

Social Justice Certificate

Social justice lawyers give voice in the legal system to underrepresented clients and causes. The Social Justice Certificate is ideal for students interested in societal inequality and power differentials, particularly as these relate to class and economics, identity and rights, and the political process.

The certificate program allows students to deepen their knowledge and expand expertise in areas that intersect with social justice and prepares students for a career that aligns with their values. Hands-on work is an important component of the certificate program.

The Social Justice Certificate is available to concurrently enrolled KU Law J.D. students

Experiential Component: Every student in the concentration must complete one of the following experiential courses:

Code	Title	Hours
LAW 894	Field Placement Program (Placement must be with an organization focused on social justice. Requires director approval.)	1-6
