It is essential for the student to consult the director of graduate studies in philosophy and a representative of the School of Law about specific courses required or recommended for this program.

For additional information, see the School of Law (p. 760) and the Guidelines and Information for Graduate Students available from the Department of Philosophy (http://www.philosophy.ku.edu).

**Doctor of Philosophy in Philosophy**

The philosophy department at the University of Kansas comprises of 13 faculty members and about 35 graduate students. The department has traditionally fostered teaching and research that reflects a number of different philosophical orientations and fields of philosophy. Courses are taught on a broad range of topics. Master’s theses and dissertations have had a similarly wide range of themes. The department’s chief strengths are in history of philosophy (ancient, modern, 19th century), ethics, social-political philosophy, and analytic philosophy, including philosophy of language, philosophy of mind, and metaphysics. The department is in Wescoe Hall, the main humanities building.

The Ph.D. degree requires 39 hours of graduate course work, including a first-year graduate tutorial and a research tutorial. Ph.D. candidates also must satisfy the University’s Research Skills and Responsible Scholarship requirement, pass both a departmental examination over the research tutorial and an oral comprehensive examination, and write and
successfully defend a dissertation. The M.A./J.D. degree combines into 3 years and 1 summer session the programs for both degrees.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission to the Ph.D. in Philosophy

Apply to the graduate program via the Office of Graduate Studies online application system (http://www.graduate.ku.edu).

In addition to the general admission requirements (http://www.graduate.ku.edu/application-process) from the Office of Graduate Studies, applicants are expected to have taken the following seven courses or their equivalents as preparation for graduate work:

1. symbolic logic
2. history of ancient philosophy
3. history of modern philosophy
4. history of 20th-century analytic philosophy (roughly from Frege to Quine)
5. history of 19th/20th-century Continental philosophy
6. value theory
7. metaphysics/epistemology (broadly construed to include philosophy of language and philosophy of mind).

Students may be admitted without some of these courses, but they are expected to make up the deficiencies early in their graduate careers and outside of the minimum hours required for degree.

For additional information, including relevant deadlines and a list of required supplemental documentation to be submitted with the online application, please visit the graduate page of the Philosophy (http://www.philosophy.ku.edu) website, or contact the department Graduate Program Coordinator, Morgan Swartzlander, mswartz@ku.edu.

Ph.D. Degree Requirements

A student preparing for a doctorate in philosophy must meet general requirements and, before officially enrolling in PHIL 999 Dissertation, must satisfy these special requirements:

Complete at least 39 credit hours of graduate work in regular philosophy courses numbered 500 or above with grades in each course of at least B—and an overall grade-point average of at least B in all graduate philosophy courses. At least 24 of these hours must be at the 800 level or above (including PHIL 800 Tutorial and PHIL 901 Ph.D. Tutorial). Beyond the 39-hour requirement, additional hours in PHIL 999 Dissertation are required as appropriate in accordance with the rules of the Office of Graduate Studies and the Department.

1. Complete PHIL 800 Tutorial with a grade of B- or higher in the first year of enrollment.
2. Formal Philosophy Requirement: Complete PHIL 610 Symbolic Logic or PHIL 666 Rational Choice Theory with a grade of B- or higher.
3. Ph.D. Course Distribution Requirement:

   Metaphysics and Epistemology (6)

   Select two of the following:
   
   PHIL 620 Philosophy of Natural Science
   PHIL 622 Philosophy of Social Science
   PHIL 628 Philosophy of Logic
   PHIL 630 Philosophy of Mathematics
   PHIL 638 Philosophy of Language
   PHIL 648 Theory of Knowledge
   PHIL 650 Metaphysics
   PHIL 654 Philosophy of Mind
   PHIL 850 Topics in Recent Philosophy:
   PHIL 860 Topics in Philosophy of Science:
   PHIL 862 Topics in Logic:
   PHIL 868 Topics in Philosophy of Language:
   PHIL 870 Topics in Metaphysics:
   PHIL 872 Topics in Theory of Knowledge:
   PHIL 877 Topics in Philosophy of Mind:
   PHIL 888 Topics in the Philosophy of the Social Sciences:

   Value Theory (6)

   Select two of the following:
   
   PHIL 504 Philosophy of Sex and Love
   PHIL 555 Justice and Economic Systems
   PHIL 662 Aesthetics
   PHIL 668 Political Philosophy
   PHIL 670 Contemporary Ethical Theory
   PHIL 671 Feminist Theories in Ethics
   PHIL 672 History of Ethics
   PHIL 674 Philosophy of Law
   PHIL 676 Medical Ethics: Life and Death Issues
   PHIL 677 Medical Ethics: Professional Responsibilities
   PHIL 850 Topics in Recent Philosophy:
   PHIL 880 Topics in Ethics:
   PHIL 884 Topics in Social and Political Philosophy:

   PHIL 885 Topics in Law and Philosophy
   PHIL 886 Topics in Applied Ethics:

   Ancient Philosophy (3)

   Select one of the following:
   
   PHIL 508 Early Greek Philosophy
   PHIL 605 The Philosophy of Plato
   PHIL 607 The Philosophy of Aristotle
   PHIL 608 Hellenistic Philosophy
   PHIL 805 Plato
   PHIL 807 Aristotle
   PHIL 820 Topics in the History of Philosophy:

   Modern Philosophy (3)
Select one of the following: 3

PHIL 820  Topics in the History of Philosophy: _____
PHIL 824  Hume
PHIL 828  Kant

Nineteenth- and 20th-Century Philosophy (3)

Select one of the following: 3

PHIL 560  Nineteenth Century Philosophy
PHIL 562  Kierkegaard
PHIL 570  Nietzsche
PHIL 580  Marxism
PHIL 582  Existentialism
PHIL 590  Phenomenology
PHIL 592  Contemporary Continental Philosophy
PHIL 820  Topics in the History of Philosophy: _____
PHIL 831  Hegel
PHIL 835  Frege
PHIL 843  Heidegger
PHIL 848  Wittgenstein
PHIL 850  Topics in Recent Philosophy: _____
PHIL 852  Quine
PHIL 855  Davidson
PHIL 890  Topics in Continental Philosophy: _____
  (Topic, instructor, and specific prerequisites to be announced in the Schedule of Classes.)

4. **PHIL 901 Ph.D. Tutorial**: Students may not enroll in PHIL 901 before the third semester and normally should enroll in PHIL 901 no later than the sixth semester.

5. **Research Skills & Responsible Scholarship Requirement**. The University requires that every doctoral student have training in responsible scholarship and research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. For Philosophy doctoral students, this requirement is met by the following:

- PHIL 800
- PHIL 901
- Demonstrated competence in an approved foreign language, OR completion of a faculty-approved course in a discipline related to the student’s research interests.

6. Pass the comprehensive oral examination for Ph.D. candidacy. This examination must be taken after all of the above requirements have been completed, or in the semester in which the requirements will be completed.

   After the oral comprehensive examination has been passed, the student must write a dissertation of substantial merit showing the planning, conduct, and result of original research and must pass a final oral examination and defense of the dissertation.

**Reduction of Credits**

University graduate credit policy (http://policy.ku.edu/graduate-studies/graduate-credit) does not allow for a direct transfer of credits toward the Ph.D.; however, the department’s requirement of 39 credit hours of acceptable graduate work for the Ph.D. may be reduced by departmental petition depending on the amount and quality of equivalent graduate work completed at another institution. At minimum, 24 hours of acceptable graduate work must be taken in the Department of Philosophy at KU.

**Department of Physics and Astronomy**

**Why study physics and astronomy?**

Because understanding the physical universe starts here.

**Undergraduate Programs**

The astronomy curriculum offers undergraduates a survey of modern astronomy and an introduction to physical science, gives science and engineering students an introduction to astronomy and astrophysics, and prepares students majoring in astronomy for graduate study in astronomy or related fields.

The physics curriculum includes course work for those who want a sound background in physics as part of their general education, for those who study physics as part of their training in other fields, and for those whose post-graduate plans include research or employment in physics or related fields.

**Courses for Nonmajors**

ASTR 191 is a survey of contemporary astronomy, taught at a level using basic mathematics; ASTR 391 offers an introduction to physical astronomy at a calculus-based level. PHSX 111 provides a general introduction to important physics topics and is taught at a level using basic algebra. The department offers two introductory physics sequences that include laboratory work. PHSX 114 and PHSX 115 cover the major fields of physics without calculus. PHSX 211 and PHSX 212, with labs PHSX 216 and PHSX 236, provide a calculus-based foundation in physics for students in physical science, engineering, and mathematics. PHSX 313 and the laboratory course, PHSX 316, provide an introduction to modern physics for majors in physics and some engineering and physical science programs.

Students in biological sciences, health sciences, physical sciences, mathematics, engineering, and prospective elementary and secondary teachers should see appropriate sections of this catalog and major advisors for guidance about required physics course work. Chemistry majors should note that PHSX 211 and PHSX 212 are prerequisites to advanced work in chemistry.

For programs in engineering physics (p. 625), see the School of Engineering section of the online catalog.

**Graduate Programs**

At the graduate level, the Department of Physics and Astronomy offers Master of Science and Doctor of Philosophy degrees in Physics and a Master of Science degree with a subspecialty in computational physics and astronomy.

Information about admission, requirements, and graduate programs is also on the Department of Physics & Astronomy web page.
Courses

ASTR 177. First Year Seminar: , 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Astronomy. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

ASTR 190. Astronomy and Civilization. 3 Hours. N.
A survey course that describes the interplay between the science of astronomy and cultural beliefs. It uses, among others, examples of how religious and philosophical tenets have enhanced or conflicted with scientific principles. Not for astronomy majors. LEC.

ASTR 191. Contemporary Astronomy. 3 Hours. NP GE3N / N.
The structure and evolution of the universe, from nearby planets to distant quasars, are examined. Topics include recent discoveries concerning planets, stars, galaxies, pulsars and black holes as well as their evolution, the structure of the universe today and how it will be in the future. The emphasis is descriptive rather than mathematical. Concurrent enrollment in ASTR 196 suggested, but not required. Prerequisite: One year each of high school algebra and geometry. LEC.

ASTR 196. Introductory Astronomy Laboratory. 1 Hour. U.
An introduction to astronomical observations and methods. Students have the opportunity to use the telescopes at the K.U. observatory. The course includes constellation recognition, finding celestial objects, and interpreting astronomical data. A companion course to ASTR 191 or ASTR 391. Counts as a laboratory science when preceded or accompanied by ASTR 191 or ASTR 391. Prerequisite or corequisite: ASTR 191 or ASTR 391. LAB.

ASTR 293. Astronomy Bizarre. 3 Hours. GE3N / N.
An exploration of physical phenomena found in astrophysical extremes. Topics may include the following: the most violent explosions in the Universe (supernovae and gamma ray bursts; the biggest collisions in nature (galaxy interactions; the densest and most bizarre forms of matter (white dwarfs, neutron stars); the strongest magnetic fields (magnetars, pulsars); the amazing range of exo-planetary properties; and the mysteries of black holes. Prerequisite: Eligibility for MATH 101. LEC.

ASTR 390. Undergraduate Problems. 1-3 Hours. AE61 / N.
Undergraduate observational or theoretical problems in astronomy. Maximum credit, six hours. Prerequisite: Permission of department. IND.

ASTR 391. Physical Astronomy, Honors. 3 Hours. NP GE12/GE3N / N.
An honors, calculus-based introduction to astronomy and astrophysics, required for astronomy majors. Components of the Universe - from planetary systems, stellar systems, large scale structure and cosmology - are examined to illuminate the physics principles which govern their evolution. Prerequisite: MATH 121, and either permission of instructor, or participation in the University Honors Program. LEC.

ASTR 394. The Quest for Extraterrestrial Life. 3 Hours. NP GE11 / N.
An introduction to the search for planets around other stars and for life in the universe beyond the earth. A discussion of the astronomical conditions under which life might form and the biological conditions of life formation and evolution. Methods of searching for extraterrestrial life. Prerequisite: An introductory course in biology, astronomy or geology. LEC.

ASTR 400. Topics in Astronomy: . 1-3 Hours. N.
A course on special topics in astronomy. Course may be repeated for different topics. Each section may have additional prerequisites to be determined by the instructor. LEC.

ASTR 503. Undergraduate Research. 1-4 Hours. AE61 / N.
This course is for students seeking to fulfill the undergraduate research requirement. Students are expected to participate in some area of ongoing research in the department, chosen with the help of their advisor. At the end of the term, students will present their results in a seminar to other students and faculty. (Same as EPHX 503 and PHSX 503.) Prerequisite: Junior/Senior standing in Astronomy, Engineering Physics, or Physics, or permission of instructor. IND.

ASTR 591. Stellar Astronomy. 3 Hours. N.
Fundamentals of stellar astronomy including astronomical optics and techniques, coordinate and time systems, stellar spectroscopy, properties of normal, binary and variable stars. Prerequisite: PHSX 212 and PHSX 236. An introductory astronomy course is desirable. LEC.

ASTR 592. Galactic and Extragalactic Astronomy. 3 Hours. N.
A study of stellar groups, the interstellar medium, galactic structure and dynamics, galaxies, and cosmology. Prerequisite: ASTR 591 or consent of instructor. LEC.

ASTR 596. Observational Astrophysics. 2 Hours. AE61 / N.
Students acquire practical experience with astronomical equipment and data reduction techniques used in research and educational contexts. ASTR 596, combined with an independent research experience, provides a pathway for students to demonstrate creativity and integration of background knowledge. Prerequisite or corequisite: ASTR 591. LEC.

ASTR 597. Analysis in Astrophysics. 1-3 Hours. AE61 / N.
Individual students work on specialized research problems in the field of observational or theoretical astrophysics. Maximum credit, six hours. Prerequisite: ASTR 592. IND.

ASTR 691. Astrophysics I. 3 Hours. N.
An introduction to radiation processes, thermal processes, and radiative transfer in stellar atmospheres and the interstellar medium. (Same as EPHX 691 and PHSX 691.) Prerequisite: PHSX 313 or consent of instructor. LEC.

ASTR 692. Astrophysics II. 3 Hours. N.
The formation and evolution of stars, nucleosynthesis of the elements, and the physical processes of high energy physics. Prerequisite: ASTR 691 or consent of instructor. LEC.

ASTR 791. Seminar in Astrophysics. 1-3 Hours.
Seminar designed to cover current topics in the physics of the Universe beyond the solar system. Content will vary. Graduate students engaged in or preparing for research may repeat enrollments in this course. Open to undergraduates with twelve hours of physics/astronomy courses numbered 500 or above, or consent of instructor. LEC.

ASTR 792. Topics in Advanced Astrophysics. 3 Hours.
This course will address one or more of the following advanced topics in astrophysics: high energy astrophysics, nuclear astrophysics, galactic and extragalactic astrophysics, space physics, cosmology, astrophysics, and the interstellar and intergalactic media (ISM/GM.) This course may be repeated for credit if topical content differs. (Same as PHSX 792.) Prerequisite: ASTR 692 or permission of instructor. LEC.

ASTR 795. Space Plasma Physics. 3 Hours.
The physics of fully ionized gases in magnetic fields and their application to interplanetary processes, planetary radiation belts, and the surface of the sun. The motion of charged particles in magnetic fields, magnetohydrodynamic waves, the solar wind and the magnetosphere. (Same as PHSX 795.) Prerequisite: PHSX 621. Corequisite: PHSX 631. LEC.
ASTR 815. Computational Physics and Astronomy. 3 Hours.
Advanced computer applications in physics and astronomy. General discussion and illustration of problem organization and solution by numerical and other methods with examples from plasma, space, solid state, elementary particle, and nuclear physics and astronomy. Students will design, write, validate, and document a computer program to solve a physical problem. (Same as PHSX 815 and CHEM 914.) Prerequisite: Six hours of computer science courses numbered 300 or above, and six hours of physics and/or astronomy courses numbered 300 or above. LEC.

ASTR 897. Seminar in Plasma and Space Physics. 1-3 Hours.
Graduate students engaged in or preparing for research may repeat enrollments in this course. The content will vary. (Same as PHSX 897.) LEC.

PHSX 111. Introductory Physics. 3 Hours. NP GE11/GE3N / N.
A one-semester survey of classical and modern physics, designed primarily for liberal arts students. Typical subjects include the laws of motion, gravity, electricity and magnetism, sound, light, quantum mechanics, atomic and subatomic physics. Subjects are treated mainly conceptually with some use of basic data. Prerequisite: Eligibility for MATH 104. LEC.

PHSX 112. Concepts in Physics, Honors. 3 Hours. NP GE3N / N.
A discussion of important concepts in physics. While basic concepts such as force, energy, and mass will be introduced as needed, the emphasis will be on an understanding and appreciation of contemporary science. Prerequisite: Eligibility for MATH 104 and participation in the University Honors Program or permission of instructor. LEC.

PHSX 114. College Physics I. 1-4 Hours. NP GE11/GE12/GE3N / N.
Principles and applications of mechanics, fluids, heat, thermodynamics, and sound waves. Three class hours and one laboratory per week. This course emphasizes the development of quantitative concepts and problem solving skills for students needing a broad background in physics as part of their preparation in other major programs, and for those who wish to meet the laboratory science requirement of the College. In special circumstances, permission to enroll in less than four hours may be obtained from the department. Not open to students with credit in PHSX 211 or PHSX 216 or PHSX 212 or PHSX 236. Prerequisite: MATH 104, or three and one-half years of college-preparatory mathematics including trigonometry and a score of 25 or higher on ACT mathematics. LEC.

PHSX 115. College Physics II. 1-4 Hours. N.
A continuation of PHSX 114. Principles and applications of electricity, magnetism, light, atomic physics, and nuclear physics. Three class hours and one laboratory per week. In special circumstances, permission to enroll in less than four hours may be obtained from the department. Not open to students with credit in PHSX 212 or PHSX 236. Prerequisite: PHSX 114. LEC.

PHSX 116. Introductory Physics Laboratory. 1 Hour. U.
A laboratory exploring classical and modern physics, designed primarily for liberal arts students. Experiments in motion gravity, electricity and magnetism, sound, light, atomic and subatomic physics are designed to teach physics concepts and basic laboratory techniques. One two-hour lab period per week. Counts as a laboratory science when preceded or accompanied by PHSX 111. Prerequisite: Eligibility for MATH 104. Corequisite: PHSX 111. LAB.

PHSX 150. Seminar in Physics, Astronomy and Engineering Physics. 0.5 Hours. N.
This course is intended for all students in physics, astronomy and engineering physics. Course content includes topics of current interest in all fields of physics and astronomy. LEC.

PHSX 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Physics. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

PHSX 201. Transition to General Physics. 1 Hour. N.
Classical mechanics and thermodynamics with calculus for students who have had a prior algebra-based course. Prerequisite: PHSX 114, either MATH 116 or 121, and permission of the department. LEC.

PHSX 210. General Physics I for Engineers. 3 Hours. GE11 / N.
Introduction to classical mechanics and thermodynamics designed for students in the School of Engineering. Students not admitted to the School of Engineering must receive permission from instructor. PHSX 210 and PHSX 211 cannot both be taken for credit. Students with credit in PHSX 114 can obtain only one hour of credit. Prerequisite: MATH 121 with a grade of C or better; courses in high school physics and/or chemistry recommended. LEC.

PHSX 211. General Physics I. 1-4 Hours. NP GE11/GE12/GE3N / N.
Introduction to classical mechanics and thermodynamics. Designed for students in engineering and physical science majors. In special circumstances, permission to enroll for fewer than four hours credit may be obtained from the department. Students with credit in PHSX 114 can obtain only one hour of credit. Prerequisite: MATH 116 or MATH 121; courses in high school physics and/or chemistry are recommended. LEC.

PHSX 212. General Physics II. 1-3 Hours. GE3N / N.
Study of electricity and magnetism, waves and sound. In special circumstances, permission to enroll for fewer than three hours credit may be obtained from the department. Students with credit in PHSX 115 can obtain only one hour of credit. Prerequisite: PHSX 211, PHSX 210 or PHSX 213. Corequisite: MATH 122. LEC.

PHSX 213. General Physics I Honors. 1-5 Hours. NP GE11/GE12/GE3N / N.
An honors section of PHSX 211 and PHSX 216. Credit for fewer than five hours requires permission of the department. Recommended for students with a strong math background who are either in the University Honors Program or intending to major in a physical science. Courses in high school physics and chemistry are strongly recommended. Prerequisite: MATH 121 and permission of instructor. LEC.

PHSX 214. General Physics II Honors. 1-4 Hours. N.
An honors section of PHSX 212 and PHSX 236. Credit for fewer than four hours requires permission of the department. Recommended for students with a strong math background who are either in the University Honors Program or intending to major in a physical science. Prerequisite: PHSX 216 together with either PHSX 211 or PHSX 210; or PHSX 213, and permission of instructor. Corequisite: MATH 122. LEC.

PHSX 216. General Physics I Laboratory. 1 Hour. GE11 / N.
Experiments in classical mechanics and thermodynamics. Counts as a laboratory science when accompanied by PHSX 210 or PHSX 211. Pre-or Corequisite: PHSX 210 or PHSX 211. LAB.

PHSX 236. General Physics II Laboratory. 1 Hour. N.
Experiments in electricity and magnetism, waves and sound. Pre-or Corequisite: PHSX 212. LAB.

PHSX 313. General Physics III. 3 Hours. GE3N / N.
Introduction to modern physics. Topics include special relativity, optics, and introductions to quantum mechanics and solid state physics. Prerequisite: PHSX 212 and PHSX 236 or PHSX 214 or EECS 220. Corequisite: MATH 320 or MATH 220. LEC.
PHSX 316. Intermediate Physics Laboratory I. 1 Hour. U.
Experiments in optics and modern physics. Development of experimental skills, data reduction, error analysis, and technical writing. One lab meeting per week and one lecture per week on topics including error analysis and experimental design. Pre-or corequisite: PHSX 313. LAB.

PHSX 400. Topics in Physics and Astronomy: ____, 1-3 Hours. N.
A course on special topics in physics and astronomy, given as the need arises. Course may be repeated for different topics. Each section may have prerequisites to be determined by the instructor. LEC.

PHSX 500. Special Problems. 1-5 Hours. AE61 / N.
Work in some area of physics beyond the topics or material covered in other courses. For some problems, continued enrollment in consecutive semesters may be appropriate. Prerequisite: One junior-senior course in science in an area related to the problem and consent of instructor. IND.

PHSX 501. Honors Research. 1-4 Hours. AE61 / N.
This course is to enable students seeking departmental Honors in Astronomy, Engineering Physics, or Physics to fulfill the undergraduate research requirement. At the completion of the required 4 hours of total enrollment, a written and oral report of the research is required. (Same as EPHX 501.) Prerequisite: Junior/Senior standing in Astronomy, Engineering Physics, or Physics, or permission of instructor. IND.

PHSX 502. Seminar in Physics and Astronomy Instruction. 1-3 Hours. N.
One meeting per week to plan and report progress on projects which may include tutoring of students in personalized modes of study; developing, administering, and scoring test items; designing and improving demonstration and laboratory experiments. Amount of credit depends on projects contracted for and completed. (Distribution credit given for two-three hours only.) Prerequisite: Evidence of prior academic experience relevant to the student’s proposed activities in the seminar and permission of instructor. LEC.

PHSX 503. Undergraduate Research. 1-4 Hours. AE61 / N.
This course is for students seeking to fulfill the undergraduate research requirement. Students are expected to participate in some area of ongoing research in the department, chosen with the help of their advisor. At the end of the term, students will present their results in a seminar to other students and faculty. (Same as ASTR 503 and EPHX 503.) Prerequisite: Junior/Senior standing in Astronomy, Engineering Physics, or Physics, or permission of instructor. IND.

PHSX 511. Introductory Quantum Mechanics. 3 Hours. N.
An introduction to quantum mechanics, emphasizing a physical overview. Topics should include the formalisms of non-relativistic quantum mechanics, the 3-dimensional Schrodinger equation with applications to the hydrogen atom; spin and angular momentum; multi-particle systems of Fermi-Dirac and Bose-Einstein particles; time-independent perturbation theory. (Same as EPHX 511.) Prerequisite: PHSX 313 and MATH 290. LEC.

PHSX 516. Physical Measurements. 4 Hours. N.
A laboratory course emphasizing experimental techniques and data analysis, as well as scientific writing and presentation skills. Experiments will explore a range of classical and modern physics topics. (Same as EPHX 516.) Prerequisite: PHSX 313, PHSX 316 and PHSX 521. (PHSX 521 may be taken concurrently.) LAB.

PHSX 518. Mathematical Physics. 3 Hours. N.
Applications of modern mathematical methods to problems in mechanics and modern physics. Techniques include application of partial differential equations and complex variables to classical field problems in continuous mechanics, unstable and chaotic systems, electrodynamics, hydrodynamics, and heat flow. Applications of elementary transformation theory and group theory, probability and statistics, and nonlinear analysis to selected problems in modern physics as well as to graphical representation of experimental data. Prerequisite: PHSX 313 and MATH 320 or permission of instructor. (Same as EPHX 518.) LEC.

PHSX 521. Mechanics I. 3 Hours. N.
Newton's laws of motion. Motions of a particle in one, two, and three dimensions. Motion of a system of particles. Moving coordinate systems. (Same as EPHX 521.) Prerequisite: PHSX 211 and PHSX 216, or PHSX 213; MATH 223; MATH 290; and MATH 220 or MATH 320. LEC.

PHSX 528. Geodynamics and Plate Tectonics. 3 Hours. N.
Study of physical processes in the solid Earth and of geophysical approaches to studying Earth systems at regional and global scales. Topics include global potential fields, thermal regime, rheology and Earth deformation, earthquakes and seismic structure, plate motions and global tectonics. (Same as GEOL 573) Prerequisite: An introductory course in geology; MATH 116 or MATH 122; and PHSX 115, PHSX 214, or PHSX 212 and PHSX 236. LEC.

PHSX 531. Electricity and Magnetism. 3 Hours. N.
The properties of electric and magnetic fields, including electrostatics, Gauss' Law, boundary value methods, electric fields in matter, electromagnetic induction, magnetic fields in matter, the properties of electric and magnetic dipoles, and of dielectric and magnetic materials. (Same as EPHX 531.) Prerequisite: PHSX 214, or PHSX 212 and PHSX 236; PHSX 521 or special permission; MATH 223; MATH 290; and MATH 220 or MATH 320. LEC.

PHSX 536. Electronic Circuit Measurement and Design. 4 Hours. N.
A laboratory course that explores the theory and experimental techniques of analog and digital electronic circuit design and measurements. Topics include transient response, transmission lines, transistors, operational amplifiers, and digital logic. (Same as EPHX 536.) Prerequisite: PHSX 214 or PHSX 212 and PHSX 236; PHSX 521 or special permission; MATH 223; MATH 290. PHSX 313 and 316 recommended. LAB.

PHSX 557. Topics in Mechanics, Properties of Materials, Thermodynamics. 1-3 Hours.
This course covers the principles and applications of classical mechanics, fluids, heat, thermodynamics and sound. Teaching of these topics is strongly emphasized. Some laboratory work is included. This course is intended for students accepted to the BS Education major in Physics. This course does not count towards Physics or Astronomy major requirements in the College of Liberal Arts and Sciences. Prerequisite: Math 115 and 116, and either PHSX 114 or PHSX 211. LEC.

PHSX 558. Topics in Electricity and Magnetism and Optics. 1-3 Hours.
This course covers the principles and applications of electricity, magnetism and optics. Teaching of these topics is strongly emphasized. Some laboratory work is included. This course is intended for students accepted to the BS Education major in Physics. This course does not count towards Physics or Astronomy major requirements in the College of Liberal Arts and Sciences. Prerequisite: Math 115 and 116, and either PHSX 115 or PHSX 212. LEC.

PHSX 559. Topics in Modern Physics. 1-3 Hours.
This course covers the principles and applications of quantum mechanics, atomic and nuclear physics. Teaching of these topics is strongly emphasized. Some laboratory work is included. This course is intended for students accepted to the BS Education major in Physics. This course does not count towards Physics or Astronomy major requirements in the College of Liberal Arts and Sciences. Prerequisite: Math 115 and 116, and either PHSX 115 or PHSX 313. LEC.
PHSX 594. Cosmology and Culture. 3 Hours. AE42 / N.
A survey of modern physical cosmology, its recent historical roots, and creation myths from many world cultures. An examination of the effects of these stories on their parent cultures. LEC.

PHSX 600. Special Topics in Physics and Astrophysics: ______. 3 Hours.
Different topics will be covered as needed. This course will address topics in physics and astrophysics not covered in regularly offered courses. May be repeated if topic differs. (Same as EPHX 600.) Prerequisite: Permission of instructor. LEC.

PHSX 601. Design of Physical and Electronic Systems. 4 Hours. AE61 / N.
A laboratory course emphasizing the application of physical principles to the design of systems for research, monitoring, or control. Topics include the use of microcomputers as controllers, interfacing microcomputers with measurement devices, and use of approximations and/or computer simulation to optimize design parameters, linear control systems, and noise. (Same as EPHX 601.) Prerequisite: Twelve hours of junior-senior credit in physics or engineering, including one laboratory course. LAB.

PHSX 615. Numerical and Computational Methods in Physics. 3 Hours.
An introduction to the use of numerical methods in the solution of problems in physics for which simplifications allowing closed-form solutions are not applicable. Examples are drawn from mechanics, electricity, magnetism, thermodynamics, and optics. (Same as EPHX 615.) Prerequisite: PHSX 313, MATH 320 or equivalent, and EECS 138 or equivalent. LEC.

PHSX 621. Mechanics II. 3 Hours. N.
Continuation of PHSX 521. Lagrange's equations and generalized coordinates. Mechanics of continuous media. Tensor algebra and rotation of a rigid body. Special relativity and relativistic dynamics. (Same as EPHX 621.) Prerequisite: PHSX 521. LEC.

PHSX 623. Physics of Fluids. 3 Hours. N.
An introduction to basic fluid mechanics in which fundamental concepts and equations are covered. Topics include hydrostatics, hydrodynamics, wave propagation in fluids, and applications in the areas such as astrophysics, atmospheric physics, and geophysics. (Same as EPHX 623.) Prerequisite: MATH 223; MATH 250; PHSX 212 and PHSX 236 (or PHSX 214 can replace PHSX 212 and PHSX 236.) LEC.

PHSX 631. Electromagnetic Theory. 3 Hours. N.
Maxwell's equations, wave propagation, optics and waveguides, radiation, relativistic transformations of fields and sources, use of covariance and invariance in relativity. Normally a continuation of PHSX 531. (Same as EPHX 631.) Prerequisite: PHSX 531. LEC.

PHSX 641. Introduction to Nuclear Physics. 3 Hours. N.
Experimental methods and elementary concepts in nuclear physics, including nuclear forces, alpha and beta decay, gamma radiation, nuclear structure, and reaction systematics. (Same as EPHX 641.) Prerequisite: PHSX 313 and PHSX 511. LEC.

PHSX 655. Optics. 3 Hours. N.
Geometric optics. Wave properties of light: interference, diffraction, coherence. Propagation of light through matter. Selected topics in modern optics, e.g., lasers, fibers. (Same as EPHX 655.) Prerequisite: PHSX 313 and PHSX 316. LEC.

PHSX 661. Introduction to Elementary Particle Physics. 3 Hours. N.
Properties and interactions of quarks, leptons, and other elementary particles; symmetry principles and conservation laws; broken symmetry; gauge bosons; the fundamental interactions, grand unified theories of strong, electromagnetic, and weak interactions; the cosmological implications of elementary particle physics. (Same as EPHX 661.) Prerequisite: PHSX 313 and MATH 320. LEC.

PHSX 671. Thermal Physics. 3 Hours. N.
Development of thermodynamics from statistical considerations. Techniques of calculating thermodynamic properties of systems. Application to classical problems of thermodynamics. Elementary kinetic theory of transport processes. Fermi-Dirac and Bose-Einstein systems. (Same as EPHX 671.) Prerequisite: PHSX 511. LEC.

PHSX 681. Concepts in Solids. 3 Hours. N.
Properties of common types of crystals and amorphous solids. Lattice vibrations and thermal properties of solids. Electrons and holes in energy bands of metals, semi-conductors, superconductors, and insulators. (Same as EPHX 681.) Prerequisite: PHSX 313 and PHSX 511. LEC.

PHSX 691. Astrophysics I. 3 Hours. N.
An introduction to radiation processes, thermal processes, and radiative transfer in stellar atmospheres and the interstellar medium. (Same as ASTR 691 and EPHX 691.) Prerequisite: PHSX 313 or consent of instructor. LEC.

PHSX 693. Gravitation and Cosmology. 3 Hours. N.
An overview of topics relevant to gravitation and modern cosmology: special relativity, tensor notation, the equivalence principle, the Schwarzschild solution, black holes, and Friedmann models. Cosmic black body radiation, dark matter, and the formation of large-scale structure. The idea of quantum gravity and an introduction to the current literature in cosmology. (Same as EPHX 693.) Prerequisite: PHSX 313 and MATH 320. LEC.

PHSX 700. Colloquium. 1 Hour.
Topics of current interest in physics, astronomy, and atmospheric science. Repeat enrollments are permitted. LEC.

PHSX 701. Major Experiments and Observations in Classical and Contemporary Physics. 1-3 Hours.
Critique, discussions, and interpretation of the most important discoveries and observations in physics. LEC.

PHSX 702. Introductory Physics Pedagogy. 1 Hour.
This course will address basic elements of pedagogy in specific relation to the teaching of physics and astronomy labs. It contains such elements as: peer and instructor evaluations of teaching, reading and discussion of pedagogical materials, development of online course material, and discussion of teaching methods. This course may be repeated for credit. Prerequisite: Permission of instructor. LEC.

PHSX 711. Quantum Mechanics I. 3 Hours.

PHSX 717. Graduate Seminar. 1 Hour.
First year graduate students meet to survey research opportunities in the department and develop skills in giving oral presentations in physics and related areas. Students will also learn about topics in responsible scholarship that may include: the origin of ideas and the allocation of credit, the treatment of data, scientific misconduct, intellectual property and entrepreneurship, the researcher in society, collaborative research, mentor/trainee responsibilities, and safe practices. LEC.
PHSX 718. Mathematical Methods in Physical Sciences. 3 Hours.
Review of complex variable theory; introduction to the partial differential equations of physical systems; Fourier analysis; special functions of mathematical physics; and chemistry. (Same as CHEM 718.) Prerequisite: Two semesters of junior-senior mathematics. LEC.

PHSX 721. Chaotic Dynamics. 3 Hours.
Topics covered may include the following: dynamical systems, attractors, sensitive dependence on initial conditions, chaos, one-dimensional maps, strange attractors and fractal dimensions, fat fractals, the horseshoe map, symbolic dynamics, linear stability of periodic orbits, stable and unstable manifolds, Lyapunov exponents, topological entropy, quasiperiodicity, strange nonchaotic attractors, nonattracting chaotic sets, fractal basin boundaries, renormalization group analysis, intermittency, crisis and chaotic transients. Prerequisite: Mechanics (PHSX 521, or its equivalent), ordinary differential equations (MATH 320, or its equivalent), and some computer programming knowledge. LEC.

PHSX 722. Geophysical Data Analysis. 3 Hours.
Fourier analysis, sampling theory, prediction and interpolation of geophysical data, filtering theory, correlation techniques, deconvolution. Examples will be chosen from various fields of geophysics. (Same as GEOL 772.) Prerequisite: MATH 250/AE 250/ARCE 250/CE 250/CPE 250/EECS 250/EPHX 250/ME 250 and either GEOL 572 or GEOL 573 or PHSX 528. LEC.

PHSX 723. Seismology. 3 Hours.
General theory of seismic waves, wave field extrapolation (migration) by finite difference methods, construction of travel-time curves, reflection and attenuation coefficients, earthquake source mechanism, distribution and forecasting of earthquakes. (Same as GEOL 773.) Prerequisite: MATH 250/AE 250/ARCE 250/CE 250/CPE 250/EECS 250/EPHX 250/ME 250 and either GEOL 572 or GEOL 573 or PHSX 528. LEC.

PHSX 724. Potential Fields in Geophysics. 3 Hours.
Reduction and interpretation of gravity and magnetic data with emphasis on exploration techniques. Spectral, analytical and modeling methods of analysis of gravity and magnetic anomalies are emphasized. Prerequisite: MATH 250/AE 250/ARCE 250/CE 250/CPE 250/EECS 250/EPHX 250/ME 250 and either GEOL 572 or GEOL 573 or PHSX 528 or consent of instructor. LEC.

PHSX 727. Advanced Geophysics: ____. 1-3 Hours.
Topics to vary with demand and include heat flow, wave propagation, synthetic seismograms, groundwater exploration, geothermal exploration, electrical methods in exploration, rock mechanics-geotectonics, rock magnetism, geomagnetism, paleomagnetism, geophysical inverse theory, and others upon sufficient demand. May be repeated for different topics. (Same as GEOL 771.) Prerequisite: GEOL 572 or GEOL 573/PHSX 528 or consent of instructor. LEC.

PHSX 731. Molecular Biophysics. 3 Hours.
Methods and concepts in contemporary molecular biophysics are discussed. Particular emphasis is placed on the thermodynamics of macromolecular interactions and quantitative methods of data analysis. Basic enzymology and biophysical spectroscopy will also be reviewed. Prerequisite: PHSX 212, MATH 122, and CHEM 188. LEC.

PHSX 741. Nuclear Physics I. 3 Hours.
Experimental methods in nuclear physics, elementary concepts and simple considerations about nuclear forces, alpha and beta decay, gamma radiation, nuclear structure, and reaction systematics. Prerequisite: PHSX 611. LEC.

PHSX 761. Elementary Particles I. 3 Hours.
Particle accelerators and detectors; quarks and leptons; invariance principles and conservation laws; strong, electromagnetic, and weak interactions of elementary particles; unification of electroweak and other interactions. Prerequisite: PHSX 711. LEC.

PHSX 781. Solid State Physics I. 3 Hours.
Classification of solids, structure and symmetry of crystals; lattice vibrations and thermal properties of solids; electric and magnetic properties; electron theory of metals and semiconductors; electronic and atomic transport processes; theory of ionic crystals. Prerequisite: PHSX 611 (or CHEM 648) and PHSX 671 (or CHEM 646). LEC.

PHSX 791. Seminar in Astrophysics. 1-3 Hours.
Seminar designed to cover current topics in the physics of the Universe beyond the solar system. Content will vary. Graduate students engaged in or preparing for research may repeat enrollments in this course. Open to undergraduates with twelve hours of physics/astronomy courses numbered 500 or above, or consent of instructor. LEC.

PHSX 792. Topics in Advanced Astrophysics. 3 Hours.
This course will address one or more of the following advanced topics in astrophysics: high energy astrophysics, nuclear astrophysics, galactic and extragalactic astrophysics, space physics, cosmology, astrobiophysics, and the interstellar and intergalactic media (ISM/IGM). This course may be repeated for credit if topical content differs. (Same as ASTR 792.) Prerequisite: ASTR 692 or permission of instructor. LEC.

PHSX 793. Physical Cosmology. 3 Hours.
Discussion of how fundamental laws of physics govern the evolution of the universe as a whole along with its structure. Survey of cosmogenetic clues in the observable universe, including observed structures, cosmic background radiation and evidence for dark matter. Development of the universe, including theories of initial conditions; cosmological phase transitions; generation of possible relics and dark matter; symmetry breaking; baryon asymmetry; nucleosynthesis; recombinant, gravitational instability and the formation of structure; current experimental techniques. Prerequisite: PHSX 718. Recommended: PHSX 593. LEC.

PHSX 795. Space Plasma Physics. 3 Hours.
The physics of fully ionized gases in magnetic fields and their application to interplanetary processes, planetary radiation belts, and the sun. The motion of charged particles in magnetic fields, magnetohydrodynamic waves, the solar wind, the ionosphere, and the magnetosphere. (Same as ASTR 795.) Prerequisite: PHSX 621. Corequisite: PHSX 631. LEC.

PHSX 800. Graduate Problems. 1-5 Hours.
Advanced laboratory problems, special research problems, or library reading problems. Repeated enrollments are permitted. RSH.

PHSX 801. Advanced Topics. 1-3 Hours.
Lectures on advanced material not covered by regular courses. The topics are not limited but generally address recent experimental or theoretical developments in subjects such as superconductivity, nuclear physics, elementary particle physics, quantum field theory, gauge and unified theories, nonlinear or chaotic systems, space plasma physics, and astrophysics and cosmology. Repeated enrollments are permitted. LEC.

PHSX 811. Quantum Mechanics II. 3 Hours.
Time dependent perturbation theory. Gauge invariance and electromagnetic interactions. Quantization of the electromagnetic field and applications. The Dirac equation, its transformation properties and applications to relativistic problems. Scattering theory, elementary applications, and formal properties. Prerequisite: PHSX 711. LEC.

PHSX 815. Computational Methods in Physical Sciences. 3 Hours.
Advanced computer applications in physical science. General discussion and illustration of problem organization and solution by numerical and other methods with examples from physics, astronomy, and other physical sciences. Students will design, write, validate, and document a computer
program to solve a physical problem. (Same as ASTR 815 and CHEM 914.) Prerequisite: Six hours of computer science courses numbered 300 or above, and six hours of physics and/or astronomy courses numbered 300 or above. LEC.

PHSX 817. Graduate Seminar. 1 Hour.
First year graduate students meet to survey research opportunities in the department and develop skills in giving oral presentations in physics and related areas. Prerequisite: Only one hour of 817 can count toward required hours for degree. LEC.

PHSX 821. Classical Mechanics. 3 Hours.
Vector and tensor notation; review of Newtonian mechanics; Lagrangian mechanics; linear vector spaces and matrix theory with applications to the theory of small oscillations; rigid bodies; Hamiltonian formalism. Special relativity. Prerequisite: Twelve hours of junior-senior courses in physics. LEC.

PHSX 831. Electrodynamics I. 3 Hours.
Electrostatics and magnetostatics; Maxwell’s equations; plane waves; waveguides. Prerequisite: PHSX 718 and PHSX 821. LEC.

PHSX 841. Nuclear Physics II. 3 Hours.
Nuclear forces and the two-body problem; nuclear models; phenomenological treatment of nuclear reactions and decay processes. Prerequisite: PHSX 741 and PHSX 811. LEC.

PHSX 861. Elementary Particles II. 3 Hours.
Theoretical analysis of the standard model of strong and electroweak interactions. Applications to decay and scattering processes with comparison to experiments. Selected topics in non-perturbative physics. Examples of tests to probe beyond the standard model. Prerequisite: PHSX 761. Corequisite: PHSX 911. LEC.

PHSX 871. Statistical Physics I. 3 Hours.
Review of and advanced topics in thermodynamics; the Maxwell relations; the third law; phase transitions. Kinetic theory: the Boltzmann equation; transport phenomena. Statistical mechanics: ideal Maxwell-Boltzmann, Fermi-Dirac and Bose-Einstein gases; ensemble theory; derivation of the laws of thermodynamics. Prerequisite: PHSX 711 and PHSX 821. PHSX 671 is recommended. LEC.

PHSX 881. Solid State Physics II. 3 Hours.
More advanced topics in solid state physics that may include: diamagnetism, paramagnetism, ferromagnetism, and antiferromagnetism; electron and nuclear spin magnetic resonance; dielectric properties and ferroelectricity; photoconductivity and luminescence. Prerequisite: PHSX 631 and PHSX 711 (or CHEM 915). LEC.

PHSX 895. Plasma Physics. 3 Hours.
Magnetohydrodynamics, including discussion of shocks, waves, and stability theory; statistical mechanical foundations; kinetic theory; microstability; non-linear phenomena. Prerequisite: PHSX 795. LEC.

PHSX 897. Seminar in Plasma and Space Physics. 1-3 Hours.
Graduate students engaged in or preparing for research may repeat enrollments in this course. The content will vary. (Same as ASTR 897.) LEC.

PHSX 899. Master’s Research/Thesis. 1-10 Hours.
Research work (either experimental or theoretical) in physics for students working toward the master’s degree. Repeated enrollments are permitted. THE.

PHSX 911. Quantum Mechanics III. 3 Hours.
Path integral formulation of quantum mechanics. Introduction to quantum field theory using the canonical approach and using the path integral approach. Application of perturbation theory in quantum electrodynamics. Selected applications in condensed matter, nuclear, and particle physics. Prerequisite: PHSX 811. LEC.

PHSX 912. Quantum Field Theory. 3 Hours.
Survey of problems in quantum field theory. Functional methods. Renormalization and renormalization group. Role of symmetries. Gauge field theories. Symmetry breaking. Prerequisite: PHSX 911. LEC.

PHSX 915. Relativity. 3 Hours.
Reviews of special relativity, manifolds, tensors, and geometry. General coordinate covariance and general relativity. Applications to classical theory of gravitation: weak field tests, isotropic, homogeneous cosmology, Schwarzschild solution. Selected advanced topics. Prerequisite: A total of 10 hours of junior/senior work in physics and mathematics, including at least concurrent enrollment in MATH 646. LEC.

PHSX 917. Seminar in Theoretical Physics. 1-3 Hours.
Graduate students engaged in or preparing for research may repeat enrollments in this course. Content will vary. LEC.

PHSX 931. Electrodynamics II. 3 Hours.
Inhomogeneous Maxwell’s equations and multipole radiation fields; special theory of relativity; radiation from accelerated charges: scattering and dispersion. Prerequisite: PHSX 831. LEC.

PHSX 947. Seminar in Nuclear Physics. 1-3 Hours.
Graduate students engaged in or preparing for research may repeat enrollments in this course. The content will vary. LEC.

PHSX 957. Seminar in Particle Physics. 1-3 Hours.
Graduate students engaged in or preparing for research may repeat enrollments in this course. The content will vary. LEC.

PHSX 971. Advanced Statistical Mechanics. 3 Hours.
Advanced equilibrium statistical mechanics and introduction to nonequilibrium statistical mechanics. Topics include: the theory of liquids, critical phenomena, linear response theory and time correlation functions, Langevin dynamics, and molecular hydrodynamics. (Same as CHEM 950.) Prerequisite: PHSX 871 or CHEM 917. LEC.

PHSX 987. Seminar in Solid State Physics. 1-3 Hours.
Graduate students engaged in or preparing for research may repeat enrollments in this course. The content will vary. LEC.

PHSX 999. Ph.D. Dissertation Research. 1-10 Hours.
Research work (either experimental or theoretical) in physics for students working toward the Ph.D. degree. Repeated enrollments are permitted. THE.

Bachelor of Arts in Astronomy

Why study astronomy?
Because understanding the physical universe starts here.

Undergraduate Programs

Astronomy programs are offered through the Department of Physics and Astronomy. The astronomy curriculum offers undergraduates a survey of modern astronomy and an introduction to physical science, gives science and engineering students an introduction to astronomy and astrophysics, and prepares students majoring in astronomy for graduate study in astronomy or related fields.

Courses for Nonmajors

ASTR 191 surveys a wide range of contemporary astronomy topics while ASTR 293 discusses a shorter list of astrophysically extreme objects in greater detail; both courses require eligibility for MATH 101. ASTR 394
is open to students with previous coursework in astronomy, geology or biology; ASTR 391 offers an introduction to physical astronomy at a calculus-based level.

**Undergraduate Admission**

**Admission to KU**

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

**Advising**

Students considering a major in astronomy should confer early with a departmental representative about the selection of courses. The B.A. degree is appropriate for students who want a general education in astronomy as part of a broadly structured liberal education. The B.S. is a more specialized program with a substantial emphasis on physics content as well as astronomy. It provides preparation for a professional career or graduate work in astronomy, astrophysics, or related fields. A total of 120 credit hours is required for graduation.

**First- and Second-Year Preparation**

All major programs in physics and astronomy share requirements in basic physics and mathematics including PHSX 150, a seminar course for majors. Completion of MATH 121 and MATH 122 in the first year allows students to start calculus-based physics foundation courses (PHSX 211 or PHSX 213, followed by PHSX 212 or PHSX 214, with labs PHSX 216 and PHSX 236) by the second semester. Majors are encouraged to take PHSX 213 and PHSX 214, the honors versions of PHSX 211 and PHSX 212. Students should take these courses and ASTR 391 in their first two years. B.S. astronomy majors normally complete additional course work in mathematics (MATH 223, MATH 290, and MATH 320), as well as PHSX 313 and PHSX 316, in the second year.

### Requirements for the B.A. Major in Astronomy

All students pursuing the Bachelor of Arts in Astronomy must complete the KU Core requirements and the College BA specific requirements, listed in the KU Core and College sections of the catalog.

#### Additional general science requirements: (0)

### Astronomy Major Requirements (11)

Majors must complete a course in each of the four following areas:

- **Physical Astronomy, Honors. Satisfied by the following:**
  - ASTR 391 | Physical Astronomy, Honors | 3 |

- **Stellar Astronomy. Satisfied by the following:**
  - ASTR 591 | Stellar Astronomy | 3 |

- **Observational Astrophysics. Satisfied by the following:**
  - ASTR 596 | Observational Astrophysics | 2 |

- **Galactic & Extragalactic Astronomy. Satisfied by the following:**
  - ASTR 592 | Galactic and Extragalactic Astronomy | 3 |

**Additional astronomy, astrophysics or physics courses required for major (5)**
In addition to the above specifically required courses, Astronomy BA candidates must complete at least 5 additional credits in physics or astronomy at the 300+ level. Students may enroll in ASTR 390 for undergraduate problems for 1 or more credit hours and in ASTR 503 (501 honors) for research credit. ASTR 394 is highly recommended. Other recommended courses include ASTR 691 and 692, PHSX 594, GEOL 572, PHSX 313/316 and other PHSX courses 500 and above; most of these course have pre-requisites that may require additional preparation in mathematics and/or physics.

Major Hours & Major GPA
While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 25.5 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior (300+) Hours
Satisfied by a minimum of 16 hours from junior/senior courses (300+) in the major.

Major Junior/Senior (300+) Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

With careful planning and commitment to a full-time course load, you can graduate in 4 years. See the department for details.

Departmental Honors in Astronomy
Qualified undergraduates earning either a B.A. or a B.S. degree with a major in astronomy may graduate with honors by meeting these requirements:

1. By the end of the candidate’s final semester, he or she must earn a minimum grade-point average of 3.25 overall and 3.5 in the major in all courses taken in residence and elsewhere.
2. The candidate must complete at least 24 credit hours of astronomy and physics courses numbered 500 or above, including undergraduate research represented by 4 hours of credit in ASTR 596, ASTR 597, PHSX 500, or PHSX 501, with a grade of B or higher.
3. The results of the research must be presented in written form and accepted by three members of the department faculty.

A student who plans to graduate with honors in astronomy must file a declaration of intent form with the departmental honors coordinator, preferably during his or her junior year, but no later than enrollment for the final undergraduate semester.

Bachelor of Science in Astronomy

Why study astronomy?
Because understanding the physical universe starts here.

Undergraduate Programs
Astronomy programs are offered through the Department of Physics and Astronomy. The astronomy curriculum offers undergraduates a survey of modern astronomy and an introduction to physical science, gives science and engineering students an introduction to astronomy and astrophysics, and prepares students majoring in astronomy for graduate study in astronomy or related fields.

Courses for Nonmajors
ASTR 191 surveys a wide range of contemporary astronomy topics while ASTR 293 discusses a shorter list of astrophysically extreme objects in greater detail; both courses require eligibility for MATH 101. ASTR 394 is open to students with previous coursework in astronomy, geology or biology; ASTR 391 offers an introduction to physical astronomy at a calculus-based level.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Admission to the College of Liberal Arts and Sciences
Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Advising
Students considering a major in astronomy should confer early with a departmental representative about the selection of courses. The B.A. degree is appropriate for students who want a general education in astronomy as part of a broadly structured liberal education. The B.S. is a more specialized program with a substantial emphasis on physics content as well as astronomy. It provides preparation for a professional career or graduate work in astronomy, astrophysics, or related fields. A total of 120 credit hours is required for graduation.

First- and Second-Year Preparation
All major programs in physics and astronomy share requirements in basic physics and mathematics including PHSX 150, a seminar course for majors. Completion of MATH 121 and MATH 122 in the first year allows students to start calculus-based physics foundation courses (PHSX 211
and PHSX 216 or PHSX 213, followed by PHSX 212 and PHSX 236
or PHSX 214) by the second semester. Majors are encouraged to take
PHSX 213 and PHSX 214, the honors versions of PHSX 211/PHSX 216
and PHSX 212/PHSX 236. Students should take these courses and
ASTR 391 in their first two years. B.S. astronomy majors normally
complete additional course work in mathematics (MATH 223, MATH 290,
and MATH 320), as well as PHSX 313 and PHSX 316, in the second year.

### Requirements for the B.S. Degree in Astronomy

All students pursuing the Bachelor of Science in Astronomy must
complete the KU Core requirements in addition to the degree and major
requirements. For details regarding the KU Core requirements, please see
the KU Core section of the catalog.

#### General science requirements: (0)

Majors must complete courses as specified in each of the following
areas. Majors are advised to take honors courses when eligible.
These hours do not contribute to the minimum number of hours
required for the major.

**Computing and Programming.** Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EECS 138</td>
<td>Introduction to Computing: _____</td>
</tr>
<tr>
<td>EECS 168</td>
<td>Programming I</td>
</tr>
</tbody>
</table>

**Calculus I.** Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 121</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH 141</td>
<td>Calculus I: Honors</td>
</tr>
<tr>
<td>Or equivalent</td>
<td></td>
</tr>
</tbody>
</table>

**Calculus II.** Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 122</td>
<td>Calculus II</td>
</tr>
<tr>
<td>MATH 142</td>
<td>Calculus II: Honors</td>
</tr>
<tr>
<td>Or equivalent</td>
<td></td>
</tr>
</tbody>
</table>

**Seminar in Physics, Astronomy, & Engineering Physics.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 150</td>
<td>Seminar in Physics, Astronomy and Engineering Physics</td>
</tr>
</tbody>
</table>

**General Physics I.** Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 211</td>
<td>General Physics I</td>
</tr>
<tr>
<td>&amp; PHSX 216</td>
<td>and General Physics I Laboratory</td>
</tr>
</tbody>
</table>

**General Physics II.** Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 212</td>
<td>General Physics II</td>
</tr>
<tr>
<td>&amp; PHSX 236</td>
<td>and General Physics II Laboratory</td>
</tr>
</tbody>
</table>

**Foundations of Chemistry I.** Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 130</td>
<td>General Chemistry I</td>
</tr>
<tr>
<td>CHEM 190</td>
<td>Foundations of Chemistry I, Honors</td>
</tr>
</tbody>
</table>

**Advanced Mathematics Core Knowledge and Skills (11)**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 223</td>
<td>Vector Calculus</td>
</tr>
<tr>
<td>MATH 290</td>
<td>Elementary Linear Algebra</td>
</tr>
<tr>
<td>MATH 320</td>
<td>Elementary Differential Equations</td>
</tr>
<tr>
<td>PHSX 518</td>
<td>Mathematical Physics</td>
</tr>
</tbody>
</table>

**Math Elective.** Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 526</td>
<td>Applied Mathematical Statistics I</td>
</tr>
<tr>
<td>MATH 530</td>
<td>Mathematical Models I</td>
</tr>
<tr>
<td>MATH 558</td>
<td>Introductory Modern Algebra</td>
</tr>
<tr>
<td>MATH 581</td>
<td>Numerical Methods</td>
</tr>
<tr>
<td>MATH 590</td>
<td>Linear Algebra</td>
</tr>
<tr>
<td>MATH 628</td>
<td>Mathematical Theory of Statistics</td>
</tr>
<tr>
<td>MATH 646</td>
<td>Complex Variable and Applications</td>
</tr>
<tr>
<td>MATH 647</td>
<td>Applied Partial Differential Equations</td>
</tr>
<tr>
<td>MATH 648</td>
<td>Calculus of Variations and Integral Equations</td>
</tr>
<tr>
<td>MATH 660</td>
<td>Geometry I</td>
</tr>
<tr>
<td>MATH 661</td>
<td>Geometry II</td>
</tr>
</tbody>
</table>

### Astronomy Requirements for Major (18-21)

Majors must complete courses as indicated in the following areas:

**Physical Astronomy, Honors.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR 391</td>
<td>Physical Astronomy, Honors</td>
</tr>
</tbody>
</table>

**Stellar Astronomy.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR 591</td>
<td>Stellar Astronomy</td>
</tr>
</tbody>
</table>

**Galactic & Extragalactic Astronomy.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR 592</td>
<td>Galactic and Extragalactic Astronomy</td>
</tr>
</tbody>
</table>

**Observational Astrophysics.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR 596</td>
<td>Observational Astrophysics</td>
</tr>
</tbody>
</table>

**Astrophysics I and II.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR 691</td>
<td>Astrophysics I</td>
</tr>
<tr>
<td>ASTR 692</td>
<td>Astrophysics II</td>
</tr>
</tbody>
</table>

**Undergraduate Research.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR 503</td>
<td>Undergraduate Research</td>
</tr>
</tbody>
</table>

**Physics Core Knowledge and Skills (26)**

Majors must complete courses as indicated in the following areas:

**General Physics III.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 313</td>
<td>General Physics III</td>
</tr>
</tbody>
</table>

**Intermediate Physics Lab.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 316</td>
<td>Intermediate Physics Laboratory I</td>
</tr>
</tbody>
</table>

**Introductory Quantum Mechanics.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 511</td>
<td>Introductory Quantum Mechanics</td>
</tr>
</tbody>
</table>

**Physical Measurements or Electronic Circuit Measurement and Design.** Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 516</td>
<td>Physical Measurements</td>
</tr>
<tr>
<td>PHSX 536</td>
<td>Electronic Circuit Measurement and Design</td>
</tr>
</tbody>
</table>

**Mechanics I.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 521</td>
<td>Mechanics I</td>
</tr>
</tbody>
</table>

**Electricity and Magnetism.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 531</td>
<td>Electricity and Magnetism</td>
</tr>
</tbody>
</table>

**Thermal Physics.** Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 671</td>
<td>Thermal Physics</td>
</tr>
</tbody>
</table>

**Physics Elective.** Satisfied by any PHSX lecture or laboratory course numbered 500 or higher (PHSX 693 recommended) (with the exception of PHSX 594), including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR 792</td>
<td>Topics in Advanced Astrophysics</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR/PHSX 795</td>
<td>Space Plasma Physics</td>
</tr>
</tbody>
</table>
GEOL 572  Geophysics
PHSX 693  Gravitation and Cosmology (recommended)

1 PHSX 594 will not be accepted for astronomy B.S. majors to satisfy this requirement.

Major Hours & Major GPA
While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 30 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior (300+) Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Departmental Honors in Astronomy
Qualified undergraduates earning either a B.A. or a B.S. degree with a major in astronomy may graduate with honors by meeting these requirements:

1. By the end of the candidate’s final semester, he or she must earn a minimum grade-point average of 3.25 overall and 3.5 in the major in all courses taken in residence and elsewhere.
2. The candidate must complete at least 24 credit hours of astronomy and physics courses numbered 500 or above, including undergraduate research represented by 4 hours of credit in ASTR 596, ASTR 597, PHSX 500, or PHSX 501, with a grade of B or higher.
3. The results of the research must be presented in written form and accepted by three members of the department faculty.

A student who plans to graduate with honors in astronomy must file a declaration of intent form with the departmental honors coordinator, preferably during his or her junior year, but no later than enrollment for the final undergraduate semester.

Bachelor of Arts in Physics
Why study physics and astronomy?
Because understanding the physical universe starts here.

Undergraduate Admission
Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences
Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Requirements for the B.A. Major in Physics
All students pursuing the Bachelor of Arts in Physics must complete the KU Core requirements and the College BA specific requirements, listed in the KU Core and College sections of the catalog.

Bachelor of Arts in Physics Major Course Requirements

Foundational Physics and Mathematics (19.5)
Majors must complete courses as specified in each of the following areas. Majors are advised to take honors courses when eligible. All honors equivalents are also acceptable to fulfill PHSX major requirements. These hours do not contribute to the minimum number of hours required for the major.

Seminar in Physics, Astronomy, & Engineering Physics. Satisfied by:
PHSX 150  Seminar in Physics, Astronomy and Engineering Physics  0.5

General Physics I. Satisfied by one of the following:
PHSX 211 & PHSX 216  General Physics I and General Physics I Laboratory  5
PHSX 213  General Physics I Honors  4

General Physics II. Satisfied by one of the following:
PHSX 212 & PHSX 236  General Physics II and General Physics II Laboratory  4

Calculus I. Satisfied by:
MATH 121  Calculus I (or equivalent)  5
Calculus II. Satisfied by:
MATH 122  Calculus II (or equivalent)  5

Advanced Math Requirement (5)
MATH 223  Vector Calculus  3
Elementary Linear Algebra. Satisfied by:
MATH 290  Elementary Linear Algebra  2
Differential Equations. Satisfied by one of the following:
MATH 220  Applied Differential Equations  3
MATH 320  Elementary Differential Equations (recommended)
Advance Physics Major Requirements (17)
Majors must complete a course in each of the following areas:
General Physics III. Satisfied by:
PHSX 313 General Physics III 3
Intermediate Physics Lab. Satisfied by:
PHSX 316 Intermediate Physics Laboratory I 1
Introductory Quantum Mechanics. Satisfied by:
PHSX 511 Introductory Quantum Mechanics 3
Mechanics I. Satisfied by:
PHSX 521 Mechanics I 3
Electricity and Magnetism. Satisfied by:
PHSX 531 Electricity and Magnetism 3
Electronic Circuit Measurement and Design. Satisfied by:
PHSX 536 Electronic Circuit Measurement and Design 4
or PHSX 516 Physical Measurements
Physics Required Elective (3)
Satisfied by any lecture or laboratory course numbered 500 or higher. 3

Physics Major Hours & Major GPA
While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 30 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior (300+) Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior (300+) Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Concentration in Computational Physics

**Physics Prerequisite or Co-requisite Knowledge (27)**
Majors must complete courses as specified in each of the following areas. Majors are advised to take honors courses when eligible. These hours do not contribute to the minimum number of hours required for the major.

Programming I. Satisfied by:
EECS 168 Programming I 4
Programming II. Satisfied by:
EECS 268 Programming II 4
Elementary Linear Algebra. Satisfied by:
MATH 290 Elementary Linear Algebra 2
Elementary or Applied Differential Equations. Satisfied by:
MATH 220 Applied Differential Equations 3
or MATH 320 Elementary Differential Equations
Foundations of Chemistry I. Satisfied by:
CHEM 130 General Chemistry I 1
Principles of Biology. Satisfied by:

BIOL 100 Principles of Biology 1 3
Introduction to Symbolic Logic. Satisfied by:
PHIL 310 Introduction to Symbolic Logic 1 3
Economics. Satisfied by:
ECON 142 Principles of Microeconomics 1 3
or ECON 144 Principles of Macroeconomics

**Physics Core Knowledge and Skills (27.5)**
Majors must complete a course in each of the following areas:
Seminar in Physics, Astronomy, and Engineering Physics. Satisfied by:
PHSX 150 Seminar in Physics, Astronomy and Engineering Physics 0.5
General Physics I. Satisfied by one of the following:
PHSX 211 General Physics I
or PHSX 216 General Physics I Laboratory
PHSX 213 General Physics I Honors
General Physics II. Satisfied by one of the following:
PHSX 212 General Physics II
or PHSX 236 General Physics II Laboratory
PHSX 214 General Physics II Honors
General Physics III and Intermediate Physics Laboratory. Satisfied by:
PHSX 313 General Physics III
or PHSX 316 General Physics Laboratory I
Mechanics I. Satisfied by:
PHSX 521 Mechanics I 3
Electricity and Magnetism. Satisfied by:
PHSX 531 Electricity and Magnetism 3
Electronic Circuit Measurement and Design. Satisfied by:
PHSX 536 Electronic Circuit Measurement and Design 4
or PHSX 516 Physical Measurements
Special Problems. Satisfied by:
PHSX 500 Special Problems 5
Numerical and Computational Methods in Physics. Satisfied by:
PHSX 615 Numerical and Computational Methods in Physics 3

1 CHEM 130, PHIL 310, ECON 142 or ECON 144, and BIOL 100 should be taken to fulfill B.A. general education requirements.

Physics Major Hours & Major GPA
While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 31.5 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior (300+) Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior (300+) Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).
study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

With careful planning and commitment to a full-time course load, you can graduate in four years. Please contact the department for details.

Departmental Honors in Physics

A qualified undergraduate earning either a B.A. or a B.S. degree in the College with a major in physics may graduate with honors in physics by fulfilling these requirements:

1. By the end of the candidate’s final semester, achieve a minimum grade-point average of 3.25 overall and 3.5 in the major, in all courses taken in residence and elsewhere.
2. Complete at least 24 semester credit hours of physics courses numbered 500 or above, including undergraduate research represented by 4 hours of credit in PHSX 500 Special Problems or PHSX 501 Honors Research. The student must earn a grade of B or higher in PHSX 500 or PHSX 501.
3. The student must present the results of the research in written form, which must be accepted by 3 department faculty members.

A student who plans to graduate with honors in physics must file a declaration of intent form with the departmental honors coordinator, preferably during his or her junior year, but in any case, no later than enrollment for the final undergraduate semester.

Bachelor of Science in Physics

Why study physics and astronomy?
Because understanding the physical universe starts here.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements.

See individual department/program sections for departmental admission requirements.

Requirements for the B.S. Degree in Physics

Physics Bachelor of Science (B.S.) General Education Requirements

All students pursuing the Bachelor of Science in Physics must complete the KU Core requirements in addition to the degree and major requirements. For details regarding the KU Core requirements, please see the KU Core section of the catalog.

Foundational Physics and Mathematics (10.5)

Majors must complete courses as specified in each of the following areas. Majors are advised to take honors courses when eligible. All honors equivalents are also acceptable to fulfill PHSX major requirements. These hours do not contribute to the minimum number of hours required for the major.

<table>

General Science Requirements (8)

Foundations of Chemistry I. Satisfied by:

General Physics I. Satisfied by one of the following:

Computing and Programming. Satisfied by:

Advanced Mathematics (8)

Math Elective. Satisfied by one of the following: (0)

Math Elective. Satisfied by one of the following: (0)
MATH 590    Linear Algebra
MATH 628    Mathematical Theory of Statistics
MATH 646    Complex Variable and Applications
MATH 647    Calculus of Variations and Integral Equations
MATH 660    Geometry I
MATH 661    Geometry II

any 700-level MATH lecture course except MATH 701 and MATH 715

Advanced Physics (24-27)
Majors must complete a course in each of the following areas:

General Physics III. Satisfied by:
PHSX 313    General Physics III 3

Intermediate Physics Lab. Satisfied by:
PHSX 316    Intermediate Physics Laboratory I 1

Introductory Quantum Mechanics. Satisfied by:
PHSX 511    Introductory Quantum Mechanics 3

Physical Measurements or Electronic Circuit Measurement and Design. Satisfied by:
PHSX 516    Physical Measurements 4
or PHSX 536    Electronic Circuit Measurement and Design

Mechanics I. Satisfied by:
PHSX 521    Mechanics I 3

Electricity and Magnetism. Satisfied by:
PHSX 531    Electricity and Magnetism 3

Thermal Physics. Satisfied by:
PHSX 671    Thermal Physics 3

Undergraduate Research or Honors Research. Satisfied by:
PHSX 503    Undergraduate Research 1-4
or PHSX 501    Honors Research

Physics Elective. Satisfied by any PHSX lecture or laboratory course numbered 500 or higher and not part of the other specific requirements for the major.

Physics Required Electives (13)
Majors must complete one of the following options: 13

Preprofessional Option
Majors choosing this option must complete 13 credit hours in advanced physics as follows:

Mechanics II. Satisfied by:
PHSX 621    Mechanics II

Electromagnetic Theory. Satisfied by:
PHSX 631    Electromagnetic Theory

Quantum Mechanics. Satisfied by:
PHSX 711    Quantum Mechanics I

Second Advanced Physics Lab. Satisfied by one of the following:
PHSX 516    Physical Measurements 1
or PHSX 536    Electronic Circuit Measurement and Design

Interdisciplinary Option
Majors choosing this option must complete 13 credit hours in satisfying both categories as follows:

Advanced Physics. Satisfied by two of the following:
PHSX 621    Mechanics II
PHSX 631    Electromagnetic Theory

PHSX 711    Quantum Mechanics I
PHSX 516    Physical Measurements 1
PHSX 536    Electronic Circuit Measurement and Design 1

Allied Science Field. Satisfied by the completion of 2 advanced courses in 1 allied science field chosen from the following:

Biological Science. Satisfied by two of the following:
BIOL 350    Principles of Genetics
BIOL 400    Fundamentals of Microbiology
BIOL 408    Physiology of Organisms
BIOL 412    Evolutionary Biology
BIOL 416    Cell Structure and Function

BIOL 600    Introductory Biochemistry, Lectures
BIOL 636    Biochemistry I
BIOL 638    Biochemistry II

Chemistry. Satisfied by two of the following:
CHEM 598    Research Methods (UKanTeach students only)
CHEM 310    Fundamentals of Organic Chemistry
CHEM 530    Physical Chemistry I

Geology. Satisfied by two of the following:
GEOL 360    Field Investigation
GEOL 562    Structural Geology
GEOL 572    Geophysics
GEOL 575    Seismic Exploration
GEOL 576    Potential Fields Exploration
GEOL 577    Environmental Geophysics

1 Course not used to satisfy Core Knowledge and Skills requirement above.

Physics Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 30 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior (300+) Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major.

GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Preprofessional Emphasis
Students also take 13 credit hours in physics as follows:

PHSX 621    Mechanics II 3
PHSX 631    Electromagnetic Theory 3
PHSX 711    Quantum Mechanics I 3
Interdisciplinary Option

Students also take 12 to 15 credit hours in physics and allied sciences as follows:

Select two of the following: 6-7

<table>

Interdisciplinary option students may take the second advanced laboratory courses

Departmental Honors in Physics

A student who plans to graduate with honors in physics must file a declaration of intent form with the departmental honors coordinator, preferably during his or her junior year, but in any case, no later than enrollment for the final undergraduate semester.

Minor in Astrobiology

Why study astronomy?

Because understanding the physical universe starts here.

Undergraduate Programs

Astronomy programs are offered through the Department of Physics and Astronomy. The astronomy curriculum offers undergraduates a survey of modern astronomy and an introduction to physical science, gives science and engineering students an introduction to astronomy and astrophysics, and prepares students majoring in astronomy for graduate study in astronomy or related fields.

Courses for Nonmajors

ASTR 191 surveys a wide range of contemporary astronomy topics while ASTR 293 discusses a shorter list of astrophysically extreme objects in greater detail; both courses require eligibility for MATH 101. ASTR 394 is open to students with previous coursework in astronomy, geology or biology; ASTR 391 offers an introduction to physical astronomy at a calculus-based level.

Requirements for the Minor in Astrobiology

Astrobiology Minor Course Requirements

Students selecting this minor must complete courses as specified in each of the following areas:

Preparatory Coursework

Calculus (3-5)

Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 121</td>
<td>Calculus I (preferred)</td>
</tr>
<tr>
<td>or MATH 115</td>
<td>Calculus I</td>
</tr>
</tbody>
</table>

Foundations of Chemistry (5)

Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 130</td>
<td>General Chemistry I</td>
</tr>
</tbody>
</table>

Minor Requirements

Principles of Molecular and Cellular Biology (4)

Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 150</td>
<td>Principles of Molecular and Cellular Biology</td>
</tr>
</tbody>
</table>

Geology (3)

Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 101</td>
<td>The Way The Earth Works</td>
</tr>
<tr>
<td>GEOL 105</td>
<td>History of the Earth</td>
</tr>
<tr>
<td>GEOL 121</td>
<td>Prehistoric Life: DNA to Dinosaurs</td>
</tr>
</tbody>
</table>

Physical Astronomy, Honors (3)

Satisfied by the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR 391</td>
<td>Physical Astronomy, Honors</td>
</tr>
</tbody>
</table>

Astrobiology Core (1-4)

Satisfied by one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
</table>
Minor in Astronomy

Why study astronomy?

Because understanding the physical universe starts here.

Undergraduate Programs

Astronomy programs are offered through the Department of Physics and Astronomy. The astronomy curriculum offers undergraduates a survey of modern astronomy and an introduction to physical science, gives science and engineering students an introduction to astronomy and astrophysics, and prepares students majoring in astronomy for graduate study in astronomy or related fields.

Courses for Nonmajors

ASTR 191 surveys a wide range of contemporary astronomy topics while ASTR 293 discusses a shorter list of astrophysically extreme objects in greater detail; both courses require eligibility for MATH 101. ASTR 394 is open to students with previous coursework in astronomy, geology or biology; ASTR 391 offers an introduction to physical astronomy at a calculus-based level.

Requirements for the Minor in Astronomy

Astronomy Minor Course Requirements

Students selecting this minor must complete courses as specified in each of the following areas:

General Physics I (1-5)

Satisfied by one of the following: 1-5

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 211</td>
<td>General Physics I</td>
</tr>
<tr>
<td>&amp; PHSX 216</td>
<td>and General Physics I Laboratory</td>
</tr>
</tbody>
</table>

Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

Minor Hours

Satisfied by a minimum of 19 hours of minor coursework.

Minor Hours in Residence

Satisfied by a minimum of 9 hours of KU resident credit in the minor.

Minor Junior/Senior Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in courses in the minor. GPA calculations include all courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator [http://clas.ku.edu/undergrad/tools/gpa].

Astronomy Required Electives

Satisfied by at least 5 hours in any combination of ASTR courses numbered above 300.
General Physics III and Intermediate Physics Laboratory. Satisfied by:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 313</td>
<td>General Physics III</td>
<td>4</td>
</tr>

<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 531</td>
<td>Electricity and Magnetism</td>
<td>3</td>
</tr>
</tbody>
</table>

Physics Required Elective. Satisfied by any 3 credit hour PHSX course numbered 500 or above.

**Minor Hours & Minor GPA**

While completing all required courses (above), minors must also meet each of the following hour and grade-point average minimum standards:

**Minor Hours**

- Satisfied by 21 hours of major courses.

**Minor Hours in Residence**

- Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the major.

**Minor Junior/Senior (300+) Hours**

- Satisfied by a minimum of 13 hours from junior/senior courses (300+) in the minor.

**Minor Graduation GPA**

- Satisfied by a minimum of a 2.0 KU GPA in the minor. GPA calculations include all courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Master of Science in Physics**

*Why study physics and astronomy?*

Because understanding the physical universe starts here.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Graduate Admission**

Ordinarily, admission requires an undergraduate grade-point average of at least B (3.0 on a 4.0 scale), overall and in the major. A baccalaureate degree with a major in physics is desirable but not required. Recommended preparation consists of courses in mechanics, electromagnetic theory, thermal physics, introductory quantum mechanics, advanced laboratory, and at least one course in mathematics beyond differential equations. Working knowledge of computers and of an advanced programming language is helpful. A student with less than the recommended preparation may enroll in these courses for graduate credit.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the department:

**The University of Kansas**

**Department of Physics and Astronomy**

**Graduate Coordinator**

**Malott Hall**

**1251 Wescoe Hall Dr., Room 1082**

**Lawrence, KS 66045-7572**

**M.S. Degree in Physics**

The departmental web page with some additional information, e.g., milestones, can be found at http://www.physics.ku.edu/~physics/graduate/about.shtml

Candidates must complete a minimum of 30 credit hours of advanced lecture courses (numbered 500 or above) in physics and related subjects within a period of 7 years. Program requirements include:

1. An undergraduate knowledge of physics. This must be certified by the department to be at an advanced undergraduate level (600-level KU courses). The certification must be achieved within 12 months (extension possible with recommendation of the graduate admission committee) of entering the program and may require additional coursework. Extension is possible with recommendation of the department.

2. 3 additional courses chosen from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 711</td>
<td>Quantum Mechanics I</td>
<td>3</td>
</tr>
<tr>
<td>PHSX 821</td>
<td>Classical Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHSX 831</td>
<td>Electrodynamics I</td>
<td>3</td>
</tr>
</tbody>
</table>

3. 2 additional courses chosen from:
4. A minimum of 2 hours in PHSX 899 Master’s Research/Thesis is required, with a maximum of 6 hours that count toward the master’s degree. Ordinarily no more than 2 hours will be allowed unless a thesis or written report is presented.

5. The remaining 9 to 13 hours of advanced electives must be either advanced lecture courses or advanced undergraduate laboratory courses. (This proviso excludes seminars and special problems courses.)

### Communication Skills

All graduate students, after their first semester, will deliver at least 1 oral presentation per semester. The talk should be at least 20 minutes long. For students not yet associated with a research group, the Graduate Seminar can serve as a venue. For more advanced students the seminar of their research group would be a natural venue. The student does not need to be enrolled in the seminar to present a talk for this purpose. Off-campus venues such as collaboration meetings and physics conferences can also serve this purpose. When giving presentations, students should fill out a form available on the department web site and have it signed by 2 witnesses, 1 of which must be a Physics or Astronomy faculty and other a Ph.D. doing research in the department. The completed form must be handed to the office staff. Faculty members who sign off on the talks are expected to provide constructive feedback to the student. The graduate advisor will monitor student compliance with the requirement.

### General Examination

Candidates must pass a general oral examination in physics. The examination is given shortly before completion of other work for the degree. A master’s thesis is not required but may be submitted if the candidate and the director of the candidate’s research believe it to be appropriate.

### M.S. Subspecialty in Computational Physics and Astronomy

This degree is a subspecialty program for students with a background in physics, astronomy, computer science, mathematics, or engineering who wish to become familiar with computer-based approaches to problems in these fields. Minimum preparation expected includes a year’s course in general physics, mathematics through differential equations, and a knowledge of FORTRAN, C++, or another programming language.

A total of 30 hours of graduate credit is required. The 33 hours listed below under 2 and 3 may include certain undergraduate-level electrical engineering and computer science courses. (Only courses numbered 500 and above count as graduate credit.) Students entering the program may have satisfied several of these requirements, but a total of 30 hours of graduate credit is still required. No more than the required 6 hours of PHSX 899 Master’s Research/Thesis may be counted toward the degree. Degree requirements include

1. An undergraduate knowledge of physics. This must be certified by the department to be at an advanced undergraduate level (600-level KU courses). The certification must be achieved within 12 months (extension possible with recommendation of the graduate admission committee) of entering the program and may require additional coursework. Extension is possible with recommendation of the graduate admission committee. Certification can be achieved in several ways:
   a. A GRE physics score greater than or equal to 650; or
   b. The determination by the graduate director and graduate advisor, based on the diagnostic exam given on entering the program combined with the student’s undergraduate record, that the student understands all major elements of undergraduate physics;
   c. Successful completion with grade of B or better on all undergraduate courses that the graduate director and/or advisor recommends based on the results of part b above. The student who has not succeeded in certifying their undergraduate physics knowledge in 1 of the above 3 ways could, within 12 months of starting the program, petition the Graduate Committee for an oral exam on undergraduate physics. The oral exam will be administered by a committee of 6 faculty members assigned by the department.
   d. A candidate for a Master’s or Ph.D. degree who has not had the equivalent of 6 credit hours of advanced undergraduate laboratory course work (junior/senior level) is required to take one of the 3 advanced laboratory courses offered in the Department:
      - PHSX 516 Physical Measurements 4
      - PHSX 536 Electronic Circuit Measurement and Design 4
      - PHSX 601 Design of Physical and Electronic Systems 4

2. Required Courses (21 credit hours)
   - PHSX/ASTR 815 Computational Methods in Physical Sciences 3
   - PHSX 718 Mathematical Methods in Physical Sciences 3
   - MATH/EECS 781 Numerical Analysis I 3
   - EECS – 1 course at the 300 level or above (in addition to EECS 781) (Note: courses below the 500 level will not count towards the required 30 hours of graduate credit.)
     1 additional PHSX/ASTR/ATMO lecture course at the level or above
   - PHSX 899 Master’s Research/Thesis 1-10

3. 12 or more credits from the following list of courses:
   (Note: Double counting of courses is not allowed, e.g. a course used to fulfill a requirement under part 2. (e.g. EECS 448) may not also be counted under part 3.)
   - EECS 360 Signal and System Analysis 4
   - EECS 368 Programming Language Paradigms 3
   - EECS 388 Embedded Systems 4
   - EECS 448 Software Engineering I 4
   - EECS 560 Data Structures 4
   - EECS 672 Introduction to Computer Graphics 3
Policies and procedures of Graduate Studies govern the process of

Ph.D. Degree Requirements

The departmental web page with some additional information, e.g., milestones, can be found at http://www.physics.ku.edu/~physics/graduate/about.shtml

Residence

To become a Ph.D. candidate, i.e. to take the comprehensive exam:

The student must spend at least 2 semesters, which may include 1 summer session, in resident study at the University of Kansas.

To earn a Ph.D.:

The student must spend at least the equivalent of 3 full academic years in graduate study at this or another approved institution or laboratory. During this period of residence, the student must be involved full-time in academic or professional pursuits, which may include an appointment for teaching or research if the teaching/research is directed specifically toward the student’s degree objectives.

Graduate students with half-time assistantships usually require at least 4 years to complete all requirements. Maximum enrollment for students with no other departmental obligations is 16 hours a semester. In addition to satisfying the residence requirement, a student with a half-time assistantship must be enrolled for at least 6 hours each semester. A maximum of 12 hours is permitted if the student’s duties consist of research that partially fulfills degree requirements. A fellowship holder or full-time student with private support must be enrolled for at least 9 hours.

Select 1 of the following - Special Topics (Examples of recent topics: Mathematics of Wall Street Computer-aided, Study of Differential Geometry, Chaos and Fractals, Fractional Brownian Motion and Its Applications, Wavelet Analysis, Statistical Theory, Stochastic Differential Equations and Applications)

| MATH 596 | Special Topics: ______ |
| MATH 696 | Special Topics: ______ |
| MATH 796 | Special Topics: ______ |
| MATH 611 | Time Series Analysis | 3 |
| MATH 627 | Probability | 3 |
| MATH 647 | Applied Partial Differential Equations | 3 |
| MATH/EECS 782 | Numerical Analysis II | 3 |
| MATH 783 | Applied Numerical Methods for Partial Differential Equations | 3 |

PHSX/ASTR/ATMO Courses Numbered 500 and above

Courses below the 500 level do not count towards the required 30 hours of graduate credit.

4. Communication Skills: All graduate students, after their first semester, will deliver at least 1 oral presentation per semester.

The talk should be at least 20 minutes long. For students not yet associated with a research group, the Graduate Seminar can serve as a venue. For more advanced students the seminar of their research group would be a natural venue. The student does not need to be enrolled in the seminar to present a talk for this purpose. Off-campus venues such as collaboration meetings and physics conferences can also serve this purpose.

When giving presentations, students should fill out a form available on the department web site and have it signed by 2 witnesses, 1 of which must be a Physics or Astronomy faculty and other a Ph.D. doing research in the department. The completed form must be handed to the office staff. Faculty members who sign off on the talks are expected to provide constructive feedback to the student. The graduate advisor will monitor student compliance with the requirement.

5. Thesis: An important component of this degree is the completion and documentation of a successful computer project. A thesis must be presented that describes the basic physics involved in the project, the method of implementing the project, and a discussion of the results. An oral defense of the thesis is required before a committee of at least 3 members of the graduate faculty.

Please go to this website to see the University’s policy on time limits: https://documents.ku.edu/policies/Graduate_Studies/maprogramtimeconstraints.htm

Doctor of Philosophy in Physics

Why study physics and astronomy?

Because understanding the physical universe starts here.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be
admitted as either a degree-seeking or non-degree seeking student.

Policies and procedures of Graduate Studies govern the process of
**Time Limits**

Go to this website to see the University’s policy on time limits: https://documents.ku.edu/policies/Graduate_Studies/docprogramtimeconstraints.htm

**Graduate Teaching Assistantship Eligibility**

To be eligible for teaching assistantships, all graduate students who are not native speakers of English must achieve a minimum score of 50 on the SPEAK test. International students must pass an oral examination to demonstrate English fluency. Students who fail this examination should take courses from the Applied English Center.

Every student who receives a GTA appointment will be required to complete PHSX 702 Introductory Physics Pedagogy at the first offering of the course starting with the semester of the student’s initial GTA appointment. Failure to complete this class at the first opportunity may affect consideration for subsequent GTA appointments.

**Preliminary Candidacy**

To be admitted to preliminary candidacy, each graduate student must satisfy department requirements:

1. **Undergraduate knowledge of physics must be certified at the department undergraduate level (600-level KU courses).** The ways to achieve this certification are outlined above under Course Requirements.

   A candidate for a Master’s or Ph.D. degree who has not had the equivalent of 6 credit hours of advanced undergraduate laboratory course work (Junior/Senior level) is required to take 1 of the 3 advanced laboratory courses offered in the department.

   - PHSX 516 Physical Measurements 4
   - PHSX 536 Electronic Circuit Measurement and Design 4
   - PHSX 601 Design of Physical and Electronic Systems 4

2. **Achieve a minimum core course grade point average of 3.2.** The core course GPA is computed from the following 5 equally weighted elements:
   - Grade obtained in PHSX 711 Quantum Mechanics I
   - Grade obtained in PHSX 811 Quantum Mechanics II
   - Grade obtained in PHSX 821 Classical Mechanics
   - Grade obtained in PHSX 831 Electrodynamics I
   - a. Average grade of 2 other PHSX lecture courses numbered 700 or higher, excluding PHSX 815 (computational physics) and PHSX 717 (graduate seminar).
   - a. Students may repeat 1 of the 4 core courses (PHSX 711, PHSX 811, PHSX 821, and PHSX 831) once for the purpose of improving the core GPA. In calculating the core GPA, the Department will use only the better of the 2 grades.
   - b. The 2 "other PHSX lecture courses numbered 700 or higher" must be taken at KU, but students entering with graduate credit from other institutions may petition the Graduate Committee for transfer credit for any of the 4 named core courses. For the purposes of the core GPA, grades of ("B" or better) from the previous institution may be used for at most 3 of the 4 named courses. For the remaining course the student must obtain written certification of "B" performance or better from the instructor of the course at KU. Such certification may be obtained by taking the course, taking the final exam of the course (if there is one), or other means which the instructor may determine. An appropriate higher-level course may also be used to obtain certification in a core course (for example for PHSX 711 or PHSX 811, PHSX 931 for PHSX 831.)
   - c. Graduate students are normally expected to complete all core courses by the end of their second year of enrollment. Students who are required to complete an undergraduate physics certificate have 3 years to finish their core courses. Extensive Applied English Center (AEC) courses, prolonged illness, or extended military service might provide exceptional circumstances.

**Decision on Preliminary Candidacy**

Once Undergraduate requirements have been certified and sufficient information has been received regarding the required courses, the Graduate Committee will decide whether or not to admit the student to preliminary candidacy. This decision will be based upon the certification and on their core course GPA. The Graduate Committee Chair will report their decision to the Graduate Faculty.

**Course Requirements**

What follows are the default set of requirements for all Ph.D. candidates.

1. **An undergraduate knowledge of physics.** This must be certified by the department to be at an advanced undergraduate level (600-level KU courses). The certification must be achieved within 12 months (extension possible with recommendation of the graduate admission committee) of entering the program and may require additional coursework. Extension is possible with recommendation of the graduate admission committee. Certification can be achieved in several ways:
   - a. A GRE physics score greater than or equal to 650; or
   - b. THE DETERMINATION BY THE GRADUATE DIRECTOR AND GRADUATE ADVISOR, BASED ON the diagnostic exam given on entering the program combined with the student’s undergraduate record, that the student understands all major elements of undergraduate physics; or
   - c. Successful completion with grade of B or better on all undergraduate courses that the graduate director and/or advisor recommends based on the results of (2). The student who has not succeeded in certifying their undergraduate physics knowledge in 1 of the above 3 ways could, within 12 months of starting the program, petition the Graduate Committee for an oral exam on undergraduate physics. The oral exam will be administered by a committee of 6 faculty members assigned by the department.
   - d. A candidate for a Master’s or Ph.D. degree who has not had the equivalent of 6 credit hours of advanced undergraduate laboratory course work (Junior/Senior level) is required to take 1 of the 3 advanced laboratory courses offered in the Department.

   - PHSX 516 Physical Measurements 4
   - PHSX 536 Electronic Circuit Measurement and Design 4
   - PHSX 601 Design of Physical and Electronic Systems 4

A total of 11 advanced lecture courses (33 hours) is required. In addition, 1 hour of PHSX 700 Colloquium, 1 hour of PHSX 717 Graduate Seminar, and (for GTAs only) one hour of PHSX 702 Introduction to Physics Pedagogy are required.

2. **Core courses:**

   - PHSX 711 Quantum Mechanics I 3
   - PHSX 811 Quantum Mechanics II 3
3. Other required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSX 718</td>
<td>Mathematical Methods in Physical Sciences</td>
<td>3</td>
</tr>
<tr>
<td>PHSX 815</td>
<td>Computational Methods in Physical Sciences (satisfies Research Skills requirement)</td>
<td>3</td>
</tr>
<tr>
<td>PHSX 871</td>
<td>Statistical Physics I</td>
<td>3</td>
</tr>
<tr>
<td>PHSX 931</td>
<td>Electrodynamics II</td>
<td>3</td>
</tr>
</tbody>
</table>

4. 2 additional PHSX lecture courses numbered 700 or above. This excludes PHSX 815 (computational physics) and PHSX 717 (graduate seminar). The 2 courses must be in different sub-fields of physics and they may not be used to simultaneously satisfy other degree requirements in force. (For example, if PHSX 911 is being used to satisfy the PHSX 811 core requirement, it may not also be used to satisfy the requirement for 2 lecture courses at the 700 level or above.)

5. 1 additional advanced PHSX lecture course (numbered 800 or above; excluding PHSX 815)

6. 1 credit hour of Colloquium is required (PHSX 700). See “Colloquium and Graduate Seminar for an explanation.”

7. All graduate students, after their first semester, will deliver at least 1 oral presentation per semester. See “Communication Skills” for an explanation.

The courses listed above comprise the Department course requirements common to all students except those pursuing a multi-disciplinary plan of study, which is described below. There is no foreign language requirement. Subsequent work, consisting of advanced courses in appropriate fields and seminars, will be selected by the student and the advisor on the basis of the student’s need and intended field of specialization. There is no prescribed minimum number of hours for the Ph.D. degree. The student’s dissertation committee will determine the adequacy of the student’s courses and seminars and will specify the total course requirements. Neither the Graduate School nor the Department has a requirement for a minor.

Students who wish to pursue a more multidisciplinary plan of study may incorporate coursework from up to 2 other natural science, engineering, or mathematics (SEM) departments at KU by substituting non PHSX courses at the 600 level and above from these other disciplines for the 3 additional electives described in items c) and d) above. The research advisor, or in the absence of one, the Departmental Graduate Advisor (who is the default advisor for all students without a research advisor), shall approve all such outside course choices and provide documentation for the student file on the approved courses and their rationale.

Students who wish to take courses in the social sciences, humanities, or professional schools must submit a detailed plan of study that must be approved by the Physics and Astronomy Graduate Committee. Please note that while these unique plans involving non SEM fields will be considered, there is no guarantee that the plan of study will be approved.

Suggested Course Schedule

A sample academic schedule for a student who has a half-time teaching or research assistantship during the first 4 semesters is shown below. It includes the core courses for admission to preliminary candidacy (described in a subsequent section) and a set of lecture courses that meet the Ph.D. course requirements. It is the schedule for a full-time resident student with the normal preparation described above and who is working toward the Ph.D. degree. Students admitted with less preparation should begin with less advanced courses. Courses numbered 500 and above carry graduate credit.

The electives listed below, e.g. PHSX 741, PHSX 781, PHSX 795, PHSX 911, are purely an illustrative option. Students have the freedom to choose which non-required courses satisfy their elective requirements. Note that this sample schedule may also not apply for a student pursuing a more multidisciplinary plan of study.

| Total Hours: 38 |

### Communication Skills

All graduate students, after their first semester, will deliver at least 1 oral presentation per semester. The talk should be at least 20 minutes long. For students not yet associated with a research group, the Graduate Seminar can serve as a venue. For more advanced students the seminar of their research group would be a natural venue. The student does not need to be enrolled in the seminar to present a talk for this purpose. Off-campus venues such as collaboration meetings and physics conferences can also serve this purpose. When giving presentations, students should fill out a form available on the department web site and have it signed by 2 witnesses, 1 of which must be a Physics or Astronomy faculty and other a Ph.D. doing research in the department. The completed form must be handed to the office staff. Faculty members who sign off on the talks are expected to provide constructive feedback to the student. The graduate advisor will monitor student compliance with the requirement.

### Colloquium and Graduate Seminar

All students must enroll in PHSX 700 Colloquium in the sixth semester. Students should have attended at least 75 percent of the regularly scheduled colloquia during the 6 semesters to achieve a passing grade. In Fall of the first year, each graduate student is required to enroll in and attend the graduate seminar (PHSX 717) in order to familiarize themselves with research programs in the Department and gain experience in oral presentations.

### Research Skills and Responsible Scholarship

By the end of 1 year after being admitted to preliminary candidacy, the student must complete PHSX 815/ASTR 815, Computational Physics and Astronomy, with a grade of “B” or higher in order to satisfy the Research Skills requirement. Note that this course has significant prerequisites in undergraduate Computer Science. The Responsible Scholarship requirement is filled via completion of PHSX 717.
Computing Skill

Students must complete PHSX 815 Computational Methods in Physical Sciences/ASTR 815 Computational Physics and Astronomy with a grade of A or B, preferably within 1 year after admission to preliminary candidacy. This course has significant prerequisites in advanced undergraduate computer science and requires completion of a substantial computer program to solve a physical problem.

Note: Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

Comprehensive Examination

Graduate College requirements for the Comprehensive Examination can be found at https://documents.ku.edu/policies/Graduate_Studies/doccomprehensiveorals.htm.

After completing a major portion of the required course work and satisfying the computing skills requirement, the student must pass the comprehensive examination. The Department recommends at least 5 people for committee membership to the Graduate Division, which makes the final appointments. 1 committee member must come from outside of the Department to serve as a representative of the Graduate School. Requests to take the examination must be made to the Graduate Coordinator at least 3 weeks in advance of the date of the examination.

The student will write a 2000 to 4000 word paper on a topic in their chosen sub-field that is relevant to their thesis work. This paper must be presented to the committee at least 1 week in advance of the scheduled oral exam. The student will make a presentation at the oral examination based upon this paper, and will be examined on the contents of the talk, the paper, and works listed in the paper’s bibliography. The bibliography must include at least 1 recent article from a peer-reviewed journal not authored by the student or the student’s advisor. In addition, the committee may ask questions at the oral examination that cover the entire field of physics plus any related material (such as mathematics or chemistry) considered relevant by the examining committee.

In order to pass the comprehensive exam, the student must receive passing grades on both the written and oral components of the exam. The overall grade on this examination, determined by the examining committee, will be "Honors," "Satisfactory," or "Unsatisfactory."

Post-Comprehensive Requirements

Upon passing the comprehensive examination, the student becomes a candidate for the Ph.D. degree. The Graduate Division will then designate the candidate's dissertation committee based on the recommendation of the Department. Each candidate must complete a research project that has been approved by the committee. The committee establishes the candidate's course requirements and directs the research.

Unless granted a leave of absence, the candidate must be continuously enrolled full-time, including summer sessions, until all requirements for the degree are completed. During this time, the candidate must enroll in a minimum of 6 hours a semester and 3 hours a summer session until the completion of the degree or of 18 hours of post-comprehensive enrollment, whichever comes first. (Post-comprehensive enrollment may include the semester in which the comprehensive examination is passed.) After 18 hours of post-comprehensive enrollment, the candidate must continue to enroll each semester and each summer session until all requirements for the degree have been met. If the student petitions (at https://documents.ku.edu/policies/Graduate_Studies/gta_gra_enroll_dr_fewer_6.pdf) they can enroll for only 1 hour of credit in spring, summer, and fall and still maintain their GTA or GRA status.

At least once each year after passing the comprehensive examination, the student should schedule a meeting with his or her dissertation committee to discuss progress towards the completion of the dissertation and any other concerns. A report of the committee's consensus of the meeting should be prepared by a member of the committee other than the student's advisor and placed in the student's file. Copies are to be given to the Departmental Chairman, the Graduate Committee Chair, the Graduate Advisor, the Departmental Director of Graduate Studies, and the student.

Final Oral Examination

The final oral examination will proceed according to the regulations of Graduate studies. These can be found at https://documents.ku.edu/policies/Graduate_Studies/docfinaloral.htm.

We refer to these requirements below, as they appeared on September 24, 2010, and we have inserted some modified requirements for those students who wish to pursue a more multidisciplinary dissertation topic.

It is the responsibility of the student to make sure that they satisfy the current university requirements.

Completion of the dissertation is the culminating academic phase of a doctoral program, climaxd by the final oral examination and defense of the dissertation. In all but the rarest cases, tentative approval of the dissertation is followed promptly by the final oral examination. When the completed dissertation has been accepted by the committee in final draft form, and all other degree requirements have been satisfied, the chair of the committee requests the Graduate Division to schedule the final oral examination. This request must be made in advance of the desired examination by at least the period specified by the Graduate Division (normally at least 3 weeks). The submission of the request must allow sufficient time to publicize the examination so that interested members of the university community may attend. At least 5 months must elapse between the successful completion of the comprehensive oral examination and the date of the final oral examination.

The committee for the final oral examination must consist of at least 5 members (the members of the dissertation committee plus other members of the Graduate Faculty recommended by the committee chair and the department and appointed by the Graduate Division). The Chair of the committee and 3 of the other 4 members must have appointments of some type within the Physics and Astronomy department. 1 member must be from a department other than the Physics and Astronomy department. The outside member represents Graduate Studies and must be a regular member of the Graduate Faculty. Before the examination, the Graduate Division provides a list of responsibilities to the Graduate Studies representative. The Graduate Studies representative is a voting member of the committee, has full right to participate in the examination, and provides a written report on any unsatisfactory or irregular aspects of the examination to the committee chair, department chair, Graduate Division, and Graduate Studies.

For students (and only those students) who are pursuing a multidisciplinary plan of study -- as defined by their substitution of courses from other departments for PHSX electives as described in the Course Requirements section -- up to 2 members of the committee, including the 1 required outside member, may be faculty from other SEM departments with regular, adjunct, or courtesy appointments at KU.
The Chair must have an appointment of some type within the Physics and Astronomy department. (Exception: if the primary appointment of the Chair is outside the department, then only 1 additional committee member may be outside the Department of Physics and Astronomy.)

NOTE: It is assumed that these research projects may involve interaction between physics and 1 or more other SEM disciplines; therefore, the external faculty members may come from up to 2 different departments. The Graduate Division ascertains whether all other degree requirements have been met and if reports of any previously scheduled final oral examinations have been submitted and recorded. Upon approval of the request, the final oral examination is scheduled at the time and place designated by the Graduate Division. This information must be published in a news medium as prescribed by the Graduate Faculty. Interested members of the university community are encouraged to attend these examinations. For every scheduled final oral examination, the department reports to the Graduate Division a grade of Honors, Satisfactory, or Unsatisfactory for the candidate’s performance. If an Unsatisfactory grade is reported, the candidate may be allowed to repeat the examination on the recommendation of the department.

Department of Political Science

Why study political science?

Because political science advances our understanding of politics, power, governance, and public policy in the United States and across the globe.

Undergraduate Programs

Course work is for students studying contemporary political processes as part of their general education, for students majoring in allied social sciences, for students planning to enter professions such as law and teaching, and for majors in political science.

Courses for Nonmajors

Any of the 3 introductory courses apply to College social sciences principal course requirements. Several political science courses qualify as non-Western culture courses.

Public Affairs Internship Program

The department supervises integrated internships for majors who are second-semester juniors or seniors. They are offered during the spring semester in Topeka and Washington, D.C. Programs consist of up to 12 hours in political science—an internship, participation in an intern seminar, and directed readings. Students serve as interns in Topeka or Washington at least 4 days each week and attend weekly seminars. Students also may enroll in a directed readings course with a faculty member on campus. Readings provide a theoretical and analytical study program related to the internship and the seminar. Contact the department early in the fall semester.

Graduate Programs

The department offers M.A. and Ph.D. degrees for students interested in academic work in political science leading to teaching and research careers. Political science graduates also have found careers in the public, private, and not-for-profit sectors. Ph.D. students can pursue concentrations in U.S. politics, comparative politics, international relations, political theory, and public policy.

Fields of Graduate Study

For graduate study, courses in the department are divided into the following fields:

- U.S. political institutions and processes
- Comparative politics
- International relations
- Public policy
- Political philosophy and empirical theory

Courses

POLS 110. Introduction to U.S. Politics. 3 Hours. SF GE3S / S.
An introduction to basic American governmental institutions, political processes, and policy. LEC.

POLS 111. Introduction to U.S. Politics Honors. 3 Hours. SF GE3S / S.
Open only to students in the College Honors Program or by consent of instructor. LEC.

POLS 150. Introduction to Comparative Politics. 3 Hours. SF AE42/GE3S / S.
An introduction to the comparative study of political systems emphasizing governmental structures, parties, electoral techniques, and recent trends in the field. The course also considers major differences between (1) representative and autocratic systems, and (2) developed and underdeveloped nations. LEC.

POLS 151. Introduction to Comparative Politics Honors. 3 Hours. SF AE42/GE3S / S.
Open only to students in the College Honors Program or by consent of instructor. LEC.

POLS 170. Introduction to International Politics. 3 Hours. SF AE42/GE3S / S.
A study of the nation-state system including the role of nationalism, sovereignty, and power. Patterns of state action including neutralism, collective security, war, and cooperation through international organizations are stressed. Specific examples of contemporary international problems are also analyzed and discussed. LEC.

POLS 171. Introduction to International Politics Honors. 3 Hours. SF AE42/GE3S / S.
Open only to students in the College Honors Program or by consent of instructor. LEC.

POLS 177. First Year Seminar: _____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Political Science. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

POLS 249. Study Abroad Topics in Political Science: _____. 1-6 Hours. S.
This course is designed for the study of special topics in Political Science at the freshman/sophomore level. Course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

POLS 301. Introduction to Political Theory. 3 Hours. GE3S / S.
An examination of the perennial issues and major concepts in political philosophy. Ideas such as community, liberty, equality, justice, and democracy will be examined in order to understand the various meanings given to these concepts in political discourse and to understand the role to
the contemporary role of international law. This course is intended primarily for non-majors and does not meet the junior/senior level course field distribution requirement. LEC.

POLS 302. Introduction to Political Theory, Honors. 3 Hours. S.
Prerequisite: Either POLS 110, POLS 150, or POLS 170, or their honors equivalents and open only to students in the College Honors Program, or by consent of instructor. LEC.

POLS 306. Political Science Methods of Inquiry. 3 Hours. GE12 / S.
An introduction to the social science methods of investigation and analysis that are used in political science as a discipline and, in many cases, in public and private sector analytical work as well. The nature of political science data sources and methods of data collection, the logic of social scientific inquiry, and key methods of data analysis are emphasized. Prerequisite: POLS 110 and POLS 150 and POLS 170 (or their Honors equivalents), or consent of instructor. LEC.

POLS 310. Contemporary Issues in U.S. Politics. 3 Hours. S.
An examination of issues and problems concerning government and politics in American society. This course is intended primarily for non-majors, and does not meet the junior/senior level course field distribution requirement. LEC.

POLS 320. Introduction to Public Policy. 3 Hours. GE3S / S.
Offers an introduction to the policy-making process covering policy formulation, adoption, and implementation. Overview of major theories of the policy-making process, the actors involved in the process, and the constraints and enhancements offered by the broader political environment. The theoretical frameworks are applied to several substantive policy areas. Prerequisite: POLS 110. LEC.

POLS 330. Introduction to Public Administration. 3 Hours. S.
Introduction to administration, public policy and policy makings is the study of government workers, the organizations in which they work, how they are financed, and how government engages citizens to help form and maintain community. In various ways, the class sessions explore the three important issues of public administration: discretion, authority, and accountability. (Same as PUAD 330.) Prerequisite: POLS 110. LEC.

POLS 331. Introduction to Public Administration, Honors. 3 Hours. S.
Introduction to administration, public policy and policy making, for honors students, is the study of government workers, the organizations in which they work, how they are financed, and how government engages citizens to help form and maintain community. In various ways, the class sessions explore the three important issues of public administration: discretion, authority, and accountability. (Same as PUAD 331.) Prerequisite: POLS 110. LEC.

POLS 350. Contemporary Issues in Comparative Politics. 3 Hours.
This course will survey selected current political issues around the globe. The focus of the course will be on understanding and analyzing the wide diversity of political phenomena that mark countries around the world. Topics may include such things as elections and electoral politics; political parties; government stability; democratization; ethnic, racial, caste, or religious conflict; protest and revolutionary movements; social movements (environmental, feminist, and others); and the politics of economic reform. This course is intended primarily for non-majors, and does not meet the junior/senior level course field distribution requirement. LEC.

POLS 370. Contemporary Issues in International Politics. 3 Hours. S.
A survey of selected issues in current international relations. Topics include global economic interdependence, regional conflicts and nationalism, United States military and economic policy in the post-Cold War era, the role of international organizations such as the United Nations and the European community, global environmental problems and the contemporary role of international law. This course is intended primarily for non-majors and does not meet the junior/senior level course field distribution requirement. LEC.
POLS 502. History of Political Thought. 3 Hours. S.
A survey of major concepts and theories in political philosophy from Plato to Marx. The emphasis is on understanding major classics in western political thought. Prerequisite: POLS 301, or (for non-majors) completion of the Western Civilization requirement, or consent of instructor. LEC.

POLS 503. Politics in Literature. 3 Hours. S.
An examination and analysis of the portrayal of politics and political problems in literature. Classical and modern texts will be considered, including dramas, poems, and novels. Prerequisite: POLS 301, or (for non-majors) completion of the Western Civilization requirement, or consent of instructor. LEC.

POLS 504. Millenarian Movements. 3 Hours. S.
A historical survey of millenarian movements (the belief in imminent, total, ultimate, this-worldly, collective salvation), with particular attention to their psychological, sociological, and political dimensions. (Same as REL 504.) Prerequisite: POLS 301 or honors equivalent or for non-majors completion of Western Civilization requirement, or consent of instructor. LEC.

POLS 506. Honors Seminar in Political Research. 3 Hours. S.
Students will be exposed to a variety of topics related to the conduct of political science research. Emphasis will be on how one discerns what is known and what remains to be discovered about a research topic, the development of theories and the hypotheses about the unknown, and the collection of information for testing theories. Students will be expected to begin independent research on a topic that might eventually culminate in an honors thesis. This seminar is intended for political science majors who are in the honors or deans programs, who hold departmental scholarships, and/or who intend to write honors theses. Prerequisite: POLS 306. IND.

POLS 511. The Judicial Process. 3 Hours. S.
Covers judicial functions, organizations, personnel, and processes. Examines the goals of the law and the operations of the legal system in meeting these objectives. Focuses on norm enforcement, conflict resolution, and judicial policy-making. Prerequisite: POLS 110. LEC.

POLS 512. Latino Politics. 3 Hours. S.
An overview of the political position of Latinos/os in the United States. The focus is on the three largest Latino groups in the U.S.: Mexican-Americans, Cuban-Americans, and Puerto Ricans; as well as an examination of other South American and Central American populations in the U.S. The main topics include identity formation, the political circumstances of Latinos, relationship to the electoral process, political behavior, and the policy process. LEC.

POLS 515. American Political Parties. 3 Hours. S.
Survey of the development of the American political party system, stressing party organization, nominating systems, campaigns, elections, role of mass media, and party finances. Prerequisite: POLS 110. LEC.

POLS 516. Public Opinion and American Democracy. 3 Hours. S.
This course examines the construction, administration, and interpretation of public opinion polls. The course will also examine the role of public opinion in the democratic process and the formation of public opinion. LEC.

POLS 520. Political Communication. 3 Hours. H.
This course will focus on contemporary political communication theory and illustrate how such theories are exemplified in modern political contexts: political arguments and developing consensus, constitutional issues and hearings, the rhetorical presidency, the dissemination of political information, and political uses of definition. (Same as COMS 607.) Prerequisite: COMS 130 or COMS 150. LEC.

POLS 521. Rhetoric, Politics and the Mass Media. 3 Hours. H.
This course investigates the ways in which rhetorical strategies (persuasive and linguistic usage) permeate the relationship between politics and politicians and the mass media. We will analyze media coverage of political debates, the presidential use of radio, television and press conferences, and the network evening news coverage of political events to see how political decisions are influenced by and influence the media. (Same as COMS 335.) Prerequisite: COMS 130 or COMS 150. LEC.

POLS 528. Environmental Justice and Public Policy. 3 Hours. S.
This course provides an overview of environmental justice, both as a social movement and as a public policy initiative. Environmental justice examines the distribution of environmental externalities across different socio-economic and racial groups. We will discuss several different public policy areas that have been impacted by the environmental justice movement: hazardous waste facility siting, urban redevelopment and Brownfields, transportation policy, and Native American sovereignty. We will also touch upon international environmental policy in an environmental justice context. Throughout the course we will evaluate empirical issues in studying environmental justice. (Same as EVRN 528.) Prerequisite: POLS 306 or a statistics class or consent of instructor. LEC.

POLS 533. Comparative Environmental Politics. 3 Hours. S.
This course compares environmental politics and policies across a number of countries, including those in North America, Western Europe, East Asia, and Latin America. (Same as EVRN 553.) LEC.

POLS 561. Liberation in Southern Africa. 3 Hours. NW AE42 / S.
This course examines struggles for freedom in southern Africa and the consequences of political, economic, and social changes in the region. The end of colonial rule, the demise of white-settler domination, and the fall of the apartheid regime is discussed. As a major political event of the twentieth century, the liberation of southern Africa had both local and global consequences. The course analyzes transnational issues of liberation and resistance to consider broader regional and international perspectives. Course themes pay particular attention to gender and ethnicity and include a focus on democratization and contemporary meanings of liberation. Prior coursework in African Studies is strongly recommended, but not required. (Same as AAAS 561 and HIST 561.) LEC.

POLS 562. Women and Politics. 3 Hours. S.
This course exposes students to contemporary research on women and politics by surveying the sub-fields of political science. Topics include women’s representation in the U.S., women and U.S. public policy, gender and legal theory, international women’s movements, women and revolution, and women as political elites. We will examine the ways in which feminist theory and women’s activism have challenged the narrow focus of the discipline as well as redefined women’s place in society. (Same as WGSS 562.) Prerequisite: A 100-level POLS course or WGSS 201 or permission of instructor. LEC.

POLS 563. Comparative Political Economy. 3 Hours. S.
This course studies fiscal, monetarist, and trade policies to assess the usefulness and problems posed by these policy instruments across countries. This includes examining exchange rates, interest rates, budget deficit, trade deficit, and debt, to understand their composition and relevance to domestic economy, employment, investment, development, and international trade, the problems they pose, and how these may be overcome. We then examine when, how, and why government enacts these instruments across countries and regions. Prerequisite: POLS 150 or POLS 151. LEC.
POLS 564. Elections and Political Parties Around the World. 3 Hours. S.
An examination of the diverse forms of election rules and their consequences for political parties, politicians, and voters. The course will survey election rules in theory and practice; the design and re-design of election rules in new and established democracies; and how elections affect party strategies or governance and representation, and the types of party systems that emerge. The course will also incorporate intensive studies of election campaigns occurring during the semester that the course meets. Prerequisite: POLS 150. LEC.

POLS 565. Political Change in Asia. 3 Hours. S.
This course focuses on three periods of major political changes in Asia since 1945: independence from colonization; adoption of governance; and steps toward democratization. The focus on political change is to help students see that a) many countries initiate political reforms domestically; b) the ability to implement changes is correlated to ability to win support; c) the constitutional process may favor some groups over others; d) the ability to mediate political stability depends on (a), (b), and (c). Prerequisite: POLS 150 or equivalent. LEC.

POLS 566. Social Welfare, Taxation, and the Citizen. 3 Hours. S.
Most developed countries provide for the basic needs of their citizens. Many provide health care, free education, and even retirement funding in exchange for taxes. The U.S. is an exception. The course presents taxation systems in most developed countries, then explores the dimensions of social welfare, and the differential roles of citizens in each country. The final section of the course outlines legislative and legal possibilities for U.S. citizens. Prerequisite: POLS 150. LEC.

POLS 600. Contemporary Feminist Political Theory. 3 Hours. S.
A detailed introduction to feminist thought post-1960. Examines feminism in relation to the categories of political theory: liberal feminism, socialist feminism, radical feminism, and postmodern feminism. Within these categories and separately, we will also consider feminism as it is influenced by women traditionally excluded from mainstream feminist thought, namely U.S. woman of color and women of post-colonial societies. (Same as WGSS 600.) Prerequisite: WGSS 201 or a 100-level POLS course or permission of instructor. LEC.

POLS 601. Political Ideologies. 3 Hours. S.
A systematic survey of the major political ideologies of the 19th and 20th centuries such as anarchism, socialism, liberalism, fascism, communism, and participatory democracy. Prerequisite: POLS 301, or (for non-majors) completion of the Western Civilization requirement, or consent of instructor. LEC.

POLS 602. American Political Ideas. 3 Hours. S.
A study of political movements and thinkers from the Puritan period to the present that have influenced the development of contemporary political ideas. Prerequisite: POLS 301, or (for non-majors) completion of the Western Civilization requirement, or consent of instructor. LEC.

POLS 603. Democratic Theory. 3 Hours. S.
A detailed study of the typical and perennial dilemmas that arise in theories of democratic governance with an emphasis on contemporary analytical investigations of democratic systems. Prerequisite: POLS 301, or (for non-majors) completion of the Western Civilization requirement, or consent of instructor. LEC.

POLS 604. Religion and Political Theory. 3 Hours. S.
A study of the relationship between religious faith and politics in Western political theory and thought. The approach will be both historical and philosophical, beginning with Moses on the one hand, and the Greeks on the other. Texts will include biblical, Greek philosophical, Jewish and Christian philosophical and theological writings. (Same as REL 604.) Prerequisite: POLS 301, or for non-majors completion of Western Civilization requirement, or consent of instructor. LEC.

POLS 605. A Study of Political Thought in Antiquity. 3 Hours. S.
Possible authors for examination may include Homer, Hesiod, Plato, Aristotle, Cicero, and Augustine, among others. Central topics will include the problems of truth and knowledge, justice, power, human rule, and the relationship of the individual to the community. Prerequisite: POLS 301, or (for non-majors) completion of the Western Civilization requirement, or consent of the instructor. LEC.

POLS 607. Modern Political Theory. 3 Hours. S.
An analysis of works by various authors, with the intention of exploring the political ideas that emerge in conjunction with the appearance of modern science, the Enlightenment, the Industrial Revolution, and Romanticism. Topics will include the modern conceptions of the nature of being, truth, justice, and the relationship of the individual to the community. Prerequisite: POLS 301, or (for non-majors) completion of the Western Civilization requirement, or consent of instructor. LEC.

POLS 608. Social Choice and Game Theory. 3 Hours. S.
A survey of the political economic approach to individual and collective choice behavior called "rational choice." The course focuses on models of voting systems and other political institutions as seen from a game theoretic perspective. Prerequisite: Nine hours of political science and completion of the College of Liberal Arts and Sciences mathematics requirement for the B.A. degree. LEC.

POLS 609. Topics in Political Theory: _____. 3 Hours. S.
A study of selected theorists in relation to a topic in political theory. Sample topics include: revolution; authority and community; elements of political power; political elites: ideology, human nature in politics, political conflict, etc. Theorists will range from ancient to contemporary. Course is repeatable for different topics. Prerequisite: POLS 301, or (for non-majors) completion of the Western Civilization requirement, or consent of instructor. LEC.

POLS 610. Constitutional Law: Governmental Powers. 3 Hours. S.
The Supreme Court viewed as a political branch of our government. Special emphasis on the Court’s role in determining powers of government and their relationships. Prerequisite: POLS 110. LEC.

POLS 611. Constitutional Law: Civil Liberties. 3 Hours. S.
The constitutional limits on governmental powers are studied with special emphasis on constitutional guarantees of individuals freedom. Prerequisite: POLS 110. POLS 610 is recommended. LEC.

POLS 612. Psychology in Politics. 3 Hours. S.
An examination of psychological perspectives on political phenomena. Topics include political personality, foreign policy decision making, international conflict and cooperation, voting behavior, and political participation and socialization. Prerequisite: Nine hours of political science, including POLS 110 and POLS 170. LEC.

POLS 613. Comparative U.S. State Politics. 3 Hours. S.
A systematic comparative analysis of structures, functions, and policies of state political systems. Prerequisite: POLS 110 or consent of instructor. LEC.

POLS 614. Urban Politics. 3 Hours. S.
A survey of the social, cultural, economic, and structural differences among cities and an investigation into how these factors affect urban politics and policies. Specific topics include leadership, governmental reform, citizen participation, inter-ethnic conflict, and economic development. Prerequisite: POLS 110. LEC.
POLS 615. Campaigns and Elections. 3 Hours. S.
This course examines the behavior of candidates, campaigns, and voters in the electoral process. Topics will include the role of media, the impact of money, the operations of political campaigns and the effect of campaign laws. LEC.

POLS 616. Interest Group Politics. 3 Hours. S.
Study of internal group organization and the politics of interests within the U.S. policy-making process. Prerequisite: POLS 110. LEC.

POLS 617. The Congress. 3 Hours. S.
Descriptive and comparative analysis of legislative institutions and processes in the United States, covering Congress and state legislatures. Prerequisite: POLS 110. LEC.

POLS 618. The Presidency. 3 Hours. S.
The office of the President of the United States, its place in the constitutional and political system. Emphasis is given to modern experience and current problems. Prerequisite: POLS 110. LEC.

POLS 619. Topics in American Politics: ______. 1-3 Hours. S.
A study of selected contemporary problems of policy or politics in the United States. Course is repeatable for different topics. Prerequisite: POLS 110. LEC.

POLS 620. Formulation of Public Policy. 3 Hours. S.
Analysis and evaluation of the structures and processes involved in the formulation of public policy at all levels of government. Prerequisite: POLS 110. LEC.

POLS 621. Public Policy Analysis. 3 Hours. S.
An introduction to the study and analysis of public policy with emphasis on the concepts and techniques of policy thinking. The methods of policy description, explanation, evaluation, and choice will be applied to a variety of policy topics, e.g. health care, defense, environmental protection, education, etc. Prerequisite: POLS 110. LEC.

POLS 622. Government and the Economy. 3 Hours. S.
An examination of the formulation and execution of government policies in the economy and the business sector; the impact of the economy and business on government policies and the impact of government policies on the economy and business. Prerequisite: POLS 110 or consent of instructor. LEC.

POLS 623. The Politics of Social Policy. 3 Hours. S.
An examination of the formulation and execution of key social policies in the United States, such as welfare policy, crime and drug control policy, disability rights policy, education policy, and social regulatory policy concerning controversial social issues such as abortion and gun control. Prerequisite: POLS 110. LEC.

POLS 624. Environmental Politics and Policy. 3 Hours. S.
Analysis of environmental politics and the formulation and implementation of environmental policy. Examines the history and development of environmental politics as well as current trends. Themes include interest groups, business interests, political institutions, and specific environmental policy issues. (Same as EVRN 620.) LEC.

POLS 625. Extremist Groups and Government Response. 3 Hours. S.
Examines left- and right-wing extremist political groups in America and how the government has developed policies and respond to these groups. Special attention will be given to the process of policy adoption and implementation and how the government might respond to extremist groups in the future. Issues and themes will include groups such as the left-wing terrorists of the 1960s and 1970s, right-wing anticommmunist groups of the 1950s and 1960s, international terrorists acting in the U.S., hate crime, ecoterrorism, citizen militia groups, and pro- and anti-abortion extremist groups. Prerequisite: POLS 110. LEC.

POLS 626. Introduction to Survey Research. 3 Hours. S.
This course introduces the theory and methods used in survey research. The topics include types of surveys, type of sampling methods, questionnaire and codebook construction and analysis. Prerequisite: POLS 306. LEC.

POLS 627. Advanced Issues in Survey Research. 3 Hours. S.
This course focuses on the problems encountered while implementing surveys in specific populations (in the United States and Europe) and in developing countries. The course identifies problem areas such as in sampling and questionnaire design; and addresses how researchers overcome these problems. Prerequisite: POLS 306 and POLS 626. LEC.

POLS 628. The Politics of Public Health. 3 Hours. S.
This course examines the social, institutional and political context of public health policy in the United States. We will examine factors that shape the nation’s public health, explore the role of government in reducing risk and promoting well-being, and analyze the major institutions responsible for monitoring, protecting and promoting general public health. Themes include the social determinants of health, health disparities, emerging infectious diseases, food safety, transportation, and environmental health. (Same as EVRN 628.) Prerequisite: POLS 110 and POLS 306 are recommended. LEC.

POLS 629. Topics in Public Policy: ______. 1-3 Hours. S.
Examination of the U.S. political system and policy formulation and administration through intensive analysis of selected current public policy problems. Sample topics include the environment, education, and economic well-being. Course is repeatable for different topics. Prerequisite: POLS 110. LEC.

POLS 630. Politics of Identity. 3 Hours. AE41 / S.
This seminar explores the nature of identity and how identity is relevant to politics and policy with a focus on political attitudes and behavior, institutions, and public policy. Topics include individual and group identity, identities such as gender, racial, sexual orientation, and partisan, and the enduring importance of identity for understanding politics as well as the policy process. The approach is multidisciplinary but political science perspectives are relied on more heavily. (Same as WGSS 630.) Prerequisite: POLS 110 and POLS 306 are recommended. LEC.

POLS 634. Bureaucratic Politics. 3 Hours. S.
Examination of U.S. governmental agencies with special attention to their development and role in the American political system. Prerequisite: POLS 330. LEC.

POLS 640. Politics of Reproductive Policy. 3 Hours. S.
Reproductive policy has historically been a highly politicized policy area, which has elicited attention from the political community as well as the public. This course moves beyond the popular rhetoric associated with reproductive issues, by critically investigating the history, development, implementation and the relative success of various reproductive policies in the United States. These policies are compared to, and assessed against, policies governing similar topics in various countries. (Same as WGSS 640.) Prerequisite: POLS 110 or consent of instructor. LEC.

POLS 644. Justice and Public Policy in Democratic Societies. 3 Hours. S.
Examines the ethical and philosophical choices that inform public policy in democratic societies. The guiding idea of the course is that public policies reflect underlying decisions about the nature of state authority and the just use of that authority. The theoretical focus is on modern European and American liberal democratic thought; the empirical focus is global. Among the policy issues examined in the course are public education, immigration, gender equality, same-sex marriage, and drugs. Prerequisite: POLS 150 or POLS 301. LEC.
POLS 645. Corruption, Crisis and Scandal. 3 Hours. S.
This course investigates political events and decisions that are considered illegal or illegitimate. Cases from the U.S. and around the world are considered. Issues discussed include the misuse of governmental power and funds, electoral fraud, and bribery. Conditions under which problems arise and reforms that address them are considered. Prerequisite: POLS 110 and POLS 150. LEC.

POLS 650. Palestinians and Israelis. 3 Hours. S.
Examines the international relations, political institutions, and social politics of these two ethnonational communities in relation to each other. Specific topics include the historical evolution of the Israeli-Palestinian conflict, prospects for conflict resolution, electoral systems and political parties in the two nations, state-society relations, social movements, and roles of gender and religion. Prerequisite: Nine hours of Political Science, including POLS 150/POLS 151 or POLS 170/POLS 171, or permission of instructor. LEC.

POLS 651. Women and Politics in Latin America. 3 Hours. S.
This course explores the ways in which Latin American women have engaged in politics in the past two decades. Cases will draw from a variety of countries in Latin America. Students are expected to develop insights, through comparative analysis, into why women "do politics" in certain ways, the role of the State in women’s politics, the (dis)advantages of various political strategies, and the ways in which political, economic, and social changes over time have affected women’s political opportunities and interests. (Same as WGSS 651.) Prerequisite: Six hours of course work in Political Science and/or Women’s Studies and/or Latin American Studies. LEC.

POLS 652. Politics in Europe. 3 Hours. S.
The study of the politics and government of Europe. Major countries are covered in depth, while smaller democracies are grouped according to political concepts. Prerequisite: POLS 150. LEC.

POLS 653. Gender, War, and Peace. 3 Hours. S.
This course explores ways in which militarization and warfare are gendered processes. We ask, what does war tell us about gender, and what does gender tell us about war? Though the majority of fighters are men, women are essential to war efforts. They also represent a high proportion of the casualties of war. Yet women are rarely examined in relation to war; thus we work to uncover women’s experiences of war. We also look to women’s contributions to the peace movement in terms of both theory and practice, asking: Is peace a feminist issue? Should feminists support women’s access to combat positions or oppose the military? What if women ruled the world—would that end wars? Does militarized masculinity harm men more than benefit them? How do states mobilize citizens to war and how is the process gendered? (Same as WGSS 653.) Prerequisite: One of the following: POLS 150, POLS 151, POLS 170, POLS 171, WGSS 201, WGSS 202. LEC.

POLS 654. Politics and Government of Russia and the Central Eurasian States. 3 Hours. S/W.
The collapse of the Soviet system and the problems of transforming a central planned authoritarian state into a free market democracy. The roles of ethnic and national tensions, economic decay, and cultural factors. Prerequisite: Eight hours in the social sciences and/or history, including POLS 150, or consent of instructor. LEC.

POLS 655. Politics of East-Central Europe. 3 Hours. S/W.
This course analyzes Communist political theory in its application to the countries of East-Central Europe with consideration of their traditional backgrounds and their patterns of political, social, and economic developments. It constructs a theoretical model of the communist state and discusses its variations by description and comparison of the governments and political processes of Albania, Bulgaria, Czechoslovakia, German Democratic Republic, Hungary, Poland, Rumania, and Yugoslavia. Prerequisite: POLS 150 and three hours in the social sciences or East European history, or consent of instructor. LEC.

POLS 656. Governments and Politics of East Asia. 3 Hours. NW AE42 / S/W.
A comparative examination of the contemporary political institutions, processes and ideas of China, Japan, and Korea. (Same as EALC 656.) Prerequisite: POLS 150 or a course in East Asian studies. LEC.

POLS 657. Government and Politics of Southeast Asia. 3 Hours. NW AE42 / S/W.
An evaluation of the traditional and contemporary political institutions, behavior and ideas of the countries of Southeast Asia. Prerequisite: POLS 150 or a course in Asian history or Southeast Asian history. LEC.

POLS 658. Theories of Politics in Latin America. 3 Hours. S/W.
This course examines how political science can be used to explain the political dynamics of Latin America. The course will be devoted to understanding different theories about politics -- many of which have been devised by political scientists whose primary focus of study is not Latin America -- and examining their uses and limitations in understanding Latin America. Among the themes we will be examining are the relationships between economic growth, political culture, and democracy, the role of the military in politics, the political impact of new social movements (such as the women’s movement and religious movements), theories of revolution, and understanding the prevalence of political corruption in the region. Along the way, we will analyze how political scientists attempt to develop hypotheses, gather data, and test theories. Prerequisite: POLS 150 or a social science course in Latin American topics. LEC.

POLS 659. Political Dynamics of Latin America. 3 Hours. S/W.
Study of the institutions, processes, and special problems of selected Latin American countries. Prerequisite: POLS 150 or a course concerning Latin America in the social sciences or history. LEC.

POLS 660. The Politics and Problems of Developing Countries. 3 Hours. NW AE42 / S/W.
A focus on topics pertinent to all of the underdeveloped areas such as the role of the military, styles of political leadership, land tenure systems, the role of the middle sectors, the nature of bureaucracy, the activity of the students, and foreign policy attitudes. Prerequisite: One of the following: POLS 652, POLS 653, POLS 654, POLS 655, POLS 656, POLS 657, POLS 658, POLS 659. LEC.

POLS 661. Politics of the Middle East. 3 Hours. NW AE42 / S/W.
Survey of domestic and international political developments in the Middle East. Topics include: emergence of the modern nation-state, the role of Islam, leadership patterns, competing political ideologies, prospects for democratization, foreign policy relations, and regional conflicts. Prerequisite: Nine hours in political science, including POLS 150 and POLS 170 or their honors equivalents, or permission of instructor. LEC.

POLS 663. Protest and Revolution. 3 Hours. S.
An exploration of what happens when protesters challenge a state. The course focuses on the interactions and outcomes of discontent and state conflict. Topics include the relation between coercion and protest, strategy, violence, terrorism as adaption, civil war and regime transition. Prerequisite: POLS 150. LEC.

POLS 664. Middle East Politics, Honors. 3 Hours. S.
Honors Version of POLS 661. Survey of domestic and international political developments in the Arab countries, Iran, Turkey, and Israel. Topics include state-society relations (e.g., forms of political organization, electoral politics, opposition movements, human rights, political Islam, gender), regional and international foreign relations, and the Arab-Israeli conflict. Prerequisite: Nine hours of Political Science, including POLS...
POLS 665. Politics in Africa. 3 Hours. NW AE42 / S.
A survey of politics in Africa, focused on the countries of sub-Saharan or Black Africa. The course includes a historical discussion of precolonial Africa, colonization and the creation of contemporary states, and the politics of independence, before examining contemporary political systems and the forces influencing patterns of politics on the continent. (Same as AAAS 600.) Prerequisite: POLS 150 or AAAS 105 or AAAS 305 or consent of instructor. LEC.

POLS 666. Political Economy of East Asia. 3 Hours. S.
This course provides basic understanding of fiscal, monetarist, and trade politics; how governments in East Asia use them to pursue growth; the extent to which these governments follow or controvert economics to pursue growth; and how the performances of economies in East Asia relate to the U.S. and global economies. (Same as EALC 666.) Prerequisite: POLS 150. LEC.

POLS 667. Islam and Politics. 3 Hours. NW AE42/AE51 / S.
This course gives students a basic understanding of Islam and Islamic movements, explores the economic, social, political, and cultural context in which these movements take place, and examines the impact of Islam on politics in select countries. Issues such as compatibility of political Islam and democratic politics, political economy in Muslim societies, fundamentalism in Islam, gender relations, identity politics and questions on clash of civilizations are explored. (Same as SOC 640.) Prerequisite: A principal course in sociology, POLS 150, or consent of instructor. LEC.

POLS 668. Reform in Contemporary China. 3 Hours. NW AE42 / H/W.
Examines the epochal changes that have occurred in China from Deng Xiaoping’s rise to power in 1978 to the present. Includes a focus on the historical background of the revolutionary period before examining the political and economic changes that spawned the 1989 "prodemocracy" movement at Tiananmen. The course includes an analysis of the events of the 1990s focusing on U.S.-China political and economic relations and the destabilizing effects of inflation, infrastructural reform, political and economic decentralization, and leadership succession. A previous course on China is helpful, but not mandatory. (Same as EALC 585.) LEC.

POLS 669. Topics in Comparative Politics: _____ 2-3 Hours. S.
A study of selected contemporary problems of policy or politics affecting several countries. Course is repeatable for different topics. Prerequisite: POLS 150. LEC.

POLS 670. United States Foreign Policy. 3 Hours. S.
An evaluation of the formulation of United States foreign policy in the post-World War II period. Economic, military, and diplomatic dimensions of policy; internal and external influences on policy; theories of foreign policy decision-making. Prerequisite: Nine hours of political science, including POLS 170. LEC.

POLS 671. International Cooperation. 3 Hours. S.
An examination of the gains possible from international cooperation and the barriers to achieving cooperation. Theoretical perspectives on international cooperation will be explored along with cases such as trade, the environment, arms control, and the European community. Prerequisite: POLS 170 or consent of instructor. LEC.

POLS 672. International Political Economy. 3 Hours. S.
Structural theories of the international political economy provide the framework for a consideration of the nature of hegemony, the management problem of multinational corporations, the role of international regimes and organizations, development, and dependency. Prerequisite: Nine hours of political science, including POLS 170. LEC.

POLS 673. International Organization. 3 Hours. S.
International organizations are examined with special emphasis devoted to the United Nations. A central theme of the course rests upon the question of whether strengthened international organization offers the only alternative to further world wars. Prerequisite: POLS 170 and three additional hours of political science. LEC.

POLS 674. International Ethics. 3 Hours. H.
This course reviews how philosophical perspectives elucidate the role ethics plays in foreign policy. It covers human rights doctrines, issues of economic and political justice, just war theory (jus ad bellum) and just conduct of war (jus en belli) and humanitarian intervention. Prerequisite: POLS 170 or POLS 171. LEC.

POLS 675. Russian Foreign Policy. 3 Hours. S/W.
Examination of the history of Soviet and Russian foreign policy and current issues of foreign policy in the Post-Soviet era. Analysis of foreign policy making in Russia and the other Post-Soviet states. Emphasis on the changed nature of international security problems after the Cold War and on the role of foreign policy in economic development. Prerequisite: Eight hours in the social sciences or history, including either POLS 170 or a course in Russian history. LEC.

POLS 676. International Relations of Asia. 3 Hours. S/W.
An intensive study of the problems of ideological conflict, diplomatic relations, strategic arrangements, economic cooperation, and cultural exchange in East and Southeast Asia with special emphasis upon the roles of major world powers. (Same as EALC 676.) Prerequisite: POLS 170 or a course in East Asian studies. LEC.

POLS 677. U.S. National Security Policy. 3 Hours. S.
An investigation into (1) how security policy is made; (2) the evolution of changing assumptions, strategies and goals since 1945; and (3) the present policy and its alternatives. Prerequisite: Six hours of political science, including POLS 170. LEC.

POLS 678. Chinese Foreign Policy. 3 Hours. S/W.
In-depth examination of China’s changing policies toward other countries with special emphasis on policy-making process, negotiating behavior, military strategy, economic relations, and cultural diplomacy. (Same as EALC 678.) Prerequisite: POLS 170 or a course in East Asian studies. LEC.

POLS 679. International Conflict. 3 Hours. S.
Examination of the historical and theoretical issues surrounding the sources and control of international conflict. Topics will include political and anthropological theories of conflict, the role of force in the international system, international law and just war approaches, nuclear conflict, arms control, and nonviolent alternatives to conflict. Prerequisite: Nine hours of political science, including POLS 170; POLS 306 is recommended. LEC.

POLS 680. International Relations in Political Philosophy. 3 Hours. S.
A consideration of classical and modern theories of the international system, such as the writing of Thucydides, Machiavelli, twentieth-century realists, and others. Topics include, theories of the state, the role of ethics and normative judgments in the world order, the nature and use of power, the relationship between domestic and international politics. Prerequisite: POLS 301, or (for non-majors) completion of the Western Civilization requirement, or consent of instructor. LEC.

POLS 681. Comparative Foreign Policy. 3 Hours. S.
An examination of theories that seek to explain the foreign policy behavior and decision making processes of states in international relations and a survey of past and present foreign policies of several states in Latin America, Western and Eastern Europe, Africa, the Middle East, and the
Far East. Prerequisite: Nine hours of political science, including POLS 150 and POLS 170. LEC.

**POLS 683. International Mediation, Honors. 3 Hours. S.**
This seminar examines the theories about, research on, and the practice of international mediation and other forms of non-militarized third party intervention used to address interstate, intrastate, and nonstate disputes. Specific topics include how mediation differs from other forms of non-militarized peace-building and conflict resolution; the conditions for mediation success (and how 'success' is defined); third party involvement after protracted civil conflict; the role of third parties in the implementation of peace agreements; the relationship between mediation, peace-building, and international law; and proactive conflict management. Prerequisite: Nine hours of political science, including POLS 170/171 and membership in the University Honors Program, or by permission of instructor. LEC.

**POLS 684. International Law: The State and the Individual. 3 Hours. S.**
International law has assumed an increasingly significant role in international life. This course will examine major law including (but not limited to): the changing status and role of the state; rights of minorities and self-determination; the environment; and human rights. The course will examine the central questions and the relevant international legal principles associated with each issue. Prerequisite: Six hours of Political Science, including POLS 170. LEC.

**POLS 685. International Law: Laws of Armed Conflicts. 3 Hours. S.**
This course examines the principles, roles, and functions of international law in the conduct of war. As the course reviews the development and application of the basic rules of armed conflict, several current issues and conflicts are addressed including: the legitimate use of force; the proper definitions of combatants and civilians; actions that constitute war crimes, the legality of new weapons technology, and, if the laws of armed conflict apply to the current "war on terrorism." Prerequisite: Six hours of Political Science, including POLS 170. LEC.

**POLS 689. Topics in International Relations:. 2-3 Hours.**
A study of selected problems in international relations. Course is repeatable for different topics. Prerequisite: POLS 170. LEC.

**POLS 701. Political Theory. 3 Hours. S.**
This course is intended to introduce graduate and advanced undergraduate students to the kinds of activities engaged in by political theorists. Thus the course focuses on several approaches to doing political theory, such as interpreting the work of great political philosophers, clarifying political concepts, organizing and integrating political ideas, evaluating political practices, and creating new political perspectives. The course focuses on historical and contemporary treatments of both epistemological issues (the possibility and grounds for political knowledge) and selected substantive issues (e.g., the legitimacy of the state, the merits and limitations of democracy, the requirements of justice, and the nature and importance of ideologies). LEC.

**POLS 703. Social Choice and Game Theory. 3 Hours.**
A survey of the political economic approach to individual and collective choice behavior called "rational choice." The course focuses on models of voting systems and other political institutions as seen from a game theoretic perspective. Prerequisite: Nine hours of political science or admission into the M.A. or Ph.D. LEC.

**POLS 705. Research Design for Political Science. 3 Hours.**
Introduction to the discipline of political science, the philosophy of science, research design, and data acquisition. Prerequisite: Graduate standing or consent of instructor. LEC.

**POLS 706. Research Methods I. 3 Hours.**
An introduction to quantitative research methods, including probability theory, hypothesis-tests, and multiple regression. Includes regression diagnostics, the treatment of numeric and categorical predictors, interaction effects and elementary nonlinear models. Applications across the behavioral and social sciences are emphasized. Course consists of three hours of lecture and lab sessions where computing applications are taught. LEC.

**POLS 707. Research Methods II. 3 Hours.**
This course covers basic techniques for multivariate analysis, focusing on multiple regression. Topics include interpretation of regression statistics, diagnostics for common problems, dummy variables, instrumental variables, basic time series methods including adjustment for autocorrelated error, logistic models, and nonlinear modeling; additional techniques may be covered at the discretion of the instructor. Prerequisite: POLS 706. LEC.

**POLS 708. Advanced Qualitative Research Methods. 3 Hours.**
An examination of qualitative research approaches frequently employed within political science. Topics may include the use of case studies, archival and documentary research, content analysis, interviewing and focus group techniques, ethnographic fieldwork, narrative and discourse analysis, and others. The course will examine the strengths and limitations of these methods in relation to major research traditions such as culturalist approaches, historical institutionalism, rational choice, and constructivism. Prerequisite: POLS 705 and either graduate standing or consent of instructor. LEC.

**POLS 709. Topics in Political Theory: ______. 3 Hours.**
At the discretion of the instructor, this course will select one or more important areas of political theory for in-depth analysis. Prerequisite: Six hours in Political Theory. LEC.

**POLS 710. American Public Philosophies. 3 Hours.**
Surveys scholarly attempts to describe and analyze critically the changing public philosophies that have dominated American society and politics. Liberalism, republicanism, ascritivism, and pluralism are examples of such public philosophies. Also considered are some philosophies that are important but have not dominated American politics. Transcendentalism, populism, communitarianism, racial nationalism, and religious fundamentalism are examples of such philosophies. Prerequisite: Graduate standing or consent of the instructor. SEM.

**POLS 711. The Psychological Base of Political Behavior. 3 Hours.**
Examination of the relations between psychological mechanisms and social milieu factors and individual political behavior. Particular attention is devoted to understanding the development of politically relevant psychological traits and dispositions, and to the methodology employed in studying the socio-psychological factors which underlie individual political behavior. Prerequisite: Twelve hours of political science and consent of instructor. LEC.

**POLS 712. The Electoral Process. 3 Hours.**
A study of the characteristics of voting behavior and the influences upon such behavior in the United States. Emphasis is placed upon relevant research findings concerning partisanship and participation in politics, and on the methodology employed in the study of political behavior. Prerequisite: Twelve hours of political science and consent of instructor. LEC.

**POLS 713. Law and Society. 3 Hours.**
A study of the province and function of law in the context of relevant social, economic, and political factors. The impact of these factors on the law will be illustrated through readings and discussions of selected case histories. Emphasis will be placed upon law as a social phenomenon...
POLS 716. Political Behavior. 3 Hours.
A seminar for students interested in understanding the public opinion, voting, and other forms of political participation. This course will include a discussion of the formation, measurement of political attitudes as well as an examination of protest and other forms of extra-legal participation. Prerequisite: Twelve hours of political science and permission of instructor for undergraduates. LEC.

POLS 719. Topics in the American Political Institutions: _____. 3 Hours.
A seminar to be offered as occasion demands, dealing with, but not limited to special topics in the presidency, congress, and judicial processes. Prerequisite: Graduate standing or consent of instructor. LEC.

POLS 720. The Scope of Public Policy. 3 Hours.
Introductory graduate course in the examination of public policy making. Considers institutions, basic theoretical frameworks, and standard methods, and places policy-making within a broad political context. Emphasizes American examples, but relevant comparative material is employed. Prerequisite: Twelve hours of political science. LEC.

POLS 722. Intergovernmental Relations. 3 Hours.
A survey of characteristic legal, political, and administrative relationships among different units of American government, with particular emphasis upon the role of state agencies. Prerequisite: Nine hours of political science. LEC.

POLS 726. Public Policy in Comparative Perspective. 3 Hours.
This seminar examines the application of policy theory in regional and comparative contexts. Much of the research examined focuses on comparative public policy, but select weeks focus on specific regions of the world. A key goal is to help students understand which theories of policy may be best suited for universal application. LEC.

POLS 754. Politics and Government of Russia and the Central Eurasian States. 3 Hours.
The collapse of the Soviet system and the problems of transforming a central planned authoritarian state into a free market democracy. The roles of ethnic and national tensions, economic decay, and cultural factors. Prerequisite: Eight hours in the social sciences and/or history, including POLS 150, or consent of instructor. LEC.

POLS 758. Revolutionary Politics of Latin America. 3 Hours.
Primarily a comparative analysis of the Mexican, Bolivian, and Cuban revolutions within a framework of theories of revolutions. Some attention also to revolutionary political groupings and conditions in other Latin American countries. Prerequisite: POLS 150 or a course concerning Latin America in the social sciences or history. LEC.

POLS 774. International Law. 3 Hours.
Study of topics in international law, relating these closely to the dynamics of international relations. Special emphasis will be given to regulating force, resolving disputes, the law of the sea, human rights, and emerging problem areas such as the environment, outer space, the oceanic seabed, and genocide. Prerequisite: Six hours of courses in international relations including POLS 170 and/or relevant courses in the social sciences and modern history. LEC.

POLS 789. Topics in International Relations: _____. 2-3 Hours.
A study of selected problems in international relations. Prerequisite: Consent of instructor. RSH.

POLS 810. American Politics. 3 Hours.
A survey and critical examination of recent theoretical developments and research focusing on national institutions, electoral behavior, and policy-making processes. Emphasis is given to conceptualizing and analyzing the changing nature of the American political system. LEC.
POLS 852. Comparative Political Economy. 3 Hours.
This course provides a survey of some of the major works, research traditions, and current debates in the subfield of comparative political economy. This includes such topics as: The political economy of development and underdevelopment; dependency and world systems theory; the relationship between economic development and democracy; capitalist development and democracy; the political economy of dual transitions; the political economy of privatization and structural adjustment; comparative welfare states; and comparative labor-business-government relations. Prerequisite: POLS 850. LEC.

POLS 853. Comparative Social Politics. 3 Hours.
This course provides a survey of some major research traditions and current debates in the subfield of political sociology. This includes such topic as: culture and politics; elites, social structures, and politics; the politics of cultural pluralism and ethnonationalism; social movements and protest; gender and politics; state-society relation; and religion and politics. Prerequisite: POLS 850. LEC.

POLS 870. International Relations. 3 Hours.
Critical evaluation of the major approaches to international relations and their application to conflict and conflict resolution, foreign policy, and international political economy. LEC.

POLS 878. Conducting and Analyzing Fieldwork in Developing Countries. 3 Hours.
An introduction to fieldwork and surveys conducted in developing and non-democratic countries. The course covers the challenges of conducting interviews and surveys in these countries. The intent is to develop the research skills necessary for data collection and fieldwork as well as evaluating an analyzing survey data collected by other researchers in developing countries. Prerequisite: POLS 705 or equivalent or consent of the instructor. SEM.

POLS 888. Contemporary China Studies. 3 Hours.
This course will review and analyze the current literature on China's social and political development, including a wide range of topics within political science. There is a rich body of literature within each topic such as civil society in China, legal reform, political culture, nationalism, gender issues, ethnicity, political behavior, elections, economic development, and inequality. This course will introduce key literature within each topic focusing on the debates among China scholars as well as how these debates fit in the general field of political science. (Same as EALC 888 and POLS 888.) Prerequisite: POLS 668 or permission of the instructor. LEC.

POLS 889. Non-Thesis Research. 1 Hour.
Research course used to fulfill continuous enrollment requirement for master's degree students. Hours cannot count toward degree. Must be graded Satisfactory/Unsatisfactory. RSH.

POLS 899. Thesis. 1-6 Hours.
Enrollment for writing thesis for master's degrees. THE.

POLS 904. Statistical Computing Foundations. 3 Hours.
This is an interdisciplinary course for social science researchers who need to develop routines to estimate and evaluate statistical models. It introduces tools for software development, primarily with the statistical programming language R (and related languages like C). Topics include code organization and optimization, concurrent version management, LaTeX document preparation, and high-performance computing on the KU Linux cluster. Examples from various fields are considered. Prerequisite: Two courses in graduate level statistics and familiarity with R. LEC.

POLS 905. Complex Adaptive Systems, Agent-Based Modeling and Computer Simulation. 3 Hours.
This seminar addresses the rapidly growing science of complex systems. Topics addressed include political, economic, ecological, and biological systems. Includes a survey of the theory of complexity and computer models that are used to study complex adaptive systems. The main focus is on agent-based models, but attention is also given to traditional cellular automata. Methods of designing, programming, and interpreting results of agent-based models are addressed. Students who have no formal training in computer programming are welcome in the course, but they should expect to do some extra work on fundamentals of programming. A preparatory course in Java, C++, Objective-C, or another object-oriented language would significantly facilitate the student's research effort. SEM.

POLS 906. Advanced Regression. 3 Hours.
Covers topics appropriate for a second course in regression analysis. The content will vary according to the interest of the instructor and students, but will generally include such topics as multiple imputation of missing data, the generalized linear model (GLM), and specialized models for longitudinal data. The course will include a review of the principles of maximum likelihood estimation and applications of matrix algebra and differential calculus in statistical applications. LEC.

POLS 907. Research Methods in International Studies. 3 Hours.
This course focuses on quantitative methods of research relevant to international relations and comparative politics. Topics will vary with the instructor and student interests, but may include time series analysis, classification algorithms, computer programming and computational modeling, simulation, event data and content analysis, and dynamic models. Prerequisite: POLS 707. LEC.

POLS 908. Individual and Collective Choice. 3 Hours.
This course surveys rational choice theories of politics as they are applied to decisions by individuals and groups. Models of individual behavior are drawn primarily from economics and decision theory. The primary approaches to collective choice are social choice theory and game theory. Prerequisite: POLS 707. LEC.

POLS 909. Topics in Methodology: ______. 3 Hours.
An intensive seminar in a method (or a variety of relevant methods) of theoretical or empirical research designed for Ph.D. students only. Emphasis is on deepening the understanding and ability to use advanced methods of analysis. Prerequisite: Admission to the Ph.D. program or consent of instructor. RSH.

POLS 910. Research Seminar in American Government. 2-3 Hours.
A faculty and advanced graduate student collegial research experience focusing on American politics, policy-making and administration, with faculty and students engaged in the production of scholarly research articles, books and conference papers. Topics will be chosen by individual students with consent of the seminar professor. LEC.

POLS 911. The U.S. Congress. 3 Hours.
This seminar employs various theoretical and methodological perspectives to explore the burgeoning post-1960 literature on Congress. Traditional subjects such as committees, parties, and elections are examined through applications of formal models, behavioral analyses, and participant observation. LEC.

POLS 912. Elections and Voting Behavior. 3 Hours.
A research seminar for students interested in theoretical and empirical approaches to the behavior of candidates, voters and contributors in campaigns and elections. The impact of campaign laws and other institutional influences will also be examined. LEC.
POL 913. State and Local Politics. 3 Hours.
Research seminar on various aspects of state and local government, such as reformed institutions, fiscal stress, citizen participation, and various policy problems. LEC.

POL 914. Political Behavior. 3 Hours.
Survey of various approaches to the analysis of political behavior, including an evaluation of each approach in terms of its utility in building empirically-based political theory. Examples of the application of the various approaches will focus upon the American political process. LEC.

POL 915. American Political Parties. 3 Hours.
A survey of the theories and research findings dealing with political parties in American politics, including third and minor parties. Topics to be covered include the development and evolution of the party system, the nature of party organization and the recruitment of party activists, the role of parties in the electoral process, the impact of parties upon public policy, and party reform. LEC.

POL 916. Group Politics. 3 Hours.
The focus of this course is upon the theories and research findings dealing with political groups in American politics, including protest groups, movements, as well as conventional interest groups. Topics to be covered include group mobilization and maintenance, group involvement in the political party and electoral processes, methods and strengths of group influence, and the impact of political groups on the policy process. LEC.

POL 917. The Presidency. 3 Hours.
An advanced research seminar for students interested in theoretical and empirical approaches to the American presidency. This seminar will examine the powers and organizations of the White House through a study of the literature. LEC.

POL 918. Topics in U.S. Government and Politics: ____. 2-3 Hours.
A seminar to be offered as occasion demands, dealing with, but not limited to, bureaucracy, legislative policy, federalism, and special problems in U.S. politics. LEC.

POL 920. Policy Analysis Research Seminar. 3 Hours.
Research seminar designed to apply public policy theory and policy analysis methods to evaluate the impact of public policies. Students will be required to design and conduct an original research project with the intention of presenting the work at a professional conference or publishing the work in a professional journal. LEC.

POL 921. Public Law. 3 Hours.
This seminar is designed to initiate the advanced graduate student to research in judicial and jury behavior. Requirements include mastery of literature on the psychological foundations of legal judgment and research designed to test propositions derived from this literature. LEC.

POL 929. Topics in Public Policy: ____. 1-3 Hours.
Study of selected topics in public policy. LEC.

POL 940. Teaching Political Science. 1 Hour.
A discussion of teaching methods and approaches. Students are expected to develop a personal teaching portfolio that describes their outlook on teaching political science and provides sample teaching materials. This course must be taken by all graduate teaching assistants and assistant instructors during the first year of their appointment. Grades are issued on a pass/fail basis. LEC.

POL 950. Research Seminar in International Studies. 2-3 Hours.
A faculty and advanced graduate student collegial research experience, focusing on comparative politics, area studies, and international relations, with faculty and students engaged in the production of scholarly research articles, books, and conference papers. Topics will be chosen by individual students with consent of the seminar professor. RSH.

POL 951. Mobilization. 3 Hours.
A study of how politicians, interest group leaders, and dissident leaders exhort citizens to act in or preclude them from acting in politics. LEC.

POL 952. Comparative Electoral and Party Systems. 3 Hours.
This research seminar addresses the major theoretical and empirical issues in the study of electoral and party systems. In addition to evaluating the classic works of Arrow, Duverger, Lipset and Rokkan, Rae, and Taagepera and Shugart, students will assess contemporary work on electoral and party systems that has evolved from this source material. The course will address the design and reform of electoral systems, institutional rules and the strategic environment they create for political actors, the role of institutional and social factors in the development of political party systems, and the role of election administration. Students will develop and present original research papers related to these topics. Prerequisite: POLS 850. LEC.

POL 953. Comparative Legislatures. 3 Hours.
This research seminar addresses the major theoretical and empirical issues in the study of legislatures. Students will discuss the design of institutions, government formation, accountability, legislative process and role of committees, agenda setting, elections and parties, and representation. The course will familiarize students with the core debates in legislative studies, extend knowledge of regional variation in the design and function of representative institutions, develop skills in the analysis of legislative records, and enhance professional socialization. Prerequisite: POLS 810, POLS 850, or consent of instructor. SEM.

POL 954. Politics in Post-Soviet States. 3 Hours.
In-depth study of the politics of Russia, Ukraine, and the other Post-Soviet states. Focus on the problems of transforming a centrally planned authoritarian system to a free market democracy. LEC.

POL 955. Politics of Advanced Industrial Societies. 3 Hours.
Theory and research on the patterns of behavior that characterize the politics of North America, Europe, and developed regions of Asia. Topics include corporatism and alternative forms of interest intermediation, economic theories of socialization and electoral choice, and the role of the state; its finances, adaptation, and the problem of power and legitimacy. Prerequisite: POLS 850 or permission of instructor. LEC.

POL 956. The Governments and Politics of Asia. 2-3 Hours.
A research seminar on selected subjects and issues in the governments and politics of selected Asian countries. The particular focus each year will depend upon the instructor. LEC.

POL 957. Comparative Political Behavior. 3 Hours.
The course introduces students to the vast literature on comparative elections and comparative political parties. It pursues a twofold goal. First, the course surveys the large comparative electoral behavior literature. The themes covered in the first half include a discussion of why voters participate in elections, how voters form preferences, how psychological processes affect mass views, and how these, in turn, influence party preferences. Second, the course introduces students to the supply-side of politics and the role of political parties. This second part of the course, therefore, examines why parties form in the first place, what motives they have, what choices they offer in short, how and why parties compete. Together, the way voters form preferences and the logic of party formation illuminate a central element of the democratic process. LEC.

POL 959. Topics in Comparative Politics: ____. 1-3 Hours.
Study of selective topics in comparative government and politics. LEC.

POL 960. Politics of Developing Countries. 2-3 Hours.
LEC.
POL 961. The Politics of Culturally Plural Societies. 3 Hours.
This is an advanced graduate seminar on the comparative study of politics in
countries characterized by sub-cultural cleavages, including ethnicity,
language, religion and race. The course will first survey and critique
competing theoretical explanations for different patterns of conflict or
peaceful cohabitation among such groups in a variety of world regions.
Students will then examine the utility of these theories in individual in-
depth research papers which will be presented in class and critiqued by
seminar participants. LEC.

POL 970. Foreign Policy Analysis. 3 Hours.
Designed to acquaint students with the principal theories, approaches and
types of empirical analysis generally employed to explain and interpret
the creation and implementation of foreign policy. Topics include rational
actor models, collective and bureaucratic processes, societal influences,
cognitive and psychological factors, and comparative foreign policy.
Prerequisite: POLS 870. An undergraduate United States foreign policy
class is recommended. LEC.

POL 972. Theories of International Conflict. 3 Hours.
An in-depth survey of theories and research on international conflict.
Topics will range from anthropological studies of conflict in primitive
societies to contemporary theories of nuclear conflict. The course will also
cover current empirical research methodology and results of research on
international conflict, as well as models of conflict processes. Prerequisite: POLS 870. LEC.

POL 973. International Political Economy. 3 Hours.
Provides an eclectic survey of major developments in the field. Topics
include the intellectual origins of IPE; the historical evolution of the
international system; North-South and Western trade, investment, and
monetary relations; foreign aid, debt technology transfer, development,
international economic institutions (e.g., IMF, IBRD, MNCs, etc.). (Same
as SOC 873.) Prerequisite: POLS 870 or consent of instructor. LEC.

POL 974. International Mediation and Conflict Resolution. 3 Hours.
The course examines the theory and practice of international mediation
and other forms of third party intervention used to resolve interstate and
nonstate disputes. Topics include explanations of mediation success
and failure, conditions of conflict escalation where mediation is likely to
be counterproductive or resisted by recalcitrant disputants, the ethics of
intervention, citizen diplomacy, and the role of international organizations
such as the United Nations. Prerequisite: POLS 870. LEC.

POL 977. Ethics in International Relations Theory. 3 Hours.
This course examines how issues of International Ethics have been
treated in International Relations theory. This course begins by reviewing
several theoretical perspectives of International Relations and how
these perspectives have historically understood the role ethics plays in
international politics. By the end of the semester, students should have
a firm understanding of (1) the salient issues of international ethics in
world politics and (2) whether and how IR scholars have (theoretically and
methodologically) placed those issues in their research paradigms. The
issue areas the course will cover include, but are not limited to, human
rights doctrines, issues of economic and political justice, just war theory
(jus ad bellum) and just conduct of war (jus en bello), and humanitarian
intervention. The course will assess the role international law has played
in stemming and/or punishing human rights abuses. Students will review
several historical cases of genocide, as well as several cases of truth and
reconciliation commissions. LEC.

POL 978. Advanced Topics in International Relations Theory. 3 Hours.
Intensive examination of key theoretical debates in international
relations. Topics covered will include Classical Realism and Liberalism,
Neo-realist/Neo-liberal debate, and post-structural critiques of mainstream
international relations theory. Prerequisite: POLS 870. LEC.

POL 979. Topics in International Relations: ________, 3 Hours.
To be offered periodically when topics of special interest arise. LEC.

POL 980. International Organizations. 3 Hours.
Considers theoretical and empirical work on international governmental
and non-governmental organizations (IOs). Specifically highlights
the evolving scholarly debates regarding the function, design, and
delegation of authority to IOs as well as their behavior and change.
Explores these questions in depth through a wide range of cases,
including comprehensive coverage of the United Nations, Bretton
Woods Institutions, and the European Union, and their activities in issue
areas concerning international security, trade, finance, development,
humanitarian aid, and the environment. LEC.

POL 981. Global Development. 3 Hours.
Considers the nature and problems of development and
underdevelopment from a cross-regional and interdisciplinary perspective.
Deals with the historical origins of the enormous disparities in wealth
that exist today, both between and within countries. Considers the
explanations for those differences, prescriptions for how to narrow them,
and specific cases (both successes and failures) from various regions of
the globe. LEC.

POL 993. Directed Readings. 1-5 Hours.
Designed to meet the needs of graduate students whose study in political
science cannot be met with present course. Prerequisite: Consent of
instructor. RSH.

POL 995. Directed Research. 2 Hours.
Designed for advanced graduate students who are concurrently enrolled
or who will be enrolled in a subsequent semester in one of the Research
Seminars in American Government or International Studies. Students
enrolling in this course should have the prior approval of the faculty
member with whom they wish to conduct the research. RSH.

POL 997. Preparation for the Comprehensive Examination. 1-6
Hours.
An independent reading course for students preparing to take the Ph.D.
comprehensive examination. May be taken for two semesters or six
credits, whichever comes first. Graded on A, B, C, D, or F depending on
the results of the comprehensive examination. RSH.

POL 999. Doctoral Dissertation. 1-15 Hours.
Enrollment for writing doctoral dissertations. THE.

Bachelor of Arts and Bachelor of General Studies in Political Science

Why study political science?
Because political science advances our understanding of politics, power,
governance, and public policy in the United States and across the globe.

First- and Second-Year Preparation
Students should apply for admission during semester in which major
admission criteria will be completed, normally no later than 60 hours, or
for transfer students, during the initial term at KU. Application to this major
after completion of 60 hours, or the initial KU term for a transfer student,
will likely delay graduation.
Courses Required

Introduction to U.S. Politics. Satisfied by:

- POLS 110 Introduction to U.S. Politics 3
- or POLS 111 Introduction to U.S. Politics Honors

Select one of the following: 3

- Introduction to Comparative Politics. Satisfied by one of the following:
  - POLS 150 Introduction to Comparative Politics
  - or POLS 151 Introduction to Comparative Politics Honors

- Introduction to International Politics. Satisfied by one of the following:
  - POLS 170 Introduction to International Politics
  - or POLS 171 Introduction to International Politics Honors

Admission GPA

- Satisfied by a minimum 2.3 GPA in required admission courses designated above.
- University Course Repeat Policy will apply.

Requirements for the B.A. or B.G.S. Major

Political Science Core Knowledge and Skills (15)

Majors must complete a course in each of the following areas:

Introduction to U.S. Politics. Satisfied by one of the following:

- POLS 110 Introduction to U.S. Politics 3
- or POLS 111 Introduction to U.S. Politics Honors

Introduction to Comparative or International Politics. Satisfied by one of the following:

- POLS 150 Introduction to Comparative Politics 3
- or POLS 151 Introduction to Comparative Politics Honors
- POLS 170 Introduction to International Politics 3
- or POLS 171 Introduction to International Politics Honors

Introduction to Political Theory. Satisfied by one of the following:

- POLS 301 Introduction to Political Theory 3
- or POLS 302 Introduction to Political Theory, Honors

Political Science Methods of Inquiry. Satisfied by:

- POLS 306 Political Science Methods of Inquiry 3

Political Science Required Distribution of Electives (6)

Majors must complete an elective course from at least 2 different subfields below.

Political Philosophy & Empirical Theory

Satisfied by one of the following:

- POLS 501 Contemporary Political Thought
- POLS 502 History of Political Thought
- POLS 503 Politics in Literature
- POLS 504 Millenarian Movements
- POLS 600 Contemporary Feminist Political Theory
- POLS 601 Political Ideologies
- POLS 602 American Political Ideas
- POLS 603 Democratic Theory
- POLS 604 Religion and Political Theory
- POLS 605 A Study of Political Thought in Antiquity
- POLS 607 Modern Political Theory

- POLS 608 Social Choice and Game Theory
- POLS 609 Topics in Political Theory: ______
- POLS 626 Introduction to Survey Research
- POLS 627 Advanced Issues in Survey Research
- POLS 644 Justice and Public Policy in Democratic Societies
- POLS 680 International Relations in Political Philosophy 

U.S. Political Institutions & Processes

Satisfied by one of the following:

- POLS 511 The Judicial Process
- POLS 512 Latino Politics
- POLS 515 American Political Parties
- POLS 516 Public Opinion and American Democracy
- POLS 520 Political Communication
- POLS 521 Rhetoric, Politics and the Mass Media
- POLS 566 Social Welfare, Taxation, and the Citizen 
- POLS 610 Constitutional Law: Governmental Powers
- POLS 611 Constitutional Law: Civil Liberties
- POLS 612 Psychology in Politics 
- POLS 613 Comparative U.S. State Politics
- POLS 614 Urban Politics
- POLS 615 Campaigns and Elections
- POLS 616 Interest Group Politics
- POLS 617 The Congress
- POLS 618 The Presidency
- POLS 619 Topics in American Politics: ______
- POLS 620 Formulation of Public Policy 
- POLS 630 Politics of Identity
- POLS 645 Corruption, Crisis and Scandal
- POLS 667 Islam and Politics
- Public Policy & Public Administration

Satisfied by one of the following:

- POLS 528 Environmental Justice and Public Policy
- POLS 566 Social Welfare, Taxation, and the Citizen 
- POLS 620 Formulation of Public Policy 
- POLS 621 Public Policy Analysis
- POLS 622 Government and the Economy
- POLS 623 The Politics of Social Policy
- POLS 624 Environmental Politics and Policy
- POLS 625 Extremist Groups and Government Response
- POLS 628 The Politics of Public Health
- POLS 629 Topics in Public Policy: ______
- POLS 634 Bureaucratic Politics
- POLS 640 Politics of Reproductive Policy
- Foreign Governments & Comparative Politics

Satisfied by one of the following:

- POLS 553 Comparative Environmental Politics
- POLS 561 Liberation in Southern Africa
- POLS 562 Women and Politics
- POLS 563 Comparative Political Economy
- POLS 564 Elections and Political Parties Around the World
- POLS 565 Political Change in Asia
POLS 600  Contemporary Feminist Political Theory
POLS 644  Justice and Public Policy in Democratic Societies
POLS 650  Palestinians and Israelis
POLS 651  Women and Politics in Latin America
POLS 652  Politics in Europe
POLS 653  Gender, War, and Peace
POLS 654  Politics and Government of Russia and the Central Eurasian States
POLS 655  Politics of East-Central Europe
POLS 656  Governments and Politics of East Asia
POLS 657  Government and Politics of Southeast Asia
POLS 658  Theories of Politics in Latin America
POLS 659  Political Dynamics of Latin America
POLS 660  The Politics and Problems of Developing Countries
POLS 661  Politics of the Middle East
POLS 662  Protest and Revolution
POLS 664  Middle East Politics, Honors
POLS 665  Politics in Africa
POLS 666  Political Economy of East Asia
POLS 667  Islam and Politics
POLS 668  Reform in Contemporary China
POLS 669  Topics in Comparative Politics: _____

International Relations
Satisfied by one of the following:

POLS 612  Psychology in Politics
POLS 661  Politics of the Middle East
POLS 670  United States Foreign Policy
POLS 671  International Cooperation
POLS 672  International Political Economy
POLS 673  International Organization
POLS 674  International Ethics
POLS 675  Russian Foreign Policy
POLS 676  International Relations of Asia
POLS 677  U.S. National Security Policy
POLS 678  Chinese Foreign Policy
POLS 679  International Conflict
POLS 680  International Relations in Political Philosophy
POLS 681  Comparative Foreign Policy
POLS 683  International Mediation, Honors
POLS 684  International Law: The State and the Individual
POLS 685  International Law: Laws of Armed Conflicts
POLS 689  Topics in International Relations:

Political Science Required Electives (18)

Majors must complete 6 elective courses (18 hours), 5 of which must be upper-level courses.

Capstone Experience (0)

Recommended for majors but not required:

POLS 493  Directed Readings
POLS 494  Washington Semester Intern Seminar

POLS 495  Topeka Semester Intern Seminar
POLS 496  Washington Semester Field Work
POLS 497  Topeka Semester Field Work
POLS 498  Honors Thesis

Honors Experience
Recommended for students with a minimum grade point average of 3.5 in Political Science coursework and 3.25 overall. These averages must be achieved before the final semester.

Major Hours & Major GPA
While completing all required courses, majors also must meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 30 hours of major courses. A student may count no more than 6 hours toward the major from the following courses combined: POLS 493, POLS 494, POLS 495, POLS 496, POLS 497, or POLS 498.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior Hours
Satisfied by a minimum of 24 hours from courses 300+ in the major, of which 15 hours must be courses (400+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://www.collegesas.ku.edu/GPAcalculator.shtml).

Graduation Plan
With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the department for details.

Departmental Honors
Undergraduate majors may qualify for departmental honors by completing 3 hours of POLS 506 Honors Seminar in Political Research and 3 hours of POLS 498 Honors Thesis (or 6 hours of POLS 498), presenting an acceptable honors thesis at the end of these enrollments, and passing an oral examination based primarily on the honors thesis. The student must have a minimum overall grade-point average of 3.25 and a minimum grade-point average of 3.5 in political science course work. These averages must be achieved at the end of the final semester. The program meets CLAS requirements for departmental honors. Consult the department before the beginning of the senior year.

Minor in Public Policy in the United States
Why study political science?
Because political science advances our understanding of politics, power, governance, and public policy in the United States and across the globe.
Requirements for the Public Policy in the U.S. Minor

The Public Policy in the U.S. minor involves course work focused on domestic U.S. public policy and the political environment surrounding the making and implementation of policy.

Public Policy in U.S. Minor Core

Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

**Minor Hours**

Satisfied by 18 hours of minor courses.

**Minor Junior/Senior Hours in Residence**

Satisfied by a minimum of 12 hours of KU resident credit in the minor.

**Minor Junior/Senior Hours**

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

**Minor Junior/Senior Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/ Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in Political Science

Why study political science?

Because political science advances our understanding of politics, power, governance, and public policy in the United States and across the globe.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Admission to M.A. or Ph.D. programs is based on the applicant’s undergraduate and/or graduate record, standardized test scores, and references from instructors. All applicants must complete a bachelor’s degree. A completed application must include

1. Online graduate application (http://www.graduate.ku.edu),
2. Graduate Record Examination results —verbal, quantitative, and analytical,
3. A 1- to 2-page statement of goals and research interests,
4. 3 letters of recommendation, preferably from faculty members,
5. A nonrefundable application fee (see Admission in the Graduate Studies (p. 2059) section of the online catalog), and
6. 1 official transcript from each college or university attended.

An official transcript is one that is sent directly from the registrar of the applicant’s school to the department. All these materials must be received before the application can be considered.

An applicant who wishes to be considered for regular fall admission and for a graduate teaching assistantship must complete the application by January 10 for the coming academic year. A student who wishes to be considered for fall admission but not for a teaching assistantship should submit the application by April 15 but may do so earlier.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the department:

The University of Kansas
Department of Political Science
Graduate Coordinator
Blake Hall
1541 Lilac Lane, Room 504
Lawrence, KS 66045-3129

M.A. Degree Requirements

All candidates for the M.A. degree must complete, at a satisfactory level,
1. 30 semester hours of graduate credit, 21 of which must be earned in courses at the 700 level or above;
2. Research methods through POLS 706; and
3. A comprehensive master’s oral examination.

The student selects a principal advisor from the Graduate Faculty by the end of the first year to choose courses and prepare for the comprehensive examination. The examination is administered by a 3-person M.A. committee that includes the student’s principal advisor and 2 other members of the KU Graduate Faculty selected by the student in consultation with the principal advisor. One member of the committee may be from another department (including Special Status members of the Graduate Faculty).

Directed readings courses in excess of 5 hours cannot be counted toward the 30 hours required for the degree. With prior written approval, candidates may count up to 6 graduate hours taken outside the department (either at KU or at another institution accredited by the North Central Association of Colleges and Schools) toward the 30 hours required for the degree.

Applicants who have not completed at least 15 undergraduate credit hours in political science may be admitted with the provision that they complete additional hours of course work.

All candidates must fulfill the requirements of either the thesis or the non-thesis option for the Master of Arts degree.

Thesis Option
Upon completion and certification of an acceptable thesis, candidates may count 6 credit hours of thesis enrollment toward the 30 credit hours required for the M.A. degree.

Non-thesis Option
Candidates may substitute a minimum of two 800- or 900-level research courses plus satisfactory performance on a comprehensive written examination administered by the three-person M.A. committee before the oral examination.

Doctor of Philosophy in Political Science

Why study political science?
Because political science advances our understanding of politics, power, governance, and public policy in the United States and across the globe.

Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission
Admission to M.A. or Ph.D. programs is based on the applicant’s undergraduate and/or graduate record, standardized test scores, and references from instructors. All applicants must complete a bachelor’s degree. A completed application must include

1. Online graduate application (http://www.graduate.ku.edu),
2. Graduate Record Examination results — verbal, quantitative, and analytical,
3. A 1- to 2-page statement of goals and research interests,
4. 3 letters of recommendation, preferably from faculty members,
5. A nonrefundable application fee (see Admission in the Graduate Studies (p. 2059) section of the online catalog), and
6. 1 official transcript from each college or university attended.

An official transcript is one that is sent directly from the registrar of the applicant’s school to the department. All these materials must be received before the application can be considered.

An applicant who wishes to be considered for regular fall admission and for a graduate teaching assistantship must complete the application by January 10 for the coming academic year. A student who wishes to be considered for fall admission but not for a teaching assistantship should submit the application by April 15 but may do so earlier.

Ph.D. Degree Requirements
Students who complete the Master of Arts degree may be eligible to pursue the Ph.D. degree. The Ph.D. program requires work in 2 major subfields and 1 minor subfield.

The major fields must be drawn from those offered by the division (see Fields of Graduate Study). Before their first attempt at the written preliminary examination in any subfield, all Ph.D. students must complete at least 4 courses in that field, 3 of which are at the 700 level or above. Enrollment in directed research covering a particular subfield may be substituted for one of the four courses/seminars.

The minor field may be another of the subfields, a related field from an outside department, or an interdisciplinary program. If the choice is not 1 of the subfields, the student must obtain written approval of the advisor and the graduate studies director. The courses for the minor field must follow the same structure as outlined above for the major fields. Courses for the minor field may not be applied to another examination field.

Students should consult their major advisors to plan a schedule of course work and seminar preparation in each of these subfields to provide adequate preparation for the written preliminary examination. Students must complete the majority of courses in their major fields, the research
skills and responsible scholarship requirement, the Ph.D. residency requirement, and resolve any grades of incomplete before registering for preliminary examinations. The research skills and responsible scholarship requirement includes

**Option 1: Research Methods**

POLS 706  Research Methods I  3
POLS 707  Research Methods II  3
Select 1 research methods course approved by the major advisor and the graduate director

**Option 2: Research Methods and Foreign Language**

POLS 706  Research Methods I  3
POLS 707  Research Methods II  3
Select 1 of the following choices in a language approved by the student’s advisor as well as the graduate director:

- 2 semesters of a single foreign language no more than 5 years old at the time of certification
- Demonstrated reading knowledge of a single foreign language

**Note:** Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

To become a Ph.D. candidate, the student must satisfactorily complete a comprehensive oral examination. No student may attempt the comprehensive oral examination until the 2 written preliminary examinations have been passed and the requirements of the minor subfield have been completed.

After passing the comprehensive oral examination, the doctoral candidate must write a dissertation approved by a departmental dissertation committee and pass a final oral defense of the dissertation to qualify for the Ph.D. degree.

**Prelaw Preparation**

**Preparing for Law School**

For admission to law school, an applicant must complete a bachelor’s degree and take the Law School Admission Test (LSAT). No particular course of undergraduate study is recommended. However, the program should be sufficiently rigorous to provide the skills of comprehension and analysis essential in law study.

To prepare for law school, students should take challenging courses and those of interest, but no specific courses are required or recommended. The American Bar Association recommends the development of numerous skills in preparation for a legal education, including analytical and problem solving, critical reading, writing, oral communication and listening, general research, and task organization and management skills. Fulfilling or exceeding general education and major requirements satisfies many of these objectives. Consult the prelaw advisor about undergraduate courses beyond general education and major requirements.

It is strongly recommended that prelaw students attend a Prelaw Basics session (offered regularly each semester) early in their undergraduate careers for more complete prelaw information.

Students should submit law school applications the fall semester before entering law school. For most students, this is fall of the senior year. Admission is highly competitive, and law schools examine a number of factors. Heavy reliance is placed on the undergraduate grade-point average and score on the LSAT. All grades on the transcript, including transfer work, are reported to Law Services and used in calculating the applicant’s cumulative grade point average. The LSAT tests skills in reading comprehension, logical reasoning, and analytical reasoning. It is offered 4 times a year: June, September/October, December, and February. Most applicants take the June or September/October test to submit applications early. The September/October test date often coincides with midterm examinations; many students prefer to take the LSAT in June after the junior year. Students can register for the LSAT online through the Law School Admission Council (http://www.lsac.org). Law schools also consider personal statements, letters of recommendation, extracurricular activities, and the rigor of the academic curriculum in determining admission.

Many academic policy options, such as the Credit/No Credit (http://www.policy.ku.edu) option and the course-repeat policy (http://www.policy.ku.edu), have different consequences for law school applicants. Consult the prelaw advisor before electing such options.

View the School of Law (p. 760) section of the online catalog.

**Premedical Professions Preparation**

**Premedical Professions Advising**

Premedistry, premedicine, preoptometry, and preveterinary medicine are career interests rather than majors or formal programs. Students prepare by taking courses required for entry, studying to learn concepts and perform well academically, volunteering and shadowing to get experience, and taking a standardized admissions test, and applying for admission to graduate-level professional schools.

For more information, visit the website (https://medadvising.ku.edu). Call 785-864-2834 to schedule an orientation or application meeting with the premedical advisor.

**Predentistry**

Predentistry is a career interest rather than a major or formal program. Students prepare by taking courses to meet dental school admission requirements, studying to learn concepts and perform well academically, and shadowing or working in dental practices. They take the Dental Admission Test (http://www.ada.org/dat.aspx) (DAT) and apply for admission to dental schools, usually in the summer between the junior and senior year. Most people complete an undergraduate bachelor’s degree and major before entering dental school.

Dental schooling is 4 years of graduate-level, professional education and training. There is no dental school in Kansas, but there is an agreement for some seats for Kansas residents at the University of Missouri—Kansas City (UMKC) School of Dentistry.
Most dental schools require

English Composition I. Satisfied by:

ENGL 101 Composition 3
or ENGL 105 Freshman Honors English

English Composition II. Satisfied by:

ENGL 102 Critical Reading and Writing 3
or ENGL 205 Freshman-Sophomore Honors Proseminar: _____

Biology with Lab. Satisfied by:

BIOL 150 Principles of Molecular and Cellular Biology 4
or BIOL 151 Principles of Molecular and Cellular Biology, Honors

General Chemistry I with Lab. Satisfied by one of the following: 5

CHEM 130 General Chemistry I
CHEM 170 Chemistry for the Chemical Sciences I
CHEM 190 Foundations of Chemistry I, Honors

General Chemistry II with Lab. Satisfied by one of the following: 5

CHEM 135 General Chemistry II
CHEM 175 Chemistry for the Chemical Sciences II
CHEM 195 Foundations of Chemistry II, Honors

Organic Chemistry I with Lab. Satisfied by one of the following: 5

CHEM 330 Organic Chemistry I
& CHEM 331 and Organic Chemistry I Laboratory
CHEM 380 Organic Chemistry I, Honors
& CHEM 331 and Organic Chemistry I Laboratory

Organic Chemistry II with Lab. Satisfied by one of the following: 5

CHEM 335 Organic Chemistry II
& CHEM 336 and Organic Chemistry II Laboratory
CHEM 385 Organic Chemistry II, Honors
& CHEM 336 and Organic Chemistry II Laboratory

Physics I with Lab. Satisfied by one of the following: 4-5

PHSX 114 College Physics I
PHSX 211 General Physics I
& PHSX 216 and General Physics I Laboratory
PHSX 213 General Physics I Honors

Physics II with Lab. Satisfied by one of the following: 4

PHSX 115 College Physics II
PHSX 212 General Physics II
& PHSX 236 and General Physics II Laboratory
PHSX 214 General Physics II Honors

The UMKC School of Dentistry also requires

Anatomy with lab, satisfied by one of the following: 5

BIOL 240 Fundamentals of Human Anatomy
& BIOL 241 and Human Anatomy Observation Laboratory
BIOL 510 Comparative Anatomy

Physiology with lab, satisfied by one of the following: 5-6

BIOL 246 Principles of Human Physiology
& BIOL 247 and Principles of Human Physiology Laboratory
BIOL 646 Mammalian Physiology
& BIOL 647 and Mammalian Physiology Laboratory

Cell biology: Satisfied by:

BIOL 416 Cell Structure and Function 3

Biochemistry: Satisfied by: 3-4

BIOL 600 Introductory Biochemistry, Lectures
or BIOL 636 Biochemistry I

Some dental schools require additional mathematics, psychology, and/or biology courses.

For more information, visit the website (https://medadvising.ku.edu). Call 785-864-2834 to schedule an orientation or application meeting with the premedical advisor.

**Premedicine**

Premedicine is a career interest rather than a major or formal program. Students prepare by taking courses to meet medical school admission requirements, studying to learn concepts and perform well academically, and volunteering or working in health care settings. They take the Medical College Admission Test (https://www.aamc.org/students/applying/mcat) (MCAT) and apply for admission to medical schools, usually in the summer between the junior and senior year. Most people complete an undergraduate bachelor’s degree and major before entering medical school.

Medical schooling is four years of graduate-level, professional education and training, followed by a three- to six-year residency program. The only medical school in Kansas is the KU School of Medicine.

Most medical schools require

English Composition I. Satisfied by:

ENGL 101 Composition 3
or ENGL 105 Freshman Honors English

English Composition II. Satisfied by:

ENGL 102 Critical Reading and Writing 3
or ENGL 205 Freshman-Sophomore Honors Proseminar: _____

Biology with Lab. Satisfied by:

BIOL 150 Principles of Molecular and Cellular Biology 4
or BIOL 151 Principles of Molecular and Cellular Biology, Honors

General Chemistry I with Lab. Satisfied by one of the following: 5

CHEM 130 General Chemistry I
CHEM 170 Chemistry for the Chemical Sciences I
CHEM 190 Foundations of Chemistry I, Honors

General Chemistry II with Lab. Satisfied by one of the following: 5

CHEM 135 General Chemistry II
CHEM 175 Chemistry for the Chemical Sciences II
CHEM 195 Foundations of Chemistry II, Honors

Organic Chemistry I with Lab. Satisfied by one of the following: 5

CHEM 330 Organic Chemistry I
& CHEM 331 and Organic Chemistry I Laboratory
CHEM 380 Organic Chemistry I, Honors
& CHEM 331 and Organic Chemistry I Laboratory

Organic Chemistry II with Lab. Satisfied by one of the following: 5

CHEM 335 Organic Chemistry II
& CHEM 336 and Organic Chemistry II Laboratory
CHEM 385 Organic Chemistry II, Honors
& CHEM 336 and Organic Chemistry II Laboratory

Physics I with Lab. Satisfied by one of the following: 4-5

PHSX 114 College Physics I
PHSX 211 General Physics I
& PHSX 216 and General Physics I Laboratory
PHSX 213 General Physics I Honors

Physics II with Lab. Satisfied by one of the following: 4

PHSX 115 College Physics II
PHSX 212 General Physics II
& PHSX 236 and General Physics II Laboratory
PHSX 214 General Physics II Honors

The KU School of Medicine accepts CHEM 310 as a substitute for CHEM 330, BIOL 600 or BIOL 636 as a substitute for CHEM 335, and CHEM 331 meets their organic lab requirement without CHEM 336.)
admission to optometry schools, usually in the summer between the junior and senior year. Most people complete an undergraduate bachelor’s degree and major before entering optometry school.

Optometry schooling is four years of graduate-level, professional education and training. There is no optometry school in Kansas; however, there are agreements for some seats for Kansas residents at the University of Missouri—St. Louis School of Optometry, Northeastern State University of Oklahoma College of Optometry, and the Southern College of Optometry in Tennessee.

Most optometry schools require

English Composition I. Satisfied by:
ENGL 101 Composition 3
or ENGL 105 Freshman Honors English

English Composition II. Satisfied by:
ENGL 102 Critical Reading and Writing 3
or ENGL 205 Freshman-Sophomore Honors Proseminar: _____

Biology I with Lab. Satisfied by:
BIOL 150 Principles of Molecular and Cellular Biology 4
or BIOL 151 Principles of Molecular and Cellular Biology, Honors

Biology II with Lab. Satisfied by:
BIOL 152 Principles of Organismal Biology 4
or BIOL 153 Principles of Organismal Biology, Honors

General Chemistry I with Lab. Satisfied by one of the following: 5
CHEM 130 General Chemistry I
CHEM 170 Chemistry for the Chemical Sciences I
CHEM 190 Foundations of Chemistry I, Honors

General Chemistry II with Lab. Satisfied by one of the following: 5
CHEM 135 General Chemistry II
CHEM 175 Chemistry for the Chemical Sciences II
CHEM 195 Foundations of Chemistry II, Honors

Physics I with Lab. Satisfied by one of the following: 4-5
PHSX 114 College Physics I
PHSX 211 General Physics I
& PHSX 216 and General Physics I Laboratory
PHSX 213 General Physics I Honors

Physics II with Lab. Satisfied by one of the following: 4
PHSX 115 College Physics II
PHSX 212 General Physics II
& PHSX 236 and General Physics II Laboratory
PHSX 214 General Physics II Honors

Calculus I: Satisfied by one of the following: 3-5
MATH 115 Calculus I
MATH 121 Calculus I
MATH 141 Calculus I: Honors

Starting in 2015, the new MCAT will require knowledge from:

Biology. Satisfied by:
BIOL 600 Introductory Biochemistry, Lectures 4
or BIOL 636 Biochemistry I

Statistics. Satisfied by one of the following: 3
PSYC 210 Statistics in Psychological Research
PSYC 211 Statistics in Psychological Research, Honors
MATH 365 Elementary Statistics

For more information, visit the website (https://medadvising.ku.edu). Call 785-864-2834 to schedule an orientation or application meeting with the premedical advisor.

Preoptometry

Preoptometry is a career interest rather than a major or formal program. Students prepare by taking courses to meet optometry school admission requirements, studying to learn concepts and perform well academically, and shadowing or working in optometry practices. They take the Optometry Admission Test (https://www.ada.org/oat) (OAT) and apply for admission to optometry schools, usually in the summer between the junior

Department of Psychology

Why study psychology?

Because the understanding of mind, behavior, and the human experience is best achieved through the rigorous application of the scientific method.

Undergraduate Programs

Undergraduate courses are designed as part of a general education, for students preparing for careers in professional fields, and for students majoring in psychology, including those anticipating graduate work. See the department website (http://psych.ku.edu) for the most current information on requirements and policies.
Preparation for Graduate Study

Students who plan to apply for graduate work in psychology should supplement their beginning course in methodology (PSYC 200/PSYC 201) and statistics (PSYC 210/PSYC 211) with a laboratory course (e.g., PSYC 618, PSYC 620, PSYC 622, PSYC 624, or PSYC 625). Methods (PSYC 200/PSYC 201) and Statistics (PSYC 210/PSYC 211) should be taken as early as possible in the undergraduate education. The laboratory course should be completed during the junior or senior year.

Preparation for Graduate Study

Students who plan to apply for graduate work in psychology should supplement their beginning course in methodology (PSYC 200/PSYC 201) and statistics (PSYC 210/PSYC 211) with a laboratory course (e.g., PSYC 618, PSYC 620, PSYC 622, PSYC 624, or PSYC 625). Methods (PSYC 200/PSYC 201) and Statistics (PSYC 210/PSYC 211) should be taken as early as possible in the undergraduate education. The laboratory course should be completed during the junior or senior year.

Graduate Programs

The department offers a single doctoral degree in psychology, which may be earned in social, cognitive, quantitative, developmental, or clinical psychology. Students enter with the expectation of earning the Ph.D. The department does not admit students seeking the terminal master's degree. The department cooperates with related departments in joint Ph.D. programs in clinical child psychology (http://ochild.ku.edu), behavioral psychology, (http://www.absc.ku.edu) and child language (http://www.clp.ku.edu).

Dual-title Ph.D. in Psychology and Gerontology

This dual-title degree is an option available to students who have first been admitted to the doctoral program. The dual-title degree allows the pursuit of a single degree that incorporates study within a traditional discipline and training in an interdisciplinary field; the student is awarded one degree (Ph.D.) with both titles identified on the diploma (e.g., "Ph.D. in Psychology and Gerontology").

This option is designed to appeal to students who are strong in a traditional discipline but also motivated to study across disciplinary lines. In the course of study, students can avail themselves of disciplinary depth and interdisciplinary breadth. At the post-doctoral stage, dual-title graduates will have enhanced career and employment opportunities, able to claim expertise in one or both titles of their degree when seeking positions in education and research.

More information about this option, its admissions requirements, and plans of study can be found on the department website or the website of the Gerontology program.

Courses

PSYC 102. Orientation Seminar in Psychology. 1 Hour. S.
Provides an overview of the discipline of psychology. Emphasizes developing an understanding of opportunities in psychology at the University of Kansas, exploring service-learning options related to the major, and helping students plan goals for their education through an understanding of their personal values and options within and outside the discipline. Open to KU-degree-seeking students only. Contact the Psychology Department to enroll in the course. Non-degree-seeking and non-KU students may enroll in the course by signing up with KU Continuing Education. Graded on a satisfactory/unsatisfactory basis. LEC.

PSYC 104. General Psychology. 3 Hours. SI GE3S / S.
A basic introduction to the science of psychology. LEC.

PSYC 105. General Psychology, Honors. 3 Hours. SI GE3S / S.
Open to students in College or Departmental Honors programs or by permission of instructor. LEC.

PSYC 120. Personality. 3 Hours. SI GE3S / S.
An introductory survey of personality theories, development, assessment and current research. LEC.

PSYC 121. Personality, Honors. 3 Hours. SI GE3S / S.
Open to students in College or Departmental Honors programs or by permission of instructor. LEC.

PSYC 177. First Year Seminar: ______. 3 Hours. SI GE11.
A limited-enrollment, seminar course for first-time freshmen, organized around current issues in psychology. May not contribute to major requirements in psychology. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

PSYC 200. Research Methods in Psychology. 3 Hours. S.
An examination of the scientific "ways of knowing" employed by psychologists to discover the laws governing human behavior across a wide domain. The focus of the course is upon these methods and the statistical techniques that support them. Prerequisite: PSYC 104 and MATH 101 or equivalent placement. LEC.

PSYC 201. Research Methods in Psychology, Honors. 3 Hours. S.
An examination of the scientific "ways of knowing" employed by psychologists to discover the laws governing human behavior across a wide domain. The focus of the course is upon these methods and the statistical techniques that support them. Open to students in University and Departmental Honors programs or by permission of instructor. Not open to students taking PSYC 200. Prerequisite: PSYC 104 and MATH 101. LEC.

PSYC 202. Study Abroad Topics in: ______. 1-4 Hours. S.
This course is designed for the study of special topics in Psychology. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

PSYC 210. Statistics in Psychological Research. 3 Hours. S.
An introduction to statistical concepts and methods as they relate to analysis and interpretation of psychological data. Prerequisite: PSYC 104 and MATH 101 or equivalent placement. LEC.

PSYC 211. Statistics in Psychological Research, Honors. 3 Hours. S.
An introduction to statistical concepts and methods as they relate to analysis and interpretation of psychological data. Open only to students in University and Departmental Honors programs or by permission of instructor. Not open to students who have taken PSYC 210. Prerequisite: PSYC 104 and MATH 101 or equivalent placement. LEC.

PSYC 318. Cognitive Psychology. 3 Hours. S.
An introduction to contemporary research and theory in human learning and memory, relevant perceptual processes, and higher functions such as language. Prerequisite: PSYC 104 and one of the following: PSYC 200, PSYC 201, PSYC 210, PSYC 211, MATH 101, MATH 104 or equivalent placement. LEC.
PSYC 319. Cognitive Psychology, Honors. 3 Hours. S.
Open to students in University or Departmental Honors programs or by permission of instructor. Prerequisite: PSYC 104 and one of the following: PSYC 200, PSYC 201, PSYC 210, PSYC 211, MATH 101, MATH 104 or exemption based on ACT or SAT score. LEC.

PSYC 333. Child Development. 3 Hours. S.
A survey course on the science and application of child and adolescent development; including physical, motoric, social, emotional, and cognitive changes from conception through adolescence. The course covers methods and theory, genetics, and may incorporate content on aggression, morality, parenting, media, and peers. Open to students in University or Departmental Honors Programs or by permission of instructor. Prerequisite: PSYC 104 and one of the following: PSYC 200, PSYC 201, PSYC 210, PSYC 211, MATH 101, MATH 104 or exemption based on ACT or SAT score. LEC.

PSYC 334. Child Development, Honors. 3 Hours. S.
A survey course on the science and application of child and adolescent development; including physical, motoric, social, emotional, and cognitive changes from conception through adolescence. The course covers methods and theory, genetics, and may incorporate content on aggression, morality, parenting, media, and peers. Open to students in University or Departmental Honors Programs or by permission of instructor. Prerequisite: PSYC 104 and one of the following: PSYC 200, PSYC 201, PSYC 210, PSYC 211, MATH 101, MATH 104 or exemption based on ACT or SAT score. LEC.

PSYC 350. Abnormal Psychology. 3 Hours. S.
An examination of psychopathology including anxiety disorders, psycho-physiological disorders, affective disorders, and schizophrenic disorders. Disorders are considered from psychodynamic, behavioral, cognitive, and biological perspectives. Prerequisite: PSYC 104. LEC.

PSYC 351. Abnormal Psychology, Honors. 3 Hours. S.
Open to students in College or Departmental Honors Programs or by permission of instructor. Prerequisite: PSYC 104. LEC.

PSYC 360. Social Psychology. 3 Hours. S.
An introduction to the psychology of social behavior. Systematic consideration of such concepts as social influence, conformity and deviation, social attitudes and prejudice, socialization and personality, communication and propaganda, morale, and leadership. Open to students in University or Departmental Honors programs or by permission of instructor. Prerequisite: PSYC 104 and one of the following: PSYC 200, PSYC 201, PSYC 210, PSYC 211, MATH 101, MATH 104 or exemption based on ACT or SAT score. LEC.

PSYC 361. Social Psychology, Honors. 3 Hours. S.
An introduction to the psychology of social behavior. Systematic consideration of such concepts as social influence, conformity and deviation, social attitudes and prejudice, socialization and personality, communication and propaganda, morale, and leadership. Open to students in University or Departmental Honors programs or by permission of instructor. Prerequisite: PSYC 104 and one of the following: PSYC 200, PSYC 201, PSYC 210, PSYC 211, MATH 101, MATH 104 or exemption based on ACT or SAT score. LEC.

PSYC 370. Behavioral Neuroscience. 3 Hours. N.
A survey of topics related to the biological processes underlying behavior in humans and in animals, including the physiology of neuronal and synaptic transmission, neurochemistry, and neuropharmacology. Selected topics within the area of behavioral neuroscience are also covered, such as motivation, appetite, reward, homeostasis, biological rhythms, addiction, aggression, stress, emotion, and sleep. Prerequisite: An introductory course in Psychology; an introductory course in Biology; and PSYC 200 or PSYC 201 and PSYC 210 or PSYC 211. LEC.

PSYC 371. Behavior Neuroscience, Honors. 3 Hours. N.
A survey of basic topics related to the biological processes underlying behavior in humans and in animals, including the physiology of neuronal and synaptic transmission, neurochemistry, and neuropharmacology. Selected topics within the area of behavioral neuroscience are also covered, such as motivation, appetite, reward, homeostasis, biological rhythms, addiction, aggression, stress, emotion, and sleep. Open to students in University or Departmental Honors programs or by permission of instructor. Prerequisite: An introductory course in Psychology; an introductory course in Biology and PSYC 200 or PSYC 201 and PSYC 210 or PSYC 211. LEC.

PSYC 375. Cognitive Neuroscience. 3 Hours. N.
A survey of topics related to the biological processes underlying cognition in humans and in animals, including the physiology of neuronal and synaptic transmission, neurochemistry, and functional neuroanatomy. Selected topics within the area of cognitive neuroscience also covered, such as sensory processing, hearing, vision, learning and memory, attention, motor control, language, hemispheric asymmetry, executive function, and neuroplasticity. Prerequisite: An introductory course in Psychology; an introductory course in Biology; and PSYC 200 or PSYC 201 and PSYC 210 or PSYC 211. LEC.

PSYC 377. Cognitive Neuroscience. 3 Hours. N.
The organization and function of the nervous system as it relates to topics of interest to psychologists, including pain, anxiety, stress, sleep, depression, schizophrenia, akinetic and dyskinetic movement disorders, and senile dementia. Prerequisite: An introductory course in Psychology, an introductory course in Biology, and PSYC 200 or PSYC 201 and PSYC 210 or PSYC 211. LEC.

PSYC 380. Clinical Neuroscience. 3 Hours. N.
The organization and function of the nervous system as it relates to topics of interest to psychologists, including pain, anxiety, stress, sleep, depression, schizophrenia, akinetic and dyskinetic movement disorders, and senile dementia. Open to students in University or Departmental Honors programs or by permission of instructor. Prerequisite: An introductory course in Psychology, an introductory course in Biology, and PSYC 200 or PSYC 201 and PSYC 210 or PSYC 211. LEC.

PSYC 402. Study Abroad Topics in: _____. 1-4 Hours. S.
This course is designed for the study of special topics in Psychology equivalent to courses at the 300 to 600 level at KU. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

PSYC 405. Children and Media. 3 Hours. H.
The applied study of child development theories and research methods on the influences and effects of television and related visual media on childhood in the contexts of families, schools, and society. (Same as ABSC 405 and THR 405.) LEC.

PSYC 406. Individual Differences. 3 Hours. S.
A survey of the nature and sources of differences in human behavior and a consideration of the consequences of these differences for society. Prerequisite: PSYC 104. LEC.

PSYC 410. Intimate Relationships. 3 Hours. S.
A social psychological perspective on adult intimate relationships, examining friendship, dating, committed relationships, and the dissolution of committed relationships. Topics include romance, jealousy, self-disclosure, power, loneliness, and social support. Discussion of heterosexual and homosexual relationships, traditional forms (e.g., marriage) of relationships as well as alternative lifestyles (e.g., cohabitation) and gender-linked differences in relationships. Prerequisite: PSYC 104. LEC.
PSYC 415. Social and Cultural Sources of Self. 3 Hours. S.
An interdisciplinary exploration of the social and cultural sources of self-experience. The first part of the course emphasizes a general process: how the development and experience of self, though it might seem essentially personal, is shaped by social interaction. The second part of the course highlights particular cases: how self-experience may be constructed differently depending on the particular social and cultural settings a person inhabits. Cases include influences of gender, socioeconomic status, and age group on the construction of self-experience within societies from around the world, and ethnic-identity groups within the USA. Prerequisite: PSYC 104. LEC.

PSYC 418. Introduction to Cognitive Science. 3 Hours. S.
Examines the data and methodologies of the disciplines that comprise Cognitive Science, an inter-disciplinary approach to studying the mind and brain. Topics may include: consciousness, artificial intelligence, linguistics, education and instruction, neural networks, philosophy, psychology, anthropology, evolutionary theory, cognitive neuroscience, human-computer interaction, and robotics. (Same as LING 418, PHIL 418, and SPLH 418.) Prerequisite: Consent of instructor. LEC.

PSYC 420. Fundamentals of Personality. 3 Hours. S.
Clinical application of personality theories; personality development and assessment research. Prerequisite: PSYC 104. LEC.

PSYC 430. Cognitive Development. 3 Hours. S.
A basic survey course in the development of thinking and understanding in normal children. The course will cover Piaget’s theory and information processing theories at the advanced undergraduate level. Topics include perception, attention, learning, memory, language, problem solving, and individual differences from birth to the mid-teens. Prerequisite: PSYC 104 or ABSC/HDFL 180. LEC.

PSYC 432. Human Behavioral Genetics. 3 Hours. S.
A survey of human behavioral genetics for upper division undergraduates. Emphasis is on how the methods and theories of quantitative, population, medical, and molecular genetics can be applied to individual and group differences in humans. Both normal and abnormal behaviors are covered, including intelligence, mental retardation, language and language disorders, communication, learning, personality, and psychopathology. (Same as ANTH 447, BIOL 432, SPLH 432.) Prerequisite: Introductory courses in biology/genetics or biological anthropology and psychology are recommended. LEC.

PSYC 435. Social and Personality Development. 3 Hours. S.
An introduction to social and personality development with consideration of both classic and contemporary theoretical viewpoints. The role of social contexts is considered (e.g., family, peers, communities), as well as biological influences (e.g., behavioral genetics). Topics include parent-infant attachment, peer relationships, aggression, etc. Prerequisite: PSYC 104. LEC.

PSYC 449. Laboratory/Field Work in Human Biology. 1-3 Hours. AE61 / N.
Faculty supervised laboratory or field research for Human Biology majors. Students design and complete a research project in collaboration with a Human Biology faculty member. (Same as ANTH 449, BIOL 449, and SPLH 449.) Prerequisite: Consent of instructor and Human Biology major. FLD.

PSYC 453. Psychological Foundations of Musical Behavior. 3 Hours. S.
Study of human musical behavior, including basic psychoacoustic phenomena, musical taste, functional music, musical ability, cultural organization of musical sounds, and the affective response. Prerequisite: General Psychology, MEMENT 370, or consent of instructor. LEC.
PSYC 483. Undergraduate Internship in Psychology. 1-3 Hours. U.
Students conduct psychology focused fieldwork in an organization related to their professional/career goals. Credit hours are determined on the basis of 120 clock hours for 3 credit hours, 80 clock hours for 2 credit hours, and 40 clock hours for 1 credit hour. An internship plan (contract) is developed by the student in conjunction with the student’s academic adviser and signed off by the academic adviser and an authorized agent of the internship site. At the conclusion of the internship experience, the authorized agent of the internship site writes the academic adviser indicating that the student has met the goals of the internship plan and the hours required. No more than 3 hours of PSYC 483 may be counted toward the minimum hours required for the major. Prerequisite: Admission to the Psychology major. FLD.

PSYC 490. Theories and Concepts of Child Development. 3 Hours. S.
An advanced course in the theories and basic concepts of child development. Coverage includes: (a) analyses of the general logic, assumptions, and principles of the five major approaches: normative-maturation, psychoanalytic, social learning theory, cognitive-developmental, and behavior analysis; (b) historical background of developmental theory; (c) social-cultural influences on theory construction; and (d) some cross-cultural perspectives. Not open to students previously enrolled in HDFL 290. Prerequisite: PSYC 104, or HDFL 160, HDFL 161, HDFL 432, or consent of instructor. LEC.

PSYC 492. Psychology and Social Issues. 3 Hours. S.
A study of psychological aspects of selected social issues in contemporary American society. Race relations and the civil rights movement. Political extremism. Public opinion and social change. Social psychological approaches to a variety of social problems. Prerequisite: PSYC 360 or 361, or consent of instructor. LEC.

PSYC 499. Conceptual Issues in Psychology. 3 Hours. S.
This course examines classic issues in psychology--free will and determinism, nature and nurture, the mind-body problem, approaches to human action, cultural influences on psychological theories, the evolution of intellectual paradigms, and inductive and deductive approaches to social scientific research--from multiple perspectives within psychology and related social sciences. Prerequisite: PSYC 104 or equivalent. LEC.

PSYC 500. Intermediate Statistics in Psychological Research. 3 Hours. U.
A second course in statistics with emphasis on applications. Analysis of variance, regression, analysis, analysis of contingency tables; possibly selected further topics. Prerequisite: Grade of B- or better in PSYC 210 or PSYC 211. LEC.

PSYC 502. Human Sexuality. 3 Hours. S.
An introduction to the field of human sexuality. Topics to be covered include sexual anatomy and physiology, fertilization, pregnancy, birth and lactation, contraception, human sexual response, sexuality across the life cycle, love, marriage, alternatives to marriage, sexual orientation, sex differences in behavior, parenthood, sexually transmitted diseases, sex and the law, and sex education. Prerequisite: PSYC 104. LEC.

PSYC 511. Laboratory Research in Infant Behavior. 3 Hours. S.
Optional course for students currently enrolled in PSYC 510 or may be taken after completion of PSYC 510. Will offer students practical experience in an infant research laboratory. Students must spend a minimum of nine hours a week (on three different half days) in laboratory. They will learn to observe and record infant behavior, to handle data from experiments and participate in the planning and discussion of laboratory research. Acquaintance with and involvement in the issues of obtaining informed consent and ethical aspects of infant research will be included. Prerequisite: Current enrollment or previous enrollment in PSYC 510 and consent of instructor. LAB.

PSYC 518. Human Memory. 3 Hours. S.
In-depth coverage of human memory phenomena, including phenomena concerning acquisition, storage and retrieval, unconscious forms of memory, memory monitoring and control, and practical aspects of memory such as autobiographical memory, mnemonic techniques and eyewitness memory. Prerequisite: PSYC 104. LEC.

PSYC 520. Memory and Eyewitness Testimony in Children. 3 Hours. S.
A review of the literature on the development of memory in young children, and the implications of this research for understanding children’s eyewitness testimony. The course will present current research on children’s long-term memory abilities, the impact of stress on recall performance, the effectiveness of various types of interviewing techniques, and the suggestibility of children’s recollections. Policy issues and potential guidelines for the elicitation and evaluation of children’s memory reports in both clinical and legal arenas will be discussed. Prerequisite: PSYC 104 or ABSC/HDFL 160, or consent of instructor. LEC.

PSYC 521. Women and Violence. 3 Hours. S.
An examination of research on women and violence, including rape, domestic violence, sexual harassment, stalking, and child sexual abuse. The nature, prevalence, causes, and consequences of violence against women are discussed. (Same as WGSS 521.) Prerequisite: PSYC 104. LEC.

PSYC 531. Language Development. 3 Hours. S.
Introduction to the study of language development; emphasis on the psychological processes underlying syntactic, semantic, and pragmatic aspects of language development in children. Prerequisite: One of the following courses - PSYC 318, 319, 333, or 334; or consent of instructor. LEC.

PSYC 535. Developmental Psychopathology. 3 Hours. S.
A review of the literature on contemporary psychological and developmental disorders of children and youth. Course will present current models of psychopathology, classification systems, assessment methods, and treatment approaches designed for the individual, the family, and the community. Specific attention will be given to age, gender, and cultural differences and similarities. Topics include: anxiety disorders, oppositional behavior disorders, physical/sexual abuse, learning disabilities, and autism. (Same as ABSC 535.) Prerequisite: ABSC 160, PSYC 333, or consent of instructor. LEC.

PSYC 536. The Psychology of Language. 3 Hours. S.
An introduction to the study of language—linguistics, phonetics, phonology, syntax, semantics, and pragmatics. Course will present the psychological processes underlying the production and comprehension of language. Prerequisite: PSYC 104. LEC.

PSYC 545. Culture and Psychology. 3 Hours. S.
The course considers the relationship between culture and psyche. One theme throughout the course involves revealing the cultural grounding of psychological functioning. The second and complementary theme involves identifying the psychological processes involved in the phenomenon of culture. Prerequisite: PSYC 333, 334, 360 or 361 or consent of instructor. LEC.

PSYC 555. Evolutionary Psychology. 3 Hours. S.
A review of evolutionary theory and its application to human personality, cognition, interpersonal relationships, family dynamics, and development. Prerequisite: PSYC 104 and at least 3 additional hours in Psychology, or consent of instructor. LEC.
PSYC 565. Applied Developmental Psychology. 3 Hours. S.
An advanced study of the application of theories and concepts of developmental and behavioral psychology to a range of specific issues and problems of childhood and adolescence. This course will rely heavily upon the empirical research literature. Topics include contemporary social issues and child development, research in applied settings, assessment, intervention, and prevention, as well as program evaluation. (Same as ABSC 565.) Prerequisite: ABSC 160 or PSYC 333, and ABSC/PSYC 535.LEC.

PSYC 566. Psychology and the Law. 3 Hours. S.
An application of psychological processes and concepts to the American legal system. Among the topics covered are the socialization of legal attitudes, opinions about the purposes of the criminal justice system and especially of prisons, the concept of “dangerousness,” the nature of jury decision making, and the rights of prisoners, patients, and children. LEC.

PSYC 570. Group Dynamics. 3 Hours. S.
A study of the processes underlying the dynamics of the group, including the observation of group phenomena and a consideration of their relation to research findings. Prerequisite: PSYC 360 or 361, or consent of instructor. LEC.

PSYC 572. Psychology and International Conflict. 3 Hours. S.
A study of psychological approaches to analysis and intervention in the field of international conflict and peace-making. Focus on major contributions and important paradigms for explanation and action. Prerequisite: PSYC 360 or consent of instructor. Background study in international relations or recent world history desirable. LEC.

PSYC 578. Social Attitudes. 3 Hours. S.
An introduction to the study of attitudes focusing on problems of measurement and on empirical findings and theories of attitude acquisition and change. Prerequisite: PSYC 360, 361, or consent of instructor. LEC.

PSYC 580. Research Lab. 1-5 Hours. S.
Supervised research under the guidance of a faculty member in the Department of Psychology. Students will be part of a collaborative laboratory environment, and will be involved in research design, data collection, and data analysis, and will take part in regularly scheduled laboratory meetings. Prerequisite: Permission of instructor. LEC.

PSYC 581. Psychology of Religion. 3 Hours. S.
Consideration of the psychological antecedents of religious experience, the nature of religious experience, and the behavioral consequences of religion. Focus will be on psychological theory and research relevant to religious thought, feeling, belief, and behavior. (Same as REL 581.) Prerequisite: PSYC 104. LEC.

PSYC 590. Nonverbal Communication. 3 Hours. S.
Examination of non-linguistic behavior in human communication, including proxemics (spacing), kinesics (movement and expression), and paralinguistics (voice quality). Includes phylogenetic and developmental perspectives, methods of analysis, applications to interpersonal problems. (Same as COMS 590.) Prerequisite: COMS 356 or PSYC 210 or PSYC 211. LEC.

PSYC 592. Psychological Significance of Physical Illness and Disability. 3 Hours. S.
A lecture course to help students become more aware of and responsive to the psychological needs of persons with physical illnesses or disabilities. Emphasis is upon the meanings of such conditions in individuals’ lives and the effects of treatment and rehabilitation settings on psychological adaptation. Prerequisite: PSYC 104. LEC.

PSYC 598. Positive Psychology. 3 Hours. S.
An introduction to the core assumptions and research findings associated with human strengths and positive emotions. Also an exploration of interventions and applications informed by positive psychology in counseling and psychotherapy, and its application to school, work, family and other close relationships. (Same as PRE 580.) Prerequisite: PSYC 104 or consent of instructor. LEC.

PSYC 602. Basis and Nature of Individuality. 3 Hours. S.
Individuality in cognitive and personality attributes is surveyed, and analyzed by current psychological theory. The course includes topics on the structure of intellect and personality, cognitive theory, brain research and behavior genetics as relevant to the understanding of individuality. Prerequisite: An introductory course in psychology. LEC.

PSYC 605. Health Psychology. 3 Hours. S.
Review of research and theory concerning the role of psychological factors in the development of physical illness and the contribution of psychologists to the treatment and prevention of physical illness. Prerequisite: PSYC 104. LEC.

PSYC 608. Sex Role Development. 3 Hours. S.
An examination of the theory and literature on sex role development in childhood, adolescence, and adulthood. Particular attention is given to approaches stressing androgyny and variations on traditional roles. Processes of socialization into both traditional and non-traditional roles are stressed. Literature on females is emphasized, but male sex role development is also covered. Prerequisite: PSYC 104 or HDFL 160. LEC.

PSYC 610. Advanced Personality. 3 Hours. S.
A survey of selected topics in the area of personality (e.g., defense mechanisms, aggression, interpersonal relations). Prerequisite: PSYC 120 or PSYC 420 or consent of instructor. LEC.

PSYC 613. History and Systems in Psychology. 3 Hours. S.
A survey of the historical development of modern theoretical systems in psychology. Prerequisite: PSYC 104, plus twelve hours in psychology. LEC.

PSYC 616. Foundations of Learning. 3 Hours. S.
A consideration of experimental findings and theories concerning classical and instrumental conditioning. Prerequisite: PSYC 104. LEC.

PSYC 618. Experimental Psychology: Human Learning. 6 Hours. AE61 / S.
Lectures and laboratory research on human information processing as related to theories of word recognition, reading, and language comprehension. Major emphasis on experimental design, data analysis, interpretation, and scientific writing. Prerequisite: PSYC 104 and PSYC 210 or PSYC 211 or consent of instructor. LEC.

PSYC 620. Experimental Psychology: Sensation, Perception, and Cognition. 6 Hours. AE61 / S.
Lectures and laboratory work on human sensory processes and how they result in perceptions of the environment. Experience is provided in designing and implementing research as well as in the skills necessary for statistical analysis, interpretation of data, and scientific writing. Prerequisite: PSYC 104 and PSYC 210 or PSYC 211 or consent of instructor. LEC.

PSYC 622. Experimental Psychology: Social Behavior. 6 Hours. AE61 / S.
Lectures, laboratory and field work on various issues in research in social psychology (e.g., conformity, attitude change, social processes). Two two-hour periods a week and appointment for research. Prerequisite: PSYC 104, PSYC 360, and PSYC 210 or PSYC 211 or consent of instructor. LEC.
PSYC 624. Experimental Psychology: Clinical Psychology. 6 Hours. AE61 / S.
Lectures and laboratory research on contemporary issues in clinical psychology. Emphasis on experimental design, data analysis, interpretation of data, and scientific writing. Prerequisite: PSYC 104 and PSYC 210 or PSYC 211 or consent of instructor. LEC.

PSYC 625. Experimental Psychology: Methods in Neuropsychology and Psychophysiology. 6 Hours. AE61 / S.
Lectures and laboratory work on psychophysiology and neuropsychology research methods. Overview of psychophysiological tools to measure the central and peripheral nervous systems. Experience designing and implementing neuropsychology and psychophysiology research. Prerequisite: PSYC 104 and PSYC 210 or PSYC 211 or consent of instructor. LEC.

PSYC 626. Psychology of Adolescence. 3 Hours. S.
Impact of factors of social environment and physical growth upon psychological development from puberty to young adulthood. (Same as ABSC 626.) Prerequisite: PSYC 104, PSYC 333, or HDFL/ABSC 160. LEC.

PSYC 630. Clinical Psychology. 3 Hours. S.
The historical and empirical foundations of clinical psychology. Significant trends in theory, research, and social organization which have shaped clinical practice. A review of clinical practice. Prerequisite: PSYC 104. LEC.

PSYC 632. Advanced Child Behavior and Development. 3 Hours. S.
An advanced course in child development that includes a survey of the field’s principles and theoretical approaches, and current issues in research and practice. Topics will include: prenatal development, cognition and language, social-emotional development, socialization influences in childhood, developmental psychopathology, and social policies. (Same as ABSC 632.) Prerequisite: ABSC/HDFL 160, PSYC 333, or instructor permission, and senior or graduate status. LEC.

PSYC 642. The Psychology of Families. 3 Hours. S.
Study of the family as a psychosocial system. Emphasis is placed on factors affecting contemporary families including family structures, development, communication patterns, disorders, and treatment approaches. Theory, empirical evidence, and practical principles that may lead to maximizing individual growth in the family unit are discussed. Prerequisite: PSYC 104. LEC.

PSYC 644. Behavioral Pharmacology. 3 Hours. S.
Addresses psychological and behavioral effects of drugs, including psychotropic medications. A central theme is that effects of drugs frequently cannot be characterized solely from a pharmacological perspective. Thus, emphasis is placed on examining the interaction of pharmacological and behavioral variables. For example, how do psychological factors moderate responses to drugs? The nature of this area assumes some knowledge of general psychology, research methods, biology, chemistry, neurophysiology, and the nervous system. Prerequisite: PSYC 104 or consent of instructor. LEC.

PSYC 646. Mental Health and Aging. 3 Hours. S.
Reviews recent research and application in the field of mental health and aging. Theoretical perspectives appropriate for understanding mental health issues with increased age are discussed. The epidemiology, assessment, diagnosis, and treatment methods associated with a variety of mental health conditions are surveyed. The community mental health resources available for older adults are discussed as well as practically-related issues such as evaluations of functional independence and competency among older adults. Prerequisite: PSYC 104 or consent of instructor. LEC.

PSYC 650. Statistical Methods in Behavioral and Social Science Research I. 4 Hours. S.
Elementary distribution theory; t-test; simple regression and correlation; multiple regression and multiple correlation; curvilinear regression; logistic regression; general linear model. Applications across the behavioral and social sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Students taking this course as PSYC 790 will have different course requirements. Prerequisite: A grade of B- or better in a beginning course in statistics (e.g., PSYC 210 or PSYC 211, MATH 365, POLS 306, COMS 356, SOC 510, or equivalent) is recommended, or consent of instructor. LEC.

PSYC 651. Anova and Other Factorial Designs. 4 Hours. S.
Course covers one-way analysis of variance, linear trends, contrasts, post hoc tests; multi-way analysis of variance for crossed, blocked, nested, and incomplete designs; analysis of covariance; repeated measures analysis of variance; general linear model. Applications across the social, educational, and behavior sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Students taking this course as PSYC 791 will have different course requirements. Prerequisite: PSYC 650 or equivalent, or consent of instructor. LEC.

PSYC 652. Behavior Therapy. 3 Hours. S.
A review of the principal techniques of behavior therapy, exclusive of operant-based therapies. Emphasis upon systematic desensitization, implosion, assertion training, and modeling techniques. Special attention given to outcome research relevant to the effectiveness of these techniques. Recommended: A course in abnormal psychology. Prerequisite: PSYC 104. LEC.

PSYC 678. Drugs and Behavior. 3 Hours. S.
A survey of the methods used to study the effects of drugs on behavior, and of the effect of selected drugs on behavior, particularly the narcotics, hallucinogens, and drugs used in the treatment of mental illness. Prerequisite: PSYC 104. LEC.

PSYC 679. Applied Nonparametric Statistical Methods. 4 Hours. S.
This course covers nonparametric statistical methods for testing hypotheses. Topics include a review of parametric statistics, sampling distributions, hypothesis testing, and motivations for using nonparametric techniques. In-depth coverage is given to distribution-free procedures, goodness-of-fit tests, resampling methods, and theory underlying nonparametric methods. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Students taking this course as PSYC 879 will have different course requirements. Prerequisite: PSYC 650 or equivalent, or consent of instructor. LEC.

PSYC 685. Human Factors Psychology. 3 Hours. S.
Research techniques and methods useful in quantifying parameters of human performance that affect system functioning. Special emphasis is placed on modeling visual, auditory, and orienting systems and on human information processing. Prerequisite: PSYC 210 or PSYC 211 or consent of instructor. LEC.

PSYC 687. Factor Analysis. 4 Hours. S.
This course covers the theory behind, and application of, exploratory factor analysis. Topics include a review of multiple linear regression and matrix algebra. In-depth coverage is devoted to diagrams, model specification, goodness of fit, model selection, parameter estimation, rotation methods, scale development, and sample size and power issues. Extensions to confirmatory settings are elaborated. Both the theory underlying factor analytic techniques and hands-on application using software are emphasized. Applications across the social and behavioral
Introduction to statistical methods for modeling latent variables. Topics include a review of ordinary least squares regression analysis, random effects ANOVA, intraclass correlation, multilevel regression, testing and probing interactions, maximum likelihood estimation, model assumptions, model evaluation, and the analysis of longitudinal data. Emphasis will be on the theory underlying multilevel modeling techniques and hands-on application using software. Applications across the behavioral and social sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Students taking this course as PSYC 895 will have different course requirements. Prerequisite: PSYC 650 or equivalent, or consent of instructor. LEC.

PSYC 695. Categorical Data Analysis. 4 Hours. S.
Introduction to multivariate analyses of count data, including error models, statistical inference, loglinear models, logit models, logistic regression, homogeneity, symmetry, and selected other topics. Applications across the behavioral and social sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Students taking this course as PSYC 895 will have different course requirements. Prerequisite: PSYC 650 or equivalent, or consent of instructor. LEC.
PSYC 725. Cognitive Neuroscience. 3 Hours.
A survey of the critical issues within cognitive and behavioral neuroscience. The course will provide information about neuronal physiology, functional neuroanatomy, and psychophysiological research methods. Human cognition and the neurophysiology that subserves the primary cognitive functions will be discussed. LEC.

PSYC 735. Psycholinguistics I. 3 Hours.
A detailed examination of issues in the processing of language. The course will provide a survey of research and theory in psycholinguistics, reflecting the influence of linguistic theory and experimental psychology. Spoken and written language comprehension and language production processing will be examined. (Same as LING 735.) LEC.

PSYC 737. Psycholinguistics II. 3 Hours.
An in-depth examination of selected topics in psycholinguistics. Topics may include spoken language processing, written language processing, neurolinguistics, prosody, and syntactic processing. (Same as LING 737.) Prerequisite: PSYC 735/LING 735 or consent of instructor. LEC.

PSYC 750. Advanced Seminar in Gender Identity and Sexual Orientation. 3 Hours.
Design and execution of research on the causes and consequences of variations in gender identity, sexual orientation or affections, sex roles, and sex-linked behaviors. Prerequisite: Consent of instructor. LEC.

PSYC 757. Theories of Perception. 3 Hours.
A consideration of the facts and theories of human perception. The emphasis will be on vision, although hearing, smell, pain, and other senses will also be discussed. Of particular concern is the question of perceptual modifiability and the response of the human observer to unusual sensory environments. Prerequisite: PSYC 104. LEC.

PSYC 774. Advanced Social Psychology I. 3 Hours.
First semester of a two-semester course. Designed to provide a thorough background in social psychology and to motivate a continuing exploration of theoretical problems and issues in the field. Combines examination of historical development of theories and methods in social psychology with analysis of theoretical and methodological approaches to a variety of contemporary topics. LEC.

PSYC 775. Advanced Social Psychology II. 3 Hours.
A continuation of PSYC 774. LEC.

PSYC 777. Social Psychology: Theory, Research, and Clinical Applications. 3 Hours.
Basic theories in social psychology, as well as their applications to the process of coping with life events. The focus is on the nature of each theory, including the history and more recent developments; however, where clinical applications have been made of a particular theory, these will be discussed. LEC.

PSYC 780. Research Lab. 1-5 Hours. S.
Supervised research under the guidance of a faculty member in the Department of Psychology. Students will be part of a collaborative laboratory environment, and will be involved in research design, data collection, and data analysis, and will take part in regularly scheduled laboratory meetings. Prerequisite: Permission of instructor. LEC.

PSYC 782. Research Methods in Child Language. 3 Hours.
A survey of methods for studying phonological, morphological, syntactic, and semantic change during language development. Methods include: diary interpretation, language sample analysis, probe elicitation tasks, and clinical assessment. (Same as LING 782.) LEC.

PSYC 784. Proseminar in Communication and Aging. 1 Hour.
A weekly forum for students and faculty to discuss professional issues and interdisciplinary research in communication and aging. May be repeated for credit. (Same as COMS 784.) (Same as SPLH 784.) Prerequisite: Consent of instructor. LEC.

PSYC 787. Gerontology Proseminar. 3 Hours.
A proseminar coordinated by the Gerontology Center. The proseminar explores essential areas of gerontology for researchers and practitioners, providing a multidisciplinary (psychology, biology, sociology, and communication) perspective on aging. The proseminar surveys contemporary basic and applied research, service programs, and policy and management issues in gerontology. (Same as ABSC 787, AMS 767, COMS 787, and SOC 767.) (Formerly HDFL 787.) LEC.

A course emphasizing the practical application of inferential statistics to a variety of research designs and outcome variables. Topics will include both parametric and nonparametric statistical procedures, and various applications of both ANOVA and multiple regressions. Prerequisite: Graduate standing in the Department of Psychology or consent of instructor. LEC.

PSYC 790. Statistical Methods in Psychology I. 4 Hours.
Elementary distribution theory; t-test; simple regression and correlation; multiple regression and multiple correlation; curvilinear regression; logistic regression; general linear model. Applications across the behavioral and social sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: A beginning course in statistics and graduate standing, or consent of instructor. LEC.

PSYC 791. Statistical Methods in Psychology II. 4 Hours.
Continuation of PSYC 790. One-way analysis of variance, linear trends, contrasts, post hoc tests; multi-way analysis of variance for crossed, blocked, nested, and incomplete designs; analysis of covariance; repeated measures analysis of variance; general linear model. Applications across the social, educational, and behavior sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: PSYC 790 or equivalent, or consent of instructor. LEC.

PSYC 795. Computing and Psychology. 3 Hours.
Introduction to the use of personal computers to facilitate and standardize administration of research protocols and to automate data collection. Lectures and projects emphasize direct application to research in the behavioral sciences. Prerequisite: Graduate standing in the Department of Psychology and consent of instructor. LEC.

PSYC 796. Computer Models of Brain and Behavior. 3 Hours.
An introduction to the techniques of computer modeling with applications in the study of brain-behavior mechanisms. Early and contemporary efforts to simulate the neuron, neural networks, and neural processes which regulate behavior, are reviewed. Application of modeling techniques in sample brain-behavior problem areas are used to illustrate the operation of thresholds, feedback, dynamic equilibrium, redundancy, plasticity, network structure, and similar constructs. Programming skill in a high-level language available on personal computers or mainframe is required. Prerequisite: EECS 128 or EECS 138 or PSYC 795, and PSYC 370, or equivalent courses or experience. LEC.

PSYC 798. Introduction to Mathematical Methods in Psychology. 3 Hours.
A first course in scaling and modeling psychological processes. Substantive areas treated selected from sensation, perception, learning,
memory, preference, choice and decision processes, problem solving, games, social interaction, and individual differences. May be repeated with permission. Prerequisite: Previous course work beyond the introductory level in psychology or a closely related area, a course in statistics, and a course in calculus. LEC.

**PSYC 799. Proseminar in Child Language.** 2 Hours.
A review and discussion of current issues in children's language acquisition. May be repeated for credit. Students are graded S/F. (Same as ABSC 797, LING 799, and SPLH 799.) (Formerly HDFL 797.) LEC.

**PSYC 800. Experimental Psychology: _____ 3 Hours.**
An advanced survey of theory and research in a selected area of experimental psychology. Continual enrollment for four semesters is required of entering graduate students in experimental psychology. Open to other students with graduate standing in psychology or a closely related field. May be repeated with permission. LEC.

**PSYC 802. Social-Psychological Aspects of Health, Disability, and Associated Life Stress.** 3 Hours.
Disabling myths; perception of causes and effects of disease and disability; attitudes and interpersonal relations; hoping, coping, and reality issues; values; professional-client relations; public media and societal rehabilitation. A departmental core course for graduate students. LEC.

**PSYC 803. Fundamentals of Psychological Assessment and Intervention with Children.** 3 Hours.
Lecture and supervised experience covering the theoretical and empirical literature on assessment and intervention methods for children, adolescents, and families. Students will learn and demonstrate evidence-based clinical interviewing skills, behavioral observation techniques, risk assessment techniques, therapeutic communication approaches, strategies for providing assessment feedback to families, and ethical principles related to the provision of assessment and psychotherapy (including client file and resource management.) The course requires interaction with clinical populations and communication with referral sources. (Same as ABSC 803.) Prerequisite: Graduate student in clinical child psychology program. LEC.

**PSYC 805. History of Psychology.** 3 Hours.
A historical survey of basic concepts and theories in psychology with emphasis on their relationship to contemporary problems in theory. LEC.

**PSYC 809. Professional Issues: Clinical Child Psychology.** 1 Hour.
Consideration of special problems confronting the child and family oriented scientist-practitioner, and in the development of a professional identity. Topics include critical issues including ethical, legal, cultural, empirical, and clinical aspects of research and practice. May be repeated. (Same as ABSC 809, formerly HDFL 809.) Prerequisite: Graduate standing in clinical child psychology. LEC.

**PSYC 811. Achievement and Intellectual Assessment in Clinical Child Psychology.** 3 Hours.
Course covers the basic theory, research, administration, and reporting of psychological assessment of development, intelligence, and achievement for children, adolescents, and adults within cultural and developmental contexts. The range of psychological instruments examined includes, for example, WIAT, K-ABC, W-J, S-B, WISC, WAIS, and WPPSI. (Same as ABSC 811.) Prerequisite: Graduate student in clinical child psychology. LEC.

**PSYC 812. Behavioral and Personality Assessment of Children.** 3 Hours.
Lecture, laboratory, field work, and supervision appointment. Theory and applications in the psychological evaluation of children with standardized assessment techniques. The administration, scoring, interpretation, and reporting of behavioral and personality functioning in children. (Same as ABSC 812, formerly HDFL 812.) Prerequisite: Graduate standing in clinical child psychology. LEC.

**PSYC 814. Advanced Child and Family Assessment.** 3 Hours.
Lecture, laboratory, field work, and supervision appointment. Supervised experience in specialized psychological assessment approaches for children and families. Emphasis on interviewing, observation, psychometric scales, and consultation. Rationale, administration, analysis, and reporting of mental health functioning of children and families. Experience with clinical populations, and communication with referral sources. (Same as ABSC 814, formerly HDFL 814.) Prerequisite: Graduate student in clinical child psychology. LEC.

**PSYC 815. Design and Analysis for Developmental Research.** 3 Hours.
Coverage of the philosophy and basic principles of group-design research, with a special emphasis on designs that are appropriate for developmental studies. Designs for both experimental and quasi-experimental research are covered, and appropriate statistical procedures are presented concomitantly with the designs. Individual-difference analyses and statistical control issues are also addressed. LEC.

**PSYC 816. Design and Analysis for Neuroimaging Research.** 3 Hours.
Course covers research design and analysis issues for event-related potential (ERP) and functional magnetic resonance imaging (fMRI) studies. Repeated measures, statistical parametric mapping, principal components analysis, and independent components analysis techniques are covered. Both practical and theoretical aspects of these statistical techniques will be explored in Matlab environment. Matrix algebra recommended but not required. Prerequisite: PSYC 790 and 791 or equivalent are required. LEC.

**PSYC 818. Experimental Research Methods in Social Psychology.** 3 Hours.
Systematic discussion of the techniques of research in social psychology, with practice in the utilization of selected methods. Prerequisite: One course in social psychology in addition to introductory social psychology. LEC.

**PSYC 819. Field and Evaluation Research Methods in Social Psychology.** 3 Hours.
Basic principles and practices of field methods in basic and applied research in social psychology and related fields; relationships between field and laboratory studies; special emphasis on survey and evaluation research methods and study designs; client and respondent relationships; research and public policy. LEC.

**PSYC 820. Advanced Child Development.** 3 Hours.
A survey of the basic empirical research in the field of child development, covering intelligence, cognition, perception, attention, personality, social behavior, and socialization processes. These literatures are integrated and their implications for social application are addressed. (Same as ABSC 820, formerly HDFL 820.) Prerequisite: A course in child development or equivalent. LEC.

**PSYC 821. Women and Violence.** 3 Hours.
An examination of research on women and violence, including rape, domestic violence, sexual harassment, stalking, and child sexual abuse. Research on the nature, prevalence, causes, and consequences of violence against women is discussed. (Same as WGSS 821.)
Prerequisite: Six hours in WGSS and/or PSYC, or permission of instructor. LEC.

**PSYC 825. Social Development.** 3 Hours.
A lecture and discussion course in social development. It includes such topics as theoretical approaches to the study of social development, as
well as the literature on family processes, peer relations, aggression and prosocial behavior, child abuse and neglect, family violence, child care, and the media. (Formerly PSYC 880.) (Same as ABSC 825.) Prerequisite: A course in child psychology or development. LEC.

PSYC 831. Advanced Human Learning and Memory. 3 Hours. An in-depth analysis of current research and theory. Focus will be on experimental methodology in these areas. LEC.

PSYC 832. Clinical Health Psychology I: Health Promotion and Disease Prevention. 3 Hours. An overview of the field of health psychology as applied to health promotion and disease prevention. Content areas include history and current research regarding behavioral and psychosocial risk factors for disease, as well as empirically supported assessment and therapeutic techniques for risk factor reduction and health promotion. Prerequisite: Graduate student in psychology or health-related fields, or permission of instructor. LEC.

PSYC 833. Clinical Health Psychology II: Acute and Chronic Illness. 3 Hours. An overview of the field of health psychology as applied to acute and chronic illness in adult, adolescent, and child populations. Content areas include psychosocial aspects of acute and chronic illness, including relevant empirically supported assessment and intervention strategies, adherence to medical regimens, pain, and enhancement of the psychologist's role in medical settings. Prerequisite: Graduate student in psychology or health-related fields, or by permission of instructor. LEC.

PSYC 834. Clinical Health Psychology III: Physical Aspects of Health and Disease. 3 Hours. An overview of physical manifestations of health and disease. Content areas include overview of anatomy and physiology of each body system, description of how deviations from normal anatomical development and physiological function result in common disorders, methods for distinguishing psychological from organic etiologies, indications of side effects of medications for common disorders, and description of roles of key members of health care team members. Prerequisite: Graduate student in psychology or health-related fields, or permission of instructor. LEC.

PSYC 835. Clinical Practicum IV: Health. 3 Hours. Supervised assessment and treatment of individuals and families within a medical setting, as well as multidisciplinary consultation. Inpatient and outpatient clinical health psychology rotations may include pediatrics, oncology, pain, rehabilitation, and other health psychology related fields. Emphasis in selection of and training in psychological intervention strategies is on the use of empirically supported treatments where possible. Grading on Satisfactory/Fail basis. Prerequisite: PSYC 970 and graduate student in clinical health psychology specialty. FLD.

PSYC 836. Clinical Practicum V: Health. 3 Hours. Continuation of PSYC 835. Prerequisite: Graduate student in clinical health psychology specialty. FLD.

PSYC 838. Pain and Its Management. 3 Hours. Focuses on biological, cognitive/affective, and social causes and effects of pain. Emphasis on basic research methods in pain, origins of pain, and how the experience of pain alters many aspects of the individual’s life. Topics include anatomy and physiology of pain, impact of pain on a variety of aspects of individuals’ lives, treatments for pain, and the role of various health care professionals in treating pain. Discussions will also include basic research methods in pain, tools for assessing pain, barriers to adequate pain management, and ethical/legal/public policy issues in working with pain patients. Prerequisite: Graduate student in psychology or health-related fields, or by permission of instructor. LEC.

PSYC 839. Palliative Care in Health Psychology. 3 Hours. Based on the biopsychosocial model, this course focuses on the current practice of palliative care in community and hospital settings by health care professionals. Classes will be discussion based, centered on current issues and controversies in care of the chronically ill and dying. Recent research will be highlighted, as will cultural perspectives on death. Students will be expected to identify applicable literature for presentation and class discussion, along with assigned readings. Prerequisite: Graduate student in psychology or health-related fields, or by permission of instructor. LEC.

PSYC 840. Psychology of Women’s Health. 3 Hours. A seminar devoted to examination of psychosocial and behavioral factors in women’s health. Content areas include women and the health care system, social roles and health, gender differences, and similarities in morbidity and mortality, gynecologic health, chronic diseases, and health-related behaviors. Prerequisite: Graduate student in psychology or health-related field, or by permission of instructor. LEC.

PSYC 841. Stress and Coping. 3 Hours. Theories and research on conceptualization, assessment, and effects of stress. Focus on coping processes and other determinants of adjustment to stressful conditions. Discussion of psychological interventions for managing stress and trauma. Prerequisite: Graduate student in psychology or related fields. LEC.

PSYC 842. Specialized Health Psychology Practicum. 1-3 Hours. Specialized advanced practicum in clinical health psychology, with an area of emphasis mutually defined by student and instructor. Prerequisite: Consent of instructor. FLD.

PSYC 843. Behavioral Pharmacology. 3 Hours. Addresses psychological and behavioral effects of drugs, including psychotropic medications. A central theme is that effects of drugs frequently cannot be characterized solely from a pharmacological perspective. Thus, emphasis will be placed on examining the interaction of pharmacological and behavioral variables. For example, how do psychological factors moderate responses to drugs? The nature of this area assumes some knowledge of general psychology, research methods, biology, chemistry, neurophysiology, and the nervous system. Specific course structure will be modified to suit student interests. Prerequisite: Graduate student in psychology or health-related fields, or by permission of instructor. LEC.

PSYC 844. Mental Health and Aging. 3 Hours. Reviews recent research and application in the field of mental health and aging. Theoretical perspectives appropriate for understanding mental health issues with increased age are discussed. The epidemiology, assessment, diagnosis, and treatment methods associated with a variety of mental health conditions are surveyed. The community mental health resources available for older adults are discussed as well as practically-related issues such as evaluations of functional independence and competency among older adults. Prerequisite: Graduate student in psychology or related health field, or permission of instructor. LEC.

PSYC 845. Impression Formation and Interpersonal Behavior. 3 Hours. Intensive investigations of the processes involved in impression formation and of the effects of established impressions upon interpersonal communications. (Same as COMS 835.) Prerequisite: PSYC 670 or COMS 535. LEC.

PSYC 846. Practicum in Clinical Child Psychology I. 1-3 Hours. Lecture, laboratory, field work, and supervision appointment. Psychological evaluation and treatment of children and their families; supervised, progressive experience in psychological interventions in
clinical child psychology. (Same as ABSC 846, formerly HDFL 846.) Prerequisite: Graduate standing in clinical child psychology and instructor permission. FLD.

**PSYC 847. Practicum in Clinical Child Psychology II. 1-3 Hours.** 
A continuation of ABSC 846/PSYC 846. (Same as ABSC 847, formerly HDFL 848.) Prerequisite: Graduate standing in clinical child psychology and instructor permission. FLD.

**PSYC 850. Assessment I: Foundations of Psychological Assessment. 3 Hours.** 
Introduction to the history, methods and theory underlying psychological assessment techniques and methods. Students learn to administer, score, and interpret mental status exams and intelligence tests for children, adolescents and adults. Structured diagnostic assessments are introduced and practiced. Psychological report writing is introduced and practiced. The psychometric theory underlying the construction and validation of personality assessment instruments is reviewed. Prerequisite: Graduate student in clinical psychology or consent of instructor. FLD.

**PSYC 853. Advanced Acoustical and Psychological Aspects of Musical Behavior. 3 Hours.** 
Study and experimental investigation of acoustic, psychoacoustic, and psychological phenomena as they influence music. Attention will be given to physical parameters; perception of pitch, loudness, and timbre; magnitude estimation; theories of consonance; experimental aesthetics; and measurement and prediction of musical ability. Each student will be expected to complete an experiment or quasi-experiment related to human musical behavior. (Same as MEMT 953.) Prerequisite: PSYC 453 or equivalent; or consent of instructor. LEC.

**PSYC 855. Assessment II: Integrative Psychological Assessment. 3 Hours.** 
Lecture, laboratory and field work. Students learn to administer, score and interpret various personality assessment instruments. Students apply skills acquired in previous coursework to write integrated psychological assessment reports based on anamnesis, structured interview data, intelligence tests, and both objective and projective personality assessment instruments. Prerequisite: PSYC 850 or consent of instructor. FLD.

**PSYC 863. Clinical Neuropsychology Across the Lifespan. 3 Hours.** 
Reviews neural development and the brain-behavior relationships in intact, injured, and diseased brain systems. Details basic issues in clinical assessment and reporting of cognitive impairment resulting from developmental disorders, stroke, traumatic brain injury, and brain-disease. Selected topics include perception, speech, memory/dementia, judgment, and attention. Prerequisite: Graduate status and PSYC 961 or consent of instructor. LEC.

**PSYC 864. Clinical Neuropsychology. 3 Hours.** 
Brain-behavior relationships in humans; structure and function of the brain; evaluation of function; the interpretation of neuropsychological data. Lecture and laboratory. LEC.

**PSYC 865. Advanced Psychological Assessment: Interview Based Techniques. 3 Hours.** 
Lecture and fieldwork. Advanced clinical interviewing. Structured diagnostic interviewing. Coverage of specialized areas of clinical interviewing (e.g., motivational interviewing). Report writing focused on documentation of clinical and structured interviewing. Prerequisite: PSYC 855 or consent of instructor. FLD.

**PSYC 870. Cognitive Development. 3 Hours.** 
A lecture/discussion course in cognitive development. The course will contrast the theory and research of Jean Piaget and his followers, with an information processing or cognitive psychology approach to issues. Topics include development of perception, attention and information getting; memory and metamemory; problem solving; discrimination learning and concept formation; and individual differences in cognitive styles and strategies. Prerequisite: A course in child psychology or development, a course in cognitive psychology, or consent of instructor. LEC.

**PSYC 872. Attention, Perception, and Learning in Infancy. 3 Hours.** 
Coverage of the basic literatures on perceptual-cognitive behavior during the first three years of life, as assessed by measures of attention, perception, learning, and memory. Course material is approached from an information-processing framework. LEC.

**PSYC 875. Advanced Assessment: Integration of Assessment Techniques. 3 Hours.** 
Lecture and fieldwork on selection, administration, scoring and interpretation and integration of data from personality and abilities tests. Focus on assessments includes history, theory and application in psychological assessment batteries. Emphasis on advanced training in objective personality assessment, projective personality assessment, psychometric theory and integrated report writing. Prerequisite: PSYC 855 or consent of instructor. FLD.

**PSYC 879. Applied Nonparametric Statistical Methods. 4 Hours.** 
This course covers nonparametric statistical methods for testing hypotheses when the assumptions of ordinary parametric statistics are not met. Topics include a review of parametric statistics, sampling distributions, the logic of hypothesis testing, and motivations for using nonparametric techniques. In-depth coverage will be given to distribution-free procedures, sign tests, contingency tables, median tests, chi-square and other goodness-of-fit tests, rank correlations, randomness tests, Monte Carlo methods, resampling methods, tests of independence, 1-sample, 2-sample, and k-sample methods, permutation tests, and function smoothing and splines. There will be an emphasis on the theory underlying nonparametric methods. Applications across the behavioral and social sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: PSYC 790 and 791 or equivalent, or consent of instructor. LEC.

**PSYC 881. Proseminar in Quantitative Behavioral and Social Sciences. 1 Hour.** 
This course is an open forum discussion of issues, topics, and presentations in quantitative behavioral and social sciences. The course can be repeated for credit and is open to any graduate student in any discipline across the behavioral and social sciences. SEM.

**PSYC 882. Theory and Method for Research of Human Environments. 3 Hours.** 
Conceptual and technical methods for analysis of behavioral environments; theory and research utilization of behavior settings and other ecobehavioral units. Prerequisite: Nine hours of social science including at least one course dealing with research methods and consent of instructor. LEC.

**PSYC 885. Altruism and Helping Behavior. 3 Hours.** 
Review of contemporary research of prosocial behavior. Topics to be covered include the existence of altruism, why people do and do not help others, and the effect of institutional roles on the behavior of service professionals such as therapists, counselors, and social workers. LEC.

**PSYC 886. Item Response Theory. 4 Hours.** 
This course covers the basic concepts and methods of item response models. Focal topics include the theory underlying IRT models and their general properties. Also covered are methods for checking model
assumptions and interpreting IRT estimates. The course uses examples from the social and behavioral sciences to demonstrate how IRT methods can be used to inform and refine survey development, to assess measurement equivalence, link survey scores, and build item banks for short forms or computer-adaptive testing (CAT). Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: PSYC 790 and 791 or equivalent, or consent of instructor. LEC.

PSYC 887. Factor Analysis. 4 Hours.
This course covers the theory behind, and application of, exploratory factor analysis. Topics include a review of multiple linear regression and matrix algebra. In-depth coverage is devoted to diagrams, model specification, goodness of fit, model selection, parameter estimation, rotation methods, scale development, and sample size and power issues. Extensions to confirmatory settings are elaborated. Both the theory underlying factor analytic techniques and hands-on application using software are emphasized. Applications across the social and behavioral sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: PSYC 790 or equivalent, or consent of instructor. LEC.

PSYC 888. Diversity Issues in Clinical Psychology. 3 Hours.
Review of individual differences pertaining to culture, ethnicity, race, gender, sexual orientation, age, etc., as these have an impact upon theory, research, assessment, and treatment issues in clinical psychology. (Same as ABSC 888.) Prerequisite: Graduate status in clinical psychology, or instructor permission. LEC.

PSYC 889. Conceptual Issues in Human Sexuality. 3 Hours.
An examination of the social construction of sexuality and research methods and issues relevant to sexuality. These concepts are applied to various topics, such as defining and conceptualizing sex and gender, sexual dysfunction, sexual orientation, the social control of sexuality, sexual coercion and abuse, and abstinence-only sex education. The course does not cover anatomical or physiological aspects of sexuality. (Same as WGSS 889.) Prerequisite: Six hours in WGSS and/or PSYC, or permission of instructor. LEC.

PSYC 891. Intelligence and Cognition. 3 Hours.
This course concerns the nature of intelligence. Theory and research on cognitive abilities, reasoning, and complex problem solving are surveyed. Special emphasis is given to contemporary cognitive ability research that applies both experimental and correlation methods to understand the nature of intelligence. LEC.

PSYC 892. Test Theory. 4 Hours.
This course begins with recommendations for how to write a test (with or without correct answers, for assessing a wide variety of constructs of interest in social and behavioral sciences), covers basics of classical test theory, and then emphasizes modern statistical methods for analyzing item data. Methods include factor analysis of categorical responses, methods for identifying measurement invariance (differential item functioning), and item response theory. Lectures and Laboratory. This course is offered at the 600 and 800 levels, with additional assignments at the 800 level. Prerequisite: PSYC 790/650 or equivalent, or consent of instructor. LEC.

PSYC 893. Multivariate Analysis. 4 Hours.
Introduction to the central methods used in the analysis of multivariate data. Includes linear transformations, multivariate analysis of variance, multivariate multiple regression, discriminant analysis, canonical correlation, factor analysis, and an introduction to methods for clustering and classification. Applications across the behavior and social sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: PSYC 790 or equivalent, or consent of instructor. LEC.

PSYC 894. Multilevel Modeling. 4 Hours.
Statistical methods for modeling multilevel (hierarchically structured) data. Topics include a review of ordinary least squares regression analysis, random effects ANOVA, intraclass correlation, multilevel regression, testing and probing interactions, maximum likelihood estimation, model assumptions, model evaluation, and the analysis of longitudinal data. There will be a heavy emphasis on the theory underlying multilevel modeling techniques and hands-on application using software. Applications across the social, educational, and behavior sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: PSYC 790 or equivalent, or consent of instructor. LEC.

PSYC 895. Categorical Data Analysis. 4 Hours.
Multivariate analyses of count data. Error models, statistical inference, loglinear models, logit models, logistic regression. Homogeneity, symmetry, and selected other topics. Applications across the behavioral and social sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: PSYC 790 or equivalent, or consent of instructor. LEC.

PSYC 896. Structural Equation Modeling I. 4 Hours.
Introduction to statistical methods for modeling latent variables. Topics include a review latent variables, covariance structures analysis, mean structures analysis, confirmatory factor analysis (CFA), structural equation modeling (SEM), multiple group CFA, longitudinal CFA, longitudinal SEM, Hierarchical CFA, and Multi-trait Multi-Method SEM. Applications across the behavioral and social sciences are emphasized. Course consists of three hours of lecture and a required one-hour lab session where computing applications are taught. Prerequisite: PSYC 790 or equivalent, or consent of instructor. LEC.

PSYC 897. Master's Thesis in Clinical Child Psychology. 1-10 Hours.
Supervised research experience completing thesis leading to master’s degree. (Same as ABSC 897.) RSH.

PSYC 898. Proseminar: Professional Issues in Clinical and Health Psychology. 1 Hour.
Discussion of current theoretical, empirical, and applied issues in clinical and clinical health psychology involving students, faculty, guest speakers. Prerequisite: Graduate student in clinical psychology. RSH.

PSYC 899. Thesis. 1-10 Hours.
Graded on a satisfactory/unsatisfactory basis. THE.

PSYC 902. Proseminar in Experimental Psychology. 1 Hour.
Seminar in experimental psychology to be conducted in rotation by the experimental psychologists on the staff and a monthly visiting experimental psychologist. LEC.

PSYC 903. Proseminar in Social Psychology. 1 Hour.
A series of research talks on topics relevant to social and personality psychology featuring different weekly speakers from inside and outside the university. SEM.

PSYC 905. Psychopathology in Children. 3 Hours.
Diagnosis and treatment of psychological problems in childhood and adolescence. (Same as ABSC 905.) Preference given to graduate students in child clinical psychology, school psychology, and counseling psychology. Prerequisite: Fifteen hours of graduate credit in psychology or consent of instructor. LEC.
PSYC 921. Seminar in Early Development. 3 Hours.
A seminar devoted to factors affecting early human development with some attention to theoretical formulations and the relevant animal literature. LEC.

PSYC 923. History and Systems of Developmental Psychology: Developmental Theory. 3 Hours.
An intensive study of traditional and recent developmental theories with an emphasis upon the role of heredity, early stimulation, reinforcement, and modification as each affects the course of the development of children. LEC.

PSYC 927. Seminar in Psychobiology. 3 Hours.
A detailed study of a specific research area dealing with the biological foundations of behavior. Each week articles will be assigned from the journal literature. LEC.

PSYC 930. Research Seminar on Intimate Relationships. 3 Hours.
Consideration of current psychological theory and research on adult intimate relationships: friendship, dating, committed relationships, dissolution of committed relationships. Students will be expected to be involved in on-going empirical research in the area. Prerequisite: Graduate level courses in research design and statistics. LEC.

PSYC 933. Seminar: The Measurement of Attitudes. 3 Hours.
An examination of the concept of attitude and the methods developed to assess the various aspects of attitudes. Prerequisite: PSYC 578 or consent of instructor. LEC.

PSYC 935. Seminar in Group Dynamics. 3 Hours.
Intensive examination of selected problems in the functioning of small groups. May be taken for two semesters. LEC.

PSYC 936. Group Therapeutic Techniques. 3 Hours. LEC.

PSYC 943. Advanced Practicum in Clinical Child Psychology III. 1-3 Hours.
Lecture, laboratory, field work, and supervision appointment. Advanced psychological intervention techniques for children, youth, and families; supervised progressive experience in application of behavioral and psycho-therapeutic methods to behavioral and emotional problems. (Same as ABSC 943, formerly HDFL 943.) Prerequisite: Graduate standing in clinical child psychology and instructor permission. FLD.

PSYC 944. Advanced Practicum in Clinical Child Psychology IV. 1-3 Hours.
A continuation of ABSC/HDFL 943 and PSYC 943. (Same as ABSC 944, formerly HDFL 944.) Prerequisite: Graduate standing in clinical child psychology and instructor permission. FLD.

PSYC 946. Theories and Methods of Psychotherapy. 3 Hours.
Comparative examination and analysis of major theories and approaches to psychotherapeutic interventions, core principles of therapeutic change, scientific approaches to establishing treatment efficacy, current intervention issues. Prerequisite: Nine hours in graduate clinical psychology or consent of instructor. LEC.

PSYC 947. Advanced Practicum in Clinical Child Psychology V. 1-5 Hours.
A continuation of ABSC/HDFL 944 and PSYC 944. May be taken in more than one semester. (Same as ABSC 947.) Prerequisite: Graduate standing in clinical child psychology and instructor permission. FLD.

PSYC 949. Empirically Supported Treatment. 3 Hours.
This course provides an overview of theoretical and applied issues germane to the contemporary empirically supported treatments movement in clinical psychology. The course will include an in-depth examination of several psychotherapy protocols (e.g., cognitive therapy for depression) which have been identified as “empirically supported,” with considerable attention accorded to implementation of the characteristic techniques of such interventions. LEC.

PSYC 950. Clinical Supervision and Consultation: Theory & Research. 1 Hour.
Lecture, readings, and discussion of theory and research related to the practices of clinical supervision and consultation. Developmental and competency based approaches to supervision with exposure to other approaches. Professional issues, ethics, and multicultural aspects of supervision and consultation. Prerequisite: Previous or concurrent enrollment in PSYC 969 or consent of instructor. LEC.

PSYC 951. Clinical Supervision Practicum. 1-3 Hours.
Fieldwork in supervision under direction of instructor. Practice in supervision of clinical work, assessment, psychotherapy, and documentation. Prerequisite: Previous or concurrent enrollment in PSYC 950 and PSYC 969, or consent of instructor. LEC.

PSYC 955. Close Relationships and Adult Attachment: Theory, Research, and Current Controversies. 3 Hours.
Review of attachment theory literature and the research it has generated in clinical developmental, personality, and social psychology. The course will allow discussion of a wide range of issues including the evolution of behavioral systems that underlie close human relationships, the developmental roots of relational styles and affect-regulation processes, the role of mental representations in interpersonal behavior, and some of the attachment and close relationship processes involved in good and poor mental health. Prerequisite: Graduate standing or consent of instructor. LEC.

PSYC 956. Social Neuroscience. 3 Hours.
Acquaint students with the Social Neuroscience approach as well as recent findings using this approach. The course will focus on particular social phenomena and (a) evaluate the utility of current social neuroscience research examining these phenomena and (b) consider future experimental designs using the Social Neuroscience approach to further inform our understanding of each phenomenon. After being acquainted with foundational concepts, students will analyze findings in a number of core content domains (including emotions, emotion regulation, self, stereotyping, attitudes and beliefs, social decision making, cooperation, close relationships), focusing on neuroscience’s contribution beyond traditional methods. Prerequisite: Graduate standing or consent of instructor. LEC.

PSYC 960. Advanced Psychopathology. 3 Hours.
Review of current nosology of adult psychopathological syndromes emphasizing development of diagnostic skills. Critical survey of recent research and theory related to the etiology, course, prognosis, and treatment of adult psychopathological conditions. Prerequisite: Graduate student status in clinical psychology, clinical child psychology, or counseling psychology. LEC.

PSYC 961. Biological Foundations of Psychopathology. 3 Hours.
A review of fundamental topics in the neurosciences and their relevance to selected psychopathological disorders. The fundamental topics are taken from genetics, neuroanatomy, neurophysiology, and neurochemistry. The disorders include schizophrenia, depression, anxiety disorders, Alzheimer’s disease, Parkinson’s disease, and Huntington’s disease. Prerequisite: Graduate student in clinical psychology or consent of instructor. LEC.

PSYC 962. Advanced Personality. 3 Hours.
A survey of selected advanced topics in the area of personality. Includes review of theoretical and research issues in the area of personality. Prerequisite: Consent of instructor. LEC.
PSYC 963. Clinical Child Psychology Internship. 1 Hour.
Three consecutive enrollments, covering a minimum of eleven months of experience in an approved clinical psychology field setting; supervision by qualified clinical child psychology faculty and field staff clinicians. Required of all clinical child psychology program students. An intensive guided experience in application of clinical child psychology theory, methods, and practices. Integrates scientific and clinical aspects of field. (Same as ABSC 963, formerly HDFL 963.) Prerequisite: Completion of Ph.D. comprehensive examinations and permission of clinical child psychology faculty. FLD.

PSYC 964. Clinical Practicum I. 3 Hours.
Lecture, laboratory and field work, and supervision appointment. Psychological evaluation and treatment of individuals, couples, families, and groups; supervised, progressive experience in psychological treatment and in the clinical evaluation of intellectual, personality, and social functioning. Emphasis in selection of and training in psychological intervention strategies is on the use of empirically supported treatments where possible. Grading on Satisfactory/Fail basis. Prerequisite: Graduate student in clinical psychology program. FLD.

PSYC 965. Clinical Practicum II. 3 Hours.
A continuation of PSYC 964. Grading on Satisfactory/Fail basis. Prerequisite: PSYC 964 or permission of instructor. FLD.

PSYC 966. Clinical Practicum III. 3 Hours.
A continuation of PSYC 964. Grading on Satisfactory/Fail basis. Prerequisite: PSYC 964 or permission of instructor. FLD.

PSYC 967. Psychotherapy with Families. 3 Hours.
Clinical approaches to marriage and family therapy. Intensive consideration of the theoretical positions, research findings, clinical methods, and technical problems in marriage and family therapy. Prerequisite: PSYC 946. LEC.

PSYC 968. Research Methods in Clinical Psychology. 3 Hours.
Systematic consideration of research methods in clinical psychology including identification of a research problem, selection of the research design and assessment strategies, and methods of evaluating the results. The principles, pitfalls, artifacts, biases, and sources of controversy in research in this area are also covered. Prerequisite: Graduate standing in clinical or counseling psychology. LEC.

PSYC 969. Clinical Practicum IV. 3 Hours.
Lecture, laboratory, field work, and supervision appointment. Advanced psychological treatment of the individual, couple, family, and group client; supervised, progressive experience in the clinical application of psychotherapeutic treatment methods with emphasis on the use of empirically supported interventions where possible. Grading on Satisfactory/Fail basis. Prerequisite: PSYC 966 or consent of instructor. FLD.

PSYC 970. Clinical Practicum V. 3 Hours.
A continuation of PSYC 969. Grading on Satisfactory/Fail basis. Prerequisite: PSYC 969 or consent of instructor. FLD.

PSYC 974. Clinical Psychology Internship. 1-3 Hours.
Three consecutive enrollments, covering a minimum of eleven months of experience in an approved clinical psychology field setting; supervision by clinical psychology faculty and field staff clinical psychologists. Required of all clinical psychology program students. An intensive guided experience in the application of clinical psychology theory, methods, and practices. An emphasis upon the relationships between scientific and clinical functions. Integrations between research and clinical practice. Prerequisite: Completion of Ph.D. comprehensive examinations and consent of clinical psychology faculty. FLD.

PSYC 975. Professional and Ethical Problems in Clinical Psychology. 3 Hours.
Interprofessional relationships, case security, legal aspects, ethical code of practice, clinic administration, and problems in the clinical practice of psychology. Issues involving ethics in research will also be explored. Prerequisite: Consent of instructor. LEC.

PSYC 976. Therapeutic Interventions with Children. 3-5 Hours.
Clinical approaches to the therapeutic treatment of children with special emphasis on research findings and laboratory (practicum) experience. A survey of relationship therapies, operant strategies, system approaches, parent education and play therapy by the right therapist for a specific child with a particular problem. (Same as ABSC 976.) Prerequisite: Instructor permission. FLD.

PSYC 977. Specialized Clinical Practicum. 1-4 Hours.
Lecture; laboratory and field work, and supervision appointment. Specialized psychological services for the evaluation and/or treatment of the individual client or the group or the institution. Investigation of and experience in a special practicum area not covered in regular courses. Prerequisite: Students must consult with members of the clinical faculty and propose an acceptable project in advance of enrollment. FLD.

PSYC 980. Special Problems in Psychology. 1-5 Hours.
Investigation of a special research problem or directed reading in an area not covered in regular courses. Prerequisite: Consent of instructor. RSH.

PSYC 981. Teaching Psychology. 1 Hour.
Discussion of the problems and techniques of teaching psychology at the undergraduate level. A minimum of one credit of this course must be taken by all assistant instructors during the two semesters of the first year of their appointment in the department. Only three hours may count toward the Ph.D. degree. LEC.

PSYC 982. Issues in Scientific Conduct. 3 Hours.
Lectures and discussion on issues in the conduct of a scientific career, with emphasis on practical topics of special importance in behavioral science. Topics will include the academic and scientific roles of behavioral scientists, establishing a research lab, communicating research findings, tenure processes, gender equity, ethical conduct, and good scientific citizenship. Discussions will highlight important case studies. (Same as SPLH 982.) LEC.

PSYC 983. Methodology. 3 Hours.
Inferential problems in experimental psychology. Prerequisite: PSYC 790 and PSYC 791 or consent of instructor. LEC.

PSYC 990. Methods for Clustering and Classification. 3 Hours.
Statistical methods for identifying classes, clusters, and taxa. Topics include k-means, discriminant analysis, hierarchical clustering algorithms, additive trees, neural network models for clustering, latent class models, finite mixture models, and models for skills/cognitive diagnosis. Applications across the social and behavior sciences are emphasized. Prerequisite: PSYC 790 and PSYC 791 or equivalent, or consent of instructor. LEC.

PSYC 991. Longitudinal Data Analysis. 3 Hours.
Reviews and contrasts various statistical methods for the analysis of change. Course focuses on various techniques to analyze longitudinal (repeated-measures) data beyond the repeated-measures ANOVA framework. Techniques covered include latent change scores, latent difference scores, individual-differences modeling of latent residual and change scores, intra-individual differences modeling (e.g., growth curve, mixed modeling) and growth mixture modeling. Applications across the behavioral and social sciences are emphasized. Prerequisite: PSYC 896 or equivalent, or consent of instructor. LEC.
PSYC 993. Seminar: _____. 1-5 Hours. LEC.

PSYC 996. Structural Equation Modeling II. 3 Hours. Continuation of PSYC 896. Advanced applications of modern methods for testing hypotheses on multivariate correlational data in the behavioral and social sciences. Topics include advanced confirmatory factor analysis, mediation and moderation among latent variables, latent growth curve modeling, and other latent variable mean and covariance structures analysis techniques. Applications across the behavioral and social sciences are emphasized. Prerequisite: PSYC 896 or equivalent, or consent of instructor. LEC.

PSYC 998. Doctoral Dissertation in Clinical Child Psychology. 1-10 Hours. Research experience making original contribution to literature in clinical child psychology. (Same as ABSC 998, formerly HDFL 998.) THE.

PSYC 999. Dissertation. 1-12 Hours. Graded on a satisfactory/unsatisfactory basis. THE.

Bachelor of Arts and Bachelor of General Studies in Psychology

Why study psychology?
Because the understanding of mind, behavior, and the human experience is best achieved through the rigorous application of the scientific method.

Admission to the Major

Admission Requirements

Application term
Students should apply to the major during the semester in which major admission criteria will be completed; normally no later than 60 hours, or for transfer students, normally during the initial term at KU. Application to this major after completion of 60 hours, or the initial KU term for transfer students, will likely delay graduation.

Courses Required

Orientation Seminar in Psychology Satisfied by:
- PSYC 102 Orientation Seminar in Psychology 1

General Psychology. Satisfied by:
- PSYC 104 General Psychology 3
- or PSYC 105 General Psychology, Honors

Research Methods in Psychology or Statistics in Psychological Research. Satisfied by:
- PSYC 200 Research Methods in Psychology 3
- or PSYC 201 Research Methods in Psychology, Honors
- PSYC 210 Statistics in Psychological Research 3
- or PSYC 211 Statistics in Psychological Research, Honors

Core Psychology Course. Satisfied by one of the following:
- PSYC 318 Cognitive Psychology 3
- or PSYC 319 Cognitive Psychology, Honors
- PSYC 333 Child Development 3
- or PSYC 334 Child Development, Honors
- PSYC 350 Abnormal Psychology 3
- or PSYC 351 Abnormal Psychology, Honors

Must complete at least 1 but not more than 3 of the psychology core courses in order to apply to the psychology major.

Admission GPA
A minimum 2.5 GPA is required in all courses listed above that have been completed at the time of application to the major. University Course Repeat Policy will apply.

The undergraduate advisory committee evaluates applications. Students providing documentation of meeting the criteria are admitted when they apply. Faculty members are aware of the dangers associated with relying solely on grade-point average in selecting students. The department is committed to promoting cultural diversity in its programs, and the undergraduate advisory committee is guided by principles of affirmative action.

Requirements for the B.A. or B.G.S. Major

B.A. or B.G.S. Major in Psychology

Psychology Major Course Requirements

Psychology Prerequisite or Co-Requisite Knowledge (3)
Majors must complete courses as specified in each of the following areas. These hours do not contribute to the minimum number of hours required for the major.

College Algebra or Pre-Calculus. Satisfied by:
- MATH 101 College Algebra 3
- or MATH 104 Precalculus Mathematics

Psychology Core Knowledge and Skills (25)
Majors must complete a course in each of the following 9 areas:

Orientation Seminar in Psychology. Satisfied by:
- PSYC 102 Orientation Seminar in Psychology 1

General Psychology. Satisfied by:
- PSYC 104 General Psychology 3
- or PSYC 105 General Psychology, Honors

Research Methods in Psychology. Satisfied by:
- PSYC 200 Research Methods in Psychology 3
- or PSYC 201 Research Methods in Psychology, Honors

Statistics in Psychological Research. Satisfied by:
- PSYC 210 Statistics in Psychological Research 3
- or PSYC 211 Statistics in Psychological Research, Honors

Cognitive Psychology. Satisfied by:
- PSYC 318 Cognitive Psychology 3
- or PSYC 319 Cognitive Psychology, Honors

Child Development. Satisfied by:
- PSYC 333 Child Development 3
Bachelor of Science in Behavioral Neuroscience

Why study psychology?
Because the understanding of mind, behavior, and the human experience is best achieved through the rigorous application of the scientific method.

Admission to the Major

Behavioral Neuroscience Major Admission Criteria

Application Term
Students should apply to the major during the semester in which major admission criteria will be completed; normally no later than 60 hours, or for transfer students, normally during the initial term at KU. Application to this major after completion of 60 hours, or the initial KU term for transfer students, will likely delay graduation.

Courses Required

Orientation Seminar in Psychology. Satisfied by:
- PSYC 102 Orientation Seminar in Psychology
- PSYC 104 General Psychology
- or PSYC 105 General Psychology, Honors

Research Methods in Psychology or Statistics in Psychological Research. Satisfied by one of the following:
- PSYC 200 Research Methods in Psychology
- or PSYC 201 Research Methods in Psychology, Honors
- PSYC 210 Statistics in Psychological Research
- or PSYC 211 Statistics in Psychological Research, Honors

Core Psychology Course. Satisfied by one of the following:
- PSYC 370 Behavioral Neuroscience
- or PSYC 371 Behavior Neuroscience, Honors
- PSYC 375 Cognitive Neuroscience
- PSYC 380 Clinical Neuroscience
- or PSYC 381 Clinical Neuroscience, Honors

Admission GPA

A minimum 3.0 GPA is required in all courses listed above that have been completed at the time of application to the major. University Course Repeat Policy will apply.

Requirements for the B.S. Degree

B.S. in Behavioral Neuroscience

Humanities (24 hrs.)

Written Communication - Core Skill and Critical Inquiry
Composition (0)
Satisfied by one of the following. Requirement must be completed during initial term of admission at KU.
- ENGL 101 Composition
The University of Kansas

ACT English score of 27 or above or SAT English score of 600 or above
AP English Literature & Composition score of 3 or above
Equivalent transfer course

Critical Reading and Writing (0)
Satisfied by one of the following. Requirement must be completed within the first academic year at KU.
ENGL 102 Critical Reading and Writing
ENGL 105 Freshman Honors English
AP English Literature & Composition score of 3 or above
Equivalent transfer course

Sophomore Reading and Writing II (0)
Satisfied by one of the following:
ENGL 203 Topics in Reading and Writing: _____
ENGL 205 Freshman-Sophomore Honors Proseminar: _____
ENGL 209 Introduction to Fiction
ENGL 210 Introduction to Poetry
ENGL 211 Introduction to the Drama
AP English Literature & Composition score of 5 or above
Equivalent transfer course

Argument and Reason
Satisfied by one of the following:
COMS 130 Speaker-Audience Communication
PHIL 148 Reason and Argument
Equivalent course

Western Civilization - Exploration of One’s Own and Diverse Cultures
Advising Alert: Requires sophomore-level standing. Courses at other universities may have the same title but may not meet this requirement.
Satisfied by:
HWC 204 Western Civilization I 3
or HWC 114 Western Civilization I Honors
HWC 205 Western Civilization II 3
or HWC 115 Western Civilization II Honors

Humanities - Understanding the Human Condition
Satisfied by completing 2 courses (6 hrs.) in any of the following categories: historical studies (requirement code HT), literature and the arts (requirement code HL), philosophy and religion (requirement code HR) and humanities (requirement code H). Approved courses may be searched for availability through the Kyou portal.

Natural Science (14 hrs. minimum)
Satisfied by completing 2 of the following 4 sequences AND an extension of 1 sequence (1 additional advanced course), or an approved alternative (14 hrs. minimum).

Biology:
BIOL 150 Principles of Molecular and Cellular Biology
& BIOL 152 and Principles of Organismal Biology

Chemistry:
CHEM 130 General Chemistry I
& CHEM 135 and General Chemistry II

Physics:
PHSX 114 College Physics I
& PHSX 115 and College Physics II

Biological Anthropology:
ANTH 104/304 Fundamentals of Physical Anthropology
or ANTH 104 Human Variation and Evolution
or ANTH 341 Human Evolution
or ANTH 350 Human Adaptation
or ANTH 442 Anthropological Genetics
or ANTH 447 Human Behavioral Genetics

Mathematics (14 hrs. minimum)
Satisfied by completing a total of 4 mathematics courses totaling at least 14 hours, of which at least 6 hours must be calculus or calculus based. The 6-10 hours of calculus can be satisfied by taking at least one calculus I course (MATH 115 or 121) and one calculus II course (MATH 116 or 122). The remaining four to eight hours of mathematics can be satisfied by taking a minimum of two additional math courses at any level (excluding MATH 002).

Computing (6 hrs. minimum)
Satisfied by:
EECS 138 Introduction to Computing: _____

An additional course
The second 3 hours could either be a second semester of EECS 138 (focused on a second programming language) or be from an additional approved course that provides an opportunity to gain computing experience. This second course could be PSYC 480 or PSYC 481 if this Independent Study requires independent, original application of the student’s computing skills such as computer simulation of cognitive processes, or experience with computationally complex neuroscience techniques, such as brain imaging and mapping, or physiological data collection and analysis. (3)

The second 3 hours could either be a second semester of EECS 138 (focused on a second programming language) or be from an additional approved course that provides an opportunity to gain computing experience. This second course could be PSYC 480 or PSYC 481 if this Independent Study requires independent, original application of the student’s computing skills such as computer simulation of cognitive processes, or experience with computationally complex neuroscience techniques, such as brain imaging and mapping, or physiological data collection and analysis.

Behavioral Neuroscience Major Course Requirements

Behavioral Neuroscience Prerequisite or Co-Requisite Knowledge (10)

Behavioral Neuroscience Major Course Requirements

Major must complete courses as specified in each of the following areas. These hours do not contribute to the minimum number of hours required for the major.
Orientation Seminar in Psychology. Satisfied by:
PSYC 102 Orientation Seminar in Psychology 1
General Psychology. Satisfied by:
PSYC 104 General Psychology 3
or PSYC 105 General Psychology, Honors
College Algebra or Pre-Calculus. Satisfied by:
MATH 101 College Algebra (or equivalent) 3
or MATH 104 Precalculus Mathematics
Introductory Biology Course. Satisfied by
BIOL 100 Principles of Biology 3
or BIOL 150 Principles of Molecular and Cellular Biology

Behavioral Neuroscience Core Knowledge and Skills (28)
Majors must complete coursework in each of the following 4 areas:
Behavioral Neuroscience Courses (6 hours minimum). Satisfied by one of the following:
PSYC 370 Behavioral Neuroscience
or PSYC 371 Behavior Neuroscience, Honors
PSYC 375 Cognitive Neuroscience
PSYC 380 Clinical Neuroscience
or PSYC 381 Clinical Neuroscience, Honors
Laboratory Courses (9 hours minimum). Satisfied by the following:
PSYC 200 Research Methods in Psychology 3
or PSYC 201 Research Methods in Psychology, Honors
PSYC 625 Experimental Psychology: Methods in Neuropsychology and Psychophysiology 6
Quantitative Courses (9 hours minimum). Satisfied by one of the following:
PSYC 210 Statistics in Psychological Research
or PSYC 211 Statistics in Psychological Research, Honors
PSYC 500 Intermediate Statistics in Psychological Research
PSYC 650 Anova and Other Factorial Designs
PSYC 679 Applied Nonparametric Statistical Methods
PSYC 687 Factor Analysis
PSYC 692 Test Theory
PSYC 693 Multivariate Analysis
PSYC 694 Multilevel Modeling I
PSYC 695 Categorical Data Analysis
PSYC 696 Structural Equation Modeling I
Applied Research Experience (4 hours minimum). Satisfied by one of the following:
PSYC 449 Laboratory/Field Work in Human Biology
PSYC 460 Honors in Psychology
PSYC 480 Independent Study
PSYC 481 Research Practicum

Elective Courses in Psychology or Other Disciplines (12)
Majors must complete 12 hours minimum (other electives may be accepted with permission of the B.S. director) Satisfied by:
PSYC 418 Introduction to Cognitive Science
or PSYC 318 Cognitive Psychology
PSYC 432 Human Behavioral Genetics
PSYC 482 Sensation and Perception
PSYC 535 Developmental Psychopathology
PSYC 555 Evolutionary Psychology
PSYC 605 Health Psychology
PSYC 630 Clinical Psychology
PSYC 644 Behavioral Pharmacology
PSYC 646 Mental Health and Aging
PSYC 678 Drugs and Behavior
PSYC 691 The Psychology of Aging
LING 438 Neurolinguistics I
SPLH 320 The Communicating Brain: The Ultimate Personal Computer

Behavioral Neuroscience Major Hours & GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:
Major Hours
Satisfied by 40 hours of major courses.
Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.
Major Junior/Senior Hours
Satisfied by 28 hours of junior/senior level major coursework.
Major Junior/Senior (300+) Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Departmental Honors
Students may inquire about departmental honors as soon as they are admitted to the undergraduate major. The department website (http://psych.ku.edu) has details. Participation usually begins in the senior year. A 3.25 grade-point average overall and a 3.5 grade-point average in psychology courses are required. Students follow individualized courses of study arranged through the director. Students who complete PSYC 460, individual research, and a paper under the direction of an instructor may graduate with departmental honors.

Minor in Psychology
Why study psychology?
Because the understanding of mind, behavior, and the human experience is best achieved through the rigorous application of the scientific method.

Requirements for the Minor
Students selecting this minor must complete each of the following:
General Psychology (3)
Satisfied by:
PSYC 104 General Psychology 3
or PSYC 105 General Psychology, Honors
Psychology Required Electives - Choice Electives (6)
Satisfied by 2 courses chosen from:
PSYC 318 Cognitive Psychology
or PSYC 319 Cognitive Psychology, Honors
PSYC 333 Child Development
or PSYC 334 Child Development, Honors
PSYC 350 Abnormal Psychology
or PSYC 351  Abnormal Psychology, Honors
PSYC 360  Social Psychology
or PSYC 361  Social Psychology, Honors
PSYC 370  Behavioral Neuroscience
or PSYC 371  Behavior Neuroscience, Honors
PSYC 375  Cognitive Neuroscience
PSYC 380  Clinical Neuroscience
or PSYC 381  Clinical Neuroscience, Honors

Psychology Minor Remaining Electives (9)
The remaining elective courses may include any undergraduate courses offered by the Department of Psychology including:

PSYC 480  Independent Study
PSYC 481  Research Practicum
PSYC 483  Undergraduate Internship in Psychology

A maximum of 3 hours of PSYC 480 or PSYC 481 or PSYC 483, or any combination of these 3 courses totaling 3 hours may count toward the minor.

Psychology Minor Hours & Minor GPA
While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

Minor Hours
Satisfied by 18 hours of minor courses.

Minor Hours in Residence
Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

Minor Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Social and Behavioral Sciences Methodology
Why study psychology?
Because the understanding of mind, behavior, and the human experience is best achieved through the rigorous application of the scientific method.

Requirements for the Social and Behavioral Sciences Methodology Minor
Social and Behavioral Science Methodology Minor Course Requirements
Students selecting this minor must complete each of the following:

Prerequisite Knowledge for Minor
Satisfied by a course in elementary statistics with a B- or better grade (e.g., COMS 356; MATH 365, MATH 526; POLS 306; PSYC 210; PUAD 332; SOC 510). This prerequisite does not count towards the SBSM minor hours.

Minor Course Requirements (17-19)
Statistical Methods in Behavioral and Social Science Research I.
Satisfied by:
PSYC 650  Statistical Methods in Behavioral and Social Science Research I (or equivalent)
Guided Research. Satisfied by a minimum of 3 hours of the following:
PSYC 480  Independent Study
or PSYC 481  Research Practicum
Specialized Methodology. Satisfied by a minimum of two courses from the following. The specific courses to be taken should be determined based on a student’s research needs and overall career objectives.
PSYC 651  Anova and Other Factorial Designs
PSYC 687  Factor Analysis
PSYC 692  Test Theory
PSYC 693  Multivariate Analysis
PSYC 694  Multilevel Modeling I
PSYC 695  Categorical Data Analysis
PSYC 696  Structural Equation Modeling I
PSYC 697  Longitudinal Data Analysis
Minor Electives. Satisfied by additional graduate-level courses or guided research experience as needed to bring total hours completed to the minimum of 18 hours required for the minor. Options include:
PSYC 480  Independent Study
PSYC 481  Research Practicum
PSYC 483  Undergraduate Internship in Psychology
PSYC 651  Anova and Other Factorial Designs
PSYC 687  Factor Analysis
PSYC 692  Test Theory
PSYC 694  Multilevel Modeling I
PSYC 695  Categorical Data Analysis
PSYC 696  Structural Equation Modeling I
PSYC 697  Longitudinal Data Analysis

Social and Behavioral Methods Minor Hours & Minor GPA
While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

Minor Hours
Satisfied by 18 hours of minor courses.

Minor Junior/Senior (300+) Hours in Residence
Satisfied by a minimum of 9 hours of KU resident credit in the minor.

Minor Junior/Senior (300+) Hours
Satisfied by a minimum of 18 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in Psychology

Why study psychology?
Because the understanding of mind, behavior, and the human experience is best achieved through the rigorous application of the scientific method.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Students enter the department with the expectation of earning the Ph.D. The department does not admit students seeking the terminal master’s degree.

Applicants must have earned either the bachelor’s degree or the master’s degree. Although most applicants have majored in psychology as undergraduates, this is not required. It is necessary, however, to have earned 15 credit hours in psychology, including a first course in statistics and a course in experimental psychology or psychological research methods. Admission is competitive. The Graduate Record Examination is required. The GRE subject test is preferred but not required. Prior research and relevant work experience, honors, awards, and other achievements are taken into account. The deadline for completed applications is December 1 for the following fall semester.

Submit your graduate application online (http://www.graduate.ku.edu). Have official transcripts sent to the Graduate Application Processing Center.

Send all other requested application materials to the department:

The University of Kansas
Department of Psychology
Graduate Officer

M.A. Degree Requirements

Within 2 years of first enrollment in the Ph.D. program, the student must earn at least 30 graduate credit hours, no more than 6 of which may be in courses offered by other departments. The student must complete an acceptable thesis based on an empirical study and pass an oral examination. The oral examination may cover the thesis as well as more general material. Courses required for the M.A. degree are determined in consultation with faculty of the program in which the student is enrolled as part of the process of development of an individualized program. No more than 6 thesis hours may be applied to the 30 hours required for the M.A.

Doctor of Philosophy in Psychology

Why study psychology?
Because the understanding of mind, behavior, and the human experience is best achieved through the rigorous application of the scientific method.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Students enter the department with the expectation of earning the Ph.D. The department does not admit students seeking the terminal master’s degree.

Applicants must have earned either the bachelor’s degree or the master’s degree. Although most applicants have majored in psychology as undergraduates, this is not required. It is necessary, however, to have earned 15 credit hours in psychology, including a first course in statistics and a course in experimental psychology or psychological research methods. Admission is competitive. The Graduate Record Examination is required. The GRE subject test is preferred but not required. Prior research and relevant work experience, honors, awards, and other achievements are taken into account. The deadline for completed applications is December 1 for the following fall semester.

Submit your graduate application online (http://www.graduate.ku.edu). Have official transcripts sent to the Graduate Application Processing Center.

Send all other requested application materials to the department:

The University of Kansas
Dual-title Ph.D. Program in Psychology and Gerontology

KU is implementing a dual-title Ph.D. option in Psychology and Gerontology. The dual-title degree will enable students at KU to meet the challenge of undertaking graduate education in the emerging, interdisciplinary field of gerontology that is combined with training in established, traditional disciplines. Interested students apply and are admitted to the psychology Ph.D. program. After completing an M.A. in psychology, they may apply to undertake the dual-title option. The student’s diploma will carry the name of both fields.

This option is designed to appeal to students who are strong in a traditional discipline but also motivated to study across disciplinary lines. In the course of study, students can avail themselves of disciplinary depth and interdisciplinary breadth.

Ph.D. Degree Requirements

Although graduate education is offered through separate programs, each student prepares an individualized plan of study in consultation with faculty members. These plans indicate how the student proposes to fulfill the requirements for the M.A. and Ph.D. degrees, including all general requirements and conditions.

Note: Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

Social Psychology

Monica Biernat, Social Psychology Program Director

The social psychology (http://psych.ku.edu/social) program is an intensive research training experience seeking students who are committed to empirical, scholarly work. The major research interests of faculty members are stereotyping, prejudice, intergroup relations, person perception, close relationships, emotion and motivation, self and identity, culture.

In addition to course work, the central requirement of the program is continuous involvement in research. Research opportunities range from laboratory experimentation to field research. Depending on backgrounds and goals, students may move from one research setting to another or concentrate on a particular type of research throughout their training.

Requirements

Students are guided by individually tailored plans called contracts. These describe sequences of learning experiences developed by the student and a 3-member faculty committee. Beginning students are urged to enroll in basic courses in theory and research in social psychology and statistics. The contract specifies students’ long-range goals, specialties, other fields of psychology or related disciplines in which they will become proficient, proposed sequence of course work, research and teaching experiences they hope to obtain, plans for the M.A. proposal, comprehensive requirements and dissertation landmarks, and an approximate timetable. Contract details can be changed by agreement of the student and faculty committee.

The contract is a general framework that permits students’ graduate work to be adapted to their interests and abilities and provides a standard against which progress can be assessed. Students’ contracts must specify how the research skills and responsible scholarship requirement is to be met. The research skills requirement typically is met by completion of 6 graduate courses in statistics and research design. The responsible scholarship requirement is met via coursework as specified in the contract, completion of online tutorials, and attendance at ethics seminars. All contracts must comply with other departmental and general rules including residence and time limits.

Cognitive Psychology

Paul Atchley, Cognitive Psychology Program Director

The cognitive psychology (http://psych.ku.edu/cognitive) program seeks students with the intellectual potential, motivation, and quantitative aptitude to engage in productive scholarship in a basic or applied area of interest.

Interdisciplinary training is also available in

- Cognitive neuroscience
- Developmental science
- Aging and cognition
- Child language
- Quantitative methods

The training program emphasizes the development of a broad-based foundation in theory, research methods, technical skills, and quantitative analysis for application in a variety of basic and applied research settings. Areas of focus of current faculty members include memory, cognitive development, language, perception, attention, aging, and cognition.

Recent graduates have found employment in academic programs, research organizations, and applied research units in industry and government. The rate of employment for graduates is high. General program requirements are listed below. Applicants are encouraged to consult the department’s website (http://psych.ku.edu) for details.

The admission process includes evaluation of submitted materials and may include additional interviews by individual faculty members, as appropriate. The program follows a mentorship model: students are admitted to work with specific faculty members rather than to the program at large. During the application process, applicants are encouraged to contact faculty members with whom they are interested in working.

General Program Requirements

(with recommended completion time)

- Research activity (continuous)
- Course requirements (before oral comprehensive examinations)
- Master’s thesis and oral defense (year 2 or 3)
- Written preliminary examination (year 3 or 4)
- Research skills and responsible scholarship requirement (year 3 or 4)
- Comprehensive oral examination (year 4 or 5)

</table>

Breadth/depth courses may come from a number of sources, depending on student interests and advisor suggestions. Students are expected to use this requirement to gain additional specialization in 2 areas in addition to cognitive psychology. Examples include Quantitative (courses in psychology and PRE), Language (courses in linguistics or speech-language-hearing), Neuroscience (courses in psychology, biology, or pharmacology), Philosophy, or Computer Science. These courses also can be used to help meet research skills and responsible scholarship requirements with breadth goals set out by the advisor.

Quantitative Psychology

**Carol Woods, Interim Quantitative Psychology Program Director**

The quantitative psychology (http://www.quant.ku.edu/main/Main_Page) program provides a unique doctoral training experience. Graduate students are trained as quantitative specialists who can interface quantitative methods with substantive issues across the behavioral and social sciences. Students develop a substantial background in quantitative methods. Some students pursue more depth in quantitative content areas, and some pursue complementary expertise in a nonquantitative content area (e.g., clinical, cognitive, developmental, health, social). The exact nature of a student’s nonquantitative focus depends on the interests and goals of the student and the faculty mentor. Current methodological interests include psychometric methods, item response theory, structural equation modeling, multivariate statistics, multilevel modeling, differential equation modeling and dynamical systems, nonparametric statistics, and other topics in quantitative methods as applied in the behavioral and social sciences.

Recent graduates are employed in academic programs, basic research units in academic and organizational settings, applied research, and freelance consultation. Nearly all graduates proceed directly to full-time employment. About half the positions are academic, nearly all in upper-tier universities with graduate programs. Quantitative specialists have substantial technical expertise that provides an advantage in the job market. They often earn higher starting salaries and have access to additional income-enhancing activities such as grants and departmental consulting.

The program requires a total of 58 nonthesis hours (15 courses). Requirements are as follows:

**Quantitative Training**

**Quantitative Foundations (4)**

Quantitative foundations is 1 semester of basic psychological statistics, offered yearly:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 790 Statistical Methods in Psychology I</td>
<td>4</td>
</tr>
</tbody>
</table>

**Area-Specific Methodology (3)**

(1 course, 3 hours minimum). e.g.:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 815 Design and Analysis for Developmental Research</td>
<td>3</td>
</tr>
</tbody>
</table>

**Quantitative Core (27)**

(7 courses, 27 hours minimum). The quantitative core is a more intense series of courses in fundamental quantitative areas, currently including (other courses may be substituted with the director’s consent):

<table>

**Quantitative Concentration (9)**

(3 courses, 9 hours minimum). The quantitative concentration focuses on a range of specialized applications, currently including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 990 Methods for Clustering and Classification</td>
<td>9</td>
</tr>
<tr>
<td>PSYC 991 Longitudinal Data Analysis</td>

<td></td>
</tr>
<tr>
<td>PSYC 996 Structural Equation Modeling II</td>
<td></td>
</tr>
</tbody>
</table>

Advanced courses offered in other departments or schools also may be taken with the director’s consent.

**Proseminar in Quantitative Behavioral and Social Sciences (6)**

(6 semesters, 1 hour a semester, 6 hours minimum)

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 881 Proseminar in Quantitative Behavioral and Social Sciences</td>
<td>6</td>
</tr>
</tbody>
</table>

The quantitative proseminar is an ongoing discussion series covering advanced topics and emerging issues.
Courses will be added to these offerings. In addition, students complete at least 1 semester of a research methodology course. Methodology courses associated with the different substantive foci are available.

**Minor Concentration (9)**

(3 courses, 9 hours minimum, e.g., Cognitive Psychology, Developmental Psychology, Health Psychology, Social Psychology, Education, Mathematical Statistics). The minor concentration is fulfilled by taking 3 or more courses in a specialized area, education (e.g., testing, evaluation), mathematical statistics, or a tailored curriculum that meets the goals and objectives of the student (e.g., business).

**General Requirements**

**Research Skills and Responsible Scholarship**

- Because the quantitative training track is all about research methods and statistics, the research skills requirement is met by completion of the core requirements in statistics and research design. The responsible scholarship requirement is additionally met via attendance at ethics proseminar presentations offered each semester, and through direct mentoring with the faculty advisor.
- M.A. thesis (1-9 hours plus public defense, typically completed by the end of the second year of training, 3-person committee).
- Comprehensive oral examinations (review paper, dissertation proposal, elaborate project, or written examination plus public defense, typically completed during the fourth year of training, 5-person committee with 1 outside member).
- Dissertation (1-12 hours plus public defense, 5-person committee with 1 outside member).

**Additional Graduate Experiences**

Quantitative psychology students have opportunities for experience in teaching, statistical consulting, and data analysis through employment in various settings. Students also are expected to participate and assist with our regular summer training institutes on advanced quantitative techniques. Opportunities may include teaching undergraduate statistics in psychology, research assistantships in quantitative projects, assisting in research at an institute such as the Institute for Life Span Studies (http://www.lsi.ku.edu), or working in the Center for Research Methods and Data Analysis (http://www.crmda.ku.edu/main/Main_Page). Students have access to quantitative workshops and brown-bag lunches offered regularly by the quantitative training program. Workshops are conducted by national leaders in quantitative methods. Special resources for attending national workshops and conventions are also available.

**Quantitative Minor**

A minor in quantitative psychology is offered for graduate students in any of the department’s major programs and for select programs in the College of Liberal Arts and Sciences (e.g., sociology). The quantitative minor is an addition to the regular program and does not replace any existing or future requirements of the student’s major program. Students desiring a major emphasis in quantitative psychology should apply directly to the quantitative psychology program.

The minor consists of advanced course work in statistics, measurement, and methodology. The quantitative minor provides the student with elevated levels of quantitative expertise to enhance the overall quality of the research program. It gives students a competitive edge in the job market. Many faculty positions now request expertise in both a specific content area and in quantitative methods. Advanced quantitative skills also offer students additional job opportunities. The quantitative minor provides the additional credentials needed to pursue these jobs.

The minor requires 5 courses in quantitative methodology beyond the basic foundations course requirement (PSYC 790). The classes are normally taken in the department but can come from other departments with approval. Currently available courses include Analysis of Variance, Categorical Methods, Nonparametric Statistics, Multivariate Methods, Multilevel Modeling I, Structural Equation Modeling I and II, Test Theory, Factor Analysis, and regularly offered Advanced Topics in Quantitative Psychology seminars with varying topics.

For more information, contact Carol Woods, cmw@ku.edu.

**Developmental Psychology**

Andrea Greenhoot, Developmental Psychology Program Director

Training in developmental psychology (http://psych.ku.edu/developmental_psychology) is interdisciplinary and collaborative. The developmental emphasis profits significantly from affiliated faculty in other academic units such as Speech-Language-Hearing: Sciences and Disorders, the School of Education, and doctoral programs in Clinical Child Psychology, Child Language, Gerontology, and Neurosciences. The developmental emphasis is substantively linked to the Schiefelbusch Institute for Life Span Studies, the Kansas Intellectual and Developmental Disabilities Research Center, and the Center for Biobehavioral Neurosciences in Communication Disorders. Many of the developmental psychology faculty have affiliations with more than one entity on campus. This breadth offers students multidisciplinary exposure and experiences that train them to conduct cutting-edge research on developmental phenomena across the life span. The program includes a number of concentrations, including cognitive, social, evolutionary, language, and quantitative. Students work with a faculty mentor to customize a concentration that suits the needs of the student and the expertise of the available faculty. The program is appropriate for students who wish to be trained in the traditional divisions of psychology (e.g., cognitive-developmental, social-developmental, quantitative-developmental) as well as those whose interests may not fall squarely within traditional divisions.

**Curriculum**

The curriculum involves 35 hours of formal developmental courses in addition to master’s, research skills and responsible scholarship, and dissertation research hours. Students are expected to enroll in a biweekly Proseminar on Developmental Science (6 semesters minimum). The program allows students to pursue their developmental research interests and accumulate academic credentials that give access to the job market of their choice. Formal course requirements are as follows:

**Statistics, Design, and Professional Issues (13 hours, minimum)**

<table>

</tbody>
</table>
**Concentration (9 hours, minimum)**

The concentration builds expertise in an area chosen by the student in conjunction with the faculty advisor. Courses offered outside the department may count toward the concentration. The concentration can be either very focused or a uniquely tailored hybrid of courses. Some examples of concentrations that students may create are listed below. Many related courses may be substituted for the same general theme of the concentration and students can create a concentration that fits with their interests and educational objectives. Possible concentrations include:

**General Cognitive Development**
- PSYC 723 Advanced Cognitive Psychology 3
- PSYC 800 Experimental Psychology: _____ (Cognition and Aging) 3
- PSYC 872 Attention, Perception, and Learning in Infancy 3

**Social-Personality Development**
- PSYC 777 Social Psychology: Theory, Research, and Clinical Applications 3
- PSYC 962 Advanced Personality 3

**Quantitative Developmental Methods**
- PSYC 896 Structural Equation Modeling I 4
- PSYC 996 Structural Equation Modeling II 3
- PSYC 893 Multivariate Analysis 4

**Developmental Evolutionary Psychology**
- PSYC 993 Seminar: _____ (Developmental Evolutionary Psychology) 1-5
- BIOL 625 Behavioral Ecology and Sociobiology 3
- BIOL 668 Evolutionary Ecology 3

**Developmental Cognitive Neuroscience**
- PSYC 725 Cognitive Neuroscience 3
- PSYC 800 Experimental Psychology: _____ (Neuroscience Methods) 3
- PSYC 800 Experimental Psychology: _____ (Developmental Cognitive Neuroscience) 3

**Language Development**
- PSYC 735 Psycholinguistics I 3
- PSYC 993 Seminar: _____ (Research Methods in Language Development) 1-5
- SPLH 816 Language Development 3

**Developmental Research Skills and Responsible Scholarship (8 hours, minimum)**

The RSRS requirement generally is satisfied by taking 2 additional quantitative courses and PSYC 982 PSYC 982 PSYC 982 PSYC 982 PSYC 982 Issues in Scientific Conduct. Satisfying the RSRS requirement in this way also lends itself to the completion of a graduate minor in quantitative psychology (6 quantitative courses total are required for the minor). For more information, contact Andrea Greenhoot, agreenhoot@ku.edu

**Clinical Psychology**

Rick Ingram, Director of Clinical Training

The clinical psychology (http://psych.ku.edu/clinical) program educates students to master knowledge in the field of scientific psychology so that they can generate new scientific knowledge and theory related to the field of clinical psychology, and can make independent contributions to the evolving base of skills and scientific knowledge required for clinical practice. All students take basic course work and practica in academic/research and clinical application. Students may take electives or practica to augment either aspect of training. About half the graduates pursue academic/research-oriented careers, and the rest undertake careers emphasizing applied activities (e.g., psychotherapy in community mental health centers or hospitals). Information is available from the graduate admission secretary or online (http://psych.ku.edu/clinical).

**Health and Rehabilitation Specialty**

Work centers on the psychosocial and biomedical aspects of physical health, illness, and disability. Students apply the knowledge and techniques to problems of prevention, assessment, treatment, and rehabilitation. A detailed overview is available from the graduate admission secretary or online (http://psych.ku.edu/clinical).

**Requirements**

Individual plans of study are designed to meet the standards established by state licensing boards and professional organizations. Individualization is achieved by selecting among alternate ways of meeting specific requirements and by selected electives or choosing the health and rehabilitation emphasis. The plan of study constitutes an agreement between the student and the entire clinical faculty. Program requirements:

**General Core Requirements for Clinical Psychology (13-17 credit hours)**

**Quantitative Analysis of Behavior (6-7)**
- PSYC 789 Psychological Statistics: Foundations and Applications 3
- or PSYC 790 Statistical Methods in Psychology I

Select 1 of the following: 3-4
- PSYC 791 Statistical Methods in Psychology II
- PSYC 795 Computing and Psychology
- PRE 811 Analysis of Variance
- PSYC 879 Applied Nonparametric Statistical Methods
- PSYC 887 Factor Analysis
- PSYC 892 Test Theory
- PSYC 893 Multivariate Analysis
- PSYC 894 Multilevel Modeling
- PSYC 895 Categorical Data Analysis
Note: Because this is an American Psychological Association-approved clinical program, the faculty expect all students to operate within the APA Code of Ethics in professional and personal behavior. Adherence to the ethical principles is part of the normal evaluation of students during the degree program.
should be completed by the end of the second year and written in a form suitable for journal submission.

Electives/Independent Study (6 credit hours, minimum)

Because a minimum of 86 hours of graduate credit is required for the degree, the hours not included in the requirements above may be elective courses selected by the student and his or her advisor.

Examinations: Task

Each student must propose and demonstrate competence in one task or project. This task typically is done in the third year. It may be in applied/clinical, research/methodology, or program evaluation. A complete description is available from the clinic office or online (http://psych.ku.edu/clinical).

Upon completion of all degree requirements except the dissertation and internship, the student must pass the oral comprehensive examination. This examination addresses a proposal for the dissertation as well as related, general questions in the field. It should be taken before completion of 4 calendar years for students entering with the B.A. and 3 years for students entering with the M.A. The faculty believes that the student is best served by completing the entire dissertation before the internship.

Internship (3 hours)

Students must complete a 12-month predoctoral internship at a setting approved by the Clinical Psychology faculty. Clinical students may complete their internships at any setting approved by the American Psychology Association.

School of Public Affairs and Administration

Why study public affairs and administration?

The School of Public Affairs and Administration develops skilled leaders, innovators and problem solvers who are ready to confront pressing social and economic challenges at the local, state and national levels. Our graduates become public management practitioners who exemplify a deep commitment to ethical and professional public service administration within a wide variety of public and nonprofit sector professions.

The School of Public Affairs and Administration

The School of Public Affairs and Administration is ranked among the top five programs in the nation in public management administration by U.S. News and World Report.

Founded in 1948, and ranked top program in the nation in city management and urban policy since 1998, the M.P.A. program in city management and urban policy prepares students to assume management and leadership roles in local government. The School also provides a career track for working professionals who want to earn their MPA without a career interruption.

The Public Management Center (PMC), also under SPAA, offers educational programs to meet the leadership training needs for public service professionals. The PMC is the only agency in the state of Kansas that can teach the nationally-accredited Kansas Certified Public Manager® program.

Mission

The mission of the School of Public Affairs & Administration of the University of Kansas is to educate exceptional public professionals and generate thought leadership that provides solutions to the most pressing global and community challenges by advancing the public good, democratic values, and ethical public management practices.

Undergraduate Programs

A bachelor’s degree in public administration provides undergraduate students with the knowledge and skills needed for planning, implementing and evaluating public programs. As students learn to think critically and analytically about public policy, they will better understand the dynamics in their own communities and how to be more effective citizens and public officials.

Graduates of the program will be ready to work in settings like local and state government, nonprofit organizations and private sector businesses.

Graduate Programs

The department offers an M.P.A. degree and a Ph.D. degree. The M.P.A. offers two tracks.

- The Intern track M.P.A. is designed for students who have little or no public administration experience and are willing to commit to one year of full-time study and a second year in a full-time internship to prepare themselves for careers in city or county management.
- The Career track M.P.A. is designed for working professionals seeking to strengthen their leadership skills for careers in public service professions or advance in their current profession without a career interruption.
- The Ph.D. degree is designed primarily for students anticipating careers in research and teaching.

Courses

PUAD 177. First Year Seminar: _____. 3 Hours. SF GE11.
A limited-enrollment, seminar course for first-time freshmen, organized around current issues in public administration. May not contribute to major requirements in public administration. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

PUAD 330. Introduction to Public Administration. 3 Hours. S.
Introduction to administration, public policy and policy makings is the study of government workers, the organizations in which they work, how they are financed, and how government engages citizens to help form and maintain community. In various ways, the class sessions explore the three important issues of public administration: discretion, authority, and accountability. (Same as POLS 330.) Prerequisite: POLS 110. LEC.

PUAD 331. Introduction to Public Administration, Honors. 3 Hours. S.
Introduction to administration, public policy, and policy making, for honors students is the study of government workers, the organizations in which they work, how they are financed, and how government engages citizens to help form and maintain community. In various ways, the class sessions explore the three important issues of public administration: discretion,
authority, and accountability. (Same as POLS 331.) Prerequisite: POLS 110. LEC.

**PUAD 332. Quantitative Methods for Public Administration. 3 Hours. S.**
Focuses on building the quantitative analysis skills of students in public administration. Students learn basic and intermediate statistics, and methods of data analysis and interpretation. Students gain exposure to the uses of data in public organizational settings. Prerequisite: Math 101 or equivalent placement. LEC.

**PUAD 333. Hard Choices in Public Administration: ____. 3 Hours. S.**
Focuses on some of America’s most vexing public policy challenges and emphasizes the political context of difficult choices. Course examines models of decision-making and the process of policy analysis. Students learn how to apply the tools of policy analysis to make policy judgments. Prerequisite: PUAD 330 or PUAD 331. LEC.

**PUAD 431. Bureaucracy, Public Administration, and the Private Sector. 3 Hours. S.**
Examines the problems posed by behaviors within and by bureaucracies. Provides students with a set of conceptual tools for understanding the organizational environment in which policy analysts ply their profession and the role of a manager within such organizations. Offers strategies for the policy professional seeking to navigate large bureaucracies. Readings and class discussions integrate theoretical analyses of organizations with detailed case studies. Prerequisite: PUAD 330 or PUAD 331. LEC.

**PUAD 432. Conducting the People’s Business Ethically. 3 Hours. AE51 / S.**
Addresses the moral challenges facing leaders in the public and nonprofit sectors. Examines the values and virtues important to sustained ethical leadership, as well as strategies to build strong institutional cultures and support ethical practices in institutions. Considers moral and political theory by focusing on contemporary cases and issues. Students learn how to identify moral issues in public life and public management. There is a special focus on the integration of moral concerns into public discussion in a manner that contributes to good policy and does not polarize issues. This course considers moral and political theory by focusing on contemporary cases and issues. Prerequisite: PUAD 330 or PUAD 331. LEC.

**PUAD 433. Metropolitics and Macroproblems: The American City in Local and Global Context. 3 Hours. S.**
An interdisciplinary study of American cities, focusing on the rapidly changing demographic, physical, political, social, and economic changes. Sunbelt cities, edge cities, the rustbelt cities, planned and unplanned suburban communities, as well as declining center cities and newly revitalized downtowns are considered. The role of immigration and migration in reshaping the urban environment, and the effects of globalization are also examined. Prerequisite: PUAD 330 or PUAD 331. LEC.

**PUAD 435. Generating, Allocating and Managing Public Resources. 3 Hours. U.**
This course is devoted to topics in public budgeting, finance and financial management. These activities play a central role in public management. The intent of this course is to understand the role these activities play in local, state, and federal governments and to see how policy and management are shaped and influenced by budgets, financial reports, and tax policy. Prerequisite: PUAD 330 or PUAD 331. LEC.

**PUAD 436. Managing People in Public Organizations. 3 Hours. U.**
Effective human resources management is one of the key goals of organizations in both the public and private sectors. This course focuses on human resources management in a public sector context with particular emphasis placed upon past, current, and future challenges in the field. The course covers topics such as the recruitment, selection, and compensation of public sector employees, as well as more contemporary issues such as diversity management and public sector personnel reform. Prerequisite: PUAD 330 or PUAD 331. LEC.

**PUAD 494. Topics in Public Administration: ____. 3 Hours. S.**
An introductory study of selected topics in public affairs and administration. Course may be repeated for credit if content varies. Course may be offered in lecture or online format. Prerequisite: PUAD 330 or PUAD 331. LEC.

**PUAD 601. Crime and Punishment. 3 Hours. S.**
Examines the administration of justice and focuses on differential and discriminatory treatment in policing, criminal prosecutions, trials, sentencing, or imprisonment. Also considered are the basis and impact of racial profiling, harassment, arbitrary detention, and abusive treatment of members of racial and ethnic groups, immigrants, and/or other vulnerable groups by law enforcement, and disparate treatment by prosecutors and the courts. Prerequisite: PUAD 330 or PUAD 331. LEC.

**PUAD 602. Diversity in Public Administration. 3 Hours. AE41 / S.**
Analyzes diversity and leadership in public and private institutions along ethnic, racial, and gender lines and the challenges of the facilitation of open dialogue on diversity. Examines the political, historical, social, and economic reasons why Americans of different ethnic, racial, and gender groups hold divergent views about major public policy areas, as well as fundamental views about democratic participation. Prerequisite: PUAD 330 or PUAD 331. LEC.

**PUAD 603. Foundations of the Nonprofit Sector. 3 Hours. H/S.**
This course provides an overview of the U.S. nonprofit sector, its history, scope, diversity and its positioning among and between the private and public sectors of the U.S. economy. The course explores the legal framework under which nonprofit organizations operate and are regulated. Economic, political, social, organizational and giving theories of the sector are reviewed in order to understand the sectors existence, roles and activities with particular attention to philanthropy and voluntarism. Distinct contributions to society as well as contemporary challenges faced by the sector are examined. Prerequisite: PUAD 330, or POLS 110, or MGMT 305, or a PUAD master's core course, or consent of instructor. Junior status or above is also required. LEC.

**PUAD 604. Resource Development and Management in Nonprofit Organizations. 3 Hours. H.**
This course provides an overview of the broad range of activities relevant to acquisition, management and utilization of resources in nonprofit organizations. The course identifies the primary strategies through which resources are generated with emphases on grantwriting, fundraising, social entrepreneurship, and public/private partnerships. Development of organizational identity and management of public relations is examined in relation to resource and relationship development. Strategies for management of resources to ensure long-term benefit and sustainability are explored. Prerequisite: PUAD 603. LEC.

**PUAD 605. Managing Nonprofit Relationships. 3 Hours. H.**
This course considers the set of relationships that nonprofit leaders must balance within the organization and beyond organizational boundaries. Both internal relationships (with staff, volunteers, and board members) and external relationships (with stakeholders, other organizations, and the community at large) are critical to mission accomplishment. This course provides students with the resources necessary to understand the challenges and opportunities related to building and LEC.
PUAD 606. Nonprofit Accountability: Public Needs and Public Values. 3 Hours. H.
This course examines the role of the nonprofit sector in society by posing broad questions about why nonprofit organizations are held accountable, to whom they are accountable, and detailing how organizations can satisfy accountability demands. The course investigates the public role of the nonprofit sector in society, identifies the stakeholders that are integral to an organization’s mission, and describes and critiques the financial and evaluation tools that nonprofits can use to ensure their social viability. Prerequisite: PUAD 603. LEC.

PUAD 639. Concepts of Civil Society. 3 Hours. U.
Concepts of community, social capital, and civil capacity building, and their relations to effective community functioning, democratic politics, and administrative expertise. LEC.

PUAD 641. Public Service Leadership. 3 Hours. U.
Concepts of leadership in community, political, and administrative settings. These settings include government and all non-business organizations (e.g., certain for-profit organizations). LEC.

PUAD 660. Organizations and Management I. 3 Hours. U.
An exploration of management in the context of public organizations. Management is explored at the individual, group and organizational level including conflict resolution, problem-solving, planning and legal aspects of organizations. Graded on a satisfactory/unsatisfactory basis. Prerequisite: Permission of instructor. LEC.

PUAD 661. Organizations and Management II. 3 Hours. U.
A continuation of PUAD 660. The context for leading public organizations is explored through knowledge management, collaboration, innovation, process improvement and leadership succession. Graded on a satisfactory/unsatisfactory basis. Prerequisite: PUAD 660, and permission of instructor. LEC.

PUAD 691. Internship in Public Service. 1-6 Hours. U.
Designed to provide public administration students an applied learning experience in either a public or nonprofit organization. Open to majors in Public Administration only. Prerequisite: One of the following: PUAD 330, 331, PUAD 332, PUAD 333, and consent of instructor required. FLD.

PUAD 692. Research Experience in Public Administration. 1-6 Hours. U.
Designed for advanced public administration students. Students learn research skills by working one-on-one with a faculty member to assist in his/her program of research. Open to majors in Public Administration only. Students are required to complete a final project or presentation, through advising and consultation with the designated faculty member. Prerequisite: One of the following: PUAD 330, 331, PUAD 332, PUAD 333 and consent of instructor required. LEC.

PUAD 693. Directed Readings. 1-3 Hours. U.
For advanced undergraduate students who wish to study a specific topic of interest that is not covered in the curriculum. Each student must complete a proposal outlining his or her topic request and submit to the Undergraduate Advisor. Intended for students majoring in Public Administration. Prerequisite: One of the following: PUAD 330, 331, PUAD 332, PUAD 333, and consent of instructor. IND.

PUAD 694. Topics in Public Administration: ______. 3 Hours. U.
Study of selected topics in public administration. Course may be repeated for credit if content varies. Course may be offered in lecture or online format. Prerequisite: PUAD 330 or PUAD 331. LEC.

PUAD 824. Public Policy and Administration. 3 Hours.
An exploration of the ways in which public policy is made in the United States, focusing on the role of the administrator at each stage of the policy process: formulation, implementation, and evaluation. Various theories of policy-making with application to specific areas of public policy will be examined. LEC.

PUAD 825. Public Policy and Urban Administration. 3 Hours.
An exploration of policy development, implementation, and evaluation in the local government context. Various theories of the policy process and their application to municipal government are examined. (Same as POLS 825.) LEC.

PUAD 826. Public Policy and Administration of State Government. 3 Hours.
An examination of political and administrative aspects of state government focusing on legislative and executive branches of government. LEC.

PUAD 827. Health Care Policy and Administration. 3 Hours.
A seminar designed to explore the development of public health policy in the United States. Particular attention will be given to (1) the development of public institutions and policy goals; (2) current policy problems such as expenditure-cost controls, prospective reimbursement, utilization review, access, and public and private investment planning; and (3) administrative problems in the current health care system. (Same as HPM 837.) LEC.

PUAD 828. Nonprofit Management and Policy. 3 Hours.
This course focuses on the economic, social, and legal foundations of the nonprofit sector. Nonprofits are examined in the context of a three-sector economy, with emphasis on the ways in which nonprofits compensate for market failures and government failures. The course examines government-nonprofit relations in the modern welfare and offers an in-depth examination of the health, education, and welfare functions as performed by nonprofits. This course also provides exposure to selected topics in nonprofit management such as grant writing, board relations, advocacy, fundraising and volunteer management. LEC.

PUAD 830. Administrative Ethics. 3 Hours.
A survey of ethical issues faced by public administrators. Special attention will be given to ethical problems arising within hierarchical organizations and to the ethical implications of particular public policies. LEC.

PUAD 831. Public Administration Practicum. 1 Hour.
Exposes students to day-to-day operational facets of public management through workshops, speakers, exercises. LEC.

PUAD 832. Organizational Theory. 3 Hours.
An introductory theory course designed to develop an understanding about organizations, their environments, and the political subsystems in which they exist. LEC.

PUAD 833. Administrative Behavior. 3 Hours.
An examination of individual and group behavior within organizations, focusing on motivation, leadership, conflict and conflict resolution, group dynamics and communication. LEC.

PUAD 834. Human Resource Management. 3 Hours.
This course presents the context and practice of effective human resource management, with emphasis on the political, legal, historical, and ethical dimensions of public employment. This course considers the functions of workforce management, including: 1) planning of work and the allocation of labor to that work, 2) acquisition of employees and their competencies, knowledge, skills, and abilities, 3) development of employees to channel, improve and create new knowledge, skills, and abilities, and 4) maintaining the working relationship between employee and employer. Students will apply workforce management theories and techniques to contemporary organizational challenges and investigate the tensions inherent to balancing competing values (such as: responsiveness/neutrality and efficiency/equity) and meeting conflicting demands of organizational stakeholders and society. LEC.
PUAD 835. State and Local Public Finance. 3 Hours.
Focuses on the tax, spending, and debt practices of state and local governments. Drawing on the tools of positive and normative economic analysis, the course explores the implications of these activities on broader economic outcomes, including private allocation of resources and the distribution of wealth. LEC.

PUAD 836. Introduction to Quantitative Methods. 4 Hours.
Introduces quantitative approaches to examine public management and public policy decisions. Concepts of research design, probability, and inferential statistics are covered. LEC.

PUAD 837. Budgeting and Resource Allocation. 3 Hours.
Examines the practices and the political, economic, and organizational contexts of public and nonprofit budgeting, tools of financial analysis, and ethics of financial management. LEC.

PUAD 838. Urban Service Delivery. 3 Hours.
Focuses on organizational arrangements for the provision of basic urban services and the character of service delivery policies. Methods for evaluating the efficiency and responsiveness of alternative organizational arrangements are treated. LEC.

PUAD 839. Topics in Public Administration: _______. 3 Hours.
Study of selected topics in public administration. LEC.

PUAD 840. Theory of Public Administration. 3 Hours.
Survey of the development of ideas about public administration among public officials and research investigators. Emphasis on basic concepts, research reports, and theoretical treatises on the nature of public administration. LEC.

PUAD 841. The Role, Context, and Ethics of Public Administration in American Society. 3 Hours.
Provides students with an overview of the social context of public administration with an emphasis on political issues, intellectual history, ethics, and the tensions between democracy and bureaucracy. LEC.

PUAD 842. Law and Public Management. 3 Hours.
Course investigates major concepts that make up the legal environment of public administration. The accepted uses and procedures of the field, relationships among courts, agencies, the legislature, and basic legal research are examined. LEC.

PUAD 843. Constitutional Foundations of Public Administration. 3 Hours.
This course provides a grounding in the constitutional premises of public administration including executive, legislative, and judicial powers, and federalism, and those issues associated with the development of economic institutions and processes such as taxation, employment regulation, and commerce controls. LEC.

PUAD 844. Advanced Seminar in State and Local Budgeting. 3 Hours.
This course studies the theories behind selected topics in public budgeting and compares the theories with the actual practice of budgeting in the State of Kansas and its communities. LEC.

PUAD 845. Organizational Analysis and Public Management. 3 Hours.
Explores concepts and practices in organization behavior and management theory as they apply to public organizations. Emphasis is placed on understanding the dynamics of individuals, groups, and teams within organizations, dynamics associated with organizational structures, accountability, and culture and dynamics of risk in leadership, collaboration, and contracting. LEC.

PUAD 846. Kansas and Its Government. 3 Hours.
This course is designed to offer students the opportunity to obtain a comprehensive overview of the culture, history, economy, and geography of Kansas along with the review of state and local government infrastructure. The review of governments will include the financing of governments in Kansas. LEC.

PUAD 847. Legislative Process. 3 Hours.
This course is designed to acquaint students with the workings of the policy process at the level of state government. Its focus will give students an understanding of the political process to enable them to function more effectively in state policy development and implementation. Prerequisite: PUAD 824, PUAD 825, PUAD 826 or PUAD 827. LEC.

PUAD 848. Advanced Management Practices in State Government. 3 Hours.
This course offers the student an opportunity to enhance skills developed in PUAD 826 in an experiential learning environment that simulates actual management practice. Complex cases will be ranked ordered and resolved on a work schedule developed by each work group. Groups will work simultaneously on two or more cases at all times. Prerequisite: PUAD 826. LEC.

PUAD 849. Law, Courts, and Public Policy. 3 Hours.
This course provides an overview of the role of law, litigation, and courts in the public policy process, with an emphasis on bureaucratic institutions. The course covers the main theories and empirical research on the policy effects of litigation and intervention, with a particular focus on civil rights in the areas of employment, policing, welfare, prisons, and environmental policy. (Same as POLS 849.) Prerequisite: Graduate standing or consent of instructor. LEC.

PUAD 850. Intergovernmental Relations. 3 Hours.
This course focuses on the fiscal and administrative relationships among the three levels of government - federal, state, and local - in the United States. A number of topics will be examined, including a history of intergovernmental relations, the political, constitutional, and legal foundations of the intergovernmental system, and intergovernmental fiscal policy. The impact of the intergovernmental system will be assessed from the perspective of specific areas and intergovernmental programs. LEC.

PUAD 851. Infra-Structure Management. 3 Hours.
A survey of land-use, infra-structure, and technology issues in municipalities. LEC.

PUAD 852. Comparative Public Policy and Administration. 3 Hours.
This seminar examines the application of theories in public administration, public management, and public policy in international and comparative contexts. Particular attention is given to how governments and publics are connected by way of intergovernmental strategies, governance, and differing political and administrative arrangements. LEC.

PUAD 853. Policy Analysis and Evaluation. 3 Hours.
This course will introduce students to the conceptual foundations and applied techniques associated with identifying, describing, and seeking solutions to public policy problems (policy analysis) and evaluating the performance of public programs and organizations (program evaluation). Basic microeconomic theory is introduced. LEC.

PUAD 854. Innovation and Organizational Change. 3 Hours.
This course will examine theories of innovation and organizational change as applied to public organizations. Particular emphasis will be placed on the concepts of innovation in bureaucratic organizations, on the process of successful change in organizations, and on leadership and employees' roles. LEC.
PUAD 855. Financial Management for Public and Not-for-Profit Organizations. 3 Hours.
Financial management focuses on the use of financial information for decision making and evaluation. This course will rely on fundamental accounting concepts as they relate to the basic financial statements of government and not-for-profit organizations. Time will also be spent on financial management practices (e.g. cash management, debt management, etc.) and financial condition analysis. Material presented in this course expands on the foundational material covered in PUAD 837. Prerequisite: PUAD 837 or permission from the instructor. LEC.

PUAD 856. Management and Information Technology. 3 Hours.
An introduction to the concepts of information policy and management of technology within governmental organizations. The course covers the effects of technology on government and society as well as information policy (privacy, security and access) and their importance to democracy. The course also includes a leadership perspective on planning, funding, and implementation of technology systems in governmental organizations as well as the role of Chief Information Officer. LEC.

PUAD 857. Performance Management and Governance. 3 Hours.
This course examines the practice and governance challenges of performance management and budgeting in the public sector. Topics covered in this course include: a) the governance context of performance measurement and management; b) the historical and theoretical foundation of performance measurement and management; c) the global trend of performance-oriented reforms; d) the practice and politics of performance measurement and management; and e) governance and ethical issues in managing for results. LEC.

PUAD 858. Performance Audit. 3 Hours.
This course examines the practice of performance audit at the national, state, and local levels. Topics covered in the course include: a) the concept of performance audit and the roles of auditors in performance management; b) performance audit systems and standards at the national, state and local levels; c) performance audit methodologies and techniques; d) the establishment of audit criteria; e) the concept and practice of risk and vulnerability analysis; f) the reporting and communication of performance audit results. LEC.

PUAD 859. Service Management. 3 Hours.
This course provides an introduction to service management in the public sector and will focus on providing students with the conceptual understanding and skills to design, promote, manage, and deliver public services. The course will integrate concepts of service management with quality assurance, business process analysis, and project management. Through this course, students will develop a better understanding of methods for improving responsiveness and accountability to organizational goals and mission. LEC.

PUAD 890. Public Administration Internship. 3 Hours.
A part-time supervised professional work experience designed to provide students with the knowledge, background, and practical experience in public service. A written summary of the experience including a job description, projects the student, and a reflective statement on integrating the internship with theoretical issues regarding public administration. This course brings theory and practice together. Graded on a satisfactory/unsatisfactory basis. LEC.

PUAD 892. Public Administration Internship. 3 Hours.
A part-time supervised professional work experience designed to provide students with the knowledge, background, and practical experience in public service. A written summary of the experience including a job description, projects the student, and a reflective statement on integrating the internship with theoretical issues regarding public administration. This course brings theory and practice together. Graded on a satisfactory/unsatisfactory basis. FLD.

PUAD 893. Directed Readings. 1-3 Hours.
Designed to meet the needs of advanced students whose study in public administration cannot be met with current course work. RSH.

PUAD 894. Professional Development Seminar I. 3 Hours.
Open only to precareer students with internships, this intensive seminar is designed around issues intern confront in their working relationships. Emphasis is placed on the transition of the student from an academic environment to a professional work environment. Class sessions deal with issues affecting the work environment and administrative change. Graded on a satisfactory/unsatisfactory basis. FLD.

PUAD 895. Professional Development Seminar II. 3 Hours.
Continuation of PUAD 894. Graded on a satisfactory/unsatisfactory basis. FLD.

PUAD 897. Service Management. 3 Hours.
This course exposes students to the contemporary issues in public management and analysis of competencies for public management in four theme areas. Students will participate in discussions of issues and in three assessments of their preparation to lead public organizations. Students will complete the MPA Final Essay which focuses on integration of course and work experience in relation to the values theme of the MPA program. Graded on a satisfactory/unsatisfactory basis. LAB.

PUAD 898. Leadership, Professionalism, and Citizen Engagement. 3 Hours.
This course exposes students to the contemporary issues in public management and analysis of competencies for public management in four theme areas. Students will participate in discussions of issues and in three assessments of their preparation to lead public organizations. Students will complete the MPA Final Essay which focuses on integration of course and work experience in relation to the values theme of the MPA program. Graded on a satisfactory/unsatisfactory basis. LAB.

PUAD 900. Seminar in Public Administration. 3 Hours.
This seminar will assist students to develop a thorough competence in both theory and application of multivariate statistical models of the types that are commonly used to study questions of organization and policy in the public sector. These will include inference for the general linear regression model under a wide variety of specifications, as well as a
consideration of path models and systems of simultaneous equations. The principal goal of this course is to strengthen the ability of doctoral students in public administration to work methodologically as independent scholars using relatively advanced designs and technique in their work. SEM.

PUAD 936. Policy Analysis and Program Evaluation. 3 Hours.
This course examines the theoretical foundations and analytical components of policy analysis and program evaluation, common tools for assessing alternative courses of public action and program effectiveness. This examination will include a review and critique of common quantitative and qualitative approaches, including cost-benefit analysis, cost-effectiveness analysis, and quasi-experimental design. LEC.

PUAD 937. Qualitative Methods in Public Administration. 3 Hours.
This course examines the concepts and practices of qualitative research. The focus will be on field research and the collection of "textual data" through observation, interviewing, and documents. The course will also examine the interpretation and analysis of qualitative data and how to present qualitative findings. RSH.

PUAD 939. Topics in Public Administration: ____. 1-3 Hours.
A study of selective topics in public administration. Course may be taken more than once. LEC.

PUAD 943. Constitutional Foundations of Public Administration. 3 Hours.
This course provides grounding in the constitutional premises of public administration including executive, legislative, and judicial powers, and federalism, and those issues associated with the development of economic institutions and processes such as taxation, employment regulation, and commerce controls. LEC.

PUAD 949. Law, Courts, and Public Policy. 3 Hours.
This course provides an in-depth analysis of the role of law, litigation, and courts in the public policy process, with an emphasis on bureaucratic institutions. The course covers the main theories and empirical research on the policy effects of litigation and intervention, with a particular focus on civil rights in the areas of employment, policing, welfare, prisons, and environmental policy. As part of the course requirements, students will conduct original empirical research. LEC.

PUAD 990. Research Practicum in Public Policy and Administration. 3 Hours.
This course will provide students with an opportunity to conduct applied research in a field setting with faculty guidance. May be pursued as an independent study or as a regularly scheduled class with a group of students. Prerequisite: PUAD 934 and PUAD 935. RSH.

PUAD 998. Directed Reading on Public Administration. 1-6 Hours.
Designed to meet the needs of graduate students whose study in public administration cannot be met with present course. Prerequisite: consent of instructor. RSH.

PUAD 999. Dissertation. 1-15 Hours.
Enrollment for writing doctoral dissertations. Graded on a satisfactory/unsatisfactory basis. THE.

Bachelor of Arts and Bachelor of General Studies in Public Administration

Why study public affairs and administration?
Our programs prepare leaders and build professionalism in the public and nonprofit sectors and link KU resources to the challenges of public management. We produce skilled leaders, innovators, and problem-solvers, ready to confront pressing social and economic challenges at the local, state, and national levels.

Since 1998, U.S. News & World Report has ranked the M.P.A. degree program in city management and urban policy first in the nation and the school is ranked fifth in public management.

First-and Second-Year Preparation
KU Edwards Campus
The undergraduate program in public administration is offered in its entirety only at the KU Edwards Campus (http://edwardscampus.ku.edu), 12600 Quivira Rd., Overland Park, KS 66213. This program is designed for students who have earned an associate’s degree or equivalent hours and wish to complete the upper-level courses necessary for a bachelor’s degree.

Public Administration Program
The major accommodates both traditional and nontraditional students. Public administration offers students the necessary knowledge and skills for planning, implementing, and evaluating public programs. Students will be able to work in such settings as local and state government, nonprofit organizations, and private sector businesses.

Students fulfill their first-year and sophomore hours through general education requirements. Students are encouraged, but not required to take POLS 110 as part of their general education hours. Students considering the major should contact the CLAS undergraduate advisor on the Edwards Campus, Dan Mueller, dmueller@ku.edu, 864-8659 (from Lawrence) or 913-897-8659 (outside of Lawrence) for advising on general education requirements. Students are encouraged, but not required to take POLS 110 as part of their general education hours. Students considering the major should contact the CLAS undergraduate advisor on the Edwards Campus, Dan Mueller, dmueller@ku.edu, 864-8659 (from Lawrence) or 913-897-8659 (outside of Lawrence) for advising on general education requirements leading up to the major.

### Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

- **Minor Hours**
  - Satisfied by 18 hours of minor courses.

- **Minor Hours in Residence**
  - Satisfied by a minimum of 9 hours of KU resident credit in the minor.

- **Minor Junior/Senior Hours**
  - Satisfied by a minimum of 18 hours from junior/senior courses (300+) in the minor.

### Graduation Plan

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the program for details.

### Minor in Public Administration

**Why study public affairs and administration?**

The School of Public Affairs and Administration also offers a minor. All coursework related to the minor is offered at the KU Edwards Campus in Overland Park, Kansas, although PUAD 330/331 is also offered in Lawrence. The minor requires 18 hours of PUAD coursework. Six of these credits will consist of required core coursework, and the additional twelve will consist of elective PUAD courses.
Minor Junior/Senior Graduation GPA
Satisfactory minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Public Administration

Why study public affairs and administration?

Our programs prepare leaders and build professionalism in the public and nonprofit sectors and link KU resources to the challenges of public management. We produce skilled leaders, innovators, and problem-solvers, ready to confront pressing social and economic challenges at the local, state, and national levels.

Since 1998, U.S. News & World Report has ranked the M.P.A. degree program in city management and urban policy first in the nation and the school is ranked fifth in public management.

M.P.A. Admission

The academic prerequisites for regular admission to the M.P.A. program are

1. Completion of a bachelor’s degree, preferably with a background in the social sciences, including basic college algebra and statistics courses.
2. A grade-point average of B (3.0 on a 4.0 scale) for all previous university or college work (in certain circumstances, when the GPA is slightly below 3.0, other factors, such as strong Graduate Record Examination scores or exceptional letters of recommendation may be considered).

Admission is competitive and limited. For all applicants, a completed application includes

1. Online Graduate Studies application (http://www.graduate.ku.edu).
2. A nonrefundable application fee, submitted online with the application form. For domestic applicants, the application fee is $55; for international applicants, the application fee is $65.
3. 1 official transcript from the degree-granting college or university and any post-graduate college or university attended.
4. 3 letters of recommendation. If possible, at least 1 should be an academic reference. The MPA reference form, available through the website (https://kupa.drupal.ku.edu/admissions-intern-option), must be submitted with each letter.
5. A 3- to 5-page essay describing your background and career goals and clearly indicating how the M.P.A. degree fits into those goals and addressing any deficiencies in your academic preparation.
6. A current résumé.
7. A writing sample that is at least 5 pages long. It should be a well-cited work in which you critically analyze (not just summarize) an issue.

Additionally, an M.P.A. alum or faculty member may be assigned to interview you. That person’s comments are placed in and considered a part of your application packet.

Additional Requirements for International Applicants:

- Graduate Record Examination scores (General test only — verbal, analytical, and quantitative). For reporting GRE scores to the KU School of Public Affairs and Administration, the institution code is 6871 and the department code is 4801.
- An official Test of English as a Foreign Language score report. Please note that any international students admitted to a KU program must also be tested by the Applied English Center (http://www.aec.ku.edu) upon arrival, regardless of TOEFL score.

Deadlines

Applications for intern-option applicants must be received by February 1.

Applications for career-option applicants: Deadlines are May 1 and June 15 for fall admission and November 1 for spring admission. Note: No preference is given to applications received by the earlier deadlines. We offer the earlier dates to accommodate applicants who need an earlier decision for planning purposes.

International students: The deadline for international students is February 1.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to

The University of Kansas
School of Public Affairs and Administration
Attn: M.P.A. Admissions
4060 Wescoe Hall
1445 Jayhawk Blvd.
Lawrence, KS 66045-7594

or via email to: padept@ku.edu

Campuses

The M.P.A. degree program is also offered at the following location:

KU Edwards Campus
KU offers a variety of graduate and undergraduate programs on the KU Edwards Campus in Overland Park, Kansas. The Edwards Campus offers late-afternoon and evening classes, catering to working professionals. For more information, call the Edwards Campus at 864-8400 from Lawrence or 913- 897-8400 from other locations.

Topeka, Kansas

Each semester, select courses are offered at the Brown v. Board of Education National Historic Site in Topeka, Kansas.

Master of Public Administration Degree

The School of Public Affairs and Administration is home to the Edwin O. Stene Graduate Program in Public Administration and offers a Master of Public Administration degree. The Edwin O. Stene Master’s program is one of the oldest and most respected programs in the United States, with our local government leadership program dating to 1948. Since 1998,
our tradition of excellence in educating students at the masters' level has been recognized by U.S. News and World Report with a #1 ranking in city management and urban policy. The MPA degree may be obtained through course work in Lawrence, Topeka, and the KU Edwards Campus in Overland Park for the Kansas City area.

The KU MPA offers 2 tracks:

1. The Intern track is designed for students who have little or no public administration experience and are willing to commit to one year of full-time study and a second year in a full-time internship to prepare themselves for careers in city or county management.

2. The Career track is designed for working professionals seeking to strengthen their leadership skills for careers in public service professions or advance in their current profession without a career interruption. Most career-track students attend part-time.

Intern track students begin the program in the summer semester, and complete the majority of their coursework over three semesters (summer, fall, spring). Career-track students may begin in any semester.

M.P.A. Degree Requirements

The master’s degree is awarded after successful completion of 43 credit hours of course work. This includes 31 hours (10 courses) of required core courses (listed below) that all students complete, and 12 hours (4 courses) tailored to the student’s interests and/or track (intern or career). In addition, all students must pass a written master’s examination (final paper) to complete the requirements for the M.P.A. degree which is part of the PUAD 897 core course. Once a student begins the program, all degree requirements must be completed within 7 years.

The MPA core coursework includes the following courses (31 credit hours):

- PUAD Policy course (824 or 825 or 826 or 827 or 828) (3 hours)
- PUAD 834 Human Resource Management (3 hours)
- PUAD 835 Financing Public Services (3 hours)
- PUAD 836 Introduction to Quantitative Methods (4 hours)
- PUAD 837 Resource Allocation and Control (3 hours)
- PUAD 841 Role & Context of PA (3 hours)
- PUAD 842 Law and Public Management (3 hours)
- PUAD 845 Organizational Analysis and Public Management (3 hours)
- PUAD 853 Policy Analysis and Program Evaluation (3 hours)
- PUAD 897 Public Administration Contemporary Issues and Competency Assessment (3 hours)

Intern track students will take the following courses to complete the program: PUAD 892 Public Administration Internship (3 hours), PUAD 898 Leadership, Professionalism and Citizen Engagement (3 hours) and two electives (6 hours).

Career track students will take four electives (12 hours) to complete the program.

Master of Public Administration and Juris Doctor

M.P.A.-J.D. Combined Program

The joint degree program is designed for the student who intends to combine career preparation in law and public administration. Examples of career objectives for this degree are the practice of law in communities (for example, a city attorney, who may be called upon to perform legal services for a municipality) and for city managers (who may need to deal with legal questions and interact with legal professionals). The program combines into 4 years the normal 3-year Juris Doctor (p. 776) program offered by the School of Law (http://www.law.ku.edu) and the 2-year M.P.A. program offered by the School of Public Affairs and Administration (http://www2.ku.edu/~kupa). Students must complete 116 total credit hours: 78 credit hours in the School of Law (42 required and 36 elective), 26 hours in the School of Public Affairs and Administration, and 12 hours of electives of which only 3 hours may be law courses.

Of the 25 required hours in public administration, 6 hours are earned during the internship in the fourth year. The internship may not be taken concurrently with course work. At the conclusion of the internship year, each candidate must successfully pass a final written examination administered by public administration. The J.D. degree is awarded at the completion of the total required credit hours other than those associated with the internship. The M.P.A. degree is awarded upon successful completion of the internship and final examination. All course work counted toward any master’s degree requires a B average for the award of the degree. Specifically, students should understand that if they elect 6 or fewer hours of law requirements, the grades received in those law courses are incorporated into the M.P.A. grade-point average, which must be 3.0 for the award of the M.P.A.

For admission a student must meet requirements of both programs. Dual admission requires submitting separate sets of application materials as required by the respective programs. The M.P.A./J.D. program is open to those who have earned baccalaureate degrees and whose undergraduate academic records indicate that they have the capacity to complete these programs.

Since the total course work, excluding the internship, is 109 hours, students pursuing the joint degree should plan to enroll in course work for 2, and in some instances 3, summers.

M.P.A. Admission

The academic prerequisites for regular admission to the M.P.A. program are

1. Completion of a bachelor’s degree, preferably with a background in the social sciences, including basic college algebra and statistics courses.

2. A grade-point average of B (3.0 on a 4.0 scale) for all previous university or college work (in certain circumstances, when the GPA is slightly below 3.0, other factors, such as strong Graduate Record Examination scores or exceptional letters of recommendation may be considered).

Admission is competitive and limited. For all applicants, a completed application includes

1. Online Graduate Studies application (http://www.graduate.ku.edu).

2. A nonrefundable application fee, submitted online with the application form. For domestic applicants, the application fee is $55; for international applicants, the application fee is $65.

3. 1 official transcript from the degree-granting college or university and any post-graduate college or university attended.

4. 3 letters of recommendation. If possible, at least 1 should be an academic reference. The MPA reference form, available through the
The M.P.A. degree program is also offered at the following location:

Campuses

The KU Edwards Campus is located in Overland Park, Kansas, and offers late-afternoon and evening classes, catering to working professionals. For more information, call the Edwards Campus at 864-8400 from Lawrence or 913-897-8400 from other locations.

Topeka, Kansas

Each semester, select courses are offered at the Brown v. Board of Education National Historic Site in Topeka, Kansas.

Master of Public Administration and Master of Urban Planning

M.P.A.-M.U.P. Combined Program

This program is designed for the student with career goals that center on assuming administrative and management responsibilities in urban planning and urban affairs. It combines into 3 years (excluding the 1-year internship required for the M.P.A. program) the normal course work required for the 2-year Master of Urban Planning (p. 93) degree and the 2-year M.P.A. degree. The program offers students experience not only in public policy management, but also in management with particular expertise in urban problem resolution.

A student must meet admission requirements of both programs. Dual admission requires submitting separate sets of application materials as required by the respective programs. The M.P.A./M.U.P. program is open to those who have earned baccalaureate degrees and whose undergraduate academic records indicate that they have the capacity to complete these graduate programs.

Contact the School of Public Affairs and Administration (http://www2.ku.edu/~kupa) or the Department of Urban Planning (http://www.sadp.ku.edu/urban-planning) for more information.

M.P.A. Admission

The academic prerequisites for regular admission to the M.P.A. program are

1. Completion of a bachelor’s degree, preferably with a background in the social sciences, including basic college algebra and statistics courses.
2. A grade-point average of B (3.0 on a 4.0 scale) for all previous university or college work (in certain circumstances, when the GPA is slightly below 3.0, other factors, such as strong Graduate Record Examination scores or exceptional letters of recommendation may be considered).

Admission is competitive and limited. For all applicants, a completed application includes

1. Online Graduate Studies application (http://www.graduate.ku.edu).
2. A nonrefundable application fee, submitted online with the application form. For domestic applicants, the application fee is $55; for international applicants, the application fee is $85.
3. 1 official transcript from the degree-granting college or university and any post-graduate college or university attended.
4. 3 letters of recommendation. If possible, at least 1 should be an academic reference. The MPA reference form, available through the website (https://kupa.drupal.ku.edu/admissions-intern-option), must be submitted with each letter.
5. A 3- to 5-page essay describing your background and career goals and clearly indicating how the M.P.A. degree fits into those goals and addressing any deficiencies in your academic preparation.
6. A current résumé.
7. A writing sample that is at least 5 pages long. It should be a well-cited work in which you critically analyze (not just summarize) an issue.

Additional Requirements for Intern-option Applicants:
• Graduate Record Examination scores (General test only — verbal, analytical, and quantitative).
• Additionally, an M.P.A. alum or faculty member may be assigned to interview you. That person’s comments are placed in and considered a part of your application packet.

Additional Requirements for International Applicants:
• Graduate Record Examination scores (General test only — verbal, analytical, and quantitative). For reporting GRE scores to the KU School of Public Affairs and Administration, the institution code is 6871 and the department code is 4801.
• An official Test of English as a Foreign Language score report. Please note that any international students admitted to a KU program must also be tested by the Applied English Center (http://www.aec.ku.edu) upon arrival, regardless of TOEFL score.

Deadlines
Applications for intern-option applicants must be received by February 1.

Applications for career-option applicants: Deadlines are May 1 and June 15 for fall admission and November 1 for spring admission. Note: No preference is given to applications received by the earlier deadlines. We offer the earlier dates to accommodate applicants who need an earlier decision for planning purposes.

International students: The deadline for international students is February 1.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to

The University of Kansas
School of Public Affairs and Administration

1445 Jayhawk Blvd.
Lawrence, KS 66045-7594

or via email to: padept@ku.edu

Campuses
The M.P.A. degree program is also offered at the following location:

KU Edwards Campus

KU offers a variety of graduate and undergraduate programs on the KU Edwards Campus in Overland Park, Kansas. The Edwards Campus offers late-afternoon and evening classes, catering to working professionals. For more information, call the Edwards Campus at 864-8400 from Lawrence or 913-897-8400 from other locations.

Topeka, Kansas

Each semester, select courses are offered at the Brown v. Board of Education National Historic Site in Topeka, Kansas.

Doctor of Philosophy in Public Administration

Why study public affairs and administration?

The mission of the doctoral program in the KU School of Public Affairs and Administration is to provide advanced graduate education in theory and research in order to prepare students for academic and research careers in public administration, as well as professional careers in advanced practice of public administration.

KU SPAA doctoral students are expected to:
• Assist in research being conducted by a public administration faculty member;
• Serve as teaching assistants to gain experience and contribute to the production function of the School;
• Co-author a refereed article with a faculty member;
• Present a scholarly paper at a national conference.

For additional doctoral program data, view doctoral program profiles on the Graduate Studies website (click on Public Affairs and Administration under College of Liberal Arts and Sciences).

Ph.D. Admission

Admission is based on the applicant’s undergraduate and/or graduate academic record, standardized test scores, and references from instructors. All applicants must have completed a bachelor’s degree and an M.P.A. or equivalent degree. Students without an M.P.A. or equivalent degree must complete KU core M.P.A. requirements as part of their doctoral studies.

A completed application must include
• Online application and nonrefundable application fee (see Admission in the Graduate Studies section of the online catalog);
• Graduate Record Examination results — verbal, quantitative, and analytical;
• 2-page statement of goals and research interests including evidence of research aptitude and interest;
• 3 letters of recommendation, preferably from faculty members who can comment on the applicant’s potential for doctoral study;
• A writing sample that reflects the applicant’s interest in and ability to conduct research;
• A current resume; and
• 1 official transcript from each college or university attended.

In addition, international students must submit Test of English as a Foreign Language (TOEFL) scores from an examination administered no more than 2 years before the date of application. Immigration requirements and a financial statement are available from the Office of International Student and Scholar Services (http://www.iss.ku.edu). All materials must be received before the application can be considered.
For fall admission and financial aid, the application file must be completed by January 25. Applicants who do not meet this deadline are unlikely to be considered for financial aid, even though applications may be considered throughout the year.

Please refer to the School of Public Affairs and Administration’s website (https://kupa.drupal.ku.edu/admissions-phd) for complete details regarding Ph.D. admission requirements. Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to:

Ph.D. Degree Requirements

The Ph.D. program requires a minimum of 66 credit hours of courses, including up to 30 hours earned completing the M.P.A. degree or its equivalent, plus a minimum of 9 hours for the dissertation, for a total of 75 credit hours. (An applicant with a KU M.P.A. may apply 30 hours toward the 75-hour course work requirement.)

All students who enter the Ph.D. program must already have completed the core curriculum (8 courses) for the KU M.P.A. degree or the equivalent at another university, or they must take the appropriate courses after entering the program.

The requirements for the Ph.D. are based on formal course work and independent study in several fields:

• Foundations of public administration
• Specialization field within public administration
• Cognate field
• Methods sequence

Foundations of Public Administration

4 of the 5 courses listed below are required of all doctoral students.

Substitutions require the approval of the coordinator of doctoral studies.

Public Administration Specialization

In consultation with the coordinator of doctoral studies, each student must develop a public administration specialization of at least 3 courses. Common specializations include budgeting, public finance, human resources management, public policy analysis and evaluation, public values and ethics, organizations and organization theory, public law and administration, and urban policy/politics and community building. Each has a basic course that is regularly taught in the present graduate curriculum at the 800 level, and it is presumed that at least an additional course would come from independent study. A third course could come from the school or could be taken outside. Potential cooperating units include the Departments of Political Science, Communication Studies, and Economics, and the Schools of Education and Business. Additional subfield specializations are available in consultation with faculty.

Cognate Fields

The degree requires a cognate field in addition to the public administration specialization. The cognate field is a subfield in economics, political science, education administration, etc., or a policy specialization (environmental policy, transportation policy, etc.) The cognate field’s sequence of 3 courses requires the approval of the coordinator of doctoral studies and does not require a comprehensive examination.

Methods

The doctorate emphasizes the development of research skills. It requires PUAD 934 Research Methods in Public Administration, with the prerequisite PUAD 836 or its equivalent, and PUAD 935 Advanced Quantitative Methods for Public Administration. Students also are encouraged to take PUAD 937 Qualitative Methods in Public Administration. Substitutions require the approval of the coordinator of doctoral studies. The methods requirement satisfies Option 1 of the Foreign Language or Other Research Skills Requirement.

Note: Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

To become a Ph.D. candidate, the student must complete a comprehensive oral examination. No student may attempt the comprehensive oral until he or she has satisfied requirements for the cognate field and passed the preliminary written examination in both the foundations and specialization fields. The doctoral coordinator certifies that the student has met these requirements.

After passing the comprehensive oral examination, the doctoral candidate must write a dissertation approved by a dissertation committee and pass a final oral defense of the dissertation to qualify for the degree. If the aspirant receives a grade of unsatisfactory, the examination may be repeated, but under no circumstances may the student take it more than twice.

Department of Religious Studies

Why study religious studies?

Religions have been and remain among the most powerful forces shaping human history. Their discourses and practices inform the way we perceive ourselves, those around us, and existence at large, even when we are not actively religious. They are central to understanding both what divides us and unites us. The academic study of religion is a trans-disciplinary endeavor to understand from an objective perspective how religious traditions shape the lives of their adherents, without seeking to promote or disprove any specific belief system. Religious Studies acquaints students with the diversity of religious cultures and introduces them to key methods and theories employed in their examination as “religion.”
Undergraduate Programs

The undergraduate degree in the Department of Religious Studies is a research, analysis, and writing intensive program that features close work with faculty in small classroom settings. It seeks to develop a foundational knowledge of the world’s diversity of religious cultures and critical awareness of the ways in which religion shapes how we see and act toward ourselves, others, and the environment around us. Through the study of specific religious traditions and settings, students come away with a background that is invaluable to understanding and working with people of other cultures, whether in international business or simply as an informed global citizen.

Graduate Programs

The department offers a graduate program leading to the M.A. with a major in religious studies. The program enables students to pursue specialized advanced work that builds in tandem on the interests of the students and the specializations of the faculty. At all levels, interdepartmental and interdisciplinary cooperation is encouraged as important to a comprehensive program. Continuing research in religious studies is an indispensable and foundational element, intimately related both to teaching and to the wider exchange and advancement of knowledge.

A library of some 15,000 volumes, owned by the Friends of the Department of Religious Studies at the University of Kansas, is housed with and used by the department in Irma I. Smith Hall. The Department of Religious Studies at KU is also in the unusual position of being able to provide substantial financial support for students seeking the MA degree.

Courses

REL 104. Introduction to Religious Studies. 3 Hours. HR AE42/GE3H / H.
This course introduces students to the academic study of religions. It acquaints students with key methods and issues in religious studies, and provides an introductory survey of selected religions. Not open to students who have taken REL 105. LEC.

REL 105. Introduction to Religious Studies, Honors. 3 Hours. HR AE42/GE3H / H.
This course introduces students to the academic study of religions. It acquaints students with key methods and issues in religious studies, and provides an introductory survey of selected religions. Open only to students in the University Honors Program or by permission of instructor. Not open to students who have taken REL 104. LEC.

REL 106. Living Religions of the East. 3 Hours. HR/NW AE42/GE3H / H/W.
A basic introduction to religion in India, China, and Japan with emphasis upon religions that affect the modern period. Not open to students who have taken REL 108/EALC 108. (Same as EALC 105.) LEC.

REL 107. Living Religions of the West. 3 Hours. HR AE41/AE42/GE3H / H.
A basic introduction to the major religious traditions of the Near East, Europe, and the Americas, with an emphasis on their development through the modern period and their expressions in contemporary life. Not open to students who have taken REL 109. (Same as JWSH 107.) LEC.

REL 108. Living Religions of the East, Honors. 3 Hours. HR/NW AE42/GE3H / H.
A basic introduction to religion in India, China, and Japan, with emphasis upon religions that affect the modern period. Open only to students in the University Honors Program or by permission of instructor. Not open to students who have taken REL 106/EALC 105. (Same as EALC 108.) LEC.

REL 109. Living Religions of the West, Honors. 3 Hours. HR AE41/AE42/GE3H / H.
A basic introduction to the major religious traditions in the Near East, Europe, and the Americas, with an emphasis on their development through the modern period and their expressions in contemporary life. Open only to students in the University Honors Program or by permission of instructor. Not open to students who have taken REL 107. LEC.

REL 124. Understanding the Bible. 3 Hours. HR AE42/GE3H / H.
An introduction to the literature of the Bible, exploring the relationships among the various types of literature present and the function of each type in history and religion of the people who produced and used them. Cannot be taken concurrently with REL 311 or JWSH 321 or REL 315. Not open to students who have taken REL 125 or JWSH 125. (Same as JWSH 124.) LEC.

REL 125. Understanding the Bible, Honors. 3 Hours. HR AE42/GE3H / H.
An introduction to the literature of the Bible, exploring the relationships among the various types of literature present and the function of each type in history and religious life of the people who produced and used them. Open only to students in the University Honors Program or by permission of instructor. Not open to students who have taken REL 124 or JWSH 124. (Same as JWSH 125.) LEC.

REL 130. Myth, Legend, and Folk Belief in East Asia. 3 Hours. NW / H/W.
A survey of the commonly held ideas about the beginning of the world, the role of gods and spirits in daily life, and the celebrations and rituals proper to each season of the year. The purpose of the course is to present the world view of the ordinary peoples of East Asia. (Same as ANTH 293, EALC 130.) LEC.

REL 171. Religion in American Society. 3 Hours. HR AE41/GE3H / H.
A broad introduction to religion in American culture. This class emphasizes the well-established religions with large followings (viz. Judaism, Catholicism, Eastern Orthodoxy, and Protestantism). Some attention is also given to other religions active in America. Other topics covered include the relationship of church and state, religion in ethnic and racial minority groups, and women and religion. Not open to students who have taken REL 172. (Same as AMS 290.) LEC.

REL 172. Religion in American Society, Honors. 3 Hours. HR AE41/GE3H / H.
Honors version of REL 171. A broad introduction to religion in American culture. This class emphasizes the well-established religions with large followings (viz. Judaism, Catholicism, Eastern Orthodoxy, and Protestantism). Some attention is also given to other religions active in America. Other topics covered include the relationship of church and state, religion in ethnic and racial minority groups, and women and religion. Not open to students who have taken AMS 290. Open only to students in the University Honors Program or by permission of instructor. LEC.

REL 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Religious Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics
are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

REL 200. Study Abroad Introductions to: _____. 1-4 Hours. H.
This course is designed for the study of special topics in Religious Studies. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

REL 311. Religion of Ancient Isreal. 3 Hours. H/W.
A study of the development of the Hebrew Bible from its earliest stages of oral tradition to its canonization with an emphasis on the relationship of the historical, intellectual, and cultural contexts shaping that development. (Same as JWSH 321.) Prerequisite: REL 124 or JWSH 124 or permission of instructor. LEC.

REL 315. History and Literature of Early Christianity. 3 Hours. H/W.
An examination of the literature produced by early Christians. In addition to New Testament texts, the course includes a broad range of diverse texts produced by early Christians, Jews, and others. Prerequisite: REL 124 or permission of instructor. LEC.

REL 325. Introduction to Judaism. 3 Hours. H.
Analyzes a selection of the core texts, teachings, and practices of Jewish religious traditions in terms of classical and contemporary understanding. (Same as JWSH 325.) LEC.

REL 326. Introduction to the Talmud and Interpretation. 3 Hours. H.
A study of the Talmud and the main lines of its reception and interpretation from Late Antiquity through Modernity in Rabbinic literature and the broader context of Western religion and philosophy. Prerequisite: REL 104, REL107, or REL124/125, or permission of the instructor. LEC.

REL 330. Native American Religions. 3 Hours. NW AE41 / H.
A survey of religious traditions among selected Native American peoples. Topics include religious freedom, ritual activity, cultural narrative (myth) kinship, healing practices, ecology, government relations, impact of colonization, impact of missionization, contact between cultures, and secularization. Not open to students who have completed REL 331. (Same as ISP 330.) LEC.

REL 331. Native American Religions, Honors. 3 Hours. NW AE41 / H.
A survey of religious traditions among selected Native American peoples. Topics include religious freedom, ritual activity, cultural narrative (myth) kinship, healing practices, ecology, government relations, impact of colonization, impact of missionization, contact between cultures, and secularization. Open only to students in the University Honors Program or by permission of instructor. Not open to students who have completed REL 330. (Same as ISP 331.) LEC.

REL 339. History of Religion in America. 3 Hours. H.
Survey of the development of religious institutions and ideas in America from colonial times to the present. Emphasis is given to the mainstream religious traditions (Protestant, Catholic, Jewish), but attention is also paid to other phenomena, including nonwestern and native American religions. LEC.

REL 341. Mysticism. 3 Hours. H.
The nature of mystical experience and reflection as expressed in selected mystical literature of the world’s religions. LEC.

REL 342. Religion and Literature. 3 Hours. H.
An examination of contemporary writings to explore the authors’ presuppositions concerning the nature of God, the nature of human beings, the meaning of good and evil, the significance of human existence, and the means of attaining fulfillment or salvation. LEC.

REL 345. Christianity. 3 Hours. H.
An introductory examination of the history, doctrines, and practices of Christianity. Selected readings from the creeds, papal decrees, and major Christian theologians. LEC.

REL 350. Islam. 3 Hours. NW AE42/GE3H / H/W.
Origins of Islam; the Prophet Muhammad; the Holy Koran; religious symbols and moral mandates; historical developments. (Same as AAAS 349.) LEC.

REL 355. Muslim Societies. 3 Hours. H.
In this class we study Muslim societies throughout the world. We examine variation between regions by looking at Muslim history and culture in different countries, such as Pakistan, Indonesia, Mali, Bosnia, Egypt, Yemen, and others. LEC.

REL 360. The Buddhist Tradition in Asia. 3 Hours. NW AE42/GE3H / H.
A historical and geographical survey of the Buddhist tradition from its origins in India to modern day developments in the three major regional Buddhist cultures of Southeast Asia, Tibet, and East Asia (China, Korea, and Japan). Prerequisite: Prior coursework in Asian studies or permission of instructor. LEC.

REL 365. Hinduism. 3 Hours. H.
An introduction to the diversity and richness of Hinduism from the Vedic period to the present; explores Hindu practices, beliefs, and communities using primary texts and extensive audio-visual resources. LEC.

REL 371. Religion and Society in Tension. 3 Hours. H.
Specific issues of conflict between the values of certain religious groups and those of the larger society. Includes problems of church state, birth control and abortion, civil disobedience and dissent, education, war and peace, and “civil religion. LEC.

REL 373. The Supreme Court and Religious Issues in the United States. 3 Hours. H.
Historical study of the interpretation of the religion clauses of the First Amendment with special reference to the questions of establishment, the free exercise of religion, freedom of religious belief, worship, and action, and religion and the public schools. Not open to freshmen. (Same as HIST 373.) LEC.

REL 374. Religious Perspectives on Selfhood and Sexuality. 3 Hours. H.
The nature of the self in its individual and social dimensions. Self experienced and expressed in sexuality. Survey of viewpoints in religious literature. LEC.

REL 375. The Supreme Court and Religious Issues in the United States, Honors. 3 Hours. H.
Historical study of the interpretation of the religion clauses of the First Amendment with special reference to the questions of establishment, the free exercise of religion, freedom of religious belief, worship, and action, and religion and the public schools. Open only to students in the University Honors Program or by permission of the instructor. (Same as HIST 375.) LEC.

REL 376. American Judaism: Life and Thought. 3 Hours. H.
A study of the conflicts between secularists and religious Jews, between Zionists and synagogue representatives, and the patterns of compromise in American Jewish life. Questions of Americanism and Jewish survival, support for the State of Israel, and the bureaucratic structure of rabbinical training and philanthropy in America will be raised. LEC.

REL 377. Religious Ethics and Moral Decisions. 3 Hours. AE51 / H.
When faced with ethical dilemmas how do we decide what is the right course of action? In what ways are our decisions affected by religious
ideas about morality? In this class we examine the ethical problems we encounter every day in light of the solutions offered from various religious traditions. Cases to be examined include issues of life and death, war and peace, sexual morals, torture, the treatment of animals and the environment. LEC.

REL 378. Religion and Moral Decisions, Honors. 3 Hours. H.
Honors version of REL 377. Introduction to religious viewpoints on individual and social ethics. Influence of religious thought on the making of moral decisions, and on value development. Examined in relation to specific moral issues. Open only to students who have been admitted to the University Honors Program or by permission of instructor. LEC.

REL 380. Philosophical Issues in Religion. 3 Hours. GE3H / H.
This course will consider, from a philosophical perspective, some of the problems in religion which arise in the development of “Natural Theology” broadly conceived. (Same as PHIL 350.) LEC.

REL 400. Study Abroad Special Topics: ____. 1-4 Hours. H.
This course is designed for the study of special topics in Religious Studies equivalent to courses at the 300 to 600 level at KU. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

REL 404. Undergraduate Seminar in Religion: ____. 1-3 Hours. H.
Topic, instructor, prerequisite and hours of credit to be announced in Schedule of Classes. Particular subject matter may vary from semester to semester and will respond to student interest and taking advantage of special faculty competence. Class discussion, readings, and individual projects. LEC.

REL 405. Directed Study in Religion. 1-4 Hours. AE61 / H.
Investigation of a special topic or project selected by the student with advice, approval, and supervision of an instructor. Such study may take the form of directed reading or special research. Individual reports and conferences. May be repeated, with maximum cumulative credit of four hours. Course taken for one hour of credit may not be used to fulfill College distribution requirement. Prerequisite: One previous course in religious studies at the University of Kansas and permission of instructor. IND.

REL 406. Reading Asian Religious Classics. 3 Hours. H.
A close reading of classic texts of Asian religions in English translation, with emphasis on their construction and reception as sacred “scripture” in both their indigenous Asian contexts and in the post-colonial West. No prior knowledge of Asia is required, although some background is desirable. LEC.

REL 425. Religion and Film. 3 Hours. H.
An examination of the treatment of religious themes through the medium of film and an examination of the attitudes of religious organizations toward films and film production. Selected films will be viewed and analyzed from the perspectives taken within religious studies. LEC.

REL 440. Muslim Women in Religion and Society. 3 Hours. NW / H.
This course consists of a spring break study in a Muslim country, meeting with women’s NGOs and other women’s groups and visiting sites of significance to women. Preparatory class sessions focusing on assigned readings precede the study abroad trip and a concluding class session follows it. A research paper is required. LEC.

REL 447. Islamic Law in the Digital Age. 3 Hours. H.
In this class we trace how Islamic law has changed in the modern era, beginning with an overview of shari’ah and its traditional function in Muslim society, and then examine how the practice of Islamic law was altered by colonialism and the rise of the nation state. We mark these transformations by studying how Islamic law is used in the online environment today. LEC.

REL 450. Popular Culture in the Muslim World. 3 Hours. NW / H.
A study of pop songs, television, comics, and other idioms of popular culture from different parts of the Muslim world, with attention to Muslims’ sense of humor, tragedy, aesthetics, and pertinent issues of the day. (Same as AAAS 450.) LEC.

REL 464. Visions in Art and Literature. 3 Hours. H.
A study of the phenomenon of visions, their expression in various media, and theories of visionary experience from the humanities and social sciences, with a particular emphasis on critically evaluating the relationship between the visionary experience and its expression. (Same as HWC 464). LEC.

REL 468. Illness in Art and Literature. 3 Hours. H.
An examination of how illness and health have been conceptualized, expressed, and explored in Western literature and art, as well as a consideration of issues of illness and health from the perspectives of philosophy and religious studies. (Same as HWC 468). LEC.

REL 475. Loving Relationships. 3 Hours. H.
Theories and elements of love in a variety of types of relationships, with attention to religious ethical traditions and social and behavioral sciences. Includes small group discussions and application to personal experience. Prerequisite: Junior standing or above. LEC.

REL 477. Gender and Religion. 3 Hours. H.
Examination of symbols, images, scriptures, rites and teachings that define gender in various religious traditions. (Same as HWC 477.) LEC.

REL 478. Women and Religion, Honors. 3 Hours.
Examination of symbols, images, scriptures, rites, and teachings defining women’s roles in various religious traditions. Prerequisite: Open only to students in the University Honors Program, or by permission of instructor. LEC.

REL 490. Senior Seminar in Theories and Methods. 3 Hours. AE61 / H.
a capstone course for religious studies majors to survey methods and theories in religious studies. Prerequisite: Religious Studies major or permission of the instructor. LEC.

REL 499. Undergraduate Honors Research. 1-3 Hours. AE61 / H.
Required for Departmental Honors. May be taken more than once; total credit not to exceed 6 hours. Prerequisite: Open only to candidates for degree with departmental honors and with consent of the student’s research supervisor. IND.

REL 500. Readings in Non-English Religious Texts. 1-4 Hours.
This course provides directed readings for students in either primary or secondary texts related to religious studies utilizing material in languages other than English. IND.

REL 502. Special Topics in Religion: ____. 1-4 Hours. H.
Topic and instructor to be announced in Schedule of Classes. Enables qualified students to participate in current research interests of faculty and/or pursue specific current topics. May be offered by different instructors under different subtitles, and may be taken more than once if subject matter varies sufficiently. Prerequisite: Consent of instructor. LEC.

REL 504. Millenarian Movements. 3 Hours. S.
A historical survey of millenarian movements (the belief in imminent, total, ultimate, this-worldly, collective salvation), with particular attention to their construction and reception as sacred “scripture,” with attention to religious ethical traditions and social and behavioral sciences. Includes small group discussions and application to personal experience. Prerequisite: Open only to candidates for degree with departmental honors and with consent of the student’s research supervisor. IND.
REL 507. Religion in India. 3 Hours. NW AE42/GE3H / H/W.
Survey of religious thought and practice in India from the Vedic period to the present. LEC.

REL 508. Religion in China. 3 Hours. NW AE42/GE3H / H/W.
Survey of religious thought and practice in China from the Shang to the People’s Republic. (Same as EALC 508.) LEC.

REL 509. Religion in Japan. 3 Hours. NW AE42/GE3H / H/W.
Survey of religious thought and practice in Japan from the Jomon period to the present. (Same as EALC 509.) LEC.

REL 510. Religion in Korea. 3 Hours. NW AE42/GE3H / H.
Survey of religious thought and practice in Korea from the Three Kingdoms period to the present. Prerequisite: REL 106/EALC 105; EALC 104; or permission of instructor. LEC.

REL 515. Studies in Early Christian Literature and History. 3 Hours. H.
Contemporary research in the history and literature of earliest Christianity including most of the following: (1) the use of critical method, (2) philosophical and theological contexts, (3) sociological analyses, (4) interpretation of archaeological data (5) papyrology and the medieval manuscript tradition, (6) relations between Christians and the Roman government, (7) relations between Christians and Jews, (8) development of diverse literary genres, and (9) the origins of gnosticism and Christian gnosticism. Prerequisite: REL 124 or permission of instructor. LEC.

REL 523. The Dead Sea Scrolls. 3 Hours. H.
A study of the archeological evidence and texts from the Dead Sea area that provide primary evidence for Jewish religious belief and practice in the Greek and Roman periods (ca. 250 B.C.E. - 135 C.E.). (Same as JWSH 523.) Prerequisite: REL 124 or JWSH 124 or consent of instructor LEC.

REL 524. Studies in Ancient Egyptian Culture and Religion. 3 Hours. H.
A study of the basic features of Egyptian history, culture, and religion from the beginning of the Pharaonic period (ca. 3500 B.C.E.) to the rise of Greek rule in Egypt (ca. 350 B.C.E.). Prerequisite: A principal course in Religious Studies or consent of instructor. LEC.

REL 525. Jews and Christians. 3 Hours. H/W.
This course examines the ways Jews and Christians have interacted with and characterized one another at various points in their histories. Special emphasis is placed on the gradual separation of the two religious traditions in the 1st-4th centuries. (Same as JWSH 325.) Prerequisite: A previous course in Religious Studies or Jewish Studies; or consent of instructor. LEC.

REL 526. Jewish History and Literature in the Greek and Roman Periods. 3 Hours. H/W.
The history and literature of the Jewish people from the hellenistic period (late fourth century B.C.E. to the codification of the Mishnah 210 C.E.). Select texts from the Hebrew Bible, the so-called apocrypha and pseudepigrapha, the Qumran scrolls, Philo, Josephus, related early Christian texts, and Rabbinic texts will be studied. (Same as JWSH 526.) Prerequisite: REL 124 or JWSH 124 or permission of instructor. LEC.

REL 527. Ancient Mesopotamian Culture and Religion. 3 Hours. H.
A study of the basic features of Mesopotamian history, culture and religion from the origins of writing (ca. 3500 B.C.E.) to the rise of Greek rule in the region (ca. 350 B.C.E.). Prerequisite: A principal course in religious studies or consent of instructor. LEC.

REL 528. The Apostle Paul and Early Christian Paulinism. 3 Hours. H.
Biographical issues related to the Apostle Paul, his teachings in relation to Greek and Jewish thought as exemplified in his letters, and his reception by later diverse Paulinists. Prerequisite: REL124/125, or REL 315. LEC.

REL 530. Christian Origins: from the Beginnings to Augustine. 3 Hours. H/W.
This course covers the major political, literary, and theological developments in Christianity from the first century through Augustine in the early fifth century, including: (1) the development and significance of the New Testament canon, (2) relations between Christians, Jews, and the Roman government, (3) the nature of orthodoxy and heresy, and the rise of the major gnostic systems, (4) the growth of the orthodox network, (5) theological debates and councils, and (6) the biography and theology of Augustine and his influence on the medieval church. Prerequisite: Junior standing or above. LEC.

REL 531. Studies in Christianity. 3 Hours. H.
Study of religious thought, practice, and institutions of Christianity with an emphasis on the examination of primary documents. LEC.

REL 532. Studies in Islam. 3 Hours. H.
Study of religious thought, practice, and institutions of Islam with an emphasis on the examination of primary documents. (Same as AAAS 532.) LEC.

REL 534. Studies in Ritual: ______. 3 Hours. H.
A study of ritual theory and a comparative study of ritual activity among selected religious traditions. May be taken more than once if content differs sufficiently. LEC.

REL 535. The History of Islam in Africa. 3 Hours. H/W.
A study of the history and institutions of Islam in Africa. Emphasis will be placed on the impact of Islam on African traditional religions and African civilization in general; the historiographical traditions of Islam in Africa. (Same as AAAS 542.) LEC.

REL 541. Gods and Goddesses of South Asia. 3 Hours. H.
This course explores the dynamic diversity of gods and goddesses in South Asian religious life through examination of their basic iconography, religious narratives and devotional poetry, temple images and architecture, ritual practices, performance traditions, and film. Prerequisite: An introductory course in religious studies or consent of instructor. LEC.

REL 543. Hindu Epics, Past and Present. 3 Hours. H.
This interdisciplinary course considers the roles that the two great Indian epics, the Mahabharata and the Ramayana, have played in the history of religion, literature, art, and politics in South Asia (and beyond). Prerequisite: An introductory course in religious studies or consent of instructor. LEC.

REL 545. Yoga in Theory, Practice, and History. 3 Hours. H.
Historical and thematic investigation into Yoga, including classical formulations, esoteric practices, and contemporary developments and debates. LEC.

REL 551. Shari’a, Democracy, and Society. 3 Hours. H.
In this class we examine the question of whether or not democracy and shari’a can coexist. Is there a necessary opposition between democratic visions of society and the institutionalization of Islamic law? As a case study we look at changes in the modern Egyptian political system and the role religious ideals have played in these changes, especially the push
meaning of illness and health, methods of diagnosis and treatment, and
hours. H.

REL 580. Religious Perspectives on Illness, Health, and Healing. 3 Hours. H.
A survey of the beliefs, practices, and social impact of religious minorities in
the United States, both contemporary and historical, rooted primarily in
Christianity and Judaism. LEC.

A survey of the beliefs, practices, and social impact of religious minorities
in the United States, both contemporary and historical, which have
developed primarily from sources other than Christianity and Judaism.
LEC.

REL 601. Approaches to the Study of Religion. 3 Hours. H.
An introduction to the various methods by which social scientists,
historians, philosophers, and theologians study the meaning, influence,
and significance of religion as an integral part of society and its cultural
heritage. Prerequisite: REL 104 required for undergraduate students. No
prerequisite for graduate students. LEC.

REL 604. Religion and Political Theory. 3 Hours. S.
An examination of the relationship between religious faith and politics in
Western political thought and theory. The approach will be both historical
and philosophical, beginning with Moses on the one hand, and the Greeks
on the other. Texts will include biblical, Greek philosophical, Jewish
and Christian philosophical and theological writings. (Same as POLS 604.)
Prerequisite: POLS 201, or for non-POLS majors completion of Western
Civilization requirements, or consent of instructor. LEC.

REL 650. Sufism. 3 Hours. NW / H.
A survey of developments in Sufi (Islamic Mystical) thought, poetry, and
ritual throughout Muslim history and across the Muslim world. (Same as
AAAS 657.) Prerequisite: AAAS 349/REL 350 or permission of instructor.
LEC.

REL 657. Gender in Islam and Society. 3 Hours. NW / H.
An investigation of the relationship between Islam, and gender roles and
status in religious texts (Quran and Hadith) and in societies across the
Muslim world, past and present. (Same as AAAS 657.) Prerequisite:
AAAS349/REL 350 or permission of instructor. LEC.

REL 665. Religious Ethics. 3 Hours. H.
Main themes and traditions in ethical thought. Religious thought as basis
of systems of ethics. Contemporary approaches to methods of value
organization and moral choices. Prerequisite: A basic course in religious
studies. LEC.

REL 667. Religious Perspectives on War and Peace. 3 Hours. H.
Views of war and peace in various faith traditions throughout the world.
Examination of teachings and action of religious groups and selected
individuals, including use of war rhetoric and differing theological and
social understandings of peace. Lecture, seminar discussion, and
research assignment require preparation and participation by students.
Prerequisite: Junior standing or above. LEC.

REL 669. Human Conflict and Peace. 3 Hours. H.
Study of religious, cultural, and social traditions toward understanding the
nature and purposes of human conflict. Analysis of various meanings of
peace, with emphasis on study of nonviolent approaches to management of
conflict. Class discussion, readings, and individual research projects.
(Same as COMS 669.) Prerequisite: Junior standing or above. LEC.
REL 671. American Communes. 3 Hours. H.
An examination of utopian communities in North America from the seventeenth century to the present. The course will survey the history, literature, and social dynamics of representative communal societies and movements including the Shakers, the Hutterites, the Oneida Community, Catholic religious communities, egalitarian communities, and other religious and secular communities. LEC.

REL 677. Women in Christianity. 3 Hours. H.
An examination of the roles, images, and status of women in Christianity from its origin to the contemporary period and in its missionary expansion from the ancient Near East through Europe, North and South America, Africa, and Asia. LEC.

REL 704. Russian Orthodoxy in Historical Perspective. 3 Hours.
This course examines Russian Orthodoxy as a religious system and the institution of the Russian Orthodox Church from its first appearance in Russia to the present. It focuses on beliefs and practices of the clergy and the laity; institutional structures; the relationships between Church and State; interaction with non-Orthodox religious communities; responses to Soviet atheist policies; Orthodox influences on political theory, philosophy, literature, and the fine arts. (Same as REES 704.) LEC.

REL 727. Seminar in Religion, Text and Textuality. 3 Hours.
This seminar explores issues surrounding the production and use of authoritative religious texts (sacred texts) in religious traditions, including such topics as scripturality and canon, scriptural hermeneutics, and material and ritual dimensions of scriptural practice. Specific case studies and content to be selected by the instructor. SEM.

REL 732. Seminar in Western Religious Texts: ____. 3 Hours.
An analysis of selected religious text or texts from Judaism, Islam, or Christianity in translation. May be taken more than once if subject matter varies sufficiently. Prerequisite: REL 512, REL 515, REL 526, REL 530, REL 532, REL 539, or REL 570 or permission of the instructor. LEC.

REL 733. Seminar in Eastern Religious Texts: ____. 3 Hours.
Analysis of a selected religious text or texts from India, China, or Japan, in translation. May be taken more than once if subject matter varies sufficiently. (Same as EALC 733.) Prerequisite: REL 507, REL 508, REL 509, or permission of instructor. LEC.

REL 737. Seminar in Religion, Media and Performance. 3 Hours.
This seminar explores aspects of performance and the media of performance in lived religion, which might include such topics as ritual, the body, mass media and the internet, and visual and material culture. Specific case studies and content to be selected by the instructor. SEM.

REL 747. Seminar in Religion, Society and Social Change. 3 Hours.
This seminar explores issues regarding the social dimensions of religiosity/lived religion, ranging from aspects of religious institutionalization, authority, and normativity to alternative religiosities and alterity. Specific case studies and content to be selected by the instructor. SEM.

REL 757. Seminar in Religious Subjectivity, Experience, and Narrative. 3 Hours.
This seminar explores issues regarding the subjective and experiential dimension of lived religiosity, including such things as religious experience and mysticism, modes of personal religious expression and embodiment, and dynamics of personal and collective religious narrative and identity. Specific case studies and content to be selected by the instructor. SEM.

REL 761. Seminar in Western Religious Thought: ____. 3 Hours.
An analysis of the thought of selected thinkers of the Christian, Jewish, and/or Islamic traditions. May be taken more than once if subject matter varies sufficiently. Prerequisite: REL 512, REL 515, REL 526, REL 530, REL 532, REL 539, or REL 570 or permission of the instructor. LEC.

REL 762. Seminar in Eastern Religious Thought: ____. 3 Hours.
Analysis of the religious thought of selected thinkers of India, China, and/or Japan, traditional and modern. May be taken more than once if subject matter varies sufficiently. (Same as EALC 732.) Prerequisite: REL 507, REL 508, REL 509, or permission of the instructor. LEC.

REL 767. Seminar in Theory, Method, and History in Religious Studies. 3 Hours.
This seminar explores theoretical, methodological, and historical issues that are instrumental to our notions of religion as an analytic category and foundational to the study of religion as a field of academic enquiry. Specific case studies and content to be selected by the instructor. SEM.

REL 771. Seminar in Religious Movements and Social Change: ____. 3 Hours.
Relationship of religious groups to movements for social change: influence of religious groups on social change, and the impact of efforts toward social change in religious groups. Prerequisite: REL 171, REL 371, REL 377, or equivalent. LEC.

REL 772. Seminar in Religion and Modern Social Criticism: ____. 3 Hours.
Seminar focusing on religious issues in some important texts of modern social criticism from the French Revolution to the present day. Prerequisite: An introductory course in religion. LEC.

REL 773. Seminar in Religion and National Identity: ____. 3 Hours.
Analysis of selected issues wherein religion and the formation and definition of a selected nation or nations intersect. LEC.

REL 775. Seminar in Religion and Society in the West: ____. 3 Hours.
Analysis of selected Western religions and their relationships to selected Western societies. May be taken more than once if subject matter varies sufficiently. Prerequisite: REL 512, REL 515, REL 526, REL 530, REL 532, REL 539, or REL 570 or permission of instructor. LEC.

REL 776. Seminar in Religion and Society in Asia: ____. 3 Hours.
Analysis of selected Asian religions and their relationship to selected Asian societies. May be taken more than once if subject matter varies sufficiently. (Same as EALC 776.) Prerequisite: REL 507, REL 508, REL 509, or permission of the instructor. LEC.

REL 777. Seminar in Religion and Gender. 3 Hours.
Examination of symbols, images, scriptures, rites, teachings and scholarship regarding gender definitions and performance in various religious traditions. LEC.

REL 787. Seminar in Ethical Issues in Health Care: ____. 3 Hours.
Interdisciplinary seminar, drawing on the literature of social, medical, and professional ethics, with special attention to religious perspectives on meanings of health and the delivery of health care. Of particular interest to health-related professions. Prerequisite: Permission of instructor. LEC.

REL 800. Readings. 1-4 Hours.
RSH.

REL 839. Topics in the History and Literature of Religion: ____. 3 Hours.
Selected studies, as announced in Schedule of Classes, in the history and religious literature of Judaism, Christianity, religion in America, Islam, and Asian religions. Course may be taken more than once if subject matter varies sufficiently. Prerequisite: Permission of instructor. LEC.
REL 864. Topics in Religious Thought and Symbol: _______ 3 Hours. Selected studies, as announced in Schedule of Classes, in Asian, Middle Eastern, and Western religious thought, mysticism, and religious ethics. Course may be taken more than once if subject matter varies sufficiently. Prerequisite: Permission of instructor. LEC.

REL 875. Topics in Religion and Society: _______ 3 Hours. Special topics to be announced in Schedule of Classes, according to research interests of faculty and students. A particular aspect of the study of religion and culture will be emphasized. Course may be taken more than once if the subject matter varies. Prerequisite: Permission of instructor. LEC.

REL 877. Topics in Women and Religion: _______ 3 Hours. Selected studies, as announced in Schedule of Classes, in the history and analysis of symbols, images, scriptures, rites, and teachings defining women’s roles in various religious traditions. Course may be taken more than once if the subject matter varies sufficiently. Prerequisite: Permission of instructor. LEC.

REL 899. Thesis. 1-3 Hours.

Bachelor of Arts and Bachelor of General Studies in Religious Studies

The undergraduate degree in the Department of Religious Studies is a research, analysis, and writing intensive program that features close work with faculty in small classroom settings. It seeks to develop a foundational knowledge of the world’s diversity of religious cultures and critical awareness of the ways in which religion shapes how we see and act toward ourselves, others, and the environment around us. Through the study of specific religious traditions and settings, students come away with a background that is invaluable to understanding and working with people of other cultures, whether in international business or simply as an informed global citizen.

Career Opportunities

Religious studies majors and minors develop expertise and skills that serve them well wherever life takes them. Our graduates have been successful in many different areas. Studying religion provides a solid foundation for work in fields as diverse as journalism, law, politics, nongovernmental organizations, ministry, and education. No matter what their intended careers, students benefit from the critical reading, writing, and analytical skills that the academic study of religion instills.

Admission to the Major

Application Term

Semester in which major admission criteria will be completed, normally no later than 60 hours, or for transfer students, during the initial term at KU. Application to this major after completion of 60 hours, or the initial KU term for transfer students, will likely delay graduation.

Courses Required

• **Composition.** Satisfied by ENGL 101 (unless the student has received a waiver or, for transfer students, an equivalent course).

• **Critical Reading and Writing.** Satisfied by ENGL 102 or ENGL 105 (unless the student has received a waiver or, for transfer students, an equivalent course).

• **Introduction to Religion.** Satisfied by REL 104.

• **Additional Religious Studies Course** (Elective or Requirement). Satisfied by any course with REL prefix.

Grade-Point Average Requirements

Satisfied by a 2.30 minimum GPA in required admission courses designated above. University Course Repeat Policy will apply.

Religious Studies Program

The curriculum is organized into the basic areas of Western, Eastern, and North American religions, and method and theory in the study of religion. A core of courses provides broad exposure to the range of issues, perspectives, and methods in the study of religion. The program encourages interdepartmental and interdisciplinary cooperation as part of a comprehensive program. This cooperation is reflected at the undergraduate level in cross-listed and cross-referenced courses and in the design of the major.

Requirements for the B.A. or B.G.S. Major

The major consists of at least 27 hours in religious studies. 15 hours must be in courses numbered 300 and above, and 8 of these junior/senior hours must be completed in residence at KU. The 27 hours may include no more than 12 transfer hours, no more than 12 hours from study abroad, and no more than 15 hours in combination of the two.

Religious Studies Major Course Requirements

**Religious Studies Core Knowledge and Skills (27)**

Majors must complete a course in each of the following areas:

- **Introduction to Religion.** Satisfied by:
  - REL 104  Introduction to Religious Studies
  - or REL 105  Introduction to Religious Studies, Honors

- **Understanding the Bible.** Satisfied by:
  - REL 124  Understanding the Bible
  - or REL 125  Understanding the Bible, Honors

- **Overview of Judaism, Christianity, or Islam.** Satisfied by 1 course (3 hours) chosen from the following:
  - REL 107  Living Religions of the West
  - REL 109  Living Religions of the West, Honors
  - REL 311  Religion of Ancient Isreal
  - REL 315  History and Literature of Early Christianity
  - REL 325  Introduction to Judaism
  - REL 345  Christianity
  - REL 350  Islam
  - REL 570  Studies in Judaism

- **Overview of Religious Tradition other than Judaism, Christianity, or Islam.** Satisfied by 1 course (3 hours) chosen from the following:
  - REL 106  Living Religions of the East
  - REL 108  Living Religions of the East, Honors
  - REL 360  The Buddhist Tradition in Asia
  - REL 365  Hinduism
The University of Kansas

REL 507  Religion in India
REL 508  Religion in China
REL 509  Religion in Japan
REL 510  Religion in Korea
REL 555  Buddhists and Buddhism in China

Religion of North America. Satisfied by 1 course (3 hours) chosen from the following:
REL 171  Religion in American Society
REL 172  Religion in American Society, Honors
REL 330  Native American Religions
REL 339  History of Religion in America
REL 373  The Supreme Court and Religious Issues in the United States
REL 375  The Supreme Court and Religious Issues in the United States, Honors
REL 585  New Religious Movements (Western)
REL 586  New Religious Movements (Nonwestern)
REL 671  American Communes

Religious Studies Required Electives. Satisfied by 3 courses (9 hours) within, or cross-listed with, the Religious Studies Department course offerings.

Capstone Experience. Satisfied by:
REL 490  Senior Seminar in Theories and Methods

Religious Studies Major Hours & Major GPA

While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 27 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major, of which 9 must be at the junior/senior level (300+).

**Major Junior/Senior (300+) Hours**
Satisfied by a minimum of 15 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Graduation Plan

With careful planning and commitment to a full-time course load, you can graduate in 4 years. See the department for details.

Departmental Honors

To be eligible for honors in religious studies, an undergraduate student must have a minimum grade-point average of 3.25 overall and of 3.5 in the department. The student must also complete and defend an individual research project, as evidenced by completion of at least 3 hours of REL 499: Undergraduate Honors Research with a grade of B or better.

Interested students should contact the Undergraduate Director for more information.

Minor in Religious Studies

The undergraduate minor in the Department of Religious Studies is a research, analysis, and writing intensive program that features close work with faculty in small classroom settings. It seeks to develop a foundational knowledge of the world’s diversity of religious cultures and critical awareness of the ways in which religion shapes how we see and act toward ourselves, others, and the environment around us. Through the study of specific religious traditions and settings, students come away with a background that is invaluable to understanding and working with people of other cultures, whether in international business or simply as an informed global citizen.

Career Opportunities

Religious studies majors and minors develop expertise and skills that serve them well wherever life takes them. Our graduates have been successful in many different areas. Studying religion provides a solid foundation for work in fields as diverse as journalism, law, politics, nongovernmental organizations, ministry, and education. No matter what their intended careers, students benefit from the critical reading, writing, and analytical skills that the academic study of religion instills.

Requirements for the Minor

Religious Studies Minor Course Requirements

Students selecting this minor must complete a course in each of the following areas:

**Introduction to Religion (3)**
Satisfied by one of the following:
REL 104  Introduction to Religious Studies  3
or REL 105  Introduction to Religious Studies, Honors

**Overview of Judaism, Christianity, or Islam (3)**
Satisfied by 1 course (3 hours) chosen from the following:  3
REL 107  Living Religions of the West
REL 109  Living Religions of the West, Honors
REL 311  Religion of Ancient Israel
REL 315  History and Literature of Early Christianity
REL 325  Introduction to Judaism
REL 345  Christianity
REL 350  Islam
REL 570  Studies in Judaism

**Overview of Religious Tradition other than Judaism, Christianity, or Islam (3)**
Satisfied by 1 course (3 hours) chosen from the following:  3
REL 106  Living Religions of the East
REL 108  Living Religions of the East, Honors
REL 360  The Buddhist Tradition in Asia
REL 507  Religion in India
REL 365  Hinduism
REL 508  Religion in China
REL 509  Religion in Japan
Religion of North America (3)
Satisfied by 1 course (3 hours) chosen from the following:
- REL 171 Religion in American Society
- REL 330 Native American Religions
- REL 373 The Supreme Court and Religious Issues in the United States
- REL 375 The Supreme Court and Religious Issues in the United States, Honors
- REL 585 New Religious Movements (Western)
- REL 586 New Religious Movements (Nonwestern)
- REL 671 American Communes

Religious Studies Minor Required Elective (6)
Satisfied by completing 6 additional hours in REL courses at the 300 level or above.

Religious Studies Minor Hours & Minor GPA
While completing all required courses (above), minors must also meet each of the following hour and grade-point average minimum standards:

**Minor Hours**
Satisfied by 18 hours of major courses.

**Minor Hours in Residence**
Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

**Minor Junior/Senior (300+) Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

**Minor Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

### Master of Arts in Religious Studies

**Why study religious studies?**
Religions have been and remain among the most powerful forces shaping human history. Their discourses and practices inform the way we perceive ourselves, those around us, and existence at large, even when we are not actively religious. They are central to understanding both what divides us and unites us. The academic study of religion is a trans-disciplinary endeavor to understand from an objective perspective how religious traditions shape the lives of their adherents, without seeking to promote or disprove any specific belief system. Religious Studies acquaints students with the diversity of religious cultures and introduces them to key methods and theories employed in their examination as "religion."

### Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

### Graduate Admission
A B.A. in religious studies is not required for admission, but the department expects applicants to show on their transcripts significant exposure to the humanities and social sciences.

The department requires Graduate Record Examination scores for admission. Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to The University of Kansas Department of Religious Studies Smith Hall 1300 Oread Ave., Room 109A Lawrence, KS 66045-7603

### M.A. Degree Requirements

**Concentration**
In addition to developing a general competence in the larger field of religious studies, its approaches, and its methods, students craft their programs of study around the following areas of concentration. Examples include

- Indigenous religions
- Islamic studies
- Jewish studies
- Religion in the Ancient Near East and Mediterranean
- Religion in Asia
- Religion in the U.S.A.
- Religious ethics
- Theories and methods of studying religion

### Degree Requirements with Thesis
The thesis track in religious studies comprises 3 aspects: required course work, comprehensive exam, and thesis.

1. A candidate for this degree must complete 30 graduate credit hours with the following stipulations:
   • (a) At least 18 credit hours must be in courses in religious studies and the rest in fields related to a declared concentration.
   • (b) Course work must include at least 12 hours (4 courses) in the articulated concentration.
   • (c) Upon completion of 12 hours of course work, the student articulates an area of concentration and a program of study,
which will culminate in the production and oral defense of a research portfolio. The student and the advisor determine whether the student will pursue a thesis or a nonthesis track and plan the remaining course work, including the acquisition of relevant linguistic and research skills.

- (d) Each student must complete REL 601 Approaches to the Study of Religion the first year in the program.
- (e) Each student must complete 2 seminars (total of 6 credit hours) from the following set of theory and method-oriented seminars:

<table>
<thead>
<tr>

</tbody>
</table>

- (g) Each student must complete 9 hours in courses numbered 700 or above, excluding REL 800 Readings and REL 899 Thesis.

Courses at the 700 level in religious studies are conducted as seminars.

2. Each student must produce and give an oral defense of a research portfolio.

3. Each student must write and successfully defend a thesis that meets minimum department and general requirements. 3 hours in REL 899 Thesis may be credited toward fulfillment of the required 30 credit hours.

**Degree Requirements, Nonthesis**

The nonthesis track comprises 2 aspects: required course work and comprehensive examination.

1. A candidate for this degree must complete 33 graduate credit hours with the following stipulations:

   - (a) At least 21 of the 33 graduate hours must be in courses in religious studies and the rest in fields related to an articulated concentration.
   - (b) Course work must include at least 12 hours (four courses) in the articulated concentration.
   - (c) Upon completion of 12 hours of course work, the student articulates an area of concentration and program of study, which will culminate in the production and oral defense of a research portfolio. The student and the advisor plan the remaining course work, including the acquisition of relevant linguistic and research skills.
   - (d) Each student must complete REL 601 Approaches to the Study of Religion the first year in the program.
   - (e) Each student must complete 2 seminars (total of 6 credit hours) from the following set of theory and method-oriented seminars:

A Master of Arts degree is offered in 3 tracks:

**Graduate Programs**

- The co-major or minor also can be combined with a bachelor's degree in such schools as business or journalism.

**Undergraduate Programs**

The interdisciplinary bachelor's degree is available only as a co-major or minor in conjunction with a major in one of the traditional academic disciplines. The co-major or minor also can be combined with a bachelor's degree in such schools as business or journalism.

**Center for Russian, East European, and Eurasian Studies**

The Center for Russian, East European, and Eurasian Studies is one of 16 comprehensive National Resource Centers funded by Title VI of the U.S. Higher Education Act for the study of Russia, Ukraine, Central Asia, East Central Europe, and the Balkans. It promotes language and area study in an integrated, interdisciplinary framework and in traditional academic disciplines. Languages taught include Russian, Ukrainian, Polish, Czech, Bosnian/Croatian/Serbian, Slovenian, Turkish, and Yiddish. The center administers B.A. co-major and M.A. degree programs in Russian, East European, and Eurasian studies and supports study abroad in Russia, Poland, Croatia, and Ukraine. Each year, visiting scholars from the region join KU's 50 area faculty members in exchange, instructional, and research activities. The center also coordinates and sponsors conferences, lectures, theatre, and outreach activities of interest to KU students, faculty members, K-12 teachers, and the community. It serves as a resource to the state, the Great Plains, and the nation.

**Courses**

**REES 110. Understanding Russia and Eastern Europe. 3 Hours. SC AE42 / S.**

A multidisciplinary introduction to the former communist states of Russia, the western Newly Independent States, Central Europe, and the Balkans. The course addresses the geography and history of the region, as well as the cultures of its peoples, as presented in literature, film, and music. Special attention is devoted to the current political, economic, and social situations, as they are reflected by the transition from communism and the rise of nationalism. LEC.

**REES 111. Understanding Russia and Eastern Europe, Honors. 3 Hours. SC AE42 / S.**

A multidisciplinary introduction to the former communist states of Russia, the western Newly Independent States, Central Europe, and the Balkans. The course addresses the geography and history of the region, as well as the cultures of its peoples, as presented in literature, film, and music. Special attention is devoted to the current political, economic, and social situations, as they are affected by the transition from communism and the rise of nationalism. Prerequisite: Open only to students in the University Honors Program, or by permission of instructor. LEC.

**REES 177. First Year Seminar: ______. 3 Hours. GE11 / U.**

A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Russian, East European, and Eurasian Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**REES 220. Societies and Cultures of Eurasia. 3 Hours. NW AE42 / S.**

A broad, survey-type course that examines all the former Soviet republics-Ukraine, Belarus, Moldova, Lithuania, Latvia, Estonia, Georgia, Armenia, Azerbaijan, Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan-with additional coverage of neighboring regions. The course addresses the history of the region, literature, culture, geography, religion, and the building of post-Soviet states and societies. LEC.

---

**Transfer of Credit**

Transfer of graduate credit is allowed, including study abroad course credit, from other accredited institutions, up to a total of 6 hours. (View the policy on graduate credit, including transfer credit in the Graduate Studies (p. 2059) section of the online catalog. Bachelor's degree graduates from KU are permitted to transfer 8 hours. The hours may be used only when the M.A. is completed within 6 years of the time the credit was given. Application for transfer must be made by the student and the advisor to the committee on graduate studies. Normally, such applications are not made until after 12 hours of KU coursework have been completed. If the committee approves, applications are forwarded for approval.

---

**Russian, East European, and Eurasian Studies Program**

**Why study Russian, East European, and Eurasian studies?**

The interdisciplinary study of Russia, Eastern Europe, and Eurasia creates culturally informed citizens who can act on national and international issues.

---

**Undergraduate Programs**

The interdisciplinary bachelor's degree is available only as a co-major or minor in conjunction with a major in one of the traditional academic disciplines. The co-major or minor also can be combined with a bachelor's degree in such schools as business or journalism.

---

**Graduate Programs**

A Master of Arts degree is offered in 3 tracks:
REES 221. Societies and Cultures of Eurasia, Honors. 3 Hours. NW AE42 / S.
Examines the unique cultures and societies of the Eurasian region (Georgia, Azerbaijan, Armenia, Kazakhstan, Uzbekistan, Kyrgyzstan, Turkmenistan, Tajikistan and to a lesser degree, Russia, Mongolia and Afghanistan). For the better part of the 20th Century, this distinct region of the world was hidden beneath the communist veneer of the Soviet Union. With the collapse of the USSR, the countries of this region are returning to their historic roots, and this course introduces students to the history, politics, economics, literature and general culture of these countries. Open only to students admitted to the University Honors Program or by permission of instructor. LEC.

REES 480. Topics in Russian and East European Studies: ____. 1-3 Hours. H.
Interdisciplinary examination of topics involving two or more disciplines in Russian, East European, and Eurasian studies. LEC.

REES 485. War and Peace in Russian Culture. 3 Hours. H/W.
Lectures, readings, oral discussion, and written analyses of selected major works of Russian writing and other modes of creative expression and discourse that treat the subject of war and peace, such as imaginative literature, works of history, memoirs, cinema, music, and painting. Reading examples are The Song of Igor’s Campaign, Alexander Pushkin’s The Captain’s Daughter and A History of Pugachev, Leo Tolstoy’s War and Peace, Nadezhda Durova’s The Notes of a Girl-Cavalryman, Boris Pasternak’s Doctor Zhivago and George Kennan’s Russia Leaves the War. Not open to students who have taken REES 685. LEC.

REES 492. Research Methods in Russian, East European, and Eurasian Studies. 3 Hours. AE61 / H.
Development of interdisciplinary research skills and familiarity with resources and issues in the study of Russian, East European, and Eurasian Studies. Preparation for REES 496. LEC.

REES 496. Capstone Research Seminar in Russian and East European, and Eurasian Studies. 3 Hours. AE61 / H.
Interdisciplinary original research conducted using at least one REES language and resulting in a research paper. Prerequisite: REES 492. LEC.

REES 498. Directed Readings. 1-3 Hours. H.
Individual and supervised readings in selected areas of Russian, East European, and Eurasian Studies. Prerequisite: Prior permission of instructor and either CREES director or associate director. LEC.

REES 499. Capstone Research Seminar in Russian, East European, and Eurasian Studies, Honors. 3 Hours. AE61 / H.
Research and writing of a substantial paper, involving interdisciplinary original research and use of sources in at least one REES language, and presentation of this paper to an Honors committee of three REES faculty members. This thesis must be substantially different from any other Honors thesis. Prerequisite: REES 492. LEC.

REES 510. Understanding Central Asia. 3 Hours. NW AE42 / S/W.
An intensive, multidisciplinary survey of Central Asia, focusing on the former Soviet republics-Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, Uzbekistan-with additional coverage of neighboring regions (the Caucasus and the Caspian basin, Afghanistan, and western China). The course addresses the history of the region (from the Silk Road to Soviet rule), geography, religion, and the building of post-Soviet states and societies. (Same as GEOG 590.) LEC.

REES 512. Siberia: Yesterday and Today. 3 Hours. NW AE42 / H/W.
An interdisciplinary course examining the development of Siberia from its beginnings to the present day. Topics to be covered are selected from the following list: topography and natural resources; conquest and exploitation by Russian and other European settlers; Siberia’s role as a place of imprisonment and exile; the development of towns and transportation systems; Siberian historiography; Siberian Russian literature; and Siberia’s place in Russia’s economy and national defense. LEC.

REES 513. Siberia: Russia’s Eastern Frontier. 3 Hours. NW AE42 / H/W.
An interdisciplinary course examining the terrain, peoples, and cultures of the vast expanse in northern Asia known as Siberia. Areas of inquiry include geology, archeology, ethnography, religions, folk culture, the arts, science and education, politics, and environmental problems. With an emphasis on the natural and social sciences, and exploration of the relationship between Siberia and its neighbors in all directions, including the United States (Alaska, “Russian America”), this course can be taken without duplication by students who have already taken REES 512 (or SLAV 512) Siberia Yesterday and Today. LEC.

REES 532. Russian Strategy and Military Power. 3 Hours. H.
Examines the central role the Russian military has played in its country’s politics, society, and culture in the modern period. Treats Russia’s victories and defeats in war, the course highlights the continuities in Russian strategic practices and illuminates the current and future strategic policies and military developments of the contemporary Russian state. LEC.

REES 573. Borderland Between Russia & Europe. 3 Hours. H/W.
Examines the history of relations between the governments, emerging national elites, and populations of Russia, Ukraine, Poland, and other East European countries, and the different regional perceptions and stereotypes, including the new post-Soviet states and their European neighbors. LEC.

REES 574. Ethnicity and Nationalism in Eastern Europe. 3 Hours. H/W.
Examines the emergence and evolution of regional ethno-cultural and national identities in Eastern Europe. Discusses the theories and definitions of ethnicity, nationality, and nationalism, and offers a practical approach to understanding nationalism’s and nationalist movements in Eastern Europe. LEC.

REES 646. Translation in Theory and Practice. 3 Hours. H.
Students undertake substantial work in the translation of non-technical writing, (e.g. poems, short stories, novels, essays, works of history, scientific treatises), from any REES language into English, and examine the practical and theoretical problems encountered in translation from the source to the target language. Prerequisite: BCRS 508, PLSH 508, RUSS 508, or permission of instructor. LEC.

REES 685. War and Peace in Russian Culture (in Russian). 3 Hours. H/W.
This course is taught in Russian. Lectures, readings, oral discussion, and written analyses of selected major works of Russian writing and other modes of creative expression and discourse that treat the subject of war and peace, such as imaginative literature, works of history, memoirs, cinema, music, and painting. Reading examples are Slovo o polku Igoreve, Pushkin’s Kapitanskaia dochka and Istoriia Pugacheva, Tolstoy’s Voina i mir, Evgenii Tarle’s Napoleon, Pasternak’s Doktor Zhivago and Andrei Petukhov’s Pamiat’ o sluubze. Not open to students who have taken REES 485. Prerequisite: 3 years of Russian at the college level. LEC.

REES 687. Biography of a City: St. Petersburg. 3 Hours. AE42 / H.
Examination in depth of the historical, social, intellectual, and artistic development of St. Petersburg as a major urban center. LEC.
REES 704. Russian Orthodoxy in Historical Perspective. 3 Hours.
This course examines Russian Orthodoxy as a religious system and the institution of the Russian Orthodox Church from its first appearance in Russia to the present. It focuses on beliefs and practices of the clergy and laity; institutional structures; the relationships between Church and State; interactions with non-Orthodox religious communities; responses to Soviet atheist policies; Orthodox influences on political theory, philosophy, literature, and the fine arts. (Same as REL 704.) LEC.

REES 715. Seminar in the History of Russian Thought. 3 Hours.
Topics in the development of social radicalism and of philosophical positivism and materialism from Radishchev through the Russian Marxists. A reading knowledge of Russian is desirable but not required. Prerequisite: REES 723 or PHIL 580. LEC.

REES 799. Directed Readings in Russian and East European Studies. 1-5 Hours.
RSH.

REES 895. Special Problems in Area Studies: ______. 3 Hours.
Interdisciplinary examination of topics involving two or more of the cooperating disciplines in Russian and East European studies. LEC.

REES 897. Research. 1 Hour.
Enrollment to fulfill Masters continuous enrollment rule. Prerequisite: Completion of all degree requirements except submission of seminar paper or comprehensive examination. RSH.

REES 898. Seminar in Russian and East European Studies. 3 Hours.
Mastery of interdisciplinary research skills, and knowledge of resources and scholarship on the study of Russian, east European, and Eurasian Studies. LEC.

REES 899. Capstone Research Seminar in Russian, East European, and Eurasian Studies. 3 Hours.
Research, write, and present a professional-quality paper, involving interdisciplinary original research, consultation with REES faculty, and substantial use of sources in at least one REES language. Prerequisite: REES 898. SEM.

TAJ 110. Elementary Tajik I. 5 Hours. U.
Vocabulary acquisition, pronunciation, grammar, and writing. Course includes reading of simple texts. Five hours of class per week. LEC.

TAJ 120. Elementary Tajik II. 5 Hours. U.
Continuation of TAJ 110. Vocabulary acquisition, pronunciation, grammar, and writing. Course includes reading of simple texts. Five hours of class per week. Prerequisite: TAJ 110 or departmental permission. LEC.

TAJ 210. Intermediate Tajik I. 3 Hours. U.
A continuation of TAJ 120. Course emphasizes oral and written work in Tajik. Systematic review of grammar and introduction to reading in cultural texts. Prerequisite: TAJ 120 or departmental permission. LEC.

TAJ 220. Intermediate Tajik II. 3 Hours. U.
A continuation of TAJ 210. Course emphasizes oral and written work in Tajik. Systematic review of grammar and introduction to reading in cultural texts. Prerequisite: TAJ 210 or departmental permission. LEC.

TAJ 310. Advanced Tajik I. 3 Hours. U.
Enhancement of speaking, comprehension, reading and writing abilities in Tajik. Readings from Tajik literature introduced. Prerequisite: TAJ 220 or placement exam that establishes a level of proficiency in Tajik suited to Advanced Tajik I. LEC.

TAJ 320. Advanced Tajik II. 3 Hours. U.
Enhancement of speaking, comprehension, reading and writing abilities in Tajik. Readings from Tajik literature introduced. Prerequisite: TAJ 220 or placement exam that establishes a level of proficiency in Tajik suited to Advanced Tajik II. LEC.

TAJ 510. Tajik for Geographers. 1 Hour. H.
The course is designed to facilitate the use of primary sources in Tajik for carrying out research in human geography of Tajikistan. TAJ 510 compliments REES 510. Prerequisite: TAJ 220, or consent of instructor. LEC.

TAJ 532. Tajik For Sociologists. 1 Hour. H.
The course is designed to facilitate the use of primary sources in Tajik for carrying out research in sociology of Tajikistan. TAJ 532 compliments SOC 532. Prerequisite: TAJ 220, or consent of instructor. LEC.

Co-Major in Russian, East European, and Eurasian Studies

Why study Russian, East European, and Eurasian studies?
The interdisciplinary study of Russia, Eastern Europe, and Eurasia creates culturally informed citizens who can act on national and international issues.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Requirements for the Co-Major

Russian, East European, and Eurasian Studies Co-Major Course Requirements

Prerequisite Language Skills (30)

Students selecting this co-major must complete 4th semester proficiency in a Russian, Eastern European, or Eurasian language (take the courses for majors):
### Bosnian-Croatian-Serbian:
- **BCRS 208** Intermediate Bosnian/Croatian/Serbian II

### Czech:
- **CZCH 208** Intermediate Czech II

### Polish:
- **PLSH 208** Intermediate Polish II

### Russian:
- **RUSS 208** Intermediate Russian II

### Slovenian:
- **TAJ 210** Intermediate Tajik I

### Turkish:
- **TURK 208** Intermediate Turkish II

### Uyghur:
- **UYGR 202** Intermediate Uyghur II

### Ukranian:
- **UKRA 208** Intermediate Ukrainian II

### Yiddish:
- **YDSH 216** Intermediate Yiddish II

### Understanding Russia and Eastern Europe or Societies and Cultures of Eurasia (3)

Satisfied by one of the following:

- **REES 110** Understanding Russia and Eastern Europe
- **REES 111** Understanding Russia and Eastern Europe, Honors
- **REES 220** Societies and Cultures of Eurasia
- **REES 221** Societies and Cultures of Eurasia, Honors

### Slavic Languages and Literatures (0)

(5th semester)

### REES Required Electives (0)

Satisfied by the completion of 1 course in each of the following categories:

- **Literature and the Arts**
  - ANTH 315 The Prehistory of Art
  - HWC 520 Literature in Translation: ______ (Russian)
  - SLAV 140 Introduction to Russian Culture
  - SLAV 141 Introduction to Russian Culture, Honors
  - SLAV 144 Survey of Russian Literature in Translation
  - SLAV 145 Survey of Russian Literature in Translation, Honors
  - SLAV 148 Introduction to Slavic Folklore
  - SLAV 506 West Slavic Literature and Civilization (Polish and Czech)
  - SLAV 520 Russian Phonetics, Phonology, and Inflectional Morphology
  - SLAV 534 Tolstoy
  - SLAV 561 Readings in Slavic Language: ______ (Slovene)
  - SLAV 662 Russian Literary Modernism: 1880-1930
  - SLAV 678 Readings in Slavic Linguistics
  - SLAV 679 Topics in: ______ (Russian Language Pedagogy)
  - THR 302 Undergraduate Seminar in: ______ (Theatre and Genocide)

- **History**
  - HIST 115 French Revolution to the Present: Europe 1789-Present
  - HIST 340 The History of the Second World War
  - HIST 444 Frozen in Time: Politics and Culture in the Cold War, 1945-75
  - HIST 510 Topics in: ______ (Siberia: Yesterday and Today)
  - HIST 564 Medieval Russia

### Political Science

- **POLS 171** Introduction to International Politics Honors
- **POLS 654** Politics and Government of Russia and the Central Eurasian States
- **POLS 669** Topics in Comparative Politics: ______ (European Union Politics)
- **POLS 980** International Organizations

### Economics, Geography, Business, Law

- **ECON 505** History of Economic Analysis
- **ECON 620** Elements of Mathematical Economics
- **EVRN 320** Environmental Policy Analysis
- **GEOG 379** Topics in Cultural Geography: ______ (Environmental Policy)

### IBUS 701 International Business

### Capstone (6)

Satisfied by the following, completed in the senior year.

- Research Methods in Russian, East European, and Eurasian Studies.
  Satisfied by:
  - **REES 492** Research Methods in Russian, East European, and Eurasian Studies
  - **REES 496** Capstone Research Seminar in Russian and East European, and Eurasian Studies

Majors are strongly encouraged to study abroad. Please see your advisor about this opportunity.

### Russian, East European, and Eurasian Co-Major Hours & GPA

While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

#### Co-Major Hours
Satisfied by 30 hours of co-major courses.

#### Co-Major Hours in Residence
Satisfied by a minimum of 9 hours of KU resident credit in the co-major.

#### Co-Major Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

#### Major Junior/Senior (300+) Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the co-major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Graduation Plan
With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the department for details.

Honors
Departmental Honors
Honors in Russian, East European, and Eurasian studies is open to REES co-majors who have earned, both at the time of entry into the program and at graduation, an overall grade-point average of 3.25 or higher, and 3.5 or higher in courses that satisfy requirements for the REES co-major.

Students must complete REES 492 Research Methods in Russian, East European, and Eurasian Studies and REES 499 (Honors) Capstone Seminar in Russian, East European, and Eurasian Studies with a grade of B or better. The research paper produced in REES 499 must demonstrate the student’s proficiency in at least one of the REES languages through the use of foreign language sources. The paper is evaluated by an honors committee of at least three REES faculty members who have read and commented on the research paper and heard its oral defense. The committee its constituted by the student in consultation with either the director or associate director of CREES.

Study Abroad
Though not required, study abroad is strongly encouraged. Courses taken abroad may count toward the co-major if approved by the REES advisor.

Consult the Center for Russian, East European, and Eurasian Studies (http://www.crees.ku.edu) or the Office of Study Abroad (http://www.studyabroad.ku.edu) for information about programs.

Minor in Russian, East European, and Eurasian Studies

Why study Russian, East European, and Eurasian studies?
The interdisciplinary study of Russia, Eastern Europe, and Eurasia creates culturally informed citizens who can act on national and international issues.

Requirements for the Minor
Russian, East European, and Eurasian Studies Minor Course Requirements
Students selecting this minor must complete the following:

Understanding Russia and Eastern Europe or Societies and Cultures of Eurasia (3)
Satisfied by one of the following:

REES 110 Understanding Russia and Eastern Europe
or REES 111 Understanding Russia and Eastern Europe, Honors
REES 220 Societies and Cultures of Eurasia
or REES 221 Societies and Cultures of Eurasia, Honors

REES Required Electives (15)

Adjust the following application materials:

professional study in another department or school. Consider completing the M.A. degree in conjunction with academic or professional degrees. Some students may be admitted as either a degree-seeking or non-degree seeking student.

Minimum Hours
Satisfied by 18 hours of minor courses.

Minor Hours in Residence
Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

Minor Junior/Senior Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the minor. GPA calculations include all junior/senior courses in the fields of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in Russian, East European, and Eurasian Studies

Why study Russian, East European, and Eurasian studies?
The interdisciplinary study of Russia, Eastern Europe, and Eurasia creates culturally informed citizens who can act on national and international issues.

Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission
Most applicants hold B.A. degrees in the social sciences or humanities with grade-point averages of 3.0 or higher. Students with B.S. or professional degrees are also eligible to apply. Some students may consider completing the M.A. degree in conjunction with academic or professional study in another department or school.

Students should submit the following application materials:

• Application for admission, sent to the Graduate Application Processing Center of the University of Kansas.

• A nonrefundable application fee (payable to the University of Kansas; see Admission in the Graduate Studies (p. 2059) section of the online catalog).

• 1 original transcript of all college-level work.

• Graduate Record Examination scores. International students should also submit Test of English as a Foreign Language scores.

• 3 letters of recommendation commenting on the student's ability to succeed at graduate work. These letters should be accompanied by a signed waiver form, indicating whether the applicant has waived his or her rights to see the letter.

• A 2-page statement of the student's educational and professional objectives.

Applications to begin the M.A. program should be submitted by January 1 for admission for the following fall semester. Applications may be accepted off-cycle; please consult with the graduate advisor.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the program:

The University of Kansas
Russian, East European, and Eurasian Studies
Bailey Hall
1440 Jayhawk Blvd., Room 320
Lawrence, KS 66045-7545

The Foreign Affairs Studies (FAST) concentration within the existing MA in Russian, East European, and Eurasian Studies is a new concentration that will (1) emphasize REES in Global Context and (2) place a greater emphasis on social sciences within REES coursework. The required GIST 710 Interdisciplinary Methods for Global Context emphasizes social science methodology. We expect the audience for this concentration to be primarily Foreign Area officers (FAQs) and others already in the workforce who need an intensive program that can be completed in a year. An intensive area studies program will also serve career needs of former Peace Corps volunteers and others who have the required language proficiency and first-hand knowledge of the given region. To this end, the course sequences and availability will make it possible to complete the FAST concentration in 12 months. The FAST REES will run Fall (12 credit hours) – Spring (12 credit hours) – Summer (6 credit hours), not necessarily in this sequence.

Students must successfully complete 30 hours of coursework:

Concentration in 1 of the following 5 disciplinary areas: history; political science; philosophy and religion; literature and the arts; geography/economics/business (2 electives, total 6 hrs)

If a student chooses political science or geography/economics/business as an area of concentration, GIST 710 Interdisciplinary Methods for Global Contexts is required along with another elective in this area.

If a student chooses literature/arts, history, or philosophy/religion as an area of concentration, GIST 710 can be used to replace the distribution requirement in political science or geography/economics/business.

25% or more of coursework in GIST 898 and GIST 710 must pertain to REES geographical area.

IBUS 701 International Business

GEOG 379 Topics in Cultural Geography: _____
(Environental Policy)
The Capstone seminar sequence: REES 898 and REES 899 (6hrs)
GIST 898 Thesis/Project Writing offered in the summer (3hrs)
Advanced Language Course at 500 level or above (3hrs).

**M.A. Degree Requirements**

A Master of Arts degree is awarded in 3 tracks: Russian, East European, and Ukrainian.

**Requirements for the Degree**

1. At least 1 course in a REES-area advanced foreign language.
2. 3 courses for a total of 9 credit hours, in the department or subject group of the student’s special interest; at least 2 of these courses must be area specific.
   The 5 thematic areas are
   - Literature and the Arts
   - History
   - Political Science
   - Philosophy and Religion
   - Economics, Business, Geography
3. 1 area course in each of the other 4 subject groupings, for a total of 12 hours.
4. Successful completion of REES 898 and REES 899, an interdisciplinary M.A. seminar (6 credit hours), develops advanced research skills. REES 898, which is normally taken at the beginning of the degree program, emphasizes learning the tools and methods necessary to study this region of the world. In REES 899, students write an interdisciplinary research paper using materials in the student’s chosen target language. Before enrolling in REES 899, the student must have completed an advanced language course in the target language.
5. Pass a comprehensive examination in addition to regular course examinations. Information about opportunities and requirements for graduate work with a Russian or East European concentration in any department at KU may be obtained from the department.

Requirements may be modified in special cases with the director’s approval, particularly for students with special needs such as Experienced Teacher Fellows, Foreign Area Officers, or candidates for degrees in the professional schools. All students are encouraged to study abroad.

**Plan of Study**

The plan of study is designed by the student in consultation with the advisor.

---

**Graduate Certificate in Russian, East European, and Eurasian Studies**

**Why study Russian, East European, and Eurasian studies?**

The interdisciplinary study of Russia, Eastern Europe, and Eurasia creates culturally informed citizens who can act on national and international issues.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

The Russian, East European, and Eurasian Studies (REES) graduate certificate is a 12-credit hour program of study designed primarily for graduate students in CLAS and the professional schools. The program allows the students to acquire context-based interdisciplinary knowledge and expertise of the REES area. The certificate allows for that expertise to be officially recognized on the students’ KU transcript, enhancing the graduates’ career opportunities.

The main academic objectives of the graduate certificate include introducing and training graduate students in the current methodological approaches to the study of the REES area; allowing the students to acquire a deeper knowledge of the area from different disciplinary perspectives; and guiding the students in integrating their knowledge of the area, methodology, and a REES-area language. As a part of the capstone seminar, graduate certificate students write an original research paper on a REES-area topic that utilizes research in both English and the target language.

As a prerequisite to beginning the course sequence that leads to the certificate, the student must demonstrate a working knowledge of a REES-area language equivalent of at least 2 years of university study.

The CREES graduate certificate includes a 12-credit hour course sequence (4 3-credit hour courses). Out of the 4 courses, 2 are mandatory: the methodology seminars, REES 898 and REES 899.

- REES 898 is taken during the student’s first semester, as it lays out the foundation for interdisciplinary area studies in REES.
- 2 electives must be chosen from a list of REES-themed offerings from 2 different disciplines, of which 1 can overlap with the coursework taken by the student in his or her home department. The courses must be 500-level or higher and have at least 50% REES content.
- REES 899 is taken following the completion of the elective courses. The capstone seminar, in which the student identifies an original research topic, and under the professor’s supervision, produces a
capstone paper of publishable quality, a part of which is a working bibliography which includes both English and foreign-language sources. REES 899 is used to demonstrate student knowledge of area studies content and methodology, and the capstone paper is the primary outcome of this course.

REES 898 and REES 899 are taken by both REES MA students and REES graduate certificate students. These students work together on acquiring tools for researching and writing about the REES area, and then applying these tools towards individual projects.

**Department of Slavic Languages and Literatures**

The Department of Slavic Languages & Literatures offers a full array of language, culture, literature, and linguistics courses for students interested not only in Russian, but also in Polish, Bosnian/Croatian/Serbian, Ukrainian, and Turkish languages and cultures. The department also offers occasional coursework and independent study in Slovene, Czech, Yiddish, and other East European languages.

The department offers three degrees: the B.A., the M.A., and the Ph.D. The Bachelor of Arts degree program offers fundamental training in language and culture, while graduate training at the Masters and Doctoral levels focuses on Russian literature and culture, Slavic linguistics, and/or Slavic language pedagogy. The department also offers select study abroad programs. Working closely with KU’s Center for Russian, East European, and Eurasian Studies (CREES), the department offers an array of Slavic-related events throughout the year, including visiting distinguished lecturers, exhibits, and musical and theatrical performances. Students participate in an active Russian Club, language tables, and the Graduate Students’ Organization.

For more information about the department and its people, visit the department’s web site (http://slavic.ku.edu). Look for the Old Bridge at Mostar at the very top of the page. Commissioned by Suleiman the Magnificent in 1557, the bridge metaphorically connects the Ottoman Empire with Europe — it is the physical expression of the concept that Russia and the Slavs link the West and the East.

**Undergraduate Programs**

The undergraduate major in Slavic languages and literatures prepares students to pursue a range of careers connected with Russia and Central Europe, including those related to international work in business, government, nonprofit organizations, etc. The undergraduate major serves equally as solid preparation for graduate study in Slavic languages and literatures and related fields and for entrance to professional schools such as law or journalism. Students learn these languages to pursue careers with international dimensions; enhance job opportunities; connect with heritage, family, and communities; explore other literatures and cultures; and pursue personal interests.

The undergraduate program gives students solid functional language skills in speaking, reading, listening, and writing. Students develop the strategies and linguistic awareness to continue language study throughout their lives. The program acquaints undergraduates with the most significant works of the literature and culture of the Slavic region and gives them the tools and frameworks necessary to understand, analyze, and critique those works and place them in their cultural context. Students work with sources in English and in the original languages.

The department strongly encourages students to plan a substantial study abroad experience (at least a summer but preferably a semester or an academic year) as part of the major. Study abroad experience contributes to mastery of the language and facilitates students’ encounters with the people, practices, and attitudes of the culture in ways that can never be replicated on an American university campus.

**Placement**

Students may establish eligibility for enrollment in the second course in Polish, Russian, or Bosnian/Croatian/Serbian by having earned college credit in the first course in that language or by having studied the language in high school. Students with previous study should contact the department to arrange a consultation about enrollment at the appropriate level.

**Retroactive Credit**

Students with no prior college or university Russian course credit are eligible for retroactive credit according to this formula:

- 3 hours of retroactive credit are awarded to a student with 2 or 3 years of high school Russian who enrolls initially at KU in a third-level Russian course (RUSS 204 or RUSS 212) and receives a grade of C or higher.
- 6 hours of retroactive credit are awarded to a student with 3 or 4 years of high school Russian who enrolls initially at KU in a fourth-level Russian course (RUSS 208 or RUSS 216) and receives a grade of C or higher.
- 9 hours of retroactive credit are awarded to a student with 4 years of high school Russian who enrolls initially at KU in a Russian course with a fourth-level course as a prerequisite and receives a grade of C or higher.

**Courses for Nonmajors**

Some courses in Slavic literatures and cultures are taught in English and fulfill various goals and learning outcomes related to the KU CORE, as well as existing B.A. requirements in the humanities and non-Western culture.

Students may fulfill the College language requirement for the B.A. degree by taking 2 years in one of the following languages: Russian, Polish, Bosnian/Croatian/Serbian, Ukrainian, and Turkish.

Courses are available in Russian for special purposes (Russian for Reading, Russian for the Professions), RUSS 110 Intensive Elementary Russian (10 credit hours) frequently is offered in the summer.

**Graduate Programs**

The department offers programs leading to Master of Arts and Doctor of Philosophy degrees in Slavic Languages and Literatures.

**Master of Arts**

The Master of Arts degree in Slavic Languages & Literatures provides students with foundational knowledge of the language, literature, culture, and linguistics of a region of study (Russian, Polish, Bosnian-Croatian-Serbian). Working in a collegial and supportive departmental environment, M.A. students learn the general contours and common ground of the field; read key works embedded in their historical, cultural, stylistic, and genre contexts; learn various methodological and theoretical frameworks
and strategies; improve their language capacity, and develop research, writing, interpretive, and technological skills.

**Doctor of Philosophy**

The Doctor of Philosophy degree in Slavic Languages & Literatures builds further on the foundational knowledge and the structured classroom learning that students engaged in during MA work. Working under the close mentorship of their advisors, PhD students develop a minor in a related field, learn advanced pedagogical and interpretive strategies, continue to improve language skills, and engage in self-motivated, independent study to develop a coherent area of specialization. Students complete their graduate study.

Students pursuing doctoral study in the department of Slavic Languages & Literatures concentrate their advanced work in one of three areas: Russian literature and culture; Slavic language pedagogy; and Slavic linguistics.

**Departmental Funding**

While it is not guaranteed, the department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year and come with:
- a competitive academic year (9 month) salary
- a 100% tuition waiver for all courses at KU
- payment of up to 3 hours of student fees
- optional University-subsidized group health insurance

The appointments are guaranteed based on performance for up to 3 years for M.A. students, 5 years for Ph.D. students and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training in language instruction, close mentoring, and the opportunity to teach at a variety of levels, providing them with a strong base of teaching experience upon entering the job market. Additional information about teaching for the department is available on the Graduate Programs overview (http://slavic.ku.edu/ma-slavic-overview) page of our departmental website.

**FLAS Fellowships**

Students in the graduate program may also be eligible for a Foreign Language and Area Studies (FLAS) (http://flas.ku.edu) fellowship. FLAS fellowships include:
- Summer award - up to $5,000 for tuition and a stipend of $2,500 for living expenses for summer language study equivalent to one full year of language study
- Academic Year award - full KU tuition and a $15,000 stipend for living expenses for academic year study that includes two semesters of language and six credits or more of East Asian culture courses.

Students in the are strongly encouraged to apply (http://flas.ku.edu/how-apply) for this funding.

**Additional Funding**

There are also university fellowships for truly outstanding students. Visit the Graduate Studies website for information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for KU graduate students.

**Courses**

**BCRS 104. Elementary Bosnian/Croatian/Serbian I. 5 Hours. U.**
First Semester. Five hours of recitation and drill in the spoken language per week. Essentials of grammar, practice in reading, writing and speaking Bosnian/Croatian/Serbian. LEC.

**BCRS 105. Elementary Bosnian/Croatian/Serbian I, Honors. 5 Hours. U.**
Similar to BCRS 104 but with additional work aimed at accelerating the student’s progress to proficiency and widening understanding of cultural context. Prerequisite: Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

**BCRS 108. Elementary Bosnian/Croatian/Serbian II. 5 Hours. U.**
Second Semester. A continuation of BCRS 104. Prerequisite: BCRS 104. LEC.

**BCRS 109. Elementary Bosnian/Croatian/Serbian II, Honors. 5 Hours. U.**
Continues BCRS 105. Similar to BCRS 108 but with additional work aimed at accelerating the student’s progress to proficiency and widening understanding of cultural context. Prerequisite: BCRS 104 or 105. Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

**BCRS 177. First Year Seminar: _____. 3 Hours. GE11 / U.**
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Bosnian/Croatian/Serbian. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**BCRS 204. Intermediate Bosnian/Croatian/Serbian I. 3 Hours. U.**
Second-year course in the language with emphasis on reading, composition, and conversation. Prerequisite: BCRS 108. LEC.

**BCRS 205. Intermediate Bosnian/Croatian/Serbian I, Honors. 3 Hours. U.**
Similar to BCRS 204 but with additional work aimed at accelerating the student’s progress to proficiency and widening understanding of cultural context. Prerequisite: Open only to students who have received an A in BCRS 108 or an A or B in BCRS 109, and who are admitted to the University Honors Program, or by permission of instructor. LEC.

**BCRS 208. Intermediate Bosnian/Croatian/Serbian II. 3 Hours. AE42 / U.**
A continuation of BCRS 204. Prerequisite: BCRS 204. LEC.

**BCRS 209. Intermediate Bosnian/Croatian/Serbian II, Honors. 3 Hours. AE42 / U.**
Similar to BCRS 208 but with additional work aimed at accelerating the student’s progress to proficiency and widening understanding of cultural context. Prerequisite: BCRS 204 or 205. Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

**BCRS 380. Intensive Croatian. 6 Hours. U.**
This program consists of a six-week intensive language course in intermediate and advanced Croatian phonetics, conversation, and grammar, and is offered each summer in Croatia. In addition to the practical language work, there is a program of lectures on modern Croatian history, literature, and other cultural topics. Various excursions and tours bring the students into first-hand contact with the people, natural beauty and culture of Croatia. This program is a cooperative effort between the University of Kansas and faculty of the University of Zadar. LEC.
BCRS 504. Advanced Bosnian/Croatian/Serbian I. 3 Hours. H/W. A practical Bosnian/Croatian/Serbian course involving the advanced study of the grammar, reading of texts on a variety of subjects, conversation and composition. Taught in Bosnian/Croatian/Serbian. Designed for students who have had two or more years of Bosnian/Croatian/Serbian language. Prerequisite: BCRS 208, or equivalent. LEC.

BCRS 508. Advanced Bosnian/Croatian/Serbian II. 3 Hours. H/W. A practical Bosnian/Croatian/Serbian course involving the advanced study of the grammar, reading of texts on a variety of subjects, conversation and composition. Taught in Bosnian/Croatian/Serbian. Designed for students who have had two and one-half or more years of Bosnian/Croatian/ Serbian language. Prerequisite: BCRS 504, or equivalent. LEC.

BCRS 675. Readings in Bosnian/Croatian/Serbian. 1-6 Hours. H/W. Individually tailored readings and independent work in Bosnian/Croatian/Serbian language and culture. Prerequisite: Two years of Bosnian/ Croatian/Serbian, and consent of instructor. IND.

CZCH 104. Elementary Czech I. 5 Hours. U. First semester. Essentials of grammar, practice in speaking and writing Czech. Simple readings from selected texts. LEC.

CZCH 108. Elementary Czech II. 5 Hours. U. Second semester. A continuation of CZCH 104. Prerequisite: CZCH 104. LEC.

CZCH 177. First Year Seminar: ______. 3 Hours. GE11 / U. A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Czech. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

CZCH 204. Intermediate Czech I. 3 Hours. U. Second-year course in the language with emphasis on reading, composition, and conversation. Prerequisite: CZCH 108. LEC.

CZCH 208. Intermediate Czech II. 3 Hours. U. A continuation of CZCH 204. Prerequisite: CZCH 204. LEC.

CZCH 675. Readings in Czech. 1-6 Hours. H/W. Prerequisite: Reading knowledge of Czech language, and consent of instructor. IND.

PLSH 104. Elementary Polish I. 5 Hours. U. First Semester. Essentials of grammar, practice in reading, writing, and speaking Polish. LEC.

PLSH 108. Elementary Polish II. 5 Hours. U. Second semester. A continuation of PLSH 104. Prerequisite: PLSH 104. LEC.

PLSH 177. First Year Seminar: ______. 3 Hours. GE11 / U. A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Polish. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

PLSH 204. Intermediate Polish I. 3 Hours. U. Second-year course in the language with emphasis on reading, composition, and conversation. Prerequisite: PLSH 108. LEC.

PLSH 208. Intermediate Polish II. 3 Hours. U. A continuation of PLSH 204. Prerequisite: PLSH 204. LEC.

PLSH 312. Polish Language and Civilization in Poland: Summer Program. 8 Hours. H/W. Polish grammar, conversation, and composition with select aspects of Polish civilization. Available only to participants in Polonicum, Warsaw University. LEC.

PLSH 504. Advanced Polish I. 3 Hours. H/W. A practical Polish language course involving advanced study of the grammar, reading of texts on a variety of subjects, conversation, and composition. Taught in Polish. Designed for students who have had two or more years of Polish language. Prerequisite: PLSH 208 or equivalent. LEC.

PLSH 508. Advanced Polish II. 3 Hours. H/W. A practical Polish language course involving advanced study of the grammar, reading of texts on a variety of subjects, conversation, and composition. Taught in Polish. Designed for students who have had two and one-half or more years of Polish. Prerequisite: PLSH 504 or equivalent. LEC.

PLSH 675. Readings in Polish Language and Literature. 1-6 Hours. H/W. Directed individual readings on various topics concerning Polish literature and/or language. Prerequisite: Two years or four semesters of Polish, and consent of instructor. IND.

RUSS 100. Russian Reading Course I. 3 Hours. U. A special reading course for candidates for advanced degrees, faculty members, and graduate or undergraduate students from other schools or departments, designed to aid them in obtaining a reading knowledge for purposes of research. An intensive study of the fundamentals of grammar proceeding to the reading of material of medium difficulty. The course does not satisfy any part of the undergraduate language requirement. Presupposes no previous study of Russian. LEC.

RUSS 101. Russian Reading Course II. 3 Hours. U. A continuation of RUSS 100. Completion and review of the fundamentals of grammar, with emphasis on reading and translation of learned, scientific, or technical writing and other material of an advanced nature. Each student will also have special assignments in his or her particular field. This course does not satisfy any part of the undergraduate language requirement. Prerequisite: RUSS 100. LEC.

RUSS 104. Elementary Russian I. 5 Hours. U. First semester. Five hours of basic language acquisition and two hours of oral practice per week. Essentials of grammar, practice in comprehending, speaking, and writing Russian. LEC.

RUSS 108. Elementary Russian II. 5 Hours. U. Second semester. Five hours of basic language acquisition and two hours of oral practice per week. A continuation of RUSS 104. Prerequisite: RUSS 104. LEC.

RUSS 110. Intensive Elementary Russian. 10 Hours. U. Intensive course in elementary Russian providing the student with a complete survey of Russian grammar, and proficiency in understanding, reading, and speaking basic Russian. Twenty contact hours per week. Same content as RUSS 104 and RUSS 108 combined. LEC.

RUSS 150. Beginning Russian I. 3 Hours. U. Fundamentals of Russian grammar, reading, speaking, and writing. Course designed to accommodate the needs of students regardless of age, educational background, or occupation. No previous knowledge of Russian or other foreign languages required. LEC.

RUSS 152. Beginning Russian II. 3 Hours. U. Continuation of RUSS 150. Does not fulfill BA foreign language requirement. Prerequisite: RUSS 150 or equivalent. LEC.
RUSS 177. First Year Seminar: ________. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Russian. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

RUSS 204. Intermediate Russian I. 6 Hours. U.
This course is designed to develop speaking, reading, and listening proficiency within the context of detailed grammatical review. The course meets five days a week for six hours credit. It is especially recommended for potential majors in Russian, for area-studies students, and for students intending to apply for study abroad in Russia. Prerequisite: RUSS 108, RUSS 110, or equivalent. LEC.

RUSS 208. Intermediate Russian II. 6 Hours. U.
Continuation of RUSS 204. Completes the undergraduate foreign language requirement. The course is designed to develop speaking, reading, and listening proficiency within the context of detailed grammatical review. It is especially recommended for potential majors in Russian, for area-studies students, and for students intending to apply for study abroad in Russia. Students who have completed only RUSS 212 may enroll with the permission of the instructor. Prerequisite: RUSS 204 or equivalent. LEC.

RUSS 212. Second Year Russian I. 3 Hours. U.
A review of Russian and further development of all four language skills. This course is intended for non-specialists and for students fulfilling the language requirement. Prerequisite: RUSS 108 or RUSS 110. LEC.

RUSS 216. Second Year Russian II. 3 Hours. U.
Continuation of RUSS 212. More focused development of students’ oral skills and reading abilities. This course fulfills the college foreign language requirement. Prerequisite: RUSS 204 or RUSS 212. LEC.

RUSS 250. Continuing Russian I. 3 Hours. U.
Fundamentals of Russian grammar, reading, speaking, and writing. Course designed to accommodate the needs of students regardless of age, educational background, or occupation. Does not count towards the fulfillment of the undergraduate language requirement. Does not count towards the undergraduate major in Slavic. Prerequisite: RUSS 152 or equivalent. LEC.

RUSS 252. Continuing Russian II. 3 Hours. U.
A continuation of RUSS 250. Does not count towards the fulfillment of the undergraduate language requirement. Does not count towards the undergraduate major in Slavic. Prerequisite: RUSS 250 or equivalent. LEC.

RUSS 504. Advanced Russian I. 3 Hours. H/W.
A practical Russian language course involving advanced study of the grammar, reading of texts on a variety of subjects, conversation, and composition. Taught in Russian. Designed for students who have had four semesters of Russian. Prerequisite: RUSS 208 or RUSS 216. LEC.

RUSS 508. Advanced Russian II. 3 Hours. H/W.
A practical Russian language course involving advanced study of the grammar, reading of texts on a variety of subjects, conversation, and composition. Taught in Russian. Designed for students who have had two and one-half or more years of Russian language. Prerequisite: RUSS 504. LEC.

RUSS 512. Russian for the Professions I. 3 Hours. U.
This course focuses on the active mastery of language structures and vocabulary needed for people using Russian in professional capacities, particularly such as business and journalism. Materials will be drawn from the current Russian press and electronic media. Designed for students who have had basic language training and want to develop specialized language skills. Prerequisite: RUSS 208 or RUSS 216. LEC.

RUSS 516. Russian for the Professions II. 3 Hours. U.
A continuation of RUSS 512. Prerequisite: RUSS 504, RUSS 512, or RUSS 522. LEC.

RUSS 522. Problems in Translating Russian into English I. 3 Hours. H/W.
Preparation of hitherto untranslated works, possibly with the intention of submitting for publication. Training and practice in the skills of oral interpretation. Prerequisite: Two years minimum of Russian language courses. LEC.

RUSS 526. Problems in Translating Russian into English II. 3 Hours. H/W.
A continuation of RUSS 522. LEC.

RUSS 550. Advanced Conversation, Composition, and Grammar in Russia: Summer Program. 6 Hours. H/W.
Held in Russia. Twenty-four hours of class work weekly, plus lectures and excursions, for six weeks at St. Petersburg University. Prerequisite: RUSS 208 or the equivalent of twenty-two hours of Russian language courses. LEC.

RUSS 552. Advanced Russian Language at Saint Petersburg University: Semester Program. 14 Hours. H/W.
Sixteen weeks of intensive Russian language and literature classes held at Saint Petersburg University, Russia. Classes in advanced phonetics, conversation, and grammar as well as lectures on literary and other cultural topics. Prerequisite: Minimum of five semesters of Russian language study at the college level or its equivalent. LEC.

RUSS 600. Classics of Russian Culture. 3 Hours. H.
This advanced Russian language class explores the monuments of Russian culture (1700-1980) in the context of the country’s history, customs, artistic traditions and literary trends. It is designed to develop reading, writing, and speaking skills of advanced language students and includes the preparation of written and oral reports in Russian. Discussion format; conducted entirely in Russian. Prerequisite: RUSS 508 or equivalent. LEC.

RUSS 604. Contemporary Russian Culture. 3 Hours. H/W.
This advanced Russian language class explores issues in contemporary Russian culture (literature and the arts, societal trends and issues, politics, and national life) based on Russian film, television, and print materials. It is designed to develop reading, writing, and speaking skills of advanced language students who wish to develop high levels of fluency, accuracy, and idiomatic expressiveness. Includes the preparation of both written and oral reports. Discussion format; conducted entirely in Russian. Prerequisite: RUSS 508 or equivalent. LEC.

RUSS 608. Russian Phonetics and Grammar. 3 Hours. H/W.
A survey of fundamental issues in Russian phonetics, morphology, and syntax. The course will develop reading, writing, and speaking skills necessary for discussing and analyzing the major linguistic categories of Russian. Includes the preparation of both written and oral reports. Discussion format; conducted entirely in Russian. Prerequisite: RUSS 508 or equivalent. LEC.

RUSS 612. Introduction to Russian Literature. 3 Hours. H/W.
Readings for this advanced Russian language class will be drawn from representative prose, poetry, and drama of 19th or 20th century authors. The course will develop reading, writing, and speaking skills necessary for discussing and analyzing the major texts and literary trends of the Russian tradition. Includes the preparation of both written and oral reports.
SLAV 104. Elementary Slavic Language I: ______. 5 Hours. U.
First semester. Essentials of grammar, practice in speaking and writing a Slavic language. Simple readings from selected texts. Course may be used to teach the fundamentals of any Slavic language, for example, Slovenian, Macedonian, Slovak, etc. LEC.

SLAV 108. Elementary Slavic Language II: ______. 5 Hours. U.
Second semester. Essentials of grammar, practice in speaking and writing a Slavic language. A continuation of SLAV 104 in those languages whose fundamentals were being taught in SLAV 104. Prerequisite: SLAV 104 or equivalent (in same language). LEC.

SLAV 140. Introduction to Russian Culture. 3 Hours. HT AE42/GE3H / H/W.
An introduction to the principal achievements of Russian cultural history, with particular emphasis on literature, folklore, spirituality, and the visual arts. LEC.

SLAV 141. Introduction to Russian Culture, Honors. 3 Hours. HT AE42/GE3H / H/W.
An introduction to the principal achievements of Russian cultural history, with particular emphasis on literature, folklore, spirituality, and the visual arts. LEC.

SLAV 144. Survey of Russian Literature in Translation. 3 Hours. HL AE42/GE3H / H/W.
A survey of the principal works of Russian literature including such authors as Pushkin, Gogol, Dostoevsky, Tolstoy, Chekhov, Pasternak, Solzhenitsyn, and others. LEC.

SLAV 145. Survey of Russian Literature in Translation, Honors. 3 Hours. HL AE42/GE3H / H/W.
A survey of the principal works of Russian literature including such authors as Pushkin, Gogol, Dostoevsky, Tolstoy, Chekhov, Pasternak, Solzhenitsyn, and others. LEC.

SLAV 148. Introduction to Slavic Folklore. 3 Hours. HL AE42/GE3H / H/W.
An introduction to the various forms of folklore among the Slavic peoples, with particular emphasis on the folk literature, customs, and artifacts of Russia, Poland, and the South Slavic countries. LEC.

SLAV 149. Introduction to Slavic Folklore, Honors. 3 Hours. HL AE42/GE3H / H/W.
An introduction to the various forms of folklore among the Slavic peoples, with particular emphasis on the folk literature, customs, and artifacts of Russia, Poland, and the South Slavic countries. LEC.

SLAV 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Slavic. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

SLAV 204. Intermediate Slavic Language I: ______. 3 Hours. U.
Second-year level course in a Slavic language, for example, Slovenian, Macedonian, Slovak, with emphasis on reading, composition, and conversation. Prerequisite: SLAV 108 (in same language). LEC.

SLAV 208. Intermediate Slavic Language II: ______. 3 Hours. U.
Second-year level course in a Slavic language, for example, Slovenian, Macedonian, Slovak, with emphasis on reading, composition, and conversation. Prerequisite: SLAV 204 or equivalent (in same language). LEC.

SLAV 316. The Peoples and Cultures of Southeastern Europe Through Film. 3 Hours. HL AE42/GE3H / H.
This course presents an introduction to the study of the culture of the South Slavs and other peoples of Southeastern Europe, combining background modules in geography, linguistic culture, history, folklore and contemporary cultural criticism with critical viewings of artistic films. The course serves as an introduction to humanistic inquiry about the peoples and cultures of Southeastern Europe. LEC.

SLAV 317. The Peoples and Cultures of Southeastern Europe Through Film, Honors. 3 Hours. HL AE42/GE3H / H.
This course is similar in content to SLAV 316, but with an additional honors project. Prerequisite: Eligibility for or admission to the university Honors Program. LEC.

SLAV 318. Jews and Slavs in Eastern Europe. 3 Hours. H.
Jews and Slavs have shared territory from the Middle Ages to the present day. The contact between these culturally and linguistically distinct groups have shaped many centuries of Eastern European history - from the extreme violence of the pogroms to long periods of peaceful coexistence and cooperation. "Jews and Slavs" examines the history and cultural geography of Slavic-Jewish contact from the perspectives of both groups. Through literature, film, journalism, and folklore, students learn about the profound influence Jews and Slavs have had on each other, the uneasy feelings that accompanied their interactions, and the creative and fascinating impact their interaction had on both cultures. (Same as JWSH 318.) LEC.

SLAV 340. Introduction to the Languages and Peoples of Russia and East-Central Europe. 3 Hours. HT AE42/GE3H / H.
An overview of the languages and peoples of Russia and East-Central Europe, including the Slavic and Baltic languages, Romanian, and Albanian. Topics addressed include language prehistory, writing systems, and the relationship between language and national identity. Emphasis on language issues as a background to current events in order to impart an appreciation of the area, its uniqueness and complexity. LEC.

SLAV 341. Introduction to the Languages and Peoples of Russia and East-Central Europe, Honors. 3 Hours. HT AE42/GE3H / H.
An overview of the languages and peoples of Russia and East-Central Europe, including the Slavic and Baltic languages, Romanian, and Albanian. Topics addressed include language prehistory, writing systems, and the relationship between language and national identity. Emphasis on language issues as a background to current events in order to impart an appreciation of the area, its uniqueness and complexity. Prerequisite: Membership in the College Honors Program or consent of instructor. LEC.

SLAV 370. War and Violence Russian Literature and Film. 3 Hours. S.
This course focuses on artistic representations of violence resulting from historical events such as World War II, Soviet collectivization, the Gulag, and political purges. We consider Soviet literature and film, including works by Isaac Babel, Andrei Platonov, Anna Akhmatova, and Alexander Solzhenitsyn. Readings in English. The course is offered at the 300 and 500 levels, with additional assignments at the 500 level. LEC.
SLAV 390. Slavic Folk Culture: ______. 3 Hours. H/W.
A broad exposure, both theoretical and practical, to various aspects of the traditional native culture of a particular Slavic country or ethnic group, including folk dance, song and musicianship, as well as forms of the material culture such as folk architecture, costumes and art in everyday life. Taught in the pertinent Slavic country in conjunction with the appropriate language course. LEC.

SLAV 499. Honors Thesis. 3 Hours. H/W.
Independent study and preparation of honors thesis. Required of all students working for a degree with honors in Slavic languages and literatures. IND.

SLAV 500. Russia Today. 3 Hours. H/W.
Study and discussion of contemporary problems in Russia and the former Soviet Union; readings in Russian, based on articles in newspapers, journals, etc. Conducted in Russian. Prerequisite: RUSS 208 or equivalent. LEC.

SLAV 502. Introduction to Russian Culture and Society: ______. 3 Hours. H/W.
An interdisciplinary course introducing the student to the principal features of Russian cultural and societal development in the modern era. Readings in English, no prerequisite for non-Russian majors. Majors and graduate students in Slavic languages and literatures will be required to do readings in Russian. LEC.

SLAV 503. Post-Soviet Communication. 3 Hours. H.
The course is designed to acquaint students with the shifting manner of public discourse in Post-Soviet Russia and help them to explore in some depth cross-cultural communication between America and Russia. In addition to contemporary and historical background on Russian communicative practices, students examine discourse in business development, mass media, marketing, and advertising. All readings in English. (Same as COMS 503). LEC.

SLAV 504. Introduction to East-Central European Culture and Society: ______. 3 Hours. H/W.
An interdisciplinary course introducing the student to the principal features of East-Central European cultural and societal development in the modern era. Countries that may be considered are: Poland, the Czech Republic, Slovakia, Hungary, Romania, Bulgaria, the South Slavic countries, Latvia, Lithuania, Estonia, Belorussia, and Ukraine. LEC.

SLAV 505. Introduction to Czech Culture. 3 Hours. H.
This study-abroad trip offers a survey of Czech art, architecture, literature, theater, and film from the medieval period to the present with emphasis on the late 19th and 20th centuries. Combines 18 hours of lectures on campus and a ten-day trip to Prague. LEC.

SLAV 506. West Slavic Literature and Civilization (Polish and Czech). 3 Hours. H/W.
A survey of West Slavic Literature and Civilization (Polish and Czech) from its beginnings to the present with emphasis on the most important trends: Renaissance, Romanticism, Positivism/Realism, Modernism and Avant-guard; Socialist realism, and Post-modernism. The course combines lecture, discussion and small group activities. Movie clips, recordings, and slides are used to reflect various cultural dimensions of West Slavic Civilization. No knowledge of Polish or Czech is required. LEC.

SLAV 508. South Slavic Literature and Civilization. 3 Hours. NW AE42 / H/W.
An introductory survey of the literature and culture of the South Slavic peoples: the Slovenes, Croats, Bosniacs, Serbs, Montenegrins, Macedonians and Bulgarians. No language required. LEC.

SLAV 510. The Russian Literary Genius. 3 Hours. H/W.
Topics and problems in Russian cultural history as treated in the masterworks of Russian literature. Readings selected from the works of Pushkin, Tolstoy, Dostoevsky, Pasternak, Bulgakov, Solzhenitsyn, and other great Russian writers. Readings in English, no prerequisite for non-Russian majors. Russian majors will do some of the readings in Russian. LEC.

SLAV 514. Totalitarianism and Literature in Central Europe. 3 Hours. H.
This course asks how fiction written in Central Europe engaged and grappled with the totalitarian experience imposed by Nazi and Soviet forms of government. The course focuses on the works by 20th-century Polish, Czech, and Hungarian writers that deal with totalitarianism. (Same as HWC 514.) LEC.

SLAV 516. Film Adaptations of Polish and Czech Literature. 3 Hours.
A comparative study of several most representative and best works of 19th- and 20th-century Polish and Czech fiction and drama and their film adaptations. By providing a broad cultural and historical background of the works, the course offers a thorough introduction to modern culture of Poland and the Czech Republic. Readings and discussions are in English, and no knowledge of Polish or Czech is required. LEC.

SLAV 520. Russian Phonetics, Phonology, and Inflectional Morphology. 3 Hours. H/W.
An analysis of the phonological and morphological systems of contemporary standard Russian, including normative and dialectal pronunciation of speech sounds, phonemics, morphophonemic alterations, and nominal and verbal inflections. Graduate students enrolled in this course will be held to a more stringent curriculum and grading system. Prerequisite: Two years of Russian language study or the equivalent. LEC.

SLAV 522. The Grammatical Categories of Russian: Linguistic Units, Functions and Meanings. 3 Hours. H/W.
This course covers the main grammatical categories of Russian, including word formation, case, animacy, voice and reflexive verbs, imperatives, aspect, and word order. It is intended not only for linguists but anyone seeking a better understanding of the grammatical systems of Russian. Designed as a continuation of SLAV 520. Prerequisite: Two years of Russian language study or the equivalent. LEC.

SLAV 524. Russian Since the Revolution. 3 Hours. H/W.
An examination of changes in the Russian language during the course of this century. Topics covered include changes in pronunciation, morphological and syntactic variation, and the impact of foreign borrowings, particularly from English. Graduate students enrolled in this course will be held to a more stringent curriculum and grading system. Prerequisite: Two years of Russian language study or the equivalent. LEC.

SLAV 528. Comparative Study of Slavic Literatures. 3 Hours. H/W.
The course is intended as an introduction to the most significant writers and works in Slavic literatures. The emphasis will be on some of the themes and ideological concepts that have shaped the literatures of the Slavic world. Representative works of Turgenev, Dostoevsky, Mrozek, Rozewicz, Capek, Hasek, Djilas, Havel, Ivo Andric and others, will be studied. The diversity of expression and, at the same time, homogeneity of spirit in the works of these writers will be stressed. No knowledge of Slavic languages is required. LEC.

SLAV 530. Introduction to Russian Poetry. 3 Hours. H/W.
An introduction to the principles of Russian versification and to masterpieces of Russian poetry selected from the 18th, 19th, and 20th centuries. Students will learn to read, translate, and analyze poems in
terms of rhyme, meter, euphony, metaphor, and other prosodic features. Emphasis will be placed upon preparing students for independent study and appreciation of Russian poetry in the original. Prerequisite: Language proficiency. LEC.

SLAV 532. Dostoevsky. 3 Hours. H/W.
A study of the life and works of Fyodor Dostoevsky. In translation. No prerequisite. LEC.

SLAV 534. Tolstoy. 3 Hours. H/W.
A study of the life and works of Leo Tolstoy. In translation. LEC.

SLAV 536. Turgenev. 3 Hours. H/W.
A study of the life and works of Ivan Turgenev. In translation; however, note that Russian majors will be required to read selected works in Russian. LEC.

SLAV 538. The Modern Polish Short Story. 3 Hours. H/W.
A study of the development of the Polish short story from Positivism to the present. Readings of major Polish writers including Prus, Sienkiewicz, Schulz, Borowski, Andrzejewski, and others. Emphasis on trends in the Polish short story within the context of West European literatures. No prerequisites. Readings in English. Students with knowledge of Polish will read some works in Polish. LEC.

SLAV 540. Language and Identity in East-Central Europe and the Former Soviet Union. 3 Hours. H.
The course treats the formation of modern nation states as defined by language, where the history of the linguistic community played a central, if mythic role. Focus is on sociolinguistic case studies of the connection between language and identity in the former USSR and Yugoslavia, as well as transnational groups defined by common language and culture. The impact of global English, EU membership, and migration on language and identity issues are also discussed. LEC.

SLAV 558. Readings in Slovene. 1-6 Hours. H.
Individually tailored coursework in Slovene, from beginning to advanced level. Can include development of all four skills depending on the needs of the student. Prerequisite: Consent of instructor. IND.

SLAV 560. Introduction to Slavic Language: _____. 3 Hours. H/W.
Basic introduction to the language, with emphasis on grammar and reading skills. Prerequisite: Two years of a different Slavic language at the college level. LEC.

SLAV 561. Readings in Slavic Language: _____. 1-6 Hours. H/W.
A course of readings and discussion of grammar in a Slavic language as a continuation of SLAV 560, for example, in Bulgarian, Macedonian, etc. Prerequisite: SLAV 560 or the equivalent. LEC.

SLAV 562. Russian Theatre and Drama from Stanislavski and Chekhov to the Present. 3 Hours. H/W.
A study of the development of Russian theatre and dramatic literature from 1898 to the present. Lectures and readings in English. (Same as THR 725.) LEC.

SLAV 564. The "Woman Question" in Nineteenth-Century Russian Literature. 3 Hours. H.
An exploration of the "woman question" in nineteenth-century Russia as treated in literary texts. Authors to be included are: Tolstoy, Turgenev, Dostoevsky, Chekhov, as well as women writers such as Karolina Pavlova and Evgenia Tur, and prominent literary and social critics. Readings in English. LEC.

SLAV 566. The Devil in Russian Literature. 3 Hours. H.
This course traces the various manifestations of the Devil through Russian and European folklore, myth, theology, culture, and literature. Although the focus is on Russian literature, classic European works are discussed, as they had a powerful impact on the modern Russian Conception of the Evil One. Readings in English. (Same as HWC 566.) LEC.

SLAV 568. Biblical Themes in Modern Russian Literature. 3 Hours. H.
An exploration of the creative process of modern Russian literature (1700 to present) through the ways in which Russian writers have responded to the Bible, the cornerstone of both Western and Eastern Christianity. LEC.

SLAV 570. War and Violence Russian Literature and Film. 3 Hours. S.
This course focuses on artistic representations of violence resulting from historical events such as World War II, Soviet collectivization, the Gulag, and political purges. We consider Soviet literature and film, including works by Isaac Babel, Andrei Platonov, Anna Akhmatova, and Alexander Solzhenitsyn. Readings in English. The course is offered at the 300 and 500 levels, with additional assignments at the 500 level. LEC.

SLAV 600. Biography of a City: ____. 3 Hours. H/W.
Examination in depth of the historical, social, intellectual, and artistic development of one or more major Slavic urban centers. LEC.

SLAV 612. Introduction to Russian Literature of the Nineteenth Century. 3 Hours. H/W.
Pushkin, Dostoevsky, Tolstoy, and others with an introduction to Russian culture. Lectures and readings in Russian. Prerequisite: Three years of Russian language study or its equivalent. LEC.

SLAV 614. Russian Literature in Translation: _____. 3 Hours. H/W.
A survey of the principal Russian authors and literary works of the 19th and/or 20th century. Readings in English, no prerequisites for non-Russian majors. Students with a sound knowledge of Russian will be expected to do some of the readings in Russian. LEC.

SLAV 616. Introduction to Russian Literature of the Twentieth Century. 3 Hours. H/W.
A survey of recent Russian and Soviet literature. Lectures and readings in Russian. Prerequisite: Three years of Russian language study or its equivalent. LEC.

SLAV 626. The Cultural Impact of Ottoman Empire on the South Slavs. 3 Hours. H.
An examination of the cultural development of the South Slavs in the context of the Ottoman invasions and subsequent rule (14th-19th century), focusing on the frontier aspects of the Balkans, military culture, religion, economics and banditry, as well as other aspects of material and folk culture. No language requirement. Prerequisite: SLAV 316 or SLAV 508; or consent of instructor. LEC.

SLAV 630. Slavic Folklore. 3 Hours. H/W.
Introduction to the phenomena and problems of Slavic folklore. Prerequisite: Two years of Russian on the college level. LEC.

SLAV 635. Language, Culture and Ethnicity in Prehistoric Eastern Europe. 3 Hours. S.
The course is for students who wish to understand the prehistory of Eastern Europe with special attention to the Slavs. The interdisciplinary course examines East European prehistory from the perspectives of archaeology and linguistics, considering also how ideologies have influenced the interpretation of results. No language prerequisite. (Same as ANTH 696.) LEC.

SLAV 642. Pushkin and Evgenij Onegin. 3 Hours. H/W.
Lectures, reading, and analysis of Pushkin’s “novel in verse.” Prerequisite: Three years of Russian language courses or the equivalent. LEC.

SLAV 650. The Russian Short Story. 3 Hours. H/W.
Readings from the short stories of major Russian writers of the 19th and/or 20th centuries, e.g., Pushkin, Gogol, Dostoevsky, Turgenev, Tolstoy, Chekhov; readings and discussion in English for non-Russian majors, Russian majors will be expected to read most stories in Russian.
Prerequisite: None for non-majors in the department; two years of college-level Russian for majors. LEC.

SLAV 656. Russian Literature of the Eighteenth Century. 3 Hours. H/W.
Readings from Kantemir, Trediakovsky, Lomonosov, Derzhavin, Karamzin, and others in their literary and intellectual contexts. Readings in Russian. Prerequisite: Three years of Russian language study or its equivalent. LEC.

SLAV 660. Nineteenth Century Russian Prose and Fiction. 3 Hours. H/W.
Readings from the prose works of Pushkin, Lermontov, Gogol, Turgenev, Goncharov, Dostoevsky, and Tolstoy. In translation. No prerequisite for non-Russian majors. Russian majors will be required to have achieved senior standing and will read most works in Russian. LEC.

SLAV 662. Russian Literary Modernism: 1880-1930. 3 Hours. H/W.
Readings from late Tolstoy through the period of the 1920's. In translation; no prerequisites for non-Russian majors. Russian majors will be required to have achieved senior standing and will read most works in Russian. LEC.

SLAV 664. Soviet Russian Literature: 1930-1990. 3 Hours. H/W.
Readings in the period, in all genres. In translation; no prerequisite for non-Russian majors. Russian majors are required to have senior standing and read most works in Russian. LEC.

SLAV 667. Post-Soviet Literature. 3 Hours. H.
A survey of post-Soviet literary art, from approximately 1985 to the present, dealing with a range of subjects including the emergence of literature from the strictures of socialist realism and its relationship to concepts of postmodernism and postcolonialism. LEC.

SLAV 668. Nabokov. 3 Hours. H/W.
A study of the life and works of Vladimir Nabokov. In translation. No prerequisite. LEC.

SLAV 675. Readings in Slavic Studies (English). 1-3 Hours. H.
Directed readings on Slavic culture in English. For non-majors. Prerequisite: Instructor permission. LEC.

SLAV 676. Readings in Slavic Linguistics. 1-6 Hours. H/W.
Directed individual readings on various topics concerning Slavic linguistics. Prerequisite: Proficiency in at least one Slavic language, and consent of instructor. IND.

SLAV 679. Topics in: ____. 1-6 Hours. H.
Intensive study of a selected topic from Slavic languages, literatures, linguistics, or pedagogy. IND.

SLAV 684. Main Currents of Russian Thought I. 3 Hours. H/W.
A study of philosophical, theological, and literary monuments designed to acquaint the student with main cultural forces that have shaped Russian thought and manners. From the origins to Peter the Great. (Same as PHIL 684.) LEC.

SLAV 686. Main Currents of Russian Thought II. 3 Hours. H/W.
A continuation of SLAV 684. From the age of Peter the Great to revolutions of 1917. (Same as PHIL 686.) LEC.

SLAV 710. Introduction to Slavic Languages and Linguistics. 3 Hours.
The Slavic languages and peoples, including briefly: their origin, prehistory, and early culture. Basic linguistic methodology as applied to Slavic material from the beginnings of Slavic linguistics to the present. LEC.

SLAV 711. Russian Poetry: Nineteenth Century. 3 Hours.
Readings from the works of the major poets, in Russian. Prerequisite: Three years of Russian language study or the equivalent. LEC.

SLAV 712. Russian Poetry: Twentieth Century. 3 Hours.
Readings from the works of the major poets, in Russian. Prerequisite: Language proficiency. LEC.

SLAV 714. Russian Theatre and Drama to 1900. 3 Hours.
A study of the development of Russian theatre and dramatic literature from their beginnings to 1900. Readings in English. Students with knowledge of Russian will read some works in Russian. LEC.

SLAV 715. Russian Drama and Theatre 1953 to the Present. 3 Hours.
A study of the development of Russian theatre and dramatic literature from 1953 to the present. Readings in English. Students with knowledge of Russian will read some works in Russian. LEC.

SLAV 716. History of Russian Literary Criticism: Late Eighteenth and Nineteenth Century. 3 Hours.
A study of the various literary periods, such as sentimentalism, romanticism, naturalism, realism, with particular reference to individual literary critics and critical journals. LEC.

SLAV 719. Philosophical and Aesthetic Thought of the Russian Silver Age. 3 Hours.
A survey of the works of Solovyov, Florensky, Berdyaev, Merezhkovsky, Ivanov, and others, and their relation to the literature and culture of the Silver Age. LEC.

SLAV 721. Pushkin. 3 Hours.
A study of the life and works of Alexander Pushkin. Readings in Russian, open to senior Russian majors and graduate students. Prerequisite: Three years of Russian or the equivalent. LEC.

SLAV 726. Chekhov. 3 Hours.
A study of the life and works of Anton Chekhov. Open to senior Russian majors and graduate students. Readings in Russian. Prerequisite: Three years of Russian or the equivalent. LEC.

SLAV 727. Bely and Blok. 3 Hours.
A study of the life and works of the Symbolist writers, Andrei Bely and Aleksandr Blok. Readings in Russian. LEC.

SLAV 728. 19th Century Russian Prose. 3 Hours.
Readings from the works of Turgenev, Chekhov, Leskov, Saltykov, and others. Readings and discussion in English. Russian majors will be expected to read some works in Russian. No prerequisite. LEC.

SLAV 730. Russian Emigre Literature. 3 Hours.
A study of representative works in all genres, by Russian emigre writers. Readings in English. LEC.

SLAV 740. Introduction to Graduate Studies in Slavic Languages and Literatures. 3 Hours.
This course is an introduction to the skills required of students doing graduate degrees in Slavic languages and literatures; areas covered include 1) introduction to literary theory and criticism, 2) bibliography and research methods, including database management software, 3) preparation and presentations of a research/conference paper, 4) technology training, including web design, on-line portfolio, and digital humanities, and 5) professional ethics and awareness of the academic market and alternative careers. We will also be working on practical, professionally useful goals, such as how to (better) make use of technology, how to create a CV and modify it for different positions, how to write an abstract, and how to produce a conference paper. Course requirements will include a variety of smaller assignments and two larger projects, a web-based professional portfolio and an 8 to 10-page conference paper. LEC.
SLAV 748. Old Church Slavic. 3 Hours.
A course in the first written language of the Slavs (9-12th centuries AD), with discussion of Indo-European, Baltic and Common Slavic background. Prerequisite: Two years of Russian or the study of another ancient Indo-European language. LEC.

SLAV 750. Introduction to Russian Historical Grammar. 3 Hours.
The linguistic history of Russian from the emergence of East Slavic dialects of Common Slavic to the modern period, with emphasis on fundamental structural changes and the introduction of skills necessary for the reading and analysis of Old and Middle Russian texts. Prerequisite: Three years of Russian or the equivalent. LEC.

SLAV 752. Old Russian Grammar and Texts. 3 Hours.
An examination of the Russian language from its beginnings to the 17th century through close reading of Old and Middle Russian texts and reading and discussion of the literature on issues in Russian historical linguistics. Prerequisite: SLAV 748, SLAV 750, or equivalent. LEC.

SLAV 756. Structure of Russian: ____. 3 Hours.
Synchronic study of the contemporary Russian language with special emphasis on problems of functional morphology and syntax. Prerequisite: Three years of Russian language study or its equivalent. LEC.

SLAV 799. M.A. Seminar in Slavic Linguistics. 3 Hours.
Topics in Slavic linguistics. Content will vary. May be repeated. LEC.

SLAV 802. Thesis. 1-6 Hours.

THE.

SLAV 804. Comparative Slavic Linguistics. 3 Hours.
An examination of the development of the Slavic languages from the Common Slavic period to the present, proceeding from Indo-European. Prerequisite: Graduate standing in Russian. LEC.

SLAV 806. East Slavic Linguistics. 3 Hours.
An examination of the linguistic phenomena and historical development of the East Slavic languages (Russian, Belorussian, and Ukrainian). Prerequisite: Graduate standing in Russian. LEC.

SLAV 808. West Slavic Linguistics. 3 Hours.
An examination of linguistic phenomena and historical development of the West Slavic languages (Polish, Czech, Slovak, and Upper and Lower Sorbian). LEC.

SLAV 810. South Slavic Linguistics. 3 Hours.
An examination of linguistic phenomena and historical development of Bulgarian, Macedonian, Croatian-Serbian, Slovene. LEC.

SLAV 820. Old Russian Literature: Beginnings to 1700. 3 Hours.
Readings of selected texts in Russian. Prerequisite: SLAV 752. LEC.

SLAV 822. Seminar in Russian Literature: Eighteenth Century. 3 Hours.
An investigation of specific themes or authors in the literature, culture, and thought of the 18th century. All readings in Russian. Prerequisite: Graduate standing and advanced Russian language. SEM.

SLAV 824. Proseminar in Methods of Teaching Slavic Languages I. 1-3 Hours.
Required for all teaching assistants, assistant instructors engaged in the teaching of Slavic languages and persons planning for careers in teaching Slavic languages. Combines discussion of theoretical teaching concepts with practical solution of problems arising concurrently in Slavic language courses. Students enrolled for two or three hours will study advanced Slavic grammar topics and stylistics as they apply to the teaching of Slavic languages. LEC.

SLAV 825. Investigation and Conference. 1-3 Hours.
Individual work in language or literature of the teaching of Slavic languages by qualified students under direction of members of the department. RSH.

SLAV 826. Proseminar in Methods of Teaching Slavic Languages II. 1-3 Hours.
Required for all teaching assistants, assistant instructors engaged in the teaching of Slavic languages and persons planning for careers in teaching Slavic languages. Combines discussion of theoretical teaching concepts with practical solution of problems arising currently in Slavic language courses. Students enrolled for two or three hours will study advanced Slavic grammar topics and stylistics as they apply to the teaching of Slavic languages. LEC.

SLAV 850. Seminar in Russian Literature: Nineteenth Century: ____. 3 Hours.
A regular seminar for graduate students, devoted to special problems in Russian literature. (Ancient Russian literature, Classicism, Romanticism, Realism, Symbolism, etc.) Designed to introduce the student to the more advanced methods in criticism, literary analysis, and research. Prerequisite: Graduate standing in Slavic Languages and Literatures, or permission of instructor. LEC.

SLAV 852. Seminar in Russian Literature: Twentieth Century. 3 Hours.
Various topics including pre- and post-Revolutionary poetry, the prose of the 1920s, the development of Socialist Realism, individual authors, etc. LEC.

SLAV 899. Ph.D. Seminar Slavic Linguistics. 3 Hours.
Topics in Slavic linguistics. Content will vary. May be repeated. Prerequisite: Ph.D. student in Slavic Languages and Literatures. LEC.

SLAV 912. Seminar: Topics in Contemporary Slavic Linguistics. 3 Hours.
Synchronic examination of specific topics, i.e., phonology, morphology, syntax, and lexicology of several Slavic languages. LEC.

SLAV 914. Seminar: Topics in Historical Slavic Linguistics. 3 Hours.
Diachronic examination of selected topics, i.e., phonology, morphology, syntax, or lexicology, of one or more Slavic languages. LEC.

SLAV 917. Seminar in Russian Culture and Society. 3 Hours.
Examination of selected topics in Russian cultural history, especially as treated in the works of Russian literature and intellectual history. Prerequisite: At least one course in Russian history, or one of the following courses--SLAV 502, SLAV 510, SLAV 684, SLAV 686, plus graduate standing. LEC.

SLAV 932. Seminar: Topics in Slavic Folklore. 3 Hours.
Investigation and concentrated study of one or more themes (e.g., mythology, demonology, life rituals, folklore and literature), figures (e.g., Baba Yaga), or genres (e.g., magic tales, byliny, riddles) of Slavic folklore. All readings in Russian. Prerequisite: SLAV 630. SEM.

SLAV 940. Seminar: Topics in Comparative Slavic Literature. 3 Hours.
Prerequisite: Graduate standing in Comparative Slavic Literature. LEC.

SLAV 999. Dissertation. 1-6 Hours.

THE.

TURK 104. Elementary Turkish I. 5 Hours.
Basic language acquisition, including essentials of grammar, speaking, and writing standard (Osmanli) Turkish. LEC.
TURK 108. Elementary Turkish II. 5 Hours. U.
Continuation of TURK 104. Prerequisite: TURK 104. LEC.

TURK 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Turkish. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

TURK 204. Intermediate Turkish I. 3 Hours. U.
Second-year course in Turkish language with emphasis on reading, composition, and conversation. Prerequisite: TURK 108. LEC.

TURK 208. Intermediate Turkish II. 3 Hours. U.
Second semester. Continuation of TURK 204. Prerequisite: TURK 204. LEC.

TURK 314. Turkish Culture Through Film and Literature. 3 Hours. H.
This course introduces the student to Turkish culture, with a focus on the 20th and 21st centuries, mainly through films and literature. Among the topics are Turkey’s geography, politics, history, religion, feminism, poetry, music and cuisine. This interdisciplinary course does not require any previous knowledge of Turkey or the Turkish Language; it is open to both undergraduate and graduate students. Representative works of major authors and film directors will be discussed and analyzed in their historical, political and theoretical contexts. The course is offered at the 300 and 500 levels, with additional assignments at the 500-level. LEC.

TURK 514. Turkish Culture Through Film and Literature. 3 Hours. H.

TURK 675. Readings in Turkish: ______. 3 Hours. U.
Prerequisite: Two years of college-level Turkish and consent of instructor. May be repeated for credit if content varies. IND.

UKRA 104. Elementary Ukrainian I. 5 Hours. U.
First semester. Five hours per week of recitation and drill in the spoken language. Essentials of grammar, practice reading, writing and speaking Ukrainian. LEC.

UKRA 108. Elementary Ukrainian II. 5 Hours. U.
Second semester. Continuation of UKRA 104. Prerequisite: UKRA 104. LEC.

UKRA 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Ukrainian. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

UKRA 204. Intermediate Ukrainian I. 3 Hours. U.
Second year course in Ukrainian language with emphasis on reading, composition, and conversation. Prerequisite: UKRA 108. LEC.

UKRA 208. Intermediate Ukrainian II. 3 Hours. U.
Second semester. Continuation of UKRA 204. Prerequisite: UKRA 204. LEC.

UKRA 512. Intensive Ukrainian Language and Culture I. 3 Hours. U.
A practical Ukrainian language course involving advanced study of the grammar, conversation, composition. Reading of texts on a variety of subjects (culture, literature, history, folklore etc.), taught in Ukrainian. Prerequisite: Three years of a Slavic language or permission of instructor. LEC.

UKRA 516. Intensive Ukrainian Language and Culture II. 3 Hours. U.
A practical Ukrainian language course involving advanced study of the grammar, conversation, composition. Reading of texts on a variety of subjects (culture, literature, history, folklore etc.), taught in Ukrainian. Prerequisite: Three years of a Slavic language or permission of instructor. LEC.

UKRA 675. Readings in Ukrainian Language. 1-6 Hours. H.
Directed individual readings on various topics concerning the Ukrainian language. Prerequisite: Two years of Ukrainian. IND.

YDSH 104. Elementary Yiddish I. 5 Hours. U.
Essentials of grammar, practice in speaking, reading, and writing Yiddish. Not open to native speakers of Yiddish. Prerequisite: YDSH 104 or equivalent. LEC.

YDSH 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Yiddish. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

YDSH 212. Intermediate Yiddish I. 3 Hours. U.
Structured grammar review, composition, conversation, with readings of literary and cultural texts. Not open to native speakers of Yiddish. Prerequisite: YDSH 108 or equivalent. LEC.

YDSH 216. Intermediate Yiddish II. 3 Hours. U.
A continuation of YDSH 212. Structured grammar review, composition, conversation, with readings of literary and cultural texts. Not open to native speakers of Yiddish. Prerequisite: YDSH 212 or equivalent. LEC.

YDSH 300. Studies in Yiddish: ______. 3 Hours. H.
Examination of special topics in Yiddish. May be repeated if topic varies. LEC.

YDSH 395. Study Abroad Topics in Yiddish: ______. 3-6 Hours. H.
This course is designed for the study abroad of special topics in Yiddish at the junior/senior level. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

YDSH 490. Independent Study. 1-3 Hours. U.
Intensive reading or research under faculty supervision IND.

Bachelor of Arts in Slavic Languages and Literatures

Why study Slavic languages and literatures?

Because Russia and the Slavs link the West and the East.
Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Requirements for the B.A. Major

The student completes a minimum of 27 hours of study in one of 3 emphases: Polish, Russian, or South Slavic (Bosnian/Croatian/Serbian). The department encourages students to fulfill general education requirements from courses in the SLAV 140/SLAV 141, SLAV 144/SLAV 145, and SLAV 148/SLAV 149 series. Beyond the minimum 27 hours, students are strongly encouraged to take additional courses in the Slavic department and appropriate background courses in the history, philosophy, and political science of the Slavic regions.

Polish Studies Emphasis

Majors choosing this option must complete courses as indicated in following areas:

Prerequisite Knowledge and Skills (0)
The following courses provide fundamental skills for the major, but do not contribute to the minimum required hours for the major.

Elementary Polish I. Satisfied by:

PLSH 104  Elementary Polish I

Elementary Polish II. Satisfied by:

PLSH 108  Elementary Polish II

Intermediate Polish I. Satisfied by:

PLSH 204  Intermediate Polish I

Polish Studies Emphasis Core Knowledge and Skills (27)

Intermediate Polish II. Satisfied by:

PLSH 208  Intermediate Polish II

Advanced Polish I. Satisfied by:

PLSH 504  Advanced Polish I

Advanced Polish II. Satisfied by:

PLSH 508  Advanced Polish II

Readings in Polish Language and Literature. Satisfied by:

PLSH 675  Readings in Polish Language and Literature 3

West Slavic Literature and Civilization (Polish and Czech). Satisfied by:

SLAV 506  West Slavic Literature and Civilization (Polish and Czech) 3

Required Electives

Satisfied by 4 courses (12 hours) chosen from the following: 12

SLAV 144/145  Survey of Russian Literature in Translation

SLAV 318  Jews and Slavs in Eastern Europe

SLAV 340/341  Introduction to the Languages and Peoples of Russia and East-Central Europe

SLAV 504  Introduction to East-Central European Culture and Society: ______

SLAV 514  Totalitarianism and Literature in Central Europe

SLAV 516  Film Adaptations of Polish and Czech Literature

SLAV 635  Language, Culture and Ethnicity in Prehistoric Eastern Europe

ECON 560  Economic Systems

HIST 377  Everyday Communism in Eastern Europe

HIST 557  Nationalism and Communism in East Central Europe from 1772 to the Present

PHIL 580  Marxism (or other relevant course in philosophy)

Majors are strongly encouraged to study abroad. Please see your advisor about this opportunity.

Major Hours & Major GPA

While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours

Satisfied by 27 hours of major courses.

Major Hours in Residence

Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior (300+) Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior (300+) Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Russian Emphasis

Majors choosing this option must complete courses as indicated in following areas:

Prerequisite Knowledge and Skills (16)
The following courses provide fundamental skills for the major, but do not contribute to the minimum required hours for the major.

Elementary Russian I. Satisfied by:

RUSS 104  Elementary Russian I 5 or RUSS 110  Intensive Elementary Russian

Elementary Russian II. Satisfied by:
**RUSS 108** Elementary Russian II  
or **RUSS 110** Intensive Elementary Russian

Intermediate Russian I. Satisfied by:

RUSS 204 Intermediate Russian I

**Russian Emphasis Core Knowledge and Skills (27)**

Intermediate Russian II. Satisfied by:

RUSS 208 Intermediate Russian II

Advanced Russian Language. Satisfied by one of the following:

- RUSS 504 Advanced Russian I  
  & RUSS 508 Advanced Russian II
- RUSS 512 Russian for the Professions I  
  & RUSS 516 Russian for the Professions II

Russian Linguistics. Satisfied by one course (3 hours, 200+)

- SLAV 340 Introduction to the Languages and Peoples of Russia and East-Central Europe
- SLAV 341 Introduction to the Languages and Peoples of Russia and East-Central Europe, Honors
- SLAV 520 Russian Phonetics, Phonology, and Inflectional Morphology
- SLAV 522 The Grammatical Categories of Russian: Linguistic Units, Functions and Meanings
- SLAV 524 Russian Since the Revolution
- SLAV 540 Language and Identity in East-Central Europe and the Former Soviet Union

Russian Literature. Satisfied by one course (3 hours, 400+)

- SLAV 510 The Russian Literary Genius
- SLAV 530 Introduction to Russian Poetry
- SLAV 532 Dostoevsky
- SLAV 534 Tolstoy
- SLAV 536 Turgenev
- SLAV 562 Russian Theatre and Drama from Stanislavski and Chekhov to the Present
- SLAV 564 The "Woman Question" in Nineteenth-Century Russian Literature
- SLAV 566 The Devil in Russian Literature
- SLAV 568 Biblical Themes in Modern Russian Literature
- SLAV 612 Introduction to Russian Literature of the Nineteenth Century
- SLAV 614 Russian Literature in Translation: ______
- SLAV 616 Introduction to Russian Literature of the Twentieth Century
- SLAV 642 Pushkin and Evgenij Onegin
- SLAV 650 The Russian Short Story
- SLAV 656 Russian Literature of the Eighteenth Century
- SLAV 660 Nineteenth Century Russian Prose and Fiction
- SLAV 662 Russian Literary Modernism: 1880-1930
- SLAV 664 Soviet Russian Literature: 1930-1990

**Required Electives**

Satisfied by 3 courses (9 hours) in Russian literature, linguistics, culture, or advanced language chosen in consultation with the major advisor. Note that only one (1) 100-level course (either SLAV 140/SLAV 145, or SLAV 148/SLAV 149) may count as a required elective for the Russian emphasis major.

**Language**

- RUSS 512 Russian for the Professions I
- RUSS 516 Russian for the Professions II
- RUSS 522 Problems in Translating Russian into English I
- RUSS 526 Problems in Translating Russian into English II
- RUSS 600 Classics of Russian Culture
- RUSS 604 Contemporary Russian Culture
- RUSS 608 Russian Phonetics and Grammar
- RUSS 612 Introduction to Russian Literature
- RUSS 616 Stylistics

**Linguistics**

- SLAV 340 Introduction to the Languages and Peoples of Russia and East-Central Europe
- SLAV 341 Introduction to the Languages and Peoples of Russia and East-Central Europe, Honors
- SLAV 520 Russian Phonetics, Phonology, and Inflectional Morphology
- SLAV 522 The Grammatical Categories of Russian: Linguistic Units, Functions and Meanings
- SLAV 524 Russian Since the Revolution
- SLAV 540 Language and Identity in East-Central Europe and the Former Soviet Union

**Culture**

- SLAV 500 Russia Today
- SLAV 502 Introduction to Russian Culture and Society: ______
- SLAV 503 Post-Soviet Communication
- SLAV 600 Biography of a City: ______
- SLAV 684 Main Currents of Russian Thought I
- SLAV 686 Main Currents of Russian Thought II

**Literature**

- SLAV 510 The Russian Literary Genius
- SLAV 530 Introduction to Russian Poetry
- SLAV 532 Dostoevsky
- SLAV 534 Tolstoy
- SLAV 536 Turgenev

- SLAV 564 The "Woman Question" in Nineteenth-Century Russian Literature
- SLAV 566 The Devil in Russian Literature
- SLAV 568 Biblical Themes in Modern Russian Literature
- SLAV 612 Introduction to Russian Literature of the Nineteenth Century
- SLAV 614 Russian Literature in Translation: ______
- SLAV 616 Introduction to Russian Literature of the Twentieth Century
- SLAV 642 Pushkin and Evgenij Onegin
- SLAV 650 The Russian Short Story
- SLAV 656 Russian Literature of the Eighteenth Century
- SLAV 660 Nineteenth Century Russian Prose and Fiction
- SLAV 662 Russian Literary Modernism: 1880-1930
- SLAV 664 Soviet Russian Literature: 1930-1990
Majors are strongly encouraged to study abroad. Please see your advisor about this opportunity.

**Major Hours & Major GPA**

While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 27 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior (300+) Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior (300+) Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**South Slavic Studies Emphasis**

Majors choosing this option must complete courses as indicated in following areas:

**Prerequisite Knowledge and Skills (13)**

The following courses provide fundamental skills for the major, but do not contribute to the minimum required hours for the major.

- Elementary Bosnian/Croatian/Serbian I. Satisfied by:
  - BCRS 104
  - 5
- Elementary Bosnian/Croatian/Serbian II. Satisfied by:
  - BCRS 108
  - 5
- Intermediate Bosnian/Croatian/Serbian I. Satisfied by:
  - BCRS 204
  - 3
- Intermediate Bosnian/Croatian/Serbian II. Satisfied by:
  - BCRS 208
  - 3

**Core Knowledge and Skills (27)**

- Intermediate Bosnian/Croatian/Serbian II. Satisfied by:
  - BCRS 208
  - 3
- Advanced Bosnian/Croatian/Serbian I. Satisfied by:
  - BCRS 504
  - 3
- Advanced Bosnian/Croatian/Serbian II. Satisfied by:
  - BCRS 508
  - 3
- South Slavic Literature and Civilization. Satisfied by:
  - SLAV 508
  - 3

**Required Electives**

Satisfied by 5 courses (15 hours) chosen from the following:

- BCRS 380
- Intensive Croatian
- BCRS 675
- Readings in Bosnian/Croatian/Serbian
- ECON 560
- Economic Systems
- HIST 377
- Everyday Communism in Eastern Europe
- HIST 557
- Nationalism and Communism in East Central Europe from 1772 to the Present
- PHIL 580
- Marxism

Majors are strongly encouraged to study abroad. Please see your advisor about this opportunity.

**Major Hours & Major GPA**

While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 27 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior (300+) Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior (300+) Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Departmental Honors**

Undergraduates with grade-point averages of 3.25 overall and of 3.5 in Slavic courses are eligible for the honors program. Before enrolling, students must consult an undergraduate advisor to formulate an appropriate topic. Students complete SLAV 499 Honors Thesis (3 hours above the major requirements) during 1 semester of the senior year. The honors thesis is evaluated by a committee of 3 faculty members. The candidate makes an oral defense before this committee.

**Study Abroad**

The department, in conjunction with the Center for Russian, East European, and Eurasian Studies (http://www.crees.ku.edu), conducts summer institutes at universities in

- L'viv, Ukraine; and
- Zadar, Croatia.

Arrangements can be made for students to study for one semester or a full academic year at these or other universities. Some scholarship support is available.

Consult the Slavic department (http://slavic.ku.edu) office or the Office of Study Abroad (http://www.studyabroad.ku.edu). Credit for non-KU
programs is not automatic and is evaluated in consultation with the Slavic department undergraduate director.

Undergraduate and graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

**Slavic Language Programs in Russia and Eastern Europe**

KU students may take intermediate or advanced Bosnian/Croatian/Serbian at a 6-week summer institute in Croatia or attend a summer language program in Poland.

Graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

**Graduation Plan**

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the department for details.

**Minor in Slavic Languages and Literatures**

**Why study Slavic languages and literatures?**

Because Russia and the Slavs link the West and the East.

**Requirements for the Minor**

4 minor tracks are offered.

**Polish Studies Track**

Students choosing this minor track must complete courses as indicated in following areas:

**Prerequisites (13)**

The following courses provide fundamental skills for the minor, but do not contribute to the minimum required hours for the minor.

Elementary Polish I. Satisfied by:
- PLSH 104 Elementary Polish I 5
- PLSH 108 Elementary Polish II 5
- Intermediate Polish I. Satisfied by:
- PLSH 204 Intermediate Polish I 3

**Polish Studies Required Courses (15)**

Intermediate Polish II. Satisfied by:
- PLSH 208 Intermediate Polish II 3
- West Slavic Literature and Civilization (Polish and Czech). Satisfied by:
- SLAV 506 West Slavic Literature and Civilization (Polish and Czech) 3

Required Electives. Satisfied by 3 courses (9 hours) chosen from the following:
- SLAV 144/145 Survey of Russian Literature in Translation
- SLAV 340/341 Introduction to the Languages and Peoples of Russia and East-Central Europe
- SLAV 504 Introduction to East-Central European Culture and Society
- SLAV 514 Totalitarianism and Literature in Central Europe
- SLAV 516 Film Adaptations of Polish and Czech Literature
- SLAV 635 Language, Culture and Ethnicity in Prehistoric Eastern Europe
- ECON 560 Economic Systems
- HIST 377 Everyday Communism in Eastern Europe
- HIST 557 Nationalism and Communism in East Central Europe from 1772 to the Present
- PHIL 580 Marxism (or other relevant course in philosophy)

**Russian Track**

Students choosing this minor track must complete courses as indicated in following areas:

**Prerequisites (16)**

The following courses provide fundamental skills for the minor, but do not contribute to the minimum required hours for the minor.

Elementary Russian I. Satisfied by:
- RUSS 104 Elementary Russian I 5
- RUSS 110 Intensive Elementary Russian

Elementary Russian II. Satisfied by:
- RUSS 108 Elementary Russian II 5
- RUSS 110 Intensive Elementary Russian

Intermediate Russian I. Satisfied by:
- RUSS 204 Intermediate Russian I 6

**Russian Required Courses (18)**

Intermediate Russian II. Satisfied by:
- RUSS 208 Intermediate Russian II 6

Russian Linguistics. Satisfied by 1 course (3 hours, 200+) chosen from:
- SLAV 340/341 Introduction to the Languages and Peoples of Russia and East-Central Europe
- SLAV 340 and SLAV 341 Introduction to the Languages and Peoples of Russia and East-Central Europe, Honors

**Minor Hours & Minor GPA**

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

**Minor Hours**

Satisfied by 18 hours of minor courses.

**Minor Hours in Residence**

Satisfied by a minimum of 9 hours of KU resident credit in the minor.

**Minor Junior/Senior (300+) Hours**

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

**Minor Junior/Senior (300+) Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

- SLAV 144/145 Survey of Russian Literature in Translation
- SLAV 316 The Peoples and Cultures of Southeastern Europe Through Film
- SLAV 340/341 Introduction to the Languages and Peoples of Russia and East-Central Europe
- SLAV 558 Readings in Slovene
- SLAV 626 The Cultural Impact of Ottoman Empire on the South Slavs
- SLAV 630 Slavic Folklore
- SLAV 635 Language, Culture and Ethnicity in Prehistoric Eastern Europe
- SLAV 679 Topics in: _____ (Slavic Culture)

Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

Minor Hours

Satisfied by 18 hours of minor courses.

Minor Hours in Residence

Satisfied by a minimum of 9 hours of KU resident credit in the minor.

Minor Junior/Senior Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Junior/Senior Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/ Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Study Abroad
The department, in conjunction with the Center for Russian, East European, and Eurasian Studies (http://www.crees.ku.edu), conducts summer institutes at universities in

- L’viv, Ukraine; and
- Zadar, Croatia.

Arrangements can be made for students to study for one semester or a full academic year at these or other universities. Some scholarship support is available.

Consult the Slavic department (http://slavic.ku.edu) office or the Office of Study Abroad (http://www.studyabroad.ku.edu). Credit for non-KU programs is not automatic and is evaluated in consultation with the Slavic department undergraduate director.

Undergraduate and graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

Slavic Language Programs in Russia and Eastern Europe
KU students may take intermediate or advanced Bosnian/Croatian/ Serbian at a 6-week summer institute in Croatia or attend a summer language program in Poland.

Graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

Master of Arts in Slavic Languages and Literatures
M.A. Program Overview
The Master of Arts degree in Slavic Languages & Literatures provides students with foundational knowledge of the language, literature, culture, and linguistics of a region of study (Russian, Polish, Bosnian-Croatian-Serbian). Working in a collegial and supportive departmental environment, M.A. students learn the general contours and common ground of the field; read key works embedded in their historical, cultural, stylistic, and genre contexts; learn various methodological and theoretical frameworks and strategies; improve their language capacity, and develop research, writing, interpretive, and technological skills.

The M.A. prepares students for several career pathways. While completion of the M.A. is most often the gateway to Ph.D. work in the field, many students use the M.A. to build skills for a professional career. KU Slavic M.A. students go on to satisfying work in the public and private sectors, in the U.S. and abroad. See the Doers’ Profiles (http://slavic.ku.edu/doers-profiles-0) on the Department’s website.

Departmental Funding
While it is not guaranteed, the department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year and come with:

- a competitive academic year (9 month) salary
- a 100% tuition waiver for all courses at KU
- payment of up to 3 hours of student fees
- optional University-subsidized group health insurance

The appointments are guaranteed based on performance for up to 3 years for M.A. students, and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training in language instruction, close mentoring, and the opportunity to teach at a variety of levels, providing them with a strong base of teaching experience upon entering the job market.

Additional information about teaching for the department is available on our Graduate Programs overview (http://slavic.ku.edu/ma-slavic-overview) page of our departmental website.

FLAS Fellowships
Students in the graduate program may also be eligible for a Foreign Language and Area Studies (FLAS) (http://flas.ku.edu) fellowship. FLAS fellowships include:

- Summer award - up to $5,000 for tuition and a stipend of $2,500 for living expenses for summer language study equivalent to one full year of language study
- Academic Year award - full KU tuition and a $15,000 stipend for living expenses for academic year study that includes two semesters of language and six credits or more of East Asian culture courses.

Students in the are strongly encouraged to apply (http://flas.ku.edu/how-apply) for this funding.

Additional Funding
There are also university fellowships for truly outstanding students. Visit the Graduate Studies website for information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for KU graduate students.

Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of
Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Graduate Admission**

Apply to the graduate program via the Office of Graduate Studies online application system (http://www.graduate.ku.edu).

For additional information regarding departmental admissions requirements, deadlines and the application process, please visit the graduate page of the Slavic Languages and Literatures (http://slavic.ku.edu) website.

**M.A. Degree Requirements**

**Prerequisites for Admission**

- 30 semester hours of credit in an appropriate Slavic language and literature (of which 12 hours must have been taken on the junior/senior level), or the equivalent of such study.

**Non-thesis Degree**

1. At least 30 hours of graduate work in Slavic languages and literatures including SLAV 710 and SLAV 740, 3 courses in Slavic literature, 3 courses in Slavic linguistics, and 2 courses in either Slavic literature or linguistics. At least 1 of the literature or linguistics courses must be a graduate seminar.
2. A written and oral examination.

**Thesis Degree**

1. At least 24 hours of graduate work in Slavic languages and literatures, including SLAV 710 and SLAV 740, 3 courses in Slavic literature, and 3 courses in Slavic linguistics.
2. A thesis for which 6 credit hours may be allowed (not to be included in the 24-hour minimum).
3. A written and oral examination.

For students who plan to continue in the graduate program, the M.A. written and oral examination serves as a qualifying examination for advancement to Ph.D. work. For students who seek only the M.A. degree, successful completion of the M.A. written and oral examination signals the end of the program.

Students planning to work toward the Ph.D. may begin study of a second Slavic language during their M.A. work. Such study does not count toward M.A. degree requirements.

Students completing the M.A. degree without intent to continue to Ph.D. work have the opportunity, in consultation with the graduate advisor, to adjust their program to meet specific career goals.

**Study Abroad**

The department, in conjunction with the Center for Russian, East European, and Eurasian Studies (http://www.crees.ku.edu), conducts summer institutes at universities in

- L’viv, Ukraine; and
- Zadar, Croatia.

Arrangements can be made for students to study for one semester or a full academic year at these or other universities. Some scholarship support is available.

Consult the Slavic department (http://slavic.ku.edu) office or the Office of Study Abroad (http://www.studyabroad.ku.edu). Credit for non-KU programs is not automatic and is evaluated in consultation with the Slavic department undergraduate director.

Undergraduate and graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

**Slavic Language Programs in Russia and Eastern Europe**

KU students may take intermediate or advanced Bosnian/Croatian/Serbian at a 6-week summer institute in Croatia or attend a summer language program in Poland.

Graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

**Doctor of Philosophy in Slavic Languages and Literatures**

**Overview of Doctoral Program**

The Doctor of Philosophy degree in Slavic Languages & Literatures builds further on the foundational knowledge and the structured classroom learning that students engaged in during M.A. work. Working under the close mentorship of their advisors, Ph.D. students develop a minor in a related field, learn advanced pedagogical and interpretive strategies, continue to improve language skills, and engage in self-motivated, independent study to develop a coherent area of specialization. Students complete their graduate study.

While most KU Ph.D. students find positions as academics, some choose to pursue professional positions in academic support, digital humanities, research, and government service. See Ph.D. Alumni (http://slavic.ku.edu/doctor-philosophy-alumni-ku-slavic-department) on the Department’s website.

**Areas of Concentration**

Ph.D. students concentrate in one of three areas:

- Russian literature and culture
- Slavic language pedagogy
- Slavic linguistics

**Departmental Funding**

While it is not guaranteed, the department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to
all incoming graduate students. GTA appointments are awarded for the academic year and come with:

- a competitive academic year (9 month) salary
- a 100% tuition waiver for all courses at KU
- payment of up to 3 hours of student fees
- optional University-subsidized group health insurance

The appointments are guaranteed based on performance for up to 3 years for M.A. students, 5 years for Ph.D. students and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training in language instruction, close mentoring, and the opportunity to teach at a variety of levels, providing them with a strong base of teaching experience upon entering the job market. Additional information about teaching for the department is available on the Graduate Programs overview page of our departmental website.

FLAS Fellowships
Students in the graduate program may also be eligible for a Foreign Language and Area Studies (FLAS) fellowship. FLAS fellowships include:

- Summer award - up to $5,000 for tuition and a stipend of $2,500 for living expenses for summer language study equivalent to one full year of language study
- Academic Year award - full KU tuition and a $15,000 stipend for living expenses for academic year study that includes two semesters of language and six credits or more of East Asian culture courses.

Students in the area are strongly encouraged to apply for this funding.

Additional Funding
There are also university fellowships for truly outstanding students. Visit the Graduate Studies website for information about funding opportunities for KU graduate students.

Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission
Apply to the graduate program via the Office of Graduate Studies online application system.

For additional information regarding departmental admissions requirements, deadlines and the application process, please visit the graduate page of the Slavic Languages and Literatures website.

Ph.D. Degree Requirements
Students admitted to Ph.D. work in Russian literature or Slavic linguistics must fulfill M.A. requirements and pass the qualifying examination. Students also must fulfill all specific requirements in the concentration, complete comprehensive examinations, and write a dissertation.

All Ph.D. students are expected to enroll in courses in their concentrations numbered 500 and above offered in a given semester

1. If they have not previously had the courses or their equivalent,
2. If it is judged that the course material aids in preparation for comprehensive examinations, and
3. If it is feasible to incorporate such courses into a given semester’s program.

Requirements for Ph.D. Concentration in Russian Literature

- Detailed knowledge of the history and development of Russian literature
- Oral and written competence in Russian language plus an orientation in its structure and history
- Reading competence in at least one West or South Slavic language and a general knowledge of the history of its literature
- 9 to 12 graduate semester credit hours in a minor subject either from outside or inside the department
- An acceptable dissertation

Requirements for Ph.D. Concentration in Slavic Linguistics

- Detailed knowledge of the structure and history of two Slavic languages, one of which is considered the student’s major language, plus reading competence in a third Slavic language
- Oral and written competence in the major Slavic language
- 9 to 12 graduate semester credit hours in a minor subject, either from outside or inside the department
- Basic knowledge of general and comparative linguistics
- An acceptable dissertation

Examinations

Qualifying Examination
All students must take the qualifying examination to be admitted to Ph.D. work. For KU students, the M.A. examination serves as the qualifying examination. Students who hold the M.A. degree from another institution but begin Ph.D. work at KU are required to take the qualifying examination within 2 semesters of entry into the program.

Research Skills & Responsible Scholarship Requirement
The university requires that every doctoral student have training in responsible scholarship and research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must
be met before taking the comprehensive oral exam. Graduate students in Slavic Languages and Literatures must demonstrate (through course work or examination) reading competence in a western European language, preferably French or German. The student must also take part in all required graduate colloquia. These cover a variety of topics intended to promote and model responsible scholarship and professional development. Faculty and graduate students participate in three colloquia each semester. Issues of responsible scholarship are also imbedded in the curriculum.

**Comprehensive Examination**

Students may take written and oral comprehensive examinations after fulfilling all other requirements for the Ph.D., with the exception of the dissertation.

**Dissertation Defense**

Students demonstrate satisfactory completion of the Ph.D. program in their final oral defense of the dissertation and its field and by prompt submission of the thesis.

**Study Abroad**

The department, in conjunction with the Center for Russian, East European, and Eurasian Studies (http://www.crees.ku.edu), conducts summer institutes at universities in

- L’viv, Ukraine; and
- Zadar, Croatia.

Arrangements can be made for students to study for one semester or a full academic year at these or other universities. Some scholarship support is available.

Consult the Slavic department (http://slavic.ku.edu) office or the Office of Study Abroad (http://www.studyabroad.ku.edu). Credit for non-KU programs is not automatic and is evaluated in consultation with the Slavic department undergraduate director.

Undergraduate and graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

**Slavic Language Programs in Russia and Eastern Europe**

KU students may take intermediate or advanced Bosnian/Croatian/Serbian at a 6-week summer institute in Croatia or attend a summer language program in Poland.

Graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

**Undergraduate Programs**

The department educates sociologists for careers in teaching, research, and some applied fields. Undergraduate course work in sociology can contribute to professional training in architecture, business, education, journalism, law, medicine, public health, and social work.

Sociology majors can earn a Bachelor of Arts (BA) or Bachelor of General Studies (BGS). Both the BA and the BGS require a generous sampling of courses in the humanities, social sciences, and natural sciences. Because of its compatibility with other majors, many of our students earn double majors. For example, many sociology undergraduates also major in history, philosophy, political science, or anthropology, or earn a second degree in journalism.

Students majoring in a wide range of disciplines will find a minor in Sociology enhances their perspective on their field. Sociology is often the minor of choice for students majoring in Psychology, Anthropology, American Studies, Economics, Applied Behavioral Science, History, Political Science, and Global and International Studies and those in professional schools such as Journalism, Business, or Education.

**Graduate Programs**

The department offers a full graduate program in sociology leading to the M.A. and Ph.D. degrees, educating sociologists for careers in teaching and research and for fields of practical application. It also contributes to professional education in such fields as social welfare, social policy, architecture, education, journalism, personnel administration, business, and medicine. Aside from professional interests, the department offers instruction to assist students in deepening their understanding of social relations and, hence, of the social context of their own lives.

**Dual-title Ph.D. in Sociology and Gerontology**

This dual-title degree is an option available to students who have first been admitted to the doctoral program. The dual-title degree allows the pursuit of a single degree that incorporates study within a traditional discipline and training in an interdisciplinary field; the student is awarded one degree (Ph.D.) with both titles identified on the diploma (e.g., “Ph.D. in Sociology and Gerontology”).

This option is designed to appeal to students who are strong in a traditional discipline but also motivated to study across disciplinary lines. In the course of study, students can avail themselves of disciplinary depth and interdisciplinary breadth. At the post-doctoral stage, dual-title graduates will have enhanced career and employment opportunities, able to claim expertise in one or both titles of their degree when seeking positions in education and research.

More information about this option, its admissions requirements, and plan of study can be found on the department website or the website of the Gerontology program.

**Courses**

**SOC 104. Elements of Sociology. 3 Hours. SC AE41/GE11/GE3S / S.**

The study of social life, including how human groups are organized, how they change, and how they influence individuals. Consideration is given to a variety of human organizations and social institutions and how these groups and institutions both determine, and are determined by, human
Discusses the way our identities, values, and behavior have been and continue to be shaped by social and situational factors. Attention is paid to the influence of factors like language, culture, social roles, specific social institutions, and broad structures of inequality and power on how we see ourselves and others. May not be taken by anyone who has already taken SOC 305 or its equivalent. LEC.

SOC 160. Social Problems and American Values. 3 Hours. SF AE41/ AE51/GE11 / S.
This course is designed to explore competing explanations for the causes of, and cures for, the enduring problems of American society. The course critically analyzes dominant definitions of social problems, the political and economic roots of these problems, and the public policies aimed at reducing them. May not be taken by anyone who has already completed SOC 306 or its equivalent. LEC.

SOC 161. Social Problems and American Values, Honors. 3 Hours. SF / S.
Explores competing explanations for the causes of, and cures for, the enduring problems of American society. Critically analyzes dominant definitions of social problems, the political and economic roots of these problems, and the public policies aimed at reducing them. This course may not be taken for credit by those who have taken SOC 160 or SOC 306. Open only to students admitted to the University Honors Program or by consent of instructor. LEC.

SOC 177. First Year Seminar: _____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Sociology. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

SOC 220. Sociology of Families. 3 Hours. SC AE41/GE3S / S.
Analysis of the family as a social institution primarily in the U.S. context. Topics considered are: current and historical changes in how the family is constituted, contrasting sociological theories of family relationships, sexuality in relation to family life, the coexistence of love and hate in families, family dissolution and reformation, and the care of children. A key theme is diversity: social class, gender, race/ethnicity, and age. May not be taken by anyone who has already taken SOC 308 or its equivalent. LEC.

SOC 230. Introduction to Social Inequality in the U.S.. 3 Hours. S.
By the end of this course, students will be able to describe the major dimensions of inequality in the U.S. (including race, class, and gender), understand the structural basis of inequality, critically assess how inequality exists in major social institutions, and understand how inequalities in race, class, and gender shape social interaction. LEC.

SOC 260. America's Latinos/Latinas. 3 Hours. U.
An introduction to the Latino/a population (Mexican-Americans, Puerto Ricans, Cuban-Americans, Dominican-Americans, and Central and South Americans) in the US. Students discuss how US and Latin American societies have shaped Latino incorporation into the United States. We also discuss contemporary political, cultural and social issues that pertain to Latinos/as in the US. (Same as AMS 260) LEC.

SOC 273. Women in Society. 3 Hours. S.
A sociological exploration of the image and status of women in society, including family, work, and politics. Socialization, education, and the women's movement are also analyzed. Includes an introduction to feminist theories in sociology. LEC.

SOC 295. Study Abroad Topics in: _____. 1-6 Hours. S.
This course is designed for the study of special topics in Sociology at the freshman/sophomore level. Course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. No more than 6 hours of SOC 295 or SOC 495 may count towards the Sociology major or minor. LEC.

SOC 304. Principles of Sociology. 3 Hours. SC AE41/GE11/GE3S / S.
An introduction to sociological concepts, methods, and substantive findings more intensive than that provided in SOC 104. Students may
take this course in lieu of SOC 104 to satisfy requirements for the major and the minor. This course may not be taken for credit by those who have taken SOC 104. LEC.

SOC 305. Principles of Self and Society. 3 Hours. SI GE11 / S.
Discusses the way our identities, values, and behavior have been and continue to be shaped by social and situational factors. Attention is paid to the influence of factors like language, culture, social roles, specific social institutions, and broad structures of inequality and power on how we see ourselves and others. This course provides a more intensive coverage of the subject matter than that provided in SOC 150. May not be taken by anyone who has already taken SOC 150 or its equivalent. LEC.

SOC 306. Principles of Social Problems. 3 Hours. SF / S.
This course is designed to explore competing explanations for the causes of, and cures for, the enduring problems of American society. The course critically analyzes dominant definitions of social problems, the political and economic roots of theses problems, and the public policies aimed at reducing them. This course provides a more intensive coverage of the subject matter than that provided in SOC 160. May not be taken by anyone who has already completed SOC 160 or its equivalent. LEC.

SOC 308. Principles of Family Sociology. 3 Hours. SC / S.
Analysis of the family as a social institution primarily in the U.S. context. Topics considered are: current and historical changes in how the family is constituted, contrasting sociological theories of family relationships, sexuality in relation to family life, the coexistence of love and hate in families, family dissolution and reformation, and the care of children. A key theme is diversity: social class, gender, race/ethnicity, and age. This course provides a more intensive coverage of the subject matter than that provided in SOC 220. May not be taken by anyone who has already taken SOC 220 or its equivalent. LEC.

SOC 310. Introduction to Social Research. 3 Hours. S.
An introduction to the nature and methods of social research. Topics may include: hypothesis formulation and testing; how to design a research project, collect and analyze data; elementary statistical procedures; and ethical issues. Prerequisite: Six hours of Sociology credit, including Sociology 104. A minimum GPA of 2.3 in all SOC courses is strongly recommended for students planning to enroll in this course. LEC.

SOC 312. Population and Society. 3 Hours. AE41 / S.
An examination of the causes and consequences of population change in the United States and around the world with special focus on the impact of changes in populations on social institutions. We use social demographic perspectives to explore patterns of birth, illness, death, population concentration, population migration and immigration, and changes in these over time. Prerequisite: One of the following: SOC 104, SOC 110, SOC 150, SOC 160, or SOC 220. LEC.

SOC 320. Organizations in Society. 3 Hours. S.
An analysis of complex organizations in modern societies. Attention is given to the rise of bureaucracy in business and government; the way organizations influence and respond to their social cultural environments; and the various roles that individuals play in organizations. Prerequisite: A principal course in sociology. LEC.

SOC 326. Health, Gender, and Society. 3 Hours. S.
Comparative examination of the health status of men and women in relation to key elements of contemporary societies, including not only medicine and health care services, but also systems of social inequality and stratification, cultural constructions of gender, and social policies. Emphasis will be placed on the U.S.; however, the course also will provide international comparisons and an overall global context. LEC.

SOC 330. American Society. 3 Hours. AE41 / S.
The social structure and organization of American society with special reference to long-term and recent social changes. (Same as AMS 330.) Not open to students with credit for SOC 132. Prerequisite: A principal course in sociology. LEC.

SOC 332. The United States in Global Context. 3 Hours. AE42 / S.
Examines the influence abroad of US culture, policies and practices and the impact of other countries on US culture, society, and politics. Among the topics that may be examined are race, ethnicity, colonialism, imperialism, migration, technology, communications and media, popular culture, language, health, domestic and transnational organizations, as well as economic, political, religious, military and educational institutions. (Same as AMS 332). LEC.

SOC 340. The Community. 3 Hours. S.
Structures, functions, and processes of change in local communities; interrelations of towns and small cities with rural areas and metropolitan centers with their hinterlands. Prerequisite: A principal course in sociology or ANTH 108 or ANTH 308. LEC.

SOC 341. Urban Sociology. 3 Hours. S.
Examination of the process of urbanization in modern societies, including the size, growth, functions, and ecology of cities and systems of cities; such urban social institutions as the economy, politics, and the family; and major contemporary urban policies and problems. Each topic will be analyzed from several sociological perspectives. Prerequisite: A principal course in sociology. LEC.

SOC 342. Sociology of Immigration. 3 Hours. S.
International migration reshapes politics, economics, social relations, and racial/ethnic identities. Using the United States and other countries as case studies, we explore the variations among immigrant groups and their experiences in social institutions such as the family, religion, education, labor market, and government. We consider the influence of national origin, gender, class, and culture on immigration and reception experiences, as well as issues of assimilation, transnationalism and identity. Prerequisite: SOC 104. LEC.

SOC 351. Africa Today. 3 Hours. U.
An examination of Africa’s social dynamics. Topics considered include: the origins of modern African societies, nations, and states; family structures and values; ethnicity, gender relations and patriarchy; social, political, economic and cultural institutions; African exceptionalism; contemporary African social dynamics; transnational migration; HIV/AIDS; political transitions; and Africa’s place in the emerging global order. Prerequisite: SOC 104. LEC.

SOC 352. Sociology of Sex Roles. 3 Hours. S.
An examination of sex roles, sex stereotypes, and major issues involved in sex-role research. Emphasizes explanations of inequality between American males and females in the family and at work. The course is designed around lectures, panels, workshops, and films. LEC.

SOC 360. Sociology of Social Control. 3 Hours. S.
This course examines changing methods of social control in society. Social control can be formal (e.g., law and criminal justice system) or informal (e.g., families, peer groups). This course examines the ways that we, as a society, attempt to respond to matters such as deviance, illness, crime, and poverty. This course will survey the many varieties of formal and informal social control faced by individuals in society, and the ways in which individuals resist and conform to various disciplinary and control regimes. Prerequisite: a principal course in Sociology. LEC.

SOC 364. Society, Popular Culture, and the Media. 3 Hours. S.
An overview of sociological theory and research on culture created and distributed through the mass media and its role in shaping our
common sense interpretations of our daily lives. Topics include the social organization of the media, the relation between popular culture and the media, themes communicated in various elements of popular culture, and how various groups interpret cultural messages and incorporate them in their lives. LEC.

SOC 365. Society, Popular Culture, and the Media, Honors. 3 Hours. S.
Similar in content to SOC 364. An overview of sociological theory and research on culture created and distributed through the mass media and its role in shaping our common sense interpretations of our daily lives. Topics include the social organization of the media, the relation between popular culture and the media, themes communicated in various elements of popular culture, and how various groups interpret cultural messages and incorporate them in their lives. Prerequisite: Membership in the University Honors Program or consent of instructor. LEC.

SOC 370. Conflict Resolution. 3 Hours. S.
This course is an introduction to the field of conflict resolution. Collaborative approaches to dealing with conflict will be examined from the micro, interpersonal group level to the macro, organizational level. The causes and consequences of conflict will be presented as well as problem solving techniques for the resolution of conflict in social groups. LEC.

SOC 371. Marginal Groups and Subcultures. 3 Hours. S.
The sociological study of groups that differ from the mainstream practices of their societies and of conditions affecting their careers. The primary objectives are to introduce and analytically apply sociological conceptualizations of groups, group careers, group mainstream interactions, and participant orientations. The principal cases examined are the Hutterites, the Shakers, and the Oneida Community, supplemented by briefer analyses of a variety of other groups. Questions concerning the formation, organization, processes, participants, and transformations of groups are emphasized. LEC.

SOC 385. Environmental Sociology. 3 Hours. S.
This course invites students to study society and its impact on the environment. Environmental problems are social problems. This course will address such items as social paradigms, theories, inequalities, movements, and research. (Same as EVRN 385.) LEC.

SOC 410. Sociology of Death and Dying. 3 Hours. S.
This course covers theoretical, practical, cross-cultural and historical aspects of death and dying. Social, psychological, biomedical, economic and legal issues surrounding death and dying are explored. Students examine their own ideas, feelings, and attitudes towards death and dying, and reflect on the origins and significance of those beliefs. Prerequisite: Junior or Senior Standing. LEC.

SOC 420. Armed Forces and Society. 3 Hours. U.
Examines the military as a social institution. Students analyze both the internal organization and practices of the armed forces and the relationships between the military and other social institutions. It considers the historical forces that have shaped the present. Thus, past events and policies as well as current ones are covered in the course. The primary focus of this course is on the American military and its relationship to American society, but considers the armed forces of other societies. Prerequisite: SOC 104 or permission of instructor. LEC.

SOC 424. Sociology of Health and Medicine. 3 Hours. S.
This introductory course in medical sociology examines how social factors influence health and the organization of medical services. Students explore the distribution and experiences of illnesses across key social categories (e.g., gender, social class, etc.) The course also addresses contemporary issues in health and medicine, such as how health care systems vary cross-nationally, the training of health care workers, patient-physician relationships, and the use of medical technologies. LEC.

SOC 427. School and Society. 3 Hours. S.
This course examines education as a social institution and the reciprocal relationship between schools and society. It focuses particularly on the relationship between education and inequality and on education in the U.S., but also includes international comparisons. LEC.

SOC 450. Gender and Society. 3 Hours. AE41 / S.
An overview of sociological theory and research on the social practices constructing men and women as "opposites" and creating systematic inequality between them in class-, race-, and nation-specific ways. We consider arguments and evidence that gender is something we are, something we do, a part of every social institution, and a major aspect of how we are organized as a society. LEC.

SOC 454. Women and Work. 3 Hours. S.
Sociological investigation of women’s changing relationship to paid and unpaid labor in the economy and the family. Several theories are compared in these contexts: Characteristics of employed women, including occupational distribution and pay; women’s experiences in "traditional" and "nontraditional" occupations, including professions and management; socialization and education for employment; integration of marriage, housework, and child care; anti-discriminatory laws and policies. Prerequisite: A principal course in Sociology. LEC.

SOC 490. Internship in Sociology. 3 Hours. AE61 / S.
The purpose of this course is to encourage students to think sociologically about social issues by working as volunteer interns for non-profit community or campus organizations. Enrollment must be approved by a faculty mentor and the departmental Undergraduate Studies Committee. For additional information go to the Sociology department website. Prerequisite: 21 credits in sociology with a 3.0 GPA and permission of the instructor. FLD.

SOC 495. Study Abroad Advanced Topics in: _____. 1-6 Hours. S.
This course is designed for the study of special topics in Sociology at the junior/senior level. Course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. No more than 6 hours of SOC 295 or SOC 495 may count towards the Sociology major or minor. LEC.

SOC 499. Honors Course. 3-6 Hours. AE61 / S.
Intensive study and research under faculty direction including the writing of a thesis. Enrollment may be split between two semesters, but no grade will be given until completion of the thesis. Admission to honors candidacy is open only to majors who have shown a marked capability for independent study and have completed either SOC 310 or SOC 500. IND.

SOC 500. Sociological Theory. 3 Hours. S.
An introduction to the principal texts in sociological theory and the ideas that made them important. Primary materials are emphasized, ranging from medieval to the current age. The goal of the course is to show continuity and change in the theoretical tradition of sociology, and to demonstrate the continued importance of classical ideas. Prerequisite: SOC 104 or permission of instructor. LEC.

SOC 510. Elementary Statistics and Data Analysis. 3 Hours. S.
An introduction to social scientific data analysis, with an emphasis on descriptive and inferential statistics. Specific topics include sampling, measures of association and correlation, significance testing, the logic of causal inference, the use of computer programs for data analysis, multivariate analysis, and the critical evaluation of social science research findings. Prerequisite: SOC 310 and MATH 101, or instructor permission. LEC.
SOC 519. Sociology of Global Food. 5 Hours. U.
The Sociology of Global Food offers a critical examination of the
global food system since the Industrial Revolution. Topics include the
industrialization of agriculture, sustainable agriculture, and the role of
food and agriculture in organizing society. This course discusses the
emergence of current debates around food and agriculture including food
activism, technological developments, human/environmental relationships,
and labor issues. There is a lab component to this course. (Same as
EVRN 519.) Prerequisite: Junior standing. LEC.

SOC 520. Groups and Associations. 3 Hours. S.
A comparative study of groups, associations, and institutions as types of
social systems with special attention to structural characteristics and
organizational processes; the nature of membership and leadership,
including recruitment, selection and training; the social position,
relationship, and function of these groups in communities and societies.
Prerequisite: A principal course in sociology. LEC.

SOC 521. Wealth, Power, and Inequality. 3 Hours. AE41 / S.
This class focuses on economic inequality and the political and social
forces that create and sustain it in the United States and internationally.
The variables of race, ethnicity, status, and gender are analyzed as they
relate to the differences in the distribution of wealth and power, and
attention is paid to how these multiple variables shape opportunities. LEC.

SOC 522. American Racial and Ethnic Relations. 3 Hours. AE41 / S.
Analysis of the basic sociological concepts that apply to majority/minority
relations; with special emphasis on racial and ethnic interaction in the
United States. (Same as AMS 522.) Prerequisite: A principal course in
sociology. LEC.

SOC 523. Sociology of Aging and the Life Course. 3 Hours. AE41 / S.
An advanced survey of theory and research in social gerontology, giving
primary attention to aging and the aged as affected by social organization,
including such social institutions as familial, economic, political, and health
care; organizational processes such as social stratification; and living
environments including community and housing. In these contexts, certain
demographic, cross-cultural, social-psychological, and physiological
aspects of aging will also be considered. Prerequisite: A principal course in
sociology. LEC.

SOC 524. Sociology of the Economy. 3 Hours. S.
An analysis of the social organization of production with attention being
given to such topics as: world economic crises and their social bases,
capitalist and socialist economies, primitive and advanced economic
systems, multinational corporations, the nature of housework, and the
transformation of economic systems. Prerequisite: A principal course in
sociology. LEC.

SOC 525. Sociology of Work. 3 Hours. S.
A consideration of problems in the conceptual and empirical definition
of occupations and professions. It will involve the examination of the
process of professionalization, the differentiation and integration of labor,
career patterns, the work situation, the study of leisure, and the social
consequences of changes in occupations and professions. Prerequisite: A
principal course in sociology. LEC.

SOC 529. Globalization. 3 Hours. S.
Addresses sociological aspects of the growth of transnational economic,
cultural, institutional, and political interconnections, the freer and
faster movement of goods, images, ideas, people, and institutional
forms across national borders, and the consequences and problems of
these processes. The focus is on recent (later 20th century to the
present) global restructuring in the context of historical shifts in capitalist
development. Prerequisite: SOC 104. LEC.

SOC 530. Industrial Revolution and Capitalist Development. 3 Hours.
S.
Focuses on the social forces that generated industrial capitalism.
Emphasis will be on comparative social structures and their meaning
for the nature and quality of life. The transformation from medieval to
mercantilist to industrial capitalism will be analyzed in detail. Possibilities
of post-industrial society will be discussed. This course will consider
exclusively Western development. Prerequisite: A principal course in
sociology. LEC.

SOC 531. Global Social Change. 3 Hours. S.
Comparative study of social, economic, political, and ideological factors
influencing global social change, and analysis of different theoretical
orientations related to social change in various societies. Prerequisite: A
principal course in Sociology. LEC.

SOC 532. Sociology of the Middle East. 3 Hours. NW AE42/AE61 / S.
The sociological analysis of social, historical, and contemporary issues
pertaining to the Middle East and to relations between the Middle
East and other regions of the world. We use sociological theoretical
perspectives to address such topics as nationalism and identity; religion,
race and ethnicity; gender, socioeconomic development, and sociopolitical
and economic relations with the United States. Prerequisite: One of the
following: SOC 104, SOC 110, SOC 150, SOC 160, or SOC 220. LEC.

SOC 533. Industrialization in Developing Nations. 3 Hours. S.
Comparative study of problems associated with industrialization in
developing nations, including population problems, unemployment,
social and welfare problems, and various political issues. Prerequisite: A
principal course in sociology. LEC.

SOC 534. Comparative Racial and Ethnic Relations. 3 Hours. NW
AE42 / S.
An examination of constructions of race and ethnicity around the world.
Emphasis is on the social, political, historical, cultural and economic
factors that lead to the creation of ethnic and racial identities, ethnic
conflict and accommodation, ethnic movements, and ethnic political
organization. Racial and ethnic relations in the U.S. are compared with
other countries. Major focus is placed on ethnicity in Africa, Asia, Latin
America, the Caribbean and/or the Middle East. (Same as AAAS 510 and
AMS 534.) LEC.

SOC 535. Gender in the Global Context. 3 Hours. S.
This course examines gender roles and identity in the global context
and focuses specifically on historical comparative analysis of women’s
participation in—and impact on—social, political, economic, and cultural
aspects of their communities and nations. Major emphasis will be
placed on women in Africa, Asia, Latin America, and the Middle East.
Prerequisite: A principal course in Sociology. LEC.

SOC 536. Ethnicity in the United States: ______. 3 Hours. AE41 / S.
An examination of the history, sociology, and culture of U.S. ethnic
categories (e.g., American Indians, Latinos, Asian Americans, Jewish
Americans, Irish Americans). The specific group studied varies from
semester to semester. Course may be repeated for credit. (Same as AMS
536.) Prerequisite: A principal course in American Studies, Sociology, or
Anthropology, or permission of instructor. LEC.

SOC 560. Law and Criminal Justice. 3 Hours. S.
An analysis of the sources and procedures of development of the criminal
law and analysis of the practices of law enforcement, prosecution, and
judicial action, principally in the United States. Prerequisite: A principal
course in sociology. LEC.

SOC 561. Sociology of Deviance. 3 Hours. S.
General analysis of the ways in which individuals and actions come to be
defined as deviant in a society, including the political, economic, social,
and cultural processes of labeling, rulemaking, and rule breaking: Why are some acts and groups considered deviant at some points in time and in some places, but not in others? Prerequisite: A principal course in sociology. LEC.

SOC 562. Sociology of Law. 3 Hours. S.
A survey of the effects of social structure, societal values, and social change upon the creation and alteration of law. Various perspectives from the social sciences will be employed in the introductory examination of the general place of law in societies. The emphasis of the course will be on the sociological analysis of law in Western history as well as the present. Prerequisite: A principal course in sociology. LEC.

SOC 570. Social Conflict. 3 Hours. S.
The nature of social conflict, with special emphasis on the more persistent conflict areas of modern social life such as industrial, racial, religious, and national conflicts. Prerequisite: A principal course in sociology. LEC.

SOC 571. Collective Behavior. 3 Hours. S.
An analysis of such collective phenomena as crowd behavior, social epidemics, fads, fashions, popular crazes, and mass movements; the nature of the public; functional analysis of public opinion; the problems of democracy as viewed from the standpoint of organizing collective action. Prerequisite: A principal course in sociology. LEC.

SOC 572. Dispute Settlement. 3 Hours. S.
Processes of negotiation and mediation in settling disputes in communities and organizations over controversial issues, policies, and decisions. Knowledge of skills are developed through studying theories and research findings, and by case analysis, role playing, and simulation. LEC.

SOC 573. Sociology of Violence. 3 Hours. S.
This course will examine violence in social and political life. The causes and consequences of various types of violence will be examined in a variety of social settings. Examples include violence in the family, schools, the workplace, violence in cities, and violence as a part of the political process: assassination, revolution, coups, terrorism, and government repression. Prerequisite: A principal course in sociology. LEC.

SOC 590. Sociology in the Community. 3 Hours. S.
The purpose of this course is to encourage students to develop their understanding of the relationship between individual biography and social organization while they contribute to their community by working as volunteers in non-profit community or campus organizations. Not open to students who have completed SOC 490. Prerequisite: SOC 310 and SOC 510. LEC.

SOC 598. Practicum in Crime and Delinquency Studies. 3-6 Hours. S.
A one- or two-semester course in which students are provided the opportunity, as interns, to gain practical experience working in the criminal justice system agency. A report in the format of a research paper is required at the conclusion of the practicum. Open only to Crime and Delinquency Studies majors. Prerequisite: Consent of the instructor. FLD.

SOC 600. Sociological Perspectives: ______. 3 Hours. S.
Analysis of various sociological perspectives and/or the application of various perspectives to a given social phenomenon. May be repeated as topics vary. Prerequisite: A principal course in sociology. LEC.

SOC 601. Introduction to Feminist Social Theory. 3 Hours. S.
Feminist theories accord a central role to gender and the oppression of women in developing an analysis of social life. This course will explore and evaluate accounts of social structure, social processes, and consciousness developed from a feminist perspective. A broad range of theoretical models will be presented, drawing on liberal, historical materialist, psychoanalytical, cultural, and Black feminist theories. Prerequisite: A principal course in Sociology and at least junior standing. LEC.

SOC 610. Survey Research. 3 Hours. S.
Methods and techniques of collecting and analyzing social data obtained by interviewing a sample of the population. Practice through field work and laboratory analysis. LEC.

SOC 615. Techniques of Demographic Analysis. 4 Hours. U.
Examines concepts of demographic measurement and analysis for the study of changes in size, composition and distribution of populations. Students learn to measure and analyze basic population components such as fertility, mortality, migration and health using rates, standardization, decomposition of differences and life tables. Provides an opportunity to develop quantitative skills in the context of human life course processes that might be extended to include the study of employment, incarceration, education and other phenomena. Involves some reliance on calculus, substantial use of statistical software and an extended research project. Course includes a laboratory component. Prerequisite: SOC 510 or equivalent, or permission of instructor. LEC.

SOC 617. Women and Health Care. 3 Hours. S.
Critical analysis of the current health status and health needs of women, exploring how lay, medical, and research assumptions have influenced both the clinical/scientific literature and the organization of health services. The course includes a focus on historical patterns in women’s health issues and social change actions. (Same as HPM 620.) LEC.

SOC 619. Political Sociology. 3 Hours. S.
The study of politics and society in the United States and abroad, including power and authority-who has them, how are they acquired, when are they challenged; state formation, the expansion of central governments, and patterns of political domination; political and nationalist movements; the politics of gender, class, race, and ethnicity; political culture and ideology; ethnic and nationalist conflict; revolution and political change. Prerequisite: A principal course in sociology or consent of instructor. LEC.

SOC 620. Social Organization. 3 Hours. S.
Comparative analysis of social organization in simple and complex societies. Consideration of the process of differentiation, specialization, institutionalization, and change, with special attention given to the emergence of intergroup and interorganizational forms of social organization typical of complex societies. Prerequisite: A principal course in sociology. LEC.

SOC 621. Cross-Cultural Sociology. 3 Hours. NW AE42/GE3H/GE3S / S.
A systematic introduction to cross-cultural issues from the standpoint of sociology, designed to acquaint students with the full range of substantive and methodological issues that arise in comparative sociological inquiry, with a primary focus on non-western societies. Specific topics to be addressed may include war and peace, stratification and inequality, race and ethnicity, and political authority and power, all viewed in the light of cross-cultural research and theory. Prerequisite: A previous Sociology course or consent of instructor. LEC.

SOC 622. Sociology of Science. 3 Hours. S.
The social roles of science in relation to other institutions, to technology, and to social change; and, within the scientific community, enculturation, information-flow, creativity, decision-making, administration, and leadership. Prerequisite: A principal course in sociology. LEC.

SOC 625. Work Roles in Health and Medicine. 3 Hours. S.
A sociological examination of medical and health-care occupations and professions. The selection of careers, socialization processes, and the development of professional identities. Interactions among practitioners,
health-care teams, consumers, and professional and community power structures. Control and coordination of work. The impact of increasing specialization and changes in the demographic makeup of client and professional populations. Coping with medical failure and other problems inherent in medical and health-care work. LEC.

SOC 625. Religion and Society. 3 Hours. S.
A comparative study of the nature of religion in human societies both primitive and civilized; the functioning of religion for the community and the individual; the analysis of belief, myths, rituals, sacred attitudes, cults, religious movements, and church organization. Prerequisite: A principal course in sociology or ANTH 108 or ANTH 308. LEC.

SOC 628. Families and Social Inequalities. 3 Hours. S.
This course examines families in the context of social inequalities based on race-ethnicity, social class, gender, and sexuality. It analyzes the link between family diversity and social inequalities in the U.S. and elsewhere and theorizes families using a critical lens that focuses on social policies and power relations that perpetuate social inequalities. We also explore the growing complexities of families and how they affect and are affected by other social institutions, especially the labor market. Prerequisite: SOC 220 or consent of instructor. LEC.

SOC 629. Sociology of Sport. 3 Hours. S.
Examination of organized sport as a social institution and its relation to other social institutions (e.g., political, economic, educational, and religious), with special emphasis on American society. Analysis of the social correlates of sports participation and a consideration of the role of sport in social change. (Same as AMS 629.) Prerequisite: A principal course in sociology. LEC.

SOC 630. Latin American Society. 3 Hours. S/W.
Aspects of the social organization of main Latin American nations, including, e.g., race/ethnicity, social class, gender, urbanization, socioeconomic development, revolution, and relations with the U.S. Emphasis on sociological theories of Latin American development. Prerequisite: A principal course in Sociology or ANTH 108 or ANTH 308, plus junior-senior or graduate standing. LEC.

SOC 634. The Sociology of Culture. 3 Hours. S.
An introduction to a branch of sociology, mainly European in origin, that considers the relation between social structure and "high" and "mass" culture. Specific theories of these relations will be applied to works of literature, the fine arts, or music. Some preliminary acquaintance with these subjects is desirable but not mandatory for admission to the course. LEC.

SOC 640. Political Islam. 3 Hours. NW AE42/AE51 / S.
This course gives students a basic understanding of Islam and Islamic movements, explores the economic, social, political, and cultural context in which these movements take place, and examines the impact of Islam on politics in select countries. Issues such as compatibility of political Islam and democratic politics, political economy in Muslim societies, fundamentalism in Islam, gender relations, identity politics and questions on clash of civilizations are explored. (Same as POLS 667). Prerequisite: A principal course in sociology, POLS 150, or consent of instructor. LEC.

SOC 650. Transnational Migration. 3 Hours. S.
A historically-conscious, sociological exploration of political, cultural and health issues involved in transnational migration, this course invites the student to situate current transnational migration within specific historical social processes within both postcolonial Africa and the postcolonial West. The course examines parallels from the experience of migration in other parts of the world, specifically Asia and Latin America. The aim is an understanding and appreciation of both the interconnectedness of the world’s peoples and, crucially, of the world’s histories. Prerequisite: SOC 104. LEC.

SOC 660. Sociology of Mental Illness. 3 Hours. S.
The sociology of mental illness concerns itself with the study of mental disorders as social phenomena. The course will be concerned with (1) the social factors and social processes that contribute to mental disorders, (2) the social definitions of mental disorders as forms of social deviance, (3) the social aspects of the prevention of mental disorders. Prerequisite: A principal course in sociology. LEC.

SOC 661. Causation of Crime and Delinquency. 3 Hours. S.
The individual and social processes that produce violation of legal norms, dealing with society’s responses to these violations only insofar as the responses influence the violators. Prerequisite: A principal course in sociology. LEC.

SOC 662. Corrections. 3 Hours. S.
Legal systems for handling offenders and the development of the laws creating these systems. Emphasis on the various parts (police, courts, probation, penal institutions, and parole) of the system will vary. Prerequisite: A principal course in sociology. LEC.

SOC 671. Social Movements. 3 Hours. S.
Social movements as collective action to establish forms of social organization; consideration of reform, revolutionary, sectarian and fashion movements; ideology, esprit de corps, morale and leadership as factors in development and organization. Prerequisite: A principal course in sociology. LEC.

SOC 672. Sociology of War and Peace. 3 Hours. S.
Descriptive and analytic account of cold and hot wars. The concept of enemy. Types of war. Emphasis on personal and collective action in warlike situations. War and international politics. The ideologies of war from the classics to the present. Prerequisite: A principal course in sociology. LEC.

SOC 688. Individual Undergraduate Research. 1-12 Hours. AE61 / S.
Library or field research either as part of an ongoing project or as an independent study project. One to twelve hours. May be taken from one or more faculty during one or more semesters, the total hours not to exceed 12. No more than 3 credits may be applied to satisfy requirements for the sociology major. Prerequisite: Two courses in sociology and consent of instructor. IND.

SOC 699. Capstone in Sociology. 3 Hours. AE61 / S.
In this capstone course, students synthesize the knowledge gained in their substantive courses and use the skills developed in their methodology courses to design and conduct a research project on a current social issue or meeting the research needs of a local community group. The outcome will be a professional quality research report. Prerequisite: SOC 510. LEC.

SOC 707. Seminar in Historical Sociology. 1-4 Hours.
Each seminar will explore problems at the intersection of sociology and history. Topic, instructors, and hours of credit will be announced in the Schedule of Classes. Seminars will be offered by different instructors on different topics and students may take more than one topic. No prerequisite. LEC.

SOC 722. Sociology of Gender. 3 Hours.
This course will offer a range of sociological perspectives on the role of gender in society. The particular substantive focus will vary each semester to allow flexibility for in-depth analysis of gender relationships in such areas as politics, health and aging, and work. LEC.
SOC 760. Social Inequality. 3 Hours.
A comprehensive review of the major theoretical and empirical approaches used in the study of institutionalized social inequality. Reference to the origins, forms, cultural and structural variations and their changes over time, consequences and ideologies of social inequality. Prerequisite: A distribution course in sociology. LEC.

SOC 762. Seminar in Social Deviation and Control: ______. 3 Hours.
Advanced study of theory and practice relating to deviation. May be repeated as topics vary. Prerequisite: SOC 662 or SOC 661. LEC.

SOC 767. Gerontology Proseminar. 3 Hours.
A proseminar coordinated by the Gerontology Center. The proseminar explores essential areas of gerontology for researchers and practitioners, providing a multidisciplinary (psychology, biology, sociology, and communication) perspective on aging. The proseminar surveys contemporary basic and applied research, service programs, and policy and management issues in gerontology. (Same as ABSC 787, AMS 767, COMS 787, and PSYC 787.) (Formerly HDFL 787.) LEC.

SOC 770. Social Systems and Social Change in the United States. 3 Hours.
Analysis of approaches to the study of sociocultural change in America, with special emphasis on a systems perspective. Seniors by consent of instructor. LEC.

SOC 771. Intergroup Relations and Conflict in American Society. 3 Hours.
Analysis of the dynamics of intergroup relations (e.g., class, religious, ethnic, racial, political) in America with special emphasis on the examination of major theoretical and empirical approaches employed in the study of societal conflict and consensus. LEC.

SOC 780. Advanced Topics in Sociology: ______. 3 Hours.
Topics will vary from semester to semester and instructor to instructor to allow flexibility for in-depth analysis of particular topics. LEC.

SOC 790. Proseminar. 3 Hours.
Introduction to major disciplinary issues, departmental research specialties, faculty research interests, interdisciplinary connections, funding sources, and professional writing. Required of M.A. students entering the graduate program in sociology. May not be taken by those who have credit for SOC 990. Graded on satisfactory/unsatisfactory basis. LEC.

SOC 801. The Rise of Social Theory. 3 Hours.
This is less a survey of intellectual history than an effort to trace the "preclassical" roots of sociological theory. We explore the rise of paradigmatic concerns in the writings of such key figures as Aristotle, Marsilius of Padua, Martin Luther, Étienne de la Boétie, Michel de Montaigne, Charles de Montesquieu, Jean-Jacques Rousseau, Immanuel Kant, G.W.F. Hegel, Flora Tristan, and Ludwig Feuerbach, among others. LEC.

SOC 802. Modern Social Theory. 3 Hours.
This seminar will focus on the later 19th and early 20th century "theories of society," addressing the origins and developmental tendencies of Western modernity and their relation to premodern social orders. Primary texts of the major theorists (e.g. Marx, Durkheim, Nietzsche, Weber, Simmel, and Mead) will be studied in historical context. The tradition's analytical and critical resources and problematic features will also be explored. Finally, the connections between this tradition and contemporary sociological approaches will be explored. LEC.

SOC 803. Issues in Contemporary Theory: ______. 3 Hours.
A critical examination of recent trends and debates in sociological theory. This is a thematically oriented course in which classical as well as contemporary views will be explored. Attention will be directed to theoretical issues under discussion in fields such as symbolic interactionism, semiology, ethnmethodology, critical theory, macrosociology, and others. LEC.

SOC 804. Sociology of Knowledge. 3 Hours.
This course reviews the major sociological approaches to the study of the relationship between thought and the social context within which it arises. A central concern is an examination of the relationship between ideology and social structures, particularly as expressed in the construction of official knowledge. LEC.

SOC 808. Feminist Theories. 3 Hours.
This course will explore and evaluate accounts of social structure, social processes, and consciousness developed in the feminist literature. We will review a range of theoretical arguments, including liberal, historical, materialist, psychoanalytic, cultural, and Black feminist theories. Some of the readings will focus on limitations and distortions within mainstream social theory; others will center on the development of alternative social theory using the standpoint of women as a point of departure. LEC.

SOC 810. Sociological Inquiry. 3 Hours.
The goals of this course are to understand the characteristics of sociologically interesting and rigorous research and to design a research proposal that shares those characteristics. The focus of students' proposals will be their M.A. thesis project. Students will read books and articles representing a variety of research approaches (ethnographies, surveys, interviews, document analyses, historical studies, comparative research, etc.), and will deconstruct them in order to understand their theoretical and methodological significance. Assignments will include a completed M.A. thesis proposal. LEC.

SOC 811. Sociological Research. 3 Hours.
The use of the scientific method to study social phenomena including: the formulation and testing of hypotheses; techniques for collecting data; measuring social variables; interpreting research findings; the relationship of theory and facts. Prerequisite: A distribution course in sociology. LEC.

SOC 812. Analytic Methods in Sociology. 3 Hours.
Consideration of quantitative methods of analysis including both parametric and non-parametric techniques. Prerequisite: A course in statistics. LEC.

SOC 813. Field Methods and Participant Observation. 3-5 Hours.
Will acquaint the student both theoretically and empirically with the procedures and logics of the research techniques employed by individuals or small research teams conducting qualitative fieldwork. Prerequisite: A distribution course in sociology. FLD.

SOC 814. Health Services Research: Epidemiology, Evaluation, and Survey Methods. 3 Hours.
Students learn the logic, assumptions, designs, and procedures involved in conducting the major types of research found in the health services field. Students develop an informed basis for critically evaluating the methodological adequacy of research studies in the areas of descriptive and analytic epidemiology, program evaluation, and health-related survey research as well as working knowledge of the research process itself. Emphasis is placed on examining basic health services issues such as measuring quality of care, understanding the role of social factors in the etiology of disease, determining the health status and health needs of populations, and incorporating health services research into organizational policy and decision-making. LEC.

SOC 820. Political Sociology. 3 Hours.
This course offers an overview of the different perspectives and key arguments comprising the field of political sociology, including both classical and contemporary readings. The issues studied in this field
include the nature of power and the nature of the state, relations between
state and society, and social movements, political organization and
civic participation, political culture, voting behavior, comparative political
systems, warfare, democracy and economic development, citizenship,
nationalism, revolutions, and globalization. LEC.

SOC 824. Health and Social Behavior. 3 Hours.
This course provides students with an analytic understanding of the
organization, professional, and interpersonal behavior that characterizes
contemporary health and health care. Emphasis is placed on examination
and integration of conceptual frameworks, theories, and research findings
bearing on basic behavioral/managerial issues such as authority relations
in health care settings, models of illness behavior and health services
utilization, the impact of organizational structure on employee and client
attitudes and behavior, and the culture of professional medicine in relation
to patient care. LEC.

SOC 830. Latin American Society. 3 Hours.
Aspects of the social organization of main Latin American nations,
including, e.g., race/ethnicity, social class, gender, urbanization,
socioeconomic development, revolution, and relations with the U.S.
Emphasis on sociological theories of Latin American development.
Prerequisite: A principal course in sociology or ANTH 108 or ANTH 308,
plus junior-senior or graduate student standing. LEC.

SOC 873. International Political Economy. 3 Hours.
Provides a broad survey of major developments in the field. Topics
include the intellectual origins of international political economy; the
historical evolution of the international system; North-South and Western
trade, investment, and monetary relations; foreign aid, debt technology
transfer, development, international economic institutions (e.g.,
International Monetary Funds, World Bank, Multinational Corporations,
etc.). (Same as POLS 973.) LEC.

SOC 875. The Political Economy of Globalization. 3 Hours.
The course will acquaint students with recent developments in the global
economy, including its impact on politics and society. Topics include
theories of globalization, the role of the nation-state and international
agencies in socioeconomic development, inequality from a global
perspective, immigration and citizenship, globalization and democracy,
and the rise of transnational social movements. LEC.

SOC 891. Individual Master’s Readings. 1-6 Hours.
Individual study of special topics or problems by students working on a
master's degree. RSH.

SOC 892. Teaching Seminar. 1-3 Hours.
Seminar on sociology course design and development. Topics covered
include syllabus design, exam strategies and design, course design,
content of and approaches to teaching introductory and other sociology
courses, student grading and evaluation. Required of all teaching
assistants assigned to courses in sociology. May not be repeated for
credit toward graduate degree. LEC.

SOC 899. Thesis. 1-8 Hours.
THE.

SOC 900. Seminar on Special Topics in Theory: ______. 1-4 Hours.
Each seminar will explore problems of theory in sociology. Topic,
instructor, and hours of credit will be announced in the Schedule of
Classes. Seminars will be offered by different instructors on different
topics, and a student may take more than one topic. LEC.

SOC 910. Seminar on Special Topics in Methods: ______. 1-4 Hours.
Each seminar will explore problems of methods in sociology. Topic,
instructor, and hours of credit will be announced in the Schedule of
Classes. Seminars will be offered by different instructors on different
topics, and a student may take more than one topic. LEC.

SOC 920. Seminar on Special Topics in Social Organizations: ______.
1-4 Hours.
Each seminar will explore problems of social organization in sociology.
Topic, instructor, and hours of credit will be announced in the Schedule
of Classes. Seminars will be offered by different instructors on different
topics, and a student may take more than one topic. LEC.

SOC 930. Seminar on Special Topics in Comparative Studies: ______.
1-4 Hours.
Each seminar will explore problems of comparative studies in sociology.
Topic, instructor, and hours of credit will be announced in the Schedule
of Classes. Seminars will be offered by different instructors on different
topics, and a student may take more than one topic. LEC.

SOC 940. Seminar on Topics in Demography, Ecology, and
Community: ______. 1-4 Hours.
Each seminar will explore problems of demography, ecology, and
community in sociology. Topic, instructor, and credit hours will be
announced in the Schedule of Classes. Seminars will be offered by
different instructors on different topics, and a student may take more than
one topic. LEC.

SOC 950. Seminar on Special Topics in Social Psychology: ______.
1-4 Hours.
Each seminar will explore problems of social psychology in sociology.
Topic, instructor, and credit hours will be announced in the Schedule
of Classes. Seminars will be offered by different instructors on different
topics, and a student may take more than one topic. LEC.

SOC 960. Seminar on Special Topics in Deviance and Social
Problems: ______. 1-4 Hours.
Each seminar will explore problems of deviance and social problems in
sociology. Topic, instructor, and credit hours will be announced in the
Schedule of Classes. Seminars will be offered by different instructors on
different topics, and a student may take more than one topic. LEC.

SOC 970. Seminar on Special Topics in Social Conflict and Change:
______. 1-4 Hours.
Each seminar will explore problems of social conflict and change in
sociology. Topic, instructor, and hours of credit will be announced in the
Schedule of Classes. Seminars will be offered by different instructors on
different topics, and a student may take more than one topic. LEC.

SOC 980. Special Topics in Sociology: ______. 1-3 Hours.
Topics will vary by semester and instructor to allow flexibility for in-depth
analysis of particular topics that do not fit into one of the other 900 level
seminars. LEC.

SOC 991. Individual Doctoral Readings. 1-6 Hours.
Individual study of special topics or problems by students working on a
doctorate. RSH.

SOC 999. Dissertation. 1-12 Hours.
THE.

Bachelor of Arts and Bachelor of General Studies in Sociology

Why study sociology?

Sociology investigates the social institutions and processes that shape
human behavior, histories, and opportunities.
First- and Second-Year Preparation

Admission GPA
- Satisfied by a minimum 2.5 GPA in required admission courses designated below.
- University Course Repeat Policy will apply.

Admission to the Major

Admission Requirements

Course Requirements
Math Requirement. Satisfied by one of the following:
- MATH 101 College Algebra
- MATH 104 Precalculus Mathematics
- Equivalent ACT/SAT, equivalent course, or higher course

Elements of Sociology. Satisfied by one of the following:
- SOC 104 Elements of Sociology
- SOC 105 Elements of Sociology, Honors
- SOC 304 Principles of Sociology

Sociology Admission Elective. Satisfied by sociology elective course.

Grade-Point Average Requirements
- Satisfied by a minimum 2.5 GPA in required admission courses designated above.
- University Course Repeat Policy will apply.

Application Term
Students should apply to the major during the semester in which major admission criteria will be completed, normally no later than 60 hours, or for transfer students, during the initial term at KU. Application to this major after completion of 60 hours, or the initial KU term for transfer students, will likely delay graduation.

Requirements for the B.A. or B.G.S. Major

Sociology Core Knowledge and Skills (12)
Majors must complete a course in each of the following areas:
- Elements of Sociology. Satisfied by one of the following: 3
  - SOC 104 Elements of Sociology
  - SOC 105 Elements of Sociology, Honors
  - SOC 304 Principles of Sociology
- Introduction to Social Research. Satisfied by:
  - SOC 310 Introduction to Social Research 3
- Elementary Statistics & Data Analysis. Satisfied by:
  - SOC 510 Elementary Statistics and Data Analysis 3
- Sociology Theory. Satisfied by:
  - SOC 500 Sociological Theory 3

Sociology Required Electives (21)
Majors must complete an additional 21 hours of sociology courses beyond the core courses above. At least 15 hours of these must be at the junior/senior (300+) level. Up to 3 hours may be chosen from SOC 490, SOC 598, or SOC 698, and up to 6 hours from SOC 499, to be applied to this requirement.

Upper-level sociology electives. Satisfied by 15 sociology hours at the Junior/Senior (300+) level

Additional sociology electives. Satisfied by 6 additional sociology hours at the upper or lower level

Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 33 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major. At least 15 credit hours at the 300+ level, including SOC 310, SOC 510, and SOC 500, must be taken at KU.

Major Junior/Senior Hours
Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Graduation Plan
With careful planning and commitment to a full-time course load, you can graduate in 4 years (http://clas.ku.edu/undergrad). Download a sample 4-year plan (http://clas.ku.edu/undergrad/advising/plans) for sociology.

Double Majors
Sociology majors may want to consider a second major in philosophy; history; women’s studies; area studies; or one of the natural or social sciences; or a second degree in journalism or other professional disciplines.

Departmental Honors
Working under the supervision of a faculty mentor, the undergraduate student must complete 6 hours of work in SOC 499 culminating in a superior thesis. The thesis must be certified by 3 members of the College faculty, at least 2 of whom must be from sociology, nominated by the candidate and approved by the departmental honors coordinator. The student also must achieve a grade-point average of at least 3.5 in sociology and 3.25 overall.

Minor in Sociology

Why study sociology?
Sociology investigates the social institutions and processes that shape human behavior, histories, and opportunities.

Requirements for the Minor

Sociology Minor
Elements of Sociology (3)
Satisfied by:
- SOC 104 Elements of Sociology 3
Sociology Minor Electives (15) 15
Satisfied by 15 hours required, 12 hours at the 300-level or above.

Minor Hours & Minor GPA
While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

Minor Hours
Satisfied by 18 hours of minor courses.

Minor Hours in Residence
Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

Minor Junior/Senior Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all departmental courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Master of Arts in Sociology

Why study sociology?
Sociology investigates the social institutions and processes that shape human behavior, histories, and opportunities.

Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission
Prerequisites are 15 credit hours in sociology, a course in sociological theory, and a sociology course in statistics. Applications must include scores on the Graduate Record Examination aptitude tests. International applicants must submit scores on the GRE and either the Test of English as a Foreign Language or the academic format of the International English Language Testing System administered by the University of Cambridge ESOL Examinations.

Applications also must include
• A current résumé/curriculum vitae,
• A writing sample, and
• A nonrefundable application fee (see Admission in the Graduate Studies (p. 2059) section of the online catalog).

The applicant’s record should indicate considerable academic promise and a high level of motivation.

Submit your graduate application online (http://www.graduate.ku.edu). Send transcripts of all completed university course work to the department:

The University of Kansas
Department of Sociology
Fraser Hall
1415 Jayhawk Blvd., Room 716
Lawrence, KS 66045-7540

M.A. Degree Requirements

Thesis Option
Students must complete 36 hours of graduate credit (including SOC 790 Proseminar, SOC 810 Sociological Inquiry, SOC 811 Sociological Research, 2 graduate-level courses in sociological methods, 1 graduate-level course in sociological theory, 4 graduate-level sociology seminars, and 6 thesis hours in SOC 899) and must prepare and defend an M.A. thesis. Individual Master’s Readings courses (SOC 891) may not be used to meet these requirements except by approved petition. The defense of the M.A. thesis includes a general examination of sociological theory and research. Completion of these requirements leads to the M.A. degree, which normally allows the student to proceed to doctoral study.

Nonthesis (Terminal) Option
Students must complete 36 hours of graduate credit (excluding any credit given for thesis and including the courses specified above under the thesis option) and a final oral examination over course work in sociology. Completion of these requirements leads to the M.A. degree but does not allow the student to proceed to doctoral study.

Handbook for Graduate Students
A more detailed account of advising procedures, degree requirements, and program options is set forth in the department’s Manual of Graduate Study in Sociology, which is available online.

Doctor of Philosophy in Sociology

Why study sociology?
Sociology investigates the social institutions and processes that shape human behavior, histories, and opportunities.

Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.
Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Graduate Admission**

Prerequisites are 15 credit hours in sociology, a course in sociological theory, and a sociology course in statistics. Applications must include scores on the Graduate Record Examination aptitude tests. International applicants must submit scores on the GRE and either the Test of English as a Foreign Language or the academic format of the International English Language Testing System administered by the University of Cambridge ESOL Examinations.

Applications also must include

- A statement of academic interests and professional goals,
- 3 recommendation rating forms and letters from individuals who can evaluate the applicant’s academic performance,
- 1 complete set of transcripts from all colleges and universities attended,
- A current résumé/curriculum vitae,
- A writing sample, and
- A nonrefundable application fee (see Admission in the Graduate Studies section of the online catalog).

The applicant’s record should indicate considerable academic promise and a high level of motivation.

Submit your graduate application online (http://www.graduate.ku.edu). Send transcripts of all completed university course work and all other requested application materials to the department:

**The University of Kansas**  
Department of Sociology  
Fraser Hall  
1415 Jayhawk Blvd., Room 716  
Lawrence, KS 66045-7540

**Ph.D. Degree Requirements**

Students who have received an M.A. degree in sociology may be eligible to pursue the Ph.D. degree. For the Ph.D., students must complete all general requirements (including residency, research skills, comprehensive oral examination, preparation of a dissertation, and the final oral examination) and all M.A. degree requirements. In addition, the following requirements must be met:

1. Obtain admission to the Ph.D. program.
2. Complete SOC 790 Proseminar, unless completed at the M.A. level.
3. Carry out a program of study developed, initially, with a member of the graduate studies committee and, as soon as possible, with a doctoral advisory committee.
4. Attain the requisite levels of competence in the history and theory of sociology and in methods of sociological research by taking, in addition to the courses required for the thesis-option M.A. (2 sociological methods, 1 sociological theory, and 4 sociological seminars), SOC 812 Analytic Methods in Sociology, 1 graduate-level sociology methods course, 2 graduate-level courses in sociological theory, and 3 graduate-level sociology seminars with an average grade of 3.0. Individual Doctoral Readings courses (SOC 991) may not be used to meet these requirements except by approved petition.
5. Complete the Research Skills and Responsible Scholarship (RSRS) requirement. The university requires that every doctoral student have training in responsible scholarship and research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. Doctoral students in sociology meet this requirement by completion of the following courses: SOC 810, SOC 811, SOC 812, SOC 910. Additional information about this requirement can be found under Doctoral Degree Requirements, Doctor of Philosophy, Research Skills in the Graduate Studies (p. 2059) section of the online catalog.
6. Students must compile portfolios of their professional work successfully demonstrating command of 2 fields of specialization within sociology and preparation to undertake dissertation research.
7. Complete 3 full academic years, or the bona fide equivalent, in study at this or another approved university, including time spent attaining the master’s degree.
8. Complete 2 semesters, normally consecutive, in study at KU. During this period, the student must be involved in full-time academic pursuits that may involve teaching or research activities. In this case, the minimum enrollment is 6 credit hours.
9. Pass an oral comprehensive examination. The candidate then enrolls for a minimum of 6 hours a semester and 3 hours a summer session until 18 hours or all requirements for the degree (whichever comes first) have been completed. If the degree is not complete after 18 hours of post-comprehensive enrollment, the candidate continues to enroll each semester and each summer session until all requirements for the degree have been met.

**Note:** Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the Graduate Studies section of the online catalog and in KU Policy Library.

**Handbook for Graduate Students**

A more detailed account of advising procedures, degree requirements, and program options is set forth in the department’s Manual of Graduate Study in Sociology, which is available online at sociology.ku.edu/gradprog.

**Department of Spanish and Portuguese**

**Why study Spanish and Portuguese?**

Because fluency in more than one language and culture and analytical understandings of literary and cultural texts create educated citizens.

**Undergraduate Programs**

The department offers course work for students seeking proficiency in a foreign language and for majors in Spanish or a related field.
Placement
Students who have not studied Spanish in high school should seek permission to enroll in SPAN 104. For permission to enroll in this course, a student must show his or her high school transcript to the advising specialist in the Department of Spanish and Portuguese. Students who have had limited study of Spanish (1 to 3 years in high school or 1 semester of Spanish at another institution of higher learning, equivalent to SPAN 104) and are not placed in the intermediate level should enroll in SPAN 111. Only students who complete SPAN 104 at KU are eligible to enroll in SPAN 108.

Students with 2 to 4 years of high school Spanish can be placed in the intermediate level (SPAN 212, SPAN 216, SPAN 220, or SPAN 324) by taking the placement examination and consulting the advising specialist.

Students registered with Disability Resources (http://www.disability.ku.edu) should contact them for placement advising.

Retroactive Credit
Students with no prior college or university Spanish course credit are eligible for retroactive credit according to this formula:

1. 3 hours of retroactive credit are awarded to a student who enrolls initially at KU in a third-level Spanish course (SPAN 212) and receives a grade of C or higher.
2. 6 hours of retroactive credit are awarded to a student who enrolls initially at KU in a fourth-level Spanish course (SPAN 216) and receives a grade of C or higher.
3. 9 hours of retroactive credit are awarded to a student who enrolls initially at KU in a 3-credit-hour Spanish course with a fourth-level course as a prerequisite and receives a grade of C or higher.

Students interested in retroactive credit should consult the department before enrolling.

Courses for Nonmajors
Students may fulfill the College foreign language requirement by

1. Passing the proficiency examination
2. Completing SPAN 216 or PORT 216
3. Completing a course in Spanish or Portuguese that has SPAN 216 or PORT 216 as a prerequisite.

Candidates for the B.S. in education who are majoring in Spanish or minoring in Brazilian Studies should consult the School of Education.

Graduate Programs
The department offers a full graduate program leading to the M.A. and the Ph.D. degrees. Students who complete their graduate studies with the M.A. degree are well prepared to enter a variety of fields, including international business, teaching, and government. The Ph.D. program takes advantage of the literature specialties of the faculty, and Ph.D. recipients generally go on to university or college teaching.

A detailed description is available from the departmental office as well as the department’s website (http://www2.ku.edu/~spanport). This includes specific distribution requirements, fields of specialization, and information on the comprehensive examinations. Students should request information and application forms as early as possible, especially if they plan to apply for financial aid.

Courses

PORT 104. Elementary Brazilian Portuguese I. 5 Hours. U.
Five hours of class per week, plus supplementary work in language laboratory. Essentials of grammar, elementary syntax and composition, easy reading. Emphasis on conversation. LEC.

PORT 106. Elementary Brazilian Portuguese, Accelerated I. 3 Hours. U.
Three meetings weekly, plus supplementary work in language laboratory. Designed for students proficient in Spanish (or with previous work in Portuguese) to acquire proficiency in Portuguese more rapidly. Covers the same material as PORT 104. Prerequisite: SPAN 216 or equivalent. LEC.

PORT 108. Elementary Brazilian Portuguese II. 5 Hours. U.
Five hours of class per week plus supplementary work in language laboratory. A continuation of PORT 104. Prerequisite: PORT 104. LEC.

PORT 110. Elementary Brazilian Portuguese, Accelerated II. 3 Hours. U.
A continuation of PORT 106. Prerequisite: PORT 106. LEC.

PORT 177. First Year Seminar: ______. 3 Hours. GE11/U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Portuguese. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

PORT 212. Intermediate Brazilian Portuguese I. 3 Hours. U.
A review of Brazilian Portuguese grammar, with practice in reading, composition, and conversation through the study and discussion of Brazilian prose selections. Prerequisite: PORT 108 or PORT 110. LEC.

PORT 216. Intermediate Brazilian Portuguese II. 3 Hours. U.
A continuation of PORT 212. Prerequisite: PORT 212. LEC.

PORT 220. Intensive Intermediate Brazilian Portuguese. 3-6 Hours. U.
Five hours of class and an additional hour in the language laboratory. The course is designed for students who began the study of Portuguese in PORT 106 and PORT 110, and for superior students in PORT 104 and PORT 108. The material covered is the same as in PORT 212 and PORT 216. Prerequisite: PORT 110, PORT 108 with a grade of A or B, or consent of instructor. Open only to members of the Summer Language Institute in Vitoria-Vila Velha, Brazil. LEC.

PORT 300. Brazilian Culture. 3 Hours. HT AE42/H.
Prehistoric and colonial Portuguese origins of Brazil and its independent development in the nineteenth and twentieth centuries. Key aspects of economic, political, and social factors; special attention to intellectual history. Readings in English. LEC.

PORT 320. Introduction to Portuguese and Brazilian Literatures. 3 Hours. H/W.
A more advanced reading course serving as an introduction to the study of Luso-Brazilian literature, with discussion in Portuguese of the material read. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 340. Textual Analysis and Critical Reading. 3 Hours. HL/H.
Introduction to Brazilian cultural and literary studies. Critical readings and interpretation of Brazilian cultural expressions with emphasis on acquiring the skills and vocabulary for discussing and writing critical analyses. Conducted in Portuguese. Not open to students who have taken PORT
540. Prerequisite: Grade of A or B in PORT 216 or consent of instructor. LEC.

PORT 347. Brazilian Studies: _____. 3 Hours. H.
A topics course dedicated to the study of special historical moments, topics, authors, or themes in literary and cultural history. The course may cover multiple genres and periods. Course conducted in Portuguese and may be repeated for credit as the topic varies. Not open to students who have taken PORT 547. Prerequisite: PORT 216 or consent of instructor. LEC.

PORT 348. Portuguese Language and Brazilian Culture for Business. 3 Hours. H.
Cultural studies approach to contemporary Brazilian society for students interested in business. Explores how Brazilians negotiate their place in a global cultural context and how they perceive business (negocios). Readings include selections from literature, history, journalism, social analysis, and popular culture. Exercises help English speakers develop analytical skills as well as vocabulary and communication skills related to business and professional life in Brazil. Conducted in Portuguese. Not open to students who have taken PORT 548. Prerequisite: PORT 216 or consent of instructor. LEC.

PORT 365. Studies in Brazilian Film: _____. 3 Hours. H.
A theoretical and historical approach to Brazilian film with particular attention to thematic concerns, such as cultural and national identity, and of literary discourse. Given in Portuguese or English. May be repeated for credit as topic varies. Students will be expected to attend film screenings in addition to regular class meetings. Not open to students who have taken PORT 565. Prerequisite: Consent of instructor. LEC.

PORT 388. Intermediate Brazilian Portuguese Conversation. 1 Hour. U.
Two recitations weekly. Prerequisite: PORT 104 or PORT 106. LEC.

PORT 394. Special Readings in Brazilian Studies. 1-3 Hours. H.
Direct readings in (a) fields not covered by student’s course work, and/or (b) field of student’s special interest approved by the department. May be repeated for credit if content varies. Prerequisite: PORT 216 and three-hours upper-division credit in Portuguese, or consent of instructor. LEC.

PORT 471. Studies in Brazilian Culture and Civilization: _____. 1-3 Hours. H.
A study of Brazilian culture with emphasis on one or more of the following aspects: history, politics, ethnology, anthropology, religious and secular traditions, issues of cultural identity, music, art, architecture, and popular culture. Available only to study-abroad participants. May be repeated for credit if content varies. LEC.

PORT 475. Studies in Brazilian Literature: _____. 1-3 Hours. H.
A study of the literature of a particular author, group of authors, period, genre, region, or theme. Available only to study-abroad participants. May be repeated for credit if content varies. LEC.

PORT 488. Advanced Brazilian Portuguese Conversation. 1 Hour. U.
Two recitations weekly. More advanced than PORT 388. Prerequisite: PORT 108, PORT 110, or PORT 388. LEC.

PORT 490. Intensive Advanced Portuguese. 3-6 Hours. H/W.
Advanced composition, conversation, and stylistics, plus an introduction to Brazilian culture. Offered only during the Summer Language Institute in Brazil. Prerequisite: Four semesters of Portuguese, or consent of instructor. Open only to members of the Summer Language Institute in Vitoria-Vila Velha, Brazil. LEC.

PORT 509. Portuguese Phonetics and Phonology. 3 Hours. H/W.
A study of the phonology of the carioca (Rio de Janeiro) dialect of Brazilian Portuguese, and an introduction to other major Brazilian and Portuguese dialects. Prerequisite: Nine hours of Portuguese, or consent of instructor. LEC.

PORT 540. Textual Analysis and Critical Reading. 3 Hours. HL / H.
A more intensive treatment of the content of PORT 340. Not open to students who have taken PORT 340. Prerequisite: Consent of instructor. LEC.

PORT 547. Brazilian Studies: _____. 3 Hours. H.
A more intensive treatment of the content of PORT 347. Not open to students who have taken PORT 347. Prerequisite: PORT 216 or consent of instructor. LEC.

PORT 548. Portuguese Language and Brazilian Culture for Business. 3 Hours. H.
A more intensive treatment of the content of PORT 348. Not open to students who have taken PORT 348. Prerequisite: Consent of instructor. LEC.

PORT 560. Survey of Portuguese Literature. 3 Hours. H/W.
Emphasis on Gil Vicente, Camoes, Eca de Queiroz, and Fernando Pessoa. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 565. Studies in Brazilian Film: _____. 3 Hours. H.
A more intensive treatment of the content of PORT 365. Not open to students who have taken PORT 365. Prerequisite: Consent of instructor. LEC.

PORT 611. Accelerated Basic Portuguese for Spanish Speakers. 3 Hours. U.
Contrastive phonological and morphological analysis of standard Spanish and the major dialect of Brazilian Portuguese, followed by a presentation of major grammatical and phonological stumbling blocks for Spanish speakers. Drills on grammar, syntax, and pronunciation emphasize those areas in which Brazilian Portuguese differs most significantly from Spanish. Prerequisite: Graduate student status in Spanish. Undergraduates in Spanish may be admitted with consent of instructor. LEC.

PORT 612. Accelerated Basic Portuguese for Spanish Speakers II. 3 Hours. U.
A continuation of PORT 611, with special emphasis on reading and writing skills. Prerequisite: PORT 611. LEC.

PORT 740. Survey of Brazilian Literature. 3 Hours.
A survey of Brazilian literature from 1500 to present. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 742. The Brazilian Novel. 3 Hours.
The development of the novel in Brazil and analysis of representative works of the nineteenth and twentieth centuries. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 746. The Brazilian Short Story. 3 Hours.
The development of the short story in Brazil and analysis of representative works of the nineteenth and twentieth centuries. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 750. Brazilian Poetry. 3 Hours.
A study of the principal movements and an analysis of representative works from the colonial period to the present. Emphasis on modernists and post-modernists. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 760. Contemporary Brazilian Literature. 3 Hours.
A survey of Brazilian cultural expressions and literature in the Twentieth Century. Conducted in Portuguese. Prerequisite: PORT 216 or consent of instructor. LEC.
PORT 780. Special Readings in Portuguese and Brazilian Literature. 1-3 Hours.
May be taken more than once; total credit not to exceed five hours. Directed private readings with conferences with instructor. Prerequisite: Consent of department. RSH.

PORT 785. Special Topics in Brazilian Cultural and Literary Studies: ____. 3 Hours.
Topics vary by semester. The course may be taken more than once, with full credit, provided there is no duplication in the material covered. Conducted in Portuguese. LEC.

PORT 930. Seminar in Portuguese Literature: ____. 3 Hours.
LEC.

PORT 970. Seminar in Brazilian Literature: ____. 3 Hours.
LEC.

SPAN 100. Spanish Reading Course. 3 Hours. U.
A special course for candidates for advanced degrees designed to aid them in obtaining a reading knowledge of Spanish. Intensive study of the fundamentals of grammar, proceeding to the reading of material of medium difficulty. Open to graduate students and to seniors who are applying for entrance to a graduate school. The course does not satisfy any part of the undergraduate language requirement. This course is primarily for graduate students who are fulfilling their language requirement(s) for advanced degrees. LEC.

SPAN 101. Orientation Seminar in Spanish and Portuguese. 1 Hour.
Provides an overview of the field of Hispanic Studies. Emphasizes developing an understanding of opportunities in Spanish and Portuguese at KU and the Spanish and Portuguese program curricula, exploring service-learning and other extracurricular options available at KU and beyond, and helping students plan goals for their education through an understanding of their personal values and aspirations as they relate to the field. Graded on a satisfactory/unsatisfactory basis. LEC.

SPAN 104. Elementary Spanish I. 5 Hours. U.
For beginning students of Spanish. Not open to students who have had any previous study of Spanish. Active preparation and participation required. Classes conducted in Spanish. Not open to native speakers of Spanish. Offered in fall semester. LEC.

SPAN 107. Elementary Spanish Conversation. 1-4 Hours. U.
Activities to improve elementary level conversation skills. Does not fulfill any portion of the College of Liberal Arts and Sciences foreign language requirement. Available only to study abroad participants. LEC.

SPAN 108. Elementary Spanish II. 5 Hours. U.
Only for students who have completed SPAN 104 at the University of Kansas. This course prepares students for Intermediate level study of Spanish. Active preparation and participation is required. Classes conducted in Spanish. Not open to native speakers of Spanish. Offered in spring semester. Prerequisite: SPAN 104. LEC.

SPAN 111. Intensive Elementary Spanish. 5 Hours. AE41 / U.
For students who have had some previous study of Spanish, but who do not place into the Intermediate level. This course prepares students for Intermediate level study of Spanish. Active preparation and participation required. Classes conducted in Spanish. Not open to native speakers of Spanish. Prerequisite: At least one previous high school or college course in Spanish. LEC.

SPAN 170. Hispanic Language, Culture and Civilization I-A: ____. 1-3 Hours. U.
For students in their first year of language study or the equivalent. An intensive orientation to the culture of Spanish-speaking countries. Includes elements of grammar, conversation, and composition. Available only to study abroad participants. Will not count toward the Spanish major nor the language requirement. May be repeated for credit if content varies. LEC.

SPAN 171. Hispanic Language, Culture and Civilization I-B: ____. 1-3 Hours. U.
A continuation of SPAN 170. For students in their first year of language study or the equivalent. An intensive orientation of the culture of Spanish-speaking countries. Includes elements of grammar, conversation, and composition. Available only to study abroad participants. Will not count toward the Spanish major nor the language requirement. May be repeated for credit if content varies. LEC.

SPAN 177. First Year Seminar: ____. 3 Hours. HL GE11.
A limited-enrollment, seminar course for first-time freshmen, organized around current issues in Spanish. May not contribute to major requirements in Spanish. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

SPAN 212. Intermediate Spanish I. 3 Hours. AE42 / U.
A fully integrated content-based and form-focused approach to intermediate-level Spanish. Students process and practice a wide range of vocabulary and grammatical structures in order to complete tasks that promote critical exploration of the Spanish-speaking world and the development of listening, reading, speaking, writing, and intercultural competencies. Classes conducted in Spanish. Not open to native speakers of Spanish. Prerequisite: SPAN 108 or SPAN 111 or placement. See departmental guidelines. LEC.

SPAN 213. Honors Intermediate Spanish I. 3 Hours. U.
Not open to native speakers of Spanish. Prerequisite: SPAN 108 or SPAN 111 with grade of A, or permission of the department LEC.

SPAN 216. Intermediate Spanish II. 3 Hours. AE42 / U.
A continuation of SPAN 212. A fully integrated content-based and form-focused approach to intermediate-level Spanish. Students process and practice a wide range of vocabulary and grammatical structures in order to complete tasks that promote critical exploration of the Spanish-speaking world and the development of listening, reading, speaking, writing, and intercultural competencies. Emphasis on process writing. Classes conducted in Spanish. Not open to native speakers of Spanish. Prerequisite: SPAN 212 or placement. LEC.

SPAN 217. Honors Intermediate Spanish II. 3 Hours. AE42 / U.
Not open to native speakers of Spanish. Prerequisite: SPAN 212 or SPAN 213 with a grade of A, or permission of the department LEC.

SPAN 220. Intensive Intermediate Spanish. 6 Hours. U.
This course is designed for students who would like to acquire proficiency in Spanish more rapidly. The material covered in the course is the same as in SPAN 212 and 216. Not open to native speakers of Spanish. Available only to study abroad participants in KU’s Summer Language Institute in Barcelona, Spain. Prerequisite: SPAN 108 or SPAN 111, with a grade of A or B. LEC.

SPAN 270. Hispanic Language, Culture and Civilization II-A: ____. 1-3 Hours. U.
For students in their second year of language study or the equivalent. An intensive orientation to the culture of Spanish-speaking countries. Includes elements of grammar, conversation, and composition. Available only to study abroad participants. Will not count toward the Spanish major nor the language requirement. May be repeated for credit if content varies. LEC.
SPAN 271. Hispanic Language, Culture and Civilization II-B: _____. 1-3 Hours. U.
A continuation of SPAN 270. For students in their second year of language study or the equivalent. An intensive orientation to the culture of Spanish-speaking countries. Includes elements of grammar, conversation, and composition. Available only to study abroad participants. Will not count toward the Spanish major nor the language requirement. May be repeated for credit if content varies. LEC.

SPAN 300. Developments in Hispanic Cultures. 3 Hours. HL AE42 / H.
The development of social and cultural patterns in the Spanish-speaking world, including the intersection of those patterns with issues related to politics, economics and/or personal values. Assigned readings may be in English or in Spanish. Does not count toward the Spanish major. Prerequisite: SPAN 108, SPAN 109, or SPAN 111; or two years of high school Spanish. LEC.

SPAN 302. The Spanish Inquisition. 3 Hours. H.
A broad historical study of the Spanish Inquisition from 1478 to its afterlife in modern culture, including its use in political debates and its depiction in popular culture. Topics include anti-Semitism, the nature of the inquisitorial investigation, the use of torture, censorship and the relationship between the Inquisition, the Spanish monarchy and other religious and lay authorities. Taught in English. Will not count toward the Spanish major. (Same as HIST 325 and JWSH 315.) LEC.

SPAN 322. Spanish Grammar: Form and Meaning in Context. 3 Hours. U.
Analysis of the most important morphological and syntactic phenomena with an emphasis on their form and function through a review of salient grammatical points in preparation for advanced work in Spanish. Recommended for students who have completed SPAN 216, 217, or 220 with a grade of C or higher, or placement through examination. Course does not count toward the Major. Prerequisite: Four semesters of college-level Spanish or the equivalent. Students who have taken Spanish 324 may take this course with the permission of instructor. LEC.

SPAN 323. Spanish Composition and Cultural Analysis. 3 Hours. U.
Systematic review of writing in Spanish, intensive study of vocabulary and stylistics for formal written communication, and development of essential writing and analytical skills for advanced courses in Spanish. Prerequisite: SPAN 216, or SPAN 217, or SPAN 220, or consent of instructor. LEC.

SPAN 324. Grammar and Composition. 3 Hours. U.
Systematic grammar review and development of essential writing skills for advanced courses in Spanish. Concurrent enrollment in SPAN 328 required. Recommended for students with a grade of B or better in SPAN 216, SPAN 217, or SPAN 220. Prerequisite: SPAN 216 or SPAN 217 with a grade of "C" or higher, or SPAN 220, or SPAN 322, or consent of instructor. LEC.

SPAN 326. Spanish for Health Care Workers. 3 Hours.
This course is designed to provide students with the linguistic and cultural competencies necessary to communicate with and help treat Spanish speaking patients with limited English proficiency. Includes a general review of pertinent grammar, specific vocabulary groups relating to assessment and care of patients, vocabulary to establish rapport, and discussions leading to cultural competencies. Not open to students who have completed SPAN 424 or above. Prerequisite: Completion of Spanish 216 with a grade of C or better. LEC.

SPAN 328. Intermediate Spanish Conversation. 2 Hours. U.
Conversational reinforcement of topics presented in SPAN 324 with an emphasis on oral communication skills in a cultural context. Concurrent enrollment in SPAN 324 required. Two class meetings per week. Not available to study abroad participants. Prerequisite: SPAN 216 or SPAN 217 with a grade of C or higher; or SPAN 220; or SPAN 322; or consent of instructor. LEC.

SPAN 329. Intermediate Spanish Conversation II. 1 Hour. U.
Two class meetings per week. Continuation of SPAN 328. Not open to native speakers of Spanish. Prerequisite: SPAN 328 or consent of instructor. LEC.

SPAN 330. Service Learning Internship Spanish I. 3 Hours. U.
An opportunity for students to utilize and improve their Spanish language skills in an internship or volunteer work in business, schools, government, hospitals, churches, and various types of service organizations. Students must have approval of instructor to register and must provide written confirmation of acceptance for volunteer work in an agency that provides service to a Spanish-speaking public before the course begins. Periodic supervisor evaluations and a reflection journal in Spanish are required, in addition to other materials requested by the instructor. Class format may be an independent internship taken for variable credit under instructor supervision. Will not count toward Spanish major. Prerequisite: Students must have completed a minimum of 12 hours of Spanish in courses at the 200-level or above, and completion of SPAN 324 with a grade of B or better. LEC.

SPAN 340. Textual Analysis and Critical Reading. 3 Hours. HL GE3H / H/W.
Critical readings and interpretation of Hispanic literatures, with emphasis on acquiring the skills and vocabulary necessary for discussing and writing literary analyses. Prerequisite: SPAN 323 or SPAN 324, or consent of instructor. LEC.

SPAN 346. Transatlantic Hispanic Cultures. 3 Hours. H.
This course offers an introductory overview of Hispanic cultures, focusing on the political, economic, social, linguistic, and artistic development that shaped the historical and cultural bonds between Latin America and Spain. Enhances the cultural competence acquired in previous Spanish classes and prepare students for upper-level work in the major. Taught in Spanish. Prerequisite: SPAN 324. A grade of "C" or better in SPAN 324 is strongly recommended for students enrolling in this course. Not open to students who have already taken SPAN 370, SPAN 371, SPAN 446, SPAN 447, or SPAN 471. LEC.

SPAN 370. Hispanic Language, Culture and Civilization III-A: _____. 1-3 Hours. U.
An intensive orientation to the culture of Spanish-speaking countries. Also includes elements of grammar, conversation, and composition. Available only to study-abroad participants. Will not count toward the Spanish major. May be repeated for credit if content varies. LEC.

SPAN 371. Hispanic Language, Culture and Civilization III-B: _____. 1-3 Hours. U.
A continuation of SPAN 370. An intensive orientation to the culture of Spanish-speaking countries. Also includes elements of grammar, conversation, and composition. Available only to study abroad participants. Will not count toward the Spanish major. May be repeated for credit if content varies. LEC.

SPAN 390. Interpretation of Hispanic Literature. 3 Hours. H.
A study of selected works in literary theory that are pertinent to the field of Hispanism and of selected problems in literary interpretation and comparative literature methodology, designed to examine and apply systematically basic critical principles and approaches to the field of Hispanic literature. Discussion of these approaches is related to the previous study of literature and deepened through individual papers written by participants and presented to the group. Does not count toward the major in Spanish. Prerequisite: Completion of one junior-senior course in a language and literature department. LEC.
SPAN 424. Advanced Spanish Composition and Grammar. 3 Hours. H/W.
Extensive practice in writing, with attention to vocabulary, grammar usage, and discourse structure. Thorough review of syntax and grammar. Conducted in Spanish. Concurrent enrollment in SPAN 428 is strongly recommended. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 428. Advanced Spanish Conversation. 2 Hours. U.
Emphasis on developing fluid expression of opinions, ideas, and points of view through discussion of selected texts and cultural materials. Two class meetings per week. Concurrent enrollment in SPAN 424 recommended. Prerequisite: SPAN 340 or consent of instructor. A grade of C or higher in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 429. Spanish Phonetics. 3 Hours. H/W.
An analytical and practical study of contemporary Spanish phonetics. Prerequisite: SPAN 424 and SPAN 428, or consent of instructor. LEC.

SPAN 440. Hispanic Studies: ____. 3 Hours. H/W.
A topics course dedicated to the study of special historical moments, topics, authors, or themes in literary and cultural history. Readings may include selections from both Spain and the countries of Spanish America. The course may cover multiple genres, authors, periods, or regions. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 441. Special Topics in Spanish Literature and Culture: ____. 1-3 Hours. H.
A topics course dedicated to the study of special historical moments, topics, authors, or themes in Spanish literary and cultural history. The course may cover multiple genres, authors, periods, or regions. Course conducted in Spanish and may be repeated for credit as the topic varies. This course may be used to partially or fully fulfill 400-level peninsular Spanish literature requirement. Prerequisite: SPAN 340. LEC.

SPAN 442. Special Topics Latin American Literature and Cultures: _____ 1-3 Hours. H.
A topics course dedicated to the study of special historical moments, topics, authors, or themes in Latin American literary and cultural history. The course may cover multiple genres, authors, periods, or regions. Course conducted in Spanish and may be repeated for credit as the topic varies. This course may be used to partially or fully fulfill 400-level peninsular Latin American literature requirement. Prerequisite: SPAN 340. LEC.

SPAN 446. Spanish Culture. 3 Hours. H/W.
A study of the development of Spanish culture with particular emphasis on history, customs and traditions, and literary trends and artistic tendencies that constitute Spain’s specific contribution to Western civilization. Conducted in Spanish. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 447. Latin American Cultures: ____. 3 Hours. H/W.
The description and interpretation of Latin American cultures, with particular attention to history, ethnology, folklore, and the arts. The course may focus on particular countries or geographical areas. Conducted in Spanish. May be repeated for credit as topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 448. Spanish Language and Culture for Business. 3 Hours. H.
Cultural studies approach to contemporary Spanish American societies for students with an interest in business. Explores how individuals from Spanish American countries negotiate their place in a new cultural context, and how different groups in Spanish America perceive business (negocios). Readings include selections from literature, history, journalism, social analysis, and popular culture. Exercises help non-native speakers develop analytical skills as well as vocabulary and communication skills related to international business and professional life. Conducted in Spanish. Prerequisite: SPAN 323 or SPAN 324, or consent of instructor. LEC.

SPAN 450. Medieval Spanish Studies: _____. 3 Hours. H.
Reading and analysis of Spanish literature and culture to 1500. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 451. Early Modern Spanish Studies: _____. 3 Hours. H.
Reading and analysis of Spanish literature and culture from 1500 to 1800. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 452. Nineteenth Century Spanish Studies: _____. 3 Hours. H.
Reading and analysis of the literature and culture of Spain from 1800s. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 453. Twentieth Century Spanish Studies: _____. 3 Hours. H.
Reading and analysis of the literature and culture of Spain from 1900 to the present. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 454. Colonial Spanish-American Studies: _____. 3 Hours. H.
Reading and analysis of Spanish-American literature and culture from the Conquest to Independence, organized by topic. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 461. Nineteenth Century Spanish-American Studies: _____. 3 Hours. H.
Reading and analysis of Spanish-American literature and culture from Independence to 1900, organized by topic. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.
and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 463. National Traditions in Spanish America: _____. 3 Hours. H.
Reading and analysis of Spanish-American literature and cultural history from the perspective of a selected nation or nations. The course explores the role of literature and cultural expression in constructing the modern nation and local traditions. Readings may cover selections from multiple genres, authors, and periods. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of C or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 464. Reading and Analysis of U.S. Latino/a Literatures: _____. 3 Hours. H.
The course covers multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of C or better in SPAN 340 is strongly recommended for students enrolling in this course.

SPAN 470. Studies in Spanish Culture and Civilization: _____. 1-3 Hours. H.
A study of Spanish culture with emphasis on one or more of the following aspects: history, politics, ethnology, anthropology, religious and secular traditions, issues of cultural identity, music, art, architecture, and popular culture. Available only to study-abroad participants. Maybe repeated for credit if content varies. LEC.

SPAN 471. Studies in Spanish-American Culture and Civilization: _____. 1-3 Hours. H.
A study of Spanish American national or regional culture with emphasis on one or more of the following aspects: history, politics, ethnology, anthropology, religious and secular traditions, issues of cultural identity, music, art, architecture, and popular culture. Available only to study-abroad participants. May be repeated for credit if content varies. LEC.

SPAN 474. Studies in Spanish Literature and Culture: _____. 1-3 Hours. H.
A study of the literature and cultural production of a particular author, group of authors, period, genre, region, or theme. Available only to study-abroad participants. May be repeated for credit if content varies. LEC.

SPAN 475. Studies in Latin-American Literature and Culture: _____. 1-3 Hours. H.
A study of the literature and cultural production of a particular author, group of authors, period, genre, country, region, or theme. Available only to study-abroad participants. May be repeated for credit if content varies. LEC.

SPAN 494. Special Readings in Spanish. 1-3 Hours. H/W.
Directed reading in (a) fields not covered by student's course work, and/or (b) field of student's special interest approved by the department. Conferences. May be repeated for credit if content varies. Prerequisite: Twenty-five hours of Spanish. IND.

SPAN 496. Honors in Spanish. 3 Hours. AE61 / H/W.
Honors seminar. May be repeated for credit. Required of all students working for a degree with honors in Spanish. IND.

SPAN 500. Hispanic Literature in Translation: _____. 3 Hours. H.
A study of the literature in English translation of a particular author, period, genre, country, region, or theme. Discussion in English and frequent critical papers. May be repeated for credit as the topic varies. Will not count toward the Spanish major. Prerequisite: Completion of one junior-senior level literature course in any language. LEC.

SPAN 520. Structure of Spanish. 3 Hours. H/W.
A study of the Spanish language as it is spoken today, from perspectives of contemporary linguistics. Reading and analysis of recent publications in the field. Prerequisite: SPAN 424 and SPAN 428, or consent of the instructor. LEC.

SPAN 522. Advanced Studies in Spanish Language: _____. 3 Hours. H/W.
Extensive language analysis and practice on one topic such as stylistics, translation, conversation/spoken discourse, or creative writing. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 424 and SPAN 428, or consent of the instructor. LEC.

SPAN 540. Colloquium on Hispanic Studies: _____. 3 Hours. AE61 / H.
An advanced course dedicated to the critical study of special historical moments, topics, authors or themes in literary and cultural history. This course is designed to provide sophistication, focus, and analytical depth in literary and cultural study through exploration of secondary sources as well as theoretical material. Reading may include selections from both Spain and the countries of Spanish America and may cover multiple genres, authors, periods, or regions. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 424 and six hours of 400-level Spanish literature courses. LEC.

SPAN 550. Colloquium on Spanish Film. 3 Hours. AE61 / H.
A theoretical and historical exploration of Spanish cinema with particular attention devoted to the films of Berlanga, Bunuel, Gutierrez Aragon, Saura, Erice, and Almodovar. Students will be expected to attend film screenings in addition to regular class meetings. Prerequisite: SPAN 424 and six hours of 400-level Spanish literature courses. LEC.

SPAN 560. Colloquium on Latin American Film. 3 Hours. AE61 / H.
An overview of Latin American cinema from its origins to the present with particular attention to thematic concerns, such as cultural and national identity, and of literary discourse. Students will be expected to attend film screenings in addition to regular class meetings. Prerequisite: SPAN 424 and six hours of 400-level Spanish literature courses. LEC.

SPAN 566. Latin American Folklore. 3 Hours. H.
An examination of Latin American folk traditions, the ways they are used to give meaning to life and to define local and national identity. Folk literature, songs, music, dance, foods, fiestas, and material culture are looked at in the light of current folklore theory. Lectures and discussion are in English, some readings may be in Spanish. Prerequisite: SPAN 424 and six hours of 400-level Spanish courses. LEC.

SPAN 568. Spanish Ballads. 3 Hours. H/W.
A study of the various types of ballads; traditional, artistic, and popular. Prerequisite: A survey of Spanish literature through the Golden Age. LEC.

SPAN 570. Studies in Hispanic Linguistics: _____. 3 Hours. U.
Theoretical and applied analysis of one or more of the following components of the Spanish language: phonology/phonetics, morphology, syntax, semantics, pragmatics. May be repeated for credit if content varies. Prerequisite: SPAN 424 and SPAN 428. LEC.

SPAN 681. Language Teaching for Oral Proficiency. 1 Hour. U.
A summer course designed principally for secondary school language teachers. Provides an orientation to proficiency-based models in foreign language instruction, national standards in the rating of foreign language proficiency, and curriculum development sessions which address issues of articulation in foreign language curricula. (Not applicable toward a
major or graduate degree in Spanish.) (Same as FREN 681 and GERM 681.) LEC.

SPAN 717. History of the Spanish Language. 3 Hours.
The phonological and lexical development of the Spanish language from spoken Latin to the present; major dialectal features. Prerequisite: A course in Spanish phonetics. LEC.

SPAN 720. Syntax and Composition. 3 Hours.
Syntactical analysis of modern Spanish usage; principles of expository writing. Prerequisite: A course in advanced composition or structure, or graduate standing. LEC.

SPAN 722. Special Topics in Spanish Literature: ______. 2-3 Hours.
The content of this course will vary, and the course may be taken more than once with full credit, provided there is no duplication in the material studied. Prerequisite: A survey course in Spanish peninsular literature taught in Spanish. LEC.

SPAN 730. Topics in the Literature of 13th- and 14th-Century Iberia: ______. 3 Hours.
A theoretically informed study of representative works from 13th- and 14th-century Iberia. Course may be repeated for credit provided that the topic changes. LEC.

SPAN 733. Print Culture in Early Modern Spain. 3 Hours.
A study of the literature produced during the period of early printed books with emphasis on the diffusion of new literary forms during the late 15th- and early 16th-centuries. LEC.

SPAN 735. Poetry and Sentimental Romance in Fifteenth-Century Castile. 3 Hours.
Survey of the poetry and prose of the fifteenth century with particular attention to the literature produced during the reign of Isabel de Castilla. LEC.

SPAN 739. Topics in Early Modern Spanish Drama: ______. 3 Hours.
Selected plays of such authors as Lope de Vega, Tirso de Molina, Calderón, and María de Zayas. Course may be repeated for credit provided that the topic changes. LEC.

SPAN 742. Topics in the Early Modern Spanish Prose: ______. 3 Hours.
From the Celestina to the middle of the seventeenth century. Course may be repeated for credit provided that the topic changes. LEC.

SPAN 744. Topics in Early Modern Spanish Poetry: ______. 3 Hours.
A theoretically informed study of selected works of poetry in Spanish from the 15th through 17th centuries. Course may be repeated for credit provided that the topic changes LEC.

SPAN 745. Don Quixote. 3 Hours.
Linguistic and literary study. Examination of traditional interpretations. The life and thought of Cervantes. Theoretical readings. LEC.

SPAN 752. Spanish Literature of the 18th Century. 3 Hours.
The neo-classic movement; the traditionalist reaction; the beginnings of Romanticism. Prerequisite: A survey course in Spanish literature from the 18th century to the present. LEC.

SPAN 754. Romanticism. 3 Hours.
The development of the Romantic movement in Spain. Prerequisite: A survey course in Spanish literature from the 18th century to the present. LEC.

SPAN 755. 19th Century Spanish Novel. 3 Hours.
The rise and development of realism. Prerequisite: A survey course in Spanish literature from the 18th century to the present. LEC.

SPAN 760. 19th Century Spanish Drama. 3 Hours.
A survey of the main currents and aesthetics in the nineteenth-century Spanish theatre: NeoClassicism, Romanticism, Costumbrismo, Realismo (Alta Comedia), NeoRomanticism, and the innovations of Galdos and Benavente. Prerequisite: A survey course in Spanish literature from the 18th century to the present. LEC.

SPAN 761. 20th Century Spanish Drama. 3 Hours.
A survey of major plays and playwrights of 20th century Spain with reference to critical theory of text as literature and performance. LEC.

SPAN 762. The Spanish Novel Since the Civil War. 3 Hours.
A study of the major works and movements occurring since the Spanish Civil War. LEC.

SPAN 764. Modern Spanish Poetry. 3 Hours.
Modern poetry of Spain, beginning with Becquer and ending with the “Generation of the 1920’s.” Close study of the works of the major poets; readings in poetic theory. Prerequisite: A general survey course of the literature of Spain of the 18th, 19th, and 20th centuries. LEC.

SPAN 765. Contemporary Spanish Poetry. 3 Hours.
Contemporary poetry of Spain, beginning with the “Generation of the 1920’s” and including the post-Civil War period. Close study of the work of several poets; readings in poetic theory. Prerequisite: A general survey course in the literature of Spain since the Golden Age. LEC.

SPAN 766. The Spanish Modernist Novel. 3 Hours.
A diachronic study of the syntax and morphology of Spanish from the thirteenth century to the present; sound change and orthography; evolution of literary styles. Prerequisite: A course in Spanish phonetics. LEC.

SPAN 770. Spanish-American Drama. 3 Hours.
Study of several exceptional plays of 20th century Spanish America in light of critical methodologies, national theatre movements, and performance aspects. LEC.

SPAN 771. Spanish-American Literature: ______. 3 Hours.
A survey by region or country (Mexican literature, Cuban literature, Argentine literature, Caribbean literature, etc.) of Spanish American literature from the beginning to the present, with emphasis on the 19th and 20th centuries. Course title will vary by country or region. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 772. The Modern Spanish-American Novel, 1900-1950. 3 Hours.
A study of selected novels in Spanish America from the 1900 to 1950. Topics may vary. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 773. The Modern Spanish-American Novel Since 1950. 3 Hours.
A study of selected novels in Spanish America since 1950. Topics may vary. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 774. Spanish-American Poetry. 3 Hours.
A study of the twentieth century poetic tradition in Spanish America, including major movements and a range of poets who represent the variety of writing in the genre until the 21st century. LEC.

SPAN 776. Spanish-American Short Story. 3 Hours.
A study of aspects of the short story tradition in Spanish America from its origins to the present. Topics may vary. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 781. Colonial Identities. 3 Hours.
This course centers on the dynamics of identity of Creoles, Amerindians, Blacks and members of the castes in colonial Spanish America. It
Spanish American Prose Fiction: _____, 3 Hours.
A survey by region or country (Mexican Prose Fiction, Cuban Prose Fiction, Argentine Prose Fiction, Caribbean Prose Fiction, etc.) of Spanish American Prose Fiction from the beginning to the present, with emphasis on the 19th and 20th centuries. Course title will vary by country or region. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 784. Spanish-American Modernism and Vanguards. 3 Hours.
A study of the poetry and/or prose of modernismo and the vanguards in Spanish America. Prerequisite: One course in Spanish American literature or permission of instructor. LEC.

SPAN 785. Special Topics in Spanish-American Literature: _____, 2-3 Hours.
The content of this course will vary, and the course may be taken more than once, with full credit provided there is no duplication in the material covered. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 790. Spanish Linguistics: Theory and Application to Teaching. 3 Hours.
An introduction to linguistics and applied linguistics focused on the phonology, morphology, and syntax of Spanish, including work in tagmemics and transformational grammar. Part of the course deals with problems of language instruction, testing, and use of the language laboratory. LEC.

SPAN 792. Topics in the Picaresque Novel: _____, 3 Hours.
A theoretically informed study of the picaresque mode in Spanish and Spanish-American literature. Course may be repeated for credit provided that the topic changes. LEC.

SPAN 795. Literary Theory and Criticism. 3 Hours.
Systematic study of the development of theories of literature. Emphasis usually placed on twentieth century although scope may vary. Prerequisite: 700-level course in Spanish or concurrent enrollment. LEC.

SPAN 801. Teaching Spanish in Institutions of Higher Learning. 3 Hours.
Required of all teaching assistants who teach beginning Spanish at the University of Kansas for the first time. Instruction in classroom procedures for first year Spanish, demonstration of teaching techniques, and survey of current methodology. FLD.

SPAN 802. Colloquium in Methods of Teaching Spanish Language. 1-3 Hours.
Combines discussion of theoretical teaching concepts and development of pedagogical materials with practical solutions arising concurrently in Spanish languages courses. LEC.

SPAN 817. Spanish Historical Grammar. 3 Hours.
A diachronic study of the syntax and morphology of Spanish from the thirteenth century to the present; sound change and orthography; evolution of literary styles. Prerequisite: A course in Spanish phonetics. LEC.

SPAN 898. Investigation and Conference. 1-10 Hours.
Individually directed work to fill the student’s needs not met by available organized courses. One to three hours of credit in any semester. Maximum total credit for the M.A. degree is three hours. May be taken with full credit as often as recommended by department. THE.

SPAN 922. Seminar in Spanish Literature and Culture: _____, 3 Hours.
An intensive investigation of a particular topic in Spanish Literature and Culture; content will vary in terms of topics, genres, and time periods covered. The course may be taken more than once with full credit, provided there is no duplication. Prerequisite: Graduate standing. LEC.

SPAN 940. Seminar in Trans-Atlantic Literatures and Cultures: _____, 3 Hours.
An intensive investigation of a particular topic in Spanish and Latin American Literatures and Cultures; content will vary in terms of topics, genres, and time periods covered. The course may be taken more than once, with full credit provided there is no duplication. Prerequisite: Graduate standing. SEM.

SPAN 950. Seminar: Spanish Drama: _____, 3 Hours.
LEC.

SPAN 952. Seminar: Spanish Novel: _____, 3 Hours.
LEC.

SPAN 954. Seminar: Spanish Poetry: _____, 3 Hours.
LEC.

SPAN 956. Seminar: Spanish Short Story: _____, 3 Hours.
LEC.

SPAN 958. Seminar: Spanish Essay: _____, 3 Hours.
LEC.

SPAN 961. Seminar: Medieval Literature: _____, 3 Hours.
LEC.

SPAN 962. Seminar: Cervantes: _____, 3 Hours.
LEC.

SPAN 970. Seminar: Spanish American Drama: _____, 3 Hours.
LEC.

LEC.

SPAN 974. Seminar: Spanish American Poetry: _____, 3 Hours.
LEC.

SPAN 976. Seminar: Spanish American Short Story: _____, 3 Hours.
LEC.

LEC.

SPAN 985. Seminar in Spanish American Literature and Culture: _____, 3 Hours.
An intensive investigation of a particular topic in Spanish American Literatures and Cultures; content will vary in terms of topics, genres, and time periods covered. The course may be taken more than once, with full credit provided there is no duplication. Prerequisite: Graduate standing. SEM.

SPAN 999. Dissertation. 1-12 Hours.
THE.

Bachelor of Arts in Spanish

Why study Spanish and Portuguese?
Because fluency in more than one language and culture and analytical understandings of literary and cultural texts create educated citizens.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer
students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

First- and Second-Year Preparation

Spanish Major Prerequisite or Co-Requisite Knowledge (6)

Majors must complete the following 2 courses. These hours do not contribute to the minimum number of hours required for the major. Majors must complete SPAN 324 in order to go on to advanced-level Spanish classes.

Intermediate Composition and Grammar. Satisfied by:
SPAN 324 Grammar and Composition

Intermediate Conversation. Satisfied by:
SPAN 328 Intermediate Spanish Conversation

Spanish Major Introductory Knowledge. Majors must complete the following 2 courses:

Textual Analysis and Critical Reading. Satisfied by:
SPAN 340 Textual Analysis and Critical Reading

Transatlantic Hispanic Cultures. Satisfied by:
SPAN 346 Transatlantic Hispanic Cultures

Requirements for the B.A. Major

Spanish Major Core Knowledge and Skills (26)

Majors must complete at least 1 course (3 hours) in each of following areas:

Literature: Peninsular Spanish Literary and Cultural Studies. Satisfied by 1 of the following:
SPAN 440 Hispanic Studies: ______
SPAN 441 Special Topics in Spanish Literature and Culture: ______

SPAN 450 Medieval Spanish Studies: ______
SPAN 451 Early Modern Spanish Studies: ______
SPAN 452 Nineteenth Century Spanish Studies: ______
SPAN 453 Twentieth Century Spanish Studies: ______

Literature: Latin American Literary and Cultural Studies. Satisfied by 1 of the following:
SPAN 440 Hispanic Studies: ______
Spanish Major Capstone: Literature Colloquium. Majors must complete 1 (3 hour) capstone course in literature. Satisfied by 1 of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 540</td>
<td>Colloquium on Hispanic Studies: _____</td>
</tr>
<tr>
<td>SPAN 550</td>
<td>Colloquium on Spanish Film</td>
</tr>
<tr>
<td>SPAN 560</td>
<td>Colloquium on Latin American Film</td>
</tr>
</tbody>
</table>

Majors are strongly encouraged to study abroad in a Spanish-speaking country. Please see your advisor about this opportunity.

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 32 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Graduation Plan**

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the department for details.

**Departmental Honors**

Undergraduates contemplating honors work should consult their advisors. A declaration of intent form must be submitted to the department. The department notifies students of acceptance to candidacy. At graduation, the student must have a minimum grade-point average of 3.25 overall and 3.5 in Spanish. 6 hours in SPAN 496 Honors in Spanish generally are required, which may be fulfilled in a variety of ways as described here: each 3-hour SPAN 496 course will include a major research paper. While enrolled in SPAN 496, the student completes 2 courses, one in Peninsular literature and the other in Spanish American literature, from the following options:

1. Graduate courses at the 700 level;
2. Upper-division literature courses at the 500 level, including SPAN 540, SPAN 550, and SPAN 560 (only available to students who have already completed the 500-level capstone course);
3. An independent study course (may only be taken once for SPAN 496 credit).

The student attends 2 courses for SPAN 496 credit and writes 2 honors papers under the supervision of 1 or more faculty members. A committee of 3 faculty members evaluates these papers, and the student makes an oral summary of their content.

**Study Abroad**

The department offers summer programs in Barcelona, Spain; Buenos Aires, Argentina; and Salvador (Bahia), Brazil. KU offers semester/academic year programs in San José, Costa Rica; and in Ronda, Spain. More information is available from the Office of Study Abroad (http://www.studyabroad.ku.edu).

Graduate students have the opportunity to teach and conduct research during summer sessions in Puebla, Mexico; or Barcelona, Spain. The department also has a graduate exchange agreement with the University of Santiago de Compostela, Spain.

**Minor in Brazilian Studies**

Why study Spanish and Portuguese?

Because fluency in more than one language and culture and analytical understandings of literary and cultural texts create educated citizens.

**Requirements for the Brazilian Studies Minor**

This program consists of 6 3-credit-hour courses (for a total of 18 credit hours) in which students pursue Brazilian studies beyond the 3 first semesters of basic language classes. In consultation with departmental advisors, students combine their course work in several academic areas, such as language, business, economics, film and media studies, geography, history, political science, and theatre.

**Brazilian Studies Minor Course Requirements**

Students selecting this minor must complete the following:

**Prerequisite Knowledge (0)**

Satisfied by Intermediate Brazilian Portuguese I-PORT 212 or equivalent placement.

**Requirements for the Minor (18)**

Satisfied by 3 courses from each of the following groups:

**Group I:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT 216</td>
<td>Intermediate Brazilian Portuguese II</td>

</tr>
<tr>
<td>HIST 372</td>
<td>Violence and Conflict in Latin American History, Honors (with at least 1/3 of focus on Brazil and a paper on Brazil)</td>
</tr>
<tr>
<td>HIST 580</td>
<td>Economic History of Latin America (with at least 1/3 of focus on Brazil and a paper on Brazil)</td>
</tr>
<tr>
<td>POLS 659</td>
<td>Political Dynamics of Latin America (with at least 1/3 of focus on Brazil and a paper on Brazil)</td>
</tr>
<tr>
<td>SPAN 522</td>
<td>Advanced Studies in Spanish Language: _____ (Phonetics and Phonology of Spanish and Portuguese in Contrast. Taught in Spanish.)</td>
</tr>
</tbody>
</table>

**Minor Hours & Minor GPA**

While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

- **Minor Hours**
  - Satisfied by 18 hours of minor courses.

- **Minor Hours in Residence**
  - Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

- **Minor Junior/Senior Hours**
  - Satisfied by a minimum of 15 hours from junior/senior courses (300+) in the minor.

- **Minor Graduation GPA**
  - Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all departmental courses in the field of study including F’s and repeated courses. See the Semester/ Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Study Abroad**

The department offers summer programs in Barcelona, Spain; Buenos Aires, Argentina; and Salvador (Bahia), Brazil. KU offers semester/academic year programs in San José, Costa Rica; and in Ronda, Spain. More information is available from the Office of Study Abroad (http://www.studyabroad.ku.edu).

Graduate students have the opportunity to teach and conduct research during summer sessions in Puebla, Mexico; or Barcelona, Spain. The department also has a graduate exchange agreement with the University of Santiago de Compostela, Spain.

**Master of Arts in Spanish**

**Why study Spanish and Portuguese?**

Because fluency in more than one language and culture and analytical understandings of literary and cultural texts create educated citizens.

---

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Graduate Admission**

1. The applicant must hold (or anticipate completing by the time of admission) a B.A. or B.S. degree from an accredited U.S. college or university or the equivalent degree from a foreign university, must have 15 semester hours of literature courses at the survey level or above in Spanish or the equivalent of the undergraduate major in Spanish at KU, and must have a minimum grade-point average of 3.0 on a 4.0 scale, both in Spanish and overall.

2. The selection committee gives strong consideration to letters of recommendation, the breadth and depth of preparation, and Graduate Record Examination scores, if available. Deficiencies in preparation specified by the selection committee may be made up early in the graduate program, although the time required to complete the degree is correspondingly greater.

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the department:

**The University of Kansas**
Department of Spanish and Portuguese
Wescoe Hall
1445 Jayhawk Blvd., Room 2650
Lawrence, KS 66045-7594

**M.A. Degree Requirements**

The department offers the M.A. degree with a concentration in literature or language/literature/culture.

**Literature Concentration Requirements**

1. A minimum of 30 hours of graduate credit in literature, including one seminar in Peninsular literature or in Spanish-American literature.

2. A reading knowledge of another foreign language, as approved by the department.

3. A general examination in the field of Hispanic literature, partly written and partly oral.

**Language/Literature/Culture Concentration Requirements**

1. A minimum of 30 hours of graduate credit, as listed below.

2. A general examination, partly written and partly oral, based on the appropriate department reading lists for this degree.
   a. Language and Culture (12 hours), including courses in phonetics and the structure of Spanish if they have not been taken at the undergraduate level.
b. Literature (12 hours), including at least 3 credit hours of course work in each of the three major genres (fiction, theatre, poetry). One course in this category must be a seminar.

c. One additional course in the department (3 hours) in any field. (PORT 611 counts in this category.)

d. One graduate-level course (3 hours) in a second language (excluding PORT 611).

Study Abroad

The department offers summer programs in Barcelona, Spain; Buenos Aires, Argentina; and Salvador (Bahia), Brazil. KU offers semester/academic year programs in San José, Costa Rica; and in Ronda, Spain. More information is available from the Office of Study Abroad (http://www.studyabroad.ku.edu).

Graduate students have the opportunity to teach and conduct research during summer sessions in Puebla, Mexico; or Barcelona, Spain. The department also has a graduate exchange agreement with the University of Santiago de Compostela, Spain.

Doctor of Philosophy in Spanish

Why study Spanish and Portuguese?

Because fluency in more than one language and culture and analytical understandings of literary and cultural texts create educated citizens.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission

1. The applicant must hold (or anticipate completing by the time of admission) an M.A. or M.S. degree from an accredited U.S. college or university or the equivalent degree from a foreign university; must have a minimum grade-point average of 3.0 on a 4.0 scale, both in Spanish and overall; and must meet general requirements.

2. Strong consideration is given to letters of recommendation, breadth and depth of preparation, and Graduate Record Examination scores, if available.

Submit your application online (http://www.graduate.ku.edu). Send all other requested application materials to

The University of Kansas
Department of Spanish and Portuguese
Wescoe Hall
1445 Jayhawk Blvd., Room 2650
Lawrence, KS 66045-7594

Ph.D. Degree Requirements

The degree of Doctor of Philosophy is offered with emphasis on Spanish or Spanish-American literature.

Requirements

Once admitted, the aspirant must

1. Present a reading knowledge of 2 foreign languages, other than Spanish, appropriate to the specialization;

2. Complete all course work prescribed by the advisory committee (this course work is to include a minimum of 5 seminars, at least 4 at KU, and a guideline of a minimum of 24 hours in Hispanic literatures at KU beyond the 30 hours required for the M.A. degree);

3. Present a minor in a field other than Spanish or Spanish-American literature;

4. Complete a minimum of 2 semesters of quarter-time teaching or 1 semester of half-time teaching in the Department of Spanish and Portuguese;

5. Research Skills and Responsible Scholarship Requirement. The university requires that every doctoral student have training in responsible scholarship and research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. Please contact your advisor or the director of graduate studies for specific requirements.

6. Pass a comprehensive examination, partly written and partly oral; and

7. Write and defend a dissertation.

Note: Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

See also the general requirements for the Doctor of Philosophy degree in Graduate Studies (p. 2059) section of the online catalog and in the KU Policy Library.

Study Abroad

The department offers summer programs in Barcelona, Spain; Buenos Aires, Argentina; and Salvador (Bahia), Brazil. KU offers semester/academic year programs in San José, Costa Rica; and in Ronda, Spain. More information is available from the Office of Study Abroad (http://www.studyabroad.ku.edu).

Graduate students have the opportunity to teach and conduct research during summer sessions in Puebla, Mexico; or Barcelona, Spain. The department also has a graduate exchange agreement with the University of Santiago de Compostela, Spain.
Department of Speech-Language-Hearing: Sciences and Disorders

Why study speech, language, and hearing?

Because communication is central to human behavior, and the treatment of communication disorders requires specialized knowledge and skills.

Career Opportunities

Most states have laws mandating that speech-language pathologists and audiologists be licensed to practice their profession. The minimum requirement for licensure in most states is a master's degree for speech-language pathology and the Au.D. for audiology.

Undergraduate Programs

Basic study in speech, language, and hearing is provided through B.A. and B.G.S. programs. Programs are designed for the student who seeks a career in speech, language, or hearing or is interested in normal communication development and communication disorders.

Graduate Programs

Graduate study at KU is offered through the Intercampus Program in Communicative Disorders (p. 728) with classes, research, and clinical work in Lawrence and at KU Medical Center in Kansas City.

Courses

SPLH 120. The Physics of Speech. 4 Hours. N.
An introduction to the acoustic structure of speech intended for nonscience majors. Emphasis will be placed on the methods and standards by which scientists measure and evaluate the physical characteristics of speech. Topics will include: simple harmonic motion, the propagation of sound waves, aerodynamic aspects of vocal fold vibration, resonance, digital speech processing, frequency analysis, and speech synthesis. Three class hours and one laboratory per week. (Same as LING 120.) Prerequisite: MATH 101 or 104 or equivalent. LEC.

SPLH 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Speech-Language and Hearing. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

SPLH 250. Study Abroad Topics in: ______. 1-5 Hours. S.
A course designed to enhance international experience in topic areas related to speech-language-hearing at the freshman/sophomore level. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if the content differs. Prerequisite: Department permission. LEC.

SPLH 261. Survey of Communication Disorders. 3 Hours. SI GE3S / S.
Provides a general understanding of normal and deviant speech, language, and hearing in adults and children. This course considers the normal development of communication behavior, the nature of communication disorders, and the interaction of speech pathology and audiology with allied fields (e.g., education, medicine, psychology, special education). LEC.

SPLH 320. The Communicating Brain: The Ultimate Personal Computer. 3 Hours. U.
This course introduces the study of human neuroscience with a particular focus on human communication. The course provides an overview of the relevant anatomical structures and function along with an introduction to the basic methods used to investigate central nervous system function. Students are introduced to the study of perceptual, motor, and language function in the nervous system through a series of examples drawn from normal function and clinical cases. The examples are selected to highlight how these systems develop and are influenced by experience, implantable devices developed to interface with the nervous system, and how computers and animals are used as models to learn about nervous system function. LEC.

SPLH 418. Introduction to Cognitive Science. 3 Hours. S.
Examines the data and methodologies of the disciplines that comprise Cognitive Science, an inter-disciplinary approach to studying the mind and brain. Topics may include: consciousness, artificial intelligence, linguistics, education and instruction, neural networks, philosophy, psychology, anthropology, evolutionary theory, cognitive neuroscience, human-computer interaction, and robotics. (Same as LING 418, PHIL 418, and PSYC 418.) Prerequisite: Consent of instructor. LEC.

SPLH 432. Human Behavioral Genetics. 3 Hours. S.
A survey of human behavioral genetics for upper division undergraduates. Emphasis is on how the methods and theories of quantitative, population, medical, and molecular genetics can be applied to individual and group differences in humans. Both normal and abnormal behaviors are covered, including intelligence, mental retardation, language and language disorders, communication, learning, personality, and psychopathology. (Same as ANTH 447, BIOL 432, PSYC 432.) Prerequisite: Introductory courses in biology/genetics or biological anthropology and psychology are recommended. LEC.

SPLH 449. Laboratory/Field Work in Human Biology. 1-3 Hours. AE61 / N.
Faculty supervised laboratory or field research for Human Biology majors. Students design and complete a research project in collaboration with a Human Biology faculty member. (Same as ANTH 449, BIOL 449, and PSYC 449.) Prerequisite: Consent of instructor and Human Biology major. FLD.

SPLH 450. Study Abroad Topics in: ______. 1-5 Hours. S.
A course designed to enhance international experience in topic areas related to speech-language-hearing at the junior/senior level. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if the content differs. Prerequisite: Department permission. LEC.

SPLH 451. Directed Study Abroad in Speech-Language-Hearing. 1-3 Hours. S.
An independent study designed to enhance international experience in topic areas related to speech-language hearing. Investigation of special topic or project selected by the student with advice, approval, and supervision by a KU SPLH instructor and an authorized agent of the study abroad site. Experience must be arranged through the Office of KU Study Abroad. Such study may take the form of directed reading and/or directed research/clinical observation. A daily journal and final report is required. A maximum of six hours of credit may be counted, with no more than three in a single area of study. Prerequisite: Consent of instructor IND.
SPLH 464. Undergraduate Seminar in: _______. 1-3 Hours. S.
Course organized any given semester to study particular subject matter or
to take advantage of special competence by an individual faculty member.
Topics change as needs and resources develop. Class discussion,
readings, and individual projects. (Distribution credit given for two-three
hours only.) LEC.

SPLH 465. Fundamentals of Clinical Phonetics. 1 Hour. S.
Introduction to classification of American English speech sounds based
on articulatory phonetics. Practice in phonetic transcription and analysis
of normal and abnormal speech. Laboratory exercises to give students
hands-on experience with selected topics from lecture. Prerequisite or
Corequisite: SPLH 120. LEC.

SPLH 466. Language Science. 3 Hours. S.
Introduction to structure/function of human languages as it relates
to language development and disorders; processes involved in the
expression and reception of language and the methodologies employed
to study these processes. LEC.

SPLH 467. Mentored Research Experience. 2-8 Hours. AE61 / S.
Study may be directed toward either reading for integration of knowledge
and insight in Speech-Language-Hearing, or original research in the field.
Student creates a plan of activities at the beginning of each semester
under the mentor’s guidance. Student and mentor review this plan at
the end of each semester to evaluate progress. In the final semester of
enrollment, student must complete a written report or a public oral
presentation detailing the purpose, methods, results, and impact of the
research. This final product partially meets the requirements for Research
Experience Certification. (Eight hours maximum credit, which may be
distributed through 4 semesters. No student may enroll for less than
two hours credit or more than 4 hours of credit in a given semester).
Prerequisite: Consent of Departmental Research Experience Coordinator.
IND.

SPLH 468. Departmental Honors Research. 2-8 Hours. AE61 / S.
Study may be directed toward either reading for integration of knowledge
and insight in Speech-Language-Hearing, or original research in the field.
Student creates a plan of activities at the beginning of each semester
under the mentor’s guidance. Student and mentor review this plan at
the end of each semester to evaluate progress. In the final semester of
enrollment, student must complete a written report or a public oral
presentation detailing the purpose, methods, results, and impact of the
research. This final product partially fulfills the requirements for Departmental Honors. (Eight hours maximum credit, which may be
distributed through 4 semesters. No student may enroll for less than
two hours credit or more than 4 hours of credit in a given semester).
Prerequisite: Consent of Departmental Honors Coordinator. IND.

SPLH 469. Directed Study in Speech-Language-Hearing. 1-3 Hours.
AE61 / S.
Investigation of special topic or project selected by the student with
advice, approval, and supervision of an instructor. Such study may take
the form of directed reading and/or directed research/c Clinical observation.
Individual reports and conferences. (Distribution credit given for two-three
hours only.) A maximum of six hours of credit may be counted, with
not more than four in a single area of study.) Prerequisite: Consent of
instructor. IND.

SPLH 565. Language Sample Analysis Lab. 1 Hour. S.
The study of the analysis of language produced by children with respect
to its phonological, lexical, morphological, syntactic, and pragmatic
characteristics. Prerequisite or corequisite: SPLH 566. LAB.

SPLH 566. Language Development. 3 Hours. SI GE3S / S.
Study of language acquisition in children, including phonologic,
morphologic, syntactic, and semantic components. Methods of language
measurement, the role of comprehension, and pragmatic aspects of
language use are included. May be taught in lecture or online format.
LEC.

SPLH 660. Research Methods in Speech-Language-Hearing. 3 Hours.
AE61.
Research Methods is about the methods used to conduct, describe and
evaluate science in communication disorders. Goals for learner outcomes include: 1) evaluation of research including adequacy of research
to address scientific and clinical problems, 2) reading, summarizing and
describing research through a literature review, 3) describing a
hypothetical research study that addresses a specific question or hypothesis identified by the student, and 4) providing constructive peer
reviews of research paper drafts. Prerequisite: 9 credits of SPLH course
work; English 101 and ENGL 102 (or course meeting core skill in written
communication); or consent of instructor. LEC.

SPLH 662. Principles of Speech Science. 3 Hours. N.
Survey of the physiology of speech production, and the physics of sound.
Emphasis upon methodologies in the laboratory study of normal speech.
Prerequisite: SPLH 120 and SPLH 320, or concurrent enrollment in SPLH 120 and SPLH 320, or consent of instructor. LEC.

SPLH 663. Principles of Hearing Science. 3 Hours. N.
Concepts and principles relevant to the normal hearing processes: gross
anatomy, psychophysical methods, and basic subjective correlates of the
auditory system. Prerequisite: SPLH 120 and SPLH 320, or concurrent
enrollment in SPLH 120 and SPLH 320, or consent of instructor. LEC.

SPLH 668. Introduction to Audiological Assessment and
Rehabilitation. 4 Hours. U.
Introduction to methods for assessing and treating hearing disorders
in adults and children, as well as conditions that result in hearing loss.
Course includes clinical observation and extensive hands-on experience
with clinical techniques. Prerequisite: SPLH 663. LEC.

SPLH 670. Beginning Clinical Practice in Audiology. 1-3 Hours. N.
Testing of hearing using pure tone air and bone conduction tests with both
normal and hearing-impaired individuals. Prerequisite: Completion of or
concurrent enrollment in SPLH 668. FLD.

SPLH 671. Introduction to Speech-Language Pathology. 4 Hours. U.
This course provides training in clinical management of communicative
disorders in children and adults. Principles of evaluation, application of
diagnostic information, intervention planning, intervention process, data
collection and application, report writing, and interactions with parents
and other professionals are examined. Participation in observation and
laboratory activities is required. LEC.

SPLH 672. Clinical Practice in Speech-Language Pathology. 3 Hours.
S.
Clinical practice with children and adults. Group and individual
conferences with staff required. Repeatable once for credit. Prerequisite:
SPLH 671 and consent of instructor. FLD.

SPLH 699. Speech-Language Pathology. 3 Hours. S.
Concepts and principles relevant to the perception of speech with
emphasis on the auditory system; acoustics, psychophysical methods,
and basic subjective correlates of speech perception. Prerequisite: SPLH 662 and SPLH 663, or consent of instructor. LEC.

SPLH 761. Aural Rehabilitation. 3 Hours.
Study of the communication problems associated with hearing loss.
Introduction to aural habilitative intervention related to speech, language,
and academic achievement in children with early hearing loss, as well as, communication strategies training for adults with acquired hearing loss. Prerequisite: SPLH 669 or equivalent. LEC.

SPLH 764. Seminar in: ______. 1-3 Hours. The subject matter of this seminar will be special topics from speech pathology and audiology. Special prerequisite may be established for a given topic. LEC.

SPLH 784. Proseminar in Communication and Aging. 1 Hour. A weekly forum for students and faculty to discuss professional issues and interdisciplinary research in communication and aging. May be repeated for credit. (Same as COMS 784.) (Same as PSYC 784.) Prerequisite: Consent of instructor. LEC.

SPLH 799. Proseminar in Child Language. 2 Hours. A review and discussion of current issues in children's language acquisition. May be repeated for credit. Students are graded S/F. (Same as ABSC 797, LING 799 and PSYC 799.) (Formerly HDFL 797.) LEC.

SPLH 816. Language Development. 3 Hours. Study of language acquisition in children, including the morphologic, syntactic, and semantic components. Methods of language measurement, the role of comprehension, and pragmatic aspects of language use will be included. Not open to students who have credit for SPLH 566. Laboratory by appointment. LEC.

SPLH 820. Developmental Phonological Disorders. 2 Hours. Focuses on speech and non-speech characteristics of children with developmental phonological disorders. Emphasis placed on collection and phonetic transcription of speech samples, phonological analysis of transcribed data, and decision-making processes in assessment and intervention. LEC.

SPLH 822. Dysarthria/Apraxia. 2 Hours. This course describes the neuroanatomic bases of motor-speech processes, the diagnosis, classification, assessment, prognosis, and treatment of dysarthria(s) and apraxia(s). LEC.

SPLH 824. Fluency Disorders. 2 Hours. The nature of stuttering in children and adults is discussed. Theories regarding etiology, development, and maintenance of the disorder are presented. Emphasis is placed on various clinical approaches to assessment, measurement, and treatment. LEC.

SPLH 826. Phonatory Disorders. 2 Hours. This course reviews the function of the laryngeal and respiratory mechanisms including the parameters and processes of phonation. Primary content addresses diagnosis, description, and treatment of organic and non-organic disorders of phonation. LEC.

SPLH 828. Speech Disorders in Special Populations. 2 Hours. This course reviews anatomy and physiology of the velopharyngeal mechanism. Diagnosis and management of velopharyngeal dysfunction and associated problems considered. Anatomy, physiology, and rehabilitation associated with certain oral, pharyngeal, and laryngeal abnormalities discussed. Emphasis is on the speech problems of adults following medical management. Populations include individuals with laryngectomies, glossectomies, and tracheotomies. LEC.

SPLH 832. Dysphagia. 2 Hours. This course covers normal and disordered swallowing. Evaluation and treatment of swallowing disorders, the dysphagia team, and dysphagia in special populations are considered. LEC.

SPLH 836. Genetics of Communication and Learning Disorders. 2 Hours. This course focuses on the description, assessment, and treatment of communication problems associated with particular genetic syndromes (e.g., Down's, Turner's syndromes). Also covered are current data about the genetic factors involved in nonsyndromic communication and learning problems, such as those commonly seen in the schools. Ethical and practical issues in these areas are discussed. LEC.

SPLH 840. Language Disorders of Children: Infants and Toddlers. 2 Hours. This course examines factors relating to language disorders in the birth to three population. At-risk populations, as well as those with known etiologies, are considered. Information on assessment, intervention, and service delivery models is addressed. Issues relating to Public Law 99-457 are also examined. LEC.

SPLH 842. Language Disorders of Children: Preschool. 2 Hours. This course examines language disorders of preschool-age children in the late preschool years. The course includes information on incidence, characteristics, assessment, and intervention. Theoretical issues and their implication for language intervention are also examined. LEC.

SPLH 844. Language Disorders of Children: School Age. 2 Hours. This course examines language development during the school years and how problems in this development interact with school performance. Emphasis is placed on the role of the speech-language pathologist in the early identification, assessment, and remediation of language-learning problems. LEC.

SPLH 846. Language Disorders of Adults. 2 Hours. Neurological aspects of language processes, classification of aphasia, and assessment of language deficits are discussed. Management approaches including intervention strategies and rehabilitation are also considered. LEC.

SPLH 848. Language Disorders of Special Populations. 2 Hours. This course focuses on the unique language impairments of individuals with mental retardation, autism, cerebral palsy, hearing impairments, dual sensory impairments, and other communication disorders (e.g., ADD). Language characteristics as well as assessment and intervention strategies are studied. LEC.

SPLH 850. Language Disorders Secondary to Closed Head Injury and Dementia. 2 Hours. Neuroanatomy and physiology relevant to diffuse brain injury are discussed. Characteristics and intervention strategies relating to traumatic brain injury and dementia are studied. LEC.

SPLH 852. Augmentative and Alternative Communication. 2 Hours. This course describes augmentative and alternative communication (AAC) assessment and intervention issues as they apply to children and adults with both congenital and acquired speech and/or language disabilities. Areas of study include AAC systems, assessment strategies and procedures, intervention strategies, and AAC information resources. LEC.

SPLH 854. Reading Disorders. 2 Hours. This course addresses the perceptual, linguistic, and cognitive processes utilized in written communication. Acquired and developmental disorders of written language are examined in relation to issues concerning characteristics, etiology, early identification, assessment, and remediation. LEC.

SPLH 860. Evaluation of Speech and Language. 2 Hours. Provides a general framework for speech and language evaluations. Issues related to initiation and termination of treatment are discussed. Practice is provided in evaluating norm- and criterion-referenced information used in diagnostic, referral, and treatment decisions. LEC.
SPLH 861. Seminar in Research Methodology in Speech Pathology and Audiology: _____. 3 Hours.
This seminar is concerned with the design, instrumentation, execution, and reporting of research in audiology and speech pathology. SPLH 760 or its equivalent and some statistics are recommended before entering this seminar. LEC.

SPLH 862. Clinical Processes. 1 Hour.
Orients student to clinical procedures, policies, requirements, and expectations of program. Therapy models, planning, and philosophies are discussed along with implementation and evaluation of therapy procedures. Professional issues are also considered. May be repeated for credit. LEC.

SPLH 864. Advanced Clinical Practice in Speech-Language Pathology. 1-6 Hours.
Students conduct supervised clinical work in a variety of settings. May be repeated for credit. Prerequisite: Department approval. Group and individual conferences with staff required. FLD.

SPLH 866. Field Study in Speech-Language Pathology. 5-12 Hours.
The field study provides work experiences in clinical and/or research activities. The student takes this course near the end of the degree program. Assignments include supervised work in a variety of approved settings. May be repeated for credit. Prerequisite: Consent of instructor. FLD.

SPLH 868. Professional Seminar. 1 Hour.
Forum for the presentation and discussion of scientific and professional issues by faculty and advanced graduate students. May be repeated for credit. LEC.

SPLH 874. Research Practicum. 1-3 Hours.
Application of research methodology in a laboratory situation. Emphasis is on direct participation in designing and conducting an experimental investigation in speech, language, or hearing. May be repeated for up to a maximum of 3 credits. Prerequisite: SPLH 660 or equivalent research methods course. RSH.

Investigation of special topics by individual master’s level students. Paper required. Prerequisite: Consent of instructor. RSH.

SPLH 880. Seminar in Speech-Language Pathology: _____. 1-3 Hours.
May be repeated for credit. LEC.

SPLH 898. Investigation and Conference (For Master’s Candidates). 1-6 Hours.
(Limited to six hours credit toward the M.A. degree.) Directed research and experimentation for M.A. students in some phase of speech science. RSH.

SPLH 899. Master’s Thesis. 1-6 Hours.
The.

SPLH 900. Proseminar in Communicative Disorders. 1 Hour.
A weekly forum for students and faculty to discuss professional issues and interdisciplinary research in communicative disorders and related fields. May be repeated for credit. Limited to two hours credit counted toward an MA or AuD degree. Limited to four hours credit counted toward the PhD degree. Graded on satisfactory/unsatisfactory basis. SEM.

SPLH 961. Experimental Phonetics I. 3 Hours.
This course will provide a description of the acoustic properties of the major classes of speech sounds, and will describe how these properties are utilized perceptually. It will also provide an understanding of the acoustic theory of speech production, and will discuss the implications of that theory relative to the modification of impaired speech. LEC.

SPLH 962. Experimental Phonetics II. 3 Hours.
This course will examine the current methodologies utilized in speech physiology research, and will review the findings of recent research into the movement patterns of individual speech articulators. The course will emphasize the interpretation of individual research results in terms of an overall theory of speech motor timing and control. LEC.

SPLH 963. Seminar in Hearing Science. 3 Hours.
Considers more advanced research problems in hearing science including psychoacoustics, speech perception, physiology. Prerequisite: Consent of instructor. LEC.

SPLH 964. Seminar in: _____. 1-3 Hours.
The subject matter of this seminar will be special topics from speech pathology and audiology, including those related to research methodology and research or academic careers. Special prerequisites may be established for a given topic. LEC.

SPLH 966. Seminar in Language Development. 3 Hours.
The course pertains to relevant research regarding infant speech development, vocabulary development, linguistic development, articulation development, and language retardation. (Same as ABSC 920, formerly HDFL 920.) LEC.

SPLH 967. Seminar in Articulation. 3 Hours.
Research and important clinical procedures pertaining to discrimination, structural, and physiological considerations, causal factors in defective articulation, and principal therapeutic approaches are carefully examined. LEC.

SPLH 968. Seminar in Communication Disorders. 3 Hours.
Study in depth of the communication behavior associated with brain injury and/or oral anomalies. LEC.

SPLH 969. Laboratory Instrumentation for Speech and Hearing Research. 3 Hours.
Instruments for speech and hearing research, their design and application. Experimental projects using laboratory equipment. Designing equipment for special purposes. Prerequisite: SPLH 962. FLD.

SPLH 970. Independent Study in Problems of Speech and Hearing. 1-6 Hours.
Investigation of special topics by individual students. Paper required. RSH.

SPLH 972. Extensions of Clinical Management. 3 Hours.
This course is designed to provide didactic and practical experience in methods of obtaining diagnostic information and generalization of speech and language responses away from the clinical setting. Models for effecting behavioral change and data collection will be discussed and utilized. FLD.

SPLH 974. Research Practicum. 1-6 Hours.
Application of research methodology in a laboratory situation. Emphasis is on direct participation in designing and conducting an experimental investigation in speech or hearing. FLD.

SPLH 975. Directed Teaching: Speech Pathology and Audiology. 1-3 Hours.
Provides experiences in classroom and laboratory instruction under supervision of graduate faculty. Variable credit to reflect amount of instructional responsibility assumed. May be repeated up to a maximum of six semester hours. FLD.

SPLH 976. Independent Study in Grant Writing. 1-3 Hours.
Students will identify a funding agency appropriate for their research, learn the application procedures for that agency, and draft a grant application following the identified agency’s format. The faculty mentor will
arrange for a review of the grant application following the agency's review criteria and format. May be repeated up to a maximum of three credits. IND.

**SPLH 982. Issues in Scientific Conduct. 3 Hours.** Lectures and discussion on issues in the conduct of a scientific career, with emphasis on practical topics of special importance in behavioral science. Topics will include the academic and scientific roles of behavioral scientists, establishing a research lab, communicating research findings, tenure processes, gender equity, ethical conduct, and good scientific citizenship. Discussions will highlight important case studies. (Same as PSYC 982.) LEC.

**SPLH 998. Investigation and Conference (For Doctoral Candidates). 1-8 Hours.** (Limited to eight hours credit towards the Ph.D. degree.) Directed research and experimentation for Ph.D. students in some phase of speech science. RSH.

**SPLH 999. Doctoral Dissertation. 1-12 Hours.** THE.

---

**Bachelor of Arts and Bachelor of General Studies in Speech-Language-Hearing**

**Why study speech, language, and hearing?**

Because communication is central to human behavior, and the treatment of communication disorders requires specialized knowledge and skills.

---

**Undergraduate Admission**

**Admission to KU**

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

---

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

---

**First- and Second-Year Preparation**

Both the B.A. and the B.G.S. aspirant should fulfill the College general education requirements. Students also should complete SPLH 120, SPLH 261, SPLH 320, SPLH 465, SPLH 466, SPLH 663, and elective courses in human physiology, psychology, and linguistics during their first 2 years. Faculty members can help students select appropriate course work.

---

**Requirements for the B.A. or B.G.S. Major**

**Speech-Language-Hearing Prerequisite or Co-Requisite Requirements (0)**

Majors must complete this requirement, however, these hours do not contribute to the minimum number of hours required for the major.

**Mathematics. Satisfied by one of the following:**

- MATH 101 College Algebra
- MATH 104 Precalculus Mathematics
- Or upper-level placement

**Statistics. An introductory statistics course (PSYC 210, MATH 365) is recommended.**

**Speech-Language-Hearing Introductory Knowledge (17)**

Majors must complete a course in the following areas (recommended within first and second year):

- **The Physics of Speech.** Satisfied by:
  - SPLH 120 The Physics of Speech 4
- **Survey Communication Disorders.** Satisfied by:
  - SPLH 261 Survey of Communication Disorders 3
- **The Communicating Brain: The Ultimate Personal Computer.** Satisfied by:
  - SPLH 320 The Communicating Brain: The Ultimate Personal Computer 3
- **Language Science.** Satisfied by:
  - SPLH 466 Language Science 3
- **Fundamentals of Clinical Phonetics.** Satisfied by:
  - SPLH 465 Fundamentals of Clinical Phonetics 1
- **Principles of Hearing Science.** Satisfied by:
  - SPLH 663 Principles of Hearing Science 3

**Speech-Language-Hearing Core Knowledge and Skills (18)**

Majors must complete a course in the following areas:

- **Language Sample Analysis Laboratory.** Satisfied by:
  - SPLH 565 Language Sample Analysis Lab 1
- **Language Development.** Satisfied by:
  - SPLH 566 Language Development 3
- **Research Methods in Speech-Language-Hearing.** Satisfied by:
  - SPLH 660 Research Methods in Speech-Language-Hearing 3
- **Principles of Speech Science.** Satisfied by:
  - SPLH 662 Principles of Speech Science 3
- **Introduction to Audiological Assessment & Rehabilitation.** Satisfied by:
  - SPLH 668 Introduction to Audiological Assessment and Rehabilitation 4
- **Introduction to Speech-Language Pathology.** Satisfied by:
  - SPLH 671 Introduction to Speech-Language Pathology 4

**Further Speech-Language-Hearing Study (0)**

After completing the requirements, students with grade-point averages of 3.0 or higher may enroll in any one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPLH 670</td>
<td>Beginning Clinical Practice in Audiology</td>
</tr>
<tr>
<td>SPLH 672</td>
<td>Clinical Practice in Speech-Language Pathology</td>
</tr>
</tbody>
</table>

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 35 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**
Satisfied by a minimum of 28 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

**Graduation Plan**

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the department for details.

**Departmental Honors**

The honors program offers exceptional undergraduates the opportunity to work closely with individual faculty members on scholarly projects over an extended period of time. Students are admitted to the program and matched with faculty through an application process that occurs each semester during course enrollment. Contact the Honors Coordinator for details. The following are required:

1. A grade-point average at graduation of at least 3.25 overall and of 3.5 in the major.
2. Completion of 6 to 8 credit hours in SPLH 498 Departmental Honors Research. Students work under the direction of a faculty member. Students may change areas of interest or faculty supervisors at the beginning of a semester with the consent of the honors coordinator. In the final semester of SPLH 498 enrollment, students also must complete a written report or public oral presentation detailing the purpose, methods, results, and impact of the research. Academic credit but no honors designation is given to students who meet the requirements for any semester but do not complete all requirements for departmental honors.

**Minor in Speech-Language-Hearing**

Why study speech, language, and hearing?

Because communication is central to human behavior, and the treatment of communication disorders requires specialized knowledge and skills.

**Requirements for the Minor**

**Speech-Language-Hearing Minor Course Requirements (15)**

Students selecting this minor must complete the following:

- Survey Communication Disorders. Satisfied by:
  - SPLH 261 Survey of Communication Disorders 3
- Speech-Language-Hearing Required Electives. Satisfied by at least 4
  - SPLH courses (12 hours) from the following:
  - SPLH 120 The Physics of Speech
  - SPLH 320 The Communicating Brain: The Ultimate Personal Computer
  - SPLH 464 Undergraduate Seminar in: 
  - SPLH 465 Fundamentals of Clinical Phonetics
  - SPLH 466 Language Science
  - SPLH 499 Directed Study in Speech-Language-Hearing
  - SPLH 565 Language Sample Analysis Lab
  - SPLH 566 Language Development
  - SPLH 660 Research Methods in Speech-Language-Hearing
  - SPLH 662 Principles of Speech Science
  - SPLH 663 Principles of Hearing Science

Courses with clinical content can be taken as directed study with the permission and support of a faculty mentor.

**Minor Hours & Minor GPA**

While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

**Minor Hours**
Satisfied by 18 hours of minor courses.

**Minor Hours in Residence**
Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

**Minor Junior/Senior Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

**Master of Arts in Speech-Language Pathology**

**Financial Aid**

Students in the speech-language pathology and audiology programs may apply for teaching, clinical, and research assistantships, U.S. Office of
Education fellowships, Veterans’ Administration Hospital traineeships, and other types of financial assistance.

Visit the Graduate Studies website for information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for graduate students at KU. Financial Aid and Scholarships (http://affordability.ku.edu/steps/index.shtml) administers grants, loans, and need-based financial aid.

Graduate Admission

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the program:

The University of Kansas Medical Center Department of Hearing and Speech
Attn: Angela Carrasco
3031 H.C. Miller Bldg.,
Mail Stop 3039, 3901 Rainbow Blvd.
Kansas City, KS 66160
acarrasco@kumc.edu

Requirements for the M.A. Degree with a Major in Speech-Language Pathology

Prerequisites

• An acceptable bachelor’s degree
• 34 hours of credit in speech-language-hearing, including SPLH 120, SPLH 261, SPLH 320, SPLH 465, SPLH 466, SPLH 565, SPLH 566, SPLH 660, SPLH 662, SPLH 663, SPLH 668, and SPLH 671, or their equivalents
• 20 hours of credit in allied fields, including courses in physiology, linguistics, and psychology

Degree Requirements

The program requires 34 credit hours of experiences for breadth and an additional 12 to 16 hours for depth.

Required Graduate Experiences for Breadth (34)

Students also must pass the Speech-Language Pathology PRAXIS examination with a score of at least 600.

Requirements for the M.S. in Education Degree with a Specialization in Deaf Education

For information, see Special Education (p. 458) in the School of Education section of the online catalog.

Doctor of Audiology

The Au.D. (Doctor of Audiology) degree is intended to produce audiologists for clinical practice and is designed to be completed in four years (including summers). This program has been planned to meet the academic and clinical requirements of the American Speech-Language-Hearing Association (ASHA). The ASHA Council on Academic Accreditation in Audiology and Speech-Language Pathology accredits this program.

A combined Au.D./Ph.D. track also is available. This track facilitates the completion of both degrees in a 6-year post-baccalaureate period. Students who wish to earn both Au.D. (http://splh.ku.edu/ipcd/AuD/AuD_Requirements_from_Handbook-2012.pdf) and Ph.D. (http://splh.ku.edu/ipcd/PhD/requirements.shtml) degrees should contact their advisor.

Graduate Admission

Submit your graduate application online (http://www.graduate.ku.edu). Send all other requested application materials to the program:

The University of Kansas Medical Center Department of Hearing and Speech
Attn: Angela Carrasco
3031 H.C. Miller Bldg.,
Mail Stop 3039, 3901 Rainbow Blvd.
Kansas City, KS 66160
acarrasco@kumc.edu

The Au.D. program prepares students to meet the academic and clinical requirements for the ASHA Certificate of Clinical Competence. The degree is designed to be completed in 4 years (including summers, with a common entry point in fall semester). A minimum of 102 credit hours including academic course work, independent research, and clinical practicum is required.

To obtain the Certificate of Clinical Competence in Audiology, a minimum of 1820 clock hours of supervised clinical experience must be completed while enrolled in an accredited educational program. KU’s Au.D. program is designed to provide the required clinical experience. Specific guidelines for certification are contained in the ASHA Certification and Membership Handbook, available on the ASHA website www.asha.org.

</tbody>
</table>
A minimum of 29 credit hours is required:

- During Years 1 and 2: AUD 843 Clinic Practice in Audiology (minimum of 9 credit hours; 1 credit hour equals 1-half day a week in clinic during fall and spring, 1 day a week in summer)
- During Year 3: AUD 944 Clinical Rotation (minimum of 5 credit hours; 1 credit hour equals 1 day a week in clinic during fall and spring, 2 days a week in summer).
- During Year 4: AUD 945 Clinical Externship (40 hours per week in clinic: 6 credit hours in fall and spring, 3 credit hours in summer).

**Elective Courses**

The Au.D. curriculum requires a total of 4-5 elective courses (12 credits); a minimum of two of these (6 credits) must be statistics courses.

Choice of statistics and elective courses will be determined in consultation with the academic advisor.

**PRAXIS Examination and Research Project**

In addition to didactic, clinical, and elective courses, students must successfully complete the PRAXIS examination at the end of 3 full years of graduate study and a research project completed through enrollment in a minimum of 4 hours of AUD 846 Independent Study in Problems in Audiology. Projects are to be completed and presented to a faculty-student forum in the spring of Year 3.

**Other Degree Requirements**

Students must successfully complete an oral, comprehensive examination during Year 3.

**Note:** Contact your department or program for more information about the Research Skills and Responsible Scholarship requirement for doctoral students. Also, please see this policy listed in the Graduate Studies section of the online catalog and in the KU Policy Library.

---

**Doctor of Philosophy in Speech-Language Pathology or Audiology**

The Intercampus Program in Communicative Disorders offers Ph.D. programs in both speech-language pathology and in audiology for post-baccalaureate study of normal and disordered aspects of communication. These programs are designed to prepare suitably qualified individuals for leadership positions in research and academia. A major focus of these programs is to advance the science of these fields, and to elucidate the scientific basis for the procedures and processes used in clinical practice.

A combined Au.D./Ph.D. track also is available. This track facilitates the completion of both degrees in a 6-year post-baccalaureate period. Students who wish to earn both Au.D. and Ph.D. degrees should contact their advisor.

**Graduate Admission**

Submit your graduate application online (http://www.graduate.ku.edu).

Send all other requested application materials to the program:

**The University of Kansas Medical Center Department of Hearing and Speech**

Attn: Angela Carrasco
3031 H.C. Miller Bldg.,
Mail Stop 3039, 3901 Rainbow Blvd.
Kansas City, KS 66160
acarrasco@kumc.edu

Upon admission, the student and his or her adviser choose a doctoral advisory committee. The committee is responsible for guiding the student’s progress through the selected program of study.

Incoming students who have not completed a substantive graduate research project (e.g., a master’s thesis, Au.D. research project, etc.) must initiate a thesis-equivalent research project, under the direction of a three-member committee, during the first year of enrollment. This project must be completed before the comprehensive oral examination.

Minimum requirements for both the Ph.D. program in Speech-Language Pathology and Audiology are:

- A minimum of 24 graduate hours in a major area of interest
- Completion of a preliminary research experience
- A minimum of 15 graduate hours in research skills/responsible scholarship
- A minimum of 12 graduate hours in a correlative area
- Satisfactory performance on annual reviews
- Satisfactory performance on written and oral comprehensive examination
- Satisfactory completion of a dissertation including written and oral prospectus, and written dissertation and oral defense

Note that the above are the MINIMUM requirements. Each student’s plan of study will vary depending on entry skills (i.e., relevant knowledge and skills acquired through prior training, work or research experience), chosen specialization, and career aspirations.

The essential steps toward a Ph.D. are the following:
1. Completion of academic coursework (major area, correlative area, research skills/responsible scholarship)
2. Preliminary research participation
3. Written comprehensive examinations
4. Comprehensive oral examinations
5. Dissertation prospectus
6. Written dissertation
7. Oral defense of the dissertation
8. Submission of the dissertation to the Office of Graduate Studies

Students in this program must meet the general requirements of the university including the research skills and responsible scholarship requirement (https://documents.ku.edu/policies/Graduate_Studies/Research_Skills_and_Responsible_Scholarship.htm) and fulfill the basic program requirements to receive the Ph.D. degree.

Certificate Program

Systems Analysis and Design Certificate Program

Systems Analysis and Design

*NOTE - This program is no longer accepting any new students.*

KU Edwards Campus

Courses are offered only on the KU Edwards Campus (http://edwardscampus.ku.edu), 12600 Quivira Rd., Overland Park, KS 66213. They lead to a 15-hour undergraduate certificate in systems analysis and design. The certificate offers working adults the opportunity to develop knowledge and skills to prepare for roles as systems analysts.

A systems analyst analyzes, designs, and implements improvements in business processes through computer information systems so those systems are useful to planners and decision-makers who develop business strategy. Contact the CLAS undergraduate advisor on the Edwards Campus, Dan Mueller, dmueller@ku.edu, 864-8659 (from Lawrence) or 913-897-8659 (outside of Lawrence) for more information.

Courses

SA&D 401. Introduction to Systems Analysis and Design. 3 Hours. U.
An introduction to the Systems Development Life Cycle (SDLC) and alternatives to SDLC uses in information studies projects and applications. Case studies will be used to illustrate methods of successful analysis of entire projects, including problem definition and analysis, design processes, testing, and implementation. Prerequisite: One year of programming experience or classes. Restricted to students admitted to the Systems Analysis and Design Certificate program. LEC.

SA&D 402. Introduction to Project Management. 3 Hours. U.
An introduction to the Project Management Body of Knowledge (PMBOK) including the need for project management, phases of the project life cycle, tools and techniques for planning (PERT, CPM), and the role of team work and communication. Not open to students with credit for BBA 410 Project Management. LEC.

SA&D 404. Software Development Methods. 3 Hours. U.
This course will focus on the specifications through implementation phase of the Systems Development Life Cycle (SDLC) at an advanced level including technical design, coding and testing, problem management, systems testing, implementation and post-implementation. Prerequisite: SAD 401. Restricted to students admitted to the Systems Analysis and Design Certificate program. LEC.

SA&D 405. Object Oriented Analysis and Design. 3 Hours. U.
Introduces the student to the basic Object Oriented (OO) terminology and how OO differs from a procedural approach. It details the deliverables that are created in the analysis and design phase using the Unified Modeling Language (UML). Students will also learn to use a CASE tool to document the analysis and design deliverables. Prerequisite: SAD 401. Restricted to students admitted to the Systems Analysis and Design Certificate program. LEC.

SA&D 406. Systems Architecture. 3 Hours. U.
Survey of elements of systems architecture including types of architecture, quality attributes, design patterns and frameworks, deployment issues, and developing architecture plans. Prerequisite: SAD 401. Restricted to students admitted to the Systems Analysis and Design Certificate program. LEC.

Department of Theatre

KU Theatre: A Family of Students, Artists, Scholars, and Arts Professionals

The Department of Theatre offers outstanding theatre training in a liberal arts context. Our undergraduate programs are grounded in the philosophy that good theatre artists are thinking theatre artists. Our students work intensively on acquiring theatre skills and knowledge in our classrooms, studios, and laboratories. They receive small-school individual attention while benefiting from big-school academic choices and a vast array of programs. KU theatre students often undertake secondary study in areas such as business, journalism, art, and English. The Department of Theatre is internationally recognized for its graduate education. Our M.A. and Ph.D. programs are unique for combining intensive study of theatre and performance with the production training necessary for theatre careers in higher education. Our groundbreaking M.F.A. in Scenography is unique for having an integrated approach to scenic, lighting, and costume design that prepares artists for professional and academic careers.

Home of the University Theatre

Classroom meets the stage in the University Theatre, a leading arts program serving the KU and Lawrence communities. KU Theatre students, faculty and professional staff work together to create up to ten fully produced shows each year, from dramas to musicals to opera. In our fully-equipped facilities students engage in all aspects of production onstage and backstage. Production continues year round with the Kansas Summer Theatre program.

Highly Qualified Faculty Scholars and Artists

The faculty of the Department of Theatre are creative artists and researchers working in the areas of theatre stagecraft, performance, design, dramatic literature, dramaturgy, pedagogy, as well as the historical, literary, and cultural study of theatre and performance. Our faculty include award-winning teachers and internationally recognized scholars and artists working in professional theatre, authoring books and establishing research and outreach programs.

Support for Students

The Department of Theatre offers students financial aid in the form of dozens of scholarships, awards, and teaching assistantships each year to graduate and undergraduate students. A strong community of support
is found in the Friends of the Theatre (FROTH), a community group dedicated to enhancing the mission of the University Theatre. Once students graduate our program they join a wide network of theatre Alumni and Professional Advisors.

Undergraduate Programs

The department offers Bachelor of Arts and Bachelor of General Studies degrees, as well as a minor in theatre. The program leading to the Bachelor of Fine Arts degree in theatre design is offered cooperatively by the Department of Visual Art and the Department of Theatre.

Undergraduates may choose from 5 emphases: the B.A. or B.G.S with an emphasis in Theatre, Culture, and Society; the B.A. or B.G.S. with an emphasis in Performance; and a B.F.A. in Theatre Design. The concentration in Theatre, Culture, and Society acquaints students with the overall field of theatre and prepares them for possible graduate study. The concentration in Performance prepares students for professional work in theatre and for M.F.A. study in acting or directing. The B.F.A in Theatre Design is intended as general preparation for the professional designer of scenery, costumes or lighting working in theatre and/or film or as preparation for graduate studies.

The B.A., B.G.S. and B.F.A. requirements are quite different, so it is important to consult with a department advisor. Theatre production experience is provided through coursework in conjunction with the University Theatre Program.

Courses for Nonmajors

The department offers many courses (including KU Core fulfillment) open to non-majors who wish to learn more about theatre, including but not limited to:

THR 105. Improvisation. 3 Hours. H.

Designed to free the beginning actor physically, vocally, and emotionally. Beginning with basic physical action and sense memory exercises performed by individuals, the work will progress to pair and small-group improvisations in preparation for scene work. Open to freshmen and sophomores only. LEC.

THR 106. Acting I. 3 Hours. HL GE3H / H.

Fundamental techniques in acting. Practice in character creation, body language, and effective stage speech. LEC.

THR 111. Make-Up. 1 Hour. H.

The techniques in application of make-up for specific characterizations, both straight and character. Study of the structure of the face and hands for stage make-up. Should be taken concurrently with THR 106, if possible. LEC.

THR 116. Scenographic Techniques. 3 Hours. H.

Emphasis on drafting, model building, and presentational techniques for the theatrical designer or art director. Some work in computer drafting for the designer-technician. Lecture and laboratory periods. LEC.

THR 177. First Year Seminar: ______. 3 Hours. HT GE11.

A limited-enrollment, seminar course for first-time freshmen, organized around current issues in Theatre. May not contribute to major requirements in theatre. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

THR 201. Theatre Practicum II. 1 Hour. H.

Involvement in theatre performance and/or production. One acting role in a University Theatre production or classroom project plus one crew assignment, or two crew assignments qualify for credit. May be repeated for credit. This course will be graded satisfactory/unsatisfactory. Prerequisite: THR 101. ACT.

THR 204. Study Abroad Topics in: ______. 1-6 Hours. H.

This course is designed for the study of special topics in Theatre at the freshman/sophomore level. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

THR 206. Acting II. 3 Hours. H.

The study of roles and scenes from plays. Practice in character analysis, creation of roles, rehearsal of scenes, and ensemble work. Prerequisite: THR 106. LEC.

THR 209. Play Reading for Performance. 3 Hours. H.

This course is designed to prepare students for upper-level courses in theatre by developing and enhancing their ability to read plays. Close reading of plays introduces students to a variety of different dramatic genres and theatrical styles. Emphasis is placed on comprehension and analysis of dramatic literature for theatrical performance. LEC.

THR 210. Musical Performance for the Actor I. 3 Hours. H.

Beginning Studies in Musical Theatre Performance: practical application of voice, acting and movement techniques for musical theatre, solo and group performance. LEC.

THR 212. Beginning Voice and Speech for Actors. 3 Hours. H.

A foundation course; introduction to phonetics; training in Standard American Stage Speech; articulation skills; resonance and voice placement. LEC.

THR 213. Movement I: The Acting Instrument. 3 Hours. H.

A foundational course in discovering ease and efficient use of the body in a performance context, developing non-verbal communication and partnering skills, and establishing the connection of movement to voice
THR 215. Approaching Design. 3 Hours. HL GE3H / H.
Conceptualization and visualization of the elements involved in creative design for theatre, dance, television, and film. LEC.

THR 216. Scenic Production. 2 Hours. H.
Introduction to the planning, construction, and mounting of scenery for theatre, television, and film. Concentration on the technical organization of scenic production. Lecture, discussion, and laboratory periods. LEC.

THR 220. Costume Production. 2 Hours. H.
Introduction to techniques of costume construction, including study of fabrics, color, fundamentals of pattern making, and draping of costumes for theatre, television, and film. Concentration on the technical organization of costume production. Lecture, discussion, and laboratory periods. LEC.

THR 222. Lighting Production. 2 Hours. H.
Introduction to the planning and execution of lighting for theatre, television, and film. Concentration organized any given semester to study particular subject matter or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

THR 226. Introduction to African Dance Theatre. 2 Hours. NW / H.
Introduction to the general techniques of non-verbal theatrical conventions in African cultures. Practical training in movement vocabulary supplemented by lectures on the "text" of performance. There will be an end of semester "studio performance." (Same as AAAS 334 and DANC 230.) LEC.

THR 301. Theatre Practicum III. 1 Hour. H.
Involvement in theatre production and/or production. One acting role in a University Theatre production or classroom project plus one crew assignment, or two crew assignments qualify for credit. May be repeated for credit. This course will be graded satisfactory/unsatisfactory. Prerequisite: THR 201. ACT.

THR 302. Undergraduate Seminar in: _______, 3 Hours. H.
Course organized any given semester to study a particular subject matter or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

THR 303. Summer Theatre. 1-6 Hours. H.
Provides experience in a wide range of theatre activity related to the summer theatre production or productions. Work may include activity in the following areas: acting, directing, design, technical theatre, voice and/or movement. Specialized skills are developed through individual classes, production preparation and performance. Prerequisite: Consent of instructor. ACT.

THR 304. Study Abroad Topics in: _______, 1-6 Hours. H.
This course is designed for the study of special topics in Theatre at the junior/senior level. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

THR 305. Honors Seminar in: _______, 3 Hours. H.
Special topics seminar serving students enrolled in the University Honors Program. Course organized any given semester to study a particular subject matter or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Prerequisite: Students must be enrolled in the University Honors Program. LEC.

THR 306. Acting III. 3 Hours. H.
Advanced projects in acting. Character and scene analysis, scoring the role, rehearsal, and performance. Prerequisite: THR 206. LEC.

THR 307. Undergraduate Theatre Internship. 1-3 Hours. AE61 / H.
Supervised study with an approved theater company or project. May be repeated for credit. No more than six hours may be applied to the B.A. or B.G.S. degrees. This course will be graded satisfactory/unsatisfactory. Prerequisite: Consent of instructor and at least seven hours credit in the department. FLD.

THR 308. Script Analysis. 3 Hours. H.
This course provides knowledge and methods enabling students to conduct in-depth study of dramatic scripts. Emphasis is given to the analysis skills appropriate to practitioners of stage and screen arts. LEC.

THR 310. Musical Performance for the Actor II. 3 Hours. H.
Intermediate Studies in Musical Theatre Performance: practical application of voice, acting and movement techniques for musical theatre, solo and group performance. Prerequisite: THR 106 and THR 210. LEC.

THR 312. Acting with an Accent. 3 Hours. H.
A performance class for actors using monologues and scenes involving the use of accents and dialects. The course will also provide instruction in many of the most used American regional, British regional dialects, and foreign language accents. Prerequisite: THR 212, or by permission of instructor after the student demonstrates an ability in the International Phonetic Alphabet. LEC.

THR 313. Movement II: Physical Characterization. 3 Hours. H.
The study of diverse physical acting techniques, and an investigation into creating a character through manipulation of the acting instrument. Actor training in performance neutrality, mask work, age, and gender distinctions. Prerequisite: THR 213 and permission of instructor. LEC.

THR 316. Beginning Scene Design. 3 Hours. H.
Study of scenic design process with beginning problems in textual analysis, style, historical research, and preliminary and finished methods of design presentation. Concentration on developing fundamental design skills and awareness. Prerequisite: THR 116 and THR 215, or permission of instructor. LEC.

THR 320. Beginning Costume Design. 3 Hours. H.
Study of the costume design process with beginning problems in textual analysis, style, historical research, and preliminary and finished methods of design presentation. Concentration on developing fundamental design skills and awareness. Prerequisite: THR 215. LEC.

THR 324. Beginning Lighting Design. 3 Hours. H.
Study of the lighting design process with beginning problems in textual analysis, style, historical research, with preliminary and finished methods of design presentation. Concentration on developing fundamental design skills and awareness. Prerequisite: THR 116 and THR 215, or permission of instructor. LEC.

THR 326. African Theatre and Drama. 3 Hours. NW / H/W.
A study of the origin and development of continental African theatre and its affinity to the Levant. Traditional, colonial and contemporary dramatic theories and experiments will be examined in play selections. (Same as AAAS 355.) LEC.

THR 327. African-American Theatre and Drama. 3 Hours. AE41 / H.
A historical study of Black Theatre in the U.S.A. from its African genesis to its contemporary Americanness. Epochs in African-American dramaturgy will be critically examined. (Same as AAAS 356.) LEC.

THR 380. Popular Culture: ______. 3 Hours. HL GE3H / H.
Interdisciplinary examination of popular culture oriented around a specific genre or theme. Objects of study may include popular forms of live
THR 401. Stage Management and Assistant Direction. 1 Hour. H.
Majors are assigned to stage manage or assistant direct a University Theatre production, or to take related workshops in stage management or assistant directing. May be repeated for credit. This course will be graded satisfactory/unsatisfactory. ACT.

THR 404. Children and Drama. 3 Hours. HL / H.
Exploration of forms, methods, and materials appropriate for development of elementary-age children in dramatic arts. LEC.

THR 405. Children and Media. 3 Hours. H.
The applied study of child development theories and research methods on the influences and effects of television and related visual media on childhood in the contexts of families, schools, and society. (Same as ABSC 405 and PSYC 405.) LEC.

THR 406. Audition Techniques. 3 Hours. H.
This course prepares students for all types of audition experiences. It includes study in techniques of prepared auditions, cold readings, interviews, and the musical audition for actors. Emphasis is placed upon developing resumes and photo portfolios as well as concentrated study in professional contracts, unions, and agent acquisition. Prerequisite: THR 206. LEC.

THR 410. Musical Performance for the Actor III. 3 Hours. H.
Advanced Studies in Musical Theatre Performance: practical application of voice, acting and movement techniques for musical theatre, solo and group performance. Prerequisite: THR 106, THR 210, and THR 310. LEC.

THR 413. Stage Combat Skills. 3 Hours. U.
Study of the illusion of violence in a dramatic context and the special skills necessary for creating believable and safe stage fights. Actor training in armed and unarmed combat, including one or more of the following: rapier and dagger, broadsword, and quarter staff. Prerequisite: THR 313 and permission of instructor. LEC.

THR 416. Design Forum. 3 Hours. U.
Depending on student qualifications and specialization, focus is on scenic, costume, and/or lighting design. Special attention placed on developing collaborative awareness and the conceptual and presentation skills that underlie and inform the design process. Prerequisite: THR 316 or THR 320 or THR 324. LEC.

THR 429. Postcolonial Theatre and Drama. 3 Hours. NW AE42/GE3H / H.
The course develops an understanding of the postcolonial concept and its different manifestations in theatre and drama across nations and cultures. It approaches postcolonialism as a way of reading theatre, and as a genre within theatre by exploring how the “colonial project” has reconfigured the concept, content, and context of theatre in both colonized and colonizing cultures. In addition to the study of postcolonial playwrights and their works, the course is also an introduction to postcolonial theory and its critics. (Same as AAAS 429.) LEC.

THR 445. Teaching Theatre in the Middle/Secondary Schools. 3 Hours. H.
Study of philosophy and methods appropriate to teaching improvisation, acting, stagecraft, directing, playwriting, dramatic literature, and theatre history in middle/secondary schools. Includes curriculum development, instructional and evaluative strategies, and management of co-curricular theatre programs. Prerequisite: Consent of instructor. LEC.

THR 498. Honors Seminar. 2-6 Hours. AE61 / H.
Study may be directed toward either (1) reading for integration of knowledge and insight in theatre or (2) original research, i.e., investigation of a specific problem in theatre. Six hours maximum credit, which may be distributed through four semesters. Prerequisite: Consent of Departmental Honors Committee. IND.

THR 499. Directed Study in Theatre. 1-6 Hours. AE61 / H.
Investigation of a special topic or project selected by the student with advice, approval, and supervision by an instructor. Such study may take the form of directed reading or special research. Individual reports and conferences. A maximum of six hours credit may be counted toward a degree. Prerequisite: At least seven hours credit in the department and consent of instructor. IND.

THR 501. Colloquium on American Theatre. 1 Hour. U.
A series of fourteen weekly lecture/discussions led by invited guests both from the university and outside it on various topics central to the study of theatre. The first four meetings, led by the course coordinator, are a brief survey of the history of theatre in America and a preparation for the ten lecture/discussions to follow. LEC.

THR 506. Acting for the Camera. 3 Hours. H.
A study of acting techniques appropriate to the requirements of the camera. Emphasis is placed on developing audition skills necessary to compete for roles in dramatic features, corporate videos, and commercials. Actors acquire skills essential to the transition from stage to camera. Prerequisite: Permission of instructor. LEC.

THR 508. Fundamentals of Directing. 3 Hours. H.
Offered as a first course in play directing. Designed primarily for theatre majors and secondary education majors in language arts with a theatre and drama concentration. The content is principally descriptive in nature with some practical experience. Lecture and laboratory periods. Prerequisite: THR 308. LEC.

THR 509. Dramatic Script Writing. 3 Hours. H.
Study and practice in the fundamental techniques of dramatic writing and the application of such techniques most specifically to theatre. Open upon consent of instructor to students who have completed one course in advanced composition and one course in the theory or history of drama. LEC.

THR 512. A Vocal Approach to the Classics. 3 Hours. H.
This is an advanced voice and speech course for actors aiming to further increase their command over tone, rhythm, pacing, and diction. Their range and power will be extended. Through discovery of the demands of a variety of classical texts, the actor will be challenged both in verse and in prose to develop the skills necessary to fully interpret that material. Prerequisite: THR 212. LEC.

THR 516. Scenic Painting Techniques. 3 Hours. H.
Study of painting equipment, tools, pigments, binders, and vehicles, and their relationship to the surfaces to be painted. Instruction in basic painting techniques. Prerequisite: THR 115 and THR 215. LEC.

THR 517. Computer-Aided Design. 3 Hours. U.
Study of new media in theatre and film/video production, primarily computer technologies and methods for the theatrical designer or art director. Emphasis on computer 3-D modeling and color rendering. Prerequisite: THR 116, THR 215, or permission of instructor. LEC.

THR 518. Scenography and the Classic Script. 3 Hours. H.
Holistic production design, including lighting, scenery, and costumes, for classic theatre scripts. Contrasts historical styles of production with styles for contemporary spaces and audiences. Projects tailored to the needs and level of the students. Prerequisite: Consent of instructor. LEC.
THR 519. Scenography and the Modern Script. 3 Hours. H.
Holistic production design, including lighting, scenery, and costumes, for modern theatre scripts. Examines modern styles of production. Projects tailored to the needs and level of the students. Prerequisite: Consent of instructor. LEC.

THR 520. History of Period Style I. 3 Hours. H.
A survey of Western style from ancient Egypt to the Restoration. Focus is placed on developing a comprehensive understanding of the stylistic relationships between art, architecture, clothing, decor, manners, and social and political history. Prerequisite: Nine hours in theatre/design/technical courses or consent of instructor. LEC.

THR 521. History of Period Style II. 3 Hours. H.
Continuation of THR 520, from the Restoration to the present day. Prerequisite: Nine hours in theatre/design/technical courses or consent of instructor. LEC.

THR 525. History of Theatre. 3 Hours. H.
Study of developments in world theatre and drama from the ancient world to the eighteenth century. LEC.

THR 526. History of Theatre II. 3 Hours. H.
Study of developments in world theatre and drama since the eighteenth century. LEC.

THR 527. Asian Theatre and Performance. 3 Hours. NW / H/W.
A survey of traditional and modern theatre and performance in Asia, with greatest attention given to India, China, and Japan. A study of plays, dramatic genres, history, conventions of play production, acting styles and other performance forms. (Same as EALC 527.) LEC.

THR 528. History of U.S. Theatre and Drama. 3 Hours. H.
Historical approach to the development of theatre and performing arts in the United States. LEC.

THR 529. Race and the American Theatre. 3 Hours. U.
The representation(s) of race in significant texts and performance styles in American theatre analyzed according to political ideologies, dramatic movements and the impact of these factors on the representation of the "other" in the theatre. (Same as AAAS 585 and AMS 529.) LEC.

THR 550. Applied and Interactive Theatre. 3 Hours. H.
This course is an exploration of interactive drama techniques and practices of the evolving field of applied theatre. The tools of applied theatre serve varied purposes and are being used around the world for community-building, personal empowerment, to address social and political issues, and to strengthen communication skills. The class will work specifically on community-based dialogue and classroom situations that students and professors encounter in their daily lives. LEC.

THR 599. Special Topics in Scenography. 1-6 Hours. U.
Individual studio activity. Course content to be determined by the student under the supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: Permission of instructor. IND.

THR 603. Theatre for Young Audiences. 3 Hours. U.
A survey of theories, history, literature, criticism, production methods, and audience research about theatre performed by adults for children and adolescents. Emphasis is on child development and community outreach. Prerequisite: THR 308 or consent of instructor. LEC.

THR 604. Drama with Young People. 1-3 Hours. U.
A laboratory experience in developing and conducting improvisational drama workshops with children or adolescents in local schools. Includes readings by leading theorists and practitioners. Prerequisite: Actors cast in current KU Theatre for Young People production, or THR 404, or consent of instructor. LEC.

THR 609. Play Directing. 3 Hours. H.
Readings, lectures, and practice dealing with the relationship between actor and director. Prerequisite: THR 508. LEC.

THR 617. Computer-Aided Design II. 3 Hours. U.
Continuation of THR 517. Emphasis on computer-generated images as scenic media in production situations. Prerequisite: THR 517, or permission of instructor. LEC.

THR 618. Scenography and the Musical Theatre. 3 Hours. H.
Holistic production design, including lighting, scenery, and costumes, for musical theatre, opera, and dance. Examines development and changes in design styles in the evolution of musical theatre, opera, and dance and the special requirements of these forms. Projects tailored to the needs and level of the students. Prerequisite: Consent of instructor. LEC.

THR 619. Scenography and the Contemporary Script. 3 Hours. H.
Holistic production design, including lighting, scenery, and costumes, for contemporary scripts. Examines contemporary episodic scripts written for the stage that are based on a filmic structure, the special problems of these kinds of scripts, and the respective problems of designing for theatre and film. Projects tailored to the needs and level of the students. Prerequisite: Consent of instructor. LEC.

THR 620. Scenography and the Experimental Production. 3 Hours. H.
Holistic production design, including lighting, scenery, and costumes, for experimental scripts/scenarios. Examines experimental approaches to a variety of script/scenarios, including mixed-media production. Projects tailored to the needs and level of the students. Prerequisite: Consent of instructor. LEC.

THR 626. Myth and the Dramatist. 3 Hours. U.
This seminar critically explores myths in dramatic literature from ancient to contemporary times, using select authors from different cultures. Analysis of the works will be based on both conventional and post-structuralist theories and specific emphasis will be on myths that have been adapted cross-culturally and/or in different time perspectives. LEC.

THR 702. Graduate Seminar in: ______. 3 Hours.
Course organized any given semester to study particular subject matter or to take advantage of special competency by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

THR 703. Directed Readings in Theatre. 1-3 Hours.
Research reading and presentation of reports on specific subjects related to the students major area of specialization. May be repeated up to a total of six credits on petition. Required of all MFA Scenography students. IND.

THR 704. Study Abroad Topics in: ______. 1-6 Hours.
This course is designed for the study of specific topics in Theatre. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

THR 707. Theatre Internship. 3-12 Hours.
Study with an approved theatre company. Emphasis may be in one or all of the following areas: acting, directing, stage management, technical theatre, promotion management. No more than six hours may be applied to an M.A. degree. Course will be graded satisfactory/unsatisfactory. Prerequisite: Consent of instructor. FLD.

THR 709. Advanced Dramatic Script Writing. 3 Hours.
The purpose of this course is to permit selected students, by consent of instructor, to develop or continue dramatic writing projects in theatre, film, television, and radio under the individual supervision of the instructor. LEC.
THR 711. Styles of Acting: Shakespearean. 3 Hours.
An approach to acting styles of the period, based on a study of the art, customs, spirit, and the theatre of the times applied to scene studies taken from the works of Shakespeare. Prerequisite: THR 106 and THR 206 or consent of instructor. LEC.

THR 713. Styles of Acting: Restoration and 18th Century English. 3 Hours.
An approach to acting styles of the period, based on a study of the art, customs, spirit, and the theatre of the times applied to scene studies taken from the works of English Restoration dramatists and those 18th century English playwrights writing in the Restoration mode. Prerequisite: THR 106 and THR 206 or consent of instructor. LEC.

THR 715. Problems and Techniques of Direction. 3 Hours.
Practical experience in directing. Prerequisite: THR 609. RSH.

THR 719. M.F.A. Production Seminar. 3 Hours.
To be taken by M.F.A. candidates during those semesters in which they are assigned to design one or more elements in a production to be mounted on one of our stages. Weekly critique and discussion of solutions to practical design problems from conception through execution. May be repeated for a total of no more than six hours credit. Prerequisite: Consent of instructor. IND.

THR 725. Russian Theatre and Drama from Stanislavski and Chekhov to the Present. 3 Hours.
A study of the development of Russian theatre and dramatic literature from 1898 to the present. Lectures and readings in English. (Same as SLAV 562.) LEC.

THR 800. Introduction to Graduate Study in Theatre. 3 Hours.
Major emphasis is placed upon the principles of research, bibliographical data, and research methods useful in theatre and performance studies. The course should be taken at the beginning of the graduate student's program. LEC.

THR 801. Professional Development Seminar. 1 Hour.
Preparation for faculty careers in theatre and related fields, including issues of research, teaching, and service. At least three hours per semester will be devoted to training in responsible scholarship. May be repeated for credit. RSH.

THR 802. Master's Projects. 3-6 Hours.
Advanced creative projects which may be elected by master's degree candidates in lieu of thesis. RSH.

THR 803. Summer Theatre: Graduate. 1-3 Hours.
Provides graduate level experience in a wide range of theatre activity related to the summer theatre production or productions. Work may include activity in the following areas: acting, directing, design, technical theatre, voice and/or movement. Specialized skills are developed through individual classes, production preparation, and performance. Prerequisite: Consent of instructor. FLD.

THR 815. Advanced Play Production. 1-3 Hours.
Individually supervised directing of theatre pieces for public presentation. In special cases credit may be given for musical direction, choreography, or stage management. Prerequisite: THR 715. FLD.

THR 817. Theory of Acting and Directing. 3 Hours.
Readings, lectures, discussions and papers on acting and directing theory; is concerned with the divergence between presentational and representational acting methods and the emergence of directing art. Prerequisite: THR 609 or THR 715. LEC.

THR 819. Advanced M.F.A. Production Seminar. 3 Hours.
Continuation of THR 719, but production design assignments will be more complex and larger in scope. May be repeated for maximum of six hours credit. Prerequisite: Six hours of THR 719 and consent of instructor. IND.

THR 826. Seminar in African Theatre. 3 Hours.
A study of developments in African theatre in the 20th Century focusing on themes, concepts, styles, and critical perspectives. The course will investigate the idea of an "African theatre" and identify different periods and movements within national and international contexts. The analysis of representative works and authors will be grounded within appropriate theoretical frameworks. LEC.

THR 828. Seminar in American Theatre and Drama to 1895. 3 Hours.
Intensive investigation of selected topics. Individual study emphasized. LEC.

THR 829. Seminar in American Theatre and Drama from 1895. 3 Hours.
Intensive investigation of selected topics. Individual study emphasized. LEC.

THR 898. Investigation and Conference (for Master's Students). 1-8 Hours.
Directed research and experimentation in theatre. Limited to eight hours credit toward the Master’s degree. RSH.

THR 899. Master's Thesis. 1-6 Hours.
THE.

THR 901. Theatre Seminar in: ______. 3 Hours.
A graduate seminar devoted to selected historical, theoretical, or critical issues in theatre. Prerequisite: Consent of instructor. LEC.

THR 914. Theories of Race and Performance. 3 Hours.
Theories of Race and Performance is an inter-textual graduate course that explores interdisciplinary scholarship on race and performance. It seeks to translate these theories into practical application in various visual, audio and performance texts in popular culture. The course is divided into modules aimed at gaining an understanding of the shifting meaning of race over time and its relationship to ethnicity, gender, sexuality, class, nation, and power. How do we perform our identities? How is race constructed and maintained through performance? To begin to answer these questions, we will examine the ways in which racial identities are created through performance. SEM.

THR 915. Modern Theatre and Drama. 3 Hours.
A study of the movements in playwriting and theatrical production in Europe and America from the mid-19th century to World War II. Prerequisite: THR 525 and THR 526 or comparable courses. LEC.

THR 916. Postmodern Theatre and Drama. 3 Hours.
A study of developments in Europe and American playwriting, directing, acting, and design from World War II to the present. SEM.

THR 917. Dramatic Theory I. 3 Hours.
A survey of dramatic theory from Plato to Lessing. LEC.

THR 918. Dramatic Theory II. 3 Hours.
A survey of dramatic theory from Lessing to Langer. LEC.

THR 919. Dramatic Theory Seminar. 3 Hours.
Study in depth of selected theorists. Offered as determined by faculty availability and student interest. LEC.

THR 920. Practicum in Criticism. 3 Hours.
Contemporary approaches to theatre and drama criticism. Emphasis on actual practice, using a variety of critical methods. FLD.
THR 922. Theatre Historiography. 3 Hours.
This course focuses on the advanced study of research methods, subjects, interpretative paradigms, theoretical frameworks, and philosophies of history employed in contemporary approaches to writing and teaching theatre history. Prerequisite: THR 525 and THR 526 or equivalent. LEC.

THR 998. Investigation and Conference (for Doctoral Students). 1-8 Hours.
RSH.

THR 999. Doctoral Dissertation. 1-12 Hours.
The.

Bachelor of Arts and Bachelor of General Studies in Theatre

Department of Theatre B.A. and B.G.S. students work intensively on acquiring theatre skills and knowledge in classrooms, studios, and laboratories. Undergraduates pursuing the B.A. or B.G.S. may choose from two emphases: Theatre, Culture, and Society or Performance.

The Performance concentration prepares theatre majors for a career as a professional actor. Through small-class studio courses and department productions, our program provides talented performing artists with a solid foundation in acting, movement, voice and speech, improvisation, and musical theatre.

The Theatre, Culture and Society concentration is designed for students interested in studying the cultural and social underpinnings of theatre and performance along with courses in acting, directing and design and with participation in University Theatre production. The TCS concentration provides the critical, analytical, and historical education that is the foundation of a liberal arts degree.

Both the Bachelor of Arts (B.A.) and Bachelor of General Studies (B.G.S.) require 40 hours. The primary distinctions between the B.A. and the B.G.S. degree are the foreign language requirement (required of the B.A. but not the B.G.S.) and 18 hours junior/senior concentration or minor (required for the B.G.S but not the B.A.).

There are no major admission requirements for the B.A. or B.G.S. in Theatre.

Students considering a theatre major should enroll in THR 106 and THR 101 and complete all 100- and 200-level courses in the first 2 years of study. It is imperative that theatre students earn practicum credit (THR101, 201, 301) early in their careers at KU.

Requirements for the B.A. and B.G.S. Major

Both the B.A. and B.G.S. require 40 hours. The distinction between the B.G.S. degree and the B.A. degree is found in College of Liberal Arts and Sciences requirements.

Theatre, Culture, and Society Emphasis

The following 40 hours are required: (40 hours)

1 Other THR courses (such as special topics) not listed among the electives above are normally eligible as substitutes with advisor’s permission. Up to 3 hours may be taken in a drama, cultural studies, or related course outside the department, with a faculty advisor’s approval.

Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 40 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

- THR 603 Theatre for Young Audiences
- THR 609 Play Directing

1. Other THR courses (such as special topics) not listed among the electives above are normally eligible as substitutes with advisor’s permission.

## Major Junior/Senior Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

## Major Junior/Senior Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

## Graduation Plan

With careful planning and commitment to a full-time course load, you can graduate in 4 years. Please consult the department for details.

## Departmental Honors

An undergraduate interested in honors in theatre must present a written declaration of intention to the department’s honors coordinator as early as possible in the junior or senior year. The following are required:

1. A grade-point average at the time of declaration and at graduation of at least 3.25 overall and 3.5 in theatre courses.
2. A maximum of 6 hours in THR 498 Honors Seminar. Enrollment in this course must be approved by the honors coordinator. Students in the honors seminar work under the direction of one instructor for each semester. The instructor conducts an examination at the end of each semester’s work and assigns a grade. Credit only is given to students who complete the work assigned for any semester but do not complete the requirements for honors. Students may change area of interest or instructor at the beginning of a semester with the consent of the honors coordinator.
3. Satisfactory performance in a final oral examination given approximately one month before graduation.

## Bachelor of Fine Arts in Theatre Design

Bachelor of Fine Arts (B.F.A.) in Theatre Design is intended as general preparation for the professional designer of scenery, costumes or lighting working in theatre and/or film or as preparation for graduate studies. Students learn through small-class studio courses, laboratories, and involvement in productions in the University Theatre. The degree is offered cooperatively by the Department of Theatre and Department of Visual Arts. Student in the B.F.A. Theatre Design take 69 hours in the Departments of Theatre, Visual Art, and Art History in addition to the KU Core and electives.

## B.F.A. in Theatre Design Degree Requirements

The program leading to the B.F.A. degree in theatre design is offered cooperatively by the School of the Arts and the Department of Theatre. It requires 6 hours of foundational coursework, 63 additional hours in the major, and completion of the KU Core, as well as additional general electives, for a total of 120 hours.

History of or architecture electives (3)

General Education Courses

Completion of the KU Core.

General Electives

- Additional credit hours of general electives are needed to meet the minimum total hours required for graduation.

Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours

Satisfied by 69 hours of major courses.

Major Hours in Residence

Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Junior/Senior Hours

Satisfied by a minimum of 27 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://www.collegesas.ku.edu/GPACalculator.shtml).

Minor in Theatre

The Department of Theatre welcomes non-majors who wish to learn more about acting, drama, design, theatre history, and technical theatre through the completion of a minor. Students minoring in theatre are welcome to audition for department productions and serve on backstage technical crews.

Requirements for the Minor

A minimum of 18 hours is required for the minor; 12 hours must be numbered 300 and above.

Theatre Minor Course Requirements

Minors must complete each of the following:

Theatre Core Knowledge and Skills (12)

Minors must complete courses in each of the following core areas:

- Theatre Practicum I. Satisfied by:
  - THR 101 Theatre Practicum I 1
  - Acting I. Satisfied by:
    - THR 106 Acting I 3
  - Theatre Production. Satisfied by completion of one of the courses:
    - THR 216 Scenic Production
    - THR 220 Costume Production
    - THR 224 Lighting Production

Select two of the following:

- History of Theatre I. Satisfied by:
  - THR 525 History of Theatre
- History of Theatre II. Satisfied by:
  - THR 526 History of Theatre II
- History of U.S. Theatre and Drama. Satisfied by:
  - THR 528 History of U.S. Theatre and Drama

Theatre Required Electives (6)

Satisfied by 2 courses (6 hours) from the following*:

- THR 302 Undergraduate Seminar in: _____
- THR 326 African Theatre and Drama
- THR 327 African-American Theatre and Drama
- THR 404 Children and Drama
- THR 405 Children and Media
- THR 527 Asian Theatre and Performance
- THR 528 History of U.S. Theatre and Drama
- THR 529 Race and the American Theatre
- THR 603 Theatre for Young Audiences
- THR 626 Myth and the Dramatist
- THR 725 Russian Theatre and Drama from Stanislavski and Chekhov to the Present

Minor Hours

Satisfied by 18 hours of minor courses.

Minor Hours in Residence

Satisfied by a minimum of 9 hours of KU resident credit in the minor.
Minor Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Junior/Senior Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all departmental courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://www.collegesas.ku.edu/GPACalculator.shtml).

Master of Arts in Theatre
The Master of Arts in Theatre Studies helps students to begin developing a broad, comparative grasp of the major methods, approaches and protocols currently used in both the study and practice of theatre and related art forms. Special emphasis is placed on (1) an analytic understanding of specific episodes in the history of theatre and similar genres of enactment, (2) the ability to grasp the assumptions and practical protocols that are or have been influential in the creation of theatrical art, and (3) the capacity to examine and appreciate the way theatre influences and is influenced by the context in which it occurs.

By virtue of its broad regard for the way context and live performance interact, the M. A. helps to prepare students for leadership roles in community and regional arts organizations, especially when course work is complemented by a thesis about the arts in community. Several states regard an M. A. in theatre to be a creditable enhancement of a teacher’s qualifications in grades K-12. In addition, the focus on those assumptions and history that shape theatre studies and production provide students with a strong transition to a Ph.D. program.

Graduate Admission
To be admitted, a student ordinarily is expected to have a Graduate Record Examination score of at least 148 (verbal), 144 (quantitative), and 4.5 (analytical writing). Students who took the GRE before the implementation of the analytical writing section (i.e., before October 2002) will be expected to have an analytical score of 600 or above.

How to Apply
To apply for Fall admission, please submit all application materials no later than: January 1 (to be considered for admission with financial support) or February 15 (for admission consideration without financial support). The Department does not admit new students for the Spring or Summer terms.

Please visit the Department of Theatre (http://www.theatre.ku.edu) for more information about graduate application materials required.

M.A. Degree Requirements
The Master of Arts in theatre is an academic degree, but students are expected to complete 6 hours in theatrical production. All M.A. students must write a thesis as the culmination of the degree.

To complete the M.A., the student must sustain a grade-point average of 3.0 or higher through 33 graduate credit hours.

Requirements for the M.A. in Theatre
A total of 33 hours is required.

Core Requirement (15)

<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>THR 899</td>
<td>Master’s Thesis</td>
<td>3</td>
</tr>
</tbody>
</table>

All courses should be selected in consultation with the advisor.

Master of Fine Arts in Theatre Design-Scenography Concentration
The M.F.A. in Scenography is a three-year integrated program of study leading to a Master of Fine Arts degree, the terminal degree for professionals working in design for theatre, film, and television. Scenography classes are at the core of the curriculum and students will develop a portfolio in a wide variety of theatrical and performance genres. Students will design in both the large Crafton-Preyer proscenium stage and the William Inge Memorial theatre (black box). Opportunities exist to work with new technologies in theatre design, including Virtual Realities.

To be admitted, a prospective M.F.A. candidate must have a cumulative undergraduate GPA of at least 3.0 on a 4.0 scale and submit a design portfolio with work record and three letters of recommendation.
M.F.A. in Theatre Design with a Concentration in Scenography Degree Requirements

Scenography classes are at the core of the curriculum. While in the program, students will design at least 4 realized productions in the University Theatre program. They will do at least 1 lighting, 1 costume and 1 scenic design, and preferably a combination of 2 or all design areas for 1 production. Design assignments, made by the scenography faculty, will be based on the students' experience and interests (i.e., a student with little experience in lighting design will be given a less challenging project in the smaller theatre).

Students work with the KU Theatre's professional staff in the realization of their designs. Successful scenography students at the University of Kansas have come from a variety of backgrounds, including theatre, art and design, illustration and architecture. Students with deficiencies in theatre production, theatre and/or art history, and painting and drawing may be required to take undergraduate courses in these areas, which could result in a longer program.

To complete the M.F.A., the student must sustain a grade-point average of 3.0 or higher through 60 graduate credit hours. The following guidelines govern the distribution of hours:

Electives: no limit, but a minimum of 15 hours for a total of 60 hours 15

Doctor of Philosophy in Theatre

The purpose of the Ph.D. in Theatre is to develop leaders in the areas of both studies and practice. The curriculum requires an intense exposure to critical theory, history and historiography, and the craft and art of performance, especially directing. The majority of graduates become teachers in higher education, artists or both. Recent and former students from the M.A. and Ph.D. programs work or have worked across a wide array of academic and artistic settings, including Southern Methodist University, The Ohio State University System, Chapman College, Washburn University, CBS, Disney Productions, University of Costa Rica, University of Minnesota (Morehead), Southern Illinois University, University of Georgia, Texas Christian University, University of Minnesota (Duluth), University of Arizona, and Converse College.

How to Apply

To apply for Fall admission into the Ph.D. program, please submit all application materials no later than: January 1 (to be considered for admission with financial support) or February 15 (for admission consideration without financial support). The Department does not admit new students for the Spring or Summer terms.

Applicants for the Ph.D. program in Theatre must hold the M.A. or M.F.A. in theatre or a related field. To be admitted, a student will ordinarily be expected to have a Graduate Record Examination score of at least 148 (verbal), 144 (quantitative), and 4.5 (analytical writing). Students who took the GRE before the implementation of the analytical writing section (i.e. before October 2002) will be expected to have an analytical score of 600 or above. Applicants should also have a grade-point average of at least 3.2 for undergraduate and at least 3.5 for graduate work; and a master’s degree acceptable to the graduate faculty. Deficiencies in a student’s background may necessitate remedial courses. These courses do not count toward the degree requirements.

Visit the Department of Theatre (http://theatre.ku.edu) for more information about application materials required.

Ph.D. Degree Requirements

The Ph.D. is an academic degree, but students must demonstrate competence in at least 1 production area. Normally the Ph.D. requires 60 hours not including Research Skills and Responsible Scholarship requirements. All courses must be chosen in consultation with an advisor.

Core Requirements

12 hours of core courses are required. In consultation with an advisor, students choose from departmental courses in theatre history, dramatic literature, theory, and criticism.

Elective Requirements

9 hours of electives are required. Elective courses focus on the academic study of theatre/performance history, theory, and related methodologies. Courses are selected with a graduate advisor to reflect the student’s special interest. Some courses may be taken outside theatre, for example in film and media studies, English, American studies, African and African-American studies, and history.

Secondary Field Requirements

Students choose 9 hours at the graduate level from outside the department to assist them in writing the dissertation. Courses are related to the student’s proposed specialization. (See examples under Elective Requirements.)

Production Courses

6 hours of production courses are required. To become competent artists as well as developing research scholars, students choose a sequence of graduate courses in either scenography or directing.
Research Skills and Responsible Scholarship

Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed under Degree Requirements in Graduate Studies section of the online catalog.

Comprehensive Examination

The comprehensive examination (6 credit hours) is an essential element of the doctoral program, providing an opportunity for students to focus and consolidate the diverse strands of their graduate course work, to demonstrate competence for teaching in particular subject areas, and to establish a strong foundation for moving on to the dissertation. It consists of 3 parts:

1. A written examination, which covers 4 or 5 areas of expertise. Ordinarily, each area corresponds to a member of the student’s committee.
2. Submission of 2 publishable papers of article length (5,000 to 8,000 words) that demonstrate the student’s ability to research and write original scholarship at a level appropriate to the field. Publishable papers may be revised versions of papers submitted in KU courses. Publishable papers must be submitted on the first day of the written examination.
3. An oral examination, given 2 to 4 weeks after the written examination. The oral examination lasts about 90 minutes and may revisit material covered in the written examination, the publishable papers, and/or other material as deemed appropriate by the committee. While preparing for the examination, students may enroll twice in THR 998 Investigation and Conference (for Doctoral Students).

Dissertation

Doctoral candidates are required, after passing the comprehensive oral examination, to be continuously enrolled in one or more hours of dissertation or programmatically equivalent coursework that both moves the student towards degree completion and reflects, as accurately as possible, the candidate’s demands on faculty time and university facilities. During this time, until all requirements for the degree are completed (including the filing of the dissertation) or until 18 post-comprehensive hours have been completed (whichever comes first), the candidate must enroll for a minimum of 6 hours a semester and 3 hours a summer session.

Department of Visual Art

Introduction

The University of Kansas is a member of the National Association of Schools of Art and Design (http://nasad.arts-accredit.org). The entrance and graduation requirements in this catalog conform to the published guidelines of those organizations.

Undergraduate Programs

Advanced Placement in Art and Design

Students who score 3, 4, or 5 on the CEEB Advanced Placement Examination may receive up to 3 credit hours in art studio electives.

Advanced placement credit does not exempt students from foundations requirements.

Advising

Students admitted to work toward B.F.A., B.A., or B.A.E. degrees are advised by the advising specialist until foundations courses are complete, usually two semesters. After a student has completed 12 hours of foundations courses, he or she is advised by faculty members in their chosen concentration. Check sheets describing each program in complete detail are available from the Art and Design office, 300 Art and Design Building, or online (http://art.ku.edu). History of Art, information is available from the Kress Foundation Department of Art History (http://www2.ku.edu/~kuarth). Students are encouraged to seek advice from any faculty member in a specific area of interest.

Students are expected to spend time outside of class working in the studio. For each credit hour in class another three hours of work will be expected outside of class time. It is normally expected that for 3 credit hours of studio a student will spend 9-15 hours per week working and studying for the entire 15 weeks during the semester.

Graduate Programs

The Department of Visual Art offers graduate programs leading to the Master of Fine Arts degree in visual art. Concentrations include ceramics, drawing and painting, expanded media, fibers, metalsmithing and jewelry, printmaking, and sculpture. A Master of Arts degree in visual art education and graduate licensure in art education are also available through the Department of Visual Art.

Courses

ADSC 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Advanced Design Studies College. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

ADSC 560. Topics in Design: ______. 1-3 Hours.
A study of different topics in different semesters in a special area of interest to a staff member and suitable qualified students. May be repeated for credit. Prerequisite: Junior standing in department. LAB.

ADSC 580. Special Problems in Design. 1-6 Hours.
A study of current problems in design or crafts with an emphasis on research. Special problems proposals must be discussed with and approved by the instructor and advisor prior to enrollment in the course. A student may not take more than six credit hours of special problems in any one semester. Prerequisite: Junior standing in department. IND.

ADSC 810. Orientation Seminar. 1 Hour.
Studies directed to development of a thesis plan. Required of all graduate students. Offered in fall semester only. Graded S or F. LEC.

ART 101. Drawing I. 3 Hours. GE3H.
Basic problems in drawing. LAB.

ART 102. Drawing II. 3 Hours.
Continuation of ART 101. Prerequisite: ART 101. LAB.

ART 103. Art Concepts and Practice. 3 Hours. U.
A companion course to ART 104. Lecture and studio experiences across disciplines emphasizing conceptual fundamentals, technical/skill
development, visual sensibility, critical thinking and professional topics in art. LEC.

**ART 104. Art Principles and Practice. 3 Hours. U.**
A companion course to ART 103. Lecture and studio experiences across disciplines emphasizing conceptual/fundamental technical/skill development, visual sensibility, critical thinking and professional topics in art. LEC.

**ART 120. Fundamentals of Drawing and Painting. 3 Hours.**
Open to all university students. Specifically for students with limited or no previous experience. An exploration of basic technical and expressive possibilities in drawing and painting; may include field trips, films, visiting lecturers. Six hours scheduled studio activity and three hours outside work weekly. LAB.

**ART 121. Fundamentals of Printmaking. 3 Hours.**
Open to all university students. Specifically for students with limited or no previous experience. An exploration of basic technical and expressive possibilities in printmaking, including woodcut, etching, lithography and silk screen; may include field trips, films, visiting lecturers. Six hours scheduled studio activity and three hours outside work weekly. LAB.

**ART 122. Fundamentals of Sculpture. 3 Hours.**
Open to all university students. Specifically for students with limited or no previous experience. An exploration of basic technical and expressive possibilities in three-dimensional form and space, including sculpture, modeling, carving, and construction; may include field trips, films, visiting lecturers. Six hours scheduled studio activity and three hours outside work weekly. LAB.

**ART 123. Fundamentals of Expanded Media. 3 Hours. GE3H / U.**
Open to all university students. Specifically for students with limited or no previous experience. An exploration of basic technical and expressive possibilities in Expanded Media, including Installation, Performance, Video and other Digital technologies; may include field trips, films, and/or visiting lecturers. Six hours scheduled studio activity and three hours outside work weekly. LAB.

**ART 130. Fundamentals of Fiber Forms. 3 Hours. U.**
Open to all university students. Studio exploration of fibers as an art form and means of personal expression. Emphasis is placed on three-dimensional objects. A variety of interlacement, construction, and dye techniques are introduced. LAB.

**ART 131. Fundamentals of Ceramics. 3 Hours.**
Open to all university students. Specifically for students with limited or no previous experience. An introduction to ceramics including throwing, handbuilding, glazing, firing, and related activities. LAB.

**ART 132. Fundamentals of Metalsmithing/Jewelry. 3 Hours. GE3H.**
Open to all university students. Specifically for students with limited or no previous experience. A comprehensive study of the field of jewelry and metalsmithing with an emphasis on the tools, processes, and techniques used in the design and fabrication of objects from metals such as aluminum, brass, copper, bronze, sterling and related materials. Studio experience will include lectures, slide presentations, demonstrations, visiting artist, and student projects. LAB.

**ART 133. Fundamentals of Fibers. 3 Hours. GE3H / U.**
Open to all university students. Studio exploration of fibers as an art form and means of personal expression. A variety of dyeing, construction, and surface embellishment techniques will be introduced. LAB.

**ART 177. First Year Seminar: ______. 3 Hours. GE11 / U.**
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Art. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**ART 201. Color Theory. 3 Hours.**
An introduction to the basic color theories and their application. Presentation of the relationship between pigment and light, and of additive and subtractive color mixing. Prerequisite: ART 101, and ART 103 or ART 104. LAB.

**ART 300. Special Topics in Visual Art: ______. 1-4 Hours.**
Course to be offered in related areas of research, mixed media or interdisciplinary exploration. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LAB.

**ART 305. Visual Language. 3 Hours. H.**
This course explores visual language and its relationship to cultural meaning. We examine the ways that cultural experience both influences and is influenced by artistic expression. An investigation of artistic practice and its basic elements and principles is used to demonstrate the connections between visual perception and the interpretation of visual experience. Examples from the arts and popular culture are used to illustrate the ways that we create meaning from the things we see. This course is open to all university students. Prerequisite: ENGL 101 and ENGL 102 or equivalent, or completion of the KU Core Written Communication requirements (Goal 2.1). LEC.

**ART 310. Build Smart. 3 Hours. U.**
Introduction to the experience and culture of building projects by hand. Students analyze and determine the best ways to build. Students also become familiar with tools, machines, building practices and material necessary for wood and steel fabrication. Prerequisite: ART 103, ART 104, or permission of the instructor. LEC.

**ART 375. Directed Readings in Visual Art. 1-3 Hours. U.**
Directed reading in specific areas of visual art. May be repeated for credit in subsequent semesters. Prerequisite: ART 102, ART 103 and ART 104; and six hours of Visual Art courses, or permission of instructor. IND.

**ART 395. Study Abroad Topics in: ______. 1-6 Hours. H.**
This course is designed for the study of special topics in Visual Art. Credit for course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. Open to all students. LEC.

**ART 500. Advanced Special Topics in Visual Art: ______. 1-4 Hours.**
Course to be offered in related areas of research, mixed media or interdisciplinary exploration. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Visual Art courses, or permission of instructor. LEC.

**ART 540. Professional Activities Seminar. 3 Hours.**
Comprehensive development of skills and strategies needed to pursue a career as a professional studio artist. Prerequisite: Twenty-four hours of departmental electives or permission of instructor. LEC.

**ART 575. Advanced Directed Reading in Visual Art. 1-3 Hours.**
Directed reading in specific areas of visual art. May be repeated for credit in subsequent semesters. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Visual Art courses, or permission of instructor. IND.

**ART 590. Internship in Visual Art. 1-3 Hours. U.**
Practical experience in the use of artistic skills in approved and supervised academic or professional settings. May be repeated for credit; no more than six hours may be applied to the B.A. or B.F.A. degree. Credit hours are graded on a satisfactory/unsatisfactory basis, according to the written recommendation provided by the internship supervisor to Liberal Arts & Sciences
the faculty advisor. Prerequisite: ART 102, ART 103, and ART 104; and fifteen hours of Visual Art courses; and prerequisite of instructor. FLD.

ART 595. Advanced Study Abroad Topics in: __________. 1-6 Hours. H. This course is designed for the study of special topics in Visual Art at the senior/graduate level. Credit for course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. Open to seniors and graduate level students. LEC.

ART 598. Special Topics: Studio Theory and Criticism. 3 Hours. Lecture, discussion, and supervised research in current topics related to contemporary studio theory and criticism. May be repeated for credit as topics vary. This course will be counted as free electives in course distribution. Prerequisite: Eighteen hours of departmental electives. LEC.

ART 599. Individual Studies in Visual Art. 1-6 Hours. AE61. Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Visual Art courses; and permission of instructor. Does not fulfill ART 695/ART 696 requirement. IND.

ART 695. Directed Study I. 3 Hours. Individual studio activity under direction of faculty advisor; capstone experience. Prerequisite: Thirty hours of departmental electives, consent of department, and permission of instructor. IND.

ART 696. Directed Study II. 4 Hours. AE61. Continuation of ART 695; capstone experience. May be repeated for credit in subsequent semesters. Prerequisite: ART 695 and permission of instructor. IND.

ART 801. Directed Study III. 2-5 Hours. Individual studio activity under the direction of faculty member. May be repeated for credit in subsequent semesters. Prerequisite: Permission of graduate director and enrollment in the Visual Art MFA program. RSH.

ART 802. Directed Study IV. 2-5 Hours. Continuation of Directed Study III. Prerequisite: Enrollment in the Visual Art MFA Program. RSH.

ART 803. Directed Study V. 2-5 Hours. Continuation of Directed Study IV. Prerequisite: Enrollment in the Visual Art MFA Program. RSH.

ART 805. Graduate Studio. 1-3 Hours. Individual graduate studio research in visual art. Course content to be determined by the student under the supervision of a graduate faculty member. May be repeated for credit. Prerequisite: Graduate standing in The School of The Arts and permission of the instructor. RSH.

ART 861. Directed Reading in Visual Art. 1-3 Hours. Research reading and presentation of reports on specific subjects related to the student's major area of specialization. Prerequisite: Enrollment in the MFA Program in the Department of Visual Art. RSH.

ART 877. Graduate Seminar. 3 Hours. The graduate seminar emphasizes professional preparation for contemporary artists focusing on writing skills, oral presentations, critiques of individual creative research/artwork, critical thinking about and visual analysis of current art forms and contemporary approaches to the teaching of studio art. Prerequisite: Admission to the Graduate Program in Visual Art. SEM.

ART 896. Special Topics: Studio Theory and Criticism. 3 Hours. Lecture, discussion, and supervised research in current topics related to contemporary studio theory and criticism. May be repeated for credit as topics vary. This course will be counted as a graduate level academic elective in course and credit distribution. LEC.

ART 899. Graduate Seminar. 1 Hour. Weekly discussion of issues and/or work in art. (Graded on a satisfactory/ or F basis.) Repeat for credit in subsequent semesters. SEM.

ART 906. Graduate Studio. 1-3 Hours. Individual graduate studio research in visual art. Course content to be determined by the student under the supervision of a graduate faculty member. May be repeated for credit. Prerequisite: ART 805 and permission of the instructor. RSH.

ART 950. Thesis in Visual Art. 1-6 Hours. Original research in visual art culminating in a thesis exhibition. May be repeated for credit. Prerequisite: Thirty-six credit hours of graduate credit and permission of the graduate review committee. THE.

CER 177. First Year Seminar: __________. 3 Hours. GE11 / U. A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Ceramics. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

CER 208. Ceramics I. 3 Hours. The development of form and surface through the use of handbuilding and wheel thrown techniques. Stoneware and Raku are explored. Prerequisite: ART 102 and ART 104. LAB.

CER 300. Special Topics in Ceramics: __________. 1-4 Hours. U. Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LEC.

CER 301. Ceramics II. 3 Hours. A continuation of ART 131 and/or CER 208 with emphasis in firing low temperature ceramics. An introduction to glaze formulation and firing procedures through the use of earthenware and low temperature talc bodies. Prerequisite: ART 131 or CER 208. LAB.

CER 402. Ceramics III. 3 Hours. A study of high fire ceramics using stoneware and porcelain. The development of ceramic forms and shapes utilizing traditional and nontraditional techniques such as salt glaze, wood firing, oxidation, and reductions. Prerequisite: ART 131 or CER 208. LAB.

CER 500. Advanced Special Topics Ceramics: __________. 1-4 Hours. U. Course to be offered in an area of specific interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Ceramics courses, or permission of instructor. LEC.

CER 504. Kilns. 3 Hours. The principles in kiln design, including up-draft, down-draft, cross-draft, and electric kilns, and burner technology. Prerequisite: CER 301. LEC.

CER 505. Clay and Glaze Formulation. 3 Hours. Formulation of the various clay bodies and glazes associated with ceramics. Prerequisite: CER 301. LEC.

CER 506. Production. 6 Hours. Procedures, techniques, problems, and solutions for setting up and operating a production pottery studio, including the development of ceramic forms and glazes related to marketability and design and mold
production for industry. May be repeated for credit. Prerequisite: CER 301 and CER 302. LAB.

CER 515. Advanced Ceramics I. 3-6 Hours. AE61.
Development of individual direction in ceramics based on experience, research, and skills acquired in previous courses; capstone experience. May be repeated for credit. Prerequisite: CER 301 and CER 402. LAB.

CER 520. Advanced Ceramics II. 3-6 Hours. AE61 / U.
Continuation of CER 515; capstone experience. May be repeated for credit. Prerequisite: CER 515. LAB.

CER 590. Internship in Ceramics. 1-3 Hours. U.
Practical experience in the use of artistic skills in approved and supervised academic or professional settings. May be repeated for credit; no more than six hours may be applied to the B.A. or B.F.A. degree. Credit hours are graded on a satisfactory/unsatisfactory basis, according to the written recommendation provided by the internship supervisor to the faculty advisor. Prerequisite: ART 102, ART 103, and ART 104; and fifteen hours of Visual Art courses; and permission of instructor. FLD.

CER 599. Individual Studies in Ceramics. 1-6 Hours. AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor’s degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Ceramics courses or permission of instructor. IND.

CER 715. Ceramics. 2-6 Hours.
Individual research. Prerequisite: CER 515 or equivalent. RSH.

CER 725. Glass. 2-6 Hours.
Individual research. Prerequisite: Approval of instructor. RSH.

CER 815. Ceramics. 2-6 Hours.
Continuation of CER 805. RSH.

CER 825. Glass. 2-6 Hours.
Individual research. Prerequisite: Approval of instructor. RSH.

DRWG 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Drawing. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

DRWG 203. Drawing III. 3 Hours.
Advanced problems in drawing. Prerequisite: ART 102. LAB.

DRWG 213. Life Drawing I. 3 Hours.
Figure drawing. Prerequisite: ART 102 and ART 103 or ART 104. LAB.

DRWG 300. Special Topics in Drawing: ____. 1-4 Hours. U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LEC.

DRWG 304. Drawing IV. 3 Hours.
Continuation of DRWG 203. Prerequisite: DRWG 203. LAB.

DRWG 314. Life Drawing II. 3 Hours.
Continuation of DRWG 213. Prerequisite: DRWG 213. LAB.

DRWG 318. Life Drawing II, Honors. 3 Hours.
Figure drawing, a continuation of DRWG 213. Prerequisite: DRWG 213; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

DRWG 335. Special Topics in Drawing: ____. 3 Hours.
Course to be offered in area of special interest to individual faculty, and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: DRWG 203, or DRWG 213, or permission of instructor. LAB.

DRWG 500. Advanced Special Topics in Drawing: ____. 1-4 Hours. U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Drawing courses, or permission of instructor. LEC.

DRWG 505. Drawing V. 3 Hours.
Continuation of DRWG 304. Prerequisite: DRWG 304. LAB.

DRWG 506. Drawing VI. 3 Hours.
Continuation of DRWG 505. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 505. LAB.

DRWG 515. Life Drawing III. 3 Hours.
Continuation of DRWG 314. Prerequisite: DRWG 314. LAB.

DRWG 516. Life Drawing IV. 3 Hours.
Continuation of DRWG 515. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 515. LAB.

DRWG 518. Life Drawing III, Honors. 3 Hours.
Figure drawing, a continuation of DRWG 314 or DRWG 318. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 314 or DRWG 318; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

DRWG 519. Life Drawing IV, Honors. 3 Hours.
Figure drawing, a continuation of DRWG 515 or DRWG 518. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 515 or DRWG 518; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

DRWG 535. Special Topics in Drawing: ____. 3 Hours.
Course to be offered in area of special interest to individual faculty, and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: 12 hours of drawing and permission of instructor. LAB.

DRWG 599. Individual Studies in Drawing. 1-6 Hours. AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor’s degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Drawing courses, or permission of instructor. IND.

DRWG 807. Drawing VII. 3 Hours.
Individual research in drawing. Prerequisite: DRWG 506. RSH.

DRWG 817. Life Drawing V. 3 Hours.
Individual research in figure drawing. Prerequisite: DRWG 516. RSH.

DRWG 908. Drawing VIII. 3 Hours.
Continuation of DRWG 807. Prerequisite: DRWG 807. RSH.

DRWG 918. Life Drawing VI. 3 Hours.
Continuation of DRWG 817. Prerequisite: DRWG 817. RSH.

EXM 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Expanded Media. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.
thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

EXM 274. Expanded Media. 3 Hours. U.
Beginning course to introduce the fundamental concepts, strategies, and technologies that comprise the Expanded Media area of the Department of Visual Art: Installation, Performance, and Digital Image. Emphasis is placed on forming ideas and strategies, and creating artwork that considers the core connections within Expanded Media: time, space, the body, the viewer, and society at large. Computer-based technologies and time-based media that are inherent to Expanded Media practice support studio assignments. Coursework includes the investigation and discussion of historic precedents and the development of an appropriate critical dialogue with which to discuss their work. Prerequisite: ART 102, ART 103, and ART 104. LAB.

EXM 300. Special Topics in Expanded Media: ______. 1-4 Hours. U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LEC.

EXM 301. The Digital Image I. 3 Hours.
Introduction to various still digital processes and skills that encourage the use of digital imagery within a variety of other media. Focus on content issues as they relate to development of artwork incorporating digital imagery. LAB.

EXM 302. Performance Art I. 3 Hours. U.
An introduction to the understanding and production of performance art. Students gain proficiency in conceptualization and production of performance time-based art in an Interdisciplinary art-making environment. Prerequisite: ART 102, ART 103, and ART 104. LAB.

EXM 303. Intermedia I. 3 Hours.
An introduction to the use/handling and integration of diverse, new and traditional materials, techniques and processes. Problems will involve strategies for discovering and managing combinations of drawn, painted, digital and constructed forms. Studio sessions will include research, lecture, demos, and guest speakers. Prerequisite: Permission of instructor. LAB.

EXM 307. Installation Art I. 3 Hours. U.
An introduction to the understanding and production of installed art environments using a variety of media and approaches to art-making. Students gain proficiency in conceptualization and production of installation art in an interdisciplinary art-making environment. Prerequisite: ART 102, ART 103, and ART 104. LAB.

EXM 314. Alternative Approaches in Photography I. 3 Hours. U.
An introduction to the understanding and production of art-making using alternative approaches in photography. Students gain proficiency in conceptualization and production of artwork using alternative approaches in photography in an interdisciplinary art-making environment. Prerequisite: ART 102, ART 103, and ART 104. LAB.

EXM 326. Video and Time-Based Media I. 3 Hours. U.
An introduction to the understanding and production of video and time-based art. Students gain proficiency in conceptualization and production of video and time-based art in an interdisciplinary art-making environment. Prerequisite: EXM 274. LAB.

EXM 500. Advanced Special Topics in Expanded Media: ______. 1-4 Hours. U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LEC.

EXM 501. The Digital Image II. 3 Hours.
Continuation of EXM 301, The Digital Image I. May be repeated for credit. LAB.

EXM 503. Intermedia II. 3 Hours.
Continuation of EXM 303, Intermedia I. May be repeated for credit. Prerequisite: Permission of instructor. LAB.

EXM 514. Alternative Approaches in Photography II. 3 Hours. U.
Continuation of EXM 314. Prerequisite: EXM 314. LAB.

EXM 526. Video and Time-Based Media II. 3 Hours. U.
Continuation of EXM 326. Prerequisite: EXM 326. LAB.

EXM 535. Intermediate Expanded Media. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Two (200- and/or 300-level) Expanded Media courses. LAB.

EXM 536. Intermediate Expanded Media, Honors. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Two (200- and/or 300-level) Expanded Media courses; membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.

EXM 537. Advanced Expanded Media. 3 Hours.
Continuation of EXM 535. May be repeated for credit. Prerequisite: EXM 535 or EXM 536. LAB.

EXM 538. Advanced Expanded Media, Honors. 3 Hours.
Continuation of EXM 536. May be repeated for credit. Prerequisite: EXM 535 or EXM 536; membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.

EXM 541. Graduate Performance Art. 3 Hours.
Students will gain proficiency in conceptualization and production of performance time-based art in an interdisciplinary art-making environment. Prerequisite: Permission of instructor. LAB.

EXM 542. Graduate Installation Art. 3 Hours.
Advanced problems toward the creation of environments using a variety of media including traditional and non-traditional approaches to art-making. Prerequisite: Permission of instructor. LAB.

EXM 543. Graduate: The Digital Image. 3 Hours.
Advanced work focusing on content issues as they relate to development of artwork incorporating digital imagery. Prerequisite: Permission of instructor. LAB.

EXM 544. Graduate Intermedia. 3 Hours.
Advanced work in the use/handling and integration of diverse, new and traditional materials, techniques and processes. Advanced problems will involve strategies for discovering and managing combinations of drawn, painted, digital, and constructed forms. Studio sessions will include research, lecture, demos, and guest speakers. Prerequisite: Permission of instructor. LAB.

EXM 546. Graduate Expanded Media V. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Permission of instructor. LAB.

EXM 573. Performance Art II. 3 Hours. U.
Continuation of EXM 302. Prerequisite: EXM 302. LAB.
EXM 574. Performance Art II, Honors. 3 Hours. U.
Continuation of EXM 302. Prerequisite: EXM 302; and membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.

EXM 577. Installation Art II. 3 Hours. U.
Continuation of EXM 303. Prerequisite: EXM 303. LAB.

EXM 578. Installation Art II, Honors. 3 Hours. U.
Continuation of EXM 303. Prerequisite: EXM 303; and membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.

EXM 599. Individual Studies in Expanded Media. 1-6 Hours. AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Expanded Media courses, of permission of instructor. IND.

EXM 846. Graduate Expanded Media VI. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Permission of instructor. LAB.

EXM 946. Graduate Expanded Media VII. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Permission of instructor. LAB.

METL 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Metalsmithing/Jewelry. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

METL 211. Jewelry. 3 Hours. GE3S.
Introduction to metalsmithing and jewelry design, materials and processes. Student projects explore the joining, forming, and surface embellishment of metals such as copper, brass, bronze, and sterling. Prerequisites: ART 102 and ART 104. LAB.

METL 300. Special Topics in Metalsmithing: ______. 1-4 Hours. U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LEC.

METL 301. Introduction to Casting for Jewelry. 3 Hours.
Introduction to casting and mold making processes used for jewelry and small sculpture. Students explore various methods and materials for creating molds for casting in bronze or silver including wax carving, wax modeling, and the use of natural and synthetic materials as models. Models are cast using centrifugal and vacuum casting processes. Basic mold making in clay and silicone are also explored. Prerequisite: ART 132 or METL 211. LAB.

METL 302. Professional Practices. 3 Hours.
The development of a portfolio including designing, rendering, and model making for future projects. Photographing completed objects and discussing professional aspects of the jewelry/metal smithing field. Prerequisite: Six hours of metalsmithing. LAB.

METL 360. Holloware. 3 Hours.
Problems related to specific smithing techniques such as raising, stretching, shell structures and seam fabrications. Metal manipulation on a large scale. Prerequisite: METL 301. LAB.

METL 362. Metalsmithing. 6 Hours.
Advanced metalworking with an emphasis on the refinement of design and techniques. Processes may include linkage, marriage of metals, metal inlays, hinge and catch fabrication. Prerequisite: METL 301. LAB.

METL 364. Enameling. 6 Hours.
Problems of basic and advanced enameling as applied to jewelry design and metalsmithing objects. Exploration of major enameling techniques: such as limoges, cloissoné, champleve, and bassetaille. Prerequisite: Six hours of metalsmithing or consent of instructor. LAB.

METL 500. Advanced Special Topics in Metalsmithing: ______. 1-4 Hours. U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LEC.

METL 501. Seminar. 3 Hours.
Lectures and demonstrations on techniques of contemporary interest outside of typical classroom activity. Prerequisite: Six hours of metalsmithing. LEC.

METL 503. Gemology. 3 Hours. H.
Students study the optical and physical characteristics of gemstones in order to identify them using gemological instruments. This laboratory and discussion class explores related topics including the principles of optics that support this methodology, history and geographical distribution of gemstones, gemstone cutting and pearl farming, the history of DeBeers and the development of the world demand for diamond, quality analysis of diamond, colored gemstones and pearls, including the history of diamond grading, the development and identification of synthetics, imitations and laboratory enhancements as well as the use of gemstones in designing jewelry. Prerequisite: ART 132. LAB.

METL 504. A History of Jewelry. 3 Hours. H.
This course explores the history from Sumeria to the 21st century of the use of metals and gemstones in the creation of decorative art for personal adornment. Students explore the evolution of the role of jewelry in ancient culture and modern society and survey individuals whose ideas and work influenced generations of goldsmiths and jewelers around the globe. The class studies primitive tools and modern manufacturing techniques, the history of gemstone cutting and setting and the origin and development of gemstones as symbols. Prerequisite: ART 132. LEC.

METL 505. Digital Jewelry Design I. 3 Hours. H.
Matrix is a 3-D CAD program based on Rhino developed by Rhino, specifically for jewelry design. The goal of this course is to instruct beginners in the Matrix design program. Students learn to transform their 2-D designs from their sketchbooks into 3-D models in Matrix, which can be milled in wax, and cast in metal. Students also learn how to render their 3-D Matrix models to appear as if they were a finished object. The class time is structured as a combination of instructor-led tutorials and working labs. Prerequisite: ART 132. LAB.

METL 506. Digital Jewelry Design II. 3 Hours. H.
The second semester of Matrix increases the operating and design skills building on the knowledge of DG I. The focus of the class is producing wax models on the Revo Digital Mill. Digi II covers the advanced modeling skills including T-spline and Rhino. Students also learn how to make a customized tool path for Revo C mill program and how to solve milling problems. Students also learn how to convert Rhino files to produce a 3D print for outsourcing to other 3D modeling programs. Prerequisite: ART 132, METL 301, METL 505. LAB.
METL 515. Advanced Metals I. 6 Hours. AE61.
Emphasis on individual design aesthetic through intensive designing, rendering, and modelmaking as preparation for fabricated pieces of jewelry, holloware, and/or small objects; capstone experience. Prerequisite: METL 562. LAB.

METL 520. Advanced Metals II. 6 Hours. AE61 / U.
Continuation of METL 515; capstone experience. This course requires a final presentation of a complete portfolio including resume, renderings and photographs of the finished work. Prerequisite: METL 515. LAB.

METL 590. Internship in Metalsmithing/Jewelry. 1-3 Hours. U.
Practical experience in the use of artistic skills in approved and supervised academic or professional settings. May be repeated for credit; no more than six hours may be applied to the B.A. or B.F.A. degree. Credit hours are graded on a satisfactory/unsatisfactory basis, according to the written recommendation provided by the internship supervisor to the faculty advisor. Prerequisite: ART 102, and ART 103, and ART 104; and fifteen hours of Visual Art Courses; and permission of instructor. FLD.

METL 715. Metals/Jewelry. 2-6 Hours.
Individual research. Prerequisite: METL 515 or equivalent. RSH.

METL 815. Metals/Jewelry. 2-6 Hours.
Continuation of METL 715. RSH.

PNTG 177. First Year Seminar: _____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Painting. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

PNTG 263. Painting I. 3 Hours.
Basic problems in painting. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PNTG 300. Special Topics in Painting: _____. 1-4 Hours.
Course to be offered in an area of studio activity of specific interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Painting courses, or permission of instructor. LAB.

PNTG 337. Watercolor. 3 Hours.
Sessions deal with the preparation of watercolor paints and equipment, but the main emphasis is placed on relational concepts affecting tone, structure, and unity in work. While the students are expected to explore some of the traditional approaches to watercolor, they also are encouraged to work with new and innovative ones. May be repeated for credit. Prerequisite: PNTG 263 or permission of instructor. LAB.

PNTG 338. Landscape Painting. 3 Hours.
An introduction to landscape painting. Considerable work is done out-of-doors. Emphasis is placed upon experiencing the environment and the development of individual approach. May be repeated for credit. Prerequisite: PNTG 263 and permission of instructor. LAB.

PNTG 364. Painting II. 3 Hours.
Continuation of PNTG 263. Prerequisite: PNTG 263. LAB.

PNTG 368. Painting II, Honors. 3 Hours.
Continuation of PNTG 263. Prerequisite: PNTG 263; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 500. Advanced Special Topics in Painting: _____. 1-4 Hours.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Painting courses, or permission of instructor. LAB.

PNTG 565. Painting III. 3 Hours.
Continuation of PNTG 364. Prerequisite: PNTG 364. LAB.

PNTG 566. Painting IV. 3 Hours.
Continuation of PNTG 565. May be repeated for credit. Prerequisite: PNTG 565. LAB.

PNTG 567. Painting III, Honors. 3 Hours.
Continuation of PNTG 364 or PNTG 368. Prerequisite: PNTG 364 or PNTG 368; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 569. Painting IV, Honors. 3 Hours.
Continuation of PNTG 565 or PNTG 568. Prerequisite: PNTG 565 or PNTG 568; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 585. The Figure I. 3 Hours.
The figure and its environment in various media. Prerequisite: DRWG 314 and PNTG 364. LAB.

PNTG 586. The Figure II. 3 Hours.
Continuation of PNTG 585. May be repeated for credit. Prerequisite: PNTG 585. LAB.

PNTG 588. The Figure I, Honors. 3 Hours.
The figure and its environment in various media. Prerequisite: DRWG 314 or DRWG 318 and PNTG 364 and PNTG 368; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 589. The Figure II, Honors. 3 Hours.
Continuation of PNTG 585 or PNTG 588. May be repeated for credit. Prerequisite: PNTG 585 or PNTG 588; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 599. Individual Studies in Painting. 1-6 Hours.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Metalsmithing/Jewelry courses, or permission of instructor. IND.

PNTG 655. Painting III. 3 Hours.
Continuation of PNTG 364. Prerequisite: PNTG 364. LAB.

PNTG 656. Painting IV. 3 Hours.
Continuation of PNTG 565. May be repeated for credit. Prerequisite: PNTG 565. LAB.

PNTG 657. Painting III, Honors. 3 Hours.
Continuation of PNTG 364 or PNTG 368. Prerequisite: PNTG 364 or PNTG 368; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 659. Painting IV, Honors. 3 Hours.
Continuation of PNTG 565 or PNTG 568. Prerequisite: PNTG 565 or PNTG 568; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 658. The Figure I, Honors. 3 Hours.
The figure and its environment in various media. Prerequisite: DRWG 314 and PNTG 364. LAB.

PNTG 687. The Figure III. 3 Hours.
Continuation of PNTG 667. Prerequisite: PNTG 667. LAB.

PNTG 668. Painting VI. 3 Hours.
Continuation of PNTG 364 or PNTG 368. Prerequisite: PNTG 364 or PNTG 368; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 689. Painting VII, Honors. 3 Hours.
Continuation of PNTG 565 or PNTG 568. Prerequisite: PNTG 565 or PNTG 568; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.
PNTG 688. The Figure IV. 3 Hours.
Continuation of PNTG 687. May be repeated for credit. Prerequisite: PNTG 687. LAB.

PNTG 869. Painting VII. 3 Hours.
Individual research in painting. Prerequisite: PNTG 868. RSH.

PNTG 889. The Figure V. 3 Hours.
Individual research in the figure and its environment in various media. Prerequisite: PNTG 888. RSH.

PNTG 970. Painting VIII. 3 Hours.
Continuation of PNTG 869. Prerequisite: PNTG 889. RSH.

PNTG 990. The Figure VI. 3 Hours.
Continuation of PNTG 889. Prerequisite: PNTG 889. RSH.

PRNT 177. First Year Seminar: ______. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Printmaking. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

PRNT 223. Intaglio I. 3 Hours.
Introduction to intaglio. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 224. Relief I. 3 Hours.
Introduction to relief printing. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 233. Lithography I. 3 Hours.
Introduction to lithography. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 243. Serigraphy I. 3 Hours.
Introduction to serigraphy. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 300. Special Topics in Printmaking: ______. 3 Hours. U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LEC.

PRNT 324. Intaglio II. 3 Hours.
Continuation of PRNT 223. Prerequisite: PRNT 223, or permission of instructor. LAB.

PRNT 325. Relief II. 3 Hours.
Continuation of PRNT 224. Prerequisite: PRNT 224, or permission of instructor. LAB.

PRNT 328. Intaglio II, Honors. 3 Hours.
Continuation of PRNT 223. Prerequisite: PRNT 223; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 329. Relief II, Honors. 3 Hours.
Continuation of PRNT 224. Prerequisite: PRNT 224; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 334. Lithography II. 3 Hours.
Continuation of PRNT 233. Prerequisite: PRNT 233 or permission of instructor. LAB.

PRNT 338. Lithography II, Honors. 3 Hours.
Continuation of PRNT 233. Prerequisite: PRNT 233; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 344. Serigraphy II. 3 Hours.
Continuation of PRNT 243. Prerequisite: PRNT 243 or permission of instructor. LAB.

PRNT 348. Special Problems in Printmaking--Color Printing in Relief and Intaglio. 3 Hours.
Multiple block and plate printing in color. (This course is not regularly offered. The current Schedule of Classes should be consulted.) Prerequisite: PRNT 223 and permission of instructor. LAB.

PRNT 349. Serigraphy II, Honors. 3 Hours.
Continuation of PRNT 243. Prerequisite: PRNT 243; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 500. Advanced Special Topics in Printmaking: ______. 1-4 Hours. U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Printmaking courses, or permission of instructor. LEC.

PRNT 523. Printmaking III A (Intaglio). 3 Hours.
Prerequisite: PRNT 324 or permission of instructor. LAB.

PRNT 524. Printmaking III B (Lithography). 3 Hours.
Prerequisite: PRNT 334 or permission of instructor. LAB.

PRNT 525. Printmaking III C (Serigraphy). 3 Hours.
Prerequisite: PRNT 344 or permission of instructor. LAB.

PRNT 526. Printmaking IV A (Intaglio). 3 Hours.
Prerequisite: PRNT 523 or permission of instructor. LAB.

PRNT 527. Printmaking IV B (Lithography). 3 Hours.
Prerequisite: PRNT 524 or permission of instructor. LAB.

PRNT 528. Printmaking IV C (Serigraphy). 3 Hours.
Prerequisite: PRNT 525 or permission of instructor. LAB.

PRNT 599. Individual Studies in Printmaking. 1-6 Hours. AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Printmaking courses, or permission of instructor. IND.

PRNT 662. Printmaking V. 3 Hours.
Individual research in printmaking. Prerequisite: PRNT 526 or PRNT 527 or PRNT 528. LAB.

PRNT 663. Printmaking VI. 3 Hours.
Continuation of PRNT 662. Prerequisite: PRNT 662. LAB.

PRNT 802. Special Problems in Printmaking. 3 Hours.
Individual research in printmaking; course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: PRNT 579 and permission of instructor. RSH.

PRNT 827. Printmaking VII. 3 Hours.
Continuation of PRNT 663. Prerequisite: PRNT 663. LAB.
**PRNT 903. Special Problems in Printmaking. 3 Hours.**
Individual research in printmaking; course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: PRNT 802 and permission of instructor. RSH.

**PRNT 928. Printmaking VIII. 3 Hours.**
Continuation of PRNT 827. Prerequisite: PRNT 827. LAB.

**SCUL 177. First Year Seminar: ______. 3 Hours. GE11 / U.**
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Sculpture. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**SCUL 253. Sculpture I. 3 Hours.**
Introduction to sculpture. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LAB.

**SCUL 300. Special Topics in Sculpture: ______. 1-4 Hours.**
Course to be offered in an area of studio activity of specific interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LAB.

**SCUL 349. Metal and Glass Casting. 3 Hours.**
A course in foundry techniques as related to sculpture. Both traditional and experimental procedures for casting bronze, aluminum, and iron sculpture will be explored. May be repeated for credit. Prerequisite: SCUL 253. LAB.

**SCUL 350. Direct Metal Fabrication. 3 Hours.**
The course will present a variety of techniques for fabricating metal sculpture. Oxyacetylene and electric arc welding processes will be included. May be repeated for credit. Prerequisite: SCUL 253. LAB.

**SCUL 354. Sculpture II. 3 Hours.**
Continuation of SCUL 253. Prerequisite: SCUL 253. LAB.

**SCUL 355. Sculpture III. 3 Hours.**
Continuation of SCUL 354. Prerequisite: SCUL 354. LAB.

**SCUL 358. Sculpture II, Honors. 3 Hours.**
Continuation of SCUL 253. Prerequisite: SCUL 253; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

**SCUL 359. Sculpture III, Honors. 3 Hours.**
Continuation of SCUL 354 or SCUL 358. Prerequisite: SCUL 354 or SCUL 358; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

**SCUL 500. Advanced Special Topics in Sculpture: ______. 1-4 Hours. U.**
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Sculpture courses, or permission of instructor. LEC.

**SCUL 556. Sculpture IV. 3 Hours.**
Continuation of SCUL 355. May be repeated for credit. Prerequisite: SCUL 355. LAB.

**SCUL 558. Sculpture IV, Honors. 3 Hours.**
Continuation of SCUL 355 or SCUL 359. May be repeated for credit. Prerequisite: SCUL 355 or SCUL 359; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

**SCUL 599. Individual Studies in Sculpture. 1-6 Hours. AE61 / U.**
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours can apply toward the bachelor’s degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Sculpture courses, or permission of instructor. IND.

**SCUL 657. Sculpture V. 3 Hours.**
Continuation of SCUL 556. Prerequisite: SCUL 556. LAB.

**SCUL 658. Sculpture VI. 3 Hours.**
Continuation of SCUL 657. May be repeated for credit in subsequent semesters. Prerequisite: SCUL 657. LAB.

**SCUL 804. Special Problems in Sculpture. 3 Hours.**
Individual research in sculpture: course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: SCUL 559 and permission of instructor. RSH.

**SCUL 859. Sculpture VII. 3 Hours.**
Individual research in sculpture. Prerequisite: SCUL 658. RSH.

**SCUL 905. Special Problems in Sculpture. 3 Hours.**
Individual research in sculpture: course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: SCUL 804 and permission of instructor. RSH.

**SCUL 960. Sculpture VIII. 3 Hours.**
Continuation of SCUL 859. Prerequisite: SCUL 859. RSH.

**TD 130. Introduction to Weaving. 3 Hours.**
Specifically for students with limited or no previous experience. Application to art and design principles to four-harness loom structures. Emphasis on the use of color and texture in loom controlled and weaver controlled techniques. Counts only as a studio elective or general elective for a B.F.A. in Art or Design. LAB.

**TD 133. Introduction to Fibers. 3 Hours.**
Studio exploration of fibers as an art and design form. Techniques include dyeing, spinning yarn, soft sculpture, embellishment, crochet. Open to all university students. LAB.

**TD 177. First Year Seminar: ______. 3 Hours. GE11 / U.**
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Textile Design. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**TD 300. Special Topics in Textiles/Fibers: ______. 1-4 Hours. U.**
Course to be offered in an area of special interest to individual faculty and qualified students. May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LAB.

**TD 313. Fiber Forms. 3 Hours.**
Studio exploration of fibers as an art form. Techniques include feltmaking, papermaking, basketry, and dyeing. Prerequisite: ART 101, and ART 130 or ART 133. LAB.

**TD 314. Introduction to Weaving. 3 Hours. U.**
Application of art and design principles to four-harness loom structures. Emphasis on the use of color and texture in loom controlled and weaver controlled techniques. Prerequisite: ART 101, and ART 130 or ART 133. LAB.
TD 315. Textile Handprinting and Resist Processes. 3 Hours. U.
Fundamentals of resist and dye techniques on textiles: batik, tie-dye, discharge, and direct application. Prerequisite: ART 101, and ART 130 or ART 133. LAB.

TD 316. Screenprinting Textiles. 3 Hours.
Design problems in textile printing with emphasis on screenprinting and photo techniques. Prerequisite: ART 101, and ART 130 or ART 133. LAB.

TD 401. Weave Structures. 3 Hours. U.
Continuation of TD 314. Research and analysis of multiple-harness weave structures. Weave drafts. Design problems to develop the use of color, form, and surface in simple and compound weaves. Prerequisite: TD 314. LAB.

TD 402. Techniques in Weaving. 3 Hours. U.
Development of individual art and design concepts in relation to woven structures and/or forms. Emphasis on weaver-controlled techniques used to create images and composition. Prerequisite: TD 314. LAB.

TD 403. Intermediate Textile Printing. 3 Hours.
Individual problems in textile printing and dyeing processes. Prerequisite: TD 316. LAB.

TD 404. Surface Design. 3 Hours.
Textile pattern design for art and/or industry. Prerequisite: Twelve hours in Visual Art or Design, or permission of the instructor. LAB.

TD 414. Experimental Concepts in Weaving. 3 Hours.
Experimentation with resist dyeing, painted warps and/or "Fiber Forms" techniques in woven structures. Individual research and development of thematic concepts. Prerequisite: TD 313, and TD 301 or TD 302. LAB.

TD 500. Advanced Special Topics in Textiles/Fibers: ____. 1-4 Hours. U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Textiles/Fibers courses, or permission of instructor. LEC.

TD 503. Advanced Surface Design/Screenprinting. 1-6 Hours. U.
Directed study of advanced surface design and screenprinting methods. May be repeated for credit. Prerequisite: TD 403. IND.

TD 504. History of Textiles, Lecture. 3 Hours.
Study of historical textiles, their design development, and the techniques employed. Prerequisite: Junior standing in department or permission of instructor. LEC.

TD 506. Advanced Fiber Forms. 1-6 Hours. U.
Directed study of three-dimensional and off-loom methods and techniques. May be repeated for credit. Prerequisite: TD 313. IND.

TD 514. Advanced Techniques in Weaving. 1-6 Hours. U.
Directed study of advanced loom-controlled and weaver-controlled methods. May be repeated for credit. Prerequisite: TD 401 and TD 402. IND.

TD 515. Advanced Textiles/Fibers I. 3-6 Hours. AE61.
Development of individual direction in textiles based on experience, research, and skills acquired in preceding courses; capstone experience. Prerequisite: Twenty-four credits in Textiles/Fibers and consent of instructor. LAB.

TD 520. Advanced Textiles/Fibers II. 3-6 Hours. AE61.
Continuation of TD 515, capstone experience. Prerequisite: TD 515. LAB.

TD 590. Internship in Textiles/Fibers. 1-3 Hours. U.
Practical experience in the use of artistic skills in approved and supervised academic or professional settings. May be repeated for credit; no more than six hours may be applied to the B.A. or B.F.A. degree. Credit hours are graded on a satisfactory/unsatisfactory basis, according to the written recommendation provided by the internship supervisor to the faculty advisor. Prerequisite: ART 102, ART 103, and ART 104; and fifteen hours of Visual Art courses. FLD.

TD 599. Individual Studies in Textiles/Fibers. 1-6 Hours. AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours can apply toward the bachelor’s degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Textiles/Fibers courses, or permission of instructor. IND.

TD 715. Textile Design in Weaving, Printing, and Dyeing. 2-6 Hours.
Individual research. Prerequisite: TD 520 or TD 525 or equivalent. RSH.

TD 750. Graduate Seminar. 0.5 Hours.
Discussion of issues and/or work in textiles. Graded on satisfactory/unsatisfactory basis. LEC.

TD 815. Textile Design in Weaving, Printing, and Dyeing. 2-6 Hours.
Continuation of TD 715. RSH.

VAE 100. Introduction to the Profession of Art Education. 3 Hours.
This course is designed to acquaint students with the profession of art education by helping to increase an awareness of the role and characteristics of an effective art teacher. Large and small group activities and assignments are dispersed throughout the semester to facilitate these outcomes. Students are involved in observation of and participation with art teachers and pupils in the public school classrooms, which complement course activities and assignments. VAE 100 is a professional course. LEC.

VAE 130. Art and Design in Daily Life. 3 Hours. U.
The course aims to develop students’ appreciation of designed objects in contemporary life whether they are historical icons or everyday items in the immediate environment. The instructional materials and activities assist students in acquiring the knowledge and skills for critically analyzing, discussing, and evaluating objects. Course content is interdisciplinary with a focus on design history. The class is open to all students and is relevant to those who have taken classes in art, design, architecture, and art history. Not open to students with credit in VAE 530. LEC.

VAE 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Visual Art Education. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

VAE 300. Special Topics in Visual Art Education: ____. 1-4 Hours. U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LEC.

VAE 320. Instruction and Curriculum I. 3 Hours.
This methods course provides an overview of the professional practices of K-12 art educators. Course content deals with the art education program, K-12, in relationship to the rest of the curriculum. This encompasses goals, objective sequence, courses offered at various levels, finance, staffing and administration. Prerequisite: Junior standing or consent of the instructor. LEC.
VAE 325. Education in Multicultural Society. 2 Hours.
The course is designed to provide the student with an awareness of and sensitivity to the concept of multicultural education. Topics related to the rationale for and processes of providing a multicultural perspective within the schools will be addressed. Field experiences will be structured to provide students with opportunities to observe the diversity within our society. LEC.

VAE 330. Fundamentals of Art. 3 Hours.
An introduction to art designed for the general university student. Designed to facilitate understanding and viewing works of art. Basic information including elements and principles of art, materials and techniques used by artists, and the function of art in society. LEC.

VAE 341. Instructional Strategies in Art for Elementary Classroom Teachers. 2 Hours.
Child growth and development in art. Materials as they relate to a sequential art education curriculum in the elementary school. Prerequisite: Admission to the School of Education or the education division of the graduate school. LEC.

VAE 395. Community Collaborations in Art Education. 3 Hours. U.
A focused examination of existing community organizations, models, and resources alongside collaborative strategies for working with these entities to achieve common goals for art education. Students in this class will learn of collaborative community models, explore entrepreneurial and other educational initiatives that contribute to the general purpose of art education, and recognize the role of families and other community members in contributing to the arts. LEC.

VAE 410. Instruction and Curriculum II. 3 Hours.
This methods course provides an overview of the professional practices of K-12 art educators. Course content deals with the art education program, K-12, in relationship to the rest of the curriculum. This encompasses goals, objective sequence, courses offered at various levels, finance, staffing and administration. Prerequisite: Junior standing or consent of the instructor. LEC.

VAE 420. Artistic Media and Processes in Art Education. 3 Hours.
Building on course content in VAE 320, this course concentrates on instructional strategies and presentation models in art education. Students examine and explore the media appropriate to teaching art in various settings and levels as well as how art program budgets are derived and impact overall curriculum development. Prerequisite: VAE 320 or permission of instructor. LEC.

VAE 497. Independent Study. 1-3 Hours.
Only one enrollment permitted each semester; a maximum of four hours will apply toward the bachelor's degree. Prerequisite: Recommendation of advisor and consent of instructor. IND.

VAE 500. Student Teaching. 6 Hours. AE61.
A supervised teaching experience in an approved school setting, with level and subject area to be selected according to the teaching field. Prerequisite: Admission to the student teaching program. FLD.

VAE 520. Instructional Technology in Art Education. 3 Hours.
This course addresses technology that is pertinent to professional art educators. Students use technology to develop a professional portfolio and technology-related resources for teaching art in PreK-12 schools and community settings. LEC.

VAE 530. Art and Design in Daily Life. 3 Hours.
The course aims to develop students' appreciation of designed objects in contemporary life whether they are historical icons or everyday items in the immediate environment. The instructional materials and activities will assist students in acquiring the knowledge and skills for critically analyzing, discussing, and evaluating objects. Course content is interdisciplinary with a focus on design history. The class is open to all students and is relevant to those who have taken classes in art, design, architecture, and art history. Not open to students with credit in VAE 130. LEC.

VAE 596. Practicum in Teaching Art. 2 Hours.
A supervised art teaching practicum in which students will learn to employ different teaching strategies with children pre-school through high school in the school or museum setting. Prerequisite: VAE 320, VAE 410, VAE 795 or consent of instructor. LEC.

VAE 598. Special Course: ______. 1-5 Hours.
A special course of study to meet current needs of education students; primarily for undergraduates. LEC.

VAE 599. Community Based Project in Art Education. 1-6 Hours. AE61 / U.
Individual activity and project that serves as an alternate capstone experience to VAE 500 (Student Teaching). Will involve the development of an independent, community-based arts education project developed by the student under the supervision of a VAE faculty member. Prerequisite: Forty credits of Visual Art, fifteen credits of Visual Art Education Courses, and permission of the instructor. IND.

VAE 600. Evaluation and Measurement in Art Education. 3 Hours.
An introduction to the concepts and skills for the development and implementation of evaluation procedures for art education. Topics will include the development of student evaluation, the relationship between instructional objectives and evaluation, various evaluation techniques for art education, grading, and providing grades and feedback (to) students, parents, and schools. Prerequisite: VAE 320 and VAE 410. LEC.

VAE 680. Internship in Teaching Art. 5-16 Hours.
A supervised internship experience leading to initial art teacher certification. The student assumes the total professional role as a teacher of art in an approved school setting. LEC.

VAE 698. Education of Women in the Arts. 2-3 Hours.
This course will examine the education of women in the arts at all levels of schooling (preschool, primary, secondary, and university) and in nonformal settings (art clubs, women's leagues, tutoring, etc.). The intent is to further a historical and contemporary based understanding of gender characteristics and discrimination as they affect the education of women in the arts. Students enrolled in three hours credit will be required to write a case study on the education of a woman artist. LEC.

VAE 710. Assessment in Art Education. 3 Hours.
The course is designed to introduce students to evaluation procedures in art education as they apply to public school teaching K-12. The material will incorporate methods of evaluating student learning in art, the effectiveness of instruction, the designing of instruments, grading procedures including the provision of feedback to students, parents, and schools. Concepts and skills for both formative and summative evaluation will be related to the development of objectives, instruction, and curriculum development as a whole. LEC.

VAE 716. Teaching Art: ______. 1-4 Hours.
Instructional techniques, methodology, materials, and evaluation. Processes for the specific art area named. May be repeated for credit in different media. LEC.

VAE 750. Introduction to Art Museum Education. 1-4 Hours.
This course provides a general overview to the museum education field. Course readings include current ideas and issues on learning, art education, criticism, the museum in education, and museum education practices. LEC.
VAE 774. Art for Exceptional Children. 2 Hours.
A study of the psychology, philosophy, content, and media in art expression and its relationship to mental and creative growth with exceptional children. Prerequisite: SPED 741, which may be taken concurrently. LEC.

VAE 780. Internship in Teaching Art. 9 Hours.
A supervised internship experience leading to initial art teacher certification. The student assumes the total professional role as a teacher of art in an approved school setting. LEC.

VAE 790. Applications of Technology in Art Education. 1-3 Hours.
The course is designed to provide students with the skills necessary for using and assessing the impact of microcomputers, video recorders, and other technological developments in art education. Prerequisite: TL 601 or equivalent. LEC.

VAE 798. Special Course: ____. 1-5 Hours.
A special course of study to meet current needs of education professionals; primarily for graduate students. LEC.

VAE 800. Visual Art Education Curriculum Development. 1-3 Hours.
A study of research, resources, and media as they relate to learning goals in a sequential art curriculum for use by teachers. The amount of credit reflects the extent of the curriculum being developed and the amount of work involved in the development process. LEC.

VAE 825. Seminar in: ____. 1-4 Hours.
LEC.

VAE 830. Seminar in: ____. 1-4 Hours.
LEC.

VAE 842. Teaching Art Criticism. 3 Hours.
An examination of the four phases of art criticism (description, analysis, interpretation and judgment) will be followed by practice in using these phases in the development of effective art curriculum for all developmental levels. Prerequisite: PRE 702 and PRE 704 or equivalents. LEC.

VAE 850. Aesthetics, the Arts and Education. 3 Hours.
Theoretical introduction to the problems involved in teaching critical appreciation of the arts; examination of materials from aesthetics, art history, and criticism. LEC.

VAE 869. History of Art Education. 3 Hours.
A study of the historical development of art education. Prerequisite: Nine hours of education. LEC.

VAE 875. Research in Art Education. 3 Hours.
This course examines the issues and procedures commonly used to conduct research in art education in preparation for students' graduate theses or projects. Research methods are adapted and applied to students' professional needs and interests in the form of a research proposal. LEC.

VAE 890. Preparation for the M.A. Examination. 1 Hour.
An independent reading course in preparation for the M.A. Examination. The grade will be an S or U, as determined by the performance on the examination. The examination will be evaluated separately. Prerequisite: Permission of the instructor. LEC.

VAE 895. Field Experience in: ____. 1-6 Hours.
Supervised and directed experiences in selected professional settings and cooperating agencies. Prerequisite: Permission of instructor. FLD.

VAE 897. Independent Study. 1-4 Hours.
Prerequisite: Consent of advisor and instructor. RSH.

VAE 898. Master's Project. 1-4 Hours.
RSH.

VAE 899. Master's Thesis. 1-6 Hours.
THE.

VAE 900. Supervision and Evaluation of Visual Arts Programs. 3 Hours.
A study of the administration of school, museum, and community arts education programs. Topics will include curriculum development, personnel supervision, finance, and the quantitative and qualitative evaluation of arts programs. Prerequisite: TL 703 or equivalent. LEC.

VAE 929. Research in Art Education. 3 Hours.
An examination of research methodology in visual arts education. Emphasis will be on philosophical, historical, qualitative, and quantitative research development. Prerequisite: PRE 715 or equivalent. LEC.

VAE 949. Artistic Learning and Development. 3 Hours.
Research from psychology, sociology, and anthropology will be examined for its implications for the artistic development of the child. Topics include cross-cultural and age comparisons of children's graphic symbol development, aesthetic judgments, and perceptual skills. Prerequisite: PRE 702 and PRE 704 or equivalents. LEC.

VAE 995. Field Experience in: ____. 1-5 Hours.
Supervised and directed experiences in selected educational settings. The advisor will schedule regular observations of the field experience and conferences with the student. Written summaries and evaluations of the field experiences will be prepared independently by the student, a representative of the cooperating agency, and the advisor. Open only to advanced students. Field experience credit in any one semester may not exceed five hours, and total credit may not exceed eight hours. LEC.

VAE 996. College Teaching Experience in: ____. 2 Hours.
To meet the college teaching experience requirement for doctoral programs, a student shall engage in a semester long, planned, instructional activity that shall include college classroom teaching under supervision. Planning shall be done with the advisor and/or member of the faculty who will supervise the experience. The activity shall be done under the supervision of a member of the University of Kansas faculty or by an individual or individuals designated by the candidate's committee. RSH.

VAE 997. Individual Study. 1-4 Hours.
Prerequisite: Prior graduate course work in the area of study and consent of instructor. RSH.

VAE 998. Seminar in: ____. 1-4 Hours.
LEC.

VAE 999. Doctoral Dissertation. 1-15 Hours.
THE.

Bachelor of Fine Arts in Visual Art

First-Year Preparation: Foundations

A minimum of 12 hours in foundations courses is required before a student may enroll in further studio classes for a B.F.A., B.A., or B.A.E. degree:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 101</td>
<td>Drawing I</td>
<td>3</td>
</tr>
<tr>
<td>ART 102</td>
<td>Drawing II</td>
<td>3</td>
</tr>
<tr>
<td>ART 103</td>
<td>Art Concepts and Practice</td>
<td>3</td>
</tr>
<tr>
<td>ART 104</td>
<td>Art Principles and Practice</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional specified prerequisites must be completed before enrollment in advanced visual art studio courses.
The foundations enrollment should be followed for 2 semesters (15 hours each semester):

**Foundations (12)**
- ART 101 Drawing I 3
- ART 102 Drawing II 3
- ART 103 Art Concepts and Practice 3
- ART 104 Art Principles and Practice 3

**English (6)**
- ENGL 101 Composition 3
- ENGL 102 Critical Reading and Writing 3

**History of Art (6)**
- HA 150 Western Art History I: Ancient Through Medieval Art 3
- HA 151 Western Art History II: Renaissance to Contemporary Art 3

### Bachelor of Fine Arts in Visual Art Degree Requirements

The Department of Visual Art offers the B.F.A. in visual art, including the areas of ceramics, drawing, expanded media, metalsmithing/jewelry, painting, printmaking, sculpture, and textiles/fibers. A total of 120 hours is required for the degree, including 45 junior/senior hours (courses numbered 300 or higher). 30 of these 45 junior/senior hours must be taken in residence at the University of Kansas. In addition to the 12-hour foundations requirement, a minimum of 48 hours in departmental courses is required, including 2 semesters of directed study.

The Department of Visual Art reserves the right to retain examples of student work and to use images of student work on internet websites and for university publication purposes.

### B.F.A. Major Requirements

#### General Option

**General Education Requirements**
- Completion of KU Core Requirements (see KU Core)
- BFA-specific requirements
- Writing Requirement - ENGL 101 and ENGL 102, or placement in and completion of ENGL 102/105 and an additional Goal 2, Outcome 1 course.

**Foundations Studies (12)**
- ART 101 Drawing I 3
- ART 102 Drawing II 3
- ART 103 Art Concepts and Practice 3
- ART 104 Art Principles and Practice 3

**History of Art (9)**
- HA 150 Western Art History I: Ancient Through Medieval Art (fall only) 3
- HA 151 Western Art History II: Renaissance to Contemporary Art (spring only) 3

**Non-Western History of Art**
- HA 300+ level elective (6)

BFA General students must choose one of the following courses covering art history from 1900-1945:
- or HA 380 History of Photography 3
- or HA 580 History of Photography
- or HA 564 European Art, 1900-1945
- or HA 571 Modern Sculpture
- or HA 583 American Art 1900-1945: Rise of Modernism
- or HA 588 Modern and Contemporary Visual Arts of Japan

**School of the Arts Elective (3)**

Satisfied by one course from the Dance (DANC), Film & Media Studies (FMS), Theatre (THR), or Visual Art (ART, CER, EXM, METL, PNTG, PRNT, SCUL, TD, VAE) department.

**Electives**

- Additional credit hours of general electives are needed to meet the minimum total hours required for graduation.

### Major Requirements - General Option

The general option requires 49 major hours, including a minimum of 15 junior/senior hours in the major, a minimum of 15 major hours in residence, and a minimum 2.0 KU junior/senior grade-point average in the major.

**Visual Art Core Courses (18)**

Select one course in 5 of the following areas: 15

- **Ceramics**
  - ART 131 Fundamentals of Ceramics (or any 200-level CER course)

- **Expanded Media**
  - ART 123 Fundamentals of Expanded Media (or any 200-level EXM course)

- **Metalsmithing/Jewelry**
  - ART 132 Fundamentals of Metalsmithing/Jewelry (or any 200-level METL course)

- **Painting**
  - ART 120 Fundamentals of Painting and Drawing (or any 200-level PNTG course)

- **Printmaking**
  - ART 121 Fundamentals of Printmaking (or any 200-level PRNT course)

- **Sculpture**
  - ART 122 Fundamentals of Sculpture (or any 200-level SCUL course)

- **Textiles/Fibers**
  - ART 130 Fundamentals of Fiber Forms
ART 133  Fundamentals of Fibers
Or any 200-level TD course

Visual Art Studies (15)
Select one of the following:
DRWG 203  Drawing III
DRWG 213  Life Drawing I
DRWG 300  Special Topics in Drawing: _____

Electives: Satisfied by 12 hours selected from the Visual Art Department (ART, CER, EXM, METL, PNTG, PRNT, SCUL, TD, VAE)

Studio Electives (21)
Select 21 hours

Additional Required Visual Art and Design Electives (6)
(6 hours, not counted toward major)
PHMD elective 3
SCUL 253  Sculpture I 3
or SCUL 349  Metal and Glass Casting

Metalsmithing/Jewelry Option

General Education Requirements
Completion of KU Core Requirements (see KU Core)
BFA-specific requirements
Writing Requirement – ENGL 101 and 102, or placement in and completion of ENGL 102/105 and an additional Goal 2 Outcome 1 course.

Foundation Studies (12)
ART 101  Drawing I 3
ART 102  Drawing II 3
ART 103  Art Concepts and Practice 3
ART 104  Art Principles and Practice 3

History of Art (15)
HA 150  Western Art History I: Ancient Through Medieval Art 3
(fall only- HA 150 must be taken before HA 151)
HA 151  Western Art History II: Renaissance to Contemporary Art 3
(spring only)
Non-Western history of art 3
HA Electives 6

School of the Arts Elective (3)
Satisfied by 1 course (3 hours) from the Dance (DANC), Film & Media Studies (FMS), Theatre (THR), or Visual Art (ART, CER, EXM, METL, PNTG, PRNT, SCUL, TD, VAE) department.
Electives Additional credit hours of general electives are needed to meet the minimum total hours required for graduation.

Major Requirements - Metallurgy Option

The metallurgy option requires 48 major hours, including a minimum of 24 junior/senior hours in the major, a minimum of 15 major hours in residence, and a minimum 2.0 KU junior/senior grade-point average in the major.

Metallurgy (39)
ART 132  Fundamentals of Metallurgy 3
or METL 211  Metallurgy
The University of Kansas

METL 301  Introduction to Casting for Jewelry (ART 132 then METL 301 must be completed before taking further METL classes)  3
METL 302  Professional Practices  3
METL 360  Holloware  3
METL 362  Metalsmithing  6
METL 364  Enameling  6
METL 501  Seminar  3
METL 515  Advanced Metals I  6
METL 520  Advanced Metals II  6

Studio Electives (9)
Satisfied by completing 9 hours of coursework with subject code (ART, CER, EXM, METL, PNTG, PRNT, SCUL, TD, VAE, PHMD, INTD, ILLU, INDD, BDS, VISC, ADS)  9

Textiles/Fibers Option

General Education Requirements
Completion of KU Core (see KU Core)
BFA-specific requirements
Writing Requirement – ENGL 101 and 102, or placement in and completion of ENGL 102/105 and an additional Goal 2 Outcome 1 course.  6

Foundations Studies (12)
ART 101  Drawing I  3
ART 102  Drawing II  3
ART 103  Art Concepts and Practice  3
ART 104  Art Principles and Practice  3

Additional Foundation Requirements (9 hours, not counted toward major) (9)
ART 130  Fundamentals of Fiber Forms  3
or ART 133  Fundamentals of Fibers
TD 314  Introduction to Weaving  3
TD 315  Textile Handprinting and Resist Processes  3

History of Art (12)
HA 150  Western Art History I: Ancient Through Medieval Art  3
(fall only - HA 150 must be taken before HA 151)
HA 151  Western Art History II: Renaissance to Contemporary Art  3
Non-Western history of art  3
HA Elective  3

School of the Arts Elective (DANC, FMS, THR course) (3)  3

Major Requirements - Textiles/Fibers Option

The textiles/fibers option requires 48 major hours, including a minimum of 30 junior/senior hours in the major, a minimum of 15 major hours in residence, and a minimum 2.0 KU junior/senior grade-point average in the major.

Intermediate Textiles/Fibers Courses (12)
TD 313  Fiber Forms (required)  3
TD 316  Screenprinting Textiles (required)  3
TD 401  Weave Structures  3

or TD 402  Techniques in Weaving  3
or TD 403  Intermediate Textile Printing  3
or TD 404  Surface Design  3
or TD 414  Experimental Concepts in Weaving  3

Advanced Textiles/Fibers Courses (18)
TD 504  History of Textiles, Lecture  3
TD 515  Advanced Textiles/Fibers I (Students may sub 3 hours of TD 515 for one of the Textile concentrations listed below)  3
or TD 503  Advanced Surface Design/Screenprinting  3
or TD 506  Advanced Fiber Forms  3
or TD 514  Advanced Techniques in Weaving  3
TD 520  Advanced Textiles/Fibers II (Students may sub 3 hours of TD 520 for one of the Textile concentrations listed below)  3
or TD 503  Advanced Surface Design/Screenprinting  3
or TD 506  Advanced Fiber Forms  3
or TD 514  Advanced Techniques in Weaving  3

Studio Electives (18)
(any Visual Art, Design, or applicable studio courses)  18

Bachelor of Fine Arts in History of Art

First-Year Preparation

A minimum of 12 hours in foundations courses is required before a student may enroll in further studio classes for a B.F.A., B.A., or B.A.E. degree:

ART 101  Drawing I  3
ART 102  Drawing II  3
ART 103  Art Concepts and Practice  3
ART 104  Art Principles and Practice  3
ENGL 101  Composition  3

Additional specified prerequisites must be completed before enrollment in advanced visual art studio courses.

The foundations enrollment should be followed for 2 semesters (15 hours each semester):

Foundations (12)
ART 101  Drawing I  3
ART 102  Drawing II  3
ART 103  Art Concepts and Practice  3
ART 104  Art Principles and Practice  3

Advanced (6)
ENGL 101  Composition  3
Bachelor of Fine Arts in History of Art

Degree Requirements

A major in the history of art is available to candidates for the B.F.A. degree. This major combines a 30-hour concentration in art history with 18 hours of studio training (beyond the 12 hours of foundation courses). A total of 120 hours is required for the degree, including 45 junior/senior hours (courses numbered 300 or higher). 30 of these 45 junior/senior hours must be taken in residence at the University of Kansas. The B.A. and B.G.S. degrees (p. 152) are offered by the College of Liberal Arts and Sciences.

Requirements for the B.F.A. Degree

Major Program Courses (48)

History of art:

<table>

</tr>
</tbody>
</table>

Select at least one course at or above the 200 level in each of the following five categories: 15

1. Ancient or medieval art;
2. Renaissance or baroque art;
3. Modern art, which includes 19th- and 20th-century art, American art, and history of photography. HA 261 does not fulfill requirement;
4. East Asian;
5. Non-Western (East Asian or African).

History of art electives 9

Electives in art and design: Satisfied by completing 18 hours of coursework with subject code (ART, CER, EXM, METL, PNTG, PRNT, SCUL, TD, VAE, PHMD, INTD, ILLU, INDD, BDS, VISC, ADS) 18

General Education Courses (0)

Completion of KU Core Requirements. (see KU Core section of the catalog)

Visual Art Major (36)

Visual Art Major Studies

(Including a minimum of 15 junior/senior hours in the major, a minimum of 15 major hours in residence, and a minimum 2.0 KU junior/senior grade-point average in the major)

Visual Art Concentration: (24 hours)

Any Visual Art (ART, CER, EXM, METL, PNTG, PRNT, SCUL, TD, VAE) and Photomedia (PHMD) classes.

History of Art: (12 hours)

HA 150 Western Art History I: Ancient Through Medieval Art (fall only)

HA 151 Western Art History II: Renaissance to Contemporary Art (spring only)

Advising

Beginning with the first year, all students intending to become visual art education majors should be advised by faculty in the Department of Visual Art. Consult the department for assignment to an advisor.

Undergraduate Admission

Students who wish to teach art should seek admission to the School of the Arts by submitting a portfolio. Applicants should also consult the Department of Visual Art for assignment of an advisor and requirement information. In the first 2 years, students enroll as art education majors in prerequisites. These prerequisites are necessary for admission to the VAE professional sequence in the junior year:

Students must apply for admission to the professional sequence upon completing the first semester of the sophomore year. Transfer students with more than 45 hours must apply the first semester at KU. Students may not enroll in the professional sequence before formal approval by VAE. Admission to the professional sequence is based on the following minimum criteria:

1. Cumulative grade-point average of 2.5.
2. Grade-point average of 2.75 in required course work.
3. Minimum scores on the Pre-Professional Skills Test of 172 on the writing test, 173 on the reading test, and 172 on the mathematics test.
4. Successful completion of the application form (typed).
5. Satisfactory faculty evaluations in the areas relevant to visual art education including art and history of art. Each applicant’s applied instructor must complete a special recommendation form.
6. No grade lower than a C in any course in the professional education sequence.
Recommendation for Student Teaching and Internship

The capstone experience of student teaching and internship in art education requires a strong knowledge base particularly in certain content areas. Academic performance in content areas is a predictor of success in this capstone experience. Therefore, it is strongly recommended that students have a minimum grade of B- in all visual art education classes and an academic record with a grade-point average of at least 3.0 in the following areas: visual art education, the history of art, studio art, and education.

Note: Students must complete the student teaching experience with grades of C or higher to continue with their internships.

Note: To be licensed as an art teacher in Kansas, a student must fulfill an application, pay a fee, pass all 3 parts of the Pre-Professional Skills Test and the Professional Knowledge component of the National Teachers’ Examination, and complete other specified academic degree requirements. Information is available in 211 J.R. Pearson Hall.

Students who do not meet all criteria may be admitted to the professional sequence on a provisional basis and may enroll in a maximum of 5 credit hours of professional sequence courses during the first term of the junior year. Students assigned provisional status must complete all requirements by the end of that term. Candidates are reviewed for admission twice a year. The deadline for all applications is March 1 for fall or October 1 for spring, by 5 p.m. Submit applications to visual art education, 300 Art and Design Building. Students who are denied admission may reapply for the next deadline but must resubmit a complete application. Students who transfer into the program with more than 45 credit hours may be admitted to the professional sequence on a provisional basis but must complete this application by the first deadline that occurs during their residence at KU. They also must register for classes that fulfill any deficiencies they might have on arrival at KU.

On admission to the professional sequence, students enroll as visual art education majors (code AEPS-BAE) and identify their emphases in studio art. The emphasis must be one in which KU offers the B.F.A. Students must select appropriate courses in the emphasis in consultation with the visual art education advisor. To enter the final year of the extended program, the student must be admitted to Graduate Studies (http://www.graduate.ku.edu). Regular admission requires a cumulative grade-point average of 3.0 or higher in the baccalaureate degree curriculum. Students with cumulative undergraduate grade-point averages of 2.75 may be admitted on probation.

Requirements for the B.A.E. Degree

The Bachelor of Art Education degree requires a minimum of 125 credit hours distributed among general studies, the major, and professional education. 45 of the 125 undergraduate credit hours must be taken at the junior/senior level (courses numbered 300 or higher). 30 of the 45 junior/senior hours must be taken in residence at the University of Kansas. At least 15 major hours must be taken in residence at the University of Kansas. The program requires either VAE 500 (Student Teaching), which leads to PreK-12 licensure, or VAE 599 (Community Based Project in Art Education), which completes the degree without licensure eligibility.

(Fulfills KU Core Goal 2, LO 1, 1st unit) (3)
Studio art study in 1 area selected from those offered for the B.F.A. in visual art, design, or history of art (9) Must be taken at the 300 level or above. (The selected area may be chosen using courses with one of the following prefixes: DRWG, PNTG, PRNT, SCUL, EXM, EXM, METL, TD, CER, ART, HA, PHMD, ADS, ILLU, INDD, VISC. The following combinations of areas are also acceptable: DRWG and PNTG; ILLU and VISC; ART with any of the following: DRWG, PNTG, PRNT, SCUL, EXM, CER, TD, METL, PHMD. For questions, please consult with visual art education advisor.)

Additional Non-Licensure Option Elective (3)

Students completing the B.A.E. Degree without licensure must also take an additional elective at the junior/senior level (3) in any area in order to meet the University’s minimum junior/senior hour requirement for degree completion.

Master of Fine Arts in Visual Art

The Department of Visual Art has been authorized by the University and the Kansas Board of Regents to offer the Master of Fine Arts (M.F.A.) in Visual Art. The Department of Visual Art offers graduate programs leading to the Master of Fine Arts degree in studio art. Concentrations include ceramics, drawing and painting, expanded media, metalsmithing and jewelry, printmaking, sculpture, and textiles and fibers. The MFA degree in the Department of Visual Art is a terminal professional studio degree. The program’s goals are to develop each student’s critical thinking and studio skills so that they have the necessary tools and experience to pursue a career as a studio artist and to otherwise participate in the creative community both on a regional and national level.

Introduction

The University of Kansas is a member of the National Association of Schools of Art and Design (http://nasadarts-accredit.org). The entrance and graduation requirements in this catalog conform to the published guidelines of those organizations.

Graduate Admission - M.F.A.

To be admitted, students must have undergraduate backgrounds judged by the graduate faculty to be appropriate preparation for the specific specialization selected for graduate study. A strong preference exists for applicants whose undergraduate backgrounds are in visual art.

Departmental faculty selection and review committees evaluate each applicant’s transcripts, portfolios, and letters of recommendation to determine their qualifications for admission. The committees expect applicants to have the B.F.A. degree or equivalent experience. In general, committees expect applicants to present about 70 hours of undergraduate credit in studio or related professional courses including about 36 hours of studio credit in a major area, to have maintained an undergraduate overall grade-point average of 3.0 on a 4.0 scale in the proposed major, and to have had a minimum of 9 hours of credit in art history. The department encourages full-time residence.

Application to the program is competitive, by permission of the Kansas Board of Regents application for admission to graduate programs in Visual Art may be refused if available instructional space does not allow for addition of more students. The deadline for fall admission is January 15.

Submit your graduate application (http://www.graduate.ku.edu) and fee online, print it, and send it along with

• 1 official transcript of all college and university coursework,
• statement of purpose,
• 3 letters of recommendation,
• digital portfolio,
• printed image index,
• application form for financial aid,
• statement of financial resources (international students) and
• proof of proficiency in English (international students)

in 1 envelope to the department:

Lawrence, KS 66045-7531

M.F.A. in Visual Art Degree Requirements

Concentrations in Ceramics, Drawing and Painting, Expanded Media, Fibers, Metalsmithing and Jewelry, Printmaking, and Sculpture

The graduate program consists of 60 semester hours of graduate credit, including thesis exhibition, in courses approved by the graduate director and the graduate thesis committee. A student may concentrate in one or more specializations. When the student has completed 2 semesters, the faculty selection and review committee reviews the student’s work. The graduate director gives the student a written assessment of progress, signed by the committee. At the end of the third semester, the same committee conducts a thesis review that determines whether the student is prepared to begin thesis work, needs additional coursework, or is to be dropped from the program.

Upon approval by the review committee, the candidate begins work toward the thesis. Students not receiving approval may continue to work toward the next review unless denied by the committee. A student who is approved for thesis work may enroll in Thesis in Art. Before thesis enrollment, the student selects a graduate thesis committee consisting of 3 members of the graduate art faculty. The committee advises the student, conducts regularly scheduled reviews of the work, and determines whether the requirements for the thesis have been completed. The graduate director must approve the membership of the graduate thesis committee.

The final departmental requirements are

• A thesis exhibition of the student’s work,
• An oral examination, and
• A thesis folio of the exhibition.

The thesis folio includes a statement written by the candidate concerning the work and a visual record of the exhibition. The department reserves the option of selecting and retaining one example of each graduate
student’s work. Upon enrolling, the student automatically accepts these requirements and conditions.

Master of Arts in Visual Art Education

Introduction

The University of Kansas is a member of the National Association of Schools of Art and Design (http://nasad.accredit.org). The entrance and graduation requirements in this catalog conform to the published guidelines of those organizations.

The Department of Visual Art has been authorized by the University and the Kansas Board of Regents to offer the Master of Arts (M.A.) in Visual Art Education. The Visual Art Education graduate program strives to advance students’ understanding of art education with a complement of courses that explores historical studies of art education, art criticism, studio work, and aesthetics. An important goal of the curriculum is the development of a broad perspective of art education through multicultural studies, cognitive approaches in teaching and learning, assessment in teaching, and technological issues that arise in contemporary society. Students’ programs are tailored to their interests for specialties in areas such as studio, art history, evaluation, and others.

Graduate Admission - M.A. Visual Art Education

Application deadlines:

- December 1 - Spring admission
- May 1 - Fall admission

Admission requirements for regular status:

1. Entrance into the M.A. degree program requires a bachelor’s degree, from an accredited institution, which encompasses a minimum of 40 semester hours in fine arts studio (courses in drawing, painting, sculpture, design, printmaking, ceramics, metalsmithing/jewelry, weaving, lettering, commercial art, graphic design, constructive design, etc.), 9 hours in history of art, and 8 hours in visual art education. Applicants must have an overall undergraduate grade-point average of at least 3.0 on a 4-point scale.

2. 1 official transcript.

3. A minimum of 3 letters of recommendation from former or current instructors and/or those able to recommend the applicant on the basis of professional experience (e.g., principals, supervisors, or former employers). The letters of recommendation must address the applicant’s potential to take initiative as a graduate student and ability to be a self-starter.

Submit your graduate application (http://www.graduate.ku.edu) and fee online, then print a copy and send it along with

- 1 official transcript of all college and university coursework,
- Graduate Student Information Questionnaire,
- 3 letters of recommendation,
- Graduate Licensure applicants only, Praxis I test scores
- statement of financial resources (international students) and
- proof of proficiency in English (international students)

in one envelope to the department:

The University of Kansas
Visual Art Education
Director of Graduate Studies
Art and Design Bldg.
1467 Jayhawk Blvd., Room 300
Lawrence, KS 66045-7531

M.A. in Visual Art Education

The graduate program includes advanced professional and scholarly study for art educators and teaching licensure for those with baccalaureate degrees in other fields who wish to enter art education licensure typically also requires collateral undergraduate study) and advanced study for individuals in related disciplines. Details may be found in the Visual Art Education M.A. handbook, available from the Department of Visual Art (http://art.ku.edu).

M.A. Degree Requirements

At least 15 and no more than 18 hours in visual art education are required. The remainder of the coursework can be in related fields such as history of art, education, psychology, etc. This emphasis is appropriate for the student desiring to improve his or her fine arts knowledge and research skills in art education.

Thesis Option

The student completes 9 credit hours of core courses (VAE 800, VAE 869, and VAE 875), additional elective hours, and an independent experimental, descriptive, historical, or philosophical investigation of a topic related to visual art education. A total of 30 credit hours is required.

Project Option

The student completes 9 credit hours of core courses (VAE 800, VAE 869, and VAE 875), and additional elective hours. A substantial application of theory, principles, and/or products of visual art education in a pedagogical setting must be documented. A total of 30 credit hours is required.

Examination Option

Students take a total of 37 credit hours in required core courses (including VAE 875 Research in Art Education) and elective courses with 36 credit hours in regularly scheduled classes. Students also take a 1-credit-hour course, VAE 890 Preparation for the M.A. Examination, devoted to preparing for a written final examination. Preparation for the examination occurs during the first half of the semester and provides the basis for...
the course grade. The written examination, taken during the second half of the semester, requires students to demonstrate their knowledge of current issues in the field. If the written exam is deemed unsatisfactory by a majority of the student’s committee, the student will be required to retake the exam. The exact content and format of the second examination will be determined by the student’s committee members.

Graduate Licensure in Art Education
Students who seek to be art teachers in public schools (PreK-12) may obtain licensure as part of the M.A. degree. The licensure track is for individuals with especially strong academic and artistic backgrounds who have completed baccalaureate degrees in studio art, design, art history, or other art-related fields. Coursework is taken at the undergraduate and graduate levels. Upon completion, individuals are recommended by the university for PreK-12 art licensure in Kansas and have earned a significant amount of credit required for the M.A. in Visual Art Education. Prospective students must meet all application requirements for the master’s degree to be considered for licensure in art. For further information, contact the Department of Visual Art (http://art.ku.edu) at 785-864-4401.

Department of Women, Gender and Sexuality Studies
Why study women, gender and sexuality studies?
Because much of what people think they know about women, gender, and sex is myth.

Undergraduate Programs
Women, gender, and sexuality studies offers an interdisciplinary program of courses with primary or significant emphasis on women. Courses are offered by the department or are cross-referenced with the department.

Graduate Programs
The Department of Women, Gender and Sexuality Studies supports interdisciplinary research on topics pertaining to women, gender, and sexuality and administers an interdisciplinary program leading to a graduate certificate and a Ph.D. degree. Additional cross-referenced courses are available to complete requirements for the graduate certificate and doctoral degree. Students may pursue the graduate certificate in addition to a KU graduate degree or as a standalone certificate and doctoral degree. Students may pursue the graduate certificate and a Ph.D. degree. Additional cross-referenced courses are available to complete requirements for the graduate certificate and doctoral degree. Students may pursue the graduate certificate in addition to a KU graduate degree or as a standalone program.

Courses
WGSS 101. Introduction to Women, Gender, and Sexuality Studies. 3 Hours. SC AE41/GE3S / S.
This course examines the extensive role of gender in human life and examines the ways that gender structures power relations among individuals and within economic, political, educational and other social structures, with special attention paid to women’s issues and movements in the United States and globally. Through readings drawn from the fields of women’s studies, gender studies, and sexuality studies, this course examines and explores alternatives to traditional and/or normative constructions of gender and sexuality, and also considers other markers of difference, such as disability, race, class, and religion, which intersect with gender identity and sexual identity. LEC.

WGSS 102. Introduction to Women, Gender, and Sexuality Studies, Honors. 3 Hours. SC AE41/GE3S / S.
This course examines the extensive role of gender in human life and examines the ways that gender structures power relations among individuals and within economic, political, educational and other social structures, with special attention paid to women’s issues and movements in the United States and globally. Through readings drawn from the fields of women’s studies, gender studies, and sexuality studies, this course examines and explores alternatives to traditional and/or normative constructions of gender and sexuality, and also considers other markers of difference, such as disability, race, class, and religion, which intersect with gender identity and sexual identity. Similar in content to WGSS 201. Open only to students in the University Honors Program or by consent of the instructor. LEC.

WGSS 177. First Year Seminar: ____. 3 Hours. GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Women, Gender and Sexuality Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

WGSS 196. Study Abroad Topics in: ____. 1-6 Hours. S.
This course is designed for the study of special topics in Women’s Studies. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

WGSS 317. African American Women: Colonial Era to the Present. 3 Hours. H.
This interdisciplinary course covers the history of African American women, beginning in West and Central Africa, extending across the Middle Passage into the Americas, and stretching through enslavement and freedom into the 21st century. The readings cover their experiences through secondary and tertiary source materials, as well as autobiographies and letters, plays and music, and poems, novels, and speeches. (Same as AAAS 317, AMS 317, and HIST 317.) LEC.

WGSS 320. From Goddesses to Witches: Women in Premodern Europe. 3 Hours. HT GE11/GE3H / H.
This course examines the social, cultural, and political contexts of women’s spirituality and their relations to gender relations in Europe from about 30,000 B.C.E. to the 16th century Protestant Reformation. Lectures move both chronologically and topically, covering such subjects as goddess-worshipping cultures, women’s roles in Christian and Jewish societies, symbols of women, and male attitudes toward women. Students will be able to participate in weekly discussions of primary and secondary source readings about women. (Same as HIST 320.) LEC.

WGSS 321. From Mystics to Feminists: Women’s History in Europe 1600 to the Present. 3 Hours. HT AE42/GE11/GE3H / H.
This survey of women’s history in Europe looks at changing patterns of women’s economic roles and family structures in preindustrial and industrial society, the importance of women in religious life, cultural assumptions underlying gender roles, and the relationship of women to political movements, including the rise of feminism. (Same as HIST 321.) LEC.

WGSS 324. History of Women and the Body. 3 Hours. H.
This course examines different notions about women and their bodies from a historical perspective. It discusses the arguments and circumstances that have shaped women’s lives in relation to their bodies, and women’s responses to those arguments and circumstances. This course covers a wide geographical and chronological spectrum, from
Ancient societies to the present, from Latin America and the Middle East, to North America and Western Europe. (Same as HIST 324.) LEC.

WGSS 327. Perspectives in Lesbian, Gay, Bisexual, and Transgender Studies. 3 Hours. AE41 / S.
An exploration of the experiences and histories of people who identify as lesbian, gay, bisexual, and/or transgender (LGBT); of the influences on these experiences by individuals, the state, and artistic, legal and medical discourses; and of the intersections between sexual orientation, sexuality, ethnicity, class, and religion. LEC.

WGSS 330. Women in Contemporary African Literature. 3 Hours. NW AE42/GE3H / H.
A critical study of issues and questions raised about women in contemporary African literature and implications for the larger society through the analysis of theme, language, characterization, roles and functions of women in selected works. (Same as AAAS 340.) LEC.

WGSS 333. The Politics of Physical Appearance. 3 Hours. AE41 / S.
An interdisciplinary analysis of standards of physical attractiveness and cultural conceptions of women’s bodies. Includes analysis of how these standards change across time and cultural groups, and of the impact of these standards on women as individuals and on social and political outcomes. LEC.

WGSS 345. Popular Culture in Africa: Spiritual Thrills, Romance and Sexualities. 3 Hours. H.
This course examines how the different constituents of popular culture mobilize, construct and structure gender, and spiritual and sexual identities in select contemporary African countries. Discussions also focus on how popular culture mediates the contesting spaces of indigenous local constructs and the push and pull of global forces to create geographic and contemporary specificities. (Same as AAAS 345.) LEC.

WGSS 351. Women and Leadership: The Legislative Process. 3 Hours. S.
Examines current and historical roles and impacts of women involved in legislatures. Explores what difference women make when they are public officials. Students meet with local women legislators, lobbyists and political officials. Students learn how to analyze issues, access power, lobby, and organize at the grassroots. The course is designed to prepare students for an optional legislative internship during the subsequent semester. LEC.

WGSS 363. Gendered Modernity in East Asia. 3 Hours. S.
This course explores rapidly changing gender relationships and the sense of being “modern” in East Asia by examining marriage and family systems, work, education, consumer culture, and geopolitics. The class seeks to understand how uneven state control over men and women shapes desires, practices, and norms and how men and women act upon such forces. Avoiding biological or social determinism, this course treats gender as an analytical category and examines how modern nation-states and global geopolitics are constituted and operated. (Same as ANTH 363 and EALC 363.) LEC.

WGSS 381. Feminism and Philosophy. 3 Hours. AE41/GE3H / H.
An examination of topics of philosophical interest that are important in the feminist movement such as the nature of sexism, the concept of sexual equality, the ethics of sexual behavior, the nature of love, feminist analyses of the value of marriage and family, the ethics of abortion and justifications for preferential treatment of women. (Same as PHIL 381.) LEC.

WGSS 389. The Anthropology of Gender: Female, Male, and Beyond. 3 Hours. NW AE42/GE21/GE3H/GE3S / S.
This course will introduce students to cultural constructions and performances of masculinity, femininity, and alternative genders across time and space. Topics and cases will be drawn from primarily non-Western cultures, ranging from Japanese markets to Pacific Rim gardens, and from Haitian voudou to Maya royal politics. This course uses research by archeologists, linguists, biological anthropologists, and sociocultural anthropologists. (Same as ANTH 389.) LEC.

WGSS 396. Studies in: _______. 3 Hours. H.
The interdisciplinary study of selected and different aspects of women’s studies in different semesters. LEC.

WGSS 397. Study Abroad Topic in: _______. 1-6 Hours.
This course is designed for the study of special topics in Women’s Studies at the junior/senior level. Course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

WGSS 440. Communication and Gender. 3 Hours. AE41 / S.
Focuses attention on the relationship between communication and gender, including both physical and psychological dimensions. Topics include: sex role orientations and stereotypes; perceived and actual differences in verbal and nonverbal communication behaviors; the influence of gender on communication in a variety of contexts. (Same as COMS 440.) Prerequisite: COMS 130, COMS 150, or COMS 230. LEC.

WGSS 468. Psychology of Women. 3 Hours. S.
A survey of the psychological theories about women; similarities and differences in the behavior of women and men; the effects of biological and social factors on the behavior of women and men; and issues of concern to women of different races, sexual orientations, ages, and so forth. (Same as PSYC 468.) Prerequisite: PSYC 104 or WGSS 201. LEC.

WGSS 498. Independent Study. 1-3 Hours. S.
Intensive reading or research under faculty supervision culminating in the writing of a paper or research report. IND.

WGSS 499. Honors in Women’s Studies. 3 Hours. S.
An individual research project under the direction of a specialist in the area of the student’s interest. May be counted towards the total hours required for the major. Prerequisite: Majors only, with approval of the project advisor and the Women’s Studies honors coordinator. IND.

WGSS 510. History of American Women: Colonial Times to 1870. 3 Hours. H.
A survey of women’s history in the United States, which will consider women’s roles as housewives, mothers, consumers, workers, and citizens in pre-industrial, commercial and early industrial America. (Same as AMS 510 and HIST 530.) LEC.

WGSS 511. History of American Women: 1870 to Present. 3 Hours. AE41 / H.
A survey of women’s history in the United States, which includes radical and reform movements, the impact of war and depression, professionalization, immigration, women’s work, and the biographies of leading figures in women’s history. (Same as AMS 511 and HIST 531.) LEC.

WGSS 512. History of Women and Work in Comparative Perspective. 3 Hours. H.
This course explores the connection between historical changes in the labor process and the occupational choices available to women in different countries. Through discussion and analyses of texts, students will evaluate the construction of a gendered division of work as shaped over time by economic, cultural, and political forces. The chronological
and geographical focus may vary depending on the instructor. (Same as AMS 512 and HIST 532.) LEC.

WGSS 513. Modern American Women in Film and Literature. 3 Hours. H.
Exploration of the images both real and ideal found in twentieth century popular culture. By using popular culture as social history, it examines the connections between these images and the life experiences of women in the family, at work, in war, and in economic depression. LEC.

WGSS 515. Gender and Sexuality in Greek Culture. 3 Hours. H.
This course explores various approaches to the study of gender and sexuality in Greek antiquity. Contents will vary, and the course may focus on methodology and case studies, or on particular themes, historical periods, or artistic or literary genres. No knowledge of Greek or Latin is required. (Same as CLSX 515.) Prerequisite: Graduate status, or 6 credit hours in Classics, Greek, Latin, or Women, Gender and “Sexuality Studies; or permission of instructor. LEC.

WGSS 516. Gender and Sexuality in Roman Culture. 3 Hours. H.
This course explores various approaches to the study of gender and sexuality in Roman antiquity. Contents vary, and the course may focus on methodology and case studies, or on particular themes, historical periods, or artistic or literary genres. No knowledge of Greek or Latin is required. (Same as CLSX 516.) Prerequisite: Graduate status, or 6 credit hours in Classics, Greek, Latin, or Women, Gender and “Sexuality Studies; or permission of instructor. LEC.

WGSS 521. Women and Violence. 3 Hours. S.
An examination of research on women and violence, including rape, domestic violence, sexual harassment, stalking, and child sexual abuse. The nature, prevalence, causes, and consequences of violence against women are discussed. (Same as PSYC 521.) Prerequisite: PSYC 104. LEC.

WGSS 530. Gender and Sexuality in Cyberspace. 3 Hours. S.
Students examine the construction of cyberspace as a transnational space and how gender and various categories of sexuality have been constructed in this disembodied arena. Students learn how the Internet helps produce new and alternative modes of expressing and experiencing sexuality and how sexual desires, fantasies, and identities are articulated in this cyberspace LEC.

WGSS 549. History of Feminist Theory. 3 Hours. H.
This discussion course will cover the development of feminist theories from the late Middle Ages to the 1970s. Reading will include Pisan, Wollstonecraft, Mill, Freud, Woolf, Beauvoir, Friedman, Daly, Kristeva, and others. (Same as HIST 649.) LEC.

WGSS 560. Race, Gender, and Post-Colonial Discourses. 3 Hours. H.
An examination of the ways in which the concept of race, gender, and post-colonialism frame African literatures from the Caribbean, North America, and the continent itself. The course will focus on these discourses grounding them in critical frameworks within which they can be contextually analyzed and evaluated, at the same time examining their impact in literary praxis and theory. (Same as AAAS 560.) LEC.

WGSS 562. Women and Politics. 3 Hours. S.
This course exposes students to contemporary research on women and politics by surveying the sub-fields of political science. Topics include women’s representation in the U.S., women and U.S. public policy, gender and legal theory, international women’s movements, women and revolution, and women as political elites. We will examine the ways in which feminist theory and women’s activism have challenged the narrow focus of the discipline as well as redefined women’s place in society. (Same as POLS 562.) Prerequisite: A 100-level POLS course or WGSS 201 or permission of instructor. LEC.

WGSS 563. Gender, Sexuality and the Law. 3 Hours. AE41/GE11 / H.
This course provides a broad introduction to Western legal systems (especially the American legal system) and then focuses on how sex, gender, and sexuality operate in and are understood by those systems and how the law is a site of social and political struggle. Topics may include intimate relations, First Amendment law, sexual harassment and employment discrimination; reproduction policies and governance; rape and sexual assault; gender identity discrimination; and the legal understandings and constructions of equal protection and due process. No prior knowledge of legal concepts is necessary. LEC.

WGSS 565. Gender, Culture, and Migration. 3 Hours. H.
This course brings a human face to the 21st century manifestation of globalization by focusing on the issues of culture, gender and migration. How do these three aspects create the “global village” amongst both the host and donor peoples? When people move from one place to another, what do they leave behind, what do they take with them? What is gained, or lost by the host community? What is the impact of migration on a specific group’s and individual’s sense of identity? How has migration affected the people’s construction, understanding, and practice of gender? Given their primary roles in the home and within the culture, these questions and more are posed with particular attention to women. Migration theories, interviews and personal testimonies as well as literary and dramatic works are critical to our analyses of the issues raised and enable us to hold conversations with, and listen to the stories of the ordinary people who make globalization happen and sustain it. (Same as AAAS 565 and AMS 565.) LEC.

WGSS 570. Men and Masculinities. 3 Hours. H.
An intensive examination of the history and theory of masculinities in the Western world. Students become acquainted with some of the key theories of men and masculinities, and develop research projects on a topic negotiated with the instructor. (Same as HIST 626, HWC 570.) Prerequisite: An upper-division course in HIST, HWC, or WGSS; or permission of instructor. LEC.

WGSS 575. Body, Self and Society. 3 Hours. H.
An intensive examination of the role of the human body in the creation of personal and social identities in the Western world. Students become acquainted with contemporary theories of embodiment and the senses as they are applied to a variety of historical themes, and develop research projects on a topic negotiated with the instructor. (Same as HIST 625, HWC 575.) Prerequisite: An upper-division course in HIST, HWC, or WGSS; or permission of instructor. LEC.

WGSS 580. Feminism and Anthropology. 3 Hours. S.
This seminar will introduce students to feminism in anthropology, including feminist theories, methodologies, ethnographic styles, and the history of women in the discipline since the late 1800s. Emphasis is on the social contexts for feminist theory-building since the 1960s and changing ideas about gender and power. (Same as ANTH 580.) Prerequisite: One of the following: ANTH 389, ANTH 460, WGSS 201; or permission of instructor. LEC.

WGSS 583. Love, Sex, and Globalization. 3 Hours. S.
Escalating transnational flows of information, commodities, and people have created innumerable kinds of “intimate” contacts on a global scale, such as mail order brides, child adoption, sex tourism, commodified romance, and emotional labor. Exploring the ways that cultural artifacts of intimacy are rendered, fetishized, and reified in a free market economy, this course examines how discourses on love and sex encounter, confront, and negotiate the logistics of the capitalist market, the discrepant narratives of (colonial) modernity, and the ethics of pleasure. In so doing, this course navigates the treacherous interplay among emotions-
specifically love, sex, and money, seeking the potential and limits of cultural politics of emotions. (Same as ANTH 583.) LEC.

WGSS 600. Contemporary Feminist Political Theory. 3 Hours. S.
A detailed introduction to feminist thought post-1960. Examines feminism in relation to the categories of political theory: liberal feminism, socialist feminism, radical feminism, and postmodern feminism. Within these categories and separately, we will also consider feminism as it is influenced by women traditionally excluded from mainstream feminist thought, namely U.S. women of color and women of post-colonial societies. (Same as POLS 600.) Prerequisite: WGSS 201 or a 100-level POLS course or permission of instructor. LEC.

WGSS 601. Seminar in Women’s Studies. 3 Hours. AE61 / S.
Investigation of a topic related to women from an interdisciplinary perspective. Open only to women’s studies majors and required of them. Suggested for the senior year. LEC.

WGSS 630. Politics of Identity. 3 Hours. S.
This seminar explores the nature of identity and how identity is relevant to politics and policy with a focus on political attitudes and behavior, institutions, and public policy. Topics include individual and group identity, identities such as gender, racial, sexual orientation, and partisan, and the enduring importance of identity for understanding politics as well as the policy process. The approach is multidisciplinary but political science perspectives are relied on more heavily. (Same as POLS 630.) Prerequisite: POLS 110 and POLS 206 are recommended. LEC.

WGSS 640. Politics of Reproductive Policy. 3 Hours. S.
Reproductive policy has historically been a highly politicized policy arena, which has elicited attention from the political community as well as the public. This course moves beyond the popular rhetoric associated with reproductive issues, by critically investigating the history, development, implementation and the relative success of various reproductive policies in the United States. These policies are compared to, and assessed against, policies governing similar topics in various countries. (Same as POLS 640.) Prerequisite: POLS 110 or consent of instructor. LEC.

WGSS 646. Witches in European History and Historiography. 3 Hours. H.
This course examines witches, witchcraft, and magic in Europe in the late medieval and early modern period (approximately 1200-1700 C.E.). Particular emphasis will be on the variety of historical and anthropological approaches that have been used to study the subject and their meaning in the context of gender politics and gender theory. (Same as HIST 646.) LEC.

WGSS 650. Service Learning in Women’s Studies. 3 Hours. S.
This course, to be taken in the senior year, is designed to give students the opportunity to apply women’s studies knowledge and ideas gained through course work to real-life situations in various agencies and women’s centers. Open to Women’s Studies majors and others with significant Women’s Studies backgrounds. Permission of instructor is required. FLD.

WGSS 651. Women and Politics in Latin America. 3 Hours. S.
This course examines the ways in which Latin American women have engaged in politics in the past two decades. Cases will draw from a variety of countries in Latin America. Students are expected to develop insights, through comparative analysis, into why women “do politics” in certain ways, the role of the State in women’s politics, the (dis)advantages of various political strategies, and the ways in which political, economic, and social changes over time have affected women’s political opportunities and interests. (Same as POLS 651.) Prerequisite: Six hours of course work in Political Science and/or Women’s Studies and/or Latin American Studies. LEC.

WGSS 652. Jazz and American Culture. 3 Hours. H.
This course considers cultural and social histories of jazz, from the 1920s through the present day, as sites for exploring ideological struggles over such fields as race, class, gender, sexuality, democracy, capitalism, freedom, community, Americaness, and globalization in the U.S. The course will explore such questions as the following: What music was called jazz at what times and places? What did it mean to whom? Who played it? Who wrote about it? Who listened to it? Who danced to it? Who policed it? Who produced it? Who used it to rebel? Who used it to survive? What did all of these practices mean to participants? The course will examine struggles over social meanings in the U.S. through a study of jazz performance, labor, representation, marketing, consumption, censorship, and historiography. Prerequisite: A course in American studies, American history, or consent of instructor. (Same as AMS 650.) LEC.

WGSS 653. Gender, War, and Peace. 3 Hours. S.
This course explores ways in which militarization and warfare are gendered processes. We ask, what does war tell us about gender, and what does gender tell us about war? Though the majority of fighters are men, women are essential to war efforts. They also represent a high proportion of the casualties of war. Yet women are rarely examined in relation to war; thus we work to uncover women’s experiences of war. We also look to women’s contributions to the peace movement in terms of both theory and practice, asking: Is peace a feminist issue? Should feminists support women’s access to combat positions or oppose the military? What if women ruled the world–would that end wars? Does militarized masculinity harm men more than benefit them? How do states mobilize citizens to war and how is the process gendered? (Same as POLS 653.) Prerequisite: One of the following: POLS 150, POLS 151, POLS 170, POLS 171, WGSS 201, WGSS 202. LEC.

WGSS 660. Human Reproduction: Culture, Power, and Politics. 3 Hours. S.
This seminar analyzes and critiques the socially constructed nature of reproductive practices and their articulation with relations of power. Topics range from conception to menopause, infertility to population. Cases are drawn from a wide variety of cultural contexts. This course is the second part of a two-semester sequence (beginning with ANTH 650) that examines in detail biological and cultural determinants of human reproduction. (Same as ANTH 660.) Prerequisite: ANTH 650, or 6 hours in Women’s Studies, or permission of instructor. LEC.

WGSS 662. Gender and Politics in Africa. 3 Hours. S.
This course is designed to explore the field of gender and African politics. We begin by paying particular attention to African women’s political roles during the pre-colonial and colonial society. Next, we examine the impetus, methods, and path of liberation struggles and how gender roles were shaped, shifted, and changed during these struggles. The majority of the class focuses on current issues in African politics, including gender and development; HIV/AIDS and women’s health; gender and militarism. We also explore women’s roles in political institutions; civil society organizations; trade and labor unions; and transnational movements. We also examine contemporary constructions of masculinity and femininity in African states and explore how these constructions affect social policy and national political agendas. (Same as AAAS 662.) LEC.

WGSS 665. Women, Health, and Healing in Latin America. 3 Hours. S.
This seminar uses a life-cycle approach to examine women’s health (physical, mental, and spiritual) and their roles as healers. Special consideration is given to the effects of development programs on well-being, access to health care, and hanging roles for women as healers. Cases will be drawn from a variety of Latin American contexts. (Same as ANTH 665 and LAA 665.) Prerequisite: 6 hours coursework in
Anthropology and/or Women’s Studies and/or Latin American Studies. LEC.

WGSS 689. Conceptual Issues in Human Sexuality. 3 Hours. S.
An examination of the social construction of sexuality and research methods and issues relevant to sexuality. These concepts are applied to various topics, such as defining and conceptualizing sex and gender, sexual dysfunction, sexual orientation, the social control of sexuality, sexual coercion and abuse, and abstinence-only sex education. The course does not cover anatomical or physiological aspects of sexuality. (Same as PSYC 689.) Prerequisite: PSYC 104 or WGSS 201. LEC.

WGSS 896. Studies in: ______. 3 Hours. S.
Interdisciplinary study of different aspects of women’s studies in different semesters. LEC.

WGSS 701. Seminar in: ______. 3 Hours.
A research seminar in women’s studies. Instructor and topic will vary. LEC.

WGSS 789. Anthropology of Gender: Advanced Seminar in the Four Fields. 3 Hours.
This seminar is intended primarily for graduate students in anthropology or other disciplines who share an interest in any of the subdisciplines of anthropology (archaeology, linguistics, biological anthropology, and sociocultural anthropology) and/or anthropological theories and methods. Undergraduates pursuing Honors or other major research projects are also encouraged to participate. Students will receive training in the contemporary theories, research, and pedagogies informing the anthropology of gender. Class participants will explore how these materials intersect with their current thesis or research projects and develop syllabi specific to their subdiscipline. (Same as ANTH 789.) Prerequisite: Permission of instructor. LEC.

WGSS 797. Directed Readings. 1-3 Hours.
Directed reading in an area of women’s studies in which there is no appropriate course in the offerings of the Women’s Studies Program, but in which there is a member of the cooperating graduate faculty competent and willing to direct the program of study. RSH.

WGSS 800. History of Women, Gender and Sexuality Studies. 3 Hours.
An introduction to the field of women, gender, and sexuality studies, paying particular attention to its development, its reception by and influence on academic disciplines, and its institutionalization. Prerequisite: Graduate standing and consent of the instructor. SEM.

WGSS 801. Feminist Theory. 3 Hours.
A survey of contemporary feminist theories produced within and across disciplines (including but not limited to, eco-feminism, and liberal, cultural, materialist, psychoanalytic, radical, and black feminist thought). Prerequisite: Graduate standing and consent of the instructor. LEC.

WGSS 802. Feminist Methodologies. 3 Hours.
An introduction to the methods used in feminist research in the humanities, social sciences, and natural sciences (e.g., qualitative and quantitative research methods, archival research, and oral histories). We will consider examples of applications of each method, the strengths and limitations of each method, and how each method relates to feminist theories and principles. Prerequisite: Graduate standing and consent of the instructor. SEM.

WGSS 803. Topics in Feminist Pedagogy: ______. 0.5 Hours.
The goal of the course is to teach students to teach. By reading core texts of feminist pedagogy, understanding critical theories, and attending seminars at the Center for Teaching Excellence selected by instructor and student, students will learn how to present knowledge and stimulate learning in the classroom, as well as such practical skills as leading discussion sections, preparing and presenting class sessions, developing syllabi, devising fair grading and helpful advising, and solving pedagogical problems like maintaining civility in the classroom and coping with academic misconduct. Must be repeated twice for a total of 1 credit hour while actively teaching. Prerequisite: Must be Women, Gender, and Sexuality Studies graduate students. SEM.

WGSS 804. Topics in Professional Development: ______. 1 Hour.
The goal of this course is to train students in the skills essential to becoming effective scholars and educators, and successful members of the profession. The material to be covered by these three iterations includes 1) the ethics and practice of feminist research (e.g., protection of human subjects, conflicts of interest, confidentiality, legal strictures); 2) the practical aspects of producing knowledge (e.g., writing research papers, proper citation methods, conference presenting, responding to peer reviews); and 3) acquiring and securing a place in the work force (e.g., CV preparation, job interviews, grant writing, getting promotion [and, in the academy, tenure]). Must be repeated three times for a total of 3 credit hours. Prerequisite: Must be Women, Gender, and Sexuality Studies graduate students. SEM.

WGSS 810. Comparative Sexualities. 3 Hours.
Employing an interdisciplinary and comparative perspective, this course introduces the study of human sexuality in various disciplines. Students will also gain an understanding of the historical development and cross-cultural analysis of sexuality research, including the methodological, theoretical, and ethical issues involved in investigating sexual behavior and meanings. Prerequisite: Graduate standing and consent of the instructor. SEM.

WGSS 821. Woman and Violence. 3 Hours.
An examination of research on women and violence, including rape, domestic violence, sexual harassment, stalking, and child sexual abuse. Research on the nature, prevalence, causes, and consequences of violence against women is discussed. (Same as PSYC 821.) Prerequisite: Six hours in WGSS and/or PSYC, or permission of instructor. LEC.

WGSS 835. Colloquium in the History of Gender. 3 Hours.
This colloquium will cover theoretical and topical readings on the history of manhood, womanhood, and gender systems. (Same as AMS 835 and HIST 895.) LEC.

WGSS 836. Colloquium in United States Women’s History. 3 Hours.
This colloquium will cover theoretical and topical readings on the history of women in the United States from the pre-contact period to the present. It is designed to familiarize students with the most important and current historiography in the field. (Same as AMS 836 and HIST 896.) LEC.

WGSS 837. Comparative Colloquium in Women’s History. 3 Hours.
This colloquium will approach the history of women from a comparative perspective through theoretical and topical readings on women in at least two different cultures. (Same as AMS 837 and HIST 897.) LEC.

WGSS 873. Seminar in United States Women’s History. 3 Hours.
This research seminar will focus on the history of women in the United States from the pre-contact period to the present. Students will research and write a paper using primary sources, and present those papers to the seminar for evaluation. (Same as HIST 973 and AMS 973.) LEC.

WGSS 880. Advanced Feminist Anthropology: ______. 3-6 Hours.
Intensive consideration of special problems in feminist anthropology. Topics for the semester to be announced. May be repeated for a total of six hours credit. (Same as ANTH 880.) Prerequisite: Permission of instructor. LEC.
**WGSS 889. Conceptual Issues in Human Sexuality. 3 Hours.**
An examination of the social construction of sexuality and research methods and issues relevant to sexuality. These concepts are applied to various topics, such as defining and conceptualizing sex and gender, sexual dysfunction, sexual orientation, the social control of sexuality, sexual coercion and abuse, and abstinence-only sex education. The course does not cover anatomical or physiological aspects of sexuality. (Same as PSYC 889.) Prerequisite: Six hours in WGSS and/or PSYC, or permission of instructor. LEC.

**WGSS 898. Research Colloquium. 3 Hours.**
This course is the "capstone" to the Women's Studies Graduate Certificate program. Members of the seminar will produce a major paper and will share their research. During the first part of the term a small number of visitors (professors at KU and/or visiting speakers from other universities) will be invited to assign readings and subsequently present their work on women and gender. Students will be expected to attend the Gender Seminar of the Hall Center for the Humanities. Prerequisite: WGSS 801 and at least 3 hours of other graduate work in the Women’s Studies graduate certificate program, or by special permission. LEC.

**WGSS 999. Doctoral Dissertation. 1-12 Hours.**
Original research that is to be incorporated into a PhD dissertation. THE.

---

**Bachelor of Arts and Bachelor of General Studies in Women's Studies**

**Why study women, gender and sexuality studies?**

Because much of what people think they know about women, gender, and sex is myth.

---

**Undergraduate Admission**

**Admission to KU**

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://admissions.ku.edu/~admiss/credit/transfer) website.

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

---

**First- and Second-Year Preparation**

It is recommended that students complete WGSS 101, the introductory course, and consult the undergraduate advisor.

**Requirements for the B.A. or B.G.S. Major Women's Studies Major Course Requirements**

**Women's Studies Core Knowledge and Skills (18)**

Majors must complete a course in each of the following areas:

- Introduction to Women, Gender, and Sexuality Studies. Satisfied by:
  - **WGSS 101** Introduction to Women, Gender, and Sexuality Studies
  - or
  - **WGSS 102** Introduction to Women, Gender, and Sexuality Studies, Honors

**Social Science Core. Satisfied by 1 course (3 hours) chosen from the following:**

- **WGSS/ANTH 389** The Anthropology of Gender: Female, Male, and Beyond
- **WGSS/PSYC 468** Psychology of Women
- **WGSS 521** Women and Violence
- **WGSS/POLS 562** Women and Politics
- **WGSS/POLS 640** Politics of Reproductive Policy
- **WGSS/POLS 653** Gender, War, and Peace (S (Int))
- **WGSS/ANTH 660** Human Reproduction: Culture, Power, and Politics
- **WGSS/PSYC 689** Conceptual Issues in Human Sexuality

**Humanities Core. Core satisfied by 1 course (3 hours) chosen from the following:**

- **WGSS/AAAS/AMS/HIST 317** African American Women: Colonial Era to the Present
- **WGSS/HIST 320** From Goddesses to Witches: Women in Premodern Europe
- **WGSS/HIST 321** From Mystics to Feminists: Women's History in Europe 1600 to the Present
- **WGSS 327** Perspectives in Lesbian, Gay, Bisexual, and Transgender Studies
- **WGSS 330/AAAS 340** Women in Contemporary African Literature
- **WGSS/AMS 510/HIST 530** History of American Women: Colonial Times to 1870
- **WGSS/AMS 511/HIST 531** History of American Women: 1870 to Present

**Theory. Satisfied by 1 course (3 hours) chosen from the following:**

- **WGSS/PHIL 381** Feminism and Philosophy
- **WGSS 549/HIST 649** History of Feminist Theory

With careful planning and commitment to a full-time course load, you can graduate in 4 years. See the department for details. A major in women’s studies can be combined with a complementary second major in the humanities, social sciences, or natural sciences. Students in the professional schools also may integrate women’s studies with their programs.

Women’s Studies Major Hours & Major GPA

While completing all required courses (above), majors also must meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 30 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior (300+) Hours**

Satisfied by a minimum of 18 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior (300+) Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

With care cylinder planning and commitment to a full-time course load, you can graduate in 4 years. See the department for details. A major in women’s studies can be combined with a complementary second major in the humanities, social sciences, or natural sciences. Students in the professional schools also may integrate women’s studies with their programs.

**Women’s Studies Minor Course Requirements**

The minor requires 18 hours. At least 12 hours must be at the junior/senior (300+) level or higher.

Students selecting this minor must complete the following:

1. The candidate must enroll in WGSS 499 Honors in Women’s Studies or in Independent Study in women’s studies or another department for 2 semesters, 3 hours a semester, and earn a grade of B or higher in the first semester and a grade of A in the second semester.
2. The candidate should inform the honors coordinator of her or his intention to earn departmental honors.
3. The results of the candidate’s project must be presented in written form, or in another form appropriate to the project, to a panel of at least 3 members of the College faculty, at least 1 of whom must be a member of the women, gender, and sexuality studies advisory board. This panel must certify the successful completion of the honors project.
4. If the candidate is earning a double major and is attempting to earn departmental honors in 2 different departments, 1 research project may be used to satisfy the requirements of both departments if the candidate obtains approval from both. Both departments must be represented on the student’s committee.

The department may petition to award graduation with departmental honors to deserving students who, for good reason, do not meet every requirement. Petitions should be sent to the College committee on undergraduate studies and advising. When the candidate finishes all the requirements for departmental honors, the honors coordinator notifies College Student Academic Services (http://clas.ku.edu/undergrad) in writing.

**Minor in Women's Studies**

**Why study women, gender and sexuality studies?**

Because much of what people think they know about women, gender, and sex is myth.

**Requirements for the Minor**

**Women’s Studies Minor Course Requirements**

The minor requires 18 hours. At least 12 hours must be at the junior/senior (300+) level or higher.

Students selecting this minor must complete the following:

1. The candidate must enroll in WGSS 499 Honors in Women’s Studies or in Independent Study in women’s studies or another department for 2 semesters, 3 hours a semester, and earn a grade of B or higher in the first semester and a grade of A in the second semester.
2. The candidate should inform the honors coordinator of her or his intention to earn departmental honors.
3. The results of the candidate’s project must be presented in written form, or in another form appropriate to the project, to a panel of at least 3 members of the College faculty, at least 1 of whom must be a member of the women, gender, and sexuality studies advisory board. This panel must certify the successful completion of the honors project.
4. If the candidate is earning a double major and is attempting to earn departmental honors in 2 different departments, 1 research project may be used to satisfy the requirements of both departments if the candidate obtains approval from both. Both departments must be represented on the student’s committee.

The department may petition to award graduation with departmental honors to deserving students who, for good reason, do not meet every requirement. Petitions should be sent to the College committee on undergraduate studies and advising. When the candidate finishes all the requirements for departmental honors, the honors coordinator notifies College Student Academic Services (http://clas.ku.edu/undergrad) in writing.

**Departmental Honors**

Candidates must declare an intention to work for departmental honors to the honors coordinator, Charlene Muehlenhard, no later than enrollment for the first semester of the senior year. Return the intent form to College Student Academic Services (http://clas.ku.edu/undergrad).

At the end of the final undergraduate semester, the candidate must have an overall grade-point average of at least 3.25 and of at least 3.5 in the major (i.e., the 30 hours of course work applied toward the major). Both overall and major grade-point averages include work done at other institutions as well as at KU. Each candidate must complete an independent research project, or its equivalent, related to women’s studies.

1. The candidate must enroll in WGSS 499 Honors in Women’s Studies or in Independent Study in women’s studies or another department for 2 semesters, 3 hours a semester, and earn a grade of B or higher in the first semester and a grade of A in the second semester.
2. The candidate should inform the honors coordinator of her or his intention to earn departmental honors.
3. The results of the candidate’s project must be presented in written form, or in another form appropriate to the project, to a panel of at least 3 members of the College faculty, at least 1 of whom must be a member of the women, gender, and sexuality studies advisory board. This panel must certify the successful completion of the honors project.
4. If the candidate is earning a double major and is attempting to earn departmental honors in 2 different departments, 1 research project may be used to satisfy the requirements of both departments if the candidate obtains approval from both. Both departments must be represented on the student’s committee.

The department may petition to award graduation with departmental honors to deserving students who, for good reason, do not meet every requirement. Petitions should be sent to the College committee on undergraduate studies and advising. When the candidate finishes all the requirements for departmental honors, the honors coordinator notifies College Student Academic Services (http://clas.ku.edu/undergrad) in writing.

**Women’s Studies Minor Course Requirements**

**Social Science or Humanities Core. Satisfied by 1 course (3 hours) chosen from the following:** (3)

- **Social Sciences**
  - WGSS/ANTH 389 The Anthropology of Gender: Female, Male, and Beyond
  - WGSS/PSYC 468 Psychology of Women
  - WGSS/PSYC 521 Women and Violence
  - WGSS/POLS 562 Women and Politics
  - WGSS/POLS 640 Politics of Reproductive Policy
  - WGSS/POLS 653 Gender, War, and Peace
  - WGSS/ANTH 660 Human Reproduction: Culture, Power, and Politics
  - WGSS/PSYC 689 Conceptual Issues in Human Sexuality

- **Humanities**
  - WGSS/AAAS/AMS/HIST 317/317 Present African American Women: Colonial Era to the Present
  - WGSS/HIST 320 From Goddesses to Witches: Women in Premodern Europe
  - WGSS/HIST 321 From Mystics to Feminists: Women’s History in Europe 1600 to the Present
  - WGSS 327 Perspectives in Lesbian, Gay, Bisexual, and Transgender Studies
  - WGSS 330/AAAS 340 Women in Lesbian, Gay, Bisexual, and Transgender Studies
  - WGSS/AMS 510/HIST 530 History of American Women: Colonial Times to 1870
  - WGSS/AMS 511/HIST 531 History of American Women: 1870 to Present
  - WGSS/AAAS 545 Popular Culture in Africa: Spiritual Thrills, Romance and Sexualities
  - WGSS/AMS 512/HIST 532 History of Women and Work in Comparative Perspective
  - WGSS 513 Modern American Women in Film and Literature
  - WGSS 549/HIST 649 History of Feminist Theory
  - WGSS/AMS 560 Race, Gender, and Post-Colonial Discourses (if not already used)
  - WGSS/AAAS/AMS 565 Gender, Culture, and Migration
  - WGSS/HWC 570 Men and Masculinities
  - WGSS/HWC 575 Body, Self and Society
  - WGSS 646 Witches in European History and Historiography
  - AAAS 434 African Women Writers
  - AMS 515 American Women and World War II
  - COMS 552 The Rhetoric of Women’s Rights
  - EALC 575 Love, Sexuality and Gender in Japanese Literature
  - ENGL 572 Women and Literature: _____
  - FMS 410 Race, Class, and Gender in Visual Culture
  - FMS 620 International Women Filmmakers
  - HIST 533 The History of Women and the Family in Europe, from 1500 to the Present
  - PHIL 381 Feminism and Philosophy (if not already used for theory requirement)
  - REL 477 Gender and Religion
  - ENGL 203 Topics in Reading and Writing: _____ (Literature of Love and Marriage)
  - ENGL 203 Topics in Reading and Writing: _____ (Women’s Writing and Autobiography)
  - ENGL 203 Topics in Reading and Writing: _____ (Major Women Writers)
  - ENGL 570 Topics in American Literature: _____
  - HA 505 Special Study: _____ (Women/Modern Art)
  - HIST 319 History, Women, and Diversity in the U.S.

**Humanities Elective. Satisfied by any core humanities course not already satisfying core requirement above or any of the following approved humanities electives:** (3)

- WGSS/PHIL 381 Feminism and Philosophy
- WGSS 549/HIST 649 History of Feminist Theory
- WGSS/AAAS 560 Race, Gender, and Post-Colonial Discourses
- WGSS/ANTH 580 Feminism and Anthropology
- WGSS/POLS 600 Contemporary Feminist Political Theory
- SOC 601 Introduction to Feminist Social Theory

**Women’s Studies Required Electives (9)**
Social Sciences Elective. Satisfied by any core social science course not already satisfying core requirements above or any approved social science elective.

WGSS/ANTH 389 The Anthropology of Gender: Female, Male, and Beyond
WGSS/PSYC 468 Psychology of Women
WGSS 521 Women and Violence
WGSS/POLS 562 Women and Politics
WGSS/POLS 630 Politics of Identity
WGSS/POLS 640 Politics of Reproductive Policy
WGSS/POLS 653 Gender, War, and Peace
WGSS/ANTH 660 Human Reproduction: Culture, Power, and Politics
WGSS/PSYC 689 Conceptual Issues in Human Sexuality
WGSS 333 The Politics of Physical Appearance
WGSS 351 Women and Leadership: The Legislative Process
WGSS/ANTH/EALC 363 Gendered Modernity in East Asia
WGSS/ANTH 580 Feminism and Anthropology (if not already used)
WGSS/ANTH 583 Love, Sex, and Globalization
WGSS/POLS 600 Contemporary Feminist Political Theory (if not already used)
WGSS/POLS 651 Women and Politics in Latin America
WGSS/AAAS 662 Gender and Politics in Africa
WGSS/ANTH/LAA 665 Women, Health, and Healing in Latin America
WGSS/ANTH 789 Anthropology of Gender: Advanced Seminar in the Four Fields
AAAS 388 The Black Woman
COMS 440 Communication and Gender
PSYC 465 Stereotyping and Prejudice Across Cultures
SOC 273 Women in Society
SOC 352 Sociology of Sex Roles
PSYC 502 Human Sexuality
REL 374 Religious Perspectives on Selfhood and Sexuality
SOC 220/628 Sociology of Families
WGSS 498 Independent Study (may be petitioned to satisfy a social science or humanities elective)
WGSS 701 Seminar in: _____ (may be petitioned to satisfy a social science or humanities elective)
WGSS 797 Directed Readings (may be petitioned to satisfy a social science or humanities elective)

Women’s Studies Electives. Satisfied by any course not already satisfying core requirements above or any approved social science elective.

WGSS 396 Studies in: _____
WGSS 498 Independent Study

WGSS 499 Honors in Women’s Studies
WGSS 650 Service Learning in Women’s Studies
WGSS 696 Studies in: _____
WGSS 701 Seminar in: _____
WGSS 797 Directed Readings

Women’s Studies Minor Hours & Minor GPA
While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

Minor Hours
Satisfied by 18 hours of minor courses.

Minor Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the minor.

Minor Junior/Senior (300+) Hours
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all departmental courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Minor in Human Sexuality
Why study women, gender and sexuality studies?
Because much of what people think they know about women, gender, and sex is myth.

Requirements for the Minor

Human Sexuality Minor Course Requirements
The minor requires 18 hours. At least 12 hours must be at the junior/senior (300+) level or higher. Students selecting this minor must complete the following:

Survey Course of Human Sexuality (3) 3
Satisfied by one of the following:
SW 303 Human Sexuality in Everyday Life
PSYC 502 Human Sexuality
HSES 489 Health and Human Sexuality

Human Sexuality Discipline Perspective (9)
Human Sexuality Discipline Perspective. Satisfied by 3 core courses (9 hours) with a primary focus on sexuality. Students should take at least 1 humanities course and at least 1 social or biological science course.

Humanities Perspective. Satisfied by 1 of the following approved humanities electives:
AAAS/HIST 598 Sexuality and Gender in African History
CLSX/HWC 374 Gender and Sexuality, Ancient and Modern
EALC 575 Love, Sexuality and Gender in Japanese Literature

Women’s Studies Electives. Satisfied by any course not already satisfying core requirements above or any approved social science elective.

WGSS 396 Studies in: _____
WGSS 498 Independent Study
### Human Sexuality Minor

**Human Sexuality Required Electives (6) -- 6**  
Satisfied by 2 courses (6 hours) chosen from any course above not used to satisfy a requirement or any of the following:

### Human Sexuality Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

**Minor Hours**  
Satisfied by 18 hours of minor courses.

**Minor Hours in Residence**  
Satisfied by a minimum of 15 hours of KU resident credit in the minor.

**Minor Junior/Senior (300+) Hours**  
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

**Minor Graduation GPA**  
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all departmental courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

### Doctor of Philosophy in Women, Gender, and Sexuality Studies

**Why study women, gender and sexuality studies?**

Because much of what people think they know about women, gender, and sex is myth.

### Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2059) section of the online catalog.

Please consult the Departments & Programs (p. 783) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

### Graduate Admission

Admission requires a bachelor’s degree and acceptance by Graduate Studies. Submit your graduate application online (http://
Phi.D. Program

The Ph.D. program requires completion of core and elective courses and demonstration of depth in a chosen concentration or track. Candidates must complete a minimum of 13 credit hours of required courses in WGSS and 15 credit hours of elective WGSS courses. In addition, the student must take a minimum of 18 credit hours (3 in theory, 3 in methods, and 3 in a designated field) in an approved concentration or track selected from the list below.

Students must also fulfill Research Skills and Responsible Scholarship requirement as outlined in the WGSS Graduate Handbook (available online). At the end of 30 hours of course work (21 in WGSS and 9 in a concentration), Students will take a qualifying exam in their fourth semester (administered by the instructors of WGSS 800, WGSS 801, WGSS 802). Results of this exam will determine whether or not the student is given a terminal M.A. and leaves the program or the student continues on towards the Ph.D. After completion of 31 credit hours and the Research Skills and Responsible Scholarship requirement, students take a comprehensive oral examination, the centerpiece of which is a portfolio of all major written work (exams, papers, syllabi), and a professional essay. Within 3 months of passing this exam the student defends a dissertation prospectus and enrolls in dissertation hours.

For more information, see the Ph.D. program website (http://wgss.ku.edu/graduate/phd/index.shtml) and the Graduate Student Manual, accessible on that website.

Concentrations

The WGSS graduate student handbook lists a selection of the approved courses in the concentrations.
and/or WGSS 802 Feminist Methodologies and two 3-credit electives chosen from a list of recommended graduate courses or approved by the graduate director.
## School of Medicine

Founded in 1905, the KU School of Medicine is proud of its rich legacy as Kansas’ only medical school and its international reputation as a leader in biomedical research. Every day, KU medical students learn basic and clinical sciences from those on the cutting edge of discovery.

### Masters and Ph.D. Programs

#### The School of Medicine

**Graduate Programs**

Academic programs at the University of Kansas Medical Center are offered through the Schools of Health Professions, Medicine, and Nursing. The Office of Graduate Studies on the Medical Center campus handles matters related to these graduate programs.

Basic admission requirements are listed in the Medical Center campus Graduate Studies section of the online catalog. Individual graduate programs have specific requirements including prerequisite undergraduate courses. These are listed or referenced in the individual program descriptions.

Graduation requirements and regulations for every academic program are provided in this catalog. Degree requirements and course descriptions are subject to change. In most cases, you will use the catalog of the year you entered KU. Other years’ catalogs (http://catalog.ku.edu/archive)

### Anatomy and Cell Biology (p. 1778)

- Master of Arts in Cell Biology and Anatomy (p. 1780)
- Doctor of Philosophy in Cell Biology and Anatomy (p. 1780)

**Biochemistry and Molecular Biology (p. 1781)**

- Master of Science in Biochemistry and Molecular Biology (p. 1782)
- Doctor of Philosophy in Biochemistry and Molecular Biology (p. 1782)

**Biostatistics (p. 1783)**

- Master of Science in Biostatistics (p. 1786)
- Doctor of Philosophy in Biostatistics (p. 1787)
- Statistical Applications Graduate Certificate (p. 1788)
- Statistics Graduate Certificate (p. 1790)

**Cancer Biology** (http://catalog.ku.edu/medicine/cancer-biology)

**Health Policy and Management (p. 1791)**

- Master of Health Services Administration (p. 1795)
- Doctor of Philosophy in Health Policy and Management (p. 1797)

**History and Philosophy of Medicine (p. 1798)**

**Interdisciplinary Graduate Program in Biomedical Sciences (p. 1821)**

**Microbiology, Molecular Genetics, and Immunology (p. 1798)**

- Master of Arts in Microbiology (p. 1799)
- Doctor of Philosophy in Microbiology (p. 1799)

**Molecular and Integrative Physiology (p. 1800)**

- Master of Science in Molecular and Integrative Physiology (p. 1801)
- Doctor of Philosophy in Molecular and Integrative Physiology (p. 1802)

**Neurosciences Program (p. 1825)**

- Doctor of Philosophy in Neurosciences (p. 1826)

**Pathology and Laboratory Medicine (p. 1802)**

- Master of Arts in Pathology (p. 1804)
- Doctor of Philosophy in Pathology (p. 1804)

**Pharmacology, Toxicology, and Therapeutics (p. 1805)**

- Master of Arts in Pharmacology (p. 1807)
- Master of Science in Pharmacology (p. 1807)
- Master of Science in Toxicology (p. 1808)
- Doctor of Philosophy in Pharmacology (p. 1808)
- Doctor of Philosophy in Toxicology (p. 1809)

**Preventive Medicine and Public Health (p. 1810)**

- Master of Public Health (p. 1818)
- Graduate Certificate in Community-Based Participatory Research (p. 1817)
- Master of Science in Clinical Research (p. 1820)
- Graduate Certificate in Clinical and Translational Research (p. 1816)

### Interdisciplinary Programs:

- Health informatics (p. 1823): (p. 1981)
  - Master of Science
  - M.D.-Ph.D. Combined Degrees (p. 1826)

### Other Programs

The School of Medicine also offers the Doctor of Medicine degree. M.D. program information is detailed in the School of Medicine’s Doctor of Medicine (p. 1827) section of this online catalog.

### Department of Anatomy and Cell Biology

**Anatomy and Cell Biology Graduate Programs**

The graduate program in Anatomy and Cell Biology prepares the student for a research and/or teaching career with concentrations in one or more of the following:

- Cell Biology,
- Developmental Biology, and
- Neuroscience.

The program emphasizes research and the skills and knowledge required to perform and communicate the results of research. In addition, because the Anatomy graduate program is in the School of Medicine, students have opportunities to learn aspects of science that are related to important

---

1778  School of Medicine
problems in medicine and to take elective courses oriented toward human biology. Modern biomedical researchers/educators must be versed in a number of disciplines, so the course of study in the department is broadly based; students are encouraged, and in some cases required, to enroll in courses offered by other departments. Research opportunities in the department are widely varied and can accommodate many interests.

The Anatomy and Cell Biology graduate program is designed primarily for the Ph.D. degree. The M.A. degree may be granted in appropriate circumstances. Ph.D. students in the basic sciences at the KU School of Medicine are admitted to the Interdisciplinary Graduate Program in the Biomedical Sciences (IGPBS). After the initial year of course work, students choose a research mentor, then join the department of the mentor. Applications may be made online at the IGPBS website (http://www.kumc.edu/igpbs.html).

Courses

ANAT 832. Electron Microscopy Techniques. 3 Hours.
Basic methods in preparation of tissues and cells for ultrastructural studies; use of electron microscopy in specific research problems; interpretation of biological ultrastructure; reading assignments and discussion sessions. Prerequisite: ANAT 830, or consent of course instructor. LEC.

ANAT 845. Graduate Histology. 2 Hours.
This course will bridge student knowledge of systems/organs with cellular histology and is designed as an accelerated introduction to histological techniques, microscope/optics, and histology. The course will be held within a one month period in the summer. Individual tissues will be covered by a brief 30 minute lecture followed by a 90 minute session of observing the tissues under the microscope. Prerequisite: Advanced course in cell biology (IGPBS module 4 or equivalent) or consent of instructor. LEC.

ANAT 846. Advanced Neuroscience. 5 Hours.
Team taught, in-depth neuroscience course focusing on normal and diseased brain function at the molecular, cellular and systems levels. Lectures and discussions will emphasize current issues in neuroscience research. (Same as PHCL 846, PHSL 846 and NURO 846). Prerequisite: Permission of course director. LEC.

ANAT 847. Developmental Neurobiology. 2 Hours.
Development of the nervous system from early induction to the development of learning and memory. Topics include: Induction; Cellular Differentiation; Axon Growth and Guidance; Target Selection; Cell Survival and Growth; Synapse Formation; Synapse Elimination; and Development of Behavior. (Same as NURO 847 and PHSL 847.) Prerequisite: Advanced Neuroscience (ANAT 846; NURO 846; PHSL 846) or consent of instructor. LEC.

ANAT 848. Molecular Mechanisms of Neurological Disorders. 3 Hours.
An in-depth coverage of pathogenic mechanisms in neurological diseases; cellular and molecular responses to brain injury and disease, neuroinflammatory diseases (e.g., multiple sclerosis), neurodegenerative diseases (e.g., Alzheimer’s, Parkinson’s, Huntington’s, amyotrophic lateral sclerosis, and prion diseases), neurogenetic diseases (e.g., lysosomal and peroxisomal disorders, Down’s syndrome and fragile X), trauma, stroke, and viral diseases (e.g., HIV encephalitis). (Same as NURO 848, PHCL 848, and PHSL 848.) Prerequisite: Advanced Neuroscience (ANAT 846, PHCL 846 or PHSL 846) or an equivalent course and consent of instructor. LEC.

ANAT 868. Advanced Developmental Biology. 2 Hours.
In-depth exposure to the classically important aspects of development using several different animal systems. The course addresses a selected number of topics and bring students up to date with regard to cutting edge research accomplishments in each topic. The materials selected are designed to qualify students for future teaching assignments in Developmental Biology and enhance their research capabilities. Prerequisite: IGPBS Core Curriculum or consent of instructor. LEC.

ANAT 869. Grant Writing. 3 Hours.
All aspects of preparing grant applications are covered. This includes writing an actual grant application containing all the usual elements of grants - budgets, biosketches, resources, and scientific text. In addition, different funding agencies, building research teams, the review process, responding to reviewers, and resubmitting grants will be covered. (Same as HPM 878 and NRSG 889.) Prerequisite: Appropriate research methods and statistics courses in student’s current graduate program; and permission of the instructor. For students in the Outcomes Management and Research concentration, HPM 821. LEC.

ANAT 870. Techniques in Anatomy and Cell Biology. 1-3 Hours.
Advanced study allowing a student to pursue a particular research or educational skill through directed laboratory work. Prerequisite: Consent of instructor. LEC.

ANAT 880. Advanced Topics: _____. 1-5 Hours.
Special study allowing a student to pursue a particular subject through readings, laboratory work, and conferences with a faculty member. Prerequisite: Consent of instructor. IND.

ANAT 885. Seminar. 1 Hour.
Research-oriented presentations in a seminar format by students, faculty, and guests. LEC.

ANAT 890. Master’s Research. 1-10 Hours.
Independent laboratory investigation approved by and under the supervision of the student’s advisor, and in partial fulfillment of the requirements for the M.A. degree. Prerequisite: Consent of advisor. RSH.

ANAT 899. Master’s Thesis. 1-6 Hours.
Preparation of the formal thesis based upon independent research and in partial fulfillment of the requirements for the M.A. degree. Credits will be given only after the thesis has been accepted by the department. Prerequisite: Consent of advisor. THE.

ANAT 900. Analysis of Scientific Papers. 1 Hour.
Research articles are analyzed by the student with the guidance of an instructor in terms of quality of scientific content and mechanics of the presentation. One or more articles are discussed in each tutorial session. The research topics and the instructor are chosen in accordance with the research interest of the student. LAB.

ANAT 990. Doctoral Research. 1-12 Hours.
Original and independent laboratory investigation, approved by and conducted under the supervision of the students’ advisor and advisory committee, in partial fulfillment of the requirements for the Ph.D. degree. Prerequisite: Consent of advisor. LEC.

ANAT 999. Doctoral Dissertation. 1-12 Hours.
Preparation of the dissertation based upon original research and in partial fulfillment of the requirements for the Ph.D. degree. Credits will be given only after the dissertation has been accepted by the student’s dissertation committee. Prerequisite: Consent of advisor. THE.
**Master of Arts in Cell Biology and Anatomy**

**Anatomy and Cell Biology Graduate Programs**

The graduate program in Anatomy and Cell Biology prepares the student for a research and/or teaching career with concentrations in one or more of the following:

- Cell Biology,
- Developmental Biology, and
- Neuroscience.

The program emphasizes research and the skills and knowledge required to perform and communicate the results of research. In addition, because the Anatomy graduate program is in the School of Medicine, students have opportunities to learn aspects of science that are related to important problems in medicine and to take elective courses oriented toward human biology. Modern biomedical researchers/educators must be versed in a number of disciplines, so the course of study in the department is broadly based; students are encouraged, and in some cases required, to enroll in courses offered by other departments. Research opportunities in the department are widely varied and can accommodate many interests.

The Anatomy and Cell Biology graduate program is designed primarily for the Ph.D. degree. The M.A. degree may be granted in appropriate circumstances. Ph.D. students in the basic sciences at the KU School of Medicine are admitted to the Interdisciplinary Graduate Program in the Biomedical Sciences (IGPBS). After the initial year of course work, students choose a research mentor, then join the department of the mentor. Applications may be made online at the IGPBS website (http://www.kumc.edu/igpbs.html).

**Graduate Admission**

Application to the graduate program in Anatomy and Cell Biology is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences. See the IGPBS section for a description of the program and the admission requirements (http://catalog.dept.ku.edu/201314/schools/med/departments). In certain cases, students may be admitted directly into the department. Applicants specifically interested in the Anatomy and Cell Biology graduate programs should contact the department directly for information and review the Direct Admit Checklist on the Graduate Studies website (http://www.kumc.edu/academic-affairs/graduate-studies.html).

**M.A. Degree Requirements**

M.A. degrees are only granted in specific circumstances. Course work and degree requirements are developed on an individual basis by the student, mentor, and the Department of Anatomy and Cell Biology graduate committee.

A minimum of 30 credit hours is required. These hours are divided between formal course work and research/thesis. The student must satisfactorily pass a final general examination or prepare and defend a written thesis in an open seminar.

**Doctor of Philosophy in Cell Biology and Anatomy**

**Anatomy and Cell Biology Graduate Programs**

The graduate program in Anatomy and Cell Biology prepares the student for a research and/or teaching career with concentrations in one or more of the following:

- Cell Biology,
- Developmental Biology, and
- Neuroscience.

The program emphasizes research and the skills and knowledge required to perform and communicate the results of research. In addition, because the Anatomy graduate program is in the School of Medicine, students have opportunities to learn aspects of science that are related to important problems in medicine and to take elective courses oriented toward human biology. Modern biomedical researchers/educators must be versed in a number of disciplines, so the course of study in the department is broadly based; students are encouraged, and in some cases required, to enroll in courses offered by other departments. Research opportunities in the department are widely varied and can accommodate many interests.

The Anatomy and Cell Biology graduate program is designed primarily for the Ph.D. degree. The M.A. degree may be granted in appropriate circumstances. Ph.D. students in the basic sciences at the KU School of Medicine are admitted to the Interdisciplinary Graduate Program in the Biomedical Sciences (IGPBS). After the initial year of course work, students choose a research mentor, then join the department of the mentor. Applications may be made online at the IGPBS website (http://www.kumc.edu/igpbs.html).

**Graduate Admission**

Application to the graduate program in Anatomy and Cell Biology is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences. See the IGPBS section for a description of the program and the admission requirements (http://catalog.dept.ku.edu/201314/schools/med/departments). In certain cases, students may be admitted directly into the department. Applicants specifically interested in the Anatomy and Cell Biology graduate programs should contact the department directly for information and review the Direct Admit Checklist on the Graduate Studies website (http://www.kumc.edu/academic-affairs/graduate-studies.html).

**Ph.D. Degree Requirements**

**Course Requirements**

All students must take the courses of the Interdisciplinary Graduate Program in Biomedical Sciences or an equivalent set of courses approved by the Department Graduate Studies Committee. After completing IGPBS courses, students must take ANAT 900 (http://catalog.ku.edu/201314/allcourses?type=department&group=ANAT&catalog_nbr=900&toggle=0) (Analysis of Scientific Papers) and ANAT 885 (http://catalog.ku.edu/201314/allcourses?type=department&group=ANAT&catalog_nbr=885&toggle=0)
Satisfactorily defend it in a final public seminar and oral examination. The student must complete original research, write a dissertation, and be given in two separate semesters, not including the one in which the student defends. Two presentations in the regular departmental seminar series, or an equivalent seminar approved by the graduate education director, are to be performed for the dissertation. The oral portion of the exam is based in part on the written exam, and is contingent upon the comprehensive exam committee’s preliminary approval of the written exam.

Research Skills and Responsible Scholarship Requirement

All students in doctoral programs must meet the research skills and responsible scholarship requirement (https://documents.ku.edu/policies/Graduate_Studies/Research_Skills_and_Responsible_Scholarship.htm) of the university. Anatomy Ph.D. students meet these requirements during their IGPBS year of study by taking GSMC 857 (http://catalog.ku.edu/201314/allcourses?type=department&group=GSMC&catalog_nbr=857&toggle=0) (Biographics); GSMC 852 (http://catalog.ku.edu/201314/allcourses?type=department&group=GSMC&catalog_nbr=852&toggle=0)/GSMC 855 (http://catalog.ku.edu/201314/allcourses?type=department&group=GSMC&catalog_nbr=855&toggle=0) (Introduction to Biomedical Research I and II); and GSMC 856 (http://catalog.ku.edu/201314/allcourses?type=department&group=GSMC&catalog_nbr=856&toggle=0) (Introduction to Research Ethics). Anatomy MDPhD students meet the "responsible research" requirement by taking either GSMC 856 (Introduction to Research Ethics) the fall semester of their first year in the graduate phase or the Stowers Research Integrity Course the spring semester of their first year in the graduate phase.

Comprehensive Exam

Anatomy Ph.D. students must pass a comprehensive exam by the end of the Fall semester of their third year of graduate school. Anatomy MDPhD students must pass a comprehensive exam by the end of the Fall semester of their second year in their graduate phase of study. The comprehensive exam contains a written and an oral portion. The written portion consists of an NIH-style grant written on the research expected to be performed for the dissertation. The oral portion of the exam is based in part on the written exam, and is contingent upon the comprehensive exam committee’s preliminary approval of the written exam.

Seminar Presentations

Two presentations in the regular departmental seminar series, or an equivalent seminar approved by the graduate education director, are to be given in two separate semesters, not including the one in which the student defends.

Teaching Expertise

Each student must gain teaching experience by assisting in selected courses, chosen with the help of the adviser and the graduate education director.

Dissertation

The student must complete original research, write a dissertation, and satisfactorily defend it in a final public seminar and oral examination. The dissertation must contain data suitable for publication in appropriate peer-reviewed scientific journals.

Department of Biochemistry and Molecular Biology

Biochemistry and Molecular Biology Graduate Programs

The M.S. and Ph.D. degrees may be earned with a major in biochemistry and molecular biology. The M.S. in biochemistry and molecular biology normally leads to positions at the advanced technical level in academic research, industry, or government. It may lead to teaching positions at the secondary or junior college level. The Ph.D. is required for careers in independent research in biochemistry and molecular biology. The Ph.D. most often is followed by one or more years of postdoctoral training in a specific area of research. Ph.D. degree holders in biochemistry and molecular biology may find positions in industry or government and, with some postdoctoral experience, may obtain faculty positions at the college or university level.

Courses

BCHM 801. Research in Biochemistry. 1-10 Hours.
LEC.
BCHM 802. Biochemistry Seminar. 1 Hour.
Weekly meetings. LEC.
BCHM 808. Methods for Analyzing Biomolecules. 3 Hours.
Application of physical techniques to the study of biological macromolecules in solution. Emphasis on utilization of data obtained from such studies in interpreting biological processes at the molecular level. Course will be taught in the spring. Prerequisite: Consent of instructor. LEC.
BCHM 850. Topics in Biochemistry. 1-3 Hours.
Selected topics in biochemistry with varying subject matter. Students should inquire before enrolling. Topics are in-depth studies of current research areas. The course may consist of formal lectures and/or directed readings and studies. IND.
BCHM 862. Biochemical Research-Literature Seminar. 1 Hour.
Students and faculty meet once weekly to discuss the research of students or the current biochemical literature. The student is required to make one presentation. Prerequisite: Consent of instructor. LEC.
BCHM 890. Master's Research. 1-15 Hours.
Research for the M.A. degree. RSH.
BCHM 899. Master's Thesis. 1-15 Hours.
Restricted to the writing of the master's thesis. THE.
BCHM 922. Advanced Molecular Genetics. 3 Hours.
An in-depth analysis of the structure and function of gene regulatory proteins and the mechanisms of gene transcription, and DNA replication and repair. Lectures and discussion of current literature. Prerequisite: consent of instructor. Course will be presented in the fall semester and will include several faculty leading discussions in their area of research interests. LEC.
BCHM 923. Protein Structure and Function. 3 Hours.
The relationship between protein structure, binding, and physiological function. Emphasis is on proteins as enzymes, structural components, and regulators. Course will be taught in the spring. Prerequisite: consent of instructor. LEC.
BCHM 990. Doctoral Research. 1-15 Hours.
Research for the doctoral degree. RSH.

BCHM 999. Doctoral Dissertation. 1-15 Hours.
Restricted to the writing of the doctoral dissertation. THE.

Master of Science in Biochemistry and Molecular Biology

Biochemistry and Molecular Biology Graduate Programs

The M.S. and Ph.D. degrees may be earned with a major in biochemistry and molecular biology. The M.S. in biochemistry and molecular biology normally leads to positions at the advanced technical level in academic research, industry, or government. It may lead to teaching positions at the secondary or junior college level. The Ph.D. is required for careers in independent research in biochemistry and molecular biology. The Ph.D. most often is followed by one or more years of postdoctoral training in a specific area of research. Ph.D. degree holders in biochemistry and molecular biology may find positions in industry or government and, with some postdoctoral experience, may obtain faculty positions at the college or university level.

Graduate Admission

Application to the doctoral program in biochemistry and molecular biology is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences. See the IGPBS section for a description of the program and the admission requirements (p. 1778). In certain cases, doctoral students may be admitted directly into the department. Applicants specifically interested in the biochemistry and molecular biology graduate program should contact Liskin Swint-Kruse, lswint-kruse@kumc.edu and review the Direct Admit Checklist on the Graduate Studies website (http://www.kumc.edu/academic-affairs/graduate-studies.html).

Applicants interested in the master’s program should identify the specific research program in which they are interested and contact the faculty in charge of that program as well as Liskin Swint-Kruse, lswint-kruse@kumc.edu and review the Direct Admit Checklist on the Graduate Studies website (http://www.kumc.edu/academic-affairs/graduate-studies.html).

M.S. Degree Requirements

The curriculum normally requires a minimum of 30 semester credit hours. Half of these hours are usually formal course work and the remainder research and thesis. Students generally must complete the IGPBS core curriculum. Other required courses are BCHM 862, BCHM 890, and BCHM 899. The student is expected to participate in the teaching program during the second year of study.

The student must maintain a B average in nonresearch and seminar credit hours as well as an overall grade-point average of B. Upon completion of research work, the student writes a thesis, presents it as a formal seminar, and defends it to a thesis committee. A final draft of the thesis, approved by the research advisor, is given to the thesis committee at least 3 weeks before the final oral defense.

Doctor of Philosophy in Biochemistry and Molecular Biology

Biochemistry and Molecular Biology Graduate Programs

The M.S. and Ph.D. degrees may be earned with a major in biochemistry and molecular biology. The M.S. in biochemistry and molecular biology normally leads to positions at the advanced technical level in academic research, industry, or government. It may lead to teaching positions at the secondary or junior college level. The Ph.D. is required for careers in independent research in biochemistry and molecular biology. The Ph.D. most often is followed by one or more years of postdoctoral training in a specific area of research. Ph.D. degree holders in biochemistry and molecular biology may find positions in industry or government and, with some postdoctoral experience, may obtain faculty positions at the college or university level.

Ph.D. Degree Requirements

Prerequisites

In addition to the IGPBS admission requirements, the applicant should have taken mathematics through calculus, 2 semesters of organic chemistry, and have a background in the biological or physical sciences. Physical chemistry is recommended but not required.

Course Requirements

Complete the IGPBS core curriculum. Students who have not previously mastered undergraduate biochemistry strengthen any areas of weakness by taking BCHM 850 Topics in Biochemistry in the summer between the IGPBS and Year Two.

Total Hours: 20-36

Additional electives include the following courses; they may be substituted for a required elective on a case-by-case basis.
The student must maintain at least a B average in all nonresearch and nonseminar courses. Credit in research cannot be used to earn this grade-point average. The student completes her or his curriculum by enrolling in BCHM 990 Doctoral Research and writing and defending a Doctoral Dissertation for BCHM 999. All graduate students on half-time assistantships are required to enroll in at least 6 credit hours each regular semester and 3 credit hours for the summer session.

**Research Skills and Responsible Research Requirement**

All students in doctoral programs must meet the research skills and responsible scholarship requirement (https://documents.ku.edu/policies/Graduate_Studies/Research_Skills_and_Responsible_Scholarship.htm) of the university.

Biochemistry Ph.D. students meet these requirements during their IGPBS year of study by taking GSMC 857 Biographics, GSMC 852/GSMC 855 Introduction to Biomedical Research I and II, and GSMC 856 Introduction to Research Ethics.

**Examinations**

Comprehensive written and oral examinations are administered during the Year Two spring semester. The written examination comprises an NIH-style proposal independently developed by the student. The oral examination covers aspects of biochemistry and molecular biology related to the proposal as well as the broader subject area.

**Dissertation**

The student must complete original research, write a dissertation that is acceptable to a dissertation committee, present the results in a formal seminar, and defend the dissertation to a doctoral committee. Students must be enrolled in BCHM 999 Doctoral Dissertation the semester they defend the dissertation.

**Teaching Experience**

Graduate students may gain teaching experience as tutors for medical biochemistry topics and as participants in departmental seminar programs.

**Combined M.D.-Ph.D. Degree**

Outstanding students who are qualified to do so may participate concurrently in work leading to the M.D. and Ph.D. degrees. Credit hours earned in the medical curriculum cannot be transferred as graduate credit hours toward the requirements for the Ph.D. degree, although recognition of satisfactory performance in appropriate medical courses may be given by the Ph.D. program when formulating the student’s additional Ph.D. curriculum. All the requirements for both degrees must be met. The combined degree requirements and application information for the combined M.D.-Ph.D. program are posted on the M.D.-Ph.D. website (http://www.kumc.edu/md-phd-program.html).

---

### Department of Biostatistics

**Biostatistics Graduate Programs**

The biostatistics M.S. and Ph.D. programs were created to help meet the ever-increasing demand for biostatisticians to take leadership roles in careers as researchers and educators in academia, government, and industry. Faculty members are active researchers collaborating and consulting in research projects and initiatives at the Medical Center, in addition to pursuing of their own research agendas and participating in curricular instruction. Expertise in the department includes linear, nonlinear, and longitudinal modeling; clinical trial and experimental design; survival analysis; categorical data analysis; robust statistics; psychometric methods; and Bayesian methodology.

**Courses**

- **BIOS 704. Principles of Statistics in Public Health. 3 Hours.** Introductory course concerning the concepts of statistical reasoning and the role of statistical principles as the scientific basis for public health research and practice. Prerequisite: Permission of instructor. LEC.

- **BIOS 714. Fundamentals of Biostatistics I. 3 Hours.** First-semester course of a two-semester introductory statistics course that provides an understanding of the proper application of statistical methods to scientific research with emphasis on the application of statistical methodology to public health practice and research. This course focuses on basic principles of statistical inference with emphasis on one or two sample methods for continuous and categorical data. This course fulfills the core biostatistics requirement. Prerequisite: Calculus or Permission of Instructor. LEC.

- **BIOS 715. Introduction to Data Management using RedCap and SAS. 3 Hours.** This course will cover the utilization of Redcap and SAS for data management. Data collection and management using Redcap will be covered. Data cleaning and preparation for analysis will be covered using SAS. In addition, some of the basic descriptive analysis procedures will be covered in SAS. Prereq-/Co-requisites: BIOS 704 or BIOS 714 or equivalent with permission of instructor. LEC.

- **BIOS 717. Fundamentals of Biostatistics II. 3 Hours.** Second level statistics course that provides an understanding of more advanced statistical methods to scientific research with an emphasis on the application of statistical methodology to public health practice, public health research, and clinical research. Special focus will be upon the utilization of regression methodology and computer applications of such methodology. Prerequisite: BIOS 714 or equivalent. LEC.

- **BIOS 720. Analysis of Variance. 3 Hours.** Methods for designed experiments including one-way analysis of variance (ANOVA), two-way ANOVA, repeated measures ANOVA, and analysis of covariance are emphasized. Post-ANOVA tests, power and testing assumptions required in NOVA are discussed and applied. Outlier detection using robust estimators also are incorporated. Boxplots, histograms and scatterplots are used to display data. Prerequisite: PRE 710/711 or BIOS 714/717 or equivalent. Preferred: BIOS 715. Knowledge of statistical software, basic statistical plotting methods, p-values, two-sample t-test and simple linear regression is assumed. LEC.

- **BIOS 725. Applied Nonparametric Statistics. 3 Hours.** This course will study nonparametric methods in many situations as highlighted by the following topics: Students will learn how nonparametric methods provide exact p-values for tests, exact coverage probabilities for confidence intervals, exact experimentwise error rates for multiple
BIOS 730. Applied Linear Regression. 3 Hours.
Simple linear regression, multiple regression, logistic regression, nonlinear regression, neural networks, autocorrelation, interactions, and residual diagnostics. Applications of the methods will focus on health related data. Prerequisite: 1) Fundamentals of Biostatistics I (BIOS 714) or the equivalent and 2) Fundamentals of Biostatistics II (BIOS 717) or Analysis of Variance (BIOS 720) or Permission of the Instructor. LEC.

BIOS 735. Categorical Data and Survival Analysis. 3 Hours.
An intermediate level statistics course that provides an understanding of the more advanced statistical methods to scientific research with emphasis on the application of statistical methodology to clinical research, public health practice, public health research and epidemiology. Prerequisite: BIOS 714, BIOS 715, and BIOS 717 or permission of the instructor. LEC.

BIOS 740. Applied Multivariate Methods. 3 Hours.
This course is an advanced statistical course for students who have had fundamental biostatistics and linear regression. Topics to be covered include Hotelling’s T-squared test, MANOVA, principal components, factor analysis, discriminant analysis, canonical analysis, and cluster analysis. More advanced topics such as Multidimensional Scaling or Structural Equation Modeling might be introduced if time allows. Computers will be extensively used through the whole course, and students are suggested to be familiar with some statistical software before taking this course. Although students are allowed to use the software they are comfortable with, SAS will be the primary statistical package used to demonstrate examples in this course. PREREQUISITES: BIOS 730 Applied Linear Regression or equivalents or permission of instructor. LEC.

BIOS 799. Introduction to Statistical Genomics. 3 Hours.
This survey course will provide a high-level introduction to various statistical and bioinformatics methods involved in the study of biological systems. In particular, this course will provide an overview of the analytical aspects involved in: the study DNA, RNA, and DNA methylation data measured from both microarray and next-generation sequencing (NGS) technologies. This course will be held in a block format with 4 hours of lectures a day for two weeks (one week in June and one week in July), with readings and homework assignments assigned throughout the summer semester. Prerequisites: BIOS 714 Fundamentals of Biostatistics I and BIOS 717 Fundamentals of Biostatistics II; Experience with a higher level programming language is preferred. LEC.

BIOS 806. Special Topics in Biostatistics. 1-3 Hours.
This course allows exploration of special topics that are not routinely a part of the curriculum. Prerequisite: Permission of the instructor. LEC.

BIOS 810. Clinical Trials. 3 Hours.
The design, implementations, analysis, and assessment of controlled clinical trials. Basic biostatistical concepts and models will be emphasized. Issues of current concern to trialists will be explored. Prerequisite: By permission of instructor. LEC.

BIOS 820. Statistical Computing/SAS Base L1. 3 Hours.
This is a graduate level course preparing a student for the SAS base programming certification exam. We will cover the topics required for a student to pass the SAS base programming certification exam given by SAS. To this end, topics we will study include, referencing files and setting options, creating list reports, understanding data step processing, creating and managing variables, reading and combining SAS data sets, do loops, arrays, and reading raw data from files. After the completion of the course the student should be able to create SAS programs to read data from external files, manipulate the data into variables to be used in an analysis, generate basic reports showing the results. Prerequisite: Permission of the Instructor LEC.

BIOS 821. Statistical Computing II. 3 Hours.
This is a graduate level course preparing a student for the SAS advanced programming certification exam. We will cover the topics required for a student to pass the SAS advanced programming certification exam given by SAS. To this end, topics we will study include array processing, use of data step views, using the data step to write SAS programs, efficient use of the sort procedure, introduction to the macro language in SAS, and accessing data using SAS PROC SQL. After the completion of the course the student should be able to create SAS programs to read data from external files, manipulate the data into variables to be used in an analysis, generate basic reports showing the results. Prerequisites: BIOS 820 or equivalent (SAS Certified BASE programmer for SAS or at least one year of experience as a data analyst/programmer). LEC.

BIOS 823. Introduction to Programming and Applied Statistics in R. 3 Hours.
This course will provide students with the opportunity to learn advanced statistical programming. The development of new statistical or computational methods often implies the development of programming codes to support its application. Much of this type of development is currently carried out in the R (or S-Plus) language. Indeed much of the recent development of statistical genetics is based on the R programming language and environment. This course provides an introduction to programming in the R language and its applications to applied statistical problems. Prerequisites: Some previous exposure to computer programming. Some basic statistics at the Applied Regression or Applied Design level and permission of instructor. LEC.

BIOS 825. Nonparametric Methods. 3 Hours.
This course is an introduction to nonparametric statistical methods for data that do not satisfy the normality or other usual distributional assumptions. We will cover most of the popular nonparametric methods used for different scenarios, such as a single sample, two independent or related samples, three or more independent or related samples, goodness-of-fit tests, and measures of association. Power and sample size topics will also be covered. The course will cover the theoretical basis of the methods at an intermediate mathematical level, and will also present applications using real world data and statistical software. Prerequisite: Permission of instructor. LEC.

BIOS 830. Experimental Design. 3 Hours.
The emphasis of this course is on learning the basics of experimental design and the appropriate application and interpretation of statistical analysis of variance techniques. Prerequisite: Permission of instructor, BIOS 820 recommended. LEC.

BIOS 833. Sampling Methods. 3 Hours.
Students will be introduced to the design and analysis techniques when sampling from finite populations using simple, stratified, multistage, systematic, and complex sampling designs. Prerequisites: BIOS 830 and BIOS 872 or by permission of instructor. LEC.

BIOS 835. Categorical Data Analysis. 3 Hours.
This course provides an understanding of both the mathematical theory and practical applications for the analysis of data for response measures that are ordinal or nominal categorical variables. This includes univariate analysis, contingency tables, and generalized linear models for categorical response measures. Regression techniques covered for categorical response variables, such as logistic regression and Poisson regression methods, will include those categorical and/or continuous explanatory variables, both with and without interaction.
effects. Prerequisite: By permission of instructor; BIOS 820 and BIOS 840 are recommended. LEC.

**BIOS 840. Linear Regression. 3 Hours.**
This course is an introduction to model building using regression techniques. We will cover many of the popular topics in Linear Regression including: simple linear regression, multiple regression, model selection and validation, diagnostics and remedial measures. Throughout the semester, we will be utilizing primarily SAS. Prerequisite: By permission of the instructor. LEC.

**BIOS 845. Survival Analysis. 3 Hours.**
This class provides an understanding of both the mathematical theory and practical applications for the analysis of time to event data with censoring. This includes univariate analysis, group comparisons, and regression techniques for survival analysis. Parametric and semi-parametric regression techniques covered will include those with categorical and/or continuous explanatory variables, both with and without interaction effects. Prerequisites: BIOS 820, 835, 840, and 871, or by permission of instructor. LEC.

**BIOS 850. Multivariate Statistics. 3 Hours.**
This course will introduce the theory and methods of applied multivariate analysis. As the field of multivariate analysis is very wide and well developed, the course will focus on those methods that are more frequently used in biostatistical applications. Some knowledge of basic matrix algebra is necessary and will be reviewed as the course progresses. Theoretical exercises and analysis of data sets will be assigned to the student. Emphasis will be on biostatistical applications. Prerequisites: BIOS 820 Statistical Computing, BIOS 830 Experimental Design, BIOS 840 Linear Regression. LEC.

**BIOS 855. Statistical Methods in Genomics Research. 3 Hours.**
This survey course will provide a high-level introduction to various statistical and bioinformatics methods involved in the study of biological systems. In particular, this course will provide an overview of the analytical aspects involved in: the study DNA, RNA, and DNA methylation data measured from both microarray and next-generation sequencing (NGS) technologies. This course will be held in a block format with 4 hours of lectures a day for two weeks (one week in June and one week in July), with readings and homework assignments assigned throughout the summer semester. During the last week of the summer semester, students will be required to participate in a group seminar session in which they will present the results from their assigned genomics projects. Prerequisites: BIOS 820 Statistical Computing OR experience programming in a higher level programming language; BIOS 840 Linear Regression; OR by permission of the instructor. LEC.

**BIOS 871. Mathematical Statistics. 3 Hours.**
This course introduces the fundamentals of probability theory, random variables, distribution and density functions, expectations, transformations of random variables, moment generating functions, convergence concepts, sampling distributions, and order statistics. Prerequisite: By permission of instructor. LEC.

**BIOS 872. Mathematical Statistics II. 3 Hours.**
This course introduces the fundamentals of statistical estimation and hypothesis testing, including point and interval estimation, likelihood and sufficiency principles, properties of estimators, loss functions, Bayesian analysis, and asymptotic convergence. Prerequisite: BIOS 871 or by permission of instructor. LEC.

**BIOS 898. Collaborative Research Experience. 3 Hours.**
This course provides students with experience in collaborative research under the supervision of an experienced researcher. The student will spend one semester working under an investigator or faculty member, making independent contributions to a research project. Prerequisites: BIOS 820, 835, 840, 871, and 872, or by permission of instructor. LEC.

**BIOS 900. Linear Models. 3 Hours.**
This course introduces the theory and methods of linear models for data analysis. The course includes the theory of general linear models including regression models, experimental design models, and variance component models. Least squares estimation, the Gauss-Markov theorem, and less than full rank hypotheses will be covered. Prerequisites: BIOS 871 and BIOS 872 or by permission of instructor; BIOS 820 recommended. LEC.

**BIOS 902. Bayesian Statistics. 3 Hours.**
This course introduces Bayesian theory and methods for data analysis. The course includes an overview of the Bayesian approach to statistical inference, performance of Bayesian procedures, Bayesian computational issues, model criticism, and model selection. Case studies from a variety of fields are incorporated into the course. Implementation of models using Markov chain Monte Carlo methods is emphasized. Prerequisites: BIOS 871 and 872 or by permissions of instructor; BIOS 820 recommended. LEC.

**BIOS 905. Theory of Statistical Inference. 3 Hours.**
This course covers advanced aspects of statistical inference. It is aimed at preparing Ph.D. BIOS students for the Ph.D. comprehensive exam and will emphasize advanced biostatistical ideas as well as problem solving techniques. Prerequisites: Mathematical Statistics I, Mathematical Statistics II. By permission of instructor. LEC.

**BIOS 906. Advanced Special Topics in Biostatistics. 1-3 Hours.**
This course allows exploration of special topics that are not routinely a part of the Biostatistics Ph.D. curriculum. Prerequisite: Passing grade on the Ph.D Qualifying exam. Permission of the instructor. LEC.

**BIOS 908. Advanced Clinical Trials. 3 Hours.**
This course provides an introduction to recent innovations in clinical trial designs and analysis methods. Topics include concepts of controls, randomization; common trial designs by phase of clinical development; sample size calculations; interim analysis; and adaptive clinical trials. Traditional frequentist and likelihood approaches to trial design and analysis will be covered in the first half of the course; the Bayesian approach (including adaptive clinical trials designs) will be emphasized in the second half of the course. Prerequisites: BIOS 810, BIOS 820, BIOS 830, BIOS 835, BIOS 840. BIOS 821 recommended. Permission of the Instructor. LEC.

**BIOS 910. Generalized Linear Models. 3 Hours.**
This course on Generalized Linear Models (GLM) is designed for both the applied and theoretical statistician. In this course we introduce the theoretical foundations and key applications of generalized linear models. Prerequisites: BIOS 835 Categorical Data Analysis, BIOS 840 Linear Regression, BIOS 890 Linear Models or by permission of instructor. LEC.

**BIOS 911. Nonlinear Models. 3 Hours.**
This course will involve both theory and applications of nonlinear models, with emphasis in biological, medical, and pharmaceutical research. Applications to dose-response studies, bioassay studies and clinical pharmacokinetics and pharmacodynamics studies will be discussed. Nonlinear mixed effects models will also be examined, as well as criteria for optimal experimental designs based on nonlinear models. This course will cover the theoretical basis of the methods at an intermediate mathematical level, and will also present applications using real world data and statistical software. Prerequisite: BIOS 890 Linear Models. LEC.
BIOS 915. Longitudinal Data Analysis. 3 Hours.
A longitudinal study is a research study that involves repeated observations of the same individuals and events over extended periods of time. It is typically a type of observational study, though may have design components. In medical settings these studies and related models are used to observe the developmental path of a disease or treatment through time. Often this is in the context of follow-up and long-term study of both progress and potential side-effects. As the study involves the same individuals (subject to drop-out) through several time points, statistical methods must employ random effects or "mixed models" incorporating various correlation structures. This is typically done using generalized estimating equations and marginal model approaches. Bayesian methods may also be appropriate here. Students will, after completing this course, be able to design and analyze longitudinal studies. The computer package to be employed is SAS. Prerequisites: BIOS 820, BIOS 830, BIOS 840, BIOS 871, BIOS 872, and BIOS 890 or by permission of instructor. LEC.

BIOS 920. Latent Variable Analysis. 3 Hours.
Latent variables refer to random variables whose realization values are not observable or cannot be measured without error, and their inferences rely on statistical models connecting latent and other observed variables. This course aims to introduce a family of such statistical models and their applications in biomedical and public health research. The course is designed as an elective course for students in the Biostatistics graduate program. We will use the statistical packages of M-plus, R, and/or SAS for the course. Prerequisite: BIOS 835 and BIOS 890, or by permission of instructor. Familiarity with vectors and matrices is strongly encouraged. LEC.

BIOS 930. Data Mining. 3 Hours.
This is a graduate level course introducing students to common steps used in data mining such as accessing and assaying prepared data, pattern discovery, predictive modeling using decision trees, regression, neural networks, and model assessment methods. Prerequisites: BIOS 820, BIOS 821, BIOS 850, BIOS 890, and permission of instructor. LEC.

BIOS 999. Doctoral Dissertation. 1-6 Hours.
Preparation of the doctoral dissertation based upon original research and in partial fulfillment of the requirements for the Ph.D. degree. Credits will be given only after the dissertation has been accepted by the student's dissertation committee. Prerequisite: Successful completion of the Department of Biostatistics Ph.D. Comprehensive Exam and consent of advisor. LEC.

Master of Science in Biostatistics

Biostatistics Graduate Programs

The biostatistics M.S. and Ph.D. programs were created to help meet the ever-increasing demand for biostatisticians to take leadership roles in careers as researchers and educators in academia, government, and industry. Faculty members are active researchers collaborating and consulting in research projects and initiatives at the Medical Center, in addition to pursuing of their own research agendas and participating in curricular instruction. Expertise in the department includes linear, nonlinear, and longitudinal modeling; clinical trial and experimental design; survival analysis; categorical data analysis; robust statistics; psychometric methods; and Bayesian methodology.

Graduate Admission

Biostatistics Admission Criteria, Materials, and Timeline

Candidates pursuing the biostatistics degree must meet general KUMC requirements for admission to graduate studies. Admission is competitive and limited.

- Students applying for the M.S. program must have a bachelor’s degree from an accredited institution.
- Students applying directly to the Ph.D. program must have a master’s degree in statistics, biostatistics, mathematics, or applied mathematics from an accredited program or a terminal degree (M.D., Ph.D.) in another field and must get approval from the graduate program. Otherwise, applicants should apply for the M.S. program.

In addition to these degree requirements, the minimum requirements for admission to the biostatistics program include:

1. An undergraduate grade-point average of 3.0 on a 4.0 scale (applicants with GPAs below 3.0 may be considered for admission on provisional status),
2. A B average in calculus I through III (or equivalent),
3. Successful completion of a course in any computer programming language,
4. Successful completion of at least 1 of the following courses: linear algebra, differential equations, numerical analysis.
5. A background check (http://www.kumc.edu/student-services/vice-chancellor-of-student-services/criminal-background-checks-for-students.html) is required during the admission process; it may affect the student’s eligibility to enter the program.

Applications for the fall semester should be received by March 1 for consideration. All biostatistics applications must be supported by:

1. Official transcripts bearing the seal from each college or university in which course work was taken,
2. Graduate Record Examination scores,
3. 3 letters of recommendation,
4. A current resume or curriculum vitae,
5. A personal statement regarding your interest in biostatistics and in biomedical research.

Applicants whose native language is not English or who graduated from a foreign institution must submit TOEFL scores less than 2 years old. The complete minimum English proficiency requirements for KUMC students can be found on the International Programs website (http://www.kumc.edu/international-programs/academic-english-requirements.html). Applicants who earned a degree outside the United States must submit a transcript evaluation for U.S. equivalent degree and grade-point average.

Online application and procedures can be found on the department’s website (http://biostatistics.kumc.edu).

M.S. Degree Program

The M.S. program prepares students to function as biostatisticians or biostatistical consultants. Upon completion of the M.S. in biostatistics, the student has an extensive understanding of biostatistical theory and
practice and is proficient in the computation and application of statistical methods to one or more areas in the health sciences.

M.S. Degree Requirements
The biostatistics M.S. program consists of 36 credit hours including collaborative research experience, annual evaluations, and the successful completion of the master’s general examination.

The course plan consists of 27 credit hours from required biostatistics core courses including 3 credit hours of Collaborative Research Experience. This requirement ensures the completion of a research component through collaborative effort within or external to the department.

A minimum of 9 credit hours in elective courses is also required. Elective credit hours include a minimum of 3 and a maximum of 6 credit hours in approved courses from outside the department and a minimum of 3 and maximum of 6 credit hours in biostatistics electives. Biostatistics electives can be chosen from the list of elective classes and the required Ph.D. courses.

Required Biostatistics M.S. Core Courses (27 credit hours)

Annual Evaluations
Students are evaluated each April by their graduate advisors and the director of the graduate program. These evaluations provide feedback to the student regarding the progress they are making in meeting program requirements, classroom performance, and research performance.

Master’s General Examination
The master’s general examination is given after a student’s third full semester in residence, assuming the completion of the following courses: Mathematical Statistics I and II, Statistical Computing, Experimental Design, Linear Regression, and Categorical Data Analysis. The examination has 3 purposes: to assess the student’s strengths and weaknesses; to determine whether the student should be awarded the M.S. degree; and, if it is a degree goal, to determine whether the student is prepared to continue into the Ph.D. program.

Doctor of Philosophy in Biostatistics

Biostatistics Graduate Programs
The biostatistics M.S. and Ph.D. programs were created to help meet the ever-increasing demand for biostatisticians to take leadership roles in careers as researchers and educators in academia, government, and industry. Faculty members are active researchers collaborating and consulting in research projects and initiatives at the Medical Center, in addition to pursuing of their own research agendas and participating in curricular instruction. Expertise in the department includes linear, nonlinear, and longitudinal modeling; clinical trial and experimental design; survival analysis; categorical data analysis; robust statistics; psychometric methods; and Bayesian methodology.

Graduate Admission
Biostatistics Admission Criteria, Materials, and Timeline
Candidates pursuing the biostatistics degree must meet general KUMC requirements for admission to graduate studies. Admission is competitive and limited.

- Students applying for the M.S. program must have a bachelor's degree from an accredited institution.
- Students applying directly to the Ph.D. program must have a master’s degree in statistics, biostatistics, mathematics, or applied mathematics from an accredited program or a terminal degree (M.D., Ph.D.) in another field and must get approval from the graduate program.
- Otherwise, applicants should apply for the M.S. program.

In addition to these degree requirements, the minimum requirements for admission to the biostatistics program include

1. An undergraduate grade-point average of 3.0 on a 4.0 scale (applicants with GPAs below 3.0 may be considered for admission on provisional status),
2. A B average in calculus I through III (or equivalent),
3. Successful completion of a course in any computer programming language,
4. Successful completion of at least 1 of the following courses: linear algebra, differential equations, numerical analysis.
5. A background check (http://www.kumc.edu/student-services/vice-chancellor-of-student-services/criminal-background-checks-for-students.html) is required during the admission process; it may affect the student’s eligibility to enter the program.

Applications for the fall semester should be received by March 1 for consideration. All biostatistics applications must be supported by

1. Official transcripts bearing the seal from each college or university in which course work was taken,
2. Graduate Record Examination scores,
3. 3 letters of recommendation,
4. A current resume or curriculum vitae,
5. A personal statement regarding your interest in biostatistics and in biomedical research.

Applicants whose native language is not English or who graduated from a foreign institution must submit TOEFL scores less than 2 years old. The complete minimum English proficiency requirements for KUMC students can be found on the International Programs website (http://www.kumc.edu/international-programs/academic-english-requirements.html). Applicants who earned a degree outside the United States must submit a transcript evaluation for U.S. equivalent degree and grade-point average.

Online application and procedures can be found on the department’s website (http://biostatistics.kumc.edu).
Ph.D. Degree Program

The Ph.D. program produces biostatisticians who can develop biostatistical methodology that can be used to solve problems in public health and the biomedical sciences. In addition, graduates are prepared to apply biostatistical and epidemiology methodology for the design and analysis of public health and biomedical research investigations. Finally, graduates are well suited to function as collaborators or team leaders on research projects in the biomedical and public health sciences.

Ph.D. Degree Requirements

The program consists of 63 credit hours including collaborative research experience, annual evaluations, graduate examinations, and the successful completion of a doctoral dissertation. Dissertation research culminates in a final dissertation examination consisting of an oral presentation by the candidate and an examination by the faculty.

Relevant prior graduate work is taken into consideration in setting up individual programs of study leading to the Ph.D. The typical course plan consisting of 63 credit hours is designed for students who have not previously completed a M.S. in biostatistics or directly relevant area. The course plan for a student who has previously completed a M.S. in biostatistics or directly relevant area is customized to account for master’s-level courses already taken; therefore the total credit hours required will vary. Students applying directly to the Ph.D. program must have a master’s degree in statistics, applied statistics, biostatistics, mathematics, or applied mathematics from an accredited program or a terminal degree (M.D., Ph.D.) in another field and must get approval from the graduate program. Otherwise, applicants should apply for the M.S. program.

The typical program consists of 63 credit hours including collaborative research experience, annual evaluations, graduate examinations, and the successful completion of a doctoral dissertation.

Required Biostatistics Ph.D. Core Courses (42 credit hours)

Annual Evaluations

Students are evaluated each April by their graduate advisors and the director of the graduate program. These evaluations provide feedback to the student regarding the progress they are making in meeting program requirements, classroom performance, and research performance.

Qualifying Examination

The qualifying examination is given after a student’s third full semester in residence, assuming the completion of the following courses: Mathematical Statistics I and II, Statistical Computing, Experimental Design, Linear Regression, and Categorical Data Analysis. The examination has two purposes: to assess the student’s strengths and weaknesses and to determine whether the student is sufficiently prepared to continue in the Ph.D. program.

Comprehensive Examination

The comprehensive examination is typically given at the end of a student’s fifth full semester in residence, when a doctoral aspirant has completed the major portion of the course work at a satisfactory level and met all other program, school, and general requirements prerequisite to the comprehensive examination, including the research skill and responsible scholarship requirements (https://documents.ku.edu/policies/Graduate_Studies/Research_Skills_and_Responsible_Scholarship.htm) of the university.

The examination assesses the student’s strengths and weaknesses and determines whether the student should continue in the Ph.D. program. There is both a written component to the exam and a subsequent presentation and defense of a dissertation proposal.

Dissertation

Students are recognized as formal candidates for the Ph.D. only after they have passed the comprehensive examination and completed all residency and departmental requirements. The candidate must present a dissertation showing the planning, conduct, and results of original research and scholarly activity. The purpose of the dissertation is to encourage and ensure the development of broad intellectual capabilities as well as to demonstrate an intensive focus on a problem or research area. This work is carried out under the guidance of a dissertation advisor.

Final Oral Examination

When the completed dissertation has been accepted by the dissertation committee in final draft form and all other degree requirements have been satisfied the chair of the committee requests (at least 3 weeks before the date of the examination) the Graduate Division to schedule the final oral examination. The student is required to be enrolled in BIOS 999 Dissertation the semester they defend the dissertation.

Statistical Applications Graduate Certificate

The Statistical Applications Graduate Certificate is awarded to those who have demonstrated specialized knowledge in a scientific field, but not to the level required by a postgraduate master’s degree. The Graduate Certificate in Statistical Applications proposed herein requires individuals to acquire sufficient knowledge and expertise to permit them to work at the frontier of their field through:

1. Becoming familiar with statistical methods in research, business, and industry.
2. Becoming excellent consumers of the literature where statistical applications are utilized.
3. Applying many of the common statistical methods to compliment his or her every day job duties. Course work in this proposal is designed with this purpose in mind.
Characteristics of Graduates:
Upon completion of the Graduate Certificate in Statistical Applications, the student should be prepared to apply many of the common statistical methods to compliment his or her every day job duties. Therefore the student must have a basic understanding of statistical practice and should be proficient in the application of common statistical methods to one or more areas application. At the completion of the Graduate Certificate in Statistical Applications the graduate should be able to:

1. Demonstrate a basic knowledge and understanding of the applications of some of the more common statistical methods.
2. Function as a collaborator on a research team.
3. Critically evaluate the literature where statistical applications are used.
4. Take a leadership role in the implementation of a research project.
5. Prepare reports and publications resulting from research studies.
6. Serve as an advocate for proper statistical application and interpretation of results in his or her field.

To pursue the Graduate Certificate, the applicant must meet the general KU requirements for admission to graduate studies. The minimum requirements for admission into the Statistics Graduate Certificate program are:

1. An undergraduate GPA of 3.0 or better is required for regular admission status. Provisional status may be granted for applicants with GPAs of less than 3.0, provided they meet the academic standards of the Department without excessive deficiencies in prerequisites.
2. Letter grade B or better in calculus I (or equivalent) or a quantitative GRE score in the 70th percentile or higher.
3. Letter grade B or better in a graduate-level introductory statistics course (e.g., BIOS 717: Fundamentals of Biostatistics II or equivalent). Note: Students not meeting this requirement may fulfill this with completion of BIOS 717.

An applicant meeting the fore going standards is referred to the Biostatistics admissions committee for approval or disapproval.

Additional reference to KUMC Graduate Studies: http://catalog.ku.edu/201314/schools/gs/certificates

No student may work toward a graduate certificate without being accepted as a graduate certificate student in a specific graduate certificate program. Graduate certificates are not granted retroactively. An individual who is not currently a degree-seeking graduate student at KU must apply and may be admitted directly to a graduate certificate program.

Degree-seeking graduate students admitted to a certificate program must be in good standing (3.0 or higher grade-point average) with their departments. A degree-seeking student currently enrolled in a graduate degree program who wishes to pursue a simultaneous graduate certificate in another department must inform the graduate director/advisor/coordinator in the home department of his or her intent to seek the certificate, in addition to applying directly to a graduate certificate program.

The graduate certificate program is not a means of entry into a graduate degree program. If students admitted to a graduate certificate program are later admitted to a graduate degree program as degree-seeking, applicable courses taken for the graduate certificate program may, upon recommendation of the department or program to its Graduate Division and within general guidelines, be approved by the division to be counted toward the degree.

While the courses comprising a graduate certificate may be used as evidence in support of a student’s application for admission to a graduate degree program, the certificate itself is not considered to be a prerequisite and does not guarantee admission into any graduate degree program. The certificate program is not intended to serve as a default system for students in a degree program who find that they are not able to complete the degree for academic or other reasons. Should a student drop out of a degree program and seek admission to a certificate program, all certificate admission requirements must be followed for admission and conferred.

Graduate credit from another institution may not be transferred to a KU graduate certificate program.

Application for admission to the Statistics Graduate Certificate program is through the Department of Biostatistics. The following materials are required for admission:

2. An official transcript bearing the official seal from each college or university in which coursework had been taken. Evidence of a Bachelor’s Degree from an accredited college or university is required.
3. Graduate Record Examination (GRE) scores.
4. Students currently enrolled in graduate programs at KUMC or KU must be in good standing (3.0 or higher GPA) and have a letter of approval from their current graduate program director and/or department chair indicating support for enrolling into the certificate program.
5. An application fee of $75.00 is required for each student application. For those students that are currently enrolled in a KUMC, KU Lawrence, KU School of Medicine Wichita and Salina program the application fee will be waived in full upon verification.
6. If an applicant is a current KU or KUMC student we must receive a letter of approval from the program department at which the student is enrolled in.
7. A background check (http://www.kumc.edu/student-services/vice-chancellor-of-student-services/criminal-background-checks-for-students.html) is required during the admission process; it may affect the student’s eligibility to enter the program.

Applicants whose native language is not English or who graduated from a foreign institution must submit TOEFL scores less than 2 years old. The complete minimum English proficiency requirements for KUMC students can be found on the International Programs website (http://www.kumc.edu/international-programs/academic-english-requirements.html).

Applicants who earned a degree outside the United States must submit a transcript evaluation for U.S. equivalent degree and grade-point average.

Online application and procedures can be found on the department’s website (http://biostatistics.kumc.edu).

Course Plan/Certificate Requirements For Students Seeking a Graduate Degree:
For individuals already seeking a post-graduate degree at KUMC, KU-L, KU Wichita or Salina campuses a minimum of 12 post-Bachelor’s Degree credit hours are required with a B or better grade in each course to be awarded the Graduate Certificate. Biostatistics courses required by their current program cannot count toward the 12 credit hours. The course plan consists of 12 credit hours from courses in statistical applications through the Department of Biostatistics:

**Statistical Application Courses (12 credit hours, choose 4):**

*KUMC Department of Biostatistics Website - http://www.kumc.edu/school-of-medicine/department-of-biostatistics/biostatistics-graduate-program.html.

**Statistics Graduate Certificate**

The Statistics Graduate Certificate is awarded to those who have demonstrated specialized knowledge in a scientific field, but not to the level required by a postgraduate master’s degree. The certificate program requires individuals to acquire focused knowledge in statistical theory, with an emphasis on application.

**Characteristics of Graduates:**

Upon completion of the Graduate Certificate in Statistics, the student should be prepared to apply many of the common statistical methods to compliment his or her every day job duties. Therefore the student must have a basic understanding of the statistical theory and practice and should be proficient in the application of common statistical methods to one or more areas application. At the completion of the Graduate Certificate in Statistics the graduate should be able to:

1. Demonstrate a basic knowledge and understanding of the statistical theory and practice as applicable to his or her field.
2. Function as a collaborator on a research team.
3. Critically evaluate the literature where statistical applications are used.
4. Take a leadership role in the design and implementation of a research project.
5. Assume responsibility for the design and implementation of analyses for a research project.
6. Prepare reports and publications resulting from research studies.
7. Serve as an advocate for proper statistical design and interpretation of results in his or her field.

To pursue the Graduate Certificate, the applicant must meet the general KU requirements for admission to graduate studies. The minimum requirements for admission into the Statistics Graduate Certificate program are:

1. An undergraduate GPA of 3.0 or better is required for regular admission status. Provisional status may be granted for applicants with GPAs of less than 3.0, provided they meet the academic standards of the Department without excessive deficiencies in prerequisites.
2. Letter grade B or better in calculus I – III (or equivalent).
3. Successful completion of a course in any computer programming language.
4. Successful completion of at least one of the following courses: linear algebra, differential equations, numerical analysis.

An applicant meeting the foregoing standards is referred to the Biostatistics admissions committee for approval or disapproval.

Additional reference to KUMC Graduate Studies: http://catalog.ku.edu/201314/schools/gs/certificates

No student may work toward a graduate certificate without being accepted as a graduate certificate student in a specific graduate certificate program. Graduate certificates are not granted retroactively. An individual who is not currently a degree-seeking graduate student at KU must apply and may be admitted directly to a graduate certificate program.

Degree-seeking graduate students admitted to a certificate program must be in good standing (3.0 or higher grade-point average) with their departments. *All course prerequisites must be met for enrollment to courses.*

*KUMC Department of Biostatistics Website - http://www.kumc.edu/school-of-medicine/department-of-biostatistics/biostatistics-graduate-program.html.*

**Department of Health Policy and Management**

**Health Policy and Management Graduate Programs**

The Department of Health Policy and Management offers the Master of Health Services Administration and the Doctor of Philosophy in Health Policy and Management degrees.

**Courses**

**HP&M 610. The Health Care System. 4 Hours.**

This course introduces students to the health care system of the United States. The course stresses the system’s historical development, distinguishing features, financing, management, resources, and politics. Requirements include position papers, class discussions, examinations, and site visits to health care facilities LEC.

**HP&M 620. Women and Health Care. 3 Hours.**

A gender analysis of the organization of health care in the United States, using sociohistorical and sociological perspectives. Considers the health status and health care problems of women in relation to cultural aspects of medicine and health care; the roles of both informal and professional health care providers; the political economy of health care systems; and the relationship between gender and the state. (Same as SOC 617.) Prerequisite: HPM 601 or permission of instructor. LEC.
HP&M 810. The Health Care System. 3 Hours.
The structure and function of the components of the U.S. healthcare system are introduced in the context of the history, values and social forces that influenced its development and evolution. Students gain exposure to the concepts and vocabulary associated with aspects of the system, including delivery (providers, institutions, services), resources (finance, payment, insurance), population and public health, and outcomes (cost, access, quality). Healthcare outcomes from consumer, clinical, and societal perspectives are explored. LEC LEC.

HP&M 819. Research for Health Care Leaders. 3 Hours.
Introduces epidemiology, survey research, and evaluation research. Examines quantitative and qualitative methods. Focuses on role of research in health policy and health management. Incorporates lecture, discussion, papers and presentations. LEC.

HP&M 822. Health Care Economics. 3 Hours.
This course introduces the core concepts from economics to healthcare with a focus on helping healthcare managers use economic tools in making sound decisions. The demand for healthcare products, the structure of insurance, and the supply of healthcare products are examined. Students will apply a variety of economic analyses to health policy and health system issues. LEC LEC.

HP&M 825. Financial Concepts in Healthcare Management. 3 Hours.
Financial accountability is a critical responsibility of health services administrators. This course presents basic concepts and techniques for effective decision-making and stewardship, including financial statement analysis; strategic financial planning; capital formation; responsibility and cost accounting; operational, capital and cash budgeting; capital project analysis; and working capital management. LEC LEC.

HP&M 827. Financial Applications in Healthcare Management. 3 Hours.
Administrative applications of economic and financial concepts are applied to support strategic and financial goals. The concept of integrating operational and strategic planning into a strategic financial plan is developed. This course will foster integration and confidence in performing and applying financial analytical procedures such as financial statement ratio analysis; revenue and expense forecasting (budgeting); credit worthiness determination; break-even analysis and working capital management in a variety of healthcare settings including long-term care and public health. Prerequisite: HPM 825, Financial Concepts in Healthcare Management. LEC LEC.

HP&M 830. Health Care Management. 3 Hours.
This course introduces key concepts and skills for health care managers. Emphasizing self-discovery and professional development, the course examines how to become an informed employee, an effective team member, and a successful manager. Course topics include interpersonal skills, delegation, leadership, performance management, and organizational change. Learning methods include lectures, case analyses, experiential exercises, and discussion. Prerequisites: HPM 810 or permission of instructor. LEC.

HP&M 831. Reimbursement and Fiscal Policy. 2 Hours.
Reimbursement and fiscal policy practices impact the success and the economic well-being of healthcare institutions, payers and patients. This course develops the student’s understanding of complex reimbursement methodologies from the perspective of providers and payers. Students will explore the strengths and weaknesses of the major methods of third party reimbursement, the types of managed care organizations and the payment methodologies employed. Students are also prepared to approach reimbursement policy issues both from the payer and the provider viewpoint. LEC LEC.

HP&M 832. Governance and Health Law. 2 Hours.
A survey course of the law as it affects governance, health care administration and health care generally. This course will develop the student’s understanding of health law and its impact on many aspects of health care governance and administration. The student should be able to identify and understand various legal issues they may encounter and when to engage legal counsel’s advice. Prerequisite: HPM 810. LEC.

HP&M 833. Ethics. 2 Hours.
An introduction to the principles and concepts in the ethics of health services administration. The course will help students further develop their skills to recognize and analyze ethical dilemmas, and to explain, justify and evaluate the decisions they make in response to such dilemmas. LEC.

HP&M 837. Health Policy. 3 Hours.
This course examines the development, implementation, and evaluation of federal, state, and local health policy in the United States. Particular attention will be given to (1) the development of public institutions and policy goals; and (2) current policy problems such as cost controls, reimbursement, health services utilization, program assessment and evaluation, public health, and public/private investment and resource planning. Students will be expected to synthesize and integrate knowledge to apply theory and principles in ways consistent with professional practice as a health policy analyst. LEC LEC.

HP&M 838. Rural Health Care. 3 Hours.
Provides students with (a) an understanding of major issues in rural health and the rural environment in which health care providers and administrators provide service; (b) an understanding of the demographics, economics, services and challenges associated with the health care delivery systems in rural America and (c) an overview of federal and state health policy and its effect on rural health systems. Special emphasis will be placed on identifying, understanding, and addressing rural health challenges from administrative and policy perspectives. Prerequisites: None. LEC.

HP&M 840. Organizational Foundations for Leading Change. 3 Hours.
Self-discovery as a foundation for professional development while exploring the concepts of leader, manager, and follower is emphasized. Analysis and prediction of an organization’s stages of development and its capacity for linear and social change are introduced through the lens of complexity science. Political, legal, ethical, and other issues that constrain and destabilize organizations and strategies to restore equilibrium are explored. (Same as NRSG 880). LEC LEC.

HP&M 842. Roles, Functions and Care Models. 2 Hours.
This course examines the nature and characteristics of the healthcare workforce needed to deliver direct, indirect, and support services. Healthcare worker roles are analyzed through the lens of key organizational functions and care delivery modalities. Common care delivery models, such as primary, team, and patient-centered care approaches to organizing care delivery are explored in various clinical settings, including acute and long-term care and community and public health entities. Administrative challenges and opportunities for managing a diverse workforce are presented. LEC. LEC.

HP&M 844. Communication for the Healthcare Executive. 2 Hours.
This course focuses on attaining proficient communication skills to deliver high impact messages to stakeholders ranging from board members, to diverse communities of interest, to policymakers and regulators. Verbal and written skill development addresses executive presence to perform communication functions such as conducting an ‘ask’ from a policymaker or potential benefactor, using storytelling and data to shape critical messages to the media, and communicating value-driven
memoranda to internal audiences. The use of emerging technologies to aid in communication effectiveness will also be presented. LEC.

HP&M 846. Managing Information Systems and Technology. 3 Hours.
This course covers fundamental concepts of management information systems; current and developing health and business information systems of interest to managers in health services organizations; healthcare information system architecture; security and privacy issues; uses of healthcare information for clinical and strategic analysis and decision support; techniques required to develop and evaluate a technological request for proposal; and thoughts on the future of healthcare information systems including bio-informatics, community health systems and web-based access to health information. The course will also cover current information and issues regarding the latest technology applications. LEC LEC.

HP&M 848. Designing Health Care Organizations. 2 Hours.
This class examines how design affects a broad range of health care organizations. It considers designs for jobs, processes, equipment, buildings, and organizations, and explores implications for safety, customer satisfaction, worker satisfaction, productivity, effectiveness, and profitability. Students analyze varied cases that approach design as a management decision-making process. LEC.

HP&M 850. Introduction to Operations. 3 Hours.
Examines performance of health care organizations, sources of variation, methods of measurement, and strategies for improving performance. Considers several approaches to performance improvement and examines tools widely used in operations management. Incorporates lecture, discussion, and fieldwork. (Same as NRSG 882.) LEC.

HP&M 852. Strategic Marketing. 2 Hours.
Provides students with a framework for executive-level, strategic market planning and analysis. Topics covered include: the strategic marketing organization; the impact of organizational culture on strategy development; environmental assignments and competitor analysis; market research; and the impact of the marketing fours (price, positioning, promotion, and product) in health care. LEC.

HP&M 853. Strategic Management. 2 Hours.
Explores internal and external analysis for health care organizations. Examines development, analysis, execution, and monitoring of strategies. Application of critical thinking skills to strategy. Lecture and discussion. Prerequisites: Completion of HPM Level I courses or permission of instructor. LEC.

HP&M 854. Human Resources and Workforce Development. 3 Hours.
The focus of this course is to understand the leadership functions of human resource management in organizations to create a competitive edge through employee empowerment. Core human resource concepts are introduced and applied to optimize human capital within a variety of healthcare settings, including compensation and benefits, employee recognition, and employee/labor relations. National, regional and local strategies and workforce trends are discussed related to best practices for the selection, retention, and management as a healthcare employer of choice. (Same as NRSG 891). LEC LEC.

HP&M 857. Evaluating Outcomes of Healthcare. 3 Hours.
This course will trace the development of the outcomes research movement and provide examples of methodologies, assessment instruments and issues that guide outcomes research. It will also review the methods for linking research findings with clinical practice (i.e., clinical practice guidelines). Obstacles to acceptance of practice guidelines will be discussed. Finally, translation of outcomes research methodology into programs to improve health quality will be presented. Prerequisite: Permission of instructor. LEC.

HP&M 858. Health and Social Behavior. 3 Hours.
Healthcare as a cultural and socio-behavioral system is presented. Using research and theory, students explore alternative perspectives on the nature of medicine and healing within comparative health systems, both U.S. and abroad. Students examine at an advanced level how healthcare organizational structures contribute to patient health outcomes and influence employee behaviors. The course reinforces the nature and characteristics of the health professions, particularly medicine and nursing perceptions, and the complex behavioral dynamics of health professionals with organizational leaders. LEC LEC.

HP&M 859. Professional Development. 1 Hour.
Prepares students for an initial professional job search. Explores professional networking, search strategies, resume construction, and interviewing. Reviews professional communication. Incorporates lecture, discussion, and fieldwork. Prerequisite: Permission of instructor. LEC.

HP&M 860. Graduate Internship in Healthcare Services Administration. 1-3 Hours.
This course is designed to meet the needs of individual students to advance their career functioning and set in motion a professional development plan. The inexperienced administrator will use the internship as a mid-curriculum opportunity to apply and synthesize in the practice setting knowledge, skills, and abilities. Students who come to the program with mid-level to advanced experience use the practicum to advance their career through exposure to additional experiences that extends their knowledge, skills, and abilities and demonstrates synthesis of program competencies. FLD FLD.

HP&M 861. Capstone Seminar. 2 Hours.
The knowledge, skills, and abilities learned throughout the program are validated in capstone experience. A case study approach will be used to synthesize and apply principles including, but not limited to, change theory and quality improvement, research and information technologies, strategy and communication tools, human resource management, financial and economic analysis, and advanced decision-making and management of organizational behavior. Students will present their cases to peers, faculty, and external reviewers for dialogue, critique, and a plan for professional skills development. IND. RSH.

HP&M 862. Research Practicum in Health Services Administration. 3 Hours.
A course to explore applied research topics associated with specific health services delivery of management problems. Prerequisites: HPM 821 and HPM 830. RSH RSH.

HP&M 863. Independent Study. 1-3 Hours.
This course is designed to meet the needs of students who have a special interest that cannot be met by existing courses. IND IND.

HP&M 866. Field Immersion in Health Systems Issues and Trends. 1 Hour.
This field-based experience exposes students to a range of issues and trends in health care organizations - public and private, profit and nonprofit. The aim is to engage students in the realities of health system challenges and problems, which can be informed by health services research. Site visits and contacts with executives and policy leaders serve as the basis for scholarly analysis. Prerequisite: Permission of the instructor. FLD.

HP&M 869. Field Immersion in Health Systems Data Management. 1 Hour.
This field-based experience exposes students to current managerial realities and trends in information technology and data management within health care and policy settings. The aim is to engage students in
information technology roles and functions, data set and performance metrics, available systems of technology support, and the scope of data collection, organization and management issues faced by health systems. Prerequisites: HPM 888 or permission of the instructor. LEC.

HP&M 870. Research Inquiry I: Defining and Supporting the Research Problem. 1 Hour.
Students select a problem area, critically review and analyze the research literature related to it and develop a research question(s) and working hypotheses. The analysis of the problem integrates field experiences with relevant literature, and translates ideas from the practice and/or policy setting into the context of scholarly inquiry. Prerequisite: Permission of the instructor. LEC.

HP&M 871. Research Inquiry II: Research Design. 1 Hour.
Students build on a problem area of interest with potential benefit to the health care field and examine methodologies that would support a hypothesis or significant research question. The course guides students in translating their questions into a credible, methodologically defensible research design, including overall strategy, measurement, study population and/or sample. Focus will be placed on critical analysis of design trade-offs and limitations. Prerequisites: HPM 870 or permission of the instructor. LEC.

HP&M 872. Research Inquiry III: Data Analysis Techniques and Strategies. 1 Hour.
Students learn to assess and choose appropriate analytic techniques, whether qualitative or quantitative, and develop a data analysis and presentation plan. Emphasis is placed on evaluating the relative advantages and disadvantages of various analytic strategies in the context of a specific question and research design. Prerequisites: HPM 871 or permission of the instructor. LEC.

HP&M 873. Statistical Applications Using Large Data Bases. 3 Hours.
The management of large data sets is a critical analytic skill for health policy and management research. This course exposes students to the various types and configurations of large data sets and provides hands-on analytic experience using an array of statistical techniques and procedures. Attention is placed on the criteria for designing and evaluating, including the trade-offs in selecting one plan over another. Students actually carry out an analysis plan for a variety of data types. Prerequisites: HPM 819, or permission of the instructor. LEC.

HP&M 874. Statistics for Decision Making. 3 Hours.
Elementary statistical techniques to include descriptive statistics, probability, sampling, and statistical inference of means and proportions; advanced statistical techniques include multivariate analysis of qualitative and quantitative variables using multiple linear and logistic regression. LEC LEC.

HP&M 875. Modeling in Health Services Research. 3 Hours.
Provides an opportunity for students to use a number of common analysis models in health services research. Emphasizes a conceptual understanding of appropriate modeling techniques and use of statistical software packages. The course focuses on application of methods to health services research questions, with emphasis on regression design and interpretation. Prerequisites: HPM 874 or permission of the instructor. LEC.

HP&M 876. Medicare and Medicaid. 3 Hours.
Provides students with an in-depth understanding of the three publicly financed health programs that impact virtually all aspects of the American healthcare system - Medicare, Medicaid and Children's Health Insurance Programs (CHIP), Explores history and evolution of each program, plus specific operational issues such as eligibility, financing, management reporting, state/federal coordination, quality of care and outcomes management and influence of recent legislation. Prerequisite: Permission of the instructor. LEC.

HP&M 877. Women and Healthcare. 3 Hours.
A gender analysis of the organization of healthcare in the United States, using sociohistorical and sociological perspectives. Considers the health status and healthcare problems of women in relation to cultural aspects of medicine and healthcare; the roles of both informal and professional healthcare providers; the political economy of healthcare systems; and the relationship between gender and state. Prerequisite: HPM 810, or permission of instructor. LEC LEC.

HP&M 878. Grant Writing. 3 Hours.
The course is designed to take the principles and mechanics learned in introductory epidemiology and biostatistics and apply them in the design of epidemiologic studies. The strategy and data collection for studies will be emphasized rather than the methods of statistical analysis. The student will learn how to develop a proposal/grant that addresses the entire array of concerns regarding such studies and propose a realistic, scientifically justified study. (Same as ANAT 869 and NRSG 889.) Prerequisite: HPM 819 or HPM 821, and NRSG 886. LEC.

HP&M 879. Comparative Healthcare Systems. 3 Hours.
Critical examination of the structure and function of healthcare systems in major, advanced, capitalist countries (e.g., Canada, Japan, United Kingdom, France, Germany, and Sweden) in comparison to each other and to the healthcare system of the United States. Patterns in control and financing will be studied in relation to issues of cost, quality, access, and in relation to cultural values. Special attention will be placed on comparative analysis of reform efforts. Prerequisite: HPM 810 or permission of instructor. LEC LEC.

HP&M 880. Health Care and Social Policies in Sweden. 3 Hours.
Sweden leads the world in major health outcomes despite spending significantly less than the U.S. This course provides students the opportunity to visit Sweden and see the operation of its health care and social welfare system firsthand. Learn about Swedish history and culture as you re-examine many commonly held assumptions about both the U.S. and Sweden. An intensive schedule of site visits and lectures in the Stockholm-Uppsala area, assigned readings, and a major paper. LEC.

HP&M 882. Health Services Research Using Public Payer Data. 3 Hours.
Several contemporary health reforms have rendered analyses of public payer data more feasible and valuable for population health, health services research, and quality improvement. The addition of an outpatient drug benefit to standard inpatient and outpatient service coverage for Medicare, for example, has stimulated a growth industry in comparative effectiveness research and expanded policy research across the health care system. Pending expansion of States' Medicaid programs under the Affordable Care Act will undoubtedly create the largest public health care insurance program in the United States. The Centers for Medicare Medicaid Services (CMS) have streamlined researchers' access to national Medicare and Medicaid populations for health services and quality improvement projects through contracts with the Research Data Center at the University of Minnesota and the Chronic Condition Warehouse. In addition, Kansas Medicaid has invested in a Data Analytic Interface that offers ready access to our state's employees, Medicaid beneficiaries, and private health insurance claims data for enterprising researchers including tremendous opportunities for state of the art, contemporary policy analyses. This is indeed an exciting and opportune time for students embarking on careers in health services, policy, and population health research. This course is designed to prepare students for real world analyses using standard public payer claims data. LEC.
HP&M 883. Cost-Effectiveness and Decision Analysis. 3 Hours.
This course examines techniques that are used in making clinical and management decisions when outcomes are uncertain. The course begins with a review of probabilistic decision making, then explores methods of analyzing choices with uncertain outcomes, stressing the use of decision trees and sensitivity analysis. The course examines cost minimization analysis, cost effectiveness analysis, and cost benefit analysis. (SAME as PRVM 878). LEC LEC.

HP&M 884. Clinical and Administrative Data Analysis. 3 Hours.
This course presents advanced techniques in statistical analysis and information management to help understand, process, and use health services data. The three broad areas of health services data will be used: clinical, program, and population-based. Ways in which these data can be used as both management and research tools will be discussed. Implications for improving patient care and delivery of health services will be emphasized. Labs will stress the use of both manipulative techniques such as merging, matching, sorting, and file construction, as well as focus on analysis, using univariate, bivariate, and multivariate techniques. Recent methodology related to outcomes, case-mix, and performance assessment will be presented, and their application to health services administration demonstrated. LEC LEC.

HP&M 885. Instructional Methods in Health Services Education. 1 Hour.
An overview of pedagogical approaches and learning strategies for higher education courses in health policy and management. Content will include course organization, syllabus design, techniques for teaching in the classroom and online, learning styles, strategies for classroom management, and evaluation/grading methods. Prerequisites: HPM 868 or permission of the instructor. LEC.

HP&M 886. Applied Health Services Research. 3 Hours.
Students in this course apply the full spectrum of the research process to a specific hypothesis or research question, drawn from practical health systems observations and/or supported by critical analysis of the health services research literature. Moving step by step through the research process, students work to develop a complete research plan and proposal suitable to investigate their chosen question. Group discussion and guest researchers provide elaboration for each stage of research plan development. Prerequisites: HPM 872 and HPM 873 or permission of the instructor. RSC.

HP&M 887. Practicum in Health Services Education. 2 Hours.
Application of the approaches and methods described in HPM 885. Students will serve as a teaching assistant for one semester, working with a teaching mentor. In addition to assisting with the class, students will meet regularly with the mentor to critique and analyze content and classroom processes, plan and develop teaching activities, and evaluate learning and performance in the classroom. Prerequisite: HPM 868 or permission of the instructor. HPM 887 may be taken concurrently with HPM 885. LEC.

HP&M 890. Topics in Health Policy and Management. 1-3 Hours.
This course allows exploration of special topics that are not routinely a part of the curriculum. Prerequisite: Consent of the instructor. IND LEC.

HP&M 901. Doctoral Seminar in Health Policy. 3 Hours.
Students will investigate, review, and critically analyze major concepts, theoretical and methodological approaches and sub-areas in the field of health policy research. The course will cover comparative health policy analyses as well as both micro and macro system perspectives. Prerequisite: Permission of the instructor. SEM.

HP&M 903. Doctoral Seminar in Health Management. 3 Hours.
Students will investigate, review and critically examine major concepts, theories, issues, methodological approaches and sub-areas in the health services management research literature. Special attention will be placed on using research to develop evidence-based practice and suggesting interventional strategies for complex problems, both micro- and macro-organizational. Prerequisite: Permission of the instructor. SEM.

HP&M 990. Advanced Topics in Health Policy and Management. 1-3 Hours.
This course allows exploration of special topics that are not routinely a part of the curriculum. Prerequisite: Admission to a PhD program and consent of the instructor. IND. LEC.

HP&M 991. Individual Doctoral Readings. 1-3 Hours.
Individual study of special topics or problems by students working on a doctorate. Prerequisite: Admission to a PhD program and consent of the instructor. LEC.

HP&M 999. Dissertation. 1-12 Hours.
THE.

Master of Health Services Administration

Overview
The Master of Health Services Administration degree prepares students for leadership roles in the health care sector, including positions in hospitals, health care systems, long-term care facilities, clinics, insurance firms, health departments, and government agencies. The M.H.S.A. Program offers a systemic overview of the health care system, a clear perspective on contemporary health policy, a mastery of analytic methods, and a broad exposure to the practice of health care management.

Joint Degree Programs
The Department of Health Policy and Management offers 4 joint programs in conjunction with the Schools of Law, Nursing, and Medicine (M.D. program). Please contact the respective schools for complete information.

J.D.-M.H.S.A.
The J.D./M.H.S.A. joint degree program combines into 4 years of full-time study the Juris Doctor (p. 776) (J.D.) program offered by the School of Law (http://www.law.ku.edu) and the Master of Health Services Administration (M.H.S.A.) program offered by the Department of Health Policy and Management. The program offers students who plan to practice health law or health services management a thorough academic grounding in both disciplines. Students must be admitted to each program to pursue the joint degree.

M.S. in Nursing-M.H.S.A.
The joint Master of Science in Nursing/M.H.S.A. degree program combines the M.H.S.A. degree offered by the Department of Health Policy and Management and the Master of Science (p. 1980) degree offered by the School of Nursing. This program gives students the opportunity to acquire training in the convergent fields of nursing and health services administration. The program combines course work, allowing the two degrees to be completed in 8 semesters. Students must be admitted to each program to pursue the joint degree.
M.D.-M.H.S.A.
The joint M.D./M.H.S.A. degree program prepares students to enter careers as physician executives or to provide administrative support for their medical practice. As the health care environment becomes more complex and competitive, administrative skills can be extremely important to individuals starting careers in medicine or those seeking to enhance their current careers. The M.S.H.A. portion of the curriculum combines social science and business content in the context of health care and prepares students for management and executive positions in health care organizations. Students complete requirements for the M.D. degree as specified by the School of Medicine. M.D. programs are described in the School of Medicine Catalog (http://www2.kumc.edu/somcatalog). Both programs can be completed in 5 years. Students must be admitted to each program to pursue the joint degree.

B.S.H.I.M.-M.H.S.A.
The joint Bachelor of Science in Health Information Management (http://www.kumc.edu/school-of-health-professions/health-information-management.html) and Master of Health Services Administration program is offered through the Department of Health Policy and Management in association with the Department of Health Information Management. By participating in this intensive, full-time bridge program, students can achieve both degrees in five years. Students pursuing the B.S.H.I.M./M.H.S.A. will be prepared to assume management and executive positions in health-related organizations and to bring their expertise in health information management to these positions.

M.H.S.A. Admission Criteria, Materials, and Timeline
Admission is based on the applicant’s undergraduate and/or graduate record, references and interview. Completion of a bachelor’s degree is required. Admission is competitive and limited. The application process is online; see the Health Policy and Management website for information.

Materials required include
1. Successful completion of a bachelor’s degree or equivalent with a minimum grade-point average of 3.0 on a 4.0 scale,
2. A completed application form and application fee,
3. A statement of goals/purpose,
4. 3 letters of recommendation,
5. An official transcript from each institution beyond the secondary level where courses have been taken, and
6. For international students, fulfillment of minimum English Proficiency (http://www.kumc.edu/international/esi_req.html) Requirements and transcript evaluation are also required. See KUMC Graduate Studies (http://www.kumc.edu/academic-affairs/graduate-studies.html), the KUMC Office of International Programs (http://www.kumc.edu/international/esi_req.html), and the Health Policy and Management website (http://www.kumc.edu/school-of-medicine/hpm.html) for more information.

A background check (http://www.kumc.edu/student-services/vice-chancellor-of-student-services/criminal-background-checks-for-students.html) is required during the admission process; it may affect the student’s eligibility to enter the program.

Applicants must also have completed a prerequisite 3-credit hour course in statistics. A personal interview is also required of all applicants who meet the minimum admissions standards. If travel to the area is impossible, a telephone or on-line interview may be substituted. Students are admitted for the fall semester only. The application deadline is March 1.

M.H.S.A. Degree Requirements
All candidates must complete, at a satisfactory level, 56 credit hours of courses and achieve competency in the following areas:
- Leadership and professionalism;
- Health care systems and policy;
- Communication and relationship management;
- Inquiry, problem-solving, and decision-making; and
- Management knowledge and skills.

An internship is required of all students. Full-time students are encouraged to seek a residency/fellowship after graduation.

Courses are taught in late afternoons and evenings on the Medical Center campus in Kansas City. Students begin course work with foundation courses and proceed through the curriculum in a predefined sequence.

BIOS 704 Principles of Statistics in Public Health (3)
Elective (3)

Doctor of Philosophy in Health Policy and Management

Ph.D. Degree Program Overview

The Ph.D. in Health Policy and Management prepares experts in health services research for careers in academic settings or in public and private organizations where advanced research and analytic skills are required.

Health services research is a multidisciplinary field that examines the uses, costs, quality, accessibility, delivery, organization, financing and health outcomes of healthcare systems in the U.S. and elsewhere. Health Services researchers investigate and interpret the complexities of healthcare systems, including how social factors, financing systems, organizational structures and processes, health technologies, and individual and group behaviors affect access, cost and quality of care. The program is offered on a full-time basis only with course work at the KUMC campus.

Ph.D. Admission Criteria, Materials, and Timeline

Applications are accepted from individuals with the following credentials:

1. A master’s degree in health services administration or a related field (e.g. public health, public administration, business, social sciences, biological sciences, nursing).
2. Minimum grade-point average of 3.5 (on a 4.0 scale) for all post-baccalaureate course work.
3. At least 1 graduate-level statistics course.
4. A set of prerequisite courses must also be completed before applying. Applicants should demonstrate successful completion of the following course work (a minimum of 3 graduate-level credit hours in each area) during their prior education:
   - Health delivery systems
   - Health economics
   - Health care finance
   - Health care management
   - Health behavior/organizations
   - Health policy

Please note that the application process is online; see the Healthy Policy & Management website for instructions. The following materials are required:

1. A completed KUMC online graduate application for admission.
2. A nonrefundable application fee.
3. 3 academic letters of recommendation.
4. A statement of career objectives and purpose.
5. Transcripts of all post-secondary academic work.
6. Graduate Record Examination general exam scores not more than 5 years old, submitted to the department directly by Educational Testing Service.
7. A copy of the applicant’s master’s thesis, graduate-level research paper or other example of the applicant’s scholarly research writing.
8. A copy of the applicant’s resume or curriculum vitae.

In the case of international applicants, completion of the TOEFL within the last 2 years, demonstrating high proficiency, is required. When submitting test scores to KUMC, please submit only original scores sent directly from the testing agency. Photocopies will not be accepted. For testing purposes, the ETS school code is 6895. Transcript evaluation is also required. See the Health Policy and Management website (http://www.kumc.edu/school-of-medicine/hpm.html) for additional information.

A background check (http://www.kumc.edu/student-services/vice-chancellor-of-student-services/criminal-background-checks-for-students.html) is required during the admission process; it may affect the student’s eligibility to enter the program.

The above materials must be submitted online no later than February 15 for entry the following August.

Total Hours: 47-80

Ph.D. Degree Requirements

The doctoral program is a 56-credit-hour, post-master’s, competency-based program in health services research consisting of 3 stages. A
set of prerequisite courses representing 6 core areas of health policy and management and graduate-level statistics are required prior to entering the program. The program, including dissertation, is designed to be completed in a minimum of 4 academic years (see Plan of Study). Students are expected to maintain continuous, full-time enrollment.

Stage 1 consists of basic courses in health policy, health care management, and quantitative and qualitative research methods. A notable feature of this stage is that students begin to participate in the research process immediately upon beginning the program through a series of five 1-credit-hour immersion courses, taken within the first 2 semesters along with other basic courses.

Stage 2 involves specialization in a specific substantive area of either policy or management research or a combination, as well as advanced statistical analysis and research methods. Students also complete a teaching seminar and practicum.

Stage 3 consists of the doctoral dissertation demonstrating the development, execution, and results of original research. Students work primarily with their dissertation advisor and doctoral committee at this stage in order to prepare and defend their dissertation proposal and to carry out and complete their dissertation research project. There are two options for the written dissertation, the traditional book format or a three publishable articles format. The written dissertation is formatted and published according to university guidelines. See Electronic Thesis and Dissertations (http://www.graduate.ku.edu/electronic-thesis-and-dissertation) on the Graduate Studies website.

Research and Responsible Scholarship Requirement

Before taking the comprehensive oral examination, the student must meet the research skills and responsible scholarship requirement (https://documents.ku.edu/policies/Graduate_Studies/Research_Skills_and_Responsible_Scholarship.htm) of the university.

HPM Ph.D. students meet these requirements as follows:

The research skills requirement for the Ph.D. in Health Policy and Management is met through completion of the required sequence of health services research methods courses with an average grade of 3.0. The sequence consists of HP&M 819, HP&M 870, HP&M 871, HP&M 872, HP&M 873, HP&M 875, and HP&M 886, and a graduate-level course in qualitative research methods.

The responsible scholarship requirement for the Ph.D. in Health Policy and Management is met through the research ethics modules in HP&M 819, HP&M 870, and HP&M 886. Topics include protection of human subjects, conflicts of interest, data management, mentor/student responsibilities, collaborative research, authorship/publication issues, peer review, confidentiality, and research misconduct. Students also are expected to complete the KUMC Human Subjects Protection training module during the first semester of the doctoral program and keep their certification current throughout their tenure in the Ph.D. program.

Department of History and Philosophy of Medicine

History and Philosophy of Medicine

No graduate program is offered in this area, but H&PM course work may be taken for graduate credit.

Courses

H&PM 902. Ethics and the Research Scientist. 1 Hour.
Concepts basic to conducting biomedical research ethically: fraud, plagiarism, and misrepresentation; intellectual property; collection and interpretation of data; conflicts of interest; reporting misconduct by others. Animal research issues. Human research issues, including federal regulatory structure and informed consent. No prerequisites. LEC.

Department of Microbiology, Molecular Genetics, and Immunology

Microbiology, Molecular Genetics, and Immunology Graduate Programs

This multidisciplinary program offers education and training leading to M.A. or Ph.D. degrees. The faculty in this program have diverse research interests ranging from the molecular pathogenesis of infectious agents (bacteria and viruses) to the understanding of immune function. Students with undergraduate degrees in microbiology, biochemistry or other similar disciplines are encouraged to apply. An M.A. in microbiology is suitable for obtaining positions at more advanced levels in academic research, biotech industry, or government (CDC, FDA, or USDA). A Ph.D. is required for careers in independent academic research in microbiology and immunology. The Ph.D. degree is most often followed by two or more years of postdoctoral training in a specific area of research. Ph.D. graduates in microbiology, with appropriate postdoctoral experience, are ready to compete effectively for faculty positions at a college or university, senior level positions in biotech industry and government.

Courses

MICR 801. Principles of Immunology. 1 Hour.
An introductory course in immunology; cells and tissues of the immune system; B and T cells and their receptors; major histocompatibility complex; antigen presentation; regulation of immune responses; immunity and vaccination. Prerequisite: IGPBS courses or permission of instructor. LEC.

MICR 802. Principles of Virology. 1 Hour.
An introductory course in virology; replication of RNA and DNA viruses; viral RNA processing and translation; reverse transcription; virus assembly; viral pathogenesis; viruses as vectors. Prerequisite: MICR 801 or permission of instructor. LEC.

MICR 803. Principles of Bacterial Genetics and Pathogenesis. 1 Hour.
An introductory course in bacteriology; cell structure and function; chromosome and plasmid replication; genetic engineering; bacteriophage; gene regulation; quorum sensing; antibiotics; protein secretion; bacterial pathogenesis. Prerequisite: MICR 801 MICR 802 or permission of instructor. LEC.
MICR 805. Teaching in Higher Education. 1 Hour.
Theoretical and practical aspects of teaching in a graduate degree
program with emphasis on program and curriculum design, student
assessment, communicating learning expectations, selecting optimal
teaching methods aligned with expectations, understanding diverse
learning styles, apprenticeship teaching, developing as a teacher and
applying contemporary educational theory to the classroom or research
laboratory. Prerequisite: Any graduate degree or current enrollment in a
graduate degree program or permission of instructor. LEC.

MICR 808. Immunology. 3 Hours.
Molecular and cellular aspects of immunity. Specific topics will include
immunoglobulin and receptor structure/function, attributes of antigenicity,
antigen-antibody reactions, immunocompetent cells, cellular interactions,
soluble mediators of immune responses and normal and abnormal
immune regulation. Prerequisite: Permission of course director. LEC.

MICR 820. Bacterial Genetics and Pathogenesis. 3 Hours.
Genetics of bacteria with emphasis on bacterial pathogens. Topics
include: gene regulation, recombination, bacteriophages, transposons,
genetic exchange, plasmids, genetics of virulence, bacterial adherence
and colonization, immune evasion mechanisms, bacterial toxins,
vaccines and antimicrobials, re-emerging bacterial diseases. Prerequisite:
Permission of instructor. LEC.

MICR 825. Virology. 3 Hours.
Molecular biology of animal viruses. Aspects of various virus groups to be
covered include structure, replication, and host cell responses. Lectures
and student seminars. Prerequisite: Permission of the course director.
LEC.

MICR 830. Seminar in Microbiology. 1 Hour.
Reports on research and literature. LEC.

MICR 835. Research in Microbiology. 1-6 Hours.
This course is specifically designed to provide supervised research
experience in various laboratories in the department. LEC.

MICR 855. Host-Pathogen Interactions. 3 Hours.
1. Understand the basic concepts of host-pathogen interactions, with
an emphasis on pathogen adhesion, invasion and intracellular survival,
cell death pathways, innate immunity, and extracellular matrices. 2.
Discuss the latest trends in host-pathogen interactions through paper
discussion. 3. Provide graduate students opportunity to improve their
communication skills. 4. Promote the scientific reasoning capabilities
of graduate students. Prerequisites: This course is intended for the
second-year microbiology graduate students who have taken Principles
courses. Any graduate students from other departments may take this
course. However, it is highly recommended to see the instructors before
enrollment. LEC.

MICR 890. Research for M.A. in Microbiology. 1-10 Hours.
This course is designated for thesis research leading to the M.A. degree.
LEC.

MICR 899. Thesis for M.A. in Microbiology. 1-10 Hours.
Restricted to writing of the thesis. THE.

MICR 930. Advanced Topics in Microbiology. 1-8 Hours.
An advanced approach to selected topics in any of the major disciplines
in microbiology. Readings and conferences, or advanced laboratory
techniques. LEC.

MICR 990. Research for Ph.D. in Microbiology. 1-10 Hours.
This course is restricted entirely to dissertation research. RSH.

MICR 999. Dissertation for Ph.D. in Microbiology. 1-10 Hours.
Restricted to actual writing of dissertation. THE.

Master of Arts in Microbiology

Microbiology, Molecular Genetics, and
Immunology Graduate Programs

Graduate programs in microbiology and related areas are primarily for
students who wish to earn the Ph.D. degree. The M.A. degree may be
granted in appropriate circumstances.

Graduate Admission

Application to the Ph.D. and master’s programs in microbiology, molecular
genetics and immunology are facilitated through the Interdisciplinary
Graduate Program in Biomedical Sciences. See the IGPBS section for
a description of the program and the admission requirements (p. 1778).
In certain cases, students may be admitted directly into the department.
Applicants specifically interested in the microbiology, molecular genetics,
and immunology graduate programs should contact the department
directly for information and review the Direct Admit Checklist on the
KUMC Graduate Studies website (http://www.kumc.edu/academic-affairs/
graduate-studies.html).

M.A. Degree Requirements

Students must demonstrate competence in the content of the IGPBS
curriculum and in 2 of the following areas:

- Immunology,
- Virology, and
- Bacteriology.

Each degree candidate must submit a written thesis detailing original
laboratory research and defend it orally before a thesis committee.
The student must enroll in MICR 899 Thesis the semester they defend the
thesis.

During the first year, students enroll in the IGPBS curriculum and do
rotations. At the end of the first year, students select an advisor and begin
thesis research. During the second year students, enroll in the Principles
of Microbiology series, take 2 additional courses, participate in literature
seminar series, and continue research. A minimum of 30 credit hours is
required to complete the degree.

Doctor of Philosophy in Microbiology

Microbiology, Molecular Genetics, and
Immunology Graduate Programs

Graduate programs in microbiology and related areas are primarily for
students who wish to earn the Ph.D. degree. The M.A. degree may be
granted in appropriate circumstances.

Graduate Admission

Application to the Ph.D. and master’s programs in microbiology, molecular
genetics and immunology are facilitated through the Interdisciplinary
Graduate Program in Biomedical Sciences. See the IGPBS section for
a description of the program and the admission requirements (p. 1778).
In certain cases, students may be admitted directly into the department. Applicants specifically interested in the microbiology, molecular genetics, and immunology graduate programs should contact the department directly for information and review the Direct Admit Checklist on the KUMC Graduate Studies website (http://www.kumc.edu/academic-affairs/graduate-studies.html).

**Ph.D. Degree Requirements**

Students must demonstrate competence in the content of the IGPBS curriculum and in 2 of the following areas:

- Immunology,
- Virology, and
- Bacteriology.

Students should also take an advanced course in the student’s research area. Students also must present literature seminars and participate in the Research in Progress series.

All students in doctoral programs must meet the research skills and responsible scholarship requirement (https://documents.ku.edu/policies/Graduate_Studies/Research_Skills_and_Responsibe_Scholarship.htm) of the university.

Microbiology Ph.D. students meet these requirements during their IGPBS year of study by taking GS&MC 857 Biographies, GS&MC 852/GS&MC 855 Introduction to Biomedical Research I and II, and GS&MC 856 Introduction to Research Ethics.

The student takes an oral comprehensive examination based in part on defense of an original written research proposal. This examination evaluates the student’s ability to write and defend an original research proposal, design experiments, and interpret results in a sound and critical manner.

Doctoral candidates are expected to conduct original research, prepare a written dissertation detailing the results, and defend the dissertation in a final oral examination. The student must be enrolled in MICR 999 Dissertation the semester they defend the dissertation. It is expected that the research will be published in reputable scientific journals.

**Plan of Study**

During the first year students, enroll in the IGPBS curriculum and do rotations. At the end of the first year, students select an advisor and commence thesis research. During the second year, students enroll in the Principles of Microbiology series, take 2 additional courses, participate in literature seminar series, and continue research. As the beginning of the third year, students complete the oral examination and continue to do dissertation research.

**Combined M.D.-Ph.D. Degree**

Outstanding students who are qualified to do so may participate concurrently in work leading to the M.D. and Ph.D. degrees. Credit hours earned in the medical curriculum cannot be transferred as graduate credit hours toward the requirements for the Ph.D. degree, although recognition of satisfactory performance in appropriate medical courses may be given by the Ph.D. program when formulating the student’s additional Ph.D. curriculum. All the requirements for both degrees must be met. The combined degree requirements and application information for the combined M.D.-Ph.D. program are posted on the M.D.-Ph.D. website (http://www.kumc.edu/md-phd-program.html).

**Department of Molecular and Integrative Physiology**

**Molecular and Integrative Physiology Graduate Programs**

Programs range from factors controlling gene expression to whole animal adaptations; the common thread is that all programs endeavor to understand biological function in health and disease. The program provides outstanding didactic instruction and laboratory experiences that enable students to become effective teachers and independent investigators.

The department participates in the Interdisciplinary Graduate Program in Biomedical Sciences at KUMC and provides research emphases in cardiovascular biology, cell and developmental biology, molecular and cellular biophysics, cellular and molecular immunology, molecular biology and genetics, neuroscience, reproductive biology, signal transduction, and cancer biology. The program is for the student pursuing the Ph.D. although the M.S. degree may be granted in appropriate circumstances. Degrees are granted to persons who fulfill all requirements.

**Courses**

**PHSL 784. Faculty Research Programs. 1 Hour.**

The new student will be introduced to the faculty research programs. Each faculty member will present his/her research interests using one or more of the following formats: laboratory demonstrations, computer simulations and lectures. The objectives are to assist the new student in selecting his/her area of dissertation research and acquainting the new student with the department research resources. LEC.

**PHSL 834. Reproductive Physiology. 5 Hours.**

All aspects of reproductive physiology including an in depth study of ovarian and testicular development/function, neuroendocrine development/function, implantation, placentation, puberty, pregnancy and fertility regulation are covered. Historical and current scientific literature will be used to support a graduate level text and didactic lectures. Prerequisite: a general endocrinology/physiology course, an equivalent course and/or consent of instructor. LEC.

**PHSL 835. Integrative Physiology of Exercise. 3 Hours.**

To understand how the major physiological systems of the body respond to exercise with an emphasis on integration and function. Historical and current scientific literature will be used to generate discussion and support didactic material. Fundamentals of exercise physiology will be covered, but a background in exercise physiology is not required. Prerequisite: a general physiology course, an equivalent course and/or consent of instructor. LEC.

**PHSL 838. Advanced Topics. 1-3 Hours.**

Special studies designed and arranged on an individual basis to allow a student to pursue a particular subject through reading, special laboratory work, and conferences with a senior staff member. LEC.

**PHSL 840. Advanced Genetic Analysis. 3 Hours.**

This course will focus on principles that underlie genetic analysis, including mutation, complementation, recombination, segregation, and regulation. The genetics of commonly used model organisms such as yeast, flies, worms and mice will be examined, classic genetic screens performed to study phase assembly, cell cycle regulation, sex
determination and X-chromosome inactivation will be discussed and modern-day techniques used to study inheritance and gene function in various systems will be analyzed. Human genetic analysis will also be covered, including population genetics, techniques for gene mapping, inherited diseases, genetic testing and gene therapy. Through reading and discussion of scientific literature and problem-based homework and exams, students will learn how to evaluate and interpret genetic data as well as develop and design genetic strategies to solve current biological problems. Prerequisite: Completion of IGPBS Core Curriculum or equivalent, or permission of Course Director. LEC.

PHSL 842. Comprehensive Human Physiology. 5 Hours.
Advanced course on modern human physiology. The course focuses on organ systems of the human body including nervous, cardiovascular, endocrine, digestive, respiratory, reproductive and urinary systems. This course emphasizes the use of modern experimental approaches that take advantage of cellular and molecular technologies. Prerequisite: NONE LEC.

PHSL 844. Neurophysiology. 3 Hours.
Somatosensory, motor and cognitive function of the brain will be discussed using a combination of lecture and student presentation formats. Current issues and evidence underlying accepted concepts and mechanisms will be emphasized. (Same as NURO 844. ) Prerequisite: Introductory course in neuroscience and consent of instructor. LEC.

PHSL 846. Advanced Neurosciences. 5 Hours.
Team taught, in-depth neuroscience course focusing on normal and diseased brain function at the molecular, cellular and systems levels. Lectures and discussions will emphasize current issues in neuroscience research. (Same as ANAT 846, PHCL 846 and NURO 846). Prerequisite: Permission of course director. LEC.

PHSL 847. Developmental Neurobiology. 2 Hours.
Development of the nervous system from early induction to the development of learning and memory. Topics include: Induction; Cellular Differentiation; Axon Growth and Guidance; Target Selection; Cell Survival and Growth; Synapse Formation; Synapse Elimination; and Development of Behavior. (Same as ANAT 847 and NURO 847.) Prerequisite: Advanced Neurosciences (ANAT 846; NURO 846; PHSL 846) or consent of instructor. LEC.

PHSL 848. Molecular Mechanisms of Neurological Disorders. 3 Hours.
An in-depth coverage of pathogenic mechanisms in neurological diseases: cellular and molecular responses to brain injury and disease, neuroinflammatory diseases (e.g., multiple sclerosis), neurodegenerative diseases (e.g., Alzheimer’s, Parkinson’s, Huntington’s, amyotrophic lateral sclerosis, and prion diseases), neurogenetic diseases (e.g., lysosomal and peroxisomal disorders, Down’s syndrome and fragile X), trauma, stroke, and viral diseases (e.g., HIV encephalitis). (Same as ANAT 848, NURO 848, and PHCL 848.) Prerequisite: Advanced Neurosciences (ANAT 846, PHCL 846 or PHSL 846) or an equivalent course and consent of instructor. LEC.

PHSL 850. Research. 1-10 Hours.
Original laboratory investigation conducted under the supervision of a senior staff member. RSH.

PHSL 851. Seminar. 1 Hour.
Student participation (attendance and presentation) in weekly Departmental seminar series. The topics examined in these seminars are dictated by the interests of students and staff. Prerequisite: student must have passed their oral comprehensive exam. LEC.

PHSL 899. Master’s Thesis. 1-5 Hours.
Preparation of the formal thesis based on library research or independent research and in partial fulfillment of the requirements for the master’s degree. Credits will be given only after the thesis has been accepted by the student’s thesis committee. THE.

PHSL 999. Doctoral Dissertation. 1-10 Hours.
Preparation of the Dissertation based on original research and in partial fulfillment of the requirements for the Ph.D. degree. Credits will be given only after the dissertation has been accepted by the student’s dissertation committee. THE.

Master of Science in Molecular and Integrative Physiology

Molecular and Integrative Physiology Graduate Programs

Programs range from factors controlling gene expression to whole animal adaptations; the common thread is that all programs endeavor to understand biological function in health and disease. The program provides outstanding didactic instruction and laboratory experiences that enable students to become effective teachers and independent investigators.

The department participates in the Interdisciplinary Graduate Program in Biomedical Sciences at KUMC and provides research emphases in cardiovascular biology, cell and developmental biology, molecular and cellular biophysics, cellular and molecular immunology, molecular biology and genetics, neuroscience, reproductive biology, signal transduction, and cancer biology. The program is for the student pursuing the Ph.D. although the M.S. degree may be granted in appropriate circumstances. Degrees are granted to persons who fulfill all requirements.

Graduate Admission

Application to the Ph.D. and master’s programs in molecular and integrative physiology are facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences. See the IGPBS section for a description of the program and the admission requirements (p. 1778). In certain cases, students may be admitted directly into the department. Applicants specifically interested in the physiology graduate programs should contact the department directly for information and review the Direct Admit Checklist on the KUMC Graduate Studies website (http://www.kumc.edu/academic-affairs/graduate-studies.html).

M.S. Degree Requirements

Students are admitted to the M.S. program only if they have compelling reasons for pursuing advanced study, but the Ph.D. degree is not practical for them. Course requirements generally are the same as for the Ph.D., but the research component is of more limited scope. The student must defend the thesis satisfactorily in an open seminar as part of the final examination.
Doctor of Philosophy in Molecular and Integrative Physiology

Molecular and Integrative Physiology Graduate Programs

Programs range from factors controlling gene expression to whole animal adaptations; the common thread is that all programs endeavor to understand biological function in health and disease. The program provides outstanding didactic instruction and laboratory experiences that enable students to become effective teachers and independent investigators.

The department participates in the Interdisciplinary Graduate Program in Biomedical Sciences at KUMC and provides research emphases in cardiovascular biology, cell and developmental biology, molecular and cellular biophysics, cellular and molecular immunology, molecular biology and genetics, neuroscience, reproductive biology, signal transduction, and cancer biology. The program is for the student pursuing the Ph.D. although the M.S. degree may be granted in appropriate circumstances. Degrees are granted to persons who fulfill all requirements.

Graduate Admission

Application to the Ph.D. and master’s programs in molecular and integrative physiology are facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences. See the IGPBS section for a description of the program and the admission requirements (p. 1778). In certain cases, students may be admitted directly into the department. Applicants specifically interested in the physiology graduate programs should contact the department directly for information and review the Direct Admit Checklist on the KUMC Graduate Studies website (http://www.kumc.edu/academic-affairs/graduate-studies.html).

Ph.D. Degree Requirements

Students take the core curriculum (or equivalent) of the Interdisciplinary Graduate Program in Biomedical Sciences. The curriculum is posted on the IGPBS website (http://www.kumc.edu/igpbs.html). In most cases, students take additional course work in the fall and spring of the second year including PHSL 842 Comprehensive Human Physiology and advanced courses in the student’s research area. Students must also be enrolled in PHSL 999 Doctoral Dissertation the semester they defend the dissertation.

Research Skill

All students in doctoral programs must meet the research skills and responsible scholarship requirement (https://documents.ku.edu/policies/Graduate_Studies/Research_Skills_and_Responsible_Scholarship.htm) of the university.

Physiology Ph.D. students meet these requirements during their IGPBS year of study by taking GSMC 857 Biographics, GSMC 852/GSMC 855 Introduction to Biomedical Research I and II, and GSMC 856 Introduction to Research Ethics.

Examinations and Dissertation

Following completion of the courses, the student must successfully complete a comprehensive qualifying examination consisting of a research proposal written in the form of a National Institutes of Health grant application, which the student defends orally. The student, with the guidance of his or her dissertation advisor, conducts an original research project. The outcomes of that research are assembled as a written dissertation generally consisting of a compilation of scientific papers submitted by the student for publication. A more traditional dissertation format also can be used. The student defends this research in a seminar open to all interested parties.

Combined M.D.-Ph.D. Degree

Outstanding students who are qualified to do so may participate concurrently in work leading to the M.D. and Ph.D. degrees. Credit hours earned in the medical curriculum cannot be transferred as graduate credit hours toward the requirements for the Ph.D. degree, although recognition of satisfactory performance in appropriate medical courses may be given by the Ph.D. program when formulating the student’s additional Ph.D. curriculum. All the requirements for both degrees must be met. The combined degree requirements and application information for the combined M.D.-Ph.D. program are posted on the M.D.-Ph.D. website (http://www.kumc.edu/md-phd-program.html).

Department of Pathology & Laboratory Medicine

Pathology and Laboratory Medicine Graduate Programs

The Department of Pathology and Laboratory Medicine offers a graduate program leading to the M.A. or Ph.D. degree including research opportunities with emphasis on developmental biology and cell differentiation, cancer biology, stem cell biology, microbial and viral pathogenesis, gene regulation, and experimental pathology. This curriculum is designed for advanced research study in molecular and cellular biology and experimental pathology. The Graduate Training Program participates in the degree granting curriculum of the University of Kansas Medical Center in concert with the IGPBS. Our program provides comprehensive training in understanding the molecular basis of disease and the fundamental mechanisms of cell growth and differentiation.

The Pathology Graduate Training Program is designed to provide in-depth training of the molecular basis of disease. Several points are emphasized in the Pathology Graduate Training Program at KUMC:

1. Specialized thesis research in understanding the basic mechanisms of disease and cell differentiation
2. Familiarization with the current scientific literature
3. Critical analysis of scientific work
4. Contributing to the body of scientific knowledge by publishing research works
5. Oral presentation and scientific writing skills

Please refer to pages included in this catalog on both Master of Arts and Doctor of Philosophy in Pathology for additional information regarding each program.

Program Director:

Soumen Paul, PhD
Associate Professor
Director, Pathology Graduate Studies Program
Division of Cancer and Developmental Biology
Department of Pathology and Laboratory Medicine

Apply for the Graduate Training Program directly through the Department of Pathology and Laboratory Medicine (http://www.kumc.edu/igpbs.html)

Courses

PATH 800. General Pathology. 7 Hours.
The basic mechanisms of human disease, including cellular pathology, inflammation, diseases of immunity, neoplasia, infectious and circulatory diseases and aging are considered through the mechanisms of lectures, small-group problem based care study and autopsy demonstration. Prerequisite: Courses in cell biology, biochemistry, and physiology, or equivalent. LEC.

PATH 801. Systemic Pathology. 9 Hours.
Human disease is studied by organ systems to include cardiovascular, hematologic, renal, respiratory, gastrointestinal, genitourinary, musculoskeletal, endocrine, and nervous system diseases. The pathobiology of all major diseases occurring within each organ system are considered by lectures, problem based case study and autopsy participation. Since final comprehensive examination at the end of Pathology II will include material from both Pathology I and Pathology II. Prerequisite: Successful completion of Pathology LEC.

PATH 802. Special Pathology. 6 Hours.
A detailed study of diseases involving the endocrine, genitourinary, neuromuscular, and skeletal systems. Prerequisite: PATH 800 and courses in histology, biochemistry, and physiology, or equivalent. LEC.

PATH 803. Stem Cell Biology. 2 Hours.
Current concepts in the study of stem cells, and the clinical potential in modern disease treatment. Students will learn concepts of stem cells: origin, regulation of pluripotency, and differentiative potential; experimental isolation and manipulation; and clinical application of isolated stem cells. Current scientific literature will be used to highlight recent advances in stem cell biology. Special emphasis will be placed on the ethical and legal issues surrounding the use of stem cells of both adult and embryonic origin. Prerequisite: Course in cell biology (IGPBS module 4, or equivalent); consent of instructor. LEC.

PATH 804. Selected Topics in Signal Transduction. 1 Hour.
A survey of the basic principles and contemporary literature of signal transduction pathways involved in cancer development and developmental biology. Faculty lecture and student presentations will address selected topics in cellular signal transduction. Student seminars will focus on the scientific content of the publication with emphasis on appropriate presentation of background information, experimental methods, results and potential future directions. Critical discussion of papers will be provided by participating students and faculty. Prerequisite: Course in Molecular Biology (IGPBS module 3, or equivalent). LEC.

PATH 805. Seminars in Pathology. 1 Hour.
Presentation of Pathology Department graduate student research in progress. Students will conduct a one-hour seminar in which updates of their current research project(s) in pathology will be reported. The seminars are interactive and students are encouraged to participate in discussion of the presented work. Prerequisite: Completion of the IGPBS core curriculum and status as a second-year graduate student; consent of instructor. RSC.

PATH 806. Epigenetics. 2 Hours.
Current concepts in epigenetic regulation of transcription, including its involvement in disease. Current scientific literature will be used to examine recent advances in the role of epigenetic regulation in transcription and its impact on cellular processes, including growth, differentiation, development, and disease. Students will learn the fundamental concepts of epigenetic regulation and the role of the epigenetic regulation in various gene expression systems. The role of epigenetics in long-range DNA interactions will also be studied, with an emphasis on enhancer, silencer, and locus control region function. Recent advances in the role of epigenetics in disease, including cancer, will also be examined. The course will examine current experimental methods to study epigenetics and gene regulation. Prerequisite: Completion of the IGPBS core curriculum or equivalent; consent of instructor. LEC.

PATH 899. Master’s Thesis. 1-7 Hours.
THE.

PATH 903. Pathology Techniques Laboratory. 1-3 Hours.
A laboratory course in which students may select no more than three of the following: electron microscopy, fluorescence microscopy, cell typing, morphometrics, immunohistochemistry, flow cytometry, DNA probe, autopsy technique. LAB.

PATH 905. Cellular Biology and Pathophysiology of Bone. 3-5 Hours.
Normal bone development, ultrastructure of bone, and the calcification mechanism. Developmental and genetic abnormalities of bone including dwarfism and osteogenesis imperfecta. Metabolic bone diseases including osteoporosis, Paget’s disease and osteomalacia. Methods of diagnosis by morphometry of undecalcified bone biopsy. Common primary bone tumors, and the mechanism of bone loss or bone over growth caused by metastatic malignant tumors. There will be practical laboratory portion. Prerequisite: PATH 800 or permission of instructor. LAB.

PATH 907. Infection and Immunity. 1 Hour.
Microbial factors, host reaction, and disease. Emphasis on recovery from infection, response to reinfection, the resultant clearance of microbes, or the development of chronic infection. Hypersensitivity phenomena will also be considered in the light of data from transplantation immunity. Prerequisite: PATH 800. LAB.

PATH 911. Research in Pathology. 1-10 Hours.
RSH.

PATH 912. Advanced Topics. 1-3 Hours.
Offered by arrangement. Prerequisite: Approval of the instructor and completion of the IGPBS core curriculum or its equivalent. IND.

PATH 913. Introduction to Grant Proposal Writing. 1 Hour.
This course will teach the fundamentals of writing a grant proposal with an emphasis on NIH proposals. This course is open to any graduate students interested in applying for pre-doctoral fellowships, and especially to graduate students in the Department of Pathology who will be conducting their comprehensive qualifying exams in the upcoming year. This course involves a combination of didactic lectures, student coursework and discussion. This course will include different principal investigators from the Pathology Department as guest speakers. Topics will include different sources of funding, grant submission and post-submission review process. However, the core component of this course will involve teaching the basic framework and components of an NIH R01 application. This course is designed to give practical structural guidance in scientific writing at a professional level and does not give guidance on specific research projects. Prerequisites: IGPBS coursework or equivalent, permission of instructor. LEC.

PATH 915. Advanced Pathology. 3 Hours.
A lecture and literature review course in which molecular, subcellular, and supracellular organization and function are considered in normal and disease states. Prerequisite: PATH 800. LEC.
PATH 939. Carcinogenesis and Cancer Biology. 3 Hours.

PATH 999. Doctoral Dissertation. 1-7 Hours.
THE.

Master of Arts in Pathology

Pathology and Laboratory Medicine Graduate Programs

The Department of Pathology and Laboratory Medicine offers a graduate program leading to the M.A. degree including research opportunities with emphasis on developmental biology and cell differentiation, cancer biology, stem cell biology, microbial and viral pathogenesis, gene regulation, and experimental pathology. This curriculum is designed for advanced research study in molecular and cellular biology and experimental pathology.

The Graduate Training Program in the Department of Pathology & Laboratory Medicine participates in the degree granting curriculum of the University of Kansas Medical Center in concert with the IGPBS. Our program provides comprehensive training in understanding the molecular basis of disease and the fundamental mechanisms of cell growth and differentiation. Program details and applications may be obtained online at: Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (http://www.kumc.edu/igpbs.html)

The course requirements of the Pathology Department Graduate Program are designed to provide maximum flexibility for the student’s specialized needs. Students enrolled in the program are required to take graduate coursework in fields related to molecular and experimental pathology and to choose electives from either Pathology or other KUMC departments related to their major thesis work. Substantial portions of the research efforts should result in published works in peer-reviewed scientific journals. Students are required to enroll in a minimum of one hour, PATH 899 Master’s Thesis during the semester they defend their thesis.

Graduate Admission

Applications to the master’s program in Pathology and Laboratory Medicine is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). See the IGPBS (p. 1821) section of this online catalog for a description of the program and the admission requirements. In certain cases, students may be admitted directly into the department. Applicants specifically interested in the pathology and laboratory medicine program should write to the department at PathologyGraduateProgram@kumc.edu for information.

M.A. Degree Requirements

All general requirements for the M.A. as defined by the University of Kansas must be met. Students must complete the IGPBS core curriculum or its equivalent (as determined by departmental graduate advisory committee). Students must complete a minimum of 5 credit hours of advanced graduate course work in fields related to molecular and cellular biology and experimental pathology (including the IGPBS core curriculum and PATH 804).

Recommended courses include but are not limited to the following (other course work may be assigned based on the recommendation of the student’s graduate student advisory committee):

<table>

In addition, students must take PATH 805 Seminars in Pathology (1 credit hour a semester) each year until successful completion of the program. Students must defend the master’s thesis successfully to earn the master's degree and are required to enroll in a minimum of one hour, PATH 899 Master’s Thesis during the semester they defend their thesis.

Doctor of Philosophy in Pathology

Pathology and Laboratory Medicine Graduate Programs

The Department of Pathology and Laboratory Medicine offers a graduate program leading to the Ph.D. degree including research opportunities with emphasis on developmental biology and cell differentiation, cancer biology, stem cell biology, microbial and viral pathogenesis, gene regulation, and experimental pathology. This curriculum is designed for advanced research study in molecular and cellular biology and experimental pathology.

The Graduate Training Program in the Department of Pathology & Laboratory Medicine participates in the degree granting curriculum of the University of Kansas Medical Center in concert with the IGPBS. Our program provides comprehensive training in understanding the molecular basis of disease and the fundamental mechanisms of cell growth and differentiation. Program details and applications may be obtained online at: Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (http://www.kumc.edu/igpbs.html)

The course requirements of the Pathology Department Graduate Program are designed to provide maximum flexibility for the student’s specialized needs. Students enrolled in the program are required to take graduate coursework in fields related to molecular and experimental pathology and to choose electives from either Pathology or other KUMC departments related to their major thesis work. After passing the Comprehensive Examination, students will devote most of their time to laboratory experimentation and developing a research project. Substantial portions of the research efforts should result in published works in peer-reviewed scientific journals.
Graduate Admission

Applications to the master's program in Pathology and Laboratory Medicine is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). See the IGPBS (p. 1821) section of this online catalog for a description of the program and the admission requirements. In certain cases, students may be admitted directly into the department. Applicants specifically interested in the pathology and laboratory medicine program should write to the department at PathologyGraduateProgram@kumc.edu for information.

Ph.D. Degree Requirements

All general requirements for the Ph.D. as defined by the University of Kansas must be met. Students must complete the IGPBS core curriculum or its equivalent (as determined by departmental graduate advisory committee). In addition, students must take PATH 804 Selected Topics in Signal Transduction (1 credit hour) each year before the successful completion of the comprehensive examination; PATH 805 Seminars in Pathology (1 credit hour) each year until the successful completion of the doctoral program; and 1 credit hour of a course directly related to grant writing and submission. Students must complete a minimum of 5 credit hours of advanced graduate course work in fields related to molecular and cellular biology and experimental pathology (including PATH 804).

Recommended courses include but are not limited to the following (other course work may be assigned on the recommendation of the student's graduate student advisory committee):

PATH 803 Stem Cell Biology 2
PATH 806 Epigenetics 2
PATH 939 Carcinogenesis and Cancer Biology 3
ANAT 868 Advanced Developmental Biology 2
PHSL 834 Reproductive Physiology 5
BCHM 922 Advanced Molecular Genetics 3
PATH 912 Advanced Topics (Credit hours are defined by the student's mentor. No more than 3 credit hours are possible each semester.)

Students must complete the comprehensive oral examination successfully. Before scheduling the comprehensive oral examination, the student must meet the research skills and responsible scholarship requirement (https://documents.ku.edu/policies/Graduate_Studies/Research_Skills_and_Responsible_Scholarship.htm) of the university.

Pathology Ph.D. students must meet these requirements during their IGPBS year of study by taking GSMC 857 Biographics, GSMC 852/GSMC 855 Introduction to Biomedical Research I and II, and GSMC 856 Introduction to Research Ethics.

The student must defend the dissertation successfully as determined by the student's advisory committee and are required to enroll in a minimum of one hour, PATH 999 Doctoral Dissertation during the semester they defend.

All students participating in graduate training offered by the University of Kansas Medical Center’s Department of Pathology and Laboratory Medicine are required to publish in a peer-reviewed scientific journal before completion of the degree. The journal and its impact factor is subject to the approval of the student’s mentor.

Combined M.D.-Ph.D. Degree

Outstanding students who are qualified to do so may participate concurrently in work leading to the M.D. and Ph.D. degrees. Credit hours earned in the medical curriculum cannot be transferred as graduate credit hours toward the requirements for the Ph.D. degree, although recognition of satisfactory performance in appropriate medical courses may be given by the Ph.D. program when formulating the student's additional Ph.D. curriculum. All the requirements for both degrees must be met. The combined degree requirements and application information for the combined M.D.-Ph.D. program are posted on the M.D.-Ph.D. website (http://www.kumc.edu/md-phd-program.html).

Department of Pharmacology, Toxicology, and Therapeutics

Pharmacology, Toxicology, and Therapeutics Graduate Programs

The Department of Pharmacology, Toxicology, and Therapeutics offers programs leading to master’s or Ph.D. degrees in either of 2 areas pharmacology or toxicology. A Ph.D. degree may be earned in pharmacology with specialization in a number of subfields. The department is one of a very few nationally also to grant the Ph.D. degree in toxicology, again with opportunities for specialization in several subfields. Although a master's degree may be granted in appropriate circumstances, graduate work is primarily for students planning to earn the Ph.D. degree since the broad background required for work in pharmacology and toxicology makes only the doctoral program appropriate for most students.

Because the emphasis in training students is to provide the broad background needed in pharmacological and toxicological sciences, the program encompasses a spectrum of the biomedical sciences. This includes participation in the Interdisciplinary Graduate Program in Biomedical Sciences core curriculum as well as appropriate electives in other basic sciences.

Research areas emphasized in both pharmacology and toxicology programs are transporters, drug metabolism, hepatotoxicity, pharmacogenomics, metabonomics, gene regulation, nuclear receptors, epigenetics, pain, neurodevelopment, etc.

Courses

PHCL 761. General Principles of Pharmacology. 1 Hour.
General principles of pharmacology, including pharmacokinetics, pharmacodynamics, adverse effects, pharmacotherapeutics plus miscellaneous agents (antacids, cathartics, biologicals). Open to advanced B.S. students and graduate students in Nursing, Allied Health, and other health related programs. Independent study program with use of computer assisted instruction, textbooks, syllabi, consultation with staff and exams as primary teaching instruments. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an Incomplete grade. Prerequisite: An Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 762. Pharmacology of the Autonomic Nervous System. 1 Hour.
General principles of the autonomic nervous system, cholinergics, muscarinics, nicotinics, neuromuscular blockers, beta adrenergics, alpha adrenergics, and miscellaneous ANS agents. Students are encouraged
to complete this course the semester they enroll. If this course is not completed, students will receive an incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 763. Cardiovascular-Renal Pharmacology. 1 Hour.
Antihypertensives, antiarrhythmics, vasodilators, cardiac glycosides, serotonin, histamine, polypeptides, diuretics, antilipidemics. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 764. Pharmacology of the Central Nervous System. 1 Hour.
General principles of the central nervous system, stimulants, hallucinogens, depressants (hypnotics and sedatives), general and local anesthesia, antiparkinson agents, tranquilizers, analgesics and anticonvulsants. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 765. Chemotherapy. 1 Hour.
Principles of chemotherapy, sulfonamides, penicillins, aminoglycosides, anticancer and antifungal agents, antimalarials, broad spectrum antibiotics, antiparasitic agents, and antiseptics. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 766. Blood-Endocrine Pharmacology. 1 Hour.
General principles of endocrine function and use, thyroid drugs, insulin, sex hormones, oxytocics, adrenal steroids, antiinflammatory agents, blood drugs, anticoagulants and vitamins. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 767. Toxicology. 1 Hour.
General principles of toxicology, clinical toxicology, solvents, metals, gases and dusts, corrosives, plant and animal toxins, pesticides, radiation, miscellaneous. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 809. Seminar in Pharmacology. 1 Hour.
Weekly meetings. LEC.

PHCL 846. Advanced Neuroscience. 5 Hours.
Team taught, in-depth neuroscience course focusing on normal and diseased brain function at the molecular, cellular and systems levels. Lectures and discussions will emphasize current issues in neuroscience research. (Same as ANAT 846, PHSL 846 and NURO 846). Prerequisite: Permission of course director. LEC.

PHCL 848. Molecular Mechanisms of Neurological Disorders. 3 Hours.
An in-depth coverage of pathogenic mechanisms in neurological diseases; cellular and molecular responses to brain injury and disease, neuroinflammatory diseases (e.g., multiple sclerosis), neurodegenerative diseases (e.g., Alzheimer’s, Parkinson’s, Huntington’s, amyotrophic lateral sclerosis, and prion diseases), neurogenic diseases (e.g., lysosomal and peroxisomal disorders, Down’s syndrome and fragile X), trauma, stroke, and viral diseases (e.g., HIV encephalitis). (Same as ANAT 848, NURO 848, and PHSL 848.) Prerequisite: Advanced Neuroscience (ANAT 846, PHCL 846 or PHSL 846) or an equivalent course and consent of instructor. LEC.

PHCL 880. Essentials of Pharmacology. 4 Hours.
Introduction to Pharmacology for Graduate Students. Autonomic, Cardiovascular and Renal, Endocrine, Neuro, Antivirals Pharmacology. Autocoids; Workshop; Historical and Contemporary Methods used to Elucidate Mechanisms of Drug Action. Prerequisite: Successful completion of the Interdisciplinary Program in Biomedical Sciences or permission of the Instructor. LEC.

PHCL 890. Research in Pharmacology. 1-10 Hours.
For graduate students beginning their research training. RSH.

PHCL 898. Principles of Pharmacology. 1 Hour.
Chemical fundamentals in structure, actions and metabolism of drugs and toxicants. Included are molecular features of drugs and toxicants, steroisomerism, receptor theory, dose-response relationships, agonists and antagonists, absorption, pharmacokinetics and structure-activity relationships. LEC.

PHCL 899. Thesis in Pharmacology. 1-10 Hours.
For students in a master’s program in pharmacology. THE.

PHCL 924. Clinical Pharmacology. 5 Hours.
Designed to give practical and theoretical experience with drug trials in humans. Includes animal experimentation when warranted. Clinical principles of drug therapy will be emphasized. IND.

PHCL 939. Carcinogenesis and Cancer Biology. 3 Hours.
Multidisciplinary approach. Cancer pathology, Mutagenesis, Genetics, Carcinogen metabolism. Signal Transduction, Apoptosis, Initiation and promotion. Tumor Immunology. Cell proliferation. Protooncogenes and suppressor genes. Hormonal carcinogenesis. Cancer epidemiology. Dietary and environmental causation and prevention. Cancer in various organ systems. (Same as PATH 939 and PTOX 939.) Prerequisite: Completion of one of the following: IGPBS modules 1-4 or equivalent or permission of instructor. LEC.

PHCL 990. Research for Dissertation in Pharmacology. 1-10 Hours.
Prerequisite: PHCL 890. RSH.

PHCL 999. Dissertation in Pharmacology. 1-10 Hours.
Prerequisite: Open to students of advanced standing enrolled in the doctoral program in Pharmacology. THE.

PTOX 830. Introduction to Clinical and Translational Cancer Research. 3 Hours.
Instruct students in developmental steps used in translating a basic science experiment with clinical applications into a proof of concept application and human trial. Multidisciplinary approach; lectures from faculty in Pharmacology, KU Cancer Ctr, KUMCRI. Curriculum: Levels of evidence-clinical impact, Pre-Clinical modeling, In-Vitro studies Animal models, Cancer Drug Development-pharmacokinetics toxicity, Pre-Clinical Proof of Concept FDA, Creating a Pilot Study, Biostatistics 101, Phases of Clinical Trials, Data Collection, Support Staff, Regulatory and DSMBs, IRB and HIPPA, Funding Study: Grants Parma, Advertising
study meeting accrual goals, Goals of Phase I study, Goals Objectives of Phase II Efficacy study, Phase 3 Multicenter Study: Value of Numbers Utilizing Cooperative Groups. Prerequisite: Completion of first 2 years of Med School or graduate school, or enrollment in MD/PhD program. Students no meeting one of these criteria will require permission from course instructor. LEC.

PTOX 887. Toxicologic Pathology. 4 Hours.
Introductory pathology course for graduate students preparing for a career in basic toxicology research. Topics to be presented and discussed include: cell injury, inflammation, repair and regeneration, immunopathology, neoplasia, tumor pathology, respiratory pathology, liver pathology, neuropathology, miscellaneous organ pathology, and lab animal clinical chemistry. LEC.

PTOX 889. Research in Toxicology. 1-10 Hours.
Introductory pathology course for planning on being research toxicologists. Topics to be presented and discussed: cell injury, inflammation, repair and regeneration, immunopathology, neoplasia, tumor pathology, respiratory pathology, liver pathology, neuropathology, miscellaneous organ pathology, and lab animal clinical chemistry. LEC.

PTOX 898. Principles of Toxicology. 1 Hour.
Chemical fundamentals in structure, actions and metabolism of toxicants and drugs. Included are molecular features of toxicants and drugs, stereoisomerism, receptor theory, dose-response relationships, agonists and antagonists, absorption, pharmacokinetics, and structure-activity relationships. LEC.

PTOX 899. Thesis in Toxicology. 1-10 Hours.
For students in a master’s program in toxicology. THE.

PTOX 900. Research for Dissertation in Toxicology. 1-10 Hours.
Prerequisite: PTOX 889. RSH.

PTOX 999. Dissertation in Toxicology. 1-10 Hours.
Prerequisite: Open to students of advanced standing enrolled in the doctoral program in toxicology. THE.

## Master of Arts in Pharmacology

### Pharmacology, Toxicology, and Therapeutics Graduate Programs

The Department of Pharmacology, Toxicology, and Therapeutics offers programs leading to master’s or Ph.D. degrees in either of 2 areas pharmacology or toxicology. A Ph.D. degree may be earned in pharmacology with specialization in a number of subfields. The department is one of a very few nationally also to grant the Ph.D. degree in toxicology, again with opportunities for specialization in several subfields. Although a master’s degree may be granted in appropriate circumstances, graduate work is primarily for students planning to earn the Ph.D. degree since the broad background required for work in pharmacology and toxicology makes only the doctoral program appropriate for most students.

Because the emphasis in training students is to provide the broad background needed in pharmacological and toxicological sciences, the program encompasses a spectrum of the biomedical sciences. This includes participation in the Interdisciplinary Graduate Program in Biomedical Sciences core curriculum as well as appropriate electives in other basic sciences.

Research areas emphasized in both pharmacology and toxicology programs are transporters, drug metabolism, hepatotoxicity, pharmacogenomics, metabonomics, gene regulation, nuclear receptors, epigenetics, pain, neurodevelopment, etc.

### Graduate Admission

Applications to the Ph.D. and master’s programs in pharmacology or toxicology are facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences. See the IGPBS section for a description of the program and admission requirements (p. 1778). In certain cases, students may be admitted directly into the department. Applicants specifically interested in the pharmacology and toxicology graduate programs should contact the department directly for information and review the Direct Admit Checklist on the KUMC Graduate Studies website (http://www.kumc.edu/academic-affairs/graduate-studies.html).

### M.A. in Pharmacology Degree Requirements

A minimum of 30 credit hours is required. These hours are divided between formal course work and a research project. The student must satisfactorily defend the project in an open seminar as part of the final examination.

### Master of Science in Pharmacology

### Pharmacology, Toxicology, and Therapeutics Graduate Programs

The Department of Pharmacology, Toxicology, and Therapeutics offers programs leading to master’s or Ph.D. degrees in either of 2 areas pharmacology or toxicology. A Ph.D. degree may be earned in pharmacology with specialization in a number of subfields. The
department is one of a very few nationally also to grant the Ph.D. degree in toxicology, again with opportunities for specialization in several subfields. Although a master's degree may be granted in appropriate circumstances, graduate work is primarily for students planning to earn the Ph.D. degree since the broad background required for work in pharmacology and toxicology makes only the doctoral program appropriate for most students.

Because the emphasis in training students is to provide the broad background needed in pharmacological and toxicological sciences, the program encompasses a spectrum of the biomedical sciences. Applicants specifically interested in the pharmacology and toxicology graduate programs should contact the department directly for information and review the Direct Admit Checklist on the KUMC Graduate Studies website (http://www.kumc.edu/academic-affairs/graduate-studies.html).

M.S. in Toxicology Degree Requirements

A minimum of 30 credit hours is required. These hours are divided between formal course work and research/thesis. The student must satisfactorily defend the thesis in an open seminar as part of the final examination. Enrollment in a minimum of one hour PHCL 899 Thesis in Pharmacology is required the semester the thesis is defended.

Master of Science in Toxicology

Pharmacology, Toxicology, and Therapeutics Graduate Programs

The Department of Pharmacology, Toxicology, and Therapeutics offers programs leading to master's or Ph.D. degrees in either of 2 areas pharmacology or toxicology. A Ph.D. degree may be earned in pharmacology with specialization in a number of subfields. The department is one of a very few nationally also to grant the Ph.D. degree in toxicology, again with opportunities for specialization in several subfields. Although a master’s degree may be granted in appropriate circumstances, graduate work is primarily for students planning to earn the Ph.D. degree since the broad background required for work in pharmacology and toxicology makes only the doctoral program appropriate for most students.

Because the emphasis in training students is to provide the broad background needed in pharmacological and toxicological sciences, the program encompasses a spectrum of the biomedical sciences.
Graduate Admission

Applications to the Ph.D. and master’s programs in pharmacology or toxicology are facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences. See the IGPBS section for a description of the program and admission requirements (p. 1778). In certain cases, students may be admitted directly into the department. Applicants specifically interested in the pharmacology and toxicology graduate programs should contact the department directly for information and review the Direct Admit Checklist on the KUMC Graduate Studies website (http://www.kumc.edu/academic-affairs/graduate-studies.html).

Ph.D. Degree Requirements

All students must take the courses of the Interdisciplinary Graduate Program in Biomedical Sciences or an equivalent set of courses approved by the Departmental Graduate Committee. After completion of IGPBS, the following courses are required for the Ph.D. in Pharmacology:

1. Credit hours equivalent to at least 3 full academic years.
2. PHCL 880 Essentials of Pharmacology, PHCL 898 Principles of Pharmacology, PTOX 917 Disposition of Xenobiotics, PTOX 918 Toxicology.
3. At least 2 elective courses (at least 2 credit hours each) approved by the student’s dissertation committee.
4. Other courses considered necessary by the student’s major advisor and dissertation committee.

All students in doctoral programs must meet the research skills and responsible scholarship requirement (https://documents.ku.edu/policies/Graduate_Studies/Research_Skills_and_Responsible_Scholarship.htm) of the university. Pharmacology Ph.D. students meet these requirements during their IGPBS year of study by taking GSMC 857 Biographics: Biographics, GSMC 852/GSMC 855 Introduction to Biomedical Research I and II, and GSMC 856 Introduction to Research Ethics.

Examinations

1. Oral comprehensive examination. To be taken after completion of most course requirements and after the research skills and responsible scholarship requirements have been met (normally the exam takes place during the third year of full-time graduate study).
2. Final examination. To be taken after all other requirements, including the dissertation, are completed. Enrollment in a minimum of one hour PHCL 999 Dissertation in Toxicology is required the semester the dissertation is defended.

Combined M.D.-Ph.D. Degree

Outstanding students who are qualified to do so may participate concurrently in work leading to the M.D. and Ph.D. degrees. Credit hours earned in the medical curriculum cannot be transferred as graduate credit hours toward the requirements for the Ph.D. degree, although recognition of satisfactory performance in appropriate medical courses may be given by the Ph.D. program when formulating the student’s additional Ph.D. curriculum. All the requirements for both degrees must be met. The combined degree requirements and application information for the combined M.D.-Ph.D. program are posted on the M.D.-Ph.D. website (http://www.kumc.edu/md-phd-program.html).

Doctor of Philosophy in Toxicology

Pharmacology, Toxicology, and Therapeutics Graduate Programs

The Department of Pharmacology, Toxicology, and Therapeutics offers programs leading to master’s or Ph.D. degrees in either of 2 areas: pharmacology or toxicology. A Ph.D. degree may be earned in pharmacology with specialization in a number of subfields. The department is one of a very few nationally to also grant the Ph.D. degree in toxicology, again with opportunities for specialization in several subfields. Although a master’s degree may be granted in appropriate circumstances, graduate work is primarily for students planning to earn the Ph.D. degree since the broad background required for work in pharmacology and toxicology makes only the doctoral program appropriate for most students.

Because the emphasis in training students is to provide the background needed in pharmacological and toxicological sciences, the program encompasses a spectrum of the biomedical sciences. This includes participation in the Interdisciplinary Graduate Program in Biomedical Sciences core curriculum as well as appropriate electives in other basic sciences.

Applicants specifically interested in the pharmacology and toxicology graduate programs should contact the department directly for information and review the Direct Admit Checklist on the KUMC Graduate Studies website (http://www.kumc.edu/academic-affairs/graduate-studies.html).

Ph.D. Degree Requirements

All students must take the courses of the Interdisciplinary Graduate Program in Biomedical Sciences or an equivalent set of courses approved by the Departmental Graduate Committee. After completion of IGPBS, the following courses are required for the Ph.D. in Toxicology:

1. Credit hours equivalent to at least 3 full academic years.
2. PHCL 880 Essentials of Pharmacology, PTOX 898 Principles of Toxicology, PTOX 917 Disposition of Xenobiotics, PTOX 918 Toxicology, PTOX 940 Techniques in Industrial Toxicology.
3. At least 2 elective courses (at least 2 credit hours each) approved by the student’s dissertation committee.
4. Other courses considered necessary by the student’s major advisor and dissertation committee.

All students in doctoral programs must meet the research skills and responsible scholarship requirement (https://documents.ku.edu/policies/
Graduate Studies/Research Skills and Responsible Scholarship.htm) of the university. Toxicology Ph.D. students meet these requirements during their IGPBS year of study by taking GSMC 857 Biographies: Biographics, GSMC 852/GSMC 855 Introduction to Biomedical Research I and II, and GSMC 856 Introduction to Research Ethics.

Examinations

1. Oral comprehensive examination. To be taken after completion of most course requirements and after the research skills and responsible scholarship requirements have been met (normally the exam takes place during the third year of full-time graduate study).

2. Final examination. To be taken after all other requirements, including the dissertation, are completed. Enrollment in a minimum of 1 hour PTOX 999 Dissertation in Toxicology is required the semester the dissertation is defended.

Combined M.D.-Ph.D. Degree

Outstanding students who are qualified to do so may participate concurrently in work leading to the M.D. and Ph.D. degrees. Credit hours earned in the medical curriculum cannot be transferred as graduate credit hours toward the requirements for the Ph.D. degree, although recognition of satisfactory performance in appropriate medical courses may be given by the Ph.D. program when formulating the student’s additional Ph.D. curriculum. All the requirements for both degrees must be met. The combined degree requirements and application information for the combined M.D.-Ph.D. program are posted on the M.D.-Ph.D. website (http://www.kumc.edu/md-phd-program.html).

Department of Preventive Medicine and Public Health

Preventive Medicine and Public Health Graduate Programs

Several graduate degree and certificate programs are offered through the Departments of Preventive Medicine and Public Health in Kansas City and Wichita. These programs are designed to develop public health practice and research skills for those students with clinical and other health related backgrounds.

Courses

PRVM 800. Principles of Epidemiology. 3 Hours.
Basic concepts of epidemiology and methods for identification of factors influencing health and disease in human populations. Considerations are centered on physical, biological, psychosocial and cultural factors in relation to infectious and non-infectious diseases, interactions between agent, host, and environmental factors as determinants of health and disease; application of the epidemiologic approach to health services; retrospective and prospective analysis of morbidity and mortality data. LEC.

PRVM 802. Principles of Epidemiology Lab. 1 Hour.
This course is an additional supplement to the Principles of Epidemiology course. We will review articles and discuss the major principles of epidemiology through the use of the medical literature. This course is designed for students to obtain practical training in epidemiologic concepts and methods. Prerequisite: Concurrent enrollment in PRVM 800. LEC.

PRVM 803. Introduction to Clinical Research. 1 Hour.
Course will provide a comprehensive overview to clinical research. The student will gain an understanding of how to develop clinical research questions including protocol design and the factors that should be considered in initiating a clinical research study. This will include biostatistical considerations, the recruitment of study participants, regulatory issues, and data management, and defining measures and instruments. Students will gain knowledge of how to define clinical research among the various institutional entities involved with clinical research at the University of Kansas Medical Center such as the Research Institute (RI), General Clinical Research Center (GCRC) and the Human Subjects Committee (HSC). Additionally, one component of the course will focus on how to apply for funding (grantsmanship), critical appraisal of research studies, and how to present research data. Prerequisite: Consent of instructor. LEC.

PRVM 805. Public Health Seminar. 1 Hour.
This course will focus on public health practice. Guest lectures from national, state, and local public health agencies will present problems and how these problems are being addressed. Topics are expected to vary somewhat from year to year, depending on the priorities of the agencies. However, topics might include such issues as smoking prevention, automobile accidents, foodborne outbreaks, cryptococcosis outbreaks, lead poisoning in children, asthma in children, sexuality transmitted diseases, diabetes, cancer control, nutrition, cardiovascular diseases, bioterrorism, legal issues and administration of public health. This course is the same as Public Health Grand Rounds. FLD.

PRVM 806. Special Topics. 1-4 Hours.
In-depth, individualized investigation of special problems in community health. Designed especially for students with limited background in community health. Prerequisite: Permission of instructor. RSH.

PRVM 807. Introduction to Field Epidemiology. 3 Hours.
This course presents an overview of the methods used in epidemiologic field investigations. It provides students with a comprehensive review of the basic components of an outbreak investigation, an introduction to public health surveillance, and an overview of specific types of investigations in which a field epidemiologist might become involved, including traceback studies, environmental health assessments, noninfectious health event investigations, contact tracing, and forensic epidemiology. In addition, resources that often come into play in outbreak investigations are presented, such as public health laboratories, the incident command system, and geographic information systems. Prerequisite: PRVM 800. RSH.

PRVM 808. Clinical and Translational Research Seminar. 1 Hour.
This seminar will present locally and nationally recognized clinicians and researchers to discuss various areas of clinical research. The course is designed to expose students to a variety of ongoing research and features speakers from a variety of disciplines including physicians, epidemiologists, biostatisticians behavioral scientists, nursing faculty, nursing students, medical students, allied health faculty and others. Prerequisite: Permission of instructor. LEC.

PRVM 809. Introduction to Public Health. 3 Hours.
An introduction to contemporary public health principles and practice addressing the history, philosophy, and scope of public health practice with emphasis on current organization and administration of programs, recent developments and trends, public health law and regulations and the interface of public and other health related systems. Prerequisite: Permission of instructor. LEC.

PRVM 810. Cardiovascular Disease Epidemiology. 3 Hours.
This will be a study of Cardiovascular Disease risk factors, expression, treatment, and prevention from a population-based standpoint.
Participants will gain knowledge of cardiovascular disease prevalence, incidence, risk factors, outcomes, and prevention strategies. The goal of this course is to understand major aspects of cardiovascular epidemiology and current strategies for primary and secondary prevention of major cardiovascular diseases. Attention will be given to physiologic mechanisms leading to atherosclerosis; traditional and novel coronary heart disease risk factors; prevention methodologies for cardiovascular disease, and the role of lifestyle, dietary, and genetic factors in the development of cardiac and vascular diseases. The course will be evidence- and outcomes-based, with reference to landmark studies and major publications. Relevant historical breakthroughs and current controversies in CVD will be discussed using recent publications from the lay press and peer-reviewed journals. Emphasis will be placed on coronary artery disease and its clinical manifestations. Participants will learn to critically assess public health measures undertaken to recognize, manage, and treat atherosclerotic disease processes. LEC.

PRVM 811. Introduction to Pharmacoepidemiology. 3 Hours.
Pharmacoepidemiology is the application of the principles of epidemiology to the study of medications and their effects of health. Evaluating a drug’s effects commences when a chemical entity becomes a drug candidate, intensifies through clinical trials, and continues after products reach the market. These studies are critical for supporting the proper use of medications in terms of efficacy, effectiveness, and cost-effectiveness. This course provides a broad introduction to the principles of pharmacoepidemiology with a focus on applications in the medical literature. Prerequisite: PRVM 800. LEC.

PRVM 812. Introduction To One Health. 2 Hours.
“One Health” encompasses the complex interrelationships among humans and animals, humans and the environment, and animals and the environment. Incorporates original videos of leading subject matter experts and researchers, case studies, and scientific readings. It addresses zoonotic diseases (those that may be transferred between humans and animals) and environmental issues that impact human, animal, and ecosystem health. Topics include disease surveillance, the human-animal bond, the built environment, disaster response, sanitation, rural/suburban/urban interface, and food safety and security. Prerequisites: Two courses in the biological sciences. Course Format: This is an interactive online course led by the instructor. LEC.

PRVM 814. Health Literacy. 3 Hours.
This is a graduate-level course designed to teach students about literacy and its implications on public health practice and research in the United States, with a focus on health literacy. Students will be introduced to the different types of literacy, including health, prose, quantitative, document, and computer, and how to evaluate them. In addition, students will learn how to lower literacy levels of health education materials for practical application. Cultural competency in literacy will also be discussed, with a focus on culturally competent health communication and education. LEC.

PRVM 815. Surveillance and Control of Infectious Disease. 3 Hours.
This course is concerned with the public health aspects of infectious diseases of importance in the United States. Emphasis will be given to surveillance and control of reportable diseases transmitted via person to person spread, arthropod vectors, lower animals, and common sources. Special considerations are given to characteristics of the agent, host, and environment that influence transmission and selection of control strategies. Instruction is by lecture, seminars and problem-solving sessions. Prerequisite: PRVM 800 or permission of instructor. LEC.

PRVM 816. International Health. 3 Hours.
This course is divided into seven sections: 1) Global health introduction, 2) Health inequalities and the socio-economic context of disease, 3) Maternal and child health, the health of special populations, 4) The spread of infectious diseases, and HIV/AIDS, malaria, TB, 5) Globalizations and emerging infectious diseases, and nutrition, 6) Environmental health and the health effects of environmental change, 7) Global health payers and players, and global health priorities. Prerequisite: PRVM 800 Principles of Epidemiology or permission of the department/instructor. LEC.

PRVM 817. Gender, Race, Class, and Health. 3 Hours.
This graduate-level course examines the intersection of gender, race, and class and its effects on individual and public health. The theoretical orientation of this course is informed by Black feminist scholarship on intersectionality: that is, the intersecting oppressions of gender, sexuality, race, class, and nation. This theory is extended to contemporary public health and social problems through an examination of applied public health studies and interventions. Students’ work will be grounded in theory, but they will learn to apply theory in fieldwork-based exercises and critical analysis of public health problems. LEC.

PRVM 818. Social and Behavioral Aspects of Public Health. 3 Hours.
The course provides an overview of social and behavioral aspects of public health including the relevance of psychological and social factors for health, the principles of health behavior change, the application of these principles in various health domains, and an introduction to health behavior and health promotion interventions. The course begins with the rationale for studying social and behavioral aspects of health and examines select social and behavioral factors (e.g. gender, socioeconomic status, race/ethnicity) as they relate to physical well-being. The course also focuses on well-established theories of health behavior and examines the role of psychological and social factors in specific health topics (e.g. obesity, cancer, cardiovascular disease, smoking). Prerequisite: None. LEC.

PRVM 819. An Introduction to Geographic Information Systems (GIS) for Health. 2 Hours.
This course will provide students with an overview of Geographical Information Systems (GIS) applied in the context of health (public health, allied health and health care). Students will be introduced to GIS and health applications used locally, nationally and internationally. They will learn about pertinent data, how to visualize the data, how to design maps that represent the data, how to use spatial data, how to geocode data, and how to prepare and analyze data. Real-life examples will be used throughout the course and students will gain hands-on experience using a GIS application. Students will also be kept abreast of any new GIS resources and trends or developments in GIS as relates to health. Prerequisite: Basic computer skills. LEC.

PRVM 820. Introduction to Oral Public Health. 3 Hours.
This course is a comprehensive introduction to oral public health in general as it relates to public health in general, within the context of the U.S. healthcare system. Course content includes: Basic organizational arrangements of health services in the U.S., concepts of public health and dental public health, public health problems and oral public health problems in the context of social and community factors and social determinants of health behavior, oral public health developments from a historical perspective, oral health/dental care financing and decision making; assessments of oral health status and need for care; population-based programs for oral disease prevention/health promotion, oral/dental public health research methodology and the practice of oral public health. LEC.

PRVM 821. Research Methods in Public Health. 3 Hours.
This is an introductory behavioral research methods, course. Students will learn about research designs, hypothesis formation, measurement, sampling, ethical issues in research, and pragmatic and research issues with evaluating behavioral interventions. Students will also learn how to critically evaluate and develop behavioral randomized clinical trials.
Prerequisites: None. Social and Behavioral Aspects of Health and an Introductory statistics course are recommended but not required. LEC.

PRVM 822. Migration and Health. 3 Hours.
This course is designed to enhance students’ understanding of the immigration process and its implications on health. This course will address a wide range of health issues experienced by immigrants in the U.S. and will analyze resources, disparities, and cultural factors having an impact on immigrants’ health. This course will also review partnerships and strategies developed to address the health of immigrants in the U.S. Prerequisite: Completion of PRVM 818 Social and Behavioral Aspects of Public Health and PRVM 863 Health Disparities is recommended. Instructor or program approval is required. LEC.

PRVM 823. Field Experience in Community Health Education. 1-3 Hours.
Internships with community agencies, community preceptors in areas of concentration. Prerequisite: Permission of instructor. FLD.

PRVM 825. Child and Family Health. 3 Hours.
Family, maternal, and child health problems will be addressed. Topics will include perinatal care (maternal health and habits); fetal growth factors, well baby care (immunizations, nutrition, growth, development, behavior); developmental disabilities; adoption; adolescence; child abuse; family as a support system; long-term medical and social outcomes of chronic illness/disability in children. Subjects are covered through lecture, discussion and field visits under the supervision of a pediatrician. Prerequisite: Permission of instructor. LEC.

PRVM 826. Epidemiology for Advanced Nursing Practice. 3 Hours.
Epidemiology for Advanced Nursing Practice is a 3 credit hour graduate level course designed to synthesize basic epidemiology with clinical nursing concepts. The course is a core course required for the Doctor of Nursing Practice degree in which basic concepts of epidemiology and methods for identification of factors influencing health and disease in human populations are discussed. Considerations are centered on: 1) Physical, biological psychosocial and cultural factors in relation to infectious and non-infectious diseases; 2) Interactions between agent, host, and environmental factors as determinants of health and disease; 3) Application of the epidemiologic approach to clinical nursing; and 4) Measures of disease occurrence and risk. Prerequisites: None. LEC.

PRVM 827. Public Health Administration. 3 Hours.
This course provides students with an overview of the core functions of public health: assessment, policy development, and assurance together with an introduction to the leadership and management skills necessary to provide leadership in public health. It uses both theoretical and practical material to develop basic administrative competencies necessary for practice in community and public health. Assignments are designed to provide practice in applying course materials. LEC.

PRVM 828. Public Health Program Development and Management. 3 Hours.
Framed within the context of the core public health functions, assessment, policy development, and assurance, this course provides students with an overview of the planning process within a community setting. This course will use both theoretical and practical material to develop basic competencies in planning, implementing, and evaluating health programs; however, the predominant focus will involve the planning process and operations of a public health program. Assignments are designed to provide practice in applying course materials. Prerequisites: PRVM 818 Social and Behavioral Aspects of Public Health, PRVM 800 Principles of Epidemiology, PRVM 827 Public Health Administration. LEC.

PRVM 830. Environmental Health. 3 Hours.
This course will identify specific health effects of environmental contaminants and discuss principles of prevention. Specific problem areas will include air and water pollution, solid waste disposal, food preservation, radiation, industrial hygiene, occupational skin and lung diseases, chemical carcinogens accidents, an agricultural health and safety. A number of guest lecturers and field trips will be utilized. LEC.

PRVM 832. Environmental and Occupational Epidemiology. 3 Hours.
Epidemiological concepts applied to problems in environmental and occupational health will be discussed. This course will focus on studies of workplace and environmental exposures. exposure assessment and monitoring, hazardous exposures and adverse health effects, and approaches to prevention. Specific health effects of exposure to toxic chemical and physical agents will be discussed, as well as reading, evaluating, and interpreting epidemiologic studies. Prerequisites: PRVM 800 Principles of Epidemiology and PRVM 830 Environmental Health or permission of instructor. LEC.

PRVM 833. Community Health Education and Promotion. 3 Hours.
Designed to teach students the core concepts in community health education and promotion, students will be introduced to the scientific and practical knowledge necessary to develop successful research and implement programs. Students will learn models of analysis, management of health promotion in the workplace, health education diagnosis, planning, and evaluation. A variety of examples will be used, including the Centers for Disease Control model, and other commonly recognized approaches to community health promotion. Prerequisites: PRVM 818 Social and Behavioral Aspects of Public Health or permission of instructor. LEC.

PRVM 834. Evaluation Methods in Public Health. 3 Hours.
Principles and procedures to evaluate health promotion and disease prevention programs. Includes data collection methods, instrument scale development, measurement, and evaluation designs. Case studies of disease prevention literature on evaluation will be analyzed. Prerequisite: Permission of instructor. LEC.

PRVM 835. Epidemiology in Aging. 3 Hours.
An overview of the aging process, review of current knowledge of epidemiology of selected diseases, such as dementia and osteoporosis, and falls that primarily affect aging individuals. Emphasis on epidemiologic designs, methods, and issues (e.g., low response rate and measurements) that are pertinent to research on aging individuals. Prerequisite: PRVM 800, BMTR 811/PRVM 804, or permission of instructor. LEC.

PRVM 836. Children’s Environmental Health. 3 Hours.
Web-based course. Children rely on adults to protect them from hazards. Are we doing as much as we should? Are certain health problems in children related to environmental contamination? This course reviews and applies concepts in epidemiology, toxicology, reproductive health, and childhood development. Important children’s health problems such as asthma, attention deficit disorder, and others are addressed. Students apply principles of health communication in a project designed to prevent environmental health problems among children. Prerequisite: PRVM 800 Principles of Epidemiology. LEC.

PRVM 838. Reproductive Epidemiology. 3 Hours.
Epidemiologic concepts applied to problems in reproductive health of men and women. Critical analysis of epidemiologic studies on sociocultural, individual and pregnancy-specific risk factors to reproduction. Field trips will be used to explore methods to reduce adverse reproductive health outcomes in populations (worksites, managed care organizations, local health departments). Literature synthesis skills are used in a project.
focused on preventing adverse reproductive outcomes in a defined population. LEC.

PRVM 839. Community-oriented Primary Care Epidemiology. 3 Hours.
Overview of how population-based epidemiological concepts are applied to primary care settings, within the framework of community-oriented primary care (COPC). Community and clinic populations will be emphasized. Epidemiology theory and primary care research applications will be taught. Prerequisite: PRVM 800 or permission of instructor. LEC.

PRVM 840. Clinical Epidemiology. 3 Hours.
Application and elaboration of epidemiologic principles in the context of clinical decision-making; design and interpretation of studies relating to diagnosis, prognosis, prevention, and therapeutics; techniques of economic analysis and meta-analysis; use of clinical epidemiology to develop practice guidelines. Prerequisite: Permission of instructor. LEC.

PRVM 841. Advanced Epidemiology I: Methods in Cross-Sectional and Case-Control Studies. 3 Hours.
This course will concentrate on concepts and application of various statistical techniques in the analysis of epidemiological data. Students will be oriented toward application of SAS in data analysis and interpretation of data from cross-sectional and case-control studies. Prerequisite: Principles of Epidemiology (PRVM 800), Fundamentals of Biostatistics I (BIOS 714), and Management of Public Health Data (PRVM 875) or Statistical Computing SAS Base (BIOS 820.) LEC.

PRVM 842. Advanced Epidemiology II: Methods in Longitudinal Studies. 3 Hours.
This course will concentrate on concepts and application of various statistical techniques in the analysis of epidemiological data. Students will be oriented toward application of SAS in data analysis and interpretation of data from longitudinal studies and controlled clinical trials. Prerequisite: Principles of Epidemiology (PRVM 800), Fundamentals of Biostatistics I (BIOS 714), Advanced Epidemiology (PRVM 841), and Management of Public Health Data (PRVM 875) or Statistical Computing SAS Base (BIOS 820.) LEC.

PRVM 843. Obesity and Public Health. 3 Hours.
Obesity is becoming epidemic and pandemic throughout the world. What are the personal public health consequences of this phenomenon? Are we as focused as we should be on the effects of this growing problem? This course reviews the basic definition of obesity and defines its known personal and public health effects: including issues of bias and stigmatization. The course further examines the epidemiology, and future predications consequences of obesity and then examines personal models of treatment followed by examination of public health efforts to date. Finally, proposed interventions and areas for research are discussed and evaluated. Students apply principles of behavioral change and communication to develop proposed public health approaches to ameliorating the obesity problem in children and adults. Prerequisite: PRVM 800: Principles of Epidemiology and PRVM 818: Social and Behavioral Aspects of Public Health, or permission of instructor. LEC.

PRVM 844. Organization, Financing and Delivery of Health Care.. 3 Hours.
This course will demonstrate an understanding of the difference between health care and medical care and the place of medical care in the economic system; the role of social values and economic principles in societal decision making and the utilization of health care services; the role of NEED in the utilization of health care services; the public and private financing of the health care system; the organization of resources and types of managed care systems; the unique payment and the reimbursement mechanisms in the healthcare system; and the role of government in the healthcare system. LEC.

PRVM 845. Cultural Competency in Public Health. 3 Hours.
This course provides students with a broad range of contemporary research and writings in the area of cultural competence in public health as it relates to health disparities and health interventions. Specific attention will be paid to examining self-awareness, developing cross-cultural competence, and identifying and utilizing culturally appropriate strategies in health promotion and prevention. Students emerge from this course with an understanding of how culture operates as a critical variable in health behaviors, planning health promotion and disease prevention strategies, and in addressing health disparities. LEC.

PRVM 846. Health Economics. 3 Hours.
This course is designed to explore the application of economic theories, principles and concepts to the U.S. medical care system. Students will demonstrate an understanding of: the difference between health care and medical care and the place of medical care in the economic system; the role of social values in economic principles and societal decision making; the determinants of supply and demand of medical care services with particular attention to the relationship between supplier and demand and need and demand; complements and substitutes as they apply to medical care services; the unique nature of the medical care product; the interrelatedness of markets; the principles of and demand for health insurance and its role in the demand for medical care services; the role of government in the medical care system. LEC.

PRVM 847. Seminar in American Indian Health Disparities. 1 Hour.
This is a graduate-level course designed to teach students about current research being done around the country to address health disparities faced by American Indian communities. Students will attend a weekly one-hour seminar on-line and will be given readings to accompany each lecture. Lectures will be done by faculty at various universities, as well as members of community organizations and/or tribes who are conducting research. Students may take the course multiple times; each seminar will be unique in terms of topics and accompanying readings, as well as lecturers. Some semesters may focus on a particular health topic for the full semester, e.g.: cancer or diabetes. This course is designed to be a seminar series that changes each time it is taught. Prerequisite: Permission of instructor. SEM.

PRVM 849. Qualitative Methods in Public Health. 3 Hours.
Qualitative research has diverged from its anthropology roots to become commonplace in marketing, business, clinical and public health settings. This course is focused to basic qualitative methodologies with applications in public health, health services research, health behavior, and quality improvement. This course reviews and gives real practice with strategic planning, choice of methods, logistics, and integration with quantitative methods. Students will receive hands-on experience with logistics and actual data collection using several methods. Students will present and discuss recent journal articles reporting qualitative studies in weekly "journal club" fashion. Students will present the results of their qualitative research in an oral class presentation and poster, and in an abstract submitted to a local, regional or national conference. Prerequisite: PRVM 800 or permission of instructor. LEC.

PRVM 850. Cancer Epidemiology. 3 Hours.
Epidemiology of major malignant disease is discussed. Emphasis is placed on the identification of populations at risk, etiologic factors and foreseeable methods of prevention. Relevant information on tumor biology, immunology, and viral, chemical and physical carcinogenesis is presented. Problems unique to epidemiologic investigation of cancers are discussed. Epidemiological methodology is stressed. Prerequisite: PRVM 800. LEC.
PRVM 851. Public Health Policy and Law. 3 Hours.
This course is designed to prepare public health leaders to live and work in a world of laws, and to play an active and effective role in policy making and analysis. Students will understand the source of national, state, and local statutes and regulations and understand the role of common law. Students will understand the policy process at the national, state, and local level, and develop skills analyzing legislation and influencing policy decisions. Students will understand the rule making process at the national and state level. LEC.

PRVM 852. Health Care for Special Populations. 3 Hours.
This course examines the health and social needs of population groups with higher-than-average risk of disease, disability, and negative social outcomes. Such groups include low-income racial and ethnic minorities, urban adolescents, people in jails/prisons, the homeless, drug users, sex workers, immigrants, and people living with HIV/AIDS. The course utilizes the disciplines of social epidemiology and medical sociology to explore the individual, community, and structural-level determinants of health and implications for health care. LEC.

PRVM 853. Responsible Conduct of Research. 1 Hour.
The purpose of this course is to engage research trainees in reading about, considering, and discussing the responsible conduct of science. The course is designed as an option for meeting current federal regulations, which require that all NIH training grants provide training in the responsible conduct of research. This course provides a concise overview of key subject areas in the responsible conduct of research. It is designed to make students aware of relevant guidelines, policies and codes relating to ethical research, as well as to provide the skills for identifying and resolving ethical conflicts that may arise in research. LEC.

PRVM 854. Population and Community Mental Health. 3 Hours.
Social and social-psychological processes that shape the experience of mental health and illness and the consequences of disorders for individuals, families, and communities will be examined. Theories of systems, evidence-based treatment, epidemiologic research, diverse populations, mental health consequences of disaster and terrorism, and systems of care and change. Students will become familiar with the role of mental health risk and protective factors in the promotion of well-being. Through critical review and discussion of selected readings in this area, students will consider the implications of mental health and illness as a community or public health issue. Students will be evaluated on critical thinking and evaluation skills through written assignments and projects designed to demonstrate their ability to identify and integrate key elements of mental health theory and research. RSC.

PRVM 855. Seminar in Women's Health. 3 Hours.
Seminar in Women's Health is a 3 credit elective, graduate level course focusing on gender issues that are relevant in treatment approaches to various health issues, the differing health status of minority women, the evolution of women's health to include the entire life span and areas other than reproduction, the changing implications of health care and policy and men in women's health. No prerequisite. LEC.

PRVM 856. Community-Based Participatory Research. 3 Hours.
This is a graduate-level course designed to teach students the basic methods of conducting and evaluating community-based participatory research (CBPR). Students will be introduced to the five phases of CBPR, including partnership formation and maintenance, community assessment and diagnosis, defining the issue, documentation and evaluation of partnerships, and feedback, interpretation, and evaluation of partnerships. In addition, students will learn how to find funding mechanisms and journals that are appropriate for CBPR, as well as some of the key factors in writing about CBPR. Students will be introduced to a variety of examples of well-done CBPR and will learn what makes it different from other types of research done in community settings. PREREQUISITES: Social and Behavioral Aspects of Public Health or permission of instructor. LEC.

PRVM 857. Motivational Interviewing in Public Health Settings. 1 Hour.
The course is designed to introduce participants to Motivational Interviewing, its concepts, and to the subsequent skills required for helping people to change. This course will be cross-listed with DN 857. LEC.

PRVM 858. Public Health in Film. 2 Hours.
The Public Health in Film course will allow students the opportunity to address multiple public health issues throughout time via educational films and public health documentaries and discussion. Specific issues will include, but will not be limited to: polio, leprosy, cholera, tuberculosis, the bubonic plague, influenza, bioterrorism and natural disasters. LEC.

PRVM 859. Tobacco and Public Health. 3 Hours.
This course will provide an overview of tobacco as a public health problem and tobacco politics. Students will learn about the pharmacology of nicotine, the mechanisms leading to tobacco addiction and biologic factors that affect pharmacology and tobacco use such as the menstrual cycle and comorbid illnesses such as depression and others. Public health approaches to preventing tobacco use initiation will be studied, including which initiatives are most effective. State-of-the-art methods to assist smokers to quit will be reviewed, including pharmacologic interventions, counseling by health professionals and education/motivation support. Barriers to obtaining services will be explored, such as educational needs among various types of health professionals, and access to care in rural areas or among clients with certain types of health insurance. LEC.

PRVM 860. Community Nutrition. 3 Hours.
Comparative analysis of the demographic, geographic, and economic structure of various types of communities in Western and non-Western societies. Relationships between these compositional elements of a given community, its food and nutrition resources and services, and the nutritional status of its members. Development of alternative strategies for resource expansion and/or for delivering appropriate nutritional services to target communities. Prerequisite: Permission of instructor. LEC.

PRVM 862. Terrorism, Emergency Preparedness and Response. 3 Hours.
Through lectures, tabletop exercises, and invited speakers, the course content will include the following topics: terminology and core competencies, public health infrastructure, collaboration and communication, roles and responsibilities, psychological effects of terrorism, agricultural and zoonotic bioterrorism, law enforcements and public health, epidemiology of BT diseases (including agent specific lectures), burn injuries, risk communication, Strategic National Stockpile (SNS), National Incident Management System (NIMS), public health law as related to bioterrorism, and public health laboratory response related to bioterrorism. LEC.

PRVM 863. Health Disparities in Public Health. 3 Hours.
This course is designed to enhance students' understanding of the biopsychosocial factors that contribute to disparities in health and health care. This course will also review strategies developed to reduce health disparities. Prerequisite: PRVM 818 Social and Behavioral Aspects of Public Health is recommended. LEC.

PRVM 864. Global Public Health Impact of HIV/AIDS. 3 Hours.
Historically reviews the HIV pandemic to evaluate lessons learned in prevention and treatment of the disease and successes and failures of public policies to reduce the impact of HIV in various countries. Critically analyzes HIV prevention interventions (voluntary counseling and
testing, prevention of mother-to-child transmission, promotion of safer sex practices, clean needle exchange, methadone or buprenorphine programs, treatment with antiretroviral therapy, pre- and post-exposure prophylaxis, vaccine and microbicide development) and challenges with their implementation. LEC.

PRVM 867. Ethical Issues in Public Health. 3 Hours.
Lectures and small group discussions explore public health ethics, social justice and autonomy as they relate to public health practice and health policy. Current issues in health policy are discussed including: the right to health and health care, bioterrorism, and health inequalities, poverty and power. Weekly small group discussions include cases on MCHP, obesity and “fat taxes,” resource allocation, and disparities in infant mortality. Student evaluation is based on class participation, a small group project, and a final paper based upon a case study addressing ethical issues relevant to the student’s area of public health specialization. LEC.

PRVM 866. Seminar in Outcomes Management and Research. 1 Hour.
Political, economic, and methodologic issues that affect health care quality and outcome measurement will be discussed and analyzed in this seminar. Visiting faculty experts in outcomes research and management will present models for health care outcomes assessment and evaluation. (Same as HPM 876 and NRSG 888.) LEC.

PRVM 870. Environmental Health Law and Policy. 3 Hours.
This is a survey course that will provide a broad, practical understanding of some important local, state, and federal environmental statutes, regulations, and case law. This course will cover the fundamentals of environmental law, examining the history, development, and current status of environmental law and federalism in the United States. Environmental Law is designed to introduce the student to a variety of important environmental challenges addressed by environmental laws and policy issues surrounding environmental problems as well as the legal complexities of environmental regulatory and administrative schemes. Prerequisite: PRVM 830 Environmental Health. LEC.

PRVM 871. Environmental Monitoring and Exposure Assessment. 3 Hours.
This course will examine the various techniques and analytical methods to monitor and measure environmental contamination in air, water, and soil in both indoor and outdoor environments. Students will learn to use measurement devices and instrumentation typically used to measure and analyze these environmental contaminants. They will also learn to interpret the data and model contaminant levels in the environment and will use this data to model likely human exposures. Environmental Monitoring and Exposure Assessment is critical to the assessment of environmental hazards and identifying exposure risk to individuals and populations. The course will focus on standard sampling and analytical techniques that have been developed to assess contaminant levels, quality assurance, data analysis, pathways of exposure and the fate and transport of environmental contaminants. The course will also briefly discuss biomarkers as a tool to estimate exposure, dose or body burden, and the information they provide will be compared to and contrasted with measures of contaminant levels in the environment. Prerequisite: PRVM 830 Environmental Health. LEC.

PRVM 872. Grant Writing. 3 Hours.
This course combines instruction and practical exercises to move the participant step-by-step through all stages of planning programs, identifying funding sources, and writing grant proposals. Upon completion of the course, the student will have developed a quality proposal and be able to demonstrate skills in preparing grants. These will include: Development of fundable idea, Researching appropriate funding opportunities from foundations, corporations, and governmental sources; Finding grant information on the Internet; Reviewing federal grant applications, including NIH, NSF, and HRSA applications; Development of proposal elements and crafting a quality grant application; Review of certification and assurances required on grant applications; Review of evaluation and program outcome requirements on grant applications; Working with other participants in small groups to act as internal grant reviewers, responding to reviewers, and resubmitting grants. LEC.

PRVM 873. Scientific Writing. 2 Hours.
Includes the mechanics of how to write clearly, focusing on mechanics, structure, and style. Students will practice specific strategies for writing effectively, with in depth attention paid to how ideas are distributed through well written sentences and paragraphs. Also includes editing and revision of writing for publication and grant submission. LEC.

PRVM 874. Toxicology and Risk Assessment. 3 Hours.
This course will introduce students to basic toxicological concepts. Students will be provided opportunities to use these concepts to describe the underlying biochemical or physiological basis for health effects related to exposure to environmental toxicants and will practice interpreting the findings from student in the literature and critiquing studies. In the second part of the course students will learn the basic components of a health-based risk assessment and will practice applying these concepts by conducting a risk assessment. Prerequisites: PRVM 800 Principles of Epidemiology and 830 Environmental Health and one semester of college-level biology. Completion or concurrent enrollment in PRVM 832 Environmental and Occupational Epidemiology is recommended. Additional biology and chemistry courses may be helpful. LEC.

PRVM 875. Management of Public Health Data. 3 Hours.
A 3 credit hour graduate level course concerning basic computing skills necessary for any advanced epidemiologic or administrative quantitative methods. This course covers basics of variable and dataset creation, building, maintenance and basic descriptive (not interpretive) analysis. The course is designed to be of use to students entering a variety of research, administrative and public health settings in public health, clinical and other fields. Software covered will include SAS, SPSS, Epi Info, KPHS, Microsoft-EXCEL and ACCESS. The course can stand alone, or prepare students for Biostatistics and Epidemiology courses. Public data presentations will be stressed to prepare students to communicate data with the lay public. LEC.

PRVM 876. Health Services Research Using Public Payer Data. 3 Hours.
Several contemporary health reforms have rendered analyses of public payer data more feasible and valuable for population health, health services research, and quality improvement. The addition of an outpatient drug benefit to standard inpatient and outpatient service coverage for Medicare, for example, has stimulated a growth industry in comparative effectiveness research and expanded policy research across the health care system. Pending expansion of States’ Medicaid programs under the Affordable Care Act will undoubtedly create the largest public health care insurance program in the United States. The Centers for Medicare Medicaid Services (CMS) have streamlined researchers’ access to national Medicare and Medicaid populations for health srevices and Medicaid Services (CMS) have streamlined researchers’ access to national Medicare and Medicaid populations for health srevices and quality improvement projects through contracts with the Research Data Center at the University of Minnesota and the Chronic Condition Warehouse. In addition, Kansas Medicaid has invested in a Data Analytic Interface that offers ready access to our state’s employees, Medicaid beneficiaries, and private health insurance claims data for enterprising researchers including tremendous opportunities for state of the art, contemporary policy analyses. This is indeed an exciting and opportune time for students embarking on careers in health services, policy, and
population health research. This course is designed to prepare students for real world analyses using standard public payer claims data. LEC.

PRVM 877. Health Communication. 3 Hours.
This course is focused on community health education and promotion, especially designing and evaluating health communication programs for populations with shared risks, exposures or behaviors. Ways in which the general public receives and assigns meaning to health messages will be reviewed. The strengths and weaknesses of specific health communication initiatives will be analyzed in terms of theoretical constructs, costs and outcomes. Students apply public health principles by designing a substantive health communication piece or educational material. Prerequisite: PRVM 800; Principles of Epidemiology and PRVM 818: Social and Behavioral Aspects of Public Health. Permission of instructor may be granted in lieu of these prerequisites. LEC.

PRVM 878. Cost-effectiveness and Decision Analysis. 3 Hours.
This course examines techniques that are used in making clinical and management decisions when outcomes are uncertain. The course begins with a review of probabilistic decision making, then explores methods of analyzing choices with uncertain outcomes, stressing the use of decision trees and sensitivity analysis. The course examines cost minimization analysis, cost effectiveness analysis, and cost benefit analysis. (Same as HPM 872) LEC.

PRVM 879. Financial and Human Resource Management. 3 Hours.
This graduate-level course covers principles and skills for financial and human resource management within public health organizations. It focuses on non-profit and public settings. Financial management topics include the principles and purposes of accounting, concepts related to finance, and financial strategic planning. Human resource management topics include job design and hiring, performance management, retention, compensation/benefits, legal issues, and termination. The focus of the course is twofold: 1) understanding the concepts behind financing and in gaining skills in interpreting and using financial information; 2) gaining skills in human resources management and resource development. The course is designed for people who are interested in public health administration, but should be useful to anyone with an interest in public health leadership in any setting. Prerequisite: Departmental permission. LEC.

PRVM 880. Seminar in American Indian Health. 3 Hours.
This is a graduate-level course designed to teach students about current issues in American Indian health, as well as provide a basic historic context for understanding these issues. Students will read current literature from the academic journals and will be exposed to research being done today in American Indian communities, some of which has not yet been published. In addition, students will gain an understanding of what health disparities exist in American Indian communities and some of the reasons why they exist, including access issues and other barriers to care, from both Western and Native points of view. Students will be exposed to some of the difficulties in conducting health research in Native communities and some of the more successful techniques to overcome barriers. Prerequisites: None. LEC.

PRVM 881. Performance Improvement in Public Health. 3 Hours.
This course provides students with an overview of performance improvement and management integrated within the core public health functions: assessment, policy development and assurance. It uses both theoretical and practical material to develop basic competencies necessary for performance management in community and public health settings. Key topics will include assessment tools and models, continuous quality improvement, evidence-based practice, performance improvement methods (epidemiologic measurement, measures of central tendency, problem identification and analysis, control charts) and the development of team-based problem solving and resolution. Prerequisite: PRVM 800 Principles of Epidemiology, PRVM 875 Management of Public Data; PRVM 827 Public Health Administration is preferred. LEC.

PRVM 891. Public Health Internship. 1-3 Hours.
Students will complete a 192 hour internship in a community setting (12 hours/week for the 16 week semester) during PRVM 891 Public Health Internship. The internship is a service-learning experience for which students should consider the contribution their activities will make to the internship setting as well as activities that will be undertaken to meet the student’s learning objectives. Prerequisites: MPH core and required courses. One of the MPH core courses may be taken concurrently with PRVM 891. LEC.

PRVM 893. Public Health Capstone. 1-3 Hours.
The public health capstone is a 192 hour (12 hours/week for the 16 week semester) culminating experience that requires students to synthesize and integrate knowledge and/or apply theories and principles learned to an area of public health. The capstone is meant to be taken at the end of the student’s degree program, and is designed to give the student an opportunity to apply their skills to a variety of problems or issues in public health. The capstone should be primarily focused on addressing concentration specific competencies. While the exact activities and outcomes of the capstone will differ across concentrations all capstones, regardless of concentration, must include a written report and an oral defense. Prerequisites: All MPH core and required courses, nine of the 12 concentration credits completed, PRVM 891 Public Health Internship, last semester of enrollment. LEC.

PRVM 899. Thesis. 1-3 Hours.
Preparation of a formal thesis based on the research conducted on a community health problem. After the thesis has been completed, the student will be given an oral examination on the research methods and content. Prerequisite: PRVM 890 and departmental approval. (This course may be repeated for a maximum of 6 credit hours.) THE.

PRVM 920. Microsystems in Healthcare Operations. 3 Hours.
Competencies necessary for studying clinical microsystems and examining their influence on patient safety, satisfaction, and other clinical outcomes are developed in this course. Microsystems will be determined, deconstructed, analyzed for best practice, and re-constituted for the purpose of improved organizational performance. The roots of quality improvement are traced and quality improvement application within a microsystem environment is explored. Key topics include: assessment tools and models, continuous quality improvement theory, evidence-based practice, performance improvement methods (measurement, statistics, problem identification and analysis, control charts) and the development of team-based problem solving and resolution. Students examine productivity and cost indicators, strategic and operational planning, healthcare finance, relationship-building, collaboration techniques, and leadership principles. Prerequisites: BIOS 704 or BIOS 714, PRVM 800, PRVM 818, PRVM 827 preferred or permission of instructor. Cross-listed with NRS 920. LEC.

Graduate Certificate in Clinical and Translational Research
Graduate Certificate in Clinical and Translational Research

The Certificate in Clinical and Translational Research (CCTR), offered by the Departments of Preventive Medicine and Public Health on the
Kansas City and Wichita campuses, is designed for students who desire to advance their clinical research skills. Students must complete a total of 16 credit hours in epidemiology, biostatistics and clinical research as well as six elective hours. The CCTR can be completed on a part-time basis.

Certificate in Clinical and Translational Research - Admission

Admission to the certificate in clinical and translational research program is competitive. Candidates should meet all general requirements for admission to graduate studies including a baccalaureate degree from a regionally accredited institution and an undergraduate grade-point average of 3.0 on a 4.0 scale. Applicants also should have passed at least one semester of college calculus. One official copy of academic transcripts from all post-secondary institutions attended must be submitted at the time of application. A background check (http://www.kumc.edu/student-services/vice-chancellor-of-student-services/criminal-background-checks-for-students.html) is required during the admission process; it may affect the student’s eligibility to enter the program.

Applicants who have not earned doctoral degrees in the U.S. must submit official scores on the Graduate Record Examination or other professional test scores (such as the Graduate Management Admission Test, Medical College Admission Test, Law School Aptitude Test) that are not more than five years old. Applicants whose native language is not English also must submit scores on the Test of English as a Foreign Language that are not more than two years old. See KU Medical Center Graduate Studies (http://www.kumc.edu/academic-affairs/graduate-studies.html) and the Office of International Programs (http://www.kumc.edu/international-programs/academic-english-requirements.html) for more information.

All applications must be supported by three letters of recommendation and/or evaluation forms from persons qualified to assess the candidate’s aptitude for the program. Applicants must include a current résumé or curriculum vitae and a personal statement indicating their career goals and reasons for seeking the certificate in clinical and translational research.

Certificate in Clinical and Translational Research

Certificate is available in Kansas City and Wichita.

Graduate Certificate in Community-Based Participatory Research

Graduate Certificate in Community-Based Participatory Research

The Certificate Program in Community-Based Participatory Research is designed to provide students and scholars with a strong foundation in community-based participatory research principles and methods. Formal training in community-based participatory research, epidemiology, health literacy, qualitative methods, and grant writing will allow scholars to enhance their current research skills.

Students may apply to the Certificate in Community-Based Participatory Research program on the Kansas City campus. The students that will participate in this certificate program can be from a broad spectrum of backgrounds including graduate students, residents, fellows and faculty working in the area of health disparities and underserved communities.

Community-Based Participatory Research Graduate Certificate

Certificate available in Kansas City.

Admission to the certificate in community-based participatory research is competitive. Candidates should meet all general requirements for admission to graduate studies including a baccalaureate degree from a regionally accredited institution and an undergraduate grade-point average of 3.0 on a 4.0 scale. Applicants also should have passed at least one semester of college algebra. One official copy of academic transcripts from all post-secondary institutions attended must be submitted at the time of application. A background check is required during the admission process; it may affect the student's eligibility to enter the program.

Applicants who have not earned doctoral degrees in the U.S. must submit official scores on the Graduate Record Examination or other professional test scores (such as the Graduate Management Admission Test, Medical College Admission Test, Law School Aptitude Test) that are not more than five years old. Applicants whose native language is not English also must submit scores on the Test of English as a Foreign Language that are not more than two years old. See KU Medical Center Graduate Studies (http://www.kumc.edu/academic-affairs/graduate-studies.html) and the KUMC Office of International Programs (http://www.kumc.edu/international-programs/academic-english-requirements.html) for more information.

All applications must be supported by three letters of recommendation from persons qualified to assess the candidate’s aptitude for the program. Applicants must include a current résumé or curriculum vitae and a personal statement indicating their career goals and reasons for seeking the certificate in community-based participatory research.

Per Graduate Studies (p. 2096) policy, no student may work toward a graduate certificate without being accepted as a graduate certificate student in a specific graduate certificate program. Graduate certificates are not granted retroactively.
Community-Based Participatory Research Graduate Certificate

Certificate is available in Kansas City.

Human Subjects Tutorial
Health Disparities Selective (As approved by program director) 3

ePorfolio Requirement

Master of Public Health

M.P.H. Program

The KU Master of Public Health degree program is nationally accredited by the Council on Education for Public Health. The M.P.H. degree is offered through the Departments of Preventive Medicine and Public Health at the University of Kansas Medical Center in Kansas City and the University of Kansas School of Medicine-Wichita in Wichita. Select courses are also available in a Web-based format. Concentrations are offered in epidemiology, social and behavioral health, environmental health sciences, and public health management.

The M.P.H. degree is a 42-credit-hour program that culminates with an internship experience and capstone project. The M.P.H. student must complete 15 core course hours, a 3-credit-hour data management class, a 1-credit-hour epidemiology lab, as well as 12-credit hours of concentration specific courses. Competencies in the five basic public health specialty areas will be provided by the core course work in epidemiology, biostatistics, social and behavioral sciences, health services administration and environmental health sciences.

Dual M.D.-M.P.H. Program

This is a 5-year program in which the medical student completes the requirements for the M.P.H. degree in one year. This can be accomplished either between the second and third, or between the third and fourth years of medical school. Students must complete all degree requirements for both the M.D. and the M.P.H. programs. They complete the M.P.H. concentration in Social and Behavioral Health in three semesters, beginning in the summer (June), and proceeding through fall (August) and spring (January), and finishing by the end of May. Please contact the respective academic units offering the degree for more information. The M.D. degree is offered by the School of Medicine (http://www2.kumc.edu/somcatalog).

Joint Ph.D in Behavioral Psychology-M.P.H. Program

The Department of Applied Behavioral Science on the Lawrence campus offers a 72-credit-hour doctoral program (p. 1143) in behavioral psychology. Students learn about an array of content areas and theoretical perspectives and achieve proficiency in behavioral analysis, developmental studies, or behavioral intervention. Both the departments of Applied Behavioral Science (http://www.absc.ku.edu) and of Preventive Medicine and Public Health (http://ph.kumc.edu) promote community/public health and development through collaborative research, teaching, and service.

The joint Ph.D./M.P.H. is ideal for students interested in prevention through community and public health. Students must apply for admission to the M.P.H. and Ph.D. programs separately. Applications are reviewed by the admissions committees of both programs. Students admitted to the joint program complete the 42-hour M.P.H. requirements in addition to the Ph.D. requirements.

Public Health Graduate Admission

Admission to the M.P.H. program is competitive. Students may apply in either Kansas City or Wichita. Admission requires a baccalaureate degree from a regionally accredited institution. An undergraduate grade-point average of 3.0 on a 4.0 scale (or its equivalent) is required for regular admission. One official copy of academic transcripts from all post-secondary institutions attended must be submitted at the time of application.

One semester of college algebra or calculus is required to enter the social and behavioral health concentration, the public health management concentration, or the environmental health sciences concentration. Applicants to the environmental health concentration must also have completed at least one semester of undergraduate biology and one additional semester of biology or another physical science course. Completion of one semester of calculus is required to enter the epidemiology concentration.

Demonstration of one or more years of responsible work experience in the health field or a degree in a recognized health profession or other evidence of training or experience that indicates adequate preparation for the M.P.H. curriculum is preferred. A background check (http://www.kumc.edu/student-services/vice-chancellor-of-student-services/criminal-background-checks-for-students.html) is required during the admission process; it may affect the student’s eligibility to enter the program.

Applicants who have not earned doctoral degrees in the United States must submit official scores on the Graduate Record Examination or other professional test scores (such as the Graduate Management Admission Test, Medical College Admission Test, Law School Aptitude Test) that are not more than five years old. Applicants whose native language is not English also must submit scores on the Test of English as a Foreign Language that are not more than five years old. See KU Medical Center Graduate Studies (http://www.kumc.edu/academic-affairs/graduate-studies.html) and the KUMC Office of International Programs (http://www.kumc.edu/international-programs/academic-english-requirements.html) for more information.

All M.P.H. applications are submitted online and must be supported by three letters of recommendation from employers, instructors, or other persons who can assess the applicant’s academic and professional potential. All applicants indicate their preference of concentration and campus choice through the online application. The online application also requests a résumé or curriculum vitae, a personal written statement that describes the applicant’s career goals and motivation for seeking postgraduate training in public health, and responses to three short-answer questions.
M.P.H. Degree Requirements

Students must complete at least 42 graduate credit hours and may choose one of the following concentrations:

- Epidemiology
- Social and behavioral health
- Environmental health sciences, or
- Public health management

The M.P.H. program is accredited by the Council on Education for Public Health.

M.P.H. students must complete 15 hours in specified core courses in epidemiology, environmental health, public health administration, biostatistics, and the social and behavioral sciences. Students must complete 12 credit hours in courses as prescribed by the student’s concentration area and five credit hours of elective course work. Students must complete three credit hours of internship in a public health agency or similar organization and three credit hours of capstone including preparation and defense of a written project report developed from the capstone experience.

Students may undertake Master of Public Health studies on a part-time or full-time basis. The Office of Graduate Studies allows up to seven years to complete the degree. Most full-time students complete the M.P.H. degree program in about two years. The program’s goal is to have part-time students complete the degree within five years.

M.P.H. Requirements: Concentration in Epidemiology

Concentration is available in Kansas City and Wichita.

Each candidate must complete a minimum of 42 credit hours toward the M.P.H. degree. One semester of college algebra or calculus is required to enter the social and behavioral health concentration.

Core Courses (15)

- PRVM 800 Principles of Epidemiology 3
- BIOS 714 Fundamentals of Biostatistics I 3
- PRVM 818 Social and Behavioral Aspects of Public Health 3
- PRVM 827 Public Health Administration 3
- PRVM 830 Environmental Health 3

Program Requirement (4)

- PRVM 802 Principles of Epidemiology Lab 1
- PRVM 875 Management of Public Health Data 3
- or BIOS 715 Introduction to Data Management using RedCap and SAS

Concentration Courses (12)

(12 credit hours minimum) Students are required to take:

- PRVM 841 Advanced Epidemiology I: Methods in Cross-Sectional and Case-Control Studies 3
- PRVM 842 Advanced Epidemiology II: Methods in Longitudinal Studies 3

Students may choose 6 credit hours from:

- PRVM 810 Cardiovascular Disease Epidemiology 3
- PRVM 811 Introduction to Pharmacoepidemiology 3
- PRVM 815 Surveillance and Control of Infectious Disease 3

M.P.H. Requirements: Concentration in Social and Behavioral Health

Concentration is available in Kansas City and Wichita.

Each candidate must complete a minimum of 42 credit hours toward the M.P.H. degree. Completion of one semester of college algebra or calculus is required to enter the social and behavioral health concentration.

Core Courses (15)

- PRVM 800 Principles of Epidemiology 3
- BIOS 704 Principles of Statistics in Public Health 3
- or BIOS 714 Fundamentals of Biostatistics I 3
- PRVM 818 Social and Behavioral Aspects of Public Health 3
- PRVM 827 Public Health Administration 3
- PRVM 830 Environmental Health 3

Program Requirement (4)

- PRVM 802 Principles of Epidemiology Lab 1
- PRVM 875 Management of Public Health Data 3

Concentration Courses (12)

Methodological and Cultural Competency Foundations:

- PRVM 821 Research Methods in Public Health 3
- or PRVM 835 Evaluation Methods in Public Health 3
- PRVM 849 Qualitative Methods in Public Health 3
- or PRVM 856 Community-Based Participatory Research 3

Select one of the following:

- PRVM 845 Cultural Competency in Public Health 3
- PRVM 852 Health Care for Special Populations 3
- PRVM 863 Health Disparities in Public Health 3

Content Electives (3 credit hours minimum):

- PRVM 817 Gender, Race, Class, and Health 3
- PRVM 825 Child and Family Health 3
- PRVM 843 Obesity and Public Health 3
- PRVM 854 Population and Community Mental Health 3
- PRVM 855 Seminar in Women's Health 3
- PRVM 859 Tobacco and Public Health 3
- PRVM 877 Health Communication 3

General Elective Courses (5)

(5 credit hours minimum) 5

Capstone Courses (6)

Practicum:

- PRVM 891 Public Health Internship 3
- PRVM 893 Public Health Capstone 3
M.P.H. Requirements: Concentration in Environmental Health Sciences

Concentration is available in Kansas City and Wichita.

Each candidate must complete a minimum of 42 credit hours toward the M.P.H. degree. Completion of one semester of college algebra or calculus, one semester of undergraduate biology, and one semester of another physical science are required to enter the environmental health sciences concentration.

Master of Science in Clinical Research

Clinical Research M.S. Degree Program

The Departments of Preventive Medicine and Public Health on the Kansas City and Wichita campuses offer a 33-credit-hour M.S. degree in clinical research. The M.S. program includes nine core courses (23 hours) in epidemiology, an epidemiology laboratory, biostatistics, clinical trials, data management, advanced epidemiologic methods, grant writing, and research ethics. Students must complete seven credit hours in elective courses.

The capstone requirement, a thesis or publishable paper, accounts for the final three credit hours. Students are allowed up to seven years to complete the M.S. in clinical research degree; however, most students can complete the program in two or three years of full-time study.

Clinical Research Graduate Admission

Admission to the M.S. in clinical research degree program is competitive. Candidates should meet all general requirements for admission to graduate studies including a baccalaureate degree from a regionally accredited institution and an undergraduate grade-point average of 3.0 on a 4.0 scale. Applicants also should have passed at least one semester of college calculus. One official copy of academic transcripts from all post-secondary institutions attended must be submitted at the time of application. A background check is required during the admission process; it may affect the student’s eligibility to enter the program.

Applicants who have not earned doctoral degrees in the U.S. must submit official scores on the Graduate Record Examination or other professional test scores (such as the Graduate Management Admission Test, Medical College Admission Test, Law School Aptitude Test) that are not more than five years old. Applicants whose native language is not English also must submit scores on the Test of English as a Foreign Language that are not more than two years old. See KU Medical Center Graduate Studies and the Office of International Programs for more information.

All M.S. applications must be supported by three letters of recommendation and/or evaluation forms from persons qualified to assess the candidate’s aptitude for the program. Applicants must include a current résumé or curriculum vitae and a personal statement indicating their career goals and reasons for pursuing the M.S. in clinical research degree.
M.S. in Clinical Research Degree Requirements

Degree is available in Kansas City and Wichita.

Each candidate must complete a minimum of 33 credit hours toward the M.S. degree. The student must be enrolled in PRVM 899 Thesis the semester the student defends the thesis.

(7 hours) Students must receive prior approval for any elective.

Capstone Requirement (3)

(3 hours) Thesis or publishable paper.

Interdisciplinary Graduate Program in Biomedical Sciences

Interdisciplinary Graduate Program in Biomedical Sciences

Graduate research at the University of Kansas Medical Center covers a rich and diverse range of topics in both basic and translational research. Basic research is geared toward understanding the basic biological systems that control life. By understanding these systems, rationale treatments to treat disease can be devised. The discovery and refinement of these rationale treatments is translational research. With such a range of research topics, it is often difficult to choose the best lab. The interdisciplinary program allows the student to make an informed choice of labs to enter. IGPBS students hear from every researcher who is able to take a new student into their lab during the Faculty Research Series. The student then chooses 3 research rotations. At the end of the 3 rotations the student will choose the lab that is the best fit for their research goals. Once a lab is chosen, the student enters the chosen mentor’s department to complete the Ph.D.

The interdisciplinary program covers the first 2 semesters of graduate study. Students take a core group of courses that cover all aspects of cell biology, biochemistry, and cell signaling. Courses are both lecture based and discussion based. Students receive introductions to critical research techniques, work on problem sets, and critically evaluate our current knowledge base. In addition, students take courses in scientific ethics and scientific communication. Scientific communication covers graphic presentation of data and both written and oral communication.

At the end of the first year, students have built a considerable knowledge base and have skills in scientific communication, critical thinking, and problem solving. Students expand their knowledge base and skills by taking advanced courses in their chosen departments or programs. Our graduate program prepares students for successful careers in research.

IGPBS Admission

To be admitted to a basic science graduate program, the applicant must meet the following general entrance requirements:

1. Bachelor’s degree (B.S. or B.A.).
2. Graduate Record Examination (GRE) score.
3. The following academic prerequisites:
   a. 2 semesters of general chemistry
   b. 2 semesters of organic chemistry or one semester of organic chemistry and one semester of biochemistry
   c. 2 semesters of biological sciences
   d. 1 semester of calculus
   e. 1 semester of physics
4. Three letters of recommendation.
5. For international applicants, a satisfactory score on the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) taken within the last 2 years.
6. A background check (http://www.kumc.edu/student-services/vice-chancellor-of-student-services/criminal-background-checks-for-students.html) is required during the admission process; it may affect the student’s eligibility to enter the program.

Application

Applications to the Interdisciplinary Graduate Program, as well as direct applications to the basic sciences departments, are facilitated by IGPBS staff. Please complete the online application. Application details are on the IGPBS website (http://www.kumc.edu/igpbs.html).

In addition to the online application we require 1 copy of your official college transcripts, an official copy of your GRE score (institutional code 6895), and 3 letters of recommendation.

International applicants must request that an official copy of their TOEFL (or IELTS) scores be sent to the University of Kansas Medical Center (institutional code 6895).

Courses

GSMC 859. 2 Hours.

Total Hours: 19

GSMC 50. Science Special Studies. 0 Hours.
The aim of the course is to teach the methodologies and skills required for conducting research in the area of biomedical sciences. The learning experience will be tailored to individual needs, personalized instructions, with the opportunity to learn new skills and competencies and exposure to new developments. Depending on the selected research placement, the student will learn to: utilize a variety of basic biochemical and molecular biology laboratory skills; develop the ability to independently formulate a testable experimental hypothesis; design experiments to test formulated hypothesis in a classic application of the scientific method. Progress of the student will be monitored through weekly laboratory meetings with members of the research lab. The student will present their progress and have the ability to receive constructive feedback from laboratory members. Prerequisite: Permission of instructor. LBN.

GSMC 99. Postdoctoral Studies. 0 Hours.
Postdoctoral Studies RSH.

GSMC 800. Scientific Communication. 2 Hours.
This course is limited to non-native English speakers who need to achieve an adequate score on the SPEAK test. Emphasis will be placed on speaking but also include pronunciation, intonation, grammar, sentence organization, and word choice. Limited to 10 students. Prerequisite: Consent of instructor. LEC.

GSMC 803. Introduction to Clinical Research. 1 Hour.
Course will provide a comprehensive overview to clinical research. The student will gain an understanding of how to develop clinical research questions including protocol design and the factors that should be considered in initiating a clinical research study. This will include biostatistical considerations, the recruitment of study participants, regulatory issues, and data management, and defining measures and instruments. Students will gain knowledge of how to define clinical research among the various institutional entities involved with clinical research at the University of Kansas Medical Center such as the Research Institute (RI), General Clinical Research Center (GCRC) and the Human Subjects Committee (HSC). Additionally, one component of the course will focus on how to apply for funding (grantsmanship), critical appraisal of research studies, and how to present research data. Prerequisite: Consent of instructor. LEC.

GSMC 808. Scientific Communication. 0 Hours.
This course is limited to non-native English speakers who need to improve their oral and written skills in English for the purpose of scientific communication. Emphasis will be placed on academic writing, grammar, and vocabulary, but will also include pronunciation, reading and listening skills. Students will attend a weekly class and complete written homework. Class size will be limited to 10 students. Prerequisite: Consent of instructor. LEC.

GSMC 835. Grammar for Scientific Communication. 0 Hours.
This course is limited to non-native English speaking students who need to improve their use of English. Emphasis will be on grammar, speaking, pronunciation, vocabulary but will also include reading, listening, writing. Students will attend one weekly class and complete written homework. Students will be given an exam at the end of each section of the textbook. Class size will be limited to 15 students. Prerequisite: Consent of instructor. LEC.

GSMC 830. Introduction to Biomedical Research I. 2 Hours.
This is the first of four lecture units in the first year curriculum of the Interdisciplinary Graduate Program in the Biomedical Sciences. It will cover basic principles of cellular structure and function. Topics include the lipid bilayer, membrane proteins, and cellular organelles. Prerequisites: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 850 (Introduction to Biomedical Research). LEC.

GSMC 851. Molecular Genetics. 2 Hours.
This course is the second of four lecture units in the first year curriculum of the Interdisciplinary Graduate Program in the Biomedical Sciences. It will cover basic principles of molecular genetics, DNA replication, DNA repair, transcription and translation. Prerequisites: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 852 (Introduction to Biomedical Research). LEC.

GSMC 852. Introduction to Biomedical Research II. 2 Hours.
This is the second semester of a one year series in the Interdisciplinary Graduate Program in the Biomedical Sciences. The course is composed of weekly meetings to discuss research problems, methods and current literature. The course will interface with the lectures and students will learn to critically evaluate our scientific knowledge base. The students will be introduced to the tools that are available to obtain and evaluate information. The students will be challenged to identify areas of our scientific knowledge that require further experimentation and clarification. Prerequisites: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 850 (Proteins and Metabolism) and GSMC 851 (Molecular Genetics). LEC.

GSMC 853. Cellular Structure. 2 Hours.
This course is the third of four lecture units in the first year curriculum of the Interdisciplinary Graduate Program in the Biomedical Sciences. It will cover basic principles of cellular structure and function. Topics include the lipid bilayer, membrane proteins, and cellular organelles. Prerequisites: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 850 (Introduction to Biomedical Research). LEC.

GSMC 854. Cell Communication. 2 Hours.
This course is the fourth of four lecture units in the first year curriculum of the Interdisciplinary Graduate Program in the Biomedical Sciences. It will cover basic principles of cell communication. Topics include G-protein-coupled signaling, cellular cytoskeleton; cell cycle control; cell death; extracellular matrix; and cancer. Prerequisites: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 850 (Introduction to Biomedical Research). LEC.

GSMC 850. Proteins and Metabolism. 2 Hours.
This course is the first of four lecture units in the first year curriculum of the Interdisciplinary Graduate Program in the Biomedical Sciences. It will cover basic principles of metabolism, protein structure and an introduction to nucleic acids. Prerequisites: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 850 (Introduction to Biomedical Research). LEC.

GSMC 840. CLINICAL OBSERVATION IN HEALTH CARE FOR BIOENGINEERS. 3 Hours.
This course requires a 6 hour time commitment each week over the semester. During each weekly session the student will observe various medical practitioners in specific health care environments. The course gives the bioengineer an opportunity to see the inside of medical practice and exposes students to medical questions and challenges that could provide opportunities for engineers to contribute to the improvement of medical practice. Each student must select a concentration for this course from a health care specialty depending on availability. Some specialty options might include: Orthopedic, Radiology, Cardiology, Physical Therapy, etc. Grading will be pass/fail based on participation and journal keeping. PREREQUISITES: Graduate engineering standing, Consent of instructor. LEC.

GSMC 855. Clinical Observations for BIOENGINEERS. 0 Hours.
This course requires a 6 hour time commitment each week over the semester. During each weekly session the student will observe various medical practitioners in specific health care environments. The course gives the bioengineer an opportunity to see the inside of medical practice and exposes students to medical questions and challenges that could provide opportunities for engineers to contribute to the improvement of medical practice. Each student must select a concentration for this course from a health care specialty depending on availability. Some specialty options might include: Orthopedic, Radiology, Cardiology, Physical Therapy, etc. Grading will be pass/fail based on participation and journal keeping. PREREQUISITES: Graduate engineering standing, Consent of instructor. LEC.
GSMC 855. Introduction to Biomedical Research II. 2 Hours. This is the second semester of a one year series in the Interdisciplinary Graduate Program in the Biomedical Sciences. The course is composed of weekly meetings to discuss research problems, methods and current literature. The course will interface with the lectures and students will learn to critically evaluate our scientific knowledge base. The students will be introduced to the tools that are available to obtain and evaluate information. The students will be challenged to identify areas of our scientific knowledge that require further experimentation and clarification. Prerequisites: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 853 (Cellular Structure) and GSMC 854 (Cell Communication). LEC.

GSMC 856. Introduction to Research Ethics. 1 Hour. The objective of this course is to introduce students to research ethics. Students will learn and discuss some of the following areas of ethics in research: 1) sources of errors in science, 2) Scientific Fraud, 3) plagiarism and misrepresentation, 4) conflicts of interest, and 5) confidentiality. Prerequisites: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. LEC.

GSMC 857. Biographics. 1 Hour. The objective of the course is to teach students how to organize and present data in a clear and concise manner at national meetings. Students are taught basic principles of organizing data for presentation and then learn through the actual presentation of data in simulated platform sessions held in the course. Videotapes are made of the presentations, and students are then given a constructive critique of their presentation by the instructor and fellow students. Prerequisites: Permission of instructors. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. LEC.

GSMC 858. Introduction to Faculty Research. 1 Hour. This course was created to provide students with sufficient introduction to the research conducted at KUMC. To facilitate this point, the course is designed as a seminar series. In each session of the series, three faculty members present a brief 20-minute overview of their research programs. The series will help students to select faculty for research rotations and ultimately help them determine which faculty member they will select as a research adviser for their doctoral research. Prerequisites: Permission of instructors. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. LEC.

GSMC 859. Research Rotations. 1-4 Hours. The course will introduce students to research methods, experimental design, and the types of biomedical research conducted at KUMC. The first research rotation begins halfway through the first semester; the second and third research rotations will occur in the second semester. It is designed to help students determine which faculty member they will select as a research adviser for their doctoral research. Prerequisites: Permission of instructors. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. LEC.

GSMC 860. Introduction to Molecular Medicine. 1 Hour. Introduction to Molecular Medicine (1 credit hour/semester) is a two semester course, taught every fall and spring semester, primarily for first year MD-PhD students. This course is taught by the Director of the MD-PhD Program, with contributions from other faculty from the basic science and clinical departments. Through lectures, small group discussion, evaluation of primary literature, analysis of scientific data and presentations/discussions with current KUMC faculty, students will be introduced to the process of investigating the molecular and cellular derangements that underlie human disease. Order of topics mirror, to some extent, the subjects of the first-year modules. There will be particular emphasis on the diverse research methods and models systems used to investigate the molecular basis of disease and understanding how such investigations can be translated to answer clinically relevant questions. Students are evaluated by both group activity and individual preparation and participation. Prerequisites: Enrollment in the MD-PhD Program or Permission of Instructor. LEC.

Health Informatics Program

The Master of Science in Health Informatics is an inter-professional graduate degree program offered through the Office of Graduate Studies (http://www.kumc.edu/academic-affairs/graduate-studies.html), with oversight by the advisory council of the University of Kansas Center for Health Informatics (http://www.kumc.edu/health-informatics.html). The program is designed for health professionals or information technology specialists who want a specialty focus in health informatics. The advisory council reflects the commitment to inter-professional collaboration as faculty with foundations in nursing, health policy and management, preventive medicine and public health, and health information management partner to offer this degree.

Find complete information about the M.S. in Health Informatics degree here (p. 1981).

Master of Science in Health Informatics

Master of Science in Health Informatics Program

Center for Health Informatics

This is an interprofessional degree offered through the Office of Graduate Studies (http://www.kumc.edu/academic-affairs/graduate-studies.html), with oversight by the University of Kansas Center for Health Informatics (http://www2.kumc.edu/healthinformatics/MSHI.htm) through its advisory council. The program is designed for health professionals or information technology specialists who want a specialty focus in health informatics. The advisory council of this program reflects this commitment to interprofessional collaboration. Faculty with foundations in nursing, health policy and management, preventive medicine and public health, and health information management partner to create this master’s degree in health informatics.

M.S. Admission

Regular admission to the Master of Science in Health Informatics program requires completion of a baccalaureate degree from an accredited college or university in a technical or health-science field, a basic graduate-level statistics course, and an undergraduate grade-point average of B or above. A background check (http://www.kumc.edu/student-services/vice-chancellor-of-student-services/criminal-background-checks-for-students.html) is required during the admission process; it may affect the student’s eligibility to enter the program. Applications are accepted once a year for the fall term. The deadline to apply is the beginning of March. For international applicants, a satisfactory score on the Test of English as a Foreign Language or the International English Language Testing System taken within the last 2 years is required. See KUMC Graduate Studies (http://www.kumc.edu/academic-affairs/graduate-studies.html) for information. Applicants who do not meet the admission criteria for regular admission status may be considered on an individual basis for
provisional admission status as either degree-seeking or nondegree-seeking students.

See also Admission (http://catalog.dept.ku.edu/201314/schools/gs/admission) in the Graduate Studies section of the online catalog.

**M.S. Degree Requirements**

The M.S. in Health Informatics requires completion of an approved curriculum with a grade-point average of B or above, a capstone project, and a general oral examination. The program’s goal is to educate professionals in health informatics who have skills in analysis, design, implementation, and evaluation of information systems that support a full range of clinical and patient care functions. Working as a translation specialist, the graduate is prepared for entry and mid-level positions with IT departments, medical practice departments, advanced nursing departments, public health organizations, and as consultants and/or staff in organizations that specialize in computer operations and knowledge management. Graduates also have the skills to enter the growing field of health information exchange, which includes regional health information organizations and the emerging personal health records field. In addition to a foundation in information technology, students acquire special skills in organizational change, project management, and impact evaluation.

**Program Components**

Students in health informatics complete 40 credit hours. The curriculum is divided into 3 cores: informatics, leadership, and discipline focus (matching that of the faculty partners). Many of the courses are online. A strength of the program is the close relationship between the student and faculty advisor. The student and advisor develop a plan of study that meets the student’s career goals. The program concludes with a capstone project and a practicum, which combines research with hands-on experience and provides an opportunity for students to take advantage of the resources at numerous clinical and business partners.

**Health Informatics Core**

The health informatics core courses (17 credit hours) provide the core knowledge and skills essential to the practice of health informatics. Courses in this area are:

<table>
<thead>
<tr>

</tbody>
</table>

**Discipline-Specific Core**

Courses in this category (8-10 credit hours) are determined by the advisor and the student based on the student’s background and career goals.

**Leadership Core**

The following courses qualify for credit toward the leadership selective requirement (8-10 required credit hours). The student must take 1 course in health policy; there is a choice of 2 courses to meet this requirement. Courses that may be taken in this category are:

<table>
<thead>
<tr>
<th>Course Code</th>

</tbody>
</table>

**Research**

Research courses focus on the ability of the nurse to understand and use research and to participate in the development of new knowledge in nursing and health care. Courses in this category are NRSG 754 or HP&M 819 plus a capstone project. 5 credit hours must be taken.

**Capstone Project**

The student must complete a capstone project for 2 credit hours. The project involves applying aspects of the research process to the student’s area of health informatics practice. A number of options are available for the project, including IPHI 860.

**Flexible Scheduling**

The majority of students in the M.S. program are part-time students and many are employed full time. Most on-campus classes are scheduled to accommodate employed students. In addition, many courses are offered online with synchronous and asynchronous activities. Flexible schedules and online teaching allow students to combine graduate study with work responsibilities.

**Sample Plan of Study**

This is a sample full-time plan of study for a person from a health information management or nonclinical background. Students with a clinical background have different plans of study. Students must complete a minimum of 40 credit hours.

**Total Hours: 36-40**
Neurosciences Program

Neurosciences Graduate Program

The Neuroscience Ph.D. program is a bi-campus graduate program that incorporates neuroscience faculty at the KU main campus in Lawrence and the KU Medical Center (KUMC). The Ph.D. program has different tracks or options based on the student’s research interest and the location of the faculty mentor either in Lawrence or Kansas City. Neuroscience graduate students that matriculate at KUMC participate in the integrated IGPBS graduate program their first year and have the option of taking selected courses on the main campus after their first year. Students on the Lawrence campus take neuroscience courses on the Lawrence campus, but also participate in courses offered on the KUMC campus. Students and faculty from both campuses participate regularly via the Neuroscience Seminar series, which is conducted by video conference.

Courses

NURO 710. Advanced Neurobiology. 3 Hours.
The course will build an in-depth knowledge about basic mechanisms of synaptic communication among nerve cells and their targets, and the structure and function of nervous systems. Topics will include nervous system development and synapse formation, structure and function of neurons, physiological and molecular basis of synaptic communication between neurons, mechanisms of synaptic plasticity involved in learning and memory, sensory systems (vision, auditory, vestibular, motor reflexes and pain), processing of neural information at cellular and system levels, synapse formation and diseases of the nervous system. Prerequisite: BIOL 435 (Introduction to Neurobiology), or consent of instructor. LEC.

NURO 775. Chemistry of the Nervous System. 3 Hours.
A detailed study of the molecular aspects of nerve transmission will be covered with special emphasis on the uptake, storage, release, biosynthesis, and metabolism of specific neurotransmitters. Drugs affecting these processes and current research on receptor isolation and receptor mechanisms will be discussed from a chemical viewpoint. (Same as BIOL 775, CHEM 775, MDCM 775, PTX 775, and PHCH 775.) Prerequisite: BIOL 600 or equivalent. LEC.

NURO 799. Neuroscience Seminar Series. 2 Hours.
Presentations of research papers by faculty, post-doctoral research associates, and graduate students. All graduate students in the Neuroscience program participate in this seminar series throughout their period of training. Each student has to present a seminar once every semester. Presentations by students are evaluated by other graduate students and faculty at the end of each seminar. Prerequisite: Graduate standing in the Neuroscience program. LEC.

NURO 800. Neuroscience Teaching Principles. 2 Hours.
This course is to be used by graduate students fulfilling the teaching requirements for the Ph.D. in Neuroscience. The student will function as a discussion leader and lecturer in a limited number of class sessions. Each student will meet with faculty whom he or she is assisting in preparation of presentation materials and tests. Each student will be evaluated by the faculty mentor and by the students in the class taught. Prerequisite: Graduate standing in Neuroscience. LEC.

NURO 801. Issues in Scientific Integrity. 1 Hour.
Lectures and discussion on ethical issues in the conduct of a scientific career, with emphasis on practical topics of special importance in molecular-level research in the chemical, biological, and pharmaceutical sciences. Topics will include the nature of ethics, the scientist in the laboratory, the scientist as author, grantee, reviewer, employer/employee, teacher, student, and citizen. Discussions will focus on case histories.

NURO 804. Interdisciplinary Seminar on Ethics in Science and Engineering. 1-3 Hours.
The course will cover basic techniques of moral reasoning, especially as applied to ethical issues in the physical sciences and engineering. Topics covered will include the ethical conduct of research, the federal and professional guidelines for different kinds of research, and the ethical dimensions of publication and professional life. Emphasis will be on practical applications, cases and student involvement. (Same as GS 804, MDCM 804, PTX 804, and PHCH 804.) Prerequisite: Must be admitted to the program or division of Pharmacy to enroll in this class. LEC.

NURO 825. Research in Neuroscience. 1-10 Hours.
Original investigations at an advanced level in the areas of neuroscience. The research by each student will be performed in the laboratory of one of the faculty mentors of the graduate program in Neuroscience. Prerequisite: Graduate standing in the Neuroscience program. LEC.

NURO 844. Neurophysiology. 3 Hours.
Somatosensory, motor and cognitive function of the brain will be discussed using a combination of lecture and student presentation formats. Current issues and evidence underlying accepted concepts and mechanisms will be emphasized. (Same as PHSL 844.) Prerequisite: PHSL 846 or equivalent and consent of instructor. LEC.

NURO 846. Advanced Neuroscience. 5 Hours.
Team-taught, in-depth neuroscience course focusing on normal and diseased brain function at the molecular, cellular and systems levels. Lectures and discussions will emphasize current issues in neuroscience research. (Same as ANAT 846, PHCL 846, and PHSL 846.) Prerequisite: Permission of the course instructor. LEC.

NURO 847. Developmental Neurobiology. 2 Hours.
Development of the nervous system from early induction to the development of learning and memory. Topics include: Induction; Cellular Differentiation; Axon Growth and Guidance; Target Selection; Cell Survival and Growth; Synapse Formation; Synapse Elimination; and Development of Behavior. (Same as ANAT 847 and PHSL 847.) Prerequisite: Advanced Neuroscience (ANAT 846; NURO 846; PHSL 846) or consent of instructor. LEC.

NURO 848. Molecular Mechanisms of Neurological Disorders. 3 Hours.
An in-depth coverage of pathogenic mechanisms in neurological diseases; cellular and molecular responses to brain injury and disease, neuroinflammatory diseases (e.g., multiple sclerosis), neurodegenerative diseases (e.g., Alzheimer’s, Parkinson’s, Huntington’s, amyotrophic lateral sclerosis, and prion diseases), neurogenetic diseases (e.g., lysosomal and peroxisomal disorders, Down’s syndrome and fragile X), trauma, stroke, and viral diseases (e.g., HIV encephalitis). (Same as ANAT 848, PHCL 848, and PHSL 848.) Prerequisite: Advanced Neuroscience (ANAT 846, PHCL 846 or PHSL 846) or an equivalent course and consent of instructor. LEC.

NURO 899. Neuroscience Master’s Thesis. 1-11 Hours.
Hours and credit for this course to be arranged with the mentor. Independent investigation of a research problem in neuroscience, but of limited scope. Prerequisite: Graduate standing in the Neuroscience program and consent of mentor/instructor. THE.

Hours and credit for this course to be arranged with the mentor. Conduct of original investigation in neurosciences. Prerequisite: Graduate standing.
in the Neuroscience program post-oral comprehensive examination and consent of mentor/instructor. THE.

**Doctor of Philosophy in Neurosciences**

**Neurosciences Graduate Program**

The neuroscience Ph.D. program incorporates the neuroscience faculty at the Medical Center and the main campus in Lawrence. Students earn a Ph.D. in Neuroscience. The Ph.D. program has different tracks based on the student's research interest and the location of the faculty mentor. Neuroscience graduate students at KU Medical Center take a majority of their courses at KUMC and have the option of taking selected courses on the main campus. The reverse is true of students in Lawrence. Students and faculty from both campuses come together during the Neuroscience Seminar series, which is conducted by video conference.

**Graduate Admission**

Applications to the neuroscience Ph.D. program at the Medical Center are facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences. See the IGPBS section for a description of the program and the admission requirements (p. 1821). In certain cases, students may be admitted directly into the program. Applicants specifically interested in the neuroscience graduate program offered on the KU Medical Center campus should contact Doug Wright, dwright@kumc.edu, for information.

**Ph.D. Degree Program**

**Curriculum**

At the Medical Center, students begin by taking the courses offered in the Interdisciplinary Graduate Program in the Biomedical Sciences. Students take all the core courses in the IGPBS, which focus on cellular and molecular biology. In addition, students take courses in ethics and responsible conduct of research. During the first year of graduate studies, students participate in three lab rotations, performed with any of the faculty. Students choose their lab rotations. At the end of the first year students choose a mentor. Students take the following advanced courses after completing the IGPBS core courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHSL 846</td>
<td>Advanced Neuroscience</td>
<td>5</td>
</tr>
<tr>

<td>Molecular Mechanisms of Neurological Disorders</td>
<td>3</td>
</tr>
<tr>
<td>NURO 799</td>
<td>Neuroscience Seminar Series</td>
<td>2</td>
</tr>
</tbody>
</table>

In addition, many neuroscience courses are offered on the Lawrence campus that may be taken as electives. Televideo links bridge the distance, and many students take courses on both campuses.

**Examinations**

The comprehensive written and oral examinations are administered during the second year of full-time graduate study. The student writes an NIH-style proposal that describes the proposed dissertation research. The oral portion of the comprehensive examination tests the student’s knowledge base. Before the comprehensive examination, all students in doctoral programs must meet the research skills and responsible scholarship requirement (https://documents.ku.edu/policies/Graduate_Studies/Research_Skills_and_Responsible_Scholarship.htm) of the university. Neuroscience Ph.D. students meet these requirements during their IGPBS year of study by taking GSMC 857 Biographics, GSMC 852/GSMC 855 Introduction to Biomedical Research I and II, and GSMC 856 Introduction to Research Ethics.

The goal of the comprehensive examination is to verify that the student has the depth and breadth of knowledge needed to complete the project. After successfully completing the comprehensive examination, the student becomes a doctoral candidate. The student must complete original research and compose a dissertation. The student presents these results in formal seminars and must defend the dissertation to the doctoral committee.

**Teaching Expertise**

Each student must gain teaching experience by assisting in selected medical courses. Courses are chosen with the help of the advisor and graduate director.

**Dissertation**

The student must complete original research, write a dissertation, and satisfactorily defend it in a final public seminar and oral examination. One or more parts of the dissertation must be suitable for publication in appropriate peer-reviewed scientific journals. The student must be enrolled in NURO 999 Dissertation the semester they defend the dissertation.

**Combined M.D.-Ph.D. Degree**

Outstanding students who are qualified to do so may participate concurrently in work leading to the M.D. and Ph.D. degrees. Credit hours earned in the medical curriculum cannot be transferred as graduate credit hours toward the requirements for the Ph.D. degree, although recognition of satisfactory performance in appropriate medical courses may be given by the Ph.D. program when formulating the student's additional Ph.D. curriculum. All the requirements for both degrees must be met. The combined degree requirements and application information for the combined M.D.-Ph.D. program are posted on the M.D.-Ph.D. website (http://www.kumc.edu/md-phd-program.html).

**M.D.-Ph.D. Physician Scientist Program**

The purpose of the MD-PhD combined degree program is to prepare highly qualified and motivated post-baccalaureate students for careers as physician scientists in academic medicine and biomedical research. The program is conducted under the auspices of the Dean of Graduate Studies and the Executive Dean of the School of Medicine, with assistance from a MD-PhD program advisory committee. On average, students spend about 7-8 years in the program; the variable period usually depends on the time needed to complete their research and dissertation.

**Application & Admission**

Application for admission is through the MD-PhD Combined Degrees Admissions Committee. The Program seeks highly motivated students with outstanding academic credentials and potential, a strong interest in research, and demonstrated research experience. There are no Kansas residency requirements for admission to the MD-PhD program and...
students with exceptional potential as physician scientists are recruited from around the country.

Selected applicants will be invited for interviews in Kansas City. The interviews are usually held mid January. During the interview, applicants meet with members of the MD-PhD Admissions Committee, MD-PhD and Graduate Program Directors, students currently in the program, and research faculty.

The Program will cover each selected applicant’s basic travel expenses for interviews; details will be provided at the time of the invitation to interview. A student invited to interview but with exceptional circumstances and unable to participate on those dates may be given an alternative date and considered for admission by the Admissions Committee on an individual case basis.

Students accepted into the MD-PhD Combined Degrees program are admitted into the M.D. Program in the School of Medicine and as Ph.D. student in one of the graduate programs offered through Graduate Studies. The student must provide an official transcript indicating receipt of a Baccalaureate degree from a fully accredited institution by the time of matriculation into the program (and if applicable, transcripts for any post-baccalaureate studies/degrees).

Plan of Study

MD-PhD Students must meet the MD degree requirements of the School of Medicine as outlined in their section of this online catalog and the PhD degree requirements as outlined by their PhD department and minimum Graduate Studies requirements also outlined in their respective sections of this online catalog.

At any time throughout the course of study, if a student is not meeting the requirements of the MD-PhD program, or of the specific degrees – their tenure in the program will be reviewed by appropriate personnel and action may be taken. Continued advancement in the program is dependent on a student successfully meeting the requirements of the MD-PhD program and those of their current phase (MD or graduate) of study.

Matriculation begins with two years of a basic medical science curriculum as well as a required seminar course “Introduction to Molecular Medicine” offered by the MD-PhD program during the fall and spring semesters (total of 4 credit hours) of the first year of medical courses.

Introductory laboratory research rotations are typically performed in the summer before and the summer after the first year of medical courses. During the second year of medical courses, the student devotes time to selecting a research mentor (if not already done by this time) and begins to develop ideas for the dissertation research problem.

During the spring semester of the second year of medical courses - the MD-PhD program offers a required grant preparation seminar (1th/week). Students complete the second year by taking Step1 of United States Medical Licensing Examination (USMLE).

Years three through five (or six) of the MD-PhD Program focus primarily on the research problem and selected graduate curriculum. Students are required to complete coursework in the fall or spring semester of their third year in the program (first year in their graduate phase) to fulfill the responsible research and ethics requirement of the PhD degree. The number of years in this phase are dependent on individual progress with the required research.

Following completion of the dissertation, the student enters a transitional introductory medical clerkship prior to completing the required and elective clinical rotations.

School of Medicine Catalog

At the University of Kansas School of Medicine, future doctors are welcomed into a culture of community, forming bonds with peers and mentors by learning together, not competing separately. Through this support system, students reach common goals of serving their community, unlocking the mysteries of medicine and promoting lifelong wellness.

Top rankings

Providing students with an outstanding medical education remains at the heart of the School of Medicine’s mission.

• U.S. News & World Report ranks the School of Medicine among the top programs for training primary care physicians.

Three diverse academic environments

The School of Medicine has campuses at three locations in Kansas and has gained a national reputation for educating family, primary-care and rural physicians.

• At the Kansas City campus, students train at a large academic medical center, which has attracted innovative and accomplished researchers because of a commitment to modern research facilities and state-of-the-art equipment.

• Wichita facilities provide a community-based medical education environment, where students learn through direct patient care inside three partner hospitals as well as in doctors’ offices across the state.

• The Salina program is designed specifically for students with a strong interest in rural medicine to help alleviate the critical shortage of rural physicians in Kansas.

On the left you will find links for more information about the School of Medicine including the administration, the programs offered, the campuses, and the course catalog for the School of Medicine.

University Policies

University Policies on Nondiscrimination, Equal Opportunity, and Affirmative Action

The University of Kansas is committed to assuring that all programs and activities are readily accessible to all eligible persons. The university prohibits discrimination on the basis of race/ethnicity, color, religion, creed, national origin, ancestry, sex, age, disability, sexual orientation, or veteran status. The University of Kansas also extends equal opportunity regardless of marital or parental status. All forms of illegal discrimination, including sexual, racial, and ethnic harassment, are prohibited by university policies. The equal opportunity policies, reasonable accommodation procedures, and KUMC’s discrimination complaint procedure are on the KUMC Web site in their entirety; see www.kumc.edu/ero (http://www.kumc.edu/ero). They also can be obtained from the Equal Opportunity Office at KUMC.

The Equal Opportunity Office at KUMC provides information and educational programs regarding student rights and responsibilities, receives disability accommodation requests from students and applicants for admission, and administers the university’s discrimination complaint procedure. The Title IX and ADA/504 Coordinators are also housed in this office.

Inquiries regarding equal opportunity, nondiscrimination, and access to educational programs at the University of Kansas Medical Center should be made to Danielle Dempsey-Swopes, Director, Equal Opportunity Office, 1040 Wescoe, KU Medical Center, Mail Stop 2014, 3901 Rainbow Blvd., Kansas City, KS 66160, (913) 588-1206 (voice), (913) 588-7963 (TDD). Inquiries on the Lawrence campus may be made to Equal Opportunity, Department of Human Resources/Equal Opportunity, Carruth O’Leary Hall, 1246 West Campus Rd., Room 101, Lawrence, KS 66045-7505, (785) 864-3686.

This publication is available in alternate formats upon request. Contact Carol Wagner, (913) 588-7813, 1040 Wescoe. TDD users may call the State Relay System at (800) 766-3777.

History

The University of Kansas

On September 12, 1866, the University of Kansas opened its doors and became the first state university on the Great Plains. Three faculty members greeted 55 students at the new school. The legislative act that established and organized the university stated that “the object of the university shall be to provide the inhabitants of this state with the means of acquiring a thorough knowledge of the various branches of literature, science, and the arts.” During its history, the university has striven to meet that goal. In the process, it has attracted talented teachers and students from all over the world. Today, almost 30,000 students pursue educational goals in the College of Liberal Arts and Sciences and 12 other schools on campuses in Lawrence, Kansas City, Overland Park, and Wichita, and at numerous outreach sites throughout the state.

The Medical Center

The University of Kansas Medical Center began in the late 19th century. In 1889, a one-year preparatory course for medical school got under way in Lawrence. Students who completed the year then transferred to other medical schools. The curriculum was lengthened to two years in 1899, but no provision was made for clinical (hospital) teaching or for awarding a medical degree until 1905. In that year, clinical instruction began at the first Bell Memorial Hospital, built with funds and on land donated by Kansas City physician and entrepreneur Simeon B. Bell.

The first Bell Memorial Hospital comprised 35 beds and two dispensary buildings about one mile north of the present campus. By 1924, the school and hospital had expanded and moved to the Medical Center’s current location.

Now the Medical Center, with Schools of Allied Health, Nursing, and Medicine, and an Office of Graduate Studies, is a dynamic center for health education and patient care.

The School of Medicine enrolls 191 students each year in the four-year M.D. program. Students spend the first two years of medical school, the preclinical or basic science phase, at the Medical Center in Kansas City, in Salina or in Wichita. The final two years of instruction take place in the hospital in Kansas City, Salina or Wichita. Students from KU are welcomed to residency posts at some of the finest institutions in the country.

Graduate medical education programs (residency training) draw outstanding medical school graduates from all over the country to the Medical Center and Wichita. Off-campus residency mini-rotations take place in Topeka, Garden City, Hays, Manhattan, Pratt, Pittsburg, and other locations in Kansas. Nearly every clinical department at the Medical Center offers residency programs.

The final two years of instruction take place in the hospital in Kansas City, Salina or Wichita. Students from KU are welcomed to residency posts at some of the finest institutions in the country.

Graduate medical education programs (residency training) draw outstanding medical school graduates from all over the country to the Medical Center and Wichita. Off-campus residency mini-rotations take place in Topeka, Garden City, Hays, Manhattan, Pratt, Pittsburg, and other locations in Kansas. Nearly every clinical department at the Medical Center offers residency programs.

The Medical Center's facilities are continually updated and expanded to keep abreast of the most modern teaching and treatment techniques.

The state-of-the-art, $57.2 million, Life Sciences Innovation Center on the KUMC campus was opened in January of 2007. The five-story, 205,000-square-foot facility shows the new heights reached in life sciences research for the greater Kansas City community, Kansas and the region.

The $5.5-million basic sciences facility, Orr-Major Hall, was dedicated in 1976. This building includes classrooms, laboratories, an auditorium, and a learning resources center.

Completed in 1979, the $61.5-million University of Kansas Hospital, brings nearly all the diagnostic and treatment facilities of the Medical Center under one roof. The building eases and speeds coordination between departments and enables the staff and employees to give patients the best possible care. The hospital offers complete primary and tertiary care for patients of all ages from obstetrical and newborn to geriatric care, and care for a range of problems from traumatic injuries to long-term and chronic conditions.

The Archie R. Dykes Library for Health Sciences, which opened in 1983, contains more than 171,000 print volumes, 61,000 print monographs, 14,000 Springer-Verlag e-books, 575 print journals, 15,000 electronic journal titles in the biomedical and related health sciences. The library
serves the educational and research needs of Medical Center students and faculty and the public. Membership in a national interlibrary loan program ensures that students and faculty at all Kansas state colleges and universities and health professionals in Kansas have access to this collection, as well as to the collections of other libraries across the nation. Computer searches of health-related data bases are available to students, faculty, and Kansas health professionals. As the result of a major renovation project completed Fall 2005, there is a 120 seat testing center, 2 computer ready classrooms, new study rooms, wireless connectivity, network printing both wireless and wired. Approximately 100 student workstations are located in Dykes Library, Orr Major, and the Student Service Center providing software such as Microsoft Office apps, EndNote, SPSS, SAS, and course specific software. There are a number of scanners available for use when in the library. Formal instruction is available for students, faculty and staff on the use of productivity software, copyright management, library resources. One can register for a session or review a session and the handouts at http://www2.kumc.edu/complainting/. Biomedical librarians work closely with faculty in each of the schools and are always ready to work with students and faculty in fulfilling critical information needs. The renowned Clendening History of Medicine Library has one of the top five collections of rare medical books in the country. The library contains more than 25,000 first or early editions of almost all important works in medical literature.

The Division of Student Services includes the following offices: Dean of Students, Office of the Registrar, Student Health Services, Counseling and Educational Support Services, Student Financial Aid, Student Engagement, and the Kirmayer Fitness Center. The Student Center Building is located at the corner of Olathe and Rainbow Blvd and also houses student study spaces and a lounge. Visit http://www.kumc.edu/studentcenter/ for more information.

Next to the student center is the Division of Health Care Outreach and Continuing Education. KU has offered postgraduate study in medicine almost continuously since 1911. Currently, the Division of Health Care Outreach and Continuing Education offers seminars, clinical traineeships, and programs for doctors and other health professionals.

Kirmayer Fitness Center is a two-story, 46,000-square-foot facility at the southeast corner of Rainbow and Olathe Boulevards. It promotes physical fitness and wellness among members of the KU Medical Center. All students automatically become members with payment of a fee. Fitness and recreation programs include land aerobics, water aerobics, tai-chi, yoga, karate, weight watchers at work, and intramural leagues in volleyball, basketball, softball, and racquetball/ squash, among others. Information is available from (913) 588-1KFC (1532) during business hours, 8 a.m. to 6 p.m., Monday through Friday. Regular hours are Monday through Thursday, 5:30 a.m. to 9 p.m.; Friday, 5:30 a.m. to 8 p.m.; Saturday, 8 a.m. to 6 p.m.; and Sunday, 12 to 9 p.m. Special holiday and other hours may be announced. The Kirmayer Fitness Center is for faculty, staff, students, and alumni of KU Medical Center and their spouses.

Special Programs

KU Medical Alumni Academic Societies

As part of an effort to enhance student advising and mentoring and to develop professionalism in the students of the School of Medicine, the original seven academic societies were founded in the 1999-2000 academic year and named after past leaders of the School of Medicine. With campus expansion and the opening of the Salina campus in 2011, an eighth society, Lukert, was founded. Each society is headed by a faculty director, who also serves as an assistant dean for student affairs. Society members include School of Medicine faculty, KU Hospital physicians, and the School of Medicine students. The purpose of the societies is to:

- enhance student-faculty interaction;
- enhance student interaction, particularly across classes;
- provide a structure for student advising;
- promote a sense of community for students and faculty; and
- encourage the development of professional attitudes and behaviors among students.

The KU Medical Alumni Academic Societies are a core component of the School of Medicine’s Professionalism Initiative. The Societies allow for more individualized and small-group contact between students and faculty through encouraged, open discussions about professionalism in all academic settings. This atmosphere expands the formal curriculum for the teaching of Professionalism.

Societies sponsor periodic gatherings for students and faculty. These gatherings are both academic (e.g., invited speakers) and social (e.g., dinners). Faculty members serve as academic advisers for one to two students in each class. To the extent possible, students are matched with faculty based on interests. Faculty also may provide career advice for students and serve as resources for their advisees during their entire four years at the School of Medicine.

KU Women in Medicine and Science

The KU Women in Medicine and Science (WIMS) program in the School of Medicine fosters equality in the academic community by promoting excellence through leadership, mentoring, and community involvement. The mission of the organization is to help faculty, trainees and students:

1. to be proactive and constructive in establishing and advancing the careers of women in medicine and science;
2. to educate women on relevant KU Policies and Procedures for career development and advancement;
3. to enhance and foster the professional development of all women faculty in the KU School of Medicine through encouragement and mentoring, and to encourage growth, networking and quality within our KUMC community (local and national);
4. to promote the process of developing long-term, mutually beneficial relationships and cultivating new opportunities for collaboration through a supportive exchange of ideas and resources.

For information on programming and how to get involved, please contact one of their key individuals listed on http://www.kumc.edu/wims/contact-us.html

For more information, visit the WIMS website at http://www.kumc.edu/wims.html.

Medical Education Network Sites

The Medical Education Network Sites are an integral part of the School of Medicine’s mission to implement rural health initiatives throughout the state. Each of the five sites represents a region of Kansas. Each region has a Medical Education Director (MED), a practicing physician who also works for the school’s Office of Rural Medical Education to promote rural workforce development. MEDs help coordinate rural learning opportunities
throughout Kansas. Many agencies in the state have this mission in common: the Health Policy Institute, State Data Board, Department of Health and Environment, and KUMC Offices of Admissions, Rural Health Education and Services, and Area Health Education Centers. The MEDs may work with these institutions and occasionally work with other health profession schools at KU and other Regents institutions to promote rural learning opportunities. Specific MEDs activities include:

- Support of local medical center educational programs
- Coordination of local premedical student recruitment activities
- Summer Rural Research and Practice Elective Program
- Scholars in Rural Health
- Identification and development of new health profession education sites.

Rural Track/Options

The need for rural primary care physicians continues to be critical in the majority of Kansas counties. KU-School of Medicine recently had a rural track where students spent a significant part of the clinical education in a rural setting. The rural track was in Salina which has now become a branch campus. New ways to provide rural training opportunities for students are in development.

In lieu of spending an extended period of time in one rural site, students currently have the option of receiving some of their training in Family Medicine, Surgery, Pediatrics, and Obstetrics and Gynecology in a rural site. Students can exercise this option for one of the clerkships or all of them as space permits. Students can spend from 2-6 weeks on site depending on the clerkship. Some students have spent as much as 14 weeks in rural learning sites during their 3rd year.

Nicodemus Project

Despite remarkable advances in science and health care, health disparities persist in the United States. Health disparities exist in Kansas, too, and the disparate morbidity and mortality and leading causes of death and disease for ethnic minorities in Kansas reflect those of the nation. In Kansas, African-American adults, for example, are at higher risk of death and disease due to heart disease, cancer, cerebrovascular accidents, and other chronic conditions. African-American Kansans have issues related to less access to high-quality health care and information about health promotion and disease prevention compared to nonminority Kansans.

The Nicodemus Project is a multidisciplinary, health screening, promotion of wellness, disease prevention, service learning, and community outreach project in a culturally sensitive setting. The Nicodemus Project takes place in the rural and historic African-American town of Nicodemus, Kansas, during the town’s Annual Homecoming Celebration, commemorating the exodus of former slaves to the promised land of Kansas. The Nicodemus project is coordinated and led by the School of Medicine’s Office of Cultural Enhancement and Diversity.

Scholars in Rural Health

The Scholars in Rural Health program identifies and encourages undergraduate students from rural Kansas to practice medicine in Kansas counties that are medically underserved. Using a rigorous admissions process, as many as 16 students are annually selected to participate in a two-year premedical curriculum featuring community-based primary care experiences and other activities. Selection criteria include completion of two years of undergraduate premedical education and evidence of high probability for return to a medically underserved area of Kansas.

Students who successfully complete the program during their junior and senior years are assured admission to the School of Medicine. Additional information is available at http://www.kumc.edu/school-of-medicine/premedical-programs/scholars-in-rural-health.html

Degree Programs

KU Medical Center includes the Schools of Health Professions, Medicine, Nursing, and an Office of Graduate Studies. Information about Health Professions or Nursing is available from those schools or in the appropriate sections of the KU Undergraduate Catalog and Graduate School Catalog.

Masters and Ph.D. Programs

For information about Masters and Ph.D. programs visit http://catalog.ku.edu/201314/schools/med/departments/.

Combined M.D./Ph.D. Degree Programs

The KU School of Medicine offers the combined MD/PhD degree program to prepare highly qualified and motivated post-baccalaureate students for careers as physician scientists in academic medicine and biomedical research. The program is conducted under the auspices of the Dean of Graduate Studies and the Executive Dean of the School of Medicine, with guidance from the Program Director and Associate Director and the MD-PhD Faculty Advisory Committee.

Information may be obtained from the M.D./Ph.D. Physician Scientist Program, 1123 Delp, Mail Stop 3062, KU Medical Center, 3901 Rainbow Blvd., Kansas City, KS 66160, (913) 588-5241, http://www.kumc.edu/md-phd-program.html.

M.D./M.P.H. Program

The combined M.D./Master of Public Health program is ideal for medical students interested in public health, community medicine, preventive medicine, occupational medicine, and health care administration. The integrated, five-year curriculum prepares students for careers in both the public and private sectors including local, federal, and state health care agencies; outcomes and disease management; research institutions; and private foundations. Candidates should demonstrate notable academic credentials and have at least one year of experience in a health-related field. Students in the joint program complete the three-semester, 42-hour M.P.H. requirements in addition to the four-year M.D. curriculum. The M.P.H. degree may be completed after years two or three of medical school. To obtain admission materials or for more information, call (913) 588-2720, or visit http://mph.kumc.edu/about.html#mdmph.

M.D./M.H.S.A. Program

The MD/MHSA program is ideal for medical students interested in practice, hospital, or health system management. Students in this program have several options for completing the 41-hour MHSA requirements in addition to the four-year MD curriculum.

To obtain admission materials or for more information, call (913) 588-3763 or visit http://www.kumc.edu/school-of-medicine/hpm.html. To learn more about the M.D./M.H.S.A. joint degree program visit http://www.kumc.edu/school-of-medicine/hpm/master-of-health-services-administration/joint-degree-programs/joint-mhsamd.html.
Medical School Requirements
Evaluation of Student Performance

Faculty members evaluate the academic achievement, acquisition of skills, and attitudes of medical students as superior, high satisfactory, satisfactory, or unsatisfactory. A 4.0 grade-point system is used to determine the student's class rank and grade-point average.

Repeating a Course

Repetition of any part of the curriculum is upon recommendation of the Academic and Professionalism Committee.

Withdrawal or Leave of Absence

Withdrawal or leave of absence may be granted by the associate dean of student affairs upon recommendation by the Academic and Professionalism Committee.

M.D. Degree Requirements

The degree of Doctor of Medicine is awarded by the medical faculty of the University of Kansas to a student who has satisfactorily completed the medical school curriculum. The student must also pass Steps 1 and 2 (Clinical Knowledge and Clinical Skills) of the United States Medical Licensing Examination (USMLE).

United States Medical Licensing Examination

The National Board of Medical Examiners prepares and administers a three-part examination known as the United States Medical Licensing Examination. Steps 1 and 2 of the USMLE are taken while the student is enrolled in medical school. Step 3 may be taken by a physician who has passed Steps 1 and 2 and has served at least six months of an approved hospital residency. National Board certification is awarded to candidates who successfully pass all three parts of the test and satisfy the requirements of the medical licensing authorities of most states. To graduate from the University of Kansas School of Medicine, students must pass Steps 1 and 2 of the USMLE. Students must pass Step 1 to continue in the clinical program. Applications to take both Step 1 and Step 2 are available online at https://apps.nbme.org/ciw2/prod/jsp/login.jsp. Residents register for the Step 3 exam via the same website.

Private Support and Endowment

The University of Kansas School of Medicine depends on private gifts and bequests for many of its activities and functions. Grants from national foundations and agencies of the federal government are supplemented by gifts from individuals, often donated as memorials to or in honor of friends and relatives. The Kansas University Endowment Association maintains all funds separately, and many bear the names of the donors or of the persons honored or memorialized. Donations to the Endowment Association are used solely for the purposes designated by the donor without deductions for administrative costs or overhead. Endowment funds finance student loans, lectureships, scholarships, professorships, fellowships, and acquisitions for the Medical Center libraries. They also are used for general medical research and for special research in such fields as cancer, heart disease, and problems of aging. Both loan funds and scholarship funds benefit medical students. Funds received for scholarships are invested so that the income provides scholarships indefinitely. Both long-term and short-term loans are available. Long-term loans become payable one year after graduation. Short-term loans become payable within 90 days of issue. A complete list of endowment scholarships is available from the Office of Student Affairs or online at http://www.kumc.edu/school-of-medicine/osa/scholarships-loans-and-contests.html.

Distinctions and Awards

The Academic Excellence Award is given to a senior student in recognition of outstanding academic performance.

The Advocacy Award - Kansas City is presented to a graduating student in recognition of high standards of character, conduct, and integrity and the promotion of those qualities in colleagues.

The Alpha Omega Alpha Honor Medical Society promotes scholarship and research in medical school, encourages high standards of character and conduct, and recognizes high attainment in medical science, medical practice, or related fields. Members of AOA elect new members each year as well as granting honorary memberships to those gaining recognition in fields related to medicine. Elected medical students from the Kansas Alpha Chapter, established in 1930, give promise of professional leadership and fulfillment of these ideals.

The Anesthesiology Academic Excellence Award is presented to a senior student for academic and clinical excellence in anesthesiology.

The Karl E. Becker Jr., M.D., Award is presented to a senior student from the Wichita campus for outstanding performance as a student clinician in anesthesiology. Dr. Becker was professor and chair of the Department of Anesthesiology from 1987 to 1998. This award honors his excellent teaching skills and dedication to medical education.

The Distinguished George E. "Ned" Burket, M.D., Award is presented to a senior medical student from the Wichita campus for excellence as a fourth-year student in family medicine. Dr. Burket practiced in Kingman, Kansas, for 32 years. As president of the American Academy of General Practice in 1968, he provided pivotal support in the transition of general practice to family practice. Dr. Burket was a founding member and president of the American Board of Family Practice and chair of the Residency Review Committee for Family Practice. For his distinguished efforts, he was elected to the Institutes of Medicine of the National Academy of Sciences in 1975.

The LeRoy A. Calkins Award is presented to a senior student for academic and clinical excellence in obstetrics and gynecology. The award is in memory of Dr. Calkins, who was chair of the Department of Obstetrics and Gynecology for 30 years, retiring in 1959. Dr. Calkins came to KU in 1929 from the University of Virginia, where he was department chair. He received his education and training, both M.D. and Ph.D., at the University of Minnesota. He was an outstanding teacher, a recipient of many national awards, and a leader in postgraduate and resident education. He founded many societies and groups that sought to reduce maternal-fetal mortality and morbidity in Kansas.

The Tom D.Y. Chin Preventive Medicine Excellence Award is given to a graduating senior who has excelled in public health or preventive medicine during their medical education in honor of Tom D.Y. Chin, M.D. Professor Emeritus Chin was Chair of the Department of Preventive Medicine from 1975 through 1989. He has a national and international reputation in infectious disease epidemiology and cancer epidemiology and has 30 years of dedicated service to the U.S. Public Health Service. He is an outstanding teacher, clinician, and leader in public health research both nationally and internationally. This award honors an
individual who has some of the personal attributes and characteristics that illuminated Dr. Chin's own distinguished career.

The Coghill Award is presented to a graduating medical student who has produced research of high quality and performed in a superior manner in courses in the Department of Anatomy and Cell Biology.

The P.G. Czarlinsky Family Award (in memory of Charley Czarlinsky, M.D.) is presented to a senior student from the Wichita campus for outstanding performance as a student clinician. The award recognizes integral development of superior skills in patient care and management, as well as scholarly understanding and prudent application of the principles of clinical science. It also recognizes a significant contribution to the overall environment of health care and patient education.

The Daniel C. Darrow Certificate and Award are presented to a member of the graduating class who has distinguished himself or herself in pediatrics. Dr. Darrow was a professor of pediatrics at KU from 1954 until his retirement in 1962. The principles elucidated in his studies of fluid and electrolytes serve as a basis for our current management of children with body fluid disturbance. For these and many other scientific contributions, he was world famous. The members of the Department of Pediatrics give the certificate and award to an individual they believe has some of the personal attributes and characteristics that illuminated Dr. Darrow's distinguished career.

The Mahlon H. Delp Award - Kansas City is presented in memory of Dr. Delp, Professor Emeritus of Medicine, to a senior student in internal medicine who best demonstrates integrity, compassion, and dedication to the care of patients as individuals.

The Mahlon H. Delp Award - Wichita is presented in memory of Dr. Delp, Professor Emeritus of Medicine, to a senior student in internal medicine who best demonstrates the qualities of integrity, compassion, and dedication to the care of patients as individuals.

The Louise deSchweinitz Award is presented in memory of Dr. deSchweinitz to recognize the most outstanding student performance on the clinical rotation in pediatrics.

The Emergency Medicine Award is presented to a senior student for demonstrated clinical and academic excellence in emergency medicine. It is sponsored by the Society for Academic Emergency Medicine.

The Endocrine Society's Medical Student Achievement Award is presented to a senior medical student who has shown exceptional ability and interest in endocrinology. It encourages outstanding students to pursue careers in endocrinology and related fields of medicine and basic science.

James G. Price, MD, Award for Excellence in Family Medicine is presented to a graduating senior who excelled in the study of Family Medicine in memory of Dr. Price who left rural practice in Colorado to become the Chair of Family Medicine at the University of Kansas. He finished his career at KU as the Dean of the School of Medicine. During his illustrious career Dr. Price served as President of the American Academy of Family Physicians and the American Board of Family Practice. He was a member of the National Institute of Medicine and was selected as KU Honorary Alumnus in 2008. Dr. Price was an excellent teacher, valued mentor, skilled clinician, and trusted colleague. He was an iconic figure in the field of medicine and the consummate family physician.

The George J. Farha Award for Excellence in Surgery is presented to a student from the Wichita campus for excellence during the surgical clerkship. The award is given to a student who displays knowledge of surgery as well as honesty, integrity, and compassion in the care of patients. The funds for this award were collected by Dr. Farha's former residents to honor their teacher.

John D. Foret Urology Award is presented to an outstanding graduating student who has chosen to pursue a career in urologic surgery in recognition of their exemplary clinical and or research performance. The award is named in honor of Dr. John D. Foret, a native of San Diego, California, and a graduate of the University of Chicago School of Medicine. Dr. Foret came to the University of Kansas in 1953 to begin his postgraduate medical education. After completing his urology residency in 1958, Dr. Foret was appointed to the University of Kansas School of Medicine Faculty. He spent his entire career at KU, and was recognized as an outstanding clinician and educator. In 1993, Dr. Foret retired and was named Professor Emeritus of Surgery(Urology).

The Matthew Freeman Award in Social Justice is presented to a graduating medical student who has demonstrated how a commitment to social justice and equity can be combined with medicine.

Janet M. Glasgow Memorial Achievement Citations are presented to female medical students who graduate in the top 10 percent of their class.

The Janet M. Glasgow Memorial Award is presented to a female medical student who stands first in her graduating class. Sponsored by the American Medical Women's Association, this award was established by Dr. Maude Glasgow in honor of her sister, Janet M. Glasgow. Dr. Maude Glasgow was a pioneer in preventive medicine and public health. She received her degree in 1901 from Cornell University Medical College and went on to earn her degree in public health from New York University and Bellevue Medical College. Janet M. Glasgow unselfishly gave of her time and resources to see that her sister, Maude Glasgow, completed her medical education.

The Donald W. Goodwin, M.D., Award is presented to the senior student who is entering residency in psychiatry and is perceived by the faculty to be most likely to succeed in the profession. Dr. Goodwin was Chair of Psychiatry at the University of Kansas Medical Center from 1976 to 1991. Later he was University Distinguished Professor and Professor Emeritus. Dr. Goodwin embodied the inquisitive nature required of a modern academic psychiatrist who questions traditional approaches and savors empirical developments. The philosophy influenced his work in psychiatric diagnosis, alcoholism, and phobias. Dr. Goodwin’s work has a lasting influence on the field and the character of psychiatry at KU Medical Center.

The Kyle Lee Gratny Memorial Award is presented in memory of Kyle Lee Gratny to a graduating medical student for distinguished performance in the neonatology division, Department of Pediatrics.

The Don Carlos Guffey Award is presented to a senior student who has demonstrated a keen interest in the history or philosophy of medicine. For these and many other scientific contributions, he was world famous. The members of the Department of Pediatrics give the certificate and award to an individual they believe has some of the personal attributes and characteristics that illuminated Dr. Darrow's distinguished career.

The Drs. Richard and Diana Guthrie Excellence in Pediatrics Award is presented to the outstanding graduating pediatric student from the Wichita campus.

The Russell F. Holcomb Award is presented for outstanding performance as a student in obstetrics and gynecology at KU Medical Center in
memory of Dr. Holcomb, who was a resident in the Department of Obstetrics and Gynecology at KUMC. Dr. Holcomb served a one-year rotating internship from July 1, 1961, to June 30, 1962. He interrupted his medical career to serve three years as a medical officer in the U.S. Navy with a tour in South Vietnam. He returned to KU Medical Center on July 1, 1965, to complete his three years of residency, where he earned the respect of his peers and faculty of the department. The 1969 graduating class gave Dr. Holcomb the Resident Teaching Award. That class later initiated this award in his memory. Dr. Holcomb served as a chief resident his last year of residency plus serving a clinical fellowship with the American Cancer Society in this same year. Upon completion of his residency, he practiced in the San Diego, California, area. Dr. Holcomb died in an automobile accident in Mexico, along with his wife and two sons, in 1973.

Honor in Medicine Award is awarded by the University of Kansas School of Medicine Honor Council to a student in recognition of their integrity, selflessness and high moral character.

The Norge W. Jerome Preventive Medicine Excellence Award is presented to an outstanding senior medical student who has excelled in public health or preventive medicine for minority populations during his or her medical education in honor of Norge W. Jerome, Ph.D., Professor Emerita, Department of Preventive Medicine. She conducted her first pioneering research more than 30 years ago, combining the fields of human nutrition and anthropology. This innovative approach launched the discipline of nutritional anthropology. Dr. Jerome has a strong record of public service and has been active in community development for close to 50 years, combining science with compassion to address the food, nutrition and health concerns of women, families, and communities in the United States and around the world. She serves as an inspiration to future generations of students.

The KAFP-Foundation Hostetter Award honors fourth year medical students who have promoted the values of Family Medicine during their medical school tenure.

The Paul C. Laybourne, M.D., Award is presented to the senior student who demonstrated the highest academic performance in the required psychiatry clerkship. Dr. Laybourne served the University of Kansas School of Medicine for more than 30 years. He was the founding director of the division of child psychiatry and served in that capacity until he retired. He was an important force in the evolution of child psychiatry in Kansas. An important early contribution was his pioneering work on nutrition and health concerns of women, families, and communities in the United States and around the world. She serves as an inspiration to future generations of students.

The LMMSA Award is presented to a graduating student who has been significantly involved in the Latino Minority Medical Student Association’s Kansas Chapter and the greater Kansas City Hispanic community.

The Martin Award is presented to a senior student who has chosen radiology as a career for excellence in diagnostic radiology.

Dr. Ronald L. Martin Student Scholarship Fund. The KU School of Medicine-Wichita Department of Psychiatry and Behavioral Sciences established the Dr. Ronald L. Martin Student Scholarship to recognize the many years of dedicated service of Dr. Martin, Professor and Chair from 1990 to the time of his death in 1998. This fund makes three awards available to third- and fourth-year students at the University of Kansas School of Medicine-Wichita who have successfully completed the required psychiatry clerkship.

The MaryAnn McMullan Memorial Award is presented to a graduating medical student who best demonstrates the qualities of integrity, compassion and dedication to the care of the dying patient in memory of MaryAnn McMullan. Presented by the Division of Geriatric Medicine and Palliative Care, Department of Family Medicine.

Merck Manual Awards are presented to seniors who have demonstrated outstanding scholastic achievement.

The Dr. Herbert C. Miller Award is presented to a senior medical student in recognition of distinguished performance in research in the Department of Pediatrics. The Roscoe Falls Morton, M.D., F.A.C.P., Memorial Fund Award (sponsored by the Roscoe Morton family, Arkansas City, Kansas) is presented to a graduating senior from the UKSM - Wichita campus for superior academic and clinical performance in internal medicine. The award recognizes the recipient’s deep commitment to continued study of the principles of clinical science and special interest in internal medicine as a continued study and career.

The Thomas G. Orr Sr. Award is presented to the outstanding senior medical student in surgery in memory of Dr. Orr, chair of the Department of Surgery for 25 years. Dr. Orr joined the staff of the KU medical school in 1915 from Johns Hopkins and achieved national recognition as an officer in professional societies, author, teacher, and recipient of honorary Doctor of Science degrees and numerous other honors. His bibliography contained 231 published articles and two textbooks, evidence of his interest in the investigation of clinical problems, his contributions to research, and his influence on the future study of surgery.

The Conrad Osborne, M.D., Award is presented to a senior medical student from the Wichita campus for excellence as a third-year student in family medicine. This award honors Dr. Osborne, a graduate of the KU School of Medicine. Dr. Osborne was in the first group of family practice residents in the United States, graduating from the Wesley Family Practice Residency Program in 1970. Dr. Osborne embodied the principles of family practice, serving as a caring physician, talented teacher, and trusted mentor and friend to a generation of family physicians until his untimely death from lymphoma in 1993.

The Outstanding Student in Otolaryngology Award is presented to a senior student who exhibits not only an interest, but excellence, in clinical care, academic medicine and research, related to the field of Otolaryngology Head and Neck Surgery.

The Department of Ophthalmology Medical Student Award is presented to a graduating senior from the UKSM - Wichita campus for outstanding scholastic achievement.

The Conrad Osborne, M.D., Award is presented to a senior medical student from the Wichita campus for excellence as a third-year student in family medicine. This award honors Dr. Osborne, a graduate of the KU School of Medicine. Dr. Osborne was in the first group of family practice residents in the United States, graduating from the Wesley Family Practice Residency Program in 1970. Dr. Osborne embodied the principles of family practice, serving as a caring physician, talented teacher, and trusted mentor and friend to a generation of family physicians until his untimely death from lymphoma in 1993.

The Dr. Herbert C. Miller Award is presented to a senior medical student in surgery in memory of Dr. Orr, chair of the Department of Surgery for 25 years. Dr. Orr joined the staff of the KU medical school in 1915 from Johns Hopkins and achieved national recognition as an officer in professional societies, author, teacher, and recipient of honorary Doctor of Science degrees and numerous other honors. His bibliography contained 231 published articles and two textbooks, evidence of his interest in the investigation of clinical problems, his contributions to research, and his influence on the future study of surgery.

The Conrad Osborne, M.D., Award is presented to a senior medical student from the Wichita campus for excellence as a third-year student in family medicine. This award honors Dr. Osborne, a graduate of the KU School of Medicine. Dr. Osborne was in the first group of family practice residents in the United States, graduating from the Wesley Family Practice Residency Program in 1970. Dr. Osborne embodied the principles of family practice, serving as a caring physician, talented teacher, and trusted mentor and friend to a generation of family physicians until his untimely death from lymphoma in 1993.
as Executive Dean of the School of Medicine and Vice Chancellor for Clinical Affairs from 1997 to 2002. During her tenure, Dean Powell instituted programs of professionalism for students and faculty. She initiated the White Coat Ceremony to symbolize the students’ entry into the medical profession. Dean Powell supported the establishment of the Academic Societies as part of her vision of the mentoring of students by practicing physicians. She continues to work with students and serves as an inspiration to future generations of students.

The Prakash Raghavan Clinical Student Award is presented to a senior from the Wichita campus in recognition of outstanding performance in clinical rotations.

The John B. Redford Distinguished Professorship Award is presented to a senior student for demonstrated academic and clinical excellence during the rehabilitation rotation.

The D. Cramer Reed Award recognizes a student who has displayed outstanding interest and aptitude in understanding health of populations and principles of effective disease prevention applied to individuals and groups. Dr. Reed was the founding dean of the KU School of Medicine - Wichita, founding dean of the College of Health Professions at Wichita State University, and founder of Wesley Medical Center’s Health Strategies program, one of the first major health promotion and disease prevention programs in the United States.

The Daniel K. Roberts Medical Student Award for Excellence in Women’s Health Care is presented to a medical student from the Wichita campus who exhibits excellence in clinical practice, education, and research in obstetrics and gynecology.

The Robert H. Robinson, M.D., Award is presented to a graduating student from the Wichita campus for superior academic and clinical performance in anesthesiology. Dr. Robinson was a long-time supporter of teaching medical students and residents in a clinical setting and is a former professor and the first chair of the Department of Anesthesiology at the KU School of Medicine - Wichita. This award honors the recipient’s special interest in anesthesiology.

The Jack C. and Ruth M. Schroll Family Award is presented to an academically outstanding Kansan graduating senior, who has matched in either an OB-GYN or Dermatology Residency Program. This senior is of fine character and integrity with compassion for others. The Schroll family represents the following degrees from K.U.: Jack C. Schroll, 1944, MD, Residency OB-GYN, 1955; Ruth M. Prentice Schroll, BS, 1945; daughter, Kathryn Schroll Graves, MD, 1974, Residency Dermatology, 1979; son, John T. Schroll, MD, 1976, Residency OB-GYN, 1980; grandson, Jeffery Justin Graves, MD, 2007; Residency in Dermatology. The family represents a history of 55 doctors (MD and DO), including Dr. Jack Schroll’s grandmother, Dr. Emma Hook Price, DO, 1901, Kirksville School of Osteopathy under Dr. A.T. Still, MD, founder of Osteopathy.

The Willard J. Smith, M.D., Award for Academic Achievement is presented to a graduating senior from the Wichita campus for superior academic performance. In recognition of Dr. Smith’s contributions to the development of the clinical campus at UKSM - Wichita, the award is given to a student whose academic performance reflects a dedicated commitment to the scholarly acquisition and effective application of knowledge.

The Helmut Sprinz Award is presented to a senior medical student whose academic achievements epitomize the spirit of Dr. Helmut Sprinz. Dr. Sprinz was a distinguished faculty member of the KU School of Medicine from 1976 until his death in 1990. He was tireless in his effort on behalf of students, house staff, and faculty. He was particularly fond of working with, helping, and supporting students who were willing to expend extra effort to achieve their goals. Before joining the KU faculty, Dr. Sprinz enjoyed a distinguished career as a research pathologist and was Chief of Experimental Pathology at Walter Reed Army Institute of Research.

The Walter S. Sutton Prize is given annually to the medical student whose work in original research, preferably in genetics, is considered outstanding by the research committee. An honorable mention award is also made.

The W. Clarke Wescoe Award is presented to a senior student in recognition of outstanding achievement and the pursuit of excellence in the study of pharmacology and therapeutics. W. Clarke Wescoe, M.D., was a former chair and professor of pharmacology, former dean of the School of Medicine, former KU Chancellor, and former Chairman of the Board of Sterling Drug, Inc.

The Edward V. Williams Award is presented to a minority medical student who best reflects the integrity, compassion, and commitment to patient care exemplified by Edward V. Williams, M.D. Dr. Williams was the first African American to receive a medical degree from KU. He serves as an inspiration to future generations of students and countless others to achieve beyond expectations.

## Curriculum

## Core SOM Preclinical Phase

CORE 800. Foundations of Medicine. 8 Hours.

Foundations of Medicine is an 8-week, multidisciplinary course, taught by faculty members from basic science and clinical departments. This course integrates materials from the traditional disciplines of biochemistry, cell and molecular biology, histology, physiology, epidemiology, behavioral science, and preventive medicine. This course includes clinical skills instruction in medical history, physical examination, and cultural sensitivity. Patient cases are used where appropriate. Students participate in small group discussions, problem-based learning sessions, laboratory exercises, clinical correlations, and lectures: they work collaboratively to master general principles, evaluate clinical literature, and develop tools for life-long learning. Students are evaluated by multiple-choice examination, clinical evaluation, and group activity preparation and participation.

Prerequisites: Medical School admission requirements. LEC.

CORE 805. Genetics and Neoplasia. 4 Hours.

This 4-week multidisciplinary course, taught by both basic science and clinical faculty, covers the molecular and chromosomal basis of human genetic disease, emphasizing the clinical significance of normal and abnormal genetic variation; single-gene and multifactorial diseases; and conditions caused by somatic mutation and epigenetic mechanisms. An emphasis is placed on neoplastic disorders. This course also examines the predictive value of genetic testing and the role of genetic counseling in clinical decision making; the principles of cancer therapeutics; and gender, ethnic, and behavioral considerations affecting prevention and treatment of cancer and other genetic diseases. This course includes
clinical skills instruction in history-taking and physical examination of a standardized cancer patient. Students participate in large and small group discussion, laboratory exercises, problem based learning sessions, clinical correlations, clinical skills lab sessions, and lectures; and are evaluated by small group and clinical skills performance, and by USMLE-style objective examinations. Prerequisite: Successful completion of Foundations of Medicine or permission of Associate Dean for Student Affairs. LEC.

CORE 810. Inflammation and Immunity. 4 Hours.
This 4-week multidisciplinary course, taught by faculty members from the Departments of Anatomy & Cell Biology, Microbiology, Pathology, Medicine, Family Medicine and Preventive Medicine, addresses the basic biology of the normal immune system and the basis for immune-based and inflammatory diseases. Topics will include normal lymphopoiesis and myelopoiesis, responses to infection, autoimmunity, allergy, transfusions and transplantation, immune deficiencies and the appropriate therapies for these conditions. Therapies will include immunosuppressives, anti-inflammatories, vaccines and transplantation. The course integrates instruction on disease pathogenesis with clinical skills instruction (including history-taking and physical examination skills), consideration of epidemiological, ethical, social science aspects of medicine, disease prevention and the general approaches to therapy. Students participate in small group discussions, web-based instruction, labs, clinical skills lab sessions, and lectures. Students are evaluated based on their participation in small group discussion sessions and through standardized online summative examinations. Prerequisite: Successful completion of Foundations of Medicine, Genetics and Neoplasia, or permission of Associate Dean for Student Affairs. LEC.

CORE 815. Cardiopulmonary. 0-8 Hours.
This multidisciplinary course, taught by faculty members from Anatomy, Biochemistry, Medicine, Pathology, Pharmacology, and Physiology covers the normal/abnormal processes; principles of therapeutics; and gender, ethnic, and behavioral considerations affecting disease treatment and prevention of the cardiopulmonary system. This course also includes clinical skill instruction of patient interviewing and examination. Students participate in small group discussions, laboratory exercises, clinical correlations, clinical skills lab sessions, and lectures and are evaluated by performance in small groups and on exams. Prerequisite: Successful completion of Foundations of Medicine, Genetics and Neoplasia, Inflammation and Immunity, or permission of Associate Dean for Student Affairs. LEC.

CORE 820. Gastrointestinal System and Nutrition. 4 Hours.
This 4-week multidisciplinary course is taught by faculty members from the Departments of Anatomy and Cell Biology, Molecular and Integrative Physiology, and Pathology and Laboratory Medicine, Biochemistry and Molecular Biology, Pharmacology, Toxicology, and Therapeutics, Internal Medicine, Preventive Medicine, History and Philosophy of Medicine, Health Policy Management, Microbiology, Molecular Genetics, and Immunology, Family Medicine, and Surgery in the School of Medicine and the Department of Dietetics and Nutrition in the School of Allied Health. The course covers the normal/abnormal processes; principles of therapeutics; and gender, ethnic, and behavioral considerations affecting disease treatment and prevention of the gastrointestinal system including nutrition. This course also includes clinical skills instruction in the abdominal physical examination. Students participate in small group discussions, laboratory exercises, clinical correlations, clinical skills lab sessions, and lectures are evaluated by written tests, oral exams, and assessment of PBL and clinical skills performance. Prerequisite: Successful completion of Foundations of Medicine, Genetics and Neoplasia, Inflammation and Immunity, Cardiopulmonary, or permission of Associate Dean for Student Affairs. LEC.

CORE 825. Renal and Endocrine System. 4 Hours.
This 4-week multidisciplinary course, taught by faculty members from Anatomy, Biochemistry, Medicine, Pathology, Pharmacology, and Physiology covers the normal/abnormal processes; principles of therapeutics; and gender, ethnic, and behavioral considerations affecting disease treatment and prevention of the renal and endocrine systems. This course also includes clinical skill instruction of patient interviewing and examination. Students participate in small group discussions, laboratory exercises, clinical correlations, clinical skills lab sessions, lectures and web-based directed self-study and are evaluated by performance in small groups and on exams. Prerequisite: Successful completion of Foundations of Medicine, Genetics and Neoplasia, Inflammation and Immunity, Cardiopulmonary, Gastrointestinal Tract and Nutrition or permission of Associate Dean for Student Affairs. LEC.

CORE 830. Reproduction and Sexuality. 4 Hours.
This 4-week multidisciplinary course module is taught by faculty members from the Departments of Anatomy and Cell Biology, Pathology, Psychiatry and Behavioral Sciences, Gynecology and Obstetrics, Surgical Oncology, Urology, and Family Medicine. The course covers the normal/abnormal aspects of human reproduction and sexuality; principles of therapeutics; gender, ethnic, and behavioral consideration affecting sexual function, prevention and treatment of reproductive and sexual disorders. The course also includes clinical skill instruction in sexual history-taking and physical examination. Students participate in small group discussions, laboratory exercises, clinical correlations, patient and provider panels, clinical skills laboratory sessions, lectures, and web-based learning opportunities, and are evaluated by means of formative and summative examinations and assessment of participation in various learning activities. Prerequisite: Successful completion of Foundations of Medicine, Genetics and Neoplasia, Inflammation and Immunity, Cardiopulmonary, Gastrointestinal Tract and Nutrition, Renal and Endocrine Systems, or permission of Associate Dean for Student Affairs. LEC.

CORE 835. Musculoskeletal & Soft Tissue Systems. 4 Hours.
The (4-5) week multidisciplinary course, taught by faculty members from (Anatomy and Cell Biology, Orthopedic Surgery, Pathology, Pharmacology, Internal Medicine, Family Medicine, and Pediatrics departments), covers the normal/abnormal processes; principles of therapeutics (non-drug treatment will be emphasized); and gender, ethnic, and behavioral considerations affecting disease treatment and prevention of diseases of the musculoskeletal & soft tissue systems). This course also includes clinical skill instruction in an extremities physical examination. Students participate in small group discussions, laboratory exercises, clinical correlations, clinical skills lab sessions, and lectures and are evaluated by exams, attendance, participation, and professional behavior. Prerequisite: successful completion of the first year curriculum. LEC.

CORE 840. Brain and Behavior. 8 Hours.
This 8 week multidisciplinary course, taught by faculty members from Anatomy and Cell Biology, Molecular and integrative Physiology, Otolaryngology, Neurology, Pharmacology, Pathology, Internal Medicine, and Psychiatry, covers the normal/abnormal processes of the central and peripheral nervous system, including an introduction to the principles of therapeutics. The course combines and integrates several disciplines, including neuroanatomy, neurophysiology, neuropathology, introductory neuropharmacology, basic neurology and psychiatry. Prerequisite: Successful completion of Musculoskeletal & Soft Tissue Systems or permission of Associate Dean for Student Affairs. LEC.
**CORE 845. Blood and Lymphoid System. 4 Hours.**

This 4 week multidisciplinary course, taught by faculty members from Pathology and Laboratory Medicine, Internal Medicine, Pharmacology, and Preventive Medicine, addresses the basic biology of the normal immune system and the basis for infectious and parasitic diseases. Topics will include normal immune responses to infection, immune deficiencies, bacteriologic, viral, fungal and parasitic infections, and the appropriate therapies for these conditions. Therapies discussed will include immunosuppressives, anti-microbials, and vaccines. The course integrates instruction on disease pathogenesis with clinical skills instruction (including history-taking and physical examination skills), consideration of epidemiological, ethical, social science aspects of medicine, disease prevention and the general approaches to therapy. Students participate in small group discussions, web-based instruction, labs, clinical skills lab sessions, and lectures. Students are evaluated based on their participation in small group discussions and through standardized online summative examinations. Prerequisites: Successful completion of Musculoskeletal & Soft Tissue Systems, Brain and Behavior or permission of Associate Dean for Student Affairs. LEC.

**CORE 850. Infectious Diseases. 0-6 Hours.**

This 6-week multidisciplinary course, taught by faculty members from the Departments of Pharmacology, Microbiology, Pathology, Internal Medicine, and Preventive Medicine, addresses the normal immune system and the basis for infectious and parasitic diseases. Topics will include normal immune responses to infection, immune deficiencies, bacteriologic, viral, fungal and parasitic infections, and the appropriate therapies for these conditions. Therapies discussed will include immunosuppressives, anti-microbials, and vaccines. The course integrates instruction on disease pathogenesis with clinical skills instruction (including history-taking and physical examination skills), consideration of epidemiological, ethical, social science aspects of medicine, disease prevention and the general approaches to therapy. Students participate in small group discussions, web-based instruction, labs, clinical skills lab sessions, and lectures. Students are evaluated based on their participation in small group discussions and through standardized online summative examinations. Prerequisites: Successful completion of Phase I, or permission of Associate Dean of Student Affairs. Successful completion of Musculoskeletal & Soft Tissue Systems, Brain and Behavior, Blood and Lymphoid System or permission of Associate Dean for Student Affairs. LEC.

**CORE 860. Integration and Consolidation. 8 Hours.**

This 8 week multidisciplinary module, taught primarily by faculty members from Pathology and Pharmacology, will consolidate and integrate materials from previous modules using pathophysiology and therapeutics as the focal point to highlight content required to successfully pass USMLE Step 1. The module will serve as a bridge between the basic and clinical sciences, as the students prepare to transition to clinical rotations. Faculty from Internal Medicine, Family Medicine, and School of Pharmacy will co-facilitate small group discussions. Students will be expected to participate in small group discussions, lectures and web-based self-study, and are evaluated by their overall performance in small groups and summative exams. Prerequisite: Successful completion of Musculoskeletal & Soft Tissue, Brain and Behavior, Blood and Lymphoid System, Infectious Diseases, or permission of Associate Dean of Student Affairs. LEC.

Course credit hours are indicated after the course title.

**Kansas City Clinical Required Course Descriptions**

**Third Year Requirements**

**FAPR 955. Family Medicine Clerkship. 8 Hours.**

Students are introduced to the principles and practice of family medicine. They spend the majority of their time participating in the practice of a private family physician where they evaluate patients under direct supervision and recommend management. This practice experience is enhanced by case-based seminars and skills-based workshops with faculty and hospital call with family medicine residents. Evaluation is based on assessment by clinical supervisors, projects, a departmental exam, and the NBME Family Medicine Subject Exam. Prerequisites: Completion of Phase I (Years 1 and 2). CLN.

**GERO 900. Geriatric Medicine Clerkship. 4 Hours.**

This required 4 week Year 3 clerkship is sponsored by the Landon Center on Aging in collaboration with the Departments of Family Medicine, Internal Medicine, and Physical Rehabilitation Medicine. The student will participate in the evaluation and care of older adults, with emphasis on the aging process and geriatric syndromes in both frail and successfully aging older adults. Students participate as a member of the health-care team in the medical practices of primary care physicians and geriatricians providing care to older adult patients. They help provide ambulatory care to older adults, as well as care in a variety of community-based long term care settings such as assisted living and nursing facilities, hospice, and home care. By the conclusion of this clerkship the students will be able to describe how to identify and address geriatric syndromes, expected decline of organ functions with aging, behavioral characteristics of the aged, special problems of drug treatment of older adults, and special strategies for providing medical care to complex older adult patients. Clinical experiences are augmented by web-based modules on geriatric topics, facilitated case discussions, and workshops. Evaluation is based on assessment of clinical performance by faculty members, an objective structured clinical exam, seminar participation, and a departmental written exam. Prerequisites: Medical Basic Science and Completion of Phase I (Years 1 and 2). CLN.

**GYNO 900. OBSTETRICS/GYNECOLOGY CLERKSHIP. 6 Hours.**

During this clerkship the student develops understanding of disease in women through history, physical examination, and laboratory studies. The clerkship includes study of biochemical, anatomical, and physiological changes of normal pregnancy and the effect of disease in altering the course of reproduction. Prerequisite: Medical Basic Sciences. FLD.

**ICM 900. Issues in Clinical Medicine. 0 Hours.**

This course enables students to apply the theoretical framework developed in ICM 801/802 and 850/851 to the patient care activities in which they participate during third-year clerkships. Through lectures and small group discussions students examine the ethical, legal and social aspects of medical practice and application of key principles to clinical practice. Students also explore career opportunities in medicine and factors to be considered in choosing a medical specialty. Students are evaluated through written assignments and participation in course activities. LEC.

**MED 900. Internal Medicine Clerkship. 8 Hours.**

General medicine orientation. Students will be assigned to Kansas University Medical Center, Bethany Medical Center, and Kansas City Veterans Administration Hospitals. FLD.

**NEUR 900. Neurology Clerkship. 4 Hours.**

The required four-week Neurology Clerkship is intended to familiarize students with the diagnosis and treatment of major neurological disorders. Effective interviewing and diagnostic skills, and competent performance of the neurological examination are emphasized. Students have an active closely supervised role in the diagnosis and treatment of both hospitalized and ambulatory patients. Clinical experience is accompanied by a didactic schedule of lectures, seminars, and practical-interactive learning sessions. Prerequisites: Completion of Phase I (Years 1 and 2). CLN.
PED 900. GENERAL PEDIATRICS CLERKSHIP. 6 Hours.
The student's activities will include rotations on the pediatric inpatient wards (taking histories, examining children, and making daily ward rounds with staff physicians) and the outpatient clinics and newborn nursery. Student evaluations are based primarily upon clinical performance, assessment of problem-solving skills and performance on a written multiple-choice examination given at the end of the clerkship. Offered in modules I and II, III and IV, V and VI, VII and VIII, IX and X, XI and XII. Prerequisite: Medical Basic Sciences. FLD.

PYCH 955. Psychiatry Clerkship. 4 Hours.
The required four-week basic Psychiatry Clerkship is intended to familiarize students with the diagnosis and treatment of major psychiatric disorders. Effective interviewing and diagnostic skills, and competent performance of the mental status examination is emphasized. Students have an active closely supervised role in the diagnosis and treatment of both hospitalized and ambulatory patients. Clinical experience is accompanied by a didactic schedule of lectures, seminars, and practical-interactive learning sessions. Prerequisites: Completion of Phase I (Years 1 and 2). CLN.

SURG 900. Junior Surgery Clerkship. 8 Hours.
Surgical problems and diseases are studied utilizing lectures, skills laboratory experiences, study questions, clinical problem discussion and live patients. This course prepares the student to meet the pertinent aspects of the summative competencies of the University of Kansas School of Medicine during the third year of Medical School. A particularly useful goal of this course is to teach the student to identify life-threatening conditions that require urgent intervention. Although the skills of this course are necessary for an ambulatory practice, the skills that are taught in this course are most frequently seen and performed in the hospital setting. The student is expected to have a basic understanding of normal and abnormal body function. The student is expected to have completed successfully the basic course in physical diagnosis (years 1 and 2 of medical school). Prerequisite: first and second year medical years. LEC.

Fourth Year Requirements

PMED 960. Population Health in Practice. 4 Hours.
This required clerkship is designed to instruct fourth-year medical students about population-based approaches to health care and to facilitate the application of epidemiologic principles to clinical decision making. Using some of the basic concepts described under the auspices of community oriented primary care, students will learn how to define specific populations, ascertain their health care needs, formulate interventions to meet those needs and evaluate the impact of those interventions. Learning opportunities will develop and reinforce concepts related to health services organization and delivery, community dimensions of medical practice, occupational and environmental medicine, health care finances, access to medical care, and quality of medical care. This clerkship will include didactic teachings supplemented by course reading material and workshops that involve care studies and site visits. Learning experiences will allow the student to examine what it means for a physician to be part of a community and to explore the role that the community plays in the health of an individual. Practical application of course material will be emphasized. Prerequisite: Completion of third-year medical school curriculum. CLN.

FAPR 900. Rural Preceptorship. 4 Hours.
Since 1951 all medical students have completed, as a requirement of graduation, a rural preceptorship of at least four weeks with a practicing physician in the state of Kansas. The emphasis of the preceptorship is rural primary care (family medicine, general internal medicine and general pediatrics). Rural placements are made by the Course Administrator. The preceptor or site will provide housing while the student is on this rotation. The preceptor will expect the student to participate in all phases of professional life as a rural physician. Most sites have the student work in ambulatory clinic, hospital care, ER, nursing home, house calls, and night call. Students also are expected to participate in the civic, administrative and social activities of their preceptor. The preceptor will evaluate student performance based on school of medicine criteria. At the completion of the course the student will have: a working knowledge of the rural health care system, an understanding of the function of a physician in the context of community and an appreciation for the support systems needed for practice in rural Kansas. Offered in Modules I-XII. Prerequisite: Completion of year 3 clinical clerkships. IND.

Subinternships (4)
The four-week subinternship gives medical students an opportunity to become more proficient in a specific area of medicine. They provide a more comprehensive course than that of the third-year required course. Students select one of the following options to fulfill the requirement.

FAPR 901. Subinternship in Family Medicine. 4 Hours.
This clerkship is designed to prepare students for the responsibilities encountered as a first-year resident. Students will be required to perform the following: 1) actively participate in the management of a panel of inpatients on the Family Medicine Service, 2) participate in the care of outpatients in the Family Medicine Clinic, 3) take one in-house call weekly, and 4) take one OB call weekly. In fulfilling these responsibilities, some weekend participation will be necessary. Students will be expected to complete the same objectives listed in FAPR 950, but do so in an advanced manner incorporating a well-developed and organized approach to multifaceted clinical issues accompanied with a keen perception of non-clinical factors involved in Family Practice. A resident level examination will be administered covering both inpatient and outpatient topics. LEC.

GYNO 901. Subinternship in Obstetrics and Gynecology. 4 Hours.
The objective of this clerkship is to provide students with advanced experience in obstetrics and gynecology. Students will be assigned to the Obstetrics and Gynecology Service at KUMC. Students will participate in the management of common obstetrical and gynecologic conditions in a role similar to that of a resident. Clinical work will be supplemented by conferences and other educational activities. This clerkship fulfills the Subinternship Selective requirement. LEC.

MED 908. Subinternship in Internal Medicine. 4 Hours.
The objective of this clerkship is to provide students with advanced experience in the management of acutely ill medical patients. Students will be assigned to one of five locations: KUMC; the Kansas City VAMC; the Leavenworth VAMC; or St. Catherine's Hospital, Garden City. Students will participate in the diagnosis and treatment of common medical conditions in a role similar to that of a resident. Clinical work will be supplemented by conferences and other educational activities. This clerkship fulfills the Subinternship Selective requirement. LEC.

OTOR 901. Subinternship in Otolaryngology. 4 Hours.
The objective of this clerkship is to provide students with advanced experience in otolaryngology. Students will be assigned to the Otolaryngology Service at KUMC. Students will participate in the management of common ENT conditions in a role similar to that of a resident. Clinical work will be supplemented by conferences and other educational activities. This clerkship fulfills the Subinternship Selective requirement. LEC.
PED 910. Subinternship in Pediatrics. 4 Hours.
This selective is an extension of the basic pediatric clerkship. It is designed to permit senior medical students to take increasing responsibility of patient care under close supervision of the faculty. Students will learn skills in patient management by active participation in the daily activities of the pediatric residency program. This selective is entirely clinical. The student will work on the Pediatric Inpatient Unit at KUMC. Student performance will be evaluated by the faculty based on factual knowledge, practical skills, problem-solving abilities, and personal behavior and values. On the first day of the rotation, students will report to the senior pediatric resident assigned to the pediatric floor. Prerequisite: PED 900 or equivalent. LEC.

PED 914. Philmont Adolescent Medicine. 4-8 Hours.
The Philmont Adolescent Medicine experience is in the high altitude environment at Philmont Scout Ranch in New Mexico. Students learn health screening, care of sports injuries, and diagnosis and management of pediatric, medical, surgical, gynecologic problems, primarily of teenagers, but also of children and adults. Supervision of students consists of faculty members from Medicine Pediatrics, Surgery, Neurology, Family Practice, Gynecology, and Physical Medicine in an effort to give well rounded educational guidance to the students. National Board, Part 1, must be passed in order to receive clinical elective credit. One four week experience only counts toward clinical electives requirements. Permission of Instructor. Prerequisite: Physical Diagnosis, Pathology and Pharmacology. FLD.

PED 918. Pediatric Subinternship Selective - Outpatient. 4 Hours.
This selective is an extension of the basic pediatric clerkship. It is designed to permit senior medical students to take increasing responsibility of patient care under close supervision of the faculty. Students will learn skills in patient care by active participation in the daily activities of the pediatric outpatient clinic. This selective is entirely clinical. The student will work in the Pediatric Outpatient Clinic at KUMC in a variety of clinics. The specific clinics will be assigned by the Chief of the Ambulatory Pediatric Section after consultation with the student. Student performance will be evaluated by the faculty based on factual knowledge, practical skills, problem-solving abilities, and personal behavior and values. This course can still be taken for elective credit even if a student already has met the subinternship selective requirement. Prerequisite: PED 900 or equivalent. FLD.

PYCH 901. Subinternship in Psychiatry. 4 Hours.
The student will function as an intern on the Adult and Child Psychiatric Services at the University of Kansas Medical Center and Kansas City VA Hospital. Each student will work closely with faculty and residents and will have an important role in the team care of hospital patients. The course is designed to provide a transitional experience between the predoctoral and residency stage of medical education allowing the student the opportunity to take more responsibility for patients with support and active teaching provided by faculty and residents. LEC.

SURG 901. Subinternship - Plastic Surgery. 4 Hours.
This course is designed to provide advanced experience to medical students the diagnosis and management of plastic surgery patients. Additionally, concepts taught during surgery 900 are reemphasized in greater detail. Ward rounds, clinical conference seminars and care studies supplement the clinical experience. An optional laboratory experience providing in-depth introduction to microvascular surgery can be arranged. Emphasis is placed on an understanding of the principles and surgical anatomy of areas of plastic surgery including congenital, trauma, tumor and cosmetic. Students are expected to participate with the surgical team in the diagnosis and management of plastic surgery patients. It is expected that the student will participate, when possible, at a resident level of responsibility. The student participates directly in patient care on the wards, in the outpatient clinics and in the operating room. Prerequisite: SURG 900, MED 900. LEC.

SURG 902. Subinternship in Surgery. 4 Hours.
The student will be expected to participate with surgical team in the diagnosis, operation, and management of surgical patients. It is expected that the student will participate, as possible, at a resident level of responsibility. Ward rounds, clinical conference, seminars, and case studies supplement clinical experience. The student participates directly in patient care on the ward, in the out-patient department, and in the operating room. Emphasis is placed on an understanding of alterations in physiology secondary to pathology, management of fluids and electrolytes, basic elements of pre- and post-operative care, and diseases amenable to surgical treatment. In addition, concepts taught during Surgery 900 are reemphasized and considered in more detail. We can accommodate 6 students in Modules I-XII. Prerequisite: SURG 900 and MED 900. LEC.

SURG 909. Surgery Subinternship-Neurosurgery. 4 Hours.
This course is designed to provide advanced experience to the student in the management of neurosurgical problems. The student is assigned to the neurosurgical service at the University hospital for four weeks. Students will participate with the surgical team in daily rounds, diagnosis, out-patient experience, operative experience and post-operative management of neurosurgical patients. Emphasis is placed on an understanding of neurologic disease with special emphasis in physical exam and diagnosis, management of basic neurosurgical emergencies and management of common neurosurgical problems. Accommodates three students in Modules I-XII. Prerequisite: SURG 900 and MED 900. LEC.

SURG 910. Surgery Subinternship-Urology. 4 Hours.
This course is designed to provide advanced experience to the student in the diagnosis and management of genitourinary disease. The student is assigned to the Urology Service at KUMC or the VA Hospital for 4 weeks. Students are expected to participate with the urologic patients. It is expected that the student will participate, as possible, at a resident level of responsibility. Ward rounds, clinical conference, seminars and case studies supplement clinical experience. The student participates directly in patient care on the ward, in the out-patient department, and in the operating room. Emphasis is placed on an understanding of alterations in physiology, secondary to pathology of the genitourinary tract, and diseases amenable to surgical or medical treatment. The student is expected to become familiar with the diagnostic procedures and techniques used in evaluating patients with acute and chronic genitourinary problems (i.e. cystoscopy). The out-patient experience is particularly emphasized. By the end of the clerkship, the student should be able to describe risk factors, epidemiology, etiology, diagnosis, management strategy, prognosis, including sequelae, and preventive measures for common urologic problems. We can accommodate two students at KUMC and two students at VAH. This will be offered in Modules I-XII. Prerequisite: SURG 900 and MED 900. FLD.

SURG 915. Subinternship-Orthopaedic Surgery. 4 Hours.
This subinternship is designed to allow the student to participate in orthopedic clinical care. The student is assigned to the orthopedic surgical service at KUMC for four weeks. The student participates with the orthopedic surgery team in the diagnosis, surgical treatment and postoperative management of orthopedic patients. The student will participate directly in care of patients in the emergency department, operating room, intensive care unit and orthopedic ward. Emphasis is placed on the understanding of pre-op, intra-op and postop care of the
Critical Care (4)

The four-week critical care selective presents the knowledge, skills, and attitudes required to care for very ill hospitalized patients. This allows the student to focus on an interest in a particular specialty and ensures that all students have basic knowledge and skills in critical care. Students select one of the following options to fulfill the requirement.

ANES 911. Critical Care: Post-Anesthesia Unit. 4 Hours.
The objective of this clerkship is to provide students with experience in the management of critically ill patients. Students will participate in the diagnosis and treatment of patients in the KUMC Post-Anesthesia Unit. Clinical work will be supplemented by conferences and other educational activities. This clerkship fulfills the Critical Care Selective requirement. LEC.

MED 905. Critical Care: Coronary Care Unit. 4 Hours.
The objective of this clerkship is to provide students with experience in the management of critically ill patients with cardiovascular disorders. Students will participate in the diagnosis and treatment of patients in the KUMC or Kansas City VAMC Coronary Care Unit. Clinical work will be supplemented by conferences, formal and informal lectures and other educational activities. This clerkship fulfills the Critical Care Selective requirement. LEC.

MED 912. Critical Care: Medical Intensive Care Unit. 4 Hours.
The objective of this clerkship is to provide students with experience in the management of critically ill patients. Students will participate in the diagnosis and treatment of patients in the KUMC or Kansas City VAMC Medical Intensive Care Unit. Clinical work will be supplemented by conferences and other educational activities. This clerkship fulfills the Critical Care Selective requirement. LEC.

PED 926. Critical Care: Neonatology. 4 Hours.
The student will be actively involved in the care and management of the high-risk and acutely ill neonate. Through a clinical participation, tutorial sessions and assigned reading emphasis will be placed on modern neonatal intensive care techniques and developmental physiology and biochemistry. Students may elect additional consecutive four-week periods to pursue aspects of neonatology in more detail, engage in investigative projects or acquire first-hand experience in the operation of a regionalized program for care of high-risk or acutely ill neonates in the state. Students wishing this additional four weeks should contact the Pediatric Department. LEC.

PED 930. Critical Care: Pediatric Intensive Care Unit. 4 Hours.
Principles of ongoing assessment and management of critically ill children with single and multiple organ failure will be presented. The teaching format will be formal and informal rounds at the bedside in the KUMC Pediatric ICU by faculty members of the Pediatric Critical Care Division. Integration of history-taking, physical examination skills, and laboratory and radiological assessment with pathophysiology will be emphasized. LEC.

SURG 927. Critical Care: Burn Center. 4 Hours.
The objective of this clerkship is to provide students with experience in the management of critically ill patients. Students will participate in the diagnosis and treatment of patients in the KUMC Burn Center. Clinical work will be supplemented by conferences and other educational activities. This clerkship fulfills the Critical Care Selective requirement. LEC.

SURG 928. Critical Care: Neurosurgical Intensive Care Unit. 4 Hours.
The objective of this clerkship is to provide students with experience in the management of critically ill patients. Students will participate in the diagnosis and treatment of patients in the KUMC Neurosurgical Intensive Care Unit. Clinical work will be supplemented by conferences and other educational activities. This clerkship fulfills the Critical Care Selective requirement. LEC.

SURG 929. Critical Care: Surgical Intensive Care Unit. 4 Hours.
The objective of this clerkship is to provide students with experience in the management of critically ill patients. Students will participate in the diagnosis and treatment of patients in the KUMC Surgical Intensive Care Unit. Clinical work will be supplemented by conferences and other educational activities. This clerkship fulfills the Critical Care Selective requirement. LEC.

Anatomy

Chair: Dale R. Abrahamson, Ph.D.

ATMY 910. Readings in Anatomy. 1-4 Hours.
Enrollees will select an area of major personal interest and narrow their efforts to some accepted idea in that field. They will delve into the support for this idea by all means available to them, be it scientific literature, opinions of practicing physicians and other medical scientists, or chart review, to come up with an evaluation that they consider satisfactory. The selected subject of interest can deal with any area of medicine since this is to be primarily an experience that promotes motivation for self-learning. Offered in Modules I-XII. LEC.

ATMY 915. Advanced Topics. 2-4 Hours.
Special studies which allow students to further their training in one or more areas. Assignments are tailored to fulfill the needs of the individual and usually include readings and laboratory work guided by frequent conferences with an advisor. Offered in modules I-XII. Prerequisite: Permission of department. IND.
ATMY 920. Research. 4 Hours.
Original independent study of a problem approved by the student’s advisor or advisory committee. Offered in modules I-XII. Prerequisite: Permission of department. IND.

Anesthesiology
Chair: Talal W. Khan, M.D., Interim

Students may enroll in an elective module in which an experience in clinical anesthesia is offered, including the administration of anesthetics under supervision. The student becomes proficient in the placement of peripheral intravenous lines and endotracheal tubes. The opportunity to place central venous lines and intra-arterial lines, as well as other critical care procedures, may also be provided. Lectures and case conferences are presented, enabling the student to manage patients with renal failure, chronic pulmonary disease, coronary artery disease, neuromuscular diseases, and central nervous system diseases. The student also becomes familiar with the basic concepts of cardiopulmonary resuscitation and has the opportunity to participate in the treatment of patients with chronic pain.

ANES 910. Anesthesiology. 4 Hours.
Students will work in the operating room suite in the mornings under the direct supervision of an instructor in anesthesia and will be made to feel that they are part of the cooperative, expert team caring for each patient. In addition, the basic fundamentals of anesthesiology will be taught by means of lectures, seminars, and conferences in the afternoons, as well as through clinical situations. Offered in modules I-XII. Prerequisite: Medical Basic Sciences. LEC.

ANES 912. Special Topics in Anesthesiology. 4 Hours.
This elective is designed to provide the clinical and/or research experience in topics of special interest not otherwise represented in the curriculum. The student will design, in consultation with department faculty, specific objectives, reading assignments, and the mechanism for student evaluation. Prerequisite: Medical basic sciences and departmental consent. CLN.

Biochemistry
Chair: Gerald Carlson, Ph.D.

The Department of Biochemistry and Molecular Biology is dedicated to the advancement of knowledge of living systems at the molecular level and expanding the knowledge base of molecular medicine.

BIOC 910. Topics in Biochemistry and Molecular Biology. 1-4 Hours.
Special studies in a selected area of interest. Assignments may involve scholarly activity such as reading, writing, or small group discussions. Prerequisite: Permission of department chairperson. LEC.

BIOC 913. Research in Biochemistry and Molecular Biology for Medical Students. 1-8 Hours.
Selected research problems with emphasis on biochemistry and molecular biology. Offered in Modules I-XII. Prerequisite:Permission of department chairperson. IND.

Cardiothoracic Surgery

CTSU 910. Cardiothoracic Surgery. 4 Hours.
Stressing pre-operative assessment and post-operative management. This elective module will allow the student to develop his/her skills in diagnosis of cardiac disease, interpretation of cardiac catheterization and arteriographic data, and management of patients undergoing cardiothoracic surgery. Participation in consultations, follow-up clinics, and conferences with cardiology will be expected. Offered in modules I-XII. Prerequisite: SURG 900 and MED 900. CLN.

Diagnostic Radiology
Chair: Philip Johnson, M.D.

The diagnostic radiology department actively participates in all four years of the curriculum. The first year correlates radiology with anatomy as part of the presentation of the Department of Anatomy and Cell Biology. Various types of X-rays and imaging studies including vascular studies, MRI, and CT demonstrate the necessity of a firm foundation in anatomy and illustrate how changes in anatomy form the foundation of disease processes. This brings anatomy and the patient to the student in a meaningful manner. During the third and fourth years, the department offers educational programs in four-week modules. Students serve rotations in radiology and nuclear medicine. Students receive basic instruction in principles of radiology and its different modalities and observe the tools and methodology of imaging. Radiology conferences are given daily and weekly as part of other departmental curricula, such as neurosurgery, neurology, cardiology, pediatrics, medicine, orthopedics, and gastroenterological conferences. The student is trained and guided in accumulating knowledge and skill in the imaging diagnosis of disease.

DIAG 910. Diagnostic Radiology. 4 Hours.
The student will work in all phases of diagnostic radiology including gastrointestinal, neuroradiology, pediatric radiology, cardiovascular and special procedure radiology. Offered in Modules I-IV, VII-XI. Prerequisite: Medical Basic Sciences. FLD.

DIAG 911. Nuclear Medicine-University of Kansas Medical Center or Veteran Administration Hospital, Leavenworth. 4 Hours.
The student will participate in examination of patients and use of radioisotopes in diagnosis (scanning techniques) and treatment. Offered in modules I-XII. Prerequisite: Medical Basic Sciences. FLD.

DIAG 913. Radiological Research. 4 Hours.
Students may work with radiology staff in any of the following areas: radiological sciences, health physics, radiation biology, application of computers to radiology, radiological engineering, clinical research. Offered in modules I-XII. Prerequisite: Consent of instructor. IND.

Emergency Medicine
Chair: Dennis Allin, M.D.

ERMD 919. Clinical Clerkship in Emergency Medicine. 4 Hours.
This course will instruct students in the evaluation, management, and disposition of patients presenting to the Emergency Department with undifferentiated complaints. Students will be expected to evaluate patients of all groups and develop treatment plans under the direct supervision of Emergency Medicine faculty. In addition, students will actively participate in the resuscitation and stabilization of critically ill and traumatized patients. Prerequisite: SURG 900, MED 900, GYNO 900, PED 900. CLN.

ERMD 921. Emergency Ultrasound. 4 Hours.
Emergency ultrasound allows for rapid and accurate diagnostic information that can have significant benefits to patient outcomes. It involves performing and interpreting ultrasound at the patient’s bedside and is used to rapidly triage, diagnose, and treat medical conditions in modern emergency departments around the country. This course will instruct students interested in Emergency Medicine in the skills necessary to perform and interpret point-of-care ultrasound examinations. Students
will be expected to learn the basic principles of point of care ultrasound, to recognize the indications of point of care ultrasound, and also to develop proficiency in performance and interpretation of the basic point of care ultrasound examinations performed in the Emergency Department. CLN.

Family Practice

Chair: Joshua Freeman, M.D.

Family practice is comprehensive, continuous medical care regardless of the age, sex, or affected organ system of the patient. It emphasizes the preventive aspects of health care and treatment of the patient in context of his or her family and community. Treatment of the whole person is a hallmark of family practice.

FAPR 905. Rural Family Medicine - Practice and Research. 4 Hours. This elective is offered to students between the first and second years of medical school. It is designed to provide students with the opportunity to observe a rural family physician in the daily practice of medicine and to participate in the data collection involving delivery of medical care to patients seen in rural practices in Kansas. Students will spend two summer months on site with a rural family physician, observing the practice and performing data collection. At the beginning and end of the two month on site experience, students will spend eight days with faculty in the Department of Family Practice at KUMC. Prerequisite: Permission of the instructor. FLD.

FAPR 910. Clerkship in Family Medicine. 4 Hours. The instructional objectives of the elective clerkship in family practice are to build on the skills and knowledge accumulated in the basic science areas and the other clinical specialty areas and reinforce them and apply them to the delivery of health services to the family unit and relate them to the individual, the family and the community. The clerkship, through supervised patient contact within the hospital and in the Family Practice Center and supervised teaching conferences, will amalgamate and reinforce the skills and previously gained clinical knowledge into the philosophy of primary health care delivery in breadth rather than depth. Offered in Modules I-XII. Prerequisite: Completed third year. FLD.

FAPR 915. Medicine and the Family. 2 Hours. This elective course on medicine and the family teaches students about family dynamics as they relate to the practice of medicine. Specifically, the course focuses on the family life cycle, normal and dysfunctional families, marriage, “normal” sexual behavior, and sexual dysfunction. These concepts will be applied to an understanding of such common medical issues as: family planning, disability, health screening, risk factors, death and dying, and child safety. Students will also be encouraged to learn about their own families by completing genograms, “family circles,” etc. Students will be graded via two examinations, one completed written project, and class attendance. Prerequisite: Permission of instructor. FLD.

FAPR 920. Research in Family Practice. 2-8 Hours. Students desiring basic research experience in the context of Family Medicine may seek the sponsorship of a Family Practice faculty member and with that individual develop a written plan for the elective. The elective may vary in length from two weeks to three months and carries with it one credit hour for each sixty hours of time spent on the elective. Elective not available during July. FLD.

FAPR 925. Interdisciplinary Community Partnership. 4 Hours. This course is designed as an interdisciplinary team approach to developing strategies for community health assessment and intervention. Students will work with a team that includes at least three other health professional students and at least one community “lay health advisor” to assess the health needs of a local neighborhood and develop and implement an appropriate intervention. The course will explore community needs and resources, assess and barriers to care, and culturally appropriate interventions. No courses currently exist which involve an equal partnership with medicine, allied health, social work and nursing. This course is designed to give students the opportunity to learn to work as a team member with a variety of health care professionals, and to understand the valuable contribution of each group. Research has shown that students who are involved in the community during medical school continue to be actively involved in their chosen communities. This course is developed in concert with KU’s Schools of Nursing, Allied Health and Social Welfare. This first year, two interdisciplinary teams will be assembled, working with 2 neighborhoods in the vicinity of KUMC. If this pilot is successful, more communities and teams will be assembled in future years. This is a year-long course that will span both fall and spring semesters. LEC.

FAPR 926. AIDS Care in the Community. 4 Hours. This elective is a concentrated experience in AIDS medical care provided in a family practice setting. The focus is on diagnosis, treatment and psycho-social issues for men, women and children with HIV disease (including gynecologic, prenatal and delivery of infected women). Care throughout the spectrum of disease is emphasized. The course is an additional elective to be made available to clinical medical students in the fourth year of training. LEC.

FAPR 927. Palliative Care in a Community Setting. 4 Hours. This elective is an end-of-life medical care experience including identifications and treatment of medical problems associated with cancer, CHF, COPD, AIDS, and other life-shortening diseases. The course focus is on symptom management and psycho-social issues associated with dying. This course is an additional elective to be made available to clinical medicine students in the fourth year of training. LEC.

FAPR 935. PRIMARY CARE SPORTS MEDICINE. 4 Hours. Students on this rotation will have the opportunity to learn the principles of primary care sports medicine. The rotation will be outpatient based and will include learning experiences in the sports medicine clinic, at the training room, and on the sidelines of high school and college sporting teams. Specific learning experiences will vary based on the sporting events that are available during the time of the elective. PREREQUISITE: Students must have completed all required third-year clerkships to participate in this elective. CLN.

FAPR 961. Community Based Geriatrics. 4 Hours. Students on this rotation will have the opportunity to learn the principles of caring for older patients. The rotation will be based at the Landon Center of Aging and will include educational experiences in outpatient clinic, long-term care facilities, assisted living facilities and with hospice. This elective experience will build on the Year 3 Geriatrics clerkship by allowing the student to further develop their understanding and management skills in the care of older adults across the health care continuum. Students are invited to individualize their experience through a focus on a particular care setting or aspect of older adult care by arrangement with the clerkship director. CLN.

FAPR 962. Advanced Clinical Reasoning Skills. 2 Hours. Clinical reasoning is a critical, often-underdeveloped skill in practicing physicians. Diagnostic errors are common among physicians and residents. In this course, you will learn to recognize common clinical reasoning errors, develop practice habits to help you improve your clinical reasoning, and develop reflective habits that help you determine why an error was made. You will learn how specific history, physical examination, and ancillary testing items make certain diagnoses more or less likely. This course will meet 10 times for 2 hours during a semester with course work between meetings. PREREQUISITE: Satisfactory completion of 6
months (4 six-week or 3 eight-week) of clinical clerkships. Concurrent clinical rotations for a minimum of 8 weeks over the semester. CLN.

FAPR 963. Cross-cultural Health Leadership Module I: Didactic. 1 Hour.
Cross-culturally competent care refers to physicians’ “ability to communicate effectively and provide quality health care to patients from diverse sociocultural backgrounds.” This course will train medical students in cross-cultural communication (C3) skills via interactive sessions in a student-based “learning community”. In Module 1, students learn and practice Association of American Medical Colleges (AAMC)-defined core topics for cross-culturally competent knowledge, attitude and skills. These are: 1) the definition of cultural competence, and providers’ self-assessment of own relevant cultural experiences; 2) key aspects of cultural competence, including patients’ healing traditions and systems, institutional cultural issues, and how these patients’ explanatory illness narratives; 3) understanding how stereotyping and bias influence medical care; 4) the epidemiology of social determinants of health care disparities and collaboration with communities to address these; and 5) clinical communication skills to engage patients with different values, culture and beliefs than one’s own, i.e. working with interpreters, and diagnostic, negotiating and problem-solving skills. In Module 1, we will use interactive faculty-facilitated didactic discussions, role play, case-studies, volunteer standardized patient interactions and out-of-class reading. Students will also conduct an in-depth case study with one cross-cultural patient and prepare a detailed patient narrative report describing both the patient’s illness narrative and relevant cultural and social determinants of health impacting their health experience. Prerequisite: KUMC School of Medicine student. LEC.

FAPR 964. Cross-cultural Health Leadership Module 2: Service Learning Projects. 1 Hour.
Cross-culturally competent care refers to physicians’ “ability to communicate effectively and provide quality health care to patients from diverse sociocultural backgrounds.” This advanced course will train and mentor medical students in cross-cultural communication (C3) skills via participant-conducted service learning projects in voluntary clinical settings within a student-based “learning community”. In Module 2, students will practice skills taught in Module 1, namely Association of American Medical Colleges (AAMC)-defined core topics for cross-culturally competent knowledge, attitude and skills (See Module 1 description). Participating students will collaborate to conduct service learning, quality improvement (Q1) projects to improve cross-culturally competent care in cross-cultural clinical settings in which they or their colleagues participate, e.g. (for M1/M2 students) Jaydoc, Bulldoc school-based health center, or clinical settings with permission of clinical faculty in those settings. Module 2 service learning projects will include 2 clinical-based “whole system events” to which participating students invite clinic faculty, staff and other student colleagues from students’ practice settings. At the first event, students will present and discuss their proposed project to improve cross-culturally competent health care with clinic faculty and staff from the proposed setting. At the second event (at the end of the course), students will present the results of their project to their clinic faculty and student colleagues. Projects must address cross-cultural elements of clinical practice or cross-cultural communication skills; and be appropriate to the students’ developmental stage of training (e.g. M1 students might conduct projects to improve M1 student skills using interpreters). Module 2 students will also participate in interactive sessions with faculty and other student participants, during which they will learn and discuss methodological approaches; and discuss challenging issues arising in their projects. Prerequisites: Prior participation in "Cross-cultural Health Leadership Module 1: Didactic" or Permission of Instructor LEC.

Gynecology and Obstetrics
Chair: Carl Weiner, M.D.

The Department of Obstetrics and Gynecology teaches anatomy, physiology, and endocrinology of reproduction in the basic science disciplines. During a clinical clerkship the student develops understanding of disease in women through history, physical examination, and laboratory studies. The clerkship includes study of biochemical, anatomical, and physiological changes of normal pregnancy and the effect of disease in altering the course of reproduction.

GYNO 914. Reproductive Endocrinology and Infertility. 4 Hours.
This clerkship will allow the medical student to develop skills in assessing and managing female patients who have complex reproductive endocrinology disorders. The student will also gain experience with diagnosis and the treatment options for female and male infertility. This clerkship will provide experience in office and operative procedures including laparoscopic procedures utilizing the laser and open procedures, which may include tubal reversal and myomectomy procedures. Prerequisite: GYNO 900, permission of instructor and clerkship director, John Calkins, M.D. FLD.

GYNO 915. Maternal Fetal Medicine. 4 Hours.
This clerkship will provide the medical student with advanced experience in high risk obstetrics. The student will be assigned to the Obstetrical Service at KUMC. The student will participate in the management of complicated obstetrical conditions in a role similar to that of a sub-intern. Prerequisite: GYNO 900; permission of instructor. LEC.

GYNO 916. Special Topics and Research. 2-4 Hours.
Offered in modules I-XII. Prerequisite: Permission of instructor. IND.

GYNO 918. Gynecologic Oncology. 4 Hours.
Subject material consists of the clinical science of oncology as applied to malignancies of the vulva, vagina, cervix, uterus, ovary and trophoblast. The student should be able to describe and define malignancies of the female genital tract in general terms and complete a clinical study in detail in the area of gynecologic oncology. The student will be evaluated by faculty judgment for general information, and a specific assessment of student projects will be performed. Offered in modules I-XII. Prerequisite: GYNO 900 and permission of instructor. LEC.

History & Philosophy of Medicine
Chair: Christopher Crenner, M.D., Ph.D.

A survey of the history and philosophy of medicine and the sciences applied to medicine from antiquity to the 20th century is offered. The changes and developments of medical theory, practice, organization, and education are traced and their relations with contemporary cultures examined. The following electives on aspects of medical history and philosophy are available.

HPMD 905. Narrative Ethics. 4 Hours.
Narrative Ethics provides an essential complement to traditional philosophic ethics. Where an analytic approach to ethics reduces moral decisions to rational puzzles to be solved, a narrative approach examines a moral problem within the context of an individuals lived life, characterized by its own unique cultural and personal relationships, values, and commitments. Physicians need the narrative skills of a good reader in order to recognize and respond effectively to moral issues as they arise, to integrate concerns for values and beliefs into the routines of
patient care, and to interpret patients moral choices within a framework of
an individual life story. LEC.

**HPMD 906. Medicine and the Movies. 0 Hours.**
Utilizing film clips and video from the early 20th century to the present, the
course provides a selected review of important topics in public
health, medical institutions, and the professions of medicine and nursing.
Consequently, students will become familiar with historical and social
factors that have helped shaped medicine in the 20th century. LEC.

**HPMD 908. Case Studies in Medical Ethics. 0 Hours.**
Subject area to be arranged with faculty as independent study, offered
only in August-December each year. IND.

**HPMD 909. Ethical Issues In: _______. 4 Hours.**
“Ethical Issues In ________” is a course offered to senior medical
students who desire to spend a four-week block of time in the systematic
examination of the set of ethical issues they are likely to encounter in their
chosen post-graduate training program, eqs. ethical issues in psychiatry,
ethical issues in OB/GYN, etc. The course consists of a guided literature
search, regular tutorial sessions and preparation of a short research
paper on a particular ethical issue or "case." The course is intended to
offer the interested student a basic introduction to the reference tools and
literature of contemporary medical ethics; assist the student in developing
a critical perspective in ethical controversies within his/her chosen field;
and, provide the student with basic analytical skills and approaches to
particular ethical problems. Evaluation will be based on participation in
tutorial sessions and the research paper. (Interested students should
contact the Department of History and Philosophy of Medicine, (x7040) for
additional information.) ALL STUDENTS ENROLLING IN THE COURSE
MUST CONTACT THE DEPARTMENT AT LEAST ONE MONTH PRIOR TO ENROLLMENT DATE TO ALLOW FOR APPROPRIATE
INDIVIDUALIZED PLANNING AND SCHEDULING. Prerequisite:
Enrollment limited to senior medical students. (Junior medical students by
special permission.) IND.

**HPMD 910. Readings in the History of Medicine. 4 Hours.**
Guided readings in an area chosen by the student after consultation.
Weekly individual tutorials and group seminars. Offered in Modules I-XII.
IND.

**HPMD 911. Current Social and Ethical Problems of Medicine. 4
Hours.**
Guided readings and discussion of one or more social or ethical
problems currently facing medicine. Examples: Homosexuality, abortion,
contraception, medical education, medicine as a social instrument, etc.
Offered in modules I-XII. IND.

**HPMD 914. Advanced Study in the History of Medicine. 4 Hours.**
Sequel to readings in the history of medicine. Offered in Modules I-XII.
Prerequisite: HPMD 910 and approval of chairperson. IND.

**Interdisciplinary**

**IDSP 800. Special Programs. 1-8 Hours.**
Electives taken during the basic science years of institutions other than
KUMC or at KUMC but in departments that do not have an elective course
number. These courses include, but are not limited to, a research training
experience or a clinical training experience, during the summer session
between the first and second years of medical school. The application
form, obtained from the Office of Student Affairs, School of Medicine,
must contain a written description of the educational experience, the
reason for proposing such a program, and written indication of faculty
or supervisory personnel of their willingness to evaluate the student's
performance. Elective credit will be accrued at the rate of four credits for
eight weeks, three credits for six weeks, two credits for four weeks, or one
credit for two weeks. Prerequisite: Approval of student’s special program
mentor, special program advisor and Associate Dean for Student Affairs.
FLD.

**IDSP 801. Remedial Program. 0-12 Hours.**
Medical students will be enrolled in this course when the Academic
Committee of the School of Medicine recommends a remedial program for
a student who has failed a course. Remediation may take place at KUMC
or at another institution. Evaluation of the student’s performance must
be obtained from the remedial program director upon completion of the
remedial program. Prerequisite: Approval of Associate Dean for Student
Affairs. FLD.

**IDSP 802. Diversity and Cultural Competency in Medicine. 3 Hours.**
The primary purpose of this course is to provide medical students at the
University of Kansas School of Medicine with the critical knowledge, skills,
abilities, and attitudes necessary for cultural competency in medicine.
This course will empower student to develop the attitudes, skills, and
knowledge base necessary to effectively serve diverse populations,
especially the underserved, vulnerable and at-risk populations. In addition,
students will learn more about diversity and diverse populations. Students
will learn that diversity is each of us and all of us, and that is necessary
to treat each person as the unique individual he/she is. There are many
complex issues surrounding the provision of health and social services
in this state, the nation, and the world. Differences in language, age,
culture, sexual orientation, life experiences, socioeconomic status,
political and religious beliefs add challenging dimensions to healthcare
delivery and education. The State of Kansas and the nation is becoming
increasingly diverse. It is improbable that current medical students
will become physicians who serve only those with whom they share a
common background. Therefore, it is necessary that medical students
learn to understand and appreciate those who differ from them so that
the physician/patient relationship is one that is mutually beneficial. Those
students who successfully complete this course will have the skills they
need to be the world-class physician the future requires. LEC.

**IDSP 803. Diversity and Cultural Competency in Medicine. 3 Hours.**
The primary purpose of this course is to provide medical students at the
University of Kansas School of Medicine with the critical knowledge, skills,
abilities, and attitudes necessary for cultural competency in medicine.
This course will empower students to develop the attitudes, skills and
knowledge base necessary to effectively serve diverse populations,
especially the underserved, vulnerable, and at-risk populations. In addition,
students will learn more about diversity and diverse populations. Students
will learn that diversity is each of us and all of us, and that it is
necessary to treat each person as the unique individual he/she is. There are many
complex issues surrounding the provision of health and the world. Differences in language, age, culture, sexual orientation, life experiences, socioeconomic status, political, and religious beliefs add challenging dimensions to healthcare delivery and education. The State of Kansas and the nation is becoming increasingly diverse. It is improbable that current medical students
will become physicians who serve only those with whom they share a
common background. Therefore, it is necessary that medical students
learn to understand and appreciate those who differ from them so that
the physician/patient relationship is one that is mutually beneficial. Those
students who successfully complete this course will have the skills they
need to be the world-class physician the future requires. LEC.

**IDSP 804. Special Experience. 0 Hours.**
Medical students will be enrolled in this course when the Associate Dean
for Student Affairs, the Associate Dean for Academic and Student Affairs,
or the Academic Committee approves a program for a student that may
include a prolonged absence from the School of Medicine. The student’s experience may include, but is not limited to, a fellowship, research, or Master’s program. The student will not receive credit, a grade, or evaluation of their performance. LEC.

**IDSP 805. Enrichment Program. 0 Hours.**
Medical students will be enrolled in this course when the Associate Dean for Student Affairs, the Associate Dean for Academic and Student Affairs or the Academic Committee approves a program of study for a student who cannot enroll in the regular curriculum until a passing grade is achieved on Step 1 or Step 2 of the USMLE. The student’s experience may include, but is not limited to, a formal board preparation program. The student will not receive credit. FLD.

**IDSP 806. Personal/Professional Development. 0 Hours.**
Medical students will be enrolled in this course during the clinical years when no other rotations are scheduled for the student. IND.

**IDSP 850. Introduction to Clinical Research. 1 Hour.**
The course will provide a comprehensive overview to clinical research. The student will gain an understanding of how to develop clinical research questions including protocol design and the factors that should be considered in initiating a clinical research study. This will include biostatistical considerations, the recruitment of study participants, regulatory issues, and data management, and defining measures and instruments. Students will gain knowledge of how to define clinical research among the various institutional entities involved with clinical research at The University of Kansas Medical Center such as the Research Institute (RI), General Clinical Research Center (GCRC) and the Human Subjects Committee (HSC). Additionally, one component of the course will focus on how to apply for funding (grantsmanship), critical appraisal of research studies, and how to present research data. LEC.

**IDSP 900. Special Program. 1-12 Hours.**
A special program is any scholastic activity that departs from the required or elective modules of the curriculum at KUMC and for which the student expects to receive credit toward the M.D. degree. Any student enrolled in medical school is eligible to apply. The application form is initiated in the Office of Student Records and Registration. In addition to this form, the application must contain a written description of the type of educational experience sought and the reason for proposing such a program; written indication of faculty or supervisory personnel of their willingness to participate in the program and to evaluate the student’s performance; source of scholarship, fellowship, travel, or research fund when these funds constitute support of an integral part of the program. If the special program involves study in an area identifiable by department (medicine, Surgery, Gynecology-Obstetrics, etc.) approval by the chairperson of the respective department or designate must be obtained. No more than two modules may be substituted by a special program. The application must be submitted at least two months before the expected starting date of the program. Offered in Modules I-XII. Prerequisite: Approval of Dean. FLD.

**IDSP 910. Medical Spanish-Level 1. 2 Hours.**
This is an entry level Medical Spanish course for students with minimal or no Spanish language education. Student completing this course will have acquired the language skills necessary to interact at a basic level in a medical context. Students will learn how to introduce themselves, greet patients, obtain personal information, ask about symptoms, and describe medical conditions. In addition, students will be able to hold basic conversations with patients about pain, diabetes, diet, trauma, cardiac issues, depression, and anxiety. Students will also be able to use and recognize basic cultural practices such as forms of address, family structure, beliefs about medicine as well as how to work with a translator. Prerequisites: Minimal to no knowledge of Spanish language and approval from the Dean of Student Affairs. LEC.

**IDSP 911. Medical Spanish-Level 2. 2 Hours.**
This is an intermediate-low level Medical Spanish class. In Medical Spanish level 2 students build on what they have learned in the previous level. They expand their vocabulary skills to include medical specialties and procedures as well as their ability to describe medical conditions. Students begin to learn to ask about and express past actions and conditions. They also learn to give specific advice and directions to medical personnel and patients. By the end of the course, students will be able to hold conversations on STIs and reproduction, MI symptoms and anatomy, respiratory concerns, pregnancy and prenatal-care, drug and alcohol abuse, strokes, surgery procedures, pharmacy and drugs and elder care. Students will also be able to understand culturally specific approaches such as the meaning of death, modern medicine and “fatalism” among many others. CLN.

**IDSP 912. Spanish for Health Care Workers. 4 Hours.**
OBJECTIVES: The general goals of the instructional program are to provide, within one month, a functional command of the language for basic interaction between health care providers and recipients. The following objectives will be emphasized in order to meet the goals of the program. Students will: 1. Develop and/or improve oral communication skills with emphasis on General American Spanish. 2. Demonstrate the basic phonology and fundamentals of syntax of the language. 3. Practice use of the most commonly used verbs in present and past tenses. 4. Accumulate a specialized vocabulary appropriate to most health care situations. 5. Sustain a limited conversation about appropriate topics with some degree of fluency and comfort. 6. Develop an appreciation and understanding of cultural differences within Hispanic cultures and backgrounds. 7. Demonstrate basic Spanish language skills by taking a history in Spanish from Spanish speaking real or simulated patient. Prerequisite: Permission of the instructor required; one year Spanish language coursework or the equivalent recommended. FLD.

**IDSP 950. Introduction to Clinical Research. 1 Hour.**
The course will provide a comprehensive overview to clinical research. The student will gain an understanding of how to develop clinical research questions including protocol design and the factors that should be considered in initiating a clinical research study. This will include biostatistical considerations, the recruitment of study participants, regulatory issues, and data management, and defining measures and instruments. Students will gain knowledge of how to define clinical research among the various institutional entities involved with clinical research at The University of Kansas Medical Center such as the Research Institute (RI), General Clinical Research Center (GCRC) and the Human Subjects Committee (HSC). Additionally, one component of the course will focus on how to apply for funding (grantsmanship), critical appraisal of research studies, and how to present research data. Must have instructor permission to enroll. LEC.

**IDSP 960. Integrative Medicine. 4 Hours.**
Course objectives are to expose medical students to other healing fields through readings, lectures and seminars, field observations, performing an independent review, and presenting a paper at the conclusion of the course. The students are expected to evaluate the claims of various practices critically and be rigorous in their questioning of all forms of human healing including practices currently considered mainstream. The students are expected to become aware of various practices that patients may be using so that they can be better informed physicians and be more comfortable in discussing these areas with patients whom may be interested in using them or are already doing so. The students should also learn to communicate effectively with practitioners of complementary and alternative medicine therapies. FLD.
IDSP 965. Health Data Theory and Practice. 2 Hours.
Principles of database theory, modeling, design and manipulation will be introduced. Students will have experience using a relational database management system. Database manipulation will be explored using structured query language (SQL) to compose and execute query statements and critically evaluate the results. IND.

IDSP 970. Introduction to Health Informatics. 2 Hours.
This course will provide a broad survey of health informatics focused on five themes: health informatics foundations; clinical decision support; human factors/organization factors; public health informatics and current issues in health informatics including best practices. Students enrolled for the optional 3 credit offering will develop and demonstrate a practical, innovative small-group information technology (IT) project from one of the set of faculty recommended projects or from a student-proposed idea. IND.

IDSP 975. Health Care Policy Development. 4 Hours.
Health care policy is having an increasing impact on the patient-physician relationship. In addition, these policies address critical issues affecting patients, such as access to care and health care financing. Although input from physicians on these issues is crucial, physicians are infrequently aware of the mechanisms through which they can participate in the legislative or regulatory processes. As efforts continue to reform the health care system, it will be increasingly important for physicians to participate in these processes. LEC.

Internal Medicine

Chair: Steven Stites, M.D.

Before being assigned to an inpatient medical service, all students learn techniques of obtaining a medical history and performing a physical examination as part of the required medical science course, Introduction to Clinical Medicine. Each student must then take a 12-week Basic Medicine Clerkship in internal medicine. After successful completion of this phase of education, students interested in obtaining greater mastery of the content and principles of internal medicine may choose from a variety of advanced clerkships and electives in medical subspecialties.

MED 901. General Medicine--Veterans Administration Medical Center. 4 Hours.
The student will be assigned to one of the general medical wards where the student will function in the role of subintern (e.g., the student will be assigned patients to work up and will be expected to assume partial responsibility for their diagnostic and therapeutic program). The number of patients assigned and the amount of responsibility given will vary with the student's ability. At all times the student will work closely with a staff physician or senior resident who will be responsible for the student's education. Offered in modules I-XII. Prerequisite: MED 900. FLD.

MED 902. Advanced Topics in Internal Medicine. 4 Hours.
Offered in modules I-XII. Prerequisite: MED 900 and special arrangement with department. FLD.

MED 903. Research Topics in Internal Medicine. 4 Hours.
Offered in modules I-XII. Prerequisite: Special arrangement with department. IND.

MED 906. Advanced General Medicine - Leavenworth Veterans Administration Medical Center. 4 Hours.
The student will function in the role of a sub-intern on the Medicine I Teaching Service. He/She will assume partial responsibility for the diagnostic and therapeutic program for assigned patients. The number of patients and level of responsibility will be accommodated to the individual's educational goals and ability. Emphasis will be placed on the clinical and practical approach to the patient including differential diagnosis, pathophysiology, and management strategies. At all time the student will work closely with the Chief, Medical Service who is in charge of the Teaching Unit. Evaluation of the student's performance during the clerkship will be based on faculty's assessment of the student’s clinical and conference participation. Prerequisite: MED 900. FLD.

MED 907. Ambulatory Specialties Selective in Dermatology. 2 Hours.
Two week course composed of outpatient clinic experience, tutorial sessions, and audiovisual material available in the educational resource center (ERC) will enable the medical students to diagnose the most prevalent skin diseases and perform an adequate history and physical examination needed to establish these diagnoses. There will be a syllabus available from the secretaries in the dermatology office. There will be an opportunity to attend a monthly Kansas City Dermatological Society meeting on the third Thursday of most months, and attend at least twice weekly conferences given by the dermatology residents to the medical students. Some medical students will have the opportunity to spend two weeks with a dermatologist in private practice in the Kansas City area (or Topeka) instead of spending the time at the University of Kansas Medical Center Dermatology department. Those students are encouraged to attend the lectures given by the dermatology residents. LEC.

MED 909. Clinical Elective in General Medicine Consultation and Hospital Based Medicine Practice. 4 Hours.
The student(s) will be exposed to the arena of general medicine consultation and hospital based medicine practices. The students would be responsible for performing initial evaluation and work up of new general medicine and/or geriatric consultations as well as the ongoing care of the patient's medicine issues. This experience would be unique in that the attending of record is not a general internist but often a surgeon, rehab specialist, etc. The students would learn the art and science of being a consultant-from evaluating medical conditions as they arise in the surgical and rehabilitating patient communicating with referring physicians, providing concurrent care, diagnostically and therapeutically of serious ongoing medical issues. In addition, the student would become well versed in the pre-operative evaluation of patients, as this can be a substantial part of a general internist's practice. Finally, the student will gain insight to what it is like to have a hospital-based practice by working directly with two hospitalists for KUMC. One of the responsibilities of the elective would be to prepare and give a short presentation on an issue of consultative medicine that would be presented in small group format but could also be used in care-based format to present in other arenas if so desired. FLD.

MED 910. Clinical Cardiology. 4 Hours.
The clerkship in cardiology offers an experience in the clinical evaluation and treatment of patients with a variety of cardiovascular problems. The students, as sub-interns, will function on the cardiovascular service as an integral part in the care of the seriously ill patient with a wide range of problems. The students will make cardiovascular rounds with one of the members of the cardiology staff, during which time clinical skills in bedside diagnosis, auscultation and palpitation will be emphasized and developed. They will have an opportunity to develop expertise in interpretation of electrocardiograms on a daily basis. The treatment of arrhythmias and heart failure will be stressed. They will also have an opportunity to evaluate in-hospital consultations as well as outpatient consultations and to see postoperative follow-up patients. They will have an opportunity to follow patients through cardiac catheterization procedures and to participate in the computation and assessment of the catheterization date. Indication for cardiovascular operations will be emphasized to weekly conferences. FLD.
MED 911. Coronary Care Unit and Electrocardiography--Veterans Administration Medical Center. 4 Hours.
The student will function as a subintern in the Coronary Care Unit with the cardiovascular fellow and cardiology subspecialty resident. The patient material consists of all the patients in the VA medical center with acute myocardial infarction, rule out acute myocardial infarction, pre-infarction syndrome and problem arrhythmias. The student will also develop expertise in electrocardiography and read a portion of the daily EKG’s independently and in collaboration with the cardiovascular resident or fellow and the cardiologist. Offered in modules I-XII. Prerequisite: MED 900 or permission of instructor. FLD.

MED 915. Comprehensive Care of the Complex Adult. 4 Hours.
The objective of this four week elective is to enhance the student’s ability to care for complex adult patients in various systems of care. Clinically, the student will rotate through selected clinical centers of care at the University of Kansas. There will be a focus on three facets of the care: the clinical content and context, the patient’s experience and the structure of the specific systems of care. Through experience, didactic presentations on systems of care, focused observation and reflection, the student will be able to better define the organization of clinical systems of care and to recognize how to ‘diagnose’ and to help collaborate in improving systems of care. These skills will likely be of great benefit for understanding elements of the core competency of ‘systems based practice’, and practically applying that knowledge to the new systems of care encountered in residency. CLN.

MED 920. Advanced Gastroenterology Clerkship. 4 Hours.
This clerkship is directed toward specific problems of gastrointestinal disease. The clinical clerk is involved in ward care and ward work, including admission work-up of patients, their daily care, staff rounds, X-ray interpretation, treatment of specific GI disease, long term therapy, and follow-up in the outpatient clinic. The clerk is supervised by the GI resident or fellows and can participate in special GI procedures on patients, such as endoscopy and motility studies. The clerk is instructed in proctoscopy until he/she has mastered this as a routine procedure. Offered in modules I-XII. Prerequisite: MED 900 or permission of instructor. FLD.

MED 921. Gastroenterology Clerkship--Veterans Administration Medical Center. 4 Hours.
The manifestations of gastrointestinal disease will be presented to the student by participation in consultation rounds and endoscopy. The student will be a member of a team composed of a staff gastroenterologist, a fellow, and a medical resident. At the completion of the course, the student will be familiar with the manifestations of gastrointestinal diseases, their diagnostic evaluation, and their treatment. The student will learn the indications and contraindications of gastrointestinal procedures. The student will be evaluated on a daily basis by the staff gastroenterologist as the student interviews and examines patients and makes recommendations for their diagnostic and therapeutic measures on consultation rounds. Prerequisite: MED 900 or permission of instructor. FLD.

MED 923. Gastroenterology--Special Programs. 4 Hours.
Combination of the preceding GI electives as desired by the student upon consultation with the senior GI staff. Offered in modules I-XII. Prerequisite: MED 900 and MED 920 or MED 921. FLD.

MED 925. Interdisciplinary Community Partnership. 4 Hours.
This course offers an interdisciplinary eight-week experience in diverse settings outside of the tertiary care environment, dealing with community health issues and their impact on individual and population health. Students will be engaged in intensive on-site internships with organizations, e.g., social service and public health agencies, community-based indigent-care clinics, which provide services related to disease prevention, health promotion, quality of life, health insurance, poverty prevention, and other healthcare issues. The students will gain insight into the challenges of specific populations within the community, as well as the gencies and programs that serve their needs. Direct mentorship will be provided by professionals trained in multiple disciplines, including but not limited to medicine, nursing, allied health, and social work. Students will complete a comprehensive project related to a particular need of the agency and/or the population that the agency serves. Common examples include: needs assessments, grant development, health interventions, research surveys, and curriculum development. In addition, students will be required to complete an oral or poster presentation describing their project, nd a comprehensive written report of their internship experience. The overall emphasis of the course will be to enhance awareness to expand knowledge, and to gain experience in working with individuals and populations on the health care challenges they confront within their families, their community and our society. FLD.

MED 930. Clinical Hematology. 4 Hours.
This will consist of inpatient and outpatient care, dealing with all types of hemotologic disorders. The student will be given experience and instruction in morphology of peripheral blood and bone marrow. Weekly conferences, didactic and participating study sessions with the hematology staff will be conducted. Offered in modules I-XII. Prerequisite: MED 900 or permission of instructor. FLD.

MED 935. Infectious Diseases--Advanced Clerkship. 4 Hours.
The students will be given the responsibility of participating actively in the care of patients admitted to the division of infectious diseases under close supervision by attending physicians and house officers. Students will also be exposed to experiences in clinical microbiology as well as medical consultations requested by other clinical services to the division of infectious diseases. Offered in modules I-XII. Prerequisite: MED 900 or permission of instructor. FLD.

MED 936. Infectious Disease Elective at Kansas City Veterans Administration Medical Center. 4 Hours.
The Infectious Disease Section at the VA medical center is responsible for an active inpatient consult service. The student will be responsible for seeing the consult patients with the resident and/or Infectious Disease fellow, recommending initial diagnostic and therapeutic management, and presentations to the Infectious Disease staff physician. The clinical experience will be supplemented with didactic discussions and an introduction to medical microbiology in the clinical laboratory. Offered in modules I-XII. Prerequisite: MED 900 or permission of instructor. FLD.

MED 940. Endocrinology and Metabolism, Clinical. 4 Hours.
Introduction to endocrinology and metabolism with special emphasis on diagnosis and management of selected patients with this category of disease. Students will participate directly in patient evaluation. Offered in modules I-XII. Prerequisite: MED 900 or permission of instructor. FLD.

MED 941. Research Problems in Endocrinology and Metabolism. 8 Hours.
Two consecutive four-week modules that will provide the interested student with laboratory and research experience necessary for clinical investigation of specific problems in endocrinology and metabolism. The student may either pursue an independent research problem or participate in a research project currently under investigation by a staff member. The student will be required to submit a written report and deliver a seminar at a Sectional Research Conference. An objective of this course will be to obtain data suitable for publication or presentation at Student Research Day. Offered in modules I-XII. Prerequisite: Special arrangement with staff. IND.
MED 950. Clinical Nephrology--University of Kansas Medical Center or Veterans Administration Medical Center. 4 Hours.
The Division of Nephrology is active in both the University of Kansas Medical Center and the Veterans Administration Medical Center. The activities of this division center on the diagnosis and treatment of patients with medical diseases of the kidney. Clinical clerks are assigned patients on the inpatient service, the outpatient clinic and in the outpatient chronic hemodialysis unit. The clerks are expected to function at a subintern level. Under the guidance of the house staff they provide the primary work up, write the admitting orders and assist in performing procedures such as peritoneal dialysis and hemodialysis. Clerks and house staff meet regularly with the attending staff nephrologist to discuss specific topics in renal physiology and pathogenesis. A formal nephrology conference for all housestaff and students is held weekly. The clerk is encouraged to participate in one of the ongoing research projects. Three positions are available at the University of Kansas Medical Center and two at the Veterans Administration Medical Center. Offered in modules I-XII. Prerequisite: MED 900. FLD.

MED 951. Research Problems in Basic and Clinical Nephrology. 4-8 Hours.
Investigation of specific problems in nephrology. One or two modules consecutively. Offered in modules I-XII. Prerequisite: Arrangement with staff. IND.

MED 960. Pulmonary/Critical Care. 4 Hours.
Students will be assigned to the Respiratory Intensive Care Unit. Under direct supervision of a Senior Medical Resident and a Pulmonary/Critical Care Fellow they will participate in the care of patients hospitalized in the Respiratory Intensive Care Unit. Daily attending rounds emphasize correlation of clinical, radiographic, laboratory, and invasive physiologic data in managing critically ill patients. Extensive experience in ventilator management and invasive monitoring. Students are on pager contact so they may be notified and participate in critical care decision making. Offered in modules I-XII. Prerequisite: MED 900 or permission of instructor. FL.

MED 961. Pulmonary Medicine, Physiology. 4 Hours.
Students will be assigned to the pulmonary function laboratory to learn the technique and interpretation of pulmonary function tests. Under the immediate supervision of a pulmonary technician and a pulmonary disease fellow, students will observe, perform, and interpret the various tests of lung function. Clinical correlation will be obtained via attendance at inpatient, outpatient, and consultation rounds where clinical problems will be related to physiologic finds. Offered in modules I-XII. Prerequisite: MED 900 or permission of instructor. LAB.

MED 962. Chest Disease Medicine--Veterans Administration Medical Center. 4 Hours.
The student electing the Chest Disease Service at the Veterans Administration Medical Center will be assigned as a subintern on Ward 11 West where he or she will be assigned to primary care of a small number of selected chest disease patients. The student will be directly responsible for the patients’ diagnostic and therapeutic management under the specific supervision of the chest disease fellow and chief of chest disease section, VA medical center. There will be seminar and didactic instruction on natural history of the frequently occurring chronic chest diseases. The student will assist in procedures such as fiberoptic bronchoscopy, pneumo-thorax intubation, thoracentesis and pleural biopsy and will observe and perform common procedures of pulmonary function testing with patients. He or she will assist with chest disease consultations from other services with the chest disease resident and will be expected to attend and participate in all conferences of the chest disease section. The student will participate in inhalation therapy procedures including ventilator management. He or she will be expected to complete and discuss a small required reading list from selected texts and journal articles. The objective of the elective is to give a student concentrated but comprehensive actual experience in the management of the chest disease performance section of the VA medical center in writing at the completion of the elective. Offered in modules I-XII. Prerequisite: MED 900 or permission of instructor. FLD.

MED 969. Clinical Oncology--Veterans Administration Medical Center. 4 Hours.
The student will participate in both in- and outpatient cancer management, consult rounds, and twice-weekly teaching conferences. Emphasis will be on clinical investigations of new and established anticancer drugs, and on the application of pharmacokinetic and cytokinetic studies to the treatment of cancer. Evaluation of the student’s general clinical skills and acquisition of knowledge in oncology will include direct observation of clinical performance and conference participation, and a brief objective examination. Offered in modules I-XII. Prerequisite: MED 900. FLD.

MED 970. Clinical Oncology Clerkship. 4 Hours.
The student participates actively in the care of the oncology patient on an in- and outpatient basis. This includes consultation rounds. Clinical investigation with both conventional and experimental drugs will be stressed and an opportunity to treat patients by protocols will be given. Offered in modules I-XII. Prerequisite: MED 900 or permission of instructor. FLD.

MED 971. Advanced Studies in Clinical Oncology. 4 Hours.
This is an advanced course with emphasis on consultations with attending staff and fellows, investigative protocol studies and special projects, including lectures and conferences. There will be outpatient activity, but no inpatient care. Offered in modules I-XII. Prerequisite: MED 900 and MED 970 or MED 969. FLD.

MED 972. Palliative Medicine Across the Continuum of Care. 4 Hours.
This elective rotation will expose the student to palliative care patients at all stages of illness and coping with advanced disease processes, from the ICU to the inpatient and home hospice settings. The student will work with the Palliative Care Team of physicians, advanced practice nurses, Palliative Medicine fellows, and our social workers. Focus of clinical activity is on the interdisciplinary management of patient symptoms, inter-professional and interpersonal communication skills, clinical ethics in end of life decision making, and understanding healthcare system complexities for patients facing advanced, progressive illness. The student will spend a portion of the rotation with either Northcare Hospice or Kansas City Hospice and Palliative Care, working with their interdisciplinary team in the management of acute inpatient hospice patients and home hospice patients. Continuity for the student in care of patients who transition from the hospital to the inpatient or home hospice setting will be fostered. CLN.

MED 980. Clinical Allergy, Immunology, and Rheumatology. 4 Hours.
Students will participate in the weekly KUMC allergy and rheumatology outpatient clinics, as well as assist in subspecialty inpatient consultations. They will perform medical evaluations, select appropriate diagnostic procedures and define specific therapy on assigned patients under the supervision of the staff. They will receive orientation to clinical immunologic tests in current use and be expected to interpret the results of these appropriately. Regular lectures by the staff are given in areas of clinical immunology. With guidance they will choose a topic appropriate for seminar presentation at the end of this clerkship. Offered in modules I-XII. Prerequisite: MED 900 or permission of instructor. FLD.
MED 981. Advanced Allergy, Immunology, and Rheumatology. 4 Hours.
The activities outlined in MED 980 will be continued, but the student will have more responsibility for patient evaluation and management. With guidance, another topic will be chosen for seminar presentation at the end of this clerkship. Offered in modules I-XII. Prerequisite: MED 900 and MED 980. FLD.

MED 982. Research Problems in Allergy, Immunology, and Rheumatology. 4 Hours.
Three consecutive modules are necessary to give the student adequate time to pursue an independent research problem or a project currently under investigation by a staff member. The student will be required to submit a written report and give a seminar at a division research conference during the final module. Offered in modules I-XII. Prerequisite: Special arrangement with division. FLD.

MED 990. Geriatric Medicine - Leavenworth Veterans Administration Medical Center. 4 Hours.
The student will function in the role of a sub-intern, with supervised responsibility for management of patients in a special assessment unit for the elderly, a nursing home, and an outpatient clinic. In addition to daily teaching rounds, students will participate in seminars covering physiology of aging, altered presentation of illness in the elderly. Evaluation of the student's performance during the clerkship will be based on faculty's assessment of the student's clinical skills and conference participation. Prerequisite: MED 900. FLD.

MED 995. Dermatology. 4 Hours.
This course is composed of outpatient clinic experience, tutorial sessions utilizing audiovisual aids extensively, and inpatient teaching rounds, as well as frequent review of pertinent aspects of dermatological allergy, microbiology, and histopathology. There will be opportunities to attend special weekly dermatological basic science lectures and grand rounds. Acquired skills in dermatological diagnosis (disease recognition, as well as analytical reasoning, or "problem solving") and in dermatological therapy will be evaluated by such means as oral quizzes and a written examination, but the final appraisal of each student will always be individualized. Offered in modules I-XII. Prerequisite: Medical Basic Sciences. FLD.

MED 996. Research Problems in Dermatology. 4 Hours.
A four-week research elective in which the student undertakes an original investigation in dermatology or participates in an ongoing project, in either case under the direct supervision of a dermatology faculty member. A written report at the end of the module summarizing the student's findings will be required. Modules I-XII, limited to one student per module. Prerequisite: Medical Basic Sciences and by special arrangement with staff. FLD.

MED 998. Advanced Studies in Geriatric Medicine. 4-12 Hours.
An advanced course of one to three months specially arranged for each student to encompass a clinical research project. There will be participation in clinics and consultations as appropriate. Offered in modules I-XII. Prerequisite: MED 900. RSH.

Microbiology, Molecular Genetics, and Immunology

Presentations in bacteriology, virology, immunology, microbial genetics, microbial physiology, and mycology with emphasis on cell biology and pathophysiology of infectious diseases of humans.

MBO 850. Microbiology. 9 Hours.
The course presents microbial physiology and microbial genetics with emphasis on the molecular biology of microorganisms; Immunology with emphasis on the defense mechanism, immune regulation and immunogenetics and selected coverage of etiologic agents of infection in bacteriology, parasitology, mycology, and virology. Lectures, small group conferences and tutorials. (Same as MICR 850.) Prerequisite: ATMY 820, cell and tissue biology, BIOL 800, and PHYS 800. LEC.

MBO 910. Advanced Topics in Microbiology. 4 Hours.
Students will work with individual instructors in directed study or laboratory work. Offered in modules I-VIII. IND.

MBO 911. Research in Microbiology, Molecular Genetics, and Immunology. 3-16 Hours.
Students will participate in research projects supervised by faculty members of the Department. Participants will be expected to conduct an individual research project, compile and interpret data, and communicate results and conclusions in a written or oral form. Student evaluations will be based on the supervisor's assessment of written and/or oral research reports. Offered in modules I-XII. Prerequisite: MBO 850. IND.

Molecular and Integrative Physiology

Chair: Paul Cheney, Ph.D.
The Department of Molecular and Integrative Physiology approaches physiology on many levels, ranging from analysis of integrated body functions of the intact organism to study of the organ at molecular and cellular levels. The student is expected to become competent in examining such diverse physiological problems as analyzing the multiple adjustments to exercise in laboratory animals or humans or analyzing factors influencing the transport of molecules across cell boundaries. Students are encouraged to think in physiological terms, that is, in terms of cause and effect as determined by basic physical and chemical laws.

PHYS 910. Advanced Topics. 1-10 Hours.
Special studies designed and arranged on an individual basis to allow a student to pursue a particular subject through reading, special laboratory work, and conferences with a senior staff member. Offered in modules I-XII. Prerequisite: Medical Basic Sciences. IND.

PHYS 911. Research. 4 Hours.
Original laboratory investigation conducted under the supervision of a senior staff member. Offered in modules I-XII. Prerequisite: Medical Basic Sciences. LAB.

PHYS 912. Fundamentals of Biomedical Imaging. 2-4 Hours.
This is a multidisciplinary course designed to introduce 2nd, 3rd, and 4th year medical students to the fundamentals of existing imaging modalities for anatomy, structure and functioning biomedical sciences. The course will also be offered to Junior and Senior level undergraduate students as well as graduate students from other interdisciplinary areas including engineering, science, biology and biomedicine. Students must be in good academic standing. LEC.

Neurology

Chair: Richard Barohn, M.D.
The Department of Neurology is introduced to medical students in the first year that clinical correlation is offered in connection with the neuroanatomy courses. During the clinical modules, clinical
neurology electives allow students to participate in the management of inpatients and outpatients on the neurological service and in the educational conferences that are part of the neurology department. Conferences include pediatric neurology, neuropathology, and neuroradiology. Students obtain some familiarity with interpretation of electroencephalograms and electromyograms and supervised experience in the evaluation of patients with neurological problems seen in consultation. Students are accepted into these electives only after at least one previous clinical module.

NEUR 931. Neurology Clinical Clerkship--University of Kansas Medical Center. 4 Hours.
The Neurology Section provides clinical experience and exposure to common neurological problems. The department is staffed by one full-time and three part-time neurologists. Students will be assigned to cases which have teaching value. He/She will be expected to carry out a detailed examination of the patients assigned and present them to the staff. The student is expected to take an active part in complete diagnostic evaluations and the management of patients. The main focus will be to develop skills of neurological examinations, interpretation of findings and clinical and anatomic correlation. The student can also take part in specialty clinics such as Movement Disorder, Memory, Cerebrovascular. FLD.

NEUR 932. Clinical Neurology--Veterans Administration Medical Center. 4 Hours.
The student will be assigned patients selected on the basis of their teaching value. He/she will be expected to carry out complete detailed examinations of each patient and assume responsibility for assisting in all phases of the patient’s diagnostic evaluation. Emphasis will be on developing skills in examination, interpretation on findings and neuroanatomic correlation. During this elective, the student will participate actively in all teaching conferences held both at this hospital and at KUMC. In exceptional cases, by prior arrangement and if an opening is available, a student may split time between neurology services at KUMC and the VAMC. Offered in modules I-XII. Prerequisite: One clinical module or permission of instructor. FLD.

NEUR 933. Neurology--Advanced Topics. 4 Hours.
The Neurology Section provides clinical experience and exposure to common neurological problems. The department is staffed by one full-time and three part-time neurologists. Students will be assigned to cases which have teaching value. He/She will be expected to carry out a detailed examination of the patients assigned and present them to the staff. The student is expected to take an active part in complete diagnostic evaluation and the management of patients. The main focus will be to develop skills of neurological examinations, interpretation of findings and clinical and anatomic correlation. The student can also take part in specialty clinics such as Movement Disorder, Memory, Cerebrovascular. Offered in modules I-XII. Prerequisite: NEUR 931 or NEUR 932. FLD.

NEUR 934. Advanced Clinical Neurology--Veterans Administration Medical Center. 4 Hours.
This course will consist of assumption of more responsibility concerning diagnostic formulation and management of the patient with emphasis on clinical neurology. Offered in modules I-XII. Prerequisite: NEUR 931 or NEUR 932. FLD.

NEUR 935. Advanced Clinical Neurology - Veterans Administration Medical Center, Leavenworth. 4 Hours.
The Neurology Section provides clinical experience and exposure to common neurological problems. The department is staffed by one full-time and three part-time neurologists. Students will be assigned to cases which have teaching value. He/She will be expected to carry out a detailed examination of the patients assigned and present them to the staff. The student is expected to take an active part in complete diagnostic evaluation and the management of patients. The main focus will be to develop skills of neurologic examinations, interpretation of findings and clinical and anatomic correlation. The student can also take part in specialty clinics such as Movement Disorder, Memory and/or Cerebrovascular. Offered in modules I-XII. Prerequisite: NEUR 931 or NEUR 932. FLD.

Ophthalmology

Chair: John E. Sulphin, M.D.
The Department of Ophthalmology teaches undergraduates primarily in conjunction with other departments. The goal is to stress the importance of the ocular examination as a part of the complete physical examination and the role of ocular changes in general disease. In addition, all students learn the diagnosis and management of specific ocular problems that any physician should know. An elective is available to the student at any level of training. This experience is a completely flexible, individual program planned with each student. The experience is designed not only for the student interested in ophthalmology but to provide in-depth experience in any aspect of the specialty for the undergraduate student.

OPTH 910. General Ophthalmology. 4 Hours.
The program will be tailored to the interest of the individual student. Students will be given a program in Ophthalmology Outpatient Department and Surgery according to their interest. The student will be given instruction in the use of audio-visual aids in the department and reference readings. All departmental conferences and seminars are open to students. In the Outpatient Clinic the student will be instructed in the use of all special instruments and patient examination. Offered in modules I-VI and IX-XII. Prerequisite: Medical Basic Sciences. FLD.

OPTH 911. General Ophthalmology. 2 Hours.
The student will spend five mornings a week working in the Ophthalmology Outpatient Department and participating in the individual work-up of patients. The number of openings in this course will depend upon the number of students registered for OPTH 910. If OPTH 910 is full there will be no openings in OPTH 911. Offered in modules I-XII. Prerequisite: Medical Basic Sciences. FLD.

OPTH 915. Research Problems in Ophthalmology. 4 Hours.
A 4 week course research elective in which the student has an opportunity to be exposed to vision research methods and to participate in ongoing research projects. In some circumstances this can be the introduction for continued part-time research. A written report will be due describing the project and the student’s participation in the project. Prerequisite: Approval of chairperson and faculty mentor. LEC.

OPTH 916. Ambulatory Specialty Selective in Ophthalmology. 2 Hours.
Terms and abbreviations used in ophthalmology are not routinely used in other areas of medicine nor are they usually taught in year 1 or 2 of medical school. Knowledge of ophthalmic terms will allow better understanding of ophthalmology consults and notes. The student will be able to write more precise consult requests. Ocular anatomy, although taught in basic anatomy, is only reinforced in other areas of medicine at a superficial level. Better understanding of ocular conditions will allow the primary care physician to feel more comfortable treating certain common ocular conditions and know when to make appropriate referrals. LEC.
Otorhinolaryngology
Chair: Daniel Bruegger, M.D., Interim

Diseases of the ear, nose, throat, head, and neck are presented in inpatient and outpatient otorhinolaryngology. The importance of understanding the anatomical structures for comprehension of examination, diagnosis, and treatment is emphasized.

OTOR 910. Clinical Otolaryngology. 2 Hours.
The objectives of this course are to acquaint the students with the examination of the anatomical areas and cavities of the head and neck. Recognition of clinical signs and symptoms peculiar to these areas would be taught with tutorial advice immediately available. To accomplish this objectively and realistically, the student will work in the outpatient clinic with patients and members of the staff. He or she will also participate in evening rounds and in seminars. This course offers the student a basic understanding of disorders of the head and neck region. Offered in modules I-XII. Prerequisite: Medical Basic Sciences. FLD.

OTOR 911. Advanced Otorhinolaryngology. 3-4 Hours.
Through in-service training experiences the student will be taught to assess otolaryngological disorders using advanced and relatively sophisticated techniques. Instruction will be provided on the screening of hearing and in basic principles of acoustics, the vestibular system and psychoacoustics. Instruction will be provided in those areas where the interaction of the otolaryngologist and the general physician can best be utilized to the advantage of the patient. The objectives of this course are to acquaint the student with basic clinical otolaryngology and, in addition, the surgical aspect of the specialty. Participation in the operating room is emphasized along with outpatient and inpatient experience. Offered in modules I-XII. Prerequisite: Medical Basic Sciences. FLD.

OTOR 915. Research Problems in Otorhinolaryngology. 4 Hours.
One or more modules that provide the interested student with laboratory or clinical research experience necessary for investigation of research problems related to otorhinolaryngology. The student may pursue an independent research problem or participate in a project currently under investigation by a staff member. In either case, a faculty mentor must be identified. All projects must be reviewed and approved by the mentor at least one month in advance of the intended start date. Students will be required to submit a written report at the conclusion of the module. One objective of this course will be to generate data suitable for publication or presentation at the Student Research Forum. Prerequisite: Special arrangement with faculty mentor. LEC.

OTOR 916. Ambulatory Specialties Selective in Otolaryngology. 2 Hours.
The objectives of this two week selective course will be to expose the fourth year medical student to clinical and surgical aspects of otolaryngology head and neck surgery. This will be done in the form of three projects. The first project will consist of a pre test examination. These questions will be open-ended and will consist of 75 to 100 questions in which the student is expected to find the answer over the two week rotation. At the end of the two weeks the student will be given a set of 25 questions from the bank of 100 to be tested over. The second project will consist of a list of skills and procedures to be observed. The student will be asked to have this checked off by either a staff member of Otolaryngology, or an Otolaryngology resident. The third project will consist of time spent learning aspects of otolaryngology head and neck examination using a CD-ROM computer program generated by the Academy of Otolaryngology Head and Neck Surgery directed for primary care training. LEC.

Pathology and Laboratory Medicine
Chair: Lowell Tilzer, M.D., Ph.D.

Pathologists play many roles in medicine, from interpreting surgical biopsies to supervising clinical laboratory testing. It has been estimated that 70% of all medical decisions are based on data generated by pathology departments. The department of Pathology and Laboratory Medicine at KUMC plays an integral role in the core curriculum and also offers elective courses to medical students interested in learning more about laboratory practice. Students in elective rotations participate in daily teaching conferences and specimen “sign-out” at the University of Kansas Hospital. They receive hands-on exposure to pathology technical methodology in the surgical pathology suite, microbiology laboratory, and cyto genetics laboratory.

PAON 920. Introduction to Molecular Medicine. 2 Hours.
Introduction to Molecular Medicine is a two semester course for first year MD-PhD students taught by the Director of the MD-PhD Program, with other faculty from the basic science and clinical departments. Through lectures, small group discussion, evaluation of primary literature, and presentations/discussions with current KUMC faculty, students will be introduced to the process of investigating the molecular and cellular derangements that underlie human disease. Order of topics mirror, to some extent, the subjects of first-year modules. There will be particular emphasis on the diverse research methods and models used to investigate the molecular basis of disease and understanding how such investigations can be translated to answer clinically relevant questions. Students are evaluated by both group activity and individual preparation and participation. Prerequisites: Enrollment in the MD-PhD Program. LEC.

PAON 921. Diagnostic Pathology. 4 Hours.
The elective provides an overview of hospital-based pathology practice. It consists of a two-week rotation in the anatomic pathology core (surgical pathology, cytology and autopsy), a one-week rotation in hematopathology and a one-week rotation in microbiology/cytogenetics. Students in the anatomic pathology core will have the opportunity for supervised prosecution of surgical specimens, participation in the “sign-out” of surgical and cytology samples with the attending staff, and participation in autopsy if available. Students in hematopathology will participate in the daily sign-out of bone marrow biopsy specimens. The focus in this segment of the rotation is on the diagnosis of blood and bone marrow disorders such as leukemia. The focus in microbiology/cytogenetics will afford the student the opportunity to perform his/her own karyotype and learn about the diagnosis of infectious diseases by appropriate culture techniques. Students are active participants in their learning via required pre-test, post-test, assigned readings, and PowerPoint case presentation at the end of the rotation. Final grade is based on exam score (25%), case presentation (25%), and staff assessment of performance during the rotation (50%). Prerequisites: Completion of core clinical clerkships. LEC.

PAON 922. Special Topics in Pathology. 4 Hours.
This rotation affords the student the opportunity to spend four weeks focused on a particular subspecialty of pathology or a pathology-based research elective. The department has subspecialists in dermatopathology, neuropathology, renal pathology, breast and hepatic pathology. The rotation consists of daily interpretation of subspecialty biopsies, participation in subspecialty conferences, slide set study, and assigned readings. Students participate in their own learning by setting their rotation objectives with faculty at the start of their elective and following through with a schedule of clinical, laboratory and core lecture...
conferences. Students will need to obtain the appropriate staff members’ permission for the rotation as follows: dermatopathology (Garth Fraga); neuropathology (Kathy Newell); renal pathiology (Timothy Fields); breast pathology (Fang Fan); hepatic pathology (Maura O’Neil). Prerequisites: Completion of the core clinical clerkships and permission of the faculty. LEC.

Pediatrics

Chair: Chet Johnson, M.D.

The Department of Pediatrics gives the student a comprehensive exposure to primary care and subspecialty pediatrics. The experience ranges from exposure to a sick newborn to care of an adolescent patient. Inpatient and outpatient services are available. Student participation includes history-taking and examination of pediatric patients, making daily ward rounds with the staff physician, and rotation through general and subspecialty outpatient clinics and the full-term nursery. Electives are available in the Children’s Rehabilitation Unit, Behavioral Pediatrics, and all other subspecialties in pediatrics. Research electives are also available with department faculty members.

PED 915. Pediatric Cardiology. 4 Hours.
Inpatient and outpatient clinical experience in children with cardiac disease will be provided. Daily pediatric cardiology ward rounds are conducted by the senior staff. Active participation in the pediatric cardiology clinics each week highlight the outpatient experience. Personal instruction will be given in cardiac physical diagnosis with stress on cardiovascular hemodynamics, evaluation of heart sounds and murmurs, electrocardiograms, and cardiac radiology. Significant responsibility in patient management will be delegated to the student who will function as a member of the pediatric cardiology team. The student will attend the various pediatric cardiology conferences and will follow children through the cardiac catheterization laboratory and the operative procedures. Opportunity will be available for participation in clinical investigative projects if the student so desires. Teaching conferences, seminar, and patient rounds will be made on the scheduled basis by a member of the senior pediatric cardiology staff. Offered in modules I-XII. Prerequisite: PED 900, FLD.

PED 916. Pediatric Subinternship Selective-Inpatient/Outpatient-Distant Site. 4 Hours.
This selective is an extension of the basic pediatric clerkship. It is designed to permit senior medical students to take increasing responsibility of patient care and management by active participation in the daily activities of a private pediatric practice. This selective is entirely clinical. The student will work with clinical faculty at a distant site. Most of the experience will likely be in an outpatient setting with some inpatient experience. Student performance will be evaluated by the faculty based on factual knowledge, practical skills, problem-solving abilities and personal behavior and values. Offered in all modules if sites are available. Prerequisite: PED 900 or equivalent and permission of the Pediatric Clerkship Director. LEC.

PED 917. Pediatric Hematology-Oncology. 4 Hours.
This course will include involvement in the diagnosis and care of children with hematologic and oncologic diseases. The student will be involved directly with these patients under the supervision of the pediatric hematology fellows. During this time, he or she should become conversant with the general area of pediatric hematology and be trained in the diagnostic procedures including bone marrow examination and other routine and special procedures used in this subspecialty area. The special emphasis placed on the psychological aspects of these diseases for the child and the family will be part of the training experience. The complications that commonly occur in patients on chemotherapy make these patients particularly appropriate for a broad experience. Offered in Modules I-XII. Prerequisite: PED 900. FLD.

PED 919. Developmental and Behavioral Pediatrics Elective. 4 Hours.
This course is designed to provide students with an in-depth understanding of children and their families. Students will learn about normal and atypical child development, behavioral and emotional problems commonly seen in Pediatrics (e.g., ADHD, depression, anxiety, oppositional behavior), and helping children cope with acute and chronic illnesses. Students will observe/participate in outpatient clinics in the Developmental Disabilities Center and Behavioral Pediatrics section (e.g., autism assessment, developmental medicine, telemedicine, feeding team, and behavioral pediatrics clinic), as well as in medical inpatient consultations. Within the curriculum there is ample opportunity to pursue individual interests related to children with developmental and behavioral problems. Expected to be offered in most Modules. One student per module. Prerequisite: PED 900 and permission of instructor. FLD.

PED 920. Pediatric Subinternship Selective-Inpatient. 4 Hours.
Students will participate in the evaluation and management of children with infectious diseases. Laboratory aspects of infectious diseases will be emphasized. Students will attend teaching conferences and seminars on various aspects of infectious diseases. Offered in modules I-XII. Prerequisite: PED 900 and permission of instructor. FLD.

PED 921. Pediatric Neurology. 4 Hours.
This module will serve to acquaint the student with the wide spectrum of neurological diseases of infancy, childhood, and adolescence. The student will become familiar with the neurological examination of the newborn, as well as assessment of the infant and child. During the elective rotation the student will become actively involved in the diagnosis and treatment of seizure disorders. The student will be exposed to routine laboratory procedures, such as lumbar puncture, EEG and brain scan, as well as special procedures, such as arteriography and pneumoencephalography. The student will be supervised by pediatric residents rotating through the pediatric neurology service and by staff physicians throughout all aspects of the module. Offered in modules I-XII. Prerequisite: PED 900. FLD.

PED 922. Pediatric Gastroenterology. 4 Hours.
The Pediatric Gastroenterology course will provide exposure to diseases of the gastrointestinal tract, liver and pancreas in infants and children. The student will obtain histories, physicals, and present cases on all Pediatric Gastrointestinal clinic and in-patients brought in for consultations. During endoscopy, motility, and biopsy of the small bowel and liver, the student will learn the indications and technique as applies to patients they have worked up. Each student will be required to present a 30-45 minute paper on a specific Pediatric Gastrointestinal subject at the end of the course. Evaluation for the course will be based on assessment of performance of patient care and oral presentation and knowledge of literature. Prerequisite: Completion of third year. LEC.

PED 923. Developmental or Behavioral Pediatrics Elective. 2 Hours.
This 2-week course is designed to provide students with a streamlined introductions to childhood developmental, emotional, and behavioral problems. Students will also learn about normal and atypical child development. Students participate in outpatient clinics, telemedicine, and medical inpatient consultations with faculty from developmental pediatrics, psychology, speech-language, physical therapy, and occupational therapy. Expected to be offered in most Modules. One student per module. Prerequisite: PED 900 and permission of instructor. CLN.
PED 924. Pulmonology. 4 Hours.
Students will participate in the evaluation and management of infants, children, and adolescents with chronic and acute pulmonary diseases in the out-patient setting as well as performing in-patient consultations. The students will be involved directly with these patients under the supervision of the pediatric pulmonology faculty. CLN.

PED 925. Research in Pediatrics. 4-8 Hours.
Students will work on research programs arranged between them and the instructor. The purpose of the elective is to provide the student an opportunity to become familiar with clinical research involving children and pediatric problems, and to learn about research protocols and methods. Available areas of research include the newborn, cardiology, hematology, allergy, nephrology, neurology, endocrinology, infectious disease. Offered in modules I-XII. Prerequisite: Permission of instructor. IND.

PED 927. Pediatric Endocrinology and Metabolism. 4 Hours.
Students will participate in the diagnosis and management of pediatric-age patients with endocrine-metabolic problems. Emphasis is placed on the clinical problems that are unique to pediatric-age patients such as puberty, abnormalities of growth, and juvenile diabetes mellitus. Students are encouraged to become involved in patient management by participating in rounds, clinic, conferences, consultative evaluation and care of the inpatients, and other functions of the endocrinology-metabolism staff. Offered in modules I-XII. Prerequisite: PED 900. FLD.

PED 929. Allergy, Immunology, and Rheumatology. 4 Hours.
The Pediatric Immunology course will provide exposure to children with allergies, asthma, immunodeficiencies, autoimmune disease and arthritis. The approach to children with these disorders and the management of children with multisystem disease and chronic disease are emphasized. Students will be involved in the clinic and with consultations. The students will have exposure to ongoing research in these areas and will attend teaching conferences. Offered in modules I-XII. Prerequisite: PED 900. FLD.

PED 931. Nephrology. 4 Hours.
Students will participate in the evaluation and management of children with urinary tract diseases and fluid and electrolyte disorders. This elective will give the students the opportunity to develop clinical skills in assessing a child's hydration status and in assessing the effect of the child's kidney disease or metabolic disorder on other organ systems. Students will also have the opportunity to review radiologic imaging studies of the urinary tract, to perform urinalyses, and to participate in the care of patients who require acute hemodialysis, peritoneal dialysis, or continuous arterio-venous hemofiltration. Prerequisite: PED 900. FLD.

PMED 910. Special Topics in Community Health. 4 Hours.
Independent study of community health issues and their implications for or impact on the health of society. Examples include infectious disease control, immunization programs, nutrition, air pollution, over-population, wellness, health promotion and life-style change programs, cancer epidemiology, care of disabled persons, mental health programs, the terminally ill or the elderly, poverty, sports, physical fitness programs, etc. Specific content will be defined primarily by interest, background, and wishes of the student. Emphasis will be placed on the methodology used in gaining information and the means by which a health professional can translate and channel such information effectively into educational processes of the community. Prerequisite: Permission of instructor. IND.

PMED 922. Advanced Selected Topics. 4 Hours.
Special studies tailored to the interests of students wishing to further their training in one or more areas concerning clinical medicine, environmental health or delivery of health care. Epidemiologic evaluation of a disease or health related problem is encouraged. This sequence will include readings, clinical studies, and field work when appropriate, guided by frequent conferences with an advisor. The objectives of the individual student will be dissected and declared at the initiation of the sequence and the attainment measured through a terminal seminar for elective credit or brief paper designed to fulfill the communication requirement. Prerequisite: Permission of instructor. IND.

PMED 925. Public Health Experience--Kansas City, Missouri, Health Department. 4-8 Hours.
Opportunities will be presented for students to work with a state or local health department either in studying public health problems in the community (e.g. teenage pregnancy, VC, lead poisoning) or through participation to health services under the supervision of the staff. Specific
assignments will be developed individually for each student, who will meet with the instructor once per week and present a seminar at the conclusion of this experience. IND.

**P MED 950. International Health Experience. 4-8 Hours.**
Within this elective are presented opportunities for the student to gain clinical and community health experiences in an international setting. The country selected is to be rearranged by the student with the assistance of faculty. Two modules are recommended for this elective. Prerequisite: Permission of instructor. LEC.

**P MED 956. Special Experiences--Environmental/Occupational Health. 4 Hours.**
Placements will be made to provide clinical or field experiences to study the health effects of both air and water pollution and environmental hazards as these relate to occupation. Arrangements will be made with local, state, or federal agencies (e.g., the Environmental Protection Agency or the Occupational Safety and Health Administration), private clinics, hospitals, industries, unions, or other organizations. Specific assignments will be developed individually for each student, who will meet with the instructor once per week and present a seminar at the conclusion of this experience. Offered in modules I-XII. Prerequisite: Permission of instructor. LEC.

**P MED 970. Principles of Epidemiology. 2 Hours.**
Basic concepts of epidemiology and methods for identification of factors influencing health and disease in human populations. Considerations are centered on physical, biological, psychosocial and cultural factors in relation to infectious and non-infectious diseases; interactions between agent, host, and environmental factors as determinants of health and disease; application of the epidemiologic approach to health services; retrospective and prospective analysis of morbidity and mortality data. LEC.

**Psychiatry**

Chair: William F. Gabrielli Jr., M.D., Ph.D.

Through participation of the Department of Psychiatry in the interdisciplinary clinical process course, first-year students are introduced via formal presentations and follow-up small-group discussions to the following relevant topics: the medical interview; the disturbed family; death, dying and loss; childhood growth and development; human sexuality; aging; addiction; anxiety; depression; and psychosis. Clinical training includes supervised experience in the treatment of hospitalized patients and clinic outpatients, using chemotherapy, other somatic treatments, interview techniques demonstrated in regularly held seminars using videotaped case material, and in weekly case conferences. The clerkship offers a thorough didactic review of such topics as psychopharmacology, child development and psychopathology, all major psychiatric syndromes, drug abuse and alcoholism, human sexuality and sexual dysfunction, and consultative psychiatric services.

**PYCH 911. Child Psychiatry. 4 Hours.**
Normal and abnormal growth and development. Clinical assessment of children and early adolescents. Interview and play therapy. Family counseling. Group work with parents. Offered in modules I-XII. Prerequisite: PYCH 955. FLD.

**PYCH 912. Emergency Psychiatry. 4 Hours.**
Exposure to patients with acute psychiatric disturbances. Students will learn how to assess psychiatric emergencies and provide initial treatment. The course involves exposure to community resources, multidisciplinary treatment and interaction with law enforcement and the court system. Clinical experience working with physicians caring for patients in the Emergency Department. Readings in emergency patient care and discussions with the attending physician are part of the course. Patient contact with patients in the Crisis Stabilization Center of the Emergency Department. Prerequisite: PYCH 955. LEC.

**PYCH 913. Ambulatory Psychiatry. 4 Hours.**
This course involves exposure to patients followed in an ambulatory psychiatry setting. Students will have the opportunity to learn to evaluate and manage a cross section of patients with psychiatric complaints. Clinical evaluations and exposure to actual patients. Students will first observe and later lead evaluation of patients and formulate treatment plans with attending physicians. Readings in ambulatory patient care and diagnosis interviewing are a part of the course. Patients will be ambulatory clinic patients at the KUMC outpatient clinic, the Kansas City-VA Hospital Mental Hygiene Clinic, a facility clinic location, or the community mental health centers. Prerequisite: PYCH 955. LEC.

**PYCH 914. Psychiatry in Medicine and Surgery. 4 Hours.**
Experience with psychiatric consultations to the medicine and surgery services. Evaluation of psychiatric problems in medical and surgical inpatients. Students will demonstrate effective interview technique and explain the basis for diagnosis and management. Supervisors will evaluate clinical skills. Offered in modules I-XII. Prerequisite: PYCH 955. FLD.

**PYCH 915. Psychiatry in Pediatrics. 4 Hours.**
Experience with psychiatric consultations to the pediatric services. Evaluation of psychiatric problems in pediatric inpatients and outpatients. Students will demonstrate effective interview technique and explain the basis for diagnosis and management. Faculty supervisors will evaluate clinical skills. Offered in modules I-XII. Prerequisite: PYCH 955. FLD.

**PYCH 916. Introduction to Psychotherapy. 4 Hours.**
The student will observe and participate in individual and group psychotherapy sessions in outpatient as well as inpatient settings. Child and adolescent patients as well as adult patients will be involved. These psychotherapy experiences will include: 1) Inpatient group psychotherapy for adult patients with an affective disorder 2) Inpatient group psychotherapy for adult patients with a substance use disorder 3) Inpatient group psychotherapy with acting-out adolescents 4) Family psychotherapy with parents of psychiatric child inpatients 5) Outpatient adult group psychotherapy with patients suffering from panic disorder 6) Outpatient adult group psychotherapy with patients suffering from a schizoaffective disorder 7) Outpatient adult individual cognitive therapy in a family practice setting 8) Outpatient adult interpersonal psychotherapy with less psychiatrically ill patients 9) Outpatient individual diagnosis specific psychotherapy. In addition, the student will provide brief, problem-focused individual psychotherapy three times weekly to at least one patient hospitalized on the adult inpatient service under the immediate supervision of Dr. Elizabeth C. Penick that will include a review of audiotaped psychotherapy sessions. The student will be provided a list of readings which he will discuss on a weekly basis with Dr. Penick. At the completion of the program, the student will have received a broad comprehensive introduction to the more commonly used approaches to psychotherapy. LEC.

**PYCH 918. Inpatient Psychiatry. 4 Hours.**
Advanced full-time experience in hospital treatment. Includes training in individual and milieu therapy, chemotherapy, etc. The student will function as a first-year resident insofar as the student is able to assume the required responsibilities of that position. Students electing this module will be evaluated by faculty supervisors on the basis of their clinical performance and the growth of their fund of psychiatric knowledge during the module. Offered in modules I-XII. Prerequisite: PYCH 955. FLD.
PYCH 919. Continuation of Inpatient Psychiatry. 4 Hours.
Students electing this module will be evaluated by faculty supervisors on the basis of their clinical performance and the growth of their fund of psychiatric knowledge during the module. Offered in modules I-XII. Prerequisite: PYCH 900 and PYCH 918. FLD.

PYCH 920. Research in Psychiatry. 4 Hours.
An approved psychiatric research project in an area of special interest to the student may be undertaken with the individual supervision of a faculty member within the sphere of whose own professional interests the student’s topic of study lies. This elective experience will include the writing of a paper or presentation of a seminar reporting on the student’s investigation and findings. Offered in modules I-XII. Prerequisite: PYCH 900. IND.

Radiation Oncology
Chair: Parvesh Kumar, M.D.

Students are introduced to the diagnosis, staging, and management of patients with cancer. The rationale and techniques of radiation therapy are emphasized.

RADO 910. Research in Radiation Oncology. 4 Hours.
The student will engage in original research in an aspect of Radiation Oncology: clinical radiation therapy, radiation biology, or radiation physics. The exact area will depend upon the background and interest of the student, and the availability of an appropriate faculty mentor. In consultation with faculty, the student will develop a research project addressing a topic in Radiation Oncology. The student will then perform the indicated research project. At the conclusion of the project, the student will prepare a document describing the research and the findings, and will present a research seminar to the department. Student achievement will be evaluated by three endpoints. There will be a faculty assessment of the conduct of the student during the project period. Secondly, the manuscript produced by the student will be evaluated as an indication of the student’s accomplishments. Finally, the student will be evaluated by his or her performance during the research seminar and/or other scheduled presentations of the results. Prerequisite: Permission of instructor. LEC.

RADO 912. Radiation Oncology. 4 Hours.
Students will see consultations, follow up patients and on-treatment patients along with the staff. They will participate along with the faculty in simulation of patients, surgical procedures, brachytherapy procedures and other procedures that require physician participation. Students will attend conferences in radiotherapy, radiobiology, radiation physics and treatment planning conferences. They will attend site-specific multi-disciplinary and general multi-disciplinary conferences and present cases if required of these conferences. Students will be required at the end of their rotation to present to faculty, residents and staff in the department a topic in depth that involves radiation as a treatment modality. Students will be evaluated by their performance and conduct during their rotation with the faculty and by the quality of their presentation toward the end of the rotation. Offered in Modules I-XII. Prerequisite: Medical Basic Sciences and permission of instructor. FLD.

Rehabilitation Medicine
Chair: Raj Mita, M.D.

Rehabilitation medicine is concerned with the evaluation and treatment of physical impairment and disability. It is an interdisciplinary field where the physiatrist (rehabilitation physician specialist) works with a team of health professionals (rehabilitation psychologists, physical therapists, occupational therapists, speech therapists) to develop and manage individualized treatment plans to maximize the functional recovery of the disabled individual following a catastrophic illness or injury. Rehabilitation embodies the concept of adding quality to longevity, and emphasizes a holistic approach to the patient with respect to psychological, social, vocational, and avocational adaptation to disability. Students interested in experiencing first hand the interdisciplinary approach learn which patients can benefit from rehabilitation and have the opportunity to participate in patient evaluation and team management of appropriate inpatients and outpatients on a regular basis. Students who desire this type of experience find the skills and knowledge thus gained useful in many aspects of medical practice. First-year students may participate in patient evaluation and clinical discussions of patients in this department as part of the clinical process.

REHB 910. Clerkship in Rehabilitation Medicine. 4 Hours.
The student will have the opportunity to participate in the traditional evaluation and management of disease and disability as well as being oriented toward the impaired performance of function as a result of these conditions. The student will obtain histories from and perform physical examinations on inpatients with particular emphasis on evaluation of function, e.g., neurologic, kinesiologic and self-care function. He/she will be involved in the analysis and management of musculoskeletal disorders common to many situations encountered in internal medicine, family practice, neurology, psychiatry, orthopedic surgery, and neurosurgery. In addition, the student will demonstrate an understanding of methods for function restoration. Evaluation in the course will be based upon at least five (5) case work ups in which the student will present his/her evaluation of function and make recommendations regarding restoration of function. The team approach to the management of these cases will be emphasized. Offered in modules I-XII. Prerequisite: Medical Basic Sciences; 1 required clinical clerkship. FLD.

Surgery
Chair: Romano Delcore, M.D., M.B.A., F.A.C.S., Interim

The Department of Surgery offers an introduction to surgical diseases as part of the required medical science course, Junior Surgery Clerkship. After successful completion of this phase of education, electives are offered in the surgical specialties and other surgical disciplines. These courses offer more specific and in-depth exposure than the basic core course.

SURG 911. Clinical Clerkship in General Surgery--Veterans Administration Medical Center. 4 Hours.
This is a clerkship at VA Medical Center (Kansas City or Leavenworth) in which the basic principals of patient evaluation and care are emphasized. Students practice the skills of history taking, physical examination, diagnostic procedures and of direct observation of the pathologic processes in assigned patients in the clinic, wards and operating room. Students participate in appropriate surgical and multidisciplinary conferences in which clinical problems are related to basic sciences and in which the expectations and the limitations of surgical treatment are discussed in clinical situations. Evaluation is based on clinical performance. Offered in Modules I-XII. Prerequisite: SURG 900 FLD.

SURG 913. Clinical Clerkship in Plastic Surgery. 4 Hours.
The medical student participates as an intern, functioning in the clinics, wards and operating room as an integral part of the service. Evaluation is based on clinical performance. Offered in Modules I-XII. Prerequisite: SURG 900. FLD.
SURG 914. Clinical Clerkship in Orthopedic Surgery. 4 Hours.
The principles of orthopedic evaluation and care are emphasized.
Responsibility is to function as an extern in the clinics, wards and the
operating room. Evaluation is based on clinical performance. Offered in
Modules I-XII. Prerequisite: SURG 900. FLD.

SURG 916. Surgical Oncology. 4 Hours.
This rotation for medical students at a clinical level is designed to expose
the student to procedures and techniques of modern surgical oncology.
This experience includes: (1) Seeing all surgical oncology inpatient and
outpatient consultations with the staff, (2) Operating room observation
and participation with major cancer ablative procedures; e.g., radical
lymphadenectomies, pelvic exenteration, major organ resections etc.,
(3) Clinical and laboratory exposure to immunotherapy and basic cancer
immunology, (4) Exposure to special chemotherapeutic procedures; e.g.,
arterial infusion and perfusion, (5) Attendance at the combined medical
surgical conference. The specific duties for each individual student is
defined at the beginning of each module and will be changed to fit the
specific needs and desires of each student. Evaluation is based on clinical
performance. Offered in Modules I-XII. Prerequisite: SURG 900. FLD.

SURG 917. Clinical Clerkship in Urologic Surgery. 4 Hours.
This course is limited to one medical student at a time who has completed
the Basic Surgery Clerkship, Surgery 900. Experience consists of
care and evaluation of outpatients and inpatients requiring urologic
diagnosis. Tutorial instruction and conferences are the prevalent means
of instruction. Evaluation is based on clinical performance. Offered in
modules I-XII. Prerequisite: SURG 900. FLD.

SURG 918. Clinical Clerkship in Neurologic Surgery. 4 Hours.
The principles of patient care and the physiological basis of neurological
diagnosis are stressed. Experience consists of care and evaluation of
outpatients and inpatients requiring neurosurgical diagnosis and
treatment. Evaluation is based on clinical performance. Offered in
modules I-XII. Prerequisite: SURG 900. FLD.

SURG 921. Special Surgical Elective. 4 Hours.
Special clerkships or assignments not included in other elective courses
which may be prearranged with and must be approved by the Course
Director, Surgery 900, the Education Council, and the Department of
Surgery. Evaluation is based on performance as determined by the
sponsoring faculty member. Offered in Modules I-XII. Prerequisite: SURG
900 and by special arrangement with the section chief. FLD.

SURG 923. Care of Critically Ill Surgical Patient. 4 Hours.
The basic purpose of this clerkship is to provide the student with an
opportunity to observe the management of the critically ill surgical patient.
A physiological approach to the management of the surgical patient with
shock, sepsis, renal failure, respiratory and cardiac failure is stressed.
The student participates in the management and care of critically ill patients
by assisting in the interpretation of physical the laboratory findings and
proposing management responses to these findings. The student is
encouraged to participate in ongoing clinical studies. An adjacent fully
equipped laboratory is available for student use. Evaluation will be based
upon clinical performance. Offered in Modules I-XII. FLD.

SURG 925. Ambulatory Specialties Selective in Urological Surgery. 2
Hours.
To optimize the health of men, women, and children, physicians must be
able to diagnose, manage, and provide preventive advise concerning a
wide range of conditions and symptoms pertaining to the genitourinary
tract. The process depends on adequate patient assessment and
appreciation of the epidemiology and pathophysiology of individual
conditions, and the appropriate use of medical, surgical, and other
interventions. Students will be on service in two week blocks. During that
time they will participate in the following activities: Observe procedures
in-patient and out-patient, out-patient experience at KUMC at the KC-VA,
tutorial sessions, conferences, and in-patient rounds. LEC.

SURG 926. Musculoskeletal Medicine. 4 Hours.
Clinical experience in the evaluation of common orthopedic disorders
such as osteoarthritis, osteoporosis, sports injuries, and fractures;
students will be involved in out-patient orthopedic clinics, orthopedic
clinical conferences, and a directed, individualized study program.
Prerequisite: All clinical rotations. CLN.

SURG 930. Orthopedic Advanced Clerkship. 4 Hours.
The principles of orthopedic evaluation and treatment are emphasized,
through participation in the clinics, in-patient wards, and operating
room. In addition, the student will learn relevant anatomy and surgical
approaches by functioning as a prosector in the anatomy laboratory.
Evaluation is based on clinical performance and participation in the
dissections. Prerequisite: Surgery 900 CLN.

SURG 931. Rural Orthopedic Rotation. 4 Hours.
A rural orthopedic rotation in Garden City, Kansas. Students enrolled in
this orthopedic rotation can expect to receive room and board from St.
Catherine Hospital. The student will be expected to conduct themselves
appropriately in a professional office. The student would be expected
to conform to the dress code of the office. The educational experience
involves a clinical and surgical experience of general orthopedic practice
with an emphasis on joint replacement, sports medicine, and hand
surgery. The student could be expected to see patients with the attending
physician in the office. The patient would be expected to participate in
emergency room evaluations of orthopedic patients. The student would
be expected to participate in the operating room with the attending
physician. The scope of instruction would include musculoskeletal
examination, instruction on the pathophysiology of musculoskeletal
disease. A comprehensive written and video library is available for the
student’s use to aid in their education. The student can expect to learn
aspects about radiology interpretation of musculoskeletal pathology. The
student may also get experience with rehabilitation. The student will have
an exposure to issues pertaining to worker’s compensation including the
opportunity to observe at depositions. Prerequisite: This course is
appropriate for third and fourth year medical students with an interest in
learning musculoskeletal diagnosis and treatment. CLN.

Wichita Clinical Required Courses

Third Year Requirements

FCMD 950. Family Medicine Clerkship. 8 Hours.
Students are introduced to the principles and practice of family medicine.
They spend the majority of their time participating in the practice of
a private family physician where they evaluate patients under direct
supervision and recommend management. This practice experience is
enhanced by case-based seminars and skills-based workshops with
faculty and hospital call with family medicine residents. Evaluation is
based on assessment by clinical supervisors, projects, a departmental
exam, and the NBME Family Medicine Subject Exam. Prerequisites: Basic
Sciences. CLN.

GERI 950. Geriatric Medicine Clerkship. 4 Hours.
This clerkship is designed to prepare students for delivery of medical
care in the geriatrics setting. It is jointly sponsored by the Department of
Family Community Medicine and the Department of Internal Medicine.
Students spend the majority of their time in the outpatient office of
a practicing internist of family physician where they participate as a
member of the healthcare team. To introduce students to multi-disciplinary
approaches to care, they visit a variety of agencies including nursing
homes, hospice, wound care clinic, and community support agencies. These clinical experiences are augmented by web-based modules on geriatric topics, seminars on common and important medical topics and workshops. Evaluation is based on assessment of clinical performance, seminar participation, assignments and a departmental written exam. Prerequisites: Medical Basic Science. CLN.

ICM 975. Issues in Clinical Medicine. 0 Hours.
This course is designed to promote the development of professional responsibility and medical ethics. Incorporated into the topics are medical ethical theory, skills of ethical decision making and recognizing personal and professional responsibilities and value identification. The one-hour sessions are held twice a month. All third year medical students are required to attend. Prerequisite: Medical Basic Sciences. LEC.

INMD 975. Internal Medicine Clerkship. 8 Hours.
Students are assigned two four-week blocks on university general medicine services. Students are expected to acquire basic clinical skills in medicine: interview and examine patients, complete databases and clinical problem assessments, write progress notes and give bedside presentations on daily rounds, and demonstrate accountability for ward duties and patient data. Rounds with visiting professors, KUSM-W Grand Rounds, and medicine case conferences supplement regularly scheduled tutorial sessions and daily ward rounds. Students receive instruction in basic skills, i.e., ECG, chest X-ray, blood count, body chemistry interpretation. Grades are based on ward work, critical case summaries, and bedside practical exam (both pass/fail), and National Board subject examination scores. Prerequisite: Medical Basic Sciences. CLN.

NROL 950. Neurology Clerkship. 4 Hours.
The required four-week Neurology clerkship is intended to familiarize students with the diagnosis and treatment of major neurological disorders. Effective interviewing and diagnostic skills, and competent performance of the neurological examination are emphasized. Students have an active closely supervised role in the diagnosis and treatment of both hospitalized and ambulatory patients. Clinical experience is accompanied by a didactic schedule of lectures, seminars, and practical-interactive learning sessions. CLN.

OBGN 975. Obstetrics/Gynecology. 6 Hours.
During the clinical clerkship the student develops understanding of disease in women through history, physical examination, and laboratory studies. The clerkship includes study of biochemical, anatomical, and physiological changes of normal pregnancy, and the effect of disease in altering the course of reproduction. Prerequisite: Medical Basic Sciences. CLN.

PDRC 975. Pediatrics. 6 Hours.
The student will spend approximately 60 percent of the time on pediatric wards taking pediatric medical histories, physical examination of children and infants and making ward rounds with attendings and house staff. Approximately 40 percent of the student’s time will be spent in ambulatory pediatrics in general specialty clinics and in the offices of practicing pediatricians. Time will be spent in the newborn nursery. Prerequisite: Medical Basic Sciences. CLN.

PSGR 950. Psychiatry Clerkship. 4 Hours.
The required four-week basic Psychiatry Clerkship is intended to familiarize students with the diagnosis and treatment of major psychiatric disorders. Effective interviewing and diagnostic skills, and competent performance of the mental status examination is emphasized. Students have an active closely supervised role in the diagnosis and treatment of both hospitalized and ambulatory patients. Clinical experience is accompanied by a didactic schedule of lectures, seminars, and practical-interactive learning sessions. Prerequisites: Basic Sciences. CLN.

SGRY 975. Junior Surgery. 8 Hours.
This course offers the student an introduction to the surgical management of disease. Students are assigned to one of the several surgical services, where they participate fully in diagnosis, operation, and management of patients with a wide range of surgical diseases. Clinical conferences, seminars, ward rounds, and case studies supplement the clinical experience. Students participate directly in patient care on the ward, as well as in the outpatient department and operating room. Emphasis is placed on the understanding of alterations in physiology secondary to trauma, management of fluids and electrolytes, basic elements of pre- and post-operative care, and understanding diseases amenable to surgical treatment. Prerequisite: Medical Basic Sciences. CLN.

Fourth Year Requirements

PVMD 975. Population Health in Practice. 4 Hours.
This required clerkship is designed to instruct fourth-year medical students about population-based approaches to health care and to facilitate the application of epidemiologic principles to clinical decision making. Using some of the basic concepts described under the auspices of community oriented primary care, students will learn how to define specific populations, ascertain their health care needs, formulate interventions to meet those needs and evaluate the impact of those interventions. These concepts will be developed and reinforced as the student moves through a series of modules designed to provide learning opportunities about health services organization and delivery, community dimensions of medical practice, occupational and environmental medicine, health care finance, access to medical care, and quality of medical care. These modules will include didactic teachings supplemented by course reading material and workshops that involve case studies and site visits. This clerkship will allow the student to examine what it means for a physician to be part of a community and to explore the role that the community plays in the health of an individual. Prerequisite: Completion of third-year medical school curriculum. CLN.

Rural Preceptorship (4)
A preceptorship of four weeks with a practicing physician in the state of Kansas is required for graduation. Students select one of the following options to fulfill the requirement.

RLMD 976. Rural Preceptorship: Family Medicine. 4 Hours.
The student participates in the practice of a family physician in the state of Kansas. In addition, the student is asked to participate in the life of the rural community and explore the various roles a physician plays in the community. At the end of the Rural Preceptorship, the student will be able to describe the challenges and rewards of rural practice. Evaluation consists of clinical performance as assessed by the rural preceptor, and completion of a small project during the Rural Preceptorship. CLN.

RLMD 977. Rural Medicine in Internal Medicine. 4 Hours.
Rural Medicine in Internal Medicine is a four week clinical rotation during which each student works with a practicing Internal Medicine physician in the state of Kansas. Student will experience a one-to-one teaching/learning relationship in a private office (i.e., non-institutional) setting and will be exposed to both professional and non-professional aspects of the preceptor’s family and social life in a non-tertiary care community environment. The student will perform a history and physical examination on each patient and will be responsible for writing daily progress notes on each assigned patient. Student will formulate diagnostic treatment and educational plans on each patient. The student will write orders after reviewing plans with attending physician. The student will also see patients in the emergency room and present them to the attending
physician. The student will be involved in all procedures, such as treadmills, lumbar puncture, bone marrow biopsies, liver biopsies, upper GI endoscopy and flexible sigmoidoscopy on all assigned patients and other patients if appropriate. The student will be required to complete a pass/fail reflective assignment questionnaire which must be turned in to the department and reviewed by the course director. Prerequisite: Senior standing and INMD 975. CLN.

RLMD 978. Rural Preceptorship - Pediatrics. 4 Hours.
Rural Medicine in Pediatrics is a four-week clinical rotation during which each student works with a practicing pediatrician in the State of Kansas. Student will experience a one-to-one teaching/learning relationship in a private practice (i.e., non-institutional) setting and will be exposed to both professional and non-professional aspects of the preceptor’s family and social life in a community environment. Initially the student will see patients and take calls with the pediatrician. Later in the month, the student will be given some independence seeing patients. The student may write progress notes and learn to dictate discharge summaries. The student will also participate in a number of procedures such as lumbar punctures, umbilical artery catheter insertion, etc. Students may also assist in ambulance transfers from smaller communities. Prerequisite: Senior standing and PDRC 975. CLN.

Subinternships (4)
The four-week subinternship gives medical students an opportunity to become more proficient in a specific area of medicine. They provide a more comprehensive course than that of the third-year required course. Students select one of the following options to fulfill the requirement.

FCMD 998. Subinternship in Family Medicine. 4 Hours.
The student will function as a subintern at one of the three KUSM-W sponsored family medicine residency programs. - Via Christi or Wesley in Wichita or Smoky Hill in Salina. Experiences include evaluation of outpatients and inpatients and performance of procedures under direct supervision of residents and faculty. Assignments include in-hospital call and case presentations as directed by the individual residency. Evaluation is based on assessment of clinical performance and case presentations. Prerequisite: FCMD 950. CLN.

INMD 998. Subinternship in Internal Medicine. 4 Hours.
This course is designed to give the student practical experience in the hospital care of general medicine patients and patient care at the intern or R1 level. Students will perform and dictate the initial history and physical, write orders, perform indicated procedures under the supervision of a senior resident and faculty attending, and dictate discharge summaries on patients. Students will take hospital call with the senior resident, attend scheduled rounds and conferences, and function as a member of the patient care team. Prerequisite: Medical Basic Sciences and INMD 975. CLN.

OBN 998. Subinternship in Obstetrics and Gynecology. 4 Hours.
The student will become proficient in pre-and post-operative evaluation of various procedures and the management of uncomplicated and complicated obstetric problems. He/she will gain an understanding of the pathophysiology of both obstetrics and gynecologic diseases and present an oral case presentation conference with discussion to OB-GYN staff physicians along with a third or fourth year resident. Subintern will be under direct supervision of 1 to 2 OB-GYN staff physicians along with a third or fourth year resident and will have direct responsibility for orders, pre- and post-operative evaluation, including H & P and discharge summary. The subintern will be exposed adequately to call for both obstetrics and gynecology. The subintern will work up approximately 2 new patients per day. Evaluation will be made by the staff that were directly responsible for supervising the subintern along with the third or fourth year resident that was assigned to him or her. Prerequisite: Medical Basic Sciences and OBGN 975. CLN.

PDRC 998. Pediatric Subinternship. 4 Hours.
The student will participate in pediatric case management in a greater comprehensive manner than that of the general pediatric student curriculum. The student will be assigned to a pediatric resident and will participate in the clinical case load of the assigned resident. He/she will be expected to gather and analyze data as pertaining to the assigned pediatric care load. The student will perform physicals and dictate histories on assigned patients where permitted. Case load will be 1-3 patients per day. The student will formulate plan of management with written orders to be reviewed and countersigned by resident and faculty, perform indicated procedures under supervision, and dictate discharge summary of assigned patients where permitted. He/she will take call and attend scheduled rounds, pediatric clinics, and conferences with supervising resident. Evaluation will conform to the clinical assessment utilized for pediatric resident. Assessment of performance will be done jointly by supervising resident and faculty member. Prerequisite: PDRC 975 and senior standing. CLN.

PSCR 998. Subinternship in Psychiatry. 4 Hours.
This course is designed to expand the student’s experience in general psychiatry by having them assume supervised, clinical responsibility equivalent to that of an intern or PGY-1 resident. Students will perform and dictate initial history and physical examinations, formulate diagnoses and treatment plans, write orders to be reviewed and countersigned, dictate discharge summaries, participate in the evaluation and intervention of psychiatric emergencies, attend scheduled rounds, conferences, and PGY-1 didactics. Prerequisite: PSCR 950, INMD 975, SGRY 975, senior standing. CLN.

SGRY 998. Subinternship in Surgery. 4 Hours.
The student will learn to work up patients with elective surgery, acute surgical abdomen, or GI bleeding, perform fundamental diagnostic and therapeutic procedures, and assist in certain endoscopies. The student will present a patient’s clinical problems in a clear and concise manner. The student will be a part of a surgical team consisting of the attending surgeon and the senior and junior surgical residents. He/she will work up patients with the junior surgical resident and be reviewed by the attending surgeon and senior surgical resident. He/she will make daily rounds with the surgical team, scrub on all surgical procedures on his/her patients, and attend all conferences required of surgical residents (consultant rounds, surgical grand rounds, etc.). He/she will assist in the operation, attend clinics and minor surgery clinics. The student will work up approximately one new patient per day. Evaluation will be based on patient workups, technical skills, rapport with patient, paramedical personnel, and surgical team. Prerequisite: SGRY 975, INMD 975, and senior standing. CLN.

Critical Care (4)
The four-week critical care selective presents the knowledge, skills, and attitudes required to care for very ill hospitalized patients. This allows the student to focus on an interest in a particular specialty and ensures that all students have basic knowledge and skills in critical care. Students select one of the following options to fulfill the requirement.

CCSL 977. Critical Care Selective in Neonatology. 4 Hours.
This course is an overview of neonatal medicine. The student will develop skills and conceptual knowledge of newborns and premature infants. The student will also attend x-ray conferences weekly, literature review, service rounds twice daily, pediatric grand rounds weekly, and neonatal
mortality review, as well as care for infants with special emphasis on NIVU, NSCU and Continuing Care Nurseries. Prerequisite: Senior standing. CLN.

CCSL 978. Critical Care Selective in Pulmonary. 4 Hours.
The student will learn the essentials of a comprehensive history, physical exam and interpretation of chest x-rays for the patient with pulmonary disease. The student will also learn the use and basic interpretation of pulmonary function testing, cardiopulmonary exercise testing, plus other laboratory information important to pulmonary disease (sputum assessment, ABG, scanning, pulmonary artery catheterization data, etc). Emphasis will be focused toward the patient in respiratory failure for diagnosis and ventilator management. Prerequisite: Senior standing. CLN.

CCSL 979. Critical Care Selective in Pediatrics. 4 Hours.
This elective experience has been designed as a one-month rotation in the pediatric intensive care unit at Wesley Medical Center. Care will be provided to critically ill patients from the neonatal period through adolescence. During this rotation the student will receive exposure to many pediatric critical care subjects and will be expected to convey an understanding of those processes during bedside rounds, in lectures, and during actual patient care. The student will participate in the educational endeavors of the critical care service, including lectures to other students and allied critical care staff such as nurses and respiratory therapists. The student will be expected to give brief presentations on topics that are identified during patient care. Prerequisite: Senior standing. CLN.

CCSL 980. Critical Care Selective in Burn. 4 Hours.
Student will be provided hands-on experience in burn management and critical care. Student will make daily rounds, assist in surgery, and participate in pre-operative and post-operative care of patients admitted to the burn unit. Student will be supervised by faculty and residents. Prerequisite: Senior standing. CLN.

CCSL 981. Critical Care Selective in Internal Medicine. 4 Hours.
The critical care rotation will aim to provide educational opportunities to acquire knowledge of and to develop clinical competence in the field of critical care medicine. The student will learn interpretation of CXR's, EKG's, Lab/Hemodynamic data and ventilator management. The student will participate in daily morning and evening rounds, and observe and be involved in ICU procedures. The student will be exposed to the many ethical issues of critical care illness. Emphasis will be on formulation of differential diagnosis and therapeutic plan. Prerequisite: Senior standing. CLN.

CCSL 983. Critical Care Selective in Trauma. 4 Hours.
The student will learn the care of surgical patients who have experienced blunt and penetrating traumas. Student will be assigned to the trauma service and work with a critical care resident. Student will develop trauma evaluation skills by participating in trauma patient work-ups in the emergency room. Student will assist in surgery and participate in hospital rounds for trauma patients in the Surgical Intensive Care Unit. Student will also develop diagnostic skills in the ambulatory care setting and attend surgical conferences. Prerequisite: Senior standing. CLN.

Clinical Electives in Wichita

Anesthesiology (p. 1858)
Emergency Medicine (p. 1858)
Family and Community Medicine (p. 1859)

Anesthesiology

Chair: James L. Walker, Jr., M.D.

ANSL 976. Anesthesiology. 4 Hours.
This course will acquaint students with various aspects of Anesthesiology. Students will learn essentials of the pharmacology of the various potent anesthetic agents, narcotics, barbiturates, tranquillizers, muscle relaxants and local anesthetics. They will acquire knowledge of pharmacology, physiology, anatomy, and biochemistry as they relate to anesthesia and some knowledge in the mechanics and physics of anesthesia machines and gas physiology in general. Student will receive training in Acute Care Medicine and Pulmonary Medicine. Student will be exposed to intensive and respiratory care, learn mechanics of ventilators and indications for use of ventilatory support. Students will be exposed to intensive and respiratory care, learn mechanics of ventilators and indications for use of ventilatory support. Students will learn pulmonary physiology and the use of diuretics and cardiotonic agents as they pertain to respiratory support to the patient in acute respiratory failure. Students will also be exposed to regional and spinal anesthesia, learning drug doses, techniques and indications for use. Prerequisite: Medical Basic Sciences. CLN.

ANSL 995. Special Topics in Anesthesia. 1-4 Hours.
This elective is designed to provide the clinical and/or research experience in topics of special interest not otherwise represented in the curriculum. The student will design, in consultation with department faculty, specific objectives, reading assignments, and the mechanism for course evaluation. Prerequisite: Medical Basic Sciences and departmental consent. CLN.

Emergency Medicine

EMRM 976. Emergency Medicine. 2-4 Hours.
This rotation will introduce the student to the clinical practice of Emergency Medicine. The student will observe and participate as a member of the Emergency Department team, in handling a variety of patient problems and complaints, under the direct supervision of the full time Emergency physician. The student will develop patient evaluation skills, examining unscreened patients under faculty supervision. The information gained from performance of this history and physical exam will aid in the selective use of ancillary services to achieve the most efficient and effective emergency assessment in management of patients seen in the Emergency Department setting. The student will develop and improve skills in suturing, interpretation of radiographs and electrocardiograms, establishing IV lines, and other diagnostic studies and procedures commonly performed in the Emergency Department setting. The student will have clinical exposure to resuscitation techniques and problems. The student will develop an understanding of how Emergency Medicine Services relates to other departments and services. The student will assume appropriate responsibility for management of patient problems under the direct supervision of the Emergency Medicine faculty. The student’s evaluation will consist of performance observed by assigned preceptor and director of Emergency Medicine Education. Prerequisite: Medical Basic Sciences and any two of the following four: SGRY 975, INMD 975, PDRC 975, or OBGN 975. CLN.
Family and Community Medicine

Chair: Rick Kellerman, M.D.

FCMD 976. Advanced Family Medicine-Greater Wichita Region. 4-8 Hours.
This course is tailored to the individual learning objectives of the student. Experiences include evaluation of outpatients and performance of procedures under direct supervision of volunteer faculty in the Wichita metro area. Assignments for call and case presentations are directed by the individual faculty. Evaluation is based on assessment of clinical performance and case presentations. Prerequisite: FCMD 950. CLN.

FCMD 977. Advanced Family Medicine-Rural Kansas. 4-8 Hours.
This course is tailored to the individual learning objectives of the student with interest in exploration of family medicine in a rural setting. Experiences include evaluation of outpatients and inpatients and performance of procedures under direct supervision of volunteer faculty in rural Kansas. Assignments for call and case presentations are directed by individual faculty. Evaluation is based on assessment of clinical performance and case presentations. Prerequisite: FCMD 950 and RLMD 976. CLN.

FCMD 978. Clinical Problems--A Community Perspective. 4 Hours.
This course is designed to provide an opportunity for the student to define and analyze clinical problems in community terms rather than individual terms. The student is assisted in developing a population-based study, including literature review, data collection and analysis, and procedures for submitting the work for scientific publication. Evaluation is based on assessment of community research skills. Prerequisite: Medical Basic Sciences. CLN.

FCMD 979. Ambulatory Care of the Elderly. 4 Hours.
This course is tailored to the individual learning objectives of the student with interest in geriatric care. Experiences include evaluation of patients under direct supervision of volunteer faculty in a variety of settings including inpatient, outpatient, nursing home and home visits. Assignments for call and case presentations are directed by the individual faculty. Evaluation is based on assessment of clinical performance and case presentations. Prerequisite: FCMD 950 and GERI 950.. CLN.

FCMD 980. Advanced Family Medicine - A Residency Perspective. 4 Hours.
This course is tailored to the individual learning objectives of the student. However, it is designed for the student to function as a subintern at one of the three KUSM-W sponsored family practice residences - Via Christi or Wesley in Wichita or Smoky Hill in Salina. Experiences include evaluation of outpatients and inpatients and performance of procedures under direct supervision of residents and faculty. The individual residency directs assignments for in hospital call and case presentations. Evaluation is based on assessment of clinical performance and case presentations. Prerequisite: FCMD 950. CLN.

FCMD 981. Addiction Medicine. 2-4 Hours.
This elective will assist students to learn: 1) Diagnostic skills relevant to the identification of alcohol/drug dependency in patients of all ages whatever the presenting complaints 2) Management techniques including confrontation, inpatient and outpatient models of treatment, prognosis and aftercare including the role of community resources for patient and family 3) Preventive skills including an understanding of the epidemiology of addictive diseases and resources to identify and intervene with individuals and families at risk. The course will emphasize direct patient contact supported by required readings and didactic sessions with faculty members. Evaluation will be based on competence in this specialty at the end of the rotation, performance during the elective and completion of assignments. Prerequisite: FCMD 950. CLN.

FCMD 982. Sports Medicine. 2-4 Hours.
This course exposes medical students to the primary care/non-operative aspects of sports medicine. During this course, students will develop skills in the evaluation and management of athletes of all ages and athletic abilities who participate in a variety of sporting activities. The Sports Medicine course is offered at the KUSM-Wichita Family Medicine Residency at Via Christi Regional Medical Center in the Sports Medicine Center (located on the St. Joseph campus). The clinical component of the program includes examination and treatment of athletes in the clinic, at the training room, and on the field. The student will be exposed to high school, college, and professional athletes. They will become familiar with the injuries and illnesses commonly seen by a team physician. Upon completion of the course, students will have a basic understanding of the skills to: * Conduct a preparticipation sports exam * Prevent sports-specific injuries * Evaluate and treat injuries and illnesses in athletes * Design home rehabilitation programs for sports injuries * Design criteria for safe return to sports * Order appropriate diagnostic laboratory and radiologic tests and interpret the findings * Apply casts and splints * Work effectively with athletic trainers, personal trainers, physical therapists and other health care professionals involved in the care of athletes * Advise athletes on strength training, cardiovascular fitness, exercise prescription, and sports nutrition. Medical students will be expected to participate in small group discussions on aspects of Sports Medicine by doing selected readings assigned by the course director. Students will also participate in patient care along with physicians (including residents), athletic trainers, and physical therapists in the clinic, in training rooms, and at athletic events. Prerequisite: Senior Standing. CLN.

FCMD 983. In-Patient Maternal Care. 2 Hours.
This course is designed for fourth-year students who desire further experience in maternal care in a Family Medicine setting. The student will be assigned shifts three nights per week. During these shifts, the student will attend rounds and lectures and will be involved in the management of labor and delivery patients with Family Medicine residents and attending physicians. The student will also attend Maternal Care lectures and will complete readings assigned by the course director. The course is offered October, November, December and January. Prerequisites: FCMD 950 and senior standing. CLN.

FCMD 984. Care of the Underserved, Sedgwick County. 2-4 Hours.
This course exposes medical students to the primary care of patients in Sedgwick County who are generally regarded as underserved due to low socioeconomic level, minority status, culture and/or homelessness. Clinically, the student will increase awareness, apply knowledge and practice problem-solving skills in the care of patients who are underserved. Most have limited socioeconomic resources and support systems. The student will develop an understanding of health care disparities and the role of the medical home in reducing disparities of care. The rotation is conducted at GraceMed, a federally qualified health center in Wichita. CLN.

FCMD 995. Special Topics in Family and Community Medicine. 2-8 Hours.
This elective provides an opportunity for clinical and/or research experience in topics of special interest not otherwise represented in the curriculum. Examples include Occupational Medicine, and Ambulatory Procedures. The student, in consultation with departmental faculty, will design specific objectives, activities, reading assignments, and the mechanism for course evaluation. Prerequisite: Departmental consent. CLN.
**Internal Medicine**

Chair: Jon P. Schrage, M.D.

**INMD 977. Pulmonary Medicine. 4 Hours.**

Students will work at a subintern level with pulmonary disease patients on the service of the assigned pulmonary specialist, participate in consultations, work in the Intensive Care Unit, and by special arrangement in the Pulmonary Function Laboratory. Prerequisite: INMD 975. CLN.

**INMD 979. Endocrinology. 4 Hours.**

Student will learn to appreciate the normal physiology and pathophysiology of selected diseases of the endocrine glands. In this brief encounter he or she will study in particular thyroid abnormalities as a model of the altered homeostasis occurring in endocrinopathies. Patients with diabetes mellitus will be encountered and the reference to metabolic perturbation of the acute and chronic complications of the same. Less common problems will be assigned when patients are available. The student will be expected to attend and participate in two seminars weekly along with the resident on the endocrinology rotation. There are two to four new work-ups weekly among hospital patients and selected outpatients with individual patient follow-ups as required. Performance will be evaluated by the faculty on written departmental forms. Critical review of clinical ward and outpatient activities will equal 100 percent of the grade. An in-depth topical summary may be submitted for extra credit consideration (not required). Prerequisite: INMD 975. CLN.

**INMD 981. Rheumatology. 4 Hours.**

Medical students completing a four-week elective in Rheumatology should be able to: 1) Perform a complete history and physical, with emphasis on the those items (e.g., skin, joints) related to rheumatic disorders; 2) Aspirate the knee; 3) Identify urate and calcium pyrophosphate dihydrate crystals in synovial fluid; 4) List: a) historical and physical findings; b) X-ray findings; c) modes of therapy for rheumatoid arthritis, degenerative joint disease, gout, lupus and ankylosing spondylitis. Outpatient and inpatient clinical performance = 100% of grade. Students will be evaluated on the basis of meeting objectives 1-4 listed above. Prerequisite: INMD 975. CLN.

**INMD 982. Hematology/Oncology. 4 Hours.**

The student will learn the "team approach" to patient care, involving the patient and family and other caregivers. Students will learn to examine and interpret a peripheral smear. Students will also learn: the fundamentals of bone marrow examination, the approach to evaluation of anemia, the approach to patients with suspected malignancy and the rationale behind chemotherapy, the evaluation of coagulopathies, thrombotic states, bleeding disorders, nutritional deficiencies, and blood therapy. Students will learn the natural history of common malignancies, to perform therapeutic phlebotomy, bone marrow aspiration, and how to interpret biopsy, bleeding time, and bone marrow pathology. Students will perform patient work-ups, attend conferences, and rounds, including interaction with the team (nurses, chaplains, social workers, occupational therapists, volunteers). Prerequisite: INMD 975. CLN.

**INMD 984. Nephrology. 4 Hours.**

Students will be assigned patients at a sub-intern level from the inpatient renal consultation services and the inpatient and outpatient hemodialysis services. Renal physiology and pathophysiology will be emphasized plus complicated fluid and electrolyte problems. Prerequisite: INMD 975. CLN.

**INMD 985. Infectious Disease. 4 Hours.**

The student will: 1) Learn about management of postoperative infection, CNS infection, pulmonary infection, sepsis, fungal infection, etc. 2) Learn data analysis techniques of infectious diseases specialist and how (generally) microbiology laboratories work. 3) Learn principles of antibiotic, antifungal, and antiviral therapy. Students are to attend infectious diseases conferences. Students will see patients primarily admitted to the Infectious Disease Office and work with selected educational consultants. They will attend noon medicine conferences and grand rounds at the assigned hospital. They will be supervised by one physician. Students will have contact with 3 to 5 new patients a week plus follow-up 3 to 4 patients. Clinical ward performance = 100% of grade. Student performance will be evaluated by faculty on written departmental forms to assess: history-taking ability, expertise in performing physical exams, formulation of clinical judgment, diagnostic approach, rapport with nursing staff and fellow physicians. Prerequisite: INMD 975. CLN.

**INMD 986. Physical Medicine and Rehabilitation. 2-4 Hours.**

The student should develop a working knowledge of the physiatric evaluation, including manual muscle testing, examination of joints, neurologic evaluation, evaluation of functional level. The student should achieve a basic familiarity with neuromuscular diseases, CVA, joint problems, amputee management, head injury, and spinal cord injuries, as well as the rehabilitation goals and therapies as applied to the above. The student will be involved in the initial evaluation and diagnostic workup of selected patients, including EMG's, X-rays, scans, lab tests, as well as the physical examination with emphasis on the physiatric evaluation. There will be student involvement in the management of patient progress. The student will participate in inpatient rounds, consultations, and outpatient evaluations. He/she is expected to be a participating member of the rehabilitation team and to work closely with the nurses, therapists, and physicians. The students will be evaluated on the basis of their clinical skills, knowledge of the interest in the field, rapport with patients, and participation as a member of the rehabilitation team. Clinical ward performance = 100% of grade. Prerequisite: INMD 975. CLN.

**INMD 987. Neurology. 4 Hours.**

The clerk will serve at a subintern level under supervision of a resident and attending staff. Clinical examination of patients and management of neurologic disorders will be emphasized. Prerequisite: INMD 975. CLN.

**INMD 988. Gastroenterology. 4 Hours.**

Services are available for concentrated experience in gastrointestinal disease problems with student participation in diagnostic work-up, including various endoscopic procedures and management of clinical problems. Prerequisite: INMD 975. CLN.

**INMD 989. Dermatology. 2-4 Hours.**

This service is centered in the private offices of dermatology groups where the student will observe and participate in treating a wide variety of dermatologic problems. The emphasis is on common problems, those relating to systemic disease, and principles of dermatologic therapy. Prerequisite: INMD 975. CLN.

**INMD 991. Cardiology. 4 Hours.**

Student will learn 1) Evaluation and therapy of clinical cardiology patients, 2) Proficiency in physical diagnostic techniques, 3) Introduction to non-invasive cardiology, including EKG, stress testing both exercise treadmill and nuclear procedures, M-Mode, and two dimensional echocardiography, 4) Direct hands-on invasive procedures on patients that the attending works up, as well as other selected patients, 5) Intensive care experience, including management and proficiency in dealing with acutely ill cardiac patients, and ascertaining the ability to use hemodynamic monitoring and intensive care treatment such as drugs, intra-aortic balloon, etc. Experience with both in-patients and outpatients will be offered. Primary emphasis will be placed on learning basic cardiography and sharpening skills. Student will work with 3 to 5 patients per week. Clinical ward performance = 100% of grade. Student performance will be evaluated by faculty on written departmental forms to assess:
Obstetrics and Gynecology

Chair: David A. Grainger, M.D., M.P.H.

OBGN 976. General Obstetrics and Gynecology. 4-8 Hours.
Supervised experience in labor and delivery, gynecologic surgery, and in-hospital management of the OB-GYN patient will be given. Scheduled conferences include weekly case conference and didactice lectures on Wednesday morning. Daily teaching and working rounds with attending staff will likewise be a very important part of the clerkship. Clinics meet daily. Deliveries/month: 325 (60 clinic); operations/month: 500 (60 clinic). Prerequisite: OBGN 975. CLN.

OBGN 977. Maternal-Fetal Medicine. 4 Hours.
The student will develop skills in assessment of high-risk obstetric and neonatal patients and will be a participating member of the perinatal transport team. Through development of a scientific paper on perinatal medicine (the specific subject to be determined in advance by the course director and student), the student will be able to illustrate his or her expanded knowledge in this subspecialty. The student on this elective will attend a weekly high-risk follow-up clinic, make rounds in the neonatal intensive care and intermediate nurseries with the assigned staff and resident physicians. The student will be on call for the perinatal transports team of obstetric and neonatal transports by ground and air, be on twenty-four hour birth room call every fourth night, devoting this call time to the delivery rooms. The student will attend all obstetric and neonatal conferences, attend a weekly conference with perinatologists and neonatologists, be invited on outreach education programs, and effort will be made to follow high-risk patients through labor-delivery-postpartum and neonatal care. The student will be evaluated by the supervising staff physician on patient care and on the completed paper on perinatal subject. Prerequisite: OBGN 975 and PDRC 975. CLN.

OBGN 979. Gynecologic Oncology. 4 Hours.
The objectives of this course for a senior medical student are as follows: 1) to introduce the student to gynecologic malignancies, their presenting symptoms, their evaluation, and treatment thereof; 2) management of treatment complications including management of chemotherapy problems and radiation problems; 3) management of medical problems associated with progressive malignancies. Prerequisite: OBGN 975. CLN.

OBGN 995. Special Topics in Obstetrics. 2-8 Hours.
This elective is designed to provide clinical and/or research experience in topics of special interest not otherwise represented in the curriculum. The student will design, in consultation with department faculty, specific objectives, reading assignments, and the mechanism for course evaluation. Prerequisite: Departmental consent. CLN.

Ophthalmology

OTHO 976. Ophthalmology. 2 Hours.
The rotation is designed to familiarize the student with the private office and surgical procedures of a practicing ophthalmologist. Students will learn proper use of an ophthalmoscope and how to perform the ocular exam. Students will observe surgical procedures, and participate in hospital rounds and private office visits. The student will be directly involved in all patient care as provided by the assigned ophthalmologist. Prerequisite: Medical basic sciences. CLN.

Otorhinolaryngology

OHIN 976. Otolaryngology–Ears, Nose, Throat. 2 Hours.
Students will observe the activities of a practicing otorhinolaryngologist and participate in the management of patients with ENT disorders. Students will observe and perform the examination of the anatomical areas and cavities of the head and neck. Students will accompany the assigned physician on all hospital rounds during office hours and when possible, observe surgical procedures. Prerequisite: Medical basic sciences. CLN.

Pathology

Chair: Thomas Kruzak, M.D.

Palo 975. Introduction to Clinical Pathology - St. Joseph. 4-6 Hours.
This elective serves to enhance the student's awareness of the role of the clinical laboratory in patient management. At the end of the elective, the student will be able to: 1) Describe the general methodology, interpretation and clinical implication of commonly ordered laboratory tests, 2) Suggest a planned approach to laboratory test, when given a patient's problem. An effort will be made to tailor the elective experience to the needs and interests of the individual student. If no specific interests are identified, a general elective will be arranged consisting of short rotations in the several clinical laboratory sections under the tutelage of supervisors, instructors, and pathologists. In each section, the student will observe testing procedures and may perform selected analyses at the discretion of the supervisor. Details of methodology will not be stressed, rather the emphasis will be on general principles, sampling, and interpretation. The student will attend daily departmental gross anatomic pathology conferences and didactic presentations in both anatomic and clinical pathology. The student will be encouraged, but not required to attend extra departmental conferences, such as the daily family practice noon conference. (Observation and participation in autopsies is also optional, but encouraged. The student may choose to spend time in surgical pathology or cytopathology.) The student will be required to make a formal presentation during the last week of the elective. This may consist of a case presentation with discussion of pertinent laboratory findings or the student may elect to present an analysis of a particular laboratory testing procedure, theory, or problem. Evaluation will be based upon the student's knowledge, acquisition, interest, and participation. Prerequisite: Medical Basic Sciences. CLN.

Palo 977. Laboratory Medicine. 4 Hours.
Several options are offered to the student within the Department of Laboratories as follows: 1) A general survey of Laboratory Medicine, including opportunities to view and assist in autopsies, a study of surgical pathology, some exposure to interpretation of immunonelectrophoretic studies, bone marrows, and other laboratory parameters of interest to
medical students. 2) More selective and deeper evaluations such as the entire time in anatomic pathology including autopsy and surgical pathology. 3) Programmed courses of experience in chemistry, hematology, or microbiology. It is anticipated that the student will make preliminary contact with a member of the department indicating his or her interest and type of program he or she would like to be exposed to. The student will have the opportunity to attend the morning and afternoon conferences offered daily by the department together with the noon conferences offered by the general medical staff. It is hoped that the experience will be a pleasant and informative one and the student, as a possible pathology resident, will have the opportunity to survey the general field of pathology in a large institution primarily devoted to service and developmental pathology. Students are evaluated by the pathologist or medical technologist in the area which they are working and a report of the student’s performance is submitted to the Medical School. Prerequisite: Medical Basic Sciences. CLN.

PALO 978. Introduction to Surgical Pathology. 4-6 Hours. The student will understand and be able to describe orally, the role of the surgical pathologist in the diagnosis and treatment of common disorders, including: 1) breast masses, 2) suspicious mammographic lesions, 3) mass lesions of the lung, 4) enlarged lymph nodes, and 5) thyroid nodules. Differential diagnosis will be discussed. Using microscopic slides, the student will correctly identify major common surgical lesions of the breast, lung, lymph nodes, thyroid and colon. The student will describe how an intraoperative consultation is conducted, including the frozen section evaluation of resected tissue. The student will be assigned to work with a particular surgical pathologist in two-day blocks. On day 1 the student and pathologist will be in the operating room, performing intraoperative consultations, frozen sections and dissecting tissues removed at surgery. On day 2 they will examine the microscopic slides from selected cases received on the previous day. Depending upon the individual student’s areas of major interest, he/she will accompany pathologists who perform fine needle aspiration biopsies and assist in their evaluation. The student will attend departmental conferences. Students will be evaluated according to the objectives above. Prerequisite: SGRY 975 or OBGN 975. CLN.

PALO 979. Introduction to Clinical Pathology - Wesley. 4 Hours. Given a description of history and physical findings, the student will be able to select from a panel of tests those which, in the opinion of the faculty, would be most suitable for diagnosis management. The student will list no less than 5 legitimate reasons for performing laboratory tests and will discuss each of these using specific examples. The student will list no less than 4 conceptual definitions of “normal” and discuss the implications of each using specific examples. The student, using his/her understanding of the statistical nature of laboratory data, will discuss concepts of accuracy, precision, errors and clinical significance in 5 common laboratory tests of the student’s choice. An effort will be made to tailor the elective experiences to the needs and interests of the individual student. In general, students will rotate through most areas of the clinical laboratory, and will gain experience in specimen collections, processing, test methodologies, and clinical interpretation. Students will report to their assigned areas by 7:30 a.m. and carry out assigned tasks then meet a member of the faculty in the late afternoon to go over the day’s work and to discuss the clinical correlation of the tests reviewed that day. Students will attend the Departmental Teaching Conferences. Attendance at other clinical conferences, usually held at noon, is encouraged, but not required. Students will attend Medicine Morning Report with the Staff Pathologist each day at 8:00 a.m. Students will make one presentation at a Clinical Pathology Conference during their last week of rotation which may consist of a short lecture and a particular test or a patient presentation. The quality of the presentation will be evaluated and will form 50% of the grade. The other 50% will be determined from questions asked at the end of the presentation as determined by the objective given above. Prerequisite: INMD 975 or SGRY 975 or PDRC 975 or OBGN 975. CLN.

PALO 980. Introduction to Forensic Pathology. 2-4 Hours. The student will understand and be able to describe orally, the basic principles of the medicolegal autopsy through observation of postmortem dissections and assisting the forensic pathologist. The student will learn the principles of death scene investigation. The student will appreciate the importance of toxicology in the correct determination of cause and manner of death through the interpretation of toxicology reports and consultations with the chief forensic toxicologist. The student will understand the role of physical evidence collected at the scene and autopsy as it pertains to the determination of cause and manner of death. The student will be assigned to the autopsy suite and will be supervised by the on-duty designated forensic pathologist. As time permits the student will accompany the coroner or deputy coroner to court to observe trial testimony. Students will be evaluated according to the objectives listed above. Prerequisite: Medical basic sciences. CLN.

Pediatrics

PDRC 976. General Pediatrics. 4 Hours. This is a four-week continuation of the basic pediatric clerkship for those students interested in additional pediatric experience. The program is flexible and should be arranged individually with the departmental chair. The experience may be either an inpatient or ambulatory experience or a combination of both. This experience carries with it increased responsibilities for patient care in areas selected by the student and arranged with the pediatric staff. Prerequisite: PDRC 975. CLN.

PDRC 977. Neonatology. 2-4 Hours. The student will learn overview of neonatal medicine and develop skills and conceptual knowledge of newborns and premature infants. The student will attend X-ray conferences weekly, daily literature review, service rounds twice daily, pediatric grand rounds weekly and neonatal mortality review, as well as care for infants with special emphasis on NICU. Prerequisite: PDRC 975. CLN.

PDRC 978. Ambulatory Pediatrics. 2-4 Hours. This elective involves increased exposure to community and ambulatory pediatrics utilizing community resources including the pediatrician’s office, the Public Health Department, Wesley Pediatric Clinic, Institute of Logopedics and other community resources. The program is flexible and can be broadly based in several areas or strictly confined to one area such as a continuous experience in the office of a community pediatrician. The program will be individually arranged with the department chairperson and the pediatric staff. The standard Elective Evaluation form will be utilized for the course. Prerequisite: PDRC 975. CLN.

PDRC 979. Medical Genetics. 2-4 Hours. This elective is designed to give the medical student the opportunity to participate in the genetic evaluation of children with developmental delay, mental retardation, dysmorphic features or autism. By the end of the rotation the student will be familiar with common pediatric genetic syndromes and appropriate genetic testing strategy. The student will also get the opportunity to participate in telemedicine genetic clinics. Prerequisite: PDRC 975 or INMD 975. CLN.

PDRC 980. Pediatric Endocrinology. 2-4 Hours. During the elective the student will learn diagnosis and management of endocrine problems in children. The student will participate in inpatient management, hospital and office consultation, and in a weekly endocrine clinic. Emphasis will be on the management of diabetes in children. Additional experience may be arranged through the Pediatric Department
with other endocrinologists in the community. Prerequisite: PDRC 975. CLN.

**PDRC 981. Diabetes. 2-4 Hours.**
The student will learn to recognize and manage simple inpatient and outpatient problems related to controlling blood glucose levels in children and adults, discuss the psychosocial adaptation to their chronic illness, and perform as well as educate others in specific procedures involved in self care. The student will see patients with diabetes mellitus in the hospital clinic, attend team meetings, attend counseling staffing, do assigned readings, and report to the faculty. Evaluation of this clerkship will be based on rounds, conferences, lectures and performance on patient workups in hospital and in the clinic. Prerequisite: INMD 975 and PDRC 975. CLN.

**PDRC 982. Pediatric Hematology/Oncology. 2-4 Hours.**
The student will obtain histories, do physical examinations, write progress notes, conduct in-depth consultations regarding pediatric hematology and oncology problems, and will develop skills in diagnosis and therapy of pediatric oncology patients. The student will demonstrate knowledge of various procedures, such as bone marrow aspiration, administration of chemotherapy, and intrathecal medication. Prerequisite: PDRC 975. CLN.

**PDRC 983. Pediatric Critical Care. 4 Hours.**
This elective experience has been designed as a one-month rotation in the pediatric intensive care unit at Wesley Medical Center. Care will be provided to critically ill patients from the neonatal period through adolescence. Availability of the elective will be limited to one student per month, with possible exceptions based on the student’s own objectives and educational needs. During this rotation the student will receive exposure to pediatric critical care subjects, and will be expected to convey an understanding of these processes during bedside rounds, in lectures, and during actual patient care. The student will participate in the educational endeavors of the critical care service, including lectures to other students and allied critical care staff such as nurses and respiratory therapists. The student will be expected to give brief presentations on topics which are identified during patient care. The student’s final evaluation will be based primarily on the expression of an increased understanding of and confidence in the management of the diseases encountered in the PICU. Prerequisite: PDRC 975 and approval of instructor. CLN.

**PDRC 984. Pediatric Allergy. 2-4 Hours.**
Primarily a private office experience under the supervision of the physician, emphasizing an immunologic approach to allergy problems in pediatric patients. Prerequisite: PDRC 975. CLN.

**PDRC 985. Pediatric Cardiology. 2-4 Hours.**
Extensive clinical experience in children with cardiac disease will be provided. Daily pediatric cardiology ward rounds are conducted by the senior staff. Personal instruction will be given in cardiac physical diagnosis with stress on cardiovascular hemodynamics, evaluation of heart sounds and murmurs, electrocardiograms and cardiac radiology. Significant responsibility in patient management will be delegated to the student who will function as a member of the pediatric cardiology team. Ample opportunity will be available for participation in clinical investigative projects if the student so desires. Prerequisite: PDRC 975. CLN.

**PDRC 986. Pediatric Neurology. 2-4 Hours.**
The purpose of this elective is to acquaint the student with the wide spectrum of neurological diseases of infancy, childhood, and adolescence. The student will become familiar with the neurological examination of the newborn as well as the assessment of the infant and child. During the elective course the student will become actively involved in the diagnosis and treatment of seizure disorders. He or she will be exposed to routine laboratory procedures such as lumbar puncture, EEG and brain scan, as well as special procedures such as arteriography and pneumoencephalography. The student will be supervised by staff physicians and pediatric residents. Prerequisite: PDRC 975. CLN.

**PDRC 987. Developmental Pediatrics. 2-4 Hours.**
Students will become familiar with normal developmental patterns and will demonstrate the ability to perform and interpret developmental screening tests. Students will be able to recognize aberrant patterns of development in an individual child and gain understanding of intervention services that are available for children with developmental delays. Students will be involved in the Development Clinic, Neonatal Follow-up Clinic, Heartspring (residential school for multiple handicapped children), and Rainbows United (early intervention provider for children under 5 years of age). These sites will allow the student exposure to a variety of children, with both normal development and those with behavioral and/or developmental problems. CLN.

**PDRC 988. Pediatric Infectious Disease. 2-4 Hours.**
This course is designed to familiarize students with infectious diseases of pediatric patients. Students will learn the rational selection of antimicrobials and their appropriate uses and recognize the reasons for failure of antimicrobial therapy. Students will learn basic immunology and both active and passive immunization. Students will learn the pathogenesis of fever and to recognize the common pediatric pathogens causing meningitis, bacteremia, respiratory tract infections, enteric infections and urinary tract infections. Students will attend outpatient clinics, daily hospital rounds on in-patients and new consultations, and daily meetings to discuss infectious disease topics. *Recommendation: Candidates for Med/Peds residency should enroll in 2 weeks of this course and 2 weeks INMD 986, (Adult) Infectious Disease. CLN.

**PDRC 989. Pediatric Emergency Care. 2-4 Hours.**
The student will spend time at the Pediatric Emergency Department, working closely with the faculty. Teaching and supervision is provided by board certified emergency medicine physicians and internal medicine/pediatrics physicians with faculty positions in the Department of Pediatrics. Expectations include participation in didactic instruction and patient carte, literature searches of material as assigned or necessary for management of patients, understanding of evidence-based medicine in the care pediatric emergencies and participation in emergency department procedures under the guidance of the attending. The goals are for the student to become familiar with various pediatric emergencies, as well as understanding other situations in which children are brought into the ED. Prerequisite: PDRC 975. CLN.

**PDRC 990. Pediatric Nephrology. 2-4 Hours.**
During this elective, the student will learn to recognize and manage inpatient and outpatient problems related to pediatric nephrology. Participation in clinic, as well as hospital consultations will be involved, as well as reading assignments/discussions with faculty. Teaching and supervision is provided by a full-time, board certified pediatric nephrologist. A basic understanding of pediatric nephrology is essential to the pediatrician in general practice who will need to recognize a child suffering from a renal condition, manage those that generally do not require referral, and initiate management of those that will need the intervention of a nephrologist. Expectations include participation in daily instruction and patient care, literature searches of material as assigned or necessary for management of patients, and understanding of evidence-based medicine in the care of the nephrology patient. Prerequisite: PRDC 980. CLN.

**PDRC 995. Special Topics in Pediatrics. 2-8 Hours.**
This elective is designed to provide clinical and/or research experience in topics of special interest not otherwise represented in the curriculum. The student will design, in consultation with department faculty, specific
objectives, reading assignments, and the mechanism for course evaluation. Prerequisite: Medical Basic Sciences and Departmental consent. CLN.

Preventive Medicine and Public Health

Chair: Tracie Collins, M.D., M.P.H.

PVMD 976. CLARION. 2-4 Hours.
Students who participate in CLARION will develop a deeper understanding of healthcare as a system that requires highly performing interprofessional teams to achieve the six aims outlined by the Institute of Medicine. These aims include care that is safe, timely, equitable, effective, efficient and patient centered. Students will study with other students from other health professions disciplines under the direction of interprofessional course faculty and invited members of the community who will guide discussions each week to prepare students for analyzing and developing solutions to a fictional healthcare sentinel event. CLN.

PVMD 995. Special Topics in Preventive Medicine. 2-8 Hours.
This elective is designed to provide clinical and/or research experience in topics of special interest not otherwise represented in the curriculum. The student will design, in consultation with Departmental faculty, specific objectives, reading assignments and the mechanism for course evaluation. CLN.

Psychiatry and Behavioral Sciences

Chair: Lyle Baade, Ph.D., Interim

PSCR 978. Child Psychiatry/Adolescent Psychiatry. 2-4 Hours.
The course will familiarize students with common psychiatric diagnoses and therapies for children and adolescents. Students will observe and participate in the evaluation and treatment of children and adolescents in inpatient, outpatient, and residential settings. They will attend staffings, family meetings, and relevant conferences. Faculty will provide supervision. Prerequisite: PSCR 950. CLN.

PSCR 979. Advanced Studies in Psychiatry. 2-8 Hours.
This course allows students to expand their knowledge and experience in Psychiatry with rotations of their own choosing. Experience can be modified to fit the individual’s interests and needs. All students will have the core experience (attendance at Grand Rounds, Journal Club and readings assigned by Clinical supervisor). Students may choose one training site for four to eight weeks, subject to availability of supervision. Scheduling should be arranged with the Psychiatry Clerkship Director. Written evaluation by supervisor at the end of the course. Supervisor’s evaluation comprises 100% of the grade. Prerequisite: PSCR 950. CLN.

PSCR 980. Geriatric Psychiatry. 2-4 Hours.
The student will experience caring for elderly and often medically ill patients with psychiatric symptoms and diagnoses on an acute geropsychiatry hospital unit, in outpatient settings, and in the nursing home and assisted living environment. Experience will be gained in assessing and managing complex medical and psychiatric conditions in elders. Objectives include: 1) Increase awareness of the common psychiatric conditions in elders. 2) Improve ability to assess, diagnose and treat common psychiatric conditions in elders who commonly have co-morbid medical conditions. 3) Understand the impact of the elder’s environment on psychiatric symptoms, and the necessity of managing the elder within the context of the psychosocial environment, especially the family unit. 4) Improve ability to manage complex pharmacotherapy. Teaching Methodology includes bedside clinical rounds, geropsychiatry small group discussions, lectures and assigned readings. Patient contact would include elderly patients with common psychiatric conditions - affective disorders, dementias, anxiety disorders, psychotic disorders and comorbid medical conditions, acute care hospital geropsychiatry unit, outpatient clinic, and long term care facilities. Evaluation will be completed by supervisor. Prerequisite: PSCR 950 and INMD 975. CLN.

PSCR 981. Consultation/Liaison Psychiatry. 2-8 Hours.
The objective of this course is to improve the student’s knowledge and skills in evaluating patients with both psychiatric and medical illnesses in inpatient and outpatient settings, making recommendations, and communicating with referring physicians. These objectives will be met by direct patient contact, individual supervision, assigned readings, and attendance at conferences. Prerequisite: PSCR 950 and INMD 975. CLN.

PSCR 985. Clinical Psychopharmacology. 2-8 Hours.
The purpose of this elective is to obtain intensive and in-depth experience with the medical management of a variety of psychiatric disorders. During this rotation, the student will come in contact with patients suffering from a variety of psychiatric disorders and will gain further experience with a medical model approach to the management of these disorders. The student will learn basic pharmacokinetis principles which are broadly applicable to the pharmacologic management of patients with both psychiatric and non-psychiatric disorders. The student will learn pharmacodynamic principles and clinical neuroscience principles which are of special relevance to clinical psychopharmacology. Effort will be made to tailor the elective to maximize the exposure to a particular area or diagnosis, based on student interest. The student may choose to be involved in ongoing clinical psychopharmacology research, including an exposure to drug development and testing. Prerequisite: Pharmacology (2nd year) and PSCR 950. CLN.

PSCR 987. Outpatient Psychiatry. 2-8 Hours.
The objective of this course is to increase the student’s depth of knowledge regarding psychiatric disorders as they present in an outpatient setting. Emphasis will be on clinical skills including the psychiatric interview and diagnostic process and gaining a longitudinal perspective on psychiatric illness. In addition, the student will be introduced to psychotherapy theory and skills. Students will attend departmental academic events, teaching conferences and participate in intake evaluations performed by psychiatry residents. They will also participate in observing a selected number of ongoing cases in conjunction with residents. Students will evaluate patients for intake early in their rotation and follow these cases throughout their rotation. Prerequisite: PSCR 950. CLN.

PSCR 995. Special Topics in Psychiatry. 2-8 Hours.
This elective is designed to provide clinical and/or research experience in topics of special interest not otherwise represented in the curriculum. The student will design, in consultation with department faculty, specific objectives, reading assignments, and the mechanism for course evaluation. Prerequisite: Medical Basic Sciences and departmental consent. CLN.

Radiology

Chair: Charles McGuire, M.D.

RAD 976. Radiology. 4 Hours.
An elective in radiology will consist of four weeks, time to be spent in the hospital of the student’s choice. Most of the time spent by the student during the elective will be in diagnostic radiology but if the
This clerkship is directed toward providing a variety of experiences in the field of plastic surgery. The student will participate in evaluating and treating outpatients and inpatients in a private office and hospital setting. The student will be involved with history taking, physical examination, and evaluation of patients preoperatively. Attendance in the operating room will be emphasized as well as postoperative management of plastic surgery problems. The student will be introduced to the basic concepts of hand surgery ranging from acute surgical problems to that of congenital abnormalities. Complete care of the burn patient will be stressed. Tumors of the skin, head and neck, and congenital anomalies of the hands and face will be covered. Facial trauma and esthetic surgery will also be included in the curriculum. Prerequisite: SGRY 975. CLN.

**SGRY 978. Orthopedic Surgery. 2-4 Hours.**
Emphasis will be placed on the principles of orthopedic evaluation and care through obtaining a history, performing a physical examination, and outlining management on assigned orthopedic patients. The student’s responsibilities will include rounds with attending orthopedic surgeon or the resident, clinic or office rotation and several orthopedic conferences and assigned lectures. Prerequisite: SGRY 975. CLN.

**SGRY 979. Cardiothoracic Surgery. 2-4 Hours.**
This clerkship is designed to give the student familiarity and basic understanding of cardiopulmonary disease entities with emphasis on pathophysiology, diagnosis, and management. Conferences as well as rounds with attending surgeons and resident staff comprise the essential part of this clerkship. Patients will be assigned to students for workup on a regular basis not to exceed three patients a week. Prerequisite: SGRY 975. CLN.

**SGRY 980. Burn and Critical Care. 2-4 Hours.**
This course will provide hands-on experience in burn management and critical care. The student will be assigned to the Burn Unit at Via Christi Regional Medical Center - St. Francis Campus. He/She will make daily rounds, assist in surgery, and participate in preoperative and postoperative care of patients admitted to the Burn Unit. He/She will be supervised by faculty and surgery residents. Patient Contact: 5-10 patients/day (inpatient and outpatient). Evaluation: Use form for clinical assessment and personal skills (Department of Surgery form currently being used). Prerequisite: SGRY 975. CLN.

**SGRY 981. Neurosurgery. 2-4 Hours.**
This elective will provide an in-depth exposure to neurosurgery. Student will have daily rounds, patient workups, surgery and office experience. He/she will be supervised by faculty and surgery residents assigned to neurosurgery. Patient contact is variable. Students will be evaluated on form for clinical assessment and interpersonal skills currently in use by the Department of Surgery. Prerequisite: SGRY 975. CLN.

**SGRY 983. General Surgery Preceptorial. 2-4 Hours.**
The clerkship provides in-depth exposure to hospital and office practice in general surgery. The student will make daily rounds, assist in office, perform patient work-ups, scrub on all surgical procedures on his/her patients, and attend conferences on consultant rounds, surgical grand rounds, and tumor and X-ray. Evaluation will be based on patient work-ups, technical skills, rapport with patients, paramedical personnel, and surgical team. Prerequisite: SGRY 975 and INMD 975. CLN.

**SGRY 985. Pediatric Surgery. 2-4 Hours.**
This course provides an introduction to common problems in pediatric surgery. The student will attend three to four conferences per week, make daily rounds, perform patient work-ups, and assist in surgery and office experience—both preoperatively and postoperatively. The student will have contact with approximately twenty-five patients per week and will be supervised by a faculty member. Evaluation will be based on clinical
assessment and interpersonal skills. Prerequisite: SGRY 975 and PDRC 975. CLN.

SGRY 986. Peripheral Vascular Surgery. 2-4 Hours.
The objective is to learn to care for patients with peripheral vascular disease emphasizing diagnosis, examination, appropriate testing, including ultrasounds, vascular lab, angiography, and CT scans. Students will also be familiar with the natural history of peripheral vascular disease and the role of surgical and non-surgical treatments. In addition the student will gain knowledge of venous disease to include management and treatment of deep vein thrombosis and pulmonary embolism. The student will be expected to see patients on rounds, assist in surgery, and perform preoperative evaluation of patients with vascular disease. The student will see patients both as in-patients and out-patients. Prerequisite: SGRY 975. CLN.

SGRY 987. Senior Elective in Surgery. 4 Hours.
The student will be assigned to a teaching panel and will work closely with the attending surgeons and residents. The student will participate in the preoperative, intraoperative, and postoperative management of surgical patients. Exposure to acutely injured patients and acute surgical conditions in the emergency department will be an important aspect of this elective. As a result of these experiences the student will be able to: recognize acute surgical conditions and institute initial management, develop skills in surgical diagnosis, participate and assist in surgical procedures, elicit and perform an H & P on patients in an ambulatory care setting, and develop diagnostic skills in the ambulatory care setting. Prerequisite: SGRY 975. CLN.

SGRY 995. Special Topics in Surgery. 2-8 Hours.
This elective is designed to provide clinical and/or research experience in topics of special interest not otherwise represented in the curriculum. The student will design, in consultation with department faculty, specific objectives, reading assignments, and the mechanism for course evaluation. Prerequisite: Medical Basic Science and departmental consent. CLN.

SGRY 997. Sports Medicine. 2-4 Hours.
The student will experience Sports Medicine Care in the ambulatory setting. The student will evaluate sports related injuries in the office setting and also have the opportunity to observe surgical treatment in the arthroscopic surgery suite. The student will have the opportunity to participate in the on-site evaluation of athletic injuries through outreach sports medicine programming. Additional exposure to athletic training services will also be utilized. Prerequisite: Senior standing. CLN.

Postgraduate Training Programs

The KU School of Medicine provides two distinct residency and fellowship programs. Both programs are comprehensive in their training. One program is at the KU School of Medicine and Medical Center in Kansas City. The second program is at the KU School of Medicine — Wichita.

Kansas City Postgraduate Training Programs (http://www.kumc.edu/school-of-medicine/gme.html)
Wichita Postgraduate Training Programs (http://wichita.kumc.edu/education/graduate-medical-education.html)
Continuing Medical Education (http://kumcce.ku.edu)
Institute for Community Engagement (http://www.kumc.edu/community-engagement.html)
Music

Graduation requirements and regulations for every academic program are provided in this catalog. Degree requirements and course descriptions are subject to change. In most cases, you will use the catalog of the year you entered KU (see your advisor (http://www.advising.ku.edu) for details). Other years' catalogs (http://catalog.ku.edu/archive)

Bachelor of Arts in Fine Arts in Music (p. 1901)
Bachelor of Fine Arts in Theatre-Voice Program (p. 1903)
Bachelor of Music (p. 1904)
Bachelor of Music in Musicology (p. 1905)
Bachelor of Music in Music Theory and Composition (p. 1906)
Bachelor of Music in Music Therapy (p. 1907)
Bachelor of Music in Music Performance: Piano (p. 1910)
Bachelor of Music in Music Performance: Organ and Church Music (p. 1911)
Bachelor of Music in Music Performance: Strings and Harp (p. 1912)
Bachelor of Music in Music Performance: Voice (p. 1913)
Bachelor of Music in Music Performance: Brass and Percussion (p. 1914)
Bachelor of Music in Music Performance: Woodwinds (p. 1915)
Music Education B.M.E. Program (p. 1916)

Bachelor of Music Education in Music Education (p. 1916)
Minor in Music (p. 1920)
Master of Music (p. 1920)
Master of Music in Conducting (p. 1920)
Master of Music in Musicology (p. 1921)
Master of Music in Music Theory or Composition (p. 1922)
Master of Music in Music Performance: Brass and Percussion (p. 1923)
Master of Music in Music Performance: Organ, Church Music, and Carillon (p. 1924)
Master of Music in Music Performance: Piano (p. 1926)
Master of Music in Music Performance: Strings (p. 1927)
Master of Music in Music Performance: Voice and Opera (p. 1928)
Master of Music in Music Performance: Woodwinds (p. 1929)
Music Education M.M.E. Program (p. 1931)
Music Therapy M.M.E. Program (p. 1932)

Doctor of Musical Arts (p. 1933)
Doctor of Musical Arts in Composition (p. 1933)
Doctor of Musical Arts in Conducting (p. 1935)
Doctor of Musical Arts in Music Performance: Organ and Church Music (p. 1939)
Doctor of Musical Arts in Music Performance: Brass and Percussion (p. 1937)
Doctor of Musical Arts in Music Performance: Piano (p. 1941)
Doctor of Musical Arts in Music Performance: Strings (p. 1943)
Doctor of Musical Arts in Music Performance: Voice (p. 1945)
Doctor of Musical Arts in Music Performance: Woodwinds (p. 1946)

Doctor of Philosophy (p. 1948)
Doctor of Philosophy in Music (p. 1948)
Doctor of Philosophy in Music Education (p. 1949)

The School of Music

The School of Music at the University of Kansas ranks among the finest in America, offering comprehensive programs at the bachelor’s, master’s, and doctoral levels.

The school nurtures and advances the art of music through creation, performance, scholarly inquiry, entrepreneurship, and enhancement of the artistic skills and experiences of the university and regional cultural communities.

The school is a major contributor to the arts community through the student, faculty, and professional performances in Swarthout Recital Hall, Bales Organ Recital Hall, the Robert Baustian Theatre, and the Lied Center of Kansas.

The School of Music is an accredited institutional member of the National Association of Schools of Music (http://nasm.arts-accredit.org). The entrance and graduation requirements in this catalog conform to the published guidelines of that organization.

Degrees

Undergraduate Degree Programs

The degree of Bachelor of Music is granted with majors in bassoon, clarinet, double bass, euphonium, flute, French horn, harp, musicology, music therapy, oboe, organ and church music, percussion, piano, saxophone, theory, composition, trombone, trumpet, tuba, viola, violin, violoncello, and voice.

The degree of Bachelor of Arts in Fine Arts is granted with concentrations in applied music, jazz studies, musicology, and music theory.

The degree of Bachelor of Fine Arts is granted with a major in theatre and voice.

The degree of Bachelor of Music Education is granted with a major in music education.
Requirements for Graduation

Degrees from the School of Music are conferred on candidates who have satisfactorily completed a minimum of 120 credit hours for the B.A., B.M., B.F.A., and B.M.E. degrees, including required subjects. 45 credit hours must be in junior/senior-level courses, numbered 300 and above. A minimum 2.0 grade-point average, both cumulative and in KU courses, is required for graduation. 4 hours of the total in each case except the B.M.E. degree may be in physical education activity courses.

Remedial Courses

Remedial courses listed in the catalog and Schedule of Classes (http://www.registrar.ku.edu) are numbered below 100. Such courses include, but are not limited to, MATH 2 and MTHC 99. Such courses do not count toward graduation in the School of Music and may not be counted as distribution courses or electives.

Graduate Degree Programs

The School of Music offers these degree programs:

Master of Music
- Composition
- Conducting
- Musicology
- Music theory
- Performance

Master of Music Education
- Music Education
- Music therapy

Doctor of Musical Arts
- Composition
- Conducting
- Performance

Doctor of Philosophy
- Music with an emphasis in musicology or music theory
- Music Education with an emphasis in music education or music therapy

The Kansas Board of Regents (http://www.kansasregents.org) has designated KU as the sole institution in the Regents system authorized to grant doctoral degrees in music.

Contact the school (http://music.ku.edu) for specific admission requirements. See also Admission in the Graduate Studies section of the online catalog.

View the list of School of Music academic programs (p. 1867).

Facilities

Murphy Hall

Murphy Hall, named for former KU Chancellor Franklin D. Murphy, houses the School of Music (http://music.ku.edu). It is a 5-level facility with offices for faculty members in applied music, music theory and composition, musicology, opera, music education, music therapy, and ensembles. Designed for music and theatre, it contains 4 performance areas.

- Crafton-Preyer Theatre provides a venue for plays, operas, musical theatre shows, and concerts. It is a fully equipped, 1,188-seat proscenium stage facility.
- William Inge Memorial Theatre is an intimate black-box facility with seating for up to 125, suitable for plays and small opera productions.
- Swarthout Recital Hall, a 340-seat facility with exceptional acoustics, is dedicated to faculty and student solo and chamber music presentations and occasional opera productions.
- The Baustian Theatre, a black-box facility for opera and musical theatre productions, seats 125 and has a dressing room and wardrobe area, set construction and storage area, and office and performance control areas.

Murphy Hall also houses classrooms, practice rooms, rehearsal halls, and storage facilities for instruments and sheet music. The Electronic Music Studio contains a digital workstation for the recording and production of electronic music and video.

The Kansas Center for Music Technology in Murphy Hall promotes the development and application of current technologies in music instruction, research, and creative projects. Its Computer Center contains 32 fully networked multimedia workstations. KCMT has a library of commercially available software for evaluation, experimentation, and integration into existing courses. The lab also contains 3 high-end workstations for professional-quality digital audio, digital video, and DVD authoring. The library includes basic productivity and Internet software; music notation and sequencing, ear-training, CD-ROMs, and drill design software; and digital editing software for audio, video, multimedia, and Web authoring. Through workshops and music technology courses, KCMT helps faculty members and students develop innovative new software.

The Thomas Gorton Music and Dance Library in Murphy Hall houses more than 111,000 scores, books, sound recordings, videos, microforms, and serials, and has the leading music collection in the Great Plains. It features digital workstations; study carrels; comfortable seating; and public display of new acquisitions, current periodicals, and special exhibitions. Students can make full use of music and dance information resources. The Joe and Joyce Hale Media System allows remote listening and viewing from 30 locations in the library, including 328 media carrels, the seminar room, and the group study room. Media carrels have remote controls, MIDI music keyboards, mini-disk recorders, computers, and video monitors.

The Music Education and Music Therapy Complex in Murphy Hall contains a model music education classroom, a general music instruction classroom, large and small therapy clinical spaces, three research spaces, faculty offices, the Psychology and Acoustics of Music Laboratory, and the Music Therapy Clinic, a clinical training and research facility. In addition, the complex houses a Vocolology Laboratory, which affords excellent resources for research-based understanding of singing voice phenomena. The stationary lab facilitates acquisition and analysis of voice data in a controlled environment. It also provides mobile configurations of resources for field-based research and pedagogy in voice studios, choir rehearsal areas, classrooms, and music therapy clinics. A Polycom system enables interactive distance delivery of music education and music therapy graduate courses throughout Kansas and anywhere in the world.

Lied Center

The Lied Center of Kansas (http://www.lied.ku.edu) is a 2,020-seat performing arts hall. On KU's west campus at Irving Hill Road and Constant Avenue, it is the venue for the Lied Center Series. It also
presents School of Music (http://music.ku.edu) productions, Student Union Activities (https://rockchalkcentral.ku.edu/?q=Student_9347) shows, and university and community events. The performing arts hall offers excellent acoustic quality and technical production capabilities. The stage features a 56-foot-wide proscenium opening, resilient wood floor, counterweighted rigging system, and ample wing space. There is a full complement of backstage support areas including seven dressing rooms, dance rehearsal studio, two warm-up rooms, a Greenroom, and a production office.

The Dane and Polly Bales Organ Recital Hall is acoustically designed for the teaching and performance of organ music. It has seating for 200 and is attached to the Lied Center main lobbies at two levels. It houses a 45-stop mechanical key-action (electric stop-action) organ built by Hellmuth Wolff et Associés, one of the finest builders of organs in the world. The hall is available to organ students for practice, lessons, and recitals. Its aesthetics are enhanced by three magnificent stained glass windows designed by Peter Thompson, former dean of Fine Arts.

Undergraduate Programs
The school acquaints undergraduates with music as an important field of a liberal culture, either as members of a discriminating public or as trained practitioners. It prepares students for careers in music and promotes scholarship and research. It offers curricula for teachers of music in public schools and institutions of higher education and special degree curricula for training music therapists.

View the list of School of Music academic programs (p. 1867).

Applied Music Lessons
All majors and nonmajors (as space permits) who wish to take lessons must first pass an audition. All music majors enroll in 121-level applied music courses until they have accumulated 4 credit hours (6 or 8 hours for performance majors) at which time they may enroll in the 221 level. Music majors who are not performance majors must accumulate 8 applied music hours before enrolling in the 321 level and 12 applied music hours before enrolling in the 421 level (or 442 level for the B.M.E.). Performance majors must accumulate 12 or 16 credit hours at the 121 and 221 levels before they enroll in 622 level.

All music majors take applied music in the primary performance area for a minimum of one hour-long lesson a week at 2 to 5 credit hours a semester; others receive a half-hour lesson a week at 1 credit hour. See degrees listed on the Programs page for specific credit-hour and recital requirements. The summer session limit on all music major lessons is 1 to 3 credit hours.

Students may state their preferences as to teachers for private lessons, but final authority rests with the director of the division.

Courses for Nonmajors
Students in other KU schools may enroll in music courses for credit, subject to the availability of instructional time and as space permits. Most musicology courses and all ensembles are open to all KU students.

Students in the College of Liberal Arts and Sciences not majoring in music may elect an appropriate introductory course (MUSC 298, MUSC 305, MUSC 309, MUSC 312, MUSC 313, MUSC 336, or MUSC 560). Minors in music are offered for students in other disciplines. Most degree programs accept up to 6 hours of electives in music ensembles and performance.

Junior/senior credit in applied music involves a prerequisite of 4 hours of university credit in sequence in the field concerned.

University Honors Program
The school encourages qualified students to participate in the University Honors Program (http://www.honors.ku.edu).

Ensembles
The University Symphony Orchestra performs works from the standard symphonic repertoire on campus and occasionally on tours. It combines with choral ensembles to present oratorios or other large works and assists in musical theatre productions and opera. In addition, the orchestra reads new orchestral works submitted by KU composers for the George Lawner Prize, an annual adjudicated competition co-sponsored by Music Theory and Composition and the KU Symphony Orchestra.

The Wind Ensemble presents 4 or more concerts annually and tours nationally and internationally. The Symphonic and University Bands perform 2 concerts each semester. The KU Jazz program includes 3 jazz ensembles, 2 jazz choirs, and several combos.

The Marching Jayhawks are part of the pageantry at football games. The Basketball Bands (Men’s and Women’s) and pep bands also perform for sports events.

The Bales Chorale, Chamber Choir, Concert Choir, Men’s Glee Club, University Singers, and Women’s Chorale perform concerts on campus, tour, and participate in combined choral and orchestral presentations such as the annual Holiday Vespers. All KU students are eligible through audition for placement in a choir.

The Collegium Musicum specializes in early music, both vocal and instrumental, using KU’s collection of replicas of early instruments. Helianthus is the performing arm of KU’s New Music Ensemble. Each semester it performs the finest available contemporary chamber music. Recitals of music by KU student composers are presented each semester by the KU Composers Guild, a student organization. The Kansas Brass Quintet, Kansas Woodwinds, and Kansas String Quartet are faculty groups that present numerous concerts.

Visit the School of Music (http://music.ku.edu) for current information about recitals, concerts, and performances.

Graduate Programs
The School of Music offers Master of Music programs in composition, conducting, musicology, music theory, and areas of performance and Master of Music Education degree programs in music education or music therapy.

The Doctor of Musical Arts degree is offered in composition, conducting, and areas of performance. Programs are offered leading to the Doctor of Philosophy degree in music education with an emphasis in music education or music therapy and to the Doctor of Philosophy degree in music with an emphasis in musicology or music theory.
View the list of School of Music academic programs (p. 1867).

The Kansas Board of Regents (http://www.kansasregents.org) has designated KU as the sole institution in the Regents system authorized to grant doctoral degrees in music.

Graduate Credit for Nonmajors

Performance

Permission to enroll for graduate credit in applied music is determined by audition. This audition should be scheduled with the major division faculty at the beginning of each semester.

Music Education or Music Therapy

Permission to enroll for graduate credit in music education or music therapy is determined by the information in the MEMT Graduate Application Procedure (http://music.ku.edu/programs/memt/prospective/graduate/admissions.shtml) document.

Ensembles

The University Symphony Orchestra performs works from the standard symphonic repertoire on campus and occasionally on tours. It combines with choral ensembles to present oratorios or other large works and assists in musical theatre productions and opera. In addition, the orchestra reads new orchestral works submitted by KU composers for the George Lawner Prize, an annual adjudicated competition co-sponsored by Music Theory and Composition and the KU Symphony Orchestra.

The Wind Ensemble presents 4 or more concerts annually and tours nationally and internationally. The Symphonic and University Bands perform 2 concerts each semester. The KU Jazz program includes 3 jazz ensembles, 2 jazz choirs, and several combos.

The Marching Jayhawks are part of the pageantry at football games. The Basketball Bands (Men’s and Women’s) and pep bands also perform for sports events.

The Bales Chorale, Chamber Choir, Concert Choir, Men’s Glee Club, University Singers and Women’s Chorale perform concerts on campus, tour, and participate in combined choral and orchestral presentations. All KU students are eligible through audition for placement in a choir.

The Collegium Musicum specializes in early music, both vocal and instrumental, using KU’s collection of replicas of early instruments. Helianthus is the performing arm of KU’s New Music Ensemble. Each semester it performs the finest available contemporary chamber music.

Recitals of music by KU student composers are presented each semester by the KU Composers Guild, a student organization. The Kansas Brass Quintet, Kansas Woodwinds, and Kansas String Quartet are faculty groups that present numerous concerts.

Visit the School of Music (http://music.ku.edu) for current information about recitals, concerts, and performances.

Undergraduate Advising

Music students are advised by music faculty members from their major area of study as well as from the School of Music Student Services office. Students in Music Education and Music Therapy are each assigned a specific faculty advisor.

Each entering first-year student is encouraged to attend KU’s summer New Student Orientation. At the summer orientation program, students are advised on course selection for the fall semester and given the opportunity to enroll.

Each semester before enrollment, students see their advisors to plan schedules and discuss academic and career interests. Students are encouraged to call on their advisors any time during the school year if they wish to change their schedules or discuss other matters. Consultation with an advisor is recommended before making schedule changes.

Music students should direct questions to the School of Music (http://music.ku.edu) Office of Student Services.

Graduate Advising

Graduate advising is handled by the student’s major professor.

Undergraduate Scholarships

Academic Scholarships, as well as grants, loans, and need-based financial aid, are available through Financial Aid and Scholarships (http://affordability.ku.edu/step/index.shtml).

Merit Scholarships in Music are also available. Audition application and information is available on the school’s website (http://music.ku.edu).

Tuition and Fees

Information about KU tuition and fees is available from the Office of the University Registrar (http://www.registrar.ku.edu). Tuition and fees are set by the Board of Regents and are subject to change.

Graduate Fellowships and Assistantships

For information about graduate assistantships, contact the School of Music (http://music.ku.edu/resources).

Visit the Graduate Studies website for information about funding opportunities (http://www.graduate.ku.edu/funding-opportunities) for graduate students at KU.

Financial Aid and Scholarships (http://financialaid.ku.edu) administers grants, loans, and need-based financial aid.

Tuition and Fees

Information about KU tuition and fees is available from the Office of the University Registrar (http://www.registrar.ku.edu). Tuition and fees are set by the Board of Regents and are subject to change.
Undergraduate University Regulations

For information about all university regulations, see Regulations (p. 12) or visit the University of Kansas Policy Library (http://www.policy.ku.edu). A few examples specific to the School of Music are shown below.

Absences

The school defines excessive absence as absence in excess of the number of credit hours in the course. A student with excessive absences may be withdrawn from the course by the dean.

Change of School

To change from one school to another, the student must submit a Change of School form in the dean’s office of the school the student plans to enter. Deadlines are provided on the form.

Admission is competitive. Students must have minimum cumulative grade-point averages of 2.75 on a 4.0 scale from all colleges or universities including KU. Music admission is contingent upon a successful audition. Change-of-school applicants must meet the same requirements as transfer applicants.

Credit/No Credit

A Credit/No Credit option is available to all degree-seeking undergraduates. You may enroll in one course a semester under the option, if the course is not in your major or minor. For more information, visit the KU Policy Library (https://documents.ku.edu/policies/governance/USRR.htm#art2sect2).

Warning: Certain undesirable consequences may result from exercising the option. Some schools, scholarship committees, and honorary societies do not accept this grading system and convert grades of No Credit to F when computing grade-point averages.

Graduation with Distinction and Highest Distinction

Students who rank in the upper 10 percent of their graduating class graduate with distinction. The upper third of those awarded distinction graduate with highest distinction. The list is compiled each spring and includes July, December, and May graduates.

Honor Roll

Students with grade-point averages of 3.6 who have completed at least 12 hours with letter grades are recognized on the honor roll or dean’s list in fall and spring. An Honor Roll notation appears on the transcript.

Incompletes

The letter I should not be used when a definite grade can be assigned for the work done. It is not given for the work of a student in any course except to indicate that some part of the work has, for reasons beyond the student’s control, not been done, while the rest has been satisfactorily completed. At the time an I is reported on the electronic roster, the character and amount of work needed, as well as the date required for completion and lapse grade if further work is not completed by this date, should be indicated.

If the instructor specifies that repetition of a portion of the classroom work is required, the student may attend classes but should not officially enroll in that course again.

A student who has an I posted for a course must make up the work by the date determined by the instructor, in consultation with the student, which may not exceed one calendar year, or the last day of the term of graduation, whichever comes first. An I not removed according to this rule shall automatically convert to a grade of F or U, or the lapse grade assigned by the course instructor, and shall be indicated on the student’s record.

Extensions to the time limit may be granted by the dean’s representative upon submission of a petition from the student containing the endorsement of the course instructor who assigned the I grade, or the department chairperson if the instructor is unavailable. After the I grade is converted to a grade of F or U, the grade may only be changed in accordance with USRR Article II, Section 3 (https://documents.ku.edu/policies/governance/USRR.htm#art2sect3).

Maximum and Minimum Semester Enrollment

The normal maximum enrollment is 20 hours during fall or spring semesters or 9 hours during the summer session. Students may exceed the normal maximum enrollment only with the permission of the dean.

Probation

Students may be dismissed at any time by the dean for excessive absences or for failure to make satisfactory progress in their studies.

A student not on probation who fails to earn a grade-point average of at least 2.0 in any semester is placed on probation for the following semester.

At the end of the semester in which the student has been on probation, he or she is removed from probation if the grade-point average for the semester is at least 2.0, with a minimum course load of 12 hours and a cumulative grade-point average of 2.0. A student whose course load is fewer than 12 hours or whose cumulative grade-point average is below 2.0 continues on probation even if the semester grade-point average is 2.0 or above.

At the end of the semester in which the student has been on probation, he or she is dismissed for poor scholarship if the grade-point average for the semester is below 2.0.

A student who has been dismissed for poor scholarship is not eligible to enroll again at any time, except with the special permission of the dean. A reinstated student is placed on final probation. If the student fails to achieve a minimum grade-point average of 2.0 for the semester, he or she is dismissed, and readmission is not granted.

Students who take courses at other institutions during the suspension may receive credit for such work only if it meets the approval of the dean.

Required Work in Residence

6 of the final 30 hours may be taken for nonresident credit, with advance permission. Nonresident credit may fill only elective requirements not in the major field of study.
Transfer of Credit

CredTran (http://admissions.ku.edu/~admiss/credit/transfer) is a transfer course equivalency system that lists more than 2,200 colleges and universities from which KU has accepted transfer courses in the past. If your school or course is not listed, your evaluation will be completed when you are admitted to KU.

Only grades of C or higher are accepted as transfer credit toward degrees.

Graduate University Regulations

For information about all university regulations, see Regulations (p. 12) or visit the University of Kansas Policy Library (http://www.policy.ku.edu). A few examples specific to the School of Music are shown below.

Absences

A leave of absence may be granted on request. View the Graduate Studies policy on leaves of absence (https://documents.ku.edu/policies/Graduate_Studies/leaveofabsence.htm).

Credit/No Credit

The Credit/No Credit option is authorized, as of spring 2012, for graduate students (USRR Article II, 2.2.7). The full explanation can be found in the KU Policy Library under University Senate Rules and Regulations (http://catalog.dept.ku.edu/wrong/schools/gs/regulations).

Incompletes

The letters W and I may be given. The letter I indicates incomplete work that may be completed without re-enrollment in the course. The letter W indicates withdrawal for which no credit or grade point is assigned. For more information, see USRR Article II, Section 3 (https://documents.ku.edu/policies/governance/USRR.htm#art2sect3).

Maximum and Minimum Semester Enrollment

The normal maximum enrollment is 16 hours during fall or spring semesters or 6 hours during the summer session. Students may exceed the normal maximum enrollment only with the permission of the dean. International students must comply with the credit requirements for their visa status.

Probation and Dismissal

Probation and Dismissal processes) .

Required Work in Residence

For information about the doctoral residence requirement, see the Graduate Studies (p. 2059) section of the online catalog.

Transfer of Credit

View the Graduate Studies policy on graduate credit, including transfer credit, in the Graduate Studies section of the online catalog or the KU Policy Library (http://catalog.dept.ku.edu/201314/schools/gs/regulations/#12).

Courses

ACMP 527. Accompanying. 1-4 Hours.
Individual instruction in vocal and/or instrumental accompanying. Open to junior, senior, and graduate pianists with permission of instructor. IND.

ACMP 529. Performance Class in Accompanying. 1 Hour.
A class in the performance of vocal and instrumental accompaniment. Prerequisite: Completion of ACMP 527 or permission of instructor. IND.

ACMP 727. Accompanying. 1-4 Hours.
Individual instruction in vocal and/or instrumental accompanying. Prerequisite: Consent of instructor. IND.

ACMP 811. Advanced Accompanying. 1-6 Hours.
For graduate students majoring in accompanying. May be repeated for credit. Summer session limit one to three hours. IND.

ACMP 822. The Accompanist’s Literature. 3 Hours.
A course in which major vocal and instrumental works are studied with vocal or instrumental participants. LEC.

BAND 202. Wind Ensemble. 0-1 Hours.
Study and performance of literature written for wind ensembles using an instrumentation somewhat smaller than the traditional concert band. Literature ranges from early wind and band music to contemporary avant-garde wind ensemble literature. May be repeated for credit. Prerequisite: Audition and permission of instructor. LAB.

BAND 204. Symphonic Band. 0-1 Hours.
For freshmen and sophomores. Performances include concerts on campus and tours throughout the area. Literature includes wind music, transcriptions, and other standard concert band literature. May be repeated for credit. Prerequisite: Permission of director. ACT.

BAND 206. University Band. 0-1 Hours.
For freshmen and sophomores. This concert organization performs on campus as well as in other area concerts. The band studies and performs music from the standard band repertoire. May be repeated for credit. Prerequisite: Permission of director. ACT.

BAND 210. University Marching Band. 0-1 Hours.
For freshmen and sophomores. Open to all qualified University students, regardless of major. Public performances include presentation of maneuvers and pageantry at all home football games as well as several trips each season. Three two-hour rehearsals per week. Offered fall semester only. Membership by audition. May be repeated for credit. ACT.

BAND 301. Workshop in: ____. 1-3 Hours.
May be repeated for credit. IND.

BAND 404. Symphonic Band. 0-1 Hours.
For junior and seniors. Performances include concerts on campus and tours throughout the area. Literature includes wind music, transcriptions,
and other standard concert band literature. May be repeated for credit. Prerequisite: Permission of director. ACT.

BAND 406. University Band. 0-1 Hours.
For juniors and seniors. This concert organization performs on campus as well as in other area concerts. The band studies and performs music from the standard concert band repertoire. May be repeated for credit. Prerequisite: Permission of director. ACT.

BAND 410. University Marching Band. 0-1 Hours.
For juniors and seniors. Open to all qualified University students regardless of major. Public performances include presentation of marching maneuvers and pageantry at all home football games as well as several trips each season. Membership by audition. May be repeated for credit. ACT.

BAND 459. Scoring for Field Band. 2 Hours.
Primary voicing and textural possibilities for wind and percussion instruments will be stressed as these resources relate to the arranging of music for marching and pep bands at the secondary level. (Same as MTHC 459.) Prerequisite: MTHC 214. LEC.

BAND 466. Directed Study: _____, 1-3 Hours.
May be repeated for credit. Prerequisite: Permission of instructor. IND.

BAND 559. Scoring for Concert Band. 2 Hours.
Curriculum includes idiomatic writing, tonal balance, scoring for large percussion sections, and analysis of wind colors and instrumental combinations found in music of Holst, Vaughan Williams, Grainger, Stravinsky, Hindemith, and C. Williams. (Same as MTHC 559.) Prerequisite: MTHC 214 and MTHC 459. IND.

BAND 602. Wind Ensemble. 0-1 Hours.
Study and performance of literature written for wind ensembles using an instrumentation somewhat smaller than the traditional concert band. Literature ranges from early wind and band music to contemporary avant-garde wind ensemble literature. May be repeated for credit. Prerequisite: Audition and permission of instructor. LAB.

BAND 604. Symphonic Band. 0-1 Hours.
For graduate students. Performances include concerts on campus and tours throughout the area. Literature includes wind music, transcriptions, and other standard concert band literature. May be repeated for credit. Prerequisite: Permission of director. LEC.

BAND 630. Band Repertoire. 2 Hours.
A survey of selected band works from the standard repertoire. The works are to be analyzed in terms of style and form, and in terms of the rehearsal and performance problems inherent in the work. Also a study of the standard band repertoire from an educational viewpoint as well as from a programming viewpoint. LEC.

BAND 701. Workshop in: _____, 1-3 Hours.
May be repeated for credit. LEC.

BAND 803. Interpretation of Band Music. 1 Hour.
A study of the essential factors necessary for the understanding and subsequent interpretation of various compositions of advanced band music. In addition to the regular course work, students must participate in one of the university concerts bands, attend all rehearsals each week and play in concerts. May be repeated for credit. Prerequisite: Permission of instructor. LAB.

BAND 866. Directed Study in: _____, 1-3 Hours.
May be repeated for credit. Prerequisite: Permission of instructor. LEC.

BASN 100. Bassoon. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

BASN 101. Bassoon Reed Making. 0-1 Hours.
The principles of bassoon reed making, including profiling and shaping of bassoon cane and scraping of bassoon reeds. Open only to freshmen and sophomores. May be repeated for credit. LAB.

BASN 121. Bassoon. 1-4 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

BASN 221. Bassoon. 1-4 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

BASN 300. Bassoon. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

BASN 301. Bassoon Reed Making. 0-1 Hours.
The principles of bassoon reed making, including profiling and shaping of bassoon cane and scraping of bassoon reeds. Open only to juniors and seniors. May be repeated for credit. LAB.

BASN 321. Bassoon. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

BASN 421. Bassoon. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

BASN 422. Bassoon. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

BASN 522. Bassoon. 1-4 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

BASN 711. Bassoon. 1-4 Hours.
For graduate students not majoring in bassoon. May be repeated for credit. Summer session limit one to three hours. IND.

BASN 811. Bassoon. 1-6 Hours.
For graduate students majoring in bassoon. May be repeated for credit. Summer session limit one to three hours. IND.

BASN 921. Seminar in Performance. 3 Hours.
A study of repertoire and performance practice relating to the bassoon during the seventeenth and eighteenth centuries. LEC.

BASN 922. Seminar in Performance. 3 Hours.
A study of repertoire and extended performance techniques of the twentieth century. LEC.

BASN 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in bassoon. May be repeated for credit. Summer session limit one to three hours. RSH.

BASN 965. Doctoral Recitals. 1-3 Hours.
Maximum seven hours credit. May be repeated for credit. THE.

BASN 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.
BASN 972. D.M.A. Document. 1-6 Hours.
A scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

BRSS 252. Brass Choir. 0-1 Hours.
For freshmen and sophomores. Study and performance of large brass ensemble literature. May be repeated for credit. IND.

BRSS 652. Brass Choir. 0-1 Hours.
For juniors, seniors, and graduate students. Study and performance of large brass ensemble literature. May be repeated for credit. IND.

BRSS 921. Seminar in Performance and Pedagogy: ______. 3 Hours.
Repertoire, performance practice, pedagogical, and stylistic concerns relating to the music for brass instruments throughout their history. Topics will include the physical development of the instruments, their usage as solo, chamber, and large ensemble instruments in both sacred and secular literature, and a survey of historical and modern bibliographic materials. May be repeated for credit when topics vary. IND.

CARI 100. Carillon. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

CARI 300. Carillon. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

CARI 621. Carillon. 1-4 Hours.
One or two lessons per week. For graduate students not majoring in carillon performance. May be repeated for credit. IND.

CARI 711. Carillon. 1-4 Hours.
May be repeated for credit. IND.

CARI 804. History of Carillon Literature and Design. 3 Hours.
A survey of carillon literature and design. Prerequisite: Permission of instructor. LEC.

CARI 811. Carillon. 1-6 Hours.
For graduate students majoring in carillon. May be repeated for credit. Prerequisite: Permission of instructor. IND.

CARI 820. Studio Class in Carillon. 0 Hours.
Studio performance of repertoire for students enrolled in carillon. May be repeated. Prerequisite: Permission of instructor. IND.

CHAM 215. University Camerata. 0-1 Hours.
For freshmen and sophomores. Rehearsal and performance of string chamber music repertoire. May be repeated for credit. Prerequisite: Permission of instructor. LEC.

CHAM 216. Chamber Music. 0-1 Hours.
For freshmen and sophomores. The study of works for various combinations of instruments. May be repeated for credit. LAB.

CHAM 220. Baroque Ensemble. 0-1 Hours.
For freshmen and sophomores. Study and performance of seventeenth and eighteenth century chamber music using replicas of period instruments. May be repeated for credit. LAB.

CHAM 254. New Music Ensemble. 0-2 Hours.
The performance of music in the most recent styles as well as masterworks of the 20th century. May be repeated for credit. Prerequisite: Permission of the instructor. ACT.

CHAM 320. Baroque Ensemble. 0-1 Hours.
For juniors and seniors. Study and performance of seventeenth and eighteenth century chamber music using replicas of period instruments. May be repeated for credit. LAB.

CHAM 336. Chamber Music. 0-2 Hours.
For juniors and seniors. The study of standard chamber music literature with or without piano. May be repeated for credit. LAB.

CHAM 615. University Camerata. 0-1 Hours.
For juniors, seniors, and graduate students. Rehearsal and performance of string chamber music repertoire. May be repeated for credit. Prerequisite: Permission of instructor. LEC.

CHAM 654. New Music Ensemble. 0-2 Hours.
The performance of music in the most recent styles as well as masterworks of the 20th century. May be repeated for credit. Prerequisite: Permission of the instructor. ACT.

CHAM 820. Baroque Ensemble. 0-2 Hours.
Study and performance of seventeenth and eighteenth century chamber music, using replicas of period instruments. Primarily for woodwinds, strings, and keyboards. May be repeated for credit. IND.

CHAM 829. Advanced Chamber Music. 0-2 Hours.
A special study of chamber music works, with or without piano, with emphasis on problems of style and interpretation. May be repeated for credit. IND.

CHAM 929. Advanced Chamber Music. 0-2 Hours.
May be repeated for credit. IND.

CHOR 214. University Singers. 0-1 Hours.
Open through audition. Study and performance of significant choral music from the major periods of music history. For freshmen and sophomores. May be repeated for credit. LAB.

CHOR 216. Concert Choir. 0-1 Hours.
Open through audition. Study and public performance of significant choral music from the major periods of music history. For freshmen and sophomores. May be repeated for credit. LAB.

CHOR 218. KU Men’s Glee Club. 0-1 Hours.
A choral ensemble for male singers. The group will study, rehearse, and perform traditional and contemporary choral music for men’s chorus. A formal audition is not required. May be repeated for credit. ACT.

CHOR 220. Oread Consort. 0-1 Hours.
A select choral ensemble of 16-20 singers specializing in challenging music of all periods. Open by audition to experienced sight readers and ensemble singers. Concurrent membership in another choir encouraged. For freshmen and sophomores. May be repeated for credit. LAB.

CHOR 226. Women’s Chorale. 0-1 Hours.
A choral ensemble for women singers. The group will study, rehearse, and perform traditional and contemporary choral music for women’s chorus. For freshmen and sophomores. May be repeated for credit. ACT.

CHOR 228. Summer Chorus. 0-1 Hours.
A choral ensemble that meets during the summer term. May be repeated for credit. ACT.

CHOR 242. Chamber Choir. 0-1 Hours.
Intensive study and public performance of significant choral literature. Membership by audition. For freshmen and sophomores. May be repeated for credit. LAB.

CHOR 254. Collegium Musicum, Vocal. 0-1 Hours.
May be repeated for credit. (Same as MUSC 254.) Prerequisite: Permission of instructor. ACT.

CHOR 410. Choral Practicum. 1 Hour.
A choral ensemble directed by student conductors under the supervision of the choral faculty. May be repeated for credit. ACT.
CHOR 414. University Singers. 0-1 Hours.
Open through audition. Study and performance of significant choral music from the major periods of music history. For juniors and seniors. May be repeated for credit. LAB.

CHOR 416. Concert Choir. 0-1 Hours.
Open through audition. Study and public performance of significant choral music from the major periods of music history. For juniors and seniors. May be repeated for credit. LAB.

CHOR 418. KU Men’s Glee Club. 0-1 Hours.
A choral ensemble for male singers. The group will study, rehearse, and perform traditional and contemporary choral music for men’s chorus. A formal audition is not required. May be repeated for credit. ACT.

CHOR 424. Opera Chorus. 1 Hour.
A chorus for opera or musical theatre productions. Open by audition in conjunction with the theatre department. May be repeated for credit. LAB.

CHOR 446. Women’s Chorale. 0-1 Hours.
A choral ensemble for women singers. The group will study, rehearse, and perform traditional and contemporary choral music for women’s chorus. For juniors and seniors. May be repeated for credit. LAB.

CHOR 620. Oread Consort. 0-1 Hours.
A select choral ensemble of 16-20 singers specializing in challenging music of all periods. Open by audition to experienced sight readers and ensemble singers. Concurrent membership in another choir encouraged. For juniors, seniors, and graduate students. May be repeated for credit. LAB.

CHOR 628. Summer Chorus. 0-1 Hours.
A choral ensemble that meets during the summer term. May be repeated for credit. ACT.

CHOR 630. Choral Repertoire. 2 Hours.
A survey of selected choral repertoire available for the high school choral conductor. Both sacred and secular choral literature from the major periods of music history will be studied and analyzed in terms of the problems therein which may be encountered by high school choral conductors. Fall semester and summer only. May be repeated for credit. Prerequisite: MMT 246, MMT 330, MMT 700, and/or consent of instructor. LEC.

CHOR 642. Chamber Choir. 0-1 Hours.
Intensive study and public performance of significant choral literature. Membership by audition. For juniors, seniors, and graduate students. May be repeated for credit. LAB.

CHOR 654. Collegium Musicum, Vocal. 0-1 Hours.
May be repeated for credit. (Same as MUSC 654.) Prerequisite: Permission of instructor. ACT.

CHOR 701. Workshop in: ____. 0.5-3 Hours.
May be repeated for credit. LEC.

CHOR 805. Interpretation of Choral Music. 1 Hour.
A study of the essential factors necessary for the understanding and subsequent interpretation of various compositions of advanced choral music. Offered in the summer session only. LEC.

CHOR 820. Orchestral Bowing Techniques for Choral Conductors. 1 Hour.
Stylistic, expressive, and technical considerations essential for making effective bowing decisions. Prerequisite: A course in conducting. LAB.

CHOR 825. Choral Diction. 3 Hours.
Study of methods to teach and learn diction in choral music contexts. Attention to International Phonetic Alphabet, acoustic implications of particular phonemes, and contributions of emerging technologies.
CHUR 806. Service Playing and Improvisation I. 3 Hours.
Hymn playing, service playing techniques, anthem accompaniment, conducting from the console and improvisation. Prerequisite: Permission of instructor. LEC.

CHUR 807. Service Playing and Improvisation II. 3 Hours.
Continuation of CHUR 806. Prerequisite: Permission of instructor. LEC.

CHUR 808. History of Liturgy. 3 Hours.
The history of liturgy in Jewish and Christian traditions as well as historical criticism and interpretation of liturgy. LEC.

CHUR 809. The Judeo-Christian Tradition and the Arts. 3 Hours.
Readings, discussion and projects concerning architecture, visual art, literature, drama, poetry, dance, and film as they have developed in the Judeo-Christian tradition. LEC.

CHUR 810. Religion and the Arts. 3 Hours.
Issues in the relationship between religion and the arts. LEC.

CHUR 821. Church Music Colloquium I: Anthem Literature. 1 Hour.
A survey of significant anthem literature. Prerequisite: Permission of instructor. LEC.

CHUR 822. Church Music Colloquium II: Handbells. 1 Hour.
Handbell history, literature, performance, and rehearsal techniques. Prerequisite: Permission of instructor. LEC.

CHUR 823. Church Music Colloquium III: Children’s Choirs. 1 Hour.
A study of the history and literature of children’s choirs, vocal characteristics of children, and rehearsal procedures with the children’s choir. Prerequisite: Permission of instructor. LEC.

CHUR 824. Church Music Colloquium IV: Hymnody. 1 Hour.
A study of the historical development of hymnody. Prerequisite: Permission of instructor. LEC.

CHUR 825. Advanced Church Music Colloquium I: Children’s Choirs. 1 Hour.
A continuation of CHUR 823. Prerequisite: CHUR 823. IND.

CHUR 826. Improvisation. 2 Hours.
Applied study in improvisation at the organ. Prerequisite: Permission of instructor. LEC.

CLAR 100. Clarinet. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

CLAR 121. Clarinet. 1-4 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

CLAR 221. Clarinet. 1-4 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

CLAR 300. Clarinet. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

CLAR 321. Clarinet. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

CLAR 421. Clarinet. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

CLAR 422. Clarinet. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

CLAR 622. Clarinet. 1-4 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

CLAR 711. Clarinet. 1-4 Hours.
For graduate students not majoring in clarinet. May be repeated for credit. Summer session limit one to three hours. IND.

CLAR 811. Clarinet. 1-6 Hours.
For graduate students majoring in clarinet. May be repeated for credit. Summer session limit one to three hours. IND.

CLAR 921. Seminar. 3 Hours.
A study of clarinet repertoire and performance techniques in the 18th and 19th centuries. LEC.

CLAR 922. Seminar. 3 Hours.
A study of clarinet repertoire and performance techniques from 1900 to the present. LEC.

CLAR 965. Doctoral Recitals. 1-3 Hours.
Maximum seven hours credit. May be repeated for credit. RSH.

CLAR 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

CLAR 972. D.M.A. Document. 1-6 Hours.
A scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

COND 245. Conducting I. 2 Hours.
An introduction to the principles of conducting through exercises and musical examples designed to develop a specific technical skill. A study of the basic conducting patterns and their application. IND.

COND 345. Conducting II. 2 Hours.
A continuation of COND 245. Prerequisite: COND 245. IND.

COND 711. Choral Conducting I. 1-3 Hours.
Conducting technique, choral musicianship, and choral methods. Prerequisite: MEMT 246, MEMT 330, and/or consent of instructor. RSH.

COND 712. Choral Conducting II. 1-3 Hours.
Continuation of COND 711. RSH.

COND 745. Instrumental Conducting. 2 Hours.
A study of conducting techniques and problems in rehearsal and performance. Score analysis and repertoire development. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

COND 791. Score Reading. 2 Hours.
Development of skills in the reading of all clefs and the most common transpositions. Simultaneous reading of multiple lines and their practical rendition at the piano. May be repeated for credit. RSH.

COND 811. Advanced Choral Conducting. 1-6 Hours.
A study of conducting techniques as they pertain to developing an expressive and precise choral ensemble. Participating in rehearsals under the supervision of instructor. May involve conducting in public performance. May be repeated for credit. Summer session limit one to three hours. Prerequisite: Four hours of conducting and/or consent of instructor. IND.
COND 820. Advanced Choral Conducting and Rehearsal Techniques. 3 Hours.
Refinement of conducting and teaching skills in a choral setting. Focus on relationships between gesture and choral sound, rehearsal structure and optimal learning, and age-appropriate choral literature and development of musicality. (Same as MEMT 820.) LAB.

COND 821. Advanced Score Reading. 2 Hours.
Development of fluency in reading full scores at the piano. May be repeated for credit. Prerequisite: Two semesters of COND 791 or consent of instructor. RSH.

COND 822. Choral Literature - Late Baroque Era to Classical Era. 3 Hours.
LEC.

COND 823. Choral Literature - Romantic Era. 3 Hours.
LEC.

COND 824. Choral Literature - Contemporary Era. 3 Hours.
LEC.

COND 825. Choral Literature-Renaissance. 3 Hours.
The study of literature from the Renaissance to the Early Baroque period. LEC.

COND 845. Advanced Instrumental Conducting. 3 Hours.
A study of techniques needed to project the conductor's concept in rehearsal and performance. Participating in rehearsals under the supervision of the instructor. May involve conducting in public performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

COND 921. Seminar. 3 Hours.
Choral literature from 1450 to 1650. LEC.

COND 931. Seminar. 3 Hours.
Symphonic repertoire. LEC.

COND 932. Seminar. 3 Hours.
Operatic repertoire. LEC.

COND 933. Seminar. 3 Hours.
Solo repertoire with orchestra. LEC.

COND 941. Seminar: Band Literature ______. 3 Hours.
A study of literature for wind band including original works and transcriptions. May be repeated for credit when topic varies. LEC.

COND 961. Directed Performance. 1-6 Hours.
Open only to students who have been admitted to the D.M.A. program in conducting. May be repeated for credit. Summer session limit one to three hours. RSH.

COND 965. Doctoral Recitals. 1-2 Hours.
Maximum credit, four hours. May be repeated for credit. THE.

COND 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student's major field. Open only to candidates for the D.M.A. in conducting. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

COND 972. D.M.A. Document. 1-6 Hours.
A scholarly paper on a subject pertinent to the student's major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

DBBS 100. Double Bass. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

DBBS 120. Double Bass Performance Class. 0-1 Hours.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in double bass, viola, violin, and violoncello study. May be repeated. LEC.

DBBS 121. Double Bass. 1-5 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

DBBS 221. Double Bass. 1-5 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

DBBS 300. Double Bass. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

DBBS 320. Double Bass Performance Class. 0-1 Hours.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in double bass, viola, violin and violoncello study. May be repeated. LEC.

Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

DBBS 421. Double Bass. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

DBBS 422. Double Bass. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

DBBS 622. Double Bass. 1-5 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

DBBS 711. Double Bass. 1-4 Hours.
For graduate students not majoring in double bass. May be repeated for credit. Summer session limit one to three hours. IND.

DBBS 720. Double Bass Performance Class. 0-1 Hours.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in double bass, viola, violin and violoncello study. May be repeated. LEC.

DBBS 811. Double Bass. 1-6 Hours.
For graduate students majoring in double bass. May be repeated for credit. IND.

EUPH 100. Euphonium. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

EUPH 121. Euphonium. 1-4 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

EUPH 221. Euphonium. 1-4 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.
FLUT 300. Flute. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

FLUT 321. Flute. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

FLUT 331. Baroque Flute. 1-4 Hours.
One or two lessons per week. For juniors and seniors. May be repeated for credit. IND.

FLUT 421. Flute. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

FLUT 422. Flute. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

FLUT 422. Flute. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

FLUT 711. Flute. 1-4 Hours.
For graduate students not majoring in flute. May be repeated for credit. Summer session limit one to three hours. IND.

FLUT 811. Flute. 1-6 Hours.
For graduate students majoring in flute. May be repeated for credit. Summer session limit one to three hours. IND.

FRHN 121. French Horn. 1-4 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

FRHN 221. French Horn. 1-4 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 4 credits (8 for performance majors). IND.

FRHN 321. French Horn. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

FRHN 321. French Horn. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

FRHN 421. French Horn. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.
FRHN 422. French Horn. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

FRHN 622. French Horn. 1-4 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

FRHN 652. Horn Ensemble. 0-1 Hours.
For juniors, seniors, and graduate students. Study and performance of ensemble literature for the horn. May be repeated for credit. IND.

FRHN 711. French Horn. 1-4 Hours.
For graduate students not majoring in French horn. May be repeated for credit. Summer session limit one to three hours. IND.

FRHN 811. French Horn. 1-6 Hours.
For graduate students majoring in French horn. May be repeated for credit. Summer session limit one to three credits. IND.

FRHN 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in French Horn. May be repeated for credit. Summer session limit one to two hours. RSH.

FRHN 965. Doctoral Recitals. 1-3 Hours.
May be repeated for credit. THE.

FRHN 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

FRHN 972. D.M.A. Document. 1-6 Hours.
A scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

GUIT 100. Beginning Group Guitar I. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

GUIT 102. Beginning Group Guitar II. 1 Hour.
A continuation of GUIT 100 or for beginning students with considerable music experience. Emphasis on guitar basics, using easy exercises, etudes, chord structure and scales, sight reading, including lead sheets. IND.

GUIT 120. Intermediate Group Guitar. 2 Hours.
A pedagogical approach to guitar literature of medium difficulty. A survey of standard methods, etudes, and literature through group performance and individual assignments. IND.

GUIT 121. Guitar. 1-4 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

GUIT 122. Advanced Group Guitar. 2 Hours.
A survey of intermediate and advanced etudes as they apply to the representative and corresponding literature. Advanced technical studies. IND.

GUIT 221. Guitar. 1-4 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

GUIT 300. Guitar. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

GUIT 321. Guitar. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

GUIT 421. Guitar. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

GUIT 422. Guitar. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.
HARP 622. Harp. 1-5 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

HARP 711. Harp. 1-4 Hours.
For graduate students not majoring in harp. May be repeated for credit. Summer session limit one to three hours. IND.

HARP 720. Harp Performance Class. 1 Hour.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in violin (viola, etc.) study. For freshman and sophomores (120); juniors and seniors (320); graduate student (720) (as appropriate). May be repeated for credit. LEC.

HARP 811. Harp. 1-6 Hours.
For graduate students majoring in harp. May be repeated for credit. Summer session limit one to three hours. IND.

HPCD 100. Harpsichord. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

HPCD 300. Harpsichord. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

HPCD 621. Harpsichord. 1-4 Hours.
One or two lessons per week. For graduate students. May be repeated for credit. IND.

HPCD 711. Harpsichord. 1-4 Hours.
Summer session limit one to two credits. May be repeated for credit. IND.

JAZZ 105. Jazz Theory. 2 Hours.
An introduction to jazz harmony: Scales, modes, chord symbols, chord voicing practices, analysis, reharmonization practices, scale choices for improvisation, creation of bass lines. Prerequisite: MTHC 105 or consent of instructor. ACT.

JAZZ 208. Jazz Ensemble. 0-1 Hours.
For freshmen and sophomores. A performance laboratory specializing in the preparation and presentation of jazz compositions and arrangements. Designed to provide today's student musician with the background and skills necessary to function successfully as a professional studio musician, or as a teacher of popular jazz music. May be repeated for credit. Prerequisite: Consent of director. ACT.

JAZZ 209. Jazz Combo. 0-1 Hours.
Study and performance of music designed for the small jazz combo. Emphasis placed on jazz improvisation, and a survey of a wide variety of styles for this medium. May be repeated for credit. Prerequisite: Consent of director. ACT.

JAZZ 212. Vocal Jazz Ensemble. 0-1 Hours.
Study and performance of vocal jazz compositions and arrangements with emphasis on vocal jazz improvisation. Membership by audition. May be repeated for credit. ACT.

JAZZ 224. Jazz Improvisation I. 2 Hours.
Study of techniques involved in jazz improvisation, including application of chord/scale relationships to basic blues and II-V-I chord progressions; transcriptions of recorded jazz solos; and memorization of jazz standards and patterns. Prerequisite: JAZZ 105 or JAZZ 305 or permission of instructor. ACT.

JAZZ 225. Jazz Improvisation II. 2 Hours.
Study of advanced techniques in jazz improvisation, including third relationships, Coltrane changes, advanced reharmonization and altered pentatonic patterns and scales. Continuation of solo transcriptions, patterns and jazz standard memorization from Jazz Improvisation I. Prerequisite: JAZZ 224 or JAZZ 624 or permission of instructor. ACT.

JAZZ 230. Introduction to Jazz Piano. 2 Hours.
Study of common jazz piano chord voicings, including two hand block chordal voicings and left hand-only voicings. Prerequisite: JAZZ 105 or JAZZ 305 or permission of instructor. ACT.

JAZZ 305. Jazz Theory. 2 Hours.
An introduction to jazz harmony: Scales, modes, chord symbols, chord voicing practices, analysis, reharmonization practices, scale choices for improvisation, creation of bass lines. Prerequisite: MTHC 105 or consent of instructor. ACT.

JAZZ 409. Jazz Combo. 0-1 Hours.
Study and performance of music designed for the small jazz combo. Emphasis placed on jazz improvisation, and a survey of a wide variety of styles for this medium. May be repeated for credit. Prerequisite: Permission of director. ACT.

JAZZ 459. Jazz Arranging. 2 Hours.
Study of techniques and practices involved in arranging for the contemporary jazz ensemble (big band) and jazz combo, including voicings, counterpoint, nomenclature and writing for jazz rhythm sections. Prerequisite: JAZZ 105 or JAZZ 305 and JAZZ 230 or permission of instructor. ACT.

JAZZ 608. Jazz Ensemble. 0-1 Hours.
For juniors, seniors, and graduate students. May be repeated for credit. ACT.

JAZZ 612. Vocal Jazz Ensemble. 0-1 Hours.
Study and performance of vocal jazz compositions and arrangements with emphasis on vocal jazz improvisation. Membership by audition. For juniors, seniors, and graduate students. May be repeated for credit. ACT.

JAZZ 624. Jazz Improvisation I. 2 Hours.
Study of techniques involved in jazz improvisation, including application of chord/scale relationships to basic blues and II-V-I chord progressions; transcriptions of recorded jazz solos; and memorization of jazz standards and patterns. Prerequisite: JAZZ 105 or JAZZ 305 or permission of instructor. LAB.

JAZZ 625. Jazz Improvisation II. 2 Hours.
Study of advanced techniques in jazz improvisation, including third relationships, Coltrane changes, advanced reharmonization and altered pentatonic patterns and scales. Continuation of solo transcriptions, patterns and jazz standard memorization from Jazz Improvisation I. Prerequisite: JAZZ 224 or JAZZ 624 or permission of instructor. ACT.

JAZZ 630. Introduction to Jazz Piano. 2 Hours.
Study of common jazz piano chord voicings, including two hand block chordal voicings and left hand-only voicings. Prerequisite: JAZZ 105 or JAZZ 305 or permission of instructor. ACT.

JAZZ 659. Jazz Arranging. 2 Hours.
Study of techniques and practices involved in arranging for the contemporary jazz ensemble (big band) and jazz combo, including voicings, counterpoint, nomenclature and writing for jazz rhythm sections. Prerequisite: JAZZ 105 or JAZZ 305 and JAZZ 230 or permission of instructor. ACT.

MEMT 111. Class Guitar for Nonmajors. 2 Hours.
Common chords, major and minor triads and major-minor sevenths, and fundamentals of music notation for guitar. Strumming and rudimentary finger picking. Performance of simple melodies on all six strings from standard notation. May be repeated for credit. IND.
MEMT 112. Performance Media: _______. 0.5-1 Hours.
Laboratory class lessons in pedagogy and performance. May be repeated for credit in different specific media. LAB.

MEMT 113. Performance Media: Brass. 1 Hour.
Knowledge and skills needed to teach brass instruments in music education settings. LAB.

MEMT 114. Performance Media: Woodwinds. 1 Hour.
Knowledge and skills needed to teach woodwind instruments in music education settings. LAB.

MEMT 115. Performance Media: Percussion. 1 Hour.
Knowledge and skills needed to teach and use percussion instruments in music education settings. LAB.

MEMT 116. Performance Media: Computers, Synthesizers, and Electronics. 1 Hour.
Knowledge and skills needed to teach and use computers, synthesizers, and electronics. LAB.

MEMT 118. Performance Media: Strings. 1 Hour.
Knowledge and skills needed to teach string instruments in music education settings. LAB.

MEMT 119. Performance Media: Guitar. 1 Hour.
Knowledge and skills needed to teach and use guitar functionally in music education and music therapy settings. LAB.

MEMT 150. Introduction to Music Therapy. 3 Hours.
An overview of the music therapy profession including, but not limited to, history, philosophy, areas of clinical practice, necessary skills and competencies, and career opportunities. LEC.

MEMT 160. Principles of Music Education. 1 Hour.
An overview of the music education field. History, philosophy, curricula, necessary skills and competencies for music educators, and alternative careers in music. LEC.

MEMT 196. Group Leadership Skills in Music Therapy. 2 Hours.
Music therapy group leadership skills; leading group singing, playing accompanying instruments, and developing effective delivery skills. Prerequisite: MEMT 150 Introduction to Music Therapy/MEMT 760 Principles of Music Therapy. LEC.

MEMT 229. Performance Clinic: _______. 1 Hour.
Designed to provide students with opportunities to sing and play instruments other than their principal instrument in ensembles. Materials chosen for suitability for secondary school ensembles. Techniques for care and maintenance of the voice and instruments. May be repeated for credit. Prerequisite: Permission of instructor. LAB.

MEMT 230. Performance Clinic: Band. 1 Hour.
Continued development of the knowledge and skills needed to teach band in music education settings. Prerequisite: MEMT 113 and MEMT 114, or MEMT 113 and MEMT 115, or MEMT 114 and MEMT 115, or permission of the instructor. LAB.

MEMT 231. Performance Clinic: Choral. 1 Hour.
Continued development of the knowledge and skills needed to teach and use the singing voice in music education and music therapy settings. LAB.

MEMT 232. Performance Clinic: Orchestra. 1 Hour.
Continued development of the knowledge and skills needed to teach string instruments in music education settings. Prerequisite: MEMT 118 or permission of the instructor. LAB.

MEMT 246. Fundamentals of Conducting. 1 Hour.
This course deals with the techniques of the baton, with gestures, signs, and cues as generally used in conducting choral and instrumental organizations. It includes the essentials of conducting techniques in both the choral and instrumental types of ensemble performance. LAB.

MEMT 250. Human Musical Learning and Development. 2 Hours.
Music learning and development from infancy through adulthood. Development of musical perception, cognition, performance skills, attitudes, and affective/aesthetic responses. Use of theoretical, knowledge-based rationale for building music instruction systems. LEC.

MEMT 251. Clinical Techniques for Children. 3 Hours.
Music therapy treatment techniques (setting goals, selecting/applying treatment, monitoring/evaluating results) for children in a variety of settings. Clinical observation and application of techniques will be course components. Prerequisite: MEMT 250. Corequisite: SPED 326. LEC.

MEMT 296. Clinical Techniques for Adults. 3 Hours.
Music therapy treatment techniques (setting goals, selecting/applying treatment, monitoring/evaluating results) for adults in a variety of settings. Clinical observation and application of techniques will be course components. FLD.

MEMT 311. Intermediate Class Guitar. 2 Hours.
Instruction in playing barre chords, blues and Latin strums, major and minor scales, position studies, and special effects such as the Travis pick, hammer on, and slurring techniques. Prerequisite: MEMT 116-Guitar; or MEMT 111; or permission of instructor. IND.

MEMT 329. Rehearsal/Conducting Clinic: _______. 1 Hour.
Rehearsing and conducting ensembles appropriate for music education and music therapy. May be repeated for credit. Prerequisite: Permission of instructor. LAB.

MEMT 330. Rehearsal/Conducting Clinic: Band. 1 Hour.
Knowledge and skills needed to rehearse and conduct band ensembles. Prerequisite: MEMT 230 and MEMT 246 and admission into the Music Education Professional Sequence; or with permission of the MEMT division. LAB.

MEMT 331. Rehearsal/Conducting Clinic: Choral. 1 Hour.
Knowledge and skills needed to rehearse and conduct choral ensembles. Prerequisite: MEMT 231 and MEMT 246 for Music Education majors or MEMT 231. Corequisite: MEMT 246 for Music Therapy majors or permission of the instructor. LAB.

MEMT 332. Rehearsal/Conducting Clinic: Orchestra. 1 Hour.
Knowledge and skills needed to rehearse and conduct orchestral ensembles. Prerequisite: MEMT 232 and MEMT 246, and admission into the Music Education Professional Sequence; or with permission of the MEMT division. LAB.

MEMT 341. Instructional Strategies in Music for Elementary Classroom Teachers. 2 Hours.
Child growth and development in music. Materials as they relate to a sequential music education curriculum in the elementary school. Prerequisite: Admission to the School of Education or the education division of the graduate school. LEC.

MEMT 349. Advanced Rehearsal/Conducting Clinic: _______. 1 Hour.
Advanced knowledge and skills needed to rehearse and conduct ensembles, including attention to more difficult literature with ensembles exhibiting increasing sophistication. May be repeated for credit. Prerequisite: Admission into Music Education Professional Sequence and with permission of the MEMT division. LAB.

MEMT 350. Advanced Rehearsal/Conducting Clinic: Band. 1 Hour.
Advanced knowledge and skills needed to rehearse and conduct band ensembles, including attention to more difficult concert band literature with ensembles exhibiting increasing sophistication. Prerequisite: MEMT 330
and admission into the Music Education Professional Sequence; or with permission of the MEMT division. LAB.

MEMT 351. Advanced Rehearsal/Conducting Clinic: Choral. 1 Hour.
Advanced knowledge and skills needed to rehearse and conduct choral ensembles, including attention to more difficult choral literature with ensembles exhibiting increasing sophistication. Prerequisite: MEMT 331 and admission into the Music Education Professional Sequence; or with permission of the MEMT division. LAB.

MEMT 352. Advanced Rehearsal/Conducting Clinic: Orchestra. 1 Hour.
Advanced knowledge and skills needed to rehearse and conduct string orchestra ensembles, including attention to more difficult string orchestra literature with ensembles exhibiting increasing sophistication. Prerequisite: MEMT 332 and admission into Music Education Professional Sequence; or with permission of the MEMT division. LAB.

MEMT 366. Introduction to Research in Music Therapy and Music Education. 2 Hours.
Investigative techniques in music therapy and music education with emphasis on small group and case study design and analysis. Prerequisite: Admission to the professional sequence in music education or music therapy or with permission from the MEMT division. LEC.

Theories and techniques for managing the music classroom and clinic setting for best professional practice. Understanding the self and environment as management factors. Field practice of management techniques. Prerequisite: MEMT 250 and admission into the Music Education Professional Sequence or Music Therapy Professional Sequence; or with permission from the MEMT Division. LEC.

MEMT 396. Clinical Practicum. 1-3 Hours.
Supervised clinical practice in on-campus or other approved setting. May be repeated for credit. Prerequisite: Admission to the professional sequence in music education or music therapy or with permission from the MEMT division. FLD.

MEMT 407. The Exceptional Child in Music Education. 2 Hours.
Skills and knowledge needed to facilitate appropriate and productive integration of exceptional children and youth into music classroom settings. Prerequisite: MEMT 367, SPED 326, and admission into the Music Education Professional Sequence; or with permission of the MEMT division. LEC.

MEMT 408. Vocal Pedagogy. 1 Hour.
Knowledge and skills needed to teach voice, with particular attention to lifespan voice anatomy, physiology, and acoustics, diagnosis and correction of vocal inefficiencies, teaching styles, repertoire choice, professional development, and acquaintance with current research in voice science and vocal pedagogy. Includes a voice teaching practicum. (Same as VOIC 408.) Prerequisite: MEMT 160, MEMT 231, MEMT 331 and admission into the Music Education Professional Sequence or the Music Therapy Professional Sequence; or with permission from the MEMT division. LEC.

MEMT 421. Advanced General Music Teaching. 1 Hour.
Enhanced methodology and pedagogy course for the general music classroom; advanced instruction in teaching children to improvise, sing, play classroom instruments, listen, move, and create music based on specific pedagogies; advanced instruction in assessment strategies. This course is for undergraduate music majors in their senior year. Prerequisite: MEMT 420 and admission to the Music Education Professional Sequence. LEC.

MEMT 431. Choral Diction for Music Educators. 1 Hour.
Knowledge and skills needed to teach choral diction in music education settings. Prerequisite: Admission into the Music Education Professional Sequence; or with permission of the MEMT division. LEC.

MEMT 432. Approaches to String Pedagogy. 1 Hour.
An examination of the concepts and skills associated with the most influential past and current pedagogical approaches to string education. Prerequisite: Admission to the Music Education Professional Sequence. LEC.

MEMT 433. Jazz Techniques. 1 Hour.
Knowledge and skills needed to teach jazz techniques in music education settings. Prerequisite: Admission into the Music Education Professional Sequence. LEC.

MEMT 435. Marching Band Techniques. 1 Hour.
Knowledge and skills needed to teach and administer marching bands in music education settings. Prerequisite: Admission into the Music Education Professional Sequence; or with permission of the MEMT division. LEC.

MEMT 450. Teaching Choral Music. 2 Hours.
Application of research-based skills for curriculum development, content selection, and development of teaching strategies for choral music programs to students in early childhood through adulthood including those with disabilities. Prerequisite: MEMT 331, MEMT 420, and admission into the Music Education Professional Sequence; or with permission of the MEMT division. LEC.

MEMT 451. Teaching Instrumental Music. 2 Hours.
Application of research-based skills for curriculum development, content selection, and development of teaching strategies for instrumental music programs to students in early childhood through adulthood including those with disabilities. Prerequisite: MEMT 330, MEMT 420, and admission into the Music Education Professional Sequence; or with permission of the MEMT division. LEC.

MEMT 454. Psychological Foundations of Musical Behavior I. 2 Hours.
Laboratory and field research in psychology of music. Prerequisite: MEMT 453 or concurrent enrollment. LEC.

MEMT 455. Psychology of Music. 3 Hours.
Psychological bases of music and human musical behavior. Study of musical sound perception, cognition, response, reproduction, and creation. Room Acoustics are studied. Research projects required. Prerequisite: MEMT 367, MEMT 420 (music education majors); and admission into the Music Education Professional Sequence or the Music Therapy Professional Sequence; or with permission of the MEMT division. LEC.

MEMT 463. The Influence of Music on Behavior I. 3 Hours.
A study of the various effects of music. The place of functional music in music education. Investigation of effective media and musical patterns. The relation of music to health. Prerequisite: Admission to the professional sequence in music education or music therapy or with permission of the MEMT division. LEC.
MEMT 464. Music in Therapy. 3 Hours.
Issues examined include music therapy concepts in the development of program applications, professional marketing, and job proposals. These applications are based on theoretical constructs concerning the physiological, psychological, and social responses of persons to music. In addition, this course includes current trends in the field along with regulatory guidelines concerning practice design, implementation, evaluation, ethics, and standards of clinical practice. Prerequisite: Admission to the professional sequence in music education or music therapy or with permission of the MEMT division. LEC.

MEMT 472. Music Education and Music Therapy Research Project. 1-3 Hours.
Clinical, laboratory, field, or historical research in music education or music therapy. May be repeated for credit. Prerequisite: MEMT 366 or equivalent, and permission of instructor. RSH.

MEMT 497. Independent Study in: ____. 1-4 Hours.
Only one enrollment permitted each semester; a maximum of four hours will apply toward the bachelor's degree. May be repeated for credit. Prerequisite: Recommendation of advisor and consent of instructor. IND.

MEMT 498. Student Teaching. 2-4 Hours.
A supervised teaching experience in an approved school setting, with level and subject area to be selected from either elementary general music or a secondary teaching area not covered in MEMT 496. This experience is a minimum of five weeks full time experience. It will begin the spring of the Senior Year right after the new year. Prerequisite: Admission into the Music Education Professional Sequence and MEMT 496. LEC.

MEMT 499. Internship in Teaching Music. 4-8 Hours.
A supervised internship experience leading to initial music teacher certification. The student assumes the total professional role as a teacher of music in an approved school setting with level and subject area to be the remaining area not experienced in MEMT 496 or MEMT 498. This experience is a minimum of twelve weeks full time experience. Prerequisite: Admission into the Music Education Professional Sequence and either completion of or concurrent enrollment with MEMT 498. LEC.

MEMT 500. Student Teaching in: ____. 1-6 Hours.
A supervised teaching experience in an approved school setting, with level and subject area to be selected according to the teaching field. May be repeated for credit. Prerequisite: Admission to the Student Teaching program. FLD.

MEMT 586. Seminar in Music Therapy Professional Development I. 1 Hour.
This seminar style course will focus on Internship Placement, Board Certification, and Professional Advocacy. Undergraduate Corequisite: MEMT 463 and MEMT 464. Graduate Corequisite: MEMT 763 and MEMT 764. LEC.

MEMT 587. Seminar in Music Therapy Professional Development II. 1 Hour.
This seminar style course will focus on supervision, Ethics, and Professional Involvement in AMTA. Prerequisite: MEMT 586. LEC.

MEMT 596. Clinical Internship. 1-15 Hours.
Successful completion of six months of full-time clinical experience (minimum of 1,040 hours) as a music therapy intern in an approved setting. May be repeated for credit. Prerequisite: Completion of senior year in music therapy or its equivalent at the graduate level. FLD.

MEMT 597. Individual Study in: ____. 1-15 Hours.
Successful completion of six months of full time clinical experience (minimum of 1040 hours) as a music therapy intern in an approved setting. May be repeated for credit. Prerequisite: Completion of senior year in music therapy or its equivalent at the graduate level. IND.

MEMT 598. Special Course: ____. 1-5 Hours.
A special course of study to meet current needs of education students -- primarily for undergraduates. May be repeated for credit. LEC.

MEMT 616. Advanced Pedagogy and Materials: ____. 1 Hour.
(FS) Techniques and materials appropriate for instruction in musical media. May be repeated for credit in different specific media. LAB.

MEMT 651. Sociocultural Influences on Musical Behavior. 3 Hours.
Cultural and social determinants of musical behavior. Musical value systems in contemporary cultures. Prerequisite: MTHC 214 or MEMT 341 or permission of instructor. LEC.

MEMT 670. Acoustics of Music. 3 Hours.
Study of physical aspects of sound, stressing the production, reproduction, transmission, and reception of musical sounds. Acoustics of musical instruments and auditoria, systems of tuning, wave phenomena in musical environments, behavior of the ear, and electrical analysis, synthesis, and recording are included. Laboratory. LEC.

MEMT 695. Developing Theoretical Framework for Evidence-Based Practice. 3 Hours.
The purpose of this course is to provide music therapy majors with the tools to read, evaluate, understand, and facilitate research in order to develop a theoretical framework for decision making in evidence based clinical practice. Prerequisite: MEMT 464 Music in Therapy or MEMT 764 Music in Therapy and admission to the Music Therapy Professional Sequence. LEC.

MEMT 707. Mainstreaming/Inclusion in Music Education. 2 Hours.
Skills and knowledge needed to facilitate appropriate and productive integration of children and youth with disabilities into music classroom settings. Prerequisite: MEMT 500 and SPED 431. LEC.

MEMT 710. Professional Development. 1 Hour.
Participation in approved professional development conferences. Requires documentation of attendance, an annotated time log of activities, and a short paper. May be repeated for up to 3 credit hours. FLD.

MEMT 711. Emerging Technologies for Choral Teaching and Learning. 2-3 Hours.
Applications of current digital and electronic technologies to choral ensemble teaching and learning. LEC.

MEMT 750. Measurement in Music Education Professional Practice. 3 Hours.
Skills and knowledge needed by professional music educators to assess and evaluate students, learning, instruction, curriculum, and programs. Measurement and evaluation techniques for cognitive, affective, and psychomotor learning in music. Criterion and norm reference measures in formative and summative evaluation. Use of evaluation data for improving instruction, curriculum, and program. Standardized tests. Reporting and interpreting evaluation results. LEC.

MEMT 753. Psychology and Acoustics of Music. 5 Hours.
Psychological and acoustical bases of music and human musical behavior. Study of musical sound production, transmission, perception, cognition, response, and reproduction. Laboratory component and research project required. LEC.

MEMT 760. Principles of Music Therapy. 3 Hours.
An overview of the music therapy profession including, but not limited to, history, philosophy, areas of clinical practice, necessary skills and competencies, and career opportunities. LEC.
MEMT 761. Clinical Techniques for Children. 3 Hours.
Music therapy treatment techniques (setting goals, selecting/applying treatment, monitoring, evaluating results) for children in a variety of settings. Clinical observation and application of techniques will be course components. FLD.

MEMT 762. Clinical Techniques for Adults. 3 Hours.
Music therapy treatment techniques (setting goals, selecting/applying treatment, monitoring, evaluating results) for adults in a variety of settings. Clinical observation and application of techniques will be course components. FLD.

MEMT 763. The Influence of Music on Behavior I. 3 Hours.
A study of the various effects of music. The place of functional music in music education. Investigation of effective media and musical patterns. The relation of music to health. Prerequisite: Admission to the professional sequence in music education or music therapy or with permission from the MEMT division. LEC.

MEMT 764. Music in Therapy. 3 Hours.
Issues examined include music therapy concepts in the development of program applications, professional marketing, and job proposals. These applications are based on theoretical constructs concerning the physiological, psychological, and social responses of persons to music. In addition, this course includes current trends in the field along with regulatory guidelines concerning practice design, implementation, and evaluation, ethics, and standards of clinical practice. Prerequisite: Admission to the professional sequence in music education or music therapy or with permission from the MEMT division. LEC.

MEMT 772. Music Education and Music Therapy Research Project. 1-3 Hours.
Clinical, laboratory, field, or historical research in music education or music therapy. May be repeated for credit. Prerequisite: MEMT 366 or equivalent, permission of instructor. IND.

MEMT 780. Internship in Teaching Music: ____, 1-15 Hours.
A supervised internship experience leading to initial music teacher certification. The student assumes the total professional role as a teacher of music in an approved school setting. FLD.

MEMT 791. Music Education/Music Therapy Techniques: ____, 1-3 Hours.
Specific methodologies, strategies, approaches, and materials for music education/musical therapy for specific populations, musical media, instructional settings, or clinical environments. May be repeated for credit. LEC.

MEMT 798. Special Course: ____, 1-5 Hours.
A special course of study to meet current needs of education professionals -- primarily for graduate students. May be repeated for credit. LEC.

MEMT 812. Research in Music Education and Music Therapy. 3 Hours.
Study of research in music education and music therapy. Required of all candidates for graduate degrees. Enrollment must precede or be concurrent with enrollment in thesis. LEC.

MEMT 813. History and Philosophy of Music Education. 3 Hours.
A study of music education with reference to its historical development and to educational psychology. Consideration of recent trends and the place of music in the school curriculum. Criteria for the evaluation of activities, courses, materials, and methods in a well-balanced program of music. LEC.

MEMT 814. Sociology of Music. 3 Hours.
A study of societal influence on musical thought and practice, both in historical perspective and in comparative study of contemporary societies. The relations between school and community music. The role of musical organizations, institutions, and agencies in American life. LEC.

MEMT 815. Musical Values and Aesthetics. 3 Hours.
Examination of musical values in the context of music's functions and uses. Diverse viewpoints are considered, with attention to philosophical and psychological aesthetics. Implications and applications of values systems for music education, music therapy, and other fields. LEC.

MEMT 816. Current Trends in Music Education. 3 Hours.
A comprehensive study of the elements that contribute to current practice and successful music programs (many of all of these may be anticipated dependent upon the class participants' needs): curriculum, standards, assessment, classroom management, pedagogy, leadership, organizational structure, budget and finance, scheduling, federal mandates, and administrative practices. LEC.

MEMT 817. Methodologies in Music Education. 3 Hours.
A survey of music methodologies (general, vocal, instrumental) used by teachers at the pre-school, elementary, middle/junior high, and high school levels. LEC.

MEMT 818. Behavior Management in Music. 3 Hours.
A study of behavioral theories and techniques as applied to classroom and clinical settings for music professionals. Emphasis on a conceptual framework for human behavior and the ameliorative aspects of music. LEC.

MEMT 819. Music in Early Childhood. 2 Hours.
Child development as related to musical development, including implications for participation in music from birth through age seven. Current trends in goals, objectives, materials, equipment, facilities, training and evaluation will be discussed. LEC.

MEMT 820. Advanced Choral Conducting and Rehearsal Techniques. 3 Hours.
Refinement of conducting and teaching skills in a choral setting. Focus on relationships between gesture and choral sound, rehearsal structure and optimal learning, and age-appropriate choral literature and development of musicality. (Same as COND 820.) LAB.

MEMT 823. Seminar in: ____, 1-3 Hours.
May be repeated for credit. LEC.

MEMT 825. Choral Diction. 3 Hours.
Study of methods to teach and learn diction in choral music contexts. Attention to International Phonetic Alphabet, acoustic implications of particular phonemes, and contributions of emerging technologies. Application of various languages, including English, Latin, Italian, French, German, and Spanish. (Same as CHOR 825.) LEC.

MEMT 826. Adolescent Changing Voices. 3 Hours.
Scientific approaches to the pedagogy of adolescent male and female voices during voice change. (Same as CHOR 826.) LEC.

MEMT 827. Children's Voices. 3 Hours.
Scientific approaches to understanding and working with unchanged children's voices. (Same as CHOR 827.) LEC.

MEMT 828. Science-based Voice Education. 3-6 Hours.
Comprehensive examination of vocal anatomy, respiration, phonation, resonance, articulation, and voice development, with particular attention to research-based vocal/choral pedagogies for working with child through senior adult voices. (Same as CHOR 828.) Prerequisite: Permission of instructor. LEC.
MEMT 830. Leadership and Program Development in Music Education. 2-3 Hours.
A comprehensive study of the elements of management, leadership, organizational structure, budget and finance, federal mandates, and administrative practices. LEC.

MEMT 835. Practical Applications of Advanced Methodology in the Music Classroom. 2-3 Hours.
A comprehensive study and application of the elements that contribute to current practice in methodology and pedagogy in the music classroom, encompassing elementary general, choral, orchestral, and band music. LEC.

MEMT 838. Orff Applications in Music Education and Music Therapy. 2 Hours.
The use of the Orff-Shulwerk approach in music education and music therapy. Course includes historical background, philosophical approach and practical application of the process. Prerequisite: Admission to professional sequence or permission from MEMT division. LEC.

MEMT 840. Development and Application of Improvisation Skills. 2-3 Hours.
Development of individual and group improvisation skills and their applications in professional practice. LEC.

MEMT 845. Curriculum Development in Music Education. 3 Hours.
Developing a practical and useful music curriculum that aligns theoretical/philosophical position, program goals, course objectives, instructional materials, learning activities, and assessments. LEC.

MEMT 850. Measurement of Musical Behavior. 3 Hours.
Measurement theory applied to the development and administration of measures of musical ability, achievement, attitude, and performance for the use in individual and program evaluation. Classical and innovative methods for establishing reliability and validity. Each student will develop and evaluate a measure of some type of musical behavior appropriate for an educational or therapeutic setting. LEC.

MEMT 854. Music Therapy in Pediatrics. 2 Hours.
The use of music therapy in individual and group pediatric settings. Course includes an overview of childhood illnesses, associated medical terminology, and therapy techniques used as contextual and procedural support. Prerequisite: Admission to professional sequence or permission from MEMT division. LEC.

MEMT 855. Music Therapy in Hospice and Bereavement. 2 Hours.
The use of music therapy for hospice patients and their families, as well as clients who are grieving due to death of a loved one. Course includes historical, theoretical and practical perspectives. Prerequisite: Admission to professional sequence or permission from MEMT division. LEC.

MEMT 856. Neurologic Music Therapy. 2 Hours.
The scientific basis for the neurological influence of music on behaviors in physical functioning and cognitive functioning will be explored in rehabilitation and learning models. Clinical experience will be included. Prerequisite: Admission to the graduate program in music therapy or permission of the instructor. FLD.

MEMT 857. Music Therapy in Gerontology. 2 Hours.
The theories and clinical applications of music therapy across the life span of older adults, including the young old, the middle old, and the old old. Special considerations will be given to persons with debilitating conditions including dementia, and to older persons’ professional and family caregivers. Prerequisite: Admission to the graduate program in music therapy or permission of the instructor. FLD.

MEMT 858. Music Therapy in Medical Care and Wellness of Adult Persons. 2 Hours.
Theories and practice of music therapy as enhancement to health and wellness and to medical interventions for adults will include applications within the medical setting and in the home setting. Interventions will include, among others, approaches for stress management, medical procedural support, pre-operative and post-operative support, follow-up care in catastrophic illness, interventions in post-traumatic stress disorder, and others. Prerequisite: Admission to the graduate program in music therapy or permission of the instructor. FLD.

MEMT 860. Assessment in Music Therapy Professional Practice. 2 Hours.
Skills and knowledge needed to assess and evaluate clients, goals, treatments and their effectiveness, program outcomes, program quality, and quality of care. LEC.

MEMT 861. Current Trends in Music Therapy. 2 Hours.
A comprehensive study of the elements that contribute to current practice in music therapy, but not limited to, professional competencies, code of ethics, assessment and implementation of interventions, leadership, organizational structure, budget and finance, scheduling and management of contracts, grant writing, and other administrative practices. FLD.

MEMT 863. The Influence of Music on Behavior II. 2 Hours.
A laboratory and research course to accompany or follow MEMT 763. LAB.

MEMT 864. Philosophy and Theory of Music Therapy. 3 Hours.
Concentrated, interdisciplinary study of conceptual foundations for music therapy. LEC.

MEMT 890. Practicum in Music Therapy. 1-16 Hours.
Advanced music therapy practice including clinical work with a population of the student’s choice which incorporates music therapy program design, implementation, and evaluation. The student will work in consultation with qualified Music Therapy staff. May be repeated for credit. FLD.

MEMT 891. Advanced Clinical Techniques. 3 Hours.
The student will articulate, test and refine music therapy clinical practice protocol(s) with a clientele(s) of choice. Students will work in consultation with qualified Music Therapy staff. FLD.

MEMT 892. Supervision in Music Therapy I. 3 Hours.
Study and application of theoretical models and supervisory roles applicable to music therapy clinical supervision. Students will review developmental levels for supervisors and practicum students. Supervision of music therapy clinical practicum students will be required. LEC.

MEMT 893. Supervision in Music Therapy II. 3 Hours.
A model of practicum supervision will be applied in music therapy clinical practicum supervision. Video and/or tape recordings of supervision conferences with practicum students will be reviewed in consultation with qualified music therapy staff. LEC.

MEMT 895. Master’s Project. 1-3 Hours.
May be repeated for credit. RSH.

MEMT 897. Independent Study. 1-4 Hours.
May be repeated for credit. Prerequisite: Consent of advisor and instructor. RSH.

MEMT 898. Comprehensive Examination. 1 Hour.
An independent course in preparation for the non-thesis M.M.E. degree final examination. The grade will be S or U as determined by performance on the examination. Prerequisite: Permission of the instructor. IND.
MEMT 899. Master’s Thesis. 1-6 Hours.
May be repeated for credit. THE.

MEMT 910. Learning Theories and Music Education. 3 Hours.
(V) A broad survey of formal learning theories and other approaches to
the teaching-learning situation, accenting implications for, applications to,
and research needs in music education. LEC.

MEMT 912. Administration of Music Education Programs. 3 Hours.
A study of the administration of music education programs at all school
levels; topics will include personnel, finance, curriculum, supervision, and
articulation of the music program with other segments of the school and
community. LEC.

MEMT 915. Teaching Music in Higher Education. 3 Hours.
Knowledge, skills, and dispositions for graduate students in music
who are preparing to teach at the college level. This course is directed
involvement. May be repeated for zero credit. LEC.

MEMT 920. Doctoral Seminar in Music Education and Music Therapy.
0-1 Hours.
This course will emphasize strategies and skills for successful completion
of the doctoral program, as well as strategies and skills to prepare
doctoral students to contribute to the profession as college teachers,
researchers, master teachers, and arts administrators. Course may be
repeated for zero credit. LEC.

MEMT 923. Seminar in ______. 1-3 Hours.
Graded on a satisfactory/unsatisfactory basis. May be repeated for credit.
LEC.

MEMT 953. Advanced Acoustical and Psychological Aspects of
Musical Behavior. 3 Hours.
Study and experimental investigation of acoustical, psychoacoustical,
and psychological phenomena as they influence music. Attention will be
given to physical parameters; estimation of pitch, loudness, and timbre;
magnitude estimation; theories of consonance; experimental aesthetics;
and measurement and prediction of musical ability. Each student will
be expected to complete an experiment or quasi-experiment related to
human musical behavior. (Same as PSYC 853.) Prerequisite: MEMT 453
or equivalent, or permission of instructor. LEC.

MEMT 965. Advanced Methods in Experimental and Descriptive
Research in Music. 3 Hours.
An advanced study of experimental and descriptive research techniques
with careful investigation of research design, experimental control,
analysis and manuscript composition. Consideration of recent trends in
research methods and their place in the scholarly schemata will be
reviewed. Prerequisite: MEMT 812 or permission of instructor. LEC.

MEMT 972. Research in Music Education. 2-5 Hours.
For students who are sufficiently qualified to conduct original
investigations in this field. Consent of instructor necessary. May be
repeated for credit. IND.

MEMT 980. Advanced Topics: ______. 1-3 Hours.
A special course of study to meet current needs of education
professionals -- primarily for post-master’s level students. May be
repeated for credit. IND.

MEMT 995. Field Experience in: ______. 1-5 Hours.
Supervised and directed experiences in selected educational settings.
The advisor will schedule regular observations of the field experience
and conferences with the student. Written summaries and evaluations
of the field experiences will be prepared independently by the student, a
representative of the cooperating agency, and the advisor. Open only to
advanced students. Field experience credit in any one semester may not
exceed five hours, and total credit may not exceed eight hours. May be
repeated for credit. FLD.

MEMT 996. Practicum in College Teaching. 1-3 Hours.
College teaching experience, guided by a major professor in the
department. Open only to doctoral aspirants or candidates. FLD.

MEMT 997. Individual Study: ______. 1-4 Hours.
May be repeated for credit. Prerequisite: Prior graduate course work in the
area of study and consent of Instructor. IND.

MEMT 998. Seminar in: ______. 1-4 Hours.
May be repeated for credit. LEC.

MEMT 999. Doctoral Dissertation. 1-15 Hours.
May be repeated for credit. THE.

MTHC 99. Fundamentals of Music. 2 Hours.
An intensive study of music fundamentals. Open to music majors only.
LEC.

MTHC 105. Theory I. 4 Hours.
The first semester of an integrated two-year theory sequence that
examines the harmonic, melodic, rhythmic, and formal organization of
music while developing critical listening and keyboard skills. Prerequisite:
Music major or consent of instructor. LEC.

MTHC 115. Theory II. 4 Hours. GE11.
The second semester of an integrated two-year theory sequence that
examines the harmonic, rhythmic, and formal organization of music while
developing critical listening and keyboard skills. Prerequisite: MTHC 105.
LEC.

MTHC 150. Introduction to Music Theory: Reading, Listening,
Composing. 3 Hours.
An introductory course for non-music majors, emphasizing western art
and vernacular styles of music. Students will participate in and interact
with various parameters of music through the acquisition of basic musical
skills. For freshmen and sophomores. LEC.

MTHC 205. Theory III. 4 Hours. GE11.
The third semester of an integrated two-year theory sequence that
examines the harmonic, melodic, and formal organization of music while
developing critical listening and keyboard skills. Prerequisite: MTHC 115.
LEC.

MTHC 253. Composition. 2 Hours.
For music theory and composition majors. Creative writing using basic
concepts in harmony, melody, and form. May be repeated for credit.
Prerequisite: MTHC 115. IND.

MTHC 315. Theory IV. 4 Hours.
The fourth semester of an integrated two-year theory sequence that
examines the harmonic, melodic, rhythmic, and formal organization of
music while developing critical listening and keyboard skills. Prerequisite:
MTHC 205. LEC.

MTHC 316. Tonal Form and Post-Tonal Techniques. 4 Hours.
A study of musical forms from the common practice period through the
present day and analytical techniques for post-tonal music. The class is
designed for music education and music therapy majors. Prerequisite:
MTHC 205, music education, or music therapy major. LEC.

MTHC 350. Introduction to Music Theory: Reading, Listening,
Composing. 3 Hours.
An introductory course for non-music majors, emphasizing western art
and vernacular styles of music. Students will participate in and interact
with various parameters of music through the acquisition of basic musical
skills. For juniors and seniors. LEC.
MTHC 355. Readings in Music Theory: _____. 1-4 Hours.
Investigation of a subject by means of directed readings using primary scholarly sources. May be repeated for credit. Prerequisite: Consent of instructor. LEC.

MTHC 400. Graduate Theory Review: Writing Skills. 2 Hours.
A survey of harmonic principles with emphasis on nineteenth and early twentieth century materials. For graduate students deficient in undergraduate harmonic theory. LEC.

MTHC 402. Graduate Theory Review: Aural Skills. 2 Hours.
Development of aural and sight-reading skills using materials related to the nineteenth and twentieth centuries. For graduate students deficient in undergraduate aural theory. LEC.

MTHC 410. Tonal Forms. 3 Hours.
Phrase structure and formal design in common-practice tonal music. Structural analysis of binary, ternary, rondo, sonata, variations, and contrapuntal, and multi-movement forms. Prerequisite: MTHC 205. LEC.

MTHC 432. Introduction to the Analysis Contemporary Music. 3 Hours.
Introductory course in the sequence, presenting the basic tools of post-tonal and 20th century composition, including, serial techniques, set theory, extended tertian harmony, minimalist techniques, contemporary tonality and other trends. Exploration of form and complex rhythmic structures as well as aural skills appropriate to the subject matter. Prerequisite: MTHC 315. LEC.

MTHC 433. Advanced Analysis of Contemporary Music. 3 Hours.
Analysis seminar, emphasizing intense study of larger contemporary works, using techniques learned in the first course (MTHC 732). Further content will vary according to the instructor. Includes aural skills work appropriate to the subject matter. Prerequisite: MTHC 732. LEC.

MTHC 459. Scoring for Field Band. 2 Hours.
Primary voicings and textural possibilities for wind and percussion instruments will be stressed as these resources relate to the arranging of music for marching and pep bands at the secondary level. (Same as BAND 459.) Prerequisite: MTHC 205. LEC.

MTHC 485. Composing and Arranging for Educational Ensembles. 2 Hours.
For music majors interested in learning to write for primary and secondary educational performing groups. Emphasizes conventional tonal practices and idiomatic, accessible writing for young players. Prerequisite: MTHC 205, MTHC 484, and MTHC 459. IND.

MTHC 498. Undergraduate Recital. 1 Hour.
Composition recital for undergraduate music composition majors. Prerequisite: Permission of instructor. IND.

MTHC 499. Senior Research Project. 1-4 Hours.
For seniors majoring in music theory who will normally enroll for two credits in each of the last two semesters. Students will write a scholarly paper on an approved topic. May be repeated for credit. IND.

MTHC 541. Eighteenth-Century Counterpoint. 3 Hours.
A study of eighteenth century style with analysis and original work. Prerequisite: MTHC 205. LEC.

MTHC 542. Sixteenth-Century Counterpoint. 3 Hours.
A study of sixteenth-century style with analysis and original work. Prerequisite: MTHC 205. LEC.

MTHC 559. Scoring for Concert Band. 2 Hours.
Curriculum includes idiomatic writing, tonal balance, scoring for large percussion sections, and analysis of wind colors and instrumental combinations found in music of Holst, Vaughan Williams, Grainger, Stravinsky, Hindemith, and C. Williams. (Same as BAND 559.) Prerequisite: MTHC 205 and MTHC 459. IND.

MTHC 563. Survey in Jazz Composition and Arranging. 3 Hours.
Analysis of jazz composition and orchestration, beginning with early procedures (Louis Armstrong through the "Big Band Era") and culminating with analysis of scores by Gil Evans and Bob Brookmeyer. Prerequisite: Permission of instructor required. LEC.

MTHC 583. Composition. 2 Hours.
Advanced composition including larger forms in a variety of media. Composition majors will present a public recital of original works during the fourth semester of enrollment. May be repeated for credit. Prerequisite: MTHC 253 or consent of instructor. IND.

MTHC 610. Tonal Forms. 3 Hours.
Phrase structure and formal design in common-practice tonal music. Structural analysis of binary, ternary, rondo, sonata, variations and contrapuntal, multi-movement forms. LEC.

MTHC 655. Readings in Music Theory: _____. 1-4 Hours.
Investigation of a subject by means of directed readings of primary scholarly sources. May be repeated for credit. Prerequisite: MTHC 410 and consent of instructor. IND.

MTHC 670. Scoring for Voice. 3 Hours.
Composing and arranging for voice, including solo voice, choral and operatic settings. Prerequisite: Six hours of MTHC 253 and MTHC 541 and consent of instructor. LEC.

MTHC 674. Orchestration I. 3 Hours.
A study of the four families of orchestral instruments (woodwinds, brass, percussion, and strings) concentrating on ranges, transpositions, timbres, and techniques of the various instruments. Scoring projects concentrate on voicing and balance within the individual choirs of the orchestra. Prerequisite: MTHC 205. LEC.

MTHC 676. Orchestration II. 3 Hours.
A continuation of MTHC 674. Emphasis on scoring for full symphony orchestra and the large wind ensemble. Prerequisite: MTHC 674. LEC.

MTHC 678. Electro-Acoustic Composition I. 3 Hours.
Survey of concepts and practices of electronic sound synthesis. Required of music theory and composition majors, and open to other music majors by consent of department. Prerequisite: MTHC 315 or MTHC 316. LEC.

MTHC 680. Electro-Acoustic Composition II. 3 Hours.
Basic concepts and techniques of electronic composition. For majors in music theory and composition. Prerequisite: MTHC 678 and consent of division. LEC.

MTHC 732. Introduction to the Analysis of Contemporary Music. 3 Hours.
Introductory course in the sequence, presenting the basic tools of post-tonal and 20th century composition, including, serial techniques, set theory, extended tertian harmony, minimalist techniques, contemporary tonality and other trends. Exploration of form and complex rhythmic structures as well as aural skills appropriate to the subject matter. Prerequisite: MTHC 315 or MTHC 316. LEC.

MTHC 733. Advanced Analysis of Contemporary Music. 3 Hours.
Analytical seminar, emphasizing intense study of larger contemporary works, using techniques learned in the first course (MTHC 732). Further content will vary according to the instructor. Includes aural skills work appropriate to the subject matter. Prerequisite: MTHC 732. LEC.

MTHC 741. Canon and Fugue. 3 Hours.
A study of strict imitation and fugal writing. Practical work in two, three, and four parts in various media. Prerequisite: MTHC 541. LEC.
MTHC 778. History of Music Theory. 3 Hours.
A historical survey of music theory, both practical and speculative, from
the ancient Greeks to the late twentieth century. (Same as MUSC 778.)
LEC.

MTHC 789. Seminar on Selected Topics: ____. 0.5-3 Hours.
Topics vary by semester. May be repeated for credit. LEC.

MTHC 801. Advanced Analysis I. 3 Hours.
A bibliographic survey intended to explore aspects of both structure
(rhythm, texture and timber) and methodology (semiotics, gesture and
cognition) that variously complement the pitch-based approaches to
musical interpretation associated with Schenkerian tonal analysis and
pitch-class theory. Prerequisite: MTHC 732 Introduction to the Analysis of
Contemporary Music or permission of instructor. LEC.

MTHC 802. Advanced Analysis II. 3 Hours.
A bibliographic survey intended to explore in depth the pitch grammars
developed by composers of Western Art Music since circa 1910, and the
various methodologies assembled to codify them. Prerequisite: MTHC
732 Introduction to the Analysis of Contemporary Music or permission of
instructor. LEC.

MTHC 810. Advanced Tonal Form. 3 Hours.
An investigation of formal types, processes and functions in the
instrumental tonal music of the eighteenth and nineteenth centuries.
Prerequisite: Permission of instructor. LEC.

MTHC 820. Seminar in Schenkerian Analysis. 3 Hours.
A study of the theories and analytical methodologies developed by
the Austrian theorist Heinrich Schenker. Prerequisite: MTHC 410 or
permission of the instructor. LEC.

MTHC 825. Computers in Music and Music Research. 3 Hours.
A seminar designed to develop and explore the use and programming of
microcomputers as an aid in research and the production of music.
Topics will include composition and production tools for music, structured
program design, data representation, and basic computer-assisted
instruction models. Prerequisite: EECS 138 or equivalent or permission of
the instructor. LEC.

MTHC 830. Pedagogy of Music Theory. 1-3 Hours.
Procedures for teaching theoretical concepts and skills. Survey of
available texts and related materials. Three credits when offered during a
full academic term; one-two credits when offered as a short-term institute.
Prerequisite: MTHC 315 or MTHC 316 or permission of instructor. LEC.

MTHC 853. Advanced Composition. 1-6 Hours.
Essentially for theory and composition majors on the master's level. May
be repeated for credit. Summer session limit one to three hours. RSH.

MTHC 887. Advanced Orchestration. 3 Hours.
Prerequisite: MTHC 676, or consent of department. May be repeated for
credit. RSH.

MTHC 889. Seminar on Selected Topics: ____. 0.5-3 Hours.
Topics vary by semester. May be repeated for credit. LEC.

MTHC 898. Recital. 1 Hour.
Recorded grade for MM Composition recital. LEC.

MTHC 899. Thesis. 1-6 Hours.
May be repeated for credit. THE.

MTHC 953. Advanced Composition. 1-6 Hours.
Essentially for theory and composition majors on the doctoral level. May
be repeated for credit. Summer session limit one to three hours. RSH.

MTHC 956. Doctoral Composition Recital. 2 Hours.
May be repeated for credit. RSH.

MTHC 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s
major field. Open only to candidates for the D.M.A. in performance. May
be repeated for credit. Prerequisite: Consent of instructor. RSH.

A scholarly paper on a subject pertinent to the student’s major field. Open
only to candidates for the D.M.A. in performance and conducting. May
be repeated for credit. Prerequisite: Consent of instructor. THE.

MTHC 999. Dissertation. 1-12 Hours.
May be repeated for credit. THE.

MUS 100. Directed Study: ____. 1-4 Hours.
This is an all-purpose fill in the blank course for freshmen and
sophomores. It can be used when need arises. May be repeated for
credit. IND.

MUS 140. Encounter with Music and Musicians. 3 Hours.
A study of concert and recital music as it relates to the performer and
listener. Students will have interaction with professional musicians through
live performances and discussions with the performers. Music performed
on the concert and chamber music series and on concerts of music
department faculty will be carefully examined. Baroque through modern
music, jazz, and music of other cultures are the basic units in the course.
Written research projects and reviews of performances are required. LEC.

A team-taught, performance-based survey for wind and string students
of musical styles from the Baroque to present. Students will examine
music from their perspective literature from several different perspectives
including: historical, theoretical, technical, and expressive. The integration
of these perspectives into the students' performance is the ultimate
goal of the course. May be repeated for credit. Prerequisite: Approval of
applied instrumental instructor. IND.

MUS 300. Directed Studies: ____. 1-4 Hours.
This is an all-purpose fill in the blank course for juniors and seniors. It can
be used when need arises. May be repeated for credit. IND.

MUS 340. Encounter with Music and Musicians. 3 Hours.
A study of concert and recital music as it relates to the performer and
listener. Students will have interaction with professional musicians through
live performances and discussions with the performers. Music performed
on the concert and chamber music series and on concerts of music
department faculty will be carefully examined. Baroque through modern
music, jazz, and music of other cultures are the basic units in the course.
Written research projects and reviews of performances are required. LEC.

MUS 388. Curriculum and Pedagogy in: ____. 1 Hour.
Independent study. Prerequisite: Permission of Instructor. IND.

A team-taught, performance-based survey for wind and string students
of musical styles from the Baroque to present. Students will examine
music from their perspective literature from several different perspectives
including: historical, theoretical, technical, and expressive. The integration
of these perspectives into the students' performance is the ultimate
goal of the course. May be repeated for credit. Prerequisite: Approval of
applied instrumental instructor. IND.

MUS 586. The Business of Music. 3 Hours.
A course covering commercial aspects of the music business, including
publishing, copyright law, recording, live performance, the motion picture
and radio business, composition, teaching, and music merchandising.
Prerequisite: Consent of the instructor. LEC.
MUS 686. Arts Administration: Presenting the Performing Arts. 3 Hours.
Considerations involved in booking, scheduling, and presenting music, theatre, and dance events. Locating and selecting artists, reading and negotiating contracts, fund raising, grant writing, working with support groups, marketing techniques, publicity, personnel, and finance management. LEC.

MUS 732. Twentieth Century Techniques before 1945. 3 Hours.
A study and analysis of music from the turn of the century to World War II. For non-music majors. Prerequisite: Permission of instructor. LEC.

MUS 733. Twentieth Century Techniques after 1945. 3 Hours.
A study and analysis of music from World War II to the present. For non-music majors. Prerequisite: Permission of instructor. LEC.

MUS 800. Directed Study: _____ 1-4 Hours.
This is an all-purpose fill in the blank course for graduate students. It can be used when need arises. May be repeated for credit. LEC.

MUS 888. Curriculum and Pedagogy in: _____ 1 Hour.
Independent study. Prerequisite: Permission of instructor. LEC.

MUSC 135. Masterworks of Music. 3 Hours.
Honors version of MUSC 136/MUSC 336. Open only to students in the University Honors Program or by permission of instructor. Designed to aid non-music majors in developing skills needed for listening to music. Emphasis on masterworks of Western music. A student may receive credit for only one of the four courses numbers: MUSC 135, MUSC 335, MUSC 136, MUSC 336. LEC.

MUSC 136. Masterworks of Music. 3 Hours. HT / H.
Designed to aid non-music majors in developing the skills needed for listening to music. Emphasis on masterworks of Western music. Open only to freshman and sophomore non-music majors. A student may receive credit in either MUSC 136 or MUSC 336, but not both. LEC.

MUSC 139. Introduction to Music in World Cultures. 3 Hours. NW AE42.
Addresses music as a social and cultural phenomenon shaping broader patterns of human activity. It examines the ideas, behaviors and beliefs people have about their music based on selected case studies of traditional and popular music from North America, Africa, Asia, and Latin America. The main goal of this course is to understand why people from different parts of the world do music the way they do. LEC.

MUSC 254. Collegium Musicum, Vocal. 0-1 Hours.
May be repeated for credit. (Same as CHOR 254.) Prerequisite: Permission of instructor. ACT.

MUSC 256. Collegium Musicum, Instrumental. 0-1 Hours.
May be repeated for credit. Prerequisite: Permission of instructor. ACT.

MUSC 298. Introduction to Jazz. 3 Hours. HT AE41 / H/W.
A survey of the history of jazz from its beginnings in the early twentieth century to the present. Open to music and non-music majors. LEC.

MUSC 299. American Popular Song. 3 Hours. H.
A survey of the American popular song in the twentieth century, with an emphasis on the composer’s lyricists, and performers who made them popular. LEC.

MUSC 300. Jazz Styles, 1920-1980. 3 Hours. H.
A detailed study of the major styles of jazz that developed between 1920 and 1980, with an emphasis on aural recognition of their characteristics. LEC.

MUSC 301. Great Innovators of Jazz. 3 Hours. H.
A detailed study of the most innovative and influential figures in the history of jazz. LEC.

MUSC 302. The Broadway Musical. 3 Hours. AE41/GE3H / H.
A survey of the Broadway Musical from the early twentieth century to the present. LEC.

MUSC 303. The Film Musical. 3 Hours.
A survey of the film musical from the 1920s through the 1980s. LEC.

MUSC 305. Music of Latin America. 3 Hours. AE42 / H.
Designed for non-music majors, the course surveys the geographical and ethnographical sources of the many forms of music in Latin America. The various forms of music will be examined from historical, cultural, and stylistic perspectives. LEC.

MUSC 306. Introduction to Contemporary Music. 3 Hours. H.
A survey of concert music in Europe and the United States in the twentieth century. Not open to music majors. LEC.

MUSC 307. Music of Africa and the Middle East. 3 Hours.
Survey of the many musical traditions of Black Africa and the Middle East, emphasizing their cultural and social context. Open to both majors and non-majors. LEC.

MUSC 308. Music in East Asia. 3 Hours. AE42.
Study of musical cultures in China, Korea, and Mongolia, with a special focus on court music, musical theater, popular music, and the influence of East Asian music on the Western art music and vice-versa. LEC.

MUSC 309. History of Rock and Roll. 3 Hours. H.
Survey of the history of rock and roll, starting with its origins in rhythm and blues and continuing to the present day. Open to both majors and non-majors. LEC.

MUSC 310. History of Film Music. 3 Hours. HT.
A survey course for non-majors on the history of film music from silent films to the present. Students will use written texts, website materials such as streaming video and audio, and regular screening in an auditorium setting for assignments and papers. LEC.

MUSC 311. History of African American Music. 3 Hours.
This course examines the richness and diversity of African American music and its influence on the entire American musical landscape. Beginning with African retentions in African American music, the course will trace the history and development of both written and oral traditions from 1700 to the present day. LEC.

MUSC 312. Music in the Andes. 3 Hours. AE42.
This course examines the history, culture, and musical traditions of the Andean region: Peru, Ecuador, Bolivia, Chile, Columbia, and Venezuela. It focuses on a selection of indigenous rituals and popular music of mestizo and African American origin. By the end of the semester students will be acquainted with particular genres, instruments, and the social contexts with which they are associated. LEC.

MUSC 313. Music in Mexico and the Caribbean. 3 Hours. AE42.
This course examines the history, culture, and musical traditions of Mexico and the Caribbean. It focuses on a selection of rituals and traditional and popular music of the region. By the end of the semester students will be acquainted with various musical genres, instruments, and the social contexts with which they are associated. LEC.

MUSC 315. History of Country Music. 3 Hours.
Study of country music in the U.S. from the early 1920’s to the present, including performers, styles, historical context, and technology. LEC.

MUSC 320. Music History I. 2 Hours. AE42.
Introduction to world music; and Western music to 1400. Prerequisite: One year of music theory. LEC.
MUSC 335. Masterworks of Music. 3 Hours.
Honors version of MUSC 136/MUSC 336. Open only to students in the University Honors Program or by permission of instructor. Designed to aid non-music majors in developing skills needed for listening to music. Emphasis on masterworks of Western music. A student may receive credit for only one of the four course numbers: MUSC 135, MUSC 335, MUSC 136, MUSC 336. LEC.

MUSC 336. Masterworks of Music. 3 Hours. HT / H.
Designed to aid non-music majors in developing the skills needed for listening to music. Emphasis on masterworks of Western music and writing about music. Open only to junior and senior non-music majors. A student may receive credit for either MUSC 136 or MUSC 336, but not both. LEC.

MUSC 37. Selected Topic in Music: _______. 1-3 Hours. HT / H.
A selected topic in music or an interdisciplinary topic in the fine arts. The course may be repeated for credit when topic varies. Open only to non-music majors. LEC.

MUSC 37. Selected Topic in Music: _______. 1-3 Hours.
The course may be repeated for credit when topic varies. Open only to music majors. Prerequisite: MUSC 320 or permission of instructor. LEC.

MUSC 39. Introduction to Music in World Cultures. 3 Hours. NW AE42.
Addresses music as a social and cultural phenomenon shaping broader patterns of human activity. It examines the ideas, behaviors and beliefs people have about their music based on selected case studies of traditional and popular music from North America, Africa, Asia, and Latin America. The main goal of this course is to understand why people from different parts of the world do music the way they do. LEC.

MUSC 340. Music History II. 3 Hours. GE3H.
Western Music from 1400 to 1750. Prerequisite: MUSC 320. LEC.

MUSC 394. Readings in Jazz and American Popular Music. 1-3 Hours.
Investigation of a subject by means of directed study of primary sources. Prerequisite: A grade of "A" or "B" in MUSC 298, or equivalent, and permission of instructor. IND.

MUSC 440. Music History III. 3 Hours. GE3H.
Western Music from 1750 to 1900. Prerequisite: MUSC 340. LEC.

MUSC 480. Music History IV. 2 Hours. AE41.
Western music since 1900, classical and vernacular. Prerequisite: MUSC 440. LEC.

MUSC 481. Music of the Middle Ages. 3 Hours.
A concentrated survey of Western music from about 500 to 1400. Prerequisite: MUSC 320. LEC.

MUSC 482. Music of the Renaissance. 3 Hours.
A concentrated survey of Western music from about 1400 to 1600. Prerequisite: MUSC 340. LEC.

MUSC 483. Music of the Baroque Era. 3 Hours.
A concentrated survey of Western music from about 1600 to 1750. Prerequisite: MUSC 340 and MUSC 440. LEC.

MUSC 484. Music of the Classical Era. 3 Hours.
A concentrated survey of Western music from about 1750 to 1815. Prerequisite: MUSC 440. LEC.

MUSC 485. Music of the Romantic Era. 3 Hours.
A concentrated survey of Western music from about 1815 to 1900. Prerequisite: MUSC 440 and MUSC 480. LEC.

MUSC 486. Music of the Twentieth Century. 3 Hours.
A concentrated survey of Western music during the twentieth century. Prerequisite: MUSC 480. LEC.

MUSC 487. Music in America. 3 Hours.
A concentrated survey of music in the United States. Prerequisite: One course in the field of musicology or permission of the instructor. LEC.

MUSC 488. History of Opera. 3 Hours.
A concentrated survey of the history of opera. Prerequisite: MUSC 340, MUSC 440, and MUSC 480. LEC.

MUSC 489. History of Chamber Music. 3 Hours.
A concentrated survey of the history of chamber music. Prerequisite: MUSC 440 and MUSC 480. LEC.

MUSC 490. History of the Concerto. 3 Hours.
A concentrated survey of the history of the concerto. Prerequisite: MUSC 440 and MUSC 480. LEC.

MUSC 491. History of the Symphony. 3 Hours.
A concentrated survey of the history of the symphony. Prerequisite: MUSC 440 and MUSC 480. LEC.

MUSC 492. History of Wind Band Music. 3 Hours.
A chronological survey of the development of the wind band/ensemble and its music, using standard musical works from each historical period. Prerequisite: MUSC 440 and MUSC 480 or permission of the instructor. LEC.

MUSC 493. History of Music Theory. 3 Hours.
A historical survey of music theory, both practical and speculative, from the ancient Greeks to the late twentieth century. Prerequisite: MUSC 240, MUSC 340, MUSC 440, and MUSC 480. LEC.

MUSC 494. Readings in Musicology: _______. 1-3 Hours.
May be repeated for credit. Prerequisite: Minimum average of B in MUSC 320, MUSC 340, MUSC 440, MUSC 480 or equivalent, and permission of instructor. IND.

MUSC 499. Senior Thesis. 2 Hours.
An original research project that will result in a scholarly paper of moderate size. May be repeated once for credit. IND.

MUSC 560. Music in World Cultures. 3 Hours. NW AE42 / W.
An introduction to music as part of the cultural experience in India, Southeast Asia, the Orient, and Africa, with comparisons to Western traditions and influences on contemporary music. LEC.

MUSC 560. Selected Topics in Music: _______. 0.5-3 Hours.
Prerequisite: MUSC 320, MUSC 340, MUSC 440, and MUSC 480. LEC.

MUSC 654. Collegium Musicum, Vocal. 0-1 Hours.
May be repeated for credit. (Same as CHOR 654.) Prerequisite: Permission of instructor. ACT.

MUSC 655. Readings in Music Theory: _______. 1-4 Hours.
Investigation of a subject by means of directed readings using primary scholarly sources. May be repeated for credit. Prerequisite: MTHC 410 and consent of instructor. LEC.

MUSC 656. Collegium Musicum, Instrumental. 0-1 Hours.
May be repeated for credit. Prerequisite: Permission of instructor. ACT.

MUSC 744. Readings in Jazz and American Popular Music. 1-3 Hours.
Investigation of a subject by means of directed study of primary resources. Prerequisite: Permission of instructor. IND.

MUSC 752. Music of the Middle Ages. 3 Hours.
Prerequisite: MUSC 320. LEC.
MUSC 753. Music of the Renaissance. 3 Hours.  
Prerequisite: MUSC 340. LEC.

MUSC 754. Music of the Baroque Era. 3 Hours.  
Prerequisite: MUSC 340 and MUSC 440. LEC.

MUSC 755. Music of the Classical Era. 3 Hours.  
Prerequisite: MUSC 440. LEC.

MUSC 756. Music of the Romantic Era. 3 Hours.  
Prerequisite: MUSC 440 and MUSC 480. LEC.

MUSC 757. Music of the Twentieth Century. 3 Hours.  
Prerequisite: MUSC 480. LEC.

MUSC 758. History of Musical Instruments. 3 Hours.  
Prerequisite: MUSC 340 or MUSC 440 or permission of instructor. LEC.

MUSC 759. Music in America. 3 Hours.  
A survey of historical developments from the Pilgrims to the present.  
(Same as AMS 737.) Prerequisite: One course in the field of music history or permission of the instructor. LEC.

MUSC 760. History of Opera. 3 Hours.  
Prerequisite: MUSC 340, MUSC 440, and MUSC 480. LEC.

MUSC 761. History of the Mass. 3 Hours.  
Prerequisite: MUSC 340 and MUSC 440, or permission of instructor. LEC.

MUSC 765. History of Chamber Music. 3 Hours.  
Prerequisite: MUSC 440 and MUSC 480, or permission of instructor. LEC.

MUSC 766. History of the Concerto. 3 Hours.  
Prerequisite: MUSC 440 and MUSC 480, or permission of instructor. LEC.

MUSC 767. History of the Symphony. 3 Hours.  
Prerequisite: MUSC 440 and MUSC 480, or permission of instructor. LEC.

MUSC 768. History of Wind Band Music. 3 Hours.  
A chronological survey of the development of the wind band/ensemble and its music, using standard musical works from each historical period.  
Prerequisite: MUSC 440, MUSC 480, or permission of instructor. LEC.

MUSC 775. History of Keyboard Music. 3 Hours.  
Prerequisite: MUSC 340, MUSC 440, and MUSC 480. LEC.

MUSC 777. History of Solo Vocal Music. 3 Hours.  
Prerequisite: MUSC 340, MUSC 440, and MUSC 480. LEC.

MUSC 778. History of Music Theory. 3 Hours.  
A historical survey of music theory, both practical and speculative, from the ancient Greeks to the late twentieth century.  
(Same as MTHC 778.) LEC.

MUSC 794. Readings in Musicology: _____. 1-3 Hours.  
Investigation of a subject by means of directed reading of primary literary sources. May be repeated for credit. Prerequisite: A grade average of "B" in two musicology courses numbered 500 or above and consent of instructor. IND.

MUSC 801. Music Bibliography and Research. 3 Hours.  
Bibliography, research methods, and scholarly writing in music for entering graduate students. Prerequisite: Permission of instructor. LEC.

MUSC 802. Advanced Music Bibliography and Research. 3 Hours.  
Advanced bibliography and writing of research papers. Prerequisite: MUSC 801. LEC.

MUSC 899. Thesis. 1-6 Hours.  
May be repeated for credit. THE.

MUSC 902. Seminar in Musicology. 3 Hours.  
A research course designed primarily for doctoral students in musicology. Prerequisite: MUSC 801, or its equivalent. LEC.

MUSC 903. Seminar in Performance Practices. 3 Hours.  
Primary and secondary sources in performance practices dealing mainly with the seventeenth through nineteenth centuries, with implications applicable to student’s performance medium. LEC.

MUSC 940. Seminar on Selected Topics in Musicology: _____. 3 Hours.  
Each semester a topic (to be inserted in the blank) will be the basis for discussion, reports, and a research paper. May be repeated for credit provided no course duplication takes place. LEC.

MUSC 970. D.M.A. Lecture-Recital. 1-6 Hours.  
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

A scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

MUSC 999. Dissertation. 1-12 Hours.  
May be repeated for credit. THE.

OBOE 100. Oboe. 1-2 Hours.  
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

OBOE 101. Oboe Reed Making. 0-1 Hours.  
The principles of oboe reed making, including tube cane selection, pre-gouging, gouging, shaping, tying and scraping reeds. Knife sharpening and tool maintenance will also be covered. Open only to freshmen and sophomores. May be repeated for credit. LAB.

OBOE 121. Oboe. 1-4 Hours.  
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

OBOE 131. Baroque Oboe. 1-4 Hours.  
One or two lessons per week. For freshmen and sophomores. May be repeated for credit. IND.

OBOE 221. Oboe. 1-4 Hours.  
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

OBOE 300. Oboe. 1-2 Hours.  
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

OBOE 301. Oboe Reed Making. 0-1 Hours.  
The principles of oboe reed making, including tube cane selection, pre-gouging, gouging, shaping, tying and scraping reeds. Knife sharpening and tool maintenance will also be covered. Open only to juniors and seniors. May be repeated for credit. LAB.

OBOE 321. Oboe. 1-2 Hours.  
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

OBOE 421. Oboe. 1-2 Hours.  
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: Consent of instructor. RSH.
OBOE 422. Oboe. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

OBOE 622. Oboe. 1-4 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

OBOE 711. Oboe. 1-4 Hours.
For graduate students not majoring in oboe. May be repeated for credit. Summer session limit one to three hours. IND.

OBOE 731. Baroque Oboe. 1-4 Hours.
May be repeated for credit. IND.

OBOE 811. Oboe. 1-6 Hours.
For graduate students majoring in oboe. May be repeated for credit. IND.

OBOE 921. Seminar in Performance. 3 Hours.
A study of repertoire and performance practice relating to the baroque oboe during the seventeenth and eighteenth centuries. LEC.

OBOE 922. Seminar in Performance. 3 Hours.
A study of repertoire and extended performance techniques of the twentieth century. LEC.

OBOE 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in oboe. May be repeated for credit. Summer session limit one to three hours. RSH.

OBOE 965. Doctoral Recitals. 1-3 Hours.
Maximum seven hours credit. May be repeated for credit. THE.

OBOE 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Summer session limit one to three credits. Prerequisite: Consent of instructor. RSH.

OBOE 972. D.M.A. Document. 1-6 Hours.
A scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

ORCH 200. University Symphony Orchestra. 0-1 Hours.
For freshmen and sophomores. Four hours full rehearsal and one hour sectional (string only) rehearsal each week throughout the school year. An intensive study of the symphonic repertoire, instrumental and vocal accompaniments, and complete major opera. Two public concerts each semester and numerous out-of-town concerts, radio broadcasts, and local vespers performances. Acceptance for membership and playing positions is determined by tryout. May be repeated for credit. LAB.

ORCH 201. University Chamber Orchestra. 1 Hour.
Two hours of rehearsal per week. May be repeated for credit. Audition required. LAB.

ORCH 210. Repertory Orchestra. 1 Hour.
A reading orchestra, emphasizing standard orchestral works from Baroque through modern periods. Open to string, wind, and percussion instrument players of the community and university. (Does not count toward ensemble requirement for students with stringed instruments emphasis.) May be repeated for credit. LAB.

ORCH 600. University Symphony Orchestra. 0-1 Hours.
For juniors, seniors, and graduate students. May be repeated for credit. LAB.

ORCH 601. University Chamber Orchestra. 1 Hour.
Two hours rehearsal per week. May be repeated for credit. Audition required. LAB.

ORCH 701. Workshop in: _____. 0.5-3 Hours.
May be repeated for credit. LEC.

ORGN 100. Organ. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

ORGN 121. Organ. 1-5 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

ORGN 221. Organ. 1-5 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

ORGN 300. Organ. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

ORGN 320. Studio Class in Organ - Lab. 0 Hours.
Studio performance of works prepared under individual instruction. May be repeated. LAB.

ORGN 421. Organ. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

ORGN 422. Organ. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

ORGN 502. Master Class in Organ - Lab. 0 Hours.
A class in the performance of advanced organ repertoire. For organ majors only or by consent of instructor. May be repeated. LAB.

ORGN 603. Institute for Organ and Church Music. 1-2 Hours.
A one-week intensive study program in performance, practice, and literature, advanced pedagogy, and church music. Normally offered during the summer session. May be repeated for credit. Graded S (satisfactory) or U (unsatisfactory). IND.

ORGN 608. Organ Pedagogy. 2 Hours.
For seniors and graduate students majoring in organ or by permission of instructor. May be repeated for credit. Materials and methods of pedagogy. Lectures, discussion, demonstration teaching, planning, and evaluation. One beginning or lower level organ student assigned to each class member with teaching done under supervision of class instructor. LEC.

ORGN 622. Organ. 1-5 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

ORGN 702. Master Class in Organ - Lab. 0 Hours.
A class in the performance of advanced organ repertoire. For organ majors only or by consent of instructor. May be repeated. LAB.
ORGN 711. Organ. 1-4 Hours.
For graduate students not majoring in organ. May be repeated for credit. Summer session limit one to three hours. IND.

ORGN 720. Studio Class in Organ-Lab. 0 Hours.
Studio performance of works prepared under individual instruction. May be repeated for credit. IND.

ORGN 800. Organ Building and Design. 3 Hours.
Acoustics; design, construction, and maintenance of organs; organ consulting, examination of organs. LEC.

ORGN 801. History of Organ Literature and Organ Design I. 3 Hours.
Organ literature and organ design from the Middle Ages, the Renaissance, and the Spanish, Italian, and English Baroque. LEC.

ORGN 802. History of Organ Literature and Organ Design II. 3 Hours.
Organ literature and organ design in the Dutch and German Baroque with special emphasis on J.S. Bach. Prerequisite: Permission of instructor. LEC.

ORGN 803. History of Organ Literature and Organ Design III. 3 Hours.
French organ literature and organ design from the 17th century to the present. LEC.

ORGN 804. History of Organ Literature and Organ Design IV. 3 Hours.
German, North American, British, Scandinavian and Eastern European organ literature and organ design from the Classic era to the present. Prerequisite: Permission of instructor. LEC.

ORGN 805. Selected Topics in Organ. 1-3 Hours.
An exploration of selected topics in organ design and literature. Topics change by semester. May be repeated for credit. LEC.

ORGN 806. Organ Pedagogy. 3 Hours.
Philosophy, methods, and materials of organ pedagogy. Prerequisite: Permission of instructor. LEC.

ORGN 807. Organ Study Tour. 1-3 Hours.
Study of European or North American organs through reading and site visits to instruments. LEC.

ORGN 811. Organ. 1-6 Hours.
For graduate students majoring in organ. May be repeated for credit. Summer session limit one to three hours. IND.

ORGN 921. Seminar in Performance: _______. 3 Hours.
A detailed study of organ repertoire, performance practice, the history of organ building as it affects the performance of a particular body of literature, liturgical or other extra-musical contexts, and other influences on musical style. May be repeated for credit when topics vary. LEC.

ORGN 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. program in organ. May be repeated for credit. Summer session limit one to three hours. RSH.

ORGN 965. Doctoral Recitals. 0-3 Hours.
Maximum credit, seven hours. May be repeated for credit. THE.

ORGN 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

ORGN 972. D.M.A. Document. 1-6 Hours.
A scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

PCUS 100. Percussion. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

PCUS 120. Drum Set Technique. 1 Hour.
One lesson per week. Small group instruction. For freshmen and sophomores. A course designed to develop drum set technique, with emphasis placed on understanding the various styles of music to perform on the set: swing, jazz, rock, ethnic, Broadway shows. May be repeated for credit. IND.

PCUS 121. Percussion. 1-4 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

PCUS 221. Percussion. 1-4 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

PCUS 300. Percussion. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

PCUS 320. Drum Set Technique. 1 Hour.
One lesson per week. Small group instruction. For juniors and seniors. A course designed to develop drum set technique, with emphasis placed on understanding the various styles of music to perform on the set: swing, jazz, rock, ethnic, Broadway shows. May be repeated for credit. IND.

PCUS 321. Percussion. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

PCUS 421. Percussion. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

PCUS 422. Percussion. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

PCUS 622. Percussion. 1-4 Hours.
Applied music lessons for juniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

PCUS 711. Percussion. 1-4 Hours.
For graduate students not majoring in percussion. May be repeated for credit. Summer session limit one to three hours. IND.

PCUS 811. Percussion. 1-6 Hours.
For graduate students majoring in percussion. May be repeated for credit. Summer session limit one to three credits. IND.

PCUS 921. Seminar in Performance and Pedagogy. 3 Hours.
A study of the interpretive problems encountered in percussion music from the various historical periods, and a study of the performance practices in orchestral, band, chamber ensemble, and solo literature. LEC.
PCUS 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student's major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

PCUS 972. D.M.A. Document. 1-6 Hours.
A scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

PENS 252. Percussion Ensemble. 0-1 Hours.
For freshmen and sophomores. Study and performance of works for various percussion instrument combinations. May be repeated for credit. LAB.

PENS 652. Percussion Ensemble. 0-1 Hours.
For juniors, seniors, and graduate students. Study and performance of works for various percussion instrument combinations. May be repeated for credit. LAB.

PIAN 100. Piano. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

PIAN 111. Elementary Keyboard Musicianship. 2 Hours.
The development of keyboard skills in sightreading, transposition, harmonization, improvisation, score reading, and playing by ear. Open to all students not majoring in music who have little or no music training. IND.

PIAN 121. Piano. 1-5 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

PIAN 125. Piano. 1-4 Hours.
Small group instruction for the development of performance abilities encouraging exploration of creative potentials and self-directed study. For freshmen and sophomores. May be repeated for credit. Prerequisite: Permission of instructor. IND.

PIAN 144. Elementary Keyboard Skills I. 1 Hour.
The development of keyboard skills in sightreading, transposition, harmonization, improvisation, score reading, and playing by ear. Open to all music majors with little or no piano background. IND.

PIAN 148. Elementary Keyboard Skills II. 1 Hour.
A continuation of PIAN 144. IND.

PIAN 216. Chamber Music for Pianists. 1-2 Hours.
For freshmen and sophomores majoring in piano. The study of chamber music literature for piano and various instrumental combinations. Development of rehearsal conducting techniques and leadership skills through collaboration with other musicians. May be repeated for credit. LEC.

PIAN 221. Piano. 1-5 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

PIAN 227. Two-Piano and Four-Hand Literature. 2 Hours.
Instruction in two-piano and duet repertoire for performance and sight-reading by advanced keyboard performers. IND.

PIAN 229. Performance Class in Accompanying. 1 Hour.
A class in the performance of vocal and instrumental accompaniment. Prerequisite: Completion of PIAN 227 or permission of instructor. IND.

PIAN 230. Creative Jazz Piano I. 1 Hour.
Group instruction in techniques of playing jazz. Prerequisite: Permission of instructor. IND.

PIAN 237. Accompanying for Dance. 1-3 Hours.
Instruction in dance accompanying. Open to freshman and sophomore pianists with permission of instructor. IND.

PIAN 284. Intermediate Keyboard Skills I. 2 Hours.
Continuation of PIAN 148. Prerequisite: Permission of instructor. IND.

PIAN 288. Intermediate Keyboard Skills II. 2 Hours.
Continuation of PIAN 284. Prerequisite: Permission of instructor. IND.

PIAN 300. Piano. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

PIAN 320. Piano Performance Class. 1 Hour.
Performances, lectures, and discussions of all aspects of performance. May be repeated for credit. Prerequisite: Consent of instructor. LAB.

PIAN 321. Piano. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

PIAN 325. Piano. 1-4 Hours.
For juniors and seniors. Small group instruction for the development of performance abilities, encouraging exploration of creative potentials, and self-directed study. May be repeated for credit. Prerequisite: Permission of instructor. IND.

PIAN 336. Chamber Music for Pianists. 1-2 Hours.
For juniors and seniors majoring in piano. The study of chamber music literature for piano and various instrumental combinations. Development of rehearsal conducting techniques and leadership skills through collaboration with other musicians. May be repeated for credit. LEC.

PIAN 402. Master Class. 1 Hour.
A class in the performance of advanced piano repertoire. Enrollment by permission of the department. IND.

PIAN 421. Piano. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

PIAN 422. Piano. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

PIAN 430. Creative Jazz Piano II. 1 Hour.
Group instruction in advanced techniques of jazz improvisation with emphasis on various styles and interpretation of leading jazz performers. Prerequisite: Permission of instructor. IND.

PIAN 437. Accompanying for Dance. 1-3 Hours.
Instruction in dance accompanying. Open to junior and senior pianists with permission of instructor. IND.

PIAN 522. Piano Technology I. 1 Hour.
An introduction to the principles of design, theory of operation, maintenance, and tuning of the piano. Lecture and laboratory. Open to junior, senior, and graduate students. LEC.
PIAN 523. Piano Technology II. 1 Hour.
A continuation of PIAN 522, Piano Technology I. Application of principles of design, theory of operation, maintenance, and tuning of the piano. Prerequisite: PIAN 522. LEC.

PIAN 540. Piano Pedagogy I. 2-3 Hours.
Observation and research of the techniques and materials relevant to piano instruction at the elementary to intermediate levels. Additional topics pertinent to music education to include child development, learning, communication, and group dynamics. Prerequisite: Permission of instructor. LEC.

PIAN 546. Piano Pedagogy II. 2-3 Hours.
Observation and research of the techniques and materials relevant to piano instruction at the elementary to intermediate levels. Additional topics pertinent to music education to include child development, learning, communication, and group dynamics. Prerequisite: PIAN 540 or permission of instructor. LEC.

PIAN 622. Piano. 1-5 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

PIAN 624. Piano Workshop. 1-3 Hours.
A short term course covering a piano-related topic. May be repeated for credit. LEC.

PIAN 640. Piano Pedagogy III. 2 Hours.
Practicum in piano instruction at the elementary to intermediate levels. Students enrolled for this course are expected to participate in the Children’s Piano Laboratory Program or the Campus Community Program. Prerequisite: PIAN 546 or permission of instructor. FLD.

PIAN 643. Piano Repertoire I. 3 Hours.
Study and analysis of keyboard repertoire from its beginning through the Classical period. LEC.

PIAN 644. Piano Repertoire 2. 3 Hours.
Study and analysis of keyboard repertoire of the Romantic and Modern periods. LEC.

PIAN 646. Piano Pedagogy IV. 1-2 Hours.
Practicum in piano instruction at the elementary to intermediate levels. Prerequisite: PIAN 640 or permission of instructor. FLD.

PIAN 711. Piano. 1-4 Hours.
For graduate students not majoring in piano. May be repeated for credit. Summer session limit one to three hours. IND.

PIAN 720. Piano Performance Class. 1 Hour.
Performances, lectures, and discussion of all aspects of performance. May be repeated for credit. Prerequisite: Consent of instructor. IND.

PIAN 802. Master Class. 1 Hour.
A class in the performance of advanced piano repertoire. Enrollment by permission of the department. IND.

PIAN 811. Piano. 1-6 Hours.
For graduate students majoring in piano. May be repeated for credit. Summer session limit one to three hours. IND.

PIAN 840. Advanced Piano Pedagogy I: Group and Class Instruction. 3 Hours.
The techniques and materials for the development of keyboard literacy at the elementary and intermediate levels. LEC.

PIAN 846. Advanced Piano Pedagogy II: Group and Class Instruction. 3 Hours.
The techniques and materials for the development of keyboard literacy at the elementary and intermediate levels. Prerequisite: PIAN 840. LEC.

PIAN 921. Seminar in Performance and Pedagogy: _____. 3 Hours.
A detailed study of repertoire, performance practice, pedagogical, and stylistic problems relating to keyboard music. May be repeated for credit when topics vary. LEC.

PIAN 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in piano. May be repeated for credit. Summer session limit one to three hours. RSH.

PIAN 965. Doctoral Recitals. 1-3 Hours.
Maximum credit, seven hours. May be repeated for credit. THE.

PIAN 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

A scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

REC 100. Laboratory in Music Performance. 0 Hours.
This course deals with the performance of music. The goal is to increase the understanding of music and music performance through exposure to a wide variety of repertoire and performance styles, mediums, techniques, and related issues. May be repeated. LAB.

RECO 119. Recorder. 1-4 Hours.
For freshmen and sophomores. Group instruction at the beginning level, two hours per week. Thirty minutes per day practice expected. May not be repeated for credit. Prerequisite: Student must read music and own an alto recorder. IND.

RECO 319. Recorder. 1-4 Hours.
For juniors and seniors. Group instruction at the beginning level, two hours per week. Thirty minutes per day practice expected. May not be repeated for credit. Prerequisite: Student must read music and own an alto recorder. IND.

SAXO 100. Saxophone. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

SAXO 121. Saxophone. 1-4 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

SAXO 221. Saxophone. 1-4 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

SAXO 300. Saxophone. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

SAXO 321. Saxophone. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

SAXO 421. Saxophone. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.
SAXO 422. Saxophone. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

SAXO 622. Saxophone. 1-4 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

SAXO 711. Saxophone. 1-4 Hours.
For graduate students not majoring in saxophone. May be repeated for credit. Summer session limit one to three hours. IND.

SAXO 811. Saxophone. 1-6 Hours.
For graduate students majoring in saxophone. May be repeated for credit. Summer session limit one to three hours. IND.

SAXO 921. Seminar in Performance. 3 Hours.
A study of repertoire and performance techniques from the saxophone’s inception to 1950. LEC.

SAXO 922. Seminar in Performance. 3 Hours.
A study of repertoire and extended performance techniques from 1950 to the present. LEC.

SAXO 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in saxophone. May be repeated for credit. Summer session limit one to three hours. RSH.

SAXO 965. Doctoral Recitals. 1-3 Hours.
Maximum seven hours credit. May be repeated for credit. THE.

SAXO 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

STRG 424. String Pedagogy: _____, 1 Hour.
Lectures, demonstrations, and discussions of such topics as physiological factors, style and interpretation, music editing, teaching materials and repertoire, planning, and evaluation. May be repeated for credit as instrument varies. IND.

STRG 701. String Pedagogy Workshop. 0.5-3 Hours.
A short-term intensive course in string pedagogy intended for school orchestra directors, private teachers, and advanced students. Normally offered during the summer session. May be repeated for credit. Graded on a satisfactory/unsatisfactory basis. IND.

STRG 921. Seminar in Performance and Pedagogy, 3 Hours.
Repertoire, performance practice, and pedagogical and stylistic problems relating to stringed instrument music before 1800. LEC.

STRG 922. Seminar in Performance and Pedagogy. 3 Hours.
Stringed instrument repertoire from 1800 to 1875. LEC.

STRG 923. Seminar in Performance and Pedagogy. 3 Hours.
Stringed instrument repertoire from 1875 to present. LEC.

STRG 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

STRG 972. D.M.A. Document. 1-6 Hours.
A scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

TROM 100. Trombone. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

TROM 121. Trombone. 1-4 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

TROM 221. Trombone. 1-4 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

TROM 252. Trombone Choir. 0-1 Hours.
For freshmen and sophomores. Study and performance of ensemble literature for the trombone. May be repeated for credit. IND.

TROM 300. Trombone. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

TROM 321. Trombone. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

TROM 421. Trombone. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

TROM 422. Trombone. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

TROM 652. Trombone Choir. 0-1 Hours.
For juniors, seniors, and graduate students. Study and performance of ensemble literature for the trombone. May be repeated for credit. IND.

TROM 711. Trombone. 1-4 Hours.
For graduate students not majoring in trombone. May be repeated for credit. Summer session limit one to three hours. IND.

TROM 811. Trombone. 1-6 Hours.
For graduate students majoring in trombone. May be repeated for credit. Summer session limit one to three hours. IND.

TROM 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in trombone. May be repeated for credit. Summer session limit one to three hours. RSH.

TROM 965. Doctoral Recitals. 1-3 Hours.
May be repeated for credit. THE.

TROM 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.
A scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

TRUM 100. Trumpet. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

TRUM 121. Trumpet. 1-4 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

TRUM 221. Trumpet. 1-4 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

TRUM 252. Trumpet Ensemble. 0-1 Hours.
For freshmen and sophomores. Study and performance of ensemble literature for the trumpet. May be repeated for credit. IND.

TRUM 300. Trumpet. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

TRUM 321. Trumpet. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

TRUM 421. Trumpet. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

TRUM 422. Trumpet. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

TRUM 622. Trumpet. 1-4 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

TRUM 652. Trumpet Ensemble. 0-1 Hours.
For juniors, seniors, and graduate students. Study and performance of ensemble literature for the trumpet. May be repeated for credit. IND.

TRUM 711. Trumpet. 1-4 Hours.
For graduate students not majoring in trumpet. May be repeated for credit. Summer session limit one to three hours. IND.

TRUM 811. Trumpet. 1-6 Hours.
For graduate students majoring in trumpet. May be repeated for credit. Summer session limit one to three hours. IND.

TRUM 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in trumpet. May be repeated for credit. Summer session limit one to three hours. RSH.

TRUM 965. Doctoral Recitals. 1-3 Hours.
Maximum credit, seven hours. May be repeated for credit. THE.

TRUM 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

A scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

TUBA 100. Tuba. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

TUBA 121. Tuba. 1-4 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

TUBA 221. Tuba. 1-4 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

TUBA 300. Tuba. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

TUBA 321. Tuba. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

TUBA 421. Tuba. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

TUBA 422. Tuba. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

TUBA 622. Tuba. 1-4 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

TUBA 711. Tuba. 1-4 Hours.
For graduate students not majoring in tuba. May be repeated for credit. Summer session limit one to three hours. IND.

TUBA 811. Tuba. 1-6 Hours.
For graduate students majoring in tuba. May be repeated for credit. Summer session limit one to three hours. IND.

TUBA 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in tuba. May be repeated for credit. Summer session limit one to three hours. RSH.

TUBA 965. Doctoral Recitals. 1-3 Hours.
May be repeated for credit. THE.

TUBA 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

TUBA 972. D.M.A. Document. 1-6 Hours.
A scholarly paper on a topic pertinent to the student’s major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

TUEU 252. Tuba-Euphonium Consort. 0-1 Hours.
For freshmen and sophomores. Study and performance of ensemble literature for the tuba and euphonium. May be repeated for credit. IND.
TUEU 652. Tuba-Euphonium Consort. 0-1 Hours.
For juniors, seniors, and graduate students. Study and performance of ensemble literature for the tuba and euphonium. May be repeated for credit. IND.

VIOA 100. Viola. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

VIOA 120. Viola Performance Class. 0-1 Hours.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in double bass, viola, violin and violoncello study. May be repeated. LEC.

VIOA 121. Viola. 1-5 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

VIOA 221. Viola. 1-5 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

VIOA 300. Viola. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

VIOA 320. Viola Performance Class. 0-1 Hours.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in double bass, viola, violin and violoncello study. May be repeated. LEC.

VIOA 321. Viola. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

VIOA 421. Viola. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

VIOA 422. Viola. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

VIOA 622. Viola. 1-5 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

VIOA 711. Viola. 1-4 Hours.
For graduate students not majoring in viola. May be repeated for credit. Summer session limit one to three hours. IND.

VIOA 720. Viola Performance Class. 1 Hour.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in violin (viola, etc.) study. For freshman and sophomores (120); juniors and seniors (320); graduate student (720) (as appropriate). May be repeated for credit. LEC.

VIOA 811. Viola. 1-6 Hours.
For graduate students majoring in viola. May be repeated for credit. Summer session limit one to three hours. IND.

VIOA 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in viola. May be repeated for credit. Summer session limit one to three hours. RSH.

VIOA 965. Doctoral Recitals. 1-3 Hours.
May be repeated for credit to a maximum of seven hours. THE.

VION 100. Violin. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

VION 120. Violin Performance Class. 0-1 Hours.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in double bass, viola, violin and violoncello study. May be repeated, LEC.

VION 121. Violin. 1-5 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

VION 131. Baroque Violin. 1-4 Hours.
One or two lessons per week. For freshmen and sophomores. May be repeated for credit. IND.

VION 221. Violin. 1-5 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

VION 300. Violin. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

VION 320. Violin Performance Class. 0-1 Hours.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in double bass, viola, violin and violoncello study. May be repeated. LEC.

VION 321. Violin. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

VION 331. Baroque Violin. 1-4 Hours.
One or two lessons per week. For juniors and seniors. May be repeated for credit. IND.

VION 421. Violin. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

VION 422. Violin. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

VION 511. Workshop in Stringed Instrument Care and Repair. 2 Hours.
Students will perform repairs such as gluing cracks, applying tailpiece gut, setting and adjusting sound posts, and rehairing bows. Proper care and maintenance of the instrument will be stressed. Prerequisite: Junior standing with a background of stringed instrument study meritling departmental approval. LAB.

VION 622. Violin. 1-5 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

VION 711. Violin. 1-4 Hours.
For graduate students not majoring in violin. May be repeated for credit. Summer session limit one to three hours. IND.
VION 720. Violin Performance Class. 0-1 Hours.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in double bass, viola, violin and violoncello study. May be repeated. LEC.

VION 731. Baroque Violin. 1-4 Hours.
May be repeated for credit. IND.

VION 811. Violin. 1-6 Hours.
For graduate students majoring in violin. May be repeated for credit. Summer session limit one to three hours. IND.

VION 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in violin. May be repeated for credit. Summer session limit one to three hours. RSH.

VION 965. Doctoral Recitals. 1-3 Hours.
Maximum of seven hours credit. May be repeated for credit. THE.

VNCL 100. Violoncello. 1-2 Hours.
Applied music lessons for freshmen and sophomores not majoring in music. May be repeated for credit. IND.

VNCL 120. Cello Performance Class. 0-1 Hours.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in double bass, viola, violin and violoncello study. May be repeated. LEC.

VNCL 121. Violoncello. 1-5 Hours.
Applied music lessons for freshmen majoring in music. May be repeated for credit. IND.

VNCL 221. Violoncello. 1-5 Hours.
Applied music lessons for sophomores majoring in music. May be repeated for credit. Prerequisite: 121-level until the music major has accumulated 4 credits (8 for performance majors). IND.

VNCL 300. Violoncello. 1-2 Hours.
Applied music lessons for juniors and seniors not majoring in music. May be repeated for credit. IND.

VNCL 320. Cello Performance Class. 0-1 Hours.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in double bass, viola, violin and violoncello study. May be repeated. LEC.

VNCL 321. Violoncello. 1-2 Hours.
Applied music lessons for juniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 221-level until the music major has accumulated 8 credits. IND.

VNCL 421. Violoncello. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

VNCL 422. Violoncello. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

VNCL 622. Violoncello. 1-5 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 16 credits at the 121/221 levels. IND.

VNCL 711. Violoncello. 1-4 Hours.
For graduate students not majoring in violoncello. May be repeated for credit. Summer session limit one to three hours. IND.

VNCL 720. Cello Performance Class. 0-1 Hours.
Studio performance of solo, ensemble, and orchestral audition repertoire for students concurrently enrolled in double bass, viola, violin and violoncello study. May be repeated. LEC.

VNCL 811. Violoncello. 1-6 Hours.
For graduate students majoring in violoncello. May be repeated for credit. Summer session limit one to three hours. IND.

VNCL 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in violoncello. May be repeated for credit. Summer session limit one to three hours. RSH.

VNCL 965. Doctoral Recitals. 1-3 Hours.
May be repeated for credit to a maximum of seven hours. THE.
VOIC 406. Vocal Literature II. 2 Hours.
A survey of German song. LEC.

VOIC 408. Vocal Pedagogy. 1 Hour.
Knowledge and skills needed to teach voice, with particular attention to lifespan voice anatomy, physiology, and acoustics, diagnosis and correction of vocal inefficiencies, teaching styles, repertoire choice, professional development, and acquaintance with current research in voice science and vocal pedagogy. Includes a voice teaching practicum. (Same as MEMT 408.) LEC.

VOIC 412. Vocal Pedagogy and Advanced Repertoire II. 1 Hour.
Continuation of VOIC 408. LEC.

VOIC 421. Voice. 1-2 Hours.
Applied music lessons for seniors majoring in music. Not for performance majors. May be repeated for credit. Prerequisite: 321-level until the music major has accumulated 12 credits. IND.

VOIC 422. Voice. 1-2 Hours.
Applied music lessons. Must be taken in the semester a recital is being performed and as required by the degree program. Not for performance majors. IND.

VOIC 440. Vocal Performance. 1 Hour.
A class in the performance of vocal repertoire. IND.

VOIC 470. Lyric Diction for Singers: ______. 1 Hour.
Pronunciation in a specific language to be chosen from Italian, French, English, German, or other languages pertinent to the singer. Open to voice and theatre/voice majors, and to others with approval of instructor. May be repeated for credit as language varies. LEC.

VOIC 490. Opera Workshop. 0-4 Hours.
The study of various aspects of opera, such as character development, aria, chorus, and opera scene study, staging, body movement, and audition techniques. May be repeated for credit. ACT.

VOIC 492. Opera Production. 1-4 Hours.
The preparation and performance of an opera role. May be repeated for credit. ACT.

VOIC 500. Directed Study in: ______. 1-3 Hours.
Investigation of a special topic or project. May be repeated for credit. Prerequisite: Consent of instructor. IND.

VOIC 520. Vocal Coaching. 1 Hour.
In-depth investigation of elements of vocal performance such as language, musical style, tradition, and dramatic content and the communication thereof in preparation for the senior recital. Open to undergraduates majoring in voice and theatre/voice majors, and to others with approval of instructor. May be repeated for credit. IND.

VOIC 622. Voice. 1-4 Hours.
Applied music lessons for juniors and seniors majoring in performance. May be repeated for credit. Prerequisite: Performance majors must accumulate 12 credits at the 121/221 levels. IND.

VOIC 670. Advanced Lyric Diction for Singers: ______. 1 Hour.
Pronunciation in a specific language to be chosen from Italian, French, English, German, or other languages pertinent to the singer. Open to graduate students in voice and opera performance, and to others with approval of instructor. May be repeated for credit as language varies. LEC.

VOIC 704. Vocal Repertoire: ______. 2 Hours.
A survey of selected topics in vocal repertoire to be chosen from categories such as: Italian, German, French, and English songs, oratorio literature, and art songs by women composers. The course may be repeated for credit when topic varies. LEC.

VOIC 705. Advanced Vocal Literature I. 3 Hours.
An investigation of the development of French melodie. The course will include directed readings, writing, and performance. LEC.

VOIC 706. Advanced Vocal Literature II. 3 Hours.
An investigation of the development of German lieder. The course will include directed readings, writing, and performance. LEC.

VOIC 707. Advanced Vocal Literature III. 3 Hours.
An investigation of the development of songs in English. The course will include directed readings, writing, and performance. LEC.

VOIC 711. Voice. 1-4 Hours.
For graduate students not majoring in voice. May be repeated for credit. Summer session limit one to three hours. IND.

VOIC 720. Vocal Performance Class II. 1 Hour.
Solo vocal performance in a class situation with emphasis including the preparation, planning of repertoire, and interpretive skills appropriate to a recital. Advanced repertoire and appropriate level of vocal and musical comprehension shall be expected from the graduate student. Prerequisite: Consent of instructor. IND.

VOIC 740. Vocal Performance. 1 Hour.
A class in the performance of vocal repertoire. IND.

VOIC 770. Special Studies in Voice: English Lyric Diction for the Choral Singer and Soloist. 1 Hour.
A graduate level course designed for the choral director, public school music teacher and voice teacher. Techniques for achieving a distinct, unlabored English pronunciation will be studied. The International Phonetic Alphabet will be employed. IND.

VOIC 808. Vocal Pedagogy. 1 Hour.
A course offering performers and beginning teachers of classical singing a basic overview of vocal production. The class will explore the empirical and scientific principles of breathing, resonance, timbre, and other vocal features. Discussions of repertoire choices, vocal health, teaching styles, career development and other topics pertaining to the training of singers will be included. Added emphasis will be placed on historical and contemporary pedagogues through original research. LEC.

VOIC 811. Voice. 1-6 Hours.
For graduate students majoring in voice. May be repeated for credit. Summer session limit one to three hours. IND.

VOIC 820. Vocal Coaching. 1-4 Hours.
In-depth investigation of elements of vocal performance such as language, musical style, tradition, dramatic content and the communication thereof. Open to graduate voice majors with consent of instructor. May be repeated for credit. IND.

VOIC 890. Opera Workshop. 0-4 Hours.
The study of various aspects of opera, such as character development, aria, chorus, and opera scene study, staging, body movement, and audition techniques. May be repeated for credit. ACT.

VOIC 892. Opera Production. 1-4 Hours.
The preparation and performance of an opera role. May be repeated for credit. ACT.

VOIC 900. Directed Study in: ______. 1-3 Hours.
Investigation of a special topic or project. May be repeated for credit. Prerequisite: Consent of instructor. LEC.
The University of Kansas 1901

Verdi, Wagner, Mozart, Debussy, Poulenc, Wolf, Strauss), or twentieth century song. May be repeated for credit. LEC.

VOIC 960. Vocal Pedagogy. 2 Hours.
A study of the problems encountered in the teaching of vocal technique, such as breathing, resonance, tone color, dynamic control, and diction, and including sessions of supervised teaching. LEC.

VOIC 961. Directed Performance. 1-6 Hours.
Individual instruction. Open only to students who have been admitted to the D.M.A. curriculum in voice. May be repeated for credit. Summer session limit one to three hours. RSH.

VOIC 965. Doctoral Recitals. 1-3 Hours.
Maximum seven hours credit. May be repeated for credit. THE.

VOIC 970. D.M.A. Lecture-Recital. 1-6 Hours.
A lecture-recital and scholarly paper on a subject pertinent to the student's major field. Open only to candidates for the D.M.A. in performance. May be repeated for credit. Prerequisite: Consent of instructor. RSH.

VOIC 972. D.M.A. Document. 1-6 Hours.
A scholarly paper on a subject pertinent to the student's major field. Open only to candidates for the D.M.A. in performance and conducting. May be repeated for credit. Prerequisite: Consent of instructor. THE.

W&P 125. Wind and Percussion Pedagogy. 1 Hour.
For freshmen and sophomores. Materials and concepts for teaching beginning and intermediate instrumental students: instrument repair, adjustments and modification; reed making and adjustment where appropriate; solo and ensemble repertoire. May not be repeated for credit. Prerequisite: MGMT 113, Brass; MGMT 114, Woodwinds; MGMT 115, Percussion; or concurrent applied instruction for the appropriate instrument (e.g. FRHN 121, PCUS 221). IND.

W&P 130. Orchestral Repertoire. 1 Hour.
For freshmen and sophomores. Weekly reading sessions for wind, percussion and harp students with the objective of acquainting the student with important orchestral passages for his or her particular instrument. May be repeated for credit. Enrollment controlled by the instructor in charge. IND.

W&P 325. Wind and Percussion Pedagogy. 1 Hour.
For juniors and seniors. Continuation of WP 125. May not be repeated for credit. Prerequisite: MGMT 113, Brass; MGMT 114, Woodwinds; MGMT 115, Percussion; or concurrent applied instruction for the appropriate instrument (e.g. FRHN 321, PCUS 622). IND.

W&P 630. Orchestral Repertoire. 1 Hour.
The study of orchestral literature for wind and percussion instruments. May be repeated for credit. Permission of instructor. IND.

W&P 655. Independent Study in: ______. 1-4 Hours.
May be repeated for credit. Prerequisite: Consent of advisor and instructor. IND.

W&P 702. Special Studies in Woodwind Instrument Pedagogy. 1-3 Hours.
Physiological factors of woodwind playing, teaching materials and techniques, practice methods, solo and chamber music repertoire, mouthpieces and reeds, discography, techniques of tone production, articulation, embouchure, and intonation. May be repeated for credit to a maximum of five hours. LEC.

W&P 704. Special Studies in Brass Instrumental Pedagogy. 1 Hour.
Physiological factors of brass playing, teaching materials and techniques, practice methods, solo and chamber music repertoire, mouthpieces, discography, techniques of tone production, articulation, embouchure, and intonation. May be repeated for credit to a maximum of five hours. LEC.

W&P 706. Advanced Pedagogy Workshops in Orchestral Instruments. 0.5 Hours.
Methods and materials of teaching fundamentals of the instruments. Lecture, class performance, class discussion, teaching demonstration, and library research. Summer session only. Prerequisite: Teaching experience or undergraduate instruction in the instrument, or permission of the instructor. LEC.

The study of percussion pedagogy of Membrane Percussion; Keyboard Percussion; and Jazz/Rock/Commercial Drum Set, Marching and World Percussion. Study will include but not limited to such areas as teaching materials and techniques, repertoire, performance practice, and discography. Course may concentrate on one of the three areas listed above, or be taught as a survey course covering all three topics. May be repeated for credit to maximum of five hours. LEC.

WENS 252. Wind Ensemble. 0-1 Hours.
For freshmen and sophomores. Study and performance of original works for various wind instrument combinations. May be repeated for credit. LAB.

WENS 652. Wind Ensemble. 0-1 Hours.
For juniors, seniors, and graduate students. Study and performance of original works for various wind instrument combinations. May be repeated for credit. LAB.

Bachelor of Arts in Fine Arts in Music

B.A. in Fine Arts in Music Degree Requirements

The B.A. in Fine Arts in Music is offered with a concentration in:

- Jazz studies,
- Musicology,
- Music theory,
- Piano/organ/orchestral instruments, or
- Voice.

A total of 120 credit hours is required. To graduate, a student must earn a minimum grade-point average of 3.0 in all major courses and a minimum average of 2.0 in all course work.

Students will gain knowledge in a variety of areas while pursuing the B.A. and may include any approved KU minor without adding extra credit hours to their degree program. Students will be studying with faculty members who are nationally and internationally recognized. Courses in music theory and musicology are part of the exploration of music as are private instruction, ensemble and chamber music opportunities, as well as a senior performance recital.

With this degree, students will be well-rounded prospects for nearly any employer upon graduation. Students can also go on to pursue graduate studies in music, establish private studios, audition for music ensembles, or create their own paths in music or music-related endeavors.
The School of Music

The School of Music at the University of Kansas ranks among the finest in America, offering comprehensive programs at the bachelor’s, master’s, and doctoral levels.

The school nurtures and advances the art of music through creation, performance, scholarly inquiry, entrepreneurship, and enhancement of the artistic skills and experiences of the university and regional cultural communities.

The school is a major contributor to the arts community through the student, faculty, and professional performances in Swarthout Recital Hall, Bales Organ Recital Hall, the Robert Baustian Theatre, and the Lied Center of Kansas.

The School of Music is an accredited institutional member of the National Association of Schools of Music (http://nasm.arts-accredit.org). The entrance and graduation requirements in this catalog conform to the published guidelines of that organization.

Undergraduate Admission to the School of Music

First-year students should enter the school directly. Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale) and are eligible to return to the college or university last attended in addition to completing a successful audition. Other students can be admitted only with the permission of the dean. Send applications to the Office of Admissions (http://admissions.ku.edu). Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students who wish to major in music must audition. All music students academically approved for admission to the School of Music are admitted contingent upon demonstration by audition of satisfactory level proficiency in their areas of applied music. Music audition information and application forms are available online (http://music.ku.edu/prospective/auditions.shtml).

Transfer Students

Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale), are eligible to return to the college or university last attended, and complete a successful audition. Only grades of C or higher are accepted in transfer credit toward degrees offered by the School of Music. Students who wish to transfer performance credit from another institution toward any music degree at KU must validate this credit by audition. Music audition information and application forms are available online (http://music.ku.edu/prospective/auditions.shtml).

Music Theory Placement

The music theory placement examination is required of all undergraduate transfer students who have not completed a 4-semester theory sequence with an accredited NASM school. It is administered as announced on the School of Music website (http://music.ku.edu) each semester.

B.A. in Fine Arts in Music Degree Requirements

The B.A. in Fine Arts in music is offered with a concentration in:

- Jazz studies,
- Musicology,
- Music theory,
- Piano/organ/orchestral instruments, or
- Voice.

A total of 120 credit hours is required. To graduate, a student must earn a minimum grade-point average of 3.0 in all major courses and a minimum average of 2.0 in all course work.

Ensemble Policy

In order to remain enrolled in studio instruction (lessons), all undergraduate (B.A. & B.M.) and M.M. students who enroll in any level of studio instruction (including nonmajor levels) in band and orchestral instruments must audition for and perform as assigned in a major instrumental ensemble 1 each semester in which they are enrolled. For music majors, 1 ensemble taken for credit each semester is required for graduation. Exceptions to this policy are allowed on a case-by-case basis and only by the ensemble conductor in consultation with the faculty member in the studio area or the faculty advisor in music therapy as appropriate.

1 KU Symphony Orchestra, Wind Ensemble, Symphonic Band, Marching Band, or Jazz Ensemble I.

Bachelor of Fine Arts in Theatre-Voice Program

Theatre and Voice
The Division of Voice offers 2 programs (Bachelor of Fine Arts and Bachelor of Music (p. 1913)) for singers interested in art song, opera, oratorio, concert, other classical pieces or vocal teaching. Students receive training in vocal technique, languages and diction, vocal repertoire, acting and the theatrical arts. Performance opportunities range from workshops to fully staged productions, allowing students to develop their talents at the most beneficial pace.

The Bachelor of Fine Arts (B.F.A.) in Theatre and Voice degree requires 124 credits. Students will be studying with faculty members who are nationally and internationally recognized. Courses in music theory and musicology are part of the in-depth exploration of music as well as performing a junior recital and a senior recital.

With this degree, students can go on to pursue graduate studies in music, establish private studios, audition for theatre/musical productions, or create their own path in music or music-related endeavors.

The School of Music
The School of Music at the University of Kansas ranks among the finest in America, offering comprehensive programs at the bachelor’s, master’s, and doctoral levels.

The school nurtures and advances the art of music through creation, performance, scholarly inquiry, entrepreneurship, and enhancement of the artistic skills and experiences of the university and regional cultural communities.

View the requirements for the Bachelor of Music (p. 1913) program in voice.

Bachelor of Music

Each student who is a candidate for the Bachelor of Music degree must carry a major in:

- Musicology,
- Music theory,
- Music composition,
- Music therapy, or
- Music performance.

A total of 120 to 129 credit hours is required and is designed to further the student’s knowledge, practice, and experience in their chosen major. To graduate, a student must earn a minimum grade-point average of 3.0 in all major courses and a minimum average of 2.0 in all course work.

Students will be studying with faculty members who are nationally and internationally recognized. Courses in music theory and musicology are part of the exploration of music as are private instruction, ensemble
and chamber music opportunities. All students pursuing the B.M. degree will perform a senior recital on their primary instrument/voice. In addition, performance majors will also complete a junior recital and music composition majors will also give a music composition recital.

With this degree, students can go on to pursue graduate studies in music, establish private studios, audition for music ensembles, or create their own paths in music or music-related endeavors. Individuals who complete the music therapy program are eligible to take the national music therapy board certification examination. The music therapy major does not lead to licensure to teach music in public schools.

The School of Music

The School of Music at the University of Kansas ranks among the finest in America, offering comprehensive programs at the bachelor’s, master’s, and doctoral levels.

The school nurtures and advances the art of music through creation, performance, scholarly inquiry, entrepreneurship, and enhancement of the artistic skills and experiences of the university and regional cultural communities.

The school is a major contributor to the arts community through the student, faculty, and professional performances in Swarthout Recital Hall, Bales Organ Recital Hall, the Robert Baustian Theatre, and the Lied Center of Kansas.

The School of Music is an accredited institutional member of the National Association of Schools of Music (http://nasm.arts-accredit.org). The entrance and graduation requirements in this catalog conform to the published guidelines of that organization.

Bachelor of Music in Musicology

A total of 120 credit hours is required and is designed to further the student’s knowledge, practice, and experience in musicology. To graduate, a student must earn a minimum grade-point average of 3.0 in all major courses and a minimum average of 2.0 in all course work.

Students will be studying with faculty members who are nationally and internationally recognized. Courses in music theory and musicology are part of the exploration of music as are private instruction, ensemble and chamber music opportunities. All students pursuing the B.M. degree will perform a senior recital on their primary instrument/voice.

With this degree, students can go on to pursue graduate studies in music, or create their own paths in music or music-related endeavors.

Undergraduate Admission to the School of Music

First-year students should enter the school directly. Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale) and are eligible to return to the college or university last attended in addition to completing a successful audition. Other students can be admitted only with the permission of the dean. Send applications to the Office of Admissions (http://admissions.ku.edu). Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students who wish to major in music must audition. All music students academically approved for admission to the School of Music are admitted contingent upon demonstration by audition of satisfactory level proficiency in their areas of applied music. Music audition information and application forms are available online (http://music.ku.edu/prospective/auditions.shtml).

Transfer Students

Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale), are eligible to return to the college or university last attended, and complete a successful audition. Only grades of C or higher are accepted in transfer credit toward degrees offered by the School of Music. Students who wish to transfer performance credit from another institution toward any music degree at KU must validate this credit by audition. Music audition information and application forms are available online (http://music.ku.edu/prospective/auditions.shtml).

Music Theory Placement

The music theory placement examination is required of all undergraduate transfer students who have not completed a 4-semester theory sequence with an accredited NASM school. It is administered as announced on the School of Music website (http://music.ku.edu) each semester.

B.M. Degree Requirements for Musicology Majors

To graduate, the student must attain a minimum grade-point average of 3.0 in 12 credit hours chosen from MUSC 320, MUSC 340, MUSC 440, MUSC 480 and MUSC courses numbered 602-778. A total of 120 hours is required, distributed as follows:

**Musicology (28-30)**

<table>

Transfer Students

Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale), are eligible to return to the college or university last attended, and complete a successful audition. Only grades of C or higher are accepted in transfer credit toward degrees offered by the School of Music. Students who wish to transfer performance credit from another institution toward any music degree at KU must validate this credit by audition. Music audition information and application forms are available online (http://music.ku.edu/prospective/auditions.shtml).

Music Theory Placement

The music theory placement examination is required of all undergraduate transfer students who have not completed a 4-semester theory sequence with an accredited NASM school. It is administered as announced on the School of Music website (http://music.ku.edu) each semester.

Music Theory and Composition

To graduate, the student must maintain a minimum grade-point average of 3.0 in music theory and composition courses on both the first- and second-year and the junior/senior levels.

Students majoring in music theory (B.A. or B.M.) or music composition (B.M.) must complete MTHC 105, MTHC 115, and MTHC 205 before preparing a portfolio of their work for application to the professional sequence. The earliest a student may submit a portfolio is the fourth semester. Transfer students must be in residence for at least 1 semester before they can submit a portfolio.

This portfolio must include recent work (scholarly papers for music theory and musical compositions for composers), 2 letters of recommendation (1 from the student’s major instrument instructor and 1 from a MTHC professor who has had the student in a class), and a minimum grade-point average of 3.0 in MTHC courses. The student may be asked to provide a demonstration of musicality on his or her major instrument.

Portfolios are accepted once each semester for admission to the professional sequence the following semester. The portfolio is assessed by the MTHC faculty with one of 3 recommendations: admit, revise and resubmit next semester, or denied. Students in music theory are not allowed to enroll in MTHC 499 Senior Research Project. Students in composition are not allowed to enroll in MTHC 583 Composition and MTHC 498 Undergraduate Recital without a favorable recommendation from the faculty.

B.M. Degree Requirements for the Music Theory Major

A total of 120 hours is required for the degree in Music Theory, distributed as follows:

**Music Theory (40)**

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTHC 105</td>

</tr>
</tbody>
</table>
B.M. Degree Requirements for the Composition Major

A total of 120 hours is required for the degree. Courses should be distributed as described for the major in music theory with the following exceptions:

- Students with a major in composition must offer in partial fulfillment of the degree requirements a recital of approximately 45 minutes duration consisting of original works in various media. This is MTHC 498, listed below.
- Pianists and organists take 16 credits of lessons and do not take the additional 8 credits of piano, organ and/or harpsichord lessons while all other instrumentalists or vocalists take only 8 credits of lessons and the additional 8 credits of piano, organ and/or harpsichord lessons.
- MTHC 499 is not required.

Bachelor of Music in Music Therapy

Music Therapy

The program helps students develop competence for entry into the music therapy profession. The interdisciplinary curriculum emphasizes understanding of human behavior, musical and otherwise. It includes extensive work in music, behavioral science, biological science, and liberal arts, in addition to specific academic, clinical, and research studies in music therapy.

Music Therapy Program

The undergraduate music therapy program provides full preparation for entry into the profession. It culminates in the degree of Bachelor of Music with a major in music therapy. Graduates are prepared for general music therapy practice in a variety of settings, which may include, but are not limited to hospitals, schools, community health programs, wellness centers, and private and group settings across the age span. The KU music therapy program is approved by the American Music Therapy Association. Individuals who complete the program are eligible to take the national music therapy board certification examination. The music therapy major does not lead to licensure to teach music in public schools.

Advising

Students admitted to music therapy will be assigned an appropriate faculty advisor to work with the student throughout his or her academic career. The undergraduate handbook is available on the MMT website and from the MMT office, 448 Murphy Hall, provides detailed procedures, suggestions, and specifications.

Regardless of applied performance medium, each entering student should be able to sing independently, in tune, and with acceptable tone quality. Functional keyboard skills (accompanying, playing by ear, improvising, and transposing) are helpful. Experience working with others is helpful. Well-developed interpersonal skills are an asset.

Admission

Students must meet or exceed the School of Music academic admission requirements and successfully complete a major performance medium audition to be admitted. Students should declare the B.M. in music therapy as the major on the KU application for admission. Music therapy majors are in plan MTPPS-BM in the School of Music.

Students pursuing the B.M. in music therapy degree should apply for admission to the professional sequence upon completion of the second semester of the sophomore year with 50 or more KU hours. Transfer students with more than 45 hours of transfer credit must complete this application the first semester of classes at KU. Students may not enroll in courses in the professional sequence before formal approval by the director of music therapy. Music therapy majors who have been admitted to the professional sequence are in plan MTPPS-BM in the School of Music.

Students must be admitted to the music therapy professional sequence to enroll in upper-division music therapy courses. See the Music Therapy Undergraduate Program Handbook on the MMT website for details.

Candidates are reviewed for admission periodically. No student may be admitted to the professional sequence for a semester during which he or she is not a music therapy major.
she will be on academic probation. Application forms for music therapy professional sequence admission are available on the MEMT website (http://music.ku.edu/programs/memt).

**Ensemble Policy**

In order to remain enrolled in studio instruction (lessons), all undergraduate (B.A. & B.M.) and M.M. students who enroll in any level of studio instruction (including nonmajor levels) in band and orchestral instruments must audition for and perform as assigned in a major instrumental ensemble\(^1\) each semester in which they are enrolled. For music majors, 1 ensemble taken for credit each semester is required for graduation. Exceptions to this policy are allowed on a case-by-case basis and only by the ensemble conductor in consultation with the faculty member in the studio area or the faculty advisor in music therapy as appropriate.

\(^1\) KU Symphony Orchestra, Wind Ensemble, Symphonic Band, Marching Band, or Jazz Ensemble I.

**Undergraduate Admission to the School of Music**

First-year students should enter the school directly. Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale) and are eligible to return to the college or university last attended in addition to completing a successful audition. Other students can be admitted only with the permission of the dean. Send applications to the Office of Admissions (http://admissions.ku.edu). Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students who wish to major in music must audition. All music students academically approved for admission to the School of Music are admitted contingent upon demonstration by audition of satisfactory level proficiency in their areas of applied music. Music audition information and application forms are available online (http://music.ku.edu/prospective/auditions.shtml).

**Transfer Students**

Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale), are eligible to return to the college or university last attended, and complete a successful audition. Only students with a high school diploma or its equivalent may transfer credit toward degrees offered by the School of Music. Students who wish to transfer performance credit from another institution toward any music degree at KU must validate this credit by audition. Music audition information and application forms are available online (http://music.ku.edu/prospective/auditions.shtml).

**Music Theory Placement**

The music theory placement examination is required of all undergraduate transfer students who have not completed a 4-semester theory sequence with an accredited NASM school. It is administered as announced on the School of Music website (http://music.ku.edu) each semester.

**Requirements for the B.M. with a Major in Music Therapy**

The degree requires a minimum of 129 semester hours of credit appropriately distributed among general studies, the major, and supporting music areas and behavioral sciences. With careful planning, the program can be completed in about 4½ years. Four academic years of study and clinical work on campus are followed by a full-time, 6-month internship in an approved clinical institution.

The degree requires at least a 2.75 cumulative grade-point average in all course work and a minimum of 2.75 in all MEMT courses. All music therapy majors must demonstrate proficiency in the major applied performance medium and in other performance areas.

All students must demonstrate functional vocal skills and ability to perform accompaniments on a portable chordal instrument, such as accordion, autoharp, guitar, or electric piano. These skills are assessed periodically throughout the program.

Professional Sequence

Professional Sequence Admission Requirements
Students should apply for admission to the Professional Sequence as early as possible and must be admitted before beginning the first semester of the junior year. Admission requirements:

1. Cumulative grade-point average of 2.75 or higher.
2. Grade-point average of 2.75 or higher in MEMT courses.
3. A grade of C or higher in each of the following courses:
   MEMT 150  Introduction to Music Therapy  3
   MEMT 196  Group Leadership Skills in Music Therapy  2
   MEMT 250  Human Musical Learning and Development  2
1. At least 50 hours of college credit.
2. A signed applied music recommendation form verifying successful completion of the first semester of sophomore-level lessons.
3. Successful completion of the typed application form.

- Students must successfully complete Pre-Practicum Quiz Out #2 before entering their first MEMT 396 Clinical Practicum.
- Students must successfully complete Practicum Quiz Out #3 before entering their second MEMT 396 Clinical Practicum.

Total Hours: 2-12

¹ Students must achieve admission to the music therapy professional sequence prior to enrolling in these courses.

### Bachelor of Music in Music Performance: Piano

A total of 120 credit hours is required and is designed to further the student's knowledge, practice, and experience of piano. To graduate, a student must earn a minimum grade-point average of 3.0 in all major courses and a minimum average of 2.0 in all course work.

Students will be studying with faculty members who are nationally and internationally recognized. Courses in music theory and musicology are part of the exploration of music as are private instruction, ensemble and chamber music opportunities. All students pursuing the B.M. degree will perform a senior recital on their primary instrument/voice. In
addition, performance majors will also complete a junior recital and music composition majors will also give a music composition recital.

With this degree, students can go on to pursue graduate studies in music, establish private studios, audition for music ensembles, or create their own paths in music or music-related endeavors.

**Undergraduate Admission to the School of Music**

First-year students should enter the school directly. Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale) and are eligible to return to the college or university last attended in addition to completing a successful audition. Other students can be admitted only with the permission of the dean. Send applications to the Office of Admissions (http://admissions.ku.edu). Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students who wish to major in music must audition. All music students academically approved for admission to the School of Music are admitted contingent upon demonstration by audition of satisfactory level proficiency in their areas of applied music. Music audition information and application forms are available online (http://music.ku.edu/prospective/auditions.shtml).

**Transfer Students**

Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale), and are eligible to return to the college or university last attended in addition to completing a successful audition. Only grades of C or higher are accepted in transfer credit toward degrees offered by the School of Music. Students who wish to transfer performance credit from another institution toward any music degree at KU must validate this credit by audition. Music audition information and application forms are available online (http://music.ku.edu/prospective/auditions.shtml).

**Music Theory Placement**

The music theory placement examination is required of all undergraduate transfer students who have not completed a 4-semester theory sequence with an accredited NASM school. It is administered as announced on the School of Music website (http://music.ku.edu) each semester.

**Bachelor of Music in Music Performance: Organ and Church Music**

A total of 124 credit hours is required and is designed to further the student’s knowledge, practice, and experience of organ and church music. To graduate, a student must earn a minimum grade-point average of 3.0 in all major courses and a minimum average of 2.0 in all course work.

Students will be studying with faculty members who are nationally and internationally recognized. Courses in music theory and musicology are part of the exploration of music as are private instruction, ensemble and chamber music opportunities. All students pursuing the B.M. degree will perform a senior recital on their primary instrument/voice. In addition, performance majors will also complete a junior recital and music composition majors will also give a music composition recital.

With this degree, students can go on to pursue graduate studies in music, establish private studios, audition for music ensembles, or create their own paths in music or music-related endeavors.

**Undergraduate Admission to the School of Music**

First-year students should enter the school directly. Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale) and are eligible to return to the college or university last attended in addition to completing a successful audition. Other students can be admitted only with the permission of the dean. Send applications to the Office of Admissions (http://admissions.ku.edu). **Bachelor of Music in Music Performance: Voice**

The Division of Voice offers 2 programs (Bachelor of Music and Bachelor of Fine Arts) for singers interested in art song, opera, oratorio, concert, other classical pieces or vocal teaching. Students receive training in vocal technique, languages and diction, vocal repertoire, acting and the theatrical arts. Performance opportunities range from workshops to fully staged productions, allowing students to develop their talents at the most beneficial pace.

A total of 125 credit hours is required and is designed to further the student’s knowledge, practice, and experience in voice. To graduate, a student must earn a minimum grade-point average of 3.0 in all major courses and a minimum average of 2.0 in all course work.

Students will be studying with faculty members who are nationally and internationally recognized. Courses in music theory and musicology are part of the exploration of music as are private instruction, ensemble and chamber music opportunities. All students pursuing the B.M. degree will perform a senior recital on their primary instrument/voice. In addition, performance majors will also complete a junior recital and music composition majors will also give a music composition recital.

With this degree, students can go on to pursue graduate studies in music, establish private studios, audition for music ensembles, or create their own paths in music or music-related endeavors.

Music Education

The program helps students develop specific skills in planning and delivering instruction in all types of music education classrooms. The curriculum emphasizes both the theoretical and practical elements of human behavior, musical and otherwise, and integrates with this core a variety of learning experiences that prepare the pre-service teacher for the classroom medium. Among these is a broad spectrum of learning experiences both at KU and in area classrooms. These include planning and delivering instruction, classroom management, conducting, assessment, and curriculum design. Within the curriculum, individual emphases are reflected in the choice of major performance medium and performance ensembles. The goal of the music education curriculum is to prepare the student for success in the profession.

Advising

Students admitted to music education will be assigned an appropriate academic faculty advisor to work with the student throughout his or her academic career. The undergraduate handbook is available on the MEMT website (http://music.ku.edu/programs/memt) and from the MEMT office, 448 Murphy Hall and provides detailed procedures, suggestions, and specifications.

Regardless of applied performance medium, each entering student should be able to sing independently, in tune, and with acceptable tone quality. Functional keyboard skills (accompanying, playing by ear, improvising, and transposing) are helpful. Experience working with others is also beneficial as well. Well-developed interpersonal skills are an asset.

Music Education Program

This program provides full preparation for entry into the profession. It leads to the Bachelor of Music Education and eligibility for licensure to teach vocal, instrumental, and general music in grades pre-K through 12 in the state of Kansas. The program typically requires eight semesters of full-time work, which includes a semester of student teaching and internship in the public schools.

Music Teacher Licensure Program

Teacher licensure in Kansas is a function of the Kansas State Board of Education. Individuals who complete an approved music teacher licensure program are recommended to the state for licensure in music for grades pre-K through 12. Students must meet additional state requirements, such as passing specified standardized tests, before licenses are granted. Contact the licensure officer, 211 J.R. Pearson Hall, 785-864-9602, for information.

Admission

Students must meet or exceed the School of Music academic admission requirements and successfully complete a major performance medium audition to be admitted. Students should declare the B.M.E. in music education as the major on the KU application for admission. Music education majors are in plan MEPS-BME in the School of Music.

Students pursuing the music education B.M.E. must apply for admission to the professional sequence by February 1 of the sophomore year. Transfer students with more than 45 hours of transfer credit must complete this application the first semester of classes at KU. Students may not enroll in courses in the professional sequence before formal approval by the director of music education. Music education majors who have been admitted to the professional sequence are in plan MEPS-BME in the School of Music.

Students must be admitted to the music education professional sequence to enroll in upper-division music education courses. See the Music

Bachelor of Music Education in Music Education

Music Education

The program helps students develop specific skills in planning and delivering instruction in all types of music education classrooms. The curriculum emphasizes both the theoretical and practical elements of human behavior, musical and otherwise, and integrates with this core a variety of learning experiences that prepare the pre-service teacher for the classroom medium. Among these is a broad spectrum of learning experiences both at KU and in area classrooms. The goal of the music education curriculum is to prepare the student for success in the profession.

Music Education B.M.E. Program

Music Education

The program helps students develop specific skills in planning and delivering instruction in all types of music education classrooms. The
Education Undergraduate Program Handbook on the MEMT website (http://music.ku.edu/programs/mfmt) for details.

No student may be admitted to the music education professional sequence for a semester during which he or she is on academic probation. The application form for music education professional sequence admission is available on the MEMT website (http://music.ku.edu/programs/mfmt).

Undergraduate Admission to the School of Music

First-year students should enter the school directly. Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale) and are eligible to return to the college or university last attended in addition to completing a successful audition. Other students can be admitted only with the permission of the dean. Send applications to the Office of Admissions (http://admissions.ku.edu). Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu) for information about international admissions.

Students who wish to major in music must audition. All music students academically approved for admission to the School of Music are admitted contingent upon demonstration by audition of satisfactory level proficiency in their areas of applied music. Music audition information and application forms are available online (http://music.ku.edu/prospective/auditions.shtml).

Transfer Students

Students may transfer to the school from other institutions or from other KU schools if they have at least a 2.75 GPA (on a 4.0 scale), are eligible to return to the college or university last attended, and complete a successful audition. Only grades of C or higher are accepted in transfer credit toward degrees offered by the School of Music. Students who wish to transfer performance credit from another institution toward any music degree at KU must validate this credit by audition. Music audition information and application forms are available online (http://music.ku.edu/prospective/auditions.shtml).

Music Theory Placement

The music theory placement examination is required of all undergraduate transfer students who have not completed a 4-semester theory sequence with an accredited NASM school. It is administered as announced on the School of Music website (http://music.ku.edu) each semester.

The Music Education Teacher Licensure Curriculum

The B.M.E. degree requires a minimum of 120 semester credit hours distributed among general studies, the major, professional education class work, and student teaching and internship. The degree requires at least a 2.75 cumulative grade-point average in all course work. Each student must participate in appropriate performing ensembles and demonstrate proficiency in a major applied performance medium and in other performance areas.

Music Education Sequence

Music Education majors are strongly encouraged to adhere to this sequence of courses.

Students with no prior piano experience should take the keyboard skills sequence (PIAN 144-PIAN 288). Demonstration of skills is needed to pass or test out of PIAN 144-PIAN 288. Students whose major performance medium is piano or organ should take PIAN 310 after completing 2 semesters of music theory (this course is only taken once in the fall term of the sophomore year).

- F = Fall only
- S = Spring only
- B = Both semesters

Total Hours: 68

1 Courses must be completed before admission to the music education professional sequence.

2 Music Theory I and II should be taken before Music History I or higher.

- Students must apply for admission to the music education professional sequence upon completion of the first semester of their sophomore year.

### Professional Sequence

#### Professional Sequence Admission Requirements

1. Cumulative grade-point average of 2.75 or higher.
2. Grades of C or higher in MATH 101 and 9 hours of Communications/English as listed on the application.
3. Satisfactory completion of "Criteria for Admission" courses as shown in the Application for Music Education Professional Sequence Admission.
4. The student must write and attach a one-page essay (12-point font, double-spaced) to the application form that answers the following question: How will you advocate for school music programs in the community at large when you enter the classroom?
5. A fully completed application form and associated documents must be submitted to the MEMT office in 448 Murphy Hall.

- Transfer students with more than 45 hours of transfer credit must complete the professional sequence application during the first semester of classes at KU.

Total Hours: 33-34

- Choose, only 1 of 4 required (MEMT 421, 431, 432, 435).
- Choose, only 1 of 3 required (MEMT 350, 351, 352).
- If taking MEMT 350 must also take MEMT 435; if taking MEMT 351 must either take MEMT 421 or MEMT 431; if taking MEMT 352 must also take MEMT 432.

Students must achieve admission to the music education professional sequence prior to enrolling in these courses.

- Students should request a graduation check from the School of Music Student Services Office approximately 1 year before their expected graduation date. Graduation checks before that time should occur with the student’s MEMT advisor.

- Students must achieve admission to the music education professional sequence prior to enrolling in these courses.

- Students must do the following during the final semester:
  - register to take the PLT (Principles of Learning and Teaching) test
  - register to take the Praxis II Music Content test during the final semester
  - check their degree requirement check sheet to see that they have met all of the graduation requirements

- Students must do the following before graduation:
  - submit an application for graduation online through Enroll and Pay at the beginning of their last semester
– successfully complete their major applied instrument (422) including the senior 1/2 recital

Minor in Music

The School of Music

The School of Music at the University of Kansas ranks among the finest in America, offering comprehensive programs at the bachelor’s, master’s, and doctoral levels.

The school nurtures and advances the art of music through creation, performance, scholarly inquiry, entrepreneurship, and enhancement of the artistic skills and experiences of the university and regional cultural communities.

The school is a major contributor to the arts community through the student, faculty, and professional performances in Swarthout Recital Hall, Bales Organ Recital Hall, the Robert Baustian Theatre, and the Lied Center of Kansas.

The School of Music is an accredited institutional member of the National Association of Schools of Music (http://nasm.arts-accredit.org). The entrance and graduation requirements in this catalog conform to the published guidelines of that organization.

Requirements for the Minor in Music

Open to All KU Students

Students must first audition to be accepted as music minors, then may earn a minor in music by taking 24 hours in the courses listed below. At least 12 hours must be junior/senior-level courses, numbered 300 and above. A minimum grade-point average of 2.0 in the minor is required.

MTHC 105  Theory I  4
MTHC 115  Theory II  4
Applied lessons (4 semesters at the 100 level, 1 credit hour a semester)  4
MUSC 336  Masterworks of Music  3
9 credit hours to be chosen from lessons (300-level lessons are junior/senior classes — students can earn 1 credit hour a semester), ensembles, and/or music classes at the 300 level or above  9

Master of Music

View requirements for:

• Master of Music in Conducting (p. 1920)
• Master of Music in Musicology (p. 1921)
• Master of Music in Music Theory or Composition (p. 1922)
• Master of Music in Music Performance: Brass and Percussion (p. 1923)
• Master of Music in Music Performance: Organ, Church Music, and Carillon (p. 1924)
• Master of Music in Music Performance: Piano (p. 1926)
• Master of Music in Music Performance: Strings (p. 1927)
• Master of Music in Music Performance: Voice and Opera (p. 1928)
• Master of Music in Music Performance: Woodwinds (p. 1929)

Master of Music in Conducting

Master of Music in Conducting Degree Programs

M.M. degree programs in conducting:

• Band conducting
• Choral conducting
• Orchestral conducting

M.M. in Conducting Admission

Applicants are expected to have educational backgrounds equivalent to the B.M. or B.M.E. degree (including a course in form and analysis) from KU. They should have one or two years of experience in conducting. Such experience may include work in public school, college, or with other amateur or professional ensembles. Applicants normally are expected to have a high level of performing ability on an instrument or in voice. Applicants must complete audition-interviews successfully before the divisional faculty and should provide a résumé of their conducting experience, including programs of public appearances.

Graduate Admission to the School of Music

Application procedures and program requirements can change. Please visit the school’s website (http://music.ku.edu) for current information.

Graduate programs in the School of Music are open to students with acceptable baccalaureate degrees, as specified by the admitting areas, whose academic records indicate that they can do successful work at the graduate level. Regular admission requires a bachelor’s degree and a grade-point average of at least a B (3.0 on a 4.0 scale), from KU or from another regionally accredited institution or foreign university with substantially equivalent bachelor’s degree requirements.

Programs of study leading to the Master of Music (M.M.), Master of Music Education (M.M.E.), Doctor of Musical Arts (D.M.A.), and Doctor of Philosophy (Ph.D.) are offered through the School of Music. Specific admission procedures and degree requirements for the M.M. and M.M.E. programs are described under division headings. Specific admission procedures and degree requirements for the D.M.A., Ph.D. (musicology/music theory), and Ph.D. (music education/music therapy) are listed in the appropriate sections.

Program Areas

Graduate study in the School of Music is organized into program areas within 2 units:

• Music includes programs in composition, conducting, musicology, music theory, and most areas of performance.
• Music Education and Music Therapy includes programs in music education/music therapy.

At least a 3.0 grade-point average, overall and in the major area, is required for all course work counted toward any graduate degree in the School of Music. If the overall grade-point average falls below 3.0, the student is placed on probation for one semester; if the cumulative average is not 3.0 or higher after the next semester, the student is dismissed from the program. Students must also achieve at least a grade of B in
Diagnostic Examinations

All entering graduate students (except music education, music therapy, and opera performance majors) must take written diagnostic examinations in musicology and music theory. These are given in the week before the start of classes to determine whether any need exists for remedial work, so that an appropriate academic program can be designed for each student. Students who show the need for remedial work must complete certain course work or must show mastery of the material by examination. Graduate students entering programs in piano must take additional tests in piano literature given before the start of classes. A student is exempt if he or she received a bachelor’s or master’s degree in music from the University of Kansas within the previous 4 years.

M.M. in Conducting Degree Requirements

The degree candidate must present a final project consisting of a public choral or instrumental program. A recital preview is left to the discretion of the faculty members of each division. In divisions with no preview requirement, the option is still available to students and faculty members. Divisions must approve the recital content well in advance but no less than three weeks before the recital date. The candidate must file a professional-quality CD recording of the final recital with the School of Music before the final examination is scheduled.

A program of study in band and orchestral conducting (minimum of 30 hours) is as follows:

<table>
<thead>
<tr>
<th>Course</th>

</tbody>
</table>

- Choral conducting majors must enroll in an ensemble for a minimum of 2 semesters.

View a check sheet (http://music.ku.edu/resources/checksheets.shtml) for this degree program.

M.M. in Musicology Admission

Applicants are expected to have educational backgrounds equivalent to the B.A. or B.M. in musicology from KU. Applicants are expected to have a reading knowledge of German, French, Italian, or Spanish. A language deficiency may be satisfied after entrance into the program. Proficiency at the piano is encouraged. Applicants must submit samples of original scholarly writing. In addition to the required course work, students are encouraged to continue study of performance or composition.

Graduate Admission to the School of Music

Application procedures and program requirements can change. Please visit the school’s website (http://music.ku.edu) for current information.

Graduate programs in the School of Music are open to students with acceptable baccalaureate degrees, as specified by the admitting areas, whose academic records indicate that they can do successful work at the graduate level. Regular admission requires a bachelor’s degree and a grade-point average of at least a B (3.0 on a 4.0 scale), from KU or from another regionally accredited institution or foreign university with substantially equivalent bachelor’s degree requirements.

Program Areas

Graduate study in the School of Music is organized into program areas within 2 units:

- Music includes programs in composition, conducting, musicology, music theory, and most areas of performance.
- Music Education and Music Therapy includes programs in music education or music therapy.

At least a 3.0 grade-point average, overall and in the major area, is required for all course work counted toward any graduate degree in the School of Music. If the overall grade-point average falls below 3.0, the student is placed on probation for one semester; if the cumulative average is not 3.0 or higher after the next semester, the student is dismissed from the program. Students must also achieve at least a grade of B in thesis, lecture-recital, document or dissertation, and on each recital for satisfactory completion of degree requirements.

Diagnostic Examinations

All entering graduate students (except music education, music therapy, and opera performance majors) must take written diagnostic examinations.
in musicology and music theory. These are given in the week before
the start of classes to determine whether any need exists for remedial
work, so that an appropriate academic program can be designed for each
student. Students who show the need for remedial work must complete
certain course work or must show mastery of the material by examination.
Graduate students entering programs in piano must take additional tests
in piano literature given before the start of classes. A student is exempt
if he or she received a bachelor’s or master’s degree in music from the
University of Kansas within the previous 4 years.

Graduate Admission to the School of
Music

Application procedures and program requirements can change. Please
visit the school’s website (http://music.ku.edu) for current information.

Graduate programs in the School of Music are open to students with
acceptable baccalaureate degrees, as specified by the admitting areas,
whose academic records indicate that they can do successful work at
the graduate level. Regular admission requires a bachelor’s degree and
a grade-point average of at least a B (3.0 on a 4.0 scale), from KU or
from another regionally accredited institution or foreign university with
substantially equivalent bachelor’s degree requirements.

Programs of study leading to the Master of Music (M.M.), Master of
Music Education (M.M.E.), Doctor of Musical Arts (D.M.A.), and Doctor
of Philosophy (Ph.D.) are offered through the School of Music. Specific
admission procedures and degree requirements for the M.M. and M.M.E.
programs are described under division headings. Specific admission
procedures and degree requirements for the D.M.A., Ph.D. (musicology/
music theory), and Ph.D. (music education/music therapy) are listed in the
appropriate sections.

Program Areas

Graduate study in the School of Music is organized into program areas
within 2 units:

- Music includes programs in composition, conducting, musicology,
music theory, and most areas of performance.
- Music Education and Music Therapy includes programs in music
education or music therapy.

At least a 3.0 grade-point average, overall and in the major area, is
required for all course work counted toward any graduate degree in the
School of Music. If the overall grade-point average falls below 3.0, the
student is placed on probation for one semester; if the cumulative average
is not 3.0 or higher after the next semester, the student is dismissed
from the program. Students must also achieve at least a grade of B in
thesis, lecture-recital, document or dissertation, and on each recital for
satisfactory completion of degree requirements.

Diagnostic Examinations

All entering graduate students (except music education, music therapy,
and opera performance majors) must take written diagnostic examinations
in musicology and music theory. These are given in the week before
the start of classes to determine whether any need exists for remedial
work, so that an appropriate academic program can be designed for each
student. Students who show the need for remedial work must complete
certain course work or must show mastery of the material by examination.
Graduate students entering programs in piano must take additional tests
in piano literature given before the start of classes. A student is exempt
if he or she received a bachelor’s or master’s degree in music from the
University of Kansas within the previous 4 years.

M.M. in Music Theory or Composition

Programs of study are as follows:

Master of Music in Music Theory
or Composition

Master of Music in MTHC Degree
Programs

M.M. degree programs:

- Music theory
- Music composition

In addition to the required course work, students are encouraged to
continue study of performance or composition.

M.M. in Music Theory or Composition

Admission

Applicants are expected to have educational backgrounds equivalent to
the B.A., the B.M. in music theory, or the B.M. in composition from KU.
Applicants should submit copies of compositions and/or research papers
in music theory as well as recordings, if available. Applicants are expected
to have a reading knowledge of German, French, Italian, or Spanish. A
language deficiency may be satisfied after entrance into the program.
In addition to the required course work, students are encouraged to
continue study of performance and participate in ensembles on their major
instruments.

---

1. The master’s thesis in theory or composition shall consist of either a 20-minute work for large ensemble or a 30-minute chamber work, either of which may include electronic media. All thesis proposals must be approved by the MTHC faculty before the student begins work on the thesis.

### Master of Music in Music Performance: Brass and Percussion

### Master of Music in Performance Degree Programs

M.M. degree programs in music performance:

- Accompanying
- Bassoon
- Carillon
- Cello
- Church music

- Clarinet
- Double bass
- Euphonium
- Flute
- French horn
- Harp
- Oboe
- Opera performance
- Organ
- Percussion
- Piano
- Saxophone
- Trumpet
- Trombone
- Tuba
- Viola
- Violin
- Voice

### M.M. in Performance Admission

The applicant must perform an audition before the faculty of the major performance division. In some cases, an audio recording may be submitted in lieu of a live performance. A complete list of repertoire studied, including past recital programs, should be furnished to major division faculty members at the time of audition or submission of the tape recording. A prescreening CD/DVD is required for voice and piano applicants. View School of Music audition requirements and procedures (http://music.ku.edu/prospective/auditions.shtml).
