Graduate Certificate in Architecture of Health and Wellness

ARCH 731 (3) Architecture of Health (Introduction to healthcare facilities and systems)

ARCH 807 (6) Health & Wellness Internship (Seven-month paid internship in architectural firm specializing in healthcare planning and design)

ARCH 808 (6) Health & Wellness Capstone Studio (Final studio in the Master of Architecture curriculum)

Students may elect 12 hours of graduate credit from the above courses to satisfy specific curricular requirements for their academic programs. Students in the professional M.Arch. program would enroll in ARCH 731 as fourth-year students and complete the certificate requirements by taking ARCH 807 and 808. Students from outside the School could take ARCH 731 and then enroll in either ARCH 807 or 808 to complete an internship or research project.
