REL 857. Seminar in Religious Subjectivity, Experience, and Narrative. 3 Hours.
This seminar explores issues regarding the subjective and experiential dimension of lived religiosity, including such things as religious experience and mysticism, modes of personal religious expression and embodiment, and dynamics of personal and collective religious narrative and identity. Specific case studies and content to be selected by the instructor. SEM.

REL 867. Seminar in Theory, Method, and History in Religious Studies. 3 Hours.
This seminar explores theoretical, methodological, and historical issues that are instrumental to our notions of religion as an analytic category and foundational to the study of religion as a field of academic enquiry. Specific case studies and content to be selected by the instructor. SEM.
REL 871. Seminar in Religious Movements and Social Change: ____. 3 Hours.
Relationship of religious groups to movements for social change: influence of religious groups on social change, and the impact of efforts toward social change in religious groups. Prerequisite: REL 171, REL 371, or equivalent. LEC.

REL 872. Seminar in Religion and Modern Social Criticism: ____. 3 Hours.
Seminar focusing on religious issues in some important texts of modern social criticism from the French Revolution to the present day. Prerequisite: An introductory course in religion. LEC.

REL 873. Seminar in Religion and National Identity: ____. 3 Hours.
Analysis of selected issues wherein religion and the formation and definition of a selected nation or nations intersect. LEC.

REL 875. Topics in Religion and Society: ____. 3 Hours.
Special topics to be announced in Schedule of Classes, according to research interests of faculty and students. A particular aspect of the study of religion and culture will be emphasized. Course may be taken more than once if the subject matter varies. Prerequisite: Permission of instructor. LEC.

REL 878. Seminar in Ethical Issues in Health Care: ____. 3 Hours.
Interdisciplinary seminar, drawing on the literature of social, medical, and professional ethics, with special attention to religious perspectives on meanings of health and the delivery of health care. Of particular interest to health-related professions. Prerequisite: Permission of instructor. LEC.

REL 879. Seminar in Religion and Gender. 3 Hours.
Examination of symbols, images, scriptures, rites, teachings and scholarship regarding gender definitions and performance in various religious traditions. LEC.

REL 899. Thesis. 1-3 Hours.
THE.

Bachelor of Arts and Bachelor of General Studies in Religious Studies

The undergraduate degree in the Department of Religious Studies is a research, analysis, and writing intensive program that features close work with faculty in small classroom settings. It seeks to develop a foundational knowledge of the world’s diversity of religious cultures and critical awareness of the ways in which religion shapes how we see and act toward ourselves, others, and the environment around us. Through the study of specific religious traditions and settings, students come away with a background that is invaluable to understanding and working with people of other cultures, whether in international business or simply as an informed global citizen.

Career Opportunities

Religious studies majors and minors develop expertise and skills that serve them well wherever life takes them. Our graduates have been successful in many different areas. Studying religion provides a solid foundation for work in fields as diverse as journalism, law, politics, nongovernmental organizations, ministry, and education. No matter what their intended careers, students benefit from the critical reading, writing, and analytical skills that the academic study of religion instills.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Admission to the Major

There are no departmental prerequisites for admission to the major. However, once the major is declared, careful attention should be paid to the requirements of the major itself.

Religious Studies Program

The Religious Studies major consists of required courses, distribution requirements, and electives. The required introductory course and capstone seminar focus on theoretical and methodological issues in the study of religion. Distribution requirements encourage students to approach the study of religion from a variety of angles, from a focus on individual religions to the interaction between religions in specific regions to the exploration of comparative issues and themes. Electives allow students to tailor their course of study to their specific interests and pursue a depth of knowledge in particular aspects of the study of religion.

Requirements for the B.A. or B.G.S. Major

The major consists of at least 27 hours in religious studies. 15 hours must be in courses numbered 300 and above, and 8 of these junior/senior hours must be completed in residence at KU. The 27 hours may include no more than 12 transfer hours, no more than 12 hours from study abroad, and no more than 15 hours in combination of the two.

Religious Studies Major Hours & Major GPA

While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 27 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major, of which 9 must be at the junior/senior level (300+).

**Major Junior/Senior (300+) Hours**
Satisfied by a minimum of 15 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

A sample 4-year plan for the BA degree in Religious Studies can be found here: Religious Studies (p. 1897), or by using the left-side navigation.

A sample 4-year plan for the BGS degree in Religious Studies can be found here: Religious Studies (p. 1898), or by using the left-side navigation.

Departmental Honors

To be eligible for honors in religious studies, an undergraduate student must have a minimum grade-point average of 3.5 in the department. The student must also complete and defend an individual research project, as evidenced by completion of at least 3 hours of REL 499: Undergraduate Honors Research with a grade of B or better. Interested students should contact the Undergraduate Director for more information.

The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.

2. Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

**Minor in Religious Studies**

The undergraduate minor in the Department of Religious Studies is a research, analysis, and writing intensive program that features close work with faculty in small classroom settings. It seeks to develop a foundational knowledge of the world’s diversity of religious cultures and critical awareness of the ways in which religion shapes how we see and act toward ourselves, others, and the environment around us. Through the study of specific religious traditions and settings, students come away with a background that is invaluable to understanding and working with...
Master of Arts in Religious Studies

Why study Religious Studies?

Religions have been and remain among the most powerful forces shaping human history. Their discourses and practices inform the way we perceive ourselves, those around us, and existence at large, even when we are not actively religious. They are central to understanding both what divides us and what unites us. The academic study of religion is a trans-disciplinary endeavor to understand from an objective perspective how religious traditions shape the lives of their adherents, without seeking to promote or disprove any specific belief system. Religious Studies acquaints students with the diversity of religious cultures and introduces them to key methods and theories employed in their examination as "religion."

For those interested in working towards a Ph.D. in Religious Studies and a career in academics, or embarking on an equivalent level of training in a related profession, Religious Studies is equipped to help the individual student acquire the skills needed for advanced levels of study, whether it be specialized work in languages, methodological approaches, or area studies. The study of religion being an inherently interdisciplinary field, the Department faculty shares synergies with colleagues and programs across the campus that enable students to seek specialized training in a diversity of regions, cultures, and approaches to the study of religion. Our faculty is committed to help the individual student articulate the intellectual and professional objectives that have brought him or her to study of religion, and to acquire the training to see these goals to fruition.

The Department of Religious Studies at KU is able to provide substantial financial support for students seeking the MA degree.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Eligibility criteria for admission to the M.A. program follow Graduate Studies’ admission policy (http://policy.ku.edu/graduate-studies/admission-to-graduate-study/). Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/). A Bachelor’s degree in Religious Studies is not required for admission, but the department expects applicants to show on their transcripts significant exposure to the humanities and social sciences.

For all domestic or international M.A. applicants, please check the application requirements through the Religious Studies Admission page (https://religiousstudies.ku.edu/applying-graduate-program/). (https://religiousstudies.ku.edu/applying-graduate-program/)

Potential students must submit a complete online graduate application (https://gradapply.ku.edu/apply/). For additional questions regarding
program requirements and application processes, please contact the Director of Graduate Studies, Dr. Jackie Brinton (https://religiousstudies.ku.edu/jacqueline-brinton/). Applicants may also contact the department directly:

The University of Kansas
Department of Religious Studies
Smith Hall, Room 109A
1300 Oread Ave. | Lawrence, KS 66045

785-864-4341 | rstudies@ku.edu

M.A. Degree Requirements

The department offers thesis and non-thesis M.A. options. The requirements for these are:

1. 30 (thesis) or 33 (non-thesis) graduate credit hours, chosen in consultation with the student’s advisor or the Graduate Director. Coursework must include the following:

   (a) REL 701 Approaches to the Study of Religion (3 hrs)

   (b) Three graduate seminars (courses numbered 700 or above, excluding REL 800 Readings and REL 899 Thesis), of which two must be chosen from the following set of theory and method-oriented seminars (9 hrs):

   (c) One course focusing on Western Religious Traditions and one course focusing on Non-Western Religious Traditions (see Table below). (6 hrs)

   (d) At least 12 hours (4 courses) in an articulated concentration of the student’s own design. These courses may overlap with those in (b) and (c) above.

   (e) For thesis students, 1-3 credit hours of REL 899 Thesis.

   (f) A total of at least 18 (thesis) or 21 (non-thesis) graduate credit hours in Religious Studies, including (a)–(e) above, plus electives if applicable. Remaining hours may be taken outside of the department.

2. A final examination:

   (a) For the thesis option, the student must write and orally defend a thesis that meets minimum department and University requirements.

   (b) For the non-thesis option, the student must produce and orally defend a research portfolio.

Graduate Handbook: Further information on fulfillment of degree requirements and other department and University policies and procedures can be found in the Department of Religious Studies Graduate Handbook, available on the department webpage (http://religiousstudies.ku.edu/overview-ma-religious-studies/).

Graduate Certificate in Religious Studies

The Graduate Certificate in Religious Studies (https://religiousstudies.ku.edu/graduate-certificate-religious-studies/) is designed to provide students with a solid grounding in the academic study of religion, including exposure to key theoretical and methodological issues within the interdisciplinary field of Religious Studies. The certificate program enables students to integrate Religious Studies methodologies, as well as deeper knowledge of particular religious traditions, into their own academic interests or professional training.

Completion of the certificate in Religious Studies represents an additional credential for graduate students from a variety of academic disciplines and fields of study. The certificate will enhance the qualifications of students seeking careers in research and teaching, journalism, the nonprofit sector, government, the arts, or any other field in which understanding the breadth of human cultural diversity is useful.

Enrollment in the program is open to students admitted to a regular KU graduate program as well as students who are not currently enrolled at KU.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.
Eligibility criteria for admission to the graduate certificate program follow Graduate Studies’ admission policy. Non-native speakers of English must meet English proficiency requirements as described here. A Bachelor’s degree in Religious Studies is not required for admission, but the department expects applicants to show on their transcripts significant exposure to the humanities and social sciences.

For all applicants (current graduate students and non-KU students), please check the application requirements through the Religious Studies certificate page.

Potential students must submit a complete online graduate application. For additional questions regarding program requirements and application processes, please contact the Director of Graduate Studies, Dr. Jackie Brinton. Applicants may also contact the department directly:

The University of Kansas
Department of Religious Studies
Smith Hall, Room 109A
1300 Oread Ave. | Lawrence, KS 66045
785-864-4341 | rstudies@ku.edu

The Graduate Certificate in Religious Studies requires 12 hours of coursework:

- REL 701 Approaches to the Study of Religion (3 hrs);
- 9 additional hours of graduate-level coursework in Religious Studies.

Up to 3 hours of appropriate coursework in other departments may be substituted in consultation with the Graduate Director.

**Russian, East European, and Eurasian Studies Program**

**Why study Russian, East European & Eurasian Studies?**

The interdisciplinary study of Russia, Eastern Europe, and Eurasia creates informed citizens with in-depth understanding of this geopolitically and culturally critical world region, central to political, economic, cultural, and environmental issues of the present and the future. The University of Kansas Russian, East European & Eurasian Studies (REES) program covers a broad geographic region, home to rich and diverse cultures that have had an enormous impact on today’s world. Our program, collaborative and interdisciplinary in nature, offers you a unique opportunity to study both contemporary politics and medieval history, environmental problems and great works of literature and art, as well as multiple other related subjects. It offers opportunities to study abroad in a variety of culturally rich, exciting places. Crucially, it prepares you for a wide range of careers in research, business, government, and the nonprofit sector, with the opportunity to make a profound impact on both national and international level.

**Undergraduate Programs**

The Bachelor of Arts in Russian, East European & Eurasian Studies (REES) offers students a broad background in the languages, arts, literatures, histories, politics, and cultures of Russia, Ukraine, the South Caucasus, Central Asia, and countries of the West Slavic (Poland, Czech Republic) and South Slavic (Balkan) regions. The program is interdisciplinary and draws on over 45 faculty members and courses from 14 different KU departments and schools.

Prospective majors should begin language study in a REES language of their choice as soon as possible. REES 110 Understanding Russia and Eastern Europe & REES 220 Societies and Cultures of Eurasia are both certified as meeting KU Core learning outcomes.

**Graduate Programs**

Graduate programs in Russian, East European & Eurasian Studies (REES) offer future professionals a comprehensive and interdisciplinary knowledge of Russia, Ukraine, the South Caucasus, Central Asia, and countries of the West Slavic (Poland, Czech Republic) and South Slavic (Balkan) regions. The programs develop language competency appropriate for a range of careers in the government, business, law, international development and non-profit sectors. For students interested in pursuing a PhD, the REES M.A. prepares for advanced graduate study in literature and the arts, history, political science, geography, and other disciplines. The Center for Russian, East European, and Eurasian Studies offers a Graduate Certificate, Master of Arts, FAST Track MA, and JD-MA program. Non-degree seeking students who have completed an undergraduate degree may apply to take graduate-level courses in REES.

**About REES**

The KU REES program is interdisciplinary and draws on over 60 faculty members and courses from 17 different KU departments and schools. Most REES M.A. students have completed an undergraduate major in the social sciences or humanities prior to beginning their graduate study, but successful REES graduate students have come from any number of other academic disciplines including business, law, and the sciences.

Our program requires advanced level competence in a REES-area language, which includes: Bosnian-Croatian-Serbian, Czech, Polish, Russian, Slovene, Tajik/Farsi, Turkish, Ukrainian, Uyghur, and Yiddish. It is recommended that incoming graduate students have at least 2 years of former language study or participate in an intensive summer or semester language program before they begin graduate work in REES at KU.

**Graduate Certificate Program**

The 4-course, 12-hour REES Graduate certificate is designed to help students develop context-based interdisciplinary knowledge and expertise of the REES area, and allows for that expertise to be officially recognized on the students’ KU transcript, enhancing the graduates’ career opportunities.

**M.A. Program**

The M.A. program is designed as a 30-hour, 2-year degree program in which students may specialize in a specific area of interest (literature and arts, history, political science, philosophy & religion, or economics, business, & geography). To meet the national need for Russian, East European & Eurasian specialists in all sectors by producing students with superior training in language and area studies, providing professional mentoring, enhancement, and opportunity for study and research abroad. REES supports students in their research and intellectual enhancement so that they can become and remain superior teachers, scholars, and mentors.

**FAST Track M.A. Program**
The KU Center for Russian, East European & Eurasian Studies (CREES) offers an accelerated graduate program (http://crees.ku.edu/fast-track) for students wanting to complete their REES MA within a 12-month or 18-month period. The accelerated FAST track is open to all graduate students, but is specifically designed for Foreign Area Officers (FAOs). CREES has been training FAOs for over 30 years and our graduates consistently rate the REES program at KU as one of the most FAO friendly. Our close proximity to Fort Leavenworth, the intellectual center of the U.S. Army, adds a unique benefit for our students, both military and civilian. CREES has a long history of collaborating with the U.S. Army Command and General Staff College and several of our alumni staff the Foreign Military Studies Office.

**JD-MA Program**

This program (http://crees.ku.edu/jd-ma-russian-east-european-eurasian-studies/) combines into four years and one summer of full-time study the Juris Doctor program offered by the School of Law and the Master of Russian, East European & Eurasian Studies program offered by the Center for Russian, East European & Eurasian Studies in the College of Liberal Arts and Sciences. Growing U.S. interaction with the REES region provides a need for lawyers with active knowledge and skills in the target language, culture, and political and legal tradition. In addition to a greater ability to work with clients from various backgrounds, a joint degree in law and Russian, East European & Eurasian Studies opens many doors for its recipients, including opportunities in international trade and finance, immigration law, human rights advocacy, government service, and other related fields.

**Center for Russian, East European, and Eurasian Studies**

The Center for Russian, East European, and Eurasian Studies promotes language and area study in an integrated, interdisciplinary framework and in traditional academic disciplines. The center administers a co-major and minor and M.A. degree programs in Russian, East European, and Eurasian studies and supports study abroad programs in the region, including in Croatia, Kazakhstan, and Ukraine. The center also coordinates and sponsors conferences, lectures, theatre, and outreach activities of interest to KU students, faculty members, K-12 teachers, and the community. It serves as a resource to the state, the Great Plains, and the nation.

The Center for Russian, East European & Eurasian Studies (CREES) at the University of Kansas (KU) has been a national leader for the study of the former Soviet Union and Eastern Europe since 1959. Our purpose and objectives are to:

- Promote the study of Russia, Eastern Europe, and Eurasia within an integrated, interdisciplinary framework, as well as within each of the traditional academic disciplines;
- Promote the study of languages in the Department of Slavic Languages and Literatures, at all levels of instruction and research;
- Promote better understanding of the societies and cultures of the Russian, East European and Eurasian area through exchanges of students, faculty, and other forms of cooperation with universities and other institutions in those areas;
- Promote the study of Slavic languages and of Russia, Eastern Europe, and Eurasia in schools and colleges throughout Kansas and the surrounding area;
- Encourage coordinate, sponsor and support activities of interest to the students and faculty in the Russian, East European and Eurasian area;
- Serve as a local, regional, and national resource to educational, government, business, and community constituencies seeking information about the Russian, East European and Eurasian area.

**History**

KU first offered Russian language to its students in 1943. KU has offered credentials in some variant of Slavic or Soviet & East European Studies since 1959, and a master’s degree since 1968. It was first designated a US/ED National Resource Center in 1965. CREES Directors have included some of the top experts in Soviet and Russian history, Slavic Literature, Philosophy, and Political Science: Oswald P. Backus (1955-1965); Herb Ellison (1965-1968); Roy Laird (1969); James Scanlan (1969); William Fletcher (1970-1992); Maria Carlson (1993-2003); Paul D’Anieri (2003); Erik Herron (2003-2006); William J. Comer (2007); Edith W. Clowes (2008-2012); Mariya Y. Omelicheva (2012-2014); Vitaly Chernetsky (2015-present).

**Faculty**

CREES has over 50 teaching faculty members, representing a broad range of cooperating departments of the KU College of Liberal Arts and Sciences and professional schools. Our faculty are internationally visible in their field and have extensive foreign experience. And our teaching faculty are supplemented by visiting foreign faculty and scholars who enhance & expand KU offerings and serve as regional resources each year.

**Courses**

**REES 110. Understanding Russia and Eastern Europe. 3 Hours SC AE42 / H/W.**

A multidisciplinary introduction to Russia and Eastern Europe. The course explores the geography, history, and politics of this complex region, as well as the diverse cultures, ethnicities, languages, and religions. A special focus of the course is the current socio-political situation in Russia and Eastern Europe in the context of the fall of communism nearly 30 years ago and the ongoing post-communist transition. Students will watch a movie every two weeks as a visual representation of issues discussed via scholarly articles and chapters, newspaper articles and news clips, video lectures, documentary and animated films, music videos, and literature. This course is offered at the 100 and 300 level with additional assignments at the 300 Level. Not open to students with credit in REES 310. LEC.

**REES 111. Understanding Russia and Eastern Europe, Honors. 3 Hours AE42 / H/W.**

A multidisciplinary introduction to Russia and Eastern Europe. The course explores the geography, history, and politics of this complex region, as well as the diverse cultures, ethnicities, languages, and religions. A special focus of the course is the current socio-political situation in Russia and Eastern Europe in the context of the fall of communism nearly 30 years ago and the ongoing post-communist transition. Students in the course watch one feature film from Russia or Eastern Europe per week as a visual representation of issues discussed via scholarly articles and chapters, newspaper articles and news clips, video lectures, documentary and animated films, music videos, and literature. This course is offered at the 100 and 300 level with additional assignments at the 300 Level. Not open to students with credit in REES 311. Prerequisite: Open only to students in the University Honors Program, or by permission of instructor. LEC.
REES 177. First Year Seminar: ______. 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Russian, East European, and Eurasian Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

REES 220. Societies and Cultures of Eurasia. 3 Hours AE42 / W.
The purpose of this course is to acquaint students with the societies and cultures of Eurasia (primarily Central Asia, Russia, and the Caucasus region). This interdisciplinary course reviews the geography, history, economics, social and political structures, religion, literature, music, and art of the region. The focus is mainly on the twentieth-century and topics of interest include the collapse of empires, the rise and fall of communism, the disintegration of the USSR and rise of authoritarianism, nationalism, and various forms of Islam in the region. LEC.

REES 221. Societies and Cultures of Eurasia, Honors. 3 Hours AE42 / W.
The purpose of this course is to acquaint students with the societies and cultures of Eurasia (primarily Central Asia, Russia, and the Caucasus region). This interdisciplinary course reviews the geography, history, economics, social and political structures, religion, literature, music, and art of the region. The focus is mainly on the twentieth-century and topics of interest include the collapse of empires, the rise and fall of communism, the disintegration of the USSR and rise of authoritarianism, nationalism, and various forms of Islam in the region. Open only to students admitted to the University Honors Program or by permission of instructor. LEC.

REES 310. Understanding Russia and Eastern Europe. 3 Hours NW AE42 / S/W.
A multidisciplinary introduction to Russia and Eastern Europe. The course explores the geography, history, and politics of this complex region, as well as the diverse cultures, ethnicities, languages, and religions. A special focus of the course is the current socio-political situation in Russia and Eastern Europe in the context of the fall of communism nearly 30 years ago and the ongoing post-communist transition. Students in the course watch one feature film from Russia or Eastern Europe per week as a visual representation of issues discussed via scholarly articles and chapters, newspaper articles and news clips, video lectures, documentary and animated films, music videos, and literature. This course is offered at the 100 and 300 level with additional assignments at the 300 Level. Not open to students with credit in REES 110. LEC.

REES 311. Understanding Russia and Eastern Europe, Honors. 3 Hours SC AE42 / S.
A multidisciplinary introduction to Russia and Eastern Europe. The course explores the geography, history, and politics of this complex region, as well as the diverse cultures, ethnicities, languages, and religions. A special focus of the course is the current socio-political situation in Russia and Eastern Europe in the context of the fall of communism nearly 30 years ago and the ongoing post-communist transition. Students in the course watch one feature film from Russia or Eastern Europe per week as a visual representation of issues discussed via scholarly articles and chapters, newspaper articles and news clips, video lectures, documentary and animated films, music videos, and literature. This course is offered at the 100 and 300 level with additional assignments at the 300 Level. Not open to students with credit in REES 111. LEC.

REES 480. Topics in Russian and East European Studies: ______. 1-3 Hours H.
Interdisciplinary examination of topics involving two or more disciplines in Russian, East European, and Eurasian studies. LEC.

REES 485. War and Peace in Russian Culture. 3 Hours H/W.
Lectures, readings, oral discussion, and written analyses of selected major works of Russian writing and other modes of creative expression and discourse that treat the subject of war and peace, such as imaginative literature, works of history, memoirs, cinema, music, and painting. Reading examples are The Song of Igor's Campaign, Alexander Pushkin's The Captain's Daughter and A History of Pugachev, Leo Tolstoy's War and Peace, Nadezhda Durova's The Notes of a Girl-Cavalryman, Boris Pasternak's Doctor Zhivago, and George Kennan's Russia Leaves the War. Not open to students who have taken REES 685. LEC.

REES 492. Research Methods in Russian, East European, and Eurasian Studies. 3 Hours AE51 / H.
Development of interdisciplinary research skills and familiarity with resources and issues in the study of Russian, East European, and Eurasian Studies. Preparation for REES 496. LEC.

REES 496. Capstone Research Seminar in Russian and East European, and Eurasian Studies. 3 Hours AE61 / H.
Interdisciplinary original research conducted using at least one REES language and resulting in a research paper. Prerequisite: REES 492. LEC.

REES 498. Directed Readings. 1-3 Hours H.
Individual and supervised readings in selected areas of Russian, East European, and Eurasian Studies. Prerequisite: Prior permission of instructor and either CREES director or associate director. LEC.

REES 499. Capstone Research Seminar in Russian, East European, and Eurasian Studies, Honors. 3 Hours AE61 / H.
Research and writing of a substantial paper, involving interdisciplinary original research and use of sources in at least one REES language, and presentation of this paper to an Honors committee of three REES faculty members. This thesis must be substantially different from any other Honors thesis. Prerequisite: REES 492. LEC.

REES 510. Understanding Central Asia. 3 Hours NW AE42 / S/W.
An intensive, multidisciplinary survey of Central Asia, focusing on the former Soviet republics-Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, Uzbekistan-with additional coverage of neighboring regions (the Caucasus and the Caspian basin, Afghanistan, and western China). The course addresses the history of the region (from the Silk Road to Soviet rule), geography, religion, and the building of post-Soviet states and societies. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in REES 710. (Same as GEOG 590.) Prerequisite: One previous interdisciplinary area studies course or the instructor's permission. LEC.

REES 512. Siberia: Yesterday and Today. 3 Hours NW AE42 / H/W.
An interdisciplinary course examining the development of Siberia from its beginnings to the present day. Topics to be covered are selected from the following list: topography and natural resources; conquest and exploitation by Russian and other European settlers; Siberia's role as a place of imprisonment and exile; the development of towns and transportation systems; Siberian historiography; Siberian Russian literature; and Siberia's place in Russia's economy and national defense. LEC.

REES 513. Siberia: Russia's Eastern Frontier. 3 Hours NW AE42 / H/W.
An interdisciplinary course examining the terrain, peoples, and cultures of the vast expanse in northern Asia known as Siberia. Areas of inquiry include geology, archeology, ethnography, religions, folk culture, the arts, science and education, politics, and environmental problems. With an emphasis on the natural and social sciences, and exploration of the relationship between Siberia and its neighbors in all directions, including the United States (Alaska, "Russian America"), this course can be taken
without duplication by students who have already taken REES 512 (or SLAV 512) Siberia Yesterday and Today. LEC.

**REES 573. Borderland Between Russia & Europe. 3 Hours H/W.** Examines the history of relations between the governments, emerging national elites, and populations of Russia, Ukraine, Poland, and other East European countries, and the different regional perceptions and stereotypes, including the new post-Soviet states and their European neighbors. LEC.

**REES 574. Ethnicity and Nationalism in Eastern Europe. 3 Hours AE42 / H/W.** Examines the emergence and evolution of regional ethno-cultural and national identities in Eastern Europe. Discusses the theories and definitions of ethnicity, nationality, and nationalism, and offers a practical approach to understanding nationalism's and nationalist movements in Eastern Europe. LEC.

**REES 646. Translation in Theory and Practice. 3 Hours H.** Students undertake substantial work in the translation of non-technical writing, (e.g. poems, short stories, novels, essays, works of history, scientific treatises), from any REES language into English, and examine the practical and theoretical problems encountered in translation from the source to the target language. Prerequisite: BCRS 508, PLSH 508, RUSS 508, or permission of instructor. LEC.

**REES 685. War and Peace in Russian Culture (in Russian). 3 Hours H/W.** This course is taught in Russian. Lectures, readings, oral discussion, and written analyses of selected major works of Russian writing and other modes of creative expression and discourse that treat the subject of war and peace, such as imaginative literature, works of history, memoirs, cinema, music, and painting. Reading examples are Slovo o polku Igorev, Pushkin's Kapitanskaia dochka and Istoriia Pugacheva, Tolstoy's Voina i mir, Evgenii Tarle's Napoleon, Pasternak's Doktor Zhivago and Andrei Petukhov's Pamiat' o sluzhbe. Not open to students who have taken REES 485. Prerequisite: 3 years of Russian at the college level. LEC.

**REES 687. Biography of a City: St. Petersburg. 3 Hours AE42 / H.** Examination in depth of the historical, social, intellectual, and artistic development of St. Petersburg as a major urban center. LEC.

**REES 704. Russian Orthodoxy in Historical Perspective. 3 Hours.** This course examines Russian Orthodoxy as a religious system and the institution of the Russian Orthodox Church from its first appearance in Russia to the present. It focuses on beliefs and practices of the clergy and laity; institutional structures; the relationships between Church and State; interactions with non-Orthodox religious communities; responses to Soviet atheist policies; Orthodox influences on political theory, philosophy, literature, and the fine arts. (Same as REL 704.) LEC.

**REES 710. Understanding Central Asia. 3 Hours.** An intensive, multidisciplinary survey of Central Asia, focusing on the former Soviet republics-Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, Uzbekistan-with additional coverage of neighboring regions (the Caucasus and the Caspian basin, Afghanistan, and western China). The course addresses the history of the region (from the Silk Road to Soviet rule), geography, religion, and the building of post-Soviet states and societies. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in REES 510 or GEOG 590. LEC.

**REES 799. Directed Readings in Russian and East European Studies. 1-5 Hours.**
Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Requirements for the Major
Bachelor of Arts in Russian, East European, and Eurasian Studies  Course Requirements

Students take intensive REES language and course work to enhance their traditional disciplinary study. The most common REES major combinations are with Global & International Studies, Slavic Languages & Literatures, Political Science, and History.

While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 30 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior (300+) Hours**

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior (300+) Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

Below is a sample 4-year plan for students pursuing the major in Russian, East European, and Eurasian Studies (REES). The REES major requires 4th-semester language proficiency in a REES language, plus one additional semester of an advanced language course (i.e. 5th semester language course).

To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

**Freshman**

</thead>
<tbody>
<tr>
<td>ENGL 101 (Goal 2.1, (2 crs req), BA Writing I)</td>
<td>3</td>
<td>ENGL 102 (Goal 2.1 (2 crs req), BA Writing II)</td>
<td>3</td>
</tr>
</tbody>
</table>
The REES major requires 18.0 hours of elective course work from each of the following geographic distribution categories: Russia & Eastern Europe, South & Central Europe, and Europe & Central Eurasia; and each of the following disciplinary distribution areas: Arts, Culture, & Religion, History, and Social Sciences. There is not a specific order these must be taken, but it is recommended to take Jr/Sr level courses when possible.

A list of courses that fulfills this requirement can be found under the degree requirements tab.

Please note:
All students in the College of Liberal Arts and Sciences are required to complete 120 total hours, of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

**Honoros**

**Departmental Honors**

Honors in Russian, East European, and Eurasian Studies is open to REES majors who have earned, both at the time of entry into the program and at graduation, a grade-point average of 3.5 or higher in courses that satisfy requirements for the REES major.

Students must complete REES 492 Research Methods in Russian, East European, or Eurasian language (Honors) Capstone Seminar in Russian, East European, and Eurasian Studies with a grade of B or better. The research paper produced in REES 499 must demonstrate the student’s proficiency in at least one of the REES languages through the use of foreign language sources. The paper is evaluated by an honors committee of at least three REES faculty members who have read and commented on the research paper and heard its oral defense. The committee its constituted by the student in consultation with either the director or associate director of CREEES.

**Study Abroad**

Though not required, study abroad is strongly encouraged. Courses taken abroad may count toward the major if approved by the REES advisor.

Consult the Center for Russian, East European, and Eurasian Studies (http://www.crees.ku.edu/) or the Office of Study Abroad (http://www.studyabroad.ku.edu/) for information about programs.
Minor in Russian, East European, and Eurasian Studies

Why study Russian, East European, and Eurasian Studies?

The University of Kansas Russian, East European, and Eurasian Studies (REES) program covers a broad geographical region, which is home to rich and diverse cultures that have had an enormous impact on today's political, economic, cultural, and environmental issues. The interdisciplinary study of Russia, Eastern Europe, and Eurasia creates culturally informed citizens who can act on national and international issues.

The REES minor is highly flexible. It complements traditional disciplinary study in another field with REES coursework and general area knowledge.

Requirements for the Minor

Russian, East European, and Eurasian Studies Minor Course Requirements

Students selecting this minor must complete the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</table>

REES Required Electives

Satisfied by the completion of 1 course in each of the following 5 categories: 15 hours

- Literature and the Arts
  - ANTH 315  The Prehistory of Art
  - HUM 520  Literature in Translation: _____ (Russian)
  - SLAV 140  Understanding Russia
  - SLAV 141  Understanding Russia, Honors
  - SLAV 144  Survey of Russian Literature in Translation
  - SLAV 145  Survey of Russian Literature in Translation, Honors
  - SLAV 148  Introduction to Slavic Folklore
  - SLAV 506  Masterworks of Polish and Czech Literature
  - SLAV 520  Russian Phonetics, Phonology, and Inflectional Morphology
  - SLAV 534  Tolstoy
  - SLAV 561  Readings in Slavic Language: _____ (Slovene)
  - SLAV 662  Russian Literary Modernism: 1880-1930
  - SLAV 678  Readings in Slavic Linguistics
  - SLAV 679  Topics in: _____ (Russian Language Pedagogy)
  - THR 302  Undergraduate Seminar in: _____ (Theatre and Genocide)

Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

- **Minor Hours** Satisfied by 18 hours of minor courses.
- **Minor Hours in Residence** Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.
- **Minor Junior/Senior Hours** Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.
- **Minor Graduation GPA** Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses in the minor. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

Master of Arts in Russian, East European, and Eurasian Studies

Why study Russian, East European, and Eurasian studies?

The interdisciplinary study of Russia, Eastern Europe, and Eurasia creates informed citizens with in-depth understanding of this geopolitically
Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission Criteria

Most applicants hold Bachelor's degrees in the social sciences or humanities with grade-point averages of 3.0 or higher. Students with professional degrees are also eligible to apply. Some students may consider completing the M.A. or M.A./JD degree in conjunction with academic or professional study in another department or school.

Eligibility criteria for admission to REES graduate programs follow Graduate Studies’ admission policy (http://policy.ku.edu/graduate-studies/admission-to-graduate-study/). Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/).

Application Materials & Procedures

For all domestic or international applicants, please visit the REES Application page (http://crees.ku.edu/admission-requirements-1). Submit all graduate applications online (https://gradapply.ku.edu/apply/). Applications to begin the M.A. program should be submitted by January 1 for admission for the following fall semester. Applications may be accepted off-cycle; please consult with the graduate advisor.

If you wish to learn more about graduate programs in Russian, East European, and Eurasian Studies at The University of Kansas, please visit the REES Program website (http://crees.ku.edu/ma-program/), or contact Director of Graduate Studies, Dr. Vitaly Chernetsky (http://crees.ku.edu/vitaly-chernetsky-0/) at crees@ku.edu.

Send all other requested application materials to:

The University of Kansas
Russian, East European, and Eurasian Studies
Bailey Hall
1440 Jayhawk Blvd., Room 320

Lawrence, KS 66045

The Foreign Affairs Studies (FAST) concentration (http://crees.ku.edu/fast-track/) within the existing MA in Russian, East European, and Eurasian Studies is a concentration that (1) emphasize REES in Global Context and (2) places a greater emphasis on social sciences within REES coursework. The required GIST 710 Interdisciplinary Methods for Global Context emphasizes social science methodology.

The audience for this concentration is primarily Foreign Area officers (FAOs) and others already in the workforce who need an intensive program that can be completed in a year. An intensive area studies program also serves career needs of former Peace Corps volunteers and others who have the required language proficiency and first-hand knowledge of the given region. To this end, the course sequences and availability make it possible to complete the FAST concentration in 12 months. The FAST REES runs Fall (12 credit hours) – Spring (12 credit hours) – Summer (6 credit hours), not necessarily in this sequence. See the program website (http://crees.ku.edu/fast-track/) for a sample schedule.

The 30 credit hours are broken down as follows:

- 3 methodology seminars (9 Credits), including the Capstone project writing seminar REES 898 and REES 899
- 2 courses in your area of concentration (6 Credits - history; political science; philosophy and religion; literature and the arts; geography/economics/business)
- 4 disciplinary courses outside of your area of concentration (12 CR)
- 1 advanced language course at 500 level or above (3 CR)

If a student chooses political science or geography/economics/business as area of concentration, GIST 710 Interdisciplinary Methods for Global Contexts is required along with another elective in this area.

If a student chooses literature/arts, history, or philosophy/religion as an area of concentration, GIST 710 can be used to replace the distribution requirement in political science or geography/economics/business.

25% or more of coursework in GIST 898 and GIST 710 must pertain to REES geographical area.

M.A. Degree Requirements

A Master of Arts degree is awarded in 3 tracks: Russian, East European, and Ukrainian.

Requirements for the Degree

Requirements for the degree include 30 credit hours with at least 50% of coursework at or above the 700 level whether in the REES department or another department within the student's area of interest. The requirements for the degree are distributed as follows:

1. At least 1 course in a REES-area advanced foreign language.
2. 3 courses for a total of 9 credit hours, in the department or subject group of the student's special interest; at least 2 of these courses must be area specific.

The 5 thematic areas are

- Literature and the Arts
- History
- Political Science
• Philosophy and Religion
• Economics, Business, Geography

3. 1 area course in each of the other 4 subject groupings, for a total of 12 hours.

4. Successful completion of REES 898 and REES 899, an interdisciplinary M.A. seminar (6 credit hours), develops advanced research skills. REES 898, which is normally taken at the beginning of the degree program, emphasizes learning the tools and methods necessary to study this region of the world. In REES 899, students write an interdisciplinary research paper using materials in the student’s chosen target language. Before enrolling in REES 899, the student must have completed an advanced language course in the target language.

5. Pass a comprehensive examination in addition to regular course examinations. Information about opportunities and requirements for graduate work with a Russian or East European concentration in any department at KU may be obtained from the department.

Requirements may be modified in special cases with the director’s approval, particularly for students with special needs such as Experienced Teacher Fellows, Foreign Area Officers, or candidates for degrees in the professional schools. All students are encouraged to study abroad.

Plan of Study

The plan of study is designed by the student in consultation with the advisor.

Graduate Certificate in Russian, East European, and Eurasian Studies

Why study Russian, East European, and Eurasian studies?

The Russian, East European, and Eurasian Studies (REES) graduate certificate is a 12-credit hour program designed for graduate students in CLAS departments and in professional schools who for a variety of reasons are unable to enroll in a full-length M.A. Degree. The certificate program helps such students develop context-based interdisciplinary knowledge and expertise of the REES area, and allows for that expertise to be officially recognized on the students’ KU transcript, enhancing the graduates’ career opportunities.

As a prerequisite to beginning the certificate course sequence, students need to demonstrate a working knowledge of a REES-area language equivalent of at least 2 years of university study.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission Criteria

Most applicants hold Bachelor’s degrees in the social sciences or humanities with grade-point averages of 3.0 or higher. Students professional degrees are also eligible to apply. Some students may consider completing the certificate in conjunction with academic or professional study in another department or school.

Eligibility criteria for admission to the graduate certificate program follow Graduate Studies’ admission policy (http://policy.ku.edu/graduate-studies/admission-to-graduate-study/). Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/).

Application Materials & Procedures

For all KU and non-KU applicants, please visit the REES Graduate Certificate page (http://crees.ku.edu/graduate-certificate-0/). Submit all graduate applications online (https://gradapply.ku.edu/).

If you wish to learn more about the certificate program in Russian, East European, and Eurasian Studies at The University of Kansas, please visit the REES graduate certificate website (http://crees.ku.edu/ma-program/), (http://crees.ku.edu/graduate-certificate-0/) or contact Director of Graduate Studies, Dr. Vitaly Chernetsky (http://crees.ku.edu/vitaly-chernetsky-0/) at crees@ku.edu.

Send all other requested application materials to the program:

The University of Kansas
Russian, East European, and Eurasian Studies
Bailey Hall
1440 Jayhawk Blvd., Room 320
Lawrence, KS 66045

The Russian, East European, and Eurasian Studies (REES) graduate certificate is a 12-credit hour program of study designed primarily for graduate students in CLAS and the professional schools. The program allows the students to acquire context-based interdisciplinary knowledge and expertise of the REES area. The certificate allows for that expertise to be officially recognized on the students’ KU transcript, enhancing the graduates’ career opportunities.

The main academic objectives of the graduate certificate include introducing and training graduate students in the current methodological approaches to the study of the REES area; allowing the students to acquire a deeper knowledge of the area from different disciplinary perspectives; and guiding the students in integrating their knowledge of the area, methodology, and a REES-area language. As a part of the capstone seminar, graduate certificate students write an original research paper on a REES-area topic that utilizes research in both English and the target language.

As a prerequisite to beginning the course sequence that leads to the certificate, the student must demonstrate a working knowledge of a REES-area language equivalent of at least 2 years of university study.

The CREES graduate certificate includes a 12-credit hour course sequence (4 3-credit hour courses). Out of the 4 courses, 2 are mandatory: the methodology seminars, REES 898 and REES 899.
• REES 898 is taken during the student’s first semester, as it lays out the foundation for interdisciplinary area studies in REES.
• 2 electives must be chosen from a list of REES-themed offerings from 2 different disciplines, of which 1 can overlap with the coursework taken by the student in his or her home department. The courses must be 500-level or higher and have at least 50% REES content.
• REES 899, is taken following the completion of the elective courses. The capstone seminar, in which the student identifies an original research topic, and under the professor’s supervision, produces a capstone paper of publishable quality, a part of which is a working bibliography which includes both English and foreign-language sources. REES 899 is used to demonstrate student knowledge of area studies content and methodology, and the capstone paper is the primary outcome of this course.

REES and REES 899 are taken by both REES MA students and REES graduate certificate students. These students work together on acquiring tools for researching and writing about the REES area, and then applying these tools towards individual projects.

Department of Slavic and Eurasian Languages and Literatures

The Department of Slavic and Eurasian Languages & Literatures offers a complete curriculum of language, culture, literature, and linguistics courses for students interested not only in Russian, but also in Polish, Bosnian/Croatian/Serbian, Slovene, Ukrainian, and Turkish languages and cultures. The department also offers occasional coursework and independent study in Czech and other East European languages.

The department offers three degrees: the B.A., the M.A., and the Ph.D. The Bachelor of Arts degree program offers fundamental training in language and culture, while graduate training at the Masters and Doctoral levels focuses on Russian literature and culture, Slavic linguistics, and/or Slavic language pedagogy. The department also offers select study abroad programs. Working closely with KU’s Center for Russian, East European, and Eurasian Studies (CREES), the department offers a variety of Slavic-related events throughout the year, including visiting distinguished lecturers, exhibits, and musical and theatrical performances. Students participate in an active Russian Club, language tables, and the Graduate Students’ Organization.

For more information about the department and its people, visit the department’s website (http://slavic.ku.edu/). Look for the Old Bridge in Mostar at the very top of the page. Commissioned by Suleiman the Magnificent in 1557, the bridge metaphorically connects the Ottoman Empire with Europe – it is the physical expression of the concept that Russia and the Slavs link the West and the East.

Undergraduate Programs

The undergraduate major in Slavic languages and literatures prepares students to pursue a range of careers connected with Russia and Central Europe, including those related to international work in business, government, nonprofit organizations, etc. The undergraduate major serves equally as solid preparation for graduate study in Slavic languages and literatures and related fields and for entrance to professional schools such as law or journalism. Students learn these languages to pursue careers with international dimensions; enhance job opportunities; connect with their heritage, family, and communities; explore other literatures and cultures; and pursue personal interests.

The undergraduate program gives students solid functional language skills in speaking, reading, listening, and writing. Students develop the strategies and linguistic awareness to continue language study throughout their lives. The program acquaints undergraduates with the most significant works of the literature and culture of the Slavic region and gives them the tools and frameworks necessary to understand, analyze, and critique those works and place them in their cultural context. Students work with sources in English and in the original languages to develop transferable reading and analytical skills.

The department strongly encourages students to plan a substantial study abroad experience (at least a summer but preferably a semester or an academic year) as part of the major. Study abroad experience contributes to mastery of the language and facilitates students’ encounters with the people, practices, and attitudes of the culture in ways that can never be replicated on an American university campus.

Placement

Students may establish eligibility for enrollment in the second course in Polish, Russian, or Bosnian/Croatian/Serbian by having earned college credit in the first course in that language or by having studied the language in high school. Students with previous study should contact the department to arrange a consultation about enrollment at the appropriate level.

Retroactive Credit

Students with no prior college or university Russian course credit are eligible for retroactive credit according to this formula:

• 3 hours of retroactive credit are awarded to a student with 2 or 3 years of high school Russian who enrolls initially at KU in a third-level Russian course (RUSS 204) and receives a grade of C or higher.
• 6 hours of retroactive credit are awarded to a student with 3 or 4 years of high school Russian who enrolls initially at KU in a fourth-level Russian course (RUSS 208) and receives a grade of C or higher.
• 9 hours of retroactive credit are awarded to a student with 4 years of high school Russian who enrolls initially at KU in a Russian course with a fourth-level course as a prerequisite and receives a grade of C or higher.

Courses for Nonmajors

Some courses in Slavic literatures and cultures are taught in English and fulfill various goals and learning outcomes related to the KU CORE, as well as existing B.A. requirements in the humanities and non-Western culture.

Students may fulfill the College language requirement for the B.A. degree by taking 2 years in one of the following languages: Russian, Polish, Bosnian/Croatian/Serbian, Slovene, Ukrainian, or Turkish.

Courses are available in Russian for special purposes (Russian for Reading, Russian for the Professions). RUSS 110 Intensive Elementary Russian (10 credit hours) frequently is offered in the summer.

Graduate Programs

The department offers programs leading to Master of Arts and Doctor of Philosophy degrees in Slavic Languages and Literatures.
Master of Arts

The Master of Arts degree in Slavic and Eurasian Languages & Literatures provides students with foundational knowledge of the language, literature, culture, and linguistics in a region of study (Russian, Polish, Bosnian-Croatian-Serbian). Working in a collegial and supportive environment, M.A. students extend their foundational knowledge of the field, while being encouraged to grow intellectually and develop new and innovative interpretive frameworks. Some of the work done at the M.A. level includes: reading key literary works in their historical, cultural, stylistic, and genre contexts; familiarization with literary theory; work on professionalization and job market readiness; learning technological and Digital Humanities skills; language testing and coursework to improve language capacity.

Doctor of Philosophy

Building on the M.A. foundational base, the KU Ph.D. degree program encourages students to develop their particular intellectual interests in collaboration with KU faculty in their areas of specialization. Ph.D. students also learn a second Slavic language and develop knowledge of a secondary field. For the secondary field, students are encouraged to choose from philosophy, linguistics, religion, history, theater and cinema, literary theory, comparative literature, and folklore.

Two concentrations are offered in the Ph.D. Program:

• Russian Literature

• Slavic Linguistics (including language pedagogy)

Ph.D. students who focus their studies on Russian literature and Slavic linguistics have a full-service curriculum from which to choose their courses. Ph.D. Doctoral students who wish to pursue a Ph.D. concentration in another literature that the department offers, such as Bosnian/Croatian/Serbian, Polish, or Ukrainian may develop an individualized program of study in consultation with faculty.

Ph.D. students interested in Russian culture, intellectual history, or Slavic folklore pursue their studies through the Russian literature Ph.D. concentration.

Departmental Funding

The department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year; .50 full-time equivalent (FTE) appointments come with:

• a competitive academic year (9 month) salary

• a 100% tuition waiver for all courses at KU

• payment of up to 3 hours of student fees

• optional University-subsidized group health insurance

The appointments are guaranteed based on performance for up to 3 years for M.A. students, 5 years for Ph.D. students and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training in language instruction, close mentoring, and the opportunity to teach at a variety of levels, providing them with a strong base of teaching experience upon entering the job market. Additional information about teaching for the department is available on the Graduate Programs overview (http://slavic.ku.edu/ma-slavic-overview/) page of our departmental website.

Additional Funding

There are also university fellowships for truly outstanding students. Visit the Graduate Studies website for information about funding opportunities (http://graduate.ku.edu/ku-funding/) for KU graduate students.

Graduate Non-Degree Seeking Status

Students who are interested in enrolling in graduate-level coursework in the Department of Slavic and Eurasian Languages & Literatures without formal admission to a graduate program at KU are encouraged to apply for graduate non-degree seeking student status. See the department’s webpage (http://slavic.ku.edu/nds-overview/) for further details.

Courses

BCRS 104. Elementary Bosnian/Croatian/Serbian I. 5 Hours U / F1.
Beginning language course. Development of basic communicative and cultural competencies with interactive approach. Students acquire communicative skills for elementary personal and social needs. They are introduced to the basic Bosnian/Croatian/Serbian language rules and to the cultural context in which Bosnian/Croatian/Serbian discourse occurs. Through regular engagement with authentic multimedia materials they learn to recognize differing aspects of Bosnian/Croatian/Serbian and American life, culture, and values. LEC.

BCRS 105. Elementary Bosnian/Croatian/Serbian I, Honors. 5 Hours U / F1.
Similar to BCRS 104 but with additional work aimed at accelerating the student’s progress to proficiency and widening understanding of cultural context. Prerequisite: Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

BCRS 108. Elementary Bosnian/Croatian/Serbian II. 5 Hours U / F2.
Second-semester language course, continuation of BCRS 104. Further development of basic communicative and cultural competencies with interactive approach. Students continue the acquisition of communicative skills for elementary personal and social needs and their introduction to the basic Bosnian/Croatian/Serbian language rules and cultural context in which Bosnian/Croatian/Serbian discourse occurs. Through regular engagement with authentic multimedia materials they learn to recognize differing aspects of Bosnian/Croatian/Serbian and American life, culture, and values. Prerequisite: BCRS 104 or BCRS 105, or placement by examination. LEC.

BCRS 109. Elementary Bosnian/Croatian/Serbian II, Honors. 5 Hours U / F2.
Continues BCRS 105. Similar to BCRS 108 but with additional work aimed at accelerating the student’s progress to proficiency and widening understanding of cultural context. Prerequisite: BCRS 104 or 105. Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

BCRS 150. Beginning Bosnian/Croatian/Serbian I. 3 Hours H.
Fundamentals of B/C/S grammar, reading, speaking, and writing. Introduction to the cultural context in which B/C/S discourse occurs. Online course, designed to accommodate the needs of students regardless of age, educational background, or occupation who want to acquire some basic communicative skills in B/C/S. No previous knowledge of BCS or other foreign languages required. The course does not satisfy the College of Liberal Arts and Sciences foreign language requirement. Not open to students with credit in BCRS 104 or BCRS 105. LEC.

BCRS 177. First Year Seminar: ______. 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Bosnian/Croatian/Serbian. Course is designed to
meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**BCRS 204. Intermediate Bosnian/Croatian/Serbian I. 3 Hours AE42 / U / F3.**
Second-year language course. Further development of communicative and cultural competencies with a content-based, interactive approach. Students develop the ability to understand and produce short written and spoken texts in BCS through engagement with a variety of authentic materials representative of cultural diversity of the studied area. They contrast and compare features of individual BCS-speaking countries and their cultures as well as differing aspects of B/C/S and American life, culture, and values. Prerequisite: BCRS 108 or permission of the instructor. LEC.

**BCRS 205. Intermediate Bosnian/Croatian/Serbian I, Honors. 3 Hours AE42 / U / F3.**
Similar to BCRS 204 but with additional work aimed at accelerating the student's progress to proficiency and widening understanding of cultural context. Prerequisite: Open only to students who have received an A in BCRS 108 or an A or B in BCRS 109, and who are admitted to the University Honors Program, or by permission of instructor. LEC.

**BCRS 208. Intermediate Bosnian/Croatian/Serbian II. 3 Hours AE42 / U / F4.**
A continuation of BCRS 204. Prerequisite: BCRS 204. LEC.

**BCRS 209. Intermediate Bosnian/Croatian/Serbian II, Honors. 3 Hours AE42 / U / F4.**
Similar to BCRS 208 but with additional work aimed at accelerating the student's progress to proficiency and widening understanding of cultural context. Prerequisite: BCRS 204 or 205. Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

**BCRS 380. Intensive Croatian. 6 Hours U.**
This program consists of a six-week intensive language course in intermediate and advanced Croatian phonetics, conversation, and grammar, and is offered each summer in Croatia. In addition to the practical language work, there is a program of lectures on modern Croatian history, literature, and other cultural topics. Various excursions and tours bring the students into first-hand contact with the people, natural beauty and culture of Croatia. This program is a cooperative effort between the University of Kansas and faculty of the University of Zadar. LEC.

**BCRS 504. Advanced Bosnian/Croatian/Serbian I. 3 Hours H/W / FP.**
A practical Bosnian/Croatian/Serbian course involving the advanced study of the grammar, reading of texts on a variety of subjects, conversation and composition. Taught in Bosnian/Croatian/Serbian. Designed for students who have had two or more years of Bosnian/Croatian/Serbian language. Prerequisite: BCRS 208, or equivalent. LEC.

**BCRS 508. Advanced Bosnian/Croatian/Serbian II. 3 Hours H/W / FP.**
A practical Bosnian/Croatian/Serbian course involving the advanced study of the grammar, reading of texts on a variety of subjects, conversation and composition. Taught in Bosnian/Croatian/Serbian. Designed for students who have had two and one-half or more years of Bosnian/Croatian/Serbian language. Prerequisite: BCRS 504, or equivalent. LEC.

**BCRS 675. Readings in Bosnian/Croatian/Serbian. 1-6 Hours H/W / FP.**
Individually tailored readings and independent work in Bosnian/Croatian/Serbian language and culture. Prerequisite: Two years of Bosnian/Croatian/Serbian, and consent of instructor. IND.

**Courses**

**CZCH 104. Elementary Czech I. 5 Hours U / F1.**
First semester. Essentials of grammar, practice in speaking and writing Czech. Simple readings from selected texts. LEC.

**CZCH 108. Elementary Czech II. 5 Hours U / F2.**
Second semester. A continuation of CZCH 104. Prerequisite: CZCH 104. LEC.

**CZCH 177. First Year Seminar: _____. 3 Hours GE11 / U.**
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Czech. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

**CZCH 204. Intermediate Czech I. 3 Hours U / F3.**
Second-year course in the language with emphasis on reading, composition, and conversation. Prerequisite: CZCH 108. LEC.

**CZCH 208. Intermediate Czech II. 3 Hours U / F4.**
A continuation of CZCH 204. Prerequisite: CZCH 204. LEC.

**CZCH 675. Readings in Czech. 1-6 Hours H/W / FP.**
Prerequisite: Reading knowledge of Czech language, and consent of instructor. IND.

**Courses**

**PERS 110. Elementary Iranian/Dari/Tajik Persian I. 5 Hours U / F1.**
Vocabulary acquisition, pronunciation, grammar, and writing. Course includes reading of simple texts. Main emphasis on Iranian Persian; acquaintance with basic differences between Iranian, Dari and Tajik Persian. Interested students to be provided with additional opportunities to improve their linguistic skills in the dialect of their interest. Five hours of class per week. LEC.

**PERS 120. Elementary Iranian/Dari/Tajik Persian II. 5 Hours / F2.**
A continuation of PERS 110. Vocabulary acquisition, pronunciation, grammar, and writing. Course includes reading of simple texts. Main emphasis on Iranian Persian; acquaintance with basic differences between Iranian, Dari and Tajik Persian. Interested students to be provided with additional opportunities to improve their linguistic skills in the dialect of their interest. Five hours of class per week. Prerequisite: PERS 110 or departmental permission. LEC.

**PERS 210. Intermediate Iranian/Dari/Tajik Persian I. 3 Hours U / F3.**
A continuation of PERS 120. Course emphasizes oral and written work in Persian. Systematic review of grammar and introduction to reading in cultural texts. Main emphasis on Iranian Persian; acquaintance with basic differences between Iranian, Dari and Tajik Persian. Interested students to be provided with additional opportunities to improve their linguistic skills in the dialect of their interest. Prerequisite: PERS 120 or departmental permission. LEC.

**PERS 220. Intermediate Iranian/Dari/Tajik Persian II. 3 Hours U / F4.**
A continuation of PERS 210. Course emphasizes oral and written work in Persian. Systematic review of grammar and introduction to reading in cultural texts. Main emphasis on Iranian Persian; acquaintance with basic differences between Iranian, Dari and Tajik Persian. Interested students to be provided with additional opportunities to improve their linguistic skills in the dialect of their interest. Prerequisite: PERS 210 or departmental permission. LEC.

**PERS 310. Advanced Iranian/Dari/Tajik Persian I. 3 Hours U / FP.**
Enhancement of speaking, comprehension, reading and writing abilities in Persian. Readings from Persian literature introduced. Main emphasis
on Iranian Persian; acquaintance with basic differences between Iranian, Dari and Tajik Persian. Interested students to be provided with additional opportunities to improve their linguistic skills in the dialect of their interest. Prerequisite: PERS 220 or placement exam that establishes a level of proficiency in Persian suited to Advanced Persian I. LEC.

PERS 320. Advanced Iranian/Dari/Tajik Persian II. 3 Hours U / FP. 
Enhancement of speaking, comprehension, reading and writing abilities in Persian. Readings from Persian literature introduced. Main emphasis on Iranian Persian; acquaintance with basic differences between Iranian, Dari and Tajik Persian. Interested students to be provided with additional opportunities to improve their linguistic skills in the dialect of their interest. Prerequisite: PERS 310 or placement exam that establishes a level of proficiency in Persian suited to Advanced Persian II. LEC.

PERS 593. Directed Study in Persian Culture and Literature: _____. 1-3 Hours U / FP. 
This course is designed for students seeking proficiency in Persian beyond PERS 320. The instructor directs the student through readings and materials in Persian that add to the student's substantive knowledge of Persian culture in Iran, Afghanistan, and Tajikistan. May be taken multiple semesters for credit with varying content. Prerequisite: PERS 320 and consent of instructor. LEC.

Courses

PLSH 104. Elementary Polish I. 5 Hours U / F1. 
First Semester. Essentials of grammar, practice in reading, writing, and speaking Polish. LEC.

PLSH 105. Elementary Polish, Honors. 5 Hours U. 
Honors version of PLSH 104, with additional work aimed at accelerating students progress to proficiency and expanding their cultural competence. Prerequisite: Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

PLSH 108. Elementary Polish II. 5 Hours U / F2. 
Second semester. A continuation of PLSH 104. Prerequisite: PLSH 104. LEC.

PLSH 109. Elementary Polish II, Honors. 5 Hours U. 
A continuation of PLSH 105. Honors version of PLSH 108, with additional work aimed at accelerating students progress to proficiency and expanding their cultural competence. Prerequisite: PLSH 104 or PLSH 105. Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

PLSH 177. First Year Seminar: _____. 3 Hours GE11 / U. 
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Polish. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

PLSH 204. Intermediate Polish I. 3 Hours AE42 / U / F3. 
Second-year course in the language with emphasis on reading, composition, and conversation. Prerequisite: PLSH 108. LEC.

PLSH 205. Intermediate Polish I, Honors. 3 Hours AE42 / U. 
Honors version of PLSH 204, with additional work aimed at accelerating students' progress to proficiency and expanding their cultural competence. Prerequisite: Open only to students who have received an A in PLSH 108 or an A or B in PLSH 109, and who are admitted to the University Honors Program; or by permission of instructor. LEC.

PLSH 208. Intermediate Polish II. 3 Hours AE42 / U / F4. 
A continuation of PLSH 204. Prerequisite: PLSH 204. LEC.

PLSH 209. Intermediate Polish II, Honors. 3 Hours AE42 / U. 
Honors version of PLSH 208, with additional work aimed at accelerating students progress to proficiency and expanding their cultural competence. Prerequisite: PLSH 204 or PLSH 205. Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

PLSH 312. Polish Language and Civilization in Poland: Summer Program. 8 Hours H/W. 
Polish grammar, conversation, and composition with select aspects of Polish civilization. Available only to participants in Polonicum, Warsaw University. LEC.

PLSH 504. Advanced Polish I. 3 Hours H/W / FP. 
A practical Polish language course involving advanced study of the grammar, reading of texts on a variety of subjects, conversation, and composition. Taught in Polish. Designed for students who have had two or more years of Polish language. Prerequisite: PLSH 508 or equivalent. LEC.

PLSH 508. Advanced Polish II. 3 Hours H/W / FP. 
A practical Polish language course involving advanced study of the grammar, reading of texts on a variety of subjects, conversation, and composition. Taught in Polish. Designed for students who have had two and one-half or more years of Polish. Prerequisite: PLSH 504 or equivalent. LEC.

PLSH 675. Readings in Polish Language and Literature. 1-6 Hours H/ W / FP. 
Directed individual readings on various topics concerning Polish literature and/or language. Prerequisite: Two years or four semesters of Polish, and consent of instructor. IND.

Courses

RUSS 100. Russian Reading Course I. 3 Hours U. 
A special reading course for candidates for advanced degrees, faculty members, and graduate or undergraduate students from other schools or departments, designed to aid them in obtaining a reading knowledge for purposes of research. An intensive study of the fundamentals of grammar proceeding to the reading of material of medium difficulty. The course does not satisfy any part of the undergraduate language requirement. Presupposes no previous study of Russian. LEC.

RUSS 101. Russian Reading Course II. 3 Hours U. 
A continuation of RUSS 100. Completion and review of the fundamentals of grammar, with emphasis on reading and translation of learned, scientific, or technical writing and other material of an advanced nature. Each student will also have special assignments in his or her particular field. This course does not satisfy any part of the undergraduate language requirement. Prerequisite: RUSS 100. LEC.

RUSS 104. Elementary Russian I. 5 Hours U / F1. 
First semester. Five hours of basic language acquisition and oral practice per week. Essentials of grammar, practice in comprehending, speaking, reading, and writing Russian. LEC.

RUSS 105. Elementary Russian I, Honors. 5 Hours U. 
Honors version of RUSS 104, with additional work aimed at accelerating students progress to proficiency and expanding their cultural competence. Prerequisite: Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

RUSS 108. Elementary Russian II. 5 Hours U / F2. 
Second semester. Five hours of basic language acquisition and oral practice per week. Essentials of grammar, practice in comprehending, speaking, reading, and writing Russian. A continuation of RUSS 104. Prerequisite: RUSS 104. LEC.
RUSS 109. Elementary Russian II, Honors. 5 Hours U.
A continuation of RUSS 105. Honors version of RUSS 108, with additional work aimed at accelerating students progress to proficiency and expanding their cultural competence. Prerequisite: RUSS 104 or RUSS 105. Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

RUSS 110. Intensive Elementary Russian. 10 Hours U / F1 / F2.
Intensive course in elementary Russian providing the student with a complete survey of Russian grammar, and proficiency in understanding, reading, and speaking basic Russian. Twenty contact hours per week. Same content as RUSS 104 and RUSS 108 combined. LEC.

RUSS 150. Beginning Russian I. 3 Hours U.
Fundamentals of Russian grammar, reading, speaking, and writing. Course designed to accommodate the needs of students regardless of age, educational background, or occupation. No previous knowledge of Russian or other foreign languages required. LEC.

RUSS 152. Beginning Russian II. 3 Hours U.
Continuation of RUSS 150. Does not fulfill BA foreign language requirement. Prerequisite: RUSS 150 or equivalent. LEC.

RUSS 177. First Year Seminar: _____, 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Russian. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

RUSS 204. Intermediate Russian I. 5 Hours U / F3.
This course is designed to develop speaking, reading, and listening proficiency within the context of a review of grammar. Prerequisite: RUSS 108, RUSS 110, or equivalent. LEC.

RUSS 205. Intermediate Russian I, Honors. 5 Hours U.
Honors version of RUSS 204 with additional work aimed at accelerating students progress to proficiency and expanding their cultural competence. Prerequisite: Open only to students who have received an A in RUSS 108 or an A or B in RUSS 109, and who are admitted to the University Honors Program, or by permission of instructor. LEC.

RUSS 208. Intermediate Russian II. 5 Hours U / F4.
Continuation of RUSS 204. Completes the undergraduate foreign language requirement. The course is designed to develop speaking, reading, and listening proficiency within the context of detailed grammatical review. Prerequisite: RUSS 204 or equivalent. LEC.

RUSS 209. Intermediate Russian II, Honors. 5 Hours U.
Honors version of RUSS 208, with additional work aimed at accelerating students progress to proficiency and expanding their cultural competence. Prerequisite: RUSS 204 or 205. Open only to students admitted to the University Honors Program, or by permission of instructor. LEC.

RUSS 212. Second Year Russian I. 3 Hours U / F3.
A review of Russian and further development of all four language skills. This course is intended for non-specialists and for students fulfilling the language requirement. Prerequisite: RUSS 108 or RUSS 110. LEC.

RUSS 216. Second Year Russian II. 3 Hours U / F4.
Continuation of RUSS 212. More focused development of students’ oral skills and reading abilities. This course fulfills the college foreign language requirement. Prerequisite: RUSS 204 or RUSS 212. LEC.

RUSS 250. Continuing Russian I. 3 Hours U.
Fundamentals of Russian grammar, reading, speaking, and writing. Course designed to accommodate the needs of students regardless of age, educational background, or occupation. Does not count towards the fulfillment of the undergraduate language requirement. Does not count towards the undergraduate major in Slavic. Prerequisite: RUSS 152 or equivalent. LEC.

RUSS 252. Continuing Russian II. 3 Hours U.
A continuation of RUSS 250. Does not count towards the fulfillment of the undergraduate language requirement. Does not count towards the undergraduate major in Slavic. Prerequisite: RUSS 250 or equivalent. LEC.

RUSS 504. Advanced Russian I. 3 Hours H/W / FP.
A practical Russian language course involving advanced study of the grammar, reading of texts on a variety of subjects, conversation, and composition. Taught in Russian. Designed for students who have had four semesters of Russian. Prerequisite: RUSS 208 or RUSS 216. LEC.

RUSS 508. Advanced Russian II. 3 Hours H/W / FP.
A practical Russian language course involving advanced study of the grammar, reading of texts on a variety of subjects, conversation, and composition. Taught in Russian. Designed for students who have had two and one-half or more years of Russian language. Prerequisite: RUSS 504. LEC.

RUSS 512. Russian for the Professions I. 3 Hours U / FP.
This course focuses on the active mastery of language structures and vocabulary needed for people using Russian in professional capacities, particularly such as business and journalism. Materials will be drawn from the current Russian press and electronic media. Designed for students who have had basic language training and want to develop specialized language skills. Prerequisite: RUSS 208 or RUSS 216. LEC.

RUSS 516. Russian for the Professions II. 3 Hours U / FP.
A continuation of RUSS 512. Prerequisite: RUSS 504, RUSS 512, or RUSS 522. LEC.

RUSS 522. Problems in Translating Russian into English I. 3 Hours H/W / FP.
Introduction to the process of translating texts from Russian, focusing on kinds of translation, lexical and textual factors, and the revision process. Prerequisite: Two years minimum of Russian language courses. LEC.

RUSS 526. Problems in Translating Russian into English II. 3 Hours H/W / FP.
A continuation of RUSS 522. LEC.

RUSS 550. Advanced Conversation, Composition, and Grammar in Russia: Summer Program. 6 Hours H/W / FP.
Held in Russia. Twenty-four hours of class work weekly, plus lectures and excursions, for six weeks at St. Petersburg University. Prerequisite: RUSS 208 or the equivalent of twenty-two hours of Russian language courses. LEC.

RUSS 552. Advanced Russian Language at Saint Petersburg University: Semester Program. 14 Hours H/W / FP.
Sixteen weeks of intensive Russian language and literature classes held at Saint Petersburg University, Russia. Classes in advanced phonetics, conversation, and grammar as well as lectures on literary and other cultural topics. Prerequisite: Minimum of five semesters of Russian language study at the college level or its equivalent. LEC.

RUSS 675. Readings in Russian. 1-6 Hours H/W / FP.
Prerequisite: Two years of Russian, and consent of instructor. IND.

RUSS 700. Classics of Russian Culture. 3 Hours.
This advanced Russian language class explores the monuments of Russian culture (1700-1980) in the context of the country’s history, customs, artistic traditions and literary trends. It is designed to develop reading, writing, and speaking skills of advanced language students and includes the preparation of written and oral reports in Russian.
Discussion format; conducted entirely in Russian. Prerequisite: RUSS 508 or equivalent. LEC.

RUSS 704. Contemporary Russian Culture. 3 Hours.
This advanced Russian language class explores issues in contemporary Russian culture (literature and the arts, societal trends and issues, politics, and national life) based on Russian film, television, and print materials. It is designed to develop reading, writing, and speaking skills of advanced language students who wish to develop high levels of fluency, accuracy, and idiomatic expressiveness. Includes the preparation of both written and oral reports. Discussion format; conducted entirely in Russian. Prerequisite: RUSS 508 or equivalent. LEC.

RUSS 708. Russian Phonetics and Grammar. 3 Hours.
A survey of fundamental issues in Russian phonetics, morphology, and syntax. The course will develop reading, writing, and speaking skills necessary for discussing and analyzing the major linguistic categories of Russian. Includes the preparation of both written and oral reports. Discussion format; conducted entirely in Russian. Prerequisite: RUSS 508 or equivalent. LEC.

RUSS 712. Introduction to Russian Literature. 3 Hours.
Readings for this advanced Russian language class will be drawn from representative prose, poetry, and drama of 19th or 20th century authors. The course will develop reading, writing, and speaking skills necessary for discussing and analyzing major literary works and trends in the Russian tradition. Includes the preparation of both written and oral reports. Discussion format; conducted entirely in Russian. Prerequisite: RUSS 508 or equivalent. LEC.

RUSS 716. Stylistics. 3 Hours.
Practical examination of the features of stylistic registers available in contemporary Russian, ranging from slang to colloquial speech to educated journalistic, scientific, and literary styles. The course will develop reading, writing, and speaking skills necessary for discussing and analyzing stylistic registers. Includes the preparation of both written and oral reports. Discussion format; conducted entirely in Russian. Prerequisite: RUSS 508 or equivalent. LEC.

Courses

SLAV 101. Introduction to Slovene. 1 Hour H.
Teaches skills for survival communication in Slovene and basic orientation in Slovene culture. Blended short course, designed to give a student rudimentary linguistic and cultural preparation for functioning in Slovene-speaking environment. Recommended for participants of study abroad in Slovenia. No previous knowledge of Slovene or other foreign languages required. The course does not count toward undergraduate language requirement. LEC.

SLAV 104. Elementary Slavic Language I: __, 5 Hours U / F1.
First semester. Essentials of grammar, practice in speaking and writing a Slavic language. Simple readings from selected texts. Course may be used to teach the fundamentals of any Slavic language, for example, Slovenian, Macedonian, Slovak, etc. LEC.

SLAV 108. Elementary Slavic Language II: __, 5 Hours U / F2.
Second semester. Essentials of grammar, practice in speaking and writing a Slavic language. A continuation of SLAV 104 in those languages whose fundamentals were being taught in SLAV 104. Prerequisite: SLAV 104 or equivalent (in same language). LEC.

SLAV 110. Introduction to the Peoples and Cultures of Kazakhstan Through Russian. 1 Hour U.
This 8-week course prepares students of all majors with little or no knowledge of Russian to function effectively in the experiential internship program in Almaty, Kazakhstan, with appropriate cultural sensitivity and survival Russian-language skills. The focus is basic grammar and key vocabulary terms of Russian (e.g., reading signs, menus; understanding key conversational phrases). Weekly readings treat the history, business culture, and language politics of Kazakhstan. LEC.

SLAV 140. Understanding Russia. 3 Hours HT AE42/GE3H / H/W.
An introduction to literature, history, political systems, spirituality, and the visual arts from a Russian perspective. LEC.

SLAV 141. Understanding Russia, Honors. 3 Hours HT AE42/GE3H / H/W.
An introduction to literature, history, political systems, spirituality, and the visual arts from a Russian perspective. LEC.

SLAV 144. Survey of Russian Literature in Translation. 3 Hours HL AE42/GE3H / H/W.
A survey of the principal works of Russian literature including such authors as Pushkin, Gogol, Dostoevsky, Tolstoy, Chekhov, Pasternak, Solzhenitsyn, and others. LEC.

SLAV 145. Survey of Russian Literature in Translation, Honors. 3 Hours HL AE42/GE3H / H/W.
A survey of the principal works of Russian literature including such authors as Pushkin, Gogol, Dostoevsky, Tolstoy, Chekhov, Pasternak, Solzhenitsyn, and others. LEC.

SLAV 148. Introduction to Slavic Folklore. 3 Hours HL AE42/GE3H / H/W.
An introduction to the various forms of folklore among the Slavic peoples, with particular emphasis on the folk literature, customs, and artifacts of Russia, Poland, and the South Slavic countries. LEC.

SLAV 149. Introduction to Slavic Folklore, Honors. 3 Hours HL AE42/GE3H / H/W.
An introduction to the various forms of folklore among the Slavic peoples, with particular emphasis on the folk literature, customs, and artifacts of Russia, Poland, and the South Slavic countries. LEC.

SLAV 152. Robots, Rockets, Radios: Progress and Technology in 20th-Century Slavic Literatures. 3 Hours HL.
This course introduces students to masterworks of literature written in response to the technological advances of the 20th century by some of the best authors in Czech, Polish, Russian, Ukrainian, and formerly Yugoslav literatures. The writers covered include Karel Capek, Yuri Olesha, Valerian Pidmohylny, Ivo Andric, Stanislav Lem, Vaclav Havel, and Oksana Zabuzhko. Literary readings are supplemented with screenings of several films from the region. The course analyzes the ideological contexts in which these texts appeared, such as Soviet communism’s dependence on technology and industrialization, post-World War II disillusionment with ideas of progress, and the Space Race. LEC.

SLAV 177. First Year Seminar: __, 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Slavic. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

SLAV 204. Intermediate Slavic Language I: __, 3 Hours U / F3.
Second-year level course in a Slavic language, for example, Slovenian, Macedonian, Slovak, with emphasis on reading, composition, and conversation. Prerequisite: SLAV 108 (in same language). LEC.

Second-year level course in a Slavic language, for example, Slovenian, Macedonian, Slovak, with emphasis on reading, composition, and
conversation. Prerequisite: SLAV 204 or equivalent (in same language).
LEC.

SLAV 230. The Vampire in Literature, Film, and Television. 3 Hours AE51 / H.
The vampire has been a fascinating and terrifying imagined other in human society for centuries. This course begins with the historical development of the vampire legend in Eastern Europe leading up to its contemporary Russian and English literary and cinematic variations. We will contextualize the various incarnations of the vampire and endeavor to consider the ethical significance of such a figure, through questions such as: What are the moral implications of becoming or being a vampire subject? Are there different ethical rules at play? Are vampires always unethical? LEC.

SLAV 305. Language, Gender, and Sexuality. 3 Hours GE3S / S.
How do people express gender in diverse languages around the world? In a globalized world in which English is increasingly prominent, how are other languages changing to account for both global and local shifts in gender norms and expectations? This course will examine gender, multilingualism and globalization using approaches of sociolinguistics, linguistic anthropology, and communication studies. We will explore such topics as gender, sexuality, and multilingualism; gendered language variants; gender norms, politeness, and globalization; nonbinary and trans identities encoded in languages around the world, including but not limited to gender pronouns; identity, body, and linguistic practices; and considerations of power, hegemony, and imperialism. (Same as ANTH 325, GIST 303, JWSH 305 and WGSS 325.) LEC.

SLAV 310. Modern Turkey: Culture and Society. 3 Hours AE42 / H/W.
As a country that is geographically in the middle of a strategic global region, a key NATO ally, a candidate for EU membership, and representing a mix of democratic traditions, military coups, and authoritarian leaders combined with periods of rapid and drastic socioeconomic transformation, for one reason or another, Turkey seems to always be a country under the spotlight. This course is designed to give an overview of Modern Turkey and familiarize the student with its history, society and culture. Topics to be covered include the early republican period, ethnic and religious minorities, religion and secularism, music, cuisine, women, gender and sexuality, religious and national holidays, cinema and TV, among others. The primary purpose of this course is to help students develop necessary analytical and interpretive skills to identify, compare, and analyze Turkish cultural practices, products and perspectives as they relate to basic social, political, and historical contexts. No background knowledge of Turkey or the Turkish language is required. (Same as GIST 310 and TURK 310.) LEC.

SLAV 316. The Peoples and Cultures of Southeastern Europe Through Film. 3 Hours HL AE42/GE3H / H.
This course presents an introduction to the study of the cultures of the South Slavs and other peoples of Southeastern Europe, combining background modules in geography, linguistic culture, history, folklore and contemporary cultural criticism with critical viewings of artistic films. The course serves as an introduction to humanistic inquiry about the peoples and cultures of Southeastern Europe. LEC.

SLAV 317. The Peoples and Cultures of Southeastern Europe Through Film, Honors. 3 Hours HL AE42/GE3H / H.
This course is similar in content to SLAV 316, but with an additional honors project. Prerequisite: Eligibility for or admission to the university Honors Program. LEC.

SLAV 318. Jews and Slavs in Eastern Europe. 3 Hours H.
Jews and Slavs have shared territory from the Middle Ages to the present day. The contact between these culturally and linguistically distinct groups have shaped many centuries of Eastern European history - from the extreme violence of the pogroms to long periods of peaceful coexistence and cooperation. “Jews and Slavs” examines the history and cultural geography of Slavic-Jewish contact from the perspectives of both groups. Through literature, film, journalism, and folklore, students learn about the profound influence Jews and Slavs have had on each other, the uneasy feelings that accompanied their interactions, and the creative and fascinating impact their interaction had on both cultures. (Same as JWSH 318.) LEC.

SLAV 320. Graphic Novels as Memory. 3 Hours GE21 / H.
This course examines the interaction between literature and memory, in particular how authors respond to major historical events and contribute to shaping the collective memory of those events. Students will read graphic novels inspired by memories of the Holocaust and Communism. Through the visual and textual mix of the graphic novel, we will consider the impact of historical upheavals on the lives of ordinary individuals, drawing connections to contemporary national and global socio-political problems. Students will write on these topics in a variety of academic and non-academic genres, including: journal, article summary, synthetic essay, analytical essay, and reflection essay/creative writing. (Same as GIST 321.) LEC.

SLAV 322. Soviet and Post-Soviet Russian Cinema. 3 Hours H.
A comprehensive introduction to Soviet cinema and its legacies in post-Soviet Russia. The course will examine what distinguished Soviet film industry from those in other countries and the ways in which it impacted the development of cinema worldwide. Films are analyzed both as artistic works (with attention to formal qualities, cinematic styles, and influences) and as documents that provide insight into the socio-political contexts of the times when they were made. We will also discuss influential contributions by Soviet filmmakers to our understanding of what makes film unique as an art form. The course is offered at the undergraduate and graduate level, with additional assignments at the graduate level. (Same as FMS 322.) LEC.

SLAV 330. Russian Business Culture. 3 Hours H.
The course examines how geography, history, and traditions of Russia impact its contemporary business practices. It addresses influence of Russian culture on business communication (verbal and nonverbal), relationship building, the role of manager, the functioning of teams, negotiation, and decision making. Topics also include cultural aspects of relationship between businesses and the state, entrepreneurialism, advertising, and consumerism. Students examine business practices that foreign businessmen encounter in Russia. LEC.

SLAV 340. The Language Landscape of Eastern Europe. 3 Hours HT AE42/GE3H / H.
Topics include current events, such as the resurgence of ethnonationalism, in which language and identity projects are aided by the internet and social media as well as case studies of emergent language-based nations. Students will gain an appreciation of the key role that languages play in creating a diverse Eastern Europe. This course will help prepare students for careers in international business, diplomacy, and politics, among others. This course is offered at the 300 and 500 level with additional assignments as the 500 level. Not open to students with credit in SLAV 341 or SLAV 540. LEC.

SLAV 341. The Language Landscape of Eastern Europe, Honors. 3 Hours HT AE42/GE3H / H.
Topics include current events, such as the resurgence of ethnonationalism, in which language and identity projects are aided by the internet and social media as well as case studies of emergent language-based nations. Students will gain an appreciation of the key role that languages play in creating a diverse Eastern Europe. This course will help prepare students for careers in international business, diplomacy, and
In addition to contemporary and historical background on Russian politics, among others. This course is offered at the 300 and 500 level with additional assignments as the 500 level. Not open to students with credit in SLAV 340 or SLAV 540. Prerequisite: Membership in the College Honors Program or consent of instructor. LEC.

SLAV 370. War and Violence Russian Literature and Film. 3 Hours GE3H / H.
This course focuses on artistic representations of violence resulting from historical events such as World War II, Soviet collectivization, the Gulag, and political purges. We consider Soviet literature and film, including works by Isaac Babel, Andrei Platonov, Anna Akhmatova, and Alexander Solzhenitsyn. Readings in English. The course is offered at the 300 and 500 levels, with additional assignments at the 500 level. LEC.

SLAV 379. Topics in: _____. 1-3 Hours H.
Exploration of Slavic cultural forms such as literature, film, linguistics, arts, and press. Topics vary, and course may address topics across a narrow or broad time frame. May be repeated if content varies. LEC.

SLAV 390. Slavic Folk Culture: _____. 3 Hours H/W.
A broad exposure, both theoretical and practical, to various aspects of the traditional native culture of a particular Slavic country or ethnic group, including folk dance, song and musicianship, as well as forms of the material culture such as folk architecture, costumes and art in everyday life. Taught in the pertinent Slavic country in conjunction with the appropriate language course. LEC.

SLAV 494. Research Internship. 1-3 Hours H.
Practical research experience in Slavic Studies gained by assisting a faculty member on a faculty research, editorial, pedagogical, or digital project. Credit hours are graded by faculty on a satisfactory/unsatisfactory basis. Prerequisite: Declaration of a Slavic Languages and Literatures major and permission of instructor. INT.

SLAV 495. Senior Capstone Seminar. 3 Hours AE61 / H.
The Senior Capstone Seminar offers undergraduate majors an opportunity to define, design and execute a substantial research/creative project under the mentorship of a faculty member. The project integrates the knowledge and skills gained in the coursework for the major and across the undergraduate curriculum, and demonstrates the students competence in the field of Slavic studies. Prerequisite: Slavic major status, senior standing. LEC.

SLAV 499. Honors Thesis. 3 Hours H/W.
Independent study and preparation of honors thesis. Required of all students working for a degree with honors in Slavic languages and literatures. IND.

SLAV 500. Russia Today. 3 Hours H/W.
Study and discussion of contemporary problems in Russia and the former Soviet Union; readings in Russian, based on articles in newspapers, journals, etc. Conducted in Russian. Prerequisite: RUSS 208 or equivalent. LEC.

SLAV 502. Introduction to Russian Culture and Society: _____. 3 Hours H/W.
An interdisciplinary course introducing the student to the principal features of Russian cultural and societal development in the modern era. Readings in English, no prerequisite for non-Russian majors. Majors and graduate students in Slavic languages and literatures will be required to do readings in Russian. LEC.

SLAV 503. Post-Soviet Communication. 3 Hours H.
The course is designed to acquaint students with the shifting manner of public discourse in Post-Soviet Russia and help them to explore in some depth cross-cultural communication between America and Russia. In addition to contemporary and historical background on Russian communicative practices, students examine discourse in business development, mass media, marketing, and advertising. All readings in English. (Same as COMS 503). LEC.

SLAV 504. Introduction to East-Central European Culture and Society: _____. 3 Hours H/W.
An interdisciplinary course introducing the student to the principal features of East-Central European cultural and societal development in the modern era. Countries that may be considered are: Poland, the Czech Republic, Slovakia, Hungary, Romania, Bulgaria, the South Slavic countries, Latvia, Lithuania, Estonia, Belorussia, and Ukraine. LEC.

SLAV 505. Introduction to Czech Culture. 3 Hours H.
This study-abroad trip offers a survey of Czech art, architecture, literature, theater, and film from the medieval period to the present with emphasis on the late 19th and 20th centuries. Combines 18 hours of lectures on campus and a ten-day trip to Prague. LEC.

SLAV 506. Masterworks of Polish and Czech Literature. 3 Hours H/W.
A survey of West Slavic Literature and Civilization (Polish and Czech) from its beginnings to the present with emphasis on the most important trends: Renaissance, Romanticism, Positivism/Realism, Modernism and Avant-guard; Socialist realism, and Post-modernism. The course combines lecture, discussion and small group activities. Movie clips, recordings, and slides are used to reflect various cultural dimensions of West Slavic Civilization. No knowledge of Polish or Czech is required. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 706. Prerequisite: Any previous course in SLAV or RUSS. LEC.

SLAV 508. South Slavic Literature and Civilization. 3 Hours NW AE42 / H/W.
An introductory survey of the literature and culture of the South Slavic peoples: the Slovenes, Croats, Bosnians, Serbs, Montenegrins, Macedonians and Bulgarians. No language required. LEC.

SLAV 510. The Russian Literary Genius. 3 Hours H/W.
Topics and problems in Russian cultural history as treated in the masterworks of Russian literature. Readings selected from the works of Pushkin, Tolstoy, Dostoevsky, Pasternak, Bulgakov, Solzhenitsyn, and other great Russian writers. Readings in English, no prerequisite for non-Russian majors. Russian majors will do some of the readings in Russian. LEC.

SLAV 512. The Russian Novel and Digital Humanities: _____. 3 Hours.
The Russian literary canon has often been used to center meaning around the two capitals (Moscow and St. Petersburg). In this class we rely on several DH visualization tools to challenge conventional views of the canon and foreground Russia's regions. This course follows the lead of scholarly endeavors in the field and is the first in a series of attempts to reconceptualize Russia in a decentering way through the Digital Humanities. Prerequisite: Two years of Russian language at the university level or permission of instructor. LEC.

SLAV 514. Totalitarianism and Literature in Central Europe. 3 Hours H.
This course asks how fiction written in Central Europe engaged and grappled with the totalitarian experience imposed by Nazi and Soviet forms of government. The course focuses on the works by 20th-century Polish, Czech, and Hungarian writers that deal with totalitarianism. (Same as HUM 514.) LEC.

SLAV 516. Love, Lust and Liberty: Polish and Czech Film Adaptations. 3 Hours H.
A comparative study of several most representative and best works of 19th- and 20th-century Polish and Czech fiction and drama and their film
adaptations. By providing a broad cultural and historical background of the works, the course offers a thorough introduction to modern culture of Poland and the Czech Republic. Readings and discussions are in English, and no knowledge of Polish or Czech is required. LEC.

SLAV 520. Russian Phonetics, Phonology, and Inflectional Morphology. 3 Hours H/W.
An analysis of the phonological and morphological systems of contemporary standard Russian, including normative and dialectal pronunciation of sound speech, phonemes, morphophonemic alterations, and nominal and verbal inflections. Graduate students enrolled in this course will be held to a more stringent curriculum and grading system. Prerequisite: Two years of Russian language study or the equivalent. LEC.

SLAV 522. The Grammatical Categories of Russian: Linguistic Units, Functions and Meanings. 3 Hours H/W.
This course covers the main grammatical categories of Russian, including word formation, case, animacy, voice and reflexive verbs, imperatives, aspect, and word order. It is intended not only for linguists but anyone seeking a better understanding of the grammatical systems of Russian. Designed as a continuation of SLAV 520. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 722. Prerequisite: Two years of Russian language study or the equivalent. LEC.

SLAV 524. Russian Since the Revolution. 3 Hours H/W.
An examination of changes in the Russian language during the course of this century. Topics covered include changes in pronunciation, morphological and syntactic variation, and the impact of foreign borrowings, particularly from English. Graduate students enrolled in this course will be held to a more stringent curriculum and grading system. Prerequisite: Two years of Russian language study or the equivalent. LEC.

SLAV 526. The Pragmatics of Slavic Languages. 3 Hours H.
This course introduces students to the study pragmatics: the relationship between utterances, the contexts in which these utterances were produced, and their reception and interpretation by the speakers. It investigates how grammatical choices on the sentence level (such as case, aspect, impersonalization, and more) affect and are influenced by the context in which utterances are produced, and how social variables such as gender, age, peer pressure, institutional power, and other factors are influential in production and interpretation of meaning. Other topics include extra-linguistic elements such as gesture and prosody, (im)politeness expressions, the pragmatics of narratives, and cross-cultural differences in contexts and reception of specific speech genres. Prerequisite: RUSS 508 or consent of instructor. LEC.

SLAV 528. Comparative Study of Slavic Literatures. 3 Hours H/W.
The course is intended as an introduction to the most significant writers and works in Slavic literatures. The emphasis will be on some of the themes and ideological concepts that have shaped the literatures of the Slavic world. Representative works of Turgenev, Dostoevsky, Mrozek, Rozewicz, Capek, Hasek, Dijilas, Havel, Ivo Andric and others, will be studied. The diversity of expression and, at the same time, homogeneity of spirit in the works of these writers will be stressed. No knowledge of Slavic languages is required. LEC.

SLAV 530. Introduction to Russian Poetry. 3 Hours H/W.
An introduction to the principles of Russian versification and to masterpieces of Russian poetry selected from the 18th, 19th, and 20th centuries. Students will learn to read, translate, and analyze poems in terms of rhyme, meter, euphony, metaphor, and other prosodic features. Emphasis will be placed upon preparing students for independent study and appreciation of Russian poetry in the original. Prerequisite: Language proficiency. LEC.

SLAV 532. Dostoevsky. 3 Hours H/W.
A study of the life and works of Fyodor Dostoevsky. In translation. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 732. Prerequisite: Any previous course in SLAV or RUSS. LEC.

SLAV 534. Tolstoy. 3 Hours H/W.
A study of the life and works of Leo Tolstoy. In translation. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 734. Prerequisite: Any previous course in SLAV or RUSS. LEC.

SLAV 536. Turgenev. 3 Hours H/W.
A study of the life and works of Ivan Turgenev. In translation; however, note that Russian majors will be required to read selected works in Russian. LEC.

SLAV 538. The Modern Polish Short Story. 3 Hours H/W.
A study of the development of the Polish short story from Positivism to the present. Readings of major Polish writers including Prus, Sienkiewicz, Schulz, Borowski, Andrzezewski, and others. Emphasis on trends in the Polish short story within the context of West European literatures. No prerequisites. Readings in English. Students with knowledge of Polish will read some works in Polish. LEC.

SLAV 540. The Language Landscape of Eastern Europe. 3 Hours H.
Topics include current events, such as the resurgence of ethnonationalism, in which language and identity projects are aided by the internet and social media as well as case studies of emergent language-based nations. Students will gain an appreciation of the key role that languages play in creating a diverse Eastern Europe. This course will help prepare students for careers in international business, diplomacy, and politics, among others. This course is offered at the 300 and 500 level with additional assignments as the 500 level. Not open to students with credit in SLAV 340 or SLAV 341. LEC.

SLAV 550. The Russian Novel in the Age of Realism. 3 Hours H/W.
This course traces the evolution of the Russian novel from its beginnings with Pushkin and through the novels of Turgenev, Goncharov, Dostoevsky, Tolstoy, and others. In translation. Russian majors will read most works in Russian. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 760. Prerequisite: Two years of Russian language or consent of the instructor. LEC.

SLAV 558. Readings in Slovene. 1-6 Hours H.
Individually tailored coursework in Slovene, from beginning to advanced level. Can include development of all four skills depending on the needs of the student. Prerequisite: Consent of instructor. IND.

SLAV 560. Introduction to Slavic Language: ______. 3 Hours H/W.
Basic introduction to the language, with emphasis on grammar and reading skills. Prerequisite: Two years of a different Slavic language at the college level. LEC.

SLAV 561. Readings in Slavic Language: ______. 1-6 Hours H/W.
A course of readings and discussion of grammar in a Slavic language as a continuation of SLAV 560, for example, in Bulgarian, Macedonian, etc. Prerequisite: SLAV 560 or the equivalent. LEC.

SLAV 564. The "Woman Question" in Nineteenth-Century Russian Literature. 3 Hours H.
An exploration of the "woman question" in nineteenth-century Russia as treated in literary texts. Authors to be included are: Tolstoy, Turgenev, Dostoevsky, Chekhov, as well as women writers such as Karolina Pavlova.
and Evgenia Tur, and prominent literary and social critics. Readings in English. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 764. Prerequisite: Any previous course in SLAV or RUSS. LEC.

**SLAV 566. The Devil in Russian Literature. 3 Hours H.**
This course traces the various manifestations of the Devil through Russian and European folklore, myth, theology, culture, and literature. Although the focus is on Russian literature, classic European works are discussed, as they had a powerful impact on the modern Russian Conception of the Evil One. Readings in English. (Same as HUM 566.) LEC.

**SLAV 567. Post-Soviet Literature. 3 Hours H.**
A survey of post-Soviet literary art, from approximately 1985 to the present, dealing with a range of subjects including the emergence of literature from the strictures of socialist realism and its relationship to concepts of postmodernity and postcolonialism. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 767. Prerequisite: Any previous course in SLAV or RUSS. LEC.

**SLAV 568. Biblical Themes in Modern Russian Literature. 3 Hours H.**
An exploration of the creative process of modern Russian literature (1700 to present) through the ways in which Russian writers have responded to the Bible, the cornerstone of both Western and Eastern Christianity. LEC.

**SLAV 570. War and Violence Russian Literature and Film. 3 Hours GE3H / H.**
This course focuses on artistic representations of violence resulting from historical events such as World War II, Soviet collectivization, and political purges. We consider Soviet literature and film, including works by Isaac Babel, Andrei Platonov, Anna Akhmatova, and Alexander Solzhenitsyn. Readings in English. The course is offered at the 300 and 500 levels, with additional assignments at the 500 level. LEC.

**SLAV 572. Russian and East European Science Fiction. 3 Hours H.**
A comprehensive introduction to Russian, Soviet, and East European science fiction as it emerged in dialogue with utopian thinking, fantasy writing, and other cultural trends, and to how it responded to wider social contexts. Particular emphasis will be placed on the unique features of the Slavic science fiction tradition and its relationship to the dominant Western forms of the genre. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 772. Prerequisite: Any previous course in SLAV or RUSS. LEC.

**SLAV 600. Biography of a City: ______, 3 Hours H/W.**
Examination in depth of the historical, social, intellectual, and artistic development of one or more major Slavic urban centers. LEC.

**SLAV 612. Introduction to Russian Literature of the Nineteenth Century. 3 Hours H/W.**
Pushkin, Dostoevsky, Tolstoy, and others with an introduction to Russian culture. Lectures and readings in Russian. Prerequisite: Three years of Russian language study or its equivalent. LEC.

**SLAV 614. Russian Literature in Translation: ______, 3 Hours H/W.**
A survey of the principal Russian authors and literary works of the 19th and/or 20th century. Readings in English, no prerequisites for non-Russian majors. Students with a sound knowledge of Russian will be expected to do some of the readings in Russian. LEC.

**SLAV 616. Introduction to Russian Literature of the Twentieth Century. 3 Hours H/W.**
A survey of recent Russian and Soviet literature. Lectures and readings in Russian. Prerequisite: Three years of Russian language study or its equivalent. LEC.

**SLAV 626. The Cultural Impact of Ottoman Empire on the South Slavs. 3 Hours H.**
An examination of the cultural development of the South Slavs in the context of the Ottoman invasions and subsequent rule (14th-19th century), focusing on the frontier aspects of the Balkans, military culture, religion, economics and banditry, as well as other aspects of material and folk culture. No language requirement. Prerequisite: SLAV 316 or SLAV 508; or consent of instructor. LEC.

**SLAV 630. Slavic Folklore. 3 Hours H/W.**
Introduction to the phenomena and problems of Slavic folklore. Prerequisite: Two years of Russian on the college level. LEC.

**SLAV 642. Pushkin and Evgenij Onegin. 3 Hours H/W.**
Lectures, reading, and analysis of Pushkin's "novel in verse." Prerequisite: Three years of Russian language courses or the equivalent. LEC.

**SLAV 650. The Russian Short Story. 3 Hours H/W.**
Readings from the short stories of major Russian writers of the 19th and/or 20th centuries, e.g., Pushkin, Gogol, Dostoevsky, Turgeniev, Tolstoy, Chekhov; readings and discussion in English for non-Russian majors. Russian majors will be expected to read most stories in Russian. Prerequisite: None for non-majors in the department; two years of college-level Russian for majors. LEC.

**SLAV 656. Russian Literature of the Eighteenth Century. 3 Hours H/W.**
Readings from Kantemir, Trediakovsky, Lomonosov, Derzhavin, Karamzin, and others in their literary and intellectual contexts. Readings in Russian. Prerequisite: Three years of Russian language study or its equivalent. LEC.

**SLAV 662. Russian Literary Modernism: 1880-1930. 3 Hours H/W.**
Readings from late Tolstoy through the period of the 1920's. In translation; no prerequisites for non-Russian majors. Russian majors will be required to have achieved senior standing and will read most works in Russian. LEC.

**SLAV 664. Soviet Russian Literature: 1930-1990. 3 Hours H/W.**
Readings in the period, in all genres. In translation; no prerequisite for non-Russian majors. Russian majors are required to have senior standing and read most works in Russian. LEC.

**SLAV 668. Nabokov. 3 Hours H/W.**
A study of the life and works of Vladimir Nabokov. In translation. No prerequisite. LEC.

**SLAV 675. Readings in Slavic Studies (English). 1-3 Hours H.**
Directed readings on Slavic culture in English. For non-majors. Prerequisite: Instructor permission. IND.

**SLAV 678. Readings in Slavic Linguistics. 1-6 Hours H/W.**
Directed individual readings on various topics concerning Slavic linguistics. Prerequisite: Proficiency in at least one Slavic language, and consent of instructor. IND.

**SLAV 679. Topics in: ______, 1-6 Hours H.**
Intensive study of a selected topic from Slavic languages, literatures, linguistics, or pedagogy. IND.

**SLAV 684. Main Currents of Russian Thought I. 3 Hours H/W.**
A study of philosophical, theological, and literary monuments designed to acquaint the student with main cultural forces that have shaped Russian thought and manners. From the origins to Peter the Great. (Same as PHIL 684.) LEC.

**SLAV 686. Main Currents of Russian Thought II. 3 Hours H/W.**
A continuation of SLAV 684. From the age of Peter the Great to revolutions of 1917. (Same as PHIL 686.) LEC.
SLAV 706. Masterworks of Polish and Czech Literature. 3 Hours.
A survey of West Slavic Literature and Civilization (Polish and Czech) from its beginnings to the present with emphasis on the most important trends: Renaissance, Romanticism, Positivism/Realism, Modernism and Avant-guard; Socialist realism, and Post-modernism. The course combines lecture, discussion and small group activities. Movie clips, recordings, and slides are used to reflect various cultural dimensions of West Slavic Civilization. No knowledge of Polish or Czech is required. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 506. LEC.

SLAV 710. Introduction to Slavic Languages and Linguistics. 3 Hours.
The Slavic languages and peoples, including briefly: their origin, prehistory, and early culture. Basic linguistic methodology as applied to Slavic material from the beginnings of Slavic linguistics to the present. LEC.

SLAV 711. Russian Poetry: Nineteenth Century. 3 Hours.
Readings from the works of the major poets, in Russian. Prerequisite: Three years of Russian language study or the equivalent. LEC.

SLAV 712. Russian Poetry: Twentieth Century. 3 Hours.
Readings from the works of the major poets, in Russian. Prerequisite: Language proficiency. LEC.

SLAV 714. Russian Theatre and Drama to 1900. 3 Hours.
A study of the development of Russian theatre and dramatic literature from its beginnings to 1900. Readings in English. Students with knowledge of Russian will read some works in Russian. LEC.

SLAV 715. Russian Drama and Theatre 1953 to the Present. 3 Hours.
A study of the development of Russian theatre and dramatic literature from 1953 to the present. Readings in English. Students with knowledge of Russian will read some works in Russian. LEC.

SLAV 716. History of Russian Literary Criticism: Late Eighteenth and Nineteenth Century. 3 Hours.
A study of the various literary periods, such as sentimentalism, romanticism, naturalism, realism, with particular reference to individual literary critics and critical journals. LEC.

SLAV 719. Philosophical and Aesthetic Thought of the Russian Silver Age. 3 Hours.
A survey of the works of Solovyov, Florensky, Berdyaev, Merezhkovsky, Ivanov, and others, and their relation to the literature and culture of the Silver Age. LEC.

SLAV 721. Pushkin. 3 Hours.
A study of the life and works of Alexander Pushkin. Readings in Russian, open to senior Russian majors and graduate students. Prerequisite: Three years of Russian or the equivalent. LEC.

SLAV 722. The Grammatical Categories of Russian: Linguistic Units, Functions and Meanings. 3 Hours.
This course covers the main grammatical categories of Russian, including word formation, case, animacy, voice and reflexive verbs, imperatives, aspect, and word order. It is intended not only for linguists but anyone seeking a better understanding of the grammatical systems of Russian. Designed as a continuation of SLAV 520. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 522. Prerequisite: Two years of Russian language study or the equivalent. LEC.

SLAV 723. Soviet and Post-Soviet Russian Cinema. 3 Hours.
A comprehensive introduction to Soviet cinema and its legacies in post-Soviet Russia. The course will examine what distinguished Soviet film industry from those in other countries and the ways in which it impacted the development of cinema worldwide. Films are analyzed both as artistic works (with attention to formal qualities, cinematic styles, and influences) and as documents that provide insight into the socio-political contexts of the times when they were made. We will also discuss influential contributions by Soviet filmmakers to our understanding of what makes film unique as an art form. The course is offered at the undergraduate and graduate level, with additional assignments at the graduate level. Not open to students with credit in SLAV 322/FMS 322. (Same as FMS 722.) Prerequisite: Graduate standing or instructor permission. LEC.

SLAV 726. Chekhov. 3 Hours.
A study of the life and works of Anton Chekhov. Open to senior Russian majors and graduate students. Readings in Russian. Prerequisite: Three years of Russian or the equivalent. LEC.

SLAV 727. Bely and Blok. 3 Hours.
A study of the life and works of the Symbolist writers, Andrei Bely and Aleksandr Blok. Readings in Russian. LEC.

SLAV 728. 19th Century Russian Prose. 3 Hours.
Readings from the works of Turgenev, Chekhov, Leskov, Saltykov, and others. Readings and discussion in English. Russian majors will be expected to read some works in Russian. No prerequisite. LEC.

SLAV 730. Russian Emigre Literature. 3 Hours.
A study of representative works in all genres, by Russian emigre writers. Readings in English. LEC.

SLAV 732. Dostoevsky. 3 Hours.
A study of the life and works of Fyodor Dostoevsky. In translation. No prerequisite. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 532. LEC.

SLAV 734. Tolstoy. 3 Hours.
A study of the life and works of Leo Tolstoy. In translation. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 534. LEC.

SLAV 740. Introduction to Graduate Studies in Slavic Languages and Literatures. 3 Hours.
This course is an introduction to the skills required of students doing graduate degrees in Slavic languages and literatures; areas covered include 1) introduction to literary theory and criticism, 2) bibliography and research methods, including database management software, 3) preparation and presentations of a research/conference paper, 4) technology training, including web design, on-line portfolio, and digital humanities, and 5) professional ethics and awareness of the academic market and alternative careers. We will also be working on practical, professionally useful goals, such as how to (better) make use of technology, how to create a CV and modify it for different positions, how to write an abstract, and how to produce a conference paper. Course requirements will include a variety of smaller assignments and two larger projects, a web-based professional portfolio and an 8 to 10-page conference paper. LEC.

SLAV 748. Old Church Slavic. 3 Hours.
A course in the first written language of the Slavs (9-12th centuries AD), with discussion of Indo-European, Baltic and Common Slavic background. Prerequisite: Two years of Russian or the study of another ancient Indo-European language. LEC.

SLAV 750. Introduction to Russian Historical Grammar. 3 Hours.
The linguistic history of Russian from the emergence of East Slavic dialects of Common Slavic to the modern period, with emphasis on fundamental structural changes and the introduction of skills necessary
for the reading and analysis of Old and Middle Russian texts. Prerequisite: Three years of Russian or the equivalent. LEC.

SLAV 752. Old Russian Grammar and Texts. 3 Hours.
An examination of the Russian language from its beginnings to the 17th century through close reading of Old and Middle Russian texts and reading and discussion of the literature on issues in Russian historical linguistics. Prerequisite: SLAV 748, SLAV 750, or equivalent. LEC.

SLAV 754. Seminar in Slavic Verbal Aspect. 3 Hours.
A detailed examination of the morphology and usage of verbal aspect in Russian and other Slavic languages, which is a particularly troublesome area for foreign learners of Russian. Prerequisite: SLAV 522. SEM.

SLAV 756. Structure of Russian: ______. 3 Hours.
Synthetic study of the contemporary Russian language with special emphasis on problems of functional morphology and syntax. Prerequisite: Three years of Russian language study or its equivalent. LEC.

SLAV 760. The Russian Novel in the Age of Realism. 3 Hours.
This course traces the evolution of the Russian novel from its beginnings with Pushkin and through the novels of Turgenev, Goncharov, Dostoevsky, Tolstoy, and others. In translation. Russian majors will read most works in Russian. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 550. Prerequisite: Two years of Russian language or consent of the instructor. LEC.

SLAV 762. Russian Theatre and Drama from Stanislavski and Chekhov to the Present. 3 Hours.
A study of the development of Russian theatre and dramatic literature from 1898 to the present. Lectures and readings in English. (Same as THR 725.) LEC.

SLAV 764. The Woman Question in Nineteenth-Century Russian Literature. 3 Hours.
An exploration of the "woman question" in nineteenth-century Russia as treated in literary texts. Authors to be included are: Tolstoy, Turgenev, Dostoevsky, Chekhov, as well as women writers such as Karolina Pavlova and Evgenia Tur, and prominent literary and social critics. Readings in English. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 550. Prerequisite: Two years of Russian language or consent of the instructor. LEC.

SLAV 766. Post-Soviet Literature. 3 Hours.
An examination of the development of Russian theatre and dramatic literature from 1898 to the present. Lectures and readings in English. (Same as THR 725.) LEC.

SLAV 772. Russian and East European Science Fiction. 3 Hours.
A comprehensive introduction to Russian, Soviet, and East European science fiction as it emerged in dialogue with utopian thinking, fantasy writing, and other cultural trends, and to how it responded to wider social contexts. Particular emphasis will be placed on the unique features of the Slavic science fiction tradition and its relationship the dominant Western forms of the genre. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in SLAV 572. LEC.

SLAV 799. M.A. Seminar in Slavic Linguistics. 3 Hours.
Topics in Slavic linguistics. Content will vary. May be repeated. LEC.

SLAV 802. Thesis. 1-6 Hours.
THE.
SLAV 899. Ph.D. Seminar Slavic Linguistics. 3 Hours.
Topics in Slavic linguistics. Content will vary. May be repeated. Prerequisite: Ph.D. student in Slavic Languages and Literatures. LEC.

SLAV 912. Seminar: Topics in Contemporary Slavic Linguistics. 3 Hours.
Synchronic examination of specific topics, i.e., phonology, morphology, syntax, and lexicology of several Slavic languages. LEC.

SLAV 914. Seminar: Topics in Historical Slavic Linguistics. 3 Hours.
Diachronic examination of selected topics, i.e., phonology, morphology, syntax, or lexicology, of one or more Slavic languages. LEC.

SLAV 917. Seminar in Russian Culture and Society. 3 Hours.
Examination of selected topics in Russian cultural history, especially as treated in the works of Russian literature and intellectual history. Prerequisite: At least one course in Russian history, or one of the following courses—SLAV 502, SLAV 510, SLAV 684, SLAV 686, plus graduate standing. LEC.

SLAV 932. Seminar: Topics in Slavic Folklore. 3 Hours.
Investigation and concentrated study of one or more themes (e.g., mythology, demonology, life rituals, folklore and literature), figures (e.g., Baba Yaga), or genres (e.g., magic tales, byliny, riddles) of Slavic folklore. All readings in Russian. Prerequisite: SLAV 630. SEM.

SLAV 940. Seminar: Topics in Comparative Slavic Literature. 3 Hours.
Prerequisite: Graduate standing in Slavic Languages and Literatures. LEC.

SLAV 999. Dissertation. 1-9 Hours.
Dissertation Hours. Graded on a satisfactory progress/limited progress/no progress basis. THE.

Courses

TURK 104. Elementary Turkish I. 5 Hours U / F1.
Basic language acquisition, including essentials of grammar, speaking, and writing standard (Osmanli) Turkish. LEC.

TURK 108. Elementary Turkish II. 5 Hours U / F2.
Continuation of TURK 104. Prerequisite: TURK 104. LEC.

TURK 177. First Year Seminar: ____, 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Turkish. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

TURK 204. Intermediate Turkish I. 3 Hours U / F3.
Second-year course in Turkish language with emphasis on reading, composition, and conversation. Prerequisite: TURK 108. LEC.

TURK 208. Intermediate Turkish II. 3 Hours U / F4.
Continuation of TURK 204. Prerequisite: TURK 204. LEC.

TURK 310. Modern Turkey: Culture and Society. 3 Hours AE42 / H/W.
As a country that is geographically in the middle of a strategic global region, a key NATO ally, a candidate for EU membership, and representing a mix of democratic traditions, military coups, and authoritarian leaders combined with periods of rapid and drastic socioeconomic transformation, for one reason or another, Turkey seems to always be a country under the spotlight. This course is designed to give an overview of Modern Turkey and familiarize the student with its history, society and culture. Topics to be covered include the early republican period, ethnic and religious minorities, religion and secularism, music, cuisine, women, gender and sexuality, religious and national holidays, cinema and TV, among others. The primary purpose of this course is to help students develop necessary analytical and interpretive skills to identify, compare, and analyze Turkish cultural practices, products and perspectives as they relate to basic social, political, and historical contexts. No background knowledge of Turkey or the Turkish language is required. (Same as GIST 310 and SLAV 310.) LEC.

TURK 314. Turkish Culture Through Film and Literature. 3 Hours H.
This course introduces the student to Turkish culture, with a focus on the 20th and 21st centuries, mainly through films and literature. Among the topics are Turkey's geography, politics, history, religion, feminism, poetry, music and cuisine. This interdisciplinary course does not require any previous knowledge of Turkey or the Turkish Language; it is open to both undergraduate and graduate students. Representative works of major authors and film directors will be discussed and analyzed in their historical, political and theoretical contexts. The course is offered at the 300 and 500 levels, with additional assignments at the 500-level. Prerequisite: REES 550 or permission of instructor. LEC.

TURK 675. Readings in Turkish: ____. 3 Hours U / FP.
Prerequisite: Two years of college-level Turkish and consent of instructor. May be repeated for credit if content varies. IND.

Courses

UKRA 104. Elementary Ukrainian I. 5 Hours U / F1.
First semester. Five hours per week of recitation and drill in the spoken language. Essentials of grammar, practice reading, writing and speaking Ukrainian. LEC.

UKRA 108. Elementary Ukrainian II. 5 Hours U / F2.
Second semester. Continuation of UKRA 104. Prerequisite: UKRA 104. LEC.

UKRA 177. First Year Seminar: ____, 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Ukrainian. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

UKRA 204. Intermediate Ukrainian I. 3 Hours U / F3.
Second year course in Ukrainian language with emphasis on reading, composition, and conversation. Prerequisite: UKRA 108. LEC.

UKRA 208. Intermediate Ukrainian II. 3 Hours U / F4.
Second semester. Continuation of UKRA 204. Prerequisite: UKRA 204. LEC.

UKRA 504. Advanced Ukrainian I. 3 Hours H.
This is a practical Ukrainian language course that will help students acquire advanced-level proficiency in the skills of speaking, reading, writing, and listening. Cultural understanding and pragmatic competence are given special emphasis. Taught in Ukrainian. Designed for students who have had two or more years of Ukrainian language. Prerequisite: UKRA 208 or consent of instructor. LEC.
UKRA 508. Advanced Ukrainian II. 3 Hours H.
This is a practical Ukrainian language course that will help students acquire advanced-level proficiency in the skills of speaking, reading, writing, and listening. Cultural understanding and pragmatic competence are given special emphasis. Taught in Ukrainian. Designed for students who have had two-and-a-half or more years of Ukrainian language. Prerequisite: UKRA 504 or consent of instructor. LEC.

UKRA 512. Intensive Ukrainian Language and Culture I. 3 Hours U / FP.
A practical Ukrainian language course involving advanced study of the grammar, conversation, composition. Reading of texts on a variety of subjects (culture, literature, history, folklore etc.), taught in Ukrainian. Prerequisite: Three years of a Slavic language or permission of instructor. LEC.

UKRA 516. Intensive Ukrainian Language and Culture II. 3 Hours U / FP.
A practical Ukrainian language course involving advanced study of the grammar, conversation, composition. Reading of texts on a variety of subjects (culture, literature, history, folklore etc.), taught in Ukrainian. Prerequisite: Three years of a Slavic language or permission of instructor. LEC.

UKRA 675. Readings in Ukrainian Language. 1-6 Hours H / FP.
Directed individual readings on various topics concerning the Ukrainian language. Prerequisite: Two years of Ukrainian. IND.

Bachelor of Arts in Slavic Languages and Literatures

Why study Slavic languages and literatures?

If you have turned on a TV set or logged on Twitter lately, you probably have seen a news item on Russia or Ukraine, not to mention countries like Turkey and Iran. From Russian, Polish, Ukrainian, to Bosnian/Croatian/Montenegrin/Serbian (BCMS), to Czech, Turkish, Persian/Tajik/Dar/Farsi, to Yiddish, our department offers only critical languages. In fact, the US government classifies these languages as critical (https://www.nsep.gov/content/critical-languages/) for national security interests, and there are a number of federal scholarships that you can apply for to study them.

Think about how Russia has become a power player even in just US politics the last few years through hacking or other cybersecurity threats. With the end of the Cold War, the study of languages like Russian has considerably decreased in the US, and as this language has become more important to national security and the global economy, there are not nearly enough Americans who speak it. The US government and national and international employers needs individuals with specialized language skills. Some of these languages can be more challenging, but we commit to helping students advance in them. You do not need to have special language abilities to study a language like Russian, you just have to come to class and do the same things you would in any other class, just with a more fun alphabet. And if you consider how many people study more commonly taught languages like Spanish and French, statistically, studying a language like Russian really sets us apart with employers, because you bring in unique skills and expertise. And if you don't believe us, you can take a look at our success stories (https://slavic.drupal.ku.edu/alumni-success-stories/).

Our department offers comprehensive undergraduate programs in Russian, Polish, and Bosnian/Croatian/Serbian, Turkish, Persian/Tajik/ Dar/Farsi. For each language, we offer core curricula emphasizing all four skills: speaking, listening, reading and writing. We also offer intensive introductory Russian in Lawrence during the summer. Because of how foundational to our identities and personal growth study abroad opportunities can be, we offer students multiple opportunities to learn these languages outside of Lawrence. Think about all the great selfies you could take in these beautiful, off-the-beaten path places! You can go to Moscow, Russia and study at the Higher School of Economics for a semester. Or you can spend your summers in Nur-Sultan, Kazakhstan, or Zadar, Croatia and Lviv, Ukraine.

And we don't just offer language learning. Our department is multi-disciplinary and we want our students to come out with strong cultural awareness of the region, but also core critical thinking and writing skills. So you can study a language, but also learn about vampires in Slavic and American culture, or robots and scifi writings, explore the linguistic reflections of identity, while reading about socialism, Marxism, and other varieties of Russian political thought.

We welcome applicants from all backgrounds to consider a Slavic major or minor in combination with another field of study.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Requirements for the B.A. Major

The student completes a minimum of 30 hours of study (29 hours for Russian emphasis) in one of 3 emphases: Polish, Russian, or South Slavic (Bosnian/Croatian/Montenegrin/Serbian). The department encourages students to fulfill general education requirements from courses in the SLAV 140/SLAV 141, SLAV 144/SLAV 145, and SLAV 148/SLAV 149 series. Beyond the minimum 27 hours, students are strongly encouraged to take additional courses in the Slavic department and appropriate background courses in the history, philosophy, and political science of the Slavic regions.
Polish Studies Emphasis

Majors choosing this option must complete courses as indicated in following areas:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>

Majors are strongly encouraged to study abroad. Please see your advisor about this opportunity.

**Major Hours & Major GPA**

While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 30 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior (300+) Hours**

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior (300+) Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

Russian Emphasis

Majors choosing this option must complete courses as indicated in following areas:

<table>
<thead>
<tr>
<th>Code</th>

Majors are strongly encouraged to study abroad. Please see your advisor about this opportunity.
Major Junior/Senior (300+) Hours
Satisfied by a minimum of 15 hours of KU resident credit in the major.

Major Hours in Residence
Satisfied by 30 hours of major courses.

Major Hours
Satisfied by 30 hours of major courses.

Major Hours & Major GPA
While completing all required courses (above), majors must also meet each of the following hour and grade-point average minimum standards:

- Major Hours
  Satisfied by 30 hours of major courses.

- Major Hours in Residence
  Satisfied by 15 hours of major courses.

- Major Junior/Senior (300+) Hours
  Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

Major Junior/Senior (300+) Graduation GPA
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

Sample 4-year plans for the BA degree in Slavic Languages and Literatures with concentrations in the following can be found here: Polish (p. 1927), Russian (p. 1928), South Slavic Studies (p. 1929) or by using the left-side navigation.

Departmental Honors
Undergraduates with a grade-point average of 3.5 in Slavic courses are eligible for departmental honors. Before enrolling, students must consult an undergraduate advisor to formulate an appropriate topic. Students complete SLAV 499 Honors Thesis (3 hours above the major requirements) during 1 semester of the senior year. The honors thesis is evaluated by a committee of 3 faculty members. The candidate makes an oral defense before this committee.

Study Abroad
The department offers a semester study abroad program at the Higher School of Economics in Moscow, Russia, and in conjunction with the Center for Russian, East European, and Eurasian Studies, conducts summer institutes at universities in:

- Nur-Sultan, Kazakhstan (for Russian)
- L'viv, Ukraine (for Ukrainian)
- Zadar, Croatia (for Croatian)
- Almaty, Kazakhstan (internship program)

Consult the Slavic department office or the Office of Study Abroad. Credit for non-KU programs is not automatic and is evaluated in consultation with the Slavic department undergraduate director.

Undergraduate and graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

Slavic Language Programs in Russia and Eastern Europe
KU students may take intermediate or advanced Bosnian/Croatian/Serbian at a 6-week summer institute in Croatia or attend a summer language program in Poland.

Graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

BA in Slavic Languages & Literatures with concentration in Polish Studies
Below is a sample 4-year plan for students pursuing the BA in Slavic Languages and Literatures with a concentration in Polish Studies. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).
Below is a sample 4-year plan for students pursuing the BA in Slavic Languages and Literatures with a concentration in Russian Studies. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

#### Total Hours 120-121

1 The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.

2 Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.

3 The Polish emphasis requires 4 courses (12 hours) of electives. Visit the degree requirements (p. 1924) tab for a list of approved electives.

4 Typically Goal 6 is fulfilled with a major course. If a major course is not approved for Goal 6, plan to take a course outside of the major. A free elective may need to be used to fulfill pre-requisites.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.
All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

### BA in Slavic Languages & Literatures with concentration in South Slavic Studies

Below is a sample 4-year plan for students pursuing the BA in Slavic Languages and Literatures with a concentration in South Slavic Studies. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

1 The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.

2 Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.

3 The Russian emphasis requires completion of one of the following combinations: RUSS 504 & RUSS 508, or RUSS 512 & RUSS 516.

4 One course is required from the list of Linguistics electives and one course from the list of Literature electives. See the degree requirements (http://catalog.ku.edu/liberal-arts-sciences/slavic-languages-literature/Slavic-Linguistics-Elective) tab for a list of approved courses.

5 The Russian emphasis requires 3 courses (9 hours) of electives. Visit the degree requirements (http://catalog.ku.edu/liberal-arts-sciences/slavic-languages-literature/ba/#requirementstext) tab for a list of approved electives.

6 Typically Goal 6 is fulfilled with a major course. If a major course is not approved for Goal 6, plan to take a course outside of the major. A free elective may need to be used to fulfill pre-requisites.

Please note:
Minor in Slavic Languages and Literatures

Why study Slavic languages and literatures?

Because Russia and the Slavs link the West and the East; studying their languages and cultures gives you a different perspective on the world we live in and allows you to pursue professional opportunities that are both in demand and off the beaten path. Slavs are the largest demographic group in Europe and studying a Slavic language is an excellent way for students to equip themselves with the means to engage with the global community.

The Department of Slavic Languages and Literatures offers comprehensive undergraduate programs in Russian, Polish, and Bosnian/Croatian/Serbian and their literatures, and cultures. For each language, we offer a core curriculum of 3+ years of language study emphasizing all four skills (speaking, listening, reading and writing), supplemented by courses in culture, literature and linguistics. We also offer intensive Russian in the summer. For study abroad, we offer summer and semester options at the Higher School of Economics in Moscow, Russia, as well as a summer study abroad programs in Zadar, Croatia and Lviv, Ukraine, and a summer Russian-language internship program in Almaty, Kazakhstan. The minor prepares students for a variety of careers in teaching or in graduate studies, as well as in fields such as translation, international business, art, art history, and travel. A Slavic degree allows a student focus on Russian and Slavic languages as a career path or to add a unique global aspect to another career choice. We welcome applicants from all backgrounds to consider a Slavic major or minor in combination with another field of study.

The M.A. degree in Slavic Languages and Literatures gives students a well-rounded knowledge of Russian language and literature, provides students interested in working professionally with Russian in government or other areas with solid language skills and well-rounded training in the field, and allows them to continue on to specialized doctoral study in Slavic studies. The Ph.D. degree can be tailored to the student’s interests and future research plans. Doctoral study allows students to pursue a knowledge of a second Slavic language and literature, a minor field, as well as in-depth preparation leading to the doctoral dissertation. Qualified candidates are supported through teaching assistantships and receive extensive training and guidance in language instruction. We pride ourselves on our advising and preparation of students for careers in academia and the professional world.

Requirements for the Minor

6 minor tracks are offered.

Polish Studies Track

Students choosing this minor track must complete courses as indicated in the following areas:

### Code | Title | Hours
---|---|---
PLSH 104 | Elementary Polish I | 5
PLSH 108 | Elementary Polish II | 5
PLSH 204 | Intermediate Polish I | 3
PLSH 208 | Intermediate Polish II | 3
SLAV 506 | Masterworks of Polish and Czech Literature | 3
PLSH 675 | Readings in Polish Language and Literature | 3
SLAV 320 | Graphic Novels as Memory | 3
SLAV 340/341 | The Language Landscape of Eastern Europe | 3

The following courses provide fundamental skills for the minor, but do not contribute to the minimum required hours for the minor.

**Prerequisites**

**Elementary Polish I** Satisfied by:
- PLSH 104

**Elementary Polish II** Satisfied by:
- PLSH 108

**Intermediate Polish I** Satisfied by:
- PLSH 204

**Intermediate Polish II** Satisfied by:
- PLSH 208

**West Slavic Literature and Civilization (Polish and Czech)** Satisfied by:
- SLAV 506

**Required Electives** Satisfied by 3 courses (9 hours) chosen from the following:
- PLSH 675
- SLAV 320
- SLAV 340/341

---

1. The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.
2. Visit this website (https://collegeadvising.ku.edu/BA-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.
3. The South Slavic Studies emphasis requires 5 course (15 hours) of electives. For a list of approved electives visit the degree requirements (http://catalog.ku.edu/las/degree-requirements#Minors) tab.
4. Typically Goal 6 is fulfilled with a major course. If a major course is not approved for Goal 6, plan to take a course outside of the major. A free elective may need to be used to fulfill pre-requisites.

### Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

#### Minor Hours

Satisfied by 18 hours of minor courses.

#### Minor Hours in Residence

Satisfied by a minimum of 9 hours of KU resident credit in the minor.

#### Minor Junior/Senior (300+) Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

#### Minor Junior/Senior (300+) Graduation GPA

Satisfied by a minimum of 2.0 KU GPA in all junior/senior courses (300+) in the field of study including F’s and repeated courses. See the Semester/ Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

**Study Abroad**

The department offers a semester study abroad program at the Higher School of Economics in Moscow, Russia, and in conjunction with the Center for Russian, East European, and Eurasian Studies, conducts summer institutes at universities in:

- Nur-Sultan, Kazakhstan (for Russian)
- "Lviv, Ukraine (for Ukrainian)
- Zadar, Croatia (for Croatian)
- Almaty, Kazakhstan (internship program)

Consult the Slavic department office or the Office of Study Abroad. Credit for non-KU programs is not automatic and is evaluated in consultation with the Slavic department undergraduate director.
Undergraduate and graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

**Slavic Language Programs in Russia and Eastern Europe**

KU students may take intermediate or advanced Bosnian/Croatian/Serbian at a 6-week summer institute in Croatia or attend a summer language program in Poland.

Graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

**Undergraduate Certificate in Slavic and Eurasian Languages**

The language certificate, which consists of the equivalent of two years of language study, aims to give students basic intermediate level proficiency in any of the languages in the department, a training that can serve as a helpful professional credential to be paired with another degree.

Generally, completion of two elementary and two intermediate language courses in a single language offered in the department. The table below shows the courses that will be part of this certificate. The actual course list will be maintained on a website so that the courses counting toward the certificate can be updated routinely as the languages available at KU change, which could occur with changes in Title VI funding and with changes in departmental faculty. Any language taught by the department will be added to the website list of languages that satisfy the requirements of this certificate.

Complete one of the language sequences below.

**Master of Arts in Slavic Languages and Literatures**

### M.A. Program Overview

The Master of Arts degree in Slavic Languages & Literatures provides students with foundational knowledge of the language, literature, culture, and linguistics of a region of study (Russian, Polish, Bosnian-Croatian-
Serbian). Working in a collegial and supportive environment, M.A. students learn the general contours and common ground of the field; read key works embedded in their historical, cultural, stylistic, and genre contexts; learn various methodological and theoretical frameworks and strategies; improve their language capacity, and develop research, writing, interpretive, and technological skills.

The M.A. prepares students for several career pathways. While completion of the M.A. is most often the gateway to Ph.D. work in the field, many students use the M.A. to build skills for a professional career. KU Slavic M.A. students go on to satisfying work in the public and private sectors, in the U.S. and abroad.

Departmental Funding
The department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year; .50 full-time equivalent (FTE) appointments come with:

- a competitive academic year (9 month) salary
- a 100% tuition waiver for all courses at KU
- payment of up to 3 hours of student fees
- optional University-subsidized group health insurance

The appointments are guaranteed based on performance for up to 3 years for M.A. students, and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs receive thorough training in language instruction, close mentoring, and the opportunity to teach at a variety of levels, which provides a strong base of teaching experience upon entering the job market.

Additional Funding
There are also university fellowships for truly outstanding students. Visit the Graduate Studies website for information about funding opportunities (http://www.graduate.ku.edu/funding/) for KU graduate students.

Admission to Graduate Studies
An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission
Apply to the graduate program via the Graduate Studies online application system (https://gradapply.ku.edu/apply/).

For additional information regarding departmental admissions requirements, deadlines and the application process, please visit the graduate page of the Slavic Languages and Literatures (http://slavic.ku.edu/) website.

M.A. Degree Requirements
Prerequisites for Admission

• 30 semester hours of credit in an appropriate Slavic language and literature (of which 12 hours must have been taken on the junior/senior level), or the equivalent of such study.

Requirements
1. At least 30 hours of graduate work in Slavic languages and literatures including SLAV 710 and SLAV 824, and a minimum of 3 courses in Slavic literature and 3 courses in Slavic linguistics.
2. A written and oral examination.

At least 50% of coursework for the master’s degree must be taken at the 700 level or above.

For students who plan to continue in the graduate program, the M.A. written and oral examination serves as a qualifying examination for advancement to Ph.D. work. For students who seek only the M.A. degree, successful completion of the M.A. written and oral examination signals the end of the program.

Students planning to work toward the Ph.D. may begin study of a second Slavic language during their M.A. work. Such study does not count toward M.A. degree requirements.

Students completing the M.A. degree without intent to continue to Ph.D. work have the opportunity, in consultation with the graduate advisor, to adjust their program to meet specific career goals.

Study Abroad
The department offers a semester study abroad program at the Higher School of Economics in Moscow, Russia, and in conjunction with the Center for Russian, East European, and Eurasian Studies, conducts summer institutes at universities in

- Nur-Sultan, Kazakhstan (for Russian)
- Lviv, Ukraine (for Ukrainian)
- Zadar, Croatia (for Croatian)
- Almaty, Kazakhstan (internship program)

Consult the Slavic department office or the Office of Study Abroad. Credit for non-KU programs is not automatic and is evaluated in consultation with the Slavic department undergraduate director.

Undergraduate and graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

Slavic Language Programs in Russia and Eastern Europe
KU students may take intermediate or advanced Bosnian/Croatian/Serbian at a 6-week summer institute in Croatia or attend a summer language program in Poland.

Graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.
Doctor of Philosophy in Slavic Languages and Literatures

Overview of Doctoral Program

The Doctor of Philosophy degree in Slavic Languages & Literatures builds further on the foundational knowledge and the structured classroom learning that students engaged in during M.A. work. Working under the close mentorship of their advisors, Ph.D. students develop a minor in a related field, learn advanced pedagogical and interpretive strategies, continue to improve language skills, and engage in self-motivated, independent study to develop an area of specialization.

While most KU Ph.D. students find positions as academics, some choose to pursue professional positions in academic support, digital humanities, research, and government service. See Ph.D. Alumni (http://slavic.ku.edu/doctor-philosophy-alumni-ku-slavic-department/) on the Department's website.

Areas of Concentration

Two concentrations are offered in the Ph.D. program:

- Russian Literature
- Slavic Linguistics

Additional information regarding academic opportunities in culture, intellectual history, folklore, or language pedagogy is available on the departmental Ph.D. Overview (http://slavic.ku.edu/phd-slavic-overview/).

Departmental Funding

The department does its best to provide funding in the form of Graduate Teaching Assistantship (GTA) appointments to all incoming graduate students. GTA appointments are awarded for the academic year; .50 full-time equivalent (FTE) appointments come with:

- a competitive academic year (9 month) salary
- a 100% tuition waiver for all courses at KU
- payment of up to 3 hours of student fees
- optional University-subsidized group health insurance

The appointments are guaranteed based on performance for up to 3 years for M.A. students, 5 years for Ph.D. students and 6 years for students who receive both an M.A. and a Ph.D. at The University of Kansas. GTAs in the department receive thorough training in language instruction, close mentoring, and the opportunity to teach at a variety of levels, providing them with a strong base of teaching experience upon entering the job market.

Additional Funding

There are also university fellowships for truly outstanding students. Visit the Graduate Studies website for information about funding opportunities (http://graduate.ku.edu/funding/) for KU graduate students.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Apply to the graduate program via the Graduate Studies online application (https://gradapply.ku.edu/) system.

For additional information regarding departmental admissions requirements, deadlines and the application process, please visit the graduate page of the Slavic Languages and Literatures (http://slavic.ku.edu/) website.

Ph.D. Degree Requirements

Students admitted to Ph.D. work in Russian literature or Slavic linguistics must fulfill M.A. requirements and pass the qualifying examination. Students also must fulfill all specific requirements in the concentration, master a western European language, complete and defend a professional Ph.D. portfolio, and write a dissertation.

All Ph.D. students are expected to enroll in courses in their concentrations numbered 500 and above offered in a given semester

1. If they have not previously had the courses or their equivalent,
2. If it is judged that the course material aids in preparation for the defense of the professional Ph.D. portfolio, and
3. If it is feasible to incorporate such courses into a given semester’s program.

Requirements for Ph.D. Concentration in Russian Literature

- Detailed knowledge of the history and development of Russian literature
- Oral and written competence in Russian language plus an orientation in its structure and history
- Reading competence in a second Slavic language and a general knowledge of the history of its literature
- A minimum of 9 graduate credit hours in a minor subject inside the department; some outside coursework may be considered with program approval.
- An acceptable dissertation

Requirements for Ph.D. Concentration in Slavic Linguistics

- Detailed knowledge of the structure and history of two Slavic languages, one of which is considered the student’s major language, plus reading competence in a third Slavic language (Knowledge of a third Slavic language is not required for students with a sub-concentration in second language studies).
- Oral and written competence in the major Slavic language
- A minimum of 9 graduate semester credit hours in a minor subject inside the department; some outside coursework may be considered with program approval.
- Basic knowledge of general and comparative linguistics
- An acceptable dissertation
Examinations

Qualifying Examination
All students must take the qualifying examination to be admitted to Ph.D. work. For KU students, the M.A. examination serves as the qualifying examination. Students who hold the M.A. degree from another institution but begin Ph.D. work at KU are required to take the qualifying examination within 2 semesters of entry into the program.

Research Skills & Responsible Scholarship Requirement
The university requires that every doctoral student have training in responsible scholarship and research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. Graduate students in Slavic Languages and Literatures must demonstrate (through course work or examination) reading competence in a western European language, preferably French or German. The student must also take part in all required graduate colloquia. These cover a variety of topics intended to promote and model responsible scholarship and professional development. Faculty and graduate students participate in three colloquia each semester. Issues of responsible scholarship are also imbedded in the curriculum.

Professional Ph.D. Portfolio Examination
Students must pass an oral comprehensive examination consisting of their presentation and defense of their professional Ph.D. portfolio after fulfilling all other requirements for the Ph.D., with the exception of the dissertation. The professional Ph.D. portfolio includes the dissertation prospectus as well as other materials that document the student’s command of major and minor fields, ability to undertake research, and the skills necessary to traverse the profession independently.

Dissertation Defense
Students demonstrate satisfactory completion of the Ph.D. program in their final oral defense of the dissertation and its field and by prompt submission of the thesis.

Study Abroad
The department offers a semester study abroad program at the Higher School of Economics in Moscow, Russia, and in conjunction with the Center for Russian, East European, and Eurasian Studies, conducts summer institutes at universities in:

- Nur-Sultan, Kazakhstan (for Russian)
- L’viv, Ukraine (for Ukrainian)
- Zadar, Croatia (for Croatian)
- Almaty, Kazakhstan (internship program)

Consult the Slavic department office or the Office of Study Abroad. Credit for non-KU programs is not automatic and is evaluated in consultation with the Slavic department undergraduate director.

Undergraduate and graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

Slavic Language Programs in Russia and Eastern Europe
KU students may take intermediate or advanced Bosnian/Croatian/Serbian at a 6-week summer institute in Croatia or attend a summer language program in Poland.

Graduate students at KU are encouraged to spend a summer, semester, and/or year studying and conducting research in their country of interest.

Department of Sociology

Why study sociology?
The study of sociology provides valuable insights into the social institutions and processes that shape human behaviors, histories, and opportunities. Sociologists focus on the actions, beliefs, values, norms, organizations, institutions, and other social forces that characterize a society and shape people’s lives. It directs attention to how the parts of society fit together as well as the causes and consequences of social change. The insight gained from the study of sociology leads to a greater understanding of how formal and informal rules of society contribute to different opportunities and constraints for different groups of individuals, and how these change over time. As a scientific discipline, sociology teaches students how to use empirical data to understand current social realities and act effectively on the central issues of our time. Few academic disciplines have such a broad scope and relevance.

Undergraduate Programs
The department educates sociologists for careers in teaching, research, and some applied fields. Undergraduate course work in sociology can contribute to professional training in architecture, business, education, journalism, law, medicine, public health, and social work.

Sociology majors can earn a Bachelor of Arts (BA) or Bachelor of General Studies (BGS). Both the BA and the BGS require a generous sampling of courses in the humanities, social sciences, and natural sciences. Because of its compatibility with other majors, many of our students earn double majors. For example, many sociology undergraduates also major in history, philosophy, political science, or anthropology, or earn a second degree in journalism.

Students majoring in a wide range of disciplines will find a minor in Sociology enhances their perspective on their field. Sociology is often the minor of choice for students majoring in Psychology, Anthropology, American Studies, Economics, Applied Behavioral Science, History, Political Science, and Global and International Studies and those in professional schools such as Journalism, Business, or Education.

Graduate Programs
The department offers a full graduate program in sociology leading to the M.A. and Ph.D. degrees, educating sociologists for careers in teaching and research and for fields of practical application. It also contributes to professional education in such fields as social welfare, social policy, architecture, education, journalism, personnel administration, business, and medicine. Aside from professional interests, the department offers instruction to assist students in deepening their understanding of social relations and, hence, of the social context of their own lives.

Students who are interested in enrolling in graduate level coursework in the Department of Sociology without formal admission to a graduate program at KU are encouraged to apply for graduate non-degree seeking
student status. See the department’s non-degree seeking webpage (https://sociology.drupal.ku.edu/non-degree-seeking/) for further details.

Courses

SOC 104. Elements of Sociology. 3 Hours SC AE41/GE11/GE3S / S.
The study of social life, including how human groups are organized, how they change, and how they influence individuals. Consideration is given to a variety of human organizations and social institutions and how these groups and institutions both determine, and are determined by, human beings. This course may not be taken for credit by those who have taken SOC 304. LEC.

SOC 105. Elements of Sociology, Honors. 3 Hours SC AE41/GE11/GE3S / S.
The study of social life, including how human groups are organized, how they change, and how they influence individuals. Consideration is given to a variety of human organizations and social institutions and how these groups and institutions both determine, and are determined by, human beings. Open only to students on dean's honor roll or enrolled in Honors Program, or consent of instructor. May not be taken by those who also have credit for SOC 304. LEC.

SOC 130. Comparative Societies. 3 Hours NW AE42 / S/W.
Description and analysis of the culture, structure, and development of societies that are historically unrelated to the traditions of Western civilization. LEC.

SOC 131. Comparative Societies, Honors. 3 Hours NW AE42 / S.
Description and analysis of the culture, structure, and development of societies that are historically unrelated to the traditions of Western Civilization. Open only to students enrolled in the University Honors program or by consent of instructor. May not be taken by students who have credit in SOC 130. LEC.

SOC 150. Self and Society. 3 Hours SI AE51/GE11 / S.
Discusses the way our identities, values, and behavior have been and continue to be shaped by social and situational factors. Attention is paid to the influence of factors like language, culture, social roles, specific social institutions, and broad structures of inequality and power on how we see ourselves and others. May not be taken by anyone who has completed SOC 305 or its equivalent. LEC.

SOC 151. Self and Society, Honors. 3 Hours SI AE51/GE11 / S.
Discusses the way our identities, values, and behavior have been and continue to be shaped by social and situational factors. Attention will be paid to the influence of factors like language and culture, social roles, specific social institutions, and broad structures of inequality and power on how we see ourselves and others. This course may not be taken for credit by those who have taken SOC 305. Open only to students admitted to the University Honors Program or by consent of instructor. LEC.

SOC 160. Social Problems and American Values. 3 Hours SF AE41/AE51/GE11 / S.
This course is designed to explore competing explanations for the causes of, and cures for, the enduring problems of American society. The course critically analyzes dominant definitions of social problems, the political and economic roots of these problems, and the public policies aimed at reducing them. May not be taken by anyone who has already completed SOC 306 or its equivalent. LEC.

SOC 161. Social Problems and American Values, Honors. 3 Hours SF AE41/AE51/GE11 / S.
Explores competing explanations for the causes of, and cures for, the enduring problems of American society. Critically analyzes dominant definitions of social problems, the political and economic roots of these problems, and the public policies aimed at reducing them. This course may not be taken for credit by those who have taken SOC 160 or SOC 306. Open only to students admitted to the University Honors Program or by consent of instructor. LEC.

SOC 177. First Year Seminar: _______, 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Sociology. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

SOC 200. Sociological Introduction to: _______, 3 Hours S.
A sociological introduction to selected topics of current interest in Sociology. Please refer to the schedule of classes for current topics offered. Check the Sociology Department website for course descriptions of current special topics course offerings. May be repeated for credit as topics vary. LEC.

SOC 220. Sociology of Families. 3 Hours SC AE41/GE3S / S.
Analysis of the family as a social institution primarily in the U.S. context. Topics considered are: current and historical changes in how the family is constituted, contrasting sociological theories of family relationships, sexuality in relation to family life, the coexistence of love and hate in families, family dissolution and reformation, and the care of children. A key theme is diversity: social class, gender, race/ethnicity, and age. May not be taken by anyone who has already taken SOC 308 or its equivalent. LEC.

SOC 230. Introduction to Social Inequality in the U.S.. 3 Hours S.
By the end of this course, students will be able to describe the major dimensions of inequality in the U.S. (including race, class, and gender), understand the structural basis of inequality, critically assess how inequality exists in major social institutions, and understand how inequalities in race, class, and gender shape social interaction. LEC.

SOC 280. Introduction to Social Research. 3 Hours S.
An introduction to the nature and methods of social research, including both qualitative and quantitative approaches. Topics may include: hypothesis formulation and testing; how to design a research project, collect and analyze data; elementary statistical procedures; and ethical issues. Prerequisite: Six hours of Sociology credit, including SOC 104/SOC 105/SOC 304. A minimum GPA of 2.3 in all Sociology courses is strongly recommended for students planning to enroll in this course. LEC.

SOC 295. Study Abroad Topics in: _______. 1-6 Hours S.
This course is designed for the study of special topics in Sociology at the freshman/sophomore level. Course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. No more than 6 hours of SOC 295 or SOC 495 may count towards the Sociology major or minor. LEC.

SOC 304. Principles of Sociology. 3 Hours SC AE41/GE11/GE3S / S.
An introduction to sociological concepts, methods, and substantive findings more intensive than that provided in SOC 104. Students may take this course in lieu of SOC 104 to satisfy requirements for the major and the minor. This course may not be taken for credit by those who have taken SOC 104. LEC.

SOC 305. Principles of Self and Society. 3 Hours SI AE51/GE11 / S.
Discusses the way our identities, values, and behavior have been and continue to be shaped by social and situational factors. Attention is paid to the influence of factors like language, culture, social roles, specific social institutions, and broad structures of inequality and power on how we see ourselves and others. This course provides a more intensive coverage of the subject matter than that provided in SOC 150. May not be taken by anyone who has already taken SOC 150 or its equivalent. LEC.
SOC 306. Principles of Social Problems. 3 Hours SF AE41/AE51/GE11/S.
This course is designed to explore competing explanations for the causes of, and cures for, the enduring problems of American society. The course critically analyzes dominant definitions of social problems, the political and economic roots of theses problems, and the public policies aimed at reducing them. This course provides a more intensive coverage of the subject matter than that provided in SOC 160. May not be taken by anyone who has already completed SOC 160 or its equivalent. LEC.

SOC 308. Principles of Family Sociology. 3 Hours SC AE41/GE3S/S.
Analysis of the family as a social institution primarily in the U.S. context. Topics considered are: current and historical changes in how the family is constituted, contrasting sociological theories of family relationships, sexuality in relation to family life, the coexistence of love and hate in families, family dissolution and reformation, and the care of children. A key theme is diversity: social class, gender, race/ethnicity, and age. This course provides a more intensive coverage of the subject matter than that provided in SOC 220. May not be taken by anyone who has already taken SOC 220 or its equivalent. LEC.

SOC 312. Population and Society. 3 Hours AE41/S.
An examination of the causes and consequences of population change in the United States and around the world with special focus on the impact of changes in populations on social institutions. We use social demographic perspectives to explore patterns of birth, illness, death, population concentration, population migration and immigration, and changes in these over time. Prerequisite: One of the following: SOC 104, SOC 110, SOC 150, SOC 160, or SOC 220. LEC.

SOC 320. Organizations in Society. 3 Hours S.
An analysis of complex organizations in modern societies. Attention is given to the rise of bureaucracy in business and government; the way organizations influence and respond to their social cultural environments; and the various roles that individuals play in organizations. Prerequisite: A principal course in sociology. LEC.

SOC 321. Wealth, Power, and Inequality. 3 Hours S.
This class focuses on economic inequality and the political and social forces that create and sustain it in the United States and internationally. The variables of race, ethnicity, status, and gender are analyzed as they relate to the differences in the distribution of wealth and power, and attention is paid to how these multiple variables shape opportunities. LEC.

SOC 324. Being Deviant in America. 3 Hours AE41/S.
In this course students will study traits, conditions, actions, and behaviors that violate social norms and elicit negative societal reactions. This includes the social, cultural, and individual factors that explain deviance; motivations behind deviant behavior; and efforts by society to control deviants. In short, you will undertake a sociological examination of those on the margins of society and societal efforts to “deal with” them. (Same as AMS 324.) LEC.

SOC 326. Health, Gender, and Society. 3 Hours S.
Comparative examination of the health status of men and women in relation to key elements of contemporary societies, including not only medicine and health care services, but also systems of social inequality and stratification, cultural constructions of gender, and social policies. Emphasis will be placed on the U.S.; however, the course also will provide international comparisons and an overall global context. LEC.

SOC 330. American Society. 3 Hours AE41/S.
The social structure and organization of American society with special reference to long-term and recent social changes. (Same as AMS 330.) Not open to students with credit for SOC 132. Prerequisite: A principal course in sociology. LEC.

SOC 332. The United States in Global Context. 3 Hours AE42/S.
Examines the influence abroad of US culture, policies and practices and the impact of other countries on US culture, society, and politics. Among the topics that may be examined are race, ethnicity, colonialism, imperialism, migration, technology, communications and media, popular culture, language, health, domestic and transnational organizations, as well as economic, political, religious, military and educational institutions. (Same as AMS 332.) LEC.

SOC 335. American Society, Honors. 3 Hours SC AE41/S.
The social structure and organization of American society with special reference to long-term and recent social changes. Not open to students who have credit for AMS 330 or SOC 330. Open to students in the University Honors Program, students on the dean’s honor roll, and by permission of the department. LEC.

SOC 340. The Community. 3 Hours S.
Structures, functions, and processes of change in local communities; interrelations of towns and small cities with rural areas and metropolitan centers with their hinterlands. Prerequisite: A principal course in sociology or ANTH 108 or ANTH 308. LEC.

SOC 341. Urban Sociology. 3 Hours S.
Examination of the process of urbanization in modern societies, including the size, growth, functions, and ecology of cities and systems of cities; such urban social institutions as the economy, politics, and the family; and major contemporary urban policies and problems. Each topic will be analyzed from several sociological perspectives. Prerequisite: A principal course in sociology. LEC.

SOC 342. Sociology of Immigration. 3 Hours AE41/S.
International migration reshapes politics, economics, social relations, and racial/ethnic identities. Using the United States and other countries as case studies, we explore the variations among immigrant groups and their experiences in social institutions such as the family, religion, education, labor market, and government. We consider the influence of national origin, gender, class, and culture on immigration and reception experiences, as well as issues of assimilation, transnationalism and identity. Prerequisite: SOC 104. LEC.

SOC 350. Transnational Migration. 3 Hours S.
A historically-conscious, sociological exploration of political, cultural and health issues involved in transnational migration, this course invites the student to situate current transnational migration within specific historical social processes within both postcolonial Africa and the postcolonial West. The course examines parallels from the experience of migration in other parts of the world, specifically Asia and Latin America. The aim is an understanding and appreciation of both the interconnectedness of the world's peoples and, crucially, of the world's histories. LEC.

SOC 352. Sociology of Sex Roles. 3 Hours S.
An examination of sex roles, sex stereotypes, and major issues involved in sex-role research. Emphasizes explanations of inequality between American males and females in the family and at work. The course is designed around lectures, panels, workshops, and films. LEC.

SOC 360. Sociology of Social Control. 3 Hours S.
This course examines changing methods of social control in society. Social control can be formal (e.g., law and criminal justice system) or informal (e.g., families, peer groups). This course examines the ways that we, as a society, attempt to respond to matters such as deviance, illness, crime, and poverty. This course will survey the many varieties of formal and informal social control faced by individuals in society, and the ways in which individuals resist and conform to various disciplinary and control regimes. Prerequisite: a principal course in Sociology. LEC.
SOC 363. The Sociology of Culture. 3 Hours S.
This class explores the role of cultural forms (music, film, fashion, food, and art) in everyday life. Throughout the semester, we will critically engage with core topics in cultural sociology, including, how culture reflects the social order, the role of culture in reproducing race, gender, and class inequality, the processes by which cultural forms are socially created and received, and the relationship between culture and historical change. LEC.

SOC 364. Society, Popular Culture, and the Media. 3 Hours S.
An overview of sociological theory and research on culture created and distributed through the mass media and its role in shaping our common sense interpretations of our daily lives. Topics include the social organization of the media, the relation between popular culture and the media, themes communicated in various elements of popular culture, and how various groups interpret cultural messages and incorporate them in their lives. LEC.

SOC 365. Society, Popular Culture, and the Media, Honors. 3 Hours S.
Similar in content to SOC 364. An overview of sociological theory and research on culture created and distributed through the mass media and its role in shaping our common sense interpretations of our daily lives. Topics include the social organization of the media, the relation between popular culture and the media, themes communicated in various elements of popular culture, and how various groups interpret cultural messages and incorporate them in their lives. Prerequisite: Membership in the University Honors Program or consent of instructor. LEC.

SOC 380. Elementary Statistics and Data Analysis. 3 Hours GE12 / S.
An introduction to social scientific data analysis, with an emphasis on descriptive and inferential statistics. Specific topics include sampling, measures of association and correlation, significance testing, the logic of causal inference, the use of computer programs for data analysis, multivariate analysis, and the critical evaluation of social science research findings. Prerequisite: SOC 280 and MATH 101, or instructor permission. LEC.

SOC 385. Environmental Sociology. 3 Hours S.
This course invites students to study society and its impact on the environment. Environmental problems are social problems. This course will address such items as social paradigms, theories, inequalities, movements, and research. (Same as EVRN 385.) LEC.

SOC 386. Sociology of Global Food. 3 Hours U.
The Sociology of Global Food offers a critical examination of the global food system since the Industrial Revolution. Topics include the industrialization of agriculture, sustainable agriculture, and the role of food and agriculture in organizing society. This course discusses the emergence of current debates around food and agriculture including food activism, technological developments, human/environment relationships, and labor issues. There is a lab component to this course. (Same as EVRN 386.) Prerequisite: Junior standing. LEC.

SOC 400. Sociology Special Topics: ______. 3 Hours S.
The study of selected topics of current interest in Sociology. Check the notes section in the schedule of classes for the description of this course. May be repeated for credit as topics vary. LEC.

SOC 401. Sociology Special Topics, Honors: ______. 3 Hours S.
The study of selected topics of current interest in Sociology. Contact department for course descriptions of current offerings. May be repeated for credit as topics vary. Open only to students in the University Honors Program, or consent of the instructor. Prerequisite: Enrollment in the University Honors Program, or consent of the instructor. LEC.

SOC 405. Sociology of Aging and the Life Course. 3 Hours S.
A survey of theory and research in social gerontology, giving primary attention to aging and the aged as affected by social organization, including such social institutions as familial, economic, political, and health care; organizational processes such as social stratification; and living environments including community and housing. In these contexts, certain demographic, cross-cultural, social-psychological, and physiological aspects of aging will also be considered. LEC.

SOC 410. Sociology of Death and Dying. 3 Hours S.
The primary purpose of this course is to provide an understanding of the ways in which the experiences of death and dying are shaped by social structures. This course will also acquaint the student with the social implications of death and dying and to examine death-related behaviors, both individual and collective, through which these aspects of life are experienced. This course covers theoretical, practical, cross-cultural and historical aspects of death and dying. Social, psychological, biomedical, economic and legal issues surrounding death and dying are explored. Students examine their own ideas, feelings and attitudes towards death and dying, and reflect on the origins and significance of those beliefs. Prerequisite: Junior or Senior Standing. LEC.

SOC 424. Sociology of Health and Medicine. 3 Hours S.
This introductory course in medical sociology examines how social factors influence health and the organization of medical services. Students explore the distribution and experiences of illnesses across key social categories (e.g., gender, social class, etc.) The course also addresses contemporary issues in health and medicine, such as how health care systems vary cross-nationally, the training of health care workers, patient-physician relationships, and the use of medical technologies. LEC.

SOC 425. Sociology of Global Health. 3 Hours S.
The course explores social dimensions of health throughout the world. It examines how infectious and degenerative diseases have reflected and affected the demographics, social structure, economy, and culture of societies, and how societies have mobilized their political, economic, social and cultural resources to deal with health challenges. It focuses in particular on the role of socioeconomic inequality-both within and across countries-in shaping the emergence, spread, prevention, and treatment of disease. Prerequisite: A sociology course at the 100 or 200-level. LEC.

SOC 427. School and Society. 3 Hours GE35 / S.
This course examines education as a social institution and the reciprocal relationship between schools and society. It focuses particularly on the relationship between education and inequality and on education in the U.S., but also includes international comparisons. Prerequisite: Junior or Senior standing or permission of instructor. LEC.

SOC 436. Ethnicity in the United States: ______. 3 Hours S.
An examination of the history, sociology, and culture of U.S. ethnic categories (e.g., American Indians, Latinos, Asian Americans, Jewish Americans, Irish Americans). The specific group studied varies from semester to semester. Course may be repeated for credit with different topics. (Same as AMS 436.) LEC.

SOC 450. Gender and Society. 3 Hours AE41 / S.
An overview of sociological theory and research on the social practices constructing men and women as “opposites” and creating systematic inequality between them in class-, race-, and nation-specific ways. We consider arguments and evidence that gender is something we are, something we do, a part of every social institution, and a major aspect of how we are organized as a society. LEC.

SOC 454. Women and Work. 3 Hours S.
Sociological investigation of women’s changing relationship to paid and unpaid labor in the economy and the family. Several theories are
than 6 hours of SOC 295 or SOC 495 may count towards the Sociology KU Study Abroad. May be repeated for credit if content varies. No more junior/senior level. Course work must be arranged through the Office of

Prerequisite: 21 credits in sociology with a 3.0 GPA and permission of the community or campus organizations. Enrollment must be approved by a

about social issues by working as volunteer interns for non-profit

SOC 490. Internship in Sociology. 3 Hours AE61 / S.

Advanced analysis of the social organization and cultural processes of deviance, including crime, violence, and social control. The course surveys and applies sociological, as well as criminological, theoretical perspectives in deviance. Particular attention is paid to the economic, gender, sexual, and racial inequalities and diversity of experience that shapes, and is shaped by, deviance in American society. LEC.

SO 461. Competing Perspectives on Crime and Deviance. 3 Hours S.

Why do people act violently? What social forces shape violence? This course will examine violence in social and political life. The causes and consequences of various types of violence will be examined in a variety of social settings. Examples include violence in the family, schools, the workplace, violence in cities, and violence as a part of the political process: assassination, revolution, coups, terrorism, and government repression. We will also consider the failures and successes of various organizational, institutional, and legal solutions to violence. LEC.

SOC 462. Violence and Society. 3 Hours S.

An overview of social science theory and research on the practices for keeping close watch on people. Surveillance strategies are adopted in the interests of security, governance, and commerce, but also for personal care, empowerment, resistance, and even play. We consider a host of social, political, ethical, and legal questions related to long-standing notions of privacy, civil liberties, and personal autonomy. LEC.

SOC 463. Sociology of Surveillance. 3 Hours S.

An introduction to the principal texts in sociological theory and the ideas that made them important. Primary materials are emphasized, ranging from medieval to the current age. The goal of the course is to show continuity and change in the theoretical tradition of sociology, and to demonstrate the continued importance of classical ideas. Prerequisite: SOC 104 or SOC 105 or SOC 304 or permission of instructor. LEC.

SOC 480. Sociological Theory. 3 Hours S.

The purpose of this course is to encourage students to think sociologically about social issues by working as volunteer interns for non-profit community or campus organizations. Enrollment must be approved by a faculty mentor and the departmental Undergraduate Studies Committee. For additional information go to the Sociology department website. Prerequisite: 21 credits in sociology with a 3.0 GPA and permission of the instructor. FLD.

SOC 490. Internship in Sociology. 3 Hours AE61 / S.

This course is designed for the study of special topics in Sociology at the junior/senior level. Course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. No more than 6 hours of SOC 295 or SOC 495 may count towards the Sociology major or minor. LEC.

SOC 495. Study Abroad Advanced Topics in: ___. 1-6 Hours S.

SOC 499. Honors Course. 3-6 Hours AE61 / S.

An analysis of the social organization of production with attention being given to such topics as: world economic crises and their social bases; capitalist and socialist economies; primitive and advanced economic systems; multinational corporations; the nature of housework; and the transformation of economic systems. LEC.

SOC 464. Sociology of Surveillance. 3 Hours S.

An analysis of social science theory and research on the practices for keeping close watch on people. Surveillance strategies are adopted in the interests of security, governance, and commerce, but also for personal care, empowerment, resistance, and even play. We consider a host of social, political, ethical, and legal questions related to long-standing notions of privacy, civil liberties, and personal autonomy. LEC.

SOC 490. Internship in Sociology. 3 Hours AE61 / S.

The purpose of this course is to encourage students to think sociologically about social issues by working as volunteer interns for non-profit community or campus organizations. Enrollment must be approved by a faculty mentor and the departmental Undergraduate Studies Committee. For additional information go to the Sociology department website. Prerequisite: 21 credits in sociology with a 3.0 GPA and permission of the instructor. FLD.

SOC 495. Study Abroad Advanced Topics in: ___. 1-6 Hours S.

This course is designed for the study of special topics in Sociology at the junior/senior level. Course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. No more than 6 hours of SOC 295 or SOC 495 may count towards the Sociology major or minor. LEC.

SOC 499. Honors Course. 3-6 Hours AE61 / S.

Intensive study and research under faculty direction including the writing of a thesis. Enrollment may be split between two semesters, but no grade will be given until completion of the thesis. Admission to honors candidacy is open only to majors who have shown a marked capability for independent study and have completed either SOC 280 or SOC 480. IND.

SOC 520. Groups and Associations. 3 Hours S.

A comparative study of groups, associations, and institutions as types of social systems with special attention to structural characteristics and organizational processes; the nature of membership and leadership, including recruitment, selection and training; the social position, relationship, and function of these groups in communities and societies. Prerequisite: A principal course in sociology. LEC.

SOC 522. American Racial and Ethnic Relations. 3 Hours AE41 / S.

An analysis of the basic sociological concepts that apply to majority/minority relations; with special emphasis on racial and ethnic interaction in the United States. (Same as AMS 522.) Prerequisite: A principal course in sociology. LEC.

SOC 524. Sociology of the Economy. 3 Hours S.

An examination of constructions of race and ethnicity around the world. Emphasis is on the social, political, historical, cultural and economic

SOC 532. Sociology of the Middle East. 3 Hours NW AE42/AE61 / S.

The sociological analysis of social, historical, and contemporary issues pertaining to the Middle East and to relations between the Middle East and other regions of the world. We use sociological theoretical perspectives to address such topics as nationalism and identity; religion, race and ethnicity; gender, socioeconomic development, and sociopolitical and economic relations with the United States. Prerequisite: One of the following: SOC 104, SOC 110, SOC 150, SOC 160, or SOC 220. LEC.

SOC 534. Global Ethnic and Racial Relations. 3 Hours AE42 / W.

An examination of constructions of race and ethnicity around the world. Emphasis is on the social, political, historical, cultural and economic factors that lead to the creation of ethnic and racial identities, ethnic conflict and accommodation, ethnic movements, and ethnic political
organization. Racial and ethnic relations in the U.S. are compared with other countries. Major focus is placed on ethnicity in Africa, Asia, Latin America, the Caribbean, and/or the Middle East. (Same as AAAS 510 and AMS 534.) LEC.

SOC 535. Gender in the Global Context. 3 Hours S.
This course examines gender roles and identity in the global context and focuses specifically on historical comparative analysis of women's participation in--and impact on--social, political, economic, and cultural aspects of their communities and nations. Major emphasis will be placed on women in Africa, Asia, Latin America, and the Middle East. Prerequisite: A principal course in Sociology. LEC.

SOC 536. Ethnicity in the United States: _____. 3 Hours AE41 / S.
An examination of the history, sociology, and culture of U.S. ethnic categories (e.g., American Indians, Latinos, Asian Americans, Jewish Americans, Irish Americans). The specific group studied varies from semester to semester. Course may be repeated for credit. (Same as AMS 536.) Prerequisite: A principal course in American Studies, Sociology, or Anthropology, or permission of instructor. LEC.

SOC 560. Law and Criminal Justice. 3 Hours S.
An analysis of the sources and procedures of development of the criminal law and analysis of the practices of law enforcement, prosecution, and judicial action, principally in the United States. Prerequisite: A principal course in sociology. LEC.

SOC 590. Sociology in the Community. 3 Hours S.
The purpose of this course is to encourage students to develop their understanding of the relationship between individual biography and social organization while they contribute to their community by working as volunteers in non-profit community or campus organizations. Not open to students who have completed SOC 490. Prerequisite: SOC 280 and SOC 380. LEC.

SOC 600. Sociological Perspectives: _____. 3 Hours S.
Analysis of various sociological perspectives and/or the application of various perspectives to a given social phenomenon. May be repeated as topics vary. Prerequisite: A principal course in sociology. LEC.

SOC 601. Introduction to Feminist Social Theory. 3 Hours S.
Feminist theories accord a central role to gender and the oppression of women in developing an analysis of social life. This course will explore and evaluate accounts of social structure, social processes, and consciousness developed from a feminist perspective. A broad range of theoretical models will be presented, drawing on liberal, historical materialist, psychoanalytical, cultural, and Black feminist theories. Prerequisite: A principal course in Sociology and at least junior standing. LEC.

SOC 615. Techniques of Demographic Analysis. 4 Hours U.
Examines concepts of demographic measurement and analysis for the study of changes in size, composition and distribution of populations. Students learn to measure and analyze basic population components such as fertility, mortality, migration and health using rates, standardization, decomposition of differences and life tables. Provides an opportunity to develop quantitative skills in the context of human life course processes that might be extended to include the study of employment, incarceration, education and other phenomena. Involves some reliance on calculus, substantial use of statistical software and an extended research project. Course includes a laboratory component. Prerequisite: SOC 380 or equivalent, or permission of instructor. LEC.

SOC 617. Women and Health Care. 3 Hours S.
Critical analysis of the current health status and health needs of women, exploring how lay, medical, and research assumptions have influenced both the clinical/scientific literature and the organization of health services. The course includes a focus on historical patterns in women's health issues and social change actions. (Same as HPM 620.) LEC.

SOC 619. Political Sociology. 3 Hours S.
The study of politics and society in the United States and abroad, including power and authority-who has them, how are they acquired, when are they challenged; state formation, the expansion of central governments, and patterns of political domination; political and nationalist movements; the politics of gender, class, race, and ethnicity; political culture and ideology; ethnic and nationalist conflict; revolution and political change. Prerequisite: A principal course in sociology or consent of instructor. LEC.

SOC 621. Cross-Cultural Sociology. 3 Hours AE42/GE3H/GE3S / W.
A systematic introduction to cross-cultural issues from the standpoint of sociology, designed to acquaint students with the full range of substantive and methodological issues that arise in comparative sociological inquiry, with a primary focus on non-western societies. Specific topics to be addressed may include war and peace, stratification and inequality, race and ethnicity, and political authority and power, all viewed in the light of cross-cultural research and theory. Prerequisite: A previous Sociology course or consent of instructor. LEC.

SOC 625. Work Roles in Health and Medicine. 3 Hours S.
A sociological examination of medical and health-care occupations and professions. The selection of careers, socialization processes, and the development of professional identities. Interactions among practitioners, health-care teams, consumers, and professional and community power structures. Control and coordination of work. The impact of increasing specialization and changes in the demographic makeup of client and professional populations. Coping with medical failure and other problems inherent in medical and health-care work. LEC.

SOC 626. Religion and Society. 3 Hours S.
A comparative study of the nature of religion in human societies both primitive and civilized; the functioning of religion for the community and the individual; the analysis of belief, myths, rituals, sacred attitudes, cults, religious movements, and church organization. Prerequisite: A principal course in sociology or ANTH 108 or ANTH 308. LEC.

SOC 629. Sociology of Sport. 3 Hours S.
Examination of organized sport as a social institution and its relation to other social institutions (e.g., political, economic, educational, and religious), with special emphasis on American society. Analysis of the social correlates of sports participation and a consideration of the role of sport in social change. (Same as AMS 629.) Prerequisite: A principal course in sociology. LEC.

SOC 630. Latin American Society. 3 Hours S/W.
Aspects of the social organization of main Latin American nations, including, e.g., race/ethnicity, social class, gender, urbanization, socioeconomic development, revolution, and relations with the U.S. Emphasis on sociological theories of Latin American development. Prerequisite: A principal course in Sociology or ANTH 108 or ANTH 308, plus junior-senior or graduate standing. LEC.

SOC 635. Globalization and Environment. 3 Hours S.
The focus is on the sociological facets of global environmental problems (e.g., climate change, biodiversity, fresh water problems, toxic waste; invasive species) and especially their relationship to globalization, growth, and what environmental sociologists have called the "human exemptionalist model." We address global environmental problems, political divisions over them, environmental movements and justice, and adaptation and mitigation strategies. The sociological literature on these issues and different environmental social theories are discussed (e.g., ecological modernization, treadmill theory, metabolic rift). Special
attention is given to the impact of globalization and expansion of the global economy relative to the biosphere and consequent spikes in the consumption of resources and production waste. (Same as EVRN 636.) Prerequisite: SOC 104 or EVRN 103 or EVRN 140, or permission of instructor. LEC.

**SOC 640. Islam and Politics. 3 Hours AE42/AE51 / W.**
This course gives students a basic understanding of Islam and Islamic movements, explores the economic, social, political, and cultural context in which these movements take place, and examines the impact of Islam on politics in select countries. Issues such as compatibility of political Islam and democratic politics, political economy in Muslim societies, fundamentalism in Islam, gender relations, identity politics and questions on clash of civilizations are explored. (Same as GIST 667 and POLS 667.) Prerequisite: A principal course in sociology, POLS 150, or consent of instructor. LEC.

**SOC 660. Sociology of Mental Illness. 3 Hours S.**
The sociology of mental illness concerns itself with the study of mental disorders as social phenomena. The course will be concerned with (1) the social factors and social processes that contribute to mental disorders, (2) the social definitions of mental disorders as forms of social deviance, (3) the social facets in the treatment and care of disordered persons, and (4) the social aspects of the prevention of mental disorders. Prerequisite: A principal course in sociology. LEC.

**SOC 661. Causation of Crime and Delinquency. 3 Hours S.**
The individual and social processes that produce violation of legal norms, dealing with society’s responses to these violations only so far as the responses influence the violators. Prerequisite: A principal course in sociology. LEC.

**SOC 662. Corrections. 3 Hours S.**
Legal systems for handling offenders and the development of the laws creating these systems. Emphasis on the various parts (police, courts, probation, penal institutions, and parole) of the system will vary. Prerequisite: A principal course in sociology. LEC.

**SOC 698. Individual Undergraduate Research. 1-12 Hours AE61 / S.**
Library or field research either as part of an ongoing project or as an independent study project. One to twelve hours. May be taken from one or more faculty during one or more semesters, the total hours not to exceed 12. No more than 3 credits may be applied to satisfy requirements for the sociology major. Prerequisite: Two courses in sociology and consent of instructor. IND.

**SOC 699. Capstone in Sociology. 3 Hours AE61 / S.**
In this capstone course, students synthesize the knowledge gained in their substantive courses and use the skills developed in their methodology courses to design and conduct a research project on a current social issue or meeting the research needs of a local community group. The outcome will be a professional quality research report. Prerequisite: SOC 380. LEC.

**SOC 707. Seminar in Historical Sociology. 1-4 Hours.**
Each seminar will explore problems at the intersection of sociology and history. Topic, instructors, and hours of credit will be announced in the Schedule of Classes. Seminars will be offered by different instructors on different topics and students may take more than one topic. No prerequisite. LEC.

**SOC 722. Sociology of Gender. 3 Hours.**
This course will offer a range of sociological perspectives on the role of gender in society. The particular substantive focus will vary each semester to allow flexibility for in-depth analysis of gender relationships in such areas as politics, health and aging, and work. LEC.

**SOC 760. Social Inequality. 3 Hours.**
A comprehensive review of the major theoretical and empirical approaches used in the study of institutionalized social inequality. Reference to the origins, forms, cultural and structural variations and their changes over time, consequences and ideologies of social inequality. Prerequisite: A distribution course in sociology. LEC.

**SOC 762. Seminar in Social Deviation and Control: _____. 3 Hours.**
Advanced study of theory and practice relating to deviation. May be repeated as topics vary. Prerequisite: SOC 662 or SOC 661. LEC.

**SOC 767. Multidisciplinary Perspectives on Gerontology and Aging. 3 Hours.**
A seminar coordinated by the Gerontology Program. The seminar explores essential areas of gerontology for researchers and practitioners, providing a multidisciplinary (biology, health services, behavioral and social sciences, human services) perspective on aging. The seminar surveys contemporary basic and applied research, service programs, and policy and management issues in gerontology. (Same as ABSC 787, AMS 767, COMS 787, and PSYC 787.) LEC.

**SOC 770. Social Systems and Social Change in the United States. 3 Hours.**
Analysis of approaches to the study of sociocultural change in America, with special emphasis on a systems perspective. Seniors by consent of instructor. LEC.

**SOC 771. Intergroup Relations and Conflict in American Society. 3 Hours.**
Analysis of the dynamics of intergroup relations (e.g., class, religious, ethnic, racial, political) in America with special emphasis on the examination of major theoretical and empirical approaches employed in the study of societal conflict and consensus. LEC.

**SOC 780. Advanced Topics in Sociology: _____. 3 Hours.**
Topics will vary from semester to semester and instructor to instructor to allow flexibility for in-depth analysis of particular topics. LEC.

**SOC 790. Proseminar. 3 Hours.**
Introduction to major disciplinary issues, departmental research specialties, faculty research interests, interdisciplinary connections, funding sources, and professional writing. Required of M.A. students entering the graduate program in sociology. May not be taken by those who have credit for SOC 990. Graded on satisfactory/unsatisfactory basis. LEC.

**SOC 801. The Rise of Social Theory. 3 Hours.**
This is less a survey of intellectual history than an effort to trace the "preclassical" roots of sociological theory. We explore the rise of paradigmatic concerns in the writings of such key figures as Aristotle, Marsilius of Padua, Martin Luther, Etienne de la Boetie, Michel de Montaigne, Charles de Montesquieu, Jean-Jacques Rousseau, Immanuel Kant, G.W.F. Hegel, Flora Tristan, and Ludwig Feuerbach, among others. LEC.

**SOC 802. Classical Social Theory. 3 Hours.**
This seminar will focus on the later 19th and early 20th century "theories of society," addressing the origins and developmental tendencies of Western modernity and their relation to premodern social orders. Primary texts of the major theorists (e.g., Marx, Durkheim, Nietzsche, Weber, Simmel, and Mead) will be studied in historical context. The tradition's analytical and critical resources and problematic features will also be explored. Finally, the connections between this tradition and contemporary sociological approaches will be explored. LEC.
SOC 803. Issues in Contemporary Theory: ______. 3 Hours.
A critical examination of recent trends and debates in sociological theory. This is a thematically oriented course in which classical as well as contemporary views will be explored. Attention will be directed to theoretical issues under discussion in fields such as symbolic interactionism, semiology, ethnmethodology, critical theory, macrosociology, and others. LEC.

SOC 804. Sociology of Knowledge. 3 Hours.
This course reviews the major sociological approaches to the study of the relationship between thought and the social context within which it arises. A central concern is an examination of the relationship between ideology and social structures, particularly as expressed in the construction of official knowledge. LEC.

SOC 808. Feminist Theories. 3 Hours.
This course will explore and evaluate accounts of social structure, social processes, and consciousness developed in the feminist literature. We will review a range of theoretical arguments, including liberal, historical, materialist, psychoanalytic, cultural, and Black feminist theories. Some of the readings will focus on limitations and distortions within mainstream social theory; others will center on the development of alternative social theory using the standpoint of women as a point of departure. LEC.

SOC 810. Sociological Inquiry. 3 Hours.
The goals of this course are to understand the characteristics of sociologically interesting and rigorous research and to design a research proposal that shares those characteristics. Students will read books and articles representing a variety of research approaches (ethnographies, surveys, interviews, document analyses, historical studies, comparative research, etc.), and will analyze those approaches in order to understand their theoretical and methodological significance. Students will also distribute their proposals to the other students in the course for comment and critique. Assignments will include a research proposal such as a draft for an external grant proposal, M.A. thesis proposal for students at the M.A. level or a dissertation proposal draft for students at the Ph.D. level. Course may be repeated for credit toward graduate degree. Prerequisite: The course is open only to students enrolled in the Sociology graduate program. LEC.

SOC 811. Sociological Research. 3 Hours.
The use of the scientific method to study social phenomena including: the formulation and testing of hypotheses; techniques for collecting data; measuring social variables; interpreting research findings; the relationship of theory and facts. Course may be repeated for credit toward graduate degree. Prerequisite: The course is open only to students enrolled in the Sociology graduate program. LEC.

SOC 812. Analytic Methods in Sociology. 3 Hours.
Consideration of quantitative methods of analysis including both parametric and non-parametric techniques. Prerequisite: A course in statistics. LEC.

SOC 813. Field Methods and Participant Observation. 3-5 Hours.
Will acquaint the student both theoretically and empirically with the procedures and logics of the research techniques employed by individuals or small research teams conducting qualitative fieldwork. Prerequisite: A distribution course in sociology. FLID.

SOC 814. Health Services Research: Epidemiology, Evaluation, and Survey Methods. 3 Hours.
Students learn the logic, assumptions, designs, and procedures involved in conducting the major types of research found in the health services field. Students develop an informed basis for critically evaluating the methodological adequacy of research studies in the areas of descriptive and analytic epidemiology, program evaluation, and health-related survey research as well as working knowledge of the research process itself. Emphasis is placed on examining basic health services issues such as measuring quality of care, understanding the role of social factors in the etiology of disease, determining the health status and health needs of populations, and incorporating health services research into organizational policy and decision-making. LEC.

SOC 820. Political Sociology. 3 Hours.
This course offers an overview of the different perspectives and key arguments comprising the field of political sociology, including both classical and contemporary readings. The issues studied in this field include the nature of power and the nature of the state, relations between state and society, and social movements, political organization and civic participation, political culture, voting behavior, comparative political systems, warfare, democracy and economic development, citizenship, nationalism, revolutions, and globalization. LEC.

SOC 824. Health and Social Behavior. 3 Hours.
This course provides students with an analytic understanding of the organization, professional, and interpersonal behavior that characterizes contemporary health and health care. Emphasis is placed on examination and integration of conceptual frameworks theories, and research findings bearing on basic behavioral/managerial issues such as authority relations in health care settings, models of illness behavior and health services utilization, the impact of organizational structure on employee and client attitudes and behavior, and the culture of professional medicine in relation to patient care. LEC.

SOC 830. Latin American Society. 3 Hours.
Aspects of the social organization of main Latin American nations, including, e.g., race/ethnicity, social class, gender, urbanization, socioeconomic development, revolution, and relations with the U.S. Emphasis on sociological theories of Latin American development. Prerequisite: A principal course in sociology or ANTH 108 or ANTH 308, plus junior-senior or graduate student standing. LEC.

SOC 873. International Political Economy. 3 Hours.
Provides a broad survey of major developments in the field. Topics include the intellectual origins of international political economy; the historical evolution of the international system; North-South and Western trade, investment, and monetary relations; foreign aid, debt technology transfer, development, international economic institutions (e.g., International Monetary Funds, World Bank, Multinational Corporations, etc.). (Same as POLS 973.) LEC.

SOC 875. The Political Economy of Globalization. 3 Hours.
The course will acquaint students with recent developments in the global economy, including its impact on politics and society. Topics include theories of globalization, the role of the nation-state and international agencies in socioeconomic development, inequality from a global perspective, immigration and citizenship, globalization and democracy, and the rise of transnational social movements. LEC.

SOC 891. Individual Master's Readings. 1-6 Hours.
Individual study of special topics or problems by students working on a master's degree. RSH.

SOC 892. Teaching Seminar. 1-3 Hours.
Seminar on sociology course design and development. Topics covered include syllabus design, exam strategies and design, course design, content of and approaches to teaching introductory and other sociology courses, student grading and evaluation. Required of all teaching assistants assigned to courses in sociology. May not be repeated for credit toward graduate degree. LEC.
SOC 893. Leading Discussion Sections in Sociology. 1 Hour.
This course covers matters relating to the teaching of discussion sections in sociology. Topics covered will include the current week’s reading assignments, material that will be covered in the lecture, upcoming exams or other assignments, and potential activities for discussion sections. This course does not count toward completion of 54 hours of graduate credit hours required for the PhD program in sociology. Graded on a satisfactory/unsatisfactory basis. Prerequisite: A current GTA appointment to lead discussion sections in sociology. LEC.

SOC 899. Thesis. 1-8 Hours.
The thesis hours. Graded on a satisfactory progress/limited progress/no progress basis. THE.

SOC 900. Seminar on Special Topics in Theory: ______ 1-4 Hours.
Each seminar will explore problems of theory in sociology. Topic, instructor, and hours of credit will be announced in the Schedule of Classes. Seminars will be offered by different instructors on different topics, and a student may take more than one topic. LEC.

SOC 910. Seminar on Special Topics in Methods: ______ 1-4 Hours.
Each seminar will explore problems of methods in sociology. Topic, instructor, and hours of credit will be announced in the Schedule of Classes. Seminars will be offered by different instructors on different topics, and a student may take more than one topic. LEC.

SOC 920. Seminar on Special Topics in Social Organizations: ______ 1-4 Hours.
Each seminar will explore problems of social organization in sociology. Topic, instructor, and hours of credit will be announced in the Schedule of Classes. Seminars will be offered by different instructors on different topics, and a student may take more than one topic. LEC.

SOC 930. Seminar on Special Topics in Comparative Studies: ______ 1-4 Hours.
Each seminar will explore problems of comparative studies in sociology. Topic, instructor, and hours of credit will be announced in the Schedule of Classes. Seminars will be offered by different instructors on different topics, and a student may take more than one topic. LEC.

SOC 940. Seminar on Topics in Demography, Ecology, and Community: ______ 1-4 Hours.
Each seminar will explore problems of demography, ecology, and community in sociology. Topic, instructor, and credit hours will be announced in the Schedule of Classes. Seminars will be offered by different instructors on different topics, and a student may take more than one topic. LEC.

SOC 950. Seminar on Special Topics in Social Psychology: ______ 1-4 Hours.
Each seminar will explore problems of social psychology in sociology. Topic, instructor, and hours of credit will be announced in the Schedule of Classes. Seminars will be offered by different instructors on different topics, and a student may take more than one topic. LEC.

SOC 960. Seminar on Special Topics in Deviance and Social Problems: ______ 1-4 Hours.
Each seminar will explore problems of deviance and social problems in sociology. Topic, instructor, and hours of credit will be announced in the Schedule of Classes. Seminars will be offered by different instructors on different topics, and a student may take more than one topic. LEC.

SOC 970. Seminar on Special Topics in Social Conflict and Change: ______ 1-4 Hours.
Each seminar will explore problems of social conflict and change in sociology. Topic, instructor, and hours of credit will be announced in the Schedule of Classes. Seminars will be offered by different instructors on different topics, and a student may take more than one topic. LEC.

SOC 980. Special Topics in Sociology: ______ 1-3 Hours.
Topics will vary by semester and instructor to allow flexibility for in-depth analysis of particular topics that do not fit into one of the other 900 level seminars. LEC.

SOC 991. Individual Doctoral Readings. 1-6 Hours.
Individual study of special topics or problems by students working on a doctorate. RSH.

SOC 995. Professionalization Proseminar. 3 Hours.
The main objective of this course is to help students understand and deal with several "nuts and bolts" professional issues regarding the discipline of sociology and being a professional sociologist. This course is for advanced doctoral students who are close to being on the job market, whether they are pursuing academic or non-academic careers. LEC.

SOC 999. Dissertation. 1-12 Hours.
Dissertation hours. Graded on a satisfactory progress/limited progress/no progress basis. THE.

Bachelor of Arts and Bachelor of General Studies in Sociology

Why study sociology?
The study of sociology provides valuable insights into the social institutions and processes that shape human behaviors, histories, and opportunities. Sociologists focus on the actions, beliefs, values, norms, organizations, institutions, and other social forces that characterize a society and shape people’s lives. It directs attention to how the parts of society fit together as well as the causes and consequences of social change. The insight gained from the study of sociology leads to a greater understanding of how formal and informal rules of society contribute to different opportunities and constraints for different groups of individuals, and how these change over time. As a scientific discipline, sociology teaches students how to use empirical data to understand current social realities and act effectively on the central issues of our time. Few academic disciplines have such a broad scope and relevance.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) website for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.
Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Graduation Plan

With careful planning and commitment to a full-time course load, you can graduate in 4 years (http://clas.ku.edu/undergrad/). Download a sample 4-year plan (http://clas.ku.edu/undergrad/advising/plans/) for sociology.

Double Majors

Sociology majors may want to consider a second major in philosophy; history; women’s studies; area studies; or one of the natural or social sciences; or a second degree in journalism or other professional disciplines.

A sample 4-year plan for a BA degree in Sociology can be found here: Sociology (p. 1947), or by using the left-side navigation.

A sample 4-year plan for the BGS degree in Sociology can be found here: Sociology (p. 1948), or by using the left-side navigation.

Departmental Honors

Working under the supervision of a faculty mentor, the undergraduate student must complete 6 hours of work in SOC 499 culminating in a superior thesis. The thesis must be certified by 3 members of the College faculty, at least 2 of whom must be from sociology, nominated by the candidate and approved by the departmental honors coordinator. The student also must achieve a grade-point average of at least 3.5 in sociology.

BA in Sociology

Below is a sample 4-year plan for students pursuing the BA in Sociology. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

### Total Hours 120-124

1. The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.

2. MATH 101 is a prerequisite for SOC 380, which is a required course for the Sociology Major.

3. Up to 3 hours of hours of SOC 490 or SOC 698, and 6 hours of SOC 499 are allowed to count toward the major.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.
Sociology Minor

Requirements for the Minor

**Why study sociology?**

The study of sociology provides valuable insights into the social institutions and processes that shape human behaviors, histories, and opportunities. Sociologists focus on the actions, beliefs, values, norms, organizations, institutions, and other social forces that characterize a society and shape people’s lives. It directs attention to how the parts of society fit together as well as the causes and consequences of social change. The insight gained from the study of sociology leads to a greater understanding of how formal and informal rules of society contribute to different opportunities and constraints for different groups of individuals, and how these change over time. As a scientific discipline, sociology teaches students how to use empirical data to understand current social realities and act effectively on the central issues of our time. Few academic disciplines have such a broad scope and relevance.

**Sociology Graduate Program**

Sociology offers a distinct perspective on understanding the social world. Our discipline emphasizes how institutions and structural forces outside the individual—the family, organizations, politics, economics, culture—shape individual and group behavior, opportunities, and histories. As a major teaching and research unit, we seek to ensure that the knowledge imparted to our students is current and that they learn the skills of critical inquiry, analytical evaluation, and historical sensibilities.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Graduate Admission**

The Department of Sociology at the University of Kansas offers a Ph.D. program in sociology. Upon admission, all students are enrolled as Ph.D. students, but must complete all requirements for a M.A. degree during their progress toward the Ph.D. degree.

To be considered for admission, applicants must have completed 15 credit hours in sociology, including a course in sociological theory, and a course in statistics.

Applications also must include:

**Doctor of Philosophy in Sociology**

**Minor Hours & Minor GPA**

While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

**Minor Hours**

Satisfied by 18 hours of minor courses.

**Minor Hours in Residence**

Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

**Minor Junior/Senior Hours**

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

**Minor Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all departmental courses in the field of study including F’s and repeated courses. See the Semester/ Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

### Minor in Sociology

### Why study sociology?

The study of sociology provides valuable insights into the social institutions and processes that shape human behaviors, histories, and opportunities. Sociologists focus on the actions, beliefs, values, norms, organizations, institutions, and other social forces that characterize a society and shape people’s lives. It directs attention to how the parts of society fit together as well as the causes and consequences of social change. The insight gained from the study of sociology leads to a greater understanding of how formal and informal rules of society contribute to different opportunities and constraints for different groups of individuals, and how these change over time. As a scientific discipline, sociology teaches students how to use empirical data to understand current social realities and act effectively on the central issues of our time. Few academic disciplines have such a broad scope and relevance.

### Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

**Minor Hours**

Satisfied by 18 hours of minor courses.

**Minor Hours in Residence**

Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

**Minor Junior/Senior Hours**

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

**Minor Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all departmental courses in the field of study including F’s and repeated courses. See the Semester/ Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).
• A statement of academic interests and professional goals
• 3 recommendation rating forms and letters from individuals who can evaluate the applicant’s academic performance
• 1 complete set of transcripts from all colleges and universities attended
• A current résumé/curriculum vitae
• A writing sample (senior or master's thesis preferred)
• GRE scores
• A nonrefundable application fee (see Admission in the Graduate Studies (p. 2540) section of the online catalog)
• Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/).

The applicant’s record should indicate considerable academic promise and a high level of motivation.

Submit your graduate application online (https://gradapply.ku.edu/apply/). Most application materials can be attached to the online application.

Ph.D. Degree Requirements

For the Ph.D., students must complete 54 hours of graduate coursework, which includes both M.A. and Ph.D. coursework requirements. Thesis and dissertation hour enrollments are also required.

1. Within the first 2 years of the program, students must complete all M.A. level requirements, including coursework, portfolio, thesis, and a final exam. If a student does not complete all the M.A. level requirements within the first 2 years of the program, s/he will not be eligible for the renewal of his/her GTA/GRA funding. 36 hours of graduate credit are required for the M.A., including:

   | Thesis  |       | 3     |
   | SOC 899 | Thesis  |       |

*Individual Master’s Readings courses (SOC 891) may not be used to meet these requirements except by approved petition.

2. During their first year in the program, students must begin compiling portfolios of their professional work.

3. Students must complete an M.A. thesis under the direction of a sociology faculty member of the student's choosing, an oral defense of the thesis, and a final exam for the M.A. Degree.

4. After completing the requirements for the M.A. degree above, students must attain the requisite levels of competence in the history and theory of sociology and in methods of sociological research by completing the courses listed below. Students must complete an additional 18 graduate credit hours from the coursework list above. This should include:

   • An additional 3 credit hours of theory
   • An additional 3 credit hours of methods
   • An additional 9 credit hours of electives

*Individual Doctoral Readings courses (SOC 991) may not be used to meet these requirements except by approved petition.

The doctoral student must also complete SOC 995 Professionalization Proseminar.

5. Students must complete the Research Skills and Responsible Scholarship (RSRS) requirement. The university requires that every doctoral student have training in responsible scholarship and research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. Doctoral students in sociology meet this requirement by completion of the following courses: SOC 810, SOC 811, SOC 812, SOC 910. Additional information about this requirement can be found under Doctoral Degree Requirements, Doctor of Philosophy (http://catalog.dept.ku.edu/201314/schools/gs/programs/#dcoereqs), Research Skills in the Graduate Studies section of the online catalog.

6. Students must compile portfolios of their professional work successfully demonstrating command of 2 fields of specialization within sociology and preparation to undertake dissertation research.

7. Students must pass an oral comprehensive examination and defense of dissertation proposal, within the first 6 semesters post-M.A. degree. The oral comprehensive examination and dissertation proposal defense occur at the same time. The oral comprehensive examination refers to an oral examination of the student’s understanding of the 2 fields of specialization. The dissertation committee must consist of at least 5 members, 4 of whom are members of the sociology department.
8. The candidate must continue to enroll in accordance with the Office of Graduate Studies Post-comprehensive Enrollment policy (http://policy.ku.edu/graduate-studies/docoral-candidacy/) until all Ph.D. degree requirements have been met.

**Non-thesis (Terminal) M.A. Option**

A student that wishes to complete a master’s degree but does not wish to continue on to the doctoral level of the program may choose the non-thesis, terminal M.A. option. Completion of these requirements leads to the M.A. degree but does not allow the student to proceed to doctoral study. Non-thesis students must complete 30 hours of graduate credit. Coursework requirements are the same as listed above for the thesis-option M.A., but SOC 811 and thesis hours (SOC 899) are not required.

A final oral examination over course work in sociology is also required.

**Handbook for Graduate Students**

A more detailed account of advising procedures, degree requirements, and program options is set forth in the department’s Manual of Graduate Study in Sociology, which is available online (https://sociology.drupal.ku.edu/overview-PhD/).

**Department of Spanish and Portuguese**

**Why study Spanish and Portuguese?**

Because fluency in more than one language and culture along with the skills needed to analyze literary and cultural texts create educated citizens.

**Undergraduate Programs**

The department offers course work for students seeking proficiency in a foreign language and for majors in Spanish or a related field.

**Placement**

Students who have not studied Spanish in high school should seek permission to enroll in SPAN 104. For permission to enroll in this course, a student must show his or her high school transcript to the advising specialist in the Department of Spanish and Portuguese. Students who have had limited study of Spanish (1 to 3 years in high school or 1 semester of Spanish at another institution of higher learning, equivalent to SPAN 104) and are not placed in the intermediate level should enroll in SPAN 111. Only students who complete SPAN 104 at KU are eligible to enroll in SPAN 108.

Students with 2 to 4 years of high school Spanish can be placed in the intermediate level (SPAN 212, SPAN 216, SPAN 220, or SPAN 324) by taking the placement examination and consulting the advising specialist.

Students registered with Disability Resources (http://www.disability.ku.edu/) should contact them for placement advising.

**Retroactive Credit**

Students with no prior college or university Spanish course credit are eligible for retroactive credit according to this formula:

- 3 hours of retroactive credit are awarded to a student who enrolls initially at KU in a third-level Spanish course (SPAN 212) and receives a grade of C or higher.
- 6 hours of retroactive credit are awarded to a student who enrolls initially at KU in a fourth-level Spanish course (SPAN 216) and receives a grade of C or higher.
- 9 hours of retroactive credit are awarded to a student who enrolls initially at KU in a 3-credit-hour Spanish course with a fourth-level course as a prerequisite and receives a grade of C or higher.

Students interested in retroactive credit should consult the department before enrolling.

Students entering KU with previous study of Portuguese should take the Portuguese placement examination administered by the department.

**Courses for Nonmajors**

Students may fulfill the College foreign language requirement by

1. Passing the proficiency examination or
2. Completing SPAN 216 or PORT 216 or
3. Completing a course in Spanish or Portuguese that has SPAN 216 or PORT 216 as a prerequisite.

**Graduate Programs**

The department offers a full graduate program leading to the M.A. and the Ph.D. degrees. Students who complete their graduate studies with the M.A. degree are well prepared to enter a variety of fields, including international business, teaching, and government. The Ph.D. program takes advantage of the literature specialties of the faculty, and Ph.D. recipients generally go on to university or college teaching.

A detailed description is available from the departmental office as well as the department’s website (http://www2.ku.edu/~spanport/). This includes specific distribution requirements, fields of specialization, and information on the comprehensive examinations. Students should request information and application forms as early as possible, especially if they plan to apply for financial aid.

Students who are interested in enrolling in graduate level coursework in the Department of Spanish & Portuguese without formal admission to a graduate program at KU are encouraged to apply for graduate non-degree seeking student status. See the department’s admission (http://spanport.ku.edu/graduate-admissions/) webpage for further details.

**Courses**

**PORT 104. Elementary Brazilian Portuguese I. 5 Hours U / F1.**

This course introduces students to the essential vocabulary and fundamentals of grammar of Brazilian Portuguese through practice in speaking, listening comprehension, reading and writing. Active preparation and participation required. Classes conducted in Portuguese. Emphasis on conversation. LEC.

**PORT 106. Elementary Brazilian Portuguese, Accelerated I. 3 Hours U / F1.**

Designed for students with intermediate proficiency in Spanish (or with previous work in Portuguese) to acquire proficiency in Portuguese more rapidly. Covers the same material as PORT 104 and PORT 108 and
prepares students to intermediate level study of Portuguese. Prerequisite: SPAN 111 or Span 108 or consent of instructor. LEC.

PORT 108. Elementary Brazilian Portuguese II. 5 Hours U / F2.
A continuation of PORT 104. Prerequisite: PORT 104. LEC.

PORT 110. Elementary Brazilian Portuguese, Accelerated II. 3 Hours U / F2.
A continuation of PORT 106. Prerequisite: PORT 106. LEC.

PORT 177. First Year Seminar: ____. 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Portuguese. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

PORT 212. Intermediate Brazilian Portuguese I. 3 Hours U / F3.
A review of Brazilian Portuguese grammar, with practice in reading, composition, and conversation. Prerequisite: PORT 108 or PORT 110 or consent of instructor. LEC.

PORT 216. Intermediate Brazilian Portuguese II. 3 Hours AE42 / U / F4.
A continuation of PORT 212. Prerequisite: PORT 212. LEC.

PORT 220. Intensive Intermediate Brazilian Portuguese. 3-6 Hours U / F3 / F4.
The course is designed for students who have completed the first year of Portuguese language studies at KU or equivalent. This course covers the same material as PORT 212 and PORT 216. Prerequisite: PORT 110, PORT 108, or consent of the instructor. LEC.

PORT 300. Brazilian Culture. 3 Hours HT AE42 / H.
Prehistoric and colonial Portuguese origins of Brazil and its independent development in the nineteenth and twentieth centuries. Key aspects of economic, political, and social factors; special attention to intellectual history. Readings in English. LEC.

PORT 320. Introduction to Portuguese and Brazilian Literatures. 3 Hours H/W / FP.
Advanced reading course and an introduction to the study of Luso-Brazilian literature. Discussions in Portuguese. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 340. Textual Analysis and Critical Reading. 3 Hours HL / H / FP.
Introduction to Brazilian cultural and literary studies. Critical readings and interpretation of Brazilian cultural expressions with emphasis on acquiring the skills and vocabulary for discussing and writing critical analyses. Conducted in Portuguese. Not open to students who have taken PORT 540. Prerequisite: Grade of A or B in PORT 216 or consent of instructor. LEC.

PORT 347. Brazilian Studies: ____. 3 Hours AE42 / H / FP.
A topics course dedicated to the study of special historical moments, authors, or themes in Brazilian literary and cultural history. Topics studied always lead to an examination of Brazilian culture and society through the critical study of literature, film, and music, in contrast with aspects of U.S. culture or other Latin American societies. Although the course may cover multiple genres and periods, it always emphasizes the plurality of Brazilian people, its history of slavery and immigration, diverse ethnic composition, rich religious milieu, and complex class system. Students also discuss the differences between the geographical regions in the country, and discuss controversial topics such as racism and religion. Given the historical similarities between the two societies, students must confront the experiences they learn about in Brazil to similar ones in the United States. Course conducted in Portuguese and may be repeated for credit as the topic varies. Not open to students who have taken PORT 547. Prerequisite: PORT 216 or consent of instructor. LEC.

PORT 348. Portuguese Language and Brazilian Culture for Business. 3 Hours H / FP.
Cultural studies approach to contemporary Brazilian society for students interested in business. Explores how Brazilians negotiate their place in a global cultural context and how they perceive business. Readings include selections from literature, history, journalism, social analysis, and popular culture and business. Exercises help English speakers develop analytical skills, as well as vocabulary and communication skills related to business and professional life in Brazil. Not open to students who have taken PORT 548. Prerequisite: PORT 216 or consent of instructor. LEC.

PORT 365. Studies in Brazilian Film: ____. 3 Hours H / FP.
A theoretical and historical approach to Brazilian film with particular attention to thematic concerns, such as cultural and national identity, and of literary discourse. Given in Portuguese or English. May be repeated for credit as topic varies. Students will be expected to attend film screenings in addition to regular class meetings. Not open to students who have taken PORT 565. Prerequisite: Consent of instructor. LEC.

PORT 388. Intermediate Brazilian Portuguese Conversation. 1 Hour U.
Conversational reinforcement with an emphasis on oral communication skills in a cultural context. Two class meetings per week. Prerequisite: PORT 212 or consent of instructor. LEC.

PORT 394. Special Readings in Brazilian Studies. 1-3 Hours H / FP.
Direct readings in (a) fields not covered by student's course work, and/or (b) field of student's special interest approved by the department. May be repeated for credit if content varies. Prerequisite: PORT 216 and three-hours upper-division credit in Portuguese, or consent of instructor. LEC.

PORT 471. Studies in Brazilian Culture and Civilization: ____. 1-3 Hours H / FP.
A study of Brazilian culture with emphasis on one or more of the following aspects: history, politics, ethnology, anthropology, religious and secular traditions, issues of cultural identity, music, art, architecture, and popular culture. Available only to study-abroad participants. May be repeated for credit if content varies. LEC.

PORT 475. Studies in Brazilian Literature: ____. 1-3 Hours H / FP.
A study of the literature of a particular author, group of authors, period, genre, region, or theme. Available only to study-abroad participants. May be repeated for credit if content varies. LEC.

PORT 488. Advanced Brazilian Portuguese Conversation. 1 Hour U.
Two recitations weekly. More advanced than PORT 388. Prerequisite: PORT 216 or consent of the instructor. LEC.

PORT 490. Intensive Advanced Portuguese. 3-6 Hours H/W / FP.
This is a composition course for students with an intermediate level of the language to develop control of written communication at an advanced level. Advanced composition, conversation, and stylistics, plus an introduction to Brazilian literature. Prerequisite: Four semesters of Portuguese, or consent of instructor. LEC.

PORT 509. Portuguese Phonetics and Phonology. 3 Hours H/W / FP.
An analytical and practical study of contemporary Portuguese phonetics. Prerequisite: PORT 490 and PORT 488, or consent of instructor. LEC.

PORT 540. Textual Analysis and Critical Reading. 3 Hours HL / H / FP.
A more intensive treatment of the content of PORT 340. Not open to students who have taken PORT 340. Prerequisite: Consent of instructor. LEC.
PORT 547. Brazilian Studies: ______. 3 Hours H / FP.
A more intensive treatment of the content of PORT 347. Not open to students who have taken PORT 347. Prerequisite: PORT 216 or consent of instructor. LEC.

PORT 548. Portuguese Language and Brazilian Culture for Business. 3 Hours H / FP.
A more intensive treatment of the content of PORT 348. Course conducted in Portuguese. Not open to students who have taken PORT 348. Prerequisite: Consent of instructor. LEC.

PORT 560. Survey of Portuguese Literature. 3 Hours H/W / FP.
Emphasis on Gil Vicente, Camoes, Eca de Queiroz, and Fernando Pessoa. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 565. Studies in Brazilian Film: ______. 3 Hours H / FP.
A more intensive treatment of the content of PORT 365. Not open to students who have taken PORT 365. Prerequisite: Consent of instructor. LEC.

PORT 611. Accelerated Basic Portuguese for Spanish Speakers. 3 Hours U.
Contrastive phonological and morphological analysis of standard Spanish and the major dialect of Brazilian Portuguese, followed by a presentation of major grammatical and phonological stumbling blocks for Spanish speakers. Drills on grammar, syntax, and pronunciation emphasize those areas in which Brazilian Portuguese differs most significantly from Spanish. Prerequisite: Graduate student status in Spanish. Undergraduates in Spanish may be admitted with consent of instructor. LEC.

PORT 612. Accelerated Basic Portuguese for Spanish Speakers II. 3 Hours U.
A continuation of PORT 611, with special emphasis on reading and writing skills. Prerequisite: PORT 611. LEC.

PORT 740. Survey of Brazilian Literature. 3 Hours.
A survey of Brazilian literature from 1500 to present. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 742. The Brazilian Novel. 3 Hours.
The development of the novel in Brazil and analysis of representative works of the nineteenth and twentieth centuries. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 746. The Brazilian Short Story. 3 Hours.
The development of the short story in Brazil and analysis of representative works of the nineteenth and twentieth centuries. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 750. Brazilian Poetry. 3 Hours.
A study of the principal movements and an analysis of representative works from the colonial period to the present. Emphasis on modernists and post-modernists. Prerequisite: A fourth semester course in Portuguese or consent of instructor. LEC.

PORT 760. Contemporary Brazilian Literature. 3 Hours.
A survey of Brazilian cultural expressions and literature in the Twentieth Century. Conducted in Portuguese. Prerequisite: PORT 216 or consent of instructor. LEC.

PORT 780. Special Readings in Portuguese and Brazilian Literature. 1-3 Hours.
May be taken more than once; total credit not to exceed five hours. Directed private readings with conferences with instructor. Prerequisite: Consent of department. RSH.

PORT 785. Special Topics in Brazilian Cultural and Literary Studies: ______. 3 Hours.
Topics vary by semester. The course may be taken more than once, with full credit, provided there is no duplication in the material covered. Conducted in Portuguese. LEC.

PORT 930. Seminar in Portuguese Literature: ______. 3 Hours.
LEC.

PORT 970. Seminar in Brazilian Literature: ______. 3 Hours.
LEC.

Courses

SPAN 100. Spanish Reading Course. 3 Hours U.
A special course for candidates for advanced degrees designed to aid them in obtaining a reading knowledge of Spanish. Intensive study of the fundamentals of grammar, proceeding to the reading of material of medium difficulty. Open to graduate students and to seniors who are applying for entrance to a graduate school. The course does not satisfy any part of the undergraduate language requirement. This course is primarily for graduate students who are fulfilling their language requirement(s) for advanced degrees. LEC.

SPAN 101. Orientation Seminar in Spanish and Portuguese. 1 Hour H.
Provides an overview of the field of Hispanic Studies. Emphasizes developing an understanding of opportunities in Spanish and Portuguese at KU and the Spanish and Portuguese program curricula, exploring service-learning and other extracurricular options available at KU and beyond, and helping students plan goals for their education through an understanding of their personal values and aspirations as they relate to the field. Graded on a satisfactory/unsatisfactory basis. LEC.

SPAN 104. Elementary Spanish I. 5 Hours U / F1.
For beginning students of Spanish who do not place into SPAN 111. Active preparation and participation required. Classes conducted in Spanish. Not open to native speakers of Spanish. LEC.

SPAN 107. Elementary Spanish Conversation. 1-4 Hours U.
Activities to improve elementary level conversation skills. Does not fulfill any portion of the College of Liberal Arts and Sciences foreign language requirement. Available only to study abroad participants. LEC.

SPAN 108. Elementary Spanish II. 5 Hours U / F2.
For only students who have completed SPAN 104 at the University of Kansas. This course prepares students for Intermediate level study of Spanish. Active preparation and participation is required. Classes conducted in Spanish. Not open to native speakers of Spanish. Offered in spring semester. Prerequisite: SPAN 104. LEC.

SPAN 111. Intensive Elementary Spanish. 5 Hours AE41 / U / F1 / F2.
For students who have had some previous study of Spanish, but who do not place into the Intermediate level. This course prepares students for Intermediate level study of Spanish. Active preparation and participation required. Classes conducted in Spanish. Not open to native speakers of Spanish. Prerequisite: At least one previous high school or college course in Spanish or placement. See departmental guidelines. LEC.

SPAN 170. Hispanic Language, Culture and Civilization I-A: ______. 1-3 Hours U.
For students in their first year of language study or the equivalent. An intensive orientation to the culture of Spanish-speaking countries. Includes elements of grammar, conversation, and composition. Available only to study abroad participants. Will not count toward the Spanish major nor the language requirement. May be repeated for credit if content varies. LEC.
SPAN 171. Hispanic Language, Culture and Civilization I-B: ______. 1-3 Hours U.
A continuation of SPAN 170. For students in their first year of language study or the equivalent. An intensive orientation of the culture of Spanish-speaking countries. Includes elements of grammar, conversation, and composition. Available only to study abroad participants. Will not count toward the Spanish major nor the language requirement. May be repeated for credit if content varies. LEC.

SPAN 177. First Year Seminar: ______. 3 Hours HL GE11.
A limited-enrollment, seminar course for first-time freshmen, organized around current issues in Spanish. May not contribute to major requirements in Spanish. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

SPAN 212. Intermediate Spanish I. 3 Hours AE42 / U / F3.
A fully integrated content-based and form-focused approach to intermediate-level Spanish. Students process and practice a wide range of vocabulary and grammatical structures in order to complete tasks that promote critical exploration of the Spanish-speaking world and the development of listening, reading, speaking, writing, and intercultural competencies. Classes conducted in Spanish. Not open to native speakers of Spanish. Prerequisite: SPAN 108 or SPAN 111 or placement. See departmental guidelines. LEC.

SPAN 213. Honors Intermediate Spanish I. 3 Hours AE42 / U / F3.
Not open to native speakers of Spanish. Prerequisite: SPAN 108 or SPAN 111 with a grade of A, or permission of the department LEC.

A continuation of SPAN 212. A fully integrated content-based and form-focused approach to intermediate-level Spanish. Students process and practice a wide range of vocabulary and grammatical structures in order to complete tasks that promote critical exploration of the Spanish-speaking world and the development of listening, reading, speaking, writing, and intercultural competencies. Emphasis on process writing. Classes conducted in Spanish. Not open to native speakers of Spanish. Prerequisite: SPAN 212 or placement. LEC.

Not open to native speakers of Spanish. Prerequisite: SPAN 212 or SPAN 213 with a grade of A, or permission of the department LEC.

This course is designed for students who would like to acquire proficiency in Spanish more rapidly. The material covered in the course is the same as in SPAN 212 and 216. Not open to native speakers of Spanish. Prerequisite: SPAN 108 or SPAN 111, with a grade of A or B. LEC.

SPAN 270. Hispanic Language, Culture and Civilization II-A: ______. 1-3 Hours U.
For students in their second year of language study or the equivalent. An intensive orientation to the culture of Spanish-speaking countries. Includes elements of grammar, conversation, and composition. Available only to study abroad participants. Will not count toward the Spanish major nor the language requirement. May be repeated for credit if content varies. LEC.

SPAN 271. Hispanic Language, Culture and Civilization II-B: ______. 1-3 Hours U.
A continuation of SPAN 270. For students in their second year of language study or the equivalent. An intensive orientation to the culture of Spanish-speaking countries. Includes elements of grammar, conversation, and composition. Available only to study abroad participants. Will not count toward the Spanish major nor the language requirement. May be repeated for credit if content varies. LEC.

SPAN 300. Developments in Hispanic Cultures. 3 Hours HL AE42 / H.
The development of social and cultural patterns in the Spanish-speaking world, including the intersection of those patterns with issues related to politics, economics and/or personal values. Assigned readings may be in English or in Spanish. Does not count toward the Spanish major. Prerequisite: SPAN 108, SPAN 109, or SPAN 111; or two years of high school Spanish. LEC.

SPAN 302. The Spanish Inquisition. 3 Hours AE42 / H.
A broad historical study of the Spanish Inquisition from 1478 to its afterlife in modern culture, including its use in political debates and its depiction in popular culture. Topics include anti-Semitism, the nature of the inquisitorial investigation, the use of torture, censorship and the relationship between the Inquisition, the Spanish monarchy and other religious and lay authorities. Taught in English. Will not count toward the Spanish major. (Same as HIST 325 and JWSH 315.) LEC.

SPAN 322. Spanish Grammar: Form and Meaning in Context. 3 Hours U / FP.
Analysis of the most important morphological and syntactic phenomena with an emphasis on their form and function through a review of salient grammatical points in preparation for advanced work in Spanish. Recommended for students who have completed Spanish 216, 217, or 220 with a grade of C or higher, or placement through examination. Course does not count toward the Major. Prerequisite: Four semesters of college-level Spanish or the equivalent. Students who have taken SPAN 324 or SPAN 325 may take this course with the permission of instructor. LEC.

SPAN 323. Spanish Composition and Cultural Analysis. 3 Hours U / FP.
Systematic review of writing in Spanish, intensive study of vocabulary and stylistics for formal written communication, and development of essential writing and analytical skills for advanced courses in Spanish. Prerequisite: SPAN 216 or SPAN 217 or SPAN 220 with a grade of C or higher; or SPAN 322, or consent of instructor. LEC.

SPAN 324. Grammar and Composition. 3 Hours U / FP.
Systematic grammar review and development of essential writing skills for advanced courses in Spanish. Recommended for students with a grade of B or better in SPAN 216, SPAN 217, or SPAN 220. Concurrent enrollment in SPAN 328 is strongly recommended, and completion of both SPAN 324 and SPAN 328 is required for enrollment in SPAN 340 and SPAN 346. Prerequisite: SPAN 216 or SPAN 217 or SPAN 220 with a grade of C or higher; or SPAN 322. LEC.

SPAN 325. Spanish for Heritage Learners. 3 Hours H / FP.
A comprehensive review of the Spanish language for students whose personal or cultural ties to the language do not include extensive formal academic study, with an emphasis on the development of skills tied to cultural analysis and communication (written and oral) necessary for success in more advanced courses in Spanish. Prerequisite: SPAN 216, or SPAN 217, or SPAN 220, or appropriate placement test score as defined by the Department of Spanish Portuguese, or consent of the Department of Spanish Portuguese, or consent of instructor. LEC.

SPAN 326. Spanish for Health Care Workers. 3 Hours / FP.
This course is designed to provide students with the linguistic and cultural competencies necessary to communicate with and help treat Spanish speaking patients with limited English proficiency. Includes a general review of pertinent grammar, specific vocabulary groups relating to assessment and care of patients, vocabulary to establish rapport, and discussions leading to cultural competencies. Students who have
completed SPAN 424 or above may take the course with the permission of the instructor. Prerequisite: Completion of SPAN 216 with a grade of C or better. LEC.

SPAN 328. Intermediate Spanish Conversation. 2 Hours U / FP. Conversational reinforcement of topics presented in SPAN 323 or SPAN 324 with an emphasis on oral communication skills in a cultural context. Concurrent enrollment in SPAN 324 is strongly recommended. Completion of both 324 and 328 is required for enrollment in SPAN 340 and SPAN 346. Two class meetings per week. Not available to study abroad participants. Prerequisite: SPAN 216 or SPAN 217 or SPAN 220 with a grade of C or higher; or SPAN 322. LEC.

SPAN 329. Intermediate Spanish Conversation II. 1 Hour U / FP. Two class meetings per week. Continuation of SPAN 328. Not open to native speakers of Spanish. Prerequisite: SPAN 328 or consent of instructor. LEC.

SPAN 330. Service Learning Internship Spanish. 1-3 Hours U / FP. An opportunity for students to utilize and improve their Spanish language skills in an internship or volunteer work in business, schools, government, hospitals, churches, and various types of service organizations. Students must have approval of instructor to register and must provide written confirmation of acceptance for volunteer work in an agency that provides service to a Spanish-speaking public before the course begins. Periodic supervisor evaluations and a reflection journal in Spanish are required, in addition to other materials requested by the instructor. Class format may be an independent internship taken for variable credit under instructor supervision. Will not count toward Spanish major. Prerequisite: Students must have completed a minimum of 12 hours of Spanish in courses at the 200-level or above, and completion of SPAN 324 with a grade of B or better. LEC.

SPAN 340. Textual Analysis and Critical Reading. 3 Hours HL GESH / H/W / FP. Critical readings and interpretation of Hispanic literatures, with emphasis on acquiring the skills and vocabulary necessary for discussing and writing literary analyses. Taught in Spanish. Prerequisite: SPAN 323, or SPAN 324 and SPAN 328, or SPAN 325. A grade of B- or higher in SPAN 323 or SPAN 324 or SPAN 325 is strongly recommended for students enrolling in this course. Concurrent enrollment in SPAN 346 is strongly recommended. LEC.

SPAN 346. Transatlantic Hispanic Cultures. 3 Hours H / FP. This course offers an introductory overview of Hispanic cultures, focusing on the political, economic, social, linguistic, and artistic development that shaped the historical and cultural bonds between Latin America and Spain. Enhances the cultural competence acquired in previous Spanish classes and prepare students for upper-level work in the major. Taught in Spanish. Prerequisite: SPAN 323, or SPAN 324 and SPAN 328, or SPAN 325. A grade of B- or higher in SPAN 323 or SPAN 324 or SPAN 325 is strongly recommended for students enrolling in this course. Concurrent enrollment in SPAN 340 is strongly recommended. LEC.

SPAN 370. Hispanic Language, Culture and Civilization III-A: ____. 1-3 Hours U / FP. An intensive orientation to the culture of Spanish-speaking countries. Also includes elements of grammar, conversation, and composition. Available only to study abroad participants. Will not count toward the Spanish major. May be repeated for credit if content varies. LEC.

SPAN 371. Hispanic Language, Culture and Civilization III-B: ____. 1-3 Hours U / FP. A continuation of SPAN 370. An intensive orientation to the culture of Spanish-speaking countries. Also includes elements of grammar, conversation, and composition. Available only to study abroad participants. Will not count toward the Spanish major. May be repeated for credit if content varies. LEC.

SPAN 390. Interpretation of Hispanic Literature. 3 Hours H. A study of selected works in literary theory that are pertinent to the field of Hispanism and of selected problems in literary interpretation and comparative literature methodology, designed to examine and apply systematically basic critical principles and approaches to the field of Hispanic literature. Discussion of these approaches is related to the previous study of literature and deepened through individual papers written by participants and presented to the group. Does not count toward the major in Spanish. Prerequisite: Completion of one junior-senior course in a language and literature department. LEC.

SPAN 424. Advanced Spanish Composition and Grammar. 3 Hours H/W / FP. Extensive practice in writing, with attention to vocabulary, grammar usage, and discourse structure. Thorough review of syntax and grammar. Conducted in Spanish. Concurrent enrollment in SPAN 428 is strongly recommended. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 428. Advanced Spanish Conversation. 2 Hours U / FP. Emphasis on developing fluid expression of opinions, ideas, and points of view through discussion of selected texts and cultural materials. Two class meetings per week. Taught in Spanish. Concurrent enrollment in SPAN 424 is recommended. Prerequisite: SPAN 340 or consent of instructor. A grade of C or higher in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 429. Spanish Phonetics. 3 Hours H/W / FP. An analytical and practical study of contemporary Spanish phonetics. Prerequisite: SPAN 424 and SPAN 428, or consent of instructor. LEC.

SPAN 440. Hispanic Studies: ____. 3 Hours H/W / FP. A topics course dedicated to the study of special historical moments, topics, authors, or themes in literary and cultural history. Readings may include selections from both Spain and the countries of Spanish America. The course may cover multiple genres, authors, periods, or regions. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 441. Special Topics in Spanish Literature and Culture: ____. 1-3 Hours H / FP. A topics course dedicated to the study of special historical moments, topics, authors, or themes in Spanish literary and cultural history. The course may cover multiple genres, authors, periods, or regions. Course conducted in Spanish and may be repeated for credit as the topic varies. This course may be used to partially or fully fulfill 400-level Spanish literature requirement. Prerequisite: SPAN 340 or consent of instructor. A grade of C or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 442. Special Topics Latin American Literature and Cultures: ____. 1-3 Hours H / FP. A topics course dedicated to the study of special historical moments, topics, authors, or themes in Latin American literary and cultural history. The course may cover multiple genres, authors, periods, or regions. Course conducted in Spanish and may be repeated for credit as the topic varies. This course may be used to partially or fully fulfill 400-level Latin American literature requirement. Prerequisite: SPAN 340 or consent of instructor. A grade of C or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.
SPAN 446. Spanish Culture. 3 Hours H/W / FP.
A study of the development of Spanish culture with particular emphasis on history, customs and traditions, and literary trends and artistic tendencies that constitute Spain's specific contribution to Western civilization. Conducted in Spanish. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 447. Latin American Cultures: ____. 3 Hours H/W / FP.
The description and interpretation of Latin American cultures, with particular attention to history, ethnology, folklore, and the arts. The course may focus on particular countries or geographical areas. Conducted in Spanish. May be repeated for credit as topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 448. Spanish Language and Culture for Business. 3 Hours H / FP.
Cultural studies approach to contemporary Spanish American societies for students with an interest in business. Explores how individuals from Spanish American countries negotiate their place in a new cultural context, and how different groups in Spanish America perceive business (negocios). Readings include selections from literature, history, journalism, social analysis, and popular culture. Exercises help non-native speakers develop analytical skills as well as vocabulary and communication skills related to international business and professional life. Conducted in Spanish. Prerequisite: SPAN 323, or SPAN 324 and SPAN 328, or SPAN 325, or consent of instructor. A grade of B- or higher in SPAN 323, 324 or 325 is strongly recommended for students enrolling in this course. LEC.

SPAN 450. Medieval Spanish Studies: ____. 3 Hours H / FP.
Reading and analysis of Spanish literature and culture to 1500. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 451. Early Modern Spanish Studies: ____. 3 Hours H / FP.
Reading and analysis of Spanish literature and culture from 1500 to 1800. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 452. Nineteenth Century Spanish Studies: ____. 3 Hours H / FP.
Reading and analysis of the literature and culture of Spain of the 1800s. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 453. Twentieth Century Spanish Studies: ____. 3 Hours H / FP.
Reading and analysis of the literature and culture of Spain from 1900 to the present. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 454. Twentieth Century Spanish-American Studies: ____. 3 Hours H / FP.
Reading and analysis of Spanish-American literature and culture from the Conquest to Independence, organized by topic. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 455. Nineteenth Century Spanish-American Studies: ____. 3 Hours H / FP.
Reading and analysis of Spanish-American literature and culture from Independence to 1900, organized by topic. The course may cover multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 456. National Traditions in Spanish America: ____. 3 Hours H / FP.
Reading and analysis of Spanish-American literature and cultural history from the perspective of a selected nation or nations. The course explores the role of literature and cultural expression in constructing the modern nation and local traditions. Readings may cover selections from multiple genres, authors, and periods. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of "C" or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 457. Studies in Spanish-American Culture: ____. 3 Hours H / FP.
A study of Spanish culture with emphasis on one or more of the following aspects: history, politics, ethnology, anthropology, religious and secular traditions, issues of cultural identity, music, art, architecture, and popular culture. Available only to study-abroad participants. Maybe repeated for credit if content varies. LEC.

SPAN 458. Spanish Language and Culture for Business. 3 Hours H / FP.
The course covers multiple genres, authors, periods, regions, or topics. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 340 or consent of instructor. A grade of C or better in SPAN 340 is strongly recommended for students enrolling in this course. LEC.

SPAN 470. Studies in Spanish Culture and Civilization: ____. 1-3 Hours H / FP.
A study of Spanish culture with emphasis on one or more of the following aspects: history, politics, ethnology, anthropology, religious and secular traditions, issues of cultural identity, music, art, architecture, and popular culture. Available only to study-abroad participants. Maybe repeated for credit if content varies. LEC.

SPAN 471. Studies in Spanish-American Culture and Civilization: ____. 1-3 Hours H / FP.
A study of Spanish American national or regional culture with emphasis on one or more of the following aspects: history, politics, ethnology, anthropology, religious and secular traditions, issues of cultural identity, music, art, architecture, and popular culture. Available only to study-abroad participants. Maybe repeated for credit if content varies. LEC.
SPAN 474. Studies in Spanish Literature and Culture: ____. 1-3 Hours H / FP.
A study of the literature and cultural production of a particular author, group of authors, period, genre, region, or theme. Available only to study-abroad participants. May be repeated for credit if content varies. LEC.

SPAN 475. Studies in Latin-American Literature and Culture: ____. 1-3 Hours H / FP.
A study of the literature and cultural production of a particular author, group of authors, period, genre, country, region, or theme. Available only to study-abroad participants. May be repeated for credit if content varies. LEC.

SPAN 494. Special Readings in Spanish. 1-3 Hours H/W / FP.
Directed reading in (a) fields not covered by student's course work, and/or (b) field of student's special interest approved by the department. Conferences. May be repeated for credit if content varies. Prerequisite: Twenty-five hours of Spanish. IND.

SPAN 496. Honors in Spanish. 3 Hours AE61 / H/W / FP.
Honors seminar. May be repeated for credit. Required of all students working for a degree with honors in Spanish. IND.

SPAN 500. Hispanic Literature in Translation: ____. 3 Hours H.
A study of the literature in English translation of a particular author, period, genre, country, region, or theme. Discussion in English and frequent critical papers. All course readings and writing assignments are also in English. May be repeated for credit as the topic varies. Will not count toward the Spanish major. Prerequisite: Completion of one junior-senior level literature course in any language. LEC.

SPAN 501. Studies in Hispanic Literature: ____. 3 Hours H.
A study of the literature of a particular author, period, genre, country, region, or theme. May be repeated for credit as the topic varies. May be taken for elective credit in the Spanish major. Will not count toward the Latin American literature requirement in the Spanish major. Prerequisite: SPAN 340, plus completion of one junior-senior level literature course in any language. LEC.

SPAN 520. Structure of Spanish. 3 Hours H/W / FP.
A study of the Spanish language as it is spoken today, from perspectives of contemporary linguistics. Reading and analysis of recent publications in the field. Prerequisite: SPAN 424 and SPAN 428, or consent of the instructor. LEC.

SPAN 522. Advanced Studies in Spanish Language: ____. 3 Hours H/W / FP.
Extensive language analysis and practice on one topic such as stylistics, translation, conversation/spoken discourse, or creative writing. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 424 and SPAN 428, or consent of the instructor. LEC.

SPAN 540. Colloquium on Hispanic Studies: ____. 3 Hours AE61 / H / FP.
An advanced course dedicated to the critical study of special historical moments, topics, authors or themes in literary and cultural history. This course is designed to provide sophistication, focus, and analytical depth in literary and cultural study through exploration of secondary sources as well as theoretical material. Reading may include selections from both Spain and the countries of Spanish America and may cover multiple genres, authors, periods, or regions. Course conducted in Spanish and may be repeated for credit as the topic varies. Prerequisite: SPAN 424 and six hours of 400-level Spanish literature courses. LEC.

SPAN 550. Colloquium on Spanish Film. 3 Hours AE61 / H / FP.
A theoretical and historical exploration of Spanish cinema. Students will be expected to attend film screenings in addition to regular class meetings. Prerequisite: SPAN 424 and six hours of 400-level Spanish literature courses. LEC.

SPAN 560. Colloquium on Latin American Film. 3 Hours AE61 / H / FP.
An overview of Latin American cinema from its origins to the present with particular attention to thematic concerns, such as cultural and national identity, and of literary discourse. Students will be expected to attend film screenings in addition to regular class meetings. Prerequisite: SPAN 424 and six hours of 400-level Spanish literature courses. LEC.

SPAN 570. Studies in Hispanic Linguistics: ____. 3 Hours U / FP.
Theoretical and applied analysis of one or more of the following components of the Spanish language: phonology/phonetics, morphology, syntax, semantics, pragmatics. May be repeated for credit if content varies. Prerequisite: SPAN 424 and SPAN 428. LEC.

SPAN 681. Language Teaching for Oral Proficiency. 1 Hour AE61 / U / FP.
A summer course designed principally for secondary school language teachers. Provides an orientation to proficiency-based models in foreign language instruction, national standards in the rating of foreign language proficiency, and curriculum development sessions which address issues of articulation in foreign language curricula. (Not applicable toward a major or graduate degree in German.) (Same as FREN 681.) LEC.

SPAN 717. History of the Spanish Language. 3 Hours.
The phonological and lexical development of the Spanish language from spoken Latin to the present; major dialectal features. Prerequisite: A course in Spanish phonetics. LEC.

SPAN 720. Syntax and Composition. 3 Hours.
Syntactical analysis of modern Spanish usage; principles of expository writing. Prerequisite: A course in advanced composition or structure, or graduate standing. LEC.

SPAN 722. Special Topics in Spanish Literature: ____. 2-3 Hours.
The content of this course will vary, and the course may be taken more than once with full credit, provided there is no duplication in the material studied. Prerequisite: A survey course in Spanish peninsular literature taught in Spanish. LEC.

SPAN 730. Topics in the Literature of 13th- and 14th-Century Iberia: ____. 3 Hours.
A theoretically informed study of representative works from 13th- and 14th-century Iberia. Course may be repeated for credit provided that the topic changes. LEC.

SPAN 733. Print Culture in Early Modern Spain. 3 Hours.
A study of the literature produced during the period of early printed books with emphasis on the diffusion of new literary forms during the late 15th- and early 16th-centuries. LEC.

SPAN 735. Poetry and Sentimental Romance in Fifteenth-Century Castile. 3 Hours.
Survey of the poetry and prose of the fifteenth century with particular attention to the literature produced during the reign of Isabel de Castilla. LEC.

SPAN 739. Topics in Early Modern Spanish Drama: ____. 3 Hours.
Selected plays of such authors as Lope de Vega, Tirso de Molina, Calderón, and María de Zayas. Course may be repeated for credit provided that the topic changes. LEC.

SPAN 742. Topics in the Early Modern Spanish Prose: ____. 3 Hours.
From the Celestina to the middle of the seventeenth century. Course may be repeated for credit provided that the topic changes. LEC.
SPAN 744. Topics in Early Modern Spanish Poetry: _____. 3 Hours.
A theoretically informed study of selected works of poetry in Spanish from the 15th through 17th centuries. Course may be repeated for credit provided that the topic changes LEC.

SPAN 745. Don Quixote. 3 Hours.
Linguistic and literary study. Examination of traditional interpretations. The life and thought of Cervantes. Theoretical readings. LEC.

SPAN 752. Spanish Literature of the 18th Century. 3 Hours.
The neo-classic movement; the traditionalist reaction; the beginnings of Romanticism. Prerequisite: A survey course in Spanish literature from the 18th century to the present. LEC.

SPAN 754. Romanticism. 3 Hours.
The development of the Romantic movement in Spain. Prerequisite: A survey course in Spanish literature from the 18th century to the present. LEC.

SPAN 755. 19th Century Spanish Novel. 3 Hours.
The rise and development of realism. Prerequisite: A survey course in Spanish literature from the 18th century to the present. LEC.

SPAN 760. 19th Century Spanish Drama. 3 Hours.
A survey of the main currents and aesthetics in the nineteenth-century Spanish theatre: NeoClassicism, Romanticism, Costumbrismo, Realismo (Alta Comedia), NeoRomanticism, and the innovations of Galdos and Benavente. Prerequisite: A survey course in Spanish literature from the 18th century to the present. LEC.

SPAN 761. 20th Century Spanish Drama. 3 Hours.
A survey of major plays and playwrights of 20th century Spain with reference to critical theory of text as literature and performance. LEC.

SPAN 762. The Spanish Novel Since the Civil War. 3 Hours.
A study of the major works and movements occurring since the Spanish Civil War. LEC.

SPAN 764. Modern Spanish Poetry. 3 Hours.
Modern poetry of Spain, beginning with Becquer and ending with the "Generation of the 1920's." Close study of the works of the major poets; readings in poetic theory. Prerequisite: A general survey course of the literature of Spain of the 18th, 19th, and 20th centuries. LEC.

SPAN 765. Contemporary Spanish Poetry. 3 Hours.
Contemporary poetry of Spain, beginning with the "Generation of the 1920's" and including the post-Civil War period. Close study of the work of several poets; readings in poetic theory. Prerequisite: A general survey course in the literature of Spain since the Golden Age. LEC.

SPAN 770. Spanish-American Drama. 3 Hours.
Study of several exceptional plays of 20th century Spanish America in light of critical methodologies, national theatre movements, and performance aspects. LEC.

SPAN 771. Spanish-American Literature: _____. 3 Hours.
A survey by region or country (Mexican literature, Cuban literature, Argentine literature, Caribbean literature, etc.) of Spanish American literature from the beginning to the present, with emphasis on the 19th and 20th centuries. Course title will vary by country or region. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 772. The Modern Spanish-American Novel, 1900-1950. 3 Hours.
A study of selected novels in Spanish America from the 1900 to 1950. Topics may vary. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 773. The Modern Spanish-American Novel Since 1950. 3 Hours.
A study of selected novels in Spanish America since 1950. Topics may vary. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 774. Spanish-American Poetry. 3 Hours.
A study of the twentieth century poetic tradition in Spanish America, including major movements and a range of poets who represent the variety of writing in the genre until the 21st century. LEC.

SPAN 776. Spanish-American Short Story. 3 Hours.
A study of aspects of the short story tradition in Spanish America from its origins to the present. Topics may vary. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 780. Introduction to Hispanic Studies. 3 Hours.
What does the field of Hispanic Studies encompass? How do we understand our roles as scholars, as teachers, and as members of our communities? How does the field of Hispanic Studies reflect and act upon the dialectics between our thoughts, our actions, our words, and our worlds? With specific attention to incoming graduate students, this course sets out to show how Hispanic Studies is a venue to engage in transdisciplinary work and through a variety of methods and approaches. SPAN 780 invites students to reflect on their current career path, and on their role as beginning scholars in Hispanic Studies. The course combines theoretical texts with various forms of cultural expression - including the literary- providing incoming graduate students with a glimpse at the multiple directions and possibilities in the field. In addition, it exposes incoming students to resources available to them at KU, both in and outside the department. Prerequisite: Graduate student status in Spanish. Undergraduates in Spanish may be admitted with consent of instructor. LEC.

SPAN 781. Colonial Identities. 3 Hours.
This course centers on the dynamics of identity of Creoles, Amerindians, Blacks and members of the castes in colonial Spanish America. It concentrates on how members of these racial and ethnic groups relate to coloniality, space, place and gender. LEC.

SPAN 782. Spanish-American Prose Fiction: _____. 3 Hours.
A survey by region or country (Mexican Prose Fiction, Cuban Prose Fiction, Argentine Prose Fiction, Caribbean Prose Fiction, etc.) of Spanish American Prose Fiction from the beginning to the present, with emphasis on the 19th and 20th centuries. Course title will vary by country or region. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 784. Spanish-American Modernism and Vanguards. 3 Hours.
A study of the poetry and/or prose of modernismo and the vanguards in Spanish America. Prerequisite: One course in Spanish American literature or permission of instructor. LEC.

SPAN 785. Special Topics in Spanish-American Literature: _____. 2-3 Hours.
The content of this course will vary, and the course may be taken more than once, with full credit provided there is no duplication in the material covered. Prerequisite: A survey course in Spanish American literature. LEC.

SPAN 789. Spanish Linguistics: Theory and Application to Teaching. 3 Hours.
An introduction to linguistics and applied linguistics focused on the phonology, morphology, and syntax of Spanish, including work in tagmemics and transformational grammar. Part of the course deals with problems of language instruction, testing, and use of the language laboratory. LEC.
SPAN 792. Topics in the Picaresque Novel: _____ 3 Hours.
A theoretically informed study of the picaresque mode in Spanish and Spanish-American literature. Course may be repeated for credit provided that the topic changes. LEC.

SPAN 795. Literary Theory and Criticism. 3 Hours.
Systematic study of the development of theories of literature. Emphasis usually placed on twentieth century although scope may vary. Prerequisite: 700-level course in Spanish or concurrent enrollment. LEC.

SPAN 801. Teaching Spanish in Institutions of Higher Learning. 3 Hours.
Required of all teaching assistants who teach beginning Spanish at the University of Kansas for the first time. Instruction in classroom procedures for first year Spanish, demonstration of teaching techniques, and survey of current methodology. FLD.

SPAN 802. Colloquium in Methods of Teaching Spanish Language. 1-3 Hours.
Combines discussion of theoretical teaching concepts and development of pedagogical materials with practical solutions arising concurrently in Spanish languages courses. LEC.

SPAN 817. Spanish Historical Grammar. 3 Hours.
A diachronic study of the syntax and morphology of Spanish from the thirteenth century to the present; sound change and orthography; evolution of literary styles. Prerequisite: A course in Spanish phonetics. LEC.

SPAN 898. Investigation and Conference. 1-10 Hours.
Individually directed work to fill the student’s needs not met by available organized courses. One to three hours of credit in any semester. Maximum total credit for the M.A. degree is three hours. May be taken with full credit as often as recommended by department. THE.

SPAN 922. Seminar in Spanish Literature and Culture: _____ 3 Hours.
An intensive investigation of a particular topic in Spanish Literature and Culture; content will vary in terms of topics, genres, and time periods covered. The course may be taken more than once with full credit provided there is no duplication. Prerequisite: Graduate standing. LEC.

SPAN 940. Seminar in Trans-Atlantic Literatures and Cultures: _____ 3 Hours.
An intensive investigation of a particular topic in Spanish and Latin American Literatures and Cultures; content will vary in terms of topics, genres, and time periods covered. The course may be taken more than once, with full credit provided there is no duplication. Prerequisite: Graduate standing. SEM.

SPAN 950. Seminar: Spanish Drama: _____ 3 Hours.
LEC.

SPAN 952. Seminar: Spanish Novel: _____ 3 Hours.
LEC.

SPAN 954. Seminar: Spanish Poetry: _____ 3 Hours.
LEC.

SPAN 956. Seminar: Spanish Short Story: _____ 3 Hours.
LEC.

SPAN 961. Seminar: Medieval Literature: _____ 3 Hours.
LEC.

SPAN 962. Seminar: Cervantes: _____ 3 Hours.
LEC.

SPAN 970. Seminar: Spanish American Drama: _____ 3 Hours.
LEC.

LEC.

SPAN 974. Seminar: Spanish American Poetry: _____ 3 Hours.
LEC.

SPAN 976. Seminar: Spanish American Short Story: _____ 3 Hours.
LEC.

LEC.

SPAN 985. Seminar in Spanish American Literature and Culture: _____ 3 Hours.
An intensive investigation of a particular topic in Spanish American Literatures and Cultures; content will vary in terms of topics, genres, and time periods covered. The course may be taken more than once, with full credit provided there is no duplication. Prerequisite: Graduate standing. SEM.

SPAN 999. Dissertation. 1-12 Hours.
Dissertation hours. Graded on a satisfactory progress/limited progress/no progress basis. THE.

Bachelor of Arts in Spanish

Why study Spanish and Portuguese?
Spanish, the second most spoken language in the world with approximately 559 million speakers, is the official language in 21 countries. Moreover, according to the Instituto Cervantes, the United States ranks second behind Mexico in the number of Spanish speakers. Similarly, Portuguese, the official language in 9 nations, is spoken by approximately 210 million people over the world (the sixth most spoken language). Fluency in more than one language and an understanding of literary and cultural texts create educated citizens who can contribute to the betterment of our society.

A major or minor in Spanish or Portuguese demonstrates to future employers and/or graduate schools that you have achieved a certain level of linguistic ability and understanding of Hispanic cultures. Our curriculum is designed to help students hone their oral and written language skills and to learn more about Spanish, Spanish American, and Luso-Brazilian cultures through literary and cultural studies. This knowledge is highly beneficial if you plan a career path with an international component or with an orientation toward the predominantly Hispanic populations in the United States. The major is useful in such diverse careers as advertising, marketing, journalism, health services, government, social welfare, and public administration (to name only a few). For a list of possible career paths in Spanish and Portuguese, visit the University Career Center website at https://career.ku.edu/.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.
Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

**First- and Second-Year Preparation**

Majors are strongly encouraged to study abroad in a Spanish-speaking country. Please see your advisor about this opportunity.

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 32 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

Below is a sample 4-year plan for students pursuing the BA in Spanish. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

<td>3</td>
<td>3</td>
</tr>
<tr>
<td>Elective or possible minor course (Total Hours)</td>
<td>3</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Hours 12-121

1 The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.

2 The Spanish department recommends that students with prior Spanish experience begin with SPAN 111. Only students with no prior Spanish experience should begin in SPAN 104 and permission of an advisor is required for enrollment.

3 Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.

4 Spanish majors must have completed 6 credit hours of Hispanic Literature (SPAN 440 or above) coursework before taking the Spanish Capstone course.

Please note:
All students in the College of Liberal Arts and Sciences are required to completed 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

**Departmental Honors**

Undergraduates contemplating honors work should consult their advisers. A declaration of intent form must be submitted to the department. The department notifies students of acceptance to candidacy. At graduation, the student must have a minimum grade-point average of 3.5 in Spanish. 6 hours in SPAN 496 Honors in Spanish generally are required, which may be fulfilled in a variety of ways as described here: each 3-hour SPAN 496 course will include a major research paper. While enrolled in SPAN 496, the student completes 2 courses, one in Peninsular literature and the other in Spanish American literature, from the following options:

1. Graduate courses at the 700 level;
2. Upper-division literature courses at the 500 level, including SPAN 540, SPAN 550, and SPAN 560 (only available to students who have already completed the 500-level capstone course);
3. An independent study course (may only be taken once for SPAN 496 credit).

The student attends 2 courses for SPAN 496 credit and writes 2 honors papers under the supervision of 1 or more faculty members. A committee of 3 faculty members evaluates these papers, and the student makes an oral summary of their content.

**Study Abroad**

The department offers summer programs in Barcelona, Spain; Buenos Aires, Argentina, Salvador (Bahia), Brazil. KU offers semester/academic year programs in San José, Costa Rica, Buenos Aires, Argentina, and Salamanca, Spain. More information is available from the Office of Study Abroad (http://www.studyabroad.ku.edu/).

Graduate students have the opportunity to teach and conduct research during summer sessions in Buenos Aires, Argentina; or Barcelona, Spain. The department also has a graduate exchange agreement with the University of Santiago de Compostela, Spain.

**Minor in Brazilian Studies**

**Why study Spanish and Portuguese?**

Spanish, the second most spoken language in the world with approximately 559 million speakers, is the official language in 21 countries. Moreover, according to the Instituto Cervantes, the United States ranks second behind Mexico in the number of Spanish speakers. Similarly, Portuguese, the official language in 9 nations, is spoken by approximately 210 million people over the world (the sixth most spoken language). Fluency in more than one language and an understanding of literary and cultural texts create educated citizens who can contribute to the betterment of our society.

A minor in Brazilian Studies demonstrates to future employers and/or graduate schools that you have achieved a certain level of linguistic ability and understanding of Hispanic cultures. Our curriculum is designed to help students hone their oral and written language skills and to learn more about Spanish, Spanish American, and Luso-Brazilian cultures through literature and cultural studies. This knowledge is highly beneficial if you plan a career path with an international component or with an orientation toward the predominantly Hispanic populations in the United States. The Brazilian Studies Minor is useful in such diverse careers as advertising, marketing, journalism, health services, government, social welfare, and public administration (to name a few). For a list of possible career paths in Spanish and Portuguese, visit the University Career Center website at https://career.ku.edu/.

**Requirements for the Brazilian Studies Minor**

This program consists of 6 3-credit-hour courses (for a total of 18 credit hours) in which students pursue Brazilian studies beyond the 3 first semesters of basic language classes. In consultation with departmental advisors, students combine their course work in several academic areas, such as language, business, economics, film and media studies, geography, history, political science, and theatre.

**Brazilian Studies Minor Course Requirements**

Students selecting this minor must complete the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tr>
</tbody>
</table>
Schools that you have achieved a certain level of linguistic ability and a minor in Spanish demonstrates to future employers and/or graduate citizens.

The Spanish minor provides students the opportunity to achieve cultural and linguistic competency and complements many majors within the College as well as other degree programs across the University. Students hone their oral and written language skills and to learn more about Spanish, Spanish American, and Luso-Brazilian cultures through literary and cultural studies. This knowledge is highly beneficial if you plan a career path with an international component or with an orientation toward the predominantly Hispanic populations in the United States. The minor is useful in such diverse careers as advertising, marketing, journalism, health services, government, social welfare, and public administration (to name only a few). For a list of possible career paths in Spanish and Portuguese, visit the University Career Center website.

### Study Abroad

The department offers summer programs in Barcelona, Spain; Buenos Aires, Argentina, Salvador (Bahia), Brazil. KU offers semester/academic year programs in San José, Costa Rica, Buenos Aires, Argentina, and Salamanca, Spain. More information is available from the Office of Study Abroad (http://www.studyabroad.ku.edu/).

Graduate students have the opportunity to teach and conduct research during summer sessions in Buenos Aires, Argentina; or Barcelona, Spain. The department also has a graduate exchange agreement with the Universidade de Santiago de Compostela, Spain.
Master of Arts in Spanish

The master's degree program provides students with the opportunity to study the major movements and writers in Iberia and Latin America, acquire the critical and theoretical tools necessary to engage literary and cultural analysis with sophistication, and develop communicative competence through pedagogical and scholarly formation.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

1. The applicant must hold (or anticipate completing by the time of admission) a B.A. or B.S. degree from an accredited U.S. college or university or the equivalent degree from a foreign university, must have 15 semester hours of literature courses at the survey level or above in Spanish or the equivalent of the undergraduate major in Spanish at KU, and must have a minimum grade-point average of 3.0 on a 4.0 scale, both in Spanish and overall.

2. The selection committee gives strong consideration to letters of recommendation, the breadth and depth of preparation, and Graduate Record Examination scores, if available. Deficiencies in preparation specified by the selection committee may be made up early in the graduate program, although the time required to complete the degree is correspondingly greater.

Submit your graduate application online (https://gradapply.ku.edu/apply/). Send all other requested application materials to the department:

The University of Kansas
Department of Spanish and Portuguese
Wescoe Hall
1445 Jayhawk Blvd., Room 2650
Lawrence, KS 66045

M.A. Degree Requirements

The department offers the M.A. degree with a concentration in literature or language/literature/culture.

At least 50% of coursework for the master's degree must be taken at the 700 level or above.

Literature Concentration Requirements

1. A minimum of 30 hours of graduate credit in literature, including one seminar in Peninsular literature or in Spanish-American literature.

2. A reading knowledge of another foreign language, as approved by the department.

3. A general examination in the field of Hispanic literature, partly written and partly oral.

Language/Literature/Culture Concentration Requirements

1. A minimum of 30 hours of graduate credit, as listed below.

2. A general examination, partly written and partly oral, based on the appropriate department reading lists for this degree.

   a. Language and Culture (12 hours), including courses in phonetics and the structure of Spanish if they have not been taken at the undergraduate level.

   b. Literature (12 hours), including at least 3 credit hours of course work in each of the three major genres (fiction, theatre, poetry). One course in this category must be a seminar.

   c. One additional course in the department (3 hours) in any field. (PORT 611 counts in this category.)

   d. One graduate-level course (3 hours) in a second language (excluding PORT 611).

Study Abroad

The department offers summer programs in Barcelona, Spain; Buenos Aires, Argentina, Salvador (Bahia), Brazil. KU offers semester/academic year programs in San José, Costa Rica, Buenos Aires, Argentina, and Salamanca, Spain. More information is available from the Office of Study Abroad (http://www.studyabroad.ku.edu/).

Graduate students have the opportunity to teach and conduct research during summer sessions in Buenos Aires, Argentina; or Barcelona, Spain. The department also has a graduate exchange agreement with the Universidade de Santiago de Compostela, Spain.

Doctor of Philosophy in Spanish

The Department of Spanish and Portuguese has developed a Ph.D. to address the needs of a new generation of doctoral students in the humanities. The program provides a rigorous and comprehensive education in the traditional disciplines of Iberian and Latin American literary studies, while also allowing for engagement with larger issues relating to the role of the humanities in the contemporary world. Students admitted to the doctoral program will have the opportunity to develop research interests under the guidance of diverse faculty and to acquire the skills to teach successfully at the University level.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to
Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission

1. The applicant must hold (or anticipate completing by the time of admission) an M.A. or M.S. degree from an accredited U.S. college or university or the equivalent degree from a foreign university; must have a minimum grade-point average of 3.0 on a 4.0 scale, both in Spanish and overall; and must meet general requirements.
2. Strong consideration is given to letters of recommendation, breadth and depth of preparation, and Graduate Record Examination scores, if available.

Submit your application online (https://gradapply.ku.edu/). Send all other requested application materials to

The University of Kansas
Department of Spanish and Portuguese
Wescoe Hall
1445 Jayhawk Blvd., Room 2650
Lawrence, KS 66045-7594

Ph.D. Degree Requirements

The degree of Doctor of Philosophy is offered with emphasis on Spanish or Spanish-American literature.

Requirements

Once admitted, the aspirant must

1. Present a reading knowledge of 2 foreign languages, other than Spanish, appropriate to the specialization;
2. Complete all course work prescribed by the advisory committee (this course work is to include a minimum of 5 seminars, at least 4 at KU, and a guideline of a minimum of 24 hours in Hispanic literatures at KU beyond the 30 hours required for the M.A. degree);
3. Present a minor in a field other than Spanish or Spanish-American literature;
4. Complete a minimum of 2 semesters of quarter-time teaching or 1 semester of half-time teaching in the Department of Spanish and Portuguese;
5. Research Skills and Responsible Scholarship Requirement. The university requires that every doctoral student have training in responsible scholarship and research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. Please contact your advisor or the director of graduate studies for specific requirements.
6. Pass a comprehensive examination, partly written and partly oral; and
7. Write and defend a dissertation.

Note: Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

See also the general requirements for the Doctor of Philosophy degree in Graduate Studies (p. 2540) section of the online catalog and in the KU Policy Library.

Study Abroad

The department offers summer programs in Barcelona, Spain; Buenos Aires, Argentina; Salvador (Bahia), Brazil. KU offers semester/academic year programs in San José, Costa Rica, Buenos Aires, Argentina, and Salamanca, Spain. More information is available from the Office of Study Abroad (http://www.studyabroad.ku.edu/).

Graduate students have the opportunity to teach and conduct research during summer sessions in Buenos Aires, Argentina; or Barcelona, Spain. The department also has a graduate exchange agreement with the Universidade de Santiago de Compostela, Spain.

Department of Speech-Language-Hearing: Sciences and Disorders

Why study speech, language, and hearing?

Because communication is central to human behavior, and the treatment of communication disorders requires specialized knowledge and skills.

Career Opportunities

An undergraduate degree in SPLH contributes to preparation for careers in a range of fields related to communication disorders including neuroscience, medicine and related health professions, education, and assistive technology. In addition, an undergraduate degree in speech-language hearing is an entry point for graduate study in speech-language pathology or audiology. Most states have laws mandating that speech-language pathologists and audiologists be licensed to practice their profession. The minimum requirement for licensure in most states is a master’s degree for speech-language pathology and the Au.D. for audiology. Speech-language pathologist and audiologists are in high demand with job growth expected to continue into the future. Individuals with bachelor degrees may work as an assistant to licensed professionals in settings such as schools and clinics, or may pursue employment in related fields.

Undergraduate Programs

Basic study in speech, language, and hearing is provided through B.A. and B.G.S. programs. Undergraduates study the basic processes of human communication. Programs are designed for the student who seeks a career related to speech, language, or hearing or to communication development and communication disorders. The majority of undergraduate courses are offered both fall and spring semester to maintain a smaller class size and facilitate timely graduation. Courses are taught using interactive and flexible formats that provide ample opportunity for hands-on experiential learning. There are numerous opportunities to engage in learning outside the classroom through faculty-mentored research projects, collaborative clinical experiences, and study abroad opportunities. Courses and experiences set the stage for a successful career in audiology, speech-language pathology, neuroscience, medicine and related health professions, education, and assistive technology.

Qualified KU undergraduates may earn both a B.A. in Speech-Language-Hearing: Sciences and Disorders and M.A. in Speech-Language Pathology in approximately 5 years through the Accelerated M.A. program (p. 1977).
Graduate Programs

Graduate study at KU is offered through the Intercampus Program in Communicative Disorders, which is a partnership between the Department of Speech-Language-Hearing and the Lawrence campus and the Department of Hearing and Speech on the medical center campus in Kansas City. Degrees offered include a clinical doctorate in audiology, a master's degree in speech-language pathology, a post-master's clinical doctorate in speech-language pathology, and Ph.D. degrees in audiology and speech-language pathology. Students engage in classes, research, and clinical work in Lawrence and at KU Medical Center in Kansas City.

Students who are interested in enrolling in graduate level coursework in the Department of Speech-Language-Hearing without formal admission to a graduate program at KU are encouraged to apply for graduate non-degree seeking student status. Admission is highly selective and non-degree seeking students must consult with an advisor on class selection prior to enrollment. See the Department's website (http://www.kumc.edu/school-of-health-professions/hearing-and-speech.html) for further details.

Courses

SPLH 120. The Physics of Speech. 4 Hours N.
An introduction to the acoustic structure of speech intended for nonscience majors. Emphasis will be placed on the methods and standards by which scientists measure and evaluate the physical characteristics of speech. Topics will include: simple harmonic motion, the propagation of sound waves, aerodynamic aspects of vocal fold vibration, resonance, digital speech processing, frequency analysis, and speech synthesis. Three class hours and one laboratory per week. (Same as LING 120.) Prerequisite: MATH 101 or 104 or equivalent. LEC.

SPLH 177. First Year Seminar: ______. 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Speech-Language and Hearing. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

SPLH 250. Study Abroad Topics in: ______. 1-5 Hours S.
A course designed to enhance international experience in topic areas related to speech-language-hearing at the freshman/sophomore level. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if the content differs. Prerequisite: Department permission. LEC.

SPLH 261. Survey of Communication Disorders. 3 Hours GE3S / S.
Provides a general understanding of normal and deviant speech, language, and hearing in adults and children. This course considers the normal development of communication behavior, the nature of communication disorders, and the interaction of speech pathology and audiology with allied fields (e.g., education, medicine, psychology, special education). LEC.

SPLH 418. Introduction to Cognitive Science. 3 Hours S.
Examines the data and methodologies of the disciplines that comprise Cognitive Science, an inter-disciplinary approach to studying the mind and brain. Topics may include: consciousness, artificial intelligence, linguistics, education and instruction, neural networks, philosophy, psychology, anthropology, evolutionary theory, cognitive neuroscience, human-computer interaction, and robotics. (Same as LING 418, PHIL 418, and PSYC 418.) Prerequisite: Consent of instructor. LEC.

SPLH 430. Communication in Autism. 3 Hours.
This course will provide you with an introduction to the characteristics and communication of individuals with Autism Spectrum Disorder (ASD). This course will focus on diagnostic criteria, early identification, communication assessment and intervention considerations, and partnering with families who have family members with ASD. This course is offered at the 400 and 800 levels with additional assignments at the 800 level. Not open to students with credit in SPLH 830. LEC.

SPLH 449. Laboratory/Field Work in Human Biology. 1-3 Hours AE61 / N / LFE.
This biological anthropology lab course builds upon concepts introduced in ANTH 150 and ANTH 304. It provides students with practical, hands-on experience in biological anthropology laboratory methods and theory. Topics include: genetics, osteology, forensic anthropology, modern human biological variation, primatology, paleoanthropology, and human evolution. Students integrate their knowledge of human variation, genetics, and critical approaches to the concept of social and biological race. For the final project, students analyze genetic markers using a commercial ancestry test. They will either be given anonymous data to work with, or, if they pay an optional laboratory fee, they can investigate their own genome for the final project. This fee for self-study is not required for full participation in the final project. (Same as ANTH 449, BIOL 449, and PSYC 449.) Prerequisite: Either ANTH 304, ANTH 340, Human Biology major, or permission of instructor. LAB.

SPLH 450. Study Abroad in Speech-Language-Hearing. 1-3 Hours S.
A course designed to enhance international experience in topic areas related to speech-language-hearing at the junior/senior level. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if the content differs. Prerequisite: Department permission. LEC.

SPLH 451. Directed Study Abroad in Speech-Language-Hearing. 1-3 Hours S.
An independent study designed to enhance international experience in topic areas related to speech-language-hearing. Investigation of special topic or project selected by the student with advice, approval, and supervision by a KU SPLH instructor and an authorized agent of the study abroad site. Experience must be arranged through the Office of KU Study Abroad. Such study may take the form of directed reading and/or directed research/clinical observation. A daily journal and final report is required. A maximum of six hours of credit may be counted, with no more than three in a single area of study. Prerequisite: Consent of instructor IND.

SPLH 452. Examining Global Perspectives in Speech-Language-Hearing. ______. 3 Hours AE42.
For students enrolled in an SPLH-sponsored Study Abroad program. Students participate in 12 hours of meetings in preparation for the Study Abroad experience. Pre-trip meetings focus generally on multi-cultural issues relevant to speech-language-hearing practice as well as specific cultural, linguistic, and service delivery issues for the target country. Students spend two weeks abroad, visiting sites to observe different types of service delivery for people with disabilities and places that are culturally and historically relevant. Periodic debriefing and small group discussions are conducted during the time abroad. A daily journal and post-visit reflection paper is required. Prerequisite: Instructor permission required. FLD.

SPLH 462. Principles of Speech Science. 3 Hours N.
Survey of the physiology of speech production, and the physics of sound. Emphasis upon methodologies in the laboratory study of normal speech. Prerequisite: SPLH 120, or concurrent enrollment in SPLH 120 or consent of instructor. LEC.

SPLH 463. Principles of Hearing Science. 3 Hours N.
This class discusses the concepts and principles relevant to normal hearing processing: anatomy, psychophysical methods, and basic
subjective correlates of the auditory system. Prerequisite: SPLH 120, or concurrent enrollment in SPLH 120, or consent of instructor. LEC.

SPLH 464. Undergraduate Seminar in: ____. 1-3 Hours S.
Course organized any given semester to study particular subject matter or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. (Distribution credit given for two-three hours only.) LEC.

SPLH 465. Fundamentals of Clinical Phonetics. 1 Hour S.
Introduction to classification of American English speech sounds based on articulatory phonetics. Practice in phonetic transcription and analysis of normal and abnormal speech. Laboratory exercises to give students hands-on experience with selected topics from lecture. Prerequisite: Corequisite: SPLH 120. LEC.

SPLH 466. Language Science. 3 Hours S.
Introduction to structure/function of human languages as it relates to language development and disorders; processes involved in the expression and reception of language and the methodologies employed to study these processes. LEC.

SPLH 479. Mentored Research Experience. 2-8 Hours AE61 / S.
Study may be directed toward either reading for integration of knowledge and insight in Speech-Language-Hearing, or original research in the field. Student creates a plan of activities at the beginning of each semester under the mentor's guidance. Student and mentor review this plan at the end of each semester to evaluate progress. In the final semester of enrollment, student must complete a written report or a public oral presentation detailing the purpose, methods, results, and impact of the research. This final product partially meets the requirements for Research Experience Certification. (Eight hours maximum credit, which may be distributed through 4 semesters. No student may enroll for less than two hours credit or more than 4 hours of credit in a given semester). Prerequisite: Consent of Departmental Research Experience Coordinator. IND.

SPLH 498. Departmental Honors Research. 2-8 Hours AE61 / S.
Study may be directed toward either reading for integration of knowledge and insight in Speech-Language-Hearing, or original research in the field. Student creates a plan of activities at the beginning of each semester under the mentor's guidance. Student and mentor review this plan at the end of each semester to evaluate progress. In the final semester of enrollment, student must complete a written report or a public oral presentation detailing the purpose, methods, results, and impact of the research. This final product partially fulfills the requirements for Departmental Honors. (Eight hours maximum credit, which may be distributed through 4 semesters. No student may enroll for less than two hours credit or more than 4 hours of credit in a given semester). Prerequisite: Consent of Departmental Honors Coordinator. IND.

SPLH 499. Directed Study in Speech-Language-Hearing. 1-3 Hours AE61 / S.
Investigation of special topic or project selected by the student with advice, approval, and supervision of an instructor. Such study may take the form of directed reading and/or directed research/clinical observation. Individual reports and conferences. (Distribution credit given for two-three hours only.) A maximum of six hours of credit may be counted, with not more than four in a single area of study.) Prerequisite: Consent of instructor. IND.

SPLH 516. Speech Perception. 2 Hours S.
Acoustic and perceptual characteristics of phonemes, words, and connected speech for normal-hearing adults and infants; how speech perception is assessed clinically and is affected by hearing loss, aging, use of amplification, talker differences, and linguistic factors. Prerequisite: SPLH 120 Physics of Speech. Prerequisite or Corequisite: SPLH 463 Principle of Hearing Science. LEC.

SPLH 565. Language Sample Analysis Lab. 1 Hour S.
The study of the analysis of language produced by children with respect to its phonological, lexical, morphological, syntactic, and pragmatic characteristics. Prerequisite: Corequisite: SPLH 566. LAB.

SPLH 566. Language Development. 3 Hours SI GE3S / S.
Study of language acquisition in children, including phonologic, morphologic, syntactic, and semantic components. Methods of language measurement, the role of comprehension, and pragmatic aspects of language use are included. May be taught in lecture or online format. LEC.

SPLH 568. Introduction to Audiological Assessment and Rehabilitation. 4 Hours U.
Introduction to methods for assessing and treating hearing disorders in adults and children, as well as conditions that result in hearing loss. Course includes clinical observation and extensive hands-on experience with clinical techniques. Prerequisite: SPLH 463. LEC.

SPLH 571. Introduction to Speech-Language Pathology. 4 Hours U.
This course provides training in clinical management of communicative disorders in children and adults. Principles of evaluation, application of diagnostic information, intervention planning, intervention process, data collection and application, report writing, and interactions with parents and other professionals are examined. Participation in observation and laboratory activities is required. LEC.

SPLH 588. Multicultural Considerations in Speech-Language-Hearing I. 1 Hour S.
This course introduces foundational concepts of culture and diversity, bilingualism, bias, and components and processes leading to cultural competency. Students explore health and educational disparities in the United States and beyond. Students will reflect on their cultural identity, and how their experiences and perspectives may differ from others, and how their experiences can influence service delivery in speech-language pathology and audiology. Prerequisite: SPLH 566 or LING 415 or consent of instructor. LEC.

SPLH 589. Multicultural Considerations in Speech-Language-Hearing II. 1 Hour S.
This course builds on foundational concepts from SPLH 588 by exploring potential cultural and linguistic characteristics of populations that are typically underrepresented in many sectors of the United States, including education and health care. Case studies are implemented to examine cultural and linguistic influences on assessment and treatment processes in speech-language pathology and audiology. Prerequisite: SPLH 588. LEC.

SPLH 620. The Communicating Brain: The Ultimate Personal Computer. 3 Hours U.
This course introduces the study of human neuroscience with a particular focus on human communication. The course provides an overview of the relevant anatomical structures and function along with an introduction to the basic methods used to investigate central nervous system function. Students are introduced to the study of perceptual, motor, and language function in the nervous system through a series of examples drawn from normal function and clinical cases. The examples are selected to highlight how these systems develop and are influenced by experience, implantable devices developed to interface with the nervous system, and how computers and animals are used as models to learn about nervous system function. Prerequisite: A 400-level course in SPLH, or consent of instructor. LEC.
Research Methods is about the methods used to conduct, describe and evaluate science in communication disorders. Goals for learner outcomes include: 1) evaluation of research including adequacy of research to address scientific and clinical problems, 2) reading, summarizing and describing research through a literature review, 3) describing a hypothetical research study that addresses a specific question or hypothesis identified by the student, and 4) providing constructive peer reviews of research paper drafts. Prerequisite: 9 credits of SPLH course work; English 101 and ENGL 102 (or course meeting core skill in written communication); or consent of instructor. LEC.

SPLH 668. Introduction to Audiological Rehabilitation. 2 Hours.
Introduction to methods for treating hearing disorders in adults and children, as well as conditions that result in hearing loss. Course includes clinical observation and extensive hands-on experience with clinical techniques. This course should only be taken by graduate students in SPLH who have not completed this prerequisite. Not open to students with credit in SPLH 568. Prerequisite: Graduate standing. LAB.

SPLH 670. Beginning Clinical Practice in Audiology. 1-3 Hours N.
Testing of hearing using pure tone air and bone conduction tests with both normal and hearing-impaired individuals. Prerequisite: SPLH 568, or concurrent enrollment in SPLH 568, overall GPA 3.0 and consent of instructor. FLD.

SPLH 672. Clinical Practice in Speech-Language Pathology. 3 Hours S.
Clinical practice with children and adults. Group and individual conferences with staff required. Repeatable once for credit. Prerequisite: SPLH 571 and overall GPA of 3.0. FLD.

SPLH 716. Speech Perception. 2 Hours.
Acoustic and perceptual characteristics of phonemes, words, and connected speech for normal-hearing adults and infants; how speech perception is assessed clinically and is affected by hearing loss, aging, use of amplification, talker differences, and linguistic factors. (Same as AUD 816.) LEC.

SPLH 736. Foundations of Early Intervention. 3 Hours.
This course explores evidence-based principles and practices of providing early intervention services, including requirements of IDEA Part C, mission and key principles of early intervention and recommended practices and standards. Students will engage in guided field observations of assessment, intervention and collaborative practices, reflective practice and teaming/coaching activities. (Same as SPED 736.) LEC.

SPLH 737. Infants and Toddler with Significant Needs. 3 Hours.
This course explores the challenges infants and toddlers with significant developmental needs face and how to best support their participation in daily activities. Challenges faced by medical, physical, communication, social-emotional, hearing, vision, and mental health issues will be discussed along with how to support these needs across disciplines and in the home and community activities. This course will provide in-depth review of the unique challenges these children and families face and how providers from various backgrounds can work together to best support children and families. Environmental adaptations and direct instructional techniques to maximize independence tailored to the infant and toddler’s strengths and needs will be explored. Information is also provided on assistive technology designed to provide supports. Functional behavioral assessment procedures, proactive intervention strategies and psycho-educational approaches as well as the development of collaborative support plans will be studied. (Same as SPED 737.) LEC.

SPLH 752. Examining Global Perspectives in Speech-Language-Hearing: ______. 3 Hours.
For students enrolled in an SPLH-sponsored Study Abroad program. Students will participate in 12 hours of meetings in preparation for the Study Abroad experience. Pre-trip meetings will focus generally on multicultural issues relevant to speech-language-hearing practice as well as specific cultural, linguistic, and service delivery issues for the target country. Students may be required to facilitate discussions or prepare presentations for these meetings. Students will spend two weeks abroad, visiting sites to observe different types of service delivery for people with disabilities and places that are culturally and historically relevant. Students may partner with undergraduates to facilitate any clinically focused experiences. Periodic debriefing and small group discussions will be conducted during the time abroad. A daily journal and post-visit reflection paper will be required. FLD.

SPLH 764. Seminar in: ______. 1-3 Hours.
The subject matter of this seminar will be special topics from speech pathology and audiology. Special prerequisite may be established for a given topic. LEC.

SPLH 799. Proseminar in Child Language. 2 Hours.
A review and discussion of current issues in children’s language acquisition. May be repeated for credit. Graded on a satisfactory/unsatisfactory basis. (Same as ABSC 797, CLDP 799, LING 799 and PSYC 799.) (Formerly HDFL 797.) SEM.

SPLH 816. Language Development. 3 Hours.
Study of language acquisition in children, including the morphologic, syntactic, and semantic components. Methods of language measurement, the role of comprehension, and pragmatic aspects of language use will be included. Not open to students who have credit for SPLH 566. Laboratory by appointment. LEC.

SPLH 820. Developmental Phonological Disorders. 2 Hours.
Focuses on speech and non-speech characteristics of children with developmental phonological disorders. Emphasis placed on collection and phonetic transcription of speech samples, phonological analysis of transcribed data, and decision-making processes in assessment and intervention. LEC.

SPLH 822. Dysarthria/Apraxia. 2 Hours.
This course describes the neuroanatomic bases of motor-speech processes, the diagnosis, classification, assessment, prognosis, and treatment of dysarthria(s) and apraxia(s). LEC.

SPLH 824. Fluency Disorders. 2 Hours.
The nature of stuttering in children and adults is discussed. Theories regarding etiology, development, and maintenance of the disorder are presented. Emphasis is placed on various clinical approaches to assessment, measurement, and treatment. LEC.

SPLH 826. Phonatory Disorders. 2 Hours.
This course reviews the function of the laryngeal and respiratory mechanisms including the parameters and processes of phonation. Primary content addresses diagnosis, description, and treatment of organic and non-organic disorders of phonation. LEC.

SPLH 828. Speech Disorders in Special Populations. 2 Hours.
This course reviews anatomy and physiology of the velopharyngeal mechanism. Diagnosis and management of velopharyngeal dysfunction and associated problems considered. Anatomy, physiology, and rehabilitation associated with certain oral, pharyngeal, and laryngeal abnormalities discussed. Emphasis is on the speech problems of adults following medical management. Populations include individuals with laryngectomies, glossectomies, and tracheotomies. LEC.
SPLH 830. Communication in Autism. 3 Hours.
This course will provide an introduction to the characteristics and communication of individuals with Autism Spectrum Disorder (ASD). This course will focus on diagnostic criteria, early identification, communication assessment and intervention considerations, and partnering with families who have family members with ASD. This course is offered at the 400 and 800 levels with additional assignments at the 800 level. Not open to students with credit in SPLH 430. LEC.

SPLH 832. Dysphagia. 2 Hours.
This course covers normal and disordered swallowing. Evaluation and treatment of swallowing disorders, the dysphagia team, and dysphagia in special populations are considered. LEC.

SPLH 834. Augmentative and Alternative Communication and Literacy. 2 Hours.
This course is designed to provide resources and information to prepare students to collaborate with others in increasing the literacy opportunities and skills of individuals with complex communication needs, particularly those who use augmentative and alternative communication. LEC.

SPLH 838. Augmentative and Alternative Communication in Schools. 2 Hours.
This course provides information about augmentative and alternative communication (AAC) services in school settings. Students will participate in readings and activities that will provide information concerning the roles, responsibilities, and contributions of school speech-language pathologists relative to AAC. LEC.

SPLH 840. Language Disorders of Children: Infants and Toddlers. 2 Hours.
This course examines factors relating to language disorders in the birth to three population. At-risk populations, as well as those with known etiologies, are considered. Information on assessment, intervention, and service delivery models is addressed. Issues relating to Public Law 99-457 are also examined. LEC.

SPLH 842. Language Disorders of Children: Preschool. 2 Hours.
This course examines language disorders of preschool-age children in the late preschool years. The course includes information on incidence, characteristics, assessment, and intervention. Theoretical issues and their implication for language intervention are also examined. LEC.

SPLH 844. Language Disorders of Children: School Age. 2 Hours.
This course examines language development during the school years and how problems in this development interact with school performance. Emphasis is placed on the role of the speech-language pathologist in the early identification, assessment, and remediation of language-learning problems. LEC.

SPLH 846. Language Disorders of Adults. 2 Hours.
Neurological aspects of language processes, classification of aphasia, and assessment of language deficits are discussed. Management approaches including intervention strategies and rehabilitation are also considered. LEC.

SPLH 848. Language Disorders of Special Populations. 2 Hours.
This course focuses on communication differences in individuals with intellectual disabilities, autism, cerebral palsy, dual sensory impairments, and other conditions affecting communication competence. Communication characteristics as well as assessment and intervention strategies are studied. LEC.

SPLH 850. Cognitive-Linguistic Disorders of Adults. 2 Hours.
This course will prepare students to work with adults with acquired cognitive-linguistic disorders, with a focus on: Alzheimer's Disease, Traumatic Brain Injury, and Right Hemisphere Disorder, including etiologies and disease processes. Theoretical and practical knowledge will be presented regarding the primary cognitive domains of attention, memory, and executive function, as well as their impact on discourse-level language. The course will cover neuroanatomy, assessment procedures, interventions, family/communication partner training, and psychosocial aspects of cognitive-linguistic disorders. LEC.

SPLH 852. Augmentative and Alternative Communication. 2 Hours.
This course describes augmentative and alternative communication (AAC) assessment and intervention issues as they apply to children and adults with both congenital and acquired speech and/or language disabilities. Areas of study include AAC systems, assessment strategies and procedures, intervention strategies, and AAC information resources. LEC.

SPLH 853. Augmentative and Alternative Communication and Adult Acquired Disorders. 2 Hours.
This course will discuss the concepts and evidence related to assessment and intervention in the area of augmentative and alternative communication for adults with acquired disorders. Content will be related specifically to adults with acquired communication disorders and focus more on high tech than low tech but information and evidence related to both will be presented. Information about AAC systems appropriate for adults, assessment protocols, approaches to intervention, and advocacy will be applied in a case-based format. LEC.

SPLH 854. Reading Disorders. 2 Hours.
This course addresses the perceptual, linguistic, and cognitive processes utilized in written communication. Acquired and developmental disorders of written language are examined in relation to issues concerning characteristics, etiology, early identification, assessment, and remediation. LEC.

SPLH 860. Evaluation of Speech and Language. 2 Hours.
Provides a general framework for speech and language evaluations. Issues related to initiation and termination of treatment are discussed. Practice is provided in evaluating norm- and criterion-referenced information used in diagnostic, referral, and treatment decisions. LEC.

SPLH 861. Seminar in Research Methodology in Speech Pathology and Audiology: ______. 3 Hours.
This seminar is concerned with the design, instrumentation, execution, and reporting of research in audiology and speech pathology. SPLH 760 or its equivalent and some statistics are recommended before entering this seminar. LEC.

SPLH 862. Clinical Processes. 1 Hour.
Orients student to clinical procedures, policies, requirements, and expectations of program. Therapy models, planning, and philosophies are discussed along with implementation and evaluation of therapy procedures. Professional issues are also considered. May be repeated for credit. LEC.

SPLH 864. Advanced Clinical Practice in Speech-Language Pathology. 1-6 Hours.
Students conduct supervised clinical work in a variety of settings. May be repeated for credit. Prerequisite: Department approval. Group and individual conferences with staff required. FLD.

SPLH 866. Field Study in Speech-Language Pathology. 5-12 Hours.
The field study provides work experiences in clinical and/or research activities. The student takes this course near the end of the degree program. Assignments include supervised work in a variety of approved settings. May be repeated for credit. Prerequisite: Advisor's consent. FLD.
SPLH 668. Professional Issues. 1 Hour.
Forum for the presentation and discussion of scientific and professional issues by faculty and advanced graduate students. May be repeated for credit. SEM.

SPLH 874. Master's Research Practicum. 1-3 Hours.
This course is designed to give students experience in conducting research. Students apply and extend their knowledge and skills by participating in a research project under the supervision of a mentor. Students may assist with or independently conduct research in speech, language, or hearing. Prerequisite: SPLH 660 or equivalent research methods course. RSH.

Investigation of special topics by individual master's level students. Paper required. Prerequisite: Consent of instructor. RSH.

SPLH 880. Seminar in Speech-Language Pathology: ____. 1-3 Hours.
May be repeated for credit. LEC.

SPLH 888. Multicultural Considerations in Speech-Language-Hearing I. 1 Hour.
This course introduces foundational concepts of culture and diversity, bilingualism, bias, and components and processes leading to cultural competency. Students explore health and educational disparities in the United States and beyond. Students will reflect on their cultural identity, and how their experiences and perspectives may differ from others, and how their experiences can influence service delivery in speech-language pathology and audiology. This course is offered at the 500 and 800 levels, with additional assignments at the 800 level. LEC.

SPLH 889. Multicultural Considerations in Speech-Language-Hearing II. 1 Hour.
This course builds on foundational concepts from SPLH 888 by exploring potential cultural and linguistic characteristics of populations that are typically underrepresented in many sectors of the United States, including education and health care. Case studies are implemented to examine cultural and linguistic influences on assessment and treatment processes in speech-language pathology and audiology. This course is offered at the 500 and 800 levels, with additional assignments at the 800 level. Prerequisite: SPLH 888 or consent of instructor. LEC.

SPLH 899. Master's Thesis. 1-6 Hours.
The degree requires the presentation and discussion of scientific and professional issues through the completion of an independent research project under the supervision of a mentor. May be repeated for credit. SEM.

SPLH 970. Independent Study in Problems of Speech and Hearing. 1-6 Hours.
Investigation of special topics by individual students. Paper required. RSH.

SPLH 974. Doctoral Research Practicum. 1-6 Hours.
Application of research methodology in a laboratory situation. Emphasis is on direct participation in designing and conducting an experimental investigation in speech or hearing. FLD.

SPLH 975. Directed Teaching: Speech Pathology and Audiology. 1-3 Hours.
Provides directed teaching experiences in classroom and laboratory instruction under supervision of graduate faculty. Variable credit to reflect amount of instructional responsibility assumed. May be repeated up to a maximum of six semester hours. FLD.

SPLH 976. Independent Study in Grant Writing. 1-3 Hours.
Students will identify a funding agency appropriate for their research, learn the application procedures for that agency, and draft a grant application following the identified agency's format. The faculty mentor will arrange for a review of the grant application following the agency's review criteria and format. May be repeated up to a maximum of three credits. IND.

SPLH 982. Issues in Scientific Conduct. 3 Hours.
Lectures and discussion on issues in the conduct of a scientific career, with emphasis on practical topics of special importance in behavioral science. Topics will include the academic and scientific roles of behavioral scientists, establishing a research lab, communicating research findings, tenure processes, gender equity, ethical conduct, and good scientific citizenship. Discussions will highlight important case studies. (Same as CLDP and PSYC 982.) SEM.

SPLH 988. Multicultural Considerations in Speech-Language-Hearing III. 1 Hour.
The subject matter of this seminar will be special topics from speech pathology and audiology, including those related to research methodology and research or academic careers. Special prerequisites may be established for a given topic. LEC.

SPLH 990. Proseminar in Communicative Disorders. 1 Hour.
A weekly forum for students and faculty to discuss professional issues and interdisciplinary research in communicative disorders and related fields. May be repeated for credit. Limited to two hours credit counted toward an MA or AuD degree. Limited to four hours credit counted toward the PhD degree. Graded on satisfactory/unsatisfactory basis. SEM.

SPLH 997. Independent Study in Problems of Speech and Hearing. 1-6 Hours.
Investigation of special topics by individual students. Paper required. RSH.

SPLH 999. Doctoral Dissertation. 1-12 Hours.
Application of research methodology in a laboratory situation. Emphasis is on direct participation in designing and conducting an experimental investigation in speech or hearing. FLD.

Bachelor of Arts and Bachelor of General Studies in Speech-Language-Hearing

Why study speech, language, and hearing?
Communication is central to human behavior, and the treatment of communication disorders requires specialized knowledge and skills.

Undergraduates in the Department of Speech-Language-Hearing: Sciences and Disorders study the basic processes of human communication. Programs are designed for the student who seeks a career in speech, language, or hearing or is interested in normal communication development and communication disorders.

Beginning with the undergraduate experience, you'll find stimulating course work, clinical observation, and a variety of hands-on laboratory projects. To practice as a speech-language pathologist, you will need to earn a master's degree. Plan to pursue doctoral studies if you want...
to practice audiology or do research in speech, language, and hearing processes and disorders.

**Undergraduate Admission**

**Admission to KU**

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

**First- and Second-Year Preparation**

Both the B.A. and the B.G.S. aspirant should fulfill the College general education requirements. Students also should complete SPLH 120, SPLH 261, SPLH 463 SPLH 465, SPLH 466, and elective courses in human physiology, psychology, and linguistics during their first 2 years. College Academic Advisors and Faculty members can help students select appropriate course work.

**Requirements for the B.A. or B.G.S. Major**

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 35 hours of major courses.
Goals, please visit the Language-Hearing. To view the list of courses approved to fulfill KU Core

Below is a sample 4-year plan for students pursuing the BA in Speech-Language-Hearing

**Departmental Honors**

The honors program offers exceptional undergraduates the opportunity to work closely with individual faculty members on scholarly projects over an extended period of time. Students are admitted to the program and matched with faculty through an application process that occurs each semester during course enrollment. Contact the Honors Coordinator for details. The following are required:

1. A grade-point average at graduation of at least 3.5 in the major.
2. Completion of 6 to 8 credit hours in SPLH 498 Departmental Honors Research. Students work under the direction of a faculty member. Students may change areas of interest or faculty supervisors at the beginning of a semester with the consent of the honors coordinator. In the final semester of SPLH 498 enrollment, students also must complete a written report or public oral presentation detailing the purpose, methods, results, and impact of the research. Academic credit but no honors designation is given to students who meet the requirements for any semester but do not complete all requirements for departmental honors.

**BA in Speech-Language-Hearing**

Below is a sample 4-year plan for students pursuing the BA in Speech-Language-Hearing. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

**Total Hours 120-123**

1. The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.
2. MATH 101 is the pre-requisite course for SPLH 120.
Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. Overlapping is recommended to allow more opportunities to pursue additional majors and/or minors.

**BGS in Speech-Language-Hearing**

Below is a sample 4-year plan for students pursuing the BGS in Speech-Language-Hearing. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

**Total Hours 120**

1. MATH 101 is the pre-requisite for SPLH 120.
2. Please note that the Bachelor of General Studies degree requires completion of the requirements of a single BGS major AND a secondary field of academic study (a second major, co-major, or minor). This sample plan is based on the completion of a minor. If a second major is selected instead, elective hours on plan will be needed for these additional major requirements.
3. SPLH 463 is only offered in the spring.
4. SPLH 463 is the pre-requisite for SPLH 568.
5. Recommended electives for SPLH majors are SPLH 497/SPLH 498 (SPLH 498 requires major GPA 3.5 or higher and consent of honors coordinator); SPLH 670 and SPLH 672 (both require completion of major requirements and a 3.0 GPA or higher).

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.
Minor in Speech-Language-Hearing

Why study speech, language, and hearing?

Communication is central to human behavior. A minor in SPLH can be combined with a variety of majors to better prepare students to work in careers related to normal speech-language-hearing processing and development as well as careers that serve individuals with communication disorders. Typical related careers include neuroscience, medicine, health related professions, education, and assistive technology. Careful course selection can allow you to focus on a theme within SPLH that is well-suited to your career aspirations. Themes include: communication neuroscience, speech-language development and disorders, and hearing science and disorders. Alternatively, a student who wants to get to know the field better can sample a variety of courses to take a more generalist approach to the minor.

Total Hours 19

Requirements for the Minor: General Track

Students who would rather create their own area of focus may take SPLH 261 for a broad overview of the discipline. Students then select a minimum of 9 credits of foundational coursework followed by a minimum of 6 credits of applied coursework. Across foundational and applied coursework, students need to obtain a minimum of 12 credits at the junior/senior level. Total required hours = 18

Courses with clinical content can be taken as directed study with the permission and support of a faculty mentor.

Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and grade-point average minimum standards:

- **Minor Hours in Residence**
  - Satisfied by a minimum of 9 junior/senior (300+) hours of KU resident credit in the minor.

- **Minor Junior/Senior Hours**
  - Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Undergraduate Certificate in Learning and Communication in Children with Autism

This is an opportunity to gain formal recognition for completing courses and experiences specifically focused on learning and communication in children with autism. Students completing this certificate program will learn about communication development in children with Autism Spectrum Disorders (ASD) and learn about behavioral intervention strategies. It is designed to promote interest in undergraduates who may be considering careers such as education or becoming a therapist. An additional goal is to promote awareness of some of the communication challenges faced by individuals with ASD so that participants in the certificate program will become more informed citizens in our increasingly diverse world. Completion of the certificate will be noted on student’s transcripts.

Complete one of the following courses in Speech-Language-Hearing:

- SPLH 261 | Survey of Communication Disorders              | 3     |
- SPLH 566 | Language Development                           | 3     |
- SPLH 497 | Mentored Research Experience                    | 2-8   |
- SPLH 498 | Departmental Honors Research                    | 2-8   |

Complete one of the following (hands-on experiences)
Master of Arts in Speech-Language Pathology

The master's degree in speech-language pathology is designed to produce highly skilled clinicians seeking to enter the field and is typically completed in five full-time semesters (including a summer semester). The program length may vary, for example, for the student requiring prerequisites to be completed or one pursuing additional thesis or course work. A master's degree from KU will, in most circumstances, satisfy the American Speech-Language-Hearing Association (http://www.asha.org)’s certification standards for continuing on to the clinical fellowship year. A certificate of clinical competence in speech-language pathology is awarded upon completion of a successful clinical fellowship.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree-seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission to the M.A. Program

Prospective students are admitted to the M.A. program for the summer or fall semester. The deadline to submit applications is January 15th.

Eligibility criteria for admission to the M.A. program follow Graduate Studies’ admission policy (http://policy.ku.edu/graduate-studies/admission-to-graduate-study/). To be considered for admission to regular graduate status in the program, a student must hold a bachelor’s degree with a cumulative 3.0 GPA.

Ideally students will have completed an undergraduate degree in speech pathology or a related field. Individuals who have not completed prerequisite coursework may apply and be admitted on an exceptional basis if they have exceptionally strong academic credentials. For a full list of the prerequisite course work please see our prerequisite (http://splh.ku.edu/academics/degrees/pre-req/) page.

A full list of required application materials can be found on the Eligibility and Requirements (http://www.kumc.edu/school-of-health-professions/hearing-and-speech/speech-language-pathology-(ma)/eligibility-and-requirements.html) page. Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/).

Requirements for the M.A. Degree with a Major in Speech-Language Pathology

Students with undergraduate degrees in other fields (e.g., psychology, linguistics) typically need to complete undergraduate prerequisite coursework in communication sciences and disorders before applying and/or being admitted to a graduate program in speech-language pathology or audiology.

Prerequisite Course Work for the MA SLP Graduate Program

• An acceptable bachelor’s degree
• Coursework in speech-language-hearing must include the following:
  - Physics of Speech: Principles of Speech Science; Principles of Hearing Science; Fundamentals of Clinical Phonetics; Language Analysis Lab; Language Development; Introduction to Audiological Assessment and Rehabilitation; Introduction to Speech-Language Pathology; Research Methods in Speech-Language-Hearing; Statistics.
• Additional requirements for ASHA Certification include coursework in biological sciences, physical sciences, and social/behavioral sciences. Courses in biological and physical sciences specifically related to communication sciences and disorders cannot be applied to this requirement.

Degree Requirements

The program requires 34 credit hours of experiences for breadth and an additional 12 to 16 hours for depth. All of these credit hours are at the 700-level or above, with the exception of the Advanced Elective hours. Advanced Electives can include any approved graduate courses.

3 This course is taken more than once for a total of 2 credit hours.
Other requirements:

- Pass both formative and summative exam (including thesis defense if applicable).

For more information or to contact the program, please visit the IPCD website (http://hearing.kumc.edu)

Technical Standards

The master's degree in speech-language pathology signifies the holder will satisfy the academic and practicum requirements as stated by the American Speech-Language-Hearing Association to be eligible to continue on to the clinical fellowship year. It follows that graduates must have the knowledge and skills to practice in the area of speech-language pathology. Therefore, all individuals admitted to the University of Kansas Intercampus Program in Communicative Disorders must meet the following abilities and expectations with or without accommodation(s). KU is an AA/EO/Title XI institution.

NOTE: Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose that they have a disability are considered for the program if they are otherwise qualified. Qualified students with a disability who wish to request accommodations should provide appropriate documentation of disability and submit a request for accommodation to one of the following offices:

Cynthia Ukoko
Senior Coordinator for Academic Accommodations
3901 Rainbow Boulevard, MS 4029
Kansas City, KS 66160
cukoko@kumc.edu
913-588-7035; 711 TTY

Andrew Shoemaker
Director
Student Access Center
1450 Jayhawk Blvd., Room 22
Lawrence, KS 66045
shoe@ku.edu
785-864-4064; 711 TTY

The culminating activity in the preparation of a speech-language pathologist is clinical reasoning. Therefore, a candidate for the master’s degree must be able to make correct observations and have the skills of measurement, calculation, reasoning, analysis, and synthesis.

All students admitted to the KU Intercampus Program in Communicative Disorders must be able to meet the following requirements and expectations with or without accommodation(s).

Observation/Sensory Motor

- Observe demonstrations and learn from experiences in the classroom, laboratory, and clinical situations.
- Carry out speech/language/hearing assessments and intervention strategies/techniques including the operation of complex, electronic instrumentation. Diagnosis, assessment, and intervention of speech/language/hearing problems typically necessitates the functional use of the senses of vision, hearing, and touch such as palpating certain areas of the patient’s head and neck.
- Comprehend text, numbers, images and graphs.
- Observe and respond to subtle cues of patient’s moods, temperament, and social behavior.

Physical/Psychomotor

- Perform actions requiring coordination of both gross and fine muscular movement, equilibrium and use of tactile, hearing, and visual senses.
- Respond quickly in clinic situations, not only for safety, but also therapeutically.
- Travel to numerous clinical sites for practical experience.
- Use an electronic keyboard to operate instruments and to calculate, record, evaluate, and transmit information.

Communication

- Be able to share and to elicit information from patients/clients, supervisor, peers and other health professionals verbally and in a recorded format.
- Effectively, confidently, and sensitively converse with patients and their families.
- Comprehend technical and professional materials.
- Prepare papers, produce reports, and complete documentation for patient records.
- Assimilate information from written sources (texts, journals, medical/school records).
- Take paper, computer, and laboratory examinations and prepare scholarly papers.

Judgment

- Demonstrate judgment in the classroom, laboratory, and clinical situations that shows the intellect and emotional health necessary to make mature, sensitive, and effective decisions in the following areas:
  - relationships with professors, supervisors, peers, and patients/clients
  - professional and ethical behavior
  - effectiveness of diagnostic, assessment, and intervention strategies.
- Demonstrate an understanding of the rationale and justification for one’s performance.
- Critically evaluate one’s own performance and be flexible toward change to promote professional and clinical process.
- Recognize and correct behaviors disruptive to classroom teaching, research, and patient care.
- Manage the use of time to complete clinical and academic assignments within realistic constraints.
- Recognize potentially hazardous materials, equipment, and situations and proceed in a manner to minimize risk of injury to those in the area.
- Make correct observations and have the problem solving skills necessary for measurement, calculation, reasoning, analysis, and synthesis.
Accelerated Master of Arts in Speech-Language Pathology

The accelerated master's degree in speech-language pathology is designed to produce highly skilled clinicians seeking to enter the field. This program enables qualified students to earn a Bachelor's degree in Speech-Language-Hearing: Sciences and Disorders and count 12 hours of 700-level or above course work in the major completed in Year 4 of study for both the Bachelor's and M.A. Speech-Language Pathology degrees. The M.A. is completed in the fifth year or beyond.

An accelerated master's degree from KU will, in most circumstances, satisfy the American Speech-Language-Hearing Association (http://www.asha.org/)’s certification standards for continuing on to the clinical fellowship year. A certificate of clinical competence in speech-language pathology is awarded upon completion of a successful clinical fellowship.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Careful course selection and steady progression through the undergraduate career is necessary to ensure all requirements for both degrees may be completed within the approximate 5-year time-frame. All prospective students should discuss their interest in admission to the Accelerated M.A. program (http://www.kumc.edu/school-of-health-professions/hearing-and-speech/accelerated-ma-in-slp.html) with their SPLH advisor and faculty mentor no later than the student’s second year.

Prospective students are eligible to apply to the graduate program in Spring semester (Jan 15 deadline) of their third year. The following requirements must be met by this time:

• Major and cumulative GPA of at least 3.00;
• On track to complete all requirements for a BA or BGS degree in SPLH from KU by the end of the Spring semester of the fourth year;
• The following courses must be complete at the time of application: SPLH 120, SPLH 261, SPLH 462, SPLH 463, SPLH 465, SPLH 466, SPLH 568, SPLH 571

Applicants must complete an Application for Graduate Study (https://gradapply.ku.edu/apply) following the typical procedures for MA SLP admissions. A full list of the required application materials can be found on the Eligibility and Requirements (http://www.kumc.edu/school-of-health-professions/hearing-and-speech/speech-language-pathology-(ma)/eligibility-and-requirements.html) and How to Apply (http://www.kumc.edu/school-of-health-professions/hearing-and-speech/speech-language-pathology-(ma)/how-to-apply.html) pages of Department's website (http://www.kumc.edu/school-of-health-professions/hearing-and-speech.html).

Non-native speakers of English must meet English proficiency requirements as described here: https://gradapply.ku.edu/english-requirements/.

Accelerated M.A. Degree Progression Requirements

Upon review of the Application for Admission, SPLH will notify the student of his or her eligibility to begin coursework in the program. Final acceptance to the graduate program will be contingent upon the following:

• Successful completion of all requirements for the bachelor’s degree;
• Grades of B- or above in all SPLH graduate-level coursework taken in Year 4;
• A cumulative GPA of 3.0 for all coursework completed in Years 1-4;
• A GPA of 3.0 for all graduate coursework completed in Year 4.

Please note that admission to the graduate program through the traditional process is highly competitive. Students applying to the Accelerated M.A. program will be reviewed with other students applying to the M.A. SLP program. Similar criteria will be used to select students for both programs. If a student is not admitted to the Accelerated M.A. program, they are encouraged to meet with their undergraduate advisor to discuss undergraduate activities to pursue in Year 4 to become more competitive and to re-apply to the M.A. SLP program through the traditional process in Year 4.

The course requirements for this accelerated program are fulfilled by a combination of graduate-level courses taken for both undergraduate and graduate credit in Year 4, and graduate credit courses taken in Year 5 (and beyond). Numerous graduate-level courses are regularly offered that fulfill distribution requirements for both the Bachelor’s and M.A. degrees.

The student must be approved to begin coursework toward the Accelerated M.A. program prior to enrolling in any 700 level or above courses that are to count for both undergraduate and graduate credit.

During the Senior Year (Year 4), the student must take the following SPLH courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPLH 860</td>
<td>Evaluation of Speech and Language</td>
<td>2</td>
</tr>
<tr>
<td>SPLH 862</td>
<td>Clinical Processes</td>
<td>1</td>
</tr>
<tr>
<td>SPLH 864</td>
<td>Advanced Clinical Practice in Speech-Language Pathology</td>
<td>3</td>
</tr>
<tr>
<td>SPLH 700+ level basic electives, as defined by the MA SLP handbook</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>SPLH 588</td>
<td>Multicultural Considerations in Speech-Language-Hearing I</td>
<td>1</td>
</tr>
<tr>
<td>SPLH 589</td>
<td>Multicultural Considerations in Speech-Language-Hearing II</td>
<td>1</td>
</tr>
</tbody>
</table>

These courses, taken in the fall and spring term of year 4, (11-12 credit hours) will count toward the master's degree and the 120 hour requirement for the undergraduate degree.

In addition to the 11-12 credit hours of graduate coursework taken during Year 4, students must complete an additional 34-39 credit hours of graduate study to obtain a total of 46-50 graduate credits. This will consist of an additional 22-23 credits in breadth and 12-16 in depth as defined by the MA SLP handbook (http://www.kumc.edu/school-of-
Accelerated Master of Arts in Speech-Language Pathology

Students will apply to the Accelerated M.A. program during the spring. Please consult with an advisor for an individual program plan.

Accelerated M.A. Sample Academic Plan.

Please consult with an advisor for an individual program plan.

Students will apply to the Accelerated M.A. program during the spring (Jan 15th deadline) of their third year. Students complete their undergraduate degree at the end of the spring term in Year 4. If progression criteria is met, students will be admitted and begin their graduate coursework in the summer following undergraduate degree conferral. Please see the admissions tab of the catalog for further details.

### Comprehensive Examination

All candidates for the M.A. degree, including students enrolled in the Accelerated M.A. program, must maintain a portfolio of work, pass both formative and summative exams, and complete a research requirement (thesis or non-thesis option). Typically, the formative exam will occur in the summer between Year 4 and Year 5, and the summative exam will occur in the last semester of enrollment.

### Progression Requirements

Given the accelerated nature of this program, each student’s progress will be closely monitored at various points during the program:

1. Upon approval to begin coursework toward the Accelerated M.A. track, the student must meet with their assigned SPLH faculty mentor to plan the final year of undergraduate study (Year 4). Performance in graduate coursework during Year 4 must meet the academic standing and student performance expectations outlined in the MA SLP handbook (http://www.kumc.edu/school-of-health-professions/student-handbook.html) or the consequences detailed in the handbook will be enacted (e.g., remediation plan created).

2. In the final semester of undergraduate work and prior to being formally admitted, the student must meet with their assigned SPLH faculty mentor to review the student’s performance in SPLH courses.

   The student must earn a grade of “B-” or better in these courses and have a cumulative GPA of 3.0 to be eligible for regular admission to the master’s degree. If these conditions are not met, then the following actions are possible:
   a. For grade(s) of C+ or C: Students may be admitted with monitoring by the Advising Committee;
   b. For grade(s) of C-, D, F: Students may be admitted with monitoring by the Advising Committee and will need to re-take the course(s) because grades below C cannot count towards graduate requirements;
   c. For a cumulative GPA below 3.0: Students may be admitted with provisional status with monitoring by the Advising Committee;

3. During Year 5 (and beyond), performance must meet the academic standing and student performance expectations outlined in the MA SLP handbook (http://www.kumc.edu/school-of-health-professions/student-handbook.html) or the consequences detailed in the handbook will be enacted (e.g., remediation plan created).

4. If the baccalaureate degree is not completed at the end of Year 4, the student will not be permitted to enroll in courses for graduate credit toward the master’s degree until the baccalaureate degree has been conferred.

5. Students should complete all requirements for the Accelerated M.A. within 1-1.5 years of receiving the bachelor’s degree. If unforeseen circumstances prevent the timely completion of the master’s degree, the student must consult with their graduate advisor to develop an alternative plan for completion.
Doctor of Audiology

The Doctor of Audiology (Au.D.) degree is intended to produce audiologists for clinical practice and is designed to be completed in four years (including summers).

This program has been planned to meet the academic and clinical requirements of the American Speech-Language-Hearing Association (ASHA). The ASHA Council on Academic Accreditation in Audiology and Speech-Language Pathology accredits this program.

A combined Au.D./Ph.D. track also is available. This track facilitates the completion of both degrees in a 6-year post-baccalaureate period. Students who wish to earn both Au.D. and Ph.D. degrees should contact an advisor.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

A bachelor’s degree with a cumulative 3.0 GPA on all courses taken is required. It is expected students will have obtained a broad general education to serve as a background prior to graduate study. Undergraduate course work in mathematics and in basic and applied sciences is strongly encouraged.

If the bachelor’s degree is not in the area of audiology or communication sciences and disorders, applicants should have 12 hours of basic sciences and mathematics in addition to courses in the following content areas (or their equivalents):

- Physics of Speech
- Principles of Speech Science
- Principles of Hearing Science
- Language Development
- Intro to Aud Assessment and Rehab
- Intro to Speech-Language Pathology

Background Check

The Joint Commission requires all incoming students to obtain a background check (http://www.kumc.edu/school-of-health-professions/background-checks-and-drug-screening-for-students.html). This one-time fee must be paid directly to the company performing the background investigation and the report provided to KU after acceptance into the program. For more information, please see the School of Health Professions background check instructions. (http://www.kumc.edu/school-of-health-professions/background-checks-and-drug-screening-for-students.html) A drug screening may be required prior to work in clinical settings.

International Students:

An applicant is considered an international student if he or she requires a visa, or currently resides in the U.S. with non-immigrant status, or currently resides in the U.S. while applying for permanent residency. Additional requirements and documentation, such as proof of English language proficiency, are required for international students to become eligible for KU programs. Please review the information for international students (http://www.kumc.edu/school-of-health-professions/information-for-international-applicants.html) before applying.

All students, both domestic and foreign, must meet minimum English proficiency (p. 2573) requirements.

For more information or to contact the program, please visit the IPCD website (http://hearing.kumc.edu).

The Au.D. program prepares students to meet the academic and clinical requirements for the ASHA Certificate of Clinical Competence. The degree is designed to be completed in 4 years (including summers, with a common entry point in fall semester). A minimum of 100 credit hours including academic course work, independent research, and clinical practicum is required.

Specific guidelines for certification are contained in the ASHA Certification and Membership Handbook, available on the ASHA website http://www.asha.org/.

**Total Hours 100**

**Technical Standards**

The doctorate degree in audiology signifies that the holder will satisfy the academic and clinical practicum requirements as stated by the American Speech-Language-Hearing Association for the Certificate of Clinical Competence. It follows that graduates must have the knowledge and skills to practice in the area of audiology. Therefore, all individuals admitted to the University of Kansas Intercampus Program in Communicative Disorders must meet the following abilities and expectations with or without accommodation(s). KU is an AA/EO/Title XI institution.

NOTE: Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such
accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose a disability are considered for the program if otherwise qualified. Qualified students with a disability who wish to request accommodations should provide appropriate documentation of disability and submit a request for accommodation to one of the following offices:

Cynthia Ukoko  
Senior Coordinator for Academic Accommodations  
3901 Rainbow Boulevard, MS 4029  
Kansas City, KS 66160  
cukoko@kumc.edu  
913-588-7035; 711 TTY

Andrew Shoemaker  
Director  
Academic Achievement & Access Center  
1450 Jayhawk Blvd., Room 22  
Lawrence, KS 66045  
shoe@ku.edu  
785-864-4064; 711 TTY

The culminating activity in the preparation of an audiologist is clinical reasoning. Therefore, a candidate for the Au.D. degree must be able to make correct observations and have the skills of measurement, calculation, reasoning, analysis, and synthesis.

All students admitted to the KU Intercampus Program in Communicative Disorders must be able to meet the following requirements and expectations with or without accommodation(s).

**Observation/Sensory Motor**

- Observe demonstrations and learn from experiences in the classroom, laboratory, and clinical situations.
- Carry out speech/language/hearing assessments and intervention strategies/techniques including the operation of complex, electronic instrumentation. Diagnosis, assessment, and intervention of speech/language/hearing problems typically involves the functional use of the senses in order to palpate certain areas of the patients' head and neck.
- Interpret and comprehend text, numbers, and graphs displayed in print and video.
- Observe and respond to subtle cues of patient's moods, temperament, and social behavior.

**Physical/Psychomotor**

- Perform actions requiring coordination of both gross and fine muscular movement, equilibrium and use of the senses.
- Respond quickly in clinic situations, not only for safety, but also therapeutically.
- Travel to numerous clinical sites for practical experience.
- Use an electronic keyboard to operate instruments and to calculate, record, evaluate, and transmit information.

**Communication**

- Be able to share and to elicit information from patients/clients, supervisor, peers and other health professionals verbally and in a recorded format.
- Effectively, confidently, and sensitively converse with patients and their families.
- Interpret and comprehend technical and professional materials.
- Prepare papers, produce reports, and complete documentation for patient records.
- Assimilate information from written sources (texts, journals, medical/school records).
- Take paper, computer, and laboratory examinations and prepare scholarly papers.

**Judgment**

- Demonstrate judgment in the classroom, laboratory, and clinic situations that shows the intellect and emotional health necessary to make mature, sensitive, and effective decisions in the following areas:
  - Relationships with professors, supervisors, peers, and patients/clients
  - Professional and ethical behavior
  - Effectiveness of diagnostic, assessment, and intervention strategies.
- Demonstrate an understanding of the rationale and justification for one’s performance.
- Critically evaluate one’s own performance and be flexible toward change to promote professional and clinical process.
- Recognize and correct behaviors disruptive to classroom teaching, research, and patient care.
- Manage the use of time to complete clinical and academic assignments within realistic constraints.
- Recognize potentially hazardous materials, equipment, and situations and proceed in a manner to minimize risk of injury to those in the area.
- Make correct observations and have the problem solving skills necessary for measurement, calculation, reasoning, analysis, and synthesis.

**Doctor of Philosophy in Speech-Language Pathology or Audiology**

The Intercampus Program in Communicative Disorders offers Ph.D. programs in both speech-language pathology and in audiology for post-baccalaureate study of normal and disordered aspects of communication. These programs are designed to prepare suitably qualified individuals for leadership positions in research and academia. A major focus of these programs is to advance the science of these fields, and to elucidate the scientific basis for the procedures and processes used in clinical practice.
Students may pursue the Ph.D. in conjunction with entry-level clinical graduate degrees. As a result, the program offers both a combined M.A./Ph.D. and a combined Au.D./Ph.D. track. These tracks facilitate the completion of both degrees (the clinical graduate degree and the Ph.D.) in approximately a 6-year post-baccalaureate period. Students interested in the M.A./Ph.D track are encouraged to contact the program for information about the application process. Students who wish to earn both Au.D. and Ph.D. degrees should contact their advisor.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission to the Ph.D. Program

Although applications may be submitted at any time, December 10 is the deadline for priority status, as it aligns with funding and scholarship availability.

Eligibility criteria for admission to the Ph.D. program follow Graduate Studies’ admission policy (http://policy.ku.edu/graduate-studies/admission-to-graduate-study/). To be considered for admission to regular graduate status in the program, a student must hold a bachelor’s degree with a cumulative 3.0 GPA. Because PhD students pursue an individualized plan of study, a faculty mentor is a critical requirement of the program. Potential applicants should investigate faculty mentor possibilities by (1) reviewing faculty bios and laboratory information (http://ipcd.kumc.edu/), and (2) reading recent research articles written by KU faculty. Applicants are strongly encouraged to contact faculty who may be a good match to their interests prior to applying.

A full list of the required application materials can be found on the Eligibility and Requirements (http://www.kumc.edu/school-of-health-professions/hearing-and-speech/phd-programs/eligibility-and-requirements.html) and How to Apply (http://www.kumc.edu/school-of-health-professions/hearing-and-speech/phd-programs/how-to-apply.html) pages of our Department’s website (http://www.kumc.edu/school-of-health-professions/hearing-and-speech.html).

All students are expected to have strong command of the English Language. Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/).

Upon admission, the student and his or her adviser choose a doctoral advisory committee. The committee is responsible for guiding the student’s progress through the selected program of study.

Incoming students who have not completed a substantive graduate research project (e.g., a master’s thesis, Au.D. research project, etc.) must initiate a thesis-equivalent research project, under the direction of a three-member committee, during the first year of enrollment. This project must be completed before the comprehensive oral examination.

Doctor of Philosophy in Speech-Language Pathology

Acquiring a doctorate in speech-language pathology at a minimum requires the following:

- Completion of academic coursework
  A minimum of 24 graduate hours in a major area of interest
  A minimum of 12 graduate hours in a correlative area
  A minimum of 15 graduate hours in research skills/responsible scholarship
- Completion of a preliminary research experience
- Satisfactory performance on annual reviews
- Satisfactory performance on written and oral comprehensive examinations
- Satisfactory completion of a dissertation including written and oral prospectus, and written dissertation and oral defense of the dissertation
- Submission of the dissertation to the KU Office of Graduate Studies

Note that the above are the MINIMUM requirements. Each student’s plan of study will vary depending on entry skills (i.e., relevant knowledge and skills acquired through prior training, work or research experience), chosen specialization, and career aspirations.

Students in this program must meet the general requirements of the university including the research skills and responsible scholarship requirement (http://policy.ku.edu/graduate-studies/research-skills-responsible-scholarship/) and fulfill the basic program requirements to receive the Ph.D. degree.

Doctor of Philosophy in Audiology

Acquiring a doctorate in audiology at a minimum requires the following:

- Completion of academic coursework
  A minimum of 24 graduate hours in a major area of interest
  A minimum of 12 graduate hours in a correlative area
  A minimum of 15 graduate hours in research skills/responsible scholarship
- Completion of a preliminary research experience
- Satisfactory performance on annual reviews
- Satisfactory performance on written and oral comprehensive examinations
- Satisfactory completion of a dissertation including written and oral prospectus, and written dissertation and oral defense of the dissertation
- Submission of the dissertation to the KU Office of Graduate Studies

Note that the above are the MINIMUM requirements. Each student’s plan of study will vary depending on entry skills (i.e., relevant knowledge
and skills acquired through prior training, work or research experience), chosen specialization, and career aspirations.

Students in this program must meet the general requirements of the university including the research skills and responsible scholarship requirement (http://policy.ku.edu/graduate-studies/research-skills-responsible-scholarship/) and fulfill the basic program requirements to receive the Ph.D. degree.

Different entry paths:

Students without a graduate degree (e.g., MA, AuD) have several options in pursuing the Ph.D. degree. Some decide to pursue a research emphasis plan of study. Others opt to work on clinical certification in the speech-language pathology or audiology programs while also in the Ph.D. program. This combined degree track involves a higher course load. Details may be found in the Ph.D. student handbook (http://www.kumc.edu/school-of-health-professions/student-handbook.html).

Students entering the Ph.D. program with a graduate degree will complete the Ph.D. program requirements outlined in the curriculum on this page, with some adjustments based on relevant skills acquired during prior graduate study. Details may be found in the Ph.D. student handbook (http://www.kumc.edu/school-of-health-professions/student-handbook.html).

For more information or to contact the program, please visit the IPCD website (http://hearing.kumc.edu).

Technical Standards

The Ph.D. degrees in audiology and speech-language pathology signifies that the holder is ready to engage in a research career. Therefore, all individuals admitted to the University of Kansas Intercampus Program in Communicative Disorders must meet the following abilities and expectations with or without accommodation(s). KU is an AA/EO/Title XI institution.

NOTE: Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose a disability are considered for the program if otherwise qualified. Qualified students with a disability who wish to request accommodations should provide appropriate documentation of disability and submit a request for accommodation to one of the following offices:

Cynthia Ukoko
Senior Coordinator for Academic Accommodations
3901 Rainbow Boulevard, MS 4029
Kansas City, KS 66160
cukoko@kumc.edu
913-588-7035; 711 TTY

Andrew Shoemaker
Director
Student Access Center
1450 Jayhawk Blvd., Room 22
Lawrence, KS 66045
shoe@ku.edu
785-864-4064; 711 TTY

The culminating activity in the preparation of a researcher is the ability to formulate, conduct and disseminate research. In the academic arena, teaching skills usually also are required. Therefore, a candidate for the Ph.D. degree must be able to make correct observations and have the skills of measurement, calculation, reasoning, analysis, and synthesis.

All students admitted to the KU Intercampus Program in Communicative Disorders must be able to meet the following requirements and expectations with or without accommodation(s).

Observation/Sensory Motor

- Observe demonstrations and learn from experiences in the classroom, laboratory, and other research settings.
- Carry out research techniques including the operation of complex, electronic instrumentation. Some types of research may involve the functional use of the senses in order to palpate certain areas of the patients’ head and neck or to observe the function of the head and neck.
- Interpret and comprehend text, numbers, and graphs displayed in print and video.
- Observe and respond to subtle cues of participant’s moods, temperament, and social behavior.

Physical/Psychomotor

- Perform actions requiring coordination of both gross and fine muscular movement, equilibrium and use of the senses.
- Respond quickly in research situations, not only for safety, but also therapeutically.
- Travel to numerous research sites for practical experience.
- Use an electronic keyboard to operate instruments and to calculate, record, evaluate, and transmit information.

Communication

- Be able to share and to elicit information from participants, mentors, peers and other research collaborators verbally and in a recorded format.
- Effectively, confidently, and sensitively converse with participants and their families.
- Interpret and comprehend technical and professional materials.
- Prepare papers, produce reports, and complete documentation for research purposes.
- Assist in writing and editing technical and research literature.
- Take paper, computer, and laboratory examinations and prepare scholarly papers.

Judgment

- Demonstrate judgment in the classroom, laboratory, and other research situations that shows the intellect and emotional health necessary to make mature, sensitive, and effective decisions in the following areas:
  - Relationships with professors, collaborators, peers, and participants
  - Professional and ethical behavior
  - Effectiveness of research approaches.
- Demonstrate an understanding of the rationale and justification for one’s performance.
Department of Women, Gender, and Sexuality Studies

About the Department

Founded in 1972, the Department of Women, Gender, and Sexuality Studies fosters the interdisciplinary study of women, gender, and sexuality through a rich multicultural and internationally informed academic environment. Our department seeks to produce intellectually rigorous, analytical and creative work that embodies the perspective of gender in its local and global dimensions through teaching, research, and outreach activities.

Undergraduate Programs

The Department of Women, Gender, and Sexuality Studies offers five undergraduate programs — two majors, two minors, and a certificate.

All majors and minors complete an interdisciplinary introductory course, a research methods class, and a range of topically and theoretically related courses from across the College. Majors take additional courses and culminate their studies in an independent research project supervised in the senior capstone seminar.

Our new undergraduate certificate provides a focused investigation of issues in Gender, Law & Policy in a four course sequence designed to complement other major and minor programs in the liberal arts and professional schools.

Graduate Programs

The Department of Women, Gender and Sexuality Studies supports interdisciplinary research on topics pertaining to women, gender, and sexuality and administers an interdisciplinary program leading to a graduate certificate and a Ph.D. degree. Additional cross-referenced courses are available to complete requirements for the graduate certificate and doctoral degree. Students may pursue the graduate certificate in addition to a KU graduate degree or as a standalone program.

Students who are interested in enrolling in graduate level coursework in the Department of Women, Gender, & Sexuality Studies without formal admission to a graduate program at KU are encouraged to apply for graduate non-degree seeking student status. See the department’s non-degree seeking admission webpage (http://wgss.ku.edu/admission-nds/) for further details.

Courses

WGSS 101. Introduction to Women, Gender, and Sexuality Studies. 3 Hours SC AE41/GE3S / S.
This course examines the extensive role of gender in human life and examines the ways that gender structures power relations among individuals and within economic, political, educational and other social structures, with special attention paid to women’s issues and movements in the United States and globally. Through readings drawn from the fields of women’s studies, gender studies, and sexuality studies, this course examines and explores alternatives to traditional and/or normative constructions of gender and sexuality, and also considers other markers of difference, such as disability, race, class, and religion, which intersect with gender identity and sexual identity. LEC.

WGSS 102. Introduction to Women, Gender, and Sexuality Studies, Honors. 3 Hours SC AE41/GE3S / S.
This course examines the extensive role of gender in human life and examines the ways that gender structures power relations among individuals and within economic, political, educational and other social structures, with special attention paid to women’s issues and movements in the United States and globally. Through readings drawn from the fields of women's studies, gender studies, and sexuality studies, this course examines and explores alternatives to traditional and/or normative constructions of gender and sexuality, and also considers other markers of difference, such as disability, race, class, and religion, which intersect with gender identity and sexual identity. Similar in content to WGSS 101. Open only to students in the University Honors Program or by consent of the instructor. LEC.

WGSS 111. Introduction to Human Sexuality Studies. 3 Hours S.
An interdisciplinary introduction to the study of human sexuality. We will consider some of the many ways that human sexuality has been understood and explained, drawing examples from multiple historical and contemporary sources. We will discuss how these understandings have changed over time and how they can vary depending on whose sexuality is being considered. LEC.

WGSS 177. First Year Seminar: ___. 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Women, Gender and Sexuality Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

WGSS 196. Study Abroad Topics in: ___. 1-6 Hours S.
This course is designed for the study of special topics in Women's Studies. Coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

WGSS 305. Women, Gender, and Sexuality in the North American West. 3 Hours H.
This course will provide students with an overview of how the history of women have profoundly shaped and given meaning to the development of the North American West (which includes present-day states and provinces in the U.S., Canada, and Mexico). The class will examine the lives of women who represent diverse backgrounds, lands, and time periods in this western region. In addition to women, lectures, readings, and discussion will focus on the themes of gender, masculinity, class, race, ethnicity, sexuality, labor, and environment. Broad in chronological scope that spans pre-contact into the twenty-first century, this course is not a comprehensive survey. Rather, the class will examine how women and groups of women across the region defended, survived, explored, cultivated, and imagined the West as a place that defined their homes.
migrations, settlement patterns, as well as sites of captivity, displacement, war, and development. (Same as HIST 405.) LEC.

WGSS 311. Sex in History. 3 Hours HT / H.
This course offers a survey of the history of human sexuality in the Western world; the second half of the semester emphasizes the American experience. Topics for consideration may include: masturbation, pornography, sex work, homosexuality, bisexuality, "perversions" (paraphilias), sex and marriage, racialized sexualities, sexual violence, trans* identities and experiences, sexuality and national identities, and colonialized sexualities. The course demonstrates the various ways in which sex, specifically the social and political meanings attributed to physical acts, changes over time and shapes human experiences and interactions far beyond the bedroom. (Same as AMS 323, HIST 332, and HUM 332.) LEC.

WGSS 317. African American Women: Colonial Era to the Present. 3 Hours H.
This interdisciplinary course covers the history of African American women, beginning in West and Central Africa, extending across the Middle Passage into the Americas, and stretching through enslavement and freedom into the 21st century. The readings cover their experiences through secondary and tertiary source materials, as well as autobiographies and letters, plays and music, and poems, novels, and speeches. (Same as AAAS 317, AMS 317, and HIST 317.) LEC.

WGSS 319. History, Women, and Diversity in the U.S.. 3 Hours AE41 / H.
This survey course explores the history of being female in America through a focus on the ways differences in race, sexuality, ethnicity, class, and life cycle have shaped various aspects of women's lives. Themes to be explored could include, but are not limited to: social and political activism; intellectual developments; family; women's communities; work; sexuality; and culture. (Same as HIST 319.) LEC.

WGSS 320. From Goddesses to Witches: Women in Premodern Europe. 3 Hours HT GE11/GE3H / H.
This course examines the social, cultural, and political contexts of women's spirituality and their relations to gender relations in Europe from about 30,000 B.C.E. to the 16th century Protestant Reformation. Lectures move both chronologically and topically, covering such subjects as goddess-worshiping cultures, women's roles in Christian and Jewish societies, symbols of women, and male attitudes toward women. Students will be able to participate in weekly discussions of primary and secondary source readings about women. (Same as HIST 320.) LEC.

WGSS 321. From Mystics to Feminists: Women's History in Europe 1600 to the Present. 3 Hours HT AE42/GE11/GE3H / H.
This survey of women's history in Europe looks at changing patterns of women's economic roles and family structures in preindustrial and industrial society, the importance of women in religious life, cultural assumptions underlyng gender roles, and the relationship of women to political movements, including the rise of feminism. (Same as HIST 321.) LEC.

WGSS 322. LGBTQ U.S. History, 1600-1900. 3 Hours H.
This course will take students on the first part of an exciting journey through an alternative version of U.S. history, exploring the experiences and treatment of men who love men, women who love women, and people with unconventional sexual and gender identities, telling this story as it unfolded in the British colonies established in North America, through the revolutionary period, and in the United States over the course of the nineteenth and twentieth centuries, and into the early twenty-first century. The first part of this two course sequence begins in the colonial period and ends around 1900 as modern categories of sexuality and sexual orientation came into existence. We will examine the ways in which individuals who craved intimacy with members of the same sex understood and negotiated their desires in an often hostile world. And we will consider how Early America's remarkable diversity shaped this history of same-sex love and desire. (Same as HIST 322.) LEC.

WGSS 323. LGBTQ U.S. History, 1900-Present. 3 Hours H.
This course will take students on the second part of an exciting journey through an alternative version of U.S. history, exploring the experiences and treatment of men who love men, women who love women, and people with unconventional sexual and gender identities, telling this story as it unfolded in the British colonies established in North America, through the revolutionary period, and in the United States over the course of the nineteenth and twentieth centuries, and into the early twenty-first century. The second part of this two course sequence focuses on the twentieth and twenty-first centuries. We will examine the changing understanding of non-normative sex, love, and desire; the political tactics, framings, and fights around sexual identities and rights; and the intersection of structural inequalities including, but not limited to, race, class, ability, and gender with LGBTQ histories. Please note that WGSS 322 or HIST 322 is not a prerequisite for WGSS 323 or HIST 323, though students interested in LGBTQ history should consider taking both. (Same as HIST 323.) LEC.

WGSS 324. History of Women and the Body. 3 Hours H.
This course examines different notions about women and their bodies from a historical perspective. It discusses the arguments and circumstances that have shaped women's lives in relation to their bodies, and women's responses to those arguments and circumstances. This course covers a wide geographical and chronological spectrum, from Ancient societies to the present, from Latin America and the Middle East, to North America and Western Europe. (Same as HIST 324.) LEC.

WGSS 325. Language, Gender, and Sexuality. 3 Hours GE3S / S.
How do people express gender in diverse languages around the world? In a globalized world in which English is increasingly prominent, how are other languages changing to account for both global and local shifts in gender norms and expectations? This course will examine gender, multilingualism and globalization using approaches of sociolinguistics, linguistic anthropology, and communication studies. We will explore such topics as gender, sexuality, and multilingualism; gendered language variants; gender norms, politeness, and globalization; nonbinary and trans identities encoded in languages around the world, including but not limited to gender pronouns; identity, body, and linguistic practices; and considerations of power, hegemony, and imperialism. (Same as ANTH 325, GIST 303, JWSH 305 and SLAV 305.) LEC.

WGSS 327. Perspectives in Lesbian, Gay, Bisexual, and Transgender Studies. 3 Hours AE41 / S.
An exploration of the experiences and histories of people who identify as lesbian, gay, bisexual, and/or transgender (LGBT); of the influences on these experiences by individuals, the state, and artistic, legal and medical discourses; and of the intersections between sexual orientation, sexuality, ethnicity, class, and religion. LEC.

WGSS 329. Introduction to Queer Theory: Tools for Deconstructing Gender. 3 Hours H.
In the 1970s and 1980s, LGBT activists began questioning basic knowledge about sexuality and the body, challenging rigid identity categories, and offering new ways to think about gender. We now call this approach "queer theory," and this course will introduce students to the texts and debates that have shaped this intellectual tradition. From ancient eunuchs to drag kings and queens, queer theory highlights how gender norms operate as forms of violence and oppression. We will explore how queer theory helps us understand difference, including its intersections with theories of feminism, race, and disability. LEC.
WGSS 330. Women in Contemporary African Literature. 3 Hours NW AE42/GE3H / H.
A critical study of issues and questions raised about women in contemporary African literature and implications for the larger society through the analysis of theme, language, characterization, roles and functions of women in selected works. (Same as AAAS 340.) LEC.

WGSS 331. Sex and Gender in New Media. 3 Hours.
How do gender and sexuality shape digital worlds, and how do these spaces shape our understanding of ourselves? This course analyzes new media like social networking sites, gaming, and dating apps. Students will explore the identities, relationships, and communities that have emerged across these platforms, with a focus on the possibilities and challenges they offer for gender and sexual expression. LEC.

WGSS 333. The Politics of Physical Appearance. 3 Hours AE41/GE11 / S.
An interdisciplinary analysis of standards of physical attractiveness and cultural conceptions of women's bodies. Includes analysis of how these standards change across time and cultural groups, and of the impact of these standards on women as individuals and on social and political outcomes. LEC.

WGSS 335. History of Jewish Women. 3 Hours H.
This course explores the history of Jewish women from antiquity to the twentieth century. It examines the historical constructions of women's gender roles and identities in Jewish law and custom as well as the social and cultural impact of those constructions in the context of the realities of women's lives in both Jewish and non-Jewish society. There are no prerequisites for this course. (Same as HIST 335, JWSH 335.) LEC.

WGSS 339. Feminism and Social Change. 3 Hours.
How do feminists go about fighting for social change? From social media hashtags to citywide protests, what methods do they use, and how do they justify them? Where have they been effective, and what lessons can we learn from those successes? This course investigates historical and contemporary efforts to change the world, with an emphasis on movements for women's rights and queer liberation in the United States. LEC.

WGSS 344. Black Feminist Theory. 3 Hours HL / H.
This course will study the critical discourse produced by black female intellectuals, writers, and activists about their race, gender, sexual, and class identities. Students will explore black women's distinct positionality through an examination of their theory as well as their praxis from the nineteenth century to the contemporary moment. By tracing the evolution of black feminist thought, the class will explore black women's initiation of and engagement with political, social, and artistic conversations in various fields of scholarly inquiry including-but not limited to-literature, history, sociology, political science, and the law. (Same as AAAS 344 and ENGL 344.) Prerequisite: WGSS 101, AAAS 104, or prior completion of one 200-level English course. LEC.

WGSS 345. Popular Culture in Africa: Spiritual Thrills, Romance and Sexualities. 3 Hours H.
This course examines how the different constituents of popular culture mobilize, construct and structure gender, and spiritual and sexual identities in select contemporary African countries. Discussions also focus on how popular culture mediates the contesting spaces of indigenous local constructs and the push and pull of global forces to create geographic and contemporary specificities. (Same as AAAS 345.) LEC.

WGSS 350. Black Love and Romance. 3 Hours H.
This course will examine representations of love and romance in African American literature and culture. In addition to the romance novel genre, the course studies different kinds of cultural texts, such as art, film, and music. It explores romantic relationships among black people, including related topics such as sex, desire, marriage, and singleness, and how these interpersonal relationships build families, communities, and collective bonds. The class will consider both the content and aesthetics of diverse texts in order to think about how black people connect intimately as well as how various social and cultural politics underlie the nature of those intimacies. LEC.

WGSS 351. Women and Leadership: The Legislative Process. 3 Hours S.
Examines current and historical roles and impacts of women involved in legislatures. Explores what difference women make when they are public officials. Students meet with local women legislators, lobbyists and political officials. Students learn how to analyze issues, access power, lobby, and organize at the grassroots. The course is designed to prepare students for an optional legislative internship during the subsequent semester. LEC.

WGSS 355. International Women's Rights. 3 Hours SC AE42.
Women face discrimination and abuse around the world: at home, in the workplace, and in the public sphere. How are these systems of oppression connected? How are women working together for change, and what can you do to support their efforts? This course will investigate what feminist solidarity looks like around the world, with an emphasis on connections across different cultural and political contexts. (Same as GIST 355.) LEC.

WGSS 361. Youth, Sex, and Romance in Post-WWII United States. 3 Hours AE41 / H.
Most people don't think of sex and romance as having a history. And youth seems just a natural stage of life. But the nature of "courtship," the definitions of sex, and the meaning of "youth" have changed dramatically over time, and people struggle over those definitions right up to the current day. In this class we try to make historical sense of those struggles by focusing on a volatile and complicated period in U.S. history: the years from World War II through the recent past. (Same as HIST 361.) LEC.

WGSS 363. Gendered Modernity in East Asia. 3 Hours S.
This course explores rapidly changing gender relationships and the sense of being “modern” in East Asia by examining marriage and family systems, work, education, consumer culture, and geopolitics. The class seeks to understand how uneven state control over men and women shapes desires, practices, and norms and how men and women act upon such forces. Avoiding biological or social determinism, this course treats gender as an analytical category and examines how modern nation-states and global geopolitics are constituted and operated. (Same as ANTH 363 and EALC 363.) LEC.

WGSS 364. Pregnancy in Modern Literature. 3 Hours HL GE21.
An examination of pregnancy, childbirth and reproductive control as depicted in literature from various national traditions in the twentieth and twenty-first centuries. This course draws together voices from literature, history, and feminist theory to deepen students' understanding of the ways nationality, class, race, ability, and gender affect the aesthetics surrounding reproduction. Special attention is given to the relationship between society and the pregnant/postpartum individual. Other topics may include: eugenics, contraception, male pregnancy, and speculative reproduction. (Same as HUM 364.) LEC.

WGSS 365. Angry White Male Studies. 3 Hours H.
This course charts the rise of the “angry white male” in America and Britain since the 1950s, exploring the deeper sources of this emotional state while evaluating recent manifestations of male anger. Employing interdisciplinary perspectives this course examines how both dominant
and subordinate masculinities are represented and experienced in cultures undergoing periods of rapid change connected to modernity as well as to rights-based movements of women, people of color, homosexuals and trans individuals. (Same as AMS 365, HIST 364 and HUM 365.) LEC.

WGSS 366. Fat, Food and the Body in Global Perspective. 3 Hours H.
An examination of fat and food as they relate to human embodiment in a variety of world locations. Bringing into a dialogue a number of disciplinary voices, including anthropology, fat studies, feminist theory, food studies, history, medicine, and psychology, the course applies theories of culture and embodiment to select global case studies as a means of approaching the pleasures, anxieties, health implications, and symbolic functions of ingesting food and drink. Topics may include the cultural and gender politics of fatness and thinness; anorexia and feederism; food, sex, and animality; vegetarianism, food scares and food purity movements; neoliberalism and the consuming body; and the material and symbolic aspects of fats and oils. (Same as HUM 366.) LEC.

WGSS 374. Religious Perspectives on Selfhood and Sexuality. 3 Hours H.
The nature of the self in its individual and social dimensions. Self experienced and expressed in sexuality. Survey of viewpoints in religious literature. (Same as REL 374.) LEC.

WGSS 376. Love, Sexuality and Gender in Japanese Literature. 3 Hours HL / H.
An examination of Japanese attitudes toward love, sexuality and gender differences as revealed in literature from the tenth century to the present. Discussion format. Not open to students who have taken EALC 575/ WGSS 576. (Same as EALC 376.) LEC.

WGSS 380. African Art and Gender. 3 Hours HL / H.
How does the rich relationship between art and gender provide an organizing metaphor for African artists across space and time? How do artists shape understandings of gender? In this course, we will examine gender in artistic practice alongside cultural binaries and consider how gender historically operated to define distinct roles for artists. We will study how formulations of gender and race intersected to impact artistic production and classification during the colonial and postcolonial periods. We will analyze materiality and the metaphor of childbirth, gender and Islamic textiles, and the concept of "craft." (Same as AAAS 380.) LEC.

WGSS 381. Feminism and Philosophy. 3 Hours AE41/GE3H / H.
An examination of topics of philosophical interest that are important in the feminist movement such as the nature of sexism, the concept of sexual equality, the ethics of sexual behavior, the nature of love, feminist analyses of the value of marriage and family, the ethics of abortion and justifications for preferential treatment of women. (Same as PHIL 381.) LEC.

WGSS 389. The Anthropology of Gender: Female, Male, and Beyond. 3 Hours NW AE42/GE21/GE3H/GE3S / W.
This course will introduce students to cultural constructions and performances of masculinity, femininity, and alternative genders across time and space. Topics and cases will be drawn from primarily non-Western cultures, ranging from Japanese markets to Pacific Rim gardens, and from Haitian voudou to Maya royal politics. This course uses research by archaeologists, linguists, biological anthropologists, and sociocultural anthropologists. (Same as ANTH 389.) LEC.

WGSS 396. Studies in: ______. 3 Hours H.
The interdisciplinary study of selected and different aspects of women's studies in different semesters. LEC.

WGSS 397. Study Abroad Topic in: ______. 1-6 Hours.
This course is designed for the study of special topics in Women's Studies at the junior/senior level. Course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

WGSS 401. Intimate Relationships. 3 Hours S.
A social psychological perspective on adult intimate relationships, examining friendship, dating, committed relationships, and the dissolution of committed relationships. Topics include romance, jealousy, self-disclosure, power, loneliness, and social support. Discussion of heterosexual and homosexual relationships, traditional forms (e.g., marriage) of relationships as well as alternative lifestyles (e.g., cohabitation) and gender-linked differences in relationships. (Same as PSY 410.) Prerequisite: PSY 104. LEC.

WGSS 418. Sexual Politics in Chinese Literature and Culture: Premodern Times. 3 Hours NW / H.
This course uses myth, literature, history, biography, and other documents to discuss sexual politics in China from ca 1500 B.C.E. to the end of the last dynasty in 1911. Topics include: emperors, empresses, and consorts, polygamy, prostitution, love, yin and yang cosmology, the art of the bedchamber, women's literature, and erotic literature. Recommended: A course in East Asian studies. Not open to students who have taken EALC 618. This course is taught at the 400 and 600 levels with additional assignments at the 600-level. (Same as EALC 418.) Prerequisite: One course in EALC or WGSS. LEC.

WGSS 440. Communication and Gender. 3 Hours AE41 / S.
Focuses attention on the relationship between communication and gender, including both physical and psychological dimensions. Topics include: sex role orientations and stereotypes; perceived and actual differences in verbal and nonverbal communication behaviors; the influence of gender on communication in a variety of contexts. (Same as COMS 440.) Prerequisite: COMS 130, COMS 150, or COMS 230. LEC.

WGSS 468. Psychology of Women. 3 Hours S.
A survey of the psychological theories about women; similarities and differences in the behavior of women and men; the effects of biological and social factors on the behavior of women and men; and issues of concern to women of different races, sexual orientations, ages, and so forth. (Same as PSY 468.) Prerequisite: Any previously completed course in PSY or WGSS. LEC.

WGSS 477. Gender and Religion. 3 Hours H.
Examination of the symbols, images, scriptures, rites and teachings that define gender in various religious traditions. (Same as HUM 477 and REL 477.) Prerequisite: An introductory course in Humanities, Religious Studies or Women, Gender Sexuality Studies. LEC.

WGSS 498. Independent Study. 1-3 Hours S.
Intensive reading or research under faculty supervision culminating in the writing of a paper or research report. IND.

WGSS 499. Honors in Women, Gender and Sexuality Studies. 3 Hours S.
An individual research or creative project under the direction of a specialist in the area of the student's interest. May be counted towards the total hours required for the major. Prerequisite: WGSS 498 with a grade of an A or B, or equivalent independent study/research credits with approval of the project adviser and the Women, Gender and Sexuality Studies honors coordinator. Majors only. IND.

WGSS 501. Doing Feminist Research. 3 Hours S.
How is feminist research more than research that just focuses on women? What does it mean to do research in a feminist way? This course explores feminist critiques of traditional methods and asks how
we can build knowledge that is more just, collaborative, and politically engaged. Students practice basic skills in qualitative research methods like interviewing and participant observation, and they learn how to design their own research project using these methods. Suggested for the junior year. Prerequisite: Any previous coursework in WGSS or by permission of instructor. LEC.

WGSS 502. Human Sexuality. 3 Hours S.
An introduction to the field of human sexuality. Topics to be covered include sexual anatomy and physiology, fertilization, pregnancy, birth and lactation, contraception, human sexual response, sexuality across the life cycle, love, marriage, alternatives to marriage, sexual orientation, sex differences in behavior, parenthood, sexually transmitted diseases, sex and the law, and sex education. (Same as PSYC 502.) Prerequisite: Any previous coursework in either WGSS or PSYC. LEC.

WGSS 510. History of American Women: Colonial Times to 1870. 3 Hours AE41 / H.
A survey of women's history in the United States, which will consider women's roles as housewives, mothers, consumers, workers, and citizens in pre-industrial, commercial and early industrial America. (Same as AMS 510 and HIST 530.) LEC.

WGSS 511. History of American Women: 1870 to Present. 3 Hours AE41 / H.
A survey of women's history in the United States, which includes radical and reform movements, the impact of war and depression, professionalization, immigration, women's work, and the biographies of leading figures in women's history. (Same as AMS 511 and HIST 531.) LEC.

WGSS 514. Politics of Human Trafficking. 3 Hours.
This course will examine the definitions and characteristics of human trafficking, both domestically and internationally. The course will compare a range of national and international policies addressing human trafficking, paying particular attention to the frameworks and ideologies shaping those initiatives. Ending human trafficking is a non-partisan issue, often bringing together policy makers and activists that would otherwise never work in coalition. Yet, the current movement to end trafficking also has deep chasms and ideological divisions. There are surprising, uncharacteristic divisions among groups that would otherwise be in unity. This class will examine the contemporary social movements to end trafficking and will attempt to understand the contentious politics found within the movement. How trafficking is framed can have a significant impact on the implementation of anti-trafficking legislation. The course will also examine the significant empirical challenges for studying human trafficking. While estimates of human trafficking vary widely, there is limited verifiable evidence of the extent of trafficking in any one area. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in WGSS 714. Prerequisite: Any previous course in WGSS. LEC.

WGSS 515. Gender and Sexuality in Greek Culture. 3 Hours AE42 / H.
This course explores various approaches to the study of gender and sexuality in Greek antiquity. Contents vary, and the course may focus on methodology and case studies, or on particular themes, historical periods, or artistic or literary genres. No knowledge of Greek or Latin is required. (Same as CLSX 515.) Prerequisite: Graduate status, or 6 credit hours in Classics, Greek, Latin, or Women, Gender and Sexuality Studies; or permission of instructor. LEC.

WGSS 516. Gender and Sexuality in Roman Culture. 3 Hours HL AE42 / H.
This course explores various approaches to the study of gender and sexuality in Roman antiquity. Contents vary, and the course may focus on methodology and case studies, or on particular themes, historical periods, or artistic or literary genres. No knowledge of Greek or Latin is required. (Same as CLSX 516.) Prerequisite: Graduate status, or 6 credit hours in Classics, Greek, Latin, or Women, Gender and Sexuality Studies; or permission of instructor. LEC.

WGSS 517. Policing the Womb. 3 Hours S.
Women's reproductive bodies have at times been made hypervisible, subject to medical, legal, and social surveillance and intervention, while at other times invisible. Across these practices, gender and race have been socially constructed in particularly limited ways, which the state has used to justify restrictive case law rulings and policies governing reproductive outcomes. This course is designed to critically examine the history, development, and outcomes of policies and cultural practices related to reproduction that have limited people's decisional autonomy. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in WGSS 717. Prerequisite: Any previous course in WGSS. LEC.

WGSS 521. History of American Women: Colonial Times to 1870. 3 Hours AE41 / H.
A survey of women's history in the United States, which will consider women's roles as housewives, mothers, consumers, workers, and citizens in pre-industrial, commercial and early industrial America. (Same as AMS 510 and HIST 530.) LEC.

WGSS 524. The History of Fashion. 3 Hours AE41 / H.
This course considers French painting c. 1750 to 1848 within the context of dramatic political and industrial revolutions. Exploring the power of the visual to engage with broader circumstances and to effect change, we will examine the ways in which shifting constructions of gender, empire, colonialism, race, slavery, and class were addressed by such artists as Watteau, David, Vigée-Lebrun, Delacroix, Géricault, Goya, Turner, Constable, Ingres, Daumier, Bonheur, and Court. Graduate students will complete additional assignments. (Same as HA 533.) LEC.

WGSS 534. Impressionism and Post-Impressionism: 1848-1900. 3 Hours H.
This course considers French painting 1848 to 1900, a period marked by unprecedented technological advancements, the restructuring of Paris, and the rise of consumer culture. As large sections of the city were leveled to make way for broad boulevards, cafés, and department stores, some artists strove to represent the ever-changing spectacle of urban life; others found their inspiration away from the city. Focusing on Manet, Degas, Caillebotte, Morisot, Cassatt, Monet, Renoir, Seurat, Gauguin, Van Gogh, and Cézanne, we will explore how artists engaged with shifting constructions of modernity, gender, fashion, public and private, empire, race, class, and consumer and leisure cultures. Graduate students will complete additional assignments. (Same as HA 534.) LEC.

WGSS 535. History of Feminist Theory. 3 Hours H.
This discussion course will cover the development of feminist theories from the late Middle Ages to the 1970s. Reading will include Pisan, Wolstonecraft, Mill, Freud, Woolf, Beauvoir, Friedan, Daly, Kristeva, and
others. (Same as HIST 649.) Prerequisite: Any previous course in WGSS or HIST or permission of instructor. LEC.

WGSS 552. The Rhetoric of Women's Rights. 3 Hours AE41 / H.
An analysis of the themes and rhetorical strategies of the women's rights movement in America. The course will view the struggle for women's rights from a historical perspective and will conclude with contemporary issues concerning the role of women in society. (Same as COMS 552.) Prerequisite: COMS 130, COMS 150, or COMS 230. LEC.

WGSS 553. Making a Pandemic: The History and Politics of HIV/AIDS. 3 Hours AE42 / H.
HIV/AIDS is a global pandemic fueled as much by political and historical forces as by epidemiology. This course will chart the disease's emergence, evolution of medical understanding and treatment, and spread of the pandemic through the lens of global structural inequalities, attitudes around sexuality, racism, and the lasting impact of colonialism. Through readings, assignments, films, and discussion, this course will lay bare for students the ways in which the current AIDS epidemic results as much from the disease's design itself as from the social and political world in which it operates. With HIV/AIDS as the focus, students will analyze and gain understandings of how different countries/communities/regions have experienced and responded to the disease, how those responses are informed by local cultural, historical, and political landscapes, and how larger global political forces have created the pandemic of today. Prerequisite: Any previous course in WGSS or by permission of instructor. LEC.

WGSS 560. Race, Gender, and Empire. 3 Hours NW.
This course considers how colonialism has shaped race and gender, historically and today. It explores how Europeans justified colonial rule through sexist beliefs about Native peoples and how sexual exploitation was built into colonial occupation. Film, literature, and political essays help us examine the lasting legacies of these ideas and resistance against them - a field known as postcolonial studies. We use this lens to trace historical attitudes about the white man's burden into contemporary issues in international politics, asking how human rights programs and military intervention maintain global inequality and produce new kinds of empires. (Same as AAAS 560.) Prerequisite: Any WGSS or AAAS course, or permission of the instructor. LEC.

WGSS 562. Women and Politics. 3 Hours AE41 / S.
This course exposes students to contemporary research on women and politics by surveying the sub-fields of political science. Topics include women's representation in the U.S., women and U.S. public policy, gender and legal theory, international women's movements, women and revolution, and women as political elites. We will examine the ways in which feminist theory and women's activism have challenged the narrow focus of the discipline as well as redefined women's place in society. (Same as POLS 562.) Prerequisite: Sophomore level or consent of the instructor. LEC.

WGSS 563. Gender, Sexuality and the Law. 3 Hours AE41/GE11 / H.
This course provides a broad introduction to Western legal systems (especially the American legal system) and then focuses on how sex, gender, and sexuality operate in and are understood by those systems and how the law is a site of social and political struggle. Topics may include intimate relations, First Amendment law, sexual harassment and employment discrimination; reproduction policies and governance; rape and sexual assault; gender identity discrimination; and the legal understandings and constructions of equal protection and due process. No prior knowledge of legal concepts is necessary. Prerequisite: Any previous course in WGSS or by permission of instructor. LEC.

WGSS 565. Gender, Culture, and Migration. 3 Hours S.
This course examines the gendered experiences of transnational migration through a combination of ethnography, literature, film, and news media. How do different people experience the desire to migrate, the logistics of movement, and life in a faraway place? How does mobility shape ideas of family, community, and nation? How do class, race, sexuality, and legal status also inflect these experiences, especially in rendering certain groups vulnerable to abuse and exploitation? Attention will also be paid to gendered thinking against migration, including the ways gender and sexuality inflect xenophobia, border enforcement, refugee recognition, deportation policy, and contemporary political debates. (Same as AMS 565 and GIST 565.) Prerequisite: Any 100 level AAAS course, WGSS 101, AMS 100, AMS 110, or GIST 220. LEC.

WGSS 567. Native Feminisms. 3 Hours SC AE42 / H/W.
This course examines the foundation of Native feminist scholarship and the history of Native feminist activism. The class will begin by considering whether feminist theory can support contemporary Native women Native Two-Spirit (LGBTQ+) in their struggles against settler colonialism and heteropatriarchy. While the course begins by examining the North American experience, the course will also cover a range of international indigenous contexts, with a focus on the Global South and the Indigenous Pacific. Topics explored include the history of settler-colonialism, cultural revitalization and gender roles, change and continuity under cycles of settler-colonialism, the connection between colonialism and sexual violence in Native communities, debates over citizenship and sovereignty, and contemporary Native gender roles and identities. During the conclusion of the course, students will learn to identify how Native feminism informs activism and practice. (Same as ISP 567.) Prerequisite: Any previous course in WGSS or ISP, or by permission of instructor. LEC.

WGSS 570. Men and Masculinities. 3 Hours H.
An intensive examination of the history and theory of masculinities in the Western world. Students become acquainted with some of the key theories of men and masculinities, and develop research projects on a topic negotiated with the instructor. (Same as HUM 570.) Prerequisite: An upper-division course in History, Humanities, or Women Gender and Sexuality Studies; or permission of instructor. LEC.

WGSS 573. Judaism and Sexuality. 3 Hours H.
An inquiry into the complex interactions of Judaism, Jewishness, and sexuality. The course serves as a basic introduction to traditional Jewish understandings of gender and power, love and sex, and the body and embodiment. It also introduces the changes undergone by this tradition under the impact of contemporary feminism and queer theory. (Same as JWSH 563, REL 573.) Prerequisite: At least one course in Jewish Studies or Religious Studies, or permission of instructor. LEC.

WGSS 575. The Body, Self and Society. 3 Hours H.
An intensive examination of the role of the human body in the creation of personal and social identities in the Western world. Students become acquainted with contemporary theories of embodiment and senses as they are applied to a variety of historical themes, and develop research projects on a topic negotiated with the instructor. (Same as HIST 625, HUM 575.) Prerequisite: An upper-division course in History, Humanities, or Women Gender and Sexuality Studies; or permission of instructor. LEC.

WGSS 576. Love, Sexuality and Gender in Japanese Literature. 3 Hours HL / H.
An examination of Japanese attitudes toward love, sexuality, and gender differences as revealed in literature from the tenth century to the present. Discussion format. Not open to students with credit in EALC 375/WGSS 376. (Same as EALC 575.) Prerequisite: One course in EALC or WGSS. LEC.
WGSS 580. Feminism and Anthropology. 3 Hours S.
This seminar will introduce students to feminism in anthropology, including feminist theories, methodologies, ethnographic styles, and the history of women in the discipline since the late 1800s. Emphasis is on the social contexts for feminist theory-building since the 1960s and changing ideas about gender and power. (Same as ANTH 580.) Prerequisite: One of the following: ANTH 389, ANTH 460, WGSS 201; or permission of instructor. LEC.

WGSS 583. Love, Sex, and Globalization. 3 Hours S.
Escalating transnational flows of information, commodities, and people have created innumerable kinds of "intimate" contacts on a global scale, such as mail order brides, child adoption, sex tourism, commodified romance, and emotional labor. Exploring the ways that cultural artifacts of intimacy are rendered, fetishized, and reified in a free market economy, this course examines how discourses on love and sex encounter, confront, and negotiate the logics of the capitalist market, the discrepant narratives of (colonial) modernity, and the ethics of pleasure. In so doing, this course navigates the treacherous interplay among emotions—specifically love, sex, and money, seeking the potential and limits of cultural politics of emotions. (Same as ANTH 583.) Prerequisite: Any previous course in ANTH or WGSS. LEC.

WGSS 598. Sexuality and Gender in African History. 3 Hours AE42 / W.
An examination of the history of sexuality and gender in Africa with a focus on the 19th and 20th centuries. Major issues and methods in the historical scholarship on gender and sexuality will be covered. Topics of historical analysis include life histories, rites of passage, courtship, marriage, reproduction, education, masculinities, homosexuality, colonial control, and changing gender relations. Prior course work in African history is suggested. Graduate students will complete an additional project in consultation with the instructor. (Same as AAAS 598 and HIST 598.) LEC.

WGSS 600. Contemporary Feminist Political Theory. 3 Hours S.
A detailed introduction to feminist thought post-1960. Examines feminism in relation to the categories of political theory: liberal feminism, socialist feminism, radical feminism, and postmodern feminism. Within these categories and separately, we will also consider feminism as it is influenced by women traditionally excluded from mainstream feminist thought, namely U.S. woman of color and women of post-colonial societies. This course is a service learning course that provides students with on-site practicum, mentoring, and networking skills. (Same as POLS 600.) Prerequisite: Sophomore level or consent of the instructor. LEC.

WGSS 601. Seminar in Women, Gender and Sexuality Studies. 3 Hours AE61 / S.
Investigation of a topic related to women, gender or sexuality from an interdisciplinary perspective. Open only to majors in Women, Gender Sexuality Studies and majors in Human Sexuality. Suggested for the senior year. Prerequisite: WGSS 501. LEC.

WGSS 618. Sexual Politics in Chinese Literature and Culture: Premodern Times. 3 Hours NW / H.
This course uses myth, literature, history, biography, and other documents to discuss sexual politics in China from ca 1500 B.C.E. to the end of the last dynasty in 1911. Topics include: emperors, empresses, and consorts, polygamy, prostitution, love, yin and yang cosmology, the art of the bedchamber, women's literature, and erotic literature. (Same as EALC 618.) Prerequisite: A course in East Asian studies. Not open to students who have taken EALC 418. This course is taught at the 400 and 600 levels with additional assignments at the 600-level. LEC.

WGSS 630. Politics of Identity. 3 Hours AE41 / S.
This seminar explores the nature of identity and how identity is relevant to politics and policy with a focus on political attitudes and behavior, institutions, and public policy. Topics include individual and group identity, identities such as gender, racial, sexual orientation, and partisan, and the enduring importance of identity for understanding politics as well as the policy process. The approach is multidisciplinary but political science perspectives are relied on more heavily. (Same as POLS 630.) Prerequisite: Sophomore level or consent of the instructor. LEC.

WGSS 640. Politics of Reproductive Policy. 3 Hours S.
Reproductive policy has historically been a highly politicized policy arena, which has elicited attention from the political community as well as the public. This course moves beyond the popular rhetoric associated with reproductive issues, by critically investigating the history, development, implementation and the relative success of various reproductive policies in the United States. These policies are compared to, and assessed against, policies governing similar topics in various countries. This course is a service learning course that provides students with on-site practicum, mentoring, and networking skills. (Same as POLS 640.) Prerequisite: Sophomore level or consent of the instructor. LEC.

WGSS 650. Service Learning in Women, Gender and Sexuality Studies. 3 Hours S.
This course, to be taken in the senior year, is designed to give students the opportunity to apply women's studies knowledge and ideas gained through course work to real-life situations in various agencies and women's centers. Open to Women's Studies majors and others with significant Women's Studies backgrounds. Prerequisite: Permission of instructor is required. FLD.

WGSS 652. Jazz and American Culture. 3 Hours H.
This course considers cultural and social histories of jazz, from the 1920s through the present day, as sites for exploring ideological struggles over such fields as race, class, gender, sexuality, democracy, capitalism, freedom, community, Americanness, and globalization in the U.S. The course will explore such questions as the following: What music was called jazz at what times and places? What did it mean to whom? Who played it? Who wrote about it? Who listened to it? Who danced to it? Who policed it? Who produced it? Who used it to rebel? Who used it to survive? What did all of these practices mean to participants? The course will examine struggles over social meanings in the U.S. through a study of jazz performance, labor, representation, marketing, consumption, censorship, and historiography. Prerequisite: A course in American studies, American history, or consent of instructor. (Same as AMS 650.) LEC.

WGSS 653. Gender, War, and Peace. 3 Hours S.
This course explores ways in which militarization and warfare are gendered processes. We ask, what does war tell us about gender, and what does gender tell us about war? Though the majority of fighters are men, women are essential to war efforts. They also represent a high proportion of the casualties of war. Yet women are rarely examined in relation to war; thus we work to uncover women's experiences of war. We also look to women's contributions to the peace movement in terms of both theory and practice, asking: Is peace a feminist issue? Should feminists support women's access to combat positions or oppose the military? What if women ruled the world—would that end wars? Does militarized masculinity harm men more than benefit them? How do states mobilize citizens to war and how is the process gendered? (Same as POLS 653.) Prerequisite: Sophomore level or consent of the instructor. LEC.
WGSS 662. Gender and Politics in Africa. 3 Hours S.
This course is designed to explore the field of gender and African politics. We begin by paying particular attention to African women's political roles during the pre-colonial and colonial society. Next, we examine the impetus, methods, and path of liberation struggles and how gender roles were shaped, shifted, and changed during these struggles. The majority of the class focuses on current issues in African politics, including gender and development, HIV/AIDS and women's health, gender and militarism. We also explore women’s roles in political institutions, civil society organizations, trade and labor unions, and transnational movements. We also examine contemporary constructions of masculinity and femininity in African states and explore how these constructions affect social policy and national political agendas. (Same as AAAS 662 and POLS 662.) Prerequisite: Sophomore level or consent of instructor. LEC.

WGSS 664. Women, Health, and Healing in Africa. 3 Hours H.
The course explores the values, practices, cultural systems and social-economic conditions that influence the sickness and health of women in Africa. The focus is on theoretical and applied debates and issues including: contraception, infertility, and reproduction; HIV/AIDS and other sexually transmitted infections; spiritual suffering and mental illness; trauma and violence; chronic illness, disability, and aging; pharmaceuticals, biotechnologies, and clinical research. (Same as ANTH 664.) Prerequisite: 6 hours of coursework in Anthropology and/or Women's Studies and/or African American Studies. LEC.

WGSS 689. Conceptual Issues in Human Sexuality. 3 Hours S.
An examination of the social construction of sexuality and research methods and issues relevant to sexuality. These concepts are applied to various topics, such as defining and conceptualizing sex and gender, sexual dysfunction, sexual orientation, the social control of sexuality, sexual coercion and abuse, and abstinence-only sex education. The course does not cover anatomical or physiological aspects of sexuality. (Same as PSYC 689.) Prerequisite: Any previously completed course in PSYC or WGSS. LEC.

WGSS 696. Studies in: ____. 3 Hours S.
Interdisciplinary study of different aspects of women’s studies in different semesters. LEC.

WGSS 701. Seminar in: ____. 3 Hours.
A research seminar in women's studies. Instructor and topic will vary. LEC.

WGSS 702. Women, Gender and Sexuality in the Archives. 3 Hours.
The pioneering historian Mary Beard once said “No documents. No history.” While historical methods have broadened since Beard’s time to include oral history, public history and more, the archive still remains central to scholarship on individuals, groups, social movements and more. In this class we will explore the usefulness of the archive for research in women, gender and sexuality topics as well as learn practical methods of archival research. We will read theoretical assessments of the archive, case studies based on archival research, and discuss new phenomena such as the digital archive and community archive. LEC.

WGSS 710. History of American Sexuality. 3 Hours.
This graduate seminar examines the history and significance of sexuality in American history from colonial times to the present. It will employ gender as an analytic category to explore the lived experiences of both men and women, as well as to question the formation of economic, political, and social institutions. Of necessity the class will examine the ways in which race, class, religion, and region, affect ideas about sexuality and its practice. Subjects will include abortion, contraception, prostitution, illegitimacy, homosexuality, rape, marriage, and the “sexual revolution.” Prerequisite: Graduate standing. LEC.

WGSS 711. Feminist Jurisprudence. 3 Hours.
This seminar examines the role of law in perpetuating and remedying inequities against women. After studying the historical emergence of sexual equality law in the United States, we discuss several paradigmatic feminist legal theories, including formal equality, MacKinnon's “dominance” theory, relational/cultural feminism, intersectionality and queer theory. We then proceed to apply these analytical structures to various substantive areas of law of particular concern to women, including but not limited to pregnancy, sexual assault, domestic violence, and employment discrimination. Students will also present their own research to the class. LEC.

WGSS 713. The Politics of Marriage. 3 Hours.
This course focuses on the history and contemporary politics of the institution of marriage, concentrating primarily on the US context, but with exploration of marriage in other countries as well. We will consider how the law regulates marriage as well as the lived reality of marriage for the couples who enter it. Topics include romance, engagement, gender roles in marriage, divorce, child marriage, arranged marriage, same-sex marriage, and polygamy. Prerequisite: Graduate standing. LEC.

WGSS 714. Politics of Human Trafficking. 3 Hours.
This course will examine the definitions and characteristics of human trafficking, both domestically and internationally. The course will compare a range of national and international policies addressing human trafficking, paying particular attention to the frameworks and ideologies shaping those initiatives. Ending human trafficking is a non-partisan issue, often bringing together policy makers and activists that would otherwise never work in coalition. Yet, the current movement to end trafficking also has deep chasms and ideological divisions. There are surprising, uncharacteristic divisions among groups that would otherwise be in unity. This class will examine the contemporary social movements to end trafficking and will attempt to understand the contentious politics found within the movement. How trafficking is framed can have a significant impact on the implementation of anti-trafficking legislation. The course will also examine the significant empirical challenges for studying human trafficking. While estimates of human trafficking vary widely, there is limited verifiable evidence of the extent of trafficking in any one area. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in WGSS 514, POLS 514, or GIST 514. (Same as GIST 714 and POLS 714.) Prerequisite: Graduate standing. LEC.

WGSS 717. Policing the Womb. 3 Hours.
Women’s reproductive bodies have at times been made hypervisible, subject to medical, legal, and social surveillance and intervention, while at other times invisible. Across these practices, gender and race have been socially constructed in particularly limited ways, which the state has used to justify restrictive case law rulings and policies governing reproductive outcomes. This course is designed to critically examine the history, development, and outcomes of policies and cultural practices related to reproduction that have limited people’s decisional autonomy. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in WGSS 517. LEC.

WGSS 770. Research in Men and Masculinities. 3 Hours.
An intensive examination of the history and theory of masculinities in the Western World since the sixteenth century. Students will become acquainted with some of the key theories of men and masculinities, examine in depth the interplay between manhood and modernity, and develop research projects on a topic negotiated with the instructor. May be repeated if content varies sufficiently. (Same as HUM 770.) LEC.
WGSS 775. Advanced Study in Body and Senses. 3 Hours.
An intensive examination of the role of the human body in the creation of personal and social identities in the West since the sixteenth century. Emphasis is on understanding how contemporary theories of embodiment are applied to concrete historical or contemporary problems. May be repeated if course content varies sufficiently. (Same as HUM 775.) LEC.

WGSS 797. Directed Readings. 1-3 Hours.
Directed reading in an area of women's studies in which there is no appropriate course in the offerings of the Women's Studies Program, but in which there is a member of the cooperating graduate faculty competent and willing to direct the program of study. RSH.

WGSS 800. History of Women, Gender and Sexuality Studies. 3 Hours.
An introduction to the field of women, gender, and sexuality studies, paying particular attention to its development, its reception by and influence on academic disciplines, and its institutionalization. Prerequisite: Graduate standing and consent of the instructor. SEM.

WGSS 801. Feminist Theory. 3 Hours.
A survey of contemporary feminist theories produced within and across disciplines (including but not limited to, eco-feminism, and liberal, cultural, materialist, psychoanalytic, radical, and black feminist thought). Prerequisite: Graduate standing and consent of the instructor. LEC.

WGSS 802. Feminist Methodologies. 3 Hours.
How is feminist research more than just research on feminist topics? What, if any, implications do various feminist theories have for how we execute research and for what we count as knowledge? This graduate seminar explores the joint epistemological and methodological foundations of feminist research in the humanities and social sciences. We will practice different research methods, assess their strengths and limitations, and learn how to integrate them in project design. Prerequisite: Graduate standing and consent of the instructor. SEM.

WGSS 803. Feminist Pedagogy. 1.5 Hour.
The goal of the course is to teach students to teach. By reading core texts of feminist pedagogy, understanding critical theories, and attending seminars at the Center for Teaching Excellence selected by instructor and student, students will learn how to present knowledge and stimulate learning in the classroom, as well as such practical skills as leading discussion sections, preparing and presenting class sessions, developing syllabi, devising fair grading and helpful advising, and solving pedagogical problems like maintaining civility in the classroom and coping with academic misconduct. Prerequisite: Must be Women, Gender, and Sexuality Studies graduate students. SEM.

WGSS 804. Professionalization Seminar in Women, Gender, and Sexuality Studies. 1.5 Hour.
The goal of this course is to train students in the skills essential to becoming effective scholars and educators, and successful members of the profession. The material to be covered by these three iterations includes 1) the ethics and practice of feminist research (e.g., protection of human subjects, conflicts of interest, confidentiality, legal strictures); 2) the practical aspects of producing knowledge (e.g., writing research papers, proper citation methods, conference presenting, responding to peer reviews); and 3) acquiring and securing a place in the work force (e.g., CV preparation, job interviews, grant writing, getting promotion [and, in the academy, tenure]). Prerequisite: Must be Women, Gender, and Sexuality Studies graduate students. SEM.

WGSS 810. Comparative Sexualities. 3 Hours.
Employing an interdisciplinary and comparative perspective, this course introduces the study of human sexuality in various disciplines. Students will also gain an understanding of the historical development and cross-cultural analysis of sexuality research, including the methodological, theoretical, and ethical issues involved in investigating sexual behavior and meanings. Prerequisite: Graduate standing and consent of the instructor. SEM.

WGSS 811. Black Feminist Theory. 3 Hours.
This course surveys black feminist theory and thought across various disciplines. It examines the critical figures, texts, investments, and debates constituting this evolving discourse, which centers black women’s social, political, and cultural praxis as well as considers their intersectional positionalities. Prerequisite: Graduate standing. LEC.

WGSS 812. Affect and Queer Theory. 3 Hours.
Since the mid-1990s affect has become central to the study of affective labor, anticipatory temporality, and neoliberal biopolitics across the social sciences and humanities. Exploring feminist epistemology of the lived experience, queer theory of nonnormative temporality, and postcolonial studies of the body politic, this course interrogates the interrelation of affect, knowledge, and power in and outside scholarly knowledge production, and rethinks pervasive binaries such as epistemology/ontology, discourse/materiality, and reason/emotion. It will also examine the possibilities and limitations of dominant affect theory and seek methodology to study affect more inclusively and critically. LEC.

WGSS 821. Woman and Violence. 3 Hours.
An examination of research on women and violence, including rape, domestic violence, sexual harassment, stalking, and child sexual abuse. Research on the nature, prevalence, causes, and consequences of violence against women is discussed. (Same as PSYC 821.) Prerequisite: Six hours in WGSS and/or PSYC, or permission of instructor. LEC.

WGSS 835. Colloquium in the History of Gender. 3 Hours.
This colloquium will cover theoretical and topical readings on the history of manhood, womanhood, and gender systems. (Same as AMS 835 and HIST 895.) SEM.

WGSS 836. Colloquium in United States Women's History. 3 Hours.
This colloquium will cover theoretical and topical readings on the history of women in the United States from the pre-contact period to the present. It is designed to familiarize students with the most important and current historiography in the field. (Same as AMS 836 and HIST 896.) SEM.

WGSS 837. Comparative Colloquium in Women's History. 3 Hours.
This colloquium will approach the history of women from a comparative perspective through theoretical and topical readings on women in at least two different cultures. (Same as AMS 837 and HIST 897.) SEM.

WGSS 889. Conceptual Issues in Human Sexuality. 3 Hours.
An examination of the social construction of sexuality and research methods and issues relevant to sexuality. These concepts are applied to various topics, such as defining and conceptualizing sex and gender, sexual dysfunction, sexual orientation, the social control of sexuality, sexual coercion and abuse, and abstinence-only sex education. The course does not cover anatomical or physiological aspects of sexuality. (Same as PSYC 889.) Prerequisite: Six hours in WGSS and/or PSYC, or permission of instructor. LEC.

WGSS 898. Research Colloquium. 3 Hours.
This course is the "capstone" to the Women's Studies Graduate Certificate program. Members of the seminar will produce a major paper and will share their research. During the first part of the term a small number of visitors (professors at KU and/or visiting speakers from other universities) will be invited to assign readings and subsequently present their work on women and gender. Students will be expected to attend the Gender Seminar of the Hall Center for the Humanities. Prerequisite:
WGSS 801 and at least 3 hours of other graduate work in the Women's Studies graduate certificate program, or by special permission. LEC.

**WGSS 999. Doctoral Dissertation. 1-12 Hours.**
Original research that is to be incorporated into a PhD dissertation. Graded on a satisfactory progress/limited progress/no progress basis. THE.

**Bachelor of Arts and Bachelor of General Studies in Human Sexuality**

**Why study human sexuality?**
- Explore the diverse range of human sexual practices and taboos
- Compare scientific, historical, and creative understandings of sexual desire
- Learn to analyze and address problems of sexual violence, reproductive justice, and LGBTQ inclusivity.

Human Sexuality students focus on the social, political, and medical constructions of human sexuality. They draw from interdisciplinary methods, theories, and research to better understand how the social construction and lived experiences of sexuality relate to society, politics, medicine, and social movements.

**Undergraduate Admission**

**Admission to KU**
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

**Admission to the College of Liberal Arts and Sciences**
Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

**First and Second Year Preparation**
Students are encouraged to take WGSS 111 and meet with the academic advisor.

**Requirements for the B.A. or B.G.S. Major**
Students must complete 10 courses (30 hours) in the major, including a maximum of 2 courses (6 hours) at the 100 or 200 level and a minimum of 4 courses (12 hours) at the 500+ level.

In addition, students must complete coursework in the following areas:

<table>

**Capstone Project** 3
Students need a 3.5 GPA in their Human Sexuality major.

### GPA Requirements

Students need a 3.5 GPA in their Human Sexuality major.

### Overlap Policies

Students who wish to pursue more than one program offered by the department of Women, Gender, and Sexuality Studies may do so with the following restrictions: No more than four courses may be used to fulfill requirements for both the Women, Gender, and Sexuality Studies major and the Human Sexuality major – two of which would be specifically WGSS 501 and WGSS 601. No more than two courses may overlap between any of our majors and minors, or between our two minors – one of which would be WGSS 501. Students earning an undergraduate certificate in addition to another WGSS program can overlap one course – the introductory-level requirement.

A sample 4-year plan for the BA degree in Women’s Students can be found here: Human Sexuality (p. 1996), or by using the left-side navigation.

A sample 4-year plan for the BGS degree in Human Sexuality can be found here: Human Sexuality (p. 1996), or by using the left-side navigation.

### Summary

- 3.5 GPA in the Human Sexuality major
- A senior honors thesis related to Human Sexuality written over two semesters (two three-credit courses)
- Double majors: earn Honors in both majors with one thesis that is relevant to both programs.

### Honors Thesis

Students write an honors thesis that is pertinent to the study of Human Sexuality. An honors thesis is a piece of original research or other project supervised by a faculty member of any department. In most cases, the result will be a written document of some length, but this could vary depending on the topic and what the student and thesis advisor agree on.

The senior honors thesis or honors project must be approved by a three-member thesis committee (the thesis advisor and two other faculty members, at least one of whom must be either in WGSS or serve as WGSS affiliate faculty).

Students take 6 credit hours of honors thesis work (3 hours per semester for 2 semesters) and they must earn a A or B in the first semester and a A the second. For these 6 hours, students can enroll in:

- WGSS 498 Independent Study in WGSS
- WGSS 499 Honors in Women, Gender and Sexuality Studies
  - or
- WGSS 498 Independent Study in WGSS
- WGSS 601—Senior Capstone in WGSS
  - or
- Two Honors Research or Independent Studies courses in any department

### Typical Timeline

- Fall of the Junior Year: Take WGSS 501 to develop research interests and an idea for your thesis. Enroll in other courses that let you develop expertise in this area.
- Spring of the Junior Year: Get to know faculty members who share similar research interests by enrolling in their courses or visiting them in office hours. Identify a professor willing to supervise the thesis. Submit an Honors Intent Form by 1 March to College Advising and Student Services, 109 Strong.
- Fall Semester of the Senior Year: Enroll in 3 credit hours of WGSS 499 or in an Independent Study of another department. Begin researching the thesis topic. The student and thesis advisor should form a three-person faculty committee (the thesis advisor and two other faculty members, at least one of whom must be either in WGSS or serve as WGSS affiliate faculty). Submit an Honors Intent Form by 1 March to College Advising and Student Services, 109 Strong.
- Spring Semester of the Senior Year: In consultation with your thesis advisor, enroll in 3 credit hours of WGSS 499 or WGSS 601 or in an Independent Study of another department. Finish the thesis. Have the thesis committee read the thesis and vote to award Honors (or not). If the thesis is passed, the thesis advisor needs to sign the Honors Certification Form, which can be obtained by the student in the College Advising and Student Services office, 109 Strong; after the advisor signs this form, it is then submitted back to the College Advising and Student Services, 109 Strong, at least a week before the end of the graduation term. The thesis advisor should also notify the Honors Coordinator of the result.

### Double Majors

Students who are satisfying double majors and pursuing Honors in both majors may use one honors thesis for both majors if they get approval from both departments. The thesis must be related to both majors,
and the thesis committee must include faculty members from both
departments. Students must fulfill both departments' requirements for
honors.

## BA in Human Sexuality

Below is a sample 4-year plan for students pursuing the BA in Human
Sexuality. To view the list of courses approved to fulfill KU Core Goals,
please visit the KU Core website (http://kucore.ku.edu/courses/).

1. The BA requires completion of two courses of collegiate-level writing
   instruction. Students who test out of Composition will still need to
   complete ENGL 102 (or equivalent) and one additional Goal 2.1
course.

2. Visit this website (https://collegeadvising.ku.edu/ba-quantitative-
   reasoning-courses/) for a list of courses that fulfill the BA Quantitative
   Reasoning requirement.

3. A list of courses that fulfill each requirement in the major can be
   found on the degree requirements (https://catalog.ku.edu/liberal-
   arts-sciences/women-gender-sexuality-studies/human-sexuality-ba-
   bgs/) tab of the catalog.

4. WGSS 501 is only offered in the fall semester.

5. WGSS 601 is only offered in the spring semester.

Please note:

All students in the College of Liberal Arts and Sciences are required to
complete 120 total hours of which 45 hours must be at the Jr/Sr (300+)
level.

The same course cannot be used to fulfill more than one KU Core Goal.
However, overlap of a KU Core course with a major or degree-specific
requirement is allowed. Overlapping is recommended to allow more
opportunities to explore other majors and/or minors.

## BGS in Human Sexuality

Below is a sample 4-year plan for students pursuing the BGS in Human
Sexuality. To view the list of courses approved to fulfill KU Core Goals,
please visit the KU Core website (http://kucore.ku.edu/courses/).

### Total Hours 120-123

1. The BA requires completion of two courses of collegiate-level writing
   instruction. Students who test out of Composition will still need to
   complete ENGL 102 (or equivalent) and one additional Goal 2.1
course.

2. Visit this website (https://collegeadvising.ku.edu/ba-quantitative-
   reasoning-courses/) for a list of courses that fulfill the BA Quantitative
   Reasoning requirement.

3. A list of courses that fulfill each requirement in the major can be
   found on the degree requirements (https://catalog.ku.edu/liberal-
   arts-sciences/women-gender-sexuality-studies/human-sexuality-ba-
   bgs/) tab of the catalog.

4. WGSS 501 is only offered in the fall semester.

5. WGSS 601 is only offered in the spring semester.

Please note:

All students in the College of Liberal Arts and Sciences are required to
complete 120 total hours of which 45 hours must be at the Jr/Sr (300+)
level.

The same course cannot be used to fulfill more than one KU Core Goal.
However, overlap of a KU Core course with a major or degree-specific
requirement is allowed. Overlapping is recommended to allow more
opportunities to explore other majors and/or minors.
**Bachelor of Arts and Bachelor of General Studies in Women, Gender, and Sexuality Studies**

**Why study women, gender and sexuality?**

- Confront social problems around gender and sexuality
- Collaborate with students and faculty from across the social sciences and humanities
- Build expertise on issues that matter most to you

If you are interested in how gender, race, class, and sexuality structure our world and interactions with one another, and if you are passionate about issues of social justice and inequality, then a degree in WGSS may be a great fit for you.

Students in Women, Gender, and Sexuality Studies develop a broad set of skills to critically analyze social issues from multiple disciplinary perspectives, including anthropology, history, law, literature, political science, psychology, and sociology. They learn to employ different methods and modes of analysis to better identify, critique, and productively understand the status of women in society and how structures of inequality interact with gender and sexuality.

**Undergraduate Admission**

**Admission to KU**

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

**First- and Second-Year Preparation**

It is recommended that students complete WGSS 101, the introductory course, and consult the undergraduate advisor.

---

1. The BGS requires completion of a minor (or a second major) outside of the major area of study. Most minors require 18 hours with 12 at the 300+ level.

2. A list of courses that fulfill each requirement in the major can be found on the degree requirements (https://catalog.ku.edu/liberal-arts-sciences/women-gender-sexuality-studies/human-sexuality-bgs/) tab of the catalog.

3. WGSS 501 is only offered in the fall semester.

4. WGSS 601 is only offered in the spring semester.

---

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

<tr>
<td>Majors must complete 30 total credit hours, with a maximum of 6 credits at the 100 or 200 level and a minimum of 12 credits at the 500+ level. In addition, majors must complete a course in each of the following areas.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Introduction:** 3

- WGSS 101 Introduction to Women, Gender, and Sexuality Studies
- or WGSS 102 Introduction to Women, Gender, and Sexuality Studies, Honors

**Social Science Perspective:** 3

Satisfied by any one course (3 hours) that is cross-referenced between WGSS and a social science department, including Anthropology; Applied Behavioral Science; Communication Studies; Economics; Geography and Atmospheric Science; Linguistics; Political Science; or Psychology.

Eligible courses include:

- SOC 220 Sociology of Families
- ABSC 268 Introduction to Marriage and Family Relations
- SW 303 Human Sexuality
- WGSS/ANTH 325 Language, Gender, and Sexuality
- SOC 326 Health, Gender, and Society
- SOC 352 Sociology of Sex Roles
- ANTH 359 Anthropology of Sex
- ANTH 372 Religion, Power, and Sexuality in Arab Societies
- WGSS 351 Women and Leadership: The Legislative Process
- WGSS/ANTH 389 The Anthropology of Gender: Female, Male, and Beyond
- WGSS/PSYC 410 Intimate Relationships
- WGSS/COMS 440 Communication and Gender
- SOC 450 Gender and Society
- SOC 454 Women and Work
- WGSS/PSYC 468 Psychology of Women
- HSES 489 Health and Human Sexuality
- WGSS/PSYC 502 Human Sexuality
- WGSS/PSYC 521 Women and Violence
- WGSS/COMS 552 The Rhetoric of Women's Rights
- WGSS/POLS 562 Women and Politics
- WGSS/ANTH 580 Feminism and Anthropology
- WGSS/POLS 600 Contemporary Feminist Political Theory
- SOC 601 Introduction to Feminist Social Theory

**Humanities Perspective:** 3

Satisfied by any one course (3 hours) that is cross-referenced between WGSS and a humanities department, including African and African American Studies; American Studies; Classics; English; Environmental Studies; Film and Media Studies; Global and International Studies; History; History of Art; Humanities; Indigenous Studies; Jewish Studies; Latin American & Caribbean Studies; Philosophy; or Religious Studies.

Eligible courses include:

- ENGL 306 Global Environmental Literature
- WGSS 311/AMS 323/HIST 332/HUM 332
- WGSS/AAAS/HIST 317 African American Women: Colonial Era to the Present
- WGSS/HIST 319 History, Women, and Diversity in the U.S.
- WGSS/HIST 320 From Goddesses to Witches: Women in Premodern Europe
- WGSS/HIST 321 From Mystics to Feminists: Women's History in Europe 1600 to the Present
- WGSS/HIST 322 LGBTQ U.S. History, 1600-1900
- WGSS/HIST 323 LGBTQ U.S. History, 1900-Present
- WGSS/HIST 324 History of Women and the Body
- WGSS 330/AAAS 340 Women in Contemporary African Literature
- WGSS/AAAS 345 Popular Culture in Africa: Spiritual Thrills, Romance and Sexualities
- WGSS 350 Black Love and Romance
- WGSS/HIST 361 Youth, Sex, and Romance in Post-WWII United States
- WGSS/HUM 364 Pregnancy in Modern Literature
- WGSS/HUM 365 Angry White Male Studies
- WGSS/REL 374 Religious Perspectives on Selfhood and Sexuality
- AAAS 388 The Black Woman
- AAAS 415 Women and Islam
- AAAS 434 African Women Writers
**Theoretical Perspective:**

3 courses (3 hours) that addresses theoretical issues in gender, sexuality, and feminism.

Major Hours in Residence

Satisfied by 30 hours of major courses.

**Major Hours**

Satisfied by 30 hours of major courses.

### Major Hours & Major GPA

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 30 hours of major courses.

### GPA Requirements

Students need a 3.5 GPA in their WGSS major.

**Honors Thesis**

Students write an honors thesis that is pertinent to Women, Gender, and Sexuality Studies. An honors thesis is a piece of original research or other project supervised by a faculty member of any department. In most cases, the result will be a written document of some length, but this could vary depending on the topic and what the student and thesis advisor agree on.

The senior honors thesis or honors project must be approved by a three-member thesis committee (the thesis advisor and two other faculty members, at least one of whom must be either in WGSS or serve as WGSS affiliate faculty).

### Overlap Policies

Students who wish to pursue more than one program offered by the department of Women, Gender, and Sexuality Studies may do so with the following restrictions: No more than four courses may be used to fulfill requirements for both the Women, Gender, and Sexuality Studies major and the Human Sexuality major – two of which would be WGSS 501 and WGSS 601. No more than two courses may overlap between any of our majors and minors, or between our two minors – one of which would be WGSS 501. Students earning an undergraduate certificate in addition to another WGSS program can overlap one course – the introductory-level requirement.

A sample 4-year plan for the BA degree in Women, Gender, & Sexuality Studies can be found here: Women, Gender, & Sexuality Studies can be found here: Women, Gender, & Sexuality Studies (p. 2001), or by using the left-side navigation.

A sample 4-year plan for the BGS degree in Women, Gender, & Sexuality Studies can be found here: Women, Gender, & Sexuality Studies (p. 2002), or by using the left-side navigation.

#### Summary

- 3.5 GPA in the WGSS major
- A senior honors thesis related to WGSS written over two semesters (two-three-credit courses)
- **Double majors**: earn Honors in both majors with one thesis that is relevant to both programs.

### General Electives

Satisfied by all WGSS courses.

Eligible courses include all those listed above and the following:

- **WGSS 111** Introduction to Human Sexuality Studies
- **WGSS 177** First Year Seminar: ______
- **WGSS 196** Study Abroad Topics in: ______
- **WGSS 327** Perspectives in Lesbian, Gay, Bisexual, and Transgender Studies
- **WGSS 331** Sex and Gender in New Media
- **WGSS 333** The Politics of Physical Appearance
- **WGSS 339** Feminism and Social Change
- **WGSS 396** Studies in: ______ (Can be designated as social science or humanities perspective by petition.)
- **WGSS 397** Study Abroad Topic in: ______
- **WGSS 498** Independent Study
- **WGSS 563** Gender, Sexuality and the Law
- **WGSS/ISP 567** Native Feminisms
- **WGSS 580** Feminism and Anthropology
- **WGSS 650** Service Learning in Women, Gender and Sexuality Studies
- **WGSS 696** Studies in: ______

#### Research Methods

Satisfied by: (suggested for the junior year)

- **WGSS 501** Doing Feminist Research (Fall Only)

#### Capstone Project

Satisfied by one course (3 credit hours) dedicated to completing a summative capstone project (WGSS 499 is completed as part of a sequence with WGSS 498. When completed as a sequence, 498 fulfills an elective and 499 fulfills the capstone requirement.). Suggested for the senior year.

- **WGSS 499** Honors in Women, Gender and Sexuality Studies (By permission of honors supervisor)
- **WGSS 601** Seminar in Women, Gender and Sexuality Studies (Spring Only)

**Note:** Courses with a blank (____) vary by semester and may be repeated for credit. These courses will always count as general electives. If they include significant theoretical, disciplinary, or international perspectives, they may count toward specific requirements within this program as well. Confirm with the major advisor.

### Women, Gender, and Sexuality Studies Major

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

#### Major Hours in Residence

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Hours at Advanced Levels**

Satisfied by a maximum of 6 hours at the 100-200 level and a minimum of 12 credit hours 500+ level.

- 100 & 200 level: maximum 6 hours (1 requirement and up to 1 elective)
- 300 & 400 level: remaining credit hours (up to 5 electives)
- 500 & 600 level: minimum 12 credit hours (2 requirements and at least 2 electives)

**Major Junior/Senior (300+) Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

### Double majors:

No more than two courses may overlap between any of our majors and minors, or between our two minors – one of which would be WGSS 501. Students earning an undergraduate certificate in addition to another WGSS program can overlap one course – the introductory-level requirement.

A sample 4-year plan for the BA degree in Women, Gender, & Sexuality Studies can be found here: Women, Gender, & Sexuality Studies can be found here: Women, Gender, & Sexuality Studies (p. 2001), or by using the left-side navigation.

A sample 4-year plan for the BGS degree in Women, Gender, & Sexuality Studies can be found here: Women, Gender & Sexuality Studies (p. 2002), or by using the left-side navigation.

### GPA Requirements

Students need a 3.5 GPA in their WGSS major.

**Honors Thesis**

Students write an honors thesis that is pertinent to Women, Gender and Sexuality Studies. An honors thesis is a piece of original research or other project supervised by a faculty member of any department. In most cases, the result will be a written document of some length, but this could vary depending on the topic and what the student and thesis advisor agree on.

The senior honors thesis or honors project must be approved by a three-member thesis committee (the thesis advisor and two other faculty members, at least one of whom must be either in WGSS or serve as WGSS affiliate faculty).
Students take 6 credit hours of honors thesis work (3 hours per semester for 2 semesters) and they must earn a A or B in the first semester and a A the second. For these 6 hours, students can enroll in:

- WGSS 498 Independent Study in WGSS
- WGSS 499 Honors in Women, Gender and Sexuality Studies
- WGSS 601—Senior Capstone in WGSS
- Two Honors Research courses or two Independent Studies in any department

**Typical Timeline**

- Fall of the Junior Year: Take WGSS 501 to develop research interests and an idea for your thesis. Enroll in other courses that let you develop expertise in this area.
- Spring of the Junior Year: Get to know faculty members who share similar research interests by enrolling in their courses or visiting them in office hours. Identify a professor willing to supervise the thesis. Inform the WGSS Honors Coordinator!
- Fall Semester of the Senior Year: Enroll in 3 credit hours of WGSS 498 or in an Independent Study of another department. Begin researching the thesis topic. The student and thesis advisor should form a three-person faculty committee (the thesis advisor and two other faculty members, at least one of whom must be either in WGSS or serve as WGSS affiliate faculty). Submit an Honors Intent Form by 1 March to College Advising and Student Services, 109 Strong.
- Spring Semester of the Senior Year: In consultation with your thesis advisor, enroll in 3 credit hours of WGSS 499 or WGSS 601 in an Independent Study of another department. Finish the thesis. Have the thesis committee read the thesis and vote to award Honors (or not). If the thesis is passed, the thesis advisor needs to sign the Honors Certification Form, which can be obtained by the student in the College Advising and Student Services office, 109 Strong; after the advisor signs this form, it is then submitted back to the College Advising and Student Services, 109 Strong, at least a week before the end of the graduation term. The thesis advisor should also notify the Honors Coordinator of the result.

**Double Majors**

Students who are satisfying double majors and pursuing Honors in both majors may use one honors thesis for both majors if they get approval from both departments. The thesis must be related to both majors, and the thesis committee must include faculty members from both departments. Students must fulfill both departments’ requirements for honors.

**BA in Women, Gender, and Sexuality Studies**

Below is a sample 4-year plan for students pursuing the BA in Women, Gender, and Sexuality Studies. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

1 The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.

2 Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.

3 A list of courses that fulfill each requirement in the major can be found on the degree requirements (http://catalog.ku.edu/liberal-arts-sciences/women-gender-sexuality-studies/ba-bgs/#requirementstext) tab of the catalog.

4 WGSS 501 is only offered in the fall semester.

5 WGSS 601 is only offered in the spring semester.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

**Total Hours 120**

1 A list of courses that fulfill each requirement in the major can be found on the degree requirements (http://catalog.ku.edu/liberal-arts-sciences/women-gender-sexuality-studies/ba-bgs/#requirementstext) tab of the catalog.

2 Please note that the Bachelor of General Studies degree requires completion of a single BGS major AND a secondary field of academic study (a second major, co-major, or minor). This sample plan is based on the completion of a minor. If a second major is selected instead, elective hours on plan will be needed for these additional major requirements.
WGSS 501 is only offered in the fall semester.
WGSS 601 is only offered in the spring semester.

Please note:
All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+ level).
The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

Minor in Human Sexuality

Why study human sexuality?
• Explore the diverse range of human sexual practices and taboos
• Compare scientific, historical, and creative understandings of sexual desire
• Learn to analyze and address problems of sexual violence, reproductive justice, and LGBTQ inclusivity.

Human Sexuality students focus on the social, political, and medical constructions of human sexuality. They draw from interdisciplinary methods, theories, and research to better understand how the social construction and lived experiences of sexuality relate to society, politics, medicine, and social movements.

Requirements for the Minor

Human Sexuality Minor Course Requirements
The minor requires 18 hours. At least 12 hours must be at the junior/senior (300+) level or higher. Students with a major in WGSS and a minor in Human Sexuality may only overlap two courses.

Students selecting this minor must complete the following:

<table>

**Total Hours** 18

**Human Sexuality Minor Hours**

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

**Minor Hours**
Satisfied by 18 hours of minor courses.

**Minor Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the minor.

**Minor Junior/Senior (300+) Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

**Minor Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all departmental courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator ([http://clas.ku.edu/undergrad/tools/gpa/](http://clas.ku.edu/undergrad/tools/gpa/)).

**Overlap Policies**
Students who wish to pursue more than one program offered by the department of Women, Gender, and Sexuality Studies may do so with the following restrictions: No more than four courses may be used to fulfill requirements for both the Women, Gender, and Sexuality Studies major and the Human Sexuality major – two of which would be WGSS 501 and WGSS 601. No more than two courses may overlap between any of our majors and minors, or between our two minors – one of which would be WGSS 501. Students earning an undergraduate certificate in addition to another WGSS program can overlap one course – the introductory-level requirement.

**Minor in Women, Gender, and Sexuality Studies**

**Why study women, gender and sexuality?**
- Confront social problems around gender and sexuality
- Collaborate with students and faculty from across the social sciences and humanities
- Build expertise on issues that matter most to you

If you are interested in how gender, race, class, and sexuality structure our world and interactions with one another, and if you are passionate about issues of social justice and inequality, then a WGSS program may be a great fit for you.

Students in Women, Gender, and Sexuality Studies develop a broad set of skills to critically analyze social issues from multiple disciplinary perspectives, including anthropology, history, law, literature, political science, psychology, and sociology. They learn to employ different methods and modes of analysis to better identify, critique, and productively understand the status of women in society and how structures of inequality interact with gender and sexuality.

**Requirements for the Minor**

**Women, Gender, and Sexuality Studies Minor Course Requirements**

The minor requires 18 hours. At least 12 hours must be at the junior/senior (300+) level or higher.

Students selecting this minor must complete the following:

<table>

### Theory 3

Satisfied by 1 course chosen from the following:

- **WGSS 329** Introduction to Queer Theory: Tools for Deconstructing Gender
- **WGSS/ENGL/AAAS 344** Black Feminist Theory
- **WGSS/PHIL 381** Feminism and Philosophy
- **PHIL 504** Philosophy of Sex and Love
- **WGSS 549/HIST 649** History of Feminist Theory
- **WGSS/AAAS 560** Race, Gender and Empire
- **WGSS/ANTH 580** Feminism and Anthropology
- **WGSS/POLS 600** Contemporary Feminist Political Theory
- **SOC 601** Introduction to Feminist Social Theory

### Methods 3

- **WGSS 501** Doing Feminist Research (Fall Only)

### Electives 9

Satisfied by any 3 additional WGSS courses (9 hours).

Eligible courses include:

- **WGSS 111** Introduction to Human Sexuality Studies
- **WGSS 177** First Year Seminar: ______
- **WGSS 196** Study Abroad Topics in: ______
- **SOC 220** Sociology of Families
- **ABSC 268** Introduction to Marriage and Family Relations
- **SW 303** Human Sexuality
- **ENGL/GIST 306** Global Environmental Literature
- **WGSS 311/AMS 323/HUM 332** Sex in History
- **WGSS/AAAS/HIST 317** African American Women: Colonial Era to the Present

**Total Hours** 18

Courses with a blank (___) vary by semester and may be repeated for credit. These courses all always count as general electives. If they include significant theoretical material, they may count toward specific requirements within the program as well. Confirm with the major advisor.

**Women, Gender, and Sexuality Studies Minor Hours & Minor GPA**

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

**Minor Hours**
Satisfied by 18 hours of minor courses.

**Minor Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the minor.

**Minor Junior/Senior (300+) Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

**Minor Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses in the minor. GPA calculations include all departmental courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

**Overlap Policies**
Students who wish to pursue more than one program offered by the department of Women, Gender, and Sexuality Studies may do so with the following restrictions: No more than four courses may be used to fulfill requirements for both the Women, Gender, and Sexuality Studies major and the Human Sexuality major – two of which would be WGSS 501 and WGSS 601. No more than two courses may overlap between any of our majors and minors, or between our two minors – one of which would be WGSS 501. Students earning an undergraduate certificate in addition to another WGSS program can overlap one course – the introductory-level requirement.
Undergraduate Certificate in Gender, Law and Policy

Why study gender, law & policy?

• Learn how gender and sexuality shape access to justice
• Use scientific, historical, cross-cultural, and literary tools to analyze the law from a critical perspective
• Build better policy solutions to real social problems

The Department of Women, Gender & Sexuality Studies now offers an undergraduate certificate investigating how legal institutions address gender, race, class and sexuality. This focused program is only four courses, with popular electives on topics such as intimate partner violence, human trafficking, reproductive justice, LGBTQ rights, electoral politics, feminist jurisprudence, and sex education. Available online and in-person, it is designed to fit alongside other major and minor programs from across campus.

This certificate requires 12 unique credit hours, including:

• One Introductory Course
• Two Electives
• One Capstone:
  • WGSS 563 Gender, Sexuality and the Law (available online)

Other relevant courses, including WGSS 396 Studies in: _____, may be approved by WGSS chair or undergraduate director.

Total Hours: 12

Courses with a blank (_) vary by semester. If the course directly addresses issues in law and policy, this course may count toward a specific requirement within this program. Confirm with the major advisor.

Overlap Policies:

Students earning the undergraduate certificate in Gender, Law, and Policy in addition to another WGSS program (major or minor) can overlap one course — the 100-level Introduction.

Master of Arts in Women, Gender, and Sexuality Studies

Overview of Women, Gender, & Sexuality Studies

WGSS was built out of the dual goals of examining inequalities resulting from gender, race, sexual orientation and class using an interdisciplinary lens, and translating this research into meaningful, tangible knowledge that contributes to the betterment of communities. Our interdisciplinary faculty members are engaged in research that examines many of the cutting edge issues vexing contemporary times, both domestically and globally, such as discrimination, violence, human trafficking, health and inequality, and migration, to name a few. The common thread throughout these different areas of research is the focus on investigating the factors that create and contribute to vulnerability across time and geography.

Women, Gender, and Sexuality Studies is one aspect of feminism, one where academic discussion and learning go on. WGSS students learn about the ways in which people's roles in society have been constructed and the ways in which these roles have changed and continue to change. WGSS courses will make you informed about, and sensitive to issues of
gender in relation to education, lifestyle, social roles and status, sexuality, legal status and equity. You will face these issues at work; WGSS courses will help you to deal with them in an informed, responsible, and just manner.

What will women, gender, & sexuality studies give me?

• Awareness of the issues facing people of all genders – and the world today
• Knowledge of many different academic fields
• Critical thinking and problem-solving skills
• Strong writing and researching abilities
• A solid base on which to enter the workforce, pursue further education and have an impact in the world
• Graduates of WGSS go on to do many different things, and the possibilities are endless

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

The Women, Gender, & Sexuality Studies MA program accepts applications for fall admission only. All applications and admissions materials must be received by the deadline listed on the department’s website (http://wgss.ku.edu/admission-ma/) to be considered for admission for the following fall semester.

Application Materials

Applicants should upload the supporting application documents listed below to the online application (https://gradapply.ku.edu/apply/). There is no need to send copies of application materials directly to the Women, Gender, & Sexuality Studies department.

• Copy of official transcripts (http://graduate.ku.edu/transcripts/) from all colleges or universities attended
• Resume or CV
• Statement of purpose (no longer than two pages, single spaced)
• Three letters of recommendation

Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/).

Contact

Visit the Department of Women, Gender, & Sexuality Studies website for detailed information about MA admission requirements (http://wgss.ku.edu/admission-ma/).

The Master of Arts in Women, Gender, & Sexuality Studies requires 30 credit hours of coursework and a written comprehensive exam. At least 50% of coursework for the master’s degree must be taken at the 700 level or above.

Core Courses (9)

WGSS 800 History of Women, Gender and Sexuality Studies (offered every fall)
WGSS 801 Feminist Theory (offered every fall)
WGSS 802 Feminist Methodologies (offered every spring)

Elective Theory (3)

1 course selected by the student and advisor which provides theoretic support for the student’s research

Elective Methods (3)

1 course selected by the student and advisor which provides methodological support for the student’s research

Elective Courses (15)

Five graduate level courses selected by the student and advisor with at least 50% of content related to gender and/or sexuality

MA Exam

In the last semester of course enrollment, students will complete a written comprehensive exam based on MA program content. A committee of three faculty members evaluates the exam upon completion.

Handbook

Further details about meeting the degree requirements can be found in the WGSS Graduate Student Handbook (https://wgss.ku.edu/sites/wgss.ku.edu/files/docs/WGSS%20Graduate%20Student%20Handbook.pdf).

Doctor of Philosophy in Women, Gender, and Sexuality Studies

Why study women, gender and sexuality studies?

WGSS was built out of the dual goals of examining inequalities resulting from gender, race, sexual orientation and class using an interdisciplinary lens, and translating this research into meaningful, tangible knowledge that contributes to the betterment of communities. Our interdisciplinary faculty members are engaged in research that examines many of the cutting edge issues vexing contemporary times, both domestically and globally, such as discrimination, violence, human trafficking, health and inequality, and migration, to name a few. The common thread throughout these different areas of research is the focus on investigating the factors that create and contribute to vulnerability across time and geography.

Women, Gender, and Sexuality Studies is one aspect of feminism, one where academic discussion and learning go on. WGSS students learn about the ways in which people’s roles in society have been constructed and the ways in which these roles have changed and continue to change. WGSS courses will make you informed about, and sensitive to issues of gender in relation to education, lifestyle, social roles and status, sexuality, legal status and equity. You will face these issues at work; WGSS courses
will help you to deal with them in an informed, responsible, and just manner.

**What will women, gender, & sexuality studies give me?**

- Awareness of the issues facing women, men, and non-binary people -- and the world -- today.
- Knowledge of many different academic fields.
- Critical thinking and problem-solving skills.
- Strong writing and researching abilities.
- A solid base on which to enter the workforce, pursue further education and have an impact in the world.
- Graduates of WGSS go on to do many different things, and the possibilities are endless.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Graduate Admission**

The Women, Gender, & Sexuality Studies PhD program accepts applications for fall admission only. All applications and admissions materials must be received by the deadline listed on the department's website (http://wgss.ku.edu/admission-phd/) to be considered for admission for the following fall semester.

**Application Materials**

Applicants should upload the supporting application documents listed below to the online application (https://gradapply.ku.edu/apply/). There is no need to send copies of application materials directly to the Women, Gender, & Sexuality Studies department.

- Copy of official transcripts (http://graduate.ku.edu/transcripts/) from all colleges or universities attended
- Resume or CV
- Statement of purpose (no longer than two pages, single spaced)
- Writing sample (no longer than 30 pages)
- Three letters of recommendation

Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/).

**Contact**

Visit the Department of Women, Gender, & Sexuality Studies website for detailed information about PhD admissions requirements (https://wgss.ku.edu/admission-phd/).

---

**Ph.D. Degree Requirements**

The Ph.D. program requires completion of core and elective courses and demonstration of depth in a chosen concentration or track. Students must complete a minimum of 12 credit hours of core courses in WGSS, 15 credit hours of elective courses in WGSS, and 18 credit hours of coursework in an approved concentration or track as outlined below. The Research Skills and Responsible Scholarship requirement is satisfied by WGSS 802, WGSS 803, WGSS 804, and theory and methods coursework. All coursework within WGSS and within the concentration should be selected in consultation with a faculty advisor.

Concentrations are approved in African and African-American Studies, American Studies, Anthropology, Classics (Greek and Roman Studies), Communication Studies, English, Film and Media Studies, History, History of Art, Political Science, Psychology, Sociology, Theatre, Indigenous Studies, and Museum Studies. Students who wish to pursue an alternative concentration may do so with approval from their faculty advisor and the Director of Graduate Studies.

**Qualifying Exam**

Students will take a qualifying exam after completing (or enrolling in enough hours to complete) 30 credit hours of coursework, typically in their fourth semester of the program. This exam is administered by instructors of WGSS 800, WGSS 801, and WGSS 802. Students who successfully pass this exam will be awarded the MA degree in WGSS. The committee will also weigh the quality of the performance on the exam to determine if the student will be approved to continue on to the Ph.D. Awarding of the MA degree does not guarantee approval to continue to the Ph.D.

**Comprehensive Oral Exam**

After completion of all required coursework (or in the final semester of coursework), students will take a comprehensive oral examination, the centerpiece of which are a portfolio of all major written work (exams, papers, syllabi), three annotated bibliographies, and a dissertation prospectus.
Graduate Certificate in Women, Gender, and Sexuality Studies

Why study women, gender, and sexuality studies?

WGSS was built out of the dual goals of examining inequalities resulting from gender, race, sexual orientation and class using an interdisciplinary lens, and translating this research into meaningful, tangible knowledge that contributes to the betterment of communities. Our interdisciplinary faculty members are engaged in research that examines many of the cutting edge issues vexing contemporary times, both domestically and globally, such as discrimination, violence, human trafficking, health and inequality, and migration, to name a few. The common thread throughout these different areas of research is the focus on investigating the factors that create and contribute to vulnerability across time and geography.

Women, Gender, and Sexuality Studies is one aspect of feminism, one where academic discussion and learning go on. WGSS students learn about the ways in which people's roles in society have been constructed and the ways in which these roles have changed and continue to change. WGSS courses will make you informed about, and sensitive to issues of gender in relation to education, lifestyle, social roles and status, sexuality, legal status and equity. You will face these issues at work; WGSS courses will help you to deal with them in an informed, responsible, and just manner.

What will women, gender, & sexuality studies give me?

- Awareness of the issues facing women, men, and non-binary people -- and the world -- today.
- Knowledge of many different academic fields.
- Critical thinking and problem-solving skills.
- Strong writing and researching abilities.
- A solid base on which to enter the workforce, pursue further education and have an impact in the world.
- Graduates of WGSS go on to do many different things, and the possibilities are endless.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admission

Any applicant seeking to pursue a graduate certificate in Women, Gender, & Sexuality Studies must submit an application at https://gradapply.ku.edu/apply (https://gradapply.ku.edu/apply/). Applications are accepted on a rolling basis.

New Applicants

Applicants who are not already enrolled in a KU graduate program must have completed a bachelor's degree with a 3.0 or higher GPA. These applicants should include the following materials in their application to the certificate program.

- Statement of purpose (no longer than one page, single spaced)
- Copy of official transcripts (http://graduate.ku.edu/transcripts/) from all colleges and universities attended
- Two letters of recommendation

Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/).

Current KU Graduate Students

Applicants already in a KU graduate program must be in good standing with their home department to be eligible for admission the certificate program. Current KU graduate students must provide the following materials in their online application.

- Statement of purpose (no longer than one page, single spaced)
- Letter of support from home academic department
- Current KU advising report

Contact

Visit the Department of Women, Gender, & Sexuality Studies website for detailed information about graduate certificate admissions requirements (https://wgss.ku.edu/graduate-certificate-admission/).

Graduate Certificate Requirements

The Graduate Certificate in Women, Gender, and Sexuality Studies requires completion of 12 credit hours of graduate work, including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WGSS 800</td>
<td>History of Women, Gender and Sexuality Studies</td>
<td>6</td>
</tr>
<tr>
<td>WGSS 801</td>
<td>Feminist Theory</td>
<td></td>
</tr>
<tr>
<td>WGSS 802</td>
<td>Feminist Methodologies</td>
<td></td>
</tr>
</tbody>
</table>

Certificate students must also complete two electives chosen from the department’s list of recommended graduate courses or courses approved by the department’s Director of Graduate Studies.

Total Hours: 12
--Arts (in CLAS)

Graduation requirements and regulations for every academic program are provided in this catalog. Degree requirements and course descriptions are subject to change. In most cases, you will use the catalog of the year you entered KU (see your advisor (http://www.advising.ku.edu/) for details). Other years' catalogs (http://catalog.ku.edu/archives/).

### Undergraduate Degree Requirements

#### Undergraduate Degree Programs

- The degree of Bachelor of Arts (B.A.) is granted with majors in dance, film and media studies, theatre, and visual art.
- The degree of Bachelor of Fine Arts (B.F.A.) is granted with majors in dance, history of art, theatre design, and visual art.
- The degree of Bachelor of General Studies (B.G.S.) is granted with majors in film and media studies and theatre.
- The Bachelor of Art Education (B.A.E.) offers a major in art education.

#### Requirements for Graduation

All undergraduate degrees from the University of Kansas require completion of the KU Core Curriculum. In addition to the KU Core, students must satisfy the degree specific and major requirements of the degree they are pursuing.

Degrees from the School of the Arts are conferred on candidates who have satisfactorily completed a minimum of 120 credit hours for the B.A., B.G.S., and B.F.A. degrees, including required subjects. The B.A.E. degree requires additional hours in student teaching, internship, and graduate credit for Kansas licensure and therefore requires a minimum of 139 hours.

45 credit hours must be in junior/senior-level courses, numbered 300 and above. 2.0 grade-point averages in KU courses and in junior/senior hours in the major are required for graduation. 4 hours of the total in each case except B.A.E. degrees may be in physical education activity courses. Art appreciation courses are not accepted toward art history requirements for students majoring in any field of art or design. HA 100 and HA 300 are not accepted toward any requirement for students majoring in any field of art or design.

#### Remedial Courses

Remedial courses listed in the catalog and Schedule of Classes are numbered below 100. Such courses include, but are not limited to MATH 2. Such courses do not count toward graduation in the School of the Arts and may not be counted as distribution courses.

#### Facilities

**Art and Design Building**

View a slide show in the School of the Arts brochure.

The 130,000-square-foot Art and Design Building houses all major art and design programs, including studios and offices. The building houses the 2,100-square-foot Art and Design Gallery (http://art.ku.edu/about/art_design_gallery.shtml/); this space features new exhibitions every 2

---

### Introduction

The School of the Arts in the College of Liberal Arts and Sciences is composed of 3 departments:

- Film and Media Studies (p. 2049),
- Theatre and Dance (p. 2063), and
- Visual Art (p. 2087).

The school acquaints students with the arts as an important field of a liberal culture, either as members of a discriminating public or as trained practitioners. It prepares students for careers in dance, film and media, theatre, and visual art and promotes scholarship and research in the arts. It offers curricula for teachers of art in public schools and institutions of higher education.

The school makes a substantial contribution to the cultural life of the campus, community, and state by providing a center for the best of theatre and dance performance and the exhibition of works of art and film.

---

### Undergraduate Degree Requirements

#### Undergraduate Degree Programs

- The degree of Bachelor of Arts (B.A.) is granted with majors in dance, film and media studies, theatre, and visual art.
- The degree of Bachelor of Fine Arts (B.F.A.) is granted with majors in dance, history of art, theatre design, and visual art.
- The degree of Bachelor of General Studies (B.G.S.) is granted with majors in film and media studies and theatre.
- The Bachelor of Art Education (B.A.E.) offers a major in art education.

#### Requirements for Graduation

All undergraduate degrees from the University of Kansas require completion of the KU Core Curriculum. In addition to the KU Core, students must satisfy the degree specific and major requirements of the degree they are pursuing.

Degrees from the School of the Arts are conferred on candidates who have satisfactorily completed a minimum of 120 credit hours for the B.A., B.G.S., and B.F.A. degrees, including required subjects. The B.A.E. degree requires additional hours in student teaching, internship, and graduate credit for Kansas licensure and therefore requires a minimum of 139 hours.

45 credit hours must be in junior/senior-level courses, numbered 300 and above. 2.0 grade-point averages in KU courses and in junior/senior hours in the major are required for graduation. 4 hours of the total in each case except B.A.E. degrees may be in physical education activity courses. Art appreciation courses are not accepted toward art history requirements for students majoring in any field of art or design. HA 100 and HA 300 are not accepted toward any requirement for students majoring in any field of art or design.

#### Facilities

**Art and Design Building**

View a slide show in the School of the Arts brochure.

The 130,000-square-foot Art and Design Building houses all major art and design programs, including studios and offices. The building houses the 2,100-square-foot Art and Design Gallery (http://art.ku.edu/about/art_design_gallery.shtml/); this space features new exhibitions every 2
weeks and serves as an important component of the teaching mission. Each major program offers all students spacious work areas and a range of equipment, from traditional to the newest digital technology. Students have access to multilayered computer labs with the most commonly used software for photography, animation, CAD, 3-D, video production, desktop publishing, scanning, illustration, large- and medium-format plotters, and color and black-and-white laser printers. Unique satellite computer areas are dedicated to textiles, metalsmithing and jewelry, expanded media, and printmaking. Students have access to a traditional Photography Laboratory, including a dark room for black-and-white photography, a digital processing lab, dedicated spaces for project photography, and an equipment checkout facility. The 6,400-square-foot Common Shop includes a range of woodworking equipment, a plastic vacuum former, metalworking equipment, and classroom space. All labs and the shop have technical support staff.

There are 3 large, well-equipped painting studios. The print studios consist of 8,000 square feet of workspaces and a dedicated computer lab for serigraphy, lithography, and intaglio. The intaglio studio has 5 presses and a separate acid room. The lithography studio has 3 presses and various sizes of stones. The serigraphy studio has 12 printing stations, a separate wash-out room, and a large exposure unit, available for a variety of photo-based processes. The sculpture studio is divided into 5 general work areas with appropriate equipment: woodworking, metal fabrication, foundry, an open courtyard, and individual studios. The foundry contains equipment necessary for casting with a variety of kilns, 3 gas-fired furnaces, and an overhead crane. There is an induction furnace with a lift-swing unit for bronze and a tilt box unit for iron and steel.

The 3,800-square-foot metalsmithing and jewelry studio has 8 rooms with separate areas for soldering, metalsmithing, plating/electro-forming, a finishing room, casting, gas and TIG welding, enameling, and a student-operated supply store. Matrix GemVision computer software is available for students to develop 3-dimensional jewelry models. The ceramics area includes 5,300 square feet of studio space in the Art and Design building as well as separate west campus Chamney barn facilities. Kilns include salt, soda, cross-draft wood, anagama wood-fired, raku, an electric test kiln, and several kinds of gas and electric kilns. The textile design area has separate weaving, screen-printing, sewing, and dye areas. The weaving studios are equipped with 4-, 8-, and 16-harness floor looms and two 16-harness AVL compu-dobby looms. The sewing area includes traditional machines, sergers, and a computer-aided embroidery machine. The textile Mac computer lab offers numerous software applications specific to weaving and surface design including jacquard weaving CAD software.

Murphy Hall

Murphy Hall houses all major theatre programs and facilities (http://theatre.ku.edu/facilities/) for University Theatre (http://www.kutheatre.com/) productions. Crafton-Preyer Theatre is a large proscenium theatre seating 1,181. It is equipped with a full-stage turntable, a hydraulic orchestra pit elevator, cutting-edge lighting and sound control equipment, and a recently renovated counterweight line system. William Inge Memorial Theatre is a 50-foot by 50-foot black box theatre with flexible seating for approximately 120. It is also equipped with excellent lighting and sound control equipment. Well-equipped shops for scenery, costume, and props construction, as well as a lighting maintenance laboratory serve the production areas. Crafton-Preyer is also used as Stage Too! The audience is built onto the large stage of the theatre for a more intimate setting. 4 main studios are used as rehearsal halls and classrooms. The Thomas Gorton Music and Dance Library is in Murphy Hall.

Summerfield Hall

The Film and Media Studies facilities are located in Summerfield Hall and right in the center of campus with easy access to parking and the KU bus system. Our facilities reside on the 1st, 2nd and 4th floors and provide over 14,000 sq/ft of production and studio space. Students have access to a state of the art sound recording studio, soundstage, animation studio, computer lab, and production classroom.

Robinson Center

The dance department is housed in Robinson Center, which contains 3 large, well equipped dance studios. One of the studios converts into the Elizabeth Sherbon Theatre, an informal, black box theatre. Dance students have performance opportunities (https://theatredance.ku.edu/ performance-dance/) with the University Dance Company, New Dance, and in School of Music and Department of Theatre productions. The Thomas Gorton Music and Dance Library is in Murphy Hall.

Spencer Museum of Art

The Helen Foresman Spencer Museum of Art (http://www.spencerart.ku.edu/) is regarded as one of the most innovative university museums and has long been considered one of the top teaching museums in the country. 5 galleries display selections from the permanent collection of more than 36,000 works of art. Areas of special strength include medieval art; European and American paintings, sculpture, and prints; photography; Japanese Edo-period paintings and prints; 20th-century Chinese paintings; and an ethnographic collection that includes 10,000 Native American, African, Latin American, and Australian works. Spencer Museum sponsors exhibitions, lectures, films, workshops, and activities that support curricular instruction in the arts. The also museum houses the Kress Foundation Department of Art History and the Murphy Art and Architecture Library, with more than 170,000 volumes and 600 current journals documenting the visual arts, design, and architecture from all cultures, from antiquity to the present.

Lied Center

The Lied Center of Kansas (http://www.lied.ku.edu/) is a multipurpose performing arts facility with a 2,000-seat performing arts hall. It offers outstanding presentations of music, dance, and theatre, as well as lectures by artists and scholars. The Lied Center is a major regional presenter and provider of performing arts. The Department of Visual Art, Spencer Museum of Art, Hall Center for the Humanities, and the Lied Center present active visiting artist programs.

Undergraduate Programs

• The Department of Theatre and Dance (p. 2063) offers the Bachelor of Fine Arts degree and the Bachelor of Arts in Dance degree.
• The departments of Film and Media Studies (p. 2049) and Theatre and Dance (p. 2063) offer Bachelor of Arts and Bachelor of General Studies degrees.
• The Department of Visual Art (p. 2087) offers the Bachelor of Fine Arts degree, the Bachelor of Arts degree, and the Bachelor of Art Education degree.
• The program leading to the Bachelor of Fine Arts degree in theatre design is offered cooperatively by the School of the Arts and the Department of Theatre and Dance (p. 2063).
Courses for Nonmajors

Students in other KU schools may enroll in dance, film and media studies, theatre, and visual art courses for credit, subject to the availability of instructional time and the completion of necessary prerequisites. Qualifications are determined by course instructors.

Minors in dance, film and media studies, theatre, and visual art are offered for students in other disciplines.

University Honors Program

The school encourages qualified undergraduates to participate in the University Honors Program (http://www.honors.ku.edu/).

Art Exhibitions

A number of exhibitions are sponsored by the Department of Visual Art. These are shown in department galleries and the Kansas Union. Each year, there are exhibitions of work by students in the school, representing the disciplines of art and design.

Performances

The University Dance Company (https://rockchalkcentral.ku.edu/organization/universitydancecompany/) performs a varied repertoire of ballet, modern, and jazz dance. It presents 2 major programs on campus each year as well as numerous presentations on tour.

The University Theatre (http://www.kutheatre.com/) gives students a chance to act in, direct, design, and crew theatre productions. Each year, the University Theatre mounts about 8 fully staged productions. Students gain experience in children's theatre, musicals, operas, and a range of classical and contemporary plays.

Graduate Programs

The School of the Arts is part of the College of Liberal Arts and Sciences (called the College or CLAS). The College is KU’s largest academic unit with more than 50 departments and programs. Graduate programs in the liberal arts and sciences include disciplines in the arts, humanities, social and behavioral sciences, and natural and mathematical sciences, as well as many interdisciplinary degree programs where often disciplines come together to offer students a unique graduate experience. Each graduate program’s page contains program-specific information about admission, course curriculum, and advising.

The College’s participation in graduate education reflects a long and distinguished commitment to higher learning and research across the liberal arts and sciences. The College takes full advantage of KU’s role as an international research institution to ensure that the knowledge imparted to students is current and that they learn the skills of inquiry and critical evaluation. Graduate students are central to the research and teaching missions of the College. They are also the next generation of scholars, artists, and skilled professionals who will make contributions to our communities and production of knowledge for many years to come.

School of the Arts Graduate Degrees

The School of the Arts offers graduate programs in 3 departments. The Master of Arts (M.A.) degree can be earned in film and media studies, theatre, and visual art education. The Master of Fine Arts degree is offered in visual art and in theatre design with a concentration in scenography. For students whose academic and professional goals can best be achieved through investigations at the interface of 2 or more disciplines, the School of the Arts offers master’s degree programs in interdisciplinary studies.

The School of the Arts offers the Doctor of Philosophy degree in film and media studies and theatre, and a Graduate Certificate in film and media studies.

Art Exhibitions

A number of exhibitions are sponsored by the Department of Visual Art. These are shown in department galleries and the Kansas Union. Each year, there are exhibitions of work by students in the school, representing the disciplines of art and design.

Performances

The University Dance Company performs a varied repertoire of ballet, modern, and jazz dance. It presents 2 major programs on campus each year as well as numerous presentations on tour.

The University Theatre (http://www.kutheatre.com/) gives students a chance to act in, direct, design, and crew theatre productions. Each year, the University Theatre mounts about 8 fully staged productions. Students gain experience in children’s theatre, musicals, operas, and a range of classical and contemporary plays.

Ceremonies

At the end of each Spring semester, the College holds a master’s hooding ceremony for master’s graduates in the College and Graduate Studies organizes the annual campus-wide doctoral hooding ceremony. The School of the Arts also hosts a ceremony for SOTA graduates. University Commencement information is available in the KU Commencement section of the KU website.

Attendance at these ceremonies is optional. Please consult the Graduate Studies (http://graduate.ku.edu/) and COGA website (http://coga.ku.edu/) for more information.

The School of the Arts (http://sota.ku.edu/) is home to three departments: theatre and dance, film and media studies, and visual art. It is housed within the College of Liberal Arts and Sciences, the broadest and most diverse academic unit on campus.

Students in the School of the Arts create, perform, and interpret works of art that contribute to our culture and history. As part of the College, students have access to ideas across the spectrum of arts, humanities, sciences and mathematics, social and behavioral sciences, and international studies. This partnership offers fresh possibilities for collaboration, paving the way for innovations and ideas.

Students interested in pursuing an undergraduate major or minor in the School of the Arts should contact the School of the Arts advisor at 785-864-3500 to schedule an advising appointment.

Graduate Advising & Mentoring Overview

Advising of graduate students is primarily conducted within the graduate programs by program staff members and the individual faculty members who act as mentors and advisors.

A faculty member in the academic unit, typically with the title of Director of Graduate Studies (DGS), has primary responsibility for the regular
assessment of students’ progress towards degree, as well as for the
development and oversight of broad scale graduate initiatives. In
many units, the DGS has primary oversight of department graduate
committees and processes related to recruitment, admissions, new
program development or program changes, graduate student annual
evaluations, and graduate student petitions. Students are encouraged to
work with the DGS regarding course selections and individual program
requirements to ensure that all program milestones are reached as
expected by the academic unit.

The majority of academic units in the College also receive advising
support from a professional staff advisor called a COGA advisor.
COGA advisors (https://coga.ku.edu/people/staff/) are team members
of the College Office of Graduate Affairs (COGA) that are assigned
to a specific CLAS unit(s) to advise graduate students and faculty on
policies and processes related to graduate education at KU. Students
are encouraged to work closely with the COGA advisor to ensure that
all University and College requirements are met as expected. COGA
advisors also work closely with faculty in their assigned academic units(s),
the COGA office, and other campus partners to collaborate on key
initiatives related to graduate education and to connect students to
services and opportunities to facilitate successful progression throughout
their graduate career. Students in units without a COGA advisor
should contact the DGS regarding University and College policies and
procedures.

Mentoring Best Practices

Graduate mentors, including a student’s graduate advisor(s), others
at the university, and external professionals, provide professional and
general insights, advice, and assistance to graduate students. Good
graduate mentoring makes a vital contribution to the academic and
professional success of individual students, advances the disciplines
represented in the College, and contributes to the mission of the College
as a whole. A positive mentoring relationship depends on the cooperation
of both mentor and mentee; both should therefore work together in
creating appropriate expectations for their mentoring relationship and
in implementing those expectations in practice. (See here (https://
coga.ku.edu/mentoring-and-advising/) for help with this.) With this in mind,
here are best practices for graduate mentors and mentees in the College:

Mentors:

1. Graduate mentors should conscientiously supervise, encourage, and
   support students in their academic endeavors and assist them in
   securing research support.
2. Graduate mentors should respond effectively, respectfully, and in a
timely manner to requests for guidance and support from mentees.
3. Graduate mentors should advise students concerning professional
   ethics, encourage the practice of research and publication consistent
   with ethical standards, and help students avoid ethically questionable
   situations.
4. Graduate mentors should strive to enhance the educational value
   of teaching and research assistantships of the students under their
   supervision. To do so they should provide discipline-specific guidance
   for new and experienced GTA sand GRAs.
5. Graduate mentors should be objective in the evaluation of research
   and academic performance and communicate that evaluation fully and
   honestly to their students. Graduate mentors should report accurately
   on the competence of students to other professionals who require
   such evaluations.
6. When engaged in teaching, research, or supervision, graduate
   mentors should recognize the power they hold and should avoid
   engaging in conduct that exploits or demeans students or that could
   be construed as an abuse of that power.
7. Graduate mentors should not permit personal animosities or
   intellectual differences with colleagues to impede student access
to those colleagues or interfere with students’ research or progress
   toward a degree.
8. Graduate mentors should aid and advise graduate students in seeking
   professional employment inside and outside of academia, taking into
   account the current state of the job market and the particular situation
   of the student. This includes directing students towards appropriate
   resources (see for example here (http://cogaprofessional.ku.edu/
   getting-started-0/)) and advising students about career opportunities
   and implications associated with their participation in particular
   research projects or degree programs.
9. Graduate mentors should be sensitive to the specific challenges
   faced by international students and students who identify as
   members of one or more underrepresented group. This may
   include directing students toward appropriate resources, including
   the following: Office of Multicultural Affairs (https://oma.ku.edu/),
   International Support Services (https://iss.ku.edu), Office of Diversity
   & Equity (http://diversity.ku.edu/), Emily Taylor Center (https://
   emilytaylorcenter.ku.edu/), Center for Sexuality & Gender Diversity
   (https://sgd.ku.edu/), Support Services for Undocumented Students
   (https://undocumented.ku.edu/), as well as DEI resources in the
   College (https://college.ku.edu/dei/).

Mentees:

1. Graduate students should be open and willing to discuss their
   professional goals, aspirations, and areas where they need guidance
   with their mentor.
2. Graduate students should be open to guidance and criticism from
   their mentors.
3. Graduate students should respond effectively, respectfully, and in a
   timely manner to communication and guidance from mentors.
4. Graduate students should come to scheduled meetings prepared and
   on time. Templates are available here (https://www.ithinkwell.com.au/
   resources/meeting-agenda/) for students to prepare for meetings.
5. Graduate students are strongly encouraged to establish and maintain
   multiple mentoring relationships or develop a network of mentors that
   can provide support and guidance throughout their graduate career
   and beyond. Graduate students are encouraged to include, as part
   of this network, colleagues, faculty beyond their department, university
   staff, alumni, and external professionals.
6. Graduate students are strongly encouraged to take advantage of
   resources across campus to develop short-term and long-term
   academic, research, and other professional goals and be willing to
discuss these with their mentor.

Change of Advisor

Graduate mentoring relationships can break down. If so, the formation
of new mentoring relationships should be encouraged without prejudice.
(For more information about what to do when a mentoring relationship
breaks down, see Chapter 6 of the University of Michigan’s How to

All departments in the College are required to have a policy in place to govern the process of switching advisors. Please see your department’s graduate student handbook or consult with the Director of Graduate Studies for more information.

Students seeking information on specific policy or procedures should review the relevant content in the KU Policy Library (http://policy.ku.edu/) as well as the College and Graduate Studies (p. 2540) sections and the relevant Department or Program section of the online catalog. The College Office of Graduate Affairs (http://clas.ku.edu/coga/), 102 Strong Hall, coga@ku.edu, is also available for assistance.

Students who have completed all degree requirements and are preparing to graduate should refer to the graduation checklists available on the COGA website (http://coga.ku.edu). Graduating students are also welcome to schedule a Graduation Appointment with the College Office of Graduate Affairs.

Undergraduate University Regulations
For information about university regulations, see Regulations (http://catalog.ku.edu/regulations/) or visit the University of Kansas Policy Library (http://www.policy.ku.edu/).

Academic Integrity

The College of Liberal Arts and Sciences strictly enforces KU and College policies on academic misconduct. Academic integrity requires honest performance of academic responsibilities by students. These include preparation of assignments, reports and research papers, taking examinations, completing administrative requirements, and a sincere and conscientious effort by students to abide by the policies set forth by instructors.

Academic Standing

Good Standing

Students with a KU cumulative GPA of a 2.00 or higher are in good academic standing.

Good Standing Warning

Students in good academic standing who fail to earn a 2.00 KU term GPA will be required to meet with an advisor every semester until they have completed a fall or spring semester with at least a 2.00 KU term GPA. This status will not post on the student’s academic record.

Notice

Students who fall below a 2.00 KU cumulative GPA for the first time will be placed on notice. During the notice semester students are required to participate in all programming. Students failing to return to good academic standing at the end of the notice semester will be placed on probation. Students will only receive one notice semester. Students who have previously returned to good academic standing will be placed on probation should their KU cumulative GPA fall below a 2.00.

Probation

Students on probation must meet their required KU Term GPA (see chart below) every semester until their KU cumulative GPA reaches or exceeds a 2.00. Students are allowed to continue on probation provided they meet their KU term GPA every fall and spring semester until their KU cumulative GPA reaches or exceeds a 2.00. While on probation students are required to participate in all programming. The required KU term GPA increases to a 2.50 after attempting 45 or more hours at KU to help students on probation return to good academic standing before they are at risk of being unable to raise their KU cumulative GPA in time for graduation. Failure to meet the required KU Term GPA during a fall or spring semester will result in academic dismissal.

Academic Dismissal

Students on probation who fail to meet their probation requirements during a fall or spring semester will be academically dismissed and are not allowed to continue in the College of Liberal & Sciences until they meet their readmission after dismissal requirements. Students are not dismissed at the end of summer.

Readmission after Dismissal

Students can be readmitted back to KU after a first and a second dismissal but they must complete their readmission requirement. If all requirements for the KU Core 1 – 5 goals are completed, no coursework is required. Students returning after an academic dismissal will be readmitted on probation and must meet their required term GPA requirements to avoid another dismissal.

Terms for Readmission after Dismissal

First Dismissal - Sit out one fall or spring semester; complete at least one 3 credit hour course that transfers to KU to meet KU Core 1-5 Goals; earn a 2.50 in all courses taken since dismissal.

Second Dismissal - Sit out one academic year; complete at least one 3 credit hour course that transfers to KU to meet KU Core 1-5 Goals; earn a 2.50 in all courses taken since dismissal.

Third Dismissal - a third dismissal is final.

Change of School

Students with a KU cumulative GPA of 2.00 or higher (or in their first semester) can fill out a Change of School Form requesting to be admitted to the College of Liberal Arts and Sciences and/or School of the Arts, from a KU professional school, through the last day of class for the current semester. Requests made after that will be for admission in the upcoming semester. This process is for active KU students. Students not admitted to KU follow the University’s admission policy.

Students with a KU cumulative GPA of less than a 2.00 will be evaluated according to the College’s academic standing policy and may not be admissible based on past academic performance at KU. Students who have been dismissed from another KU School will need to submit a change of school request one week or earlier prior to classes starting. Non-dismissed students may request to change schools through the 20th day of the current semester; after that date requests will be considered for the next semester.
• Change of school requests will not be reviewed until current semester grades are posted.
• Students admitted to the College on probation will need to meet the College’s academic probation requirements during the semester they are admitted or face an academic dismissal.
• The College reserves the right to deny admission to students who have had consecutive semesters of failing grades (or multiple semester withdrawals) regardless of their KU cumulative GPA in previous semesters.
• Students dismissed from another school at KU and are found to be inadmissible to the College can follow our readmission after dismissal policy to return to KU for a future semester.
• Students admitted to the College via a Change of School request will go by the requirement term of their original matriculation to the University of Kansas. A student may petition the College of Liberal Arts & Sciences to request to change to the term requirements based on the term they requested entry into the College. This should be considered in consultation with their academic advisor, and a petition should be submitted to College Advising & Student Services.

To change from one school to another, a student must submit a Change of School form in the dean’s office of the school they plan to enter or in College Advising & Student Services (http://clas.ku.edu/undergrad/) if they plan to enter the College. Deadlines are included on the form. See the school’s requirements for admission.

Students applying for admission to the College from other schools in the university must meet the same minimum grade-point average requirements in KU attempted course work as continuing College students. Consult College Advising & Student Services, Strong Hall, 1450 Jayhawk Blvd., Room 109, Lawrence, KS 66045-7518, 785-864-3500.

Credit/No Credit

A Credit/No Credit option is available to all degree-seeking undergraduates. A student may enrol in 1 course a semester under the option, if the course is not in their major or minor. To exercise the option, the student must fill out the online form via the Registrar’s website during the fifth and sixth weeks of the semester (or the third week of summer session and 8-week courses). See the Academic Calendar (http://registrar.ku.edu/calendar/) for current dates for electing this option. After the close of the option period, the choice cannot be changed. Under the option, a grade of Credit is recorded for grades of A, B, or C; No Credit is recorded for grades of D or F. Courses graded Credit or No Credit do not count in computing the grade-point average. Courses graded Credit are included in the total hours counted toward graduation. Courses graded No Credit do not count toward graduation. For more information, visit the KU Policy Library (http://policy.ku.edu/).

Warning: Certain undesirable consequences may result from exercising the option. Some schools, scholarship committees, and honorary societies do not accept this grading system and convert grades of No Credit to F when computing grade-point averages.

The university-established timeline for exercising this option is strictly enforced.

Enrollment

See the Enrollment Guide (http://www.registrar.ku.edu/enrollment/) for complete enrollment information.

New and Readmitted Student Enrollment

Immediately before the beginning of classes each term, an enrollment session is scheduled for new students. New students admitted for summer or fall term have an additional option of enrolling in fall courses during one of several summer orientation sessions. Invitations to orientation are sent automatically to newly admitted and readmitted students who applied for the spring, summer, or fall terms (except non degree-seeking students). Readmitted students may attend a special abbreviated orientation session, may enroll during continuing enrollment, or may attend the enrollment sessions immediately before the start of the semester. Readmitted students whose readmission applications are completed by a designated date also may enroll during continuing enrollment, after meeting with an advisor. All students must preregister for orientation and enrollment sessions.

International students must complete the required check-in processes before enrollment and are encouraged to attend International Student Orientation, which includes advising and enrollment sessions.

Continuing Enrollment

This enrollment allows students who are currently enrolled during one term to enroll for the next term. Spring-enrolled students enroll in April for the following summer session or fall semester or both. Fall-enrolled students enroll in October or November for the following spring semester.

Late Enrollment

Each semester, the Academic Calendar (http://registrar.ku.edu/calendar/) announces dates for late enrollment and the last day to submit a Petition to Late Enroll. Petitions are evaluated based on past academic performance. A student may enroll in a course or change class sections after the semester has been in session for 4 weeks only if the course has met fewer than 25 percent of the class sessions. For most classes, the faculty have established earlier dates for beginning class attendance and participation. A fee is assessed for late enrollment.

Grading

The letters A, B, C, D, S (satisfactory), and Credit indicate passing work. The letters F and U (unsatisfactory) and No Credit indicate that the quality of work was such that, to obtain credit, the student must repeat regular course work. P represents satisfactory progress (an interim grade pending completion of a subsequent term’s course work). See the KU Policy Library (http://policy.ku.edu/) for more information.

Graduation with Honors

Undergraduates may earn honors upon graduation in 3 ways. The student may graduate with distinction or highest distinction, earn departmental honors in the major, or complete the University Honors Program (http://www.honors.ku.edu/). It is possible to earn honors in 1 of these areas, any combination of them, or all 3. The award of honors is noted on the student’s transcript and in the Commencement program. Distinction and highest distinction are noted on the diploma.

Graduation with Distinction or Highest Distinction

The top 10 percent of each year’s graduating class is designated as graduating with distinction. Of these, the top one-third is designated as graduating with highest distinction.
Students must have completed at least 60 hours graded A through F in residence at KU (including the hours in which they are enrolled during the semester of graduation). Awards of distinction and highest distinction are based solely on the grade-point average determined by KU residence credit hours unless the overall grade-point average (including transfer hours) is lower than the residence grade-point average. In this case, the award is determined by the overall grade-point average. Students who rank in the upper 10 percent of their graduating class graduate with distinction. The upper third of those awarded distinction graduate with highest distinction.

Potential candidates are determined in mid-April and invited to a recognition ceremony during Commencement weekend in May. Final designation is determined in mid-July.

Graduation with Departmental Honors

Most departments and programs allow qualified majors to work toward graduation with departmental honors. Graduation with departmental honors is awarded in recognition of exceptional performance in the major, completion of a program of independent research or an alternative project, and a strong overall academic record.

In addition to the requirements of individual departments and programs (which must be approved by the College committee on undergraduate studies and advising), the College requires the following for graduation with departmental honors:

1. Candidates must declare the intention to work for departmental honors with the appropriate departmental honors coordinator(s) no later than the time of enrollment for the final undergraduate semester, but sooner if required by the department(s). Copies of the intent form should be returned to College Advising and Student Services.

2. At the end of the final undergraduate semester, the candidate must have achieved a grade-point average of at least 3.5 in the major, and some departments may also require an additional overall minimum GPA. This includes work completed at other institutions, as well as at KU. No minimum grade-point average is required to declare candidacy for graduation with departmental honors unless specified by the department.

3. Each candidate’s departmental honors work must include independent research or an acceptable alternative project. The results of research are presented in a form appropriate to the requirements of the major department. Equivalents to the independent research component are established by approved departmental honors programs. In courses meeting the independent research requirement, the candidate must earn a grade of B or higher. Successful completion of all departmental honors requirements must be certified to the departmental honors coordinator(s) by a panel composed of at least three members of the College faculty who have read the report of the independent research and heard the oral presentation, where required.

Petitions

A department or program may petition to award graduation with departmental honors to deserving students who, for good reason, do not meet every College and departmental requirement. Send petitions to the committee on undergraduate studies and advising, College Advising & Student Services (http://clas.ku.edu/undergrad/).

Late Completion of Honors Requirement

Requirements for graduation with honors may be completed after the date on which certifications are requested from departments, and in some cases, requirements, if not needed for graduation, may be completed after a student has graduated. However, the Incomplete policy does apply and grades would lapse at the time of graduation. When a candidate finishes all requirements, departments must notify College Advising & Student Services (http://collegesas.ku.edu) in writing.

Honor Roll

Undergraduates with grade-point averages of 3.5 who have completed at least 12 hours with letter grades are recognized on the honor roll or dean’s list in fall and spring. An Honor Roll notation appears on the transcript.

Honors Program

The University Honors Program (http://www.honors.ku.edu/) provides opportunities for outstanding and creative undergraduates in all schools at KU to develop their full potential during their undergraduate years. See Honors in this section of the online catalog for further information.

Incompletes

The letter I indicates incomplete work, such as may be completed without re-enrollment in the course. The letter I should not be used when a definite grade can be assigned for the work done. It is not given for the work of a student in any course except to indicate that some part of the work has, for reasons beyond the student’s control, not been done, while the rest has been satisfactorily completed. At the time an I is reported on the electronic roster, the character and amount of work needed, as well as the date required for completion and lapse grade if further work is not completed by this date, should be indicated.

A student who has an I posted for a course must make up the work by the date determined by the instructor, in consultation with the student, which may not exceed 1 calendar year, or the last day of the term of graduation, whichever comes first. An I not removed according to this rule automatically converts to a grade of F or U, or the lapse grade assigned by the course instructor, and appears on the student’s record.

Extensions to the time limit may be granted by the dean’s representative upon submission of a petition from the student containing the endorsement of the course instructor who assigned the I grade, or the department chairperson if the instructor is unavailable, prior to the expiration of the Incomplete. After the I grade is converted to a grade of F or U, the grade may only be changed in accordance with USRR Article II, Section 3. (http://policy.ku.edu/governance/USRR/)

Maximum and Minimum Undergraduate Semester Enrollment

No undergraduate may enroll for more than 20 hours a semester except by permission of the Director of College Advising & Student Services. Summer enrollment is limited to 10 hours. Permission is not considered unless the student has demonstrated high levels of academic ability in previous semesters.

Prerequisites and Co-requisites

Students are advised to enroll according to prerequisites and co-requisites noted in individual course descriptions. These prerequisites are enforced.
in a variety of ways including blocking enrollment, administrative drops without notice, etc.

**Required Undergraduate Work in Residence**

**Junior/Senior Hours Required for Graduation**

KU requires all students pursuing bachelor’s degrees to complete a minimum of 45 credit hours at the junior/senior level (courses numbered 300 and above). The College of Liberal Arts and Sciences requires that 30 of these 45 credit hours be completed in residence.

**Hours in the Major: Maximums and Minimums**

There is no limit on hours taken in the major for the B.A., B.G.S., or B.S. degree. Departments are not allowed to require more than 40 hours in the major for the B.A. or more than 50 hours in the major for the B.S. Some skills courses and supporting science courses are not included in this maximum limit. A minimum of 12 hours in the major must be in courses numbered 300 or above. At least 15 hours in each major(s) must be taken in residence at KU.

**Time Limits**

Undergraduates are strongly encouraged to complete the bachelor’s degree within 4 academic years. Students should complete a minimum of 30 credit hours each year. If a student is unable to complete 30 hours in the fall and spring terms, summer enrollment and/or winter session enrollment should be strongly considered.

Students have a maximum of ten years to complete their undergraduate work in the College of Liberal Arts and Sciences under degree requirements in effect at the initial term of matriculation. Students experiencing a break in enrollment during these ten years will follow their curricular requirements at the point of matriculation provided that the break in enrollment does not exceed two calendar years. Students readmitted after two years are held to the curricular requirements in place at the term of readmission.

Students readmitted after a break in attendance of less than two years may petition the College of Liberal Arts & Sciences to request to change to the term requirements based on their readmission term. This should be considered in consultation with their academic advisor, and a petition should be submitted to College Advising & Student Services.

Students maintaining continuous enrollment but who do not complete their degree requirements within ten years, may petition the College to complete their degree requirements under the curricular requirements in effect during the term of admission.

**Transfer of Credit**

CredTran (http://creditransfer.ku.edu/) is a transfer course equivalency system that lists more than 2,200 colleges and universities from which KU has accepted transfer courses in the past. If your school or course is not listed, your evaluation will be completed when you are admitted to KU.

Only transfer grades of C or higher contribute to total hours earned for students entering KU in spring 1990 or after, and for courses taken in spring 1990 or after by all students. For questions about transfer work fulfilling College requirements, contact College Advising & Student Services (http://clas.ku.edu/undergrad/), 109 Strong Hall.

---

**Graduate Regulations**

It is the students’ responsibility to comply with all requirements for the degree programs in which they plan to participate. These include the university requirements for graduate study at KU outlined in the College and Graduate Studies sections of the KU Policy Library (http://www.policy.ku.edu/), the University Senate Rules and Regulations (https://catalog.ku.edu/regulations/), the Graduate Studies (https://catalog.ku.edu/graduate-studies/) sections of the online catalog, as well as the requirements of the College outlined in this catalog section. Additionally, students are responsible for understanding the requirements that are unique to individual graduate programs outlined in the graduate handbooks of individual academic units and the Departments & Programs (https://catalog.ku.edu/liberal-arts-sciences/) sections of the online catalog.

In general, the student is subject to the regulations in place at the time of matriculation as a degree-seeking student. If degree requirements change, the student may opt to follow the new requirements or to continue under the regulations in place at the time of admission. Any student readmitted 10 years or more after his or her initial term as a degree-seeking student must fulfill the requirements in effect on the date of readmission to the graduate program.

Information presented on this page is limited to the most frequently consulted policies and key milestones in the graduate career. Students should also consult the academic unit’s handbook, Graduate Studies and College sections of the KU Policy Library, and the Graduate Studies and University of Kansas Regulations sections of the online catalog.

**Degree Requirements**

Requirements for the completion of master’s and doctoral degrees in the College are governed by department- or program-specific policy, College policies and procedures, Graduate Studies policies, and the University Senate Rules and Regulations.

**Master’s Degree Requirements**

**Coursework**

At least 50% of required coursework for a master’s program must be numbered 700 or above. Specific coursework requirements for the Master’s degree are established and tracked by the department or program. The College then verifies that completed coursework meets all College and University requirements for master’s students. Please consult with your advisor, the academic unit’s graduate handbook, and the relevant Departments & Programs section of the online catalog for further information on specific courses or course sequences required for the degree.

**Thesis**

Master’s students complete either a thesis or an equivalent enrollment in research, capstone/portfolio, independent investigation, or seminar. Students earning a master’s thesis degree must have completed at least 1 hour of thesis enrollment. General rules for the preparation of a thesis are available on the Graduate Studies website (https://graduate.ku.edu/electronic-thesis-and-dissertation/).

**Final Examination**

A final general examination or thesis defense in the major subject is required for MA and MS degrees. The examination, which may be oral, written, or both, is held during the semester of the student’s final enrollment in coursework and, in the case of thesis students, when
the thesis has been substantially completed. All master's exams must be approved by the College in advance of the scheduled exam date. See also Master's Degree Requirements (https://catalog.ku.edu/graduate-studies/#programstext) and M.A. and M.S. Degrees (https://catalog.ku.edu/graduate-studies/#programstext) in the Graduate Studies section of the online catalog.

Doctor of Philosophy Degree Requirements

Coursework

Coursework requirements for the doctoral degree are established and tracked by the department or program. The College then verifies that completed coursework meets all College and University requirements for doctoral students. Please consult with your advisor, the academic unit's graduate handbook, and the relevant Departments & Programs section of the online catalog for further information on specific courses or course sequences required for the degree.

Research Skills and Responsible Scholarship

Graduate Studies requires that all doctoral students meet the Research Skills and Responsible Scholarship requirement before proceeding to the Comprehensive Exam. Specific requirements are determined by each department or program in consultation with Graduate Studies. Information on these requirements is contained in the department or program’s approved research skills requirement plan. Consult with your advisor and the Departments & Programs section of the online catalog for further information.

Residency

Two semesters, which may include one summer session, must be spent in full-time resident study at KU. The College requires that residency be fulfilled before the comprehensive oral examination is scheduled. For more information on residency requirements, please see the Graduate Studies section (https://catalog.ku.edu/graduate-studies/#programstext) of the online catalog.

Comprehensive Oral Examination

The comprehensive oral examination covers the major field and any additional content for which the academic unit wishes to hold the student responsible. The examination is expected to be broader than a mere defense of the dissertation proposal. Exams must be approved by the College in advance of the scheduled oral exam date.

The student must be enrolled the semester or summer session in which he or she completes the comprehensive oral examination. This enrollment may count toward the post-comprehensive enrollment requirements as described in Graduate Studies' Doctoral Candidacy (http://policy.ku.edu/graduate-studies/doctoral-candidacy/) policy. If more than 5 years elapse between the completion of the comprehensive exam and degree completion, the student may be required to retake the exam.

More information about comprehensive exam requirements may be found in the Graduate Studies section (https://catalog.ku.edu/graduate-studies/#programstext) of the online catalog.

Dissertation and Final Exam

Completion of the dissertation is the culminating phase of a doctoral program, marked by the final oral examination and defense of the dissertation. In all but the rarest cases, tentative approval of the dissertation is followed promptly by the final oral examination. All doctoral final exams must be approved by the College in advance of the scheduled exam date. Refer to the Graduate Studies section (https://catalog.ku.edu/graduate-studies/) of the online catalog for further information on the regulations governing the final oral examination, including committee composition and attendance regulations.

Guidelines for preparing and submitting the final copies of the dissertation are available on the KU Libraries’ ETD website (https://guides.lib.ku.edu/etd/).

Enrollment

Full-time, Half-Time and Part-Time Enrollment

There are multiple definitions for what constitutes full-time enrollment for graduate students at KU, including variations for doctoral candidates enrolled in dissertation hours, students with GTA/GRA/GA appointments, and active duty military. Please see the Full-time Enrollment policy in the Graduate Studies (https://catalog.ku.edu/graduate-studies/) section of the online catalog and the KU Policy Library (http://policy.ku.edu/) for the definitions of full-time, half-time, and part-time enrollment.

Maximum enrollment for graduate students in the College of Liberal Arts & Sciences, except in rare instances, is 16 hours in Fall or Spring semester and 9 hours in the summer session.

At a minimum, all graduate students must be continuously enrolled in the Fall and Spring semesters while completing the requirements for fulfillment of their degree. Please consult the Graduate Studies (https://catalog.ku.edu/graduate-studies/) section of the online catalog and the KU Policy Library (http://policy.ku.edu/) for other enrollment regulations.

Continuous Enrollment for Master's Students

The College requires that all master's students who have completed the required coursework for their degrees must be continuously enrolled in the Fall and Spring semesters until all remaining requirements for the degree, including the thesis when applicable, are completed. No enrollment is required during the summer session unless it is the semester during which the student will graduate, in which case enrollment is required. Certain academic units have additional rules governing summer enrollment.

Post-Comprehensive Enrollment for Doctoral Students

After passing the Comprehensive Oral Exam, doctoral candidates must be continuously enrolled. During this time, until all requirements for the degree are completed (including the filing of the dissertation) or until 18 post-comprehensive hours have been completed (whichever comes first), the candidate must enroll for a minimum of 6 hours a semester (Fall and Spring). At least one of these hours each semester must be in dissertation or approved dissertation-equivalent coursework.

Upon completion of the 18-hour requirement, a student’s level of enrollment should reflect, as accurately as possible, the faculty time he or she utilizes. This may be as little as one dissertation (or approved equivalent) hour per semester.

In addition, Graduate Studies requires a period of at least 1 month to elapse between the comprehensive oral exam and the final exam. Students that have completed all degree requirements before completing 18 hours are still required to continue enrollment until this 1-month requirement has been met.

Special enrollment requirements apply to those with GTA/GRA/GA appointments. Please consult the Graduate Studies (p. 2540) section of the online catalog and the KU Policy Library (http://policy.ku.edu/).
Lapses in Enrollment

Generally, no student is allowed to enroll in full term courses with an established meeting time after the first 4 weeks of a semester or the first 2 weeks of a summer session. Non-standard dated courses, or "short courses," as well as research or independent study courses with a "by appointment only" meeting time have different deadlines. Students should consult the academic calendar (https://registrar.ku.edu/calendar/) and short courses listing (https://registrar.ku.edu/short-courses/) for deadlines.

The student may elect to Voluntarily Discontinue from the program, and must inform the department or program in writing of this decision. The department will submit the necessary forms to the College. This option requires the student to seek re-admission to the program if they choose to return at a future date. They also remain eligible to seek admission to another department or program in the College.

The student may also petition for a Leave of Absence of up to one calendar year. If granted, the Leave of Absence maintains the student’s place in the program. Leave of Absence petitions must be submitted by the department or program and provide evidence of the department or program’s endorsement of the student’s petition. Students interested in this option should begin by consulting with their advisor.

The time spent on Leave of Absence does not count against the student’s time to degree, and therefore does not shorten the time available to complete their degree requirements. Similarly, if a student that has elected to Voluntarily Discontinue subsequently returns to the program, the time that has elapsed since his or her discontinuance does not count against the time to degree.

Students who fail to enroll without completing the Voluntary Discontinuance process or without being granted a Leave of Absence are reviewed by the College Office of Graduate Affairs and the students’ academic units for possible dismissal. Any time that accrues during these lapses of enrollment in which the student does not occupy any approved enrollment category (i.e., Enrolled, Voluntarily Discontinued, or Leave of Absence) is counted against the time to degree.

International students seeking a Leave of Absence must consult with the International Support Services office prior to any change in enrollment status to determine how the change may affect their legal status.

Please see Graduate Studies policies governing Leave of Absence and Voluntary Discontinuance in the Graduate Studies (p. 2540) section of the online catalog and in the KU Policy Library (http://policy.ku.edu/).

Dual Enrollments

Students enrolled in two schools or working on two degrees at the same time must complete the work for both degrees. Courses may not be counted toward both degrees, except in the joint degree programs that have been established (e.g., M.P.A./J.D., M.A. in Economics/J.D., M.B.A./M.A. in Area Studies, etc.). Please refer to the Combined Degrees information in the Graduate Studies (p. 2540) section of the online catalog for a complete list of approved joint degree programs.

Examinations

Students must be enrolled during the semester in which they complete their oral comprehensive or final examinations. Additionally, no graduate student will be allowed to take oral comprehensive or final examinations, or to go forward with a thesis or dissertation defense, if a waiting grade (WG) placeholder or an incomplete (I) grade is listed on the student’s transcript.

University Regulations on Grading

Article II of the University Senate Rules and Regulations provides detailed information on regulations governing the grading of graduate coursework. Students should also consult the Graduate Studies (p. 2540) section of the online catalog and the KU Policy Library (http://policy.ku.edu/) for more information on the Grading Policy.

The following are of particular relevance for graduate students in the College:

Passing Grades for Graduate Coursework

Only courses graded C or above are considered passing and may be counted for graduate credit. Courses graded C-, D or F may not be used to fulfill degree requirements.

Incomplete (I) and Waiting Grades (WG)

Incomplete (I) grades are used to note, temporarily, that a student’s work has been satisfactory to date, but that they have been unable to complete a portion of the required course work during that semester due to circumstances beyond their control. Incomplete work must be completed within the time period prescribed by the course instructor, at which point a permanent grade will be assigned. After one calendar year from the original grade due date, an Incomplete (I) grade will automatically convert to a grade of F or U, or the lapsed grade assigned by the course instructor.

The I grade is not appropriate for enrollments in thesis, dissertation, or research hours or the first semester of a two semester sequence.

Waiting Grades (WG) are placeholders and should only be used in rare instances when, for reasons beyond his or her control, an instructor is not able to assign a course grade by the deadline. WG should not be used to delay evaluation of thesis or dissertation hour enrollments. This practice often leads to difficulties with timely graduation processing. WG is also not appropriate for students who are unable to submit their work by the grade deadline. In these cases an Incomplete may be more appropriate. Instructors should follow their unit’s internal guidelines for use of Incompletes.

In accordance with USRR 2.2.3.4, any incomplete (I) or waiting grade (WG) on the student's transcript must be resolved before the College will preapprove the doctoral oral comprehensive exam. Additionally, the College will not approve an application for graduation if a waiting grade (WG) or an incomplete (I) grade remains on the student’s transcript.

Credit/No Credit (CR/NC)

The University establishes a time period each term during which students may elect a Credit/No Credit grading option for an individual course. Graduate students may elect the CR/NC option only for those courses that do not fulfill a degree requirement. Degree requirements include those courses used to fulfill the Research Skills and Responsible Scholarship requirement. CR/NC is elected via the Registrar’s electronic form (https://registrar.ku.edu/creditno-credit/). Students should consult with their advisor prior to electing the CR/NC option.
College-Specific Grading Policy

A-F Plus/Minus (±) Grades
Plus/minus (±) grades may be used in the College. The plus or minus sign describes intermediate levels of performance between a maximum of A and a minimum of F. Intermediate grades are calculated as 0.3 units above or below the corresponding letter grade.

Participation (P) Grades
Use of the Participation (P) grade is restricted in the College. It is only approved for a limited number of courses for which special permission has been sought. When permission is granted, P is only used to indicate participation in thesis, dissertation, or research enrollments (related to thesis or dissertation), or in the first semester enrollment of a two-semester sequence course. In any semester when there is evidence about performance available, the instructor may elect to assign a letter grade of A, B, C, D, or F. A letter grade (A, B, C, D, or F) must be assigned in the last semester of enrollment to characterize the quality of the final product.

If a department or program has a course for which the P grading system may be more appropriate than the A-F or S/U grading system, it must seek special approval from the College.

Grading of Thesis and Dissertation Hours (and Approved Equivalents)
The SP/LP/NP grading scale is restricted to thesis and dissertation hours, as well as those research courses approved by Graduate Studies as equivalents. It is the preferred scale for the grading of these courses in the College and is applied in the following manner:

SP - Satisfactory Progress. Progress is consistent with the goals for the semester as agreed upon with the advisor; supports timely completion of the degree.

LP - Limited Progress. Progress is less than what was agreed upon with the advisor; may cause delays in timely degree completion. Academic probation may be warranted.

NP - No Progress. The student has provided no evidence of progress on the thesis or dissertation work, or work completed was insufficient to move the thesis or dissertation project forward. Probation is strongly encouraged and dismissal may be warranted.

To be eligible for graduation, the final semester of dissertation/thesis enrollment must be graded SP.

The College strongly encourages the use of the SP/LP/NP grading scale for thesis and dissertation courses. However, programs may elect to use any A-F scale. In no case is the S/U scale to be used for thesis or dissertation hours or their equivalents. Per Graduate Studies policy, no more than 6 credit hours graded S/U may count toward a graduate degree.

College-specific Admission Policy
Admission Deadlines
For all graduate programs in the College of Liberal Arts & Sciences, no deadlines for the submission of applications for graduate study may fall on a weekend or on a University observed holiday.
During calendar years when an established admission deadline falls during one of these times CLAS graduate programs must either:

- Allow the online application to remain open and applications to be accepted through the end of the first business day following the established deadline; or,
- Adjust the department's established deadline for those years.

Graduate Studies' Admission to Graduate Study policy defines the eligibility and admission criteria for different categories of admission to graduate study at the University of Kansas. It may be found in the Graduate Studies (p. 2540) section of the online catalog and the KU Policy Library. (http://policy.ku.edu/)

Provisional Admission
For all GPA-related provisional admissions in the College, the program is required to provide an explanation as to what evidence they considered in determining that the student is prepared to undertake graduate level coursework. This may include a marked improvement in advanced undergraduate coursework, a gap in study during which time the prospective student gained significant professional experience, or other mediating factors relevant to the particular graduate program.

Students in the College will remain on provisional status until they have completed their first nine hours of qualifying enrollment and achieved a cumulative GPA of at least 3.0. Qualifying enrollment includes regularly scheduled courses (e.g., seminars, lectures) that 1) fulfill degree requirements and 2) are graded using an A/D/F scale.

It is up to the graduate program to alert the College Office of Graduate Affairs when the terms of the provisional admission have been met, at which time the department may request a removal of the provisional status.

Students who fail to achieve at least a 3.0 GPA in their first 9 hours of qualifying enrollment or who do not otherwise meet any terms of their provisional admission set by the department shall be dismissed. However, departments may petition the College for the student to be placed on probation for one-semester in lieu of dismissal. Under no circumstances will probation beyond one semester be granted.

Probation and Dismissal Guidelines in the College
To be in good standing, a student must maintain a 3.0 cumulative grade-point average and be making satisfactory progress toward the degree, as determined by Graduate Studies' Good Academic Standing policy and the department or program's internal guidelines. The Good Academic Standing policy may be found in the Graduate Studies (p. 2540) section of the online catalog and the KU Policy Library. (http://policy.ku.edu/)

Probation Due to GPA
In any semester, a student whose cumulative GPA has fallen below a 3.0 is automatically placed on academic probation for the following semester (Fall or Spring). Students are notified by the College of their probationary status. The student has one semester (not including the summer term) in which to raise the cumulative GPA to a 3.0 or the College will dismiss the student. Refer to the Graduate Studies' Academic Probation policy for more details. Departments may petition the College for the student to be granted a one-semester extension of the probation.

If a student's cumulative GPA falls below a 2.5 as a result of the second or a subsequent semester of enrollment, the College will dismiss the student without eligibility for probation. Students whose GPA falls below
2.5 in the first semester of enrollment are eligible for probation with department recommendation. In the absence of this recommendation, the College will dismiss the student.

Probation Due to Unsatisfactory Progress
Upon recommendation of the department or program, a student may be placed on probation for failing to make satisfactory progress toward the degree. This may include, but is not limited to, failed exams or failure to make adequate and timely progress on the dissertation or thesis. See the Good Academic Standing policy in the Graduate Studies (p. 2540) section of the online catalog and the KU Policy Library (http://policy.ku.edu/) for more information on what constitutes satisfactory progress.

Dismissal
It is the academic unit's responsibility to ensure that students who are not demonstrating academic achievement sufficient to meet the requirements of a College graduate degree or who are failing to make timely progress to the degree are dismissed from their programs. This typically occurs when a student fails to meet the terms of the probationary period. Academic dismissal should occur immediately following a student's failure to meet the terms of the probationary period. If dismissal occurs during the semester, the dismissal is effective immediately and the student is administratively withdrawn from coursework. The department or program will notify the student in writing of the reasons for their dismissal. This will be followed by a letter from the College confirming the student's dismissal from graduate study at KU.

A student who has been dismissed from a graduate program at KU is not eligible for readmission to graduate study in any department or program at the University of Kansas. A student may petition for an exception. The petition must be approved by the department to which the student intends to apply, the graduate division of the College, and the Dean of Graduate Studies. Such petitions are rarely approved.

Time Limits
The University and the College have established time limits governing various stages of the graduate student career.

Maximum Time to Count Required Course Work
Courses completed at the University of Kansas, or transfer credits from another university, are valid for a period of 10 years. Courses that were completed more than 10 years before the scheduling of the final defense may not be used to fulfill graduate degree requirements in the College of Liberal Arts and Sciences.

With the endorsement of their graduate programs, students may petition the College to accept out-of-date course work to fulfill the requirements for their graduate degrees, provided they are able to justify why this course work meets the current standards of scholarship in the discipline.

Maximum Time to Submit Thesis or Dissertation
The College requires that students make all final revisions and complete the electronic submission of the final version of the thesis or dissertation manuscript to UMI/Proquest within 6 months of the date of final presentation and/or defense of the thesis or dissertation work. Until the final manuscript of a thesis or dissertation is submitted, the student must be enrolled in accordance with enrollment policy. Graduate students in the College who do not submit the final manuscript within the 6-month time limit must enroll in 3 hours a semester until the thesis or dissertation is completed and submitted.

Maximum Time to Complete the Degree
Graduate Studies has established time limits on master's and doctoral degree completion. Please see Graduate Studies policies on Doctoral Program Time Constraints and Master's Program Time Constraints in the Graduate Studies (p. 2540) sections of the online catalog and in the KU Policy Library (http://policy.ku.edu/) for full details.

Master's degree students have a total of seven calendar years, excluding any periods of absence due to an approved leave of absence or voluntary discontinuation from a program, in which to complete the work for a master's degree.

Doctoral degree students have a total of 8 calendar years, excluding any periods of absence due to an approved leave of absence or voluntary discontinuation from a program, to complete the Ph.D. This includes students who enter with a master's degree from an institution other than KU and bachelor's degree holders who bypass the master's and are admitted directly to a Ph.D. program.

Students who completes a master's and doctoral degree within the same academic unit at KU have a maximum of 10 years to complete both degrees.

A time limit extension may be granted by the College. All extension petitions require the department to prepare and submit a Graduate Degree Completion Agreement, which must then be approved by a designated subcommittee of the Committee on Graduate Studies. Per Graduate Studies policy, extensions may be granted for up to 1 year. However, additional time may be requested in the Completion Agreement. If a Completion Agreement with a timeline greater than one year is approved, the department must submit a renewal petition annually after the first year until the Completion Agreement has ended. Renewal petitions must indicate the student's progress on the Completion Agreement and will receive expedited review.

Academic units may set their own, more rigorous time limits. Consult with your advisor and review your academic unit's handbook and the relevant Departments and Programs section of the online catalog for program-specific information, requirements, and restrictions.

Academic and Research Integrity
The College of Liberal Arts and Sciences strictly enforces KU and College policies on academic and scholarly misconduct. Academic integrity requires honest performance of academic and research responsibilities by students. These include, but are not limited to, ethical preparation of assignments, reports, and research papers; completion of examinations; ethical treatment of human and animal subjects; execution of administrative requirements; and a sincere and conscientious effort by students to abide by the policies set forth by instructors and research advisors.

Graduation
All graduate students must be enrolled the semester they complete all degree requirements.

Graduate Studies establishes an early deadline for degree completion for each semester and summer session, usually occurring at the end of the first 2 weeks of a semester or the end of the first week of summer session. If the student was enrolled the previous semester and
meets all degree requirements including the submission of all required
documentation by the early deadline, they are not required to enroll for
that semester.

The final Graduate Application for Graduation Deadline is set by the
Registrar for each semester. Please consult the official Academic
Calendar for specific dates. To be eligible for graduation, an application
for degree must be submitted and all degree requirements met by this
deadline. This includes the submission of all required documentation to
the College Office of Graduate Affairs. See the Graduation section of the
COGA (http://clas.ku.edu/coga/graduation/) website for more information.

Undergraduate Graduation with Honors

Undergraduates may earn honors upon graduation in 3 ways. The student
may graduate with distinction or highest distinction, earn departmental
honors in the major, or complete the University Honors Program (http://
www.honors.ku.edu/). It is possible to earn honors in 1 of these areas,
any combination of them, or all 3. The award of honors is noted on the
student’s transcript and in the Commencement program. Distinction and
highest distinction are noted on the diploma.

Graduation with Distinction or Highest
Distinction

The top 10 percent of each year’s graduating class is designated as
graduating with distinction. Of these, the top one-third is designated as
graduating with highest distinction. To be eligible, students must have
completed at least 60 credit hours, graded A through F, in residence at
KU. See Required Work in Residence below.

Graduation with Departmental Honors

Most departments and programs allow qualified majors to work toward
graduation with departmental honors. Graduation with departmental
honors is awarded in recognition of exceptional performance in the major,
completion of a program of independent research or an alternative project,
and a strong overall academic record.

In addition to the requirements of individual departments and programs
(which must be approved by the College committee on undergraduate
studies and advising), the College requires the following for graduation
with departmental honors:

1. Candidates must declare the intention to work for departmental
honors with the appropriate departmental honors coordinator(s) no
later than the time of enrollment for the final undergraduate semester,
but sooner if required by the department(s). Copies of the intent form
should be returned to College Student Academic Services.

2. At the end of the final undergraduate semester, the candidate must
have achieved an overall grade-point average of at least 3.25 and
a grade-point average of at least 3.5 in the major. Both overall
and major grade-point averages include work completed at other
institutions, as well as at KU. No minimum grade-point average is
required to declare candidacy for graduation with departmental honors
unspecified by the department.

3. Each candidate’s departmental honors work must include
independent research or an acceptable alternative project. The
results of research are presented in a form appropriate to the
requirements of the major department. Equivalents to the independent
research component are established by approved departmental
honors programs. In courses meeting the independent research
requirement, the candidate must earn a grade of B or higher.
Successful completion of all departmental honors requirements must
be certified to the departmental honors coordinator(s) by a panel
composed of at least three members of the College faculty who
have read the report of the independent research and heard the oral
presentation, where required.

Petitions

A department or program may petition to award graduation with
departmental honors to deserving students who, for good reason, do not
meet every College and departmental requirement. Send petitions to the
committee on undergraduate studies and advising, College Advising &
Student Services (http://collegesas.ku.edu/).

Late Completion of Honors Requirement

Requirements for graduation with honors may be completed after the
date on which certifications are requested from departments. In fact,
requirements—for example, the completion of an honors thesis for which
the credit hours are not needed to graduate—may be completed after
a student has graduated. When a candidate finishes all requirements,
departments must notify College Advising & Student Services (http://
collegesas.ku.edu/) in writing.

University Honors Program

The University Honors Program (http://www.honors.ku.edu/) provides
opportunities for outstanding and creative undergraduate students in all
schools at KU to develop their full potential during their undergraduate
years. The Honors Program brings talented students together in honors
classes and seminars to benefit from mutual interests and association. It
brings students and faculty members together in a teaching and research
environment that ensures high academic achievement and standards.
The program also coordinates merit-based scholarship opportunities for
qualified students, including KU awards such as the University Scholars
Program, and Undergraduate Research Awards. The Honors Student
Association and the Honors Ambassador Program provide opportunities
for student leadership.

In general, honors classes are small, oriented to discussion, and taught by
full-time members of the faculty. Most honors courses fulfill requirements
and deal with introductory fundamentals and principles, but they are likely
to do so in more depth than their non-honors equivalents. Honors courses
are distinguished by the energetic atmosphere and critical thinking
generated by the students in them and the faculty members who teach
them.

Honors students are interested in expanding their knowledge and take a
broad range of liberal arts and sciences courses. This is true of students
in the professional schools (architecture, engineering, business, etc.)
as well as students in the College of Liberal Arts and Sciences. Honors
program advisors typically recommend that students explore their
interests through the broad curriculum choices KU has to offer.

A first-year, semester-long tutorial experience provides an introduction
to an academic area of study in an informal setting that allows students
to get to know one another and the instructor. The tutorial explores the
research methods of a discipline and acquaints the student with the
research resources at KU. Honors advising is personalized in meetings
with honors staff, faculty fellows, and specially selected advisors from
across the university. The program’s advising committee facilitates early
and frequent contact with academic advisors in the students’ areas of
interest. Honors students benefit from priority enrollment, which provides
flexibility in planning one’s academic curriculum.
The program does not require a minimum number of honors courses a semester. However, students in the program quickly discover that honors courses engage the intellect, hold the interest, and create the enthusiasm for learning they seek at a university. Students in the professional schools are particularly encouraged to seek out honors course opportunities early, while their curricula still have breadth and flexibility.

Honors students are strongly encouraged to include research, study abroad experiences, internships, and community service in their academic programs. Consult Honors Program staff about applying these activities toward completion of honors requirements.

**Admission**

Students with strong high school curricula and excellent academic records are encouraged to apply to the University Honors Program. Admission is highly competitive. Although no ACT/SAT composite score or high school grade-point average guarantees that a student will or will not be admitted to the University Honors Program, this year’s average ACT composite for accepted students is 32.4, and the average unweighted GPA for an accepted student is 3.96. Applications are evaluated on the basis of high school curriculum, grades, an essay, activities, and standardized test scores. Applications from first- and second-year students currently attending KU, as well as incoming transfer students, are evaluated on the basis of college course work, an essay, and college activities. Review of applications begins in October and continues through April. Send inquiries to the University Honors Program, 1506 Engel Road, Lawrence, KS 66045-3845. View further information and the online application (http://www.honors.ku.edu/).

**Completion of the Program**

Students graduate from the program by completing 8 honors units and the first-year, semester-long tutorial. The 8 units must be completed as follows:

1. 6 honors courses (may include graduate-level courses numbered 700 and above).
2. 1 out-of-classroom experience such as study abroad, departmental honors, documented research experience, approved and documented internship experience, or approved and documented community service.
3. The eighth unit may be from either category 1 or category 2. Students also must maintain a minimum 3.25 grade-point average.

**Nunemaker Center**

This unique building, with its modern architectural design, is the home of the Honors Program, near the Daisy Hill residence halls at 15th Street and Engel Road. The Honors Program is home to several faculty fellows who serve the program and bring additional resources to the program to complement the full-time staff. Faculty fellows are available for advising, consultation about majors and careers, guiding research projects, and work with the Honors Council to develop programmatic initiatives.

Students are encouraged to take advantage of the spaces available at Nunemaker, including several classrooms and study areas, a kitchen, comfortable lounges that include 2 fireplaces, and wireless Internet access. Nunemaker also serves as a gallery for undergraduate art. The center is open days and evenings.

View Honors (http://catalog.dept.ku.edu/201314/schools/clas/honors/) courses in the online catalog.

**Graduate Awards**

The College of Liberal Arts and Sciences offers several awards to recognize outstanding graduate students, faculty service, teaching excellence, and exemplary advising. Below, you will find a brief description of each award. More specific information about eligibility and the call for nominations each year can be found on the College’s website under Awards & Opportunities (https://coga.ku.edu/awards-funding/).

**Graduate Student Awards**

**Chancellor's Doctoral Fellowship**

Each year selected doctoral programs award a Chancellor’s Doctoral Fellowship to an incoming doctoral student of exceptional promise. Fellows receive five years of fellowship support for their doctoral work, including a $25,000 stipend plus resident rate tuition and required fees.

**Dean’s Doctoral Fellowship**

Each year selected doctoral programs in the College award a Dean’s Doctoral Fellowship to an incoming doctoral student of exceptional promise. Fellows receive up to five years of fellowship support for their doctoral work, including a stipend ranging from $20,000-22,000 plus resident rate tuition and required fees. Fellows must submit an application for external funding to be eligible for a fifth year of support.

**Outstanding Thesis/Research Project Award**

The Committee on Graduate Studies in the College has established this award for students receiving a master's degree. The bi-annual award carries a $500 stipend, and either a thesis or research project awardee is selected in each cycle. Students are nominated for the award by their advisors.

**Graduate Faculty Awards**

**Byron A. Alexander/John C. Wright Graduate Mentor Awards**

Graduate students (current or those who have graduated since May of the calendar year prior to the award deadline) may nominate any tenured or tenure-track faculty member in the College of Liberal Arts and Sciences who has served as an outstanding mentor. The award amounts are up to $1,000.

**Career Achievement Teaching Award**

This annual award recognizes a retired faculty member in the College of Liberal Arts and Sciences who has made a significant contribution to the teaching of College students at either the undergraduate or graduate level and who has distinguished him/herself through excellence in teaching. The award amount is $1,000.

**Film and Media Studies Courses**

**FMS 100. Introduction to Film and Media. 3 Hours HL GE11 / H.**

An introduction to analyzing and thinking critically about film and other media. Students will learn to read and interpret the basic signs, syntaxes, and structures of cinematic language. Through direct analysis of selected films, television, and new media, students will evaluate and construct evidentiary arguments about the aesthetic strategies creators use to make meaning for audiences. In addition, this course will familiarize students with the historical and industrial dimensions of film and media, as well as
the influence technology has on their development into the twenty-first century. LEC.

FMS 177. First Year Seminar: _____. 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Film and Media Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

FMS 200. Film and Media Aesthetics. 3 Hours GE3H / H.
An introduction to film and media aesthetics, including basic film/media theories and their practical applications. Students will be introduced to the concepts of time, space, composition, movement, editing, light, color, and sound. A key feature of the course will be a practical emphasis on learning how to see creatively by applying elements of design, camera lens and sound recording principles. Examples of these aspects of film and associated media will be examined and discussed in depth. Should be taken before or concurrently with FMS 275. LEC.

FMS 204. Study Abroad Topics in: _____. 1-6 Hours H.
This course is designed for the study of special topics in Film at the freshman/sophomore level. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

FMS 273. Basic Screenwriting. 3 Hours H.
An introduction to the craft and principles of screenwriting, from inspiration to writing a complete first act. Emphasis on factors relevant to the creation of a treatment and a screenplay. Prerequisite: Consent of instructor. LEC.

FMS 275. Basic Video Production. 3 Hours H.
Theory and practice of video production with emphasis on preproduction planning, scripting, directing, lighting, camera operation and audio. Lecture-laboratory. Prerequisite: FMS 100, completion of or concurrent enrollment in FMS 200. LEC.

FMS 301. Undergraduate Professional Development Seminar. 1 Hour H.
Provides an overview of opportunities for professional development in Film and Media Studies, and helps students plan goals for their education through an understanding of professional practices. The course also covers practical exercises in professional development, including writing resumes, finding internships and entry-level work, and other aspects of establishing a career in Film and Media Studies. Prerequisite: FMS 275 or equivalent. Open to FMS Majors only. Graded satisfactory/unsatisfactory. LEC.

FMS 302. Undergraduate Studies Seminar in: _____. 1-3 Hours H.
Course organized any given semester to examine a particular studies topic or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

FMS 303. Undergraduate Production Seminar in: _____. 1-3 Hours H.
Course organized any given semester to study a particular production topic or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

FMS 304. Study Abroad Topics in: _____. 1-6 Hours H.
This course is designed for the study of special topics in Film at the junior/senior level. Credit for course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

FMS 307. Undergraduate Film/Media Internship. 1-6 Hours H.
Supervised study with an approved film/media company or project. May be repeated for credit. No more than six hours may be applied to the B.A. or B.G.S. degrees. Prerequisite: Consent of instructor and at least seven hours credit in the department. INT.

FMS 310. History of the Silent Film. 3 Hours H.
A survey of the artistic, economic and sociological development of the narrative cinema with emphasis on the American studio system, German Expressionism, and Soviet Expressive Realism. Analysis of selected films. LEC.

FMS 311. History of the American Sound Film. 3 Hours HL / H.
A study of the artistic, economic, and sociological development of the American sound film with emphasis on the studio system, major directors, genres, and the impact of television. Analysis of selected films. LEC.

FMS 312. History of the International Sound Film to 1950. 3 Hours H.
A survey of the artistic, economic, and sociological development of the international sound film 1929 to 1950. Emphasis on European National Cinemas. LEC.

FMS 313. History of the International Sound Film Post 1950. 3 Hours H.
A survey of the artistic, economic, and sociological development of the international sound film from 1950 to the present. Emphasis on Free Cinema, New Wave, and other emerging post-war cinemas. LEC.

FMS 314. History of African-American Images in Film. 3 Hours HL AE41 / H.
A history and critical assessment of the diverse images of African-Americans in American cinema and the impact of those images on American society. Screenings of feature and independent films, including those by African-Americans. LEC.

FMS 315. Survey of Japanese Film. 3 Hours NW AE42 / H.
This course surveys the major developments in and critical approaches to twentieth-century Japanese film. Focusing mostly on narrative films, Survey of Japanese Film introduces students to basic methodological issues in Japanese film history, especially questions of narrative, genre, stardom, and authorship. We examine Japanese cinema as an institution located within specific contexts focusing on the ways in which this institution shapes gender, class, ethnic, and national identities. This course examines how patterns of distribution, exhibition, and reception have influenced film aesthetics and film style over the last century. Through secondary readings, lectures, and discussions students critically examine how Japanese cinema as an institution both responds to and intervenes in the social, cultural, and political history of twentieth century Japan. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. (Same as EALC 315.) LEC.

FMS 316. Cinemas of the Southern Cone: Argentina, Chile, and Uruguay. 3 Hours AE42 / H.
This course will examine the cinemas of three neighboring South American countries to find similar themes and some differences between them historically, politically, and culturally. Themes will include: gender and nation, political repression during dictatorship, globalization and the cinema, youth culture in the Southern Cone, and representations of race and ethnicity, immigration and identity in contemporary cinema. Other themes in common are financing issues, such as co-production agreements, film production under the regional trade pact Mercosur and issues of circulation, distribution and marketing of national films. Most films will be feature length narrative, but a few documentaries will be shown. May be taken as FMS 716, but with additional requirements. LEC.

FMS 317. Race and the American Documentary. 3 Hours H.
This course surveys a range of documentaries in which race is a key part. There are two class objectives: the first is to broaden the students’ knowledge of American social history and culture, especially around issues of identity, representation and race. The second is to heighten the
students' critical skills as viewers of films in general. A complete film or portion is screened at each class session, preceded by an introductory lecture, and a follow-up discussion. Readings from a variety of scholarly texts are excerpted for student review prior to a particular class. LEC.

**FMS 318. Anti-war Film. 3 Hours H.**

An overview and exploration of the history of anti-war film and media themes to show how attitudes regarding war and political policy can be affected by positive and negative depictions of conflict. Course includes analysis of selected films. LEC.

**FMS 322. Soviet and Post-Soviet Russian Cinema. 3 Hours H.**

A comprehensive introduction to Soviet cinema and its legacies in post-Soviet Russia. The course will examine what distinguished Soviet film industry from those in other countries and the ways in which it impacted the development of cinema worldwide. Films are analyzed both as artistic works (with attention to formal qualities, cinematic styles, and influences) and as documents that provide insight into the socio-political contexts of the times when they were made. We will also discuss influential contributions by Soviet filmmakers to our understanding of what makes film unique as an art form. The course is offered at the undergraduate and graduate level, with additional assignments at the graduate level. (Same as SLAV 322.) LEC.

**FMS 323. War and Memory in Asian Film. 3 Hours AE42 / H.**

This course explores how the film industries of key East Asian nations have constructed, reimagined, debated, and commemorated their experiences of the major wars fought during the 20th century (i.e. The Greater East Asian War, the Chinese Civil War, the Korean War, and the Vietnam War). We will examine the intersection of various historical, political, cultural, and economic factors with the production of mainstream commercial film to consider how individual and collective memories of wars in Asia have transformed over time in different contexts. Films are particularly useful for examining how the cultural memory of wars survives and is conveyed from one era to another with each new generation reinventing and superimposing new layers of memory on the original phenomenon from a range of multiple perspectives. A central goal of this course is to provide students with various historical perspectives, cultural contexts, and analytical methods to develop your ability to apply visual literacy and critical thinking skills to contemporary Asian films about the major wars of the last century. LEC.

**FMS 330. Cinematic Rome. 3 Hours H.**

A study of cinematic representations of daily life, diversity, urban landscape, and social and political issues in modern and contemporary Rome as presented in different genres. Taught in English. (Same as ITAL 330.) LEC.

**FMS 331. Mafia Movies. 3 Hours H.**

This course investigates representations of the Italian mafia in Italian and American cinema since the 1960s, placing emphasis on conventions of the gangster genre and its evolution. We will examine films in relation to their socio-historical contexts and special attention will be dedicated to Italian films that glamorize the Italian mafia and champion the anti-mafia struggle. Taught in English. (Same as ITAL 331.) LEC.

**FMS 345. New Media and Society. 3 Hours H.**

Students will be introduced to major themes and debates in digital media studies and apply critical approaches for understanding new media practices, technologies, and theories. In addition to readings and lectures, students will engage in a variety of digital activities and participate in research-oriented projects. By the end of this course students will gain a foundational understanding of historical and emerging relationships between new media (internet, cell phones, digital games, etc.) and society, acquire key research skills, and experience a variety of new media texts and services. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. LEC.

**FMS 350. Indigenous Film and Media. 3 Hours H.**

This course offers a survey of global Indigenous cultures, theory and aesthetics in cinema and digital media. It establishes an Indigenous media optics by examining media practices across a broad contemporary spectrum—including music videos and social media platforms, podcasting and video games. As the course moves geographically, students learn how media practices in diverse communities situate identity and experience in relation to but unique contexts. Through weekly readings, screenings and design workshops, students build the critical tools necessary for an examination of the wide range of practices that lend themselves to Indigenous media sovereignty. This course is offered at the 300 and 700 level with additional assignments at the 700 level. Not available to students with credit in FMS 750 or ISP 755. (Same as ISP 355.) LEC.

**FMS 355. Storytelling with Digital Media. 3 Hours HL / H.**

In this course, students will utilize digital tools and platforms to create online and mobile stories based on the theories and histories of interactive storytelling discussed in class. Through a survey of digital storytelling examples and concepts, students will create interactive projects to add to their portfolio and learn how to think critically and write analytically about digital media. LEC.

**FMS 373. Intermediate Screenwriting. 3 Hours H.**

Emphasis on writing a full-length screenplay. Explores genre, character, dialogue, and the development of a personal writing style. Prerequisite: FMS 273 (students will be selected based on writing samples). LEC.

**FMS 374. Animation. 3 Hours H.**

A survey that combines animation history, theory, and production by examining animated works of all kinds and exploring various styles utilizing both hands-on techniques and digital animation programs. Lecture-laboratory. LEC.

**FMS 375. Intermediate Video Production. 3 Hours H.**

Theory and practice of longer-form video production with emphasis on scripting, talent coordination and editing in preproduction, production and postproduction. Lecture-laboratory. Prerequisite: FMS 275. LEC.

**FMS 376. Cinematography. 3 Hours H.**

Theory and practice of cinematography, with emphasis on creation of film, video, and digital imagery. Prerequisite: FMS 275. LEC.

**FMS 377. Post-Production. 3 Hours H.**

Students become familiar with techniques and processes in film and video post-production including, but not limited to, editing, sound, post-production management, marketing, and distribution. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. Prerequisite: FMS 275. LEC.

**FMS 380. American Popular Culture of: _____ 3 Hours HL GE3H / H.**

An interdisciplinary examination of popular cultural forms and their relationships with the social, political and economic dynamics of America, with emphasis on film, media, music, literature (including magazines and newspapers) and the graphic arts. The decade or other specific topic to be studied changes as needs and resources develop. May be repeated for credit for different decades or topics. LEC.

**FMS 407. Undergraduate Film/Media Service Learning Internship. 1-6 Hours H.**

Supervised study with an approved government agency, established non-profit organization, school, or community-based partner to produce a professional-level film and/or media project in the public interest. Community work should meet the needs of the community-based...
organization and the education goals set by the student, instructor, and community based partner; be in direct service, indirect service, policy analysis, research, and/or advocacy work; engage the student with individuals or communities of need and with issues related to social justice, community development, and/or access to resources. May be repeated for credit. No more than six hours may be applied to the B.A. or B.G.S. degrees. Graded satisfactory/unsatisfactory. Prerequisite: Consent of instructor and at least 22 credit hours in the department. LEC.

FMS 410. US Diversity in Visual Culture. 3 Hours AE41 / H. This course examines the way in which diversity in the United States, including race, class, gender, and sexuality, are represented through visual culture, historically and in the present. The study of visual culture analyzes the way in which visual images communicate systems of beliefs, contribute to identity formation, and have an influence on our thinking about diversity. Course looks at United States visual objects (i.e., film, television, photography, art, advertisements, and theatre as well as visual practices, i.e., in public and private spaces. LEC.

FMS 411. Television Studies. 3 Hours H. A historical, theoretical and critical survey of U.S. television from 1945 to the present from the public's perspective, with emphasis on the early influences of radio (e.g., Federal regulation and sponsorship), film and theatre; TV's rapid rise as the U.S. public's prime source of entertainment, news and information; TV's rise as a key cultural, economic and political phenomenon; TV's more recent accommodations to the forces of globalization, new technologies/media, and new business models through convergence. Discussion and screening of representative TV texts as seen against the backdrop of the theories and critical views of TV scholars ranging from Raymond Williams and John Fiske to Henry Jenkins. LEC.

FMS 413. Asian Media Studies. 3 Hours H. This course examines new and emerging media in East Asia and how the media industries of East Asia function. Using recent scholarship and industry data on contemporary cyberculture, music studies, and television industries of East Asia we examine how such factors as globalization, post-colonialism, censorship, emerging technology, and national media legislation affect regional and transnational media industries in Japan, South Korea, and Mainland China/Taiwan/Hong Kong. (Same as EALC 413.) LEC.

FMS 425. Ethics in Storytelling. 3 Hours AE51 / H. This course considers the ethics of telling stories with film and media. Using a framework of rhetorical criticism and postmodern ethics, the students will evaluate the ethical and social responsibility challenges of fiction and non-fiction writing, films, television and online projects from a variety of fields: anthropology, sociology, journalism, political rhetoric and documentary filmmaking. Through readings, case studies and application, students will explore the fundamentals of rhetorical ethics, and the questions raised my new and emerging forms of storytelling. LEC.

FMS 474. Videogame Theory and Design. 3 Hours H. This course surveys the history and aesthetics of videogames and then provides a deep dive into the theory, design principles and techniques of game development on the Unity platform. Through assignments geared toward critical design, students gain the skills necessary for game-building in the areas of visual, narrative, game, level and sound design that comprise a typical development team. Although no prior coding experience is necessary, students may benefit from prior knowledge of C#, 3D modeling, or animation. LEC.

FMS 475. Advanced Video Production. 3 Hours H. Special projects in video production, using both studio and remote locations. Prerequisite: FMS 375. LEC.

FMS 477. Sound Design. 3 Hours H. Students will study and produce film and video work with an emphasis on sound design theory and practice. Course projects consist of several short works in response to readings and screenings, which include a survey of sound in cinema, internet and radio. Students will also become conversant with related equipment, software and techniques. Prerequisite: FMS 275. LEC.

FMS 478. Experimental Production. 3 Hours H. Students will produce experimental film and video projects, including installation art and performance art pieces, in both collaborative and a collaborative production modes. Practical production aspects of historical experimental works will be studied, with emphasis on creation of works inspired by these earlier artists and their work. Unorthodox video and film production concepts and modes will also be studied and used in the creation of original works. The incorporation of experimental elements in the creation of mainstream works, and the creation of such projects, will also be a key area of study and experimentation. By pushing their individual creative limits, students will gain an appreciation for the experimental film and video genre, as well as an expansion of their production skills. Prerequisite: FMS 275. LEC.

FMS 479. Documentary Production. 3 Hours H. This is a hands-on production course in which students will research, plan and produce short-form non-fiction documentaries. The class is dedicated to training young professionals in the principles, skills, techniques, habits and practices of documentary production. We will focus also on the aesthetics of our craft and the documentary form. The objective is to ground students in the fundamental skills of good non-fiction storytelling-conceptualization, research, story structure, theme development, writing, producing and directing. The goal is the production of several short-form compositions (videos) where storytelling is employed to communicate a concept or idea effectively. Students will form into teams to research, develop and produce a course-long short-form documentary. Prerequisite: FMS 275. LEC.

FMS 480. Music Video Production. 3 Hours H. This course will cover elements of the history, aesthetics, and business of music video and music video production. Students will view and discuss many different types of music videos, and will learn how to classify and critique these videos in a professional manner. Students will gain familiarity with the genres, themes, forms, and iconography of music video; an understanding of the place of music video in media culture; an exploration of the ideological, cultural, and historical contexts of music video; and an ability to create or assist in the creation of professional-quality music videos. Prerequisite: FMS 275. LEC.

FMS 498. Honors Seminar. 2-6 Hours AE61 / H. Study may be directed toward either (a) reading for integration of knowledge and insight in film and media, or (b) original research (i.e., investigation of a specific problem in film and media). Six hours maximum credit. Prerequisite: Consent of Departmental Honors Coordinator. LEC.

FMS 499. Directed Study in Film. 1-6 Hours AE61 / H. Investigation of a special topic or project selected by the student with advice, approval, and supervision by an instructor. Such study may take the form of directed reading or special research. Individual reports and conferences. A maximum of six hours credit may be counted toward a degree. Prerequisite: At least seven hours credit in the department and consent of instructor. IND.

FMS 530. Film and Media Theory. 3 Hours H. Comprehensive examination of most significant theories and theorists of film. Organized around specific questions, e.g., what qualities make film art unique, and how is film related to other visual and literary arts?
A critical study of Africa and its peoples as depicted in films. The aesthetic, cultural, economic, political, historical, and ideological aspects of African films are examined. (Same as AAAS 555.) LEC.

FMS 585. Capstone in Film and Media Studies. 3 Hours AE61 / H.
This course integrates the knowledge and skills acquired across the curriculum of Film Media Studies including academic studies, but also production and other related disciplines to enable the student to demonstrate achievement through the production of a major creative research project. Prerequisite: Must be admitted to the Film and Media Studies B.A. or B.G.S. degree. Must have completed one FMS production course. LEC.

FMS 592. Documentary Film and Video. 3 Hours H.
An historical and theoretical survey of that major genre of film and video typically termed "documentary." The course will trace the main historical developments from documentary’s beginnings through contemporary innovations. Prerequisite: FMS 100 and FMS 310, FMS 311, or consent of instructor. LEC.

FMS 593. Experimental Film and Video. 3 Hours H.
A history of experimental film and video through an examination of major artists, movements, theories, and films/tapes. Prerequisite: FMS 100 and FMS 310, or consent of instructor. LEC.

FMS 620. International Women Filmmakers. 3 Hours H.
This course examines films made by women around the world. Mainstream and independent fiction, documentary, and experimental works will be screened and discussed. The objectives of the course are: 1) to learn the variety of films made by women and the conditions of their production, distribution, reception. 2) to interrogate the idea of women's cinema as 'counter-cinema'. We will acquire tools for analyzing films in terms of economic, aesthetic, cultural, and political circumstance by women of different countries, classes, races, ethnicities, genders, and sexual preferences. LEC.

FMS 673. Problems in Basic Screenwriting. 3 Hours U.
The principles of screenwriting are developed through scene writing and analysis culminating in the writing and structure of a full-length, three-act screenplay. In addition to the class sessions taught with FMS 275 Basic Screenwriting, separate consultations and specific research assignments for graduate students in FMS 673 are also required. LEC.

FMS 675. Problems in Basic Video Production. 3 Hours U.
Theory and practice of single-camera video production with emphasis on preproduction planning, scripting, directing, lighting, camera operation and audio. In addition to the class sessions taught with FMS 275 Basic Video Production, separate consultations and specific research assignments for graduate students in FMS 675 are also required. Lecture-laboratory. LEC.

FMS 702. Graduate Seminar in:_____. 1-3 Hours.
Course organized any given semester to study particular subject matter or to take advantage of special competency by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. SEM.

FMS 704. Study Abroad Topics in:_____. 1-6 Hours.
This course is designed for the study of special topics in Film. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

FMS 707. Film/Media Internship. 3-12 Hours.
Study with an approved film or media company. Emphasis may be in one or all of the following areas: acting, directing, or promotion management. No more than six hours may be applied to an M.A. degree. Course will be graded satisfactory/unsatisfactory. Prerequisite: Consent of instructor. INT.

FMS 715. Survey of Japanese Film. 3 Hours.
This course surveys the major developments in patterns of distribution, exhibition, and reception and their influence on film aesthetics in twentieth century Japanese film. Through secondary readings, lectures, and discussions students will examine how Japanese cinema, as an institution, responds to and intervenes in the social, cultural, and political history of twentieth century Japan. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. (Same as EALC 715.) LEC.

FMS 716. Cinemas of the Southern Cone: Argentina, Chile, and Uruguay. 3 Hours.
This course will examine the cinemas of three neighboring South American countries to find similar themes and some differences between them historically, politically, and culturally. Themes will include: gender and nation, political repression during dictatorship, globalization and the cinema, youth culture in the Southern Cone, and representations of race and ethnicity, immigration and identity in contemporary cinema. In addition to the lecture sessions taught in tandem with FMS 316, additional
research component, lecture presentation, and class meeting are also required. LEC.

FMS 717. Race and the American Documentary. 3 Hours.
This course will survey a range of documentaries in which race is a key part of the film’s text. There are two class objectives: to broaden the student's knowledge of American social history and culture, especially around issues of identity, representation and race, and to heighten the student's ability as a critical viewer of films. This course will include: film viewing, scholarly readings, and lectures. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. LEC.

FMS 718. Anti-war Films. 3 Hours.
An overview and exploration of the history of the portrayal of anti-war film and media themes to show how anti-war attitudes and political policy can be affected by positive and negative depictions of conflict. Analysis of selected films. FMS 318 and FMS 718 will meet concurrently, though separate consultations and specific research assignments for FMS 718 are also required. LEC.

FMS 722. Soviet and Post-Soviet Russian Cinema. 3 Hours.
A comprehensive introduction to Soviet cinema and its legacies in post-Soviet Russia. The course will examine what distinguished Soviet film industry from those in other countries and the ways in which it impacted the development of cinema worldwide. Films are analyzed both as artistic works (with attention to formal qualities, cinematic styles, and influences) and as documents that provide insight into the socio-political contexts of the times when they were made. We will also discuss influential contributions by Soviet filmmakers to our understanding of what makes film unique as an art form. The course is offered at the undergraduate and graduate level, with additional assignments at the graduate level. Not open to students with credit in SLAV 322/FMS 322. (Same as SLAV 723.) Prerequisite: Graduate standing or instructor permission. LEC.

FMS 743. Contemporary Japanese Film. 3 Hours.
Seminar on the major developments in the contemporary (1980-present) Japanese film industry examining how filmmaking practices and film criticism have been influenced by such issues as transnationalism, postcolonialism, critical race theory, postmodernism, and new media. We will survey recent industrial and stylistic trends as well as key critical debates. Class includes discussion, reports, and individual research papers. This course is offered at the 500 and 700 levels, with additional assignments at the 700 level. (Same as EALC 743.) SEM.

FMS 745. New Media and Society. 3 Hours.
Students will be introduced to major themes and debates in digital media studies and apply critical approaches for understanding new media practices, technologies, and theories. In addition to readings and lectures, students will engage in a variety of digital activities and participate in production-oriented projects. By the end of this course students will gain a foundational understanding of historical and emerging relationships between new media (internet, cell phones, digital games, etc.) and society, acquire key digital skills, and experience a variety of new media texts and services. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. LEC.

FMS 750. Indigenous Film and Media. 3 Hours.
This course offers a survey of global Indigenous cultures, theory and aesthetics in cinema and digital media. It establishes an Indigenous media optics by examining media practices across a broad contemporary spectrum—including music videos and social media platforms, podcasting and video games. As the course moves geographically, students learn how media practices in diverse communities situate identity and experience in related but unique contexts. Through weekly readings, screenings and design workshops, students build the critical tools necessary for an examination of the wide range of practices that lend themselves to Indigenous media sovereignty. This course is offered at the 300 and 700 level with additional assignments at the 700 level. Not available to students with credit in FMS 350 or ISP 355. (Same as ISP 755.) LEC.

FMS 773. Problems in Intermediate Screenwriting. 3 Hours.
The principles of screenwriting are developed through scene writing and analysis culminating in the writing and structuring of a full-length, three act screenplay. In addition to the class sessions taught with FMS 373 Intermediate Screenwriting, separate consultations and specific research assignments for graduate students in FMS 773 are also required. LEC.

FMS 775. Problems in Intermediate Video Production. 3 Hours.
Theory and practice of multiple-camera video production with emphasis on preproduction planning, scripting, directing, lighting, camera operation, and audio. In addition to the class sessions taught with FMS 375 Intermediate Video Production, separate consultations and specific research assignments for graduate students in FMS 775 are also required. Lecture-laboratory. LEC.

FMS 776. Problems in Cinematography. 3 Hours.
Theory and practice of cinematography, with emphasis on creation of film, video, and digital imagery. FMS 776 meets concurrently with FMS 776; students enrolled in the graduate-level course will have separate consultations and specific research assignments. Lecture-laboratory. Prerequisite: Consent of instructor and FMS 676. LEC.

FMS 800. Introduction to Graduate Study in Film/Media. 3 Hours.
Major emphasis is placed upon the principles of research, bibliographical data, and research methods useful in film and television. The course should be taken at the beginning of the graduate student's program. LEC.

FMS 801. Professional Development Seminar. 1 Hour.
Preparation and training for faculty careers in film and related fields, including research skills and methods, responsible scholarship, teaching, and service. Other topics vary from semester to semester. May be repeated for credit. SEM.

FMS 802. Master's Projects. 3-6 Hours.
Advanced creative projects which may be elected by master's degree candidates in lieu of thesis. RSH.

FMS 810. Development of the Silent Film. 3 Hours.
Intensive study of the artistic, economic, and sociological development of the silent narrative film with emphasis on the evolution of the American studio system, German Expressionism, and Soviet Expressive Realism. LEC.

FMS 811. Development of the American Sound Film. 3 Hours.
Intensive study of the artistic, economic, and sociological development of the American sound film with emphasis on the studio system, major directors, genres, and the impact of television. LEC.

FMS 813. Development of the International Sound Film. 3 Hours.
Intensive study of the artistic, economic, and sociological development of the international sound film with emphasis on the cinemas of England, France, Italy, Germany, Sweden, and Eastern Europe. LEC.

FMS 814. Development of African-American Images in Film. 3 Hours.
A history and critical assessment of the development of diverse images of African-Americans in American cinema and the impact of those images of American society. Screenings of feature and independent films, including
those by African-Americans. In addition to the lecture/screening sessions taught in tandem with FMS 314, a separate discussion section and specific research assignments for graduate students enrolled in FMS 814 are also required. LEC.

FMS 840. Cuban Cinema. 3 Hours.
This course explores Cuban cinema from 1959 to the present day. Special attention will be paid to the representations of Cuban history, cultural politics, and the political-economic conditions of production in Cuba. In addition, the Cuban-American community and their contributions or reactions to Cuban film will be discussed. Through readings, lectures, discussion, and viewing Cuban films, the class will examine a variety of topics related to Cuban cinema, history, and contemporary concerns. This course is offered at the 500 and 800 levels, with additional assignments at the 800 level. LEC.

FMS 841. Asian Film. 3 Hours.
Seminar on various national film cultures of East and Southeast Asia. Representative films are studied from formal, stylistic, and socio-historic perspectives. Addresses the impact of key cultural, economic and political issues on each film industry. Class includes discussion, reports, and individual research papers. This course is offered at the 500 and 800 levels, with additional assignments at the 800 level. (Same as EALC 841.) SEM.

FMS 862. Survey of Film and Media History. 3 Hours.
This seminar will be primarily international in scope and will concentrate on the following: technological and production issues relating to the transition in 1927-1931 of silent to sound film; the constructions of national identity, including those of recently emerging cultures; a comparison and contrast of the censorial agencies in America and abroad; and current revisionist perspectives on received film and media history. SEM.

FMS 863. Survey of Documentary and Experimental Film and Media. 3 Hours.
Surveys the important historical and theoretical issues pertinent to both the documentary and experimental approaches as expressed in film, video and new technologies. Includes major documentary and experimental genres, directors, national schools, artistic movements, and landmark works. Screenings reflect a chronology from origins to present-day. LEC.

FMS 865. Film and Media Theory. 3 Hours.
This seminar is a comprehensive survey of the major classical and contemporary film and media theories and theorists, such as Munsterberg, Eisenstein, Bazin, and Adorno. The course includes film and media theory since the 1970s, moving through structuralism and into the posts: -structuralism, -modernism, -colonialism, and beyond. Within these broad paradigms some of the theories examined in depth are cinemematics, Marxism, cinematic apparatus, feminist film theory, reception theory, new media and virtual reality. SEM.

FMS 875. Problems in Advanced Video Production. 3 Hours.
Special projects in video production, using both studio and remote locations. In addition to the class sessions taught with FMS 475 Advanced Video Production, separate consultations and specific research assignments for graduate students in FMS 875 are also required. Prerequisite: FMS 775 or consent of instructor. LEC.

FMS 880. Development of American Popular Culture in the: _____ 3 Hours.
Intensive interdisciplinary examination of popular culture forms and their relationships with the social, political, and economic dynamics of America in a specific decade, with emphasis on film, broadcasting, theatre, music literature (including magazines and newspapers), and the graphic arts. Decade to be studied changes as resources and needs develop. LEC.

FMS 887. Film and the Public. 3 Hours.
A study of the actual and implied responsibilities of film and video to the public, as seen in regulations, self-regulatory codes, and the critical literature of the field. Prerequisite: Consent of instructor. LEC.

FMS 888. Special Problems in Film History and Criticism. 1-4 Hours.

FMS 895. Intensive Film Project Seminar. 1-4 Hours.
The student plans and executes an intensive special project which requires the professional skills of investigation and performance appropriate to radio, television and/or film. May be repeated for credit up to a maximum of six credit hours. (This seminar is to the special project program what "thesis" is to the traditional program.) RSH.

FMS 897. Practicum in Film. 1-3 Hours.
Various approaches to the illustration of principles of production in film and/or video through the supervision of laboratory exercises and subsequent evaluation by the Theatre and Film graduate faculty. FLD.

FMS 898. Investigation and Conference (for Master's Students). 1-8 Hours.
Directed research and experimentation in film or media. Limited to eight hours credit toward the Master's degree. RSH.

FMS 899. Master's Thesis. 1-6 Hours.
THE.

FMS 902. Film Seminar in: _____ 3 Hours.
A graduate seminar devoted to selected historical, theoretical, or critical issues. Prerequisite: Consent of instructor. LEC.

FMS 998. Investigation and Conference (for Doctoral Students). 1-8 Hours.
RSH.

FMS 999. Doctoral Dissertation. 1-12 Hours.
THE.

Theatre and Dance Courses

DANC 100. Introduction to the Dance Major. 1 Hour H.
This is a 6 week online course designed to identify what is unique about the KU Dance experience, and to introduce students to the requirements for a BA or BFA degree. The course examines issues of academic integrity, informs students about academic support available to them, familiarizes students with the expectations of a dance major and suggests career opportunities for dance majors. Students complete five modules: Getting Started, Programs and Degrees, Academic Integrity and Support, Expectations and Career Pathways to provide a foundation for academic success in the major. LEC.

DANC 101. Ballet I. 2 Hours.
Classical and modern approaches to the language of ballet for beginners. May be repeated for credit. Does not count toward the dance major requirements. ACT.

DANC 103. Modern Contemporary I. 2 Hours.
Dance technique for beginners with precedents in the movement vocabularies of Isadora Duncan, Martha Graham, Doris Humphrey, Merce Cunningham, and the seminal choreographers of modern dance. May be repeated for credit. Does not count toward the dance major requirements. ACT.

DANC 105. Jazz I. 2 Hours.
Dance technique for beginners based on elements of Latino, African, popular and classical jazz dance forms. May be repeated for credit. Does not count toward the dance major requirements. ACT.
DANC 108. Pas de Deux. 1 Hour.
The elements of classical ballet partnering (pas de deux) are explored. These elements include supported poses, lifts, turns, and their coordination between the partners. For men only. Women enroll in Pointe and Pas de Deux, DANC 307. May be repeated for credit. ACT.

DANC 109. Men’s Ballet. 2 Hours.
An introduction to classical ballet focusing on the particular requirements of the male ballet technique including leaps, turns, batterie, and their presentation. May be repeated for credit. ACT.

DANC 150. Choreography I. 2 Hours H.
The introductory-level course in a series of four composition courses (DANC 150, 250, 350 and 550). Includes the basic exploration of improvisation: movement studies for solo figure, movement themes for duet, trio, and larger groups; and dances for non-traditional performing spaces both indoors and outdoors. Students will learn fundamental ingredients of dance (space, time, weight, and energy flow) and how to organize them into short compositional forms such as ABA, verse/refrain, or narrative. Prerequisite: Consent of instructor. LAB.

DANC 177. First Year Seminar: _____, 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Dance. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

DANC 208. Modern Contemporary I. 2 Hours.
The introductory-level course in a series of four composition courses (DANC 150, 250, 350 and 550). Includes the basic exploration of improvisation: movement studies for solo figure, movement themes for duet, trio, and larger groups; and dances for non-traditional performing spaces both indoors and outdoors. Students will learn fundamental ingredients of dance (space, time, weight, and energy flow) and how to organize them into short compositional forms such as ABA, verse/refrain, or narrative. Prerequisite: Consent of instructor. LAB.

DANC 210. Rhythms and Structures of Music. 3 Hours H.
An introduction to the analysis and use of rhythms and the compositional forms of music for dance. LEC.

DANC 211. Ballet II. 2 Hours.
Classical and modern approaches to ballet technique for low intermediate dancers. May be repeated for credit. Counts toward the B.A. in Dance and Dance Minor requirements. Prerequisite: DANC 101 or consent of instructor. LAB.

DANC 213. Modern Contemporary II. 2 Hours.
Dance technique for low intermediate dancers with precedents in the movement vocabularies of classical modernists and contemporary choreographers of dance. May be repeated for credit. Counts toward the B.A. and the Minor in dance requirements. Prerequisite: DANC 103 or permission of instructor. LAB.

DANC 215. Jazz II. 2 Hours.
Dance technique for experienced beginners based on elements of Latino, African, popular and classical jazz dance forms. May be repeated for credit. Counts toward the B.A. and Minor in dance requirements. Prerequisite: DANC 105 or consent of instructor. LAB.

DANC 250. Choreography II. 2 Hours H.
The intermediate course in a series of four composition courses (DANC 150, DANC 250, DANC 350 and DANC 550.) Includes more complex exploration of improvisation; movement studies for solo figure, movement themes for duet, trio, and larger groups; and dances for non-traditional performing spaces both indoors and outdoors. Students will further develop the ingredients of dance (space, time, weight, and energy flow) and how to organize them into studies including compositional forms such as ABA, verse/refrain, or narrative. Prerequisite: DANC 150 or consent of instructor. LAB.

DANC 260. Musical Theatre Dance. 3 Hours.
This course focuses on the dance and movement vocabulary uniquely associated with musical theatre productions, as well as a variety of popular dance styles from the 1920s to the present. Performance techniques for the stage are emphasized. LAB.

DANC 290. Sophomore Review. 0 Hours H.
The Sophomore Review of all majors in the BA program in Dance provides an assessment of student progress in the degree. Transfer students to the BA program participate in the year following their admission to KU. The review process consists of: verification that students are making academic progress: Students should have an overall GPA of 2.0; a self-evaluation composed of written responses to a series of questions about their own artistic, technical and discipline-specific academic progress in the program; a faculty evaluation comprised of written feedback on each students artistic, technical and discipline-specific academic progress in the program; and participation in at least one speedback session prior to the end of the second year. Speedback is a feedback process modeled on the speed dating format. All majors sit with faculty members for 5-minute intervals to receive individual feedback. Students engage with professors with whom they have been in technique class or rehearsal for the current year. There are no prerequisites for entry into the course. The completion of the course will be a prerequisite for enrollment in DANC 550 Senior Project. LEC.

DANC 307. Pointe and Pas de Deux. 2 Hours.
An introduction to pointe and classical partnering work for the intermediate/advanced female ballet dancer, with equal emphasis on pointe technique and style, and on classical repertory for couples. May be repeated for credit. Prerequisite: Consent of instructor. LAB.

DANC 308. Pas de Deux. 1 Hour.
The exploration of classical ballet partnering (pas de deux) including supported poses, lifts, turns, and their coordination between the partners. For men only. Women enroll in Pointe and Pas de Deux, DANC 307. May be repeated for credit. Prerequisite: Consent of instructor. LAB.

DANC 309. Men’s Ballet. 2 Hours.
A continuation of the study of male classical ballet technique including leaps, turns, batterie, and their presentation. May be repeated for credit. Prerequisite: Consent of instructor. LAB.

DANC 310. Music for Dance. 3 Hours.
An examination of music as accompaniment for dance in both classroom and performance settings. Students will listen and analyze music from various historic periods to develop the skills necessary to select music appropriate for choreography. They will learn techniques for working with accompanists and composers. Prerequisite: DANC 210 or consent of instructor. LEC.

DANC 311. Ballet III. 3 Hours H.
Advanced level technique in classical and modern approaches to the language of ballet. May be repeated for credit. Prerequisite: Instructor consent. LAB.

DANC 313. Modern/Contemporary III. 3 Hours H.
Dance technique for intermediate/advanced dancers with precedents in the movement vocabularies of classical modernists and contemporary choreographers of dance. May be repeated for credit. Counts toward the B.A., B.F.A., and the Minor in dance requirements. Prerequisite: Consent of instructor. LAB.

DANC 315. Jazz III. 3 Hours H.
Dance technique for intermediate dancers based on elements of Latino, African, popular and classical jazz dance forms. May be repeated for variable credit. Prerequisite: DANC 105 or consent of instructor. LAB.

DANC 317. Hip Hop Fundamentals. 3 Hours.
Basic fundamentals of hip-hop dance. Students will learn basic steps for choreography and freestyle based on all urban street styles. They will learn the origins and history of the hip hop movement and all urban street styles through lectures and class participation. LAB.
DANC 319. Tap Fundamentals. 3 Hours SC / H.
Introduces the principles of tap dance including rhythm, clarity of sound, syncopation and weight shift. Emphasis is placed on proper execution of basic tap technique, step knowledge, weight distribution, and the development of basic rhythm and syncopation skills. The course will be based on "stomp tap" and "rhythm tap", working with/without the music to make clear patterned sounds. LAB.

DANC 320. University Dance Company. 0-1 Hours.
A dance repertory, performance and production class. Emphasis is on the development of skills for performing and/or producing dance concerts. Admission by audition only. May be repeated for credit. IND.

DANC 330. Approaches to World Dance. 3 Hours HL AE42 / H.
This course examines dance forms from throughout the world and how they relate to the times and cultures in which they evolved. Dance forms such as African, East Indian classical, European court dance, ballet, modern, and jazz will be studied through readings, master classes, live performances, videotapes, and films. Prerequisite: 200-level English course.

DANC 334. Introduction to African Dance Theatre. 2 Hours NW / U.
An introduction to the general techniques of non-verbal theatrical conventions in African cultures. Practical training in movement vocabulary will be supplemented by lectures on the "text" of performance. (Same as AAAS 334 and THR 334.) LEC.

DANC 350. Choreography III. 3 Hours H.
The advanced course in a series of four composition courses (DANC 150, DANC 250, DANC 350 and DANC 550.) Includes in-depth development of improvisation: movement studies for solo figure, movement themes for duet, trio, and larger groups; and dances for non-traditional performing spaces both indoors and outdoors. Students will develop increasingly complex studies of dance (space, time, weight, and energy flow) including compositional forms such as ABA, verse/refrain, or narrative. Prerequisite: DANC 250 or consent of instructor. LAB.

DANC 375. Anatomy and Injury Prevention. 3 Hours H.
Basic concepts of neuromuscular and skeletal education through the use of specific imagery (ideokinesis). Based on the work of Mabel Todd, Lulu Sweigard, and Irmgard Bartenieff, the emphasis is on body connectedness and dynamic alignment. The aim is to realize full movement potential in the most efficient way through intrinsic body awareness. Injury prevention is addressed by introducing principles of conditioning (strength, flexibility, endurance) and factors leading to injury such as muscular imbalances or postural deviations. LEC.

DANC 411. Ballet IV. 3 Hours H.
Advanced level technique in classical and modern approaches to the language of ballet. Prerequisite: Consent of instructor. LAB.

DANC 413. Modern Contemporary IV. 3 Hours H.
Dance technique for advanced dancers with precedents in the movement vocabularies of classical modernists and contemporary choreographers of dance. May be repeated for credit. Counts toward the B.A., B.F.A., and the Minor in dance requirements. Prerequisite: Consent of instructor. LAB.

DANC 415. Jazz IV. 3 Hours.
Dance technique for advanced dancers based on elements of Latino, African, popular and classical jazz dance forms. May be repeated for credit. Prerequisite: Consent of instructor. LAB.

DANC 417. Hip Hop II. 3 Hours SC / H.
Intermediate/advanced hip hop dance. Students will learn intermediate/advanced hip hop skills, combinations, and choreography. Greater focus will be placed on intermediate/advanced steps, isolations, and body control. Prerequisite: Hip Hop Fundamentals or permission of instructor. LAB.

DANC 419. Tap II. 3 Hours SC / H.
Intermediate/advanced tap dance. A continuation of the principles introduced in Tap Fundamentals including rhythm, clarity of sound, syncopation and weight shift. Proper execution of intermediate/advanced tap technique including step knowledge, weight distribution, and the development of rhythm and syncopation skills is emphasized. Prerequisite: Tap Fundamentals or permission of instructor. LAB.

DANC 420. Introduction to Videography and Website Design for Dance. 3 Hours H.
This is a hands-on course exploring digital video technology for dance. Students are introduced to video and website production as well as the time management skills necessary to engage the multi-faceted project that is dance video. We will cover video techniques for recording dance; video editing; collaborating with national and international sites and artists; and self-promotion and marketing strategies with video and websites. The final project will be the creation of a video website for each student. No previous video editing experience is required. Prerequisite: Basic computer literacy. LEC.

DANC 430. Dance for Children. 3 Hours.
Methods and materials for teaching creative dance and the fundamentals of dance technique to children. Lessons are prepared and tested in the classroom and then presented to elementary school children. Prerequisite: DANC 313 or consent of instructor. LEC.

DANC 440. Introduction to Classical East Indian Dance. 3 Hours AE42 / W.
Classical East Indian dance has an extensive movement vocabulary that emphasizes the coordination of rhythmic foot patterns with intricate hand gestures. Students will learn the mudras (hand gestures) and their significance and integration within each dance. Readings will include excerpts from the Natya Sastra and other treatises of East Indian dance and culture. LEC.

DANC 460. Dance History: Research and Reconstruction. 3 Hours HL AE42 / H.
Through research and reconstruction, students will examine major topics in dance history, such as the meaning and function of dance in pre-industrial societies, communal and court dance in Europe from the 14th to the 19th centuries, and the transformation and development of dance as a theatre art in the modern world. Texts by dance historians and treatises by dancing masters will be supplemented by readings from fields, such as anthropology, philosophy, art history, and literature, that indicate the different ways of approaching the history of dance. LEC.

DANC 475. Career Preparation in the Arts. 3 Hours H.
Designed to provide an overview of key areas in career preparation in the arts, including resume writing, audition skills, professional speaking, grant writing and development, publicity and marketing strategies, developing relationships with presenters and funders, and audience education. Through readings, class discussion, guest lectures with professionals, and projects based on real-life scenarios, students develop tools to further their careers in the arts. This focused study also provides individuals with the direction and means to employ their training in the field of performing arts administration and management at many different levels. This course prepares students for their entry into the professional arts marketplace. LEC.

DANC 490. Introduction to Flamenco Dance Technique. 3 Hours AE42/GE3H.
Using the basic compas (rhythmic structures) of Flamenco, we will explore the different components of flamenco dance technique: floreo (spiral
fingers), brazéo (arm movements), palmas (rhythmic hand-clapping), marcaje (marking, or movement through space), vueltas (turns) and zapateado (footwork). We will cultivate an awareness of flamenco’s unique posture, learn the structure of the different rhythmic forms and introduce the possibilities for personal expression and improvisation. LEC.

DANC 498. Directed Study in: ____. 1-3 Hours.
Investigation of a special topic or project in aesthetics, dance history, movement analysis, production, or a creative project. A maximum of six hours may be counted toward graduation. Prerequisite: At least seven hours of credit in dance courses. IND.

DANC 520. Pedagogy. 3 Hours H.
Methods and materials designed to address the needs of teaching artists across genres of dance (ballet, modern/contemporary, jazz, creative movement) among children, adults and special populations. Lessons are prepared and tested in the classroom among peers. Prerequisite: Consent of Instructor. LAB.

DANC 530. Practicum in: ____. 1 Hour.
Supervised experience in teaching beginning level dance technique in the styles of ballet, jazz, or modern dance. Different approaches are analyzed, discussed, and tested in the studio. Prerequisite: Intermediate level of dance technique in the style of the practicum. FLD.

DANC 540. Field Experience in Dance Teaching. 3 Hours.
Teaching ballet, modern, or jazz dance technique to children or adults with faculty supervision in an academic or community program. Prerequisite: Consent of instructor. FLD.

DANC 550. Senior Project. 3 Hours AE61.
In-depth research project in dance theory or history, or choreography project involving the complete development and presentation of a dance idea. Prerequisite: Performance option: DANC 320, DANC 350, DANC 290 (for BA students only) and permission of the dance division. Research option: DANC 340, DANC 370, DANC 375, DANC 460, DANC 462, DANC 290 (for BA students only) and permission of the dance division. IND.

DANC 580. Special Topics in Dance: ____. 3 Hours.
A study of current developments in dance with an emphasis on performance or research. May be repeated for credit. Prerequisite: Junior or senior standing or consent of instructor. LAB.

DANC 598. Seminar in Dance. 3 Hours.
Special studies in dance. May be repeated for credit. Prerequisite: Junior or senior standing and consent of instructor. LEC.

DANC 898. Directed Study in: ____. 1-3 Hours.
Directed study in some aspect of aesthetics, dance history, movement analysis, production, or an advanced creative project. Prerequisite: Consent of instructor. IND.

Theatre and Dance Courses

THR 100. Introduction to the Theatre. 3 Hours HL GE3H / H.
Designed to help students by means of experience with theatre as well as study about it to achieve an understanding of its cultural role in contemporary society, to develop a sensitive and informed appreciation of its art, and to make it an integral part of their cultural lives. Lectures, discussion groups, special interest groups, theatre attendance. LEC.

THR 101. Theatre Practicum I. 1 Hour H.
One crew assignment in a University Theatre Dance production qualifies for 1 credit hour. May be repeated for credit. ACT.

THR 105. Improvisation. 3 Hours H.
Designed to free the beginning actor, develop creativity and imagination. Fundamentals of improvisation technique and skills through physical work, deep listening and focus. Ensemble building emphasized with exercises and games, the work will progress to sketch writing and performance. LEC.

THR 106. Acting I. 3 Hours HL GE3H / H.
Fundamental techniques in acting. Practice in character creation, body language, and effective stage speech. LEC.

THR 111. Make-Up. 1 Hour H.
The techniques in application of make-up for specific characterizations, both straight and character. Study of the structure of the face and hands for stage make-up. Should be taken concurrently with THR 106, if possible. LEC.

THR 116. Scenographic Techniques. 3 Hours H.
Emphasis on drafting, model building, and presentational techniques for the theatrical designer or art director. Some work in computer drafting for the designer-technician. Lecture and laboratory periods. LEC.

THR 120. Public Speaking as Performance. 3 Hours GE22 / H.
This course offers students a unique embodied approach to public speaking. Students will compose and deliver presentations. Theatre games, improvisational techniques, and vocal exercises will help students gain awareness of how mind, body, and speech interrelate. Students will learn to manage performance anxiety, organize a narrative, speak extemporaneously and articulate clearly. Texts used in acting training will supplement a public speaking textbook. Through a combination of speech assignments and theatre exercises, this course will teach students to generate, explore, organize, interpret, and express ideas orally; to use language and media to express ideas clearly and confidently; and integrate body and mind to serve speaking needs in a variety of contexts and across social, cultural, and disciplinary boundaries. LEC.

THR 177. First Year Seminar: ____. 3 Hours HT GE11.
A limited-enrollment, seminar course for first-time freshmen, organized around current issues in Theatre. May not contribute to major requirements in theatre. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

THR 201. Theatre Practicum II. 1 Hour H.
One crew assignment in a University Theatre Dance production qualifies for 1 credit hour. May be repeated for credit. Prerequisite: THR 101. ACT.

THR 204. Study Abroad Topics in: ____. 1-6 Hours H.
This course is designed for the study of special topics in Theatre at the freshman/sophomore level. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

THR 206. Acting II. 3 Hours H.
The study of roles and scenes from plays. Practice in character analysis, creation of roles, rehearsal of scenes, and ensemble work. Prerequisite: THR 106. LEC.

THR 210. Musical Performance for the Actor I. 3 Hours H.
Beginning Studies in Musical Theatre Performance: practical application of voice, acting and movement techniques for musical theatre, solo and group performance. LEC.

THR 212. Beginning Voice and Speech for Actors. 3 Hours H.
A foundation course; introduction to phonetics; training in Standard American Stage Speech; articulation skills; resonance and voice placement. LEC.

THR 213. Movement I: The Acting Instrument. 3 Hours H.
A foundational course in discovering ease and efficient use of the body in a performance context, developing non-verbal communication and partnering skills, and establishing the connection of movement to voice
production. Trains actors in proper warm-up technique, alignment and balance, physical safety, and basic tumbling skills. LEC.

THR 215. Approaching Design. 3 Hours HL GE3H / H. Conceptualization and visualization of the elements involved in creative design for theatre, dance, television, and film. LEC.

THR 216. Scenic Production. 2 Hours H. Introduction to the planning, construction, and mounting of scenery for theatre, television, and film. Concentration on the technical organization of scenic production. Lecture, discussion, and laboratory periods. LEC.

THR 220. Costume Production. 2 Hours H. Introduction to techniques of costume construction, including study of fabrics, color, fundamentals of pattern making, and draping of costumes for theatre, television, and film. Concentration on the technical organization of costume production. Lecture, discussion, and laboratory periods. LEC.

THR 224. Lighting Production. 2 Hours H. Introduction to the planning and execution of lighting for theatre, television, and film. Concentration organized any given semester to study particular subject matter or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

THR 301. Theatre Practicum III. 1 Hour H. One crew assignment in a University Theatre Dance production qualifies for 1 credit hour. May be repeated for credit. Prerequisite: THR 201. ACT.

THR 302. Undergraduate Seminar in: ____. 3 Hours H. Course organized any given semester to study a particular subject matter or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

THR 303. Summer Theatre. 1-6 Hours H. Provides experience in a wide range of theatre activity related to the summer theatre production or productions. Work may include activity in the following areas: acting, directing, design, technical theatre, voice and/or movement. Specialized skills are developed through individual classes, production preparation and performance. Prerequisite: Consent of instructor. ACT.

THR 304. Study Abroad Topics in: ____. 1-6 Hours H. This course is designed for the study of special topics in Theatre at the junior/senior level. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

THR 305. Honors Seminar in: ____. 3 Hours H. Special topics seminar serving students enrolled in the University Honors Program. Course organized any given semester to study a particular subject matter or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Prerequisite: Students must be enrolled in the University Honors Program. LEC.

THR 306. Acting III. 3 Hours H. Advanced projects in acting. Character and scene analysis, scoring the role, rehearsal, and performance. Prerequisite: THR 206. LEC.

THR 307. Undergraduate Theatre Internship. 1-3 Hours AE61 / H. Supervised study with an approved theater company or project. May be repeated for credit. No more than six hours may be applied to the B.A. or B.G.S. degrees. Prerequisite: Consent of instructor and at least seven hours credit in the department. INT.

THR 308. Script Analysis. 3 Hours H. This course provides knowledge and methods enabling students to conduct in-depth study of dramatic scripts. Emphasis is given to the analysis skills appropriate to practitioners of stage and screen arts. LEC.

THR 310. Musical Performance for the Actor II. 3 Hours H. Intermediate Studies in Musical Theatre Performance: practical application of voice, acting and movement techniques for musical theatre, solo and group performance. Prerequisite: THR 106 and THR 210. LEC.

THR 312. Acting with an Accent. 3 Hours H. A performance class for actors using monologues and scenes involving the use of accents and dialects. The course will also provide instruction in many of the most used American regional, British regional dialects, and foreign language accents. Prerequisite: THR 212, or by permission of instructor after the student demonstrates an ability in the International Phonetic Alphabet. LEC.

THR 313. Movement II: Physical Characterization. 3 Hours H. The study of diverse physical acting techniques, and an investigation into creating a character through manipulation of the acting instrument. Actor training in performance neutrality, mask work, age, and gender distinctions. Prerequisite: THR 213 and permission of instructor. LEC.

THR 316. Beginning Scene Design. 3 Hours H. Study of scenic design process with beginning problems in textual analysis, style, historical research, and preliminary and finished methods of design presentation. Concentration on developing fundamental design skills and awareness. Prerequisite: THR 116 and THR 215, or permission of instructor. LEC.

THR 320. Beginning Costume Design. 3 Hours H. Study of the costume design process with beginning problems in textual analysis, style, historical research, and preliminary and finished methods of design presentation. Concentration on developing fundamental design skills and awareness. Prerequisite: THR 215. LEC.

THR 324. Beginning Lighting Design. 3 Hours H. Study of the lighting design process with beginning problems in textual analysis, style, historical research, with preliminary and finished methods of design presentation. Concentration on developing fundamental design skills and awareness. Prerequisite: THR 116 and THR 215, or permission of instructor. LEC.

THR 326. African Theatre and Drama. 3 Hours NW / H/W. A study of the origin and development of continental African theatre and its affinity to the Levant. Traditional, colonial and contemporary dramatic theories and experiments will be examined in play selections. (Same as AAAS 355.) LEC.

THR 327. African-American Theatre and Drama. 3 Hours AE41 / H. A historical study of Black Theatre in the U.S.A. from its African genesis to its contemporary Americaness. Epochs in African-American dramaturgy will be critically examined. (Same as AAAS 356.) LEC.

THR 334. Introduction to African Dance Theatre. 2 Hours NW / U. An introduction to the general techniques of non-verbal theatrical conventions in African cultures. Practical training in movement vocabulary will be supplemented by lectures on the "text" of performance. (Same as AAAS 334 and DANC 334.) LEC.

THR 380. Popular Culture: _____. 3 Hours HL GE3H / H. Interdisciplinary examination of popular culture oriented around a specific genre or theme. Objects of study may include popular forms of live performance such as musicals or vaudeville, as well as media-based performances (radio, television, film, internet). Specific topic to be studied changes as needs and resources develop. May be repeated for credit for different topics. LEC.
THR 401. Stage Management and Assistant Direction. 1 Hour H.
Majors are assigned to stage manage or assistant direct a University Theatre production, or to take related workshops in stage management or assistant directing. May be repeated for credit ACT.

THR 404. Children and Drama. 3 Hours HL / H.
Exploration of forms, methods, and materials appropriate for development of elementary-age children in dramatic arts. LEC.

THR 405. Children and Media. 3 Hours H.
The applied study of child development theories and research methods on the influences and effects of television and related visual media on childhood in the contexts of families, schools, and society. (Same as ABSG 405 and PSYC 405.) LEC.

THR 406. Audition Techniques. 3 Hours H.
This course prepares students for all types of audition experiences. It includes study in techniques of prepared auditions, cold readings, interviews, and the musical audition for actors. Emphasis is placed upon developing resumes and photo portfolios as well as concentrated study in professional contracts, unions, and agent acquisition. Prerequisite: THR 206. LEC.

THR 407. Advanced Acting Special Topic: _____ . 3 Hours.
This course is designed for the study of special topics in performance techniques involving advanced skills for the actor at the junior/senior level. Specific topic to be studied changes as needs and resources develop. May be repeated for credit for different topics. Prerequisite: THR 306. Theatre major or minor students. LEC.

THR 410. Musical Performance for the Actor III. 3 Hours H.
Advanced Studies in Musical Theatre Performance: practical application of voice, acting and movement techniques for musical theatre, solo and group performance. Prerequisite: THR 106, THR 210, and THR 310. LEC.

THR 413. Stage Combat Skills. 3 Hours U.
Study of the illusion of violence in a dramatic context and the special skills necessary for creating believable and safe stage fights. Actor training in armed and unarmed combat, including one or more of the following: rapier and dagger, broadsword, and quarter staff. Prerequisite: THR 313 and permission of instructor. LEC.

THR 416. Design Forum. 3 Hours U.
Depending on student qualifications and specialization, focus is on scenic, costume, and/or lighting design. Special attention placed on developing collaborative awareness and the conceptual and presentation skills that underlie and inform the design process. Prerequisite: THR 316 or THR 320 or THR 324. LEC.

THR 429. Postcolonial Theatre and Drama. 3 Hours NW AE42/GE3H / H.
The course develops an understanding of the postcolonial concept and its different manifestations in theatre and drama across nations and cultures. It approaches postcolonialism as a way of reading theatre, and as a genre within theatre by exploring how the "colonial project" has reconfigured the concept, content, and context of theatre in both colonized and colonizing cultures. In addition to the study of postcolonial playwrights and their works, the course is also an introduction to postcolonial theory and its critics. (Same as AAAS 429.) LEC.

THR 445. Teaching Theatre in the Middle/Secondary Schools. 3 Hours H.
Study of philosophy and methods appropriate to teaching improvisation, acting, stagecraft, directing, playwriting, dramatic literature, and theatre history in middle/secondary schools. Includes curriculum development, instructional and evaluative strategies, and management of co-curricular theatre programs. Prerequisite: Consent of instructor. LEC.

THR 498. Honors Directed Study in Theatre. 3 Hours AE61 / H.
Individual creation of an original product that integrates theatre knowledge and skills. Selected in advance with advice, approval, and supervision by an instructor. Prerequisite: Consent of instructor, senior level status, and 3.5 GPA in Theatre and 3.25 GPA overall at the time of enrollment. IND.

THR 499. Directed Study in Theatre. 3 Hours AE61 / H.
Individual creation of an original product that integrates theatre knowledge and skills. Selected in advance with advice, approval, and supervision by an instructor. Prerequisite: Consent of instructor and junior or senior level status. IND.

THR 506. Acting for the Camera. 3 Hours H.
A study of acting techniques appropriate to the requirements of the camera. Emphasis is placed on developing audition skills necessary to compete for roles in dramatic features, corporate videos, and commercials. Actors acquire skills essential to the transition from stage to camera. Prerequisite: Permission of instructor. LEC.

THR 507. Acting Professionally. 3 Hours.
This course prepares students for entering the world of professional acting. It includes study in audition techniques such as prepared auditions, cold readings, interviews, and musical auditions. Emphasis is placed on developing portfolios as well as acquainting students with professional contract, unions, and agents and other aspects of the profession. Open to theatre major and minor students. Prerequisite: THR 306. LEC.

THR 508. Fundamentals of Directing. 3 Hours H.
Offered as a first course in play directing. Designed primarily for theatre majors and secondary education majors in language arts with a theatre and drama concentration. The content is principally descriptive in nature with some practical experience. Lecture and laboratory periods. Prerequisite: THR 308. LEC.

THR 509. Dramatic Script Writing. 3 Hours H.
Study and practice in the fundamental techniques of dramatic writing and the application of such techniques most specifically to theatre. Open upon consent of instructor to students who have completed one course in advanced composition and one course in the theory or history of drama. LEC.

THR 512. A Vocal Approach to the Classics. 3 Hours H.
This is an advanced voice and speech course for actors aiming to further increase their command over tone, rhythm, pacing, and diction. Their range and power will be extended. Through discovery of the demands of a variety of classical texts, the actor will be challenged both in verse and in prose to develop the skills necessary to fully interpret that material. Prerequisite: THR 212. LEC.

THR 516. Scenic Painting Techniques. 3 Hours H.
Study of painting equipment, tools, pigments, binders, and vehicles, and their relationship to the surfaces to be painted. Instruction in basic painting techniques. Prerequisite: THR 116 and THR 215. LEC.

THR 517. Computer-Aided Design. 3 Hours U.
Study of new media in theatre and film/video production, primarily computer technologies and methods for the theatrical designer or art director. Emphasis on computer 3-D modeling and color rendering. Prerequisite: THR 116, THR 215, or permission of instructor. LEC.

THR 518. Scenography and the Classic Script. 3 Hours H.
Holistic production design, including lighting, scenery, and costumes, for classic theatre scripts. Contrasts historical styles of production with styles for contemporary spaces and audiences. Projects tailored to the needs and level of the students. This course is offered at the 500 and 700 level...
THR 519. Scenography and the Modern Script. 3 Hours H.
Holistic production design, including lighting, scenery, and costumes, for modern theatre scripts. Examines modern styles of production. Projects tailored to the needs and level of the students. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in THR 721. Prerequisite: Consent of instructor. LEC.

THR 520. History of Period Style I. 3 Hours H.
A survey of Western style from ancient Egypt to the Restoration. Focus is placed on developing a comprehensive understanding of the stylistic relationships between art, architecture, clothing, decor, manners, and social and political history. Prerequisite: Nine hours in theatre/design/technical courses or consent of instructor. LEC.

THR 521. History of Period Style II. 3 Hours H.
Continuation of THR 520, from the Restoration to the present day. Prerequisite: Nine hours in theatre/design/technical courses or consent of instructor. LEC.

THR 525. History of Theatre. 3 Hours H.
Study of developments in world theatre and drama from the ancient world to the eighteenth century. Prerequisite: THR 308. LEC.

THR 526. History of Theatre II. 3 Hours H.
Study of developments in world theatre and drama since the eighteenth century. Prerequisite: THR 308. LEC.

THR 527. Asian Theatre and Performance. 3 Hours NW / H/W.
A survey of traditional and modern theatre and performance in Asia, with greatest attention given to India, China, and Japan. A study of plays, dramatic genres, history, conventions of play production, acting styles and other performance forms. LEC.

THR 528. History of U.S. Theatre and Drama. 3 Hours H.
Historical approach to the development of theatre and performing arts in the United States. Prerequisite: THR 308. LEC.

THR 529. Race and the American Theatre. 3 Hours U.
The representation(s) of race in significant texts and performance styles in American theatre analyzed according to political ideologies, dramatic movements and the impact of these factors on the representation of the "other" in the theatre. (Same as AAAS 585 and AMS 529.) LEC.

THR 550. Applied and Interactive Theatre. 3 Hours H.
This course is an exploration of interactive drama techniques and practices of the evolving field of applied theatre. The tools of applied theatre serve varied purposes and are being used around the world for community-building, personal empowerment, to address social and political issues, and to strengthen communication skills. The class will work specifically on community-based dialogue and classroom situations that students and professors encounter in their daily lives. LEC.

THR 560. Collaborative Production. 3 Hours AE61 / H.
Seniors collaborate as a theatre company to create an original production that integrates several of the following areas: improvisation, playwriting, acting, directing, dramaturgy, design, technical production, and stage management. Collaboration of group project approved in advance with advice, approval, and supervision by at least one instructor. Prerequisite: Senior level and consent of at least one instructor. IND.

THR 599. Special Topics in Scenography. 1-6 Hours U.
Individual studio activity. Course content to be determined by the student under the supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: Permission of instructor. IND.

THR 603. Theatre for Young Audiences. 3 Hours U.
A survey of theories, history, literature, criticism, production methods, and audience research about theatre performed by adults for children and adolescents. Emphasis is on child development and community outreach. Prerequisite: THR 308 or consent of instructor. LEC.

THR 604. Drama with Young People. 1-3 Hours U.
A laboratory experience in developing and conducting improvisational drama workshops with children or adolescents in local schools. Includes readings by leading theorists and practitioners. Prerequisite: Actors cast in current KU Theatre for Young People production, or THR 404, or consent of instructor. LEC.

THR 617. Computer-Aided Design II. 3 Hours U.
Continuation of THR 517. Emphasis on computer-generated images as scenic media in production situations. Prerequisite: THR 517, or permission of instructor. LEC.

THR 618. Scenography and the Musical Theatre. 3 Hours H.
Holistic production design, including lighting, scenery, and costumes, for musical theatre, opera, and dance. Examines development and changes in design styles in the evolution of musical theatre, opera, and dance and the special requirements of these forms. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 820. Prerequisite: Consent of instructor. LEC.

THR 619. Scenography and the Contemporary Script. 3 Hours H.
Holistic production design, including lighting, scenery, and costumes, for contemporary scripts. Examines contemporary episodic scripts written for the stage that are based on a filmic structure, the special problems of these kinds of scripts, and the respective problems of designing for theatre and film. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 821. Prerequisite: Consent of instructor. LEC.

THR 620. Scenography and the Experimental Production. 3 Hours H.
Holistic production design, including lighting, scenery, and costumes, for experimental scripts/scenarios. Examines experimental approaches to a variety of script/scenarios, including mixed-media production. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 822. Prerequisite: Consent of instructor. LEC.

THR 626. Myth and the Dramatist. 3 Hours U.
This seminar critically explores myths in dramatic literature from ancient to contemporary times, using select authors from different cultures. Analysis of the works will be based on both conventional and post-structuralist theories and specific emphasis will be on myths that have been adapted cross-culturally and/or in different time perspectives. LEC.

THR 702. Graduate Seminar in: ______. 3 Hours.
Course organized any given semester to study particular subject matter or to take advantage of special competency by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

THR 703. Directed Readings in Theatre. 1-3 Hours.
Research reading and presentation of reports on specific subjects related to the students major area of specialization. May be repeated up to a total of six credits on petition. Required of all MFA Scenography students. IND.
THR 704. Study Abroad Topics in: ______. 1-6 Hours.
This course is designed for the study of special topics in Theatre. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

THR 707. Theatre Internship. 3-12 Hours.
Study with an approved theatre company. Emphasis may be in one or all of the following areas: acting, directing, stage management, technical theatre, promotion management. No more than six hours may be applied to an M.A. degree. Course will be graded satisfactory/unsatisfactory. Prerequisite: Consent of instructor. INT.

THR 710. The Art of Directing. 3 Hours.
Offered as an advanced course in play directing. Theory is combined with practical application to explore the craft of directing using a variety of styles in classic and contemporary theatre. Lecture and laboratory periods. LEC.

THR 715. Problems and Techniques of Direction. 3 Hours.
Practical experience in directing. Prerequisite: THR 710. RSH.

THR 719. M.F.A. Production Seminar. 3 Hours.
To be taken by M.F.A. candidates during those semesters in which they are assigned to design one or more elements in a production to be mounted on one of our stages. Weekly critique and discussion of solutions to practical design problems from conception through execution. May be repeated for a total of no more than six hours credit. Prerequisite: Consent of instructor. IND.

THR 720. Scenography and the Classic Script. 3 Hours.
Holistic production design, including lighting, scenery, and costumes, for classic theatre scripts. Contrasts historical styles of production with styles for contemporary spaces and audiences. Projects tailored to the needs and level of the students. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in THR 518. Prerequisite: Consent of the instructor. LEC.

THR 721. Scenography and the Modern Script. 3 Hours.
Holistic production design, including lighting, scenery, and costumes, for modern theatre scripts. Examines modern styles of production. Projects tailored to the needs and level of the students. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in THR 519. Prerequisite: Consent of instructor. LEC.

THR 725. Russian Theatre and Drama from Stanislavski and Chekhov to the Present. 3 Hours.
A study of the development of Russian theatre and dramatic literature from 1898 to the present. Lectures and readings in English. (Same as SLAV 762.) LEC.

THR 800. Introduction to Graduate Study in Theatre. 3 Hours.
Major emphasis is placed upon the principles of research, bibliographical data, and research methods useful in theatre and performance studies. The course should be taken at the beginning of the graduate student's program. LEC.

THR 801. Professional Development Seminar. 1-3 Hours.
Preparation for faculty careers in theatre and related fields, including issues of research, teaching, and service. At least three hours per semester will be devoted to training in responsible scholarship. May be repeated for credit. RSH.

THR 803. Summer Theatre: Graduate. 1-3 Hours.
Provides graduate level experience in a wide range of theatre activity related to the summer theatre production or productions. Work may include activity in the following areas: acting, directing, design, technical theatre, voice and/or movement. Specialized skills are developed through individual classes, production preparation, and performance. Prerequisite: Consent of instructor. FL.D.

THR 815. Advanced Play Production. 1-3 Hours.
Individually supervised directing of theatre pieces for public presentation. In special cases credit may be given for musical direction, choreography, or stage management. Prerequisite: THR 715. FL.D.

THR 817. Theory of Acting and Directing. 3 Hours.
Readings, lectures, discussions and papers on acting and directing theory; is concerned with the divergence between presentational and representational acting methods and the emergence of directing art. Prerequisite: THR 710 or THR 715. LEC.

THR 819. Advanced M.F.A. Production Seminar. 3 Hours.
Continuation of THR 719, but production design assignments will be more complex and larger in scope. May be repeated for maximum of six hours credit. Prerequisite: Six hours of THR 719 and consent of instructor. IND.

THR 820. Scenography and the Musical Theatre. 3 Hours.
Holistic production design, including lighting, scenery, and costumes, for musical theatre, opera, and dance. Examines developments and changes in design styles in the evolution of musical theatre, opera, and dance and the special requirements of these forms. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 618. Prerequisite: Consent of instructor. LEC.

THR 821. Scenography and the Contemporary Script. 3 Hours.
Holistic production design, including lighting, scenery, and costumes, for contemporary scripts. Examines contemporary episodic scripts written for the stage that are based on a filmic structure, the special problems of these kinds of scripts, and the respective problems of designing for theatre and film. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 619. Prerequisite: Consent of instructor. LEC.

THR 822. Scenography and the Experimental Production. 3 Hours.
Holistic production design, including lighting, scenery, and costumes, for experimental scripts/scenarios. Examines experimental approaches to a variety of script/scenarios, including mixed-media production. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 620. Prerequisite: Consent of instructor. LEC.

THR 826. Seminar in African Theatre. 3 Hours.
A study of developments in African theatre in the 20th Century focusing on themes, concepts, styles, and critical perspectives. The course will investigate the idea of an "African theatre" and identify different periods and movements within national and international contexts. The analysis of representative works and authors will be grounded within appropriate theoretical frameworks. LEC.

THR 828. Seminar in American Theatre and Drama. 3 Hours.
Intensive investigation of selected topics. Individual study emphasized. LEC.

THR 898. Investigation and Conference (for Master's Students). 1-8 Hours.
Directed research and experimentation in theatre. Limited to eight hours credit toward the Master's degree. RSH.

THR 899. Master's Thesis. 1-6 Hours.
THE.
THR 901. Theatre Seminar in: _____ . 3 Hours.
A graduate seminar devoted to selected historical, theoretical, or critical issues in theatre. Prerequisite: Consent of instructor. LEC.

THR 914. Theories of Race and Performance. 3 Hours.
Theories of Race and Performance is an inter-textual graduate course that explores interdisciplinary scholarship on race and performance. It seeks to translate these theories into practical application in various visual, audio and performance texts in popular culture. The course is divided into modules aimed at gaining an understanding of the shifting meaning of race over time and its relationship to ethnicity, gender, sexuality, class, nation, and power. How do we perform our identities? How is race constructed and maintained through performance? To begin to answer these questions, we will examine the ways in which racial identities are created through performance. SEM.

THR 915. Modern Theatre and Drama. 3 Hours.
A study of the movements in playwriting and theatrical production in Europe and America from the mid-19th century to World War II. Prerequisite: THR 525 and THR 526 or comparable courses. LEC.

THR 916. Postmodern Theatre and Drama. 3 Hours.
A study of developments in Europe and American playwriting, directing, acting, and design from World War II to the present. SEM.

THR 917. Dramatic Theory I. 3 Hours.
A survey of dramatic theory from Plato to Lessing. LEC.

THR 919. Dramatic Theory Seminar. 3 Hours.
Study in depth of selected theorists. Offered as determined by faculty availability and student interest. LEC.

THR 920. Practicum in Criticism. 3 Hours.
Contemporary approaches to theatre and drama criticism. Emphasis on actual practice, using a variety of critical methods. FLD.

THR 922. Theatre Historiography. 3 Hours.
This course focuses on the advanced study of research methods, subjects, interpretative paradigms, theoretical frameworks, and philosophies of history employed in contemporary approaches to writing and teaching theatre history. Prerequisite: THR 525 and THR 526 or equivalent. LEC.

THR 998. Investigation and Conference (for Doctoral Students). 1-8 Hours.
RSH.

THR 999. Doctoral Dissertation. 1-12 Hours.
THE.

Visual Art Courses

ART 101. Drawing I. 3 Hours GE3H / H.
Introductory study of Drawing with emphasis on tools, techniques and observational development. Studio class includes intensive in-class exercises, lectures, images, and assignments. Students develop a formal fine arts vocabulary and gain verbal and written skills in critical analysis through individual and group critiques. Six hours scheduled studio activity and approximately six hours outside work weekly. Prerequisite: Must be a major or minor in the Department of Visual Art or receive instructor permission. LAB.

ART 102. Drawing II. 3 Hours H.
Continuation of ART 101: Drawing I. Prerequisite: ART 101 or instructor permission. LAB.

ART 103. Art Concepts and Practice. 3 Hours H.
A companion course to ART 104. Lecture and studio experiences across disciplines emphasizing conceptual fundamentals, technical/skill development, visual sensibility, critical thinking and professional topics in art. Prerequisite: Must be a major or minor in the Department of Visual Art or receive instructor permission. LEC.

ART 104. Art Principles and Practice. 3 Hours H.
A companion course to ART 103. Lecture and studio experiences across disciplines emphasizing conceptual fundamentals, technical/skill development, visual sensibility, critical thinking and professional topics in art. Prerequisite: Must be a major or minor in the Department of Visual Art or receive instructor permission. LEC.

ART 105. Visual Art Seminar. 1 Hour.
An introduction to campus and community resources for students interested in Visual Arts. Resources in the Department, the University and the larger community will be discussed and explored. LEC.

ART 120. Fundamentals of Painting. 3 Hours.
Open to all university students. An exploration of basic technical and expressive possibilities in painting. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 121. Fundamentals of Printmaking. 3 Hours.
Open to all university students. An exploration of basic technical and expressive possibilities in printmaking, including woodcut, etching, lithography and silk screen; may include field trips, films, visiting lecturers. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 122. Fundamentals of Sculpture. 3 Hours.
Open to all university students. Specifically for students with limited or no previous experience. An exploration of basic technical and expressive possibilities in three-dimensional form and space, including sculpture, modeling, carving, and construction; materials include wood, stone, clay, metal; may include field trips, films, visiting lecturers. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 123. Fundamentals of Expanded Media. 3 Hours GE3H / U.
Open to all university students. An exploration of basic technical and expressive possibilities in Expanded Media, including Installation, Performance, Video and other Digital technologies; may include field trips, films, and/or visiting lecturers. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 130. Fundamentals of Fiber Forms. 3 Hours U.
Open to all university students. Studio exploration of fibers as an art form and means of personal expression. Emphasis is placed on three-dimensional objects. A variety of interlacement, construction, and dye techniques are introduced. LAB.

ART 131. Fundamentals of Ceramics. 3 Hours.
Open to all university students. An introduction to ceramic techniques and conceptual development. The course will investigate historical and contemporary ceramic art, develop skills in wheel throwing, hand-building, glazing, clay-mixing, and firing. Through practice and research, students will build an integrated understanding of ceramics as a continuum of cultural expression. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 132. Fundamentals of Metalsmithing/Jewelry. 3 Hours GE3H.
Open to all university students. A comprehensive study of the field of jewelry and metalsmithing with an emphasis on the tools, processes, and techniques used in the design and fabrication of objects from metals such as aluminum, brass, copper, bronze, sterling and related materials. Studio experience will include lectures, slide presentations, demonstrations, visiting artist, and student projects. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.
ART 133. Fundamentals of Fibers. 3 Hours GE3H / U.
Open to all university students. Studio exploration of fibers as an art form and means of personal expression. A variety of dyeing, construction, and surface embellishment techniques will be introduced. Six hours scheduled studio activity and approximately six hours outside work weekly.

ART 177. First Year Seminar: ______. 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Art. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

ART 201. Color Theory. 3 Hours.
An introduction to the basic color theories and their application. Presentation of the relationship between pigment and light, and of additive and subtractive color mixing. Prerequisite: ART 101, and ART 103 or ART 104. LAB.

ART 300. Special Topics in Visual Art: ______. 3 Hours.
Course to be offered in related areas of research, mixed media or interdisciplinary exploration. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. This course is offered at the 300 and 500 levels, with ART 500 serving as a continuation of study in the topic area. Prerequisite: ART 101, ART 102, ART 103, or ART 104; or permission of instructor. LAB.

ART 305. Visual Language. 3 Hours H.
This course explores visual language and its relationship to cultural meaning. We examine the ways that cultural experience both influences and is influenced by artistic expression. An investigation of artistic practice and its basic elements and principles is used to demonstrate the connections between visual perception and the interpretation of visual experience. Examples from the arts and popular culture are used to illustrate the ways that we create meaning from the things we see. This course is open to all university students. Prerequisite: ENGL 101 and ENGL 102 or equivalent, or completion of the KU Core Written Communication requirements (Goal 2.1). LEC.

ART 375. Directed Readings in Visual Art. 1-3 Hours U.
Directed reading in specific areas of visual art. May be repeated for credit in subsequent semesters. Prerequisite: Permission of instructor. IND.

ART 395. Study Abroad Topics in: ______. 1-6 Hours H.
This course is designed for the study of special topics in Visual Art. Credit for course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. Open to seniors and graduate level students. LEC.

ART 400. Advanced Special Topics in Visual Art: ______. 3 Hours.
Course to be offered in related areas of research, mixed media or interdisciplinary exploration. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. This course is offered at the 300 and 500 levels, with ART 500 serving as a continuation of study in the topic area. Prerequisite: ART 101, ART 102, ART 103, or ART 104; and ART 300 (same topic), or permission of instructor. LAB.

ART 500. Advanced Special Topics in Visual Art. 1-3 Hours.
Directed reading in specific areas of visual art. May be repeated for credit in subsequent semesters. Prerequisite: Permission of instructor. LEC.

ART 590. Internship in Visual Art. 1-3 Hours U.
Practical experience in the use of artistic skills in approved and supervised academic or professional settings. May be repeated for credit; no more than six hours may be applied to the B.A. or B.F.A. degree. Credit hours are graded on a satisfactory/unsatisfactory basis, according to the written recommendation provided by the internship supervisor to the faculty advisor. Prerequisite: ART 101, ART 102, ART 103, or ART 104; and permission of instructor. INT.

ART 595. Advanced Study Abroad Topics in: ______. 1-6 Hours H.
This course is designed for the study of special topics in Visual Art at the senior/graduate level. Credit for course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. This course will be counted as free electives in course distribution. Prerequisite: Eighteen hours of departmental electives. LEC.

Individual studio activity. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 101, ART 102, ART 103, or ART 104; and twelve hours of Visual Art courses; and permission of instructor. IND.

ART 650. Senior Seminar I. 3 Hours H.
This course explores issues and themes in creative practice while critically examining works of visual art and culture; capstone experience. Concurrent enrollment in at least one upper level Visual Art studio course is required. Typically taken during a student's final two semesters. Prerequisite: 30 hours of departmental electives and instructor permission. Corequisite: Any 300 level or above Visual Art studio course. SEM.

ART 660. Senior Seminar II. 3 Hours AE61 / H.
Continuation of ART 650; capstone experience. Participation in BFA exhibition required. Concurrent enrollment in at least one upper level Visual Art studio course is required. Prerequisite: ART 650 and instructor permission. Corequisite: Any 300 level or above Visual Art studio course. LEC.

ART 695. Directed Study I. 3 Hours.
Individual studio activity under direction of faculty advisor; capstone experience. Prerequisite: Thirty hours of departmental electives, consent of department, and permission of instructor. IND.

ART 696. Directed Study II. 3 Hours AE61.
Continuation of ART 695; capstone experience. May be repeated for credit in subsequent semesters. Prerequisite: ART 695. IND.

ART 801. Directed Study III. 2-5 Hours.
Individual studio activity under the direction of faculty member. May be repeated for credit in subsequent semesters. Prerequisite: Permission of graduate director and enrollment in the Visual Art MFA program. RSH.

ART 802. Directed Study IV. 2-5 Hours.
Continuation of Directed Study III. Prerequisite: Enrollment in the Visual Art MFA Program. RSH.

ART 803. Directed Study V. 2-5 Hours.
Continuation of Directed Study IV. Prerequisite: Enrollment in the Visual Art MFA Program. RSH.
ART 805. Graduate Studio. 1-3 Hours.
Individual graduate studio research in visual art. Course content to be determined by the student under the supervision of a graduate faculty member. May be repeated for credit. Prerequisite: Graduate standing in The School of The Arts and permission of the instructor. RSH.

ART 861. Directed Reading in Visual Art. 1-3 Hours.
Research reading and presentation of reports on specific subjects related to the student's major area of specialization. Prerequisite: Enrollment in the MFA Program in the Department of Visual Art. RSH.

ART 877. Graduate Seminar. 3 Hours.
The graduate seminar emphasizes professional preparation for contemporary artists focusing on writing skills, oral presentations, critiques of individual creative research/artwork, critical thinking about and visual analysis of current art forms and contemporary approaches to the teaching of studio art. Prerequisite: Admission to the Graduate Program in Visual Art. SEM.

ART 898. Special Topics: Studio Theory and Criticism. 3 Hours.
Lecture, discussion, and supervised research in current topics related to contemporary studio theory and criticism. May be repeated for credit as topics vary. This course will be counted as a graduate level academic elective in course and credit distribution. LEC.

ART 899. Graduate Seminar. 1 Hour.
Weekly discussion of issues and/or work in art. (Graded on a satisfactory/ F basis.) Repeat for credit in subsequent semesters. SEM.

ART 906. Graduate Studio. 1-3 Hours.
Individual graduate studio research in visual art. Course content to be determined by the student under the supervision of a graduate faculty member. May be repeated for credit. Prerequisite: ART 805 and permission of the instructor. RSH.

Original research in visual art culminating in a thesis exhibition. May be repeated for credit. Graded on a satisfactory progress/limited progress/no progress basis. Prerequisite: Thirty-six credit hours of graduate credit and permission of the graduate review committee. THE.

Visual Art Courses

CER 208. Ceramics I. 3 Hours.
The development of form and surface through the use of handbuilding and wheel thrown techniques. Stoneware and Raku are explored. LAB.

CER 300. Special Topics in Ceramics: ______. 1-4 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: Thirty-six credit hours of graduate credit and permission of the graduate review committee. THE.

CER 301. Concepts and Methods: Wheel Throwing. 3 Hours.
Intermediate ceramics course focusing on the potters’ wheel as a tool. Coursework focuses on throwing skills and three-dimensional design concepts related to the functional ceramic vessel, wheel thrown sculpture, and creative problem-solving. Technical information supports an understanding of forming, surface development, glazing, and firing. Prerequisite: ART 131 or CER 208. LAB.

CER 302. Concepts & Methods: Hand Building. 3 Hours.
Intermediate ceramics course using hand-building techniques and processes supported by design and idea development. Techniques will include press molding, slab construction and coil-building, color and surface development through glazing and firing. Emphasis is placed on creative expression and communication of personal ideas. Prerequisite: ART 131 or CER 208. LAB.

CER 402. Mold Making and Slip Casting. 3 Hours.
Intermediate ceramics course focusing on the production of plaster molds and the slipcasting process. Students will make molds and prototypes, produce porcelain casting slip, and develop strategies in casting as well as consider the use of the slipcasting technique as a conceptual tool. Undergraduate students who wish to take this for a second/continuing semester should enroll in CER 502. Prerequisite: ART 131 or CER 208. LAB.

CER 403. Advanced Topics in Ceramics. 3 Hours.
Advanced ceramics course using traditional and non-traditional approaches to ceramic art-making. Topics may include: wood firing, ephemeral art, large-scale sculpture, and/or digital technologies. This course can be repeated if topic varies. If same topic is repeated, students should enroll in CER 503. Prerequisite: CER 301 or CER 302 or permission of instructor. LAB.

CER 500. Advanced Special Topics Ceramics: ______. 1-4 Hours U.
Course to be offered in an area of specific interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. This course is offered at the 300 and 500 levels, with CER 500 serving as a continuation of study in the topic area. Prerequisite: ART 101, ART 102, ART 103, or ART 104; and CER 300 (same topic), or permission of instructor. LEC.

CER 502. Advanced Mold Making and Slip Casting. 3 Hours.
Advanced ceramics course focusing on the production of plaster molds and the slipcasting process. Students will make molds and prototypes, produce porcelain casting slip, and develop strategies in casting as well as consider the use of the slip-casting technique as a conceptual tool. Prerequisite: ART 131 or CER 208, and CER 402. Graduate students may enroll without prerequisites by instructor permission. LAB.

CER 503. Advanced Topics in Ceramics. 3 Hours.
Advanced ceramics course using traditional and non-traditional approaches to ceramic art-making. Topics may include: wood firing, ephemeral art, large-scale sculpture, and/or digital technologies. This course is intended as a continuation for a specific topic course in CER 403. Graduate students should enroll in CER 503 with no prerequisite required. Prerequisite: CER 301 or CER 302, CER 403, or permission of instructor. LAB.

CER 504. Kilns. 3 Hours.
The principles in kiln design, including up-draft, down-draft, cross-draft, and electric kilns, and burner technology. Prerequisite: ART 131, or CER 208, or CER 301, or permission of instructor. LEC.

CER 505. Clay and Glaze Formulation. 3 Hours.
Formulation of the various clay bodies and glazes associated with ceramics. Prerequisite: ART 131, or CER 208, or CER 301, or permission of instructor. LEC.

CER 506. Production. 6 Hours.
Procedures, techniques, problems, and solutions for setting up and operating a production pottery studio, including the development of ceramic forms and glazes related to marketability and design and mold production for industry. May be repeated for credit. Prerequisite: CER 301 and CER 302. LAB.

CER 510. History of Ceramics. 3 Hours.
This course examines historical ceramics across the globe. Emphasis will be placed on the development and transmission of design, materials, and technique across various traditions. This course number is intended for undergraduate students. Graduate students should enroll in CER 710
History of Ceramics. Prerequisite: CER 131 or CER 208, or permission of instructor. LEC.

CER 515. Advanced Ceramics I. 3-6 Hours AE61.
Development of individual direction in ceramics based on experience, research, and skills acquired in previous courses; capstone experience. May be repeated for credit. Prerequisite: CER 301 and CER 402. LAB.

CER 520. Advanced Ceramics II. 3-6 Hours AE61 / U.
Continuation of CER 515; capstone experience. May be repeated for credit. Prerequisite: CER 515. LAB.

CER 590. Internship in Ceramics. 1-3 Hours U.
Practical experience in the use of artistic skills in approved and supervised academic or professional settings. May be repeated for credit; no more than six hours may be applied to the B.A. or B.F.A. degree. Credit hours are graded on a satisfactory/unsatisfactory basis, according to the written recommendation provided by the internship supervisor to the faculty advisor. Prerequisite: ART 102, ART 103, and ART 104; and fifteen hours of Visual Art courses; and permission of instructor. INT.

CER 599. Individual Studies in Ceramics. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Ceramics courses or permission of instructor. IND.

CER 710. History of Ceramics. 3 Hours.
This course examines historical ceramics across the globe. Emphasis will be placed on the development and transmission of design, materials, and technique across various traditions. This course is for Graduate students. Undergraduate students should enroll in CER 510 History of Ceramics. LEC.

CER 715. Ceramics. 2-6 Hours.
Individual research. Prerequisite: CER 515 or equivalent. RSH.

CER 725. Glass. 2-6 Hours.
Individual research. Prerequisite: Approval of instructor. RSH.

CER 815. Ceramics. 2-6 Hours.
Continuation of CER 805. RSH.

CER 825. Glass. 2-6 Hours.
Individual research. Prerequisite: Approval of instructor. RSH.

Visual Art Courses

DRWG 203. Drawing III. 3 Hours.
Advanced problems in drawing. Prerequisite: ART 102. LAB.

DRWG 213. Life Drawing I. 3 Hours.
Figure drawing. Prerequisite: ART 102 and ART 103 or ART 104. LAB.

DRWG 300. Special Topics in Drawing: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LAB.

DRWG 304. Drawing IV. 3 Hours.
Continuation of DRWG 203. Prerequisite: DRWG 203. LAB.

DRWG 314. Life Drawing II. 3 Hours.
Continuation of DRWG 213. Prerequisite: DRWG 213. LAB.

DRWG 318. Life Drawing II, Honors. 3 Hours.
Figure drawing, a continuation of DRWG 213. Prerequisite: DRWG 213; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

DRWG 335. Special Topics in Drawing: ______. 3 Hours.
Course to be offered in an area of special interest to individual faculty, and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: DRWG 203, or DRWG 213, or permission of instructor. LAB.

DRWG 500. Advanced Special Topics in Drawing: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Drawing courses, or permission of instructor. LAB.

DRWG 505. Drawing V. 3 Hours.
Continuation of DRWG 304. Prerequisite: DRWG 304. LAB.

DRWG 506. Drawing VI. 3 Hours.
Continuation of DRWG 505. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 505. LAB.

DRWG 515. Life Drawing III. 3 Hours.
Continuation of DRWG 314. Prerequisite: DRWG 314. LAB.

DRWG 516. Life Drawing IV. 3 Hours.
Continuation of DRWG 515. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 515. LAB.

DRWG 518. Life Drawing III, Honors. 3 Hours.
Figure drawing, a continuation of DRWG 314 or DRWG 318. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 314 or DRWG 318; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

DRWG 519. Life Drawing IV, Honors. 3 Hours.
Figure drawing, a continuation of DRWG 515 or DRWG 518. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 515 or DRWG 518; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

DRWG 535. Special Topics in Drawing: ______. 3 Hours.
Course to be offered in an area of special interest to individual faculty, and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: 12 hours of drawing and permission of instructor. LAB.

DRWG 599. Individual Studies in Drawing. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Visual Art courses, or permission of the department. LEC.

DRWG 807. Drawing VII. 3 Hours.
Individual research in drawing. Prerequisite: DRWG 506. RSH.

DRWG 817. Life Drawing V. 3 Hours.
Individual research in figure drawing. Prerequisite: DRWG 516. RSH.

DRWG 908. Drawing VIII. 3 Hours.
Continuation of DRWG 807. Prerequisite: DRWG 807. RSH.
DRWG 918. Life Drawing VI. 3 Hours.
Continuation of DRWG 817. Prerequisite: DRWG 817. RSH.

Visual Art Courses

EXM 274. Expanded Media. 3 Hours U.
Beginning course to introduce the fundamental concepts, strategies, and technologies that comprise the Expanded Media area of the Department of Visual Art: Installation, Performance, and Digital Image. Emphasis is placed on forming ideas and strategies, and creating artwork that considers the core connections within Expanded Media: time, space, the body, the viewer, and society at large. Computer-based technologies and time-based media that are inherent to Expanded Media practice support studio assignments. Coursework includes the investigation and discussion of historic precedents and the development of an appropriate critical dialogue with which to discuss their work. Prerequisite: ART 102, ART 103, and ART 104. LAB.

EXM 300. Special Topics in Expanded Media: _____ . 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LAB.

EXM 301. The Digital Image I. 3 Hours.
Introduction to various still digital processes and skills that encourage the use of digital imagery within a variety of other media. Focus on content issues as they relate to development of artwork incorporating digital imagery. Prerequisite: ART 102, ART 103 or ART 104 or permission of instructor. LAB.

EXM 302. Performance Art I. 3 Hours U.
An introduction to the understanding and production of performance art. Students gain proficiency in conceptualization and production of performance time-based art in an Interdisciplinary art-making environment. Prerequisite: ART 102, ART 103 or ART 104, or permission of instructor. LAB.

EXM 303. Intermedia I. 3 Hours.
An introduction to the use/handling and integration of diverse, new and traditional materials, techniques and processes. Problems will involve strategies for discovering and managing combinations of drawn, painted, digital and constructed forms. Studio sessions will include research, lecture, demos, and guest speakers. Prerequisite: ART 102, ART 103 or ART 104, or permission of instructor. LAB.

EXM 304. Digital Photography I. 3 Hours.
This course explores Digital Photography as a tool and resource with a wide range of expressive and creative interests. Digital processes such as image capturing, editing, and printing will be the main focus. Issues pertaining the circulation and distribution of digital imagery in contemporary culture will be addressed. DSLRs, Point and Shoot Cameras, and Camera Phones will be used. Prerequisite: ART 101, ART 103, or ART 104; and any introductory art studio, or permission of instructor. This course is offered at the 300 and 500 levels, with the 500 level serving as a continuation of study in the topic area. LAB.

EXM 307. Installation Art I. 3 Hours U.
This course is an exploration of art making with an emphasis on space, site, installation, and the viewer's experience surrounding art making. Students will research, discuss, and produce temporary art installations using a variety of mediums in an atmosphere of interdisciplinary and experimentation. Major topics include time/space specificity; the collaboration process; body/space dynamics, and art-making as part of a social/cultural dynamic. Prerequisite: ART 101, ART 103, or ART 104, or permission of instructor. LAB.

EXM 314. Alternative Approaches in Photography I. 3 Hours U.
An introduction to the understanding and production of art-making using alternative approaches in photography. Students gain proficiency in conceptualization and production of artwork using alternative approaches in photography in an interdisciplinary art-making environment. Prerequisite: ART 102, ART 103, or ART 104 or permission of instructor. LAB.

EXM 326. Video and Time-Based Media I. 3 Hours U.
An introduction to the understanding and production of video and time-based art. Students gain proficiency in conceptualization and production of video and time-based art in an interdisciplinary art-making environment. Prerequisite: EXM 274. LAB.

EXM 500. Advanced Special Topics in Expanded Media: _____. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103 or ART 104; 12 hours of courses in Visual Art, or permission of instructor. LAB.

EXM 501. The Digital Image II. 3 Hours.
Continuation of EXM 301, The Digital Image I. May be repeated for credit. Prerequisite: EXM 301. LAB.

EXM 503. Intermedia II. 3 Hours.
Continuation of EXM 303, Intermedia I. May be repeated for credit. Prerequisite: Permission of instructor. LAB.

EXM 504. Digital Photography II. 3 Hours.
This course will explore Digital Photography as a tool and resource with a wide range of expressive and creative interests. Students will explore how digital photographs are 'captured', edited, printed, and distributed in contemporary culture. DSLRs, Point and Shoot Cameras, and Camera Phones will be used. Advanced techniques in Picture Editing, File Management, Printing, Digital Delivery, and Studio Photography of Artwork will be explored. May be repeated for credit. Prerequisite: EXM 304. LAB.

EXM 514. Alternative Approaches in Photography II. 3 Hours U.
Continuation of EXM 314, Alternative Approaches in Photography I. May be repeated for credit. Prerequisite: EXM 314. LAB.

EXM 526. Video and Time-Based Media II. 3 Hours U.
Continuation of EXM 326. Video and Time-Based Media I. May be repeated for credit. Prerequisite: EXM 326. LAB.

EXM 535. Intermediate Expanded Media. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Two (200- and/or 300-level) Expanded Media courses. LAB.

EXM 536. Intermediate Expanded Media, Honors. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Two (200- and/or 300-level) Expanded Media courses; membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.

EXM 537. Advanced Expanded Media. 3 Hours.
Continuation of EXM 535. May be repeated for credit. Prerequisite: EXM 535 or EXM 536. LAB.

EXM 538. Advanced Expanded Media, Honors. 3 Hours.
Continuation of EXM 536. May be repeated for credit. Prerequisite: EXM 535 or EXM 536; membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.
EXM 541. Graduate Performance Art. 3 Hours.
Students will gain proficiency in conceptualization and production of performance time-based art in an interdisciplinary art-making environment. Prerequisite: Permission of instructor. LAB.

EXM 542. Graduate Installation Art. 3 Hours.
Advanced problems toward the creation of environments using a variety of media including traditional and non-traditional approaches to art-making. Prerequisite: Permission of instructor. LAB.

EXM 543. Graduate: The Digital Image. 3 Hours.
Advanced work focusing on content issues as they relate to development of artwork incorporating digital imagery. Prerequisite: Permission of instructor. LAB.

EXM 545. Graduate Intermedia. 3 Hours.
Advanced work in the use/handling and integration of diverse, new and traditional materials, techniques and processes. Advanced problems will involve strategies for discovering and managing combinations of drawn, painted, digital, and constructed forms. Studio sessions will include research, lecture, demos, and guest speakers. Prerequisite: Permission of instructor. LAB.

EXM 546. Graduate Expanded Media V. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Permission of instructor. LAB.

EXM 573. Performance Art II. 3 Hours U.
Continuation of EXM 302. Prerequisite: EXM 302. LAB.

EXM 574. Performance Art II, Honors. 3 Hours U.
Continuation of EXM 302. Prerequisite: EXM 302; and membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.

EXM 577. Installation Art II. 3 Hours U.
Continuation of EXM 307. Prerequisite: EXM 307. LAB.

EXM 578. Installation Art II, Honors. 3 Hours U.
Continuation of EXM 307. Prerequisite: EXM 307; and membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.

EXM 599. Individual Studies in Expanded Media. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Expanded Media courses, permission of instructor. IND.

EXM 846. Graduate Expanded Media VI. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Permission of instructor. LAB.

EXM 946. Graduate Expanded Media VII. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Permission of instructor. LAB.

Visual Art Courses

METL 300. Special Topics in Metalsmithing: _____. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LAB.

METL 301. Introduction to Casting for Jewelry. 3 Hours.
Introduction to casting and mold making processes used for jewelry and small sculpture. Students explore various methods and materials for creating models for casting in bronze or silver including wax carving, wax modeling, and the use of natural and synthetic materials as models. Models are cast using centrifugal and vacuum casting processes. Basic mold making in clay and silicone are also explored. Prerequisite: ART 132 or permission of instructor. LAB.

METL 360. Holloware. 3 Hours.
Problems related to specific smithing techniques such as raising, stretching, shell structures and seam fabrications. Metal manipulation on a large scale. Prerequisite: Six hours of metalsmithing or consent of the instructor. LAB.

METL 362. Metalsmithing. 3-6 Hours H.
Intermediate metalworking with an emphasis on the refinement of design and techniques. Processes may include soldering and fabrication, mechanisms, and surface embellishment. Prerequisite: Six hours of metalsmithing or consent of the instructor. LAB.

METL 363. Intermediate Jewelry. 3 Hours.
Lectures and demonstrations on traditional techniques of jewelry construction and embellishment, such as stone setting, chasing, repoussé, and die forming. Prerequisite: Six hours of metalsmithing or consent of the instructor. LAB.

METL 364. Enameling. 3-6 Hours.
Introduction to enameling as applied to jewelry design and metalsmithing objects. Exploration of major enameling techniques such as wet packing, cloissoné, champlevé, basse-taille, and limoges. Prerequisite: Six hours of metalsmithing or consent of instructor. LAB.

METL 500. Advanced Special Topics in Metalsmithing: _____. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LAB.

METL 503. Gemology. 3 Hours H.
Students study the optical and physical characteristics of gemstones in order to identify them using gemological instruments. This laboratory and discussion class explores related topics including the principles of optics that support this methodology, history and geographical distribution of gemstones, gemstone cutting and pearl farming, the history of DeBeers and the development of the world demand for diamond, quality analysis of diamond, colored gemstones and pearls, including the history of diamond grading, the development and identification of synthetics, imitations and laboratory enhancements as well as the use of gemstones in designing jewelry. Prerequisite: ART 132. LAB.

METL 504. A History of Jewelry. 3 Hours H.
This course explores the history from Sumeria to the 21st century of the use of metals and gemstones in the creation of decorative art for personal adornment. Students explore the evolution of the role of jewelry in ancient culture and modern society and survey individuals whose ideas and work influenced generations of goldsmiths and jewelers around the globe. The class studies primitive tools and modern manufacturing techniques, the history of gemstone cutting and setting and the origin and development of gemstones as symbols. Prerequisite: ART 132. LEC.

METL 505. Digital Jewelry Design I. 3 Hours H.
Matrix is a 3-D CAD program based on Rhino developed by Rhino, specifically for jewelry design. The goal of this course is to instruct beginners in the Matrix design program. Students learn to transform their
2-D designs from their sketchbooks into 3-D models in Matrix, which can be milled in wax, and cast in metal. Students also learn how to render their 3-D Matrix models to appear as if they were a finished object. The class time is structured as a combination of instructor-led tutorials and working labs. Prerequisite: ART 132, LAB.

METL 506. Digital Jewelry Design II. 3 Hours H.
The second semester of Matrix increases the operating and design skills building on the knowledge of DG I. The focus of the class is producing wax models on the Revo Digital Mill. Digi II covers the advanced modeling skills including T-spline and Rhino. Students also learn how to make a customized tool path for Revo C mill program and how to solve milling problems. Students also learn how to convert Rhino files to produce a 3D print for outsourcing to other 3D modeling programs. Prerequisite: ART 132, METL 301, METL 505. LAB.

METL 515. Advanced Metals I. 3-6 Hours AE61 / H.
Development of individual direction in Metalsmithing/Jewelry based on experience, research and skills acquired in preceding courses. This course serves as a capstone experience. General BFA students, non-majors or minors may enroll in this course with consent of the instructor. Students who are off track in sequence may be eligible to enroll in this course with consent of the instructor. Prerequisite: METL 360, METL 362, METL 363 METL 364 or consent of the Instructor. LAB.

METL 520. Advanced Metals II. 3-6 Hours AE61.
Continuation of METL 515 with emphasis on individual design aesthetic through intensive designing, rendering, and model making that leads to a professional and unified body of Metalsmithing/Jewelry work. This course requires a final presentation of a complete portfolio including resume, renderings and photographs of the finished work. This is a capstone course. Prerequisite: METL 515. LAB.

METL 590. Internship in Metalsmithing/Jewelry. 1-3 Hours U.
Practical experience in the use of artistic skills in approved and supervised academic or professional settings. May be repeated for credit; no more than six hours may be applied to the B.A. or B.F.A. degree. Credit hours are graded on a satisfactory/unsatisfactory basis, according to the written recommendation provided by the internship supervisor to the faculty advisor. Prerequisite: ART 102, and ART 103, and ART 104; and fifteen hours of Visual Art Courses; and permission of instructor. FLD.

METL 599. Individual Studies in Metalsmithing/Jewelry. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Metalsmithing/Jewelry courses, or permission of instructor. IND.

METL 715. Metals/Jewelry. 2-6 Hours.
Individual research. Prerequisite: Graduate standing. RSH.

METL 815. Metals/Jewelry. 2-6 Hours.
Continuation of METL 715. RSH.

Visual Art Courses

PNTG 263. Painting I. 3 Hours.
Basic problems in painting. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PNTG 300. Special Topics in Painting: _____. 3 Hours.
Course to be offered in area of studio activity of specific interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LAB.

PNTG 337. Watercolor. 3 Hours.
Sessions deal with the preparation of watercolor paints and equipment, but the main emphasis is placed on relational concepts affecting tone, structure, and unity in work. While the students are expected to explore some of the traditional approaches to watercolor, they also are encouraged to work with new and innovative ones. Prerequisite: ART 120 or permission of instructor. LAB.

PNTG 338. Landscape Painting. 3 Hours.
An introduction to landscape painting. Considerable work is done out-of-doors. Emphasis is placed upon experiencing the environment and the development of individual approach. May be repeated for credit. Prerequisite: PNTG 263 and permission of instructor. LAB.

PNTG 364. Painting II. 3 Hours.
Continuation of PNTG 263. Prerequisite: PNTG 263. LAB.

PNTG 368. Painting II, Honors. 3 Hours.
Continuation of PNTG 263. Prerequisite: PNTG 263; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 500. Advanced Special Topics in Painting: ___. 3 Hours.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Painting courses, or permission of instructor. LAB.

PNTG 538. Advanced Landscape Painting. 3 Hours.
A continuation of art practice in landscape painting. Considerable work is done out-of-doors. Emphasis is placed upon experiencing the environment and the development of individual approach. May be repeated for credit. Prerequisite: PNTG 338. LAB.

PNTG 555. Painting III. 3 Hours.
Continuation of PNTG 364. Prerequisite: PNTG 364. LAB.

PNTG 556. Painting IV. 3 Hours.
Continuation of PNTG 555. May be repeated for credit. Prerequisite: PNTG 555. LAB.

PNTG 557. Painting III, Honors. 3 Hours.
Continuation of PNTG 364 or PNTG 368. Prerequisite: PNTG 364 or PNTG 368; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 559. Painting IV, Honors. 3 Hours.
Continuation of PNTG 555 or PNTG 556. Prerequisite: PNTG 555 or PNTG 556; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 585. The Figure I. 3 Hours.
The figure and its environment in various media. Prerequisite: DRWG 314 and PNTG 364. LAB.

PNTG 586. The Figure II. 3 Hours.
Continuation of PNTG 585. May be repeated for credit. Prerequisite: PNTG 585. LAB.

PNTG 588. The Figure I, Honors. 3 Hours.
The figure and its environment in various media. Prerequisite: DRWG 314 or DRWG 318 and PNTG 364 and PNTG 368; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.
PNTG 589. The Figure II, Honors. 3 Hours.
Continuation of PNTG 585 or PNTG 588. May be repeated for credit.
Prerequisite: PNTG 585 or PNTG 588; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 599. Individual Studies in Painting. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Painting courses, or permission of instructor. IND.

PNTG 667. Painting V. 3 Hours.
Continuation of PNTG 566. Prerequisite: PNTG 566. LAB.

PNTG 668. Painting VI. 3 Hours.
Continuation of PNTG 667. May be repeated for credit in subsequent semesters. Prerequisite: PNTG 667. LAB.

PNTG 687. The Figure III. 3 Hours.
Continuation of PNTG 587. Prerequisite: PNTG 587. LAB.

PNTG 688. The Figure IV. 3 Hours.
Continuation of PNTG 687. May be repeated for credit. Prerequisite: PNTG 687. LAB.

PNTG 869. Painting VII. 3 Hours.
Individual research in painting. Prerequisite: PNTG 668. RSH.

PNTG 889. The Figure V. 3 Hours.
Individual research in the figure and its environment in various media. Prerequisite: PNTG 688. RSH.

PNTG 970. Painting VIII. 3 Hours.
Continuation of PNTG 869. Prerequisite: PNTG 869. RSH.

PNTG 990. The Figure VI. 3 Hours.
Continuation of PNTG 889. Prerequisite: PNTG 889. RSH.

Visual Art Courses

PRNT 223. Intaglio I. 3 Hours.
Introduction to intaglio. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 224. Relief I. 3 Hours.
Introduction to relief printing. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 233. Lithography I. 3 Hours.
Introduction to lithography. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 243. Serigraphy I. 3 Hours.
Introduction to serigraphy. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 300. Special Topics in Printmaking: ____. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART102, ART 103, and ART 104; or permission of instructor. LAB.

PRNT 324. Intaglio II. 3 Hours.
Continuation of PRNT 223. Prerequisite: PRNT 223, or permission of instructor. LAB.

PRNT 325. Relief II. 3 Hours.
Continuation of PRNT 224. Prerequisite: PRNT 224, or permission of instructor. LAB.

PRNT 328. Intaglio II, Honors. 3 Hours.
Continuation of PRNT 223. Prerequisite: PRNT 223; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 329. Relief II, Honors. 3 Hours.
Continuation of PRNT 224. Prerequisite: PRNT 224; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 334. Lithography II. 3 Hours.
Continuation of PRNT 233. Prerequisite: PRNT 233 or permission of instructor. LAB.

PRNT 338. Lithography II, Honors. 3 Hours.
Continuation of PRNT 233. Prerequisite: PRNT 233; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 344. Serigraphy II. 3 Hours.
Continuation of PRNT 243. Prerequisite: PRNT 243 or permission of instructor. LAB.

PRNT 348. Special Problems in Printmaking—Color Printing in Relief and Intaglio. 3 Hours.
Multiple block and plate printing in color. (This course is not regularly offered. The current Schedule of Classes should be consulted.) Prerequisite: PRNT 223 and permission of instructor. LAB.

PRNT 349. Serigraphy II, Honors. 3 Hours.
Continuation of PRNT 243. Prerequisite: PRNT 243; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 500. Advanced Special Topics in Printmaking: ____. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Printmaking courses, or permission of instructor. LAB.

PRNT 523. Printmaking III A (Intaglio). 3 Hours.
Prerequisite: PRNT 524 or permission of instructor. LAB.

PRNT 524. Printmaking III B (Lithography). 3 Hours.
Prerequisite: PRNT 534 or permission of instructor. LAB.

PRNT 525. Printmaking III C (Serigraphy). 3 Hours.
Prerequisite: PRNT 544 or permission of instructor. LAB.

PRNT 526. Printmaking IV A (Intaglio). 3 Hours.
Prerequisite: PRNT 523 or permission of instructor. LAB.

PRNT 527. Printmaking IV B (Lithography). 3 Hours.
Prerequisite: PRNT 524 or permission of instructor. LAB.

PRNT 528. Printmaking IV C (Serigraphy). 3 Hours.
Prerequisite: PRNT 525 or permission of instructor. LAB.

PRNT 599. Individual Studies in Printmaking. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Printmaking courses, or permission of instructor. IND.
PRNT 662. Printmaking V. 3 Hours.
Individual research in printmaking. Prerequisite: PRNT 526 or PRNT 527 or PRNT 528. LAB.

PRNT 663. Printmaking VI. 3 Hours.
Continuation of PRNT 662. Prerequisite: PRNT 662. LAB.

PRNT 802. Special Problems in Printmaking. 3 Hours.
Individual research in printmaking; course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: PRNT 579 and permission of instructor. RSH.

PRNT 827. Printmaking VII. 3 Hours.
Continuation of PRNT 663. Prerequisite: PRNT 663. LAB.

PRNT 903. Special Problems in Printmaking. 3 Hours.
Individual research in printmaking; course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: PRNT 802 and permission of instructor. RSH.

PRNT 928. Printmaking VIII. 3 Hours.
Continuation of PRNT 827. Prerequisite: PRNT 827. LAB.

Visual Art Courses

SCUL 253. Sculpture I. 3 Hours.
Introduction to sculpture. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LAB.

SCUL 300. Special Topics in Sculpture: ______. 3 Hours.
Course to be offered in an area of studio activity of specific interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LAB.

SCUL 330. Sculpture Intercepting the Waste Stream. 3 Hours N.
An introductory course using engaged learning to exploring the genre of ecological art practice (eco-art). Class focuses on the waste stream particularly as it affects the Kansas River. Through remediation events, students build works of art from trash, in turn auctioned for environmental efforts. Creative attention is focused on ecological imbalance. (Same as EVRN 330.) Prerequisite: Visual Art major or minor, or instructor permission. LAB.

SCUL 349. Metal and Glass Casting. 3 Hours.
A course in foundry techniques as related to sculpture. Both traditional and experimental procedures for casting bronze, aluminum, and iron sculpture are explored. This course is taught at the 300 and 500 levels, with additional assignments at the 500 level. LAB.

SCUL 350. Direct Metal Fabrication. 3 Hours.
The course will present a variety of techniques for fabricating metal sculpture. Oxyacetylene and electric arc welding processes will be included. May be repeated for credit. Prerequisite: SCUL 253. LAB.

SCUL 353. The Figure 3D: Modeling and Molding. 3 Hours H.
Sculpting a figure is radically different from drawing one! You will develop a more comprehensive understanding of the human form while creating art addressing contemporary aesthetic concerns. Prerequisite: Visual Art major or minor, or instructor permission. LAB.

SCUL 354. Sculpture II. 3 Hours.
Continuation of SCUL 253. Prerequisite: SCUL 253. LAB.

SCUL 355. Sculpture III. 3 Hours.
Continuation of SCUL 354. Prerequisite: SCUL 354. LAB.

SCUL 356. Public Art. 3 Hours H.
Students in this class investigate the nature of contemporary public art as well as creating their own artworks. Public Art covers a wide spectrum of art making from interventions, to street art, to murals and on to monumental sculpture. This class also covers how to present for commissions, budgeting, and legal liability. Previous work created in this class has won national awards. Prerequisite: Visual Art major or minor, or instructor permission. LAB.

SCUL 358. Sculpture II, Honors. 3 Hours.
Continuation of SCUL 253. Prerequisite: SCUL 253; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

SCUL 359. Sculpture III, Honors. 3 Hours.
Continuation of SCUL 354 or SCUL 358. Prerequisite: SCUL 354 or SCUL 358; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

SCUL 360. Build Smart. 3 Hours H.
An introductory woodworking course that emphasizes planning, fabricating, and assembly techniques. Material handling and best practice building methods are introduced and reinforced through a series of individual woodworking projects that expose the student to the properties of wood, as well as, hand and machine woodworking tools. Significant out of class work required. Prerequisite: Visual Art major or minor, or instructor permission. LAB.

SCUL 362. Art and Ecology: Inhabiting the Ecosphere. 3 Hours N.
An introductory course exploring the genre of ecological art practice (eco-art) through a series of engaged learning projects that focus on habitat, the waste stream and natural resources, local ecologies and interventionist creative strategies that focus attention on ecological imbalance. (Same as EVRN 362.) Prerequisite: Visual Art major or minor, or instructor permission. LAB.

SCUL 500. Advanced Special Topics in Sculpture: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Sculpture courses, or permission of instructor. LAB.

SCUL 549. Metal and Glass Casting. 3 Hours U.
A course in foundry techniques as related to sculpture. Both traditional and experimental procedures for casting bronze, aluminum, and iron sculpture are explored. May be repeated for credit. This course is taught at the 300 and 500 levels, with additional assignments at the 500-level. Prerequisite: SCUL 253. LAB.

SCUL 556. Sculpture IV. 3 Hours.
Continuation of SCUL 355. May be repeated for credit. Prerequisite: SCUL 355. LAB.

SCUL 558. Sculpture IV, Honors. 3 Hours.
Continuation of SCUL 355 or SCUL 359. May be repeated for credit. Prerequisite: SCUL 355 or SCUL 359; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

SCUL 599. Individual Studies in Sculpture. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours can apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Sculpture courses, or permission of instructor. IND.
SCUL 630. Sculpture Intercepting the Waste Stream. 3 Hours N.
An introductory course using engaged learning to exploring the genre of ecological art practice (eco-art.) Class focuses on the waste stream particularly as it affects the Kansas River. Through remediation events, students build works of art from trash, in turn auctioned for environmental efforts. Creative attention is focused on ecological imbalance. (Same as EVRN 662.) Prerequisite: Graduate standing or permission of instructor. LAB.

SCUL 653. The Figure 3D: Modeling and Molding. 3 Hours H.
Sculpting a figure is radically different form drawing one! Students will develop a more comprehensive understanding of the human form while creating art addressing contemporary aesthetic concerns. Prerequisite: Graduate standing or permission of instructor. LAB.

SCUL 656. Public Art. 3 Hours H.
Students in this class investigate the nature of contemporary public art as well as creating their own artworks. Public Art covers a wide spectrum of art making from interventions, to street art, to murals and on to monumental sculpture. This class also covers how to present for commissions, budgeting, and legal liability. Previous work created in this class has won national awards. Prerequisite: Graduate standing or permission of instructor. LAB.

SCUL 657. Sculpture V. 3 Hours.
Continuation of SCUL 556. Prerequisite: SCUL 556. LAB.

SCUL 658. Sculpture VI. 3 Hours.
Continuation of SCUL 657. May be repeated for credit in subsequent semesters. Prerequisite: SCUL 657. LAB.

SCUL 660. Build Smart. 3 Hours H.
This course is an introductory woodworking course that emphasizes planning, fabricating, and assembly techniques. Material handling and best practice building methods are introduced and reinforced through a series of individual woodworking projects that expose the student to the properties of wood, as well as, hand and machine woodworking tools. Significant out of class work required. Non Visual Art students require permission number from Department. Prerequisite: Graduate standing or permission of instructor. LAB.

SCUL 662. Art and Ecology: Inhabiting the Ecosphere. 3 Hours N.
An introductory course exploring the genre of ecological art practice (eco-art) through a series of engaged learning projects that focus on habitat, the waste stream and natural resources, local ecologies and interventionist creative strategies that focus attention on ecological imbalance. (Same as EVRN 662.) Prerequisite: Graduate standing or permission of instructor. LAB.

SCUL 804. Special Problems in Sculpture. 3 Hours.
Individual research in sculpture: course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: SCUL 559 and permission of instructor. RSH.

SCUL 859. Sculpture VII. 3 Hours.
Individual research in sculpture. Prerequisite: SCUL 658. RSH.

SCUL 905. Special Problems in Sculpture. 3 Hours.
Individual research in sculpture: course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: SCUL 804 and permission of instructor. RSH.

SCUL 960. Sculpture VIII. 3 Hours.
Continuation of SCUL 859. Prerequisite: SCUL 859, RSH.

Visual Art Courses

TD 300. Special Topics in Textiles/Fibers: _____ 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LAB.

TD 313. Fiber Forms. 3 Hours.
Studio exploration of fibers as an art form. Techniques include feltmaking, papermaking, basketry, and dyeing. Prerequisite: ART 101, and ART 133. LAB.

TD 314. Introduction to Weaving. 3 Hours U.
Application of art and design principles to four-harness loom structures. Emphasis on the use of color and texture in loom controlled and weaver controlled techniques. Prerequisite: ART 101, and ART 133. LAB.

TD 315. Textile Handprinting and Resist Processes. 3 Hours U.
Fundamentals of resist and dye techniques on textiles: batik, tie-dye, discharge, and direct application. Prerequisite: ART 101, and ART 133. LAB.

TD 316. Screenprinting Textiles. 3 Hours.
Design problems in textile printing with emphasis on screenprinting and photo techniques. Prerequisite: ART 101, and ART 133. LAB.

TD 401. Weave Structures. 3 Hours U.
Continuation of TD 314. Research and analysis of multiple-harness weave structures. Weave drafts. Design problems to develop the use of color, form, and surface in simple and compound weaves. Prerequisite: TD 314. LAB.

TD 402. Techniques in Weaving. 3 Hours U.
Development of individual art and design concepts in relation to woven structures and/or forms. Emphasis on weaver-controlled techniques used to create images and composition. Prerequisite: TD 314. LAB.

TD 403. Intermediate Textile Printing. 3 Hours.
Individual problems in textile printing and dyeing processes. Prerequisite: TD 316. LAB.

TD 404. Surface Design. 3 Hours.
Textile pattern design for art and/or industry. Prerequisite: Twelve hours in Visual Art or Design, or permission of the instructor. LAB.

TD 500. Advanced Special Topics in Textiles/Fibers: _____. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Textiles/Fibers courses, or permission of instructor. LAB.

TD 503. Advanced Surface Design/Screenprinting. 1-6 Hours U.
Directed study of advanced surface design and screenprinting methods. May be repeated for credit. Prerequisite: TD 403. IND.

TD 504. History of Textiles, Lecture. 3 Hours.
Study of historical textiles, their design development, and the techniques employed. Prerequisite: Junior standing in department or permission of instructor. LEC.

TD 506. Advanced Fiber Forms. 1-6 Hours U.
Directed study of three-dimensional and off-loom methods and techniques. May be repeated for credit. Prerequisite: TD 313. IND.

TD 514. Advanced Techniques in Weaving. 1-6 Hours U.
Directed study of advanced loom-controlled and weaver-controlled methods. May be repeated for credit. Prerequisite: TD 401 or TD 402, or permission of instructor. IND.
TD 515. Advanced Textiles/Fibers I. 3-6 Hours AE61.
Development of individual direction in textiles based on experience, research, and skills acquired in preceding courses; capstone experience. Prerequisite: Twenty-four credits in Textiles/Fibers and consent of instructor. LAB.

TD 520. Advanced Textiles/Fibers II. 3-6 Hours AE61.
Continuation of TD 515, capstone experience. Prerequisite: TD 515. LAB.

TD 590. Internship in Textiles/Fibers. 1-3 Hours U.
Practical experience in the use of artistic skills in approved and supervised academic or professional settings. May be repeated for credit; no more than six hours may be applied to the B.A. or B.F.A. degree. Credit hours are graded on a satisfactory/unsatisfactory basis, according to the written recommendation provided by the internship supervisor to the faculty advisor. Prerequisite: ART 102, ART 103, and ART 104; and fifteen hours of Visual Art courses. INT.

TD 599. Individual Studies in Textiles/Fibers. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours can apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Textiles/Fibers courses, or permission of instructor. IND.

TD 715. Textile Design in Weaving, Printing, and Dyeing. 2-6 Hours.
Individual research. Prerequisite: Graduate standing. RSH.

TD 815. Textile Design in Weaving, Printing, and Dyeing. 2-6 Hours.
Continuation of TD 715. RSH.

Visual Art Courses

VAE 130. Art and Design in Daily Life. 3 Hours U.
The course aims to develop students' appreciation of designed objects in contemporary life whether they are historical icons or everyday items in the immediate environment. The instructional materials and activities assist students in acquiring the knowledge and skills for critically analyzing, discussing, and evaluating objects. Course content is interdisciplinary with a focus on design history. The class is open to all students and is relevant to those who have taken classes in art, design, architecture, and art history. Not open to students with credit in VAE 530. LEC.

VAE 300. Special Topics in Visual Art Education: _____ 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LEC.

VAE 320. Instruction and Curriculum I. 3 Hours.
This methods course provides an overview of the professional practices of K-12 art educators. Course content deals with the art education program, K-12, in relationship to the rest of the curriculum. This encompasses goals, objective sequence, courses offered at various levels, finance, staffing and administration. Prerequisite: Junior standing or consent of the instructor. LEC.

VAE 325. Education in Multicultural Society. 2 Hours.
The course is designed to provide the student with an awareness of and sensitivity to the concept of multicultural education. Topics related to the rationale for and processes of providing a multicultural perspective within the schools will be addressed. Field experiences will be structured to provide students with opportunities to observe the diversity within our society. LEC.

VAE 341. Instructional Strategies in Art for Elementary Classroom Teachers. 2 Hours.
Child growth and development in art. Materials as they relate to a sequential art education curriculum in the elementary school. Prerequisite: Admission to the School of Education or the education division of the graduate school. LEC.

VAE 395. Community Collaborations in Art Education. 3 Hours U.
A focused examination of existing community organizations, models, and resources alongside collaborative strategies for working with these entities to achieve common goals for art education. Students in this class will learn of collaborative community models, explore entrepreneurial and other educational initiatives that contribute to the general purpose of art education, and recognize the role of families and other community members in contributing to the arts. LEC.

VAE 410. Instruction and Curriculum II. 3 Hours.
This methods course provides an overview of the professional practices of K-12 art educators. Course content deals with the art education program, K-12, in relationship to the rest of the curriculum. This encompasses goals, objective sequence, courses offered at various levels, finance, staffing and administration. Prerequisite: Junior standing or consent of the instructor. LEC.

VAE 420. Artistic Media and Processes in Art Education. 3 Hours.
Building on course content in VAE 320, this course concentrates on instructional strategies and presentation models in art education. Students examine and explore the media appropriate to teaching art in various settings and levels as well as how art program budgets are derived and impact overall curriculum development. Prerequisite: VAE 320 or permission of instructor. LEC.

VAE 497. Independent Study. 1-3 Hours.
Only one enrollment permitted each semester; a maximum of four hours will apply toward the bachelor's degree. Prerequisite: Recommendation of advisor and consent of instructor. IND.

VAE 500. Student Teaching. 9 Hours AE61.
A supervised teaching experience in an approved school setting, with level and subject area to be selected according to the teaching field. Individual activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours can apply toward the bachelor's degree. Prerequisite: Admission to the student teaching program; and ART 102, ART 103, and ART 104; and twelve hours of Visual Art Education courses, or permission of instructor. FLD.

VAE 520. Instructional Technology in Art Education. 3 Hours.
This course addresses technology that is pertinent to professional art educators. Students use technology to develop a professional portfolio and technology-related resources for teaching art in PreK-12 schools and community settings. LEC.

VAE 530. Art and Design in Daily Life. 3 Hours.
The course aims to develop students' appreciation of designed objects in contemporary life whether they are historical icons or everyday items in the immediate environment. The instructional materials and activities will assist students in acquiring the knowledge and skills for critically analyzing, discussing, and evaluating objects. Course content is interdisciplinary with a focus on design history. The class is open to all students and is relevant to those who have taken classes in art, design, architecture, and art history. Not open to students with credit in VAE 130. LEC.

VAE 596. Practicum in Teaching Art. 2 Hours.
A supervised art teaching practicum in which students will learn to employ different teaching strategies with children pre-school through high school.
in the school or museum setting. Prerequisite: VAE 320, VAE 410, VAE 795 or consent of instructor. LEC.

**VAE 598. Special Course: _____ 1-5 Hours.**
A special course of study to meet current needs of education students; primarily for undergraduates. LEC.

**VAE 599. Community Based Project in Art Education. 1-6 Hours**
Individual activity and project that serves as an alternate capstone experience to VAE 500 (Student Teaching). Will involve the development of an independent, community-based arts education project developed by the student under the supervision of a VAE faculty member. Prerequisite: Forty credits of Visual Art, fifteen credits of Visual Art Education Courses, and permission of the instructor. IND.

**VAE 680. Internship in Teaching Art. 5-16 Hours.**
A supervised internship experience leading to initial art teacher certification. The student assumes the total professional role as a teacher of art in an approved school setting. INT.

**VAE 716. Teaching Art: _____ 1-4 Hours.**
Instructional techniques, methodology, materials, and evaluation. Processes for the specific art area named. May be repeated for credit in different media. LEC.

**VAE 750. Introduction to Art Museum Education. 1-4 Hours.**
This course provides a general overview to the museum education field. Course readings include current ideas and issues on learning, art education, criticism, the museum in education, and museum education practices. LEC.

**VAE 790. Applications of Technology in Art Education. 1-3 Hours.**
The course is designed to provide students with the skills necessary for using and assessing the impact of microcomputers, video recorders, and other technological developments in art education. Prerequisite: TL 601 or equivalent. LEC.

**VAE 798. Special Course: _____ 1-5 Hours.**
A special course of study to meet current needs of education professionals; primarily for graduate students. LEC.

**VAE 800. Visual Art Education Curriculum Development. 1-3 Hours.**
A study of research, resources, and media as they relate to learning goals in a sequential art curriculum for use by teachers. The amount of credit reflects the extent of the curriculum being developed and the amount of work involved in the development process. LEC.

**VAE 825. Seminar in: _____ 1-4 Hours.**
LEC.

**VAE 830. Seminar in: _____ 1-4 Hours.**
LEC.

**VAE 842. Teaching Art Criticism. 3 Hours.**
An examination of the four phases of art criticism (description, analysis, interpretation and judgment) will be followed by practice in using these phases in the development of effective art curriculum for all developmental levels. Prerequisite: PRE 702 and PRE 704 or equivalents. LEC.

**VAE 850. Aesthetics, the Arts and Education. 3 Hours.**
Theoretical introduction to the problems involved in teaching critical appreciation of the arts; examination of materials from aesthetics, art history, and criticism. LEC.

**VAE 869. History of Art Education. 3 Hours.**
A study of the historical development of art education. Prerequisite: Nine hours of education. LEC.

**VAE 875. Research in Art Education. 3 Hours.**
This course examines the issues and procedures commonly used to conduct research in art education in preparation for students’ graduate theses or projects. Research methods are adapted and applied to students’ professional needs and interests in the form of a research proposal. LEC.

**VAE 890. Preparation for the M.A. Examination. 1 Hour.**
An independent reading course in preparation for the M.A. Examination. The grade will be an S or U, as determined by the performance on the examination. The examination will be evaluated separately. Prerequisite: Permission of the instructor. LEC.

**VAE 895. Field Experience in: _____ 1-6 Hours.**
Supervised and directed experiences in selected professional settings and cooperating agencies. Prerequisite: Permission of instructor. FLD.

**VAE 897. Independent Study. 1-4 Hours.**
Prerequisite: Consent of advisor and instructor. RSH.

**VAE 898. Master’s Project. 1-4 Hours.**
RSH.

**VAE 899. Master’s Thesis. 1-6 Hours.**
THE.

**VAE 900. Supervision and Evaluation of Visual Arts Programs. 3 Hours.**
A study of the administration of school, museum, and community arts education programs. Topics will include curriculum development, personnel supervision, finance, and the quantitative and qualitative evaluation of arts programs. Prerequisite: TL 703 or equivalent. LEC.

---

**Department of Film and Media Studies**

**Why study film and media?**
The Department of Film and Media Studies unites the inquiry of the academic with the practice and technique of the artist. Scholars and filmmakers work and study together in an environment of mutual encouragement and collegiality.

**Undergraduate Programs**
The department offers Bachelor of Arts and Bachelor of General Studies degrees, as well as a minor in film and media studies.

**Courses for Nonmajors**
The department offers many courses open to nonmajors who wish to learn more about film and media, including but not limited to:

**Graduate Programs**
The Department of Film and Media Studies offers a certificate program as well as comprehensive graduate programs (M.A. and Ph.D).
The Masters degree and Ph.D in Film and Media are academic degrees but students are also expected to complete courses in film and video production. The Masters degree requires 33 graduate credit hours and all M.A. students in Film and Media Studies must write a thesis as the culmination of their degree.

The Ph.D requires 60 credit hours of course work that strengthens methodological, historical, and theoretical grounding. Students must also write and defend a dissertation that must constitute a palpable contribution to knowledge in the candidates chosen field in order to complete their degree.

The Graduate Certificate in Film and Media studies provides a concentration in core film and media theory and history courses. This certificate is designed for graduate students whose research includes analysis of media text and technologies, and provides training in methodologies and a basic familiarly with critical and theoretical discourse, both historical and contemporary, in which film and media are discussed.

Departmental Funding
The department does its best to provide funding in the form of Graduate Teaching Assistant (GTA) appointments to incoming graduate students. Additional information is available on The Department of Film and Media Studies Graduate Resources (https://film.ku.edu/graduates/) page.

Advising
The Director of Graduate Studies initially advises entering graduate students; but students select a permanent, primary advisor from the Film and Media faculty. By the end of the first year of graduate study, students should ask a faculty member to serve as their advisor and should notify the Graduate Academic Advisor of the faculty member identified. The faculty advisor will work closely with the student to develop a coherent plan of study and select courses ahead of each term in preparation for their thesis or dissertation. Graduate students will meet with their advisor at least once a year to evaluate their course performance and timely progress toward the degree.

Non-Degree Seeking
Students who are interested in enrolling in graduate level coursework in the Department of Film and Media Studies without formal admission to a graduate program at KU are encouraged to apply for graduate non-degree seeking student status. See the department’s Non-Degree Seeking page for more information.

Courses
FMS 100. Introduction to Film and Media. 3 Hours HL GE11 / H.
An introduction to analyzing and thinking critically about film and other media. Students will learn to read and interpret the basic signs, syntaxes, and structures of cinematic language. Through direct analysis of selected films, television, and new media, students will evaluate and construct evidentiary arguments about the aesthetic strategies creators use to make meaning for audiences. In addition, this course will familiarize students with the historical and industrial dimensions of film and media, as well as the influence technology has on their development into the twenty-first century. LEC.

FMS 177. First Year Seminar: ____. 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Film and Media Studies. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

FMS 200. Film and Media Aesthetics. 3 Hours HL GE3H / H.
An introduction to film and media aesthetics, including basic film/media theories and their practical applications. Students will be introduced to the concepts of time, space, composition, movement, editing, light, color, and sound. A key feature of the course will be a practical emphasis on learning how to see creatively by applying elements of design, camera lens and sound recording principles. Examples of these aspects of film and associated media will be examined and discussed in depth. Should be taken before or concurrently with FMS 275. LEC.

FMS 204. Study Abroad Topics in: _____. 1-6 Hours H.
This course is designed for the study of special topics in Film at the freshman/sophomore level. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

FMS 273. Basic Screenwriting. 3 Hours H.
An introduction to the craft and principles of screenwriting, from inspiration to writing a complete first act. Emphasis on factors relevant to the creation of a treatment and a screenplay. Prerequisite: Consent of instructor. LEC.

FMS 275. Basic Video Production. 3 Hours H.
Theory and practice of video production with emphasis on preproduction planning, scripting, directing, lighting, camera operation and audio. Lecture-laboratory. Prerequisite: FMS 100, completion of or concurrent enrollment in FMS 200. LEC.

FMS 301. Undergraduate Professional Development Seminar. 1 Hour H.
Provides an overview of opportunities for professional development in Film and Media Studies, and helps students plan goals for their education through an understanding of professional practices. The course also covers practical exercises in professional development, including writing resumes, finding internships and entry-level work, and other aspects of establishing a career in Film and Media Studies. Prerequisite: FMS 275 or equivalent. Open to FMS Majors only. Graded satisfactory/unsatisfactory. LEC.

FMS 302. Undergraduate Studies Seminar in: _____. 1-3 Hours H.
Course organized any given semester to examine a particular studies topic or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

FMS 303. Undergraduate Production Seminar in: _____. 1-3 Hours H.
Course organized any given semester to study a particular production topic or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

FMS 304. Study Abroad Topics in: _____. 1-6 Hours H.
This course is designed for the study of special topics in Film at the junior/senior level. Credit for course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

FMS 307. Undergraduate Film/Media Internship. 1-6 Hours H.
Supervised study with an approved film/media company or project. May be repeated for credit. No more than six hours may be applied to the B.A. or B.G.S. degrees. Prerequisite: Consent of instructor and at least seven hours credit in the department. INT.

FMS 310. History of the Silent Film. 3 Hours H.
A survey of the artistic, economic and sociological development of the narrative cinema with emphasis on the American studio system, German
Expressionism, and Soviet Expressive Realism. Analysis of selected films. LEC.

**FMS 311. History of the American Sound Film. 3 Hours HL / H.**
A study of the artistic, economic, and sociological development of the American sound film with emphasis on the studio system, major directors, genres, and the impact of television. Analysis of selected films. LEC.

**FMS 312. History of the International Sound Film to 1950. 3 Hours H.**
A survey of the artistic, economic, and sociological development of the international sound film from 1929 to 1950. Emphasis on European National Cinemas. LEC.

**FMS 313. History of the International Sound Film Post 1950. 3 Hours H.**
A survey of the artistic, economic, and sociological development of the international sound film from 1950 to the present. Emphasis on Free Cinema, New Wave, and other emerging post-war cinemas. LEC.

**FMS 314. History of African-American Images in Film. 3 Hours HL AE41 / H.**
A history and critical assessment of the diverse images of African-Americans in American cinema and the impact of those images on American society. Screenings of feature and independent films, including those by African-Americans. LEC.

**FMS 315. Survey of Japanese Film. 3 Hours NW AE42 / H.**
This course surveys the major developments in and critical approaches to twentieth-century Japanese film. Focusing mostly on narrative films, Survey of Japanese Film introduces students to basic methodological issues in Japanese film history, especially questions of narrative, genre, stardom, and authorship. We examine Japanese cinema as an institution located within specific contexts focusing on the ways in which this institution shapes gender, class, ethnic, and national identities. This course examines how patterns of distribution, exhibition, and reception have influenced film aesthetics and film style over the last century. Through secondary readings, lectures, and discussions students critically examine how Japanese cinema as an institution both responds to and intervenes in the social, cultural, and political history of twentieth century Japan. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. (Same as EALC 315.) LEC.

**FMS 316. Cinemas of the Southern Cone: Argentina, Chile, and Uruguay. 3 Hours AE42 / H.**
This course will examine the cinemas of three neighboring South American countries to find similar themes and some differences between them historically, politically, and culturally. Themes will include: gender and nation, political repression during dictatorship, globalization and the cinema, youth culture in the Southern Cone, and representations of race and ethnicity, immigration and identity in contemporary cinema. Other themes in common are financing issues, such as co-production agreements, film production under the regional trade pact Mercosur and issues of circulation, distribution and marketing of national films. Most films will be feature length narrative, but a few documentaries will be shown. May be taken as FMS 716, but with additional requirements. LEC.

**FMS 317. Race and the American Documentary. 3 Hours H.**
This course surveys a range of documentaries in which race is a key part. There are two class objectives: the first is to broaden the students' knowledge of American social history and culture, especially around issues of identity, representation and race. The second is to heighten the students' critical skills as viewers of films in general. A complete film or portion is screened at each class session, preceded by an introductory lecture, and a follow-up discussion. Readings from a variety of scholarly texts are excerpted for student review prior to a particular class. LEC.

**FMS 318. Anti-war Film. 3 Hours H.**
An overview and exploration of the history of anti-war film and media themes to show how attitudes regarding war and political policy can be affected by positive and negative depictions of conflict. Course includes analysis of selected films. LEC.

**FMS 322. Soviet and Post-Soviet Russian Cinema. 3 Hours H.**
A comprehensive introduction to Soviet cinema and its legacies in post-Soviet Russia. The course will examine what distinguished Soviet film industry from those in other countries and the ways in which it impacted the development of cinema worldwide. Films are analyzed both as artistic works (with attention to formal qualities, cinematic styles, and influences) and as documents that provide insight into the socio-political contexts of the times when they were made. We will also discuss influential contributions by Soviet filmmakers to our understanding of what makes film unique as an art form. The course is offered at the undergraduate and graduate level, with additional assignments at the graduate level. (Same as SLAV 322.) LEC.

**FMS 323. War and Memory in Asian Film. 3 Hours AE42 / H.**
This course explores how the film industries of key East Asian nations have constructed, reimagined, debated, and commodified their experiences of the major wars fought during the 20th century (i.e. The Greater East Asian War, the Chinese Civil War, the Korean War, and the Vietnam War). We will examine the intersection of various historical, political, cultural, and economic factors with the production of mainstream commercial film to consider how individual and collective memories of wars in Asia have transformed over time in different contexts. Films are particularly useful for examining how the cultural memory of wars survives and is conveyed from one era to another with each new generation reinventing and superimposing new layers of memory on the original phenomenon from a range of multiple perspectives. A central goal of this course is to provide students with various historical perspectives, cultural contexts, and analytical methods to develop your ability to apply visual literacy and critical thinking skills to contemporary Asian films about the major wars of the last century. LEC.

**FMS 330. Cinematic Rome. 3 Hours H.**
A study of cinematic representations of daily life, diversity, urban landscape, and social and political issues in modern and contemporary Rome as presented in different genres. Taught in English. (Same as ITAL 330.) LEC.

**FMS 331. Mafia Movies. 3 Hours H.**
This course investigates representations of the Italian mafia in Italian and American cinema since the 1960s, placing emphasis on conventions of the gangster genre and its evolution. We will examine films in relation to their socio-historical contexts and special attention will be dedicated to Italian films that de glamorize the Italian mafia and champion the anti-mafia struggle. Taught in English. (Same as ITAL 331.) LEC.

**FMS 345. New Media and Society. 3 Hours H.**
Students will be introduced to major themes and debates in digital media studies and apply critical approaches for understanding new media practices, technologies, and theories. In addition to readings and lectures, students will engage in a variety of digital activities and participate in research-oriented projects. By the end of this course students will gain a foundational understanding of historical and emerging relationships between new media (internet, cell phones, digital games, etc.) and society, acquire key research skills, and experience a variety of new media texts and services. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. LEC.

**FMS 350. Indigenous Film and Media. 3 Hours H.**
This course offers a survey of global Indigenous cultures, theory and aesthetics in cinema and digital media. It establishes an Indigenous
media optics by examining media practices across a broad contemporary spectrum—including music videos and social media platforms, podcasting and video games. As the course moves geographically, students learn how media practices in diverse communities situate identity and experience in related but unique contexts. Through weekly readings, screenings and design workshops, students build the critical tools necessary for an examination of the wide range of practices that lend themselves to Indigenous media sovereignty. This course is offered at the 300 and 700 level with additional assignments at the 700 level. Not available to students with credit in FMS 750 or ISP 755. (Same as ISP 355.) LEC.

**FMS 355. Storytelling with Digital Media. 3 Hours HL / H.**

In this course, students will utilize digital tools and platforms to create online and mobile stories based on the theories and histories of interactive storytelling discussed in class. Through a survey of digital storytelling examples and concepts, students will create interactive projects to add to their portfolio and learn how to think critically and write analytically about digital media. LEC.

**FMS 373. Intermediate Screenwriting. 3 Hours H.**

Emphasis on writing a full-length screenplay. Explores genre, character, dialogue, and the development of a personal writing style. Prerequisite: FMS 273 (students will be selected based on writing samples). LEC.

**FMS 374. Animation. 3 Hours H.**

A survey that combines animation history, theory, and production by examining animated works of all kinds and exploring various styles utilizing both hands-on techniques and digital animation programs. Lecture-laboratory. LEC.

**FMS 375. Intermediate Video Production. 3 Hours H.**

Theory and practice of longer-form video production with emphasis on scripting, talent coordination and editing in preproduction, production and postproduction. Lecture-laboratory. Prerequisite: FMS 275. LEC.

**FMS 376. Cinematography. 3 Hours H.**

Theory and practice of cinematography, with emphasis on creation of film, video, and digital imagery. Prerequisite: FMS 275. LEC.

**FMS 377. Post-Production. 3 Hours H.**

Students become familiar with techniques and processes in film and video post-production including, but not limited to, editing, sound, post-production management, marketing, and distribution. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. Prerequisite: FMS 275. LEC.

**FMS 380. American Popular Culture of ______. 3 Hours HL GE3H / H.**

An interdisciplinary examination of popular cultural forms and their relationships with the social, political and economic dynamics of America, with emphasis on film, media, music, literature (including magazines and newspapers) and the graphic arts. The decade or other specific topic to be studied changes as needs and resources develop. May be repeated for credit for different decades or topics. LEC.

**FMS 407. Undergraduate Film/Media Service Learning Internship. 1-6 Hours H.**

Supervised study with an approved government agency, established non-profit organization, school, or community-based partner to produce a professional-level film and/or media project in the public interest. Community work should meet the needs of the community-based organization and the education goals set by the student, instructor, and community based partner; be in direct service, indirect service, policy analysis, research, and/or advocacy work; engage the student with individuals or communities of need and with issues related to social justice, community development, and/or access to resources. May be repeated for credit. No more than six hours may be applied to the B.A. or B.G.S. degrees. Graded satisfactory/unsatisfactory. Prerequisite: Consent of instructor and at least 22 credit hours in the department. FLD.

**FMS 410. US Diversity in Visual Culture. 3 Hours AE41 / H.**

This course examines the way in which diversity in the United States, including race, class, gender, and sexuality, are represented through visual culture, historically and in the present. The study of visual culture analyzes the way in which visual images communicate systems of beliefs, contribute to identity formation, and have an influence on our thinking about diversity. Course looks at United States visual objects (i.e., film, television, photography, art, advertisements, and theatre as well as visual practices, i.e., in public and private spaces. LEC.

**FMS 411. Television Studies. 3 Hours H.**

A historical, theoretical and critical survey of U.S. television from 1945 to the present from the public's perspective, with emphasis on the early influences of radio (e.g., Federal regulation and sponsorship), film and theatre; TV's rapid rise as the U.S. public's prime source of entertainment, news and information; TV's rise as a key cultural, economic and political phenomenon; TV's more recent accommodations to the forces of globalization, new technologies/media, and new business models through convergence. Discussion and screening of representative TV texts as seen against the backdrop of the theories and critical views of TV scholars ranging from Raymond Williams and John Fiske to Henry Jenkins. LEC.

**FMS 413. Asian Media Studies. 3 Hours H.**

This course examines new and emerging media in East Asia and how the media industries of East Asia function. Using recent scholarship and industry data on contemporary cyberculture, music studies, and television industries of East Asia we examine how such factors as globalization, post-colonialism, censorship, emerging technology, and national media legislation affect regional and transnational media industries in Japan, South Korea, and Mainland China/Taiwan/Hong Kong. (Same as EALC 413.) LEC.

**FMS 425. Ethics in Storytelling. 3 Hours AE51 / H.**

This course considers the ethics of telling stories with film and media. Using a framework of rhetorical criticism and postmodern ethics, the students will evaluate the ethical and social responsibility challenges of fiction and non-fiction writing, films, television and online projects from a variety of fields: anthropology, sociology, journalism, political rhetoric and documentary filmmaking. Through readings, case studies and application, students will explore the fundamentals of rhetorical ethics, and the questions raised my new and emerging forms of storytelling. LEC.

**FMS 474. Videogame Theory and Design. 3 Hours H.**

This course surveys the history and aesthetics of videogames and then provides a deep dive into the theory, design principles and techniques of game development on the Unity platform. Through assignments geared toward critical design, students gain the skills necessary for game-building in the areas of visual, narrative, game, level and sound design that comprise a typical development team. Although no prior coding experience is necessary, students may benefit from prior knowledge of C#, 3D modeling, or animation. LEC.

**FMS 475. Advanced Video Production. 3 Hours H.**

Special projects in video production, using both studio and remote locations. Prerequisite: FMS 375. LEC.

**FMS 477. Sound Design. 3 Hours H.**

Students will study and produce film and video work with an emphasis on sound design theory and practice. Course projects consist of several short works in response to readings and screenings, which include a survey of sound in cinema, internet and radio. Students will also become conversant with related equipment, software and techniques. Prerequisite: FMS 275. LEC.
FMS 478. Experimental Production. 3 Hours H.
Students will produce experimental film and video projects, including installation art and performance art pieces, in both collaborative and a collaborative production modes. Practical production aspects of historical experimental works will be studied, with emphasis on creation of works inspired by these earlier artists and their work. Unorthodox video and film production concepts and modes will also be studied and used in the creation of original works. The incorporation of experimental elements in the creation of mainstream works, and the creation of such projects, will also be a key area of study and experimentation. By pushing their individual creative limits, students will gain an appreciation for the experimental film and video genre, as well as an expansion of their production skills. Prerequisite: FMS 275. LEC.

FMS 479. Documentary Production. 3 Hours H.
This is a hands-on production course in which students will research, plan and produce short-form non-fiction documentaries. The class is dedicated to training young professionals in the principles, skills, techniques, habits and practices of documentary production. We will focus also on the aesthetics of our craft and the documentary form. The objective is to ground students in the fundamental skills of good non-fiction storytelling-conceptualization, research, story structure, theme development, writing, producing and directing. The goal is the production of several short-form compositions (videos) where storytelling is employed to communicate a concept or idea effectively. Students will form into teams to research, develop and produce a course-long short-form documentary. Prerequisite: FMS 275. LEC.

FMS 480. Music Video Production. 3 Hours H.
This course will cover elements of the history, aesthetics, and business of music video and video music production. Students will view and discuss many different types of music videos, and will learn how to classify and critique these videos in a professional manner. Students will gain familiarity with the genres, themes, forms, and iconography of music video; an understanding of the place of music video in media culture; an exploration of the ideological, cultural, and historical contexts of music video; and an ability to create or assist in the creation of professional-quality music videos. Prerequisite: FMS 275. LEC.

FMS 498. Honors Seminar. 2-6 Hours AE61 / H.
Study may be directed toward either (a) reading for integration of knowledge and insight in film and media, or (b) original research (i.e., investigation of a specific problem in film and media). Six hours maximum credit. Prerequisite: Consent of Departmental Honors Coordinator. LEC.

FMS 499. Directed Study in Film. 1-6 Hours AE61 / H.
Investigation of a special topic or project selected by the student with advice, approval, and supervision by an instructor. Such study may take the form of directed reading or special research. Individual reports and conferences. A maximum of six hours credit may be counted toward a degree. Prerequisite: At least seven hours credit in the department and consent of instructor. IND.

FMS 530. Film and Media Theory. 3 Hours H.
Comprehensive examination of most significant theories and theorists of film. Organized around specific questions, e.g., what qualities make film art unique, and how is film related to other visual and literary arts? Class discussion, individual projects. Prerequisite: FMS 100 or equivalent (determined by instructor). LEC.

FMS 531. Contemporary Concepts in Media Studies. 3 Hours H.
This course emphasizes a theoretical understanding of media and media production skills. It is a critical cultural study of the media, focusing on the relationships between media representations and society. Students explore different conceptual perspectives on the role and power of visual media in society in influencing social values, political beliefs, identities and behaviors; analyze specific media texts, such as film and television shows; and examine the dynamics of how class, gender, generation, and race influence the production and reception of media. LEC.

FMS 540. Cuban Cinema. 3 Hours H.
This course explores Cuban cinema from 1959 to the present day. Special attention is paid to the representations of Cuban history, cultural politics, and the political-economic conditions of production in Cuba. In addition, the Cuban-American community and their contributions or reactions to Cuban film are discussed. Through readings, lectures, discussion, and viewing Cuban films, the class examines a variety of topics related to Cuban cinema, history, and contemporary concerns. This course is offered at the 500 and 800 levels, with additional assignments at the 800 level. Prerequisite: Junior standing. LEC.

FMS 541. Asian Film. 3 Hours NW AE42 / H.
Seminar on various national film cultures of East and Southeast Asia. Representative films are studied from formal, stylistic, and socio-historic perspectives. Addresses the impact of key cultural, economic, and political issues on each film industry. Class discussion, reports, and individual research papers. The course is offered at the 500 and 800 levels, with additional assignments at the 800 level. (Same as EALC 541.) Prerequisite: Junior status. LEC.

FMS 543. Contemporary Japanese Film. 3 Hours NW AE42 / H.
Seminar on the major developments in the contemporary (1980-present) Japanese film industry examining how filmmaking practices and film criticism have been influenced by such issues as transnationalism, postcolonialism, critical race theory, postmodernism, and new media. We survey recent industrial and stylistic trends as well as key critical debates. Class discussion, reports, and individual research papers. The course is offered at the 500 and 700 levels, with additional assignments at the 700 level. (Same as EALC 543.) Prerequisite: Junior status. LEC.

FMS 544. African Film. 3 Hours W.
A critical study of Africa and its peoples as depicted in films. The aesthetic, cultural, economic, political, historical, and ideological aspects of African films are examined. (Same as AAAS 555.) LEC.

FMS 585. Capstone in Film and Media Studies. 3 Hours AE61 / H.
This course integrates the knowledge and skills acquired across the curriculum of Film Media Studies including academic studies, but also production and other related disciplines to enable the student to demonstrate achievement through the production of a major creative research project. Prerequisite: Must be admitted to the Film and Media Studies B.A. or B.G.S. degree. Must have completed one FMS production course. LEC.

FMS 592. Documentary Film and Video. 3 Hours H.
An historical and theoretical survey of that major genre of film and video typically termed "documentary." The course will trace the main historical developments from documentary's beginnings through contemporary innovations. Prerequisite: FMS 100 and FMS 310, FMS 311, or consent of instructor. LEC.

FMS 593. Experimental Film and Video. 3 Hours H.
A history of experimental film and video through an examination of major artists, movements, theories, and films/tapes. Prerequisite: FMS 100 and FMS 310, or consent of instructor. LEC.

FMS 620. International Women Filmmakers. 3 Hours H.
This course examines films made by women around the world. Mainstream and independent fiction, documentary, and experimental works will be screened and discussed. The objectives of the course are: 1) to learn the variety of films made by women and the conditions of their production, distribution reception. 2) to interrogate the idea of women's cinema as 'counter-cinema'. We will acquire tools for analyzing films
in terms of economic, aesthetic, cultural, and political circumstance by women of different countries, classes, races, ethnicities, genders, and sexual preferences. LEC.

FMS 673. Problems in Basic Screenwriting. 3 Hours U.
The principles of screenwriting are developed through scene writing and analysis culminating in the writing and structure of a full-length, three-act screenplay. In addition to the class sessions taught with FMS 273 Basic Screenwriting, separate consultations and specific research assignments for graduate students in FMS 673 are also required. LEC.

FMS 675. Problems in Basic Video Production. 3 Hours U.
Theory and practice of single-camera video production with emphasis on preproduction planning, scripting, directing, lighting, camera operation and audio. In addition to the class sessions taught with FMS 275 Basic Video Production, separate consultations and specific research assignments for graduate students in FMS 675 are also required. Lecture-laboratory. LEC.

FMS 702. Graduate Seminar in: ______. 1-3 Hours.
Course organized any given semester to study particular subject matter or to take advantage of special competency by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. SEM.

FMS 704. Study Abroad Topics in: ______. 1-6 Hours.
This course is designed for the study of special topics in Film. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

FMS 707. Film/Media Internship. 3-12 Hours.
Study with an approved film or media company. Emphasis may be in one or all of the following areas: acting, directing, or promotion management. No more than six hours may be applied to an M.A. degree. Course will be graded satisfactory/unsatisfactory. Prerequisite: Consent of instructor. INT.

FMS 715. Survey of Japanese Film. 3 Hours.
This course surveys the major developments in patterns of distribution, exhibition, and reception and their influence on film aesthetics in twentieth century Japanese film. Through secondary readings, lectures, and discussions students will examine how Japanese cinema, as an institution, responds to and intervenes in the social, cultural, and political history of twentieth century Japan. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. (Same as EALC 715.) LEC.

FMS 716. Cinemas of the Southern Cone: Argentina, Chile, and Uruguay. 3 Hours.
This course will examine the cinemas of three neighboring South American countries to find similar themes and some differences between them historically, politically, and culturally. Themes will include: gender and nation, political repression during dictatorship, globalization and the cinema, youth culture in the Southern Cone, and representations of race and ethnicity, immigration and identity in contemporary cinema. In addition to the lecture sessions taught in tandem with FMS 316, additional research component, lecture presentation, and class meeting are also required. LEC.

FMS 717. Race and the American Documentary. 3 Hours.
This course will survey a range of documentaries in which race is a key part of the film's text. There are two class objectives: to broaden the student's knowledge of American social history and culture, especially around issues of identity, representation and race, and to heighten the student's ability as a critical viewer of films. This course will include: film viewing, scholarly readings, and lectures. The course is offered at the 300 and 700 levels, with additional assignments at the 700 level. LEC.

FMS 718. Anti-war Films. 3 Hours.
An overview and exploration of the history of the portrayal of anti-war film and media themes to show how anti-war attitudes and political policy can be affected by positive and negative depictions of conflict. Analysis of selected films. FMS 318 and FMS 718 will meet concurrently, though separate consultations and specific research assignments for FMS 718 are also required. LEC.

FMS 722. Soviet and Post-Soviet Russian Cinema. 3 Hours.
A comprehensive introduction to Soviet cinema and its legacies in post-Soviet Russia. The course will examine what distinguished Soviet film industry from those in other countries and the ways in which it impacted the development of cinema worldwide. Films are analyzed both as artistic works (with attention to formal qualities, cinematic styles, and influences) and as documents that provide insight into the socio-political contexts of the times when they were made. We will also discuss influential contributions by Soviet filmmakers to our understanding of what makes film unique as an art form. The course is offered at the undergraduate and graduate level, with additional assignments at the graduate level. Not open to students with credit in SLAV 322/FMS 322. (Same as SLAV 723.) Prerequisite: Graduate standing or instructor permission. LEC.

FMS 743. Contemporary Japanese Film. 3 Hours.
Seminar on the major developments in the contemporary (1980-present) Japanese film industry examining how filmmaking practices and film criticism have been influenced by such issues as transnationalism, postcolonialism, critical race theory, postmodernism, and new media. We will survey recent industrial and stylistic trends as well as key critical debates. Class includes discussion, reports, and individual research papers. This course is offered at the 500 and 700 levels, with additional assignments at the 700 level. (Same as EALC 743.) SEM.

FMS 745. New Media and Society. 3 Hours.
Students will be introduced to major themes and debates in digital media studies and apply critical approaches for understanding new media practices, technologies, and theories. In addition to readings and lectures, students will engage in a variety of digital activities and participate in production-oriented projects. By the end of this course students will gain a foundational understanding of historical and emerging relationships between new media (internet, cell phones, digital games, etc.) and society, acquire key digital skills, and experience a variety of new media texts and services. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. LEC.

FMS 750. Indigenous Film and Media. 3 Hours.
This course offers a survey of global Indigenous cultures, theory and aesthetics in cinema and digital media. It establishes an Indigenous media optics by examining media practices across a broad contemporary spectrum—including music videos and social media platforms, podcasting and video games. As the course moves geographically, students learn how media practices in diverse communities situate identity and experience in related but unique contexts. Through weekly readings, screenings and design workshops, students build the critical tools necessary for an examination of the wide range of practices that lend themselves to Indigenous media sovereignty. This course is offered at the 300 and 700 level with additional assignments at the 700 level. Not available to students with credit in FMS 350 or ISP 355. (Same as ISP 755.) LEC.

FMS 773. Problems in Intermediate Screenwriting. 3 Hours.
The principles of screenwriting are developed through scene writing and analysis culminating in the writing and structuring of a full-length, three act screenplay. In addition to the class sessions taught with FMS 373 Intermediate Screenwriting, separate consultations and specific research assignments for graduate students in FMS 773 are also required. LEC.
FMS 775. Problems in Intermediate Video Production. 3 Hours.
Theory and practice of multiple-camera video production with emphasis on preproduction planning, scripting, directing, lighting, camera operation, and audio. In addition to the class sessions taught with FMS 375 Intermediate Video Production, separate consultations and specific research assignments for graduate students in FMS 775 are also required. Lecture-laboratory. LEC.

FMS 776. Problems in Cinematography. 3 Hours.
Theory and practice of cinematography, with emphasis on creation of film, video, and digital imagery. FMS 776 meets concurrently with FMS 376; students enrolled in the graduate-level course will have separate consultations and specific research assignments. Lecture-laboratory. Prerequisite: Consent of instructor and FMS 675. LEC.

FMS 777. Post-Production. 3 Hours.
Students will become familiar with techniques and processes in film and video post-production including, but not limited to, editing, sound, post-production management, marketing, and distribution. This course is offered at the 300 and 700 levels, with additional assignments at the 700 level. Prerequisite: Consent of instructor. LEC.

FMS 800. Introduction to Graduate Study in Film/Media. 3 Hours.
Major emphasis is placed upon the principles of research, bibliographical data, and research methods useful in film and television. The course should be taken at the beginning of the graduate student's program. LEC.

FMS 801. Professional Development Seminar. 1 Hour.
Preparation and training for faculty careers in film and related fields, including research skills and methods, responsible scholarship, teaching, and service. Other topics vary from semester to semester. May be repeated for credit. SEM.

FMS 802. Master's Projects. 3-6 Hours.
Advanced creative projects which may be elected by master's degree candidates in lieu of thesis. RSH.

FMS 810. Development of the Silent Film. 3 Hours.
Intensive study of the artistic, economic, and sociological development of the silent narrative film with emphasis on the evolution of the American studio system, German Expressionism, and Soviet Expressive Realism. LEC.

FMS 811. Development of the American Sound Film. 3 Hours.
Intensive study of the artistic, economic, and sociological development of the American sound film with emphasis on the studio system, major directors, genres, and the impact of television. LEC.

FMS 813. Development of the International Sound Film. 3 Hours.
Intensive study of the artistic, economic, and sociological development of the international sound film with emphasis on the cinemas of England, France, Italy, Germany, Sweden, and Eastern Europe. LEC.

FMS 814. Development of African-American Images in Film. 3 Hours.
A history and critical assessment of the development of diverse images of African-Americans in American cinema and the impact of those images of American society. Screenings of feature and independent films, including those by African-Americans. In addition to the lecture/screening sessions taught in tandem with FMS 314, a separate discussion section and specific research assignments for graduate students enrolled in FMS 814 are also required. LEC.

FMS 840. Cuban Cinema. 3 Hours.
This course explores Cuban cinema from 1959 to the present day. Special attention will be paid to the representations of Cuban history, cultural politics, and the political-economic conditions of production in Cuba. In addition, the Cuban-American community and their contributions or reactions to Cuban film will be discussed. Through readings, lectures, discussion, and viewing Cuban films, the class will examine a variety of topics related to Cuban cinema, history, and contemporary concerns. This course is offered at the 500 and 800 levels, with additional assignments at the 800 level. LEC.

FMS 841. Asian Film. 3 Hours.
Seminar on various national film cultures of East and Southeast Asia. Representative films are studied from formal, stylistic, and socio-historic perspectives. Addresses the impact of key cultural, economic and political issues on each film industry. Class includes discussion, reports, and individual research papers. This course is offered at the 500 and 800 levels, with additional assignments at the 800 level. (Same as EALC 841.) SEM.

FMS 862. Survey of Film and Media History. 3 Hours.
This seminar will be primarily international in scope and will concentrate on the following: technological and production issues relating to the transition in 1927-1931 of silent to sound film; the constructions of national identity, including those of recently emerging cultures; a comparison and contrast of the censorial agencies in America and abroad; and current revisionist perspectives on received film and media history. SEM.

FMS 863. Survey of Documentary and Experimental Film and Media. 3 Hours.
Surveys the important historical and theoretical issues pertinent to both the documentary and experimental approaches as expressed in film, video and new technologies. Includes major documentary and experimental genres, directors, national schools, artistic movements, and landmark works. Screenings reflect a chronology from origins to present-day. LEC.

FMS 865. Film and Media Theory. 3 Hours.
This seminar is a comprehensive survey of the major classical and contemporary film and media theories and theorists, such as Munsterberg, Eisenstein, Bazin, and Adorno. The course includes film and media theory since the 1970s, moving through structuralism and into the posts: -structuralism, -modernism, -colonialism, and beyond. Within these broad paradigms some of the theories examined in depth are cinesemiotics, Marxism, cinematic apparatus, feminist film theory, reception theory, new media and virtual reality. SEM.

FMS 875. Problems in Advanced Video Production. 3 Hours.
Special projects in video production, using both studio and remote locations. In addition to the class sessions taught with FMS 475 Advanced Video Production, separate consultations and specific research assignments for graduate students in FMS 875 are also required. Prerequisite: FMS 775 or consent of instructor. LEC.

FMS 880. Development of American Popular Culture in the: 3 Hours.
Intensive interdisciplinary examination of popular culture forms and their relationships with the social, political, and economic dynamics of America in a specific decade, with emphasis on film, broadcasting, theatre, music literature (including magazines and newspapers), and the graphic arts. Decade to be studied changes as resources and needs develop. LEC.

FMS 887. Film and the Public. 3 Hours.
A study of the actual and implied responsibilities of film and video to the public, as seen in regulations, self-regulatory codes, and the critical literature of the field. Prerequisite: Consent of instructor. LEC.

FMS 888. Special Problems in Film History and Criticism. 1-4 Hours.
RSH.

FMS 895. Intensive Film Project Seminar. 1-4 Hours.
The student plans and executes an intensive special project which requires the professional skills of investigation and performance
appropirate to radio, television and/or film. May be repeated for credit up to a maximum of six credit hours. (This seminar is to the special project program what “thesis” is to the traditional program.) RSH.

**FMS 897. Practicum in Film. 1-3 Hours.**

Various approaches to the illustration of principles of production in film and/or video through the supervision of laboratory exercises and subsequent evaluation by the Theatre and Film graduate faculty. FLD.

**FMS 898. Investigation and Conference (for Master’s Students). 1-8 Hours.**

Directed research and experimentation in film or media. Limited to eight hours credit toward the Master's degree. RSH.

**FMS 899. Master’s Thesis. 1-6 Hours.**

THE.

**FMS 902. Film Seminar in: _____. 3 Hours.**

A graduate seminar devoted to selected historical, theoretical, or critical issues. Prerequisite: Consent of instructor. LEC.

**FMS 998. Investigation and Conference (for Doctoral Students). 1-8 Hours.**

RSH.

**FMS 999. Doctoral Dissertation. 1-12 Hours.**

THE.

**Bachelor of Arts and Bachelor of General Studies in Film and Media Studies**

Why study film and media?

The Department of Film and Media Studies unites the inquiry of the academic with the practice and technique of the artist. Scholars and filmmakers work and study together in an environment of mutual encouragement and collegiality.

**Undergraduate Admission**

**Admission to KU**

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

The FMS major does not require an application, however, if a student decides to add the FMS major or change their major from an area of study outside of the School of the Arts, they will need to submit a Change of School form before the major can be added to their degree plan.

**Film and Media Studies Programs**

The film and media studies department is housed in Summerfield wherein students will gain experience in film/video production in newly renovated studio spaces. B.A. and B.G.S. requirements are quite different, so it is important to check with a department advisor. The B.A. in film and media studies introduces students to the overall field of film and media studies and prepares them for graduate study. The B.G.S. in film and media studies prepares students broadly in film/video production.

FMS 585 | Capstone in Film and Media Studies

Film and Media Electives
Satisfied by 6 hours from courses in the Film & Media Studies department (any course with an FMS prefix)

Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Major Hours
Satisfied by 40 hours of major courses.

Major Hours in Residence
Satisfied by a minimum of 15 hours of KU resident credit in the major, of which 8 must be at the junior/senior (300+) level.

Major Junior/Senior Hours
Satisfied by a minimum of 25 hours from junior/senior courses (300+) in the major.

Major Junior/Senior Graduation GPA
Satisfied by a minimum of 22 hours from junior/senior courses (300+) in the major.

Film and Media Studies Electives
Satisfied by 6 hours elected from courses in the Film & Media Studies department (any course with an FMS prefix).

Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

Graduation Plan
With careful planning and commitment to a full-time course load, you can graduate in 4 years. For details please consult the department.

Capstone
FMS 585 | Capstone in Film and Media Studies

Film and Media Studies Electives
Satisfied by 6 hours elected from courses in the Film & Media Studies department (any course with an FMS prefix).

A sample 4-year plan for a BA degree in Film & Media Studies (Culture and Studies Emphasis) can be found here: Film & Media Studies (https://catalog.ku.edu/arts/film-media-studies/ba-bgs/ba-film-media-studies/), or by using the left-side navigation.

A sample 4-year plan for the BGS degree in Film & Media Studies (Production Emphasis) can be found here: Film & Media Studies (https://catalog.ku.edu/arts/film-media-studies/ba-bgs/BGS-in-Film-and-Media-Studies/), or by using the left-side navigation.

Departmental Honors
An undergraduate interested in honors in film and media studies must present a written declaration of intention to the department's honors
Below is a sample 4-year plan for students pursuing the BA in Film and Media Studies. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

#### Total Hours 120-123

1. The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.
2. Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.
3. FMS 593 (https://catalog.ku.edu/search/?P=FMS%20593) is a spring only course.
4. FMS 592 and FMS 593 are offered in rotation. FMS 593 Experimental Film and Video is offered in the Fall semester, while FMS 592 Documentary Film and Video is offered in the Spring.

Please note:

- All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.
- The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

### BGS in Film & Media Studies

Below is a sample 4-year plan for students pursuing the BGS in Film and Media Studies. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

| Total Hours 120 |

Please note:

1. Please note that the Bachelor of General Studies degree requires completion of the requirements of a single BGS major AND a secondary field of academic study (a second major, co-major, or minor). This sample plan is based on the completion of a minor. If a second major is selected instead, elective hours on plan will be needed for these additional major requirements.

2. Choose from the approved list of Film History courses found on the degree requirements tab.

3. FMS 592 and FMS 593 are offered in rotation. FMS 593 Experimental Film and Video is offered in the Fall semester, while FMS 592 Documentary Film and Video is offered in the Spring.

4. Choose from the approved list of Immediate Production courses found on the degree requirements tab.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

**Minor in Film and Media Studies**

**Why study film and media?**

The Department of Film and Media Studies unites the inquiry of the academic with the practice and technique of the artist. Scholars and filmmakers work and study together in an environment of mutual encouragement and collegiality.

The Undergraduate Certificate in Film & Media studies offers an examination of media strategies for analysis and storytelling in contemporary culture. The certificate is structured around five courses that integrate theory and application, designed for non-residential, non-traditional, and professional students. These courses offer a global perspective through an analytical, ethical and creative framework for evaluating media in a diversity of contexts.

To be awarded the certificate, students must successfully complete four of the following five courses:

Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

**Minor Hours**
Satisfied by 18 hours of minor courses.

**Minor Hours in Residence**
Satisfied by a minimum of 9 hours of KU resident credit in the minor.

**Minor Junior/Senior Hours**
Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Please note, FMS Production coursework is reserved for FMS Majors.

**Undergraduate Certificate in Media Cultures**

The Undergraduate Certificate in Film & Media studies offers an examination of media strategies for analysis and storytelling in contemporary culture. The certificate is structured around five courses that integrate theory and application, designed for non-residential, non-traditional, and professional students. These courses offer a global perspective through an analytical, ethical and creative framework for evaluating media in a diversity of contexts.

**Master of Arts in Film and Media Studies**

**Why study film and media?**

The Department of Film and Media Studies unites the inquiry of the academic with the practice and technique of the artist. Scholars and filmmakers work and study together in an environment of mutual encouragement and collegiality.

The affiliation of the Department with the College of Liberal Arts and Sciences (http://clas.ku.edu) and the School of the Arts (http://sota.ku.edu) reflects a liberal arts perspective towards the study of film and media as well as hands-on production elements. We see film and media as ways of ordering, clarifying, and understanding human experience.

We are humanists, sharing the general goal of discovering and putting into communicable form hypotheses about human beings and the world as they interact with it. We are scholars and practitioners, and our work includes the creation of film and media, teaching, and scholarship. As a result we serve our disciplines, the University, and the surrounding community in our capacities as teachers, scholars, and artists.

Discover how film and media can change your life. In KU Film and Media Studies you’ll find a community that shares your passion for film and media and is dedicated to helping you succeed in today’s changing media landscape. You’ll find your place here within the School of the Arts’ creative community.

The M.A. degree is an academic degree but students are also expected to complete courses in film and video production. All M.A. students in Film and Media Studies must write a thesis as the culmination of their degree.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Graduate Admissions**

A full list of application materials and deadlines is available on The Department of Film and Media Studies admission pages (https://film.ku.edu/admission/#Graduate%20Admission). The Department of Film and Media Studies does not admit new students for the Spring or Summer terms.

The completed application should be submitted online (https://gradapply.ku.edu/apply/).

**Contact Information**

Lawrence, KS 66045
Phone: 785-864-1340
Email: film@ku.edu
M.A. Degree Requirements

The Master of Arts in film and media is an academic degree, but students are expected to complete 3 hours in film and video production. All M.A. students must write a thesis as the culmination of the degree.

To be admitted, a student ordinarily is expected to have a Graduate Record Examination score of at least 160 (verbal), 144 (quantitative), and 4.5 analytical writing.

To complete the M.A., the student must sustain a grade-point average of 3.0 or higher through 33 graduate credit hours.

Requirements for the M.A. in Film and Media Studies

A total of 30 hours is required. Students will complete 9 credits of Film and Media Studies Core, 3 credits of Production courses, 3 credits of FMS 902, 3 credits of Film and Media electives, 6 credits of non-FMS electives related to their chosen thesis topic and 6 credits of thesis hours.

Doctor of Philosophy in Film and Media Studies

Why study film and media?

The Department of Film and Media Studies unites the inquiry of the academic with the practice and technique of the artist. Scholars and filmmakers work and study together in an environment of mutual encouragement and collegiality.

The affiliation of the Department with the College of Liberal Arts and Sciences (http://clas.ku.edu/) and the School of the Arts (http://sota.ku.edu/) reflects a liberal arts perspective towards the study of film and media as well as hands-on production elements. We see film and media as ways of ordering, clarifying, and understanding human experience.

Ph.D. Degree Requirements

Film and Media Studies Core Requirements

18 hours of core courses are required. Doctoral students in film and media studies must take a core of courses aimed at strengthening methodological, historical, and theoretical grounding. 1 graduate-level production course is required, and 1 course in FMS 902 Film Seminar is mandatory.

Film and Media Studies Professional Development Requirement

6 hours of FMS 801 are required. This will be satisfied by attending the FMS colloquia throughout the semester. (1 day per week each semester)

Film and Media Studies Elective Requirements

9 hours of electives are required. Elective courses focus on the academic study of history, international cinema, popular culture, and digital media, among other areas. These courses are selected with a graduate advisor to reflect the student's special interest. The advisor may increase the number of hours, depending on the student's academic needs.
**Film and Media Studies Production Requirements**

3 hours of production courses are required. Production courses give students an understanding of the production process in making film, video, or animation pieces. On graduation, doctoral students can perform as competent artisans in addition to research scholars. Production courses are selected with a graduate advisor to reflect the student's specific interest. The advisor may increase the number of hours, depending on the student's academic needs.

**Secondary Field Requirements**

9 hours of secondary field courses at the graduate level from outside the Department of Film and Media Studies are chosen to assist the student in writing the dissertation. They are related to the student’s proposed area of specialization. Examples include English; History; Women, Gender, and Sexuality Studies; American Studies; Education; and Social Welfare.

Additionally, students will select their second Research Skills and Responsible Scholarship from their secondary field.

**Research Skills and Responsible Scholarship (RSRS) Requirements**

KU requires all doctoral students to meet the Research Skills requirement before proceeding to comprehensive exams. Compliance with this policy requires all graduate students to receive training in responsible scholarship pertinent to the field of research and obtain research skills pertinent to the doctoral level of research in their field(s).

Research Skills requirements may be satisfied by:

<table>

<td>Film Seminar in: _____ (with the topic of ‘Research Methods and Applications of New Media” or “Visual Methods”)</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>An additional RSRS course outside of the department, approved by the Director of Graduate Study, preferably from the student’s secondary field</td>
<td>3</td>
</tr>
</tbody>
</table>

**Comprehensive Examination**

2 publishable papers are due at the time of the examination. The examination includes written responses to questions in history, theory, and area of specialization, followed by an oral examination.

**Dissertation**

Students who have completed the comprehensive exam are required to enroll in accordance with the post-comprehensive enrollment policy. The finished dissertation must constitute a palpable contribution to knowledge in the candidate’s chosen field. After its completion, an oral defense must be held no less than 4 weeks before the graduation deadline. The exam committee must meet Doctoral Student Oral Exam Committee composition requirements.

**Graduate Certificate in Film and Media Studies**

The Graduate Certificate in Film and Media Studies (https://film.ku.edu/gc-overview/) provides a concentration in core film and media theory and history courses. This certificate is designed for graduate students whose research includes analysis of media text and technologies, and provides training in methodologies and a basic familiarity with critical and theoretical discourse, both historical and contemporary, in which film and media are discussed.

Information about application materials and deadlines is available of the Department of Film and Media Studies certificate admission webpage. (https://film.ku.edu/admission/#GC%20Admission)

Currently enrolled students must be in good standing with their graduate degree program in order to participate in the certificate program. A graduate GPA of 3.0 or higher is required for admission. The application process entails completing the online application, paying the application fee, and submitting materials required for the Film and Media Studies Certificate.

Department of Theatre and Dance

KU Theatre and Dance: Educating the Changemakers of Tomorrow, Today

The Department of Theatre and Dance is a creative, diverse and inclusive educational environment that serves as an inspirational learning incubator for the next generation of scholars, performers, designers, and technicians in theatre, performance, and dance. Our faculty and professional staff support our students to identify and cultivate their unique contributions to an increasingly global world. All of our undergraduate and graduate programs are grounded in the philosophy that artists are critically thinking, self-starting and entrepreneurially engaged artist-scholars. Our students work intensively on acquiring analytical, creative, and technical skills in our classrooms, theatre labs, and dance studios. Our holistic academic training of our students helps them to make the intellectual and practical connections between theory and practice needed to be competitive professionals in academic and professional theater environments. Our outstanding faculty and professional staff offer individualized attention to each student in a safe environment that inspires students to take risks and to explore the vast array of academic and creative choices available at a top-tier research university. Our phenomenal alumni have gone on to practice, teach, and create at the highest level of the profession in professional and academic settings.

University Theatre and the University Dance Companies

The classroom meets the stage in the University Theatre and the University Dance Companies. KU Theatre and Dance students, faculty and professional staff work together to create ten fully produced shows each year, from dramas and concert dance to musicals and operas in alternating years. In our fully-equipped facilities, students are required to engage in all aspects of production onstage and backstage. Students have opportunities to continue study year-round working with union actors, choreographers, directors, and designers with our critically acclaimed Kansas Repertory Theatre (KRT) and the Summer Dance Intensive, in partnership with the Lawrence Arts Center.

Internationally Recognized Faculty Scholars and Artists

The faculty of the Department of Theatre and Dance is creative artists and researchers working in the areas of theatre stagecraft, choreography, performance, design, dramatic literature, dramaturgy, and pedagogy, as well as the historical, literary, and cultural study of theatre, dance, and performance. Our faculty includes award-winning teachers, scholars, and artists working in professional theatre and dance, authoring books and establishing nationally and internationally recognized research and outreach programs.

Support for Students

The Department of Theatre and Dance offers students financial aid in the form of dozens of scholarships, awards, and teaching assistantships each year to graduate and undergraduate students. Friends of the Theatre (FROTH), a community group dedicated to supporting the mission of the University Theatre, provides a fantastic support network for our student shows and curricular enrichment opportunities. Donors to the Dance Division endow support for guest choreographer residencies each semester and special opportunity funds. Once students graduate our program, they join an extensive network of theatre and dance alumni and Professional Advisory Board members that work in all aspects of academe, the entertainment industry, and non-profit organizations.

Undergraduate Degrees

Dance

The BFA in Dance focuses on advanced technical training and preparation for a career in professional performance. An audition is required for entry in the BFA program. The BA in Dance provides rigorous studio training in a liberal arts environment, and allows students to double major in other disciplines. The BA in Dance does NOT require an audition for entry. Instead, students must complete an evaluation at the end of their sophomore year to complete the degree program.

Degrees offered:
- B.A.
- B.F.A.
- Minor in Dance

Performance

The Performance concentration prepares theatre majors for a career as a professional actor. Through small-class studio courses and department productions, our program provides talented performing artists with a solid foundation in acting, movement, voice and speech, improvisation, and musical theatre. Both the Bachelor of Arts (B.A.) and Bachelor of General Studies (B.G.S.) require 40 hours. The primary distinctions between the B.A. and the B.G.S. degree are the foreign language requirement (required of the B.A. but not the B.G.S.) and 18 hours junior/senior concentration or minor (required for the B.G.S but not the B.A.).

Degrees offered:
- B.A.
- B.G.S.

Theatre, Culture, and Society

This concentration is designed for students interested in studying the cultural and social underpinnings of theatre and performance along with courses in acting, directing and design and with participation in University Theatre production. The TCS concentration provides the critical, analytical, and historical education that is the foundation of a liberal arts degree. Both the Bachelor of Arts (B.A.) and Bachelor of General Studies (B.G.S.) require 40 hours. The primary distinctions between the B.A. and the B.G.S. degree are the foreign language requirement (required of the B.A. but not the B.G.S.) and 18 hours junior/senior concentration or minor (required for the B.G.S but not the B.A.).

Degrees offered:
- B.A.
- B.G.S.

Theatre Design

And any TWO Film and Media Studies courses 700-level or above (excluding Production courses)
The Bachelor of Fine Arts (B.F.A.) in Theatre Design is intended as general preparation for the professional designer of scenery, costumes or lighting working in theatre and film or as preparation for graduate studies. Students learn through small-class studio courses, laboratories, and involvement in productions in the University Theatre.

Degrees offered:
- B.F.A.

Theatre Minor

Theatre welcomes non-majors who wish to learn about acting, drama, design, theatre history, and technical theatre through the completion of a minor.

Graduate Programs

Our M.F.A., M.A., and Ph.D. programs in Theatre and Dance are unique for combining intensive study of theatre and performance with the production training necessary for theatre and dance careers in higher education and the professional sector. Our graduate students are immersed in an integrated environment that synchronizes theory and practice and prepares artists for academic and professional careers. Currently, our M.A. and Ph.D. degrees are focused on Theatre and Performance Studies. Graduate students interested in a dance focus in this area are encouraged to apply.

Master of Fine Arts in Scenography

The M.F.A. in Scenography is a three-year integrated program of study leading to a Master of Fine Arts degree, the terminal degree for professionals working in design for theatre, dance, film, and television. Scenography classes are at the core of the curriculum and students will develop a portfolio in a wide variety of theatrical and performance genres. Students will design in both the large Crafton-Preyer proscenium stage and the Inge black box theatre. Opportunities exist to work with new technologies in theatre design, including Virtual Realities.

Degrees offered:
- M.F.A.

Master's and Doctoral Degrees in Theatre Studies

The master's and doctoral programs in Theatre and Dance combine rigorous study of theory, criticism, and history with production work in a collegial atmosphere. MA students admitted are usually coming directly from a four-year college experience with minimal professional experience and intense academic study. Doctoral students can expect to develop expertise in current methodologies, such as those derived from or applicable to contemporary historiography, semiotics, post-structuralism, performance studies, post-modernism and cultural studies. Production practice areas include but are not limited to Acting, Directing, Dance, and Dramaturgy. The research of our faculty ranks us in the top ten among a selection of major institutions in the 2015 Faculty Productivity Index by Academic Analytics. The department is an organizational member of the Association for Theatre in Higher Education and home to the prestigious Journal of Dramatic Theory and Criticism.

Degrees offered:
- M.A. or Ph.D.

Departmental Funding

The Department recognizes that financial support during the graduate years is crucial to student success. Through a combination of university awards, departmental teaching assistantships, tuition assistance, student employment, fellowships, and travel grants, we are able to provide almost all of our students with some level of support. Graduate Students in the department may be supported in their careers by a limited number of departmental teaching assistantships, typically awarded to M.F.A and Ph.D. students. More information regarding funding is available on the Graduate Financial Aid (https://theatredance.ku.edu/graduate-financial-aid/) portion of the department website.

Advising

During the first year of enrollment, students must meet with the Director of Graduate Studies once per semester. Returning students will meet one time during the year with the Director of Graduate Studies to determine progress to degree. Advising of students is also conducted by individual faculty members who act as mentor and advisers of students who have interest in their specialty research areas.

Non-Degree Seeking

Students who are interested in enrolling in graduate level coursework in the Department of Theatre and Dance without formal admission to a graduate program at KU are encouraged to apply for graduate non-degree seeking status. See the department's Non-Degree Seeking page for more information.

Courses

DANC 100. Introduction to the Dance Major. 1 Hour H.
This is a 6 week online course designed to identify what is unique about the KU Dance experience, and to introduce students to the requirements for a BA or BFA degree. The course examines issues of academic integrity, informs students about academic support available to them, familiarizes students with the expectations of a dance major and suggests career opportunities for dance majors. Students complete five modules: Getting Started, Programs and Degrees, Academic Integrity and Support, Expectations and Career Pathways to provide a foundation for academic success in the major. LEC.

DANC 101. Ballet I. 2 Hours.
Classical and modern approaches to the language of ballet for beginners. May be repeated for credit. Does not count toward the dance major requirements. ACT.

DANC 103. Modern Contemporary I. 2 Hours.
Dance technique for beginners with precedents in the movement vocabularies of Isadora Duncan, Martha Graham, Doris Humphrey, Merce Cunningham, and the seminal choreographers of modern dance. May be repeated for credit. Does not count toward the dance major requirements. ACT.

DANC 105. Jazz I. 2 Hours.
Dance technique for beginners based on elements of Latino, African, popular and classical jazz dance forms. May be repeated for credit. Does not count toward the dance major requirements. ACT.

DANC 108. Pas de Deux. 1 Hour.
The elements of classical ballet partnering (pas de deux) are explored. These elements include supported poses, turns, lifts, and their coordination between the partners. For men only. Women enroll in Pointe and Pas de Deux, DANC 307. May be repeated for credit. ACT.
DANC 109. Men's Ballet. 2 Hours.
An introduction to classical ballet focusing on the particular requirements of the male ballet technique including leaps, turns, and their presentation. May be repeated for credit. ACT.

DANC 150. Choreography I. 2 Hours H.
The introductory-level course in a series of four composition courses (DANC 150, 250, 350 and 550). Includes basic exploration of improvisation: movement studies for solo figure, movement themes for duet, trio, and larger groups; and dances for non-traditional performing spaces both indoors and outdoors. Students will learn fundamental ingredients of dance (space, time, weight, and energy flow) and how to organize them into short compositional forms such as ABA, verse/refrain, or narrative. Prerequisite: Consent of instructor. LAB.

DANC 177. First Year Seminar: __________. 3 Hours GE11 / U.
A limited-enrollment, seminar course for first-time freshmen, addressing current issues in Dance. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

DANC 210. Rhythms and Structures of Music. 3 Hours H.
An introduction to the analysis and use of rhythms and the compositional forms of music for dance. LEC.

DANC 211. Ballet II. 2 Hours.
Classical and modern approaches to ballet technique for low intermediate dancers. May be repeated for credit. Counts toward the B.A. in Dance and Dance Minor requirements. Prerequisite: DANC 101 or consent of instructor. LAB.

DANC 213. Modern Contemporary II. 2 Hours.
Dance technique for low intermediate dancers with precedents in the movement vocabularies of classical modernists and contemporary choreographers of dance. May be repeated for credit. Counts toward the B.A. and the Minor in dance requirements. Prerequisite: DANC 103 or permission of instructor. LAB.

DANC 215. Jazz II. 2 Hours.
Dance technique for experienced beginners based on elements of Latino, African, popular and classical jazz dance forms. May be repeated for credit. Counts toward the B.A. and Minor in dance requirements. Prerequisite: DANC 105 or consent of instructor. LAB.

DANC 250. Choreography II. 2 Hours H.
The intermediate course in a series of four composition courses (DANC 150, DANC 250, DANC 350 and DANC 550.) Includes more complex exploration of improvisation; movement studies for solo figure, movement themes for duet, trio, and larger groups; and dances for non-traditional performing spaces both indoors and outdoors. Students will further develop the ingredients of dance (space, time, weight, and energy flow) and how to organize them into studies including compositional forms such as ABA, verse/refrain, or narrative. Prerequisite: DANC 150 or consent of instructor. LAB.

DANC 260. Musical Theatre Dance. 3 Hours.
This course focuses on the dance and movement vocabulary uniquely associated with musical theatre productions, as well as a variety of popular dance styles from the 1920s to the present. Performance techniques for the stage are emphasized. LAB.

DANC 290. Sophomore Review. 0 Hours H.
The Sophomore Review of all majors in the BA program in Dance provides an assessment of student progress in the degree. Transfer students to the BA program participate in the year following their admission to KU. The review process consists of: verification that students are making academic progress: Students should have an overall GPA of 2.0; a self-evaluation composed of written responses to a series of questions about their own artistic, technical and discipline-specific academic progress in the program; a faculty evaluation comprised of written feedback on each students artistic, technical and discipline-specific academic progress in the program; and participation in at least one speedback session prior to the end of the second year. Speedback is a feedback process modeled on the speed dating format. All majors sit with faculty members for 5-minute intervals to receive individual feedback. Students engage with professors with whom they have been in technique class or rehearsal for the current year. There are no prerequisites for entry into the course. The completion of the course will be a prerequisite for enrollment in DANC 550 Senior Project. LEC.

DANC 307. Pointe and Pas de Deux. 2 Hours.
An introduction to pointe and classical partnering work for the intermediate/advanced female ballet dancer, with equal emphasis on pointe technique and style, and on classical repertory for couples. May be repeated for credit. Prerequisite: Consent of instructor. LAB.

DANC 308. Pas de Deux. 1 Hour.
The exploration of classical ballet partnering (pas de deux) including supported poses, lifts, turns, and their coordination between the partners. For men only. Women enroll in Pointe and Pas de Deux, DANC 307. May be repeated for credit. Prerequisite: Consent of instructor. LAB.

DANC 309. Men's Ballet. 2 Hours.
A continuation of the study of male classical ballet technique including leaps, turns, batterie, and their presentation. May be repeated for credit. Prerequisite: Consent of instructor. LAB.

DANC 310. Music for Dance. 3 Hours.
An examination of music as accompaniment for dance in both classroom and performance settings. Students will listen and analyze music from various historic periods to develop the skills necessary to select music appropriate for choreography. They will learn techniques for working with accompanists and composers. Prerequisite: DANC 210 or consent of instructor. LEC.

DANC 311. Ballet III. 3 Hours H.
Advanced level technique in classical and modern approaches to the language of ballet. May be repeated for credit. Prerequisite: Instructor consent. LAB.

DANC 313. Modern/Contemporary III. 3 Hours H.
Dance technique for intermediate/advanced dancers with precedents in the movement vocabularies of classical modernists and contemporary choreographers of dance. May be repeated for credit. Counts toward the B.A., B.F.A., and the Minor in dance requirements. Prerequisite: Consent of instructor. LAB.

DANC 315. Jazz III. 3 Hours H.
Dance technique for intermediate dancers based on elements of Latino, African, popular and classical jazz dance forms. May be repeated for variable credit. Prerequisite: DANC 105 or consent of instructor. LAB.

DANC 317. Hip Hop Fundamentals. 3 Hours.
Basic fundamentals of hip-hop dance. Students will learn basic steps for choreography and freestyle based on all urban street styles. They will learn the origins and history of the hip hop movement and all urban street styles through lectures and class participation. LAB.

DANC 319. Tap Fundamentals. 3 Hours SC / H.
Introduces the principles of tap dance including rhythm, clarity of sound, syncopation and weight shift. Emphasis is placed on proper execution of basic tap technique, step knowledge, weight distribution, and the development of basic rhythm and syncopation skills. The course will be
based on "stomp tap" and "rhythm tap", working with/without the music to make clear patterned sounds. LAB.

DANC 320. University Dance Company. 0-1 Hours.
A dance repertory, performance and production class. Emphasis is on the development of skills for performing and/or producing dance concerts. Admission by audition only. May be repeated for credit. IND.

DANC 330. Approaches to World Dance. 3 Hours HL AE42 / H.
This course examines dance forms from throughout the world and how they relate to the times and cultures in which they evolved. Dance forms such as African, East Indian classical, European court dance, ballet, modern, and jazz will be studied through readings, master classes, live performances, videotapes, and films. Prerequisite: 200-level English course. LEC.

DANC 334. Introduction to African Dance Theatre. 2 Hours NW / U.
An introduction to the general techniques of non-verbal theatrical conventions in African cultures. Practical training in movement vocabulary will be supplemented by lectures on the "text" of performance. (Same as AAAS 334 and THR 334.) LEC.

DANC 350. Choreography III. 3 Hours H.
The advanced course in a series of four composition courses (DANC 150, DANC 250, DANC 350 and DANC 550.) Includes in-depth development of improvisation: movement studies for solo figure, movement themes for duet, trio, and larger groups; and dances for non-traditional performing spaces both indoors and outdoors. Students will develop increasingly complex studies of dance (space, time, weight, and energy flow) including compositional forms such as ABA, verse/refrain, or narrative. Prerequisite: DANC 250 or consent of instructor. LAB.

DANC 375. Anatomy and Injury Prevention. 3 Hours H.
Basic concepts of neuromuscular and skeletal education through the use of specific imagery (ideokinesis). Based on the work of Mabel Todd, Lulu Sweigard, and Irmgard Barteneff, the emphasis is on body connectedness and dynamic alignment. The aim is to realize full movement potential in the most efficient way through intrinsic body awareness. Injury prevention is addressed by introducing principles of conditioning (strength, flexibility, endurance) and factors leading to injury such as muscular imbalances or postural deviations. LEC.

DANC 411. Ballet IV. 3 Hours H.
Advanced level technique in classical and modern approaches to the language of ballet. Prerequisite: Consent of instructor. LAB.

DANC 413. Modern Contemporary IV. 3 Hours H.
Dance technique for advanced dancers with precedents in the movement vocabularies of classical modernists and contemporary choreographers of dance. May be repeated for credit. Counts toward the B.A., B.F.A., and the Minor in dance requirements. Prerequisite: Consent of instructor. LAB.

DANC 415. Jazz IV. 3 Hours.
Dance technique for advanced dancers based on elements of Latino, African, popular and classical jazz dance forms. May be repeated for credit. Prerequisite: Consent of instructor. LAB.

DANC 417. Hip Hop II. 3 Hours SC / H.
Intermediate/advanced hip hop dance. Students will learn intermediate/advanced hip hop skills, combinations, and choreography. Greater focus will be placed on intermediate/advanced steps, isolations, and body control. Prerequisite: Hip Hop Fundamentals or permission of instructor. LAB.

DANC 419. Tap II. 3 Hours SC / H.
Intermediate/advanced tap dance. A continuation of the principles introduced in Tap Fundamentals including rhythm, clarity of sound, syncopation and weight shift. Proper execution of intermediate/advanced tap technique including step knowledge, weight distribution, and the development of rhythm and syncopation skills is emphasized. Prerequisite: Tap Fundamentals or permission of instructor. LAB.

DANC 420. Introduction to Videography and Website Design for Dance. 3 Hours H.
This is a hands-on course exploring digital video technology for dance. Students are introduced to video and website production as well as the time management skills necessary to engage the multi-faceted project that is dance video. We will cover video techniques for recording dance; video editing; collaborating with national and international sites and artists; and self-promotion and marketing strategies with video and websites. The final project will be the creation of a video website for each student. No previous video editing experience is required. Prerequisite: Basic computer literacy. LEC.

DANC 430. Dance for Children. 3 Hours.
Methods and materials for teaching creative dance and the fundamentals of dance technique to children. Lessons are prepared and tested in the classroom and then presented to elementary school children. Prerequisite: DANC 313 or consent of instructor. LEC.

DANC 440. Introduction to Classical East Indian Dance. 3 Hours AE42 / W.
Classical East Indian dance has an extensive movement vocabulary that emphasizes the coordination of rhythmic foot patterns with intricate hand gestures. Students will learn the mudras (hand gestures) and their significance and integration within each dance. Readings will include excerpts from the Natya Sastra and other treatises of East Indian dance and culture. LEC.

DANC 460. Dance History: Research and Reconstruction. 3 Hours HL AE42 / W.
Through research and reconstruction, students will examine major topics in dance history, such as the meaning and function of dance in pre-industrial societies, communal and court dance in Europe from the 14th to the 19th centuries, and the transformation and development of dance as a theatre art in the modern world. Texts by dance historians and treatises by dancing masters will be supplemented by readings from fields, such as anthropology, philosophy, art history, and literature, that indicate the different ways of approaching the history of dance. LEC.

DANC 475. Career Preparation in the Arts. 3 Hours H.
Designed to provide an overview of key areas in career preparation in the arts, including resume writing, audition skills, professional speaking, grant writing and development, publicity and marketing strategies, developing relationships with presenters and funders, and audience education. Through readings, class discussion, guest lectures with professionals, and projects based on real-life scenarios, students develop tools to further their careers in the arts. This focused study also provides individuals with the direction and means to employ their training in the field of performing arts administration and management at many different levels. This course prepares students for their entry into the professional arts marketplace. LEC.

DANC 490. Introduction to Flamenco Dance Technique. 3 Hours AE42/GE3H.
Using the basic compas (rhythmic structures) of Flamenco, we will explore the different components of flamenco dance technique: floreo (spiralting fingers), brazeo (arm movements), palmas (rhythmic hand-clapping), marcaje (marking, or movement through space), vueltas (turns) and zapateado (footwork). We will cultivate an awareness of flamenco's unique posture, learn the structure of the different rhythmic forms and introduce the possibilities for personal expression and improvisation. LEC.
DANC 498. Directed Study in: ______. 1-3 Hours.
Investigation of a special topic or project in aesthetics, dance history, movement analysis, production, or a creative project. A maximum of six hours may be counted toward graduation. Prerequisite: At least seven hours of credit in dance courses. IND.

DANC 520. Pedagogy. 3 Hours H.
Methods and materials designed to address the needs of teaching artists across genres of dance (ballet, modern/contemporary, jazz, creative movement) among children, adults and special populations. Lessons are prepared and tested in the classroom among peers. Prerequisite: Consent of Instructor. LAB.

DANC 530. Practicum in: ______. 1 Hour.
Supervised experience in teaching beginning level dance technique in the styles of ballet, jazz, or modern dance. Different approaches are analyzed, discussed, and tested in the studio. Prerequisite: Intermediate level of dance technique in the style of the practicum. FLK.

DANC 540. Field Experience in Dance Teaching. 3 Hours.
Teaching ballet, modern, or jazz dance technique to children or adults with faculty supervision in an academic or community program. Prerequisite: Consent of instructor. FLK.

DANC 550. Senior Project. 3 Hours AE61.
In-depth research project in dance theory or history, or choreography project involving the complete development and presentation of a dance idea. Prerequisite: Performance option: DANC 320, DANC 350, DANC 290 (for BA students only) and permission of the dance division. Research option: DANC 340, DANC 370, DANC 375, DANC 460, DANC 462, DANC 290 (for BA students only) and permission of the dance division. IND.

DANC 580. Special Topics in Dance: ______. 3 Hours.
A study of current developments in dance with an emphasis on performance or research. May be repeated for credit. Prerequisite: Junior or senior standing or consent of instructor. LAB.

DANC 598. Seminar in Dance. 3 Hours.
Special studies in dance. May be repeated for credit. Prerequisite: Junior or senior standing and consent of instructor. LEC.

DANC 898. Directed Study in: ______. 1-3 Hours.
Directed study in some aspect of aesthetics, dance history, movement analysis, production, or an advanced creative project. Prerequisite: Consent of instructor. IND.

Courses

THR 100. Introduction to the Theatre. 3 Hours HL GE3H / H.
Designed to help students by means of experience with theatre as well as study about it to achieve an understanding of its cultural role in contemporary society, to develop a sensitive and informed appreciation of its art, and to make it an integral part of their cultural lives. Lectures, discussion groups, special interest groups, theatre attendance. LEC.

THR 101. Theatre Practicum I. 1 Hour H.
One crew assignment in a University Theatre Dance production qualifies for 1 credit hour. May be repeated for credit. ACT.

THR 105. Improvisation. 3 Hours H.
Designed to free the beginning actor, develop creativity and imagination. Fundamentals of improvisation technique and skills through physical work, deep listening and focus. Ensemble building emphasized with exercises and games, the work will progress to sketch writing and performance. LEC.

THR 106. Acting I. 3 Hours HL GE3H / H.
Fundamental techniques in acting. Practice in character creation, body language, and effective stage speech. LEC.

THR 111. Make-Up. 1 Hour H.
The techniques in application of make-up for specific characterizations, both straight and character. Study of the structure of the face and hands for stage make-up. Should be taken concurrently with THR 106, if possible. LEC.

THR 116. Scenographic Techniques. 3 Hours H.
Emphasis on drafting, model building, and presentation techniques for the theatrical designer or art director. Some work in computer drafting for the designer-technician. Lecture and laboratory periods. LEC.

THR 120. Public Speaking as Performance. 3 Hours GE22 / H.
This course offers students a unique embodied approach to public speaking. Students will compose and deliver presentations. Theatre games, improvisational techniques, and vocal exercises will help students gain awareness of how mind, body, and speech interrelate. Students will learn to manage performance anxiety, organize a narrative, speak extemporaneously and articulate clearly. Texts used in acting training will supplement a public speaking textbook. Through a combination of speech assignments and theatre exercises, this course will teach students to generate, explore, organize, interpret, and express ideas orally; to use language and media to express ideas clearly and confidently; and integrate body and mind to serve speaking needs in a variety of contexts and across social, cultural, and disciplinary boundaries. LEC.

THR 177. First Year Seminar: ______. 3 Hours HT GE11.
A limited-enrollment, seminar course for first-time freshmen, organized around current issues in Theatre. May not contribute to major requirements in theatre. First year seminar topics are coordinated and approved through the Office of First Year Experiences. Prerequisite: First-time freshman status. LEC.

THR 201. Theatre Practicum II. 1 Hour H.
One crew assignment in a University Theatre Dance production qualifies for 1 credit hour. May be repeated for credit. Prerequisite: THR 101. ACT.

THR 204. Study Abroad Topics in: ______. 1-6 Hours H.
This course is designed for the study of special topics in Theatre at the freshman/sophomore level. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

THR 206. Acting II. 3 Hours H.
The study of roles and scenes from plays. Practice in character analysis, creation of roles, rehearsal of scenes, and ensemble work. Prerequisite: THR 106. LEC.

THR 210. Musical Performance for the Actor I. 3 Hours H.
Beginning Studies in Musical Theatre Performance: practical application of voice, acting and movement techniques for musical theatre, solo and group performance. LEC.

THR 212. Beginning Voice and Speech for Actors. 3 Hours H.
A foundation course; introduction to phonetics; training in American Stage Speech; articulation skills; resonance and voice placement. LEC.

THR 213. Movement I: The Acting Instrument. 3 Hours H.
A foundational course in discovering ease and efficient use of the body in a performance context, developing non-verbal communication and partnering skills, and establishing the connection of movement to voice production. Trains actors in proper warm-up technique, alignment and balance, physical safety, and basic tumbling skills. LEC.
THR 215. Approaching Design. 3 Hours HL GE3H / H. Conceptualization and visualization of the elements involved in creative design for theatre, dance, television, and film. LEC.

THR 216. Scenic Production. 2 Hours H. Introduction to design and layout, and the use of scenery for theatre, television, and film. Concentration on the technical organization of scenic production. Lecture, discussion, and laboratory periods. LEC.

THR 220. Costume Production. 2 Hours H. Introduction to techniques of costume construction, including study of fabrics, color, fundamentals of pattern making, and draping of costumes for theatre, television, and film. Concentration on the technical organization of costume production. Lecture, discussion, and laboratory periods. LEC.

THR 224. Lighting Production. 2 Hours H. Introduction to the planning and execution of lighting for theatre, television, and film. Concentration organized any given semester to study particular subject matter or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

THR 301. Theatre Practicum III. 1 Hour H. One crew assignment in a University Theatre Dance production qualifies for 1 credit hour. May be repeated for credit. Prerequisite: THR 201. ACT.

THR 302. Undergraduate Seminar in: ______. 3 Hours H. Course organized any given semester to study a particular subject matter or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

THR 303. Summer Theatre. 1-6 Hours H. Provides experience in a wide range of theatre activity related to the summer theatre production or productions. Work may include activity in the following areas: acting, directing, design, technical theatre, voice and/or movement. Specialized skills are developed through individual classes, production preparation and performance. Prerequisite: Consent of instructor. ACT.

THR 304. Study Abroad Topics in: ______. 1-6 Hours H. This course is designed for the study of special topics in Theatre at the junior/senior level. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

THR 305. Honors Seminar in: ______. 3 Hours H. Special topics seminar serving students enrolled in the University Honors Program. Course organized any given semester to study a particular subject matter or to take advantage of special competence by an individual faculty member. Topics change as needs and resources develop. Prerequisite: Students must be enrolled in the University Honors Program. LEC.

THR 306. Acting Ill. 3 Hours H. Advanced projects in acting. Character and scene analysis, scoring the role, rehearsal, and performance. Prerequisite: THR 206. LEC.

THR 307. Undergraduate Theatre Internship. 1-3 Hours AE61 / H. Supervised study with an approved theatre company or project. May be repeated for credit. No more than six hours may be applied to the B.A. or B.G.S. degrees. Prerequisite: Consent of instructor and at least seven hours credit in the department. INT.

THR 308. Script Analysis. 3 Hours H. This course provides knowledge and methods enabling students to conduct in-depth study of dramatic scripts. Emphasis is given to the analysis skills appropriate to practitioners of stage and screen arts. LEC.

THR 310. Musical Performance for the Actor II. 3 Hours H. Intermediate Studies in Musical Theatre Performance: practical application of voice, acting and movement techniques for musical theatre, solo and group performance. Prerequisite: THR 106 and THR 210. LEC.

THR 312. Acting with an Accent. 3 Hours H. A performance class for actors using monologues and scenes involving the use of accents and dialects. The course will also provide instruction in many of the most used American regional, British regional dialects, and foreign language accents. Prerequisite: THR 212, or by permission of instructor after the student demonstrates an ability in the International Phonetic Alphabet. LEC.

THR 313. Movement II: Physical Characterization. 3 Hours H. The study of diverse physical acting techniques, and an investigation into creating a character through manipulation of the acting instrument. Actor training in performance neutrality, mask work, age, and gender distinctions. Prerequisite: THR 213 and permission of instructor. LEC.

THR 316. Beginning Scene Design. 3 Hours H. Study of scenic design process with beginning problems in textual analysis, style, historical research, and preliminary and finished methods of design presentation. Concentration on developing fundamental design skills and awareness. Prerequisite: THR 211 and THR 215, or permission of instructor. LEC.

THR 320. Beginning Costume Design. 3 Hours H. Study of the costume design process with beginning problems in textual analysis, style, historical research, and preliminary and finished methods of design presentation. Concentration on developing fundamental design skills and awareness. Prerequisite: THR 215. LEC.

THR 324. Beginning Lighting Design. 3 Hours H. Study of the lighting design process with beginning problems in textual analysis, style, historical research, with preliminary and finished methods of design presentation. Concentration on developing fundamental design skills and awareness. Prerequisite: THR 116 and THR 215, or permission of instructor. LEC.

THR 326. African Theatre and Drama. 3 Hours NW / H/W. A study of the origin and development of continental African theatre and its affinity to the Levant. Traditional, colonial and contemporary dramatic theories and experiments will be examined in play selections. (Same as AAAS 355.) LEC.

THR 327. African-American Theatre and Drama. 3 Hours AE41 / H. A historical study of Black Theatre in the U.S.A. from its African genesis to its contemporary Americaness. Epochs in African-American dramaturgy will be critically examined. (Same as AAAS 356.) LEC.

THR 334. Introduction to African Dance Theatre. 2 Hours NW / U. An introduction to the general techniques of non-verbal theatrical conventions in African cultures. Practical training in movement vocabulary will be supplemented by lectures on the "text" of performance. (Same as AAAS 334 and DANC 334.) LEC.

THR 380. Popular Culture: ______. 3 Hours HL GE3H / H. Interdisciplinary examination of popular culture oriented around a specific genre or theme. Objects of study may include popular forms of live performance such as musicals or vaudeville, as well as media-based performances (radio, television, film, internet). Specific topic to be studied changes as needs and resources develop. May be repeated for credit for different topics. LEC.
THR 401. Stage Management and Assistant Direction. 1 Hour H.
Majors are assigned to stage manage or assistant direct a University Theatre production, or to take related workshops in stage management or assistant directing. May be repeated for credit ACT.

THR 404. Children and Drama. 3 Hours HL / H.
Exploration of forms, methods, and materials appropriate for development of elementary-age children in dramatic arts. LEC.

THR 405. Children and Media. 3 Hours H.
The applied study of child development theories and research methods on the influences and effects of television and related visual media on childhood in the contexts of families, schools, and society. (Same as ABSC 405 and PSYC 405.) LEC.

THR 406. Audition Techniques. 3 Hours H.
This course prepares students for all types of audition experiences. It includes study in techniques of prepared auditions, cold readings, interviews, and the musical audition for actors. Emphasis is placed upon developing resumes and photo portfolios as well as concentrated study in professional contracts, unions, and agent acquisition. Prerequisite: THR 206. LEC.

THR 407. Advanced Acting Special Topic: _____. 3 Hours.
This course is designed for the study of special topics in performance techniques involving advanced skills for the actor at the junior/senior level. Specific topic to be studied changes as needs and resources develop. May be repeated for credit for different topics. Prerequisite: THR 306. Theatre major or minor students. LEC.

THR 410. Musical Performance for the Actor III. 3 Hours H.
Advanced Studies in Musical Theatre Performance: practical application of voice, acting and movement techniques for musical theatre, solo and group performance. Prerequisite: THR 106, THR 210, and THR 310. LEC.

THR 413. Stage Combat Skills. 3 Hours U.
Study of the illusion of violence in a dramatic context and the special skills necessary for creating believable and safe stage fights. Actor training in armed and unarmed combat, including one or more of the following: rapier and dagger, broadsword, and quarter staff. Prerequisite: THR 313 and permission of instructor. LEC.

THR 416. Design Forum. 3 Hours U.
Depending on student qualifications and specialization, focus is on scenic, costume, and/or lighting design. Special attention placed on developing collaborative awareness and the conceptual and presentation skills that underlie and inform the design process. Prerequisite: THR 316 or THR 320 or THR 324. LEC.

THR 429. Postcolonial Theatre and Drama. 3 Hours NW AE42/GE3H / H.
The course develops an understanding of the postcolonial concept and its different manifestations in theatre and drama across nations and cultures. It approaches postcolonialism as a way of reading theatre, and as a genre within theatre by exploring how the "colonial project" has reconfigured the concept, content, and context of theatre in both colonized and colonizing cultures. In addition to the study of postcolonial playwrights and their works, the course is also an introduction to postcolonial theory and its critics. (Same as AAAS 429.) LEC.

THR 445. Teaching Theatre in the Middle/Secondary Schools. 3 Hours H.
Study of philosophy and methods appropriate to teaching improvisation, acting, stagecraft, directing, playwriting, dramatic literature, and theatre history in middle/secondary schools. Includes curriculum development, instructional and evaluative strategies, and management of co-curricular theatre programs. Prerequisite: Consent of instructor. LEC.

THR 498. Honors Directed Study in Theatre. 3 Hours AE61 / H.
Individual creation of an original product that integrates theatre knowledge and skills. Selected in advance with advice, approval, and supervision by an instructor. Prerequisite: Consent of instructor, senior level status, and 3.5 GPA in Theatre and 3.25 GPA overall at the time of enrollment. IND.

THR 499. Directed Study in Theatre. 3 Hours AE61 / H.
Individual creation of an original product that integrates theatre knowledge and skills. Selected in advance with advice, approval, and supervision by an instructor. Prerequisite: Consent of instructor and junior or senior level status. IND.

THR 506. Acting for the Camera. 3 Hours H.
A study of acting techniques appropriate to the requirements of the camera. Emphasis is placed on developing audition skills necessary to compete for roles in dramatic features, corporate videos, and commercials. Actors acquire skills essential to the transition from stage to camera. Prerequisite: Permission of instructor. LEC.

THR 507. Acting Professionally. 3 Hours.
This course prepares students for entering the world of professional acting. It includes study in audition techniques such as prepared auditions, cold readings, interviews, and musical auditions. Emphasis is placed on developing portfolios as well as acquainting students with professional contract, unions, and agents and other aspects of the profession. Open to theatre major and minor students. Prerequisite: THR 306. LEC.

THR 508. Fundamentals of Directing. 3 Hours H.
Offered as a first course in play directing. Designed primarily for theatre majors and secondary education majors in language arts with a theatre and drama concentration. The content is principally descriptive in nature with some practical experience. Lecture and laboratory periods. Prerequisite: THR 308. LEC.

THR 509. Dramatic Script Writing. 3 Hours H.
Study and practice in the fundamental techniques of dramatic writing and the application of such techniques most specifically to theatre. Open upon consent of instructor to students who have completed one course in advanced composition and one course in the theory or history of drama. LEC.

THR 512. A Vocal Approach to the Classics. 3 Hours H.
This is an advanced voice and speech course for actors aiming to further increase their command over tone, rhythm, pacing, and diction. Their range and power will be extended. Through discovery of the demands of a variety of classical texts, the actor will be challenged both in verse and in prose to develop the skills necessary to fully interpret that material. Prerequisite: THR 212. LEC.

THR 516. Scenic Painting Techniques. 3 Hours H.
Study of painting equipment, tools, pigments, binders, and vehicles, and their relationship to the surfaces to be painted. Instruction in basic painting techniques. Prerequisite: THR 116 and THR 215. LEC.

THR 517. Computer-Aided Design. 3 Hours U.
Study of new media in theatre and film/video production, primarily computer technologies and methods for the theatrical designer or art director. Emphasis on computer 3-D modeling and color rendering. Prerequisite: THR 116, THR 215, or permission of instructor. LEC.

THR 518. Scenography and the Classic Script. 3 Hours H.
Holistic production design, including lighting, scenery, and costumes, for classic theatre scripts. Contrasts historical styles of production with styles for contemporary spaces and audiences. Projects tailored to the needs and level of the students. This course is offered at the 500 and 700 level.
with additional assignments at the 700 level. Not open to students with credit in THR 720. Prerequisite: Consent of instructor. LEC.

THR 519. Scenography and the Modern Script. 3 Hours H.
Holistic production design, including lighting, scenery, and costumes, for modern theatre scripts. Examines modern styles of production. Projects tailored to the needs and level of the students. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in THR 721. Prerequisite: Consent of instructor. LEC.

THR 520. History of Period Style I. 3 Hours H.
A survey of Western style from ancient Egypt to the Restoration. Focus is placed on developing a comprehensive understanding of the stylistic relationships between art, architecture, clothing, decor, manners, and social and political history. Prerequisite: Nine hours in theatre/design/technical courses or consent of instructor. LEC.

THR 521. History of Period Style II. 3 Hours H.
Continuation of THR 520, from the Restoration to the present day. Prerequisite: Nine hours in theatre/design/technical courses or consent of instructor. LEC.

THR 525. History of Theatre. 3 Hours H.
Study of developments in world theatre and drama from the ancient world to the eighteenth century. Prerequisite: THR 308. LEC.

THR 526. History of Theatre II. 3 Hours H.
Study of developments in world theatre and drama since the eighteenth century. Prerequisite: THR 308. LEC.

THR 527. Asian Theatre and Performance. 3 Hours NW / H/W.
A survey of traditional and modern theatre and performance in Asia, with greatest attention given to India, China, and Japan. A study of plays, dramatic genres, history, conventions of play production, acting styles and other performance forms. LEC.

THR 528. History of U.S. Theatre and Drama. 3 Hours H.
Historical approach to the development of theatre and performing arts in the United States. Prerequisite: THR 308. LEC.

THR 529. Race and the American Theatre. 3 Hours U.
The representation(s) of race in significant texts and performance styles in American theatre analyzed according to political ideologies, dramatic movements and the impact of these factors on the representation of the "other" in the theatre. (Same as AAAS 585 and AMS 529.) LEC.

THR 550. Applied and Interactive Theatre. 3 Hours H.
This course is an exploration of interactive drama techniques and practices of the evolving field of applied theatre. The tools of applied theatre serve varied purposes and are being used around the world for community-building, personal empowerment, to address social and political issues, and to strengthen communication skills. The class will work specifically on community-based dialogue and classroom situations that students and professors encounter in their daily lives. LEC.

THR 560. Collaborative Production. 3 Hours AE61 / H.
Seniors collaborate as a theatre company to create an original production that integrates several of the following areas: improvisation, playwriting, acting, directing, dramaturgy, design, technical production, and stage management. Collaboration of group project approved in advance with advice, approval, and supervision by at least one instructor. Prerequisite: Senior level and consent of at least one instructor. IND.

THR 599. Special Topics in Scenography. 1-6 Hours U.
Individual studio activity. Course content to be determined by the student under the supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: Permission of instructor. IND.

THR 603. Theatre for Young Audiences. 3 Hours U.
A survey of theories, history, literature, criticism, production methods, and audience research about theatre performed by adults for children and adolescents. Emphasis is on child development and community outreach. Prerequisite: THR 308 or consent of instructor. LEC.

THR 604. Drama with Young People. 1-3 Hours U.
A laboratory experience in developing and conducting improvisational drama workshops with children or adolescents in local schools. Includes readings by leading theorists and practitioners. Prerequisite: Actors cast in current KU Theatre for Young People production, or THR 404, or consent of instructor. LEC.

THR 617. Computer-Aided Design II. 3 Hours U.
Continuation of THR 517. Emphasis on computer-generated images as scenic media in production situations. Prerequisite: THR 517, or permission of instructor. LEC.

THR 618. Scenography and the Musical Theatre. 3 Hours H.
Holistic production design, including lighting, scenery, and costumes, for musical theatre, opera, and dance. Examines development and changes in design styles in the evolution of musical theatre, opera, and dance and the special requirements of these forms. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 820. Prerequisite: Consent of instructor. LEC.

THR 619. Scenography and the Contemporary Script. 3 Hours H.
Holistic production design, including lighting, scenery, and costumes, for contemporary scripts. Examines contemporary episodic scripts written for the stage that are based on a filmic structure, the special problems of these kinds of scripts, and the respective problems of designing for theatre and film. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 821. Prerequisite: Consent of instructor. LEC.

THR 620. Scenography and the Experimental Production. 3 Hours H.
Holistic production design, including lighting, scenery, and costumes, for experimental scripts/scenarios. Examines experimental approaches to a variety of script/scenarios, including mixed-media production. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 822. Prerequisite: Consent of instructor. LEC.

THR 626. Myth and the Dramatist. 3 Hours U.
This seminar critically explores myths in dramatic literature from ancient to contemporary times, using select authors from different cultures. Analysis of the works will be based on both conventional and post-structuralist theories and specific emphasis will be on myths that have been adapted cross-culturally and/or in different time perspectives. LEC.

THR 702. Graduate Seminar in: ______. 3 Hours.
Course organized any given semester to study particular subject matter or to take advantage of special competency by an individual faculty member. Topics change as needs and resources develop. Class discussion, readings, and individual projects. LEC.

THR 703. Directed Readings in Theatre. 1-3 Hours.
Research reading and presentation of reports on specific subjects related to the students major area of specialization. May be repeated up to a total of six credits on petition. Required of all MFA Scenography students. IND.
THR 704. Study Abroad Topics in: ______. 1-6 Hours.
This course is designed for the study of special topics in Theatre. Credit for coursework must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. LEC.

THR 707. Theatre Internship. 3-12 Hours.
Study with an approved theatre company. Emphasis may be in one or all of the following areas: acting, directing, stage management, technical theatre, promotion management. No more than six hours may be applied to an M.A. degree. Course will be graded satisfactory/unsatisfactory. Prerequisite: Consent of instructor. INT.

THR 710. The Art of Directing. 3 Hours.
Offered as an advanced course in play directing. Theory is combined with practical application to explore the craft of directing using a variety of styles in classic and contemporary theatre. Lecture and laboratory periods. LEC.

THR 715. Problems and Techniques of Direction. 3 Hours.
Practical experience in directing. Prerequisite: THR 710. RSH.

THR 719. M.F.A. Production Seminar. 3 Hours.
To be taken by M.F.A. candidates during those semesters in which they are assigned to design one or more elements in a production to be mounted on one of our stages. Weekly critique and discussion of solutions to practical design problems from conception through execution. May be repeated for a total of no more than six hours credit. Prerequisite: Consent of instructor. IND.

THR 720. Scenography and the Classic Script. 3 Hours.
Holistic production design, including lighting, scenery, and costumes, for classic theatre scripts. Contrasts historical styles of production with styles for contemporary spaces and audiences. Projects tailored to the needs and level of the students. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in THR 518. Prerequisite: Consent of the instructor. LEC.

THR 721. Scenography and the Modern Script. 3 Hours.
Holistic production design, including lighting, scenery, and costumes, for modern theatre scripts. Examines modern styles of production. Projects tailored to the needs and level of the students. This course is offered at the 500 and 700 level with additional assignments at the 700 level. Not open to students with credit in THR 519. Prerequisite: Consent of instructor. LEC.

THR 725. Russian Theatre and Drama from Stanislavski and Chekhov to the Present. 3 Hours.
A study of the development of Russian theatre and dramatic literature from 1898 to the present. Lectures and readings in English. (Same as SLAV 762.) LEC.

THR 800. Introduction to Graduate Study in Theatre. 3 Hours.
Major emphasis is placed upon the principles of research, bibliographical data, and research methods useful in theatre and performance studies. The course should be taken at the beginning of the graduate student's program. LEC.

THR 801. Professional Development Seminar. 1-3 Hours.
Preparation for faculty careers in theatre and related fields, including issues of research, teaching, and service. At least three hours per semester will be devoted to training in responsible scholarship. May be repeated for credit. RSH.

THR 803. Summer Theatre: Graduate. 1-3 Hours.
Provides graduate level experience in a wide range of theatre activity related to the summer theatre production or productions. Work may include activity in the following areas: acting, directing, design, technical theatre, voice and/or movement. Specialized skills are developed through individual classes, production preparation, and performance. Prerequisite: Consent of instructor. FLF.

THR 815. Advanced Play Production. 1-3 Hours.
Individually supervised directing of theatre pieces for public presentation. In special cases credit may be given for musical direction, choreography, or stage management. Prerequisite: THR 715. FLF.

THR 817. Theory of Acting and Directing. 3 Hours.
Readings, lectures, discussions and papers on acting and directing theory; is concerned with the divergence between presentational and representational acting methods and the emergence of directing art. Prerequisite: THR 710 or THR 715. LEC.

THR 819. Advanced M.F.A. Production Seminar. 3 Hours.
Continuation of THR 719, but production design assignments will be more complex and larger in scope. May be repeated for maximum of six hours credit. Prerequisite: Six hours of THR 719 and consent of instructor. IND.

THR 820. Scenography and the Musical Theatre. 3 Hours.
Holistic production design, including lighting, scenery, and costumes, for musical theatre, opera, and dance. Examines developments and changes in design styles in the evolution of musical theatre, opera, and dance and the special requirements of these forms. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 618. Prerequisite: Consent of instructor. LEC.

THR 821. Scenography and the Contemporary Script. 3 Hours.
Holistic production design, including lighting, scenery, and costumes, for contemporary scripts. Examines contemporary episodic scripts written for the stage that are based on a filmic structure, the special problems of these kinds of scripts, and the respective problems of designing for theatre and film. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 619. Prerequisite: Consent of instructor. LEC.

THR 822. Scenography and the Experimental Production. 3 Hours.
Holistic production design, including lighting, scenery, and costumes, for experimental scripts/scenarios. Examines experimental approaches to a variety of script/scenarios, including mixed-media production. Projects tailored to the needs and level of the students. This course is offered at the 600 and 800 level with additional assignments at the 800 level. Not open to students with credit in THR 620. Prerequisite: Consent of instructor. LEC.

THR 826. Seminar in African Theatre. 3 Hours.
A study of developments in African theatre in the 20th Century focusing on themes, concepts, styles, and critical perspectives. The course will investigate the idea of an "African theatre" and identify different periods and movements within national and international contexts. The analysis of representative works and authors will be grounded within appropriate theoretical frameworks. LEC.

THR 828. Seminar in American Theatre and Drama. 3 Hours.
Intensive investigation of selected topics. Individual study emphasized. LEC.

THR 898. Investigation and Conference (for Master's Students). 1-8 Hours.
Directed research and experimentation in theatre. Limited to eight hours credit toward the Master's degree. RSH.

THR 899. Master's Thesis. 1-6 Hours.
THE.
THR 901. Theatre Seminar in: ______. 3 Hours.
A graduate seminar devoted to selected historical, theoretical, or critical issues in theatre. Prerequisite: Consent of instructor. LEC.

THR 914. Theories of Race and Performance. 3 Hours.
Theories of Race and Performance is an inter-textual graduate course that explores interdisciplinary scholarship on race and performance. It seeks to translate these theories into practical application in various visual, audio and performance texts in popular culture. The course is divided into modules aimed at gaining an understanding of the shifting meaning of race over time and its relationship to ethnicity, gender, sexuality, class, nation, and power. How do we perform our identities? How is race constructed and maintained through performance? To begin to answer these questions, we will examine the ways in which racial identities are created through performance. SEM.

THR 916. Postmodern Theatre and Drama. 3 Hours.
A study of developments in European and American playwriting, directing, acting, and design from World War II to the present. SEM.

THR 917. Dramatic Theory I. 3 Hours.
A survey of dramatic theory from Plato to Lessing. LEC.

THR 919. Dramatic Theory Seminar. 3 Hours.
Study in depth of selected theorists. Offered as determined by faculty availability and student interest. LEC.

THR 920. Practicum in Criticism. 3 Hours.
Contemporary approaches to theatre and drama criticism. Emphasis on actual practice, using a variety of critical methods. FLD.

THR 922. Theatre Historiography. 3 Hours.
This course focuses on the advanced study of research methods, subjects, interpretative paradigms, theoretical frameworks, and philosophies of history employed in contemporary approaches to writing and teaching theatre history. Prerequisite: THR 525 and THR 526 or equivalent. LEC.

THR 998. Investigation and Conference (for Doctoral Students). 1-8 Hours.
RSH.

THR 999. Doctoral Dissertation. 1-12 Hours.
The.

Bachelor of Fine Arts in Dance

Bachelor of Fine Arts in Dance

A BFA in dance focuses on technical training and preparation for a career in professional performance. An audition is required for entry in the BFA program. For information regarding the audition process, please see the Department of Theatre and Dance’s website (https://theatredance.ku.edu/admission-audition/) or email KUDance@ku.edu (kudance@ku.edu).

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Bachelor of Fine Arts in Dance Degree Requirements

The B.F.A. requires an audition for entry; however, students enrolled in the B.A. program may audition at the end of each academic year. In order to be considered for a scholarship or entry directly into the B.F.A. program, incoming students MUST audition in person or online via Acceptd (https://app.getacceptd.com/kudance/).

The curriculum leading to the B.F.A. focuses on technique, choreography, and performance. It prepares students for professional careers or further academic study in dance. Entrance into the B.F.A. program is provisional during the first year. After evaluation of the year’s work and approval by the faculty, a student is fully accepted into the B.F.A. program.

B.F.A. majors receive integrated training in ballet, modern, and jazz dance technique. They also take courses in choreography, dance theory, history, dance science, and pedagogy. Other B.F.A. courses include flamenco, performing arts administration, classical East Indian dance, conditioning and injury prevention for dancers, and musical theatre dance. Students must complete a senior project in performance and/or choreography. B.F.A. majors have a variety of performance opportunities as members of the University Dance Company (https://rockchalkcentral.ku.edu/organization/universitydancecompany/). A total of 120 credit hours is required.

Bachelor of Arts in Dance

Bachelor of Arts in Dance

A BA in dance offers comprehensive technical training built on a solid liberal arts foundation, allowing students to double-major or pursue graduate study in a wide number of fields. The BA does NOT require an audition for entry. Instead, students must complete an evaluation at the end of their sophomore year to complete the degree program.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Bachelor of Arts in Dance Degree Requirements

The B.A. in Dance at the University of Kansas does not require an audition. Instead, all students must pass a technical and academic evaluation at the end of their sophomore year. However, to be considered for a scholarship, a prospective or transfer student must audition. The B.A. in dance offers comprehensive technical training, built on a solid liberal arts foundation, which allows students to double-major or to pursue graduate study in any number of fields.

The curriculum leading to the B.A. in dance offers integrated training in ballet, modern, and jazz dance techniques, as well as courses in classical Indian dance, African dance and flamenco dance techniques, musical theatre dance, dance improvisation and composition, video for dance, history and philosophy of dance, music for dance, creative dance for children, dance production, career preparation in the arts and independent study options. The program prepares students for professional careers in dance or for further academic study. The senior project may involve research in any of the above areas or choreography and performance culminating in a senior recital. Students are expected to take technique classes appropriate to their level of training each semester they are enrolled. A total of 120 credit hours is required.

Total Hours 120

1 Many major DANC courses are offered every other year, and a student’s start year will determine the exact sequence of courses.
2 Level of technique will be assessed by DANC professor.
3 By audition in the first week of the semester.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

**Total Hours 120**

1. The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.
2. DANC 150 and DANC 350 are rotational and must be taken in sequence.
3. Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

### Bachelor of Arts and Bachelor of General Studies in Theatre

Theatre B.A. and B.G.S. students work intensively on acquiring theatre skills and knowledge in classrooms, studios, and laboratories. Undergraduates pursuing the B.A. or B.G.S. may choose from two emphases: Theatre, Culture, and Society or Performance.

The Performance concentration prepares theatre majors toward a career as a professional performer. Through small-class studio courses and department productions, our program provides talented performing artists with a basic foundation in acting, movement, voice and speech, improvisation, and musical theatre.

The Theatre, Culture and Society concentration prepares students for careers that require critical, analytical, and historical foundations in the liberal arts, while providing courses in acting, directing and design as well as participation in University Theatre production. Our program provides emerging scholars with basic knowledge and research tools for understanding the social and cultural significance of theatre and performance.

Both the Bachelor of Arts (B.A.) and Bachelor of General Studies (B.G.S.) in Theatre require 40 hours. The primary distinctions between the B.A. and the B.G.S. degree are the foreign language requirement (required of
the B.A. but not the B.G.S.) and 18 hours junior/senior concentration or minor (required for the B.G.S but not the B.A.).

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

There are no major admission requirements for the B.A. or B.G.S. in Theatre.

Students considering a theatre major should enroll in THR 106 and THR 101 and complete all 100- and 200-level courses in the first 2 years of study. It is imperative that theatre students earn practicum credit (THR 101, THR 201, THR 301) early in their careers at KU.

Requirements for the B.A. and B.G.S. Major

Both the B.A. and B.G.S. require 40 hours. The distinction between the B.G.S. degree and the B.A. degree is found in College of Liberal Arts and Sciences requirements.

Theatre, Culture, and Society Emphasis

The following 40 hours are required: (40 hours)

Theatre Performance Electives - 9 hours. Satisfied by: Successful completion of 3 courses (9 hours) of THR 210 or any 300-level or above Theatre course.

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 40 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/). Sample 4-year plans for the BA degree in Theatre with the following concentrations can be found here: Theatre, Culture, and Society (p. 2079) and Performance (p. 2078). Sample 4-year plans for the BGS degree in Theatre with the following concentrations can be found here: Theatre, Culture, and Society (p. 2080) and Performance (p. 2080), or by using the left-side navigation.

**Departmental Honors**

An undergraduate interested in honors in theatre must present a written declaration of intention to the department’s honors coordinator as early as possible in the junior or senior year. The following are required:

1. A grade-point average at the time of declaration and at graduation of at least 3.5 in theatre courses.
2. 3-6 hours of THR 498 Honors Seminar. Enrollment in this course must be approved by the honors coordinator. Students in the honors seminar work under the direction of one instructor for each semester. The instructor conducts an examination at the end of each semester's work and assigns a grade. Credit only is given to students who complete the work assigned for any semester but do not complete the requirements for honors. Students may change area of interest or instructor at the beginning of a semester with the consent of the honors coordinator.

**BA in Theatre with concentration in Performance**

Below is a sample 4-year plan for students pursuing the BA in Theatre with a concentration in Performance. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).
The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.

2 Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.

3 Nine hours of THR electives are required. Satisfied by: Successful completion of 3 courses (9 hours) of THR 210 or any 300-level or above Theatre course.

4 Typically students take a KU Core Goal 6 course from their major. Several options are available for theatre majors. See KU Core website.

**BA in Theatre with concentration in Theatre, Culture & Society**

Below is a sample 4-year plan for students pursuing the BA in Theatre with a concentration in Theatre, Culture, and Society. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

| Total Hours 120-123 | 15 |

1 The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.

2 Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.
Typically students take a KU Core Goal 6 course from their major. Several options are available for theatre majors. See KU Core website.

Eighteen hours of THR electives are required. Satisfied by: Successful completion of 6 courses (18 hours) of THR 210 or any 300-level or above Theatre course.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

**BGS in Theatre with concentration in Performance**

Below is a sample 4-year plan for students pursuing the BGS in Theatre with concentration in Performance. To view the list of courses approved to fulfill KU Core Goals, please visit the [KU Core website](http://kucore.ku.edu/courses/).

1 Eighteen hours of THR electives are required. Satisfied by: Successful completion of 6 courses (18 hours) of THR 210 or any 300-level or above Theatre course.

2 Please note that the Bachelor of General Studies degree requires completion of a single BGS AND a secondary field of academic study (a second major, co-major, or minor). This sample plan is based on the completion of a minor. If a second major is selected instead, elective hours on plan will be needed for these additional major requirements.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

**Bachelor of Fine Arts in Theatre Design**

The Bachelor of Fine Arts (B.F.A.) in Theatre Design is intended as a general preparation for the professional designer of scenery, costumes or lighting in theatre and/or film or as preparation for graduate study. Students learn through small-class studio courses, laboratories, and involvement in productions in the University Theatre. Students in the B.F.A. Theatre Design program take 69 hours in Theatre, Visual Art, and Art History in addition to the KU Core and electives.

**Undergraduate Admission**

**Admission to KU**

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.
Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

There are no major admission requirements for the B.F.A. in Theatre Design.

**B.F.A. in Theatre Design Degree Requirements**

The program leading to the B.F.A. degree in theatre design is offered cooperatively by the School of the Arts and the Department of Theatre. It requires 6 hours of foundational coursework, 63 additional hours in the major, and completion of the KU Core, as well as additional general electives, for a total of 120 hours.

History of art of architecture electives

**General Education Courses**

Completion of the KU Core

**General Electives**

- Additional credit hours of general electives are needed to meet the minimum total hours required for graduation.

**Major Hours & Major GPA**

While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**

Satisfied by 69 hours of major courses.

**Major Hours in Residence**

Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**

Satisfied by a minimum of 27 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**

Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/Cumulative GPA Calculator (http://www.collegesas.ku.edu/GPACalculator.shtml/).

Below is a sample 4-year plan for students pursuing the BFA in Theatre Design. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

Minor in Dance

Dance Minor

The dance minor is designed to balance creative and technical aspects of dance with historical, cultural and theoretical studies. Our students are expected to attain and/or maintain the intermediate to high intermediate level in one area of dance technique, to think and write critically about dance, and to develop an understanding of the larger field of professional dance. The 20-credit hour minor allows students with an interest in dance to advance their study while pursuing a major in another discipline.

Requirements for the Minor in Dance

Open to all KU students

Dance Minor Course Requirements

Students selecting this minor must complete the following requirements:

<table>
<thead>
<tr>

</tbody>
</table>

Total Hours 120

1. Selected from THR 525, THR 526, or THR 528
2. Selected from approved courses in consultation with Theatre advisor.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

Minor Hours

Satisfied by 20 hours of minor courses.

Minor Hours in Residence

Satisfied by a minimum of 9 junior/senior hours of KU resident credit in the minor.

Minor Junior/Senior Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.
Minor in Theatre

The Department of Theatre and Dance welcomes non-majors who wish to learn about acting, drama, design, theatre history, and technical theatre through the completion of a minor. Students minoring in theatre are welcome to audition for department productions and serve on backstage technical crews if they are enrolled in THR 101, THR 201, THR 301, or THR 401.

Requirements for the Minor

A minimum of 18 hours is required for the minor; 12 hours must be numbered 300 and above.

Theatre Minor Course Requirements

Minors must complete each of the following:

<table>

Theatre Required Electives

Satisfied by 3 courses (9 hours) of any 300 Level or above Theatre course: 9

Minor Hours

Satisfied by 18 hours of minor courses.

Minor Hours in Residence

Satisfied by a minimum of 9 hours of KU resident credit in the minor.

Minor Junior/Senior (300+) Hours

Satisfied by a minimum of 12 hours from junior/senior courses (300+) in the minor.

Minor Junior/Senior Graduation GPA

Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all departmental courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

Master of Arts in Theatre

The Master of Arts in Theatre Studies helps students to begin developing a broad, comparative grasp of the major methods, approaches and protocols currently used in both the study and practice of theatre and performance. Special emphasis is placed on (1) an analytic understanding of theatre history and similar genres of performance, (2) the ability to critically engage the practical protocols, past and present, that have been influential in the creation and study of theatrical art and performance, and (3) the capacity to understand socio-cultural contexts that influence theatre scholarship and practice.

The M.A. helps to prepare students for leadership roles in a wide array of community, regional, and national arts organizations. The M.A. degree also provides students with a strong foundation to transition to a doctoral program.

Please visit the Department of Theatre and Dance's Graduate Resource page for more information.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admissions

Our holistic application evaluations are based on several criteria: grades, the strength of recommendation letters, written or portfolio samples, previous experience and the fit of your interests with our program. A full list of application materials and deadlines is available on The Department of Theatre and Dance's admission pages (https://theatredance.ku.edu/ma-phd-admissions/). The Department of Theatre and Dance does not admit new students for the Spring or Summer terms.

The completed application should be submitted online.

M.A. Degree Requirements

The Master of Arts in theatre is an academic degree, but students are expected to complete 6 hours in theatrical production. All M.A. students must write a thesis as the culmination of the degree. At least 50% of the coursework required for the MA degree must be taken at the 700 level or above.

To complete the M.A., the student must sustain a grade-point average of 3.0 or higher through 33 graduate credit hours. Up to 6 hours of additional courses in a foreign language or research skills may be required by your advisor.
Requirements for the M.A. in Theatre

A total of 33 hours is required.

**Core Requirement**

- THR 800 Introduction to Graduate Study in Theatre

In consultation with an advisor, students choose from among departmental courses in theatre history, dramatic literature, theory, and criticism

**A. Directing**

- THR 710 The Art of Directing
- THR 715 Problems and Techniques of Direction
- THR 815 Advanced Play Production

**B. Scenography**

- THR 516 Scenic Painting Techniques
- THR 517 Computer-Aided Design
- THR 720 Scenography and the Classic Script
- THR 721 Scenography and the Modern Script
- THR 820 Scenography and the Musical Theatre
- THR 821 Scenography and the Contemporary Script
- THR 822 Scenography and the Experimental Production

**C. Dramaturgy or Dance**

- THR 702 Graduate Seminar in: ______

**General Theatre Studies**

Select 15 hours of courses from graduate offerings in theatre history, dramatic literature, art and culture programs. Students may choose courses from among departmental courses in theatre history, dramatic literature, theory, and criticism.

**Completion of the Degree**

An oral examination structured around a thesis based on scholarly and/or creative research:

- THR 899 Master’s Thesis

All courses should be selected in consultation with the graduate advisor.

Master of Fine Arts in Theatre Design-Scenography Concentration

The M.F.A. in Scenography is a three-year integrated program of study leading to a Master of Fine Arts degree, the terminal degree for professionals working in design for theatre, dance, film, and television. scenography classes take an engaged, practice-based approach to theatre design to prepare students in areas of technical production such as costume, lighting, and set design. Our core curriculum provides students with the tools that they need to develop a portfolio in a wide variety of theatrical and performance genres. Students will execute realized designs in both the large Crafton-Preyer proscenium stage, the William Inge Memorial theatre (black box) as well as studio and site specific spaces. Students learn new technologies in theatre, lighting and costume design, including new innovations in Virtual Realities.

Please visit the Department of Theatre and Dance's Graduate Resource page for more information.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Graduate Admissions

Our holistic application evaluations are based on several criteria: grades, the strength of recommendation letters, written or portfolio samples, previous experience and the fit of your interests with our program. A full list of application materials and deadlines is available on The Department of Theatre and Dance's admission pages (https://theatredance.ku.edu/mfa-scenography-admissions). The Department of Theatre and Dance does not admit new students for the Spring or Summer terms.

The completed application should be submitted online.

M.F.A. in Theatre Design with a Concentration in Scenography Degree Requirements

Scenography classes are at the core of the curriculum. While in the program, students will design at least 4 realized productions in the University Theatre program. They will do at least 1 lighting, 1 costume and 1 scenic design, and preferably a combination of 2 or all design areas for 1 production. Design assignments, made by the scenography faculty, will be based on the students’ experience and interests (i.e., a student with little experience in lighting design will be given a less challenging project in the smaller theatre).

Students work with the KU Theatre’s professional staff in the realization of their designs. Successful scenography students at the University of Kansas have come from a variety of backgrounds, including theatre, art and design, illustration and architecture. Students with deficiencies in theatre production, theatre and/or art history, and painting and drawing
may be required to take undergraduate courses in these areas, which could result in a longer program.

To complete the M.F.A., the student must sustain a grade-point average of 3.0 or higher through 60 graduate credit hours. At least 50% of the coursework required for the M.F.A. must be taken at the 700 level or above. The following guidelines govern the distribution of hours:

Electives: no limit, but a minimum of 15 hours for a total of 60 hours.

Courses in Theatre are recommended, specifically THR 520, 521, 525, 526 or 599 as needed.

**Doctor of Philosophy in Theatre**

The purpose of the Ph.D. in Theatre is to develop leaders in the areas of both studies and practice. The curriculum requires an intense exposure to critical theory, history and historiography, and the craft and art of performance. We offer practice opportunities for doctoral students in directing, acting, and dramaturgy in order to help doctoral students prepare for work as scholar artists. Our graduates have excellent placement in higher education, non-profit organizations, and various posts in the entertainment industry as professional artists and administrators. Recent and former students from the M.A. and Ph.D. programs work or have worked across a wide array of academic and artistic settings, including Junkyard Dog Productions, The Ohio State University system, Chapman College, Washburn University, CBS, Disney Productions, University of Costa Rica, University of Minnesota (Morehead), Southern Illinois University, University of Georgia, Texas Christian University, University of Minnesota (Duluth), University of Arizona, California State University (Fresno), Southern Utah University, Bismarck State College, SUNY-Buffalo, Columbus State University, University of Kansas, Benedictine College, Wayne State College (Nebraska), and Converse College.

Please visit the Department of Theatre and Dance’s Graduate Resource page for more information.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

**Ph.D. Degree Requirements**

The Ph.D. is an academic degree, but students must demonstrate competence in at least one production area. Normally the Ph.D. requires 60 hours not including Research Skills and Responsible Scholarship requirements. All courses must be chosen in consultation with an advisor.

**Core Requirements**

12 hours of core courses in Theatre are required.

THR 800 is required in the first semester.

9 credit hours of graduate level courses selected in consultation with an advisor. Students choose from departmental courses in theatre history, performance studies, dramatic literature, theory, and criticism. Students must take only departmental courses their first semester of graduate study.

**Elective Requirements**

9 hours of electives are required. Elective courses focus on the academic study of theatre/performance history, theory, and related methodologies. Courses are selected with a graduate advisor to reflect the student’s special interest. These may include courses outside the Department with prior approval of the advisor and Director of Graduate Study.

**Secondary Field Requirements**

Students choose 9 hours at the graduate level from outside the department to assist them in writing the dissertation. Courses are related
to the student’s proposed specialization. (See examples of departments with applicable coursework under Elective Requirements.)

**Production Courses**

6 hours of production courses are required. To become competent artists as well as developing research scholars, students choose a sequence of graduate courses in either scenography, directing, dance, or dramaturgy.

**Research Skills and Responsible Scholarship**

The Department of Theatre Doctoral Research Skills and Responsible Scholarship requirements are met by fulfilling the following:

- THR 800 Introduction to Graduate Study in Theatre (3 credit hours in 1st semester),
- 3 credit hours of THR 801 Professional Development Seminar,
- THR 999 Doctoral Dissertation,
- If required by faculty advisor for dissertation topic, reading ability in a foreign language or proficiency in an alternative language skill pertinent to the specialty (e.g., computer languages, American sign language). Reading ability or alternative-language proficiency can be demonstrated by: (1) completing with a grade of B or better two college semesters of the language; or (2) completing with a B or better a course in reading comprehension (e.g. FREN 100 French for Reading Knowledge); or (3) submitting a letter from a qualified faculty member attesting to student’s language proficiency

**Comprehensive Examination**

The comprehensive examination is an essential element of the doctoral program, providing an opportunity for students to focus and consolidate the diverse strands of their graduate course work, to demonstrate competence for teaching in particular subject areas, and to establish a strong foundation for moving on to the dissertation. It consists of 4 parts:

1. A written examination, which covers 4 or 5 areas of expertise. Ordinarily, each area corresponds to a member of the student’s committee.
2. Submission of 1 publishable paper of article length (5,000 to 8,000 words) that demonstrates the student’s ability to research and write original scholarship at a level appropriate to the field. Publishable papers may be revised versions of papers submitted in KU courses. Publishable papers must be submitted on the first day of the written examination.
3. Submission of a dissertation prospectus 2 weeks before the oral exam.
4. An oral examination, given 2 to 4 weeks after the written examination. The oral examination lasts about 90 minutes and may revisit material covered in the written examination, the publishable papers, dissertation prospectus and/or other material as deemed appropriate by the committee.

While preparing for the examination, students must enroll in THR 998 Investigation and Conference (for Doctoral Students). This course may be taken twice for a total of 6 credit hours.

**Dissertation**

Upon successful completion of the comprehensive oral exam and dissertation prospectus, students adhere to Doctoral Candidacy policy (http://policy.ku.edu/graduate-studies/doctoral-candidacy/) until they are ready to defend their dissertation. The candidate must present a dissertation showing the planning, conduct, and results of original research and scholarly creativity. The dissertation itself should be an evident product of the candidate’s growth and attainment of the ability to identify significant problems; organize, analyze, and communicate scholarly results; and bring to bear on a useful area of interest a variety of research skills and scholarly or creative processes. Further details about the committee requirements and scheduling process can be found in the department’s Graduate Handbook. (https://theatredance.ku.edu/graduate-resources/)

**Department of Visual Art**

**Welcome to Visual Art**

The Department of Visual Art (http://art.ku.edu/) at KU functions as a creative laboratory where students, mentored by a faculty of internationally recognized artists, explore a broad range of media and disciplines.

Housed in a major university, the department encourages the development of a unique artistic voice through critical inquiry and research. Students have the additional opportunity to pursue interdisciplinary and collaborative work across the School of the Arts, as well as the University at large. The University of Kansas is the school of choice for ambitious art students throughout the region. The Department of Visual Art provides students with the technical skill and cultural awareness essential to the careers of professional artists, scholars, teachers or administrators. Seminars on specialized topics, a strong visiting artist schedule, trips to major cities, and study abroad possibilities all enrich students studying Visual Art at the University of Kansas.

The University of Kansas is a member of the National Association of Schools of Art and Design (http://nasad.arts-accredit.org/). The entrance and graduation requirements in this catalog conform to the published guidelines of those organizations.

**Facilities**

Visual Art students have access to excellent facilities and close mentoring from the Visual Art faculty. Coursework includes practice, discussion and critiques with faculty, advisors, and visiting artists. Cross discipline investigations are strongly encouraged and many courses are team-taught. Exhibition and installation spaces are readily available throughout the community of Lawrence. Kansas City with its rich history in the visual arts is just a short drive away.

Chalmers Hall, a 130,000 square foot mega structure, houses a full range of studio facilities including THE COMMON SHOP (http://art.ku.edu/common-shop/) — a fabrication shop with two full time technical assistants ready to assist students. The well-equipped SCULPTURE FACILITIES (http://art.ku.edu/sculpture-facilities-and-equipment/) include a foundry, metalshop, and woodworking studio. The EXPANDED MEDIA FACILITIES (http://art.ku.edu/expanded-media-facilities-and-equipment/) include digital imaging facilities as well as sound and projection equipment, upgraded annually as those technologies evolve. The PRINTMAKING FACILITIES (http://art.ku.edu/printmaking-facilities-and-equipment/) include space for intaglio, lithography, and serigraphy studios, as well as large format presses and equipment for papermaking and book arts. The CERAMICS FACILITIES (http://art.ku.edu/ceramics-facilities/) include gas and electric kilns, and a separate complex for wood-fired kilns. The METALSMITHING/JEWELRY FACILITIES (http://art.ku.edu/metal smithing-jewelry-facilities-and-equipment/) offer casting, soldering, enameling equipment, a digital mill, and 3-D printer. The TEXTILES/FIBERS FACILITIES (http://
art.ku.edu/textiles-fibers-facilities-and-equipment/) include floor looms, printing and dyeing labs, multiple sewing machines, and a computer lab. The PAINTING FACILITIES (http://art.ku.edu/painting-drawing-facilities-and-equipment/) include three enormous group studios equipped with easels. The Department of Visual Art places great emphasis on drawing and maintains four large drawing studios. The department also offers individual workspace for upper level majors. The ART & DESIGN GALLERY (http://art.ku.edu/art-design-gallery/) presents student, faculty, visiting artist and thematic exhibitions.

Highly Qualified Faculty Scholars and Artists

The faculty of the Department of Visual Art is comprised of internationally recognized artists and scholars with interests that span a broad range of media and disciplines. Dedicated to educating the next generation of artists, award-winning teachers prioritize mentorship, offering students individual attention and small class sizes.

Most courses in Visual Art are studio, practice-based courses. Studio classes are typically capped at 15-20 students. All areas have classes that are open to non-majors. Three-credit courses normally meet in class for six hours weekly for 15 weeks of fall and spring semester; another nine hours of work is expected outside class. Studio areas are open and accessible.

Undergraduate Programs

Undergraduate Degrees

The department offers undergraduate degree programs leading to a Bachelor of Arts in Visual Art, a Bachelor of Fine Arts in Visual Art, a Bachelor of Fine Arts in History of Art, a Bachelor of Art Education, and a Visual Art minor.

All our degrees allow students to design an academic experience tailored to their interests and goals. By choosing and combining courses from across a variety of studio areas, students direct their own educational path. The degree provides an immersive academic experience in which students master the fundamentals of the form. Through advanced coursework, students explore the nuances of artistic avenues that best complement their professional and creative goals. The degrees prepare students for careers as teachers or administrators in a variety of settings including public schools, arts agencies, art museums, community centers and other venues.

Visual Art (http://art.ku.edu/bfa-visual-art-1/) (Drawing, Painting, Expanded Media, Sculpture, and Printmaking)
Metalsmithing / Jewelry (http://art.ku.edu/bfa-metalsmithingjewelry/)
Textiles / Fibers (http://art.ku.edu/bfa-textilesfibers/)
Combined Art History / Visual Art (http://art.ku.edu/bfa-art-historyvisual-art/)
Visual Art Education (http://art.ku.edu/bae-visual-art-education/)
Visual Art Minor

Advanced Placement in Art and Design

Students who score 3, 4, or 5 on the CEEB Advanced Placement Examination may receive up to 3 credit hours in art studio electives. Advanced placement credit does not exempt students from foundations requirements.

Advising

Students admitted to work toward B.F.A., B.A., or B.A.E. degrees are advised by the academic advisor in Visual Art in combination with faculty members in their chosen concentration. Check sheets describing each program in complete detail are available from the Visual Art main office, 300 Chalmers Hall, or online (http://art.ku.edu/). History of Art, information is available from the Kress Foundation Department of Art History (http://www2.ku.edu/%7Ekuarthis/). Students are encouraged to seek advice from any faculty member in a specific area of interest.

Students are expected to spend time outside of class working in the studio. For each credit hour in class another three hours of work will be expected outside of class time. It is normally expected that for 3 credit hours of studio a student will spend 9-15 hours per week working and studying for the entire 16 weeks during the semester.

Graduate Programs

The Department of Visual Art offers graduate programs leading to the Master of Fine Arts degree in visual art. Concentrations include ceramics, drawing and painting, expanded media, fibers, metalsmithing and jewelry, printmaking, and sculpture. A Master of Arts degree in visual art education and graduate licensure in art education are also available through the Department of Visual Art.

Students who are interested in enrolling in graduate level coursework in the Department of Visual Art without formal admission to a graduate program at KU are encouraged to apply for graduate non-degree seeking student status. See the department's non-degree seeking program page for further details.

Courses

ART 101. Drawing I. 3 Hours GE3H / H.
Introductory study of Drawing with emphasis on tools, techniques and observational development. Studio class includes intensive in-class exercises, lectures, images, and assignments. Students develop a formal fine arts vocabulary and gain verbal and written skills in critical analysis through individual and group critiques. Six hours scheduled studio activity per week. Prerequisite: Must be a major or minor in the Department of Visual Art or receive instructor permission. LAB.

ART 102. Drawing II. 3 Hours H.
Continuation of ART 101: Drawing I. Prerequisite: ART 101 or instructor permission. LAB.

ART 103. Art Concepts and Practice. 3 Hours H.
A companion course to ART 104. Lecture and studio experiences across disciplines emphasizing conceptual fundamentals, technical/skill development, visual sensibility, critical thinking and professional topics in art. Prerequisite: Must be a major or minor in the Department of Visual Art or receive instructor permission. LEC.

ART 104. Art Principles and Practice. 3 Hours H.
A companion course to ART 103. Lecture and studio experiences across disciplines emphasizing conceptual fundamentals, technical/skill development, visual sensibility, critical thinking and professional topics in art. Prerequisite: Must be a major or minor in the Department of Visual Art or receive instructor permission. LEC.

ART 105. Visual Art Seminar. 1 Hour.
An introduction to campus and community resources for students interested in Visual Arts. Resources in the Department, the University and the larger community will be discussed and explored. LEC.
ART 120. Fundamentals of Painting. 3 Hours.
Open to all university students. An exploration of basic technical and expressive possibilities in painting. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 121. Fundamentals of Printmaking. 3 Hours.
Open to all university students. An exploration of basic technical and expressive possibilities in printmaking, including woodcut, etching, lithography and silk screen; may include field trips, films, visiting lecturers. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 122. Fundamentals of Sculpture. 3 Hours.
Open to all university students. Specifically for students with limited or no previous experience. An exploration of basic technical and expressive possibilities in three-dimensional form and space, including sculpture, modeling, carving, and construction; materials include wood, stone, clay, metal; may include field trips, films, visiting lecturers. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 123. Fundamentals of Expanded Media. 3 Hours GE3H / U.
Open to all university students. An exploration of basic technical and expressive possibilities in Expanded Media, including Installation, Performance, Video and other Digital technologies; may include field trips, films, and/or visiting lecturers. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 130. Fundamentals of Fiber Forms. 3 Hours U.
Open to all university students. Studio exploration of fibers as an art form and means of personal expression. Emphasis is placed on three-dimensional objects. A variety of interlacement, construction, and dye techniques are introduced. LAB.

ART 131. Fundamentals of Ceramics. 3 Hours.
Open to all university students. An introduction to ceramic techniques and conceptual development. The course will investigate historical and contemporary ceramic art, develop skills in wheel throwing, hand-building, glazing, clay-mixing, and firing. Through practice and research, students will build an integrated understanding of ceramics as a continuum of cultural expression. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 132. Fundamentals of Metalsmithing/Jewelry. 3 Hours GE3H.
Open to all university students. A comprehensive study of the field of jewelry and metalsmithing with an emphasis on the tools, processes, and techniques used in the design and fabrication of objects from metals such as aluminum, brass, copper, bronze, sterling and related materials. Studio experience will include lectures, slide presentations, demonstrations, visiting artist, and student projects. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 133. Fundamentals of Fibers. 3 Hours GE3H / U.
Open to all university students. Studio exploration of fibers as an art form and means of personal expression. A variety of dyeing, construction, and surface embellishment techniques will be introduced. Six hours scheduled studio activity and approximately six hours outside work weekly. LAB.

ART 177. First Year Seminar: ______. 3 Hours GE11 / U.
A limited-enrollment seminar course for first-time freshmen, addressing current issues in Art. Course is designed to meet the critical thinking learning outcome of the KU Core. First-Year Seminar topics are coordinated and approved by the Office of First-Year Experience. Prerequisite: First-time freshman status. LEC.

ART 201. Color Theory. 3 Hours.
An introduction to the basic color theories and their application. Presentation of the relationship between pigment and light, and of additive and subtractive color mixing. Prerequisite: ART 101, and ART 103 or ART 104. LAB.

ART 300. Special Topics in Visual Art: ______. 3 Hours.
Course to be offered in related areas of research, mixed media or interdisciplinary exploration. (This course is not regularly offered.) May be repeated for credit. This course is offered at the 300 and 500 levels, with ART 500 serving as a continuation of study in the topic area. Prerequisite: ART 101, ART 102, ART 103, or ART 104; or permission of instructor. LAB.

ART 305. Visual Language. 3 Hours H.
This course explores visual language and its relationship to cultural meaning. We examine the ways that cultural experience both influences and is influenced by artistic expression. An investigation of artistic practice and its basic elements and principles is used to demonstrate the connections between visual perception and the interpretation of visual experience. Examples from the arts and popular culture are used to illustrate the ways that we create meaning from the things we see. This course is open to all university students. Prerequisite: ENGL 101 and ENGL 102 or equivalent, or completion of the KU Core Written Communication requirements (Goal 2.1). LEC.

ART 375. Directed Readings in Visual Art. 1-3 Hours U.
Directed reading in specific areas of visual art. May be repeated for credit in subsequent semesters. Prerequisite: Permission of instructor. IND.

ART 395. Study Abroad Topics in: ______. 1-6 Hours H.
This course is designed for the study of special topics in Visual Art. Credit for course work must be arranged through the Office of KU Study Abroad. May be repeated for credit if content varies. Open to all students. LEC.

ART 500. Advanced Special Topics in Visual Art: ______. 3 Hours.
Course to be offered in related areas of research, mixed media or interdisciplinary exploration. (This course is not regularly offered.) The current Schedule of Classes should be consulted.) May be repeated for credit. This course is offered at the 300 and 500 levels, with ART 500 serving as a continuation of study in the topic area. Prerequisite: ART 101, ART 102, ART 103, or ART 104; and ART 300 (same topic), or permission of instructor. LAB.

ART 540. Professional Activities Seminar. 3 Hours.
Comprehensive development of skills and strategies needed to pursue a career as a professional studio artist. Prerequisite: Twenty-four hours of departmental electives or permission of instructor. LEC.

ART 575. Directed Readings in Visual Art. 1-3 Hours.
Directed reading in specific areas of visual art. May be repeated for credit in subsequent semesters. Prerequisite: Permission of instructor. IND.

ART 590. Internship in Visual Art. 1-3 Hours U.
Practical experience in the use of artistic skills in approved and supervised academic or professional settings. May be repeated for credit; no more than six hours may be applied to the B.A. or B.F.A. degree. Credit hours are graded on a satisfactory/unsatisfactory basis, according to the written recommendation provided by the internship supervisor to the faculty advisor. Prerequisite: ART 101, ART 102, ART 103, or ART 104; and permission of instructor. INT.

ART 595. Advanced Study Abroad Topics in: ______. 1-6 Hours H.
This course is designed for students with limited or no prior experience. Specific topics in the field of study under the supervision of a faculty advisor. Prerequisite: Twenty-four hours of departmental electives or permission of instructor. LEC.

ART 598. Special Topics: Studio Theory and Criticism. 3 Hours.
Lecture, discussion, and supervised research in current topics related to contemporary studio theory and criticism. May be repeated for credit
as topics vary. This course will be counted as free electives in course distribution. Prerequisite: Eighteen hours of departmental electives. LEC.

**ART 599. Individual Studies in Visual Art. 1-6 Hours AE61.**
Individual studio activity. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 101, ART 102, ART 103, or ART 104; and twelve hours of Visual Art courses; and permission of instructor. IND.

**ART 650. Senior Seminar I. 3 Hours H.**
This course explores issues and themes in creative practice while critically examining works of visual art and culture; capstone experience. Concurrent enrollment in at least one upper level Visual Art studio course is required. Typically taken during a student's final two semesters. Prerequisite: 30 hours of departmental electives and instructor permission. Corequisite: Any 300 level or above Visual Art studio course. SEM.

**ART 660. Senior Seminar II. 3 Hours AE61 / H.**
Continuation of ART 650; capstone experience. Participation in BFA exhibition required. Concurrent enrollment in at least one upper level Visual Art studio course is required. Prerequisite: ART 650 and instructor permission. Corequisite: Any 300 level or above Visual Art studio course. LEC.

**ART 695. Directed Study I. 3 Hours.**
Individual studio activity under direction of faculty advisor; capstone experience. Prerequisite: Thirty hours of departmental electives, consent of department, and permission of instructor. IND.

**ART 696. Directed Study II. 3 Hours AE61.**
Continuation of ART 695; capstone experience. May be repeated for credit in subsequent semesters. Prerequisite: ART 695. IND.

**ART 801. Directed Study III. 2-5 Hours.**
Individual studio activity under direction of faculty member. May be repeated for credit in subsequent semesters. Prerequisite: Permission of graduate director and enrollment in the Visual Art MFA program. RSH.

**ART 802. Directed Study IV. 2-5 Hours.**
Continuation of Directed Study III. Prerequisite: Enrollment in the Visual Art MFA Program. RSH.

**ART 803. Directed Study V. 2-5 Hours.**
Continuation of Directed Study IV. Prerequisite: Enrollment in the Visual Art MFA Program. RSH.

**ART 805. Graduate Studio. 1-3 Hours.**
Individual graduate studio research in visual art. Course content to be determined by the student under the supervision of a graduate faculty member. May be repeated for credit. Prerequisite: Graduate standing in The School of The Arts and permission of the instructor. RSH.

**ART 861. Directed Reading in Visual Art. 1-3 Hours.**
Research reading and presentation of reports on specific subjects related to the student's major area of specialization. Prerequisite: Enrollment in the MFA Program in the Department of Visual Art. RSH.

**ART 877. Graduate Seminar. 3 Hours.**
The graduate seminar emphasizes professional preparation for contemporary artists focusing on writing skills, oral presentations, critiques of individual creative research/artwork, critical thinking about and visual analysis of current art forms and contemporary approaches to the teaching of studio art. Prerequisite: Admission to the Graduate Program in Visual Art. SEM.

**ART 898. Special Topics: Studio Theory and Criticism. 3 Hours.**
Lecture, discussion, and supervised research in current topics related to contemporary studio theory and criticism. May be repeated for credit as topics vary. This course will be counted as a graduate level academic elective in course and credit distribution. LEC.

**ART 899. Graduate Seminar. 1 Hour.**
Weekly discussion of issues and/or work in art. (Graded on a satisfactory/unsatisfactory basis.) May be repeated for credit in subsequent semesters. LAB.

**ART 906. Graduate Studio. 1-3 Hours.**
Individual graduate studio research in visual art. Course content to be determined by the student under the supervision of a graduate faculty member. May be repeated for credit. Prerequisite: ART 805 and permission of the instructor. RSH.

**ART 950. Thesis in Visual Art. 1-6 Hours.**
Original research in visual art culminating in a thesis exhibition. May be repeated for credit. Graded on a satisfactory/unsatisfactory/no credit basis. Prerequisite: Thirty-six credit hours of graduate credit and permission of the graduate review committee. THE.

### Courses

**CER 208. Ceramics I. 3 Hours.**
The development of form and surface through the use of handbuilding and wheel thrown techniques. Stoneware and Raku are explored. LAB.

**CER 300. Special Topics in Ceramics: ______. 1-4 Hours U.**
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 131 or CER 208; or permission of instructor. LEC.

**CER 301. Concepts and Methods: Wheel Throwing. 3 Hours.**
Intermediate ceramics course focusing on the potters' wheel as a tool. Coursework focuses on throwing skills and three-dimensional design concepts related to the functional ceramic vessel, wheel thrown sculpture, and creative problem-solving. Technical information supports an understanding of forming, surface development, glazing, and firing. Prerequisite: ART 131 or CER 208. LAB.

**CER 302. Concepts & Methods: Hand Building. 3 Hours.**
Intermediate ceramics course using hand-building techniques and processes supported by design and idea development. Techniques will include press molding, slab construction and coil-building, color and surface development through glazing and firing. Emphasis is placed on creative expression and communication of personal ideas. Prerequisite: ART 131 or CER 208. LAB.

**CER 402. Mold Making and Slip Casting. 3 Hours.**
Intermediate ceramics course focusing on the production of plaster molds and the slipcasting process. Students will make molds and prototypes, produce porcelain casting slip, and develop strategies in casting as well as consider the use of the slipcasting technique as a conceptual tool. Undergraduate students who wish to take this for a second/continuing semester should enroll in CER 502. Prerequisite: ART 131 or CER 208. LAB.

**CER 403. Advanced Topics in Ceramics. 3 Hours.**
Advanced ceramics course using traditional and non-traditional approaches to ceramic art-making. Topics may include: wood firing, ephemeral art, large-scale sculpture, and/or digital technologies. This course can be repeated if topic varies. If same topic is repeated, students should enroll in CER 503. Prerequisite: CER 301 or CER 302 or permission of instructor. LAB.
CER 500. Advanced Special Topics Ceramics: ______. 1-4 Hours U.
Course to be offered in an area of specific interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. This course is offered at the 300 and 500 levels, with CER 500 serving as a continuation of study in the topic area. Prerequisite: ART 101, ART 102, ART 103, or ART 104; and CER 300 (same topic), or permission of instructor. LEC.

CER 502. Advanced Mold Making and Slip Casting. 3 Hours.
Advanced ceramics course focusing on the production of plaster molds and the slipcasting process. Students will make molds and prototypes, produce porcelain casting slip, and develop strategies in casting as well as consider the use of the slip-casting technique as a conceptual tool. Prerequisite: ART 131 or CER 208, and CER 402. Graduate students may enroll without prerequisites by instructor permission. LAB.

CER 503. Advanced Topics in Ceramics. 3 Hours.
Advanced ceramics course using traditional and non-traditional approaches to ceramic art-making. Topics may include: wood firing, ephemeral art, large-scale sculpture, and/or digital technologies. This course is intended as a continuation for a specific topic course in CER 403. Graduate students should enroll in CER 503 with no prerequisite required. Prerequisite: CER 301 or CER 302, CER 403, or permission of instructor. LAB.

CER 504. Kilns. 3 Hours.
The principles in kiln design, including up-draft, down-draft, cross-draft, and electric kilns, and burner technology. Prerequisite: ART 131, or CER 208, or CER 301, or permission of instructor. LEC.

CER 505. Clay and Glaze Formulation. 3 Hours.
Formulation of the various clay bodies and glazes associated with ceramics. Prerequisite: ART 131, or CER 208, or CER 301, or permission of instructor. LEC.

CER 506. Production. 6 Hours.
Procedures, techniques, problems, and solutions for setting up and operating a production pottery studio, including the development of ceramic forms and glazes related to market ability and design and mold production for industry. May be repeated for credit. Prerequisite: CER 301 and CER 302. LAB.

CER 510. History of Ceramics. 3 Hours.
This course examines historical ceramics across the globe. Emphasis will be placed on the development and transmission of design, materials, and technique across various traditions. This course is for Graduate students. Undergraduate students should enroll in CER 510 History of Ceramics. LEC.

CER 515. Advanced Ceramics I. 3-6 Hours AE61.
Development of individual direction in ceramics based on experience, research, and skills acquired in previous courses; capstone experience. May be repeated for credit. Prerequisite: CER 301 and CER 402. LAB.

CER 520. Advanced Ceramics II. 3-6 Hours AE61 / U.
Continuation of CER 515; capstone experience. May be repeated for credit. Prerequisite: CER 515. LAB.

CER 590. Internship in Ceramics. 1-3 Hours U.
Practical experience in the use of artistic skills in approved and supervised academic or professional settings. May be repeated for credit; no more than six hours may be applied to the B.A. or B.F.A. degree. Credit hours are graded on a satisfactory/unsatisfactory basis, according to the written recommendation provided by the internship supervisor to the faculty advisor. Prerequisite: ART 102, ART 103, and ART 104; and fifteen hours of Visual Art courses; and permission of instructor. INT.

CER 599. Individual Studies in Ceramics. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Ceramics courses or permission of instructor. IND.

CER 710. History of Ceramics. 3 Hours.
This course examines historical ceramics across the globe. Emphasis will be placed on the development and transmission of design, materials, and technique across various traditions. This course is for Graduate students. Undergraduate students should enroll in CER 510 History of Ceramics.

CER 715. Ceramics. 2-6 Hours.
Individual research. Prerequisite: CER 515 or equivalent. RSH.

CER 725. Glass. 2-6 Hours.
Individual research. Prerequisite: Approval of instructor. RSH.

CER 815. Ceramics. 2-6 Hours.
Continuation of CER 805. RSH.

CER 825. Glass. 2-6 Hours.
Individual research. Prerequisite: Approval of instructor. RSH.

Courses

DRWG 203. Drawing III. 3 Hours.
Advanced problems in drawing. Prerequisite: ART 102. LAB.

DRWG 213. Life Drawing I. 3 Hours.
Figure drawing. Prerequisite: ART 102 and ART 103 or ART 104. LAB.

DRWG 300. Special Topics in Drawing: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LAB.

DRWG 304. Drawing IV. 3 Hours.
Continuation of DRWG 203. Prerequisite: DRWG 203. LAB.

DRWG 314. Life Drawing II. 3 Hours.
Continuation of DRWG 213. Prerequisite: DRWG 213. LAB.

DRWG 318. Life Drawing II, Honors. 3 Hours.
Figure drawing, a continuation of DRWG 213. Prerequisite: DRWG 213; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

DRWG 335. Special Topics in Drawing: ______. 3 Hours.
Course to be offered in area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: DRWG 203, or DRWG 213, or permission of instructor. LAB.

DRWG 500. Advanced Special Topics in Drawing: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Drawing courses, or permission of instructor. LAB.

DRWG 505. Drawing V. 3 Hours.
Continuation of DRWG 304. Prerequisite: DRWG 304. LAB.
DRWG 506. Drawing VI. 3 Hours.
Continuation of DRWG 505. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 505. LAB.

DRWG 515. Life Drawing III. 3 Hours.
Continuation of DRWG 514. Prerequisite: DRWG 514. LAB.

DRWG 516. Life Drawing IV. 3 Hours.
Continuation of DRWG 515. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 515. LAB.

DRWG 518. Life Drawing III, Honors. 3 Hours.
Figure drawing, a continuation of DRWG 514 or DRWG 518. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 514 or DRWG 518; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

DRWG 519. Life Drawing IV, Honors. 3 Hours.
Figure drawing, a continuation of DRWG 515 or DRWG 518. May be repeated for credit in subsequent semesters. Prerequisite: DRWG 515 or DRWG 518; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

DRWG 535. Special Topics in Drawing: ______. 3 Hours.
Course to be offered in area of special interest to individual faculty, and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: 12 hours of drawing and permission of instructor. LAB.

DRWG 599. Individual Studies in Drawing. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and any introductory art studio, or permission of instructor. IND.

DRWG 807. Drawing VII. 3 Hours.
Individual research in drawing. Prerequisite: DRWG 506. RSH.

DRWG 817. Life Drawing V. 3 Hours.
Individual research in figure drawing. Prerequisite: DRWG 516. RSH.

DRWG 908. Drawing VIII. 3 Hours.
Continuation of DRWG 807. Prerequisite: DRWG 807. RSH.

DRWG 918. Life Drawing VI. 3 Hours.
Continuation of DRWG 817. Prerequisite: DRWG 817. RSH.

Courses

EXM 274. Expanded Media. 3 Hours U.
Beginning course to introduce the fundamental concepts, strategies, and technologies that comprise the Expanded Media area of the Department of Visual Art: Installation, Performance, and Digital Image. Emphasis is placed on forming ideas and strategies, and creating artwork that considers the core connections within Expanded Media: time, space, the body, the viewer, and society at large. Computer-based technologies and time-based media that are inherent to Expanded Media practice support studio assignments. Coursework includes the investigation and discussion of historic precedents and the development of an appropriate critical dialogue with which to discuss their work. Prerequisite: ART 102, ART 103, and ART 104. LAB.

EXM 300. Special Topics in Expanded Media: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LAB.

EXM 301. The Digital Image I. 3 Hours.
Introduction to various still digital processes and skills that encourage the use of digital imagery within a variety of other media. Focus on content issues as they relate to development of artwork incorporating digital imagery. Prerequisite: ART 102, ART 103 or ART 104 or permission of instructor. LAB.

EXM 302. Performance Art I. 3 Hours U.
An introduction to the understanding and production of performance art. Students gain proficiency in conceptualization and production of performance time-based art in an Interdisciplinary art-making environment. Prerequisite: ART 102, ART 103 or ART 104, or permission of instructor. LAB.

EXM 303. Intermedia I. 3 Hours.
An introduction to the use/handling and integration of diverse, new and traditional materials, techniques and processes. Problems will involve strategies for discovering and managing combinations of drawn, painted, digital and constructed forms. Studio sessions will include research, lecture, demos, and guest speakers. Prerequisite: ART 102, ART 103 or ART 104, or permission of instructor. LAB.

EXM 304. Digital Photography I. 3 Hours.
This course explores Digital Photography as a tool and resource with a wide range of expressive and creative interests. Digital processes such as image capturing, editing, and printing will be the main focus. Issues pertaining the circulation and distribution of digital imagery in contemporary culture will be addressed. DSLRs, Point and Shoot Cameras, and Camera Phones will be used. Prerequisite: ART 101, ART 103, or ART 104; and any introductory art studio, or permission of instructor. This course is offered at the 300 and 500 levels, with the 500 level serving as a continuation of study in the topic area. LAB.

EXM 307. Installation Art I. 3 Hours U.
This course is an exploration of art making with an emphasis on space, site, installation, and the viewer's experience surrounding art making. Students will research, discuss, and produce temporary art installations using a variety of mediums in an atmosphere of interdisciplinarity and experimentation. Major topics include time/space specificity: the collaboration process; body/space dynamics, and art-making as part of a social/cultural dynamic. Prerequisite: ART 101, ART 103, or ART 104, or permission of instructor. LAB.

EXM 314. Alternative Approaches in Photography I. 3 Hours U.
An introduction to the understanding and production of art-making using alternative approaches in photography. Students gain proficiency in conceptualization and production of artwork using alternative approaches in photography in an interdisciplinary art-making environment. Prerequisite: ART 102, ART 103, or ART 104 or permission of instructor. LAB.

EXM 326. Video and Time-Based Media I. 3 Hours U.
An introduction to the understanding and production of video and time-based art. Students gain proficiency in conceptualization and production of video and time-based art in an interdisciplinary art-making environment. Prerequisite: EXM 274. LAB.

EXM 500. Advanced Special Topics in Expanded Media: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit.
Prerequisite: ART 102, ART 103 or ART 104; 12 hours of courses in Visual Art, or permission of instructor. LAB.

EXM 501. The Digital Image II. 3 Hours.
Continuation of EXM 301. The Digital Image I. May be repeated for credit. Prerequisite: EXM 301. LAB.

EXM 503. Intermedia II. 3 Hours.
Continuation of EXM 303. Intermedia I. May be repeated for credit. Prerequisite: Permission of instructor. LAB.

EXM 504. Digital Photography II. 3 Hours.
This course will explore Digital Photography as a tool and resource with a wide range of expressive and creative interests. Students will explore how digital photographs are 'captured', edited, printed, and distributed in contemporary culture. DSLRs, Point and Shoot Cameras, and Camera Phones will be used. Advanced techniques in Picture Editing, File Management, Printing, Digital Delivery, and Studio Photography of Artwork will be explored. May be repeated for credit. Prerequisite: EXM 304. LAB.

EXM 514. Alternative Approaches in Photography II. 3 Hours U.
Continuation of EXM 314. Prerequisite: EXM 314. LAB.

EXM 526. Video and Time-Based Media II. 3 Hours U.
Continuation of EXM 326. Prerequisite: EXM 326. LAB.

EXM 535. Intermediate Expanded Media. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Two (200- and/or 300-level) Expanded Media courses. LAB.

EXM 536. Intermediate Expanded Media, Honors. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Two (200- and/or 300-level) Expanded Media courses; membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.

EXM 537. Advanced Expanded Media. 3 Hours.
Continuation of EXM 535. May be repeated for credit. Prerequisite: EXM 535 or EXM 536. LAB.

EXM 538. Advanced Expanded Media, Honors. 3 Hours.
Continuation of EXM 536. May be repeated for credit. Prerequisite: EXM 535 or EXM 536; membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.

EXM 541. Graduate Performance Art. 3 Hours.
Students will gain proficiency in conceptualization and production of performance time-based art in an interdisciplinary art-making environment. Prerequisite: Permission of instructor. LAB.

EXM 542. Graduate Installation Art. 3 Hours.
Advanced problems toward the creation of environments using a variety of media including traditional and non-traditional approaches to art-making. Prerequisite: Permission of instructor. LAB.

EXM 543. Graduate: The Digital Image. 3 Hours.
Advanced work focusing on content issues as they relate to development of artwork incorporating digital imagery. Prerequisite: Permission of instructor. LAB.

EXM 545. Graduate Intermedia. 3 Hours.
Advanced work in the use/handling and integration of diverse, new and traditional materials, techniques and processes. Advanced problems will involve strategies for discovering and managing combinations of drawn, painted, digital, and constructed forms. Studio sessions will include research, lecture, demos, and guest speakers. Prerequisite: Permission of instructor. LAB.

EXM 546. Graduate Expanded Media V. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Permission of instructor. LAB.

EXM 573. Performance Art II. 3 Hours U.
Continuation of EXM 502. Prerequisite: EXM 302. LAB.

EXM 574. Performance Art II, Honors. 3 Hours U.
Continuation of EXM 502. Prerequisite: EXM 302; and membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.

EXM 577. Installation Art II. 3 Hours U.
Continuation of EXM 307. Prerequisite: EXM 307. LAB.

EXM 578. Installation Art II, Honors. 3 Hours U.
Continuation of EXM 307. Prerequisite: EXM 307; and membership in the University Honors Program or 3.25 minimum cumulative grade point average with permission of the department. LAB.

EXM 599. Individual Studies in Expanded Media. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Expanded Media courses, of permission of instructor. IND.

EXM 846. Graduate Expanded Media VI. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Permission of instructor. LAB.

EXM 946. Graduate Expanded Media VII. 3 Hours.
Continuation of Expanded Media studio research. Prerequisite: Permission of instructor. LAB.

Courses
METL 300. Special Topics in Metalsmithing: ___. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; or permission of instructor. LAB.

METL 301. Introduction to Casting for Jewelry. 3 Hours.
Introduction to casting and mold making processes used for jewelry and small sculpture. Students explore various methods and materials for creating models for casting in bronze or silver including wax carving, wax modeling, and the use of natural and synthetic materials as models. Models are cast using centrifugal and vacuum casting processes. Basic mold making in clay and silicone are also explored. Prerequisite: ART 132 or permission of instructor. LAB.

METL 360. Holloware. 3 Hours.
Problems related to specific smithing techniques such as raising, stretching, shell structures and seam fabrications. Metal manipulation on a large scale. Prerequisite: Six hours of metalsmithing or consent of the instructor. LAB.

METL 362. Metalsmithing. 3-6 Hours H.
Intermediate metalworking with an emphasis on the refinement of design and techniques. Processes may include soldering and fabrication, mechanisms, and surface embellishment. Prerequisite: Six hours of metalsmithing or consent of the instructor. LAB.

METL 363. Intermediate Jewelry. 3 Hours.
Lectures and demonstrations on traditional techniques of jewelry construction and embellishment, such as stone setting, chasing,
Students who are off track in sequence may be eligible to enroll in this course serves as a capstone experience. General BFA students, non-experience, research and skills acquired in preceding courses. This Development of individual direction in Metalsmithing/Jewelry based on METL 515. Advanced Metals I. 3-6 Hours AE61 / H. 132, METL 301, METL 505. LAB. for outsourcing to other 3D modeling programs. Prerequisite: ART print for outsourcing to other 3D modeling programs. Prerequisite: ART building on the knowledge of DG I. The focus of the class is producing their 3-D Matrix models to appear as if they were a finished object. The be milled in wax, and cast in metal. Students also learn how to render gemstones as symbols. Prerequisite: ART 132. LAB. Students study the optical and physical characteristics of gemstones in order to identify them using gemological instruments. This laboratory and discussion class explores related topics including the principles of optics that support this methodology, history and geographical distribution of gemstones, gemstone cutting and pearl farming, the history of DeBeers and the development of the world demand for diamond, quality analysis of diamond, colored gemstones and pearls, including the history of diamond grading, the development and identification of synthetics, imitations and laboratory enhancements as well as the use of gemstones in designing jewelry. Prerequisite: ART 132. LAB. This course explores the history from Sumeria to the 21st century of the use of metals and gemstones in the creation of decorative art for personal adornment. Students explore the evolution of the role of jewelry in ancient culture and modern society and survey individuals whose ideas and work influenced generations of goldsmiths and jewelers around the globe. The class studies primitive tools and modern manufacturing techniques, the history of gemstone cutting and setting and the origin and development of gemstones as symbols. Prerequisite: ART 132. LEC. Matrix is a 3-D CAD program based on Rhino developed by Rhino, specifically for jewelry design. The goal of this course is to instruct beginners in the Matrix design program. Students learn to transform their 2-D designs from their sketchbooks into 3-D models in Matrix, which can be milled in wax, and cast in metal. Students also learn how to render their 3-D Matrix models to appear as if they were a finished object. The class time is structured as a combination of instructor-led tutorials and working labs. Prerequisite: ART 132. LAB. The second semester of Matrix increases the operating and design skills building on the knowledge of DG I. The focus of the class is producing wax models on the Revo Digital Mill.Digi II covers the advanced modeling skills including T-spline and Rhino. Students also learn how to make a customized tool path for Revo C mill program and how to solve milling problems. Students also learn how to convert Rhino files to produce a 3D print for outsourcing to other 3D modeling programs. Prerequisite: ART 132, METL 301, METL 505. LAB. Development of individual direction in Metalsmithing/Jewelry based on experience, research and skills acquired in preceding courses. This course serves as a capstone experience. General BFA students, non-majors or minors may enroll in this course with consent of the instructor. Students who are off track in sequence may be eligible to enroll in this course with consent of the instructor. Prerequisite: METL 360, METL 362, METL 363 METL 364 or consent of the Instructor. LAB. METL 815. Metals/Jewelry. 2-6 Hours. Individual research. Prerequisite: Graduate standing. RSH. METL 715. Metals/Jewelry. 2-6 Hours. Continuation of METL 715. RSH. Courses PNTG 263. Painting I. 3 Hours. Basic problems in painting. Prerequisite: ART 102, and ART 103 or ART 104. LAB. PNTG 300. Special Topics in Painting: _____. 3 Hours. Course to be offered in area of studio activity of specific interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Metalsmithing/Jewelry courses, or permission of instructor. IND. PNTG 337. Watercolor. 3 Hours. Sessions deal with the preparation of watercolor paints and equipment, but the main emphasis is placed on relational concepts affecting tone, structure, and unity in work. While the students are expected to explore some of the traditional approaches to watercolor, they also are encouraged to work with new and innovative ones. Prerequisite: ART 120 or permission of instructor. LAB. PNTG 338. Landscape Painting. 3 Hours. An introduction to landscape painting. Considerable work is done out-of-doors. Emphasis is placed upon experiencing the environment and the development of individual approach. May be repeated for credit. Prerequisite: PNTG 263 and permission of instructor. LAB. PNTG 364. Painting II. 3 Hours. Continuation of PNTG 263. Prerequisite: PNTG 263. LAB.
PNTG 368. Painting II, Honors. 3 Hours.
Continuation of PNTG 263. Prerequisite: PNTG 263; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 500. Advanced Special Topics in Painting: ______. 3 Hours.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Painting courses, or permission of instructor. LAB.

PNTG 538. Advanced Landscape Painting. 3 Hours.
A continuation of art practice in landscape painting. Considerable work is done out-of-doors. Emphasis is placed upon experiencing the environment and the development of individual approach. May be repeated for credit. Prerequisite: PNTG 338. LAB.

PNTG 565. Painting III. 3 Hours.
Continuation of PNTG 364. Prerequisite: PNTG 364. LAB.

PNTG 566. Painting IV. 3 Hours.
Continuation of PNTG 565. May be repeated for credit. Prerequisite: PNTG 565. LAB.

PNTG 567. Painting III, Honors. 3 Hours.
Continuation of PNTG 364 or PNTG 368. Prerequisite: PNTG 364 or PNTG 368; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 569. Painting IV, Honors. 3 Hours.
Continuation of PNTG 565 or PNTG 568. Prerequisite: PNTG 565 or PNTG 568; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 585. The Figure I. 3 Hours.
The figure and its environment in various media. Prerequisite: DRWG 314 and PNTG 364. LAB.

PNTG 586. The Figure II. 3 Hours.
Continuation of PNTG 585. May be repeated for credit. Prerequisite: PNTG 585. LAB.

PNTG 588. The Figure I, Honors. 3 Hours.
The figure and its environment in various media. Prerequisite: DRWG 314 or DRWG 318 and PNTG 364 and PNTG 368; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 589. The Figure II, Honors. 3 Hours.
Continuation of PNTG 585 or PNTG 588. May be repeated for credit. Prerequisite: PNTG 585 or PNTG 588; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PNTG 599. Individual Studies in Painting. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Painting courses, or permission of instructor. IND.

PNTG 667. Painting V. 3 Hours.
Continuation of PNTG 566. Prerequisite: PNTG 566. LAB.

PNTG 668. Painting VI. 3 Hours.
Continuation of PNTG 667. May be repeated for credit in subsequent semesters. Prerequisite: PNTG 667. LAB.

PNTG 687. The Figure III. 3 Hours.
Continuation of PNTG 586. Prerequisite: PNTG 586. LAB.

PNTG 688. The Figure IV. 3 Hours.
Continuation of PNTG 687. May be repeated for credit. Prerequisite: PNTG 687. LAB.

PNTG 689. Painting VII. 3 Hours.
Individual research in painting. Prerequisite: PNTG 668. RSH.

PNTG 889. The Figure V. 3 Hours.
Individual research in the figure and its environment in various media. Prerequisite: PNTG 688. RSH.

PNTG 970. Painting VIII. 3 Hours.
Continuation of PNTG 869. Prerequisite: PNTG 869. RSH.

PNTG 990. The Figure VI. 3 Hours.
Continuation of PNTG 889. Prerequisite: PNTG 889. RSH.

Courses

PRNT 223. Intaglio I. 3 Hours.
Introduction to intaglio. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 224. Relief I. 3 Hours.
Introduction to relief printing. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 233. Lithography I. 3 Hours.
Introduction to lithography. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 243. Serigraphy I. 3 Hours.
Introduction to serigraphy. Prerequisite: ART 102, and ART 103 or ART 104. LAB.

PRNT 300. Special Topics in Printmaking: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART102, ART 103, and ART 104; or permission of instructor. LAB.

PRNT 324. Intaglio II. 3 Hours.
Continuation of PRNT 223. Prerequisite: PRNT 223, or permission of instructor. LAB.

PRNT 325. Relief II. 3 Hours.
Continuation of PRNT 224. Prerequisite: PRNT 224, or permission of instructor. LAB.

PRNT 328. Intaglio II, Honors. 3 Hours.
Continuation of PRNT 223. Prerequisite: PRNT 223; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 329. Relief II, Honors. 3 Hours.
Continuation of PRNT 224. Prerequisite: PRNT 224; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 334. Lithography II. 3 Hours.
Continuation of PRNT 233. Prerequisite: PRNT 233 or permission of instructor. LAB.
PRNT 338. Lithography II, Honors. 3 Hours.
Continuation of PRNT 233. Prerequisite: PRNT 233; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 344. Serigraphy II. 3 Hours.
Continuation of PRNT 243. Prerequisite: PRNT 243 or permission of instructor. LAB.

PRNT 348. Special Problems in Printmaking--Color Printing in Relief and Intaglio. 3 Hours.
Multiple block and plate printing in color. (This course is not regularly offered. The current Schedule of Classes should be consulted.) Prerequisite: PRNT 223 and permission of instructor. LAB.

PRNT 349. Serigraphy II, Honors. 3 Hours.
Continuation of PRNT 243. Prerequisite: PRNT 243; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

PRNT 500. Advanced Special Topics in Printmaking: ____. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Printmaking courses, or permission of instructor. LAB.

PRNT 523. Printmaking III A (Intaglio). 3 Hours.
Prerequisite: PRNT 324 or permission of instructor. LAB.

PRNT 524. Printmaking III B (Lithography). 3 Hours.
Prerequisite: PRNT 334 or permission of instructor. LAB.

PRNT 525. Printmaking III C (Serigraphy). 3 Hours.
Prerequisite: PRNT 344 or permission of instructor. LAB.

PRNT 526. Printmaking IV A (Intaglio). 3 Hours.
Prerequisite: PRNT 523 or permission of instructor. LAB.

PRNT 527. Printmaking IV B (Lithography). 3 Hours.
Prerequisite: PRNT 524 or permission of instructor. LAB.

PRNT 528. Printmaking IV C (Serigraphy). 3 Hours.
Prerequisite: PRNT 525 or permission of instructor. LAB.

PRNT 599. Individual Studies in Printmaking. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours may apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Printmaking courses, or permission of instructor. IND.

PRNT 662. Printmaking V. 3 Hours.
Individual research in printmaking. Prerequisite: PRNT 526 or PRNT 527 or PRNT 528. LAB.

PRNT 663. Printmaking VI. 3 Hours.
Continuation of PRNT 662. Prerequisite: PRNT 662. LAB.

PRNT 802. Special Problems in Printmaking. 3 Hours.
Individual research in printmaking: course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: PRNT 579 and permission of instructor. RSH.

PRNT 827. Printmaking VII. 3 Hours.
Continuation of PRNT 663. Prerequisite: PRNT 663. LAB.

PRNT 903. Special Problems in Printmaking. 3 Hours.
Individual research in printmaking: course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: PRNT 802 and permission of instructor. RSH.

PRNT 928. Printmaking VIII. 3 Hours.
Continuation of PRNT 827. Prerequisite: PRNT 827. LAB.

Courses

SCUL 253. Sculpture I. 3 Hours.
Introduction to sculpture. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LAB.

SCUL 300. Special Topics in Sculpture: _____. 3 Hours.
Course to be offered in an area of studio activity of specific interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LAB.

SCUL 330. Sculpture Intercepting the Waste Stream. 3 Hours N.
An introductory course using engaged learning to exploring the genre of ecological art practice (eco-art.) Class focuses on the waste stream particularly as it affects the Kansas River. Through remediation events, students build works of art from trash, in turn auctioned for environmental efforts. Creative attention is focused on ecological imbalance. (Same as EVRN 330.) Prerequisite: Visual Art major or minor, or instructor permission. LAB.

SCUL 349. Metal and Glass Casting. 3 Hours.
A course in foundry techniques as related to sculpture. Both traditional and experimental procedures for casting bronze, aluminum, and iron sculpture are explored. This course is taught at the 300 and 500 levels, with additional assignments at the 500 level. LAB.

SCUL 350. Direct Metal Fabrication. 3 Hours.
The course will present a variety of techniques for fabricating metal sculpture. Oxyacetylene and electric arc welding processes will be included. May be repeated for credit. Prerequisite: SCUL 253. LAB.

SCUL 353. The Figure 3D: Modeling and Molding. 3 Hours H.
Sculpting a figure is radically different form drawing one! You will develop a more comprehensive understanding of the human form while creating art addressing contemporary aesthetic concerns. Prerequisite: Visual Art major or minor, or instructor permission. LAB.

SCUL 354. Sculpture II. 3 Hours.
Continuation of SCUL 253. Prerequisite: SCUL 253. LAB.

SCUL 355. Sculpture III. 3 Hours.
Continuation of SCUL 354. Prerequisite: SCUL 354. LAB.

SCUL 356. Public Art. 3 Hours H.
Students in this class investigate the nature of contemporary public art as well as creating their own artworks. Public Art covers a wide spectrum of art making from interventions, to street art, to murals and on to monumental sculpture. This class also covers how to present for commissions, budgeting, and legal liability. Previous work created in this class has won national awards. Prerequisite: Visual Art major or minor, or instructor permission. LAB.

SCUL 358. Sculpture II, Honors. 3 Hours.
Continuation of SCUL 253. Prerequisite: SCUL 253; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.
SCUL 359. Sculpture III, Honors. 3 Hours.
Continuation of SCUL 354 or SCUL 358. Prerequisite: SCUL 354 or SCUL 358; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

SCUL 360. Build Smart. 3 Hours H.
An introductory woodworking course that emphasizes planning, fabricating, and assembly techniques. Material handling and best practice building methods are introduced and reinforced through a series of individual woodworking projects that expose the student to the properties of wood, as well as, hand and machine woodworking tools. Significant out of class work required. Prerequisite: Visual Art major or minor, or instructor permission. LAB.

SCUL 362. Art and Ecology: Inhabiting the Ecosphere. 3 Hours N.
An introductory course exploring the genre of ecological art practice (eco-art) through a series of engaged learning projects that focus on habitat, the waste stream and natural resources, local ecologies and interventionist creative strategies that focus attention on ecological imbalance. (Same as EVRN 362.) Prerequisite: Visual Art major or minor, or instructor permission. LAB.

SCUL 500. Advanced Special Topics in Sculpture: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Sculpture courses, or permission of instructor. LAB.

SCUL 549. Metal and Glass Casting. 3 Hours U.
A course in foundry techniques as related to sculpture. Both traditional and experimental procedures for casting bronze, aluminum, and iron sculpture are explored. May be repeated for credit. This course is taught at the 300 and 500 levels, with additional assignments at the 500-level. Prerequisite: SCUL 253. LAB.

SCUL 556. Sculpture IV. 3 Hours.
Continuation of SCUL 355. May be repeated for credit. Prerequisite: SCUL 355. LAB.

SCUL 558. Sculpture IV, Honors. 3 Hours.
Continuation of SCUL 355 or SCUL 359. May be repeated for credit. Prerequisite: SCUL 355 or SCUL 359; membership in the University Honors Program or 3.25 minimum cumulative grade-point average; and permission of the department. LEC.

SCUL 599. Individual Studies in Sculpture. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours can apply toward the bachelor’s degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Sculpture courses, or permission of instructor. IND.

SCUL 630. Sculpture Intercepting the Waste Stream. 3 Hours N.
An introductory course using engaged learning to exploring the genre of ecological art practice (eco-art.) Class focuses on the waste stream particularly as it affects the Kansas River. Through remediation events, students build works of art from trash, in turn auctioned for environmental efforts. Creative attention is focused on ecological imbalance. (Same as EVRN 630.) Prerequisite: Graduate standing or permission of instructor. LAB.

SCUL 653. The Figure 3D: Modeling and Molding. 3 Hours H.
Sculpting a figure is radically different form drawing one! Students will develop a more comprehensive understanding of the human form while creating art addressing contemporary aesthetic concerns. Prerequisite: Graduate standing or permission of instructor. LAB.

SCUL 656. Public Art. 3 Hours H.
Students in this class investigate the nature of contemporary public art as well as creating their own artworks. Public Art covers a wide spectrum of art making from interventions, to street art, to murals and on to monumental sculpture. This class also covers how to present for commissions, budgeting, and legal liability. Previous work created in this class has won national awards. Prerequisite: Graduate standing or permission of instructor. LAB.

SCUL 657. Sculpture V. 3 Hours.
Continuation of SCUL 656. Prerequisite: SCUL 556. LAB.

SCUL 658. Sculpture VI. 3 Hours.
Continuation of SCUL 657. May be repeated for credit in subsequent semesters. Prerequisite: SCUL 657. LAB.

SCUL 660. Build Smart. 3 Hours H.
This course is an introductory woodworking course that emphasizes planning, fabricating, and assembly techniques. Material handling and best practice building methods are introduced and reinforced through a series of individual woodworking projects that expose the student to the properties of wood, as well as, hand and machine woodworking tools. Significant out of class work required. Non Visual Art students require permission number from Department. Prerequisite: Graduate standing or permission of instructor. LAB.

SCUL 662. Art and Ecology: Inhabiting the Ecosphere. 3 Hours N.
An introductory course exploring the genre of ecological art practice (eco-art) through a series of engaged learning projects that focus on habitat, the waste stream and natural resources, local ecologies and interventionist creative strategies that focus attention on ecological imbalance. (Same as EVRN 662.) Prerequisite: Graduate standing or permission of instructor. LAB.

SCUL 804. Special Problems in Sculpture. 3 Hours.
Individual research in sculpture: course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: SCUL 559 and permission of instructor. RSH.

SCUL 859. Sculpture VII. 3 Hours.
Individual research in sculpture. Prerequisite: SCUL 658. RSH.

SCUL 905. Special Problems in Sculpture. 3 Hours.
Individual research in sculpture: course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters. Prerequisite: SCUL 804 and permission of instructor. RSH.

SCUL 960. Sculpture VIII. 3 Hours.
Continuation of SCUL 859. Prerequisite: SCUL 859. RSH.

Courses

TD 300. Special Topics in Textiles/Fibers: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LAB.

TD 313. Fiber Forms. 3 Hours.
Studio exploration of fibers as an art form. Techniques include feltmaking, papermaking, basketry, and dyeing. Prerequisite: ART 101, and ART 133. LAB.
TD 314. Introduction to Weaving. 3 Hours U.
Application of art and design principles to four-harness loom structures. Emphasis on the use of color and texture in loom controlled and weaver controlled techniques. Prerequisite: ART 101, and ART 133. LAB.

TD 315. Textile Handprinting and Resist Processes. 3 Hours U.
Fundamentals of resist and dye techniques on textiles: batik, tie-dye, discharge, and direct application. Prerequisite: ART 101, and ART 133. LAB.

TD 316. Screenprinting Textiles. 3 Hours.
Design problems in textile printing with emphasis on screenprinting and photo techniques. Prerequisite: ART 101, and ART 133. LAB.

TD 401. Weave Structures. 3 Hours U.
Continuation of TD 314. Research and analysis of multiple-harness weave structures. Weave drafts. Design problems to develop the use of color, form, and surface in simple and compound weaves. Prerequisite: TD 314. LAB.

TD 402. Techniques in Weaving. 3 Hours U.
Development of individual art and design concepts in relation to woven structures and/or forms. Emphasis on weaver-controlled techniques used to create images and composition. Prerequisite: TD 314. LAB.

TD 403. Intermediate Textile Printing. 3 Hours.
Individual problems in textile printing and dyeing processes. Prerequisite: TD 316. LAB.

TD 404. Surface Design. 3 Hours.
Textile pattern design for art and/or industry. Prerequisite: Twelve hours in Visual Art or Design, or permission of the instructor. LAB.

TD 500. Advanced Special Topics in Textiles/Fibers: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Textiles/Fibers courses, or permission of instructor. LAB.

TD 503. Advanced Surface Design/Screenprinting. 1-6 Hours U.
Directed study of advanced surface design and screenprinting methods. May be repeated for credit. Prerequisite: TD 403. IND.

TD 504. History of Textiles, Lecture. 3 Hours.
Study of historical textiles, their design development, and the techniques employed. Prerequisite: Junior standing in department or permission of instructor. LEC.

TD 506. Advanced Fiber Forms. 1-6 Hours U.
Directed study of three-dimensional and off-loom methods and techniques. May be repeated for credit. Prerequisite: TD 313. IND.

TD 514. Advanced Techniques in Weaving. 1-6 Hours U.
Directed study of advanced loom-controlled and weaver-controlled methods. May be repeated for credit. Prerequisite: TD 401 or TD 402, or permission of instructor. IND.

TD 515. Advanced Textiles/Fibers I. 3-6 Hours AE61.
Development of individual direction in textiles based on experience, research, and skills acquired in preceding courses; capstone experience. Prerequisite: Twenty-four credits in Textiles/Fibers and consent of instructor. LAB.

TD 520. Advanced Textiles/Fibers II. 3-6 Hours AE61.
Continuation of TD 515, capstone experience. Prerequisite: TD 515. LAB.

TD 590. Internship in Textiles/Fibers. 1-3 Hours U.
Practical experience in the use of artistic skills in approved and supervised academic or professional settings. May be repeated for credit; no more than six hours may be applied to the B.A. or B.F.A. degree. Credit hours are graded on a satisfactory/unsatisfactory basis, according to the written recommendation provided by the internship supervisor to the faculty advisor. Prerequisite: ART 102, ART 103, and ART 104; and fifteen hours of Visual Art courses. INT.

TD 599. Individual Studies in Textiles/Fibers. 1-6 Hours AE61 / U.
Individual studio activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours can apply toward the bachelor's degree. Prerequisite: ART 102, ART 103, and ART 104; and twelve hours of Textiles/Fibers courses, or permission of instructor. IND.

TD 715. Textile Design in Weaving, Printing, and Dyeing. 2-6 Hours.
Individual research. Prerequisite: Graduate standing. RSH.

TD 815. Textile Design in Weaving, Printing, and Dyeing. 2-6 Hours.
Continuation of TD 715. RSH.

Courses

VAE 130. Art and Design in Daily Life. 3 Hours U.
The course aims to develop students' appreciation of designed objects in contemporary life whether they are historical icons or everyday items in the immediate environment. The instructional materials and activities assist students in acquiring the knowledge and skills for critically analyzing, discussing, and evaluating objects. Course content is interdisciplinary with a focus on design history. The class is open to all students and is relevant to those who have taken classes in art, design, architecture, and art history. Not open to students with credit in VAE 530. LEC.

VAE 300. Special Topics in Visual Art Education: ______. 3 Hours U.
Course to be offered in an area of special interest to individual faculty and qualified students. (This course is not regularly offered. The current Schedule of Classes should be consulted.) May be repeated for credit. Prerequisite: ART 102, ART 103, and ART 104, or permission of instructor. LEC.

VAE 320. Instruction and Curriculum I. 3 Hours.
This methods course provides an overview of the professional practices of K-12 art educators. Course content deals with the art education program, K-12, in relationship to the rest of the curriculum. This encompasses goals, objective sequence, courses offered at various levels, finance, staffing and administration. Prerequisite: Junior standing or consent of the instructor. LEC.

VAE 325. Education in Multicultural Society. 2 Hours.
The course is designed to provide the student with an awareness of and sensitivity to the concept of multicultural education. Topics related to the rationale for and processes of providing a multicultural perspective within the schools will be addressed. Field experiences will be structured to provide students with opportunities to observe the diversity within our society. LEC.

VAE 341. Instructional Strategies in Art for Elementary Classroom Teachers. 2 Hours.
Child growth and development in art. Materials as they relate to a sequential art education curriculum in the elementary school. Prerequisite: Admission to the School of Education or the education division of the graduate school. LEC.

VAE 395. Community Collaborations in Art Education. 3 Hours U.
A focused examination of existing community organizations, models, and resources alongside collaborative strategies for working with these entities to achieve common goals for art education. Students in this class
will learn of collaborative community models, explore entrepreneurial and other educational initiatives that contribute to the general purpose of art education, and recognize the role of families and other community members in contributing to the arts. LEC.

VAE 410. Instruction and Curriculum II. 3 Hours.
This methods course provides an overview of the professional practices of K-12 art educators. Course content deals with the art education program, K-12, in relationship to the rest of the curriculum. This encompasses goals, objective sequence, courses offered at various levels, finance, staffing and administration. Prerequisite: Junior standing or consent of the instructor. LEC.

VAE 420. Artistic Media and Processes in Art Education. 3 Hours.
Building on course content in VAE 320, this course concentrates on instructional strategies and presentation models in art education. Students examine and explore the media appropriate to teaching art in various settings and levels as well as how art program budgets are derived and impact overall curriculum development. Prerequisite: VAE 320 or permission of instructor. LEC.

VAE 497. Independent Study. 1-3 Hours.
Only one enrollment permitted each semester; a maximum of four hours will apply toward the bachelor’s degree. Prerequisite: Recommendation of advisor and consent of instructor. IND.

VAE 500. Student Teaching. 9 Hours AE61.
A supervised teaching experience in an approved school setting, with level and subject area to be selected according to the teaching field. Individual activity; capstone experience. Course content to be determined by the student under supervision of a faculty member. May be repeated for credit in subsequent semesters; a maximum of nine hours can apply toward the bachelor’s degree. Prerequisite: Admission to the student teaching program; and ART 102, ART 103, and ART 104; and twelve hours of Visual Art Education courses, or permission of instructor. FLD.

VAE 520. Instructional Technology in Art Education. 3 Hours.
This course addresses technology that is pertinent to professional art educators. Students use technology to develop a professional portfolio and technology-related resources for teaching art in PreK-12 schools and community settings. LEC.

VAE 530. Art and Design in Daily Life. 3 Hours.
The course aims to develop students’ appreciation of designed objects in contemporary life whether they are historical icons or everyday items in the immediate environment. The instructional materials and activities will assist students in acquiring the knowledge and skills for critically analyzing, discussing, and evaluating objects. Course content is interdisciplinary with a focus on design history. The class is open to all students and is relevant to those who have taken classes in art, design, architecture, and art history. Not open to students with credit in VAE 130. LEC.

VAE 596. Practicum in Teaching Art. 2 Hours.
A supervised art teaching practicum in which students will learn to employ different teaching strategies with children pre-school through high school in the school or museum setting. Prerequisite: VAE 320, VAE 410, VAE 795 or consent of instructor. LEC.

VAE 598. Special Course: _____ 1-5 Hours.
A special course of study to meet current needs of education professionals; primarily for graduate students. LEC.

VAE 599. Community Based Project in Art Education. 1-6 Hours AE61 / U.
Individual activity and project that serves as an alternate capstone experience to VAE 500 (Student Teaching). Will involve the development of an independent, community-based arts education project developed by the student under the supervision of a VAE faculty member. Prerequisite: Forty credits of Visual Art, fifteen credits of Visual Art Education Courses, and permission of the instructor. IND.

VAE 680. Internship in Teaching Art. 5-16 Hours.
A supervised internship experience leading to initial art teacher certification. The student assumes the total professional role as a teacher of art in an approved school setting. INT.

VAE 716. Teaching Art: _____ 1-4 Hours.
Instructional techniques, methodology, materials, and evaluation. Processes for the specific art area named. May be repeated for credit in different media. LEC.

VAE 750. Introduction to Art Museum Education. 1-4 Hours.
This course provides a general overview to the museum education field. Course readings include current ideas and issues on learning, art education, criticism, the museum in education, and museum education practices. LEC.

VAE 790. Applications of Technology in Art Education. 1-3 Hours.
The course is designed to provide students with the skills necessary for using and assessing the impact of microcomputers, video recorders, and other technological developments in art education. Prerequisite: TL 601 or equivalent. LEC.

VAE 798. Special Course: _____ 1-5 Hours.
A special course of study to meet current needs of education professionals; primarily for graduate students. LEC.

VAE 800. Visual Art Education Curriculum Development. 1-3 Hours.
A study of research, resources, and media as they relate to learning goals in a sequential art curriculum for use by teachers. The amount of credit reflects the extent of the curriculum being developed and the amount of work involved in the development process. LEC.

VAE 825. Seminar in: _____ 1-4 Hours.
LEC.

VAE 830. Seminar in: _____ 1-4 Hours.
LEC.

VAE 842. Teaching Art Criticism. 3 Hours.
An examination of the four phases of art criticism (description, analysis, interpretation and judgment) will be followed by practice in using these phases in the development of effective art curriculum for all developmental levels. Prerequisite: PRE 702 and PRE 704 or equivalents. LEC.

VAE 850. Aesthetics, the Arts and Education. 3 Hours.
Theoretical introduction to the problems involved in teaching critical appreciation of the arts; examination of materials from aesthetics, art history, and criticism. LEC.

VAE 869. History of Art Education. 3 Hours.
A study of the historical development of art education. Prerequisite: Nine hours of education. LEC.

VAE 875. Research in Art Education. 3 Hours.
This course examines the issues and procedures commonly used to conduct research in art education in preparation for students’ graduate theses or projects. Research methods are adapted and applied to students’ professional needs and interests in the form of a research proposal. LEC.

VAE 890. Preparation for the M.A. Examination. 1 Hour.
An independent reading course in preparation for the M.A. Examination. The grade will be an S or U, as determined by the performance on the
examination. The examination will be evaluated separately. Prerequisite: Permission of the instructor. LEC.

VAE 895. Field Experience in: ____. 1-6 Hours.
Supervised and directed experiences in selected professional settings and cooperating agencies. Prerequisite: Permission of instructor. FLD.

VAE 897. Independent Study. 1-4 Hours.
Prerequisite: Consent of advisor and instructor. RSH.

VAE 898. Master’s Project. 1-4 Hours.

VAE 899. Master’s Thesis. 1-6 Hours.

VAE 900. Supervision and Evaluation of Visual Arts Programs. 3 Hours.
A study of the administration of school, museum, and community arts education programs. Topics will include curriculum development, personnel supervision, finance, and the quantitative and qualitative evaluation of arts programs. Prerequisite: TL 703 or equivalent. LEC.

Bachelor of Fine Arts in Visual Art

Bachelor of Fine Arts in Visual Art
The Bachelor of Fine Arts in Visual Art is a four-year, 120 credit hour degree program. The first year is spent in foundations courses where students focus on the development of their creative and technical skills. After the foundation year, students can select to concentrate in several degree emphasis areas.

B.F.A. General (encompasses Drawing, Painting, Printmaking, Sculpture, and Expanded Media)

B.F.A. Ceramics

B.F.A. Metalsmithing/Jewelry

B.F.A. Textiles/Fibers

The intent is for students to explore a variety of mediums in order to determine how they would like to focus their advanced studies. In addition, fundamental concepts and strategies of artmaking are reinforced, even as new techniques and approaches from various disciplines are introduced.

In addition to completing the on-line application to KU Admissions, prospective students must submit a portfolio and responses to three essay questions to the Department of Visual Art in order to complete the application process and be for admission to the major in Visual Art.

First-Year Preparation
The first year foundations courses for the B.F.A., B.A., and B.A.E. degree include 13 hours of foundations studio, 6 hours of English, and 6 hours of Art History coursework.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

Admission to the College of Liberal Arts and Sciences
Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Bachelor of Fine Arts in Visual Art Degree Requirements
The Department of Visual Art offers the B.F.A. in Visual Art, including the areas of Ceramics, Drawing, Expanded Media, Metalsmithing/Jewelry, Painting, Printmaking, Sculpture, and Textiles/Fibers. A total of 120 hours is required for the degree, including 45 junior/senior hours (courses numbered 300 or higher). 30 of these 45 junior/senior hours must be taken in residence at the University of Kansas. In addition to the 13-hour foundations requirement, a minimum of 48 hours in departmental courses is required, including 2 semesters of Senior Seminar.

The Department of Visual Art reserves the right to retain examples of student work and to use images of student work on internet websites and for university publication purposes.

**Bachelor of Fine Arts in History of Art**

The Bachelor of Fine Arts in History of Art

The BFA in History of Art is a four-year, 120 credit hour degree program combining a 30-hour concentration in the history of art with 30 hours of studio art training to serve students interested in both the history and the making of art.

History of Art B.F.A. majors learn how to investigate and analyze the aesthetic characteristics, meaning, and function of works of art, and to place works in historical, cultural, and stylistic contexts. Students gain a general knowledge of the monuments and principal artists of all major periods of the past, with an emphasis on the art of the 20th- and 21st-centuries and gain a sophisticated understanding of what can be learned about different cultures and time periods through the study of art.

**First-Year Preparation**

The first year foundations courses for the B.F.A., B.A., and B.A.E. degree include 13 hours of foundations studio, 6 hours of English, and 6 hours of Art History coursework.

Bachelor of Fine Arts in History of Art

Degree Requirements

A major in the history of art is available to candidates for the B.F.A. degree. This major combines a 30-hour concentration in art history with 17 hours of studio training (beyond the 13 hours of foundation courses). A total of 120 hours is required for the degree, including 45 junior/senior hours (courses numbered 300 or higher). 30 of these 45 junior/senior hours must be taken in residence at the University of Kansas. The B.A. and B.G.S. degrees (p. 1656) are offered by the College of Liberal Arts and Sciences.

Breadth Courses: Six courses total; a course or topic may fulfill only one requirement, either for geographical or chronological breadth.

2. Breadth Courses, Geographical Regions: complete one course in three out of four geographical regions.

A. Americas, Africa, Middle East

- HA 353/569 Modern and Contemporary African Art
- HA 370/570 American Art
- HA 377/677 African Design
- HA 390/590 Special Study in African Art: _____
- HA 396/596 Special Study in American Art: _____
- HA 529 Archaeology and Art of the Ancient Near East
- HA 536 Islamic Art and Architecture in Africa
- HA 581 American Art to 1860: Inventing a Nation
- HA 582 American Art 1860-1900: Gilded Age
- HA 583 American Art 1900-1945: Rise of Modernism

B. Europe

- HA 311 The Art and Architecture of the British Isles
- HA 322 European Architecture 300-1300
- HA 325/525 Aegean Archaeology and Art
- HA 326/526 Greek Archaeology and Art
- HA 327/537 Roman Archaeology and Art
- HA 330 Italian Renaissance Art
- HA 331 Northern European Art from Van Eyck to Brueghel
- HA 335/535 Renaissance Architecture in Italy
- HA 372 Baroque Art in Europe
- HA 376/576 Art in the Age of Rubens, Rembrandt and Vermeer: Northern Baroque
- HA 393/593 Special Study in Medieval Art: _____
- HA 394/594 Special Study in Renaissance Art: _____
- HA 395/595 Special Study in Baroque Art: _____
- HA 506 Early Medieval and Romanesque Art
- HA 507 Gothic Art
- HA 510 Medieval Manuscripts and Early Printed Books
- HA 511 From Court to City: Northern Art
- HA 512 Humanism and Reform: 16th Century Northern European Art
- HA 527 Late Medieval Art in Italy
- HA 528 The Spatial Arts of Urban Italy
- HA 533 Rococo to Realism: Painting in Europe c. 1750-1848
- HA 534 Impressionism and Post-Impressionism: 1848-1900
- HA 538 Pompeii and Herculaneum
- HA 564 European Art, 1900-1945
- HA 579 Southern Baroque Art
- HA 340/540 Special Study in Asian Art Before 1900: _____
- HA 344/544 Manga: Histories and Theories
3. Breadth Courses, Chronological Periods: complete one course in three out of four chronological periods.

A. Pre-1400

HA 322 European Architecture 300-1300
HA 325/525 Aegean Archaeology and Art
HA 326/526 Greek Archaeology and Art
HA 327/537 Roman Archaeology and Art
HA 361/561 Buddhist Art of Korea
HA 392/592 Special Study in Ancient Art: ______
HA 393/593 Special Study in Medieval Art: ______
HA 506 Early Medieval and Romanesque Art
HA 507 Gothic Art
HA 510 Medieval Manuscripts and Early Printed Books
HA 527 Late Medieval Art in Italy
HA 529 Archaeology and Art of the Ancient Near East
HA 538 Pompeii and Herculaneum
HA 545 Early Chinese Art

B. 1400-1850

HA 330 Italian Renaissance Art
HA 331 Northern European Art from Van Eyck to Brueghel
HA 335/535 Renaissance Architecture in Italy
HA 347/547 Ceramics of East Asia
HA 354/554 Japanese Prints
HA 372 Baroque Art in Europe

HA 376/576 Art in the Age of Rubens, Rembrandt and Vermeer: Northern Baroque
HA 394/594 Special Study in Renaissance Art: ______
HA 395/595 Special Study in Baroque Art: ______
HA 512 Humanism and Reform: 16th Century Northern European Art
HA 533 Rococo to Realism: Painting in Europe c. 1750-1848
HA 579 Southern Baroque Art
HA 581 American Art to 1860: Inventing a Nation

C. Post-1850

HA 343/543 Special Study in 20th/21st-Century Art: ______
HA 344/544 Manga: Histories and Theories
HA 353/569 Modern and Contemporary African Art
HA 363 Modern Korean Art and Culture
HA 371/571 Modern Sculpture
HA 377/677 African Design
HA 380/580 History of Photography
HA 388/588 Modern and Contemporary Visual Arts of Japan
HA 390/390 Special Study in African Art: ______
HA 534 Impressionism and Post-Impressionism: 1848-1900
HA 536 Islamic Art and Architecture in Africa
HA 564 European Art, 1900-1945
HA 566 Art From 1945 to the 1980s: Modernism to Post-Modernism
HA 567 Contemporary Art
HA 582 American Art 1860-1900: Gilded Age
HA 583 American Art 1900-1945: Rise of Modernism
HA 589 Japanese Artistic Encounters with Europe and the United States

D. Cross-period

HA 311 The Art and Architecture of the British Isles
HA 362/562 Ceramics of East Asia
HA 367 Art and Culture of Japan
HA 368 Art and Culture of China
HA 369 Art and Culture of Korea
HA 370/570 American Art
HA 385/585 The Art of Buddhism
HA 488 Chinese Painting, Honors
HA 511 From Court to City: Northern Art
HA 528 The Spatial Arts of Urban Italy
HA 539 History of Japanese Buddhist Art
HA 546 Chinese Sculpture
HA 549 Chinese Painting
HA 586 Japanese Painting
HA 587 Japanese Sculpture
4. Complete an art history course (3 hours) or studio course (3-6 hours) approved for Goal 6 in the KU Core. (The Goal 6 art history course may also fulfill one of the breadth requirements above, in which case an elective course should be taken for the final 3 required hours of art history. If a Goal 6 studio course is taken, an elective course should be taken for the final 3 required hours of art history.)

5. Art history elective (0-3 hours; see number 4 above)

Electives in applicable studio courses: Satisfied by completing coursework with subject code (ART, CER, EXM, METL, PNTG, PRNT, SCUL, TD, VAE)

General Education Courses
Completion of KU Core Requirements. (see KU Core section of the catalog)

Total Hours 120

1 The History of Art breadth requirement needs one course (3 hours) in History of Art at the 300+ level from each of the following six categories: Art between 400-1400: European, Mediterranean, or Near Eastern; Art between 1300-1600: European, Mediterranean, or Near Eastern; Art between 1600 and 1700: European; Art between 1700-1900: European or American; Asian Art before 1900; and Art after 1900. Possible courses are listed under the degree requirements tab.

2 The department recommends that students take the HA or Studio Art course to satisfy Goal 6 in either the fall or spring semester of their fourth year. HA 698 and HA 550 fulfill a Goal 6 requirement.
A course may double count for a breadth requirement within the major and also for the Goal 6 requirement in the KU Core. If one course is taken to fulfill both requirements, an additional History of Art elective at the 300+ level is required.

Please note:

All students in the College of Liberal Arts and Sciences are required to completed 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

Bachelor of Arts in Visual Art

Bachelor of Arts in Visual Art

The Bachelor of Arts in Visual Art is a four-year, 120 credit hour degree program. The B.A. in Visual Art is a traditional liberal arts undergraduate degree, requiring 24 credit hours in Visual Art beyond the 1st year foundations courses, as opposed to the the more art intensive B.F.A. degree.

Students interested in pursuing a double major may find it easier to pair the B.A. with other undergraduate degrees. After taking the foundations courses, students take their remaining studio courses from the seven Visual Art studio areas: Ceramics, Expanded Media, Metalsmithing/ Jewelry, Painting/Drawing, Printmaking, Sculpture, Textiles/Fibers, and Photomedia (in the Design Department).

In addition to completing the online application to KU Admissions, prospective students must submit a portfolio and responses to three essay questions to the Department of Visual Art in order to complete the application process and be for admission to the major in Visual Art.

First-Year Preparation

The first year foundations courses for the B.F.A., B.A., and B.A.E. degree include 13 hours of foundations studio, 6 hours of English, and 6 hours of Art History coursework.

Undergraduate Admission

Admission to KU

All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

Admission to the College of Liberal Arts and Sciences

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

Bachelor of Arts in Visual Art

A Bachelor of Arts degree is offered in visual art. A total of 120 hours is required for the degree, including 45 junior/senior hours (courses numbered 300 or higher). 30 of these 45 junior/senior hours must be taken in residence at the University of Kansas.

3 Elective or possible minor course 300+ (Total Hours)  3

3 LA&S 492 (Job Search Strategies, or elective)  1

**Total Hours 120-123**

1. The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.
2. Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

### BFA in Visual Art with concentration in Ceramics

Below is a sample 4-year plan for students pursuing the BFA in Visual Art with a concentration in Ceramics. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

### Bachelor of Art Education in Visual Art Education

#### Why choose a degree in Visual Art Education?

The BAE in Visual Art Education is an interdisciplinary degree that provides students with the knowledge, skills, and experience to become either licensed preK-12 art teachers to teach in a public/private school or qualified candidates for teaching in a community setting. To prepare for the art education profession, students complete a combination of coursework in visual art, education, and art education. The program culminates in either an internship in a community organization or a semester-long student teaching assignment in a school setting that gives a crucial background in what it means to be an art educator. Here artistic and intellectual training is balanced with professional preparation leading to careers in arts education.
Undergraduate Admission

Admission to KU

All students applying for admission to KU must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the Office of International Student and Scholar Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

Admission to the Major

Students who wish to major in visual art education should seek admission to the School of the Arts at the time of application, and submit an art portfolio to the Department of Visual Art. Prospective students should contact the Department of Visual Art for information about portfolio requirements and academic advising.

In the first three semesters of study, art education majors complete the following prerequisite courses, which are required for admission into the VAE professional sequence:

<table>
<thead>
<tr>
<th>Code</th>

</tr>
</tbody>
</table>

Admission to the VAE Professional Sequence

VAE majors must apply for admission to the VAE Professional Sequence during their sophomore year, and transfer students bringing in over 45 hours of credit must apply during their first semester at KU. The application packet should be obtained from the VAE Professional Sequence Coordinator and submitted by the due date indicated in the packet. Before applying, students must satisfy the following requirements:

1. Successfully complete all prerequisite courses, with a prerequisite GPA # 2.75 and no prerequisite grade below C.
2. Earn a cumulative GPA # 2.75.

Minor in Visual Art

The Department of Visual Art welcomes non-majors who wish to learn about the various areas within visual art through the completion of a minor. Visual Art minors are not required to submit a portfolio for admission.

Because studio courses are sequential, students are advised to declare a minor no later than the first semester of their junior year to allow for adequate time to complete the Visual Art minor.

The Visual Art minor is 18 hours or 6 courses, (12 hours at the JR/SR level). Students complete a foundations course, such as, ART 101 Drawing I, and an introductory concentration course out of the 8 art areas we offer (Drawing, Painting, Ceramics, Expanded Media, Metalsmithing/Jewelry, Printmaking, Sculpture, or Textiles). Students are encouraged to concentrate in one art area to attain the proper number of JR/SR hours.

Requirements for the Minor

A minimum of 18 hours is required for the minor; 12 hours must be numbered 300 and above.

² Only offered fall semesters.
³ Only offered spring semesters.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.
Departmental faculty selection and review committees evaluate each applicant's transcripts, portfolios, and letters of recommendation to determine their qualifications for admission. The committees expect applicants to have the B.F.A. degree or equivalent experience. In general, committees expect applicants to present about 70 hours of undergraduate credit in studio or related professional courses including about 36 hours of studio credit in a major area, to have maintained an undergraduate overall grade-point average of 3.0 on a 4.0 scale and in the proposed major, and to have had a minimum of 9 hours of credit in art history. The department encourages full-time residence.

Application to the program is competitive, by permission of the Kansas Board of Regents application for admission to graduate programs in Visual Art may be refused if available instructional space does not allow for addition of more students. More information about materials and deadlines is available on the Department of Visual Art admissions page. (http://art.ku.edu/graduate-program-admissions/)

Submit your application and fee online:

- 1 official transcript of all college and university coursework,
- statement of purpose,
- 3 letters of recommendation,
- digital portfolio,
- printed image index,
- application form for financial aid,
- statement of financial resources (international students) and
- Non-native English speakers must demonstrate proof of English proficiency. Please see Graduate policy on English Proficiency (https://gradapply.ku.edu/english-requirements/) for more information

### M.F.A. in Visual Art Degree Requirements

#### Concentrations in Ceramics, Drawing and Painting, Expanded Media, Fibers, Metalsmithing and Jewelry, Printmaking, and Sculpture

The graduate program consists of 60 semester hours of graduate credit, including thesis exhibition, in courses approved by the graduate director and the graduate thesis committee. At least 50% of the coursework required for the degree must be taken at the 700 level or above. A student may concentrate in one or more specializations. When the student has completed 2 semesters, the faculty selection and review committee reviews the student's work. The graduate director gives the student a written assessment of progress, signed by the committee. At the end of the third semester, the same committee conducts a thesis review that determines whether the student is prepared to begin thesis work, needs additional coursework, or is to be dropped from the program.

Upon approval by the review committee, the candidate begins work toward the thesis. Students not receiving approval may continue to work toward the next review unless denied by the committee. A student who is approved for thesis work may enroll in Thesis in Art. Before thesis enrollment, the student selects a graduate thesis committee consisting of 3 members of the graduate art faculty. The committee advises the student, conducts regularly scheduled reviews of the work, and determines whether the requirements for the thesis have been completed. The graduate director must approve the membership of the graduate thesis committee.
The final departmental requirements are

- A thesis exhibition of the student's work,
- An oral examination, and
- A thesis folio of the exhibition.

The thesis folio includes a statement written by the candidate concerning the work and a visual record of the exhibition. The department reserves the option of selecting and retaining one example of each graduate student's work. Upon enrolling, the student automatically accepts these requirements and conditions.

### Master of Arts in Visual Art Education

The Visual Art Education M.A. Program includes advanced professional and scholarly study for art educators. Individuals with a baccalaureate degree in art education or in art-related fields, who wish to advance their knowledge and skills for teaching in the public schools or in other settings such as community arts organizations can apply. Excellent facilities, strong library holdings, and a faculty dedicated to both teaching and research assure students of a challenging and professional graduate preparation. Full time students in the VAE Graduate Program are eligible for competitive funding in the form of scholarships and a graduate teaching assistantship. Additional details may be found on the Visual Art Education website (https://art.ku.edu/visual-art-education-program/).

### Graduate Licensure Program in Art Education

The VAE Graduate Licensure Program (GLP) combines graduate and undergraduate courses including a semester-long student teaching experience that help students obtain their initial teaching license (PreK-12). The GLP is for individuals who have completed baccalaureate degrees in studio art, design, art history, or other art-related fields. Students must apply and be admitted to the Visual Art M.A. Program to be eligible to obtain their teaching license. Graduate level courses taken as part of the GLP count towards completion of the M.A. degree.

### Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

### Graduate Admission - M.A. Visual Art Education

Application deadlines:

- December 1 - Spring admission
- May 1 - Fall admission

All applicants to graduate programs at KU must meet the minimum requirements listed in the Admission to Graduate Study (http://policy.ku.edu/graduate-studies/admission-to-graduate-study/) policy. Visual Art Education M.A. applicants are also evaluated based on the following items:

- Past Visual Art, Visual Art Education, and Art History coursework completed at the undergraduate and/or graduate level.
- Three letters of recommendation from former or current instructors and/or those able to recommend the applicant on the basis of professional experience (e.g., principals, supervisors, or former employers). The letters of recommendation must address the applicant's potential to take initiative as a graduate student and ability to be a self-starter.
- The Graduate Student Information Questionnaire (https://art.drupal.ku.edu/sites/art.drupal.ku.edu/files/docs/MA%20VAE%20Applicant%20Questionnaire.pdf).
- Graduate Licensure applicants only: Praxis 1 test scores.

More information regarding application materials is available on the Visual Art Education admissions (http://art.ku.edu/visual-art-education-ma-admissions/) site.

### M.A. Degree Requirements

The Master of Arts Degree in Visual Art Education provides students with a broad knowledge of the history, philosophy, research methods, and current practices in the field. The program requires a minimum of 30 credit hours taken at the graduate level. At least 50% of coursework required for the master's degree must be taken at the 700 level or above. Students complete a balance of visual art education courses including VAE 800, VAE 869, and VAE 875. The remainder of coursework is completed in related fields such as history of art, education, museum studies, psychology, etc. which becomes a student's emphasis. This emphasis, selected in consultation with a VAE faculty advisor, provides a broad, interdisciplinary preparation in art education.

### Thesis, Project, or Examination Options

To integrate and apply coursework, students select from three options as their final academic activity: thesis, project, or examination. A thesis is an independent research investigation of a topic related to visual art education using quantitative, qualitative, historical or philosophical methods. The project option involves application of theory and principles of visual art education in an instructional setting. The final option, a written examination taken during the final semester of enrollment, requires students to demonstrate their knowledge of current issues in the field. Students selecting the examination option complete a total of 37 credit hours for the degree while the thesis and project options require a total of 30 credit hours.
Further details about degree requirements and the Visual Art Education M.A. Program can be found on the Department's website (https://art.drupal.ku.edu/visual-art-education-program).

Over 70 years of Preparing Exceptional Leaders for Public Service

The University of Kansas School of Public Affairs and Administration develops skilled leaders, innovators and problem solvers who are ready to make a difference in their communities by addressing social and economic challenges at all levels of governance. Our graduates become leaders and public management professionals who exemplify a deep commitment to ethical public service within a wide variety of public and nonprofit sector professions.

We offer bachelor’s degrees and minors at the undergraduate level, master’s degrees in public administration or urban planning, a doctorate in public administration and various joint degrees and academic certificates.

Undergraduate Programs

Public Administration

A bachelor’s degree in public administration provides undergraduate students with the knowledge and skills needed for planning, implementing and evaluating public programs. As students learn to think critically and analytically about public policy, they will better understand the dynamics in their own communities and how to be more effective citizens and public officials.

Graduates of the program will be ready to work in settings like local and state government, nonprofit organizations and private sector businesses.

The public administration program is designed for students who have earned an associate’s degree or equivalent hours and are looking to complete the final two years necessary for a bachelor’s degree in public administration.

Introductory classes in public administration are offered in Lawrence and at the Edwards Campus in Overland Park. Courses to complete the major and minor in are offered at the Edwards Campus.

Law and Society

Law and society is an interdisciplinary field that examines how law works in practice in public administration, courts, the non-profit sector, policy, policing, and the justice system. A degree in law and society provides a strong background in how law works in practice. Students learn about legal history and legal policy, how law shapes managerial processes, how it shapes government and the system of justice, and how it affects ordinary people in every walk of life.

Graduates of the program will be ready to work in a variety of settings, including criminal justice organizations, non-profits, policy think tanks, and political institutions. There’s significant demand for this type of degree among the region’s police departments.

The law and society program is designed for students who have earned an associate’s degree or equivalent hours and are looking to complete the final two years necessary for a bachelor’s degree in law and society.

Courses to complete the major and minor in law and society are offered at the Edwards Campus.

Graduate Programs

Master of Public Administration

With a unique combination of theoretically grounded course work and practical application, our master of public administration degree provides students with the knowledge and skills needed to lead, innovate, and problem-solve in public sector and non-profit settings.

Our Edwin O. Stene MPA program is one of the oldest and most respected programs in the United States, beginning with our local government leadership program founded in 1948. Since 1998, our tradition of excellence in educating students at the masters’ level has been recognized by U.S. News & World Report with a #1 ranking in city management and urban policy.

The MPA degree meets the needs of both full-time students who are looking to launch a career in public service as well as those who already have a career and are looking to accelerate it by pursuing an MPA degree part-time. The MPA degree may be obtained through course work offered in Lawrence, and the KU Edwards Campus in Overland Park, Kansas.

Our master of public administration program offers a City Management Fellowship for full-time students interested in careers in city management. The Fellowship is a unique blend of rigorous academic coursework at the Lawrence campus for a year, followed by a Fellowship year in which the student is placed in a local government position somewhere the country.

Master of Urban Planning

The master of urban planning is a graduate professional degree that prepares students for careers in urban planning. It is the normal academic qualification for various planning and planning-related positions. The MUP degree is accredited by the Planning Accreditation Board. The program places strong emphasis on policy planning and analysis in the context of
urban or urbanizing environments. The program is geared toward meeting the need for planning policy on urban issues at any level of government — federal, state, regional, and local — or outside the governmental arena.

Three major areas of knowledge are necessary for competence in policy planning:

1. History and theory, which provide the conceptual framework of social, economic, and political environments within which public policy is formed;
2. Quantitative methods, which provide the skills necessary to define and analyze problems through data manipulation; and
3. Specialty areas, which provide focused information and skills in Housing and Development, Sustainable Land Use Planning, and Transportation.

The MUP degree may be obtained through course work offered in Lawrence.

Doctorate in Public Administration

The mission of the doctoral program in the KU School of Public Affairs and Administration is to provide advanced graduate education in theory and research in order to prepare students for academic and research careers in public administration, as well as professional careers in advanced practice of public administration.

Graduate Certificates

Graduate Certificates are a way to delve into specialized areas of public administration theory and practice. They are structured to provide a condensed version of the specific skills and knowledge to advance in particular professional fields. Certificates can be earned in conjunction with your graduate degree or as a stand-alone certification and may focus in a specialized area, including:

- City and County Management (https://kupa.ku.edu/graduate-certificates/city-county-management/)
- Law & Society (https://kupa.ku.edu/graduate-certificates/law-society/)
- Performance Management (https://kupa.ku.edu/graduate-certificates/performance-management/)
- Public / Nonprofit Management (https://kupa.ku.edu/graduate-certificates/public-nonprofit-management/)
- Public Policy (https://kupa.ku.edu/graduate-certificates/public-policy/)
- Urban Planning (https://kupa.ku.edu/graduate-certificates/urban-planning/)

Courses

LWS 330. Introduction to Law & Society. 3 Hours GE3S / S.
Offers an introduction to the interdisciplinary field of law and society. Surveys the role of law in social processes and the influence of these processes on law, and introduces alternative theoretical perspectives on these processes. LEC.

LWS 332. Methods in Law and Society. 3 Hours GE11 / S.
Surveys the various methods used in law society research and prepares students to be sophisticated readers of basic socio-legal research, capable of evaluating the quality of the research design and methods. Prepares students to participate as research assistants in original studies. LEC.
PUAD 330. Introduction to Public Administration. 3 Hours S.
Introduction to administration, public policy and policy makings is the study of government workers, the organizations in which they work, how they are financed, and how government engages citizens to help form and maintain community. In various ways, the class sessions explore the three important issues of public administration: discretion, authority, and accountability. (Same as POLS 330.) Prerequisite: POLS 110. LEC.

PUAD 331. Introduction to Public Administration, Honors. 3 Hours S.
Introduction to administration, public policy, and policy making, for honors students is the study of government workers, the organizations in which they work, how they are financed, and how government engages citizens to help form and maintain community. In various ways, the class sessions explore the three important issues of public administration: discretion, authority, and accountability. (Same as POLS 331.) Prerequisite: POLS 110. LEC.

PUAD 332. Quantitative Methods for Public Administration. 3 Hours GE12 / S.
Focuses on building the quantitative analysis skills of students in public administration. Students learn basic and intermediate statistics, and methods of data analysis and interpretation. Students gain exposure to the uses of data in public organizational settings. LEC.

PUAD 333. Hard Choices in Public Administration: _______. 3 Hours GE3S / S.
Focuses on some of America’s most vexing public policy challenges and emphasizes the political context of difficult choices. Course examines models of decision-making and the process of policy analysis. Students learn how to apply the tools of policy analysis to make policy judgments. Prerequisite: PUAD 330 or PUAD 331. LEC.

PUAD 401. Administration of Justice. 3 Hours AE41 / S.
Examines the administration of justice and focuses on differential and discriminatory treatment in policing, criminal prosecutions, trials, sentencing, or imprisonment. Also considered are the basis and impact of racial profiling, harassment, arbitrary detention, and abusive treatment of members of racial and ethnic groups, immigrants, and/or other vulnerable groups by law enforcement, and disparate treatment by prosecutors and the courts. This course is offered at the 400 and 700 level with additional assignments at the 700 level. Not available to students with credit in PUAD 601 or PUAD 701. LEC.

PUAD 402. Diversity and Social Equity in Public Administration. 3 Hours AE41 / S.
Analyzes diversity and leadership in public and private institutions along ethnic, racial, and gender lines and the challenges of the facilitation of open dialogue on diversity. Examines the political, historical, social, and economic reasons why Americans of different ethnic, racial, and gender groups hold divergent views about major public policy areas, as well as fundamental views about democratic participation. This course is offered at the 400 and 700 level with additional assignments at the 700 level. Not available to students with credit in PUAD 602 or PUAD 702. Prerequisite: PUAD 330 or PUAD 331. LEC.

PUAD 403. Foundations of the Nonprofit Sector. 3 Hours H/S.
This course provides an overview of the U.S. nonprofit sector, its history, scope, diversity and its positioning among and between the private and public sectors of the U.S. economy. The course explores the legal framework under which nonprofit organizations operate and are regulated. Economic, political, social, organizational and giving theories of the sector are reviewed in order to understand the sectors existence, roles and activities with particular attention to philanthropy and voluntarism. Distinct contributions to society as well as contemporary challenges faced by the sector are examined. This course is offered at the 400 and 700 level with additional assignments at the 700 level. Not available to students with credit in PUAD 603 or PUAD 703. Prerequisite: PUAD 330, or POLS 110, or MGMT 305, or a PUAD master’s core course, or consent of instructor. Junior status or above is also required. LEC.

PUAD 404. Resource Development and Management in Nonprofit Organizations. 3 Hours H.
This course provides an overview of the broad range of activities relevant to acquisition, management and utilization of resources in nonprofit organizations. The course identifies the primary strategies through which resources are generated with emphases on grantwriting, fundraising, social entrepreneurship, and public/private partnerships. Development of organizational identity and management of public relations is examined in relation to resource and relationship development. Strategies for management of resources to ensure long-term benefit and sustainability are explored. Not available to students with credit in PUAD 604. Prerequisite: PUAD 403. LEC.

PUAD 405. Managing Nonprofit Relationships. 3 Hours H.
This course considers the set of relationships that nonprofit leaders must balance within the organization and beyond organizational boundaries. Both internal relationships (with staff, volunteers, and board members) and external relationships (with stakeholders, other organizations, and the community at large) are critical to mission accomplishment. This course provides students with the resources necessary to understand the challenges and opportunities related to building and maintaining these relationships. This course is offered at the 400 and 700 level with additional assignments at the 700 level. Not open to students with credit in PUAD 605 or PUAD 705. LEC.

PUAD 406. Nonprofit Accountability: Public Needs and Public Values. 3 Hours H.
This course examines the role of the nonprofit sector in society by posing broad questions about why nonprofit organizations are held accountable, to whom they are accountable, and detailing how organizations can satisfy accountability demands. The course investigates the public role of the nonprofit sector in society, identifies the stakeholders that are integral to an organization’s mission, and describes and critiques the financial and evaluation tools that nonprofits can use to ensure their social viability. Not available to students with credit in PUAD 606. Prerequisite: PUAD 403. LEC.

PUAD 407. Introduction to Project Management. 3 Hours H.
An exploration of the technical aspects of project management and the human aspects of project leadership. The course integrates conceptual approaches with practical applications of knowledge and skill sets. The course addresses the Project Management Body of Knowledge (PMBOK--as created by the Project Management Institute) and project leadership competencies including leading, communicating, negotiating, problem solving, and influencing. Not available to students with credit in PUAD 607. LEC.

PUAD 408. Collaboration in Public Administration. 3 Hours S.
Managers must work effectively across organizational and sector boundaries to solve problems and produce public value. This course considers the forces contributing to the need for collaborative governance, changing management tasks and competencies, and how to address key collaborative challenges. This course is offered at the 400 and 700 level with additional assignments at the 700 level. Not available to students with credit in PUAD 608 and PUAD 708. LEC.

PUAD 431. Bureaucracy, Public Administration, and the Private Sector. 3 Hours S.
Examines the problems posed by behaviors within and by bureaucracies. Provides students with a set of conceptual tools for understanding the organizational environment in which policy analysts ply their profession and the role of a manager within such organizations. Offers strategies for
the policy professional seeking to navigate large bureaucracies. Readings and class discussions integrate theoretical analyses of organizations with detailed case studies. Prerequisite: PUAD 330 or PUAD 331. LEC.

PUAD 432. Conducting the People’s Business Ethically. 3 Hours AE51 / S.
Addresses the moral challenges facing leaders in the public and nonprofit sectors. Examines the values and virtues important to sustained ethical leadership, as well as strategies to build strong institutional cultures and support ethical practices in institutions. Considers moral and political theory by focusing on contemporary cases and issues. Students learn how to identify moral issues in public life and public management. There is a special focus on the integration of moral concerns into public discussion in a manner that contributes to good policy and does not polarize issues. This course considers moral and political theory by focusing on contemporary cases and issues. LEC.

PUAD 433. Metropolitics and Macroproblems: The American City in Local and Global Context. 3 Hours S.
An interdisciplinary study of American cities, focusing on the rapidly changing demographic, physical, political, social, and economic changes. Sunbelt cities, edge cities, the rustbelt cities, planned and unplanned suburban communities, as well as declining center cities and newly revitalized downtowns are considered. The role of immigration and migration in reshaping the urban environment, and the effects of globalization are also examined. Prerequisite: PUAD 330 or PUAD 331. LEC.

PUAD 435. Generating, Allocating and Managing Public Resources. 3 Hours U.
This course is devoted to topics in public budgeting, finance and financial management. These activities play a central role in public management. The intent of this course is to understand the role these activities play in local, state, and federal governments and to see how policy and management are shaped and influenced by budgets, financial reports, and tax policy. LEC.

PUAD 436. Managing People in Public Organizations. 3 Hours U.
Effective human resources management is one of the key goals of organizations in both the public and private sectors. This course focuses on human resources management in a public sector context with particular emphasis placed upon past, current, and future challenges in the field. The course covers topics such as the recruitment, selection, and compensation of public sector employees, as well as more contemporary issues such as diversity management and public sector personnel reform. LEC.

PUAD 439. Concepts of Civil Society. 3 Hours U.
Concepts of community, social capital, and civil capacity building, and their relations to effective community functioning, democratic politics, and administrative expertise. Not available to students with credit in PUAD 639. LEC.

PUAD 441. Public Service Leadership. 3 Hours U.
This course is based on the premise that leadership is not confined to the top tiers of organizations and that each individual can and should develop their leadership abilities. To that end, this course examines the concept of leadership through a variety of lenses – individual, environmental, and follower perspectives – in public, nonprofit and private contexts. Special emphasis will be placed on scholarly practice and perspectives of individual leadership assessment and development. This course is offered at the 400 and 700-level, with additional assignments at the 700-level. Not available to students with credit in PUAD 641 and PUAD 741. LEC.

PUAD 494. Topics in Public Administration: ____. 3 Hours S.
An introductory study of selected topics in public affairs and administration. Course may be repeated for credit if content varies. Course may be offered in lecture or online format. Not open to students with credit in PUAD 694 if the topic is the same. LEC.

PUAD 691. Internship in Public Service. 1-6 Hours AE61 / U.
Designed to provide public administration students an applied learning experience in either a public or nonprofit organization. Open to majors in Public Administration only. Prerequisite: One of the following: PUAD 330, 331, PUAD 332, PUAD 333, and consent of instructor required. INT.

PUAD 701. Administration of Justice. 3 Hours.
Examines the administration of justice and focuses on differential and discriminatory treatment in policing, criminal prosecutions, trials, sentencing, or imprisonment. Also considered are the basis and impact of racial profiling, harassment, arbitrary detention, and abusive treatment of members of racial and ethnic groups, immigrants, and/or other vulnerable groups by law enforcement, and disparate treatment by prosecutors and the courts. This course is offered at the 400 and 700 level with additional assignments at the 700 level. Not available to students with credit in PUAD 401. LEC.

PUAD 702. Diversity and Social Equity in Public Administration. 3 Hours.
Analyzes diversity and leadership in public and private institutions along ethnic, racial, and gender lines and the challenges of the facilitation of open dialogue on diversity. Examines the political, historical, social, and economic reasons why Americans of different ethnic, racial, and gender groups hold divergent views about major public policy areas, as well as fundamental views about democratic participation. This course is offered at the 400 and 700 level with additional assignments at the 700 level. Not available to students with credit in PUAD 402. LEC.

PUAD 703. Foundations of the Nonprofit Sector. 3 Hours.
This course provides an overview of the U.S. nonprofit sector, its history, scope, diversity and its positioning among and between the private and public sectors of the U.S. economy. The course explores the legal framework under which nonprofit organizations operate and are regulated. Economic, political, social, organizational and giving theories of the sector are reviewed in order to understand the sectors existence, roles and activities with particular attention to philanthropy and voluntarism. Distinct contributions to society as well as contemporary challenges faced by the sector are examined. This course is offered at the 400 and 700 level with additional assignments at the 700 level. Not available to students with credit in PUAD 403. LEC.

PUAD 705. Managing Nonprofit Relationships. 3 Hours.
This course considers the set of relationships that nonprofit leaders must balance within the organization and beyond organizational boundaries. Both internal relationships (with staff, volunteers, and board members) and external relationships (with stakeholders, other organizations, and the community at large) are critical to mission accomplishment. This course provides students with the resources necessary to understand the challenges and opportunities related to building and maintaining these relationships. This course is offered at the 400 and 700 level with additional assignments at the 700 level. Not open to students with credit in PUAD 405. LEC.

PUAD 708. Collaboration in Public Administration. 3 Hours.
Managers must work effectively across organizational and sector boundaries to solve problems and produce public value. This course considers the forces contributing to the need for collaborative governance, changing management tasks and competencies, and how to address key collaborative challenges. This course is offered at the 400 and 700 level.
with additional assignments at the 700 level. Not available to students with credit in PUAD 408. LEC.

**PUAD 741. Public Service Leadership.** 3 Hours.
This course is based on the premise that leadership is not confined to the top tiers of organizations and that each individual can and should develop their leadership abilities. To that end, this course examines the concept of leadership through a variety of lenses—individual, environmental, and follower perspectives—in public, nonprofit and private contexts. Special emphasis will be placed on scholarly practice and perspectives of individual leadership assessment and development. This course is offered at the 400 and 700-level, with additional assignments at the 700-level. Not available to students with credit in PUAD 441. LEC.

**PUAD 824. Creating Good Public Policy.** 3 Hours.
This course is an introduction to policy making in the United States with the aim of providing students with the skills and knowledge necessary to make and communicate good decisions about public policy. Competing theoretical approaches will be used to understand the policy making process. The class will highlight interactions between residents, organized interest groups, governments, the economy, and the environment. It introduces basic approaches for stakeholder analysis and methods for developing evidence-based policies or programs. Students will discuss common obstacles to good policy-making and the tensions of making public policy in a political environment. LEC.

**PUAD 825. Urban Policy and Administration.** 3 Hours.
This course explores the development, implementation and evaluation of public policy in the local government context. It examines a variety of policy tools used to address urban problems and applies theories of the policy process, intergovernmental relations, and institutions to municipal governance. In so doing, the course examines a range of current substantive policy and administrative issues facing urban communities and governments. (Same as PUAD 825.) LEC.

**PUAD 827. Health Care Policy and Administration.** 3 Hours.
A seminar designed to explore the development of public health policy in the United States. Particular attention will be given to (1) the development of public institutions and policy goals; (2) current policy problems such as expenditure-cost controls, prospective reimbursement, utilization review, access, and public and private investment planning; and (3) administrative problems in the current health care system. (Same as HPM 837.) LEC.

**PUAD 828. Nonprofit Management and Policy.** 3 Hours.
This course focuses on the economic, social, and legal foundations of the nonprofit sector. Nonprofits are examined in the context of a three-sector economy, with emphasis on the ways in which nonprofits compensate for market failures and government failures. The course examines government-nonprofit relations in the modern welfare system and offers an in-depth examination of the health, education, and welfare functions as performed by nonprofits. This course also provides exposure to selected topics in nonprofit management such as grant writing, board relations, advocacy, fundraising and volunteer management. LEC.

**PUAD 834. Human Resource Management.** 3 Hours.
This course presents the context and practice of effective human resource management, with emphasis on the political, legal, historical, and ethical dimensions of public employment. This course considers the functions of workforce management, including: 1) planning of work and the allocation of labor to that work, 2) acquisition of employees and their competencies, knowledge, skills, and abilities, 3) development of employees to channel, improve and create new knowledge, skills, and abilities, and 4) maintaining the working relationship between employee and employer. Students will apply workforce management theories and techniques to contemporary organizational challenges and investigate the tensions inherent to balancing competing values (such as: responsiveness/neutrality and efficiency/equity) and meeting conflicting demands of organizational stakeholders and society. LEC.

**PUAD 835. Managing Public Money.** 3 Hours.
This course covers essential financial management practices and the budgetary processes of the United States federal, state and local governments. It provides an overview of major revenue, spending, and debt financing policies. LEC.

**PUAD 836. Data Driven Decision-Making.** 4 Hours.
This integrated lecture and laboratory course introduces quantitative approaches to examine public management and public policy decisions. It covers concepts of research design, probability, and inferential statistics. The laboratory portion of the course uses data analytical tools to do applied problem solving. LEC.

**PUAD 837. Advanced Public Budgeting and Finance.** 3 Hours.
In this class, students examine the design and impacts of budgetary institutions and processes in-depth. Students are introduced to and apply various technical analyses for budgetary policymaking, such as forecasting, financial statement analysis, and cost analysis. Prerequisite: The successful completion of PUAD 835 with a grade of C of higher or instructor approval is needed to enroll. LEC.

**PUAD 839. Topics in Public Administration:** 3 Hours.
Study of selected topics in public administration. LEC.

**PUAD 841. Context, Ethics and Legal Environment of Public Administration.** 3 Hours.
This course provides students with an overview of the social context of public administration with an emphasis on intellectual history, ethics, the political and legal context, and the tensions between democracy and bureaucracy. It investigates major concepts that make up the socio-political legal environment of public administration. Through discussion and case studies, the course explores the accepted uses and procedures of the field, relationships among courts, agencies, the legislature, and basic legal research. LEC.

**PUAD 842. Law and Public Management.** 3 Hours.
This course introduces constitutional and administrative law issues that face public administrators, with a particular focus on the state and local level. Using legal reasoning as a decision-making tool, the context of often-competing administrative values—efficiency, effectiveness, and equity—will be considered. While administrators do not face constitutional issues every day, this course examines how constitutional values often play out in the day-to-day decision-making of public administrators. LEC.

**PUAD 845. Managing Public Organizations.** 3 Hours.
This class explores concepts and practices in organization behavior and management theory as they apply to public organizations. It covers dynamics associated with organizational structures, accountability, and culture and dynamics of risk in leadership, collaboration, and contracting. It emphasizes approaches to understanding the dynamics of individuals, groups, and teams within organizations. LEC.

**PUAD 849. Law, Courts, and Public Policy.** 3 Hours.
This course provides an overview of the role of law, litigation, and courts in the public policy process, with an emphasis on bureaucratic institutions. The course covers the main theories and empirical research on the policy effects of litigation and intervention, with a particular focus on civil rights in the areas of employment, policing, welfare, prisons, and environmental policy. (Same as POLS 849.) Prerequisite: Graduate standing or consent of instructor. LEC.

**PUAD 850. Intergovernmental Relations.** 3 Hours.
This course focuses on the fiscal and administrative relationships among the three levels of government— federal, state, and local—in the
United States. A number of topics will be examined, including a history of intergovernmental relations, the political, constitutional, and legal foundations of the intergovernmental system, and intergovernmental fiscal policy. The impact of the intergovernmental system will be assessed from the perspective of specific areas and intergovernmental programs. LEC.

PUAD 851. Infrastructure Management. 3 Hours.
This course introduces students to infrastructure management from a local government perspective. Through a heavy reliance on guest speakers and site visits, it provides an overview of infrastructure development, financing, and maintenance. Throughout the course, students are taught to think in terms of systems and collaborative relationships. LEC.

PUAD 853. Policy Analysis. 3 Hours.
This course exposes students to the conceptual foundations and applied techniques associated with identifying, describing, and seeking solutions to public policy problems. Recognizing that it often occurs in a context where competing values and perspectives are often strongly held, students will learn the designs and methodologies to conduct policy analysis systematically and with minimal bias. Prerequisite: The completion of a graduate-level statistics class or instructor approval is required to enroll. LEC.

PUAD 854. Innovation and Organizational Change. 3 Hours.
This course will examine theories of innovation and organizational change as applied to public organizations. Particular emphasis will be placed on the concepts of innovation in bureaucratic organizations, on the process of successful change in organizations, and on leadership and employees' roles. LEC.

PUAD 855. Financial Management for Public and Not-for-Profit Organizations. 3 Hours.
Financial management focuses on the use of financial information for decision making and evaluation. This course will rely on fundamental accounting concepts as they relate to the basic financial statements of government and not-for-profit organizations. Time will also be spent on financial management practices (e.g. cash management, debt management, etc.) and financial condition analysis. Material presented in this course expands on the foundational material covered in PUAD 837. Prerequisite: PUAD 837 or permission from the instructor. LEC.

PUAD 856. Management and Information Technology. 3 Hours.
An introduction to the concepts of information policy and management of technology within governmental organizations. The course covers the effects of technology on government and society as well as information policy (privacy, security and access) and their importance to democracy. The course also includes a leadership perspective on planning, funding, and implementation of technology systems in governmental organizations as well as the role of Chief Information Officer. LEC.

PUAD 857. Performance Management and Governance. 3 Hours.
This course examines the practice and governance challenges of performance management and budgeting in the public sector. Topics covered in this course include: a) the governance context of performance measurement and management; b) the historical and theoretical foundation of performance measurement and management; c) the global trend of performance-oriented reforms; d) the practice and politics of performance measurement and management; and e) governance and ethical issues in managing for results. Prerequisite: The completion of a graduate-level statistics class or instructor approval is required to enroll. LEC.

PUAD 858. Performance Audit. 3 Hours.
This course examines the practice of performance audit at the national, state, and local levels. Topics covered in the course include: a) the concept of performance audit and the roles of auditors in performance management; b) performance audit systems and standards at the national, state and local levels; c) performance audit methodologies and techniques; d) the establishment of audit criteria; e) the concept and practice of risk and vulnerability analysis; f) the reporting and communication of performance audit results. Prerequisite: The completion of a graduate-level statistics class or instructor approval is required to enroll. LEC.

PUAD 860. Governing Sustainable Communities. 3 Hours.
This course examines the role that communities can play in advancing environmental, economic, and social sustainability. Although sustainability has traditionally been viewed as an international or national issue, the unit of action has been shifting downward. Cities, in particular, have been characterized as a key “battleground for sustainability.” This is in part because an estimated 50 percent of the global population, including 84 percent of the U.S. population, lives in urban areas, and those numbers are only projected to increase. Moreover, local governments have authority over many decisions that are directly related to sustainability, including land use, transportation, housing, local food policy, energy efficiency, and the character of local economic development. In this class we examine these and related issues from a community-level and institutions perspective in order to assess how social and governmental structures, priorities, pressures and constraints influence the prospect for urban sustainability. A particular focus is placed on understanding how local and regional governments implement and manage sustainability. LEC.

PUAD 861. Data Analytics. 3 Hours.
The course is an introduction to data analytics in public administration and policy analysis. It teaches basic programming in R and SAS, covers basic applications of data analytics such as regression analysis and machine learning, and teaches basic tools of data visualization, including GIS. The course also reviews the political, legal, organizational, and ethical challenges of data analytics usage and the professional responsibilities public administrators have in using these tools. Students are expected to be familiar with basic statistical analysis and have already taken MPA-level statistics or an equivalent course. This course satisfies an elective requirement for students who are completing the Performance Management certificate. Prerequisite: PUAD 836 or equivalent academic engagement that includes quantitative analysis up to multi-variate regression. LEC.

PUAD 862. Emergency Management in the United States: Theory and Practice. 3 Hours.
This course covers the history, context, and practice of emergency management, blending in the theory and concepts of intergovernmental relations and collaborative leadership methods that are essential to the practice. The course will cover emergency management, as practiced in the United States, the National Incident Management System (NIMS), and the intergovernmental relationships that must be cultivated among all branches of government, non-profits, and private sector entities to plan, mitigate, respond to and recover from all disasters both natural and manmade. LEC.

PUAD 863. Program Evaluation. 3 Hours.
In this course, students learn the designs and methods used to evaluate the performance of public programs, policies, and organizations. Evaluation is rooted in trying to understand cause and effect relationships in complex situations and correctly attributing impact to intervention. Emphasis is placed on approaches to measure social outcomes. Through a series of evaluation case studies, students will use evidence and empirical methods to assess whether public action achieves its desired
outcomes. Prerequisite: The completion of a graduate-level statistics class or instructor approval is required to enroll. LEC.

**PUAD 892. Public Administration Internship. 3 Hours.**
This is a part-time supervised professional work experience designed to provide students with knowledge, background, and practical skills in public service. Students will submit a written summary of the internship experience, a job description, projects completed, and reflective statements integrating the internship with theoretical issues regarding public administration. This course should be completed toward the end of the degree program to ensure that a breadth of academic concepts can be applied to the internship experience reflections. Graded on a satisfactory/unsatisfactory basis. INT.

**PUAD 893. Directed Readings. 1-3 Hours.**
Designed to meet the needs of advanced students whose study in public administration cannot be met with current course work. RSH.

**PUAD 894. Professional Development Seminar I: Public Admin Contemporary Issues & Competency Assessment. 3 Hours.**
This intensive seminar examines students’ current experiences as full time interns and considers workplace and community concerns within the context of contemporary issues. The transition from an academic to a professional work setting is emphasized in discussion and reflective assignments. Graded on a satisfactory/unsatisfactory basis. Prerequisite: Open only to MPA students who are required to complete a full-time internship in their second year of study. INT.

**PUAD 895. Professional Development Seminar II: Leading to Create a Culture for High Performance. 3 Hours.**
In this intensive week-long seminar students will examine what high performance means, how performance happens in an organization and the various principles of public leadership that most effectively guide organizational culture. The course is intended to stimulate thoughts and learnings about high-performance organizations, organizational values, and explores strategies that can create the type of culture that inspires and enables employees to excel. The seminar format provides an opportunity for introspection in individual beliefs and characteristics, group discussion for the exchange of diverse views, and classroom instruction to explore the latest thinking in public sector leadership. Ultimately, the seminar is designed to train and empower public administrators to live the Athenian oath in their organization and community. LEC.

**PUAD 896. Research Seminar in Public Administration and Democracy. 3 Hours.**
This course focuses on the democratic context of public administration. Topics could include how democracy shapes the practice of public administration; the functioning of public administration in a constitutional democracy; issues relating to control and discretion of public administrators; citizenship and representative bureaucracy; theories of bureaucratic values such as equity, justice and efficiency, ethics and accountability; theories of institutions. SEM.

**PUAD 897. Public Administration Contemporary Issues and Competency Assessment. 3 Hours.**
This course exposes students to the contemporary issues in public management and analysis of competencies for public management in four theme areas. Students will participate in discussions of issues and in three assessments of their preparation to lead public organizations. Students will complete the MPA Final Essay which focuses on integration of course and work experience in relation to the values theme of the MPA program. Graded on a satisfactory/unsatisfactory basis. LAB.

**PUAD 898. Leading to Create a Culture for High Performance. 3 Hours.**
In this intensive week-long seminar students will examine what high performance means, how performance happens in an organization and the various principles of public leadership that most effectively guide organizational culture. The course is intended to stimulate thoughts and learnings about high-performance organizations, organizational values, and explores strategies that can create the type of culture that inspires and enables employees to excel. The seminar format provides an opportunity for introspection in individual beliefs and characteristics, group discussion for the exchange of diverse views, and classroom instruction to explore the latest thinking in public sector leadership. Ultimately, the course will analyze the intellectual currents that undergird the theories and concepts in public administration. There are three primary perspectives crosscutting the topics. They are historical, cultural, and analytical. SEM.

**PUAD 899. Topics in Public Administration: ____. 1-3 Hours.**
A study of selective topics in public administration. Course may be taken more than once. LEC.
PUAD 943. Constitutional Foundations of Public Administration. 3 Hours.
This course provides grounding in the constitutional premises of public administration including executive, legislative, and judicial powers, and federalism, and those issues associated with the development of economic institutions and processes such as taxation, employment regulation, and commerce controls. LEC.

PUAD 949. Law, Courts, and Public Policy. 3 Hours.
This course provides an in-depth analysis of the role of law, litigation, and courts in the public policy process, with an emphasis on bureaucratic institutions. The course covers the main theories and empirical research on the policy effects of litigation and intervention, with a particular focus on civil rights in the areas of employment, policing, welfare, prisons, and environmental policy. As part of the course requirements, students will conduct original empirical research. LEC.

PUAD 998. Directed Reading on Public Administration. 1-6 Hours.
Designed to meet the needs of graduate students whose study in public administration cannot be met with present course. Prerequisite: consent of instructor. RSH.

PUAD 999. Dissertation. 1-15 Hours.
Enrollment for writing doctoral dissertations. Graded on a satisfactory progress/limited progress/no progress basis. THE.

Courses

SPAA 691. Internship Experience. 1-3 Hours AE61 / S.
Designed to provide students an applied learning experience in a relevant public, non-governmental, or nonprofit organization. Students are required to critically reflect on their experience through a variety of academic assignments throughout their internship experience. Prerequisite: Permission of academic unit. INT.

SPAA 692. Research Experience. 1-3 Hours S.
Designed for advanced undergraduate students. Students enhance their research skills by working one-on-one with a faculty member on an independent scholarly project. Students are required to complete a final project or presentation, through advising and consultation with the designated faculty member. Prerequisite: Permission of academic unit. IND.

SPAA 693. Directed Readings. 1-3 Hours S.
For advanced undergraduate students who wish to study a specific topic of interest that is not covered in the curriculum. Each student must complete a proposal outlining his or her topic request and submit to the Undergraduate Coordinator. Prerequisite: Permission of the academic unit. IND.

Courses

UBPL 200. Sustainability and Society. 3 Hours AE51/GE11/GE3S.
This course will introduce the concept of sustainability, examining its early iterations, recent applications, and possible future transformations. Critical analysis of sustainability as a concept and societal goal will be a course cornerstone. We will examine two contemporary social issues that are relevant to students at the University of Kansas. Social science perspectives will be emphasized, but, because sustainability necessitates an interdisciplinary perspective, the course will consider the contributions of a wide range of disciplines to these issues. LEC.

UBPL 300. Planning the Sustainable City. 3 Hours GE3S.
A broad introduction to the field of urban planning as a technical profession, a process of decision-making, and a governmental function. The multi-disciplinary nature of planning as an area for professional practice in the geographical, socio-economic and political contexts of the

U.S. is stressed. We will explore the promise and limitations of planning in the context of mitigating and adapting to climate change. The course is intended for both the student who is considering planning as a major field of study and the student with primary interest in a related field who would like a working knowledge of past and current planning in the U.S. LEC.

UBPL 502. Special Topics in Urban Planning: _____. 3 Hours.
Intended for undergraduate individual or group projects/research in an urban planning topic. LEC.

UBPL 522. History of the American City I. 3 Hours.
This course examines the evolution of American cities from their European antecedents through the late 20th Century, from the urban planning perspective. It focuses on the changing spatial forms and functions of American cities and how these changes relate to socioeconomic and political aspects of urbanization as well as changes in technology. Emphasis is placed on analyzing the relationships between historical development patterns and the current range of problems facing most U. S. cities. (Same as UBPL 722 but gives undergraduate credit.) LEC.

UBPL 538. Environmental Planning Techniques. 3 Hours.
The course covers a variety of topics within environmental planning. Each topic is examined with respect to the scope of the issues, the methods of analyzing and/or measuring those issues, and the ways planners can address those issues in order to avoid or mitigate environmental problems. LEC.

UBPL 565. Introduction to Sustainable Land Use Planning. 3 Hours.
This course introduces students to the issues that planners and decision makers face as they strive to protect environmental resources, especially within the context of land use planning. Emphasis will be placed on the theoretical and policy considerations that guide the work of environmental planners. LEC.

UBPL 701. Directed Readings. 1-6 Hours.
Designed to meet the needs of students whose study in urban planning cannot be met with the present courses. Prerequisite: Consent of instructor. RSH.

UBPL 705. Urban Economic Theory and Analysis. 3 Hours.
This course examines the economic forces which shape and affect cities. In the first part of the course, theories of location are considered. With the help of these theories our objectives are to understand why cities exist, why they are located where they are, the distribution of city sizes, the causes of regional and metropolitan growth and decline, and the spatial distribution of alternative activities within cities. Part two of this course introduces analysis methods which aid in the comprehension of local and regional economic characteristics and in decision-making concerning the distribution of resources within cities. LEC.

UBPL 710. Introduction to Housing Policy. 3 Hours.
Designed to provide an introduction to the various methods used by the public sector in order to intervene in the housing market. Many different programs are used by governments at all levels to serve many different housing goals. This course will examine many of these programs in an effort to understand what they are supposed to accomplish and how well they work. In all cases, the objective of the course is to train planners so that they have a firm understanding of housing programs that exist now as well as a grasp of the methods used to select housing strategies for implementation by the public sector. LEC.

UBPL 715. Community in Neighborhood Planning and Design. 3 Hours.
This course provides a place-centered approach for understanding and applying the idea of community to local neighborhood planning. The course explores social theories of community and how these have
influenced prescriptive models for neighborhood development and design. The course also evaluates the interplay of social, environmental, and economic forces at the neighborhood level and their relationship to community development and well-being. LEC.

**UBPL 716. Community and Neighborhood Revitalization. 3 Hours.**
The course examines the fields of community development and the revitalization of urban neighborhoods. In the course, students study the theories of community redevelopment as well as the methods of analysis guiding the planning of neighborhoods. The course also reviews the many programs that exist to assist the neighborhood revitalization process and looks at the literature evaluating the implementation of these programs. As an implementation course, students complete a project that calls for them to apply the knowledge learned to real world setting. Prerequisite: UBPL 764 or permission of the professor. LEC.

**UBPL 722. History of the American City II. 3 Hours.**
This course examines the evolution of American cities from their European antecedents through the late 20th Century, from the urban planning perspective. It focuses on the changing spatial forms and functions of American cities and how these changes relate to socioeconomic and political aspects of urbanization as well as changes in technology. Emphasis is placed on analyzing the relationships between historical development patterns and the current range of problems facing most U. S. cities. (Same as UBPL 522 but gives graduate credit.) LEC.

**UBPL 730. City and County Planning. 3 Hours.**
This course is about how to create plans and put the pieces of cities together in a sustainable manner, balancing the competing values of economy, ecology, equity, and livability. It introduces students to the planning process in the U.S., what makes great plans, the basic implementation tools for planning (zoning, capital improvement plans, engineering standards, and subdivision regulations.) We will learn about the Comprehensive Plan along with specialized plans for transportation, housing, land use, and the environment. LEC.

**UBPL 735. Site Planning and Design. 3 Hours.**
Site planning is the arrangement of elements (buildings, landscaping, parking, open space) on particular pieces of property. This class focuses on the site planning process and the implementation of site design standards through regulations. We will delve into the elements and principles of design and ask these big questions: What makes great public spaces? What makes great neighborhoods? What makes great streets? What can we do to steer development in the direction of greatness? LEC.

**UBPL 736. Planning Institutions. 3 Hours.**
This course explores the legal principles underlying the institutions, practices and processes of city planning. Subjects to be discussed include zoning, eminent domain, subdivision regulation, transfer of development rights, environmental regulation, growth management, and other planning mechanisms used to guide urban growth and control the use of land. Students should emerge from the course with a solid understanding of both the logic and routine practice of planning in a procedural and institutional context. LEC.

**UBPL 737. NEPA Environmental Assessments. 3 Hours.**
This course provides an understanding of how to effectively manage and conduct environmental assessments as required by the National Environmental Protection Act (NEPA). Topics include the history and intent of NEPA; the steps, players and assessment types; techniques used to balance environmental concerns with the social and economic considerations; and the role of the courts and environmental advocacy groups in challenging NEPA assessment findings. The class also addresses the role of leadership, conflict resolution, and consensus building in managing environmental assessments. Case studies are used to examine different assessment types and process approaches. LEC.

**UBPL 738. Environmental Planning Techniques. 3 Hours.**
The course covers a variety of topics within environmental planning. Each topic is examined with respect to the scope of the issues, the methods of analyzing and/or measuring those issues, and the ways planners can address those issues in order to avoid or mitigate environmental problems. LEC.

**UBPL 739. Issues in Growth Management. 3 Hours.**
This course examines various aspects of growth management including its history, legal foundations, and application at different levels of government. Growth management not only means dealing with the rapid growth of cities, it also includes managing slow growth, no growth, and negative growth with the ultimate goal being sustainability. Impacts on affordable housing, economic development, social equity, transpiration, and environmental conservation are also explored. LEC.

**UBPL 741. Quantitative Methods I. 3 Hours.**
Introduction to quantitative techniques utilized in planning analysis. Introduction to research design, inferential statistics, and survey methods. LEC.

**UBPL 742. Quantitative Methods II. 3 Hours.**
Advanced study in planning techniques in the areas of population forecasting, analysis of variance, and regression. The course makes extensive use of microcomputers. Prerequisite: UBPL 741 or consent of instructor. LEC.

**UBPL 746. GIS Applications for Design and Planning. 3 Hours.**
This course will explore a range of Geographic Information Systems (GIS) applications for students in architecture and planning. It will be structured as a workshop, starting with a review of basic GIS concepts and procedures. Different digital data sources will be explored, along with file sharing (import and export) capabilities. The focus will be on applications at different scales using projects in architecture, site planning, environmental planning, urban analysis, and regional analysis. Three dimensional analysis will also be introduced. Each student will develop a final project as a synthesis of earlier exercises and as an application relevant to their individual professional interests. LEC.

**UBPL 750. Introduction to Transportation Planning. 3 Hours.**
This course is a survey course covering multiple modes of transportation (planes, trains, buses, automobiles, bicycles, and walking). The field of transportation planning is examined within a policy analysis framework. Knowing the policy context and understanding how decisions are made will assist transportation planners in understanding the world in which they operate. In addition to the policy context, this course will focus on the technical knowledge transportation planners are expected to know like federal requirements, traffic modeling, and specific topics like bicycle and pedestrian planning and traffic calming. LEC.

**UBPL 756. Travel Demand Forecasting Methods. 3 Hours.**
The course is intended to provide a working knowledge of analytical transportation planning; it emphasizes two elements. One emphasis is to describe the fundamental principles of transportation planning through the review of transportation modeling theory and practice. The second emphasis is to work with the TransCad model. Students learn how to use these models by running TransCad (GIS based modeling software), building a transportation model, and using it to forecast future transportation conditions. Prerequisite: UBPL 750 or consent of instructor. LEC.

**UBPL 757. Transportation Planning Implementation. 3 Hours.**
A variety of transportation implementation methods and strategies are explored. Project management with an emphasis on finance is the major
focus of this course. This is a significant responsibility of transportation planners, consisting of several key steps including project initiating, planning, execution, and control. Other techniques included in this course deal with air quality conformity, congestion management, environmental reviews, developing performance measures, scenario testing, highway capacity analysis and micro-simulation modeling, and executing public involvement programs. Prerequisite: UBPL 750 and UBPL 756 or permission of instructor. LEC.

**UBPL 758. Public Transit. 3 Hours.**
This course familiarizes students with core concepts and practices in public provision of local transit systems from high-capacity heavy rail to on-the-fly demand response. Course modules examine modes, system design, planning issues, organizational relationships inherent to public transit, and technical operations. The course concludes with an examination of comprehensive transit systems. LEC.

**UBPL 760. Historic Preservation Planning. 3 Hours.**
In addition to studying the history of the preservation movement in the United States, the course will discuss preservation at the state and local level, preservation at the private level, ordinance creation, legal aspects of preservation, technical issues and contemporary issues and controversies in the field of preservation. Projects will deal with philosophic and current issues in preservation. LEC.

**UBPL 763. Professional Practice. 3 Hours.**
This course seeks to provide students with both skills and evaluative frameworks to enhance their work as practicing planners. We will focus specifically on issues related to ethics, citizen participation, dispute resolution, and management. Considerable attention will be paid to "real life" lessons. Prerequisite: UBPL 741 and UBPL 785. LEC.

**UBPL 764. Real Estate Development I. 3 Hours.**
This course is designed to provide a working knowledge of the mechanics of real estate investment analysis. As a planning course, the emphasis is placed upon the process as performed by the practicing planner working with the public sector. This means that the course covers much of the same material that is normally included in a real estate development course in a business school. However, this material is augmented with the study of techniques used to achieve public sector goals. Among the topics covered in the course are: the calculation of return on investment in real estate; the financing of real estate development; the various forms of property ownership; and the implications of tax laws upon the rehabilitation of historic properties and the provision of low-income housing. Prerequisite: Knowledge of spreadsheet software on a personal computer. LEC.

**UBPL 765. Introduction to Sustainable Land Use Planning. 3 Hours.**
This course introduces students to the issues that planners and decision makers face as they strive to promote sustainability, especially within the context of land use planning. Emphasis will be placed on the theoretical and policy considerations that guide the work of planners. LEC.

**UBPL 768. Real Estate Development II. 3 Hours.**
This course extends the study of real estate development planning begun in UBPL 764: Real Estate Development Planning I. The course will examine various forms of public-private participation in the real estate development process. Advanced study of various public sector programs to guide and direct the real estate development process will be undertaken, including the use of tax credits for affordable housing and for historic preservation. Projects developed within the region will be examined to illustrate the application of these techniques. Prerequisite: Successful completion of UBPL 764 or permission of instructor. LEC.

**UBPL 773. Sustainable Land Use Planning Implementation. 3 Hours.**
This course emphasizes the development of sustainability-focused plan elements that ensure successful implementation. While the course topic changes each year, the techniques and processes studied will be broadly applicable. Students will also apply their skills and knowledge to a service learning project using real-world data. Prerequisite: UBPL 765, UBPL 738, or consent of instructor. LEC.

**UBPL 777. Equity, Justice, and American Cities. 3 Hours.**
In U.S. cities, many groups are marginalized by inequitable conditions and access to services such as quality housing, transportation, employment opportunities, education, and health care. Social inequalities of race, class, and gender shape and are shaped by social conflicts and processes of uneven urban development and resource distribution. This class is intended to be a place where students think critically about urban social relations and gain a better understanding of social justice, inequality, access, and privilege as they relate to urban space. Strategies in which to address inequality via urban planning and policy development efforts are explored and evaluated. LEC.

**UBPL 785. History and Theory of Planning. 3 Hours.**
The course serves as an introduction to the history of city planning and "how to plan" in general. Planners are particularly concerned with future consequences of current action. In looking to the future, knowing past history is a good place to start. Also, planning theorists have thought deeply about how best to plan and their thoughts and advice can serve planners and decision-makers well when they are facing unknowns. LEC.

**UBPL 802. Special Topics: ______. 3 Hours.**
This course is intended to afford the opportunity for individual or group projects/research in an urban planning topic. RSH.

**UBPL 806. Thesis - Graduate Research. 1-6 Hours.**
Independent study and research related to the master’s thesis. Prerequisite: Consent of instructor. THE.

**UBPL 816. Politics, Planning and Administration. 3 Hours.**
Planners and public administrators operate within highly technical yet political environments. Planners and administrators often try to bring consensus, efficiency, effectiveness, and action-taking to communities, but the very structure of our democracies promotes conflict and stalemate. Understanding how power, structure, and agency influence policymaking will help planners and administrators become savvier as they balance their roles as advisors, educators, facilitators, advocates, managers, and leaders. The course starts with theories of institutionalism (the rules of the game matter), policymaking (getting issues on the public agenda), roles of public servants (use of discretion and leadership), conflict, citizen engagement, and communication. Students then apply those theories to specific case studies associated with different policy areas (transportation, economic development, hazard mitigation, sustainability, historic preservation, etc.). Through research and case studies this class explores the trials, tribulations, and triumphs of planners and administrators as they deal with politics. LEC.

**UBPL 850. Urban and Regional Theory. 3 Hours.**
The course explores the forces that shape the structure and function of cities and regions, drawing upon insights from planning, geography, economics, sociology, demography, and political science. Special attention is paid to theories that can be applied by urban planners to improve the economic performance, quality of life, and social equity of urban areas. Topics covered include the origin and development of cities, agglomeration economies, location theory, central place, mix-and-share analysis, economic base, input-output, labor markets, urban models, regional development planning, globalization, high technology, urban
poverty, and problems of regional governance. Prerequisite: UBPL 741 and UBPL 785. LEC.

**Bachelor of Arts and Bachelor of General Studies in Law and Society**

Law and society is an interdisciplinary field that examines how law works in practice in public administration, courts, the non-profit sector, policy, policing, and the justice system. A degree in law and society provides a strong background in how law works in practice. Students learn about legal history and legal policy, how law shapes managerial processes, how it shapes government and the system of justice, and how it affects ordinary people in every walk of life. Students can complete an internship for credit towards their degree. Examples of past internship placements include: Johnson County District Attorney's Office, the City of Shawnee, Planned Parenthood, and Kansas City-area law firms.

For information about potential career paths, visit career.ku.edu/lawandsociety (http://career.ku.edu/lawandsociety/).

**Convenient class times and location**

Flexible course schedules allow full-time employees and nontraditional students to earn a bachelor's degree without sacrificing the traditional classroom experience. Late afternoon and evening courses meet once per week, allowing you to balance work and family commitments with coursework.

If you are based in Lawrence, the 510 K-10 Connector bus (http://ridekc.org/routes/510-k10-connector/) takes you right to the KU Edwards Campus.

**Undergraduate Admission**

**Admission to KU**

All students applying for admission must send high school and college transcripts to the Office of Admissions.Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students should be aware that KU has qualified admission requirements that all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

**Admission to the College of Liberal Arts and Sciences**

Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

WGSS 563 Gender, Sexuality and the Law
WGSS 640 Politics of Reproductive Policy
WGSS 653 Gender, War, and Peace

Major Hours & Major GPA
While completing all required courses, majors must also meet each of the following hour and grade-point average minimum standards:

**Major Hours**
Satisfied by 27 hours of major courses.

**Major Hours in Residence**
Satisfied by a minimum of 15 hours of KU resident credit in the major.

**Major Junior/Senior Hours**
Satisfied by a minimum of 30 hours from junior/senior courses (300+) in the major.

**Major Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

A sample 4-year plan for the BA degree in Law and Society is available by using the left-side navigation, or by clicking here (p. 2130).

A sample 4-year plan for the BGS degree in Law and Society is available by using the left-side navigation, or by clicking here (p. 2131).

**BA in Law and Society**
Below is a sample 4-year plan for students pursuing the BA in Law and Society. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

The Law and Society major is only available at the KU Edwards Campus in Overland Park.

**Total Hours 120-123**

1. The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.

2. No more than 3 hours of SPAA 691 may count toward the major.

3. SPAA 691 Internship Experience is typically taken to fulfill KU Core Goal 6. If SPAA 691 is not taken for Goal 6, another Goal 6 course will need to be taken. This may require that an undesignated elective be used to fulfill a pre-requisite for a Goal 6 course.

4. Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.
All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

BGS in Law and Society

Below is a sample 4-year plan for students pursuing the BGS in Law and Society. To view the list of courses approved to fulfill KU Core Goals, please visit the KU Core website (http://kucore.ku.edu/courses/).

The Law and Society major is only available at the KU Edwards Campus in Overland Park.

Total Hours 120

1 Please note that the Bachelor of General Studies degree requires completion of a single BGS major AND a secondary field of academic study (a second major, co-major, or minor). This sample plan is based on the completion of a minor. If a second major is selected instead, elective hours on plan will be needed for these additional major requirements.

2 No more than 3 hours of SPAA 691 may count toward the major.

3 SPAA 691 Internship Experience is typically taken to fulfill KU Core Goal 6. If SPAA 691 is not taken for Goal 6, another Goal 6 course will need to be taken. This may require that an undesignated elective be used to fulfill a pre-requisite for a Goal 6 course.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

Bachelor of Arts and Bachelor of General Studies in Public Administration

The undergraduate major in public administration offers students the necessary knowledge and skills for planning, implementing, and evaluating public programs. Students learn to think critically and analytically about public policy and will also acquire skills that make them more effective citizens in their own communities. Students can complete an internship for credit towards their degree. Examples of past internship placements include: Johnson County, Kauffman Center, Harvesters, Golf Course Superintendents Association of America, City of Roeland Park, YMCA, Governor’s Internship Program, Youth Volunteer Corps of Kansas City, America Reads and Army Corps of Engineers.

Our graduates work in such settings as local and state government, nonprofit organizations, and private sector businesses.
Introductory classes in public administration are offered in Lawrence and at the Edwards Campus in Overland Park. Courses to complete the major and minor are offered at the Edwards Campus.

Convenient class times and location
Flexible course schedules allow full-time employees and nontraditional students to earn a bachelor’s degree without sacrificing the traditional classroom experience. Late afternoon and evening courses meet once per week, allowing you to balance work and family commitments with coursework.

If you are based in Lawrence, the 510 K-10 Connector bus (http://ridekc.org/routes/510-k10-connector/) takes you right to the KU Edwards Campus.

Undergraduate Admission

Admission to KU
All students applying for admission must send high school and college transcripts to the Office of Admissions. Unless they are college transfer students with at least 24 hours of credit, prospective students must send ACT or SAT scores to the Office of Admissions. Prospective first-year students with at least 24 hours of credit, prospective students must send transcripts to the Office of Admissions. Unless they are college transfer students, all new first-year students must meet to be admitted. Consult the Office of Admissions (http://admissions.ku.edu/) for application deadlines and specific admission requirements.

Visit the International Support Services (http://www.iss.ku.edu/) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (http://credittransfer.ku.edu/) website.

Admission to the College of Liberal Arts and Sciences
Admission to the College is a different process from admission to a major field. Some CLAS departments have admission requirements. See individual department/program sections for departmental admission requirements.

---

1. The BA requires completion of two courses of collegiate-level writing instruction. Students who test out of Composition will still need to complete ENGL 102 (or equivalent) and one additional Goal 2.1 course.
2. Visit this website (https://collegeadvising.ku.edu/ba-quantitative-reasoning-courses/) for a list of courses that fulfill the BA Quantitative Reasoning requirement.
3. No more than 3 hours of SPAA 691 may count toward the major.
4. SPAA 691 Internship Experience is typically taken to fulfill KU Core Goal 6. If SPAA 691 is not taken for Goal 6, another Goal 6 course will need to be taken. This may require that an undesignated elective be used to fulfill a pre-requisite for a Goal 6 course.

Please note:

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

**Total Hours 120**

1. Please note that the Bachelor of General Studies degree requires completion of a single BGS major AND a secondary field of academic study (a second major, co-major, or minor). This sample plan is based on the completion of a minor. If a second major is selected instead, elective hours on plan will be needed for these additional major requirements.

2. No more than 3 hours of SPAA 691 may count toward the major.

3. SPAA 691 Internship Experience is typically taken to fulfill KU Core Goal 6. If SPAA 691 is not taken for Goal 6, another Goal 6 course will need to be taken. This may require that an undesignated elective be used to fulfill a pre-requisite for a Goal 6 course.

---

### Minor in Law and Society

All students in the College of Liberal Arts and Sciences are required to complete 120 total hours of which 45 hours must be at the Jr/Sr (300+) level.

The same course cannot be used to fulfill more than one KU Core Goal. However, overlap of a KU Core course with a major or degree-specific requirement is allowed. Overlapping is recommended to allow more opportunities to explore other majors and/or minors.

### Electives

Choose three of the following. Other relevant courses may be approved on an ad hoc basis.

- LWS 332 Methods in Law and Society
- LWS 494 Topics in Law & Society: _____
- LWS 691 Internship in Law & Society
- LWS 699 Capstone in Law and Society
- PUAD 330 Introduction to Public Administration
- PUAD 332 Methods in Law and Society
- PUAD 432 Conducting the People’s Business Ethically
- PUAD 401 Administration of Justice
- PUAD 402 Diversity and Social Equity in Public Administration
- PUAD 433 Metropolitics and Macropoblems: The American City in Local and Global Context
- PUAD 439 Concepts of Civil Society
- PUAD 441 Public Service Leadership
- SPAA 691 Internship Experience
- SPAA 692 Research Experience
- SPAA 693 Directed Readings
- AAAS 306 The Black Experience in the U.S. Since Emancipation
- AAAS 322 Legal Issues and the African American
- AAAS 328 African American Urban Community and Class in the Midwest
- AAAS 510 Global Ethnic and Racial Relations
- AAAS 511 The Civil Rights Movement
- AAAS 611 History of the Black Power Movement
- ABS 437 Independent Living and People with Disabilities
- ABS 441 Ethical, Legal and Professional Issues in Applied Behavioral Science
- AMS 320 Border Patrolled States
Minors must complete a course in each of the following areas:

- PUAD 330 Introduction to Public Administration 3
- or PUAD 331 Introduction to Public Administration, Honors
- PUAD 333 Hard Choices in Public Administration: _____ 3

Public Administration Required Electives

Choose three of the following. Other relevant courses may be approved on an ad hoc basis.

- LWS 330 Introduction to Law & Society
- LWS 333 The Pursuit of Rights: Law, Democracy & Power
- PUAD 332 Quantitative Methods for Public Administration
- PUAD 401 Administration of Justice
- PUAD 402 Diversity and Social Equity in Public Administration
- PUAD 403 Foundations of the Nonprofit Sector
- PUAD 404 Resource Development and Management in Nonprofit Organizations

Minor Hours & Minor GPA

While completing all required courses, minors must also meet each of the following hour and GPA minimum standards:

**Minor Hours**
Satisfied by 18 hours of minor courses.

**Minor Hours in Residence**
Satisfied by a minimum of 9 hours of KU resident credit in the minor.

**Minor Junior/Senior Hours**
Satisfied by a minimum of 18 hours from junior/senior courses (300+) in the minor.

**Minor Junior/Senior Graduation GPA**
Satisfied by a minimum of a 2.0 KU GPA in all departmental courses (300+) in the minor. GPA calculations include all junior/senior courses in the field of study including F’s and repeated courses. See the Semester/ Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

Master of Public Administration

With a unique combination of theoretically grounded course work and practical application, our Master of Public Administration degree provides students with the knowledge and skills needed to lead, innovate, and problem-solve in public sector and non-profit settings.

Our Edwin O. Stene Master’s program is one of the oldest and most respected programs in the United States, beginning with our local government leadership program founded in 1948. Since 1998, our tradition of excellence in educating students at the masters’ level has been recognized by U.S. News and World Report with a #1 ranking in city management and urban policy.
The MPA degree meets the needs of both full-time students who are looking to launch a career in public service as well as those who already have a career and are looking to accelerate it by pursuing a MPA degree part-time. The MPA degree may be obtained through course work offered at the Lawrence Campus, the KU Edwards Campus in Overland Park, Kansas, and as enrollment allows, the Topeka location.

City Management Fellowship

MPA students specifically interested in city management are invited to apply to our 2-year City Management Fellowship program. City management is the School of Public Affairs and Administration's most recognized program and has been ranked the #1 program in the country by U.S. News and World Report since 1998.

Admission to the City Management Fellowship program is competitive - only a small cohort of Fellows is selected each year. Fellows receive all of the advantages of being in the largest KU MPA program and also benefit from:

- Designated scholarship awards
- Attendance to the International City/County Management Association (ICMA) annual meeting, supported by the School;
- Links to a large and welcoming professional network;
- Peer group learning and camaraderie;
- Additional experiential learning through part-time and full-time internships and other professional development opportunities.

The key distinctive feature of the Fellowship is its structure where the first year revolves around full-time intensive coursework and the second revolves around a full-time, paid internship.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies section of the online catalog for information regarding program-specific admissions criteria and requirements. Admission to the University or college work. In certain circumstances, when the GPA is slightly below 3.0, other factors may be considered for provisional admission to the M.P.A. program.

For all applicants, a completed application includes:

1. Online Graduate Studies application (https://gradapply.ku.edu/apply/).
2. A nonrefundable application fee, submitted online with the application form.
3. 1 official transcript from the degree-granting college or university and any post-graduate college or university attended.
4. 3 letters of recommendation. If possible, at least 1 should be an academic reference.
5. A 3- to 5-page essay describing your background and career goals and clearly indicating how the M.P.A. degree fits into those goals and addressing any deficiencies in your academic preparation.
6. A current résumé.
7. A writing sample that is at least 5 pages long. It should be a well-cited work in which you critically analyze (not just summarize) an issue.
8. Non-native speakers of English must meet Graduate Studies English proficiency requirements (https://gradapply.ku.edu/english-requirements/).

Students who are interested in enrolling in master's level coursework in public administration without formal admission to the graduate program are encouraged to apply for graduate non-degree seeking student status.

Deadlines

To begin in the spring semester, applications must be received by November 1.

To begin in the fall semester, applications must be received by May 1.

To begin in the summer semester, applications must be received by February 1.

Applicants interested in the City Management Fellowship must apply by the February 1 deadline and be prepared to begin full-time coursework in the following Summer semester.

Campuses

Students can complete their M.P.A degree by taking classes at the main campus in Lawrence or the Edwards Campus in Overland Park. Each semester as enrollment permits, select M.P.A. courses may also be offered in Topeka.

MPA Degree Requirements

The MPA degree is awarded after successful completion of 43 credit hours of course work. This includes 16 credit hours of required core courses (5 courses) that all students complete, 12 credit hours toward one School of Public Affairs and Administration graduate certificate (https://kupa.ku.edu/graduate-certificates/) (4 courses), 12 hours of electives tailored to the student's interests (4 courses), and an experiential learning requirement which can be completed as detailed below (1 course). In addition, all students must pass a written master's examination (final paper) to complete the requirements for the MPA degree. Once a student begins the program, all degree requirements must be completed within 7 years.

The MPA core provides students with knowledge and skills foundational to advanced educational and professional engagement in public affairs and administration fields. They provide an important underpinning for the MPA certificates and are transferable across a range of public service professions. The MPA core coursework includes the following courses (16 credit hours):
To complete the MPA program, students will also take the following courses OR complete the City Management Fellows MPA program:

**Code** | **Title** | **Hours**
---|---|---
PUAD 824 | Creating Good Public Policy | 3
PUAD 835 | Managing Public Money | 3
PUAD 836 | Data Driven Decision-Making | 4
PUAD 841 | Context, Ethics and Legal Environment of Public Administration | 3
PUAD 845 | Managing Public Organizations | 3

To complete the MPA program, students will also take the following courses OR complete the City Management Fellows MPA program:

**Code** | **Title** | **Hours**
---|---|---
1 School of Public Affairs & Administration graduate certificate | | 12
4 Electives of additional School of Public Affairs & Administration course work or graduate course work outside the School chosen in consultation with the program advisor | | 12
Completion of 1 of the following experiential learning options:
- PUAD 898 Leading to Create a Culture for High Performance
- or PUAD 892 Internship Experience in Local Government Administration
- or PUAD 839 Topics in Public Administration: _____

Alternatively, students may apply to the City Management Fellowship program (http://kupa.ku.edu/city-management-fellowship-0/). Admission to this two-year fellowship is competitive—only a small cohort of fellows is selected each year. The key distinctive feature of the fellowship is its structure: the first year revolves around full-time, intensive coursework and the second year revolves around a full-time, paid internship.

Students admitted to the City Management Fellowship program complete the following credits, which include the courses toward the City/County Management graduate certificate (http://kupa.ku.edu/graduate-certificates/city-county-management/), to fulfill degree requirements:

**Code** | **Title** | **Hours**
---|---|---
PUAD 851 | Infrastructure Management | 3
PUAD 892 | Internship Experience in Local Government Administration | 3
PUAD 894 | Professional Development Seminar I: Public Admin Contemporary Issues & Competency Assessment | 3
PUAD 895 | Professional Development Seminar II: Leading to Create a Culture for High Performance (PUAD 895 will count as the experiential learning course to fulfill that component of MPA degree requirements.) | 3

Electives of additional School of Public Affairs & Administration course work or graduate course work outside the School chosen in consultation with the program advisor. Within these courses, students must complete the requirements for the City/County Management graduate certificate.

**Master of Urban Planning**

Urban planning is a professional field that addresses the health, welfare, and sustainability of our cities, towns, regions, and natural and rural areas. Planners are problem-solvers. They deal with both short- and long-range planning projects at scales from small to large. Planners seek to enhance overall quality of life by addressing aspects of communities such as housing, land use, transportation, and responsible development that preserves the natural environment. KU’s Master of Urban Planning (M.U.P.) is an accredited, professional degree that prepares students to excel in planning practice. It is the normal academic qualification for planning and planning-related positions. Graduates are prepared for careers in the public sector (local, state, national, international governments and agencies), private sector (consulting firms, development companies), and not-for-profits (housing authorities, nonprofits) helping make communities better places.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**Admission to Urban Planning**

Complete information about applying to the M.U.P. program can be found on the program website (https://urbanplanning.ku.edu/application/). The following materials are required of all applicants to the M.U.P. program. Incomplete applications will not be forwarded to the Admissions Committee for review.

- A completed graduate application (https://gradapply.ku.edu/apply/) submitted online (see Admission in the Graduate Studies (http://catalog.ku.edu/graduate-studies/) section of the online catalog);
- An application fee
- A statement of the applicant’s career goals and substantive interests in urban planning and rationale for undertaking graduate study in urban planning at KU;
- 1 official transcript from applicant’s undergraduate institution and any post-graduate institutions attended;
- 3 letters of recommendation from persons qualified to comment on the applicant’s academic abilities and probable success in graduate study;
- A current resume;
- Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/).

Applications are considered on a rolling basis. The final application deadlines are **July 1** for fall and **December 1** for spring admission. International applicants must apply by **June 1** for fall and **November 1** for spring admission. Applicants who wish to be considered for merit scholarships should submit application materials no later than **February 15**.

Students who are interested in enrolling in master’s level coursework in urban planning without formal admission to the graduate program are encouraged to apply for graduate non-degree seeking student status.
M.U.P. Degree Requirements

All students must complete 48 credit hours, which normally involves 4 semesters of full-time study.*

In addition to coursework, before graduation, students must have the chance to synthesize and demonstrate what they have learned in their degree program. This can be done through either a comprehensive exam or a thesis. The comprehensive exam option is most common in the Urban Planning program as most graduates go on to become planning practitioners. Occasionally, students decide they would like to pursue an academic career or they would like to go deeply into one area of study and those students complete a thesis.

The required courses are

<table>

</tbody>
</table>

Total Hours: 18

*Students completing the 5-year B.A.-M.U.P. track within the College of Liberal Arts & Sciences must complete 30 credits following completion of the B.A. portion of the track.

Specializations

The curriculum requires each student to specialize in one of the following substantive areas:

- Housing and development planning,
- Sustainable land use planning, and
- Transportation planning.

The student should declare a specialization by the third semester of the course of study. In each specialization, the student must complete one course each in theory and policy, methods, and implementation. The minimum number of credit hours for the major area depends on whether the student pursues the thesis or the non-thesis option. For the thesis option, the student takes at least 9 hours in the major area. For the non-thesis option, the student takes at least 12 hours in the major area.

The specialization courses are listed below.

Housing and Development Planning

<table>
<thead>
<tr>

</tbody>
</table>

Other supplementary courses available with approval from a faculty advisor.

Free Electives

Besides the specialty courses, thesis students must take 3 additional credit hours, and non-thesis students must take 9 additional credit hours of elective courses; any elective credits taken outside of Urban Planning require approval of a faculty advisor.

Comprehensive Exam (Non-thesis Option)

The comprehensive examination is the main culminating experience before students graduate. The examination provides a learning experience that encourages the student to synthesize the knowledge gained through course work and tests the student’s competence as a generalist/specialist planner. The examination consists of the student responding to a scenario or case study in which they are asked to synthesize knowledge gained in their course work and apply it within a particular context.

Thesis Option

The thesis provides an opportunity for the student to apply individual research skills in the context of their interest. The thesis is a continuation of the student’s course of study rather than a separate academic effort.
The format, medium, and focus of the thesis varies with the problem addressed. Students must enroll in a minimum of 6 credit hours of UBPL 806. A student desiring to prepare a thesis must develop, with the assistance of a faculty advisor, a thesis proposal to be submitted to the faculty thesis committee no later than the first day of classes of the semester before the semester in which the student plans to graduate. The committee’s approval is required before the student may pursue the thesis option. A final general examination on the thesis and course work is held.

M.U.P. Curriculum

A total of 48 semester hours is required. Students typically complete the degree within 2 years.

Master of Urban Planning and Master of Architecture

This joint degree combines in a 4-year program the normal 2-year M.U.P. degree, offered through the School of Public Affairs & Administration in the College of Liberal Arts & Sciences, and the 3-year M.Arch. degree, offered through the School of Architecture & Design. The program is intended for students interested in careers in urban design. A total of 133 credit hours is required, comprising 39 hours in urban planning and 94 hours in architecture.

Applicants must meet admission requirements of both programs. Students pursuing the M.Arch. may apply to the joint degree program during, but not after, the second year of study. Students pursuing the M.U.P. may apply to the joint degree program during, but not after, the first year of study.

More information about this joint degree program can be found here (https://urbanplanning.ku.edu/joint-degrees-0/).

Master of Urban Planning and M.A. in American Studies

This joint degree combines in a 2½-year program the normal 2-year M.U.P. degree, offered through the School of Public Affairs & Administration in the College of Liberal Arts & Sciences, and the normal 1-year M.A. degree in American studies, offered through the College of Liberal Arts and Sciences. The program is designed for students interested in careers in policy planning and research involving the arts, social planning, cultural activities and facilities, and historic preservation.

More information about this joint degree program can be found here (https://urbanplanning.ku.edu/joint-degrees-0/).

Master of Urban Planning and M.A. in Geography

This joint degree combines in a 3-year program the 2-year M.U.P. degree, offered through the School of Public Affairs & Administration in the College of Liberal Arts & Sciences, and the normal 1½-year M.A. degree in geography, offered through the College of Liberal Arts and Sciences. The program is designed for students interested in careers in policy planning and research involving GIS cartography, environmental planning, and land use planning.

More information about this joint degree program can be found here (https://urbanplanning.ku.edu/joint-degrees-0/).

Master of Urban Planning and Master of Public Administration

This joint degree combines in a 3-year program the M.U.P. degree and the Master of Public Administration degree, both offered through School of Public Affairs & Administration in the College of Liberal Arts & Sciences. The program is intended for students interested in careers in urban policy planning and urban management.

More information about this joint degree program can be found here (https://urbanplanning.ku.edu/joint-degrees-0/).

Master of Urban Planning and Juris Doctor

The joint Juris Doctor /Master of Urban Planning program is open to those who have earned baccalaureate degrees and whose undergraduate records indicate that they have the capacity to complete the law and urban planning programs. Applicants must meet the admission requirements of both programs. Applicants should apply and be admitted to each program separately before they enter the first year of the program. The Law School Admission Test is the required entrance examination for the J.D. program; the Graduate Record Examination is required for the M.U.P. program. A student who decides to enter the program while enrolled in the first year of the J.D. or M.U.P. curriculum must obtain approval from the School of Law and the Department of Urban Planning as soon as possible. No student may enter the joint degree program after completing more than 4 full semesters of the J.D. program or 3 full semesters of the M.U.P. program.

A total of 115 credit hours is required for the joint degree, comprising 39 hours in urban planning and 76 hours in law. The joint degree program can be completed in 4 years. To pursue the degrees separately would require 5 years. More information about this joint degree program can be found here (https://urbanplanning.ku.edu/joint-degrees-0/).

Master of Urban Planning and Bachelor of Arts in Architectural Studies*

This program leads to the Bachelor of Arts in Architectural Studies and the Master of Urban Planning; it combines 6 years into 5 years of
study. A total of 154 credit hours is required, composed of 124 hours in architectural studies and 30 additional graduate hours in urban planning.

Students wishing to pursue this option must meet with the Chair of Urban Planning during the third year of study. Students must meet all the required courses for the bachelor degree and have a minimum 3.25 grade-point average. In the fourth year of undergraduate study, a student takes the same courses as a first-year graduate student and applies for graduate admission in the spring semester. The student may submit Graduate Record Examination scores during the junior year but must submit GRE test results in the senior year. If the student has completed all first-year planning courses and been accepted for admission by the end of the fourth year of study, the student officially enters the graduate program to pursue the second year of study toward the completion of the Master of Urban Planning degree.

More information about this joint degree program can be found here (https://urbanplanning.ku.edu/joint-degrees-0/).

*This program is available to students who started it in Fall 2017 or before.

**Accelerated Master of Urban Planning**

Only current KU undergraduate students in the College of Liberal Arts and Sciences (CLAS) are eligible to apply to the Accelerated MA program. If you are not a current undergraduate student at KU, please consider the regular 2-year Master of Urban Planning program.

The Accelerated Master’s program combining a College of Liberal Arts and Sciences undergraduate major and Urban Planning masters is designed for students who have a passion for problem solving and helping communities engage with their futures. It allows well-qualified students to earn a bachelor’s and a master’s degree in five years, rather than the six years it would take to earn each degree separately. This program combines in-depth training in the major of the student’s choice with an accredited professional master’s degree in urban planning. Graduates are prepared for careers in the public, private and not-for profit sectors helping make communities better places.

Any CLAS undergraduate major is good preparation for an urban planning career because the profession is so wide-ranging in the skills required. Planners can be specialists (transportation, sustainable land use, or housing and development) or generalists working on how all these systems work together to create great places. Planners can be technical experts working with numbers or communicators building relationships or both. Get the undergraduate degree you have always wanted, then the career you probably did not know existed, but is right and meaningful for you.

Careful course selection and steady progression through the undergraduate major is necessary to ensure all requirements for both degrees may be completed within the 5-year time frame. All prospective students should discuss their interest with the undergraduate advisor for the major of their choice and the Urban Planning program director as soon as possible. A meeting with the Urban Planning director should take place no later than the student’s Junior year (Year 3) to discuss possible admission to the accelerated master’s track.

The program maintains rolling admissions. Prospective students are eligible to apply to the graduate program as early as the second semester of their Sophomore year or at any time during their Junior year, but rolling admissions allows for applications at any time. The following requirements must be met by this time:

- Major and cumulative GPA of at least 3.25;
- On track to complete all requirements for a B.A., B.S. or B.G.S. degree in the CLAS degree of their choice from KU by the second semester of the Senior Year.

Students pursuing the Accelerated degree are also strongly encouraged to take the following as preparatory courses* for the master’s curriculum:

- UBPL 200: Sustainability and Society (Goal 1.1) – Sophomore Year
- UBPL 300: Planning the Sustainable City (Goal 3) – Junior Year

*In some cases, it may be possible for these courses to substitute for major electives. Consult with your undergraduate advisor to determine if this is an option for your major.

Applicants must complete an Application for Graduate Study online. The following information should be gathered in advance and uploaded with the application:

- Statement of interest that succinctly summarizes the students’ interests, education, their long-term career goals, and how the accelerated degree program will help them achieve those goals;
- A copy of the student’s Advising Report
- The names of three persons qualified to comment on the applicant’s academic abilities and probable success in graduate study. These individuals will be asked to provide a letter of recommendation. At least two should be faculty members who have had the student in class.

Upon review of the Application for Admission, Urban Planning will notify the student of their eligibility to begin coursework in the program. Final acceptance to the Master of Urban Planning graduate program will be contingent upon the following:

- Successful completion of all requirements for the bachelor’s degree;
- Grades of B or above in all Urban Planning graduate-level coursework

Any student who does not meet this minimum grade requirement may continue in the program but must repeat any graduate course for which they did not earn a B or above. Students may also elect to earn only the bachelor’s degree and re-apply to the graduate program at a later time.

**Prior to Conferral of the Bachelor’s Degree**

Students must be approved to begin coursework toward the master’s before completing any 500 level or above coursework in Urban Planning that is to count toward the master’s degree. Once approved, the student must complete the following 18 credit hours of Urban Planning courses while still an undergraduate student:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>UBPL 736</td>
<td>Planning Institutions</td>
<td>3</td>
</tr>
<tr>
<td>UBPL 785</td>

<td>Urban Economic Theory and Analysis</td>
<td>3</td>
</tr>
<tr>
<td>UBPL 741</td>
<td>Quantitative Methods I</td>
<td>3</td>
</tr>
<tr>
<td>Specialization (select 2 courses)</td>
<td>See below for more information</td>
<td>6</td>
</tr>
</tbody>
</table>

See below for more information
Introductory course in specialization of choosing
Introductory course in another specialization of choosing
Methods course in the specialization of choosing

Note: Students must choose one specialization, but early on, they may not be sure of which one of the three specializations to choose. It is common for students to take two different introductory courses to try out the specializations and make a decision. The Methods course in the student’s chosen specialization can be taken at a later time if the student is undecided on a specialization as an undergraduate.

Total Hours 18

Specialization

The curriculum requires each student to specialize in one of the following substantive areas:

- Housing and development planning,
- Sustainable land use planning, or
- Transportation planning.

A specialization consists of four courses in that specialization: an introductory course, a methods course, an implementation course, and a supplementary course.

The student should declare a specialization no later than the final semester of undergraduate study and complete two of the following courses, as indicated above, prior to conferral of the bachelor’s degree:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>UBPL 710</td>
<td>Introduction to Housing Policy</td>
<td>3</td>
</tr>
<tr>

UBPL 758 | Public Transit                            | 3     |
UBPL 816 | Politics, Planning and Administration      | 3     |

Comprehensive Exam

Students in the Accelerated Master’s must successfully pass a comprehensive exam. The examination provides a learning experience that encourages the student to synthesize the knowledge gained through course work and tests the student’s competence as a generalist/specialist planner. The examination consists of the student responding to a scenario or case study in which they are asked to synthesize knowledge gained in their course work and apply it within a particular context.

Progression Requirements

Each student’s progress will be monitored at various points during the program:
• Upon approval to begin coursework toward the accelerated masters, the student will meet with the UBPL Program Director to plan the graduate UBPL courses to be taken for elective undergraduate credit.

Students should continue to work closely with their undergraduate advisor to ensure all requirements for the undergraduate degree(s) are met.

• In the final spring semester of undergraduate study (Year 4), the student will meet with the UBPL Program Director to review the student’s performance in UBPL courses. The student must earn a grade of “B” or better in these courses to be eligible for regular admission to the Master of Urban Planning degree.

• Following completion and award of the undergraduate degree (end of Year 4), the admitted student will again meet with the UBPL Program Director to review the course plan for the fifth year of study and update as needed. The student’s performance in the graduate-level courses taken as an undergraduate will be evaluated. To continue in the track, students must earn a combined minimum GPA of 3.25 for these courses. At this time, the student will meet with a faculty advisor who is overseeing that specialization to ensure the course plan is on track.

• For those students who do not meet the minimum GPA requirement of 3.25 in the first semester of Year 5 an alternative plan of study to address the student’s deficiencies may be developed, at the program’s sole discretion. Students may also be dismissed from the program.

• If the baccalaureate degree is not completed at the end of Year 4, the student will not be permitted to enroll in courses for graduate credit toward the MUP degree until the baccalaureate degree has been conferred.

Careful course selection and steady progression through the undergraduate career is necessary to ensure all requirements for both degrees may be completed within the 5-year time frame. All prospective students should discuss their interest with the undergraduate advisor for Environmental Studies and the Program Director of Urban Planning as soon as possible. A meeting with the Program Director of Urban Planning should take place no later than the student’s Junior year (Year 3) to discuss possible admission to the accelerated master’s track.

Prospective student are eligible to apply to the graduate program in Spring semester of their Junior year. The following requirements must be met by this time:

• Major and cumulative GPA of at least 3.25;
• On track to complete all requirements for a B.A. or B.G.S. degree in Environmental Studies from KU by the Spring semester of the Senior Year (Year 4)

Applicants must complete an Application for Graduate Study (https://gradapply.ku.edu/apply/) online. The following information should be gathered in advance and uploaded with the application:

• Statement of interest that succinctly summarizes the students’ interests, education, their long term career goals, and how the accelerated degree program will help them achieve those goals;
• A copy of the student’s Advising Report
• The names of three persons qualified to comment on the applicant’s academic abilities and probable success in graduate study. These individuals will be asked to provide a letter of recommendation. At least two should be faculty members who have had the student in class.

Upon review of the Application for Admission, Urban Planning will notify the student of his or her eligibility to begin coursework in the program. Final acceptance to the Master of Urban Planning graduate program will be contingent upon the following:

• Successful completion of all requirements for the bachelor’s degree;
• Grades of B or above in all Urban Planning graduate-level coursework taken in Year 4

Any student who does not meet this minimum grade requirement may continue in the program but must repeat any graduate course for which they did not earn a B or above. Students should still aim to complete all requirements by the end of Year 5. Students may also elect to earn only the bachelor’s degree and re-apply to the graduate program at a later time.

This accelerated program uses a carefully planned combination of pre-requisite coursework, graduate-level courses taken for both undergraduate and graduate credit in Year 4, and graduate credit courses taken in Year 5. The student must be approved to begin coursework toward the master’s prior to enrolling in any classes that are to count for both undergraduate and graduate credit. Please see the Sample Academic Plan for more information.

**Requirements for the Bachelor’s Degree**

<table>

Only current KU undergraduate students are eligible to apply to the Accelerated MA program. If you are not a current undergraduate student at KU, please review the admission requirements for regular MUP program.
Requirements for the Master's Degree

GPA Calculator

study including F's and repeated courses. Satisfied by a minimum of a 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study.

Major Junior/Senior Graduation GPA

Satisfied by a minimum of 2.0 KU GPA in junior/senior courses (300+) in the major. GPA calculations include all junior/senior courses in the field of study including F's and repeated courses. See the Semester/Cumulative GPA Calculator (http://clas.ku.edu/undergrad/tools/gpa/).

Requirements for the Master's Degree

During the Senior Year (Year 4), the student must take the following Urban Planning graduate coursework, in addition to the Major Requirements noted above:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>UBPL 741</td>
<td>Quantitative Methods I</td>
<td>3</td>
</tr>
<tr>
<td>UBPL 785</td>

<td>3</td>
</tr>
<tr>
<td>UBPL 742</td>
<td>Quantitative Methods II</td>
<td>3</td>
</tr>
<tr>
<td>UBPL 705</td>
<td>Urban Economic Theory and Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

In Year 5, after the conferral of the undergraduate degree, the student will complete a total of 24 post-baccalaureate graduate credit hours, consisting of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>UBPL 763</td>
<td>Professional Practice</td>
<td>3</td>
</tr>
<tr>
<td>UBPL 850</td>
<td>Urban and Regional Theory</td>
<td>3</td>
</tr>
<tr>
<td>UBPL Elective or Specialization Courses</td>
<td>18</td>
<td></td>
</tr>
</tbody>
</table>

Students in the accelerated masters must successfully pass a comprehensive exam. The examination provides a learning experience that encourages the student to synthesize the knowledge gained through course work and tests the student’s competence as a generalist/specialist planner. The examination consists of the student responding to a scenario or case study in which one is asked to synthesize knowledge gained in one’s course work and apply it within a particular context. No academic credit is given for the examination.

Progression Requirements

Each student’s progress will be monitored at various points during the program:

1. Upon pre-admission acceptance to the accelerated masters, the student will meet with the UBPL Chair to plan the final year of undergraduate courses, graduate UBPL courses to be taken for elective undergraduate credit, and to outline the schedule of courses.

1. In the final spring semester of undergraduate study (Year 4), the student will meet with the UBPL Chair to review the student’s performance in UBPL courses. The student must earn a grade of “B” or better in these courses to be eligible for regular admission to the Master of Urban Planning degree.

1. Following completion and award of the undergraduate degree (end of Spring Semester Year 4), the admitted student will again meet with the UBPL Chair to review the course plan for the fifth year of study and update as needed. The student’s performance in the graduate-level courses taken as an undergraduate will be evaluated. To continue in the track, students must earn a combined minimum GPA of 3.25 for these courses. At this time, the student will select a specialization area within the planning degree, and will meet with a faculty advisor who is overseeing that specialization to ensure the course plan is accurate.

1. For those students who do not meet the minimum GPA requirement of 3.25 in the first semester of Year 5 an alternative plan of study to address the student’s deficiencies may be developed, at the department’s sole discretion. Students may also be dismissed from the program.

1. If the baccalaureate degree is not completed at the end of Year 4, the student will not be permitted to enroll in courses for graduate credit.
Students should complete all requirements for the master’s degree within one year of receiving the bachelor’s degree. If unforeseen circumstances prevent the timely completion of the master’s degree, the student must consult with their graduate advisor to develop an alternative plan for completion.

## Master of Urban Planning and Master of Arts in American Studies

### M.U.P. and M.A. in American Studies

This program combines the normal two-year Master of Urban Planning degree (48 credit hours) and the normal two-year Master of Arts degree in American Studies (30 credit hours) into a two and one-half year program (60 total credit hours). This program is designed for students interested in careers in policy planning and research involving the arts, social planning, cultural activities and facilities, and historic preservation.

### Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

### Admission to the Joint M.A./M.U.P.

Students seeking admission to the joint degree must apply to both the American Studies M.A. and M.U.P. programs separately and will be expected to meet the established admission requirements of each program. Please see the American Studies (http://americanstudies.ku.edu/admissions/) and Urban Planning (https://urbanplanning.ku.edu/application/) websites for their respective admission requirements.

Eligibility criteria for admission follow Graduate Studies’ admission policy (http://policy.ku.edu/graduate-studies/admission-to-graduate-study/). To be considered for admission to regular graduate status in the joint program, a student must hold a bachelor’s degree and have earned at least a B (3.0) grade-point average in previous academic work.
Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/).

**M.U.P. Degree Requirements**

The M.U.P portion of the joint degree requires 24 credit hours.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

**Elective in Urban Planning**

A list of approved UBPL elective courses can be found on the Urban Planning website (https://urbanplanning.ku.edu/courses/).

**M.A. in American Studies Degree Requirements**

The American Studies M.A. portion of the joint degree requires 24 credit hours.

<table>
<thead>
<tr>

</tbody>
</table>

**Electives in American Studies**

These courses will serve as the student’s area of concentration, preparing them for their thesis or publishable article. Electives must have an AMS course number and must be taken at the 700-level or above.

**Thesis/Article Hours**

Students completing the joint degree program are required to defend either a thesis or publishable article in their final semester. After completing the AMS required coursework, the student enrolls in AMS 899 until their thesis or publishable article is accepted by their committee. An oral defense of the thesis or article will serve as the M.A. examination

**Joint Requirements**

A list of approved specialization courses can be found on the Urban Planning website (https://urbanplanning.ku.edu/urban-planning-specializations/).

Please review the AMS Graduate Student Handbook (http://americanstudies.ku.edu/graduate-student-documents-0/) for additional information.

If a student decides to complete only the M.A. or M.U.P. and withdraw from the other program, they must complete all requirements for the stand-alone degree.

**Course Level Requirement**

Students pursuing a joint M.U.P. and M.A. in American Studies must take 50% or more of their coursework at the 700 level or above. Core courses and thesis hours (if applicable) count toward this requirement.

**Master of Urban Planning and Master of Arts in Geography**

**Joint Degree for Master of Arts in Geography and Master of Urban Planning**

Urban planning is a professional field that addresses the health, welfare, and sustainability of our cities, towns, regions, natural, and rural areas. Planners are problem-solvers. They deal with both short- and long-range planning projects at scales from small to large. Planners seek to enhance overall quality of life by addressing aspects of communities such as housing, land use, transportation, and responsible development that preserves the natural environment. KU’s Master of Urban Planning (M.U.P.) is an accredited, professional degree that prepares students to excel in planning practice. It is the normal academic qualification for planning and planning-related positions. Graduates are prepared for careers in the public sector (local, state, national, international governments and agencies), private sector (consulting firms, development companies), and not-for profits (housing authorities, nonprofits) helping make communities better places.

The MA in Geography program develops a concentration in preparation for a career or further study. The student takes courses in several areas of the discipline. Our faculty are integral to graduate studies and have expertise in Human and Cultural Studies with a particular emphasis on Place, Economic Geography, Health and Diaspora, Environmental Policy, Borders and Border Conflicts, and more. Learn more about our faculty (http://geog.ku.edu/faculty/) on our website.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.
Graduate Admission

Joint Degree application for M.A. and M.U.P

Admission details, including required application materials for the MA in Geography (http://geog.ku.edu/graduate-1/) and Master of Urban Planning (http://urbanplanning.ku.edu/application/), can be found on their respective web pages. Entering students should submit separate applications to each department.

Applicants without prior training in Geography are welcome but are required to improve their basic knowledge of the broad divisions of geography: systematic, methodological, and regional. Courses taken to remedy deficiencies may not count toward graduate degrees.

Submit your graduate application online (https://gradapply.ku.edu/apply/).

M.U.P. Degree Requirements

The M.U.P. portion of the joint degree requires 36 credit hours.

Total Hours: 36

M.A. in Geography Degree Requirements

The M.A. in Geography portion of the joint degree requires a minimum of 30 credit hours. A maximum of 6 credits of 500 and 600 level courses may be included in the program. If a 500 or 600 level course is taken to fulfill the required Techniques/Research Methods course, those credits will not count toward this maximum.

Master of Public Administration and Juris Doctor

M.P.A./J.D. Combined Program

The joint degree program is designed for the student who intends to combine career preparation in law and public administration. Examples of career objectives for this degree are the practice of law in communities (for example, a city attorney, who may be called upon to perform legal services for a municipality) and for city managers (who may need to deal with legal questions and interact with legal professionals). The program combines into 4 years the normal 3-year Juris Doctor (p. 795) program offered by the School of Law (http://www.law.ku.edu/) and the 2-year M.P.A. program offered by the School of Public Affairs and Administration (http://kupa.ku.edu/).

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

MPA/JD Admission

Applicants for the MPA/JD program will apply for the MPA program. Please visit our website (https://kupa.ku.edu/admissions-information/) for complete admissions information.

The academic prerequisites for regular admission to the MPA program are:

1. Completion of a bachelor's degree, preferably with a background in the social sciences, including basic college algebra and statistics courses.
2. A grade-point average of B (3.0 on a 4.0 scale) for all previous university or college work. In certain circumstances, when the GPA is slightly below 3.0, other factors may be considered for provisional admission to the MPA program.

For all applicants, a completed application includes:

1. Online Graduate Studies application. (https://gradapply.ku.edu/apply/)
2. A nonrefundable application fee, submitted online with the application form.
3. 1 official transcript from the degree-granting college or university and any post-graduate college or university attended.
4. 3 letters of recommendation. If possible, at least 1 should be an academic reference.
5. A 3- to 5-page essay describing your background and career goals and clearly indicating how the MPA degree fits into those goals and addressing any deficiencies in your academic preparation.

6. A current résumé.

7. A writing sample that is at least 5 pages long. It should be a well-cited work in which you critically analyze (not just summarize) an issue.

8. Non-native speakers of English must meet Graduate Studies English proficiency requirements (https://gradapply.ku.edu/english-requirements/).

**Deadlines**

Application deadlines are **February 1, May 1 and November 1.**

**J.D./MPA Joint Degree Program**

Students must complete 115 total credit hours: 78 credit hours in the School of Law (42 required and 36 elective) and 37 credit hours in the School of Public Affairs and Administration (19 required and 18 elective).

Students pursuing the joint degree should plan to enroll in course work for 2, and in some instances 3, summers.

The MPA degree is awarded upon successful completion of credits required and the final written examination. The College of Liberal Arts and Sciences requires a minimum 3.0 cumulative GPA. Only courses completed with a grade of C or higher will count toward the MPA degree.

Please see the current Law School Catalog (https://catalog.ku.edu/law/jd/#requirementstext) and School of Law Joint Degree page (http://law.ku.edu/publicadministration/) for details and degree requirements.

**MPA Degree Requirements**

The Master of Public Administration (MPA) degree is awarded after successful completion of 43 credit hours of course work. This includes 19 hours (6 courses) of required core courses (including the student’s choice of an experiential learning course to serve as a final reflective course) that all students complete, 18 hours (6 courses) tailored to the student’s interests and/or track (fellow or MPA track), and 6 hours (2 courses) from the School of Law. Once a student begins the program, all degree requirements must be completed within 7 years.

MPA track students will complete the required core courses and select a graduate certificate within the School of Public Affairs & Administration to complete 6 electives (18 hours) to complete the program. Graduate certificates only require 12 credits, so there is additional flexibility in elective content for MPA track students.

**Core Course Work**

The MPA core course work includes the following courses (19 credit hours):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PUAD 824</td>
<td>Creating Good Public Policy</td>
<td>3</td>

<td>3</td>
</tr>
<tr>
<td>or PUAD 895</td>
<td>Professional Development Seminar II: Leading to Create a Culture for High Performance</td>
<td>3</td>
</tr>
</tbody>
</table>

**Track Course Work**

Students may either apply for the MPA track or the City/County Management Fellows track to complete course work toward the MPA degree.

MPA track students will select a graduate certificate within the School of Public Affairs & Administration and additional elective coursework totaling 18 credit hours to complete the program. Graduate certificates only require 12 credits, so there is additional flexibility in elective content for MPA track students. Please see here for a list of SPAA Graduate Certificates (https://kupa.ku.edu/graduate-certificates/).

City/County Management Fellows will take the following courses to complete City/County Management graduate certificate (https://kupa.ku.edu/graduate-certificates/) within their joint degree program:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

**Final Exam**

All students must pass a written master’s examination (final paper) to complete the requirements for the MPA degree.

**Master of Public Administration and Master of Urban Planning**

**M.P.A./M.U.P. Combined Program**

This program is designed for the student with career goals that center on assuming administrative and management responsibilities in urban planning and urban affairs. It combines into 3 years (excluding the 1-year internship required for the M.P.A. program) the normal course work required for the 2-year Master of Urban Planning (p. 2137) degree and the 2-year M.P.A. degree. The program offers students experience not only in public policy management, but also in management with particular expertise in urban problem resolution.

A student must meet admission requirements of both programs. Dual admission requires submitting separate sets of application materials as required by the respective programs. The M.P.A./M.U.P. program is open to those who have earned baccalaureate degrees and whose undergraduate academic records indicate that they have the capacity to complete these graduate programs.

Contact the School of Public Affairs and Administration (http://kupa.ku.edu/) or the Department of Urban Planning (http://urbanplanning.ku.edu/) for more information.

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.
Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

**M.P.A./M.U.P. Admission**

Applicants for the M.P.A./M.U.P. program must complete applications for each program. Please visit our website (http://kupa.ku.edu/admissions-information/) for complete admissions information.

The academic prerequisites for regular admission to the M.P.A. program are:

1. Completion of a bachelor's degree, preferably with a background in the social sciences, including basic college algebra and statistics courses.
2. A grade-point average of B (3.0 on a 4.0 scale) for all previous university or college work. In certain circumstances, when the GPA is slightly below 3.0, other factors may be considered for provisional admission to the M.P.A. program.

For all applicants, a completed application includes:

1. Online Graduate Studies application. (https://gradapply.ku.edu/apply/)
2. A nonrefundable application fee, submitted online with the application form.
3. 1 official transcript from the degree-granting college or university and any post-graduate college or university attended.
4. 3 letters of recommendation. If possible, at least 1 should be an academic reference.
5. A 3 to 5 page describing your background and career goals and clearly indicating how the M.P.A./M.U.P. joint degree fits into those goals and addressing any deficiencies in your academic preparation.
6. A current résumé.
7. A writing sample that is at least 5 pages long. It should be a well-cited work in which you critically analyze (not just summarize) an issue.
8. Non-native speakers of English must meet Graduate Studies English proficiency requirements (https://gradapply.ku.edu/english-requirements/).

**Deadlines**

Application deadlines are **February 1, May 1 and November 1**.

This program combines into 72 credit hours the normal course work required for the Master of Urban Planning (48 credit hours) and the Master of Public Administration (43 credit hours) by requiring 36 credit hours from each program. A student pursuing the degrees separately would require four years of course work. The joint degree requires three years of full-time enrollment to complete, including summers. Admission to the joint degree is only available for Summer and Fall semesters. Students in the joint degree program will not be eligible for the Urban Planning graduate certificate in addition to the credentials earned for the joint degree, but may pursue another School of Public Affairs & Administration graduate certificate as elective scheduling concurrent to required MPA and MUP course work allows.

**Doctor of Philosophy in Public Administration**

**Why study public affairs and administration?**

The doctoral program in the KU School of Public Affairs and Administration provides advanced graduate education in theory and research to prepare students for academic and research careers in public administration and urban planning, as well as professional careers in advanced practice of public administration. Students in the program typically gain teaching experience, research experience on faculty research projects, and commonly co-author articles with members of the faculty.

For additional doctoral program data, please view the doctoral program profiles (http://graduate.ku.edu/current-program-profiles/) on the Graduate Studies website (click on "Public Affairs and Administration" under "College of Liberal Arts and Sciences").

**Admission to Graduate Studies**

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.
PhD Admission

Please visit our website (http://kupa.ku.edu/admissions/) for complete admissions information.

Admission is based on the applicant’s undergraduate and/or graduate academic record, standardized test scores, references from professors, and relevant professional experience. All applicants must have completed a bachelor’s degree and an M.P.A. or equivalent degree. Students without an M.P.A. or equivalent degree must complete several KU core M.P.A. requirements as part of their doctoral studies.

A completed application must include

- Online Graduate Studies application (http://www.gradapply.ku.edu/).
- Graduate Record Examination results — verbal, quantitative, and analytical;
- 2-page statement of goals and research interests including evidence of research aptitude and interest;
- 3 letters of recommendation, preferably from faculty members who can comment on the applicant’s potential for doctoral study;
- A writing sample that reflects the applicant’s interest in and ability to conduct research;
- A current resume; and
- 1 official transcript from each college or university attended.

Non-native speakers of English must meet English proficiency requirements as described here (https://gradapply.ku.edu/english-requirements/). Immigration requirements and a financial statement are available from the Office of International Student and Scholar Services (http://www.iss.ku.edu/). All materials must be received before the application can be considered.

For fall admission and financial aid consideration, the application file must be completed by January 15. Applicants who do not meet this deadline are unlikely to be considered for financial aid, even though applications may be considered throughout the year.

Ph.D. Degree Requirements

The Ph.D. degree requires a minimum of 75 credit hours, including 66 credit hours of courses and 9 or more hours of dissertation credit. Students may count up to 30 hours of credit earned toward an M.P.A. degree, or equivalent, toward the required 66 hours. Students who enter the doctoral program without having earned an M.P.A. or its equivalent must complete all M.P.A. core courses in SPAA or comparable 900-level doctoral courses, except they may choose to take either PUAD 835 Managing Public Money or PUAD 837 Advanced Public Budgeting and Finance.

The requirements for the Ph.D. are based on formal course work and independent study in several fields:

- Foundations of public administration
- Specialization field within public administration
- Cognate field
- Methods sequence

Foundations of Public Administration

4 of the 5 courses listed below are required of all doctoral students.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PUAD 930</td>
<td>Research Seminar in Public Administration and Democracy</td>

<td>Seminar in the Intellectual History of Public Administration</td>
<td>3</td>
</tr>
<tr>
<td>PUAD 943 or PUAD 949</td>
<td>Constitutional Foundations of Public Administration</td>
<td>3</td>
</tr>
</tbody>
</table>

Substitutions require the approval of the coordinator of doctoral studies.

Public Administration Specialization

In consultation with the coordinator of doctoral studies, each student must develop and declare a public administration specialization of at least 3 courses, which may be satisfied in part by credit for directed readings. Common specializations include public management and organization theory, budgeting and finance, human resources management, public policy analysis and evaluation, public values and ethics, public law and administration, and urban policy/politics. Other areas of specialization may be created in consultation with faculty.

Cognate Fields

The Ph.D. degree requires a cognate field in addition to the public administration specialization. The cognate field is a subfield similar to a “minor” and courses typically are taken outside the School. Examples include economics, political science, education, or a policy specialization (e.g., environmental policy or transportation policy.) The cognate field’s sequence of 3 courses requires the approval of the coordinator of doctoral studies and does not require a comprehensive examination.

Methods

The doctorate emphasizes the development of research skills. It requires PUAD 934 Research Methods in Public Administration, with the prerequisite PUAD 836 or its equivalent, and PUAD 935 Advanced Quantitative Methods for Public Administration, PUAD 935 Advanced Quantitative Methods for Public Administration, PUAD 935 Advanced Quantitative Methods for Public Administration, PUAD 935 Advanced Quantitative Methods for Public Administration, PUAD 935 Advanced Quantitative Methods for Public Administration. Students also are encouraged to take PUAD 937 Qualitative Methods in Public Administration. Substitutions require the approval of the coordinator of doctoral studies. The methods requirement satisfies the Office of Graduate Studies’ Research Skills and Responsible Scholarship requirement. These requirements are the minimum, and students are encouraged to develop advanced skills in research methods and analysis.

Examinations and Dissertation

After the completion of the required coursework, the student must pass two Written Comprehensive Examinations: one in the area of Foundations of Public Administration, and the other in the student’s Specialization. If the student receives a grade of unsatisfactory on either Written Comprehensive Examination, the Examination may be repeated once at which time the student will be required to retake the entire Examination. Under no circumstances may the student seek to fulfill the requirement to pass a Written Comprehensive Examination in a specialization area other than the area in which he or she failed to pass the Examination on the first attempt. Failure to pass either Written Comprehensive Examination within two attempts shall constitute failure to satisfy a requirement for the Ph.D. degree, and shall result in dismissal from the program.
After passing both written exams, to become a PhD candidate the student must then pass a Comprehensive Oral Examination that includes a defense of the dissertation research proposal.

After passing the Comprehensive Oral Examination, the doctoral candidate must write a dissertation and must pass a final oral defense of the dissertation in order to receive the PhD degree.

### Graduate Certificate in City and County Management

Local government is increasingly being described as the level of government "where things get done!" This certificate is designed for those who are interested in a career in local government organizations (cities and counties) or in non-profit or private sector organizations that collaborate or serve local governments. It offers broad coverage of the leadership and management skills that local government professionals need as well as more in-depth instruction on key issues facing modern communities.

### Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

### Admission

The School of Public Affairs & Administration (SPAA) accepts students on a rolling admissions basis. Students may apply to be admitted for either the fall, summer or spring semesters. Applicants for the certificate are required to have:

- Undergraduate degree with a GPA of 3.0 (if the undergraduate degree was awarded in the last three years).
- At least three years of managerial experience or be already admitted to any graduate programs of KU or already have a graduate management or leadership degree from an accredited institution.
- Non-native speakers of English must meet the Graduate Studies English proficiency requirements (https://gradapply.ku.edu/english-requirements/).

Current School of Public Administration & Affairs graduate students who wish to earn a graduate certificate credential in any of the SPAA certificates must submit a graduate application for the specific certificate program no later than enrollment in the final course that will count toward the certificate. Public Administration Ph.D. and Master of Urban Planning graduate students may email Cari Ann Kreienhop (https://kupa.ku.edu/cari-ann-kreienhop/) for application and certificate conferral instructions. Current MPA graduate students may refer to the Certificate requirement in the Enrollment & Progress Tracking channel (https://teams.microsoft.com/#/school/files/Enrollment%20and%20Progress%20Tracking?threadid=19%25A675db7160dd4d3aa0744c0c672a743e%2540thread.skype&ctx=channel&context=Degree%2520Progress) of the MPA Students Microsoft Team for application, tracking, and conferral instructions.

Individuals who are not already enrolled as School of Public Affairs and Administration graduate students must complete an application to Graduate Studies (https://gradapply.ku.edu/apply/) for admission into the certificate program and submit an application fee along with the following materials:

- A current resume.
- A statement of interest in the graduate certificate program. This 1-2 page narrative should summarize your education, employment history, career goals, and how this certificate will bolster your professional aspirations.
- Official transcripts of baccalaureate degree/s and any post-baccalaureate course work.

The admissions committee may request additional materials if needed to assess an applicant’s ability to be successful in the coursework.

### Certificate Requirements

The certificate is comprised of 4 courses for a total of 12 graduate credit hours. Other courses may be substituted with approval of the MPA Faculty Director. Students who wish to pursue both the City and County Management and Public and Nonprofit Management graduate certificates must seek approval from the MPA Faculty Director. PUAD 834 will count toward both certificates, but the student must take one additional elective to meet the 12 credit-hour completion requirement for each. Otherwise, Student pursuing more than one SPAA certificate may use a maximum of one course to count towards both certificates.

### Graduate Certificate in Law & Society

Through the completion of this certificate, students will gain in-depth knowledge of how law intersects with and influences the practice of public administration and public policy-making and implementation. Students will learn how public administrators can work more effectively with knowledge of legal history and legal policy, how law shapes managerial processes, how it shapes government and the system of justice, and how it affects ordinary people in every walk of life. The knowledge gained through the courses in the Law and Society certificate will prepare students for work in a variety of settings, including criminal justice organizations, non-profits, policy think tanks, political institutions, and public administrative agencies.
of all kinds. While all students are welcome to apply, this graduate certificate’s course work is only offered at the Edwards Campus.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission

The School of Public Affairs & Administration (SPAA) accepts students on a rolling admissions basis. Students may apply to be admitted for either the fall, summer or spring semesters. Applicants for the certificate are required to have:

• Undergraduate degree with a GPA of 3.0 (if the undergraduate degree was awarded in the last three years).

• At least three years of managerial experience or be already admitted to any graduate programs of KU or already have a graduate management or leadership degree from an accredited institution.

• Non-native speakers of English must meet the Graduate Studies English proficiency requirements (https://gradapply.ku.edu/english-requirements/).

Current School of Public Administration & Affairs graduate students who wish to earn a graduate certificate credential in any of the SPAA certificates must submit a graduate application for the specific certificate program no later than enrollment in the final course that will count toward the certificate. Public Administration Ph.D. and Master of Urban Planning graduate students may email Cari Ann Kreienhop (https://kupa.ku.edu/cari-ann-kreienhop/) for application and certificate conferral instructions. Current MPA graduate students may refer to the Certificate powpoint in the Enrollment & Progress Tracking channel (https://teams.microsoft.com/#!/school/files/Enrollment%20and%20Progress%20Tracking?threadid=19%3A675db7160ddd4d3aa0744c0c672a743e-%40thread.skype&ctx=channel&context=Degree%2520Progress%2520Tracking&rootfolder=%252Fteams%252FMPAStudents%252FShared%2520Documents%252FDegree%2520Progress%2520Tracking) of the MPA Students Microsoft Team for application, tracking, and conferral instructions.

Individuals who are not already enrolled as School of Public Affairs and Administration graduate students must complete an application to Graduate Studies (https://gradapply.ku.edu/apply/) for admission into the certificate program and submit an application fee along with the following materials:

• A current resume.

• A statement of interest in the graduate certificate program. This 1-2 page narrative should summarize your education, employment history, career goals, and how this certificate will bolster your professional aspirations.

• Official transcripts of baccalaureate degree/s and any post-baccalaureate course work.

The admissions committee may request additional materials if needed to assess an applicant’s ability to be successful in the coursework.

Certificate Requirements

The certificate requires 4 courses for a total of 12 graduate credit hours. Other courses may be substituted with the approval of the MPA Faculty Director. Student pursuing more than one SPAA certificate may use a maximum of one course to count towards both certificates.

Graduate Certificate in Performance Management

Effectiveness, efficiency, public accountability, and the better alignment of resources and managerial actions with organizational mission are key goals of public and nonprofit management. This certificate is designed for those individuals who wish to develop skill sets in managing performance and in fostering innovative changes to deliver greater value to the public. Managerial strategies, organizational change management, governance thinking, and quantitative analysis are emphasized in the coursework.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

Admission

The School of Public Affairs & Administration (SPAA) accepts students on a rolling admissions basis. Students may apply to be admitted for either the fall, summer or spring semesters. Applicants for the certificate are required to have:

• Undergraduate degree with a GPA of 3.0 (if the undergraduate degree was awarded in the last three years).

• At least three years of managerial experience or be already admitted to any graduate programs of KU or already have a graduate management or leadership degree from an accredited institution.

• Non-native speakers of English must meet the Graduate Studies English proficiency requirements (https://gradapply.ku.edu/english-requirements/).

Total Hours 15

Graduate Certificate in Public / Nonprofit Management

This certificate aims to enhance graduates’ ability to manage and lead public and nonprofit organizations ethically and effectively. It establishes effective human resource management as a core foundation, with emphasis on the political, legal, and ethical dimensions of public service employment. Through study of management theories and techniques, students will gain understanding of contemporary organizational challenges and the tensions inherent to competing values and develop the leadership skills necessary to guide public organizations through change. Through their choice of electives, students may tailor this certificate to focus more specifically on the nonprofit or public sector.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

The School of Public Affairs & Administration (SPAA) accepts students on a rolling admissions basis. Students may apply to be admitted for either the fall, summer or spring semesters. Applicants for the certificate are required to have:

- Undergraduate degree with a GPA of 3.0 (if the undergraduate degree was awarded in the last three years).
- At least three years of managerial experience or be already admitted to any graduate programs of KU or already have a graduate management or leadership degree from an accredited institution.
- Non-native speakers of English must meet the Graduate Studies English proficiency requirements (https://gradapply.ku.edu/english-requirements/).

Current School of Public Administration & Affairs graduate students who wish to earn a graduate certificate credential in any of the SPAA certificates must submit a graduate application for the specific certificate program no later than enrollment in the final course that will count toward the certificate. Public Administration Ph.D. and Master of Urban Planning graduate students may email Cari Ann Kreienhop (https://kupa.ku.edu/cari-ann-kreienhop/) for application and certificate conferral instructions. Current MPA graduate students may refer to the Certificate powerpoint in the Enrollment & Progress Tracking channel (https://teams.microsoft.com/l/#/school/files/Enrollment%20and%20Progress%20Tracking/threadid=19%3A675db7160dd4d3aa074ac0c6727a743e4%40thread.skype&ctx=channel&context=Degree%2520Progress%2520Tracking&rootfolder=%252FTeams%252FMPAStudents%252FShared%2520Documents%252FDegree%2520Progress%2520Tracking) of the MPA Students Microsoft Team for application, tracking, and conferral instructions.

Individuals who are not already enrolled as School of Public Affairs and Administration graduate students must complete an application to Graduate Studies (https://gradapply.ku.edu/apply/) for admission into the certificate program and submit an application fee along with the following materials:

- A current resume.
- A statement of interest in the graduate certificate program. This 1-2 page narrative should summarize your education, employment history, career goals, and how this certificate will bolster your professional aspirations.
- Official transcripts of baccalaureate degree/s and any post-baccalaureate course work.

The admissions committee may request additional materials if needed to assess an applicant’s ability to be successful in the coursework.
Certificate Requirements

The certificate requires 4 courses for a total of 12 graduate credit hours. Other courses may be substituted with the approval of the MPA Faculty Director. Students who wish to pursue both the City and County Management and Public and Nonprofit Management graduate certificates must seek approval from the MPA Faculty Director. PUAD 834 will count toward both certificates, but the student must take one additional elective to meet the 12 credit-hour completion requirement for each. Otherwise, Student pursuing more than one SPAA certificate may use a maximum of one course to count towards both certificates.

Graduate Certificate in Public Policy

Public policy shapes the behavior of individuals, organizations, and corporations and affects almost every aspect of society. The ability to develop “good” public policy requires both a strong analytical base and political astuteness. The required courses in the certificate establish a contextual and analytical foundation, equipping students with the ability to both prospectively assess and retrospectively evaluate public initiatives. Electives enable additional exploration of particular policy areas.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies (p. 2540) section of the online catalog.

Graduate Certificate in Urban Planning

Through the completion of this certificate, students will gain an essential introduction to the field and practice of urban planning, which is about engaging communities for better futures and creating places where people can lead meaningful lives. Courses will provide a framework of the social, economic, and political environments within which planning policy is formed and carried out. The certificate is geared toward meeting the need for planning policy on urban issues at any level of government — federal, state, regional, and local — or outside the governmental arena. While all students are welcome to apply, this graduate certificate’s course work is only offered at the Lawrence Campus.

Admission to Graduate Studies

An applicant seeking to pursue graduate study in the College may be admitted as either a degree-seeking or non-degree seeking student. Policies and procedures of Graduate Studies govern the process of Graduate admission. These may be found in the Graduate Studies section of the online catalog.

Please consult the Departments & Programs (p. 803) section of the online catalog for information regarding program-specific admissions criteria and requirements. Special admissions requirements pertain to Interdisciplinary Studies degrees, which may be found in the Graduate Studies section of the online catalog.

The School of Public Affairs & Administration (SPAA) accepts students on a rolling admissions basis. Students may apply to be admitted for either the fall, summer or spring semesters. Applicants for the certificate are required to have:

- Undergraduate degree with a GPA of 3.0 (if the undergraduate degree was awarded in the last three years).
- At least three years of managerial experience or be already admitted to any graduate programs of KU or already have a graduate management or leadership degree from an accredited institution.
- Non-native speakers of English must meet the Graduate Studies English proficiency requirements (https://gradapply.ku.edu/english-requirements/).

Current School of Public Administration & Affairs graduate students who wish to earn a graduate certificate credential in any of the SPAA certificates must submit a graduate application for the specific certificate program no later than enrollment in the final course that will count toward the certificate. Public Administration Ph.D. and Master of Urban Planning graduate students may email Cari Ann Kreienhop (https://kupa.ku.edu/cari-ann-kreienhop/) for application and certificate conferral instructions. Current MPA graduate students may refer to the Certificate PowerPoint in the Enrollment & Progress Tracking channel (https://teams.microsoft.com/_/#/school/files/Enrollment%20and%20Progress%20Tracking?threadId=19%3A675db7160ddd4d3aa0744c0c672a743e%40thread.skype&ctx=channel&context=Degree%2520Progress%2520Tracking%26rootfolder%3D%252Fteams%2525FMPAStudents%2525FFShared%2525FDocuments%2525FDegree%252520Progress%2520Tracking) of the MPA Students Microsoft Team for application, tracking, and conferral instructions.

Individuals who are not already enrolled as School of Public Affairs and Administration graduate students must complete an application to Graduate Studies (https://gradapply.ku.edu/apply/) for admission into the certificate program and submit an application fee along with the following materials:

- A current resume.
- A statement of interest in the graduate certificate program. This 1-2 page narrative should summarize your education, employment history, career goals, and how this certificate will bolster your professional aspirations.
- Official transcripts of baccalaureate degree/s and any post-baccalaureate course work.

The admissions committee may request additional materials if needed to assess an applicant’s ability to be successful in the coursework.

The certificate requires 4 courses for a total of 12 graduate credit hours. Other courses may be substituted with the approval of the MPA Faculty Director in consultation with the Urban Planning Director. Student pursuing more than one SPAA certificate may use a maximum of one course to count towards both certificates.

Health Informatics Post-Graduate Certificate (p. 2160)
Health Professions Educator Post-Baccalaureate Certificate (https://catalog.ku.edu/nursing/certificates/healthprofessionseducator/)

Nursing (Graduate) Courses

**IPHI 820. Program, Project, and Communication Planning. 2 Hours.** Strategies to promote program, project, and communication planning are presented and applied by the student. Communication strategies for informing, guiding, and persuading clients, health care providers, payers, and other stakeholders to advance program and project development are discussed. The use of evolving information technologies to improve program, project and communication planning is emphasized. Prerequisite: Corequisite: NRSG 880, or consent of instructor. LEC.

**IPHI 850. Introduction to Health Informatics. 2 Hours.**
This course provides a broad survey of health informatics focused on five themes: health informatics foundations; clinical decision support; human factors/organization factors; public health informatics and current issues in health informatics including best practices. LEC.

**IPHI 851. Transforming Health Care through Use of Information Systems and Technology. 3 Hours.**
Includes 2 credit hour lecture and 1 credit hour practicum. The application of the information system development life cycle in the design, selection, and implementation of health information technology applications will be examined. Human computer interactions and emerging technologies will be explored for their impact on patient care and safety. The role of legal, regulatory, ethical and security issues will be discussed as they apply to clinical and consumer information technologies. Prerequisite: Consent of Instructor. LEC.

**IPHI 852. Health Data: Theory and Practice. 3-4 Hours.**
Includes 2 credit hour lecture and 1-2 credit hour practicum. Principles of database theory, modeling, design and manipulation will be introduced. Students will have experience using a relational database management system. Database manipulation will be explored using structured query language (SQL) to compose and execute query statements and critically evaluate the results. Prerequisite: None. LEC.

**IPHI 853. Abstraction and Modeling of Healthcare Information. 3 Hours.**
Includes 2 credit hour lecture and 1 credit hour practicum. The information system development life cycle process is presented with emphasis on determination and analysis of information system requirements and system design that meet the identified health care information requirements. Object-oriented techniques will be introduced, including Unified Modeling Language and Unified Modeling Methodology, to facilitate process analysis and design proposal development. Prerequisite: NRSG 820 and consent of instructor. LEC.

**IPHI 854. Knowledge Management in Healthcare. 3 Hours.**
Includes 2 credit hour lecture and 1 credit hour practicum. Knowledge management is the creation, communication, and leveraging of a healthcare organization’s knowledge assets. Defining knowledge, describing the knowledge creation cycle, and the identification of the knowledge worker and his/her impact on the organization are discussed. Information technology and communities of practice are presented in a balanced approach supporting a systematic viewpoint of the knowledge management process. Knowledge management theory is enhanced with the performance of a knowledge audit and the development of knowledge management tools. (Same as NRSG 854.) Prerequisite: NRSG 820 and consent of instructor. LEC.

**IPHI 856. Health Informatics Practicum. 1-3 Hours.**
In collaboration with healthcare information faculty, preceptors, students design an experience to facilitate application of theories and research related to health care informatics. Emphasis is on the application of the information system development life cycle. Students analyze the leadership and technical behaviors of various informatics roles and negotiate an informatics project to be completed within the practicum. Prerequisite: All Specialty Core, Leadership Core, IPHI 853, Abstraction and Modeling of Health Care Information, IPHI 852, Health Data: Theory Practice. Prerequisite or Co-requisite: IPHI 854, Knowledge Management in Healthcare, IPHI 851, Topics in Health Care Informatics, IPHI 860, Research Project in Nursing, or consent of instructor. LEC LEC.

**IPHI 858. Health Informatics Practicum: Pharmacy. 4 Hours.**
In collaboration with health informatics faculty and preceptors, students design an experience to facilitate application of theories and research related to health informatics in a pharmacy setting. Emphasis is on the application of the information system development life cycle. Students analyze the leadership and technical behaviors of various informatics roles and negotiate an informatics project to be completed within the practicum. This course is only open to students enrolled in the dual PharmD and MS in Health Informatics degree. Prerequisite: All leadership core courses, IPHI 852, IPHI 853. Prerequisite or Co-requisite: IPHI 851, IPHI 854, IPHI 860, or consent of instructor. PRA.

**IPHI 860. Research Project. 2 Hours.**
Students will conduct a health informatics research project. A research report, designed artifact, or other appropriate deliverable will be developed. Prerequisite: A research course and two informatics core courses, or consent of instructor. The research project must meet research guidelines for the MS Informatics program. LEC.

**IPHI 957. Health Informatics, Human Factors, and Ergonomics as Applied to Patient Safety. 3 Hours.**
Includes 2 credit hour lecture and 1 credit hour practicum. The use of information systems including medical devices is paramount in achieving patient safety. Students will attain an inclusive understanding of how human factors and ergonomic principles can be used to improve patient safety in the design, implementation, and evaluation of information systems and medical devices. Additionally, health care professionals will acquire skills to appropriately apply error reduction strategies developed in high reliability organizations. Prerequisite: Consent of instructor. LEC.

**IPHI 958. Knowledge Representation and Interoperability. 3 Hours.**
Includes 2 credit hour lecture and 1 credit hour practicum. The need to exchange clinical information consistently between health care providers, care settings, researchers and other requires syntactic and semantic interoperability. Requirements and approaches to meet interoperability will be explored. Standards for messaging, terminology, and knowledge representation will be investigated. Prerequisite: Consent of instructor. LEC.
Graduate Studies Medical Ctr Courses

GSMC 50. Science Special Studies. 0 Hours.
The aim of this course is to teach the methodologies and skills required for conducting biomedical science research, or practice in a clinical setting. The learning experience will be tailored to individual needs with personalized instruction for the opportunity to learn new skills and competencies, or exposure to new research developments or clinical practice. Progress of the student will be monitored through weekly laboratory meetings with members of the research lab or weekly contact with the student and/or clinical instructor in the clinical setting. The students will self-assess their progress and receive constructive feedback from appropriate individuals in the lab or clinical setting. Prerequisite: Permission of instructor in the Office of International Programs. LBN.

GSMC 99. Postdoctoral Studies. 0 Hours.
Postdoctoral Studies RSH.

GSMC 501. Foundations of Interprofessional Collaboration I: Introduction to Interprofessional Collaboration. 0 Hours.
This course will introduce interprofessional students to the basic concepts of interprofessional collaboration including values and ethics, roles and responsibilities of healthcare team members, and interprofessional communication tools using the evidence-based national curriculum of TeamSTEPPS. SEM.

GSMC 502. Foundations of Interprofessional Collaboration II: Application Interprofessional Collaboration. 0 Hours.
This course will provide interprofessional students' opportunities to apply key knowledge and skills gained in FIPC I, through role-plays and case-based learning. Students will apply their knowledge of roles and responsibilities of healthcare team members and interprofessional communication tools and continue learning with, from, and about students from other professions. SEM.

GSMC 503. Foundations of Interprofessional Collaboration III: Demonstration Interprofessional Collaboration. 0 Hours.
This course will provide interprofessional students' opportunities to demonstrate key knowledge and skills gained in FIPC I and II, through simulation. Students will demonstrate their interprofessional communication skills, including specific opportunities to utilize TeamSTEPPS tools. Students will also demonstrate their teamwork abilities by working with interprofessional students during the simulation. SEM.

GSMC 803. Introduction to Clinical Research. 1 Hour.
Course will provide a comprehensive overview to clinical research. The student will gain an understanding of how to develop clinical research questions including protocol design and the factors that should be considered in initiating a clinical research study. This will include biostatistical considerations, the recruitment of study participants, regulatory issues, and data management, and defining measures and instruments. Students will gain knowledge of how to define clinical research among the various institutional entities involved with clinical research at the University of Kansas Medical Center such as the Research Institute (RI), General Clinical Research Center (GCRC) and the Human Subjects Committee (HSC). Additionally, one component of the course will focus on how to apply for funding (grantsmanship), critical appraisal of research studies, and how to present research data. Prerequisite: Consent of Instructor. LEC.

GSMC 840. CLINICAL OBSERVATION IN HEALTH CARE FOR BIOENGINEERS. 3 Hours.
This course requires a 6 hour time commitment each week over the semester. During each weekly session the student will observe various medical practitioners in specific health care environments. The course gives the bioengineer an opportunity to see the inside of medical practice and exposes students to medical questions and challenges that could provide opportunities for engineers to contribute to the improvement of medical practice. Each student must select a concentration for this course from a health care specialty depending on availability. Some specialty options might include: Orthopedic, Radiology, Cardiology, Physical Therapy, etc. Grading will be pass/fail based on participation and journal keeping. Prerequisite: Graduate engineering standing, Consent of instructor. LEC.

GSMC 850. Proteins and Metabolism. 2 Hours.
This course is the first of four lecture units in the first year curriculum of the Interdisciplinary Graduate Program in the Biomedical Sciences. It will cover basic principles of metabolism, protein structure and an introduction to nucleic acids. Prerequisite: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 852 (Introduction to Biomedical Research). LEC.

GSMC 851. Molecular Genetics. 2 Hours.
This course is the second of four lecture units in the first year curriculum of the Interdisciplinary Graduate Program in the Biomedical Sciences. It will cover basic principles of molecular genetics, DNA replication, DNA repair, transcription and translation. Prerequisite: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 852 (Introduction to Biomedical Research). LEC.

GSMC 852. Introduction to Biomedical Research I. 2 Hours.
This is the first semester of a one year series in the Interdisciplinary Graduate Program in the Biomedical Sciences. The course is composed of weekly meetings to discuss research problems, methods and current literature. The course will interface with the lectures and students will learn to critically evaluate our scientific knowledge base. The students will be introduced to the tools that are available to obtain and evaluate information. The students will be challenged to identify areas of our scientific knowledge that require further experimentation and clarification. Prerequisite: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 850 (Proteins and Metabolism) and GSMC 851 (Molecular Genetics). LEC.

GSMC 853. Cellular Structure. 2 Hours.
This course is the third of four lecture units in the first year curriculum of the Interdisciplinary Graduate Program in the Biomedical Sciences. It will cover basic principles of cellular structure and function. Topics include the lipid bilayer, membrane proteins, and cellular organelles. Prerequisite: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 852 (Introduction to Biomedical Research). LEC.

GSMC 854. Cell Communication. 2 Hours.
This course is the fourth of four lecture units in the first year curriculum of the Interdisciplinary Graduate Program in the Biomedical Sciences. It will cover basic principles of cell communication. Topics include G-protein-coupled signaling, cellular cytoskeleton; cell cycle control; cell death; extracellular matrix; and cancer. Prerequisite: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 855 (Introduction to Biomedical Research). LEC.

GSMC 855. Introduction to Biomedical Research II. 2 Hours.
This is the second semester of a one year series in the Interdisciplinary Graduate Program in the Biomedical Sciences. The course is composed of weekly meetings to discuss research problems, methods and current literature. The course will interface with the lectures and students will
learn to critically evaluate our scientific knowledge base. The students will be introduced to the tools that are available to obtain and evaluate information. The students will be challenged to identify areas of our scientific knowledge that require further experimentation and clarification. Prerequisite: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. Students must co-enroll in GSMC 853 (Cellular Structure) and GSMC 854 (Cell Communication). LEC.

GSMC 856. Introduction to Research Ethics. 1 Hour.
The objective of this course is to introduce students to research ethics. Students will learn and discuss some of the following areas of ethics in research: 1) sources of errors in science, 2) Scientific Fraud, 3) plagiarism and misrepresentation, 4) conflicts of interest, and 5) confidentiality. Prerequisite: Permission of instructor. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. LEC.

GSMC 857. Biographics. 1 Hour.
The objective of the course is to teach students how to organize and present data in a clear and concise manner at national meetings. Students are taught basic principles of organizing data for presentation and then learn through the actual presentation of data in simulated platform sessions held in the course. Videotapes are made of the presentations, and students are then given a constructive critique of their presentation by the instructor and fellow students. Prerequisite: Permission of instructors. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. LEC.

GSMC 858. Introduction to Faculty Research. 1 Hour.
This course was created to provide students with sufficient introduction to the research conducted at KUMC. To facilitate this point, the course is designed as a seminar series. In each session of the series, three faculty members present a brief 20-minute overview of their research programs. The series will help students to select faculty for research rotations and ultimately help them determine which faculty member they will select as a research adviser for their doctoral research. Prerequisite: Permission of instructors. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. LEC.

GSMC 859. Research Rotations. 1-4 Hours.
The course will introduce students to research methods, experimental design, and the types of biomedical research conducted at KUMC. The first research rotation begins halfway through the first semester; the second and third research rotations will occur in the second semester. It is designed to help students determine which faculty member they will select as a research adviser for their doctoral research. Prerequisite: Permission of instructors. Students must be admitted into the Interdisciplinary Graduate Program in the Biomedical Sciences. LEC.

GSMC 860. Introduction to Molecular Medicine. 1 Hour.
Introduction to Molecular Medicine (1 credit hour/semester) is a two semester course, taught every fall and spring semester, primarily for first year MD-PhD students. This course is taught by the Director of the MD-PhD Program, with contributions from other faculty from the basic science and clinical departments. Through lectures, small group discussion, evaluation of primary literature, analysis of scientific data and presentations/discussions with current KUMC faculty, students will be introduced to the process of investigating the molecular and cellular derangements that underlie human disease. Order of topics mirror, to some extent, the subjects of the first-year modules. There will be particular emphasis on the diverse research methods and models systems used to investigate the molecular basis of disease and understanding how such investigations can be translated to answer clinically relevant questions. Students are evaluated by both group activity and individual preparation and participation. Prerequisite: Enrollment in the MD-PhD Program or Permission of Instructor. LEC.

GSMC 987. Experiential Learning in the Biomedical Sciences. 1-6 Hours.
Four to 16 weeks of experiential learning in a relevant biomedical setting outside of KUMC. Students must identify an outside learning experience and prepare a detailed outline of their activities. The outline must be approved by the instructor prior to enrollment. The goal of the class is to enable students to enhance their research opportunities by expanding their experiences. Examples of outside opportunities are: industry; clinical facilities; non-profit foundations; government programs (NIH, CDC, KBOR, KDHE). Prerequisite: Permission of Instructor, Mentor and Program. RSH.

Master of Science in Health Informatics

Professionals in applied Health Informatics have skills in analysis, design, implementation, and evaluation of information systems that support a full range of clinical and patient care functions. Graduates will be prepared for entry and mid-level positions with hospital or clinic informatics departments, electronic health record (EHR) vendors, public health organizations, and as consultants and/or staff in organizations that specialize in knowledge management. Graduates also have the skills to enter the growing field of health information exchange, which includes regional health information organizations and the emerging personal health records. In addition to a foundation in applied health informatics, special skills will be acquired in organizational change, project management and impact evaluation.

This is an interprofessional program administered by the Center for Health Informatics (http://www.kumc.edu/health-informatics.html), which is sponsored by the School of Nursing. The master’s degree is conferred by Medical Center Interdisciplinary Programs. The program is designed for health professionals who want a specialty focus in applied health informatics.

The application process is an online process. Detailed instructions on how to apply and the application deadlines are posted on the Master of Science in Health Informatics (http://nursing.kumc.edu/academics/master-in-health-informatics.html) website.

Admission requirements:

- A bachelor’s degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least a 3.0 on a 4.0 scale.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%2016-Oct.pdf).
- A current resume or curriculum vitae.
- A personal essay outlining the applicant’s reasons for wanting to pursue graduate education in health informatics, career
objectives, and any other information that would help the admissions committee get to know the applicant.

- Three letters of recommendation preferably from employers, instructors, or other persons who can assess the applicant’s academic and professional potential. Letters are submitted per instructions provided for the online application process.
- A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%2016-Oct.pdf) is required during the admission process; it may affect the student’s eligibility to enter the program.
- A graduate level statistics course (may be completed prior to admission or during the first semester of enrollment.)

After an applicant has been admitted, a program may defer an applicant’s admission for one year after which time the applicant must submit a new application.

**International Students**

Due to the number of required online courses for this degree, the Health Informatics Program at KUMC does not meet the U.S. student visa requirements at this time. Therefore, we are unable to accept individuals who are on student visas. If you received your university visa requirements at this time. Therefore, we are unable to accept International Students. Please contact HealthInformatics@kumc.edu for additional application requirements.

Admission requirements are subject to change. In most cases, use the catalog (http://catalog.ku.edu/archives/) of the year student entered the program.

The Master’s in Health Informatics curriculum is divided into three cores: informatics, leadership, and research along with a discipline-specific emphasis track. The student and advisor will work closely together to develop a plan of study that meets the career goals of the student.

**Degree requirements:**

- Degree requirements can be completed within 2 years of admission to the program although a maximum of 7 years is allowed. Part-time students normally complete requirements within 4 years of admission to the program.
- Completion of a minimum of 40 credit hours.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.
- Successful completion of a general examination (http://www.kumc.edu/Documents/graduate%20studies/Masters%20Exam-Defense%2016-Oct.pdf) the semester the student will graduate.
- Enrollment in a minimum of one (1) credit hour the semester the student will graduate.
- Degree requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog (http://catalog.ku.edu/archives/) of the year student entered the program.
- Successful completion of the Health Informatics Core (minimum 17 credit hours.) These courses provide the core knowledge and skills essential to the practice of health informatics.

Total Hours 40

Dual Degree: Doctor of Pharmacy & Master of Science in Health Informatics

The dual PharmD/MS in health informatics (MSHI) degree program is designed particularly for those students intending to pursue opportunities in pharmacy informatics. The dual PharmD/MSHI students will concurrently enroll in both programs during years 2-4 of the PharmD program. During the last semester, the HI practicum will satisfy 1 of 9 required advanced pharmacy practice experiences (APPEs). A Health Informatics comprehensive oral examination occurs during the last semester of enrollment in the Dual Degree (P4 Year, Spring semester). Admission to this program is restricted to students currently in the PharmD program at KU.

TECHNICAL STANDARDS FOR ADMISSION

University of Kansas School of Nursing

The Master of Science in Health Informatics degree and Graduate Certificate signify that the holder is prepared for entry into the practice of applied health informatics. Therefore, it follows that graduates must have the knowledge and skills necessary to function in a broad range of situations. The following abilities and expectations must be met by all students with or without accommodations admitted to the program.

1. Observation: Students must be able to observe: lectures, demonstrations, online written and recorded audio/visual material, online meetings, and research and practice situations. Observation necessitates the functional use of the senses of vision and hearing.

2. Communication: Applicants also must be able to communicate effectively and efficiently in English with other students, faculty, staff and mentors/preceptors. Communication includes not only speech, but also listening, reading, and writing. Effective communication includes the ability to comprehend conversation, presentations,
assigned readings, and the ability to present information verbally and in writing.

3. **Motor:** A student must have sufficient motor function to attend classes, prepare assignments, use a computer keyboard, and make public presentations if required. Course requirements will also include field work in a variety of health organizations.

4. **Intellectual, conceptual, integrative, quantitative, and problem-solving abilities:** An applicant must be able to understand and learn factual information from readings and didactic presentations, gather information independently, analyze and synthesize learned material, and apply that information. In addition, an applicant must possess the ability to understand and work with measurements, carry out calculations and engage in reasoning, analysis and synthesis based on the calculations. An applicant must be able to draw on all these abilities to be an effective problem solver.

5. **Behavioral and social attributes:** Integrity, reliability, self-direction, motivation, and the ability to work with diverse groups are qualities necessary for effective preparation for and practice in this field. A student must have the emotional health required for the full use of his or her intellectual ability, exercise of sound judgment, and timely completion of all responsibilities attendant to the completion of academic responsibilities.

NOTE: Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose that they have a disability are considered for the program if they are otherwise qualified. Qualified students with a disability who wish to request accommodations should provide the appropriate documentation of disability and submit a request for accommodation to the University’s Office for Academic Accommodations.

**Health Informatics Certificate**

Emerging technologies are fundamentally changing the way we manage and apply knowledge. In addition, healthcare organizations must meet the challenges of the HITECH Act and HIPAA, as well as regulatory influences. As a result, the need for trained healthcare informaticians has increased dramatically over the last few years. In order to appropriately select and use technology to improve healthcare and to meet the requirements of regulating bodies, health informatics professionals need training in the use of informatics concepts and methodologies.

The Health Informatics Certificate program meets this need by preparing students to:

1. Apply health informatics using theoretical, conceptual, and experiential knowledge base
2. Articulate a vision of health informatics in an organization in the context of interprofessional practice and complex healthcare delivery systems
3. Implement and evaluate information systems that support multi-professional clinical/administrative practice
4. Facilitate the delivery of evidence-based practice at point of care
5. Sit for national Nursing, MD or graduate level certification exams, such as nursing or MD, as appropriate

The advantage of this certificate program is that it offers an interprofessional learning experience and is open to graduates in all fields. This is an interprofessional program administered by the Center for Health Informatics (http://www.kumc.edu/health-informatics.html), which is sponsored by the School of Nursing.

Approved as a Stackable Program: To encourage career and academic progression, students who have completed the Health Informatics Certificate may apply the courses towards the degree requirements for the Master of Science in Health Informatics.

The application process for the Health Informatics Certificate program is an online process. Detailed instructions on how to apply are posted on the Center for Health Informatics (https://www.kumc.edu/health-informatics.html) website. Students are admitted for the fall and spring semesters only. Applications for the fall semester must be received by April 1st and by September 1st for the spring semester.

**Admission Requirements:**

- A bachelor’s or master’s degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended are required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale.
- Applicants, who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (https://www.kumc.edu/office-of-international-programs/inbound-programs/academic-english-requirements.html).
- A background check (https://www.kumc.edu/health-informatics/ms-in-health-informatics/prospective-students/background-checks.html) is required during the admission process; it may affect the student’s eligibility to enter the program.
- Three letters of recommendation from individuals who can assess your academic and professional background and potential for success in a graduate-level certificate program.
- A personal statement regarding applicant’s career objectives and purpose.
- A current resume or curriculum vitae.
- A satisfactory phone or in-person interview.

Applicants will be assessed on the above criteria and selected applicants will in the judgment of the admissions committee, demonstrate the academic achievement, maturity, integrity, and motivation necessary for successful advancement. In addition, the committee looks for applicants who will contribute academic, nonacademic, and socioeconomic diversity to the class. The committee is interested in evidence of capacity for mature and independent scholarship.

After an applicant has been admitted, the program may defer an applicant’s admission for one year after which time the applicant must submit a new application. Admission requirements are subject to change. In most cases, use the catalog (http://catalog.ku.edu/archives/) of the year student entered the program.
Certificate Program Information: (p. 2585)

Certificates are not granted retroactively. An individual who is not currently a degree-seeking graduate student at KU must apply and may be admitted directly to a certificate program.

The certificate program is not a means of entry into a graduate degree program. If students admitted to a certificate program are later admitted to a graduate degree program as degree-seeking, applicable courses taken for the graduate certificate program may, upon recommendation of the department and within general guidelines, be approved by the Office of Graduate Studies to be counted toward the degree.

While the courses comprising a certificate may be used as evidence in support of a student’s application for admission to a graduate degree program, the certificate itself is not considered to be a prerequisite and does not guarantee admission into any graduate degree program. The certificate program is not intended to serve as a default system for students in a degree program who find that they are not able to complete the degree for academic or other reasons. Should a student drop out of a degree program and seek admission to a certificate program, all certificate admission requirements must be followed for admission and conferral.

While the courses comprising a certificate may be used as evidence in support of a student’s application for admission to a graduate degree program, the certificate itself is not considered to be a prerequisite and does not guarantee admission into any graduate degree program. The certificate program is not intended to serve as a default system for students in a degree program who find that they are not able to complete the degree for academic or other reasons. Should a student drop out of a degree program and seek admission to a certificate program, all certificate admission requirements must be followed for admission and conferral.

Graduate credit from another institution may not be transferred to a certificate program.

The graduate certificate program focuses on the theory and application of informatics, computer technology, knowledge management, and evidence-based practice that supports healthcare informatics and clinical decision-making. The program culminates with a mentored practicum experience and project.

Health Informatics Certificate

Certificate requirements:

• Certificate requirements are normally completed within one (1) year of admission to the program although a maximum of four years is allowed.

• Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate certificate coursework.

• Enrolment in a minimum of one (1) credit hour the semester the program is completed. Graduate certificates may not be granted retroactively.

• Successful completion of a minimum of 19 credit hours.

• Successful completion of the following courses:

<table>
<thead>
<tr>
<th>Code</th>

Graduate credit from another institution may not be transferred to a graduate certificate program.

Certificate requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog (http://catalog.ku.edu/archives/) of the year student entered the program.

Healthcare Informatics Certificate

Effective Fall 2019, the Healthcare Informatics Certificate will no longer be accepting applications. Please apply to the Health Informatics Certificate program listed above.

Certificate requirements:

• Certificate requirements are normally completed within two to three years of admission to the program although a maximum of four years is allowed

• Cumulative grade-point average (GPA) of at least a 3.0 for all graduate certificate coursework

• Enrolment in a minimum of one credit hour the semester program is completed

• Graduate certificates may not be granted retroactively

• Successful completion of the following online courses:

Typical Plan of Study

The Health Informatics Certificate program consists of 19 credit hours. The 3-credit hour practicum (IPHI 856) requires a total of 200 clock hours and may be taken only after the majority of coursework is complete. This practicum may be taken over 1-3 consecutive semesters and must include the last semester in the program.

**TECHNICAL STANDARDS FOR ADMISSION**

University of Kansas School of Nursing

The Master of Science in Health Informatics degree and the graduate Health Informatics Certificate signify that the holder is prepared for entry into the practice of applied health informatics. Therefore, it follows that graduates must have the knowledge and skills necessary to function in a broad range of situations. The following abilities and expectations must be met by all students with or without accommodations admitted to the program.

1. **Observation:** Students must be able to observe lectures, demonstrations, online written and recorded audio/visual material, online meetings, and research and practice situations. Observation necessitates the functional use of the senses of vision and hearing.

2. **Communication:** Applicants also must be able to communicate effectively and efficiently in English with other students, faculty, staff and mentors/preceptors. Communication includes not only speech, but also listening, reading, and writing. Effective communication includes the ability to comprehend conversation, presentations, assigned readings, and the ability to present information verbally and in writing.

3. **Motor:** A student must have sufficient motor function to attend classes, prepare assignments, use a computer keyboard, and make public presentations if required. Course requirements will also include field work in a variety of health organizations.

4. **Intellectual, conceptual, integrative, quantitative, and problem-solving abilities:** An applicant must be able to understand and learn factual information from readings and didactic presentations, gather information independently, analyze and synthesize learned material, and apply that information. In addition, an applicant must possess the ability to understand and work with measurements, carry out calculations and engage in reasoning, analysis and synthesis based on the calculations. An applicant must be able to draw on all these abilities to be an effective problem solver.

5. **Behavioral and social attributes:** Integrity, reliability, self-direction, motivation, and the ability to work with diverse groups are qualities necessary for effective preparation for and practice in this field. A student must have the emotional health required for the full use of his or her intellectual ability, exercise of sound judgment, and timely completion of all responsibilities attendant to the completion of academic responsibilities.

NOTE: Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose that they have a disability are considered for the program if they are otherwise qualified. Qualified students with a disability who wish to request accommodations should provide the appropriate documentation of disability and submit a request for accommodation to the University’s Office for Academic Accommodations.
**Medicine (M.D. & Graduate Degrees)**

Founded in 1905, the KU School of Medicine is proud of its rich legacy as Kansas’ only medical school. Our mission is to enhance the quality of life and serve our community through the discovery of knowledge, the education of health professionals and by improving the health of the public.

The School of Medicine integrates excellent education, scientific discovery, outstanding clinical programs and dedication to community service. In addition to its commitment to educating the physician workforce of tomorrow, the school is an emerging leader in biomedical research and the health of the public. Graduate programs are offered in the biomedical sciences, biostatistics, public health, health policy and management, and clinical research.

Admission and degree requirements vary by program and are listed in the individual program descriptions. Requirements and course descriptions are subject to change. In most cases, use the catalog of the year student entered program. Other years’ catalogs (http://catalog.ku.edu/archives/)

- **Doctor of Medicine** (p. 2271)
- **M.D.-Ph.D. Combined Degrees** (p. 2163)
- **Anatomy and Cell Biology** (p. 2164)
- **Biochemistry and Molecular Biology** (p. 2170)
- **Biostatistics** (p. 2175)
- **Cancer Biology** (p. 2196)
- **Health Informatics** (p. 2155)
- **History and Philosophy of Medicine** (p. 2204)

Interdisciplinary Graduate Program in Biomedical Sciences (p. 2258)
Microbiology, Molecular Genetics, and Immunology (p. 2204)
Molecular and Integrative Physiology (p. 2211)
Neurosciences Program (p. 2262)
Pathology and Laboratory Medicine (p. 2217)
Pharmacology, Toxicology, and Therapeutics (p. 2224)

Master of Science in Biotechnology (p. 2272)
Master of Science in Cell Biology and Anatomy (p. 2165)
Master of Science in Biochemistry and Molecular Biology (p. 2170)
Master of Science in Biostatistics (p. 2181)
Master of Science in Bioinformatics (p. 2183)
Doctor of Philosophy in Biostatistics (p. 2186)
Doctor of Philosophy in Clinical Research (p. 2231)
Doctor of Philosophy in Toxicology (p. 2239)
Doctor of Philosophy in Toxicology (p. 2255)

**Masters and Ph.D. Programs**

Founded in 1905, the KU School of Medicine is proud of its rich legacy as Kansas’ only medical school. Our mission is to enhance the quality of life and serve our community through the discovery of knowledge, the education of health professionals and by improving the health of the public.

The School of Medicine integrates excellent education, scientific discovery, outstanding clinical programs and dedication to community service. In addition to its commitment to educating the physician workforce of tomorrow, the school is an emerging leader in biomedical research and the health of the public. Graduate programs are offered in the biomedical sciences, biostatistics, public health, health policy and management, and clinical research.

Admission and degree requirements vary by program and are listed in the individual program descriptions. Requirements and course descriptions are subject to change. In most cases, use the catalog of the year student entered program. Other years’ catalogs (http://catalog.ku.edu/archives/)

Click on the list of programs (p. 2163) link for a list of the programs offered.
Department of Anatomy and Cell Biology

The Anatomy and Cell Biology Graduate Program is designed to prepare the student for a career in independent research and/or teaching with concentrations in the following areas:

- Cell Biology
- Developmental Biology
- Neuroscience
- Renal Biology
- Reproductive Biology

The graduate program emphasizes acquiring the skills and knowledge required to perform and communicate the results of laboratory research. Individual research programs within the Department of Anatomy and Cell Biology are largely complementary and focus on understanding the biological processes that contribute to human health and disease. Experimental systems include the use of cell and tissue culture, as well as model systems such as *Drosophila melanogaster*, chameleon, frog, chick, zebrafish, rats, and transgenic mice.

In 2019, the Department of Anatomy and Cell Biology brought in $8.7 million in grant funding from the National Institutes of Health, placing it at the top of all basic science departments within KUMC and 22nd (out of 79) among all Anatomy and Cell Biology departments in the country. Faculty members and trainees also received funding from the National Science Foundation, American Heart Association, the Cystic Fibrosis Foundation, and various other agencies. Graduates of this program have obtained positions in industry, government, and consulting, as well as faculty positions at the college, university, and medical/graduate school level.

Courses

ANAT 832. Electron Microscopy Techniques. 3 Hours.
Basic methods in preparation of tissues and cells for ultrastructural studies; use of electron microscopy in specific research problems; interpretation of biological ultrastructure; reading assignments and discussion sessions. Prerequisite: ANAT 830, or consent of course instructor. LEC.

ANAT 845. Graduate Histology. 3 Hours.
This course will bridge student knowledge of systems/organs with cellular histology and is designed as an accelerated introduction to histological techniques, microcopy/optics, and histology of normal and diseased tissues. Classes meet once a week and the format includes a 1 hour lecture on individual tissues within related organ systems followed by 1 hour of microscopic observation. (Same as NEUS 845.) Prerequisite: Completion of the IGPBS core curriculum or consent of instructor. LEC.

ANAT 846. Advanced Neuroscience. 5 Hours.
Team-taught, in-depth neuroscience course focusing on normal and diseased brain function at the molecular, cellular and systems levels. Lectures and discussions will emphasize current issues in neuroscience research. (Same as PHCL 846, PHSL 846, NURO 846, and NEUS 846.) Prerequisite: Permission of the course director. LEC.

ANAT 847. Developmental Neurobiology. 2 Hours.
Development of the nervous system from early induction to the development of learning and memory. Topics include: induction; cellular differentiation; axon growth and guidance; target selection; cell survival and growth; synapse formation; synapse elimination; and development of behavior. (Same as NURO 847, PHSL 847 and NEUS 847.) Prerequisite: Advanced Neuroscience (ANAT 846; NURO 846; PHSL 846) or consent of instructor. LEC.

ANAT 848. Molecular Mechanisms of Neurological Disorders. 3 Hours.
An in-depth coverage of pathogenic mechanisms in neurological diseases; cellular and molecular responses to brain injury and disease, neuroinflammatory diseases (e.g., multiple sclerosis), neurodegenerative diseases (e.g., Alzheimer's, Parkinson's, Huntington's, amyotrophic lateral sclerosis, and prion diseases), neurogenetic diseases (e.g., lysosomal and peroxisomal disorders, Down's syndrome and fragile X), trauma, stroke, and viral diseases (e.g., HIV encephalitis). (Same as NURO 848, PHCL 848, PHSL 848, and NEUS 848.) Prerequisite: Advanced Neuroscience (ANAT 846, PHCL 846 or PHSL 846) or an equivalent course and consent of instructor. LEC.

ANAT 849. Advanced Cell Biology. 2 Hours.
This course focuses on modern trends in cell biology and their role in disease processes. Topics include cellular organelles, cell diversity, and cellular processes. Each two hour class will consist of a one hour lecture followed by a journal club discussion of the previous week's topic.

ANAT 868. Advanced Developmental Biology. 2 Hours.
This is an advanced graduate course which is designed for 2nd year graduate students who have some previous exposure to embryology / developmental biology at the undergraduate or graduate level. The class will focus on aspects of development that are currently at the leading edge of the field and will include a combination of lectures, discussion of late breaking papers, and seminars by outside speakers. Prerequisite: IG PBS Core Curriculum or consent of instructor. LEC.

ANAT 869. Grant Writing. 3 Hours.
All aspects of preparing grant applications are covered. This includes writing an actual grant application containing all the usual elements of grants - budgets, biosketches, resources, and scientific text. In addition, different funding agencies, building research teams, the review process, responding to reviewers, and resubmitting grants will be covered. (Same as HPM 878 and NRSG 889.) Prerequisite: Appropriate research methods and statistics courses in student's current graduate program; and permission of the instructor. For students in the Outcomes Management and Research concentration, HPM 821. LEC.

ANAT 873. Research Methods and Advanced Technologies in Biomedical Research. 1 Hour.
This course will introduce students to novel research techniques and their application across a variety of disciplines. The class will meet weekly and consist of monthly faculty lectures on current or developing techniques and student-led presentations and discussions occurring during non-lecture classes. Prerequisite: Completion of the IGPBS core curriculum or consent of instructor. LEC.

ANAT 880. Advanced Topics: 1-5 Hours.
Special study allowing a student to pursue a particular subject through readings, laboratory work, and conferences with a faculty member. Prerequisite: Consent of instructor. IND.
ANAT 885. Seminar. 1 Hour.
Research-oriented presentations in a seminar format by students, faculty, and guests. LEC.

ANAT 890. Graduate Research. 1-10 Hours.
Independent laboratory investigation approved by and under the supervision of the student's advisor, and in partial fulfillment of the requirements for the M.S. or Ph.D. degree. Prerequisite: Consent of advisor. RSH.

ANAT 899. Master's Thesis. 1-6 Hours.
Preparation of the formal thesis based upon independent research and in partial fulfillment of the requirements for the M.S. degree. Credits will be given only after the thesis has been accepted by the department. Prerequisite: Consent of advisor. THE.

ANAT 900. Analysis of Scientific Papers. 1 Hour.
Research articles are analyzed and presented by the student with the guidance of an instructor. Assessment will be based on the quality and mechanics of the presentation and participation in group discussion. One or more articles may be discussed in each tutorial session. The research topics are chosen in accordance with the research interest of the student and at the discretion of the instructor. LEC.

ANAT 990. Doctoral Research. 1-12 Hours.
Original and independent laboratory investigation, approved by and conducted under the supervision of the students' advisor and advisory committee, in partial fulfillment of the requirements for the Ph.D. degree. Prerequisite: Consent of advisor. LEC.

ANAT 999. Doctoral Dissertation. 1-12 Hours.
Preparation of the dissertation based upon original research and in partial fulfillment of the requirements for the Ph.D. degree. Credits will be given only after the dissertation has been accepted by the student's dissertation committee. Prerequisite: Consent of advisor. THE.

Master of Science in Cell Biology and Anatomy

The Master of Science (M.S.) program in Anatomy and Cell Biology prepares the student for a career at the advanced technical level in academia, industry, or government. Graduating students may also find teaching positions at the secondary or junior college level. Incoming students may not directly enroll in the M.S. program; entry will only be granted by the Departmental Director of Graduate Education upon the recommendation of the student's Research Advisory Committee.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (p. 2258) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate Program in Biomedical Sciences website http://www.kumc.edu/igpbs/how-to-apply.html.

Admission requirements:

- Bachelor's degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor's degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%202016-Oct.pdf).
- A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf) is required during the admission process; it may affect the student's eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
- Three letters of recommendation.
- Prerequisite coursework:
  - One year of general chemistry
  - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  - One year of biological sciences
  - One semester of calculus
  - One semester of physics
- Research experience (beyond labs associated with lecture courses) is strongly suggested.
- Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant's admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years' catalogs.

Degree Requirements:

- Degree requirements are normally completed within 3 years of admission to the degree program although a maximum of 7 years is allowed.
- Cumulative grade-point average (GPA) of at least 3.0 for all KU graduate coursework.
- Completion of a minimum of 30 credit hours.
- Enrollment in a minimum of one (1) credit hour the semester the student will graduate.
- Successful completion of either a thesis defense or general examination (http://www.kumc.edu/Documents/graduate%20studies/Masters%20Exam-Defense%202016-Oct.pdf) the semester the student will graduate.
- If thesis option is chosen, then enrollment in a minimum of one (1) credit hour of ANAT 899 Master's Thesis and successful thesis submission and publication (http://www.kumc.edu/Documents/graduate%20studies/Thesis%20Submit%20and%20Pub%202016-Oct.pdf) (according to Office of Graduate Studies policy.)
- Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS) (p. 2258) courses (or their equivalent):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GSMC 850</td>
<td>Proteins and Metabolism</td>
<td>2</td>
</tr>
<tr>
<td>GSMC 851</td>
<td>Molecular Genetics</td>
<td>2</td>
</tr>
<tr>
<td>GSMC 852</td>
<td>Introduction to Biomedical Research I</td>
<td>2</td>
</tr>
</tbody>
</table>
Successful completion of the following Anatomy and Cell Biology courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANAT 845</td>
<td>Graduate Histology</td>
<td>3</td>
</tr>
<tr>
<td>ANAT 885</td>
<td>Seminar</td>
<td>1</td>
</tr>
<tr>
<td>ANAT 890</td>
<td>Graduate Research</td>
<td>1-10</td>
</tr>
<tr>
<td>ANAT 900</td>
<td>Analysis of Scientific Papers</td>
<td>1</td>
</tr>
<tr>
<td>ANAT 899</td>
<td>Master's Thesis (if thesis option chosen)</td>
<td>1-6</td>
</tr>
</tbody>
</table>

Students must be continually enrolled in ANAT 885 Seminar and ANAT 900 Analysis of Scientific Papers each fall and spring semester beginning with fall semester of their second year. These two courses may be waived for one semester after the student has completed all departmental requirements other than the general exam or thesis defense.

Successful completion of optional elective coursework as determined in consultation with the student's advisor.

Degree requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog of the year student entered the program. Other years' catalogs.

A M.S. in Anatomy and Cell Biology signifies that the holder is prepared for entry into a career at the advanced technical level in academia, industry, or government. Therefore, graduates must have the knowledge and skills to function in a broad variety of classroom and/or laboratory situations. In this manner, all students admitted into the Anatomy and Cell Biology M.S. program must meet the following abilities and expectations:

1. **Observation**: The candidate must be able to observe demonstrations and experiences in the basic sciences, including, but not limited to, biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the senses of vision and touch.

2. **Communication**: A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.
3. **Motor:** Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to do laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. **Intellectual-Conceptual, Integrative, and Quantitative Abilities:** These abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. **Behavioral and Social Attributes:** A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment, and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

### Doctor of Philosophy in Cell Biology and Anatomy

The Ph.D. program in Anatomy and Cell Biology prepares the student for a career in independent research and/or teaching. The Ph.D. is typically followed by postdoctoral training in a specific field of study. Graduates of this program have obtained positions in industry, government, and consulting, as well as faculty positions at the college, university, and medical/graduate school level.

Students who obtain a Ph.D. in Anatomy and Cell Biology are required to achieve the following expectations:

- Become knowledgeable in the areas of study included in the IGPBS (Interdisciplinary Graduate Program in the Biomedical Sciences) core curriculum.
- Obtain in-depth and up-to-date expertise in a specialized area of knowledge that is appropriate for the field of your dissertation research project.
- Make original and high quality contributions to the scientific literature in your chosen research field.
- Become familiar with the scientific literature through general and specialized journals in biological research, and to develop the ability to critically evaluate the original research in your own and related fields.
- Become skilled in organizing and communicating information in oral presentations, and to respond to critical questioning.
- Develop clarity, conciseness, and precision in writing, to aid in grant application writing, and publication of your original research results.
- Learn how to ask incisive scientific questions and gain experience in the design, performance, and interpretation of laboratory experiments and observations.
- Gain familiarity with the preparation and writing of grant applications.
- Prepare for the teaching as well as the research aspects of an academic career.
- Obtain instruction in research skills and responsible scholarship.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Program in Biomedical Sciences website [http://www.kumc.edu/igpbs/how-to-apply.html](http://www.kumc.edu/igpbs/how-to-apply.html).

### Admission requirements:

- Bachelor's degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor's degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement [http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%202016-Oct.pdf](http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%202016-Oct.pdf).
- A background check [http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf](http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf) is required during the admission process; it may affect the student's eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
- Three letters of recommendation.
- Prerequisite coursework:
  - One year of general chemistry
  - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  - One year of biological sciences
  - One semester of calculus
  - One semester of physics
- Research experience (beyond labs associated with lecture courses) is strongly suggested.
- Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant's admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years' catalogs are available [here](http://www.kumc.edu/igpbs/how-to-apply.html).

The program consists of coursework, research experience, and the successful completion of a doctoral dissertation. Dissertation research culminates in a final dissertation examination consisting of an oral presentation by the candidate and an examination by the faculty. Relevant prior graduate work is taken into consideration in setting up individual programs of study leading to the Ph.D.

### Degree requirements:

- Degree requirements are normally completed within 5 years of admission to the program although a maximum of 8 years is allowed.
- Cumulative grade-point average (GPA) of at least 3.0 for all KU graduate coursework.
- Successful completion of the University's Research Skills and Responsible Scholarship [http://www.kumc.edu/...](http://www.kumc.edu/...).
Successful completion of the Residence Requirement (http://www.kumc.edu/Documents/graduate%20studies/Residence%20Requirement%20PhD%2016-Oct(0).pdf) prior to the semester the Oral Comprehensive Examination is scheduled.

• Successful completion of GSCM 857 Biographics, GSCM 852 Introduction to Biomedical Research I and GSCM 855 Introduction to Biomedical Research II (or equivalent) meets the Research Skills requirement.

• Successful completion of GSCM 856 Introduction to Research Ethics (or equivalent) meets the Responsible Scholarship requirement.

• Successful completion of the following Anatomy and Cell Biology courses (or their equivalent): ANAT 868 Advanced Developmental Biology 2
  ANAT 869 Grant Writing 3
  ANAT 870 Research Methods and Advanced Technologies in Biomedical Research 1-3
  ANAT 880 Advanced Topics: ______ 1-5

• Successful completion of two hour-long presentations in the regular departmental seminar series (or an equivalent seminar approved by the graduate education director) are to be given in two separate semesters, not including the one in which the student defends.

• Gain teaching experience by assisting in selected courses that are chosen in consultation with the student's advisor and the graduate education director.

Students enrolled in the MD-PhD Physician Scientist Training Program should review the Degree Requirements (p. 2269) section of this catalog for that program.

Degree requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most catalogs, use the catalog of the year student entered the program. Other years' catalogs.

A Ph.D. in Anatomy and Cell Biology signifies that the holder is prepared for entry into a career in independent research and/or teaching. Therefore, graduates must have the knowledge and skills to function in a broad variety of classroom and/or laboratory situations. In this manner, all students admitted into the Anatomy and Cell Biology Ph.D. program must meet the following abilities and expectations:

1. **Observation:** The candidate must be able to observe demonstrations and experiences in the basic sciences, including, but not limited to, biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the senses of vision and touch.

2. **Communication:** A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the senses of vision and touch.

3. **Motor:** Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to do laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. **Intellectual-Conceptual, Integrative, and Quantitative Abilities:** These abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. **Behavioral and Social Attributes:** A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment, and the prompt completion
of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Department of Biochemistry and Molecular Biology

The mission of the Department of Biochemistry and Molecular Biology is to provide:

- a dynamic research environment with programs in the disciplines of biochemistry and molecular biology.
- a superior educational experience for graduate students and medical students.
- a rich training environment for postdoctoral fellows.
- service to our institution and community.

Our areas of research strength include:

- Regulation of gene expression, emphasizing but not limited to transcription regulation.
- Protein folding and structure determination.
- Allosteric regulation of protein function.
- Signal transduction.

Our faculty members are associated with a variety of cross-disciplinary centers within the university, including The Kidney Institute (http://www.kumc.edu/school-of-medicine/kidney-institute.html), the COBRE for Protein Structure and Function (http://psf.cobre.ku.edu/), the COBRE for Novel Approaches for Control of Microbial Pathogens (http://www.kumc.edu/school-of-medicine/microbiology-molecular-genetics-and-immunology/cobre.html), the COBRE for Molecular Regulation of Cell Development and Differentiation (http://www.kumc.edu/school-of-medicine/anatomy-and-cell-biology/nih-center-of-biomedical-research-excellence-cobre.html), the Cancer Center and the Institute for Reproductive Health and Regenerative Medicine (http://www.kumc.edu/school-of-medicine/irhrm.html).

Core services are available, which includes: a transgenic mouse facility; a biotechnology support center that offers DNA synthesis, sequencing, and microchip analysis; a state-of-the-art mass spectrometry facility (http://www.kumc.edu/mspc.html); in-house x-ray crystallographic equipment; and a variety of spectroscopy and calorimetry instruments, including advanced fluorescence equipment.

Courses

**BCHM 802. Biochemistry Seminar. 1 Hour.**
Weekly meetings. LEC.

**BCHM 808. Methods for Analyzing Biomolecules. 3 Hours.**
Application of physical techniques to the study of biological macromolecules in solution. Emphasis on utilization of data obtained from such studies in interpreting biological processes at the molecular level. Course will be taught in the spring. Prerequisite: Consent of instructor. LEC.

**BCHM 850. Topics in Biochemistry. 1-3 Hours.**
Selected topics in biochemistry with varying subject matter. Students should inquire before enrolling. Topics are in-depth studies of current research areas. The course may consist of formal lectures and/or directed readings and studies. IND.

**BCHM 862. Biochemical Research-Literature Seminar. 1 Hour.**
Students and faculty meet once weekly to discuss the research of students or the current biochemical literature. The student is required to make one presentation. Prerequisite: Consent of instructor. LEC.

**BCHM 890. Research in Biochemistry. 1-15 Hours.**
Research for the M.S. degree or for Ph.D. students prior to completion of their comprehensive exam. RSH. RSH.

**BCHM 899. Master's Thesis. 1-15 Hours.**
Restricted to the writing of the master's thesis. THE.

**BCHM 922. Advanced Molecular Genetics. 3 Hours.**
An in-depth analysis of the structure and function of gene regulatory proteins and the mechanisms of gene transcription, and DNA replication and repair. Lectures and discussion of current literature. Prerequisite: consent of instructor. Course will be presented in the fall semester and will include several faculty leading discussions in their area of research interests. LEC.

**BCHM 923. Protein Structure and Function. 3 Hours.**
The relationship between protein structure, binding, and physiological function. Emphasis is on proteins as enzymes, structural components, and regulators. Course will be taught in the spring. Prerequisite: consent of instructor. LEC.

**BCHM 990. Doctoral Research. 1-15 Hours.**
Research for the doctoral degree. RSH.

**BCHM 999. Doctoral Dissertation. 1-15 Hours.**
Restricted to the writing of the doctoral dissertation. THE.

Master of Science in Biochemistry and Molecular Biology

The M.S. in biochemistry and molecular biology normally leads to positions at the advanced technical level in academic research, industry, or government. It may lead to teaching positions at the secondary or junior college level.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (p. 2258) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate Program in Biomedical Sciences website http://www.kumc.edu/igpbs/how-to-apply.html.

Admission requirements:

- Bachelor's degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor's degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Engl%20Prof%2016-Oct.pdf).
- A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%2016-Oct.pdf) is required during
Degree requirements:

- Degree requirements are normally completed within 3 years of admission to the program although a maximum of 7 years is allowed.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.
- Completion of a minimum of 30 credit hours.
- Successful completion of either a thesis defense or general examination (http://www.kumc.edu/Documents/graduate%20studies/Masters%20Exam-Defense%2016-Oct.pdf) the semester the student will graduate. The option will be decided by the student's advisor and must be approved by the departmental Graduate Committee.

If the thesis option is chosen, then enrollment in a minimum of one (1) credit hour of BCHM 899 Master's Thesis is required and successful thesis submission and publication (http://www.kumc.edu/Documents/graduate%20studies/The%20Submit%20and%20Pub%2016-Oct.pdf) (according to Office of Graduate Studies policy.)

If the general examination option is chosen, then enrollment in a minimum of one (1) credit hour the semester the student will graduate is required.

Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS) (p. 2258) courses (or their equivalent):

### TECHNICAL STANDARDS AND REQUIREMENTS FOR GRADUATE STUDIES IN THE DEPARTMENT OF BIOCHEMISTRY AND MOLECULAR BIOLOGY

The M.S. degree signifies that the holder is prepared for entry into research in industrial or academic laboratory settings. To that end, graduates must have the knowledge and skills to function in a broad variety of laboratory settings.

Therefore all students admitted for graduate study in Biochemistry and Molecular Biology must meet the following abilities and expectations.

1. **Observation:** The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.

2. **Communication:** A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.

3. **Motor:** Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to perform laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. **Intellectual-Conceptual, Integrative, and Quantitative Abilities:** These abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. **Behavioral and Social Attributes:** A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student’s difficulties. At this review, the provisions for reasonable accommodation will be determined.

For further information, contact The Department of Biochemistry and Molecular Biology, University of Kansas School of Medicine, MSN 3030, 3901 Rainbow Blvd., Kansas City, Kansas 66160 (Phone: (913) 588-7005 Fax: (913) 588-9896 E-mail: lswint-kruse@kumc.edu

**STUDENT POLICY ON INFECTIOUS DISEASE**

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for admission to academic programs at the University of Kansas Medical Center. In such cases, the determination of eligibility for admission will be made on an individual basis in consultation with the applicant’s physician; the decision will take a number of factors into consideration, including the legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Graduate Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

**DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS**

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the Graduate Student Handbook. Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

**Doctor of Philosophy in Biochemistry and Molecular Biology**

The Ph.D. is required for careers in independent research in biochemistry and molecular biology. The Ph.D. most often is followed by one or more years of postdoctoral training in a specific area of research. Ph.D. degree holders in biochemistry and molecular biology may find positions in industry or government and, with some postdoctoral experience, may obtain faculty positions at the college or university level.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (p. 2258) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary
Graduate Program in Biomedical Sciences website http://www.kumc.edu/igpbs/how-to-apply.html.

Admission requirements:
• Bachelor’s degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
• A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor’s degree.
• Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%202016-Oct.pdf).
• A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf) is required during the admission process; it may affect the student’s eligibility to enter the program.
• An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
• Three letters of recommendation.
• Prerequisite coursework:
  • One year of general chemistry
  • One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  • One year of biological sciences
  • One semester of calculus
  • One semester of physics
• Research experience (beyond labs associated with lecture courses) is strongly suggested.
• Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant’s admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years’ catalogs.

The program consists of coursework, research experience, and the successful completion of a doctoral dissertation. Dissertation research culminates in a final dissertation examination consisting of an oral presentation by the candidate and an examination by the faculty. Relevant prior graduate work is taken into consideration in setting up individual programs of study leading to the Ph.D.

Degree requirements:
• Degree requirements are normally completed within 5-6 years of admission to the program although a maximum of 8 years is allowed.
• Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.

• Successful completion of the University’s Research Skills and Responsible Scholarship (http://www.kumc.edu/Documents/graduate%20studies/Res%20Skills%20and%20Respon%20Scholar%20Doctoral%202016-Oct.pdf) requirement prior to the semester the Oral Comprehensive Examination is scheduled.
• Successful completion of GSBC 857 Biographies, GSBC 852 Introduction to Biomedical Research I and GSBC 855 Introduction to Biomedical Research II (or equivalent) meets the Research Skills requirement.
• Successful completion of GSBC 856 Introduction to Research Ethics (or equivalent) meets the Responsible Scholarship requirement.
• Successful completion of the Residence Requirement (http://www.kumc.edu/Documents/graduate%20studies/Residence%20Requirement%20PhD%202016-Oct.pdf) prior to the semester the Oral Comprehensive Examination is scheduled. The requirement is met by enrollment in full-time status a minimum of two semesters.
• Successful completion of the Oral Comprehensive Examination (http://www.kumc.edu/Documents/graduate%20studies/Comprehensive%20Oral%20Exam%20PhD%202016-Oct.pdf) This will comprise (i) a written grant proposal that conforms to the NIH R01 guidelines; and (ii) and oral examination that centers around material in the written proposal, as well as broader aspects of biochemistry and molecular biology. The topic may be broadly related to the student’s research area, but hypotheses should be developed independently by the student. Students are expected to complete the Oral Comprehensive Exam by the end of year 2. Students are recognized as formal doctoral candidates after they have passed the comprehensive examination.
• Successful completion of Post-Comprehensive Enrollment (http://www.kumc.edu/Documents/graduate%20studies/Post-Comp%20Enrollment%20PhD%202016-Oct.pdf) requirement.
• Enrollment in a minimum of one (1) credit hour of BCHM 999 Doctoral Dissertation the semester the student will defend dissertation and graduate.
• Successful completion of the Final Oral Examination (http://www.kumc.edu/Documents/graduate%20studies/Final%20Oral%20Exam%20PhD%202016-Oct.pdf) (dissertation defense.)
• Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS) (p. 2258) courses (or their equivalent):

TECHNICAL STANDARDS AND REQUIREMENTS FOR GRADUATE STUDIES IN THE DEPARTMENT OF BIOCHEMISTRY AND MOLECULAR BIOLOGY

The Ph.D. degree signifies that the holder is prepared for entry into research and/or teaching in postgraduate training and faculty positions. To that end, graduates must have the knowledge and skills to function in a broad variety of academic situations in the classroom and laboratory.

Therefore all students admitted for graduate study in Biochemistry and Molecular Biology must meet the following abilities and expectations.

1. Observation: The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.

2. Communication: A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.

3. Motor: Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to perform laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. Intellectual-Conceptual, Integrative, and Quantitative Abilities: These abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. Behavioral and Social Attributes: A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student’s difficulties. At this review, the provisions for reasonable accommodation will be determined.

For further information, contact The Department of Biochemistry and Molecular Biology, University of Kansas School of Medicine, MSN 3030, 3901 Rainbow Blvd., Kansas City, Kansas 66160 (Phone: (913) 588-7005 Fax: (913) 588-9896 E-mail: lswint-kruse@kumc.edu

STUDENT POLICY ON INFECTIOUS DISEASE

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for admission to academic programs at the University of Kansas Medical Center. In such cases, the determination of eligibility for admission will be made on an individual basis in consultation with the applicant’s physician; the decision will take a number of factors into consideration, including the legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Graduate Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the Graduate Student Handbook. Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

Department of Biostatistics

The mission of the Department of Biostatistics & Data Science is to provide an infrastructure of biostatistical and informatics expertise to support and enhance the research, service and educational needs of the University of Kansas Medical Center and its affiliates. The global objectives of the department are as follows:

- To provide a leadership role in biostatistical and informatics research initiatives across the medical center.
- To provide the biostatistics and informatics cores for major initiatives.
- To ensure that researchers have ready access to biostatistical and informatics resources and support.
- To provide the infrastructure and expertise for centralized and project specific database development, management and analysis.
- To consolidate resources pertaining to biostatistics and informatics.

The innovative MS & PhD programs in Biostatistics and Applied Statistics & Analytics help meet the ever-increasing demand for statisticians and biostatisticians needed to take leadership roles in academia, government
and industry. Faculty members are active researchers collaborating and consulting in research projects and initiatives at the Medical Center, in addition to pursuing their own research agendas and participating in curricular instruction. Expertise in the department includes linear, nonlinear, and longitudinal modeling; clinical trial and experimental design; survival analysis; categorical data analysis; robust statistics; psychometric methods; statistical 'omics; bioinformatics; Bayesian methodology; data science; and machine learning.

Courses

**BIOS 704. Principles of Statistics in Public Health. 3 Hours.**
Introductory course concerning the concepts of statistical reasoning and the role of statistical principles as the scientific basis for public health research and practice. Prerequisite: Permission of instructor. LEC.

**BIOS 714. Fundamentals of Biostatistics I. 3 Hours.**
First-semester course of a two-semester introductory statistics course that provides an understanding of the proper application of statistical methods to scientific research with emphasis on the application of statistical methodology to public health practice and research. This course focuses on basic principles of statistical inference with emphasis on one or two sample methods for continuous and categorical data. This course fulfills the core biostatistics requirement. Prerequisite: Calculus or Permission of Instructor. LEC.

**BIOS 715. Introduction to Data Management using RedCap and SAS. 3 Hours.**
This course will cover the utilization of Redcap and SAS for data management. Data collection and management using Redcap will be covered. Data cleaning and preparation for analysis will be covered using SAS. In addition, some of the basic descriptive analysis procedures will be covered in SAS. Prerequisite: Corequisite: BIOS 704 or BIOS 714 or equivalent with permission of instructor. LEC.

**BIOS 717. Fundamentals of Biostatistics II. 3 Hours.**
Second level statistics course that provides an understanding of more advanced statistical methods to scientific research with an emphasis on the application of statistical methodology to public health practice, public health research, and clinical research. Special focus will be upon the utilization of regression methodology and computer applications of such methodology. Prerequisite: BIOS 714 or equivalent with permission of instructor. LEC.

**BIOS 720. Analysis of Variance. 3 Hours.**
Methods for designed experiments including one-way analysis of variance (ANOVA), two-way ANOVA, repeated measures ANOVA, and analysis of covariance are emphasized. Post-ANOVA tests, power and testing assumptions required in ANOVA are discussed and applied. Outlier detection using robust estimators also are incorporated. Boxplots, histograms and scatterplots are used to display data. Prerequisite: PRE 710/711 or BIOS 714/717 or equivalent. Preferred: BIOS 715. Knowledge of statistical software, basic statistical plotting methods, p-values, two-sample t-test and simple linear regression is assumed. LEC.

**BIOS 725. Applied Nonparametric Statistics. 3 Hours.**
This course will study nonparametric methods in many situations as highlighted by the following topics: Students will learn how nonparametric methods provide exact p-values for tests, exact coverage probabilities for confidence intervals, exact experimentwise error rates for multiple comparison procedures, and exact coverage probabilities for confidence bands. This course will be using EXCEL and SAS to conduct various procedures. Prerequisite: BIOS 714 or equivalent with permission of instructor. LEC.

**BIOS 730. Applied Linear Regression. 3 Hours.**
Simple linear regression, multiple regression, logistic regression, nonlinear regression, neural networks, autocorrelation, interactions, and residual diagnostics. Applications of the methods will focus on health related data. Prerequisite: 1) BIOS 714 or the equivalent and 2) BIOS 717 or BIOS 720 or equivalent with permission of instructor. LEC.

**BIOS 735. Categorical Data and Survival Analysis. 3 Hours.**
An intermediate level statistics course that provides an understanding of the more advanced statistical methods to scientific research with emphasis on the application of statistical methodology to clinical research, public health practice, public health research and epidemiology. Prerequisite: BIOS 714, BIOS 715, and BIOS 717 or permission of the instructor. LEC.

**BIOS 740. Applied Multivariate Methods. 3 Hours.**
This course is an advanced statistical course for students who have had fundamental biostatistics and linear regression. Topics to be covered include Hotelling's T-squared test, MANOVA, principal components, factor analysis, discriminant analysis, canonical analysis, and cluster analysis. More advanced topics such as Multidimensional Scaling or Structural Equation Modeling might be introduced if time allows. Computers will be extensively used throughout the whole course, and students are suggested to be familiar with some statistical software before taking this course. Although students are allowed to use the software they are comfortable with, SAS will be the primary statistical package used to demonstrate examples in this course. Prerequisite: Corequisite: BIOS 730 or equivalent with permission of instructor. LEC.

**BIOS 799. Introduction to Statistical Genomics. 3 Hours.**
This survey course will provide a high-level introduction of various statistical and bioinformatics methods involved in the study of biological systems. In particular, this course will provide an overview of the analytical aspects involved in: the study DNA, RNA, and DNA methylation data measured from both microarray and next-generation sequencing (NGS) technologies. During the last week of the summer semester, students will be required to participate in a group seminar session in which they will present the results from their assigned genomics analysis projects. Prerequisite: Corequisite: BIOS 714 and BIOS 717 or equivalent with permission of instructor; Experience with a higher level programming language is preferred. LEC.

**BIOS 805. Professionalism, Ethics and Leadership in the Statistical Sciences. 3 Hours.**
This web-based course addresses issues in professionalism, leadership and ethics that are specific to students training to become statisticians, biostatisticians, and data scientists. Topics include use of sound statistical methodology, common threats to valid inference, effective communication and collaboration with content-area experts, maintaining transparency and independence, reproducible research, the publishing process (including authorship guidelines, plagiarism, peer review, intellectual property, etc.), conflict of interest, data security, and properties of effective leaders, among others. Prerequisite: Department consent. LEC.

**BIOS 860. Special Topics in Biostatistics. 1-3 Hours.**
This course allows exploration of special topics that are not routinely a part of the curriculum. Prerequisite: Permission of the instructor. LEC.

**BIOS 810. Clinical Trials. 3 Hours.**
The design, implementations, analysis, and assessment of controlled clinical trials. Basic biostatistical concepts and models will be emphasized. Issues of current concern to trialists will be explored. Prerequisite: By permission of instructor. LEC.
BIOS 815. Introduction to Bioinformatics. 3 Hours.
Bioinformatics, an interdisciplinary field at the cross-section of biology, computer science, and statistics, has played a key role in enhancing our understanding of many areas of biology. The broad purpose of this course is to introduce students in the quantitative sciences to the field of bioinformatics and its practice. Topics include foundational concepts in molecular biology, biological databases, sequence alignment, BLAST, molecular phylogenetics, genomics, transcriptomics, proteomics, microbiomics, with treatment of the accompanying bioinformatic tools/methodologies that have been developed to analyze such data types.

Over the semester, students will gain a familiarity with the essential concepts and theories underlying the practice of bioinformatics, different types of 'omic data, the technologies used to generate different 'omic data types, and databases and tools commonly used for bioinformatics analysis. Prerequisite: There are no formal prerequisites for this course. Previous graduate-level coursework in probability and statistics and molecular biology is helpful, but not necessary. LEC.

BIOS 820. SAS Programming I. 3 Hours.
This is a graduate level course preparing a student for the SAS base programming certification exam. We will cover the topics required for a student to pass the SAS base programming certification exam given by SAS. To this end, topics we will study will include, referencing files and setting options, creating list reports, understanding data step processing, creating and managing variables, reading and combining SAS data sets, do loops, arrays, and reading raw data from files. After the completion of the course the student should be able to create SAS programs to read data from external files, manipulate the data into variables to be used in an analysis, generate basic reports showing the results. Prerequisite: Permission of the Instructor. LEC.

BIOS 821. SAS Programming II. 3 Hours.
This is a graduate level course preparing a student for the SAS advanced programming certification exam. We will cover the topics required for a student to pass the SAS advanced programming certification exam given by SAS. To this end, topics we will study include array processing, use of data step views, using the data step to write SAS programs, efficient use of the sort procedure, introduction to the macro language in SAS, and accessing data using SAS PROC SQL. After the completion of the course the student should be able to create SAS programs to read data from external files, manipulate the data into variables to be used in an analysis, generate basic reports showing the results. Prerequisite: Corequisite: BIOS 820 or equivalent (SAS Certified BASE programmer for SAS or at least one year of experience as a data analyst/programmer). LEC.

BIOS 823. Introduction to Programming and Applied Statistics in R. 3 Hours.
This course will provide students with the opportunity to learn advanced statistical programming. The development of new statistical or computational methods often implies the development of programming codes to support its application. Much of this type of development is currently carried out in the R (or S-Plus) language. Indeed much of the recent development of statistical genetics is based on the R programming language and environment. This course provides an introduction to programming in the R language and it's applications to applied statistical problems. Prerequisite: Corequisite: Some previous exposure to computer programming. Some basic statistics at the Applied Regression or Applied Design level and permission of instructor. LEC.

BIOS 825. Nonparametric Methods. 3 Hours.
This course is an introduction to nonparametric statistical methods for data that do not satisfy the normality or other usual distributional assumptions. We will cover most of the popular nonparametric methods used for different scenarios, such as a single sample, two independent or related samples, three or more independent or related samples, goodness-of-fit tests, and measures of association. Power and sample size topics will also be covered. The course will cover the theoretical basis of the methods at an intermediate mathematical level, and will also present applications using real world data and statistical software. Prerequisite: Permission of instructor. LEC.

BIOS 830. Experimental Design. 3 Hours.
The emphasis of this course is on learning the basics of experimental design and the appropriate application and interpretation of statistical analysis of variance techniques. Prerequisite: Permission of instructor, BIOS 820 recommended. LEC.

BIOS 832. Measurement for Statisticians. 3 Hours.
This course aims to introduce the theory and applications of measurement and psychometrics to students in the statistical sciences. The goal is for students to master the concepts of measurement theory, classical/ modern test theory, reliability and validity, factor analysis, structural equation modeling, item response theory, and differential item functioning. Prerequisite: Corequisite: BIOS 835, or by permission of instructor. LEC.

BIOS 833. Measurement for Statisticians. 3 Hours.
This course provides an understanding of both the mathematical theory and practical applications for the analysis of data for response measures that are ordinal or nominal categorical variables. This includes univariate analysis, contingency tables, and generalized linear models for categorical response measures. Regression techniques covered for categorical response variables, such as logistic regression and Poisson regression methods, will include those categorical and/or continuous explanatory variables, both with and without interaction effects. Prerequisite: By permission of instructor; BIOS 820 and BIOS 840 are recommended. LEC.

BIOS 834. Experimental Design. 3 Hours.
This course is an introduction to model building using regression techniques. We will cover many of the popular topics in Linear Regression including: simple linear regression, multiple regression, model selection and validation, diagnostics and remedial measures. Prerequisite: By permission of the instructor. LEC.

BIOS 845. Survival Analysis. 3 Hours.
This course provides an understanding of both the mathematical theory and practical applications for the analysis of time to event data with censoring. This includes univariate analysis, group comparisons, and regression techniques for survival analysis. Parametric and semi-parametric regression techniques covered will include those with categorical and/or continuous explanatory variables, both with and without interaction effects. Prerequisite: Corequisite: BIOS 820, 835, 840, and 871, or by permission of instructor. LEC.

BIOS 850. Multivariate Statistics. 3 Hours.
This course will introduce the theory and methods of applied multivariate analysis. As the field of multivariate analysis is very wide and well developed, the course will focus on those methods that are more frequently used in biostatistical applications. Some knowledge of basic matrix algebra is necessary and will be reviewed as the course progresses. Theoretical exercises and analysis of data sets will be assigned to the student. Emphasis will be on biostatistical applications. Prerequisite: Corequisite: BIOS 820, BIOS 830, and BIOS 840. LEC.

BIOS 855. Statistical Methods in Genomics Research. 3 Hours.
This survey course will provide a high-level introduction to various statistical and bioinformatics methods involved in the study of biological systems. In particular, this course will provide an overview of the analytical aspects involved in: the study DNA, RNA, and DNA methylation data measured from both microarray and next-generation sequencing
(NGS) technologies. During the last week of the summer semester, students will be required to participate in a group seminar session in which they will present the results from their assigned genomics projects. Prerequisite: BIOS 820 OR experience programming in a higher level programming language; BIOS 840; OR by permission of the instructor. LEC.

BIOS 860. Clinical Trial Design and Analysis. 3 Hours.
This course is intended for students interested in the statistical aspects of clinical trial research. This course will provide a comprehensive overview of the design and analysis of clinical trials, including: first-in-human studies (dose-finding, safety, proof of concept, Phase I), Phase II, Phase III, and Phase IV studies. Prerequisite: By permission of instructor. BIOS 820, BIOS 830, BIOS 840. LEC.

BIOS 871. Mathematical Statistics. 3 Hours.
This course introduces the fundamentals of probability theory, random variables, distribution and density functions, expectations, transformations of random variables, moment generating functions, convergence concepts, sampling distributions, and order statistics. Prerequisite: By permission of instructor. LEC.

BIOS 872. Mathematical Statistics II. 3 Hours.
This course introduces the fundamentals of statistical estimation and hypothesis testing, including point and interval estimation, likelihood and sufficiency principles, properties of estimators, loss functions, Bayesian analysis, and asymptotic convergence. Prerequisite: BIOS 871 or by permission of instructor. LEC.

BIOS 880. Data Mining and Analytics. 3 Hours.
Students will be introduced to common steps used in data mining, such as accessing and assaying prepared data; pattern discovery; predictive modeling using decision trees, regression, and neural networks; and model assessment methods. Prerequisite: BIOS 870 or by permission of instructor. BIOS 821 or BIOS 850 recommended. LEC.

BIOS 889. Collaborative Research Experience. 3 Hours.
This course provides students with experience in collaborative research under the supervision of an experienced researcher. The student will spend one semester working under an investigator or faculty member, making independent contributions to a research project. Prerequisite: Corequisite: BIOS 820, 830, 835, 840, and 871, or by permission of instructor. BIOS 821 and 850 recommended. LEC.

BIOS 899. MSCR Thesis. 3 Hours.
This course involves preparation of a formal thesis based on the research conducted by a student working toward the MS in Clinical Research and directed by a faculty member in the Department of Biostatistics. After the thesis has been completed, the student will be given an oral examination of the research methods and content. Prerequisite: Corequisite: Department of Biostatistics approval. LEC.

BIOS 900. Linear Models. 3 Hours.
This course introduces the theory and methods of linear models for data analysis. The course includes the theory of general linear models including regression models, experimental design models, and variance component models. Least squares estimation, the Gauss-Markov theorem, and least than full rank hypotheses will be covered. Prerequisite: Corequisite: BIOS 871 and BIOS 872 or by permission of instructor; BIOS 820 recommended. LEC.

BIOS 902. Bayesian Statistics. 3 Hours.
This course introduces Bayesian theory and methods for data analysis. The course includes an overview of the Bayesian approach to statistical inference, performance of Bayesian procedures, Bayesian computational issues, model criticism, and model selection. Case studies from a variety of fields are incorporated into the course. Implementation of models using Markov chain Monte Carlo methods is emphasized. Prerequisite: Corequisite: BIOS 871 and 872 or by permissions of instructor; BIOS 820 recommended. LEC.

BIOS 905. Theory of Statistical Inference. 3 Hours.
This course covers advanced aspects of statistical inference. It is aimed at preparing Ph.D. BIOS students for the Ph.D. comprehensive exam and will emphasize advanced biostatistical ideas as well as problem solving techniques. Prerequisite: Corequisite: BIOS 871 and BIOS 872 or equivalent and permission of instructor. LEC.

BIOS 906. Advanced Special Topics in Biostatistics. 1-3 Hours.
This course allows exploration of special topics that are not routinely a part of the Biostatistics PhD curriculum. Prerequisite: Passing grade on the PhD Qualifying exam. Permission of the instructor. LEC.

BIOS 908. Advanced Clinical Trials. 3 Hours.
This course provides an introduction to recent innovations in clinical trial designs and analysis methods. Topics include concepts of controls, blinding, and randomization; common trial designs by phase of clinical development; sample size calculations; interim analysis; and adaptive clinical trials. Traditional frequentist and likelihood approaches to trial design and analysis will be covered in the first half of the course; the Bayesian approach (including adaptive clinical trial designs) will be emphasized in the second half of the course. Prerequisite: BIOS 860 and BIOS 902 or by permission of the instructor. LEC.

BIOS 910. Generalized Linear Models. 3 Hours.
This course on Generalized Linear Models (GLM) is designed for both the applied and theoretical statistician. In this course we introduce the theoretical foundations and key applications of generalized linear models. Prerequisite: BIOS 835, BIOS 840, and BIOS 900 or by permission of instructor. LEC.

BIOS 911. Nonlinear Models. 3 Hours.
This course will involve both theory and applications of nonlinear models, with emphasis in biological, medical, and pharmaceutical research. Applications to dose–response studies, bioassay studies and clinical pharmacokinetics and pharmacodynamics studies will be discussed. Nonlinear mixed effects models will also be examined, as well as criteria for optimal experimental designs based on nonlinear models. This course will cover the theoretical basis of the methods at an intermediate mathematical level, and will also present applications using real world data and statistical software. Prerequisite: BIOS 900 or equivalent and permission of instructor. LEC.

BIOS 915. Longitudinal Data Analysis. 3 Hours.
A longitudinal study is a research study that involves repeated observations of the same individuals and events over extended periods of time. It is typically a type of observational study, though may have design components. In medical settings these studies and related models are used to observe the developmental path of a disease or treatment through time. Often this is in the context of follow-up and long-term study of both progress and potential side-effects. As the study involves the same individuals (subject to drop-out) through several time points, statistical methods must employ random effects or “mixed models” incorporating various correlation structures. This is typically done using generalized estimating equations and marginal model approaches. Bayesian methods may also be appropriate here. Students will, after completing this course, be able to design and analyze longitudinal studies. The computer package to be employed is SAS. Prerequisite: BIOS 820, BIOS 830, BIOS 840, BIOS 871, BIOS 872, and BIOS 900 or by permission of instructor. LEC.
BIOS 920. Latent Variable Analysis. 3 Hours.
Latent variables refer to random variables whose realization values are not observable or cannot be measured without error, and their inferences rely on statistical models connecting latent and other observed variables. This course aims to introduce a family of such statistical models and their applications in biomedical and public health research. The course is designed as an elective course for students in the Biostatistics graduate program. We will use the statistical packages of M-plus, R, and/or SAS for the course. Prerequisite: BIOS 835 and BIOS 900, or by permission of instructor. Familiarity with vectors and matrices is strongly encouraged. LEC.

BIOS 999. Doctoral Dissertation. 1-9 Hours.
Preparation of the doctoral dissertation based upon original research and in partial fulfillment of the requirements for the Ph.D. degree. Credits will be given only after the dissertation has been accepted by the student's dissertation committee. Prerequisite: Successful completion of the Department of Biostatistics Ph.D. Comprehensive Exam and consent of advisor. THE.

Courses

DATA 806. Special Topics in Data Science. 1-3 Hours.
This course allows exploration of special topics that are not routinely a part of the Applied Statistics Analytics and Data Science curriculum. Prerequisite: Permission of instructor. LEC.

DATA 817. Introduction to Tableau. 1 Hour.
Under Tableau Desktop - I specialization, the student will discover what data visualization is, and how to use it to better display and understand the information within a data set. Using Tableau, this course will examine the fundamental concepts of data visualization and explore the Tableau Desktop interface, identifying and applying the various tools Tableau has to offer. By the end of the course, students will be able to prepare and import data into Tableau and explain the relationship between data analytics and data visualization. This course is designed for learners who have never used Tableau before, those in need of a refresher, or those wanting to explore Tableau in more depth. No prior technical or analytical background is required. The course will guide students through the steps necessary to create visualization dashboard and story from the beginning based on data context, setting the stage for students to be ready for Desktop – I certification. Prerequisite: There are no formal prerequisites for this course. Prior experience generating plots, tables, graphs, etc. is helpful, but is not required. LEC.

DATA 819. Introduction to Python. 1 Hour.
This is a one credit hour introduction course to programming in Python. The fundamentals of Python programming, including: introduction to Python syntax, types, data structures, control of flow, functions, modules and packages, reading and writing files, and basic statistics will be covered throughout the course. LEC.

DATA 822. Introduction to SQL. 1 Hour.
This course prepares students to interact with most dialects of Structured Query Language (SQL). At the conclusion of the course, students will be prepared to interact with any major database, including PostgreSQL, MySQL, Oracle, among others. Topics covered relational databases, structure of data, Data Definition Language (DDL), Data Manipulation Language (DML), table joins, data summarization, and writing and interpreting SQL queries. LEC.

DATA 824. Data Visualization and Acquisition. 3 Hours.
Being a data scientist requires an integrated skill set that spans the domains of statistics, machine learning, and computer programming. It also demands a solid foundation in the principles of data visualization in order to create effective data presentations that convey the intended message. Put simply, data visualization describes any effort to assist an individual's understanding of the significance of data by placing it in a visual context. In this course, students will be introduced to principles of effective data visualization and tools commonly used for its implementation. Techniques and strategies for visualizing different types of data (e.g., numeric data, non-numeric data, spatial-temporal data, etc.), the use of space and color to visually encode data, interactive visualizations, acquiring and visualizing data from publicly available data repositories, data cleaning and standardizing, are examples of some of the topics this course will address. The focus in the treatment of these topics will be on breadth, rather than depth, and emphasis will be placed on integration and synthesis of concepts and their application to solving problems. Prerequisite: While there are no formal prerequisites for this course, students should have a basic familiarity with the R statistical programming language (STAT 823 highly recommended). Prior experience using statistical software (e.g., R) to generate plots, tables, graphs, etc. is helpful, but is not required. LEC.

DATA 881. Statistical Learning I. 3 Hours.
Statistical learning is a fundamental skill for data scientists. Data scientists are specialists in "drinking from the firehose" of big data, and statistical learning techniques are some of their key tools. This course focuses on applications of statistical learning to big data challenges through data mining and predictive modeling techniques that are in great demand. Students will be introduced to the basics of statistical/machine learning: supervised learning (e.g. linear model, nonlinear models, penalized methods, ensemble methods, etc.), unsupervised learning (e.g. K means clustering, nearest neighbors, hierarchical clustering, etc.), and missing data in machine learning. Throughout the course, we will learn how to be "informed doers", who not only know how to apply methods but understand how those methods work. This understanding can be critical to getting good results from big data, so that the limitations of certain methods are properly understood. Prerequisite: STAT 835, STAT 840, or by permission of instructor. LEC.

DATA 882. Statistical Learning II. 3 Hours.
Knowledge of how and when to apply more sophisticated statistical learning models to big data can make a data scientist an indispensable asset to a research team. In Statistical Learning 2, we will learn how to be "informed doers". We will learn how many of the covered methods work, in addition to the proper situations to apply them. This is particularly important in this course, because these methods are applicable when simpler methods are inappropriate and rarely work well without significant tinkering. Data scientists with mastery of these methods are empowered to investigate questions that are far too complex to answer with the more general "workhorse" methods covered in the first unit of this series, Statistical Learning 1. We will cover many of the most important techniques in use today, including: mixture models, hidden Markov models, spline regression, support vector machines, advanced discriminant analysis methods, neural networks (including deep learning), and methods for handling highly complex computation, such as Hadoop.

The course culminates with a short project that will pull together all the skills you have learned to demonstrate how they can be used for statistical decision support, which is a common task for data scientists. Prerequisite: DATA 881, or by permission of instructor. LEC.

Courses

STAT 655. Foundations of Mathematics for Data Science. 3 Hours.
Topics in single- and multiple-variable differential and integral calculus and linear algebra with applications in statistics and data science. Mathematical concepts including limits, derivatives, integrals, sequences, series, vectors, matrices, and optimization problems will be covered in
the context of statistical applications. Prerequisite: College algebra or equivalent. LEC.

STAT 805. Professionalism, Ethics and Leadership in the Statistical Sciences. 3 Hours.
This web-based course addresses issues in professionalism, leadership and ethics that are specific to students training to become statisticians, biostatisticians, and data scientists. Topics include use of sound statistical methodology, common treatments to valid inference, effective communication and collaboration with content-area experts, maintaining transparency and independence, reproducible research, the publishing process (including authorship guidelines, plagiarism, peer review, intellectual property, etc.), conflict of interest, data security, and properties of effective leaders, among others. Prerequisite: Permission of instructor. LEC.

STAT 806. Special Topics in Applied Statistics and Analytics. 1-3 Hours.
This course allows exploration of special topics that are not routinely a part of the Applied Statistics Analytics curriculum. Prerequisite: Permission of instructor. LEC.

STAT 818. Introduction to R. 1 Hour.
This course will provide students with the opportunity to learn advanced statistics using R statistical programming language. LEC.

STAT 820. SAS Programming I. 3 Hours.
This is a graduate level course preparing a student for the SAS base programming certification exam. We will cover the topics required for a student to pass the SAS base programming certification exam given by SAS. To this end, topics we will study include, referencing files and setting options, creating list reports, understanding data step processing, creating and managing variables, reading and combining SAS data sets, do loops, arrays, and reading raw data from files. After the completion of the course the student should be able to create SAS programs to read data from external files, manipulate the data into variables to be used in an analysis, generate basic reports showing the results, be able to understand and explain results from univariate analyses using proc univariate. Prerequisite: Permission of Instructor. LEC.

STAT 821. SAS Programming II. 3 Hours.
This is a graduate level course preparing a student for the SAS advanced programming certification exam. We will cover the topics required for a student to pass the SAS advanced programming certification exam given by SAS. To this end, topics we will study include array processing, use of data step views, using the data step to write SAS programs, efficient use of the sort procedure, introduction to the macro language in SAS, and accessing data using SAS PROC SQL. After the completion of the course, the student should be able to create SAS programs to read data from external files, manipulate the data into variable to be used in an analysis, generate basic reports showing the results. Prerequisites: STAT 820 or equivalent (SAS Certified BASE programmer for SAS or at least one year of experience as a data analyst/programmer). LEC.

STAT 823. Introduction to Programming and Applied Statistics in R. 3 Hours.
This course will provide students with the opportunity to learn advanced statistical programming. The development of new statistical or computational methods often implies the development of programming codes to support its application. Much of this type of development is currently carried out in the R (or S-Plus) language. Indeed much of the recent development of statistical genetics is based on the R programming language and environment. This course provides an introduction to programming in the R language and its applications to applied statistical problems. Prerequisites: Some previous exposure to computer programming. Some basic statistics at the Applied Regression or Applied Design level and permission of instructor. LEC.

STAT 825. Nonparametric Methods. 3 Hours.
This course is an introduction to nonparametric statistical methods for data that do not satisfy the normality or other usual distributional assumptions. We will cover most of the popular nonparametric methods used for different scenarios, such as a single sample, two independent or related samples, three or more independent or related samples, goodness-of-fit tests, and measures of association. Power and sample size topics will also be covered. The course will cover the theoretical basis of the methods at an intermediate mathematical level, and will also present applications using real world data and statistical software. Prerequisite: Permission of instructor. LEC.

STAT 830. Experimental Design. 3 Hours.
The emphasis of this course is on learning the basics of experimental design and the appropriate application and interpretation of statistical analysis of variance techniques. Prerequisite: Permission of instructor. STAT 820 or STAT 823 is recommended. LEC.

STAT 833. Measurement for Statisticians. 3 Hours.
This course aims to introduce the theory and applications of measurement and psychometrics to students in the statistical sciences. The goal is for students to master the concepts of measurement theory, classical/modern test theory, reliability and validity, factor analysis, structural equation modeling, item response theory, and differential item functioning. Prerequisites: Corequisite: STAT 835, or by permission of instructor. LEC.

STAT 835. Categorical Data Analysis. 3 Hours.
This course provides an understanding of both the mathematical theory and practical applications for the analysis of data for response measures that are ordinal or nominal categorical variables. This includes univariate analysis, contingency tables, and generalized linear models for categorical response measures. Regression techniques covered for categorical response variables, such as logistic regression and Poisson regression methods, will include those categorical and/or continuous explanatory variables, both with and without interaction effects. Prerequisites: Permission of instructor. STAT 820 or STAT 823 and STAT 840 are recommended. LEC.

STAT 840. Linear Regression. 3 Hours.
This course is an introduction to model building using regression techniques. We will cover many of the popular topics in linear regression including: simple linear regression, multiple linear regression, model selection and validation, diagnostics, and remedial measures. Prerequisite: Permission of Instructor. LEC.

STAT 845. Survival Analysis. 3 Hours.
This course provides an understanding of both the mathematical theory and practical applications for the analysis of time to event data with censoring. This includes univariate analysis, group comparisons, and regression techniques for survival analysis. Parametric and semi-parametric regression techniques covered will include those with categorical and/or continuous explanatory variables, both with and without interaction effects. Prerequisites: STAT 820 or STAT 823, 835, 840 and 871, or by permission of instructor. LEC.

STAT 850. Multivariate Statistics. 3 Hours.
This course will introduce the theory and methods of applied multivariate analysis. Topics include multivariate model formulation, multivariate normal distribution, Hotelling’s T-square, multivariate analysis of variance, repeated measures analysis of variance, growth curves, discriminant analysis, classification analysis, principal components analysis, and cluster analysis. Prerequisites: STAT 820 or STAT 823, and STAT 840, or by permission of the instructor. LEC.
Master of Science in Biostatistics

The Biostatistics M.S. and Ph.D. programs were created to help meet the ever-increasing demand for biostatisticians to take leadership roles in careers as researchers and educators in academia, government, and industry. Faculty members are active researchers collaborating and consulting in research projects and initiatives at the Medical Center, in addition to pursuing their own research agendas and participating in curricular instruction. Expertise in the Department includes linear, nonlinear, and longitudinal modeling; clinical trial and experimental design; survival analysis; categorical data analysis; robust statistics; psychometric methods; statistical 'omics; bioinformatics; Bayesian methodology; data science; and machine learning.

The Biostatistics MS program produces graduates that are prepared to function as biostatisticians or biostatistical consultants. Therefore, graduates gain an extensive understanding of biostatistical theory and practice and should be proficient in the application of statistical methods to one or more areas in the health sciences. At the completion of the M.S. degree in Biostatistics the graduate should be able to:

1. Demonstrate a broad knowledge and understanding of statistical theory and practice as applicable in the health sciences.

2. Function as a collaborator on a research team.

3. Take a leadership role in the design and implementation of a health science project.

4. Assume responsibility for the design and implementation of analyses for health science investigations.

5. Assist with the design and implementation of data management systems for large health science studies.

6. Prepare reports and publications resulting from health science studies.

7. Serve as an advocate for good statistical design in health science investigations.

The application process for the M.S. in Biostatistics is an online process. Detailed instructions on how to apply are posted on the Department of Biostatistics & Data Science (http://www.kumc.edu/school-of-medicine/department-of-biostatistics/biostatistics-graduate-program/prospective-students/admissions-procedure.html) website.

**Admission Requirements:**

- A bachelor's degree in statistics, biostatistics, mathematics or applied mathematics from a regionally accredited institution documented by submission of an official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required.

- Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.

- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor's degree.

- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement.

- A background check is required during the admission process; it may affect the student’s eligibility to enter the program.

- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional 6895.

- Letter grade of B or better in Calculus I, II, & III (or the equivalent.)

- Successful completion of at least one of the following courses: linear algebra, differential equations, numerical analysis.

- Successful completion of a course in any computer programming language or demonstration of mastery via credentials or work experience.

- Research experience (beyond labs associated with lecture courses) is recommended, but not required.

- Contact information for three references who are familiar with the applicant’s work and character and who have agreed to write letters of recommendation.

- A current resume or curriculum vitae.

- A personal statement regarding your interest in biostatistics and in biomedical research.

- A personal interview is required of all applicants who meet the minimum admissions standards. If travel to the area is impossible, a telephone or online interview may be substituted.

Applicants will be assessed based on these requirements.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years' catalogs».

The M.S. in Biostatistics degree program consists of 36 credit hours including collaborative research experience, annual evaluations, and the successful completion of the master’s general examination. The course plan consists of 27 credit hours from required biostatistics core courses which includes 3 credit hours of Collaborative Research Experience. This requirement ensures the completion of a research component through collaborative effort within or external to the department. Students also complete 9 credit hours of elective coursework.

**Degree requirements:**

- Degree requirements are normally completed within 2 years of admission to the program although a maximum of 7 years is allowed.

- Completion of a minimum of 36 credit hours.

- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.

- Enrollment in a minimum of one credit hour the semester the student will graduate.

- Successful completion of a general examination (http://www.kumc.edu/Documents/graduate%20studies/Masters%20Exams/Defense%2016-Oct.pdf) the semester the student will graduate.

The general examination is given upon completion of the following courses: BIOS 820, BIOS 830, BIOS 835, BIOS 840, BIOS 871 and BIOS 872. The examination has three purposes: to assess the student’s strengths and weaknesses; to determine whether the student should be awarded the M.S. degree; and, if it is a degree goal, to determine whether the student is prepared to continue into the Ph.D. program (p. 2186).

- Successful completion of the following Biostatistics courses:

<table>

- Successful completion of a minimum of 9 credit hours of elective coursework. Specific courses are determined in consultation with the student’s advisor.
  - Successful completion of a minimum of 3 credit hours (maximum of 6) of elective coursework from courses offered by the department, including courses with the STAT or DATA prefix.
  - Successful completion of a minimum of 3 credit hours (maximum of 6) of elective coursework from courses offered outside the department.

- Students may take up to 12 credit hours of equivalent coursework under the STAT prefix. Course equivalence should be determined in consultation with the student’s advisor.

Degree requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog of the year student entered the program. Other years' catalogs».

**Annual Evaluations:**

Students are evaluated each May by their graduate advisors and the director of the graduate program. These evaluations provide feedback to the student regarding the progress they are making in meeting program requirements, classroom performance, and research performance.

- Students may take up to 12 credit hours of equivalent coursework under the STAT prefix. Course equivalence should be determined in consultation with the student's advisor.

- Successful completion of any elective coursework as determined in consultation with the student's advisor. Any coursework under the STAT or DATA prefixes may be considered as internal elective credit.

Because the MS and PhD in Biostatistics degrees signify that the holder is prepared for entry into the practice of biostatistics research, it follows that graduates must have the knowledge and skills necessary to function in a broad range of academic and research situations. The Technical Standards include those physical, cognitive, and behavioral standards that are required for the satisfactory completion of all aspects of the curriculum and the development of professional attributes required by all students at graduation. Therefore, the following abilities and expectations must be met by all students with or without accommodations admitted to the MS and PhD programs:

1. **Observation.** A student must be able to observe and evaluate class demonstrations and field experiences relevant to the field of statistics. He or she must be able to read and comprehend text, numbers, tables
and graphs, both in print and displayed electronically. Observation necessitates the functional use of the senses of vision and hearing.

2. Communication. A student must be able to communicate effectively and efficiently in English in oral, written, and electronic form with other students, faculty, staff, researchers, and the public. Effective communication includes: the ability to understand assigned readings, lectures, and technical and professional materials; the ability to analyze information; the ability to present results of such analyses verbally and in writing; the ability to independently prepare papers and presentations; and the ability to follow verbal and written instructions. Use of computers and other technology is imperative to this communication.

3. Motor. A student must have sufficient motor function to attend classes, prepare assignments, use electronic media, deliver lectures and make public presentations. Class requirements may also include field work in a variety of collaborative environments.

4. Intellectual, conceptual, integrative and quantitative abilities. A student must possess the ability to understand and read and understand documents written in English, to understand and work with measurements and calculations, and to engage in reasoning, analysis, synthesis and critical thinking. A student must be able to exercise sufficient judgment to recognize and correct performance deviations, and be able to draw on all the above mentioned abilities to be an effective problem solver, researcher, and communicator.

5. Behavioral and social attributes. A student must have the emotional health required for the full use of his or her intellectual ability. A student must be able to exercise sound judgment, and to act ethically and with integrity. He or she must develop mature, sensitive, and effective professional relationships with others. A student must be self-motivated, reliable and responsible to complete assigned tasks in a timely manner with no supervision. Students must be able to give attention to detail and have the flexibility to function in a research setting, including adapting to changes in time, place and structure of academic and research settings. The student must have the ability to work with diverse groups.

NOTE: Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose that they have a disability are considered for the program if they are otherwise qualified. Qualified students with a disability who wish to request accommodations should provide the appropriate documentation of disability and submit a request for accommodation to the University’s Office for Academic Accommodations.

Master of Science in Applied Statistics and Analytics

The Master of Science in Applied Statistics and Analytics is offered by the Department of Biostatistics & Data Science located at the University of Kansas Medical Center (http://www.kumc.edu). This program is offered 100% online through the University of Kansas-Edwards campus (http://edwardscampus.ku.edu/about-ku-edwards-campus/). Graduates are equipped with hands-on statistical computing skills emphasizing proper application and problem solving and are prepared for careers in the rapidly growing fields of statistics, biostatistics, analytics, and data science. Many of the most employable graduate degrees involve statistics.

All coursework can be completed online, providing flexibility for working professionals who want to increase their knowledge of statistics, analytics, and data science. In response to workforce demand for knowledge and skills in analytics, data science, and statistics, students enrolled in this degree program may choose from one of three areas of emphasis:

- **Analytics Emphasis** will provide graduates with experience working with and analyzing large datasets using several of the most common statistical software tools.
- **Statistics Emphasis** will provide hands-on statistical computing in the context of statistical methods commonly applied in industry and government agencies.
- **Data Science Emphasis** will provide students with skills in statistical and computational methods for the acquisition and analysis of Big Data.

Characteristics of Graduates

Upon completion of the M.S. in Applied Statistics and Analytics, the student should be prepared to immediately function as a statistician, analyst, and/or data scientist. Therefore the student must have an understanding of the statistical theory underlying the methods most in-demand in the workforce, and should be proficient in the application of statistical methods within their field. Graduates of this program should be able to:

1. Demonstrate an understanding of statistical theory and practice.
2. Function as a collaborator on a project team.
3. Demonstrate proficiency in industry-standard statistical software.
4. Assume responsibility for the design and implementation of analyses for projects within his or her field.
5. Assist with the design and implementation of data management systems for projects within his or her field of application.
6. Prepare reports and publications resulting from said projects.
7. Effectively communicate the principles of statistics and analytics with his or her peers with varying statistical backgrounds.
8. Serve as an advocate for good statistical design and practice.

The application process for the M.S. in Applied Statistics and Analytics is an online process. Detailed instructions on how to apply are posted on the Department of Biostatistics & Data Science (http://www.kumc.edu/school-of-medicine/department-of-biostatistics/biostatistics-graduate-program/prospective-students/admissions-procedure.html) website. Students may be admitted to begin the fall, spring or summer semester.

Admission requirements:

- A bachelor's degree from a regionally accredited institution documented by submission of an official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required.
- Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor's degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%2016-Oct.pdf).
- Average grade of B or better in calculus I and II (or equivalent) or completion of STAT 655: Foundations of Mathematics for Data Science with a grade of B or better.
Degree requirements:

- Successful completion of a course in any computer programming language, certification of completion of training in a programming language, or demonstrated work experience.
- Contact information for three references who are familiar with the applicant’s work and character and who have agreed to write letters of recommendation.
- A personal statement describing your career goals and your interest in the program.
- A current resume or curriculum vitae listing scholarships/fellowships, awards and history of employment.

Graduate Record Examination (GRE) scores (or other graduate examination scores, such as the GMAT) are recommended, but not required. Applicants will be assessed based on these requirements.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years’ catalogs.

The M.S. in Applied Statistics, Analytics and Data Science degree program consists of 30 credit hours. Students choose one or more emphasis area(s) from Analytics, Statistics, or Data Science. The program consists of a common foundation of 12 credit hours of statistics courses in addition to the 12 credit hours specific to the emphasis area and 6 credit hours of electives. A student can choose electives such that multiple emphasis areas can be completed if desired.

Degree requirements:

- Degree requirements are normally completed within 2 years of admission to the program although a maximum of 7 years is allowed.
- Completion of a minimum of 30 credit hours.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.
- No more than two grades of C are allowed in courses required for the degree.
- Enrollment in a minimum of one credit hour the semester the student will graduate.
- Successful completion of a general examination (http://www.kumc.edu/Documents/graduate%20studies/Masters%20Exam-Defense%2016-Oct.pdf) the semester the student will graduate. This is a comprehensive examination that is administered during the final semester of enrollment after successful completion of the required core coursework. The examination has two purposes: 1) to assess the student’s strengths and weaknesses and 2) to determine whether the student should be awarded the MS degree. The examination is created and administered by a committee of at least three members of the Department Graduate Faculty. If this examination is failed, subject to committee approval, a second examination may be taken no sooner than three months later. The examination must be passed to be awarded the degree. No more than two failures, no further examination is permitted and the student will not be awarded the degree.
- Successful completion of the following courses:

Annual Evaluations:

Students are evaluated each May by their faculty advisor and Program Chair. These evaluations provide feedback to the student regarding the progress that they are making toward the degree.

Typical Plan of Study

Students may choose to pursue one of three emphasis areas for the MS in Applied Statistics and Analytics degree. The emphasis areas were developed based on the knowledge and skillset demanded by the workforce.

- Analytics Emphasis will provide graduates with experience working with and analyzing large datasets using several of the most common statistical software tools.
- Statistics Emphasis will provide hands-on statistical computing in the context of statistical methods commonly applied in industry and government agencies.
• **Data Science Emphasis** will provide students with skills in statistical and computational methods for the acquisition and analysis of Big Data.

Below is the typical plan of study based on which emphasis is chosen.

### Analytics Emphasis for MS in Applied Statistics and Analytics

**Total Hours 30**

Because the MS in Applied Statistics and Analytics degree signifies that the holder is prepared for entry into the practice of applied statistics research, it follows that graduates must have the knowledge and skills necessary to function in a broad range of academic and research situations. The **Technical Standards** include those physical, cognitive, and behavioral standards that are required for the satisfactory completion of all aspects of the curriculum and the development of professional attributes required by all students at graduation. Therefore, the following abilities and expectations must be met by all students with or without accommodations admitted to the MS program:

1. **Observation.** A student must be able to observe and evaluate class demonstrations and field experiences relevant to the field of statistics. He or she must be able to read and comprehend text, numbers, tables and graphs, both in print and displayed electronically. Observation necessitates the functional use of the senses of vision and hearing.

2. **Communication.** A student must be able to communicate effectively and efficiently in English in oral, written, and electronic form with other students, faculty, staff, researchers, and the public. Effective communication includes: the ability to understand assigned readings, lectures, and technical and professional materials; the ability to analyze information; the ability to present results of such analyses verbally and in writing; the ability to independently prepare papers and presentations; and the ability to follow verbal and written instructions. Use of computers and other technology is imperative to this communication.

3. **Motor.** A student must have sufficient motor function to attend classes, prepare assignments, use electronic media, deliver lectures and make public presentations. Class requirements may also include field work in a variety of collaborative environments.

4. **Intellectual, conceptual, integrative and quantitative abilities.** A student must possess the ability to understand and analyze documents written in English, to understand and work with measurements and calculations, and to engage in reasoning, analysis, synthesis and critical thinking. A student must be able to exercise sufficient judgment to recognize and correct performance deviations, and be able to draw on all the above mentioned abilities to be an effective problem solver, researcher, and communicator.
5. Behavioral and social attributes. A student must have the emotional health required for the full use of his or her intellectual ability. A student must be able to exercise sound judgment, and to act ethically and with integrity. He or she must develop mature, sensitive, and effective professional relationships with others. A student must be self-motivated, reliable and responsible to complete assigned tasks in a timely manner with no supervision. Students must be able to give attention to detail and have the flexibility to function in a research setting, including adapting to changes in time, place and structure of academic and research settings. The student must have the ability to work with diverse groups.

NOTE: Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program. Students who disclose that they have a disability are considered for the program if they are otherwise qualified. Qualified students with a disability who wish to request accommodations should provide the appropriate documentation of disability and submit a request for accommodation to the University’s Office for Academic Accommodations.

Doctor of Philosophy in Biostatistics

The Biostatistics M.S. and Ph.D. programs were created to help meet the ever-increasing demand for biostatisticians to take leadership roles in careers as researchers and educators in academia, government, and industry. Faculty members are active researchers collaborating and consulting in research projects and initiatives at the Medical Center, in addition to pursuing their own research agendas and participating in curricular instruction. Expertise in the Department includes linear, nonlinear, and longitudinal modeling; clinical trial and experimental design; survival analysis; categorical data analysis; robust statistics; psychometric methods; statistical ‘omics; bioinformatics; Bayesian methodology; data science; and machine learning.

The Ph.D. program produces biostatisticians who can develop biostatistical methodology that can be used to solve problems in public health and the biomedical sciences. In addition, graduates are prepared to apply biostatistical and epidemiology methodology for the design and analysis of public health and biomedical research investigations. Finally, graduates are well suited to function as collaborators or team leaders on research projects in the biomedical and public health sciences.

In addition to the characteristics outlined in the M.S. program, graduates of the Ph.D. program in Biostatistics will have:

1. the ability to develop careers in academia, research institutes, government, and industry;
2. a broad understanding of current statistical methods and practices in the health sciences;
3. a solid theoretical training necessary for the development and study of new statistical methods;
4. the ability to assume all responsibilities of a statistician in collaborative health science research; in particular, the graduate will have experience in the design, data management, analysis, and interpretation of a variety of experimental and observational studies;
5. experience in writing reports and giving oral presentations describing health science studies.

The application process for the Ph.D. in Biostatistics is an online process. Detailed instructions on how to apply are posted on the Department of Biostatistics & Data Science (http://www.kumc.edu/school-of-medicine/department-of-biostatistics/biostatistics-graduate-program/prospective-students/admissions-procedure.html) website. Students are admitted for the fall semester only. Applications for the fall semester must be received by February 1st for consideration.

Admission Requirements:

• A master’s degree in statistics, biostatistics, mathematics or applied mathematics from a regionally accredited institution or a terminal degree (M.D., Ph.D.) in another field with approval from the program. Students not meeting this criteria should apply to the M.S. program (p. 2181). Completion of degree is documented by submission of an official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required.
• Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.

• A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor's degree.
• Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement.
• A background check is required during the admission process; it may affect the student's eligibility to enter the program.
• An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional 6895.
• A letter grade of a B or better in Calculus I through III (or equivalent.)
• Successful completion of at least one of the following courses: linear algebra, differential equations, numerical analysis.
• Successful completion of a course in any computer programming language or demonstration of mastery via credentials or work experience.
• Research experience (beyond labs associated with lecture courses) is highly recommended, but not required.
• Contact information for three references who are familiar with the applicant's work and character and who have agreed to write letters of recommendation.
• A personal statement regarding your interest in biostatistics and in biomedical research.
• A current resume or curriculum vitae.
• A personal interview is required of all applicants who meet the minimum admissions standards. If travel to the area is impossible, a telephone or online interview may be substituted.

Applicants will be assessed based on these requirements.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years’ catalogs».

The typical program consists of 63 credit hours including collaborative research experience, annual evaluations, graduate examinations, and the successful completion of a doctoral dissertation. Dissertation research culminates in a final dissertation examination consisting of an oral presentation by the candidate and an examination by the faculty.
Relevant prior graduate work is taken into consideration in setting up individual programs of study leading to the Ph.D. The typical course plan consisting of 63 credit hours is designed for students who have not previously completed a M.S. in biostatistics or directly relevant area. The course plan for a student who has previously completed a M.S. in biostatistics or directly relevant area is customized to account for master’s-level courses already taken; therefore the total credit hours required will vary.

**Degree requirements:**

- Degree requirements are normally completed within 4 years of admission to the program although a maximum of 8 years is allowed.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.
- Successful completion of the Qualifying Examination. The qualifying examination is given upon completion of the following courses (or equivalent): BIOS 820, BIOS 830, BIOS 835, BIOS 840, BIOS 871 and BIOS 872. The examination has two purposes: 1) to assess the student’s strengths and weaknesses and 2) determine whether the student is sufficiently prepared to continue in the Ph.D. program.
- Successful completion of the University’s Research Skills and Responsible Scholarship (http://www.kumc.edu/Documents/graduate%20studies/Res%20Skills%20and%20Responsible%20Scholar%20Doctoral%202016-Oct.pdf) requirement prior to the semester the Oral Comprehensive Examination is scheduled.
  - Successful completion of BIOS 898 Collaborative Research Experience (or equivalent) meets the Research Skills requirement.
  - Successful completion of BIOS 805 Professionalism, Ethics and Leadership in the Statistical Sciences and/or documented participation in the Biostatistics Graduate Students Association Seminar Series and completion of the KUMC Human Subjects Protection training module meets this requirement. Student must keep their certification current throughout their tenure in the Ph.D. program.
- Successful completion of the Residence Requirement (http://www.kumc.edu/Documents/graduate%20studies/Residence%20Requirement%20PhD%202016-Oct(0).pdf) prior to the semester the Oral Comprehensive Examination is scheduled. The requirement is met by enrollment in full-time status a minimum of two semesters.
- Successful completion of the Oral Comprehensive Examination (http://www.kumc.edu/Documents/graduate%20studies/comprehensive%20Oral%20Exam%20PhD%202016-Oct.pdf). The comprehensive examination is typically given when a doctoral aspirant has completed the major portion of the course work at a satisfactory level and met all other prerequisites to the comprehensive examination. The examination assesses the student’s strengths and weaknesses and determines whether the student should continue in the Ph.D. program. There is both a written component to the exam and a subsequent presentation and defense of a dissertation proposal. Students are recognized as formal candidates for the Ph.D. only after they have passed the comprehensive examination.
  - Successful completion of the Qualifying Examination.
  - Successful completion of the Research Skills and Responsible Scholarship.
  - Successful completion of the Residence Requirement.
  - Successful completion of the Oral Comprehensive Examination.

- Successful completion of the Final Oral Examination (http://www.kumc.edu/Documents/graduate%20studies/Final%20Oral%20Exam%20PhD%202016-Oct.pdf) (dissertation defense.) The candidate must present a dissertation showing the planning, conduct, and results of original research and scholarly activity. The purpose of the dissertation is to encourage and ensure the development of broad intellectual capabilities as well as to demonstrate an intensive focus on a problem or research area. This work is carried out under the guidance of a dissertation advisor. When the completed dissertation has been accepted by the dissertation committee in final draft form and all other degree requirements have been satisfied the chair of the committee requests (at least 3 weeks before the date of the examination) Graduate Studies approval to proceed with the final oral examination.
- Successful Dissertation Submission and Publication (http://www.kumc.edu/Documents/graduate%20studies/Dissertation%20Submit%202016-Oct.pdf) (according to Office of Graduate Studies policy.)
- Successful completion of the following Biostatistics courses (or equivalent):

- Students may take up to 12 credit hours of equivalent coursework under the STAT prefix. Course equivalence should be determined in consultation with the student’s advisor.
- Successful completion of any elective coursework as determined in consultation with the student’s advisor. Any coursework under the STAT or DATA prefixes may be considered as internal elective credit.

Degree requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog of the year student entered the program. *Other years’ catalogs*. 
### Annual Evaluations:

Students are evaluated each May by their graduate advisors and the director of the graduate program. These evaluations provide feedback to the student regarding the progress they are making in meeting program requirements, classroom performance, and research performance.

### Typical Plan of Study

Final Oral Exam (dissertation defense) scheduled semester approved by committee to defend and graduate.

Total Hours 62-78

- Students may take up to 12 credit hours of equivalent coursework under the STAT prefix. Course equivalence should be determined in consultation with the student’s advisor.

- Successful completion of any elective coursework as determined in consultation with the student's advisor. Any coursework under the STAT or DATA prefixes may be considered as internal elective credit.

Because the MS and PhD in Biostatistics degrees signify that the holder is prepared for entry into the practice of biostatistics research, it follows that graduates must have the knowledge and skills necessary to function in a broad range of academic and research situations. The Technical Standards include those physical, cognitive, and behavioral standards that are required for the satisfactory completion of all aspects of the curriculum and the development of professional attributes required by all students at graduation. Therefore, the following abilities and expectations must be met by all students with or without accommodations admitted to the MS and PhD programs:

1. **Observation.** A student must be able to observe and evaluate class demonstrations and field experiences relevant to the field of statistics. He or she must be able to read and comprehend text, numbers, tables and graphs, both in print and displayed electronically. Observation necessitates the functional use of the senses of vision and hearing.

2. **Communication.** A student must be able to communicate effectively and efficiently in English in oral, written, and electronic form with other students, faculty, staff, researchers, and the public. Effective communication includes: the ability to understand assigned readings, lectures, and technical and professional materials; the ability to analyze information; the ability to present results of such analyses verbally and in writing; the ability to independently prepare papers and presentations; and the ability to follow verbal and written instructions. Use of computers and other technology is imperative to this communication.

3. **Motor.** A student must have sufficient motor function to attend classes, prepare assignments, use electronic media, deliver lectures and make public presentations. Class requirements may also include field work in a variety of collaborative environments.

4. **Intellectual, conceptual, integrative and quantitative abilities.** A student must possess the ability to understand and read and understand documents written in English, to understand and work with measurements and calculations, and to engage in reasoning, analysis, synthesis and critical thinking. A student must be able to exercise sufficient judgment to recognize and correct performance deviations, and be able to draw on all the above mentioned abilities to be an effective problem solver, researcher, and communicator.

5. **Behavioral and social attributes.** A student must have the emotional health required for the full use of his or her intellectual ability. A student must be able to exercise sound judgment, and to act ethically and with integrity. He or she must develop mature, sensitive, and effective professional relationships with others. A student must be self-motivated, reliable and responsible to complete assigned tasks in a timely manner with no supervision. Students must be able to give attention to detail and have the flexibility to function in a research setting, including adapting to changes in time, place and structure of academic and research settings. The student must have the ability to work with diverse groups.

**NOTE:** Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose that they have a disability are considered for the program if they are otherwise qualified. Qualified students with a disability who wish to request accommodations should provide the appropriate documentation of disability and submit a
request for accommodation to the University’s Office for Academic Accommodations.

**Applied Data Science Graduate Certificate**

The Graduate Certificate in Applied Data Science teaches you how to extract, refine, analyze, and deliver data that has enormous values in today’s Big Data Boom. The program provides focused knowledge to equip students with skills in statistical and computational methods for acquisition and analysis of Big Data that allows them to make an immediate impact in their field and realize a more rewarding career.

Upon completion of the Graduate Certificate in Applied Data Science, the student should be prepared to apply many of the common statistical methods to complement his or her every day job duties. Therefore, the student must have a basic understanding of the statistical theory and practice and should be proficient in the application of common statistical methods to one or more areas application. At the completion of the Graduate Certificate in Applied Data Science, the student should be able to:

1. demonstrate knowledge and understanding of the practice of data science as applicable to his or her field.
2. function as a collaborator on a research team.
3. critically evaluate the literature where data science applications are used.
4. take a leadership role in the implementation of a research project.
5. prepare reports and publications resulting from research studies.
6. serve as an advocate for proper statistical design and interpretation of results in his or her field.

The application for the Graduate Certificate in Applied Data Science is an online process. Detailed instructions on how to apply are posted on the Department of Biostatistics & Data Science (http://www.kumc.edu/school-of-medicine/department-of-biostatistics/biostatistics-graduate-program/prospective-students/admissions-procedure.html) website.

**Admission requirements:**

- A bachelor's degree from a regionally accredited institution documented by submission of an official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required.
- Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor's degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%2016-Oct.pdf).
- Average grade of B or better in calculus I and II (or equivalent) or completion of STAT 655: Foundations of Mathematics for Data Science with a grade of B or better.
- Successful completion of a course in any computer programming language or demonstration of mastery via credentials or work experience.
- Contact information for three references who are familiar with the applicant’s work and character and who have agreed to write letters of recommendation.
- Students currently enrolled in graduate programs at KUMC or KU must be in good standing (3.0 or higher GPA) and have a letter of approval from their current graduate program director and/or department chair indicating support to enroll in the certificate program.

Applicants will be assessed based on these requirements.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. [Other years’ catalogs.](http://catalog.ku.edu/graduate-studies/kumc/#certificatetest)

**Certificate Program Information:**

No student may work toward a graduate certificate without being accepted as a graduate certificate student in a specific graduate certificate program. Graduate certificates are not granted retroactively. An individual who is not currently a degree-seeking graduate student at KU must apply and may be admitted directly to a graduate certificate program.

The graduate certificate program is not a means of entry into a graduate degree program. If students admitted to a graduate certificate program are later admitted to a graduate degree program as degree-seeking, applicable courses taken for the graduate certificate program may, upon recommendation of the department and within general guidelines, be approved by the Office of Graduate Studies to be counted toward the degree.

While the courses comprising a graduate certificate may be used as evidence in support of a student’s application for admission to a graduate degree program, the certificate itself is not considered to be a prerequisite and does not guarantee admission into any graduate degree program. The certificate program is not intended to serve as a default system for students in a degree program who find that they are not able to complete the degree for academic or other reasons. Should a student drop out of a degree program and seek admission to a certificate program, all certificate admission requirements must be followed for admission and conferral.

A minimum of 15 post-Bachelor’s degree credit hours are required with a minimum GPA of 3.0 on a 4.0 scale. A typical full-time course plan is listed below for the Certificate in Applied Data Science. It consists of 15 credit hours of required coursework:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 820 or STAT 823</td>

**Total Hours 15**

This typical Plan of Study shows the 15 credit hours of required courses to meet the requirement for completion of the Graduate Certificate in Applied Data Science program.

Because the Graduate Certificates in Biostatistics, Biostatistical Applications, Applied Statistics, and Applied Data Science signify that the holder is prepared for entry into the practice of biostatistics research, it follows that students awarded the Graduate Certificates must have the knowledge and skills necessary to function in a broad range of academic and research situations. The Technical Standards include those physical, cognitive, and behavioral standards that are required for the satisfactory completion of all aspects of the curriculum and the development of professional attributes required by all students upon completion of the Graduate Certificate. The following abilities and expectations must be met by all students with or without accommodations admitted to the Certificates:

1. **Observation.** A student must be able to observe and evaluate class demonstrations and field experiences relevant to the field of statistics. He or she must be able to read and comprehend text, numbers, tables and graphs, both in print and displayed electronically. Observation necessitates the functional use of the senses of vision and hearing.

2. **Communication.** A student must be able to communicate effectively and efficiently in English in oral, written, and electronic form with other students, faculty, staff, researchers, and the public. Effective communication includes: the ability to understand assigned readings, lectures, and technical and professional materials; the ability to analyze information; the ability to present results of such analyses verbally and in writing; the ability to independently prepare papers and presentations; and the ability to follow verbal and written instructions. Use of computers and other technology is imperative to this communication.

3. **Motor.** A student must have sufficient motor function to attend classes, prepare assignments, use electronic media, and deliver lectures and public presentations. Class requirements may also include work in a variety of collaborative environments.

4. **Intellectual, conceptual, integrative and quantitative abilities.** A student must possess the ability to understand and read and understand documents written in English, to understand and work with measurements and calculations, and to engage in reasoning, analysis, synthesis and critical thinking. A student must be able to exercise sufficient judgment to recognize and correct performance deviations, and be able to draw on all the above mentioned abilities to be an effective problem solver, researcher and communicator.

5. **Behavioral and social attributes.** A student must have the emotional health required for the full use of his or her intellectual ability. A student must be able to exercise sound judgment, and to act ethically and with integrity. He or she must develop mature, sensitive and effective professional relationships with others. A student must be self-motivated, reliable and responsible to complete assigned tasks in a timely manner with no supervision. Students must be able to give attention to detail and have the flexibility to function in a research setting, including adapting to changes in time, place and structure of academic and research settings. The student must have the ability to work with diverse groups.

**NOTE:** Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose that they have a disability are considered for the program if they are otherwise qualified. Qualified students with a disability who wish to request accommodations should provide the appropriate documentation of disability and submit a request for accommodation to the University's Office for Academic Accommodations.

**Applied Statistics Graduate Certificate**

The Graduate Certificate in Applied Statistics teaches you how to "ask the data" the right questions and find the answers. The program provides focused knowledge in statistical theory with an emphasis on application that allows you to make an immediate impact in your field and realize a more rewarding career.

Upon completion of the Graduate Certificate in Applied Statistics, the student should be prepared to apply many of the common statistical methods to complement his or her every day job duties. Therefore, the student must have a basic understanding of the statistical theory and practice and should be proficient in the application of common statistical methods to one or more areas application. At the completion of the Graduate Certificate in Applied Statistics, the student should be able to:

1. demonstrate a basic knowledge and understanding of the statistical theory and practice as applicable to his or her field.
2. function as a collaborator on a research team.
3. critically evaluate the literature where statistical applications are used.
4. take a leadership role in the implementation of a research project.
5. prepare reports and publications resulting from research studies.
6. serve as an advocate for proper statistical design and interpretation of results in his or her field.

The application for the Applied Statistics Graduate Certificate is an online process. Detailed instructions on how to apply are posted on the Department of Biostatistics & Data Science (http://www.kumc.edu/school-of-medicine/department-of-biostatistics/biostatistics-graduate-program/prospective-students/admissions-procedure.html) website.

**Admission requirements:**

- A bachelor's degree from a regionally accredited institution documented by submission of an official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required.
- Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
A cumulative grade-point average (GPA) of at least a 3.0 on a 4.0 scale for the bachelor's degree.

Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Engl%20Pro%2016-Oct.pdf).

Average grade of B or better in calculus I and II (or equivalent) or completion of STAT 655: Foundations of Mathematics for Data Science with a grade of B or better.

Successful completion of a course in any computer programming language or demonstration of mastery via credentials or work experience.

Contact information for three references who are familiar with the applicant's work and character and who have agreed to write letters of recommendation.

Students currently enrolled in graduate programs at KUMC or KU must be in good standing (3.0 or higher GPA) and have a letter of approval from their current graduate program director and/or department chair indicating support to enroll in the certificate program.

Graduate credit from another institution may not be transferred to a graduate certificate program.

Certificate requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog of the year student entered the program. Other years' catalogs.

Certificate Program Information: (http://catalog.ku.edu/graduate-studies/kumc/#certificates/text)

No student may work toward a graduate certificate without being accepted as a graduate certificate student in a specific graduate certificate program. Graduate certificates are not granted retroactively. An individual who is not currently a degree-seeking graduate student at KU must apply and may be admitted directly to a graduate certificate program.

The graduate certificate program is not a means of entry into a graduate degree program. If students admitted to a graduate certificate program are later admitted to a graduate degree program as degree-seeking, applicable courses taken for the graduate certificate program may, upon recommendation of the department and within general guidelines, be approved by the Office of Graduate Studies to be counted toward the degree.

While the courses comprising a graduate certificate may be used as evidence in support of a student's application for admission to a graduate degree program, the certificate itself is not considered to be a prerequisite and does not guarantee admission into any graduate degree program. The certificate program is not intended to serve as a default system for students in a degree program who find that they are not able to complete the degree for academic or other reasons. Should a student drop out of a degree program and seek admission to a certificate program, all certificate admission requirements must be followed for admission and conferral.

A minimum of 15 post-Bachelor's degree credit hours are required with a minimum GPA of 3.0 on a 4.0 scale. A typical full-time course plan is listed below for the Certificate in Applied Statistics. It requires 15 credit hours of required coursework:

<table>

Total Hours 15

This typical Plan of Study shows the 15 credit hours of required courses to meet the requirement for completion of the Applied Statistics Graduate Certificate program.

Because the Graduate Certificates in Biostatistics, Biostatistical Applications, Applied Statistics, and Applied Data Science signify that the holder is prepared for entry into the practice of biostatistics research, it follows that students awarded the Graduate Certificates must have the knowledge and skills necessary to function in a broad range of academic and research situations. The Technical Standards include those physical, cognitive, and behavioral standards that are required for the satisfactory completion of all aspects of the curriculum and the development of professional attributes required by all students at upon completion of the Graduate Certificate. The following abilities and expectations must be met by all students with or without accommodations admitted to the Certificates:

1. Observation. A student must be able to observe and evaluate class demonstrations and field experiences relevant to the field of statistics. He or she must be able to read and comprehend text, numbers, tables and graphs, both in print and displayed electronically. Observation necessitates the functional use of the senses of vision and hearing.

2. Communication. A student must be able to communicate effectively and efficiently in English in oral, written, and electronic form with other students, faculty, staff, researchers and the public. Effective communication includes: the ability to understand assigned readings, lectures and technical and professional materials; the ability to analyze information; the ability to present results of such analyses verbally and in writing; the ability to independently prepare papers and presentations; and the ability to follow verbal and written instructions. Use of computers and other technology is imperative to this communication.

3. Motor. A student must have sufficient motor function to attend classes, prepare assignments, use electronic media and deliver lectures and public presentations. Class requirements may also include work in a variety of collaborative environments.
4. **Intellectual, conceptual, integrative and quantitative abilities.** A student must possess the ability to understand and read and understand documents written in English, to understand and work with measurements and calculations, and to engage in reasoning, analysis, synthesis and critical thinking. A student must be able to exercise sufficient judgment to recognize and correct performance deviations, and be able to draw on all the above mentioned abilities to be an effective problem solver, researcher and communicator.

5. **Behavioral and social attributes.** A student must have the emotional health required for the full use of his or her intellectual ability. A student must be able to exercise sound judgment, and to act ethically and with integrity. He or she must develop mature, sensitive and effective professional relationships with others. A student must be self-motivated, reliable and responsible to complete assigned tasks in a timely manner with no supervision. Students must be able to give attention to detail and have the flexibility to function in a research setting, including adapting to changes in time, place and structure of academic and research settings. The student must have the ability to work with diverse groups.

**NOTE:** Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose that they have a disability are considered for the program if they are otherwise qualified. Qualified students with a disability who wish to request accommodations should provide the appropriate documentation of disability and submit a request for accommodation to the University’s Office for Academic Accommodations.

### Biostatistical Applications Graduate Certificate

The Graduate Certificate in Biostatistical Applications is awarded to those who have demonstrated specialized knowledge in a scientific field, but not to the level required by a postgraduate master's degree. The Graduate Certificate in Biostatistical Applications requires individuals to acquire sufficient knowledge and expertise to permit them to work at the frontier of their field by:

1. becoming familiar with biostatistical methods in research, business and industry.
2. becoming excellent consumers of the literature where biostatistical applications are utilized.
3. applying many of the common biostatistical methods to compliment his or her every day job duties. Course work in this proposal is designed with this purpose in mind.

Upon completion of the Graduate Certificate in Biostatistical Applications, the student should be prepared to apply many of the common biostatistical methods to compliment his or her every day job duties. Therefore, the student must have a basic understanding of biostatistical practice and should be proficient in the application of common biostatistical methods to one or more areas application. Upon completion of the Graduate Certificate in Biostatistical Applications program, the student should be able to:

1. demonstrate a basic knowledge and understanding of the applications of some of the more common biostatistical methods.
2. function as a collaborator on a research team.

3. critically evaluate the literature where biostatistical applications are used.
4. participate in the implementation of a research project.
5. serve as an advocate for proper biostatistical application and interpretation of results in his or her field.

The application for the Biostatistical Applications Graduate Certificate is an online process. Detailed instructions on how to apply are posted on the Department of Biostatistics & Data Science (http://www.kumc.edu/school-of-medicine/department-of-biostatistics/biostatistics-graduate-program/prospective-students/admissions-procedure.html) website.

### Admission Requirements:

- A bachelor's degree from a regionally accredited institution documented by submission of an official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required.
- Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least a 3.0 on a 4.0 scale for the bachelor's degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%2016-Oct.pdf).
- A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%2016-Oct.pdf) is required during the admission process; it may affect the student's eligibility to enter the program.
- A letter grade of B or better in calculus I (or equivalent), or a quantitative GRE score in the 70th percentile or higher.
- A letter grade B or better in a graduate-level introductory statistics course (e.g., BIOS 717 Fundamentals of Biostatistics II or equivalent.)

**Note:** Students not meeting this requirement may fulfill the requirement with completion of BIOS 717.

- Students currently enrolled in graduate programs at KUMC or KU must be in good standing (3.0 or higher GPA) and have a letter of approval from their current graduate program director and/or department chair indicating support to enroll in the certificate program.

Applicants will be assessed based on these requirements. Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years' catalogs.:

### Certificate Program Information: (p. 2585)

No student may work toward a graduate certificate without being accepted as a graduate certificate student in a specific graduate certificate program. Graduate certificates are not granted retroactively. An individual who is not currently a degree-seeking graduate student at KU must apply and may be admitted directly to a graduate certificate program.

The graduate certificate program is not a means of entry into a graduate degree program. If students admitted to a graduate certificate program are later admitted to a graduate degree program as degree-seeking, applicable courses taken for the graduate certificate program may, upon recommendation of the department and within general guidelines, be
Certificate requirements:

- Certificate requirements are normally completed within one (1) year of admission to the program although a maximum of 4 years is allowed.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate certificate coursework.
- Enrollment in a minimum of one (1) credit hour the semester program is completed. Graduate certificates may not be granted retroactively.
- Completion of a minimum of 12 credit hours. Note: A prolonged plan of study will occur for students without the prerequisite graduate-level introductory statistics course prior to enrolling in the certificate program (see Admissions [http://catalog.ku.edu/medicine/biostatistics/statappgradcert/#admissionstext].)
- Current KU post-graduate students must complete four (4) courses from the following list:

<table>
<thead>
<tr>
<th>Code</th>

Because the Graduate Certificates in Biostatistics, Biostatistical Applications, Applied Statistics, and Applied Data Science signify that the holder is prepared for entry into the practice of biostatistics research, it follows that students awarded the Graduate Certificates must have the knowledge and skills necessary to function in a broad range of academic and research situations. The Technical Standards include those physical, cognitive and behavioral standards that are required for the satisfactory completion of all aspects of the curriculum and the development of professional attributes required by all students upon completion of the Graduate Certificate. The following abilities and expectations must be met by all students with or without accommodations admitted to the Certificates:

1. Observation. A student must be able to observe and evaluate class demonstrations and field experiences relevant to the field of statistics. He or she must be able to read and comprehend text, numbers, tables and graphs, both in print and displayed electronically. Observation necessitates the functional use of the senses of vision and hearing.

2. Communication. A student must be able to communicate effectively and efficiently in English in oral, written, and electronic form with...
other students, faculty, staff, researchers, and the public. Effective communication includes: the ability to understand assigned readings, lectures, and technical and professional materials; the ability to analyze information; the ability to present results of such analyses verbally and in writing; the ability to independently prepare papers and presentations; and the ability to follow verbal and written instructions. Use of computers and other technology is imperative to this communication.

3. **Motor.** A student must have sufficient motor function to attend classes, prepare assignments, use electronic media, and deliver lectures and public presentations. Class requirements may also include work in a variety of collaborative environments.

4. **Intellectual, conceptual, integrative and quantitative abilities.** A student must possess the ability to understand and read and understand documents written in English, to understand and work with measurements and calculations, and to engage in reasoning, analysis, synthesis and critical thinking. A student must be able to exercise sufficient judgment to recognize and correct performance deviations, and be able to draw on all the above mentioned abilities to be an effective problem solver, researcher, and communicator.

5. **Behavioral and social attributes.** A student must have the emotional health required for the full use of his or her intellectual ability. A student must be able to exercise sound judgment, and to act ethically and with integrity. He or she must develop mature, sensitive, and effective professional relationships with others. A student must be self-motivated, reliable and responsible to complete assigned tasks in a timely manner with no supervision. Students must be able to give attention to detail and have the flexibility to function in a research setting, including adapting to changes in time, place and structure of academic and research settings. The student must have the ability to work with diverse groups.

**NOTE:** Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose that they have a disability are considered for the program if they are otherwise qualified. Qualified students with a disability who wish to request accommodations should provide the appropriate documentation of disability and submit a request for accommodation to the University’s Office for Academic Accommodations.

## Biostatistics Graduate Certificate

The Biostatistics Graduate Certificate is awarded to those who have demonstrated specialized knowledge in a scientific field, but not to the level required by a postgraduate master’s degree. The certificate program requires individuals to acquire focused knowledge in statistical theory, with an emphasis on application. Upon completion of the Graduate Certificate in Biostatistics, the student should be prepared to apply many of the common statistical methods to complement his or her every day job duties. Therefore the student must have a basic understanding of the statistical theory and practice and should be proficient in the application of common statistical methods to one or more areas application. At the completion of the Graduate Certificate in Biostatistics the student should be able to:

1. demonstrate a basic knowledge and understanding of the statistical theory and practice as applicable to his or her field.
2. function as a collaborator on a research team.

3. critically evaluate the literature where statistical applications are used.
4. participate in the design and implementation of a research project.
5. assume responsibility for the design and implementation of analyses for a research project.
6. serve as an advocate for proper statistical design and interpretation of results in his or her field.

The application for the Biostatistics Graduate Certificate is an online process. Detailed instructions on how to apply are posted on the Department of Biostatistics & Data Science ([website](http://www.kumc.edu/school-of-medicine/department-of-biostatistics/biostatistics-graduate-program/prospective-students/admissions-procedure.html)).

### Admission Requirements:

- A bachelor's degree from a regionally accredited institution documented by submission of an official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required.
- Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor’s degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement ([document](http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%202016-Oct.pdf)).
- A background check ([document](http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf)) is required during the admission process; it may affect the student's eligibility to enter the program.

- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional 6895.
- Letter grade of B or better in calculus I – III (or equivalent.)
- Successful completion of at least one of the following courses: linear algebra, differential equations, numerical analysis.
- Successful completion of a course in any computer programming language or demonstration of mastery via credentials or work experience.
- Contact information for three references who are familiar with the applicant's work and character and who have agreed to write letters of recommendation.
- Students currently enrolled in graduate programs at KUMC or KU must be in good standing (3.0 or higher GPA) and have a letter of approval from their current graduate program director and/or department chair indicating support to enroll in the certificate program.

Applicants will be assessed based on these requirements. Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. *Other years' catalogs*.

### Certificate Program Information: (p. 2585)

No student may work toward a graduate certificate without being accepted as a graduate certificate student in a specific graduate certificate program. Graduate certificates are not granted retroactively. An individual who is
not currently a degree-seeking graduate student at KU must apply and 
may be admitted directly to a graduate certificate program.

The graduate certificate program is not a means of entry into a graduate 
degree program. If students admitted to a graduate certificate program 
are later admitted to a graduate degree program as degree-seeking, 
applicable courses taken for the graduate certificate program may, upon 
recommendation of the department and within general guidelines, be 
approved by the Office of Graduate Studies to be counted toward the 
degree.

While the courses comprising a graduate certificate may be used as 
evidence in support of a student’s application for admission to a graduate 
degree program, the certificate itself is not considered to be a prerequisite 
and does not guarantee admission into any graduate degree program. 
The certificate program is not intended to serve as a default system for 
students in a degree program who find that they are not able to complete 
the degree for academic or other reasons. Should a student drop out of a 
degree program, the certificate itself is not considered to be a prerequisite 
and does not guarantee admission into any graduate degree program. 

The Biostatistics Graduate Certificate program consists of a minimum of 
15 credit hours of statistical coursework that is comprised of 9 credit hours 
of required coursework and 6 credit hours of elective coursework.

Certificate requirements:

- Certificate requirements are normally completed within one (1) year of 
  admission to the program although a maximum of 4 years is allowed.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU 
  graduate certificate coursework.
- Enrollment in a minimum of (1) credit hour the semester program is 
  completed. Graduate certificates may not be granted retroactively.
- Completion of a minimum of 15 credit hours.
- Successful completion of the following Biostatistics courses:
  Code   Title                        Hours
  BIOS 830 Experimental Design       3
  BIOS 840 Linear Regression         3
  BIOS 871 Mathematical Statistics  3

- Successful completion of two (2) elective courses from the following 
  list:
  Code   Title                        Hours
  BIOS 820 SAS Programming I         3
  BIOS 821 SAS Programming II        3
  BIOS 823 Introduction to Programming and Applied Statistics in R
  BIOS 825 Nonparametric Methods     3
  BIOS 833 Measurement for Statisticians
  BIOS 835 Categorical Data Analysis
  BIOS 845 Survival Analysis        3
  BIOS 850 Multivariate Statistics
  BIOS 855 Statistical Methods in Genomics Research
  BIOS 872 Mathematical Statistics II
  BIOS 880 Data Mining and Analytics

Certificate requirements and course descriptions are subject to change. 
Any courses taken as an equivalent must be approved by the Graduate 
Director and the Office of Graduate Studies. In most cases, use the 
catalog of the year student entered the program. Other years’ catalogs →.

Total Hours 9

This Plan of Study shows the 9 credit hours of required courses and 
shows which semester a specific elective is offered. In addition to the 
required courses, select two (2) elective courses for a minimum of 6 
credit hours in order to meet the 15 credit hour minimum requirement for 
completion of the Biostatistics Graduate Certificate program.

Because the Graduate Certificates in Biostatistics, Biostatistical 
Applications, Applied Statistics, and Applied Data Science signify that 
the holder is prepared for entry into the practice of biostatistics research, 
it follows that students awarded the Graduate Certificates must have 
the knowledge and skills necessary to function in a broad range of 
academic and research situations. The Technical Standards include 
those physical, cognitive and behavioral standards that are required 
for the satisfactory completion of all aspects of the curriculum and 
the development of professional attributes required by all students at 
upon completion of the Graduate Certificate. The following abilities 
and expectations must be met by all students with or without 
accommodations admitted to the Certificates:

1. Observation. A student must be able to observe and evaluate class 
demonstrations and field experiences relevant to the field of statistics. 
He or she must be able to read and comprehend text, numbers, tables 
and graphs, both in print and displayed electronically. Observation 
necessitates the functional use of the senses of vision and hearing.

2. Communication. A student must be able to communicate effectively 
and efficiently in English in oral, written, and electronic form with 
other students, faculty, staff, researchers, and the public. Effective 
communication includes: the ability to understand assigned readings, 
lectures, and technical and professional materials; the ability to analyze
3. **Motor.** A student must have sufficient motor function to attend classes, prepare assignments, use electronic media, and deliver lectures and public presentations. Class requirements may also include work in a variety of collaborative environments.

4. **Intellectual, conceptual, integrative and quantitative abilities.** A student must possess the ability to understand and read and understand documents written in English, to understand and work with measurements and calculations, and to engage in reasoning, analysis, synthesis and critical thinking. A student must be able to exercise sufficient judgment to recognize and correct performance deviations, and be able to draw on all the above mentioned abilities to be an effective problem solver, researcher, and communicator.

5. **Behavioral and social attributes.** A student must have the emotional health required for the full use of his or her intellectual ability. A student must be able to exercise sound judgment, and to act ethically and with integrity. He or she must develop mature, sensitive, and effective professional relationships with others. A student must be self-motivated, reliable and responsible to complete assigned tasks in a timely manner with no supervision. Students must be able to give attention to detail and have the flexibility to function in a research setting, including adapting to changes in time, place and structure of academic and research settings. The student must have the ability to work with diverse groups.

**NOTE:** Reasonable accommodations will be considered and may be made to qualified students who disclose a disability, so long as such accommodation does not significantly alter the essential requirements of the curriculum and the training program, or significantly affect the safety of patient care. Students who disclose that they have a disability are considered for the program if they are otherwise qualified. Qualified students with a disability who wish to request accommodations should provide the appropriate documentation of disability and submit a request for accommodation to the University’s Office for Academic Accommodations.

**Department of Cancer Biology**

The Department of Cancer Biology is a recently developed basic science department in the School of Medicine at the University of Kansas Medical Center. The missions of our department are:

1. To build a strong team of basic researchers with a collaborative and translational mindset who will discover fundamental characteristics of cancer cells that can eventually lead to novel therapeutic and preventive approaches which reduce cancer incidence, morbidities and/or mortality;

2. To understand the molecular genetic and epigenetic, biochemical, cellular and physiologic bases of cancer etiology and progression;

3. To understand the interactions between tumor cells and the microenvironments in which they find themselves;

4. To educate the next generation of cancer researchers, clinicians and patients;

5. To apply, as quickly as possible, fundamental research discoveries to patient care.

Our department is funded by grants from the National Cancer Institute, National Institutes of Health, American Cancer Society, Susan G. Komen for the Cure, Department of Defense, V-Foundation, the National Foundation for Cancer Research and from generous donations from patients, family and friends of the KU Cancer Center.

The Department of Cancer Biology is the home department for multi-departmental and institutional MS and PhD graduate programs. Students can choose from any funded graduate faculty member whose lab is doing cancer research in the KU Cancer Center. Details regarding admission and degree requirements for the M.S. (p. 2201) and Ph.D. (p. 2197) programs can be found on their respective catalog pages.

**Courses**

**CBIO 800. Mechanisms of Tumor Development and Progression: Colloquium Format. 3 Hours.**

This 3 credit course is offered in the fall semester every year. This course examines the genetic alterations and cellular phenotypes involving cancer development in a practical manner. The course discusses the underlying molecular and biological principles that result from these genetic alterations and the methods/approaches to examine cancer phenotypes. By the end of the course, students should understand how cancer develops and how to design experiments to address different scientific hypotheses. In addition, students are expected to learn key points regarding how to prepare and give scientific presentation. The class will involve two, 1.5-hour lecture per week: one consists of didactic lecture by a faculty member and the other is student-led journal club related to the lecture topic. Prerequisite: College level biology. LEC.

**CBIO 820. Cellular and Molecular Mechanisms of Signal Transduction in Cancer: Colloquium. 2 Hours.**

This elective course will be offered in the spring semester every year. This course will be full of discussions on the importance of targeting signaling pathways in cancer through didactic teaching following student led discussion on the topic. The course discusses the underlying responses on signaling mechanisms in different cancers. The major theme is an understanding of how cancer cells receive, transmit and respond to environmental signals. Topics will include different complexity in signal transduction in cancer. There will be a series of lectures on the topics of signal transduction, cell cycle regulation, apoptosis and cancer. Each topic series will be followed immediately by student presentations. The presentations will complement the lectures by providing an overview of a particular topic through the in depth examination of a current research publication. LEC.

**CBIO 840. Tumor Microenvironment. 2 Hours.**

This 2-credit course is offered every other year. This course is designed to achieve two goals. First, to learn about the role of tumor microenvironment in promoting tumor growth, metastasis and response to therapy. Emphasis is given to understand the complex nature of the tumor microenvironment and use examples from specific tumor types to illustrate how the various components of the microenvironment contribute to tumor progression. By the end of the course, students should understand the components of the tumor microenvironment and their effect on the clinical course of the cancer. In addition, they should be able to design experiments to tease out the importance of these components in tumor progression and response to therapy. Secondly, the course is designed to foster higher order thinking in learners, specifically pertaining to the development and application of new theories. The class will involve pre-work and in-class discussion for a total of 3 hours per week. Pre-work including podcast lectures, individual readiness assessment tests, and associated material will be made available to the students on Blackboard.
two weeks before each in-class session. Prerequisite: Permission of Instructor and College Level Biology. LEC.

CBIO 850. Cancer Center Seminar. 1 Hour.
Seminar series covering diverse topics in cancer research. SEM.

CBIO 860. Communicating Cancer Science. 1 Hour.
A weekly meeting where research presentations by pre-/post-doctoral fellows will be critiqued for content and presentation skills by peers and faculty. SEM.

CBIO 870. Analysis of Scientific Papers. 1 Hour.
Research articles are analyzed by the student with the guidance of an instructor in terms of quality of scientific content and mechanics of the presentation. One or more articles are discussed in each tutorial session. The research topics and the instructor are chosen in accordance with the research interest of the student. SEM.

CBIO 880. Advanced Topics in Cancer Research. 1-5 Hours.
Special study allowing a student to pursue a particular subject through readings, specialized laboratory work, writing, or conferences with a faculty member. Prerequisite: Consent of instructor. IND.

CBIO 890. Master's Research in Cancer Biology. 1-10 Hours.
This course is designated for research leading to the master's degree. Independent laboratory investigation approved by and under the supervision of the student's advisor, and in partial fulfillment of the requirements for the M.S. degree. Prerequisite: Consent of advisor. THE.

CBIO 899. Master's Thesis in Cancer Biology. 1-10 Hours.
This course is designated for thesis writing leading to a master's degree in Cancer Biology. The student prepares the formal thesis based upon independent research and in partial fulfillment of the requirements for the M.S. degree. The final defense of the thesis is scheduled only after the written thesis has been accepted by the student's thesis committee. Prerequisite: Consent of advisor. THE.

CBIO 900. Carcinogenesis and Cancer Biology. 3 Hours.
This is a semester long course that presents a survey of core topics in cancer biology and builds upon core IGPBS courses. The survey includes topics of etiology, genetics, signaling, biochemistry, tumor progression, metastasis, major treatment modalities and overviews of major cancer types. Students are assessed based upon class participation, presentations and examinations. Prerequisite: Completion of GSMC 850, GSMC 851, GSMC 853 and GSMC 854 or the equivalent or permission of instructor. LEC.

CBIO 990. Research for Ph.D. in Cancer Biology. 1-15 Hours.
Original and independent laboratory investigation, approved by and conducted under the supervision of the student's advisor and advisory committee, in partial fulfillment of the requirements for the Ph.D. degree. Prerequisite: Consent of Advisor, RSH.

CBIO 999. Dissertation for Ph.D. in Cancer Biology. 1-10 Hours.
This course is designated for dissertation writing leading to a Ph.D. degree in Cancer Biology. The student prepares the formal dissertation based upon independent research and in partial fulfillment of the requirements for the Ph.D. degree. The final defense of the dissertation is scheduled only after the written dissertation has been accepted by the student's thesis committee. Prerequisite: Consent of advisor. THE.

Doctor of Philosophy of Cancer Biology

The Ph.D. program in Cancer Biology (CBIO) prepares the student for a career in independent research and/or teaching. The Ph.D. is typically followed by postdoctoral training in a specific field of study. Graduates of this program will be prepared for positions in industry, government, and consulting, as well as faculty positions at the college, university, and medical/graduate school level. Students mentored by CBIO faculty currently hold positions in academia, biotechnology, pharmacology, government, and scientific writing.

Students that obtain a Ph.D. in Cancer Biology are required to achieve the following expectations:

- Become knowledgeable in the areas of study included in the IGPBS (p. 2259) (Interdisciplinary Graduate Program in the Biomedical Sciences) core curriculum;
- Obtain in-depth and up-to-date expertise in a specialized area of knowledge that is appropriate for the field of your dissertation research project;
- Make original, high quality and publishable contributions to the scientific literature in your chosen research field;
- Become familiar with the scientific literature through general and specialized journals in biological research, and to develop the ability to critically evaluate the original research in your own and related fields;
- Become skilled in organizing and communicating information in oral presentations, and to respond to critical questioning;
- Develop clarity, conciseness, and precision in writing, to aid in grant application writing and publication of your original research results;
- To learn how to ask incisive scientific questions and gain experience in the design, performance and interpretation of laboratory experiments and observations.
- To gain familiarity with the preparation and writing of grant applications. (It is expected that all CBIO students identify available fellowship opportunities and apply as appropriate.)
- To prepare for the teaching as well as the research aspects of an academic career.
- To obtain instruction in research skills and responsible scholarship.

The faculty in this program have diverse research interests ranging from genetics/genomics, signaling (including, regulatory RNA, cell cycle, hormonal regulation of cancers), tumor-host interactions in carcinogenesis and metastasis, tumor immunology, preclinical research, pharmacology and drug resistance. The curriculum is flexible enough to allow students to pursue areas of special interest while maintaining breadth and rigor of cancer biology knowledge.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (http://catalog.ku.edu/medicine/graduate-program-biomedical-sciences/) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate Program in Biomedical Sciences website http://www.kumc.edu/igpbs/how-to-apply.html.

Admission Requirements:

- Bachelor's degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least a 3.0 on a 4.0 scale for the bachelor's degree.

Admission Requirements:
• Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%202016-Oct.pdf).

• A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf) is required during the admission process; it may affect the student’s eligibility to enter the program.

• Three letters of recommendation.

• Prerequisite coursework:
  - One year of general chemistry
  - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  - One year of biological sciences
  - One semester of calculus
  - One semester of physics

• Research experience (beyond labs associated with lecture courses) is strongly suggested.

Applicants will be assessed based on a combination of GPA, and research experience. Students not meeting the above requirements may be eligible for provisional admission. After an applicant has been admitted, a program may defer an applicant’s admission for one year after which the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years’ catalogs.»

The CBIO program consists of coursework, research experience, and the successful completion of a doctoral dissertation. Dissertation research culminates in a final dissertation examination consisting of an oral presentation by the candidate and an examination by the faculty. Relevant prior graduate work is taken into consideration in setting up individual programs of study leading to the Ph.D.

Degree requirements:
• Degree requirements are normally completed within 4 to 6 years of admission to the program although a maximum of 8 years is allowed.

• Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.

• Successful completion of the University’s Research Skills and Responsible Scholarship (http://www.kumc.edu/Documents/graduate%20studies/Res%20SKills%20and%20Respon%20Scholar%20Doctoral%202016-Oct.pdf) requirement prior to the semester the Oral Comprehensive Examination is scheduled.

• Successful completion of GSMD 857 Biographics, GSMD 852 Introduction to Biomedical Research I and GSMD 855 Introduction to Biomedical Research II (or equivalent) meets the Research Skills requirement.

• Successful completion of GSMD 856 Introduction to Research Ethics (or equivalent) meets the Responsible Scholarship requirement.

• Successful completion of the Residence Requirement (http://www.kumc.edu/Documents/graduate%20studies/Residence%202016-Oct(0).pdf) prior to the semester the Oral Comprehensive Examination is scheduled. The requirement is met by enrollment in full-time status a minimum of two semesters.

• Successful completion of the Oral Comprehensive Examination (http://www.kumc.edu/Documents/graduate%20studies/Comprehensive%20Oral%20Exam%20PhD%202016-Oct.pdf). Students are recognized as formal doctoral candidates after they have passed the comprehensive examination. For this examination, students must exhibit the potential for original scientific thought; be familiar with the relevant literature and be able to identify significant research questions in their field; have a good understanding of the underlying principles of the experimental methodologies proposed; show an ability to critically analyze data and to anticipate experimental outcomes; and, have a good fund of knowledge of cancer biology and be proficient in the 2-3 core areas most closely related to their dissertation research.

• Successful completion of the Post-Comprehensive Enrollment (http://www.kumc.edu/Documents/graduate%20studies/Post-Comp%20Enrollment%20PhD%202016-Oct.pdf) requirement.

• Enrollment in a minimum of one (1) credit hour of CBIO 999 Dissertation for Ph.D. in Cancer Biology the semester the student will defend dissertation and graduate.

• Successful completion of the Final Oral Examination (http://www.kumc.edu/Documents/graduate%20studies/Final%20Oral%20Exam%20PhD%202016-Oct.pdf) (dissertation defense). The dissertation should be comparable in scope to justify co-authorship on a rigorously peer-reviewed manuscript. Students qualifying for a CBIO PhD degree must have at least one accepted first-author peer-reviewed research publication at the time of defense and a second submitted first author publication. The Student’s Advisory Committee can petition the CBIO Director and Graduate Advisory Committee for a waiver of these requirements if the scope and impact of the first author published report is deemed of sufficient merit (such a waiver is expected to be an exception, not commonplace). The Student’s Advisory Committee can also petition the CBIO Director and Graduate Advisory Committee for a waiver if the student’s work is deemed of sufficient merit to warrant acceptance in a scientific journal, even if it has not yet been accepted at the time of the student’s dissertation defense.

• Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS) (http://catalog.ku.edu/medicine/graduate-program-biomedical-sciences/) courses (or their equivalent):

• Continued attendance at the KUCC seminar (minimum 75% required determined by sign-in) in both the Fall and Spring semesters after completing 5 semesters of CBIO 850 Cancer Center Seminar.
• Annual presentation and continued attendance at Communicating Cancer Science in both the Fall and Spring semesters after completing 5 semesters of CBIO 860 Communicating Cancer Science.
• Presentation at a regional/national/international meeting at least once prior to final dissertation defense.
• Annual participation and/or attendance at the KU Medical Center Student Research Forum.
• Annual participation and/or attendance at the KU Cancer Center Research Retreats.

Students enrolled in the MD-PhD Physician Scientist Training Program should review the Degree Requirements (p. 2269) section of this catalog for that program.

Degree requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog of the year student entered the program. Other years’ catalogs ».

**TECHNICAL STANDARDS AND REQUIREMENTS FOR THE PH.D. IN CANCER BIOLOGY**

The Ph.D. degree signifies that the holder is prepared for entry into research and/or teaching in postgraduate training and faculty positions. It follows that graduates must have the knowledge and skills to function in a broad variety of academic situations in the classroom and laboratory. Therefore all students admitted must meet the following abilities and expectations.

1. **Observation:** The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.

2. **Communication:** A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.

3. **Motor:** Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to do laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.
4. Intellectual-Conceptual, Integrative, and Quantitative Abilities: The abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. Behavioral and Social Attributes: A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student’s difficulties. At this review the provisions for reasonable accommodation will be determined.

For further information, contact the Department of Cancer Biology, University of Kansas School of Medicine, 2003 Wahi Hall West, 3901 Rainbow Blvd., Kansas City, Kansas 66160 (Phone: (913) 945-7739 E-mail: cancerbiology@kumc.edu

STUDENT POLICY ON INFECTIOUS DISEASE

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for academic program admission at the University of Kansas Medical Center. Determination of eligibility for admission in such cases will be made on an individual basis in consultation with the applicant’s physician, taking into consideration (among other factors), legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Graduate Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the Graduate Student Handbook. Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

Master of Science in Cancer Biology

The Master of Science (M.S.) program in Cancer Biology prepares the student for a career at the advanced technical level in academia, industry, or government. Graduating students may also find teaching positions at the secondary or junior college level.
• Successful completion of the thesis defense (http://www.kumc.edu/Documents/graduate%20studies/Masters%20Exam-Defense%2016-Oct.pdf) or general examination the semester the student will graduate. The thesis should be comparable in scope to justify co-authorship on a rigorously peer-reviewed manuscript. In general, CBIO students graduating with an MS degree should have justified co-authorship on at least one peer-reviewed publication (as determined by their thesis advisory committee).

• Successful completion of the following Cancer Biology courses: (http://catalog.ku.edu/) or general examination the semester the student (http://www.kumc.edu/) (according to Office of Graduate Studies policy.) courses (or their equivalent):

Course in fundamentals of biostatistics and/or informatics.

• Continued attendance at the KUCC seminar (minimum 75% required determined by sign-in) in both the Fall and Spring semesters after completing 5 semesters of CBIO 850 Cancer Center Seminar.

• Annual presentation and continued attendance at Communicating Cancer Science in both the Fall and Spring semesters after completing 5 semesters of CBIO 860 Communicating Cancer Science.

• Annual participation and/or attendance at the KU Medical Center Student Research Forum.

• Annual participation and/or attendance at the KU Cancer Center Research Retreats.
The M.S. degree signifies that the holder is prepared for entry into research in industrial or academic laboratory settings. To that end, graduates must have the knowledge and skills to function in a broad research in industrial or academic laboratory settings. To that end, the M.S. degree signifies that the holder is prepared for entry into research in industrial or academic laboratory settings.

1. **Observation**: The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.

2. **Communication**: A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.

3. **Motor**: Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to do laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. **Intellectual-Conceptual, Integrative, and Quantitative Abilities**: The abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. **Behavioral and Social Attributes**: A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student’s difficulties. At this review the provisions for reasonable accommodation will be determined.

For further information, contact the Department of Cancer Biology, University of Kansas School of Medicine, 2003 Wahl Hall West, 3901 Rainbow Blvd., Kansas City, Kansas 66160 (Phone: (913) 945-7739 E-mail: cancerbiology@kumc.edu

**STUDENT POLICY ON INFECTIOUS DISEASE**

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for academic program admission at the University of Kansas Medical Center. Determination of eligibility for admission in such cases will be made on an individual basis in consultation with the applicant’s physician, taking into consideration (among other factors), legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Graduate Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

**DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS**

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined.

**TECHNICAL STANDARDS AND REQUIREMENTS FOR THE M.S. IN CANCER BIOLOGY**

The M.S. degree signifies that the holder is prepared for entry into research in industrial or academic laboratory settings. To that end, graduates must have the knowledge and skills to function in a broad variety of laboratory settings.

1. **Observation**: The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.
in the Graduate Student Handbook. Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

**Department of History and Philosophy of Medicine**

**The Programs and Mission**

The Department of History and Philosophy of Medicine consists of four major units: the Academic Programs, the Clendening Library, the Clendening Museum, and the KU Medical Center Archives. The Department unites these programs in its mission to advance understanding and application of ethical, historical and social analysis of health, medicine and healing.

Using the combined resources of the department we strive to teach students and colleagues how historical and social factors influence health and health care; and we inform our teaching through scholarship in the history and philosophy of medicine that merits national recognition.

The Library, Archives, and Museum act as careful stewards of the extensive historical collections and promote their use and appreciation; while seeking to add some color to the often drab aesthetic of medical practice.

Finally, through our ethics programs we seek to deepen a moral appreciation of medicine’s role in healing through ethics education and scholarship in the medical school and ethics consultation in the University of Kansas Hospital.

**Explore our featured resources:**

- University of Kansas Medical Center Archives (http://www.kumc.edu/school-of-medicine/history-and-philosophy-of-medicine/kumc-archives.html)

Although no graduate program is offered in this area, HPMD course work may be taken for graduate credit. Graduate level courses taught by History and Philosophy Medicine faculty are available through the Department of History and Philosophy of Medicine, and Department of Population Health on the medical center campus and the Department of History on the Lawrence campus.

**Courses**

**H&PM 853. Responsible Conduct of Research. 1 Hour.**

The purpose of this course is to engage research trainees in reading about, considering, and discussing the responsible conduct of science. The course is designed as an option for meeting current federal regulations, which require that all NIH training grants provide training in the responsible conduct of research. This course provides a concise overview of key subject areas in the responsible conduct of research. It is designed to make students aware of relevant guidelines, policies and codes relating to ethical research, as well as to provide the skills for identifying and resolving ethical conflicts that may arise in research. Cross-linked with PRVM 853. LEC.

**Department of Microbiology, Molecular Genetics, and Immunology**

The mission of the Department of Microbiology, Molecular Genetics and Immunology is to conduct high impact research that is relevant to human health and train the next generation of biomedical scientists and physicians who will advance our understanding of infection and immunity in ways that benefit humankind.

Our nationally recognized research programs, highly supported by NIH research funding (http://www.brimr.org/NIH_Awards/2010/NIH_Awards_2010.htm), cover a variety of topics within the following themes:

- microbial physiology and pathogenesis
- virology
- immunology and host defense

Funding also provides support for pre- and postdoctoral trainees and visiting scientists, as well as for hosting national and international researchers in the Microbiology seminar series.

**Courses**

**MICR 801. Principles of Immunology. 1 Hour.**

An introductory course in immunology; cells and tissues of the immune system; B and T cells and their receptors; major histocompatibility complex; antigen presentation; regulation of immune responses; immunity and vaccination. Prerequisite: IGPBS courses or permission of instructor. LEC.

**MICR 802. Principles of Virology. 1 Hour.**

An introductory course in virology; replication of RNA and DNA viruses; viral RNA processing and translation; reverse transcription; virus assembly; viral pathogenesis; viruses as vectors. Prerequisite: MICR 801 or permission of instructor. LEC.

**MICR 803. Principles of Bacterial Genetics and Pathogenesis. 1 Hour.**

An introductory course in bacteriology; cell structure and function; chromosome and plasmid replication; genetic engineering; bacteriophage; gene regulation; quorum sensing; antibiotics; protein secretion; bacterial pathogenesis. Prerequisite: MICR 801 MICR 802 or permission of instructor. LEC.

**MICR 804. Science Communication. 1 Hour.**

MICR 804. Science Communication. This 1-credit course is designed for students pursuing a graduate degree (PhD or MS) in a biomedical field. This course seeks to provide students with not just experience, but training in science communication, including both oral presentations and written communication. The goal of the course is to equip students with techniques and experience communicating to fellow scientists and non-science audiences, thus better equipping students with key skills necessary for a future in science regardless of career path. Prerequisite: An introductory course in biology, genetics, chemistry or biochemistry. LEC.
MICR 805. Teaching in Higher Education. 3 Hours.
Theoretical and practical aspects of teaching in a graduate degree program with emphasis on program and curriculum design, student assessment, communicating learning expectations, selecting optimal teaching methods aligned with expectations, understanding diverse learning styles, apprenticeship teaching, developing as a teacher and applying contemporary educational theory to the classroom or research laboratory. Prerequisite: Any graduate degree or current enrollment in a graduate degree program or permission of instructor. LEC.

MICR 808. Immunology. 3 Hours.
Molecular and cellular aspects of immunity. Specific topics will include immunoglobulin and receptor structure/function, attributes of antigenicity, antigen-antibody reactions, immunocompetent cells, cellular interactions, soluble mediators of immune responses and normal and abnormal immune regulation. Prerequisite: Permission of course director. LEC.

MICR 809. Tumor Immunology. 3 Hours.
Immune system and tumor growth; tumor immunotherapy. Analysis and applications of experimental systems and discussion of contemporary as well as classical primary literature in the field. Collaborative learning and communication skills emphasized. Prerequisite: IGPBS core curriculum or equivalent, or permission of instructor. LEC.

MICR 810. Fundamentals of Immunology. 2 Hours.
Immune cells and soluble mediators of the innate and adaptive systems, antigen and pattern recognition, lymphocyte development and activation, immune effector mechanisms, mechanisms of immune-based diseases. Analysis and applications of experimental systems and discussion of contemporary as well as classical primary literature in the field. Collaborative learning and communication skills emphasized. Prerequisite: Introductory course work in cell and molecular biology; biochemistry and genetics. LEC.

MICR 811. Molecular Genetics of Bacteria and Phages. 2 Hours.
This 2-credit course is designed for students pursuing a graduate degree in a biomedical field. The goal of the course is to introduce the fundamental concepts of modern microbial genetics and to expose the students to commonly used experimental procedures in microbial and molecular genetics. Students will study both textbook and literature sources and will learn to apply research methods to understand the problems associated with the bacterial physiology and genetics. Active learning approaches in the classroom will require that students work collaboratively with others. Both written and oral communication will be emphasized as important learning outcomes in this course. Prerequisite: An introductory course in biology, genetics, chemistry or biochemistry. LEC.

MICR 812. Molecular Virology and Pathogenesis. 2 Hours.
This Virology course is aimed at graduate students who are pursuing a graduate degree in a biomedical field. It provides a contemporary understanding of how viruses are built, how they infect and replicate in host cells, how they spread and evolve, how they interact with host cells, how they eventually cause diseases, and how infection of a host can be prevented. Prerequisite: Introductory course work in cell and molecular biology, biochemistry and genetics. LEC.

MICR 820. Bacterial Genetics and Pathogenesis. 3 Hours.
Genetics of bacteria with emphasis on bacterial pathogens. Topics include: gene regulation, recombination, bacteriophages, transposons, genetic exchange, plasmids, genetics of virulence, bacterial adherence and colonization, immune evasion mechanisms, bacterial toxins, vaccines and antimicrobials, re-emerging bacterial diseases. Prerequisite: Introductory course work in cell and molecular biology, biochemistry and genetics or permission of instructor. LEC.

MICR 825. Virology. 3 Hours.
Molecular biology of animal viruses. Aspects of various virus groups to be covered include structure, replication, and host cell responses. Lectures and student seminars. Prerequisite: Permission of the course director. LEC.

MICR 826. Oncogenesis Associated with Viral Infections. 3 Hours.
The course is designed primarily for students pursuing a graduate degree in a biomedical field. The course will evaluate current understanding of the various mechanisms that mediate carcinogenesis that is linked to viral infections. It will also consider strategies of circumventing virus infections as a potential way of preventing the development of tumors. Prerequisites: Course MICR 812 or permission of instructor. LEC.

MICR 830. Seminar in Microbiology. 1 Hour.
Reports on research and literature. LEC.

MICR 835. Research in Microbiology. 1-6 Hours.
This course is specifically designed to provide supervised research experience in various laboratories in the department. LEC.

MICR 855. Host-Pathogen Interactions. 3 Hours.
Concepts of host-pathogen interactions, with an emphasis on how pathogens interact with the innate immune system. Course is primary literature-based with a body system organized approach covering niche-specific immune factors and how pathogens circumvent these systems. Prerequisite: MICR 810 and one of two Fundamentals Courses (MICR 811 or 812) or permission of course director. LEC.

MICR 890. Master's Research in Microbiology. 1-10 Hours.
This course is designated for research leading to the master's degree. LEC.

MICR 899. Master's Thesis in Microbiology. 1-10 Hours.
This course is designated for thesis writing leading to a master's degree in Microbiology. THE.

MICR 930. Advanced Topics in Microbiology. 1-8 Hours.
An advanced approach to selected topics in any of the major disciplines in microbiology. Readings and conferences, or advanced laboratory techniques. LEC.

MICR 990. Research for Ph.D. in Microbiology. 1-10 Hours.
This course is restricted entirely to dissertation research. RSH.

MICR 999. Dissertation for Ph.D. in Microbiology. 1-10 Hours.
Restricted to actual writing of dissertation. THE.

Master of Science in Microbiology

M.S. degrees may be earned with a major emphasis in bacteriology, virology or immunology. M.S. program is designed to prepare for a diverse workforce of scientists, teachers and administrators who fill the broad science and engineering employment needs of the private and government sectors. It may also lead to teaching positions at the secondary or junior college level.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (p. 2258) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate Program in Biomedical Sciences website http://www.kumc.edu/igpbs/how-to-apply.html.

Admission requirements:

- Bachelor's degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been
conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.

- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor’s degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Engl%20Prof%202016-Oct.pdf).
- A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf) is required during the admission process; it may affect the student’s eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
- Three letters of recommendation.

**Prerequisite coursework:**
- One year of general chemistry
- One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
- One year of biological sciences
- One semester of calculus
- One semester of physics
- Research experience (beyond labs associated with lecture courses) is strongly suggested.
- Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant’s admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years’ catalogs».

**Degree Requirements:**
- Degree requirements are normally completed within 3 years of admission to the degree program although a maximum of 7 years is allowed.
- Cumulative grade-point average (GPA) of at least 3.0 for all KU graduate coursework.
- Completion of a minimum of 30 credit hours.
- Enrollment in a minimum of one (1) credit hour the semester the student will graduate.
- Successful completion of either a thesis defense or general examination (http://www.kumc.edu/Documents/graduate%20studies/Masters%20Exam-Defense%202016-Oct.pdf) the semester the student will graduate.
- If thesis option chosen, then enrollment in a minimum of one (1) credit hour of MICR 899 Master's Thesis in Microbiology and successful thesis submission and publication (http://www.kumc.edu/Documents/graduate%20studies/Thesis%20Submit%20and%20Pub%202016-Oct.pdf) (according to Office of Graduate Studies policy.)

- Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS) (p. 2258) courses (or their equivalent):

TECHNICAL STANDARDS AND REQUIREMENTS FOR THE MICROBIOLOGY GRADUATE PROGRAM

The M.S. degree signifies that the holder is prepared for entry into research in industrial or academic laboratory settings. To that end, graduates must have the knowledge and skills to function in a broad variety of laboratory settings. Therefore all students admitted for graduate study must meet the following abilities and expectations.

1. Observation: The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.

2. Communication: A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.

3. Motor: Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to do laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. Intellectual-Conceptual, Integrative, and Quantitative Abilities: The abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. Behavioral and Social Attributes: A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student’s difficulties. At this review the provisions for reasonable accommodation will be determined.

For further information, contact the Microbiology Graduate Program, University of Kansas Medical Center, 3025 Wahi Hall West, 3901 Rainbow Blvd., Kansas City, Kansas 66160. Phone: (913) 588-7099; Fax: (913) 588-7295; E-mail: micrograd@kumc.edu.

STUDENT POLICY ON INFECTIOUS DISEASE

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for academic program admission at the University of Kansas Medical Center. Determination of eligibility for admission in such cases will be made on an individual basis in consultation with the applicant’s physician, taking into consideration (among other factors), legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Graduate Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS
It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the Graduate Student Handbook. Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

**Doctor of Philosophy in Microbiology**

A Ph.D. is required for careers in independent academic research in microbiology and immunology. The Ph.D. degree is most often followed by two or more years of postdoctoral training in a specific area of research. Ph.D. graduates in microbiology, with appropriate postdoctoral experience, are ready to compete effectively for faculty positions at a college or university, senior level positions in biotech industry and government.

The faculty in this program have diverse research interests ranging from the molecular pathogenesis of infectious agents (bacteria and viruses) to the understanding of immune function. Students with undergraduate degrees in microbiology, biochemistry or other similar disciplines are encouraged to apply.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (p. 2258) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate Program in Biomedical Sciences website [http://www.kumc.edu/igpbs/how-to-apply.html](http://www.kumc.edu/igpbs/how-to-apply.html).

**Admission requirements:**

- Bachelor's degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor's degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the English Proficiency Requirement [http://www.kumc.edu/Documents/graduate%20studies/Mn%20Eng%20Prof%202016-Oct.pdf](http://www.kumc.edu/Documents/graduate%20studies/Mn%20Eng%20Prof%202016-Oct.pdf).
- A background check [http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf](http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf) is required during the admission process; it may affect the student's eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
- Three letters of recommendation.
- Prerequisite coursework:
  - One year of general chemistry
  - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  - One year of biological sciences
  - One semester of calculus
  - One semester of physics
  - Research experience (beyond labs associated with lecture courses) is strongly suggested.
  - Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant's admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. [Other years' catalogs](http://www.kumc.edu/Documents/graduate%20studies/Res%20Skills%20and%20Responsible%20Scholar%20Requirements%20PhD%2016-Oct.pdf).

The program consists of coursework, research experience, and the successful completion of a doctoral dissertation. Dissertation research culminates in a final dissertation examination consisting of an oral presentation by the candidate and an examination by the faculty. Relevant prior graduate work is taken into consideration in setting up individual programs of study leading to the Ph.D.

**Degree requirements:**

- Degree requirements are normally completed within 5 years of admission to the program although a maximum of 8 years is allowed.
- Cumulative grade-point average (GPA) of at least 3.0 for all KU graduate coursework.
- Successful completion of GSMC 857 Biographics, GSMC 852 Introduction to Biomedical Research I and GSMC 855 Introduction to Biomedical Research II (or equivalent) meets the Research Skills requirement.
- Successful completion of GSMC 856 Introduction to Research Ethics (or equivalent) meets the Responsible Scholarship requirement.
- Successful completion of the Residence Requirement [http://www.kumc.edu/Documents/graduate%20studies/Residence%20Requirement%20PhD%2016-Oct.pdf](http://www.kumc.edu/Documents/graduate%20studies/Residence%20Requirement%20PhD%2016-Oct.pdf) prior to the semester the Oral Comprehensive Examination is scheduled. The requirement is met by enrollment in full-time status a minimum of two semesters.
- Successful completion of the Oral Comprehensive Examination [http://www.kumc.edu/Documents/graduate%20studies/Comprehensive%20Exam%20PhD%2016-Oct.pdf](http://www.kumc.edu/Documents/graduate%20studies/Comprehensive%20Exam%20PhD%2016-Oct.pdf). After completing GSMC courses and two full semesters in the department, students start their comprehensive exam. The exam is an NIH F31 Fellowship style that provides maximum flexibility by allowing the topic to be on the student's research topic, closely related or off-topic. A pre-proposal allows the committee to provide guidance before submission of the final written comprehensive exam. Finally, there is an oral defense of the proposal. The goal is to accomplish all of this within five months. Students are recognized as formal doctoral candidates after they have passed the comprehensive examination.
• Successful completion of the Post-Comprehensive Enrollment (http://www.kumc.edu/Documents/graduate%20studies/Post-Comp%20Enrollment%20PhD%202016-Oct.pdf) requirement.

• Enrollment in a minimum of one (1) credit hour of MICR 999 Dissertation for Ph.D. in Microbiology the semester the student will defend dissertation and graduate.

• Successful completion of the Final Oral Examination (http://www.kumc.edu/Documents/graduate%20studies/Final%20Oral%20Exam%20PhD%202016-Oct.pdf) (dissertation defense.) The doctoral candidate prepares a written dissertation detailing the results of their original research.

• Successful completion of the following Microbiology courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MICR 810</td>
<td>Fundamentals of Immunology</td>

TECHNICAL STANDARDS AND REQUIREMENTS FOR THE MICROBIOLOGY GRADUATE PROGRAM

The Ph.D. degree signifies that the holder is prepared for entry into research and/or teaching in postgraduate training and faculty positions. It follows that graduates must have the knowledge and skills to function in a broad variety of academic situations in the classroom and laboratory. Therefore all students admitted for graduate study must meet the following abilities and expectations.

1. Observation: The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.

2. Communication: A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.

3. Motor: Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to do laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. Intellectual-Conceptual, Integrative, and Quantitative Abilities: The abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. Behavioral and Social Attributes: A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student’s difficulties. At this review the provisions for reasonable accommodation will be determined.

For further information, contact the Microbiology Graduate Program, University of Kansas Medical Center, 3025 Wahl Hall West, 3901
STUDENT POLICY ON INFECTIOUS DISEASE

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for academic program admission at the University of Kansas Medical Center. Determination of eligibility for admission in such cases will be made on an individual basis in consultation with the applicant’s physician, taking into consideration (among other factors), legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Graduate Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the Graduate Student Handbook. Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

Department of Molecular and Integrative Physiology

Research programs in the Department of Molecular and Integrative Physiology cover the range from analysis of genes to analysis of whole organisms and fall into three broad categories:

  - This area includes the investigation of physiology and pathophysiology in experimental models ranging from cellular preparations to intact animals and humans. Current research is directed at studies of the microvascular system, cardiac system, hypoxia and oxygen transport in the respiratory system, metabolism within adipose, muscle and liver, and plasma membrane and fluid transport within the renal system. Research also encompasses various aspects of cancer biology including both in vitro and in vivo approaches.
  - This area includes the investigation of neural function in normal and disease states, and addresses problems at different levels ranging from the regulation of nervous system genes to central nervous system mechanisms controlling arm movement in the intact animal. Current research includes the study of development, transplantation, demyelinating diseases, recovery of function following peripheral and central nervous system injury and stroke, motor and cognitive defects associated with HIV, neurophysiological, behavioral and molecular measures of early development, central mechanisms of hearing, neurotransmitters and plasticity.
  - This area includes the investigation of the hypothalamic-pituitary-gonadal axis, as well as uterine and placental function. Current studies are directed at mechanisms of hormone action, cell motility, cell-cell communication, cell and tissue differentiation and growth, cytokines and growth factors, gene expression and control of enzyme regulation in ovary, testis, sperm, hypothalamic-pituitary axis, preimplantation embryo, trophoblast/placenta and placenta and uterus. Mammalian and invertebrate reproductive models including transgenic and gene knockout mice provide fundamental information related to cell biology, endocrinology, and developmental biology.

The common thread is that all programs endeavor to understand biological function in health and disease. Nearly all faculty members have served on national advisory committees to major funding agencies such as the National Institutes of Health and as reviewers and editors to major scientific publications. The program provides outstanding didactic instruction and laboratory experiences that enable students to become effective teachers and independent investigators. The department offers the Ph.D. degree, and the combined M.D./Ph.D.degrees in conjunction with the School of Medicine. An M.S. degree may be granted in appropriate circumstances.

Courses

PHSL 784. Faculty Research Programs. 1 Hour.

The new student will be introduced to the faculty research programs. Each faculty member will present his/her research interests using one or more of the following formats: laboratory demonstrations, computer simulations and lectures. The objectives are to assist the new student in selecting his/her area of dissertation research and acquainting the new student with the department research resources. LEC.

PHSL 834. Reproductive Physiology. 5 Hours.

All aspects of reproductive physiology including an in depth study of ovarian and testicular development/function, neuroendocrine development/function, implantation, placentation, puberty, pregnancy and fertility regulation are covered. Historical and current scientific literature will be used to support a graduate level text and didactic lectures. Prerequisite: a general endocrinology/physiology course, an equivalent course and/or consent of instructor. LEC.

PHSL 835. Integrative Physiology of Exercise. 3 Hours.

To understand how the major physiological systems of the body respond to exercise with an emphasis on integration and function. Historical and current scientific literature will be used to generate discussion and support didactic material. Fundamentals of exercise physiology will be covered, but a background in exercise physiology is not required. Prerequisite: a general physiology course, an equivalent course and/or consent of instructor. LEC.

PHSL 838. Advanced Topics. 1-3 Hours. Special studies designed and arranged on an individual basis to allow a student to pursue a particular subject through reading, special laboratory work, and conferences with a senior staff member. LEC.
PHSL 840. Advanced Genetic Analysis. 3 Hours.
This course will focus on principles that underlie genetic analysis, including mutation, complementation, recombination, segregation, and regulation. The genetics of commonly used model organisms such as yeast, flies, worms and mice will be examined, classic genetic screens performed to study phage assembly, cell cycle regulation, sex determination and X-chromosome inactivation will be discussed and modern-day techniques used to study inheritance and gene function in various systems will be analyzed. Human genetic analysis will also be covered, including population genetics, techniques for gene mapping, inherited diseases, genetic testing and gene therapy. Through reading and discussion of scientific literature and problem-based homework and exams, students will learn how to evaluate and interpret genetic data as well as develop and design genetic strategies to solve current biological problems. Prerequisite: Completion of IGPBS Core Curriculum or equivalent, or permission of Course Director. LEC.

PHSL 842. Comprehensive Human Physiology. 5 Hours.
Advanced course on modern human physiology. The course focuses on organ systems of the human body including nervous, cardiovascular, endocrine, digestive, respiratory, reproductive and urinary systems. This course emphasizes the use of modern experimental approaches that take advantage of cellular and molecular technologies. Prerequisite: NONE LEC.

PHSL 843. Physiology of Disease. 3 Hours.
This course will cover physiological changes associated with representative diseases of major organ systems (endocrine, muscle, cardiovascular, respiratory, renal, gastrointestinal, immune, nervous, and reproductive). Example diseases to be covered include: diabetes, pituitary disorders, osteoporosis, obesity, non-alcoholic fatty liver disease, muscular dystrophy, hypertension, chronic obstructive pulmonary disease, asthma, glomerulonephritis, polycystic kidney disease, gastroesophageal reflux disease, inflammatory bowel diseases, rheumatoid arthritis, multiple sclerosis, infertility, endometriosis, and pregnancy complications. Class will include lectures, faculty-mentored student presentations, evaluations of research papers, and discussions. LEC Prerequisite: Comprehensive Human Physiology (PHSL 842), an equivalent course, or consent of Course Director. LEC.

PHSL 844. Neurophysiology. 3 Hours.
Somatosensory, motor and cognitive function of the brain will be discussed using a combination of lecture and student presentation formats. Current issues and evidence underlying accepted concepts and mechanisms will be emphasized. (Same as NEUS 844 and NURO 844.) Prerequisite: PHSL 846 or equivalent and consent of instructor. LEC.

PHSL 846. Advanced Neuroscience. 5 Hours.
Team-taught, in-depth neuroscience course focusing on normal and diseased brain function at the molecular, cellular and systems levels. Lectures and discussions will emphasize current issues in neuroscience research. (Same as ANAT 846, PHCL 846, NURO 846 and NEUS 846.) Prerequisite: Permission of the course director. LEC.

PHSL 847. Developmental Neurobiology. 2 Hours.
Development of the nervous system from early induction to the development of learning and memory. Topics include: Induction; Cellular Differentiation; Axon Growth and Guidance; Target Selection; Cell Survival and Growth; Synapse Formation; Synapse Elimination; and Development of Behavior. (Same as ANAT 847, NURO 847, and NEUS 847.) Prerequisite: Advanced Neuroscience (ANAT 846; NURO 846; PHSL 846) or consent of instructor. LEC.

PHSL 848. Molecular Mechanisms of Neurological Disorders. 3 Hours.
An in-depth coverage of pathogenic mechanisms in neurological diseases; cellular and molecular responses to brain injury and disease, neuroinflammatory diseases (e.g., Alzheimer’s, Parkinson’s, Huntington’s, amyotrophic lateral sclerosis, and prion diseases), neurogenetic diseases (e.g., lysosomal and peroxisomal disorders, Down’s syndrome and fragile X), trauma, stroke, and viral diseases (e.g., HIV encephalitis). (Same as ANAT 848, NURO 848, PHCL 848, and NEUS 848.) Prerequisite: Advanced Neuroscience (ANAT 846, PHCL 846 or PHSL 846) or an equivalent course and consent of instructor. LEC.

PHSL 850. Research. 1-10 Hours.
Original laboratory investigation conducted under the supervision of a senior staff member. RSH.

PHSL 851. Seminar. 1 Hour.
Student participation (attendance and presentation) in weekly Departmental seminar series. The topics examined in these seminars are dictated by the interests of students and staff. Prerequisite: student must have passed their oral comprehensive exam. LEC.

PHSL 899. Master’s Thesis. 1-5 Hours.
Preparation of the formal thesis based on library research or independent research and in partial fulfillment of the requirements for the master’s degree. Credits will be given only after the thesis has been accepted by the student’s thesis committee. THE.

PHSL 999. Doctoral Dissertation. 1-10 Hours.
Preparation of the Dissertation based on original research and in partial fulfillment of the requirements for the Ph.D. degree. Credits will be given only after the dissertation has been accepted by the student’s dissertation committee. THE.

Master of Science in Molecular and Integrative Physiology

The Master of Science (M.S.) in Molecular and Integrative Physiology prepares the student for a career at the advanced technical level in academia, industry or government. It may also lead to teaching positions at the secondary or junior college level.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (p. 2258) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate Program in Biomedical Sciences website http://www.kumc.edu/igpbs/how-to-apply.html.

Admission requirements:

- Bachelor’s degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required.

- Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.

- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor's degree.

- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English
• A background check (http://www.kumc.edu/Documents/graduate\%20studies/Background\%20Check\%2016-Oct.pdf) is required during the admission process; it may affect the student’s eligibility to enter the program.
• An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
• Three letters of recommendation.
• Prerequisite coursework:
  • One year of general chemistry
  • One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  • One year of biological sciences
  • One semester of calculus
  • One semester of physics
• Research experience (beyond labs associated with lecture courses) is strongly suggested.
• Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant's admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years' catalogs ».

Degree requirements:
• Degree requirements are normally completed within 3 years of admission to the program although a maximum of 7 years is allowed.
• Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.
• Completion of a minimum of 30 credit hours.
• Enrollment in a minimum of one (1) credit hour of PHSL 899 Master's Thesis the semester the student will defend thesis and graduate.
• Successful thesis submission and publication (http://www.kumc.edu/Documents/graduate\%20studies/Thesis\%20Submit\%20and%20Pub\%2016-Oct.pdf) (according to Office of Graduate Studies policy.)
• Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS) (p. 2258) courses (or their equivalent):

<table>

STUDENT POLICY ON INFECTIOUS DISEASE

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for academic program admission at the University of Kansas Medical Center. Determination of eligibility for admission in such cases will be made on an individual basis in consultation with the applicant’s physician, taking into consideration (among other factors), legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Departmental Graduate Student Advisory Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the Graduate Student Handbook. Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

Doctor of Philosophy in Molecular and Integrative Physiology

The Ph.D. in Molecular and Integrative Physiology prepares the student for a career in independent research in the broad area of Physiology. The Ph.D. is most often followed by one or more years of postdoctoral training in a specific area of research. Acquisition of a Ph.D. in Molecular and Integrative Physiology allows the individual to pursue positions in industry or government and following postdoctoral experience opportunities are available at the college or university level.

Upon acceptance into the graduate program in Molecular and Integrative Physiology, the student will select a research track for their subsequent studies. Three different tracks are available to the student:

- Cellular & Integrative Physiology
- Neuroscience
- Reproduction & Development

Each track has specialized curriculum requirements that must be followed for degree completion.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (p. 2258) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate Program in Biomedical Sciences website http://www.kumc.edu/igpbs/how-to-apply.html.
Admission requirements:

- Bachelor’s degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor’s degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Engl%20Prof%202016-Oct.pdf).
- A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf) is required during the admission process; it may affect the student’s eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
- Three letters of recommendation.
- Prerequisite coursework:
  - One year of general chemistry
  - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  - One year of biological sciences
  - One semester of calculus
  - One semester of physics
- Research experience (beyond labs associated with lecture courses) is strongly suggested.
- Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant’s admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years' catalogs are available.

The program consists of coursework, research experience, and the successful completion of a doctoral dissertation. Dissertation research culminates in a final dissertation examination consisting of an oral presentation by the candidate and an examination by the faculty. Relevant prior graduate work is taken into consideration in setting up individual programs of study leading to the Ph.D.

Degree Requirements:

- Degree requirements are normally completed within 6 years of admission to the program although a maximum of 8 years is allowed.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.
- Successful completion of the University’s Research Skills and Responsible Scholarship (http://www.kumc.edu/Documents/graduate%20studies/Res%20Skills%20and%20Respon%20Scholar%202016-Oct.pdf) requirement prior to the semester the Oral Comprehensive Examination is scheduled.
- Successful completion of G5MC 857 Biographies, GSMC 852 Introduction to Biomedical Research I and GSMC 855 Introduction to Biomedical Research II (or equivalent) meets the Research Skills requirement.
- Successful completion of GSMC 856 Introduction to Research Ethics (or equivalent) meets the Responsible Scholarship requirement.
- Successful completion of the Residence Requirement (http://www.kumc.edu/Documents/graduate%20studies/Residence%202016-Oct(0).pdf) by enrollment in full-time status a minimum of two semesters prior to the semester the Oral Comprehensive Examination is scheduled.
- Successful completion of the Oral Comprehensive Examination (http://www.kumc.edu/Documents/graduate%20studies/Comprehensive%20Oral%20Exam%20PhD%202016-Oct.pdf). Students are recognized as formal doctoral candidates after they have passed the comprehensive examination.
- Successful completion of the Post-Comprehensive Enrollment (http://www.kumc.edu/Documents/graduate%20studies/Post-Comp%202016-Oct.pdf) requirement.
- Enrollment in a minimum of one (1) credit hour of PHS 999 Doctoral Dissertation the semester the student will defend dissertation and graduate.
- Successful completion of the Final Oral Examination (http://www.kumc.edu/Documents/graduate%20studies/Final%20Oral%20Exam%20PhD%202016-Oct.pdf) (dissertation defense.)
- Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS) (p. 2258) courses (or their equivalent):

Students enrolled in the MD-PhD Physician Scientist Training Program should review the Degree Requirements (p. 2269) section of this catalog for that program.

Degree requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog of the year student entered the program. Other years’ catalogs.*
Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet these expectations will be reviewed and assessed by the Departmental Graduate Student Advisory Committee and KUMC Technical Support staff. At this review the provisions for reasonable accommodation will be determined.

For further information, contact Graduate Director, Department of Molecular and Integrative Physiology, G011 Wahi Hall East, Mail Stop 3043, University of Kansas Medical Center, 3901 Rainbow Blvd., Kansas City, Kansas 66160 Phone: (913) 588-7025

STUDENT POLICY ON INFECTIOUS DISEASE

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for academic program admission at the University of Kansas Medical Center. Determination of eligibility for admission in such cases will be made on an individual basis in consultation with the applicant’s physician, taking into consideration (among other factors), legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Departmental Graduate Student Advisory Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the Graduate Student Handbook. Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

Department of Pathology & Laboratory Medicine

The Department of Pathology & Laboratory Medicine crosses the bridge between basic science and clinical practice and involves the study and diagnosis of disease. We emphasize innovative, service-oriented programs that encompass a full spectrum of medical practice. Our Mission is to provide excellent teaching, research, patient care and community service and to meet the health needs of Kansas and the community at large. Our Aim is to provide a supportive work environment so that each individual can excel and pursue avenues that lead to recognition within the medical community and benefit healthcare at large. The Department provides vital patient services to the Hospital, Greater Kansas City Metropolitan Area and outlying medical facilities through our clinical laboratory (http://www.kumc.edu/school-of-medicine/pathology/clinical-services.html) and anatomic (surgical) services (http://www.kumc.edu/school-of-medicine/pathology/anatomicsurgical-services.html). Faculty are board-accredited and the department provides a full spectrum of subspecialized expertise. The clinical laboratory processes over 3 million samples per year including the services of robotic automation and is accredited by the American Association of
PATH 803. Stem Cell Biology. 2 Hours.

Current concepts in the study of stem cells and the clinical potential in modern disease treatment. Students will learn concepts of stem cells: origin, regulation of pluripotency, and differentiative potential; experimental isolation and manipulation; and clinical application of isolated stem cells. Current scientific literature will be used to highlight recent advances in stem cell biology. Special emphasis will be placed on the ethical and legal issues surrounding the use of stem cells of both adult and embryonic origin. Prerequisite: Course in cell biology; consent of instructor. LEC.

PATH 804. Selected Topics in Signal Transduction. 1 Hour.

A survey of the basic principles and contemporary literature of signal transduction pathways involved in cancer development and developmental biology. Faculty lecture and student presentations will address selected topics in cellular signal transduction. Student seminars will focus on the scientific content of the publication with emphasis on appropriate presentation of background information, experimental methods, results and potential future directions. Critical discussion of papers will be provided by participating students and faculty. Prerequisite: Course in Molecular Biology. LEC.

PATH 805. Seminars in Pathology. 1 Hour.

Presentation of Pathology Department graduate student research-in-progress. Students will conduct a one-hour seminar in which updates of their current research project(s) in pathology will be reported. The seminars are interactive and students are encouraged to participate in discussion of the presented work. Prerequisite: Completion of the IGPBS core curriculum and status as a second-year graduate student; consent of instructor. RSC.

PATH 806. Epigenetics. 2 Hours.

Current concepts in epigenetic regulation of transcription, including its involvement in disease. Current scientific literature will be used to examine recent advances in the role of epigenetic regulation in transcription and its impact on cellular processes, including growth, differentiation, development, and disease. Students will learn the fundamental concepts of epigenetic regulation and the role of the epigenetic regulation in various gene expression systems. The role of epigenetics in long-range DNA interactions will also be studied, with an emphasis on enhancer, silencer, and locus control region function. Recent advances in the role of epigenetics in disease, including cancer will also be examined. The course will examine current experimental methods to study epigenetics and gene regulation. Prerequisite: Completion of the IGPBS core curriculum or equivalent; consent of instructor. LEC.

PATH 890. Research in Pathology. 1-10 Hours.

RSH. Replaces PATH 911 in prior catalogs. Enrollment for masters students and PhD students who have yet to successfully complete the oral comprehensive examination. RSH.

PATH 899. Master's Thesis. 1-7 Hours.

RSH. Replaces PATH 911 in prior catalogs. Enrollment for masters students and PhD students who have yet to successfully complete the oral comprehensive examination. RSH.

PATH 912. Advanced Topics. 1-3 Hours.

Offered by arrangement. Prerequisite: Approval of the instructor and completion of the IGPBS core curriculum or its equivalent. IND.

PATH 913. Introduction to Grant Proposal Writing. 1 Hour.

This course will teach the fundamentals of writing a grant proposal with an emphasis on NIH proposals. This course is open to any graduate students interested in applying for pre-doctoral fellowships, and especially to graduate students in the Department of Pathology who will be conducting their comprehensive qualifying exams in the upcoming year. This course involves a combination of didactic lectures, student coursework and discussion. This course will include different principal investigators from the Pathology Department as guest speakers. Topics will include different sources of funding, grant submission and post-submission review process. However, the core component of this course will involve teaching the basic framework and components of a NIH R01 application. This course is designed to give practical structural guidance in scientific writing at a professional level and does not give guidance on specific research projects. Prerequisite: IGPBS coursework or equivalent, permission of instructor. LEC.

PATH 990. Doctoral Research in Pathology. 1-10 Hours.

RSH for PhD candidates who have successfully completed the oral comprehensive examination. Prerequisite: PATH 890. RSH.
PATH 999. Doctoral Dissertation. 1-7 Hours.

THE.

Master of Science in Pathology

The Master of Science in Pathology provides comprehensive training in understanding the molecular basis of disease and the fundamental mechanisms of cell growth and differentiation. It prepares the student for either a career in advanced academia or lays the base for continued terminal education. It may also lead to teaching positions at the secondary or junior college level.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (p. 2258) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate Program in Biomedical Sciences website http://www.kumc.edu/igpbs/how-to-apply.html.

Admission requirements:

- Bachelor’s degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least a 3.0 on a 4.0 scale for the bachelor’s degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Engl%20Prof%202016-Oct.pdf).
- A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf) is required during the admission process; it may affect the student’s eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
- Three letters of recommendation.
- Prerequisite coursework:
  - One year of general chemistry
  - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  - One year of biological sciences
  - One semester of calculus
  - One semester of physics
- Research experience (beyond labs associated with lecture courses) is strongly suggested.
- Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant’s admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years’ catalogs.

Degree requirements:

- Degree requirements are normally completed within 3 years of admission to the degree program although a maximum of 7 years is allowed.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.
- Completion of a minimum of 30 credit hours.
- Participation in faculty advisory committee meetings starting after 12 months in the program. Meetings at six-month intervals are recommended and required every 12 months with greater frequency as the student nears his/her thesis defense.
- Enrollment in a minimum of one (1) credit hour of PATH 899 Master’s Thesis the semester the student will defend and graduate.
- Successful completion of a thesis defense (http://www.kumc.edu/Documents/graduate%20studies/Masters%20Exam-Defense%202016-Oct.pdf). The thesis defense may be undertaken after the student has completed all requisite and elective coursework and has met the University’s minimum credit hour requirement. The examination consists of both a final written submission of the student’s research project and related oral presentation. It should reflect the student’s current fund of knowledge, research skills and ability to progress in an industrial or education venue which may include pursuance of a terminal degree. It may be undertaken only after the student’s advisory committee has approved the student’s project and recommended the defense. The student is required to submit a final project for approval to his or her mentor, thesis defense examination committee and director of Pathology’s graduate program a minimum of four weeks in advance of the examination; only when the student has successfully completed this stage will the request for examination be submitted to Graduate Studies for approval to defend (must be at least three weeks in advance of the examination).
- Successful thesis submission and publication (http://www.kumc.edu/Documents/graduate%20studies/Thesis%20Submit%20and%20Pub%202016-Oct.pdf) (according to Office of Graduate Studies policy.)
- Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS) (p. 2258) courses (or their equivalent):

### TECHNICAL STANDARDS AND REQUIREMENTS FOR GRADUATE PROGRAMS IN PATHOLOGY & LABORATORY MEDICINE

The Masters degree signifies that the holder is prepared for entry into research and/or teaching in postgraduate training and faculty positions. It follows that graduates must have the knowledge and skills to function in a broad variety of academic situations in the classroom and laboratory. Therefore all students admitted for graduate study must meet the following abilities and expectations.

1. **Observation**: The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.

2. **Communication**: A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.

3. **Motor**: Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to do laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. **Intellectual-Conceptual, Integrative, and Quantitative Abilities**: The abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. **Behavioral and Social Attributes**: A candidate must possess the emotional health required for full utilization of his/her intellectual
abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student’s difficulties. At this review the provisions for reasonable accommodation will be determined.

For further information, contact either Soumen Paul, PhD, Pathology & Laboratory Medicine Graduate Program Director, spaul2@kumc.edu, Phone: 913.588.7236 or Lauren Yonkey, Administrative Officer, lyonkey@kumc.edu, Phone: 913.588.7474, Fax: 913.588.7073.

STUDENT POLICY ON INFECTIOUS DISEASE

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for academic program admission at the University of Kansas Medical Center. Determination of eligibility for admission in such cases will be made on an individual basis in consultation with the applicant’s physician, taking into consideration (among other factors), legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Graduate Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the Graduate Student Handbook (http://www.kumc.edu/student-handbook.html). Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

Doctor of Philosophy in Pathology

The Department of Pathology and Laboratory Medicine offers a graduate program leading to the PhD degree including research opportunities with emphasis on developmental biology and cell differentiation, cancer biology, stem cell biology, microbial and viral pathogenesis, gene regulation and experimental pathology. This curriculum is designed for advanced research study in molecular and cellular biology and experimental pathology.

The course requirements of the Pathology Department Graduate Program are designed to provide maximum flexibility for the student’s specialized needs. Students enrolled in the program are required to take graduate coursework in fields related to molecular and experimental pathology and to choose electives from either Pathology or other Medical Center departments related to their major dissertation work. After passing the Comprehensive Examination, students will devote most of their time to laboratory experimentation and developing a research project. Substantial portions of the research efforts should result in published works in peer-reviewed scientific journals.

The Doctorate of Philosophy in Pathology and Laboratory Medicine provides comprehensive training in understanding the molecular basis of disease and the fundamental mechanisms of cell growth and differentiation. Subspecialized research interests in the arenas of cancer biology, stem cell biology and microbial and viral pathogenesis are supported through required and elective coursework and laboratory activities. A Pathology PhD will afford the student the flexibility of tailoring a course of study towards specific research interests and goals, and prepare the student for a career in advanced academia or positions in industry.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (p. 2258) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate Program in Biomedical Sciences website http://www.kumc.edu/igpbs/how-to-apply.html.

Admission requirements:

- Bachelor’s degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least a 3.0 on a 4.0 scale for the bachelor’s degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%2016-Oct.pdf).
- A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%2016-Oct.pdf) is required during the admission process; it may affect the student’s eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
- Three letters of recommendation.
- Prerequisite coursework:
  - One year of general chemistry
  - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  - One year of biological sciences
  - One semester of calculus
  - One semester of physics
- Research experience (beyond labs associated with lecture courses) is strongly suggested.
Degree requirements:

- Degree requirements are normally completed within 5 years of admission to the program although a maximum of 8 years is allowed.
- Cumulative grade-point average (GPA) of at least 3.0 for all KU graduate coursework.
- Successful completion of the University's Research Skills and Responsible Scholarship (http://www.kumc.edu/Documents/graduate%20studies/Res%20SKills%20and%20Respor%20Scholar%20Doctoral%2016-Oct.pdf) requirement prior to the semester the Oral Comprehensive Examination is scheduled.
- Successful completion of GSMD 857 Biographics, GSMD 852 Introduction to Biomedical Research I and GSMD 855 Introduction to Biomedical Research II (or equivalent) meets the Research Skills requirement.
- Successful completion of GSMD 856 Introduction to Research Ethics or Stowers Research Integrity course (or equivalent) meets the Responsible Scholarship requirement.
- Successful completion of the Residence Requirement (http://www.kumc.edu/Documents/graduate%20studies/Residence%20Requirement%20PhD%2016-Oct(0).pdf) prior to the semester the Oral Comprehensive Examination is scheduled. The requirement is met by enrollment in full-time status a minimum of two semesters.
- Participation in faculty advisory committee meetings starting after 12 months in the program. Meetings at six-month intervals are recommended and required every 12 months with greater frequency as the student nears his/her oral comprehensive examination and dissertation defense.
- Successful completion of the Oral Comprehensive Examination (http://www.kumc.edu/Documents/graduate%20studies/Comprehensive%20Oral%20Exam%20PhD%2016-Oct.pdf). The examination is expected to be undertaken after the student has completed all requisite and elective coursework and approximately half-way through the program (e.g., 30th month in a five-year program). The examination consists of both a written research proposal and oral presentation and is intended to delineate the student's current fund of knowledge, research skills and ability to progress to a terminal degree in the department. It may be undertaken only after the student's advisory committee has approved the research proposal and recommended examination. The student will then submit a final version of the written research proposal for approval to his or her mentor, oral comprehensive examination committee and director of Pathology's graduate program a minimum of three weeks in advance of the examination; only when the student has successfully completed this stage will the request for examination be submitted to Graduate Studies for approval to defend (must be at least two weeks in advance of the examination). Students are recognized as formal doctoral candidates after they have passed the comprehensive examination.
- Successful completion of the Post-Comprehensive Enrollment (http://www.kumc.edu/Documents/graduate%20studies/Post-Comp%20Enrollment%20PhD%2016-Oct.pdf) requirement.
- Enrollment in a minimum of one (1) credit hour of PATH 999 Doctoral Dissertation the semester the student will defend dissertation and graduate.
- Successful completion of the Final Oral Examination (http://www.kumc.edu/Documents/graduate%20studies/Final%20Oral%20Exam%20PhD%2016-Oct.pdf) (dissertation defense). The student will undertake this examination only after a preliminary draft and presentation of dissertation project has been successfully completed and accepted by the student's mentor and faculty advisory committee. A final draft is required to be submitted at least four weeks prior to defense and is to be presented to the student's mentor, dissertation defense committee and director of Pathology's graduate program. Only when the student has successfully completed this stage will the request for examination be submitted to Graduate Studies for consideration (must be at least three weeks in advance of the examination).
- Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS) (p. 2258) courses (or their equivalent):

- Successful publication in a peer-reviewed scientific journal before completion of the degree. The journal and its impact factor is subject to the approval of the student's mentor.

Students enrolled in the MD-PhD Physician Scientist Training Program should review the Degree Requirements (p. 2269) section of this catalog for that program.

Degree requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog of the year student entered the program. *Other years' catalogs.*

Final Oral Exam (dissertation defense) scheduled as early as this semester if approved by committee to defend and graduate. Continued enrollment required until graduate.

**Total Hours 24-128**
TECHNICAL STANDARDS AND REQUIREMENTS FOR GRADUATE PROGRAMS IN PATHOLOGY & LABORATORY MEDICINE

The PhD degree signifies that the holder is prepared for entry into research and/or teaching in postgraduate training and faculty positions. It follows that graduates must have the knowledge and skills to function in a broad variety of academic situations in the classroom and laboratory. Therefore all students admitted for graduate study must meet the following abilities and expectations.

1. Observation: The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.

2. Communication: A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.

3. Motor: Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to do laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. Intellectual-Conceptual, Integrative, and Quantitative Abilities: The abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. Behavioral and Social Attributes: A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student’s difficulties. At this review, the provisions for reasonable accommodation will be determined.

For further information, contact either Soumen Paul, PhD, Pathology & Laboratory Medicine Graduate Program Director, spaul2@kumc.edu, Phone: 913.588.7236 or Lauren Yonkey, Graduate Program Coordinator, (lyonkey@kumc.edu), Phone: 913.588.7192, Fax: 913.588.7073.

STUDENT POLICY ON INFECTIOUS DISEASE

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for academic program admission at the University of Kansas Medical Center. Determination of eligibility for admission in such cases will be made on an individual basis in consultation with the applicant’s physician, taking into consideration (among other factors), legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Graduate Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the Graduate Student Handbook (http://www.kumc.edu/student-handbook.html). Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

Department of Pharmacology, Toxicology, and Therapeutics

Pharmacology and Toxicology together form a discipline that examines the interactions of chemical substances with living systems. Pharmacology focuses on the properties of drugs, including their sites of action, processing by the human body, and therapeutic uses. Toxicology studies the adverse effects of chemicals such as environmental agents and synthetic compounds, including drugs and their metabolites, and the means to prevent or treat their effects. Because the study of chemicals requires an intimate knowledge of the biological systems affected, Pharmacology and Toxicology are by necessity an integrative discipline that studies the effects of chemicals at the molecular, cellular, organ, organismal, and population levels.

Faculty members in the Department of Pharmacology, Toxicology & Therapeutics at KUMC have diverse research interests. These research topics are essential for developing new drugs and are fundamental to determining the safety of all chemicals. Thus, our students obtain a broad educational background that prepares them for a career in research and scholarly work in a variety of settings, including academia, the pharmaceutical or biotechnology industries, or governmental agencies. Our department faculty has an excellent record of training students, and our graduates have become scientific leaders in academia, government, and industry.

During the last five years, the Department faculty has undergone major changes with the addition of several tenure-track and research-track faculty, with a major focus in liver pathobiology and toxicology. This was facilitated in part by a Center of Biomedical Research Excellence (COBRE) grant from the National Institutes of Health, and has been accompanied by major new equipment purchases. The Department is been housed in state-of-the-art research space in the Hemmenway Life Science Innovation Center. These resources provide an exciting environment that fosters personal and professional development in an
atmosphere with ample opportunities for independent scholarship and strong collaborative activities.

Research opportunities are available for graduate students in the laboratories of faculty members throughout the department. Pharmacology faculty members have research interests in molecular and cellular neuropharmacology, neurotrauma, and the role of hormones and diet constituents on brain function. In addition, department faculty members study pharmacokinetics of drugs (absorption, distribution, biotransformation and excretion) and the biology and functional significance of drug transporters such as organic anion transporting polypeptides (OATPs), organic cation transporters (OCTs), and ATP binding cassette transporters. Our faculty members’ research interests in Toxicology include the toxicity of environmental chemicals, mechanisms of drug- and chemical-induced hepatotoxicity (necrosis, apoptosis, autophagy, inflammation, fibrosis) and liver regeneration. Furthermore, they study the pathogenesis of hepatocellular carcinoma, alcoholic hepatitis, steatohepatitis and cholestatic liver disease, and the role of nuclear receptors in these disease processes. Likewise, in Therapeutics, faculty members use metabolomics approaches to study herbal medicines’ ability to cause drug interactions with prescribed drugs. In addition, studies are being performed to understand which drugs enter the liver by specific transporters, and how genetics determine why the response to drugs can vary between individual patients (pharmacogenomics).

Courses

PHCL 761. General Principles of Pharmacology. 1 Hour.
General principles of pharmacology, including pharmacokinetics, pharmacodynamics, adverse effects, pharmacotherapeutics plus miscellaneous agents (antacids, cathartics, biologicals). Open to advanced B.S. students and graduate students in Nursing, Allied Health, and other health related programs. Independent study program with use of computer assisted instruction, textbooks, syllabi, consultation with staff and exams as primary teaching instruments. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an Incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 762. Pharmacology of the Autonomic Nervous System. 1 Hour.
General principles of the autonomic nervous system, cholinergics, muscarinics, nicotinics, neuromuscular blockers, beta adrenergics, alpha adrenergics, and miscellaneous ANS agents. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 763. Cardiovascular-Renal Pharmacology. 1 Hour.
Antihypertensives, antiarrhythmics, vasodilators, cardiac glycosides, serotonin, histamine, polypeptides, diuretics, antilipidemics. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 764. Pharmacology of the Central Nervous System. 1 Hour.
General principles of the central nervous system, stimulants, hallucinogens, depressants (hypnotics and sedatives), general and local anesthesia, antiparkinson agents, tranquilizers, analgesics and anticonvulsants. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an Incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 765. Chemotherapy. 1 Hour.
Principles of chemotherapy, sulfonamides, penicillins, aminoglycosides, anticancer and antifungal agents, antimalarials, broad spectrum antibiotics, antiparasitic agents, and antiseptics. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an Incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 766. Blood-Endocrine Pharmacology. 1 Hour.
General principles of endocrine function and use, thyroid drugs, insulin, sex hormones, oxytocics, adrenal steroids, antiinflammatory agents, blood drugs, anticoagulants and vitamins. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an Incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 767. Toxicology. 1 Hour.
General principles of toxicology, clinical toxicology, solvents, metals, gases and dusts, corrosives, plant and animal toxins, pesticides, radiation, miscellaneous. Students are encouraged to complete this course the semester they enroll. If this course is not completed, students will receive an Incomplete grade. Prerequisite: PHCL 761 and an Enrollment Permission Form must be signed by the student and the instructor. In addition, the enrollment card must be stamped by the instructor. LEC.

PHCL 809. Seminar in Pharmacology. 1 Hour.
Weekly meetings. LEC.

PHCL 846. Advanced Neuroscience. 5 Hours.
Team-taught, in-depth neuroscience course focusing on normal and diseased brain function at the molecular, cellular and systems levels. Lectures and discussions will emphasize current issues in neuroscience research. (Same as ANAT 846, PHSL 846, NURO 846 and NEUS 846.) Prerequisite: Permission of the course director. LEC.

PHCL 848. Molecular Mechanisms of Neurological Disorders. 3 Hours.
An in-depth coverage of pathogenic mechanisms in neurological diseases; cellular and molecular responses to brain injury and disease, neuroinflammatory diseases (e.g., multiple sclerosis), neurodegenerative diseases (e.g., Alzheimer’s, Parkinson’s, Huntington’s, amyotrophic lateral sclerosis, and prion diseases), neurogenetic diseases (e.g., lysosomal and peroxisomal disorders, Down’s syndrome and fragile X), trauma, stroke, and viral diseases (e.g., HIV encephalitis). (Same as ANAT 848, NURO 848, PHSL 848, and NEUS 848.) Prerequisite: Advanced Neuroscience (ANAT 846, PHCL 846 or PHSL 846) or an equivalent course and consent of instructor. LEC.

PHCL 875. Mitochondrial Biology (Form and function), Bioenergetics and Metabolism in human disease. 3 Hours.
This course is designed to explore mitochondrial physiology from perspectives of research, diagnostics, and clinic, from molecule, to man, to population. The course is an interactive program which goes beyond the textbook to actively engage the learner in current state-of-the-art laboratory and clinical practice. Starting from a basic introduction to cellular bioenergetics, the course focuses on the mitochondrial oxidative
phosphorylation system, plasticity of mitochondrial structure/microscopy, mtDNA genetics, maintenance and gene expression, biogenesis of the oxphos system, protein dynamics, and drug development. The diagnostic sessions will highlight existing and novel genetic and biochemical diagnostic approaches with a special focus on the development of biomarkers for disease. During the clinical sessions the learner will be introduced to the clinical presentation of mitochondrial disorders, the personal perspective of the patient, anamnesis, clinical guidelines, case reports, treatment options, trials, and the development of outcome measures. As part of the course participants are expected to develop a translational mini-project in pairs of which the results are presented on the final course day. Prerequisite: Successful completion of the Interdisciplinary Program in Biomedical Sciences or permission of the Instructor. LEC.

PHCL 880. Essentials of Pharmacology. 4 Hours.
Introduction to Pharmacology for Graduate Students. Autonomic, Cardiovascular and Renal, Endocrine, Neuro, Antivirals Pharmacology. Autacoids; Workshop; Historical and Contemporary Methods used to Elucidate Mechanisms of Drug Action. Prerequisite: Successful completion of the Interdisciplinary Program in Biomedical Sciences or permission of the Instructor. LEC.

PHCL 890. Research in Pharmacology. 1-10 Hours.
For graduate students beginning their research training. RSH.

PHCL 898. Principles of Pharmacology. 1 Hour.
Chemical fundamentals in structure, actions and metabolism of drugs and toxicants. Included are molecular features of drugs and toxicants, stereoisomerism, receptor theory, dose-response relationships, agonists and antagonists, absorption, pharmacokinetics and structure-activity relationships. LEC.

PHCL 899. Thesis in Pharmacology. 1-10 Hours.
For students in a master's program in pharmacology. THE.

PHCL 924. Clinical Pharmacology. 5 Hours.
Designed to give practical and theoretical experience with drug trials in humans. Includes animal experimentation when warranted. Clinical principles of drug therapy will be emphasized. IND.

PHCL 939. Carcinogenesis and Cancer Biology. 3 Hours.
Multidisciplinary approach. Cancer pathology. Mutagenesis, Genetics, Carcinogen metabolism. Signal Transduction, Apoptosis, Initiation and promotion. Tumor Immunology. Cell proliferation. Protooncogenes and suppressor genes. Hormonal carcinogenesis. Cancer epidemiology. Dietary and environmental causation and prevention. Cancer in various organ systems. (Same as PATH 939 and PTOX 939.) Prerequisite: Completion of one of the following: IGPBS modules 1-4 or equivalent or permission of instructor. LEC.

PHCL 990. Research for Dissertation in Pharmacology. 1-10 Hours.
Prerequisite: PHCL 890. RSH.

PHCL 999. Dissertation in Pharmacology. 1-10 Hours.
Prerequisite: Open to students of advanced standing enrolled in the doctoral program in Pharmacology. THE.

Courses

PHRM 910. Research in Pharmacology. 4 Hours.
Selected research problems may be investigated under the direction of individual staff members. A description of current staff research projects is available from the department. Offered in modules I-XII. Prerequisite: Permission of department. IND.

PHRM 911. Readings in Pharmacology. 2-10 Hours.
Selected topics for reading in advanced texts and original papers in pharmacology. A paper and Journal Club presentation of the selected topic are required. Offered in modules I-XII. Prerequisite: Permission of department. IND.

PHRM 914. Advanced Pharmacology. 4 Hours.
Consultant rounds, poison control, immunopharmacology, and environmental health. Offered in modules II and III. Prerequisite: Consent of instructor. FLD.

Courses

PTOX 830. Introduction to Clinical and Translational Cancer Research. 3 Hours.
Instruct students in developmental steps used in translating a basic science experiment with clinical applications into a proof of concept application and human trial. Multidisciplinary approach; lectures from faculty in Pharmacology, KU Cancer Ctr, KUMCRI. Curriculum: Levels of evidence-clinical impact, Pre-Clinical modeling, In-Vitro studies Animal models, Cancer Drug Development-pharmacokinetics toxicity, Pre-Clinical Proof of Concept FDA, Creating a Pilot Study, Biostatistics 101, Phases of Clinical Trials, Data Collection, Support Staff, Regulatory and DSMBs, IRB and HIPPA, Funding Study: Grants Parma, Advertising study meeting accrual goals, Goals of Phase I study, Goals Objectives of Phase II Efficacy study, Phase 3 Multicenter Study: Value of Numbers Utilizing Cooperative Groups. Prerequisite: Completion of first 2 years of Med School or graduate school, or enrollment in MD/PhD program. Students not meeting one of these criteria will require permission from course instructor. LEC.

PTOX 887. Toxicologic Pathology. 4 Hours.
Introductory pathology course for graduate students preparing for a career in basic toxicology research. Topics to be presented and discussed include: cell injury, inflammation, repair and regeneration, immunopathology, neoplasia, tumor pathology, respiratory pathology, liver pathology, neuropathology, miscellaneous organ pathology, and lab animal clinical chemistry. LEC.

PTOX 889. Research in Toxicology. 1-10 Hours.
Introductory pathology course for planning on being research toxicologists. Topics to be presented and discussed: cell injury, inflammation, repair and regeneration, immunopath, neoplasia, tumor pathology, respiratory pathology, liver pathology, neuropathology, miscellaneous organ pathology, and lab animal clinical chemistry. LEC.

PTOX 898. Principles of Toxicology. 1 Hour.
Chemical fundamentals in structure, actions and metabolism of toxicants and drugs. Included are molecular features of toxicants and drugs, stereoisomerism, receptor theory, dose-response relationships, agonists and antagonists, absorption, pharmacokinetics, and structure-activity relationships. LEC.

PTOX 899. Thesis in Toxicology. 1-10 Hours.
For students in a master's program in toxicology. THE.

PTOX 917. Disposition of Xenobiotics. 2 Hours.
Principles of absorption, biotransformation, and excretion of xenobiotics. Prerequisite: PHCL 888 or departmental permission. LEC.

PTOX 918. Toxicology. 4 Hours.
Selected topics in environmental, forensic, and industrial toxicology. LEC.

PTOX 939. Carcinogenesis and Cancer Biology. 3 Hours.
suppressor genes. Hormonal carcinogenesis. Cancer epidemiology. Angiogenesis. Dietary and environmental causation and prevention. Cancer in various organ systems. (Same as PATH 939 and PHCL 939.) Prerequisite: Completion of one of the following: IGPBS modules 1-4 or equivalent or permission of instructor. LEC.

PTOX 940. Techniques in Industrial Toxicology. 2 Hours.
A unique course where students are exposed to and have practical experience in techniques used for risk-assessment of chemicals. The course is taught with extensive input by industrial toxicologists who use these techniques on a daily basis. This course is offered at a local industrial setting. Prerequisite: PHCL 888; PTOX 917, PTOX 918, and PTOX 938, or departmental permission. LEC.

PTOX 990. Research for Dissertation in Toxicology. 1-10 Hours.
Prerequisite: PTOX 889. RSH.

PTOX 999. Dissertation in Toxicology. 1-10 Hours.
Prerequisite: Open to students of advanced standing enrolled in the doctoral program in toxicology. THE.

Master of Science in Pharmacology

Pharmacology and Toxicology both require an understanding of basic properties and actions of chemicals and the biological systems they affect. Pharmacology though, focuses more on the therapeutic actions of chemicals (particularly drugs) in the health sciences, the use of drugs as therapeutic agents in medicine or as tools in scientific research, and the development and regulation of pharmaceuticals. Pharmacologists perform many different duties including research and teaching in academic, nonprofit and industrial settings, and in consulting and public service.

The Master of Science (M.S.) in Pharmacology degree program provides an academic experience that emphasizes research skills and prepares students for a range of careers in varied employment settings or more advanced academic study. The M.S. curriculum provides a foundation of core concepts and skills through required coursework, but allows considerable flexibility for individualization through advanced electives and mentorship experiences.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Biomedical Sciences (IGPBS). A unique course where students are exposed to and have practical experience in techniques used for risk-assessment of chemicals. The course is taught with extensive input by industrial toxicologists who use these techniques on a daily basis. This course is offered at a local industrial setting. Prerequisite: PHCL 888; PTOX 917, PTOX 918, and PTOX 938, or departmental permission. LEC.

Admission requirements:

- Bachelor’s degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least a 3.0 on a 4.0 scale for the bachelor’s degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Engl%20Prof%2016-Oct.pdf).
- A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%2016-Oct.pdf) is required during the admission process; it may affect the student’s eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
- Three letters of reference.
- Prerequisite coursework:
  - One year of general chemistry
  - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  - One year of biological sciences
  - One semester of calculus
  - One semester of physics
- Research experience (beyond labs associated with lecture courses) is strongly suggested.
- Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant’s admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years’ catalogs.

Degree Requirements:

- Degree requirements are normally completed within 3 years of admission to the degree program although a maximum of 7 years is allowed.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.
- Completion of a minimum of 30 credit hours.
- Enrollment in a minimum of one (1) credit hour the semester the student will graduate.
- Successful completion of either a thesis defense or general examination (http://www.kumc.edu/Documents/graduate%20studies/Masters%20Exam-Defense%2016-Oct.pdf) the semester the student will graduate.
- If thesis option chosen, then enrollment in a minimum of one (1) credit hour of PHCL 899 Thesis in Pharmacology and successful thesis submission and publication (http://www.kumc.edu/Documents/graduate%20studies/Thesis%20Submit%20and%20Pub%2016-Oct.pdf) (according to Office of Graduate Studies policy.)
- Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS) (p. 2258) courses (or their equivalent):

**Technical Standards and Requirements for Graduate Studies in the Department of Pharmacology, Toxicology and Therapeutics**

The M.S. degree signifies that the holder is prepared for entry into research in industrial or academic laboratory settings. To that end, graduates must have the knowledge and skills to function in a broad variety of laboratory settings. Therefore, all students admitted for graduate studies in Pharmacology and Toxicology must meet the following abilities and expectations.

1. **Observation**: The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.

2. **Communication**: A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.

3. **Motor**: Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to perform laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. **Intellectual-Conceptual, Integrative, and Quantitative Abilities**: These abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. **Behavioral and Social Attributes**: A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student’s difficulties. At this review, the provisions for reasonable accommodation will be determined.

For further information, contact The Department of Pharmacology, Toxicology and Therapeutics, University of Kansas School of Medicine, MS 1018, 3901 Rainbow Blvd., Kansas City, Kansas 66160; Phone:
**Admission requirements:**

- Bachelor’s degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor’s degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%202016-Oct.pdf).
- A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf) is required during the admission process; it may affect the student's eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
- Three letters of recommendation.
- Prerequisite coursework:
  - One year of general chemistry
  - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  - One year of biological sciences
  - One semester of calculus
  - One semester of physics
- Research experience (beyond labs associated with lecture courses) is strongly suggested.
- Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant's admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years’ catalogs—.

TECHNICAL STANDARDS AND REQUIREMENTS FOR GRADUATE STUDIES IN THE DEPARTMENT OF PHARMACOLOGY, TOXICOLOGY AND THERAPEUTICS

The M.S. degree signifies that the holder is prepared for entry into research in industrial or academic laboratory settings. To that end, graduates must have the knowledge and skills to function in a broad variety of laboratory settings. Therefore, all students admitted for graduate studies in Pharmacology and Toxicology must meet the following abilities and expectations.

1. Observation: The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.

2. Communication: A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.

3. Motor: Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to perform laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. Intellectual-Conceptual, Integrative, and Quantitative Abilities: These abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate...
should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. **Behavioral and Social Attributes:** A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student’s difficulties. At this review, the provisions for reasonable accommodation will be determined.

For further information, contact The Department of Pharmacology, Toxicology and Therapeutics, University of Kansas School of Medicine, MS 1018, 3901 Rainbow Blvd., Kansas City, Kansas 66160; Phone: (913) 588-0028 E-mail: bhagenbuch@kumc.edu or (913) 588-7519 kmccarso@kumc.edu

**STUDENT POLICY ON INFECTIOUS DISEASE**

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for admission to academic programs at the University of Kansas Medical Center. In such cases, the determination of eligibility for admission will be made on an individual basis in consultation with the applicant’s physician; the decision will take a number of factors into consideration, including the legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must advise the Graduate Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

**DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS**

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the [Graduate Student Handbook](http://www.kumc.edu/Documents/graduate). Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

**Doctor of Philosophy in Pharmacology**

Pharmacology and Toxicology both require an understanding of basic properties and actions of chemicals and the biological systems they affect. Pharmacology though, focuses more on the therapeutic actions of chemicals (particularly drugs) in the health sciences, the use of drugs as therapeutic agents in medicine or as tools in scientific research, and the development and regulation of pharmaceuticals. Pharmacologists perform many different duties including research and teaching in academic, nonprofit and industrial settings, and in consulting and public service.

The Doctor of Philosophy (Ph.D.) in Pharmacology degree program prepares students for careers as independent scientists in academia, industry, or government through a broad-based curriculum and development of strong research design and communication skills. The Ph.D. didactic curriculum consists of a core of required discipline-based coursework, but is significantly individualized through advanced electives, seminars, extensive mentored research experiences, and consultation with the student’s selected advisory committee.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (p. 2258) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate Program in Biomedical Sciences website [http://www.kumc.edu/igpbs/how-to-apply.html](http://www.kumc.edu/igpbs/how-to-apply.html).

**Admission requirements:**

- Bachelor’s degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least 3.0 on a 4.0 scale for the bachelor’s degree.
- A background check [http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf](http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf) is required during the admission process; it may affect the student’s eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.
- Three letters of recommendation.
- Prerequisite coursework:
  - One year of general chemistry
  - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  - One year of biological sciences
  - One semester of calculus
  - One semester of physics
- Research experience (beyond labs associated with lecture courses) is strongly suggested.
- Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant’s admission for one year after which time the applicant must submit a new application.
Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years’ catalogs.

The program consists of coursework, research experience, and the successful completion of a doctoral dissertation. Dissertation research culminates in a final dissertation examination consisting of an oral presentation by the candidate and an examination by the faculty. Relevant prior graduate work is taken into consideration in setting up individual programs of study leading to the Ph.D.

**Degree requirements:**

- Degree requirements are normally completed within 6 years of admission to the program although a maximum of 8 years is allowed.
- Cumulative grade-point average (GPA) of at least 3.0 for all KU graduate coursework.
- Successful completion of the University’s Research Skills and Responsible Scholarship (http://www.kumc.edu/Documents/graduate%20studies/Res%20SKills%20and%20Respon%20Scholar%20Doctoral%2016-Oct.pdf) requirement prior to the semester the Oral Comprehensive Examination is scheduled.
  - Successful completion of GSMC 857 Biographics, GSMC 852 Introduction to Biomedical Research I and GSMC 855 Introduction to Biomedical Research II (or equivalent) meets the Research Skills requirement.
  - Successful completion of GSMC 856 Introduction to Research Ethics (or equivalent) meets the Responsible Scholarship requirement.
  - Successful completion of the Residence Requirement (http://www.kumc.edu/Documents/graduate%20studies/Residence%20Requirement%20PhD%2016-Oct(0).pdf) prior to the semester the Oral Comprehensive Examination is scheduled. The requirement is met by enrollment in full-time status a minimum of two semesters.
  - Successful completion of the Oral Comprehensive Examination (http://www.kumc.edu/Documents/graduate%20studies/Comprehensive%20Oral%20Exam%20PhD%2016-Oct.pdf). Students are recognized as formal doctoral candidates after they have passed the comprehensive examination.
  - Successful completion of the Post-Comprehensive Enrollment (http://www.kumc.edu/Documents/graduate%20studies/Post-Comp%20Enrollment%20PhD%2016-Oct.pdf) requirement.
  - Enrollment in a minimum of one (1) credit hour of PHCL 999 Dissertation in Pharmacology the semester the student will defend dissertation and graduate.
  - Successful completion of the following Interdisciplinary Graduate Program in Biomedical Science (IGPBS) (p. 2258) courses (or their equivalent):

## TECHNICAL STANDARDS AND REQUIREMENTS FOR GRADUATE STUDIES IN THE DEPARTMENT OF PHARMACOLOGY, TOXICOLOGY AND THERAPEUTICS

The Ph.D. degree signifies that the holder is prepared for entry into research and/or teaching in postgraduate training and faculty positions. As a consequence, graduates must have the knowledge and skills to function in a broad variety of academic situations in the classroom and laboratory.

Therefore, all students admitted for graduate studies in Pharmacology and Toxicology must meet the following abilities and expectations.

1. **Observation:** The candidate must be able to observe demonstrations and experiences in the basic sciences, including but not limited to biology demonstrations in animals, cultures, and microscopic studies of tissues in normal and pathologic states. A candidate must be able to observe and analyze experimental detail. Observation necessitates the functional use of the sense of vision and somatic sensation.

2. **Communication:** A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.

3. **Motor:** Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to perform laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.

4. **Intellectual-Conceptual, Integrative, and Quantitative Abilities:** These abilities include measurement, calculation, reasoning, analysis, and synthesis. Problem solving, the critical skill demanded of scientists, requires all of these intellectual abilities. In addition, the candidate should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures.

5. **Behavioral and Social Attributes:** A candidate must possess the emotional health required for full utilization of his/her intellectual abilities, the exercise of good judgment and the prompt completion of all responsibilities attendant to the completion of research and teaching responsibilities. Integrity and motivation are personal qualities, which are required for success in science.

Disabled individuals are encouraged to apply. Applicants whose response indicates that they cannot meet the expectations will be reviewed by the Graduate Committee and Technical Support staff of KUMC to assess the extent of the student’s difficulties. At this review, the provisions for reasonable accommodation will be determined.

For further information, contact The Department of Pharmacology, Toxicology and Therapeutics, University of Kansas School of Medicine, MS 1018, 3901 Rainbow Blvd., Kansas City, Kansas 66160; Phone: (913) 588-0028 E-mail: bhagenbuch@kumc.edu or (913) 588-7519 kmccarso@kumc.edu

### STUDENT POLICY ON INFECTIOUS DISEASE

Due to the need to assure the health and safety of students, faculty, and staff, the fact that an applicant for admission has an infectious disease or is the carrier of an infectious disease may be a factor in determining eligibility for admission to academic programs at the University of Kansas Medical Center. In such cases, the determination of eligibility for admission will be made on an individual basis in consultation with the applicant’s physician; the decision will take a number of factors into consideration, including the legal requirements and the current best medical information available to determine whether the applicant could complete the normal course of study with reasonable accommodation and without risk to him/herself or to others. Therefore, applicants having an infectious disease or who are carriers of an infectious disease must

### Full PDF 2021-2022
advise the Graduate Committee of this fact and may be required to provide medical records for review by the Student Health Physician in order to determine eligibility for admission.

DRUG FREE WORKPLACE POLICY OF THE UNIVERSITY OF KANSAS

It is the policy of the University of Kansas that unlawful manufacture, distribution, dispensing, possession, or use of controlled substances or alcohol is prohibited in buildings, facilities, or grounds controlled by the University. Any student found to be illegally manufacturing, distributing, dispensing, possessing, or using controlled substances or alcohol at the University or any of its affiliated educational sites, shall be subject to disciplinary action in accordance with applicable policies as outlined in the Graduate Student Handbook. Students are reminded that illegal manufacture, distribution, dispensing, possession, or use of controlled substances may also subject individuals to criminal prosecution.

Doctor of Philosophy in Toxicology

Pharmacology and Toxicology both require an understanding of basic properties and actions of chemicals and the biological systems they affect. Toxicology is, more specifically, the study of adverse effects of chemicals on living systems, the extent of damage they produce, the relationship between dose and effect, routes of exposure, and potential treatments. Toxicologists not only identify toxins, but also contribute to risk assessment, safety evaluation, and establishment of legal regulations. Toxicologists perform many different duties including research in academic, nonprofit and industrial settings, and in consulting and public service.

The Doctor of Philosophy (Ph.D.) in Toxicology degree program prepares students for careers as independent scientists in academia, industry, or government through a broad-based curriculum and development of strong research design and communication skills. The Ph.D. didactic curriculum consists of a core of required discipline-based coursework, but is significantly individualized through advanced electives, seminars, extensive mentored research experiences, and consultation with the student’s selected advisory committee.

The application process is an online process. Application to this graduate program is facilitated through the Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS). (p. 2258) Detailed instructions on how to apply and the application deadlines are posted on the Interdisciplinary Graduate Program in Biomedical Sciences website http://www.kumc.edu/igpbs/how-to-apply.html.

Admission requirements:

- Bachelor’s degree from a regionally accredited institution documented by submission of official transcript indicating the degree has been conferred before entering the program. Official transcripts from institutions attended post-baccalaureate are also required. Students with degrees from outside the U.S. may be subject to transcript evaluation indicating the degree is equivalent to a U.S. degree and meets the minimum cumulative GPA requirements.
- A cumulative grade-point average (GPA) of at least a 3.0 on a 4.0 scale for the bachelor’s degree.
- Applicants who are not native speakers of English, whether domestic or international, must demonstrate they meet the Minimum English Proficiency Requirement (http://www.kumc.edu/Documents/graduate%20studies/Min%20Eng%20Prof%202016-Oct.pdf).
- A background check (http://www.kumc.edu/Documents/graduate%20studies/Background%20Check%202016-Oct.pdf) is required during the admission process; it may affect the student’s eligibility to enter the program.
- An official copy of the Graduate Record Examination (GRE) score sent from Educational Testing Service (ETS) to University of Kansas Medical Center - ETS institutional code 6895 - GRE Scores NOT APPLICABLE TO THE IGPBS.

- Three letters of recommendation.
- Prerequisite coursework:
  - One year of general chemistry
  - One year of organic chemistry or one semester of organic chemistry and one semester of biochemistry
  - One year of biological sciences
  - One semester of calculus
  - One semester of physics
- Research experience (beyond labs associated with lecture courses) is strongly suggested.
- Interview - the most qualified applicants will receive an invitation for an interview.

Applicants will be assessed based on a combination of GPA, research experience, and interview. After an applicant has been admitted, a program may defer an applicant’s admission for one year after which time the applicant must submit a new application.

Admission requirements are subject to change. In most cases, use the catalog of the year student entered the program. Other years’ catalogs are:

The program consists of coursework, research experience, and the successful completion of a doctoral dissertation. Dissertation research culminates in a final dissertation examination consisting of an oral presentation by the candidate and an examination by the faculty. Relevant prior graduate work is taken into consideration in setting up individual programs of study leading to the Ph.D.

Degree requirements:

- Degree requirements are normally completed within 6 years of admission to the program although a maximum of 8 years is allowed.
- Cumulative grade-point average (GPA) of at least a 3.0 for all KU graduate coursework.
- Successful completion of the University’s Research Skills and Responsible Scholarship (http://www.kumc.edu/Documents/graduate%20studies/Res%20Skills%20and%20Respon%20Scholar%20Doctoral%202016-Oct.pdf) requirement prior to the semester the Oral Comprehensive Examination is scheduled.
- Successful completion of GSMC 857 Biographics, GSMC 852 Introduction to Biomedical Research I and GSMC 855 Introduction to Biomedical Research II (or equivalent) meets the Research Skills requirement.
- Successful completion of GSMC 856 Introduction to Research Ethics (or equivalent) meets the Responsible Scholarship requirement.
- Successful completion of the Residence Requirement (http://www.kumc.edu/Documents/graduate%20studies/Residence%2020Requirement%20PhD%202016-Oct(0).pdf) prior to the semester the Oral Comprehensive Examination is scheduled. The requirement is met by enrollment in full-time status a minimum of two semesters.
• Successful completion of the Oral Comprehensive Examination (http://www.kumc.edu/Documents/graduate%20studies/Comprehensive%20Oral%20Exam%20PhD%2016-Oct.pdf). Students are recognized as formal doctoral candidates after they have passed the comprehensive examination.

• Successful completion of the Post-Comprehensive Enrollment (http://www.kumc.edu/Documents/graduate%20studies/Post-Comp%20Enrollment%20PhD%2016-Oct.pdf) requirement.

• Enrollment in a minimum of one (1) credit hour of PSTOX 999 Dissertation in Toxicology the semester the student will defend dissertation and graduate.

• Successful completion of the Final Oral Examination (http://www.kumc.edu/Documents/graduate%20studies/Final%20Oral%20Exam%20PhD%2016-Oct.pdf) (dissertation defense.)

• Successful completion of the following Toxicology courses:

• Successful completion of a minimum of two elective courses that are at least two (2) credit hours each in consultation with the student's advisor and dissertation committee. Additional elective coursework may be taken as determined in consultation with the student's advisor.

Students enrolled in the MD-PhD Physician Scientist Training Program should review the Degree Requirements (p. 2269) section of this catalog for that program.

Degree requirements and course descriptions are subject to change. Any courses taken as an equivalent must be approved by the Graduate Director and the Office of Graduate Studies. In most cases, use the catalog of the year student entered the program. Other years' catalogs ».

Oral Comprehensive Exam scheduled as early as this semester if approved by committee to proceed.
Toxicology must meet the following abilities and expectations. Therefore, all students admitted for graduate studies in Pharmacology and a consequence, graduates must have the knowledge and skills to function research and/or teaching in postgraduate training and faculty positions. As the Ph.D. degree signifies that the holder is prepared for entry into TOXICOLOGY AND THERAPEUTICS

STUDIES IN THE DEPARTMENT OF PHARMACOLOGY,

A candidate must possess the Motor:
Observation:
Communication:
These Behavioral and Social Attributes:
A candidate should be able to communicate, to candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to perform laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.
2. Communication: A candidate should be able to communicate, to understand, and to observe lectures and laboratory instruction. A candidate must be able to communicate effectively in order to present and analyze research data. Communication includes not only speech, but also reading and writing. The candidate must be able to communicate effectively and efficiently in oral and written form with students, staff, and faculty.
3. Motor: Candidates should have sufficient motor function to carry out lab techniques. A candidate should be physically able to perform laboratory procedures and analyze data. Such actions require coordination of both gross and fine muscular movements, equilibrium, and functional use of the senses of touch and vision.
