Doctor of Philosophy in Linguistics

Why study linguistics?

Because language is a window into the mind. Linguistics provides an understanding of the human capacity to acquire, perceive, and produce language and of language’s role in contemporary society.

Ph.D. Overview (https://linguistics.ku.edu/graduate-programs/)

Our Ph.D. program in Linguistics requires the student to develop a solid understanding of the core areas of the discipline in addition to an in-depth specialty in one of the many areas available through the research interests of the faculty. Areas of special strength in the graduate program include phonetics, phonology, syntax, psycholinguistics, neurolinguistics, first language acquisition, second language acquisition, semantics, and the study of indigenous languages.

The student will work with their academic advisor to devise a course of study that best suits the student's research interests.

The Ph.D. program usually takes five years which includes completing an M.A. degree en route to the Ph.D. All Ph.D. students receive a five-year funding package.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (http://catalog.ku.edu/graduate-studies/) section of the online catalog.

Please consult the Departments & Programs (http://catalog.ku.edu/liberal-arts-sciences/) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Applicants must submit a curriculum vitae, a statement of purpose, an official copy of transcript from baccalaureate granting institution and transcripts from institutions attended post-baccalaureate, 3 letters of recommendation, and a writing sample. Non-native speakers of English must meet English proficiency requirements as described on the Graduate Admissions website (https://gradapply.ku.edu/english-requirements/). New students are admitted each fall. The deadline to apply for the Linguistics Ph.D. program is December 1.

Submit your graduate application online (https://gradapply.ku.edu/apply/). For further information regarding the application process, including department-specific deadlines and required supplemental documentation, please visit the Admissions (https://linguistics.ku.edu/graduate-admissions/) page of the department website, or contact the department's Graduate Program Coordinator, Alec Graham, alec.graham@ku.edu.

Ph.D. Degree Requirements

The Ph.D. is structured as a five year program. Students will earn an M.A. en route to the Ph.D.

Research Skills

The university requires that every doctoral student have training in research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. One of the following courses with a grade of B or above fulfills the requirements for research skills:

1. A graduate-level (500 or above) course in statistics
2. A graduate-level (500 or above) course in a computer programming language
3. LING 720 Research Methods in Linguistics
4. LING 741 Field Methods in Linguistic Description
5. LING 782 Research Methods in Child Language

Responsible Scholarship

The university requires that every doctoral student have training in responsible scholarship pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. LING 794 Proseminar fulfills the requirements for responsible scholarship.

Minimum Course Requirements

57 credit hours consisting of 33 credit hours at the M.A. level and 24 hours at the Ph.D. level.

ELECTIVES (2 courses - 6 credit hours) to be determined by the student and the student's advisor. One elective course (3 credit hours) must be taken from the Advanced II-Level course list or Linguistics Seminar course list. Electives are NOT to include LING 850, LING 851, LING 852, or LING 998. Please see the Linguistics Graduate Student Guide for a list of potential elective courses.
Select 4 Advanced II-Level courses or any Seminar (12 credit hours)

**Advanced II-Level Courses:**

- LING 707 Phonetics II
- LING 714 Phonology II
- LING 716 Second Language Acquisition II
- LING 726 Syntax II
- LING 727 Morphology
- LING 731 Semantics
- LING 737 Psycholinguistics II
- LING 739 First Language Acquisition II
- LING 742 Neurolinguistics II

**Linguistics Seminars:**

- LING 807 Seminar in Phonetics
- LING 814 Seminar in Phonology
- LING 822 Seminar in First Language Acquisition
- LING 826 Seminar in Syntax
- LING 831 Seminar in Semantics
- LING 837 Seminar in Psycholinguistics
- LING 842 Seminar in Neurolinguistics
- LING 860 Seminar in Second Language Acquisition
- LING 899 Master's Research Project

**Research Presentation Requirement**

Students must give 1 research presentation each semester beginning in their second year of the program. For students who are just beginning their independent research projects, this presentation may involve the discussion of published research relevant to the student’s research interests. This requirement may be satisfied through a presentation in one of the empirical research seminars (LING 850, LING 851, LING 852), a presentation at a local, regional, or international conference, a presentation in the Linguistics colloquy series, or a presentation at any other relevant forum as determined by the faculty adviser. Students must include the titles and dates of these presentations in their annual report each year.

**M.A. Research Project for PhD Students**

The Master’s research project should consist of a detailed research proposal and include pilot results and/or preliminary analyses. Students in the Ph.D. program should be able to continue working on the project with the aim of submitting it as a qualifying paper for the Ph.D. program.

An M.A. candidate in residence who has begun work on a research project must enroll for at least 1 credit hour of LING 899 Master's Research Project each semester (summer session excluded) until the thesis is completed.

The research project must be defended successfully in an oral examination. The oral exam is scheduled when all 3 committee members have indicated in writing their approval or disapproval of the research project for defense and at least 2 (including the chair) have approved scheduling the exam. The oral examination will typically last 1-2 hours.

Following the oral examination, the student’s performance will be evaluated by the project committee and reported by a Progress-to-Degree form to Graduate Studies as the outcome of the Master’s oral examination. The committee will evaluate the M.A. research project with the following grades: 0-fail, 1-pass but cannot continue to the Ph.D. program, 2-pass and can continue to the Ph.D. program.

**Qualifying Papers**

The student needs to write 2 qualifying papers -- a major paper in the area of specialization and a minor paper in a different area. Both papers should represent original work and both papers must have different advisers. The major paper may be an expanded version of the M.A. research project and should be of publishable quality. The minimum lengths of the major and minor papers are 25 pages and 15 pages, respectively.

The major and minor papers are developed in close consultation with an Advisory Committee (3 faculty members) and the 2 papers should be supervised by different faculty members. The adequacy of the papers is evaluated on the quality of the literature review, theoretical
contribution, and research integration as well as the basis of their logical
coherece and organization. The student does not need to orally defend
the qualifying papers.

Dissertation Proposal and the Oral
Comprehensive Exam

When the major and minor qualifying papers have been approved by
the Advisory Committee, the student may form a Ph.D. committee (4
Department of Linguistics Graduate Faculty members, 1 Graduate
Studies Representative member), which helps the student work on the
dissertation, starting from the dissertation proposal. The proposal should
clearly identify the research questions that the dissertation will address,
include a comprehensive literature review, lay out the methodology for
the research, discuss preliminary data and results, if any, and present
a timetable for the dissertation research. The minimum length for the
dissertation proposal is 10 pages.

The Oral Comprehensive Exam is the official exam required by Graduate
Studies and consists of an oral defense of the dissertation proposal and
the answering of any other questions related to the fields of study of the
dissertation research. It must be completed the spring semester of the 4th
year (at the latest). The oral examination will typically last 2 to 3 hours. A
student who fails the Oral Comprehensive exam will take it again at a time
determined by the Ph.D. committee, in consultation with the student. A
student will not be permitted to take the Oral Comprehensive exam more
than three times.

Dissertation and Dissertation Defense

The dissertation is developed in consultation with the Ph.D. committee.
The dissertation must be orally defended in front of the Ph.D. committee.
The student will be asked first to summarize his/her dissertation and
evidence, and then will be questioned by the committee. The dissertation
defense will typically last 1 to 2 hours.

University Requirements

Throughout the course of doctoral study, the student must fulfill all
relevant College and University policies (http://coga.ku.edu/graduate-
policies/), such as those concerning doctoral residency, time constraints,
continuous post-comprehensive enrollment, human subjects review,
electronic filing, and graduation.
