Bachelor of Arts in Molecular, Cellular, and Developmental Biology

Molecular, Cellular, and Developmental Biology

The Molecular, Cellular, and Developmental Biology B.S. and B.A. degrees provide students with a broad understanding of biological systems at the molecular, cellular, and organismal levels. The MCDB degree includes study of genetics, cell biology, developmental biology, cancer biology, and neurobiology. Students have the option of elective courses in these areas for an advanced, in-depth learning experience.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

First- and Second-Year Preparation

Because biology study requires preparation in other sciences, students should begin meeting major requirements in the first year. It is particularly important to take CHEM 130 and CHEM 135 in the first year and, for several majors, to take CHEM 330, CHEM 331, CHEM 335, and CHEM 336 in the second year. Ideally, most majors should also take BIOL 150 and BIOL 152 during the first year, as well as BIOL 105.

Total Hours 120

1. Requires MATH ACT scores of 26+, a comparable SAT or KU Math Placement Exam score, or credit for a MATH 101 or MATH 104 equivalent course. MATH 125 can be taken instead of MATH 115 to fulfill the math requirement.
2. Concurrent or prior enrollment in CHEM 130 is required. BIOL 151 is the honors equivalent of BIOL 150 and is offered in the fall semesters. BIOL 153 is the honors equivalent of BIOL 152 and is offered in the spring semesters.
3. BIOL 412, BIOL 417, BIOL 426, and BIOL 672 are offered only in the spring.
4. Most medical schools require the full CHEM 330, CHEM 331, CHEM 335, and CHEM 336 sequence.
5. BIOL 405, BIOL 435, BIOL 370 and BIOL 688 are offered only in the fall.
6. Choose BIOL 405 or BIOL 426. BIOL 405 is offered only in the fall, and BIOL 426 is offered only in the spring.
7. 6 credit hours of BIOL courses at 400+ level, with no more than 3 hours of BIOL 423 and/or BIOL 424 (combined) applied toward the elective requirement.
8. Choose BIOL 435, BIOL 672, or BIOL 688. BIOL 435 and BIOL 688 are offered only in the fall, and BIOL 672 is offered only in the spring.

10. Hour requirements (incl. 45 jr/sr hrs) are typically met through KU core, degree, major, second area of study and/or elective hours. Students completing the BGS with a major must choose a secondary area of study. Individual degree mapping is done in partnership with your advisor.
11. See your advisor for Goal 6 Integration & Creativity BIOL course options.

Please note: Students may earn degrees in more than one major within biological sciences, or in a biological science and an area outside biology by meeting the requirements of both degree programs and taking at least 15 hours of courses unique to each major.

Departmental Honors

Undergraduate majors are eligible to graduate with honors in biology if they fulfill the following requirements:

1. Complete all course work required for the appropriate degree in biology.
2. Achieve a minimum grade-point average of 3.5 in the major.

3. Complete BIOL 499 Introduction to Honors Research with a grade of B or higher.
4. Complete BIOL 699 Biology Honors Research Colloquium with a grade of B or higher.
5. Complete an independent research project under the supervision of a faculty member in an area appropriate to the degree sought.
6. Submit an honors thesis to the honors committee once the research is complete and present the results of the completed research at the honors research symposium.

Students majoring in Human Biology with Anthropology, Applied Behavioral Science, Psychology, or Speech-Language-Hearing concentrations will follow the honors requirements for their respective concentration department.

Specific guidelines and intent forms are available in the Undergraduate Biology Program office and online (http://www.kuub.ku.edu/). Candidates must declare their intent to graduate with honors at least 2 semesters before graduation.
