

MASTER OF PUBLIC HEALTH

The University of Kansas Master of Public Health program (KU-MPH) is a fully accredited, 42 credit hour graduate program with concentrations in Epidemiology, Social and Behavioral Health, Environmental Health Sciences and Public Health Management. The program has been accredited by the Council on (<http://ceph.org>) Education for Public Health (CEPH) since 1998 and is offered through the Departments of Preventive Medicine and Public Health at the University of Kansas Medical Center in Kansas City and the University of Kansas School of Medicine-Wichita in Wichita. KU-MPH is also the only fully accredited MPH program in the state to become member of the Association of Schools and Programs of Public Health (ASPPH).

Our program mission is: To improve public health in Kansas, the Heartland, and the nation through excellence in education, discovery, and community engagement.

KU-MPH graduates serve in a wide variety of public health fields, including clinical medicine, research, health education.

The application process is an online process. Detailed instructions on how to apply and the application deadlines are posted on the Master of Public Health (<http://www.kumc.edu/school-of-medicine/mph/admissions.html>) website. Admission to the M.P.H. program is competitive. Students may apply in either Kansas City or Wichita and indicate their preference of campus choice as well as their choice for concentration on the application itself.

Admission requirements:

- A bachelor's degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least a 3.0 on a 4.0 scale for the bachelor's degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (<http://www.kumc.edu/Documents/graduate%20studies/Min%20Engl%20Prof%2016-Oct.pdf>).
- A background check (<http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%2016-Oct.pdf>) is required during the admission process; it may affect the student's eligibility to enter the program.
- Submission of official scores on the Graduate Record Examination (GRE) or other professional test scores (such as the Graduate Management Admission Test, Medical College Admission Test, Law School Aptitude Test) that are not more than five years old. Official copy of scores should be sent from the Educational Testing Service (ETS) to the University of Kansas Medical Center - ETS institutional code 6895. Applicants who have earned a doctoral degree in the United States are exempt from this requirement.
- Three letters of recommendation from employers, instructors, or other persons who can assess the applicant's academic and professional potential. Letters are submitted per instructions provided for the online application process.
- A résumé or curriculum vitae. Demonstration of one or more years of responsible work experience in the health field or a degree in

a recognized health profession or other evidence of training or experience that indicates adequate preparation for the M.P.H. curriculum is preferred.

- A personal written statement that describes the applicant's career goals and motivation for seeking post-graduate training in public health.
- Responses to three short-answer questions that are part of the online application itself.
- One semester of college algebra or calculus is required to enter the social and behavioral health concentration, the public health management concentration, or the environmental health sciences concentration.
- Completion of one semester of calculus is required to enter the epidemiology concentration.
- Applicants to the environmental health concentration must also have completed at least one semester of undergraduate biology and one additional semester of biology or another physical science course.

After an applicant has been admitted, the program may defer an applicant's admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. *Other years' catalogs».*

The Master of Public Health program consists of at least 42 credit hours. Students complete credit hours in specified core courses in epidemiology, environmental health, public health administration, biostatistics, and the social and behavioral sciences along with an elective course. The specific degree requirements vary by the choice of concentration. The four concentrations are epidemiology, social and behavioral health, environmental health sciences, or public health management. All students complete a public health internship and capstone project as described below.

Degree Requirements:

- Degree requirements are normally completed within 2 years of admission to the program although a maximum of 7 years is allowed. Part-time students normally complete requirements within 4 years of admission to the program.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.
- Enrollment in a minimum of one (1) credit hour the semester the student will graduate.
- Completion of a minimum of 42 hours.
- Successful completion of the following core courses (21 credit hours) regardless of concentration:

PRVM 800	Principles of Epidemiology	3
PRVM 809	Introduction to Public Health	3
PRVM 818	Social and Behavioral Aspects of Public Health	3
PRVM 827	Public Health Administration	3
PRVM 830	Environmental Health	3
BIOS 704 or BIOS 714	Principles of Statistics in Public Health Fundamentals of Biostatistics I	3
PRVM 875	Management of Public Health Data	3

or BIOS 715 Introduction to Data Management using RedCap and SAS	
Total Hours	21

PRVM 879 Financial and Human Resource Management	3
Total Hours	12

- Successful completion of a minimum of three (3) credit hours of elective coursework. Specific courses determined in consultation with the student's advisor.
- Successful completion of three (3) credit hours of internship in a public health agency or similar organization.

PRVM 891 Public Health Internship	3
PRVM 893 Public Health Capstone	3

- Successful completion of three (3) credit hours of capstone including preparation and defense of a written project report developed from the capstone experience.
- Successful completion of a concentration (minimum 12 credit hours.) Choose from Epidemiology, Social and Behavioral Health, Environmental Health Sciences or Public Health concentrations.

- **Epidemiology concentration** - complete the following courses:

PRVM 813 Chronic Disease Epidemiology	3
PRVM 815 Infectious Disease Epidemiology	3
PRVM 841 Advanced Epidemiology I: Methods in Cross-Sectional and Case-Control Studies	3
PRVM 842 Advanced Epidemiology II: Methods in Longitudinal Studies	3
Total Hours	12

- **Social and Behavioral Health concentration** - complete the following courses:

PRVM 835 Evaluation Methods in Public Health	3
PRVM 845 Cultural Competency in Public Health	3
PRVM 849 Qualitative Methods in Public Health	3
PRVM 877 Health Communication	3
Total Hours	12

- **Environmental Health Sciences concentration** - complete the following courses:

PRVM 832 Environmental and Occupational Epidemiology	3
PRVM 870 Environmental Health Law and Policy	3
PRVM 871 Environmental Monitoring and Exposure Assessment	3
PRVM 874 Toxicology and Risk Assessment	3
Total Hours	12

- **Public Health Management concentration** - complete the following courses:

PRVM 828 Public Health Program Development and Management	3
PRVM 851 Public Health Policy and Law	3
PRVM 861 Leadership in Public Health	3

Degree requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog of the year student entered the program. *Other years' catalogs».*

Typical Plan of Study (Kansas City campus)

- Full-Time MPH in Epidemiology (Kansas City) (p. 2)
- Part-Time MPH in Epidemiology (Kansas City) (p. 3)
- Full-Time MPH in Social and Behavioral Health (Kansas City) (p. 3)
- Part-Time MPH in Social and Behavioral Health (Kansas City) (p. 3)
- Full-Time MPH in Environmental Health Sciences (Kansas City) (p. 3)
- Part-Time MPH in Environmental Health Sciences (Kansas City) (p. 3)
- Full-Time MPH in Public Health in Public Health Management (Kansas City) (p. 4)
- Part-Time MPH in Public Health in Public Health Management (Kansas City) (p. 4)

Typical Plan of Study (Wichita campus)

- Full-Time MPH in Epidemiology (Wichita) (p. 4)
- Part-Time MPH in Epidemiology (Wichita) (p. 4)
- Full-Time MPH in Social and Behavioral Health (Wichita) (p. 4)
- Part-Time MPH in Social and Behavioral Health (Wichita) (p. 5)
- Full-Time MPH in Environmental Health Sciences (Wichita) (p. 5)
- Part-Time MPH in Environmental Health Sciences (Wichita) (p. 5)
- Full-Time in Public Health Management (Wichita) (p. 5)
- Part-Time in Public Health Management (Wichita) (p. 6)

Dual M.D.-M.P.H. Program

This is a five year program in which the medical student completes the requirements for the M.P.H. degree in one year. This can be accomplished either between the second and third, or between the third and fourth years of medical school. Students must complete all degree requirements for both the M.D. and the M.P.H. programs. They complete the M.P.H. concentration (either in Social and Behavioral Health or Public Health Management), in three semesters, beginning in the summer (June), and proceeding through fall (August) and spring (January), and finishing by the end of May. Please contact the respective academic units offering the degree for more information. The M.D. degree (<http://catalog.ku.edu/medicine-doctorate>) is offered by the School of Medicine.

Joint Ph.D. in Behavioral Psychology-M.P.H. Program

The Department of Applied Behavioral Science on the Lawrence campus offers a 72-credit-hour doctoral program in behavioral psychology (<http://catalog.ku.edu/liberal-arts-sciences/applied-behavioral-science/phd>). Students learn about an array of content areas and theoretical perspectives and achieve proficiency in behavioral analysis, developmental studies, or behavioral intervention. Both the departments of Applied Behavioral Science (<http://www.absc.ku.edu>) and of Preventive Medicine and Public Health (<http://ph.kumc.edu>) promote community/public health and development through collaborative research, teaching, and service.

The joint Ph.D./M.P.H. is ideal for students interested in prevention through community and public health. Students must apply for admission to the M.P.H. and Ph.D. programs separately. Applications are reviewed by the admissions committees of both programs. Students admitted to the joint program complete the 42-hour M.P.H. requirements as listed in the chart below in addition to the Ph.D. requirements. See the Doctor of Philosophy in Behavioral Psychology (<http://catalog.ku.edu/>

[liberal-arts-sciences/applied-behavioral-science/phd](http://catalog.ku.edu/liberal-arts-sciences/applied-behavioral-science/phd)) section of this catalog for the Ph.D. degree requirements. Completion of ABSC 710, ABSC 875, and ABSC 876 also qualifies a student for a Graduate Certificate in Community Health and Development (<http://catalog.ku.edu/liberal-arts-sciences/applied-behavioral-science/graduate-certificate/#requirementstext>) offered by the Department of Applied Behavioral Science. Additional details about the certificate program may be found on their website (<http://absc.ku.edu/graduate-certificate-community-health-and-development/#requirements>).

M.P.H. Course Requirements for the Ph.D. in Behavioral Psychology-M.P.H. Program

Required Core Courses (21)

PRVM 800	Principles of Epidemiology	3
PRVM 809	Introduction to Public Health	3
PRVM 818	Social and Behavioral Aspects of Public Health	3
PRVM 827	Public Health Administration	3
PRVM 830	Environmental Health	3
PRVM 875	Management of Public Health Data	3
BIOS 704 or BIOS 714	Principles of Statistics in Public Health Fundamentals of Biostatistics I	3

Shared Ph.D. Courses satisfies requirements for the MPH Concentration in Social and Behavioral Health (9)

ABSC 710	Community Health and Development	3
ABSC 735	Within Subjects Research Methodology and Direct Observation	3
ABSC 861	Principles of Behavior Analysis	3

MPH Elective (3)

PRVM 8xx		3
----------	--	---

Public Health Internship and Capstone (6)

PRVM 891	Public Health Internship	3
PRVM 893	Public Health Capstone	3

Total Hours 39

The following abilities and expectations must be met by all students admitted to the Master of Public Health program:

OBSERVATION:

A student must be able to observe and analyze class demonstrations and field experiences relevant to the disciplines of public health. These disciplines include but are not limited to epidemiology, biometry, environmental health, health program management, and behavior science. Observation necessitates the functional use of the senses of vision and hearing.

COMMUNICATION:

A student must be able to communicate effectively in oral and written forms with other students, faculty, and preceptors. Use of computers and other technology is imperative to this communication. Effective communication includes the ability to understand assigned readings and lectures, the ability to analyze information, and the ability to present results of such analyses verbally and in writing.

MOTOR:

A student must have sufficient motor function to attend classes, prepare assignments, give public presentations, and participate in field experiences. Some field experiences in environmental health, for example,

include activities at sites (e.g. waste treatment plants, water treatment facilities).

INTELLECTUAL-CONCEPTUAL, INTEGRATIVE, AND ANALYTIC ABILITIES:

Applicants must be able to read and understand documents written in English. A student must possess the ability to understand and work with measurements, carry out calculations, and engage in reasoning, analysis, and synthesis. Problem solving, the critical skill of public health, demands all of these intellectual abilities. In addition, a student should be able to comprehend three-dimensional relationships and understand spatial relationships of structures.

BEHAVIORAL AND SOCIAL ATTRIBUTES:

A student must possess the emotional maturity and stability required for full utilization of his/her intellectual abilities, the exercise of sound judgment, and the prompt completion of all responsibilities attendant upon responsible activity in the broad field of public health. Integrity, motivation, reliability, self-direction, and the ability to work in diverse groups are personal qualities, which are required for effective practice in the field. As a component of public health education, a student must demonstrate ethical behavior.

Individuals with disabilities are encouraged to apply to the program.

Candidates who indicate that they cannot meet one or more of the expectations will be reviewed further with applicant and faculty input to determine what reasonable accommodations might be possible to facilitate successful completion of the MPH curriculum.
