SCHOOL OF MEDICINE

Founded in 1905, the KU School of Medicine is proud of its rich legacy as Kansas' only medical school. Our mission is to enhance the quality of life and serve our community through the discovery of knowledge, the education of health professionals and by improving the health of the public.

The School of Medicine integrates excellent education, scientific discovery, outstanding clinical programs and dedication to community service. In addition to its commitment to educating the physician workforce of tomorrow, the school is an emerging leader in biomedical research and the health of the public. Graduate programs are offered in the biomedical sciences, biostatistics, public health, health policy and management, and clinical research.

Admission and degree requirements vary by program and are listed in the individual program descriptions. Requirements and course descriptions are subject to change. In most cases, use the catalog of the year student entered program. Other years' catalogs.

Doctor of Medicine

M.D.-Ph.D. Combined Degrees

Anatomy and Cell Biology

Biochemistry and Molecular Biology

Biostatistics

Cancer Biology

Health Informatics

Health Policy and Management

History and Philosophy of Medicine

Interdisciplinary Graduate Program in Biomedical Sciences

Microbiology, Molecular Genetics, and Immunology

M.D. (Doctor of Medicine)

M.D.-Ph.D. Physician Scientist Training Program

Master of Science in Cell Biology and Anatomy

Master of Science in Biochemistry and Molecular Biology

Master of Science in Biostatistics

Master of Science in Cancer Biology

Master of Science in Health Informatics

Master of Science in Health Policy and Management

Master of Science in Microbiology

History and Philosophy of Medicine

Interdisciplinary Graduate Program in Biomedical Sciences

Microbiology, Molecular Genetics, and Immunology

Biostatistics

Cancer Biology

Health Informatics

Health Policy and Management
