

Doctor of Philosophy in Neurosciences

The KU-L/KUMC bicampus Neuroscience Graduate Program (<http://www.neuroscience.ku.edu>) is designed to prepare the student for a research and/or teaching career with concentrations in neuroscience. The program emphasizes research and the skills and knowledge required to perform and communicate the results of research. Modern neuroscience researchers/educators must be versed in a number of areas of neural research, spanning from molecular neuroscience to systems neuroscience. As such, the course of study in the program is broadly based; you are encouraged to enroll in courses offered by other programs or departments. The research opportunities in the program are widely varied and will accommodate many interests.

Nearly all Ph.D. students in the Neuroscience Graduate Program at the KU School of Medicine are admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences (IGPBS). After the initial year of course work, students choose a neuroscience research mentor and then join the laboratory of the mentor. Coursework for the Neuroscience Graduate Program is offered at the KU Medical Center campus in Kansas City, Kansas as well as the University of Kansas in Lawrence.

Several courses are taught on both campuses via videoconferencing. Comprehensive Exams for all students must be completed by the fall of the 3rd year in Graduate School. The program on the KUMC campus is directed by the KUMC Neuroscience Graduate Studies Committee consisting of the following faculty:

KUMC Graduate Studies Committee Members:

Douglas Wright, PhD

Dianne Durham, PhD

John Stanford, PhD

Applications may be made online at: Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS) (<http://www.kumc.edu/igpbs.html>). Inquires related to the KUMC portion of the program may be directed to the Program Director:

Douglas Wright, Ph.D.

Professor

Director, Neuroscience Graduate Program, KUMC Campus

Department of Anatomy & Cell Biology

University of Kansas Medical Center

Kansas City, KS 66160

913-588-2713 (office)

913-588-2710 (fax)

dwright@kumc.edu

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (<http://catalog.ku.edu/medicine/graduate-program-biomedical-sciences>) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate

Program in Biomedical Sciences website <http://www.kumc.edu/igpbs/how-to-apply.html>.

Admission requirements:

- Bachelor's degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least a 3.0 on a 4.0 scale for the bachelor's degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (<http://www.kumc.edu/Documents/graduate%20studies/Min%20Engl%20Prof%2016-Oct.pdf>).
- A background check (<http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%2016-Oct.pdf>) is required during the admission process; it may affect the student's eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - **GRE Scores NOT APPLICABLE TO THE IGPBS.**
- Three letters of recommendation.
- Prerequisite coursework:
 - One year of general chemistry
 - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
 - One year of biological sciences
 - One semester of calculus
 - One semester of physics
- Research experience (beyond labs associated with lecture courses) is strongly suggested.
- Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant's admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. *Other years' catalogs*.

The program consists of coursework, research experience, and the successful completion of a doctoral dissertation. Dissertation research culminates in a final dissertation examination consisting of an oral presentation by the candidate and an examination by the faculty. Relevant prior graduate work is taken into consideration in setting up individual programs of study leading to the Ph.D.

Degree Requirements:

- Degree requirements normally are completed within 5 years of admission to the program although a maximum of 8 years is allowed.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.
- Successful completion of the University's Research Skills and Responsible Scholarship (<http://www.kumc.edu/Documents/>)

graduate%20studies/Res%20Skills%20and%20Respon%20Scholar%20Doctoral%2016-Oct.pdf) requirement prior to the semester the Oral Comprehensive Examination is scheduled.

- Successful completion of GSMC 857 Biographics, GSMC 852 Introduction to Biomedical Research I and GSMC 855 Introduction to Biomedical Research II (or equivalent) meets the Research Skills requirement.
- Successful completion of GSMC 856 Introduction to Research Ethics (or equivalent) meets the Responsible Scholarship requirement.
- Successful completion of the Residence Requirement ([http://www.kumc.edu/Documents/graduate%20studies/Residence%20Requirement%20PhD%2016-Oct\(0\).pdf](http://www.kumc.edu/Documents/graduate%20studies/Residence%20Requirement%20PhD%2016-Oct(0).pdf)) prior to the semester the Oral Comprehensive Examination is scheduled. The requirement is met by enrollment in full-time status a minimum of two semesters.
- Successful completion of the Oral Comprehensive Examination (<http://www.kumc.edu/Documents/graduate%20studies/Comprehensive%20Oral%20Exam%20PhD%2016-Oct.pdf>). Students are recognized as formal doctoral candidates after they have passed the comprehensive examination.
- Successful completion of Post-Comprehensive Enrollment (<http://www.kumc.edu/Documents/graduate%20studies/Post-Comp%20Enrollment%20PhD%2016-Oct.pdf>) requirement.
- Enrollment in a minimum of one (1) credit hour of dissertation NEUS 999 Neuroscience Doctoral Dissertation the semester the student will defend dissertation and graduate.
- Successful completion of the Final Oral Examination (<http://www.kumc.edu/Documents/graduate%20studies/Final%20Oral%20Exam%20PhD%2016-Oct.pdf>) (dissertation defense.)
- Successful Dissertation Submission and Publication (<http://www.kumc.edu/Documents/graduate%20studies/Dissertation%20Submit%20and%20Pub%2016-Oct.pdf>) (according to Office of Graduate Studies policy.)
- Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS (<http://catalog.ku.edu/medicine/graduate-program-biomedical-sciences>)) courses (or their equivalent):

Code	Title	Hours
GSMC 850	Proteins and Metabolism	2
GSMC 851	Molecular Genetics	2
GSMC 852	Introduction to Biomedical Research I	2
GSMC 853	Cellular Structure	2
GSMC 854	Cell Communication	2
GSMC 855	Introduction to Biomedical Research II	2
GSMC 856	Introduction to Research Ethics	1
GSMC 857	Biographics	1
GSMC 858	Introduction to Faculty Research	1
GSMC 859	Research Rotations	1-4

- Successful completion of the following Neuroscience courses:

Code	Title	Hours
NEUS 799	Neuroscience Seminar Series	2
NEUS 900	Scientific Papers in Neuroscience	1
NEUS 990	Research in Neuroscience	1-9
NEUS 999	Neuroscience Doctoral Dissertation	1-11

- Successful completion of neuroscience related elective coursework as determined in consultation with the student's advisor and the graduate director. Options include the courses listed below as well as several neuroscience courses offered on the Lawrence campus.

Code	Title	Hours
NEUS 844	Neurophysiology	3
NEUS 846	Advanced Neuroscience	5
NEUS 847	Developmental Neurobiology	2
NEUS 848	Molecular Mechanisms of Neurological Disorders	3
NEUS 850	Sensory Biology	3

Students enrolled in the MD-PhD Physician Scientist Training Program should review the Degree Requirements (<http://catalog.ku.edu/medicine/combined-md-phd/#degreerequirementstext>) section of this catalog for that program.

Degree requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog of the year student entered the program. *Other years' catalogs*».

Typical Plan of Study

Year 1

Fall	Hours Spring	Hours Summer	Hours
GSMC 850	2 GSMC 853	2 GSMC 859	1-4
GSMC 851	2 GSMC 854	2 May take an elective course from the student's chosen degree program in consultation with the student's advisor.	1-3
GSMC 852	2 GSMC 855	2	
GSMC 856	1 GSMC 859	1-4	
GSMC 857	1		
GSMC 858	1		
GSMC 859	1-4		
		10-13	7-10
Total Hours			19-30

Year 2

Fall	Hours Spring	Hours Summer	Hours
NEUS 799	2 NEUS 799	2 NEUS 799	2
NEUS 846	5 NEUS 990	1-9 NEUS 990	1-9 (elective)

NEUS 990	1-9 Oral Comprehensive Exam may be scheduled as early as this semester if approved by committee to proceed.		
	8-16	3-11	3-11
Year 3			
Fall	Hours Spring	Hours Summer	Hours
NEUS 990	1-9 NEUS 990	1-9 NEUS 990	1-9
	1-9	1-9	1-9
Year 4

	1-9	1-9	1-9
Year 5			
Fall	Hours Spring	Hours Summer	Hours
NEUS 999	1-11 NEUS 999	1-11 NEUS 999	1-11
Final Oral Exam (dissertation defense) scheduled semester approved by committee to defend and graduate.			
	1-11	1-11	1-11

Total Hours 23-125

TECHNICAL STANDARDS AND REQUIREMENTS FOR THE DOCTOR OF PHILOSOPHY IN NEUROSCIENCE

The PhD degree signifies that the holder is prepared for entry into research and/or teaching in postgraduate training and faculty positions. It follows that graduates must have the knowledge and skills to function in a broad variety of academic situations in the classroom and laboratory. Therefore, all students admitted for graduate study must meet the following abilities and expectations:

- **Observation:** The candidate must be able to observe demonstrations and experiences in neurosciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.
- **Communication:** A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.
- **Motor:** Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to do laboratory procedures and analyze data. Such actions require coordination of

both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

- **Intellectual-Conceptual, Integrative, and Quantitative Abilities:** The abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.
- **Behavioral and Social Attributes:** A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student's difficulties. At this review the provisions for reasonable accommodation will be determined.

For further information, contact the Neuroscience Graduate Program, University of Kansas School of Medicine, 3901 Rainbow Blvd., Kansas City, Kansas 66160 (Phone: (913) 588-2713

Fax: (913) 588-2710 E-mail: dwright@kumc.edu

STUDENT POLICY ON INFECTIOUS DISEASE

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for academic program admission at the University of Kansas Medical Center. Determination of eligibility for admission in such cases will be made on an individual basis in consultation with the applicant's physician, taking into consideration (among other factors), legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Graduate Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the Graduate Student Handbook. Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.
