

# Minor in Project Management

---

KU's online Minor in Project Management provides KU undergraduate students with the opportunity to gain valuable knowledge to properly manage projects, from the very small to those spread over multiple years. The Minor requires completion of 18 credit hours from the undergraduate Project Management curriculum, where you will learn how theory and practice work together to solve real-world problems in a variety of fields. According to the Project Management Institute (PMI), organizations and companies across sectors and geographic borders steadily embrace project management. As a growing profession, project management is on track to gain nearly 2.2 million new jobs globally annually through 2027. The Minor in Project Management provides KU students with the opportunity to learn the project management skills needed to manage projects in their chosen discipline.
