Radiology

RAD 976. Radiology. 4 Credits.
An elective in radiology will consist of four weeks, time to be spent at Wesley Medical Center. Most the time spent by the student during the elective will be in diagnostic radiology. The student will be expected to attend all the radiology conferences as well as the other appropriate conferences at which the radiology department contributes. Prerequisite: Medical Basic Sciences.

RAD 995. Special Topics in Radiology. 4 Credits.
This elective is designed to provide clinical experience in topics of special interest not otherwise represented in the curriculum. The student will design, in consultation with department faculty, specific objectives, reading assignments, and the mechanism for course evaluation. Prerequisite: Basic Science and Department Consent.
