

Dual Master of Urban Planning and Master of Arts in American Studies

This program combines the two-year Master of Urban Planning degree and the two-year Master of Arts degree in American Studies into a two and half year program. This program is designed for students interested in careers in policy planning and research involving the arts, social planning, cultural activities and facilities, and historic preservation.

Admission to Graduate Studies

Admission Requirements

- All applicants must meet the requirements outlined in the Admission to Graduate Study (<https://policy.ku.edu/graduate-studies/admission-to-graduate-study/>) policy.
- Bachelor's degree: A copy of official transcripts showing proof of a bachelor's degree (and any post-bachelor's coursework or degrees) from a regionally accredited institution, or a foreign university with equivalent bachelor's degree requirements is required.
- English proficiency: Proof of English proficiency (<https://gradapply.ku.edu/english-requirements/>) for non-native or non-native-like English speakers is required. There are two bands of English proficiency, including Admission and Full proficiency. For applicants to online programs, Full proficiency is required.

Admission to the Dual M.A./M.U.P.

Students seeking admission to the dual degree must meet the admission requirements for both programs. Please see the American Studies (<https://americanstudies.ku.edu/admission/>) and Urban Planning (<https://spaa.ku.edu/master-urban-planning-admissions/>) websites for their respective admission requirements.

Eligibility criteria for admission follow Graduate Studies' admission policy (<https://policy.ku.edu/graduate-studies/admission-to-graduate-study/>). To be considered for admission, a student must hold a bachelor's degree.

While completing the following degree requirements, graduate students are expected to understand and follow Office Graduate Studies policies (<https://policy.ku.edu/office/Graduate-Studies/>) relevant to their student status and academic standing.

American Studies M.A. Program of Study 9

The student, in consultation with their faculty advisor, creates a unique program of study comprised of 3 graduate-level courses based on their research and professional interests. The courses will include historical depth in a defined area, which prepares the student for their M.A. portfolio and defense. These can be AMS or non-AMS classes.

Portfolio Hours 3

After completing the AMS required courses, the student enrolls in AMS 898 with their faculty advisor to prepare the M.A. portfolio.

Total Hours 60**M.U.P. Electives**

Elective coursework can take various forms, but the Urban Planning Program recommends completing 9 credit hours in a substantive topic areas housing and development, transportation, sustainable land use, or multidisciplinary planning and then one additional elective. Any School of Public Affairs & Administration (SPAA) class can be taken as an elective. UBPL 767 Creative Placemaking and UBPL 730 City and County Planning are strongly suggested as electives because they are applied skills classes covering all of the topic areas. Students are encouraged to consult the Urban Planning Director when choosing elective courses for the best options to meet their research and career goals. Graduate level classes taken outside of SPAA require the Urban Planning Director's approval.

M.A. Portfolio and Oral Examination

Students prepare and submit to their committee a portfolio, which includes a research article of publishable quality, research and teaching statements, and a reflection on the graduate experience to date. The article is an original piece of research that should be written and formatted for submission to a scholarly, peer-reviewed journal relevant to the topic and approach of the research. The article does not have to be accepted for publication as a requirement of graduation.

An oral examination is required and consists of a presentation from the student and questions from the committee related to the portfolio materials. The final exam committee, chosen by the student, must have at least four members; at least two from the Urban Planning area and at least two from the American Studies area. A majority of the committee members must approve the defense with an assessment of Pass or Pass with Honors in order for the requirement to be met.

Course Level Requirement

Students pursuing a dual M.U.P. and M.A. in American Studies must take 50% or more of their coursework at the 700 level or above.

Graduate Policy

Students are encouraged to review Graduate Studies' policies (<https://ogs.ku.edu/policies/>) related to master's degrees for information about other requirements that may apply.

If a student decides to complete only the M.A. or M.U.P. and withdraw from the other program, they must complete all requirements for the stand-alone degree.

At the completion of this program, students will be able to:

- Critically apply theories, methodologies, and knowledge to address fundamental questions in primary area of study.
- Participate in an interdisciplinary scholarly community.
- Follow ethical guidelines for work in the discipline.
- Become effective teachers. The successful student will understand how to design learning experiences to maximize student learning and how to connect course design explicitly to desired outcomes. The student will develop a sense of teaching purpose informed by transformative pedagogies that problematize social reality and knowledge.
- Produce a valuable contribution to the field.
- Understand the evolution and current practice of planning in communities, cities, regions, and nations; how planning has advanced and hindered the attainment of justice, equity, diversity, and inclusion; past and present conceptions of the future, including the relationship between planning and the future. (Planning History)
- Understand the expectations about planning outcomes in different local and national contexts; conceptual models about what planning is and how it works; the role of planning in responding to the global climate crisis. (Planning Theory)
- Understand the behaviors and structures available to bring about sound planning outcomes; mechanisms and practices for ensuring equitable and inclusive decision-making; legal and institutional contexts within which planning occurs in the U.S. and/or internationally. (Planning Law & Institutions)
- Understand the political, economic, social, and environmental explanations of and insights on historical, present, and future development; relationships between the built and natural environments and individual and community health and well-being; planning responses to mitigate climate change, reduce risks, and recover from climate-exacerbated impacts; interactions – flows of people, materials, ideas, and cultures – across world regions. (Urban & Regional Development)
- Understand the planning process and community and stakeholder engagement; plan creation and implementation; methods of design and intervention to understand and influence the future. (Planning Process & Engagement)
- Develop research and critical analysis skills for preparing and conducting research; quantitative and qualitative methods of data collection, analysis, and forecasting; methods of geo-spatial analysis, mapping and data visualization; data analytics and urban technology. (Analytical Skills & Tools)
- Work in teams and with professionals in allied fields; professional leadership in the planning context; written, oral, and graphic communication. (Professional, Communication, & Leadership Skills)
