

# Bachelor of Science in Project Management

KU's online Bachelor of Science in Project Management is a degree-completion program that provides those hoping to enter project management professions the opportunity to strengthen their background in content related to their anticipated profession. In these programs, you will learn how theory and practice work together to solve real-world problems in a variety of fields.

According to the Project Management Institute (PMI), organizations and companies across sectors and geographic borders steadily embrace project management. As a growing profession, project management is on track to gain nearly 2.2 million new jobs globally each year through 2027.

Driven by globalization, evolving technology and rapid automation of work processes, all types of organizations are placing growing emphasis on project-based planning, development and even operations, to gain a competitive advantage.

As you pursue your project management bachelor's degree online with KU, you will be able to partner the project management foundation with additional areas of interest to tailor your education to your desired career path such as:

- Information technology management
- Construction management
- Healthcare management
- Advertising and marketing
- Public administration

## Undergraduate Admission

### Admission to KU

Consult the Office of Admissions (<http://admissions.ku.edu/>) for application deadlines and specific admission requirements.

Visit the International Support Services (<http://www.iss.ku.edu/>) for information about international admissions.

Students considering transferring to KU may see how their college-level course work will transfer on the Office of Admissions (<http://credittransfer.ku.edu/>) website.
