Math 810 and Math 800, or instructor's permission. LEC.

MATH 896. Master's Research Component. 1-6 Hours.
RSH.

MATH 899. Master's Thesis. 1-10 Hours.
THE.

MATH 905. Several Complex Variables. 3 Hours.
Holomorphic functions in several complex variables, Cauchy's integral for poly-discs, multivariable Taylor series, maximum modulus theorem. Further topics may include: removable singularities, extension theorems, Cauchy-Riemann operator, domains of holomorphy, special domains and algebraic properties of rings of analytic functions. Prerequisite: MATH 800. LEC.

MATH 910. Algebraic Curves. 3 Hours.
Algebraic sets, varieties, plane curves, morphisms and rational maps, resolution of singularities, Reimann-Roch theorem. Prerequisite: MATH 790 and MATH 791. LEC.

MATH 915. Homological Algebra. 3 Hours.
Injective and projective resolutions, homological dimension, chain complexes and derived functors (including Tor and Ext). Prerequisite: MATH 830 and MATH 831, or consent of instructor. LEC.

MATH 920. Lie Groups and Lie Algebras. 3 Hours.
General properties of Lie groups, closed subgroups, one-parameter subgroups, homogeneous spaces, Lie bracket, Lie algebras, exponential map, structure of semi-simple Lie algebras, invariant forms, Maurer-Cartan equation, covering groups, spinor groups. Prerequisite: MATH 766 and MATH 790 and MATH 791. LEC.

MATH 930. Topics in General Topology. 3 Hours.
Paracompact spaces, uniform spaces, topology of continua, Peano spaces, Hahn-Mazurkiewicz theorem, dimension theory, and theory of retracts. Prerequisite: MATH 820. LEC.

MATH 940. Advanced Probability. 3 Hours.
Probability measures, random variables, distribution functions, characteristic functions, types of convergence, central limit theorem. Laws of large numbers and other limit theorems. Conditional probability, Markov processes, and other topics in the theory of stochastic processes. Prerequisite: MATH 811. LEC.

MATH 950. Partial Differential Equations. 3 Hours.
Introduction; equations of mathematical physics; classification of linear equations and systems. Existence and uniqueness problems for elliptic, parabolic, and hyperbolic equations. Eigenvalue problems for elliptic operators; numerical methods. Prerequisite: MATH 766. LEC.

MATH 951. Advanced Partial Differential Equations II. 3 Hours.
The course uses functional analytic techniques to further develop various aspects of the modern framework of linear and nonlinear partial differential equations. Sobolev spaces, distributions and operator theory are used in the treatment of linear second-order elliptic, parabolic, and hyperbolic equations. In particular we discuss the kind of potential, diffusion and wave equations that arise in inhomogeneous media, with an emphasis on the solvability of equations with different initial/boundary conditions. Then, we will survey the theory of semigroup of operators, which is one of the main tools in the study of the long-time behavior of solutions to nonlinear PDE. The theories and applications encountered in this course will create a strong foundation for studying nonlinear equations and nonlinear science in general. Prerequisite: MATH 950 or permission of the instructor. LEC.

MATH 960. Functional Analysis. 3 Hours.
Topological vector spaces, Banach spaces, basic principles of functional analysis. Weak and weak-topologies, operators and adjoints. Hilbert spaces, elements of spectral theory. Locally convex spaces. Duality and related topics. Applications. Prerequisite: MATH 810 and MATH 820 or concurrent with MATH 820. LEC.

MATH 961. Functional Analysis. 3 Hours.
Continuation of MATH 960. LEC.
MATH 963. C*-Algebras. 3 Hours.
The basics of C*-algebras, approximately finite dimensional C*-algebras, irrational rotation algebras, C*-algebras of isometries, group C*-algebras, crossed products C*-algebras, extensions of C*-algebras and the BDF theory. Prerequisite: MATH 811 or MATH 960, or consent of instructor. LEC.

MATH 970. Analytic K-Theory. 3 Hours.
K0 for rings, spectral theory in Banach algebras, K1 for Banach algebras, Bott periodicity and six-term cyclic exact sequence. Prerequisite: MATH 790 and MATH 791 and MATH 960. LEC.

MATH 990. Seminar: _______. 1-10 Hours.
LEC.

MATH 993. Readings in Mathematics. 1-10 Hours.
RSH.

MATH 996. Special Topics: _______. 3 Hours.
Advanced courses on special topics; given as need arises. Prerequisite: Variable. LEC.

MATH 999. Doctoral Dissertation. 1-10 Hours.
THE.

Bachelor of Arts in Mathematics

Why study mathematics?
Because mathematics is a framework upon which humanity builds an understanding of the world.

Mathematics Programs

Separate programs lead to the B.A. in mathematics and the B.S. in mathematics. The B.A. has fewer mathematics course requirements and more general education requirements. The B.S. requires more mathematics courses, an applied mathematics concentration, and fewer general education courses. Students wishing to attend graduate school in mathematics or to pursue a career that makes substantial use of mathematics (as an actuary, for example) should get a B.S. in mathematics. Many students majoring in mathematics are interested in a liberal arts degree; such students may want to consider the B.A. in mathematics. Students who wish to teach mathematics in high school should pursue a B.A. or B.S. in mathematics while participating in the UKanTeach program (http://ukanteach.ku.edu).

Electives (0-6)

Select up to 2 additional 3-credit-hour courses to complete a total of 24 credit hours of mathematics courses numbered MATH 450 and above. 0-6

Applied Concentration (8)

3 courses, totaling at least 8 credit hours, that make significant use of mathematics. At least 2 courses must be in the same area. Courses from List C have been approved for this requirement. Other upper-division courses making significant use of mathematics can be used for the applied concentration with the approval of a mathematics department advisor. 8
Note: Many of these courses have prerequisites that do not count toward the mathematics major.

Minimum Major Requirements
42 hours

Applied Concentration: 8 hours

General Education Requirements: 46-50 hours

Completion of the University Core Curriculum

Writing (6)
ENGL 101 Composition (or exemption) 3
Select one of the following: 3
ENGL 102 Critical Reading and Writing (or exemption)
ENGL 105 Freshman Honors English (or exemption)

Computer Science (3-4)
Select one of the following: 3-4
EECS 138 Introduction to Computing: ______
EECS 168 Programming I
EECS 169 Programming I: Honors

Natural Science (7-10)
Select one course with laboratory 4-5
Select one additional course in a natural science other than mathematics 3-5

Notes: A student using at least 2 statistics courses for the applied concentration must complete MATH 627 and MATH 628 (or MATH 727 and MATH 728) as a List A sequence. (MATH 627, MATH 628, MATH 727, and MATH 728 do not count for the applied concentration.) A student using at least 2 curriculum & instruction courses for the applied concentration must complete PHSX 211 as one of the natural science courses and must complete at least 1 of the geometry courses MATH 559, MATH 660, or MATH 661.

Courses used to satisfy the core requirements can also be used to complete List A and List B sequences. However, no course can be used for 2 List A or B sequences, and courses used for the Applied Concentration requirement cannot also be counted toward the 24 credit hours of advanced mathematics courses for the B.S. degree.

Some courses satisfying the sequence requirements are taught infrequently. More advanced courses can be substituted for lower level courses in many cases. Consult the mathematics department for expected course offerings and substitutions.

Departmental Honors
For undergraduate departmental honors, the student must satisfy the College requirements for honors, attain a grade-point average of 3.5 in all mathematics courses numbered 500 and above, and complete MATH 765, MATH 766, MATH 790, and MATH 791 with a grade of B or higher in each course. The student must make a satisfactory oral presentation to the department, preferably on a topic related to his or her mathematics course work. Preparation should include enrollment in MATH 699 Directed Reading (for 1 or more credit hours) with a faculty mentor.

Minor in Mathematics

Why study mathematics?
Because mathematics is a framework upon which humanity builds an understanding of the world.
Requirements for the Minor

The student must earn a grade point average of 2.0 in all mathematics courses attempted.

- **Lower-Division Preparation:** Calculus through MATH 122.
- **Upper-Division Courses:** 12 credit hours of courses numbered 300 and above (excluding MATH 365).

**Note:** Most upper-division mathematics courses have MATH 223 and/or MATH 290 as prerequisites.

Minimum Minor Requirements 18 hours

Master of Arts in Mathematics

Why study mathematics?

Because mathematics is a framework upon which humanity builds an understanding of the world.

Preparation for Graduate Study

Students who plan to attend graduate school in the mathematical sciences should speak to an advisor about the best preparation, depending on their goals. Students planning to enter a general mathematics graduate program are encouraged to take MATH 765 (http://catalog.ku.edu/201314/allcourses?type=department&group=MATH&catalog_nbr=765&toggle=0), MATH 766 (http://catalog.ku.edu/201314/allcourses?type=department&group=MATH&catalog_nbr=766&toggle=0), MATH 790 (http://catalog.ku.edu/201314/allcourses?type=department&group=MATH&catalog_nbr=790&toggle=0), and MATH 791 (http://catalog.ku.edu/201314/allcourses?type=department&group=MATH&catalog_nbr=791&toggle=0). Some graduate degrees require a reading knowledge of French, German, or Russian.

Graduate Programs

The department offers a graduate program leading to both the M.A. and Ph.D. degrees. A broad range of programs is possible in algebra, analysis, combinatorics, control theory, dynamical systems, geometry, numerical analysis, probability, statistics, partial differential equations, set theory, and topology.

The Department of Mathematics has a long tradition of excellence. The first Ph.D. granted at KU was in mathematics in the year 1895. Since then, the graduate program has been a central part of the department’s research and teaching mission and an important component of its long-term planning. The department’s commitment to graduate education has boosted its recent growth in size and enhanced its reputation. Prospective students are encouraged to read additional information (http://www.math.ku.edu/academics/graduate.html) online.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

The minimum prerequisites for admission are an undergraduate degree from an accredited institution with a program of study in mathematics and a record of achievements that shows strong promise of success in graduate school. A 3.0 cumulative grade-point average in undergraduate studies and a 3.0 grade-point average in mathematics are required for admission.

A prospective student should have taken courses in mathematics at the undergraduate level in abstract algebra, linear algebra, and advanced calculus or introduction to analysis. Such courses should be comparable to KU courses numbered MATH 500, MATH 558, and MATH 590. It is also beneficial to students if they have minimum preparation in probability/statistics or numerical analysis (like KU courses MATH 627/MATH 628 and/or MATH 581). We also recommend that you take introductory courses in complex analysis, differential equations, and/or topology before considering graduate work in mathematics at KU (see for example KU courses numbered MATH 646 and MATH 647).

The department requires the general Graduate Record Examination for all incoming students. International students whose native language is not English also must fulfill English language requirements specified by university policies.

Applicants must submit a graduate application online (http://www.graduate.ku.edu). In addition the following required materials must be submitted online:

- Transcript from each college or university the applicant has attended (an official transcript must be sent upon acceptance and completion of degree),
- Applicant’s résumé/curriculum vitae,
- A list of the textbooks used in the mathematics courses beyond the calculus level that the applicant has taken,
- A statement of purpose indicating the applicant’s mathematical preferences and interests, and
- 3 letters of reference.

Official GRE scores and official Test of English as a Foreign Language scores must be sent to the department.

Incomplete applications will not be considered. The minimum admission requirements do not guarantee admission. The graduate committee of the Department of Mathematics evaluates candidates and makes recommendations to the Office of Graduate Studies regarding admission. The number of students admitted to the program changes from year to year, and admissions are competitive based on all application materials.

There are no additional application forms for financial support. Students are considered for support based on merit. Most of the students accepted by the program receive an offer of financial support in the form of a Graduate Teaching Assistantship. The number of GTAs available is limited. Further information about applications and admission (http://www.math.ku.edu/academics/graduate/admissions.html) is available online.
Complete 36 credit hours of courses numbered 600 or above:

Option 3
of the oral examination.

short (30 to 60 minutes) presentation of her or his research in the first part of the oral examination. A candidate must give a technical report as part of his or her research component. Also, a candidate must give a short (30 to 60 minutes) presentation of her or his research in the first part of the oral examination. A proposed program of study must be submitted to the chair of the graduate studies committee at the earliest feasible time, preferably during the second semester of enrollment. The degree is awarded only on the basis of an approved program, which can, however, be revised.

Doctor of Philosophy in Mathematics

Why study mathematics?

Because mathematics is a framework upon which humanity builds an understanding of the world.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Further information about applications and admission (http://www.math.ku.edu/academics/graduate/admissions.html) is available online.

Note: Contact your department or program for more information about the qualifying exam coursework requirement, the research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the Graduate Studies section of the online catalog and in the KU Policy Library.

Pure Mathematics

This track requires:

MATH 800 Complex Analysis I 3
MATH 810 Real Analysis and Measure Theory I 3
MATH 820 Introduction to Topology 3
MATH 830 Abstract Algebra 3

Select an approved course in geometry, e.g.:

- MATH 840 Differentiable Manifolds 3
- MATH 910 Algebraic Curves 3
- MATH 920 Lie Groups and Lie Algebras 3

Applied Mathematics

This track requires:

MATH 727 Probability Theory (or the corresponding qualifying examination) 3
MATH 781 Numerical Analysis I (or the corresponding qualifying examination) 3
MATH 800 Complex Analysis I 3
MATH 810 Real Analysis and Measure Theory I 3

Select one of the following: 6

- MATH 881 Advanced Numerical Linear Algebra 3
- MATH 882 and Advanced Numerical Differential Equations
- MATH 865 Stochastic Processes I 3
- MATH 866 and Stochastic Processes II
- MATH 850 Differential Equations and Dynamical Systems 3
- MATH 851 and Topics in Dynamical Systems

Select one of the following: 3

- MATH 840 Differentiable Manifolds
- MATH 850 Differential Equations and Dynamical Systems
- MATH 950 Partial Differential Equations

Ph.D. Degree Requirements

In addition to general requirements, the department requires the student to meet the following requirements before being admitted to the comprehensive examination.

1. Pass 2 written qualifying examinations, 1 exam in either algebra or analysis and a second exam in either numerical analysis or probability/statistics and complete the required qualifying exam coursework. The qualifying examinations must be completed by the beginning of the student’s fifth semester. The qual course requirement must be met before taking the preliminary exam.

2. Pass 1 preliminary examination in an area close to the focus of the eventual doctoral dissertation. The preliminary examination must be completed by the beginning of the student’s eighth semester.

3. Satisfy the research skills and responsible scholarship requirement by demonstrating a working knowledge of a programming language such as C++ or FORTRAN and by completing the departmental training in responsible scholarship. To meet the research skills requirement students must complete an introductory programming language course approved by the graduate committee. Alternately, students may complete an approved computing project demonstrating competence in either a programming language or the use of specialized software that supports the student’s research.

4. Pass a set of required courses, differing in different tracks.

Examination Preparation

Normally the work required to prepare a student for the oral comprehensive examination (and to do research) includes 1 or more semesters of advanced courses, directed readings, and seminars. In the oral comprehensive examination, a student must show proficiency in the chosen area of mathematics. Precise areas of responsibility on
this examination are discussed in detail with the advisory committee (the student’s advisor and two other members of the department’s Graduate Faculty).

The student must complete 4 additional courses at the 800 level or above before the final examination. Mathematics courses at the 700 level, or courses outside the department at the 700 level or higher, may be substituted with the approval of the graduate studies committee.

Department of Molecular Biosciences

Molecular Biosciences Graduate Programs

The department offers the Doctor of Philosophy and the Master of Arts in biochemistry and biophysics; microbiology; and molecular, cellular, and developmental biology. Programs in neurobiology and genetics also allow a research focus. Graduate students may pursue degree tracks in the disciplines of their choice but may also be involved in collaborative research. New students should confer with the graduate coordinator to plan a first-semester schedule. Until the student chooses a permanent advisor, the graduate coordinator advises him or her.

The department has established a level of enrollment appropriate for normal progress (course work and research effort) toward an advanced degree. These credit-hour requirements may exceed, but not fall below, minimum Graduate Studies requirements. A student must enroll full-time in residence for at least two regular academic-year semesters after the first year of graduate study. Nine credit hours constitute full-time enrollment. If the student holds a half-time research or teaching assistantship, 6 hours constitute full-time enrollment. The department expects graduate students who have not yet passed the comprehensive oral examination (including those with half-time assistantships) to enroll in at least 9 hours each semester and 3 hours each summer session. After passing the comprehensive oral examination, a doctoral candidate must be continuously enrolled, including summer sessions, until all degree requirements are completed. For the first 18 hours of post-comprehensive enrollment, the doctoral candidate must take a minimum of 6 hours a semester and 3 hours a summer session.

Graduate Teaching Assistantships and Graduate Research Assistantships are available. GTAs are appointed on a semester basis. GRAs are appointed on a semester, academic-year, or calendar-year basis.

During the first 2 semesters, a new Ph.D. graduate student follows a rotation schedule through 3 research laboratories. This program acquaints each student with the research conducted by each faculty member. Students then choose a home lab. This decision must be mutually agreed on with the major professor. Each graduate student must teach for at least 2 semesters.

(The B.S. degree in molecular biosciences (p. 1212) is offered on the KU Edwards Campus (http://edwardscampus.ku.edu).)

Courses

BIOL 100. Principles of Biology. 3 Hours. NB GE3N / N.

Intended for non-science majors. The basic concepts of biology at the cellular, organismal, and population levels of organization and their applications to humans and modern society. An honors section, BIOL 101, is offered for students with superior academic records. BIOL 100 and BIOL 102 (or BIOL 101 and BIOL 103, honors) satisfy the College natural science with laboratory requirement. Concurrent enrollment in BIOL 102 is recommended. LEC.

BIOL 101. Principles of Biology, Honors. 3 Hours. NB GE3N / N.

Intended for non-science majors with superior academic records. The basic concepts of biology at the cellular, organismal, and population levels of organization and their applications to humans and modern society. Concurrent enrollment in BIOL 102 or BIOL 103 is recommended. BIOL 101 and either BIOL 102 or BIOL 103 satisfy the College natural science with laboratory requirement. Prerequisite: Membership in the College Honors Program or consent of instructor. LEC.

BIOL 102. Principles of Biology Laboratory. 1 Hour. U.

Intended for non-science majors. Exercises are designed to give the student hands-on experience with selected topics from the associated lecture course (BIOL 100). An honors laboratory (BIOL 103) is offered for students with superior academic records. Prerequisite: Concurrent enrollment in BIOL 100 is recommended. LAB.

BIOL 103. Principles of Biology Laboratory, Honors. 1 Hour. U.

Intended for non-science majors with superior academic records. Exercises are designed to give the students hands-on experience with selected topics from the associated lecture course (BIOL 101). Prerequisite: Membership in the College Honors Program or consent of instructor. Concurrent enrollment in BIOL 101 is recommended. LAB.

BIOL 105. Biology Orientation Seminar. 1 Hour. N.

Introduces interested students to information about majoring in the biological sciences at the University of Kansas. Students learn about degree requirements, academic advising, research opportunities, and career options, as well as how to align academic and professional goals. Graded on a satisfactory/unsatisfactory basis. LEC.

BIOL 110. Microorganisms in Your World. 3 Hours. NB / N.

A course for students who are not science majors. Designed to acquaint students with some microbial activities which affect their lives. Includes the historical development of microbiology, the basic principles of microbial growth, disinfection, antibiotics, infection, and immunity; and some commercial, agricultural, and industrial uses of microorganisms. Emphasis is on infectious diseases. Not open to students with any credit in microbiology. May not be counted as a prerequisite for any other microbiology course. LEC.

BIOL 116. Introduction to Evolutionary Biology. 3 Hours. N.

An account of evolutionary thinking from classical to contemporary time. The emphasis is on mainstream developments (Darwinism, Mendelism, the Modern Synthesis, Cultural Ecology), but certain social issues will be examined (social Darwinism, creationism). LEC.

BIOL 120. Insects in Your World. 3 Hours. NB GE3N / N.

Students will learn about the global impact of insects on human concerns, both positive (pollination and decomposition) and negative (competition with humans for food, fiber, and shelter, and disease transmission) while developing an appreciation for the ways in which scientists work with real problems involving insects. The course will cover the overwhelming abundance and diversity of insects, and their life history, ecology, behavior, and physiology. This course is intended for both nonbiology and biology majors. Format: two lectures and one discussion section per week. LEC.

BIOL 150. Principles of Molecular and Cellular Biology. 4 Hours. NB GE3N / N.

An integrated lecture and laboratory course for biology majors and students planning to take additional courses in biology. This course covers basic biochemistry, cell structure and function, molecular biology, genetics, physiology, and development of plants and animals. Three hours of lecture and three hours of laboratory per week. An honors
BIOL 151. Principles of Molecular and Cellular Biology, Honors. 4 Hours. NB GE3N / N.
An integrated lecture and laboratory course for students with superior academic records who are biology majors or who plan to take additional courses in biology. This course covers basic biochemistry, cell structure and function, molecular biology, genetics, physiology, and development of plants and animals. Three hours of lecture and three hours of laboratory per week. Prerequisite: Membership in the University Honors Program and concurrent or prior enrollment in CHEM 130, CHEM 190, CHEM 150, or CHEM 170, or consent of instructor. LEC.

BIOL 152. Principles of Organismal Biology. 4 Hours. NB GE3N / N.
An integrated lecture and laboratory course for biology majors and students who plan to take additional courses in biology. This course covers basic elements of plant and animal morphology and physiology, principles of evolution, organismal diversity and phylogeny, population biology, population genetics, ecology, and behavior. Three hours of lecture and three hours of laboratory per week. An honors section (BIOL 153) is offered for students with superior academic records. Prerequisite: BIOL 150 or BIOL 151. LEC.

BIOL 153. Principles of Organismal Biology, Honors. 4 Hours. NB GE3N / N.
An integrated lecture and laboratory course for students with superior academic records who are biology majors or planning to take additional courses in biology. This course covers basic elements of plant and animal morphology and physiology, principles of evolution, organismal diversity and phylogeny, population biology, population genetics, ecology, and behavior. Three hours of lecture and three hours of laboratory per week. Prerequisite: BIOL 150 or BIOL 151 and membership in the University Honors Program or consent of instructor. LEC.

BIOL 177. First Year Seminar: ______. 3 Hours. NB GE11.
A limited-enrollment, seminar course for first-time freshmen, organized around current issues in biology. Does not contribute to major requirements in biology. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

BIOL 200. Basic Microbiology. 3 Hours. NB GE3N / N.
Introduction to bacteria and viruses. Topics include historical development of microbiology, bacterial structure and growth, enzymes and energy production, disinfection, antibacterial drugs, gene transfer, viral replication, infection and immunity, with emphasis on infectious diseases. Can be substituted for BIOL 201 as a prerequisite for other microbiology courses by consent of department. Not open to those with credit in BIOL 110, BIOL 201, BIOL 400, or BIOL 401. Prerequisite: A course in high school biology and a course in high school chemistry. This course is not recommended for first semester freshmen. LEC.

BIOL 203. Introductory Microbiology Laboratory. 2 Hours. U.
Laboratory exercises to complement BIOL 200. Prerequisite: BIOL 200. May be taken concurrently. LAB.

BIOL 210. Introduction to Clinical Laboratory Sciences. 1 Hour. U.
An introductory overview of medical technology as a profession including types of analyses performed, specialties, interrelationships in the health care system and a visit to a clinical laboratory. This course will enable those considering a major in medical technology to have a clear definition of the profession. This course does not meet any degree requirements in biology. No prerequisite. (Same as CLS 210.) LEC.

BIOL 215. Plants Through Time. 3 Hours. NB / N.
Examines the evolution of plants and their environments from the origin of life to the present, including the historical development of the biosphere, mass extinctions (past and present), and social implications of future climate changes and deforestation. Not recommended for students with credit in GEOL 121. LEC.

BIOL 225. Evolution and the History of Life. 3 Hours. GE3N / N.
This introductory course for non-majors focuses on the significance of the history of life and the fossil record for our understanding of evolution. Key events in the history of life are considered, including the origins of life, the eukaryotic cell, and humans, and also various mass extinctions. The focus is on general scientific and evolutionary principles and mechanisms that can be extracted from the study of the fossil record. It also uses the lessons of the fossil record to consider the prospects for our own species. LEC.

BIOL 240. Fundamentals of Human Anatomy. 3 Hours. N.
Introduction to the gross anatomy of the human body. Covers the spatial arrangement and appearance of structures throughout the body, including visual identification of these structures. Musculoskeletal relationships, and the anatomy of major organ systems, are emphasized. Not intended for biology majors. Prerequisite: BIOL 100, or equivalent. LEC.

BIOL 241. Human Anatomy Observation Laboratory. 2 Hours. U.
One of the two laboratories in gross anatomy designed to complement BIOL 240. Emphasizes the three-dimensional appearance and spatial relationships of anatomical structures through supervised observations of pre-dissected human cadavers. Limited to students enrolled in, or seeking admission to, programs that require a human anatomy observation laboratory. Concurrent or prior enrollment in BIOL 240 is required. LAB.

BIOL 242. Human Anatomy Dissection Laboratory. 3 Hours. U.
One of the two laboratories in gross anatomy designed to complement BIOL 240. Provides an opportunity to develop a comprehensive three-dimensional understanding of anatomical structures and spatial relationships while gaining substantial dissecting experience. Student perform supervised dissection of human cadavers. Limited to students enrolled in, or seeking admission to, programs that require a human anatomy laboratory. Concurrent or prior enrollment in BIOL 240 is required. LAB.

BIOL 246. Principles of Human Physiology. 3 Hours. N.
An introduction to the physiological and biochemical processes and general physiological principles necessary to sustain life. Organ and organ system processes are emphasized. Intended for students majoring in allied health or sports related curricula who require a course in human physiology. Not intended for biology majors. Prerequisite: BIOL 100 or equivalent. LEC.

BIOL 247. Principles of Human Physiology Laboratory. 2 Hours. U.
Designed to complement BIOL 246. Uses experiments and simulations to demonstrate laboratory techniques and representative processes in areas of human physiology. Concurrent or prior enrollment in BIOL 246 required. LAB.

BIOL 350. Principles of Genetics. 4 Hours. N.
Why are related individuals more similar than unrelated individuals and what is the basis for heritable traits? From Mendel's discoveries of the patterns of genetic inheritance, to the study of transmissible hereditary factors, genetics is central to understanding the biological sciences. Topics include molecular genetics and genetic engineering; Mendelian genetics and mapping; control of gene expression; cyto genetics; epigenetics and non-Mendelian genetics; and population and quantitative genetics. Examples are taken from a wide variety of organisms, including viruses, bacteria, plants, fungi, insects, and humans. Prerequisite: Two
semesters of college-level chemistry and BIOL 150 or BIOL 152; or consent of the instructor. LEC.

BIOL 360. Principles of Genetics, Honors. 4 Hours. N.
The science of genetics aims to explain why individuals differ from one another and how these differences are inherited. Honors Genetics covers all core topics in fundamental genetics: Mendelian inheritance, meiosis and recombination, mutation, molecular genetics, population genetics, quantitative genetics and genomics. Special attention given to the practice of genetics and the complex relationship between genotype, phenotype and environment. A broader goal of Honors Genetics is to provide students a framework for understanding recent advances in medical genetics and the modern era of personal genomics. Prerequisite: Two semesters of college-level chemistry and BIOL 150 or BIOL 152, membership in the University Honors Program; or consent of the instructor. LEC.

BIOL 400. Fundamentals of Microbiology. 3 Hours. NB GE3N / N.
Fundamental principles of microbiology with emphasis on physical and chemical properties of the bacterial cell; microbial metabolism, cultivation, growth and death of bacteria; microbial genetics, pathogenesis and immunity, industrially important microorganisms. Prerequisite: BIOL 150 or BIOL 151 and two semesters of college chemistry, or consent of the instructor. LEC.

BIOL 401. Fundamentals of Microbiology, Honors. 3 Hours. N.
Honors section of BIOL 400 and BIOL 612, by application and invitation. Prerequisite: BIOL 151, two semesters of college chemistry, and membership in the University Honors Program, or consent of the instructor. LEC.

BIOL 402. Fundamentals of Microbiology Laboratory. 2 Hours. U.
Laboratory exercises designed to complement BIOL 400 or BIOL 700. Prerequisite: BIOL 400 or BIOL 612, or BIOL 400 or BIOL 612 concurrently. LAB.

BIOL 405. Laboratory in Genetics. 2 Hours. U.
A laboratory program which includes written reports on fruit fly crosses, exercises on meiosis, probability and statistics, human genetics and computer simulations of genetics problems. Prerequisite: Concurrent or prior (preferred) enrollment in BIOL 350 or its equivalent. LAB.

BIOL 408. Physiology of Organisms. 3 Hours. N.
A comprehensive and integrative approach to the study of organisms with an emphasis on physiological, ecological, structural, and behavioral adaptations to differing environments. Prerequisite: BIOL 152 or BIOL 153 and CHEM 130 or CHEM 190 or CHEM 170; or consent of the instructor. LEC.

BIOL 409. Physiology of Organisms, Laboratory. 2 Hours. U.
The laboratory exposes the students to the structure and function of the major groups of animals and plants. Students use basic techniques of biological observation, such as microscopy and dissection, and experimental techniques to analyze plant and animal function. Prerequisite: Concurrent or prior enrollment in BIOL 408, or consent of the instructor. LAB.

BIOL 410. Human Biogeography, Honors. 3 Hours. N.
Principles of evolution and earth change are used to examine distributions of human populations, wealth, and resources. Readings from the current literature will be included. Lecture and discussion. (Same as GEOG 410.) Prerequisite: BIOL 152 or BIOL 153 or GEOG 107 and membership in the University Honors Program or consent of instructor. LEC.

BIOL 412. Evolutionary Biology. 4 Hours. N.
Introduction to the patterns and processes of organic evolution. Considered are the history of evolutionary thought, molecular evolution, genetics and microevolution, selection and adaptation, and speculation and macroevolution. Emphasis will be placed on how scientists study and document change over time in natural populations, methods for testing hypotheses about events in evolutionary history, and how discovering evolutionary mechanisms at one level of organization can help to explicate general processes in the natural world. Prerequisite: BIOL 152 and BIOL 350, or consent of the instructor. LEC.

BIOL 413. History and Diversity of Organisms. 3 Hours. N.
An integrated lecture and laboratory course presenting an overview of the variety and ancestry of life on earth. Using representatives from protists, plants, fungi, and animals, principles of phylogenetic reconstruction are illustrated and evolutionary trends in the life history features, functional morphology, and structural complexity of extant and extinct organisms are presented. Two hours of lecture and three hours of laboratory per week. Prerequisite: BIOL 152 or BIOL 153, or consent of the instructor. LEC.

BIOL 414. Principles of Ecology. 3 Hours. N.
Study of the principles underlying species population density changes, community structure and dynamics, biochemical cycles, and energy flow and nutrient cycling in ecosystems. Prerequisite: BIOL 152 or BIOL 153, or consent of the instructor. LEC.

BIOL 415. Field and Laboratory Methods in Ecology. 2 Hours. N.
This course complements BIOL 414 with field trips and laboratory exercises that illustrate the basic concepts of ecology. Topics covered include methodologies for quantitative sampling of terrestrial and aquatic systems, design of field studies, computer simulation and digital data analysis techniques, and scientific writing. Prerequisite: Concurrent or prior enrollment in BIOL 414. A statistics course is recommended. FLD.

BIOL 416. Cell Structure and Function. 3 Hours. N.
Lecture survey of molecular cell biology with emphasis on experimental approaches to understanding cell function; topics include biological membranes and transmembrane transport, vesicular trafficking (secretion and endocytosis), cell signaling, cell motility and the cytoskeleton, and the regulation of the cell division cycle. Prerequisite: BIOL 150 or BIOL 151; BIOL 350 or BIOL 360; CHEM 130 or CHEM 190 or CHEM 170; and CHEM 135 or CHEM 195 or CHEM 175, or consent of the instructor. LEC.

BIOL 417. Biology of Development. 3 Hours. N.
A general course designed to introduce students to the developmental biology of animals. Emphasis is placed on understanding how a single-celled fertilized egg develops into a complex multicellular organism by the processes of cell division, differentiation, growth, and morphogenesis. Lectures stress experimental approaches to investigating development, including classic embryology and modern molecular genetics. Prerequisite: BIOL 350 or consent of the instructor. LEC.

BIOL 418. Laboratory in: _____. 1-3 Hours. U.
A varied program of laboratory and fieldwork designed to introduce students to investigative approaches in the study of the basic concepts of biological science. Students may enroll in more than one section. Prerequisite: BIOL 100, BIOL 101, BIOL 150, BIOL 151, or exemption. Each section may have additional prerequisites to be determined by instructor. LAB.

BIOL 419. Topics in: _____. 1-3 Hours. N.
Courses on special topics in biology, given as need arises. May be lectures, discussions, readings, laboratory, or fieldwork. Students may select sections according to their special needs. IND.

BIOL 420. Seminar: _____. 1-3 Hours. N.
The preparation and presentation of oral reports on selected topics from the recent research literature. Students may choose one interest group each semester, but may enroll in a given interest group only once.
Enrollment in each interest group limited to twenty students. Prerequisite: Course work varying with the topic of the seminar, or consent of instructor. LEC.

**BIOL 421. Topics in Molecular Biosciences.** 3 Hours. N. Lecture instruction and the preparation and presentation of oral and written reports on selected topics from the recent research literature in molecular biosciences. Students may enroll in a given topic only once. Prerequisite: Course work varying with the topic of the seminar; or consent of instructor. LEC.

**BIOL 423. Non-laboratory Independent Study.** 1-9 Hours. AE61 / N. Original study in discussion or preparation of review papers on selected topics of current interest. May be undertaken only with the consent of the major advisor and of the faculty member who will guide the research. Prerequisite: Consent of instructor. IND.

**BIOL 424. Independent Study.** 1-9 Hours. AE61 / N. Original study in laboratory or field in selected topics of current research interest. May be undertaken only with the consent of the major advisor and of the faculty member who will guide the research. Prerequisite: Consent of instructor. IND.

**BIOL 425. Teaching Apprenticeship in Biology.** 1-9 Hours. N. Involvement as teaching assistant for a course in Biology. Credit hours shall not exceed the credits offered for the course being taught. May be undertaken only with the consent of the director of Undergraduate Biology and of the faculty member who will teach the course. Prerequisite: Consent of instructor and Director of Undergraduate Biology. FLD.

**BIOL 426. Laboratory in Cell Biology.** 3 Hours. U. Laboratory exercises will examine the function, organization, and composition of eukaryotic cells. Prerequisite: BIOL 150 or BIOL 151, CHEM 130 or CHEM 190 or CHEM 170; concurrent or prior enrollment in BIOL 416 or BIOL 536; or consent of the instructor. BIOL 350 or BIOL 360 is highly recommended. LAB.

**BIOL 427. Developmental Biology Laboratory.** 2 Hours. U. Laboratory exercises examine processes of early development in animal model organisms. Students study the normal development of live embryos and prepared slides of sea anemones, sea urchins, frogs and chicks. Study of regeneration and axial patterning through experimental manipulation of invertebrates is also explored. Prerequisite: Concurrent or prior enrollment in BIOL 417. LAB.

**BIOL 428. Introduction to Systematics.** 3 Hours. N. Basic elements of systematic theory and practice; phylogenetic reconstruction using morphological and molecular data; interpretation of phylogenetic hypotheses; principles of nomenclature and classification; evolutionary processes and patterns of species diversity; discussion of the aims and needs of taxonomy; species and speciation; construction of keys; significance of biological collections. Prerequisite: BIOL 152 or BIOL 153. Not intended for students with advanced systematics background. LEC.

**BIOL 430. Laboratory in Molecular Biology.** 3 Hours. U. Practical experience in recombinant DNA technology and molecular cloning. Prerequisite: BIOL 416 or a course in biochemistry or microbiology. LAB.

**BIOL 432. Human Behavioral Genetics.** 3 Hours. S. A survey of human behavioral genetics for upper division undergraduates. Emphasis is on how the methods and theories of quantitative, population, medical, and molecular genetics can be applied to individual and group differences in humans. Both normal and abnormal behaviors are covered, including intelligence, mental retardation, language and language disorders, communication, learning, personality, and psychopathology. (Same as ANTH 447, PSYC 432, SPLH 432.) Prerequisite: Introductory courses in biology/genetics or biological anthropology and psychology are recommended. LEC.

**BIOL 435. Introduction to Neurobiology.** 3 Hours. N. Basic principles of neurobiology. The focus will be on the nature of communication among nerve cells and their targets. Topics will include the development, structure and function of nerve cells, chemistry of neurotransmission, processing and integration including the cellular and molecular basis of higher functions and neurological disorders. Prerequisite: BIOL 150 or BIOL 151. LEC.

**BIOL 440. Advanced Human Anatomy.** 6 Hours. N. Integrated lecture and laboratory course designed to provide students with a detailed understanding of the structure of the human body. Cadaver dissection will reinforce three-dimensional relationships discussed in lecture and each of the main organ systems will be considered using a regional approach to the body. Prerequisite: BIOL 152 or equivalent; BIOL 240, BIOL 241, or BIOL 242; and instructor consent. LEC.

**BIOL 448. Kansas Plants.** 3 Hours. N. A study of common and important non-cultivated Kansas plants, with special emphasis on the ecology of the state; paleobotanical and paleobotanical background of the central prairies and plains; present climate, physiography and vegetation; poisonous, edible, and medicinal plants; identification by means of simplified keys. Prerequisite: BIOL 100, BIOL 101, BIOL 150, or BIOL 151 and BIOL 152 or BIOL 153. LEC.

**BIOL 449. Laboratory/Field Work in Human Biology.** 1-3 Hours. AE61 / N. Faculty supervised laboratory or field research for Human Biology majors. Students design and complete a research project in collaboration with a Human Biology faculty member. (Same as ANTH 449, PSYC 449, and SPLH 449.) Prerequisite: Consent of instructor and Human Biology major. FLD.

**BIOL 454. Brain Diseases and Neurological Disorders.** 3 Hours. N. Major brain diseases and neurological disorders such as stroke, Alzheimer’s Disease, Parkinson’s Disease, Huntington’s Disease, Multiple Sclerosis, Epilepsy, Schizophrenia, etc., will be discussed in terms of the etiology, molecular, and cellular basis of potential therapeutic interventions. Graduate students are required to present original research paper assigned by the instructor to the class in addition to other assignments for all the students enrolled. Prerequisite: BIOL 150, or consent of instructor. LEC.

**BIOL 461. Biodiversity of the Rainforest.** 3 Hours. N. An introduction to birds, bats, and plants of the rainforest, with emphasis on general characteristics of each of the taxa and their relationship to the tropical ecosystem, as well as their particular anatomy, ecology, behavior, and diversity. Field work focuses on identification of birds and bats (at species level), plants (at family level), and on capturing and preservation techniques. Taught in Golfito, Costa Rica. Contact Undergraduate Biology, or the Office of Study Abroad. Prerequisite: BIOL 150 or BIOL 151 and BIOL 152 or BIOL 153, or equivalent. Fall and spring semester courses are taught in Spanish; therefore, four semesters of Spanish are required. Summer courses are taught in English. LEC.

**BIOL 463. Introduction to Ornithology of the Tropics.** 4 Hours. N. A theory and practice course on birds. Course covers morphology, reproduction, evolution, ecology, and behavior, as well as systems of Costa Rican birds. Course includes field work on bird identification. Taught in Golfito, Costa Rica. Contact Undergraduate Biology, or the Office of Study Abroad. Prerequisite: BIOL 150 or BIOL 151 and BIOL 152 or BIOL 153, or equivalent. Fall and spring semester courses are
taught in Spanish; therefore, four semesters of Spanish are required. Summer courses are taught in English. LEC.

**BIOL 465. Marine Biology. 4 Hours. N.**
A theory and practice course on biotic relations, the role of organisms and marine biodiversity. It covers basic marine principles and physico-chemical processes (temperature, salinity, dissolved oxygen, nutrients, and pH in the water) and their effect on the abundance, and horizontal and vertical distribution of marine organisms. Course includes field work on data collection. Taught in Golfito, Costa Rica. Contact Undergraduate Biology, or the Office of Study Abroad. Prerequisite: BIOL 150 or BIOL 151 and BIOL 152 or BIOL 153, or equivalent. Fall and spring semester courses are taught in Spanish; therefore, four semesters of Spanish are required. Summer courses are taught in English. LEC.

**BIOL 467. Marine Resources Management. 3 Hours. N.**
A theory and practice course which focuses on the techniques used for monitoring the growth of fish, shrimp, and mollusks, with the purpose of understanding the variables that could produce the best yields. The course covers ecology (population growth, competition, predators, ecosystem dynamics), and fishery biology (growth, fish yield, capture efficiency) applicable in the field experiments. Taught in Golfito, Costa Rica. Contact Undergraduate Biology, or the Office of Study Abroad. Prerequisite: BIOL 150 or BIOL 151 and BIOL 152 or BIOL 153, or equivalent. Fall and spring semester courses are taught in Spanish; therefore, four semesters of Spanish are required. Summer courses are taught in English. LEC.

**BIOL 468. Fresh Water Ecology. 4 Hours. N.**
A theory and practice class on the study of rivers and lagoons. It includes systematics of rivers, lagoons, and reservoirs. Course includes theory and field work to monitor physical (stream topography, flow, edge vegetation), chemical (nutrients, temperature, pH levels, dissolved oxygen), and biological (collecting and identification of aquatic insects) conditions in rivers. Taught in Golfito, Costa Rica. Contact Undergraduate Biology, or the Office of Study Abroad. Prerequisite: BIOL 150 or BIOL 151 and BIOL 152 or BIOL 153, or equivalent. Fall and spring semester courses are taught in Spanish; therefore, four semesters of Spanish are required. Summer courses are taught in English. LEC.

**BIOL 477. Ecology and Global Change. 3 Hours. N.**
Humans influence both natural and managed ecosystems. This course studies the effects of climate change, land-use change, and reductions in biodiversity on ecosystems. Emphasis is placed on how biological and physical processes may be perturbed by human influences. Topics include the greenhouse effect, species extinctions, human disease expansion, and the effects of global change on agricultural productivity. A combination of lectures and discussion address issues from a scientific basis and link these ecological issues to our everyday lives and society as a whole. Prerequisite: BIOL 152, BIOL 153, or equivalent, or permission of instructor. LEC.

**BIOL 480. Biology and Diversity of Parasites. 3 Hours. N.**
Introductory lecture course to the field of Parasitology. Provides basic knowledge about the morphology and biology of parasitic animals. Coverage includes a diversity of protozoan and metazoan groups parasitizing animals, including humans (e.g., malaria, amoebas, hookworms, tapeworms). Some emphasis is given to groups of parasites of particular medical and/or economic importance. Selected principles of parasitism are introduced. Prerequisite: BIOL 152 or BIOL 153, or permission of instructor. LEC.

**BIOL 481. Parasitology Laboratory. 1 Hour. U.**
Laboratory course in the study of protozoan and metazoan parasites of animal, including humans, emphasizing their diversity, classification, morphology, and identification. One three-hour laboratory each week. Prerequisite: Concurrent or prior enrollment in BIOL 480. LAB.

**BIOL 494. Introduction to Mammalogy. 3 Hours.**
A study of mammals, with emphasis on evolution, biogeography, systematics, and natural history. Lectures, laboratory, and field study. Prerequisite: BIOL 152 or 153 or permission of instructor. LEC.

**BIOL 499. Introduction to Honors Research. 2 Hours. N.**
Intended for sophomores planning to enroll in the Biology Honors Program. Students interested in pursing Biology Honors discuss with Biology faculty members the rationale, methods, and interpretations of research being carried out in individual faculty labs to learn how scientific research is conducted. Prerequisite: At least 17 credit hours of college level natural sciences coursework or consent of instructor. LEC.

**BIOL 500. Biology of Insects. 3 Hours. N.**
Lectures and demonstrations providing an introduction to the study of insects, including general classification, structure, phylogeny, identification, development, physiology, behavior, ecology, and relations to human affairs. Prerequisite: BIOL 152, 153, or equivalent, or permission of instructor. LEC.

**BIOL 502. Laboratory in Insect Biology and Diversity. 2 Hours. U.**
Laboratory and field studies of insects, emphasizing their diversity, classification, ecological relationships, morphology, and behavior. Course provides practical application of principles covered in BIOL 500. Prerequisite: Concurrent or prior enrollment in BIOL 500 or the equivalent. LAB.

**BIOL 503. Immunology. 3 Hours. N.**
Lectures on the nature and mechanisms of natural and acquired resistance including humoral and cellular immunity. Characteristics of antigens and antibodies and of their interaction: ontogeny and cellular basis of immune responsiveness, hypersensitivity; specific immunologic tolerance. Not open to those with credit in BIOL 524. Prerequisite: BIOL 400 or BIOL 401, or consent of instructor. LEC.

**BIOL 504. Immunology Laboratory. 2 Hours. U.**
Laboratory designed to complement BIOL 503. Prerequisite: BIOL 503, or BIOL 503 concurrently. LAB.

**BIOL 505. Social Insects. 3 Hours. N.**
Lectures and laboratory demonstrations on presocial and social insects, specifically termites, ants, wasps, and bees. Emphasis will be placed on evolution of social behavior and the place of social insects in sociobiology. Prerequisite: BIOL 152, BIOL 153, or equivalent. LEC.

**BIOL 506. Pathogenic Microbiology. 3 Hours. N.**
Lectures. Characteristics and mechanisms of pathogenic microorganisms and disease processes. Elements of host-parasite interactions. Not open to freshmen or sophomores. Prerequisite: BIOL 503, or consent of instructor. LEC.

**BIOL 507. Pathogenic Microbiology Laboratory. 2 Hours. U.**
Laboratory to complement BIOL 506. Cultivation of pathogenic microorganisms, diagnostic procedures, and experiments to demonstrate various aspects of microbial pathogenicity and host responses. Prerequisite: BIOL 402 and BIOL 506 (or concurrent enrollment) or consent of instructor. LAB.

**BIOL 509. Biology of Spiders. 3 Hours. N.**
An introduction to the evolution, anatomy, physiology, behavior, and ecology of spiders and other arachnids. Special topics include the action of spider venoms; the composition and uses of silk; courtship and mating; predation; social behavior; and the role of spiders in natural and agricultural ecosystems. Concurrent enrollment in BIOL
511 is encouraged. Prerequisite: BIOL 152, BIOL 153 or permission of instructor. LEC.

BIOL 510. Comparative Anatomy. 5 Hours. N.
Structure, function, and evolution of the vertebrates. Lectures and laboratory study. A course designed for zoologists. Prerequisite: BIOL 100, BIOL 101, BIOL 150, or BIOL 151 and BIOL 152 or BIOL 153. LEC.

BIOL 511. Biology of Spiders Laboratory. 1 Hour. U.
Topics will include comparative biology of arachnid orders (spiders, scorpions, harvestmen, mites, and others), external and internal anatomy of spiders, identification of common spider families and genera, and spider behavior. Students will be required to make a small collection (collect, preserve, and identify specimens). Prerequisite: BIOL 509; concurrent enrollment is preferred. LAB.

BIOL 512. General Virology. 3 Hours. N.
Lectures and discussions covering the basic nature and characteristics of viruses from a general biological point of view: viruses of bacteria, animals and plants, physical-chemical properties; host cell-viral interactions; mode of replication of DNA and RNA viruses, tumor viruses. Prerequisite: BIOL 400, BIOL 401 or consent of instructor. LEC.

BIOL 513. Virology Laboratory. 2 Hours. U.
Experiments involving cultivation, quantitation, and identification of animal viruses, continuous cell culture and primary chicken embryo culture techniques. Molecular biology techniques are used to demonstrate the steps in virus replication. The value of viruses as tools to understand normal cellular processes is emphasized in experiments which demonstrate the relative simplicity of viruses and the relative complexity of eukaryotic cells. Demonstrations include transformation of cells by tumor viruses and electron microscopy of virus particles. Prerequisite: BIOL 402 and BIOL 510, or consent of instructor. LAB.

BIOL 514. Principles of Ecology, Honors. 3 Hours. N.
Honors section of BIOL 414 for students with superior academic records. Course covers core concepts on the ecology of individuals, populations, communities, and ecosystems. Relative to BIOL 414, topics are presented in greater depth with increased student participation and stronger emphasis on the primary scientific literature. Prerequisite: BIOL 100, BIOL 101, BIOL 150, or BIOL 151 or BIOL 152 or BIOL 153. Open only to students admitted to the University Honors Program or by consent of instructor. LEC.

BIOL 516. Microbial Physiology. 3 Hours. N.
Elements of microbial physiology. Carbohydrate metabolism; enzymes and coenzymes; microbial nutrition; quantitative problems in microbial physiology; a survey of microbial metabolic types. Prerequisite: BIOL 400 or BIOL 612 and BIOL 402, and five hours of organic chemistry. LEC.

BIOL 517. Microbial Physiology Laboratory. 2 Hours. U.
Laboratory designed to complement BIOL 516. Prerequisite: BIOL 516, or BIOL 516 concurrently. LAB.

BIOL 518. Microbial Genetics. 3 Hours. N.
Bacteria and viruses as models of genetic systems. Mutagenesis and repair. Transformation, transductions, and recombination. Molecular biology of gene expression. Prerequisite: An introductory microbiology course. LEC.

BIOL 519. Microbial Genetics Laboratory. 2 Hours. U.
Laboratory designed to complement BIOL 518. Prerequisite: BIOL 402, BIOL 518, or BIOL 518 concurrently. LAB.

BIOL 520. Marine Biology. 3 Hours. N.
This introductory course covers biological, physical, and chemical ocean sciences, with an emphasis on ecological aspects. In addition to this Lawrence campus course, students may enroll for a supplementary 1 credit field trip class to a Caribbean coral reef island offered in December or January. Prerequisite: BIOL 414 or permission of the instructor. LEC.

BIOL 521. Insect Systematics. 4 Hours. N.
A study of the diversity of insects, including the classification of all living and fossil orders and the more common families primarily on the basis of external morphology. The biology, ecology, phylogeny, and geological history of each order is covered. Includes both lectures and laboratory exercises. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 500, BIOL 502 or equivalent, or permission of instructor. LEC.

BIOL 525. Aquatic Entomology. 4 Hours. N.
Designed to enable students to develop skill in the area of identification of aquatic insects and to gain a detailed comprehension of their community structure and dynamics. The external morphology of all aquatic orders is covered, followed by consideration of specific physiological and behavioral adaptations that facilitate an aquatic existence. Includes both lectures and laboratory exercises. Requirements include making a collection of aquatic insects. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 414 or BIOL 500. LEC.

BIOL 526. Insect Physiology and Internal Morphology. 3 Hours. N.
Mechanisms and integration of the internal life-supporting systems of insects, emphasizing the interdependence of structure and function. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 408 and BIOL 500, or permission of instructor. LEC.

BIOL 528. External Morphology of Insects. 4 Hours. N.
A study of external structure common to all insect orders, with detailed comparative laboratory studies of representative species. Includes both lectures and laboratory exercises. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 500, BIOL 502 or equivalent, or permission of instructor. LEC.

BIOL 529. Immature Insects. 3 Hours. N.
The classification, structure, and ecological distribution of immature insects, especially larvae of Holometabola. Includes both lectures and laboratory exercises. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 502 or permission of instructor. LEC.

BIOL 533. Biology of Fungi. 4 Hours. N.
A study of the major groups of fungi from slime molds to mushrooms. Emphasis on their activities in natural substrates, isolation techniques, parasitic and mutualistic relationships with other organisms, uses in research, industrial applications, production of mycotoxins and poisons, and physiological, genetic and reproductive behavior. Lectures, laboratory, and field trips. Prerequisite: BIOL 100, BIOL 101, BIOL 150, or BIOL 151 and BIOL 152 or BIOL 153. LEC.

BIOL 536. Cell Structure and Function (Honors). 3 Hours. N.
BIOL 536 is the honors version of BIOL 416. Completion of this class will satisfy the BIOL 416 requirement. Open to students in the Honors program or by permission of instructor. Prerequisite: BIOL 350 or consent of instructor. LEC.

BIOL 540. General Invertebrate Zoology. 4 Hours. N.
Phylogeny, physiology, and embryology; evolutionary processes; characteristics of major ecological groupings. Laboratory will consider major taxonomic categories with emphasis on functional morphology and its evolutionary modifications. Prerequisite: BIOL 152 or BIOL 153. LEC.
BIOL 545. Evolution of Development. 3 Hours. N.
An advanced course designed to expose students to evolutionary change in the developmental patterning of plant and animal form. This course integrates multiple biological disciplines including phylogenetics, comparative morphology, molecular evolution and developmental genetics to explore biodiversity at a mechanistic level. Topics range from issues surrounding homology assessment to empirical examples of how changes in gene expression or function may have shaped morphological diversity. Prerequisite: BIOL 350 or equivalent. LEC.

BIOL 555. General Plant Physiology. 3 Hours. N.
The principal physiological processes of higher plants including photosynthesis, respiration, water relations, mineral nutrition, and factors associated with morphogenesis. Prerequisite: BIOL 408 or consent of instructor. LEC.

BIOL 560. Histology. 3 Hours. N.
Study of detailed microscopic anatomy of cells, tissues, and organs of mammals. Examples are drawn from normal and abnormal tissue, histochemistry, and electron microscopy. Lecture and demonstrations. A course in anatomy and physiology is highly recommended. Prerequisite: BIOL 152 or BIOL 153. LEC.

BIOL 570. Introduction to Biostatistics. 3 Hours. N.
Statistical concepts related to biological problems. Topics include the scientific method, data representation, descriptive statistics, elementary probability distributions, estimation and hypothesis testing, emphasizing the analysis of variation. Prerequisite: College algebra and ten hours of natural science. LEC.

BIOL 571. Introduction to Biostatistics Laboratory. 2 Hours. U.
Introductory statistical analyses on microcomputers. Data entry and export; simple graphs and exploratory data analysis; descriptive statistics; sampling; point and interval estimation; one and two sample t-tests; Chi-square; regression and correlation; analysis of variance; and nonparametric methods. Prerequisite: BIOL 570 or equivalent (may be taken concurrently). LAB.

BIOL 582. Principles of Biogeography. 3 Hours. N.
An introduction to the study of the distribution of life on earth. Covers geographical patterns of species diversity and the processes that give rise to those patterns: speciation, extinction, dispersal, vicariance, continental drift, ecological interactions, and phylogeny. Topics are presented within the framework of evolutionary history and include discussion of the biology of species on islands, terrestrial biomes, altitudinal zonation of species, latitudinal species gradients, historical factors governing species distributions, macroevolutionary trends in the fossil record, and application of modern molecular techniques for testing biogeographical hypotheses. Prerequisite: BIOL 152 or 153 and past or concurrent enrollment in BIOL 412, 413, 414, or 550; or permission of instructor. LEC.

BIOL 583. Herpetology. 3 Hours. N.
A study of amphibians and reptiles. This lecture course will explore the taxonomic diversity of amphibians and reptiles, and current areas of active research in herpetology. Topics will be considered within a phylogenetic framework, and include discussion on systematics, biogeography, tetrapod origins, skeletal systems, growth, circulatory system, locomotion, thermal and water regulation, hibernation, ecology, sexual behavior, parental care, and mimicry. LEC.

BIOL 592. Ichthyology. 4 Hours. N.
A study of fishes. Lecture topics include the structure and adaptations of fishes to the aquatic environment and a survey of major fish groups with emphasis on their evolution and biogeography. Laboratory topics include a survey of fish diversity using specimens and the use of keys to identify fishes, with emphasis on the Kansas fish fauna. This course meets with BIOL 792. Students taking this course at the 700 level will have additional work required of them. Prerequisite: BIOL 152 and/or BIOL 413. LEC.

BIOL 593. Ornithology. 3 Hours. N.
A lecture and laboratory course on the biology, evolution, and diversity of birds. Prerequisite: BIOL 412 (or BIOL 413), or permission of instructor. LEC.

BIOL 594. Forest Ecosystems. 3 Hours.
Students learn basic concepts of forest productivity, forest water relations, forest hydrology, nutrient cycling, through soils and vegetation, nutrient uptake, carbon cycling, decomposition, linkages to aquatic ecosystems, and agents of disturbance to these cycles. The class spends a significant part of the semester exploring forest soil profiles and the challenges they present to different forest ecosystems. We discuss the function of forested ecosystems in a global context and identify and understand smaller-scale processes that drive forest function. Prerequisite: CHEM 135 or CHEM 195 or CHEM 175, and BIOL 414. LEC.

BIOL 595. Human Genetics. 3 Hours. N.
A lecture course providing balanced coverage of Mendelian and molecular genetics of humans; includes discussions and presentations on current issues in human and medical genetics. Prerequisite: BIOL 350. LEC.

BIOL 598. Research Methods. 3 Hours. N.
An introduction for pre-service teachers to the tools used by scientists to solve scientific problems. Topics include design of experiments and interpretation of their results, use of statistics, mathematical modeling, laboratory safety, ethical treatment of human subjects, writing scientific papers, giving oral presentations, and obtaining data from the scientific literature. Open only to students in the UKanTeach program. LEC.

BIOL 599. Senior Seminar: ___. 1 Hour. AE61 / N.
A synthesis and discussion of current trends in a discipline or disciplines related to one of the degrees offered in the biological sciences. Emphasis is placed on providing seniors with an appreciation of the discipline’s state-of-the-art and on developing skills for success in the next stage of a career in the biological sciences. Topics depend on the associated degree program. Prerequisite: Must be taken in the final year of a degree and students must have completed most of the course work required for one of the degrees in the biological sciences. LEC.

BIOL 600. Introductory Biochemistry, Lectures. 4 Hours. N.
Designed to offer the essentials of the chemistry of the constituents of living organisms and the changes these constituents undergo (during life processes) in the human body and other living forms. Prerequisite: BIOL 150 or BIOL 151 and one semester of organic chemistry. LEC.

BIOL 601. Principles of Biochemistry Laboratory. 2 Hours.
Theory and methods in the development of protein separation and purification, enzyme structure/function, and enzyme kinetics derived from primary literature searches and readings. Prerequisite or Co-requisite: BIOL 600; or consent of instructor. LAB.

BIOL 602. Plant Ecology. 3 Hours. N.
Introduction to basic concepts, focused at community and species level. Architectural ecomorphology of plants and their physiological responses to physical factors: solar radiation, climate, and soils. Plant succession as an interaction among species differing in ecomorphology and life style. Classification and ordination of plant communities: practice and theory. Other topics include: species diversity and lognormal distribution as to abundance classes; species/area relations and theory of island biogeography; allelochemic defenses; genealogy; paleoecology. Prerequisite: BIOL 414 or consent of instructor. Concurrent enrollment in parallel laboratory, BIOL 607, recommended. LEC.
Biol 603. Systematic Botany. 3 Hours. N.
A lecture/laboratory course providing hands-on experience with plant identification, a history of plant classification, the principles of nomenclature and character analysis, the basics of systematics theory, and a phylogenically-oriented introduction to vascular plant diversity. Prerequisite: BIOL 413 or equivalent. LEC.

Biol 606. Ecological Plant Physiology. 3 Hours. N.
Physiological responses of higher plants to environmental factors are discussed. Major topics are: water relations, heat transfer, resistance to water and temperature stress, dormancy, photoperiodism, photosynthesis and respiration under natural conditions, and effects of environmental pollution. Prerequisite: BIOL 408 or consent of instructor. LEC.

Biol 607. Field and Laboratory Exercises in Plant Ecology. 2 Hours. U.
Introduction to quantitative analysis of plant communities and correlated environmental parameters; field and/or laboratory measurements of ecophysiological traits and comparative ecomorphology of principal species. Prerequisite: BIOL 414. Concurrent enrollment in parallel lecture, BIOL 602, recommended, but not required. LAB.

Biol 609. Current Progress in Microbiology. 1 Hour. U.
A seminar course which will focus on current research in microbiology. A term paper will be required of each student. May be repeated for credit. Required of all majors in the senior year. Prerequisite: Two courses in microbiology. LEC.

Biol 611. Molecular Systematics and Evolution. 4 Hours. N.
An introduction to the use of molecular data in systematics and population biology. Topics include: evolution of genes and proteins; properties of mitochondrial DNA, chloroplast DNA, ribosomal RNA genes, protein-coding genes, and repetitive DNAs; laboratory methods for data collection; and data analysis. Prerequisite: BIOL 350, BIOL 550 or equivalent is recommended. LEC.

Biol 612. Fundamentals of Microbiology. 3 Hours. NB / N.
Lectures. Fundamental principles of microbiology with emphasis in physical and chemical properties of the bacterial cell; microbial metabolism, cultivation, growth and death of bacteria; microbial genetics; pathogenesis and immunity, industrially important microorganisms. Meets with BIOL 400, but students will be given additional and more advanced assignments, and will carry higher expectations. Prerequisite: BIOL 150 or BIOL 151 and two semesters of college chemistry, or consent of instructor. LEC.

Biol 613. Biology of Honeybees. 3 Hours. N.
Social organization, evolution, behavior, morphology, communication, pollination biology, and ecology of honeybees. Experience will be gained with colony dynamics and behavior while working with bees in the field. Prerequisite: BIOL 152, BIOL 153, or consent of instructor. LEC.

Biol 616. Medical Entomology. 3 Hours. N.
A study of the major human diseases transmitted by arthropods with emphasis on the biology and ecology of vectors, vector feeding mechanisms as related to disease transmission, epidemiology of arthropod-borne diseases, and the impact of arthropod-borne diseases on humans. Laboratory work on recognition of vector species, information sources, and use of taxonomic keys. Prerequisite: BIOL 152 or BIOL 153 and a course in microbiology or consent of instructor. LEC.

Biol 622. Paleontology. 3 Hours. N.
A study of the structure and evolution of ancient life; the nature and diversity of life through time; the interactions of ancient organisms with their environments and the information that the study of fossils provides about ancient environments; the use of fossils to determine the ages of rocks and the timing of past events in earth history; and the patterns of extinction through time. (Same as GEOL 521.) Prerequisite: BIOL 100, BIOL 101, BIOL 152, BIOL 153, GEOL 105, or GEOL 304. LEC.

Biol 623. Paleontology Laboratory. 1 Hour. U.
Laboratory course in the study of fossils with emphasis on the practice of paleontology and the morphology of ancient organisms. (Same as GEOL 523.) LAB.

Biol 625. Behavioral Ecology and Sociobiology. 3 Hours. N.
The role of natural selection in animal behavior, and the influence of behavior on population biology and social dynamics of animal species. Topics include: game theory and optimization as applied to animal behavior; altruism, cooperation and competition; kin recognition and interactions; group formation and dynamics, dominance, aggression, and territoriality; feeding strategies; reproductive behavior including mate choice, parental care, and mating systems. Prerequisite: BIOL 152; either BIOL 350, BIOL 412 or BIOL 414 recommended; or consent of instructor. LEC.

Biol 630. Conservation and Wildlife Biology. 3 Hours. N.
Examination of the concepts and processes involved in conservation of plant and animal populations and communities. Topics to be covered include conservation of endangered species, problems with invasions of exotic species and habitat fragmentation, wildlife management, and design of nature reserves. Prerequisite: BIOL 414, BIOL 412 strongly recommended. LEC.

Biol 636. Biochemistry I. 3 Hours. N.
First semester of a two-semester lecture course in introductory biochemistry. Emphasis upon the physical structure of macromolecules and membranes, enzyme structure/function, and enzyme kinetics. Prerequisite: CHEM 335 or consent of instructor. LEC.

Biol 637. Introductory Biochemistry Laboratory. 2 Hours. U.
The laboratory portion of BIOL 600 or 636. Experiments have been selected to introduce the student to cell constituents and biochemical reactions. One four-hour laboratory and one-hour lecture each week. Prerequisite: BIOL 600 or BIOL 636, or concurrent enrollment. LAB.

Biol 638. Biochemistry II. 3 Hours. N.
Second semester of a two-semester lecture course in introductory biochemistry. Emphasis upon the metabolism of carbohydrates, lipids, amino acids, proteins, and nucleic acids. Prerequisite: BIOL 636. LEC.

Biol 639. Advanced Biochemistry Laboratory. 2 Hours. U.
The laboratory portion of BIOL 638. One four-hour laboratory and a one-hour lecture each week. Experiments have been selected to familiarize students with experimental biochemical techniques using state-of-the-art methodology. Prerequisite: BIOL 637 and 638 (BIOL 638 may be taken concurrently). LAB.

Biol 640. The Biology and Evolution of Fossil Plants. 3 Hours. N.
A lecture course in which fossil plants, protists and fungi are examined throughout geologic time. Emphasis will be directed at paleoecology, biogeography and the stratigraphic distribution and composition of ancient floras. (Same as GEOL 528.) Prerequisite: BIOL 413 or permission of instructor. LEC.

Biol 641. Laboratory in Paleobotany. 1 Hour. U.
An examination of selected fossil plants throughout geological time and the techniques used to study them; laboratory will include identification and the use of plant fossils in biostratigraphy. (Same as GEOL 529.) Prerequisite: BIOL 413 or permission of instructor. Must be taken concurrently with BIOL 640. LAB.

Biol 644. Comparative Animal Physiology. 3 Hours. N.
Lecture and discussion of the basic mechanism of organic maintenance and integration; a comparative treatment of the uniformities and
diversity of animal function; emphasis on environmental adaptations and evolutionary relationships. Prerequisite: BIOL 408, five hours of organic chemistry, and one year of college physics, or consent of instructor. LEC.

BIOL 646. Mammalian Physiology. 4 Hours. N.
Lectures and demonstrations. An intermediate course in the functions, mechanisms and interactions of mammalian organ systems. Discussions span topics from molecular to whole animal functions. Required for pharmacy students and strongly recommended for students planning advanced work in any area of physiology. The student is assumed to have the knowledge and ability to utilize their math and science background. Prerequisite: Five hours of organic chemistry, a course of college physics. LEC.

BIOL 647. Mammalian Physiology Laboratory. 2 Hours. U.
Laboratory experiments in representative areas of mammalian physiology designed to complement BIOL 646. Not open to students with credit in BIOL 247. Prerequisite or Co-requisite: BIOL 646. LAB.

BIOL 648. Systematics and Macreovement. 3 Hours. N.
An introduction to the theory of macroevolution and the fundamental principles of systematics. Intended for students planning to pursue advanced studies in organismal biology, evolution, and/or systematics. Topics in macroevolution will include hierarchy theory, species concepts, speciation and species selection. Methods of phylogenetic estimation will be discussed and include parsimony, Maximum likelihood and Bayesain inference. Evolutionary studies utilizing phylogenies including tests of homology, studies of character evolution, and biogeography will be discussed. An overview of classification and nomenclature will also be provided. Prerequisite: BIOL 412 or equivalent. LEC.

BIOL 650. Advanced Neurobiology. 3 Hours. N.
The course builds an in depth knowledge about basic mechanisms of synaptic communication among nerve cells and their targets, and the structure and function of nervous systems. Topics include nervous system development and synapse formation, structure and function of neurons, physiological and molecular basis of synaptic communication between neurons, mechanisms of synaptic plasticity involved in learning and memory, sensory systems (vision, auditory, vestibular, motor reflexes and pain), processing of neural information at cellular and system levels, synapse regeneration and diseases of the nervous system. Prerequisite: BIOL 435 (Introduction to Neurobiology), or consent of instructor. LEC.

BIOL 652. Comparative Animal Behavior. 3 Hours. N.
A comparative analysis of behavior as an adaptive mechanism; emphasis on ontogenetic and evolutionary aspects of behavior. Prerequisite: BIOL 152 or BIOL 153, and PSYC 104, or consent of instructor. LEC.

BIOL 654. Comparative Animal Behavior, Laboratory. 1 Hour. U.
Laboratory and field phase of BIOL 652. Students may elect sections according to their special interests. Prerequisite: Prior or concurrent enrollment in BIOL 652. LAB.

BIOL 655. Behavioral Genetics. 3 Hours. N.
A survey of behavioral genetics in animals and humans. Emphasis is on how the methods and theories of quantitative, population and molecular genetics can be applied to individual and group differences in animals. Behaviors covered may include circadian rhythms, foraging, courtship, learning and memory, anxiety, social structures and human behaviors. Prerequisite: BIOL 350 or consent of instructor. LEC.

BIOL 656. Ecosystem Ecology. 3 Hours. N.
An introduction to the patterns and processes that affect terrestrial ecosystems. Emphasis is placed on understanding nutrient cycles (e.g., carbon nitrogen phosphorous), hydrologic cycles, and patterns of net primary productivity. The role of both natural and anthropogenic disturbances in structuring terrestrial ecosystems is examined in the context of global land-use patterns. Discussion of current research literature will be expected. (Same as EVRN 656.) Prerequisite: BIOL 414 and CHEM 130. LEC.

BIOL 661. Ecology of Rivers and Lakes. 3 Hours. N.
Study of the ecology and structure of creeks, rivers, ponds, lakes, and wetlands as well as some of the major human impacts. Prerequisite: One year of biology or permission of the instructor. BIOL 414 recommended. LEC.

BIOL 662. Aquatic Ecology Laboratory. 2 Hours. U.
A field and laboratory course introducing biological, physical, and chemical characteristics of lentic (ponds and lakes) and lotic (creeks and rivers) habitats. Students learn sampling and monitoring techniques and how to classify aquatic biota at higher taxonomic levels. Co- or prerequisite: CHEM 130 or CHEM 190 or CHEM 170, and BIOL 661. LAB.

BIOL 664. Vertebrate Biology. 3 Hours. N.
A laboratory course emphasizing principles of systematics and identification and the behavioral ecology of local vertebrate animals. Prerequisite: BIOL 152, BIOL 153 or consent of instructor. LAB.

BIOL 666. Evolutionary Ecology. 3 Hours. N.
Emphasis will be on the themes that interface ecology and evolutionary studies. Topics will include selection theory; reproductive, foraging, and sex allocation problems; coevolution; patterns or morphological and behavioral adaptations; competition, predation, and population regulation. Special attention will be given to the philosophy and practice of resolving unanswered questions in evolutionary ecology. Prerequisite: BIOL 412 or permission of instructor. LEC.

BIOL 669. Biology of Freshwater Invertebrates. 3 Hours. N.
A lecture, field, and laboratory course examining the classification, biological characteristics, and ecology of invertebrates in lotic and lentic habitats. Major groups of benthic and planktonic invertebrates will be studied, including aquatic insects, crustaceans, molluscs, and others. Prerequisite: BIOL 540, BIOL 660, BIOL 661, or BIOL 663, or permission of instructor. LEC.

BIOL 672. Gene Expression. 3 Hours. N.
A study of the structure and expression of genes in prokaryotes and eukaryotes. Emphasis on the mechanisms of DNA, RNA, and protein biosynthesis. Prerequisite: A course in biochemistry or consent of instructor. LEC.

BIOL 673. Cellular and Molecular Neurobiology. 3 Hours.
Mechanisms of neural function and development will be considered at the cellular and molecular levels. Synaptic mechanisms of learning and memory, modulation of transmitter release, and the molecular basis of neurodegenerative disorders will also be discussed. Prerequisite: BIOL 435, BIOL 646, or permission of instructor. LEC.

BIOL 676. Mammalian Neuroanatomy. 3 Hours. N.
Lectures, video tape demonstrations, and laboratory dissection of mammalian nervous system with some attention to human material. Major emphasis on nervous system structure as it relates to function. For neurobiology and pre-health science majors. Prerequisite or Corequisite:
A course in neurobiology (BIOL 435, BIOL 650), or permission of the instructor. LAB.

BIOL 688. The Molecular Biology of Cancer. 3 Hours. N.
The basic concepts of molecular biology are examined and used to probe the process by which a normal cell becomes a cancer cell. The course investigates DNA damage and repair, chemical carcinogenesis, gene cloning and manipulation, the control of gene expression in eukaryotes, tumor viruses, the roles of oncogenes and tumor suppressor genes in carcinogenesis, and cancer therapy. Prerequisite: BIOL 350 and BIOL 416; or BIOL 536; or consent of instructor. LEC.

BIOL 694. The Art of Becoming a Professional Scientist. 3 Hours. N.
Discusses aspects of graduate education that are directed at students entering graduate school and that focus on how to be successful in the post PhD phases of a career, but that must be initiated early in the graduate student program of study. One three hour discussion per week. Senior standing and planning on entering graduate school. LEC.

BIOL 695. Animal Communication and Sensory Ecology. 3 Hours. N.
Lectures and discussion sessions. A study of the propagation and perception of olfactory, acoustic, and visual signals produced by animals in the context of communication. Both physiological and evolutionary perspectives will be treated. Prerequisite: A course in behavior or consent of instructor. LEC.

BIOL 699. Biology Honors Research Colloquium. 1 Hour. AE61 / U.
Students pursuing Honors in Biology will meet weekly to discuss, both formally and informally, their honors research. Background information and experimental approaches of the research will be examined and critiqued. Prerequisite: Enrollment in Biology Honors program and consent of instructor. LEC.

BIOL 700. Conservation Principles and Practices. 3 Hours.
This course will acquaint the future museum professional with problems in conserving all types of collections. Philosophical and ethical approaches will be discussed, as well as the changing practices regarding conservation techniques. Emphasis will be placed on detection and identification of causes of deterioration in objects made of organic and inorganic materials, and how these problems can be remedied. Storage and care of objects will also be considered. (Same as AMS 714, GEOL 780, HIST 722 and MUSE 706.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

BIOL 701. Topics in: _______. 1-3 Hours.
Advanced courses on special topics in biology, given as need arises. Lectures, discussions, readings, laboratory, or field work. Students may select sections according to their special interests. LEC.

BIOL 702. Laboratory Practice: Radiation Safety Procedures. 0.75 Hours.
An introduction to the basic properties of radioisotopes, and the fundamental safety practices needed for the safe use of low levels of radioactive materials. Risks associated with radiation exposures and applicable state and federal regulations are discussed. (Normally the content of the first ten hours of BIOL 703.) Prerequisite: Senior standing in one of the sciences. LAB.

BIOL 703. Radioisotopes and Radiation Safety in Research. 1.25 Hour.
An introduction to the properties of radioactive materials, radiations, and their interaction with matter, methods of radiation detection and measurement, protective measures, applicable state and federal regulations, design and implementation of safety management systems in the research laboratory, design of tracer experiments, and the risks associated with radiation exposure. Prerequisite: BIOL 702 or concurrent enrollment in BIOL 702, algebra and two semesters of either physics or chemistry. LEC.

BIOL 704. Research Animal Methods. 3 Hours.
Lectures, discussions, and laboratory sessions. Selection of proper animal models for specific research studies. Various external influences that alter research data. Routine techniques including restraint, sample collection, injection, anesthesia and euthanasia. Prevention and handling of common research animal problems or diseases. Proper and humane animal care as defined by the Federal Animal Welfare Act. Prerequisite: Senior or graduate standing in one of the biological sciences or permission of instructor. LEC.

BIOL 706. Current Trends in Curation and Collection Management. 2 Hours.
Seminar course to provide students with a working knowledge of the primary issues and current trends in building, administration, and care of scientific collections. Topics include permits, collecting, accessioning, cataloging, preservation, preventive conservation, and access to collections and data. The course format consists of readings, lectures, guest speakers, discussions, and visits to scientific collections on campus. (Same as MUSE 710.) LEC.

BIOL 708. External Morphology of Insects. 4 Hours.
A study of external structure common to all insect orders, with detailed comparative laboratory studies of representative species. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 500, BIOL 502 or equivalent, or permission of instructor. LEC.

BIOL 709. Immature Insects. 3 Hours.
The classification, structure, and ecological distribution of immature insects, especially larvae of Holometabola. Includes both lectures and laboratories. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 502 or consent of instructor. LEC.

BIOL 710. Insect Development. 3 Hours.
A study of the embryonic and postembryonic development of insects. Emphasis is placed on developmental physiology of the early embryonic stages, the morphogenesis of organ systems, and the action of hormones in postembryonic development. Laboratory includes demonstrations and histological and experimental work. Prerequisite: Consent of instructor or BIOL 500. LEC.

BIOL 711. Insect Systematics. 4 Hours. N.
A study of the diversity of insects, including the classification of all living and fossil orders and the more common families primarily on the basis of external morphology. The biology, ecology, phylogeny, and geological history of each order will be covered. Includes both lectures and laboratory exercises. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 500 and BIOL 502 or equivalent, or permission of instructor. LEC.

BIOL 712. Evolutionary Biology - Graduate. 3 Hours.
A thorough survey of evolutionary biology. Topics include: the history of evolutionary thought, genetics and the nature of variation, adaptation, speciation, coevolution, macroevolution, the comparative method, and the history of life. Prerequisite: BIOL 350 or equivalent or consent of instructor. LEC.

BIOL 714. Community and Ecosystem Ecology. 3 Hours.
Study of factors determining distribution of organisms, community structures, energy flow in ecosystems, and functional analysis of ecosystems. Discussion periods will include reading from current scientific literature. Prerequisite: Intended for graduate students in biology who did
not have an undergraduate course in community ecology. Consent of instructor. LEC.

**BIOL 716. Insect Physiology and Internal Morphology. 3 Hours.**
Mechanisms and integration of the internal life-supporting systems of insects, emphasizing the interdependence of structure and function. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 408 and BIOL 500, or permission of instructor. LEC.

**BIOL 717. Insect Ecology and Behavior. 3 Hours.**
Lectures and laboratory demonstrations. A study of insect population dynamics, life history strategies, co-evolutionary interactions, foraging, and reproductive and social behaviors. Approaches from basic population biology and behavioral ecology are emphasized. Prerequisite: A course in ecology or behavior, or consent of instructor. LEC.

**BIOL 718. Laboratory in Molecular Biology. 3 Hours.**
Practical experience in recombinant DNA technology and molecular cloning. Given concurrent with BIOL 418. Prerequisite: BIOL 416 or course in biochemistry or microbiology. Training in radiation safety preferred. LAB.

**BIOL 719. Light and Electron Microscopy. 3 Hours.**
A lecture and laboratory class emphasizing the theoretical and practical use of light microscopes and scanning and transmission electron microscopes. A variety of approaches using light microscopy will be employed, including brightfield, phase, fluorescence, DIC, polarization, and darkfield optics. A variety of techniques will be used to prepare specimens and view them using scanning and transmission electron microscopy. Video and computer-aided analysis of images as well as conventional photographic techniques will be included. Prerequisite: Permission of instructor. LEC.

**BIOL 720. Scientific Illustration. 3 Hours.**
Lectures, demonstrations, and studio participation. Instruction in the preparation of illustrations for scientific publications, theses, and oral and poster presentations. Emphasis on basic drafting and layout skills, and pen and ink and tone renderings intended for publication. Attention given to preparation of photographs for publication and oral presentations. Instruction provided in use of specialized optical equipment for drawing. Prerequisite: Upper division or graduate standing and permission of instructor. LEC.

**BIOL 721. Microbial Genetics. 3 Hours.**
Bacteria and viruses as models of genetic systems. Mutagenesis and repair. Transformation, transductions, and recombination. Molecular biology of gene expression. This course is the graduate-level section of BIOL 518 and MCRB 510. Graduate students will be assigned additional and more advanced studies. Prerequisite: An introductory microbiology course or permission of instructor. LEC.

**BIOL 725. Aquatic Entomology. 4 Hours.**
Identification of aquatic insects and detailed study of their community structure and dynamics. The external morphology of all aquatic orders will be covered, followed by consideration of specific physiological and behavioral adaptations that facilitate an aquatic existence. Includes both lectures and laboratory exercises. Requirements include making a collection of aquatic insects. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. Prerequisite: BIOL 414 or BIOL 500 or permission of instructor. LEC.

**BIOL 742. Plant Population Biology. 3 Hours.**
A survey of the major areas of plant population ecology and genetics including competition, demography, pollination ecology, gene flow, natural selection and mating systems. Each topic is introduced by a lecture and is further explored by discussion of the current literature. Prerequisite: BIOL 412 or equivalent. LEC.

**BIOL 743. Population Genetics. 3 Hours.**
Description and discussion of genetic variation in natural populations. The effects and interaction of selection, migration, mutation, mating systems, and finite population size on the maintenance of genetic variation. Discussion of the interface with evolution and population ecology. Prerequisite: BIOL 404 and BIOL 412 or equivalent. LEC.

**BIOL 745. Laboratory in Experimental Ecology. 3 Hours.**
A series of seven laboratory modules emphasizing quantitative methods and experimental analysis. Each module requires data collection analysis, and written interpretation. Modern instrumentation, including use of microcomputers, is emphasized. Topics include ecological modeling, ecological genetics, physiological ecology, community structure, mating and reproduction and precipitation and soil chemistry. Prerequisite: BIOL 412 or BIOL 414. LAB.

**BIOL 746. Principles of Systematics. 4 Hours.**
Lectures: historical and philosophical foundations of modern systematics; theory and practice of classifications; character analysis; phylogeny reconstruction; formulation and testing of systematic hypotheses; species concepts and speciation; the interface between systematics and evolutionary theory, particularly the origins of asymmetric diversity patterns, macroevolution, adaptation, coevolution, and the evolution of higher taxa; roles of paleontological, ontogenetic, biochemical, and molecular data in systematics; and biogeography. Laboratory work: practical applications of nomenclature, development of keys, descriptions and systematic revisions, character analysis, phylogeny reconstruction, hypothesis testing, interpretation of biogeographic patterns. (Three hours lecture and two hours laboratory per week.) Prerequisite: BIOL 628 or equivalent. Intended for graduate students planning to specialize in systematics. LEC.

**BIOL 747. Quantitative Genetics. 3 Hours.**
A discussion of genetic traits for which individual gene differences do not separate a population into qualitatively distinct groups. Includes the estimation of heritability, genetic determination, and number of loci, and a study of selection theory. Prerequisite: BIOL 404 or BIOL 412 or equivalent and a course in statistics. LEC.

**BIOL 749. Topics in Stable Isotopes in the Natural Sciences:. 2-3 Hours.**
Isotopic compositions of substances provide powerful insights into many topics in the natural sciences. Applications of isotopic analyses of carbon, hydrogen, oxygen, and nitrogen to selected research topics such as plant resource use, food web analysis, paleoecology, paleo diet reconstruction, hydrology, and soils genesis will be examined. Knowledge of isotope chemistry is not required. (Concepts necessary to understand pertinent articles will be taught during the first class meetings.) May be repeated. (Same as GEOG 749.) LEC.

**BIOL 750. Advanced Biochemistry. 3 Hours.**
The structures and dynamics of proteins and nucleic acids will be developed in terms of well-understood examples which will also be used to discuss the function of major classes of proteins. The application of structural and dynamical principles to biological membranes and their function will also be discussed. Prerequisite: BIOL 807 and BIOL 808, a general biochemistry course, or permission of instructor. LEC.

**BIOL 751. Plant Communities of North America. 3 Hours.**
Physiognomic and floristic analysis of the vegetation, with emphasis on the Southwest; distribution of communities in relation to climate, substratum, and disturbance; recognition of dominant elements
of vegetation through study of specimens and illustrative material. Prerequisite: BIOL 602. LEC.

BIOL 752. Cell Biology. 3 Hours.
A lecture course emphasizing biochemical, developmental, and molecular aspects of cell structure and function. Prerequisite: BIOL 807 and BIOL 808, or BIOL 416 or BIOL 536, or permission of instructor. LEC.

BIOL 753. Advanced Genetics. 3 Hours.
An advanced course in modern genetic analysis of eukaryotes. Course material will consist mainly of primary literature in the field of genetics. Topics covered include: genomic structure and genome projects; nature of mutations; mutant analysis; genetic recombination and mapping; analysis of gene function; genetic buffering; RNAi and epigenetics; and the genetics of model organisms. This course is meant for graduate students in the Molecular Biosciences and Genetics programs. Prerequisite: BIOL 807 and BIOL 808, or a course in genetics and a course in biochemistry, or permission of the instructor. LEC.

BIOL 754. Brain Diseases and Neurological Disorders. 3 Hours.
Major brain diseases and neurological disorders such as stroke, Alzheimer's Disease, Parkinson's Disease, Huntington's Disease, Multiple Sclerosis, Epilepsy, Schizophrenia, etc., will be discussed in terms of the etiology, molecular, and cellular basis of potential therapeutic interventions. Graduate students are required to present original research paper assigned by the instructor to the class in addition to the other assignments for all the students enrolled. Prerequisite: BIOL 150, or consent of instructor. LEC.

BIOL 755. Mechanisms of Development. 3 Hours.
Molecular aspects of differential gene function, signal transduction, and cell polarity in the regulation of morphogenesis. Prerequisite: BIOL 807 and BIOL 808 for graduate students; BIOL 417 or equivalent for undergraduate students; or permission of instructor. LEC.

BIOL 756. Cell and Tissue Culture Laboratory. 3 Hours.
An introduction to current laboratory methods of cell and tissue culture, intended to provide an understanding of and substantial experience in several aspects of animal cell growth, cell synchrony, cell nutrition, the production and selection of mutant cell lines, the production and use of heterokaryons and interspecific hybrids, cell transformation in vitro, the cultivation and characterization of differentiated cells in culture, enzyme induction, and cell karyotyping. LAB.

BIOL 757. Carcinogenesis and Cancer Biology. 3 Hours.
This course surveys the field of cancer research. The major goal is to introduce the breadth of cancer research while, at the same time, providing sufficient depth to allow the student to recognize problems in cancer and to design experiments which study cancer biology. Toward that end, the student should (at the conclusion of the course) be able to: define cancer, identify and discuss its causes; identify and discuss the genetic basis for cancer development and progression; discuss the theoretical basis for cancer therapy design and efficacy testing; discuss the biochemical, molecular and cellular events involved in the natural history of major human neoplasms. Prerequisite: Permission of instructor. LEC.

BIOL 767. The Vegetation of the Earth. 3 Hours.
A discussion of the world's vegetation in its natural condition and as affected by man. Included are aspects of its economic and cultural usefulness and the problem of its preservation. Prerequisite: BIOL 634. LEC.

BIOL 768. Plant Molecular Biology. 3 Hours.
Gene expression in chloroplasts, mitochondria, and plant nuclei, and regulatory interactions among these genomes. Special topics include the molecular biology of the photosynthetic apparatus, nitrogen fixation, stress and development, viruses and viroids, transposable genetic elements and gene evolution, and gene transfer and plant genetic engineering. Prerequisite: A course in biochemistry, cell or molecular biology, or permission of instructor. LEC.

BIOL 770. Plant Biochemistry. 3 Hours.
A detailed study of plant biochemistry with emphasis on metabolic and regulatory processes particularly characteristic or unique in plants. Prerequisite: BIOL 600 or equivalent. LEC.

BIOL 772. Gene Expression. 3 Hours.
A study of the structure and expression of genes in prokaryotes and eukaryotes. Emphasis on the mechanisms of DNA, RNA, and protein biosynthesis. This course meets concurrently with BIOL 672 and is open to graduate students seeking a more rigorous treatment of techniques in molecular biology that students receive in BIOL 672. Prerequisite: A course in biochemistry or consent of instructor. LEC.

BIOL 775. Chemistry of the Nervous System. 3 Hours.
A detailed study of the molecular aspects of nerve transmission will be covered with special emphasis on the uptake, storage, release, biosynthesis and metabolism of specific neurotransmitters. Drugs affecting these processes and current research on receptor isolation and receptor mechanisms will be discussed from a chemical viewpoint. (Same as CHEM 775, MDCM 775, NURO 775, PTX 775, and PHCH 775.) Prerequisite: BIOL 600 or equivalent or consent of instructor. LEC.

BIOL 777. Integrative and Developmental Neurobiology. 3 Hours.
Cellular processing of neural information both at the local level and in long distance integration. Local computing functions, and integration of these functions among the various areas to produce coherent movement and perceptions will be discussed. A description of forces guiding the development of the nervous system to form a coherent working system in both invertebrate and vertebrate animals will be presented, as will determinants of brain sexual dimorphism. Prerequisite: An upper level course in physiology or BIOL 520. LEC.

BIOL 780. Fisheries. 2 Hours.
Philosophy and practice of conservation as it applies to major world fisheries. Species principally utilized, factors affecting production, methods for appraisal and management of stocks. Historical and prospective roles of the fisheries in relation to human food supplies and recreational needs. Prerequisite: BIOL 412. LEC.

BIOL 781. Fisheries, Laboratory. 2 Hours.
Training in field and laboratory techniques for fishery research and management. Prerequisite: Concurrent or prior enrollment in BIOL 780. LAB.

BIOL 782. Principles of Biogeography. 3 Hours.
A synthesis of historical and ecological biogeography of plants and animals, treating vicariance, dispersal, and community patterns; lectures, readings, discussions. A course in systematics and a course in ecology are recommended. LEC.

BIOL 783. Herpetology. 3 Hours. N.
A study of amphibians and reptiles. This lecture course will explore the taxonomic diversity of amphibians and reptiles, and current areas of active research in herpetology. Topics will be considered within a phylogenetic framework, and include discussion on systematics, biogeography, tetrapod origins, skeletal systems, growth, circulatory system, locomotion, thermal and water regulation, hibernation, ecology, sexual behavior, parental care, and mimicry. Students taking the course at the 700 level will have additional work required of them. Prerequisite: BIOL 152 Principles of Organismal Biology, and/or BIOL 413 History and Diversity of Organisms. LEC.
BIOL 784. Introduction to Museum Public Education. 3 Hours.
Consideration of the goals of an institution's public education services, developing programs, identifying potential audiences, developing audiences, and funding. Workshops and demonstrations are designed for students to gain practical experience working with various programs and developing model programs. (Same as AMS 797, GEOL 784, HIST 721, and MUSE 705.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

BIOL 785. Museum Management. 3 Hours.
Lecture, discussion, and laboratory exercises on the nature of museums as organizations; accounting, budget cycles, personnel management, and related topics will be presented using, as appropriate, case studies and a simulated museum organization model. (Same as AMS 731, GEOL 783, HIST 728, and MUSE 701.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

BIOL 786. Fundamentals of Tropical Biology. 1-8 Hours.
The tropical environment and biota; ecologic relations, communities and evolution in the tropics. Primarily a field course, taught in Costa Rica; two sessions per year, February-March, July-August. FLD.

BIOL 787. Introduction to Museum Exhibits. 3 Hours.
This course will consider the role of exhibits as an integrated part of museum collection management, research, and public service. Lecture and discussion will focus on issues involved in planning and producing museum exhibits. Laboratory exercises will provide first hand experience with basic preparation techniques. Emphasis will be placed on the management of an exhibit program in both large and small museums in the major disciplines. (Same as AMS 700, GEOL 781, HIST 723, and MUSE 703.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

BIOL 788. The Nature of Museums. 3 Hours.
The purpose of this course is to provide an overview of the kinds of museums, their various missions, and their characteristics and potentials as research, education, and public service institutions responsible for collections of natural and cultural objects. (Same as AMS 720, GEOL 782, HIST 720, and MUSE 702.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

BIOL 789. Field Course in Entomology. 1-6 Hours.
Field experiences in various habitats, with an emphasis in ecology, systematics, behavior, and collection techniques. FLD.

BIOL 790. Paleontology of Lower Vertebrates. 3 Hours.
General account of the osteology, geological distribution, and evolution of the principal groups of fishes, amphibians, reptiles, and birds. Lectures and laboratory. (Same as GEOL 725.) LEC.

BIOL 791. Paleontology of Higher Vertebrates. 3 Hours.
Evolution of mammals, and anatomical modifications involved in the process as ascertained from the fossil record. Lectures and laboratory. (Same as GEOL 726.) LEC.

BIOL 792. Ichthyology. 4 Hours.
A study of fishes. Lecture topics include the structure and function of fishes; the adaptations of fishes to the aquatic environment; and a survey of major fish groups with emphasis on evolutionary relationships and biogeography. Laboratory topics include a survey of fishes using specimens, and the use of keys to identify fishes with emphasis on the Kansas fish fauna. A research paper using primary scientific literature is required. Prerequisite: Graduate standing or permission of the instructor. LEC.

BIOL 794. Mammalogy. 3 Hours.
A study of mammals, with emphasis on systematics, biogeography, and natural history. Lectures, laboratory, and field study. Prerequisite: BIOL 100 or BIOL 413. LEC.

BIOL 795. Biology of Amphibians. 3 Hours.
Evolutionary biology of amphibians with emphasis on systematics, morphology, development, reproductive strategies, and distribution; lectures and laboratory. Prerequisite: BIOL 664 or permission of instructor. LEC.

BIOL 796. Biology of Reptiles. 3 Hours.
Evolutionary biology of reptiles with emphasis on systematics, morphology, reproductive strategies, and distribution; lectures and laboratory. Prerequisite: BIOL 664 or permission of instructor. LEC.

BIOL 797. Field Course in Vertebrate Paleontology. 3-6 Hours.
Training in the techniques of collecting vertebrate fossils, description and interpretation of the stratigraphy of fossiliferous sediments, and interpretation of the adequacy and bias of samples. FLD.

BIOL 798. Principles and Practices of Museum Collection Management. 3 Hours.
Lecture, discussion, and laboratory exercises on the nature of museum collections, their associated data, and their use in scholarly research; cataloging, storage, fumigation, automated information management and related topics will be presented for museums of art, history, natural history and anthropology. (Same as AMS 730, GEOL 785, HIST 725, and MUSE 704.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

BIOL 799. Natural History Museum Apprenticeship. 1-6 Hours.
Provides directed, practical experience in collection care and management, public education, exhibits and administration with emphases to suit the particular requirements of each student. Full time for one semester or half time for two semesters. (Same as AMS 799, ANTH 799, GEOL 723, HIST 799, and MUSE 799.) FLD.

BIOL 801. Topics in: ____. 1-3 Hours.
Advanced courses on special topics in biology, given as need arises. Lectures, discussing readings, laboratory or field work. Students may select sections according to their special interests. LEC.

BIOL 802. The Art of Becoming a Professional Scientist. 3 Hours.
Discusses aspects of graduate education that are directed at the post PhD phases of a career, but that must be initiated early in the graduate student program of study. One 3-hour discussion per week. LEC.

BIOL 804. Scientific Integrity: Molecular Biosciences. 1 Hour.
This course introduces aspects and issues associated with being an ethical, responsible, and professional research scientist. Included topics are professional practices, regulations, and rules that define the responsible and ethical conduct of research. Graduate students will become familiar with and prepare to navigate through challenges that occur during a career in research science. The format of individual classes is expected to incorporate both instruction and discussion. Prerequisite: Admission to the graduate program in Molecular Biosciences, or consent of instructor. LEC.

BIOL 806. Major Patterns in Insect Evolution. 3 Hours.
Extensive reading and discussion of the primary literature on topics relating to major patterns in the evolutionary history of insects, including the fossil history of insects, the monophyly of arthropods, the origin of wings, the changing role of insects in ecological communities, the origins of social behavior, modes and mechanisms of speciation, and patterns of species diversity. Assigned readings require a solid background in evolutionary theory and insect biology, especially morphology,
BIOL 807. Graduate Molecular Biosciences. 6 Hours.
An introduction to the advanced study of biochemistry, microbiology, genetics, cell and developmental biology, and neurobiology for all Molecular Biosciences graduate students. Topics can include macromolecular structure, metabolism, kinetics and thermodynamics, bioinformatics, prokaryotic and eukaryotic genetic mechanisms, cell structure and function, signal transduction, basic and pathogenic bacteriology, immunology, virology, membrane potentials, synaptic transmission, and sensory neurophysiology. Prerequisite: Admission to the graduate program in Molecular Biosciences, or consent of instructor. LEC.

BIOL 809. Graduate Molecular Biosciences for Medicinal Chemists. 4 Hours.
An introduction to the advanced study of biochemistry, microbiology, and neurobiology for graduate students in Medicinal Chemistry. Prerequisite: Admission to the graduate program in Medicinal Chemistry. Consent of instructor. LEC.

BIOL 810. Seminar in Biochemistry. 1 Hour.
Presentation and discussion of specific areas of recent research in biochemistry. This course may be taken more than once. LEC.

BIOL 811. Advanced Molecular and Cellular Immunology. 2 Hours.
Covers recent advances in immunochemistry and immunobiology. Topics include structure and function of antibodies, hybridoma systems, idiotypes, induction and regulation of the immune response through cell interactions and cytokine action, and the role of immune activity in disease states such as hypersensitivity, autoimmunity, and cancer. Prerequisite: BIOL 807 and BIOL 808, or an introductory course in immunology, or consent of instructor. LEC.

BIOL 812. Mechanisms of Host-Parasite Relationships. 2 Hours.
Emphasis is on virulence factors of microorganisms and the host response to infection. Topics will include pathogenesis of intracellular and extracellular parasites, bacterial adhesins, and toxins, and the role of innate and acquired immunity in host resistance and the response to infection. Prerequisite: BIOL 807 and BIOL 808, or a course in biochemistry, or consent of instructor. LEC.

BIOL 813. Advanced Bacterial Physiology. 2 Hours.
The intermediary reactions catalyzed by the bacterial cell during energy-requiring processes. Thermodynamic considerations of these processes are discussed. Knowledge of calculus is recommended. Prerequisite: BIOL 807 and BIOL 808, or a course in microbiology and a course in biochemistry, or consent of instructor. LEC.

BIOL 814. Advanced Molecular Virology. 2 Hours.
The course concentrates on evaluation of current literature concerning all aspects of molecular biology, biochemical characterization, and pathogenic mechanisms involved in host-virus interactions. Students will be expected to present articles and participate in discussions. Prerequisite: BIOL 807 and BIOL 808, or a course in microbial genetics and a course in virology, or consent of instructor. LEC.

BIOL 815. Advanced Molecular Genetics. 2 Hours.
A literature-based course that covers recent advances in microbial molecular genetics. Topics include transcription, translation, mutagenesis and repair, genetic exchange mechanisms, and regulation of gene expression. Prerequisite: BIOL 807 and BIOL 808, or a course in microbial genetics, or consent of instructor. LEC.

BIOL 818. Techniques in Molecular Biosciences. 2 Hours.
This course provides an introduction to common techniques used for research strategies in molecular biosciences. The course will cover common techniques in cell biology, biochemistry, microbiology, and neurobiology. Information will be presented in lectures and through practical demonstrations. This course is primarily intended for first year graduate students in the Department of Molecular Biosciences. Prerequisite: Enrollment in the Molecular Biosciences Graduate Program or consent of instructor. LAB.

BIOL 840. Scientific Communication. 2 Hours. N.
Principles of English communication skills for the professional scientist. The course explores the form, function, and practice (including ethics) of scientific communication, emphasizing elements of writing and speech that are important to clarity and precision. The course covers written and verbal communication of primary research results as well as composing correspondence, a curriculum vitae, reviews, etc. Prerequisite: Graduate standing. LEC.

BIOL 841. Biometry I. 5 Hours.
The application of statistical methods to data from various fields of biological research. Special emphasis is placed on practical computational procedures. Prerequisite: College algebra. LEC.

BIOL 842. Biometry II. 3 Hours.
This course is primarily devoted to special advanced topics in analysis of variance, analysis of covariance and regression analysis. Polynomial regression and multiple linear regression will be presented as will the general linear model. Elementary matrix algebra will be developed as needed. Prerequisite: BIOL 841. LEC.

BIOL 847. Phylogenetics. 3 Hours.
An introduction to the theory and practice of phylogenetic systematics. Includes principles of character analysis including determination of homology and determination of character polarity, testing alternate phylogenetic trees, and reconstructing trees using computer techniques. Also includes principles of constructing phylogenetic classifications and the nature of taxa in the phylogenetic system. Other topics, such as the nature of species and principles of biogeography are included. Prerequisite: Twenty hours natural history. LEC.

BIOL 848. Phylogenetic Methods. 4 Hours.
A survey of methods for inferring phylogenetic trees from character data and using phylogenies to address evolutionary questions. Lectures will present the relevant theory and algorithmic description of methods. Computer lab will familiarize students with software that implements the analyses discussed in lecture. Intended for graduate students specializing in systematics. Prerequisite: BIOL 845 and BIOL 841 or consent of instructor. LEC.

BIOL 872. Gene Expression II. 3 Hours.
Second semester of a two-semester lecture course on gene expression. Emphasis on control of gene expression at the transcriptional and post-transcriptional levels. Prerequisite: BIOL 772 or consent of instructor. LEC.

BIOL 888. Topics in Evolutionary Morphology: _______. 2 Hours.
Presentation and discussion by graduate students and faculty of selected topics centering on observed changes in structure and function of organisms from a phylogenetic point of view. Presentation will include results of original research when possible and appropriate, and otherwise, will be based on syntheses of recent literature. RSH.

BIOL 890. Advanced Study in Microbiology. 1-10 Hours.
Original investigation by students at the master’s degree level. Graded on a satisfactory/unsatisfactory basis. Prerequisite: Ten or more hours of microbiology and consent of department. RSH.
BIOL 895. Human Genetics. 3 Hours.
A lecture course providing balanced coverage of Mendelian and molecular genetics of humans; includes discussions and presentations on current issues in human and medical genetics. Prerequisite: A course in genetics. LEC.

BIOL 899. Master's Thesis. 1-10 Hours.
Research which is to be incorporated into an M.A. thesis. Not more than ten hours may be earned. Graded on a satisfactory/unsatisfactory basis. THE.

BIOL 901. Graduate Seminar in Biochemistry and Biophysics. 1 Hour.
Advanced course examining current research topics in biochemistry and biophysics. Extensive student/faculty interaction is emphasized utilizing lectures, class discussion of assigned readings of research reports, and oral presentations. Prerequisite: Enrollment in graduate school, and departmental admission. LEC.

BIOL 902. Graduate Seminar in Molecular, Cellular, and Developmental Biology. 1 Hour.
Advanced course examining current research topics in molecular, cellular, and developmental biology. Extensive student/faculty interaction is emphasized utilizing lectures, class discussion of assigned readings of research reports, and oral presentations. Prerequisite: Enrollment in graduate school, and departmental permission. SEM.

BIOL 903. Graduate Seminar in Neurobiology. 1 Hour.
Advanced course examining current research topics in neurobiology. Extensive student/faculty interaction is emphasized utilizing lectures, class discussion of assigned readings of research reports, and oral presentations. Prerequisite: Enrollment in graduate school, and departmental permission. LEC.

BIOL 904. Graduate Seminar in Microbiology. 1 Hour.
Advanced course examining current research topics in microbiology. Extensive student/faculty interaction is emphasized utilizing lectures, class discussion of assigned readings of research reports, and oral presentations. Graded on a satisfactory/unsatisfactory basis. Prerequisite: Enrollment in graduate school, and departmental permission. LEC.

BIOL 905. Advanced Molecular Genetics. 1-3 Hours.
A review of current literature in molecular genetics. RSH.

BIOL 906. Advanced Genetics. 1-3 Hours.
May be repeated for credit up to six hours. Review of current literature and genetic theory of selected topics such as population, molecular, quantitative, and physiological genetics. RSH.

BIOL 911. Research Topics in Plant Physiology and Biochemistry. 1-6 Hours.
Directed research on selected topics. Prerequisite: BIOL 770 or equivalent. RSH.

BIOL 918. Modern Biochemical and Biophysical Methods. 4 Hours.
This course emphasizes the use of techniques for solving problems of structure and function of biological macromolecules. Students will complete several modules that consist of lectures relating to theory and practical aspects of each methodological approach, and apply these techniques to solving a specific problem. Students will submit a paper describing the resulting data and conclusions. Prerequisite: BIOL 807, BIOL 808, and BIOL 818, or permission of instructor. LEC.

BIOL 925. Research Grant Proposal Preparation. 3 Hours.
This course introduces the basics of preparing a successful scientific grant application. Topics to be covered include how to develop a novel, fundable project, scientific writing and grantsmanship, and what criteria reviewers consider in evaluating grants. The course will be a mix of instruction and class discussion. Prerequisite: Admission to the graduate program in Molecular Biosciences, or consent of instructor. LEC.

BIOL 930. Ultrastructure and Cellular Mechanisms. 3 Hours.
Two lectures and one seminar-recitation. A detailed consideration of electron microscopic analyses of cell structure as related to cell function. Prerequisite: BIOL 416. LEC.

BIOL 943. Multivariate Data Analysis. 3 Hours.
Matrix formulation of multivariate models and data. Specific methods covered include Principal Components Analysis, Factor Analysis, Multiple Group Discriminant Analysis and Canonical Analysis, and Canonical Correlation Analysis. Prerequisite: BIOL 842 or knowledge of elementary matrix algebra. LEC.

BIOL 944. Topics in Quantitative Ecology: ____. 1-3 Hours.
Presentation and discussion by instructor and students of mathematical and statistical concepts in ecology. Topics are selected from texts or sets of readings. LEC.

BIOL 950. Evolutionary Mechanisms. 3 Hours.
Reading and discussions of evolutionary mechanisms from the genetic, ecologic, and systematic viewpoints. Prerequisite: BIOL 412. LEC.

BIOL 952. Introduction to Molecular Modeling. 3 Hours.
Introduction to theory and practice of contemporary molecular modeling, including molecular mechanics, molecular dynamics, computer graphics, data analysis, use of structure and sequence databases, docking, and homology modeling. Weekly computer laboratory section aimed at allowing participants to pursue independent research projects that incorporate modeling aspects. Lectures, laboratory manuals, program descriptions, and technical notes are presented on course web page. (Same as MDCM 952.) Prerequisite: Graduate standing or consent of instructor. LEC.

BIOL 968. Seminar in Vegetation Geography. 2-3 Hours.
(Same as GEOG 937.) LEC.

BIOL 985. Advanced Study. 1-10 Hours.
Individual investigations; laboratory, field or museum; or reading assignments in specialized topics not ordinarily treated in other courses. Graded on a satisfactory/unsatisfactory basis. RSH.

BIOL 999. Doctoral Dissertation. 1-12 Hours.
Original research that is to be incorporated into a Ph.D. dissertation. Graded on a satisfactory/unsatisfactory basis. RSH.

BTEC 300. Introduction to Biotechnology. 3 Hours. N.
Review of techniques used in food, agricultural, pharmaceutical, industrial, and environmental biotechnology. Role of regulatory agencies during the discovery, development, and manufacture of new medical devices, biotechnology, biomedical, and pharmaceutical products. Guest presentations in biotechnology. Prerequisite: BIOL 416. LEC.

BTEC 330. Biotechnology Regulation and Documentation Processes. 3 Hours. N.
Current good manufacturing practices (GMP) as they apply in the biotechnology workplace. History, rationale, purpose, and GMP requirements applicable to the manufacturing, packaging, labeling, testing, and control of pharmaceutical products, and consequences of inaction. Prerequisite: BTEC 300. LEC.

BTEC 340. Biotechnology Research Methods and Applications. 3 Hours. N.
Introduction to fermentation and protein chemistry. Theory behind laboratory techniques and overview of industrial scale expression systems. Bacterial cell culture techniques, principles of fermenter operation and purification, documentation procedures, important tasks for clean room operations, including sanitation, sterilization, cleaning
BTEC 341. Principles of Bioprocessing Laboratory I. 1 Hour. N. Laboratory sessions involve use of microbial expression vectors, fermentation systems, and large-scale purification of recombinant protein. Includes bacterial cell culture techniques, principles of bioreactor/fermentation operations and purification techniques, and calibration. Primary goal of this course is to provide students with an advanced background in bacterial upstream and downstream biotechnology. Prerequisite: BTEC 300; BTEC 340 or concurrent enrollment in BTEC 340. LAB.

BTEC 405. Microbial Genetics Laboratory. 4 Hours. N. Research projects center on using molecular genetics to examine the biology of the bacterium Pseudomonas aeruginosa, an opportunistic pathogen often found in the lungs of cystic fibrosis patients. Students engage in independent projects to probe various aspects of P. aeruginosa physiology such as antibiotic resistance, phase variation, toxin production, secondary metabolite production, twitching motility, swarming behaviors, and more. Projects aim to discover the molecular basis for these processes using both classical and new, cutting-edge techniques. These include plasmid manipulation, genetic complementation, mutagenesis, PCR, DNA sequencing, enzyme assays, and gene expression studies. Prerequisite: BIOL 350; BIOL 402. LAB.

BTEC 424. Independent Study in Biotechnology. 1-3 Hours. N. Independent project at a related bioscience industry partner or faculty in selected topics of current translational research interest. May be undertaken only with the consent of the major advisor who will guide the research after determining objectives with the interested industry partner or faculty. Prerequisite: Consent of instructor. IND.

BTEC 440. Biotechnology Research Methods and Applications II. 3 Hours. N. Theory and practicum behind laboratory techniques and overview of industrial scale expression systems of insect or mammalian protein chemistry. Cell culture techniques, principles of bioreactor operation and purification, documentation procedures, important tasks for clean room operations, including sanitation, sterilization, cleaning procedures, calibration, and environmental monitoring are evaluated. Prerequisite: BTEC 340; BTEC 341. LEC.

BTEC 441. Principles of Bioprocessing Laboratory II. 1 Hour. N. Mammalian cell culture techniques, principles of bioreactor operations and purification techniques, and calibration. The primary goal of this course is to provide students with an advanced background in mammalian upstream and downstream biotechnology. Prerequisite: BTEC 341; BTEC 440 or concurrent enrollment in BTEC 440. LAB.

BTEC 450. Applied Bioinformatics. 3 Hours. N. Overview of the fields of bioinformatics and genomics. Topics, tools, issues and current trends in these and related fields are discussed. Principles and practical application of bioinformatics tools in molecular biology and genomics are evaluated. The haploid human genome occupies a total of just over 3 billion DNA base pairs. This information is not contained in books, but stored in electronic databases. Computational biology utilizes infer function by comparative analysis. This course is designed for life scientists from all fields to introduce them to the power of bioinformatics and enable them to access and utilize biological information in databases for their own research. Prerequisite: BTEC 300; BIOL 570 or MATH 365 or PSYC 210. LEC.

BTEC 452. Protein Expression in Insect Cells. 2 Hours. N. Introduction to the insect cells expression system, and its advantages and disadvantages. Introduction to expression of recombinant proteins with baculovirus. Outline of antibody and antibody fragments as well as other complex proteins. Basic techniques used for growth and maintenance of insect cell cultures. The lab portion of the course provides students with practical experience in protein expression techniques in the insect cells expression system. Prerequisite: BTEC 300. LEC.

BTEC 454. RNA Interference and Model Organisms. 2 Hours. N. Introduction and history of RNA interference technology. Principles, mechanism, and applications of RNA interference in model organisms. Laboratory sessions include RNA interference-mediated silencing of genes in plants, C. elegans, and mammalian cell culture. Prerequisite: BTEC 300. LAB.

BTEC 458. Bioanalytical Lab. 2 Hours. N. Analytical methods used for testing biotherapeutics are examined. Emphasis is placed on assessing protein concentration, purity, identity and activity. The importance of sample processing, throughput and level of validation are explored as samples from upstream processing, downstream processing and final bulk are interrogated. Students also learn key concepts used to validate the performance of analytical methods. Prerequisite: BTEC 300. LAB.

BTEC 494. Selected Topics in Biotechnology. 1 Hour. N. Research projects center on using molecular genetics to examine the biology of the bacterium Pseudomonas aeruginosa, an opportunistic pathogen often found in the lungs of cystic fibrosis patients. Students engage in independent projects to probe various aspects of P. aeruginosa physiology such as antibiotic resistance, phase variation, toxin production, secondary metabolite production, twitching motility, swarming behaviors, and more. Projects aim to discover the molecular basis for these processes using both classical and new, cutting-edge techniques. These include plasmid manipulation, genetic complementation, mutagenesis, PCR, DNA sequencing, enzyme assays, and gene expression studies. Prerequisite: BIOL 350; BIOL 402. LAB.

BTEC 501. Ethical Issues in Biotechnology. 1 Hour. N. Research projects center on using molecular genetics to examine the biology of the bacterium Pseudomonas aeruginosa, an opportunistic pathogen often found in the lungs of cystic fibrosis patients. Students engage in independent projects to probe various aspects of P. aeruginosa physiology such as antibiotic resistance, phase variation, toxin production, secondary metabolite production, twitching motility, swarming behaviors, and more. Projects aim to discover the molecular basis for these processes using both classical and new, cutting-edge techniques. These include plasmid manipulation, genetic complementation, mutagenesis, PCR, DNA sequencing, enzyme assays, and gene expression studies. Prerequisite: BIOL 350; BIOL 402. LAB.

BTEC 524. Bioanalytical Lab. 2 Hours. N. Analytical methods used for testing biotherapeutics are examined. Emphasis is placed on assessing protein concentration, purity, identity and activity. The importance of sample processing, throughput and level of validation are explored as samples from upstream processing, downstream processing and final bulk are interrogated. Students also learn key concepts used to validate the performance of analytical methods. Prerequisite: BTEC 300. LAB.
M.A. in Biochemistry & Biophysics; Microbiology; or Molecular, Cellular, & Developmental Biology

Molecular Biosciences Graduate Programs

The department offers the Doctor of Philosophy and the Master of Arts in biochemistry and biophysics; microbiology; and molecular, cellular, and developmental biology. Programs in neurobiology and genetics also allow a research focus. Graduate students may pursue degree tracks in the disciplines of their choice but may also be involved in collaborative research. New students should confer with the graduate coordinator to plan a first-semester schedule. Until the student chooses a permanent advisor, the graduate coordinator advises him or her.

The department has established a level of enrollment appropriate for normal progress (course work and research effort) toward an advanced degree. These credit-hour requirements may exceed, but not fall below, minimum Graduate Studies requirements. A student must enroll full-time in residence for at least 2 regular academic-year semesters after the first year of graduate study. 9 credit hours constitute full-time enrollment. If the student holds a half-time research or teaching assistantship, 6 hours constitute full-time enrollment. The department expects graduate students who have not yet passed the comprehensive oral examination (including those with half-time assistantships) to enroll in at least 9 hours each semester and 3 hours each summer session. After passing the comprehensive oral examination, a doctoral candidate must be continuously enrolled, including summer sessions, until all degree requirements are completed. For the first 18 hours of post-comprehensive enrollment, the doctoral candidate must take a minimum of 6 hours a semester and 3 hours a summer session.

Graduate Teaching Assistantships and Graduate Research Assistantships are available. GTAs are appointed on a semester basis. GRAs are appointed on a semester, academic-year, or calendar-year basis.

During the first 2 semesters, a new Ph.D. graduate student follows a rotation schedule through 3 research laboratories. This program acquaints each student with the research conducted by each faculty member. Students then choose a home lab. This decision must be mutually agreed on with the major professor. Each graduate student must teach for at least 2 semesters.

(The B.S. degree in molecular biosciences (p. 1212) is offered on the KU Edwards Campus (http://edwardscampus.ku.edu).)

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

The department adheres to minimum admission requirements. The number of new students accepted each year depends largely on availability of laboratory space, financial resources, grants, and the number of students leaving the program. The department maintains a full enrollment.

The department’s website (http://www.molecularbiosciences.ku.edu) has information about application procedures and a link for applying directly online. A completed application file must include:

1. An application form and fee;
2. 1 copy of all academic transcripts (international students must provide 1 copy in English and 1 in the native language);
3. A résumé (1 to 2 pages);
4. General Graduate Record Examination scores (GRE must have been taken within 2 years of the initial semester);
5. Internet-Based Test of English as a Foreign Language (iBT) or IELTS scores for international students;
6. 3 recommendation letters; and
7. A statement of aims (1 to 2 pages) describing the applicant’s interests and professional goals.

All files must be complete and received in the department by December 15 each year. First consideration is given to those who meet this deadline. Applicants are informed of decisions in early March.

All supporting documentation should be uploaded online when you apply. If this is not possible, please send documentation to:

The University of Kansas
Department of Molecular Biosciences
Haworth Hall
1200 Sunnyside Ave., Room 2034
Lawrence, KS 66045-7566

M.A. Degree Requirements

General Requirements for All M.A. Students

Refer to each discipline for specific course requirements. General requirements include:

1. A minimum of 30 hours of graduate credit;
2. A minimum of 1 laboratory rotation during the first semester of graduate study;
3. Enrollment every semester in BIOL 701 Topics in Molecular Biosciences Seminar;
4. Completion of the following courses: BIOL 807 Graduate Molecular Biosciences and BIOL 818 Techniques in Molecular Biosciences;
5. A graduate committee established by the beginning of the spring semester of the first year;
6. A minimum of 1 annual graduate committee meeting until completion of the degree.

The following thesis options are available:
The department offers the Doctor of Philosophy and the Master of Arts
in biochemistry and biophysics; microbiology; and molecular, cellular,
and developmental biology. Programs in neurobiology and genetics also
allow a research focus. Graduate students may pursue degree tracks in
the disciplines of their choice but may also be involved in collaborative
research. New students should confer with the graduate coordinator to
plan a first-semester schedule. Until the student chooses a permanent
advisor, the graduate coordinator advises him or her.

Specific M.A. Requirements: Biochemistry and Biophysics

Electives to satisfy the 30-hour course requirement. Electives are determined in consultation with the graduate advisor and graduate committee.

Ph.D. in Biochemistry & Biophysics; Microbiology; or Molecular, Cellular, & Developmental Biology

Graduate Admission

The department adheres to minimum admission requirements. The number of new students accepted each year depends largely on availability of laboratory space, financial resources, grants, and the number of students leaving the program. The department maintains a full enrollment.

The department’s website (http://www.molecularbiosciences.ku.edu) has information about application procedures and a link for applying directly online. A completed application file must include

1. An application form and fee;
2. 1 copy of all academic transcripts (international students must provide 1 copy in English and 1 in the native language);
3. A résumé (1 to 2 pages);

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Teaching Assistantships and Graduate Research Assistantships are available. GTAs are appointed on a semester basis. GRAs are appointed on a semester, academic-year, or calendar-year basis.

During the first 2 semesters, a new Ph.D. graduate student follows a rotation schedule through 3 research laboratories. This program acquaints each student with the research conducted by each faculty member. Students then choose a home lab. This decision must be mutually agreed on with the major professor. Each graduate student must teach for at least 2 semesters.

(The B.S. degree in molecular biosciences (p. 1212) is offered on the KU Edwards Campus (http://edwardscampus.ku.edu).)
4. General Graduate Record Examination scores (GRE must have been taken within 2 years of the initial semester);
5. Internet-Based Test of English as a Foreign Language (iBT) or IELTS scores for international students;
6. 3 recommendation letters; and
7. A statement of aims (1 to 2 pages) describing the applicant’s interests and professional goals.

All files must be complete and received in the department by December 15 each year. First consideration is given to those who meet this deadline. Applicants are informed of decisions in early March.

All supporting documentation should be uploaded online when you apply. If this is not possible, please send documentation to:

The University of Kansas
Department of Molecular Biosciences
Haworth Hall
1200 Sunnyside Ave., Room 2034
Lawrence, KS 66045-7566

Ph.D. Degree Requirements

General Requirements for All Ph.D. Students

All general requirements must be fulfilled. Refer to each discipline for specific course requirements. General requirements include

1. At least 3 individual laboratory rotations during the first two semesters of graduate study;
2. Enrollment every semester in BIOL 701 Topics in: Molecular Biosciences Seminar;
3. Completion of the following courses: BIOL 804 Scientific Integrity: Molecular Biosciences, BIOL 807 Graduate Molecular Biosciences, and BIOL 818 Techniques in Molecular Biosciences;
4. A FLORS requirement (satisfied by completion of BIOL 818) and a Responsible Scholarship requirement (satisfied by BIOL 804);
5. A minimum of 2 semesters of graduate teaching;
6. A graduate committee established before the beginning of the fall semester of the second year;
7. A minimum of 1 annual graduate committee meeting;
8. A written preliminary examination in the form of a research proposal completed by the end of the spring semester of the second year of graduate study (BIOL 925);
9. A comprehensive oral examination held no later than October 1 of the fall semester of the third year of graduate study (successful completion of the comprehensive oral examination admits the student to candidacy for the Ph.D. degree);
10. A dissertation based on original research presented to the dissertation examination committee for evaluation and presented and defended in a formal public lecture; and
11. Completion of the degree in 7 years.

Note: Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

First-year Curriculum for All Students

First-year courses include:

BIOL 701 Topics in: _____ (Molecular Biosciences Seminar. 1-3
Enrollment required every semester)
BIOL 804 Scientific Integrity: Molecular Biosciences 1
BIOL 807 Graduate Molecular Biosciences 6
BIOL 818 Techniques in Molecular Biosciences 2
BIOL 985 Advanced Study (fall and spring semester) 1-10

Specific Ph.D. Requirements: Biochemistry and Biophysics

BIOL 750 Advanced Biochemistry 3
BIOL 901 Graduate Seminar in Biochemistry and Biophysics 1
(1 semester)
BIOL 918 Modern Biochemical and Biophysical Methods 4
BIOL 952 Introduction to Molecular Modeling 3

The graduate committee may recommend that additional courses be taken.

Specific Ph.D. Requirements: Microbiology

Select at least four of the following five graduate courses:

BIOL 811 Advanced Molecular and Cellular Immunology
BIOL 812 Mechanisms of Host-Parasite Relationships
BIOL 813 Advanced Bacterial Physiology
BIOL 814 Advanced Molecular Virology
BIOL 815 Advanced Molecular Genetics

The graduate committee may recommend that additional courses be taken.

Specific Ph.D. Requirements: Molecular, Cellular, and Developmental Biology

BIOL 752 Cell Biology 3
BIOL 755 Mechanisms of Development 3
or BIOL 772 Gene Expression 3

The graduate committee may recommend that additional courses be taken.

Museum Studies Program

Museum Studies Graduate Program

These are exciting and challenging times for museums -- longstanding premises are being questioned, and many established practices are being reconsidered. Museum professionals today work in an environment far different than that of even a few years ago. Emerging technologies now allow museums to bring their collections and their programs to audiences well beyond the confines of museum buildings. With this expanded reach, museums are preparing for dramatic changes in the age, ethnicity, education, and economic status of their audiences. Exhibitions and public programs are evolving; more than ever, educators, curators, and designers are seeking ways to engage visitors in complex issues of broad concern. Behind the scenes, collection stewardship is being reevaluated
in response to practical, political, and ethical concerns. Additionally, unprecedented scholarly attention is being directed toward the ways in which museums have acquired their collections, represented their subjects, and engaged with the public. In the midst of this transformation, long-standing assumptions about museums’ public value have been called into question, requiring museum leaders to craft new collaborations and community partnerships in order to survive.

To advance and thrive in this dynamic environment, twenty-first century museum professionals will need knowledge informed by practice, imagination tempered by rigor, and leadership stimulated by collaboration. This is what we can offer at the University of Kansas. Students take advantage of the superb facilities at KU, including the Dole Institute of Politics, Natural History Museum, Spencer Museum of Art, Spencer Research Library, and Wilcox Classical Museum, as well as nearby historical agencies, specialized libraries, and museums.

Courses

**MUSE 701. Museum Management. 3 Hours.**
Lecture, discussion, and laboratory exercises on the nature of museums as organizations; accounting, budget cycles, personnel management, and related topics will be presented using, as appropriate, case studies and a simulated museum organization model. (Same as AMS 731, BIOL 785, GEOL 783, and HIST 728.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

**MUSE 702. The Nature of Museums. 3 Hours.**
The purpose of this course is to provide an overview of the kinds of museums, their various missions, and their characteristics and potentials as research, education, and public service institutions responsible for collections of natural and cultural objects. (Same as AMS 720, BIOL 788, GEOL 782, and HIST 720.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

**MUSE 703. Introduction to Museum Exhibits. 3 Hours.**
Presentation of principles and practices of exhibit management, design, and production. Topics will include developing a master plan for museum exhibits; concept development; design, installation, and maintenance of exhibits; design theory; design process; label writing and editing; selection of materials architectural requirements and building codes; cost estimating; publicity; security; and exhibit evaluation. Consideration will be given to exhibition problems in public and private museums in the areas of anthropology, art, history, natural history, and technology. (Same as AMS 700, BIOL 787, GEOL 781, and HIST 723.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

**MUSE 704. Principles and Practices of Museum Collection Management. 3 Hours.**
Lecture, discussion, and laboratory exercises on the nature of museum collections, their associated data, and their use in scholarly research; cataloging, storage, fumigation, automated information management and related topics will be presented for museums of art, history, natural history and anthropology. (Same as AMS 730, BIOL 798, GEOL 785, and HIST 725.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

**MUSE 705. Introduction to Museum Public Education. 3 Hours.**
Consideration of the goals of an institution’s public education services, developing programs, identifying potential audiences, developing audiences, and funding. Workshops and demonstrations are designed for students to gain practical experience working with various programs and developing model programs. (Same as AMS 797, BIOL 784, GEOL 784, and HIST 721.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

**MUSE 706. Conservation Principles and Practices. 3 Hours.**
This course will acquaint the future museum professional with problems in conserving all types of collections. Philosophical and ethical approaches will be discussed, as well as the changing practices regarding conservation techniques. Emphasis will be placed on detection and identification of causes of deterioration in objects made of organic and inorganic materials, and how these problems can be remedied. Storage and care of objects will also be considered. (Same as AMS 714, BIOL 700, GEOL 780, and HIST 722.) Prerequisite: Museum Studies student, Indigenous Nations Studies student, or consent of instructor. LEC.

**MUSE 707. Practical Archival Principles. 3 Hours.**
Study of the principles and practices applicable to the preservation, care, and administration of archives and manuscripts. Practical experience will be an integral part of this course. (Same as HIST 727.) LEC.

**MUSE 710. Current Trends in Curation and Collection Management. 2 Hours.**
Seminar course to provide students with a working knowledge of the primary issues and current trends in building, administration, and care of scientific collections. Topics include permits, collecting, accessioning, cataloging, preservation, preventive conservation, and access to collections and data. The course format consists of readings, lectures, guest speakers, discussions, and visits to scientific collections on campus. (Same as BIOL 706.) LEC.

**MUSE 780. Special Topics: _____. 1-3 Hours.**
Advanced courses on special topics in museum studies, given as need arises. Lectures, discussions of readings, and guest speakers. Topic for semester to be announced. Prerequisite: Graduate standing in Museum Studies Program or permission of instructor. LEC.

**MUSE 782. Seminar in Current Museum Topics: _____. 1-2 Hours.**
In-depth examination of specific topics currently of concern to museums and museum professionals. Topic for semester to be announced. Prerequisite: Graduate standing in Museum Studies Program, or permission of instructor. LEC.

**MUSE 790. Advanced Study. 1-3 Hours.**
Individual research in a specialized topic not ordinarily treated in a Museum Studies core course for which there is a member of the graduate faculty competent and willing to direct a research project. Prerequisite: Consent of instructor. RSH.

**MUSE 792. Directed Readings. 1-3 Hours.**
Directed reading in an area of Museum Studies in which there is no particular course in the Museum Studies program or in cooperating departments but in which there is a member of the graduate faculty competent and willing to direct a program study. Prerequisite: Consent of instructor. IND.

**MUSE 799. Museum Apprenticeship. 1-6 Hours.**
Provides directed, practical experience in research, collection, care, and management, public education, and exhibits with emphasis to suit the particular requirements of each student. (Same as AMS 799, ANTH 799, BIOL 799, GEOL 723, and HIST 799.) FLD.

**MUSE 910. Materials Conservation. 3 Hours.**
Preservation and collection conservation theory and principles, including condition reporting, conservation of furniture and wooden objects, inorganic-based materials, metal objects, organic-based materials, paintings, photographic materials, textiles, three-dimensional objects, and works on paper. LEC.
MUSE 930. Preventive Conservation. 3 Hours.
Theory and principles of preventive conservation, with emphasis
on its application to storage environment quality, archival supports
and housings, basic bookbinding, composite objects, integrated
pest management, light and lighting, paper evaluation and mending,
temperature, and relative humidity. LEC.

MUSE 940. Conservation Assessment. 3 Hours.
Understanding the conservator-curator relationship; principles of
conservation assessment, documentation, conservation research,
environmental monitoring, handling objects, photographic documentation,
and development of a publishable preservation research project. LEC.

MUSE 980. Advanced Conservation. 3 Hours.
Application of conservation theory and practice to exhibition development,
planning, and preparation; conservation bookbinding; health and safety
in conservation; integrated pest management; ethics of conservation;
parameters of professional conservation practice. LEC.

Master of Arts in Museum Studies

Museum Studies Graduate Program

These are exciting and challenging times for museums -- longstanding
premises are being questioned, and many established practices are being
reconsidered. Museum professionals today work in an environment far
different than that of even a few years ago. Emerging technologies now
allow museums to bring their collections and their programs to audiences
well beyond the confines of museum buildings. With this expanded
reach, museums are preparing for dramatic changes in the age, ethnicity,
education, and economic status of their audiences. Exhibitions and
public programs are evolving; more than ever, educators, curators, and
designers are seeking ways to engage visitors in complex issues of broad
concern. Behind the scenes, collection stewardship is being reevaluated
in response to practical, political, and ethical concerns. Additionally,
unprecedented scholarly attention is being directed toward the ways
in which museums have acquired their collections, represented their
subjects, and engaged with the public. In the midst of this transformation,
long-standing assumptions about museums’ public value have been
called into question, requiring museum leaders to craft new collaborations
and community partnerships in order to survive.

To advance and thrive in this dynamic environment, twenty-first century
museums professionals will need knowledge informed by practice,
imagination tempered by rigor, and leadership stimulated by collaboration.
This is what we can offer at the University of Kansas. Students take
advantage of the superb facilities at KU, including the Dole Institute of
Politics, Natural History Museum, Spencer Museum of Art, Spencer
Research Library, and Wilcox Classical Museum, as well as nearby
historical agencies, specialized libraries, and museums.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be
admitted as either a degree-seeking or non-degree seeking student.
 Policies and procedures of Graduate Studies govern the process of
Graduate admission. These may be found in the Graduate Studies (p.
2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the
online catalog for information regarding program-specific admissions
criteria and requirements. Special admissions requirements pertain to

Interdisciplinary Studies degrees, which may be found in the Graduate
Studies section of the online catalog.

Graduate Admission

To be considered for admission to regular graduate status in the Museum
Studies program, a student must hold a baccalaureate degree and have
earned at least a B (3.0) grade-point average in previous academic
work. Acceptance in the program is determined by the Museum Studies
Admissions Committee. A student interested in applying for admission
must submit the following:

1. A completed application, along with a non-refundable application
fee, submitted online through the Office of Graduate Studies (http://
www.graduate.ku.edu/apply).

2. Transcripts from all undergraduate or graduate institutions attended.
You may upload a scanned version of your official transcript from your
undergraduate institution to the online application. Please note: A printout
from a student portal is NOT considered to be an official copy of your
transcript. Official transcripts will be required upon admission to the
program. In addition, please consult (http://www.clas.ku.edu/undergrad/
tools/gpa) your Junior/Senior GPA and include it on your resume.

3. A statement of academic objectives. This component of the application
is very important. It should be a thoughtful, well-written, 2-3 page
statement addressing such topics as (a) what is it about museums and
museum studies that particularly interests you, (b) your career goals,
and the area of museum work that most attracts you, (c) your relevant
experience and background, (d) the match of KU’s program to your
interests, an (e) anything else you think is important to your application.
If you feel that your academic record does not reflect your potential,
or if your test scores are below expectations, be certain to provide an
explanation of any extenuating circumstances related to this issue.

4. 3 letters of recommendation. (Please use KU’s online letter of
recommendation system when you apply).

5. GRE scores. To submit scores, use University code 6871, Department
code 5101.

6. A resume or curriculum vitae listing your employment history,
scholarships/fellowships, and awards.

7. A sample of your written academic work (10 pages maximum, please).

8. For international students only, TOEFL scores or acceptable alternative
to demonstrate English proficiency.

9. For international students only, proof of financial support. Applications
will not be considered without financial documentation.

Students are admitted to the M.A. program only in the fall semester.
The Museum Studies Admissions Committee will begin considering
applicants for Fall admission in mid-January and will accept applications
until the deadline for the fall semester on May 1. Students who meet the
January 15 deadline will be notified of admission decisions in early March.
Applications completed after the January 15 deadline are much less
likely to be considered for scholarship support and may be placed
on an admissions waiting list.
M.A. Degree Requirements

The M.A. degree in museum studies requires 36 credit hours at the graduate level. Students in the Museum Studies Program complete courses in six areas:

1. The Museum Studies Core - 9 credit hours
2. Museum Professional Areas - 9 credit hours
3. Museum Conceptual Domains - 6 credit hours
4. Electives - 6 credit hours
5. Museum Experience (Internship) - 3 credit hours
6. Final Product (Research) - 3 credit hours

1. Museum Studies Core (9 credit hours)
The Museum Studies Core ensures that all Museum Studies students gain a comprehensive understanding of the theories, history, techniques, and problems common to museums, historical agencies and related institutions. The Capstone course, taken in a student's third semester of study, provides an avenue for students to conduct research or other creative activities that advance the discipline of museum studies.

- MUSE 702 The Nature of Museums 3
- MUSE 780 Special Topics: _______ 3
- MUSE 782 Seminar in Current Museum Topics: _______ 3

2. Museum Professional Areas (9 credit hours)
Students will develop expertise in one of the principal specialties of museum work by completing at least two courses in that area, at least one of which must be a Museum Studies (MUSE) course. Many courses in other departments could fulfill requirements; it is the responsibility of students, and their advisors, to ensure that individual courses meet program requirements based on the general relevance of the course and assurance that the student's work in the class will be applicable to museum studies by meeting with instructors and examining syllabi.

LEADERSHIP AND MANAGEMENT

Courses cover areas such as administration, policy, fund raising, and legal issues related to the management of non-profit organizations.

- MUSE 701 Museum Management 3
- Examples of Courses in Other Departments and Programs:
  - LAW 867 Law and the Arts 2-3
  - MEMT 823 Seminar in: _______ 1-3
  - MGMT 715 Management of Organizations 3
  - PUAD 828 Nonprofit Management and Policy 3
  - PUAD 830 Administrative Ethics 3
  - PUAD 855 Financial Management for Public and Not-for-Profit Organizations 3

INTERPRETATION

Interpretation includes developing skills in exhibition design and installation, graphics, and marketing, public programs, as well as innovative approaches to new and emerging technologies.

- MUSE 703 Introduction to Museum Exhibits 3
- MUSE 705 Introduction to Museum Public Education 3
- Examples of Courses in Other Departments and Programs:
  - ADS 712 Design Strategies and Methods 3
  - BIOL 720 Scientific Illustration 3
  - THR 618 Scenography and the Musical Theatre 3

COLLECTIONS

Examples of Courses in Other Departments and Programs:

- ANTH 520 Archaeological Ceramics 3
- ANTH 582 Ethnobotany 3
- ANTH 648 Human Osteology 4
- BIOL 603 Systematic Botany 3
- BIOL 746 Principles of Systematics 4
- GEOG 725 Paleontology of Lower Vertebrates 3
- TD 504 History of Textiles, Lecture 3
- UBPL 760 Historic Preservation Planning 3

COMMUNITY CONNECTIONS

Courses enable students to develop skills in public programming, curriculum planning, visitor studies, audience development, and volunteer management.

- MUSE 705 Introduction to Museum Public Education 3
- Examples of Courses in Other Departments and Programs:
  - ABSC 719 Experimental Field Work in Community Settings 1-5
  - C&T 808 Qualitative Research: Curriculum Inquiry 3
  - COMS 855 Qualitative Research Methods in Communication Studies 3
  - COMS 855 Qualitative Research Methods in Communication Studies 3
  - HIST 601 Oral History 3
  - VAE 750 Introduction to Art Museum Education 1-4

3. Courses focusing on Museum Conceptual Domains (6 credit hours)
The conceptual domains of museum work address in depth the conceptual and theoretical foundations of museums. Courses that emphasize conceptual domains will place museological subjects in broader historical and intellectual frameworks. Students may take courses which may be offered in one or several disciplines. Courses will be selected based on the general relevance of the course, and assurance that the student’s work in the class will be applicable to museum studies.

- MUSE 704 Principles and Practices of Museum Collection Management 3
- MUSE 706 Conservation Principles and Practices 3
- MUSE 707 Practical Archival Principles 3

Examples of Courses in Other Departments and Programs:

- MUSE 705 Introduction to Museum Public Education 3
- MUSE 705 Introduction to Museum Public Education 3
- MUSE 705 Introduction to Museum Public Education 3
- MUSE 705 Introduction to Museum Public Education 3
- MUSE 705 Introduction to Museum Public Education 3
- MUSE 705 Introduction to Museum Public Education 3

4. Electives and Other Museum Studies Courses (6 credit hours)
Students are expected to deepen their knowledge of the field by taking courses in a subject area pertinent to their area of specialization. Courses will be selected with the approval of the student’s committee chair, as well as the course instructor.

5. Museum Experience (3 credit hours)
While enrolled in the Museum Studies program, students are required to gain at least 500 hours of museum experience, of which at least 250 hours must be in an approved, professionally supervised internship.

6. Final Product and Examination (3 credit hours)
Each student will be responsible for a final product, developed through research or other creative activity, that contributes to museum studies and demonstrates the student’s ability to engage conceptually and professionally with the discipline of museum studies.
Museum Studies Graduate Certificate

Graduate Certificate in Museum Studies

The course of study leading to the Certificate in Museum Studies comprises 15 credit hours at the graduate level. The Graduate Certificate in Museum Studies is designed to provide students with a solid grounding in the histories, concepts, and practices of the discipline of museum studies. The certificate program enables students to integrate knowledge of museum studies into their own academic disciplines or professional training. Completion of the certificate in museum studies represents an additional credential for graduate students from a variety of academic fields who are preparing for careers in research and teaching or professional practice. Enrollment in the program is open to students admitted to a regular KU graduate program or to non-degree seeking graduate students admitted to the Graduate School.

The Museum Studies core curriculum will be the basis for the graduate certificate, which emphasizes the essential interdisciplinary and collaborative nature of museum work by drawing on a range of departments in the University. The program allows students to gain knowledge in preparation for doctoral study, as well as for employment in museums and related fields such as historic preservation, cultural resource preservation, archives, and government agencies.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Eligibility criteria for admission to the certificate program include a B.A. degree from an accredited institution with a 3.0 or higher GPA. Awarding of certificates will be handled consistent with guidelines and timing of degree awards of the Graduate School. Completion of the program will appear on the graduate transcript.

Current KU Students

Current graduate students wishing to enroll in the Graduate Certificate program will apply through the Graduate School. A student must be in good standing with their graduate degree program in order to participate in the certificate program. A graduate GPA of 3.0 or higher is required for admission. The application process entails completing the online application, paying a $30.00 application fee, and submitting materials required for the Museum Studies Certificate:

a. A letter stating your interest in Museum Studies and its relationship to your graduate course of study.

b. An unofficial copy of your KU transcript;

c. A letter of support from your graduate degree program.

Non-KU Students

Non-KU graduate students must complete an application to the Graduate School for admission into the certificate program and submit an application fee along with the following materials:

a. A letter stating your interest in the Museum Studies Graduate Certificate program. In 2-3 pages, address such topics as (1) what about museums and museum studies particularly interests you, (2) how the Certificate will support or enhance your career goals, (3) the area of museum work most relevant to your career goals, (4) relevant experience and background information, (5) how KU’s program matches your interests, and (6) anything else you think is important to your application.

b. A copy of your college transcript;

c. 2 letters of recommendation from persons familiar with your academic work or potential for graduate study.

The Museum Studies Graduate Certificate will require 15 hours of course work including a 3 credit (minimum) research practicum or internship. The remaining 9 hours will be selected from courses in which there is a demonstrable component that has relevance to museum studies.

1 To satisfy the requirement of 1 course in a museum conceptual domain, students must have approval of their advisor.
Department of Philosophy

Why study philosophy?

Because philosophy teaches you how to think about all aspects of your life and the world around you.

Undergraduate Programs

The department offers a range of courses in philosophy, both in the main systematic divisions of the subject and in its major historical periods. Philosophy courses are often suitable not only for majors but also for students whose main interests lie in other areas. Many philosophy courses satisfy requirements in other degree programs in the College and professional schools.

Argument and Reason Requirement

PHIL 148 and PHIL 310 each meet the College argument and reason requirement for the B.A. and B.G.S. degrees.

Interdisciplinary Course Work

The department offers courses in applied ethics, ethics, feminism, logic, and the philosophy of science to fit the needs and interests of nonmajors. Many of these may be taken without prerequisites. The nonmajor may wish to supplement work in other fields or schools with a series of related courses in philosophy. Some suggested programs to be supplemented with this type of interdisciplinary course work are business, prelaw, premedicine, and engineering; classics, art history, and literature; and natural sciences and mathematics. Lists of philosophy courses relating to these areas are available. Consult the director of undergraduate studies.

Graduate Programs

The department offers graduate programs in philosophy leading to the M.A. and Ph.D. degrees. With the School of Law, the department also offers a joint program in law and philosophy leading to the J.D. in law and the M.A. in philosophy. Our faculty (http://www.philosophy.ku.edu/people) is dynamic, professionally active, and committed to excellence in scholarship and teaching. Excellent facilities, strong library holdings, and a faculty dedicated to both teaching and research assure students of a challenging and professional graduate preparation.

Departmental Funding

While it is not guaranteed, the department its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year (9 months) and come with a starting salary of about $14,500, a 100% tuition waiver, and qualify the student for University-subsidized group health insurance. The appointments are guaranteed based on performance for up to 3 years for M.A. students, 5 years for Ph.D. students and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training, close mentoring, and the opportunity to teach courses in a variety of fields within Philosophy, providing them with a strong base of teaching experience upon entering the job market.

Additional Funding

There are also university fellowships for truly outstanding students. Visit the Graduate Studies website for information about funding opportunities (http://www.gradle.ku.edu/funding-opportunities) for KU graduate students.

Courses

PHIL 140. Introduction to Philosophy. 3 Hours. HR GE11/GE3H / H. An introductory examination, based primarily on writings of major philosophers, of such central philosophical problems as religious belief, the mind and its place in nature, freedom and determinism, morality, and the nature and kinds of human knowledge. LEC.

PHIL 141. Introduction to Philosophy Honors. 3 Hours. HR GE11/GE3H / H. An introductory examination, based primarily on writings of major philosophers, of such central philosophical problems as religious belief, the mind and its place in nature, freedom and determinism, morality, and the nature and kinds of human knowledge. Prerequisite: Open only to students in the University Honors Program or by consent of department. LEC.

PHIL 148. Reason and Argument. 3 Hours. GE11/GE3H / H. An introduction to the theory and practice of logical analysis. Special emphasis is placed upon the logical appraisal of everyday arguments. LEC.

PHIL 160. Introduction to Ethics. 3 Hours. HR AE51/GE11/GE3H / H. An introductory study of the nature of morality and of philosophical bases for the assessment of actions, agents, and institutions. Special emphasis will be placed upon the views of such important philosophers as Aristotle, Hume, Kant, and Mill. Some attention will be paid to applications of moral theory to practice. LEC.

PHIL 161. Introduction to Ethics Honors. 3 Hours. HR AE51/GE11/GE3H / H. An introductory study of the nature of morality and of philosophical bases for the assessment of actions, agents, and institutions. Special emphasis will be placed upon the views of such important philosophers as Aristotle, Hume, Kant, and Mill. Some attention will be paid to applications of moral theory to practice. Prerequisite: Open only to students in the University Honors Program or by consent of department. LEC.

PHIL 177. First Year Seminar: ______. 3 Hours. GE11 / U. A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Philosophy. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LAB.

PHIL 180. Introduction to Social and Political Philosophy. 3 Hours. HR AE51/GE3H / H. An introductory study, based primarily on classic philosophical texts, of such central issues as the justification of governmental authority, the social sources of power, the nature of a just distribution of social resources, competing conceptions of human nature, and the proper limits of governmental interference with individual liberty. LEC.

PHIL 181. Introduction to Social and Political Philosophy, Honors. 3 Hours. HR AE51/GE3H / H. An introductory study, based primarily on classic philosophical texts, of such central issues as the justification of governmental authority, the social sources of power, the nature of a just distribution of social resources, competing conceptions of human nature, and the proper limits of governmental interference with individual liberty. Prerequisite: Open only to students in the University Honors Program or by consent of department. LEC.
PHIL 200. Study Abroad Topics in Philosophy: ______. 1-6 Hours. H.
This course is designed for the study of special topics in Philosophy. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

PHIL 310. Introduction to Symbolic Logic. 3 Hours. GE11/GE3H / H.
An introduction to the theory and practice of elementary symbolic logic. Special emphasis will be placed upon the logical analysis of mathematical proof and upon the proof of the consistency of elementary logic. LEC.

PHIL 320. Philosophical Issues in the Life Sciences. 3 Hours. HR AE51/GE3H / H.
A philosophical analysis of theoretical and ethical issues that arise in the practice of the life sciences. Discusses the conceptual foundation of the life sciences—evolutionary theory and genetics. Critically explores the use of statistical and non-human-animal models. Examines ethical issues including problems that arise in human and other animal experimentation, obligations to the environment, proper use of patents, and conflicts in professional duties. LEC.

PHIL 350. Philosophical Issues in Religion. 3 Hours. GE3H / H.
This course will consider, from a philosophical perspective, some of the problems in religion which arise in the development of “Natural Theology” broadly conceived. (Same as REL 380.) LEC.

PHIL 360. Moral Issues in Business. 3 Hours. AE51 / H.
After a brief survey of techniques of moral argument and analysis, particular moral issues related to business will be discussed. These will include such topics as advertising, conflict of interest, personal and corporate responsibility, codes of conduct, private property, strikes, just wage, and the tension between moral ideals and business pressures. LEC.

PHIL 365. Moral Issues in the Professions. 3 Hours. H.
An analysis of the nature and justification of standards of professional conduct. Issues of professional behavior that concern more than one profession such as fidelity to a client’s interests, candor, confidentiality, obligations to human research subjects, obligations to uphold professional standards, professional strikes, and affirmative action will be discussed. LEC.

PHIL 368. Moral Issues in Sports. 3 Hours. H.
This course is a philosophical investigation of the nature and value of sports. Provides students with an overview of ethical theory and considers principled answers to questions about the values of sports and about how those values can be sustained or demeaned. Students debate a variety of live controversies in sports today such as drugs, cheating, sexism, racism, the role of sports in educational institutions, Title IX, commercialization, and violence. LEC.

PHIL 370. Moral Issues in Medicine. 3 Hours. H.
After a brief survey of techniques of moral argument and analysis, particular moral issues related to medicine will be discussed. The justification and limits of some rules of professional conduct that deal with such matters as confidentiality, truth-telling, and protection of medical research subjects will be considered. Issues relating to death and dying in medicine such as abortion, euthanasia, and the refusal of life-saving medical therapy also will be discussed. LEC.

PHIL 375. Moral Issues in Computer Technology. 3 Hours. AE51 / H.
After surveying the nature of ethics and morality and learning some standard techniques of moral argumentation, we shall examine such topics as: property and ownership rights in computer programs and software; privacy in computer entry and records; responsibility for computer use and failure; the “big brother” syndrome made possible by extensive personal data banks; censorship and the world-wide web; computer illiteracy and social displacement; and ethical limits to computer research. Prerequisite: EECS 168 or permission of instructor. LEC.

PHIL 380. Environmental Ethics. 3 Hours. AE51 / H.
After a brief survey of techniques of moral argument and analysis, particular moral issues related to the environment will be discussed. These will include such topics (one of which may be dealt with in depth) as animal rights, rights of future generations, wilderness preservation, population control, endangered species, and economics and public policy. Prerequisite: EVRN 148 or consent of instructor. LEC.

PHIL 381. Feminism and Philosophy. 3 Hours. AE41/GE3H / H.
An examination of topics of philosophical interest that are important in the feminist movement such as the nature of sexism, the concept of sexual equality, the ethics of sexual behavior, the nature of love, feminist analyses of the value of marriage and family, the ethics of abortion, and justifications for preferential treatment of women. (Same as WGSS 381.) LEC.

PHIL 384. Ancient Philosophy. 3 Hours. HR GE3H / H.
A survey of the thought of the principal philosophers of ancient Greece, with emphasis on the pre-Socratics, Plato, and Aristotle. LEC.

PHIL 386. Modern Philosophy from Descartes to Kant. 3 Hours. HR GE3H / H.
A survey of the writings of such principal philosophers of the modern period as Descartes, Spinoza, Leibniz, Hobbes, Locke, Berkeley, Hume, and Kant. LEC.

PHIL 388. Analytic Philosophy: Frege to Quine. 3 Hours. H.
An introduction to the principal figures in the philosophical tradition that forms the background to contemporary investigations in analytic philosophy of language. Particular attention will be paid to Frege, Russell, Wittgenstein, and Quine. Prerequisite: PHIL 310 or equivalent, or PHIL 310 may be taken concurrently. LEC.

PHIL 418. Introduction to Cognitive Science. 3 Hours. S.
Examines the data and methodologies of the disciplines that comprise Cognitive Science, an inter-disciplinary approach to studying the mind and brain. Topics may include: consciousness, artificial intelligence, linguistics, education and instruction, neural networks, philosophy, psychology, anthropology, evolutionary theory, cognitive neuroscience, human-computer interaction, and robotics. (Same as LING 418, PSYC 418, and SPLH 418.) Prerequisite: Consent of instructor. LEC.

PHIL 499. Senior Essay. 3 Hours. AE61 / H.
This course is required, in addition to regular major requirements, of those students wishing to work for departmental honors in Philosophy. Students wishing to enroll should first speak with the departmental adviser for majors. Prerequisite: Open to senior majors in Philosophy by consent of instructor. IND.

PHIL 500. Studies in Philosophy: ______. 1-6 Hours. H.
(Topic, instructor, and specific prerequisite to be announced in Schedule of Classes.) A study of particular philosophical problems or thinkers not covered by other courses. The course may be offered concurrently by different instructors under different subtitles, and may, with the consent of the chair, be taken more than once if content varies. LEC.

PHIL 504. Philosophy of Sex and Love. 3 Hours. H.
A discussion of philosophical issues such as the relation between love, autonomy, and friendship; heterosexual and homosexual relationships; marriage and adultery; rape and sexual harassment; prostitution; and pornography. LEC.

PHIL 506. Chinese Thought. 3 Hours. NW AE42/GE3H / H/W.
A survey of the principal modes of Chinese thought from their origins through the imperial period. Not open to students with credit in EALC 132.
PHIL 508. Early Greek Philosophy. 3 Hours. H/W.
A study of the doctrines of Greek philosophy before Plato. Emphasis on
the Pre-Socratic philosophers, with some attention paid to the Sophists
and the Hippocratic corpus. (Same as GRK 508.) Prerequisite: PHIL
384, or GRK 301, or GRK 302, or GRK 303, or GRK 310, or GRK 312, or
permission of instructor. LEC.

PHIL 555. Justice and Economic Systems. 3 Hours. H.
An examination of important representative theories of the justness of
an economic system, with particular attention paid to such institutions
as private property, a market economy, means and relationships of
production, and principles of distribution to individuals. The theorists
under consideration include Locke, Adam Smith, Marx and Engels,
contemporary utilitarians, Rawls, and Nozick. Prerequisite: A course in
ethics or an introductory course in economics or in business. LEC.

PHIL 557. Kant. 3 Hours. H.
A survey of the major works of Immanuel Kant, with attention to his critical
method and its application to issues in theoretical philosophy, practical
philosophy, aesthetics, or the philosophy of history. Prerequisite: PHIL
386. LEC.

PHIL 560. Nineteenth Century Philosophy. 3 Hours. H.
The development of philosophy in the 19th century. Special attention will
be paid to such major figures as Hegel, Kierkegaard, Marx, Nietzsche,
and Mill. Prerequisite: PHIL 386. LEC.

PHIL 562. Kierkegaard. 3 Hours. H.
A study of the thought of Soren Kierkegaard through examination of
some of his major writings. Some attention is given to his influence on the
development of existentialist philosophies. Prerequisite: PHIL 384 or PHIL
386. LEC.

PHIL 570. Nietzsche. 3 Hours. H.
A study of Nietzsche’s major writings and ideas, with some attention to his
philosophical influence. Prerequisite: PHIL 384 or PHIL 386 or permission
of instructor. LEC.

PHIL 580. Marxism. 3 Hours. H/W.
A philosophical study of the classical texts of Marxism and of their
contemporary development. Prerequisite: A course in philosophy or a
course in political science. LEC.

PHIL 582. Existentialism. 3 Hours. H/W.
A study of the main themes and leading philosophers of the existentialist
movement. Prerequisite: Two courses in philosophy. LEC.

PHIL 590. Phenomenology. 3 Hours. H.
A study of the main themes and leading philosophers of the
phenomenological movement. Prerequisite: PHIL 386. LEC.

PHIL 592. Contemporary Continental Philosophy. 3 Hours. H.
A study of selected topics in 20th century European philosophy, such as
hermeneutics, critical theory, and poststructuralism. Figures to be studied
could include Heidegger, Gadamer, Adorno, Habermas, and Foucault.
Prerequisite: PHIL 386. LEC.

PHIL 600. Readings in Philosophy: _____. 1-6 Hours. H.
Individual reading on topics not covered in course work. Prerequisite:
Consent of instructor. IND.

PHIL 605. The Philosophy of Plato. 3 Hours. H.
A survey of the major works of Plato, with attention both to Plato’s
distinctive arguments and positions in the major areas of philosophy
and to the distinctive literary form in which Plato presents his thinking.
Prerequisite: PHIL 384. LEC.

PHIL 607. The Philosophy of Aristotle. 3 Hours. H.
A survey of the major works of Aristotle, with the aim of understanding
Aristotle’s distinctive formulations of central philosophical questions,
the arguments he presents for his answers to those questions, and the
systematic interconnections between his positions in the different areas of
philosophy. Prerequisite: PHIL 384. LEC.

PHIL 608. Hellenistic Philosophy. 3 Hours. H.
Survey of Stoicism, Epicureanism, and Scepticism from their beginnings
through the second century AD. Prerequisite: PHIL 384 and another
course in philosophy. LEC.

PHIL 610. Symbolic Logic. 3 Hours. H.
Propositional calculus, predicate calculus, consistency, decidability of
formal systems, the paradoxes and number concept will be covered. LEC.

PHIL 611. Topics in Symbolic Logic: _____. 1-3 Hours. H.
This course is a workshop in any of a variety of topics in symbolic logic of
special importance to contemporary analytic philosophy, such as modal
logic, tense logic, axiomatic set theory, Goedel’s theorems, model theory,
etc. May be repeated for credit as topics vary. Prerequisite: PHIL 310.
LEC.

PHIL 620. Philosophy of Natural Science. 3 Hours. H.
An examination of conceptual and foundational issues in the natural
sciences. Topics may include the methodology of science (the nature and
status of laws, the precise way in which experiment contributes to theory)
and puzzles concerning the content of science (the status of space and
time, the problematic nature of quantum mechanics). Prerequisite: PHIL
310 or PHIL 610, or permission of instructor. LEC.

PHIL 622. Philosophy of Social Science. 3 Hours. H.
A critical examination of the methods, concepts, and practices of the
social sciences. Topics to be considered may include: theories of
explanation, methodological individualism vs. holism, objectivity, the role
of rationality, myth and the unconscious in the explanation of behavior,
and the value neutrality of science. Prerequisite: One previous course in
philosophy, or permission of instructor. LEC.

PHIL 628. Philosophy of Logic. 3 Hours. H.
A systematic treatment of logical theory. Different types of logic will
be studied along with their philosophical assumptions, motivations,
implications, and uses. Prerequisite: PHIL 310 or PHIL 610. LEC.

PHIL 630. Philosophy of Mathematics. 3 Hours. H.
An examination of varying conceptions of the role and status of
mathematical arguments. Topics may include realism/anti-realism,
the consequences of Goedel’s Incompleteness Theorems, the role of
mathematics in the sciences, and an examination of such historical
thinkers as Plato, Frege, Russell, Wittgenstein, Goedel, and Hilbert.
Prerequisite: PHIL 310 or PHIL 610, or permission of instructor. LEC.

PHIL 638. Philosophy of Language. 3 Hours. AE61 / H.
An examination of the nature of language using the methods of analytic
philosophy. Topics may include meaning, truth, reference, language
and thought, and the nature of linguistic rules. Prerequisite: PHIL 388 or
permission of instructor. LEC.

PHIL 648. Theory of Knowledge. 3 Hours. AE61 / H.
An examination of the nature of knowledge. Topics may include the
concept of knowledge, knowledge of the external world, induction,
theories of justification, and scientific knowledge. Prerequisite: PHIL
384 and PHIL 386, PHIL 388 (which may be taken concurrently), or
permission of instructor. LEC.
PHIL 650. Metaphysics. 3 Hours. AE61 / H.
An examination of some of the central issues in metaphysics. Topics may include causation, the mind-body problem, free will and determinism, modality, natural kinds, the nature of properties, and personal identity. Prerequisite: PHIL 384 and PHIL 386, PHIL 388 (which may be taken concurrently), or permission of instructor. LEC.

PHIL 654. Philosophy of Mind. 3 Hours. AE61 / H.
An examination of the nature of mind using the methods of analytic philosophy. Topics may include consciousness, perception, propositional attitudes, thought and language, action and intention, mind and body, the prospects for scientific psychology, and personal identity. Prerequisite: PHIL 388 or permission of instructor. LEC.

PHIL 662. Aesthetics. 3 Hours. H.
A study of some of the central themes and problems in aesthetics, such as the beautiful and the sublime in nature and the arts. Prerequisite: Two courses in philosophy or graduate standing. LEC.

PHIL 666. Rational Choice Theory. 3 Hours. H.
This course is an introduction to the philosophical issues surrounding individual decision theory, game theory, and social choice theory. This includes issues of scientific theory selection, the nature of preference, the uses of games to model social interaction, and the ethical and political implications of Arrow’s impossibility theorem. Formal techniques of modeling and proof, akin to those used in logic and mathematics, will be used in much of the course. Prerequisite: Two courses in economics, a philosophy course numbered 500 or above, or consent of instructor. LEC.

PHIL 668. Political Philosophy. 3 Hours. H.
A systematic analysis of the concepts of politics, with reference to representative political theories. Prerequisite: A course in philosophy and a course in political science. LEC.

PHIL 670. Contemporary Ethical Theory. 3 Hours. AE51 / H.
An examination of some major moral philosophers and some important issues in ethical theory since the beginning of the twentieth century. Topics covered typically include intuitionism, emotivism, utilitarianism, virtue ethics, and the relationship between morality and rationality. Prerequisite: PHIL 160 or PHIL 161 or two courses in philosophy. LEC.

PHIL 671. Feminist Theories in Ethics. 3 Hours. H.
This course addresses the role (if any) that gender plays in constructing ethical theories. Topics include the impact of culture, affect, and the body on our understanding of gender differences and the importance of these differences for ethics. Prerequisite: PHIL 160 or PHIL 161, or two previous philosophy courses. LEC.

PHIL 672. History of Ethics. 3 Hours. AE51 / H.
An interpretive and critical examination of central texts in the history of moral philosophy, which may include works by Aristotle, Hume, Kant, and J.S. Mill. Prerequisite: PHIL 160 or PHIL 161 or two previous philosophy courses. LEC.

PHIL 674. Philosophy of Law. 3 Hours. H.
An examination of the concept of law and of legal reasoning. In addition, the course may consider such topics as natural law, legal excuses, the relations between law and morality, civil disobedience, civil liberties, the concept of property. Prerequisite: Two courses in philosophy or one course in philosophy and one course in law or consent of instructor. LEC.

PHIL 676. Medical Ethics: Life and Death Issues. 3 Hours. AE51 / H.
After a brief survey of techniques of moral argument and analysis especially as they pertain to the moral impermissibility of murder, particular moral and conceptual issues relating to death and dying in medical contexts will be addressed. Topics such as abortion, infanticide, suicide, euthanasia, the definition of death, and the right to refuse life-saving medical therapy will be included. Prerequisite: Two courses in biology or consent of instructor. LEC.

PHIL 677. Medical Ethics: Professional Responsibilities. 3 Hours. H.
After a brief survey of techniques of moral argument and analysis, particular moral issues related to the obligations of health care professionals and the rights of patients will be discussed. These will include such matters as confidentiality, truth-telling, informed consent, the ethics of research on human subjects, psychosurgery, the rights of the mentally ill, and the rights of the mentally retarded. Prerequisite: Two courses in biology or consent of instructor. LEC.

PHIL 684. Main Currents of Russian Thought I. 3 Hours. H/W.
A study of philosophical, theological and literary monuments designed to acquaint the student with the main cultural forces that have shaped Russian thought and manners. From the origins to Napoleonic times. (Same as SLAV 684.) LEC.

PHIL 686. Main Currents of Russian Thought II. 3 Hours. H/W.
A continuation of SLAV 684 from the age of Pushkin to the present. (Same as SLAV 686.) LEC.

PHIL 800. Tutorial. 3 Hours.
Intensive supervised training in and application of the techniques of research. Required of every graduate student seeking an advanced degree in the first or second semester of enrollment. Passing this tutorial constitutes partial fulfillment of the Ph.D. RSRS requirements. Consent of instructor required for repeating the course. Prerequisite: Graduate standing. RSH.

PHIL 805. Plato. 3 Hours.
Prerequisite: PHIL 508 or PHIL 605 or PHIL 607 or PHIL 608 or permission of instructor. LEC.

PHIL 807. Aristotle. 3 Hours.
Prerequisite: PHIL 508 or PHIL 605 or PHIL 607 or PHIL 608 or permission of instructor. LEC.

PHIL 820. Topics in the History of Philosophy: ______. 3 Hours.
This course may be offered by different instructors under different subtitles, and may be taken more than once if the subject matter varies sufficiently. Topic, instructor, and specific prerequisites to be announced in the Schedule of Classes. Prerequisite: 500-600 level course as specified or permission of instructor. LEC.

PHIL 824. Hume. 3 Hours.
Prerequisite: PHIL 648 or PHIL 650 or PHIL 654 or permission of instructor. LEC.

PHIL 828. Kant. 3 Hours.
Prerequisite: PHIL 648 or PHIL 650 or PHIL 654 or permission of instructor. LEC.

PHIL 831. Hegel. 3 Hours.
Prerequisite: PHIL 560 or 500-600 level course as specified or permission of instructor. LEC.

PHIL 833. Nietzsche. 3 Hours.
A study of the philosophy of Friedrich Nietzsche. Prerequisite: PHIL 560 or PHIL 570 or permission of instructor. LEC.

PHIL 835. Frege. 3 Hours.
Gottlob Frege was the founder of the analytic movement in philosophy, having done seminal work in logic, the philosophy of language, and the philosophy of mathematics. This course will focus on his primary texts as well as his influence on present-day studies. Prerequisite: PHIL 628 or PHIL 630 or PHIL 638 or permission of instructor. LEC.
PHIL 843. Heidegger. 3 Hours.
Prerequisite: PHIL 560 or PHIL 562 or PHIL 570 or PHIL 582 or PHIL 590 or PHIL 592 or permission of instructor. LEC.

PHIL 848. Wittgenstein. 3 Hours.
Prerequisite: PHIL 638 or PHIL 650 or PHIL 654 or permission of instructor. LEC.

PHIL 850. Topics in Recent Philosophy: ______. 3 Hours.
This course may be offered by different instructors under different subtitles, and may be taken more than once if the subject matter varies sufficiently. Topic, instructor, and specific prerequisite to be announced in Schedule of Classes. Prerequisite: 500-600 level as specified or permission of instructor. LEC.

PHIL 852. Quine. 3 Hours.
A systematic study of the major work of W. V. Quine and its influence on subsequent analytic philosophy. Topics will include Quine’s theory of meaning, philosophical logic, and philosophy of science. Prerequisite: PHIL 638 or PHIL 648 or PHIL 650 or PHIL 654 or permission of instructor. LEC.

PHIL 855. Davidson. 3 Hours.
An examination of Donald Davidson’s seminal work in philosophy of language and philosophy of mind. Among the topics to be considered will be meaning, truth, interpretation, action, and propositional attitudes. Prerequisite: PHIL 638 or PHIL 654 or permission of instructor. LEC.

PHIL 860. Topics in Philosophy of Science: ______. 3 Hours.
This course may be offered under different subtitles, and may be taken more than once if the subject matter varies sufficiently. Topic and instructor and specific prerequisite to be announced in the Schedule of Classes. Prerequisite: PHIL 620 or PHIL 622 or PHIL 648 or PHIL 650 or permission of instructor. LEC.

PHIL 862. Topics in Logic: ______. 3 Hours.
This course may be offered under different subtitles, and may be taken more than once if the subject matter varies sufficiently. Topic and instructor and specific prerequisite to be announced in the Schedule of Classes. Prerequisite: PHIL 610 or PHIL 628 or PHIL 630 or permission of instructor. LEC.

PHIL 868. Topics in Philosophy of Language: ______. 3 Hours.
This course may be offered under different subtitles and may be taken more than once if the subject matter varies sufficiently. Prerequisite: PHIL 638 or permission of instructor. LEC.

PHIL 870. Topics in Metaphysics: ______. 3 Hours.
This course may be offered under different subtitles, and may be taken more than once if the subject matter varies sufficiently. Topic and instructor and specific prerequisite to be announced in the Schedule of Classes. Prerequisite: PHIL 650 or permission of instructor. LEC.

PHIL 872. Topics in Theory of Knowledge: ______. 3 Hours.
This course may be offered under different subtitles, and may be taken more than once if the subject matter varies sufficiently. Topic and instructor and specific prerequisite to be announced in the Schedule of Classes. Prerequisite: PHIL 648 or permission of instructor. LEC.

PHIL 877. Topics in Philosophy of Mind: ______. 3 Hours.
This course may be offered under different subtitles, and may be taken more than once if the subject matter varies sufficiently. Topic and instructor and specific prerequisite to be announced in the Schedule of Classes. Prerequisite: PHIL 654 or permission of instructor. LEC.

PHIL 880. Topics in Ethics: ______. 3 Hours.
This course may be offered under different subtitles, and may be taken more than once if the subject matter varies sufficiently. Topic and instructor and specific prerequisite to be announced in the Schedule of Classes. Prerequisite: PHIL 670 or PHIL 672 or permission of instructor. LEC.

PHIL 884. Topics in Social and Political Philosophy: ______. 3 Hours.
This course may be offered under different subtitles, and may be taken more than once if the subject matter varies sufficiently. Topic and instructor and specific prerequisite to be announced in the Schedule of Classes. Prerequisite: PHIL 555 or PHIL 666 or PHIL 668 or PHIL 674 or permission of instructor. LEC.

PHIL 885. Topics in Law and Philosophy. 3 Hours.
Explores various topics at the intersection of law and philosophy. Content varies but may include: What is freedom and what role should government play in a free society? What is equality and what is the best way to achieve it? What is the relationship between law and social justice? What is the source and value of human rights? Should social and economic rights be legally guaranteed? How should government redress historical injustices such as slavery, apartheid, and the Holocaust? Students must complete a substantial seminar paper. (Same as LAW 962.) LEC.

PHIL 886. Topics in Applied Ethics: ______. 3 Hours.
This course may be offered under different subtitles, such as professional ethics or some issue in business ethics (e.g., corporate responsibility) or in medical ethics (e.g., the definition of death); it may be taken more than once if the subject matter varies sufficiently. Topic, instructor, and specific prerequisite to be announced in Schedule of Classes. Prerequisite: PHIL 670 or PHIL 672 or 500-600 level course as specified or permission of instructor. LEC.

PHIL 888. Topics in the Philosophy of the Social Sciences: ______. 3 Hours.
This course may be offered under different subtitles, such as philosophy of a particular social science (e.g., economics, psychology) or a particular issue in the social sciences (e.g., ideology, reductionism), and may be taken more than once if the subject matter varies sufficiently. Topic and instructor and specific prerequisite to be announced in the Schedule of Classes. Prerequisite: PHIL 622 or permission of instructor. LEC.

PHIL 890. Topics in Continental Philosophy: ______. 3 Hours.
This course may be offered under different subtitles, and may be taken more than once if the subject matter varies sufficiently. Topics, instructor, and specific prerequisites to be announced in the Schedule of Classes. LEC.

PHIL 899. Master’s Thesis. 1-6 Hours.
Six hours of credit will be awarded upon completion of the master’s thesis, but no more than six hours of credit may be obtained in this course altogether. Graded on a satisfactory/unsatisfactory basis. THE.

PHIL 900. Research in Philosophy: ______. 1-3 Hours.
Intensive research in philosophy. This course may be taken through individual arrangement, or in connection with small research seminars which are offered occasionally. Students may only enroll for three hours in any given semester. May be repeated if content varies significantly. Prerequisite: Twelve hours of graduate work. RSH.

PHIL 901. Ph.D. Tutorial. 3 Hours.
Independent research on any topic that a graduate student and a faculty member shall agree on. It shall result in a tightly focused 20-30 page paper. The student’s written work will be repeatedly evaluated over the semester by the director, and the final product must be defended in an oral examination conducted by a three-member faculty committee (including the director). Prerequisite: Students must be admitted to the Ph.D. program and have successfully completed the Ph.D. core courses requirement. RSH.
PHIL 999. Dissertation. 1-12 Hours.
This course may be taken more than once, but not for more than twelve hours of credit in any one semester. Graded on a satisfactory/unsatisfactory basis. THE.

Bachelor of Arts and Bachelor of General Studies in Philosophy

Why study philosophy?
Because philosophy teaches you how to think about all aspects of your life and the world around you.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

First- and Second-Year Preparation

Although majors are not required to take courses in philosophy in their first 2 years, the department recommends that they do so. Prospective majors are encouraged to begin with one of the 100-level courses. These courses provide introductions to broad areas of philosophy, and students may apply one 100-level course toward the major requirements. PHIL 310, PHIL 384, PHIL 386, and PHIL 388 are required prerequisites for upper-division work and should be taken early. Prospective majors should consult the director of undergraduate studies early to plan course work.

Requirements for the B.A. or B.G.S. Major

Philosophy Major Core Knowledge and Skills (6)
Majors must complete a course in each of the following areas:

- Ancient Philosophy. Satisfied by:
  - PHIL 384 | Ancient Philosophy | 3

Modern Philosophy from Descartes to Kant. Satisfied by:

- PHIL 386 | Modern Philosophy from Descartes to Kant | 3

Philosophy Major Required Electives (15)
Symbolic Logic. Satisfied by one of the following:

- PHIL 310 | Introduction to Symbolic Logic | 3
- or PHIL 610 | Symbolic Logic | 3

Value Theory. Satisfied by completing one of the following courses:

- PHIL 555 | Justice and Economic Systems | 3
- PHIL 662 | Aesthetics | 3
- PHIL 668 | Political Philosophy | 3
- PHIL 670 | Contemporary Ethical Theory | 3
- PHIL 672 | History of Ethics | 3

Metaphysics / Theory of Knowledge / Philosophy of Language / Philosophy of Mind. Satisfied by completing one of the following courses:

- PHIL 638 | Philosophy of Language | 3
- PHIL 648 | Theory of Knowledge | 3
- PHIL 650 | Metaphysics | 3
- PHIL 654 | Philosophy of Mind | 3

19th/20th Century Philosophy. Satisfied by:

- PHIL 388 | Analytic Philosophy: Frege to Quine | 3
- 1 course from those numbered PHIL 560 - PHIL 592 | 3

Additional Electives (6)
Satisfied by completing 6 additional hours of PHIL courses, 3 hours of which must be at the at the 500-level or above.

Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and GPA minimum standards:

Major Hours
Satisfied by 27 hours of major courses, or 33 hours required if completing departmental honors course PHIL 499.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior (300+) Hours
Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the major.

Major Junior/Senior (500+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (500+) in the major.

Major Junior/Senior (300+) Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/ Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Graduation Plan

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the department for details.
Departmental Honors
To graduate with departmental honors, undergraduates must take 6 hours in philosophy in addition to the 27 hours required for the B.A. or B.G.S., for a total of 33 hours. The 6 additional hours include:

- An additional course numbered 500 or above for a total of at least 15 hours at that level, and
- PHIL 499 Senior Essay.

A committee of 3 faculty members reads the finished essay, gives the candidate an oral examination over the essay, and determines whether it warrants honors. This committee must consist of the instructor in PHIL 499, the departmental honors coordinator, and a third member of the philosophy faculty.

Honors are not awarded to anyone who receives a grade lower than B in PHIL 499, whose final grade-point average in philosophy is lower than 3.5, or whose final KU or cumulative grade-point average is lower than 3.25. To be eligible for departmental honors, students must file a declaration of intent with the departmental honors coordinator no later than enrollment for the final undergraduate semester.

The most important element in departmental honors is the honors essay. Once a student has determined the area in which he or she wishes to work, he or she should arrange to write the essay under the guidance of a faculty member with appropriate expertise. Ideally, this work should be completed during a single semester. However, students often find it difficult to complete the essay in one semester. Therefore, we recommend that the essay be begun in the semester before the one in which the student intends to graduate (typically, in the fall semester of the senior year).

The honors essay should be intermediate between a master’s thesis and a term paper. It should normally be at least 20 pages (6,000 words) long. It should go beyond mere exposition, whether by criticism or by comparison of different works. Interpretations of rare or difficult texts may occasionally be accepted.

Minor in Philosophy

Why study philosophy?
Because philosophy teaches you how to think about all aspects of your life and the world around you.

Requirements for the Minor
Students selecting this option must complete at least 6 courses (18 hours) of philosophy elective courses

PHIL 384 and especially PHIL 386 are strongly recommended.

Minor Hours and Minor GPA
While completing all required courses (above), minors must also meet each of the following hour and GPA minimum standards:

Minor Hours
Satisfied by 18 hours of minor courses.

Minor Hours in Residence
Satisfied by a minimum of 9 junior/senior courses (300+) hours of KU resident credit in the minor.

Minor Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all departmental courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in Philosophy
The philosophy department at the University of Kansas comprises of 13 faculty members and about 35 graduate students. The department has traditionally fostered teaching and research that reflects a number of different philosophical orientations and fields of philosophy. Courses are taught on a broad range of topics. Master’s theses and dissertations have had a similarly wide range of themes. The department’s chief strengths are in history of philosophy (ancient, modern, 19th century), ethics, social-political philosophy, and analytic philosophy, including philosophy of language, philosophy of mind, and metaphysics. The department is in Wescoe Hall, the main humanities building.

The M.A. degree requires 30 hours of graduate course work, including a first-year graduate tutorial and at least 12 additional hours of seminar and/or thesis work. M.A. candidates must pass a comprehensive examination over their course work or must write and successfully defend an M.A. thesis.

Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission to the M.A. in Philosophy
Apply to the graduate program via the Office of Graduate Studies online application system (http://www.graduate.ku.edu).

In addition to the general admission requirements (http://www.graduate.ku.edu/application-process) from the Office of Graduate Studies, applicants are expected to have taken the following seven courses or their equivalents as preparation for graduate work:

1. symbolic logic
2. history of ancient philosophy
3. history of modern philosophy
4. history of 20th-century analytic philosophy (roughly from Frege to Quine)
5. history of 19th/20th-century Continental philosophy
Fast-Track M.A. (for Undergraduate Majors in Philosophy at KU)

The fast-track M.A. provides excellent KU undergraduates in Philosophy an opportunity to complete an MA in Philosophy within a year of completing the bachelor’s degree. Talented students who are planning to continue their studies at the doctoral level or to continue to law school will receive a competitive advantage by acquiring a graduate degree in less time than a traditional terminal M.A.

Admission Requirements

1. All requirements for a bachelor’s in philosophy from KU complete or in progress
2. GPA of 3.5 in philosophy
3. GRE not required, though the department will consider GRE scores as part of an application

Degree Requirements

Students must complete all of the following requirements for the Fast-Track M.A. within one calendar year post-bachelor’s:

1. 24 credit hours of graduate coursework (500-level or above) in philosophy post-bachelor’s with a grade of B or higher. At least 15 of these hours must be in courses numbered 800 or above. Students must complete two courses at the 500-level or above (or the equivalent) in each of these areas: history of philosophy, metaphysics and epistemology (broadly construed), and value theory. Courses taken during the undergraduate career may be counted toward these area requirements, but such work does not count toward the overall 24-hour graduate credit requirement unless the student took this course work for graduate credit and it has department approval.
2. PHIL 800 Tutorial with a grade of B or higher
3. An M.A. exam consisting in the oral defense of a seminar paper of the student’s choosing

Time Limits and Other Restrictions

Students must maintain a minimum GPA of 3.5 in the first semester of graduate study in order to maintain eligibility for the program. They will be subject to a formal mid-year review to ensure satisfactory progress towards completion of the degree.

A student who receives a bachelor’s degree in Spring or Summer begins the M.A. portion of the degree that Fall. The student must then complete all requirements for the Fast-Track M.A. by the first day of classes the following Fall. For example, if a student receives the bachelor’s in Spring 2014 and is accepted into this M.A. track, that student begins the additional year of coursework in Fall 2014 and must complete all requirements for the Fast-Track M.A. by the first day of classes in Fall 2015. Similarly, a student who receives the bachelor’s in the Fall begins the M.A. portion of the degree in the Spring. The student must then complete all requirements for the Fast-Track M.A. by the first day of classes the following Spring.

If a student does not complete the Fast-Track M.A. requirements within one year post-bachelor’s, the student may petition the department for admission to the standard 30-hour M.A. track. In extraordinary circumstances, for example, serious illness, students may petition the department to remain in the 24-hour track.

Application Deadlines

Students who receive a bachelor’s from KU in Spring or Summer must have a completed application with all supplemental documentation by August 1. Priority consideration is guaranteed for students whose applications are complete by April 30. Students who receive a bachelor’s in Fall must have a completed application by November 30.

Students that submit an application by January 15 may be considered for funding in the form of a graduate fellowship.

Interested students are encouraged to contact the department Director of Graduate Studies, Dr. Thomas Tuozzo, ttsuozzo@ku.edu, as early as possible during their undergraduate studies.

M.A. Degree Requirements

The department offers thesis and non-thesis M.A. options. Both require:

1. 30 credit hours of graduate work in philosophy with a grade of B- or higher, with a GPA of at least 3.0 over all courses in philosophy. At least 15 of these hours must be in courses numbered 800 or above and, for the thesis option, may include up to 6 hours of PHIL 899 Master’s Thesis. Students must complete two courses at the 500 level or above (or the equivalent) in each of these areas: history of philosophy, metaphysics and epistemology (broadly construed), and value theory. Courses taken during the undergraduate career may be counted toward these area requirements, but such work does not count toward the overall 30-hour graduate credit requirement unless the student took this course work for graduate credit and it has department approval.
2. PHIL 800 Tutorial must be taken in the first year of study
3. A final examination:
   a. For the thesis option, the student must submit an acceptable thesis and pass a 2-part oral or written examination including 1 part covering the material of the M.A. program generally and a second part devoted to a defense of the thesis.
   b. For the non-thesis option, the student must pass an oral examination covering the material of the M.A. program. The non-thesis option final exam can be satisfied by Ph.D. students who successfully complete PHIL 901 Ph.D. Tutorial with a grade of B or higher.

Time Limits and Other Restrictions

Information on time limits may be found under Master’s Degree Requirements and Program Time Constraints in the Graduate Studies section of the online catalog. The rule for transferring credit toward the
M.A. appears under General Regulations in the Graduate Studies section of the online catalog.

**Juris Doctor and Master of Arts in Philosophy**

**Joint J.D.-M.A. Degree Program**

The joint degree program leading to the J.D. and the M.A. in philosophy develops a student’s understanding and appreciation of the converging disciplines of law and philosophy. The program combines into 3 years and 1 summer session the normal 3-year J.D. program offered by the School of Law and the 2-year M.A. in philosophy program offered by the Department of Philosophy in the College of Liberal Arts and Sciences. Students complete 81 credit hours in law and 21 credit hours in philosophy. Generally, students apply to the School of Law first, and then, if admitted, apply to the M.A. in Philosophy during the fall of their first year in the Law School. The J.D. and M.A. diplomas are then awarded concurrently after completion of joint degree program requirements.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Admission to the Joint Program**

The program is open to those who have earned baccalaureate degrees from accredited colleges or universities and whose undergraduate academic records indicate that they have the capacity to complete the program. Applicants must meet the admission requirements and prerequisites of the School of Law and the Department of Philosophy. The only exception to this is that the Law School Admission Test (LSAT) is the only required entrance examination for such applicants (GRE is not required for either program). Students must apply and be admitted to each school separately. Generally, students apply to the School of Law first, and if admitted, apply later to the M.A. in Philosophy for a start date of the following Fall semester. A student who desires to enter the program while enrolled in the first year of the J.D. or M.A. in philosophy must consult and obtain approval from the School of Law, the Department of Philosophy, and the College of Liberal Arts and Sciences. No student may enter the combined program after completing more than 30 credit hours in the School of Law or 12 hours in the Department of Philosophy.
