

Project Management (M.E. & M.S.)

Project Management Graduate Program Master of Engineering (M.E.) or Master of Science (M.S.)

KU Edwards Campus

Project Management (<http://www.pmgmt.ku.edu>) is driven by globalization, the internet, and the rapid advancement for work processes. Organizations must implement projects faster than ever before. These organizations are looking for technically oriented and highly skilled project managers. Our Project Management degree addresses workforce needs by providing individuals from multiple disciplines with the skills, confidence, and competence to manage a variety of projects, as well as bridge the fields of engineering, technology, people, and business. Individuals may opt for a Master of Engineering (<http://www.pmgmt.ku.edu/me-pm>) (M.E.) in Project Management or a Master of Science (<http://www.pmgmt.ku.edu/ms-pm>) (M.S.) in Project Management depending on their undergraduate discipline.

The Project Management (PMGT) fundamental courses will strengthen knowledge and ability to apply the theories and concepts of Project Management in the real world. Electives will be offered on a rotational basis and will remain current with Project Management trends, demands, and the interests of our students.

Courses can be completed in Overland Park on the KU Edwards Campus (<http://edwardscampus.ku.edu>) on weekday evenings and are also available by e-learning with permission from the instructor. Classes are taught by Graduate Faculty members of the School of Engineering and members of the professional community.

Graduate Admission Requirements

KU Edwards Campus

For admission to KU's Master of Engineering in Project Management, applicants must have:

1. An undergraduate degree in engineering or related science from an accredited institution.
2. A 3.0 or higher undergraduate grade point average (on a 4.0 scale).
3. Two years full-time, post-undergraduate work experience in a technological environment.
4. International students must also meet the English requirement by taking either the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS) or have a degree from an English speaking institution. Financial support requirements must also be met.

All applications are completed online. A complete application includes the application fee, application form, résumé, 1 original transcript showing degree conferral, and 3 recommendation forms. Course schedules, faculty biographical information, and other program information may be requested from the PMGT office or downloaded from the Project Management website.

Graduate applications should be submitted online (<http://www.graduate.ku.edu>).

For admission to KU's Master of Science in Project Management, applicants must have:

1. Bachelor of Science degree from an accredited institution.
2. A 3.0 or higher undergraduate grade point average (on a 4.0 scale).
3. GRE score, sent directly to the Project Management Program Coordinator. The GRE may be waived, upon departmental review, if the applicant has 2+ years of qualified professional experience.
4. International students must also meet the English requirement by taking either the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS) or have a degree from an English speaking institution. Financial support requirements must also be met.

All applications are completed online. A complete application includes the application fee, application form, résumé, 1 original transcript showing degree conferral, and 3 recommendation forms. Course schedules, faculty biographical information, and other program information may be requested from the PMGT office or downloaded from the Project Management website.

Admissions Deadline

Our program priority deadlines for admission are:

Fall Admission: December 15 (all applicants)

Spring Admission: September 30 (all applicants)

Summer Admission: April 1 (all applicants)

*The program will accept applications after the priority deadline, but these may no longer be considered for additional funding options. Graduate applications should be submitted online (<http://www.graduate.ku.edu>).

International students and students who indicated English as a second language, are required to show proof of English proficiency for admission purposes and must check-in at the Applied English Center (<http://www.aec.ku.edu>) (AEC) upon arrival on campus for orientation. This process serves to confirm each student's level of English proficiency and determine whether English courses will be included as a requirement of the student's academic program. Note: Students who demonstrate English proficiency **at the waiver level** or who have earned a degree from one of the specified English-speaking countries listed in the policy (<http://policy.ku.edu/graduate-studies/english-proficiency-international-students>) are not required to check in at the AEC (see eligibility requirements on the Graduate Studies website (<https://graduate.ku.edu/english-proficiency-requirements>)).

**The University of Kansas Edwards Campus
Project Management
12600 Quivira Road
Overland Park, KS 66213-2402**

Degree Requirements

The Masters in Project Management requires a total of 33 semester hours of graduate work. A total of 12 hours will be completed in Project Management (PMGT) fundamentals for both the Master of Engineering and Master of Science, while the remaining 21 hours will be completed in varying required course work and electives depending on the degree

program. Please refer to the Plan of Study below for the corresponding degree program. Students will work with their faculty advisor and the program coordinator to finalize course selections to meet department and university requirements for degree completion and complete their Plan of Study (<https://gradplan.engr.ku.edu/accounts/login/?next=>).

Master of Engineering in Project Management

Required Courses (19)

PMGT 816	Project Management Fundamentals I	3
PMGT 817	Project Managemnt Fundmntls II	3
PMGT 818	Project Management Fundamentals III	3
PMGT 819	Project Management Fundamentals IV	3
