Master of Science in Education in Social and Cultural Studies in Education

Masters of Science in Education in Social & Cultural Studies in Education

The Master’s degree in Social and Cultural Studies in Education offered at the University of Kansas School of Education and Human Sciences provides graduate students a 30 (or 36) credit hour program, with both a non-thesis or thesis option. The program permits students to complete a variety of courses, focusing on foundational questions and applications such as:

• How has the present educational system developed, in the U.S. and worldwide?
• How does poverty and inequality affect the school performance of children?
• What knowledge should schools aim to impart?
• How can education help achieve a more just, democratic and multicultural society?
• What are the ethical responsibilities of teachers and other educators in an unequal and changing society?
• What are the competing purposes of education, and how do we make choices among them?

As a field of study, Social & Cultural Studies in Education is also known as Social Foundations of Education at some institutions. At KU, this Master’s level degree program offers an individualized student experience that addresses big questions in education, such as inequality, multiculturalism and social justice – and can be completed in less than two calendar years. The program is designed for full-time and part-time graduate students. Graduate students enrolled in the program can expect to:

• Increase their knowledge and ability to assess problems in contemporary education, particularly concerning questions of inequity, multiculturalism and social justice.
• Apply knowledge from a diverse array of courses and departmental perspectives including: sociology, philosophy, history, political science, and more.
• Examine problems in curriculum and learning, especially around questions of language and culture.
• Enlarge understanding of schooling & develop an appreciation of the political, economic and social forces that influence the decisions of educational leaders.
• Share in-depth analyses and discussions of theory for application to real-world experiences in classes and other settings.
• Complete a thesis or project, or a comprehensive exam during their final semester demonstrating your competencies in social and cultural dimensions of education.

Graduate Admission to the School of Education and Human Sciences

Graduate programs in education are open to students with acceptable baccalaureate and graduate degrees whose academic records indicate that they can do successful work at the graduate level. Regular admission requires a grade-point average of at least 3.0 on a 4.0 scale in prior degrees. Individual departments may require additional information and may have more stringent admission requirements.

Departments that offer provisional admission have minimum grade point average requirements. Check admission requirements for individual programs. Applicants must provide evidence of ability to work successfully at the graduate level, including experience in and commitment to the profession. Exceptions to established policies must be sought individually by petition to the Graduate Division of the School of Education and Human Sciences.

See Admission in the Graduate Studies (http://catalog.ku.edu/graduate-studies/) section of the online catalog for more information.

Each department in the School of Education and Human Sciences sets its own application deadlines. Prospective graduate students should contact their departments for more information.

Graduate Admission

Individual programs may have additional requirements and request additional materials. Please check the departmental website for additional requirements.

Applicants for all programs must submit the following materials:

1. Graduate application (http://www.graduate.ku.edu/), (http://graduate.ku.edu/ku-graduate-application/)
2. 1 official transcript from each degree-granting collegiate institution attended.
3. Original Graduate Record Examination (GRE) general test scores for Ph.D. applicants.
4. Statement of purpose/relevance of degree to career aspirations.
5. 3 letters of recommendation evaluating the applicant’s capacity for rigorous graduate study and qualifications for leadership positions in education and related fields.
6. A vita or resume.

Individual program concentrations may require additional application materials. Please consult the appropriate program advisor. The following application deadlines apply:

The master’s in Social and Cultural Studies in Education is a 30 or 36 credit-hour degree.

1. Students in the SCSE Master’s Program can choose between two courses of study: 1) a thesis (or project) option that requires a total of 30 graduate credit hours; or a non-thesis option that requires a total of 36 graduate credit hours.

2. Students take a major concentration of courses related to the history, philosophy and sociology of education, with the advice of a faculty advisor and an advisory committee. Such courses should offer an opportunity for students to focus on a variety of theoretical and research-based questions. A minimum of 10 hours of coursework is required in the major concentration for the thesis option, and 12 hours in the non-thesis option.

3. Other aspects of the program are flexible. A minimum of 6 credit hours must be taken outside of the ELPS Department, although students typically take more than this. In particular students are urged to take coursework outside of the school of education, in conjunction with the principal SCSE field (history, philosophy, sociology, anthropology, political science or economics) that they are interested in. A course in educational research (EPSY 715) is also required. Each student in the non-thesis/project option must pass a comprehensive examination at the end of coursework, supervised by the student’s committee.
