Goals of Graduate Study

The traditional goals of graduate study are independent scholarship, competence in research or other creative work, and the cultivation of skill and commitment in teaching. Having acquired a broad education as an undergraduate, the student is expected to master a specific field, to learn the methods of investigation employed therein, and to proceed toward making an original contribution to knowledge. Since many of those who earn advanced degrees seek careers in higher education, the acquisition of skill in teaching and in directing research are also essential parts of graduate education.

Emerging societal interests and changing market demands continue to underscore the importance of the traditional goals of graduate study. At the same time, they emphasize the need for flexibility in programs and accommodation in career objectives. Graduates in many fields continue to pursue increasingly diverse careers and, as they do, they demonstrate the value of graduate study and research to society, government, business, industry, the diverse professions, and the arts.

Graduate Military Programs

The Office of Graduate Military Programs (GMP) (http://gmp.ku.edu/) facilitates collaboration between the university and the US Armed Forces for the development of academic programs and research initiatives that support the needs of the Department of Defense (DOD). GMP develops and maintains programs for select officers attending the Command and General Staff College at nearby Fort Leavenworth, instructors at the United States military academies, foreign area officers, logisticians, and other DOD personnel requiring the advanced degrees necessary to teach and conduct research at the highest level. The office assists principal investigators throughout the university to find well-matched research grant opportunities, prepare proposals, and coordinate with the appropriate DOD entities. GMP also collaborates with the Student Veteran Center and serves as a voice for all educational issues related to student veterans. GMP is committed to creating and maintaining a positive learning environment for military veterans attending our university.

Research

Research is an integral part of the university’s educational mission and approach to graduate study. The National Science Foundation classifies KU as a major university receiving substantial research support. The Carnegie Classification of Institutions of Higher Education classifies KU as a doctorate-granting R1 Research University with the Highest Research Activity, and KU has been a member of the Association of American Universities since 1909. The university has a long and successful record of research collaboration through independent, multidisciplinary research centers that focus on common themes. KU is home to university research centers and institutes, affiliated centers, core service labs, the Kansas Geological Survey, and the Kansas Biological Survey. In addition, a number of research centers exist in individual departments and academic units throughout the university. For more information about research on the Lawrence campus, visit the Research (http://www.ku.edu/research/) page or the Office of Research (http://www.research.ku.edu/).

Fellowships and Scholarships

Visit the Graduate Studies website (http://graduate.ku.edu/) for information about funding opportunities for KU graduate students.

Admission to Graduate Study

Persons whose records indicate their ability to succeed in advanced work may be admitted to the University of Kansas for graduate study in one of the professional schools or in the College of Liberal Arts and Sciences. The key university requirements for admission are outlined in the following two policies: Admission to Graduate Study (https://policy.ku.edu/graduate-studies/admission-to-graduate-study/) and English Proficiency Requirements for Admission to Graduate Study (https://policy.ku.edu/graduate-studies/english-proficiency-international-students/). Departments and programs may have more stringent requirements.

Transcripts

Applications must be accompanied by one copy of official transcripts from the institution where the applicant earned the bachelor's degree (or equivalent)*. This official transcript will be used to verify the completion (or intended completion) of a baccalaureate degree (or equivalent).

For processing purposes, applicants may attach scanned versions of official transcripts to their application. If applicants are admitted to a program and accept the admission offer, they will be required to submit an official, final transcript that shows their degree has been conferred. If the applicant has completed any graduate work, official transcripts from the graduate institution(s) must be included as well. Letters of recommendation and test scores may also be required. Applicants should check with the program(s) to which they are applying for more information.

In order to be considered official, transcripts and test scores must be sent through secure means (e.g., a sealed envelope, electronic transmission)
directly from the degree-granting institution or testing service to the University of Kansas. Transcripts and test scores provided through unofficial means will not be considered to be official documents for the purpose of admission.

*Applicants with KU degrees are not required to provide official KU transcripts or copies of KU transcripts to apply for admission.

**Additional Application Requirements**

Letters of recommendation, test scores, personal statements, and other materials may also be required. Applicants should check with the program(s) to which they are applying for more information.

**Application Fees**

Nonrefundable application fees payable to the University of Kansas are required. Rates are subject to change. Some departments and programs require deposits from admitted students to be fully credited against required fees upon enrollment.

*Does not apply to current degree-seeking graduate students.

View the current Lawrence and Edwards Campus application fees (https://registrar.ku.edu/comprehensive-fee-schedule/) within the Comprehensive Fee Schedule on the University Registrar's website.

**Degrees**

Degrees are awarded three times each year, in August, December, and May. Degrees for each academic year are conferred formally at the annual commencement ceremony in May. Degree candidates are not eligible to graduate if the graduate grade-point average (GPA) is lower than 3.0 in all courses acceptable for graduate credit. Doctoral candidates who have fulfilled all of their degree requirements by the deadline dates for graduation in a doctoral hooding ceremony.

Students who are working toward two degrees must complete the requirements for each degree. Course work may not count toward fulfilling degree requirements for more than one degree.

Graduate students may not be awarded an additional KU degree with the same name and degree code as a previously awarded degree from KU. This applies to the completion of different degree tracks, concentrations, and sub-specialties within a given degree. This does not prohibit students from earning additional master’s or doctoral degrees in another discipline.

View the current Lawrence and Edwards Campus policy on master’s degrees (http://policy.ku.edu/graduate-studies/ma-ms-degrees/).

Historically, most of the master’s degrees granted at KU have been the Master of Arts and Master of Science degrees. This fact conforms to the traditional liberal arts background out of which most U.S. graduate schools developed. KU grants a number of professional master’s degrees, most of which are offered through the professional schools. Students should consult the appropriate college or school section of the online catalog for detailed descriptions of professional master’s programs.

The degree of Specialist in Education (http://catalog.ku.edu/education/psychology-research/eds/) is offered through the School of Education and Human Sciences and may be earned as a concentration on the basis of two years of graduate work (which can include an appropriate master’s degree or equivalent). Information on this degree, including the concentration in which it may be earned, can be found in the School of Education section of the online catalog.

**Jointly Administered Degrees**

In a few cases, a degree is offered through two schools and administered by a joint committee from the two faculties. The master of arts degree in Speech-Language Pathology and the master of arts degree in Audiology are administered by an intercampus committee drawn from the Department of Speech-Language-Hearing: Sciences and Disorders in Lawrence and from the Department of Hearing and Speech of the School of Health Professions in Kansas City.

**Master’s Degree Requirements**

The Executive Council of Graduate Faculty determines the common requirements for master’s degrees at the University of Kansas. Specific requirements for each individual degree program are outlined in the catalog section maintained by the school or college offering that degree.

More detailed information on common degree requirements can be found in the Policy Library. Key policies include:

- Master’s Degree Requirements (https://policy.ku.edu/graduate-studies/ma-requirements/)
- Master’s Program Time Restraints (http://policy.ku.edu/graduate-studies/ma-program-time-constraints/)
- Master’s Final Examinations (http://policy.ku.edu/graduate-studies/masters-final-exams/)
- Graduate Student Oral Exam Attendance (http://policy.ku.edu/graduate-studies/oral-exam-attendance/)
- Master’s Student Oral Exam Committee Composition (https://policy.ku.edu/graduate-studies/masters-oral-exam-committee-composition/)
- Master’s Thesis Submission and Publication (https://policy.ku.edu/graduate-studies/ma-thesis/)

**Doctoral Degree Programs**

KU offers the following doctoral degrees:

- Doctor of Philosophy (Ph.D.),
- Doctor of Audiology (Au.D.),
- Doctor of Education (Ed.D.),
- Doctor of Engineering (D.E.), and
- Doctor of Musical Arts (D.M.A.)
The programs offering these degrees are administered by the schools and colleges through their departments and graduate divisions, from admission through final recommendation for awarding the degree.

This section of the catalog provides succinct, general descriptions of each of the five doctoral degrees in order to facilitate convenient comparison of the degrees. Detailed information about requirements for each degree, as it is offered in a specific discipline, should be obtained from the appropriate college, school, or department listing in the online catalog.

The School of Law (http://catalog.ku.edu/law/) offers the Juris Doctor (J.D.) and Doctor of Juridical Science (S.J.D.) degrees.

The School of Medicine (http://catalog.ku.edu/medicine-doctorate/) offers the Doctor of Medicine (M.D.) degree. The KU Medical Center campus (http://catalog.ku.edu/graduate-studies/kumc/#programstext) offers additional doctoral degrees, such as the Clinical Doctorate in Speech-Language Pathology (S.L.P.D.), the Doctor of Nursing Practice (D.N.P.), the Doctor of Occupational Therapy (O.T.D.), and the Doctor of Physical Therapy (D.P.T.).

Doctor of Philosophy

The degree of Doctor of Philosophy (Ph.D.) is the highest degree offered by the university. It is awarded for mastering a field of scholarship, for learning the methods of investigation appropriate to that field, and for completing a substantial piece of original research. In addition to preparing research specialists, the process of earning a Ph.D. shares certain goals with liberal education:

• putting order into human experience;
• fostering a love of learning for its own sake;
• instilling respect for human values;
• integrating various human powers into a process of creation; and
• making vital, in many fields at least, a sense of history.

Although the courses and research leading to the Ph.D. are necessarily specialized, the attainment of this degree should not be an isolated event in the enterprise of learning. The Ph.D. aspirant is expected to be a well-educated person with a broad base of general knowledge, not only as preparation for more advanced work but also as a means of knowing how the chosen specialty is related to other fields of human thought.

To give depth and breadth to their doctoral programs, many departments require some work in a minor field or at least an articulated selection of extra-departmental courses. Because of the diversity of the fields in which the Ph.D. is offered, and the variety of needs and interests of individual students, the degree does not have a specific requirement for a minor. However, the Ph.D. aspirant is encouraged to plan an integrated program, under departmental direction, that includes courses outside the major field.

View the current Lawrence and Edwards Campus policy on the Doctor of Philosophy degree. (http://policy.ku.edu/graduate-studies/doctor-of-philosophy/)

Doctor of Audiology

The Doctor of Audiology (Au.D.) degree program prepares the student to enter clinical practice as an audiologist. Offered by the KU School of Health Professions, the program produces professionals skilled in providing diagnostic, rehabilitative, and related services in the fields of sound, balance, and hearing sciences. There is an emphasis on the clinical learning experience, although research is also a significant component of the program. Degree requirements are listed under Communicative Disorders: Intercampus Program (http://catalog.ku.edu/health-professions/audiology-speech-language-pathology/) in the online catalog.

Doctor of Education

The degree of Doctor of Education (Ed.D.) is a professional degree designed primarily for practitioners in the field of education. While many of the requirements for the degree closely parallel those for the Ph.D., the degree program—particularly the dissertation—focuses on research concerned with application of existing knowledge rather than on basic research. Specific degree requirements are listed in the School of Education and Human Sciences (http://catalog.ku.edu/education/) section of the online catalog.

Doctor of Engineering

The degree of Doctor of Engineering (D.E.) is directed toward the practice of engineering and includes the entire process of technology from planning to product. Candidates for the degree are intimately associated throughout their tenure with technology project teams, generally composed of master’s degree candidates and undergraduates. Specific degree requirements are listed in the School of Engineering (http://catalog.ku.edu/engineering/) section of the online catalog.

Doctor of Musical Arts

The degree of Doctor of Musical Arts (D.M.A.) is intended as recognition of high professional attainment. Since only exceptionally well-qualified candidates are admitted to the program, students are expected to devote their doctoral studies primarily to developing professional qualifications for teaching at the college level. The degree of Doctor of Musical Arts is offered in the specific fields of bassoon; church music (organ or choral conducting emphasis); clarinet; composition; conducting (band, choral, or orchestral); flute; French horn; oboe; organ; percussion; piano performance, literature, and pedagogy; saxophone; strings; trombone; trumpet; tuba; and voice. Degree requirements are listed under the School of Music (http://catalog.ku.edu/music/) section of the online catalog.

Doctoral Degree Requirements

The Executive Council of Graduate Faculty determines the common requirements for master’s degrees at the University of Kansas. Specific requirements for each individual degree program are outlined in the catalog section maintained by the school or college offering that degree.

More detailed information on common degree requirements can be found in the Policy Library. Key policies include:

• Engagement and Enrollment in Doctoral Programs (https://policy.ku.edu/graduate-studies/engagement-enrollment-doctoral-programs/)
• Research Skills and Responsible Scholarship Requirements (https://policy.ku.edu/graduate-studies/research-skills-responsible-scholarship/)
• Comprehensive Oral Examinations (https://policy.ku.edu/graduate/studies/doctoral-oral-exams/)
• Doctoral Student Oral Exam Committee Composition (https://policy.ku.edu/graduate-studies/doctoral-student-oral-exam-committee-composition/)
• Doctoral Comprehensive Exam Time Constraints (https://policy.ku.edu/graduate-studies/doctoral-exam-time-constraints/)
Joint Degrees, Dual Degrees, and Dual Degrees-Accelerated

KU offers joint, dual and dual-accelerated degrees. An explanation of these program types can be found in the Academic Programs Definitions policy (https://policy.ku.edu/provost/academic-program-definitions/). For more information about specific degree programs, students should contact their academic department of study.

Distance Education, Online, or Hybrid Graduate Programs

The University of Kansas offers online and hybrid courses and certificate and degree programs. For more information about specific online course and degree program options, students should contact their academic department of study. Similar to regular courses, the availability of online courses varies by semester and year.

View KU's current online or hybrid programs (https://online.ku.edu/programs/).

Independent Study

Independent study is a research experience or directed readings independently pursued through an academic department. Students should contact their academic department to discuss independent study opportunities to investigate a special research problem or directed readings in an area not covered by regular courses.

Graduate Certificates

The graduate certificate is a focused collection of courses that, once completed, affords the student some record of coherent academic accomplishment in a given discipline or set of related disciplines. Eligibility and admission criteria for graduate certificates is governed by the policy on Admission to Graduate Study. (http://policy.ku.edu/graduate-studies/admission-to-graduate-study/?num1=1)

The completion of a graduate certificate is noted on the official transcript. The transcript serves as the official proof of certificate completion. Graduate certificates are not recognized by a diploma or any campus-wide recognition ceremony. Though not serving as official proof of the certificate completion, students may also request a printed certificate of recognition from the Office of Graduate Studies to mark the achievement.

View the current policy on Graduate Certificate Programs (http://policy.ku.edu/graduate-studies/certificate-programs-policies/).
It is the University’s responsibility to help ensure that graduate students attain their academic goals in a reasonable amount of time and move on to the next stage in their careers, whether to another advanced degree program or to professional employment.

2. When departments and schools offer GRA, GTA, or GA appointments, the assistantships must contribute to the training experience of the graduate student.

3. GRA, GTA, and GA responsibilities should be in balance with the student’s responsibilities to the graduate program. For salaried appointments of 50% (0.50 FTE), the expectation is that the assigned duties will average no more than twenty (20) hours per week during the semester. For hourly appointments at 50% (0.50 FTE), assigned duties should require 20 hours per week during the semester. For appointments at other percentages, the number of hours per week must be proportional to the appointment percentage.

More detailed information on GTA, GRA, and GA policies and exceptions can be found in the Policy Library. The most referenced policies include:

- Appointment Limits (http://policy.ku.edu/graduate-studies/GRA-GTA-GA-guidelines-eligibility/)
- GTA, GRA, and GA Eligibility Requirements (http://policy.ku.edu/graduate-studies/GRA-GTA-GA-guidelines-eligibility/)
- Term Limits for GTA Appointments (http://policy.ku.edu/graduate-studies/appointment-limit-GTA/)
- GTA Out-Of-Field Appointments (http://policy.ku.edu/graduate-studies/out-of-field-gta-appointments-policy/)
- Benefits Available to GTAs, GRAs, and GAs (http://policy.ku.edu/graduate-studies/benefits-for-GRAs-GTAs-GAs/)
- Improving Doctoral Experiences on External Awards (https://policy.ku.edu/graduate-studies/GRA-tuition-assistance-policy/)
- Spoken English Language Competency of Faculty and GTAs (KBOR) (http://policy.ku.edu/KBOR/spoken-english-competency-BOR-policy/)

Graduate Policy

The Executive Council of Graduate Faculty establishes all graduate-specific policy at the University of Kansas, subject to stakeholder review and Provost approval. The Policy Library is the official repository for this policy. Graduate policy is subject to revision. Graduate education is also governed by the policies established in the University Senate Rules and Regulations (https://policy.ku.edu/governance/USRR/).

A comprehensive list all graduate policy with links to the Policy Library is available on the Office of Graduate Studies website (https://graduate.ku.edu/policies/). These policy links include but are not limited to graduate specific policies on enrollment, grading, good academic standing, academic probation, and grievance procedures.

Student Responsibilities

All graduate students are responsible for informing themselves of Graduate Studies’ requirements and policies. Students should visit the Graduate Studies website (http://www.graduate.ku.edu/) for the most up-to-date requirements and policies. Graduate students are also expected to be familiar with the regulations and requirements of their Graduate Divisions and of their home academic departments and programs. Members of the Graduate Faculty and staff members in the Graduate Divisions are expected to be ready to answer questions and offer counsel.

It is each graduate student’s responsibility to know and observe all regulations and procedures relating to the graduate degree program the student is pursuing. In no case will a regulation be waived or an exception be granted because students plead ignorance of, or contend that they were not informed of, requirements, regulations, procedures, and deadlines. Responsibility for following all policies and meeting all requirements and deadlines rests with the student.

Course Numbering System

Generally, graduate courses are numbered according to the following scheme:

- Courses numbered 500-699 are designed for juniors and seniors, but are also taken by some graduate students who have fewer than 30 hours of graduate credit.
- Courses numbered 700-799 are designed for graduate students who have fewer than 30 hours of graduate credit, but they are also taken by some undergraduates.
- Courses numbered 800-899 are designed for graduate students who have fewer than 30 hours of graduate credit.
- Courses numbered 900-999 are designed for graduate students who have 30 hours or more of graduate credit.

Courses that contain a mixture of undergraduate and graduate students should set requirements for graduate credit beyond or different from the requirements for undergraduate credit. No course, regardless of its number, can give graduate credit unless it has been approved for graduate credit by the appropriate Graduate Division and is taught by a person holding a current appointment to the Graduate Faculty. Please see the Graduate Credit policy (https://policy.ku.edu/graduate-studies/graduate-credit/) for more information.

Graduation Calendar

The Office of Graduate Studies publishes a graduation calendar for each academic year, available on the OGS website (http://graduate.ku.edu/graduation/)
