# Bachelor of Science in Microbiology

# Microbiology

Microbiology is the study of bacteria, viruses, the immune system, and their roles in human health, the environment and beyond. Job prospects for microbiologists with a bachelor's or higher degree continue to be strong. Upper-division courses in immunology, bacterial infectious diseases, virology, and microbial genetics couple laboratory courses with lecture courses to provide students with hands-on practical experience. The B.S. Microbiology major includes all four of the upper-division lecture and laboratory course pairs.

# **Undergraduate Admission**

### Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of the University Registrar (https:// registrar.ku.edu/credittransfer/) website.

# First- and Second-Year Preparation

Because biology study requires preparation in other sciences, students should begin meeting major requirements in the first year. It is particularly important to take CHEM 130 and CHEM 135 in the first year and, for several majors, to take CHEM 330, CHEM 331, CHEM 335, and CHEM 336 in the second year. Ideally, most majors should also take BIOL 150 and BIOL 152 during the first year, as well as BIOL 105.

# Requirements for the B.S. Degree in Microbiology

In addition to degree and major requirements, all students must complete the KU Core.

#### Title Code Hours **General Science Requirements** Majors must complete 47-56 hours of the following general science requirements that serve as foundational courses for this major. Biology Orientation Seminar. Satisfied by: **BIOL 105 Biology Orientation Seminar** Molecular & Cellular Biology. Satisfied by one of the following: **BIOL 150** Principles of Molecular and Cellular Biology BIOL 151 Principles of Molecular and Cellular Biology, Honors Principles of Organismal Biology. Satisfied by one of the following: **BIOL 152** Principles of Organismal Biology

BIOL 153	Principles of Organismal Biology,	Honors
----------	-----------------------------------	--------

Introductory Biolo	ogy Lab for STEM Majors. Satisfied by:	
BIOL 154	Introductory Biology Lab for STEM Majors	
	etics. Satisfied by one of the following:	
BIOL 350	Principles of Genetics	
BIOL 360	Principles of Genetics, Honors	
Statistics. Satisfie		
BIOL 370	Introduction to Biostatistics	
	tisfied by one of the following:	
BIOL 600	Introductory Biochemistry, Lectures	
BIOL 636		
& BIOL 638	Biochemistry I and Biochemistry II	
	sfied by one of the following:	
CHEM 130	General Chemistry I	
CHEM 190 & CHEM 191	Foundations of Chemistry I, Honors	
Chemistry II. Sati	isfied by one of the following:	
CHEM 135	General Chemistry II	
CHEM 195 & CHEM 196	Foundations of Chemistry II, Honors and Foundations of Chemistry II Laboratory, Honors	
Organic Chemist	ry I. Satisfied by one of the following:	
CHEM 330	Organic Chemistry I	
CHEM 380	Organic Chemistry I, Honors	
Organic Chemist	ry I Laboratory. Satisfied by:	
CHEM 331	Organic Chemistry I Laboratory	
Organic Chemist	ry II. Satisfied by one of the following:	
CHEM 335	Organic Chemistry II	
CHEM 385	Organic Chemistry II, Honors	
Calculus. Satisfie	ed by one of the following:	
MATH 115	Calculus I	
MATH 125	Calculus I	
MATH 145	Calculus I, Honors	
Physics. Satisfied	d by one of the following:	
Option 1: College	· ·	
PHSX 114	College Physics I	
& PHSX 115	and College Physics II	
Option 2: Genera	al Physics	
PHSX 211 & PHSX 216	General Physics I and General Physics I Laboratory	
or PHSX 21	13General Physics I Honors	
PHSX 212 & PHSX 236	General Physics II and General Physics II Laboratory	
or PHSX 21	4 General Physics II Honors	
Microbiology Co	ourse Requirements	
Satisfied by com	pleting 34-35 hours from the following courses:	
Fundamentals of	Microbiology. Satisfied by one of the following:	3-4
BIOL 400	Fundamentals of Microbiology	
BIOL 401	Fundamentals of Microbiology, Honors	
Fundamentals of	Microbiology Laboratory. Satisfied by:	
BIOL 402	Fundamentals of Microbiology Laboratory	2
Cell Structure & I	Function. Satisfied by one of the following:	
BIOL 416	Cell Structure and Function	3

BIOL 506	us Diseases. Satisfied by: Bacterial Infectious Diseases	3
General Virology		5
BIOL 512	General Virology	3
Virology Laborate	ory. Satisfied by:	
BIOL 513	Virology Laboratory	2
Microbial Genetic	cs. Satisfied by:	
BIOL 518	Bacterial Genetics	3
Microbial Genetic	cs Laboratory. Satisfied by:	
BIOL 519	Bacterial Genetics Laboratory	2
Microbiology Re	equired Electives	
Satisfied by com higher.	pleting 6 hours of BIOL courses numbered 400 or	6
Capstone Cours	Se	
Bacterial Infectio	us Diseases Laboratory. Satisfied by:	
BIOL 507	Bacterial Infectious Diseases Laboratory (Capstone)	3
	,	

### Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

#### **Major Hours**

Satisfied by 35-36 hours of major courses.

#### Major Hours in Residence

Satisfied by a minimum of 15 hours of KU resident credit in the major.

#### Major Junior/Senior Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

#### Major Junior/Senior Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/ Cumulative GPA Calculator (https://sis.ku.edu/gpa-calculator/).

Below is a sample 4-year plan for students pursuing the B.S. in Microbiology. To view the list of courses approved to fulfill Core 34, please visit the KU Core 34 page (https://catalog.ku.edu/core34/).

This degree plan assumes students will have the equivalent of MATH 101 or MATH 104, or equivalent prior to the freshman year, fall semester.

#### Total Hours 120-122

- <sup>1</sup> MATH 115 and CHEM 130 require MATH ACT scores of 26+, a comparable SAT or KU Math Placement Exam score, or credit for a MATH 101 or MATH 104 equivalent course. MATH 125 requires a MATH ACT score of 28+, a comparable SAT or KU Math Placement Exam score, or credit for MATH 104.
- <sup>2</sup> Concurrent or prior enrollment in CHEM 130 is required. BIOL 151 is the honors equivalent of BIOL 150 and offered in the fall semesters. BIOL 153 is the honors equivalent of BIOL 152 and offered in the spring semesters.
- <sup>3</sup> BIOL 512, BIOL 513, BIOL 506, BIOL 507, and CHEM 335 are offered only in the spring.
- <sup>4</sup> BIOL 401, BIOL 402, BIOL 504, BIOL 518, BIOL 519, and BIOL 636 are offered only in the fall.
- <sup>5</sup> 6 hrs of Biol courses numbered 400-level or above.
- <sup>6</sup> BIOL 600 (3 hours) or BIOL 636 and BIOL 638 (8 hours) required. BIOL 636 is offered only in the fall semester, BIOL 638 is offered only in the spring semester, and BIOL 600 is offered in both the fall and spring semesters.
- <sup>7</sup> BIOL 416 is recommended prior to BIOL 512 and BIOL 503.
- <sup>8</sup> Hour requirements (incl. 45 jr/sr hrs) are typically met through Core 34, degree, major, second area of study and/or elective hours. Students completing the BGS with a major must choose a secondary area of study. Individual degree mapping is done in partnership with your advisor.
- <sup>9</sup> BIOL 105 (1 hour online course) is required for the major. It can be taken the summer prior to your freshman year.

# **Please note:**

Students may earn degrees in more than one major within biological sciences, or in a biological science and an area outside biology by meeting the requirements of both degree programs and taking at least 15 hours of courses unique to each major.

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

\*Courses with a \* designate courses that are degree requirements but can also be taken to fulfill the KU Core 34 requirement. If another course if used to fulfill the Core 34 requirement, the course listed is still required as a degree requirement.

#### Notes:

\* - This course is a <u>Required</u> major course and is also part of Core 34: Systemwide General Education. If this course is not taken to fulfill the Core 34:SGE requirement, it must be taken in place of elective hours.

\*\* - This course is a <u>Recommended</u> Core 34: Systemwide General Education course. This specific course is not required but is recommended by the program's faculty.

\*\*\* - This course is a <u>Required</u> Core 34: Systemwide General Education course. This program is approved by the Kansas Board of Regents to require this specific Core 34:Systemwide General Education course. If a student did not take this course it must be taken in addition to other degree requirements.

At the completion of this program, students will be able to:

- Explain the sources of genetic variation within populations, how variation is maintained or lost in populations and mechanisms of evolutionary change operating in populations and how these may lead to the formation of biological species. Use the principles of evolution to explain the diversity of life on Earth; describe evidence that supports the conclusion that evolution explains the diversity of life on Earth.
- Describe how organisms inherit genetic information that influences the location, timing, and intensity of gene expression.
   Explain that cells/organs/organisms have multiple mechanisms to perceive and respond to changing environmental conditions.
- Describe how complex networks are formed by interactions at many biological scales (i.e., molecules, genes, cells, tissues, organs, individuals and ecosystems), and that organisms integrate internal and external information to respond to environmental changes.
- Explain that biological structures exist at all levels of organization, from molecules to ecosystems, and the physical and chemical characteristics of a structure influence its function.
- Apply the scientific method and communicate scientific arguments, ideas, and results clearly and explicitly through writing and speech. Demonstrate a knowledge of the ethical considerations related to scientific research.
- Apply quantitative reasoning, mathematical, statistical, and/or informatics tools to explain, evaluate, and effectively interpret claims, theories, and assumptions in the biological sciences.

### **Departmental Honors**

Undergraduate majors are eligible to graduate with honors in biology if they fulfill the following requirements:

- 1. Complete all course work required for the appropriate degree in biology.
- 2. Achieve a minimum grade-point average of 3.5 in the major.
- Complete BIOL 499 Introduction to Honors Research with a grade of B or higher, or complete two credits total of BIOL 423 and/or BIOL 424 with a grade of B or higher
- 4. Complete BIOL 699 Biology Honors Research Colloquium with a grade of B or higher.
- 5. Complete an independent research project under the supervision of a faculty member in an area appropriate to the degree sought.
- Submit an honors thesis to the honors committee once the research is complete and present the results of the completed research at the honors research symposium.

Specific guidelines and intent forms are available in the Undergraduate Biology Program office and online (http://www.kuub.ku.edu/). Candidates must declare their intent to graduate with honors at least 2 semesters before graduation.

### **Study Abroad**

Consult an advisor at least 4 months before undertaking study abroad. Consult the Office of Study Abroad (http://www.studyabroad.ku.edu/), 108

#### 4 Bachelor of Science in Microbiology

Lippincott Hall, for information about study in one of the many countries (e.g., Scotland, Australia, Switzerland) with special arrangements with KU.
