Bachelor of Science in Environmental Studies

Why study environmental studies?

The Environmental Studies Program at the University of Kansas, established in 1971, is one of the oldest environmental studies programs in the country. The KU Environmental Studies Program provides a rigorous interdisciplinary education and stimulates exchange concerning the environment from natural science, social science, and humanities perspectives. Learning Pathways (http://esp.ku.edu/pathways), thematic areas of study that match student interest to the environmental expertise of our faculty, are a key aspect of our unique program.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Requirements for the B.S. Degree

General Education Requirements

In addition to degree and major requirements, all students must complete the KU Core.

Environmental Studies Prerequisite or Co-requisite Knowledge

<td></td>
</tr>
<tr>
<td>or EVRN 14</td>
<td>Global Environment I: Discovery of Environmental Change, Honors</td>
<td>10</td>
</tr>
</tbody>
</table>
Global Environment II: The Ecology of Civilization. Satisfied by one of the following:

- EVRN 142 Global Environment II: The Ecology of Human Civilization
- or EVRN 141 Global Environment II: The Ecology of Human Civilization, Honors

**Environmental Studies Core Knowledge and Skills**

Majors must complete a course in each of the following areas:

- Environmental Policy Analysis. Satisfied by:
  - EVRN 320 Environmental Policy Analysis

- Environmental Law. Satisfied by:
  - EVRN 332 Environmental Law

- Field Ecology. Satisfied by:
  - EVRN 460 Field Ecology
  - or EVRN 660 Summertime Field Ecology

Capstone Experience. Satisfied by:

- EVRN 615 Capstone Project

**Environmental Studies Required Electives/Options**

Majors must select an option or design their own. Self-designed emphases must be approved in their entirety by an environmental studies advisor and the undergraduate studies director before implementation. Each option requires 4 courses at the 300+ level.

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 32 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**

Satisfied by a minimum of 24 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa).

Below is a sample 4-year plan for students pursuing the BS in Environmental Studies. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses).

### Freshman

<td>3</td>
</tr>
</tbody>
</table>

Total Hours 122-123

1. Refer to the Degree Requirements tab for a list of courses that can fulfill this major requirement.
2. A total of 12 hours of EVRN 300+ electives are required for the major. Students are encouraged to choose courses based on an emphasis area in consultation with an advisor.
EVRN 332 and EVRN 460 are Fall only courses. EVRN 142 and EVRN 320 are Spring only courses. EVRN 660 is a summer only course.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

Departmental Honors

To graduate with honors in environmental studies, an undergraduate must maintain a minimum overall grade-point average of 3.25 and 3.5 in the major. The student must also complete an individual honors research project in cooperation with a faculty mentor. This project normally represents 2 semesters of original work, the completion of 3 credit hours of EVRN 624 Independent Study, and 3 credit hours of EVRN 625 Honors Research in Environmental Studies. All 6 hours may be applied to the 12 hours of environmental studies electives required for the major. Upon completion of the research project, honors candidates are required to present the results of their work at the department’s Undergraduate Research Colloquium.
