

Minor in French and Francophone Studies

Why study French?

Speakers of French span five continents. French is spoken by over 220 million people. By 2050, it is estimated that there will be over 750 million French speakers, 80% of whom will live in Africa, becoming the world's most spoken language. French is the international language of cooking, fashion, theater, the visual arts, dance and architecture. Thousands of US companies do business with the Francophone world. In an increasingly mobile and interconnected planet, the study of language, literature and culture has never been more crucial for our students' success. It provides students with a competitive edge in an increasingly internationalized workplace; for example, four out of five new jobs in the US are created as a result of foreign trade. Above all, learning a second language enables a greater understanding of other cultures while enhancing your own.
